REVEALS ATOMIC EXPLOSION IN USSR

Steel Pact Talk Resuming Today

Strike Clouds Lightened, At Least For A Few Days, By Agreement Of Big Steel And Union To Renew Negotiations This Afternoon; Wildcat Walkouts

Pittsburgh, Sept. 23—(AP)—Agreement of Big Steel and the CIO United Steelworkers to renew contract talks today lightened at least momentarily the strike clouds hovering over the industry since July.

Union Chief Philip Murray and Vice President John A. Stephens of U. S. Steel Corporation arranged a hotel conference at 1:30 p.m. Eastern Standard Time to resume negotiations under a third presidential strike truce.

Murray had proposed a 9:30 a.m. session but shortly before that hour came announcement both sides had agreed on the afternoon date.

Contract negotiators have one week in which to thrash out pension and insurance difficulties that three times have brought the nation to the brink of a paralyzing steel strike.

Talks with U. S. Steel are expected to set the pattern of the conferences with other steel producers.

The union usually determine the course taken by the entire industry.

The union also arranged for new conferences with Crucible Steel Company, Allegheny-Ludlum Steel Corporation, Sharon Steel Corporation, Shenango-Penn Mould; Jones and Laughlin Steel Corporation; Youngstown Sheet and Tube Co. at Youngstown, O.; Rustless Steel Company, at Baltimore; and Republic Steel Company at Cleveland.

The million member steel union has delayed its strike deadline from Saturday midnight to 12:01 a.m. (EST) October 1.

That was in response to a plea by President Truman to extend the steel truce six more days.

The steelworkers union, which set the time and place of the "Big Steel" talks, also told 52 other steel companies it is ready to negotiate.

The basis for the talks will be the recommendations of President Truman's steel fact finding board.

The board voted a wage increase but recommended a company paid pension and insurance program equal to 10 cents hourly per worker.

The steelworkers accepted the board's recommendations and insisted that steel companies do likewise as a condition of further bargaining.

U. S. Steel balked at accepting the recommendations without bargaining. The firm particularly objected to pensions and insanity.

That began a week of feuding by telegram between "Big Steel" President Benjamin F. Fairless and Steelworker President Philip Murray.

TRUMAN TO VISIT POST Washington, Sept. 23—(AP)—President Truman will fly to Fort Bragg, N. C., Oct. 4 to review troops and witness parachute maneuvers of the 82nd Airborne Division.

Madame Sun Yat-Sen

Her Sensational Appearance At Creation Of Communist 'Peoples Republic Of China' In Peiping; Background; Both Sides Claim Principles Of Dr. Sun Yat-sen

By DeWITT MacKENZIE

One of the most sensational political developments of the whole Chinese civil war is the appearance of Madame Sun Yat-Sen as an honored figure at the creation of the Communist "People's Republic of China" in the old capital of Peiping.

Madame Sun is widow of Dr. Sun Yat-Sen, father of the Republic. She also is sister-in-law of Generalissimo Chiang Kai-Shek who is leading the Nationalist forces in the life and death struggle against the Communists.

Farm Bureau Off To Fast Start In Signing Members

Drive Leaders In Six Townships Already Have 1,000 Signed Up In Drive

Membership drive leaders in six Pitt County townships have signed up some 1,000 farmers in the county's campaign to exceed its 3200 membership Farm Bureau goal.

Chairman Arch J. Flanagan reported today.

But the chairman warned that the early burst of enthusiasm was not alone enough to warrant the leaders and farmers to slacken their efforts in the campaign.

"We're going to reach that goal alright," Flanagan said today. "We're going to exceed the 3400 mark if we can, but it will take the all-out efforts of everyone connected with the program."

Flanagan is currently in the midst of a program to organize the membership drive in each township. At least six communities have already been organized and are conducting an enthusiastic campaign for the Farm Bureau.

The drive is expected to get in full swing next week when all the communities complete mapping their campaign program.

The Farm Bureau here boasted 2974 members last year. The minimum goal for this year is 3200. Pitt Bureau President W. A. Allen, in a statement this morning, urged all the farmers, farm leaders and farm businesses in the county to get behind Chairman Flanagan in the drive.

Allen cited the necessity of the farmers to get behind the Farm Bureau to assure Pitt County of getting its share of the National Farm Income.

Chairman Flanagan pointed out this morning that 7827 farmers voted in the tobacco quotas referendum. Only 2976 joined the Farm Bureau last year. He expressed amazement in the fact that "only 38 per cent were willing to pay, to hold and to maintain a program which so vitally affects his own livelihood and a higher standard of living for his family."

County Agent S. C. Winchester whose cooperation is playing a big part in the early successfulness of the membership campaign, reported that there are 6400 farm families in the county. The Farm Bureau drive has been enthusiastically endorsed by the county agent.

High Tides For Louisiana Coast

Miami, Fla., Sept. 23—(AP)—A squall area in the western Gulf of Mexico today brought a threat of high tides to the Louisiana coast.

Scattered squalls with winds up to 50 miles per hour were reported in the area and the Weather Bureau said "continued caution is advised as this disturbance may still increase in intensity."

Tides along the Louisiana coast will be "considerably above normal," the Bureau warned.

Baruch Agrees On Atomic Curbs

New York, Sept. 23—(AP)—Bernard Baruch said today he agreed with President Truman that Russia's reported development of an atomic bomb emphasized the need for rigid international control of atomic energy.

Baruch, one of the nation's "elder statesmen," formerly represented the U. S. on the United Nations atomic energy commission.

"I agree completely with the President," Baruch said in a statement, adding that he believed the "President has never wavered in his attitude toward international control of atomic energy."

Another Week In Tax Fraud Trial

Greensboro, N. C., Sept. 23—(AP)—The trial of J. D. Parker Eagle Springs wine manufacturer charged with tax evasion, was expected today to consume another week.

Defense counsel continued cross examination of government witnesses yesterday as the trial neared the end of its second week in federal district court here.

Waiting Was Just Too Much

Waiting for the tobacco auctioneer to sell his pile of tobacco at the Victory warehouse was just too much for four-year-old Clayton James, Jr., of Greenville R. F. D. 1, so he decided to take a nap until the buyers got around to his tobacco. When the buyers woke him up to buy the pile of leaf on which he was sleeping, young James moved to another row and a more comfortable pile of tobacco and finished his nap. Clayton, Jr., lives near Falkland with his parents, Mr. and Mrs. Clayton James. (Daily Reflector photo).

Confer Monday On Utilities Expansion

Commission Members To Meet With REA Engineers For Talks On Proposed Program Affecting Rural Areas

Members of the Greenville Utilities commission are scheduled to meet with engineers of the Rural Electrification Administration Monday night to discuss the expansion of electric facilities in the rural territory now served by the Greenville utilities.

Martin M. Swartz, superintendent of the local utilities, said today surveys and maps of the territory served by the Greenville utilities have been completed, and the commission is now ready to prepare the data to be sent to Washington for approval by the REA.

The survey of the local utilities territory shows nearly 3,000 homes in the area which are not connected with electric power lines. Swartz said, and if the expansion program proposed by the local commission receives REA approval, electric service will be made available to these homes.

Already on file in the office of the Greenville utilities commission, Swartz said, are applications from approximately 1,200 people in rural areas who have asked to be connected with the Greenville power lines as soon as facilities are available.

Livingood—a lifelong miner who had been receiving \$100 a month welfare payments until the fund recently suspended operations due to lack of money—charged that the fund never has been audited, although the contracts setting it up required such action annually.

He asked the court to require an accounting from the trustees, who he said were using their positions "as a means of wielding political power."

Report U. S. To Send Russia Oil Field Machinery

New York, Sept. 23—(AP)—The New York Times said today that the United States, through the department of commerce has approved the immediate export to Soviet Russia of \$500,000 worth of oil field machinery.

This action, the newspaper said, constituted the first tangible evidence that the "cold" war in trade between the two countries is abating.

Oil field machinery is No. 1 on Russia's priority list of goods wanted from the U. S. but its export has been prohibited since this country slapped a ban on shipments of "war potential" industrial goods to the Soviet in March, 1948.

Commenting on the average price paid on the Greenville market yesterday, Whedbee said, "This \$53.34 is not the average for second, third and fourth pullings, or any other selected hand-picked, average, but it is the average for every pound of tobacco sold on every one of Greenville's 17 warehouses including green, trash, common, damaged and nondescript tobacco; and it agrees with the government figures found for pound and dollar for dollar."

Sales on the local market continued heavy this week with company purchases ranging as high as \$99 per hundred pounds for the top quality leaf. Many growers averaged over \$65 for their sales, Whedbee said.

The latest average for the entire eastern belt released by government reports was \$50.54 for the sales in the belt on September 21 when 7,322,893 pounds of tobacco was sold. The total sales for the entire belt through September 21 reached 251,595,419, the government report said.

Jury Acquits Vaughan Cannon In Short Order

Asheville, N. C., Sept. 23—(AP)—A Superior Court jury acquitted Vaughan Cannon today on a charge of assault upon Asheville's Police court prosecutor.

The verdict drew applause from spectators in the crowded courtroom. The jury took the case at 10:05 a. m., and turned its verdict at 10:34 a. m.

The alleged "kingpin" of local gambling circles took the stand yesterday to relate his own version of the altercation at an Asheville roadhouse last August 14 out of which the charges grew.

He was charged with assaulting Solicitor Will C. Hampton in a free-

President Sees Probability Of A-Bomb Development

Senators Approve Arms Aid Program

'No Surprise' Durham, N. C., Sept. 23—(AP)—Duke University nuclear physicists expressed "no surprise" at President Truman's announcement today that "within recent weeks an atomic explosion has occurred" in Russia.

Dr. Walter M. Nielsen, chairman of the Duke physics department and consultant to the Oak Ridge National Laboratories, and Dr. Henry W. Newson, who has spent the past eight years studying atomic energy at Los Alamos, Oak Ridge and the University of Chicago, asked for their reaction, said:

"It has been four years now since the United States announced its atomic discovery, and most informed persons had guessed that it would take five years for Russia to develop the atomic bomb."

However, Dr. Newson said he was "disappointed" because he thought "it was a little early."

Decision Reached Late Yesterday With 55-24 Vote To Re-arm Friendly Nations After Beating Down Two Moves To Slash Funds

Washington, Sept. 23—(AP)—The administration chalked up an important victory in foreign policy today on the strength of the Senate's 55 to 24 approval of an overseas arms program.

The Senate reached its decision late yesterday to rearm friendly nations after beating down two moves to make a \$200,000,000 cut in the \$1,314,010,000 arms bill.

The measure came through the Senate with only two minor changes. This was in part a personal triumph for Senator Connally (D-Ter) and Senator Vandenberg (R-Mich), the two party leaders in foreign affairs who led the fight for the air program.

Nineteen Republicans joined 36 Democrats in voting for passage. Ten Democrats and 14 Republicans voted against it.

Connally told reporters: "As chairman of the Senate Foreign Relations Committee, I am highly gratified at passage of the program and delighted over the defeat of the crippling and enfeebling amendments."

In the debate, Senator Taft (R-Ohio) contended that the program contemplates arming every nation in the world that might be opposed to Russia. This, he said, "is likely to incite Russia to war."

But Vandenberg argued that the goal is "stopping aggression before it reaches us." Had the foreign aid program to date been less successful than it had been, he said, "we probably would be voting billions" to fight a defensive war.

The Senate's vote pledged Congress to a foreign arms program since the House already has approved a similar military aid bill. The amount of money to be authorized remains in doubt.

The House voted \$89,505,000 to carry out the arms plan—which is \$444,505,000 less than the Senate figure. Senate and House members will work out their differences in conference.

The biggest surprise in the Senate voting was the administration's strength in defeating an economy move which had worried Senate leaders. The decisive vote was 46 to 32 against an amendment by Senator George (D-Ga) to trim \$200,000,000 off the \$1,000,000,000 set aside in the arms aid program for Western Europe.

Local Leaf Market Kept High Average Yesterday

Prices on the Greenville tobacco market continued strong yesterday as the day's sales averaged \$53.34 for the 1,426,890 pounds of leaf sold in Greenville.

Sales Supervisor W. L. Whedbee said the 17 Greenville warehouses yesterday paid out to growers \$760,979.69 for tobacco sold on the local market.

"Through today's sales," he stated this morning, "the Greenville market will be over the 35 million mark for the pounds of tobacco sold this season."

Commenting on the average price paid on the Greenville market yesterday, Whedbee said, "This \$53.34 is not the average for second, third and fourth pullings, or any other selected hand-picked, average, but it is the average for every pound of tobacco sold on every one of Greenville's 17 warehouses including green, trash, common, damaged and nondescript tobacco; and it agrees with the government figures found for pound and dollar for dollar."

