

Some Changes In Inflation Checks

Senate Banking Committee Approves Modifications In GOP Anti-Inflation Bill Passed Yesterday In House; Price-Freeze Proposal Is Killed Off

Washington, Aug. 6—(AP)—The Senate Banking Committee approved today two principal changes in the Republican anti-inflation bill passed by the House yesterday.

The committee struck out a House provision calling for a boost in Federal Reserve Bank gold reserves, which Secretary of the Treasury Snyder and Federal Reserve officials said would do nothing to stop inflation.

BULLETIN

Washington, Aug. 6—(AP)—The Senate passed and sent to the House today a compromise housing bill aimed at speeding small home building.

The measure contains no loan or rent or price controls.

It also raised the reserve requirements of banks which are members of the Federal Reserve system.

The House had approved reserve increase of 1 and 3 per cent respectively on time and demand deposits. The Senate committee raised the figures to 2 and 5 per cent.

President Truman had asked for ten and four per cent.

The committee also approved the reimposition of restrictions on installment buying which the House had voted. It changed the effective date however, from next March 8 to June 30.

A proposal by Senator Capehart (R-Ind.) to freeze all prices at 11:59 p. m. was lost on a five to five committee vote.

Chairman Tobey (R-N.H.) told reporters he does not know whether the committee bill has the approval of Senate Republican Policy leaders.

Tobey offered a motion in the committee to give Mr. Truman the standby price and wage controls and allocation powers which he asked. The proposal was voted down 4 to 4.

Meeting an hour earlier than usual, the Senate set aside two hours to argue the issue of government-financed housing.

While the Republicans were talking out over this issue, Senator Barkley of Kentucky, the Democratic vice-presidential nominee, quietly planted a bomb near the anti-inflation bill.

Barkley told a reporter administration supporters were ready to offer President Truman's price-wage and rationing controls as amendments in the committee.

There seemed every likelihood that the Republicans in command of the committee would step on the fuse of that bomb quickly.

But Barkley said that isn't all. The Senate, he predicted, will get a chance to vote directly—ask the House didn't—on Mr. Truman's proposals. The House had banned any amendments from the House floor.

But Senate rules provide for no such "take it or leave it" maneuver.

Collie Leads Way To Trapped Boy

Zanesville, O., Aug. 6—(AP)—Three-year-old Jerry Lee Huffman, missing 24 hours, was found at 7 a. m. today, trapped in a wire fence, after his collie dog led searchers to the area.

The child was naked and almost unconscious from exposure. His foot was caught in the fence and a wild grapevine was twisted about his neck.

The boy was found at the edge of a cornfield, a mile and a half from his home near Philo, from which he disappeared between 6 and 7 p. m. yesterday. He had left his clothes in his yard.

Fifty-Five New Polio Cases Is Epidemic Record

Hope That Epidemic Beginning To Abate Jolted By Sudden Spurt

Raleigh, Aug. 6—(AP)—North Carolina's polio epidemic, which health officials had hoped was receding, shot upward again today.

A total of 55 cases was reported to the State Board of Health, largest number to be reported for any one day of the epidemic. The number of cases for the year mounted to 1,253.

There had been a drop in the number of cases since the middle of last week, and Board of Health officials had expressed the hope the epidemic was past its peak and was abating.

Dr. C. P. Stevick, state epidemiologist, pointed out that in the first five days of this week 160 polio cases have been reported as compared with 182 cases in the same period of last week.

He also pointed out that only 19 of today's cases were August onset and the other 36 were July onset. They brought the total for August to 30 and the July figure to 307.

Six cases each were reported today by Alamance and Catawba counties; four cases each were reported by Guilford and Mecklenburg; Burke, Forsyth, Johnston, New Hanover, and Sampson reported three each; Avery, Davidson, Gaston, Macon, and Wilkes reported two each; and one case each was reported by Buncombe, Cleveland, Duplin, Harnett, Randolph, Stanly, Stokes, Wake, Wayne and Yadkin.

One additional death, that of a Buncombe county resident, was reported, bringing the polio death toll for the year to 68.

Meanwhile, various conventions and meetings scheduled for tomorrow and Wednesday at the Alamance Hotel and Buncombe County, now one of the state's epidemic centers, continued to be cancelled or postponed.

Start Inquiry As Teller's Account Shortage Found

Raleigh, Aug. 6—(AP)—Officials of the Mechanics and Farmers Bank of Durham reported to Commissioner of Banks Gurney Hood today that they had discovered a shortage in the account of a teller in the bank's Raleigh branch.

Hood said he had reported the matter to the federal district attorney, John Hall Manning, and that an agent of the Federal Bureau of Investigation was making an investigation.

C. C. Spaulding, president, and J. H. Wheeler, vice president, told Hood that they had discovered a shortage of \$2,997.10 in the account of a teller, Leola Lee, the banking commissioner said. They also said that Miss Lee had admitted the shortage, Hood added.

Wage Hike Wave Spreads In South

Charlotte, N. C., Aug. 6—(AP)—The wave of wage increases for Southern textile mills workers had extended today to 42 plants employing a total of approximately 50,000 persons.

Most of the announced increases were for eight percent. Some mill officials said the new rate scheduled to be worked out.

Methods In Spy Hunt

Investigation By Congressional Committee Differs Widely From Canadian Spy Hunt; Canada Got Convictions; Little Hope Of U. S. So Doing At Present

By JAMES MARLOW

Washington, Aug. 6—(AP)—Congressional committees are making headlines with their investigation of alleged Russian spy rings in wartime Washington among government employees.

But they're using tactics completely different from those of the Canadian government which in 1946 not only investigated a spy ring, but found it, smashed it and sent people to jail.

The Canadian government made its investigation private. When it felt it had enough evidence to send certain people to jail, it made the evidence public. And those people were convicted and jailed.

Some innocent people were dragged into the investigation. The Canadian government checked on them. When it found they were innocent it saved them from injury by never making their names public. It could do that because its investigation was private.

But the opposite method is being used here, especially by the House un-American activities committee, which is digging into the alleged wartime spy ring here.

Tennessee Vote Disorders Bring Alert For Guard

Troops Ready To Move Into Polk County; Violence Is Out Of Control

Nashville, Tenn., Aug. 6—(AP)—Governor Jim McCallister alerted a National Guard unit in southeast Tennessee today after the sheriff of Polk County advised him conditions there had gotten beyond control in disorders touched off in yesterday's election.

Adjutant General Hilton Butler announced the alert had been directed to the First Battalion, 278th Regimental Combat Team at Cleveland, Tenn. Cleveland is in Bradley County, which adjoins Polk and is about 20 miles from Benton, Polk County seat.

Butler said the troops would stand ready to move into Polk at the governor's order. The unit is commanded by Colonel Dwight McReynolds.

Shortly before Butler's announcement, a newsmen telephoning Nashville from Benton reported rumors were going the rounds that guns were being used outside.

The newsmen was in the Benton courthouse talking to his Nashville office when his conversation was interrupted by someone who came in and told him about the reported distribution of guns.

One man was slain last night and another was reported found dead early today, shot through the neck in Polk County.

Five persons were known to have been wounded during election day violence. It was not established, however, whether these shootings were a result of the election strife.

Polk is adjacent to McMinn County, where an ex-GI coalition overthrew an entrenched political machine. In an August, 1946, election day gun battle at Athens, McMinn county seat.

The current trouble in Polk likewise arose from differences between political factions.

It boiled up yesterday as Tennessee voters in statewide balloting administered a smashing defeat to the political organization of E. H. Crump in Shelby County, on the other side of the state.

Squabbles between representatives of the Burgh E. Biggs Democratic political organization in Polk County and the non-partisan Good Government League started long before the election.

Apparent Defeat For Boss Crump

Double Loss In Tennessee Vote; First In 20 Years

Nashville, Tenn., Aug. 6—(AP)—The Tennessee electorate apparently has handed Democratic Political Leader E. H. Crump of Memphis his first major ballot box defeat in 20 years.

It appeared to be a double defeat for the 72-year-old Crump in yesterday's violence-punctuated statewide Democratic primary and county general election.

Both the candidates he backed—for the U. S. Senate and for governor—were trailing far behind today on nearly complete unofficial returns. Republicans also held their primary yesterday but voting was light.

Rep. Estes Kefauver, veteran of 10 years in the lower House of Congress, was in the lead over Crump-supported Judge John A. Mitchell for the U. S. Senate. Senator Tom Stewart, the incumbent seeking reelection, was second man in this race.

Gordon Browning likewise was far ahead of Governor Jim McCallister seeking reelection to a third term in the gubernatorial race.

While Kefauver and Browning were piling up a big vote in Crump's Shelby County (Memphis), there was bloodshed on the other side of the state, in southeast Tennessee. One man was shot and killed from ambush and another was wounded in the Cooper Basin section near Benton, seat of Polk County.

