Staggering Budget Seen For Defense

Senators Say Next Year's Military Costs May Rise If Friction Continues

Washington, Jan. 28 (AP)—The nation may be asked to spend as much as \$16,500,000,000 for defense next year if friction with Russia continues, senators disclosed today.

This would be 50 percent more than President Truman has asked in his peacetime record budget for the 12 months beginning July 1.

The estimate of future military needs came from members of the Senate Armed Services Committee after a closed-door conference with the high command yesterday.

They said Gen. Eisenhower, retiring Army Chief of Staff, and other top ranking generals and admirals advised that the Army, Navy and Air Force must be brought up to date quickly.

One senator said the reports of new staggering military costs dampened the chances that Congress will approve compulsory military training any time soon. Such a program would add about \$2,000,000,000 a year to the defense budget.

However, Chairman Gurney (R-S.D.) told a reporter the committee will hold more conferences before it decides whether to go ahead with the training proposal.

Sen. Eisenhower and others in the high command were said to have told the senators yesterday the way they think the next war will be fought.

It may begin, they were quoted as saying, with an aerial attack on the United States using the atom bomb.

This was one of the reasons given for having a large reserve of trained men to take over ruined cities and run essential industries.

The United States was described as needing 1,000,000 trained men to occupy and guard the outlying air bases from which it would launch its aerial counter-attack upon the enemy.

Beyond that, Eisenhower and the others were said to agree that the final effect of an enemy can be accomplished only by a large, well trained ground force. This is why they want universal military training.

The admirals and generals were presented as believing that there will be no war within the next few years.

Whiskey-Grain Curbs Near End

Washington, Jan. 28 (AP)—The government's power to limit use of grain for whiskey will end Saturday. The House Banking Committee killed by a 12 to 4 vote yesterday a bill to continue the curbs through February.

Authority for the grain rationing through Jan. 31 was part of the anti-inflation law passed during the 1947 special session. The Senate voted last Friday to extend it another month.

New Threats Of Strike In Reich

Frankfurt, Germany, Jan. 28 (AP)—A new strike threat which might involve 4,000,000 workers appeared to be developing today amid German unrest over food shortages.

About 1,000,000 workers in the American zone state of Wurttemberg-Baden may strike Friday.

The same day, union leaders from the Ruhr and Rhineland will meet in Muelheim to decide whether to call out the 3,000,000 workers in those British industrial zones.

United Nations Test

The World Is Fortunate That India And Pakistan Submitted Quarrel To UN For Settlement; Constant Danger In Kashmir; Analyst Sees No Solution In Plebiscite

By DEWITT MACKENZIE

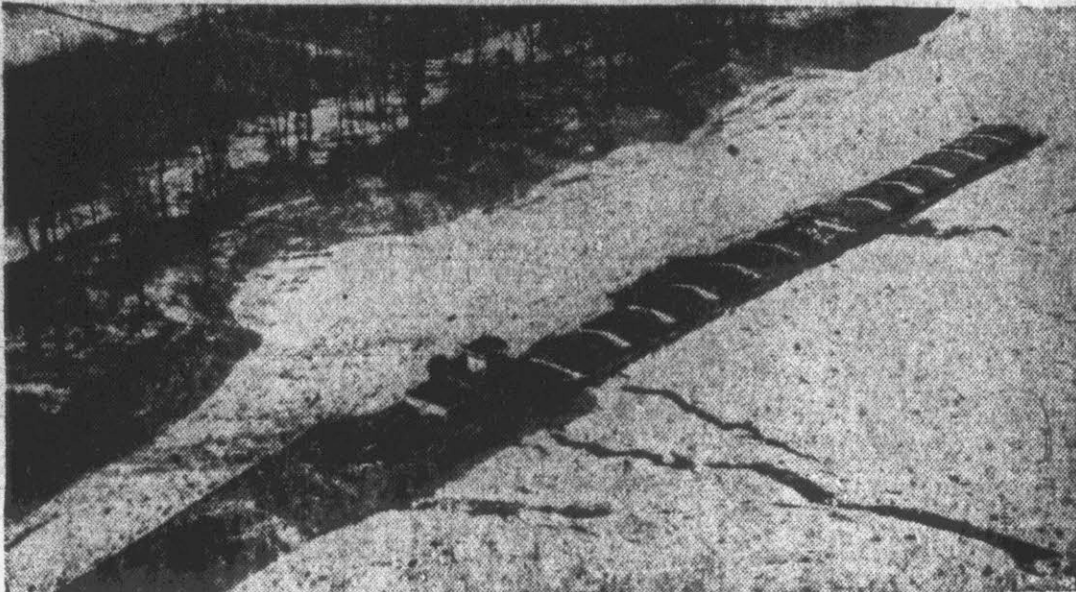

It's mighty fortunate for the world that the Dominions of India and Pakistan have submitted their bitter quarrel over the princely state of Kashmir to the United Nations, for without the peace organization this controversy might explode into a frightful fratricidal war which would encompass all the 400 millions of the Indian sub-continent—and it's doubtful if such a conflict could be prevented from becoming global.

If this case can be kept within the framework of the United Nations, it is likely to give a fine test of the efficacy of that organization. Thus far India and Pakistan have displayed good faith and wisdom in working through the UN and tacitly recognizing that the controversy is so complicated and full of dynamite that they could scarcely be expected to settle it between themselves.

It's a tragic incongruity that the once peacefully romantic garden spot of Kashmir should now hang down over the Indian peninsula from the Himalayas like a flaming sword. The trouble of course grew out of the formation of the independent dominions last summer.

At that time Kashmir, and the other hundreds of native states, were given the privilege of joining either dominion or being independ-

Extremes On The Southern Weather Front

Here are two examples of cold and hot extremes in the southern states during the week-end. Top: The steam-powered towboat Kokoda breaks a path through heavy ice in the Mississippi river between Memphis, Tenn., and Cape Girardeau, Mo. The Kokoda is about 170 miles ahead of the Diesel-powered towboat Helena in their race from New Orleans to St. Louis. Bottom: Some of the 19,000 people who flocked to the beach for surf bathing at Miami Beach, Fla., Sunday in sunny 75-degree weather. Lifeguards said it was the largest crowd of the season. (AP Wirephotos).

