

### More Livestock Urged For N. C. In Coming Year

#### Prices May Be As Low Or Slightly Lower In 1950, But Outlook Said Good

Livestock prices will be as low or somewhat lower in 1950 but farm experts are recommending that North Carolina producers increase their production, particularly in the beef cattle and sheep departments. There will also be room for slight increase in swine production, the agricultural experts, expressing their views in the State College Extension service booklet, "Farm and Home Outlook," are saying.

In spite of the anticipated decline, beef prices will still be favorable, the booklet advises. Prices on sheep will be higher in relation to other stock prices, it is reported. Particularly is there room for increased production in sheep, the experts say. Recommending that the farmer who can handle sheep set up systems to control disease and losses due to dogs, the livestock specialists say the sheep producer has "excellent possibilities."

The slaughter of cattle, calves and sheep dropped one-third in the first nine months of 1949 compared with the same period in 1948. The present trend is toward rebuilding sheep herds and decreasing the slaughter of lambs and mutton.

No mandatory support prices will be on either beef or sheep. They may be supported from anywhere from 0 to 90 per cent of new parity. Wool prices, however, will be supported between 80 and 90 per cent of new parity. If 90 per cent, the support will be around 50 cents per pound. Wool will, in any case, bring a good price.

The 1950 pig crop may be five per cent or more larger than the 1949 crop with the price expected to be as low or perhaps lower. Price supports will be mandatory until March 31 after which they will be supported anywhere from 0 to 90 per cent of parity. Price support in March will reach \$16.65.

The experts advise farmers to watch seasonal fluctuations and to breed sows so hogs will hit the high market. Fall prices in August or September are expected to be some two dollars higher than in November and December.

Farmers should not let drops in hog prices discourage production, specialists say. The farmer who manages his sows will make a profit on his swine in 1950, they assure. They suggest that farmers stay in the hog business, pointing out that the producer who does so make more money than the farmer who is in and out of the business.

Increase in corn yields and better pastures and markets in North Carolina give the hog producer a favorable outlook, the experts surmise.

Peron Files Suit On Newspapers For 'Disrespect'

Buenos Aires, Argentina, Dec. 28 (AP)—President Juan D. Peron today had carried out his threat to prosecute the editors of Argentina's two biggest independent newspapers on charges of insulting him.

### First Copies Of City Code Arrive

#### Bound Copies Of New Codification Of City Ordinances To Be Available To Public Soon After First Of The Year

Mayor W. S. Stafford today received from the printers 10 bound copies of the new city code which was compiled by the board of aldermen and adopted October 6.

The city code, which will become effective January 1, was adopted by the aldermen after the city ordinances were reviewed and obsolete and conflicting ordinances were not readopted by the city officials.

Mayor Stafford said this morning the bound copies of the city code are not yet available to the public, but will be released soon after the first of the year. The price of the books, he said, will be determined by the board of aldermen.

"We now have a guide to go by," the mayor commented, "and it will be a great benefit to our court and to the police force."

Stafford said the bound volume contains the traffic regulations in addition to the other city ordinances, and that booklets containing the complete traffic regulations of the city will be given to members of the police force in the near future. He said a similar booklet containing fire ordinances pertaining to the city utilities will be distributed to employees of the utilities commission.

Under the leadership of Mayor Stafford, the board of aldermen began working on the new codification of the city ordinances soon after Stafford took office last July.

The city code which becomes effective Sunday is the first to be adopted in Greenville since 1928.

### Seeking Greater Voice In Forming Foreign Policies

#### Top Senate Republicans Say International Affairs Require Full Airing

Washington, Dec. 28 (AP)—Top Senate Republicans pressed today for a greater voice in shaping foreign policy.

International issues, they declared, should be thrashed out publicly, with GOP lawmakers taking a full part in major decisions.

"Before the president commits this country to a policy," said Senator Wherry (R-Nebr.), "Congress and the people should have ample opportunity to debate and discuss it."

The Senate Republican floor leader told reporters yesterday that such a procedure would call for a "non-partisan" foreign policy, in which government action would be shaped by open debate.

Recently Senator Vandenberg of Michigan, Republican leader in foreign affairs, said there should be no secrecy or gag in arriving at decisions on international affairs.

"Every foreign policy must be totally debated," he said, "and the loyal opposition is under special obligation to see that this occurs."

Vandenberg is known to feel that the administration has not cooperated fully with Republican leaders in determining foreign policy—particularly in the case of the Far East.

He told reporters there should be an "unpartisan" foreign policy in which neither party sought political advantage. He said this would call for frank cooperation and free debate in reaching a united front.

Wherry's approach was a little different. Instead of mentioning cooperation, he contended the issues should be decided by open debate with no commitment in advance.

Under the present "bi-partisan" policy, Wherry said, party leaders get together and determine a course of action before it is placed before Congress.

One man, a World War I veteran, has not been visited in 12 years; another, in numb despair, made up a "family" from hospital attendants when his own wife and children ignored him.

Telling this story of tragic neglect in a statement yesterday, the VA explained that families "just drift away" or want nothing to do with "crazy" men.

It told of "Mr. X," 88, who entered a VA hospital in 1944, and since then has been ignored by his wife and several children.

"They have neither written to him nor visited him," said the VA. "Sensitive about this disinterest, Mr. X has adopted a family. It consists of the ward physician, whom he fondly calls 'dad' or 'Uncle George,' and the social worker handling his case who is either 'baby' or 'baby dear.'"

The senior, Raymond D. Hair of Fayetteville, is wanted on a warrant charging him with the slaying of Roy W. Coble, 20, of Oakboro, a former Wake Forest student.

NEW URANIUM SOURCE  
Berlin, Dec. 28 (AP)—The British-licensed Sozialdemokrat said today new uranium deposits of low grade had been found near Wernigerode in the Russian zone.

Washington, Dec. 28 (AP)—Unless President Truman acts quickly and if he says that I am to take the Flying Arrow into Shanghai then I will take the Flying Arrow into Shanghai.

The 3,500 ton Flying Arrow arrived here yesterday. She is loading industrial chemical cargo and is scheduled to sail on Jan. 1.

### Red Ink Spending Declared Top Domestic Issue For 1950

#### Returning Lawmakers Chalked Up Red Ink Spending Today as Top Domestic Issue in the New Session of Congress Next Week

Democrats joined Republicans in deploring a state of financial affairs in which the government will have to go on borrowing from the people because its out-go is bigger than its income from taxes.

At that point, members of the two major parties parted violently in their comments.

Over many Democratic protests, Republicans put the finger on the Truman administration's "Fair Deal" program as the cause of the treasury's present financial woes.

Senator Taft of Ohio, who heads the Senate GOP policy committee, said even worse troubles are ahead if "Dem..." can push the Branigan farm subsidy payment through Congress.

In a weekly report to Ohio voters, he estimated that subsidies under such a plan would run to \$6,000,000,000 yearly.

The scheme would guarantee the farmer's income on some perishable products, letting those products reach their own price level on the market. Under the plan the consumer would benefit from the lower prices.

"Since the farmer and the consumer are the taxpayers, they would simply get a bill from the government to pay salaries to several hundred thousand employees required to administer the plan," Taft said.

Some Democrats, including Senate majority leader Lucas of Illinois, defended red ink spending as a necessary measure to insure world peace.

Washington, Dec. 28 (AP)—(P)—Congress. Returning lawmakers chalked up red ink spending today as the top domestic issue in the new session of Congress next week.

### U. S. Recognizes Infant Republic

#### Cochran Named First Ambassador To U. S. Of Indonesia

Washington, Dec. 28 (AP)—The United States today formally recognized the new government of Indonesia.

H. Merle Cochran was named as the first ambassador to the new republic.

The White House announced that Cochran has already presented his credentials.

As U.S. representative of the United Nations commission for Indonesia, Cochran had a major hand in bringing about the agreement that created the new republic in the East Indies.

Cochran has given up his UN post and also his post as ambassador to Pakistan to take over his new duties.

President Truman is appointing Edward H. Dow, Jr., of Nebraska as acting U.S. representative on the commission for Indonesia.

United States recognition of Indonesia has been in the cards all along.

The country vigorously promoted the settlement with the Netherlands which brought independence to the 17,000,000 Indonesians, and likewise defended their leaders against Soviet bloc attacks in the United Nations.

The State Department forecast late yesterday that the White House would act within 24 hours, after complying with "certain formalities."

Greenville Police Department reported this morning that a Negro man, William Daniels, 100 Evans street, Greenville, was shot in the leg last night near the armory.

