Air Policy Board Asks U.S. Defenses Readied By 1953

Presidential Air Experts Call For Air Force 'Ready To Fight' By Jan. 1, 1953; Attack Without Warning Considered Probable; U.S. 'Safe' Today

Washington, Jan. 14 (AP)—President Truman's Air Policy Commission said today the government should add billions of dollars to air power spending estimates to create a force "capable of dealing with a possible atomic attack on this country" by Jan. 1, 1953.

A report by the five-man board declared the air force presently planned would be "inadequate" even for the intervening five years.

It would be "hopelessly wanting," the report said, for the later period when it should be assumed that "other nations will have atomic weapons in quantity and the equipment to deliver them in a sustained attack on the United States mainland."

The commission said plans should be expanded all along the line to call for:

- 1. An air force of 30 groups instead of the 16 groups now planned.
2. Doubling the present total of 3,500 first line combat aircraft by the end of 1953.
3. A \$1,900,000,000 increase to bring air force spending to \$4,150,000,000 for the 1948 calendar year and to \$5,450,000,000 for next year.

An additional \$122,000,000 above budget estimates to modernize the Navy's air arm this year and \$310,000,000 more for the same purpose in 1949.

"We believe," the commission said, "that the United States will be secure in an absolute sense only if the institution of war itself is abolished under a regime of law."

Meanwhile its final 145-page study urged a "double-barreled" policy of attempting to achieve world peace through the United Nations while preparing to defend ourselves if war should come.

To achieve this goal, the commission said, there must be "a reversal of our traditional attitudes toward armaments and national sovereignty."

The commission urged an immediate start on expansion of the air force with modern equipment, asserting "we have no breathing space in which we do not need air power."

The ready-to-fight, 70-group air force recommended by the commission would have 6,989 first line aircraft in a total of 13,400 modern planes by Dec. 31, 1949.

The naval arm was described as adequate in size, but needing modern aircraft replacements.

"The world situation is dangerous," it said, "our foreign policy is not running away from the danger. This is not to criticize our foreign policy. A nation in the position in which the United States finds itself today has no choice but to follow policies which may lead to friction with other nations."

The commission said the United States must assume there will be no warning of attack, and that the force in being at the end of 1952 is the one which will have to handle the enemy. At the moment, it said, no nation is capable of a sustained assault upon the continental United States.

BETTER CREDIT RISKS Chicago, Jan. 14 (AP)—A sociology student claimed today results of a survey of installment buyers indicated that the single man is not as good a credit risk as married persons and single girls.

Gandhi's Newest Fast

Effort Of India's Revered Little Patriarch Is A Great Spiritual Drama Which Could End Strife; Bones Of Contention; Mahatma's Death Could Fan Flames

By DEWITT MACKENZIE

India is witnessing the beginning of an amazing spiritual drama and one which may have far-reaching effects, for Mohandas Gandhi has begun another of his fasts—perhaps unto death—in an effort to bring peace to the vast Indian peninsula which is dangerously near war because of the bitter differences between the new dominions of India (largely Hindu) and Pakistan (mostly Moslem).

To the Western world such tactics seem strange and perhaps futile. But "east is east and west is west," and the action of the aged and frail little Mahatma already has shocked and sobered millions of his countrymen who revere and even worship him as a holy man. We see striking proof of this in the fact that trading was suspended in the markets of the great cities of Calcutta, Bombay and Madras as he proclaimed the beginning of his fast with the declaration:

"You must prefer Gandhi or lawlessness; you can't have both." It would take a very saintly man indeed to shake Wall Street or "The City" of London into closing down. In India, however, Gandhi has greater influence than any other individual, and that influence isn't restricted to his own people—the Hindus. Just before he began his

For Defense

Washington, Jan. 14 (AP)—Secretary of Defense Forrestal said today the United States does not seek to build an aggressive air force but only one for defense.

A reporter asked Forrestal if he believes the United States should have "an aggressive air force."

"I don't consider that we are going to have an air force that is aggressive," Forrestal said. "I'm for an air force of sufficient power to give us a force capable of defending the United States."

Then he added that democracies never plan for war.

Krug Backs Allocations

Ready To 'Freeze' Coal And Petroleum Product Prices

Washington, Jan. 14 (AP)—Secretary of Interior Krug said today that if Congress stands by price control power he immediately will order a 90-day "freeze" of retail and wholesale prices for coal, fuel oil, gasoline and all other petroleum products.

Krug also told the Senate Banking committee that if the administration is given allocation and rationing authority, he believes it will be necessary to allocate and "possibly" ration fuel oil and gasoline.

Generally speaking, allocation is dividing up of scarce commodities among suppliers. Rationing is dividing them among consumers.

Krug testified in support of hold-in-reserve power to restore rationing and wage-price controls on a limited basis as Congress received President Truman's annual message on the nation's economy.

From the administration's standpoint, the most important parts of the program are those calling for hold-in-reserve authority to restore rationing and wage-price controls if necessary.

The slim prospects these measures face in Congress was pointed out again yesterday as Republican members of the Senate Banking Committee tore into the testimony of Secretary of Labor Schwelb.

His support of standby wage-price control power prompted the attack.

Goldboro Man Dies Following Shooting

Goldboro, N.C., Jan. 14 (AP)—Deputy Sheriff Roy Percise said today that Henry Bruce Gurganus, of Goldboro, had been fatally shot in a roadhouse argument on the Mt. Olive highway near here last night.

Percise said that James H. Phillips of Route 4, Wilson, an employee of the roadhouse, is being held without bond pending further investigation.

February Date Set For Arab Attack Palestine

Damascus, Syria, Jan. 14 (AP)—Defense minister Ahmed Sharabati says a trained Arab "people's army" will launch a direct frontal attack next month to sweep Zionism from Palestine. Some Arab sources here believe February 15 may be D-day.

Sharabati said in an interview last night the attack will be made "with men and arms in an honorable way to preserve the rights of our Arab brothers." He said full scale training and arming are in progress, and declared there will be "no bombing in the dark."

Military observers denied a "people's army" already is in the Palestine fight, and said the recent invasion of Palestine from Syria was a Fadi tribal sortie led by Prince Fawzi. There are an estimated 8,000 Fadi tribesmen living along the Syrian-Palestine border.

Fawzi Bey Al Kawkji, chief of the volunteer fight against Zionism, who said he had been in Palestine "several times" in the last month, declared:

"In one month you can witness the results of our preparations! This is war. We propose to sweep Zionism from Palestine with superior military force."

"People's army" members are training at the former British camp, Katana, and a local newspaper the origin on its strength has been suppressed.

According to foreign observers, 2,400 men are in barracks designed for 10,000, and some 7,000 Syrian volunteers already have registered. Syrians say 80,000 armed tribesmen are available.

Special Bargain In Inflation Era

New York, Jan. 14 (AP)—Good news for the harassed American, alarmed by the soaring price of bread, meat and beer, comes from the 34th national motor boat show at Grand Central Palace. Now he can buy a brand new 42-foot three-cabin cruiser for only \$15,985. Last year it cost \$17,850.

To avoid any rush toward this "bargain basement special," it should be pointed out that this does not represent a general trend of prices.

Music Czar Acquitted In Court Test

Petrillo Wins Again; No Violation Of Lea Act Rules Federal Judge

Chicago, Jan. 14 (AP)—James C. Petrillo today was acquitted on a charge of violating the Lea Act which Congress passed to curb his broad union powers.

Federal Judge Walter J. La Rue, in his opinion of eight pages, said "there is no evidence whatever in the record to show that the defendant had knowledge of or was informed of the lack of need of additional employees prior to the trial of this case."

The government alleged in its criminal case that Petrillo, head of the AFL American Federation of Musicians, had violated the law by calling a strike to coerce Station WAAP, Chicago, to hire extra help.

The judge added: "Nothing contained in the letters and telegrams between the defendant and the representatives of the station disclosed to the defendant the lack of need for additional employees as a reason for rejecting the defendant's demands."

"Neither does the testimony in this case show the defendant had knowledge of or was told that the station had no need for additional employees."

Petrillo, stern-faced, was present as the verdict was read.