Senate May OK McCabe

Informal Poll Shows Eccles' Replacement Will Be Endorsed

Washington, Jan. 28 (AP)—The Senate seemed ready today to go along with President Truman's choice of Thomas B. McCabe to replace Marriner Eccles as Federal Reserve Board chairman.

There was some grumbling by admirers of Eccles but an informal poll of the Senate Banking Committee showed that eight of the 13 members have no objections to McCabe.

Four said they have definitely decided to vote for him and four others told reporters they see no reason now for refusing.

Chairman Tobey (R-NH) not one of this eight—promised a formal statement later on what he called Mr. Truman's "rather amazing action" in demoting Eccles to vice chairman.

Senator Taylor (D-Idaho) termed the proposed switch "shocking," but did not say how he intends to vote. Neither did Senator Fulbright (D-Ark.), although he declared it would be a "mistake" to strip Eccles of the chairmanship he has held since 1935. (Continued on Page Six)

No Relief For Carolinians Seen By Weatherman

By the Associated Press

Still no relief for benumbed North and South Carolinians who have shivered through one of the coldest Januaries on record was seen today by U.S. weather observers.

In fact, the forecasters, reporting another night of sub-freezing temperatures over most of the two states last night, warned that the mercury would fall even lower tonight, dropping to readings as low as 10 degrees in the Western North Carolina mountains. Intermittent rain over the two states and some snow in Western North Carolina today also were predicted.

Snow and sleet from last Friday night's freezing storm continued to blanket many sections of the Carolinas today and another light coat of ice was added by slight precipitation last night. The deep freeze extended well into the Piedmont section of South Carolina.

The mercury ranged all the way from 20 degrees at Asheville to 37 at Charleston early today. Greensboro had 22-degree weather, while Raleigh reported a low of 26, Charlotte and Spartanburg 28, Wilmington 29 and Columbia 31.

Low readings tonight are expected to range from 15 to 25 degrees in the interior of the two states and from 22 to 28 on the coast.

New Shocks For Iloilo

Earthquake Battered City Reports Huge Damage Toll

Manila, Jan. 28 (AP)—Two additional aftershocks were reported today in the earthquake-battered city of Iloilo as the central Philippine reckoned damage of \$3,500,000 church properties alone and estimates told of 200 houses destroyed by huge landslides.

The death toll was an unofficial 28, and two families were missing in western Panay Island, of which Iloilo is the capital.

Latest tremors in Iloilo were described by the Philippines weather bureau as of moderate intensity. The first, at 1:55 a.m., lasted 25 seconds; the second, at 2:15 p.m., five seconds. The series of quakes began Sunday.

The secretary of the Iloilo provincial board reported to President Roxas "the general situation is not so alarming now, with the exception of Iloilo City."

Red Cross and Philippines national relief workers were sent to the western side of Panay, where four towns were reported damaged by landslides.

Seven minor shocks were felt yesterday on that island, and residents of Iloilo City met in the open air to pray for an end to the quakes "before the whole island is completely ruined."

President Manuel A. Roxas sent the chief of the Philippine weather bureau to Iloilo to reassure them; the recent quakes were aftershocks, he said, and should end today without further damage.

Union Vote At Greensboro Mill

Greensboro, Jan. 28 (AP)—Workers at the huge White Oak cotton mill here voted today on whether they want the CIO Textile Workers Union of America as exclusive bargaining agent. About 1,800 ballots were expected to be cast before the boxes closed at 8:15 p.m.

The National Labor Relations Board office at Winston-Salem is supervising the vote and said the result will be made known shortly after the polls close.

Wayne Voters OK Hospital Bonds

Wayne county officials were able to go forward today with plans for a \$1,800,000 addition and expansion to the Goldsboro hospital.

Wayne voters yesterday approved a bond issue of \$700,000 for the expansion program and a tax levy of five cents on the \$100 for operation and maintenance of the hospital.

Martial Law For Bolivia Imposed

La Paz, Bolivia, Jan. 28 (AP)—Bolivia is under state of siege (martial law) today. The government announced it had discovered a "revolutionary plot."

The siege was proclaimed yesterday upon publication of photostatic documents which the government said, indicated a revolt was to have started at 8 p.m. Sunday.

CIO Driving For New Wage Hikes

Steps Up Demand For 1948 Round Of Wage Increases; Steelworkers Preparing Call For More Pay; Part Of Union Campaign

Washington, Jan. 28 (AP)—The CIO today stepped up its drive for a 1948 round of wage raises. The steelworkers, in Pittsburgh, set a date for preparing their wage demand.

This big union, often a pace-setter in factory wage rates, will hold a meeting of its 170-man wage policy committee on Feb. 18.

This was the first positive announcement that the steelworkers will reopen their contracts for wages this spring but everybody expected it. The CIO has already announced its campaign for a "third round" of post-war raises—"substantial" in amount. Philip Murray heads both the steelworkers and the CIO.

The CIO United Auto Workers have announced they will demand 25 cents an hour, plus 5 cents more for hospitalization and health insurance.

The CIO United Electrical Workers have demanded "substantial increases."

The CIO Packinghouse Workers are asking 20 cents an hour. Steel wage negotiations are likely to start in April. Auto and electrical talks will start sooner.

Whether the steel union will name a specific amount or simply ask for "substantial" increases is not yet known. Government officials in a position to judge labor trends don't expect a wave of strikes in factory industries. (They are more doubtful about coal.) They still say—as they have been saying for weeks—that industry and unions are likely to compromise on wages.

A good guess is that some of the unions will accept about 10 cents an hour.

This forecast is based largely on the fact that 10 cents is the most common figure turning up in current wage settlements. For many local unions and some national ones, the "third round" is not something in the future. It has been going on for weeks.

For example, in December the CIO Amalgamated Clothing Workers got a 12 1/2 cents an hour increase for 150,000 workers on men's and boys' garments.

In 1947 at the time of the "first round" of postwar raises, the steelworkers demanded 25 cents an hour, went on strike and finally settled for 18 1/2 cents.

In 1947 the steelworkers demanded "substantial" raises and settled, without striking, for benefits averaging about 15 cents an hour.

