French Cabinet Approves Union Of West Reich

Ministers Will Submit Pact To Assembly Friday; Friction In Berlin

Paris, June 8 (AP)—The French cabinet approved today the six-power agreement on western Germany.

The ministers voted to submit the agreement to the National Assembly Friday.

Foreign Minister Georges Bidault led the drive for formal acceptance of the accord reached by the United States, Great Britain, France, Belgium, the Netherlands and Luxembourg.

He will meet the National Assembly's foreign affairs committee tomorrow. Informed quarters said the assembly may approve the recommendations of the committee.

Moscow newspapers carried New York and London dispatches on the plan but no editorials. The Russians have denounced the negotiations that led up to it.

The agreement, reached in London, was made public yesterday by the United States, Great Britain, France, Belgium, the Netherlands and Luxembourg.

It calls for a west-German federal government, international control of Ruhr valley coal and iron, and safeguards to keep Germany from becoming a military threat.

It is subject to home-government approval. The British cabinet objected yesterday.

Some Frenchmen have voted fears Germany would be allowed to become a menace again. Others have accused Bidault of making damaging concessions in the London negotiations.

A new instance of friction between the western powers and Russia in Berlin came to light today. The Soviet news bureau said the British had asked the Russians to move the Soviet-controlled Berlin radio station out of the British sector. It said countermeasures were probable against western-power communications through the Russian occupation zone to the west.

List Missing In Columbia Flood

Portland, Ore., June 8 (AP)—The Red Cross today listed 545 individuals and families unaccounted for since Columbia river floodwaters wiped out the city of Vanport Memorial Day.

The list, the agency said, is the result of checking all "bonafide inquiries" against the official files naming 18,700 residents of the war boom project near here. Only two bodies have been recovered since the flood.

Candidate Requests Runoff For Office

Warland L. Hunsucker of Winterville, runner-up in a three-cornered race for Pitt County commissioner from the Fourth District to Marvin L. Smith of Chatham, incumbent, yesterday filed with the county board of elections for a runoff in the second primary on June 26.

In the recent primary, Smith received 3,231 votes, Hunsucker 3,071, and W. Leslie Elks 1,075.

Out-Of-State Divorces Are Approved

Washington, June 8 (AP)—You can get a pretty safe out-of-state divorce if the judge gives your husband or wife a full chance to argue the question of "quickness" legal residences.

That's the Supreme Court's latest pronouncement on what has been one of the most complex problems in state and federal courts.

Chief Justice Vinson announced the 7 to 2 decision late yesterday. He based the far-reaching ruling on the constitution's requirement that each state must give full faith and credit to the official acts of other states.

Vinson said Massachusetts courts erred in labeling as "no good" divorces obtained by Margaret Sherrer in Florida and by Mrs. Katherine C. Doe in Reno.

It is not the business of the Supreme Court, the Chief Justice said, to weigh the merits of Florida, Nevada and Massachusetts divorce policies. But if the spouse sued for divorce gets due process of law in a competent state court, that is enough, Vinson decreed.

Strong Support To Restore ERP Funds In Senate

Powerful support lined up today to save the \$5,000,000,000 European recovery program from the economy axe swung by the House.

From inside and outside Congress a chorus of protests arose against the House action which in effect cut \$1,000,000,000 from the administration's foreign spending program this year.

Senator Vandenberg of Michigan, Republican leader in foreign affairs, will go before the Senate Appropriations committee tomorrow to lead the fight against the slash.

He already has the support of Gov. Thomas E. Dewey of New York and Harold Stassen, two of the Republican party's candidates for the presidential nomination.

Coal Mine Owners Given More Time

Granted Additional 24 Hours To Discuss Possible Contract With Lewis; Private Huddle Over Proposals To Be Made

Washington, June 8 (AP)—Soft coal operators today asked for another 24 hours in which to discuss a possible contract offer to John L. Lewis.

At their request, contract negotiations which were to resume at 1 P. M. (EST) were postponed until the same hour Wednesday.

The operators held a private huddle at the Statler Hotel over what proposals they should make to the United Mine Workers for a new agreement. The present one expires June 30.

Yesterday, Lewis told them the miners had no specific wage proposals, but wanted "improvement" in pay and also demanded certain guarantees of benefits from the welfare fund. He invited a wage offer from the mine owners.

While the operators talked among themselves, Lewis and his attorneys filed an answer in the federal district court to Ezra Van Horn's suit to halt payments under the compromise pension plan adopted to end the recent strike.

Van Horn is the operators' representative of the three-member board of trustees for the miners' welfare and pension fund. The fund comes from a 10-cents a ton payment of mine owners for each ton of coal mined.

Lewis and Senator Styles Bridge the other trustees, agreed this spring on a \$100 a month pension plan for elderly miners. Van Horn claims that would bankrupt the fund and that the Lewis-Bridges plan doesn't meet requirements of the Taft-Hartley law.

Lewis' answer to Van Horn's suit says Van Horn has blocked any pension plan at trustees' meetings.

Justice T. Alan Goldsborough will hear arguments in the case June 19. On new contract talks, the coal operators showed little inclination to pick up a bill for \$14,000,000 in miners' death and disability benefits which Lewis tossed on the bargaining table.

The mine owners were slow to reach for the check because no operators served on the board of trustees which lined up future benefits to all miners out of the fast-dwindling 1946 welfare fund.

That fund was set up during government seizure of the mines two years ago. The operators doubled the nickel-a-ton payment when they took back their mines last July, but set up a new welfare fund.

About \$500,000 has been raised under the 1947 pact, but none of it has been spent because Lewis and Ezra Van Horn, the operators' trustee, have been unable to agree on a pension system.

The trustees of the 1946 fund—Lewis, Thomas E. Murray of New York and Navy Capt. N. H. Collins—have made "moral obligation" to the miners for nearly \$200,000 in benefits. There is more than \$5,000,000 in the old fund, but it is being spent at the rate of almost \$1,500,000 a week, the operators say.

At that rate it will all be gone when the present contract expires June 30.

Will Not Change Elections Rules

Progressive Party Protests Fail To Move State Board

Raleigh, N. C., June 8 (AP)—The State Board of Elections today refused to alter its rules regarding formation of a third party in the state.

The board decided not to act on protests against its rulings made by the Progressive Party of North Carolina.

At a meeting here the board also:

1. Announced the official returns of the May 29 primary.

2. Authorizing holding of a second primary on June 26 if candidates wanted to demand run-offs notify the board in writing within the time prescribed by law—five days.

Both candidates who have served notice that they will demand a second primary.

They are Kerr Scott who will be matched with Charles M. Johnson in a race for the Democratic nomination for governor and Hargrove Bellamy who will oppose F. Eitel Carlyle.

The board discovered an error in election returns reported by Haywood county which increases the previously announced total for Johnson by 903 votes. This gave Johnson a state-wide total of 170,141 votes to 161,283 for Scott, a lead of 8,858 votes for Johnson.

The Progressive Party had protested an elections board rule under which its candidates for state and congressional offices will not be placed on the general election ballot even if it succeeds in securing 10,000 names on a petition necessary for it to be declared an official party.

Draft And Congress

Senate Already At Work On Measure; Time Limit; What Could Happen; Putting the Load On the President; The Opposition; What the Proposed Bills Would Do

By JAMES MARLOW

Washington, June 8 (AP)—Congress finally is considering a law to draft men into the armed forces for peacetime service.

The Senate has started debate on it. The House is expected to do so shortly.

If there's going to be a draft law this year, both Houses have to work pretty fast because Congress plans to quit June 19.

If there is a law, who'll be drafted? Right now the talk is of drafting men between 19 and 26. None of this is certain at this point.

Keep this in mind as you read the stories coming out of Congress on the draft.

Even if Congress passes a draft law, there's a chance it won't mean drafting any men this year.

This may happen:

Congress may pass a draft law, set up all the machinery for it, and then say:

"We've passed a draft law. But it is only a law on the books and is not to go into effect—meaning no one is to be drafted—unless and until the President says so."

"So, although we've set up all the machinery for the draft, passing the law doesn't start it. The President will have to do that, if he sees fit."

New President

Prague, Czechoslovakia, June 8 (AP)—Czechoslovakia's Communist-led parliament will elect a new president next Monday to succeed Eduard Benes, resigned.

Communist Premier Klement Gottwald is regarded as the leading candidate for the job, with Antonin Zapotocky, deputy premier and Trades Union head, then succeeding Gottwald as premier.

There was talk, however, that Gottwald might wish to remain premier, a post he has held since July 3, 1946. In that case Zdenek Nejedly, 70, the Education Minister, or Zdenek Fierlinger, the Minister of Industry, were given the best chance for the presidency.

Benes had been voted a life term in 1946 and Gottwald's office announced that as a tribute for his long service to the nation Benes would be given the presidential country home and paid his presidential salary for the remainder of his life. He is 64 and attributed his resignation, in part, to ill health.

Use Seaways To Reinforce Army

Egyptians Use Boats To Strengthen Force In Israeli Trap

Cairo, June 8 (AP)—The Jews say the Egyptians have used the seaways to reinforce an armored spearhead in an Israeli trap down the Palestine coast from Tel Aviv.

The Egyptians claim to have infiltrated 330 Jewish losses in taking a settlement in that region.

Arab and Jewish leaders meanwhile are weighing proposals for a four-week truce from Count Folke Bernadotte, United Nations mediator. He wants replies by tomorrow.

The Egyptian premier said last night the Arabs will give him their then. The Jews did not say when they would.

A neutral Cairo source said Bernadotte's plan, given the parties yesterday, was to freeze the military situation during the armistice.

The latest attitudes of both sides were made known. They showed the Jews still disagreed on whether the Jews shall be allowed to bring in immigrants of military age.

Egyptian back in Tel Aviv from the southern battlefield yesterday told the story of Egypt's seaborne reinforcements.

They said at least one and perhaps several Egyptian ships had landed troops of undisclosed strength to back up forces encircled at Isdud, 23 miles south of Tel Aviv on the coastal plain.

This helped explain the naval engagement in which a Jewish corvette and two planes turned back four Egyptian vessels, including two landing craft, off Tel Aviv last Friday.

In a week's battle at Isdud, the Jews they have surrounded perhaps 1,000 men of an Egyptian force of 5,000. They reported yesterday they still were attacking there.

GE Offers Wage Hike To Union In Negotiations

New York, June 8 (AP)—The General Electric Co. today offered an eight percent wage increase to an estimated 125,000 workers in GE plants throughout the country.

The company said the offer would amount to an increase of "nine cents to over 15 cents an hour."

It was made to negotiators for the United Electrical, Radio and Machine Workers (UO) during negotiations which have been under way since March 2.

Union negotiators recessed until mid-afternoon to consider the offer. The union asked when the increase would be effective, and the company replied "when accepted."

Last week the union proposed that the company increase wages 11 cents an hour, and make the increase adjustable to the movement of the cost of living index of the U. S. Department of Labor.

Gas Explosion And Fire Wrecks Country Club

Los Angeles, June 8 (AP)—A gas blast heard for miles blew the fashionable Hinchey Country Club apart today, sending five persons to hospitals.

An earlier report from the ambulance driver that he had picked up two bodies was not borne out, police said.

The explosion occurred in a locker room, and scattered lockers in a semi-circle for 50 feet. The roof blew off the clubhouse and a fire virtually gutted it despite efforts of 12 fire companies. Loss was estimated by Manager John Steinberg at \$175,000.

