

Scattered thunderstorms tonight. Fair and not quite so warm tonight and Friday.

New Deal Trio In Spy Ring Inquiry

Alger Hiss Refuses Lie-Detector Test; Truman Lashes Out At Committee, Accusing It Of Infringing The Bill Of Rights Through Inquiry

Washington, August 19—(AP)—The House Un-American committee today ordered three former New Deal lawyers to appear for questioning tomorrow in its Communist spy ring investigation. They are: Nathan Witt, Lee Pressman and John Abt.

The committee also said that Alger Hiss, former State Department official accused of being part of a pre-war Red underground in Washington, has refused to submit at this time to a lie detector test.

Hiss has denied time and again under oath that he ever was a Communist. He now heads the Carnegie Endowment for International Peace.

These developments came as President Truman lashed out at the committee. He accused it of infringing the Bill of Rights in its inquiry into alleged Communism within the government.

Mr. Truman made that statement at a news conference as he took issue with criticism of his administration stemming from the congressional investigation.

Bernadotte Says Holy City Truce Is Deteriorating

Situation 'Getting Out Of Hand'; Security Council In Urgent Session

Stockholm, Aug. 19—(AP)—Count Folke Bernadotte said today the situation in Jerusalem is "gradually getting out of hand."

In a message to the Security Council, Bernadotte said: "It should be borne in mind that further deterioration of the situation in Jerusalem may lead to general resumption of hostilities."

The United Nations mediator had asked Arabs and Jews to accept a new cease fire effective last Friday morning. But the bitterest fighting since the second Palestine truce began raged throughout last Friday night.

Bernadotte's aides said Security Council action could take the form of warnings or sanctions against the side found to be violating the truce ordered by the Security Council in a July 19 resolution.

"Under prevailing conditions it is difficult to assess responsibility and it is to be feared that the parties are more to blame," Bernadotte said, adding: "They both have come deliberately to ignore the authority of the United Nations."

Stone Police

Berlin, Aug. 19—(AP)—An angry crowd just inside the Russian sector of Berlin stoned tonight two carloads of Soviet sector police who pursued black marketers almost into the American and British sectors.

First reports said one person was killed and another wounded. The howling, milling mob jeered the Russian zone police, who backed slowly. British sector police stood just inside the British boundary as the 600 or more German fueled tanks of "Communists" at the police.

The demonstration amounted to virtually a mass manifestation against Communism. Sections of the Russian-controlled German press charged today that contradictory attitudes of the western powers bogged down Moscow talks on the Berlin crisis and the German problem.

Berlin May Issue Own Currency In Monetary Snarl

Anti-Communist City Administration Debating Plans To Solve Mix-Up

Berlin, Aug. 19—(AP)—Berlin's city government may issue its own currency in an attempt to unravel the city's east-west monetary snarl.

The anti-Communist city administration announced last night it is debating two plans as a solution to the currency mix-up, resulting from circulation here of rival eastern and western marks.

1. To issue an emergency currency for the city.

2. To make the western marks exclusive currency in western Berlin in order to overcome the difficulties caused by the Soviet blocking of eastern mark accounts in the city's western sectors.

In western Berlin both the eastern and western German currencies now are legal. In the Soviet sector only the eastern mark is valid.

Russia's blocking of these east mark accounts has made it virtually impossible for the city government and western sector firms to pay wages, because the west had directed three-fourths of all salaries were to be paid in eastern marks.

Eastern Belt Leaf Marts Open; Average About \$50

Greenville Mart Offers Growers Friendly Help

Farmers Give Impression Of Appreciation Of Treatment And Efficiency

By CHESTER WALSH
Sidelighting the Greenville tobacco market at the opening sales in several of the warehouses today there is one feature of this market that farmers appreciate, and which businessmen and others compliment, and that is the "friendly chanting of the exceptionally efficient and experienced auctioneers and sales managers."

Everybody knows that the tobacco acreage was cut down this year. And likewise, the growers understand that the dry weather in July retarded growth of the leaf, but it was apparent today, after looking over the baskets in various warehouses, that there is a lot of tobacco on the warehouse floors today that will not fetch a high price.

Incidentally, looking over the rows in some warehouses last night, and following some of the sales this morning, we have the impression that the Greenville market is holding its price standard of getting the highest possible price.

One farmer, who has an unusually large number of acres in tobacco said "tobacco growers have a lot to be thankful for this year. It's evident from sales I observed this morning that the prices paid in Greenville today are in line with the demand for tobacco, the quality of the leaf and the foreign demand for fine-cured tobacco."

Opening of the tobacco market today did not develop any of the excitement and colorful crowds which featured opening days years ago when most of the warehouses were close to the center of town.

The 17 warehouses are scattered over several miles of area, but the warehousesmen, true to the traditions of the Greenville tobacco market and in friendliness to the growers, appeared to have their mutual share of the day's offerings.

Refugee Teacher Ruled Beyond Soviet Control

Sec. Marshall's Legal Advisor Makes Ruling; New York Jurist Indicates Could Charge Consul With Contempt

Washington, Aug. 19—(AP)—The State Department ruled formally today that Mrs. Oksana S. Kosenkina, a refugee Russian teacher, is beyond control of the Soviet government so long as she remains in this country.

The ruling was given by Ernest A. Gross, Secretary Marshall's legal advisor, in a letter to Justice Samuel Dickstein, of the New York State Supreme Court.

Mrs. Kosenkina leaped from the third story of the Soviet consulate in New York a week ago and is now in a critical condition in a hospital there. Dickstein sought the State Department's ruling at a conference here yesterday with Gross.

Dickstein told reporters the department's attitude would govern his decision, probably next week, on whether a writ of habeas corpus be issued against Soviet Consul General Jacob M. Lomakin in New York. The writ directed Lomakin to produce Mrs. Kosenkina for a habeas corpus hearing last Thursday. This was delayed, but Dickstein told reporters he "could" nevertheless void Lomakin in contempt for failure to obey the order.

The ruling by Gross came as top department officials polish up a note rejecting Soviet accusation and demands in the Kosenkina case. Michael McDermott, department press officer, told reporters his "best estimate" is that the note "will probably be completed and delivered to the Soviet ambassador by this evening."

President Truman indicated today that Soviet citizens will be given asylum in this country if they want to follow the example of the Russian school teachers in New York and seek refuge here.

Heavy Break Of Fair To Common Tobacco On Greenville Market; Prices On Most Grades Several Dollars Higher Than Year Ago; Some 'Grumbling' In Belt

Greenville's tobacco market opening this morning found a heavy break of fair to common tobacco on the warehouse floors in the city with prices on most grades several dollars a hundred higher than a year ago. The overall day's average, however, did not appear as high as farmers of the area had hoped.

Tobacco in the best grades sold as high as \$70 per hundred, and prices on the poorer tobacco were up from those paid last year, but medium tobacco sold several cents below what had been expected.

Although no official average for the market is yet available, prices seemed strong considering the quality of the leaf offered. Much of the crop on the floors today was "drought" tobacco which was burned in the fields during the extended dry spell in this area earlier in the summer.

Several farmers and warehousemen said the average quality on today's sales was the poorest on an opening day since 1944. Sales Supervisor Bill Wetherbee estimated this morning that between one and two million pounds of tobacco will be sold in Greenville today.

A comparatively small amount of tobacco was going to the government stabilization corporation. Farmers were reported as "grumbling" and "a little disappointed" at opening prices apparently averaging about \$50 a hundred pounds when sales began today on markets of the west-eastern North Carolina fine-cured tobacco belt.

Some of the other markets, however, reported opening averages of around \$55 a hundred and that growers were "well pleased."

AFL Head Asked To End Walkout

Work Stoppage At Atomic Project Threatens Program

Washington, Aug. 19—(AP)—The Atomic Energy Commission said today a work stoppage at its Los Alamos, N.M., project threatens "serious damage to the nation's atomic weapons program."

The statement was made in a telegram appealing to AFL President William Green to urge idle AFL construction and maintenance workers to return to the job.

Acting Commission Chairman Sumner Pike told Green: "It is our belief that an appropriate request from you will have the effect of bringing to conclusion this work stoppage which is so detrimental to the defense of the American people. Accordingly we urge that you exercise your influence to return these union members to work."

The union workers, employed by five project contractors, left their jobs because a sixth contractor hired non-union labor.

Pike advised Green that more than 3,000 AFL workers were idle yesterday in what union members have described as "a vacation." Pike estimated the number of non-union workers at "not more than 115" and said the contractor who employed them had no contract with the AFL.

Tito Accused Of Murder, Treason

Romanian News Agency Echoes Communist Form In Charges

London, Aug. 19—(AP)—Rador, the official Romanian news agency, accused Premier Marshal Tito and other members of the Yugoslav government today of treason and "horrible murder" in the death of Gen. Arso Jovanovic, former chief of staff of the Yugoslav army.

The Yugoslav government announced yesterday that Jovanovic was killed by a border guard Aug. 12, while attempting to flee across the border into Romania.

Repeating charges first voiced against Tito by the Russian-dominated Communist International Information bureau, (Cominform) Rador declared: "The clique of traitors of Tito and (Interior Minister Alexander) Rankovic, which has let loose a wave of terror against Yugoslav Communists who are loyal to the interests of the working class, has thus committed another crime. This time the victim was one of the most popular heroes of the Yugoslav liberation struggle."

No 'Politics' In Settlement Of Italian Question

Washington, Aug. 19—(AP)—President Truman said today that disposition of Italy's former African colonies cannot be handled politically in the United States.

The President gave this view at a news conference where he was asked about Gov. Thomas E. Dewey's suggestion that Italy be given an opportunity to develop the resources of her former African colonies under a United Nations trusteeship.

The President said that under the Italian peace treaty the question of the former colonies was put up first to the four powers—the United States, Great Britain, France and Russia.

Under that treaty, he said if no agreement was reached among these powers, the matter goes to the United Nations General Assembly, which meets in Paris soon.

Has High Regard For Gov. Dewey

Washington, Aug. 19—(AP)—President Truman was asked during a lull at his news conference today what he thought of Gov. Thomas E. Dewey personally.

I like him, Mr. Truman replied. He said he had seen Dewey, now his Republican presidential adversary on several occasions and their meetings were friendly.

