Political Charges Enter Aid Picture

Politics Enters House Debate On Emergency Foreign Aid; Approve Amendment Which May Raise Cost Of Program To United States

Washington, Dec. 11.—(AP)—The House got into a rousing political row over the emergency foreign aid bill today shortly after adopting an amendment which may raise the cost of the program to the United States by \$50,000,000.

The uproar began when Republican Leader Hallett (Ind.), speaking in support of the \$500,000,000 measure, remarked that the Democratic administration "has terribly mismanaged the foreign affairs of this country."

Hallett added that the money is necessary only because of what he called the administration's mismanagement. He spoke shortly after the House had adopted an amendment by Rep. Jack Z. Anderson (R-Calif.) directing government agencies, chiefly the Commodity Credit Corporation, to sell surplus products for foreign aid at prices which CCC officials have estimated would mean a \$50,000,000 loss on present holdings.

Rep. McCormack (Mass.), assistant Democratic leader, promptly challenged Hallett's statements and the fireworks were on.

"The time for political speeches and a preview of the 1948 campaign would have been better after this bill has been voted on," McCormack said.

McCormack said Hallett had also made sharp charges about the conduct of foreign affairs, that the speech was "one of the most regrettable" he had heard in his 19 or 20 years in the House.

Rep. Brown (R-Ohio) led off on McCormack. If McCormack resigned, Brown thundered, "I far more regret the remarks he has made. Certainly this is not the time or place for personal attacks."

The Ohioan, who has crossed swords with Hallett on inter-party political strategy at times, called an Indiana "great American" who "does an excellent job on the floor here today."

Rep. Jarman (D-Ala.) replied to Brown, deploring what "the pentagon man from Indiana, the majority floor leader, has come in at this crucial time and delayed this bill on what is legislation passed."

"I believe the people of this nation with a political discussion," without delay of tweedlees and tweedledum, Jarman said.

Supporters of the bill hoped to get a vote on final passage later in the day. But the chances of Republican-Democratic cooperation in that direction apparently dimmed when Hallett, McCormack and the others started in.

SENATOR HOEY IS 78. Washington, December 11.—(AP)—Senator Clyde R. Hoey (D-N.C.) is 78 years old today. Some of his friends plan to surprise him with a birthday party in his office this afternoon.

It's a wise man who doesn't celebrate a victory until he has it in his pocket—which is by way of warning that the French government's sensational repulse of Communist aggression represents only one success against the Bolshevik revolution and that many battles remain to be fought before the war is won for democracy.

Having sounded this warning note it can be said that the Communists in France have come a bad cropper in having to bow before a government ultimatum and call off the nation-wide strikes which the Reds caused through their domination of the General Confederation of Labor. The most serious aspect of this defeat from the Bolshevik standpoint lies in the fact that the strike movement—which at its peak involved some 3,000,000 workers—was rapidly collapsing because many laborers were turning against the Red front.

The current crisis has had three vastly important developments which are likely to have far-reaching effects on the struggle between Communism and western democracy as a whole. These developments are:

1. The French government, in an hour of greatest danger from the Bolshevik attack, has reassured itself with a display of armed force.

2. France further has stood up to an infuriated Russia, and the two countries are at sword's point, with diplomatic relations all but broken.

3. France's revolt against Communist pressure appears to have had the result of impelling her to cut loose from Russian influence and cast her lot wholly with America and Britain. The consensus of observers at the Big Four foreign ministers' conference in London is that France is now in the western camp and will remain there, provided her security against aggression from the East is adequately guaranteed. She no longer is middle-of-the-road. Paris—and not Moscow—is the capital of France.

Most important of these developments would seem to be France's great moral victory—her reassertion of herself as a power. A tremendous lift of national morale could result from this—and morale is what Western Europe needs.

However, as already remarked, the present lull in the Red revolution may be expected to precede another storm. The Communist leaders of the General Confederation of Labor are bitter over their defeat and have appealed to the workers to prepare for "future combat that will be severe." Observers think the truce will last for a few

OIL INDUSTRY MAPS PLAN TO CUT SHORTAGE

Voluntary Conservation Will Be Sought; No Rationing Immediately Ahead

Washington, Dec. 11.—(AP)—A twin-pronged drive by the petroleum industry to encourage conservation of fuel oil and supply more of it to shortage areas was in the making today.

At the same time, Interior Department officials announced that no government rationing of petroleum products is contemplated immediately, even though Congress should make such a step possible.

C. Orlard Davidson, assistant secretary of the interior, told a judicial subcommittee yesterday that the department is willing to await the outcome of the industry's voluntary program. He expressed hope this would cut consumption by 10 per cent.

The committee is considering an Administration bill which would give the government power to allocate critical materials.

A spokesman for the American Petroleum Institute said the oil industry plans to conduct an extensive advertising campaign asking fuel oil users to use all possible conservation methods. He called it an "educational" program and said that it will get underway immediately.

The petroleum institute official, who asked not to be identified, said the program will be directed only at fuel oil conservation at present. He added that he knows of no campaign to cut down on pleasure driving to conserve gasoline.

Previously Davidson had indicated at the hearings that the voluntary campaign would include rationing of gasoline. He said a reporter later, however, that the fuel oil situation is the more critical and that it is "perfectly normal" to concentrate on it at this time.

This does not preclude, however, the possibility of an appeal from the White House for self-rationing of gasoline by motorists.

Britain Will Get Russian Grain In Trade Agreement

London, Dec. 11.—(AP)—Britain will receive "a substantial quantity" of Russian grain under terms of a trade agreement announced today by J. Harold Wilson, president of the Board of Trade.

Newspapers speculated this might mean the end of bread rationing for Britons.

Wilson, back from talks at Moscow, told the House of Commons the agreement "includes quantities, prices and detailed terms and conditions for the shipment to Britain of a substantial quantity of coarse grain out of the 1947 Russian harvest." The House cheered his announcement.

Wilson, who reported earlier to Prime Minister Attlee, said "next May there will be further discussions to prepare long term arrangements over a wider range of goods, providing for a balanced trade program between the two countries."

A Lull In The Struggle

French Government's Repulse Of Communist Aggression Is But One Success; Many More Battles Ahead; 3 Big Developments; Moral Victory; A Brief Truce

By DEWITT MACKENZIE

It's a wise man who doesn't celebrate a victory until he has it in his pocket—which is by way of warning that the French government's sensational repulse of Communist aggression represents only one success against the Bolshevik revolution and that many battles remain to be fought before the war is won for democracy.

Big Four Agree To Up Reich Steel Production

Molotov Delays Showdown On Reparations Sought Yesterday By Sec. Marshall; Await Reaction To U.S.-British Meeting

London, Dec. 11.—(AP)—The four-power Council of Foreign Ministers agreed conditionally today to set the level of industry for a united Germany at 11,800,000 ingot tons by steel production a year, British and American officials reported.

The present level of steel production in the economically merged British and American zone is 10,700,000 tons.

The level previously agreed upon in March, 1946, for all Germany was 5,000,000 tons.

Steel production is the standard against which other German production is fixed. The wartime level has been estimated at about 23,000,000 to 26,000,000 tons.

Soviet Foreign Minister V. M. Molotov apparently delayed a showdown on reparations sought yesterday by U.S. Secretary of State Marshall. The ministers passed over reparations questions to other economic matters.

Earlier Molotov had been expected to give his reply today to the U.S. stand that Russia halt her removal of reparations from Eastern Germany.

Authoritative government sources said that Molotov was also expected to give his reaction to reports that the U.S. and Britain have reached a tentative agreement revising last year's pact for economic fusion of the American and British zones of Germany so as to give the U.S. control over economic and financial policies.

British informants said the new arrangements, effective Jan. 1, probably would "open the way for a new line of attack" on the Western powers' policy in Germany.

The informants declared that economic and financial control in the merged zones would be in direct proportion to each country's contribution to a common budget. This would mean that the U.S. would assume virtually complete economic and financial control over the two areas, as American negotiators have agreed to take over all of Britain's dollar commitments, the informants said.

Police Station Items Snatched

Rochester, N.Y., Dec. 11.—(AP)—Detective Chief Edward Collins ordered a search of five boys he had questioned at police headquarters in connection with a series of thefts. Found on the 10-to-12 year olds were about a dozen items snatched while the boys were waiting, including brass knuckles and the desk sergeant's pencil.

