German Leaders Asked To Hasten

President Of Assembly Drafting West German Constitution Warns Of Catastrophe If Quick Advantage Not Taken Of Three-Power Offer

Bonn, Germany, April 9—(AP)—German leaders were called upon today to form a West German Federal government quickly or "face catastrophe."

The appeal for quick action, following up the three-power Washington agreement on Germany, was made by Dr. Konrad Adenauer, president of the assembly drafting a constitution here.

"Failure to reach agreement would be a fiasco for the Democratic idea in Germany," Adenauer told a news conference. "If unity is not achieved it will be a catastrophe for us all."

The west German political parties have been squabbling over small differences for months and this has held up the formation of a government.

The biggest differences have been between the left-wing social Democrats (SPD) and the conservative Christian Democrats (CDU).

The point at issue is whether major financial control should rest with the federal government, as favored by the SPD, or with the individual states of West Germany, as favored by the western allies and the CDU.

Adenauer is a leader of the Christian Democrats. He attacked the Social Democrats for so far failing to go along with the CDU. Adenauer noted that the three western allies—despite their differences—had reached agreement on the German question.

"On the other hand," he said, "we Germans, who have the greatest interest, are limping behind."

In any event, the next step is up to the Germans.

And it seemed likely today that they finally might take the step. Members of the deadlocked Bonn constitutional assembly now talk optimistically of the prospects for getting together on terms of a constitution. They have been split for weeks on the form the constitution should take.

In effect, the allies have dangled before them the prize of semi-sovereignty and a place in the family of western nations if they will just write the constitution, and get going as a Democratic state.

The Germans would achieve full legislative, executive and judicial powers for themselves. Allied officials remaining in the country would be not much more than advisers. The western occupation armies would remain indefinitely, but under civilian top command.

Many leaders in the assembly said the offer marked "a great step forward," and the anti-Communist press in the western zone used similar descriptions.

Western licensed newspapers generally gave the offer a friendly reception.

Child Trapped In Well Casing Has Slender Chance

San Marino, Calif., April 9—(AP)—A fresh crew of miners was sent 75 feet below the surface of a vacant lot today to bore from a rescue shaft to the 14-inch abandoned well casing in which three-year-old Kathy Ficus has been trapped since 4:45 o'clock yesterday afternoon.

"I think there is a chance that Kathy is alive," said Fire Chief Jimmy Bols of Pasadena. "Our rescue squad has been pumping warm air into the casing since 5:30 o'clock yesterday afternoon. We know Kathy was alive at 5:30 because she answered her mother's calls an hour after that. At least she hasn't died of asphyxiation."

Police Chief S. H. Martin said today the thief or thieves entered the store through the front door, and apparently took about eight cartons of cigarettes. Nothing else has been reported missing the chief said.

Gov't For Germany

An Explanation Of The Agreement Between Three Western Powers To Set Up A German Government Which Will Split That Country In Half; The Outlook

By JAMES MARLOW

Washington, April 9—(AP)—Here's an ABC on the agreement to set up a new German government, which will split Germany in half.

The agreement, announced yesterday, was made by the United States, Britain and France. This is how it came about:

When Germany collapsed in 1945, the U. S., Britain, France and Russia agreed to divide Germany into four parts, or zones.

Each of the four powers would occupy one zone with its troops. And each of the four would run its own zone absolutely.

The four were supposed to work together to get Germany back on its feet economically and politically. This is how:

By getting trade, business and jobs going again and, eventually, letting the Germans set up their own government for all Germany.

It didn't work out. Instead of working together economically, the zones were working separately, with trade barriers between them.

But this couldn't go on if Germany was ever to get back to normal.

Adjournment Of Assembly After Easter 'Certain'

Rural Road Program And Appropriation Bill Detour Tired Legislators

Raleigh, April 9—(AP)—An after-Easter adjournment of the General Assembly seemed certain this week as it detours threw the legislature off the road to home.

Governor Scott's rural road program produced the first detour. The whole matter was dropped in the laps of a conference committee Thursday after an immovable House and an irrefragable Senate refused to agree.

The Representatives, by an almost two-to-one margin, voted Monday night for amendments which would keep separate the \$200,000,000 road bond issue and the proposed one-cent gasoline tax increase.

The Senate by a 29-18 vote refused to accept the House amendments and authorized a conference committee to try to iron out the differences between the two houses. The Senate, in opposition to the expressed wishes of the administration, has consistently insisted that the bond issue and gas tax boost be wrapped in one package so that the people can vote on both.

The other legislative detour came on the huge and controversial appropriations bill.

After three days of debate, pruning and reinstating, the House succeeded in eliminating only \$681,736 from the money measure. The economy forces, who were able to cut some \$2,700,000 from the bill only to have it reinstated the next day, finally threw in the sponge on Thursday. The bill passed second and third readings and was sent to the Senate.

In an unusual move, Senate President E. P. Taylor on Friday referred the biennial bill to the Senate Appropriations Committee. This group already has studied the bill during the many weeks it was before the Joint Appropriations Committee.

Legislative observers saw in Taylor's action an effort to force reductions in the bill which, in its present form, calls for the expenditure of about \$417,000,000 during the coming biennium for operating state agencies and institutions.

The economy forces, the observers pointed out, are especially strong in the Senate Appropriations committee.

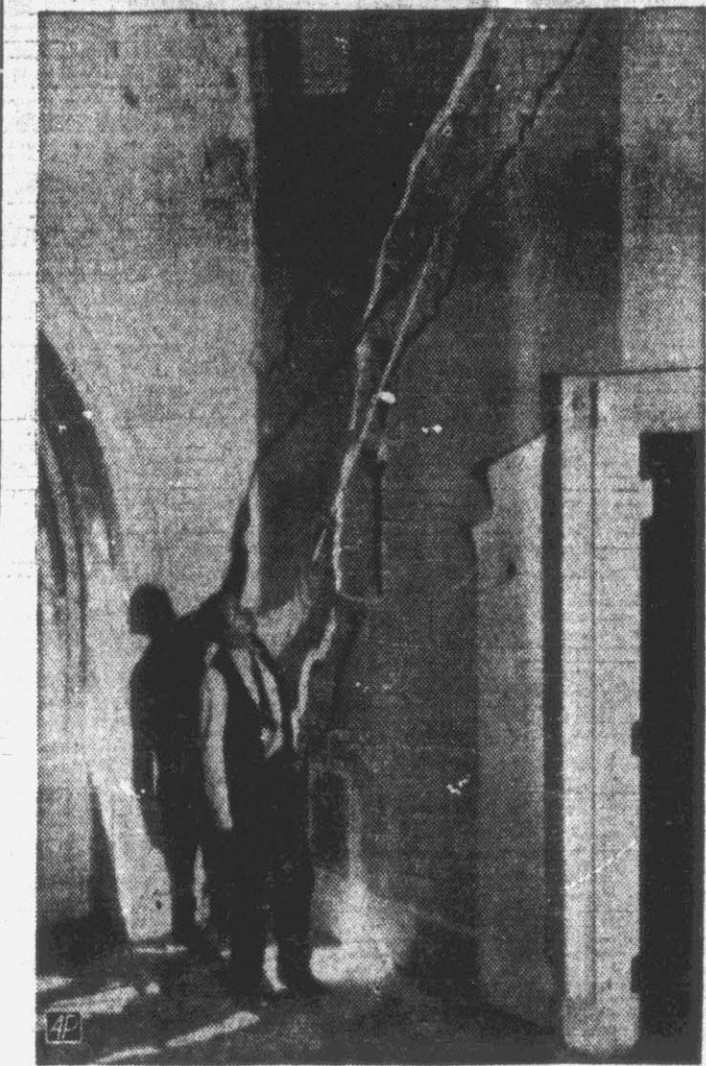

Grocery Store In Bethel Robbed; Police Checking

Bethel April 9—Bethel police and Pitt county law enforcement officers assisted by highway patrolmen today are investigating a robbery of Floyd Thomas grocery store here last night.

Police Chief S. H. Martin said today the thief or thieves entered the store through the front door, and apparently took about eight cartons of cigarettes. Nothing else has been reported missing the chief said.

Martin said fingerprints have been taken at the scene of the crime, and that highway patrolmen are checking the identity of an out-of-state car which was reported riding "suspiciously through the Bethel streets between 2 and 3 o'clock this morning. The police chief expressed the belief that the store was entered between 4 and 5 o'clock.

Cracks In White House Walls

A renovating program in the White House at Washington brought to light these cracks in the north wall on the second floor. White House Carpenter Isaac Avery points to a big crack that extends almost from ceiling to floor. Plaster has been removed from the brick wall to expose the seams produced by the center of the house setting. The door at right is the entrance to Margaret Truman's room. It is estimated the renovating work may cost more than \$5,000,000. (AP Wirephoto).