Officer James Little, who was making his regular rounds near the buildings in the area, found the man.

The man told the officer that he "accidentally shot himself in the leg." Daniels was taken to a doctor to be treated for his injury.

SWOON SHOT  
Martinsdale, Mont.—(AP)—Mrs. Bertha Greenhagen, out hunting, sighted a big elk. She aimed carefully, dropped the animal with her first shot, then swooned. It took 30 minutes to bring her around.

Discovery of Fungi, tiny invisible "ants, growing in cancers was announced to the American Association for the advancement of science today.

The discovery is one of the most startling of this century.

The cancer fungi are the same that grow all around us, in soil, food, plants and trees.

They have been found in every cancer tested. The tests embraced 20 human cancers, including four different kinds, and 100 mice cancers.

The fungi never have been found in any healthy tissue, with one exception. They show in breasts of those species of female mice which are susceptible to breast cancer.

### Christmas Mailing For City Reached New High

#### Beauty Queen In Sudden Marriage

Litchfield Park, Ariz., Dec. 28 (AP)—A high school romance has blossomed into marriage for Miss America of 1949.

Jaquie Mercer, the national beauty queen, exchanged vows with Douglas Cook at the non-denominational Community Church here yesterday afternoon.

They have gone steady for the past five years.

The marriage was a surprise affair. Only last Friday the couple had announced their engagement and set the date at the altar for next July 4.

The new Mrs. Cook is a resident of Litchfield Park. She will be 19 next month. Cook, 20, lives in Phoenix, but has been studying art at the University of Chicago.

They left on a two or three day honeymoon last night, traveling in the 1949 car given Jaquie as part of her gifts for winning the Miss America title. Their destination was not disclosed.

The marriage immediately touched off a discussion whether Miss Mercer would be able to retain her title. At the time of the engagement, her mother, Mrs. Arthur Mercer, reported she had been informed by Miss America pageant officials it would make no difference.

However, at Atlantic City, Park W. Haverstick, president of the Miss America board of directors, said Miss Mercer's status would have to be determined at a special directors meeting to be called in a few days.

Professor Uses Airplane Daily  
Champaign, Ill.—(AP)—Earl Strong, director of the Business Management Service of the University of Illinois, often has breakfast at his home here, lunch in Chicago and dinner in Springfield, the state capital. He is home again in time for a midnight snack.

He uses one of the university's fleet of 34 airplanes to get to speaking appointments on schedule. Men in the University's Institute of Aviation believe that without the air service it would require three equally qualified men to do the same job.

Bidault Gov't Hangs On Vote  
Paris, Dec. 28 (AP)—The fate of France's government hung today on a vote of confidence by the national assembly on Premier Georges Bidault's tax increase program to meet a record-breaking budget for 1950.

Bidault climaxed an all-night session early this morning by asking for the second vote of confidence within a week.

RATE HIKE ASKED  
Raleigh N. C., Dec. 28 (AP)—The State Utilities commission has been asked to give permission to raise telephone bills in Elizabeth City, Edenton, Herford and Manteo.

Wiped Out  
New York, Dec. 28 (AP)—A father and mother and their two young children—all apparently dead since Christmas eve—were found today in their holiday-decorated East Side apartment.

Police said they believed the family was wiped out by carbon dioxide poisoning.

The makings of a Christmas dinner were in the refrigerator. Beside the children's bed was a decorated tree with packages under it. On a dresser was a package marked "To our daddy from your angels."

The dead were Andrew Gask, 33; his wife Veronica, 32; and their children Veronica, five, and Andrew, Jr., three. All were found dead in bed.

### Grover Smith Is Arrested; Bond Set At \$10,000

#### Four Manslaughter Charges Face Alleged Driver In December 10 Collision

Greenville, Dec. 28 (AP)—Grover Lee Smith, 23, of 200 Ridgeway Street, was arrested this morning by the State Highway Patrol and placed in Pitt County Jail under a \$10,000 bond, charged with four counts of manslaughter in connection with the death of four persons who lost their lives in a tragic two-car collision on the Falkland highway on December 10.

Smith was arrested by Cpl. John Laws and Patrolman Dick Chadwick early this morning and taken to the Pitt County jail where his bond was set.

Smith, allegedly the driver of one of the cars which carried two persons to their death, was recently released from Pitt General hospital where he remained on the critical list for several days following the accident in which he was injured.

Pitt County Coroner Griffin H. Rose stated this morning that an inquest will be held in the Pitt County Court House at 7 o'clock Thursday evening.

The accident occurred on a stretch of road which is known as "Dead Man's Curve," as the car reportedly operated by Smith was coming from the direction of Falkland and met the car occupied by Mr. and Mrs. W. R. Skinner, of Greenville, who were instantly killed in the crash.

Two occupants of the car in which Smith was riding, Ray Dunn and Wilbur Drake, died as a result of injuries received.

Marine Injured In Auto Accident Near Greenville  
One man was taken to the hospital with a hip injury and five other passengers escaped without being hurt, as the ship sailed on the New Bern highway around 1:30 this morning, about six miles from Greenville.

State Highway Patrolman Cpl. John Laws and Dick Chadwick reported this morning that Bill Nugent, a Marine stationed at Cherry Point, received a hip injury when the car in which he was riding got out of control, left the highway and turned over. "The car is just about a total loss," Laws said. It was being operated by Jack Fischer, also a Marine of Cherry Point.

The Greenville fire department's rescue truck was called to transport the injured man to Pitt General hospital.

Violent Storm Is Fatal To Eight  
Buenos Aires, Dec. 28 (AP)—A violent electrical storm lashed central and north Argentina last night and early today spreading death and destruction.

Eight persons died and scores were injured in the province of Buenos Aires. The casualty list may rise when reports from the rest of the storm area become available.

Hand Amputated Despite Prayers  
Memphis, Tenn., Dec. 28 (AP)—Betty Lou Marbury's right hand—the one she hoped prayer would save—was removed today.

A Baptist hospital nurse announced the hand was amputated because of the wrist and elbow.

Just before entering the hospital room, Betty's spirits were still high. Her faith and courage were unshaken.

Colonialism Is Dead  
It Took Courage For Dutch To Recognize Writing On The Wall, And To Abandon Rich Possessions; Effects; What Is Left; Future Sources Of Wealth Sought  
By DEWITT MACARENIE

Two years ago Queen Wilhelmina of Holland, in proclaiming a new partnership between the kingdom of The Netherlands and the Dutch East and West Indies, declared that "colonialism is dead."

It took courage to face the writing on the wall and truly interpret its significance. Colonialism or imperialism, or whatever name you wish to call it, is indeed on its way out.

Yesterday the United States of Indonesia, comprising the rich islands of the Dutch East Indies, came into full being as a sovereign nation. Thus was the accuracy of her majesty's pronouncement demonstrated in the major and by far the richest portion of her empire.

### Shipping Line To Defy U. S. State Dept. Warning

#### Hong Kong, Dec. 28 (AP)—Captain David Jones of Chicago, master of the Isbrandtsen Line Ship Flying Arrow, prepared today to take the vessel into Communist Shanghai in defiance of a U. S. State Department warning that he may lose his license for running the Chinese Nationalist blockade.

Captain Jones said: "I am working for Hans Isbrandtsen in New York and if he says that I am to take the Flying Arrow into Shanghai then I will take the Flying Arrow into Shanghai."

The 3,500 ton Flying Arrow arrived here yesterday. She is loading industrial chemical cargo and is scheduled to sail on Jan. 1.

The crew is expecting a 100 per cent bonus for the trip. Captain Jones said he had heard of some dissatisfaction among the 41 crewmen about the trip but so far none had complained directly to him or indicated they planned to leave the ship.

Jones received his warning on Dec. 17 through an American vice consul in Japan. The U. S. State Department has designated Shanghai waters as a "zone of danger" and cautioned American steamship companies against risking American lives and property in those waters. The state department said any American Captain taking his ship into Shanghai would stand a court of inquiry and risk the loss of his license.

The State Department has not officially recognized the Nationalist blockade.

Observing Holiday  
The courthouse and all county offices will be closed next Monday, January 2—New Year's Day—a legal holiday.

ABC stores also will be closed. M. Brown Hodges, chairman of the Pitt County Board of Commissioners, announced yesterday that the county offices will close in observance of the holiday.

The County Commissioners will not meet next Monday. The board will meet the next day—January 3, the chairman stated.