Fire Captain Is Getting Too Big

Rocky Mount, Sept. 23—(AP)—Firemen at Rocky Mount's Fire House No. 1 were caught in a dilemma today—or at least their captain was. Only instead of a dilemma it was the emergency hole bearing the traditional exit slide pole that caught him.

Some members of the department had been gazing apprehensively at Captain Vann Neal's expanding girth. Their worst fears were realized when an alarm sounded.

Firemen sallied down the pole and mounted their trucks—but no Captain Neal. A hurried search disclosed that he had become wedged in the hole which encases the pole.

TRIAL IN 36TH WEEK New York, Sept. 23—(AP)—The government and defense rested today in the conspiracy trial against 11 top members of the Communist party in the United States. The trial is in its 36th week.

Cabinet Informed Today That Evidence Of Atomic Explosion Occurred In Russia Within Recent Weeks; President Declares Development Emphasizes Need For Effective Atomic Control

Washington, Sept. 23—(AP)—The United States has evidence of a recent atomic explosion in Russia—news indicating the Communists at long last have learned to make an A-bomb.

President Truman disclosed this in a statement today. He then held an hour-long session with his cabinet about it.

Mr. Truman said the development emphasizes the necessity for "truly effective, enforceable international control of atomic energy."

The United States has sought that through the United Nations, but has been unable to get together with Russia on how it should be carried out.

London, Sept. 23—(AP)—A spokesman said today the British government, as well as the United States, has evidence of an atomic explosion in Russia and will issue a statement on the matter soon.

With a note of reassurance to the American people, the President said the probability that some other nation might develop an atomic bomb "has always been taken into account by us."

See No Increase In War Dangers

Six Big Points By Responsible U. S. Authorities

Washington, Sept. 23—(AP)—Here are some reasons why responsible administration officials believe Russia's atomic explosion does not increase the threat of war:

1. The United States got a four year head start on the bomb and has been perfecting and stockpiling atomic weapons at a maximum rate.

2. The Soviet explosion does not necessarily mean that the Russians have materials to make another bomb immediately. It is more likely that they would have tested the first one they made out of the first materials they manufactured.

3. The military effectiveness of an A-bomb depends not only on its own power but on the ability of the country using it to deliver it to the target.

4. The bomb probably would not be used by the Russians, or any other people, unless they felt reasonably safe from retaliation. That has been the world's recent experience with poison gas.

5. Possession of the bomb does not end other weaknesses. No sensible government in the world would use the bomb to start a war without being convinced of its own total strength to win the war.

6. The question of whether Russia wants a great war with the West, now or in the future, must be answered not by the existence of one weapon but in terms of Russia's whole approach to world affairs.

Ideologically, the Russians believe that sooner or later the Western powers will fall out and destroy themselves and that Russia can then move in to pick up the pieces.

First Hesitant Step

Before Long, Congress Is Going To Make A Step Toward World Government; Hope For Stronger United Nations; A One-Sentence Resolution and Implications

By DOUGLAS D. CORNELL

Washington, Sept. 23—(AP)—Before long Congress may take what some members consider the first hesitant step toward a world government.

Of course it will be a long time before nations band together in any sort of international United States. Maybe they never will.

But many Congressmen, and many other people who want this world to be a peaceful one, think that eventually a single world government must be established, strong enough to settle any disputes that might cause war. Maybe, they say, the United Nations could be strengthened enough to do the job.

To get the ball rolling at least, more than 100 House members and 19 Senators have introduced or given their support to a resolution. And now the House Foreign Affairs committee is planning some hearings on this resolution.

"That," says Rep. Mansfield (D-Mont) a member of the committee, "will be a step in the direction of a world government."

Should the Senate and House adopt the one-sentence resolution, it would put Congress on record as saying:

Quickly after the White House announcement came word from the British government in London that it also has evidence of an atomic explosion in Russia. A British statement was promised later.

In Washington, the word swept swiftly around government departments and through Congress.

At the Pentagon—headquarters of the military services—there were signs of some excitement, but no officials would discuss the matter.

A spokesman for the Atomic Energy Commission, in reply to queries, said: "We have nothing to say."

Reporters pressed Secretary of Defense Johnson for more information when he left the cabinet meeting.

"Have we made any change in the disposition of our forces since this happened?" a reporter asked.

"No," Johnson replied. "Does the cabinet know any more about this than it contained in the President's statement?"

"The cabinet knows all about it," Johnson said. "It was fully informed."

"Do you have reason to believe this was the first atomic explosion in Russia?" Johnson was asked. He smiled, shook his head, and refused to answer.

At the Capitol, Senator McMahon (D-Conn.), chairman of the joint congressional committee on atomic energy, after a meeting of the committee, said: "I am closed doors."

In a Senate speech yesterday, McMahon said that if Russia had the atomic bomb she could send the bombs to American ports on tramp steamers and blow up 35,000,000 people.

There was no official hint as to how the United States obtained its evidence of the atomic explosion in Russia.

But it is known that American scientists have been ready with delicate instruments for months to record an atomic explosion anywhere in the world.

The cabinet meeting lasted more than an hour.

The President's disclosure came at a time that British, Canadian and American experts are discussing problems of atomic interchange of atomic information and the supply of uranium available to them.

Uranium is the key element in making atomic bombs.

The most recent official estimate of when Russia might be able to produce atomic weapons came from President Truman's Air Policy Commission.

That group, headed by Thomas K. Finletter, reported on Dec. 30, 1947, "It would be safe to assume x x x that possibly hostile powers will not be producing atomic weapons in substantial quantities before the end of 1952."

The commission added: "We point out that this does not assume that such powers may not have a few atomic weapons prior to that date."

Last March 23 Dr. David Bradley, atomic medical scientist, said Russia not only has the atomic bomb secret but "may already be manufacturing atomic weapons."

Bradley, author of the book "No Place To Hide," a report on the 1948 Bikini atomic tests, said the belief that the United States has a monopoly of atomic knowledge is one of the "four fatal delusions" which leave Americans unready for a possible atomic war.

"It should be a fundamental objective of the Foreign Policy of the United States to support and strengthen the United Nations and to seek its development into a world federation open to all nations with defined and limited powers adequate to preserve peace and prevent aggression through the enactment, interpretation and enforcement of world law."

What does that mean? What would it lead to?

Mansfield and Rep. Walter Judd (R-Minn) another member of the Foreign Affairs committee, think it might result in an international conference to change the charter under which U. N. operates.

Russia and the countries that trail along with her might refuse to cooperate. But nations might join together in a sort of enlarged version of the North Atlantic Alliance that would be powerful enough to insist on peace among all countries including Russia.

Judd and Mansfield agree that there must be an international police force and international court. They agree no nation should have... (Continued on page ten)

# Social and Personal

All items for this page must be received by 10 A. M. will be published the following day. Dial 6114 to Room 1 to 4:30 P. M.

Mrs. H. H. Wesley of Washington, N.C., visited her sister, Mrs. M. H. Fogelman, last week.

Miss Corinna Mil of Raleigh was the guest of Miss Estelle Brown.

Lee Folger III left Wednesday to enter Woodberry Forest School, Woodberry, Va.

Mac Batchelor has returned to Duke University to begin his senior year.

Mrs. Jack E. Berard, who has been visiting her parents, Mr. and Mrs. J. C. Youngblood, left yesterday for New York City. Mrs. Berard is the former Miss Kathryn Youngblood of this city.

Miss Mary Rose Crisp has returned to Sweet Briar College, Sweet Briar, Va.

Mr. and Mrs. Marion H. Gibson and son, Marvin, Jr., of Gibson, are spending the week end with Mrs. Gibson's mother, Mrs. A. E. Hobbard.

Carlton Taylor left Wednesday for Chapel Hill to continue his studies at the University of North Carolina.

Miss Frances M. Tucker has returned to Salem College, Winston-Salem, N. C.

Mr. William McGee Tucker will arrive this afternoon from Chicago to spend a few days with his parents, Mr. and Mrs. Durwood Tucker, 707 W. 4th street. He will have as his house guest Mr. Steve Sudar of Chicago.

Miss Janice Owens left Wednesday for Durham where she will enter Duke University to resume her studies. She is a member of the sophomore class. She was accompanied by her mother, Mrs. W. F. Owens and Mrs. John Gardner of Philadelphia, Pa.

Frank Dismar, Jr. has returned to State College in Raleigh.

Tommy Dismar has returned to the University of Virginia, Charlottesville, to resume his studies.

Friends of Mrs. H. S. Moore will regret to know that she is a patient in Pitt General hospital.

Mrs. Fred Waller, of Raleigh and Mrs. Bonner Guthrie and Mrs. Lee Long, of Morehead City are here to visit their mother, Mrs. H. S. Moore.

Mrs. W. A. Eilers has returned to her home, 1415 Broad street, from Pitt General hospital.

## 40 Years Ago Today

THE DAILY REFLECTOR  
September 23, 1909

It will be a source of gratification to the entire community to learn that definite arrangements have been made for the presentation here during this season of some of the best attractions now appearing on the lyceum circuits in the large cities. The End of the Century Book club has taken charge of the arrangements and with the assistance of all the town people, hope to make the entertainments a grand success.

**Birth Announcement**  
Mr. and Mrs. W. F. Clark announce the birth of a daughter, Elizabeth L., at Pitt General hospital, September 22.

**Wesley Philathea Class**  
Wesley Philathea class of the Methodist church meets Monday night at 8 o'clock with Mrs. V. P. Scoville.

**Christian Church Announcements**  
The Sunday School of the Christian Church will promote the boys and girls of all departments Sunday morning. Every boy and girl will pass to one grade higher. Promotion certificates will be given to those present who pass from one department to another department. The parents of all children are urged to cooperate with the Sunday School staff of officers and teachers to make this a significant day. The school will also observe Sunday, October 2, as Rally Day and all pupils are requested to be present to meet the new teachers and to get the new assignment of rooms. On this day the Protestant people around the world will be observing World Communion Sunday and every member of the church will want to be present to renew his Christian vows.

At the service this Sunday morning at 11 o'clock Mrs. Herbert Carter will sing as solo "How Lovely Are Thy Dwellings" by Liddle and the pastor has announced to preach on the theme "The Magic Power of Friendship."

Miss Louise Morris of Kinston who is now in her senior year at Atlantic Christian College will be present each Sunday for the next few months to work with the young people of the Sunday School and the college and she will meet this Sunday evening at 8:30 with the Christian Youth Fellowship group. Young people between the ages 12 and 19 are invited.

## SOCIAL CALENDAR

**FRIDAY**  
6:30 p. m.—Kiwanis Club.  
7:15 p. m.—Exchange Club meets in the Proctor Hotel.  
8:00 p. m.—Rehearsal for Danford-Oakley wedding at the Pentecostal Holiness Church.  
9:30 p. m.—Mr. and Mrs. H. L. Andrews, Sr., and Mr. and Mrs. H. L. Andrews, Jr., will entertain the Danford-Oakley wedding party and out-of-town guests at a cake-cutting.

**SATURDAY**  
11:30 a. m.—Mr. and Mrs. Jeter S. Oakley will entertain the Danford-Oakley wedding party at a wedding breakfast at the Woman's Club.  
4:30 p. m.—The wedding of Miss Martha Kate Oakley and Mr. James Edward Danford will take place in the Pentecostal Holiness Church.  
5:15 p. m.—Misses Rosa, Novella and Bruce Exum will entertain at a reception at their home on South Washington street honoring the Danford-Oakley wedding party.  
7:30 p. m.—Mr. and Mrs. John Saleed, Sr., entertains the Wade-Saleed wedding party and out-of-town guests at a buffet supper at their home on West Fourth Street.  
7:45 a. m.—Credit Women's Breakfast club meets at Olds Towne Inn.  
9:00 p. m.—Rehearsal at St. Peter's Catholic Church for the Wade-Saleed wedding.

Scholarship**

And to welcome to Greenville each member of the  
Faculty and Student Body.

We invite you to make our store your meeting place.

## Labor Govm't To Stake Life On Confidence Vote

London, Sept. 23—(AP)—The Labor government decided today to stake its life on a vote of confidence in the House of Commons.  
Parliament meets in special session Tuesday for a three-day debate on the cheapening of the pound.  
A source close to the cabinet disclosed the decision by the government to force a vote of confidence. If the government loses, it must resign. That would mean a new general election immediately.  
Because of the labor party's top-heavy majority in Commons such a setback is unlikely.  
Labor had 393 of the 640 seats in the House of Commons, the conservatives, 189. The remainder are held by Liberals and Splinter parties.

## Homecoming

Members of East Carolina Teachers' College Alumni Association receiving invitations to attend exercises at the college on "Homecoming Day," Saturday, October 8, are requested to promptly return the accompanying reservation blank for the special luncheon. All reservations must be made by Oct. 1. Plates are a dollar each.

## Birth Announcement

Mr. and Mrs. Russell Beddard, of Winterville and Roanoke Rapids, announce the birth of a son, James Russell, Jr., September 23 at Dr. Mumford's Clinic. Mrs. Beddard was the former Jane Branch, of Winterville.