Petrillo Assures Truman Family

Asbury Park, N. J., June 8 (AP)—James C. Petrillo, head of the American Federation of Musicians (AFM), says he told President Truman not to worry—the union will "take care" of getting Margaret Truman a radio job no matter what the outcome of this year's presidential race.

Petrillo told the Musicians' 51st annual convention yesterday that he had reassured President Truman about the future during a concert in Washington last month.

Suggest Cuts In Money For Atom Commission, VA

House Appropriations Committee Deals Blow To Finances For Agencies

Washington, June 8 (AP)—Cash money cuts of nearly nine percent for the Atomic Energy Commission and seven percent for the Veterans Administration were suggested today by the House Appropriations Committee.

At the same time the committee called for a halt to "hobby" training under the GI Bill of Rights.

It also said Atomic Energy Commission officials should show less reluctance to consider the "practical realities" of spending government funds.

In a \$5,795,048.92 bill to finance six agencies during the year starting July 1, the committee recommended:

1. Atomic Energy Commission: \$501,850,000 in cash—a cut of \$48,150,000 from what President Truman asked but \$326,850,000 more than was appropriated this year—plus \$400,000,000 in contract authority, the amount the President asked. The actual money to pay for contracts let under the additional authority will be voted next year or later.

2. Veterans Administration: \$5,125,309,000 in cash—a cut of \$354,600,000—plus \$43,000,000 in contract authority as requested. The total is \$549,850,000 less than the VA had available this year.

3. Maritime Commission: \$102,377,831 in cash—a cut of \$39,475,132—plus \$75,000,000 in contract authorization, \$14,858,000 more than was asked.

4. Office of Housing Expediter: \$15,172,100—a cut of \$5,327,900.

5. Office of Defense Transportation: \$340,000—a cut of \$105,000. The ODT goes out of existence next February 28 unless Congress continues it.

6. War Assets Administration: \$500,000 in cash—a cut of \$452,000. The committee recommended that the War Assets Administration be abolished August 31, and that the Budget Bureau supervise the \$500,000 and look after the distribution of records and property now belonging to the WAA.

Dewey's Tour Is Challenging Taft

Southern Tour Designed To Upset Vaunted Support

Albany, N. Y., June 8 (AP)—Challenging Senator Robert A. Taft's claim to strong Southern Republican presidential nomination support, Gov. Thomas E. Dewey today begins personal appearances in Virginia, Maryland and North Carolina.

The New York governor's first train stop will be in Baltimore this evening, where he will attend a dinner for delegates to the GOP convention in Philadelphia.

Although Dewey aides have made no direct claim to Maryland's support, they profess belief that he will make a good showing among the 16 delegates.

From Baltimore, the 1944 Republican presidential candidate will go to Richmond, Va., for a luncheon meeting Wednesday with Virginia delegates and leaders. That evening, the delegates will entertain Candidate Harold E. Stassen.

Dewey campaign managers lay claim to 16 of 21 Virginia votes. Dewey's final campaign appearances before the national convention, which opens June 21, will be made Thursday in North Carolina. Dewey claims 16 of North Carolina's 26 delegates.

Florida Group Opposes Truman

Punta Gorda, Fla., June 8 (AP)—Neither President Truman nor Sen. Claude Pepper can expect much comfort from Florida's delegation to the Democratic National Convention.

A well-organized anti-Truman faction gained control of the delegation yesterday and named a Pepper foe as its chairman. It then defeated two moves to place itself specifically on record as a supporter of whatever presidential ticket the National Convention adopts.

Seamen Wounded In Brawl On Ship

Honolulu, June 8 (AP)—Two sailors were wounded, one seriously, aboard the Liberty ship Angus McDonald in the climax of a seamen's brawl last night.

The McDonald had been in the harbor barely 10 minutes. The shooting occurred as it was tying to a dock.

The freighter, enroute to Mobile, Ala., had turned back to port after Capt. O. L. Snodgrass radioed to the Coast Guard he had an "uncontrollable" crew.

Is Germany Forgiven?

Two Sentences By British Officer Imply About-Face On Policy Towards Germans; Unification Of Western Zones Of Occupied Germany; Russians 'Responsible'

By RILMAN MORIN

A British general was talking with newspapermen in Berlin the other day when he dropped a remark that must have jolted even those who profess to be shock absorbers.

He put it into two sentences: "Just as we are a Christian, civilized people, the Germans are also a Christian, civilized people. They should be treated accordingly."

Assuming that the general was expressing official British policy—and it would be difficult to assume otherwise considering his position—that is a statement of tremendous magnitude. General Robertson is the head of the British Control Commission in Germany.

Before moving on to the meaning of this, and its implications, let your mind go back three years to the summer of 1945.

In entering Germany, General Eisenhower announced: "We come as conquerors, not as liberators. German soldiers were forbidden to fraternize" as the saying was.

Senate Votes Let Aliens Join Army

Draft Bill Amendment Would Permit 25,000 Aliens To Enlist; Senators Plan Night Session To Push Measure

Washington, June 8 (AP)—The Senate voted today to let the Army enlist 25,000 aliens.

The 43 to 33 vote put the permission into the two-year draft bill, Senator Lodge (R-Mass.) sponsored it.

The idea is that there are in Europe thousands of anti-Communist Poles, Czechs, and others who would jump at the chance to serve in the American Army.

Chairman Gurney (R-SD) of the Armed Services Committee opposed the amendment. He said he doesn't think the proposal ought to be limited to the Selective Service proposal.

"This is a fundamental change in our policies," Gurney said. "Many people feel that such a move would subject our nation to the criticism that our own people are not willing to bear arms in defense of the nation."

As originally introduced, Lodge's amendment proposed enlistment of 50,000 aliens. He cut the number to 25,000 at the suggestion of Senator Tydings (D-Md.) when it appeared doubtful the Senate would accept the larger figure.

The Senate leadership was driving to dispose of the Lodge amendment and other proposed changes in the draft revival measure. They hoped for final action tonight. The House has a similar draft bill it will take up once the Senate acts.

Arguing for his amendment, Lodge told his colleagues: "It has been said that perhaps the Russian government would not like it. In so far as that argument is concerned, it seems superfluous to say that our efforts to please the Russians has not been crowned with success and that the Soviets are sure to vilify us no matter what we do."

Lodge said he has been advised that the Army Department approves his plan. He said a "misunderstanding" in the State Department about the proposal has been "cleared up."

Encouraged by the fact the chamber was able to dispose of seven controversial civil rights amendments in yesterday's 11-hour and 19 minute session, acting Majority Leader Wherry of Nebraska said he will hold the Senate into the night again.

But the chances of a passage vote before tomorrow seemed none too bright. At least seven more amendments await action, including one by Senator Russell (D-Ore.) which also touches on the race issue.

The Senate voted in one modified civil rights amendments last night. It voted 77 to 35 to outlaw the poll tax as a requirement for voting in federal elections so far as members of the armed services are concerned.

Southern Democrats talked for several hours against this proposal by Senator Langer (R-SD) but permitted it to come to a vote.

One said privately the issue was a minor one because most of the seven Southern poll tax states still have in effect wartime suspensions of the tax for members of the armed forces.

Assails Embargo On Tobacco Seed

Wisconsin Congressman Sees Disparity In Trade Agreement

Washington, June 8 (AP)—The Democrats are "deceitful" in pleading for continuation of the Reciprocal Trade Act while they "insist on keeping" an embargo on tobacco seed exports, Rep. Murray (R-Wis.) said today.

Murray has introduced a measure to repeal the 1940 embargo law on tobacco seed. He denied this was in retaliation for House passage of a bill to repeal federal taxes on oleomargarine.

Backing for Murray's bill to knock out the embargo has come from the State Department in a letter signed by Charles E. Bohlen, counselor.

The letter, which Murray said he will put in the congressional record, said in part:

"The department is heartily in accord with this bill to repeal an embargo which was enacted against the advice of the Departments of State and Agriculture and without the approval of the President. x x x"

"The department considers it is now more important than ever that arbitrary restrictions of this sort should be removed."

"I need hardly remind you how important foreign markets are to American tobacco growers, and how necessary it is that their position in those markets be protected against the imposition of arbitrary or discriminatory controls."

Murray asserted in a statement issued as he made the letter public that the embargo on tobacco seed exports "is the most vicious trade barrier ever erected in our country."

Assail Compromise On Plans For Tariff-Cutting

Washington, June 8 (AP)—Senator Taft (R-Ohio) and Finance Committee Democrats today assailed—but for different reasons—a tariff-cutting compromise proposed by Republican Senators Millikin (Colo.) and Vandenberg (Mich.).

Taft, a Finance Committee member and head of the Senate's GOP Policy group, told reporters the Millikin-Vandenberg proposal would leave too much power with the President in carrying out the reciprocal trade act.

Democrats said the plan would have the effect of killing the foreign trade program.

This was the picture as the Finance committee called a meeting to try for a final vote on legislation to continue the tariff program one year beyond next Saturday in revised form:

1. The House has passed a one-year extension bill which would curb the President's tariff-making power, give the Tariff Commission more authority, and let Congress veto presidential decisions in cases where the Chief Executive ignored the commission's recommendations.

2. The administration wants a three-year extension without any change in the law, but the Senate committee's Republican majority already has voted down that idea. GOP members also blocked Democratic moves for two and one-year "as is" continuances.

3. The Senate committee practically has agreed to abandon the veto provision. In its place, Chairman Millikin has proposed that the President be required to notify Congress within 30 days in cases where he overrides the Tariff Commission. And the Chief Executive would have to explain why.

It seems very unlikely that this was an isolated pronouncement. More probably it is directly connected with the announcement of the London conference recommendation for Germany.

The conference has concluded that "German reconstruction is essential to the well being of Europe." That is, and has been since the end of the war, an inescapable fact. Germany always has been the big wheel in the industrial machinery of Europe.

New Flood Crest Heads Downriver To Ravaged Area

Melting Mountain Snow Fills Columbia And Fraser Rivers; Levees Weak

Portland, Ore., June 8 (AP)—The Columbia and Fraser rivers fired their third flood crest downriver today. Weary sandbag battalions defending battered American and Canadian dikes were reinforced for three more weeks of siege.

Scorching weather throughout the Pacific Northwest sent tons of water from fast-melting mountain snow into the two rampaging river systems. The Kootenay river, one of many feeding the Columbia, crashed through another dike in Canada. Water poured over 8,000 acres of rich farmland near Vancouver,

Hold on if you're about to say only because it helps relieve constipation caused by lack of bulk food in your diet. Then you haven't tried fiber-rich Nabisco 100% Bran! This bran is finer-milled to make it milder, gentler-acting. And...it's better-tasting, too! Start enjoying Nabisco 100% Bran tomorrow! (See a doctor if constipation continues.)

Prolonged Sleep Successful In Treating Ulcers

Moscow—(AP)—"Red Star's" Leningrad correspondent reports that the now well-tried system of prolonged sleep has been proven successful in the treatment of duodenal ulcers. The idea was originated by the celebrated physiologist, Pavlov. It was first used in the treatment of Schizophrenia, then for shell shock and later for wounds. The method has been used for

treating ulcers since 1945, "Red Star" said. It is used on patients who do not respond to other treatment.