Tobacco Prices Keep High Level

Raleigh, N. C., Aug. 6—(AP)—Tobacco prices continued high today on the Carolina floor cured border belt. Offerings were slightly under the early part of the week.

Heavy rains through Wednesday hampered the preparation of the crop for market.

Kingstree reported an increase of from \$3 to \$4 per hundred on medium grades in the first half hour of sales. The early average was \$59, with a high of \$70.

Two North-Bound Freights Collide

Chlo, S. C., Aug. 6—(AP)—Two north-bound freight trains collided on the Seaboard Air Line Railway's main tracks near here yesterday and injured two crewmen.

Shake Finger At Give-Away Idea

Federal Communications Commission Announces Set Of Proposed Regulations To Curb 'Lottery' Tendency On Air

Washington, Aug. 6—(AP)—Like a stern but not too hopeful parent, the Federal Communications Commission shook a warning finger today at the get-rich-quick radio programs popping out all over the dial.

The station-licensing agency said disapprovingly that "an almost infinite number" of these border on "illegal lotteries or gift enterprises."

So it announced a set of proposed new regulations aimed at curbing, if not eliminating, many of the programs currently offering fabulous cash, travel and merchandise gifts to lucky listeners.

In essence, the rules say there must be no more such give-away programs in any way "upon lot or chance." Nor can the winners be required to (a) furnish any money or other thing of value (b) possess the sponsored product or (c) be of a certain age or sex.

The commission didn't say when the new clampdown will become effective. But it said it will listen to interested parties up to September 10.

Privately, commission sources said the agency fears that the prize programs are throwing the national radio picture "out of focus," and leading the industry away from "the broad basic purposes of broadcasting."

These sources said there have been complaints from some top flight comedians and other entertainers that their gigs or art are being lost to listeners hoping for complete housing, a house painting job, or a free trip to Bermuda for two, all expenses paid.

Still privately, the commission left no doubt that it regards the task of getting the give-away programs off the air as no easy undertaking.

The reaction within the radio industry was that while the FCC's announcement is unlikely to have any immediately drastic effect on current programs, the trend to give-away shows will be reversed.

Bandit Dead Due To Aged Bulldog

Berkeley, Calif., Aug. 6—(AP)—A bank robber lay dead today because of an aged and testy bulldog resented invasion of his privacy.

The robber, who told police he was Isaac G. Fox and had served prison time in Tennessee, snatched an FBI agent's gun while being questioned, and killed himself.

It was 3:05 p. m. yesterday when Mrs. Levanne Ames opened the door of a branch of the Bank of America to let out a late customer. Fox pushed his way in.

Drawing a revolver, he covered the 11 bank employees and quickly collected between \$7,000 and \$8,000. Then he drove away.

But Fox did not know the city. A mile away he drove into a dead-end street. He abandoned his car and leaped into a backyard.

There lived Bugs, a 12-year-old bulldog. Bugs made an angry run at the intruder. Fox kicked him, and the dog's yelp of pain brought his mistress, Mrs. Frank J. Goldfuss, Mrs. Goldfuss called her husband and together they pursued Fox in the car. They overtook him two blocks away.

"Why did you kick my dog?" Mrs. Goldfuss cried.

Fox drew his gun, took the Goldfuss car and started to drive away. Mrs. Goldfuss screamed. Motorcyclist Policeman Connie Poules roared up.

Fox put his gun to his head. Twice he pulled the trigger and twice the gun failed to fire. He was disarmed, the money was recovered, and he was taken to the North Oakland police station.

There Fox made his last snatch—for the FBI gun that killed him.

Topliff Hotel Is Damaged In Fire

Spruce Pine, Aug. 6—(AP)—The 40-room Topliff Hotel, a landmark in this section since 1906, was virtually destroyed by fire which broke out early this morning.

Most of the rooms in the two and three-story structure were occupied but all guests and employees escaped without serious injury.

The fire started in a rooming house on the second floor. It spread to the hotel building, which was built of wood.

The fire department arrived within 10 minutes. It took three hours to bring the fire under control. The damage was estimated at \$100,000.

Aldermen Order Enforcement Of Sanitation Laws

Some Owners Of Property Rented To Negroes Seek Justify Position

By CHESTER WALSH

The Board of Aldermen, in session at the City Hall last night until nearly midnight, had a strenuous meeting, during which several owners of dwelling houses rented to Negroes spoke in justification of their facilities at present provided and which do not conform to the regulations of the North Carolina State Health Department. Mayor Jack Boyd presided.

Mrs. B. W. Moseley spoke at length in defense of present private conditions at Negro dwellings, found fault with those who want to increase taxes, and said that some who are complaining of illegal sanitary conditions do not own a foot of property.

An observer in the aldermen's room, after the meeting, expressed the opinion that "the Redeemer" when he was on earth nearly 2,000 years ago, did not own a foot of land, but that the land on which he trod was sanctified, and the land on which illegal privies are located is polluted with disease-bearing vermin to menace the public health."

Attorney Frank Wooten spoke for Mrs. Pattle Wooten, owner of considerable property rented to Negroes. L. W. Tucker, a former sheriff of the county and a property owner, said the conditions in these sections are "good as possible," but did not say that he had inspected them.

Elizabeth Kerney, Negro school teacher here for many years, presented petitions from Negro civic organizations, describing unsanitary conditions under which they have to live, and made a very good impression, observers at the meeting said.

Alderman L. M. Buchanan made a motion to require property-owners to put all privies or toilets into a sanitary condition required by State Board of Health regulations within 30 days. The motion was unanimously carried.

Mayor Boyd, after the meeting, when told by a reporter that the public health ordinances have been on Greenville's books for 20 years said, "We are going to see that the

See No Alarm In Textile Cutback

Mill Experts See Return To Normal By Summer's End

Boston, Aug. 6—(AP)—Cutbacks to a four-day week in New England textile mills are affecting thousands of workers—but experts are not alarmed.

The slowdowns this week are restricted, they said, to plants manufacturing fine cotton and an elaborate cutback to the normal give and take of competition within the industry.

Directly responsible is a sharp curtailment in orders from manufacturers of high grade cotton goods such as shirts and pajamas.

The experts don't expect the decline in production to spread to the rest of the industry in New England and they look for the affected plants to be back to their normal five-day week by the end of summer.

One textile expert calls this a "competitive readjustment" in the high grade lines which is a natural consequence of a price break in another line, print goods, earlier in the year.

Manufacturers of finished goods he says, have loaded inventories as a result of consumer resistance. He predicts the return of a buyers' market which will get finished products rolling again by fall with a consequent pick-up in production for the slowed-down textile manufacturers.

A contributing factor, he explains is the world dollar shortage and accompanying decline in the export business. Faced with high prices retail manufacturers have looked to the South recently for somewhat lower grade and cheaper cotton material.

Globe-Girdling B-29s Return To Base At Tucson

Tucson, Ariz., Aug. 6—(AP)—Two globe-girdling B-29s—the first to fly around the world—landed at their home base, Davis-Monthan Field, at 7:31 a. m. (EST) today.

They made the trip in 15 days, 10 hours. But en route, a third superfortress went down in a crash near Aden, Southern Arabia, in which 17 of the 18 men aboard were killed.

Each plane came in with 17 men aboard today. One officer had been left behind at Aden to clear up matters pertaining to the crash of the third craft.

In the round-the-world flight, which started here July 22, the superfortresses refueled at McCall Field, Fla., and later landed at the Azores, Tripoli, North Africa, Aden, Ceylon, Manila, Yokohama, Japan and Anchorage, Alaska.

Envoys Again In Call On Molotov

Public Hearings On Red Spy Ring Are Called Off

Senator Ferguson Says Action Taken Because Necessary Facts Hidden

Washington, Aug. 6—(AP)—Senators investigating Communist spy ring charges today suspended public hearings because they said the Truman administration refuses to give them necessary facts.

Chairman Ferguson (R-Mich.) of the Senate investigating subcommittee announced the decision. He made public also a refusal of Attorney General Tom Clark to supply official FBI records on William W. Remington.

Meanwhile, the House un-American activities committee went underground for a secret meeting with a mystery witness in its own similar investigation.

A subcommittee was sent out of town to interview this witness at an undisclosed place. Rep. Mundt (R-SD) acting chairman of the full committee, said this man's testimony, together with other testimony already gathered, "will prove the existence of a Communist spy ring which reached high into the government during the war."

Clark's refusal to turn over the FBI records on Remington was in line with an order from President Truman who denounced the Congressional hearings yesterday as a "Red Herring" intended to divert public attention from what he called the refusal of the Republican-controlled Congress to enact adequate anti-inflation legislation.

