U. S. Offers New Restrictions On Veto Use In UN

Little Assembly Gets Proposal; Would Exclude Issues Vetoed In Past

Lake Success, March 11—(AP)—The United States today proposed drastic restrictions on the big power veto in the United Nations.

The proposal would exclude all the issues on which Russia used the veto 22 times in the last two years.

It was laid before the little assembly as the first move toward carrying out a declaration made by Secretary of State George C. Marshall before the U.N. assembly last September.

Marshall aid at that time the United State wa wiing to imit the veto to quetion of prime importance if the other big power would agree. The aembly referred the entire veto quetion to the little aembly.

In advancing its specific proposals today, the U.S. delegation conceded through a spokesman that there still was no evidence that Russia would agree to any modification of the Security Council voting procedure.

The U.S. spokesman said, however, the issue was so important it was worth trying even though there was no definite indication Russia would agree.

Russia, along with the other Slav countries, is boycotting the little assembly. Any changes in the veto use, however, would have to go before the regular assembly and then would have to be agreed upon by the Security Council, including all the five great powers.

The U.S. program listed 31 specific categories of questions which would be excluded from the veto, either as procedural matters or through mutual agreement among the big powers.

These categories include all the issues on which Russia used her 22 vetoes during the past two years. They would, in fact, limit the veto almost exclusively to enforcement measures such as economic sanctions and the use of military force.

Fliers Freed On Munition Charge

Jacksonville, Fla., March 11—(AP)—Two aviators were acquitted in federal court here today of charges of illegal exportation of munitions to Cuba for use in a Dominican revolution.

The two had admitted flying a plane load of war implements to Cuba last October but said they were told "the flight must be secret"; that it had the backing of the United States and Cuba, and that they did not realize they were violating a law requiring a State Department license to export certain munitions to any foreign country.

Colder Ahead In North Carolina

By The Associated Press

Carolinas farmers plagued by a wet spell that has delayed spring planting got more rain today but a prediction of freezing temperatures tomorrow stirred hopes for an end to the wet spell.

Freezing temperatures were forecast for North Carolina by tomorrow morning. The thermometer will get down between 28 and 26 degrees in the extreme west, and 28 to 34 in the central portion, the bureau said. And the freezing temperatures will extend to the coast by tomorrow night.

Nine Patients Die In Hospital Blaze

Seven Victims Trapped Helplessly On Upper Floors Of Mental Hospital; Rescuers Risked Lives In Fiery Inferno

Asheville, N. C., March 11.—(AP)—Nine women patients perished here early today in the blazing inferno of a mental hospital fire.

Seven of the victims were trapped helplessly on upper floors of the four-story central building of the Highland hospital for nervous diseases, Dr. B. T. Bennett, medical director, reported.

Two others were evacuated by firemen who dashed into the fiery structure but they died soon afterward.

The hospital realeased the following names of the dead:

Mrs. A. T. Hipps of Asheville; Mrs. W. B. Kennedy of Kinston; Mrs. Ida Engel of Clayton, Mo.; Mrs. Julius Doering of Johnson City, Tenn.; Mrs. J. R. Borochoff of Rome, Ga.; Miss M. DeFriese of Bristol, Tenn.; Mrs. F. Scott Fitzgerald of Montgomery, Ala., widow of the author; Mrs. V. W. James of Atlanta; and Mrs. G. C. Womack of Friendsville, Tenn.

The fire, discovered about midnight, started in the kitchen of the hospital's central building. It quickly spread to an elevator shaft and was licking the building's roof when firemen arrived.

Screams of trapped women rang out above the roaring conflagration as doctors, nurses, firemen and police ran through the blazing structure, risking their lives in an effort to save the 20 patients in the building.

They quickly huddled the rescued patients into another building where some sat silently and others yelled hysterically.

The death toll was announced by Dr. Bennett after he and hospital authorities checked the list of patients in the building. They searched the spacious hospital grounds for them in the futile hope that they had escaped and wandered away.

Police Captain Harold Enloe was the first man to reach the building.

"I could hear screaming on the third floor," he related. "Flames by then were lapping through the roof of the building."

Every available piece of the city's fire fighting equipment was called out and off-duty firemen were rushed to the scene.

The flames, leaping high into the air, lit up a large section of this mountain resort city. About 1,000 spectators, many of them dressed in pajamas, milled helplessly around unable to assist the trapped women.

Dr. Bennet said some of the hospital's most violent patients were in the destroyed building but they were among the first to be released.

He reported that most of those dying were on the top floor of the wood and stone structure.

UN Files Away Call For Probe

Czech Delegate's Demand Treated As Non - Governmental Move

Lake Success, March 11—(AP)—The United Nations pigeon-holed today a demand for Security Council investigation of the Communist Coup in Czechoslovakia.

The demand was made by Dr. Jan Papanek, Czechoslovakia's Chief delegate to the U. N. on the heels of the death in France of his best friend, Foreign Minister Jan Masaryk. He blamed Prime Minister Stalin and Russian officials for the success of the minority stroke last month in his "terrorized" homeland.

Secretary-General Trygve Lie of Norway put the document on the shelf after consultations with top advisers and Dr. T. F. Tsiang of China, March President of the Council. A U. N. statement said merely that the document would be treated as a non-governmental communication.

The move means that the demand will lie dormant in the files unless some country officially sponsors it. Other delegates watched the situation closely, but there were no immediate indications that any nation would step in to push the issue.

Papanek said he was not resigning his assignment to the U. N. He added that he still is the representative of the Czechoslovak Republic but does not represent the Communist-dominated Regime in Prague.

Martial Law In North Palestine

Arabic Commander Says His Orders Become Law Of The Land

In Northern Palestine, March 11—(AP)—Martial law has been decreed in all northern Palestine, effective at dawn today, by Fawzi Bey Al Kaukji, Arab commander.

"Every order from this headquarters will now become the law of the land (northern Palestine) for civil and military alike," Fawzi Bey declared in his order last night.

His headquarters said prisons now are being established in the mountain top village where Fawzi Bey has set up his command. Several persons already have been arrested and are awaiting trial before military courts, which officers said will begin sitting soon in all major towns and cities of the northern Holy Land.

The courts are to be operated by Arab lawyers, now attached to the Arab army, which entered Palestine last week in readiness to fight partition of the Holy Land, voted by the United Nations last Nov. 29. Fawzi Bey said punishments will be "strict and severe."

Army informants said among those now being held for trial is a Jewish woman "who tried to pose as an English newspaperwoman."

Tommy Phillips Sentenced To Prison

Winston-Salem, March 11—(AP)—A 16-year-old high school student who killed his mother and father after an argument over money was convicted of second degree murder yesterday by a Superior Court jury which made no recommendation for mercy.

Judge J. H. Clement sentenced Tommy Lee Phillips (above, right) of Winston-Salem to 25 to 30 years on each of two counts. The sentences are to run consecutively.

The youth's defense for the New Year's Eve slayings was based on grounds of temporary insanity. The defense sought to show that Tommy Lee was mentally upset by the belief that his choir singer-sweetheart was pregnant.

A Forsyth Superior Court jury deliberated for more than three hours before returning the verdict. Some jurors reported that several of them wept and prayed before deciding the boy's fate.

The big courtroom, packed with hundreds of spectators during the three-day trial, was almost empty when the jury returned.

Tommy Lee's head dropped dejectedly as Judge Clement pronounced the long-term sentence. Defense attorneys Roy Deal and Fred Hutchins said they would decide later whether to appeal the case.

The youth, accompanied by both paternal and maternal aunts during the trial, sat alone as sentence was passed. His teen-age sweetheart, Bessie Ruth Jenkins, who fled with him to York, S. C., after the slayings, was absent from the courtroom. She had sat closely behind him most of the trial.

Meyers Calls No Witness In Trial

Rests His Case; Attorneys Lay Groundwork Ask Acquittal

Washington, March 11—(AP)—Maj. Gen. Bennett E. Meyers rested his case today without calling a single witness in defense of a charge that he induced a business associate to lie to a Senate committee.

Attorneys for the retired Air Force officer laid the groundwork, however, for a plea for the General's outright acquittal. This plea to the court was to be based on a contention that the Senate group which inquired into Meyers' business affairs last fall was illegal.

The only evidence placed before the Federal Jury in defense of Meyers was a series of Senate resolutions creating the Senate war investigating committee.

For the first time in the trial, Meyers' wife, the former Hollywood actress Ila Ray, showed up in the courtroom.

For over two weeks a Federal District Court jury has been hearing testimony on charges that the former No. 2 wartime air forces purchasing agent inducted a business associate to lie.

Meyers also faces trials on charges that he (A) lied himself and (B) sought to defraud the government on his income tax return.

FILES CERTIFICATE

Raleigh, N. C., March 11—(AP)—The following certificate of incorporation was filed today in the office of Secretary of State Thad Eure:

Farmville Junior Chamber of Commerce, Inc., of Farmville. A civic organization. Non-stock. Incorporated: W. T. Candler, J. T. Windham and Emerson Smith, all of Farmville.

Winterville	39
Greenville	54
Bell Arthur	No Report
Belvoir	No Report
Bethel	No Report
Falkland	No Report
Fountain	No Report
Farmville	No Report
Grimesland	No Report
Stokes	No Report

Navy Transport Plane Crashes; Two Casualties

New Orleans, March 11—(AP)—Two passengers were injured when a Navy transport plane carrying 19 persons crash-landed and burned on a fog-shrouded auxiliary airport near Donaldsonville, La., early today.

The naval air station here said the two passengers were reported suffering from shock.

Aboard the craft were five crew members and 14 passengers.

The Navy identified the pilot of the plane as Lt. J. L. Scoggin, USN, Dallas, Tex. The co-pilots were Lt. John Rue, USNR, and Ensign Joe Labauch, USN (addresses unavailable).

Navy headquarters here said the plane was on a regular scheduled flight from Patuxent River, Md., to Corpus Christi, Tex.

"NO 1 BACHELOR"

Mitchell, Field, N. Y., March 11—(AP)—Gov. James E. (Big Jim) Folsom of Alabama arrived in a National guard plane from Birmingham today to be feted by a modeling school as "the nation's No. 1 leap year rachelor."

Czech Reds To Give Masarky A State Funeral

Will Be Laid To Rest Beside His Father; Populace In Shocked Melancholy

Prague, Czechoslovakia, March 11—(AP)—Jan Masaryk will be given a state funeral Saturday by Czechoslocakia's Communist - controlled government. He will be laid to rest beside his father, founder and first president of the republic.

The 61-year-old non-party foreign minister was found dead yesterday, two weeks after the new cabinet came to power, in a stone courtyard more than 50 feet below his bathroom window at the foreign office. The government said he jumped.

Funeral services will be held in the Pantheon of the Prague Museum in the capital's Central Square. Communist Premier Klement Gottwald will speak. Burial will be in the family plot at Lany, beside the grave of Thomas G. Masaryk, who was president from 1918 to 1935 and died in 1937. Vlado Clementis, Communist under secretary of state for foreign affairs, will speak there.

Czechoslovakia mourned the minister today in shocked melancholy. Half-staffed tricolors and black banners did not begin to tell the story of the loss felt by the nation's "little people."

Czechoslovaks are a hard-headed soft-hearted people, unashamed of sentimentality. The love they lavished on their world-famous son in his lifetime was matched at his death by their sorrowing. The tone of melancholy was set by radio broadcasts, with continuous reference to his death and with the somber melodies of Czech funeral music.

To thousands the loss was personal, because Masaryk numbered his personal friends in the thousands. And to millions the country's loss was real, because they shared with him the tradition of the Masaryk family name and the big part it played in the birth and building of the republic of the Czechs and Slovaks during and after the first world war.

