

Considerable cloudiness, warm and humid with widely scattered showers through Thursday.

Grim Inspectors Probe Cause Of Coal Mine Blast

Second Serious Explosion In 8 Months At Pitt; 13 Miners Are Killed

Princeton, Ind., July 28—(AP)—Grim inspectors probed the depths of King's coal mine today seeking to learn the cause of an explosion which killed 13 miners yesterday afternoon.

It was the second serious explosion in eight months at King's. The previous blast, last November, caused 10 deaths but was followed by extensive fires which closed the mine for more than two months.

The mine had been closed again last week because of water seepage. It had been inspected Sunday by state mine inspectors and had been reopened only yesterday.

Two men were injured critically in yesterday's blast, and a rescue worker also was in a hospital after being overcome by gas. Condition of the rescue worker, George (Red) Cornelius, was not serious. Two other miners were given first aid for slight injuries.

The dead and injured were members of a single loading unit which was on the lowest level of Indiana's deepest shaft mine, 435 feet underground, and three miles east of the tipple.

Coroner C. C. Cooper said all the bodies were badly mutilated and burned. All were brought out within three hours after the explosion.

Workers from other parts of the mine and from nearby shafts moved quickly to the rescue. The U. S. Bureau of Mines office at Vincennes sent a rescue crew. Ambulances from Evansville were sent to help Princeton ambulance crews move the bodies.

The National Guard army here was converted into a morgue to receive the bodies, which later were taken to funeral homes here and in neighboring towns.

There were 115 men in the mine at the time but other crews were not endangered. The blast caused only a small fire which was soon put out. King's employs 525 men on three shifts.

A silent crowd of 250 persons gathered around the tipple as rescue workers brought out the bodies. Another crowd gathered in front of the tipple as the bodies were taken to the morgue. Bureaus of the National Guard and the National Guard army here were posted in the window.

Vaults Not Very Big For Atomic Bomb Materials

New York—(AP)—The stuff that makes atomic bombs is, or was, kept in not-very-large vaults writes Daniel Lang in a new book, "Early Tails of the Atomic Age." One such vault was seen in 1946 by Herbert S. Marks, Washington attorney while on a trip to Los Alamos, New Mexico.

"Many people," Lang writes, "would regard as the most important spot in the world a vault used to store the stuff out of which the bomb is made. It is, Marks told me, one of the most carefully guarded and least frequented vaults ever built."

The book also has a section on the search for suitable caves for wartime industry. Another section deals with rocket tests in New Mexico. Many of the Atomic Energy Commission's big problems and human sleights are told at length.

Believes Preaching Is 'Unsatisfactory'

London, July 28—(AP)—The one-time gospel dean of St. Paul's Dr. W. R. Inge, said today he is convinced after a lifetime in the pulpit that preaching is an unsatisfactory business.

"It is like throwing a bucketful of water over a row of narrow-necked vessels," he said. "A drop or two may find its way in here and there."

Anti-Inflation Plan

President Truman's Eight Major Points For Combatting Inflation; Big Part Of Political Arguments Between Now And November Will Revolve Around Them

By JAMES MARLOW

Washington, July 28—(AP)—You may have heard of the eight points President Truman recommended to Congress to stop inflation? They cover a wide field. They're better known to businessmen than to the public; Banking, Credit Buying, Taxes, and so on.

Mr. Truman says there's an "urgent" need for Congress to carry out his eight-point anti-inflation recommendation.

The Republican leaders in Congress seem to take a different view. They say Mr. Truman is playing politics.

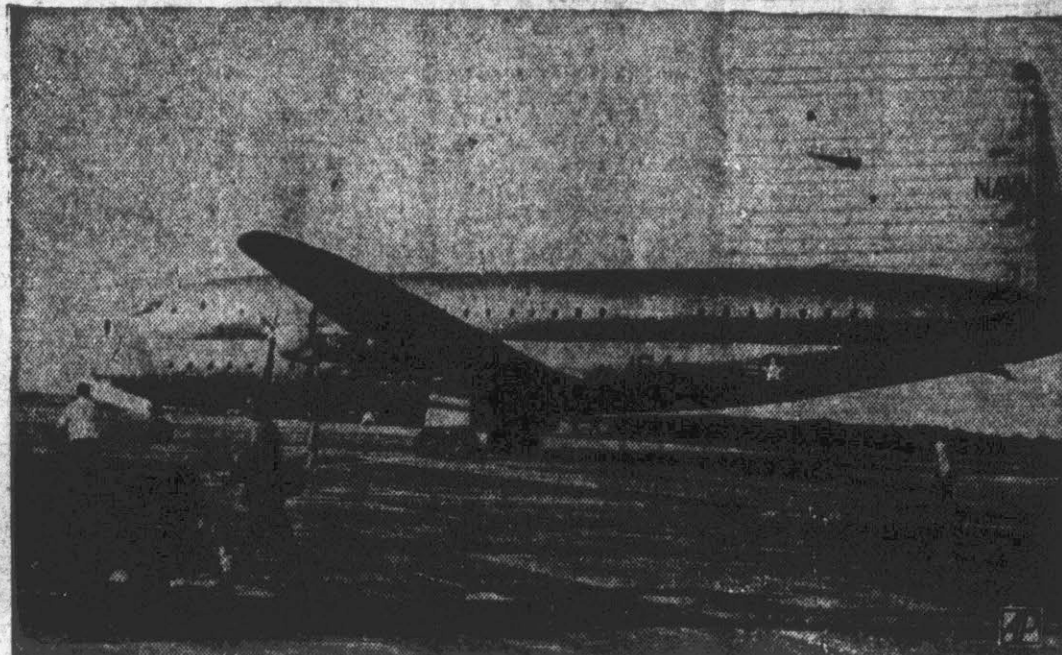

In fact, they seem to be gambling on their belief that the voters will think they're right and Mr. Truman is wrong, for they said:

"The only way this fundamental difference can be resolved is by vote of the people at the November election."

For that reason, Congress probably will ignore Mr. Truman's eight points. Yet, a big part of the political arguments between Democrats and Republicans from now to November will revolve around those eight points.

So here's an explanation, starting

Navy's Biggest Plane Arrives In Maryland

The U. S. navy's biggest airplane, the 92-ton Lockheed Constellation, taxis in at the Naval Air Station at Patuxent, Maryland, at the end of her 2,600-mile flight from Moffett Field, Calif. Average speed on the trip was about 250 miles per hour. It was the first time the ship had landed outside of California, although she had made about 150 test flights. (AP Wirephoto).

Reach Agreement On Berlin Moves

Marshall Says Western Powers To Go Forward With Plan For Setting Up Separate Gov't In Western Germany

Washington, July 28—(AP)—Secretary Marshall said today the United States has agreed with the British and French on next moves in dealing with the crisis of Soviet-blockaded Berlin.

Marshall declined at a news conference to disclose any point of the agreement.

He said, however, that some reports from abroad purporting to set forth details are incorrect.

One question on which he was specific is that the western powers intend to go forward on schedule with their plan for setting up a separate government in western Germany.

Marshall said that was not his understanding and he agreed with a statement by Gen. Lucius D. Clay here last Friday that the United States, Britain and France are going ahead with their plans.

The western powers hope to find out soon whether Russia really wants to negotiate an acceptable settlement of main German issues.

This is understood to be the main purpose behind the idea of having the American, British and French envoys in Moscow call on Foreign Minister Molotov—probably next weekend—for a direct discussion of the Berlin crisis.

What they find out from Molotov will go a long way toward determining whether there is any prospect for an early meeting of the big four Foreign Ministers Council.

Pickets Injured In Violent Clash With Policemen

Dayton, O., July 28—(AP)—Five pickets were injured today, none seriously, in a renewal of clashes between police and the picket line at the strike bound Univis Lens Co. plant.

The disorders climaxed a three day back to work movement at the plant, were described as the most violent yet.

Newsmen say police swung clubs to force a path through the picket line for 340 non-striking employees in the back to work movement.

Among the pickets injured was Lou Kaplan, international organizer of the CIO United Electrical Workers.

Police declared today's clash had broken the backbone of the picket line resistance to the back to work movement.

Hungarians Hold Yugoslav Citizen

Legation Secretary In Budapest Arrested In Murder

Belgrade, Yugoslavia, July 28—(AP)—The director of information said today Hungary has arrested the secretary of the Yugoslav legation in Budapest in connection with the murder of a Yugoslav student.

The information director said the Hungarians threw a ring of 40 policemen and six automobiles around the Yugoslav legation and on July 22 arrested Zvezko Borov, legation secretary, "preventing every contact with the legation since that time."

The Hungarian authorities have been demanding the right to question Borov in connection with the fatal shooting of Miles Mice, 30, a former courier in the Yugoslav legation.

The information director charged that Hungary by arresting Borov, had "openly violated diplomatic immunity."

The director said the Hungarian authorities in a formal note July 17, before they had seen the Yugoslav secretary, had openly called him a murderer and that a press campaign had been started by all Hungarian newspapers without waiting for Yugoslavia's reply to the note.

The director added: "Such unheard of procedure proves the Hungarian authorities are not looking for the solution of the crime but are showing one more link in a series of measures aimed at worsening relations between Hungary and Yugoslavia."

Brisk Sales On Tobacco Market

Valdosta, Ga., July 28—(AP)—Sales were brisk today in the first market reporting on the Georgia-Florida flue-cured tobacco market.

Valdosta market supervisor L. G. Cheek estimated that 600,000 pounds would be sold there today, with full sales expected throughout the week.