The House subcommittee went to unusual efforts to keep its activities from being known.

A heavy curtain of secrecy, almost akin to wartime censorship, was maintained by the committee.

The names and number of members were a deep secret for some reason that nobody would explain.

The subcommittee was supposed to leave last night, arrive at its destination by noon today, start questioning the mystery man this afternoon, and get back to Washington by Monday.

The special hearing group was set up late yesterday when an investigating committee meeting with word that another key witness had been uncovered.

Mundt said that as a result the spy ring case ought to be cracked "wide open" in public hearings next week. Hearings for the rest of this week were ruled out.

Wanted Suspect In Embezzlement Gives Self Up

Raleigh, N. C., Aug. 6—(AP)—William M. Robbins, 51, sought for six years on charges of embezzling funds while he worked for the revenue department, remained in Wake County jail today.

Robbins is charged with embezzling \$744.85 while serving as a deputy field collector with the State Revenue Department. Seven other given prison sentences ranging from one to 10 years in the scandal.

Robbins, a native of Charlotte, gave himself up four days ago in Richmond, Va., saying he wanted to get the embezzlement charge "over with." He was returned to Raleigh yesterday after waiting extradition.

Straws In The Wind

Analyst Takes Cautious Interest In Noting Some Ease-ment Of Quarrel Between Russia And The West; Why Should Russia Even Consider A Truce At Present?

By DEWITT MACKENZIE

They say that little straws show how the wind blows, but one takes the liberty of doubting whether the course of the straw is very helpful in the case of whirlwinds.

Thus it is with cautious interest that we note some easing of the cyclonic quarrel between Russia and the Western Allies. From Moscow comes word that reliable sources say there is a good chance for "an agreement" between the warring nations.

On top of that we get the Russian authorities' surprising move in relaxing their onerous financial blockade of Western Berlin for the present.

This financial blockade, by the way, is distinct from the food blockade, although the latter was imposed because of the financial quarrel between the Soviet and the Western Allies. Some weeks ago the democracies made a new issue of German marks for their three zones, which previously had been dependent on the Soviet currency.

The Russians promptly outlawed the money in the American, British and French areas of Berlin on the claim that the capital is part of the Soviet zone—an assertion which the democracies dispute. The Russians

Same Three Who Conferred With Stalin Monday Night Enter Kremlin For New Talks With Foreign Minister; Weekend Communiqué Is Expected

Moscow, Aug. 6—(AP)—Envoys of the United States, Britain and France called today on Foreign Minister Molotov.

U. S. Ambassador Walter Bedell Smith entered the Kremlin first, followed by British Ambassador Sir Stafford Cripps, and French Ambassador Yves Chataigneau followed him immediately. The same three conferred Monday night with Prime Minister Stalin, seeking a basis for ending the Berlin blockade and resolving other East-West differences.

The Kremlin conference started at 8 p. m.

Stalin was not believed present at this meeting, which the Western diplomats had sought with the foreign minister.

(Diplomats in London said they expect a Big Four communiqué to be issued this weekend, announcing plans for a new meeting of the Foreign Ministers' Council. The council is the four-power agency whose last two meetings broke up in disagreement.)

The Russian-licensed Berlin newspaper, National Zeitung said the first Western envoys intended to see Molotov today to "fix the time and place for a new four-power conference."

Informed quarters had said it was hoped that the last small differences among the United States, Britain and France over an agreement to be presented to the Russians would be ironed out this morning.

Britain's special representative, armed with a stuffed briefcase, called on U. S. Ambassador Walter Bedell Smith early today.

The U. S., British and French envoys had stayed by until after midnight today, apparently awaiting a second conference with Prime Minister Stalin, but it failed to materialize.

Observers noted that the British, American and French envoys had been in the city since 10:30 a. m.—to call on Smith. The latter arrived at his desk at 9:30 this morning. Roberts, who came direct from the British embassy, looked tired, but said he had slept well.

The three diplomats conferred at length yesterday on their next steps in the East-West crisis. Their respective embassies all have received the first reactions from their home governments on the Monday night conversations with Stalin, and are believed in position to plot their next moves.

On London, a British Foreign Office spokesman reaffirmed last night the West's intention to proceed with plans for a Western German government this fall.

(There has been mounting speculation in the British capital that the Russians have demanded deferment of these plans in return for a settlement of the Berlin blockade.)

More Superforts Sent To Britain

Tucson, Ariz., Aug. 6—(AP)—Davis-Monthan Air Force base today dispatched eight B-29 superforts on a 6,000-mile flight to Lakenheath, England. Each plane carried about 18 men, base operations reported.

Two other squadrons are scheduled to make the England trip, with the next takeoff scheduled for early tomorrow.

NOMINATED

Washington, Aug. 6—(AP)—President Truman today nominated Admiral Raymond A. Spruance for appointment to the permanent grade of admiral in the Navy.

He was nominated for the position of commander in chief of the Pacific Fleet, succeeding Admiral Chester W. Nimitz.

The nomination was made public today. Spruance is a native of Hawaii and served in the Navy during World War I.

He was promoted to the rank of admiral in 1946. He has served as commander of the Third Fleet and as commander of the Seventh Fleet.

He was born in 1894 in Honolulu, Hawaii. He graduated from the United States Naval Academy in 1915 and from the Naval War College in 1925.

THE DAILY REFLECTOR
August 6, 1908

Chesapeake Line steamers leave Norfolk daily except Sunday for Baltimore. Club breakfast 25c to 60c. Table d'hôte dinner 75c.

Miss Nancy Coward went to Ayden Thursday morning.

Misses Glenn and Helen Forbes left Thursday evening for a visit in Asheville.

Miss Lillian Burch came home Thursday evening from Wrightsville where she has been spending several weeks.

The mayor was instructed by the board of aldermen to have publication made giving notice that all trees on Dickinson avenue that interfere with sewers shall be cut down and that all persons who are opposed to the cutting down of such trees be notified to appear at an adjourned meeting of the board when their objections will be heard.

Miss Willford Honored at Bridge
Mrs. A. C. Tadlock and little daughter, Carol Ann, entertained at their home Tuesday evening with bridge honoring Miss Hazel Willford, bride of this month. Upon arrival Miss Willford was presented a beautiful corsage of red rose buds, tied with silver and red ribbon. Twin vases of red rose buds, fern and ivy were arranged in crystal vases on either end of the piano, and on the mantel in the living room. A larger bowl of roses centered the buffet with silver candelabra and white candles on either side.

Several hours of bridge were enjoyed by the guests. Miss Shirley Warner was presented a silver and crystal ash tray at the end of the games for high scorer. Miss Peggy Rose Smith scored second high and received a lovely linen handkerchief. Miss Willford was presented china in her pattern from the hostesses. Lime ice, individual wedding cakes and nuts were served. Refreshment guests were: Mrs. David Willford, Mrs. W. C. Byrd, Mrs. LeRoy Arnold, and Mrs. Chester Walsh.

Rites Held For Aged Leading Kinston Man

Kinston, Aug. 6 (AP)—Funeral services were held today for Dal Floyd Wooten, Sr., 82, former mayor of Kinston and sheriff of Lenoir county.

Wooten died at his home yesterday after a long illness. He is survived by four sons and three daughters.

The Dominion of Canada has a greater area than continental United States.

Day For Drivers In Traffic Court

Philadelphia, Aug. 6 (AP)—It was a great day for the motorist in Philadelphia's traffic court.

Nine times out of ten when Mr. Driver gets a ticket for illegal parking, speeding or a dash, he pays a fine.

Yesterday, however, the following results were recorded:

The case against Mrs. Elizabeth C. Morgan, cited for lending her motorcycle to an unlicensed driver, was dismissed. Mrs. Morgan doesn't own a motorcycle.

Helen Foreca, accused of illegal parking at a South Philadelphia address, proved there is no such address.

Edward P. Gishen convinced the court he and his car had been out of town on the date he was charged with illegal parking.

Timothy Credan and William J. Lehan, Jr., accused of passing stop lights, produced proof there are no stop lights at the intersections involved.

Straws In . . .

(Continued from Page One)
It strikes me that there are two prime reasons:

1. There is discontent and disaffection among Moscow's satellite bloc of Eastern Europe. That is quite evident in countries like Yugoslavia, Czechoslovakia, Hungary and Poland.

2. Russia and her Red bloc are being squeezed economically because of the division of Europe into two camps. And of course, Western Europe is being squeezed, too, for these great areas are interdependent. They need an exchange of raw materials, foodstuffs and manufactured articles. In fact the economic experts maintain that it would be impossible to rehabilitate Europe fully so long as the Iron Curtain exists. That, by the way, is one of the difficulties of making the Marshall Plan fully efficient.