## Mrs. Berard Hired At Surprise Tea

Mrs. J. A. Harper, Jr., of Rocky Mount and Miss Joyce Corbette were hostesses at a surprise going away tea and miscellaneous shower, Tuesday afternoon at the home of Mrs. Harper's mother, Mrs. W. J. Bundy, to honor Mrs. Jack Berard, the former Miss Kathryn Youngblood, who left Wednesday for New York to make her home following a visit here with her parents, Mr. and Mrs. J. C. Youngblood.

The tea table was covered with an Italian cut work cloth and centered with a bowl of yellow dahlias. Yellow candles in candelabra flanked the centerpiece.  
Mrs. Youngblood, assisted by Mrs. R. E. Corbette, Jr., and Miss Jean Parker, of Elizabeth City, a student at E. C. T. C., served limo, party sandwiches, cakes, mints and nuts. Miss Jacqueline Sears rendered soft music during the afternoon.  
About 30 friends of Mrs. Berard called during the tea hour.

## Bookmobile Schedule

For Monday  
Conner's Cross Roads—9:15-9:30  
Worthington's Cross Roads—9:45-10:00  
Winterville School—10:15-12:15  
Renston Cross Roads—12:45-1:00  
Mrs. C. W. Bright—1:15-1:30  
Winterville Public Library—1:45-2:30  
Manning's Service Station—2:45-3:00

James Buchanan was the only bachelor to become president of the United States.

COMMANDER—James G. Walsh (above), of Cambridge, Mass., was elected National Commander of the Army and Navy Legion of Valor at 89th annual reunion in Asbury Park, N. J.

They're the wispiest, sheepest, coolest figure-fashioners ever! And they're for slimmers of all ages. Have a 2 1/2-inch waist-band that simply can't roll over. You can wear them almost immediately after sunding—because they're quick-drying nylon. Panty has nylon crotch... and its 4 garters are detachable. Both panty and girdle come in crisp, cool white. At only \$3.95, you can afford several of each. And "Skippie" bras to match are priced from a mere \$1.50. Come and get yours today!

**ROCKETING INTO THE AIR**—A U. S. Navy P-2-V Neptune bomber takes off from the Worcester, Mass., Municipal Airport with its jets roaring during a demonstration by the Navy before 60,000 visitors to an air show.

### Plan Appeal For Rump Sale Issue

Rocky Mount, N.C., Sept. 23 (AP)—The fight over the "rump" tobacco sales issue is heading for the State Supreme Court.

Operators of 14 Rocky Mount warehouses have decided to appeal an order against them which Superior Court Judge J. Paul Prizzelle issued Tuesday at the request of the Bright Belt Warehouse Association. The decision to appeal was announced yesterday by Kemp D. Battle, attorney for the warehousemen.

The order restrains the warehousemen, for the rest of this selling season, from operating sales without an adequate set of buyers as defined by the association. The market here, until Wednesday, had operated an extra sale without such a set of buyers.

Simultaneously with discontinuance of the extra sale, the warehousemen announced they were withdrawing from the association.

### Sgt. J. T. Roebuck At Eglin Air Base

Eglin Air Force Base, Fla., Sept. 23—Sergeant James T. Roebuck, son of Mr. and Mrs. Thomas L. Roebuck of Greenville, N. C., has reported to Eglin Air Force Base, Auxiliary Field No. 2, Fla., where he will be stationed with the Tactical Air Force (Provisional). Sergeant Roebuck will work with the range of office of the Joint Operations Center.

As a member of the Tactical Air Force (Provisional), Sgt. Roebuck will be participating in Air Indoctrination Course II, a special exercise conducted by the U. S. Air Force in cooperation with the Army and Navy, to demonstrate to students of the various armed forces service schools and other observers the tactics and technique of air-ground operations. More than 200 planes, featuring jet types, and approximately 4000 men of the Air Force, Army, and Navy will participate in the exercise.

The last wild elk was killed in New York State over a hundred years ago. Wild turkey became extinct in the state at about the same time.

**DESIGN IN STAMPS**—Mrs. Virginia Woodin, of Arlington, Va., stands beside a large doll costume in cancelled stamps from her collection for a hobby show at Washington, D. C.

### Will Charge Mill Refused Bargain

Tarboro, N.C., Sept. 23 (AP)—The CIO-Textile Workers Union of America prepared today to bring charges of refusal to bargain against the strikebound Hart Cotton Mill.

Lewis M. Conn, TWUA state director, said the union would take its case to the National Labor Relations Board following a breakdown in negotiations yesterday. Federal labor mediators sat in with management and union representatives. The session ended without agreement on a new contract which the union seeks. The strike is now in its fifth month. An estimated 100 of the plant's 550 workers have returned to their jobs since the mill reopened last Friday. The reopening followed a court order prohibiting mass picketing. Sixty-eight workers face trial here next Monday on charges of violating the court order.

### Gene Talmadge Statue Will Be Unveiled Today

Atlanta, Sept. 23 (AP)—The statue of Eugene Talmadge, elected governor of Georgia four times, will be unveiled here today.

The bronze and stone memorial will be accepted by old Gene's son, the present governor, Herman Talmadge.

Picnic tables have been set up on the capitol lawn for the 6,000 visitors expected for the unveiling and speech-making.

The monument will be unveiled by Bobby and Eugene Talmadge, Gene's grandsons and Herman's sons.

The 22-foot memorial shows Talmadge standing in a ruffled coat, left hand jammed into his coat pocket and right hand outstretched. About 35,000 Georgians contributed to a fund to finance the statue.

**Strength  
 FOR THE DAY**

NOT BY REASON ALONE  
 Some people are afflicted with  
 religious doubt; others go through  
 their lives never questioning for a  
 moment the spiritual truths taught  
 them by their parents and teach-  
 ers. Probably the ideal state is  
 somewhere between these two  
 Doubt is not wrong, provided we  
 do not linger in it. When doubt  
 hardens into agnosticism or sour-  
 into unbelief, then a calamity of  
 major proportions has taken place.

But whether we are prone to  
 doubt much or little, let us be as-  
 sured that in the final analysis we  
 cannot explain all religious truths  
 on the basis of reason. If we try  
 to do so, we shall end with a pro-  
 found sense of bewilderment and  
 frustration. We shall get nowhere  
 but deeper into the quagmire. Reli-  
 gion may be tested by reason but  
 not by reason alone. Faith has to  
 come into the picture also, and not  
 only faith but good works.

A good rule for everyone to fol-  
 low is this: Act on the basis of  
 whatever faith you have, and you  
 will find that the mysteries of reli-  
 gion will cease to bother you. Be-  
 lieve as far as you can, but always  
 bear in mind that there is a limit  
 beyond which human reason cannot  
 go. If you think it can all be done  
 by reason, you are in for consider-  
 able disappointment.

**COLLEGE STUDENTS  
 ALSO AFFECTED**

An important feature not  
 to be overlooked in Tues-  
 day's public hearing on rent  
 control in Greenville is the  
 effect removal of rent con-  
 trol will have on off-campus  
 students at East Carolina  
 Teachers College.

It is conceivable that a  
 considerable number of stu-  
 dents could be forced to give  
 up their plans for college ed-  
 ucation at the institution be-  
 cause of an unforeseen rise  
 in rental costs. The prospect  
 of this loss to the college and  
 city (and in the long view,  
 to the county and state) is  
 one of the more undesirable  
 results to be avoided.

The Reflector hopes a  
 spokesman for this group of  
 students, or from the col-  
 lege, will be able to present  
 the Board of Aldermen need-  
 ed data on off-campus stu-  
 dent living conditions for  
 their consideration.

**Around Capitol  
 Square**

By LYNN NISBET

TEACHERS—The situation with  
 respect to competent teachers for  
 the state's public school system is  
 much better than it was last year,  
 and considerably better than at any  
 time since beginning of the late  
 world war. But it is still far from  
 what the school administrations de-  
 sire; and it is still spotted. That  
 is, some administration units are  
 well manned while others in which  
 superintendents may not have been  
 alert to their needs are short of  
 competent instructional staffs.

**SALARIES**—Other factors enter  
 into the overall picture, but salary  
 is still the primary factor. The rea-  
 son more good teachers are avail-  
 able than for many years has two  
 angles. First, is the substantial in-  
 crease in salary provided by the last  
 general assembly. Second, is the fact  
 that opportunities for more lucra-  
 tive employment in other lines of work  
 are less. Private industry, instead of  
 offering thousands of jobs for per-  
 sons qualified to teach is laying off  
 workers. The federal government  
 is also curtailing civilian employ-  
 ment, instead of creating every com-  
 petent person, as seemed to be the  
 case during and immediately after  
 the war. That means school teach-  
 ing is now about as good job, con-  
 sidered from angles of responsibil-  
 ity and compensation, as the aver-  
 age young man or woman can hope  
 to get. As a result many more col-

lege graduates are looking to the  
 school room as a place for service  
 and earning a livelihood.

**DEMAND**—The voluntary en-  
 listment process is to some extent con-  
 tracted by much greater demand  
 for teachers. School enrollment is  
 up this year, requiring more teach-  
 ers. Besides, the general assembly  
 reduced the teacher-pupil load and  
 authorized for the first time in  
 state history employment of some  
 300 supervising instructors. These  
 two acts added about a thousand  
 jobs to the teacher classification,  
 plus the normal increased enroll-  
 ment demand.

**SPOTTED**—This greater demand  
 has naturally enhanced the com-  
 petition for better qualified teach-  
 ers. That is where the wide-awake  
 superintendents and the more pro-  
 gressive communities have cashed  
 in on getting the cream of the  
 teacher crop. Officials in the state  
 school office report that majority  
 of the units are fixed up with  
 teachers, and majority of the good  
 teachers have contracts. There are  
 a few exceptional cases in which  
 extra good units have not been able  
 to line up exactly the teachers need-  
 ed, and where a highly qualified  
 teacher has not been able to con-  
 nect with a satisfactory job. For  
 most part, however, the unfilled jobs  
 and the unattached teacher are due  
 to some deficiency in opportunity  
 offered or in training of the teach-  
 er.

**HOMING**—There is occasion for  
 pride in the fact that many native  
 Tar Heels, who left the home ball-  
 court some years ago for better op-  
 portunity elsewhere, are coming  
 home. It will be several months,  
 maybe 1950, before complete data  
 can be assembled showing origin or  
 residence of the state's teachers.  
 Spokesmen for the state board of  
 education would not hazard a guess  
 on how many out-of-state teachers  
 have lined up for North Carolina  
 schools this year. A few instances  
 were cited showing the homing in-  
 stitutes of native Tar Heels. One  
 Carolinian who has been teaching  
 for several years in Kentucky has  
 come back to take a job as super-  
 visor in a county system. Another  
 who has been teaching in Texas has  
 been signed up as a high school  
 principal in this state. A third ex-  
 patriate is coming home after sev-  
 eral years in West Virginia to teach  
 in a North Carolina school.

**PROBABILITY**—These known in-  
 stances, casually ascertained, sug-  
 gest probability of many more ex-  
 patriates coming home and an even

**Somebody Told Me...**  
 By I. J. (JACK) EDWARDS, JR.

It would be interesting to know  
 whether or not I had a reader  
 back in May, and if so, whether  
 or not he's still with me. Assuming  
 that neither of those statements  
 is true, here's the background  
 necessary before today's column  
 will make sense.

In May I did a three-day series  
 on chronic drinkers and the or-  
 ganization which has been most  
 successful in curing them, Al-  
 coholic Anonymous. A Greenville  
 member of the organization tele-  
 phoned me, anonymously, after  
 the series appeared and offered  
 me the post office box number of  
 the New Bern group, 312, which  
 I later printed. The New Bern  
 AA's have received two responses  
 from readers of this column. If  
 the disease of alcoholism is the  
 disease of alcoholism the col-  
 umns were worthwhile.

The other day a fellow dropped  
 by the store to let me know that  
 he is a member of AA. He invited  
 me to go to the weekly meeting of  
 the New Bern group, which I at-  
 tended last night, with the Green-  
 ville members.

Without a doubt the meeting  
 was the most inspiring I have ever  
 attended. It was held in a small  
 chapel, which was overflowing  
 with New Bern's 40 members (33  
 men and seven women), two mem-  
 bers from other units (Chicago  
 and Norfolk), and non-members  
 including two judges, a chaplain,  
 and a newspaper columnist (more  
 or less).

The program was headed by  
 one of the New Bern members,  
 who called on five other members  
 (four of New Bern and the Chi-  
 cago member present) for a dis-  
 cussion of the rewards of the AA  
 program besides sobriety.

