Senate Debates Arms Obligation In Atlantic Pact

Moral And Legal Implications Of Treaty Dominates Solons' Arguments

Washington, July 14—(AP)—The Senate labored today over the moral or legal obligation in the North Atlantic treaty to supply arms to Europe.

The arms issue dominated the debate and the cloakroom arguments. An amendment to the ratification resolution—a change proposed by Senator Wherry (R-Nebr.)—added more heat to the fiery dispute.

Wherry offered the Senate a "declaration of intent" saying that the United States understands the treaty carries no obligation—moral or legal—to furnish military aid until an attack is made on a pact member, and then Congress and the President would decide what action to take.

Wherry explained to a reporter he is trying to make it clear that the treaty carries with it no intent of arms for Europe until an attack comes.

But he added an arms program could be considered by Congress on its own merits and with no advance commitment in the treaty.

Senator Lucas of Illinois, the Democratic leader, declared the Wherry proposal would "block any arms aid for Europe until an attack is made."

Senator Dulles (R-N.Y.), another pact supporter, said such an amendment might be interpreted in Europe as meaning the United States is making a mental reservation in ratifying the 12-nation treaty.

Wherry argued the amendment merely makes clear what pact supporters have said—that the treaty carries no obligation to supply arms to Europe.

Wherry's critics said the proposal would go much further than that and might lead to some of the pact nations rejecting the treaty.

Wherry said one virtue of his proposal is that it would be adopted and the treaty would not have to be re-negotiated. However, Senator Connally (D-Tex.) said any such declaration would be to be submitted to the other signatory nations and the effect would be the same.

World Is Bright To Man Who Can See Once Again

Hopkinton, Mass., July 14—(AP)—How does the world seem to a man who sees again after 18 years? "Everything looks so rich and bright," said 63-year-old Edward R. Ray. "Faces . . . flower—even the sky on a gray day."

His sight came back more than a week ago—"in a blinding flash!" The first thing he saw was his brother-in-law's face.

It looked wonderful — "wrinkles and all."

Then he was able to see his wife again.

She hadn't changed at all, he said. His daughter, now grown up and married was "even better-looking than they told me."

There is only one drawback to the miracle of returned sight. "I just can't seem to judge distances," he said. But he expects that to clear up soon—like his vision.

REVOKE NINE PERMITS
Raleigh, N. C., July 14—(AP)—The revocation of nine beer permits was announced yesterday by the State ABC board. Since July 1 the board has revoked 36 permits.

The Indonesian Story

Those Newsmen In The Bombay Crash Had Gone To Indonesia For A Study Of What The Future Might Hold For Those People; Background; Legacies; Next?

By JAMES D. WHITE

The correspondents who died in that Bombay air crash had gone to Indonesia to get a story strangely mixed with despair and hope.

This story has been dragging out its complicated course nearly four years in an area of peculiar importance to the human race.

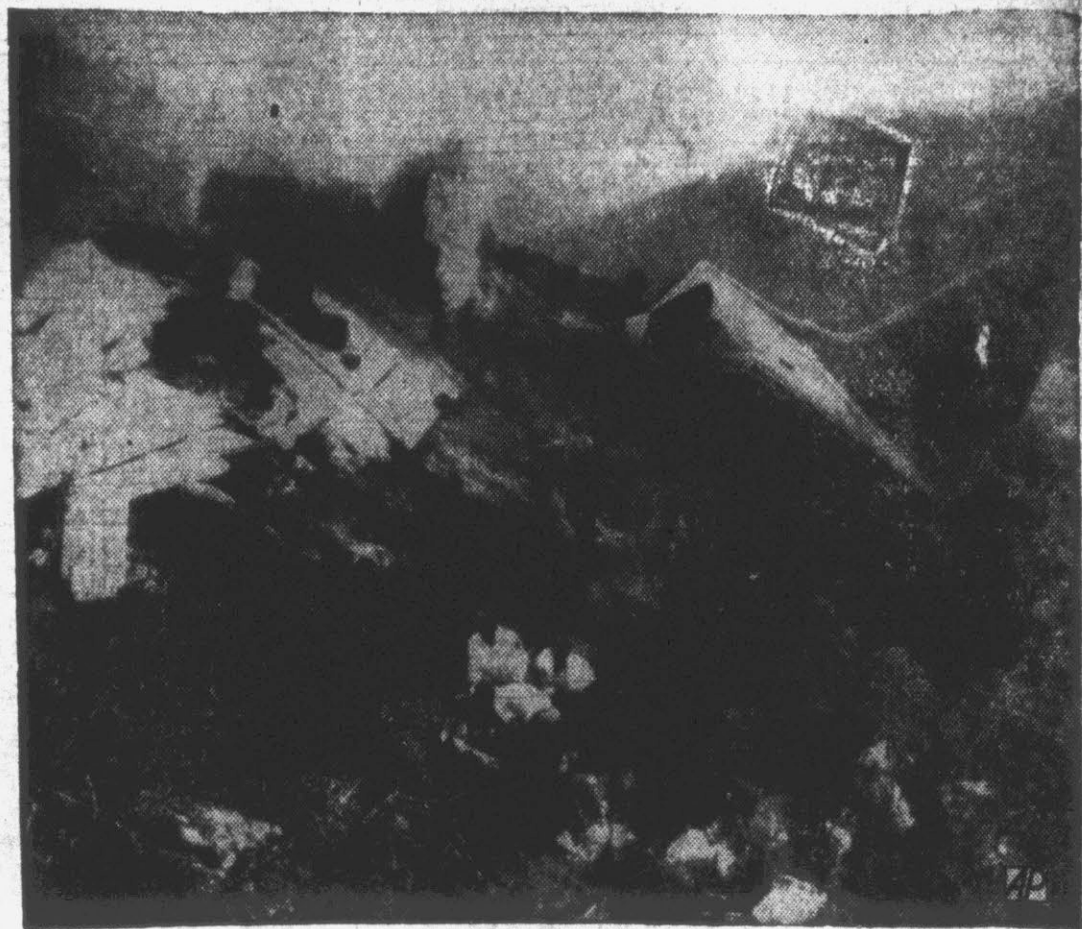

This importance stems from several things. Indonesia contains things people use a lot—oil, tin, rubber, quinine, etc. It also contains the most congested population on earth (Java) in a section of the world that is intent, in varying degrees of passion, on attaining national freedom. The passion does not vary according to the actual readiness of the people concerned to govern themselves, and that is part of the despair.

But there may be a peaceful way to make the change, and that is the hope.

Hope persists because, while both sides seem to have made mistakes in Indonesia, they also have tried not to.

After driving the Portuguese out of Indonesia some 300 years ago the Dutch ruled the Indies with a firm but paternal hand. They could afford to. The Indies yielded such riches that there was a lot left over to improve the Indies themselves. Moreover the Indonesians were a cultured people who even sheathed the sword of Islam with their peaceable ways when the Moslem faith

35 Killed In Plane Crash After Fight Aboard

The scattered wreckage of a commercial airliner burns in Susana Pass near Los Angeles Tuesday after crashing during a fist fight among some of the passengers aboard. Rescue workers are removing the dead and injured. Shortly after rescue operations began, 26 bodies had been recovered from the smoldering ruins. The crash came just before the plane was to have landed at Burbank. (AP Wirephoto).

Fact-Finding Board For Steel Dispute To Be Set Up Friday

President To Act Whether Or Not Larger Steel Producers Agree To Follow His Plan

Washington, July 14—(AP)—The White House said today that President Truman will set up a steel fact-finding board tomorrow whether or not the "big three" producers yield to his pressure for them to go along with his plan to avert a strike Saturday.

Charles Ross, presidential press secretary, announced this after saying nothing has been heard from Mr. Truman's latest message to the three companies.

There was no hint from Ross as to who the President has in mind for the board—a group whose findings and recommendations may be decisive on the issue of whether millions of American workers are to have a fourth round of post-war wage increases.

Asking United States Steel, Republic and Bethlehem to reconsider their rejections of his plan to submit the wage-pension dispute to a special inquiry board for a recommended solution, Mr. Truman told the three:

"Surely you are not afraid to have your side of this dispute examined in the public interest. . . . While some smaller steel firms and the CIO United Steelworkers Union accepted Mr. Truman's plan, the big three had contended it bypassed Taft-Hartley law procedures for strikes imperiling the nation's health or safety."

Philip Murray, president of the CIO and its steel union, said he will issue a strike order today to apply to all steel firms rejecting Mr. Truman's plan for a 60-day strike.

Nearly \$8 Millions Said At Stake In Leaf Vote

Farmville, July 14—Pitt County flue-cured tobacco growers have a \$7,854,800 stake in the Tobacco Associates referendum Saturday, July 23, for that's the amount they received for the exported portion of their 1948 crop.

W. A. Allen, Farmville, county Farm Bureau president, this week

pointed out the vital interest local farmers have in the export program. He urged every grower who will share in the proceeds of the 1949 crop to "get out and vote" on the 10-cents an acre self-assessment to support Tobacco Associates, and on marketing quotas. The marketing quotas referendum will be held at the same time and in the same polling places.

"Every flue-cured grower depends upon exports for the sale of about 40 percent of his crop," the president said. "In our county last year, we produced 39,274,500 pounds of tobacco on about 31,513.6 acres, with an average per acre yield of 1,246 pounds."

"Our county's flue-cured crop in 1948 was worth approximately \$19,637,000, but without our foreign market we would have suffered plenty. There would have been no place for that 40 percent we usually export, and the resulting depressed prices surely would have placed our loss far above the \$7,854,800 we received for our exported tobacco."

"There's no doubt that two-thirds of the farmers voting in North and South Carolina in the Tobacco Associates referendum will approve the continuation of the program. However, we must register an overwhelming vote—just as we did in 1947 when more than 125,000 voted for the program and less than 2,000 against it. A big vote will show everyone tobacco farmers are eager to do something to help themselves. Let's get out that big vote Saturday, July 23, for Tobacco Associates and marketing quotas, two vital parts of our broad tobacco program."

Many things worked against this. In the mother country many Dutchmen couldn't see it. Cabinets have fallen at the Hague over the Indonesian question. In Indonesia, the Japanese left a legacy of guns, poverty, and chaos. Guerrillas scrambled for themselves. The Dutch army and the Indonesian army didn't trust each other. Each charged the other with violating every true agreement set up.

Killed to date—490
Killed to date—4,579
Injured to date—1948—3,670

House Coalition Claim Votes To Junk Farm Plan

'Trial Run' Of Brannan Farm Price Bill Said To Be Already Defeated

Washington, July 14—(AP)—A Democratic-Republican coalition claimed enough house votes today to junk the Truman administration plan for a trial run of the new farm price bill advanced by Secretary of agriculture Brannan.

The coalition would continue the present farm price program as it stands, and some high administration men said privately the trial run idea is in trouble.

Rep. Gore (D-Tenn.) said a near-solid line of Southern Democrats is forming behind his substitute bill, introduced yesterday, to keep the present program. At least 85 Southerners will vote for it, he predicted.

Republican leaders indicated they may throw virtually solid support of the 71 GOP house members to the Gore substitute.

"We are going to continue the present time-tested farm program," Gore said.

Another Southerner, Rep. Pace (D-Ga.) told newsmen he was going down the line for the administration supported farm bill. Pace introduced the bill. It would continue high-level rigid price supports for major crops, while permitting a three-crop experiment with the Brannan plan.

The Brannan plan proposes to use production payments or subsidies to farmers. The Secretary contends it would mean cheaper food for consumers and stable income for farmers.

It would permit the prices of many crops to drop to whatever levels the markets would pay. The government then would make cash payments to farmers amounting to the difference between the average market price and the support price set by the government.

Pontiff Invokes Historic Decree

Orders Excommunication Of Communists In Church

Vatican City, July 14—(AP)—Pope Pius XII has ordered major excommunication of all militant communists who also are Catholics. The sweeping decree would deny them the sacraments and comforts of the church.

The momentous order applies to all members of the Roman Catholic faith "who make profession of the materialistic and anti-Christian doctrine of the communists."

It was announced in an historic decree of the Sacred Congregation of the Holy Office and approved by the Pontiff.

Informed Vatican sources interpreted the decree's wording to be in effect a last warning to Catholics who still defend or follow communism. It applies the church's major weapon of discipline to members who might be wavering under Red pressure.

According to a recent unofficial estimate there are some 330,000 Catholics in the world.

The decree announced the church's decision that "Christian faithful who make professions of the materialistic and anti-Christian doctrine of the communists, and in the first place, those who defend it (communist doctrine) propagate it, incur, ipso facto x x x the excommunication reserved especially to the apostolic see."

The excommunication order appeared to have no precedent in the 1900-year history of the Catholic Church.

Parking Meters Are Re-Installed

Parking meters on South Evans street from Five Points to the Shepherd Memorial library line yesterday afternoon were re-installed in accordance with a ruling by a committee from the board of aldermen.

Police Chief Lester D. Page said the committee which Mayor Stafford appointed Tuesday night to study the parking meter problem on South Evans street recommended that 11 meters be re-installed on the west side of Evans street between Five Points and the library.

The committee was made up of Aldermen R. E. Rogers, J. E. Collins and J. E. Waldrop.

The meters were removed last Friday following action taken by the board of aldermen in their meeting Thursday night.

'Low Look' For Trains At Fair

Chicago, July 14—(AP)—A streamliner with a "low look," the newest thing in the railroad industry, will be on display at the Chicago Railroad Fair Saturday.

Visitors will have a chance to inspect the "Talgo," the American Car and Poultry Company's train that literally hugs the rails.

The Talgo has a locomotive two feet lower than a standard diesel-electric. Its coaches are four feet lower than present day equipment. Interior space, say company officials, "is no loss in the transportation."

Flying Too Low

Los Angeles, July 14—(AP)—Civil Aeronautics Board officials say that low flying and not a fight caused the crash and explosion of a non-scheduled airliner which cost 35 lives and injuries to 125.