### There Is Always Hope

#### In Reviewing 1949, Emphasis Placed On Fact That Another Year Has Gone By And Peace Still Prevails; Gains Of Communism; How West Has Fared

By JAMES MARLOW

Washington, Dec. 28 (AP)—In reviews of 1949 great emphasis is put on this fact: another year gone and still peace in the world.

That's something, although no one really expected war this year, and, so long as there's peace, there's always this hope:

If, year after year, peace can be maintained somehow, someday, things will straighten out and there'll be no war.

Nevertheless, 1949 was a year of maneuvering, of getting ready for that time when—or if—the show-down comes.

This means that Communists now control most of Asia and Eastern Europe, with 731,000,000 of the world's 2,264,000,000 people now living under Communism.

There's no reason to believe that now, having gobbed up most of Asia, the Communists won't try to grab the rest. That try may be one of the most critical moves of 1950. If not in 1950, then later.

On the other hand the U. S. tied itself closer to western Europe by signing the Atlantic pact with its allies there and promising them plenty of arms to stand off a Russian attack.

Both these moves, by solidifying the west a little more, strengthened it in its effort to halt Communism. It meant, really, a U. S. promise to go to war if Russia attacked western Europe.

### Senator Expects Crisis In Coal

Washington, Dec. 28 (AP)—Unless President Truman acts quickly and if he says that I am to take the Flying Arrow into Shanghai then I will take the Flying Arrow into Shanghai.

### SATURDAY

8:00 p. m.—12:00 p. m.—New Year's Eve party at Country Club for club members and out-of-town guests.

## Many Attend Annual Dance

Approximately 800 college students representing all sections of North Carolina, and some students from South Carolina and Virginia attended the third annual Christmas dance of the Eastern Carolina Club of the University of North Carolina held last night in the Greenville armory.

The armory was decorated for the formal dance with blue and white streamers, the colors of the University, and the bandstand was trimmed with pine and other greenery.

Roy Cole and his orchestra of Chapel Hill played for the dance from 10 p. m. until 3 a. m. and refreshments were served in the game room of the armory all during the dance.

Greenville Police Chief Lester D. Page this morning said officers who were invited by the club to attend the dance reported the large crowd of college students orderly and well behaved.

Bobby Hackney of Wilson was general chairman for this year's dance of the club. Jack Wilchard of Greenville acted as chairman of the finance committee, and Jim Lanier of Greenville was chairman of the decorations committee.

## Last Rites Today For Mrs. Gentry Ippock

Mrs. Ruby Toler Ippock, 30, wife of Gentry Ippock of near Bridgeton, died at Taylor Hospital in Washington at 9:25 o'clock Tuesday morning after one day of critical illness. Funeral services were conducted at the home of her father, Frank Toler, near Ernul, this afternoon at 2:30 o'clock, and burial was in the Toler family cemetery at High Bridge near the home. The Rev. Randall Bennett, Free Will Baptist minister of Bridgeton, officiated.

Mrs. Ippock was born near Ernul and spent all her life in that community. She was the daughter of Frank and Rennie Pipkin Toler and in 1938, she was married to Gentry Ippock.

Surviving are her husband; four sons, David and Edwin Ippock of the home and twin infant sons; her parents; three brothers, Thad Toler of Aikin, Frank Toler of Vanceboro, and Robert Toler of Ernul; and four sisters, Mrs. Estelle Tripp and Mrs. Elizabeth Purifoy, both of Bridgeton, and Misses Hazel and Jessie Toler, both of near Ernul.

will follow in the Winterville cemetery.

The body will lie in state in the Reedy Branch Church one hour before the services.

Surviving are one son, Amos Bernice Braxton of the home; one brother, W. L. Tripp; two sisters, Mrs. Annie Brown and Mrs. Sude Faulkner of Ayden and seven grandchildren.

## FAMOUS ACTOR ILL

Vienna Dec. 28.—(AP)—Emil Jannings, famous German actor, was reported critically ill today at his country home on the Wolfgangsee in the U. S. occupation zone.

Bamboo often will grow to 60 or 70 feet in a few months.

## Bernice Godley Becomes Bride Of Laynelle Z. Ellis

Miss Bernice Godley, daughter of Mr. and Mrs. M. H. Godley of Grimesland, N. C., became the bride of Mr. Laynelle Zenetues Ellis of Greensboro, N. C., son of Mr. and Mrs. John C. Ellis of Clayton, N. C., in an informal ceremony in the Grimesland Methodist church at 10 o'clock on the morning of December 26th. The Reverend C. G. Nickens officiated using the double ring ceremony.

The bride, given in marriage by her father, chose for her wedding a suit of ice blue satin with matching bonnet and slippers. On a blue satin muff she carried a white orchid. The bride's mother, who was her matron of honor and only attendant, wore a suit of plum colored satin with matching hat and slippers and carried a nosegay of lavender mums.

Mr. I. M. Langford of Raleigh, brother-in-law of the groom, attended as best man.

Mrs. Ellis, mother of the groom, wore a suit of navy blue gabardine with matching accessories and a corsage of white carnations.

Preceding the ceremony, Miss Ona Bliss Lewis of Grimesland rendered a program of wedding music, and accompanied Mr. Ted Rome of Washington, N. C., who sang "O Promise Me," "All For You," and "O Perfect Love."

Mr. Harley K. Allgood, Jr., of Washington, N. C., brother-in-law of the bride and Mr. Claude Ellis of Clayton, brother of the groom, served as ushers.

On Christmas night, eve of the wedding, Mrs. M. H. Godley honored her daughter, Bernice, with a cake-cutting at her home in Grimesland. Festive holiday decorations were used throughout the house.

After the bride and groom had cut the first slice of cake, about 40 guests were served cake, coffee, and nuts by Mrs. H. K. Allgood, Jr., of Washington, sister of the bride, and Mrs. T. M. Langford of Raleigh, sister of the groom.

Mrs. G. C. Ellis of Grimesland honored Miss Godley at the regular meeting of her bridge club on the 7th of December. The house was beautifully decorated in the Christmas motif. Delicious party sandwiches, toasted almonds and party punch, also carrying out the Christmas color scheme were served. The bride-elect was presented a gift of silver in her chosen pattern.

Mrs. S. A. Porter of Grimesland and her daughters, Mrs. Curtis Phipps, also of Grimesland, and Mrs. Conrad Adams, of Angier entertained at a bridal shower for Miss Godley on the 8th of December. Lovely gifts of crystal and linen were arranged as Christmas presents under a brightly ornamented tree.

Bridal cakes and ice cream were served before bridge progressions, which were begun by the presentation of unique tallies designed to represent the home towns and counties of the bride-elect and her fiancé.

The hostesses presented the honoree with gifts of crystal.

Mrs. C. F. Galloway, Mrs. L. B. Whichard and Miss Jennie Newby Outlaw, all of Grimesland were joint hostesses at bridge honoring Miss Godley on December 12 at the home of Mrs. Galloway.

Brightly lighted Christmas bell on the door and mantel, gave a cheery note of welcome to the arriving guests. After bridge progressions the guests were served cake, nuts, coffee and bridal loes, artistically molded in the shape of brides, lovebirds, hearts and bells.

The honoree was presented gifts in her chosen patterns of china and crystal and a gift of linen by the three hostesses.

Mrs. R. H. Galloway of Grimesland was hostess at a bridge party honoring Mrs. Godley on the 13th of December. Miniature Christmas trees adorned the mantel and tiny bells marking the tables for bridge further carried out the Christmas theme. Green and white bridal loes were served by Mrs. Galloway and her daughter, Mrs. Elmore Hodges, also of Grimesland. The honoree was presented a gift of China in her chosen pattern by the hostess.

## Strength FOR THE DAY

A LITTLE CROSS AND A BIG CROSS

The cross has become an honored symbol throughout all Christendom. It crowns the church edifice, it stands upon the altar. Jewelers use the cross as the setting of some of their most beautiful pieces.

The cross we have been referring to is the cross of Christ. We are always willing that the cross be a symbol of God's love, but we are not willing that it be the symbol of our love. Jesus talked about the necessity of a man taking up his cross daily. There is a way in which it takes two crosses to save us from our sins—the big and glorious cross of Christ representing the sacrifice by which we are saved from our sins, and the thousands of little personal crosses—voluntary renunciations and sacrifices—which we must make every day if we would retain our salvation and deepen it. It takes the cross of Christ to make us Christian; it takes the daily embracing of the crosses of our own lives to keep us Christian.