Rescind Tax Vote

Miami, Fla., Aug. 19—(AP)—The Miami city commission yesterday voted a 1 per cent gross receipts tax on daily newspapers published here and rescinded the action five hours later when a commissioner changed his vote.

NLRB Declares Maritime Hiring Halls Are Illegal

Washington, Aug. 19—(AP)—Labor unions smarted today under the first major crackdown on union behavior by the National Labor Relations Board.

The five-man board headed by Paul M. Herzog ruled unambiguously last night that hiring halls operated on the Great Lakes by the CIO National Maritime Union are illegal under the Taft-Hartley law.

Nat'l Aviation Day

Why August 19th Was Selected; Birthday Of Orville Wright; First Proclaimed In 1939 As Recognition Of Wright Brothers And America's Position In Aviation

Washington, Aug. 19—(AP)—This is National Aviation Day. If you know why, you are well above the average person in aviation.

Two-Year-Old Is Victim Of Car

Shelby, N.C., Aug. 19—(AP)—A two-year-old boy died in a hospital here last night after being run over by his brother, 11, who was trying to drive the family automobile while their parents were away.

Expect Break In Slaying Of Girl

Shelby, N.C., Aug. 19—(AP)—A break was momentarily expected today in the slaying of a pretty young red-haired girl, mother of a six-month-old baby.

Eight Per Cent Pay Hike Offer

Durham, Aug. 19—(AP)—Erwin Mills Corp. again has offered its workers in plants at Durham, Erwin, and Cooleemee an eight per cent wage boost. But it was not known immediately whether the Textile Workers Union of America, CIO, would accept.

Street Car Will Make Last Run

Gastonia, Aug. 19—(AP)—An era in North Carolina history will be closed here next month. What is believed to be the state's only operating street car will make its last run on Sept. 18.

Individual Freedom

Communism's Threat To Security Of State And Freedom Of Individuals Illustrated In Amazing Case Of Mrs. Kosenkina; "Swedish Kosenkina" Case Mirrors Trend

Few things could so strikingly dramatize Communism's threat to security of state and freedom of the individual as the amazing case of Mrs. Oksana Stepanovna Kosenkina, the Russian school teacher who escaped from the Soviet consulate in New York by leaping from a third story window.

All items for this page received after 10:00 A. M. will be published the following day. Dial 2386 9:30 A. M. to Noon - 1:30 to 4:30 P. M.

Mr. and Mrs. J. Hicks Corey and Pat Corey have returned home from a visit with Dr. J. Hicks Corey in Chattanooga, Tenn.

Lyman M. Bass of Fountain is getting along nicely following an appendectomy Tuesday in Pitt General hospital.

Elbert Moore has returned from Hughesville, Md.

Ben L. Hemby of New York is visiting relatives in Greenville.

Mrs. C. A. Bowen is visiting her brother, Mr. Edward Beatty, in Montclair, N. J.

Miss Nina Belle Redditt has returned from a trip to the British Isles. While visiting in England she attended the Olympics.

Mr. and Mrs. H. G. Kelly of Richmond are spending several days with Mr. and Mrs. Charles F. Blanchard.

Honor Paid Miss Whichard

On Thursday evening Mrs. Sherman Taylor and Miss Mary Barden Taylor honored Miss Hennie Ruth Whichard, bride-elect, at a bridge party and shower at her home.

The home was beautifully decorated with mixed summer flowers. The hostesses presented the honoree with a corsage of white rose buds and flat silver in her chosen pattern.

Bridge was played throughout the evening with high score going to Miss Frances Holgood and low to Miss Eleanor Brown. The floating prize was won by Mrs. Lib Steig after creating much pleasure and anticipation by all players throughout the evening.

During bridge play mints and coca colas were served. At the end of the evening the hostesses served delightful refreshments carrying out a very attractive color scheme in green and white.

Miss Whichard received many lovely and useful gifts.

Mrs. William Joseph Tripp who before her marriage on Saturday, August 14, was Miss Evelyn Jane Tyson, daughter of Mr. and Mrs. R. R. Tyson of Greenville. Mr. Tripp is the son of Mr. and Mrs. J. B. V. Tripp of Greenville.

Miss Skinner Honored at Bridge And Shower

Miss Jerry Skinner, bride-elect, was honored last evening when Mrs. C. Rex Porter, of Durham, entertained at bridge and a surprise shower at the home of Mrs. Porter's mother, Mrs. W. G. Leggett, on Seventh street.

The living room was beautifully decorated with flowers and greenery carrying out a color scheme of green and yellow.

During progressions iced drinks and pop corn were served and later in the evening a salad course was served by Mrs. Leggett and Mrs. Wiley Rae Hardee.

Miss Jane Smith was awarded the high score prize and Mrs. William Hathaway with second high. Mrs. Jimmie Dall was winner of the prize for Chinese checkers.

The honor guest was presented a corsage of pale pink asters. After the final refreshments Mrs. Porter presented Miss Skinner an umbrella laden with gifts for use in her kitchen. The umbrella was artistically decorated in green and yellow crepe paper.

Attend Meeting in Chapel Hill The mid-year council of Business and Professional Women's clubs, held in Chapel Hill, August 14 and 15, was attended by the following members from the Greenville club: Mrs. J. B. Spilman, Mrs. Chester Walsh and Miss Frances Tucker.

NEW EVENING GOWN—Designer Masey Rouff (left) looks over her new creation, Beards, pink and black satin evening gown, from her new fall collection. Modeling it for fashion show in Paris is Jacqueline Donny, Miss Europe of 1948.

Dear Judge

High school and college girls have found that swimming can be a career. As members of a corps de ballet, 35 aquaballets cavort at an Aquashow at Flushing Meadows, New York. Most of the girls are students and take the job during the summer months. Some continue after graduation in other water shows around the country.

Only good strong swimmers get the job, as the ballet is slow and rhythmic, requiring more control and stamina than competitive swimming. The ballerinas must keep their heads high above the surface while the feet are kept invisible under water.

Scene on the Beaches... More gold sandals, terry cloth to-the-knee jackets made like oversized cardigans, longer bathing suits replacing skin-tight ones, portable record players, medieval oilfilters.

It looks like a Scotch fall for girls who are hep to current fashions. College and teen shops are full of Scotch plaids, which they are using for practically everything you can think of, from neat skirts and slick jackets to pedal pushers, alscas and even stoles.

Those long, fringed stoles take us back to Granny's day. They say the girls used to call them "fascinators" and others tagged them just plain shawls. But they're the hottest news on the campus style front right now.

You wear one to match a skirt or a coat. It's usually about a yard wide and two yards long, with

fringed ends, and may be wrapped around your shoulders, tied around your head or—if you insist—used for a blanket on the bed.

At first you may think they look strange, but you'd be surprised how soon you get accustomed to them. And there's no denying they're warm and practical.

Girls of Scotch ancestry are buying them in their own clan plaids—and it's like wearing a coat of arms. Funny, how many people turn out to be Scotch, when a new and attractive fashion such as this pops up.

You'll be seeing handbags of Scotch plaid wool, too, and berets of the same. Those who want to go all-out on the Scotch theme are buying authentic Highland berets or caps, ornamented by big silver thistle pins or those decorated with the Cross of St. Andrew.

Some of the newer outfits have quilted jackets, or skirts, or both—and of course the last word in swank is to have Scotch plaid spats to match your outfit.

The average altitude of the 48 United States is about 2,500 feet above sea level.

College Girls All Out For Simple Styles

By DOROTHY ROE

Associated Press Fashion Editor The college girl's favorite, all-occasion outfit is still a sweater and skirt, her tastes are far more conservative than those of her mother, and she demands her money's worth.

These facts were gleaned at a recent "convention" of students from colleges in all sections of the country, who sat as judges at a New York fashion show and chose their favorite outfits.

The votes of the girl "delegates" showed that they are fundamentally practical, that they want good, conservative, long-wearing basic clothes which they can spice with light-hearted accessories.

The backbone of every college wardrobe, north or south, east or west, is the good tailored suit, which can be dressed up or down according to the occasion, worn with sweaters or dressy blouses, transformed by switching jackets. The average college girl spends from \$45 to \$60 for this suit, a poll of more than 100 colleges showed, and she demands that it be well-styled, long-wearing and made of the best possible material.

Another "must" in the college clothes lineup is a black date dress, with taffeta the preferred fabric this year.

Add to these two basic requirements a stock of assorted sweaters and skirts, a casual wool dress, a supply of blue jeans and flannel shirts or pedal pushers, a stock of men's shirts, and the average collegeienne is all set for the year.

40 Years Ago Today

THE DAILY REFLECTOR August 19, 1909

Miss Nina Harris left this afternoon for Charlotte. The tobacco warehouses began running double sales Tuesday.

The farmers were about as well pleased with tobacco sales today as you usually see them. Prices were good. Some prices: 190 lbs. at \$10; 84 lbs. at \$18; 34 lbs. at \$36; 20 lbs. at \$20.50; 184 lbs. at \$7; an average of \$11.88.

If farmers would raise their own supplies at home, they need give themselves no concern about reported advance in the prices of flour, meat and hay.

In addition to these daytime clothes, most girls require at least one evening dress, depending upon the formality of her college and the amount of social activity it offers.

The poll also showed that the best customer of the nation's college shops is the freshman, who usually

events.

Are you going thru the functional 'middle-age' period peculiar to women (38-52 yrs.)? Does this make you suffer from hot flashes, feel so nervous, high-strung, tired? Then so try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms! Pinkham's Compound also has what Doctors call a stomachic tonic effect.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

buys a basic college wardrobe at the outset, and then wears it for four years, with minor additions. Freshmen, it was learned, average from \$300 to \$400 for their first college clothes budget, while upper-classmen usually hold their yearly clothes-spending to about \$100.

The Philippines were discovered by the white man in 1521 but the Spanish didn't begin permanent conquest of the islands until more than 100 years later.

Pistol Slaying Puzzles Sheriff

By CHESTER WALSH

Pitt County Sheriff Ruel W. Tyson is continuing his investigation of the pistol-slaying of Jasper Clemmons, 45-year-old Negro tenant farmer on Hubert Simmons' farm, in Pactious Township, last Sunday night about 9 o'clock.

Clemmons' body, riddled with bullets, was found in woods less than 100 feet of where his parked car was found on the Mason School dirt road, between Stokes and Pactious.