Continue Sales Of British Arms To Arab States

London, Jan. 14 (AP)—Britain will continue to fulfill her contracts to sell arms and military equipment to certain Arab states despite their threat to march against Palestine after the British mandate ends, a foreign office spokesman said today.

Three factors govern the supplying of British arms to Iraq, Egypt and Trans-Jordan in particular, and to other mid-eastern countries in general, the spokesman said:

- 1. In the cases of the countries named, equipment is sold under specific clauses in friendship treaties with Britain.
2. In each case orders for military material "were carefully scrutinized" before being carried out. Orders were not approved if it was clear the arms were to be used in or against Palestine, the spokesman said.

Britain maintains the right to suspend fulfillment of her arms contracts if any of the states violate the United Nations charter.

Explain Finances Of Marshall Plan

Sec. Of Treasury Opposes Requirement To Use Dollar Holdings In U.S.; Part Of Aid In Gifts, Loans; Currency Needs

Washington, Jan. 14 (AP)—Secretary of the Treasury Snyder today vigorously opposed requiring the 16 Marshall Plan countries to use their dollar holdings in this country to help cover costs of the \$4,800,000,000 European aid program.

"It would be folly" to force them to do so, the secretary told the Senate Foreign Relations Committee.

Snyder said citizens of these countries had about \$4,800,000,000 in dollar assets on last June 30, but he added that:

It would be difficult to get cash readily on most of these assets as some are already pledged for loans; the Europeans need the fund to cover their normal trade and financial operations; and their holdings already are below a "safe" amount needed to keep their own currencies steady.

Snyder, explaining financial aspects of the Marshall Plan for European recovery in testimony calling on Congress to approve it in the form and amount laid down by President Truman, also said that:

- 1. Part of the United States money should be provided as "grants in aid"—meaning gifts—and part in loans. The amount required to be repaid should be held down to the "borrowing country's capacity to repay in dollars."
2. Five percent of the program funds should be set aside to guarantee private American firms U.S. dollars in exchange for foreign currencies they earn through investment in those countries. Purpose is to attract private investment abroad.

3. Congress should permit the U.S. aid money to be spent on buying short supply goods for the Marshall Plan countries in Canada, Latin America and elsewhere, or in one Marshall Plan country to buy goods for another one.

4. Separate agreements will be required from each beneficiary country—many steps will be taken to steady its currency.

This would be done through a balanced budget, tax law changes and, at the proper time, devaluing inflated currencies to a point in line with their true buying power.

5. Each beneficiary country also will be required to set aside local currency in an amount equal to dollar "grants in aid" given by the U.S. and use it for reduction of its public debt unless the U.S. authorities use for reconstruction or development purposes.

6. The United States should lend gold and dollars later, possibly in this year and "probably" next, to furnish the European countries with hard money reserves to bolster the value of their own paper money and keep it steady.

One Dies During Hotel Fire Near White House

Washington, Jan. 14 (AP)—One person was killed and another injured early this morning in a four alarm hotel fire four blocks from the White House.

Harold Hill, 49, a resident of the Potomac Hotel's fifth floor was admitted to Emergency Hospital with second and third degree burns. His condition was described as "good."

Fire officials said the blaze—which was under control a little more than an hour after it started—was confined to the top floor of the old six-story building, which is located on Pennsylvania Avenue west of the presidential mansion.

Most of the hotel's occupants were driven into the street by the pre-dawn fire, which developed little visible flame, but a great deal of smoke.

The building, which was said to have 45 rooms, is close to a larger hotel, the Roger Smith, but guests of the bigger establishment were not disturbed by firemen.

Sixty persons were registered as occupants of the Potomac Hotel at the time the fire broke out.

Gandhi Works While Fasting

New Delhi, India, Jan. 14 (AP)—Mohandas K. Gandhi finished the first 24 hours today of his new fast for communal peace in India and Delhi, hard at work with dictation. Only once did he report unusual weariness.

He sent word through his doctors to the Maharajah of Patiala, India's foremost Sikh prince, that he was too tired to receive him.

Gandhi's doctors, Sushila Nayyar and Jivrajia Jetha, said Gandhi had a "fairly good night."

He got up at 3:30 a.m. for his prayers as usual, they said. "After the prayers he lay down again and has been resting since and dictating to his weekly 'Harijan'—his newspaper.

As he passed the 24-hour mark at 11 a.m., the 78-year-old Gandhi could be seen lying on his bed on the lawn in front of his quarters at the mansion of G. D. Birla, millionaire industrialist.

Truman Aims Report At Inflation Trends

Edwin Pauley Ready Resign Govm't Post

Denies 'Smoked Out' By Stassen; Plans Retire Sometime In January; Brief Stay In Office Announced Months Ago

Washington, Jan. 14 (AP)—Edwin W. Pauley today prepared to resign from government service with a hot advance denial that he was "smoked out" by Harold E. Stassen's public needling of his record as a grain speculator.

The California oil man, former democratic national committee treasurer and a close friend of President Truman, announced that he is quitting as assistant to Secretary of the Army Royal "some time this month."

In a memorandum to the press distributed by the army last night Pauley declared this is in accordance with plans he made known soon after taking the job last September 3. Thus Stassen, he said, cannot "claim credit for bringing about my resignation."

The statement came two days after Stassen, a candidate for the Republican presidential nomination, called on Mr. Truman to answer this question:

"Does a man who has admitted under investigation that he made approximately a million dollars (\$92,703 to be exact) in personal profit, by speculating since the war in increased prices of food and commodities, belong in the position of assistant to the secretary of the army for procurement and industrial mobilization?"

Pauley said he told a Washington newspaper last September 16 that he planned to stay in the army department "for only three or four months" and "I said very much the same thing in a public statement December 15."

Last night Pauley said he had learned that Stassen had "finally found out" about the plan to quit. "Evidently Stassen has decided to make a new 'discovery,'" Pauley said.

"It is obvious he would like to claim credit for bringing about my resignation and again mislead the public."

Paris, Jan. 14 (AP)—Communists resumed a bitter fight today for the vice-presidency of the French National Assembly, charging that attempts to deprive the largest single party in the assembly of that post would be unconstitutional.

Marcel Cachin, the Communist interim chairman of the assembly who suspended the session yesterday when a majority of the deputies attempted to deprive the Communists of the vice-presidency, opened his resignation meeting.

He had expressed the hope he might refuse to do so. The Communists have threatened a boycott of all assembly offices.

The session yesterday had ended in turmoil. Deputies shouted, sang and engaged in fist fights. The meeting was suspended by turning out the lights after non-Communist deputies refused to leave.

Non-Communists have asked France's Socialist President, Vincent Auriol, to help them in their dispute over the division of offices in the more powerful of France's two legislative Houses. The final say on the constitutionality of any act of the Legislature rests with the assembly itself.

The dispute, in yesterday's re-organization session, centered around the assembly's first vice presidency. The first vice president would become assembly president in event of incapacity of President Edouard Herriot, Radical Socialist, re-elected yesterday in 76 and ailing.

This move is headed by N. B. Williams, Jr., who has announced that a slate of Eisenhower-pledged candidates will be entered in the state's April 27 primary. Williams' group has not always seen eye to eye with the regular organization.

General Risks Support Of Old-Line Republicans

Washington, Jan. 14 (AP)—Gen. Dwight D. Eisenhower may risk any chance for the ultimate backing of regular Republican organizations in several states if he fails to stamp out the independent presidential draft movement now underway.

The Army chief of staff has said several times that he has no interest in politics. But thus far he has not otherwise repudiated moves by the Draft Eisenhower League to put delegates into a number of GOP primaries.

While this move has the backing in New Hampshire of Senator Charles Tobey, Eisenhower enthusiasts elsewhere seem likely to be drawn from persons outside of and often at odds with the regular GOP organizations in the states concerned.

As a case in point, one Republican in close touch with the situation said privately that Eisenhower has had a better-than-fair chance for darkhorse support from the powerful Pennsylvania Republican organization at the June Philadelphia convention. But this party member added, the general may forfeit that chance if he does not disavow immediately a move in his behalf there.

Rumored Plea For 'Open City'

Jerusalem, Jan. 14 (AP)—An authoritative source said today the Palestine government has asked the Christian, Moslem and Jewish religious communities to declare Jerusalem's ancient walled area an "open city" as bloodshed continued in the Arab-Jewish warfare.

