

Cloudy with little temperature change through Friday with light freezing rain and sleet Friday, Saturday clearing.

Schuman's Finance Bill Turned Down

Committee in National Assembly Rejects Plan Reduce Francs In Circulation; All French Banks Closed To Prevent Speculation

Paris, Jan. 29 (AP)—A government bill to confiscate francs from black marketeers was rejected by the National Assembly's finance commission today.

Premier Robert Schuman's government sought to withdraw all 5,000-franc notes in circulation, and apparently to confiscate those obtained illegitimately.

The bill was rejected when the finance commission failed to give it a majority approval. The vote was a tie, 20-20.

The government demanded a second reading. The bill will go to the National Assembly with an unfavorable report if the commission maintains its stand on the second reading.

The government closed all banks to forestall speculation during debate on the measure. Premier Robert Schuman urged the National Assembly to act quickly so that banks, the stock market and other financial agencies might open by Saturday.

Passage of this measure and the government's free gold trade bill seemed assured by a Socialist decision to support them in the assembly. Schuman had staked his cabinet's life on his monetary program.

The cabinet last Sunday decreed devaluation of the franc and the establishment of a free money market.

France has 922,000,000,000 francs in circulation, nearly double the circulation in 1944 after liberation.

At the Assembly, Communist Deputy Jacques Duclos objected to Schuman's demand for rapid action on the bill. He said speculators already were buying 5,000-franc notes for 4,000 francs.

Observers said one aim of the new bill was to satisfy the Socialists. They have been balking at a separate bill to authorize a free market in gold.

The latter would tend to bring hoarded gold stocks out of hiding and enable France to use these reserves to buy needed imports.

Pierre Abelin, Secretary of State for the Premier's office, said there were about 600,000,000 of the 5,000-franc notes in circulation. He said they represented a value of some 370,000,000,000 francs, or 37 per cent of all current French bank notes.

A 5,000-franc note is worth about \$23.50 at the present internal rate.

Earlier announcement of the bank holiday and of the plan to abolish the 5,000-franc note was made in a communique of the Finance Ministry early today.

"The public is urged no longer to accept 5,000-franc bills for payment," the communique said.

AFL Says Labor Peace Will Break

Leaders Declare Quiet Is 'Lull Before Storm'; See Fight In Spring

Miami, Fla., Jan. 29 (AP)—Leadership of the AFL today described the current labor peace as "a lull before the storm" which would break when wage negotiations begin next spring and summer.

The comparative quiet was caused by signing of new contracts last August before the Taft-Hartley act became fully operative, the AFL Executive Council said.

"When present collective bargaining contracts expire the most difficult period in the history of labor relations in this country threatens to ensue," the 15-man council warned.

President William Green said he feared the difficulties being encountered in the printing industry—where the International Typographers' union is fighting to continue its closed shop arrangements—would be extended to many other industries.

The council, meantime, gave every indication it meant to take advantage of anti-Soviet activity around the world by setting up a rival labor organization to freeze out the Russians.

The Soviet trade unions are members of the World Federation of Trade Unions, in which the CIO also is a participant along with representatives of labor groups in a score of other nations. The AFL never would join, asserting the WFTU is "Communist dominated" because of overwhelming numbers.

It would be better for us to solve the problems ahead of us realistically without trying to confuse anyone as to the issues involved.

"The Palestine Commission is not essentially a diplomatic body. Therefore, the usual practices of subtlety so prevalent in diplomatic language do not seem to be necessary."

Urges Big Power Army To Back UN

Philippine Member On Palestine Body Cites Need To Enforce Decisions

Lake Success, Jan. 29 (AP)—The Philippines delegate on the United Nations Palestine Commission today advocated a "big power" military force to back U. N. decisions.

The delegate is Senator Vicente J. Francisco, who previously had said immediate action was needed to enforce U. N. partition of the Holy Land.

Francisco said in an interview he was not free to discuss specific problems now before the five-nation commission sitting here, but that he was able to express these general views:

1. "No United Nations commission anywhere in the world should be frustrated."

2. "The United Nations would be converted into a debating club if its commissions find they cannot carry out their obligations."

3. "Some international force should always be present to make the United Nations appear as an effective instrument for maintaining law and order."

4. The five big powers should take the lead in "the formation of an international army to carry out the resolutions of the U. N. where circumstances make this difficult."

Stressing the fact that he was a lawyer concerned with criminal cases and not a diplomat, Francisco said:

"The Palestine Commission is not essentially a diplomatic body. Therefore, the usual practices of subtlety so prevalent in diplomatic language do not seem to be necessary."

"It would be better for us to solve the problems ahead of us realistically without trying to confuse anyone as to the issues involved."

Pleads Extension Of Grain Control

President's Special Message To Congress Declares Present Shortage Jeopardizes America's National Security

Washington, Jan. 29 (AP)—President Truman asked Congress today to extend until Oct. 31 his power to control use of grain, saying the present shortage "jeopardizes the national security."

In a special message to Congress, Mr. Truman recommended that his authority over grain be extended under the second war powers act "with respect to allocation and inventory control of grain for the production of ethyl alcohol regardless of the use to which the product is to be put."

The message was read to the House. The Senate was not in session.

Mr. Truman acted after a House committee shined aside his request for legislation providing a temporary extension of controls which would affect the amount of grain allocated to distillers for use in whisky-making.

The power to control distillers' use of grain will end Saturday.

The President's message was released after a White House conference with Secretary of Agriculture Anderson.

Mr. Truman called attention of Congress to the gravity of "a critical shortage of grain which threatens to become even more serious during the next few months."

The President said the situation "can not be solved" by voluntary agreements within the industry.

He submitted a proposed measure for the conservation of grain giving controls over its use for production of ethyl alcohol, "including but not limited to distilled spirits and neutral spirits."

"As a result of the devastation brought about by the war and extremely unfavorable weather conditions the grain situation of most European countries is extremely grave," the message said.

"Careful studies have indicated that the U. S. should endeavor to export at least 500 million bushels of wheat from the crop harvested in 1947."

Mr. Truman said it is now estimated that considering essential domestic needs and the grain stocks acquired by law, approximately 450 million bushels will be available for export, "considerably below the minimum amount necessary to meet pressing needs in other countries."

Students Oppose Ban

Campus Demonstration At Oklahoma U.; Burn The 14th Amendment

Norman, Okla., Jan. 29 (AP)—Students demonstrating against the ban on admission of Negroes to the University of Oklahoma today burned a copy of the 14th amendment to the constitution and mailed the ashes to President Truman.

The campus demonstration was witnessed by an estimated 1,000 students. It was held before class work opened for the second year, and followed the denial of Adis Lois Stupel Fisher's application for admission to the university law school on the grounds the state provided for a separate school established at Oklahoma City.

Six other Negroes sought admission yesterday to four graduate schools. Regents of higher education and of the University of Oklahoma were to meet today to consider action in their case.

The demonstration, which was orderly, opened with the reading of the 14th amendment, which provides for equal citizenship for all races and creeds.

Howard Friedman, a senior from Oklahoma City, told the group "we protest any type of discrimination. Those who say we can have equality under separate schools are blind."

Admit Error In Judging Iraqi Views

Britain To Again Attempt Moderated Treaty Of Alliance With Iraq

London, Jan. 29 (AP)—Britain's government worriedly eyed the Middle East today, fearful of a crisis in their relations with the Arab states.

Officials conceded that recent riots in Baghdad reflected a serious British miscalculation of popular Arab opinion. The riots were in protest against a revised British-Iraqi treaty of alliance.

Some informants said the British may try to retrieve lost ground by proposing slight modification of the treaty, which was signed Jan. 15. It has not been ratified. The government Premier Sir John Eden, who negotiated the revision, quit Tuesday.

The treaty would permit British troops to enter Iraq in event of war and would allow the British to use Iraqi airfields.

British officials said that even some Britons who had helped write the treaty acknowledged they had misjudged popular Arab opinion.

Normally, they said, there is little variance between the official Arab view and that of its people, but in Iraq a serious difference quickly became apparent.

"There was some hope, however, that a new Iraq government might be formed which would be able to convince the people the treaty is in their best interests."

Foreign Secretary Ernest Bevin had expressed hope the British-Iraqi treaty would be one of a system of alliances to form a British-Arab bulwark against the spread of Communism in the Middle East.

But the trigger-quick temper of the Arabian man-on-the-street provides a touchy problem.

Dairy Farmers Say Demand For Controls Wrong

Washington, Jan. 29 (AP)—A spokesman for dairy farmers declared today demands for new price controls and rationing come from wrong thinking and "hysteria."

Charles W. Holman, secretary of the National Cooperative Milk Producers Federation, said that this country should ration its exports.

He told the Senate Banking Committee the government should set aside "minimum quantities of essential materials and commodities" for home use before permitting any shipments abroad.

"Such a program," he said in a prepared statement, "would assure the people that reasonable supplies for domestic use will be maintained in this country and would put an end to the incentive to bid up prices and build up inventories."

One of the principal arguments for price control, Holman asserted, is that it would head off another round of wage demands this spring.

"We believe the die is cast and no possible price action can compel or forestall such increases," he said.

The Agriculture Department has predicted that a serious meat shortage will develop by spring.

"The Agriculture Department has predicted that a serious meat shortage will develop by spring."

House Votes 'Gag' On Tax-Cut Debate

'Red Front' Gifts Said Tax Free

Senator Says Treasury Listings Confer A 'Dangerous' Classification

Washington, Jan. 29 (AP)—The house voted today to consider the \$500,000,000 tax-laying bill under procedure barring any changes. Democrats cried "Gag."

The opening of debate quickly developed a wide break in Democratic ranks on President Truman's tax proposal. Rep. Knutson (R-Minn.), author of the GOP bill, invited Democrats to desert the president and help override his expected tax bill vote.

Rep. Cox (D-Ga.) told the house that for Democrats to offer the President's \$40 per person tax reducing plan (with a corporation excess profits tax to make up the revenue loss) "would be not much more than a piece of foolishness."

While the procedure voted by the house allows an amendment, Democrats will get one chance to offer a complete substitute for Knutson's bill.

Cox told his party members the President's proposal hasn't a chance. He proposed that the Democrats rally behind a proposal by Rep. Doughton (D-NC) to trim the Republican bill from \$500,000,000 to around 4,000,000,000.

Knutson argued the full \$500,000,000 is needed to help taxpayers meet the high cost of living.

He declared his bill to lower income taxes by \$5,000,000,000 is needed to help meet the high cost of living and "preserve the American system."

"Do not be misled again," Knutson told the Democrats. "I am prepared to speak leading off debate on the measure."

"If there ever was need to encourage production to combat inflation it is today."

"If there ever was a need to provide relief to the individual income taxpayer from the oppressive war income taxes which are stifling initiative and preventing business expansion it is today."

Last year President Truman vetoed bills by Knutson, who is chairman of the Ways and Means committee, to trim taxes \$4,000,000,000 a year. Enough Democrats held the party line in congress to uphold the President.

Knutson argued that the President himself has been "amazingly inconsistent" on the tax issue.

Mr. Truman has given every sign that he will veto any measure along the lines of Knutson's. Instead, he has suggested a \$40-a-person "cost of living" tax cut. To balance this, he asked \$3,200,000,000 of new taxes.

Bizonia Plans Provoke Objections By French

Frankfurt, Germany, Jan. 29 (AP)—An Allied plan for an "economic administration" of the United States and British zones drew criticism today from French and German leaders. Short rations provoked protests from German workers and Jewish students.