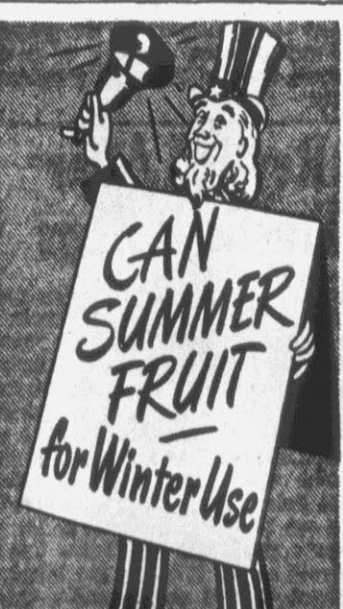

Methods In . . .

(Continued from Page One)
to find enough evidence to indict any of the government employees involved in the investigation. He said:

"The public hearings now under way are serving no useful purpose. On the contrary, they are doing irreparable harm to certain persons, seriously impairing the morale of federal employees and undermining public confidence in the government."

The Times and the Star both think a careful check on spy activities in this country should be made, but not the way the House committee is doing it. The Times says:

"There are legal ways of doing it, such as the Royal commission used in Canada in investigating the leaking of information on atomic research. It conducted its hearings in private, weighed the evidence and only then made public the charges." The Star says: "The procedures being used by the House un-Amer-

Looks For Break In Cost Of Meat

Chicago, Aug. 6 (AP)—The head of the National Association of Retail Meat Dealers is looking for a "sharp break" in retail meat prices—ranging between one and five cents.

James Elliott, of Minneapolis, here for the association's annual convention, said the break will come in the next 10 days or two weeks. He said he based his forecast on talks with packers, producers, and dealers.

"The drop really depends on how heavy receipts flow," he said. "The fall run of cattle that has been on pasture and fattened in the spring and summer is due to hit the market now. There'll be a sharp break in retail prices then, mostly in beef, but eventually spreading to other meats."

He said increased receipts coupled with consumer price resistance would spur the drop.

Lean activities committees are so different from those used by the Canadian Commission and so fraught with dangers of injustices to innocent persons as to disturb many thoughtful citizens."

Yugoslavia literally means south Slavia, or the country of the southern Slavs.

The Hawaiian Islands were discovered by Capt. James Cook in 1778.

Ten Killed As Planes Collide

Miami, Fla., Aug. 6 (AP)—A Navy board of inquiry today studied the charred wreckage of a Navy transport plane in which 10 men were killed. Reports that there was a WAVE aboard, making the toll 11, later were found to be false, the Navy said.

The plane crashed and burned after a collision with a Stearman training plane 23 miles north of here late yesterday. The two occupants of the trainer parachuted to safety.

Death Rides Beside You: How 32,000 Die In A Year

By BEN FUNK
(First of a Series)

Thirteen bodies, blood-drenched and ugly, were scattered along a railroad right of way in Indiana last year when a speeding electric train hit a bus, bursting it like a ripe watermelon.

Bodies were tossed high in the air by the impact and among them were 16 people who were not dead. Some screamed through blood-flecked lips, attracting pale-faced rescue workers.

Others of the living made no noise. One man lay on the ground, staring at a leg bone sticking out of the flesh, as though it were not his leg but somebody else's. He would scream later, when he came out of shock and found himself on an operating table, with a surgeon tugging to get the bone back in place.

Nobody ever knew what caused this accident. The driver of the bus could not explain. His broken body was found 500 feet from the crossing.

Robert Rossow, state police superintendent, looked at the scene with a shudder and remarked, in understatement:

"People are driving too recklessly."

Yes, people drive recklessly. They drive too fast. They drive while drunk. They drive without being physically or emotionally qualified

to drive. They drive without knowing how to drive.

The result: 32,000 killed; 1,100,000 injured; property damage close to a billion dollars, in the past year, alone.

The 1947 death toll was cut, mercifully, by about 1,400 from the preceding year. But if the slaughter continues even at the reduced rate the dead and injured in the next ten years will equal the combined populations of New York and Chicago.

The automobile has killed almost twice as many United States citizens as all the wars in our history. In the next ten years it will kill more than three times as many as the atom bomb that almost wiped Hiroshima off the map.

The loss in that time from medical expenses, property damage and automobile insurance costs would finance the Marshall plan and leave many millions in reserve. It would pay for a new automobile—a deluxe job—for every man, woman and child west of the Rockies.

Startling figures? Yes. But the National Safety Council and other agencies have been screaming similar statistics into the ears of the nation for years without result.

The trouble, says Ned H. Dearborn, president of the NSC, is that Mr. Average Motorist just can't be startled with statistics.

Possibly he has seen a bad smashup, but not before the am-

GOVERNOR—Col. Frank L. Howley, a native of Hampton, N. J., is the United States military governor of Berlin.

balances got there to clean up the gory details. Perhaps he has driven for years himself and suffered nothing worse than a crumpled fender.

But if Mr. Average Motorist could see these statistics translated into a reality of blood and death—if he could see, for instance, how a face looks after it has been mashed through a windshield, with the teeth broken off, the lips torn away, and the nose ground into a flat, grisly mess—he would sit up and take notice.

Gruesome stuff? Certainly. But highway officers and ambulance drivers see such sights every day on America's streets and highways.

"I just wish," declared Colorado's Highway Patrol Chief Gilbert R. Carrel, "that each of our drivers could have a ringside seat at one of our bad accidents. The effect on his driving would be worth more than all the safety campaigns we ever had in this country."

That was a lovely scene last October in Michigan, for instance when two cars collided at an intersection. One was traveling too fast of course, and failed to heed a stop sign.

Among the 11 persons in the two cars, six were killed instantly. A three-year-old girl wasn't that lucky. She lived — a squirming, bloody, pain-racked bundle of human wreckage—until the ambulance reached the hospital. A young ex-soldier hung on for several hours before death relieved his suffering.

Building Lobbies Will Spotlight Data On Weather

Baltimore—(P)—There's going to be a decided meteorological slant in some of the nation's prominent public buildings.

L. D. Kiley, general manager of the Bries Instrument Division of Bendix Aviation Corporation, says plans are underway for a number of important installations of scientific weather instruments in the lobbies of new buildings.

Lobby instruments prior to the war were installed by such structures as the Empire State and "Daily News" buildings in New York, the Christian Science Building in Boston and the Bankers Life Building in Des Moines. They permit up-to-the-second weather data to be observed at a glance and usually show wind speed and direction, outdoor air temperature, relative humidity and atmospheric pressure—or any combination of these.

DAVE MOORE HAS PROGRAM

Secretary David C. Moore, Jr., will have charge of the program at the Kiwanis Club's weekly super meeting tonight at 6:30. President Nathan C. Brooks will preside.

Army Engineers Given Funds For Special Projects

Washington, Aug. 6—(AP)—The Army gave its engineers \$3,525,100 today for special military construction at the secret guided missile center at White Sands.

The nation's ramparts in Alaska, where a lack of housing has forced a delay in plans to increase ground force strength.

Funds for the New Mexico and Alaska projects were among top items in a \$612,700,000 expansion program announced by Secretary of the Army Royal. Of this total, \$151,000,000 was earmarked for Army and Air Force construction in 27 states and 10 overseas areas.

The Army engineers also will spend \$429,000,000 during the fiscal year ending next June 30 for such things as equipment, maps, research and maintenance operations. In addition, Congress gave them \$32,700,000 extra to continue work underway on Guam, Okinawa and Alaska.

Most of the construction funds are earmarked for housing, with a \$3,432,672 allotment for Camp Hood, Tex., topping the list. Fort Lewis, Wash., received \$2,131,632, and West Point, N.Y., \$2,337,000.

Allotments made for construction of family housing units included: Georgia: Fort Benning \$1,179,760, and Fort McPherson \$237,280; North Carolina: Fort Bragg \$473,280.

Marriage Licenses

Marriage licenses were issued to the following couples during the

past week:
White: Leo R. Phelps and Margaret L. Webber of Greenville; Alfred Tetterton of Bethel and Beulah Ford of Tarboro; Donald H. Jenkins of Robersonville and Mary L. Ayers of Bethel; Emmett L. Sparrow of Raleigh and Jean M. Scarborough of Grifton; Henry R. Goodall, Jr. of Greenville and Geraldine Edwards of near Greenville; Harry Melton of Richlands and Rose Stanley of Ayden.
Colored: Otis Gooden and Agnes Tyson of Greenville.

The tallest mountain in Hawaii is Mauna Kea ("White Mountain"), with a height of 13,675 feet.