A high government authority was reported "nearing a successful conclusion" in negotiations toward this end with religious leaders. The government's request reportedly is that churchmen appeal to their followers to put the old walled city, sacred to all three of the world's main religions, under a permanent truce.

Renews Plea For Legislative Power To Cope With Soaring Prices; Cites Record Gains During 1947; Sets National Goals For 1948; Backs Own Tax Program

Washington, Jan. 14 (AP)—President Truman declared today that American prosperity is riding a "wave of inflation" toward the peril of a "serious" business slump.

Keying his second annual economic report to a renewed plea for legislative power to cope with soaring prices, the Chief Executive told the Republican-controlled Congress:

"The American people are keenly aware that inflation is the dominant problem in our affairs."

Mr. Truman used urgent words in demanding once again the full-temple kit of anti-inflation tools which the lawmakers refused him during last fall's special session. He asserted that standby price, wage and rationing authority are "needed, needed badly, and needed promptly."

In addition to congressional action, the President called upon business to cut prices wherever possible, "foregoing a quick and dangerous excess profit in favor of long-run stability."

And he urged labor to be "moderate" in its third round wage demands.

Nor did he yield any ground on taxes. He insisted that the \$7,500,000,000 treasury surplus now in sight for next June 30 must be used to lower the national debt, not cut tax rates as the Republicans are determined to do.

And Mr. Truman repeated his proposal for a \$40 a person "cost of living" income tax cut to be made up by higher taxes on corporations. After reciting record-breaking gains during 1947 in nearly every phase of economic activity the Chief Executive forecast "another year of splendid achievement."

But he took alarm as well as pride in the advances. "The nation shows ability to impose restraints upon ourselves and to utilize the machinery of our representative government to devise well-considered regulatory measures, we stand in great danger that runaway prices, over-extended credit and unbalanced developments will lead to an economic recession."

"We cannot be sure that such a recession would not be severe and recovery slow and painful."

Mr. Truman added: "When an inflation is in progress, there is no way of predicting when it will break of its own accord. One can only be certain that if permitted to run its own course, it will break with destructive force."

"The economic report, last of three (Continued on Page Eight)

Radiomen Attack Petrillo Edict

Washington, Jan. 14 (AP)—James C. Petrillo's 14 day old "for-ever ban" on record making by his AFL American Federation of Musicians threatens to "dwarf" the radio manufacturing industry, an industry representative contended today.

Bond Geddes, executive vice president of the Radio Manufacturers Association, declared in testimony before the House Labor Committee that widespread unemployment and bankruptcy will follow if the musicians union chief is not forced to retreat from his stand.

"It would be simply devastating," Geddes asserted.

Survival In Air Age

Remember Our Hopes For Peace In 1945? Remember Why The United Nations Were Formed? Remember The Great Charter? Experts Warn Of New Attack

By JAMES MARLOW

Washington, Jan. 14 (AP)—Those were brilliant days, warm and full of hope in San Francisco in the spring of 1945.

They were full of hope for a lot of people that at last this world, soaked in blood, might be able to go on without war.

Germany had surrendered. Japan was falling. And this country and its allies were meeting in San Francisco to create the United Nations. They did.

Some realists shook their heads when they saw the big nations insisting upon having a veto in the U.N.

That veto, they knew, meant any one of the big nations could block all the others when it felt like it and make a joke of U.N.

Nevertheless, here at last there was coming to life and what there was life there was hope, and that was something.

The diplomats who nailed U.N. together, through many days and nights of hard work, drew up the rules and intentions of this new society of nations.

They called what they did a charter. And right at the start the charter said why they were setting up U.N. "We the people of the United Nations, determined to save succeeding generations from the scourge of war, which twice in our lifetime has

brought untold sorrow to mankind x x x " x x x have resolved to combine our efforts to accomplish these aims x x x "To unite our strength to maintain international peace and security; and x x x "To achieve international co-operation in solving international problems x x x "The words went on. There were a great many words like those. But that was three years ago and since then something has gone wrong because last night a report was issued here. It was a 166-page book between pale blue paper covers. On the cover these were the words: "Survival in the Air Age—A Report by the President's Air Policy Commission."

May-Edwards
Miss Clarissa Brooks Edwards, daughter of Mr. and Mrs. George Nicholas Edwards of Winterville, became the bride of William Respass May, son of Mrs. William Samuel May and the late Mr. William Samuel May of Winterville, Wednesday morning at eleven o'clock at the Immanuel Baptist Church in Greenville. The Rev. J. C. Mays of Snow Hill, pastor of the bride officiated.

A program of nuptial music was rendered by Mrs. Howard C. Bodkin, organist and Mrs. Mays Dail soloist.

The bride, given in marriage by her father, wore a suit of mist blue with white blouse and navy accessories. She carried a white prayer book topped with brides roses and showered with lilies of the valley.

Mrs. E. C. Davenport, sister of the bride, was matron of honor. She wore a suit of frost beige with brown accessories and a corsage of yellow roses.

The groom had as his best man John Steinet of Kinston, Bryan Worthington and E. C. Davenport both of Winterville acted as ushers.

Mrs. Edwards, mother of the bride, wore an aqua crepe dress, trimmed in silver beads and a corsage of red roses. Mrs. May, mother of the groom, wore a black dress and a corsage of red roses.

Immediately following the ceremony the couple left for a wedding trip south. Upon their return they will be at home near Winterville.

Mrs. May is a graduate of Ayden High School and East Carolina Teachers College. She taught in the Angier city schools and the Baltimore city schools. For the past several years she has been studying voice at Peabody Institute of Music in Baltimore and under Frank Bibb of New York City.

son at the time of his induction into the Army. Since his return he has held a position at the Bank of Winterville.

Following rehearsal Sunday night, Mr. and Mrs. Edwards, parents of the bride, entertained at a cake cutting at their home near Winterville.

The table was centered with an arrangement of white flowers, flanked with burning tapers. Guests were greeted by Mrs. Edwards.

Mrs. E. C. Davenport served the wedding cake after the bride and bride-groom cut the first slice. Mrs. Charlie Davenport presided at the punch bowl. Mrs. Hubert Carter assisted in serving ice cream and nuts.

Goodbyes were said by Mr. and Mrs. Charles Edwards.

Observe 62nd Anniversary of The King's Daughters
On Tuesday night Miss Martha Lee Cowell and Mrs. Blanche Cherry were hostesses to the Century circle of The King's Daughters at the home of Miss Cowell.

In a most impressive manner, Mrs. W. R. Jones, presented the candle-light service for Founder's Day, January 13th, the 62nd anniversary of the order, honoring deceased members of the circle. In reminiscing, Mrs. Jones read reports from former presidents and officers.

The president, Mrs. Clara Mays Shackle, presided over the meeting and welcomed three new members. Miss Bess Lowe, Miss Estelle Greene and Mrs. John Warner.

The emergency committee, Miss Martha Lee Cowell, chairman, gave an excellent report on the work done for Christmas. Eighty-one needy people were visited and taken gifts of food, clothing, toys etc.

Mrs. Ed W. Harvey was unanimously elected corresponding secretary.

The meeting was turned over to the hostesses and a social hour was enjoyed and delicious iced tea, sandwiches, nuts and candies were served.

A cake, decorated in the circle's color, purple, was cut and served by Mrs. W. R. Jones, a past president.

The newly formed Greenville Music Club held its organizational meeting at the home of Dr. and Mrs. J. D. Messick on Tuesday evening, January 13, at 7:30.

Miss Elizabeth Drake, of the music faculty at East Carolina Teachers College, was guest artist, playing a piano recital of the following compositions:

Sarabande—Rameau—MacDowell; two chorale preludes: Awake, the Voice Commands—Bach—Busoni, Jesu, Joy of Man's Desiring—Bach—Myra Hess; Waldesrauchen—Liszt; Sonetto 104 del Petrarca—Liszt; Jardins sous la Pluie—Debussy; General Lavine, essentrio—Debussy; Prelude (Suite pour le Piano)—Debussy.

Miss Drake played this varied and interesting program with fine understanding and technical fluency. Clarity and subtleties of shading were also particularly noticeable qualities in her performance.

