

President Says Spy Probe Is Legislative 'Red Herring'

Declares It Is Taking Attention From Lack Of Action On Inflation; Asks GOP Leadership To Reconsider Plans For Quick Adjournment

Washington, Aug. 5 (AP)—President Truman today called the congressional "spy" investigations a "red herring" to divert attention from lack of action on inflation.

In a written statement, the President asked the Republican congressional leadership to reconsider present plans for "quick adjournment" of the special session.

"There is still time for the Congress to fulfill its responsibility to the American people," Mr. Truman said. "Our people will not be satisfied with the feeble compromises that apparently are being concocted."

"His remarks on the Communist investigations were delivered off-hand at a news conference. He said neither Senate nor House inquiries have developed anything not already known to the FBI."

"What has been brought out in testimony to the committees proved insufficient to indict those accused," he remarked.

"This was in reference to the fact that a New York grand jury has heard most, if not all, of the stories now being unfolded before the congressional committees."

Mr. Truman said the committee hearings have slandered a lot of people and done irreparable harm. He said that no information has been revealed that has not been known for a long time.

The President said that all but two of those named as Communists in the hearings have left the government's service. And those two, he said, have been placed on leave without pay pending inquiries.

The committee report, he continued, is serving no useful purpose whatsoever.

Mr. Truman allowed reporters to go on the words "red herring" he used to describe the hearings.

New Approach

Moscow, Aug. 5 (AP)—A new approach by the Western powers—probably in the form of a request for a new meeting with Prime Minister Stalin—may be made soon, a qualified source said today.

The American, British and French envoys negotiating with the Russians on the German situation have received first reactions from their capitals to Monday night's talks with Stalin. The reactions are a secret.

A high authority said the reactions were reviewed last night at a three-power meeting here. It is not known whether the Westerners intend to ask the new meeting with Stalin for the purpose of giving their answer to questions discussed Monday night, or to negotiate further.

It is believed likely that they want to give their answer. A good authority said the three-power meeting last night got down to basic issues and final terms.

Washington, Aug. 5 (AP)—Rep. Rankin (D-Miss) proposed today that House investigators call Henry A. Wallace for questioning about the "placing of Communists" in "key positions" in the Commerce Department.

Rankin said in a statement that the House Un-American Activities Committee has received testimony that a large number of individuals "charged with being Communist spies" worked in the department during the time Wallace was secretary of commerce.

Rankin said these persons were evidently appointed by Wallace. Therefore, he said, the Progressive Party presidential candidate should be subpoenaed to "tell us why these Communists who were plotting the overthrow of the government were placed in key positions in his department at a time when our young men were fighting and dying in every battlefield in the world for the protection of this country."

Rankin got out his statement as the House committee prepared to resume its hearings on alleged Communist activities in the government.

Rep. Mundt (R-SD) disclosed the committee is making some quiet inquiry into whether there is a present "Communist ring" in the government.

Rep. McDowell (R-Pa) told the committee that there was much more to the Communist story than has been brought out.

"As chairman of a special subcommittee of this committee," he said, "I can attest that at the very height of my research in the very shipments of uranium compound were made to Russia after tremendous pressure on all phases of our government from known Russian agents and others who had worked themselves into positions of importance."

Suggests Wallace Give Testimony On Red Spy Ring

Wallace Appointees Implicated; Atomic Materials Sent To Russia

Washington, Aug. 5 (AP)—Rep. Rankin (D-Miss) proposed today that House investigators call Henry A. Wallace for questioning about the "placing of Communists" in "key positions" in the Commerce Department.

Rankin said in a statement that the House Un-American Activities Committee has received testimony that a large number of individuals "charged with being Communist spies" worked in the department during the time Wallace was secretary of commerce.

Rankin said these persons were evidently appointed by Wallace. Therefore, he said, the Progressive Party presidential candidate should be subpoenaed to "tell us why these Communists who were plotting the overthrow of the government were placed in key positions in his department at a time when our young men were fighting and dying in every battlefield in the world for the protection of this country."

Rankin got out his statement as the House committee prepared to resume its hearings on alleged Communist activities in the government.

Rep. Mundt (R-SD) disclosed the committee is making some quiet inquiry into whether there is a present "Communist ring" in the government.

Rep. McDowell (R-Pa) told the committee that there was much more to the Communist story than has been brought out.

"As chairman of a special subcommittee of this committee," he said, "I can attest that at the very height of my research in the very shipments of uranium compound were made to Russia after tremendous pressure on all phases of our government from known Russian agents and others who had worked themselves into positions of importance."

One shipment was of 300 pounds and the other 1,000 pounds, McDowell said. They went, he added, "from a small obscure airfield in this country."

The subcommittee also has established "almost beyond question," McDowell continued, that shipments of heavy water were made to Russia during the war. Heavy water, he explained, is a substance used in atomic research.

"This is only the beginning of the story," he said. "The infiltration also was deep in the State Department, the Treasury Department, the War Production Board, and even into the Office of Strategic Services of the United States Army."

Kurusu's Daughter Weds American

First Lt. William Maddox, 28, of Washington, D. C., poses with his Japanese bride, Jaya Kurusu, 27, after their marriage in Tokyo. She is the daughter of Saburo Kurusu, Japanese envoy who was negotiating in Washington at the time of Pearl Harbor. The Newbys will live in Fukushima, Japan, where Maddox is economics officer of military government unit. The bride's sister, Pia, 22, was married to an American, former Lt. Frank White, August 14, 1947. (AP Wirephoto).

Prosperity With High Leaf Prices

Atlanta, Aug. 5 (AP)—The pipe dreams of many a tobacco farmer in South Georgia and Northern Florida are coming true.

Already nearly half the crop—50,440,292 pounds—has been sold for an average price of 52.05 cents a pound. That's the highest average since the state department of agriculture began keeping records 23 years ago.

So with each passing day the sun-grown, flue-cured golden leaf is stimulating farmers to visions of mortgage burnings, new clothes, new equipment and even, maybe, new cars.

Banks in the area say mortgages are being paid off rapidly and many a farmer in faded denim has hired his wife and brood into stores for new outfits.

The market opened July 23 and the prospects of a short crop—around 106,221,000 pounds—plus a heavy demand for cigarettes and cigar-type leaf drove prices to an opening day record.

Some bids went to 67 cents for the best leaf that day, but the offerings of some nondescript leaf brought the average down to 53.20 cents.

Even so that was 12 cents a pound higher than the previous opening day and since then prices have held firm.

The price was so good, in fact, that one farmer from Virginia, Garnet Osborne of South Boston, loaded part of his crop in a plane and flew it to the market at Douglas, Ga.

27 New Cases

Raleigh, N. C., Aug. 5 (AP)—Reports of 27 new cases of Infantile Paralysis were received by the state board of health today. The total number of cases for the year mounted to 1,199.

Two more polio deaths, both of Guilford county residents, were reported. They brought the polio death toll for the year to 65.

House Approves Substitute Bill

Washington, Aug. 5 (AP)—The House today passed a Republican anti-inflation bill after blocking any consideration of President Truman's limited price, rationing and wage control program.

The vote was 264 to 97, or 23 more than the two-thirds necessary for passage under a suspension of the rules that limited debate to 40 minutes and barred all amendments to the GOP measure.

Just before its passage, President Truman assailed the bill as "feeble compromises" in the light against inflation, and some Democrats predicted a prompt veto.

The bill was sent to the Senate under a topseeded GOP time table that aims at adjourning the special session of Congress Saturday night.

It provides: 1. A return to wartime curbs on time payment buying, as the President had asked.

2. Moderate tightening of bank credit, on a smaller scale than Mr. Truman proposed.

3. A boost in federal bank gold reserves—the focal point of administration opposition.

Republican Leaders Indicate Hope Of Quick Adjournment

Russians Set Up New Road Blocks On Zonal Border

Even Small Roads Cut Off From Berlin; Records Made In Air Lift Effort

Berlin, Aug. 5 (AP)—Border police said today the Russians are putting up more road blocks on the British-Soviet zone border near Lueneburg.