Sub-Zero Lows In 16 States As Cold Continues

Chicago, March 11—(AP)—Cold March winds tumbled temperatures far below zero and blew freshly fallen snow across central and southwest sections of the country today.

Heavy falls of snow blanketed sections of Kansas, Oklahoma and Missouri in the severe cold wave which engulfed 16 states. The sub-zero line extended into the Texas Panhandle. New seasonal lows were reported in some areas—with one city in Kansas reporting a low of 20 below.

Parts of the south felt the sting of the frigid blasts.

The weather bureau in Washington reported that the cold wave was pushing southeastward through the Ohio Valley and lower Mississippi Valley and would cover the middle Atlantic states, Kentucky and Tennessee late tonight.

Sees Senate ERP Vote By Saturday

Prober Declares Life Threatened In Investigation

Anonymous Callers Assumedly Wanted Data Suppressed; Wife Threatened

Washington, March 11—(AP)—A threat to blow out the brains of a congressional investigator was reported to the House today.

Rep. Canfield (R-NJ) reported the threat but did not say who made it.

The investigator is Robert Lee, who recently completed a study of the Internal Revenue Bureau for a House Appropriations subcommittee which Canfield heads.

Canfield told colleagues that Lee received telephone calls both during and after the investigation "threatening to blow his brains out." Lee himself was not immediately available for comment.

The result of his investigation was made public Tuesday by the Appropriations committee. In general, the investigator severely criticized the Revenue Bureau for laxity and inefficiency.

Canfield's statement was made during general discussion of a bill appropriating funds for the Treasury and Post Office Departments for the year starting July 1. Canfield accused the Internal Revenue Bureau of having misrepresented last year's congressional action in cutting bureau funds.

Although congress specifically insisted that none of the cut made last year was to be applied on tax enforcement activities, Canfield said, the bureau applied most of it that way.

Chairman Taber (R-NY) of the Appropriations committee said he knew of the threats against Lee.

"They even threatened his wife with death," Tabor told reporters.

Asked what was the purpose of the threats, Taber said, the anonymous callers wanted Lee "to suppress or cover up what he had found."

Taber complained that his efforts to cut government spending ran into "well-oiled administration propaganda" against cuts.

Copper Diet Is Tobacco Booster

Hartford, Conn., March 11—(AP)—A state soil expert disclosed today a 20 to 30 per cent boost in yield and grade of tobacco raised on a copper diet but cautioned farmers against trying it on their crops until more experiments are conducted.

Dr. T. R. Swanback, agronomist at the state's tobacco substation in Windsor, said a pilot plot of tobacco was raised last summer at the station with the addition of a small amount of copper sulphate in the regular fertilizer.

Senator Wherry Says Job Will Be Finished This Week; Marshall Points Up Serious Conditions Abroad; Wherry Wants Fund Allotment Cut

Washington, March 11—(AP)—A leading Senate critic said today the Senate will vote on the Marshall plan this week.

The European recovery program bearing his name is one of the main remedies Secretary of State Marshall is urging for a "very, very serious" world situation.

But without referring to that summation by Marshall of Communist-induced "terror" abroad and rising "passions" at home, Senator Wherry (R-Neb) said of the recovery plan debate:

"We will finish up here Saturday night without a doubt."

Wherry is the acting Republican floor leader. In that capacity he plans to hold his colleagues in night session today and tomorrow in a drive to complete Senate action on the $5,300,000,000 (B) assistance program.

The Nebraskan also is head of a group of some 20 GOP Senators who have been highly critical of the program as it stands. In that role, Wherry planed to co-sponsor an amendment to limit Marshall plan spending to no more than $4,000,000,000 during its first year.

He said, however, the Senate will not act on that major test until tomorrow.

Marshall underscored the seriousness with which he views developments at home and abroad by permitting reporters to quote him directly on one phase of his news conference remarks yesterday.

Just as in the case of the President, what the Secretary of State says at a news conference customarily is reported only indirectly.

But when a questioner said the world situation includes widely felt fears ranging from the possibility that Italy might fall to the Communists in the April 18 election to talk of war, Marshall replied for quotation:

"I think you correctly described the situation as your question...that there are great fears as to the developments.

"There are also very strong feelings regarding these developments and a considerable passion of view on the part of a great many in this country.

"The situation is very, very serious. It is regrettable that passions are aroused to the degree which has occurred.

"It is tragic to have things happen such as just occurred in Czechoslovakia, particularly what has happened to some of the officials, as in the affair of the death of Jan Masaryk, all of which indicates very plainly what is going on.

"It is a reign of terror in Czechoslovakia and not an ordinary due process of government by the people."

Coast Guard Is Opposed To Oleo

Washington, March 11—(AP)—The head of the Coast Guard is against serving oleomargarine to his men. He says it would lower morale.

Admiral J. F. Farley, commandant of the Coast Guard, gave his views today to Rep. Fuller (R-NY). Fuller, a member of the House Agricultural Committee, thinks Farley has the right idea.

He said he will put a letter from Farley in the record of the committee's hearings on 18 bills to repeal oleo taxes. Fuller, who represents a rich dairying section, thinks

Loyalty Records Feud Stirs Up New Charges

Washington, March 11—(AP)—The feud over loyalty board records brought a new cross fire of charges today involving Dr. Edward U. Condon.

Meanwhile the battle mounted between the executive and legislative branches of the government. Demands that congressional committees be given access to the loyalty files led to a report that President Truman may issue a counter order to refuse such requests, even when backed with a subpoena.

The House Un-American Activities subcommittee, which set off the conflict, was itself accused of un-American action by Secretary of Commerce Harriman. The cabinet officer issued a formal statement last night attacking the group's investigation of Condon, director of the Bureau of Standards.

"The subcommittee's action is, in my opinion, un-American," Harriman said:

"It summoned members of my staff to secret sessions. It has published its interpretation of their testimony. The press and public were excluded and could not form an independent opinion. From my knowledge of the situation, I can say that the subcommittee's action is misleading."

A few hours earlier Chairman Nixon (R-Calif) of the subcommittee charged that the Commerce Department was lax in probing Condon's loyalty. In a statement summarizing two days of secret questioning of seven department witnesses, Nixon said the Commerce Department's loyalty board studied the case for ten months but heard only one witness—Condon himself.

New Transmitter Ruined By Fire

Wilson, March 11—(AP)—A transmitter being erected for radio station WGTM of Wilson was destroyed by fire last night, with loss estimated at $60,000.

The new transmitter was to have made the station a 5,000 watt outlet.

Authorities today searched through the ruined building and equipment to determine the cause of the fire.

Dr. Edward U. Condon

A Review Of His Present Problem; About The U. S. Bureau Of Standards; The Type Of Work It Does; Condon Denies Being "Weak Link" In Security

By JAMES MARLOW

Washington, March 11—(AP)—Dr. Edward U. Condon, head of the U. S. Bureau of Standards, will be in the news a while.

The bureau is an important government agency which doesn't get into the news much itself. This tells what the bureau does.

But first here's a little on Condon's present problem.

Two weeks ago the House Un-American Activities Committee accused him of associating, knowingly or unknowingly, with an alleged Russian spy.

The bureau does a lot of secret work. Some of it deals with atomic energy. The committee said he is one of the "weakest links" in the nation's atomic safety.

Condon replied that he is "absolutely reliable." His bureau is part of the Commerce Department.

The loyalty board of the department said February 24 it has found no reasonable grounds to consider Condon disloyal.

So the Un-American Activities Committee is now planning hearings on Condon's case.

Now for the bureau itself.

It has about 2,500 employes, 1,000 of them scientists. The bureau covers 67 1-2 acres of ground here at Washington. It was created in 1901.

Besides its work on atomic energy and other secrets, the bureau sets up standards in weights, measurements, and other things, and does research work, too.

For example: The government buys light bulbs. The bureau tests them, say so many from each batch.

Or the government buys clinical thermometers—the kind you stick in your mouth to see whether you have a fever—and the bureau tests them.

Or the government buys hydrometers, instruments for testing the amount of alcohol in liquor.

Government agents, using hydrometers, can tell how much federal tax should be placed on a bottle of whisky.

In each case the bulb or thermometer or hydrometer is tested against some standard set by the bureau.

If a manufacturer, say, wants to check the true length of some measuring device he makes to sell, he can get a test for it at the bureau.

For example: The U.S. standard of measurement is the meter. A meter is 39 4-10 inches long, or just a little more than a yard.

The bureau has a standard meter against which any other measuring

(Continued on Page Eight)

Grave Summation

By ELTON C. FAY
AP Military Affairs Reporter

Washington, March 11—(AP)—Military developments in the United States reflect the "very, very serious" world situation noted by Secretary of State Marshall.

High command conferences . . . new weapons . . . quests for military manpower . . . congressional warnings against cutting defense funds.

All these coincided today with Marshall's grave summation of the trend of global affairs.

But just as the secretary voiced an implied plea to the American people to keep cool, other top officials in both the diplomatic and military branches of the government took pains to stress this:

All efforts to build up the United States' armed might are aimed solely at guarding against aggressive attack.

These officials shun the idea of a "preventive" war to beat any would-be attacker to the draw. Secretary of Defense Forrestal told a news conference yesterday that it is not the nature of democracies, "particularly this democracy," to plan a war deliberately.

But the United States is determined to put its military house in order.

Here are some of the latest efforts:

High command: Forrestal has ordered the joint chiefs of staff to meet with him and tell him where they disagree about what service should do what in a war.

If these military commanders of the Army, Navy and Air Force and the chief of staff to the President still can't agree, Forrestal will make his own decisions.

The chiefs of staff have wrangled for years about such things as the role of the Air Force and the Navy in bombing operations. And they are still arguing, despite last year's service unification law.

Weapons: While making ready for further tests of atomic weapons in the Pacific, the military has begun experiments in California with the world's biggest standard explosive bomb—a 21-ton missile.

(Continued on Page Two)

Marshall Standing Firm Against Pleas For China

Washington, March 11—(AP)—Secretary of State Marshall stood firm today in the face of insistent demands for some of his wartime subordinates that the United States throw big scale military aid into the fight against Communism in China.

Gen. Douglas MacArthur, Lt. Gen. Albert C. Wedemeyer and Maj. Gen. Claire L. Chennault all have declared in the past week that this country must go beyond economic help for Chiang Kai-shek's hard-pressed Nationalist government.

But Marshall — Army Chief of Staff during the war—made clear yesterday that the three-year-old American policy toward China still stands.

His news conference response to questions thus put it officially on the record that the United States is following two different courses in meeting the Communist challenge in Europe and in the Far East.

The difference is, however, washed out to some extent by the fact that in both China and Europe the United States is actively aiding governments fighting the Communists.

As for China, Marshall said he still believes its government should be broadened to provide greater representation. Asked whether that should include the Communists, he said yes.

But Marshall hastened to add a qualification. He said the trouble now is that the Communist party is engaged in open rebellion against the Chinese government. And how that problem is to be handled is for the Chinese government to decide and not for the United States to dictate.

Walkout Threat

New York, March 11—(AP)—Russia threatened today to walk out of the big power Palestine talks if the Jews and Arabs were invited to take part in the discussions.

Russia's Andrei A. Gromyko rebuffed a new American attempt to call the Arabs of Palestine and the Jewish Agency before the big power conferees.

Jan Masaryk's Death

How Did He Size Up The Situation Following Communist Coup In Czechoslovakia? His Fateful Decision Of Futility; Did He Die For The Good Of His Nation?

By DEWITT MacKENZIE

Jan Masaryk's death has thrown much light on a question which had been puzzling a lot of us, namely, just how he appraised the situation growing out of the Communist seizure of power in Czechoslovakia.

Several days after the Red coup he gave a flat endorsement of close cooperation with Russia. However, he coupled this with the dramatic declaration to the army and his "Czech and Slovak brothers": "I am with you."