Stewardess Charlotte Grenander, 22, told authorities yesterday that the scrap aboard the Standard Airlines' twin-engine C-46 Commando was only a one-punch affair. She said it occurred an hour before the crash in the rugged Santa Susana mountains 30 miles north of downtown Los Angeles Tuesday.

She named Frank Conway of Albany, N.Y., who was killed, as the man who struck her seatmate. Miss Grenander added that there was no trouble after the pilot, Capt. Roy G. White, came back and talked to Conway.

James N. Peyton, regional CAB chief, said the aircraft was on course for an instrument approach landing at Lockheed air terminal, Burbank, but was 2000 feet too low.

Troops Move To Docks Of London

Labor Gov't Sends Servicemen To Unload Food Ships

London, July 14—(AP)—The Labor government, with almost unanimous approval from Parliament for its board emergency powers, sent a doubled force of servicemen to work today on the strike-bound London docks.

Forty-five hundred soldiers and sailors, as against 2,300 yesterday, moved into the port area to unload food ships tied up by the 18-day stoppage. Another 2,700 men were ordered by the Royal Air Force to stand by for duty tomorrow.

The dock labor board said 14,204 men were idle today, 3,464 more than when the emergency was proclaimed by King George VI at the request of the cabinet last Monday.

Work on 132 ships was held up. Eight others were being unloaded or loaded by undermanned crews. Almost 40 ships still were being worked by full dock crews.

The House of Commons last night approved the emergency powers assumed by the government, which has seized control of the dock area along the Thames river under regulations which virtually mean martial law.

The emergency proclamation, first since the general strike of 1926, is valid for a week. Parliament can extend it a month.

Deputy Sheriff To Assume Post

Arthur (Duke) Andrews of Greenville will assume his new duties as deputy sheriff in Pitt county tomorrow.

Andrews was recently appointed deputy sheriff by the county commissioners who acted under an enabling act passed in the recent General Assembly authorizing three deputy sheriffs for Pitt county.

Previously the county has had only two deputy sheriffs.

Russians Relax 'Little Blockade' At Helmstedt

Helmstedt, Germany, July 14—(AP)—Russian guards cleared a 60-truck American convoy through the Soviet zone checkpoint here in less than a minute today, lowering another bar in their "little blockade."

Last night the Russian guards suddenly relaxed their slowdown and gave the green light to German trucks bound for Berlin, permitting the vehicles to pass this checkpoint at a normal rate for the first time since Saturday.

The barriers were reported still up, however, at nine other Soviet zone entry points.

The Russian lieutenant at the Helmstedt checkpoint barely glanced at the U.S. travel orders for this morning's convoy, which was carrying supplies for the U.S. military post in Berlin.

Dropping their harassment of Berlin-bound German cargoes as mysteriously as they began it Saturday night, the Russians were clearing trucks through Helmstedt at the rate of 40 an hour today.

There was a backlog of only 60 German trucks awaiting entry when the American convoy passed through. Five hundred had been stalled yesterday.

Cargoes of perishable foodstuffs from West Germany were given priority and admitted to the Soviet zone during the night.

The sudden Soviet decision to relax restrictions was not explained.

Yesterday the British Labor government told the House of Commons the "little blockade" was a breach of East-West agreements at New York and Paris and might result in retaliation by the Western powers.

One of the main causes he suggests is a cut in prices. Too-high prices, he says, brought on the inflation.

That inflation was bound to bust sooner or later, he says, and it's busted now. His reasoning goes:

When prices soared after the war, people with money to spend bought what they needed, in spite of the prices.

At last they had to begin cutting down on their buying because of the big gap between the prices and their pocketbooks.

So production began to go down. It's still going down. This means fewer and fewer people needed to produce and more people were made jobless. Unemployment is growing.

So—

1. What is needed is more production to make more jobs for more people, although there can't be more production unless people are able

Critics Rough On President's Talk

Lining Up Votes To Defeat Farm Surplus Riders

Lucas Says Foreign Relief Program Never Intended For Price Support

Washington, July 14—Senate leaders lined up votes today in an effort to beat amendments which would require a \$2,000,000,000 purchase of surplus U. S. farm commodities in carrying out the Foreign aid program.

Majority leader Lucas of Illinois said he is confident the Senate will reject the amendments to the Foreign aid bill. They were approved Monday by the senate appropriations committee.

"It was never intended these programs should be used to support the American farm market," Lucas told a reporter.

"The amendments were sponsored by Senator McClellan to the economic cooperation administration (ECA) bill and the army's program for government aid relief in the occupied areas of Germany, Austria, Japan and the Ryukyu Islands."

McClellan said his amendments would:

(1) Require the ECA and the army to purchase only American farm products when they are in surplus.

(2) Require that all funds earmarked for agricultural products in the budget estimates of the two programs be used for that purpose only.

These amendments affect about \$1,500,000,000 of ECA funds and about \$500,000,000 of the funds for the occupied areas.

McClellan said "the purpose is to stop any manipulation of these funds and shift in spending to machinery and other items."

Some Senators said ECA Chief Paul Hoffman is "terribly upset" by the committee's action. One member of the appropriations committee who talked to Hoffman quoted him as saying he could not administer the program with the amendments tied to it, that flexibility is needed.

Daniels' Appeal Up Next October

Fifth Judicial District Solicitor William J. Bundy said today that the appeal of Bennie Daniels, 20, and Lloyd Ray Daniels, 19, who were convicted of the murder of taxicab driver William B. O'Neal, will not be passed on by the State Supreme Court until the October term.

Truman Outlines Anti-Depression Plans And Renews Attack On 80th Congress, Selfish Interests; Economy Group Looses Blasts

Washington, July 14—(AP)—President Truman's sharp attack on "selfish interests urging drastic cuts" in federal spending collided today with both Democratic and Republican criticism in Congress.

So did his assertion that many people would like to have a depression "for political reasons."

On the other hand, Senator Pepper (D-Fla.) called Mr. Truman's arguments "reasonable common sense and full of practical justification."

The President spoke out last night in telling the nation about his new program designed to expand production and avert a more serious business slump.

"We shall have to be sure," the President said, "that the selfish interests do not drive us into the ditch, as they have done before."

As he did in the economic report he sent to Congress last Monday, Mr. Truman said: "We are not in a depression."

But he added that the increase in the number of people out of work "is something to worry about, and something that must be cured."

The President again lit into the Republican-led 80th Congress of 1947-48 for cutting income taxes. He criticized it, too, for refusing to enact the anti-inflation program he wanted then but now has abandoned because, he said, of changed conditions.

He called those policies blunders on the part of the 80th Congress, and he said "selfish interests" were to blame. Then he added:

"Now these same selfish interests are urging us to commit a third great blunder. They are now urging drastic cuts in government expenditures—cuts which would fall hardest on those expenditures which are most important to our domestic economy."

That was an obvious reference to the move in Congress to trim federal spending.

Senator McClellan (D-Ark.), chief sponsor of the economy resolution, commented that there are certain contemplated expenditures for public works (that would of course stimulate our economy), but he added:

"There are other savings that can and should be made, and it is the duty of the President and the Congress jointly to bring about such economies."

Senator Sparkman (D-Ala.), another signer of the economy resolution, also took issue with Mr. Truman.

"If conditions remain as good as they are now, we must work to as-

THE DAILY REFLECTOR
July 14, 1909

A very enjoyable subscription dance was given Monday night in Perkins opera house in honor of the visiting young ladies. "Paul Jones" was included in frequently and added to the pleasure of the occasion. The dance was informal. Among those attending were Misses Kathleen Long of Graham, Clara Hampton of Plymouth, Ruth Coltrane of Concord, Rosa Wells of Wilson, Bettie Russ of Raleigh, Margaret Blow, Nellie Pender, Jamie Bryan, Mary Shelnburn, Lee Brown, Lot Skinner, Lillian Burch, Janie Brown, Helen Forbes and Ward Moore; R. C. Bagby, Judson Blount of Bethel, W. R. Wilson, Paul Jones of East Carolina, John D. Messick of East Carolina, John Boushall of Raleigh, Sam White and Will Lipscomb.

Sam Bundy, principal of the Farmville school, chief speaker, discussed the ideal of service as a measure of the success of the teacher. President John D. Messick of East Carolina was a special guest of the evening.
Others participating on the program included Lawrence Posey, Greenville student and president of the fraternity; Ola Forrest, principal of the Pactolus school; and Dr. Beecher Flanagan, faculty advisor of the organization.

Parker-Harrell Vows Spoken In Garland

Miss Edna Grace Harrell, daughter of Mrs. A. J. Harrell, Sr., and the late Mr. Harrell of Garland, and Rev. John B. Parker of Bethel, son of Mr. R. C. Parker and the late Mrs. Parker of Rocky Mount, were married in a candlelight ceremony on the afternoon of June 21, in the Baptist church of Garland. The Rev. T. O. Todd of Whiteville officiated. A program of nuptial music was presented by Mrs. George McLelland, pianist, and Miss Sarah McLelland, soloist. Miss McLelland sang, "Through the Years," and "Seal Us O Holy Spirit."
The bride, given in marriage by her brother, A. J. Harrell, Jr., wore a suit of white wool gabardine with brown and white accessories and carried a white prayer book shrouded with white carnations.
The ushers were Calvin Warren, Stewart Dyson, George Albert McLelland of Garland and Raymond Pope of Clinton.
Mrs. A. J. Harrell, Sr., mother of the bride, wore a dress of navy bengaline with navy accessories. Her corsage was of red roses.
Out of town guests attending the wedding were: Mrs. Archie Carter of Tarboro, Mr. Kenneth Parker, Miss Alice Parker and Miss Carlee Parker of Rocky Mount, Miss Luelita Paschal and Miss Ruth Heath of Greenville, South Carolina, and Mr. and Mrs. Norris of Whiteville. Immediately following the ceremony, friends of the bride entertained at a reception in the church school auditorium. Mrs. Coleman Carter greeted the guests. In the receiving line were Mrs. A. J. Harrell, Sr., Miss Brenda Fay Harrell, Mrs. H. C. Lockamy, Mr. A. J. Harrell, Jr., the bride and bridegroom and Rev. T. O. Todd.
Mrs. Heatie Heaton served individual wedding cakes, nuts and mints. Mrs. R. M. Marshburn served punch.
The table was covered with a lace cloth and centered with an arrangement of white gladiolus and magenta blossoms flanked by white tapers.
Miss Hilda West presided over the bride's book.
Goodbyes were said to Mr. and Mrs. John Dyson.
The bride and bridegroom left immediately after the reception for a wedding trip in the mountains of western North Carolina. For traveling the bride wore a suit of pink sharkskin with navy accessories and the carnations from her bridal bouquet. Upon their return they will be at home in Bethel, N. C.
Mrs. Parker attended Emmanuel College, Franklin Springs, Georgia, East Carolina Teachers College, Greenville, North Carolina, and Holmes Bible College, Greenville, South Carolina. Prior to her marriage, Mrs. Parker was a member of the faculty of the Garland school. She also taught in Benson and Bethel.
Rev. Parker attended Holmes Bible College, Greenville, South Carolina and is now a student of the East Carolina Teachers College, Greenville, North Carolina. He is the pastor of the Pentecostal Holiness church of Bethel.

Women Carrying Smuggled Rice Across Border

Bangkok—(AP)—Smuggled rice is streaming into Malaya from rice-rich Thailand. An estimated 22,000 pounds of it, carried by women in small lots aboard trains running from Thailand's Hadayal and Sungei Koro stations arrive at Padang Besar, inside the Malayan border every month, according to business sources.

About one and a quarter million farms in the United States produce wheat.

Niagara Falls is the largest cataract in America and the second largest in the world, exceeded only by Victoria Falls in South Africa.

In rice-hungry Malaya the cereal fetches three times its cost at the rice districts of Songkai and Hadayal. The rice gets through in spite of vigilance by customs authorities at all Thai railway stations and despite the presence of three or four policemen who travel on every train to prevent smuggling.

Many methods are used to smuggle rice to the rich black markets of rice-short foreign countries. Each time one method is discovered, another is found. Previously the traffickers in Thailand had used women and little boys who hauled the contraband across the border into Malaya at secluded spots.

Builders Attend House Warming

Chicago—(AP)—There was a new and different kind of house warming at Harold L. Perlman's new home in suburban Glencoe. The guests were the men who

built the place—carpenters, roofers, plumbers, electrician, painters—and their wives. Owner Perlman put on the party to show his appreciation. Commented Mrs. Albert Hummert, whose husband installed the gas heating system: "It was the first time any of us had ever been to a party like that—and some of the men have been in the business 35 years."

The flag should be displayed daily weather permitting, on or near the main building of every public institution.

Songs Sung in the Temple

ILLUSTRATED SUNDAY SCHOOL LESSON

Scripture—Psalms 24: 84; 95:1-7.

By Alfred J. Buescher

The earth is the Lord's, and the fulness thereof, the world, and they that dwell therein. For He hath founded it upon the seas.

Who shall ascend into the hill of the Lord; or who shall dwell in His holy place? He that hath clean hands and a pure heart.

The swallow hath found a nest for herself, where she may lay her young, even Thine altars, O Lord God of hosts, my King.

O come, let us worship and bow down; let us kneel before the Lord our Maker. For He is our God. MEMORY VERSE—Psalm 95:4.

Fast Drivers To Face Crackdown

Raleigh, N. C., July 14.—(AP)—North Carolina's 420 highway patrolmen have been ordered to "crack down hard" on speeding bus and truck drivers.

Highway Patrol Commander C. R. Tolar announced yesterday the issue of the order. Tolar said he receives frequent complaints from motorists that a bus or heavy truck has "run me off the highway."

He added that "they (the big trucks and buses) have given me more headaches than anything else since I've been in office."

Shortly after he assumed his post, Tolar announced last month the results of statewide speed checks. They showed heavy trucks and buses to be the biggest speeders on the state's highways.

He said truck and bus owners ap-

pear anxious to cooperate with the patrol in cutting speeds. He added that "apparently it is the drivers' fault."