Sheriff's deputies, who had a report that Clemmons was missing, brought his car to Greenville, and instituted a search for the missing man. On information that they would find a dead man in the woods, officers located the body. There was no evidence of a struggle, but from information obtained by deputies, highway patrolmen and Greenville police, it was apparent that Clemmons was the victim of a fusillade of shots from an automatic pistol.

Incidentally, the officers found blood on the seat of his car and a bullet-chipped break in a front glass. This indicated that one shot was fired at Clemmons while in the car, it was stated.

Dr. J. L. Winstead, surgeon at Pitt General Hospital, who performed an autopsy on Clemmons' body Tuesday for Pitt County Coroner Griffin L. Rouse, reported to authorities that he found that five bullets had entered the man's body.

Citizens of Tomorrow

The Daily Reflector presents another in its picture series "Citizens of Tomorrow." Reading from left to right, top row: Geraldine Mills, daughter of Mr. and Mrs. Jesse Mills, Greenville; Louis Dail Herring, son of Mrs. L. W. Herring, Greenville; Codelia Jones, daughter of Mrs. Mildred Jones, route one, Greenville.

Swedes Aroused At Red Tactics

Stockholm, Aug. 19—(AP)—The newspaper Svenska Dagbladet said today Soviet representatives here apparently want to repeat the New York Kosenkins case, with 19-year-old Lydia Makarova "playing the leading role in a Swedish version."

The Makarova case is attracting wide attention in Sweden. Most newspapers offered sharp editorial criticism of Russian methods in trying to persuade the girl—a Russian citizen — to return to the Soviet Union.

"Human lives rate very low in the Soviet Union," Svenska Dagbladet said, adding: "Lydia Makarova is considered a government possession and as such she should be demanded back. To be a Soviet citizen means to lack all legal rights against the government and its organs."

Sweet Ordeal

Boston, Aug. 19—(AP)—For a while life looked sweeter on the other side of the fence to six-year-old Genevieve Dominic.

So she stuck her head between the iron bars of a playground fence yesterday to get a lollipop offered her by an admirer on the outside.

Genevieve got her lollipop and licked it, too—while two firemen pried the pickets apart with a crowbar to set her free.

Butchers Join In Housewives' War On Meat Prices

Philadelphia, Aug. 19—(AP)—The butcher has joined the housewife in a fight to bring down the price of meat.

About 15 west Philadelphia shops signs in their windows announcing their cooperation with a housewives' three-day buyer strike starting today.

The signs read: "This store will sell no meat on Thursday, Friday and Saturday in support of a meat strike against high prices."

Cooperation of the butchers was obtained by more than 5,000 housewives who canvassed the neighborhood and circulated petitions.

Hog Prices Hit A Record High

Chicago, Aug. 19—(AP)—A new all-time record high price of \$31.75 a hundred pounds went to live hogs at Union Stockyards today. The record previous record of \$31.50 stood for 15 days.

The market generally started 56 to 75 cents a hundredweight higher when receipts from the country turned out to be around a thousand head fewer than the trade had anticipated. The number on sale was 6,000. In addition packing plants received 1,500 head on direct consignment.

Strength FOR THE DAY

CHARACTER ALWAYS COMES OUT

John Paul Jones, the peppery little naval commander of the Revolutionary War, takes a place with the greatest heroes of our history, and the average American does not know enough about him.

The Revolutionary navy consisted for the most part of rotten little hulks with out-of-date guns, but Jones won some great naval victories and astonished the world when his ship, the Ranger, flying the American flag for the first time on any waters, defeated the British battleship Drake. Later the British sent a splendid fleet of ships against him, and in his little craft named the Bonhomme Richard, manned by an inadequate crew, Jones put up such a fight against the British as to win such a signal victory, that naval authorities have been estimating about it ever since.

That really took character.

Around Capitol Square

RUGS—To turn or not to turn, that is the question confronting Secretary of State Thad Eure and his office force. Whether "is better to keep the worn rug on the rug, where it is or take chances on shifting again, he big red rug covering his inner office floor has already been turned and shifted until there seems small chance of arranging them so the worn spots will not show. The rugs are about fifteen years old and have been trodden on millions of times. Secretary Eure has hoped for a long time to be able to replace them, but at present prices the item will sock his office supply budget for a harder lick than it can stand.

PICKETING—Another and entirely different sort of question faced Mr. Eure, along with all state officials whose names will be on the general election ballot this fall, but it was easier to answer. Labor union folks at Winston-Salem invited them to lead a picket line as evidence of their support of the Democratic national platform declarations favoring FEPC and opposing the Taft-Hartley law. Complete check of invitation recipients has not been possible, but all of those who have been asked about it said they cannot accept—because of conflicting appointments or some other good reason.

PROBLEM—Several state department heads who were told about Mr. Eure's rug problem said they are in the same fix and that it involves more than simple question of buying a rug. There is the matter of protocol and dignity and prestige. The essence of "The State of North Carolina" is intangible; but the physical appearance of state buildings and office equipment is the tangible evidence of "The State." Visitors who are proud of their state, and outsiders upon whom it is desired to make a good impression, do not like suggestion of disreputable evidence by a "run-down" appearance.

AUTOMOBILE—A good illustration of this sentiment may be found in use of the automobiles assigned to the governor. The state furnished the chief executive a limousine, adorned with the great seal, and a driver in uniform of the highway patrol. There is also provided by the state a smaller car for use around the mansion and auxiliary official purposes. Only identifying mark on the small car, currently a Chevrolet, is the P. license tag. On many occasions when only the governor is going on a trip, he would much rather use the small car. There have been instances during the administrations of Hoyer, Broughton and Cherry — perhaps many others in present and former administrations — when the chief executive yielded to this temptation only to find he had grievously disappointed his hosts, who had looked forward to having the state's No. 1 limousine show up for a parade or for show on the parking lot.

POSTOFFICES—Another phase of the same idea has to do with postoffice buildings. In most communities the postoffice provides the

counting the nation's annual output of jellybeans. But whoa, there! Don't plan on that job, kids. I saw it first.

WASHINGTON LETTER

Boyle's Column

By ARTHUR EDSON
For Hal Boyle

Washington—(AP)—My, my the opportunities a growing boy has nowadays!

When I was a squirt in Monett, Mo., there didn't seem to be many careers to choose from.

At various times I seriously considered such interesting careers as driving a delivery truck for Florent's Hardware, being a switchman on the railroad, or beating a bass drum in a circus band.

I don't recall that at any time I ever thought much about working for the U.S. government.

That may have been a mistake.

For the government today, with more than 2,000,000 employees, is the world's greatest employer. And a boy, or girl, can look forward to being anything from a community management specialist to a zone senior chief cost auditor.

Naturally many of you kiddies must have dreamed of being a community management specialist. Well, the Atomic Energy Commission needs three. They manage the com-

munities at Hanford, Wash.; Los Alamos, N.M., and Oak Ridge, Tenn.

The zone senior chief cost auditor? As you probably suspected, he works for the government's General Accounting Office.

Government is so complex and varied there is almost no end to the types of jobs at which the growing boy can aim.

Like to inspect tracks? The Interstate Commerce Commission has a track inspector. He peers at railroad tracks.

Want to be a copyright clearance specialist? See the Library of Congress.

Have a yen to be a chief of estimation and jacket preparation? No, this has nothing to do with getting clothing. The job is in the Government Printing Office.

The fledgling astrophysicists in our audience can look forward to trying for a job with the Smithsonian Institution. Or a preservation specialist, can busy himself with the U.S. Maritime Commission, preserving boats.

Appropriately, one of the longest titles, corrective physical rehabilitation specialist, belongs to one of the most serious chores. The Veterans' Administration hires the C.P.R.S., who helps find the correct exercises for wounded veterans.

Your government worries about you all the way. For the Social Security Administration has these jobs:

For the baby—consultant in maternity and infant nursing service. For the child (good)—child welfare analyst. For the child (erring)—juvenile delinquency consultant.

For the parent (good or erring)—consultant in parent education. And when we grow old, the Federal Security Agency totters in. It has a gerontologist, a specialist in the characteristics of old age.

One government job should especially appeal to the young. Over in the Commerce Department there's a man whose chores including

counting the nation's annual output of jellybeans. But whoa, there! Don't plan on that job, kids. I saw it first.

Washington—There is less skittering about on the ballroom floor. Jitterbug and jive are passed. In fact, Americans are getting back to a smoother style of dancing. That's what Mrs. LaRue C. Hope, sister-in-law of Comedian Bob Hope tells me. She ought to know not because she's a relative of Bob, but because she's president of the Dancing Masters of America.

In town recently for the 1942 D.M. of A. Normal School and Convention, Mrs. Hope, who conducts a dancing school in Cleveland, O., and once taught Bob ballroom dancing, says people are more interested in the waltz and foxtrot than they've ever been. "You also see more closed positions on the dance floor and less breaking away from each other on the part of couples," she says.

Mrs. Hope, whose husband is Fred C. Hope, Bob's six-footer brother, says Bob was a good pupil, and funny as well. "He's funny all the time, as funny at home as he is before the public," she says.

Mrs. Bertha S. Miller, of Dayton, O., whose job at the D.M. of A. Normal School was teaching teachers how to teach ballroom dancing, told me that older persons can learn to dance as easily as the young. "The objects of the association, Mrs. Hope says, are to advance the art of dancing and improve the practice of its teaching. Also, it is working toward establishment of better and more uniform methods of instruction. The D.M. of A. has about 1,000 members representing every state, Canada and several other countries.

This year, at its 29th annual one-week normal school, it started work to get college credits for its young dancers. They want the colleges to give members degrees so they can teach dancing in the college. About 150 young people, mostly girls, ranging in age from 14 up, were enrolled in this year's course. They began their studies in "general and personal hygiene of the dance," "use and knowledge of the body," and "modern dancing" at nine o'clock every morning and worked it until after 11 some nights.

Ever since its beginning, the D. M. of A. normal school has had a dean of women, motherly Miss Vida Godwin, who hails from Galveston, Tex., where she has been teaching dancing for the past 40 years.

Miss Godwin's main job is to see that all girls are well, attend classes on time, dress properly and get to bed at a reasonable hour. "I also have to look after their morals," she told me. "But that's no trouble. They have to work too hard to get into trouble. They're mighty pretty girls too, and have lots of sex appeal."

