Mount; Still More
Threats By Arab Na-
tionsJerusalem, Dec. 3.—(AP)—
Arabs and Jews fought with
guns, grenades, knives and fire
today in the no-man's land be-
tween Tel Aviv and Jaffa and
the number killed since dawn
yesterday in riots over the par-
tition of Palestine was unoffi-
cially reported increased to 20.Jerusalem was relatively quiet,
although smoke still rose from
fires kindled yesterday by Arabs
starting a three-day strike
throughout Palestine in protest
to the United Nations decision
to carve up the Holy Land.More threats to Palestine's Jews
came from Arab nations ringing the
little country. In Cairo teachers of
Al Iqbal University were attempt-
ing to organize demonstrations for
a with the announced pur-
suing the wolves from
Palestine.In the second day of a three-day
Arab protest strike against par-
tition, the government stamped an
around-the-clock curfew on the no-
man's land border region between
Jewish Tel Aviv and all-Arab
Jaffa. A curfew on Arab districts
of Jerusalem was continued another
24 hours.Thousands of Jews and Arabs fled
from trouble areas of Jerusalem as
Jewish sources predicted a rising
tempo of violence.In New York, Dr. Abba Hillel
Silver, chairman of the American
section of the Jewish Agency, de-
clared in a speech at a "thank-
giving" rally last night that the
Jews of the Holy Land must have
a "right to defend themselves against
Arab riots and threats."Cairo police, swinging clubs for
the first time in three days of
demonstrations, dispersed a group
of students shouting anti-Arab and
anti-British slogans before the
U. S. and British embassies.Premier Jamil Mardam Bey of
Syria personally called at the U. S.
embassy in Damascus and apolo-
gized for the attack on the legation
Sunday by demonstrators protesting
partition. Gendarmes stood at salute
while a new American flag was
raised to replace one ripped down
by rioters.Abdullah of Iraq
declared he personally would "lead
his army to prevent partition."At Beirut, Lebanon, demonstrators
attacked a French school in anger
against France's vote for partition.Think Escapees
Stole AirplaneSpringfield, Mo., Dec. 3.—(AP)—
An airplane flown crazily away
from a Springfield airport today led
to speculation that one of the five
Federal prisoners who fled from the
U. S. Medical Center had used the
machine to further his escape.This development in the search
for the quintet who fled from the
center last Monday night, came as
officers searched the Ozarks for
three of the escapees who terrorized
a farm family last night and
with three guns and a motor
car.

Effect Of Hardships

Psychological Impact Of Privations And Accompanying
Nerve Strain Will Play Important Part In Determining
Outcome Of Today's Upheaval In Europe

By DEWITT MACKENZIE

The psychological impact of nerve
strain and starvation on the
common folk of distressed Europe
during the coming bleak winter
months is going to play a mighty
part in determining the outcome of
the political upheavals and espe-
cially the struggle between Communism
and democracy.The ills of the general public be-
tween now and the advent of spring
are bound to be many and grievous
in the countries which are storm
centers. And the political parties
which are held responsible by the
people for these misfortunes are go-
ing to find themselves tottering
on a pile of troubles, come April show-
ers. Take the situation in chaotic
France, for instance:The country as a whole is, of
course, short of food, clothing and
many other necessities. Industry and
rail transport throughout the na-
tion is largely at a standstill as the
result of the Communist-inspired
strikes which have rendered 2,000,000
workers idle. There is a terrible
shortage of coal which, quite apart
from industry, is depriving the pub-
lic of fuel for warmth and other
household purposes.Paris, with its population of some
6,000,000, has been suffering from
severe public utilities. Many homes
have been without lights as the
result of strikes in power plants.