Collins said the boys had admitted a series of "jobs," including thefts of collection money from a church.

Recommend Increase Allowance For Pair

London, Dec. 11.—(AP)—An all-party committee in the House of Commons recommended today a 25,000 lb. (\$100,000) increase in the yearly allowance to Princess Elizabeth, making her income 40,000 lbs. (\$160,000).

The committee proposed also that 10,000 lbs. (\$40,000) annually be allowed to Prince Philip, her bridegroom.

SIX SURVIVED PLANE WRECK IN LABRADOR

Twenty-Three Dead; Doctor Lands At Crash Site In Rescue Helicopter

Westover Field, Mass., Dec. 11.—(AP)—The U. S. Air Transport Command announced today there were only six survivors of the 29 American military men aboard the huge transport plane that crashed in Labrador's icy wilderness Tuesday midnight.

A doctor who landed at the wreckage eight miles north of Goose Bay reported that 23 were killed in the crash.

Names of the survivors and dead are being withheld pending receipt of a complete report.

A hard, driving wet snow has prevented any large-scale rescue operation but doctors and medical supplies are being landed by helicopter.

A space has been cleared within a half mile of the scattered charred wreckage.

The huge transport plunged flamingly to earth in forested, hilly country that could not be reached by air or ground for nearly 24 hours.

A rugged rescue party traveling overland with dog-sleds reached the wreckage last night—but first reports of the survivors came only after the landing of a radio-equipped helicopter.

Stormy weather hampered communications even though only eight miles separated the scene of the wreck from the Goose Bay airfield where the rescue operations are being directed.

It wasn't until daybreak that the first word came from Goose Bay. It was a terse message reading only: "Believe there are some survivors."

Cotton Industry Hit By Rapidly Rising Costs

Boston, Dec. 11.—(AP)—Prices have gone up so much that the cotton textile industry has only half the funds necessary for "severely needed replacements" according to a survey by the textile information service.

The service reported that half of all the equipment in the mills needs replacing at a cost of one billion dollars, but the industry has been able to accumulate only about half that sum.

"The reserves which the industry set aside during the useful life of the equipment were based upon original costs and present price levels are about twice those at the time of acquisition," the service said.

"x x x there is a resulting deficit of approximately 500 million dollars that must be obtained from other sources."

Stassen Finds Fault In Handling Of Food Costs

Doylstown, Pa., Dec. 11.—(AP)—Calling for "a major investigation" of the administration's handling of rising food costs, presidential aspirant Harold E. Stassen laid down a seven-point program to "level off and bring down prices."

The candidates for the Republican presidential nomination told the organization of Pennsylvania Republican women last night that he is "disgusted" with President Truman's "petty politics in trying to shift the blame to the Republican party."

Blaming the President and Democratic "insiders" for the price program, Stassen called for this program:

1. "A prompt thorough investigation of all food market operations of the government and of all officials and insiders of the government."

2. "The enactment of a law prohibiting the buying and selling of commodities for their personal account by any official or employee of the state war, commerce, agriculture, or executive departments, and providing for penalties for its violation."

3. "The extension of export controls and placing them in the hands of a new American agency for the handling of the entire Marshall plan."

4. "A new inventory control power to be given the government to use against hoarding and profiteering and monopolies of scarce items, and requiring the return of excess inventories held by Government or by private companies to the market place."

5. "The reinstatement of consumer credit controls to slow up installment and credit buying."

6. "Temporary restrictions on the commodity exchanges."

7. "Encouragement of buyer resistance, conservation and savings."

Brush Aside Truman's New Call For His 10-Point Anti-Inflation Program; Push Own Bill To Ward Approval In House Committee By Nightfall

Washington, Dec. 11.—(AP)—Republican leaders today brushed aside President Truman's new call for his 10-point anti-inflation program and pushed their own bill toward approval by the house banking committee by nightfall.

Chairman Wolcott (R-Mich.) flatly predicted approval by his committee and told reporters:

"If the president doesn't want it, he doesn't have to take it. Enforcement of the program we propose is discretionary."

At his news conference, Mr. Truman said anything short of the program he has proposed to curb living costs will be inadequate. His program, he said, should be carried out to the letter. This included requests for standby price-wage and rationing authority.

Mr. Truman sharply criticized a Republican-sponsored proposal to relax the anti-trust laws sufficient to permit industry to reach voluntary agreements to allocate its products and possibly to reduce the prices.

There will be no relaxation of the anti-trust laws, he said, so long as he is president.

This brought a prompt comment from Senator Taft of Ohio that Mr. Truman "doesn't clearly understand" what the Republicans are proposing in a bill offered by Wolcott in the House.

"Any voluntary agreement which would call for an exemption from the anti-trust laws would have to be approved by the president or the attorney general," Taft told newsmen.

Taft said that this measure, scheduled to be included in the forthcoming general over-all statement of Republican policy, covers at least six of the 10 points set out in Mr. Truman's program.

He listed these as involving the president's requests for restrictions on bank credits, extension of export controls, authority over transportation, livestock marketing weights, allocations of scarce commodities and trading on the grain exchanges.

He said the Wolcott bill represents the Republican leadership's judgment on "the things that can be cleared by Congress by Christmas." The final decision on the remainder of the president's program, he said, will have to wait until the regular session in January.

Mr. Truman told his news conference that he will submit to Congress in a couple of days specific legislation covering the wage and price controls which he has requested.

The president added that he also expects to submit other proposals to cover all the 10 points outlined in his first message to the special session.

China Reselling U.S. War Surplus

Shanghai, Dec. 11.—(AP)—The Chinese government is reselling to America and the world in general at least 2,000,000 tons of Pacific island war surplus which China received in settlement of a wartime U.S. debt of \$174,000,000.

This was disclosed today when a contract was signed whereby the Bethlehem Steel Corp. will buy approximately one million tons of scrap for \$30,000,000.

Anti-Inflation Plans

Two Proposals, President's And Republicans', For Control Of Living Costs; GOP Plan Milder; Differences Between Two; Trouble Ahead If No Solution

By JAMES MARLOW

Washington, Dec. 11.—(AP)—There's a big difference between the programs of President Truman and the Republicans for controlling living costs.

The Republicans' is far milder. The great difference between the two is this:

1. Mr. Truman asked Congress to pass a number of laws giving the government power to stop inflation if it gets much worse.

For example: Power to put back price and wage controls if prices keep going up.

2. The Republicans want no part of price and wage controls imposed by the government. They want mainly voluntary control of living costs.

For example: letting business do its own controlling by voluntarily keeping prices down or cutting them or doing other things to reach that end.

So, under the program offered by the Republican leaders of the Republican-controlled Congress this is still the score:

Labor would be free to fight for higher wages. Business would be free to lower prices. It also would be free to raise them.

The Republicans hope to get their program passed by Congress by Dec. 19.

Will it work? Is it enough to stop

TRAINS CRASH, MEET HEAD-ON

Passenger Trains Collide Killing Two; Three Men Missing

New Braunfels, Tex., Dec. 11.—(AP)—Two Missouri-Kansas-Texas passenger trains collided head-on near here last night and exploded, killing two trainmen, injuring nine other persons and leaving three men missing, two of them crewmen and another a railroad inspector.

The two trains ran together ten miles south of here at 11:43 p. m. the locomotives stacking on top of each other and front cars telescoping.

The northbound train, the Katy Flyer, was en route to Kansas City and St. Louis. The southbound train, the Katy Limited, was en route to San Antonio.

Both trains were heavily loaded with Christmas mail. An estimated 1,800 sacks of mail burned and another 1,800 were saved. Mail sacks were found 300 feet from the tracks.

Probe Cause Of Barracks Blaze

Pine Camp, N.Y., Dec. 11.—(AP)—An Army board of inquiry searched today for the cause of a barracks fire in which four officers assigned to "Exercise Snowdrop" perished.

Five other officers and an enlisted man were injured yesterday in the early morning fire, as it swept the two-story building. Eight officers leaped to safety from the windows of the flaming quarters.

Because of the tragedy, the Army postponed a special demonstration scheduled for today in the "Exercise Snowdrop" winter maneuvers at this northern New York military camp.

Adoption French Town Considered

Charleston, S. C., Dec. 11.—(AP)—Adoption of the French town of Fiers was being considered today by a group of Charleston citizens.