A brief business meeting preceded the recital during which the general purposes of the club, types of programs to be presented and other items were presented and discussed. A nominating committee was elected, consisting of the following members: Mrs. Guy Smith, Mrs. J. K. Long and Mrs. Karl V. Gilbert. Appointed as temporary telephone committee members were: Mrs. J. L. Oppelt, Mrs. Ed Ricks, Mrs. H. G. Haney and Mrs. T. E. Hooker. Mrs. R. R. Willmann presided at the business meeting.

Offers Picture Of Hardship For Students Abroad

Mrs. Phyllis Farley of Scotland, graduate of the University of Edinburgh, representative of the World Student Service Fund organization and first student relief worker to get beyond the "Iron Curtain" in Poland, presented to students of East Carolina Teachers College at chapel exercises held at noon on Tuesday a picture of the hardships which now characterize the lives of students in foreign countries. Conditions, said Mrs. Farley, are at present worse than ever before. She told of her work among college and university men and women in Poland, where as World Student Relief delegate she organized and administered relief programs in the schools.

Mrs. Farley outlined the needs of students in such countries as India, Greece, China and Burma and made a plea that American students help to provide them with food, books, school and medical supplies, and scholarships.

Mrs. Farley's talk was part of a drive now being launched on the East Carolina campus by the YWCA and the YMCA to collect contributions for the World Student Service Fund. Jean Boston of Wilmington and Paul Craver of Lexington, presidents of the two organizations, appeared on Tuesday's chapel program with Mrs. Farley.

Members of the committee who formulated and executed plans for the organizational meeting and drew up a tentative constitution were: Mrs. J. D. Messick, Mrs. J. H. B. Moore, Mrs. J. L. Fleming, Mrs. Dink James, Mrs. J. K. Long, Mrs. Guy Smith, Mrs. Charles White, Miss Martha Cammack and Mrs. R. R. Willmann. Members of this committee also acted as hostesses for the organizational meeting and were further assisted by Mrs. Harry Snyder and Mrs. T. E. Hooker.

Following Miss Drake's recital, refreshments were served, Mrs. Guy Smith and Mrs. T. E. Hooker presiding at the tea table.

Approximately sixty-five guests were present. The next meeting will be held at the home of Mrs. J. L. Fleming on Tuesday evening, February 3, at 8 o'clock.

Adjourns Civil Term Superior Court Here

Judge John J. Burney adjourned the scheduled one-week civil term of Superior Court Tuesday after disposing of numerous minor cases and divorce suits. He returned to his home at Wilmington last night. The New Hanover County jurist will preside over a one-week criminal term of court here next week. Nine new grand jurors are to be appointed.

Series Of Four Programs Will Be Given At College In Two Quarters

A joint program by Paul Draper, famous American tap-dancer, and Larry Adler, harmonica virtuoso, will be the opening number of the series of four entertainments to be offered during the winter and the spring quarters this year by the Entertainment Committee of East Carolina Teachers College.

Census Sunday

On Sunday afternoon, January 18, a religious census of the city of Greenville will be taken. All residents are urged to remain at home during the hours from 8 to 4 p.m.

This census is being sponsored through the combined efforts of some of the local churches. No solicitations will be made. During the aforementioned hours your home will be visited solely to secure information.

"A Night in Old Vienna," probably the most melodious and spectacular number of the season, will be included in the program centering around the inauguration of Dr. John D. Messick as president of the college on March 3-6.

Other numbers will include "A Night in Old Vienna" on March 3, a concert featuring a wealth of Viennese song literature and presenting five young singers of exceptional ability; a two-piano concert on March 29 by the well-known team of Whitmore and Lowe, who delighted their audience at the college two seasons ago when they appeared on the campus on the college entertainment series; and a song recital on April 10 by Mac Morgan, popular American baritone and star in radio, opera, oratorio, and concert.

Paul Draper combines in his art the techniques of tap and ballet and is regarded as one of the outstanding dancers in this country. With movie and radio audiences Larry Adler is a favorite. He has also appeared with his harmonica in many other types of programs from vaudeville skits to concerts with leading symphony orchestras and four command performances before as many kings.

New Rotarian Reviews Ideals At Meeting

By WYATT BROWN

Recitation of the Rotary ideals—"He profits the most who serves the best"—engaged the Rotarians last night at their regular weekly meeting when Larry Brown inducted new member Elmer Browning into full relationship. Briefly he mentioned the history of Rotary—founded by Paul Harris 1905, the Greenville Club chartered 1919, club building dedicated February 21, 1921.

There are five of the charter members still active: Lawrence Stroud, J. B. Kittrell, Haywood Dail, Jasper Winslow and Ernest Willard.

Rotarian Brown indicated how the objects of Rotary are integrated around "service"—through club fellowship, observation of high ethics, community and international service. The Greenville Club has its three perennials of service: Crippled Children's Clinic, Girl Scouts and Student Loan Fund.

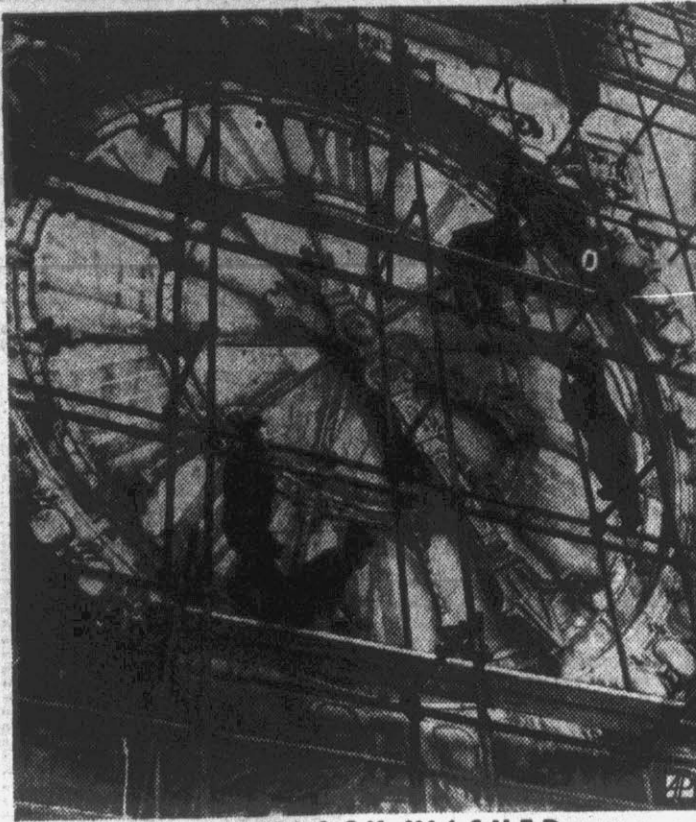

"Rotary is a way of life, to make men more useful to their community. Our members are chosen because they are considered ones in whose possession Rotary ethics will be safe," declared the speaker. Following a brief prayer Larry presented Elmer Browning a copy of Rotary Ethics and Charter Member Lawrence Stroud pinned a Rotary pin on him.

Clifton H. Edwards Funeral Tomorrow

Clifton Hugh Edwards, 53, Greenville business man, died at his home on the Ayden highway Tuesday afternoon at 2:30 following a heart attack. He had been in ill health for the past year.

Funeral services will be conducted at the home Thursday morning at 11 o'clock by his pastor, Dr. H. G. Haney of the Eighth Street Christian Church, assisted by Rev. R. W. Bradshaw, pastor of Jarvis Memorial Methodist Church. Burial will be in Greenwood Cemetery.

Mr. Edwards, son of the late Henry Clay and Mary Eliza Garris Edwards, was born in Greenville in 1894. He attended the Greenville city schools and Eastman Business College, Poughkeepsie, N.Y. In 1923 he founded the C. H. Edwards Hardware Company and had continued in this business until his death. He was also engaged in farming. He was a member of the board of deacons of the Eighth Street Christian Church and had been until the first of this year a member of the board

Surviving are his wife, the former Mary Lee Gallup of Fayetteville, to whom he was married in 1920; a son, Clifton Hugh Edwards, Jr., of the home; a sister, Mrs. Annie Mae Daniels of Greenville; a brother, Henry Clay Edwards of near Greenville.