It was an enigmatic statement. Some observers thought it indicated that Masaryk had embarked on a highly dangerous double game. Others felt he was trying to steer a middle course to bring Moscow and the Western democracies together in peace.

Well, it now seems probably that in the long and lonely hours of Tuesday night he came to the fateful decision that he was playing a futile role—that his usefulness was finished. What tipped the balance may have been his realization that his continued presence in the Communist government as foreign minister was giving the Reds a chance to traffic on the public's worship of his father—founder of the republic. The magic name of Masaryk was an invaluable asset to the Communists in their efforts to solidify the country behind the totalitarian government.

Jan Masaryk may even have felt (to use the language of British Prime Minister Attlee) that "he could not endure to live in the suffocating atmosphere of totalitarianism." Indeed, it would be strange if the foreign minister weren't in a state of near despair. Still, I'm inclined to believe that he would have stayed on and fought it out, if he hadn't felt that it was better for his country if he "withdrew."

I'm trying to look at the thing objectively, and perhaps it would be easier if I hadn't known Jan Masaryk and his father and other members of the family. I haven't yet met anybody who knew the Masaryk family who didn't have a high regard for it. No more doughty fighter ever came out of central Europe than Thomas Masaryk, the rebel who became father of his country. There is no reason to doubt that Jan was a chip off the old block, so far as bravery is concerned.

So it isn't unreasonable to conclude that Jan Masaryk figured it was for the good of Czechoslovakia if he disappeared. Only a few hours

Four Marine Jet Planes Coming Here Saturday

Lieut.-Col. Marion E. Carl, U. S. Marine Corps World War II ace with 18 Japanese planes to his credit and holder of a world's speed record, will come from Cherry Point to the Greenville Airport with four Marine jet planes Saturday morning between 9 and 9:30, Tommy Sellers, Chairman of the Junior Chamber of Commerce Air Show Committee, announced today. These planes are part of a squadron which is scheduled to participate in the Jaycee air show at the airport here on Sunday, April 4.

While here the planes may be inspected by the public. Col. Carl and some of the pilots will be interviewed on WGTC, photographs will be taken and the press will be given an opportunity to interview the Marine pilots.

Bethel Soprano To Give Recital

The Salem College School of Music, Winston-Salem, will present Mary Wells Bunting, soprano, daughter of Mr. and Mrs. J. B. Bunting, Bethel, and Genevra Beaver, pianist, of Salisbury, in a joint graduating recital on Tuesday, March 16, at 8:30 p.m. in Memorial Hall.

The program will be as follows:

Miss Bunting: "My Heart Ever Faithful" (Bach); "Care Selve" (Handel); "Ein Traum" (Grieg); "Jeune Fillette" (arranged by Weckerlin); "Apres un Reve" (Faure); Aria, "Depuis le Jour" from "Louise" (Charpentier); Biblical Songs, "Hear My Prayer O Lord" and "I Shall Sing New Songs of Gladness" (Dvorak); "In the Silence of the Night" (Rachmaninoff); "Miranda" (Hageman); and "Mountains" (Rasbach).

Miss Bunting, a senior voice major, has been active in various college activities. She has been a member of the Salem Players and the Pierrette Players, honorary dramatics club. She has also belonged to the German Club and the International Relations Club. She is a member of the Choral Ensemble and took the leading part in the operetta "Pinocchio" given a few years ago.

(Continued from Page One)

The first phase of the test was for a B-29 to drop a dud. Later live bombs will be exploded.

The Air Force plans these test drops from its biggest bomber, the B-36. That huge six-engine plane was designed for 10,000-mile flights. However, the range presumably would be less with a load which included the 42,000-pound bomb.

The Navy, stressing more and more the role of carrier-borne aviation in its fleet, proposes to build a giant 80,000-ton flattop. Such a carrier could make possible new and even harder-striking task forces.

Manpower: A new effort to push Universal Military Training through Congress is underway. The Senate Armed Services Committee decided yesterday to ignore House delays and begin its own hearings on a bill next week. Marshall will be the first witness.

Meanwhile the Office of Selective Service Records is training officers to put a new draft program into effect quickly if the necessity arises. There have been suggestions that if UMT isn't adopted, a resumption of selective service might be the only alternative.

Jan Masaryk . . .

(Continued from Page One)

before his death he visited his father's grave. One wonders if the son was seeking inspiration from the wisdom of the father. Perhaps he got that help. Who knows?

The manner in which the end came doesn't in the least alter our hypothesis. The Prague government tells us that he committed suicide by jumping out of a third story window.

In any event, whether Jan Masaryk jumped or whether he met his death in some other mysterious fashion doesn't matter. What does count is that in the darkest hours of Tuesday night he was made a martyr to inspire his people to fight for freedom. If he jumped voluntarily, he was driven to it; if he died some other way, the effect remains the same.

Whatever way you figure it, Jan Masaryk has suffered the same fate as his country. But it's my guess that his spirit will continue to march ahead of his people, alongside that of his father.

Perhaps even more important is the effect of the Czechoslovak situation on the Western democracies. U.S. Secretary of State Marshall yesterday summed up the position in blunt language. He declared that Czechoslovakia is under "a reign of terror," and cited Masaryk's death as one of the things which indicate very plainly what is going on.

He added: "There is also a very strong feeling regarding these developments and a considerable passion of view on the part of a great many in this country. The situation is very, very serious."

Music Contest Ends With Band Parade Today

The annual district music contest in which musicians and vocalists from 22 northeastern counties participated began here yesterday at East Carolina Teachers College with contests held in vocal and piano events.

The two-day event was brought to a close today at noon when the bands from the various schools participating paraded through the main streets of the city to the courthouse square where a short concert was given. Prior to the parade the bands and band solos were held starting at 9:30 o'clock.

Last night, the Rocky Mount and Greenville High Schools had a festival chorus. Included in this program were special numbers from the day's events.

The classification of names of the school pupils participating and rating received in yesterday's contest as announced by the judges, Paul Young of Chapel Hill, Thane McDonald of Wake Forest and John Holliday of Queens College, were as follows:

Class A—Rocky Mount mixed chorus 2; Frances Garland, soprano, solo 2; Nell Phillips, senior high, piano 2; Virginia Gray, junior high, piano 2.

Class B—Greenville, Dallas Clark, tenor solo 2; Danny Odum, bass solo 2; Juanita Stokes, soprano solo 2; Janet Watson, junior high, piano 2. The Greenville High School Boys Glee Club, the Girls Glee Club and the mixed chorus had already received a rating of A-1 and did not have to participate in today's events.

Tarboro—Tim Robbins, unchanged boys voice 1; Patsy Vaughn, soprano solo 2; and girls trio 2.

Kinston — Verna Wooten, junior high, piano 1; Marjorie Powell, senior high, piano 2.

New Bern—Mixed chorus 1; Peggy Gillikin, soprano solo 1; Dorothy Coplon, junior high, piano 1; Peggy Gillikin, senior high, piano 2.

Morehead City High School — Senior high piano 2.

Class C—Aulander girls trio 1; Dorothy Jenkins, soprano solo 2; Ayden High School, Betty Lou Worthington, alto solo 1; J. W. Stocks, baritone solo 1; girls trio 2; and Janice Turnage, soprano solo 2. The Wheat Swamp High School received a rating of two in the junior high piano contests.

NO LEFT TURNS ALLOWED AT FOURTH AND EVANS

Police were on duty at Fourth and Evans street today directing traffic whenever motorists who became confused by "No Left Turn" signs at that busy intersection. No left turn in any direction is allowed there. City and police officials, after a survey, agreed that no left turns there will considerably facilitate and speed up traffic. An ordinance passed by the Board of Aldermen recently provides a fine for motorists violating the law.

The Appalachians of North Carolina comprise the oldest mass of mountains in America which never have been submerged or subjected to glacier erosion.

Plans To Glide Across Atlantic On First Trip

By G. G. HODENFIELD

Vienna—A detailed plan for a transatlantic glider flight has been developed by an Austrian who never has been up in an airplane.

Rudolf Hennefell, 30, says he originally conceived the idea while fighting with the French Foreign Legion in Indo-China in 1940. Being a former medical student and son of a mechanical engineer, he has worked on the technical details since.

Hennefell says he is confident that he could glide from Newfoundland to Ireland in about 40 hours.

He says his scheme is based on experiments by the Wright brothers in 1900.

He proposes to give a glider the climbing ability of a kite by using a "sea anchor." This would be attached to the glider by a long nylon rope and flexible rubber tube. While the glider rides with the wind, the anchor would be inflated by compressed air and skim lightly over the waves. He believes this would offer little resistance to the forward motion of the glider.

As the glider nears the sea, the anchor would be deflated and sink partially into the water. The glider then would be turned into the wind to climb.

The anchor would afford the necessary drag to force the glider upward, just as a boy forces his kite to rise by frequent tugs on the string.

Thus, the flight would be made in an alternate series of glides with the wind and climbs into the wind.

Once he is given an initial tow in Newfoundland to launch the flight, Hennefell believes he can ride the prevailing westerly winds over the Atlantic at an average ground speed of 50 miles per hour. Estimated top speed during the glide would be 75 mph, and an estimated 13 hours would be used in climbing.

Automatic valves would inflate and deflate the anchor as the tension in the rope varied.

On a 30-mile trip from Marion, N. C., to the top of Mt. Mitchell, a traveler encounters more species of trees than he would in crossing Europe from the British Isles to Turkey.

World Health Is Under Experts' Eye On June 24

By MICHAEL GOLDSMITH

Geneva — Medical and public health experts from 64 nations are expected to take part in the first world health assembly, convening here on June 24 to establish the World Health Organization as a permanent specialized agency of the United Nations.

The assembly will be asked to approve an ambitious program. It will assist medical relief and research work throughout the world. It will attack epidemic diseases on a worldwide scale. It will draw up international medical conventions and act as adviser on public health problems to the United Nations.

Among the projects already begun by its interim commission is a mass tuberculosis immunization scheme in Poland. There, with the cooperation of the Polish government, 15,000,000 persons are to be vaccinated.

The commission's executive secretary, Dr. Brock Chisholm, describes the Polish project as a "colossal experiment to determine the effectiveness of tuberculosis vaccination."

A similar project is planned later for Czechoslovakia.

A world-wide campaign is to be carried out against venereal diseases, in collaboration with the International Children's Emergency Fund. The World Health Organization will provide medical guidance for the campaign, to be carried out mainly among children, pregnant women and nursing mothers with a large-scale use of penicillin.

The World Health Organization also will undertake revisions of existing sanitary conventions. During the Egyptian cholera epidemic, many nations were reported to have exceeded protective sanitary measures permitted by international agreements. Egypt is expected to present a formal complaint against these nations.

Also before the assembly will be proposals to standardize biological terms, names of drugs and the form of medical certificates throughout the world.

Parade Captives In Chinese City

Peiping, March 11—(AP)—The government paraded 219 Chinese Communist prisoners through Peiping streets in trucks today while a general told how they were captured in bloody fighting only 40 miles to the east.

Gen. Chu Ta-chun said 2,400 Reds were killed March 6 when 5,000 were trapped in the little walled town of Hsiangho. Loss of the town would have been serious, he said, since it is only 10 miles north of the Peiping-Tientsin highway.

Clark Faces "Iron Curtain" Accuser

Attorney General Tom Clark (left) and Rep. Clare Hoffman, Republican of Michigan, meet face to face in Washington after Hoffman accused the Justice Department of putting "an iron curtain" in the way of his committee investigating the parole of four former Al Capone gangsters. Clark hotly denied this. He said if the committee turns up "any evidence that warrants an indictment, you can bet your bottom dollar there will be one." (AP Wirephoto).