A dispatch from Hamburg, reporting this development, said small roads crossing the border in the area are being closed. The Russians are digging ditches through the roads and felling trees across them, the police said.

The Russians said 43 trains would be made available for exhibitors and buyers from Western Germany at the Leipzig Fair in their zone late this month. A U.S. transport official predicted no train would be permitted to leave the American zone for the Fair unless the Berlin blockade is lifted.

Three Americans who wandered into the Soviet zone of Berlin were released after the Russians held them three days. A fourth man still is being held, the U.S. provost marshal's office said.

The United States and Britain stepped up their air lift yesterday.

The Americans smashed their own record again yesterday, carrying in 2,104 tons of supplies in 303 flights. U.S. Air Force headquarters said. The RAF made 242 flights in the same 24-hour period, carrying an estimated 1,000 tons.

American, British and French envoys conferred for three hours in Moscow last night on their next step in negotiations with Russia.

Frank Roberts, the special British envoy, received U. S. Ambassador Walter Bedell Smith and French Ambassador Yves Chateaubriand at the British embassy. Smith was accompanied by U.S. Embassy Counselor Foy Kohler.

Informants said the three envoys may have discussed whether to seek another appointment with Stalin in order to inform him of the view of their home governments.

It was reliably reported yesterday that one of the three embassies—which one was not specified—already had received the first official reaction to the talks with Stalin Monday night.

New Version

Washington, Aug. 5 (AP)—The Senate Banking Committee today threw out a housing bill prepared by a Senate-House subcommittee and voted to send an amended version of the Taft-Elliender-Wagner bill to the Senate floor.

Chairman Tobey (R-NH) said the surprise action was taken by a 7 to 5 vote.

Senator Flanders (R-Vt) offered the motion to substitute an amended version of the T-E-W bill for the subcommittee bill drafted principally by Senator McCarthy (R-Wis.).

The T-E-W bill contains provisions for slum clearance and public housing. The subcommittee bill did not.

It was understood before the committee meeting that McCarthy's measure had been given tentative approval by key Republicans in both Houses.

Prices Hold Up On Border Belt Offerings Heavy; Today's Averages May Equal Wednesday's

By The Associated Press

Prices were firm again today on the Carolina flue-cured border belt. Offerings were heavy.

Reports from warehouse floors indicated today's averages would approximate the \$58-odd per hundred pound figure set on yesterday's sales.

Darlington said quality there was much better than last year, with a predominance of good smoking leaf. Comparable reports were received from Whiteville and other markets through the belt.

Kingtree reported a \$75 high on one basket there.

Saturday Is Target Date If Approval Can Be Won For Three-Item Agenda

Washington, Aug. 5 (AP)—Republican leaders dangled a tempting reward—adjournment Saturday—before a campaign-minded Congress today.

To win the prize, they asked lawmakers to give high-speed approval to these things:

1. A GOP anti-inflation program limited to controls over time payment buying and some tightening of bank credit through added reserves.

2. A housing bill aimed at government aid in producing more homes in the \$4,500 to \$6,000 class.

3. A \$65,000,000 loan to the United Nations to build some of the mealy structures needed for the New York City headquarters site.

Senator Taft of Ohio, chairman of the Republican Policy Committee, told a reporter "there is a good chance" that the entire program can be pushed through in time to end the special session this weekend.

He added, however, that he does not want another late Saturday night session like the June wind-up.

One of the major obstacles to ending the "Turnip Day" session called by President Truman was hurled late yesterday when the Senate put the anti-poll tax bill back on the shelf.

A score of Southern members had tied up the Senate for five days by filibuster tactics.

Republican senators agreed at a long morning huddle to drop the civil rights battle for this year. But the actual sidetracking didn't come until late in the day.

Just as the filibuster was news against the anti-poll tax bill itself—only against a motion to take up the bill—the end of the battle came on a parliamentary maneuver, too.

Tar Heel Plans To Manufacture Three-Wheel Car

Oxford, Aug. 5 (AP)—A three-wheeled automobile, to sell for less than \$800, will be in production here late this month.

C. D. Gill is president of the Tri-Wheel Corporation of Oxford which will manufacture the vehicle.

Top speed of the machine is 40 miles an hour. Gill has designed it to meet the needs for quick city delivery of light loads.

A two-cylinder job, it has a single seat in front. The air-cooled motor is 1 all other equipment are standard automotive parts.

The utility model for three passengers has two seats in the rear. Initial production will be at the rate of 50 per month, with an ultimate goal of 500 a month.

Hickory Has Second Deluge In One Week

Hickory, Aug. 5 (AP)—Some minor property damage resulted here from Hickory's second deluge this week when almost four inches of rain fell between four p. m. and eight p. m. Wednesday. Most of the harm was to lawns, streets, bridges and culverts. Monday night over six inches of rain fell here.

United States Asks Full Share In Danube Control

Belgrade, Aug. 5 (AP)—The United States demanded today a full share in the Western powers' control of Danube River shipping. She accused Russia of trying to impose a monopoly by the Communist states of Eastern Europe.

U.S. Ambassador Cavendish Cannon placed before the 11-nation Danube conference the American plan for the river. But first he denounced a Russian proposal, introduced previously, as giving Russia and all her neighbors "special privileges" in Europe's most important waterway.

The American plan would provide for a Danube commission of 11 nations: Austria, Bulgaria, Czechoslovakia, Hungary, Romania, the Ukraine, Russia, Yugoslavia, France, the United States and Britain. Under the Soviet plan, the membership would be limited to the Danube countries, excluding Austria until a peace treaty is signed.

The American proposal would give Germany a seat when that country gets a peace treaty or before that time if agreement can be reached by other members of the commission.

Adrien Thierry, chief French delegate, said he was glad the U.S. plan. He defended in a speech at the 1921 Danube convention of Paris which the Russians are trying to void. He insisted the United States must be protected.

Cannon, chief of the American delegation, told the conference that the U.S. proposal for future control of the river "is inadequate to assure that freedom of navigation to which all of us are committed."

Clark Gable's Father Dies; Heart Ailment

Van Nuys, Calif., Aug. 5 (AP)—Death has taken William Henry Gable, 78-year-old father of actor Clark Gable.

Berlin Finance Blockade Eased In Soviet Move

Berlin, Aug. 5 (AP)—The Russians related today their financial blockade of Berlin for the present.

The Soviet action came on the third day after western envoys had talked in the Kremlin with Prime Minister Stalin.

It indicated the Russians might be willing to compromise on the east-west currency war, which the Russians assigned as a reason for imposing a land blockade on the strif town city.

Charles Giffard, British finance officer, told a news conference the anti-Communist city government of Berlin had reached an arrangement for the release of enough funds from blocked Russian bank accounts to meet its weekend payments.

Nashville, Tenn., Aug. 5 (AP)—Tennessee Democrats and Republicans name their choice for United States senators and governor today in a primary election expected to provide a major test for the E. H. Crump Democratic organization at Memphis.

'Write In' Votes Said Possible For Dixiecrats

Raleigh, N. C., Aug. 5 (AP)—Possibility that States Rights Democrats could stage a "write in" campaign for their candidates if they fall in efforts to get on the ballot was discussed here today.

One source who asked not to be quoted by name, said it might be possible for the States Rights Democrats to file their list of Presidential electors with the Secretary of State. Then, he added, it might be possible for those who wish to vote for Gov. Strom Thurmond of South Carolina for President and Gov. Flanders Wright of Mississippi to write their names on the ballots.

Secretary of State Thad Bore, however, said "I don't know that I'd accept such a list of electors," adding "that's a bridge that would have to be crossed when I get to it."

Arabs Invited To Confer On Peace

Tel Aviv, Israel, Aug. 5 (AP)—Israel's government asked Count Folke Bernadotte today to transmit its invitation to the Arab nations for peace talks.

Union Demands Enforce Closing Of Famed 'Met'

New York, Aug. 5 (AP)—The internationally famous Metropolitan Opera has cancelled plans for its 1948-49 season after failing to reach agreement with unions representing its employees.

Officials of the Met, one of America's most distinguished musical institutions, said union demands for wage increases could not be met.