Overall volume on the two state market yesterday was 8,953,313 pounds, the best of the season and brought an average price of \$53.14 a hundred.

Promises Probe Loyalty Boards

Washington, July 28—(AP)—A broadscale investigation of the government's loyalty program was promised today by chairman Reed (R-Kan.) of the House Civil Service committee.

Reed said his group wants to find out how the various departmental loyalty boards have been functioning since they were set up early last year. No hearing dates have been set but the Kansas indicated they will get under way during the special session.

Live In Basement Funeral Parlor

Atlanta, July 28—(AP)—A Negro woman and her eight children were found living tightly close to death today. But even so Bessie Stephens and her brood are healthy and it's a roof over their heads.

Their home is the embalming room in the basement of a funeral parlor; their table a wooden coffin.

40 New Cases

Raleigh, N.C., July 28—(AP)—The State Board of Health reported 40 new cases of polio today to bring North Carolina's outbreak total since the first of the year to 908.

Two cases previously diagnosed as polio in Onslow County, according to Dr. C. F. Stevick, the board's epidemiologist, have been re-diagnosed as something else.

Dr. Stevick said today's reports also added the death total caused by the disease to 53.

Sen. Hoey Tells Filibuster Plans

Says Dixie Senators Ready To Talk Down Civil Rights

Washington, July 28—(AP)—Senator Hoey (D-NC) said today "Southern Democrats are ready to speak any civil rights bill to death."

"We intend to fight them all," he told a reporter as Republicans failed round proposals for anti-police tax, anti-lynching, anti-segregation and FEPC legislation.

"The Southerners are lining up to filibuster against civil rights at the call of Senator Russell (D-Ga)," Hoey said.

Russell scored 308 votes at the Democratic National convention for the party's nomination for President from the anti-civil rights and states rights groups of the South.

Hoey said at least seven senators are ready to talk indefinitely.

They include himself, Maybank (D-SC), Stewart (D-Tenn), Stennis (D-Miss), Russell (D-Ga), Chandler (D-La) and Robertson (D-Va).

Some others, he said, are about ready to start speaking their fighting words at a moment's notice.

In fact, the Southerners seemed to have their filibustering fight so well lined up that they scheduled no formal meetings today to map out plans.

They've had only one announced meeting since the special session started.

All In Dictionary

Washington, July 28—(AP)—Rep. Williams (D-Miss) resorted to alliteration and polysyllables today to criticize President Truman's two executive orders pertaining to civil rights.

This is Williams' comment on the President's action:

"It reeks with the vile stench of patrician politics, panderous pomposity and parasitic pendency."

They're all in the dictionary except "Fendergast," which is a reference to the late Tom Fendergast, a political boss in Truman's home county—Jackson County, Mo.

Russia And U.S. Join In Opposing British Action

Lake Success, July 28—(AP)—The United States and Russia, stood firmly behind Israel today in a new Palestine clash with Britain.

The latest division between the U.S. and Britain over the Holy Land concerned five British officials of the Jerusalem Electric Corporation, seized July 6 by Irgun Zvai Leumi and later charged with espionage.

Britain formally demanded yesterday that the United Nations Security Council order the Israeli government to release the five men. The U.S. and Russia contended the men now are awaiting trial on serious charges and any council action would constitute interference in Israel's internal affairs.

Crash Ends Global Trip For One Of Three B-29s

Aden, July 28—(AP)—An American B-29, one of three making a circuit of the globe, crashed into the sea last night after taking off from this port on the south coast of Arabia.

One survivor—identified only as Sergeant Gustafson—was reported picked up by a local fisherman, who brought him to shore.

He now is in the RAF hospital and reported resting comfortably.

(Capt. Percy H. Kramer, public information officer at Davis-Monthan Field in Tucson, Ariz., said the ship's field, issued a list of the men aboard the three planes last Thursday night, which included Mr. Sgt. Siger R. Gustafson, Norwood, Mass.)

(Col. J. C. Selser, commandant of Davis-Monthan Field, said two of the planes had 18 men aboard and the other had 17. He said he had not yet received any report on the crash from overseas.)

The other two planes returned to

Russians Admit Having Trouble In Berlin Area

Currency Exchange Brings 'Chaos'; Open Struggle Over City Gov't

Berlin, July 28—(AP)—Disorders broke out in the Russian sector of blockaded Berlin today when thousands of Germans jammed streets before banks in an effort to exchange their money for new Russian-sponsored currency.

Newspapers in Western Berlin said the Russians and their Communist-controlled economic commission are trying "to cheat the people out of their money." The deadline for the even exchange is tonight.

The Russians through their newspapers admitted "chaos" existed, but blamed the non-Communist city government for not providing enough exchange places. American Military Government finance officials said this is untrue and "the Russians are trying to make the city government a scapegoat for their own mistake."

Mayor Louise Schroeder defied an order from the Russian commandant to fire her new anti-Communist police chief, Johannes Stumm. The three Western commandants had advised her the Russians had no authority to order unilaterally the discharge of Stumm. He replaced the Russian-trained Paul Markgraf, whom the elected government fired last week.

The Western commanders also advised Mayor Schroeder to reject the Russian move aimed at destroying the city government and placing all Berlin under Communist control. They told her the Russians have no authority to install Paul Letch as deputy head of the city food department, one of the major jobs in the city.

Russian-controlled newspapers said the Germans President Truman's message to Congress yesterday "proves that the United States is faced with economic collapse."

The Communist press said Mr. Truman's plea for anti-inflation laws meant the U.S. could not support the European Recovery Program.

School Building Funds Proposed In New Measure

Washington, July 28—(AP)—A \$248,000,000 federal fund to aid local school construction was proposed today by Rep. Landis (R-Ind.). He said it is needed to prevent some small schools from closing.

Under a bill which he said he will introduce tomorrow, the money would be available during the next four years but states would have to apply for their share before Jan. 1, 1950.

Landis, ranking Republican on the House Labor and Education Committee, told a reporter the measure would be a substitute for the \$300,000,000 federal aid to education bill passed by the Senate.

The Senate bill, which provides payments for teachers' salaries and other operating expenses, has been stymied in the House. Landis said opponents fear it would lead to federal control.

He said he preferred a bill authorizing federal construction aid "rather than not having any bill at all."

Republicans Steer Session Toward Filibuster

Deadly Blast

Mannheim, Germany, July 28—(AP)—Police said between 500 and 600 persons were killed and 1,400 injured today in an explosion and fire which wrecked the I. G. Farben Chemical plant at Ludwigshafen.

The disaster in the French zone city appeared to be the greatest in Europe since the war.

Police in Mannheim, an American zone city across the Rhine from Ludwigshafen, said about 1,400 injured already have been taken to hospitals.

The plant employed from 6,000 to 7,000 chemical workers and comprised several buildings sprawling over a wide area.

"Flames shot two miles into the sky when the explosion took place," said an American officer in Mannheim, across the Rhine from Ludwigshafen.

UN Staffs Will Be Investigated

Will Determine If Foreign Agents Cloaked With Immunity

Washington, July 28—(AP)—Secretary of State Marshall announced today that he is creating a committee of free citizens to investigate whether the United Nations is bringing persons into this country who are a danger to American security.

Marshall declined to give a news conference the names of the three citizens but promised they would be announced later. He described them as distinguished citizens.

The investigation will cover all classes of persons associated with the United Nations Marshall said including foreign delegations and their staff, newspapermen and other reporters, members of specialized U.N. agencies and the staff of secretary General Trygve Lie.

The investigation grew out of testimony of two state department officials before a Congressional committee that hundreds of secret agents from Europe's Communist countries may be using U.N. credentials as a means of getting into the United States to stir up trouble.

Marshall reiterated today what he said a week ago after his testimony was given out—that he knows no instances in which any person here on United Nations credentials had actually jeopardized the security of the United States by actions outside its official duties.

Since then, Marshall said, he has been having what he called a very careful check made of all the records. That inquiry has developed nothing so far, he said.

Threatens Quit Over Refusal To Allow Walkouts

Tokyo, July 28—(AP)—James S. Killen, head of the Allied Labor Section, threatened to resign today because of General MacArthur's statement that Japan's 2,000,000 government workers should not be allowed to strike for higher wages.

"I propose to resign," Killen said in a statement, "because I can not adjust myself to the new occupation labor policy which denies the government workers the right to collective bargaining."

The government workers' union has not acted on the MacArthur letter which quoted the late Franklin D. Roosevelt as saying a strike by government employees was "unthinkable and intolerable."

MacArthur said in his letter: "I am in full accord with this view."

N.C. Dixiecrats Name Chairman Of New Campaign

Hendersonville, N.C., July 28—(AP)—The Dixiecrats have chosen a retired army Colonel from Hendersonville as their North Carolina chairman. They announced a late-hour drive to get their Presidential candidate on the state ballot.

Chairman Philip S. Finn, Jr., expressed confidence that the states rights Democrats would be able to get 10,000 names certified on a petition by midnight next Tuesday.

The names are required by the state election board before the Dixiecrats can get their Presidential nominee, Gov. J. Strom Thurmond of South Carolina, and his running mate, Gov. Fielding L. Wright of Mississippi, on the November 2 ballot.

GOP Leaders To Air Their Views

Washington, July 28—(AP)—Republican leaders in Congress made tentative plans to swing into a second-round attack on President Truman's special session call with a radio blast tonight.