Vets Organize Against General

Chicago, March 11—(AP)—Former servicemen and students in five cities have announced formation of organizations "against MacArthur" —opposing the possible presidential candidacy of Gen. Douglas MacArthur.

In Chicago, Paul Berger, 24 spokesman for the "Veterans against MacArthur" club, said if the move gains enough impetus "a national non-political club will be founded. The five-star general announced in Tokyo Monday that he is available for nomination for the presidency.

Berger said 500 signatures had been obtained in Chicago on petitions opposing the Supreme Allied commander in Japan as a possible presidential candidate. He said members had urged friends in several other cities to circulate similar petitions. Cities included St. Louis, Denver, Boston, Pittsburgh and Dallas, Tex., Berger said.

In Boston, a "Veterans against MacArthur" group was organized last night by several ex-GI students at Harvard, Boston University and Massachusetts Institute of Technology. A committee of three from the schools adopted a slogan of "Give him a medal but not the White House."

Trawler Burns Off Hatteras

Manteo, March 11 —(AP)— The Ocean Breeze, a trawler out of Seaford, Va., was destroyed by fire shortly after dawn today off Cape Hatteras but all seven crewmen were rescued by a sister ship.

The Ocean Breeze's captain was William Riley of Tide Mills, Va. She was owned by W. W. Mills of Newport News, Va.

As flames swept below deck and started roaring above, the Pauline M. Boland, also owned by Mills, came close by and took off the crew in a lifeboat.

The Coast Guard said it had not learned what caused the fire. The Ocean Breeze, which had been fishing for mackerel since Tuesday, was a total loss.

The rescue occurred 20 miles north of Cape Hatteras, five miles southeast of Wimble Shoals Buoy.

The Ocean Breeze burned for several hours. Flames were visible for miles.

Girl Scout News

Mrs. S. M. Crisp, chairman of the Juliette Low committee, has all the plans completed for the 36th anniversary birthday party of Girl Scouting. The party will be at the Rotary Club Friday afternoon at 3:30 and every Scout and Brownie is expected to come. This is the time the pennies are collected for the Juliette Low Memorial fund.

Sonja Henie was given a pair of ice skates for the first time on her eighth birthday, and won the Oslo junior competition in figure skating when she was nine.

No Way To Oust Roumanian Reds

New York, March 11 — (AP) — Nothing short of war, under existing conditions, can free his country from its domination by Communists, former King Mihai of Romania says.

Mihai, who told reporters that his abdication last Dec. 30 was forced by Romanian Communists, said he still considers himself Romania's rightful ruler and believes his countrymen in general remain loyal to him.

He made it clear he intended to go ahead with plans for his marriage to Princess Ann of Bourbon-Parma, a Catholic. A Vatican spokesman had announced previously that permission for the wedding would be granted only if the former monarch, an Orthodox church member, agrees to bring up as Catholics any children born of the marriage.

Asked whether this development might prevent the wedding, Mihai replied: "I'll have to get back first and ask her. We hope to be married in Copenhagen but we don't know when."

"Is there any way short of war that will rid your country of Communism?" he was asked.

"Not in the present circumstances," he answered.

Officially Mourn Death Of Czech

Moscow, March 11—(AP)—An official announcement today said the Soviet government has extended sympathy to the Czechoslovak government on the death of Jan Masaryk.

Czechoslovak sources here said last night Foreign Minister V. M. Molotov himself sent the official expression of sympathy to the Czech ambassador by one of the highest officials in his ministry.

Approximately 2,500,000 tons of steel were used in the production of tin cans in 1945.

BACKACHE, LEG PAINS MAY BE DANGER SIGN

Of Tired Kidneys

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Strength FOR THE DAY

CONCERNING A PAIR OF PANTS

The taxicab dispatcher leaned in at the window and held anxious conference with the driver "There's a guy wants a cab, and when he opened his coat I noticed he had a shoulder holster with a big pistol in it. Can an ordinary citizen carry a gun like that? He's wearing a pair of army trousers but the rest of his outfit is civilian. Do you think he's a soldier? What had I better do? Call the cops?"

The driver thought for a minute and then replied, "Sure, call the cops. He's no soldier. Pants don't make a soldier."

I thought that over as we drove away—"pants don't make a soldier." Neither do they make anything else worth while. We all know quite a few businessmen, lawyers, doctors, preachers, carpenters, plumbers, labor leaders, politicians, etc. who are nothing but a pair of pants and a rather empty pair at that. Pants don't make a man out of a biped. Even the disposition and capacity to rise off all fours and walk upright cannot be said to complete the job. It takes intelligence and character to do that.

To die just as we were born is to fail. To bury the talent in the napkin, to fritter away our opportunities and to be nothing in our day and generation but the filling for a hand-me-down suit is pretty tragic—and unnecessary.

HOW DOES HE STAND?

The manner in which General MacArthur has made known his willingness to accept a nomination for the presidency is vastly different from the standard set by politicians.

Your regular office-seeker plans his campaign carefully; prepares his platform and presents it to the voting public in a tour or series of tours.

In this way the voter is permitted to learn first-hand what the candidate stands for and can weigh his desirability against that of others in the race. The voter can make his decision on the basis of what the office-seeker believes to be the best solutions to local, national and international issues.

The General is still in far-off Tokyo. He has indicated that he will not actively campaign, and his political views may not become widely known.

His triumphant return to the shores of America shortly before the Republican National Convention might well be a part of his political strategy. It is possible that the attendant publicity and wave of pro-MacArthur sentiment might sweep him into the top ranks of potential nominees at the last moment before the convention opens. This, of course, is pure speculation; nevertheless, it would be good strategy for MacArthur, and he is doubtless aware of the fact.

The prospect of the General's boom-for-president on the strength of his war record and the work he has done in Japan must worry Republican strategists, for party-claims on MacArthur would be thin indeed.

Other GOP candidates for the party's top nomination have been campaigning and exposing their views to criticism of the voters; their supporters know how they stand on today's issues.

But the return of a hero may momentarily blind a large part of the voting public to their ignorance of MacArthur's political position and qualifications.

MacArthur is a hero. He is one of today's great living Americans. But that alone is not enough to warrant his election to the highest office in the land.

It is our hope that the General will offer a platform for inspection by the public. For, whether he is ultimately a candidate or not, it is the unwritten right of the voters to know for what as well as for whom they are voting.

The End Is Nearer Than You Think

WASHINGTON LETTER

By JANE EADS

Washington— Belgium's bachelor regent, Prince Charles, youngster brother of the exiled King Leopold will pay an official visit to Washington in April, and already plans are under way to honor him.

The regent whose full name is Prince Charles Theodore Henri Antoine Meinrad, Count of Flanders, Prince of Belgium, first visited the United States just before the war. That visit was unofficial. The last official Belgian visit was that of his father, the late King Albert, who came with Queen Elizabeth and Leopold in 1919. They were very popular with the American people.

It is expected Prince Charles will arrive about April 6 and stay in the capital three days.

Prince Charles was a colonel in the Belgian army in 1940 and fought with his unit. Interested in Belgian politics, though not actively, he remained as "silent and inconspicuous as possible" during the war years.

Leopold surrendered the Belgian armies to the Nazis the same year his brother was made a colonel. When Leopold left for Germany in June 1944, Prince Charles escaped to the Maquis and became identified with their underground activities.

The liberation came on September 1, 1944, and Charles was elected regent by the parliament, according to the constitution, as Leopold had been barred from reigning.

Charles' political acumen has become notable since then and he is a popular figure in Belgium.

His interest in music is akin to that of the Queen Mother, who is a talented violinist and ardent supporter of the nation's great artists.

Prince Charles is also an accomplished sportsman. He played polo abroad and was interested in yachting before the war. Now he seems more interested in golf and likes a game of ping pong.

Doubtless there will be a reception in his honor at the elegant Belgian embassy, over which Baron Silvercruys presides.

• • •

Leopold, who has been in exile in Switzerland, is in Cuba for a "vacation." There have been numerous gestures to bring about his return to the throne. This move has been strongly opposed by the Socialist party. The Socialists declare Leopold's heir, Prince Baudoin, should be elevated to the throne on his 18th birthday, September 7. This they believe to be the "only acceptable solution."

The Social Christian party is pro-Leopold and their apparently has been no opposition from the Communists and Liberals. Prince Baudoin accompanied his father to Havana and has since been visiting the United States.

Leopold's and Charles' sister is Marie-Jose, who was married to Prince Umberto (who as Umberto II was King of Italy in 1946.) on Jan. 8, 1930.

POSTPONE TRADE TALKS

Vienna, March 11—(AP)—The Austrian Minister of Trade announced today that negotiations for a trade agreement with Czechoslovakia, due to begin here March 17, have been postponed indefinitely.

The average locomotive in service on United States railroads has about one mile of boiler tubing.

New Inspection Lanes Will Open

Raleigh, N. C., March 11—(AP)—Opening of three more mechanical inspection lanes next week will leave only one to be put into operation, the State Motor Vehicle Department reported today.

When the additional lanes go into use Monday, the state will be operating 35 of the 36 it plans to open.

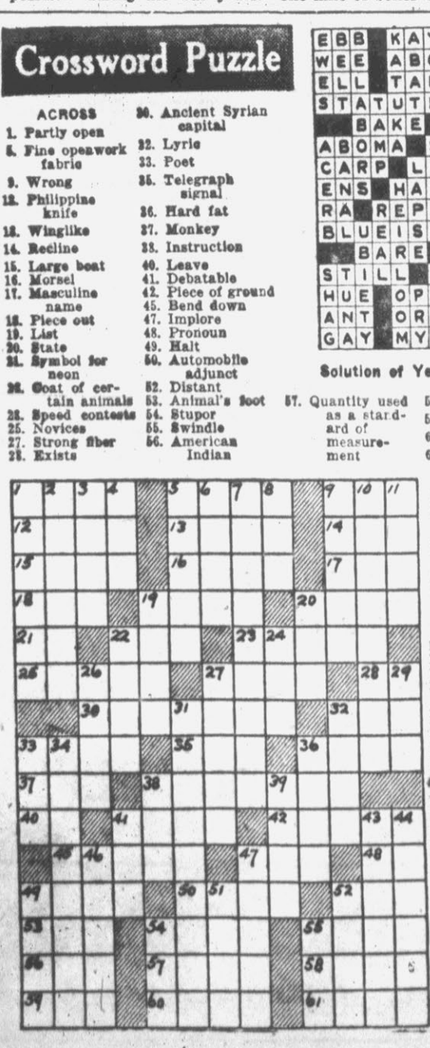

The lanes opening Monday will be at Waynesville, Elkin and Rocky Mount.

An average of 41 tons of steel is used in the construction of one mile of standard two-lane concrete highway.

York Memorial Church, Rev. P. H. Mumford, pastor.

Sunday at 9:45 a. m., Sunday school, W. J. Hester superintendent.

11 a. m.— Message by the pastor, subject, "Self Condemnation."

Special music by the senior choir.

All clubs will make your regular reports at 11 a. m. May I ask that each member of the church report to his group leader each Sunday until the drive comes to a close.

At 3 p. m. the pastor, choir and members will worship with the Disciples Church in their quarterly meeting.

7:30 p. m.—The Spiritual Singers of Farmville will render a program of spiritual music. Join the crowd and hear them sing.

All of the windows have been installed, except a few, and are expected to come any day. The men have done a fine piece of work for the church and the members are happy to see the work go forward.

You will find a cordial welcome at York Memorial.

Former Student Of ECTC Dies In Plane Chash

Chicago, March 11—(AP)—Among the passengers and crew members aboard the Delta Airlines plane which crashed here last night, police and airline officials identified Miss Sue Young, 26, Fayetteville, N.C., stewardess. She was born in Angier, N.C. and educated at East Carolina Teachers College.