This year a steel strike is considered almost out of the question. The present two-year steel contracts don't expire until April 30, 1949. The wage action may be reopened April 1 of this year. But President Murray said last year that the contracts "definitely assure peace in the industry for two years."

Thermometer Broke

Alamosa, Colo., Jan. 28 (AP)—It got so cold in this southwestern Colorado town today that the mercury in a government thermometer froze at 46 degrees below zero and broke the gadget.

Forecasting switched to an alcohol thermometer and watched it record a low of 50 below before climbing back a short time later to a minus 33.

Alcohol has a much lower freezing point than mercury.

Alternative To Aid Plan

Former Senator Says U.S. Independence May Be At Stake

Washington, Jan. 28 (AP)—Former Senator Robert M. LaFollette (Prog.-Wis.) said today that if Western European nations and their dependencies fall "under Communist control, we may not be able to maintain our effective independence."

LaFollette told the Senate Foreign Relations Committee, considering the Administration's proposed foreign recovery program, that "today in Europe there is a close race between recovery and social disintegration."

He said that economic recovery of Western Europe will be "dangerously delayed if not jeopardized" without substantial help from the United States, but made clear that basically "only the European can save Europe."

If Europe is to be saved, he continued, "the Europeans must act vigorously to bring inflation under control in ways that are well understood but far from painless. Nothing the United States can do will be effective unless the Europeans do more."

Meanwhile, the House Foreign Affairs Committee (Continued on Page Six)

India-Pakistan Deadlock Given Security Council

Lake Success, Jan. 28 (AP)—The India-Pakistan dispute over Kashmir was tossed back to the Security Council today with the two dominions in disagreement.

Direct talks between the two governments ended last night without accord. The council was called today to receive a report of the fruitless negotiations.

India and Pakistan each made formal proposals, which were rejected by the other. Also turned down was a compromise by Council President Bernard Van Langenhove of Belgium who directed the parleys.

Schuman Cabinet Awaits Final Vote

Third Cold Wave Felt Over Nation

Wintry Blasts Deal Further Blows To Wide Section Of The Country

By The Associated Press

Winter's relentless siege of cold, snow and ice dealt further damaging blows to a wide section of the country today.

The inclement weather affected many segments of business and industry and made idle thousands of workers. The death toll—in the east, south and midwest—was nearly 160.

The third cold wave in a week chilled residents from the Rockies to the Atlantic coast. A blizzard swept New Mexico. A numbing cold spread over Texas from the Panhandle to the lower Rio Grande valley. Snow falls in Tennessee measured from four to 18 inches.

Ice from three to six inches deep covered Arkansas and other parts of the south hit by cold weather, closing schools, impeding traffic and disrupting communications.

California did not escape the effects of the elements. Gusts of 85 miles an hour swept through Ontario, Calif., and winds of between 30 and 60 miles per hour in other parts of the San Bernardino valley yesterday. Trees and some telephone poles were felled as the winds whipped up heavy clouds of dust and sand. The weather generally in Southern California was clear.

In Northern California forecasters said there was a "bare possibility" of rain for the drought-stricken area but the immediate prediction was for continued clear skies. The region has been without rain for more than five weeks.

The current fuel shortage brought further discomfort to many communities as the cold weather tightened its icy grip over the area from the Rockies to New England.

There was promise of some relief from the bitter cold which has gripped the west and temperate lands started to moderate last night in North Dakota. But the mercury was far below zero in many sections of the central states this morning, with a low of 30 below at Atlantic, Iowa. The sub-zero line extended into northern Illinois, where Chicago's early morning low was 4 below.

Athens, Jan. 28 (AP)—Greek military authorities said today eight guerrillas had been killed and 24 taken prisoner in a clash at Neochorion, Thessaly.

Another report from the Greek government said 30 guerrillas were killed, 15 were captured and 33 surrendered during the past 24 hours in the Third Army Corps area.

Greeks Report New Clashes With Rebels

Washington, Jan. 28 (AP)—Another rumor about the return of Gen. MacArthur from Tokyo bobbed around the Capital today.

Rep. A. L. Miller (R-Neb.) told a reporter he expects the General back around April 15.

He would not say why he thinks so, but hinted that a congressional committee may invite MacArthur to report on the situation in Japan.

"He undoubtedly will address a joint session of Congress," Miller said.

Hold Passengers For Big Ransom

Hong Kong, Jan. 28 (AP)—Chinese pirates who boldly raided the Dutch ship Van Heuts De 15 are making overtures for the ransom release of six kidnapped passengers, the China Mail reported today.

The newspaper said natives of Biaz Bay, notorious buccannery hangout about 20 miles northwest of Hong Kong—reported they were in contact with the gang, which asked 5,000 Hong Kong dollars (\$1,250) to open negotiations and a "substantial," unspecified ransom.

Alabama's Governor To Seek Demo Nomination

Montgomery, Ala., Jan. 28 (AP)—Gov. James E. Folsom, Alabama's tall governor, announced yesterday he would be a candidate for the Democratic presidential nomination.

Folsom, 39-year-old former insurance man from the small, mid-Alabama town of Cullman, said he would seek favorite son status in the May 4 state primary to name delegates to the national party convention.

In his announcement, Folsom, who has been governor just slightly more than a year, said President Truman was "not running" either the party or the nation.

He declared that Truman "has not himself hog-tied" by "the monopolists, the brass hats, the grain speculators and the Wall Street lawyers."

By his declaration for the presidency, the six-foot, eight inch Folsom, projected his statewide platform to a national basis.

He has fought constantly against "them lying newspapers," monopolists, Wall Street and his own legislature since assuming office. The

Republican Tax Plans

Knutson Bill Before Congress Tomorrow; What It Involves; Probable Veto And Show Of Strength In Congress; May Agree To Smaller Tax Cut; Here's Why

By JAMES MARLOW

Washington, Jan. 28 (AP)—Tomorrow the Republicans start trying to ram through Congress a 1948 income tax cut for you.

Don't get excited. This is just the start. The road is full of bumps before you get a tax cut at all, if you get one.

This is the Republican plan, starting out:

1. Cut taxes in such a way that 7,000,000 people who have had to pay 1947 taxes won't have to pay any in 1948. They're the lowest income people.