Declaring it was faced with a "large deficit" for the coming season, the opera associates said: "To increase this deficit by meeting further demands involving still higher costs of production would, we believe, be imprudent to the point of irresponsibility."

Closing of the Met, on whose stage the world's most celebrated singers have performed, stunned opera lovers and artists alike.

Plan Drive On Housing Bandits

Washington, Aug. 5 (AP)—U. S. District Attorneys and Federal housing expeditions from all parts of the country met here today to map a new drive against chiseling in veterans' housing.

The Justice department, which arranged the conference, said its aim is "an all-out campaign against those individuals who have violated federal laws in the construction, sale and financing of veterans' homes."

AT FLOOD STAGE

Rock Hill, S. C., Aug. 5 (AP)—The Catawba river near here reached flood stage during the night and spilled out of its banks in spots, but no immediate damage was reported.

Clears Tojo Of 'Mistreatment'

Tokyo, Aug. 5 (AP)—Gen. Jomanto Wainwright, retired hero of Bataan, has sent a message to wartime Premier Hideki Tojo absolving him of personal responsibility for mistreatment Wainwright received while a prisoner. Tojo's attorney said today.

"Wainwright said: 'Tell Tojo that as one general to another, I want him to know that I do not hold him personally responsible for treatment I received while a prisoner of war. I know that as premier and war minister he could not be expected to know about such details.'"

Victory By Filibuster

Civil Rights Program Dead And Buried, For 1948; Poll Tax Fight In Senate Out Of All Proportion To Its Own Importance; Main Points Of Big Argument

By JAMES MARLOW

Washington, Aug. 5 (AP)—President Truman's civil rights program—at least so far as Congress is concerned—is dead for 1948.

It was buried yesterday, without flourish, when the Senate surrendered to a filibuster by Southern Democrats against an anti-poll tax bill.

This ended another year of muck talk, great heat and no action in Congress on the subject of civil rights for Negroes in the South.

The Southern Democrats—by grabbing the floor and holding it since last week—talked against the bill to outlaw the poll tax—had kept the Senate from doing anything else.

The Republican leaders, in the Republican-controlled Senate, decided yesterday they had to get on with other things. So they yielded to the Southerners and dropped the bill. They promised to change the rules next January so they could shut off the Southern talk and snip pass the bill.

But since that was the only item in Mr. Truman's civil rights program the Senate intended to tackle anyway at this special session, the whole program was thrown out of the window for the rest of 1948.

Enemies of the poll tax argue only way: 1. In this country a man should be free to vote without having to pay a tax to do it.

His Swears He Is No Communist

Washington, Aug. 5 (AP)—Felix Hiss, former state department official, testified under oath today that "I am not and never have been a member of the Communist party."

Hiss put in his official denial to the House un-American activities committee.

Considerable Jump In Lincoln Tax Rate

Lincoln, Aug. 5 (AP)—The Lincoln County Board of Commissioners yesterday raised the county tax rate from \$1 to \$1.39.

Will Campaign In Barkley's State

Jackson, Miss., Aug. 5 (AP)—States' rights Democrats will open their national campaign in Kentucky—home state of Democratic vice-presidential candidate Alben Barkley—next week.

Menace Helping Ideal

Dread Of Communism Starts Vision Of United States Of Europe On Its Way To At Least Partial Materialization; Notable Indications Of Trend Are Manifest

By DeWITT MacKENZIE

For close to 150 years idealistic statesmen have dreamed of and labored for a United States of Europe. But ironically enough it has taken the frightful menace of Communism to start this vision on its way to partial materialization.

Western Europe has started a swing towards a confederation of democracies which are making concessions in sovereignty for the common welfare.

Two further notable indications of this trend were given yesterday. Italy's free thinking, outspoken foreign minister, Count Alcide De Gasperi, stated that in order to effect a European union his country is ready to take the lead in accepting "curtailment of its political sovereignty, even in the most unexpected aspects." About the same time French Foreign Minister Paul Reynaud said he hoped Britain would come out in full support of a United States of Europe next autumn, after the dominions conference in London.

Of course these pronouncements aren't the first positive developments along this line. There was the sensational formation of the five-nation Western European union some five months ago, when Britain, France, Belgium, Holland and Luxembourg formed an alliance which was hailed by many observers as giving a decided fillip to the idea of a union for the whole of Western Europe, and received the blessing of the United States.

This Western European combine neatly complemented the union of 16 European countries which had banded together in support of the Marshall Plan. Indeed, time may demonstrate that America's European recovery project provided the nucleus for a United States of Western Europe—and perhaps finally European union in the happy days when Communism has had its run and the continent has returned to freedom.

Italy's adherence to the Western European bloc is equally a striking development in view of her powerful Communist party which at one time seemed about to deliver her into the hands of Moscow.

Raynaud has some encouragement in his expressing hope that Britain will give full support to a United States of Europe.

# 40 Years Ago Today

THE DAILY REFLECTOR August 5, 1908

A happy and jolly band of young people, most of them from Eastern North Carolina, returned last Thursday from Ocean View where they enjoyed a most delightful stay for eleven days. The motto of the party was "Let us live as long as possible each day we are here." Among those participating in the pleasures of the party were Misses Minnie Bagwell, Raleigh, Margaret Redmond, Tarboro, Clyde Stancill, Hill, Effie Grimes, Bethel, Messrs. Judson and Marvin Blount, Bethel.

plant in Clinton last Tuesday with Miss Betsy McKenzie and Mrs. M. H. Potter of Snow Hill as joint hostesses. Mrs. Milton Dixon, a recent bride, shared honors with Miss Edwards. Summer flowers and lace ferns were used in the decorations. Bridal place cards were used. Gardenia corsages marked the places of the honorees. The hostesses presented them with gifts of silver in their chosen pattern. A three-course luncheon was served 12 guests, including relatives and close friends.

Fifty percent of all highway accidents occur after dark.

Miss Sarah Helene Kirkpatrick was selected Miss Atlantic Beach for the week of July 28. She was presented a beautiful coronation, crown and a lovely bouquet of flowers. Miss Kirkpatrick was awarded a plane trip and a week-end at the Ocean King Hotel.

# Entertainers Will Be At College Tonight

The Ambassador Male Quartet and Swiss Bell Ringers will appear at East Carolina Teachers College this evening at 8:00 o'clock in the Austin auditorium.

The College Entertainment Committee, sponsor of the program, extends an invitation to the public to attend the program. There will be no charge for admission.

A program of classical and popular vocal music will be given by soloists of the group and by the quartet. Selections played with Swiss bells will include such popular favorites as "The Bells of St. Mary's," "Sweet and Low," "To a Wild Rose," and "Melody in F." Other numbers will be works by Brahms, Schumann, Gounod, Wolfe and Kern and several groups of spirituals and folk songs.

# Attend President's School For 'Y' Officers In New York

## Textile Pay Hike Spreads In Mills

By The Associated Press  
The third-round wage increase pattern of eight per cent started by the Dan River mills of Danville, Va., has spread to other Southern Textile mills under contract with the CIO Textile Union of America.  
Roy Lawrence of Charlotte, N. C. Southern director for the Union, announced yesterday that the Cone and Erwin Mills of North Carolina had agreed to the eight per cent hike.  
The Cone agreement affects 8,000 workers in 10 plants at Greensboro, Gibsonville, Reidsville, Haw River and Pineville.  
Erwin has 5,500 unionized workers at six mills in Durham, Cooleemee and Erwin.  
Lawrence also said that two Georgia mills, Goodyear at Cedartown and Clark Thread at Albany, had granted eight per cent boosts.  
Burlington Mills, through President J. C. Cowan, Jr., of Greensboro N. C., said in a news statement last night "in rayon and cotton weaving, which is a major part of our business, the pattern seems to have been pretty well fixed and we would expect to fall in line with this as soon as all details can be worked out."

## More Boll Weevil Noted In Cotton

Raleigh, Aug. 5—(AP)—A marked

Blended Canadian Whisky, 66.8 proof. Schenley Import Corp., New York, N. Y.

increase in boll weevil infestation of cotton fields in North Carolina has been noted recently, James T. Conner, N. C. State College Extension Service entomologist, reported today.