Local Shriners Hold Meeting Tuesday; W. J. Bundy Speaker

The Greenville Shrine Club held a regular dinner meeting Tuesday night at seven o'clock at the Old Towne Inn with twenty-five members present.

The President, James W. Brewer, opened the meeting with T. Frank Taylor giving the invocation.

The reading of the minutes and the treasurer's report was given by the secretary, Jesse R. Laughinghouse.

The President requested that each member purchase a club ribbon for one dollar. He also made a very interesting talk concerning the ceremonial to be held in New Bern the 21st and 22nd and great plans were made for this occasion. Several new members were welcomed to the club. Two who were out of town were George W. Smith, Fayetteville, who is now associated with the Standard Supply Company, and J. L. Brown, Bethel, who is master of the Masonic Lodge at Bethel.

The speaker for the evening was Potentate W. J. Bundy. He made a very interesting talk on the growth of the club and mentioned his appreciation that the club has given him during his year with the Sudan Temple. He urged that every one

try to make this year the best year of the club.

See End To WAA Sales In State

Charlotte, Jan. 14—(AP)—An end to War Assets Administration sales in North Carolina by June 30 was seen here today by regional officials as they drew up plans to dispose of property valued at \$10,000,000 by that date.

Regional officials have called field inspectors from all parts of the state here this week to give them final instructions on closing the North Carolina sales.

Beware Coughs Following Flu

After the flu is over and gone, the cough that follows may develop into chronic bronchitis if neglected. Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

Strength FOR THE DAY

WORLD PEACE OR MORE PIR?

A train pulled by two giant diesel engines passed the station. Overhead a plane shoots across the sky. We turn on the radio and hear programs from the ends of the earth. We read accounts of calculating machines which in a split second multiply numbers of four digits and in the minutes solve mathematical problems which it would take a corp of learned professors a year or more to work out.

Man has learned how to do almost everything. But there is one thing he has not learned — he has not learned how to come to terms with himself and with his fellows. Someone has said that if this old world of ours ever falls apart, it will be because there is not enough love to hold it together.

Why do conferences on international matters so often end in futility? Is it because men are not selfish and greedy? We could establish permanent peace in the world tomorrow and usher ourselves into a prosperity the like of which humanity has not even dreamed of in the past if we could just stop being selfish and greedy and could persuade others to do the same. In individuals and nations are out for the same thing—a bigger slice of pie. Wars are fought not over principles but over the way the pie is cut. What the world needs most is peace, and what we fight over is pie.

WASHINGTON LETTER

Washington—Mrs. Owen Brewster, who accompanied her husband, the Republican Senator from Maine, on his recent 30,000-mile air jaunt abroad, is busy unscrambling 10 notebooks full of data she jotted down during the trip.

Senator Brewster, chairman of the Senate Aviation Committee, went overseas chiefly to attend the world aviation conference at Geneva as head of the U.S. congressional delegation.

The senator extended his trip to make a survey of airports and aviation facilities of every country he could cover before he had to return.

His wife says she went along as "part of a secretary." She didn't miss a thing, as her notes will show.

The saga of the flight reads like a tale from the Arabian Nights. It is punctuated with interesting detail, caught on the jump as it were, from London to Geneva, to Berlin, to Brussels, to Paris, Istanbul, Athens, Rome and other fascinating points.

In London she visited the House of Commons, noted how the city's bombed places had all been cleaned up except for the holes, and got a preview of Princess Elizabeth's wedding gifts.

In Geneva she was impressed by the beautiful Palais des Nations, where the air confab was held. It was built to house the League of Nations and is said to have cost about \$100,000,000. It has 40-foot ceilings and windows overlooking the Alps and snow-capped Mont Blanc.

Gen. Lactus D. Clay sent a plane to fetch them for a visit with him in Berlin. Bomb debris still cluttered the city, Mrs. Brewster says there are supposed to be 4,000,000 people living there now, but she couldn't see where they could be living.

Bad weather forced the Brewsters to return to Geneva for the end of the conference by train—a special two-car affair equipped with bedrooms and given the privilege of passing everything else on the way. It was a train Hitler built for his own use which later, noted Gen. Eisenhower and ex-President Herbert Hoover about.

The Senator also attended a travel conference at Brussels. He's a member of the Commerce committee, believes the economy of countries can be balanced by interchange of travel.

They went to Paris, visited the Chamber of Deputies during the strike. They took in a dinner by U.S. Ambassador Jefferson Caffery and sat opposite Robert Schuman, the new French Premier.

Then they flew to Istanbul. From there they went to Athens and on Christmas eve flew to Cairo.

The next morning the Senator and his lady climbed aboard camels and visited the Pyramids. For Mrs. Brewster a lovely white camel had been selected.

U.S. Attaché Jefferson Patterson had a real American Christmas dinner for 80 at his home on the Nile later in the day, and Mrs. Brewster says it was one of the most beautiful meals she ever ate.

Women IN THE CHURCH

At the suggestion of the Pittsburgh Council of Church Women, the Protestant churches of that Pennsylvania city are raising money to send surgical instruments and equipment to mission hospitals in China. One of the first gifts received was \$15,000 from the Shady-side Presbyterian Church, Pittsburgh, for an X-ray machine; other gifts, large and small are pouring in.

The recent death of Miss Anna B. Jones, in Newton, Mass., at the age of 85 years, brings to mind a quiet schoolteacher in Ohio, who in 1890 volunteered to go to the Near East as an educational missionary of the American Board of Commissioners for Foreign Missions (Congregational), and who spent forty-one years there before her retirement. As a teacher in the Gedik Paasha School, in the heart of old Istanbul, Miss Jones influenced the lives of thousands of young Turks, Greeks, and Armenians and was beloved by them. Many she won to the Christian way of life. Munir Bey, the late Turkish minister to the United States, was one of her pupils. She lived and served under the Sultan, the Young Turk Republic, and the present Republic.

From the pen of Mrs. Daniel A. Foling, of Philadelphia, comes "A Daily Prayer for 1948" which the United Council of Church Women are sending to churches and women's organizations throughout the world, and asking that it be used in services and private devotions: "Father of all mankind, we come in deep humility giving thee our thanks and praise. Here and now we confess our sins. Forgive us our mistakes and transgressions. Grant us faith to look with fearless eyes beyond the chaos of our world and time knowing that out of this shall rise, lifted by thy grace, Peace with Justice and a Time of Brotherhood. Join us with us in the will to work together. Create within us the un-

Members Of County Fair Group Meet

Amend By-Laws Of Corporate Body To Extend Membership; New Allocation

The membership of the Pitt County Agricultural Fair, Inc., at a special meeting held Monday night, January 12, 1948, in order to bring all three posts of the American Legion in Pitt County into the operation of the Fair, transacted the following business: Amended its by-laws to make the membership of the corporation thirty in number, allocated thus: Pitt County Post No. 39, fifteen members; Farmville Post No. 151, nine members, and Victory Post No. 289, six members, or a total of thirty.

After such amendment was adopted, there were then eight vacancies in the membership, and Pitt County Post No. 39, although entitled to fifteen members, had only twelve, so it was allocated three of the vacancies; Farmville Post No. 151 entitled to nine members, had eight, and it was allocated one of the vacancies; Victory Post No. 289 entitled to six members, had two, and it was allocated four of the vacancies, and the resolution which was unanimously adopted regarding the allocation of member vacancies, also carried the further provision that each of the posts are requested to submit names of properly qualified members of the respective posts to fill the vacancies allocated to each post, which persons will be confirmed by the corporation at a meeting to be held not later than February 19, 1948.

The by-laws of the corporation were also further amended to the effect that after the annual meeting of the corporation on the first Monday in August 1948, any vacancies in the membership of the corporation occurring in the membership of any of the three posts would be filled by the post or posts having

such vacancy or vacancies, submitting or recommending the names of two properly qualified members from such post or posts, for each such vacancy occurring in the membership of such post or posts, one of each two so recommended would be confirmed by the corporation at its next regular meeting, whether annual or special.

Soil Conservation Fund For South To Be Upped

Speaks Here

REV. HAROLD J. DUDLEY
Rev. Harold J. Dudley, pastor of the First Presbyterian Church, Wilson, will be the speaker at the Greenville Girl Scout Council annual meeting and banquet at the Rotary building tonight at 7 o'clock. He was pastor of the First Presbyterian Church in Kinston several years and later was pastor of a church in California. Mr. Dudley is chairman of the Recreational Workshop in Wilson and for many years has been a leader in work among young people. Mrs. E. L. Henderson, executive secretary of Greenville Girl Scouts, will preside.