Fire In Dormitory For Homeless Takes 6 Lives

Flames burst from windows of a dormitory for homeless men at Philadelphia at the peak of the fire in which six are known to have perished. Ten others were reported missing, and at least 38 were injured. The dormitory was operated by Volunteers of America, Inc. It housed 66 men, many of whom were employed as street corner Santa Clauses. Back Stadium PlanApprove Application For ROTC Unit; Ap-
point Committee To Plan Inauguration Of
Dr. Messick As ECTC PresidentMembers of the Board of Trustees
of East Carolina Teachers College,
meeting on the campus Tuesday,
heard a report by President John
D. Messick on the progress of the
school and attended to a variety of
matters during the day, including
endorsement of a plan to build on
the campus a stadium which is to
be financed through private dona-
tions, the appointment of W. E.
Marshall of the faculty as dean of
men, authorization of an applica-
tion by President Messick to the at-
torney general in Washington, D. C.,
for the establishment of a unit of
the ROTC on the campus, and the
appointment of a committee to make
plans for the inauguration of Dr.
Messick as college president in
March.The erection of a stadium on the
campus through private dona-
tions was approved by the board, and Dr.
Messick was authorized to proceed
with plans.Priority in the building program
of the college was given by the
board to a new dormitory for women
teachers to be situated on the West
Campus. Ragdale Hall, now used
by women teachers, will be con-
verted into a dormitory for men
students on the completion of the
new building. The board designated
a new men's dormitory as the sec-
ond building to be erected. The
building program approved by the
last state legislature will not be
put into effect until prices have
declined.W. E. Marshall, professor of political
science and director of student
affairs, was appointed by the board
as dean of men.The board approved revision of
the departments of music and physical
education at the college. The
curricula of the two departments
have been revised so as to meet
the standards of such accrediting
agencies as the National Associa-
tion of Music and the American
Association of Teachers Colleges.Both departments have been
strengthened by the changes and
will be able in the future to provide
better and more complete instruc-
tion for students majoring in the
two fields.Dr. Messick in his report to the
board gave statistics to show what

interrupting noises of any kind will
be undertaken next spring as a re-

WGTC for a construction permit

as the "frequency modulated" type,
invented by Major Edwin H. Arm-

Control BillWashington, Dec. 3.—(AP)—A
hunt for methods of setting legal
traps for Communists got under
way in Congress today.Rep. Nixon (R-Calif.) said one
possibility is compulsory registration
of all Communists as agents of a
foreign government.Nixon predicted action at the reg-
ular session beginning in January
on some kind of legislation to stem
Communism in America. He is
chairman of a House Un-American
Activities subcommittee called to-
gether today to begin looking for
the right kind of bill.Before Nixon told reporters
"that we would consider legislation
which in one way would require
Communists to register and in an-
other way would require them to
give full publicity to their true pur-
poses and activities."He said that might be done
through a law similar to the one
giving protection to potential pur-
chasers of stock by requiring data
to be filed with the Securities and
Exchange Commission.In addition, the Californian said
he favors a requirement that the
Justice Department publish at reg-
ular intervals names of organiza-
tions determined by the FBI to be
Red fronts.Before Nixon's committee are va-
rious bills to outlaw the Communist
party. But Nixon said he believes
these represent an "oversimplifica-
tion of the problem," that outlawing
the party would not be "an effective
way to combat Communism."KRIS KRINGLE

Plan Would Nullify
Police State FearsNew York, Dec. 3.—(AP)—Earl
Bunting, president of the National
Association of Manufacturers, today
called for increased productivity
to help pay for the cost of the
war, and reductions in govern-
ment spending and income taxes.
Bunting said the plan would "nullify
the administration's proposal to
establish a 'police state' in Amer-
ica," would assure maintenance of
the American living standard, and
would make possible "generous for-
eign aid."He also asked labor leaders to
forego demands for general wage
increases without increases in pro-
ductivity, except in cases of gross
inequities.Bunting said the plan would be
"a get-along" plan, he said, as well
as a plan to increase productivity
and to reduce government spending.