Each of the speakers illustrated  
 his point by giving his own per-  
 sonal experiences. The first lady  
 has been dry since June, 1948. She  
 started as a social drinker and  
 eventually crossed the hump—she  
 began to need a drink the first  
 thing in the morning to get over  
 the shakes. From there things  
 went from bad to worse, until she  
 was in a desperate condition. At  
 five in the morning she would get  
 up and slip up to the attic in  
 order to be sure to get that early-  
 morning drink before her husband  
 awakened. Then she went to AA,  
 and asked for help. For 16 months  
 she has been dry.

Here's how AA works: Men and  
 women of all ages and descrip-  
 tions who have been alcoholics  
 are banded together for the purpose  
 of helping others who are trying  
 to stop drinking, and at the same  
 time keeping dry themselves. Be-  
 fore AA will help a victim of al-  
 coholicism the person must come to  
 them and express a desire to stop  
 drinking. If it would help to seek  
 out alcoholics, AA would gladly  
 do it, but it simply doesn't work  
 that way. The alcoholic must be  
 ready to admit that it has the  
 best of him, and have a genuine  
 desire to be cured.

From the time a drinker joins  
 AA he is never again alone. The  
 organization meets weekly, but if  
 at any time between meetings a  
 member feels himself slipping he  
 goes to the telephone and calls  
 one of the members. The time of  
 day or night doesn't matter; AA's  
 gladly get out of bed at any hour  
 to help a fellow member. Prob-  
 ably the main force behind AA is  
 the fact that a former alcoholic  
 can talk the same language as the  
 new potential member, because he  
 has been in the same boat.

Tomorrow I'll finish coverage of  
 the meeting.  
 And I thank you.

**Boyle's Column**

New York—(P)—There's a stran-  
 ger in the land today, and the stran-  
 ger is—Autumn.

Welcome, stranger! He came to  
 our town exactly at 4:04:06 o'clock  
 (EST) this morning, an hour after  
 the last saloon closed.

The only one who saw him arrive  
 was the milkman as our official  
 greeter, Grover Whalen, rarely has  
 his orange juice ready—let alone  
 a speech—so early in the day.

But everyone knew autumn was  
 here. The air felt like a raise in

**School Days Should Be  
 Happy Days**

Vacation is a good time for parents  
 to take stock of their children's  
 vision. If your children dislike to  
 read; if they are not as good at  
 games as their playmates; if their  
 schoolmarks last term were not  
 what you hoped for or expected—  
 then—by all means—look to their  
 vision... undoubtedly the seat of  
 all the trouble. Do it now—so that  
 they may enjoy their vacation, and  
 so that they can do good work  
 next school term—easily and with-  
 out effort.

**Ridgeway**  
 OPTICIAN  
 At Five Points, Greenville, N. C.

salary.

The year wears four faces, and  
 Autumn is the finest. Everybody  
 likes it except maybe politicians who  
 have to run for re-election and plead  
 that now is the time for all good men  
 to come to the aid of their party.

Man and nature go on a last  
 rampage before the deep freeze sets  
 in. The robin tests its feathers for  
 the long flight south, and old folks  
 begin thumbing Florida resort fold-  
 ers.

The farmer's crop is in, and now  
 he has time to write letters to his  
 Congressman. The fisherman casts  
 a final fly, the hunter oils his gun.  
 And the wry duck along the Cana-  
 dian border quacks, "Oh, hell, Oh  
 Hell, Oh Hell," knowing he is the  
 target of tomorrow.

At night the moon is a yellow  
 madness. The fox barks on the hill,  
 the lonesome moose shakes his ant-  
 lers and bellows in the woods for  
 a tall dark lady—any tall dark  
 lady on four legs. The rabbits in  
 the grass review their multiplication  
 tables. Ain't nature grand?

The maple turns again into a  
 scarlet lass, blushing to see the  
 staid oak shed its leaves and dance  
 around in its shaggy skeleton. The  
 squirrel begins his annual thrift,  
 and wonders if the rest of the world  
 is nuts.

This is the time for retired bach-  
 elor, railroad men to beware, for  
 every widow has a mellow eye. She  
 doesn't want to bake pies just for  
 herself through another long cold  
 winter.

Oh, it's a wonderful season—fall  
 is. The pigskins float through the  
 air before the last baseball has  
 been knocked over the fence. Top-  
 coats replace sports jackets in the  
 department store windows. The  
 movies quit bragging it's 20 degrees  
 cooler, and start showing "a" pic-  
 tures again. It's a desperate mea-  
 sure to lure customers indoors.

The stage comes to life, the city  
 wears a fresh glitter, and all girls  
 are beautiful to someone. Vacation  
 tans fade, but there's a bright new  
 look in every eye. People shed sum-  
 mer weariness like a snake drop-  
 ping a threadbare skin.

Autumn is a fine thing every-

ILLUSTRATED SUNDAY SCHOOL LESSON

By Alfred J. Buescher

Scripture—Psalms 23: 43; 46; 90; 121; 148.

Psalms That We Sing

The Lord is my shepherd; I shall not want. He maketh me to lie down in green pastures: He leadeth me beside still waters.

Yes, though I walk in the valley of the shadow of death, I will fear no evil: for Thou art with me always.

Why art thou cast down, O my soul? and why art thou disquieted within me? hope thou in God; for I will praise Him.

The Lord shall preserve thy going out and thy coming in from this time forth, even forevermore.

MEMORY VERSE—Psalm 92:4.

man's, amateur golf tournament, in Kentucky, says she "fooled around with golf" for three years. Then at 15, she started to play in earnest taking lessons from good professional golfers. She won her first tournament at 16, then again at 17 and 18. She made a hole in one (335 yards long)—her biggest thrill to date. Betty, a student at Rollins College, Winter Park, Fla., manages to get her golf in during the winter, too.

will stay in a converted prisoner-of-war camp. James Waite, former juvenile counselor for the Raleigh family relations court, will be in charge of the young prisoners.

Fake Lost Son Returns' Twice

Berlin—(AP)—A mother and daughter in Berlin welcomed their lost son and brother in November 1945. They thought he looked strange but they remembered he had fought through the war and been a prisoner of the Allies. For three years he lived with the family. Then one night he left town and his employers said company funds were missing. Later the mother got a letter of apology which said

the man she had welcomed was really her son's double. Then she was notified that her son had been found—escaped from the Russians after long captivity. Mother and daughter thought the man was the same one who lived with them for three years. They doubted that he was the real son. Finally the sister found a shirt in his room that she had mended in his previous stay. Although he denied the charge and still claimed to be the real son, a skeptical judge sentenced him to five months in jail. Records show that the Artie, tern, whose legs were banded in Maine and Labrador in July, migrated to southern France and western Africa in the fall. One bird flew more than 8,000 miles when less than four months old.

PSALMS THAT WE SING

IN WHICH DAVID EXPRESSES HIS TRUST IN GOD

Scripture—Psalms 23: 43; 46; 90; 121; 148.

By NEWMAN CAMPBELL. EVERYONE in the world thirsts for something. We have a thirst for freedom, for financial security, for love and happiness, for knowledge, and for God in whom to place our trust. These are basic needs which make all men brothers.

The 23rd Psalm is called the Shepherd's Psalm. It was probably written by King David when he recalled his own days as a shepherd boy, before he became a king. If he did write it when he was a shepherd, the date would be somewhere around 1030 B.C.

This is a Psalm which, above all others, we should memorize. If you do so when young, it will surprise you to find yourself repeating it all through life, when griefs come or worries of various kinds.

It pictures a peaceful stream flowing through a lovely meadow, with a kind shepherd watching

brooks, so panteth my soul after Thee, O God.

"Why art thou cast down, O my soul? and why art thou disquieted in me? hope thou in God; for I shall yet praise Him for the help of His countenance."

"Deep calleth unto deep at the noise of Thy waterspouts; all Thy waves and Thy billows are gone over me.

"Yet the Lord will command His loving kindness in the daytime, and in the night His song shall be with me, and my prayer unto the God of my life."

David sings of his trust in the Almighty in the 46th Psalm, where he wrote:

"God is our refuge and strength, a very present help in trouble.

"Therefore will not we fear, though the earth be removed, and though the mountains be carried into the midst of the sea;

"Be still, and know that I am God: I will be exalted among the

The Golden Text

The good shepherd.

"Thou, Jehovah, hast made me glad."—Psalm 92:4.

MEMORY VERSE

"Thou, Jehovah, hast made me glad."—Psalm 92:4.

his sheep, ready to fight if necessary for their safety, and to seek any that are lost through straying.

So God, says David, takes care of those who trust in Him. He will not desert us even when we pass "through the valley of the shadow of death."

"The Lord is my shepherd; I shall not want. He maketh me to lie down in green pastures: He leadeth me beside the still waters.

"He restoreth my soul: He leadeth me in the paths of righteousness for His name's sake.

"Yes, though I walk through the valley of the shadow of death, I will fear no evil: for Thou art with me; Thy rod and Thy staff they comfort me.

"Thou preparest a table before me in the presence of mine enemies: Thou anointest my head with oil; my cup runneth over.

"Surely goodness and mercy shall follow me all the days of my life; and I shall dwell in the house of the Lord for ever."

Psalm 42 expresses the king's longing for God.

"As the hart (the stag, male red deer) panteth after the water

beaten, I will be exalted in the earth."

"Lord, Thou hast been our dwelling place in all generations.

"Before the mountains were brought forth, or even Thou hadst formed the earth and the world, even from everlasting to everlasting, Thou art God."—Psalm 90.

In Psalm 131 David repeats his trust in God and thankfulness for His care, beginning: "I will lift up mine eyes unto the hills from whence cometh my help.

"My help cometh from the Lord, which made heaven and earth."

"Praise ye the Lord. Praise ye the Lord on the heavens: praise Him in the heights.

"Praise ye Him, sun and moon; praise Him, all ye stars of light."

"Kings of the earth, and all people; princes, and all judges of the earth:

"Both young men, and maidens; old men, and children:

"Let them praise the name of the Lord."

Barkley Medal Costs Itemized

Washington, Sept. 23—(AP)—If vice-President Barkley ever melts down that \$2,500 gold medal Congress voted to give him, he will find it is worth only about \$450.

It will come in a \$10 leather case. The manufacturing cost will be \$540. The rest of the money, \$1,500, will go to the sculptor who designed the medal.

A Senate Appropriations subcommittee developed these facts at a hearing on the proposed expenditure.

Minutes of the hearings were released today. Congress voted the medal August 12 on recognition of Barkley's "distinguished public service and outstanding contributions to welfare." The bill before the Appropriations committee provides the money to pay for the medal.

Leland Howard, assistant director of the mint, said the medal would take at least 13 ounces of gold "if it has any relief whatsoever." This, he said, will be more gold than in the medal awarded General George

C. Marshall (11,988 ounces.) but less than the one for General John J. Pershing (15,355) ounces.

Tax Collector Said Slug-User

Detroit, Sept. 22—(AP)—A city tax collector was suspended from his job today on a charge of putting slugs in a parking meter. A traffic patrolman arrested him yesterday.

Detective Lt. Harry Michaels said the collector, Edward Temple, 45, admitted using slugs in a meter near the City hall. The detective said Temple explained he makes 15 or 20 stops a day on city business and is not reimbursed for meter fees.

Temple is employed by the city treasurer's office which collects the money from parking meters. He is a personal property tax collector.

A Danish schoolmaster, Hans Chr. C. Hortensen in 1899, used aluminum bands to study scientifically the habits of white storks, European teal, starlings and a few birds of prey.

The European house sparrow was imported to the United States in the 1850s to aid in the extermination of the grometrid caterpillar.

Theater World's Famous 'Act Of God Baby' Dies

New York, Sept. 22—(AP)—Actress Mary Mac Arthur, 19, who became a celebrated figure in the theater world at birth as the "act of God baby" of Actress Helen Hayes, died last night.

The young woman's death came as she was preparing to appear next month in a supporting role with her mother in the Broadway premiere of a new play.

She died at Lenox Hill Hospital of what physicians termed a "generalized virus infection." Her father, newspaperman-playwright Charles Mac Arthur, and Miss Hayes were at her bedside.

The "act of God baby" label was pinned to Miss Mac Arthur in a widely publicized theatrical controversy. It arose when her mother was forced to withdraw from a starring Broadway role in 1929 by the approaching birth of her child.

Her withdrawal resulted in closing of the play and a subsequent dispute over actors' salary rights.

Nash Motors To Cut Car Prices

Detroit, Sept. 22—(AP)—Nash Motors today announced price reductions ranging from \$73 to \$140.

The reductions apply to the company's new 1950 model cars which go on display in dealer showrooms tomorrow.

The cuts are possible, George W. Mason, president and board chairman of Nash-Kelvinator Corp., said, largely because of reduced production costs resulting from a freer flow of materials.

Many years ago, Hawaii, Puerto Rico and the Virgin Islands were overrun with the mongoose. Introduced in the belief it would exterminate rats. The mongoose, however, proved more destructive than the rat.