Agitation Is An Art Says Pravda

Moscow.—(AP)—Agitation, "Pravda" says, is an art.

"The ideological level of Bolshevik agitation," said "Pravda," "is being continually raised." "But," it added, "it is not in the Bolshevik tradition to rest on past achievements. New problems demand further improvement in political agitation, demands an increased sense of responsibility and better qualifications in agitators."

"It is not only, however, a matter of teaching the agitator to elucidate complex questions simply and understandably and to select for his talk the most instructive facts. The art of agitation lies also in avoiding the commonplace and being able to approach different strata of the population differently."

Miss Pearl Saleed of Washington, D. C., and Greenville, daughter of Mr. and Mrs. John Saleed of Greenville, whose engagement to Mr. Albert V. Wade, Jr., son of Mr. and Mrs. Albert V. Wade of Winston-Salem, is announced by her parents. The wedding will take place on September 25.

Navy Announces New Electronics Enlistment Plan

The Navy Department has just announced a move to accept more young men for its expanding electronics program and to relieve the critical shortage of electronics technicians. Beginning in July, 1949, the Navy will have 1,000 openings every month in the electronics field enlistment program.

Men selected under this program will be assured of a school upon completion of their recruit training. There are seven of these Class "A" schools available to men enlisting in the electronics field. They are: electronics technician, fire control technician, interior communications electrician, radioman, sonarman, fire controlman and radarman. Schools to be assigned to the various men who enlist under this program will be determined at the training center, where all of the

George Whitfield On County Roads

By CHESTER WALSH

George Raymond Whitfield, Negro who was convicted in Police Court last February 4 on charges of trespassing at the Plaza Theater on Albemarle Avenue, assaulting Manager John Warner and policeman and profane language and resisting an officer and disorderly conduct, and

appealed the case to Superior court where Judge R. Hunt Parker gave him a heavier sentence, decided not to appeal to the State Supreme court.

Whitfield surrendered his bond and is now serving 18 months in a road prison camp, District Solicitor W. J. (Dick) Bundy said today.

Police Court Judge J. W. H. Roberts gave Whitfield six months on the roads.

Superior Court records show that Whitfield was one of the most obstreperous defendants ever to occupy the witness stand in the court. He was defiant throughout the trial, and unmoved when Judge Parker sentenced him to the roads. Judge Albion Dunn gave notice of appeal to the Supreme Court.

Later, Whitfield, or his friends, employed Herman L. Taylor, Raleigh Negro attorney, to perfect his appeal. Taylor and C. J. Gates of Durham, another Negro attorney, who represented Bennie and Lloyd Ray Daniels, Negroes, at their trial here for the murder of William Benjamin O'Neal, white taxicab driver.

Fountain Social News

Charlie Owens and Rudolph Moseley returned Saturday to Crownsville, Md., after a visit with their parents, Mr. and Mrs. P. D. Owens, and Mr. and Mrs. Ernest Moseley.

Mrs. Eaber Gardner returned home Saturday from Woodard-Herring hospital in Wilson to recuperate from an operation.

Edgar Killebrew and daughter, Sherry Ann, Mr. and Mrs. Jay Ingold and daughter, Cadie Lynn, and Sam Killebrew all of Washington, D. C., were weekend guests of Mr. and Mrs. A. C. Owens.

Approximately 175 people attended the Killebrew family reunion recently held in Farmville.

Horace Owens of Cherry Point spent the week-end visiting his brother and sister-in-law, Mr. and Mrs. Luther Owens.

Rev. Richard L. West, pastor of The First Baptist church is on vacation and the regular 11 a. m. services will be omitted next Sunday. The Baptist and Presbyterian churches voted Sunday to discon-

tinue Tuesday evening prayer services until August.

Miss Polly Whitehurst of Coneto is spending the week with Joyce Sutton.

Dr. and Mrs. B. H. Brow of Weldon and Arthur Kuhn of New Castle Indiana were week-end guests of Mr. and Mrs. Jimmie Sutton.

The Woman's Missionary society met with the program chairman, Mrs. J. M. Horton, Monday afternoon. Mrs. Hugh Eagles had charge of the devotional. Assisting Mrs. Horton with the program were Mrs. Jack Speight and Mrs. E. B. Beasley. Refreshments were served at the close of the meeting.

Mrs. Cora Walker of Washington is visiting her son and daughter-in-law, Mr. and Mrs. William Walker, for a week.

Mr. and Mrs. Bob Clark and daughter, Betsy of Harrisonburg, Va., spent the week-end with her sister and brother-in-law, Mr. and Mrs. Dennis Mercer, who returned to Harrisonburg to spend a week.

Mr. and Mrs. Joe Fleming of Chicago are spending two weeks with her parents, Mr. and Mrs. Raymond Smith.

E. B. Owens and Richard Bagley spent the weekend at Atlantic Beach.

Mrs. Eva Cory received a message July 6 notifying her of the death of her daughter in law, Mrs. V. T. Cory, of Detroit, Mich. Surviving in addition to her husband are one son, Paul Cory, and her parents of Ontario, Canada.

Miss Nell Owens of Oxford is visiting friends in Fountain.

Strength FOR THE DAY

THE UNSEEN HAND
A writer, describing a trip he and David Livingstone, the great mis-
sionary, had made together, tells
this following astonishing incident:
"One day Livingstone narrowly es-
caped losing his life from an attack
by a two-horned rhinoceros. Liv-
ingstone had become separated
from the others and was stooping
to gather some specimens when a
black rhinoceros made a furious
charge at him. But, strange to say,
it suddenly stopped short, giving
him time to escape. In his flight
Livingstone's watch and chain be-
came entangled in a branch and,
stopping to loosen it, he saw the
beast still standing in the same
spot, as if held back by an unseen
hand."

In the life of almost every in-
dividual some astonishing preserva-
tion has at some time occurred. It
has seemed that some overwhelm-
ing circumstance as ferocious as
the black rhinoceros has been sud-
denly stopped short and kept from
wiping us out of existence, as if
held back by an unseen hand.

Jesus assures us that even the
hairs of our heads are numbered.
If this is true, then certainly it is
not hard for us to believe that the
God who has made us takes care of
us until the commission we are
sent to earth to perform is finish-
ed. There is an unseen hand guid-
ing everyone of us through the
maze of life's manifold experiences.

"SELFISH INTEREST"
In going to bat for his
\$42,000,000,000 budget for
government spending during
the next 12 months, Presi-
dent Truman last night slap-
ped at what he called "self-
ish interest" for asking a cut
in federal spending, and as-
serted that a budget cut now
will plunge the country into
a depression.

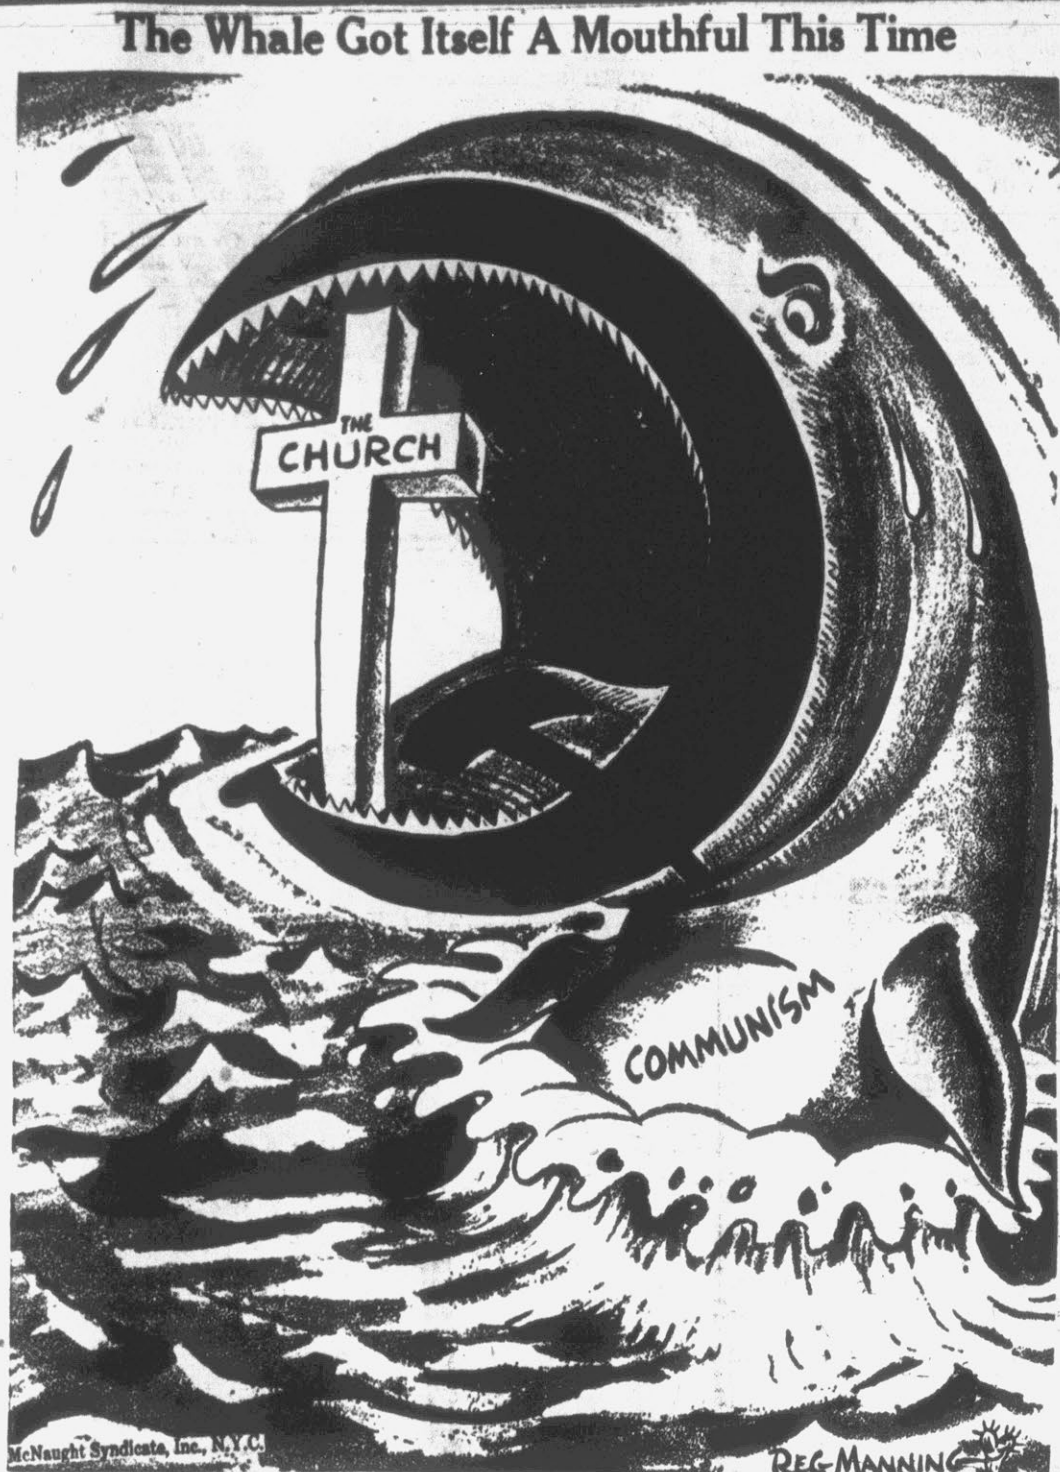

Although the President
stated that he does not like
the deficit spending on which
the federal government is to
be financed during the next
12 months if the budget is
not cut, he said the spending
is necessary to insure an even
economic keel for national
business.

While it may be true that
some "selfish interests," as
the President calls them, are
clamoring for drastic cuts in
the federal budget, most of
the citizens of the country
are clamoring for a cut in the
millions of dollars which are
being wasted annually in the
federal spending.

It is true that a cut in the
federal waste would cause
an increase in unemployment
if the unnecessary agencies
of our vastly bureaucratic
government were cut out,
but the federal government
should not be designed as a
catch-all in which thousands
of persons are given unneces-
sary jobs just so they will
not have to look elsewhere
for employment.

If the "selfish interest"
groups across the nation are
calling for a cut in the bud-
get, the "selfish interest"
groups on Capitol Hill are
fighting tooth and nail to
keep the federal spending
as high as possible and fed-
eral jobs as numerous as pos-
sible: so there will be plenty
of political plums to hand
out to supporters.

There are essential items
in the federal budget which
should not be cut, but the
millions of dollars which are

wasted by the federal gov-
ernment each year could
well be cut out, and the
country will be much better
off economically and politi-
cally in the long run.

Around Capitol Square

THOROUGH—Governor Scott
has made it clear he proposes more
than just a gesture toward stopping
petty leaks, as well as major waste
with respect to use of state prop-
erty. He told his press conference
this week he would ask officials
responsible for state funds to be on
guard against wasteful practices.
Later at a luncheon with members
of the budget commission, revenue
department and SBI he translated
his purpose into concrete sugges-
tions. The plan calls for discon-
tinuing "sponging" practices of top
rank officials as well as among rank
and file employees. The governor
said Tuesday's conference was just
a starter. He expects to call in
department heads and convince
them that they cannot expect com-
pliance down the line unless they
themselves observe the rules.

TIME—The governor is as much
concerned about saving time as
about saving pennies. To that end
he has asked for and obtained as-
surance of the budget commission
that money appropriated by the
general assembly will be made rap-
idly available for use. It is recalled
that very little of the permanent
improvements authorized by the
1947 legislature were started be-
cause the budget office was reluc-
tant to spend the money at the
prevailing prices of labor and ma-
terials. It is now realized that no
thing was saved; on the contrary,
nearly two years time was lost.