the meeting of the National Asso-
ciation of Manufacturers and Coun-

said today the European
states of the Russian orbit might

United Nations charter, if the big
four powers failed here to write a

that in his view "an absolute

RUSSIA CITEDOfficial Says Key To
Peace In Hands Of
U. S. WorkersNew York, Dec. 3.—(AP)—Allen
Welsh Dulles, former head of the
U. S. Army Office of Strategic Ser-
vice in Europe, said today that the
key to peace is in the hands of
American industry, agriculture and
labor, as the Soviet Union gambles
on the failure of "our system."He turned the spotlight on the
challenge from abroad "as he opened
the National Association of Manu-
facturers' 53rd annual congress of
American industry."More than 3,000 industrialists
from all sections of the country were
registered for the opening of the
congress at the Waldorf-Astoria.The speaker for the Soviet,
Dulles said, "tells us that our way
of life is doomed."He added that he could hardly
conceive of any greater stimulus
to accomplishment in this country
than to have the American worker,
farmer and industrialist realize that
"the Soviets are publicly proclaim-
ing our early demise as a result of
our own incompetence."Dulles expressed hope that the
United States would give aid to
Europe without doing anything that
might be interpreted as interfering
with the political and social strug-
gles of the European nations.The Soviet, he said, is definitely
pledged to see the Marshall Plan
fail.Continue Search

Bureau Of Labor Statistics Streamlined Itself For Crucial
Wage-Price Measurements Of Weeks Ahead
Appropriation Cut; Consumers Price Index

By HAROLD WARD

Washington — The government
statistician, a handy man with a
pencil and a percentage point, may
be seen hovering over the market
basket and payroll sheet again real
soon.Slowed down by appropriations
cut out by Congress in July, the
Bureau of Labor Statistics (BLS)
gradually is streamlining itself for
the crucial wage-price measurements
of the weeks ahead.Coating prices and demands for
more pay—aggravated by Europe's
needs—are chief concerns right now
of President Truman, the Republican
party, the Democratic party and the
wage earner himself.The bureau depends mainly on
(1) hired shoppers in strategic cities
who make their rounds periodically
and report prices, (2) reports from
markets, exchanges and employers,
(3) field agents who examine local
employment, wage and price sched-
ules in key industries.Congressional appropriations com-
mittees granted the bureau \$3,373,400
for the fiscal year beginning last
July 1 instead of the \$5,817,945 al-
lowed for 1946-47.

THE DAILY REFLECTOR

December 3, 1907

The little snow flurry today put folks to hustling for coal and wood.

The oyster boat is at the wharf with a fine load of oysters, 30c per quart, \$1 per gallon.

Aeolian Band is the name of Greenville's new musical organization. The boys have started out like they intend to do credit to the name.

Some Chicago married women have agreed not to kiss their husbands if there is the odor of liquor on the masculine breath. Now suppose the husbands prefer the foaming beer to osculatory bliss!

Exhibit of Madonnas in Art Gallery. For the month of December the directors of the local art gallery are stressing religion in art and music. An exhibition of reproductions of famous Madonnas collected by the American Federation of Arts in Washington, D. C., has been secured. In this collection will be found prints of Madonnas painted by Italian, German and Flemish artists. The prints very nearly represent the size and coloring of the original paintings.

Visitors to the gallery will find many old friends, madonnas they have known and loved since childhood as for instance Raphael's Madonna of the Chair or Fra Filippo Lippi's Holy Family. They will also find others not so well known but probably just as interesting and lovely. Everyone is cordially invited to the gallery for this showing.

Returns From Week Of Seal Sales Is Good

Returns during the first week of the annual Christmas Seal Sale conducted by the Pitt County Tuberculosis Association totaled \$2,310.60, Mrs. M. T. Simpson, county chairman, announced today. The sale, which opened last Monday with the mail delivery of seals, will continue until Christmas.

Occurring each year during the month before Christmas, the sale is the only appeal made by the tuberculosis association for funds to finance its tuberculosis prevention and control program.

The first week's returns represent 25 per cent of the 1947 goal of \$8,000, Mrs. Simpson said. The quota is based on estimated operating expenses for 1948, when Seal Sale funds will be used to support the free mass X-ray survey for Pitt County.

"Although the sale will continue until Christmas, it is extremely helpful to the association and to the post office if returns are made early, before the heavy rush of Christmas mail begins," Mrs. Simpson said. "We are grateful to those who send in their checks promptly."

Each day's returns are recorded as they are received so that you may visit the office at any time and see that you have received credit for your contribution whether it be made by cash or check. Put your contribution in today's mail.