### THE 1950 HARVEST

Unless the nation's farm experts have missed their guess, the farmers of the United States are going to have to tighten their belts another notch to compensate for the 10 per cent cut in farm income which is predicted for 1950.

Since the 1948 peak, farmers already have taken a 20 per cent drop in income, and another 10 per cent cut may well mean the difference between a profit and a loss unless the individual farmers take sound business precautions.

The experts have warned against over expansion, the like of which cost many a farmer his land in the early twenties, and they have urged the farmers to employ the best possible methods to get the highest net income from each crop produced.

Farmers have relatively little control over the market prices for agricultural crops, but through economical production, the farmers can hold to a minimum the cost of producing each crop he markets. And in the economical production will be the salvation of the farmers.

Should the agricultural empire on which the United States' economy rests collapse as it did a quarter of a century ago, there is a good chance the bottom will fall out of this country's economy again. If agricultural interests go in the red in 1950, the first pinches will be felt in sections such as Pitt county where farming is the principal interest.

The experts insist there is no immediate danger of the props completely collapsing under the country's agricultural interests, but they have flatly stated that the financial condition of each farmer in the country a year from now will depend largely on how much common sense he uses in the diversification of his crops to bring the high-

spring and fall tours next year she might gross \$60,000—still a long way from the rumored \$100,000.

But after all, let's break down and admit that \$15,000 a year is a fair to middling amount for a girl of 25 to be making.

To tease Margaret, they tell her that the only way a Republican can get into the White House is to marry her.

"I haven't any Republican boy friends now," she says. Would she go to Europe to study? Mag says no, for Helen Traubel, her adviser, (of Missouri) is as Margaret puts it, "every bit as good as the ones in Europe."

The Truman Taxes don't seem to worry Mag. Even if the government is extravagant with her money, she isn't.

And I thank you.

## Boyle's Column

By HAL BOYLE

New York—(AP)—Albert Einstein is a man who plumbs the secrets of the atom and the universe—and yet can't understand an income tax blank.

It is a measure of the humility of the greatest living mathematician that he cheerfully admitted in 1944 he had to call in a tax expert to help him figure how much he owes Uncle Sam.

But money always has been a matter of comparative indifference to this "scientist's scientist." He once used a \$1,500 check from the Rockefeller Foundation as a bookmark—and lost the book. He gave his 1921 Nobel prize award money to charity.

Now at 70 Einstein, regarded by many as the finest mind of our time, has crowned a noble life with a new theory of gravitation.

Its implications will be lost to the average man whose knowledge of gravity can be summed up in the phrase "all that goes up must come down." But science, in time, will have to choose between the theories of Einstein and those of Newton.

The theory of relativity, postulated by Einstein in 1905 at the age of 26, first shocked the scientific world.

## Washington Letter

Washington—Local citizens can drink out the old year in public but can't toast in the new. The last drink must be downed by midnight Saturday, Dec. 31. It's the law. Alan W. Payne, chairman of the District of Columbia Alcoholic Beverage Control Board, has flatly turned down a request of the Restaurant Beverage Association to keep bars open later on this New Year's Eve.

The District ABC law provides no alcoholic beverages may be consumed in licensed establishments after midnight on Saturdays or after 2 a.m. weekdays. And it specifically prohibits District officials from changing these hours.

Beers and light wines of 14 percent or less alcoholic content may whet a Washington's thirst, but not before 1 p.m. Sundays and not later than midnight. That is, in public. Residents may drop around the corner to the liquor store and buy a bottle to take home as late as midnight on Saturdays and the eve of national holidays. During the week the stores are open, under the law, from 10 a.m. until 9 p.m.

The law on licenses, violations and penalties is spelled out in fine detail in some 30 odd pages drawn up by the ABC board. Among other prohibitive measures, there is to be no bar drinking. Local citizens are not so much "whether a man can get drunker sitting down or stand-

ing up" as whether Washington wants to return to the brass rail system of barroom drinking.

Most bartenders prohibit customers from table-hopping with glass in hand. This baffles many visitors to the city. The bar men say it's "to preserve order." Other provisions govern what may and may not be said in advertising. There can be no religious, or semi-religious endorsements and "no Santa Claus, child, flag, coat of arms, no nude, or semi-nude" may be featured in a display. And "no false or misleading statements, no circulars, no drinking in the street, public park, or conveyances there-in," it says here.

The Distilled Spirits Institute reports 4.71 gallons of "hard" liquor per capita was consumed in Washington last year, as against 1.17 gallons for the nation as a whole. "It's natural," says Mr. Payne. "The population here is 950,000, but the capital is a market center for 1,125,000."

Washingtonians say it's hard to tell how much of the liquor bought here is consumed within the area limits. Those Marylanders and Virginians like a drink now and then, too, they say.

## Carcass Of Mammoth Is Preserved In Ice

Moscow—(AP)—Another mammoth carcass has been discovered preserved in an excellent state in perpetual ice. From Yakutsk it is reported that near this city the body of the ancient elephant-like beast was discovered at a depth of five meters below the surface.

## Around Capitol Square

(This is the fourth in a series of articles about progress in state government during 1949.)

Operations of state government are in three major fields—administration, regulation, promotion, and humanitarian-social services. Functions of the several departments overlap in many phases and accurate distinction is difficult.

There are definite humanitarian aspects in executive offices as well as specific regulatory powers. There are administrative phases in activities of conservation—development, agriculture and other promotional and regulatory agencies. Some of all can be found in the primarily humanitarian-social functions of the departments of education, health and public welfare. The highway and public works commission involves almost every facet of state government.

Previous articles have dealt primarily with administration. This one deals essentially with regulation. Others will discuss promotion and social services.

With allowance for exceptions and overlapping, regulatory authority of the state is vested mainly in the state auditor, the departments of justice, insurance, utilities and motor vehicles. The 1949 legislature approved additions to the staff of the state auditor and work of the office is current—despite addition of several agencies to be audited.

The general assembly also approved additional personnel in the bureau of investigation, a division in the justice department. Forward step was taken by designating counsel as the utilities commission as an assistant attorney general. Since the constitution makes the attorney general the legal adviser of the executive branch, consolidation of all administrative attorneys under his supervision would seem advisable. Next step in that direction will be to place counsel for the highway commission as a part of the attorney general's office.

The state insurance department has been more active during the past eight months than ever before since it was established. Some of

## Somebody Told Me...

By L. J. (JACK) EDWARDS, JR.

This world is full of dough-re-mi's, or call them money maniacs if you like. These people don't day dream; instead they sit around and wonder how much money the other fellow is making, or how much this or that costs. And why am I such an authority on these maniacs? You guessed it; I'm one. Of course I realize the thousands of things more important than money, but that doesn't keep me from being interested in the fil-

thy stuff.

A good example of this mania was the other day when I heard a rumor that Margaret Truman is making \$100,000 a year singing "for her supper." Perhaps a normal person would have believed it, refused to, or simply passed it off. I checked into the matter.

It didn't stand to reason that she's making more than her father, who is employed by the U. S. A. to raise taxes. The truth is that Margaret grossed \$30,000 and will net about \$15,000, B. T. (before taxes). After taxes she'll probably write her Daddy a "Dear John, slow up" letter.

They tell me this girl can sing. I've heard her on the radio, but since I'm tone deaf you can't prove eye or nose by me. But if she can't, somebody's getting syped. For a concert she gets \$1,500, plus a cut of the gate in the big halls.

Of the \$30,000 gross, she has to pay her agent's commission, traveling expenses for herself, accompanist and secretary, big sums for posters, circulars and other advertising material, and for coaching she gets from Mrs. Eva Zayde. For her Tuesday night radio show she gets considerably more than the \$1,500 for one concert, probably two or three times as much.

Maggie's agent, James A. Davidson, says "I don't intend to raise her agent's fee, with the concert business the way it is. With both

had reasonably caught up the slack by end of last year and were in position to inaugurate expansion programs which are just getting started. There is apparently more emphasis now on spreading these services to more people and distributing total cost among all patrons.

The motor vehicles department, which includes the highway patrol and safety division, has placed more emphasis upon highway safety. Despite enlarged effort to prevent accidents, the traffic casualty rate has gone up. More accidents were reported to heavier congestion on highways. Automobile registration passed a million for the first time in history, and records show more out of state cars used our highways.

Any discussion of state regulatory agencies must, of course, include the courts. Little change has been noted in this field. Governor Scott broke precedent by naming a woman to the superior court bench—Judge Susie Sharp of Reidsville. Considerable fanfare publicity about court reforms and additional commissions to study them has not resulted in specific accomplishments. Minor changes—minor so far as their impact upon the average citizen is concerned—were made by the general assembly in court procedure.