HELPFUL—The two members of
the advisory budget commission
present, Senate Finance Chairman
Gray Rankin and House Appropria-
tions Chairman Frank Taylor, voiced
eagerness equal to that of the
governor to get the appropriated
money to work. Both were count-
ing among those who did not want
to make such large appropriations
during the legislature. Since the
money has been allocated they join
in belief it should not be left lying
around waiting for questionable

Somebody Told Me ...
By L. J. (JACK) EDWARDS, JR.

The American's greatest asset is
his friendliness, says Jacqueline
Mesiat-Belouge, a French girl who
next week completes a course of
study at East Carolina Teachers
College. Jackie says that it breaks
her heart to leave Greenville be-
cause the people here have been
very friendly to her.

Jackie is French, but she lives
in Algiers, one of France's col-
onies in North Africa, where her
father is an engineer for the Shell
Oil Company. To Jackie American
homes appear to be comfortable,
but they seem like doll houses
compared to housing facilities in
Algiers. A modern city, Algiers
was founded in 1830. Jackie lives
on the seventh floor of a 15-story
apartment building, so it's easy
to understand her impression.

One of the first new English
words Jackie learned when she
arrived in Greenville was
"smooch." After she had been here
several months she visited a
French girl in Chapel Hill who
has been a student at Carolina
for a year and a half. The UNC
student had never heard the word,
so Jackie marked one up for
ECTC in the column labeled "su-
perior vocabulary training."

The American soda pop is OK,
says Jackie, but it doesn't com-
pare to the wine the French drink.
"American movies are good," she
says, "but many of them lack
sufficient plot. They are often a
display of pretty girls and legs
rather than acting. In France
actors are chosen more on the
basis of their acting ability than
on looks. Their ability to express
themselves makes them seem
beautiful."

Comparing educational stand-
ards in the two countries, Jackie
explained that in American col-
leges 30 of 35 of the students will
pass a course. In France the fig-
ures will be closer to 12 out of 150.
If a Frenchman has an auto-
mobile he uses it purely as a
means of transportation, but the
American, Jackie says, "uses his
automobile as a living room, din-
ing room, and you might even
say a bedroom."

According to Jackie the ward-
robe of the average American girl
contains many more dresses than
that of the average French girl,
but the quality is perhaps lower.
In America, she says, you can see
a dress in a movie and perhaps a
month later see it on sale in the
dress shops. In France if you buy
an expensive dress it's exclusively
yours, and you can rest assured
that no other one like it will be
sold.

Jackie is very thankful for the
opportunity she has had to study
in America. She hopes to get a
job in which she will need a
knowledge of several different
languages. As a possibility she
mentioned working for the Trans-
World Airlines as an interpreter.
She wants the people of Green-
ville and the students and faculty
at ECTC to know that she has
had a wonderful time here.
And I thank you.

roll deduction for state income tax-
es similar to the federal system.
Study of the matter indicated that
plan would be too cumbersome. It
is nevertheless believed that many
citizens are not paying their share
of income taxes to the state. In-
formation adduced at legislative
hearings proved that many bottled
drink dispensing machines had not
paid proper licence taxes. To relieve
this situation additional field men
were provided for the revenue de-
partment, and the governor said he
felt sure they would discover enough
revenue to justify their employment
many times over.

CO-ORDINATION—Basic pur-
pose back of the several conferences
already held and scheduled between
the governor and department heads
is to obtain more complete co-ord-
ination of all state agencies for more
efficient operation of government.
A few hours or days time saved
here and there, a few dollars saved
by cutting out petty waste and a
few more added through efficient
tax collection, will in the aggregate
amount to a lot of time and money

Ridgeway's OPTICIANS

At 5 Points, Greenville, N. C.

Boyle's Column

By HAL BOYLE
New York—Wanted: One new top
grade comedian. Potential salary—
\$1,000,000 a year.

No one has put an ad like that in
the paper. But that's the situation
today in show business. There's a
crop shortage on Broadway and ra-
dio row—a shortage of fresh new
funny men.

"There's really a tremendous scar-
city of comedians," said Irving
Mansfield, CBS executive producer
and originator of the "talent scout"
program.

"All the old ones seem to be fall-
ing over themselves," he said. "They
imitate each other so much you can
hardly tell them apart any more."

"But who's coming along to take
their places? Nobody's in sight."

Trying to build a little known
jokester into a public favorite is
no laughing matter. It's a big in-
vestment.

"A network can easily spend \$250-
000 in an effort to popularize a new
comedian," said Mansfield, "and end
up with nothing but a lame gag
artist—and no sponsor."

"But the rewards are high. A suc-
cessful comedian can make \$20,000
a week."

At that rate a man could take a
two-week vacation and still earn
\$1,000,000 in a year.

"But he'd be lucky if he ended up
with \$40,000 for himself," said Mans-
field.

What explains the death of fresh
comic talent? Mansfield thinks the
decline of the old vaudeville circuits
is the real answer.

"Vaudeville houses were great in-
cubators of comics," he said. "There's
no place left today for young com-
edians to try out their material, and
they have to work with audiences to
perfect themselves."

"A comedian doesn't need a great
deal of personal originality to suc-
ceed. A writer can supply him with
that. But he has to be able to sell
his stuff to an audience. He has to
learn timing—it's everything."

"Take Fred Allen, probably the need-
ed to care for the nation's sick

WASHINGTON LETTER

By JANE EADS
Washington — The U. S. Public
Health Service estimates more than
400,000 professional nurses will be
needed to care for the nation's sick

THE PHANTOM

BLONDIE — By Chic Young

OZARK IKE

and ailing by 1960. On active duty
today in hospitals throughout the
country, in public health agencies
in industry, in doctor's offices, on
private duty, are 230,500 nurses.
There should be 74,000 more, says
Miss Margaret G. Arnstein, director
of the service's Division of Nursing
Resources.

The Public Health Service is work-
ing hard to find ways to meet the
shortage and to prepare for the
needs of 1960. These needs, inci-
dentally, are based on estimated pop-
ulation increases, hospital building
and the expansion of the local pub-
lic health services. They are based
also on the supposition there will
be 200,000 trained practical nurses
on the job.

One method, Miss Arnstein says,
is to get more trained practical nu-
ruses and to utilize those available
more efficiently. Another method is
to determine which available nursing
schools could be expanded and en-
larged or merged if they are very
small.

"Some states have been thinking
in terms of university nursing schools
Miss Arnstein told me, explaining
that most nursing schools have been
conducted by hospitals. "Minneso-
ta, Oregon, Washington and some
other states already have university
schools. Mississippi, Florida and
Arkansas have state university nurse
training schools on tap with their
legislatures."

These schools would prepare nu-
ruses to become instructors, super-
visors, directors, administrators and
clinical specialists in a combined
course of regular academic work
and professional training with the
hospital ward and the public health

Siam Promotes Rice And Cotton

Bangkok—(AP)—The Siamese
government has decided to allocate
\$600,000 during next year to encour-
age rice and cotton planting in spe-
cial settlements in the north, cen-
tral and southern provinces.

The Public Welfare Committee,
whose chairman is Premier Phibun
Songkram, has asked the Director-
General of the Interior Department
to make a survey of unemployment
conditions in the provinces. It is
intended to offer work at the settle-
ments to as many unemployed as
will accept.

Railroad Men Placed On Railroad Board By Scott

By LYNN NISBET

Raleigh, N. C., July 14—For the first time in history, so far as old-timers can recall, the president of the North Carolina Railroad will be a labor union official and machinist.

The new president is Charles A. Pink of Spencer, president of the N. C. Federation of Labor and a machinist in the Southern shops at Spencer. He was nominated by Governor Scott, who by virtue of state ownership of 75 per cent of the stock in the rail line from Goldsboro to Charlotte, under lease to the Southern, has the privilege of naming the officers and eight of the twelve directors.

Other directors named by the Governor include Jesse J. Collier of Raleigh, member of the Brotherhood of Railway Trainmen, J. B. Muse, Jr., of Hamlet, employee of the Seaboard; Roy Cates, pickle manufacturer of Faison; Ralph Fisher, lawyer of Brevard; Clyde Auman, peach grower of West End; Harry Nettles, nurseryman of Asheville, and Howard D. Robertson, farmer of Forsyth county.

Besides President Pink, the Governor nominated the following other officers: John Reynolds of Asheville, secretary-treasurer; W. A. Johnson, Lillington, attorney; Robert Dennis, Rocky Mount railroad man, expert. On the finance committee the governor named his brother, Ralph Scott of Burlington; R. F. Haynes of Fairfield, and Merle M. Stewart of Shelby.

Private stockholders elect four directors of the road. This board has little to do except see that the Southern lives up to its lease contract, a matter of no concern in recent years.

Canned Meat, Riceland Rice Makes Delicious Casserole

Casserole With Canned Meat And Riceland Rice

Just because you served a good dinner yesterday, doesn't help a whit today. There is a constant need for new recipes, especially the ones that are kind to your food budget.

Here is just such a recipe. It's new, it's delicious, it's nutritious, it's quick and easy, and it's very economical—mainly because it's made with Riceland Rice.

And here's good advice: Be sure to use genuine Riceland Rice—because "Riceland" is the brand name of the perfect-cooking rice, grown in the heart of the quality rice belt of America. Only choice, perfect-cooking rice grains are packed in Riceland Rice packages.

When you use genuine Riceland Rice, you'll be sure of perfect results with all rice recipes, such as:

Riceland Rice And Canned Meat Casserole

1 green pepper, sliced or sliced
1 medium sized onion, chopped
4 tablespoons salad oil
4 cups cooked Riceland Rice (1-1/3 cups uncooked Riceland Rice makes 4 cups of cooked Riceland Rice)
1 tablespoon soy sauce
1 egg, beaten
8 cans prepared meat
Tart jelly

Saute pepper and onion in the salad oil until limp but not browned. Add cooked Riceland Rice, soy sauce and beaten egg. Stir in a skillet or saucepan over low heat to mix well.

Cut one can of prepared meat into six slices. Arrange these slices on the bottom of a baking dish which has been lightly greased. Spread with a layer of the rice mixture. Top with six more slices of prepared meat. Spread the top meat slices with a light layer of tart jelly.

Bake in a moderately hot oven, 375 degrees for 30 minutes. Before serving, place mound of tart jelly in center and garnish as desired. This will make six delicious servings.

Remember, the success of this casserole—and all rice dishes—depends on your using perfect-cooking rice, so be sure to use genuine Riceland Rice which always cooks gloriously fluffy. It's quick and easy to cook. Here's how:

To Cook Riceland Rice: Put 2 cups of Riceland Rice, 2 teaspoons of salt and 4 cups of cold water in a large saucepan and cover with a tight-fitting lid. Set over a hot flame until it boils vigorously. Then reduce the heat as low as possible and simmer for 14 minutes more, during which time the water will be absorbed, making the rice deliciously tender. Remove the lid, permit the rice to steam dry to the desired consistency and the grains will be separate and fluffy. Always use Riceland Rice for best results.

It's smart to cook more Riceland Rice than needed, so you'll have some left over to put in your refrigerator "Riceland Rice Bowl" to serve a different way—every day.

Riceland Rice Is Easy To Cook! Tender! Fluffy!

To get the best results with this recipe and all rice recipes, be sure to use Riceland Rice. It's the world's most delicious rice—grown in the heart of the quality rice belt of America. Only the choice, perfect-cooking rice grains are packed in Riceland packages.

This quality rice is quick and easy to cook. Riceland Rice cooks deliciously tender with white, fluffy, individual grains.

Most grocers now feature this better-cooking, wonderfully-delicious, packaged rice—and at economical prices, too! Riceland Rice costs only one-cent a serving.

EXECUTRIX NOTICE

Having qualified as Executrix of the estate of George D. Moore, deceased, late of Pitt County, North Carolina, this is to notify all persons having claims against the said estate of said deceased to exhibit them to the undersigned on or before the 14th day of July, 1950, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

This the 14th day of July, 1949.
BERTHA LEE JACKSON, Winterville, N. C., Route 2, Box 143.
Executrix of the Estate of George D. Moore.

July 14-21-28 Aug. 4-11-18.

NOTICE OF APPLICATION FOR PAROLE

Notice is hereby given that the undersigned has filed an application for the parole of Walter Lee Willis, who was convicted of assault with a deadly weapon, in the Municipal Recorder's Court, Greenville, North Carolina, on November 8, 1948, and who is now serving a sentence on the roads.

This the 11th day of July, 1949.
ANNIE WILLIS

June 14-21-28.

NOTICE OF TRUSTEES' SALE OF REAL ESTATE UNDER DEED OF TRUST

Under and by virtue of the power of sale contained in that certain deed of trust executed by Lonnie R. Cahoon and wife, Martha I. Cahoon, to E. H. Taft, Jr., and J. Lon Duckworth, Trustees, dated September 2, 1948, and of record in Book G-25 a, page 281 of the Pitt County Registry, default having been made in the payment of the debt secured thereby and the holder of the note so secured having called upon the Trustees to foreclose thereon, the undersigned Trustees will on Monday, the 22nd day of August, 1949, at 12:00 o'clock noon at the Court House in Greenville, North Carolina, offer for sale and sell to the highest bidder for cash the following described real estate:

All that certain tract of land in Greenville, Pitt County, State of North Carolina, more particularly described as follows: Beginning at a stake in the western property line of Summit Street, said stake being located 150 feet north of the northeast intersection of First Street and Summit Street; thence N. 59-30 W. 125 feet to a stake; thence N. 30-30 E. 50 feet to a stake; thence S. 59-30 E. 125 feet to a stake in the western property line of Summit Street; thence S. 30-30 W. 50 feet along the western property line of Summit Street to the point of beginning and being all of Lots 29 and 30 in Block "L" of the Lang property, formerly owned by C. T. Mumford, as shown on a map prepared by W. B. Fluharty, dated November, 1924, and recorded in Map Book 1, at page 207 of the Pitt County Registry. These lots being the same property described in a deed from Heber B. Tripp to David E. Eagan, dated August 25, 1947, and recorded in Book A-25, at page 309 of the Pitt County Registry.