U. S. and British occupation authorities, in a meeting with the German leaders here last night gave them a draft charter for the "economic" government of the economically merged zones.

The Germans said afterward they had opposed the Allies' proposal for a bizonal "administration chairman," a kind of economic prime minister, on the ground it would mean too much power for one man.

Cancer Clinic Offered Britisher With 'Cure'

Sydney, Jan. 29 (AP)—John Braund, 78, an Englishman who claims to have a cure for cancer, was offered \$54,000 today to establish a cancer clinic in Sydney.

Premier James McGirr of New South Wales, the Australian state in which Sydney lies, announced that his government will set up a committee to investigate Braund's claims.

Braund is attempting to win official recognition of his methods of treatment. Several Sydney people who he has saved them after doctors had pronounced them incurable. He has attracted the attention of the medical profession—and at least one favorable comment from that direction.

Power Politics, 1939

Britain And France Missed The Boat On Russian Treaty While Hitler Was Getting Accord; Why They Failed; Lessons Are: No Appeasement And Be Prepared

The U. S. State Department's disclosure of details of the pre-war Russo-German negotiations, resulting in the non-aggression pact that precipitated the world conflict has brought this column an inquiry as to what the Anglo-French allies were doing while Hitler was achieving this coup and had Moscow offering to join him against the Western Allies—for a price so high that he wouldn't pay it.

Well, the short but exact answer is that Britain and France missed the boat. Actually they had a mission in Moscow trying to make a treaty when Stalin signed with the Fuehrer.

The tragic Munich agreement of September, 1938, under which the Western Allies sold Czechoslovakia down the river to Hitler, was the beginning of the end of appeasement by London and Paris. Then in the following March when the Nazi dictator marched troops into Czechoslovakia, England was shocked into a realization of the dangers facing Europe. As a result Britain and France decided to meet force with force if necessary, and by April of '39 we find Britain negotiating with Russia for a mutual assistance pact.

France already having one with Moscow. From then on, negotiations dragged until brought to a sensational end by the Hitler-Stalin non-

Relief From Cold In Prospect For Part Of Nation

Chicago, Jan. 29 (AP)—Relief from the severe cold weather which has enveloped nearly every section of the country appeared in prospect for some areas today, alleviating in some measure the critical fuel shortage which has crippled production in many industries and brought discomfort to thousands.

The first break in the frigid wave came to the chilled north central region. After three days of temperatures far below zero readings today generally were above that mark from the Dakotas to Illinois.

The warmer air was expected to move eastward to the Atlantic Seaboard, where rising temperatures were forecast. But there was no immediate relief from the unseasonably chilly weather, snow and sleet which has harassed most of the South.

Texas staggered from the impact of the snow, sleet, rain and abnormally low temperatures. Arkansas covered with from three to six inches of ice, was pelted by new falls of sleet and snow in the worst cold wave to strike the state in five years.

There were critical gas shortages in many communities and curtailment of supplies to industries made idle more than 250,000 workers. Business establishments and schools in sections of the south, southwest and midwest closed because of the scarcity of gas.

Analyze Causes For Earthquakes In Philippines

Manila, Jan. 29 (AP)—Slipping of the earth's crust along a fault paralleling Panay Island's central mountain range was blamed today for the destructive series of 63 earthquakes which began in the central Philippines Sunday.

Casimiro Del Rosario, director of the Philippine Weather Bureau, made that observation after an inspection tour of the region, where the unofficial death toll stands at 28.

Del Rosario said the quake was no stronger than that which rocked Manila 11 years ago, but more casualties resulted because the war had weakened solid structures in hard hit Iloilo City.

Four slight tremors were felt in Iloilo today.

The U. S. Weather Bureau reported the beach 13 miles west of Iloilo had sunk 10 feet.

Mill Workers Opposed Union

Greensboro N.C., Jan. 29 (AP)—Workers at the White Oak Cotton Mill voted against having the Textile Workers Union of America (CIO) represent them as bargaining agent by a vote of 1,363 to 493 in an election held under the supervision of the National Labor Relations Board yesterday.

Approximately 1,800 of the 2,000 employees of the mill owned by the one interest were eligible to vote. Excluded were clerical and supervisory personnel and most maintenance employees.

De Valera Hopes To Unite Ireland

Sligo, Ire., Jan. 29 (AP)—Prime Minister Eamon de Valera says he is ready to push for union of Eire and Northern Ireland if his government wins next month's elections.

De Valera said in a political speech last night that his plans for handling the Northern Ireland question are made. He promised that pressure of public opinion of the Irish race x x x throughout the world would be concentrated on the question.

Stassen Swings Tour Into Maine

Portland Me., Jan. 29 (AP)—Harold E. Stassen swung into Maine to meet with party leaders and other officials today in his campaign to gain the Republican presidential nomination.

The 40-year-old former Minnesota governor arrived in Portland from Durh-N. H. a few hours after issuing what amounted to an open challenge to Gov. Thomas E. Dewey of New York to meet him in a debate on foreign and domestic issues.

Late News Briefs

Newark, N.J., Jan. 29 (AP)—A coast-to-coast "drug train" to collect medical supplies for Europe was planned last night by the New Jersey Pharmaceutical Association.

The group, in mid-winter convention, adopted a resolution proposing the nation's pharmacies become depots for collection of drug and medicines needed overseas.

Petroleum Men Cooperate To Defeat Shortage

Washington, Jan. 29 (AP)—Petroleum men set out to beat the serious fuel oil shortage by cooperation today.

Attorney General Clark promised them they are safe from the antitrust laws as long as they do not try to fix prices.

With this backing, oil producers and dealers announced last night they will:

1. Cut production of gasoline at refineries sharply for the next two months to leave more oil for heating purposes.

2. Pool oil supplies in some areas to save transportation and overcome local shortages.

3. Plan for increased production of gasoline in the spring, especially in the summer.

Stanford Univ. President Dies

New York, Jan. 29 (AP)—Dr. Donald B. Tresidler, 53, president of Stanford University at Palo Alto, Calif., died last night in his suite at a mid-Manhattan hotel.

Police attributed the educator's death to natural causes. The body was removed to the Bellevue hospital morgue and a medical examiner said it would be determined today whether an autopsy would be performed.

Orville Wright Said Rested Comfortably

Dayton, O., Jan. 29 (AP)—Aviation Pioneer Orville Wright "rested comfortably" during the night, his physician, Dr. A. B. Brower, said today.

Brower described Wright's condition as "more serious than we first believed." He was stricken with a heart attack Tuesday in his labora-

Gov't Workers Pay

Talk Of Raising Salaries; Pay Limits In Civil Service And Federal Appointees; Reasons Behind Call For Pay Raises; Good Men Needed; Standards Out-Dated

Washington, Jan. 29 (AP)—There's talk in Congress of raising the pay of government workers. It's not very excited talk.

That would include those making under and over \$10,000 a year. The \$10,000 is pretty much a dividing line.

No one can come up through the government's Civil Service system and, while still a Civil Service worker, make more than \$9,975. That's tops.

For example, 1,700 people make \$9,975. The majority of bureau chiefs, like the heads of the Census Bureau and Bureau of Standards, make that.

To make \$10,000 or more an official has to be elected or appointed. He can't be in Civil Service.

For example: The three commissioners who run Civil Service were appointed by the President. Each makes \$10,000.

There are 1,300 who make \$9,000 or over, including the President.

Today in the government's executive branch, and that includes the President, there are 2,023,220 workers.

(This figure does not include people who work for Congress or around the courts. They're not in this story.)

The average pay of a government worker is between \$5,000 and \$5,500

a year, according to the Civil Service Commission.

This will show the range of pay in the Civil Service system:

It runs from the lowest pay—\$1,750 for typists and messengers and \$2188 starting pay for stenographers — to \$975 for bureau chiefs.

Those Civil Service workers get paid according to the classification in which they work, since there's a fixed pay for each classification.

Civil Service workers got a raise of about 14 per cent a year in 1946 from Congress. Postal workers got a little more.

There are bills in Congress now to give the Civil Service workers and that includes postal workers, another raise.

Yesterday Agriculture Secretary Anderson told the Senate's Civil Service Committee that those getting \$10,000 and more should get a raise. Why?

To get good men to work for the government—a number making \$10,000 a year have quit for better pay in business—and to meet high living costs since some of those \$10,000-and-over jobs have been frozen for years.

For example: Since 1934 the pay for Collector of Customs in New York has been \$12,000.

SOCIAL CALENDAR

FRIDAY

10:30 a. m.—Prayer meeting held by the Woman's Auxiliary of the Presbyterian Church at the home of Mrs. J. H. Moya, 6:30 p. m.—Kiwanis Club.

General hospital Tuesday for appendicitis.

Mr. and Mrs. Levi Smith of Baltimore are spending this week with Mr. Smith's parents Mr. and Mrs. M. K. Smith.

Mr. and Mrs. Thomas Smith of 1208 Cotanche street and Mr. and Mrs. David Smith of Ayden R. F. D. will leave Friday afternoon for Baltimore to spend the week end with Mr. and Mrs. Levi Smith.

Mr. and Mrs. Alton Clapp have returned from Franklin, Ky., where Mr. Clapp has been on the tobacco market.

United States "greenbacks" reached a low of 46 cents in terms of gold in 1864 and rose to nearly par in 1878.

MRS. CLIFTON C. CANNON

Cannon-Smith

Miss Reba Buck Smith, daughter of Mr. Jesse Staniel Smith and the late Mrs. Smith of Black Jack, and Clifton Carr Cannon, son of Mr. and Mrs. Richard Cannon of Ayden, were married January sixteenth at half after five o'clock in the Free Will Baptist Church at Black Jack.

The Rev. I. W. Johnson, the groom's pastor, officiated at the double-ring ceremony.

A program of nuptial music was rendered by Mrs. James Page, pianist, and Mrs. Ray Page Gaskins, soloist.

The bride, given in marriage by her father wore a white tailored gabardine suit with a white blouse and matching white hat topped with a black ostrich plume with black accessories. She carried a white Bible topped with a purple throated orchid showered with satin ribbons.

The bride was attended by her oldest sister, Mrs. Glenn Worthington as matron of honor. Mrs. Worthington wore a black gabardine suit with white accessories and a corsage of red roses.

Richard J. Cannon was his brother's best man, and ushers were Alton R. Vincent, brother-in-law of the bride, Ernest Johnson, brother-in-law of the groom.

Mrs. Cannon, mother of the groom, wore a black crepe suit with black accessories and a corsage of white roses.

Mrs. Alton R. Vincent, sister of the bride wore black dress suit with black and white accessories and a corsage of red roses.

Immediately following the ceremony the couple left for a wedding trip south. Upon their return they will be at home near Black Jack.

Reading Aloud Group

The Reading Aloud group will meet in the reception room of the Classroom building on the campus of East Carolina Teachers College on Friday evening at 6:30. As part of the program Miss Alma Browning will read selections of poetry. The group is sponsored by Dr. Lucile Charles, director of speech and drama at the college. Those in the city and on the campus who are interested are invited to attend.

Registered Nurses Meet

The registered nurses of Pitt County met Tuesday night, Jan. 27, at the home of Miss Jane Smith with Mrs. Flora Parker as assisting hostess.

The meeting was called to order by Miss Pearl Dixon, club president. Committees were appointed and plans discussed for entertaining district No. 8 which will be held in Greenville on March 9.

After the business session Mrs. M. E. Corbette read an interesting paper on nursing care of patients with sinus infections.