Lower House Plans Quick ERP Action

European Recovery Program Wins Overwhelming Approval In Senate; House Calls Extraordinary Session

Washington, April 9—(AP)—The \$5,500,000,000 European recovery program went to the House today stamped with the overwhelming approval of the Senate.

Even administration leaders were startled by yesterday's lopsided 70 to 7 Senate vote for the bill approving another 15 months of Marshall plan aid to non-communist western Europe.

The House was called into extraordinary session today (noon, EST) to take up the authorization measure. Both Democratic and Republican leaders predicted quick approval.

Speaker Rayburn (D-Tex.) said he expected a "great majority" in the House.

Republican Leader Martin of Massachusetts told reporters: "I believe the economic cooperation administration bill will be approved overwhelmingly with bipartisan support."

The bill approved by the House Foreign Affairs Committee is a little different from the one passed by the Senate.

The Economic Cooperation Administration asked—and got from the Senate—authorization to spend \$1,150,000,000 up to June 30; \$4,280,000,000 for the 12 months starting July 1; plus \$150,000,000 in long-term contract authority.

The House committee lopped \$600,000,000 off the first figure and turned down the contract authorization, for a total out of \$300,000,000. Then it wrote into the bill a government guarantee for private investors of up to \$272,000,000.

The result, committee members said, would be a \$72,000,000 addition to total Marshall Plan spending in the next 15 months, if private investors can be induced to sink their money in Europe up to the full guarantee.

New York Taxi Strike Broken

New York, April 9—(AP)—A week-long taxicab strike was at an end today.

For the time being at least, so was John L. Lewis' hope of representing 30,000 New York cab drivers and mechanics.

His Taxi Workers Organizing committee called off the strike late yesterday after police said more than 90 per cent of the cabs were operating.

Normally, there are 10,000 on the streets.

Broke His Arm And Gets Ticket

Chicago, April 9—(AP)—Because Felix Casey parked his truck on the wrong side of the street he broke his arm.

Traffic Policemen Nick Regan and Joseph Piotrowski saw the traffic violation and asked Casey for his driver's license. Casey said it was in a bag tied on top of his truck—he would get it.

Casey, who is 64, clambered atop his truck, then fell and broke his left arm.

The policeman took him to Cook County Hospital and then handed him a parking ticket.

Bids On School Building Below Expected Costs

Low Bids On New Negro Elementary School Total \$76,519; 30 Days To Act

Low bids opened yesterday by the Greenville school board for the construction of a new Negro elementary school building totaled \$76,519, approximately \$9,000 under the expected cost of the project, Superintendent J. H. Rose said today.

Low bidder for the general contract of the eight-classroom building was the O. W. Godwin Construction Company of Dunn with a bid of \$64,887. Second low bid for the general contract was submitted by W. G. Dunn Construction Company of Greenville at \$73,328.

The highest general contract bid for the project was \$93,200.

Low bidder for the plumbing of the building was the R. E. Deans Company of Wilson at \$4,537; low bidder on heating was W. M. Wiggins Company of Wilson at \$5,423; and low bidder for electrical work was Hub Electric Company of Greenville at \$1,672.

Rose said today the school board has 30 days in which to sign and award the contracts, and in that time it is expected that the North Carolina Supreme Court will rule favorably on a \$250,000 bond issue for schools voted by the people of Greenville in 1940. Rose said work on the building is expected to begin as soon as the bond issue is cleared through the court.

The completely modern, fireproof building is to be erected on a 14-acre plot of land owned by the city in the Cooperfield section of South Greenville. Besides the classrooms, the building will include offices and fully equipped kitchen and lunchroom.

'Lenient Terms' For China Peace

But Communists Back Up Demands With Fresh Assaults

Nanking, April 9—(AP)—China's top Communist tonight promised a "lenient settlement" of the Chinese civil war. But the Reds backed up their peace demands with new assaults against Nationalist bridgeheads north of the Yangtze River on a 650-mile front.

Mao Tse-tung insisted, however, that the Communists' original eight demands be the basis for the peace agreement in their original form, these demands would amount to complete Nationalist capitulation.

The Communist leader, in a Chinese language broadcast over the Red radio at Peiping, did not indicate how far he would be willing to stretch his eight demands to reach a "lenient settlement."

Mao did say, however, that Communist leniency would be predicated upon whatever is considered most beneficial to the achievements of peace.

Replying to a message from the Nationalist acting president, Li Tsung-jen, the No. 1 Red said he sees no obstacle to a peace agreement since the Nanking government has accepted his eight points as the basis for opening negotiations in Peiping.

On the far-flung fighting front, the government admitted the loss of Ichang, important ferry landing town 28 miles northeast of Nanking. The Reds unleashed other attacks on other smaller bridgeheads on the north bank opposite the nervous Nationalist capital itself.

Another Record

Raleigh, N.C., April 9—(AP)—North Carolina's highway traffic set another record last month.

On an average March day 56,909 vehicles passed the state's 20 full-time traffic-recording stations. This compares with 54,165 a year ago and 45,496 in 1947.

Babson Discusses Washington

Washington, D. C., April 8—A friend in Cleveland, Mr. E. J. Kulas, calls my attention to the following, written by Thomas Jefferson, the founder of the Democratic Party, about 150 years ago! Read it carefully—then cut it out and send it to your Congressman. It should be printed on the fly-leaf of every school book: "I place economy among the first and most important virtues, and public debt as the greatest of dangers. To preserve our independence, we must not let our rulers lead us with perpetual debt. We must make our choice between economy and liberty, or profusion and servitude. If we can prevent the government from wasting the labors of the people under the pretense of caring for them, they will be happy. The same prudence which in private life would forbid our paying our money for unexpended projects, forbids it in the disposition of public money."

Is Our Congress To Blame? The above statement by Jefferson is just as true today as when he made it, yet President Truman won his election by preaching the very opposite, and Governor Dewey did

not have the courage to defy Mr. Truman. Both candidates and their fellow travelers ignored the truth and gave the people what, in their ignorance, they wanted. This same thing has happened at various times in history and was the primary cause for the fall of the Grecian, Roman, Teutonic, and other Republics.

Can the few honest Congressmen accomplish further New Deal measures, they can force legislation to encourage producers. They can work for legislation which will help manufacturers that they can pay increased taxes. Unfortunately, the New Dealers started a dangerous prairie fire; whether it can be controlled or must burn itself out, only the future can tell.

Is Truman Wholly To Blame? Very few, except those who are close to the White House, realize the tremendous amount of mail which the President gets. Naturally, he can read only one letter out of every thousand; but all are read by someone and tabulated as to

Fifteen Billion Dollars For Defense Outlay Wins 'Okay'

Officials See No End For Airlift

Again Elected

J. H. Rose (above) yesterday was re-elected superintendent of Greenville city schools for another two-year term at the meeting of the school board. Superintendent Rose will complete his 30th year as superintendent of the Greenville schools in June of this year. He came to Greenville as superintendent of city schools in 1919 after his release from the army.

Truman Kindles Hopes Of Party

Million-Dollar War Chest Promised For 1950 Elections

Washington, April 9—(AP)—Democratic plans to capture the 1950 elections were spirited today by the promise of a \$1,000,000 war chest and a presidential order that they "must be won."

Addressing a rousing buffet dinner rally last night in Washington's Mayflower Hotel, President Truman kindled Democratic hopes for another victory in next year's congressional contests.

Speaking above the cheers of the men and women who arranged this year's profitable Jefferson-Jackson dinner, the President declared:

"I am exceedingly happy that you have been able to arrange a situation which will give the party a financial background with which to win in 1950, because that election must be won. It is important."

"We have a program which we expect to put over. That program is progressing successfully and satisfactorily, and after the next session of Congress we can go to the country and say what we have done and what we hope to do and what we will do when we elect the Congress in 1950."

The \$1,000,000 war chest, to finance the 1950 campaign was promised by Senator J. Howard McGrath, Democratic national chairman, and William M. Boyle, Jr., executive vice chairman.

Good Response In Cancer Drive

The army of canvassers for the Cancer Drive is now combing the city to help everyone realize his part in curbing cancer. These canvassers are meeting with encouraging response—especially from homes where cancer, the second greatest killer of mankind, has taken its toll. Such families want to give that others may live.

Mrs. Dan E. Vornholt, city chairman for the cancer campaign, would like each captain to leave the list of her workers at the Woman's Club at once or phone it to 3207 so that all workers can have the recognition they deserve.