Each patient sleeps from 16 to 22 hours a day. The entire course of treatment lasts for 12 to 20 days. The patients are given soporifics. The new method has already been tried on 88 patients, and the majority of them have lost their pain, "Red Star" said. It said some of them have gone back to work and some have even lost their ulcers.

Falconry, a method of hunting small game before the advent of firearms, was revived as a sport and is popular in England today.

Messick Relates Work At College

By WYATT BROWN
The people on the campus at East Carolina Teachers College are friends to the people of Greenville and want it so known that they are ready to work with the city. Dr. John D. Messick, president of E. C. T. C., told the Greenville Rotarians last night. In a series of brief remarks he brought the Rotarians up to date with the situation on the campus.
E. C. T. C. now meets the National Standard of Accreditation; she rates third in standing of faculty among the teachers colleges of the country—97 per cent—It is the only teachers college with a full department of music for both men and women.
Dr. Messick took occasion to say that eight new members were to be added to the faculty next year. With the addition this fall of a kindergarten E. C. T. C. will have everything from the Nursery school through graduate school. He spoke

of how the faculty came from as far away as Nova Scotia. The athletic department will have a member when they add a backfield football coach. In the matter of the support of the athletic program Dr. Messick said he had found some glad to help and said more must be forthcoming since with a predominantly female alumnae E. C. T. C. was handicapped and must depend more on the citizens of Greenville.

As for the building program Dr. Messick said a boys dormitory was in the works with architect's bids due in a few days. He stated that a new boys dormitory was the single greatest need now. Of the 750 men at E. C. T. C. only two hundred live in dormitories. He said he was planning to keep the ratio of boys and girls at ECTC about even. He revealed some of the details of the ROTC program to be started this fall.

The past year Dr. Messick said had shown great diligence and co-operation resulting in as fine a year as he has seen in his thirteen years in educational work. Also in his travels over the state he finds a fine spirit backing ECTC.
Charlie Bissette, chairman of the Rotary Camp Hardee Committee, announced that the Rotarians would

Citizens Of Tomorrow

The Daily Reflector again presents another in the picture series "Citizens of Tomorrow". Reading from left to right, top row: Judy Wilson, daughter of Mr. and Mrs. H. E. Wilson, RFD No. 2; Ruby Earl Brown, daughter of Mr. and Mrs. Earl Brown, Greenville; Faye Pollard, daughter of Mr. and Mrs. J. C. Pollard, Route No. 4. Bottom row: David Wilson, son of Mr. and Mrs. A. L. Wilson, Greenville; David Gordon, son of Mr. and Mrs. D. H. Gordon, Greenville; Jay Lynn Joyner, son of Mr. and Mrs. J. A. Joyner, Jr., Greenville.

go down to Camp Hardee to do their annual clean-up Wednesday the 16. A large number indicated Chairman Bissette remarked on the fine contribution of W. A. (Bill) Darden in getting lights installed at Camp Hardee. Their intention of going to help the girl scouts clean up.

Guests of the Club were Badger Johnson, Charles Horne, Jr., Clayton Walker of Oxford, Alabama. Two visiting Rotarians from Ayden were also present, J. Brantley Speight and Wilbur Ormond. Bob Bradshaw, club president, presided.

POLES HUNT AMBER
Szczecin, Poland—(AP)—Polish seafaring men report the Western Pomeranian sea coast "abounds with amber." Plastic artists have decided to establish Poland's first factory for amber articles.

The early Greeks had a custom in which merchants threw down a glove before customers as a symbol of their honesty in trading.

Is Germany . . .

(Continued from Page One)
The conference also noted that Germany needs a responsible German government. Without such a government, no democratic processes can come into being nor can the full effect of the Marshall Plan be realized.

So, American, British and French delegates have advanced a plan to unify western Germany, establish a supervised German government, and start the economic engines again.

But more important, there must be a foundation for this in a new status for the German people. The Germans must be induced to work willingly and with a purpose, which they would never do so long as the status of a conquered people, much less the policeman—and-criminal pattern, remains.

Three years after VE Day, the Germans are coming back into the family of nations.

They should be very grateful to the Russians. It is Russian obstructionism and intractability that made this step necessary for the western powers.

Colored News

The time is here again for canning. Are you ready for this task? Maybe you would like to have some assistance with your problem of providing adequate food, for a minimum cost, for your family the year 'round. Pack up your canning troubles and head for the Canning Clinic at Epps High School in the Home Economics Department Tuesday, June 8, at 7:30 p.m.

The clinic will meet twice weekly for the next two weeks. If necessary, there is a possibility of the clinic being held in the afternoon as well as in the night. Arrangements will be made to meet the convenience of the persons desiring to attend.

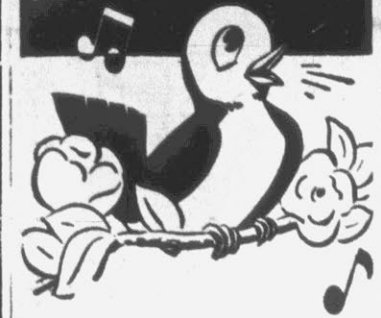

There will be no charges for this service. Miss E. C. Staplefoote will be in charge of the clinic.
Come and bring someone else with you.

There will be a variety program at the Fleming Street school tonight, sponsored by the Rosebud Ushers of Sycamore Hill Baptist Church. Please come out and enjoy this program of speech, dance and song. The time will be 8:15.

Funeral services for Mr. Arthur Lee White, son of the late Mr. and Mrs. Henry White, will be conducted by the Rev. Sam Hemby at St. John Church in Falkland Wednesday at 2 p.m.

He is survived by his wife, Mrs. Doris Langley White, three children, Dorothy Jean, Mary Jane, James Arthur, seven sisters, six brothers and a host of relatives and friends.

Strength FOR THE DAY

PREACHING

People may tire of preaching but Jesus Christ made preaching the central thing in his gospel, and he intends that it shall play a major role in the life of believers.

There are millions of people in this enlightened country of ours who are quite content with a life that is lived very well without availing themselves at any time of God's divine ministry of preaching. Sometimes they stay away from church because they feel that the preaching is poorly done. More often it is because they have allowed some other interest to crowd church-going out of their schedule. But the most superficial reading of the Bible clearly indicates that God expects preaching to go on continually and expects men and women to listen to that preaching and profit by it.

There is no one so good or so intellectual that he can afford to neglect a ministry upon which Jesus himself laid such emphasis. If he believes he can neglect it with impunity, he is deceiving himself.

WASHINGTON LETTER

By JANE EADS

Washington—The largest single collection of fingerprints in the world is on file in the Identification Division of the FBI here.

More than 100,000,000 fingerprint impressions of approximately 72,000,000 persons are filed there. (There are duplications because some persons have been fingerprinted by different agencies at different times.)

The cards are divided into two major groups: 1. Criminal, representing about 7,500,000 persons who have been fingerprinted in connection with arrests. 2. Non-criminal, representing some 65,000,000 persons who have been fingerprinted as members of the Armed Forces, or as filed for private citizens upon their request.

"These figures," says the FBI "point up the fact that the use of fingerprints has outgrown the sole purpose of identifying criminals. The vast majority of fingerprints on file with the FBI are non-criminal, and they perform the important function of providing positive identification of disaster and amnesia victims or others who might otherwise remain unidentified."

Here are some stories which illustrate the use of fingerprints filed with the FBI.

In August 1944 a mother living in the state of Washington wrote the FBI that she had been separated from her son for 20 years. She had had no word regarding him since he was four. She had no idea whether he was living or dead. She did, however, have a set of his fingerprints, taken when he was three years old. These were searched through FBI files and identified with those of a young man who enlisted in the U. S. Navy at Des Moines, Ia., in 1941. The mother was advised and was able to locate her son.

During the war fingerprints performed an invaluable service in identifying bodies recovered under conditions making them unidentifiable by any other means. A case is that of an American soldier killed near the village of Somerpry, France, when a weapon carrier crashed. His unidentified body was buried in a grave marked unknown, but before burial the soldiers' fingerprints were taken. When they reached Washington they were identified by the FBI with those taken at the time of the boy's induction.

A widely publicized case involving crime was that of the "Black Dahlia" murder in Los Angeles last fall. The Los Angeles police had no way of identifying the mutilated body in the Sariton murder case. The victim was fingerprinted, however, and photographs of the impressions were transmitted by wire to Washington.

Fifty-six minutes after they were received by the FBI an identification was established with fingerprint cards already on file for the victim. These cards contained a full description of the murdered girl, together with a photograph and information as to her address and occupation.

In an interview with FBI officials about fingerprints I found many more things of interest to the general public. In another column I will tell you how fingerprinting was first used and a little of its history of its progress.

It is correct to wear gloves while eating and drinking at very formal times.

You Have To Draw Him Pictures

REG-MANNING

Boyle's Column

By HAL BOYLE

New York —(AP)— Money whippersnappers love's sweet nothings today. Cupid has gone on the Stock Exchange. Matrimony is wearing a price tag.

Across the country grass widows and spinsters are springing up like dandelions to announce their willingness to race to the altar with the right man. But he doesn't have to be tall, dark and handsome. The first qualification of their atom age Romeo is a five-figure bank account.

This new pattern in Leap Year courtships was set by a sprightly suburban blonde with one divorce and two children. She's had scores of offers since she began looking for a husband with \$10,000. A brunette in Seattle went her one better by advertising for a husband with \$10,000—plus a home.

And now the field is flooded with unwed damsels who've put themselves on the matrimonial mart for a price charming with a charming credit rating.

But the old iron law of supply and demand has set in. Some girls have cut the asking price to \$5,000 and a wedding ring, and the under-the-counter figure is probably lower than that in many cases.

I hope all the girls get the man of their financial dreams. But if most of the lassies in America start refusing to dedicate their lives to a coquette except on a cash-and-carry basis, they are bound to lose. The going rate for those endearing young charms will quickly drop to bargain basement levels.

It's a matter of cold, sad statistics. It boils down to these facts: women control most of the nation's wealth; more women than men want to marry; but the male is vanishing. He can't stand the pace.

The 1940 census showed that in the marrying ages—15 to 39—there were only 27,139,179 males to 27,666,582 females. That left Cupid with a surplus of 427,405 women mat-

Around Capitol Square

By LYNN NISBET

GROWING—Growth of the school lunch idea has been almost phenomenal in North Carolina during the past four years, as witnessed by a composite analysis report lunch room section of the state department of public instruction. For the school year 1943-44 there were 549 schools approved for lunch room operation in which were served 10,967,459 lunches. For the 1946-47 term there were 1,224 schools approved and they served 38,037,256 lunches. Figures for the current year have not been completed, but estimates believed to be accurate show 1,287 schools with 43,895,000 lunches served. That represents approximate increase of 217 per cent in number of approved schools and over 300 percent in total number of lunches in five years.

RACIAL—Greater increase is noted among Negro schools than among whites. The number of white schools approved for participation went up from 479 in 1943-44 to 1,065 this year. During the same period the number of Negro schools jumped from 70 to 222. Not directly related to the lunch program, but of interest in connection with Negro progress in North Carolina are further facts about average daily attendance, consolidation and teacher salaries. For the school year 1946-47 average daily attendance in 3207 schools was 722,154. Of that total there were 513,214 in 1584 white schools, and 208,940 in 1623 Negro schools. The fewer pupils in more schools means that the consolidation program has not advanced as far among Negro schools. A recent analysis of teacher salaries shows that the average Negro teacher drew a higher salary than the average white teacher last year. Explanation offered is that because teaching offers one of the best opportunities for education Negroes and one of the poorest for white people from monetary viewpoint, Negroes with higher scholastic and experience ratings are holding to teaching jobs, while many whites look to other fields for larger pay.