College Station, Raleigh, Aug. 20—Peanut field day will be observed at the upper Coastal Plain Experiment Station near Rocky Mount on Friday, September 17, starting at 10 a. m. Dr. E. R. Collins, in charge of agronomy extension at State College, announced today.

A short discussion period will be followed by visits to the field to see experimental work now in progress. After lunch a question and answer period will be conducted.

"The Experiment Station," Dr. Collins said, "has made considerable progress in attacking the difficult problems of peanut research, even though no breeding stocks were available from other states, as in the case of corn. Nor was there much background of fundamental research available from other states to start such a program.

Staff members of the North Carolina Experiment Station will discuss subjects as follows: Developments in peanut breeding, Dr. W. C. Gregory, assistant professor of peanut breeding; fertility and spacing work,

Dr. W. L. Nelson, research associate professor of soil fertility; diseases, Dr. S. G. Lehman, professor of plant pathology; and agricultural engineering, W. C. Teter, assistant professor of agricultural engineering.

Howling Dog Is Old Bone Finder

Rome—(AP)—A howling dog led digger to an archeological find in Bardonia. Health Department workers oiling mosquito-breeding pools near Su Arbaraghine were attracted by the dog, Cagliari, dispatches say. They dug where the animal scratched.

In a short time, they broke through to a cavern containing eight skulls and other human bones. The dispatch said the bones apparently dated from prehistoric times.

Aeschylus, Athenian Greek poet, is said to have been struck on the head and killed by a tortoise that fell from the claws of an eagle in the sky above.

Peanut Field Day At Rocky Mount Important Event

College Station, Raleigh, Aug. 20—Peanut field day will be observed at the upper Coastal Plain Experiment Station near Rocky Mount on Friday, September 17, starting at 10 a. m. Dr. E. R. Collins, in charge of agronomy extension at State College, announced today.

China Adopts A Gold Standard

Peking, Aug. 19—(AP)—China today adopted a new gold standard currency and ordered all banks closed for the next two days to permit an orderly conversion.

Government spokesman Hollington Tong said the currency will be called "gold yuan" and that it will be backed by 100 per cent reserves. The official announcement did not disclose rates for which the new currency will be exchanged for the old, inflated paper money. But official sources said the rates would be one gold yuan for 3,000,000 Chinese dollars of the national currency now in use, four gold yuans for each U. S. dollar and two gold yuans for each Chinese silver dollar.

On this basis it was estimated the government must issue at least half a billion gold yuans to cover the 150 trillions in national currency outstanding.

President Chiang Kai-Shek flew back here last night from Kuling with the new money plan. He outlined it immediately to the central political council of the Kuomintang party. The council approved it and sent the plan to an emergency meeting of the executive yuan (legislature). The official announcement followed that meeting.

Glass Of Beer Is Worst Insult For Crusader

Salina, Kas., Aug. 19—(AP)—Glenn Cunningham, spearheading the "temperance tornado" drive across Kansas, said yesterday he received the worst insult in his life. A glass of beer prompted the remark.

Cunningham, the famous mile runner of the 1930's, is main speaker for the "temperance tornado," a brush over a wide area.

BOY MEETS GIRL—Actor Jimmy Stewart talks with Actress Yvonne De Carlo, at Hollywood movie studio.

group of prohibitionists making a 12-day tour of Kansas to oppose repeal of the state's 67-year-old prohibition amendment.

As Cunningham spoke at Kinsley, Kas., yesterday, a man carried a glass of beer over to him from a nearby tavern.

"I've never been so insulted in my life," Cunningham declared. "This goes to show you what kind of people run liquor joints."

Victoria lake in Africa is so large that Massachusetts, Connecticut and Rhode Island, if placed in its center, could not be seen from its shores.

The Tsetse fly, carrier of sleeping sickness, needs shade to breed. It is sometimes controlled by clearing the brush over a wide area.

CAB Checks On Airline Finances

Washington, Aug. 19—(AP)—The airlines, suffering from critical contraction of bank balances, undergo an exploratory examination today by the Civil Aeronautics Board.

Presidents of the trunk lines (those operating more than 10-31 services) have been called in for a conference on what must be done to bring costs and income into better balance.

The major topic will be whether to increase fares by 10 percent, as the three largest transcontinental lines propose.

But the airline heads seemed certain to raise a number of other questions: the problem of non-scheduled operators cutting into their business; the "dilution" of traffic due to the fact that as many as five airlines are in competition between some points; the threat of additional state gasoline taxes; higher mail pay rates.

The airlines lost about \$22,000,000 last year. They are losing money almost as fast this year, although two ten percent fare increases have been made in the past 12 months.

Union's Protest Turns Into Rally For H. Wallace

Winston-Salem, Aug. 19—(AP)—A demonstration against the R. J. Reynolds Tobacco Company here yesterday turned into a rally for Henry Wallace's Progressives.

The demonstration, headed by officers of Local 22, Food, Tobacco and Agricultural Workers (CIO), went off without incident. It was staged when the union announced that the company planned to fire 250 Negro workers—a claim which the company promptly denied.

Two speakers at the demonstration attacked candidates of the two major political parties for not appearing to protest with them and told the workers that their "only hope" lay in the election of Progressive party candidates.

The difference between lions and tigers is chiefly in the color and distribution of hair. The two can interbreed.

Claims Savings In Purchase Of Auto In Britain

Lake Orion, Mich., Aug. 18—(AP)—Dick Wells, a commercial airlines pilot who discovered a quick way to get delivery on a new car, claimed today he saved \$567 by buying it through a dealer in London—4,000 miles away. Officials of the Studebaker Corp. at South Bend, Ind., confirmed his story of the strange transaction.

But they denied that the 1948 model was sold for any less than he would have paid his regular dealer here. Wells told this story: He placed his order for a new Studebaker about a year ago and was waiting patiently for delivery when he stopped over at London while flying to Calcutta a few weeks ago.

Strolling through the streets of the English city, he saw the same model he had ordered on display in a dealer's window. Its price was \$1,230, the dealer said. Wells recalled the car he had ordered at home had a price tag of \$2,387. The dealer said Wells could have immediate delivery, and suggested

when the pilot asked about shipping arrangements, that he place the order in London and pick up the car at South Bend. The American did so, and received the car at the London dealer's price, he asserted.

However, Studebaker officials insisted the list price on Wells' model was \$1,861, here and abroad. What the pilot must have paid, they added, was that amount with a foreign dealer's handling charge of \$41 tacked on.

The \$2,387 figure, they suggested, might have been the cost of a higher-priced Studebaker model in this country.

Bill Pollard's Self Service New Market Will Open Friday

Bill Pollard's "Self Service New Market," across the river on the Bethel highway, will have its grand opening Friday morning, August 20. The public is invited.

The "Self Service Market" is in a modern building designed for a market. All modern conveniences are provided. Refrigeration facilities are exceptional. Daylight illumination is provided. In his announcement of the opening, Mr. Pollard states that "prices are lower." The market will carry full lines of staple and fancy groceries, fruits, vegetables and other produce and specialize in necessities to eat.

TAXI SERVICE—Linda Getshauer pays Tommy Connors one comic book for a ride in taxi cab powered by Peter Provost (left) at Portland, Me. The dog, Mitzie, rides free.

Likely Contest For Farm Votes

Washington, August 18—(AP)—A Democratic farm vote challenge appeared likely today to be answered by a campaign pledge from Gov. Thomas E. Dewey to back a strong price support program.

Senator Barkley of Kentucky put up the sign posts for Democratic farm belt strategy with his assertion at Springfield, Ill., that farmers can choose in November between high prices under the Democrats or low prices under the Republicans. Gov. Earl Warren of California had a chance—if he chose to take it—to answer his vice presidential opponent on the same Illinois state fair platform today.

But the major Republican edict on agricultural policy is expected to come from Dewey on the GOP presidential nominee's projected cross-country campaign tour.

Unless he changes his mind, Dewey is expected to outline a program under which the government would continue to put a loan floor under farm prices.

Loans on most major crops now are made at 90 per cent of parity, a formula aimed at keeping farm prices in line with the prices of things the grower buys. Congress continued the present price support program for a year, but voted to put into effect on January 1, 1950, a long range proposal under which loan floors would be slightly lower on field crops but a little higher on livestock and dairy products.

Dewey is expected to indicate any changes he may have in mind for this long-range program. The normal temperature of most birds is between 104 and 106 degrees. Birds are the best flyers in the animal kingdom.

Doubts Whether Oil Sufficient

Washington, Aug. 19—(P)—President Truman expressed doubt today whether an east coast oil shortage can be averted this winter.

He was told at a news conference that representatives of the oil industry had expressed the view that there would be no shortage.

Mr. Truman replied he sincerely hoped the oil industry was right, but he doubted it.

He said it depends on how severe the next winter is.

Credit Control Regulations To Be Issued Soon

Washington, Aug. 19—(AP)—The Federal Reserve Board put the finishing touches today on new regulations to curtail installment buying.

The credit controls will be issued tonight and go into effect in 30 days. They were provided under the Republican anti-inflation bill passed by the special session of Congress.

President Truman, who had asked for stiffer anti-inflation measures, told a news conference today he thought the credit restrictions should be put into effect—and will be as soon as possible.

The board is expected to require one-third down payments, with a 15-month limit on payment of the balance, on most retail items costing more than \$50.

Many Never Suspect Cause Of Backaches

This Old Treatment Often Brings Happy Relief. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Express Belief Greek Offensive Is Nearly Over

Kozane, Greece, Aug. 19—(P)—High Greek officials expressed belief today that the summer offensive against Communist-led guerrillas is "nearly over."

Col. James F. Brittingham of Baltimore, chief of the joint United States military advisory planning group attached to second army corps supported this view. He said the offensive will be victoriously within 10 days.

The Greek officials reported, however, that 5,000 rebels still are holding out in the northern Grammos areas. Guerrilla-controlled territory has been slashed to nine square miles, they said.

Greek and American military officials predict most of the Guerrillas will seek refuge in Albania before the battle ends.

Grain Harvest In Russia Heavy

Moscow, Aug. 19—(AP)—A rich Soviet grain harvest is rolling into state granaries.

Four important districts in the Kuban and Ukraine reported to Prime Minister Stalin they had exceeded their goals for grain deliveries to date.