House Majority Leader Halleck of Indiana and Ohio's Senator Taft, chairman of the Senate GOP Policy Committee, were prepared to take a fresh poke at the message Mr. Truman delivered yesterday, in an ABC broadcast tentatively scheduled for 7:30 p.m. (EST).

Nominations For 900 Gov't Jobs Saved For GOP

Senate Will Not Act On Appointments; 'Reserved' For Republicans

Washington, July 28—(AP)—Republicans pasted a "reserved for GOP" label today on some 900 federal jobs.

The Senate does not intend to consider nominations, the party's congressional leaders said last night in outlining their program for the special session.

That means hundreds of postmasters, federal judges and others whose appointments have not been confirmed face a short-lived job expectancy—if the Republicans succeed in putting Gov. Thomas E. Dewey in the White House next year.

The decision not to take up now any nominations passed over during the regular session is an extension of an informal agreement by the GOP high command last May. At that time they reportedly passed the word on to key committee chairmen not to approve any further major appointments by President Truman.

However, Mr. Truman can keep his selections in office until next year under interim appointments.

Among the major federal posts possibly at stake is that of Chairman David E. Lilienthal of the Atomic Energy Commission, whose regular appointment expires August 1. The Senate extended the terms of the AEC commissioners until June 30, 1950, but it did not specifically name Lilienthal or his four colleagues.

If Dewey is elected in November he thus could replace Lilienthal and the others with men of his own choosing.

Among the nominations set aside during the regular session are those of Thomas C. Buchanan of Pennsylvania to the Federal Power Commission, Roy W. Harper of Missouri, and a federal judge, William R. Brock of New York, to the Federal Communications Commission, and James Boyd of Colorado, as director of the Bureau of Mines.

Arabs And Jews See Violations Of Cease-Fire

Jerusalem, July 28—(AP)—Arabs and Jews each complained to the United Nations truce commission today that the other side violated the ceasefire in Jerusalem.

An Israeli spokesman asserted the Arabs attacked Jewish positions on Mt. Zion and killed a soldier and wounded 12 in dynamiting a Jewish building. The Stern group newspaper Mivrah said Peter Manasse of its staff was felled by an Arab sniper in the Jewish quarter yesterday.

The Arabs accused the Jews of firing mortars into the old city. They said the Jewish building was blown up by an "accidental explosion caused by the Jews."

Agree To Meet Wage Demands

New York, July 28—(AP)—The Western Electric Co. is reported to have agreed to make a wage increase next month to 30,000 telephone installation workers throughout the country.

The report came yesterday from Allen E. Haywood, CIO National organization director, who said the wage offer was promised by Western Electric president Stanley Bracken at a meeting in company offices.

Can't Control Peace

Armament Control Shelved By UN Committee; Must Await Conclusion Of Cold War Now Being Waged; It All Hinges on Soviet Goal of Communizing the World

By DEWITT MACKENZIE

The working committee of the United Nations Commission for Conventional Armaments (those apart from atomic weapons) finally has decided that armaments can't be reduced and controlled until the big powers agree on a U.N. police force, atomic energy is leashed and peace treaties are made with Germany and Japan.

In short this momentous question, which is the crux of the effort to enforce world peace, is being temporarily shelved. The committee's explanation strikes us as being a bit of diplomatic jargon because the blunt fact is that the United Nations can't function as a peace controlling agency until the cold war between Russia and the democracies has been settled.

Presumably this problem of enforcing peace will come up in the U.N. again—and then again and again. But it never can be solved until the issue of world revolution for the spread of Communism has been dealt with. A British view-point of the fundamental difference between Russia and the West is summed up by the weekly publication "Time and Tide," and I quote:

"It is because it represents the consensus of many objective observers: 'The issue is whether Russia means to carry on or to abandon her plans for the destruction of the democracies. If she will abandon them, there is no issue between Russia and the West which cannot be peacefully solved. The argument as to whether Russia wants war is beside the point.'

"In all probability she does not want it now. From Russia's point of view a 'shooting war' is not to be undertaken until the process of internal erosion in the democracies has reached the point where only the very slightest push from without would be necessary to topple over the whole structure."

That's the story. The battle of Berlin, and the innumerable other cold hostilities all hinge on Hitler's efforts to communicate the German message, and the hundred and one other difficulties swirling the globe, if and when the Russians decide that they have carried their aggression about as far as they want to go.

(Continued on Page Eight)

Lay Plans For Speedy Adjournment; Priority Given Civil Rights Legislation Which Is Certain To Scuttle Program Offered By President

Washington, July 28—(AP)—The Republicans running Congress steered President Truman's special session program today toward a civil rights filibuster almost certain to scuttle it.

And as the GOP leaders laid plans for a speedy adjournment, they announced complete willingness to let the voters decide in November whether they had done the right thing.

Democrats promptly shouted "Sabotage." They accused the majority party of setting out deliberately to wreck the President's program for anti-inflation and housing legislation which he pleaded for yesterday to avert "another great depression."

Privately some Republicans questioned the wisdom of their leaders' strategy, which GOP Senator Robertson of Wyoming said had been arrived at after consultation with Gov. Thomas E. Dewey of New York, the party's presidential nominee.

Robertson emerged from a meeting of the Senate's Republican Policy Committee late yesterday and told newsmen Chairman Taft of Ohio had relayed the advice from Dewey to "stay around a week or so and then go home."

Social and Personal

Miss Barbara Clement left Tuesday morning for New Jersey where she will spend several weeks with her aunt.

Mrs. H. C. Sugg has returned from Boston and has gone to Morehead City for the remainder of the summer.

Mr. and Mrs. James E. Heidenreich, Miss Rosemarie Heidenreich and Jack Heidenreich of Pittsburgh, Pa., are visiting Mr. and Mrs. Ralph Heidenreich.

Mr. and Mrs. Frank Brown and Mr. and Mrs. Vernon Tyson left Saturday for New York City where they will attend the International Lions' convention.

Mr. and Mrs. Charlie Marston of Hillsdale spent Sunday with Mr. and Mrs. W. H. Wooten on Cedar Lane drive.

Dr. and Mrs. Ed Beddingfield, Jr., have moved from Boston, Mass., to Washington, D. C., where Dr. Beddingfield is affiliated with the staff at Walter Reid hospital. Mrs. Beddingfield is the former Miss Lorraine Moore.

Mr. and Mrs. H. O. Nelson of Norfolk, Va., spent the week-end with Mr. Nelson's parents, Mr. and Mrs. Harley Nelson.

Mr. and Mrs. Horace Leonard of Williamston are spending this week with Mr. and Mrs. Jimmy Leonard.

Bill Bryant, who formerly was associated with K. R. Wooten's store in Falkland is now assistant manager of the FCX store in Greenville.

Mrs. Ed Beddingfield, Jr., of Washington, D. C., was the week-end guest of Mrs. Willard Wooten.

Mrs. W. E. Small and children, Betty Lou and Wilburn, Jr., have returned from Brooklyn, where they visited relatives.

Putting Up Fruit?

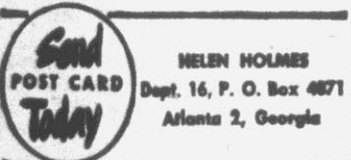

Famous FREE book tells success secret! SIMPLE TESTED PROVEN

One simple change in your canning and freezing syrups — and you get finer flavor, firmer texture, brighter color... best fruit you ever put up!

This success secret, tested by thousands of women, is described in "Finer Canned & Frozen Fruits" — 32 pages of up-to-the-minute information. Step-by-step directions and charts! Tips on pickles, jellies, preserves! New ways of serving fruits!

A wonderful book... and it's yours FREE.

The wedding will take place in September.

No Mid-Week Prayer Service

There will be no mid-week prayer service Wednesday evening at Jarvis Memorial Methodist Church.

Jaycees To Comb Business Area For Cardboard

Jim Taylor today announced the Jaycee truck will pick up scrap corrugated boxes in the business district each Friday and Tuesday afternoon after 5:30.

Merchants were requested to bear in mind these Tuesday and Friday collection days, and have their discarded corrugated boxes for the Jaycees.

Proceeds from the sale of this scrap paper will be applied by the Jaycees to furnishing and further equipping the youth recreation center at the old NYA center.

The Jaycees will also collect periodicals and newspapers in the residential areas every three to four weeks. The most recent collection was on Sunday, July 18. Lester Turnage is chairman in these areas. All citizens of Greenville, in the business district and in the homes, are urged to save this valuable item—scrap paper in all its forms—to aid in furnishing and equipping the youth recreation center of the city.

Supina Declared Mentally 'Sound'

New Haven, Conn., July 28—(P)—Stephen J. Supina, the peace advocate who bombed United Nations headquarters, was turned over today to Nassau County, N. Y., authorities for trial on a charge of malicious mischief.

In ordering the ex-army flier extradited, Judge Domenic W. Celotto of the New Haven City court said that he had read "the remarkable war record of this man" and expressed the hope that it would be taken into consideration by the New York courts.

Judge Celotto's order came after the flier's lawyer, T. Emmet Claire, told the court that a psychiatrist had found the 36-year-old Supina mentally competent to understand legal proceedings.

Supina, who flew as a turret gunner on 33 missions during the war, exploded a one-pound stick of dynamite over U. N. headquarters last Thursday from a rented plane. He explained that he did so to direct attention to the need for lasting peace.

Trade between Nicaragua and the United States almost trebled between 1936 and 1946.

Coal, oil and natural gas are composed largely of carbon and hydrogen.