2. Do this by cutting taxes from 100 percent for that lowest income group to 10 percent for the richest people.

3. Do it by cutting taxes a total of \$6,300,000,000.

That's a lot of money to take away from the government when it has big expenses to pay.

So any tax cut that finally comes through Congress probably will be less than \$6,300,000,000, a good deal less.

And President Truman is pretty sure to try to kill with a veto the Republicans' kind of tax-cut bill.

And it will stay killed unless the Republicans in Congress can get a bunch of Democrats to vote with them to override the veto.

If they can do that, then the Republicans' tax cut will become law. That's some time in the future.

Why is Mr. Truman against the Republicans' idea of a tax cut?

Because any bill they put through will mean that much money lost to the government.

Mr. Truman, too, wants income taxes cut. But he wants any money lost to the government that way made up by raising corporation taxes.

The Republicans are against that. A lot of Democrats in Congress, maybe most, will follow Mr. Truman's lead and give the Republicans a rough time.

The House starts to debate the Republican bill tomorrow and will vote about Monday.

The Republicans in the House—and in the Senate, too—have a majority and can put through any kind of bill they want.

But they may agree to a smaller tax cut than the \$6,300,000,000 cut they're talking about now. Why? Because some Democrats who'd fight against a \$6,300,000,000 cut might go along with the Republicans if they'd agree to a smaller one.

If that happens in House and Senate, the Republicans may pick up enough Democratic votes to override a veto by Mr. Truman.

It needs only a simple majority vote in both Houses, which the

40 Years Ago Today

THE DAILY REFLECTOR

January 28, 1908
February 1st the banks of the town will begin closing an hour earlier in the afternoon, at 3 o'clock instead of 4.

In a conversation with an experienced tobacco buyer, we were informed that tobacco bugs had gotten into this county and that they damaged tobacco, particularly good tobacco. The party said the bugs were produced by leaving tobacco or tobacco trash in the pack houses from one year to another and the best way to get rid of them is to clean up and destroy all old tobacco trash after you finish grading your crop, and then put a heavy coat of whitewash on the walls and ceiling of your pack houses.

Miss Peggy Rose Smith will arrive this afternoon from Duke University to spend several days at home. She will have as guests Miss Betty King of Washington, D. C., and Miss Jean Caswell, of Orlando, Fla.

Dr. L. D. Haskew Will Be Guest Of College

Dr. L. D. Haskew, dean of the school of education at the University of Texas, will be a guest on the campus at East Carolina Teachers College on Thursday, January 29, and will speak in the afternoon at a meeting of the faculty.

Dr. Haskew is now acting as a consultant with the State Department of Public Instruction in Raleigh and is visiting a number of colleges in North Carolina. He will study the program of teacher-training offered at East Carolina.

Legion Auxiliary Met Monday

The regular monthly meeting of the American Legion Auxiliary met Monday afternoon, January 26, at 3:30 at the home of Mrs. K. B. Pace. Mrs. D. M. Clark, sixth grade teacher from the Training School, introduced Billy Bost, Carl Stroud, Anwer Joseph, Donald Dewey, and Charles White, sixth grade students, who gave interesting talks on Americanism. The topics of discussion were: "Ways of Voting," "Of the People, for the People, by the People," "Freedom of Speech," "Freedom of Labor," "Freedom of Religion," "Types of People," and "Freedom of Enterprise or Business." The capable way in which the boys gave each report, showed the Auxiliary the teaching of Americanism or democracy in the schools of America is worthy of every one's praise.

At the close of the program on Americanism, Mrs. Jimmie Jenkins, president of the Auxiliary, presided over the business meeting. The Salute to the Flag was followed by the Lord's Prayer led by Mrs. W. E. Jones. Singing of America, and the recitation to the Preamble. Minutes of the last meeting were read by the secretary, Mrs. Durwood Williams. The treasurer's report was given by Mrs. J. Howard Moye, in the absence of the treasurer, Mrs. Walter Cherry.

It was reported that a Christmas basket of groceries and other necessities including toys, was taken to the family reported at the December meeting. It was also moved and passed to send a check for \$5.00 to Dr. Haar for treatment of one of the children in this family. Mrs. D. M. Clark told the Auxiliary members about the essay contest sponsored by the World Book Co. This contest includes all school children in the seventh grade through high school. The topic of the contest is "Our Great American Heritage." The national award for the best essay is \$100.00. The state award is an encyclopedia book. It was moved and passed by the Auxiliary to give \$5.00 to the local winner of the best essay, and \$2.50 to the runner up.

It was reported that there was to be a survey of all Veterans' families in the Legion. Each unit is to make the survey through the schools. Cards for the survey are to be given to the school children of veterans. These cards are to be filled out and returned to the unit. The purpose of the survey is to aid the veterans' families needing help.

Mrs. J. Howard Moye reported that greeting cards were sent to Gold Star Mothers at Christmas. Mrs. Moye also said she received \$16.00 for Christmas cards and wrappings.

Mrs. W. R. Jones reported a case of a veteran's wife and children that were in need of clothing and other necessities. This case is to be investigated, and help given if necessary.

A motion was passed to send a donation of \$5.00 to Mr. Murray, chairman of the March of Dimes.

Mrs. Jimmie Jenkins told of plans for the American Legion Armistice Day program, and asked that the Auxiliary be ready with any suggestions and help to make it a great success.

A motion was passed to order 6,000 poppies for Poppy Day.

Mrs. Jenkins declared the meeting adjourned, and delightful refreshments were served. The assisting hostesses were Mesdames D. M. Clark, Luther Bowling, H. C. Sugg, J. L. Winstead, G. A. Bowen, A. M. Moseley, Bert Green, P. T. Dennis, and Miss Mollie Manning.

Birth Announcement
Mr. and Mrs. Wyatt Brown announce the birth of a daughter, Petrice Dowd, on January 26 in Pitt General hospital.

No Mid-Week Prayer Service
There will be no mid-week prayer service at Jarvis Memorial Methodist Church Wednesday evening due to the Leaders Training School. All are invited to attend the school at Immanuel Baptist Church.