Plans for the adoption were laid at an organizational meeting last night of the Common Cause chapter of Charleston and a nine-man executive committee, including several prominent church leaders, was appointed to push the project.

Fiers, a town of 13,000 in Normandy, was virtually flattened by misdirected Allied bombing following the closing of the Falaise Gap during the campaign in Normandy in 1944.

When Kasielke asked the soldier if a photographer could be admitted after the demolition, the Russian shouted in German: "Pictures? No, no. Out, out—get out of here."

He followed this with a stream of curses in Russian and German and took his gun from his shoulder and gesture threateningly.

The American turned and walked quickly from the garden back into the chancellery. There he stopped to talk with two German boys, selling souvenirs.

The Russian shouted angrily and fired when he saw Kasielke had stopped.

With the Russian in pursuit, the reporter ran to his car and drove off. The Germans scattered.

Dead For Years

Washington, Dec. 11.—(AP)—A House foreign affairs subcommittee declared in a report on international political movements today that "the communist hope of early victory in western Europe through legal democratic politics is dead for years to come."

Maloney (R-Pa.), added that he "The report, prepared by Rep. [Maloney], does not say that communism will see 'their party' come through legal and violent means is therefore open."

PANAMA PACT IS MAJOR LINK

Rounds Out U.S. Master Plan For Air Age Defenses

Washington, Dec. 11.—(AP)—A new agreement with Panama for the lease of 14 airfields and other military sites largely rounded out today this country's master plan for air age defense with a ring of distant bases.

If ratified by the Panamanian Assembly which has been summoned into session Friday, the agreement promises to safeguard the Panama Canal to a degree American officials consider satisfactory under present world conditions.

The Pacific approaches to the United States already have been sealed by a United Nations agreement giving this country sole trusteeship over the former Japanese mandated islands.

In the far north—the most vital pathway over the top of the world—Canada and the United States are cooperating closely on defense measures under a formal agreement to extend their wartime joint planning.

One link in the long-range defense chain remains to be welded, but it is not deemed essential.

Talks are continuing intermittently with Denmark looking to an extension of the 1941 agreement permitting the United States to establish bases on strategic Greenland.

Forbes-Mayo
There are occasions and scenes now and then in life that are bright and joyous enough to gladden the hearts of the world. Bethel furnished such a scene Wednesday. It was the occasion of the marriage of Mr. Fred J. Forbes, of Greenville and Miss Blanche Mayo, of Edgecombe.

The Baptist Church had been as beautifully decorated as it was possible for the artistic skill of woman to conceive. Ribbon lattice-work, ferns and palms, ivy and carnations vied with each other in giving a pleasing aspect to the surroundings. Suspended from the arch just above the heads of the bride and groom were two large, beautiful hearts with each entwined in the other, a fit emblem of the union of two hearts that beat as one under them.

At the appointed hour the bridal party entered the church, passing down each aisle, crossing in front of the altar in the rear end of the church.
The bride was beautifully gowned in an empire princess gown of airline elaborately trimmed in machin lace wearing the veil and orange blossoms worn by her aunt on her wedding day of twenty years ago. Her only ornament was a diamond brooch, the gift of the groom and a necklace which was an heirloom of one of her girl friends. Her bridal bouquet was a shower of brides roses and lilies of the valley.

The bridesmaids carried white carnations tied with blue tulle and were gowned in white radium silk. Miss Novella Bunting in her usual graceful manner presided at the organ.
The bride presents at the home of the bride were numerous and lovely. The marriage had been preceded by a house party for several days. Few couples have married with more hearty good wishes from a larger circle of friends than does this one.

The wedding ceremony was performed Friday night, Dec. 12, at 7:30 for work in the Master Mason degree.

All local Brethren and visiting Master Masons are invited to attend.

End of Century Club

Mrs. J. L. Fleming was hostess to End of the Century Club Tuesday, December 9. On entering the home the season's decorations reminded one of the season for kindling the fire of hospitality in the hall, the genial fire of charity in the heart.

The president, Mrs. J. T. Little, called the meeting to order and the group voted to dispense with any business session. The meeting was turned over to the hostess who presented Miss Martha Pingel, member of the English Department of East Carolina Teachers College. Miss Pingel gave the story of our much loved and popular Christmas carols. Miss Pingel's presentation left the group feeling that Christmas was really the cord upon which the pearls of history are strung.

Miss Harper, student of music, sang very beautifully these carols giving us a deeper appreciation of not only the songs but the season.

Guests were Mrs. J. D. Messick, Mrs. Robert Van Iderstine, Mrs. Travis Hooker, Mrs. J. H. E. Moore, Miss Mary Harding, Miss Hooper and Miss Martha Pingel.
The hostess assisted by her daughter, Mrs. J. L. Winstead, served a salad course with coffee, Sally Lum muffins and cake.—Reported.

Brides-Elect Honored at Coffee Hour

Mrs. Aubrey Shackell and Mrs. Morgan Fambrough honored Miss Alice Ruth Bundy and Miss Josie Barnes White, brides-elect of December, at an informal coffee hour Tuesday afternoon at the home of Mrs. Shackell on Evans street.

The home was attractively decorated with white gladioli and candelabra of white candles.
Mrs. James Moye and Miss Jane Hadley greeted the guests at the door and introduced them to the receiving line which was composed of Mrs. Shackell, Mrs. Fambrough, Miss Bundy, Miss White, Mesdames W. J. Bundy, J. J. White and E. E. Rawl.

The dining table was covered with an imported cloth centered with an arrangement of white carnations and fern flanked by burning white tapers. Mrs. Jake Hadley poured coffee. She was assisted by Mes-

sames Robert Black, Charles Forbes, Mabel Hamric and Helen Hawes in serving dainty refreshments.

The hostesses presented to the brides gifts in their chosen patterns. Goodbyes were said to Mrs. Herbert Hadley.

Tripp-Byrum
Mrs. H. E. Doughtie of Greenville announces the marriage of her daughter, Mrs. Leona Doughtie Byrum to Mr. Joseph W. Tripp, son of Mrs. Velma Tripp and the late Mr. I. A. Tripp of Greenville, on December 4, 1947 in Emporia, Va.

Mr. and Mrs. Tripp will make their home in Greenville.

Honored at Coffee Hour

Mrs. M. K. Blount gave a coffee hour on Friday morning at her home on Rock Spring Drive honoring Miss Josie Barnes White, bride-elect.

Callers were greeted by the hostess, her honor guest, Mrs. J. J. White, and Miss Alyce Ruth Bundy, bride-elect of this month.

The spacious home was decorated throughout with red berries and green holly.
Mrs. E. E. Rawl poured coffee from a silver service. With the coffee, party sandwiches, sweets and nuts were served.

Check Flasher Had Easy Time Getting Christmas Money

WILLIE CURRY, Negro, will face 11 worthless check charges when he appears in Police Court Friday morning, police reported today. Officers said Curry passed the worthless paper "with the greatest of ease" over a period of time.

Sheriff's and police officers discussing the numerous bad checks in circulation and frequent forgeries here expressed wonder why it is that so many stores will cash checks for strangers. Many of the checks are so crudely written that a child would detect their worthlessness, officers said.

The Merchants Association and the newspaper frequently warn storekeepers to investigate before they dish out cash and merchandise for a worthless piece of paper. Fre-

Peanut Control

At a referendum held in Pitt County yesterday concerning the growing of peanuts, 1,768 farmers voted in favor of acreage control and only 16 voted against the measure, the county farm agent's office reported today.

Strength FOR THE DAY

THE COMPULSION OF HONOR
"Honor is a harder master than
law." Thus declared Mark Twain,
and in these words he peered deeply
into human experience.

The things we are compelled to do
because something within us will
not let us do otherwise, are harder
than the things we do because
something from without forces us. Honor
is a hard taskmaster. His arguments
are based on unyielding
moral principles. He requires us to
remember others before ourselves.

He warns us that nothing will hurt
so poignantly in later years as a
troubled conscience. He assures us
that we have lost nothing until we
have lost self-respect and that when
we have lost that we have indeed
suffered loss.
Yet this hard taskmaster proves
with the passing years to be our best
friend. Even more, he becomes the
most comforting of all traveling
companions. We may part company
with others if we keep this good
friend at our side.