LUNCHES—Breakdown of comparative figures on different types of total lunches served shows definite trend toward more balanced diet. There are five types of lunches provided—A, B, C, SWOM and BWOM. Type A is a balanced hot lunch with milk. B is a cold lunch served at points which do not have facilities for hot lunches. C is only milk to supplement box lunches brought from home; and the AWOM and BWOM are the A and B menus without milk. The positive trend toward better facilities and emphasis on well rounded hot lunches is found in comparing 1943 and 1946 figures on total lunches served. Type A, the full hot lunch, went up from six million to thirty-one million; Type AWOM went up from three million to five; while type B declined from 154,714 to 23,574, and Type BWOM dropped from 221,70 to 80,529. In other words, while demand for hot lunches increased nearly five times, demand for cold lunches dropped by nearly the same proportion.

MONEY—Another significant factor is the increasing responsibility falling upon local communities. While federal and state appropriations have increased in dollars, the proportion of the overall load carried by these agencies is less. The figures show that four years ago federal reimbursements amounted to about half the total cost of providing school lunches, last year it was only about 36 per cent of the total. Meantime, receipts from sale of lunches moved up from about half to nearly two-thirds of the total. Meantime, the lunches served free of charge dropped in actual numbers and declined in percentage place from nine to six. From any viewpoint, the school lunch program is big business, moving up from four and a half million dollars in 1944-45 to nearly nine million two years later and an estimated ten millions this year.

The milling of coins did not become a regular practice in England until 1662.

Textiles Shown At Exposition

New York, June 7 —(AP)— The second annual international textile industries exposition opened here today in the Grand Central Palace. The sponsor, the Textile Distributors Institute, hopes as many as 75,000 persons in the trade from every section of the United States, Canada and South America will attend. Some 200 exhibits of textiles, trimmings and factory equipment are on view.

Louis DuPree In Expedition With Harvard Group

By CHESTER WALSH

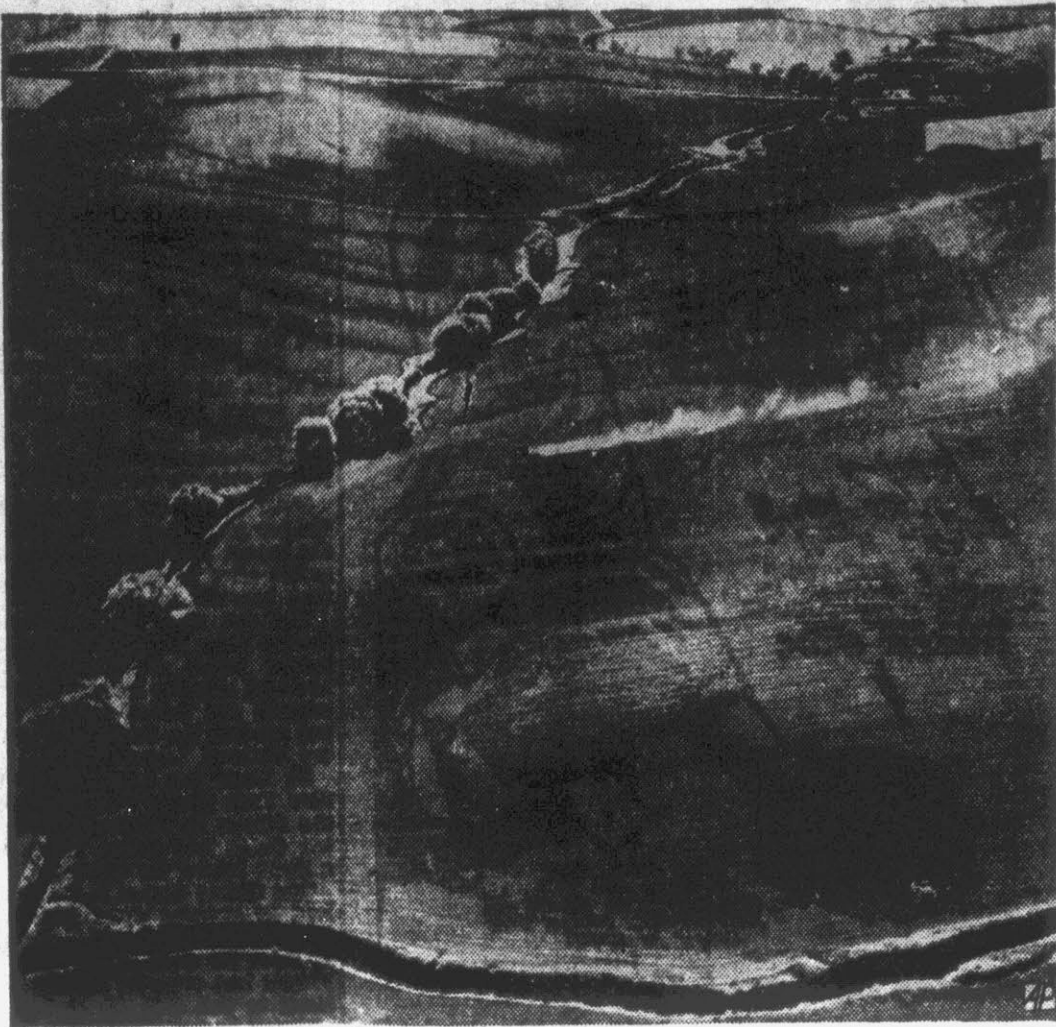

Louis B. DuPree, son of Mr. and Mrs. C. L. DuPree, 906 West Fourth Street, Greenville, a junior at Harvard University who is specializing in anthropology, has gone with an expedition to France. The group is headed by Kirke M. Bryan, professor of physiography and Hallam L. Movius, curator of archaeology at Harvard.

Purpose of the trip will be to explore the Ain River region for stone age relics and to place these people by "glacial chronology." The expedition left New York about a week ago.

DuPree graduated from Greenville High School in 1943 and then entered the Army. He participated in the occupation of Japan, receiving his honorable discharge as a second lieutenant. He had attended the Merchant Marine Academy in New York, and had considerable experience in the Merchant Marine service before entering Harvard University.

A Harvard publication had the following story about the expedition and the Greenville youth:

"Man's first efforts to correlate relics along France's Ain River with a specific period in world history will take place this summer when Kirke M. Bryan, professor of Physiography, and Hallam L. Movius, curator of Archaeology, lead an expedition to place these Stone Age

CORN PLANTING TIME — Two farmers take advantage of ideal corn planting weather to sow their seeds in field at Climbing Hill, near Sioux City, Ia. One operates tractor (center) which kicks up dust cloud. Other (right foreground) uses horse.

people by "glacial chronology." By this method, especially suitable for the Ain locality, debris and deposits left in the wake of receding

FOREIGN MINISTER — Moshe Shertok (above), is the foreign minister of the newly created state of Israel.

ice sheets will be used as rough indices to periods of time. Glacial deposits in the area and previously found traces of early man indicate that the spot was a choice gathering-place for prehistoric tribes.

"By combining their talents, the University pair hopes to determine when these settlers actually flourished, and to deduce when important migrations from Europe took place.

"Although French archaeologists have recently dug up considerable quantities of stone tools and weapons, the Bryan-Movius expedition will mark the first time that a geologist and an archaeologist have teamed up in this region in an effort to relate prehistoric remains of a western European race to a definite period in the history of the world.

"The team will be augmented by S. Sheldon Judson, teaching fellow in Geography, Louis B. DuPree '50 and Carleton L. Pierpont '51 Bryan brings to the expedition an intimate knowledge of ice packs, while Movius is familiar with the relics left by past civilizations.

"Also aiding the search will be two great ice sheets known to have covered the area approximately 100,000 years ago and 25,000 years ago. Some time in between, this site—La Colombe—was the home of an unidentified people. However, the scientists claim to be not so concerned with what these people looked like as when they lived.

"The University's only other similar expedition is being conducted on Yap Island in the Pacific to aid the Navy in ruling the natives."

Nevada Divorces Take Back Seat

Washington, June 7—(AP)—The Supreme Court ruled 7-2 today that Nevada divorces do not permit two ex-husbands to stop making alimony payments previously ordered by New York courts under separa-

Germans Bitter In Soviet Jokes

Frankfurt—(AP)—The Germans used to joke about Hitler's love life. Now it's the Russians who are the butt of the German story-tellers. Here's a sampling:

A Russian started a discussion with his German audience after a lecture in the 'House of Soviet Culture.' Questions were raised about food rations. He turned them down indignantly, saying 'I don't know why the Germans always talk about eating. In the Soviet Union, people always talk about culture.' Said a voice from the audience: 'Well, people usually talk about things they don't have.'

The dismantling of railroad tracks in the Russian-occupied eastern zone of Germany has produced dozens of jokes. One goes:

Marshall Vassily Sokolovsky, the

Russian military governor, and Gen. Lucius D. Clay, his American counterpart, argued about transportation in their respective zones, the joke said. "In my zone, trains move at peacetime speed again," said Clay. "That's nothing," Sokolovsky retorted in the story. "In my zone, they go so fast you can't even see the second track."

Here's a bit of skepticism about Russian politics in Germany: "What's the difference between the (Communist-sponsored) Socialist Unity party and a lumber-laden truck?"—"The lumber truck has the red flag at its tail and moves forward but the socialist unity party has the red flag in front and moves backward."

Gets His Degree At Boston Univ.

Boston, Mass., June 8—At Boston University's 75th annual commencement held yesterday (Monday), a class of 2200 men and women, largest in Boston University's

109 years of educational service, received their degrees from the hand of the president, Daniel L. March. Among those graduating was Hugh Morris Jenkins, B.S., of 11 Greene Street, Greenville, candidate for the degree Master of Education, at the School of Education.

Accordion Imitates Other Instruments

Moscow—(AP)—"Trud" reports

that an experimental workshop of the Soviet Arts Committee has produced a new type of accordion which will reproduce the sound of many musical instruments. Called the "timbre accordion", a recent demonstration showed the instrument reproducing the music of the french horn, the clarinet and the bassoon. The accordion is one of the most popular instruments in Russia.

No species of birds or fowls now existing have teeth.

Greenies Stop Kinston By 8-4 Score To Even Series

Eagles Get 15 Scattered Hits Off Arroyo; Nessing And Nash Hit Homers; Sposas Leads At Bat With Three Singles In Five Trips

By BET MOYE

Manager Bill Phebus' Greenies got back in the win column last night as they defeated the Kinston Eagles, 8-4, to even the two game series. Louis Arroyo did the hurting for the Greenies and scattered 15 hits and struck out 12 men as he won his fifth game of the season. He has seven losses.

The Greenies scored in the first inning when Lastris walked and advanced to third on two infield outs and came home on Wiley Nash's single.

Two more were added in the third when Sposas singled, Cohen reached first on an error, Nash forced Cohen at second, Riggs walked to load the bases and Nessing hit to shortstop Tepedino who threw ball wild to first with Sposas and Nash coming home.