Indications were that this year's harvest would exceed even the abundant returns of last year.

Individual . . .

(Continued from Page One) to Russia. The embassy claimed to have a letter from her father but she asserts that when she finally saw the communication it was written by a secretary of the embassy.

Well now, the significance of this "Swedish Kosenkina" case lies in the fact that Stockholm has been punctilious in its efforts to maintain good relations with Russia. Sweden, of course, is sitting right under the Soviet's big guns and has to tread circumspectly.

However, the Swedes are jealous of their sovereignty, and they now are experiencing, along with America, a dramatization of Bolshevism's threat to mankind's bill of rights. The Makarova incident in itself isn't world rocking, but it could be the thing which would solidify public opinion against Communism.

So far as concerns Washington, the Russian demand that the three teachers be turned over to the Soviet representatives is being rejected. Moreover, Uncle Sam is offering refuge to the trio so long as they choose to stay here.

'G. B.' Says World Needs New Political Dictionary

Jitney Service Replaces Buses After Walkout

Detroit, Aug. 19—(AP)—Suburban Dearborn commuters, stranded for two days by a strike against the Dearborn Coach Co., could ride today in jitneys manned by the strikers.

The Dearborn City council authorized use of jitney service last night. Immediately 40 of the AFL bus operators who walked out early Tuesday in a wage dispute were licensed as drivers.

City officials said the strikers would drive their own cars and keep all they collect in fares—set at the same rates the buses charged. By the end of the day Dearborn expected to have 160 jitney drivers on the job.

Lincoln Park, another of the nine suburban cities affected by the strike planned to put the same system into effect.

The 240 striking drivers and maintenance men, members of AFL street car and bus operators union division 1265, are demanding a pay boost of 15-cents-an-hour. The company made and then withdrew an offer to raise wages 10 cents hourly. It said any more would force a fare increase, the second this year.

Dearborn City officials then said they would fight any raise in fare, and authorized the jitney plan.

Since rice cannot be grown in the cold uplands of Tibet, it is a luxury eaten only by the wealthy inhabitants.

London, Aug. 19—(AP)—George Bernard Shaw came up today with a suggestion for scotching war jitters: produce a brand new political dictionary of common, exact words "to clear our heads."

"The matter is extremely urgent," the ancient bard asserted, "for the present confusion of tongues is leading straight for war, which none of the powers can afford and nobody desires."

Shaw set forth his views in a letter two columns in a column, due to the times of London. It is a way of frequently causing for expressive, pungent, unambiguous opinions on vital current problems.

The playwright's appeal—that, while the cause is—was addressed specifically to the British government. It asked for the appointment of a parliamentary committee "to settle our political nomenclature."

But, in true Shavian manner, it had a global aim. Patently he meant that all nations might profit by the kind of dictionary he was in mind.

"Until we clear up our political nomenclature," Shaw wrote, "our political oratory and journalism will come to nothing but the job of making the kettle black, without either of them knowing what they are talking about."

"We all lack a common and exact dictionary," he said, "and are at unbridgeable times of confusion over imaginary differences and delicate agreements that are only verbal."

Shaw, whose own prose is generally considered among the clearest in modern times, went on:

"I myself find it impossible to make myself understood, though when I describe myself by this or that adjective I know precisely what I mean x x x. I am basically a Marxist Communist, but I cannot say so without being set down as an infantile advocate of catastrophe."

AT AIRMEN'S REST CAMP—Fishing is popular with fliers and their families vacationing at new Tenth Air Force rest camp on Squaw Lake near Bemidji, Minn. Left to right: Capt. James R. Hight, Omaha; M/Sgt. Bob White, Omaha, and son, Rene, 3; Mrs. Hight; Mrs. R. Savory and Capt. Savory, Mt. Clemens, Mich., and, in foreground, their sons, Ralph, 4, and Thorald, 2.

insurrection x x x . . . Referring to the present differences between Russia and the western powers, Shaw insisted that "negotiation is impossible unless the parties use the same words for the same thing and understand what the words mean. The present Balfour threatens a war that nobody wants countered by a flood of conscientious objection from those who think their rulers are backing the wrong horse x x x . . ."

RUNNING TO LEeward—The French "La Bandera," her spinnaker drawing well in light breeze, makes a pretty sight as she runs down the leeward leg of Olympic six-meter course in Torquay Bay, England. She finished eleventh.

Wilson's Weekly Bulletin

FROM THE **Rector Kitchens**

Hot Weather Special

A salad plate rates high for dinner when the day's a scorcher. But be sure to make it a balanced meal. A meat salad, a vegetable salad, or a fruit salad together with bread and milk will fill the bill. No dessert is needed except by those who have been doing physical labor and so need extra calories.

Veal Salad Sticks to the Ribs

Meat "sticks to the ribs" just as well when served in a cold salad as in a hot stew . . . and the salad is much more enticing on a hot day. Tomatoes stuffed with cucumbers, celery and green pepper mixed with Wilson's Mayonnaise is a colorful and tasty service with cold meats.

Hot coffee (with chocolate for the youngsters) will supply the one hot dish but for good measure why not some hot bran muffins? They're so easy to make and how they're appreciated!

If you're the kind who wants iced beverages, start your meal with a hot tomato soup for the one hot food. It's easy when you use Wilson's B-V for the base. One teaspoonful of B-V dissolved in one cup of hot water and it's ready in an instant.

Hot Bread Please

Hot breads of any kind always please. Take your choice of hot biscuits, muffins, pop-overs, gingerbread, corn sticks, or yeast rolls. For greatest enjoyment serve a high quality spread like Wilson's Certified Margarine or Clear Brook Butter.

Bran Muffins

Mix and sift together: 1 cup flour, 3 tsp. baking powder, 1/4 tsp. salt, 2 to 3 tablespoons sugar. Then stir in: 1 cup bran. Combine the liquids: 1 cup milk and 2 tablespoons Wilson's Certified Margarine. Mix lightly, fill into buttered muffin cups. Bake at 400° F. for 20-25 minutes.

Ring-around Fruit Salad May be Dessert

A variety of melon balls served on a peeled cantaloupe ring appeals in summer. If your family is active and so need more calories, serve the fruit salad with the main course and add fresh peach cobbler made with Wilson's Bake-Rite or Advance Shortening to the menu.

Veal Salad Supreme

Chill thoroughly, then combine

- 3 cups cooked veal, cut in cubes
- 1 1/2 cups sliced celery
- 1/2 green pepper, diced
- 4 hard-boiled CLEAR BROOK EGGS
- 1/2 cup WILSON'S MAYONNAISE (about salt to taste)

Serve in lettuce-lined salad bowl and garnish with wedges of hard-cooked egg, green pepper, and sliced stuffed olives. Serves 6.

Tropical Storm Area Watched By Miami Officials

Miami, Fla., Aug. 19—(AP)—Hurricane hunting planes went out again today to explore a suspicious wave of squalls and showers in the West Indies.

Chief Federal Storm Forecaster Grady Norton said, however, the condition has developed no positive circular movement which would make it a tropical disturbance.

Norton and Navy weather officials agreed the condition will be watching for the next few days.

The strong easterly front consisting of showery weather and squalls

Postal Receipts Leaving Berlin For Duke Post

Figures released today by Post Master J. Knott Proctor showed postal receipts for Greenville during the fiscal year ending July 1 were \$105,016.33. This is an increase of almost \$6,900 over last year's receipts.

Receipts this year are the highest for the city post office since 1945, and are \$26,700 higher than the annual receipts for the year ending in June 1945, the year Proctor became post master.

was the first to be reported since the present storm calendar season opened June 15.

Leaving Berlin For Duke Post

Berlin, Aug. 19—(AP)—Dr. Don D. Humphrey said today he is leaving his post as assistant economic advisor to the U.S. military government to become professor of economics at Duke University, Durham, N. C.

Humphrey, who formerly lived at Columbus, Ohio, has been with military government since the beginning of the occupation. He figured prominently in establishment of the bizonal economic structure of western Germany and in negotiating trade agreements between Bizonia and European countries.

Goldsboro Tops Greenies In Free-Scoring Contest, 15-11

Locals Bid For Victory In Final Innings But Fall Short; Sposa And Harrison Lead At Bat; Homers By Mauney And Stott

By BERT MOYE

The Greenville Greenies dropped their fifth straight loss here last night in a wild-free-scoring contest in which the Goldsboro Bugs outlasted the Greenies to emerge with a 15-11 victory.

The Goldbugs went out in front in the first inning on three runs scored on three hits and an error and never relinquished the lead.

They scored one run in the third on two singles aided by a double steal, and added three more in the fourth on four singles, a walk and a wild pitch.

A seven-run uprising in the eighth inning, in which Greenville pitchers issued seven walks and the Bugs got the benefit of a single by Whitener, double by Schroeder and an error, put Goldsboro ahead despite three-run Greenville rallies in each of the last three frames.

Greenie tallied in the first frame when Willie Mauney homered over the rightfield wall after two men were out. Grady Stott, making his debut with the Greenies, homered over the leftfield wall to account for the tally in the second frame.

The Greenies were held scoreless from then until the seventh frame when they scored three runs on three hits, a walk and a wild pitch. They came back in the eighth to score three more markers on two hits, three walks aided by a hit batsman.

They staged a rally in the ninth inning good for three more runs on two singles, a double and a walk. Manager Kelly Ke started on the mound for the Greenies and after hurling three and two-third frames, in which he allowed nine hits and seven runs, was replaced by George Harrison who pitched the next four frames allowing five runs and four hits. Johnny Tate finished the game allowing three runs and two hits.

Kelly Ke was charged with the loss, his seventh of the season as against two victories. Warren Schroeder with a triple double and three singles, for a perfect night at bat and Merle Blackwell with three singles led the 15-hit attack off the three Greenville hurlers.

Manager Bill Herring used four hurlers in last night's affair with Bill Kaires getting credit for the win, his fifth of the season against the Greenies this season.

Joe Sposa with a double and three singles in five trips to the plate, and George Harrison with two singles led the 13-hit attack off the four Goldsboro hurlers.

The Greenies travel to Goldsboro tonight for a return game but will return home Friday night when they meet the Roanoke Rapids Jays in the first of a two game series between the two clubs.