During the social hour the hostesses, assisted by Mrs. J. B. Smith, served a sweet course with coffee.

Literature Department Meets

The Literature Department of the Woman's Club met at the home of Mrs. J. D. Aman on Tuesday afternoon, January 27, at 4 o'clock.

Mrs. B. McK. Johnson reviewed the book "Together," annals of an army wife, by Katherine Tupper Marshall. The book presents a very interesting picture of the private and official life of George Marshall, former Chief of Staff and now Secretary of State. Mrs. Johnson presented the characters in the book with clarity and understanding.

Refreshments, consisting of sandwiches, cookies, coffee and nuts, were served to twenty-one members and guests. Mrs. L. M. Ernest and Mrs. W. S. Stafford were introduced as visitors. Assistant hostesses were Mrs. W. J. Tetterton and Mrs. B. McK. Johnson.

Mrs. Hattie Shuff's Brother Buried In Charlotte Today

Charlotte, Jan. 28—Funeral services were held here today for Thomas L. Pitts, well known engineering and contractors' representative, who died Tuesday after two weeks' critical illness, one day after his sister, Mrs. Hattie Pitts Shuff of Greenville, died of a heart attack Monday while journeying to her brother's bedside here. Mr. Pitts is survived by his wife, three daughters, three sons and a grandchild.

Funeral services for Mrs. Shuff were held at the home in Greenville at 11 a. m. today. Rev. Richard E. Hardaway, pastor of Memorial Baptist Church officiated. Burial was in Greenwood Cemetery.

Plans Exhibit Paintings Here

Jean Melver Lane of Sanford, acting director of the department of art at East Carolina Teachers College, will exhibit thirty of her works in oil and water color at the Community Art Gallery of Greenville on February 2-29. The exhibition is presented to the public by request of the Board of Directors of the city art gallery.

The paintings include waterfront scenes, landscapes, portraits, and still life studies. Among them are a number of works depicting the eastern section of North Carolina, including "Live Oaks and Moss-Washington Park" and "Tar River at Greenville." A large number are scenes along the Maine coast.

Miss Lane is a native North Carolinian, who was born in Greensboro and who now lives in Sanford. She received her education at the University of North Carolina, Columbia University, and the University of Pennsylvania.

Other art exhibitions in the state in which Miss Lane's work has been included are the annual exhibition of the work of North Carolina artists, held at Winston-Salem in 1941 and sponsored by the State Federation of Women's Clubs, and the North Carolina artists eleventh annual exhibition in 1947.

Eleven Students At College Invited To Enter Fraternity

Eleven students at East Carolina Teachers College have been elected to membership in the Tau Chapter of Phi Sigma Pi, national honorary educational fraternity for men students. Eight of these have been invited to become active members of the organization; and three senior students to become honorary members.

Initiation will take place during February and will be in charge of John Thigpen of Williamston, president, and Dr. Beecher Flanagan, faculty advisor.

Those elected to active membership are Jack Davis, Kinston; Alan Stoddard, Greenville; Herbert Taylor, Robersonville; Robert Chinnis, Wilmington; R. B. Lee, Kinston; Milton Fields, Scotland Neck; Paul Brooks, Greenville; and James Lockridge, Thomasville. Seniors chosen as honorary members are Charles Bracken, Greenville; Keith Hudson, Thomasville; and Joseph Hines, Washington.

Birth Announcement

Mr. and Mrs. Artie B. Hardee of Graham announce the birth of a son, Jasper Ronald, on January 28. Mrs. Hardee is the former Miss Martha Hoels, of Grimesland.

Lions Call For Special Session

Kinston, N. C., Jan. 28—(AP)—The 250 members of District 31-C of Lions International who met here yesterday in their first mid-winter session since the end of the war chose Rocky Mount as the site of their next meeting and called for a special session of the State's General Assembly to act on proposed pay increases for teachers. The group passed a resolution endorsing the candidacy of Ed Mc-

A Quickie Dinner for Busy Days

Every homemaker has days when it is necessary to be away from home until late in the afternoon. Now, during the lull that follows the Christmas rush, is a good time to make plans to assure your family of nutritious dinners on these busy days.

Corned Beef Hash
Ring with Creamed Eggs

Rub inside of a ring mold with BAK-S-RITE or ADVANCE SHORTENING. In it pack 2 cans CERTIFIED CORNED BEEF HASH. Bake 20 min. in a moderate oven, 350° F. Turn out on a warm serving dish. Meanwhile, make a white sauce: 2 tbs. WILSON'S CERTIFIED MARGARINE or CLEAR BROOK BUTTER, 2 tbs. flour, 1 cup milk, 1/2 tsp. salt to taste.

Add 1/4 cup diced green pepper and cook in double boiler 10 min. Cut 6 CLEAR BROOK EGGS (hard-cooked) in halves and then in wedges, add to the white sauce, mix carefully, and serve in the center of the hash ring. Serves 6.

Dinner is a Jiffy

Dinner will be on the table half an hour after you step into the door. Start the oven heating first thing. Don't open and get the corned beef hash ring into the oven first. While it bakes you have 20 minutes to cook a quick vegetable, make the creamed eggs (using Clear Brook Eggs hard-cooked in the morning and chilled), set the table, prepare a delicious salad, and wash-fruits fruit for dessert.

As a special treat... and to chase those chills away... start the meal off with an invigorating cup of hot B-V bouillon.

Dinner will be so delicious... and pretty... your family won't ever guess you'd been away all afternoon.

The Wilson label protects your table

Drama Group Will Be Installed In National Society

Dr. Harold A. Ehrensperger, editorial secretary of the Student Department of the Board of Education of the Methodist Church and editor of "Motive," publication of the Methodist Student Movement, will be chief speaker and will preside at the ceremony in which the Drama Group of the Wesley Foundation of the Jarvis Memorial Methodist Church in Greenville is installed as a chapter of the National Society of Wesley Players.

The local drama group, made up largely of students at East Carolina Teachers College, is an active student organization and in the past has presented a number of plays and pageants which have received favorable comment on the college campus and in the city of Greenville. Mamej Chandler, Methodist student director at the Jarvis Memorial Church, is the director of the group.

Motion Picture Filmed Here Made Big Hit

By CHESTER WALSH
Lord-Warner Pictures, Inc., a Greenville motion picture corporation, made its first all-commercial film release here this week and the picture made a hit at the State and Plaza theaters. The picture, "Pitch A Boogie Woogie," story by John W. Warner and William Lord, has an all-star Negro cast, some of the players being local persons, the others professionals. It was filmed entirely in Greenville. Song hits are "Pitch A Boogie Woogie," "Te Quiero," "I Heard You Say," and "Even More." William Lord and Dick Loring are authors of "Vini, Vidi, Vinci," a sparkling number. The musical synchronization is by Charles Woods and his Rhythm Yets. The orchestra is from A&T College at Greensboro, most of the members being music teachers there.

Following is the cast: Tom Foreman, Herman Forbes, Esther Mae Porter, Joe Little and Beatrice Atkinson, all of Greenville; Evelyn Whorton, Rosa Burrell, Dorothy Lee, Eleanor Hines, Cleophus Lyons and the "Count and Harriet," and Irvin C. Miller and girls, and Billy Cornell and the chorus.

Jap Money Printers Demanding More Yen

Tokyo, Jan. 29—(AP)—Japanese printers turning out more and more yen for the government, struck today because they want more yen from the government.

A Weak, Run-Down Feeling Is Often A Warning

That The Red-Blood Is Getting Low
If you do not feel like your real self, do not have the urge to be up and doing why not check-up on your blood strength? Look at the palms of your hands, your fingernails, your lips, the lobes of your ears—are they pale and of color?
Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.
To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength, non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.
Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or too weak—the stomach will have little cause to get balky with gas, bloating and give off that sour food taste.
Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater firmness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your cheeks—your face, feet, and hands. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps build sturdy health.

'Man Of The Year'

Bethel, Jan. 28—At the regular meeting of the Bethel Rotary Club last night, President Larry N. James, stated that a committee representing the club, town and community had selected Swan C. Ives as Bethel's 1947 "Man of the Year" for his active service in civic organizations and projects of interest to the community. Ives is a charter member and past president of the Bethel club and cashier of the local bank.

Forest Warden Tyson Issues Fire Warning

Farmers and county officials say that N. S. (Kid) Tyson, Pitt county forest warden, is doing a good job and is entitled to the fullest cooperation of farmers and others of the county.

Tyson and the other forest wardens are giving a full 12-month service to the safeguarding of the woodlands of the county and they are doing much to educate farmers and others as to the importance of "preventing forest fires." Tyson today warned farmers and others that beginning February 1, when the sap begins to rise in trees, that the state law requires that farmers and others who intend to burn brush or trash, must apply for a permit from a forest warden.

The state law prohibits the burning of brush or igniting of any material in or adjacent to any woodland under the protection of the State Forest Service between February 1 and June 1 without first obtaining a special permit from a forest warden or an authorized agent.

There is no charge for these permits. They may be obtained from County Forest Warden Tyson; Wilbur Garris, Ayden; James J. Edwards, Stokes town; W. H. Sutton, Grimesland; W. J. Taylor, Bethel; A. J. Moore, Fountain; J. H. Bundy, Farmville; J. S. Elks, Ballard's Crossroads and the county jail in Greenville; North Carolina fire tower, Jim Buck, Winterville; J. Henry Whitehurst, Stokes; Ernest Wooden, Falkland; Elmer Haddock, Black Jack; B. B. Basden, Ayden, and W. A. Lee, Greenville, Route 5.

Forest Warden Tyson requests that all who go into woods to be careful with matches and camp fires. He also urges those who make fires for any purpose in woods to be sure that all of the fire is extinguished before they leave.

DRIFTING HULK SINKS
Boston, Jan. 29—(AP)—Army funeral ship Joseph V. Connolly went adrift from a tow line today off Cape Race, Nfld., and sank, the Coast Guard reported today. The ship, previously ravaged by fire, was under tow for New York.

Edible gelatin is made from flesh removed from hides in the tanning process.

Law To Compel Poles To Save Money Proposed

Warsaw, Jan. 29—(AP)—A law to make the Polish people save for what they need was expected to be enacted by Parliament today.

The Finance Ministry proposed the law yesterday. It did not estimate how much would be saved each year under the plan.

The compulsory community savings measure would require workers earning 240,000 to 400,000 zlotys (2,400 to \$4,000) a year to save one per cent of their incomes, or 2,400 to 4,000 zlotys (24 to \$40).

Coast Line Pays County Largest Sum For Taxes

The Atlantic Coast Line Railroad today paid \$17,197.04 of taxes in Pitt County, the largest amount of taxes paid by any company or individual.

Of the amount paid, \$492.15 to Greenville for the State Board assessment; \$12,883.46 is the State Board Assessment for the general fund; \$4,123.59 for the school district; \$180.91 for Greenville and Winterville bonds, and \$4.08, a local assessment, for two small parcels of land owned by the company.

Taxes paid by the Coast Line for the East Carolina Railroad, running from Tarboro to Farmville, to the town of Farmville, and to Fountain, Bethel, Stokes, Fictolus, Winterville, Ayden and Grifton will bring the above total up to about \$19,000 paid in Pitt County, Charles A. Robertson, local agent for the railroad, said today.

Marselle is the second largest French city.

FOR TAKE P-W TABLETS
A modern, mild, fully-synthesized, meat and gelatin free medicine.