Australian Wilds To Be Opened Up For Americans

Sydney, Australia—(AP)—The "top end" of Australia's northern territory may be seen by Americans who want to get away from it all, if present plans work out. Plane and motor trips into the wild territory are being worked out.

E. J. Conellan, an airline operator, says wild Malaysian type buffalo swarm in the area. Crocodile hunting is also said to be good sport.

Incidentally, the crocodiles make good hunting for commercial hunters. Some hunters are reported to earn 3,000 pounds in six months by selling skins. It is estimated that this sum would buy as much in Australia as \$25,000 would in the United States.

TEEN TALK. You can make your school classes glamor sessions, if you want to, advises beauty expert Ann Delafield. She says there are lots of exercises that can be done at your desk while you concentrate on medieval history or chemistry. Today's teen-agers, says Miss Delafield, has a triple-fold problem because hairline, hemline and heel-line all are going up. Girls in her beauty success school are being taught to get exposed necklines in condition and to be more conscious of legs and ankles, long hidden under dungarees. Here are some exercises suggested by Miss Delafield. You can do them at your desk: Necks can be lovelier if you will push up neck at spot where your tonsils are (or were) towards the ceiling, all the while holding chin. Push right tansil up toward ceiling, then left. This exercise sounds a little startling at first, but you'll find that if you do it just that way and as often as possible, it will give your neck a new lift. A waistline desk exercise suggested by Miss Delafield is this: Become conscious of your ribs near backbone. Lift left ribs up away from left hip, then right away from right hip, then left, right, left, right and hold. If you can hold this lift during the rest of the class period, you can't help but make school a charm session. Girls who sit with legs crossed are asking in later years for hollow thighs, says Miss Delafield. Says she: "When young girls sit with legs crossed, they compress tissues and ruin legs for bathing suits. This congested tissue results in bumpy, baggy thighs and knees when older. Actually, now that girls are wearing heels on their shoes, they will notice their ankles look much prettier. Flat shoes throw more weight on the inside of the foot and make the ankle look thicker, Miss Delafield says. Ankles look much prettier in a medium moderate heel (not a spike of course.) Put your foot flat on the floor, then throw weight on the outside of the foot. You'll notice how much slimmer the ankle looks in that position. If your legs already are large or bumpy, lie on the floor and massage them from foot to hips with your hands. Also, advises Miss Delafield, if you have a tendency towards large legs, stay away from ballet dancing, skating or skiing, all of which tend to make muscles heavier. Whenever teacher disappears from the room and leaves you with time on your hands, or even when you are walking down a corridor to the next class is a good time to balance a book on your head, a good way to train yourself to keep chin up, head high, back straight.

Prison Officials Try Experiment. Raleigh, Sept. 23—(AP)—The Prison Department has put in motion an experiment designed to rehabilitate youthful, first-term offenders. It moved to Camp Butler yesterday the first group of young honor-graders who will be confined without guards and without prison bars. The experiment was authorized by the 1948 Legislature. The group included six prisoners who will prepare quarters for others to be sent to Butler later. The department said ultimately there will be 100 at the camp. They will work in shops and on the farm of the state hospital at Butler. There also will be an educational program for them. They

# 'Only One Way Out' Said Cancer Victim; Took It

Inglewood, Calif., Sept. 23—(AP)—There seems to be only one way out," wrote Mrs. Mary Davenport, an incurable cancer victim.

Then, said police, she fatally shot the sleeping son who had waited on her so patiently, and killed herself.

The bodies of the mother, 46, and her 22-year-old son David, were found yesterday in their auto court cabin. Lt. C. O. Houston said it was a case of murder and suicide.

In a letter, addressed to a sister, Mrs. E. C. Pease of Houston, Tex., Mrs. Davenport had written: "Oh, God, there is the problem of David. He is so frail and helpless. . . I can't see any future for him in a troubled world."

"For 18 months I have lived with this dread disease and mental tor-

sure, yet hoping a cure would be found in time to help me. . . I have managed to keep this knowledge from David. He had so much responsibility to bear. I just couldn't tell him."

This was one of three letters found in the cabin after the auto court manager, Mrs. Edward Johnson, said Mrs. Davenport had phoned her, saying "there is trouble." Two shots rang out. Mrs. Davenport, shot in the head, was found dead, pistol at her side, in a bedroom.

The son's pajama-clad body was in the livingroom, one shot in the back, another in the head. Lt. Houston said he had been shot about 20 minutes before the mother summoned the landlady.

## Shorter College Hours Sought

Eureka, Ill., Sept. 23—(AP)—Most of Eureka College's 400 students are striking for shorter hours and blanket demands.

They left classes yesterday for a protest meeting and planned another demonstration today.

They object to one hour and 50 minutes class sessions, instead of the old one hour system.

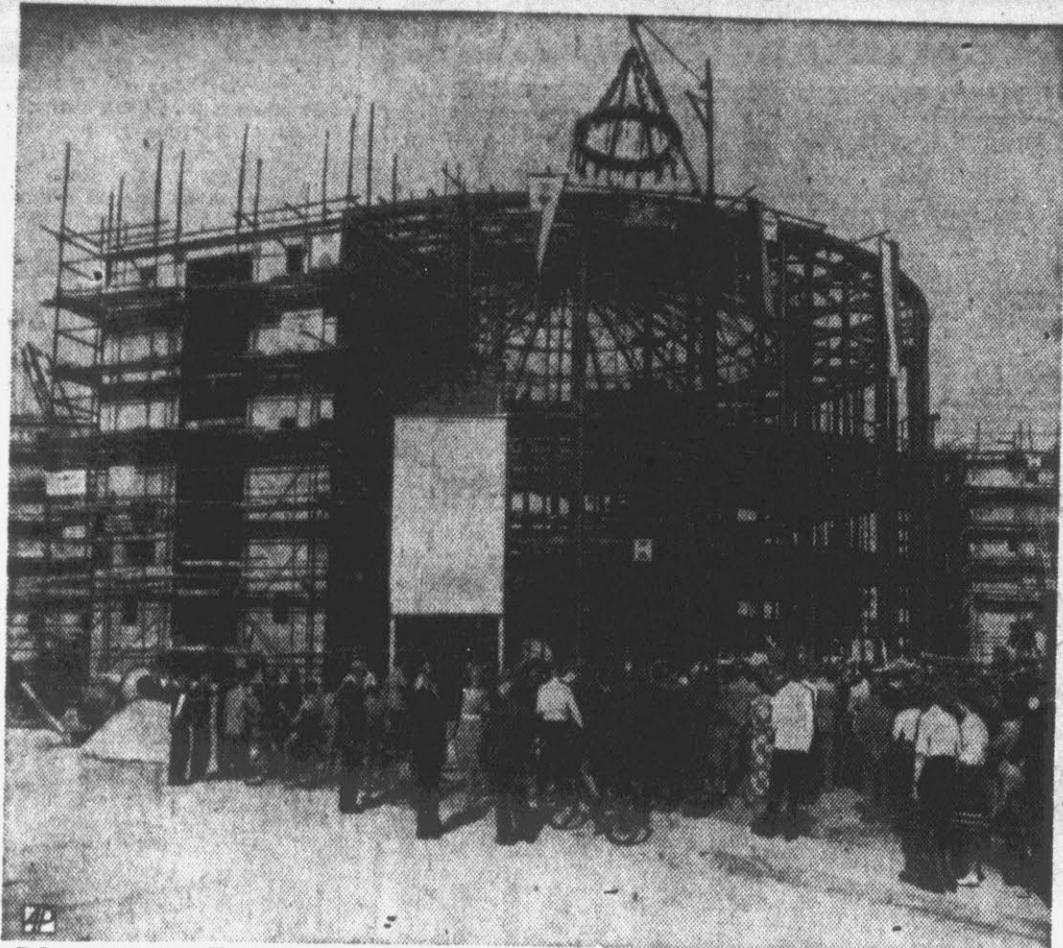

They also said the college doesn't furnish its football team players with enough blankets.

## Duplin Observes 200th Birthday

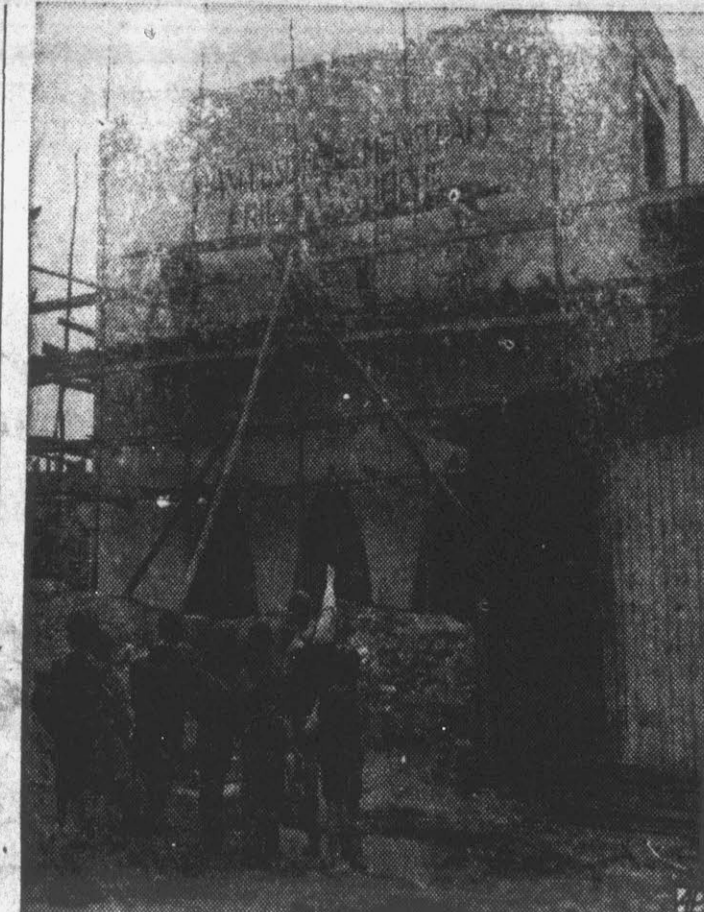

Goldboro, N. C., Sept. 23—(AP)—Duplin county began celebrating its 200th anniversary last night with the presentation of the Duplin story, a historical play with music.

Sam Byrd, native of Mount Olive and nationally known as actor and novelist, is author of the play.

Gilbert Alpin, president of the sponsoring Duplin Historical Association, estimated that 3,500 attended last night's performance, the play will be presented again tonight and on Saturday night.

## Marine Flyer To Attempt New Long Distance Speed Record

Cherry Point, Sept. 23—(AP)—Lt. Col. Marion E. Carl, USMC, former holder of the world's speed record, will attempt to set a new long distance speed record from Sioux Falls, S.D., to Cherry Point on October 3.

The speed run will be made in the Marines' new P-51 Gruman "Panther," with a full operational load. Lt. Col. Carl, number one fighter pilot in the Marine Corps today, will fly at about 25,000 feet weather permitting, and hopes to average a ground speed of over 800 miles per hour for the 1200-mile distance.

If weather conditions prevent the speed run on October 3, the flight will be scheduled for the following day.

Lt. Col. Carl, 32, set the world's official aircraft speed record of 660.8 miles per hour in 1947 when he hurled the Douglas Skyhawk over the Muroc, Calif., course.

The long-distance speed attempt from Sioux Falls to Cherry Point will be made with a full load of machine guns, armor plating, and wing tanks.

Carl, who shot down 18 Japanese

planes during the war, is one of the nation's foremost subsonic speed aviators. He is operations officer of Marine Air Group 14 at Cherry Point.

One of the highlights of his work was in helping develop carrier landing techniques for jet aircraft. This led to his making the first carrier landings and take-offs with the Air Force's F-80 "Shooting Star." His work as a jet test pilot was climaxed in the summer of 1947 at Muroc Dry Lake, California, when he set the world record that stood until September 1948.

## Tobacco Prices Remain Irregular

Raleigh, N. C., Sept. 23—(AP)—Old belt flue-cured tobacco prices remained irregular yesterday, the federal-state market news service reported.

Changes were mostly \$1 to \$3 per hundred pounds. A larger ratio of common leaf and nondescript brought another decline in the quality of offerings. Wednesday's sales were reported as 2,042,712 pounds averaging \$46.43 per hundred, a new low for the season. Volume for the season rose to 27,428,898 pounds averaging \$48.17.

Prices were about unchanged yesterday on the middle and eastern North Carolina belt, while some grades improved on the Carolina border belt.

Most leaf grades showed small decreases in middle belt sales, but other grades were mostly unchanged. Wednesday's sales were 2,367,955 pounds averaging \$45.32. This brought season sales to 81,026,270 pounds averaging \$46.85.

A few changes of \$1 to \$2 were reported on the Eastern belt, but the news service termed these normal fluctuations. Sales Wednesday totaled 7,322,893 pounds averaging \$50.84. Season sales climbed to 261,505,419 pounds averaging \$46.23.