Ray Returns... by Pap

On his ninth attempt, stretching over a period of 11 years, Ray Billows crashed through to win the Metropolitan Amateur golf championship. Ray has won more important golf honors, but because this one had been so elusive, none have given him greater satisfaction.

Ray returned to the scene of his first important victory—the Winged Foot Golf Club—to finally catch up with the Metropolitan crown. It was at Winged Foot, 13 years ago that Billows, a confident youngster from Racine, Wis., was making his bid for the New York State title when he was discovered sleeping in his battered old car in the Winged Foot parking lot.

Warren Schroeder with a triple double and three singles, for a perfect night at bat and Merle Blackwell with three singles led the 15-hit attack off the three Greenville hurlers.

Manager Bill Herring used four hurlers in last night's affair with Bill Kaires getting credit for the win, his fifth of the season against the Greenies this season.

Joe Sposa with a double and three singles in five trips to the plate, and George Harrison with two singles led the 13-hit attack off the four Goldsboro hurlers.

The Greenies travel to Goldsboro tonight for a return game but will return home Friday night when they meet the Roanoke Rapids Jays in the first of a two game series between the two clubs.

Strong All-Star Squad Rests Up

Chicago, Aug. 19—(AP)—Seventy collegian football stars rested in a downtown hotel today before clashing with the National Football League champion Chicago Cardinals tomorrow night before a sellout crowd of 100,000.

The squad, minus Capt. Bump Elliott, of Michigan, who is hobbling around on an injured knee, went through a snappy drill under the Soldier Field lights last night for the first time in their spangled game uniforms. In addition to single wing and T-formation units, Notre Dame's Frank Leahy, all star head coach, also had a defensive set-up—a combination of the T and the single wing—setting traps for the Cardinals.

Sidelined with Elliott were Pete Ashbaugh, Notre Dame quarterback, and John Nolan, Penn State center. Notre Dame's great Johnny Lujack was limping slightly but physicians and coaches said he will be ready to sling passes tomorrow night.

Perhaps never has an all star line been so strong and so deep to end. The same goes for the line backing, which will be handled by such giants as Oklahoma's John Rapacz, Navy's Dick Scott, Kentucky's Jay Rhodemyre, Indiana's Howard Brown and Alabama's John Wozniak.

Rugged Task For Amateur Title

New York, Aug. 19—(AP)—Robert (Ske) Riegel, who opens defense of his National amateur golf championship at Memphis Aug. 30, now has his work cut out for him—and it looks rugged.

The 33-year-old ironmaster from Upper Darby Pa., will face eight past U. S. and British champions and 201 survivors of the largest list ever to enter the Venerable tourney.

The field was decided in sectional qualifying trials yesterday from coast-to-coast, paced by a pair of golfers hardly known outside their own sections—William Roden of Odessa, Tex., and Julius Boros of Bridgeport, Conn.

Roden, known as "Red" in the open Southwest country, ripped six strokes from par as he registered 78-88-138 at San Angelo, Tex. Boros fashioned a nice 66-69-135, five under regulation, to lead the 66 who tried out in the fast Metropolitan area at Great Neck, N. Y.

Their performances stood out as 1,221 golfers from coast-to-coast made bids for the "sudden death" eliminations at the Memphis Country club Aug. 30-Sept. 4.

Began At End

Washington, D. C.—(AP)—Sammy Baugh, regarded by most as the greatest passer in football history, began his grid career as an end. When the ace pitcher of the Washington Redskins of the National Football League was in high school in Temple, Tex., he threw the leather back to the passers with so much more accuracy and speed than they threw to him that his coach shifted him to the backfield, where he's remained.

Who's This Bobo?

New York—(AP)—Veteran hockey fans can't understand baseball's excitement about Louis (Bobo) Newsom's pilgrimages from one major league club to another. The ice game had Carl Voss who played with seven National League clubs in only six seasons, beginning with the New York Rangers in 1932-33. Voss then moved on to perform for Detroit, Ottawa, St. Louis, the New York Americans, Montreal Maroons and, finally, Chicago.

Chance For B Team

Ithaca, N. Y.—(AP)—The Cornell University B football team will play a four game schedule this season, with two home and two away games. On Oct. 2 the squad will meet Cortland State Teachers at Cortland; Oct. 15, Syracuse at home; Oct. 23, Army at home and on Nov. 25 it will travel to Philadelphia to play the Penn B squad.

Hopes To Benefit

Atlantic City, N. J.—(AP)—The Atlantic City racetrack hopes to benefit by the lack of racing on Long Island during the last three weeks of August when New York's racing is centered at Saratoga Springs, N. Y. The 42-day meeting here runs until Sept. 25.

Lines Of Suffering

Babe Ruth, 53-year-old home run king of baseball, is dead after a long illness of cancer. From a smooth-faced, hearty man (left), watching a baseball game at Yankee Stadium in 1943, the famed "Sultan of Swat" was emaciated and aged (right) in picture made in June 1947, while he was resting at Miami Beach, Fla. (AP Wirephotos).

Oldtimers Get Laughs At Present Pitchers' Woes

New York—Retired baseball players, including a few who pitched in the last 10 years, laugh when the pitchers of today complain about the lively ball.

Robert Moses (Lefty) Grove, who won 300 games during 17 years in the American League, believes the ball used today is the same as it was 20 years ago.

"The ball is no livelier than it was in 1925," says Grove. "Why, when it was hit to the outfield in those days it would bounce all over the place. The pitchers nowadays lack control. They always seem to be behind the batter and it's only natural for them to throw down the middle. When they do that there's no stuff on the ball and it gets quite a ride."

Grove was one of the former hurlers who were guests of the Philadelphia Phillies during a recent gathering of former big league stars. Others on hand included 81-year-old Cy Young, 511-game winner in 22 years; Harry Coveleskie, the Giant Killer; Lefty Gomez of the Yankees; George (Moose) Earnshaw, and Rube Walberg of the Athletics.

They were in Philly for a series (which was rained out) with the Pittsburgh Pirates. Naturally the only thing to do was sit around and talk over "the good old days."

Grove, now white-haired and the owner of three bowling alleys in Lycoming, Pa., drew many listeners when he talked about Walter Johnson's fast ball and Bob Feller's failure to win regularly.

"I think Feller changed his delivery," said Grove. "He's been fooling with a slider. He had a good fast ball and a fine curve. That's all you need in the big leagues."

"Who the greatest pitcher in baseball, Walter Johnson, never had a curve. I was the same way. We always depended on our fast ball. When Johnson or I threw a curve we made the batter happy."

"I remember the first time I pitched against Christy Mathewson," chimed in Harry Coveleskie, brother of the Stan of Cleveland who beat Brooklyn three times in the 1920 World Series. "I beat Matty 3 to 2. He had an off day. We bunted on him."

The oldtimers turned to Denton True (Cy) Young who was getting a going over by Gomez, the delightful screwball.

"No wonder you won so many games," said Gomez. "Why, when you pitched you stood 55 feet from home plate and you used the same ball for three days. Now they use a ball for three pitches, it gets a spot on it and the umpires throw it out."

"Listen, Lefty," returned Young, a Jimmy Foxx hit one of the longest home runs on record off you. Shame on you. When I pitched I never allowed more than one home run a game."

Baltimore Arena To Honor 'Babe'

Baltimore, Aug. 19—(AP)—Baltimore's new athletic arena will honor the memory of the city's greatest contribution to baseball—Babe Ruth.

Plans to name the proposed bowl after the native son were announced yesterday while the body of the legendary diamond figure lay in state in New York's Yankee Stadium, "the house that Ruth built."

Mayor Thomas D'Alesandro said "Baltimore owes it to the Babe, and I am glad of the opportunity to help immortalize his name."

The bowl still will be dedicated to the Maryland dead of World Wars I and II, but over the entrance will be inscribed Ruth's name.

The suggestion was approved by the stadium advisory committee, whose chairman, William Callahan, said: "Babe Ruth built the Yankee Stadium with his prowess with the bat, and they failed to name it after him. Baltimore should never forget him. It will be a symbol for what he did for the youth of America."

The new bowl will be built on the site of the present structure. Work is expected to start in a few months, after Baltimore voters decide whether to double the \$2,500,000 now available for the job.

Building For Future

Tucson, Ariz.—(AP)—Although head football coach Mike Casteel terms Arizona grid prospects "favorable" for the 1948 campaign, the Wildcats should be much tougher in '49. There are only four seniors on the entire roster of Casteel's squad and only one of them, Center Art Converse, figures to be a starter. Casteel will have the rest of the squad back for next year, with an added season of experience under their belts.

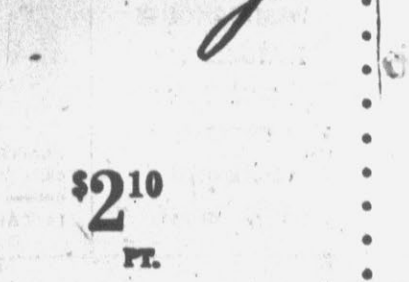

Last Farewells

New York, Aug. 19—(AP)—The last, formal farewells will be offered today to Babe Ruth, the big guy with the quick grin and the powerful wrists.

Roman Catholic services are scheduled for 10 a. m. (EST) in St. Patrick's Cathedral on Fifth Avenue.

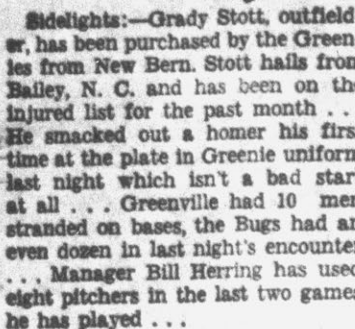

Then the man whose spectacular baseball career helped make the game a million-dollar sport will be laid to rest in a vault at the Gate of Heaven Cemetery in suburban Westchester county.

RIGHT FOR HAPPY LANDINGS

THE STETSON STRATOLINER
You'll like the Stratoliner—it's the very hat for the alert and busy man who makes things happen. This becoming, comfortable Stetson sits right, feels right, looks right. And naturally, since it's a Stetson, it wears right, too. Come in and try one on, today.

Bat Boy's Day At Polo Grounds

New York—(AP)—The New York Giants will honor their ex-bat boy at the Polo Grounds on Sept. 19, in the first such occasion in the history of organized baseball. Garth Garreau, now a student at Michigan State College, will don the uniform he wore last year, on his day. For several years Garreau was visiting team bat boy, and last year performed the chore for the home club.