Air Force Sets Sights On Long-Time Supplying Of Berlin; Had Hoped Work Might Be Concluded This Summer

Washington, April 9—(AP)—The Air Force hoped in February that it might end the Berlin airlift this summer, but it now plans to keep flying supplies into the blockaded city indefinitely.

Top air officials also told the House Appropriations Committee that they don't expect war during the year starting July 1—although, they added, it's a possibility at any time.

Their testimony was released by the committee today along with a bill to provide the armed forces with money for that 12-month period.

Lt. Gen. E. W. Rawlings, Air Force comptroller, told the group in February there were hopes that the airlift could be abandoned by June 1. But in a return appearance two months later he said the Air Force did not know when the job would end, and was ready to carry it on.

The Air Force did not ask any appropriation in its 1950 budget for the lack of flying food, coal and other supplies over the Russian land blockade of Berlin.

Presumably it will do as it did this year: take the money—Rawlings put the cost at \$485,000 a day—from its other funds, then ask Congress to make up the difference later. The House approved such a supplemental appropriation for the airlift yesterday.

Secretary for Air Symbiong told the committee the airman's pride in their new heavy-lift, the giant B-36, Gen. S. E. Anderson, director of plans, amplified:

"The B-36 can strike all but two significant military targets on earth in the continental United States. This capability is a safeguard against the otherwise unacceptable situation that would exist if intermediate bases were to be denied to us or were made untenable."

"There are, however, many suitable intermediate bases, some of which we can expect to be available, from which medium bombers such as the B-29 and B-50 can operate with great effectiveness."

Anti-American Mob In Panama

Panama, Panama, April 9—(AP)—Mounted police charged a crowd protesting a Panama-United States aviation agreement and broke up the meeting with tear-gas, gunfire and sabers last midnight.

Several persons were reported cut and bruised by saber blows. The shots apparently were fired into the air.

A bill giving U.S. commercial aircraft the right to land at a Panama airfield is being debated in the assembly. The opposition has held it up by filibustering for six days.

Big Liquor Raid In Mecklenburg

Charlotte, N.C., April 9—(AP)—County and state ABC agents today made their fourth major raid on the bootlegging business since whiskey became legal in Mecklenburg in September, 1947.

ABC law enforcement chief Henry C. Evers said 16 persons were brought into ABC headquarters and charged with violation of the state liquor laws.

A Momentous Action

Agreement Between U. S., France And Britain On German Problem Opens Way To Reconstruction Of West Europe; Startling Results; Way Open To Russians

By DeWITT MacKENZIE

Agreement at long last among America, Britain and France for the establishment of a German federal republic—compensating their three zones—is a further notable move towards peace and rehabilitation for western Europe.

This momentous development contemplates the removal of allied military control over western Germany as soon as the proposed republic is established. Allied civilian authority will be substituted and will be made mainly supervisory.

A defeated, war-torn, dismembered and embittered Reich has constituted a growing menace to European recovery. Only a decade ago Germany was the keystone of continental Europe. Europe cannot be put on its feet until that keystone is restored economically.

Unfortunately that Soviet-occupied zone of Germany remains outside the proposed republic because of the failure of the four powers to agree. However, the three-power agreement leaves the way open for Russian participation, and U. S. Secretary of State Acheson said yes

terday that it provides a basis for increased hope that the western powers and Russia may solve their difficulties.

Should Russia not see fit to unite the eastern zone with its sister states, the new government would lack a rich area which includes the once proud metropolis of Berlin—hub of communications for the whole continent.

Still the three western zones could be constructed into a prosperous and important republic. They contain great resources, including the iron and steel of the Ruhr—one of the world's most important industrial areas.

The agreement among the three western powers was brought about almost overnight during conferences in Washington. British Foreign Secretary Bevin and French Foreign Minister Schuman were among the group of foreign chiefs assembling in the American capital for the signing of the Atlantic pact. So Secretary of State Acheson said yes

(Continued on page three)

# Life Of Benjamin May Is Sketched As Pitt Pioneer

By EVA HORTON BOUSE  
 Farmville, April 7.—In connection with the approaching date of the Homecoming event in Farmville, April 26, and the dedication of the chapter house of the Major Benjamin May Chapter, DAR, designed as a memorial to the progressive citizenship of Eastern North Carolina, a research library and a cultural center for the entire section, and in view of the interest being manifested throughout the State in the forthcoming celebration, the following excerpts of a sketch of Major May, Pitt pioneer, whose memory is to be permanently honored by the Chapter through use of his name, will be timely in their news value. The sketch was written by the late Sue May DeVilscotti Sheppard (Mrs. Benjamin Streeter Sheppard), a great great granddaughter of the Major, in October, 1927.

## IN BRILLIANT DRAMA

Jane Wyman and Lew Ayres are starred in "Johnny Belinda," the brilliant screen drama showing Sunday at the Colony. Jane Wyman recently was given the Academy Award for her part in this production.

"Scotland is recognized as the country of a sturdy race. It has given the world its ideas of self-government and the system of public school education. From the ferns and moors of Bonnie Scotland came young Benjamin May, about 1750, to contribute force and noble heritage in making America what it is today—the standard for nations.

"Settling in what is now Pitt County, he took up thousands of acres of land in the Farmville vicinity, and began the stupendous task of transforming a wilderness into fertile soil.

"Soon afterwards, the call came to serve in the struggle of 1776, to gain freedom from England. He was then Captain of the King's militia. Following disintegration of the Royal Government, the Committee of Safety, of which he was a member, was organized to keep the country from anarchy.

"In 1787 he was 'saddler to the County and Province,' and later Captain of the Company Patrollers. He was appointed by the Halifax Provincial Congress to procure firearms and ammunition in Pitt County for use of the troops. He was sent to the Convention at Halifax from Pitt and sat as a member at the passage of the Halifax Resolves.

"He served as a Captain for five years and was then commissioned First Major of the Pitt County Regiment of Troops in Richard Caswell's Government of North Carolina, and took part in many Revolutionary battles, among them the Battle of Guilford Court House.

"Following the war, Major May took a leading part in the life of the community. In 1786 he resigned as Justice of the Peace. Among the prominent men of the State who served as trustees of the Pitt Academy was the Major and he was a member also of the building committee of the Court House and jail at Martinborough, now Greenville, North Carolina.

"From 1804 until his death August 8, 1808, he was a member of the General Assembly; thus proving his love for his people and State by a lifetime of service.

"In 1785, he married Mary Tyson, the daughter of Cornelius Tyson, another recognized Colonial and Revolutionary Patriot. To this union ten children were born. Today his descendants are numerous, many of them still maintain the sterling virtues that have always accompanied the name of May."

"As a valuable source of information relative to the early history of the sponsors of the dedication event, the following account of the organizational meeting of the Major Benjamin May Chapter and a review of its activities, in part, during that first year as recorded by the sister of Mrs. Sheppard, Miss Tabitha DeVilscotti, the first corresponding secretary and the present registrar, is being published at this time.

"On November 18, 1926, through the efforts of Mrs. C. M. Paris, of Farmville, a movement was unveiled at Farmville, in honor of Major Benjamin May, a Revolutionary hero, by his descendants and the Historical Commission of North Carolina. This was really the beginning of a chapter of the Daughters of the American Revolution here.

"With a fitting George Washington program, on February 23, 1926, at the home of Mrs. A. C. Monk, the Major Benjamin May chapter was duly organized with Mrs. T. C. Turin as regent; Mrs. W. H. Whitmore, vice regent; Mrs. C. E. Moore, chaplain; Miss Ellen Lewis, registrar; Miss Mary Barrett, recording secretary; Mrs. B. Streeter Sheppard, historian; Mrs. A. C. Monk, librarian; and Miss Tabitha M. DeVilscotti, corresponding secretary. Twenty-five charter members were enrolled. Now the membership has increased to forty-three.

"Contributions have been made to Ellis Island, Valley Forge and Old Trails and Roads, and clothes sent to Crossmore School. Six Revolutionary soldiers' graves have been located for markers. We have twelve subscribers to the DAR magazine. The chapter has sent sixty dollars on a chair in Constitution Hall to honor Maj. May. DAR medals given to two students of the Farmville high school in United States history contest. . . . chapter to present school with set of Colonial Records of North Carolina.

"A paper written by Mrs. B. Streeter Sheppard 'Historical Trees in North Carolina' filed with Historical and Literary Reciprocity Committee. An original play, based on North Carolina history, has been presented. . . . plans have been laid for a pageant to depict the history and traditions of this section to be given in the spring.

"All memorial days observed; historical picture sponsored at local library; more than two hundred trees planted on highway and public grounds in emphasizing reforestation and conservation program, and articles in regard to this published in local paper.