Chicago, March 11—(AP)—A Delta Airlines DC-4 plane crashed and burned explosively late last night a few seconds after it took off from Chicago's Municipal Airport. Twelve of 13 aboard were killed.

The only survivor was a 33-year-old mother whose seven-year-old son perished in the fiery wreckage. She screamed hysterically for her child as she was pulled from the flames.

The woman, Mrs. Tripolina Meo, of suburban Oak Lawn, Ill., suffered severe burns. Both of her legs and both of her arms were broken.

All four members of the crew were killed. The plane was bound for Miami, Fla. It splashed into an orange-colored, flaming mass on a nearby prairie at 10:58 p.m. (CST) from a height of 500 to 1,000 feet, during a snow flurry, witnesses said.

It was Delta's first accident in scheduled operations since 1934. Last year the airlines received a special citation from the National Safety Council.

"Something went wrong" and the huge craft caught fire when only a few feet above the runway, Delta's district traffic manager said. There was no further explanation.

The plane had a capacity of 44 passengers. At least two persons who had reservations for the flight, No. 705 with stops at Cincinnati, Ohio, and Jacksonville, Fla., canceled them shortly before it took off.

It burned fiercely for more than an hour. Some of the bodies pulled out by firemen were burned or mangled beyond immediate recognition.

Pat Smith, an airport cargo handler, said the plane "came straight down in a vertical dive and splattered and exploded on the ground," near 55th Street and Cicero Avenue.

U.S. Women Slain In Indo-China

Miss Lydia Ruth James (left), 30, of Hillsdale, Ind., and Mrs. Jeanne R. Skewes (right), 32, of Evanston, Ill., were shot to death near Saigon, Indo-China, Sunday night. They were employes of the U. S. State Department in Saigon. The killers were presumed to be anti-French guerrillas. (AP Wirephoto).

Jewish Agency Building Blasted By Bomb In Car

Jerusalem, March 11—(AP)—The closely guarded Jewish Agency building was badly damaged by an explosion today soon after a car flying an American flag was seen entering its courtyard. Early reports said the death toll would be high.

The Jewish Agency announced eight persons were killed and 89 injured. None of the casualties was a top officer of the agency, official spokesman for Palestine Jewry, though three of those slightly hurt were minor officials.

Jews in the building at the time said the automobile with the American flag entered the courtyard through the guarded gate with two men inside. The men parked the car, walked out past the guard and drove away in a waiting taxicab, the witnesses said. The building caught fire after the blast.

The gate guards said that because the car showed the American flag and the occupants "seemed English or American types," they let it in without a careful check.

A source in Haganah, the Jewish Agency's militia, said examination of wreckage indicated the automobile was that of United States Consul General Robert B. MaCatee, stolen yesterday.

The right wing, said persons on the scene, was in utter ruin. It still was burning an hour after the blast. All the rest of the structure was badly damaged. Windows were shattered, walls cracked and the roof blown off.

The building, finished in the late twenties, housed all archives of the agency and the most important records of Zionism. First reports indicated many of these escaped destruction.

Seek Accord To End Hollywood's Ban On Britain

London, March 11—(AP)—American and British sources reported today a tentative financial agreement to end the Hollywood ban on export of movies to Britain.

The informants said final agreement awaits only approval direct from Hollywood.

A spokesman for the British Board of Trade said negotiations for the government and the American film industry reached an accord involving the disputed 75 percent tax on U.S. film earnings. He expressed hope the agreement would bring Hollywood films back to Britain.

Has Vacancies For Duty In U.S.

1st. Lt. George C. Blinebury, commanding officer of the Greenville Sub-Station of the U.S. Army and U.S. Air Force Recruiting Service announced this morning that he has received a list of nearly 600 vacancies at Army installations throughout the United States, which are to be filled by veterans of World War II desiring to enlist for direct assignment to a specific installation in this country. The list includes assignments at posts ranging from New York in the First Army Area to "The Presidio" in California, which is in the Sixth Army area. All of the six army areas are represented in this long list of vacancies.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

Five-Acre Cotton Contest Again This Year; Cash Prizes

College Station, Raleigh, March 11—North Carolina farmers will have a chance again this year to compete for the $3,000 in prize money being offered to the winners of the five-acre cotton contest, J. A. Shanklin, extension cotton specialist at State College, said here today. He said that any farmer, landlord or tenant, producing as much as five acres of cotton in one body is eligible to enter the contest.

Prizes will be awarded as follows: There will be a first and second state prize of $800 and $400, respectively. The state will be divided into three districts with a first, second and third prize of $300, $200 and $100 for each district. In counties where there is not a locally sponsored contest, there will be an award of $50 to the highest contestant in the county providing the contestant has not won a state or district prize in a previous contest. If he has received one of these awards, then the award will be made to the next highest individual if there are 10 or more contestants fulfilling all requirements, the specialist said.

Any farmer who, in any previous North Carolina Five-Acre Cotton Contest, has won a prize is ineligible for the same prize. However, he can always compete for a higher prize. No contestant is eligible for more than one prize in the contest.

All entrants in the contest must be filed by signing an application with the county agent of the county not later than July 1, in which the five-acre plots are located. Each contestant must state clearly in his application the variety and strain of cotton to be planted and shall notify the county agent of any change made after the application is forwarded.

The "killer" or "sea tiger" whale has the gory habit of eating the tongues out of other living whales. It uses its nose to wedge open other whales' mouths.

Italian ladies of the 16th century usually wore masks when in public places.

The modern grapevine is the descendant of the native wild vine of Europe and southern Asia.

The word etiquette originally referred to a piece of paper attached to a package to indicate its contents.

More people drive...
More people want
CHEVROLETS
than any other make of car

True for years—and truer than ever today—with the advent of this *newer, smarter, finer* Chevrolet for 1948! Official registration figures prove that *more people* drive Chevrolets—and seven independent surveys prove that *more people* want Chevrolets—than any other make of car! The reason, of course, is *more value*. And now Chevrolet value is made all the more outstanding by the smart new styling, brilliant new colors, and even more luxuriously appointed interiors which have been added to all the other advantages of Chevrolet's famous BIG-CAR QUALITY AT LOWEST COST. Be sure to see the new 1948 Chevrolet, and you'll *know* why more people drive Chevrolets than any other make!

You'll admire the tasteful new styling, the new color harmonies, the new and richer upholstery and appointments which add so much to the enviable Big-Car beauty of Chevrolet's Body by Fisher.

CHEVROLET

You'll find there isn't any other car in its field that gives the Big-Car comfort of Chevrolet for 1948—direct result of the unitized Knee-Action Gliding Ride.

Chevrolet's world's champion Valve-in-Head engine gives an *unequalled combination* of performance, endurance, dependability and economy.

Chevrolet brings you the *triple safety* of Fisher Unisteel body-construction, the Knee-Action Ride and Positive-Action Hydraulic Brakes.

The record demand for new Chevrolets prompts us to suggest that you keep your present car in good running condition. See us for service—*today!*

CHEVROLET *and ONLY* CHEVROLET IS FIRST!

Russians Reject Compromises On Austrian Treaty

London, March 11—(AP)—Russia rejected today three compromise proposals on terms for an Austrian peace settlement.

The action tightened the deadlock among deputies of the big four foreign ministers in their 75th attempt to reach agreement.

Official observers quoted Samuel Reber, the United States deputy, as saying the sincerity of each delegation in seeking a pact "can only be judged by the concessions it makes."

"And," he added, "in the course of the morning, all the offers have come from the three western delegations."

Gloomily, a British official observer commented that, "in the fact of such stubborn stonewalling (stalling) only a general desire on the part of the western deputies could account for continuing the discussions."

Kinston Police Ball Thursday, March 25

The Kinston Police Association is sponsoring the "police ball" at the Carolina Warehouse in Kinston Thursday night, March 25, from 9 until — with Roy Cole's University of North Carolina Tar Heel band providing the music. The proceeds are for the benefit of the Police Association. Detective Wheeler Kennedy of Kinston, said while here yesterday.

Tickets may be obtained here from Chief Beauford Drum or members of the Greenville police department.

Mutual To Audition Talent At High School Friday At 4

Pitt countians who are to appear on the Mutual Broadcasting System's nation-wide radio broadcast of its farm program, "RFD America" at an early date will be auditioned at the Greenville High School auditorium Friday afternoon at 4 o'clock. T. W. Lewellyn, advance man for the program, and his wife, who have been here about a week selecting talent for the show, will be in charge of the auditioning at the high school. The program will be broadcast over WGTC, with Charles Whedbee as master of ceremonies. The public is invited.

The Mutual Broadcasting System's program, "RFD America," is broadcast over 405 stations each Thursday night at 8:30. It is selected from a different state each week. Pitt county was called on to provide the talent for a future program, the date of which will be announced shortly.

Blount-Harvey To Open New Store

Blount-Harvey's new annex—the B. H. Avenue Store—on Dickinson avenue will be opened to the public Saturday morning. Manager Charles E. Blair said the same policy will govern the Dickinson avenue store as prevails at the main store on Evans street. The new store will carry a complete line of dry goods and men's and women's clothing and notions.

The new store is at 923 Dickinson avenue, near the Coast Line station.

Gold was discovered near Los Angeles in 1842 by a sheep herder who was trying to dig up a few wild onions for his lunch.

GRAIN SALVAGED FROM SHIP — A salvage crew uses a pipeline to remove 80,000 bushels of grain from the ice-coated Canadian freighter William C. Warren, aground in Lake Huron near Rogers City, Mich. Vessel ran aground in November, 1947. Efforts to free it failed and the crew flooded the engine room to anchor the ship. A salvage firm bought the cargo.

Finland's premier, Mauno Pekkala (center), Foreign Minister Carl Enckell (left) and Agriculture Minister Vihtori Vesterinen (right) sit at the conference table in Helsinki, and consider Russia's request for a friendship and mutual assistance pact: The Finnish government appointed Pekkala to head the delegation to Moscow for negotiation of the proposed treaty. Enckell was named vice chairman of the delegation. (AP Wirephoto via radio).

This Air Age

Pecatonica, Ill., March 11—(AP)—An airplane is keeping a horse from dying of starvation.

The horse has been standing on a piece of land surrounded by the swollen Pecatonic river for about a week. He refuses to step on the ice to walk to safety. LeRoy Berkebila, an employe of the Pecatonica airport, has been flying over the spot and dropping bundles of corn and hay.

The first statue of George Washington and the first public memorial of its kind in the United States was erected on the State Capitol lawn in Raleigh, N. C.

Finish Editing Full Text Of European Pact

Brussels, March 11—(AP)—A delegate said the drafting committee of the five power conference had completed editing the full text of a Western European union treaty today.

Great Britain, France, Belgium, The Netherlands and Luxembourg have been conferring for a week on a proposed political, economic and military union.

Pierre Elvinger, Luxembourg member of the drafting committee, said the treaty had ten articles and a preamble.

A plenary session of the conference was convened again late today to consider the draft.

Spokesmen said an official treaty text in French and English will be ready tonight or tomorrow morning. They said another meeting to polish it up may be necessary tomorrow but the odds are against this.

Indict Garssons Following Inquiry

Baltimore, March 11—(AP)—A Federal Grand Jury today indicated Henry N. and Murray W. Garsson, operators of a war-time Illinois munitions combine, on charges of filing false financial statements in connection with their government contracts.

A three count indictment against the Erie Basin Metal Products Company, Allen B. Cellman, its president, Joseph T. Weiss, Harry S. Glick, and the Garsson brothers, was returned after a two-month investigation into their munitions dealings.

Koritz Parole Is Expected Soon

Raleigh, March 11—(AP)—CIO Labor Organizer Philip M. Koritz probably will be freed from prison on parole within a few days, a reliable source said today.