The Greenies put across their winning runs in the fifth frame when Cohen reached first on error, Riggs got on on a fielder's choice and Joe Gossing homered over the left field wall to bring home Cohen and Riggs.

Wiley Nash homered over the left field wall in the ninth to account for one of the Greenies runs made in that frame and Larry Riggs scored after he had singled, advanced to third on an error and Delaville hit to centerfielder Fabianich who dropped the ball on an easy out.

Jim Taylor started on the mound for the Eagles and was relieved at the start of the ninth inning after giving up eight hits and six runs. Gossing pitched the final frame and gave up three hits and two runs.

Joe Sposas with three singles in five trips to the plate, led the 11-hit attack off the two Kinston hurlers. Wiley Nash in addition to his homer got a single and Joe Nessing also got a single and a homer, and Larry Riggs got two singles to lead the Greenies at bat.

Frank Fabianich, with a triple and three singles, Joe Turk with a homer, double, and a single and "Poppy" Williams with a double and two singles led the 15 hit attack off Arroyo.

BOYS LEAGUE

Training School's Orioles turned back the strong Giants from Third Street Monday morning in the inaugural game of the summer season by the score of 4 to 2. Doug Morgan held the hard hitting Giants to four safeties and had a shutout until the last inning when Milton Foley caught one of his fast ones for a homer with Bob Watson on base to score the Giants only runs. Eddie Farley got two singles in four trips to lead the winners at bat.

The Third Street Dodgers lost a tip and tuck game with the Red Sox from the East End Monday afternoon on the Dodgers' home field by the score of 12 to 8. The Red Sox scored twice in the first inning to go ahead only to have the Dodgers to score four runs in the next two innings to take the lead. In the fourth, the winners rallied for five runs and continued to add to this lead. The Dodgers put on a strong rally in the final inning and scored twice and had the bases loaded when the final out was made.

Bowen got two of the five hits the losers managed to get off the flinging of Hudson, the winning pitcher. Lee Folger, with a triple and two singles and Billy Nunn with a homer and single were the leaders for the winners. Billy Johnson and Oakley also got two hits each for the winners. Moore in right field for the Dodgers was the fielding star of the game.

Joe Clark of the East End Greenies shut out the Tigers of Third Street yesterday 14 to 0. His teammates gave him nearly perfect support in the field and rapped out 14 hits off the slants to Billy Jordan. Eugene Ayers with three singles and Big Blad, Billy White, Baby Edwards and Joe Clark with two hits each were the leaders for the Greenies. Fred Joseph got two of the three hits that the losers got off the offering of Clark.

Schedule for Wednesday
Tigers vs. Orioles, Training School, 9:30 a.m.
Dodgers vs. Red Sox, Training School, 9:30 a.m.
Yanks vs. Senators, W. Greenville, 2:30 p.m.

The number of young garter snakes in a single brood ranges from 15 to 20.

Connie Mack Is Not Discouraged By Sudden Slump

Philadelphia, June 8—(AP)—Connie Mack today took a speculative look at his Philadelphia Athletics—winners of only two games in their last nine—and offered this comment: "These conditions are not permanent."

This stand by the 85-year-old president-manager of the Philadelphia American League entry was in contrast to his repeated refusal to give lip service to the fans' exuberance while the A's were leading the league. The Mackmen came back to Philadelphia for a long home stand, starting against the New York Yankees on May 28. The A's won three out of four from the Yankees and as the same time slumped in the recent Cleveland series.

It was suggested that the A's might be tired at this point after setting the league pace for a major portion of the young season. "No, they're not tired," said Mack. "It's simply that we miss Valo and McCosky and our pitching staff at the moment is all shot."

Rightfielder Elmer Valo sustained a rib fracture in a fence-crashing catch at St. Louis two weeks ago and as the same time slumped in the recent Cleveland series. Barney McCosky pulled up with a strained leg muscle.

Three starting pitchers have been having arm trouble, Bill McCahan as a result of a stiff shoulder, Dick Fowler because of buritis and Phil Marchildon because of a cold in his back.

Things are looking up, however, Mack said. "I feel that McCahan right now is ready for work, though naturally we'll try him in relief before starting him. Marchildon always has trouble with his arm in the spring, and I also hope that the warm weather will straighten out Fowler."

Mack expressed satisfaction with the recent deal that brought outfielder Ray Coleman to the A's from the St. Louis Browns in exchange for George Binks and \$20,000 cash. "Coleman made several good plays in the field, and I know he's going to help us," Mack said.

Tommy Holmes Paces National League In Hits

New York, June 8—(AP)—Tommy Holmes, hard-hitting outfielder of the Boston Braves, boasted his biggest margin of the season as he paced all National League batters with a .385 average for 30 games, official averages based on games through last Sunday showed today. Although he dropped nine points during the past week, Holmes actually gained on his nearest pursuers who thumbed down the ladder. Holmes' .385 is 17 points better than the runner-up figure posted by Rookie Outfielder Richie Ashburn of the Philadelphia Phillies. Stan Musial, who trailed Holmes by only one point a week ago, skidded from .393 to a third place .366. Fourth place was occupied by Wally Westlake with .365. The sophomore flycatcher of the Pittsburgh Pirates came out of nowhere to climb within 20 points of the top.

Football Giants Get Columbians

New York, June 8—(AP)—Both regular 1947 ends of the Columbia University Lions were under contract to the New York football Giants today with the signing of Bruce Gehrke. Gehrke, the Giants' No. 3 draft choice, signed yesterday. His teammate, Bill Swicki, signed a Giant contract in January.

Sidelights:—The Eagles had a total of 14 men stranded on bases last night and in two frames had three men stranded when Louis Arroyo bore down and put them out via the strikeout route. Augustine Delaville made his initial appearance for the Greenies last night and collected one hit in three trips to the plate, was walked twice and had only two chances which he handled perfectly. The Greenies played errorless ball—their eighth of the season. Kinston made three double plays, the Greenies made one.

The Greenies journey over to Tarboro tonight to play a twin bill with the Tars and then return home Wednesday night to play another twin bill with the Tars. These games are the result of the Memorial Day games which were washed out. In fact every team in the league plays a twin bill tonight. The Greenies play their second twin bill of the week here on Friday night when they meet the Wilson Tobs.

Can a pinch runner bat in a run? Skeeter Webb, Detroit infielder, received credit for doing so against Cleveland, August 6, 1947. Webb, taking the paths for Freddy Hutchinson, was brought home by a Tiger rally and when the club batted around, Pinch Runner Webb took his turn at plate and lifted a fly ball that scored another run. The final score was Detroit 13, Cleveland 6.

Puerto Rico, which will be affiliated with organized ball for the 1948-49 season in an arrangement similar to that enjoyed by Cuba, had the most exciting campaign in its history during the 1947-48 campaign. Two teams tied at the end of each half of the split season and the final playoff went the limit of seven games before it was won by Caguas. Santurce and Mayaguez tied during the first half and Mayaguez won that playoff, but then tied with Caguas for the second-half title. Under the rules, if the winner of the first half wound up tied with another club in the second half, the other automatic ally became winner of the second half and played off with the first-half champion.

Williams Still Leads American League At Bat

Chicago, June 8—(AP)—Boston's Ted Williams, aiming for his fourth American League batting crown and his second in succession, boosted his lead by 17 points during the week to a hefty 391.

Williams slammed 11 hits in 22 trips to expand his edge over second-place Lou Boudreau of Cleveland by 29 points. The Tribe's manager-shortstop upped his clip by three points to 362.

Other leaders through Sunday's games—Bob Brown, New York, 353; Johnny Lindell, New York, 344; Pat Mullin, Detroit, and Al Zarilla, St. Louis, 336 apiece; Bob Dillinger, St. Louis, and George McQuinn, New York, 325 apiece; Walt Evers, Detroit, 319; and Ken Keltner, Cleveland, 317.

Williams topped the runs scored department with 43 but yielded the runs-batted-in lead to the Yankees' Joe Di Maggio with 47.

Gulf Stream Fishing Off Cartaret Coast 'Especially Good'

Morehead City, N. C., June 8—Gulf Stream fishing on the Cartaret coast was especially good during the past week and the boats in a fleet owned and operated by Capt. Otis Purfoy carried out parties that made outstanding catches of amberjack, Dolphin, cero red snapper, sea bass, false albacore and just about everything ever taken from the blue water off shore here—except sailfish.

Local prognosticators believe the sails will show up about mid-June or shortly thereafter.

Dog Track Schooling Period To Begin In Morehead June 25

Morehead City, June 8—Schooling period at Carolina Racing Association's new \$200,000 dog track here will begin on June 25 and continue (except on Sunday June 27) through June 29, according to Paul Cleland, managing director of the enterprise which will introduce the first legalized pari-mutual betting into any North Carolina community.

During the schooling period, which will be held to not only educate the dogs to the new track but also to snow persons coming to the Cartaret coast how a dog track is operated, minors will be admitted as well as adults. There will be no admission charges and net, pari-mutual betting be permitted.

Durham Boy Leads In Marbles Tournament

Greensboro, June 8—(AP)—A 13-year-old Durham snapper after Bonnie Hunt, was out from today in the annual Southern Marbles tournament. Hunt, the state's champion snooter last year, won 15 out of 18 games yesterday. Finals will be staged tomorrow.

Big Payoffs For Graziano, Zale

Newark, N. J., June 8—(AP)—The "seven millionaires" who are promoting the third Rocky Graziano-Tony Zale fight here tomorrow night won't get rich but Rocky and Tony will do all right.

A little matter of a guarantee posted in New Jersey assures Graziano, the middleweight champ, of at least \$120,000. The ex-champ from Gary, Ind. will get \$60,000 or more.

Neither Graziano nor Zale are close to the Dempsey-Tunney payoffs but they should have a little stacked away for their old age. In the first fight they each took down \$78,892. As defending champ in Chicago last July, Zale was paid \$152,968 and the Rock \$76,484.

These figures add up in a nice neighborhood. For Zale it's \$231,860 for two starts and \$155,376 for Graziano.

Despite early optimistic estimates of a Ruppert Stadium gate of \$450,000, it looks now as though they'll settle for \$350,000. At \$30 tops the house is scaled for a \$540,000 sell-out.

This probably is the last big payoff for Zale, even if he wins the crown. It is not expected that there will be a fourth replay of this slugging series. The only other opponent for a big money fight is Marcel Cerdan, whose prestige was damaged by his recent loss at Brussels to Cyrille Delannoi.

Citation's Cash Prizes Run High

New York, June 8—(AP)—Citation's earnings total \$467,000, and all but \$18,525 was won in a stakes race. The colt started nine times as a two-year-old, won eight and was second once. Three were stakes victories, and in his one defeat he collected \$8,000 for running second to stablemate Bewitch in the Washington Park Futurity.