Want Dignity

Philadelphia, Jan. 29—(AP)—Philadelphia used car dealers got together and voted thumbs down on such trade names as "More Money Max," "The Smiling Irishman" and "Top Dollar Joe."

Names like that, the dealers solemnly agreed in a resolution last night, are not in keeping with the industry's "desire to maintain a dignified attitude in its transactions with the public."

Farm Meeting In Washington February 12th

College Station, Raleigh, Jan. 29—Adjusting Southern Agriculture to Increase the Farm Income will be the theme of the 45th annual convention of the Association of Southern Agricultural Workers when they convene in Washington, D. C. February 12.

Frank H. Jeter, agricultural editor at State College, and director of publicity for the convention, states that a large number of agricultural leaders from North Carolina are scheduled to take part on the program during the three-day gathering which closes on February 14.

A general business meeting is scheduled for the evening of February 13, Jeter stated, at which time tokens of appreciation for many years of faithful and distinguished service in Southern Agriculture will be awarded to outstanding agricultural leaders. Presentation of the awards will be made by W. Kerr Scott, North Carolina Commissioner

of Agriculture. Officers and members of the executive committee for 1948-49 will also be elected during this meeting, he said.

The first general session of the convention gets underway on Thursday morning, February 12, when agricultural economists and rural sociologists hold a joint meeting with marketing specialists. The main feature of the afternoon session will be a panel discussion on "Research Under the Research and Marketing Act of 1946." Dr. M. A. Abrahamson, professor of marketing at State College, is scheduled to take part. Other meetings scheduled for Thursday include the agricultural editor's section, agricultural engineers, agronomy and animal husbandry.

Glacial action has been the chief agent in lake formation.

Relief At Last For Your Cough

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

Strength FOR THE DAY

THE SHRINK IS IMPERATIVE What is worship?

Worship is anything that makes it easy to find God and difficult to forget Him. It may be the singing of hymns or the offering up of prayers, the reading of Scripture, quiet meditation in some holy shrine, or the proclamation of the gospel.

Others claim that they can worship God in their homes, that they can get just as much out of a radio church service as out of one they actually attend.

People often maintain that they can worship God out under the open skies just as well as they can in a church. But they are fooling themselves. They are taking their fascination for the beauties of nature and calling it worship.

Others claim that they can worship God in their homes, that they can get just as much out of a radio church service as out of one they actually attend.

WASHINGTON LETTER

By JANE RADS (Second of Four Articles)

Washington — For the past 100 years campaign slogans have played a major part in determining the outcome of political elections.

The campaign of 1848, a century ago, was explosive with slogans. Three parties were concerned.

The "Free Soil" party, which later formed the basis of the Republican Party of today, had Martin Van Buren as its candidate. It used "Free Soil, Free Speech, Free Labor and Free Men."

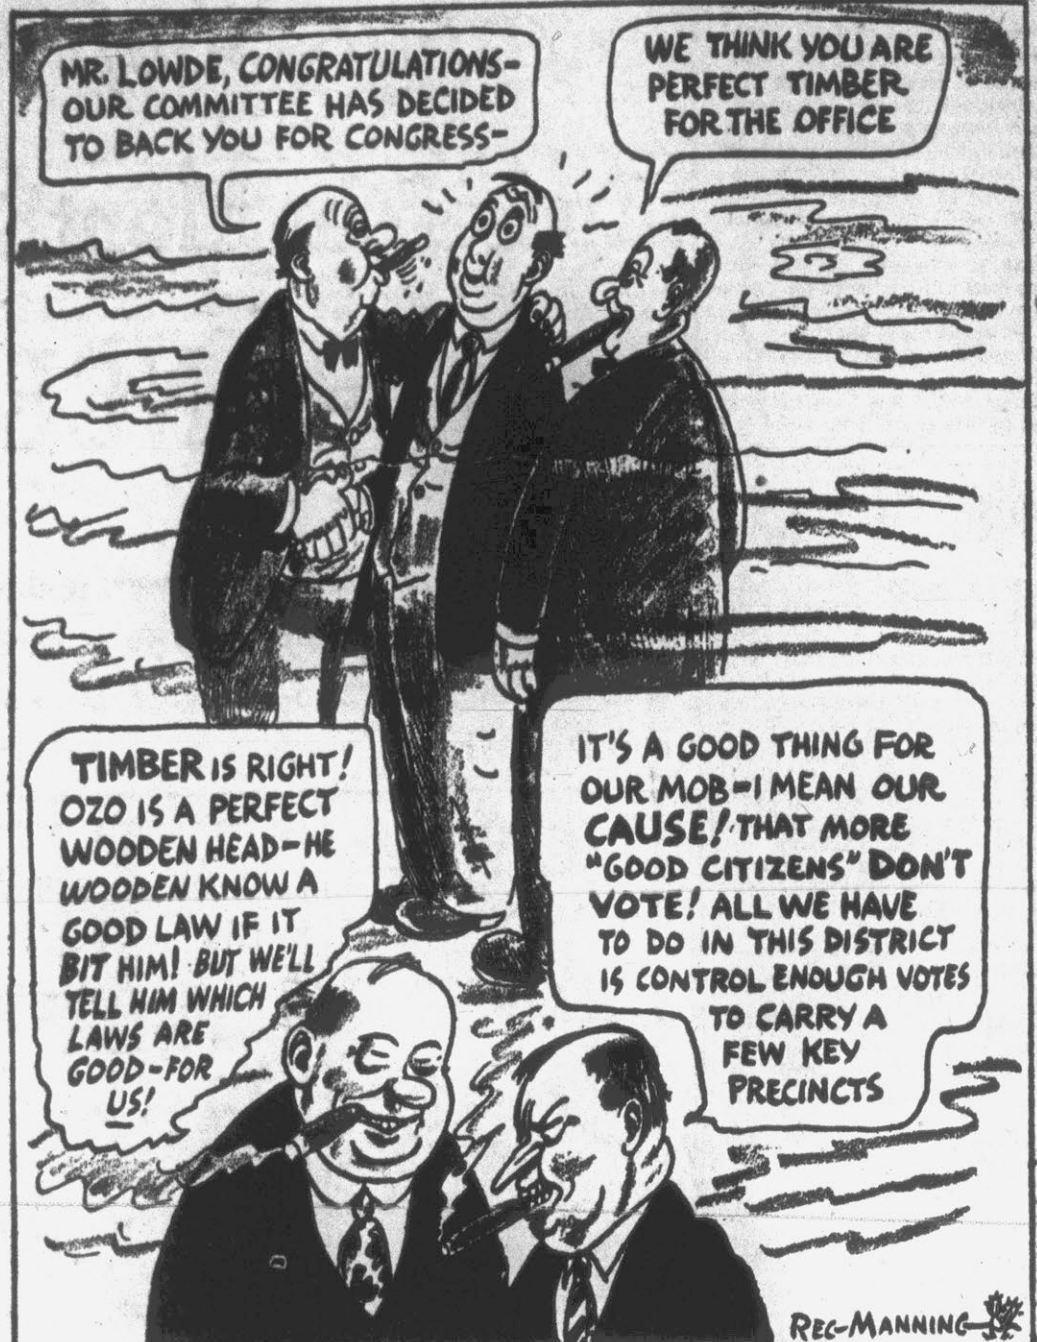

The new party's slogan was readily adapted to its candidate, John C. Fremont, in 1856.

"Free Soil, Free Speech, Free Labor, Free Men and Free-Mont." The Democrats, with their nominee, James Buchanan, retaliated with the first use of the phrase "Black Republicans" and won the election.

One of the Republican slogans for the 1860 campaign, when Abraham Lincoln defeated two Democratic aspirants, Stephen A. Douglas and John C. Breckinridge, was "Vote Yourself a Farm."

In 1868, in the midst of the Civil War, Lincoln was re-elected over Gen. George B. McClellan, known as "Little Mac," the Democratic candidate.

Horace Greeley, the Democratic nominee in 1872, campaigned against the Grant administration with the slogan "Turn the Rascals Out."

Women IN THE CHURCH

By Mary Fowler

The St. Louis (Mo.) Council of Church Women has been carrying on three special projects for a number of years: it has a part-time ministry in the City Hospital; it supports a part-time ministry among the foreign-born of the city; and each fall it conducts a two-day mission institute.

Mrs. Marguerite L. Berkey, missionary of the Methodist Church to China, who spent the four years of World War II as pastor of the Methodist Church in Davenport, Nebraska, is back in service in Tientsin.

There recently died in Kyoto, Japan, at the age of 90, the American woman who, perhaps more than any other in her generation influenced education in Japan, and founded more service organizations than any other.

The new party's slogan was readily adapted to its candidate, John C. Fremont, in 1856.

"Free Soil, Free Speech, Free Labor, Free Men and Free-Mont." The Democrats, with their nominee, James Buchanan, retaliated with the first use of the phrase "Black Republicans" and won the election.

One of the Republican slogans for the 1860 campaign, when Abraham Lincoln defeated two Democratic aspirants, Stephen A. Douglas and John C. Breckinridge, was "Vote Yourself a Farm."

In 1868, in the midst of the Civil War, Lincoln was re-elected over Gen. George B. McClellan, known as "Little Mac," the Democratic candidate.

Horace Greeley, the Democratic nominee in 1872, campaigned against the Grant administration with the slogan "Turn the Rascals Out."

In the campaign of 1876, when Republican Rutherford B. Hayes defeated Democrat Samuel J. Tilden, cartoons seemed more important than slogans.

(Tomorrow: "Rum Romanism and Rebellion.")

Moral Reform. During the years Henry Van Dyke, Joseph C. Crew, Malcolm MacDonald, John U. Rockefeller, Col. and Mrs. Lindbergh, Graham Taylor, and a host of other notables were guests in her home. During the recent war, she remained in her home in Kyoto, protected and revered by the Japanese. On her 88th birthday, Japanese educators, students and alumni of Doshisha, and high officers of the U. S. Army of Occupation joined to do her honor.

Nylon yarn is far more elastic than yarn of wool or silk, but when the plain yarns have been made into plain knit fabrics the wool or silk fabric is more elastic than the nylon fabric.

Olympic Deadlock Over Hockey Entry For U.S.

St. Moritz, Switzerland, Jan. 29—(AP)—The International Olympic committee was reported deadlocked today on the question of which of two rival hockey teams is to represent the United States in the winter Olympic games here.

The Olympic Press Bureau said the committee ended its morning session in a stalemate. The committee scheduled another meeting for today, the bureau announced.

The call for an emergency session of the committee was issued last night less than an hour after the I.O.C. executive committee had given the go-ahead to the rival U. S. hockey teams—the Amateur Hockey Association and the official U. S. Olympic outfit.

Without discussion and without a dissenting vote, the Swiss voted back that "the A.H.A. remains qualified to participate in the ice hockey championship within the fifth Olympic winter games."

The A.H.A. team, blackballed by the U.S. Olympic committee, had been accepted by the Swiss as the American entry long ago. The Swiss rejected the U.S. Olympic team, which was chosen by the Amateur Athletic Union.

That placed the I.O.C. in an unprecedented predicament. What the 27 members of the I.O.C. would do to parry the snub to its executive committee was the topic of hotel lobby conversation throughout this winter Olympic capital.

Twelve Yankees Still Unsigned

New York, Jan. 29—(AP)—The New York Yankees, who have been betting a fast pace in getting their athletes under 1948 contract, report only 12 players now unsigned.

Those not in the fold are Pitchers Bill Bevens, Frank Hiller, Allie Reynolds, Frank Shea, Charley Wenzloff, Dick Starr and Bobo Newsom; Catchers Yogi Berra and Aaron Robinson; Infielders Jerry Coleman and George McQuinn; and Outfielder Johnny Lindell.