Pitt Health Officer Reviews Polio Epidemic; Gives Advice

Dr. S. J. Phillips, Pitt County health officer, in an interview with a staff representative of the Reflector yesterday, made the following statement concerning polio:

"There has not to date been any case of polio originating in Pitt County reported to the health department."

"One definite case and one suspected case were seen by local physicians but both of these were from adjoining counties and were sent to Duke."

"Most of the cases occurring in North Carolina at the present time are, roughly, in the area between Raleigh and Asheville, with a few cases scattered over the rest of the state with the exception of a few counties in the extreme western section of extreme eastern section so far have escaped."

"From a study of previous polio epidemics in the state, it is expected that the present one will begin to decline in August, although it may carry over to September. A few sporadic cases may be expected through the fall and winter."

"Our citizens are naturally very concerned about the situation and many are asking if anything can be done to prevent polio from coming to Pitt County. In regard to this, I wish to advise that common sense measures, as previously recommended, are as good as any. Fantastic and unusual measures accomplish little except to add fuel to the worries of the citizenry."

"One of the counties having the greatest number of cases, in addition to the usual measures, has employed airplanes to dust DDT over the city and rural areas. While this does a

Citizens of Tomorrow

The Daily Reflector again presents another in the picture series "Citizens of Tomorrow." Reading from left to right, top row: Hunter and Bruce Chadwick, sons of Mr. and Mrs. R. H. Chadwick, Greenville; Douglas and Tim Johnston, sons of Mr. and Mrs. J. C. Johnston, II, Route Five, Greenville; Ralph and Jack Davenport, sons of Mr. and Mrs. E. C. Davenport, Route Two, Winterville. Bottom row: Bobby and Janis Williams, son and daughter of Mr. and Mrs. J. W. Williams, Greenville; Billy and Janet Whichard, son and daughter of Mr. and Mrs. Guy Whichard, Greenville; Fulton and Elizabeth Ann Hardee, son and daughter of Mr. and Mrs. C. F. Hardee, Greenville.

great deal in reducing the insect population, official reports on the epidemic indicated that twice as many cases have occurred there in

July as in June so that it seems that such extreme measures have not influenced the course of the epidemic. "Statistics on the present epidemic indicate that 92 percent of the cases are occurring in children under 15 years of age and only 8 percent in persons over 15 years of age. However, it is believed that adults and children may carry the virus in their nose and throat without showing symptoms of the disease and may transmit the disease to the susceptible person. Therefore, it is urged that people residing in this county do not visit in areas where the disease exists, and that people residing in other counties where there are cases, do not visit friends or relatives here until the epidemic has ended."

"It is recommended that children under 15 avoid unusual crowds and remain with their usual associates in their own neighborhood. "It is believed that excessive fatigue may predispose to infection when the fatigued person is exposed to the disease."

"45 percent of the cases occur in active children between the ages of one to 4 years. Thirty percent occur in children between 5 and 9 years and 16 percent occur in children between 10 and 14 years. Therefore, it is recommended that children be required to get plenty of rest and sleep, and be well nourished."

"Hot weather and excessive sweating causes an excessive loss of body salts and may produce a condition known as 'heat lag' or heat exhaustion which may or may not predispose to the disease. "All persons, unless advised to the contrary by their doctor, require additional salt during the extreme heat. This may be taken either by putting more salt on the food or using salt tablets. Don't do this without your doctor's advice, as there are some conditions in which it is contraindicated."

"In conclusion, I advise: 1. Keep well nourished and physically fit as far as possible. 2. Get plenty of rest and sleep. 3. Avoid new or unusual contacts. 4. Above all, keep out of infected areas," Dr. Phillips said.

Microscopic organisms include fungi, bacteria and viruses.

Sinking Oil Well In Hertford Area

Ahoskie, N. C., July 28—(P)—A contractor is scheduled to start sinking a shaft here Monday in Hertford county in search of oil.

Machinery and equipment are being erected this week on the site near the Chowan river three miles southeast of Cofield.

W. W. Connell of Fort Worth, Tex., who holds oil leases at 10 cents an acre on a block of some 100,000 acres in a triangle lying between Winton, Harrellsville and Ahoskie, is the operator.

F. B. Simpson of Fort Worth, who has been in this area for the last three years obtained leases, represents Connell's interests here.

Simpson says a 4,500 foot well will be drilled. He expects other wells to be drilled following this one.

In the last three years five geological surveys have been made; Simpson says all five gave grounds for encouragement.

Study Skeletons From N.C. Grave

Coleman, July 28—(AP)—The State Museum in Raleigh has in its possession today three human skeletons, believed to have been those of Indians who lived 500 years or more ago.

One of the skeletons was unearthed as a bulldozer cut back a hill at Coleman Beach. Dr. Charles Roebuck, retired physician of Coleman, took charge of the bones for study. He notified the State Museum. The doctor and a museum official removed two other skeletons from the grave.

Wrong-Way Red Caught In Korea

Seoul, July 28—(P)—Korean police reported gravely today the story of the wrong-way Communist.

An official in the Communist South Korea labor party entered a police station 30 miles northeast of Seoul and began giving astonished officers a full report on Communist activities. They promptly arrested him on a spying charge.

The officers said he must have thought he had crossed the border into Soviet-occupied North Korea, and believed he was giving his report to Communist-governed North Korean police.

Ed Rawl Honored By Kiwanis; Fine Program Scheduled

By CHESTER WALSH
The Kiwanis Club's weekly supper meeting Friday night is going to be

a lot of fun, some good singing and fine fellowship, and James Ray Pittman will be master of ceremonies and lead the singing. Fred Stokes and V. A. Merritt are scheduled to "make two-second speeches." President Nathan C. Brooks, with a group of the Greenville Kiwanians will be at Wrightsville

Beach attending the Seventh Division Kiwanis meeting. Vice-President W. Arthur Tripp will preside. Incidentally, Edwin E. Rawl (Ed Rawl, as he is familiarly known in business and Kiwanis circles in the South) has been notified by J. Belmont Mosser, president of Kiwanis International, that he had appointed him on the Kiwanis International Committee on Programs and Music for 1948, a signal honor for Mr. Rawl, the Kiwanis Club and the Greenville community.

U. S. oil production is larger than that of all the rest of the world combined.

MISS ESTELLE DOYLE

Miss Doyle is home Economist for Nash-Steele, Martin, Inc., Raleigh. She is spending her entire time serving General Electric dealers in North Carolina.

Miss Doyle has a wide and diversified background of experience in the Home Demonstration field, having worked closely with State Home Demonstration leaders.

You are cordially invited to attend a special demonstration of G.E. Dishwasher, Ironer and Home Freezer Packaging on July 29 and 30 at 10 o'clock a.m. and 3 o'clock p.m.

'Bungled' Piracy Blamed In Wreck Of Flying Boat

Macon, July 28 — (AP) — Police Commissioner Luis A. M. Paletti today blamed China coast pirates, who bungled their job, for the crash of a Catalina flying boat here July 16 that claimed 26 lives, nine of whom were North Americans.

The commissioner declined to elaborate but at a press conference he said he was "definitely sure" piracy caused the crash-up four miles off shore as the big plane rose for its short hop to Hong Kong, 60 miles away.

The Macon Daily News said Portuguese colony police were working on the following evidence:

Four armed pirates boarded the Cathay Pacific flying boat with the intention of taking over the plane and holding the rich Chinese passengers for ransom.

The Chinese pirates did not mean to destroy the plane. They brought along their own pilot who was to take over and fly the plane to their hideout.

The newspaper said after the plane reached an altitude of 800 feet, one of the pirates pressed a pistol against American Pilot Dale Cramer's back and ordered him to hand over the plane's controls to the pirate pilot.

One of the white passengers, the Daily News added, tried to take a gun from another of the pirates. In the confusion, the pirate with the gun at Cramer's back turned and slammed him with a wrench.

A third pirate, the newspaper said, fired several shots into Cramer's back and the pilot slumped over the controls. The Catalina went into a dive as the frantic passengers ran screaming down the aisle.

The pirate pilot could not reach the controls and the plane hit the water and exploded. It sank almost instantly but one Chinese passenger was thrown clear. (Previous reports said he was injured severely and could not be questioned.)

Colored News

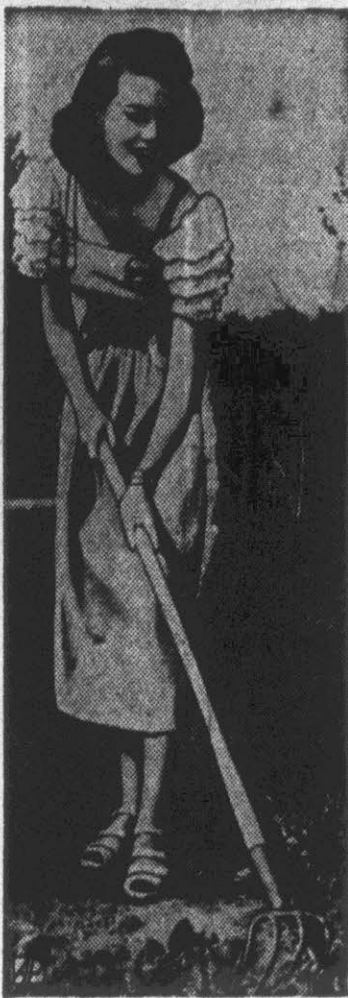

Rev. F. H. Mumford reminds the choir and members of York Memorial Church of the special service we are to render at Serval Chapel F. W. B. Church tomorrow night at 8 o'clock. Please be present and on time.