## Colored News

## Missed Reunion

Rehoboth, Mass., Sept. 23—(AP)—Leo Moniga, 35-year-old federal government worker from New Bern, N.C., was only a few minutes away from reunion with his parents when he was killed yesterday as a New York to Boston Greyhound bus plowed into the rear of a parked road-otting truck.

This was to have been Moniga's first visit with his parents, Mr. and Mrs. Bartolo Moniga of North Rehoboth, in two years. Five of the other six occupants of the bus were injured.

ing a metal band of a bird's leg in an effort to trace its migration involved a heron captured in Germany in 1710, bearing a band put on it in Turkey.

## Northerner Enjoys White Navy Beans Greenville Cafe

Traveling men and others who visit Greenville frequently, especially those from the north, complain that it is impossible to get an order of "navy beans, cooked regular style," without being "sloshed with a lot of red stuff called tomato catsup." One man who has been coming here at regular intervals for many years, said the last place you can find navy beans cooked in the regular way—baked or baked (or bean soup) is in Richmond, Va.

One of the bean-lovers, in town today, took back all he had said about incomplete menus after he had been to the American Legion Restaurant, on Evans street, and had his fill of the succulent beans—not dressed up with tomato catsup.

Mrs. W. G. Rush, manager of the American Legion Restaurant told a reporter that from now on the cold weather white navy beans will be on the Legion menu. The catsup will be in bottles.

**GERMAN HEAD**—Theodor Heuss (above) 65-year-old professor and journalist, was elected President of the West German Republic by the Federal Assembly at Bonn.

## Trespassers Alarm Dr. Graves' Family West Fifth Street

Mrs. Edna B. Graves, wife of Dr. C. Rudolph Graves, Negro dentist who lives at 1401 West Fourth Street, reported to police last night that vandals broke a large glass jar with a "pig-feet" label on it on her front porch last night about 10 o'clock. Police quoted her as saying that the nocturnal marauder drove away from the house in a big black automobile. Police are investigating.

## Greenville Police Recover Truck For Kinston Authorities

Jack Collins of Ayden complained to Greenville police last night that someone had stolen his brother's truck, partly loaded with corn, and had driven toward Greenville. Greenville police located the truck, being driven by one of several Negro juveniles of Kinston. The youngsters in the truck were turned over to Kinston authorities. The truck and contents was returned to the owner in Ayden.

**THE WEATHER**  
The highest temperature here yesterday was 79 degrees. Lowest last night was 66 and at 8 a. m. today it was 68 degrees. Rain early today was not much more than a light shower.

William H. Harrison, with six sons and four daughters, and a larger family than any other American President.

**Better Highways are built with**

**CONCRETE**

Concrete has the strength and stamina to carry heavy truck traffic and it is ideal for fast-moving passenger cars. It is skid resistant, drains quickly, improves visibility and cuts driving costs by saving on gas, tires and repairs. Concrete has the durability to keep traffic rolling without pavement shutdowns for repairs.

Concrete offers all these advantages at low annual cost. Its first cost is usually less than other pavements of equal load-carrying capacity, its maintenance is less and its life is longer.

# French Cookery Hasn't Lost Pre-War Quality

By CYNTHIA LOWRY  
AP Newsfeatures Writer

Paris—Travel in France this summer is broadening. Literally.

There's plenty of food, and the old French skillet skills have not been lost. Consequently, one finds oneself—that means me—eating in quantity and richness one wouldn't dream of at home.

For instance, there's a little item called *creme fraiche*, which as would be suspected translates as "fresh cream." It is not fresh cream, however, but just a tiny bit soured. It is a rare and special treat. Raspberries are delicious in Paris this season, and my favorite dessert is a dish of same, covered with this snowy white and thick stuff.

A friend with a week-end farm in Normandy brought me a gift of *creme*. Previously he had told me of the best bakery shop in Paris, where I'd purchased delicious, airy brioche, a special kind of French bread. Then I'd found some home-made apricot preserve. The result

was a Norman specialty—*bricote*, covered with apricot, topped with *creme*. And this for an American who never eats sweets at home.

Then there are the sauces, delicate and tasty. At lunch at the famous *Cog Hardy* just out side Paris I added to my *avardupois* with a langouste newburg. Langouste is a member of the lobster family but preferred to lobster by the French.

It has a more delicate flavor, they say. But the newburg part of the dish was the triumph, delicately flavored with a whisper of cheese sauce of the right consistency and beautifully blended.

Or, still another day, the duck cooked with orange juice and orange slices at the *Berlioz*, a fairly new restaurant not far from the *Arch of Triumph*. And I'll never forget their frog legs, rich in garlic and well worth being a social menace for the pleasure of eating.

There's still adventure in eating ahead, too. Before leaving I'm going to have chicken "in mourning," a Lyonnaise specialty. (The area in the vicinity of Lyon, gourmets report, is the land of the world's best cooking, native province of Brillat-Savarin.) The trick in this dish is the introduction of sliced truffles under the skin of the fowl, which sends the flavor throughout—and darkens the skin.

There's a major preoccupation with food in this country, and everyone takes a two-hour-for-luncheon period. Conversations may swing around economic problems, whether there will be another war, and so on. But after a little while, someone starts talking about good food or tossing out little bits of cooking information. The other night

**HOT CAR**—Italian driver R. F. Salvadori's Maserati car melts in flames after a collision with two other competitors in a race at the Curragh, Ireland, track. The driver escaped.

there was a good half-hour conversation on the exact advantages of cooking lobsters, langoustes and crabs in fresh sea water, as opposed to salted fresh water. The consensus, 100 percent in fact, was that sea water had special properties which brought out shell fish flavors, where fresh water drained away these flavors.

No matter how much fun, the business of being even a part-time gastronome in this post-war Paris is an expensive business. It's probably no more expensive to eat fancy meals here than it is in the best restaurants in New York City—but not many of us go in for \$6 luncheons at home. But we do here, and then are a little appalled at prices.

**HOLDUP IN HYDE PARK**—A wedding party, coaching in Hyde Park, London, is held up at pistol point by a horseman who took this means of tendering his gift to the bride.

## African Troops Hailed For Jump

Leopoldville, Belgian Congo—(AP) Thousands of residents including anxious relatives of a dozen soldiers assembled recently in the colony to see the first locally recruited paratroopers jump from a plane. Hitherto local residents had considered this mysterious power reserved for white use. When the grinning black faces of the troops silhouetted against the white parachutes neared the ground, the watchers went almost hoarse shouting encouragement. When the troops finally landed they were carried back in triumph to the town.

## Assistant Professor Of Music At ECTC Arrives In Greenville

Robert Carter, formerly artist professor of music at Florida Southern College at Lakeland, arrived this week in Greenville to begin his duties as assistant professor of music at East Carolina Teachers College.

A native of Tennessee, Carter holds degrees in music from George Peabody College in Nashville. He has also studied at Chicago Musical College, at the Juilliard School of Music in New York, and as a student of the pianist-composer Percy Grainger.

For the past two years he has taught in Florida. Previously he was a faculty member at Radford State Teachers College and Madison College in Virginia, George Peabody College, and Southeastern Louisiana College.

At East Carolina, Carter will give private lessons to students of piano and will teach courses in the department of music. It is expected that he will appear in a public recital of works for the piano during the present school year.

**EGYPT PLANS EXPORTS**  
Cairo—(AP)—Egypt will export 90,000 tons of rice and 30,000 bales of long staple cotton to India under a trade agreement signed between the two countries recently. In exchange, India is to supply Egypt with jute and steel of similar value.

## 'Teco Echo' Will Become Weekly

The "Teco Echo," student newspaper at East Carolina Teachers College, will soon become a weekly. Published as a bi-weekly since its founding in 1925, the paper will issue its first weekly edition on October 7, according to an announcement by Editor Carl G. Conner of Windsor.

The change in the program for the "Teco Echo" was effected by action of the Student Legislature at a meeting held Wednesday, September 21. Recommendation that the paper double its services to students and alumni was recently made by the Executive Council of the Student Government Association and the Student Budget Committee, and additional funds have been provided to finance the paper on its new schedule.

The first issue of the "Teco Echo" appeared in December, 1925, the name—an abbreviation of "Teachers College Echo"—having been suggested by the first editor, Deanie Boone Haskett, now teacher of Eng-

lish in the Greenville High School. Since that time the paper has appeared regularly on the campus. At present copies are also mailed to alumni of East Carolina.

The "Teco Echo" is a member of the Associated Collegiate Press of the University of Minnesota and of the Columbia Scholastic Press of Columbia University in New York. During 1948-1949, with Conner as editor, it won first-place awards for excellence from both organizations.

Studies show that migratory birds confine themselves to certain geographical regions, known as "flyways."

# Greenies Play Kinston Here Tonight After 9-0 Loss

## Locals Still Have One Game To Go To Take CPL Crown

### Voiselle Scatters Six Hits In Holding Greenies Scoreless As Teammates Hammer Out 13 Safeties Including Homer And Four Doubles

Claude (Dix) Voiselle pitched a masterful six-hit shutout over the Greenville Greenies in Kinston last night as the Eagles annexed a 9-0 win to serve notice that they are still in the race for the Coastal Plain League play-off championship.

It was the first win in the finals for Kinston since they drubbed the Greenies 11-4 in the opening game. Voiselle was given errorless support by his teammates who hammered three Greenville hurlers for 13 safeties, including a homer and four doubles.

Greenville was never in the ball game. A run in the fourth, breaking a scoreless deadlock, gave Voiselle all the margin he needed for the victory. In that inning Leon Romankowski led off with a double but was tagged out going to third. Harry Soufas followed with a double and Rosy Rosenwinkle fled to left. Bruce Hedrick doubled to send Soufas across with the initial run.

A big rally in the fifth marked the exit of starting pitcher Preacher Mustian. He was chased for Art Mascarella with two away in the fifth when Soufas homered with two aboard to score on one of Kinston's major blows of the contest.

The Eagles showed over four runs in the fifth inning rally and came back in the seventh to send four more runs home and knock Mascarella from the mound. Joby Griffin came in to pitch for the Greenies in the seventh.

Romankowski with a double and three singles in five trips to the plate paced the 13-hit Kinston barrage. Soufas with a homer, a double and a single in four trips shared the hitting honors.

Willie Mauney garnered a double and single to lead Greenville's futile efforts at the plate.

The two teams return to Greenville tonight with Greenville battling for the win which will clinch the championship and Kinston striving to tie up the series.

The batteries will probably feature Ray Keys for Kinston against Greenville's ace hurler Junior Yohn.

### Bucs Play First Conference Foe Here Tomorrow

A self-installed four-touchdown underdog East Carolina Teachers College aggregation will meet its first test against a North State conference foe here tomorrow night when Coach Bill Dole's boys tangle with the Bears of Lenoir-Rhyne.

The Bucs, who opened their season with a sensational passing attack and a 24-0 win over the Cherry Point Marines last week, will be seeking the initial conference victory over the team which pre-season forecasts have already installed as the number one contender for the North State championship.

The Bears blew the lid off their schedule with 7-0 win over Erskine last week.

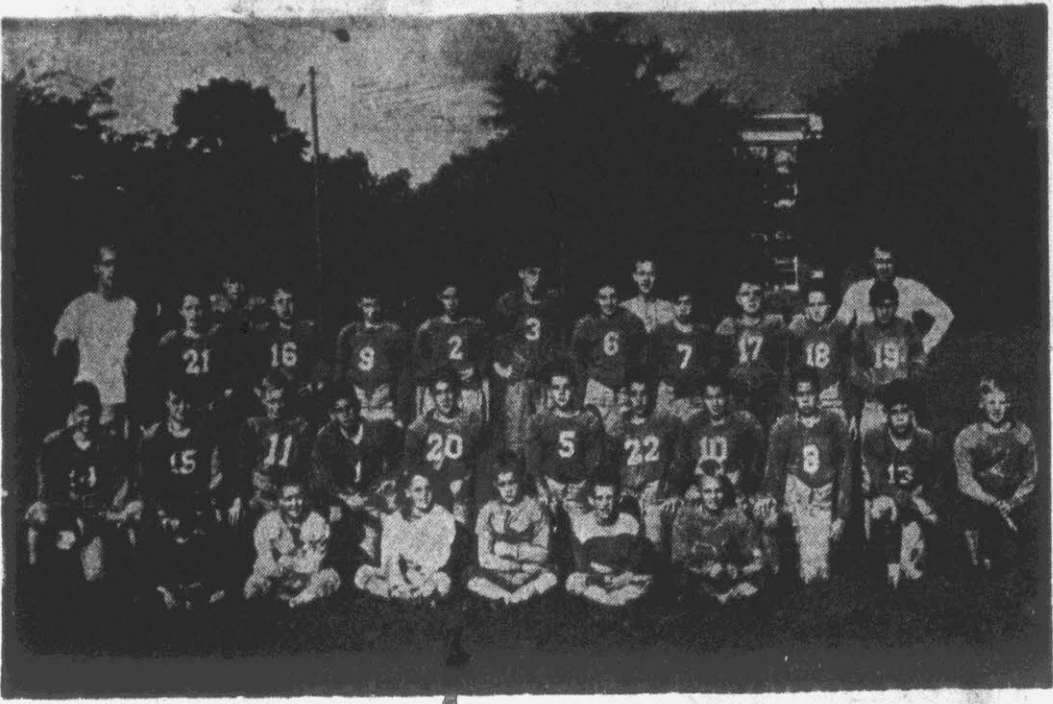

Last season the Bucs took a terrific drubbing at the hands of the Lenoir-Rhyne squad. And although observers rate the East Carolina boys far superior to the 1948 edition, the Bucs are expected to be in for a rough evening against the Bears.