SANITARIUMS FOR POLAND
Wroclaw, Poland—(AP)—Two new sanitariums for tuberculosis patients, with a total capacity of 450 beds, are nearing completion in the vicinity of this former city of Breslau.

Scoring Night

Gallipolis, O., Jan. 29—(AP)—"Just about everything the boys threw at basket went in."

That's how Rio Grande (O.) Coach Bob Stonebranger describes the weird 115 to 116 triple overtime decision his team took from winless Wilberforce Church University last night.

"I've never seen anything like it. Every player on each team seemed to be coming through with the greatest scoring night of his career."

The game, played at Gallipolis—Rio Grande's home—ended at 104-all after the regulation 40 minutes. And after the first five-minute overtime the score was 114-all.

Three Giants In Southern Loop

Richmond, Va., Jan. 29—(AP)—The Southern Conference basketball race looked more like a three-way affair today than ever before.

A pair of the trio of circuit cage giants flexed their muscles last night and thereby added a victory apiece to their season's records.

North Carolina State, recognized as the class of the conference, had little trouble disposing of Furman 73-34. Dick Dicky, N.C. State forward, paced the attack with 16 points.

Furman attempted to hold the State attack down with slow, steady offensive action in the first half, but the attempt was largely futile.

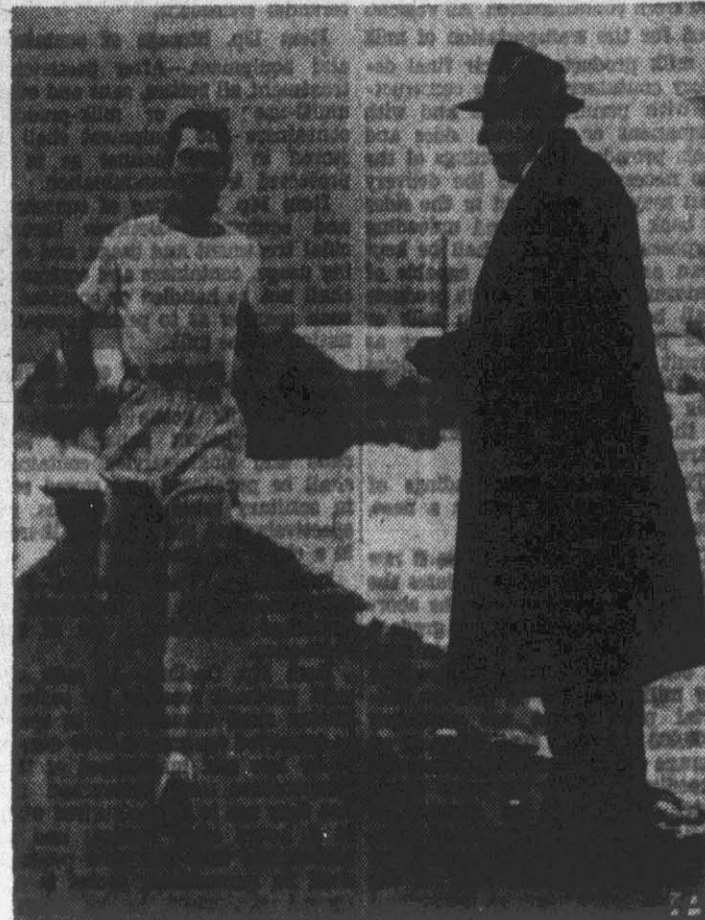

George Washington, the other giant in action last night, had some trouble subduing Virginia Tech. It took a set shot by Maynard Heathcock in the last five seconds of play to beat the Techmen, 60-58.

In a lone game on the card tonight William and Mary will be host to the Citadel.

RAMBINO LAID UP

New York, Jan. 29—(AP)—Babe Ruth won't be able to take off on his planned trip to Florida for possibly a week because of a bad cold.

The Bambino, who left Neurological Institute Tuesday after a physical checkup, originally had planned to depart for the South today.

WINTER WORKOUT—G.H. Dodds, the "flying parson" who holds the U.S. one-mile indoor race record with time of 4:06.4, is clocked by Coach Jack Kyder as he works out at Boston College for Olympics and other meets.

Intramurals At College Round Into Full Swing

By BERNARD WEST

The men's intramural basketball tournament at ECTC has rounded into full swing as it enters its third week of operation.

Last week's results show the Redskins, the Cagers, the Phantoms, Norport and the Wildcats emerging victorious in their court engagements.

Mantoo's aggregation battered a hapless Vampire quint, 43-17, while the Hopewell Cagers scratched up a 34-27 win over the Whis Kids.

Greenville's revived quint smashed the cellar dwellers with a 29-18 score, and the Norport lads of Norfolk and Portsmouth routed Kinston's Red Devils with a 41-24 score.

The wild and woolly Wild-ocats of Lenoirville squeaked a 24-20 victory out of the Moonshiners from Wright building's lower sanctums to complete last week's intramural card.

Only six games were scheduled last week because of a varsity game here Tuesday night of that week. One of the engagements which was to have been between the ECTC Jayvees and the ECTC Outlaws, was postponed.

There are now over 200 East Carolina male students participating in the intramural tournament. Eighteen teams comprise the tournament's roster. New Bern's Bears are the newest addition to the league.

Dr. Niphi Jorgensen, head of the ECTC athletic department and administration of the tournament, is very pleased with the progress of the program. He hopes this extensive intramural activity will draw the interest of those who are not participating, and urges anyone who desires to attend the games.

Three games are played each night, Monday through Wednesday. The first game each evening starts at 6:30 p. m.

Pasquel Slows Down For League Commissioner

Mexico City, Jan. 29—(AP)—A long distance squabble between former Mexican Baseball League President Jorge Pasquel in New York and High Commissioner Alejandro Aguilar Reyes here apparently has cleared the air of some doubts as to who runs the show and the league plans to resume its peace talks with U.S. organized baseball.

The commissioner, appointed last fall for the dual job of pulling the circuit out of piling deficits and making friends north of the border, resigned Sunday on reading newspaper reports here that Pasquel wanted no peace and would continue to raid U.S. diamonds for talent.

Yesterday in a long statement explaining his resignation Aguilar Reyes called Pasquel a "dictator" and warned that Mexican baseball "never has flourished under dictatorship."

Then came a telegram from Pasquel denying the statements attributed to him. The commissioner announced he was withholding his resignation pending a meeting with club presidents to hear Pasquel's story.

The commissioner, often called "the father of Mexican baseball" for his accomplishment of encouraging it from its old and lopsided status to an organized league, told the Associated Press he was communicating today with Walter Mulhry of U.S. baseball.

Louis Will 'Try' In Exhibition Bout Tonight

Chicago, Jan. 29—(AP)—Joe Louis, world's heavyweight boxing champion, who will appear in a four-round exhibition match in the Coliseum tonight opposing young Bob Foxworth says "I'm gonna be trying to hit somebody like I didn't hit Walcott."

It will be the champion's first appearance in a ring since he was awarded the disputed 15-round decision over Jersey Joe Walcott in New York last Dec. 8 and Louis says it will also be his last appearance in a Chicago ring. He plans to retire this year.

The Illinois State Athletic Commission has sanctioned tonight's bout as an exhibition and there will be no official decision. Louis' title will not be at stake the commission ruled, even though Foxworth should score a knockout. The

Play Tonight

The Greenville Intermediates will play the Belvoir High School in the Greenville High School gym tonight at 7:30 p. m.

This will give the intermediates a good test before they meet Goldsboro's Earthquakes here Saturday afternoon at 2:00 p. m.

They have been working out daily in the Army, and will be in top shape for this game.

This will be the first time this year that the intermediates have gone in a contest the underdog.

Probable starting lineup for Greenville: Julius Vainwright, Billy Tucker, at guards, Sidney Beley at center, Leon Moore and Dicky Gray at forwards.

Zale-Graziano Bout Discussed

New York, Jan. 29—(AP)—A third battle between Middleweight Champion Rocky Graziano and former title Tony Zale—to be held in the Atlantic City, N.J. Convention Hall in May—was being discussed here today.

Al Weill, acting for a group of "men from Wall Street," said he had offered Graziano \$120,000 to defend his crown against the Gary, Ind., veteran from whom he wrested it last July in Chicago. Zale reportedly was offered \$80,000.

Preliminary Will Feature Boxers With Experience

Bob Wheeler of Oxford will battle Garlan Bailey of Thomasville in the boxing show being put on at the East Carolina Teachers College gym on Saturday evening, January 31, at 8:00 o'clock.

Wheeler vs. G. Bailey will be one of the preliminary bouts before the main attraction between "Chummy" Lambeth Sugar Bowl champ of 1947, and Bobby "Red" Bailey, popular ringster who has fought for the Myrtle Beach, S. C., boxing team for several years and who fought himself into the finals of the Piedmont Golden Gloves in 1947 with three knockouts before losing a close split decision to Everett Calhoun of Greensboro, current Golden Gloves champion in the welterweight division.

Wheeler, weighing 140 lbs., will enter the ring with four years of ring experience and around 32 amateur bouts under his belt. Before entering the Navy and fighting on the Navy boxing team, he had fought in the Greensboro Golden Gloves and the Charlotte Golden Gloves tournaments. While in the Navy, Wheeler fought in the Golden Gloves Tournament in Oakland California, and the National Golden Gloves Tournament.

A spirited bout is expected when Wheeler, short and fast, battles with Garlan Bailey, who has a decided advantage in arm reach and left hook. Wheeler is an aggressive fighter. Bailey fights a defensive type of bout and depends largely on counterpunches to mark his opponents.

Included in the program for Saturday evening will be six other boxing bouts and two wrestling matches.

SNOW ENDS SWISS POWER SHORTAGE
Bern—(AP)—Restrictions on electric current consumption by Swiss industries have been removed after snow and rain raised water levels and assured normal production by hydroelectric plants.

Mr. H. G. Bland and Mr. J. M. Telford, Greenville, N. C. Dear Sirs:

I wish to thank you and your company for prompt payment for my recent claim. Payment was made within three days and was very satisfactory.

I will gladly endorse this policy to anyone who desires a good protection from sickness or accident.

Yours truly,
MRS. J. C. STANG

WHY YOU MUST SAVE FUEL OIL NOW

Here's the problem that must be faced

This is what we're doing to meet the situation

Here's how you can help stretch the supply

YOU... your neighbors... your school, your hospital... are faced with a serious situation—the possibility of not having enough fuel oil to last the winter. Never before has it been more important that you save fuel oil and kerosene.

This is the case despite the fact that right now, more oil products are being produced and delivered than ever before in the nation's history. With more oil burners, more cars, more diesel trains, planes, farm machinery, the demand for oil exceeds even peak war years. Oil is asked to do—and does—more all the time!

EVERY BRANCH of the oil industry is working at breakneck speed to meet the ever-growing demand. Production of oil products is now at an all-time high... oil reserves at a record high level.

The oil industry is spending over 4 billion dollars to find new sources of supply... to expand refinery and distribution facilities... to provide extra, faster methods of transportation. But in this industry, as in many others, there are difficulties in obtaining necessary materials to expand facilities—refineries, means of transportation, storage. To correct the situation will take time.

In the meantime, there's one way you can help: save all the fuel oil you can... right now! It's the best way you can insure yourself having enough fuel oil the rest of this winter.

Save MONEY... save FUEL OIL... help stretch the supply.