There was a record number of infantile paralysis cases in the United States in 1946—34,000.

Over \$18 Million Collected In '48 March Of Dimes

New York, July 28 — (AP) — The net collection in the 1948 March of Dimes campaign was \$18,000,290.

Basil O'Connor, president of the National Foundation for Infantile Paralysis, who announced the figure yesterday, said half the sum had been allotted to the organization's national headquarters here. The headquarters allotment will be used for research and education projects and polio epidemic aid.

The other half went to foundation chapters to pay for services to local polio victims. O'Connor said that so far this year, three times as many cases have been reported as were reported in 1947.

CHANNEL SWIMMER

Dover, England, July 28 — (AP) — Gianni Gambi, 40, internationally known Italian long distance swimmer, was picked up exhausted on the beach today after swimming the English Channel in 13 hours, 36 minutes.

General Bradley Voices Approval Of Segregation

Fort Knox, July 28 — (AP) — The Army's chief of staff, Gen. Omar Bradley, told newsmen here that he favors segregation of white and Negro units in the lower levels of the Army.

His remark at a news conference yesterday followed the issuance of an executive order by President Truman Monday establishing a committee on "equality of treatment and opportunity" in the armed services.

The policy of the President as set forth in the order is "that there shall be equality of treatment and opportunity for all persons in the armed services without regard to race, color, religious or national origin."

General Bradley, here for a seminar on the training of recruits under the new military expansion program, also told the newsmen he favored the combining of the various units to form larger organizations such as battalions and divisions. He said it would take 60 years to house the Army properly at the present rate of building.

"Sure we've got a caste system," the general said, replying to criticism of the Army's caste system. "Do you know of any major industry that doesn't have? It's incentive that makes this country work the way it does."

He added that the separation of officers and enlisted men, however, should apply only to military relations.

Pastor Catches, Shoots, Intruder

Philadelphia, July 28 — (AP) — While 25 parishioners were meeting in an adjoining auditorium, the pastor of a North Philadelphia church last night shot and killed a man he had surprised stealing \$50 from a desk in his study, police reported.

Police identified the victim as Robert Winters, 25. They said he was killed instantly by five bullets as he tried to flee from the New Light Tabernacle Baptist Church.

The Rev. Theodore Bullock, 39, pastor of the church, told police he fired the shots from a .32 caliber pistol.

The shooting, according to police, climaxed a violent scuffle during which the intruder dropped an envelope containing the money.

Many of the parishioners hurried to the vestibule at the rear of the main church auditorium as the last two shots were fired.

All five shots struck the man in the upper part of the body, police said.

Passenger Dives Over Side Of Liner; Rescued

Halifax, N.S., July 28 — (AP) — The Italian liner Vulcania arrived last night after a delay caused by a passenger jumping overboard. The man was rescued by crew members who launched a lifeboat.

Witnesses said the man, identified as Giacomo Milglio, 33, an American citizen, suddenly left a dining room table and dived over the rail just as the Vulcania was entering Halifax harbor. He suffered no ill effects from his dunking but was confined to ship's hospital for examination. He boarded the ship at Naples and was bound for New York.

Studio Suspend Ray Milland

Hollywood, July 28 — (AP) — His studio says he refused to accept a film role, but Actor Ray Milland claims he didn't. Anyway, he's suspended.

Paramount announced the suspension, saying the Academy Award winner had refused to star in "A Mask For Lucretia."

Milland countered: "It is a part that is out of my normal, natural range as an actor." He said he had objected to playing the role but hadn't refused it.

U.S. Jet Planes Arrive Safely In Germany

One of 16 U. S. jet fighter planes, which arrived in Germany Sunday, comes to a stop in front of hangar at Fuerstenfeldbruck airbase. The last leg of the flight from the United States was a 600-mile hop from Odham, England. The total elapsed flying time for the 5,060-mile trip from Selfridge Field, Mich., was 12 hours and 10 minutes. (AP Wirephoto via radio from Frankfurt.)

Forrestal Okays Return Of USO For Peacetime

Washington, July 28 — (AP) — The USO is coming back. It is the wartime organization that provided clubs and shows for servicemen.

Defense Secretary Forrestal said today he has approved a Civilian Advisory Committee's recommendation that the United Service Organizations be reborn to meet a need created by the expansion of the armed forces.

Details of the peacetime version remain to be worked out. Lindsay F. Kimball, of New York, president of USO during the war, said the reorganization of the entertainment unit will be completed by the end of the year.

Forrestal said the USO will be reactivated on a somewhat broader basis. But he did not explain what he had in mind.

Including Dealer Prizes

This Is One Contest That Is

Easy To Enter

Easy To Win!

ANYONE may enter—any-

A one may win. No com-

plex rules to follow—no

jingles to write—no puzzles to solve! Simply do this: Try Orange-Crush, then get an entry blank from your dealer (a plain sheet of paper will do, too).

JUST FOLLOW THESE SIMPLE RULES:

- Write the words appearing on back of the Orange-Crush Bottle.
- In 25 words or less, finish this statement: "I like Orange-Crush because..."
- Print your name and address and your Orange-Crush dealer's on your entry. Mail it with one Orange-Crush Bottle Cap (wrapped securely) to: Orange-Crush Company, Box 6799, Chicago 77, Ill.
- All entries must be postmarked by midnight August 15, 1948.
- Entries will be judged by Reuben H. Donnelly Corporation. Decision of judges will be final. Duplicate prizes awarded in case of ties. All entries, contents and ideas therein become the property of the Orange-Crush Company.
- Contest open to residents of Continental U. S. except employees of Orange-Crush Company, their bottlers or their employees, their advertising agencies and families. Subject to all Federal and State regulations.

SEND IN AS MANY ENTRIES AS YOU WISH, EACH ON A SEPARATE PLAIN SHEET, and each accompanied by one Orange-CRUSH Bottle Cap. Entries will be judged on sincerity and originality.

ENTER THE BIG ORANGE-CRUSH "FIRST-IN-FLAVOR" CONTEST

Use Entry Blanks at your Dealer or Plain Sheets of Paper THIS CONTEST EXPIRES MIDNIGHT, AUG. 15, 1948. Mail to Orange-CRUSH, Box 6799, Chicago 77, Illinois. Remember to enclose Orange-CRUSH bottle cap... securely wrapped.

*YOUR DEALER MAY WIN A PRIZE IF HE HAS ASSISTED YOU

WANTS

Rate 20 per word, minimum charge 50c for 25 words, one insertion; two insertions, 95c; three insertions, \$1.25; six insertions, \$2.25; one month \$9.00. Indented lines known as classified display, or larger than regular size type, double price.

Other than to business houses having regular accounts with us, no want ads will be charged. Send or bring cash with order. To prevent errors, want ads will not be taken over the telephone. All ads must be received day ahead of publication date.

By FAGALY and SHORTEN

wouldn't do for me to leave the house. One of the girls from school is going to drop in a bit later. Wants to talk over her work with me."

"What girl?" Jane asked.

"Helen Talbot," Carl said.

It was too much.

If Jane had been a little older, and a little less in love with her husband, that announcement would not have struck her with all the impact of a deadly blow. It might even have amused her. And if Aunt Mae had not already got to her with her package of gossip, she might simply have paid no attention to it.

But Jane was only twenty-three, a terribly young twenty-three, and still madly in love with her husband. And Aunt Mae's warning was fresh in her mind. The combination made her helplessly vulnerable. And because she was hurt and bewildered and suddenly awfully afraid, she lashed out in angry words which were the only weapon she knew.

She backed away from him. The lamplight was on her face, her translucent skin. It made red-gold lights in her hair. It made her eyes look enormous. She was angry. But at first Carl did not realize it. He only thought: How beautiful she looks.

"So Helen Talbot is dropping in a little later," Jane said, and her teeth made a grating sound.

She backed toward the center table where her hand found a bronze-handled paper cutter and closed over it. The hand was trembling; the knuckles showed white. At first she seemed deadly calm. "You didn't like it because I arranged to dine with Pauline on our anniversary evening. But it was all right for you to have that—that popped Helen Talbot come barging over here to break up our evening."

Carl's amused smile was aggra-
vating fuel piled on an already rag-
ing inferno. The smile simply in-
furiated her. "Helen hasn't pop-
eyes," he said.

"She has, too."

"Huh? Well, okay, if you say so, she has. And as for having her break up our evening, it was an oversight on my part. Our anniversary slipped my mind. I was sorry about it afterwards. She wants to discuss her final paper with me—I thought I could get rid of her in thirty minutes or so. It needn't have spoiled our evening."

"Not for you, perhaps. But it most certainly would have spoiled it for me." And then Jane said the words that had been in the back of her mind all along. "Are you in love with that Talbot girl?"

Carl stared at her. "In love? With Helen Talbot? What in thunder are you talking about, honey?" And again he laughed. "You aren't serious, of course."

"I'm perfectly serious, Carl. And you haven't answered my question."

CLOSING LOCK AT CAMP CHARLES

A few more turns and she'll be closed! And that smile on the face of the man with the wheel, J. W. E. (Bill) Joyner, building chairman for Camp Charles, Boy Scout camp near Bailey, is genuine.

The huge valve was closed Wednesday afternoon at 6 o'clock and water immediately started s'w'ly backing up in the 50-acre lake. Looking on are Thomas J. Fearrell (left) of Rocky Mount, enthusiastic supporter of the Boy Scout project, and Freeman Self, of Wilson, Scout Executive of the East Carolina Council. (Staff Photo by [unclear])

Scout officials of the East Carolina Council heaved a great sigh of relief when the final stop in creating a huge 50 acre lake for the council camp near Bailey, Camp Charles, was taken with the closing of the lock.