FOR THE DAY**

**SHE ASSUMED SOLE
RESPONSIBILITY**

Leadership is an important mat-
ter in every circle of human life and
in every age of human history.
Thomas Carlyle preached the gos-
pel of leadership. He believed that
no great movement among men ever
took place apart from the genius
and drive of a great personality.

This theory has been somewhat
discounted in modern times, al-
though the example of Hitler did
much to awaken us to what evil
leadership can do. Gradually we
seem to be coming to the place
where we realize that the great man
or the great woman is necessary for
the great achievement. This leader
must have a multitude of helpers,
but a leader there certainly must be.

Jane Addams of Hull House used
to have a dream as a child in which
she found herself alone remaining
alive in a desert world. Upon her
rested the sole responsibility of
making a wheel which would get the
world started again. Night after
night she was standing in the black-
smith shop "darkly pondering as to
how to begin" and always awaken-
ing before she could get started to
make the wheel.

Jane Addams carried this impulse
over into her life. Upon her, she
felt, rested the responsibility to
transform slums, to advance the
cause of peace, to champion social
justice. She always worked as if
everything depended upon her. That
generated within her a spirit which
made her one of the outstanding
leaders of her age.

**WASHINGTON
LETTER**

Washington — With millions of
dollars spent each year by American
women on wearing apparel, it
would seem that all women should
be well-dressed. But this is far from
the truth, says Phyllis Bell, local
fashion expert. Miss Bell, a hand-
some red-head with big brown eyes
is owner and director of a school
for self-improvement catering lar-
gely to government girls.

"We have been amazed to find
how many misconceptions are har-
bored by those who come to us for
guidance," Miss Bell told me. She
says most wardrobes contain too
many unbecoming, ill-matched
items and too many outfits of one
type, thus making it impossible for
the owner to be well-dressed except
on a highly limited number of oc-
casions.

"This is often due to the fact that
wearing apparel is assembled on the
spur of the moment, according to
the whim and the immediate needs
of the purchaser and without plan
or sufficient knowledge of design to
buy intelligently," she says. Women
should have developed a sharp-
minded picture of their definite
mode of living, before they can real-
ize the possession of a well-rounded
wardrobe.

In her "Key to a Perfect Ward-
robe" she outlines for the govern-
ment girl the fundamental prin-
ciples of dress, emphasizing the im-
portance of line and drape—"What
the stout woman wears," color effects on
the skin, hair and eyes; daintiness;
posture, thriftiness. She suggests a
minimum wardrobe. "A single woman
with optimism is primarily in-
terested in date clothes," she says,
adding that she will need five to six
first-rate outfits suitable for her
social life.

"She adds variety by selecting for
office basic, tailored or simple
things that, with a change of ac-
cessories, transform her from an ef-
ficient secretary to a trim, provok-
ing bit of femininity." A business or
professional woman with few social
activities, she says, needs four or
five becoming basic costumes that
go to business and, with a change of
accessories, go to tea, dinner or the
theater.

A woman who is constantly be-
fore the public she says should sel-
dom wear B outfits (slightly worn)
and never C ones (suitable only for
unimportant occasions.)

Washington—"We always had
ants in the fall along with the offi-
cial functions," writes Mrs. Henrieta
Nesbitt in "White House Diary,"
which records her 11 years as house-
keeper for the late President Roose-
velt. "They were the little black
fellows, and we warred on them the
year 'round, but they came out
strongest for the big affairs."

Mrs. Nesbitt says in her book that
the ants particularly loved the sec-
ond floor, where Mrs. Roosevelt al-
ways had plates of fruit set out for
the guests. "She had mice out there
too," writes Mrs. Nesbitt. "Govern-

Whee! The People!

ment entomologists spent field days
in the White House. We were the
testing grounds for every new disin-
fectant and spray. During World
War II we achieved the dubious
distinction of being the first place
to try out DDT.

Not only government entomolo-
gists but zoologists were called in
to help solve problems at the White
House. The last were consulted after
Mrs. Roosevelt received a letter
complaining that the squirrels on
the White House lawn looked man-
gry. "Well, if ever there were petted
squirrels, those at the White House
were," says Mrs. Nesbitt. "But I
phoned the Zoo and they sent some
men out and they set traps and
caught a couple and gave them phys-
ical examinations worthy of he-
roes. They weren't mangy, of course,
but the report came back, very of-
ficial: 'White House: Stop feeding
your squirrels so many peanuts.'"

This is but one of the many in-
imate anecdotes Mrs. Nesbitt relates.
Here are others:

"It seemed funny at first to be
cooperating with the Secret Service
on fish fillets or sausages for the
President's breakfast. But we had
to be careful about such things.
Each morning after the war started
the Secret Service picked up the af-
ternoon before... The White House
was the center and jumping-off
place for all sorts of people, and
Mrs. Roosevelt was the perfect hos-
tes and wanted them to do what
they liked and have anything they
liked to eat. The queerest meal was
the meal President Prado of Peru
ordered. He had for his breakfast
beans, cauliflower, boiled ham, fruit
juices, hot and cold milk, coffee and
toast."

Mrs. Nesbitt says the President
liked large pint coffee cups for
breakfast but drank non-caffeine
coffee at night... was fond of
liver, kidneys, brains, sweetbreads
and mushrooms and all kinds of
game... roast beef, pink juice
running... did not indulge in
many desserts but preferred crack-
ers and cheese... he did not care
for either coconut or anise flavoring.

The gunwale of a ship is so named
because in old fighting ships the
rails had to be strong to meet the
movement of the old muzzle-loading
cannon.

**RESOLUTION OF RESPECT AND
SORROW**

Whereas, It has pleased God in
his infinite wisdom to remove from
us our esteemed friend and Brother,
Thomas A. Etheridge, Past Worthy
Patron of Greenville Chapter 149
O. E. S., Greenville, North Carolina
who was a faithful member of our
Chapter and one who was beloved
by all who knew him.

Be It Resolved, That for the purity
of his life, the cheerfulness of his
presence, the uprightness of his
character, the kindness of his deal-
ings with others, we shall hold him
in loving remembrance as an exam-
ple worthy of our emulation.

Resolved, That we, the officers
and members of Greenville Chapter
149 O. E. S., extend our most heart-
felt sympathy to the family and
friends in their great sorrow over
the departure of a life so useful and
commend them to Him who doeth
all things well.

Resolved, That these Resolutions
be placed on the records of the
Greenville Chapter 149, and a copy
be sent to the family of our deceased
friend and brother and one to the
local paper.

Committee:
A. C. TADLOCK
KEITH DAWNING CAIN

School Building Program Set To Meet N. C. Needs

Raleigh, Aug. 6—(AP)—A six to 10-year school building program has been mapped out by a committee of the State Education Commission to meet North Carolina's school building needs.

The commission's plan committee points out that most of the school buildings of the state were erected prior to the development of modern ideas of educational procedures.

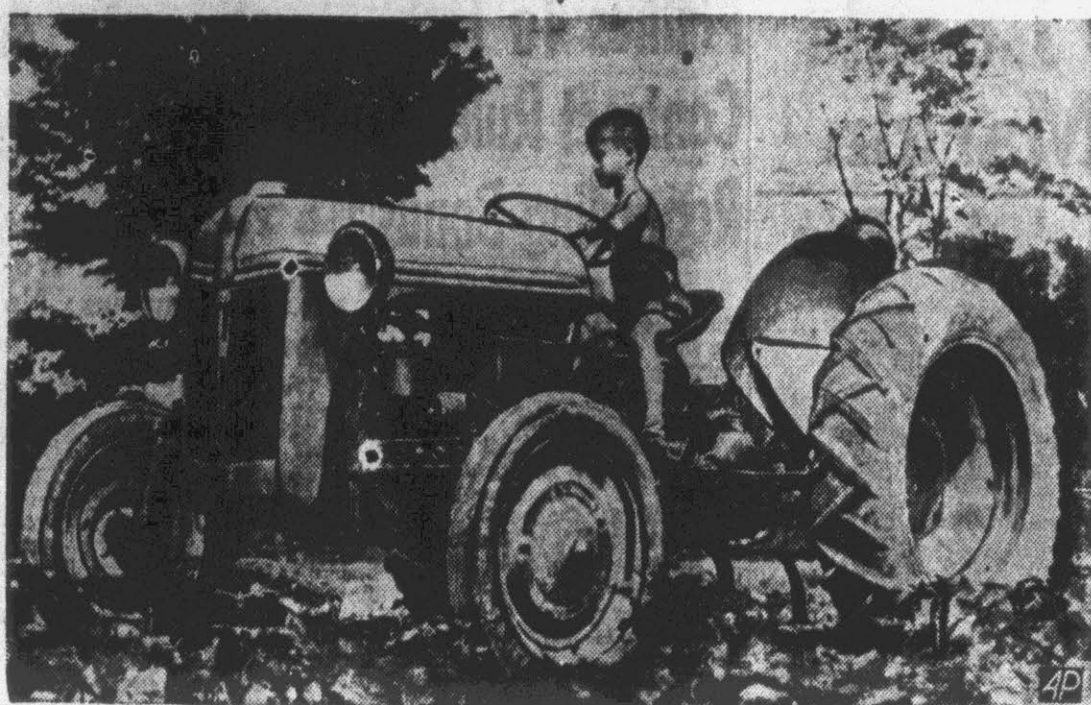

Such buildings are lacking adequate space for libraries, lunch-rooms, health clinics, recreational facilities, and rooms for music and dramatic arts, as well as for science and vocational courses.