1. Keep temperature at moderate level—not more than 68 degrees. Turn thermostat to 60 or below at night.
2. Keep doors, windows closed, shades drawn. Close off unused rooms.
3. Install storm windows and insulation to keep heat in... cold out.
4. Have your heating system checked to be sure you're getting the most efficient use of your fuel oil.

If everyone cooperates, the current "pinch" need not last too long. As soon as it is humanly possible, there'll be enough oil for your ever-mounting needs. The greater your cooperation, the sooner that day will be.

If everyone saves... there will be enough for all

Sponsored in the public interest by a group of Fuel Oil Suppliers

OIL INDUSTRY INFORMATION COMMITTEE
of North Carolina

A MILK ORDINANCE

An ordinance defining "milk" and certain "milk products," "milk products," "pasteurized," etc., prohibiting the sale of adulterated and misbranded milk and milk products, requiring permits for the sale of milk and milk products, regulating the inspection of dairy farms and milk plants, the examination, grading, labeling, placarding, pasteurization, regrading, distribution, and sale of milk and milk products, providing for the publishing of milk grades, the construction of future dairies and milk plants, the enforcement of this ordinance, and the fixing of penalties.

Be it ordained by the County Board of Health of Pitt County as follows:

Section 1. Definitions.—The following definitions shall apply to the interpretation and the enforcement of this ordinance:

A. Milk.—Milk is hereby defined to be the lacteal secretion obtained by the complete milking of one or more healthy cows, excluding that obtained within 15 days before and 5 days after calving, or such longer period as may be necessary to render the milk practically colostrum free; which contains not less than 8 percent of milk solids not fat, and not less than 3.1-4 percent of milk fat.

B. Milk fat or butter fat.—Milk fat or butter fat is the fat of milk.

C. Cream and sour cream.—Cream is a portion of milk which contains not less than 18 per cent milk fat. Sour cream is cream the acidity of which is more than 0.20 percent, expressed as lactic acid.

D. Skimmed milk.—Skimmed milk is milk from which a sufficient portion of milk fat has been removed to reduce its milk-fat percentage to less than 3.1-4 per cent.

E. Milk or skimmed-milk beverage.—A milk beverage or a skimmed-milk beverage is a food compound or confection consisting of milk or skimmed milk, as the case may be, to which has been added a sugar or flavor consisting of wholesome ingredients.

F. Butter milk.—Buttermilk is a product resulting from the churning of milk or cream, or from the souring or treatment by a lactic acid or other culture of milk, skimmed milk, reconstituted skimmed milk, evaporated or condensed milk, or skimmed milk, or milk or skimmed-milk powder. It contains not less than 5 percent of milk solids not fat.

G. Vitamin D Milk.—Vitamin D milk is milk the vitamin D content of which has been increased by a method and in any amount approved by the health officer.

H. Reconstituted or recombined milk and cream.—Reconstituted or recombined milk is a product resulting from the recombining of milk constituents with water and which complies with the standards for milk fat and solids not fat of milk as defined herein. Reconstituted or recombined cream is a product resulting from the combination of dried cream, butter, or butter fat with cream, milk, skim milk, or water.

I. Goat milk.—Goat milk is the lacteal secretion, free from colostrum, obtained by the complete milking of healthy goats, and shall comply with all the requirements of this ordinance. The word "goats" shall be interpreted to include goats.

J. Homogenized milk.—Homogenized milk is milk which has been treated in such manner as to insure break-up of the fat globules to such an extent that after 48 hours storage no visible cream separation occurs on the milk and the fat percentage of the top 10cc. of milk in a quart bottle of proportionate volumes in containers of other sizes, does not differ by more than 5 percent of itself from the fat percentage of the remaining milk as determined after thorough mixing.

K. Milk products.—Milk products shall be taken to mean and include cream, sour cream, homogenized milk, goat milk, vitamin D milk, buttermilk, skimmed milk, reconstituted or recombined milk, and milk beverages, and any other products made by the addition of any substance to milk or any of these products and used for similar purposes and designated as a milk product by the health officer.

L. Pasteurization.—The terms "pasteurization," "pasteurized," and similar terms shall be taken to refer to the process of heating every quart of milk in a water bath at least 143 degrees F., and holding at such temperature for at least 30 minutes, or to at least 160 degrees F., and holding at such temperature for at least 15 seconds in approved and properly operated equipment. Provided, that nothing contained in this definition shall be construed as disallowing any other process which has been demonstrated to be equally efficient and is approved by the State health authority.

M. Adulterated milk and milk products.—Any milk or milk product which contains any unwholesome substance, or which is defined in this ordinance does not conform with its definition, or which carries a grade label unless such grade label has been awarded by the health officer and not revoked, shall be deemed adulterated and misbranded.

N. Milk producer.—Milk producer is any person who owns or controls one or more cows, a part of all of the milk or milk products from which is sold or offered for sale.

O. Milk distributor.—A milk distributor is any person who offers for sale or sells to another any milk or milk products for human consumption as such.

P. Dairy or dairy farm.—A dairy or dairy farm is any place or premises where one or more cows are kept, a part or all of the milk or milk products from which is sold or offered for sale.

Q. Milk plant.—A milk plant is any place or premises or establishment where milk or milk products are collected, bottled, processed, pasteurized, bottled, pasteurized, or prepared for distribution.

R. Health officer.—The term "health officer" shall mean the health authority of Pitt County, or his authorized representative.

S. Average bacterial plate count, direct microscopic count, reduction and cooling temperature.—Average bacterial plate count and average direct microscopic count shall mean the average of the results of the last four consecutive samples, taken upon separate days, irrespective of the date of grading or regrading.

T. Grading period.—The grading period shall be such period of time as the health officer shall determine for all milk and milk products.

U. Person.—The word "person" as used in this ordinance shall mean "person, firm, corporation, or association."

V. And/or.—Where the term "and/or" is used "and" shall apply where possible, otherwise "or" shall apply.

Section 2.—The sale of adulterated, misbranded, or ungraded milk or milk products prohibited.—No person shall within Pitt County or its police jurisdiction, produce, sell, offer, or expose for sale, or have in possession with intent to sell, any milk or milk product which is adulterated, misbranded, or ungraded. It shall be unlawful for any person, elsewhere than in a private home, to have in possession any adulterated, misbranded, or ungraded milk or milk product.

Section 3.—Permits.—It shall be unlawful for any person to bring into or receive into Pitt County, or its police jurisdiction, for sale, or to sell, or offer for sale therein, or to have in storage where milk or milk products are sold or served, any milk or milk product defined in this ordinance, who does not possess a permit from the health officer of Pitt County. Only a person who complies with the requirements of this ordinance shall be entitled to receive and retain such a permit.

Such a permit may be suspended by the health officer, or revoked after an opportunity for a hearing by the health officer, upon the violation by the holder of any of the terms of this ordinance.

Section 4.—Labeling and placarding.—All bottles, cans, packages, and other containers enclosing milk or any milk product defined in this ordinance shall be plainly labeled or marked with (1) the name of the contents as given in the definitions in this ordinance; (2) the grade of the contents; (3) the word "pasteurized" only if the contents have been pasteurized; (4) the word "raw milk" only if the contents are raw; (5) the name of the producer if the contents are raw, and the name of the plant at which the contents were pasteurized; and (7) in the case of vitamin D milk, the designation "Vitamin D Milk" and the source of the Vitamin D. The label or mark shall be in letters of a color and color approved by the health officer, and shall contain no marks or words which are misleading.

Every restaurant, cafe, soda fountain or other establishment serving milk or milk products shall display at all times, in a place designated by the health officer, a notice approved by the health officer, stating the lowest grade of milk and-or milk products served.

Section 5.—Inspection of dairy farms and milk plants for the purpose of grading or regrading.—At least once during each grading period the health officer shall inspect all dairy farms and all milk plants where milk or milk products are intended for consumption with Pitt County, or its police jurisdiction. In case the health officer discovers the violation of any item of sanitation, he shall make a written report after a lapse of such time as he deems necessary for the defect to be remedied, but not before the lapse of 3 days; and the second inspection shall be used in determining the grade of milk and-or milk products. Any violation of the same item of this ordinance on two consecutive inspections shall call for immediate regrading.

One copy of the inspection report shall be posted by the health officer in a conspicuous place upon an inside wall of one of the dairy farm or milk plant buildings, and said inspection report shall not be defaced or removed by any person except the health officer. Another copy of the inspection report shall be filed with the records of the health department.

Section 6.—The examination of milk and milk products.—During each grading period at least four samples of milk and cream from each dairy farm and each milk plant shall be taken on separate days and examined by the health officer. Samples of other milk products may be taken and examined by the health officer as often as he deems necessary. Samples of milk and milk products from stores, cafes, soda fountains, restaurants, and other places where milk or milk products are sold shall be examined as often as the health officer may require. Bacterial plate counts and direct microscopic counts shall be made in conformity with the latest standard methods recommended by the American Public Health Association. Examinations may include such other chemical and physical determinations as the health officer may deem necessary for the detection of adulteration, these examinations to be made in accordance with the latest standard methods of the American Public Health Association and the Association of Official Agricultural Chemists. Samples may be taken by the health officer at any time prior to the final delivery of the milk or milk products. All producers of milk and milk products, soda fountains and other milk places shall furnish the health officer, upon his request, with the names of all distributors from whom their milk and milk products are obtained. Bioassays of the vitamin D content of vitamin D milk shall be made when required by the health officer in a laboratory approved by him for such examinations.

When the average bacterial count, the average reduction time, or the average cooling temperature falls beyond the limit for the grade then held, the health officer shall send written notice thereof to the person concerned, and shall take an additional sample, but not before the lapse of 3 days, for determining a new average in accordance with section 1 (S). Violation of the grade requirement by the new average, or by any subsequent average during the remainder of the current grading period shall call for immediate regrading or suspension of the permit, unless the last individual result is within the grade limit.

Section 7.—The grading of milk and milk products.—At least once every six months the health officer shall examine the grades of all milk and milk products delivered by all producers or distributors and ultimately consumed within Pitt County, or its police jurisdiction. Said grades shall be based upon the following standards, the grading of milk products being identical with the grading of milk except that the bacterial standards shall be doubled in the case of cream, and omitted in the case of sour cream and butter milk. Vitamin D milk shall be only of grade A or grade B pasteurized, certified, or grade A raw quality.

Certified Milk—Raw.—Certified milk—raw is raw milk which conforms with the requirements of the American Association of Medical Milk Commissions in force at the time of production and is produced under the supervision of a medical milk commission and of the State Board of Health or of the county health officer of Pitt County.

Grade A Raw Milk.—Grade A raw milk is raw milk the average bacterial plate count of which as determined under section 1 (S) and 6 of this ordinance does not exceed 50,000 per cubic centimeter, or the average direct microscopic count of which does not exceed 50,000 per cubic centimeter if clumps are counted or 200,000 per cubic centimeter if individual organisms are counted, or the average reduction time of which is not less than 12 hours. Provided, that if it is to be pasteurized the corresponding limits shall be 200,000 per cubic centimeter, 200,000 per cubic centimeter, 800,000 per cubic centimeter, and 6 hours, respectively; and which is produced upon dairy farms conforming with all of the following items of sanitation.