"The chapter together with Tyson descendants to have celebration and unveiling of monument to Aaron Tyson, Indian fighter, and Cornelius Tyson, Colonial and Revolutionary hero, at Farmville, in October. Informative and entertaining programs throughout year. An organized body of American Womanhood we pledge our service to one country, one constitution and

# Scott Endorses Special Routes

Raleigh, N.C., April 8.—(AP)—Governor Scott said yesterday he favors legislation to allow heavier trucks on Highway Commission-designated "heavy duty roads."

Two measures before the General Assembly would make this possible, he declared, without "undue wear and tear" to the highway system.

The State Highway Commission last week turned a solid front against the legislation.

The commission, however, did not say it opposed the plan of designating certain roads for heavier weight limits. Its resolution was adopted after Chairman Henry W. Jordan said the administration was not advocating an outright weight increase.

One of the bills would raise the weight limit per axle from 9,000 to 10,000 pounds; the gross weight for three-axle trucks from 26,000 to 30,000 pounds and the gross weight for trucks with four or more axles from 50,000 to 64,000 pounds.

The other bill would limit the increase to highways or sections of highways which engineers find capable of handling the heavier loads.

"In this question of transportation," Scott told his Friday news conference, "there isn't any question but that the state moves on its transportation facilities."

"In the question of weights, it's a matter requiring scientific knowledge. . . . I'm not an expert."

"The formula as to load limits legally allowed on the highways should be scientifically determined and I'm not expert enough to make such a decision."

"The formula as to load limits legally allowed on the highways should be scientifically determined and I'm not expert enough to make such a decision."

# "MOTHER IS A FRESHMAN" PITT SUNDAY

Van Johnson, Loretta Young just a wee bit annoyed by Rudy Vallee in scene from technicolor comedy-romance "Mother Was a Freshman" Pitt Sunday-Monday.

# STAR CAST IN "DOWN TO THE SEA IN SHIPS"

Skipper Lionel Barrymore with Richard Widmark, Dean Stockwell have top roles in the whaling epic, "Down to the Sea in Ships" at the Pitt Tuesday-Wednesday.

# Missing Schooner Found Riding Safely At Anchor

Miami, Fla., April 8.—(AP)—The schooner Keewatin, reported missing since April 1, rode quietly at anchor today with all four occupants apparently in good condition.

The pilot of a coast guard amphibian rescue plane swooped low over the two-masted vessel late yesterday and positively identified the Keewatin—object of a vast aerial search.

The pilot, aviation pilot first class Don Coughlin of Cleveland, Ohio, reported that Donald Parrot of Salem, Mass., his wife and two children apparently are in good condition and in no need of help.

Coughlin said that he could see "one child and what could have been the second by the ship's wheel."

The pilot said the Keewatin was anchored near the Yacht Lark Jack at Allans Cay in the Pensacola group, British West Indies, 157 miles east northeast of Miami. The names of the two vessels were plainly visible as his amphibian dived to mast-top level he added.

Search for the schooner was launched Tuesday after a tanker reported sighting a small sail vessel wallowing unattended about 75 miles off the coast of Charleston, S. C.

Twenty-nine military aircraft from bases along the entire Atlantic seaboard took part in the search for the craft.

The coast guard feared Mr. and Mrs. Parrot had been washed overboard after locking their children—David, four, and Steven, one—below deck for safety.

This possibly was raised by Parrot's brother, Hadley Parrot of Baltimore. He said the children customarily were locked below for protection during rough weather in case the parents were lost.

# Acree Control Seen Likely For Other Crops

Statesville, N. C., April 8.—(AP)—Federal acreage controls are "likely next year on cotton, corn, wheat, and possibly other basic crops," an Agricultural expert declared last night.

D. S. Coltrane, assistant commissioner of the state department of agriculture, said "the agriculture pipe lines are beginning to fill."

He told a farmers' night program sponsored by a civic organization that "in some cases" the pipe lines "are already filled with surpluses, such as corn and cotton."

"We can reasonably assume," he said, "that from the national level there will be acreage controls in 1950 on cotton, corn, wheat, and possibly some other basic crops."

# States Righter Talks Coalition

Dothan, Ala., April 8.—(AP)—The threat of a coalition party of Southern Democrats and northern Republicans came today from a States' Rights rally in Deep South Alabama.

States' Rights spokesmen made it plain at a rally here last night—an affair which attracted so many people it took four dining halls to handle the crowd.

A newspaper columnist, John Temple Graves of Birmingham, sounded the keynote when he said the new party will come "in good time."

He said, however, the nucleus of a new party has been formed in the coalition of Southern Democrats and northern Republicans in Congress.

And whether they admit it or not, he added, "this coalition has come about so naturally, so philosophically, so inevitably, that our officeholders are afraid to recognize or believe in it. They are more inclined to be drawn along in it than to push it."

The declarations came at an "appreciation" dinner for congressmen who blocked president Truman's civil rights program. It started out as a small affair but grew to more than 600 persons who paid \$2 apiece for tickets.

# Easter Cantata Sycamore Church

By CHESTER WALSH  
 The senior choir of Sycamore Hill Negro Baptist Church, First and Greene Streets, will present "Life Eternal," an Easter Cantata by Fred B. Holton, tomorrow—Sunday—afternoon and night. The first presentation starts at 4 o'clock, the second at 8:30. Arthur L. Norcott, talented and accomplished musician, will be accompanist. Seats will be provided for white music lovers. The public is invited. The doors will be closed when the cantata begins. The audience is requested to be seated before the starting time.

Following is the program: Professional, The Palms. Prayer, Rev. J. A. Nimmo Sr. All Hail the Power of Jesus' Name, Choir and Congregation. The Cantata: The Lord Reigneth, Choir. Man of Sorrows, Miss Evelyn Harris and Choir. Gethsemane, Men's Two-Part Chorus. Calvary, Watson Tucker and Choir.

In the Garden (Text from the "First Easter"), Miss Doris Lynch. A Whisper of Hope, Mesdames Suetette Jones and Mildred Thompson. The Cantata: The Lord Reigneth, Choir. Man of Sorrows, Miss Evelyn Harris and Choir. Gethsemane, Men's Two-Part Chorus. Calvary, Watson Tucker and Choir.

Downs the New Day, Two-part chorus, men and women. Hail to the King, Herman Walters and Choir. The Morning Is Breaking, Miss Joan Beatty and Hubert Walters. The King Comes Forth, Choir. The Redeemer Triumphant, Mrs. Anna Whitehurst.

The King of Glory, Choir. Lo, I Am With You Always, Selected, Carlton McGloone. Ye Shall Live Also, Herman Walters and Choir. The Resurrection and the Life, Choir.

End of Cantata: Offertory and Remarks, by Rev. J. A. Nimmo Sr. "Great and Marvelous" (from Mass in B flat), by the choir. Benediction.

# Less Than Three Hundred Dogs Listed For Tax

A checkup at the City Hall today on the dog ordinance, passed by the Board of Aldermen last September revealed that less than 300 dogs have been listed for taxes in the city. Sev. 1 dog owners have been arrested recently for allowing their dogs to run at large.

The city ordinance requires that owners pay a \$1 tax for a license tag for male dogs, \$2 for females. The dog law prohibits any dog from running at large on the streets. It provides that vicious or mad dogs shall be killed by police.

The city ordinance also provides for the employment of a dog catcher, and that the owner of a dog impounded shall pay him a \$5 fee and \$1 a day for keep, and further that if a dog is not claimed it shall be disposed of.

The ordinance requires that dog owners shall provide a collar and attach the license tag issued by the city.

# Court Decides Albania To Pay

The Hague, The Netherlands, April 8.—(AP)—The International Court of Justice, in the first verdict in its history, has decided Albania is responsible for the mining of two British destroyers in the Corfu Channel.

The verdict, announced today, ordered Albania to pay damages. Britain had claimed \$50,000 pounds (\$3,800,000) reparations for the mining of the ships, the death of 44 seamen and the destroyers, and injury of 42 others. The explosion occurred Oct. 22, 1946.

The verdict, announced today, ordered Albania to pay damages. Britain had claimed \$50,000 pounds (\$3,800,000) reparations for the mining of the ships, the death of 44 seamen and the destroyers, and injury of 42 others. The explosion occurred Oct. 22, 1946.

# Outstanding Students Of College Win Certificates

The first Awards Day honoring outstanding students at East Carolina Teachers College was observed today. Certificates of merit were given at a morning program held in the Wright auditorium to a student in each department of instruction, to a man and a woman student chosen for good citizenship, and to members of the Student Legislature during the 1948-1949 term.

Floyd Collins of Cerro Gordo, president of the Student Government Association, presided at the program on Saturday. W. E. Marshall dean of men was principal speaker and presented the certificates of merit.