Lady Luck hasn't been kindly

Sport Slants by Pap

Bouncing Back... by Pap

Tony Lupien is making a determined bid to stick with the White Sox and has been treating the Chicago fans to the fanciest fielding they have witnessed since the days when Joe Kuel was doing his tricks of magic around first base. Lupien earned another chance in the big show by his excellent all-around play with Hollywood Stars last season. He batted .341 in 186 games and led the Pacific Coast League in runs, 147, hits, 237 and total bases, 362. He had 21 home runs, 38 doubles, a dozen triples and batted in 110 runs. It all added up to net him the most valuable player award of the league and encouraged the White Sox to bring him up.

on Lupien since he signed a Red Sox contract after having captained the Harvard baseball team in 1939. He was sent to the club's Scranton farm club and, after repeated trials with Boston, was waived out of the American League. He became the property of the Phillies in 1944 and then went into the Navy where he earned a captain's commission. Tony returned to the Phillies after the war but was sold to Hollywood. He was determined to fight the sale to make a test case under the selective service law which entitled him to have his old job back. He was prevailed upon to join the Hollywood club and it is to his credit that he beat his way back to the majors and a regular berth with the White Sox.

Dyer Is Latest To Regret Trade As Sisler Sizzles

By JOE REICHLER
Associated Press Sports Writer

It never fails—trade away a guy and he comes back to make you rue the day.

Eddie Dyer, manager of the St. Louis Cardinals, is the latest to feel the wrath of a discarded player. Dyer must have had moments of regret last night when Dick Sisler, former Redbird first baseman, cracked two home runs to lead the Philadelphia Phillies to a 5-1 victory over the Cardinals.

Sisler was traded by Dyer to the Phillies just before the opening of the season for infielder Ralph LaPointe after he lost out as regular first baseman to Nippy Jones.

The son of baseball's immortal George Sisler not only whipped his former mates single-handedly by adding a single to his pair of round trippers and driving in four runs, but knocked the Cards right out of the National League lead.

St. Louis' loss together with the New York Giants' 9-5 victory over the Pirates in Pittsburgh, dropped the Cards into second place, half a game behind the Giants.

The Giants climbed back into the lead by clubbing Kirby Higbe and Elmer Singleton for 13 hits, nine of them for extra bases. After the Pirates had overcome deficits three times to pull even 5-5 at the end of seven innings, the Giants finally moved ahead to stay when Bobby Thompson whacked a two-run homer in the eighth.

Jim Russell blasted two home runs and two doubles to lead the Boston Braves to a 9-5 victory over the Cubs in Chicago. Russell drove in five runs and scored three himself. The homers were Nos. 6 and 7 for him.

In the American League, the St. Louis Browns upset the New York Yankees at Yankee Stadium, 5-3, to snap their six-game losing streak. Rookie rightlander Ned Garver went the route for the first time this season, scattering 11 hits. Johnny Lindell and Phil Rizuto hit homers for the Yankees and Paul Lehner slammed one for the Browns. Frank (Spec) Shea was the

Riviera Course Poses Challenge

Los Angeles, June 8—(AP)—Will the 7020-yard Riviera Course stand up against the salvos of the big guns of golf in the U.S. Open, starting Thursday?

The question will go unanswered until the 72-hole classic ends Saturday, but opinions today leaned largely to the thought that pros and amateurs who make par cracking a habit may meet their match this time.

Riviera, par 35-36-71, wooded, trapped, hilly in spots and split by a barranca, or wash, that wanders through its fairways, has undergone preparation expected to make it a supreme test. Its yardage is the longest on which a National Open has been played. The 7005-yard Colonial Course in Fort Worth, Tex., site of the 1940 Open, has held the distinction until now.

Practice rounds thus far have produced a few sub-par scores. They have been the exception, rather than the rule, however, and the players who follow the tournaments around the calendar think that par will put up a rousing battle wnen the regular firing begins.

The defeat dropped the third place White Sox in a night game at Washington. The game was halted by rain with the Senators at bat in the last half of the seventh.

Rain caused the postponement of scheduled games between the Cleveland Indians and Philadelphia Athletics and Detroit and the Boston Red Sox. Brooklyn and Cincinnati were not scheduled.

'BRIDAL TRAIN'—Charles Broad and his bride stand in engine of special "bridal train" which brought the former Doreen Moore from her Kent home to Romney, Eng. church. Later, the couple entrained on the special for reception in Dungeness.

Blind Farmer Is Success In Life
Wilton, N. D.—(AP)—A slightly-built man of 86, Frank Redington, still plays his own compositions on the piano with the vigor of a teenager. North Dakota pioneers and the hardships of homesteading on the prairies are legendary. Few of the stories can top that of Redington. He was a doubly hard task. He was blind. And he had a blind wife. Today he is as cheerful and happy as any man you could meet. He has made a good living and has raised six healthy children. He has a nice farm. He has been a community leader.

Redington lost his sight when he was two years old. He took up music and became an expert. For 20 years he made a good living teaching. But he began to get restless. In 1900, with a couple of brothers his blind wife and a 10-year-old child, he packed up his belongings and headed for Wilton. He settled on one homestead and his brothers on another nearby. He hired a lot of his help and got much from his brothers. But it wasn't always easy to get help in those days. He milked cows, dug rock, fed the hogs and did other chores. A few times he even pitched bundles during threshing time, telling where to throw them by the sounds made by people he was working with. A brother, Harry, says Frank had a keen business mind and nobody could cheat him. He could run his fingers around a hog and tell how much it weighed. He could tell good grain from bad by just running his fingers through it.

Sir William Johnson was rewarded by George of England for his services in the French and Indian War. The reward was a baronetcy, the first and only one granted on American soil, which occupied large areas of what is now northern New York state.

Battle Of Europe
A free motion picture, "True Glory," will be shown at the National Guard Armory tonight at 7:30 under auspices of Battery C, N. C. National Guard. The public is invited.
First Sgt. Sherman Parks said the film, loaned by the Army Recruiting Service, was presented by Gen. Dwight Eisenhower. It is a photographic story of the plan and strategy of the Battle of Europe with combat scenes from all over the European theater of war. It is a history of that great conflict and a valuable document.

Full Schedule In Dewey's Travels
Raleigh, June 8—(AP)—It'll take a quick eye to keep up with Gov. Thomas E. Dewey when he visits North Carolina this week.
A packed schedule for the New York presidential candidate's trip was announced here yesterday by Sam J. Morris, a delegate to the Republican national convention in Philadelphia late this month.
Morris said Dewey is scheduled to arrive here by train early tomorrow night. After spending the night in a hotel here, he will breakfast at 8:30 a.m. Thursday with about 150 GOP leaders.
At 9:30 Dewey will head for Lexington, with brief stops planned at Durham, Burlington, Greensboro and High Point. After a luncheon speech at Lexington, he will move on to Morganton, with halts scheduled at Mocksville, Statesville, Taylorsville and Lenoir. He will have dinner at Morganton — and probably will speak — and then head for Charlotte to take a midnight train to New York.
And, Morris added, some activity may be planned for Dewey here tomorrow night.

A.W.O.L. Sailor Missed Accident
Joplin, Mo., June 8 — (AP) — Thomas R. Fly, 32, Joplin sailor reported as missing in the swamping of a naval launch off Norfolk, Va., a week ago is being held in jail as A.W.O.L. He was arrested Sunday by naval officials and police.
Fly told officers he left his naval station the day before the launch was swamped, coming here by bus to be with his wife, who is ill. He undoubtedly would have been aboard the launch had he been at his station, he told police.
As late as the 1890s, persons who affected long fingernails were thought to use them as a shield against doing any work.

Local Battery To Go To Fort Bragg Sunday, July 11
By CHESTER WALSH
Battery C, 90th Field Artillery, North Carolina National Guard, stationed in Greenville, will go to Fort Bragg on Sunday, July 11 for two weeks' maneuvers. The officers hope to carry about 50 officers and enlisted men.
Battery C was organized in Greenville last October 1. Its membership has steadily increased and enlistments are being received regularly. The battery is 100 per cent individually equipped. Organizational equipment is being added from time to time as the personnel of the battery increases.
Capt. J. B. Tyndall is the commanding officer. Other officers are 1st Lt. Clay A. Burnette, 2nd Lt. Francis L. Joyner of Farmville, and Sherman Parks is first sergeant. The battery drills at the armory Tuesday nights at 7:30.

Pave Final Link In Old Post Road
Morehead City, June 8—The old Beaufort-New Bern Post Road, one of the oldest highways in North Carolina has had its final link paved and thus a new artery of travel for the increasing thousands of resort tourists coming to Carteret Coast is made available. Originally Route 10, but in late years designated as N.C. 101, the final link branches off of U.S. 70 at Cherry Point and continues to the coast via Harlowe and through a prosperous farming area.

As Vibrant Energy Is Released To Every Muscle, Fibre, Cell
Do you get up in the mornings still tired, feel down-and-out all day? Have you checked-up on your blood strength lately? Overwork, undue worry, cold, flu or other illness often wears down the red-blood-cells.
Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.
To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective when it is non-organically strong in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.
Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloating and give off that sour food taste.
Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood purges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh all over hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

Claim Violations Of Potato Pact

Elizabeth City, June 8—(AP)—Reports of shipments of Irish potatoes in violation of the marketing agreement covering the states of North Carolina and Virginia are being reported, according to Harry Westcott, manager of the Southeastern Potato committee with headquarters in Elizabeth City.

Westcott emphasized the desire of the committee to carry out the provisions of the order and to seek full compliance and cooperation of all persons concerned. However, since several complaints of violation have reached the office of the committee, steps have been taken to place compliance men and investigation agents throughout the territory to prevent continuation of the practice, Westcott said.

"Violations defeat the purpose of the potato marketing agreement which was put into effect by a vote of the majority of the growers and shippers of North Carolina and Virginia for the purpose of improving the quality of the potatoes they market in competition with other areas," Westcott said; adding "it is the obligation of the committee to see that the interest of potato growers and shippers is protected by strict enforcement of the marketing agreement and order. The order clearly states that all shipments must be certified by a federal state inspector before shipping."

Boy Trapped 2 Hours Inside Cement Mixer

Burnham, England, June 8—(AP)—Ten-year-old David Neale fell into a concrete mixer, was whirled about for several minutes, trapped for two hours—then hauled out dazed, bruised, naked but otherwise unhurt. He started the machine himself, while playing.

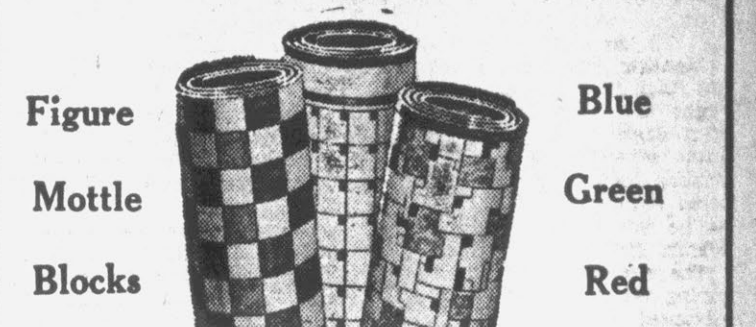

Tired, "All-In"—Listless Feeling Brought To Halt

As Vibrant Energy Is Released To Every Muscle, Fibre, Cell
Do you get up in the mornings still tired, feel down-and-out all day? Have you checked-up on your blood strength lately? Overwork, undue worry, cold, flu or other illness often wears down the red-blood-cells.

HAIFA HARBOR — British closed this port of Haifa, Palestine, to incoming passenger traffic. Ships were seized during earlier attempts to run Jewish refugees into Holy Land. Port is being used as embarkation point for British troops leaving Palestine.