It was only a brief ceremony, but Camp Charles Building Chairman Bill Joyner of Rocky Mount had time to give a whoop as he, personally, turned the wheel which closed the huge valve and saw the water start slowly backing up into the lake.

which will be one of the largest artificial lakes in the state.

Meanwhile, Wilson Jaycees were busy renovating the mass ball and work was progressing on other buildings. New screen and painting jobs were being applied to the existing buildings also.

The camp, always a popular camping spot for Boy Scouts, has not been used since before the war. Eventually, Scout Executive Freeman Self, said, the camp will accommodate around 150 boys each week during the camping season.

as above has been commenced in the Superior Court of Pitt County, North Carolina, for the purpose of securing an absolute divorce, and the defendant will further take notice that she is required to appear before the Clerk of the Superior Court of Pitt County, at his office in Greenville, North Carolina, on the 7th day of August, or within twenty (20) days thereafter, and answer or demur to the complaint filed in this action, or the plaintiff will apply to the court for the relief demanded in his complaint.

This 7th day of July, 1948.

Special Attention To Silks And Linens

Special Attention To Silks And Linens

PHONE 2164 — 105 GRAND AVE., GREENVILLE

Grady Stott, New Bern right-fielder, has been unconditionally released following a hernia operation made necessary when he was hit in the back by Rocky Mount's Jim Gudger with a pitched ball. Pasquale DeLuca, limited service player of Waterbury, Conn., has been signed to take Stott's place.

Bill Price, Tars' hurler, who was placed on the blacklist for breaking training rules, has returned to the fold and all is forgiven by the Tars' officials. Price agreed to take a stiff fine for leaving the ball club. Tarboro fans are worried over the fact that Durham will possibly call their outfielder, Ray Komaneky. To lose him would be a great loss to the Tars at this time who have at this writing lost their last four games. Was asked yesterday on the street by five different persons why Greenville sold Arroyo to the Greensboro Club—the answer is very simple—money—but how much was received for him is unknown.

George Strimwies, crack second baseman of the New York Yankees, had extended his record-breaking string of consecutive errorless games for 5. Yesterday's game to 69, through July 21. The chunky New York infielder also had run his chain of consecutive chances without a bobbie to 373 during the same stretch. Strimwies' fantastic errorless string smashed the major league record for second basemen set by Bobby Doerr of the Red Sox from May 21 to July 21, 1943. Snuffy broke Doerr's record for 59 consecutive errorless games, July 10, and passed Bobby's mark for most chances without an error (349) on July 17.

The last players to score six runs in a single game were Johnny Pesky of the Red Sox, May 8, 1946, and Mel Ott of the Giants on April 30, 1944.

The Boston Red Sox are worrying about only one team in the American League pennant race and it's not the Cleveland Indians nor the Philadelphia Athletics—who have been setting the pace all season.

The team that the Red Sox contend is the team to beat is the New York Yankees. The Boston players are almost unanimous in the belief that both Cleveland and Philadelphia are on their last legs and will fade in the stretch.

As pitcher Mel Parnell said it: "Cleveland's pitchers are all worn out. They're using about five a day now." As for the Athletics, the Red Sox figure the only place Connie Mack's boys are going is down.

The superstition that it is bad luck for a pitcher to strike out the first batter of a game took a double licking from Oriole chukkers in Baltimore, July 26.

Fred Wolpert opened the first game by whiffing Harry Donabedian, Syracuse lead-off batter, and Johnny Podgajny duplicated in the eighth, but both won 5 to 2 and 4 to 0, respectively.

Curiously, both Baltimore pitchers also finished their day's chores with strikeouts.

Boston's Pesky And McCarthy Fined By Umpire

Detroit, July 28—(AP)—Manager Johnny McCarthy and third baseman Johnny Pesky of the league-leading Boston Red Sox each were fined \$50 today after being fined for arguments with rookie umpire John Stevens last Saturday in Boston.

McCarthy and Pesky received word of their fines shortly before the Sox took the field and won their 13th straight game—8-0 over the Tigers—last night.

Pesky protested a called strike in the first inning of the opener of a doubleheader against the Cleveland Indians and was banished from the game as he ran to his position in the next inning. McCarthy then protested Pesky's outing and he, too, was ordered from the field for the day.

FOOTBALL TICKETS

Greenies Lose Both Games To Wilson Tobs; 3-7, 8-12

Visitors Rally For Four Runs In Final Frame Of First Contest To Break Tie; Come From Behind In Second Game To Take Victory

By BERT MOYE

The Greenville Greenies lost both ends of their eighth doubleheader to the Wilson Tobs in the last inning of the season last night as the Wilson Tobs took both ends of a twin bill here last night 7-3, and 12-8, in two of the most listless games witnessed on the local diamond this season.

First Game
In the first game the Wilson Tobs rallied for four runs in the last inning to break a 3-3 tie and defeat the Greenies, 7-3, in the seven-inning opener.

Wolfe's single with one out started the winning rally. Moss fled out, Sanner walked, and Manager Bob Latahaw singled to bring Wolfe around. Winstead's double drove Sanner home, and a single by Gay scored Latahaw and Winstead.

Wilson went out in front with two runs in the first inning. Dickens struck out, but Mauney let the bases reach first, and then Dickens reached first, he advanced to second on a wild pitch and came home on Wolfe's single. Moss and Sanner singled to lead the bases and Wolfe scored on a fielder's choice.

The Greenies scored one run in the second frame and then came back in the fourth frame to tie the count at two all. In the second singles by McCullen, Carter and Kee loaded the bases and then Yon was hit by Pitcher Kramer to force in McCullen from third. In the fourth Carter, who reached first on a fielder's choice scored finally on Wood's infield out.

The Tobs went out in the front in the fifth frame with a singleton when Rehm led off with a triple and after the next two men went out Latahaw hit to Carter at second who bobbled ball with Rehm racing home.

The Greenies tied the count in the sixth on two singles and a double aided by a stolen base.

Junior Yohn went the route for the Greenies giving up eleven hits and two runs in the seventh frame.

Manager Kelly Kae with three singles in three trips to the plate led the nine-hit attack off Wilson's Kramer.

The line score:
Wilson 7 1 0
Greenville 3 9 2

Second Game
Going into the seventh frame with a three run deficit, the Wilson Tobs got busy in their last three frames to put across eight runs and came out on top in the second game of the double-header, 12-8.

The Wilson Tobs collected 18 hits off two Greenville hurlers, nine of them being made in the last three frames. The winning runs for the Tobs came in the eighth frame on three hits, two walks and a sacrifice which were good for three runs.

The Greenies started like a house on fire by scoring two singles in the first frame on two singles and Spos's double put across three runs in the third frame.

Wilson's double with one out and Spos's double put across three runs in the third frame.

Olympic Teams Line Up For Opening Tomorrow

Quit Olympics

London, July 28—(AP)—Unbothered by political undercurrents, thousands of athletes wound up meticulous training today and tidied up for tomorrow's official opening of the Olympic games.

The first day's program will be devoted to ceremony, presided over by King George. The competitors get down to business Friday.

But political complications arose to cast a shadow, however, small, over the greatest of sports spectacles.

Romania disclosed it would not compete and the Bulgarian representatives have failed to arrive.

Romania's sports leaders decided to forego the games because, they said, the Olympic Organizing Committee failed to accede to Russian and East European requests for seats on the committee.

An Italian Communist newspaper man, Tommaso Giglio, was barred from entry into England. This created a mild furor.

But most of the athletes failed to be disturbed by politics and instead spent their worries on the marks showing up in rehearsal.

America's track stars reached the climax of their training yesterday. Wilbur Thompson of Los Angeles and Jim Delaney of San Francisco, who hope to dominate the shot put competition, appeared at peak form.

Thompson got off one heave of 56 feet, two inches and Delaney turned in five straight throws of more than 54 feet.

The Olympic torch, lighted at Olympia and kept constantly ablaze by coal gas, is to be brought across the channel to Dover today by battleship.

Then it will start the last leg of its journey—arriving in Wembley Stadium shortly after King George has opened the games, if the schedule works properly.

Bad Box Office In Mexican League; Clubs Dropped

Mexico City, July 28—(AP)—The Mexican baseball league, which three years ago lured many players from the major leagues in the United States, has dropped its two biggest money losers—San Luis Potosi and Tampico—in a surprise financial reorganization.

Millionaire Jorge Pasquel's league will finish the season with only four clubs. Out of town parks will close, and all games will be played in Mexico City where it is believed there are enough fans to save the league from bankruptcy.

In announcing the move last night Pasquel blamed an unusual number of rainouts and devaluation of the peso for the season's bad boxoffice.

From five to 10 percent of infantile paralysis patients in the United States died in 1946 compared with about 25 percent in 1916.

Production of asphalt shingles and roll roofing in the United States has doubled since 1939.

BEATING THE HEAT—Billy Jim Anderson's parents rigged up this device to help him beat the heat as mercury flirted with 100-degree mark at Overland Park, Kan., suburb of Kansas City. He is the son of Mr. and Mrs. W. J. Anderson.

Amazing Success For Southworth With 'Castoffs'

By JOE REICHLER

Associated Press Sports Writer

Billy Southworth, Boston Braves' manager, continues to have amazing success with castoffs.