Arrested 14 For Violating Game Laws In County

CHESTER WALSH
Jesse R. Moye II, president of the Pitt County Chapter of the N. Carolina Wildlife Association, said today that reports coming in from sportsmen over the county indicate that quail are nothing like as plentiful as several years ago. Stricter enforcement of the game laws will be required to permit the wildlife of the county to increase. Reports of trapping quail have been circulating in some sections. As an evidence of game law violations, Moye pointed out that the game and fish protectors arrested 14 persons in Pitt County during November for violating game laws. In magistrates' courts some fines as high as \$50 were imposed.

The following information about the game laws will be interesting: The quail season will be open through January 31 and hunting of the birds is allowed only on Tuesdays, Thursdays and Saturdays in Pitt and surrounding counties. The bag limit is eight birds.

The squirrel season will be open through January 1. After November 27 hunting squirrels is allowed only on Tuesdays, Thursdays and Saturdays in Pitt County. The bag limit is eight.

The rabbit season is open through January 31 and hunting rabbits is only allowed on Tuesdays, Thursdays and Saturdays. The bag limit is eight.

There is no open season on deer and turkey in Pitt County.

The season for hunting doves is closed until January 1, when it will be open through January 31. The bag limit is 10 birds.

The duck and goose season opens December 8 and remains open through January 6. Four ducks and one goose is the bag limit.

Strength FOR THE DAY

BE OF GOOD CHEER.
If Christian faith cannot save the world, nothing can save it. That is what Christian faith is designed to do and what it can do.

Let us not be pessimists as we face the future. The Lord is not going to fold up his plans and admit himself defeated. Those who travel by airplane frequently have the experience of leaving a dark and overcast sky and going up through the clouds into the beautiful sunshine. The sun is always shining above the clouds. God, who is love, is always above the clouds, and humanity will find Him because God has made it possible for man to find Him.

We have not come to the end of things in this world; we are only at the beginning. When that which is perfect is come, then that which is in part shall be done away. Beneath the shadow of many troubles, man is learning how to put his trust in God.

And let us never forget this—above the clouds the love of God is ever shining. Say it to yourself if you have some personal sorrow to bear. Say it to yourself when the world seems going against you. Say it to yourself when you read the news of the day and feel that the world is under the control of the devil.

Above the confusion of evil, the love and power of God still reign. All Rights Reserved—Babson Newspaper Syndicate

WASHINGTON LETTER

By JANE EADS
Washington—Uncle Sam helped to give a new lease on working and living for women past 40 catalogued as "too old for jobs and too young for old-age benefits."

During the war, for example, the U. S. Civil Service Commission eliminated, with few exceptions, the maximum age limits for examinations.

The War Manpower Commission urged the use of older workers, and the placement of such applicants was accelerated by the U. S. Employment Service. The Women's Bureau advocated the policy of employing women of over 40 and 50 on suitable jobs and stressed their special assets.

The 1940 census reported about 3,480,000 women of 45 and over had employment, with about 126,000 more on public emergency work and nearly 177,000 seeking jobs.

By 1943 the census showed 3,900,000 women in this age bracket in employment—an increase of close to 1 1/2 million since workers. Of these entrants, within the year, 500,000 were 45 to 54 years old; 300,000 were 55 to 64, and 100,000 were 65 and over.

Today, of the 20,085,000 women over 45 years of age in the population, the U. S. Census Bureau says that 4,778,000 are employed and 128,000 are seeking jobs. Of the numbers employed, 437,000 are women of 65 and over.

Miss Mary V. Robinson, former chief of the information division, U. S. Women's Bureau, believes we can well expect women in their 40s and 50s, or even older, to continue in many jobs in consumer-goods factories and even in some plants making durable goods, if the women have the necessary combination of seniority and efficiency.

The service fields in general seem to offer the most promising and varied vistas, Miss Robinson says. "Many women in higher age groups," she says, "will do well to turn their eyes to certain of the service fields—to trade, government, the professions, domestic and personal service—but away from such types of service as the clerical and communication fields, where a 50-year older is likely to lose out to an applicant half her age."