Local Woman's Club Sponsors Emergency Children's Fund

On December 11, 1946 the General Assembly of the United Nations passed a resolution creating the International Children's Emergency Fund. The ICEF is an integral part of the United Nations. The headquarters are located in close proximity to the United Nations Secretariat. Governments applying for aid show not only need but also provision for proper administration of the program, including co-ordination of existing agencies. This fund, which depends upon governments to make allocations, originally asked UN for \$400 million. Its work has been all but crippled because pledges from member governments will apparently not exceed \$70 million. The difference can be counted in terms of human lives.

Thirty million children in Europe and 30 to 60 million in the Near and Far East—children on two-thirds of the face of the earth—are in dire need of help. Deprived of healthy childhood living in cold, want and fear, they cannot develop into well balanced, emotionally stable, constructive world citizens. Manpower, actual and potential, is the backbone of national economies.

The ICEF allocates its resources in the following order: food, re-establishment of children's institutions, clothing, medical supplies and the training of health and welfare personnel for children's work. This fund has been providing for about two million children. The appeal for children will be conducted in a global campaign this year, in which citizens of all countries will be asked to make voluntary contributions. Mrs. J. Vance Perkins, president of the Greenville Woman's Club, urges each member to bring his contribution for the International Children's Emergency Fund to the club on February 6 or mail to Mrs. George Renfro, 402 Greene Street.

Marriage Licenses

Marriage licenses issued during the past week were to the following couples:

Negro: Sam Hardy and Virginia Gray, both of Ayden; Edward Pilgreen and Annie Ruth Floyd, both of Pactical; Joseph Shackelford, Jr., and Ulyceae Mae Shields of Bell Arthur; Franklin J. Carmon and Louise Suggs, both of Pitt County.

One other license was issued to a white couple, whose wedding will be announced later.

Sheep have perhaps the widest range of any domestic animal, being raised in every important country of the world except Japan.

UN Test . . .

(Continued from Page One)

the case will have to be made by the two dominions and the Kashmir government, acting within the framework of the peace organization.

My point is this: The population of Kashmir is about 4,000,000. Only 6.6 per cent of the people are literate, and the percentage of those who really are educated is much lower. The Kashmir Brahmins—highest caste of all the Hindus—are educated aristocrats, but the vast majority of the inhabitants (a handsome race, with a gypsy type of beauty) are primitive and totally ignorant folk.

Now this isn't to say that these

people of Kashmir haven't a great future. However, it is to say that right now they would be wholly incapable of rendering a verdict regarding their country in a plebiscite. Possibly a plebiscite, carefully supervised by impartial authorities, might be a good precedent and might even produce some interesting results. Still, as previously indicated, one would expect that the final decision would have to be worked out, not by a plebiscite alone, but by all interested parties under guidance of the UN.

Republican Tax . . .

(Continued from Page One)

Republicans have to pass a bill. But if a bill is vetoed by the President, it's killed unless both Houses can re-pass it by a two-thirds vote.

To get that two-thirds vote, the majority Republicans must win

Elizabeth City Quintet Edges Out Locals 38-36

By SPYRON SIDERIS

Withstanding a fourth quarter rally, Elizabeth City's Yellow Jackets handed the Green Phantoms of Greenville their second straight loss in Northeastern Conference race by turning back the locals 38-36 in a game that wasn't decided until the final whistle. The winners were ahead at the half 20-13.

Joe Allgood, Phantom guard, kept the Greens in the ball game with three successive long set shots which brought the score down 28-36 to 34-36, and dropped in another long one just before the game ended.

In the first half the Greens were definitely a team that was off, hitting the basket for only five shots out of twenty-three attempted for a percentage of 21 1-2. The Yellow Jackets connected with nine out of twenty-five for a 36 percent average.

Until the last stanza the Yellow Jackets were in control under the backboards, and using the zone de-

Game Called Off

The basketball contest between Newport Apprentices of Newport News and the East Carolina Pirates stated for this evening in Greenville has been called off.

Cancellation of the affair was a last-minute move by the Newport News team which telephoned that "too much weather" would rule out the trip.

32-36. Minshew added to the cause by making good two foul shots, cutting the lead to 32-28. Williams and Anderson broke in for two quick trips to push the score up to 36-28. At this point Allgood hit the basket for three straight shots from near mid-court, putting the Phantoms back in the ball game and giving the Yellow Jackets only a 36-34 margin. Perkins connected on a hook, but being fouled just before he shot the goal did not count. Greenville took the ball out of bounds, but Anderson broke up a pass and scored the winning goal and putting Elizabeth City ahead 38-34. Allgood connected on another set shot just before the final whistle, making the score 38-36.

Greenville	FG	FT	TP	Fouls
Perkins	4	1	9	1
Hardee	0	0	0	1
Cox	0	0	0	5
Proctor	0	0	0	1
Menshew	3	3	9	1
Allgood	7	2	16	0
Farley	1	0	2	2
Sawyer	0	0	0	0
	15	6	36	11

Elizabeth City
Anderson 6 2 14 3
Sprull 0 1 1 0
O'Neal 1 0 2 5
Cuthrell 0 0 0 0
Williams 5 1 11 0
Owens 0 0 0 0
Ward 2 0 4 0
Davenport 0 0 0 0
Jennings 2 2 6 3
Harris 0 0 0 0
16 6 38 11

Fouls missed:
Greenville—Perkins (2), Minshew (2), Allgood (1), Sawyer (2)
Elizabeth City—Anderson (1), Ward (1), Jennings (1).

In the Junior game the Baby Phantoms came through with another easy win, this time over the Jacket Juniors by a 41-20 score. Tommy Lupton led the scorers with twelve points.

High Point Five Claims Whistle Used Too Often

High Point, Jan. 28—(AP)—The old controversy whether basketball referees tout the whistle too much has drawn a "yes" answer from High Point College players, who now hold the tarnished title of roughest five in the country. They've been charged with 83 personal fouls in their last two games.

High Point is not bragging about these three season's college basketball records the club has set in the last six days:

1. In Saturday night's game with Atlantic Christian College they were charged with 45 fouls, a record for a single game by one college club.
2. Atlantic Christian chipped in with 29 fouls, making the 74 total high mark in a college game this season.
3. The previous day High Point tried so hard to stop North Carolina State's powerhouse that they were called on 38 personals. Meanwhile, State won 110 to 50.