Southworth's latest "find" is Nelson Potter, the veteran righthander he picked up a month ago as a free agent after the latter was fired by Connie Mack of the Philadelphia Athletics.

Potter thus joins those who have made fine comebacks under the expert guidance of Southworth. Others making good with the National League leaders after having been passed up as washed-up veterans include the McCormick boys, Frank and Mike; Jeff Heath, Jim Russell, Bill Salkeld and Pitchers Bill Vosselle and Clyde Shoun.

Southworth used Potter strictly in relief roles for three weeks. Potter's consistently splendid work plus the recent in and out performances of starters Warren Spahn and Vosselle prompted the canny Braves' pilot to reward the native of Mt. Morris, Ill., with a starting assignment. That was on July 18. Potter came through with a neat 10-2 seven-hit victory over the Pirates in Pittsburgh.

Nels got his second start last night and again came through with a well-pitched game. This time the American League discard permitted the Pirates only six hits in defeating them 5-1 in Boston. He did not allow a run after Ralph Kiner tagged him for his 28th home run in the first inning. He did not issue a single base on balls and struck out four including Kiner in the ninth inning.

Potter helped win his own game breaking a 1-1 deadlock in the second inning, driving in Phil Masi with the first of his two singles.

The victory in the opener of a 20-game home stand enabled the Braves to widen their first place margin over the rest of the field to five and a half games.

Eddie Sawyer Is Very Optimistic

Philadelphia, July 28—(AP)—Eddie Sawyer, who never made the grade as a player, came up to the majors last night as the Philadelphia Phillies' pilot—and liked what he saw.

Eddie's debut as a big league manager was somewhat marred by the Phils' 3-2 defeat at the hands of the Chicago Cubs in an 11-inning ball game.

The loss, however, apparently didn't serve to dampen Sawyer's spirits.

"We played good ball," he said. "If we keep playing the same kind of ball, we'll do alright."

"Of course," the Phils manager continued, "you can't judge a team after one game, but I liked what I saw. We made some mistakes and we had a couple of bad breaks. But Leonard (Phil's hurler Dutch Leonard) pitched good enough ball to win."

Sawyer said he has no immediate plans for shifting the Phils lineup from its present makeup.

He does have any radical personnel changes in mind for the present at least.

BOY'S LEAGUE BASEBALL

Training Orioles clinched the top spot in the Intermediate League yesterday in the final game of the second half by defeating the first half winners, the Giants of Third St. by the score of 8 to 6. These two teams started the championship series Wednesday morning at the Stadium. In the game yesterday the Orioles scored their winning runs in the late innings to win.

Hilton Quinn with four singles and Billy Brady, Billy Woolfolk, and Troy Wilson with two hits each were the leaders for the Orioles. Sydney Briley and John Sideris with two hits each led for the Giants.

The Red Sox walloped the Dodgers Tuesday morning at Third St. Park and went into a first place tie with the Lions of W. Greenville. Scoring in all but the first inning the Sox had an easy time with the Dodgers. The final score was Red Sox 15, Dodgers 7. Edgar Moore was the only Dodger to get two hits.

Bobby Nunn with four singles and Dallas Evans with two doubles and a triple were the leaders for the Sox.

If a mold plant were magnified to the size of a tree, many bacteria would be comparatively about the size of a cow and a virus might be about the size of a small flea.

Bacteria which multiply by dividing into two never grow old. Each bacterium formed is new.

Orlando, Fla., July 28—(AP)—Joe Tinker, who won baseball immortality as a member of the Chicago Cubs infield in the early 1900's, died here yesterday on his 68th birthday.

Death came to the noted shortstop shortly after attendants at Orange Memorial hospital reported an improvement in his condition. Tinker entered the hospital 10 days ago for treatment of a respiratory ailment which no one considered dangerous.

The man who started the famous Tinker-to-Evers-to-Chance double-play for the Cubs was cheerful to the last, despite his impaired health. He had suffered from diabetes for several years and his left leg was amputated last summer because of an infection.

Baseball men throughout the nation expressed sorrow at the death of the last survivor of the Tinker-to-Evers-Chance combination, and Tinker's plaque in the baseball hall of fame at Cooperstown, N. Y., was draped in black.

Born in 1880, Tinker started in organized baseball with Coffeyville, Kan., when he was 19. Three years later, in 1902, he made the major league grade with the Cubs and played with them through 1912. He managed the Cincinnati Reds in 1913 and the Chicago Cubs in the old Federal league in 1914-15.

Sport Slants by Pap

Leo Leads... by Pap

For seven years Horace Stoneham, owner of the New York Giants, went along with Mel Ott as his manager. Popular and capable, Ott handled his players with kid gloves and, in most cases, with greater patience and consideration than the individual players deserved. When Stoneham decided to make a change, he went all the way and brought Leo Durocher to the Polo Grounds. Ott and Durocher are as unlike as day and night.

Durocher must have known that he had two strikes on him when he succeeded Ott. Leo was through in Brooklyn and the opportunity with the Giants was perfectly timed. He'll have to produce in a hurry or the wolves will make his life miserable. The players will get used to his methods and will hustle to give him

South America Road Race Winner To Collect \$25,000

Once Blind, Now He Is Grid Star

Buenos Aires—(AP)—There's a speeder's paradise coming up in South America—6,000 miles of road without a speed limit. And with a \$25,000 prize at the end for the fastest driver.

That's the outline of the Buenos Aires-to-Caracas road race, which will cover about two-thirds of this continent.

The race will be held in October or November, the early summer in the southern hemisphere. Nearly 160 drivers entered the last international road race here—from Buenos Aires to Santiago, Chile and back. In addition to the grand prize, another \$100,000 will be passed out to the entrants in this race, and even more than 100 drivers are expected to try to collect some of it.

The one catch in the race is the condition of the roads. They are all passable but not much more. Most of them are dirt or gravel, narrow, winding and alternating desert stretches with mud. They will make heavy demands on the U.S. made stock cars which are used to road racing here.

Stock cars stand up better than racing cars on rough roads and repair parts for the common U.S. makes are available all along the route.

Luigi Villorri, Italian racing driver who has won many road races here, will be the favorite for the event. He has not decided whether to drive an American stock car, a European car or his Maserati. The Maserati has carried him to victory in his other races, but they have been over city streets or park roads.

Over the poor roads in this race, Villorri will be on more even terms with the top Argentine drivers, and the Brazilians, Chileans and Uruguayan drivers who will enter.

The race is being sponsored by the Argentine Automobile Club, which is putting up most of the prize money. Argentina's President Juan Peron has given \$25,000 to be distributed as lap prizes. There will be 14 actual racing with two days' rest in each of four cities along the way. Longest drive will be the first day's stage, 1089 miles. Each day's time will be added to determine the winner.

Noted Shortstop Died On Birthday

Orlando, Fla., July 28—(AP)—Joe Tinker, who won baseball immortality as a member of the Chicago Cubs infield in the early 1900's, died here yesterday on his 68th birthday.

Death came to the noted shortstop shortly after attendants at Orange Memorial hospital reported an improvement in his condition. Tinker entered the hospital 10 days ago for treatment of a respiratory ailment which no one considered dangerous.

The man who started the famous Tinker-to-Evers-to-Chance double-play for the Cubs was cheerful to the last, despite his impaired health. He had suffered from diabetes for several years and his left leg was amputated last summer because of an infection.

Baseball men throughout the nation expressed sorrow at the death of the last survivor of the Tinker-to-Evers-Chance combination, and Tinker's plaque in the baseball hall of fame at Cooperstown, N. Y., was draped in black.

Born in 1880, Tinker started in organized baseball with Coffeyville, Kan., when he was 19. Three years later, in 1902, he made the major league grade with the Cubs and played with them through 1912. He managed the Cincinnati Reds in 1913 and the Chicago Cubs in the old Federal league in 1914-15.

Czech Runner Is Face-Maker; But Keeps On Trying

London, July 28—(AP)—U.S. Olympic track athletes got their first glimpse of Emil Zatopek, Czechoslovakian favorite in the 5,000 and 10,000 meter runs, yesterday and are almost frightened by what they saw.

Zatopek is without question "the face-making" runner that the Olympics ever has seen.

He starts off at a fast pace but always looks as if he will fall on his face on the very next stride—actually the very next shuffle. And he starts right off making faces.

He closes his eyes. He twists his mouth. He grins. He frowns. He talks to himself. He huffs. He puffs. He wrinkles his brow. His balding forehead moves.

But so do his feet. He is always trying to get the farthest in the least amount of time.

At the end of the first 1,000 yards the Americans were positive he was all through—with the practice and the Olympics as well. He took his breath in gulps. He exhaled in great gasps. His tongue was between his teeth. But he kept on running.

That was how he actually ran Will Stijhs of Holland, into the ground at Prague in a June 5,000 meter race. The Dutch runner passed the 3,000-meter mark and then started walking. At that point Zatopek was within eight-tenths of a second of the world record. The Dutchman had perfect form. Zatopek staggered all over the track, appeared to be in agony. But it was Stijhs who quit and Zatopek who finished in just a shade over world record time.

Announce Result Of Track Inquiry

Cumberland, Md., July 28—(AP)—Joseph F. Flanagan, Maryland Racing Commission Steward at Fairgrounds here, announced last night an investigation of the spill which caused the death of Jockey Benny Leggett here Saturday showed:

1—Alpine Boy, the 12-year-old gelding which bolted into the rail and spilled Leggett, is blind in its right eye, but can see from its left eye.