In suggesting job possibilities for the non-professional woman, Miss Robinson lists high class domestic service (under satisfactory conditions) a job as housekeeper, restaurant hostess, chaperone in a girls' school, manager of food services in factory or store, manager of an apartment house, shopping services or demonstrations in stores, adjusting complaints for retail or laundry trades, budget advising in banks, selling insurance or real estate, private mending, dress-making or millinery, practical nursing, simpler services connected with libraries or with welfare and personnel work. Her suggestions for women in professional fields include most phases of home economics, housing, education, health and other miscellaneous fields such as social work, economic analyst, statistician, research worker, translator, librarian, writer or artist.

The Little Savage

Women IN THE CHURCH

by Mary Fowler

As president of the Woman's Christian Temperance Union of India, Mrs. Satyawati S. Chitambar, of Lucknow, widow of Bishop J. R. Chitambar of the Methodist Church, has called upon all the people of India to conserve food because of the famine condition now threatening parts of the country, and especially to cease the use of grain for alcoholic beverages during the emergency period. "We appeal to the public in general and to the patriots, the well-wishers of the country in particular, to take a strong stand against this awful waste of food-stuffs," she says. "If they are addicted to the use of intoxicants or are in any way connected with its trade, they should show their patriotism at this hour of need and test by giving it up entirely, so that the tons of grain now being used for it may be saved to feed the nation and tide us over the present serious situation."

When Russia annexed the Karelian Isthmus, it became necessary for the far-famed Lutheran Hospital in Viipuri, the oldest deaconess hospital in Finland, to abandon its model building and equipment in that city. Now it has reestablished its services in Lahli, a fast-growing city one hundred miles away. There it is under the leadership of Sister Saarinen, head deaconess, and sister of the famous architect, Eelien Saarinen, now of Cranbrook Michigan. When it first reopened the hospital was using paper sheets because of the shortage of cloth, but 600 cloth sheets and other supplies have recently been sent the institution by Lutheran World Relief from the United States. According to the Rev. Jacob W. Heikkinen, the hospital "is making good progress toward a return to its former status as an outstanding institution."

The first Friday in Lent—February 13, 1948—will find many thousands of women in communities across the United States gathered in prayer in their churches, or in

community-wide prayer services. Annually the "World Day of Prayer," sponsored by the United Council of Church Women (156 Fifth Avenue, New York, N.Y.) is an occasion of "prayers of praise, thanksgiving, and intercession" on behalf of a number of specific missionary needs in the United States and abroad; and the placing upon church altars of gifts to meet some of those needs.

The Children's Corner

Sheppard Memorial Library

Every child has said at some time, "If I dig a hole deep enough, Mommy, would I come out in China?" The very openness of all that is Chinese is the beginning of most children's curiosity about other lands. The Children's library abounds with wonderful books of stories about China and its odd customs, but just a little reading about them proves that the boys and girls are no different, as people, than they are here in our own country.

The story of Pepper Moon, by Esther Wood, is about a little boy who lived with his family in the nearest, most orderly house in town, but his heart yearned for a puppy dog. There were many family conferences, and many compromises with offers of a goldfish, or a cricket in a cage, or a bird, but little Pepper Moon had his heart set on a puppy. The pictures by Laura Bannon are very amusing, and needless to say, Pepper Moon got his puppy, but you'll have to read the story to find out how.

Eleanor Frances Lattimore has written and illustrated several splendid books about Chinese children which boys and girls between seven and ten will really enjoy. Little Pearl, and Peachblossom are only two which have been favorite reading for many children.

An informal study of one country, through story books, will lead to increasing interest in the other countries of this world, and knowledge of their customs, habits and legends, will do much toward creating the United Nations for which we all hope so earnestly.—Mrs. R. Hauser, Jr.

"FOREVER AMBER" AT COLONY TWO DAYS

Linda Darnell with Glenn Langan in scene from the Zanuck presentation of "Forever Amber" based on Kathleen Winsor's best-seller and filmed in technicolor. "Forever Amber" is playing at the Colony, Thursday and Friday.