The plan committee, headed by M. T. Lambeth of Statesville, says the administration of the long-range program should be a joint responsibility of the state and local governments.

"In many of the schools," the report states, "there are no provisions for washing hands. It is rather meaningless to teach health and at the same time make no provision for practicing the fundamental health habits."

The committee states that during the next 10 years the state's white children will need 250 new school buildings and 650 additions including 3,500 elementary classrooms, 2,500 high school classrooms, 2,500 special instruction rooms, and 1,500 large general rooms. The program also would result in the abandoning of 320 schools now in operation.

Negro students will need 3,500 elementary classrooms, and 1,000 large general rooms, 1,500 special instruction rooms, and 1,500 high school classrooms, plus the accessory administrative and service facilities.

BOY FARMER AT WORK—Lamont Lee Antoine, 6, operates tractor-cultivator on farm of his father, Henry, at Justin, Pa. His dad, who is ill, said the boy had ridden on the tractor since he was 4 and learned to handle the controls at 5 years of age.

Believe Wreckage Part Of French Flying Boat

New York, Aug. 6—(AP)—Pianocharged, splintered wreckage, found off the African coast in the South Atlantic, was believed today to have come from a giant French flying boat missing since Sunday with 52 persons aboard.

The mammoth craft was en route from Martinique to West Africa and was 1,200 miles off Dakar when its last radio signal was heard shortly after midnight Saturday. None of those aboard was an American.

Early yesterday a U.S. Air Force B-29 bomber, part of a large fleet of ships and planes searching many hundred square miles of ocean for the lost seaplane, spotted wreckage and radioed the cutter Campbell, searching nearby.

The Campbell reported later that it was steaming slowly "through a sea literally covered with debris."

The vessel said it found itself in "the midst of numerous bits of wreckage a short time after connected seats had been plucked from the ocean with grappling hooks a scant 70 miles off the normal course of the Air France plane."

Capt. Beckwith Jordan, the Campbell's commanding officer, radioed headquarters here that "there is little doubt that the wreckage and debris x x x came from the plane being sought x x x."

Chinese Courts Refuse Divorce For N.C. Pilot

Shanghai, Aug. 6—(AP)—Nesse D. Hicks, 25, of High Point, N.C., a Civil Air Transport pilot formerly with the U.S. Air Force, today was denied a divorce from his American wife by a Chinese district court.

Hicks, who first worked with UNRRA after the war, filed for a divorce on the grounds that he had been separated from his wife for two years. He alleged she had been convicted on charges of receiving stolen property and sentenced to one year in the federal reformatory for women at Alderson, W. Va.

He said they were married in Bay County, Florida, on May 9, 1942. The Chinese court maintained that North Carolina laws do not recognize conviction of crimes as grounds for divorce.

CONSTRUCTION MAN FINDS RELIEF FROM MISERY IN RETONGA

Mr. Ralph Golden Describes His Years of Suffering; Tells How Famous Gastric Tonic Helped Him Regain Lost Weight and Appetite.

"I had gotten so thin I'd have to walk twice in the same place to throw a shadow, as the saying is, but that was before I started on Retonga," proudly remarks Mr. Ralph Golden, popular construction man of Powell Station, Tenn.

"For years I suffered terribly from nervous indigestion," explains Mr. Golden. "Severe gas pains nearly doubled me up and left me feeling weakened and wobbly for days afterward. I had practically no appetite and ate no more than I had to to keep going. I lost about 45 pounds and felt listless and run-down. I was also hounded by constipation and nearly driven crazy by splitting headaches."

"When I had almost reached the point where I thought I would have to quit working, I learned about Retonga. This grand medicine brought me the most blessed relief right from the start. My appetite is wonderful and I never miss a meal. Most of my lost weight is back, my constipation and headaches have been relieved, and those gas pains are just an unpleasant memory. I feel well—and Retonga deserves all the credit."

MR. RALPH GOLDEN

Retonga is intended to relieve distress due to insufficient flow of digestive juices in the stomach, loss of appetite, borderline Vitamin B-1 deficiency, and constipation. The active ingredients of Retonga are purely herbal, combined with Vitamin B-1. You can get Retonga at Bissette's Drug Store. (Adv.)

YES WE HAVE GARBAGE CANS

Will Try Three Men On Counterfeiting Charges In October

John Harvey Bowen and Holtan Lee Dail, Ayden white men, and Nathaniel Lee Harrington, Rocky Mount Negro, who were arrested near here about two weeks ago on

charges of possessing and passing counterfeit \$20 bills, will be tried in Eastern District Federal Court at Washington on Monday, October 4. Judge Donald Gilliam of Tarboro will preside.

The three men were arrested by

FBI men and local officers. They were given preliminary hearing before the United States Commissioner in Rocky Mount on July 24. Officers found some of the bogus bills buried on Dail's premises. Bowen's bail was set at \$5,000; Dail's, \$2,500; and Harrington's at \$1,500.

"Starboard" in nautical parlance is believed to stem from the fact that Vikings placed the steering or "star" oar on what they called the

YOUR

PONTIAC

WITH PONTIAC SERVICE

You can't do better anywhere!

If you have gotten out of the habit of having your Pontiac serviced regularly by an authorized dealer, please read this with special care.

You are driving one of the most dependable automobiles ever built. Thousands of Pontiac owners have learned that with proper servicing their cars will perform brilliantly, mile after mile, with only routine attention.

Proper servicing is our kind of servicing—designed primarily to keep your Pontiac in perfect condition. Our mechanics are trained by factory experts; they use specially selected time-saving tools and factory-engineered parts. They know every inch of your Pontiac as only experts can.

Our over-all policy, too, is dictated by the best interests of Pontiac owners: We do only the work you authorize. We charge no more for our expert work than you would pay for ordinary servicing.

On all counts—confidence, satisfaction and cost—you can't do better anywhere!

YOU CAN'T DO BETTER than Pontiac Factory-Engineered Parts: The parts we use are exactly the same as those installed at the factory—they always fit right—they always perform right.

Kinston Eagles Trip Locals With 3 - 1 Victory Margin

Bunched Hits In Fifth For Lead, Then Four Walks In Sixth Account For Final Score; Tate Credited With Loss

By BERT MOYE

First Division Blues:—Usually it's the second bracket clubs that shed the tears, but check your local Coastal Plain lineups. Three of the four ranking teams in the hell-for-leather chase down the home stretch have thrown shoes. Take a look at the Leafs' roster, where you find Jim Guder's name with a heavy line through it. The big right-hander, sure pennant insurance it seemed, has gone his merry way and will forget baseball for the more important duties of coaching.

Now let's bounce down to Kinston and find out what has the Eagles in the dumps. It's the loss of Sammy the Whammy of course. A 28-game winner last season, Sam McLachorn had been ordered by medics to rest out the remainder of the season with a torn muscle. It puts a heavy lid on Steve Collins' hopes for a pennant, for many experts had seen Kinston as the team with the most power for a finish.

For third place in the hard rack line the Tars from Tarboro hold their flag high. (The Clutch) Neville is complaining with a sore back, and it may be that he will elect to rest instead of work out of condition. That would be a bloody blow to the top mound corps of the league.

How about the other first division outfit, the Goldsboro Goldbugs? Bill Herring isn't saying anything, but a smile is apparent now that Jack (The Ripper) Hussey is back off the injured list. To say that the Goldsboro crew will be tougher is the understatement of the month.

First Baseman Jack Hussey, the Coastal Plain League leading hitter and Pitcher James Sykes Faircloth have been sold by the Goldsboro Bugs to the Rome, N.Y., club of the Class C Canadian-American League for delivery next season. It has been announced by Goldbug officials. The purchase price was not disclosed.

Some changes have been made in the roster of the New Bern club Paquale DeLuca, limited service outfielder who was brought to New Bern from Waterbury, Conn., has been returned, and Knute Dobkins, also a limited service outfielder, has been released. Norman Kramer, former hurler for Rocky Mount, has been taken on the Bears' roster. Harry Spaine, outfielder, whose home is in Charlotte, has joined the Bears. He came from Mt. Vernon, Ill., in the Illinois State Class D league.