The players blame the officials for the greater part of the fouls called against them in the State and Atlantic Christian games. They maintain they played the same brand of basketball in two previous games as they did in the pair of record setters.

Pasquel Tosses Mexican League Into New Mix-Up

Mexico City, Jan. 28—(AP)—Jorge Pasquel, former league president, has tossed the Mexican baseball league back into organizational confusion and threatening deficit with his announcement in New York Sunday that he still runs the show.

Pasquel's blast from abroad promptly forced the resignation here of Alejandro Aguilar Reyes, Mexican baseball commissioner elected last fall by club presidents to reorganize the league, cut expenses, encourage development of less expensive native players, and in general put the circuit back on the profitable business basis of 1942.

Renewed friendship with U. S. organized baseball also was on the agenda, and Aguilar Reyes had just completed cordial conversations here with Walter Mulber, assistant to U. S. Commissioner A. B. Chandler. Pasquel neatly negated the negotiations with his statement that "Mexican baseball does not see eye to eye with the American league."

Peter Stuyvesant was governor of Curacao in the West Indies before he was appointed governor of New Amsterdam, now New York.

Seven Bouts On Tap At Wright Gym Saturday

Boxing has returned to the East Carolina Teachers College campus for the first time since 1938.

Listed along with "Chummy" Lambeth, Sugar Bowl champ of '47, and Bob "Red" Bailey, Piedmont Golden Gloves finalist, on a special seven-feature bout Saturday night, January 31, in the Wright gymnasium, is Bill Hales, junior from Norfolk, Va. Formerly of the United States Coast Guard, where he served two years, Hales will battle Paul "Buck" Hansell, who served three years with the Navy.

While at Curtis Bay, Md., Hales fought several successful fights for the Coast Guard in and around Baltimore. He then moved to Miami, Florida, where he continued his amateur ring experience.

Hansell, formerly of the Navy, is comparatively new at the game of fistc warfare but is very shifty and packs power in his left hook, which he uses on special occasions. Hansell fights from a southpaw position and depends largely upon his superior speed and left hook to even up his lack of experience.

There will be a total of 27 rounds of boxing on Saturday's program and, in addition, there will be two wrestling bouts during the evening.

Speed Skaters Said Confident

St. Moritz, Switzerland, Jan. 28—(AP)—The American speed skating team is laying confident plans today to win major honors in the winter Olympic games.

Cochs Pete Miller of Chicago and Manager Ben Bagdade of Detroit both say "They'll have to beat us."

Despite the fact the Olympic style of skating is a handicap to the United States team, the Americans have shown up strongly in warm-up trials.

Mayor Jack Boyd Interested In Drainage Survey

By CHESTER WALSH

Mayor Jack Boyd, who wrote Congressman Herbert C. Bonner some time ago, seeking some federal aid to prevent another flash flood such as did extensive damage last fall to farm land adjacent to the city and city property, streets, highways and bridges, said today that he is gratified to know that the first dis-

trict congressman was successful in persuading Dr. Hugh Bennett, head of the Soil Conservation Department of the U. S. Department of Agriculture, to send at once two engineers to Greenville to make a survey of conditions which led to the flood from Green Mill Run and map plans for preventing its recurrence.

In a letter to Mayor Boyd Congressman Bonner stated that the engineers are expected to make a complete survey and ascertain if the flood was the result of some faulty drainage districts.

A message from Congressman Bonner to the Daily Reflector stated that two soil conservation engineers have received orders to proceed here to make the survey.

The snowplow burst into flames. He leaped to safety in a moment dating from 1,500 years B. C. still exist.

COBBS DISTILLING CORPORATION
PHILADELPHIA, PA.

He's been "on the team" for nearly 30 years...

BERNARD RAWLINGS happens to be a clerk in our Washington, N. C. bulk plant. He might have been a tank truck driver, a salesman, a research chemist, or president of our company—the basic story would run the same.

He came to work for Standard Oil of New Jersey years ago. His work has been steady and his pay has been good. At 65, he'll retire with a life income under the company pension plan. In the Thrift Plan, he's got a tidy cash nest-egg saved up. He's had regular vacations with pay, and special protection in case of sickness or accident.

In short, Bernard has a high degree of the things that mean most to a man with a job. He has them because it was planned that way. For over 30 years, this company's workers, their unions, and the management have worked in common agreement that people's needs as human beings are the most important thing in the world. And it's not mere generosity. It has proved plain good business all along the line.

The average Standard Oil of New Jersey worker today has been with us over 14 years. More than 8,000 of them over 20 years. That's a lot of seasoned manpower to have on your side in the competitive business of making quality gasoline and other petroleum products.

And its benefits extend clear out to you... Right now the whole petroleum industry is straining to meet the greatest demand for its products in all history—and this staff of skilled, experienced people is your assurance that everything possible is being done with this company's facilities to meet your needs for more and better petroleum products.

As your neighbors, too, people like these are good citizens, steady customers of local stores, steady payers of local taxes.

And year after year, as makers of products you depend on in your car or factory or home or on your farm... they're second to none in ability to give good value at modest price!

Strength FOR THE DAY

ON MAKING A MATURE PERSON
Here is an excerpt of a letter
from a young mother:

"We're up early and get the
breakfast through quickly. Then I
do my dusting and sweeping and try
to plan the meals for the day before
the baby gets bathed. About 9:15
I bathe her and right after that
feed her. It's generally 10:30 before
that is finished, and then, depend-
ing on the size of my wash, it's a
question whether I get through at 11
or 11:30. Then I make the baby's
orange juice, meanwhile trying to
squeeze in some cooking for lunch,
such as desserts, etc. By that time
I am well into preparing lunch. Af-
ter lunch I do the dishes, then take
the baby out. It's three o'clock by
the time I get her bedded down
again, and of course if she's fussy,
she had to get her orange juice at
4:00. Then I start in getting din-
ner. The baby has to be fed again
at 6:00. Then we have dinner, and
Bill and I wash the dishes. Then
we make the formula. Then she has
to be taken up, fed, and put down.
After that, we totter off weakly to
bed."

Of course, that's the way things
have been going for centuries. The
Lord arranged life that way. This
matter of raising children is very
educational. That's one of the ways
the Lord makes mature persons.