Clubs of the state, the arrest of a game law violator. It happened this way: District Game and Fish Protector J. O. Teel and W. L. Heath, working on a tip of a game law violation, proceeded with a search warrant to the home of Richard Buck's premises at a rural point, for evidence of a violation of the state game trapping laws. For a time, the search of Buck's premises seemed unavailing until the officers observed that Buck's little girl, who had been playing in the yard, had suddenly been put to bed in a cold back room. The officers said her father manifested considerable anxiety about her. When Game Warden Heath politely and considerably pulled up the bed covers he discovered that a number of mink hides were concealed in the bed. The warden arrested Buck for violation of the game trapping laws. He was to be tried before Judge Dink James in County Court today.

MORE MEAT ON DINNER TABLE

Consumption Up Despite "Meatless Tuesday" Program

Washington, Dec. 2.—(AP)—Americans are eating more meat now than they were two months ago when the government called upon them to eat less by observing Meatless Tuesday.

This does not necessarily mean, however, that the meatless day storage for sale later when supplies

campaign is failing to achieve its principal objective—a reduction in the feeding of grain to livestock so that more cereals might be made available for shipment abroad.

This is the season of the year when livestock marketing normally increases and when meat production goes up. It also is the season of the year when appetites for meat tend to grow sharper because of colder weather.

Meat production by federally-inspected slaughterers was running less than 300,000,000 pounds a week when the Meatless Tuesday campaign was started. Now it is averaging more than 400,000,000 pounds and probably will go higher before the month is out.

The bulk of this increase is moving directly into consumption. As is the case normally, some of the seasonal increase is going into cold storage for sale later when supplies

Some of the current season's increase in meat production reflects earlier marketing of livestock, particularly hogs, than has been the case in the past few years.

Judge Roberts Gives Assaulter Long Road Term

By CHESTER WALSH
In Police Court Monday Judge J. W. H. Roberts found George Ernest Brazzle, 31-year-old Negro carpenter, formerly of Aurora, guilty of assaulting his wife, Jo Edith Pittman, with a bed slat and an iron poker, inflicting wounds which may probably make her a cripple for life.

The court also found Brazzle guilty of two charges of the larceny of tools from Cooley E. Smith and George Cherry.

Judge Roberts sentenced Brazzle to two years on the roads in each of the three cases—six years in all. Testimony was that Brazzle assaulted the woman with a bed slat

until it broke in their upstairs apartment at 1309 Railroad Street; that she fled to a downstairs apartment and hid under a pile of clothes; that Brazzle followed her there and resumed his attack this time with an iron poker, which he bent in lashing the prostrate woman into unconsciousness. Further testimony was that Brazzle took the wounded woman to a hospital, where she remained unconscious for some time. Brazzle returned to his room where police arrested him shortly after the assault.

Investigating police said the room "looked like a slaughter house."

Brazzle took the witness stand in court today and testified that he both had been drinking; that he was drunk and did not know what the row started about, and that he did not remember what had happened and did not recall taking the woman to the hospital. Solicitor Eli Bloom developed that Brazzle has a long criminal record, that he had served sentences for

fighting, driving drunk and a term in State Prison for felonious assault.

GREENVILLE, N. C.

Right up in the FOUR-FRONT

SCATTERED across this nation are some of the cagest automobile buyers, the world ever saw.

They cut their eyeteeth on a steering wheel, so to speak—they know car values from A to izzard—and you have to be plenty good to step ahead of your price class in the volume of your sales to them.

That's why it's startling—sometimes even to us—to see the double-barreled story of public preference that's written in the sales records and registration figures:

ITEM: Only three cars outsell Buick—and all of these are in the so-called "low-price field."

ITEM: In some localities—and quite often in polls that ask "Which car will you buy next?"—Buick ranks not fourth, but third, actually ahead of one of the lowest-priced three.

Naturally, the smart buyer will ask "How come?"

Well, the most standout style of the season, the style that's the clearest forecast of wonderful

things to be, undoubtedly has much to do with it.

But that isn't all. The dollar is still a pretty important measuring stick.