WASHINGTON LETTER

By JANE EADS
Washington—Jesse M. Donaldson,
new postmaster general of the
United States and two-man over
some 8000 postal employees, once
had a job to be a doctor.

But from the day 44 years ago
when he started as a part-time
postal clerk in the Shelbyville, Ill.,
postoffice where his father was
postmaster he has dedicated himself
to the service.

Sitting behind his big desk in
the New Post Office building here,
pages of congressional messages
stacked before him, photographers
taking his picture, newsmen waiting
for an interview, him, the stocky
genial man was proof that sticking
to the job pays.

He is the first career mailman
ever to become postmaster general.
In that post he draws \$15,000 a
year and is a member of President
Truman's cabinet.

Certainly neither snow, nor rain,
nor heat, nor gloom of night has
stayed this courier.
For indeed Donaldson, who admits
to both pride and humility in
his new appointment has lived up
to that motto of the Post Office
service.

Born on a farm near Shelbyville,
Aug. 17 1888, he taught for four
years in one-room school houses
in rural Illinois and during summer
vacations operated a fourth-class
post office for his father.

He was appointed city letter
carrier at Shelbyville in May, 1908, one
of the initial carriers to inaugurate
city delivery in that county seat.
He began preparing for that job 10
days ahead of time.

"In those days," he says, "the
mail that came to folks at Shelbyville
was not addressed to street
and number. It was my job to
route my mail and know where to
deliver it. I figure I covered 12
miles a day with morning and afternoon
deliveries.

"Soon I got to know every man,
woman and child on my route," he
says. "They were good folks. On
old days housewives used to meet
me at their gates so I wouldn't have
to walk up to the door through the
unshowered snow. They'd give me
hot coffee on cold days. During the
summer they often met me with a
glass of cold water or lemonade."

Donaldson's appointment as successor
to Robert F. Hannegan who
resigned to head the St. Louis Cardinals
baseball club, was a surprise
to him.

The Boys Who Pull The Load

Women IN THE CHURCH

Church World Service, an interdenominational organization of American Protestants engaged in relief work, has been bringing sixty "displaced persons" from Europe to the United States each month, and has already aided 1200 persons to new life.

These women have never walked with him at the end of the day are to be pitied. Men shun them and despise them. But like them that wait upon the Lord, men of honor rise up with wings as eagles, they run and are not weary, they walk and do not faint.

An event unique in evangelical circles in Brazil took place recently, when Miss Helen Asher, of St. Paul, Minnesota, was commissioned missionary of the Board of Missions and Church Extension of the Methodist Church in October 1946.

Speaking at the recent National Convention on the Church in Town and Country, at Rochester, N.Y., Miss Evelyn R. Hodgdon, of Oneonta (N.Y.) State Teachers College, said: "The church is concerned with the salvation of individuals and is therefore concerned with the salvation of society. The school is concerned with helping the individual to realize his greatest possible worth in satisfaction to himself and society. These institutions

have common needs for trained professional leadership who are: aware of the values of living in the rural community, alert to the current problems of the people, sensitive to the dynamics of human relationships, and convinced that Christian brotherhood actually practiced in ones own community is the first step toward world brotherhood. Brotherhood will depend upon the ability to build communities in which every individual has security and equality of opportunity."

Holiday Hospitality
These days party-giving and party-going are on everyone's mind. Yes, the festive yuletide season is approaching, bringing on that warm friendly feeling that comes with holiday hospitality.

Glazed Baked Ham
Bake a Wilson's Certified or Tender Made Ham* according to directions on the package. One-half hour before the ham is done, remove from oven and trim off the skin except for a crown around the shank end. Score the fat in diamond shapes with a sharp knife; dot with whole cloves. Beat one cup of currant or apple jelly or orange marmalade with a fork and spread over ham or sprinkle ham with brown sugar. Return to oven for another half hour to glaze.
*If you want to glaze a Wilson's Tender Made Ham (the original ready-to-eat ham) and still serve it cold, it can be glazed the day before and chilled.

Festive Plans
Having guests during the holidays? Then you'll want to be sure to have one of Wilson & Co.'s delicious hams. Whether it's a dinner, luncheon, or afternoon or evening party you're planning, a ham as delicious as Wilson & Co.'s will be enjoyed immensely.
Attractive bunches of holly-garlanded pineapples dress up the holiday ham shown above. Fill the centers of pineapple slices with cream cheese. Top with holly leaves (cut from green pepper) and berries (cranberries and orange) on the platter around the ham.
It's Good Business
If your husband has business Christmas gifts to buy, here is a tip he will welcome. It's good business to give a Wilson's Ham—a gift the whole family can enjoy.
Place your order early for either of Wilson's delicious hams—Certified Ham or Tender Made Ham. They're both tender, mild, full-flavored hams—each tops in its own class. Tender Made Ham, in the yellow wrapper is ready to serve cold, just as you buy it. Or heat it, if you prefer. Wilson's Certified Ham, in the orange wrapper, requires cooking before it is eaten. They're both delicious!
Tasty Twosomeo
Turkey and ham are both yuletide favorites. Either served alone is delicious but served together they are even better. That's right, serve a slice of turkey on a slice of ham as they do in the best hotels. This twosome will make a big hit at your Christmas table and holiday parties.
This column prepared prior to George Rector's death.

Duke Alumni In Pitt Will Meet On December 12

The feature of the annual fall meeting of the Pitt County Alumni Association to be held at the Airport Inn on Friday, Dec. 12, will be an address by Dean James Slay of Duke University. His subject will be: "Duke University's Responsibilities and Opportunities."

In addition to the address of the evening, there will be a number of other interesting features including the election of officers for the ensuing year. There will probably also be brief remarks by one of two members of the local association.

This annual fall meeting is one of many to be held in North Carolina and other states. These will reach a climax in a meeting to be held at Duke University in December, this celebrating "Duke University Day."

This year more local Duke Alumni Associations will hold meetings than in any year since 1941, when 76 meetings were held. Local associations have just been organized in Knoxville, Tenn.; St. Paul, Minn.; and St. Louis, Mo. In addition to dinners in the leading cities of North Carolina, meetings were held last year in twelve other states and in the District of Columbia, one of these meetings being as far away as Los Angeles, Calif.

Arrangements for the meeting are under the direction of E. Hoover Watt.

TRADE BODY'S BULLETIN IS NEWSY SHEET

Chamber Of Commerce Secretary Kyzer Gives Valuable Information

By CHESTER WALSH
The Greenville Chamber of Commerce's Bulletin for December, edited by Executive Secretary William T. Kyzer, issued today, is a newsy sheet and contains valuable information for businessmen, bankers, industrialists and others.

The Bulletin points out that the reduction of 28 percent in tobacco acreage for next year will result in taking 12,394 acres out of tobacco production. What crops will be used on this surplus land that will approximate in cash income which was received for the tobacco grown in 1947, is an important question to be answered by farmers and business interests in Pitt county, the Bulletin states.

At a meeting of farmers and businessmen here the first of this month, John W. Goodman, assistant director of the N. C. Extension Service, said the outlook for export tobacco in 1948 is not so good. The cotton outlook is good. Wheat is in short supply and the outlook for corn is excellent. He mentioned the short supply of meat in this county and said the outlook for sweet potatoes cannot be determined now. Goodman urged more production of home canned foods, poultry, eggs and milk—"live-at-home" farming to help overcome the loss of tobacco acreage. He stressed the importance of balancing labor and land. The Chamber's Agriculture Committee, Alton R. Barrett, chairman, is cooperating with farmers in working out a diversified farming program to offset the reduced tobacco acreage.

The Chamber of Commerce Bulletin reminds that passenger trains in Greenville may soon be a thing of the past if the application of the Norfolk Southern Railroad to remove its passenger trains is approved by the U. S. Utilities Commission. The railroad company stated that it was not planned to discontinue handling mail and express except on Sundays so long as a substantial public need for it exists, as at present. Removal of the passenger trains would leave the transfer of passengers to motor buses and automobiles. There is no air transportation service established here now.

The Bulletin gives considerable space to the bookable recently made available to the Sheppard Memorial Library as a traveling library in Pitt county by Greenville people. Attention is called to the approaching election of eight directors of the Chamber of Commerce to succeed those whose terms will expire shortly. Executive Secretary Kyzer said the nominating committee will nominate a slate of 16 members and mail ballots to members in good standing.