Washington, Jan. 14 — (AP) — Southeastern states can expect "considerably more" in soil conservation payments from the federal government for the crop year 1949, than was received for 1946 or will be for 1948, agricultural budget experts predicted today.

The President this week asked Congress for \$300,000,000 for the '49 crop year. This would equal the 1946 national figure, but the experts said the southeast stands to increase its share under existing law.

Mr. Truman mentioned that "commitments for payments to farmers under the conservation and land use program will be reduced for the crop-year 1948, causing a decline in expenditures in the fiscal year 1949" (beginning July 1).

"It is necessary, however," the President continued, "that this program be restored in order to prevent a serious reduction in the fertility of old soil as a result of the high production induced by heavy foreign and domestic demands for agricultural products."

Agricultural officials said no tentative allocation for the 1949 crop year conservation payment program will be made until late summer or early fall. This is worked out after the congressional appropriation is made.

Congress a year ago set up a new formula for these payments, basing them entirely on conservation needs, the experts said.

That should mean, they added, that the southeast, with "one-crop" states, "should have the greatest conservation needs and, therefore, greater allocations than in the past."

No Intervention By Gov. Cherry

Raleigh, Jan. 14 — (AP) — John Henry Breeze, Orange County Negro, is scheduled to die in the gas chamber here Friday, for beating a 71-year-old woman to death with a stick.

Governor Cherry announced late yesterday he had examined Breeze's case and saw no reason to intervene. He said that a mental test "showed that he is sane."

Breeze was convicted in Orange County Superior Court of the murder of Mrs. Agnes Wilkerson. The aged woman was robbed, beaten with a stick and left dying on a burning mattress.

Pactolus Ruritan Influence For Good In The Community

By CHESTER WALSH
The Pactolus Ruritan Club at its monthly supper meeting at the Community Building in Pactolus Monday night started the new year with a bang, transacted considerable business and then enjoyed a period of fellowship. President Noel Lee presided.

The club's objectives for 1948 include increasing the club membership from 24 to 50; to donate \$50 to the Pactolus Church for expanding its White Christmas program (securing clothing and food for needy children of the Pactolus community); push the new school building program; sponsor three new clubs; obtain electric service for the entire community; work for completion of the Greenville-Washington highway; obtain market facilities for

community farm products, and encourage better cooperation, friendship and good-will throughout the Pactolus community, Secretary O. H. Forrest reported.

Tentative Okay For Hospitals

Chapel Hill, Jan. 14 — (AP) — The North Carolina Medical Care Commission has given tentative approval to 14 hospital projects that will total \$10,298,884, according to Executive Secretary Dr. John A. Ferrell.

Addressing the final sessions yesterday of the annual meeting of the North Carolina Chapter of the American Institute of Architects here, Dr. Ferrell urged North Carolina architects to "acquaint themselves with the state's standards for hospital construction."

Home Demonstration Agents

It seems that 1948 will be an outstanding year in Home Demonstration Club work. One hundred fifty club women attended in meetings held last week. These members came with the spirit of Home Demonstration club women. Many of them took part on the program by giving special reports on "Invitations," Garden Reports and Book Reviews.

The demonstration given was "Selection of Floor Coverings." The agents used examples of plain wall paper, figured draperies and plain rugs. Also figured wallpaper, plain draperies and two long rugs to show how the color scheme could be worked out. They also showed examples of different grades of linoleum rugs and stressed the importance of the care of these rugs. In this demonstration the agents gave the points to consider in buying a wool rug and also the care of these rugs.

Pactolus Club Holds 1st 1948 Meet
The Pactolus Home Demonstration Club met Tuesday, January 6, at the home of Mrs. Walter Langley. The meeting was called to order by the president, Mrs. C. J. Satterthwaite, at 2:30 p.m. The members sang "Onward Christian Soldiers," which was led by Mrs. J. Paul Davenport.

The minutes of the November meeting were read and approved. There were 14 members present. Mrs. Charlie Dixon gave the second in a series of special reports on "Nieces of Everyday Living" which was a discussion on "Invitations." Mrs. Paul Edwards gave a discussion on gardening and transplanting shrubs. The club voted to send \$5.00 to county chairman of the Infantile Paralysis March of Dimes Fund. The meeting was turned over to Miss Lowery, assistant home agent, who gave a very important demonstration on "Buymanship in Floor Coverings."

The hostess, Mrs. Walter Langley, served hot tea, open-face sandwiches and cookies.

Mrs. D. M. Copeland, secretary Red Banks Club holds Jan. meeting. The president, Mrs. Jasper D. Boyd, called the Red Banks Home Demonstration Club to order on January 8 at the home of Mrs. J. Brooks Tucker. Mrs. Tucker had Mrs. Bert Green and Mrs. L. W. Cherry assisting her as hostesses. Mrs. J. L. Hardee was elected secretary fulfilling the vacancy occurred upon the resignation of Mrs. J. C. Cannon. The club decided to invite their husbands to a dinner meeting to be held in February at the Airport Inn. Mrs. L. W. Cherry was appointed committee chairman to work out the plans for the dinner.

The January demonstration on "Buymanship in Floor Coverings" was given by Miss Marjorie Shearin, the new Assistant Home Demonstration Agent in Pitt. The demonstration included discussion on types, styles, accessories, construction and cost of floor coverings.

Refreshments of filled cheese sandwiches, coconut cake, dates, nuts and hot cocoa was enjoyed by all club members and guests.

Ballards Home Demonstration Club
Mrs. J. D. Jones was hostess to the Ballards Home Demonstration Club January 7th. The meeting was called to order by Mrs. A. J. Garris, president. "Onward Christian Soldiers" was sung and the collect was repeated by the club women. The minutes were read and approved and the roll called.

Mrs. Howard D. Moyer gave a very interesting garden report after which Mrs. J. R. Gowan gave a report on the "Nieces of Everyday Living" discussing "Invitations." The

Phantoms Are Underdogs In Wilson Game Tonight

Greenville's Green Phantoms, gunning for their second win of the young basketball season, will find themselves in the underdog role when they meet the Wilson Cyclones, winners over the locals in a pre-Christmas game, with the contest scheduled for Wilson.

In their previous encounter, the Cyclones were decidedly the best team. They were able to hold the Phantoms to 27 points, with more than ten of these coming in the final quarter, while they were able to score 39 points on their own fast break.

Since that game the Greenies have dropped a conference affair to Winston, and racked up a 53-36 win over the Edenton Aces. The last outing found the Greenville quint a more improved club over the one that Wilson faced before Joe Allgood and Glynn Perkins, both of whom found the range against the Cyclones, are expected to come through with another performance to match their last one. George Minshew, 6'4" forward, proved to be a big asset to the locals, especially under the backboards. Jimmy Cox and Joe Sawyer, rounding out the starting five, led in the improved floor play of the Green team.

Want Playoff

New York, Jan. 14—(AP)—A pro football World Series between the champions of the National League and the All-America Conference is inevitable in the opinion of a vast majority of the nation's sports editors who participated in the year-end Associated Press poll.

There were a few dissenting voters who thought the conference, which just finished its second year, was not ready for a playoff yet but they were in the minority.

A playoff, starting in 1948 if possible, was the wish of over 90 per cent of the voters.

Skate Team Is Best Yet

But U. S. Olympic Team Must Learn New European Style

Chicago, Jan. 14—(AP)—The strongest Olympic speed-skating team ever assembled by the United States will be a distinct threat in the 1948 winter games at St. Moritz, Switzerland, Jan. 30-Feb. 8— if it can do a hurry-up job in learning to race European style.

The nine-member American squad is fortified with youth, with six stars 24 or under, and Coach Pete Miller of Chicago is banking on that youth to provide the stamina demanded by the Olympic program of four championships ranging from 500 to 10,000 meters.

Miller readily admits that the current squad, headed by brilliant Bob Fitzgerald, 23, of Minneapolis, who is favored to win Europe's best at 500 meters, is the best this country has dispatched to five Olympics.