A baseball school conducted by the St. Louis Browns got underway yesterday at Kinston. All boys from 17 to 23 are eligible for tryouts.

Rival Promoters In Tug Of War At Philadelphia

Philadelphia, Aug. 6—(AP)—A fight promotion was about to be brewing in the City of Brotherly Love.

Herman Taylor's position as the city's No. 1 promoter was challenged yesterday when the Arena Corporation was licensed by the Pennsylvania State Athletic Commission to stage boxing at the Arena.

Taylor has used the Arena as the scene of most of his fistcliff promotions for more than 15 years. Pete Tyrrell, president of the Arena Corporation, said he would appoint a matchmaker shortly and would schedule between 30 and 35 Monday night boxing shows through the indoor season starting Oct. 3. Taylor had planned to open business in September.

Sees Close Race For Pro Football

Hershey, Pa., Aug. 6—(AP)—The 1948 National Football League campaign will produce the closest race in history, coach Maurice (Clipped) Smith of the Boston Yanks predicted today.

"The race for the eastern title will make the present American League Baseball fight look like a pink tea," the clipper said—and he's been to the grid wars long enough to know what he's talking about.

As for his own Yanks, Smith looks for them to be in the thick of that fight.

"We certainly have a better club on the field this fall than last year," said the Boston coach as he looked over his 36-man squad, here for a month and a half of summer workouts.

Ann Curtis Wins Semi-Final Heat

Olympic Pool, Wembley, England Aug. 6—(AP)—Ann Curtis of the University of California won her semi-final heat in the Olympic 400-meter women's free style swimming competition today in five minutes 26.4 seconds.

Simmons Leads Decathlon Race

Olympic Stadium, Wembley, England, Aug. 6—(AP)—Floyd (Chunk) Simmons, former University of North Carolina football player representing the Los Angeles A.C., took the lead in the Olympic games' rugged Decathlon today by scoring 896 points in the 110 meter high hurdles.

He displaced Enrique Kistenmacher, amazing Argentinian who led the iron man's field through the first five events yesterday. The Charlotte, N.C. boy jumped from fourth place in the standings.

Kistenmacher stumbled on the last hurdle. Simmons' time was 15.2 and Kistenmacher's 16.3.

Despite the chill, misty British weather there were several thousand spectators in the stands as the seventh day of the international competition began.

The United States now holds eight men's track and field championships of the 18 contested, with six events to go. The Americans have 164 points to 63 for Sweden, the closest pursuer.

First Sailfish Is Still Uncaught

Morehead City—The first sailfish catch of the season is yet to be made in waters off the Carteret coast. Last year several had been caught prior to August 5. Capt. Otis Purifoy believes the reason no sailfish have been landed has been due to windy conditions that have made it necessary for most of the offshore fishing boats to stay close to shore.

Sail have been sighted, and a party aboard the Sea Raven, skippered by Capt. George Purifoy hooked one that made three leaps from the water last weekend. Then the sail won in its battle for freedom by cutting the line with its sharp beak.

Phillies To Fight Contract Rules Regarding Bonus

Philadelphia, Aug. 6—(AP)—The Philadelphia Phillies—fitfully eyeing their 19 bonus youngsters—are making plans for a mid-winter battle to change the present major league contract rules.

The Phils' battle plans were revealed yesterday as baseball commissioner A. B. Chandler issued a statement in Cincinnati, sharply criticizing the Major League clubs for violating both the bonus player and high school rules.

"Since the passage of the bonus rule on Feb. 15, 1947," Chandler said, "club owners and those who assist them have shown extraordinary prowess in finding ways to circumvent the rule."

Under the high school rule, no student may be signed until the day after he graduates, or the day after his class graduates in the event he quits school earlier.

A bonus player is defined as one paid from \$800 by a class E club to sign to \$6,000 or more by a Major League team.

Chandler said it has been brought to his attention that some club owners have been "offering contracts to players' fathers to serve as scouts, or paying off the mortgage on the family homestead, lavishly entertaining father, mother, brother or sisters for a considerable period in the Major League city, and doing too many other things to enumerate here that really violate the rule."

Any such "gifts," Chandler said, will be added to the salary or bonus paid a player when he signs a contract with the understanding that, if the aggregate is in excess of the limit in any given classification, the player will be considered a bonus player.

Spearheading the Phils' drive is Joe Reardon, boss of the club's network of farm clubs. Reardon says the bonus ruling is harmful both to young and old ball players.

"It's good and it's bad," Reardon said, "but it's more bad than good."

Play-Off Seems Likely For Pros In Tam O'Shanter

Chicago, Aug. 6—(AP)—Eight highly-touted pros today began the last round of the Tam O'Shanter scramble for top money of \$5,000 only four strokes apart—and an extra-hole playoff seemed likely.

Two past champions held a one stroke advantage as the tourney turned toward the most unpredictable finish in an eight year history. Bobby Locke, the defending titlist, unranked a third round 36-34-70, two under par, yesterday to overhaul Herman Barron, the 1946 winner, who took a standard 72. Both pulled up at the 54-hole mark with 208—eight under the regulation.

Only one stroke behind at 209 were Pete Cooper of Gainesville, Florida Open champion; and veteran Lloyd Mangrum.

Slosburg Signs Boston Contract

Hershey, Pa., Aug. 6—(AP)—Phil Slosburg, Temple's outstanding back for the past three seasons, today signed to a Boston Yanks contract.

The Boston National football league club, which is training here, gambled on obtaining Slosburg. He was drafted high on the Yanks' list but if he did not finish his collegiate work during the summer season and returned to Temple this fall the Boston team have forfeited its rights to him.

No Single Athlete Has Become Hero Of Games

This Year's Olympics Apparently A Woman's Olympics; No Men Have Yet Won Two Victories; Whitfield Upset

Olympic Stadium, Wembley, England, Aug. 6—(AP)—Unlike Olympic games of the past, no single dominant hero is emerging in 1948—and a woman's name will lead all the rest.

When Mal Whitfield finished third in the 400 meter run, the last man with a chance to become a double winner in track lost out.

So it is a woman's Olympics—Mrs. Fannie Blanker-Koen and Micheline Ostermeyer in track already have two gold medals and can win more, and Mrs. Victoria Draves and Karen Harup in swimming are on the way.

The London games will have no man's name to add to the lustrous list that includes Jessie Owens in 1936, Eddie Tolan in 1932, Percy Williams in 1928, and Paavo Nurmi in 1924.

The only man who has come close to two single victories—excluding the relays—is Arthur Wint of Jamaica, who was close second to Whitfield of the United States in the 800, and who won the 400 in '46, upsetting not only Whitfield but favored Herb McKenley of Jamaica as well.

Yesterday's lack of American track winners was compensated for by smashing victories by five American shells in the Thames rowing and Dr. Sammy Lee's championship in high diving.

Both head U. S. coach Dean Cromwell and Whitfield himself were bitterly disappointed in the outcome of the 400 meters.

"I don't know what happened to me," said Whitfield, "I guess I must have been too sure of winning."

Said Cromwell: "The last four men in the 400 ran a ridiculous race."

The last four were Whitfield, timed in '46, Dave Bolen of Colorado '47,2, Morris Curotta of Australia

Bookmaker

Henley-on-Thames, England, Aug. 6—(AP)—You can wager anything from a sixpence (dime) to a new car here on the outcome of the Olympic regatta.

The English, in case you aren't hep, are betting fools. Even Simon, Pure amateur sports is fair game for multiplying the silver you can't spend on cigarettes, anyway, because there aren't any.

Over in the Angel Pub at the end of stone arch bridge last night Sam Cowan, the local bookmaker, has his odds on the Olympics posted for one and all to see.

47.9, and George Guida of Villanova 50.2.

"They just didn't run," Cromwell went on. "All three were perfectly fresh at the end of the race."

Now that no man is coming out a double champion, the attention focuses on the women.

Mrs. Blanker-Koen, a 30-year-old Dutch housewife and mother of two already has won the 100 meters and 80 meter hurdles and is on her way to one and possibly two more championships.

Mlle. Ostermeyer of France, slender and pretty, is the discus and shot champion.

In swimming pretty, quiet Mrs. Draves has won the spring board diving and today competes in the high tower, her specialty.

Miss Harup, a powerful Dane, has

Hermanski Takes Walker's Place

By JOE KRICHLER Associated Press Sports Writer

Dixie Walker, the old "peepin' cherch" of Flatbush, is hardly ever missed in Brooklyn these days—all because of the fine all-around play of his fill-in in right field, Gene Hermanski.

As a matter of fact, during most of the campaign, it's been "as Hermanski goes so go the Dodgers." Trace Gene's fluctuating batting average and you get the fall and rise of the Dodgers this season.