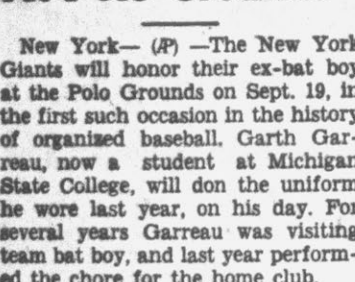

Seven hundred and fifty citizens of Teaneck, N. J., Garth's home town will honor him. Garreau has written a book on his experiences with the slugging Polo Grounders.

The BAMBINO

Irritating the Manager
OF ALL the people who knew Babe Ruth none knew him better than Ed Barrow. Barrow managed the Boston Red Sox from 1918 through 1929 and was familiar with Ruth's antics off the field. One night when the team visited Washington, Barrow stayed up all night to catch Ruth breaking training rules.

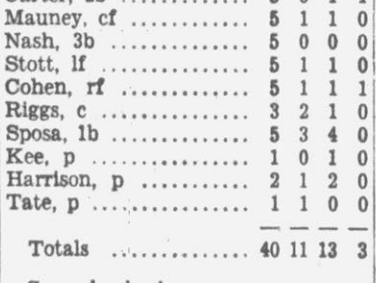

At six a. m. Barrow stormed into Ruth's room to find Babe smoking a pipe with the bed covers up to his neck. "I've been here all night," Ruth said. "I like to smoke this early every morning."

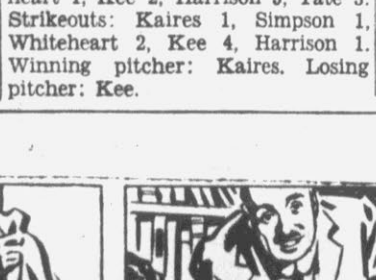

A Yankee for \$125,000
With that Barrow pulled back the covers and found what he had expected. Ruth was fully dressed, even to his shoes. The next day Ruth was suspended.

"But you couldn't suspend a man like that for very long," Barrow once said. "He loved the game too much." Ruth was unhappy in January 1920 when Owner Harry Frazee, in need of money, sold the Babe to the Yankees for \$125,000. Ruth began in Boston and had the place in his heart.

But the Babe must have taken real pride in himself his first two years as a Yankee for he hit 54 home runs in 1920 and 59 in 1921, and every drive he hit helped

Crashing the Headlines
wipe off the stigma of the Chicago Black Sox Scandal of 1919.

Packing Yankee Stadium
In 1923 Ruth had another great year. Yankee Stadium, opened that April and the \$3,000,000 park came to be known as "The House that Ruth Built." Ruth was in all his glory, a new park and new honors. He batted .393 and was voted the Most Valuable Player in the American League.

A Columbia professor once gave Ruth some 20-lets in reactions, such as coordination, hearing and eyesight. When it was over the professor said: "He's one man out of a million."

THERE OUGHTA BE A LAW!

By FAGALY and SHORTEN

Voice Approval Of Bus Schedule

"Many passengers are expressing approval of Greenville's new bus schedules and are especially pleased with the new every-half-hour service now being offered on the Bethel Highway between the downtown area and the Prison Camp road, on Dickinson Avenue, and on South Evans and 14th streets," states Jas. R. Worsley, a member of the transit company's operating committee.

Last night bus company employees installed newly painted bus stop signs giving the time buses leave, at all bus stops at Five Points and at the intersection of 4th and Evans streets as the latest action in an effort to inform the public of the new schedules.

Temporary paper signs giving the location of the nearest new bus stop and time of departures are now posted on both new and old bus stop signs throughout the city. As a further attempt to let the people of Greenville know where buses are now running mimeographed cards are being distributed from door to door in many residential sections of the city giving the location of the bus stop nearest each house.

Many passengers, however, still have been unable to get information concerning new bus routes Worsley noted, and he promised that requests for information mailed to Greenville Transit Company would be answered promptly.

Worsley also expressed regrets to passengers for delays and confusion which occurred during the first couple of days' operations with the new schedules and said that the company is making progress in its efforts to maintain schedules more closely and is continuing attempts to improve further.

New bus schedules became effective last Thursday morning after bus company officials and traffic en-
gineer W. W. Dibble of Columbia, S. C., had devoted several weeks of study to the problem of planning schedules which would give better service to a greater number of people in Greenville. Schedules adopted as a result of this study were designed to make it possible to run a bus every thirty minutes within a few blocks of homes in those portions of the city where buses have been most used, and in addition to provide regular service on East and West 4th streets and Tyson street.

Greta Garbo To Play In Picture

Hollywood, Aug. 19.—(AP)—Actress Greta Garbo is returning to the screen after a seven-year absence.

Producer Walter Wanger said she had signed a contract to star in a picture he will make in Europe next spring, the principal scenes to be filmed in Paris and Rome.

He didn't announce the title of the film.

are attached to their lungs and
replace it by new, cool air.

A MAN IN THE HOUSE

By Florence Stuart

Chapter 30

Jane woke the next morning to snow still falling from a gray sky, to an earth blanketed still and deep in white, and to find herself burning up with fever. It was a moment before she opened her eyes to the bed next to hers, and to the realization that Carl would not be sleeping in it again. I sent him away, she thought bleakly. I deliberately killed his love by acting the fool, and then I sent him away.

The tears came, spilling hotly down her cheeks.

It was Christmas morning, but she did not remember that at first and when she did it did not seem to matter. The telephone rang and her heart jumped. Maybe it was Carl calling. But it was only Aunt Mae who said, in her brisk voice: "Merry Christmas, Jane dear. Now what's all this nonsense about you and Carl? He phoned me about an hour ago. Talked about some nonsense about you and him separating. Said he was taking an afternoon train for some place out West where he's been offered another job. It seems he's been offered Dr. Ross' place, definitely, but he's turning it down. He wanted me to tell you he'd write you later what to do with his books and papers. The man sounded absolutely demented. Well, Jane, why don't you say something?"

"I can't," Jane gasped. "Aunt Mae, I think you'd better come right over, if you can get here through the snow. I think I'm going to be ill. I feel so—so dizzy."

Pneumonia, the doctor said cheerfully. Well, nothing to worry about. They made short order of pneumo-
nias these days, what with all of these new drugs. Four, five days, and the worst of it should be over. Meanwhile, however, no visitors. No emotional excitement. No one would be allowed in her room except Aunt Mae and the night nurse, if they couldn't.

Well, the doctor was right. The worst was over in four or five days. But after that, instead of picking up strength rapidly as she should have, Jane remained listless, indif-
ferent to everything that was going on around her. She didn't feel like getting out of bed, she said. And she wouldn't even try.

Aunt Mae sat down beside Jane's bed. "You're eating your heart out over that husband of yours, aren't you. That's why you don't get better. Why did you send him away from you to start with? Didn't you have sense enough to know—"

Jane said: "Look, Aunt Mae, I don't feel strong enough to be lectured."

"Well, you're going to get a lecture, whether you feel strong enough or not. You love that fellow, and he loves you. It's never too late to do the sensible thing." Aunt Mae said cheerfully: "Jane, you should have had more sense than to pay any attention to my talk. You know perfectly well I'm just a gossiping old woman. Old maids get that way. They go about attending to other people's affairs because they haven't any affairs of their own. He loves you, plenty."

"How can you say that?" Jane asked dully. "He could have made some effort to see me, talk things over. He could have stayed around long enough to find out I was going to be critically ill."

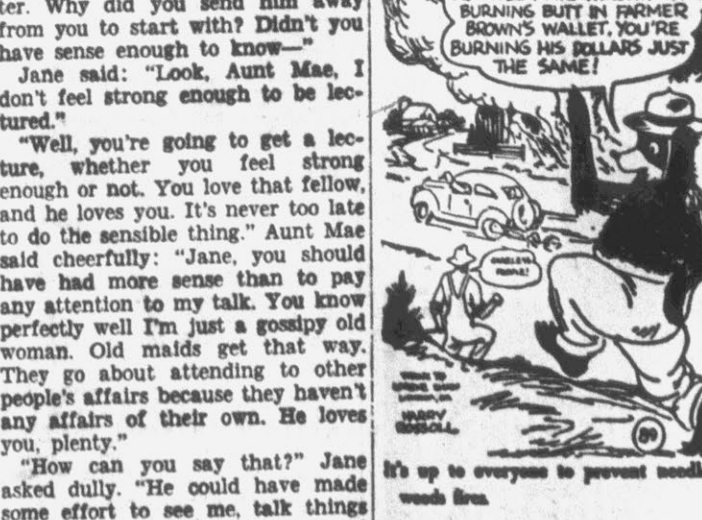

"He didn't go away on a train," Aunt Mae said shortly. "And he knew you were ill. Oh, yes, he knows about that."

"That makes it all the worse," Jane said bleakly. "He knows, and he's never come near me. He hasn't

VA Benefits Grow For Philippine Vets

Manila.—(AP)—Filipino war veterans or their dependents received approximately \$7,847,000 in benefits from the U. S. Veterans Administration during the first quarter of this year, official figures show. Officials say this is the largest amount paid during any quarter and indicates the steady increase in the number of claims being processed.

Pleasure Craft To Make Cruise

Morehead City, N. C., Aug. 19.—(AP)—Pleasure boats today were being made ship shape up and down the North Carolina coast for a big cruise to seldom visited state waters.

The cruise will be sponsored Labor Day weekend by a new organization called Tar Heels Afloat. The organization plans to ballyhoo the attractions of the state's waterways.

At least 50 boats are expected to rendezvous in the Morehead City yacht basin Sept. 4 for the start of the cruise.

The angler fish has a stiff rod behind its mouth on which dangles what looks like fresh meat. When a small fish tries to eat the "bait" he himself is eaten.

Plastic Surgeon Has Court Action On Nose

Brussels.—(AP)—Having lost his nose following an operation, Monsieur X of Brussels went to a plastic surgeon and ordered a new one. The new one had a splendid appearance but, he claimed, failed to fulfill its main function of enabling him to breathe normally. A court action against the

surgeon failed, but the defendant promised to reimburse Monsieur X a part of the fees on condition that he return the nose.

DANCE SCHOOL OPENING!