### Six Hundredth Marriage License Of Year Is Issued

By CHESTER WALSH  
 Yesterday afternoon at 3 o'clock Pitt County Register of Deeds Charles P. Gaskins issued the 600th marriage license of this year—1949.  
 He issued 15 licenses last Friday, the day before Christmas Eve.  
 Last year 647 marriage licenses had been issued up to the end of the year.  
 The register of deeds said today he anticipated many more applicants for licenses to appear in his office in the courthouse before the end of the year.  
 Incidentally, the 600th marriage license issued this year was in the names of Dr. J. W. Lynn, Jr., of Birmingham, Ala., and Miss Audrey Inez Worthington of Grifton.  
 Marriage licenses issued since December 22 follow:  
 White—Laynelle Z. Ellis of Clayton and Bernice Godley of Grimesland; Royce Haddock and Elizabeth Butler of Vanceboro; John A. Edwards and Ruth Norman Rouse of Greenville; Charles C. Smith of Winterville and Mary Elizabeth Nobles of Ayden; Dock Thomas and Gladys Gullipher of Snow Hill; James A. Sutton of Greenville and

Alice Brock of Farmville; Linwood H. Moore and Frances Rouse of Ayden; Melvin Buck of Greenville and Louise Venters of Raleigh; Aulsey G. Frazier and Lois Collins of Nashville; John A. Conway and Earline Stocks of Greenville; Curtis Landen and Janet Brown of Greenville; Art Frizzelle of Maury and Hattie Jones of Grifton; Herbert Savage, Jr. and Blanche M. Swain of Greenville; Earl Hill and Beulah Edmundson of Farmville.

### Baby Girl Born To Film Actress

Lausanne, Switzerland, Dec. 28.—(AP)—A baby princess was born today to Rita Hayworth, the glamorous red-headed movie star who married Moslem Prince Aly Khan last spring.  
 The baby, weighing about five and a half pounds, was born about eight hours after Rita made a pre-dawn dash to exclusive Montchoisi Clinic.  
 The new princess' name will be Yasmin, the Arabic spelling for the fragrant jasmine flower used in southern France for making perfume.  
 Prince Aly, unshaven, haggard, but smiling, made the announcement to newsmen outside the clinic doors.  
 "Rita had a very tough time," he said, but added with a smile: "It has gone off all right. She is very

tired."  
 The prince said the birth was a natural one, delivered under gas. Rita's first daughter by a previous marriage, was delivered in 1944 by Caesarian section operation.  
 Yasmin was born at 9:45 a. m. (3:45 a. m. EST.)

### Conserving Top Soil Is Stressed

Sanford, Dec. 28.—(AP)—One of the most important problems facing Tar Heel farmers, according to Agriculture Commissioner L. Y. Ballentine, is conserving top soil.  
 More than half of North Carolina's land surface of 31,450,880 acres has suffered some degree of erosion, Ballentine declared.  
 Speaking before the Sanford Rotary Club yesterday and quoting U.S. Soil Conservation Service figures, the agriculture commissioner asserted:  
 "Severe erosion, meaning loss of over two-thirds of the original surface soil plus some sub-soil, has claimed 3,027,840 acres, or nearly 10 per cent of North Carolina's land surface.  
 "In addition, moderate erosion has greatly reduced productivity on 5,785,390 acres, and slight erosion, involving loss of less than one-third of the surface soil, has occurred on something over 9,000,000 more acres."  
 He declared that conserving the "thin layer of life-giving topsoil which we have been recklessly dissipating" is one of the most important problems confronting the state's farmers.  
 Ballentine said "It is common to have reports of crop yields doubled by the use of adequate conservation measures without appreciable added cost of production."

### Didn't Carry A Gun; Lived To Ripe Old Age

Denver—(AP)—The way to keep out of trouble is an old-time Colorado mining camp was to leave your gun at home, Frank Stewart says.  
 Stewart avoided "lead poisoning" so nimbly that next year he will celebrate his 92nd birthday. Stewart lived in Tinchy, a Gunnison county gold camp, at the time it was noted for the high mortality rate of its law enforcement officers.  
 "There were rough young boys from all over the country, but they weren't really gunmen," the pioneer mining man said. "If they knew you had a gun, though, they often shot just to get in the first one. If you didn't carry a gun, nobody started shooting."

### Would Be Godfather To Seventh Children

Frankfurt—(AP)—West German President Dr. Theodor Heuss has offered to be godfather to every child born to a German family. Heuss followed the tradition of former German Presidents Paul von Hindenburg and Friedrich Ebert. They gave each seventh child of a family a small cash gift.

The higher up a mountain one goes the lower the temperature of water will be when it starts to boil.

### Best Movie Of Year Selected By Film Critics

New York, Dec. 28.—(AP)—New York film critics have voted "All the King's Men" the best motion picture of 1949.  
 Other best-citations, voted yesterday by the group of 17 film critics of New York metropolitan daily newspapers, included:  
 Best actress—Olivia De Havilland (for the second successive year), for her portrayal of the title role in "The Heiress."  
 Best actor—Broderick Crawford, for his role in "All the King's Men."  
 Best director—Carol Reed, for the direction of the British film, "The Fallen Idol."  
 Best foreign language picture—"The Bicycle Thief," an Italian film.

### Two-Timer

Honolulu, Dec. 28.—(AP)—Judge Clifton H. Tracy asked a man charged with drunkenness: "Ever been up here before?"  
 "No sir," replied the defendant.  
 "You sure?" asked the judge.  
 "I remember your face."  
 "Yes, your honor. That is—I've been before you once before. You married me."

TRIAL COSTLY  
 New Delhi, India—(AP)—It cost the government \$2,000,000 to try the eight men charged in the assassination of Mahatma Gandhi. N. V. Godse, who shot Gandhi, and N. D. Apte, his chief accomplice, were hanged. Three others received prison sentences.

### Colored News

Mr. Oscar Banks died December 25 at his home, 517 Vance street. Funeral services will be held from Mt. Calvary Free Will Baptist church Thursday at 1 p. m., Rev. E. M. Hill officiating.

Develop Variety In Strawberries  
 Davis, Calif. —(AP)— Two new varieties of strawberry have been developed by the University of California College of Agriculture here. Called the Campbell and the Cupertino, they are expected to mature at different times and thus spread the growing season farther.  
 Both are described as fresh market types, not particularly suited to canning or freezing.  
 Nearly 800,000,000 acres of western lands in the United States are classed as semi-arid and arid.

Hard to believe but —  
**This Buick costs less than Butter!**

MAYBE you never thought of it that way, since you don't buy butter in 3600-pound lots. But pound for pound, this pridel Buick SPECIAL sells today for less than store-bought butter!

Actually, it costs less per pound than some of the cars in the so-called "lowest price" bracket—less than any other straight-eight on the market.

Now that's a pretty important yardstick. Because cost-per-pound is a pretty stable measure of a car's merit. It takes skilful engineering, careful buying, efficient manufacturing to keep this figure around the half-dollar mark—and that's where it is on the 1950 SPECIAL 4-door Sedan.

The real point, of course, is that this is a Buick at that figure.

**ALL YOURS FOR ONLY 1,925.00**

The roomy 3-passenger 1950 Buick SPECIAL Coupe shown delivers for this figure, plus state and local taxes if any. Prices subject to change without notice. Prices may vary slightly in adjoining communities due to transportation charges.

**DYNAFLOW PRICE REDUCED \$40.** This 1950 Buick SPECIAL is available with Dynaflow Drive at \$40 less than November prices.

### House Of David Hoopsters Play Here January 4

The world famed bearded House of David basketball team will make its appearance here at Wright auditorium January 4 against the East Carolina alumni, Athletic Director of the College, Dr. N. M. Jorgensen announced today.

The House of David team, featuring the seven foot three inch person of Moose Ludka at center, will be making its second consecutive appearance at East Carolina. The team annually tours the United States, Canada and Mexico, playing over 300 games a season.

Playing 1,278 games, the boys with the beards have lost but seventy-eight, a record which they view as "a pretty fair country average in any body's league."

The fun loving Davids not only present high class basketball but also keep the fans in an uproar with their eccentric, comedy actions and clever line of chatter, while the game is in progress.

All the Hirsute cagers are former college and professional basketball stars. Long Moose Ludka, 265 pound giant who sports a size 15 played with Syracuse University and is still remembered for his defensive performance in holding down St. John's star center, Harry Bogoyoff, to six points in a Madison Square basketball tilt.