Coach Dole, whose number one headache since the Cherry Point game has been defense, rated the Lenoir-Rhyne squad four touchdowns over his Pirates' charges early this week.

Despite considerable emphasis on defensive drills during the past week, the East Carolina mentor was reportedly disappointed in the showing made by his boys through Wednesday.

Roger Thrift, whose sensational passing set the pace which won the Cherry Point game, will be the Pirates' number one threat in Saturday's game. Mike Kovich, Doug Bryant and John Smith will probably bear the brunt of the offensive attack on the ground.

### They're Little, But Play Real Football

Greenville's Midget football squad last night opened its 1949 season by handing the Kinston Mites a 7-0 defeat. The lone score in last night's contest came when Fullback Bob Howell bucked through from the two-yard line for the Greenville touchdown. All members of the Midget football conference weigh less than 106 pounds and are not over 13 years old. (Staff photo by Roy Hardee.)

By EUGENE PRICE  
Coach Bill Kittrell's Greenville Midgets posted a 7-0 win over the Kinston Red Imps here last night in the opening game of the Midgets' 1949 gridiron season.

Some two hundred spectators, including the players, witnessed the affair as the Greenville squad wreaked vengeance for an upset it was handed by the Kinston midgets last year.

Diminutive Bob Howell, a reserve fullback, bucked through the scrappy Kinston defenses from the two yard line to score the lone touchdown of the game early in the second stanza.

Little George Sideris, wearing the highly respected number 22 jersey set up the score when he intercepted a Kinston pass on the 50 yard line and roared down to the 22 before he was tackled.

On the next play fullback Pat Sawyer passed to End Billy Bost to put the Greenville boys on the two yard marker with a first and ten. It was from there that Howell plunged through for the tally. Sideris passed to Bost for the point after touchdown.

Kinston threatened in the same period when halfback John Carter

intercepted a pass on his own 26 and ran it back up to the 40. Fullback John Crews on two sensational runs, carried ball down to the Greenville 25 where Coach Kittrell's boys tightened their defenses and took over on downs.

The two teams battled it out around midfield for the other three quarters, neither being able to get within the others 30 yard line.

Both teams, composed of boys up to 13 years old and not weighing over 105 pounds, played commendable football. The entire Greenville line was lauded by Coach Kittrell for its performance. He named Sam Winchester and George Sideris, both backups, as the more outstanding defensive performers.

It was a cleanly fought contest with only one penalty being imposed, that for offsides.

Starting lineups: Greenville: Saieed and Bost at ends; Duffin and Arnold at tackles; Harrison and Johnson at guards; Winchester at center; Sideris at quarter; Gene

Duffin and Shackelfield at halfbacks; and Sawyer at full. Kinston: Sutton and Brown at ends; Lanier and Brinkley at tackles; Bradford and Jackson at guards; Abbott at center; Williams at quarter; Cater and Rochelle at half; and Crews at full.

Reserves seeing considerable action in the game included: Greenville: Tom Smoot Jr., Tommy Key Norris, Billy Dunn, Bob Howell, Charles Pollard, Edgar Moore, Angus Duff, and Barney Barrett. Kinston: Wright, Pittman, Evans, Henley, Sabiston, Randolph, and Hearn.

Hollywood, Sept. 23—(AP)—The Hollywood Stars clinched their first Pacific Coast League pennant since 1930 with a 7 to 4 victory last night over the Seattle Rainiers. It maintained the States' five-game margin over Oakland with only four games left to play.

The Hollywoods, perennial second division finishers in recent years, thus rose to the top in Fred Haney's first season as manager. Third place was the previous high attained by the club since 1938.

### Phantoms To Play New Bern Tonight

A high spirited Greenville High School Phantom squad, determined to conquer the New Bern Bears, will take to the East Carolina football stadium tonight for its second Northeastern Conference football engagement of the 1949 season.

Safely past their opener with a 13-6 victory over the Edenton Aces, the Phantoms went through intensive workouts this week to prepare for an invasion by the team which is expected to make a powerful bid for top conference honors this season.

The Bears, winners over Swansboro by a 77-0 score, are expected to present the Phantoms with their most formidable opposition of the year, second only to the team which the Kinston Red Devils boast.

Four shifts in Coach Farley's lineup have been made to strengthen the Phantoms. Tonight's game will see Jimmy Cox, outstanding back, running from the halfback slot instead of quarterback. Cox may bear the brunt of the Phantoms' offensive attack.

Passes may be brought into play by the Phantoms also. Quarterback Fye, young but impressive, has been doing most of the passing in practice this week. Coach Farley was reportedly well pleased with the progress of his passing attack during the practice sessions.

New Bern is expected to feature a hard-to-stop running attack led by two halfbacks named Jim Brown and Jack Gaskins. The Bears will probably outweigh the locals in every department, their roster boasting three tackles tipping the scales at well over 200 pounds.

The Greenville club will probably rely on speed, deception, passes and the ever-important will to win for its victory hopes.

Coach Farley reports his boys in good shape physically and in high spirits.

### Pro Grid Season Opener Was Just A Little Flat

New York, Sept. 23—(AP)—The 21 seconds before the end of the though hampered by rain, the opening of the 1949 professional football season in New York last night was somewhat of a frost.

Separated by only the Harlem River the National Football League and the rival All-America Conference put on their openers in the Polo Grounds and Yankee Stadium, respectively.

A sparse 8,246 watched at the P.G. as the Philadelphia Eagles, NFL champions, beat the New York Bulldogs (formerly the Boston Yanks), 7 to 0. At the Stadium, 14,437 turned out to watch the Brooklyn-New York Yankees nip the Los Angeles Donns, 10-7, in the AAC contest.

A first period touchdown by Bosh Pritchard stood up for the Eagles. The lightning-like halfback scooted 18 yards after seven minutes of play. The teams then spent the rest of the evening struggling through the rain.

Like their baseball cohorts, replacements won the game for the Yankees.

Harvey Johnson, place-kick specialist, booted a 30-yard field goal.

Trailing 7-0 at the end of the third period, the Yankees got back into the game when Rookie Sherman Howard dashed 79 yards to the Los Angeles' one yard line.

Then, Eddie Prokop, fourth-string fullback, went over for the score. Johnson converted.

The Donns tallied first in the opening quarter. Glenn Dobbs, shackled most of the evening by conditions, passed eight yards to Dixie Howell for Los Angeles' only score.

### Win 18-Inning Little Rock Duel

Little Rock, Ark., Sept. 23—(AP)—Toronto's tip top sailors are the world's softball champions of 1949. The Canadians battled through an 18-inning duel against Clearwater, Fla., here last night to win the World's Series of softball, 3-1.

Toronto went through the eight-day tournament without a defeat.

### Promoter Wins Richest Pacing Event, \$58,231

Delaware, Ohio, Sept. 23—(AP)—The nation's richest pacing event was won yesterday by a horse owned by the promoter of the nation's richest trotting race.

The fourth annual Little Brown Jug, a grand circuit classic, was won by Good Time, owned by Hamiltonian promoter William H. Cane of Gishen, N. Y.

The 1949 Jug was worth \$58,231.30. The 1948 Hamiltonian was valued at about \$69,000.

Victory by the highly favored Good Time was worth \$23,312.53 to his owner. It boosted his winnings for the year to \$48,415 and his two-year "take" to \$98,848.

### Vandals Hurl Rocks At Home Library Street Last Night

Police were called last night about 10 o'clock to the home of Thomas J. Morris, 111 Library Street, on complaint that vandals had thrown rocks or bricks at the house. Investigating policemen said a member of the family stated that some young men in a black automobile hurled the missiles. One of them landed on top of the house, the other struck a wire screen post on a porch, narrowly missing a window.

Police, it is understood, have a clue as to the identity of the nocturnal marauders.

### Sole Survivors From U. S. Entry

Tadworth, Eng., Sept. 23—(AP)—Johnny Palmer and Lloyd Mangrum, sole American survivors in the British professional golf tournament, had their work cut out for them today.

By nightfall at least one of them will be on the sidelines. There's a good possibility both will be out.

Mangrum, from Chicago, met Charlie Ward, member of the British Ryder Cup team, in one fourth round match. Palmer the Badin N. C., slammer, engaged Henry Cotton, long regarded as Britain's top golfer.

If they survive, the Americans play each other in the semi-finals in the afternoon.

Three members of the U. S. Ryder Cup team were ousted yesterday.

Sam Sneed, leading money winner on the rich American pro circuit, lost to Norman Quigley of Scotland, two up. Skip Alexander bowed to Ted McNeill of Northern Ireland, 3 and 1. Clifton Heafner lost to Frank Hill of Wales, 3 and 1.

The tournament, which carries a \$2,100 first prize, ends tomorrow with a 36-hole final.

### Louise Suggs Is Leading Field In Women's Open

Landover, Md., Sept. 23—(AP)—Cincinnati's Louise Suggs looked like a mighty tough golfer to beat today as the Women's National Open moved into the second day.

The former Carrollton, Ga., lass held a three stroke lead over her nearest rival — amateur Beverly Hanson of Fargo, N. D.—as play opened.

Already the 1946 Women's Western Open champion and Tam O'Shanter titlist as well, Miss Suggs yesterday fired a scintillating six-under-par 69—a women's record for the course—in the \$7,800, 72-hole medal play event at Prince Georges Country Club.

Miss Suggs was trailed by Miss Hanson, the Pasadena titlist and National Amateur semi-finalist in 1948. The North Dakota entrant was three-under-par with 72.

In 1914-15, while serving as vice-president of the National Bank of Commerce in Tulsa, the late Sam McIlrney coached the Tulsa U. football team to 12 wins, three losses and a tie.

In the U. S. Navy coffee is called "Joe."

## THERE OUGHTA BE A LAW!

# DOUBLE TROUBLE

By WILLIAM HOBSON

Chapter 12  
Peg Smith was a frustrated man, hating the vicissitudes of life that made him a man hunter, a bounty collector, or what he liked to call an exterminator.

The night of the raid on the Morgans, Peg Smith lay close by with a Winchester in his hands. When the shooting began he rode in close and shot the puncher out of the saddle.

He knew it was Joe. Of that there could be no doubt. And he knew from the manner Joe toppled out of the saddle from the smashing blow of the 450-grain bullet from the single shot that he was badly hit.

That was why Peg Smith had stared so coldly in the hotel lobby that night that Joe, apparently without a scratch, had walked through with Randall. He was puzzled and he simply couldn't believe it.

So now Joe Allison had showed up again tonight with Jim Swinnerton.

Peg Smith, with just enough liquor down him to make him dangerously belligerent, was going to find out why.

Peg Smith moved toward Swinnerton and Jay Allison. He hauled up and nodded, his eyes on Jay. "You look purty good for a man who's been on vacation," he remarked.

"I feel all right," Jay said. "Things all right at the ranch?" "So I heard."

"You didn't hev much luck givin' the boys a hand with them hosses. Maybe the shootin' unnerved you till you had to go home to settle yore nerves a bit."

"No doubt about it," Jay Allison answered quietly. "I've got good reason to have had nerves. That night of the raid a man took a pot shot at me and nicked my shoulder. Then the other night another man took a pot shot at me and almost did it again. Then he showed up a third time and ducked out of sight when he saw me. I came in from the line the other day and I found my warab ransacked. I expect I'll be a nervous wreck one of these days if that fellow keeps on sneoping around."

Smith's face flushed. "You hintin' anything?" he demanded.

"I'm just telling you that you're a four-flushing back-shooter who shoots from ambush and then goes around boasting about it. A yellow-bellied cur dog."

Swinnerton started to move in between them, but never had time to make it. He recoiled as Peg Smith's right hand flashed to his hip and Jay's went down simultaneously. Jay had stepped forward as he drew, and his left hand flashed out. For the second time a gun barrel flashed high and gave off a thudding sound as it struck a crumpled hat.

Jay stepped back, sheathing the pistol. "Some men," he said in a cold, flat voice, "just don't ever learn. When he comes to, tell him that if he ever makes trouble again I'll kill him."