In this country, skaters whoop through races pell-mell in pack fashion, letting a rival set the pace and break the wind.

In the Olympics, the races are against time with only two skaters taking the ice at one time. These two alternate laps between an inner and outer course on a double 400-meter track. Each course is about 15 feet wide and the two are separated by a one-foot high ridge of snow which has a long opening to permit the skaters to switch.

Rarely, if ever, do the two skaters hook up in a man-to-man duel, the

race being almost entirely confined to a test of pacing against the clock.

Elementary school attendance in the United States reached a peak of more than 23,000,000 in the early 1930's.

Three Basketball Games Within State Tonight

By the Associated Press

North Carolina basketball fans have their pick of three games, all within the state, involving Tar Heel teams tonight, with the big noise at Durham where Duke plays host to George Washington.

Other contests pit Elon against Lenoir Rhyne at Hickory and Hanes Hosiery against High Point at Winston-Salem.

Last night's sports were devoted exclusively to basketball with N.C. State stealing the spotlight with a 93-45 win over the McCrary Eagles. The Wolfpack poured in 56 points in the second half in racking up their 13th victory.

At Due West, S.C., ETCO fought hard but was subdued by Erskine, 47-42, in an overtime affair. WCTC traveled to Maryville, Tenn., to absorb a 45-39 beating from Maryville. Two North State Conference games wound up the night's play. Appalachian licked Elon 39-31, and Catawba trounced ACC, 72-51.

Handed Stunning Blow In Finding Miller Ineligible

Chapel Hill, Jan. 14—(AP)—The University of North Carolina's vision of an undefeated basketball season, handed a stunning blow yesterday when first string forward Bill Miller was declared ineligible to get its death dealing blow tomorrow night when the Phantoms collide with NYU at Madison Square Garden.

The faculty committee on eligibility at Chapel Hill handed down the ruling after reviewing Miller's eligibility questionnaire and discovered he did not meet Southern Conference regulations.

The unbanished Violets and the Phantoms meet in the second half of a doubleheader, and pre-game publicity, until now, had it the top game of the year to date.

Miller, six-foot, three inches tall, has scored 70 points in 12 games. He is a transfer student from Eastern Kentucky Teachers College but was not in military service prior to Aug. 12, and consequently does not meet conference regulations.

He came to the university in September after serving with the Army at Fort Benning. He is in New York with the squad but will not play tomorrow.

A question arising in connection with Miller's new status, and still to be cleared up, is the validity of Carolina victories earlier in the season in which Miller took part.

Navy's Civilian Coach To Have 'Rough Time'

Annapolis, Md., Jan. 14—(AP)—Navy's first civilian coach is going to have a "pretty rough time" of it, in the opinion of Capt. Edmund B. (Whitey) Taylor, but the outgoing athletic director added that the new system will pay dividends "in the long run."

The academy announced this week that its time-honored practice of using officers on active duty as football coaches—which meant a new head coach every three years—would be junked.

Taylor pointed out that next season's mentor would face Navy's usually heavy schedule minus the services of six graduating mainstays. He predicted, however, that the Middies would regain the position they enjoyed in the late '30's "when football levels off again."

The job of mentor-in-muti is still wide open, Taylor said the Navy has approached no prospects and there have been no applicants.

Ezzard Charles Wins Chance At Title Fight

Cleveland, Jan. 14—(AP)—Ezzard Charles was virtually certain today of a shot at the lightweight title after chilling Archie Moore, the No. 2 contender, at the Arena last night.

Ebony Ezzard blasted Moore to the canvas for the full count in the eighth of a scheduled 15-rounder to maintain his National Boxing Association rating as the leading challenger to the crown.

All previous efforts to arrange a match between the Cincinnati contender and Champion Gus Lesnevich were fruitless but NBA President Abe Greene recently announced that body would call upon the winner of the Lesnevich-Billy Fox fight March 5 to defend the title against the winner of last night's bout.

Charles left no doubt in the minds of the 8,334 customers that he is ready for a championship bout. Moore, now powder puff puncher himself, had the Ohioan in trouble in that final round but Charles shook off the miseries and charged in victoriously.

Aged Schmeling Still In Ring

Hamburg, Germany, Jan. 14—(AP)—The aging Max Schmeling, 42, plans to challenge for the German heavyweight crown and as a preliminary to a title bout has signed to fight Walter Neusel, 38, "within the next few weeks."

The German crown is now held by Heidi Ten Hoff. Schmeling said the bout with Neusel, former German heavyweight king, likely will be held either in Cologne or Frankfurt.

KING'S BIRTHDAY STILL A HOLIDAY IN INDIA

New Delhi—(AP)—The date of the king's birthday will continue to be a public holiday in the Indian domain according to the list of gazetted holidays.

It shares this honor with Mahatma Gandhi's birthday on Oct. 2 and the date of the country's independence, Aug. 15.

DIED OF NATURAL CAUSES

At County Coroner Griffin H. House said Lonnie Taylor, Negro, who died at his home in Farmville yesterday morning died of natural causes. The coroner signed the death certificate. He quoted Taylor's relatives as saying that he was taken ill Sunday evening and was unable to obtain the services of a physician. Taylor and his wife worked in New York. He returned to Farmville last December. His wife remained in New York.

Point-After-Touchdown Again Put On the Spot

New York, Jan. 14—(AP)—The much-reviled but very durable extra point will be on the spot again tonight when the National Football League's rules makers huddle here as a prelude to the circuit's annual business sessions.

Less than a week ago elimination of the point-after-touchdown was one of the proposals laid before the Rules Committee of the American Football Coaches Association.

The college tutors decided the long-standing feature of the grid sport shouldn't be tampered with.

Now's your move, set by Commissioner Bert Bell himself, is about in the National League to dispense with the extra point and substitute a "suicide death" method for ending the games.

But in the pro ranks also the point has its champions. Coach E. L. (Curly) Lambeau of the Green Bay Packers has announced he will oppose any effort to shelve the extra-point ceremony.

Lambeau says a majority of the fans in his neck of the woods are in favor of it and he adds: "If the fans want it, I want it."

Commissioner Bell contends a measure to end the games should be put through for the sake of the man who pays the freight.

"The professional football player must never forget that the spectator is paying his salary," Bell commented. "That's why the rules should be amended to eliminate all chances of the games—let the game continue until a team wins it, not by an extra point, but by a field goal, safety or touchdown."

Other rules changes will be studied by the national group. Lambeau is arguing that the standards be altered to prevent a defensive team from advancing a fumble.

His theory is that some teams don't use their most spectacular plays for fear of a back-firing bobble.

Bradon Honored At Big Banquet

St. Louis, Jan. 14—(AP)—Sam Bradon, who as head of the St. Louis Cardinals established himself as baseball's most persistent winner, finally has won the honor that eluded him longest—the acclaim of the St. Louis fans.

The usually unruffled Bradon who sold the club six weeks ago after bringing the city nine National League championships and six World Series titles was visibly moved

New power for your BUICK!

Today's Power, Today's Performance, Today's Zip - for Buicks up to Ten Years Old!

Maybe this sounds too good to be true. But it's a fact!

Even if your Buick dates back as far as 1937, you can have a handful of factory-fresh Fireball power—a sleek new power plant that's the same as the engines going into the latest Buick cars.

Everything about it is brand-new. A new carburetor and air cleaner help make every drop of fuel give up all its power. A new distributor, complete with vacuum and centrifugal advance, puts new snap in your get-away and new pep in all driving. A whole new wiring harness prevents electrical loss. And tucked in the flywheel housing is a new smoothie of a clutch that'll make driving more fun than ever.

Yes, it's all new, with the latest Buick engine features you read about—like precision cylinder boring. Oil-Miser rings, Stratoflow cooling and so on.

You can get a new engine like this because engine production is not held back by the shortage of sheet steel which limits complete-car production.

So we're able to put one of these

honey into your car and make it young again—give it new power and performance that will get you set for thousands and thousands more carefree miles.

How much does it cost? Not nearly what you'd expect—often less than a comprehensive overhaul. And it's a mighty good investment because it makes your car worth as much more when it comes time to turn it in.

Sure proposition, isn't it? Surely worth talking over. Won't you come in and let us give you all the details?