The Chamber of Commerce is doing great work here, businessmen, bankers and others say.

Grain Market

Chicago, Dec. 11.—(AP)—Corn led a downturn in grains today, dropping rather sharply at times following a slackening in demand for cash grain. Wheat and oats also were mostly lower, although the December wheat contract frequently displayed independent firmness.
Wheat closed 3/4 lower to 1/2 higher, December \$3.12, corn was 2 1/4% lower December \$2.00-\$2.59 1/2, oats were 1 to 1 1/4% lower, December \$1.24-1/4, and Soybeans were 1 to 2 cents higher, March \$3.90-\$4.30.

New York, Dec. 11.—(AP)—Recoveries continued for assorted favorites in today's stock market although many leaders were unable to overcome light offerings. Transfers ran to around 900,000 shares.

Rome Tied Up . . .

(Continued from Page One) would be called off before darkness. Strong police and military forces were on patrol and at stations to prevent disorders.
The dominantly leftist (mostly Communist) Chamber of Labor of Rome province, which called the strike last night, said there had been no attempts by workers to violate the strike call.

A Lull . . .

(Continued from Page One) weeks, perhaps until after the first of the year so as to give the workers a chance to replenish empty purses, to get by the Christmas holidays, and to forget (if they can) the hardships they have endured in the protracted strikes.

There is another aspect of the situation to which I have referred in a previous column and this is that the Reds appear to be anxious to see General Charles De Gaulle come to power again as head of an anti-Communist government. The general is their worst foe in France, and they believe he would break himself because of the country's economic chaos. With him out of the way they would have fair sailing—so they think.
In any event, of one thing we may be sure. The Communists will fight to the finish.

Anti-Inflation . . .

(Continued from Page 1) and they won't forget it. They'll probably take out their anger on the party—Republican or Democratic—which they'll blame if inflation gets worse.
If the Republicans' mild program fails to stop the rise in living costs, Mr. Truman is in a position to tell the voters:
"See, I asked for the power to stop this inflation but the Republicans wouldn't give it to me."
In November, when he asked for the power, he did not intend to use it right away but only if inflation grew worse.
When, later? Maybe not before spring, his advisers have said.
If the Republican program fails—and shows clearly in the next few months that it's failing—they can say:
"We wanted to try the voluntary method first."
Maybe then—it would be spring

by then—they might vote Mr. Truman the power he asked for in November.
Well, if Mr. Truman didn't figure on using the power until spring and if the Republicans should give it to him in the spring, nothing is lost, is it?
Yes, months will have been lost. If Congress voted him the power now, months would be needed to set up the machinery to use the power.
If Congress votes him the power in the spring, months still will be needed to set up the machinery, months in which inflation can grow still worse.
But if the Republicans' program works, they can tell the voters: "Mr. Truman wanted to control inflation by police methods but we did it on a voluntary basis."

Trains Crash . . .

(Continued from Page One) Several thousand dollars in currency shipments were recovered by Deputy Sheriff V. E. King of Comal county. A platoon of National Guardsmen from New Braunfels guarded the wreckage and mail.
No water was available and flames were fought with chemicals.
The accident occurred on a single straightline track. No block signals are used along that part of the line and trains pick up orders from points along the line, officials said.

National 4-H Achievement Week
In observance of National 4-H Achievement Week, November 1-9, a 4-H exhibit was placed in Blount-Harvey's store window which won first place at the State Fair in Raleigh and exhibited by Dora Vines of the Farmville 4-H Club. Miss Vines has been very active in 4-H Club work. It was felt that this exhibit served as an incentive for better project work among 4-H members.
4-H Club boys had an exhibit in J. C. Penney's store window displaying farm produce. Choice hams,

sweet potatoes, hybrid corn, peanuts, cotton, tobacco and eggs. These exhibits exemplified the achievements that are being realized by 4-H Club members through various 4-H projects.

Achievement Day Programs

Fourteen 4-H Clubs in the county held community Achievement Days during the month of November. Such articles as canned goods, farm produce, needlework, clothing and handicraft work were displayed at these local exhibits. Such exhibits visualize the accumulated results of the club work and gives an opportunity for comparison and improvement as well as for new ideas. Culminating 4-H Club activities

for the month, the Clemons and Post Oak 4-H clubs held their annual Achievement Days—November 18 and November 21 respectively. These were outstanding events of the year and were largely attended. Featured as guest speaker on the Achievement Day program at Post Oak school was Mrs. Beattie E. Ransom, Negro subject matter specialist, A. and T. college, Greensboro, N. C., who chose for her subject "Standards of an Achievement Day." This occasion was an enjoyable one for all attending.

Double-Barred Cross Days Set By Mayor Boyd

In honor of the work done in Greenville to bring tuberculosis under control, Mayor J. H. Boyd today designated tomorrow and Saturday as Double-Barred Cross Days.

Through the cooperation of principals and teachers every child in this county will have a part in the Christmas Seal Sale on Friday as each room is given a lesson on tuberculosis and Christmas seals. The children will wear Double-Barred Crosses and buy seals for their own use. School children will take seals out to sell this year since the parents received their supply through the mail. The program

is directed by Mrs. R. H. Evans, school sale chairman in Greenville, and local chairmen in each county school.

Small replicas of the red Double-Barred Cross, international emblem of the campaign against tuberculosis, will be sold on the streets Saturday by Girl Scouts under the direction of Mrs. Hoover Tait, street sale chairman.

Proceeds from the sale of Double-Barred Crosses will be added to funds from the Christmas Seal Sale, which opened Nov. 24 and will continue until Christmas. The funds finance the tuberculosis control activities of the Pitt County Tuberculosis Association.

Medical Merger Appears Doomed

Raleigh, N.C., Dec. 10 (AP)—A plan calling for the merger of the University of North Carolina's four-year medical school and the Moses H. Cone Memorial Hospital at Greensboro appeared doomed today.

Committees representing the university trustees, the university's medical school and trustees of the Cone Foundation met with Governor Cherry yesterday and following this session officials announced that "no satisfactory plan" for the merger could be worked out.

Greenville Youth On Navy; Completed Basic Training

George William Jordan, Jr., of Greenville, has recently completed his basic training with the Navy, at the U. S. Navy training station, Great Lakes, Ill., and is at present enjoying a twelve day vacation with his parents, Mr. and Mrs. G. W. Jordan who reside at 16 Summit St. in Greenville.

On expiration of his vacation, Jordan will return to the Navy training station Great Lakes where he will enter the Navy's famed school of electronics for a twelve month course in aviation electronics. Jordan will be at least a third-class petty officer upon completion of school. On expiration of his enlistment in the Navy, should Jordan decide on more education, many of the good colleges grant credits for Navy electronics training.

Jordan was accepted for enlistment in the Navy through the Greenville recruiting station on September 13, 1947 according to word received from Chief Gunner's Mate B. F. Parrish, of the Greenville station.

American League Burns Over Trades To Boston

By JOE REICHLER
New York, Dec. 11—(AP)—Skipper Joe McCarthy and General Manager Joe Cronin of the Boston Red Sox fiddled today while the rest of the American League burned. Still smoldering over the deal that sent three top flight players from St. Louis to Boston last month, American League club officials became further incensed yesterday when the Red Sox hired Stan Spence, hard-hitting outfielder of the Washington Senators in a trade for reserve outfielder Lee Culbertson and Rookie Second Baseman Al Kosar.

Spence, despite a .379 batting average last season, is expected to bolster the Red Sox enter patrol. He smashed 16 home runs and drove in 73 runs. He is the fourth top grade performer acquired by the McCarthy-Cronin combination since Morse Joe took over the helm last October.

Even before their acquisition of Spence, the Sox had gained the title of "the team to beat in '48" via last month's garnering of ace shortstop Vern Stephens and starting pitcher Jack Kramer and Ellis Kinder from the St. Louis Browns for a flock of utility players and untried rookies—not to forget a fistful of cash.

Those at the boiling point include Bill Veack, president of the Cleveland Indians; Dan Topping, New York Yankee head, and Billy Evans, general manager of the Detroit Tigers—all of whom confessed they were getting tired of seeing the Red Sox grab big name players right from under their noses.