The successful bidder at the sale will be required to make a deposit equivalent to ten per cent (10%) of his bid with the Trustees pending final confirmation of the sale by the Court.

This the 14th day of July, 1949.
E. H. TAFT, JR. & J. LON DUCKWORTH, Trustees.

'Runout' Plant Breeds A Myth

Des Moines, Iowa.—(AP)—The belief that some crop varieties "run out" is a myth, says I. J. Johnson, head of the farm crops department at Iowa State College.

It has sprung, he said, from the speed with which some new crop varieties have replaced the old in recent years. The belief is that certain varieties of self-pollinated crops may break down after a few years of replanting in a particular area.

"It's biologically impossible for oats or any other self-pollinated crop to run out in the sense that this term is ordinarily used," he says. In the case of Tama and Boone varieties of oats, Johnson said, these varieties were resistant to most of the diseases that were bothering oats at the time they were developed. Then Helminthosporium blight blossomed into a serious disease for oats and Tama and Boone susceptible to it.

"That is why we switched to Clinton oats which was resistant to Helminthosporium as well as other diseases," he explains. "However, the Tama and Boone varieties did not run out. They were still as resistant to the other diseases as at the start."

Hybrid corn, he says, is a clear case of a plant that literally runs out after the first year. However, hybrid corn is not a true crop variety, Johnson says. It cannot breed true.

College Amateur Show Made Hit With Audience

By CHESTER WALSH

The Recreation Class of East Carolina Teachers College presented an amateur show at Austin auditorium Tuesday night that had thrilled Impressario Eli Bloom had he been present. Seven sparkling vaudeville numbers won continuous applause from the audience and there were frequent encores. It was a great show and had it been advertised, an overflow audience would have attended. Charles Warlick was master of ceremonies.

Cash prizes were awarded the three winning contestants.

The program, a decidedly entertaining presentation, follows:

Calvin Venters, female impersonator, in two songs, accompanied by Frances Sanderson, made a hit. Mrs. Ethel Hopkins and her violin. In two selections, "Gypsy Dance" and "Play, Bridge, Play," was good enough for Broadway.

Murphy Moore, talented singer

rendered "Because" and "The Lord's Prayer," and demonstrated that his voice will enable him to go places in the theatrical world. Nina Abernathy accompanied him at the piano.

Betty Croom of Rocky Mount, talented and accomplished soloist, and popular with Greenville audiences, won generous applause with her two numbers, "I Can't Help Loving That Man" and "You'll Never Walk Alone."

Mrs. Ethel Hopkins went Tige

(Sweetpea) Gardner of Kiwanis minstrel fame, one better, with her black-face act, singing "Peggy O'Neal" and an encore.

The "Four C's," and they ought to be in Hollywood, brought the house down with their songs, "Ain't Goin' to Grieve No More, Lord" and "Breeze" and an encore, were the headlines of the show. The three male singers and Christine Smith at the piano, had the audience with them all the way.

Robert Tyson and his accordion

SONGS SUNG IN THE TEMPLE

ISRAELITES SING PRAISES TO GOD IN THE SYNAGOGUE.

Scripture—Psalms 24; 84; 95:1-7.

By NEWMAN CAMPBELL

EVEN IN the short space of time that the Bible notes on this Sunday School lesson were written, the Palestine picture has changed. Now the Republic of Israel is founded with the old and holy city of Jerusalem as its capital.

Israel has been accepted as a member of the United Nations, and the Jewish people of the earth have at last a homeland of their own. Their songs in the synagogues and temple must be ringing with thanksgiving to God for that blessing.

The 24th Psalm—a psalm of David—is "a psalm welcoming the King of Glory to Jerusalem." The 22nd, 23rd and 24th Psalms have an interesting relation one to another. In the 22nd, Christ is the Saviour, the psalm being a plea for help in time of trouble: "Be not Thou far from me, O Lord: O my strength, haste Thee to help me."

In the 23rd Psalm He is the good shepherd that "maketh me to lie down in green pastures." In the 24th—today's lesson—He is

sworn deceitfully. He shall receive the blessing from the Lord, and righteousness from the God of his salvation.

Psalm 84 is headed, To the chief Musician upon Gittith, A psalm for the sons of Korah. It begins:

"How amiable are Thy tabernacles, O Lord of Hosts! Amiable here is used in a different sense from which we use it today. It means something worthy to be loved."

"My soul longeth, yea, even fainteth, for the courts of the Lord; my heart and my flesh crieth out for the living God."

"Yea, the sparrow hath found an house, and the swallow a nest for herself, where she may lay her young, even Thine altars, O Lord of Hosts, my King, and my God."

"Blessed are they that dwell in Thy house: they will still be praising Thee. Selah."

In Psalm 84, too, is the oft-quoted statement, "For a day in Thy Courts is better than a thousand. I had rather be a door-keeper in the house of my God,

MEMORY VERSE

"O come, let us worship and bow down, let us kneel before the Lord our Maker."—Psalm 95:6.

the Lord, the sovereign.

"The earth is the Lord's and the fullness thereof; the world, and all that dwell therein."

In the temple worship certain psalms were sung every day of the week. Psalm 24 is Sunday's psalm, and it celebrated the inauguration by David of the newly captured fortress of Jerusalem. Read II Samuel 6, where it is told how the Ark, after being given up by the Philistines, was at last brought into the city of David.

The musical part of this celebration was carefully arranged, with musical instruments and two choirs of voices answering each other. The word "Selah" makes a pause between the parts. It is thought that parts of this 24th Psalm were sung on the occasion mentioned.

"Who shall ascend into the hill of the Lord? or who shall stand in His holy place?"

"He that hath clean hands, and a pure heart; who hath not lifted up his soul unto vanity, nor

than to dwell in the tents of wickedness."

In the sixth verse of this psalm, we read, "Who passing through the valley of Baca make it a well; the rain also filleth the pools."

The word "Baca" denotes some kind of balsam tree and the "tears" are gum which the tree exudes.

The Vale of Baca was a waterless, barren valley through which pilgrims passed on their way to Jerusalem.

The 95th Psalm is a song of praise and thanksgiving:

"O come, let us sing unto the Lord: let us make a joyful noise to the rock of our salvation."

"Let us come before His presence with thanksgiving, and make a joyful noise unto Him with psalms."

"For the Lord is a great God, and a great King above all gods."

"For He is our God; and we are the people of His pasture, and the sheep of His hand."

Based on copyrighted outline produced by The International Council of Religious Education and used by permission. Distributed by King Features Syndicate.

provided some entertaining music. Ike Armstrong, the "man with the unlimited vocabulary," magician and mental suggestion expert had an act that would make a hit anywhere.

First prize winner was the "Four C's." Second, Murphy Moore soloist, and third, Ike Armstrong.

Drunk On Duty Is Part Of Job

Miami Beach, Fla.—(AP)—Three Miami Beach policemen recently sat down at a table with a fifth of 100-proof bourbon and got drunk—with the blessing of their superiors and

Colored News

Funeral services for Mr. Andrew Jones will be held Friday at 2 p. m. from the Disciple church, Rev. S. Hemby officiating.

The Willing Workers club of Corner Stone church met last Sunday evening at the home of Mrs. Laura Bradley. Next meeting will be at the home of Mr. and Mrs. Jones on July 17. All members please be present.

In the interest of science.

The trio were serving as guinea pigs for the city's new "drunkometer," a device for measuring the extent of intoxication. All drank two, four and 10-ounce shots of bourbon then breathed into a sterile balloon. The alcohol content was rated at .180 or better in each policeman—180 is considered drunk.

They agreed it was a staggering ordeal.

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Swift's Jewel SHORTENING

New! Homogenized

No need to have a fortune to enjoy the best! For money can't buy a more digestible or more nutritious shortening than Jewel. Gives "magic" cooking, baking, frying results, too. Yet, it costs 5¢ to 7¢ less per pound than costliest brands. Buy new Jewel today—and save!

Now... at dealers everywhere!

Can't Advertise Beer Dealership

Raleigh, July 14—(AP)—Retail beer dealers worrying about fixing or buying advertising signs can put their wrinkles aside.

The reason? After Aug. 1 they won't be allowed to advertise that they sell beer on any signs outside their premises.

The State ABC Board announced the regulation yesterday. ABC Chairman R. W. Winston said the nearest thing permitted to an outside sign advertisement would be a notation giving the number of a dealer's ABC license.

He added that letters on the sign cannot be over five inches tall. The beer license sign isn't required, Winston declared, but will be permitted.

Winston said the regulation was adopted on the recommendation of C. A. Upchurch, Jr., director of the board's Malt Beverages Division. Upchurch asserted the regulation means that all present outside signs

must come down by Aug. 1. He said there were no exceptions, whether they be small hand-painted jobs or expensive electric signs on the highways.

Violation of the regulation, Upchurch said, will be ground for suspension or revocation of a dealer's license.

Teaching Couple Decides Retire After 50 Years

Cedar Key, Fla.—(AP)—A husband and wife teaching team has decided after nearly 50 years to retire. They are Mr. and Mrs. James Bilderbeck who came to Alachua county in 1928 after teaching in Indiana.

Mrs. Bilderbeck was born in 1883 in Coatsville, Ind., and began teaching in 1904 at Brownsburg Rural School in Hendricks County. Her salary was \$350 a year. She taught the elementary grades and was qualified to teach English and mathematics.

Her husband was born in 1884 in Hartsville, Illinois, and began his teaching career in his home town

for \$300 a year. His elementary and high school teaching career was interrupted three times—once to be graduated from the Indianapolis College of Pharmacy in 1909; once to get his Bachelor of Science degree in Education in 1931 at the University of Florida; and once to teach physics at the University of Florida during World War II.

NOTICE TO BIDDERS

Bids For Belvoir Gymnasium, Pitt County, North Carolina

Sealed proposals will be received by the Board of Education of Pitt County, Greenville, North Carolina, at the office of the secretary of the said Board at Greenville, North Carolina, up to 11:00 a. m., July 21, 1949, and immediately thereafter publicly opened and read at the said office for the completion of the general construction. Plans and specifications are on file at the office of James W. Griffith, Jr., architect, Greenville, N. C., and may be obtained from him.

All contractors are hereby notified that any and all pertinent provisions of the General Statutes of North Carolina governing the letting of public building contracts, subsequent amendments and enactments pertaining to the licensing, registration and regulation of their respective professions and trades will be observed in the receipt of bids and the award of the work. All bidders must be duly licensed as contractors by the state of North Carolina at the time of submitting their bid and as provided by G. S. 105-54, Subsection B before undertaking to execute any contract.

A bidder's certified check for 5% of the bid must accompany each bid. (In lieu thereof a bidder may offer a certified check for 2% of the bid plus a bid bond of 3% of the bid). As required by law, all certified checks submitted with proposals shall be drawn on a bank or trust company insured by the Federal Deposit Insurance Corporation. Said deposit to be retained by the Owner as liquidated damages in

event of failure of the successful bidder to execute the contract within ten days after the award or to give satisfactory surety as required by law.

A performance bond is required in an amount equal to 100% of the contract price conditioned upon the faithful performance of the contract and upon the payment of all persons supplying labor and furnishing materials for the construction of the project. This bond must be acceptable to the Board of Education of Pitt County.

No informal bids will be received. The Board of Education reserves the right to reject any or all bids, and to waive informalities. The award of the contract will be conditioned upon funds being made available for construction and the Owner reserves the right to hold the bids for a period of 30 days after the date of the opening thereof.

D. H. CONLEY, Secretary Board of Education of Pitt County, Greenville, North Carolina.

Years of research pioneering guarantee LUCKIES ARE A FINER CIGARETTE!

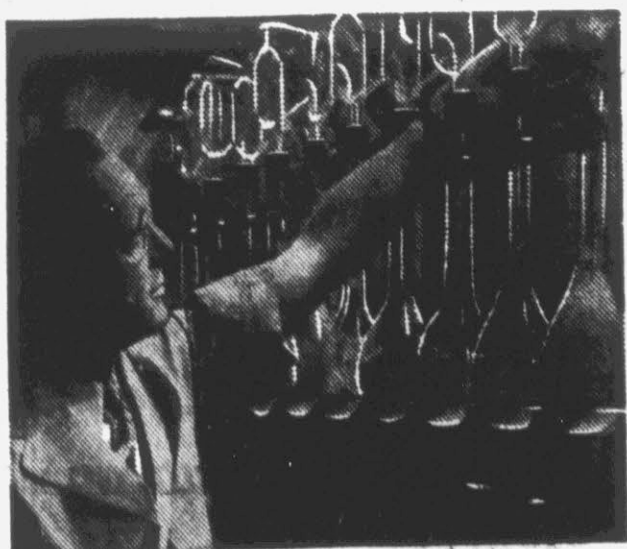

Constant research at Lucky Strike's famous cigarette laboratory—America's largest and most completely equipped—is devoted to giving you a finer cigarette!

THERE is no finer cigarette in the world today than Lucky Strike. Here's why: Lucky Strike means fine tobacco. And every step in the making of Luckies—from before this fine tobacco is bought until the finished cigarette reaches you—comes under the watchful eye of the largest and most completely equipped cigarette research laboratory in America.

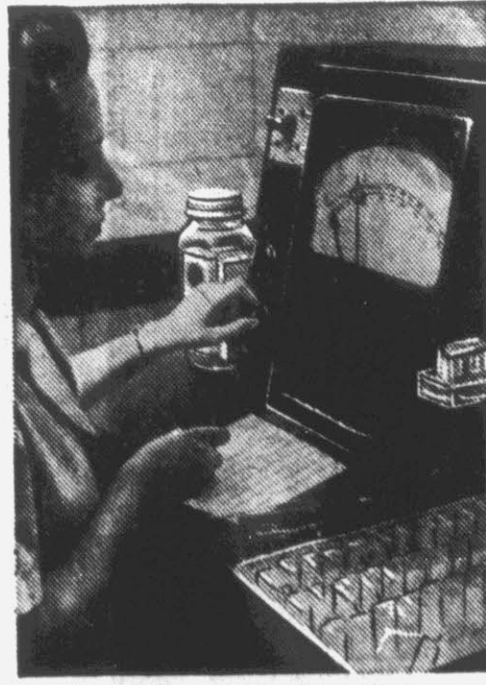

For many years, the famous Lucky Strike laboratory in Richmond, Virginia, has been a center of cigarette science and technology. In this remarkable building you can see a fascinating collection of scientific instruments—microscopes, spectrophotometers, balances, projectors, humidification chambers, and many other complicated and costly machines.