Extension Courses For Teachers Are Increased

With the beginning of the winter quarter, East Carolina Teachers College has increased the number of extension courses for teachers in the field and is now offering work in six centers in the eastern section of the state. Dr. Howard J. McGinnis, director of the Bureau of Field Service, has announced.

Three courses conducted during the fall quarter at Washington, Morehead City, and Jacksonville are being continued. Additional courses are now being taught by members of the college staff in Kinston, Williamston and New Bern. The six courses now being given have an enrollment of approximately 170 teachers. Subjects include home, school and community relationships, the elementary curriculum and American literature.

Faculty members conducting extension classes are Dr. J. L. Oppelt, director of student teaching and placement; Dr. Allan S. Hurlburt, director of the department of administration; Dr. J. K. Long, registrar; and Dr. Martha Pingel, professor of English.

In commenting on the extension program, which is being offered this year for the first time at the college, Dr. McGinnis says that the off-campus instruction is proving popular with public school teachers in this section of the state and that, since the opening of college in September, more than 20 requests for courses have been made to his office. A heavy teaching load resulting from the record-breaking enrollment of students for 1947-48 makes it impossible, he says, for East Carolina to offer as many extension courses as are desired, but every effort is being made to fill the needs of teachers in the field.

Do you suffer distress from **periodic FEMALE WEAKNESS**

With its Nervous, Highstrung Feelings?

are you troubled by distress of female functional monthly disturbances? Does it make you feel so nervous, cranky, restless, weak, a bit moody—at such times? Then try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms! Women by the thousands have reported remarkable benefits.

Pinkham's Compound is what doctors call a uterine sedative. It has a grand soothing effect on one of woman's most important organs. Taken regularly—Pinkham's Compound helps build up resistance against such distress. It's also a great stomachic tonic! All druggists.

Change of Life
If the functional "middle-age" period peculiar to women flashes you suffer from hot, irritable feelings—try Pinkham's Compound to relieve such symptoms. It's famous for this purpose.

Monthly Female Pains
Pinkham's Compound is very effective to relieve monthly cramps, headaches, backaches, and all the distressing symptoms due to female functional monthly disturbances.

Lydia E. Pinkham's VEGETABLE COMPOUND

People Lean On Secretary Kyser For Information

By CHESTER WALSH

Willard T. Kyser, executive secretary of the Greenville Chamber of Commerce, Pitt County's and Eastern Carolina's "encyclopedia of information" about what's going on in Eastern North Carolina, is a valuable source of information to people who visit Greenville, and to the business and professional men here and others. Kyser, veteran Chamber of Commerce secretary with a wonderful record behind him before he came to Greenville, is a valuable source of information.

That's what a prominent banker said about him yesterday when a Daily Reflector reporter was "hobnobbing for news."

Two or three other men of importance in the community chimed in a word of praise for the man who did much for USO during the war and for a more mutual understanding among the men of the Chamber of Commerce, and who knows more about how many railroad trains have been discontinued; building operations in the city of Greenville; what the aldermen did about fire zoning, and residential zoning; what the population of the county is now and was at the last census, and just exactly "Who's Who" in community service in Greenville and the County, and everything else that's worth knowing about, the whole alphabet of what's going on and what's likely to happen.

The executive secretary of the Greenville Chamber of Commerce is a valuable influence in the community, Walter L. Harrington, a former president of the Chamber of Commerce, and manager of White's Chevrolet Company, said to the reporter. J. B. Kittrell, another former Chamber of Commerce president, added his approval.

If you want to know something about Greenville, Pitt County, the South, or anything else concerning the progress and development of Pitt County, just phone or go to see Willard T. Kyser, executive secretary of the Greenville Chamber of Commerce, a county official said.

The average person—businessman or worker—has slight knowledge of just how fast Greenville is growing. Many square miles of territory were taken into the city limits last July 1 by legislative act; 2,500 more persons added to the population. About \$2,000,000 of taxable property was taken into the city, and that's what Mayor Jack Boyd said Kyser is bragging about, and there were some aldermen and other leading men present who approved.

BLOOM HAS PROGRAM

El Bloom, Kiwanis impresario at the annual minstrel show, will present the program at the Kiwanis Club's weekly supper meeting Friday night at 6:30. President N. G. (Jefferson Standard) Brooks will preside. Mrs. Ray Tyson will be accompanied for the singing of Kiwanis songs.

Frigid Weather Prevailing Here

The Weather Bureau reported 58 one-hundredths of an inch of rain here yesterday, and that includes the light fall of frozen rain last night. The official thermometer registered 25 degrees at 8 a.m. today, even below freezing.

Last Sunday was the coldest day of the winter, when the mercury dropped to 13 degrees above zero.

A bright sun from a clear sky today melted some of the ice and sleet on the ground, but in shady places there was no thawing. A brisk north wind during the forenoon had an edge on it and gave the impression that it was colder than it was. Ice streets slowed down traffic somewhat, but the street department was on the job spreading sand

Law Says Only One Inspection In 1948

A law passed by the last State Legislature requires all motor vehicles in the state to be inspected once in 1948 and twice a year thereafter. Inspection stations are being installed at convenient places in the state. It was erroneously stated yesterday that cars and trucks are to be inspected twice this year. The law says once in 1948 and twice a year thereafter.

The state inspection station here is on Broad Street, between Center and Long Streets. Cars and trucks may be inspected at any station in the state.

Funeral Services Mrs. Shuff Tomorrow

Funeral services for Mrs. Mattie Pitts Shuff, widow of C. W. Shuff, will be held at the home, 1116 East Fifth street, Thursday morning at 11 o'clock. Rev. Richard E. Hardaway, pastor of Memorial Baptist Church, will officiate. Burial will be in Greenwood cemetery. Pallbearers will be Dr. S. M. Crisp, C. A. Bowen, Hunter Keck, Col. Owen Marshburn, Guy V. Smith, J. H. Waldrop, Eustice Conway and Dr. J. L. Winstead.