George Lassiter of Goldsboro and Ann Beddard of Snow Hill were chosen as outstanding campus citizens during 1948-49. Lassiter has served as student treasurer and president of the Jarvis Forensic Club during the past year, and Miss Beddard as secretary of the Student Government Association. Both have participated in a number of additional student activities. The choice of Lassiter and Miss Beddard

as recipients of the citizenship award was made by the Student Legislature of the college.

Ten departmental awards were based on excellent scholastic records and service in the departments of instruction. A committee of three students and a faculty member from each department made the selection of the student to receive the award of merit.

Those honored and the departments which they represent are Robert L. Shufford, Jr., Thomasville, social studies; Audrey Feszer, Lexington, home economics; Wade I. Woodley, Jr., Rocky Mount, business education; Ellen Joyce Clark Beverets, primary education; Mary Elizabeth Mills, Aurora, Foreign language; Richard L. Powers, St. Pauls, English; Georgia King Jenkins, Wilmington, mathematics; Raymond Jack Davis Kingston, physical education; Pattie Flowers, New Bern grammar grade education; and Charles Connor, New Bern, science.

Sixty members of the student Legislature were presented certificates indicating their service during the school year.

# Gov't For . . .

(Continued from page one)  
 That kind of government would be something like the United States' Communists would have a tougher time getting control of that.

The Russians and the western powers couldn't agree. So early last year the western powers set in motion the machinery for creating—in their zones of Germany—the kind of government they wanted.

They let the Germans in their zones elect representatives to a constituent assembly. It's the job of that assembly to draw up a constitution for a government covering the three western zones.

But there were a number of details on which the U. S., Britain and France couldn't agree. They've been trying to reach agreement for many months.

This week they've agreed. They'll let the new German government be created. Each of the three, for some time, at least, will keep troops in its own zone of Germany.

They'll be able to stop the new government from doing anything the three western allies don't want done. But, generally, the idea is to let the Germans run themselves as much as possible.

There are 16 states in Germany 11 of them are in the three western zones, five in the Russian zone, there are 47,000,000 Germans in the three western zones, 17,000,000 in the Russian zone.

Since the western allies are setting up a government run by Germans in their part of Germany, the Russians probably will set up another government run by other Germans in their part of Germany.

Thus Germany would be split in two, with the Russians making sure they dominated the Germans in their zone of Germany, the western allies making sure their Germans were tied in with them.

What Should Readers Do?  
 The first thing to realize is that the money which is given away in price supports or pensions, must be collected from all the readers of this column. The second thing to realize is that these funds can be taken away from the rich only for a few years. Soon there will be no profits to tax. What then? The answer is very simple. If the unfortunate non-producers are to be supported by the fortunate producers, which is the basis of the New Deal philosophy and has some justification, then production and economy should be encouraged in every possible way by Congress, by Labor Unions, and especially by our schools in order to have funds to tax.

The same basic truths which Jefferson preached apply today and we should teach these to our children. Some of us parents may hang on to enough money to keep us going through our few remaining years, whatever happens to the country. With our children this will be very different. Only character, hard work and economy on their part, will save them. All cannot ride in the Government's cart or it will stop. Some must pull the cart. My appeal is that accompanying all New Deal legislation should be special benefits to all corporations and individuals engaged in useful production. Otherwise, we all "go bust."

Experiments show that cockroaches will stop entering sections of an enclosure, where they have been frequently shocked by electrical charges.

# Fountain News

Mr. R. D. Owens, 3 3-c. of Norfolk, Va., returned Wednesday to this city.

Mr. and Mrs. Willie Killebrew and family, Mr. and Mrs. Lovelace Gardner, Mr. and Mrs. Jonas Killebrew attended the festival in Wilmington Sunday.

Mrs. Eaber Gardner entertained a quilting party in her home last Wednesday afternoon.

Mrs. Anna Taylor was weekend guest of her daughter and son-in-law, Mr. and Mrs. F. J. Causey of Pinetops, Rte. 1.

Mrs. Mary Everett and daughter Marjorie of Fountain, Route 1, were Thursday evening guests of Mr. and Mrs. J. H. Owens.

Mrs. Luther Owens of Fountain, Rte. 1, was Thursday evening visitor in Fountain.

Mrs. W. E. Lang of Walstonburg visited relatives in Fountain Thursday.

The Fountain Jr. Woman's Club met at the home of Mrs. Carter Smith Tuesday evening.

Mr. K. T. Futrell, head of the welfare department of Pitt County, was guest speaker.

In the business meeting the members of the club voted to buy a record-player for the newly organized Teen-Age Club.

The Otters Creek F.W.B. Church regular prayer services were held in the home of Mr. and Mrs. Eber Gardner Wednesday night.

The attendance was good; approximately sixty people attended.

The two Sutton girls of Shantonsburg, Rte. 1, and Geraldine Ellis of Fountain, Rte. 1, sang: "Jesus Is The One."

Peggy Tyson Fountain, Rte. 1, sang "Place Your Finger In Nail Scared Hands."

Rev. Charlie Hamilton was the principal speaker. He spoke for his subject, "Elijah the Prophet."

The following announcements were made: Revival services at Otters-Creek F.W.B. Church begin the fourth Sunday night, April 24, at the usual preaching hour.

Rev. W.H.F. Ivey of Selma will be the speaker.

Revival services will begin Wednesday night, April 13, continuing for twelve days. Rev. Wade H. Calvert will be the speaker.

Revival services will begin Wednesday night, April 13, continuing for twelve days. Rev. Wade H. Calvert will be the speaker.

# Miss Lewis Gives Talk Before Club

"Madonnas" was the subject of a most interesting talk given by Miss Kate Lewis at the regular meeting of the American Home Department yesterday afternoon at the Woman's Club.

"Madonna pictures have been popular for many centuries. These pictures fall into certain well defined groups," said Miss Lewis. She discussed the symbolism found in Christian art and pointed out many of these cherished symbols in a number of Madonna pictures that she has collected through the years.

Miss Lewis recommended for the home library a book by Cynthia Pearl Maus, "The World's Great Madonnas."

Mrs. Arthur Corey introduced the speaker.

During the business session Mrs. G. E. Oakley, chairman, presided. Reports were heard from Mrs. J. A. Watson, secretary-treasurer; Mrs. George Renfro, chairman of the project committee; and Mrs. Ed Ricks, chairman of the ways and means committee. The membership accepted the recommendations of the finance committee as to the amount to be spent for educational records for the high school; the tea dance for high school seniors; and new shades for the first floor of the clubhouse.

Mrs. W. D. Brown, a new member, and Mrs. G. L. Winders, a visitor, were given a most cordial welcome by the chairman.

Hostesses were Mrs. Hicks Corey, chairman, Mrs. A. C. Tadlock, Mrs. I. J. Edwards, Mrs. D. H. Conley, Mrs. D. W. Swope, Mrs. J. A. Watson, Mrs. D. M. Clark, Mrs. George Renfro, Mrs. G. C. Honeycutt and Mrs. C. W. Davis.

Angel food cake with Easter lilies, coffee and toasted nuts were served as the guests arrived.

Tulips, sprays, verbena and wisteria were used to decorate the clubrooms.

# Present Cantata Sunday Evening

In observance of Holy Week, a cantata "Olivet to Calvary" will be presented tomorrow evening, Palm Sunday, at 8:00 o'clock in the Jarvis Memorial Methodist Church. The program of sacred music will be sponsored by the Greenville Music Club and will be sung by 35 musicians, many of them choir members of city churches.

Soloists and chorus have been at work on the cantata for several weeks under the direction of E. O. Parkinson, Jr. Mrs. Paul Toll will play the organ accompaniment.

# Turkey Meeting Will Be Held On Thursday

A turkey meeting will be held Thursday afternoon at 2 o'clock in the auditorium of the agricultural building in Greenville. County Agent S. C. Winchester said today.

L. W. Herrick, Jr., turkey specialist at the State College extension service will lead the discussion on feeding, breeding, marketing and management of turkeys.

# Tobacco Specialist To Address Ruritan

Members of the Fictolus Ruritan club will hear R. J. Bennett extension tobacco specialist of Raleigh, at the club's meeting in the Fictolus community building Monday night at 7 o'clock.

Bennett, before accepting the position in Raleigh, was county agent for Pitt County.

# Recover Money Taken By Clerk

New York, April 8.—(AP)—Fifty thousand dollars reported missing yesterday at New York International airport was recovered early today.

Police said an air cargo clerk had admitted taking the money. All of it was recovered buried in a vacant lot.

A manila envelope containing the cash was reported missing after it was left on a desk in the offices of the K. L. M. Royal Dutch Airlines.

Peru at the time of its conquest by Pizarro included all of Bolivia and Ecuador and part of Argentina, northwest of Foggia.