Working with this array of scientific equipment are more than 60 highly trained specialists—chemists, biologists, engineers, physicists. They work on tobacco, on finished cigarettes, on paper, foil, cellophane and even printing inks. For Lucky Strike scientists have for years delved into cigarette research on an extensive scale.

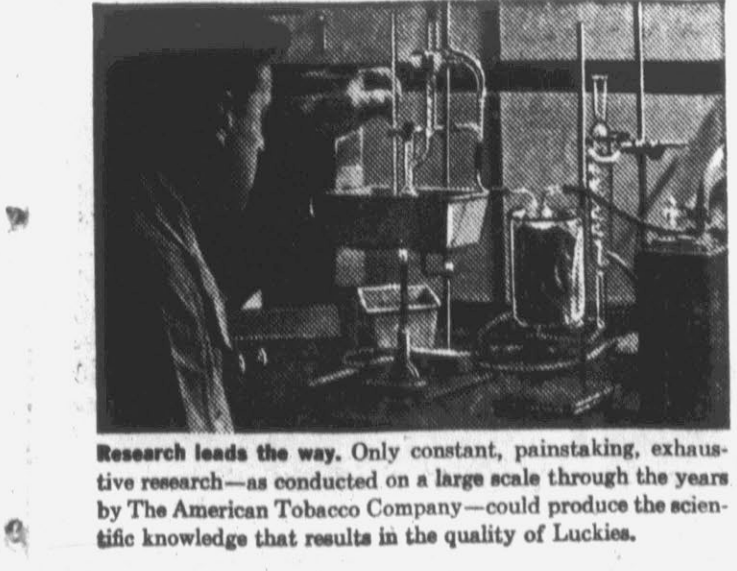

Today, because of the miracle of modern science, Lucky Strike is a finer cigarette.

Testing tobacco. Samples from every tobacco-growing area are analyzed before and after purchase. These extensive scientific analyses, along with the expert judgment of Lucky Strike buyers, assure you that the tobacco in Luckies is fine, light and mild. No wonder Luckies are a finer cigarette.

Luckies stay fresh. After Lucky Strike cigarettes have been packaged, they must be tightly sealed to remain fresh. Here you see the cellophane seal being tested for air-tightness. Such instruments are in constant use at every plant.

Research leads the way. Only constant, painstaking, exhaustive research—as conducted on a large scale through the years by The American Tobacco Company—could produce the scientific knowledge that results in the quality of Luckies.

We know:

LUCKIES PAY MORE for fine tobacco

(millions of dollars more than official parity prices)

We are convinced:

LUCKIES PAY MORE for cigarette research

Prove to yourself Luckies are finer—Get a carton today!

Two Triple Ties For First Place In Major Leagues If Managers Correct

By JOE REICHLER
The major league pennant races are going to wind up in two triple ties for first place.
At least that's the conclusion one

draws after comment from Casey Stengel, Burt Shotton, Joe McCarthy, Connie Mack and other optimistic pilots.
The latest and most surprising

skipper to look into the future through rose colored glasses is Joe McCarthy, the usually reticent leader of the Boston Red Sox. Although weighted down in fourth place, eight and a half games off the pace at the half-way mark, McCarthy insisted that his club "from here on is the team to beat" in the American League race.

"We'll be there or thereabouts at the finish," he said. "Everything has been breaking just right for the Yankees."

The Red Sox really are moving now. They've won seven in a row and are only a game and a half behind the third place Philadelphia Athletics.

Casey Stengel, who has done such an amazing job with the front-running New York Yankees, does not share McCarthy's opinion.

"I had been inclined to think that the Red Sox would provide us with the toughest competition," Stengel said. "I felt that way even when they languished in the second division. But when we knocked them off five times in a row recently that finished them. I don't think they can recover."

A week ago Stengel picked the Athletics as the only team that could stop his Yankees, who currently hold a five and a half game bulge over the second place Cleveland Indians. At the time, the A's were in second place, only four and a half behind.

"If we can beat the A's more times than they beat us, we're in," Stengel said. "If not, it probably will be the A's."

Whereupon the Yankees knocked off the Mackmen in a solo contest and started them on their way to a five-game losing streak.

Connie Mack, Philadelphia's 86-year-old manager, is not discouraged, however.

"Our boys, although in third place today, feel they still can win and I, as their manager, have to go along with them, naturally," he said. "Don't count us out. We still have a good chance."

Cleveland's Lou Boudreau didn't talk much but grinned knowingly when asked whether he thought he would repeat.

"We're still the champions," he said. "It's up to the others to beat us. And it's not going to be easy I promise you that."

Burt Shotton, grizzled Brooklyn manager, still insists, as he has all season long, that his Dodgers are going to win the National League flag. In this he has the backing

of his boss, Branch Rickey. Currently, the Dodgers hold a half-game edge on the St. Louis Cardinals, who have won 35 of their last 50 games.

Redbirds Leader Eddie Dyer thinks his team is at least 15 per cent improved with the addition of pitchers Max Lanier and Fred Martin and infielder Lou Klein.

Dyer and Billy Southworth, manager of the third place Boston Braves, envisioned a stretch drive that would not produce a winner until the final day.

The first golf championship to be televised was the 1947 U. S. Open at St. Louis.

Walter Hagen won five PGA championships in his golf career.

Boys' League Baseball

Tigers vs. Braves
The Tigers rallied for four runs in the first half of the last inning to win over the Braves yesterday at Third St. Park 10 to 7. The Braves had a 7 to 2 lead going into the fifth when the Tigers got back into the ball game with four runs. Larry Fife started the inning by singling, Billy Tighman tripled, Odum singled, then Bobby Fife walked and Billy Jordan tripled to come with in one run of tying the score. Billy Jordan pitched the first four innings for the Tigers allowing them all of their runs. Bobby Fife came in and shut the Braves out for the remaining innings. Hylton Quinn pitched a creditable game for the Braves but was the victim of poor support especially in the last inning. He should have retired the side in the final inning without a man reaching base, but the Tigers scored the winning runs before a hit was registered. Bobby Fife led off by hitting to second and the ball was errored, then Jordan hit to right and got to second when the fly was misjudged. Gardner fanned and then Bobby Williams laid down a perfect squeeze bunt to score the winning tying run and in an effort to get the runner at the plate the ball was thrown wildly and the winning run crossed over. Billy Tighman had a big day at the bat with two singles, a triple and homer. Billy Jordan had a triple and double and Larry Fife had two singles and a double. Jody Taylor got two singles for the Braves.

Reds vs. Dodgers
The Reds of W. Greenville won a slugfest from the Dodgers at Third St. Park 13 to 10. The Dodgers came from way back to make a battle of it but game out of steam before the end. Bobby Howell with two singles, a triple and double and Pat Sawyer with three singles were the top hitters for the winners. Buddy Haylor, George Sideris, Jackie Cox and Newell with two hits each led for the Dodgers.

Schedule for Friday
Tigers vs. A's, Third St., 9:30 a.m.
Dodgers vs. Reds, West Greenville, 9:30 a.m.
Cards vs. Wolf., West Greenville 2:30 p.m.
Red Sox vs. Orioles, Third St. 2:30 p.m.

PLAYGROUND ACTIVITY
Yesterday afternoon the girls soft ball team from Cotanche Park defeated West Greenville girls team by the score of 13 - 11.
Tomorrow at three o'clock the playground ping pong championship will be decided at N. Y. A.

Parker Expects Pancho In Finals

Chicago, July 14—(AP)—Frank Parker, stroking his way towards what he hopes will be his sixth National Clay Courts tennis championship, meets Jack Tuero of New Orleans today as the quarter-finals got under way at Suburban River Forest.

Parker, seeded No. 2, bowled over Clarke Taylor, Chapel Hill, N.Y. 6-1, 6-3 6-1 in a third round test yesterday. The toe he is expected to meet in the finals Richard (Pancho) Gonzales, the defending champion, was routing Keston Deimling Jr. of the host club, 6-1, 6-0, 6-2.

Parker in his early thirties, played under wraps against Taylor. He won the first set in 15 minutes and was never pressed.

Tuero, Tulane University ace and current National Intercollegiate singles champion, moved into the quarterfinals with a 6-3, 6-0, 6-0 victory over Don Lowenbein of San Francisco.

In the most thrilling match of the day, Art Larson of San Francisco, seeded No. 6, battled four hours before he finally downed Tony Trabert of Cincinnati, 11-9, 7-9, 5-7, 6-3, 6-3.

No-Hit, No-Run Game In Mexico

Mexicali, Mexico, July 11—(AP)—Irv Courtis pitched a no-hit, no-run baseball game last night as his Mexicali team defeated the San

Bernadino, Calif., club 7 to 0 in a Sunset League ball game.
Courtis retired 18 men in order before walking a man. Only two men reached first on walks. His teammates backed him up with errorless ball. The Sunset loop is a Class C league.

Greenies Tie Athletics In Eight-Frame Pitching Duel

Mauney Hurls 3-Hit Ball In Seven Frame Stint; Rain Ends Game In 2-2 Deadlock

By BERT MOYE
Manager Pappy Williams and his Greenville Greenies played to a 2-2 tie with the Tarboro Athletics here last night, in a game which was halted at the top of the ninth inning by a heavy downpour of rain.
The game was a real pitching battle between Frank Mauney of the Greenies and Al Busa of the Athletics. Both hurlers pitched superb ball with Frank Mauney getting the edge in the hit department as he held the Athletics to three hits, while Busa gave up four.
The Athletics, taking advantage of the breaks given them in the seventh frame, scored their two runs. Up to this time Mauney had put the Athletics out in one-two-three order with only one hit being allowed, and this man being thrown out in an attempted steal to second base.
In the top of the seventh, Dal Orf was issued a free pass to first. Gus Godbold beat out an infield hit. Doh Warfield beat out a bunt, and when Frank Mauney threw wild to third in an effort to head off Orf, the ball went way out of the third base line, with the result that Orf and Godbold raced home.
The Greenies came back in the eighth inning and knotted the count at 2-2 by scoring two runs the hard

way. John Tepedino hit a homer over the left field wall for the first time. Then Vernon Mustian went in to pinch hit for Bob Cohen and was issued a free pass to first. Pappy Williams popped out to the catcher and then Steve Denier came through with a triple in right center field to bring in Mustian for the tying run.
Frank Mauney, who was relieved in the top of the eighth, pitched three-hit ball and had only 22 men to officially face him in the seven frames which he worked. He struck out five and walked three. Two of the three hits allowed by Mauney were infield hits. Junior Yohn pitched the lone eighth frame and put out the first three men to face him. Gus Godbold, Athletics' second sacker, got two of the three hits allowed by Mauney.
Al Busa, on the mound for the first seven and two-thirds innings for the Athletics, gave up four hits walked four and struck out seven. John Tepedino with a homer and a single and Steve Denier with a triple and a single accounted for the four hits received off Busa.
The Greenies will play at home again tonight when they meet the New Bern Bears here in the first of a three-game series. Friday night in New Bern the Greenies play a doubleheader with Bears down in New Bern.

Mary, Queen of Scots, was the world's first woman golfer, and the army cadet who carried her clubs was the first "caddy".
Detroit is the only team in the major leagues which never has finished in last place.

Irish Come Up With Good Miler

Dublin, July 14—(AP)—Ireland has come up with a crack mile runner. John Joe Barry, carrying the colors of the green against American athletes, was clocked in a blazing 4:09.4 mile performance yesterday. He beat John Twomey of the Illinois A. C. by 15 yards in an international meet.
Uncle Sam's colorbearers distinguished themselves in five other events, breaking four Irish records and tying another.

Canoeists Race For 450 Miles

Benidj, Minn., July 14—(AP)—Four hundred-fifty miles of the Mississippi river stretch before 100 canoeists who tomorrow morning dip paddles and head for Minneapolis and \$8,000 in prize money.
Fifty two-man teams from seven states and three Canadian provinces are poised to begin a gruelling canoe derby at this northern Minnesota city near the Mississippi's source.
Eight days later the first of the teams is scheduled to cross the finish line to open the annual Minneapolis Aquatennial.

Sam Snead And Gary Middlecoff Resume Golf War

Pittsburgh, July 14—(AP)—PGA Champ Sam Snead and Open Titleholder Gary Middlecoff resume their golfing war today, leading the field of 156 pros and amateurs teeing off in the \$16,000 Dapper Dan tournament.
Middlecoff, currently holding a slight lead over Snead in the battle for money winning honors, topped the shotmaker from White Sulphur Springs, W.Va., by one stroke in the recent Reading, Pa., tourney.
The Dapper Dan—a 72-hole four-day competition over the rolling Alcoma Country Club course—also is expected to play a major role in the selection of the two remaining members of the U. S. Ryder Cup team.
Vic Ghezard, defending Dapper Dan champion from Deal, N.J., is one of the Ryder Cup aspirants entered here. Others are Bob Hamilton of Landover, Md., Johnny Bulla of Pittsburgh, and Dick Metz of Virginia Beach, Va.

CITY LEAGUE SOFTBALL
Last night's game between the Jaycees and Lions was rained out and was rescheduled for Friday of this week at Third Street diamond.
Tonight in an Industrial League encounter the Carolina Dairy nine will play American Lady Corset.