Item 1r. Cows, tuberculosis and other diseases.—Except as provided hereinafter, a tuberculin test of all herds and additions thereto shall be made before any milk therefrom is sold, and at least once every 12 months thereafter, by a licensed veterinarian approved by the State livestock sanitary authority. Said tests shall be made and any reactors disposed of in accordance with the requirements approved by the United States Dept. of Agriculture, Bureau of Animal Industry for accredited herds. A certificate signed by the veterinarian or attested to by the health officer and filed with the health officer shall be evidence of the above test. Provided, that in any modified accredited area in which the modified accredited area plan is applied to the dairy herd the modified accredited area system approved by the United States Bureau of Animal Industry shall be accepted in lieu of annual testing.

All milk and milk products containing raw shall be free from herds or additions thereto which have been found free from Bang's disease, as shown by blood serum tests for agglutinins against Brucella abortus made in a laboratory approved by the health officer. All such herds shall be retested at least every two months and all reactors removed from the herd. A certificate identifying each animal by number, and signed by the laboratory making the test, shall be evidence of the above test.

Cows which show an extensive or entire induration of one or more quarters of the udder upon physical examination, whether secreting abnormal milk or not, shall be permanently excluded from the milking herd. Cows giving bloody, stringy, or otherwise abnormal milk, or with only slight induration of the udder, shall be excluded from the herd until re-examination shows that the milk has become normal. For other diseases such tests and examinations as the health officer may require shall be made at intervals and by methods prescribed by him, and any diseased animals or reactors shall be disposed of as he may require.

Item 2r. Dairy barn, lighting.—A dairy or milking barn shall be required and in such sections thereof where cows are milked windows shall be provided and kept clean and so arranged as to insure adequate light properly distributed, and when necessary shall be provided with adequate supplementary artificial light.

Item 3r. Dairy barn, air space and ventilation.—Such sections of all dairy barns where cows are kept or milked shall be well ventilated and shall be so arranged as to avoid overcrowding.

Item 4r. Dairy barn, floors.—The floors and gutters of such parts of all dairy barns in which cows are milked shall be constructed of concrete or other approved impervious and easily cleaned material, shall be graded to drain properly, and shall be kept clean and in good repair. Water shall be piped into the dairy barn under pressure. No horses, pigs, fowl, calves, etc., shall be permitted in parts of the barn used for milking.

Item 5r. Dairy barn, walls and ceilings.—The walls and ceilings of all dairy barns shall be whitewashed once each year or painted once every two years, or often if necessary, or finished in an approved manner, and shall be kept clean and in good repair. In case there is a second story above that part of the barn in which cows are milked the ceiling shall be tight. If the feed room adjoins the milking space, it shall be separated therefrom by a dust-tight partition and door. No feed shall be stored in the milking portion of the barn.

Item 6r. Dairy barn, cow yard.—All cow yards shall be graded and drained as well as practicable and kept clean.

Item 7r. Manure disposal.—All manure shall be removed and stored or disposed of in such manner as best to prevent the breeding of flies therein or the access of cows to piles thereof.

Item 8r. Milk house or room, construction.—There shall be provided a milk house or milk room in which the cooling, handling, and storing of milk and milk products and the washing, bactericidal treatment, and storing of milk containers and utensils shall be done. (a) The milk house or room shall be provided with a tight floor constructed of concrete or other impervious material, in good repair, and graded to provide proper drainage. (b) It shall have walls and ceilings of clean construction so as to permit easy cleaning and shall be well painted or finished in an approved manner. (c) It shall be well lighted and ventilated. (d) It shall have all openings effectively screened including outward-opening self-closing doors, unless other effective means are provided to prevent the entrance of flies. (e) It shall be provided with a sanitary water supply and a hot water supply, and shall be equipped with a two-compartment stationary wash and rinse vat except that in case of retail raw milk if chlorine is employed as the principal bactericidal agent, three-compartment vats shall be required for replacements and new construction; and shall, unless the milk is to be pasteurized be partitioned to separate the handling of milk and the storage of cleaned utensils from the cleaning and other operations, which shall be so located as to prevent any contamination of the milk or of cleaned equipment.

Item 9r. Milk house or room, cleanliness and flies.—The floors, walls, ceilings and equipment of the milk house or room shall be kept clean at all times. All means necessary for the elimination of flies shall be used.

Item 10r. Toilet.—Every dairy farm shall be provided with one or more flush toilets conveniently located, and connected to an approved sewage disposal system, or with one or more sanitary privies conveniently located, constructed, operated and maintained in accordance with all other requirements for grade A raw milk, and has an average bacterial plate count not exceeding 1,000,000 per cubic centimeter, or an average direct microscopic count not exceeding 4,000,000 per cubic centimeter if individual organisms are counted, or an average reduction time of not less than 3-1/2 hours as determined under sections 1 (S) and 6 of this ordinance.

Item 11r. Water supply.—The water supply for the milk house or room and dairy barn shall be properly located, constructed and operated and shall be easily accessible, adequate and of safe sanitary quality.

Item 12r. Utensils, construction.—All multi-use containers or other utensils used in the handling, storage or transportation of milk or milk products must be smooth non-absorbent material and of such construction as to be easily cleaned, and must be in good repair. Joints and seams shall be soldered flush. Woven wire cloth shall not be used for straining milk. All milk pails shall be of small-mouth design approved by the health officer. The manufacture, packing, transportation, and handling of single-service containers used in the handling, storage or transportation of milk or milk products must be smooth non-absorbent material and of such construction as to be easily cleaned, and must be in good repair. Joints and seams shall be soldered flush. Woven wire cloth shall not be used for straining milk. All milk pails shall be of small-mouth design approved by the health officer. The manufacture, packing, transportation, and handling of single-service containers used in the handling, storage or transportation of milk or milk products must be smooth non-absorbent material and of such construction as to be easily cleaned, and must be in good repair. Joints and seams shall be soldered flush. Woven wire cloth shall not be used for straining milk. All milk pails shall be of small-mouth design approved by the health officer.

Item 13r. Utensils, cleaning.—All multi-use containers, equipment and other utensils used in the handling, storage, or transportation of milk and milk products must be thoroughly cleaned as soon as practicable after each usage.

Item 14r. Utensils, bactericidal treatment.—All multi-use containers, equipment, or other utensils used in the handling, storage or transportation of milk or milk products shall be subjected to an approved bactericidal process with steam, chlorine or hot air.

Item 15r. Utensils, storage.—All containers and other utensils used in the handling, storage or transportation of milk or milk products shall be stored so as not to become contaminated before being used. Filter discs shall be kept in the original container and stored in closed cabinets.

Item 16r. Utensils, handling.—All utensils shall be handled in such manner as to permit any part of any person or his clothing to come in contact with any surface with which milk or milk products come in contact.

Item 17r. Milking, udders and teats, abnormal milk.—The udders and teats of all milking cows shall be washed and disinfected with a bactericidal solution at the time of milking. Abnormal milk shall be kept out of the milk supply and shall be disposed of as the health officer may require.

Item 18r. Milking, flanks.—The flanks, bellies, hind legs, and tails of all milking cows shall be free from visible dirt at the time of milking.

Item 19r. Milkers' hands.—Milkers' hands shall be clean, rinsed with a bactericidal solution and dried with a clean towel immediately before milking and following any interruption in the milking operation. Wet-hand milking is prohibited. Convenient facilities shall be provided for the washing of milkers' hands.

Item 20r. Clean clothing.—Milkers and milk handlers shall wear clean outer garments while milking or handling milk, milk products, containers, utensils or equipment.

Item 21r. Milk stools.—Milk stools shall be kept clean.

Item 22r. Removal of milk.—Each pail of milk shall be removed immediately to the milk house or straining room. No milk shall be strained or poured in the dairy barn.

Item 23r. Cooling.—Milk must be cooled immediately after completion of milking to 50 degrees F., or less, and maintained at that average temperature, as defined in Section 1 (S), until delivery. If milk is delivered to a milk dealer for pasteurization or separation, it must be delivered within 2 hours after completion of milking or cooled to 70 degrees F., or less, and maintained at that average temperature until delivered.

Item 24r. Bottling and Capping.—Milk and milk products shall be bottled and capped by means of an approved combination bottling and capping machine. Caps or cap stocks shall be purchased in sanitary containers and kept therein clean dry until used. Cap containers shall be stored so as to prevent contamination. Hand capping is prohibited.

Item 25r. Personnel, Health.—The health officer or a physician authorized by him shall examine and take a careful morbidity history of every person connected with a retail raw dairy, or about to be employed, whose work brings him in contact with the production, handling, storage or transportation of milk, milk products, containers or equipment. If the results justify such person shall be barred from such employment.

Such persons shall furnish such information, submit to such physical examinations, and submit such laboratory specimens as the health officer may require for the purpose of determining freedom from infection.

Item 26r. Personnel, cleanliness.—All persons coming in contact with milk, milk products, containers or equipment shall keep their hands and outer garments as clean as possible at all times while thus engaged.

Item 27r. Personnel, miscellaneous.—All vehicles used for the transportation of milk or milk products shall be so constructed and operated as to protect their contents from the sun and from contamination. All vehicles used for the transportation of milk or milk products in their final delivery containers shall be constructed with permanent tops and with permanent or roll-down sides and back, provided that openings of the size necessary to pass the delivery man may be permitted in the sides or back for loading and unloading purposes. All vehicles shall be kept clean and no substance capable of contaminating milk or milk products shall be transported with milk or milk products in such manner as to permit contamination. All vehicles used for the distribution of milk or milk products shall have the name of the distributor prominently displayed.

Immediate surroundings of the milk plant shall be kept in a neat, clean condition.

Grade B pasteurized milk.—Grade B pasteurized milk is pasteurized milk which violates the bacterial standard for grade A pasteurized milk and-or the provision of lip-cover cans of item 20p and-or the requirement that grade A raw milk be used, but which conforms with all other requirements for grade A pasteurized milk, has been cooled to not less than 50 degrees F., and has an average bacterial plate count after pasteurization and before delivery not exceeding 50,000 per cubic centimeter, as determined under sections 1 (S) and 6.

Grade C pasteurized milk.—Grade C pasteurized milk is pasteurized milk which violates any of the requirements for grade B pasteurized milk.

Section 8. Grades of milk and milk products which may be sold.—The sale of milk and milk products from points beyond the limits of routine inspection of Pitt County.—Milk and milk products from points beyond the limits of routine inspection of Pitt County may not be sold in Pitt County or its police jurisdiction, unless produced and-or pasteurized under provisions equivalent to the requirements of this ordinance; provided that the health officer shall satisfy himself that the health officer having jurisdiction over the production and processing is properly enforcing such provisions.

Section 12. Future dairies and milk plants.—All dairies and milk plants from which milk or milk products are supplied to Pitt County which are hereafter constructed, reconstructed or extensively altered shall conform in their construction to the requirements of this ordinance for grade A dairy farms producing milk for consumption in the raw state, or for grade A pasteurized milk, respectively. Provided, that the requirement of a two-room milk house shall be waived in the case of dairies the milk from which is to be pasteurized. Properly prepared plans for all dairies and milk plants which are hereafter constructed, reconstructed or extensively altered shall be submitted to the health officer for approval before work is begun. In the case of milk plants signed approval shall be obtained from the health officer or the State health department.

Section 13. Notification of disease.—Notice shall be sent to the health officer immediately by any producer or distributor of milk or milk products upon whose dairy farm or in whose milk plant any infectious, contagious or communicable disease occurs.

Section 14. Procedure when infection suspected.—When suspicion arises as to the possibility of transmission of infection from any person or milk products, the health officer is authorized to require any or all of the following measures: (1) the immediate exclusion of that person from milk handling, (2) the immediate exclusion of milk supply concerned from distribution and use, (3) adequate medical and bacteriological examination of the person, of his associates and of his and their body discharges.