Sixty Cars Fail Tests

State Examiners Reject Vehicles With Defects At "Safety Lane"

By CHESTER WALSH

One hundred and forty-three motor vehicles were inspected Monday at the North Carolina Department of Motor Vehicles "safety lane" on Broad Street between Long and Center Streets. Eighty-three passed all tests and were given certificate stickers. Sixty were rejected, subject to necessary repairs, and must return for another inspection. Supervisor Walter A. Dail said today.

Fifty-eight percent of the vehicles inspected passed the tests and were approved. Forty-two percent were rejected.

The supervisor said 42 vehicles had defective headlights; 14 needed brake equalization. One hundred and three defects were found in the 143 cars inspected.

The supervisor requests that motorists have their registration certificate, driver's license and a dollar bill for the inspection fee ready when they enter the "safety lane," and that only the driver be in the vehicle. This will facilitate movement of vehicles and speed up the testing.

The "safety lanes" are open daily from 8 a.m. until noon, and from 1 to 5 p.m.; Saturdays, from 8 a.m. until noon.

"Precocial" birds are those which are able to run about shortly after being hatched from the shell and are not cared for in the nest by their parents. Examples are the bobwhite, quail, ringnecked pheasant, Hungarian partridge, ruffed grouse, prairie chicken, woodcock, jacksnipe and killdeer.

Snow And Cold

By CHESTER WALSH

The temperature dropped to 28 degrees during last night and the mercury was registering 37 degrees at 7 a.m. today, just right for snow. Scattered fleecy flakes started falling about 10 a.m. and snow flurries continued all day. A brisk wind was coming from the northwest.

At 1 p.m. today the sun was trying to break through the clouds, but light snow continued to fall.

Mrs. C. E. Maiden, observer here for the Weather Bureau, U.S. Department of Commerce, said the temperature had dropped to 32 degrees (freezing) at 1 p.m.

Polio Drive Under Way Tomorrow

Polio struck sporadically throughout the United States during the past year, hitting most severely in Ohio and Idaho, and cropping up with almost equal impact in California, Rhode Island and Delaware, according to L. L. Murray, chairman of the 1948 March of Dimes campaign, which gets under way tomorrow and continues through January 31.

"It was the fifth consecutive year of unusually high polio incidence," the local chairman said. "Approximately 10,000 cases were reported in the nation, adding tremendously to the huge burden placed on the National Foundation for Infantile Paralysis and its chapters by the record epidemics of 1946.

"No one knows what the forthcoming year holds in store for us but even if we are to be optimistic as possible, our responsibilities for continuing the research fight against polio and for providing care for those already stricken will require our utmost support of the March of Dimes campaign this January."

Mr. Murray said "dimes and dollars" contributed in the past did "yeoman service" during the polio epidemics of 1947, particularly citing instances of National Foundation assistance in Akron, Ohio, and Boise, Idaho, and Los Angeles.

"In Akron," the local chairman said, "an emergency hospital set up in a church was completely equipped by the local chapter of the National Foundation. In Boise, \$50,000 was advanced in emergency epidemic funds by headquarters of the National Foundation."

He said epidemiologists had been sent by the National Foundation to all seriously affected areas in search of causes for the outbreaks and that in all cases local chapters of the Foundation paid individual medical expenses wherever needed, "regardless of age, race, creed or color."

'Dictated'

Moscow, Jan. 14—(AP)—A Pravda article asserted today that the long skirts of new American fashions were "announced at the command of corporations producing textiles."

"As if by command, the entire press began praising it (the so-called 'New Look')," wrote Yuri Zhukov, who returned recently from covering the United Nations General Assembly at Lake Success.

Truman Aims . . .

(Continued from Page One)

major White House messages to the new session of Congress, set these national goals for 1948:

1. A three per cent gain in production. Last year's target of five per cent was narrowly missed — seven per cent more goods was turned out but fewer services, such as medical, laundry and the like, were made available.
2. Jobs for 59,000,000 as a year-long average. This is 1,000,000 above the 1947 figure even though last year's June peak topped the so-called "full employment" goal of 60,000,000 jobs.
3. The start of a broad social public welfare resources conservation and industrial development program designed to immunize the nation from "periodic depressions" and to "provide Americans with richer and more satisfying lives."

"More income for consumers will be needed," Mr. Truman said, "to keep production up when exports fall off, when credit shrinks, and when savings are reduced, and "more consumer income must be accompanied by better income distribution."

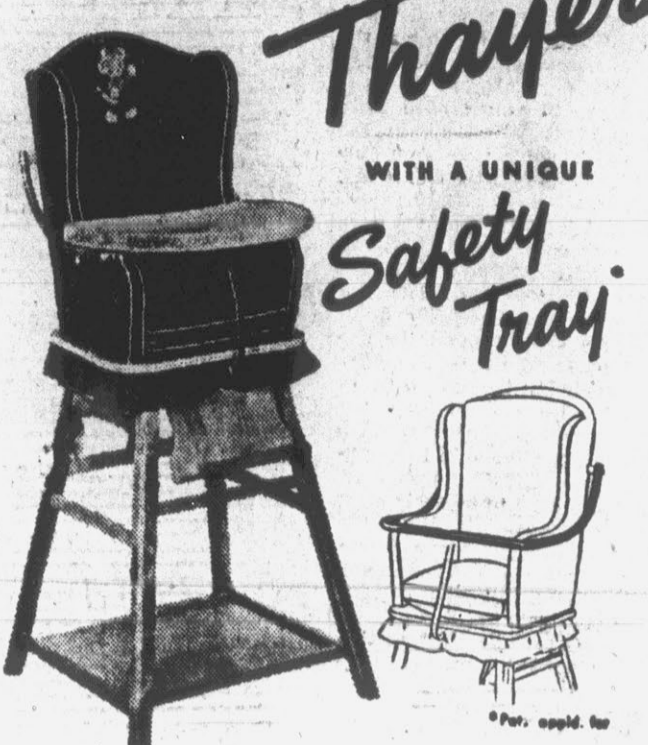

He continued: "Within ten years, maximum employment will mean 64,000,000 jobs or more."

"To raise the individual to the highest level of productivity and to provide outlet for the increasing part of the labor force which technological changes may displace from the mass production industries, we need improved services in education, health and social security."

THE SAFEST HI-CHAIR EVER BUILT!

IT'S THE NEW **Thayer Safety Tray**

WITH A UNIQUE **Safety Tray**

Now you can remove baby's tray for cleaning, or to give him greater freedom, and he's still protected by a safety bar of polished aluminum. The tray is made of THA-LITE, the chip-proof, acid-resistant plastic which can be washed in the hottest water. Thy hands cannot pound food particles into its super-hard surface. All this is added to THAYER'S traditionally beautiful high-chair, with your choice of rich upholstery colors and Velva-sheen wood finishes. Safe, too, with low center of gravity and square-faced joints. Converts to low play-chair-and-table for extra usefulness.

Grain Market

Chicago, Jan. 14—(AP)—Corn, oats and soybeans all set new record highs on the board of trade today. Except for soybeans which were up several cents in a thin market, gains were not particularly large. But they were sufficient to send prices into new high territory.

In the last few minutes of trading, prices fell back sharply with wheat leading the downturn.

The record for corn was \$2.69 1/2, for oats \$1.38 1/2 and for soybeans \$4.40.

Wheat closed 1 1/2 to 2 cents lower, May \$3.02 1/2-\$3.02 corn was 2 1/2 lower to 1/2 higher, May \$2.87 1/2-1/2, oats were 1/2 lower to 1/2 higher, May \$1.27 1/2-1/2, and soybeans were 1 to 8 cents higher, March \$4.38.

To look into this country's aviation problems and suggest ways in which we could grow strong in the air, commercially, and what we should do if anything, to protect ourselves with a strong military air force.

The commission has been working hard since July checking on a great many things, and listening to scores of witnesses, including Army and Navy men. The commission reported: "The provisions of the United Nations charter for the reduction and regulation of armaments have not been fulfilled, and unilateral disarmament by the United States is out of the question."

In other words, the commission said, we'd be crazy to disarm when other nations aren't doing it. The commission had these things to say too:

"We'll have to depend upon our air forces to defend us if war breaks out. And—we need a lot stronger air force than we have now. We should start building it up right away.