Bobo Newsom Is Staying Home As Team Hits Road

Chattanooga, Tenn., July 14—(AP)—Louis (Bobo) Newsom, winner of 10 games for the Chattanooga Lookouts this season, refused early today to accompany the Southern Association team on a road trip to Little Rock.
The ponderous Newsom, reportedly winner of more games—300-plus—than any other pitcher now active in baseball, balked at boarding the train here, the Chattanooga Times said, in the face of a warning from Club President Joe Engle that "if Bobo doesn't get on that train he will be suspended for the rest of the season, and fined."
Buss Walker, Times sports editor, said the former major leaguer was at the station awaiting the arrival of other players before train time, but that he left the terminal some 30 minutes before the train departed behind schedule.
According to the Chattanooga News-Free Press yesterday, Newsom said he was going to seek major league connections and that if he did not make them would "quit Chattanooga now because there is no future in minor league for me."
Walker said Newsom told him that his sole reason for not joining the team was that Engle had "hung up in my face" when Bob called Engle about a major league deal.
Walker said the veteran hurler's teammates pleaded with him to accompany them.
The Times editor also said Lookout Manager Fred Walters asked Bobo not to stay behind, but if he did to "just skip Little Rock and join us in Memphis." Newsom wouldn't agree to that arrangement, Walker said.

Don Black Tries For Two Frames

Cleveland, July 14—(AP)—Hard luck hurler Don Black came back to the Cleveland Indians last night—but only for two innings.
The Indian, who suffered a brain hemorrhage last season and had to give up baseball temporarily, pitched two frames of Cleveland's exhibition game against Pittsburgh. The Indians lost 1-0.
Norman Clark, rookie hurler, with a record of seven wins and four losses so far this season with the Greenies, has been sold to Meridian, Miss., of the Southeastern League, a Class "B" organization. . . . Jim Lewey has been placed on the suspended list to make room for Charlie Graham, Greenies' new rookie second sacker. . . . Jimmy Poole, former first sacker for the Philadelphia Athletics, was here last night to see the game between the Greenies and the Athletics. He is at the present time scouting for the Connie Mack club.

SMU Star Will Join Pro Ranks

Dallas, Tex., July 14—(AP)—Gilbert Johnson, Southern Methodist University's spectacular forward passing star, is going to turn professional "as soon as possible."
Johnson made his decision yesterday after talking by telephone to coach Matty Bell, who is on vacation at Cloudcroft, N. M.

Rates His Sox As Team To Beat

East Amherst, N. Y., July 13—(AP)—Joe McCarthy rates his Boston Red Sox "from here in the team to beat" in the American League pennant race.
"We're due to get some of the better breaks to balance for the over abundance of disaster that visited us," the Boston manager said yesterday at his farm here.
McCarthy plans to fly to Detroit tomorrow, when the Red Sox will open a western tour with a night game against the Tigers.

Future Card

St. Joseph, Mo. —(AP)—Jim Neufeldt, center fielder for the St. Joseph Cardinals in the Western Association, looks like a future St. Louis Cardinal. In a recent game against Hutchinson, Kas., he cracked out two homers. The Class C team is a member of the St. Louis chain.

DIAMOND DUST
Tonight's Games
New Bern at Greenville
Tarboro at Kinston
Roanoke Rapids at Wilson
Goldsboro at Rocky Mount

Sidelights: That was a real pitcher's battle last night and one which will long be remembered by local fans. . . . In the first six frames only 18 men faced Frank Mauney as he put them out in one-two-three order. . . . The Athletics' hurler, Al Busa, was also at his best as he pitched four-hit ball for seven-and two-thirds frames. . . . Three Greenies were successful in the base stealing department while the Athletics were unsuccessful in this department. . . . Many fans were amazed when Frank Mauney was taken out in the seventh frame for a pinch hitter. That was real baseball, as at the time Greenville was behind two runs and two men were on base for the locals at the time. . . . When giving report to N & O last night following the game, the sportswriter taking the box score, etc., remarked as he was given the Greenville hurlers: "That man Yohn pitches almost every night; Pappy surely works him."
Last night's game will go into the records as a tie game and this means that at the next meeting of the Athletics and the Greenies here, which is on Sunday, July 31, the two teams will meet in a doubleheader, with the first game being seven innings and the second game being a nine-inning affair. This is due to the fact that the game was more than four and one-half innings and was a regulation game.

Eight Of Twelve Pactolus Teachers Revealed Attending Summer School

Principal O. H. Forrest today announced that eight of the twelve teachers at the Pactolus school are now attending summer school; of the eight, three will receive MA degrees and one a BS degree.

Those receiving MA degrees this summer are: Mrs. Minnie J. Stancill, Mrs. O. H. Forrest and Mr. O. H. Forrest; Mrs. Mildred Guthrie will receive her BS degree and at the same time renew her certificate with the State Board of Education.

Principal Forrest said he believed this is the largest delegation from the Pactolus school to ever attend summer school at one time, in order to improve their teaching and technique and procedures.

Pactolus will have nine state-allocated elementary and three high school teachers for the 1949-50 school term. Teachers will fill the following positions:

Mrs. L. L. Stancill, first grade; Mrs. Lou Cavendish, second grade; Mrs. Hilburn, third grade; Mrs. Minnie J. Stancill, fourth grade; Mrs. Mildred Guthrie, third and fourth combination; Mrs. G. E. Cherry, fifth grade; Mrs. Ed Switzer, sixth grade; Mrs. Jessie B. Little, seventh grade; Mrs. O. H. Forrest, eighth grade; Mrs. May B. Heath, mathematics and social studies; Mrs. May B. Heath, language department; Mr. O. H. Forrest, principal and science department.

PTA Institute Is Held Tuesday Afternoon Here

Parents and teachers gathered at East Carolina Teachers College Tuesday afternoon of this week, to discuss the improvement of the public schools through the work of the Parent-Teacher Association. The conference was the second annual PTA institute held on the college campus. Dean Leo W. Jenkins, dean of the East Carolina summer school, was presiding officer at a luncheon in the North Dining Room and at an open forum which followed.

Mrs. Dorothy W. Perkins, speech consultant at East Carolina for the first summer term, was chief speaker at the luncheon. "Encourage primary teachers to become speech correctionists," Mrs. Perkins urged those present. Three out of every hundred pupils in the public schools, she said, need the help of a speech teacher. One percent of the school population, she continued, are stutters; and one out of every 220 children has a cleft palate. Every primary teacher can become a speech correctionist, she pointed out, for articulation difficulties, which make up seventy percent of the speech difficulties found among school children. Faults in speech should be corrected early, she said, before they become fixed as habits.

Participation of high school pupils in the PTA was discussed by the Rev. J. A. Neilson, pastor of Immanuel Baptist Church and president of the Student-Parent-Teacher Council of Greenville; Mrs. P. W. Picklesimer of Greenville; and Mrs. P. D. Burroughs of Charlotte, who described the work of the PTA in her home city.

Others who appeared on the program included Felix Barker, director of the Division of Special Education in North Carolina; Dr. J. L. Oppelt, director of Student Teaching and Placement at East Carolina; Mrs. J. T. Cheatham, president of the PTA of the Third Street School in Greenville; Mrs. Elizabeth Norman, teacher in Third Street School of Greenville; and Fodie Hodges, principal of Belvoir School. The advisability of making the PTA institute at East Carolina a conference accredited by the national organization was discussed. It was suggested that such a meeting lasting several days be held here annually. Those present suggested that Dean Jenkins discuss the matter with state PTA officers at a meeting of the North Carolina PTA congress to be held in Greensboro July 18.

The first Continental Congress was called by Massachusetts and Virginia in 1774.

The science of geography is due largely to developments started by Alexander Von Humboldt, a German scholar born in 1769.

Needed A Wash?

San Diego, Calif., July 14—(AP)—A runaway monkey invaded a self-help laundry here, scattering women customers with shriek screams.

The monkey jumped into the open door of one of the electric washers, which automatically started to work on him.

Willie—that's the monkey—was rescued without damage by his owner, Richard V. Heitman, and Humane Society man who had been on his trail.

Wilson's Weekly Bulletin from the Rector Kitchens

Summer Eating Calls for Variety. There are more ways than one to serve thrifty hamburgers. No meat can be stir-fried like Wilson's CERTIFIED Beef for even if ground it still appears proudly at the table. In fact, your summertime economies will be hidden in this smart, western recipe.

And Plenty of It! Young folks never tire of hamburgers and growing children are to be pleased for they need 1 1/2 to 3 times as much protein per pound of body weight as grown-ups. Thus a boy weighing 60 lbs. can easily need as much protein (or meat) per day as a 150 lb. man, and if anything, the period of summer growth enlarges this need. So accent your menus generously with Wilson's CERTIFIED line of quality meats.

Done-To-A-Turn: Red-meat burgers, great juicy hunks, in a high-vitamin tomato sauce, plump, juicy, and done-to-a-turn need fire control to cook just right. High-heat shrink and toughens meats—so always remember that the "bed of coals is much hotter than it looks" and "the bigger the fire the hotter!" Charcoal is a perfect fuel because it forms a glowing bed of coals quickly.

RANCH-STYLE BURGERS

Saute together until soft: 1/4 cup chopped onions in 1 tablespoon Clearbrook Butter or Wilson's Certified Margarine. 1 cup tomato juice or puree. 2 tablespoons each vinegar, Worcestershire Sauce and brown sugar and 1/2 teaspoon mustard.

Cook down thick and add hamburger patties (3/4 inch thickness) made by blending in the following proportions: 1 lb. Wilson's Certified Beef, ground. 1 tablespoon Wilson's B-V dissolved in 1 tablespoon water. 1/2 teaspoon pepper—no salt.

Cover and simmer (never boil) 10 minutes, turn to cook other side about 5 minutes.

ROASTED SWEET CORN. Use fresh corn as the husks must be moist. Peel back husks and remove silk, butter, kernels and tie shut again. Dip into water and grill, turn often.

Recipe of the Week BY MARY LEE TAYLOR

Hot Macaroni Salad

Broadcast: July 16, 1949

1 cup macaroni or spaghetti, broken in small pieces
6 cups boiling water
2 1/2 teaspoons salt
1 1/2 cups water
4 frankfurters or viennas

1/4 cup bottled salad dressing
1/2 cup pickle relish or cut-up pickles
2 tablespoons bottled mustard
few grains paprika
1/2 cup Fat Milk
1 cup diced celery

Cook macaroni until tender in boiling water and 1 1/2 teaspoons salt. Drain and rinse with hot water. Heat water almost to boiling. Add frankfurters; remove from heat; let stand 5 min., then slice thin. Mix in saucepan the salad dressing, pickle relish, mustard, remaining 1 teasp. salt and the pepper. Stir in milk. Add macaroni, frankfurters and celery. Heat very slowly, stirring gently until thoroughly hot. Do not boil. Makes 4 servings.

*Diced cooked meats like salami, bologna or canned lunch meat can replace sliced frankfurters; add these meats with the macaroni.

You Will Need
PET MILK

BORN of the STORM

By Sidney B. Carter

Chapter 10

But, even as the rapture of his nearness held her, some misgivings slid into her mind. Priscilla wondered whether words and phrases cropped up in other people's memories at the wrong time the way they did in hers. If he loves you he'll wait for you . . . sex attraction is the strongest in the world . . . these things are born of the storm . . . She drew away from Kenneth.

"What's your mother like?" she asked him. "I mean . . . well, what does she look like?"

Kenneth drove along without answering for awhile. "She used to be pretty, I guess," he said, "but she's worked too hard. Dad never made much money. Never held one job very long at a time. Drinks too much."

"Will I get along with your mother?"

"I suppose so," said Kenneth carelessly. "Look, we're passing The Blue Dragon. I heard that's a swell roadhouse. They even got a gambling place back there in one of the rooms. Want me to take you sometime?"

Priscilla bit her lip. "I don't know," she said. "I don't think we have enough money to . . ."

Kenneth glanced at her in evident surprise. "Aw, come on now, honey. Don't tell me you're going to be a wet blanket! My little ball-and-chain."

"No, but . . ."

"No buts about it!" He leaned over and kissed her swiftly. "We're getting married so we can have even more fun than we've had before. You don't know how to have real fun. I'm going to teach you." His arm slipped around her and her head dropped naturally, contentedly, to his shoulder.

The afternoon sun had just dropped behind the hills when they rolled into the front garden of the neat, white frame cottage. "Marriages at All Hours," shouted a sign on the garden gate. This, then, was it.

The minister, himself, welcomed them unctuously and seated Priscilla in the parlor, while he explained to Kenneth how to get his marriage license. Mrs. Barnes, the minister's wife, bustled in before long. She was a loquacious, inquisitive type of person, about forty years old, but kindhearted and motherly, so that by the time Kenneth was well on his way, she had become quite intimate with Priscilla—dispensing advice on all phases of married life at once. As she talked, she bounced around doing this and that, tidying the living room and calling out the window to a neighbor, Miss Yancey, to come over and witness a wedding.

"Now, Miss Yancey will take you upstairs to primp up," said Mrs. Barnes when Miss Yancey, a flutery old-maidish little creature had come in. "Won't you, Miss Yancey?"

"Oooohhh, yes!" sighed Miss Yancey, and then immediately giggled girlishly. Priscilla found out during the space of the next ten minutes that the sigh and the giggle went intrinsically with Miss Yancey. Perhaps, she thought, with all the Miss Yanceys of this world.

It was discovered at the last minute that Kenneth had forgotten to buy flowers for Priscilla and so Mrs. Barnes ran out into the garden to gather a hasty bouquet which she thrust into the bride's hands. Then, they all took their places and the ceremony . . . at last . . . began.

Despite the lack of wedding guests, the ceremony took on a dignity Priscilla had not thought possible. In a few moments it was over. The minister pronounced them man and wife. Kenneth kissed Priscilla and the minister kissed her, too. Miss Yancey, to Priscilla's relief, departed immediately. The kindly Mrs. Barnes would not take "no" for an answer—they had to stay for dinner.

After dinner the minister called the local hotel and reserved a room and bath for them and, with hearty handshakes, Kenneth and Priscilla left.