Bobby Roth, known in basketball circles as the fastest breaking forward in the game, played pro ball with teams in Detroit after playing in a Michigan college.

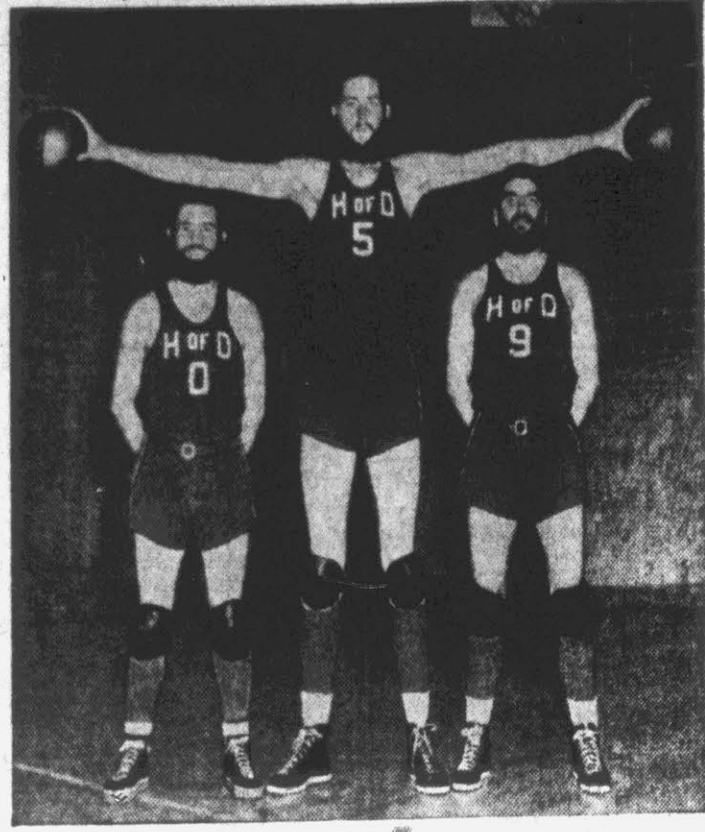

Toss Heavner, six foot, six inch guard, will be playing his fifth season with the House of David and has constantly been the ruler of the backboards in games during his career with the bearded team.

All-America Frank McKelley, star with the Detroit Gems, will be the Davids' chief scoring threat. Besides being a sensational basketball player he won 14 and lost 12 games as a baseball pitcher for the Amarillo-Texas Club last year.

Bud Scott, one hand shot specialist who scores with ease from the coffin corner, will hold down the forward positions with Roth, completing what the David's boast as being the greatest combination of forwards in the country.

The team will play in a matinee game at four o'clock for the school children. The evening game begins at eight o'clock.

### Have Size As Well As Beards

Long Moose Ludka, weighing 265 pounds and wearing size 15 shoes, is shown here with Bobby Roth (extreme right) and Bud Scott, (left), team mates on the bearded House of David basketball team which will make its appearance here January 4 against the East Carolina Alumni. Ludka is seven feet three inches tall.

### Wilkinson Takes To Crying Towel

Biloxi, Miss., Dec. 28—(AP)—"All year my boys have thought they were better than they are," Coach Bud Wilkinson unburdened today as his Oklahoma football team re-opened practice for the Sugar Bowl.

"I wish they would either stop that or get better," Wilkinson said. The words tolled the familiar tones of the mourning bell reserved for coaches' pre-game dirges, but Wilkinson was deadpan sincerity personified.

Oklahoma, the nation's No. 2 team, meets Louisiana State University Monday in New Orleans. After a week's layoff from practice Wilkinson wonders and worries if his players still are in condition. Other worries which plague him are:

Whether the novelty of playing in bowls has worn off. This is Oklahoma's second consecutive Sugar Bowl invitation.

Will the honor of playing in a bowl make L.S.U. too eager to handle?

Will L.S.U. take advantage of a psychological edge in being the underdog and try harder than Oklahoma?

And do Oklahoma players think more of a trip to the Gulf coast than they do of playing in the Sugar Bowl.

France and Holland for the Atlantic luxury trade. A 60,000-tonner is being built for the U. S. Lines, which now has the 26,314-ton America as its ace on the Atlantic run. The new ship is expected to be ready in 1952.

### Pete Alexander Awaits Verdict

Los Angeles, Dec. 28—(AP)—The years have not dealt kindly with Pete Alexander, but the great old pitcher never was a man to ask quarter.

And ask the men who played against him—he never gave much, either. The long, raw-boned Nebraskan who won 373 games in a 20-year National League career may be near the end of the biggest game of all. He's pitching against a cancer that already has taken one ear and virtually deafened him.

His words come haltingly from his County General hospital bed. Doctors here have yet to report their final diagnosis, but the cancer—says his divorced wife, Amy—stems from sun irritation on his fair skin during his long playing career.

Nearing 63, Ol' Pete—over Cleveland Alexander in the record books—would prefer to forget about most of the last 30 years. Much of it, especially with poor health in recent years, hasn't been pleasant.

### Tar Heels Due In Dallas Today For Workout; Rice Is Favorite

Dallas, Dec. 28—(AP)—North Carolina's Tar Heels come to town today to give Dallas Cotton Bowl fever.

Coach Carl Snavely and 53 footballers fly in this afternoon in time for a workout. They'll be told immediately that they're going to be under dogs in next Monday's Cotton Bowl battle with Rice, but that's nothing new. The Tar Heels are accustomed to taking beatings in bowl games—they've tried two in the last four years and lost both.

Meanwhile, Rice will be at it hot and heavy in practice at Houston. The Owls don't come to Dallas until Sunday, making a leisurely train trip.

There'll be quite a reception at the airport this afternoon when the North Carolina squad arrives at 2:30 o'clock (CST). Tyree Bell, president of the Cotton Bowl Athletic Association, will be master of ceremonies. Jim Hudson, representing the Dallas chapter of North Carolina alumni, will give the welcome speech for North Carolina with Mayor Wallace Savage responding for Dallas and Dan D. Rogers, chairman of the Cotton Bowl Board, speaking for the Cotton Bowl.

Forty Southern Methodist University co-eds will distribute ten-

gallon hats to the Tar Heels. The Highland Park High School band will play, then a police escort will take the football squad to Dal-Hi Stadium for its first workout on Dallas soil.

It's old stuff for eight members of the North Carolina squad. Three of them played in the 1947 Sugar Bowl game against Georgia and those three plus five others appeared in the 1949 Sugar Bowl game against Oklahoma.

But when it comes to bowl experience, just consider Rice. Eight of the men on this year's Owl squad played in the 1947 Orange Bowl game when Rice beat Tennessee.

Bowl veterans for North Carolina are backs Charlie Justice and Johnny Clements and End Kenny Powell, who played in the 1947 Sugar Bowl and these three plus end Art Weiner, guard Bill Wardle, center Irv Holdash and backs Eddie Knox and Paul Rizzo who appeared in the Sugar Bowl last January.

Rice's bowl-wise Owls are ends James Williams and Bill Taylor, tackle Ralph Murphy, center Joe

Watson and backs Tobin Rote, Harold Riley, Bobby Lantrip and Oather Pugh.

### Big Pot Of Gold For Pro Golfers In 1950 Campaign

Chicago, Dec. 28—(AP)—Professional golfers will shoot for a record \$625,000 pot-of-gold in prize money in approximately 40 tournaments of the 1950 campaign.

Announcement of the prize money awards, topped by the \$50,000 "World" championship at Chicago's Tam O'Shanter Club, was made yesterday by George Schneider, tournament bureau manager of the Professional Golfers' Association.

The next biggest financial plus will be the \$40,000 PGA tourney at Columbus, O., next summer.

PGA's 17-meet winter campaign, starting Jan. 6 with the Los Angeles Open, will carry a total of \$200,000 in prizes. The minimum winter purse will be \$10,000; the smallest summer tourney award will be \$15,000.

### Wofford Squad Leaves For Game

Spartanburg, S. C., Dec. 28—(AP)—The undefeated Wofford football squad leaves today for Tampa where the Terriers play the Florida State Seminoles in the Cigar Bowl Jan. 2.

A bus, two automobiles, a station wagon and a truck will transport the team, coaches and equipment.

The team will stop at Waycross, Ga., this afternoon for a workout. It will remain in Waycross overnight, and expects to arrive in Tampa early Thursday afternoon.