Paroles Commissioner Hathaway Cross would say only that a "decision" in the Koritz case could be expected shortly.

Bethel Cage Quint Wins Its Second Title In Tourney Play

Coach Gets Wish But Handicapped

Baton Rouge, La., March 11—(AP) Gaynell Tinsley had his "lifelong wish" today—he was head football coach at Louisiana State University, where he was an All-America end a dozen years ago.

But along with the dream-come-true was the harsh reality of facing a murderous ten-game schedule with a squad depleted of many dependables.

The 33-year-old Tinsley was promoted from end coach to head coach last night. He succeeds Bernie Moore, who resigned after 13 years to become commissioner of the southeastern conference.

From a club that won five, lost three and tied one last year, Moore leaves Tinsley a roster minus the best passer, two most sparkling runners, four starting tackles, and a few other graduating stalwarts.

The new coach must steer what is left against Texas, Rice, Texas A&M, Georgia, North Carolina, Mississippi, Vanderbilt, Mississippi State, Alabama and Tulane.

And so it was that Tinsley could describe his new job as "my lifelong wish come true," and "the proudest and happiest thing that ever happened to me."

League's Hitter Can't Get Same Salary As 1947

Baltimore, March 11 —(AP)— Don't mention those big baseball salaries to Howie Moss.

He can't even get the same salary as last year although he led the International League home run hitting parade.

While the rest of the Baltimore Orioles met today in Hollywood, Fla. for spring training, the Howitzer stayed here as a holdout. The difference between Moss and Oriole manager Tommy Thomas is $1,000.

Moss believes he should get at least the same $6,000 he received last year when he clouted 53 circuit blows for the Orioles. That was three better than Hank Sauer of Syracuse who is up with Cincinnati this season.

Trounce Robersonville 54-31 In Finals Of Invitational; Hemingway Paces Scoring With Twenty Points

By BERT MOYE

Coach Walter Latham's class Bethel High quint won its second tournament championship game in as many starts by defeating Robersonville, 54-31, for the title of the Bethel Invitation last night. The Indians previously had copped the Pitt County event.

Robersonville jumped into an early 4-0 lead in the first few minutes of the game, but Bethel managed to knot the count at 5-5. After the two teams were tied at 7-7, Frank Hemingway—who racked up a total of 20 points— rimmed a long set to provide Bethel with a 9-8 lead at the close of the first quarter As the second stanza got under way, Walter Whitley got a lay-up for 11-8 lead, and from that point the Bethel boys were never headed, leading at the half 18-11, and at the end of the third quarter were out front 32-22. During the final quarter of the game the Bethel Indians limited the remaining nine points to free throws only.

Billy Hurst got 13 points and Claude Wilson accounted for nine for the losers. Whitley registered 11 for the winners.

In a preliminary game, the Bethel Junior team defeated the Robersonville Juniors, 22-15. William Peele got 10 points for the winners and Ben Whitfield got six for the losers.

The Bethel Indians left this morning for Chapel Hill where they will tangle with Cullowhee High at 4 o'clock in the Class B tourney for the State championship.

Following the game trophies were awarded to the winning and runner-up Robersonville team.

Following the championship game, a large silver cup was presented to the Bethel team for winning the tourney and a smaller cup was presented to the Robersonville team for the runner-up position. In addition both teams were presented a nice cash award by the Bethel tournament officials.

Scoring summary of championship game:—Robersonville — forwards—Wilson 8, Forbes 3, Keel; center—Mallory 2; guards—Hurst 13, Bailey 5, Bethel—forwards — Whitley 11, Hemingway 20; center—Earl Keel 9; guards House 6, Worseley 4, Smith 1, Tetterton 1, Whitehurst 2.

Big Welcome For Olympic Champs

New York, March 11—(AP)—America's winter Olympic champions were to be honored by the Nation's largest city today before heading home to receive the acclaim of their neighbors.

The two individual Gold medal winners —skier-housewife Gretchen Fraser of Vancouver, Wash., and figure skater Dick Button of Englewood, N. J. —arrived from Europe yesterday aboard the Queen Elizabeth.

At St. Moritz, Switzerland, they became the first Americans to win Olympic medals in their specialties.

Along with the four-man bobsled team headed by Francis Tyler of Lake Placid, N. Y., who came back earlier, they were to be honor guests at an official New York reception at noon.

Then Button will have to rush to Englewood where a giant homecoming celebration is awaiting in the afternoon.

Englewood, a city of 19,000, has declared a half-holiday for the school children, draped its streets in bunting and prepared an elaborate parade and banquet for the 18-year-old wizard of the Silver Blades.

Stellar Lineup Is Prepared For Garden Tourney

New York, March 11—(AP)—Four of the country's classier college basketball teams, together owning 93 victories against 12 defeats, square off tonight in the opening round of the choosy National Invitation tournament.

This is the stellar lineup awaiting a sellout crowd of 18,000 at Madison Square Garden.

Western Kentucky (26-1) vs. Lasalle of Philadelphia (19-3 .

St. Louis (21-3) vs. Bowling Green O. (27-5).

The sharpshooting gets underway at 8 p. m. (EST).

The Hilltoppers of Western Kentucky, top-seeded on the strength of the nation's best college competitive record, and St. Louis, No. 4 in the rangings, are favored to win semi-final berths.

The second set of first round games in the fast eight-team elimination is scheduled for Saturday, like this: Texas (20-4) vs. New York U. (20-2), North Carolina State (29-2 vs. Depaul (21-6).

Western Kentucky will field an experienced outfit of four seniors and one junior with plenty of height. Don Ray and Odie Spears are six feet-five while Oren McKinney is six-four.

By contrast, Lasalle, a 20-1 long-shot, is short on seasoning. The team will start three sophomores, one junior and one senior.

However, one of the sophomores—six-foot-nine Larry Foust, rates among the country's better basket-hitters. He has totaled 386 points this season for an average of 16.7 a game.

St. Louis will feature one of this year's all-America team—big Ed MacAuley, who has second 315 points in 24 games.

36,000 Bowlers

Detroit, March 11—(AP)—The first of a record field of more than 36,000 amateurs and experts start firing tonight in the American Bowling Congress' 45th and biggest tournament.

Some of them can boast of averages no better than 140. Others quite consistently shoot 200-plus.

They come from 43 states, Canada, Alaska, Hawaii and the Canal Zone. There's even a goodwill delegation coming from Sweden.

But young and old alike—they range in age from 12 to 90—will match strokes on 40 new alleys at the gala-decorated state fairgrounds coliseum for the next 80 days and nights.

New Contender On Horizon Of Boxing's Future

(AP) Newsfeatures

Newark, N. J.—Two wins over the same guy a champion do not make—but there's a new heavyweight on the horizon who might make trouble for some of the ranking contenders of the division.

He's 20-year-old Henry (Snow) Flakes of Buffalo, N. Y., and he's so new in the fight game that until a couple of weeks ago writers were calling him Henry Snowflakes Blake. However, he politely asked that the record be set straight.

It was just eight months ago that Flake participated in his first four-round preliminary. He has polished off the veteran Pat Comiskey in his last two brawls, one in Akron, O., and one here, where he impressed observers with his recuperative powers and the ability to take a couple of stiff rights without going down.

He beat Comiskey by a decision in the first battle. Then with Pat ahead on points, he knocked him out the fifth chapter of a scheduled 10.

Flake's record now stands at 16 kayos in 27 professional fights since getting out of the Navy in which he served 37 months. His next big target is a fight in Madison Square Garden, and his manager, Guy Sulpi, scoffs at the mere suggestion that his boy might be going along too fast for his own good.

"I think he's ready now," says Sulpi "but I must admit that no offers from Mike Jacobs or his scouts have been forthcoming. Maybe after this latest victory over Comiskey, we'll get a bid."

Sulpi says that Garden or no, he and Snow, who was a three letter man—football, baseball and swimming—at Howard High School in Chattanooga, Tenn., never will strive.

"After our first victory over Comiskey," Sulpi said, "we were bowled over with offers which could keep us working for months.

"We can have a match with Arturo Godoy in Buffalo, Bob Foxworth in St. Louis, Joey Maxim in Chicago or Jimmy Bivins in Cleveland. Then we've been offered Turkey Thompson in Los Angeles, Junior Haynes in Washington, D. C., and Erv Sarlin in Pittsburgh."

Local Golfers Rout Plymouth In Coastal Match

The Greenville Golf team defeated Plymouth 45 to 29 in a regularly scheduled Coastal Golf Association match at Plymouth yesterday. Simon Moye, Jr., was medalist, followed by Ersell Webb and Bruce Baker. Highlight of the day was Sidney Hofler's hole-in-one on the 156 yard number 2 hole. Hofler who is from Washington used a number four iron for his shot; he was playing with Gene Harrington, Gentry Galloway and Seth Hooker.

Scores for the day were:

Simon Moye 79, Ersell Webb 80, Bruce Baker 83, Bill Delbridge 85, W. L. Allen 86, Herbert Waldrop 86 and Hunter Keck 87.

J. M. Barrett 88, Bill Morton 89, Bill Davenport 89, Joe Exum 89, Dave Mosier 90, Seth Hooker 91, Milton Harrington 97 and Cecil Bilbro 92.

Gentry Galloway 94, Carlos Murray 95, Curtis Perkins, Jr., 95, Bob Lang 99, Aubrey Tilley 103, J. R. Pittman 103 and Joe Taft 103.

Bragg Sluggers Win Tournament

Fort Bragg, N. C., March 11—(AP)—Fort Bragg sluggers today hold the third Army boxing tournament title.

Last night 82nd Airborne Division fighters took six of eight bouts to win.

Fort Benning, Ga., took the other two bouts for runnerup honors. Fort Jackson, S. C., was third and the Atlanta, Ga., Ordance team was last.

Big Tackle Signs Up With Rams On Coast

Los Angeles, March 11—(AP)—Gene Ruszkowski, 260-pound tackle from Ohio University, signed today with the professional Los Angeles Rams of the National Football League.

The six-foot, three and one half-inch lineman was graduated last month from Ohio, alma mater of Rams' head coach Bob Snyder.

MODEL—Frances Garman of New York, chosen by group of American art dealers as best artist's model of 1948, holds a sculptured brass cat that will be exhibited over the nation.

College Sponsors Officials' Meet

The physical education department of East Carolina Teachers College will sponsor a conference of officials of women's basketball to be held in the Wright building on the campus on Saturday, March 13. A number of students and instructors in this section of the state are expected to attend.

A chief feature of the meeting will be a rating examination for officials given and judged according to standards set up by the Women's National Officials' Rating Committee. Mrs. Elizabeth Circle Bookhout of the department of physical education at Duke will conduct the examinations, which will be given at noon. Candidates taking them may earn national or local rating.

Nell Stallings, faculty member of the department of physical education at East Carolina, is arranging the program for the conference, which is the fifth annual event of its kind to take place at the college here.

The morning session will include a discussion of rules beginning at 11:15. In the afternoon Miss Stallings will conduct a demonstration of officiating, and practical examinations will be given.

AN EVEN BREAK

Chicago—(AP)—The Chicago White Sox have managed to win as many games as they have lost to Hal Newhouser, Detroit lefthander, a record no other American League club can match. In nine seasons against Newhouser the Chisox have won 15 and lost 15.

Red Sox Boast Two .400 Hitters

Saratoga, Fla., March 11—(AP)—The Boston Red Sox are the only major league club to boast two .400 batting champions in spring training camp. One, of course, is thumpin' Theodore Williams. The other? Handsome Hugh Duffy, the 82-year-young Bosox scout.

Present day fans don't have to go too far back to recall Williams' mighty feat of clubbing .406 in 1941. That was the first time since 1930 that a major league batter soared pas the magical .400 figure.