First registration Friday 10 a.m. Warren's Drug Store for old and new pupils. No obligations. Come by to see Miss Rose, member of Dance Masters of America by virtue of invitation and rigid examination on ballet, tap, ballroom and dramatic arts. Rose routines are original but inspired by current New York stage shows all featuring ballet. Rose dance pupils learn dancing, singing, and acting just as theatrical productions demand. Rose dancers learn fast and are already in demand this fall for programs. Reasonable rates, convenient downtown studio at 5th and Washington Streets.

Rose School Of Dramatic Dancing

Make these 4 comparisons before you buy any car

COMPARE THE VALUE

Yes, compare the features—compare the prices—compare what you get for what you pay—and you, too, will come to the conclusion that Chevrolet is first in value. It alone gives Big-Car feature after Big-Car feature for Big-Car motoring results—and gives them at prices which are lower than those of any other car in the field!

COMPARE THE POPULARITY

You can identify the biggest name in any list of products by picking out the one product which enjoys greatest popularity, year after year; and, of course, in the field of motor cars, that one product is Chevrolet! More people are buying Chevrolets, and more people are driving Chevrolets than any other make of car, this year as for the total 17-year period, 1931 to date!

COMPARE THE FEATURES

Only Chevrolet combines the Unitized Knee-Action Ride for gliding smoothness... the world's champion Valve-in-Head engine for performance and economy... Body by Fisher for tasteful beauty and luxury... and Fisher Unitized Knee-Action plus Positive-Action Hydraulic Brakes for all-round safety protection!

COMPARE THE PRICES

You'll agree with millions of other car buyers that prices—like quality—are a major consideration in these times; and just as Chevrolet's Big-Car quality is unique in its price range, so Chevrolet's prices are the lowest in its field. Moreover, Chevrolet also saves you substantial sums on gas, oil and upkeep—just to help your budget all the more!

Only Chevrolet gives BIG-CAR QUALITY AT LOWEST PRICES... that's why

CHEVROLET — and Only CHEVROLET — IS FIRST!

GREENVILLE, NORTH CAROLINA

Treasure Hunts End Farm Peace

Thorsfare, N.J., Aug. 19—(AP)—Cantaloupe farmer Alfred Leone says he used to lead a peaceful life, but can't now.

And it's all because of an English sailing vessel that set out for Philadelphia along about 1750 and ended up at the bottom of the Delaware River, bulging with cargo.

Army engineers, dredging silt from the Delaware River bed, uncovered the ship a few weeks ago. But not before they had pumped the silt—and much of the antique cargo—on the river-bordering portion of Leone's 68-acre farm.

Neither the engineers nor Leone, however, knew the silt was loaded with colonial treasures until the ship itself was discovered by divers.

News of the find has brought antique collectors and representatives of historical societies flocking to Leone's farm.

"I don't mind if these people want to come here and dig for the stuff," said Leone. "but I wish they'd stay off my fields and stop picking my cantaloupes."

Being unearthed in a 60-foot corner of Leone's silt-covered land is a varied collection of knives, forks and other utensils; pewter plates and brass doorknobs; scythes, hoes, axes and flatirons, copper and silver buckles and brass cuff buttons—not to mention a few wax-sealed

bottles of wine, still full. Leone contemplates charging a small admission to his acres. "That might stop the treasure hunters," he mused.

Stray Dogs Are Big Nuisance In This Town

Dogs, the stray canines unowned and wolf-like in their nocturnal and early morning prowlings about the city, damaging flower gardens and turning over garbage cans and emptying their contents on the ground to "draw flies," are the city's biggest nuisance at this time.

Incidentally, Greenville is one of the few cities or towns in Eastern Carolina without an ordinance requiring all dogs to be licensed. The Board of Aldermen has recently passed an ordinance requiring owners of dogs to buy from the city license tags for dogs—\$1 for males and \$2 for females. The aldermen provided in the 1948-49 budget for having a full-time dog catcher and a "pound" in which to incarcerate those taken up.

One of the greatest problems the police department has in the summer is complaints from persons who are bitten by dogs and about dogs attacking them on the streets and otherwise being a public nuisance by barking all night long and every time a motor vehicle passes.

Gus Stokes, Greenville township constable, and state rabies inspector for Pitt county, has vaccinated hundreds of dogs against hydrophobia. These dogs, whose owners appreciate them as pets or for hunting, are not the canines that cause innumerable complaints to be sent in to the police.

Yesterday and the day before police had complaints about dogs biting persons on the streets.

Yesterday and the day before police had complaints about dogs biting persons on the streets.

Warns Listeners To End Disunity

Springfield, Ill., Aug. 19—(AP)—Gov. Earl Warren of California, GOP nominee for vice president, told Illinois Republicans today that America must put an end to disunity that sets "section against section or group against group."

"The political philosophy of faith and freedom must prevail in our entire nation," Warren declared. Warren aides said he is withholding major political statements until campaign speaking tours next month.

Under UN

Washington, Aug. 19—(AP)—President Truman said today the United States does not intend to send troops to Palestine or anywhere else except as a part of a United Nations force under a U.N. decision.

That was his answer to a news conference question about the possible use of American troops in the strife-ridden Holy Land. Some U.S. military men are already in Palestine as U.N. truce observers and more are to be sent there.

Joe Joyner Says Rain Is Coming

When the tobacco market opened today, people uptown talked about prices being paid for the leaf and the weather. The only person who expressed a willingness to do something about the weather was Joe Joyner, important functionary at the Guaranty Bank and Trust Company, who predicted rain late this afternoon.

Incidentally, Mrs. C. E. Maiden weather observer here for the United States Department of Commerce, reported that the highest temperature of August was on the 14th, when the mercury registered 96 degrees. She said the lowest was on the 15th, when the official thermometer recorded 60 degrees during the night.

The rain gauge at the Weather Bureau showed that there has been two and one quarter inches of rain this month—(2.27 inches, to be correct).

Claims Creech Admitted Guilt

Smithfield, N. C., Aug. 19—(P)—Presentation of the state's case was resumed today in the murder trial of James R. (Jimmie) Creech, 37, after a state's witness testified Creech admitted killing his wife.

"I might as well tell you I blowed her damn brains out," deputy sheriff Lester Hales declared last night that Creech told him on giving himself up the night Mrs. Mable Woodall Creech was slain.

Johnny Grimes testified he saw Creech enter a room in the home of Mrs. D. L. Creech and shoot his wife where she lay after being felled by a shotgun blast through a door.

Across The River Is In The City Limits

The Tar river and that section on the other side—Fleming's Crossroads community and the airport—all the way on the Bethel highway to the intersection of the Pactolus highway, is in the city limits of Greenville and all of the city ordinances are in force there.

As a matter of fact, the Bethel highway from the river to the Pactolus road, is North Greene street, and numbers have been designated for all buildings and vacant lots.

Motorists have been reminded that that section is in the city, and the city traffic laws are in force there, and are being enforced accordingly.

Eastern Belt . . .

(Continued from Page One) that much of the tobacco was going to the Flue-cured Stabilization Corporation.

The Dunn market reported an early average of about \$54. Reports from other markets: Farmville—Joe Gregory, sales supervisor, estimated an average of \$55 on early sales and reported farmers were pleased.

Wendell—E. H. Moser, sales supervisor, reported an average of \$63 on the first row and said he expected a \$65 average for the day. Farmers were reported as pleased, especially at prices for common grades.

Wallace—John Sykes, sales supervisor, estimated that from 350,000 to 400,000 pounds would be sold during the day that the early average at \$57.16 per hundred. One farmer described prices as "excellent."

Tarboro—An average of about \$50 on early sales was reported. Much of the leaf was going to the Stabilization Corporation and farmers were reported as "satisfied in general."

Polio Cases . . .

(Continued from Page One) North Carolina is one of three states in which infantile paralysis is still epidemic, the U. S. Public Health service reported.

This state and the others where epidemics continue—Texas and California—reported last week an increase in cases after having shown a decrease the week before, the service said.

Polio cases still are being reported throughout the nation, but for the second straight week the seven-day total fell behind the corresponding week in 1936, the second worst Polio year on record, the service asserted.

We Are Following The Market Down On Our Feed

16% Dairy \$3.75
Super Laying \$5.25
20% Hog Feed \$4.70
40% Pork Maker \$5.75
Fish Meal \$7.75

Pitt FCX Service

HELPFUL—Charles Laughton gives Ava Gardner some acting pointers on a movie set in Hollywood.

Two Swallows, Is Too Much; Fatal

Shelby, Aug. 19—(AP)—A farmhand died yesterday after gulping down a quart of whisky or alcohol in two swallows.

A doctor who examined Oscar Ruppe, 53, said there was a strong concentration of alcohol in his blood.

Mrs. Arizona Gates, on whose farm in the Rockdale community near Fallston Ruppe worked, said she understood he had been given whisky by some companions after he complained of a headache. Ruppe was a bachelor and a native of Caroleen.

Law Enforcers Hear Prominent Officials

Wrightsville Beach, N. C., Aug. 19—(AP)—Addresses by leading law enforcement officials highlighted today's program at the annual meeting of the N. C. Police Executives' Association here.

Speakers included Walter Anderson of Raleigh, director of the State Bureau of Investigation; Charles W. Brown, special agent in charge of the Charlotte FBI office; Col. H. J. Hatcher, head of the State Highway Patrol, and Albert Coates, director of the Institute of Government at Chapel Hill.

BACK ON HIS JOB

Detective M. E. Corbett, detective on the Greenville police force, who recently underwent an operation at Pitt General hospital, has returned to his home and resumed his duties.

Grain Market

Chicago, Aug. 19—(AP)—Grains made a recovery in late dealings on the board of trade today, reducing or completely canceling early losses. The rally was led by September corn, which spurted a few cents above the previous close on active short covering.

Wheat closed 6 cents lower to 1 1/4 higher, September \$2.21 1/4-5/8, corn was 1/2 lower to 2 1/2 higher, September \$1.64-1.63 1/2, oats were 1/2 higher, September 72-74, rye was 1/2 lower, December 1.70-1/2, and soybeans were 1/2 to 1 cents higher, October \$2.55.

N.Y. Cotton

New York, Aug. 19—(AP)—Cotton futures opened 30 cents a bale higher to 10 cents lower.

Noon prices were 25 cents a bale lower to 5 cents higher than the previous close. Oct. 30-98, Dec. 31-06