The increase was noted particularly in Scotland, Robeson, Hoke, Sampson and Cumberland counties. Counties in the northern section of the state showed a very light infestation, Conner said.

## Dixicrate Plan Added Invasion

Columbia, Aug. 5—(AP)—Gov. J. Strom Thurmond's states rights Democrats, temporarily rebuffed in North Carolina, today made battle plans for invading two other states, Louisiana and Kentucky.

Assured of 50 electoral college votes from Alabama and Mississippi, leaders of the movement yesterday said they would place Thurmond's name on presidential ballots in Kentucky and Louisiana.

In each state, only 1,000 names are needed on petitions before the state righters can enter the general elections in November.

Judge Merritt Gibson of Longview, Tex., campaign manager, foresaw little difficulty in qualifying for the ticket in Kentucky, home state of President Truman's running mate, Sen. Alben Barkley. He said the new party would obtain the signatures quickly.

Sympathizers of the party in Louisiana yesterday drafted preliminary plans for going before their state voters. A committee was named to canvass the state for elector candidates pledged to Thurmond and his vice-presidential candidate, Gov. Fielding L. Wright of Mississippi.

North Carolina supporters of Thurmond meanwhile planned to take their unsuccessful attempt to qualify for the general election to the state's supreme court.

## Term 'Spy Scare' A Plot For War

New York, Aug. 5—(AP)—The American Communist party says current Congressional investigations are part of a "spy scare" designed to start an atomic war.

In a resolution adopted yesterday at the Communist's 14th National Convention, the party said:

"This 'spy scare' is even more than a circus sideshow. It is part of a bipartisan conspiracy to subject the American people to the force and violence of atomic war."

The resolution labeled as "fakery" the anti-Communist testimony given in the Washington hearings, and said that "labor spies and stool pigeons have been repeating their opium dreams for years."  
"x x x the Senate Republicans are trying to get votes by smearing former New Deal officials associated with Roosevelt's Progressive Foreign and domestic policies," the resolution added.

It said the hearings were an effort to "get people's mind off" such problems as housing, inflation and other problems and added:

"The Truman administration is not less guilty than the GOP Congress when it comes to inflation, housing and civil rights legislation."

## School Fight Is Taken To Courts

Fayetteville, N. C., Aug. 5—(AP)—Negroes of Robeson county have taken their fight for equal school facilities to Federal Court.

A complaint filed in Federal court here Tuesday asked that an injunction be granted to restrain school officials from providing schools for Negroes inferior to those provided for whites.

Negro schools in Lumberton, the complaint said "are patently inadequate and unhealthy; the buildings and schools are overcrowded and in an extremely dilapidated condition and dangerous state of disrepair, and are veritable fire traps."

The triangular tract of land that often forms at the mouth of a river is called a delta because in outline it resembles the Greek letter Delta.

That's what happens when you leave your car's underside unprotected. Rust and corrosion may strike without warning and bring you costly repair bills.

**GENUINE FORD UNDERCOATING will protect it!**

It's impervious to water, salt, acids or alkalis. Covers exposed under surfaces. Seals cracks and seams; insulates and helps keep out dust and fumes. A mighty good investment!

INDOORS OUTDOORS  
KILLS INSECTS WITHOUT THE BOTHER OF SPRAY, PASTE, BOMBS OR POWDER

Has a working radius of 15 feet. Insects do not have to touch the shade to die. Sit in comfort on your porch. Try one on your porch light. See it work!

IT'S AMAZINGLY SIMPLE! Snap it on a Light Bulb... forget it for a whole season!

PROTECTION FOR A FULL SEASON **97¢**

NOT DANGEROUS!  
HOUSEWIVES - FARMERS - DAIRYMEN - HOSPITALS  
RESTAURANTS - HOTELS - WAREHOUSES...  
Here Is the Answer to Insect Problems!  
NOTED FOR KILLING GERM-BEARING INSECTS

**SAFE!** SAYS LEADING ENTOMOLOGIST  
Dr. C. H. Curran, one of the nation's leading entomologists and curator of the famed American Museum of Natural History, has proved that the INSECT-O-LITE shade is deadly to flying and crawling insects, and harmless to humans and warm-blooded animals. It is not injurious to the most delicate fabrics.

**INFESTED? TRY THIS...**  
If your home or premises are terribly infested with insects, follow these directions and you will be amazed at the result: 1. Snap the INSECT-O-LITE shade over any ordinary light bulb, preferably 75 watts. 2. If in kitchen, bathroom, or closet, turn on switch and leave light burning for 3 nights in succession. From then on, use lights normally as you are accustomed to doing. Insects do not have to touch the shade to die! If not infested... just burn light two hours a day and after the second week insects that light on walls or ceiling will die... even when lights are off.

## Strength FOR THE DAY

**RIGHT WHERE WE LIVE**  
We have all read stories about men who have traveled through continents and across oceans looking in vain for happiness and have returned at last empty-handed, to find happiness back in their own homes. Most of us cannot stop what we are doing to make such journeys, though often we wish that we could. We feel sure that if we went somewhere else, we could be happy.

But usually the longest journey to the most exotic land would not really do us any good. The secret of happiness lies not in our surroundings but in ourselves. If we have the art of being happy, we can practice it anywhere. Indeed, much of this art consists in the ability to see the true nature and value of our everyday surroundings.

## Around Capitol Square

**By LYNN NISBET**  
**GOLDSBORO** — No reasonable person who saw the interest shown by the advisory board on Negro mental patients here and listened to brief outlines of plans by the hospital board of control could question the fact that North Carolina has attempted, and with fair degree of success, to do justice by the minority race. When the amount of money already spent and proposed to be spent on the mental hospitals is totaled, there seems little basis for suggestion the state is falling in its obligation to these unfortunate; but certainly it is evident that the Negroes are getting their full share of attention.

**MILLIONS** — The Goldsboro institution with its 1400 acres of farm land — rated one of the best farms in the state — and all the buildings is carried on current budget accounts at a book value of \$2,489,082. The last general assembly allotted \$1,371,200 for permanent improvements. Contracts awarded this week for the first major items that improvement program were at figures which convinced the board that approximately another million will be required to do the full job. Besides that, the board is requesting additional improvements, enlargement and expansion estimated to cost a million and three quarters. It is hardly likely that the complete program will be effectuated, but agreement was general among the group that such new building as may (some of them say must) be done, will bring actual value of the physical assets of the institution to more than ten million dollars. Among other things the building plan involves removal of several buildings which were among the first erected when the hospital was established in 1883, and construction of modern fire-proof housing for patients and up-to-date facilities for farm and dairy operations. Negro population is about 30 percent of the total in North Carolina. Facilities already provided care for about one-third as many colored as white victims of mental disease.

**CORN** — This is a corn growing enterprise. Despite damage by drought early in the summer, the 600 acres of corn give promise of average yield of about 75 bushels an acre. Manager Roy Purser is disappointed because lack of rain will keep him from attaining his goal of 100-bushel average. The corn goes into cow and hog feed. The institution has its own mill, grinds and mixes its own feed — including corn, wheat, rye, barley and forage. Only about 15 per cent of the feed ingredients are bought. The hogs and cows are so good the management feels they are entitled to more decent housing than they now have — and a little further from the menace of overflow from sometimes turbulent Neuse river.

**FOLKS** — The patients also are entitled to better housing. The PWA building program a decade ago provided some good structures, but others are fire-traps and unfit for habitation even by crazy people. There are something more than 2,

## Boyle's Column

**By HAL BOYLE**  
New York. — (AP) — Does Congress want the American woman to stay beautiful?

Well, if it does, it had better start forking out some cash. This is the advice of Mrs. Veronica Dengel, a beauty engineer, who says the high cost of keeping beautiful is pricing many women right out of the market. "Beauty is so important," she said, "that there should be National beauty clinics subsidized by Federal funds which would bring beauty within the reach of every woman."