How many fans, however, remember Duffy? All he did was batter enemy pitchers for a cool .438 back in 1894. Not only did it lead the National League hitters that year, but it has never been equalled before or since. Duffy was a member of the Boston team then.

This is a sort of an anniversary for the still nimble batting terror of the '90's. It is the young fellow's 60th spring training trip. He took his first in 1888, his first year as a member of Cap Anson's famous Chicago Colts. The team trained in Hot Springs, Ark. that spring.

Duffy played 17 years of big league ball and wound up with a lifetime batting mark of .330. Only few batters could top that. He saw service with six clubs and ended his major league career in 1906. In addition to his .438, Duffy also led the National League batters in 1893 with a mark of .373.

Who does Duffy think is the greatest hitter today?

"Why, that's easy. Ted Williams," answered Duffy promptly.

Walcott Show Is Timid Affair; Returns Light

Chicago, March 11—(AP)—Jersey Joe Walcott, who lost an unpopular decision to Joe Louis and who is to meet the heavyweight champion again June 23, won a timid four round boxing exhibition with Austin Johnson of Atlantic City, last night in the Coliseum.

The attendance was a disappointing 1,589 and net receipts were $2,972, not enough to meet Walcott's $4,000 guarantee.

There was very little action throughout the match and the customers booed steadily throughout the four rounds. Johnson, 196 pounder, showed little inclination to mix it and retreated most of the distance.

Walcott weighed 202 1-2 pounds and alarmed Johnson occasionally with a flurry of punches. It was his first appearance in a ring since he lost a split decision to Louis in New York last Dec. 5.

OUT FOR RECORD

Chicago.— (AP) —If Max Bentley, high-scoring center of the Toronto Maple Leafs, wins the National Hockey League scoring title this season he will be the first player ever to win the pointgetting championship for three consecutive seasons.

Eppes Teams In Double Victory Against Wilson

Eppes High defeated Darden High of Wilson Tuesday night in a doubleheader. The Eppes girls won by a 19-5 margin and the boys eked out a 29-27 victory in the second game.

Coach Grimes' girls held the Darden girls in check all during the game, with M. Nichols leading the girls in the scoring department. A. Grimes held the high scoring center from Wilson to a mere 4 points.

Eppes boys were trailing by six points with one minute left to play when Maulstby, a substitute forward, came into the game and made three consecutive baskets and a follow-up by Taft put the game on the shelf for Eppes.

Taft was the high scorer for the winners, and Jones of Wilson was next in line.

Eppes will meet Parmele in a sectional play-off this afternoon in the Eppes gymnasium.

Wolfpack Leaves For New York

Raleigh, March 11—(AP)—N. C State's Wolfpack cagers will leave tonight for New York and the National Invitational Basketball tourney.

The Wolfpack will meet Delaul University of Chicago in Madison Square Garden aturday night in an openiny round game of the NIT tourney.

The outhern Conference champions will in all likelihood leave behind one of their most talented players—Sophomore Forward Dick Dickey.

Amateur World Series Plan Set

Battle Creek, Mich., March 11—(AP)—The Amateur World Series of the American Baseball Congress will be held here Sept. 18 to 26, President C. O. Brown announced today.

Arrangements have been made to accomodate 20 teams instead of 16 as in the past. Brown said this would permit several additional states to send their champions direct to national competition instead of going through regional elimination tournaments.

CAGER GETS THE AIR

Syracuse, N. Y.—(AP)—Ed Glacken, letterman on last year's Syracuse basketball squad, has turned to radio this year. Ruled off the court by the Orange medics, Ed now is doing play-by-play broadcasts for the campus-operated station, WAER.

No Left Turn

The police department installed "No Left Turn" signs at Fourth and Evans Streets today in compliance with an ordinance recently passed by the Board of Aldermen prohibiting left turns at that intersection.

The new regulation is expected to speed up and facilitate traffic Chief Beauford Drum said.

Calument Trains Entry For Derby

Miami, Fla., March 11—(AP)—Quietly, Calumet Farm is training Coaltown to run as an entry with Citation in the Kentucky Derby.

The flashy Coaltown which Feb. 26 equalled the six furlong track record at Hialeah in winning by 12 lengths, went a half over a slow track in 48 3-5 yesterday. Clockers said it was "good time."

Citation, winner of the $50,000 Flamingo at Hialeah recently, will not run again in Florida this winter. He'll be shipped east shortly.

PLENTY OF SEWING

Buffalo (AP) When Hal Jackson, now starring on defense for the Buffalo [illegible] League, was a member of the Chicago Black Hawks, he suffered a shoulder injury that required 175 stitches to mend.

Seaman J. R. Everett Is In Mediterranean

Jarvis R. Everett, seaman, second class, USN, son of Mr. and Mrs. John D. Everett of Route 5, Greenville, N. C., is serving aboard the 10,000-ton light cruiser USS Little Rock, operating in the Mediterranean area.

In the course of its present tour of duty, the Little Rock has visited the ports of Gibraltar; Bone, Algeria; Naples, Trieste, Venice and Taranto, Italy; Augusta, Sicily; the island of Malta; Bizerta, North Africa; and Piraeus, Greece.

Bethel Seaman Also Aboard U.S. Cruiser

Russel C. Briley, seaman, second class, USN, son of Joe Briley of Rt. 1 Bethel, N. C. is serving aboard the 10,000-ton light cruiser USS Little Rock, operating in the Mediterranean area.

The Little Rock, christened in honor of Little Rock, Ark., was built by the Cramp Ship-building Co., in Philadelphia, Penna., and was commissioned June 17, 1945.

THERE OUGHTA BE A LAW! By FAGALY and SHORTEN

Beneath Your Easter Jacket

CANDY STRIPES . . . This one-denier spun rayon blouse looks like sheer linen, is washable and right for a tailored suit.

ANIMAL PRINT . . . Gay accent for a dark spring suit. Spun rayon blouse with shocking pink animals on a white ground.

By DOROTHY ROE

There's more to a suit than just a skirt and jacket. An important part of the picture is the blouse chosen to harmonize or contrast, to supply a softening frill or accent the severity of a tailored line. One New York designer feels so strongly on the subject of mis-matched suits and blouses that she refuses to sell a suit without a blouse designed especially to go with it.

This spring the blouse picture is varied. Biggest selling item is the simple blouse in white rayon crepe both because of its low cost and the ease with which it may be laundered. Rayon crepe stays white after launderings—and this is important too.

Another popular blouse fabric is one-denier spun rayon, which looks like handkerchief linen and launders just as simply. This spring the versatile fabric is being shown in gay prints, which supply a note of color to neutral-toned spring suits.

In the frilly department there are georgettes, chiffons and organzas in white and pastels, usually lace-trimmed and beruffled. These supply a dainty frosting to a simple suit—dress it up for such occasions as the Easter parade.

You'll be seeing blouses of taffeta faille and rayon jersey this year, too—all in the dressy category, and often in overblouse styles which may be worn without a jacket.

When buying a blouse, think of your costume as a whole, and try to match the blouse to your other accessories. Buttercup yellow is popular this season in combination with gray. A yellow blouse, hat and gloves, for instance, can do wonders for a simple gray flannel suit.

Blouses of pebbly crepe, those with elaborate detail such as fluted ruffles, and most colored crepe blouses should be dry cleaned. If you want to wash your rayon blouse, choose a simple style in white or a light pastel or a print that is guaranteed to be fast color.

"BROKE" INTO CAREER

Chicago.—(AP)—Outfielder Jimmy Delsing, up for a trial with the Chicago White Sox, dates his diamond career from a "break" he got as a 16-year-old in Green Bay, Wis. Delsing was watching the Green Bay team play one day when the shortstop of the club broke his leg. Jimmy stepped into the breech, went on to a fine year with Hollywood last season and his promotion to the majors.

U.S. Population Reached Peak At Start Of '48

Washington, March 10 — (AP) — The United States population reached a new high of 145,340,000 at the start of this year after 1947 proved the biggest single year of growth in history.

The Census Bureau said today a record number of babies, 3,908,000 were born in 1947.

Continuance of a low death rate and a net immigration of about 215,000 persons also helped the net boost last year.

The 1947 net gain was 2,667,000 persons. That exceeded the previous record increase, attained in 1946, by about 400,000.

The bureau said the U.S. population increased by 10.4 per cent or 13,700,000 persons between April 1, 1940, when the last census was held, and Jan. 1, 1948.

Continued Cold Numbs Midwest With New Lows

Chicago, March 10—(AP)—The middle part of the nation was numbed by a severe cold wave today.

Temperatures of from zero to as low as 35 below extended over the north and central Rockies and the northern plains eastward to the Great Lakes region. The mercury dropped in some sections to the lowest of the winter.

Grand Forks, N.D., felt the sting of the frigid mass of Arctic air as thermometers dipped to 35 below zero early today. The sub-zero belt extended as far south as Goodland, Kans., which reported a minimum of one below.

Federal forecasters said the cold would continue tonight throughout the frost belt.

Farmers Praying Rain Will Stop

By the Associated Press

Farmers in South Carolina and Georgia gathered in churches today to pray for the rain to stop. The weatherman gave them little solace.

A rain belt extended from upper Florida to Boston. The forecast was for more light rain tomorrow afternoon in the two Carolinas.

The wet, mild spell has prevented farmers from preparing fields for spring crops.

Prayers were held in the Baptist church at Ladson near Charleston and in Georgia cities from Statesboro to Savannah.

Dr. Condon . . .

(Continued From Page One)

device can be checked for accuracy.

The bureau's meter is made of hard metal which, over a long period of time, won't change.

Then there's the problem of weight. The U.S. standard of weight is the kilogram, which equals 2 2-10 pounds. The bureau's standard kilogram also is made of hard metal.

If a manufacturer or research laboratory wants to test the true weight of something it has produced, it can get the test made against the bureau's standard kilogram.

Then the bureau does work like this:

Some firm wants to use a huge X-ray machine to test metals for flaws. But X-rays can be dangerous to people using them unless they're protected by something like concrete or lead.

But how big a shield of concrete or lead should the firm build? One 10 feet solid? Or 20 feet solid? The bureau makes tests on that.

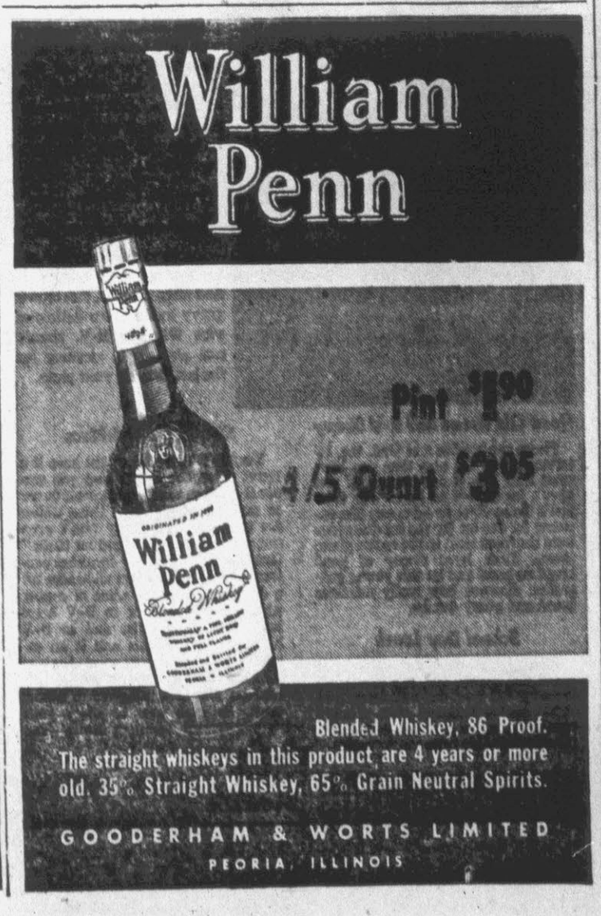

Or it may test a steel girder to see how much heat and cold it can stand. When the test is complete, steel mills will know how much heat and cold that particular kind of steel girder will take.