2—That two track veterinarians examined the horse before the race Saturday and found him fit to run.

3—That the same two veterinarians checked Alpine Boy again yesterday, and saw "no apparent change" in the horse's condition.

4—That the horse had been barred from racing in West Virginia, just so far as Flanagan had been able to determine, that fact had not been reported to the Maryland commission.

5—That witnesses available had found the horse's tack in good condition after the spill.

Who Wants A Snake?

Philadelphia, July 28—(AP)—"I'm seeing snakes," a man shouted to police over the telephone today. "It's at least 15 feet long and coiled on the window ledge," he persisted.

Patrolman Sigmond Weinberg went to see.

Sure enough, there was the snake. But when it dropped to the sidewalk, Patrolman Weinberg could measure only six feet.

The patrolman rustled up a cardboard box and pushed in the snake with a three-foot stick.

"Now what you going to do?" asked a pedestrian.

"Find the owner," said Weinberg. At the first door, Weinberg tipped his hat and said "I got a snake here."

Mrs. Israel Gold fainted. Weinberg went next door.

Strikes greeted his announcement there.

Weinberg pondered the problem on the sidewalk.

Up walked a man: "What's going on?"

Weinberg carefully put the box on the sidewalk, lifted the lid and pointed: "It's a snake."

"Oh, is that all. That's just an ordinary harmless blue racer. I'll be glad to take it off your hands," the man said.

"It's yours," said Weinberg. He didn't even stop to get his benefactor's name.

Evening Schedule Is Resumed By Transit Company For Area

Greenville's local bus company took the first step in its current program to give the city better bus service last night with the resumption of service between the hours of 7:00 and 9:30 in the evening.

It was announced by James R. Worsley, who is serving as one of the members of the transit company's recently appointed operating committee.

He explained that the renewed evening schedule is not a part of the general schedule revision under discussion, but is simply a continuation of the present 40 minute schedule which will remain in effect until details can be worked out for the thorough reorganization of the routes which is contemplated.

Under the schedules, which went into effect last night, the last bus in the evening for West Dickinson Avenue and Chestnut Street will leave Five Points at 9 p.m. A bus will leave Five Points at 9:20 p.m. every evening for the Airport Road, and another bus will leave at the same time for West Fourth, Tyson, Long, Broadway, and Charles Streets and return to Five Points.

Buses will also leave from the baseball park for Five Points immediately after the end of all night baseball games played in Greenville. Complete schedules for the entire day including the evening runs are posted at Five Points.

"Bus operations after 7 p.m. in the evening was abandoned earlier in the summer because the number of passengers did not justify the expense," said Worsley while expressing the hope that enough people would ride when the new schedule is begun to make it possible to run the buses at night permanently.

Over 700 Modern Planes To Meet At New Airport

New York, July 28—(AP)—From air bases across the country, military planes will converge on New York City Saturday to take part in the biggest demonstration of American air power since the war.

President Truman, cabinet members, Republican presidential candidate Thomas E. Dewey, high army officials and a host of foreign emissaries will watch the display.

The show is in observance of the opening of New York International Airport, the world's largest.

A heavy guard of 1,500 New York City policemen have been assigned to protect the President and other dignitaries who will occupy the reviewing stands during the 35-minute demonstration.

Staging its first mass review since unification of the armed service, the independent Air Force will put 700 planes in the air, including almost 200 B-29's ordered here from points as far as New Mexico and Arizona.

Navy and Marine Corps fighters and torpedo bombing craft will be part of the force of more than 1,000 airplanes that will rendezvous over the Atlantic, and then roar in over Long Island.

Shooting Stars, peeling off one by one from 3,500 feet, will stage a five-minute demonstration of jet dive bombing at targets a few hundred feet in front of the stands. An aircraft carrier deck will be reproduced on the field to show catapult and deck landing techniques.

Can't Control . . .

(Continued from Page One)

far as they can for the present.

Such an easement wouldn't mean an end of the cold war but merely an armed truce. So long as a powerful Red dictatorship remains in control of Russia, just so long will the Communist world revolution continue.

And the Red dictatorship will remain until the people under it decide that they have had enough and take matters into their own hands.

The trend of the German situation is likely to give us a fair gauge of Russia's intentions. She is bent on securing domination of Germany, and scarcely can be other than greatly disturbed by the way in which the three Western democracies have gone ahead with the organization of an independent government in their zones. It wouldn't be surprising to see the Muscovites make a gesture of playing ball with the allies in order to secure concessions and gain time to inaugurate counter action.

Norman Thomas Says 'Mistake' If Nothing Done

New York, July 28—(AP)—Norman Thomas, Socialist Presidential candidate, says Southern Democrats and GOP Congressmen will "make a great mistake if they fail to act" on President Truman's anti-inflation program.

Thomas said yesterday in a statement that he supports the anti-inflation President's program "as far as it goes, but it is inadequate, and his discussion of inflation is superficial."

"He cannot take the credit he took at Philadelphia for American prosperity," Thomas said, "and then denounce inflation as solely due to legislative failure."

Thomas said yesterday in a statement that he supports the anti-inflation President's program "as far as it goes, but it is inadequate, and his discussion of inflation is superficial."

HOW U.S. TRUST FUNDS GROW

Wallace Critical Of Truman Order

New York, July 28—(AP)—Henry A. Wallace says President Truman's executive orders aimed at eliminating discrimination in the armed forces and calling for a fair employment practices system for federal employees are only "gestures."

The anti-discrimination order is "an empty gesture" and the employment order "another obvious political gesture," the New Party presidential candidate said in a statement yesterday.

"Mr. Truman's nightmares over the rapid growth of the Progressive Party," Wallace said, "have forced him to face the issue of discrimination, but once again he has made only an empty gesture. He was written into executive order the language of the South. He x x x falls utterly to attack the heart of the matter—segregation. x x x"

Commenting on the President's order concerning a fair employment practices system, Wallace said: "His belated effort to establish an FEPC in government service, issued on the eve of his politically created special session, is another obvious political gesture—and a Milquetoast one at that."

Anti-Inflation . . .

(Continued from Page One)

wiped them out last November. Now Mr. Truman wants them back.

The Administration argues that widespread buying on credit helps boost prices because it means more things being bought up.

6. Bank credit. Mr. Truman asked Congress to give the government's Federal reserve system greater power to regulate bank credit.

So far, the most the federal reserve has compelled a bank to set aside is 24 percent. It still has a 2 percent margin it can use.

But Mr. Truman is asking for power to compel banks to set aside even a higher percentage and thus reduce lending that much more.

7. Mr. Truman asked for authority to regulate speculation on the commodity exchanges—such as those dealing in cotton, wheat, and so on.

With this power, the government could say, for instance, that anyone speculating—which means buying a commodity for profit instead of for use—would have to put up a margin—or down payment—of maybe 50 per cent of the price of the commodity he was buying.

The government has no such power to put a brake on speculation although the exchanges themselves set their own requirements on margins.

8. The President has asked power for "allocation and inventory control of scarce commodities."

Rites For Sidney B. Davis Here Thursday

Mr. Sidney B. Davis, 73, died in Veterans Hospital in Kecoughtan, Va., at 3:30 o'clock Tuesday morning following three months of illness.

Funeral services will be conducted at the home of his sister, Mrs. W. I. Skinner, 430 W. Fifth Street, Thursday afternoon at five o'clock by the Rev. Roscoe C. Hauser, rector of St. Paul's Episcopal Church, and burial will be in Greenwood Cemetery.

Mr. Davis was born in Wilson, attended the Wilson City schools, and entered the United States Army about 1912, serving in the war with Mexico and World War I in the European Theatre. He then made his home in Greenville and was employed by the Imperial Tobacco Company for several years.

Surviving are his sister, Mrs. W. I. Skinner of Greenville, and a brother, J. L. Davis of Washington, D. C.

Active pall bearers will be J. N. Williams, Gus Forbes, D. E. Jones, Jack Foley, W. Z. Morton, Guy Smith, Joe S. Moye and Yock Joyner.

Grain Market

Chicago, July 28—(AP)—Buyers wanted cash corn here today and they bid up prices for it. One result was an early strengthening in prices for corn futures on the board of trade. But a large part of the gain in both corn and other grains was lost in late dealings.

Wheat closed 1/4 lower to 1/2 higher, September \$2.28 1/2-3/4, corn was 1/4 lower to 2 cents higher, September \$1.74 1/2-3/4, oats were 1/4 to 1 cent higher, September 75 1/2-3/4, rye was 4 cents lower, December \$1.76, and soybeans were 1 to 5 cents lower, November \$2.82-\$2.81.

Imagine! Less than 1 penny a person a day for

AUTOMATIC HOT WATER!

NO GAS OR ELECTRIC CONNECTIONS NEEDED!

IT'S TRUE! The new Duo-Therm Automatic Fuel Oil Water Heater supplies the average family of four with plenty of hot water for less than 4¢ a day—and no gas or electric connections are needed!

So wherever you live, you needn't wish for the comforts of automatic hot water any longer. Come in and select your Duo-Therm Water Heater from our stock of brilliantly beautiful, strikingly styled new models finished in gleaming white enamel! Four sizes to choose from!

N.Y. Stock Market

New York, July 28—(AP)—The stock market moved ahead with faltering steps today. Gains had a slight edge over losses but changes either way were mostly in fractions.

Selected oil and railroad issues bid fairly well. Turnover for the full day ran in the neighborhood of 900,000 shares.