# Ignored Warning; Died Together

Detroit, April 8.—(AP)—Richard Parrish's mother often warned him about riding double on his bicycle with his pal, James Darling, 10.

But it never did any good. Every one knew 11-year-old Richard and the boy who lived across the street were inseparable, the devoted "buddies" of the neighborhood.

Yesterday, as they had always played, so they died—together.

A car struck their bicycle. Both were killed almost instantly.

# Crackdown On Export Control

Washington, April 9.—(AP)—Official suspicion that a drive is on to slip strategic materials to nations being formed by a civic organization that "in some cases" the pipe lines "are already filled with surpluses, such as corn and cotton."

"We can reasonably assume," he said, "that from the national level there will be acreage controls in 1950 on cotton, corn, wheat, and possibly some other basic crops."

# REPORT QUAKE

Rome, April 9.—(AP)—An earthquake was recorded at Foggia's observatory this morning, the

## Strength FOR THE DAY

"REMEMBER THE SABBATH DAY"

We enjoy one day's rest in seven because religion has established the Sabbath. Most of the people who take advantage of the opportunity which one day's rest in seven offers are blissfully unaware of the fact that had it not been for the Church and its teachings, people would probably be working seven days a week. Everyone admits that we have to stop once in a while to get our breath. Everybody approves of one day's rest in seven. But the Sabbath is more than a day of rest. It is intended also to be a day of worship. Among Christians it is referred to as the Lord's Day, that is, a day set aside for particular and peculiar service to God. But many people, after getting in late Saturday night, sleep right through Sunday morning and awake without the least rebuke of conscience because they have disregarded one-half of the privilege which the Sabbath rest offers humanity. Rest, worship, and good works—these are the ends to which the day is divinely dedicated. To use the day for any one of these three ends without using it also for the other two is to misuse the day. The Sabbath rest is a merciful provision, and we should enter into its privileges with gratitude.

**A WISER PLAN**  
Just what will be the outcome of the Senate-House conference on Governor Scott's proposed \$200,000,000 road bond issue election and one cent gas tax increase is uncertain but in our opinion the matter should not pass even if it goes to the people for a vote.

Naturally everyone wants good roads and that includes the strictly rural roads as well as the main highways, but we see no need of burdening the state with hundreds of millions of bonded indebtedness when the same roads could be built on a pay-as-you-go basis.

The highway department already has on hand funds that have not been spent because it has been impossible to get the roads built as fast as the money came in for such building. It is our opinion that the issuance of \$200,000,000 bonds would in the end prove more costly to the people than if we paid for the roads as we built them.

It seems to us that the wise plan would be for this legislature to appropriate such a sum for roads as could be wisely spent during the next two years, provide sufficient taxes, to meet the appropriations, and then let the next legislature do likewise.

We do not approve of obtaining a favorable vote on a \$200,000,000 bond issue by having every farmer think that such a bond issue will immediately give him a paved road up to his front door. The road program can be accomplished just as quickly on a pay-as-you-go basis as with the huge bond issue and we believe more economical.

## Around Capitol Square

By LYNN HIBBET  
CONFERENCE—Absence of Senator D. L. Ward from the state over

**Salute!**

IT HAS BEEN THE FIRST MECHANICAL DEVICE IN THE LIFE OF A WHOLE CENTURY OF BABIES!

WHO WHO

THE SAFETY PIN  
FIRST PATENTED BY  
WALTER HUNT,

McNaught Syndicate, Inc., N.Y.C. REG-MANNING

the weekend will delay for a day or two the conference committee getting to work on the road bond bill. Ward, chairman of the senate road committee, introduced the original bill and advocate of the current senate version, had previously made engagements in New York for this date.

**COMPOSITION**—The conference committee appointed by senate and house presiding officers when the senate declined to concur in house amendments is composed of five advocates of the house version of the bill, three of the senate version. Senators Ward and Grady Rankin and Representative E. T. Bost, Jr., are for making the one cent gasoline tax contingent on approval of the bonds. Senator O. B. Mose and Reps. W. T. Hatch, Fred Royser, Frank Huskins and H. S. Gibbs have voted consistently to separate the tax and bond items. Geographically the committee is well distributed ranging from the seacoast to the Tennessee line. The group is expected to buckle down early next week and seek some common ground upon which both branches of the assembly can agree.

**BIG DAY**—If, as is possible but not probable, the conference can report Tuesday that will be a big legislative day. The house Friday postponed until then action on a group of local ABC bills, with a motion pending to reconsider the vote by which the Greensboro bill was defeated Thursday 85 to 53. Some votes will have to be changed, even if the full potential voting membership of the house is present. There hasn't been more than 107 votes on any recent roll call. With liquor and roads the same day the session will be lively and long.

**ASSISTANCE**—Rep. Fred Pass of Clay county has been extended a helping hand from back home. He received a letter with checks enclosed for around \$200, made up by small contributions from folks in his county to help pay his expenses for the extended stay in Raleigh. This practice prevailed to considerable degree in the marathon sessions of 1933 and 1935, both of which went longer than the present legislature—so far with anticipated tangling on road bonds and appropriations some observers now forecast at least three weeks more of the current session which would go close to May 1.

**QUESTIONED**—One state official recalled that back in the thirties some boards of county commissioners contributed to expenses of their members while here. Question was raised about legality of such contributions, but the issue was never taken to court. Experience of 1949 members emphasizes the shortsightedness of the people's failure to ratify the amendment providing more pay for legislators. There is perhaps nothing illegal about a legislator accepting voluntary contributions from a group of constituents. Such individual help does put other members at disadvantage. At least one representative has gone home to stay because he could not stand the expense of remaining in Raleigh so much longer than he had expected.

**MANUALS**—E. S. Eskridge, director of publications in the secretary of state's department, reports that all but a few page proofs of the 1949 State Manual have been received from the printer. He hopes to distribute within a month or so. Somewhat facetiously he said he might have them ready before the legislature adjourns. Several times prior to the war the Manuals were delivered to the assemblymen before adjournment. Printershop delays recently have made them late, and two years ago they were not delivered until late summer.

## Boyle's Column

By HAL BOYLE  
New York—(AP)—The last thing I would want to be in this town is a pigeon.  
This because the last living thing in New York City will probably be a pigeon. So a man who wants to be the final creature alive will probably have to grow feathers.  
Is that hard? Why should it worry a man? It has never troubled a pigeon.  
As a simple matter of survival, I don't see how people really can afford much longer to meet the stress and strains of Manhattan life without planting a few feathers here and there east and west of their arm-pits.  
It isn't that wings will make them angels. It is just that they need feathers now to get around.  
A broken electric circuit halts the subways. Sleet stops the buses, a labor dispute ties up the taxis.  
In emergencies like these how can new workers go to business except by growing feathers and flapping their arms? After all, they lost the

**Washington Letter.. by Jane Eads**

Washington—J. C. Capt, director of the Bureau of Census, says this is the story the 1950 census will tell:

- An estimated total population of about 150,000,000—a gain of between 18 and 19 million during the 10 years ending 1950, a record. 2. A continuing trend of population from farms to cities and rural non-farm areas. 3. A continuation of sharp population gains since 1940 in the Pacific Coast states. This is due in part to westward population migration and in part to natural increase. Census Bureau officials figure:
  - California, as of July 1 of 1948, says Mr. Capt. "had joined New York and Pennsylvania in the select circle of states with more than 10,000,000 population." For the West, combining the Pacific Coast and Mountain States, the estimated gain since 1940 is about 33 per cent. The South had the lowest percentage gain, with only about six percent.
  - Indications of greater increase, over the long term, in population of middle and elderly groups over the younger adults and children. This, Mr. Capt. says, will have a profound effect on demand for products of industry. "Those young adults will find their market little changed in size," he says, "but those who give their attention to goods for older groups will find their market steadily growing."
- Other predictions census experts are making include:
  - The 40,000,000 families of today will increase to between 43 and 47 million by 1960. The number of families will increase during the next 15 years at a higher rate than total population. The sex ratio is likely to show little change from the present, but without substantial immigration the small excess of fe-

males may increase slightly. The proportion of foreign-born will decline greatly unless immigration is considerably increased. The ratio of non-whites to whites will increase slightly, but substantial immigration will contribute to maintenance of the present ratio.

"Suppose," Mr. Capt. says, "as predicted, we have within 30 years a phalanx of 60,000,000 men and women over 45. How will these oldsters be kept occupied if all the jobs go to the younger groups whose number may be enough to operate our factories, businesses and farms. Will our old-age security system carry such a load?"