Priscilla clutched Kenneth's arm as they followed the bellboy into a spacious bedroom. Two large windows overlooked the square. Kenneth pulled down the blinds, shutting out the last vestiges of the depressing darkness. Priscilla slipped into Kenneth's arms with a sigh of contentment.

"It's wonderful to be alone together at last, isn't it, Ken?"

"It's what I been waitin' for, for a long time, Babes."

"Before we forget it, honey," said Priscilla, "we must call the folks. You call my home and ask for Dad. I think I'd rather tell him than

be like this. It would have been so nice to have had you with us. I always wanted you to give me away, as you did Lorraine."

Priscilla told him where they were and promised to see him the next day when she came for her clothes. "I wish you could stay with us, honey, but I don't suppose it would work." Priscilla turned away from the telephone with a sigh. "Aren't you going to call your folks, Kenneth?"

"Not right now," said Kenneth. For a moment Priscilla's mind wandered back to the Emerald Valley of her childhood, but no longer with regret. She put her arm around Kenneth and snuggled close to him. The soft breath of an April night was in the air and the glow of happiness was in her heart.

(To be continued)

The American flag should be hoisted briskly and lowered ceremoniously.

The American flag should not be displayed on days when the weather is inclement.

NOTICE OF SALE

Under and by virtue of the authority of sale conferred in that certain deed of trust from W. Frank Peden and wife Katie Le na Peden of record in Book L-25, page having been made in the payments 263, Pitt County Registry, default therein secured, the undersigned will offer for sale, and sell to the highest bidder, for cash, before the court house door in Greenville, Pitt County, between the hours of 12:00 o'clock Noon, and 1:00 o'clock P. M., on Saturday, July 30, 1949, that certain real estate lying in the town of Falkland, Pitt County, North Carolina, to-wit:

Beginning at the west side of Highway No. 43, the corner of the land known as the old J. H. Smith land, and runs westwardly 100 feet along the line of the Smith land and the road connecting Highway No. 43 and Highway No. 227 to an iron stake; thence northwardly 80 feet to an iron stake; thence eastwardly and parallel with the first line 100 feet to Highway No. 43; thence southwardly along Highway No. 43, 80 feet to the beginning, the same land as conveyed to Frank Peden by Hugh C. Smith and wife Jennie B. Smith, by deed dated November 28, 1948.

A 10 per cent deposit will be required of the high bidder.

This the 26th day of June, 1949, A. D.

ARTHUR B. COREY, Trustee

July 7-14-21-28.

NOTICE OF COMMISSIONER'S SALE OF REAL ESTATE

Under and by virtue of the power and authority conferred upon the undersigned Commissioner by an order of sale duly signed and entered by Honorable H. L. Lewis, Jr., Assistant Clerk of the Superior Court of Pitt County on the 6th day of July, 1949, in a certain Special Proceeding entitled "James A. Cox, Individually and as Administrator of the Estate of Elizabeth Smith, deceased, Vs. Susan M. Webb et al.," and being S. P. No. 5157 on the docket of said Superior Court, the undersigned commissioner will, on Monday, the 8th day of August, 1949, at 12 o'clock Noon, at the courthouse door in Greenville, N. C., expose to public sale to the highest bidder for cash, the following described real estate:

First parcel: That certain lot or parcel of land situate, lying and being in the City of Greenville, N. C., and beginning at a point 132 feet from the north-east corner of the intersection of Thirteenth and Cotanche Streets, and running parallel with Thirteenth Street 61 feet; thence a northerly course parallel with Reid Street 207 feet; thence a westerly course parallel with Twelfth Street 61 feet; thence a southerly course parallel with Cotanche Street 207 feet to the beginning, and being the same lot conveyed to Elizabeth Smith et al. by A. M. Moseley et al. by deed dated August 23, 1914, and recorded in Book B-11 at page 327 of the Pitt County Registry.

Second parcel: That certain lot or parcel of land situate, lying and being in the City of Greenville, N. C., and beginning 66 feet from the north-east intersection of Cotanche Street and Thirteenth Street, thence running in a northerly direction with the line of Cleve Williams 110 feet, cornering; thence an easterly direction 66 feet, cornering; thence a southerly course 110 feet to 12th Street; thence a westerly course with the northern edge of 13th Street to the beginning, and being the same lot conveyed to Elizabeth Smith by J. E. Savage by deed dated August 6, 1922, and recorded in Book B-14 at page 556 of the Pitt County Registry.

The successful bidder will be required to make a cash deposit of 10 per cent of his bid with the commissioner, as a good faith bid, at the time of the sale. These lots will be offered separately and then as a whole.

This the 6th day of July, 1949.

R. B. LEE, Commissioner.

July 7-14-21-28.

Moscow's Cold War Target Is Apparently Changing To Japan

By EDWARD E. DOMAS
Washington, July 14 (AP) — Moscow appears to be changing cold war tactics by concentrating the fire on American actions in Japan rather than Germany.

Meeting Friday For Cucumber Growers In Area

Mark H. Smith, master of the Ballards Grange, said today there will be a meeting Friday night of cucumber growers of Pitt, Greene and Wilson counties who produced cucumbers this season under contract of the T. G. Basnight company.

Joe Gurley of the marketing division of the state department of agriculture will be at the court house at 8 o'clock to discuss with the farmers the closing of the cucumber market approximately two weeks ahead of the contract date affecting some 500 growers in this area.

In a letter to the growers affected by contracts with the Basnight company, Smith stated: "The closing of the cucumber market, some two weeks ahead of contract date affecting around 500 growers and involving thousands of dollars loss to growers, needs some explanation."

"Cucumber growers have been bewildered as to what has happened in justice to you, and to the future of the cucumber industry in this area, we have invited a North Carolina State Department of Agriculture representative, and the executor of the T. G. Basnight and company contract to meet with you Friday night at 8 o'clock in the court room of the Pitt county court house."

McCoey did not say so but other American officials have contended that the signals for Japanese labor disorders come from Moscow. They say these demonstrations are actually staged by Japanese communists including recently released prisoners who received Soviet schooling during a four year captivity in Siberia.

Group Returns From Brief Tour In North

Mrs. Fred Langford, Pitt county Home Demonstration agent and twelve teachers from Pitt county recently returned from a seven day tour of Hyde Park, West Point New York City and Atlantic City New Jersey.

Making the trip were Mesdames James Allen, Herman Tucker, Bruce Cozart, Johnnie R. Hardee, D. M. Nobles, Jr., J. Leon Barnhill, Willie G. Whitehurst, E. O. Smith, Simon B. Tucker, Alton Chapman, Leon Tyson, Miss Pattie Jenkins and Mrs. Fred Langford.

Education Board Sets Pay Scales

Raleigh, N. C., July 14 (AP) — The State Board of Education today approved an overall increase of 28.17 per cent in teachers' pay for next year.

The new salary schedules, board controller Paul A. Reid said, will increase the average teacher salary from \$1,945 to an estimated \$2,494.

For 1950-51, he added, the average will climb to an estimated \$2,511.

Salary scales set by the Board in working out its budget for the next school year included:

Class A—certificate teachers—\$2,081 for beginners up to \$2,745 for those with 11 years' experience.

Graduate—certificate teachers—\$2,322 for those with two years' experience up to \$3,069 for those with 12 years' experience.

The old scale for A—certificate teachers was \$1,620 to \$2,160 and for graduate teachers, \$1,827 to \$2,412.

Tenant Farmer Prevents Saving House In Flames

Pine Hall, N.C., July 14 (AP) — This is the melodramatic picture Deputy Sheriff Henry Dunlap gives of a fire which yesterday destroyed the oldest house in Stokes County.

The tenant, farmer Harvey Sneed, 43, stood in the doorway and threatened to kill two neighbors if they tried to put out the flames. Sneed told the neighbors—Lawrence H. Robbins and Ernest Orr—"I put 18 sticks of dynamite in the house. They may explode any minute."

But there was no explosion, and Sneed's wife and three children got out safely. They saved only the clothing on their back.

Sneed was charged with arson and assault and held without bond in the Stokes County jail at Danbury.

Call For Bids On Road Equipment

Raleigh, July 14 (AP) — North Carolina took another step toward realizing its \$200,000,000 rural road building program by issuing a call yesterday for bids on heavy-duty road building equipment.

It was estimated that the bids on 12 types of machinery, will total around \$4,000,000. The State Highway Commission has estimated that \$5,000,000 would be needed for this phase of the road building program.

Critics . . .

(Continued from page one) sure a balanced budget. Sparkman declared, "I am not willing to anticipate a depression and encourage deficit spending."

Republicans let loose with hot-ter criticism. Said House Minority Leader Martin of Massachusetts: "If cutting taxes last year was such an awful blunder, I don't know why the President isn't standing by his original request for a \$4,000,000,000 tax increase."

Senator Millikin (R-Colo.), who steered the GOP-sponsored tax re-

duction through the Senate last year, remarked: "The President does not now understand the value of the tax cut any more than he did at the time it was enacted over his veto. The tax reduction put \$5,000,000,000 into the hands of most people for their own spending—the most dynamic spending of all."

But one Republican who voted for the tax reduction said he now regards it as "a mistake—one of the very few the 80th Congress made."

Senator Flanders of Vermont, noting Mr. Truman's criticism of the cut, remarked: "He's got us there all right. I voted for it, knew I was doing wrong at the time, and have regretted it ever since."

Court Orders Cafe To Be 'Padlocked'

At a hearing before Judge J. Paul Frizzelle in Snow Hill several days ago, "The Joint," cafe operated by "Snap" Darden, Negro, in Winterville, was ordered padlocked as a public nuisance.

Judge Frizzelle last Saturday continued the restraining order until the case can be heard by a jury in Superior Court.

It's Up To . . .

(Continued from page one) other benefits. The workers threatened to strike. This would mean more unemployment at once. And, if it lasted long, it would be a severe jolt to the whole economy since so many businesses need steel.

To prevent a strike, Mr. Truman asked the CIO and the companies to keep on working while he set up a board of government fact-finders to look into both sides of the argument.

The CIO agreed. The biggest companies refused, telling Mr. Truman this was not a proper move for him to make. They said he should have acted under the Taft-Hartley labor law which includes steps to forbid the strike.

He told the companies: "Surely, you're not afraid to have your side in this dispute examined in the public interest."

A real fact-finding job would be an examination of the companies' ability to meet the workers' demands. If they reported the companies could do it, this would put strong public pressure on them to give in to what the steelworkers wanted.

The Indonesian . . .

(Continued from page one) The United Nations stepped in and sent a commission to mediate. But the past four years are strewn with agreements made, broken, and followed by fighting.

Twice the Dutch have taken "police action" that bypassed U. N. sponsored truces. The last time, last December, most nations condemned their action, without saying what they would have done if they had been in the same spot.

Now, there's to be another try to iron things out, and if it works the new plan will start working by next year.

The correspondents on that ill-fated plane had been taken by the Dutch to look the situation over. One report says they had become convinced that the Indonesians are not ready for self government and that chaos will follow.

Governor Urges Work Speed-Up

Raleigh, N. C., July 14 (AP) — Governor Scott told the state's five utility commissioners yesterday to hasten the progress of getting telephones and electric service into rural areas.

"Put a little more speed behind your work," Scott said he told the commissioners during a 30-minute afternoon conference in his office.

Scott said he thought it was time "to get going on putting phones and electricity out in the country."

Miners Idle As Arrest Protest

Bessemer, Ala., July 14 (AP) — Four thousand coal miners were idle yesterday, apparently in protest of 10 arrests that followed a mine employee's complaint of being beaten.

Thomas A. Warnell, 30, told sheriff's deputies he was beaten and kicked by a mob of 50 men Friday night for not observing a three-day work week.

He is employed in a maintenance job at the Short Creek mine of Tennessee Coal, Iron and Railroad Co.

Hog Market

Raleigh, July 14 (AP) — (NCDA) —Hogs slightly stronger; tops of \$21.50 at Greenville, Wilson, Goldsboro, Washington, Tarboro, Kinston, Rocky Mount; Richmond slightly stronger at \$21.75.

N.Y. Cotton

New York, July 14 (AP) — Cotton futures opened 30 cents a bale higher to 10 cents lower today.

Noon prices were 10 to 45 cents a bale higher than the previous close. Oct. 29.67, Dec. 29.52 and March 29.45.

Increase profit taking and hedging caused prices to recede in late dealing with nearby deliveries dipping below the previous close.

Futures closed \$1.25 a bale higher to 15 cents lower than the previous close.

Oct. 29.65 29.61 29.64
Dec. 29.50 29.49 29.50
March 29.40 29.41 29.42
May 29.28 29.30 29.27
July 28.75 28.75 28.72

Middling spot 33.25, off 15.

Smokey Says:

Poultry and Eggs

Raleigh, July 14 (AP) — (NCDA) —Fryers and broiler steady, mostly 27, few 28; eggs steady, A large 54.

Grain Market

Chicago, July 14 (AP) — A late selling flurry sent grains lower today after the market had spent most of the day barely moving.

The selling, concentrated in the last 15 minutes of dealing, started in soybeans. They lost several cents. Action of this commodity caused weakness to spread into other pits. Corn showed resistance to the decline.

Wheat closed 1/4-1/2 lower, July 01.99-1.00, corn was 1/4 lower to 1/2 higher, July 01.39-1/4, oats were 1/4-1/2 lower, July 01.46-1/2, rye was 1 to 1 1/2 lower, July 01.46-1/2, soybeans were 1/4-1/2 lower, July 02.53-2.52 1/2 and active lard futures were unchanged to 3 cents lower, September \$10.82.

N.Y. Stock Market

New York, July 14 (AP) — Demand for steel stocks persisted today despite the strike threat hovering over the industry.

Leading steel shares—with the prime exception of U. S. Steel Corp.—advanced fractions to around a point in fairly active trading.

The balance of the market tended higher but gains for the most part were restricted to fractions. Turnover for the day was at the rate of around \$1,100,000 shares for the full session.