Get Welcome Relief From Stomach Gas, Sour Food Taste

Do you feel bloated and miserable after every meal? If so, here is how you may rid yourself of this nervous distress. Thousands have found it the way to be well, cheerful and happy again.

Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with overdoses of soda and other alkalisers to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.

• "This farmer tried *natural* soda on his corn and got good results. I'm passing his experience along — hoping that it may help you raise a better crop, too."
Uncle Natchel

FARMER'S FORUM

"I've heard a lot recently about increasing corn yields. I didn't realize that 100 bushels of corn takes as much nitrogen out of the soil as there is in more than 600 pounds of nitrate of soda. I decided to see what would happen if I put back that much soda in side dressings, the last one when the corn was in full silk. I made over 200 bushels on one acre."

Aptitude Test Battery Installed For Greenville's Employment Agency

A new test battery called the General Aptitude Test Battery has been installed in the Greenville Office of the Employment Security Commission, Mrs. J. B. Spilman, manager, announced today.

Four years have been spent in the actual development and validation of the General Aptitude Test Battery. In addition, all the experience gained by the North Carolina Employment Service through its affiliation with the United States Employment Service in the past thirteen years was drawn upon in building this battery of test. Originally over one hundred tests were selected and administered to 12,000 people of all types of occupations, in other words the general working population. As the two-year program of test validation progressed, tests that did not appear to contribute to the battery were discarded and the number of tests was reduced from over a hundred to a small percent of that figure. The validation program is the testing of persons successfully employed in specific occupations to discover the degree of a certain aptitude that is required to perform successfully on a particular job. This program is still in progress. However, 20 broad fields of work have been covered to a high degree of accuracy, and have been installed in several of the larger Employment Service Offices in the State. Greenville has been selected to serve this section of the State.

The General Aptitude Test Battery measures ten aptitudes which are basic to successful performance of a larger number of jobs. These ten aptitudes with a brief definition of each and examples of a few of the many occupations in which the aptitude is required to a high degree are as follows.

Verbal Aptitude: Ability to understand meanings of words and ideas associated with them and to use them effectively, as in journalism and copy writing.

Numerical Aptitude: Ability to perform arithmetic operations quickly and accurately as in accounting and engineering.

Special Aptitude: Ability to comprehend forms in space and understand rationships of plane and solid objects as in engineering and metal machining.

Form Perception: Ability to perceive pertinent detail in objects or in pictorial or graphic material as in artistic drawing and drafting.

Clerical Perception: Ability to perceive pertinent detail in verbal or tabular material as in stenography and general recording.

Aiming or Eye-Hand Coordination: Ability to coordinate eyes and hands or fingers accurately so as to make precise movements with speed as in drafting and assembly.

Motor Speed: Ability to make hard movements rapidly as in machine operation and routine clerical work.

Finger Dexterity: Ability to move the fingers and manipulate small objects with fingers rapidly or accurately as in small unit assembly and radio repairing.

Manual Dexterity: Ability to move the hands easily and skillfully. Ability to work with the hands in placing and turning motions, as in plumbing and heavy structural work.

Intelligence: General learning ability. The ability to "catch on" or understand instructions and underlying principles, the ability to reason and make judgments required in some degree in almost all occupations.

The General Aptitude Test Battery was designed primarily for counceling purposes. Instead of testing for specific occupations, the General Aptitude Test Battery tests for fields of work and groups of occupations. The General Aptitude Test Battery now administered by the Greenville Employment Service will aid workers in making occupational choices and secondly aid employers in the transfering of workers from one job to another.

Mrs. Spilman said that at the present time these tests are not available to any outside agency but that the Greenville Employment Office will be very happy to administer this battery to anyone who is undecided as to the occupational choice or to employees where an employer is contemplating job transfers or promotions.

Halsey's View

Baltimore, March 11—(AP)—Nations which look to the United States to ease international political tension "are not afraid of anything that we'll do that will harm them, but afraid of what we won't do," Admiral William F. Halsey said here last night.

The retired five-star admiral addressed the Maryland Chapter of the University of Virginia Alumni Association.

"I am very fond of MacArthur," he said when asked about the five-star general who has been recently mentioned as a possible Republican nominee for President. "I think he is a grand man. I have no political ties."

Carl Snavely Speaks Carolina Alumni Meeting

By CHESTER WALSH

Nearly one hundred members attended the joint annual supper meeting of the Pitt county Chapter of the University of North Carolina Alumni Association and the Educational Foundation at the Airport Inn last night. President Joseph S. Moye presided.

Carl L. Snavely, head football coach at the University, made an inspiring talk about the Educational Foundation and its providing for worthy boys who otherwise might not get an education. Snavely pointed out that none of the students assisted by the Educational Foundation has ever been censured by the faculty or student government, and with possibly one exception, none has flunked. They have become leaders in the college activities, he added.

Coach Snavely reviewed football at the University last year and gave a summary of 1948 prospects. His head line coach Max Reade showed motion pictures of the Maryland, Virginia and Texas football games last fall.

An opportunity was given alumni present to contribute to the Educational Foundation, and it was announced that other alumni desiring to contribute may send their contributions to J. Con Lanier.

The dinner was entirely informal. President Moye welcomed the guests. He recognized "Lathe" Morris of Farmville as one of the University's staunchest supporters, and Reynolds May of Greenville a Duke alumnus, as a good sport. The president welcomed Dr. John D. Messick as an alumnus of the University who now owes his primary allegiance to East Carolina Teachers College, of which he is president.

James S. Ficklen of Greenville, trustee of the University of North Carolina, was optimistic in his brief remarks.

J. Maryon Saunders, secretary of the General Alumni Association, reviewed the situation at the college, gave some enlightening information and made some timely suggestions.

President J. Con Lanier presided over the Educational Foundation meeting and spoke briefly, and he was assisted by J. B. Kitrell.

The alumni chapter elected Lee Folger president, L. S. Ficklen vice-president, and John B. Lewis of Farmville secretary-treasurer.

The Educational Foundation re-elected J. Con Lanier president, James S. Moye vice president, and Joheph S. Moye secretary-treasurer.

Has Gold Brick

Toronto, March 11—(AP)—Mary Richardson, 21, is the proud new owner of a gold brick — an honest-to-goodness gold brick.

She won it as a door prize last night at the annual convention of the Prospectors and Developers Association.

It weighs 3.48 ounces and is valued at about $120. The catch is—she can't keep it. She has to sell it to the government, that's the law.

Governor Given $237,500 Award

Tallahassee, Fla., March 11—(AP) A 12-man federal court jury yesterday awarded Gov. Millard Caldwell $237,000 damages in his libel suit against Collier's magazine.

The jury, which included three Negroes, deliberated for two hours. Caldwell, who had asked for $500,000 damages, commented, "I think the verdict is justified by the law and by the facts."

Caldwell has said any proceeds from the litigation will go to Florida A&M College for Negroes, a state-supported institution here.

The governor claimed he was libeled in a Collier's editorial on his statement in connection with the killing of Jesse James Payne. Payne, a Negro, was taken from the Madison County jail and shot while he was awaiting trial on charges of attempting to rape a five-year-old child.

Caldwell contended the magazine falsely and maliciously damaged him when it said he had expressed an opinion that a "mob had saved courts, etc., considerable trouble" in the Payne case.

He denied he made any such statement.

JAP MINERS STRIKE

Tokyo, March 11— (AP)—Kyodo News Agency reported today 25,000 Japanese coal miners on Hokkaido and Kyuands struck for higher wages. The walkouts affected 16 mines.

"Old at 40, 50, 60?" — Man, You're Crazy

Vote To Pay Sum To Prosecutors Of R. L. Fritz

Raleigh, N.C., March 11—(AP)—The council of state yesterday voted to pay $2,010.94 to two attorneys who were special prosecutors in the trial of R. L. Fritz, Jr., former Hudson school principal.

Each of the attorneys—W. H. Strickland and B. F. Williams of Lenoir—will receive $1,000. In addition, they will get $10.94 for expenses.

Fritz last December won acquittal on false pretense charges in connection with alleged teacher payroll padding. Judge Allen H. Gwyn declared a non-suit at the close of testimony in Caldwell Superior Court.

Wilson's Weekly Bulletin FROM THE Rector Kitchens

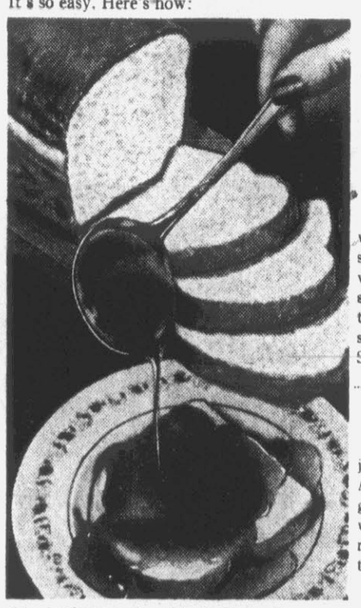

The Rector Kitchens, founded by the late George Rector, serve Wilson & Co. Inc. exclusively. From these kitchens come the recipes, menus, nutritional advice, economy suggestions, and homemakers' hints that you read in Wilson's Weekly Bulletin.

Make Good Brown Gravy Every Time

Want to make yourself a reputation as a good cook? Then learn how to make delicious brown gravy every time. Until recently, in order to have rich brown gravy it was necessary to have plenty of meat to furnish rich, brown drippings. Not so, today! You can now give gravy that delicious browned-meat flavor by adding that true meat extract, Wilson's B-V. It's so easy. Here's how:

MARCH IS NATIONAL BREAD & GRAVY MONTH

Rich Brown Gravy

(It's the rich brown gravy that puts the meal over)

2 tbsp. fat or drippings
2 tbsp. flour
1 cup liquid (milk, water or vegetable water)
1 tsp. Wilson's B-V

Melt fat, add flour, and blend well. Add liquid and stir until smooth. When hot, add B-V which has been dissolved in a small amount of the hot mixture and cook until thickened sufficiently. Makes 1 cup gravy. Serves 3 or 4.

Clip Recipe Here

Everybody's Favorite

Men and children alike enjoy good old bread and gravy. And when it's good, rich brown gravy made extra delicious with Wilson's B-V, there's real pleasure in cleaning up the last drop on your plate.

Good Old Bread and B-V Gravy

Please the kiddies and Dad, too, by serving gravy the next time you have meat loaf. Yes, it can be done if you have a jar of B-V on hand. Use Wilson's Bake-Rite or Advance Shortening for the fat (or the fat drippings from the meat loaf) in the recipe given above. Then have plenty of good bread on hand and let this young generation discover how really delicious bread and gravy can be.

School Day Lunch

Plan school day lunches around bread and gravy, too. It's chock-full of energy in a most delicious form. Add carrot sticks, buttered peas, deviled eggs, baked apple, and milk and you'll raise shouts of joy from the young fry.

Sh-h-h! It's Nutritious

Yes, B-V is nutritious but keep it a secret from the family and you can use B-V often to add extra meat flavor to many a simple dish. These dishes are so good your family won't even suspect they're also "good for them." One teaspoonful of B-V furnishes one-fourth of an adult's iron allowance for a day. Iron plus the trace of copper which is also present in B-V helps build red blood cells; and so B-V helps prevent anemia and is an excellent addition to any meal. Lack of sufficient iron in the diet causes listlessness and slow progress in school work. So plan now to check your family's daily iron supply.