### Boston Braves Sign 2 Players

Boston, Dec. 28—(AP)—Boston's Braves, still striving for more tries, have signed two players for the 1950 season.

Earl Jorgensen, the bespectacled first baseman, signed yesterday. Sam Jethroe, fleet Negro outfielder, obtained from Montreal, signed in New York recently.

### Tight Finish In Cage Tourney

Oklahoma City, Dec. 28—(AP)—The Oklahoma Aggies and Vanderbilt have proven the controversial two-minute rule doesn't keep a basketball game from being exciting.

They wound up last night's session of the all-college basketball tournament with a tempestuous finish that gave the Aggies a 62-61 victory in the final two seconds.

### Last Night's Basketball

- St. Johns (Bkn) 51 Utah 50 (over-time)
- UCLA 60 CCNY 53
- Syracuse 54 Brown 52
- Duquesne 74 Idaho 53
- Boston College 45 Yale 33
- Dartmouth 62 Rochester 53
- Arizona 59 Texas Aggies 46
- Oklahoma Aggies 62 Vanderbilt 61
- Bradley 58 DePaul 66
- Illinois 58 Columbia 46
- Oklahoma 66 Iowa State 57
- Holy Cross 54 Xavier (O) 51
- Oklahoma City 43 Baylor 32

### Sees Tight Race

Chicago—(AP)—Defending Big Ten basketball champion Illinois is tough again, thinks Coach Harry Combes of the Illini. "We have a good, strong, well-balanced team," says Combes. "Our success in defending the title will depend on our ability to win the close ones, especially on the road. There has been little loss of strength among leaders of 1949, while teams that did not have success last season all are better. I look for a tight race."

### Winning Players

South Bend, Ind.—(AP)—Co-Captain Leon Hart, right end from Turtle Creek, Pa., and Bob Lally, right guard from Cleveland, completed their college football careers this season with the enviable record of never having played on a losing football team in either high school or college.

### LINKS RUNNERS-UP

Austin, Tex.—(AP)—The University of Texas golf team in 1950 will feature shooters who have been runners-up in NCAA play for the past two years—Ed Hopkins in 1948 and Morris Williams, Jr., in 1949.

### Offers 'Thanks' To Supporters

By CHESTER WALSH  
Bill Dole, popular football coach at East Carolina Teachers' College, who came to Greenville less than a year ago and "put ECTC on the football map," is grateful to college officials and the public for the support given him this season. The coach dropped into the Daily Reflector office and asked a reporter to convey a message of his "appreciation to those who did so much to make football at the college a success."

"First," Coach Dole said, "I want to thank President Dr. John D. Messick for his encouragement, and I would like to get over a message of appreciation to Dr. N. M. Jorgensen, athletic director, for the help he is giving us."

Dole paid tribute to Ed E. Rawl, chairman of the ECTC Football Stadium Committee, for raising the \$25,000 to provide the stadium. He spoke feelingly in his message of appreciation of Rawl's activity in raising the \$10,000 scholarship fund. "We are going to get some good football players," he commented.

"I like Greenville. I like the people of this section. I am happy in my job as football coach at ECTC. I promised nothing sensational before I came or after I arrived. But now, we have a vision of winning football teams at ECTC, and I would like for the paper to add a word about the students I had on my football team this season."

"Thank everybody for me. We are going to win more football games next season. It's inspiring to know that we have the college officials and the public supporting us," Coach Dole added.

It's estimated that 85 per cent of cattlemen in the United States are small operators with less than 300 head of cattle.

### Needs Polio Sports Drive

Grantland Rice, dean of American sports writers, again leads national sports drive for MARCH OF DIMES January 16-31. Under his chairmanship the entire sports world pledges 100% cooperation in the 1950 fight against infantile paralysis.

### Cat Followed Family Some 1,000 Miles To New Home

Chicago, Dec. 28—(AP)—Rusty, an orange and white cat, is a most remarkable animal, according to Joseph J. Toste, his wife and their three daughters.

Toste, a grocer, moved his family to suburban Forest Park last September from Belmont, Mass., a Boston suburb, and left Rusty with his father in Belmont.

Rusty, he said, showed up at his home last week. Toste said he was so amazed he telephoned his father, John Toste. He said his father told him Rusty left his home Sept. 26, soon after the family had moved to Forest Park.

"He couldn't believe the cat found us," Toste said. "He thought it had just run away."

According to the Toste family, Rusty apparently did run away—and without ever having been in the Chicago area before—traveled about 1,000 miles from Massachusetts to Forest Park. Some of Toste's neighbors have told him it must be just a similar cat.

But Toste, his wife, Christina and their daughters, Mildred, 11, Johanna, 8, and Loretta, 10, insist the cat is the one they had in Belmont. They back up their claim by pointing out an old injury to one of Rusty's legs and by photographs of the cat they had in Belmont.

Further, they say, the cat knows his name, sleeps on Mildred's bed just as it did in Belmont and has other habits which are identical.

### Cunard Line Is Said Planning Larger Vessel

London, Dec. 28—(AP)—Maritime circles reported today the Cunard Line is planning to build a liner bigger than the \$3,673-ton Queen Elizabeth—now the world's largest.

The reports said the huge trans-Atlantic ship will be faster than anything presently in service.

If the keel is laid down early in 1950 she will be ready for the Southampton-New York run some time in 1954.

Shipping quarters said the new leviathan of the sea could be regarded as Cunard's reply to challenges by the United States Lines.

In radio a "wave trap" is a device to prevent unwanted waves or signals from reaching the receiver.

# 1949 Studebaker's biggest year!

More people bought new Studebaker cars and trucks in 1949 than in any year before!

## THERE OUGHTA BE A LAW!

By FAGALY and SHORTEN

## Short of Murder

By Tom T. Ness

Chapter 34

"But I don't understand," said Franklin Sayre bewilderedly. Disregarding Sayre's perplexity, Hackett said: "Scott found the book, then hid it in the old grandfather clock. That was why he acted so queerly when I showed casual interest in a verse inscribed in gilt on the door of the grandfather clock. I hope Lavin didn't forget to look inside the old timepiece."

"I gave him your message before I left Boston," said Staley, resting his arm on the mantelpiece. "Well, then, who is the killer?"

"The man in the closet," replied Hackett quietly but forcibly.

"What?" the reporter bellowed, and looked accusingly at Franklin Sayre. "Larry, do you mean to say someone still is in there?"

Hackett nodded and asked Sayre, "Is it possible to open the rear wall of the closet from this side?"

Still bewildered, Sayre shook his head.

"Then," said Staley, "the fellow who tried to polish you off Thursday night is in the closet."

"Yes, Fred."

The brunette edged along the back of the divan to Hackett. "Are you all right?" she asked solicitously.

He turned his head and smiled.

"Yes, Florence Reynolds Sayre," amplified Hackett.

"That's what you think is it?" she said to Hackett, a faint smile on her beautiful face.

"Last Tuesday," said Hackett, "Mr. Sayre, after showing me through the rooms upstairs, told me a photograph of his niece was on the dresser. I had overlooked the photo while we were in his room, but I saw it this evening, just before I went to your room."

Laughing, she threw back her head. "I give up."

"And you, Miss Sayre, were rocking in a chair in your room when I was knocked out in the parlor, the night before last."

Her face sobered and her eyes turned involuntarily toward the closet door. "Yes," she admitted.

"Florence," said Sayre, "you haven't told me why you assumed the role of nurse."

"Well, Uncle, after completing my nurse's aide course, I returned home Thursday afternoon, only to find that you had gone to Boston on business; the cook told me so, then she quit her job as she often had threatened."

She went on, addressing herself to Hackett: "I locked myself in my room, about ten o'clock. I had hardly done so when I heard a car coming up the driveway. I sat up in bed and was rather frightened, knowing Uncle wouldn't have returned from the city so soon."

"Miss Sayre," said Hackett, "the car you heard must have arrived here a few minutes ahead of me, for it was only a few minutes after ten when I entered the house."

She nodded. "Soon after the car arrived I heard a creaky sound which seemed to come from the ground floor. I ran to Uncle's room and got his revolver. Then I sat in a rocker in my room, facing the door, with the revolver in my hand. Next I heard the buzzing of the mechanism in the hidden stairway. I didn't dare to move out of my room then; but when day broke I took a chance on going downstairs and was horribly frightened when I stumbled onto your body, Mr. Hackett. My first thought was to phone the police, but when I recognized you I thought it would be better to phone Doctor Reynolds, who lives miles out in the country."