Hermanski started off badly in April. So did the Dodgers. He sank to his low of .251 on July 2. That was the day the Brooks hit bottom in the National League pennant race, 10 full games behind the first place Boston Braves.

The strapping 27-year-old native of Pittsfield, Mass., cracked two hits the next day and the Dodgers won to move out of the basement. Since then Hermanski has been going like a house afire, and the Dodgers have kept pace with him.

In his last 44 games, Gene has powdered the pill for an average of .375, collecting 45 hits in 120 times at bat. He now is hitting a respectable .318. During the same span, the Brooks have won 23 and lost nine for a .719 percentage. They have picked up five and a half games on the Braves.

won the backstroke in record time, and is aiming at the women's 400 meter free style.

In men's swimming, although the United States is making a sensational sweep, no one man is winning more than one event.

Here's the BEST Tire Deal in Town
A SMOOTHER, SAFER, RIDE
OR YOUR MONEY BACK!

An amazing offer? True, but Super-Cushion is an amazing tire—a tire so sensational we have no hesitation in saying "ride, then decide!" Let us put a set of Super-Cushions, complete with new tubes, on your car. Drive it for one week. If you don't agree that Super-Cushions give you a smoother ride, easier car handling, and quicker, safer stops—we'll replace them with your old tires and give your money back.

The Super-Cushion is a bigger, softer tire—runs on only 24 pounds of air! It soaks up bumps, rattles and vibration—gives safer, quicker stops—makes your car float through traffic—flows around curves. And Super-Cushions average more mileage than the finest standard tires! Super-Cushions "roll with the punch"—are harder to cut, bruise or blow out. Don't miss the thrill of riding on Super-Cushions—take advantage of this offer NOW!

MODERNIZE YOUR CAR WITH
Super-Cushion TIRES BY GOOD YEAR

A MAN IN THE HOUSE

By Florence Stuart

The Philippines contain more than 7,000 islands and islets, of

Crapp, Mrs. Will, 1L	4.80
Weathington, H. H., 1L	9.60
Weathington H. H., 30A, 2L	58.87

It is proving impossible to dry the hay and much of what has been harvested is said to have no nutritive value. In the dripping orchards, pears are said to be mainly bad and the apples only 50 percent of normal. Cherries have been good, but they rot very soon after they are picked. Plums are expected to bring an average yield.

WINTERVILLE TOWNSHIP—

Drowning Victim Buried Washington

Washington, Aug. 6.—J. B. Rowe, 23-year-old semi-pro baseball player, was drowned in Pamlico River near here yesterday when a boat from which he was fishing capsized.

after striking a tree stump. Surviving are his parents, Mr. and Mrs. J. B. Rowe of Washington; one brother, John Riley; one sister, Mrs. John Edd Edmundson; two nieces and one nephew.

Funeral services were held from the home on Charlotte street today at 2:30 o'clock, with additional serv-

ices being held at the White Hill Free Will Baptist Church at 4 o'clock, conducted by the Rev. Ray Silverthorne and the Rev. Sam Zealy. Burial was in the church cemetery.

Aldermen Order . . .

(Continued From Page One)

law requiring privies to be sanitary is enforced, as concerns the property owner and the occupants of houses. From the discussions by citizens of the dangerous privy conditions in the city at last night's meeting it was gleaned that some property owners feel that with the rent paid for the Negro houses, they cannot afford to spend money for privies or sanitary toilets.

It was not brought out at the meeting, but it is a fact, according to federal regulations that under the rent control law (still in effect) that the owner of a house who makes improvements may legally charge more rent and be allowed to make at least 6 per cent profit on the expenditure.

Information about the rent control law is easily accessible right here in Greenville, an observer at the meeting said afterwards. The health laws regulate the occupant of the house as well as the property owner.

Incidentally, while these discussions are going on, there is on scores of premises in the southern part of the city privies or back-houses in which the container boxes have rotted and spread human excreta over the yards where children play, and in which millions of maggots swim and wiggle about, waiting for wings to become house flies, and then to take flights to spread their disease-bearing germs.

Public sentiment favors a clean-up under the health laws, it appears.

City Bus . . .

(Continued From Page One)

Fourth Street as far as Eastern where it will turn to make a stop in front of the Training School.

Along the Bethel Highway, Dickinson Avenue, and South Evans street buses will operate every half hour; on West Fourth Street and Tyson the buses will operate on a half hour schedule but will skip one trip every two hours, at which time the bus will run on East Fourth Street. On East Fourth Street, where the small number of passengers has caused bus company officials to reduce service to seven buses a day in recent weeks, regular service will be provided throughout the day with one bus every two hours.

Buses running on the Bethel highway will leave at 20 minutes and 50 minutes after every hour from a point in front of the Frank Wilson building. A bus for Dickinson Avenue and another for South Evans and 14th street will leave from a point in front of the Pender store building at 10 minutes and 40 minutes after every hour. A bus for West Fourth and Tyson streets will leave from a point on Fourth street next to the Blount-Harvey store building every hour on the hour and 30 minutes after every even hour. The bus running to East Greenville along Fourth street will leave from a point in front of Frank Wilson's store building 30 minutes after every odd hour.

The local board of Aldermen made possible the adoption of the bus routes proposed by Dibble by repealing the ordinance prohibiting left turns at Fourth and Evans and by eliminating parking on the north side of Fourth street between Evans and Cotanche where the street is only 33 feet wide. Permanent location of bus stops in the downtown area was left for the consideration of the Mayor and the street committee composed of W. Z. Morton, N. G. Raynor, and W. H. Smith, and such stops are at present merely planned on a tentative basis pending approval by the committee.

In the course of explaining the new schedule Worsley expressed regrets to the patrons for the serious interruption in bus service which occurred Tuesday and Wednesday of this week as a result of temporary breakdowns of buses in service. He expressed the hope that the current overhauling of the buses now in progress will insure that no such interruption of service will occur after the new schedules go into effect next week.

Head Guerrilla Said In Albania

Athens, Aug. 6.—(P)—Communist leader Markos Vafiades and his rebel government were reported in press dispatches today to have fled into Albania before the surging Greek offensive in the Grammos mountains.

Greek divisions have compressed his insurgent territory adjoining Albania to an area containing only four villages of any size. The rebels started seven counterattacks, but all were beaten down.

DELAIED ACTION

Marshalltown, Ia., Aug. 6.—(P)—Roy R. Ball, Marshalltown, has filed suit in district court here asking that his marriage be annulled.

Ball alleged that he had not seen his wife since their wedding—14 years ago.

UNDERGOES OPERATION

Chester Walsh was in Kinston yesterday to undergo an operation for a gum infection.

N.Y. Cotton

New York, Aug. 5.—(AP)—Cotton futures opened 30 cents a bale higher to 5 cents lower.

Noon prices were 5 to 15 cents a bale lower than the previous close. Oct. 31.60, Dec. 31.70 and March 31.75.

Futures closed unchanged to 30 cents a bale higher than the previous close.

Hog Market

Raleigh, Aug. 6.—(AP)—(NCDA)—Hog prices steady. Tops of \$28.50 at Kinston, Rocky Mount, Greenville, Smithfield, Mt. Olive, Dunn, Wilson, Goldsboro, Washington, Jacksonville, Lumberton, Warsaw, Fayetteville, Florence and Richmond.

Grain Market

Chicago, Aug. 6.—(AP)—A report that the Agriculture Department may make further increases in September exports gave a firm tone to wheat today. Corn and oats, after dipping during early dealings, recovered for small-sized advances. Wheat closed 1½-2½ higher, September \$2.23½-½, corn was 2½-2½ higher, September \$1.64½-\$1.64, oats were ¼-¾ higher, September 72½, rye was 3 cents higher, December \$1.70, and soybeans were 2½ to 4 cents higher, November \$2.71½.

N.Y. Stock Market

New York, Aug. 6.—(AP)—The stock market drifted along aimlessly today. Gains and losses, mostly in small fractions, were well mixed. The day's volume headed for one of the smallest totals for the year at around 700,000 shares.

'The William Lloyd'
Suite No. 460 — By Continental

GENUINE SELECTED SOLID HUNDURAS MAHOGANY
Rich Colonial Finish . . . Just Like Illustration

This reproduction follows the trend in design of English importations as developed by William Lloyd of Springfield, Mass. (1779-1845) who maintained a delicacy and smartness of line. Typical of the period the dresser reproduced in this suite is faithfully copied from one of Lloyd's first production. Each piece of this beautifully styled high grade furniture reveals the artistic skill and finished details obtained only by artisans and trained cabinet makers. 5-pc. suite priced—
\$569.50
Other Bedroom Suites (Mahogany, Maple, Walnut)
\$119.50