Mrs. Dengel thinks women have every bit as much right to a chunk of the National budget as farmers. "There are government subsidies for almost every type of education except for the all-important one of enabling American women to learn how to be and remain a race of 000 persons here, including 350 employees. Top professional and administrative personnel is white; attendants and laborers are colored. The state during the present biennium appropriated \$1,596,933 for operating the hospital. This is just about half the appropriation for a comparable number of patients at Dix Hill. Reason for the difference is the greater productivity of the Goldsboro farm and the fact that so large a part of the food is produced through utilization of patient labor.

**CHANGED** — Officials have noted subtle and gradual change in the type of patients received. Majority of the new admissions are from cities and industrial communities, whereas a few years ago most of them came from eastern Carolina farms. There is prospect, this may necessitate attention to other types of employment for patients. Medical and business officials are watching this development and will make such changes as may prove effective in keeping down operating costs and at the same time providing occupations which have therapeutic value.

**CHANGED** — Officials have noted subtle and gradual change in the type of patients received. Majority of the new admissions are from cities and industrial communities, whereas a few years ago most of them came from eastern Carolina farms. There is prospect, this may necessitate attention to other types of employment for patients. Medical and business officials are watching this development and will make such changes as may prove effective in keeping down operating costs and at the same time providing occupations which have therapeutic value.

beautiful, healthy creatures. And this is a vital necessity to preserve marriages in the face of today's alarming divorce rate.

Mrs. Dengel has been campaigning for some time for equal rights at the drugstore counter. "Congress should repeal the 20 per cent tax on cosmetics," she said, "because lipstick, powder and cream are as essential to a woman as shaving of the male."

Convinced that American women are the most beautiful in the world, Mrs. Dengel regards this as "one of the dividends of democracy." "As long as we have beautiful women," she said, "our men would slaughter any foreign 'ism.'"

So she puts it up to Congress to save America by saving its womanly beauty. Mrs. Dengel's views were given in a long telegram in which she disagreed with this department's recent muted protests against "the great American female face."

"There are five basic types of faces," she said. "These are Alexis Smith, Executive; Joan Crawford, dramatic; Ingrid Bergman, wholesome; Shirley Temple, feminine; and Irene Dunne, conservative."

So there are five kinds of faces. I wouldn't quarrel with a lady beauty expert even if she said there were 25 kinds. My only contention is that in public they tend too often to merge into an iceberg profile that cloaks their real personalities.

And Mark, a well known Manhattan hair stylist, agrees. "No wonder foreigners think all American women look alike," he said. "It's because they all strive for the same facial outlines."

"Once upon a time someone told them the perfect type of face was the oval, and they've been spending millions in beauty parlors since, getting their hair primped in any way that would balance to form an oval like appearance."

Mark — for some reason hair stylists never have last names — things women could eliminate this sameness by concentrating upon their own facial type. "There is beauty in each one," he insists, "and no reason why the oval should be constantly aped. The American woman should snap out of her rut and point up her own facial outline with its individualistic enchantment."

And with this I leave, I hope forever, the problem of "the great American female face" to Mark, Mrs. Dengel, Congress, and the woman who wears one. Beauty may be only skin-deep, but it's too deep for me.

### Discuss Program Graduate Work

The program of graduate work now being offered at East Carolina Teachers College was discussed on Tuesday evening at a dinner meeting attended by graduate students and faculty members at the college. Approximately sixty guests were present in the north dining room on the campus to enjoy a social hour and to hear talks by President John D. Messick of the college and other speakers.

Lester Hidenhour, assistant principal of the Burlington high school and president of the Graduate Club at East Carolina, presided at the meeting and welcomed those present. Mrs. George F. Barnes of Luoma and J. P. Snipes, principal of the Ferguson County elementary school, sang several duets. Sam D. Bandy, principal of the Farmville high school, entertained guests with an informal talk.

The organization and the social and professional purposes of the Graduate Club at the college were outlined by Mrs. Katherine Baker, principal of the Battle School in Rocky Mount and member of the advisory board of the club. Dr. Leslie Turner, director of the department of English at East Carolina, talked on the American Association of University Women and its work and advised women students how they might become members. President Messick discussed requirements for the master's degree at East Carolina and explained the course of graduate study recently put into effect at the college.

Professors now giving graduate courses at the college were introduced to students by Dr. E. R. Browning, director of the department of business education.

### Mrs. J. B. Spilman Resigns Office

Mrs. J. B. Spilman, a political figure for more than a decade and manager of the State Employment Office at Greenville for the past four years, will leave State service on August 16.

The State Employment Security Commission yesterday said Mrs. Spilman had resigned her post, apparently to enter other business and to travel.

Mrs. Spilman, wife of the late treasurer of East Carolina Teachers College, stepped into political prominence after serving as her husband's assistant, with the election of Governor Clyde Hoey. She was active in the Democratic party as vice-chairman of the State Executive Committee, and served as women's manager in Hoey's campaign.

In December, 1939, following the establishment of the unemployment compensation program, she was appointed as one of the three members of the first unemployment compensation board, then known as the Unemployment Compensation Commission. She remained a board member until the agency was reorganized by the 1941 General Assembly.

During the war Mrs. Spilman was director of a Residence Hall in Washington, D. C. After the loss of her son she returned to her home and was named Manager of local Employment Office, a position she is now relinquishing.

### Election Books Hearing Request Is Turned Down

Raleigh, Aug. 5—(AP)—A public hearing requested by the Progressive Party on the condition of election books in counties of the state was turned down yesterday by the State Board of Elections.

Robert S. Cahoon of Greensboro, attorney for the third party, said at a board meeting that the voting records in the counties are "in deplorable condition in most cases."

"The books even indicate," Cahoon said, "that a large number of registered Republicans voted in the Democratic primary."

The board said it "has no power under the law to order a new registration or purge" of the books, "this power under the law being left with the various county boards of election. x x x"

### Polio Spreading Across Country

Washington, Aug. 5—(AP)—Infantile paralysis is spreading in more than half the states of the nation, with North Carolina, Texas and California suffering epidemics. The Public Health Service issued a report yesterday which showed that figures for the week ending July 31, for the month of July and for the year up to the end of last month all topped the scores for 1946—second worst polio year in history.

Here are the statistics: During the week ending July 31 1,215 new cases were reported (911 for the same week of 1946); July's total hit 3,425 (3,366 in 1946) and the total for the year up to July 31 was 8,798 (8,455 in 1946).

# Greenies Drop Kinston In Rain-Stopped Contest

## Housewife Stars For Dutch Team

For the information of you fans regarding called games below is the ruling on the subject according to the 1948 edition of the Manual for Official Scorers as published by the National Association of Professional Baseball Leagues:

1. Home club is ahead.
2. Home club is at bat and score is tied.
3. Visiting team behind one run, makes two runs in first of ninth, then rain ends game and score reverts to end of eighth. Nothing that happened after the end of the eighth inning can be put in the box score because that's when the game ended. Those nine innings plays count no more than do plays in the first three innings when rain stops play at the end of three innings.

Chief among the business attended to by the Goldsboro Board of Aldermen at a recent meeting was the amendment to Goldsboro's Sunday closing hours. The amendment made legal an executive directive issued by the mayor in 1942. Included in the amendment was a provision to permit Sunday baseball hours from 1 to 11 p.m.

The City Council at Kinston yesterday passed the necessary resolution to make legal the sale of some \$150,000 in bonds for application on the construction costs of a new stadium at Granger Park, the home of the Eagles. The new grandstand will replace the dilapidated structure which has served spectators at the park for the past 11 years and will be one of the most modern in the state.

Olympic Stadium, Wembley, England, Aug. 5—(AP)—A comely blonde Dutch woman with two children might beat Babe Didrikson's Olympic games sweep of 1932 if her husband will let her try. Mrs. Fanny Blankers-Koen, 30-year-old star of Holland's women's track and field team, holds 10 shares records in four Olympic events—100 meters dash, high jump, 80-meters hurdles, and broad jump. She was entered in all these events and the 400 meters relay race besides.

In her first test, flying Fannie won the 100 meters without having to match her record-tying time of 11.5 seconds. Yesterday she broke her own world's record in the 80 meters hurdle. Her new time is 11.2 seconds.

On the advice of her husband, however, she scratched from the broad jump in which she holds the world record of 6.25 meters or 20 feet six inches.