Section 15. Enforcement interpretation.—This ordinance shall be enforced by the health officer in accordance with the interpretation thereof contained in the 1939 edition of the United States Public Health Service Milk Code, a certified copy of which shall be on file in the office of the Secretary of County Board of Health.

Section 16. Penalty.—Any person who shall violate any of the provisions of this ordinance shall, upon conviction, be fined not more than 50 dollars, or imprisoned not more than 30 days; or both, in the discretion of the court. Each and every violation of the provisions of this ordinance will constitute a separate offense.

In case the lowered grade of the applicant's product is due to a violation of an item of the specifications prescribed in section 7, other than average bacterial plate count direct microscopic count reduction time or cooling temperature, the said application must be accompanied by a statement signed by the applicant to the effect that the violated item of the specifications has been conforming with. Within one week of the receipt of such an application and statement, the health officer shall make a reinspection of the applicant's establishment and thereafter as many additional reinspections as he may deem necessary to assure himself that the applicant is again complying with the higher-grade requirements and, in case the findings justify, shall regrade the milk or milk products upward, but not before the lapse of two weeks from the date of regrading.

Section 17. Repeal and date of effect.—All ordinances and parts of ordinances in conflict with this ordinance are hereby repealed; and this ordinance shall be in full force and effect immediately upon its adoption and its publication, as provided by law.

Section 18. Unconstitutionality clause.—Should any section, paragraph, sentence, clause or phrase of this ordinance be declared unconstitutional or invalid for any reason, the remainder of said ordinance shall not be affected thereby.

Adopted by the County Board of Health of Pitt County, North Carolina this 1st day of December, 1947.

Section 19. Transferring or dipping milk; delivery containers; handling of more than one grade; delivery of milk at quarantined residences.—Except as permitted in this section, no milk producer or distributor shall transfer milk or milk products from one container to another on the street, or in any vehicle or store, or in any place except a bottling or milk room especially used for that purpose. The sale of dip milk is hereby prohibited. All pasteurized milk and milk products shall be placed in their final delivery containers in the plant in which they are pasteurized, and all raw milk and milk products sold for consumption in the raw state shall be placed in their final delivery containers at the farm at which they are produced. Milk and milk products sold in the distributor's containers in quantities less than one gallon shall be delivered in standard milk bottles or in single-service containers. It shall be unlawful for hotels, soda fountains, restaurants, groceries and similar establishments to sell or serve any milk or milk products except in the original container in which it was received from the distributor or from a bulk container equipped with an approved dispensing device. Provided, that this requirement shall not apply to cream consumed on the premises, which may be served from the original bottle or from a dispenser approved for such service.

It shall be unlawful for any hotel, soda fountain, restaurant, grocery or similar establishment to sell or serve any milk or milk products which have not been maintained, while in its possession, at a temperature of 50 degrees F., or less.

No milk or milk products shall be permitted to come in contact with equipment with which a lower grade of milk or milk product has been in contact. Such equipment shall be first subjected to bactericidal treatment.

Bottled milk or milk products, if stored in water, shall be so stored that the tops of the bottles will not be submerged.

It shall be the duty of all persons to whom milk or milk products are delivered to clean thoroughly the containers in which such milk or milk products are delivered before returning such containers. Apparatus, containers, equipment and utensils used in the handling, storage, processing or transporting of milk or milk products shall not be used for any other purpose without the permission of the health officer.

The delivery of milk or milk products to the collection of milk or milk products containers from residences in which cases of communicable disease transmissible through milk supplies exist shall be subject to the special requirements of the health officer.

Section 11. Milk and milk products from points beyond the limits of routine inspection of Pitt County.—Milk and milk products from points beyond the limits of routine inspection of Pitt County may not be sold in Pitt County or its police jurisdiction, unless produced and-or pasteurized under provisions equivalent to the requirements of this ordinance; provided that the health officer shall satisfy himself that the health officer having jurisdiction over the production and processing is properly enforcing such provisions.

Section 12. Future dairies and milk plants.—All dairies and milk plants from which milk or milk products are supplied to Pitt County which are hereafter constructed, reconstructed or extensively altered shall conform in their construction to the requirements of this ordinance for grade A dairy farms producing milk for consumption in the raw state, or for grade A pasteurized milk, respectively. Provided, that the requirement of a two-room milk house shall be waived in the case of dairies the milk from which is to be pasteurized. Properly prepared plans for all dairies and milk plants which are hereafter constructed, reconstructed or extensively altered shall be submitted to the health officer for approval before work is begun. In the case of milk plants signed approval shall be obtained from the health officer or the State health department.

Section 13. Notification of disease.—Notice shall be sent to the health officer immediately by any producer or distributor of milk or milk products upon whose dairy farm or in whose milk plant any infectious, contagious or communicable disease occurs.

Section 14. Procedure when infection suspected.—When suspicion arises as to the possibility of transmission of infection from any person or milk products, the health officer is authorized to require any or all of the following measures: (1) the immediate exclusion of that person from milk handling, (2) the immediate exclusion of milk supply concerned from distribution and use, (3) adequate medical and bacteriological examination of the person, of his associates and of his and their body discharges.

Section 15. Enforcement interpretation.—This ordinance shall be enforced by the health officer in accordance with the interpretation thereof contained in the 1939 edition of the United States Public Health Service Milk Code, a certified copy of which shall be on file in the office of the Secretary of County Board of Health.

Section 16. Penalty.—Any person who shall violate any of the provisions of this ordinance shall, upon conviction, be fined not more than 50 dollars, or imprisoned not more than 30 days; or both, in the discretion of the court. Each and every violation of the provisions of this ordinance will constitute a separate offense.

In case the lowered grade of the applicant's product is due to a violation of an item of the specifications prescribed in section 7, other than average bacterial plate count direct microscopic count reduction time or cooling temperature, the said application must be accompanied by a statement signed by the applicant to the effect that the violated item of the specifications has been conforming with. Within one week of the receipt of such an application and statement, the health officer shall make a reinspection of the applicant's establishment and thereafter as many additional reinspections as he may deem necessary to assure himself that the applicant is again complying with the higher-grade requirements and, in case the findings justify, shall regrade the milk or milk products upward, but not before the lapse of two weeks from the date of regrading.

Section 17. Repeal and date of effect.—All ordinances and parts of ordinances in conflict with this ordinance are hereby repealed; and this ordinance shall be in full force and effect immediately upon its adoption and its publication, as provided by law.

Section 18. Unconstitutionality clause.—Should any section, paragraph, sentence, clause or phrase of this ordinance be declared unconstitutional or invalid for any reason, the remainder of said ordinance shall not be affected thereby.

State Corn Champion

John Mullinax of Horse Shoe, Henderson County, proudly shows John Holoman, vocational agriculture teacher, kneeling, and D. W. Bennett, county agent, some of the corn which he produced last year to win the title of North Carolina's 1947 corn champion. According to Dr. B. B. Collins, in charge of agronomy for the State College Extension Service, Mullinax planted U. S. 282 Hybrid using 1,600 pounds of 4-10-8 fertilizer in four applications. The corn was planted in three-foot rows, 10 inches in the drill. His one-acre plot yielded 131.5 bushels of corn.

Junior Red Cross Especially Active During Past Year; 500 Gift Boxes

By CHESTER WALSH
Mrs. J. Knott Proctor, Junior Red Cross chairman for Pitt County, made an interesting report of junior activities during the past year. It states that Miss Antonette Sealey, Junior Red Cross field representative from southeastern headquarters, Atlanta, Ga., outlined the year's work at meetings of white and Negro groups. Materials for Junior Red Cross enrollment were distributed. The Junior Red Cross teacher-sponsors were given teacher-sponsor pins. The year's activities were gratifying, Mrs. Proctor said, and she thanked the workers.

Mrs. Proctor's report states that 500 educational gift boxes were filled by Junior Red Cross members in the schools last November. Junior Red Cross members prepared favors which were sent to the Naval Hospital at Camp Lejeune at Thanksgiving and Christmas. Twenty-five

hand towels for the Polish Junior Red Cross were forwarded. Junior Red Cross sponsors for the white and Negro schools during the year were:

White—Mrs. Elsie B. Edwards, Ayden; Evelyn E. Glenn, Belvoir; Mrs. Hilda M. Pendleton, Bell Arthur; Mrs. Nora L. Hinnant and Mrs. William Adams, Bethel; Olive McCallum, Chisoc; Mrs. Ellen L. Carroll and Mrs. Lindsey Savage, CTC Training School; Mrs. Lillian C. Lawrence, Falkland; Annie Lee Jones, Farmville; Mrs. Emily S. PLYLER'S SUPER MARKET

Mayne Albright Visits Greenville In Campaign

R. Mayne Albright of Raleigh, candidate for governor in the Democratic Primary, visited Greenville today in his trailer Field Headquarters, the "Challenger." He was accompanied by his wife, who is serving as secretary and housekeeper on the tour. Mrs. Albright before marriage was Frances Stanley. She is related to the Stanleys of New Bern.

SOLON—Rep. Helen Gahagan Douglas, California democrat, smiles for the cameraman at Washington.

Says Merchants' Associations Need Plasters In Work

By CHESTER WALSH
President William H. Taft of the Greenville Merchants Association and Mrs. Taft, Mrs. Cora S. Powell, executive secretary, yesterday held the annual banquet of the Tarboro Merchants Association at the Town Hall in Tarboro last night.

CONVALESCING BIRD—Mary Louise Flagg of Reading, Pa., holds robin which was found near her home with an injured leg and broken wing. The humane society is nursing it back to health and will release it in the spring.

"The Challenger" was parked in front of the Court House and open for visitors.

PHS in the 64th county visited by the "Challenger" in its 100-county tour of North Carolina. Albright is taking his campaign direct to the people—in country stores, filling stations, farms, docks, offices, mills, civic clubs, women's organizations, veterans' groups, labor organizations, as well as in Courthouses and city halls. With this method, he expects to talk personally with more individuals than any other candidate ever has, or will, in this campaign.

Thirty-Two Die In Crash Of Big Air Transport

Fresno, Calif., Jan. 28 (AP)—The bodies of 32 persons who perished when a chartered transport plane loaded with Mexican deportees crashed and burned yesterday were being brought out of Los Gatos Canyon today.

Edmund Harding, nationally known scholar and humorist, was the principal speaker. He used a "porus plaster"—the kind with holes in it—to drive home his points about merchants' association activities for the progress of a community.

Speaker Martin (R-Mass.) said today the House Republican leadership has made no decision on compulsory military training legislation and is not likely to do so for some time.

Speaker Martin Says UMT Issue Not Decided

Washington, Jan. 29 (AP)—Speaker Martin (R-Mass.) said today the House Republican leadership has made no decision on compulsory military training legislation and is not likely to do so for some time.

MAKES QUICK COMEBACK

Copenhagen (AP)—Denmark's merchant fleet is making a quick recovery and has now reached 85 per cent of its prewar size, totalling 850,000 tons.

JAPANESE UNION PURGE

Tokyo (AP)—The central committee of Japan's Federation of Trade Unions, representing more than 1,000,000 workers, has unanimously adopted a resolution to clear Communists from the ranks of Japanese labor.

Ailing Congressman Said Progressing

Balboa Heights, C. Z., Jan. 29 (AP)—Rep. J. Parnell Thomas (R-NJ) was reported progressing satisfactorily today at Margarita Hospital.