Lujack Decides To Play "Pro"

New York, Dec. 11—(AP)—Johnny Lujack has decided to play professional football after he graduates from Notre Dame next spring but he can't make up his mind whether it will be with Chicago's Bears or their All-America conference rivals, the Rockets.

"As you know, I've been drafted by both clubs, but I'm not going to do anything until after I graduate," the Irish's great T-formation quarterback said last night just before receiving the Heisman Memorial Trophy.

The Connelisville, Pa., All-American is the 13th recipient of the annual award, presented to the outstanding college football player of the nation by the downtown athletic club in memory of the late John W. Heisman, for 37 years a coach and athletic director at eight different schools.

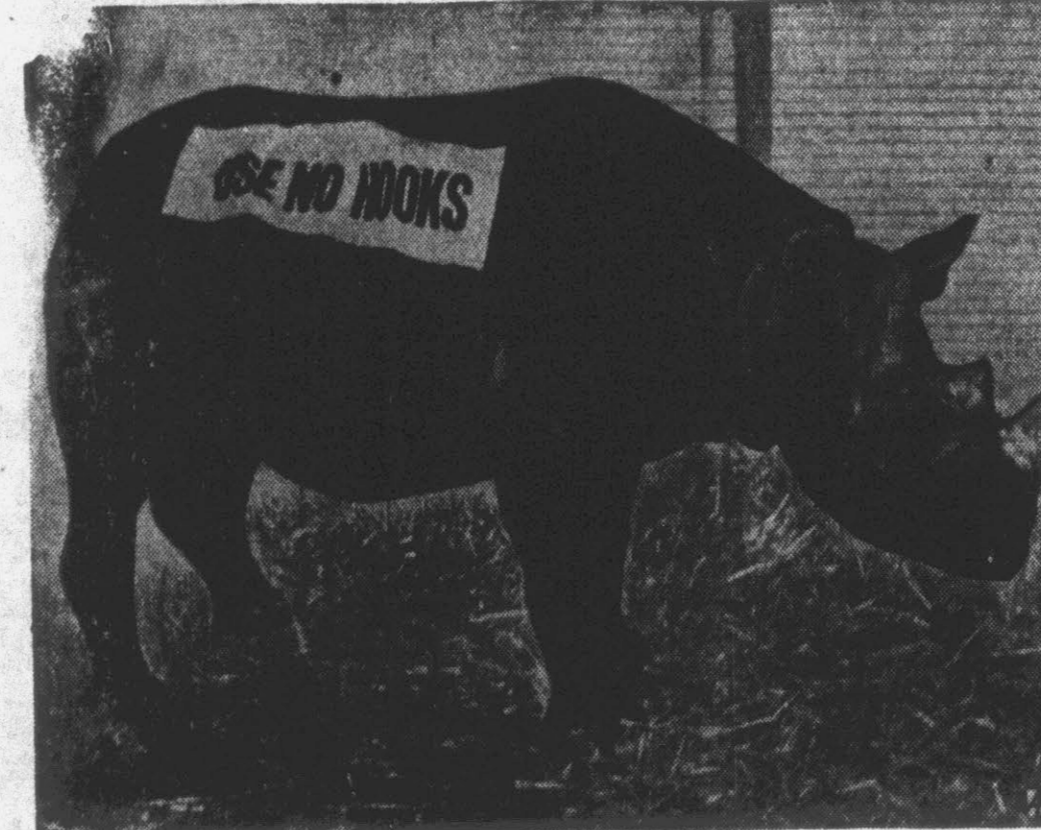

"I want to play pro ball, but I haven't given much thought to a choice between the Bears and the Rockets yet," said the mild-mannered, unassuming star of the country's mythical national championship eleven.

Heavyweight Champion Joe Louis in a return bout, probably next June. Walcott's manager, Joe Webster, said today that the Camden, N.J., fighter already had received offers totalling \$150,000, and is considering making a South American exhibition tour similar to the junket Louis took last winter.

California shipped more than 39 thousand cars of fruits and vegetables to New York City in 1946. New York State sent more than 35 thousand cars.

Duke Coach Will Be Guest Here

Clarence (Ace) Parker, famous gridiron and baseball star and assistant football coach at Duke University, will be guest speaker at the Kiwanis Club's weekly supper meeting Friday night at 8:30 and show a motion picture of the recent Duke-Maryland football game. Kiwanian Reynolds May, who played ball with Parker at Duke, will introduce him. Dr. John D. Messick, president of East Carolina Teachers College, will have charge of the program. President El Bloom will preside.

Members of the ECTC Pirates' football team will be guests of the club. Coach Jimmy Johnson will award the players their "letters." A "quartet in brass" from the college, Edward Benson and Hogan

Gaskins, trumpets, and Rodney Roberts and Bob Gaskins, trombones, will play several selections.

Local Recruiting District Leads In Third Army Area

The Columbia Recruiting District, which includes all Army and Air Force Recruiting Stations and Sub-Stations in the states of North and South Carolina, has captured the number one position among the Recruiting Districts of the Third Army Area, which includes the seven southern states of North Carolina, South Carolina, Georgia, Florida, Mississippi, Tennessee, and Alabama. For several months the Carolinas have been running a little behind the Atlanta District which includes the states of Georgia and

Florida, but in November the Carolina Recruiters forged ahead by enlisting a total of 988 men in the two states during the month.

Inasmuch as the Third Army Area is leading all other Army Areas in the United States, it is obvious that the Carolinas must be high, if not on top, of the list of all Recruiting Districts in the country.

First Lt. George C. Blinbury, commanding officer of the Greenville N. C., Sub-Station, in giving the report for November, states that the local office enlisted a total of 26 men during the past month.

The U. S. auto industry before the war used about 26 per cent of the sheet and strip steel produced in the country, but in 1946 the urgency of other needs reduced the auto industry's use to about 13 per cent of production.

Walcott To Reap Offers Of Cash

New York, Dec. 10—(AP)—Jersey Joe Walcott stands to make a pretty penny from exhibitions, personal appearances, radio and writing jobs between now and the time he meets

Four Big Tilts Last Night For N.C. Basketball

North Carolina's major college basketball teams are taking tonight off before resuming their campaigns.

Last night, N.C. State's defending Southern Conference champions won their seventh straight, a 62-48 decision over Ames Hosiery from Winston-Salem. Forward Dick Dickey of State poured in 22 points to take individual honors. It was the seventh consecutive game, also, in which the Wolfpack scored more than 60 points.

North Carolina's White Phantoms made it four straight for the season by whipping Atlantic Christian, 71-44, at Wilson. Deran Walters, Wake Forest's star forward, led the scoring with 17 points.

Wake Forest's Demon Deacons stopped a two-game losing streak by whipping Atlantic Christian, 71-44, at Wilson. Deran Walters, Wake Forest's star forward, led the scoring with 17 points. Catawba's Indians whipped the McCrory Eagles, of Asheboro, 57-45. McCrory's Center Ab Williams scored 20 points to top both teams.

Infielder-Actor Has Rough Time Over Contracts

Monrovia, Calif., Dec. 11—(AP)—Johnny Berardino, infielder, and Johnny Berardino, film actor, are (1) having a tough time figuring out whether they (he) can be both, or which.

Looks like the movies have Johnny, at the moment. He's signed a contract which can run for seven years with film producer Richard K. Pollmer and Johnny says "there's no way I can break that; I'm afraid that comes first."

However, the St. Louis Browns have traded Berardino to the Cleveland Indians and the Indians say they think Johnny will sign a baseball contract. Johnny says:

"I expect Pollmer to hear from Bill Veack (Indians chief) x x x This trade is something new, and whether I can fulfill the (movie) contract, and play baseball, too is something for Pollmer and Veack to take up."

Grimesland And Ayden Twin Bill

Grimesland and Ayden high school basketball teams divided a doubleheader in the Grimesland gymnasium on Tuesday night, December 9. The Ayden girls won over the Grimesland lassies with a score of 19 to 12. Whitehurst tossed 14 to lead the winners and F. Edwards rang 6 to lead the Grimesland team.

The Grimesland five won the evening's nightcap from a scrappy Ayden team 29 to 14. Wainwright led the winners with 11 points while Teeny Bullock tossed 7, to lead the visitors.