Joseph J. Morris Dies In Kinston

Mr. Joseph J. Morris, 57, died suddenly in Kinston at one o'clock Tuesday afternoon from a heart attack. Funeral services will be conducted at the home, 114 South Tryon Street, in Kinston, at 3 o'clock Thursday afternoon by the Rev. J. C. Moye, Free Will Baptist minister of Snow Hill, and burial will be in Rainbow Cemetery on the Kinston-Snow Hill highway.

Mr. Morris, a native of Greenville County, came to Greene County as a young boy. He lived in Greene County until he moved to Kinston about three years ago. He was a member of the Junior Order of Hookerton and a veteran of World War I.

Surviving are his wife, Mrs. Reba Frances Morris; two sons, R. J. of Kinston and Jesse H. of the U. S. Navy, now in New Orleans, La.; a stepson, Willie Faulkner of Hookerton; six grandchildren; three brothers, Carl, of Kinston, Fate, of Ormondville, and Otha, of Hookerton; and two sisters, Mrs. Nancy Johnson of Hookerton and Mrs. Maude Moore of Ayden.

Charges Unfair Practices By General Motors

Washington, Jan. 28—(AP)—Robert N. Denham, general counsel of the National Labor Relations Board today charged General Motors Corporation with an unfair labor practice under the Taft-Hartley law. He alleged it refused to bargain with the CIO Auto Workers Union on an insurance plan.

Denham's complaint to the NLRB was based on charges brought by the union January 22.

NLRB officials said the formal complaint clears the way for Denham to seek a court order for General Motors to stop the alleged unfair practice.

Denham charged General Motors with (1) refusal to bargain on a union proposal for an insurance plan, and (2) attempting to compel General Motors' 250,000 workers to accept a company-arranged insurance plan.

Turns Down CAB Chairmanship

Washington, Jan. 28—(AP)—George P. Baker, director of Harvard's School of Transportation, turned down today the chairmanship of the Civil Aeronautics Board.

The White House announced that President Truman offered him the job. But Baker said he could not get along on the \$10,000-a-year pay. Presidential Press Secretary C. G. Ross, when making the announcement, commented that Baker has a wife and four children.

Expect Arrest Poison Bandit

Tokyo, Jan. 28—(AP)—Metropolitan police said today they expect soon to arrest the fiend who coolly poisoned Teikoku Bank employees—killing 12—and escaped with an estimated 164,000 yen (\$3,280).

Inspector Horizaki Shigeki said the bizarre robbery was similar to two previous bank robbery attempts. At in the latest case, the robber got along on the \$10,000-a-year pay and induced employees to drink poison with the explanation it was an anti-dysentery medicine.

Hog Market

Raleigh, Jan. 28—(AP)—(NCDA)—Hog markets steady, with tops of 25.25 at Greenville, Smithfield, Mount Olive, Goldsboro, Washington and Fayetteville; 25.00 at Rocky Mount, Clinton, Warsaw, Lumberton, Chadbourn and 25.75 at Richmond.

Poultry and Eggs

Raleigh, Jan. 28—(AP)—(NCDA)—Raleigh egg and poultry markets steady; U. S. grade A large 53; fryers and broilers 37.

N.Y. Cotton

New York, Jan. 28—(AP)—Cotton futures opened 30 to 50 cents a bale higher.

Nearest prices were 15 to 30 cents a bale lower than the previous close, March 34.45, May 34.58, and July 34.68.

Futures closed \$1 a bale higher, 30 cents lower than the previous close.

Month	Open	Last	Prv. Cl.
March	34.59	34.59	34.50
May	34.70	34.81	34.64

Middling spot	35.50	35.50	35.50

Grain Market

Chicago, Jan. 28—(AP)—Severe cold weather in the winter wheat belt gave new crop contracts of the bread cereal a firm undertone on the board of trade today. Near-by deliveries scored smaller gains.

Wheat closed 2 1/2-3 1/4 higher, May \$2.90 1/4-\$2.90, corn was 1 1/2-2 1/2 higher, May \$2.58-\$2.58 1/4, oats were 1/4 lower to 1 1/4 higher, Mar. \$1.22 1/4-1/4, and Soybeans were 1 cent lower to 1 cent higher, March \$4.11.

N.Y. Stock Market

New York, Jan. 28—(AP)—Stock prices improved today for the second successive session with gains ranging to around 3 points. Transactions totaled around 900,000 shares.

Deadline

Next Saturday is the deadline for owners of motor vehicles to buy their state license tags. Beginning Sunday, February 1, the drivers of cars and trucks without license tags will be liable to arrest. Paige & Barbre Insurance Agency, 904 Dickinson Avenue, where the state licenses are being sold, will close Saturday at noon.

All motor vehicles owned in Greenville will be required to have city license tags on February 1.

New Tactics In Treasure Hunt

Green Cove Springs, Fla., Jan. 28—(AP)—A quest for \$4,000,000 in pirate gold has turned from digging to screening at the spot where G. B. Mobley said his divining rod located a treasure.

Workmen are to sift the dirt taken from a 30-foot deep excavation to determine if anything of value has been scooped up unnoticed. Mobley said his instrument indicates there is "something" in the pile.

Dr. H. H. Humphries of Jacksonville, financial backer of the project, said he believes the gold is still underground near the digging but that it's costing too much to extend operations.

Alternative

(Continued from Page One)

fairs Committee heard from Herbert H. Schell that the National Association of Manufacturers is "all for the Marshall Plan, provided proper safeguards are included."

Schell, a member of the NAM International Relations Committee, said American industry sees "no alternative" to the aid program.

Senate May

(Continued from Page One)

Feb. 1, 1936.

The other two members of the committee were not available to comment.

McCabe is a Republican industrialist who has been chairman of the Philadelphia Federal Reserve Bank since 1939.

Actually, the Senate will vote merely to confirm him as a member of the Reserve System's Board of Governors. The choice of chairman is up to the President. He announced yesterday that McCabe is the man if the Senate confirms the appointment. No House action is required.

Schuman Cabinet

(Continued from Page One)

mation on how it plans to keep devaluation from resulting in higher prices in France. Schuman has said he counts on it to smoke out hidden gold reserves needed in foreign trade and home economy.

When he introduced the gold bill Schuman told the deputies they could express their views on the entire three-point program. This indicated the premier might consider a defeat of the gold measure a vote against the whole program.

The Sahara Desert is about the size of Europe.