So we don't think Buick could be where it is if it didn't offer a bigger dollar's worth—bigger in size and substance, in lift and life, in soft ride and easy handling, bigger in the all-round happiness you'll get out of your buy.

Which suggests, of course:

Why go against the solid judgment of your fellow men? Why not see your Buick dealer now—with or without a car to trade—and place the order that will put you where you belong, right up in the four-front?

Colored News

Rev. P. H. Mumford, pastor of York Memorial A. M. E. Zion Church, has returned from the N. C. conference as pastor of the church for another year and wishes to thank the good people of Greenville, both white and colored, for their strong support in the closing of one of the best years of his ministerial work.

May I say, if there is anything that I can do in my weak way to advance the cause of good will that this city may prove to be the outstanding city of the state for my people, I am willing to do my best. We extend a cordial invitation to members and friends to worship with us next Sunday. Let us pray that the city, county, state and country may work for the spirit of peace.

Effect Of . . .

(Continued from Page One) is going to assess the blame for its suffering on somebody. Thus the position is full of dynamite politically.

This fact is recognized by all political parties. For example, General Charles de Gaulle, the wartime Free French leader, whom many expect to come to power soon at the head of his new "People's Rally" party, is said to be wary of taking over before spring; that is, after the country has passed through the dangerous winter months.

By the same token, the strategy of the Communist party which is trying to get control of the government, is to push the general into power immediately, with the idea that he couldn't survive the trials of winter. The Reds, while bent on ruling, prefer first to break De Gaulle—their most powerful enemy—and then take over when the warmth of spring has softened the bitterness of the people.

However, present signs are that the Communist strategy will be put to a hard test, because a large section of the public already is assessing the blame for the country's predicament against the Reds. The suffering of winter may well add to this feeling.

Statisticians . . .

(Continued from Page One) So Clague held on to that national study. He limited the monthly city

indexes to 10 instead of 21 cities; continues a quarterly report for 24 cities and retained the monthly retail food price index for 56. Other fringe studies are out.

The wholesale price index—also a major report because it shows the consumer what to expect in retail prices in the weeks ahead—is being carried forward. But the bureau's financial support of export and import wholesale price studies had to be dropped.

Employment and wage statistics programs both are considerably curtailed.

Billie Branch Made First Page Kentucky

Billie Branch veteran auctioneer of Winterville, who auctioneered at Keel's Warehouse in Greenville this season, is now the auctioneer for eight of the 10 tobacco warehouses in Owensboro, Kentucky. He has made the front page of the Owensboro Messenger twice since he went to Kentucky. In last Sunday's edition of the newspaper he was the center of a group of tobacco buyers in a five-column photograph.

The burley leaf market opened last Monday. Farmers were expecting \$44 a hundred. The dark leaf, used for cigars, snuff and chewing tobacco, is not in heavy demand, Branch wrote in a letter to the Reflector.

He said the Stemming District Tobacco Association, an organization of tobacco growers, is getting a large percentage of the leaf now being marketed.

Charge De Gasperi Provoking Civil War By Actions

Rome, Dec. 3—(AP)—The Italian Communist party roundly denounced Premier Alcide De Gasperi today and declared that for him to keep on barring leftists from his cabinet was a "provocation to disorder and civil war."

In a lengthy communique issued after a two-day meeting, the Communists charged that it would be an "act of open hostility" against workers and intellectuals for the premier again to ignore the leftists in broadening his cabinet and would mean a "permanent division of the nation." It called for a nationwide "labor front" to fight De Gasperi. Implicit in the communique was a warning that the Communists have no intention of abandoning their three-week-old war of nerves of the government, marked by still continuing strikes, demonstrations and political violence.

Rehabilitation Plan For Asia

Baguio, P. I., Dec. 3—(AP)—The American delegation to the United Nations Economic Commission for Asia and the Far East (ECAFE) today began unfolding an economic rehabilitation program which observers said resembles the Marshall Plan for Europe.

Monnet B. Davis, chief of U. S. delegation, said the plan was based on the principle that Asian nations, if given proper assistance, could pull themselves up by their own bootstraps to a point not possible in Europe.