Visiting Nurse

by Kathleen Harris

Chapter 31
"I came as soon as I could," Randy said. He spoke only to Hildred, still held against him, his voice was so low that it was only for her. But of course he was aware of Lucien, standing apart in that beautiful yellow room filled with the soft hush of twilight.

"I know..." Hildred murmured, for she had known that Randy would stand by her in this; she had known she could count on his

friendship, his strength.
"There was something she said to me," Randy continued. "It was a sort of message, I think, Hildy. She asked me to tell you not to forget. She did not say what it was, but I think she knew that you would understand."

Hildred nodded her head; she could not manage even to murmur a reply in answer to that.

"And she told me something else," Randy continued. "That I will tell you later—when we are alone." His eyes, so clear, so direct, met the gaze of Lucien's dark ones over Hildred's bent, bright head.

Lucien spoke for the first time. He came forward to stand beside them. He said, "I want you to know how deeply I feel for you, Hildred. I know how deep your loss, your sorrow is. Always, at such a time, one wishes there was something one could say—or do. This is the one time when there is."

Hildred raised her head now; she would have stepped back, out of Randy's encircling arms, but they held her so that she could not. Her blue eyes looked into Lucien's—she saw the shadow of that dark tragedy in them—but then, almost as quickly she saw it pass away. She said, "Thank you, Lucien. There was nothing more she could

say just then. She wondered what he had meant, but he always talked in such a way that it was difficult to comprehend his full meaning. And she could not think now—she could not even feel. If only the tears would come."

"It is that you are free," Lucien said. And his dark eyes smiled into hers—deeply, intently, as only Lucien's could. "I give you your freedom, my sweet. I know I also give you the happiness that I never could have bought for you—no, not with all the Lanier millions."

"Lucien... you..." Hildred did manage to draw away from Randy now. She saw the look in Lucien's eyes—another look in them—one as clear, as direct, as untold as the look of a man made new, or of a child that had never tasted bitterness. "You don't have to say that—you don't have to give it to me." She meant, as she knew he would know, that she still would marry him. She knew that he would understand, though of course Randy would not, since Randy could not know what they were talking about.

Lucien shook his dark head. "I see too clearly now—not through a glass, darkly."

She thought she did understand now. Lucien meant that he had come to realize that she would never be able to love him. He had realized, too, that there could be no happiness in such a marriage.

Now Lucien looked at Randy, spoke to him. He said, "I will leave you two alone—so that you may tell her what it was her mother said at the last. Tell her well, Doctor Baird. And be sure that you take care of her, always."

With that Lucien turned quickly

and left the room.
Randy drew her back into his arms. "You heard what he said?" Randy's clear eyes were looking deeply into hers once more. They were as clear, as gray, as always, but they held much more than the gentleness, the strength of him. They held the same look she had surprised in them a few, rare times before he had managed to remove it. "It was the same thing your mother told me. That I must take care of you, Hildy. And that I must tell you how much, how very, very much, my dearest darling, I love you."

But Randy could not be saying that! Or at least he could not mean it; he could not have discovered it, at long last.

"I have always loved you," Randy said. His one free hand took hold of her chin, tilting back her fair head so that her blue eyes must meet his. And his love was there for her to see.

"I thought I had lost you," he finished. "Until your mother told me that you love me." Hildred said. She said it bravely, through the tears for her mother that she had wanted to come, bringing release from the awful numbness that had gripped her.

Now she could keep her promise to her mother. She could be constant to herself, her beliefs and ideals—her way of life. They would go on in their work together, she and Randy, as they always had. Even Jimmy would be all right, for she knew that Lucien still would make it possible for Robin and Ellen to keep him. Lucien would be all right, too—she had seen that in the new look of strength in his eyes.

"Then I shan't save it any longer," Randy said, with infinite tenderness. "I am asking you, and for the last time, Hildy, if you will have me? I not only need you, we not only share the same interests, the same purpose in living and serving, but I want you, just because you are you—and no other."

He drew her closer and kissed away the tears that coursed down her cheeks, until his mouth found hers.

And then, since she had had to wait so long for this awakening, Hildred forgot everything else for this one ecstatic moment with Randy's lips against her own, his heart beating beneath hers in their true love that was the strongest of all the cords that bound them together.

Young Boy Is Too Much For Police

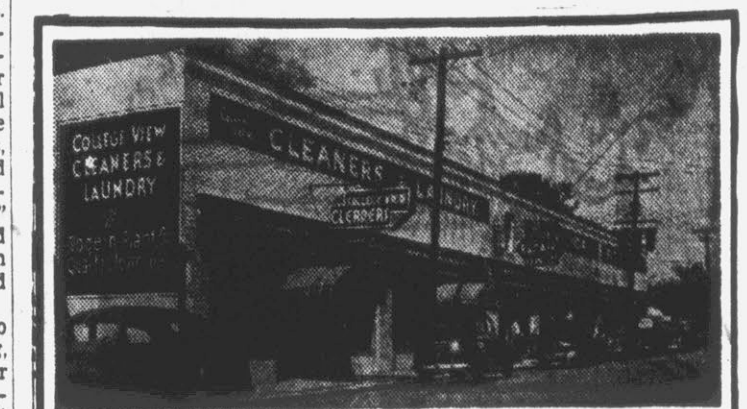

Champaign, Ill.—(AP)—Five year old John Taylor Winslow's release from the police station was a relief to policemen. Johnny showed up one afternoon plodding along in cowboy boots. He was obviously lost but made himself at home at police headquarters.

He emptied all 35 private mail boxes of police officers, broke the hydrometer used to measure the sufficiency of anti-freeze in squad cars, and hung by his heels from the radio wires under the radio desk. One of his exploratory trips, however, took him into a jail cell and he swung the heavy steel door shut behind him. There he stayed until his mother arrived.

Top Figures Of Warehousemen In Meeting Today

Myrtle Beach, S. C., June 8.—(AP)—The Bright Belt Warehouse Association's board of governors met here this morning.

The board meeting topped the morning program as the second day of the fourth annual convention of the association opened.

J. B. Hutson, president of Tobacco Associates, Inc., an organization formed for development of foreign markets for American flue-cured tobacco, was the afternoon's feature speaker.

Also due to appear on the program were L. T. Weeks, of Raleigh, N. C., manager and secretary of the Flue-Cured Tobacco Cooperative Stabilization Corporation; J. Henry Vaughn, Elm City, N. C., Tobacco Associates board chairman; and former U. S. Rep. Frank W. Hancock, Jr., of Oxford, N. C.

Col. Jack Major of Paducah, Ky., will be principal speaker at tonight's banquet, when J. M. Broughton, Association general council and Democratic candidate for U. S. Senator from North Carolina, will introduce the guests.

Yesterday, James E. Thigpen, the new director of the U. S. Agriculture department's tobacco branch, told the delegates from Virginia, the Carolinas, Georgia, and Florida, that market prices for the 1948 crop should top those paid last year. He added that the government support price level itself is expected to be at least 3 1-2 cents above last year's

AMBASSADOR — Henry F. Grady (above), ambassador to India, was named ambassador to Greece by President Truman.

level of 40 cents per pound. Earlier, Association President Fred S. Royster of Henderson, N. C., also said that producers should get satisfactory returns from the 1948 crop. He told the delegates also that the supply-and-demand situation is "not unfavorable for flue-cured tobacco."

B. B. Sugg, president of the State Bank and Trust Company, Greenville, presented the speaker, Col. Jack Major of Paducah, Ky., who spoke on "Taxes, Women and Hogs" at the banquet last night. Greenville and Farmville tobacco warehousemen were well represented at the annual convention of the Bright Belt Warehouse Association.

Advises Avoiding Snap Judgements

Chapel Hill, N. C., June 8.—(AP)—Secretary of State George Marshall told the graduating class at the University of North Carolina to avoid snap judgments in foreign problems.

He advised the students to get at the "true facts" before making judgments of foreign affairs, asserting "we Americans are sometimes inclined to emotional reactions, which can be very dangerous in matters concerned with international relationships."

The secretary of state skirted any specific current issues with the explanation that they "are either in such a delegate state of negotiation or in complete stalemate that it is inadvisable for me to engage in public discussions, except as far as may be necessary to keep the people of this country reasonably advised of the general situation."

Marshall urged the students to keep informed on the United States current role in world affairs and declared it takes more than "mere superficial reading of a single newspaper or listening to your favorite radio broadcaster to get at the true facts."

The University's president, Dr. Frank P. Graham, rapped the Mundt-Nixon Communist control bill in his address to the group last night. Graham said the answer to a difference of opinion is not denunciation; not a concentration camp; not the Mundt-Nixon bill now pending in the Senate.

Wrong Place

Hoboken, N. J., June 8.—(AP)—A brass rail doesn't make a bar, Steve Soss learned yesterday. The lesson cost him \$10.

A startled police sergeant watched the 29-year-old Soss amble into headquarters, plant his foot firmly on the brass rail and order a glass of wine.

The mistake resulted in his arrest on a charge of intoxication. Police Judge Charles De-fazio decreed the \$10 fine.

Scott, Johnson Carry On Drives

Raleigh, N. C., June 8.—(AP)—Kerr Scott continued his second primary campaign today with a swing into the East for organizational work.

Supporters of Charles M. Johnson, who is contending with Scott for the Democratic nomination for governor, meanwhile prepared to fire off the first blast of their second primary campaign. Rivers D. Johnson, veteran legislator of Warsaw, was scheduled to speak in Johnson's behalf over a state-wide radio network tonight. The opposing camps continued to line up supporters of Mayne Albright, who ran third in the first primary on May 29.

The Scott forces announced that

C. H. Abernathy of Nashville, co-manager for Albright in Nash, had joined the Scott organization.

Johnson headquarters, meanwhile, reported that J. Ivey Bridges, who managed Albright's campaign in Northampton, would serve as Johnson's co-manager in Northampton.

While Scott left for a tour of the East which will carry him into Martin, Beaufort and Bertie counties on a fence-building mission, Johnson remained in his state headquarters here also working on organization.

MAKE STREPTOMYCIN

London.—(P)—Britain has begun to develop its own production of streptomycin. Three manufacturers have begun delivery on contracts placed by the government, says Health Minister Aneurin Bevan. At present Britain is mainly dependent on supplies from the United States.

Hungry Germans Still Keep Pets

Munich.—(P)—Germans are hungry. They are crowded into tiny living space. But they will not give up their pets. This was emphasized in a summary of the Munich city regulations which showed that 21,500 inhabitants of the city (population 700,000) have licenses to keep animals in their dwellings. In 1945 there were 6,000 less.

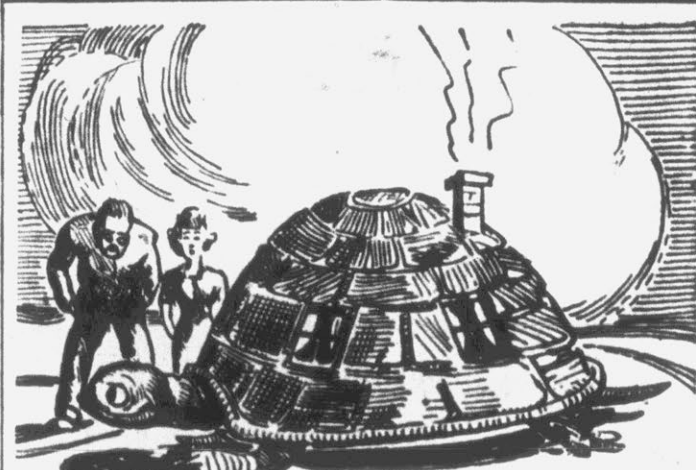

Most popular are fowl, understandable in a country where it is smart to raise chickens to stretch the meager ration. Owners have listed 73,000 chickens, geese and other fowl. There are 31,000 rabbits. One aged woman keeps 15 dogs in her kitchen. In the parlor of a villa is a horse. That's what the records say.