**Pilots to Hold Air Meet Sunday In Washington**  
The Carolina Breakfast Club, composed of pilots, will meet at the Washington Airport tomorrow morning at 9 o'clock. The event is sponsored by the Greenville-Washington Aero Club, Inc. Carl Goerch, of Raleigh, and pilots from this state and Suffolk, Va., are expected to attend.

Following the breakfast, an air show, consisting of bombing contests, acrobatics, insect control demonstration, comedy air act, air race and parachute jump will feature the air meet. Prizes will be awarded. Tommy Sellers and other Greenville pilots are planning to attend.

**Overflow Crowds At Revival Meetings**  
Overflowing congregations have filled the Memorial Baptist Church the past few nights in the revival services now in progress. The preacher in these services, Rev. Nathan C. Brooks Jr. of Greenville, South Carolina, has been bringing unusually forceful and interesting sermons as attested by the large congregations and the numbers coming each night to unite with the

church by letter and by profession of faith.  
The revival music and congregational singing, under the leadership of Mr. Lorenzo Durham of Charlotte, has added much to the interest of the services. The solo work of Mr. Durham, who has an unusually fine tenor voice, has been outstanding.

The remaining services of the meeting will be held Saturday night at eight o'clock and Sunday at 11 a.m. and at 8 p.m. The Sunday night service will be the closing one of the meeting.  
The people of Greenville and Pitt County are cordially invited.

## THERE OUGHTA BE A LAW!

By FAGALY and SHORTEN

**READ CAREFULLY**  
Sunday, April 10th at 3:00 P. M. and 7:00 P. M. Sharp. I want to talk to six men who are really ambitious in securing a position that will give them the opportunity of making money. It doesn't matter what your past work has been, all we ask is that you be willing to study and learn as we teach you our work. It will be necessary to get along on \$75 per week for the first four weeks while learning. You must be able to give the names of three people who will vouch for your honesty and integrity. We prefer men who are married or have some responsibility, car essential. Therefore if you are honest and of good character, willing worker, neat in appearance, see Mr. R. C. Songer, Proctor Hotel, Greenville, N. C., at 3:00 P. M. Sharp. 8-2

**MEN**  
When Ellen came to it was pitch dark in the room. Her back ached and she realized she had been lying on the hard floor for some time. Suddenly she remembered. Something someone had struck her. She lay very still, scarcely daring to breathe. Nothing happened. She opened her eyes cautiously and then got up a little at a time. She turned on the light and looked around. Nothing was out of place. She crossed over into the bedroom, turning on lights as she went. She looked under the bed and in the closets. Satisfied that no one was there, she went through the apartment, and looked all the windows. She made sure that the door was locked and then got out a telephone book. Quickly she dialed a number. A cold impersonal voice answered immediately. "University Hospital." "Hello. Is Dr. Dennis Rafferty there?" "Dr. Rafferty is not on duty now."

## White Sox Alumni

New York - (AP) - Playing for the Chicago White Sox must have its good points. Four members of the 1938 team have been major league managers. They are Jimmy Dykes, Ted Lyons, Herold (Muddy) Ruel and Luke Sewell. All are coaching in the majors this season.

Syracuse University's boxing and wrestling teams both won eastern titles this season.

# Greenies Wallop Smithfield 13-3 In Exhibition Contest

### Mauney Has Perfect Day At Bat; Gillespie Collects Three Hits In Four Trips; Harrison Pitches Brilliant Four Innings

By BERT MOYE  
Manager Pappy Williams and his Greenville Greenies won their second exhibition game here yesterday afternoon by walloping the Smithfield Leafs of the Tobacco State League, 13 to 3.

The Greenies scored in every frame with the exception of the seventh and put across four runs in the third on two singles, four walks, one error, to coast to victory. Greenville got a total of 18 hits off the three Leaf hurlers, six of which were for extra bases, with Willard Mauney getting three doubles and a single for a perfect day at bat and Pete Gillespie collecting a double and two singles in four trips to the plate. Matthew with three singles in four trips to the plate led the Leafs.

Bobby Harrison pitched the first four frames for the Greenies and held the Leafs to one lone single and no runs while striking out four men and walking a like number. Hugh Everett, who pitched the next three frames allowed the Leafs their total of three runs on two hits with two of the runs being of the unearned variety. Jimmy Pollard pitched the remaining two frames and held them to two hits and no runs.

Greenville scoring was as follows: In the first Mauney doubled and Pappy Williams doubled to bring home Mauney. In the second frame Joe Pasquale led off with a single, Steve Deiner walked, Harrison laid down a perfect sacrifice. Mo Carter flew out to deep centerfield with Pasquale scoring and Mauney singled to bring home Deiner. In the third, Williams walked, Pete Gillespie singled, Paul Strausser walked leading the bases, Pasquale was walked, forcing in Williams, Steve Deiner singled scoring, Gillespie, Harrison hit into a double only with Strausser racing home; and Pasquale scored on a miscue by catcher Almes of the Leafs. In the fourth frame Mauney led off with a double, Cohen singled bringing home Mauney and took second on the throw home, Williams walked, Strausser was out second to first with Cohen scoring, and Williams later scored with the aid of passed ball and wild pitch; in the fifth frame, Deiner doubled and Everett singled to bring him home. In the sixth inning, Gillespie doubled and Pasquale singled to bring him home. No scoring in the seventh.

### Wholesale Slash Of Cubs Ahead

Dallas, April 9—(AP)—Manager Charlie Grimm is expected to make a wholesale slash of the Chicago Cubs roster this weekend.

He and General Manager Jim Gallagher were scheduled to take the Cubs' "B" squad to Greenville, Tex., after today's matinee with the Dallas Eagles. They will look over the "B's" playing Greenville of the Big State League before making the cut.

### Jackie Robinson Gets Big Ovation By Atlanta Fans

Atlanta, Ga., April 9—(AP)—It was strange to hear Jackie Robinson say "I wouldn't change shoes with any man in the world."

But stranger still was the tremendous ovation given to the star Negro second baseman of the Brooklyn Dodgers by the white fans of Atlanta when he stepped up to the plate for the first time in last night's game between the Dodgers and the Crackers of Atlanta.

To be sure, there was some spotty booing at first. But they were quickly drowned out by cheers from the majority of some 15,000 fans who came out to watch the first Negro ever to play here with a white team against another white team.

Just to show they were sincere in their welcome, thousands stood up and applauded when Robinson responded by slapping a single over the second baseman's head. This from the fans of Atlanta, the home of the Ku Klux Klan, the core of Southern segregation.

Robinson had no idea what the reaction to his first appearance in Atlanta would be when he gave vent to his true feelings of this entire spring training trip for the first time.

He had been informed that Dr. Samuel Green, the Grand Dragon of the Klan, had previously promised there would be no demonstration against his appearance. But he also knew of Green's announcement that he had received pledges from 10,000 persons never to attend another game at Ponce de Leon Park if he played.

"Believe me," Robinson said before the game, "this is the most thrilling experience of my life. It's the most wonderful thing that ever happened to me. It's great to feel that I am playing a part in breaking down the barriers against the people of my race. I was afraid it would never be in my lifetime."

"The strain is over now," he went on. "But I don't mind telling you I was plenty worried. Every town I went into in Texas, Oklahoma, Florida and Georgia, I kept wondering."

### Increases Players For CPL Teams

By BERT MOYE  
The directors of the Coastal Plain League, at a called meeting held here yesterday afternoon in the Municipal Building and presided over by Ray H. Goodman of Williamston, president, amended the by-laws of the league so that each club this coming season may carry 17 men, including the manager. Prior to yesterday's meeting the limit had been set at 15 men, including the manager.

After a lengthy and heated session, the following classification for the players this season—three veterans, five limited service men and nine rookies—was adopted. The previous classification had listed three veterans, four limited service men and eight rookies.

The directors also voted that each club may carry a total of nineteen men for the first thirty days of the season and a like number for 20 days prior to the close of the season. The two extra men to be carried by the club must be rookies. At either time no club may have a total of more than 21 men on its roster, two of which may be placed on the suspended list.

The Howe News Bureau service was again chosen by the directors to serve as the league statistician for the coming season. However, they voted that the weekly averages would be sent to only the various clubs in the league and should the newspapers or radio stations want a copy of the averages sent to them that they would have to bear the expense themselves.

### Schoendienst In Center Field

Pensacola, Fla., April 9—(AP)—Red Schoendienst celebrated his debut as a center fielder for the St. Louis Cardinals yesterday by hitting two homers and a single and driving in seven runs.

The Cards trimmed the Cincinnati Reds, 13-8, to snap a six-game losing streak. Schoendienst has been an infielder. He may not remain in center field, however, because of a weak throwing arm.

Forty per cent of people never have any wisdom teeth at all.