Swinnerton bent over the unconscious man. "Here, you men, give me a hand," he ordered. "Lift him to the bar."

They hauled Peg Smith's lax figure up and over to his whiskey glass. Swinnerton poured a bit into the bleeding cut made by the hook hammer and the exterminator let out a groan. He opened his eyes, half fell over the bar, then struggled to straighten.

"Wha—" he began. "Shut up and drink this," snapped Swinnerton, holding out the glass. "You were looking for trouble. You found it. Joe should have shot you dead. You drink this and get out of this camp."

"I wouldn't do it," Jay's voice said. "He's a vindictive man, Swinnerton. He'd turn on you and the other men and spill the whole business to Randall or the law."

Smith had drunk the whiskey and turned. He could stand on his feet now and he was a little more sober. He ran an experimental hand up to his head and brought away fingers stained with blood.

"I guess you're right at that, Joe," the lawyer said. "I forgot for a moment. Smith, from now on you'll obey orders or suffer the consequences. That's the second time Joe's had to whack you over that thick skull because you ever got it. From now on you're under guard in this camp with orders not to leave it, understand?"

Smith didn't reply. He bent and picked up his hat and, unmindful of the wincing pain, put it on. He had regained some of his braggadocio. "Ain't you kind of fergittin' that Brad give orders fer me to keep prowlin' the Morgan herd of Randall's and try to figger out a way to git rid of them two night guards? Maybe Brad and me, bein' sorta close, might have somethin' to say about that. Maybe Brad, who's the real boss of this outfit, won't like it, savvy? You just fergit the whole business till he gets back."

He stalked out of the room before Swinnerton could reply and the lawyer turned to Turk and Jay. "You boys better get out of here and get back to your line camp. He's liable to load up and try again, and I want no more trouble here."

**FOR SALE OR RENT—HOSPITAL** beds and invalid chairs. Quinn, Miller & Stroud, Dial 2636. 23-5

## By FAGALY and SHORTEN

tonight." Jay saw the fear in his eyes, and understood. Swinnerton, the lawyer, was a man of brains; it took a man like Brad Morgen to handle a situation like this. "Let's go, Turk," Jay said. "He's right; there has been trouble enough tonight. Miguel, the Mexican horse thief from the Rio country, still leaned against the wall beside the entrance. "The senior," he murmured, "is very rapido with the pistol. Very, very rapido." (To be continued)

## NOTICE OF SALE OF PERSONAL PROPERTY

Under and by virtue of the authority conferred upon me by the Superior Court of Pitt County I will on the 11th day of October, 1949, at 12:00 Noon, at the Hubert Moringo homeplace three and one-half miles east of Greenville on the Greenville-Washington Highway, offer for sale for cash to the high-

est bidder, the following household and kitchen furniture and other personal property: 1 blue sofa, 1 colored blanket, 1 brown sofa, 2 covered brown chairs, 1 round table, 1 square table and cover, 1 kerosene lamp, 1 RCA Victor radio and table, 1 maple bed and springs, 1 maple chest of drawers, 1 maple wardrobe, 1 wardrobe with mirror, 1 washstand, painted mahogany, 1 iron bedstead, 1 table, 1 dining room table, six chairs, 1 china closet, 1 big trunk, 1 ironing board, 1 iron bed and springs, 1 iron bed (white) and springs, 1 iron bed, 1 small square table, 1 dressing table chair, 2 slat bottom chairs (one rocker), 3 feather mattresses, 1 mattress, 2 washstands, 1 table—ironstand, 1 porch settee, 1 porch chair, 1 small heater, 1 odd lot, pots, pans and dishes, 2 kerosene lamps, 1 wooden box, 1 John Deere corn planter, 4 plows, steel. # New ALLIS-CHALMERS MODEL WD

Of the 17 major improvements built into this tractor, here are three which in themselves place the WD in a class by itself:

- POWER ADJUSTED WHEEL TREADS** Power of the engine is used to adjust rear wheel treads to 10 different spacings.
- TWO-CLUTCH POWER CONTROL** Two clutches permit continuous operation of power take-off and hydraulic system — independent of tractor motion.
- FIVE-WAY HYDRAULIC SYSTEM** Complete hydraulic control of mounted and pull-type implements.

**FULL LINE OF IMPLEMENTS.** A complete new line of hydraulically-operated, quick-hitch companion implements — both mounted and pull-type — all matched to the power, speed and weight of the WD tractor.

### Pactolus Juniors Raise Money Selling Tobacco

Members of the junior class of Pactolus high school have found that selling tobacco is one of the most profitable ways to accumulate money in the class treasury to meet the expenses of the school year.

On Tuesday morning the ten members of the class accompanied by their teacher, Mrs. Heath, at-

tended the tobacco auction at the Farmers warehouse in Greenville where they had on the floor 106 pounds of tobacco that brought a price of \$80 per hundred.

The managers of the warehouse made no charges for selling the tobacco for the school children, and the Pactolus junior class returned to school with \$84.80 for the class treasury to be used to stage the annual Junior-Senior banquet and other activities during the school year.

### Thrill Slayer To Have Chance At Parole In 1953

Springfield, Ill., Sept. 23—Nathan Leopold, Chicago thrill slayer of young Bobby Franks in 1924, now has a chance for parole in 1953.

Gov. Abiel E. Stevenson of Illinois has cut the 44-year-old murderer's prison sentence from 99 to 85 years.

This makes Leopold, scion of a wealthy Chicago family, eligible to apply for parole in January, 1953, instead of in September, 1967—a difference of four and two third years.

Commutation was unanimously recommended by the state pardon board. It is Leopold's reward for good conduct in prison and for voluntarily risking his life in wartime prison experiments seeking a cure for malaria. Some other so-called "guinea pig" prisoners have got similar rewards.

### Madame Sun . . .

(Continued from page one)

1911 paved the way for the Red revolution.

Strange as Madame Sun's position may seem to the outside world, and perhaps to most Chinese themselves, it is causing no surprise in Nationalist government circles. Her political leanings long have been known to officialdom and to close observers.

Madame Sun probably got her introduction to Communism about 1921 when her husband, in his search for ideas on which to build a new China, invited Moscow to send him some advisers. This was done, and of course they promptly started a drive to establish a Communist party.

### Long Coal Strike Looms In Awaiting New Contracts

White Sulphur Springs, W. Va., Sept. 23—(AP)—With John L. Lewis' miners on a "no day work week," a long coal strike seemed possible today.

That term was coined by Lewis himself in describing the walkout which has kept the nation's 480,000 miners off the job since Monday. He indicated the no-day week will stay in force until a new contract is reached.

The United Mine Workers' chief bluntly rejected a two-year extension of the old contract yesterday. He declared the current dispute in the steel industry was blocking a wage settlement for miners.

Lewis and operators of the north and west, who have been meeting at this resort at intervals through the summer, recessed their talks until September 29.

Both sides reported stonewall opposition, and Lewis reverted to his old policy of "no contract, no work," at least for the course of the bargaining talks. The miners, who had been working a three-day week since their contracts expired in July, walked out last Monday in protest against suspension of pensions and disability payments from the three-year-old miners' welfare fund.

### Hiss May Seek Change Of Venue

New York, Sept. 23—(AP)—Reports circulated here today that Alger Hiss would seek a change of venue to a New England state when his re-trial on a perjury charge comes up Oct. 12.

Hiss, former state department official accused of lying when he said he never gave government secrets to a Communist courier, was in New York conferring with his attorneys but had no comment on the reports.

His first trial ended in a jury disagreement July 8.

### Warning

The State Highway Patrol office here today issued another warning to motorists that vehicles are required to stop when a school bus is loading or unloading passengers. The law provides a penalty of imprisonment and a fine, or both, for violations of this law.

Patrolmen have had numerous complaints that motorists speed by the school buses without regard for life or property and children have to scamper for their lives.

### Alleged Lottery Kingpin Fined In Brief Trial

Greensboro, N. C., Sept. 23—(AP)—Francis Duval (George) Smith was sentenced to two years in prison today, suspended on condition he pay a \$10,000 fine and court costs. He was charged with conspiracy to violate the lottery laws.

The sentence was imposed by municipal-county Judge E. Earl Rives after Smith pleaded guilty. Not a witness was heard.

The court heard only the recommendation of Solicitor E. D. Kuykendall that Smith, reputed to be one of the heads of a big lottery ring in the state, be heavily fined and given a suspended sentence.

"I believe," the solicitor said, "that the ends of justice will be met."

### Funeral Sunday For Milan W. Walker

Mr. Milan W. Walker, 57, died in Taylor Hospital at 11:30 o'clock Thursday night. He had been in failing health since last April and critically ill for the past ten days. Funeral services will be conducted at White Hill Baptist Church near Aurora Sunday afternoon at 3 o'clock by Rev. W. R. Crowder, Methodist minister of Vanceboro, and burial will be in the church cemetery.

Mr. Walker was born and reared near Aurora. He was employed by the Norfolk Southern Railway as a clerk and retired in April, 1949. He was located in Raleigh for several years and had been working in New Bern for about four years when he retired. He was a member of the Brotherhood of Railroad Trainmen. He was married to Elsie Foreman of Washington in 1918 and she died in 1943.

Surviving are two daughters, Mrs. Abe Cleve Jr. of Vanceboro and Miss Pauline Walker of Washington; two sons, Milan Walker Jr. and Robert Walker of Vanceboro; two grandchildren; three sisters, Mrs. Nona Paul of Chocowinity, Mrs. Cora Cayton and Mrs. Myrtle Lamm of Aurora.

### First Hesitant . . .

(Continued from page one)

veto power over steps designed to stop aggression and to maintain or restore peace.

Ultimately something like a world government has got to come into existence, Judd says, because: "It's intolerable for us to go on indefinitely in two worlds. It's got to become one world."

It must be an organization, Judd says, which will recognize there are differences between nations and provide a way of handling and reconciling the differences.

"I don't believe Russia is going to give up Communism and become Democratic any more than we are going to give up Democracy and turn Communist," he says. "But I do believe we can live together on a reasonable basis."

A working agreement will be possible, he says, when a set of circumstances is developed that will make it advantageous for Russia to come in and "dangerous to stay out."

That will be brought about, he believes, when:

1. Enough nations get together to guarantee that Russia and any other country can obtain justice without going to war.
2. These nations establish "such a preponderance of force that Russia can't win if she does go to war."

### Former Pastor Will Join In Homecoming

Ayden—The Rev. T. H. King of Wilmington will be the speaker at the annual homecoming service to be held at the Ayden Baptist Church Sunday morning.

The Rev. King is a former pastor of the Ayden Baptist Church. On Sunday night the church will begin a week of revival services which will be conducted by Dr. John U. Bunn of Morehead City.

**Cotton Market**

New York, Sept. 23—(AP)—Cotton futures opened today 10 to 20 cents a bale lower.

Noon prices were 10 to 55 cents a bale lower than the previous close.

Oct. 29-34, Dec. 29-70 and March 29-62.

Futures closed 25 to 50 cents a bale lower than the previous close.

Open	Last	Pvt. Cl.
Oct. . . . .	29.82	29.80
Dec. . . . .	29.69	29.63
March . . . .	29.65	29.60
July . . . . .	29.59	29.54
Oct. . . . .	29.02	28.98
Oct. . . . .	27.22	27.16

Middling spot 30.80, off 6.

**Hog Market**

Raleigh, Sept. 13—(AP)—(NCDA)—Hog prices slightly weaker. Tops of \$18.75 a tTarboro, Goldsboro, Wilson, Greenville, Washington, Kinston, and Rocky Mount; Richmond slightly weaker at \$19.25.

**Poultry and Eggs**

Raleigh, Sept. 13—(AP)—(NCDA)—Fryers and broilers steady to slightly weaker at 26 to mostly 27; eggs steady, A large 62.

**Grain Market**

Chicago, Sept. 23—(AP)—Brokers couldn't get very excited about grain futures trading today and prices were lower most of the time.

There was little in the news to interest traders, and many were on the sidelines awaiting new developments.

Soybeans rallied strongly near the finish and closed 1 to 1 1/2 cent higher, November \$2.26 1/2-\$2.27.

Wheat closed 1/2 to 3/4 cent lower than the previous finish, December \$2.12 1/2-\$2.13, corn unchanged to 1/4 off, December \$1.15 1/2-\$1.16, oats were unchanged to 1/4 down, December 65¢, rye was 1/4 off to 1/4 up, December \$1.43, and lard was 3 to 12 cents a hundred pounds lower, October \$10.92-90.

### N. Y. Stock Market

New York, Sept. 23—(AP)—Late demand for railway issues helped strengthen the entire stock market today. Casting off early indecision, the market moved ahead for gains of fractions to a point or more. Interest in the rails was a belated carryover from yesterday when the carriers surged ahead of other groups. Turnover was at the rate of around 1,200,000 shares for the full session.