The codfish is so fat and only that when dried it can be used as a candle by putting a wick through it.

WHAT A LUCKY CHAP ... HE OWNS HIS HOUSE

To all appearances he was rather slow. Never seemed to be disturbed over good luck or ill luck ... just kept plodding away.

Never talked much about his worries, or problems ... but of course he must have had them. All of us do.

How did he get that house? Well, he started a savings account ... and plugged away until it had grown into enough to make it safe for a contractor or builder to do a job for him.

Yes ... we helped. It is always a pleasure to make a home loan. That is just as much a part of our business as handling savings accounts. We need both.

We rent money from people. We rent it to others who are safe investments.

We bet you are the kind of person we'd like to do business with ... or you would not have read this. How about coming in ... we're friendly.

His Dollars Get Action Where Action Is Needed

Memphis, Tenn.—(AP)—Joe Eakin likes to see his dollar produce more dollars for projects he feels are worthy. The 75-year-old retired farmer got a library-on-wheels moving in Fort Smith, Ark., that way. Somewhere in the planning stage the project bogged down. Eakin said he'd give a dollar-a-week until the bookmobile was on the road. It took 28 weeks, but they made it.

He's giving a dollar a month to the Gold Star fathers' organization, waiting for enough others to join him to make it a \$10,000-a-month fund for children of veterans killed in service. Another of Eakin's producing dollars goes monthly to a hospital project in West Memphis, Ark.—and will until "the first patient is actually there." Other dollars go monthly to the publicity fund of a Farmers' Union and to an inter-denominational church mission in Memphis. A dollar can do a lot of good, Eakin figures, if it attracts others.

Four Pitt County Students Graduate At Duke University

Four Pitt county students graduated and received their degrees at Duke University yesterday. They are Miss Peggy Rose Smith, daughter of Mr. and Mrs. Milo Smith; Miss Mary Anne Duncan, daughter of Mr. and Mrs. Herman H. Duncan; Miss Suzanne Kilgo, daughter of Mr. and Mrs. J. L. Kilgo, and Joseph K. Register, son of Mr. and Mrs. William O. Register, all of Greenville, bachelor of arts, and Miss Mamie Barnhill McLawhorn of Winterville, bachelor of science.

Owen J. Roberts, former justice of the United States Supreme Court, delivered the commencement address. Governor R. Gregg Cherry, a Duke alumnus and member of the board of trustees, delivered a special message.

The commencement program this year featured reunions of 14 classes, with special emphasis placed on reunions of the 10th, 25th and 50th years classes.

As the big smiles show, the pleasure is mutual! Kerr Scott welcomes John Barnes, Jr., who was Mayne Albright's campaign deputy, to his State Headquarters as Assistant Manager after Albright released his staff to campaign and vote as they thought best. World War II veteran John Barnes immediately joined Kerr Scott's staff and invited all Albright supporters to "carry on the fight for progressive government with Kerr Scott." Candidate Scott himself said: "We are happy to have the assistance of John Barnes in our campaign for a Go-Forward Government in North Carolina. I admired his fine work for Mayne Albright, and we welcome both him and the thousands of loyal Albright supporters to our continuance of the battle for a State government that will keep pace with the progress of the people."

NOW! ON TO VICTORY!

Kerr Scott, Private Field Artillery World War I, Has the Most Progressive Program for Government

Scott's Go-Forward Program

TAXES—Repeal sales tax on ALL food. Remove discriminatory taxes on farm machinery.

BOND ISSUES—None, unless absolutely necessary after huge surplus now in banks without interest is used.

ROADS—Repeal "mud tax" on farm-to-market, home-to-school, home-to-church roads.

SCHOOLS—Save them by paying teachers living salaries, reducing pupil load, and aiding construction of new school buildings.

HEALTH—Carry out State Good Health Program.

WELFARE—Better provisions for aged and indigent.

BUSINESS—Fair taxes and equal opportunity.

LABOR—A square deal.

VETERANS—State service program second to none.

MUNICIPALITIES—Financial relief by returning State revenue from license taxes, helping maintain streets and rebating gas tax on city operated vehicles.

AGRICULTURE—Improve rural roads. Increase rural electrification and telephones. Extend farm education. Improve marketing and diversification.

GOVERNMENT—Repeal Gag Rule. Insure majority rule on liquor and all other issues.

NATURAL RESOURCES—Develop for maximum benefit for ALL THE PEOPLE. Insure the best wildlife administration.

Pair Fined Over Slot Machines

By CHESTER WALSH

In Pitt County Recorder's Court today, Judge Dink James found Carlton Heath guilty of possessing four slot machines (one-arm bandits, as they are described) for the purpose of gambling. The court fined Heath \$200 and costs and ordered the sheriff to destroy the slot machines. It was testified that the officers found the machines in a building in the Seven Pines section, between Bruce and Farmville.

John D. McLawhorn, colored, was given 30 days on the roads for possessing a slot machine in his home at a rural point near the city. Road sentence was suspended on payment of \$50 and costs, and the sheriff was ordered to destroy the machine.

Jesse Hardy, colored, charged with driving drunk, was given four months on the roads, suspended on payment of \$100 and costs. His license was ordered revoked for one year. Bill Newton was not guilty of driving while drunk.

Woodrow Haddock, two charges of having tax-paid whiskey in his possession for the purpose of sale, asked for a jury trial and his request was granted.

Haywood Evans, colored, charged with non-support of an illegitimate child, was given six months on the roads. Sentence was suspended on condition that he pay \$20 to a midwife and pay \$10 into the County Welfare Office each month for the child, the first payment to be made now.

W. O. Flynn, disposing of mortgaged property, was given 30 days, suspended on payment of court costs and \$19.75 to prosecuting witness by July 1, and \$75 by October 1.

The case charging Johnnie Jennings with disposing of mortgaged property was continued.

Abandonment and non-support: Walter B. Kinion paid up after a \$100 fine was served on him. He was ordered to pay court costs. Isaiah Grimes, colored, abandonment and non-support, was given six months on the roads of violating his probation.

William Hawkins, colored, charged with larceny, was given three months on the roads, sentence suspended during good behavior for 12 months.

BPW Club Installs Officers Thursday

The Business and Professional Women's Club will meet Thursday night at 7 o'clock at the Airport Inn for a supper meeting and installation of officers.

New officers for the year are: Mrs. Ruth W. Meeks, president; Mrs. Clara Gower, vice-president; Miss Alya Ray Taylor, treasurer; Miss Frances Tucker, recording secretary; and Mrs. Susie W. Webb, corresponding secretary. Retiring officers are Mrs. J. B. Spilman, president; Mrs. Cora S. Powell, vice-president; Mrs. Ruel W. Tyson, recording secretary; Miss Annie L. Askew, corresponding secretary; and Mrs. Margaret Williams, treasurer.

Mrs. Susie Ragsdale, first president of the local club, will be the installing officer.

Reservations may be made through Wednesday noon and those who have not yet made reservations should call Miss Novella Exum at 2727. Transportation will be provided those desiring it if they will notify Miss Exum to that effect.

The club now has 104 members. A full attendance is desired.

Clark Street Church To Hold Revival; Will Begin On June 13

Rev. A. B. Malone, pastor of the Church of God in Christ, Clark Street, Greenville, announced today a eight-day revival would be held here starting at noon, Sunday 13.

Three missionary evangelists from Virginia will speak and conduct services at eight o'clock each evening during the week; they are W. M. Whitaker from Suffolk, Mary Crawford from Richmond, and Laura Malone from Petersburg. Others, to be announced later, will also assist.

The Rev. Malone invites the public to attend.

Police Court

By CHESTER WALSH

In Police Court Monday, Judge J.W.H. Roberts found Leroy Cherry guilty of two charges of assault and fined him \$15 in one case and \$25 in the other. The court found Walter Cherry not guilty of disorderly conduct. Wade Saleeby and F. J. Saleeby were not guilty of disorderly conduct. The alterations occurred about two weeks ago. Trial of the cases consumed the better portion of Monday's forenoon session of court.

Jimmie C. Stocks was fined \$15 for making a left turn in traffic.

Daniel C. Odum, insufficient brakes, \$15.

Horace A. Davis, driving drunk \$100 fine and costs and his driver's license was ordered revoked. Wood-

Award Scouts At Court Of Honor

Paul Conway was awarded the rank of Eagle Scout at a Court of Honor held by the Greenville District of the Boy Scouts of America last week. The presentation was made by Reverend Robert W. Bradshaw, chairman of the Court of Honor. Paul is the only Boy Scout to achieve Eagle Scout rank this year. His mother, Mrs. E. R. Conway, pinned his badge on his blouse.

Rev. Bradshaw told the Court of Honor how highly prized Eagle rank is among Scouts and by citizens.

Also winning awards at the recent Court of Honor were the following: Second Class: Carter White, Donald Tucker, Clifton Earl Boyd (Troop 30); Harvey Bradshaw (Troop 33); Tom Smoot, Jimmy Chatham, Sam Winchester, Jesse Moye, Jimmy White, Guy V. Smith, Jr., Cabel Powell (Troop 36).

First Class: Jake Higgs, Bob Nichols, Billy Wooten (Troop 30).

Merit Badges: Jake Higgs (Troop 30); Paul Conway, Tommy Lupton (Troop 33); Floyd Hendrix (Troop 36).

Life Scout: Paul Conway (Troop 33).

These awards were presented by John G. Fleming, chairman of Greenville District, Bill Drumm, Scoutmaster of Troop 30, and Wyatt Brown, chairman of the Advancement Committee.

Grain Market

Chicago, June 8—(AP)—At the close wheat was unchanged to 1/4 lower than yesterday's finish, July \$2.29-29 1/4. Corn was 1/4 higher to 1 1/4 lower July \$2.16-16 1/4. Oats were 1/4 to 1/2 higher, July 83-84 and soybeans were 1/4 to 1/2 higher, July \$4.22.

N.Y. Stock Market

New York, June 8—(AP)—Gains of fractions to more than two points piled up in the stock market today. Volume expanded as the price level rose, with turnover for the full session approaching 1,300,000 shares. Among the new highs were Youngstown Sheet, Celanese Corp., Wesson Oil and Snowdrift, Westinghouse and Richfield Oil.

Others market up included U.S. Steel, Republic Steel, Standard Oil (N.J.), Union Pacific, Mission Corp., General Motors, Chrysler, American Smelting, J. I. Case, American Woolen, and Western Union.

Forrestal Talks At West Point

West Point, N. Y., June 8—(AP)—Defense Secretary James Forrestal told the U. S. Military Academy's 1943 graduates today the need for maintaining America's military might was "never more manifest."

Addressing the graduating class of 301 in colorful ceremonies in the academy field house, Forrestal declared:

"Much as we hope to avoid war, we should not ignore the fact that if we are prepared for it, it is less likely to occur. x x x"