Her husband, Jan, who is also her trainer and adviser, may remove her from another event, too. But, she could still beat the solo feat of the famous American woman.

The Greenies played a great defensive game last night as they added two more twin killings to their total to give them six double plays in the past two games.

The Box:

# Lesnevich Plans Invading Ranks Heavyweights

New York, Aug. 5—(AP)—Just one more fight as a lightweightweight, then Gus Lesnevich goes after the million-dollar prize of the world weight championship of the world. That is the plan of the veteran Cliffside, N. J. fighter who lost his 175-pound crown to England's Freddie Mills last month in London.

Gus, who returned to the United States yesterday, is booked for a return title bout with Mills in Ebbets Field Sept. 23.

"I'm going to stop Mills next time," 33-year-old Gus predicted. "That's something I've never said before." Gus added the fight will be "definitely my last as a lightweightweight."

Lesnevich hopes Joe Louis will reconsider his announced retirement as heavyweight champion. Otherwise he believes a "confusing" tournament will result.

In any event Gus is regarded as one of the leading contenders for the heavy crown. He mentioned Jersey Joe Walcott, who went 25 rounds with Louis before being kayoed, and Ezzard Charles as other contenders, but added "Charles hasn't shown anything outstanding."

Charles is matched with Jimmy Bivins in a coming Washington, D. C. bout and Walcott said yesterday he is willing to meet the winner—provided the NBA would recognize the winner of this latter bout as heavyweight champion. If the NBA agrees to this, Walcott then would want \$60,000 or 27 1-2 per cent of the gate.

# Barron Leading Pro Golfers In Tam O'Shanter

Chicago, Aug. 5—(AP)—Herman Barron of White Plains, N.Y., the 1946 champion, today led the Tam O'Shanter pro field into the third round of the \$5,000 scramble for first prize after posting a pair of 68's for 136—eight under par.

Barron, competing in his fifth tournament of the year, surged into the lead yesterday with a 33-35-68, one stroke behind was the first round leader, big Ralph Guldahl of Chicago who required a 36-37-73 for a halfway total of 137.

Bobby Locke, the South African who is always a threat, blew in with a 33-34-67 for 138 and third place. The wind played havoc with most of the other contenders.

# Gilmer Refuses Charity Contest

Chicago, Aug. 5—(AP)—Failure to accept a bid to play in the all-star football game may bar Harry Gilmer, former University of Alabama back now with the Washington Redskins, from playing in any of the Redskins' exhibition games this fall.

An official of Chicago Tribune Charities, Inc., sponsor of the annual grid classic, said last night that Gilmer had not accepted an invitation to play with the college all-stars against the Chicago Cardinals, champions of the National Football League.

# Texas Ace Says Swimming Work

San Antonio, Tex.—If you think competitive swimming is all fun check with Jim McCann, University of Texas free-style ace and team captain.

Jim is attending summer school at St. Mary's University here so he will be able to graduate at Texas next spring.

During the summer he "limits" himself to a mere one and one-half miles of swimming per day. That requires an hour and a half.

When he's in competition Jim splashes two and one-half miles per day.

# Finland Losing Distance Running Hold In Olympics

Olympic Stadium, Wembley, England, Aug. 5—(AP)—The 1948 Olympic games mark the end of Finland's domination of distance running, started by Paavo Nurmi in 1924.

Today only two long races remain in which Finland can hope for victory—the Marathon to be run on Saturday, and the 3,000 meter steeplechase this afternoon. The 1,500 is still to be decided but Finland isn't given a chance of winning it.

Finland's fading has been in marked contrast to the steady, victorious march of American athletes. With 16 out of 24 events in men's track completed, the United States now holds eight individual championships.

In unofficial points the team leaders are: U.S. 156, Sweden 44, Finland 28, Australia 22, Norway 17, Italy 16, Hungary 16, France 15, Czechoslovakia 15, Great Britain 12, and Belgium 11.

A Belgian, Gaston Reiff, took the 5,000 meter title Finland won in the previous four games. A Czechoslovakian, Emil Zatopek, took the 10,000 that Finland had won five of the last six times.

Now comes a Swede, Lennart Strand, ready to win the 1,500 meters tomorrow. Finland won the 1,500 two of the last four times.

Strand, a small, delicate, pale skinned runner who bounces along, showed his class yesterday when he won his 1,500 meter heat in 3:54.2. One American managed to reach the finals, Don Gehrmann of Wisconsin, a good third in Strand's heat. Two Swedes and a Dutchman, Willie Sijthuis, won the other 1,500 heats. The Finns' lone qualifier was third in his heat.

# Some Salvage When Horse Died

Del Mar, Calif.—(AP)—When Direct Express, top pacing horse, dropped dead on the training track at Del Mar, recently, it was not a complete loss to Owner Fred B. Greenly of Harrington, Del.

Three weeks before Direct Express died, a prominent Illinois breeding farm owner attempted to buy him from Greenly for \$50,000.

E. L. Whitehead, another horse man and representative of an eastern insurance company, negotiated the deal. Unable to effect the horse chase, he talked Greenly into buying a \$40,000 insurance policy on the horse.

# Some Salvage When Horse Died

Del Mar, Calif.—(AP)—When Direct Express, top pacing horse, dropped dead on the training track at Del Mar, recently, it was not a complete loss to Owner Fred B. Greenly of Harrington, Del.

Three weeks before Direct Express died, a prominent Illinois breeding farm owner attempted to buy him from Greenly for \$50,000.

E. L. Whitehead, another horse man and representative of an eastern insurance company, negotiated the deal. Unable to effect the horse chase, he talked Greenly into buying a \$40,000 insurance policy on the horse.

# Goldsboro Star Hitter Sold To Class C Team

Goldsboro, Aug. 5—(AP)—Jack Hussey, who has been pacing the Coastal Plain batting race this year, and who threatens to set at least five league records, and James Skyes Faircloth, workhorse hurler, have been sold to Rome of the Class C Canadian-American League for delivery next season, Goldsboro President C. Ed Worley announces.

Purchase price was not announced. Hussey is from High Point and formerly played football, basketball and baseball for the University of North Carolina. Faircloth is from Greensboro and formerly played with Guilford College. Both have been with the Goldbugs for two seasons.

# Fighter Carried From The Ring

Scranton, Pa., Aug. 5—(AP)—Charley Zack, 152, New York, was carried from the ring last night after being pounded into helplessness by Billy Kilroy, 157, Patterson, N. Y.

Wilroy was awarded a technical knockout after 2:50 of the ninth round of the scheduled 10-rounder at the Scranton Ball Park.

Dr. Leonard Freda, Pennsylvania State Athletic Commission Physician, said Zack, who was taken to Scranton State Hospital, suffered a partial paralysis of the face but seemed to improve after reaching the hospital. His condition was described as serious.

## A MAN IN THE HOUSE

By Florence Stuart

Chapter 18  
Aunt Mae's lips tightened. "Understand me, Jane, I'm not accusing you of doing anything out of the way. But, my dear child, you never were one to consider how things looked to other people."

Jane sighed wearily. She was tired and Aunt Mae was in one of her more difficult moods. "Well, what have I been doing that looks unseemly?" she asked.

"Well, for one thing, you spend your evenings dancing with this boy. Look how it was when I walked in this evening. Carl shut away up in his study. You carrying on with this boy—"

"We weren't carrying on," Jane retorted, "whatever you may mean by that. Ted was teaching me a new dance step. And if my husband doesn't object, I can't think of any reason why anyone else should."

"Sometimes," stated Aunt Mae, "it occurs to me that your husband is blind as a bat."

"Really?" said Jane. "I'll tell you frankly that for a young wife to spend evening after evening dancing with a man not her husband, in a room alone with him—well, in my day it would have been considered very daring behavior indeed. A nice girl wouldn't have done it and a sensible husband would not have stood for it."

"So what?" Jane said. "But you go even farther than that," Aunt Mae announced. "You've been seen dancing with this boy, clad in your lounging robe, a garment which should be reserved for the privacy of your own room and for your husband's."