Manager Pappy Williams and his Greenville Greenies will play a full week of exhibition games next week. The following is the schedule: Sunday, April 10 at New Bern; Monday, April 11 — Kinston here; Tuesday, April 12 at Dunn; Wednesday, April 13—Dunn here; Thursday, April 14 at Wilmington; Friday, April 15 at Smithfield; Saturday, April 16 — Wake Forest College here.

Highlights of yesterday's game—The superb pitching of Bobby Harrison who held the Smithfield Leafs to one lone hit and scoreless in four full innings. That beautiful catch by Bob Cohen in right field in the second frame when he went up against the fence to rob Boykin of what looked like a sure double. Every man on the team batted in a run yesterday with the exception of Pete Gillespie and Jim Pollard pitcher. The stick work of Willard Mauney who hit three doubles and a single for a perfect day at bat. In fact the hitting of the entire team was most outstanding. Stolen bases—Pappy Williams and Deiner of the Greenies, and Zelno and Matthews, Leafs.

Sacrifices—Harrison of Greenies. Double plays—Greenies one and Leafs 3. Left on bases—Smithfield 9, Greenville 10. A total of 20 players was used by the Greenies the Leafs using 13.

The Town of Bethel will have a baseball club this summer. The town recently became a member of the Martin County Baseball League for the 1949 season. Other teams in the league are Williamston, Robersonville, Oak City, Hamilton Everetts, Bear Grass, and Farm Life.

Jesse Van Hoose, pitcher with the Jays last season, will not play with that club this season. He recently underwent a surgical operation so serious that he will not be able to perform on the diamond this year. Bob Johnson, husky limited third baseman, who was with Tarboro a part of last season until he was recalled by the Durham Bulls of the Carolina League, is trying out for a position with the Jays. Baseball writers around the Piedmont League are playing up the showing of Ray Komanecky, who played with the Tarboro Club last season. It appears that Vince Smith, manager of the Richmond Colts, with whom Ray is currently engaged, is going to depend on him for a lot of power from here out.

### Vince Foster Is Given Decision Against Taylor

Chicago, April 9—(AP)—After a strong finish in the last three rounds, Vince Foster of Omaha was awarded a split 10-round decision over rugged Chuck Taylor, ex coal miner of Coalport, Pa., last night.

Foster, beset by a \$100,000 law suit against him, a rusty after three months out of the ring, next will meet Charlie Fusari in New York May 13.

A win over Fusari, in a bout that was postponed from earlier this year, would put Foster directly in line for a crack at Ray Sugar Robinson's welterweight crown.

A Chicago Stadium crowd of 11,594, which paid \$51,477, watched the 22-year-old "modern Nebraska wildcat" close strong for his split decision over the surprising Taylor.

### Newhouser Ready For Big Season

Memphis, Tenn., April 9—(AP)—Hal Newhouser has assured the Detroit Tigers' new manager, Red Wolfe, that he can count on the slender left-hander to keep on delivering the goods this year.

Newhouser gave the assurance in the best possible way yesterday. He shut out the Memphis Chicks 10-0, giving up only four scattered singles. Tiger batters slammed 16 blows to back up Newhouser, only Detroit hurler to go nine innings so far in the pre-season exhibition circuit.

### Annual Bowling Tourney To End

Atlantic City, N.J., April 9—(AP)—The American Bowling Congress ends its 46th annual tournament today.

The team championship of the 57 day tournament was won by Jimmie Smith of South Bend, Ind. last night leaving three championships to be decided today.

More than 400 bowlers will attempt to overtake the leaders in singles, doubles and all-events divisions today.

### Brings Along His 'Flying Circus'

Seattle, April 8—(AP)—The foreman says "one, two, three, 'the' straw boss yells 'sock it!' " If you think we're spiking a rail or stamping a die you've been misled. It's football.

It's the Odell "T." If you live near the Universities of Washington, Wisconsin, Nebraska or Toledo and get a peek at spring grid practice you'll see this odd new touchdown factory in action. Howie Odell brought it west to Washington from Yale and the men who helped him work it out have installed it at the other schools.

Yale had a name for it—the "flying circus." Odell explained today that he had tried to simplify the signal calling business and still make it more effective. His quarterback is still his field foreman, but Odell gives him a couple of straw bosses up in the line—the tackles.

The foreman very briefly sets up the job in the huddle—"right forty-four" as the team lines up the right tackle sizes up the positions of the enemy linemen and barks "Pan it!" This tells the backs just how the opponents will be blocked out.

### Young Skater Is Newest Titlest

Colorado Springs, Colo., April 9—(AP)—Little Richard Dwyer of Los Angeles climbed another notch up the ice skating ladder of fame last night when he won the U. S. Junior men's championship.

The 13-year-old Californian captured the title with a daring exhibition of spins and jumps in the free skating competition. Wednesday he won first place in compulsory figures.

### Meyer Unhappy Over 4 Errors

New Orleans, La., April 9—(AP)—Manager Billy Meyer of the Pittsburgh Pirates was unhappy today as the Bucs readied for an exhibition game with New Orleans of the Southern Association.

The Pirates committed four errors yesterday as they lost 6-3 to Beaumont of the Texas League.

In addition, Ralph Kiner, Pittsburgh's home run slugger, connected for only a single in four trips to the plate.

In 1947 his Tarboro team ended the season only a half-game out of second place and last year the team won the pennant and the championship.

## Phantoms Beaten By Jackets, 6-0

### Arcaro To Ride Derby Contender

New York, April 9—(AP)—Olympia and Eddie Arcaro, who has a way with horses, will combine their talents today in the \$25,000 added experimental handicap No. 2 at Jamaica race track.

The union between the leading Kentucky Derby contender of the moment and the little Italian jockey could be financially profitable for both in the weeks to come. Eddie fell in with Citation about this time in 1948 and kept him company all year to the tune of around \$500,000.

Olympia meets almost the identical field today that he walloped soundly last Saturday in the six furlong experimental No. 1 There are a few variations, however.

First, Alfred Gwynne Vanderbilt's Stone Age replaces Starmount stable's Option in the field of three-year-olds. Option ran last in a six-horse field a week ago.

Second, Arcaro will be up on Olympia instead of Mrs. Ada L. Rice's Model Cadet, who was second in experimental No. 1.

Third, the race today will be over the mile and one sixteenth route, and its value will be up \$5,000 from last Saturday.

### Brooklyn-Giant Trade Talk Is Still Suspected

Shreveport, La., April 9—(AP)—Trade talk continues between the New York Giants and the Brooklyn Dodgers.

The Giants came here without Manager Leo Durocher who stayed behind in Fort Worth, Tex. to confer further with Branch Rickey, President of the Dodgers. There was no announcement, but Durocher is understood to be still seeking one or two utility infielders and a pitcher on a cash basis plus some second string Giant material.

"There is positively nothing definite pending," Durocher said. "We are liable to get together on some transaction but that will have to be future developments."

### Stengel Delays Naming Players

Beaumont, Texas, April 9—(AP)—Casey Stengel, New York Yankees manager, will reserve all decisions involving his personnel until after the club's three-game series with Brooklyn next week.

"I'll know more about the first base situation and about Joe DiMaggio then," Stengel said yesterday. "I can't tell you a thing about first except that it is now up to Billy Johnson."

DiMaggio, of course, is still Stengel's big worry. The valuable centerfielder disclosed his ailing heel is no better or no worse than when he started his first game March 30.

### Jackets Bunch Seven Hits To Score Six; Locals Account For Two Hits In Dropping First Conference Game

The Roanoke Rapids Yellow Jackets bunched seven hits in the second and third innings to score six runs and hand the Greenville high school Phantoms a six to nothing shut out in a Northeastern conference baseball tilt played at Roanoke Rapids yesterday.

Southpaw Shotgun Acree hurried two hit baseball to give the Jackets their third win in four starts. It was the first conference loss for the Phantoms who beat Edenton and have been rained out twice.

Bobby Flye went the seven inning route on the hill for the Greenville team. The Rapids boys garnered nine safeties off his offering, bunching most of them in the second and third frames in which they scored three runs in each.

John Farley, who doubled in the opening stanza, and Joe Alligood who beat out a scratch hit in the sixth, accounted for the only Greenville hits.

Both teams played errorless baseball. The box:

### Twenty-Six Of Colleges Break 'Sanity Code'

Savannah, Ga., April 9—(AP)—Twenty-six colleges are now found to have transgressed the NCAA "sanity code" but six of them have taken steps to comply. A number of schools are listed in the "still doubtful" category.

The overall situation was announced yesterday at a meeting of the NCAA constitutional compliance committee. Chairman C. P. Houston, faculty member at Tufts College, also disclosed that 353 of the NCAA's 389 member schools had been under discussion.