Name Candidates For Santa Anita

Arcadia, Calif., Dec. 11—(AP)—An array of 116 candidates, including the champion Armed, one of the winners of a total of 94 stakes in 1947, has been nominated for the \$100,000 Santa Anita Handicap Feb. 28.

With the important matter of weight assignments due later this month, the Los Angeles Turf Club disclosed nominations today.

In addition to the Calumet Farm's Armed, voted the outstanding horse of the past season the roll includes Ohaverry, the winner of the big one last March, and such standout performers as Ferent, Comic Bomb, Cover Up, Bridal Flower, On Trust, Miss Kimbo, Double Jay, and With Pleasure.

Free Substitution Has Snavely's Okay

Wilson, Dec. 11—(AP)—North Carolina's head football coach Carl Snavely believes the free-substitution rule should be used for at least another year.

In a speech before the Wilson Touchdown Club last night the Tar Heel grid coach said that the rule which has been in effect in college football for the past year should remain for another year in fairness to those who made it

Every mile gives added proof of BIG-CAR QUALITY AT LOWEST COST

As more and more Chevrolet owners are discovering, years of service mean nothing to a Chevrolet! This car has extra strength in every part—built-in ruggedness and reliability—the excellence that endures. It will serve you for scores of thousands of miles, and the longer you drive it the stronger your appreciation of its value—for it possesses Big-Car durability and dependability unequalled in its field. And only Chevrolet offers all the other advantages of BIG-CAR QUALITY AT LOWEST COST described for you here.

One look will tell you that Chevrolet out-shines all other cars in its field. It brings you smarter design—smarter colors—smarter upholstery and appointments! It alone offers a luxurious body by Fisher at lowest prices.

You'll find Chevrolet engineers give special thought—extra thought—to the safety of your family; for here are a Unibody by Fisher, the Knee-Action Side and Positive-Action Hydraulic Brakes—features combined only in Chevrolet and higher-priced cars.

You can't beat a Chevrolet for all-round performance with economy. And Chevrolet's world-champion Valve-in-Head Thrift-Master Engine, unique in its price range, wrings the last ounce of energy out of every gallon of fuel.

The demand for new Chevrolets surpasses all previous records. That means it's wise to safeguard your transportation by bringing your present car to us for skilled service, now and at regular intervals, pending delivery of your new car.

Governor Plans Throw His Influence Into Nurses-Hospital Controversy

Wilmington, Dec. 11—(AP)—Governor Cherry today planned to throw the state's influence into a controversy at the James Walker Memorial Hospital here to prevent the threatened mass resignation of 88 nurses next Thursday.

As the nurses' mass resignation is being actively rejected, a 12-point offer for improved working conditions because, they said, the offer was not made in correct form, the governor requested the State Labor Department's conciliation service to "make its facilities available" in the dispute.

The hospital's offer included no mention of the North Carolina Nurses Association and refusal of the hospital to recognize the association as their bargaining agent was given by a spokesman for the nurses as another reason for their resignations which will become effective Dec. 18.

The hospital offer included wage increases up to \$140 a month with full maintenance for general duty nurses, proportional raises of head nurses and supervisors, and yearly raises of \$10 a month for all for a minimum of three years. Six paid holidays, 24 working days a year and vacations for beginning graduate

State College Alumni Banquet Held At Red Oak

By CESTER WALSH
H. B. James, professor of agricultural economy at State College, Raleigh, was guest speaker at the Pitt County Chapter of State College Alumni Association banquet at Red Oak last night. It was ladies' night. President Conner Eagles presided.

EARLY WINTER WORKOUT—William Jewell gets an early start on the winter's battle with snow as he extricates his auto from a snowbank at Hamburg, N. Y.

A turkey supper was served by the junior and senior circles of Red Oak Christian Church.

Professor James made an interesting talk about what is going on at the college in Raleigh, enumerated some of the improvements and described buildings under construction, and emphasized his talk with stereopticon pictures of campus scenes. At the conclusion of his message a round-table discussion of the college's welfare was carried on. The president appointed to committee Cecil Cobb, chairman, Chester Walsh and J. H. Mobley, to draw up a resolution to be sent to the college officials urging completion of the stadium to permit a larger number of students, alumni and the public to attend the basketball games.

Another committee, Arthur Tripp, chairman, Billy Little and Sam Winchester, was instructed to draw up a resolution concerning the present requirement that a State College student, to secure his doctor's degree, must get it from the University of North Carolina.

Charge Negro With Robbery At Rural Point

By CESTER WALSH
Sheriff's officers are holding James Boyd, 19-year-old Negro who lives near the Martin county line on a charge of breaking and entering the home of William Henry Wilkes on the farm of Sheriff Court Clerk David T. House farm and the larceny of a \$500.00 worth of cigarettes and gun shells last Sunday night. Officers recovered the clothes.

The court clerk accidentally stepped into the role of a Sherlock Holmes when he discovered tracks outside the robbed house and later saw a Negro walking along and making tracks with the game peculiar

marking of those outside the house. House stopped and asked "Boy, what's your name?" "Dave House," the Negro replied. His name was Boyd. House contacted Police Chief S. H. Martin of Bethel and he made the arrest. Boyd will be given a hearing in County Court.

Urges Action On 'Solid Nitrogen' Shortage In N.C.

Washington, Dec. 11—(AP)—Rep. Kerr (D-NC) urged a House Agriculture subcommittee on fertilizer

today to do something about the shortage of solid nitrogen in North Carolina.

In a letter to Rep. Johnson (R-Ill.) chairman, he asked that immediate steps be taken "to alleviate the critical shortage of solid nitrogen existing in North Carolina." A delegation of farmers and farm leaders from the state appeared before the committee earlier this week to protest North Carolina's cut of 32 percent at a time when the supply in the nation increased 27 percent.

Dealers said increased production of fertilizer materials by a plant at Hopewell, Va., would help the nitrogen shortage throughout the South Atlantic states.

Tail Light For Mechanical Nag

Spokane, Wash., Dec. 11—(AP)—Warner Keehn has the problem of providing a tail light for his horse. Keehn fitted a merry-go-round horse with an engine and wheels. When he got his invention perfected so it would travel 15 miles an hour, turn at the touch of the reins and pull a sled or cart, he applied for a patent.

He also visited the Washington State Patrol to see if the officers could classify his mechanical nag. They could. It is a motor vehicle and to be licensed as such must have a headlight and tail light.

Siamese Twins Pass Critical Stage; Joined At Skulls

Indianapolis, Dec. 11—(AP)—Dr. Donald Casey, director of the Indiana University medical center here, said today the Bedford Siamese twins are past the critical stage, and that no separation will be attempted unless one of the boys appears to be dying.

The twins, 11-day-old sons of Mr. and Mrs. Edward R. Speer of Bedford, are joined together at the tops of their skulls by a bony structure three inches in diameter. "They are united firmly and the joint is not flexible," Dr. Casey said. "Theoretically, the only way they could ever walk would be with one twin supported upside down on the head of the other."

The tobacco plant was brought to Europe in 1566 by Francisco Fernandez, sent by Philip II of Spain to investigate the products of Mexico.

Many Never Suspect Cause
of Backaches
This Old Treatment Often
Brings Happy Relief
Many sufferers relieve nagging backache
quickly, once they discover that the real cause
of their trouble may be tired kidneys.
The kidneys are Nature's chief way of tak-
ing the excess acids and waste out of the blood.
They help most people pass about 2 pints a day.
When disorder of kidney function permits
poisonous matter to remain in your blood, it
may cause nagging backache, rheumatic
pains, leg pains, loss of pep and energy, get-
ting up nights, swelling, puffiness under the
eyes, headaches and dizziness. Frequent or
sorely passages with smarting and burning
sometimes shows there is poisonous waste
with your kidneys or bladder.

**Don't wait! Ask your druggist for Don's
Pills, a stimulant diuretic, used successfully
by millions for over 50 years. Don's give
happy relief and will help the 16 million of
kidney takers flush out poisonous waste from
your blood. Get Don's Pills.**

JAP INFLATION
Tokyo, Dec. 10.—(AP)—Mounting
inflation has so boosted the issue
of Japanese currency that the Bank

'White Gift' Service Held In Austin Auditorium

A White Gift service, symbolic of the spirit of Christmas, was presented at noon on Tuesday in the Austin auditorium at East Carolina Teachers College by the YWCA and the YMCA of the college. The service, which has become traditional on the campus, was arranged by Josephine Herring of LaGrange, chairman of the program committee of the YWCA, with the help of the presidents of the two organizations, Alma Arrington of Hollister and Paul Brown of Lexington, and of Jack Brown of Wilkesboro. Faculty advisers were Lois Grigsby and Louise Williams.