Jane straightened, her eyes suddenly furious. "To start with, that isn't true. Sometimes in the evening I put on that old velvet cocktail gown. I'm trying to wear it out. But that's neither here nor there. Who says I've been seen. Who saw me? Who's making it their business to advertise what I wear and what I do?"

"Old Sarah Nichols," said Aunt Mae, and she had the grace to look a trifle shame-faced. Sarah Nichols, who was seventy-five if she was a day, lived in the rambling old house directly across the street from the Whittier house. She lived there quite alone, except for the aged negro who cooked for and cared for her. Sarah took quite a little caring for, because she was helplessly crippled with arthritis and spent all of her days and many of her nights in a wheel chair drawn up to the bay window of the front downstairs room.

"I suppose the old busybody has been spying on me through those binoculars," Jane snapped furiously. "Now, now, Jane. You mustn't take that attitude. Learn to do unto others as you would have them do unto you. Just try to put yourself in poor Sarah's position. Suppose you'd been sitting in a wheel chair for twenty years, seeing nothing of life except what you could glimpse from your front window."

"Well," Jane said, still angry, "the old hag seems to see plenty from where she sits. Plenty that doesn't happen, is what I mean. Oh, well—"

She shrugged, laughed. "Thanks for telling me, darling. Now I'll remember to draw the drapes."

"There are quite a few other things that are causing talk. That dance last week, for instance. You went, with this Eggleston boy as your escort. Where was Carl that night?" she demanded.

Jane groaned. "Look, Aunt Mae. I can't take much more of this. It's all too silly. And it's making me sore. I'll probably get a headache. That dance," she explained, "was a senior prom. Carl and I were scheduled to go as chaperons. Carl didn't want to go. He was snowed under with work and he had a headache. At the last minute he asked me if I'd mind going with Ted. And please don't preach any more, Aunt Mae. If you do I'm going to laugh."

"Is it so amusing to know that you're getting yourself talked about, Jane? I'm only telling you all this for your own good, and for Carl's good."

## FOR SALE — 3 CHEVROLET 1-2

ton trucks, \$150 each. Take your pick. Dial 3281. C. L. Russ Plumbing and Heating Co. July 27-47-47

**POSITION WANTED — EXPERIENCED**  
office worker desires position. References furnished if desired. Lady, Ruth Everett Livesay, Denton, Va. 4-3

"Or maybe," Aunt Mae suggested slyly, "he might think a little gossip about you and your doings would take their minds off him. I happen to know for a fact that Carl and that young Talbot girl spend quite a number of hours closeted together in his office."

Jane got up. "Look, darling," she said, "I don't want to talk any more about all this, if you don't mind. As for the Talbot girl, she's working on a thesis she has to write to get her master's degree. Carl promised to help her with it and I suppose that's why she goes to his office. You got me upset about Helen once before but I refuse to get upset again. Come over some day next week and have lunch with me, won't you? I don't like to hurry you off but right now I'm pretty tired. Would you like me to run you home in the car?"

"Don't bother," Aunt Mae was quite definitely offended. (To be continued)

Yes, ma'am, Junior gurgles with joy when somebody squeezes his toy doll. But there's nothing joyful about squeezing WALDENSIAN Sunbeam Bread. Sunbeam's baked fresh, tender and delicious by our "crumb protection" method and guarded on your grocer's bread rack by our exclusive "freshness control." No need to squeeze! You're guaranteed glorious oven-freshness loaf after loaf!

Look for Sunbeam at your grocer's today. Let the fresh-kept loaf in the blue-and-white wrapper add fresh, new goodness to every meal you serve!

**Bread is Vital... Handle with Care!**

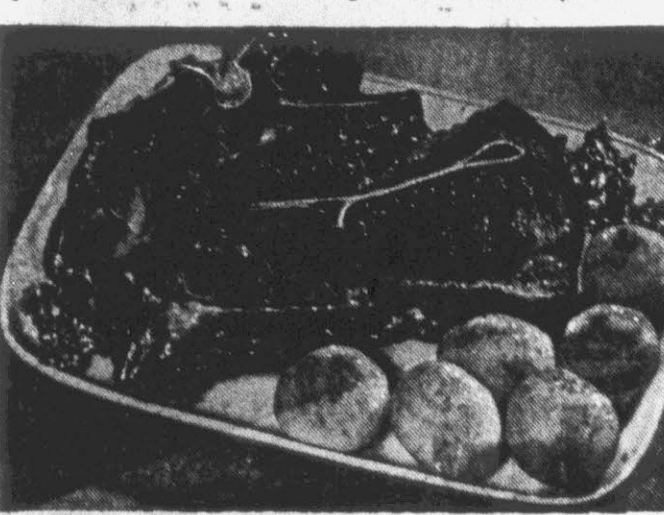

**Sunbeam**

## Wilson's Weekly Bulletin

FROM THE Rector Kitchens

Oven Meals Free You From Kitchen

If you want to get your work done early so you can relax before dinner, plan an oven meal. Do as much as possible in the cool of the morning. Then slip the food into the oven at the right moment, close the kitchen door to keep the stove heat out of the dining room, and take it easy.

**Make Hot Meal Seem Cool**

After a series of cold meals, a hot dinner seems to pep up the appetite even on a hot day. But do plan to have the dining room look and feel as cool as possible.

A cold beverage, crispy salad, and a hot ice served instead of a vegetable helps take away the feeling of heat from a hot meal. For example, try a beef chuck pot roast, browned potatoes and gravy, tossed vegetable salad, lime ice, milk, and warm apple pie with Certified American Cheese grated over the top.

**Timely Topics**

For a tempting luncheon salad, mix 1 1/2 cups cottage cheese with 1 tsp. B-V and stuff into 6 tomato roses. Serve with Wilson's Mayonnaise.

Dip leftover cauliflower in beaten Clear Brook Egg, then in bread crumbs and fry in deep fat—Wilson's Bake-Rite or Advance Shortening. Serve with cheese sauce.

**Pot Roast**

Select pot roast according to your preference. Beef chuck, sirloin tip, heel of round, or rump make excellent pot roasts. Heat 2 tbsps.

Wilson's Bake-Rite or Advance Shortening in a heavy kettle or roaster with tight fitting cover and brown the meat well on both sides, using moderate heat.

Season meat with salt and pepper, place a rack under the meat to prevent over-browning, add 1/2 cup water or canned tomatoes, cover tightly, and put into a slow oven, 300° F., for 3 or 4 hours or until tender. More hot water (in small amounts) may need to be added from time to time depending upon how tightly the cover fits.

Just before serving, remove meat well on both platter, skim off excess fat, add more water if needed and thicken, allowing 2 tbsps. flour to each cup of liquid.

The Wilson Label protects your table

### Lack In Sanitation

**By CHESTER WALSH**  
The Pitt County Board of Health's attention has been called to illegal privies in the colored section of Greenville, which call for drastic measures to prevent an epidemic of typhoid fever here.

A reporter is never allowed to express his opinion in a story he writes. The ethics of journalism require that he ascertain facts and present them without color.

This reporter made an inspection of privies, or "backhouses," as this menace to health is generally known, several days ago, and agreed with another in the group, that "it is by the grace of God" that there is not an epidemic of typhoid fever here as a result of the great quantities of human excreta floating around backyards in the southern part of the city after every rain.

At one place, the box in a privy had rotted. Its contents were oozing over the yard, and it was a tremendous mass of millions of fly larvae nearly ready to hatch into flies to spread disease. Similar conditions prevail at other houses in the neighborhood.

Colored residents of the neighborhoods where the privies spill their contents over the ground after every rain were hesitant about expressing themselves, but one couple did say "we can hardly eat our meals for the foul stench coming from the leaking privies."

Incidentally, such cases usually come under the jurisdiction of the State Board of Health. In incorporated towns and cities, the aldermen or commissioners adopt the

state board's regulations as an ordinance. This ordinance is on the city books, it was stated to the reporter.

The County Board of Health and Mayor Jack Boyd and the Greenville aldermen know of these health menacing conditions and have known of it for many years, but they have done nothing about it.

Public spirited citizens who took the reporter on the ride of inspection of privies suggested that there is "much ado about nothing" about typhoid, while the health of the city is seriously menaced by this threat of typhoid fever and a near epidemic of malaria from mosquitoes.

### Prices Drop On Tobacco Market

Valdosta, Ga., Aug. 5—(AP)—Prices on the Georgia-Florida flue-cured tobacco market continued to drop yesterday.

The USDA reported that most grades eased off \$1 to 2 below the Tuesday averages. Only a small number of grades showed gains.

Declines most were on low and common grades. Good and medium lemon leaf losses were offset somewhat by slightly strengthened prices for fair orange leaf and fair quality lugs.

**WOODCHOPPING CONTEST AT EDWARDS HARDWARE STORE**  
Peter McLaren, who held the woodchopping championship of Australia and America for many years, will demonstrate his chopping skill at C. H. Edwards Hardware Store, 200 Dickson Avenue, Friday afternoon at 4 o'clock. McLaren was for years a feature star in the vaudeville and circus world. His skill with an axe is astounding. McLaren will conduct a local chopping contest and award a valuable prize.

### Citizens of Tomorrow

The Daily Reflector again presents another in the picture series "Citizens of Tomorrow". Reading from left to right, top row: Joanna and Bobbie Hardee, son and daughter of Mr. and Mrs. W. H. Hardee, Greenville; Joseph and Bobby Gastan, sons of Mr. and Mrs. J. P. Gastan, Greenville; Harriet and Deborah Turner,

daughters of Mr. and Mrs. McAlvin Turner, route four, Greenville. Bottom row: Doug and Dean Bullock, sons of Mr. and Mrs. L. M. Bullock, Greenville; Alice Faye and Judy Whitchard, daughters of Mr. and Mrs. J. A. Whitchard, Greenville; J. O. and Sue Proctor, son and daughter of Mr. and Mrs. J. O. Proctor, Greenville.

**Birth Party For Coast Guard**  
Manteo, Aug. 5—(AP)—They tossed a giant birthday party for the Coast Guard yesterday along North Carolina's Outer Banks.

About 2,500 persons were on hand for the day-long program marking the 188th anniversary of the service. After a picnic lunch had set the stage, a varied program was run off, including a demonstration of air-sea rescue tactics, a surfboat race and the customary speech-making.

**Mrs. Betty Hammon Killed In Wreck**  
Mrs. Betty Everett Hammon, 29, wife of Rev. Earl Hammon of Carrboro, was instantly killed in an automobile accident Wednesday afternoon near Hillsboro. Funeral arrangements are incomplete.

Mrs. Hammon was born in Pitt County and attended the Pachtolus schools. She was married to the Rev. Hammon about 11 years ago. At present, he is holding a tent meeting near Carrboro.

Surviving are her husband; two sons, Jimmy and Paul Hammon of the home; her parents, Mr. and Mrs. John D. Everett of near Calico; six brothers, Samuel Everett of Beaufort, Earl Everett of Cathage, Jarvis Everett of the U.S. Navy, and Alfred J. D. Jr. and Clifton Everett of the home; three sisters, Mrs. W. J. Davenport of near Stokes, Mrs. Cleveland Price of near Farmville, and Miss Mary Everett of the home; and three stepsons, Wesley, George and Glenn Hammon of the home.

Funeral services will be held at the Church of God, on Broad street, Saturday afternoon at 2:30. Rev. B. F. Barrell, Holiness minister of Burlington, will officiate. He will be assisted by Rev. H. L. Hare of Greenville. Burial will be in Reedy Branch Church Cemetery near Winterville.

**Victory By . . .**  
(Continued From Page One) afford the tax.

This is the main Southern Democratic argument against any law by Congress to abolish the tax:

1. A state has a right to fix its own voting rules under the Constitution, and a poll tax is one of them. If Congress passes a law wiping out the tax, it's an invasion of states' rights.

2. The tax doesn't keep Negroes from voting. It's so low that even the poorest people can afford to pay it. Besides, the money taken in by the tax helps the states pay their expenses, like supporting schools.

Actually the importance of the poll tax—in so far as Negroes' voting goes—has been exaggerated far beyond its true meaning.

If the tax were wiped out tomorrow, that wouldn't necessarily mean Negroes would suddenly begin voting in large numbers in the South.

**Menace Helping . . .**  
(Continued From Page One) of Europe. While the British government has been cautious about committing itself in this matter, Prime Minister Attlee has said that he personally favors a federated Europe.

And one cannot stop without recalling that England's famous Winston Churchill long has been going up and down the land, lending his powerful voice to the idea of a United States of Europe.

**Hour Of Anxiety Over Report Of Drowning**  
Mr. and Mrs. Junius H. Rose spent an hour of anxiety this morning when some person phoned the house and asked for information about "June Rose, Jr., being drowned at Carolina Beach." There was nothing to the rumor. Young June Rose is at a house party at Carolina Beach, and he's safe and sound.

No person was drowned at Carolina Beach, authorities there told Mr. Rose.

A report was in circulation this morning about somebody named Rowe being drowned at some river point near Pamlico Bay.

**City Of Leningrad Pushes Construction**  
Moscow—(AP)—Leningrad will have completely reconstructed war-damaged and destroyed housing by the end of this year, says Tass, the Soviet news agency.

P. G. Lazutin, chairman of the City Soviet, says that during the war Leningrad as a result of enemy action lost enough housing for from 300,000 to 450,000 people according to accepted norms of housing occupancy in Europe.

It is estimated that inefficient vision causes five percent of all industrial accidents, and 15 percent of all motor accidents.

### Fossil Found In Limestone Belt

Nottingham, England—(AP)—Fossil bones of a twenty-foot plesiosaur one hundred and fifty million years old have been uncovered in an eighteen-inch belt of blue limestone at Barnstone quarry, Nottinghamshire.

According to Dr. W. W. Black of Nottingham University's geology department, the head and tail are missing but the ten-foot spinal column with ribs attached, three main limb bones, and a number of smaller bones, are intact.

**Hog Market**  
Raleigh, Aug. 5—(AP)—(NCDA)—Hog prices steady. Tops of \$28.50 at Kinston, Rocky Mount, Greenville, Smithfield, Mt. Olive, Clinton, Wilson, Goldsboro, Washington, Jacksonville, Lumberton, Warsaw, Fayetteville, Florence, and Richmond.

**Poultry and Eggs**  
Raleigh, Aug. 5—(AP)—(NCDA)—Fryers and broilers steady at 55; eggs steady, A large 53.

**N.Y. Cotton**  
New York, Aug. 5—(AP)—Cotton futures opened 10 cents a bale lower to 5 higher.

Noon prices were 10 to 60 cents a bale higher than the previous close. Oct. 31.70, Dec. 31.77 and March 31.78.

Futures closed 35 cents a bale higher to 35 cents lower than the previous close.

**Grain Market**  
Chicago, Aug. 5—(AP)—After standing still almost the entire session, the grain market renewed its decline during the last half hour of trading today. Losses were confined mostly to fractions, although running to more than a cent at times in corn.

Wheat closed 1/4-1/2 lower, September \$2.21 1/4, corn was 1 cent lower to 1/2 higher, September \$1.61 1/4, oats were 1/2 lower to 1/4 higher, September 72-72 1/2, oats were unchanged to 1/4 higher, December \$1.67, and soybeans were 1/2 to 3 cents higher, November \$2.87 1/4.

**N.Y. Stock Market**  
New York, Aug. 5—(AP)—Stock prices fluctuated nervously in today's market while traders kept an eye on progress of anti-inflation legislation in Congress. Gains and a slight edge over losses but changes either way were small. Activity for the day was at the rate of around 850,000 shares.

### Awaits Transfer

Parris Island, S.C., Aug. 5—Marine Private First Class Marvin L. Hamm, 18, son of Mr. and Mrs. M. L. Hamm, 205 Grand Avenue, Greenville, N.C., has completed basic training here at the Marine Corps Recruit Depot and is now awaiting transfer to a permanent duty station in the Marine Corps.

Hamm enlisted in the Marine Corps for three years on April 26, 1948, at Raleigh, N.C., and underwent recruit training here with Platoon 74, Second Recruit Training Battalion.

He has requested aviation duty in the Marine Corps.