A tableau of the scene at the manger was arranged on the stage with Mary Johnson of Kingston as Mary and Maynard A. Dean of Oxford as Joseph. John Postnaris of Asheville, Pa., read the service as an allegorical ceremony took place in which gifts were presented by students and staff members representing various college organizations.

Christmas Cards For Outside N.C. Should Be In

All Christmas cards for out-of-state delivery, and all Christmas packages, should be in the mail today in order to ensure their arrival before Christmas.

The heavy flood of gift packages and Christmas cards in post offices all over the United States makes early mailing essential. Postmaster J. K. Proctor explained, Christmas cards for local delivery should be mailed before December 15, he said.

"Envelopes and packages may be marked 'Do Not Open Until Christmas' if desired," the postmaster advised. "Such notes are permitted both on parcel post and on regular mail, including Christmas cards sent third-class with a 1 1-2-cent stamp."

The postmaster warned that envelopes of third-class mail may not be sealed, either by licking the flap or by closing with Christmas seals, although Christmas seals may be affixed to the back of the envelope.

Christmas Gifts For Children's Home Society

By CHESTER WALSH

You can help a baby find the home he needs through a gift to the Children's Home Society of North Carolina. The message being sent to Greenville people by the local Sponsoring Committee of the Children's Home Society of North Carolina, composed of J. S. Pickens, chairman and Mrs. R. M. Garrett, Mrs. J. H. Blount, Mrs. James T. Little, J. H. Waldrop, Dr. K. B. Pace, B. Kittrell and Lewis G. Cooper. The committee is sending letters and circulars to many persons here, with a request that they make a

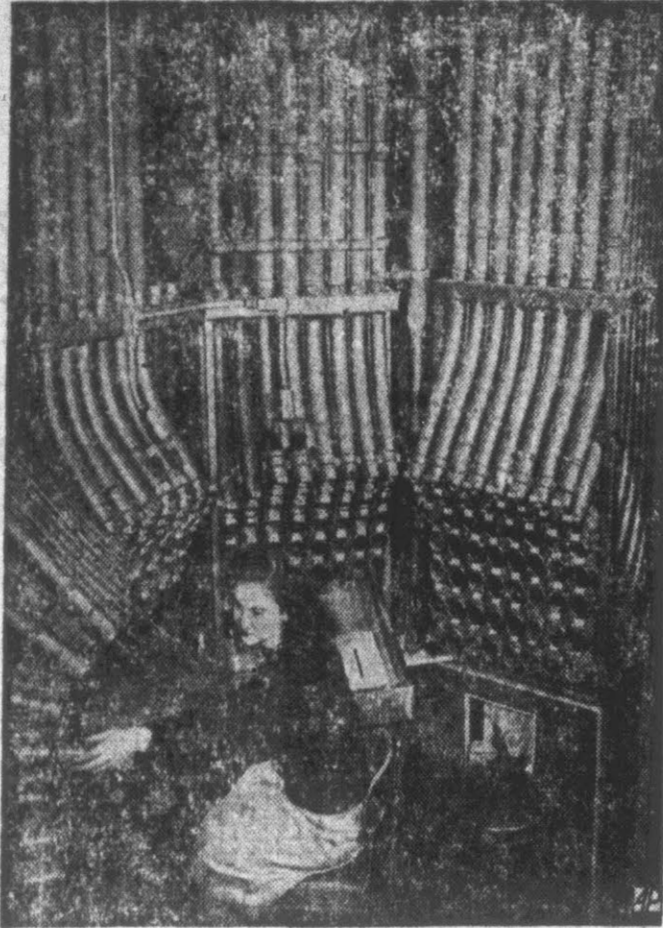

gift in enclosed envelopes. The Children's Home Society is the only agency licensed by the State Department of Public Welfare to provide care for babies from all parts of North Carolina and place them in good homes throughout the state. The society depends entirely upon voluntary contributions from generous people for the support of its work. It is non-sectarian and it receives no tax funds. The society is controlled by a board of directors composed of 50 outstanding men and women from every section of the state. It operates within a carefully prepared budget and has no indebtedness. The Children's Society cared for 110 babies from Pitt county between 1917 and 1946.

Mail a check as a Christmas gift to the Children's Home Society, Greensboro, N. C. and be a Good Samaritan.

BEAUTY KILLED

Tokyo, Dec. 11—(AP)—Yoriko Miyao, 23, famed as the most beautiful girl in Tokyo's Shimbashi District, was stabbed to death and her mother and sister wounded by two robbers last night. The thugs, armed with 12-inch butcher knives, were captured.

BUSY 'ORGANIST' — Helen Sarros sits at the "console" of the enlarged tube room in the Marshall Field & Co. store in Chicago, through which cash sales transactions can now be completed in an average of 90 seconds.

Japan's Turn

Tokyo, Dec. 11—(AP)—Now it's Japan's turn. Kyodo News agency said today a policeman and two companions in Fukushima, 125 miles north of Tokyo, reported seeing a flying saucer in mid-afternoon Oct. 10. It was described as about a yard in diameter with a tall fire a rocket, and traveling from west to east at about 650 feet altitude.

Johnnie, of Weidon banjoist; "Tex" Price and Bud Crisp of WRRF, Washington; and Otto Willard and his band of Williamston.

The stage show starts at 8 o'clock, dancing, 9:30 until midnight. Each Friday night a few minutes will be used to recognize some outstanding citizens of Greenville. Fire Chief George Gardner will make a short talk on fire prevention Friday night.

Arrest Negro On Forgery Charge

By CHESTER WALSH

Police arrested Lee Andrew Lewis 27-year-old Negro of Whitehurst's Station on a charge of forging the name of "Noah Williams" on a check for \$21 and trying to cash it at the People's Bakery on Dickinson Avenue.

Chief Beauford Drum quoted Lewis as saying that he was at Evans and Second Streets yesterday when a Negro named "Ernest Richard" persuaded him to write a check payable to him, sign Noah Williams' name on it, and write on the check that it was in payment for a hot. He said he wrote the check while sitting in a car on Second Street. He quoted "Richard" as telling him that if he got the check cashed he would give him part of the money. He was apprehended at the People's Bakery after Frank Deiner, the owner, called police. Lewis had a pad of blank checks when arrested.

When police required Lewis to write at headquarters, the writing on the check was identical with his penmanship. Lewis is a tenant on the Jasper Wynne farm near Whitehurst's Station. He will be given a hearing in Police Court Friday morning.

Make Home Furniture Store Your Christmas Store

... Come, see what a wonderful Christmas Bazaar our store has become. Here we have assembled, for your unhurried choice, exquisite reproductions of rare old pieces... chairs and sofas with a decorator look and long-winter evening comfort... little tables that multiply a room's liveability... a host of occasional pieces that are so great a contribution to pleasant living.

... Yes, when you choose gifts for the home at Home Furniture Store you choose gifts that last for years and years. So this Christmas make it a point to give something for the home.

... And when you shop at Home Furniture Store remember that you have the choice of three charge plans:

1. Regular 30-day Charge Account.
2. Regular Contract Account, 20 per cent down, up to 15 months on balance.
3. 90-Day Account. Required down payment, then three equal monthly payments.

National Guard To Have Show, Dance On Friday Nights

The third of the winter shows and round and square dances will be held at the armory Friday night for the benefit of the local National Guard battery. Capt. J. B. Tyndall is battery commander. Clay Burnett and Francis Joiner of Farmville are lieutenants. Sherman Parks is first sergeant. Proceeds of the dances will be for the benefit of the National Guard. A nominal admission fee will be charged.

An entertaining program will feature the weekly dances. Capt. Tyndall authorized Arnold Wilson to appoint Bill Griffin, formerly with the Grand Old Opry in Nashville, Tenn., as master of ceremonies. The entertainers will include the Evans sisters, talented singers; "Miss Rebecca," of Corpus Christi, Texas, vocalist; "Little Johnny" Strickland, 11-year-old trick fiddler; "Big