"But, my child," exclaimed Franklin Sayre gently, "while subsequent events may show that your action was for the best, why didn't you have Mr. Hackett transferred to the local infirmary?"

"Uncle, dear," she replied softly, "I felt that an understanding with this rash man was necessary, even though you had to tell him everything. For unless somebody killed him he would have persisted in his plan here to solve the Eben Dancom murder. As things stood, you would sooner or later have had to defend yourself in court after you phoned me from Boston that you'd be home tonight, I did everything I could to detain Mr. Hackett, even to giving him sleeping potions."

The front door knocker sounded. Franklin Sayre went to answer the call and remained at the door, talking in a low voice with the new-comer. At length he returned to the parlor, with a husky, tawny-faced man in a salt-and-pepper worsted suit at his side.

"Lavin!" Hackett greeted him.

"Howdy, Larry!" The inspector strode leisurely to the divan. "Mr. Sayre tells me that you trapped a rat."

"Yes, without any bait, you big cheese," smiled Hackett. "Where is Virginia Lambert?"

of leaf. He opened the Hawthorne volume, fitted the fragment in place and read the complete inscription.

A Merry Christmas to Caleb Sayre and The Eighth Gable household.

Faithfully yours,  
Charles Cleghorn  
Dec. 26, 1871

"Who is Charles Cleghorn?" asked Hackett, handing the book to the owner of The Eighth Gable.

"He was my grandfather's first cousin," replied Sayre, his fingers caressing the rare volume. "And though I am greatly perplexed by the mysterious disappearance of this book from my home within the past week, I feel indebted to you, Mr. Hackett, and to you, Inspector Lavin, for its return."

"Well, let's get going," said the inspector.

(To be continued)

**Arms Shipments To Europe Lag**

Washington, Dec. 27—(AP)—American officials now estimate that United States arms and military equipment will begin moving to western Europe about Feb. 1—About a month behind schedule.

This delayed start means the administration will have only five months to use the \$1,000,000,000 Congress appropriated to rearm the Atlantic pact countries.

**HAS NEW NAME**

The Hague, the Netherlands, Dec. 27—(AP)—Starting today the name for the capital of the United States of Indonesia will be Jacarata instead of Batavia, an Indonesian spokesman said last night.

Jacarata means "important city."

Although television sets of direct view type put the picture on the flat end of a cone-shaped tube, it still is called a "screen."

**Premier Bidault Faces Possible Budget Defeat**

Paris, Dec. 27—(AP)—Premier Georges Bidault's coalition government faces possible defeat today in the parliamentary "battleground" of the budget for 1950.

Voting item by item has brought approval thus far of 1,518 billion francs (about \$4,330,000,000) of the record 2,267 billion franc budget. But still to come is the crucial test over the bitterly contested Bidault proposal to increase taxes needed to balance the budget.

If the middle-of-the-road cabinet is unable to win on its demands for hiked taxes amounting to 152,300,000,000 (\$440,000,000) Bidault has threatened to resign.

**Boy Said Wounded In Hunting Accident**

James Willis Cannon of near Greenville, was treated in Pitt General Hospital for a slight foot injury which he suffered in a hunting accident on the Marvin Smith farm. Details of the accident were not known at the time, but it was reported that the boy was struck in the foot by shot from a gun which another boy was holding. The lad was treated for his injury and released from the hospital.

**King David's subjects in Biblical days are said to have used raisins as a major part of the barter with which they paid taxes.**

**NOTICE OF SALE OF BONDS**  
\$250,000  
**COUNTY OF PITT NORTH CAROLINA, COUNTY HOSPITAL BONDS**  
Sealed bids will be received until 11 o'clock A. M., Eastern Standard

Time, January 17, 1950, by the undersigned at its office in the City of Raleigh, North Carolina, for \$250,000 County Hospital Bonds of the County of Pitt, North Carolina, dated December 1, 1949, and maturing annually on June 1, \$10,000 1952 and 1955, inclusive, \$15,000 1956 and 1957, \$20,000 1958 to 1961, inclusive, and \$25,000 1962 to 1969, inclusive, without option of prior payment. There will be no auction. Denomination \$1,000; principal and semi-annual (J and D) interest payable in lawful money in New York City; coupon bonds registerable as to principal only; general obligations; unlimited tax; delivery at place of purchaser's choice.

Bidders are requested to name the interest rate or rates, not exceeding six per cent per annum in multiples of one-fourth of one per cent. Each bid may name one rate for part of the bonds and another rate or rates for the balance, but no bid may name more than four rates and each bidder must specify in his bid the amount of bonds of each rate. Each rate bid must be for bonds of consecutive maturities. The bonds will be awarded to the bidder offering to purchase the bonds at the lowest interest cost to the County, such cost to be determined by deducting the total amount of the premium bid from the aggregate amount of interest upon all of the bonds until their respective maturities. No bid of less than par and accrued interest will be entertained.

Bids must be enclosed in a sealed envelope marked "Proposal for Bonds" and be accompanied by a certified check upon an incorporated bank or trust company, payable unconditionally to the order of the State Treasurer of North Carolina for \$5,000. The right to reject all bids is reserved. The approving opinion of Caldwell, Marshall, Trimble & Mitchell, New York City, will be furnished the purchaser.

**LOCAL GOVERNMENT COMMISSION**  
By: W. E. Easterling, Secretary of the Commission.

# In what other beer CAN YOU GET ALL OF THIS?

Look at our label. BUDWEISER has no secrets. Do you know of any other beer whose label proudly tells you what it is made of? The BUDWEISER label permits of no substitutions.

Our purchase orders prove that we pay premium prices for a special type of brewing barley. Then as good as it is, we sift out the small grains, for only the plumpest grains are good enough for BUDWEISER.

Many things contribute to that sought-for subtle flavor you find only in BUDWEISER. One of the most important is hop blossoms. Forty per cent of all European hops imported into this country goes into the brewing of BUDWEISER, because they provide certain factors that only the soil and climate of Europe can produce. These costliest of European blossoms are added to the finest domestic hops to produce the aroma all America prefers.

By steadily improving and refining production methods, the rice growers of America have achieved a product whose value as a food is

rivalled only by its value in brewing. For generations, Anheuser-Busch has used the finest rice in the brewing of BUDWEISER. To the goodness of premium-priced barley malt and choicest hops, costly rice adds factors that help to give each bottle of BUDWEISER a dependable stability and each glass of BUDWEISER brilliance, sparkle and a top-hat of snowy foam.

True lagering is costly and BUDWEISER is one of America's very few true lager beers. Lagering is a brewmaster's term for secondary ageing under exacting conditions. BUDWEISER'S long and costly secondary fermentation mellows the brew and produces BUDWEISER'S natural carbonation.

BUDWEISER cannot be made by time-saving short cuts. Thus vast ageing facilities are needed. To meet the demand, the home of BUDWEISER includes the largest lagering cellar on earth. We never surrender quality regardless of the cost to achieve it.

**A \$64,000,000 plant expansion program has been completed to meet America's ever-increasing demand for BUDWEISER. Besides, we are building a \$20,000,000 brewery in Newark, N. J. Now you can order the world's most famous beer and get it—instead of having to accept a substitute.**

**We confidently ask you to make this test. "Drink BUDWEISER for five days. On the sixth day try any other brand of beer. You'll prefer the distinctive taste of BUDWEISER thereafter." There's nothing like it... absolutely nothing.**

# Air Force Shoots Down Those Saucer Rumors; Inquiry Ended

Washington, Dec. 22.—(P)—After checking up on 378 rumors of weird and wondrous sights in the sky, the Air Force has concluded that there aren't any "flying saucers."

It took two years, a special team from the USAF's science staff, and help from University consultants to track down the rumors of strange discs whizzing through the air.

Last night the Air Force said "project flying saucer"—the investigation started by the air materiel command at Wright base, Dayton, Ohio, on January 22, 1948—has been ordered ended because there is nothing to show that the reports were "not the results of natural phenomena."

All evidence, it added, points to three factors—"Misinterpretation of various conventional objects; a mild form of mass hysteria or hoaxes"—as the origin of the flying saucer reports.

Under Air Force definition, "various conventional objects" include such things as meteors, balloons, birds in flight or just ordinary optical illusions.

The effect of last night's Air Force announcement was to deny a story appearing in the current edition of the magazine "True." The magazine said it had learned that "a rocket authority stationed at Wright Field has told 'project saucer' personnel flatly that the saucers are interplanetary and that no other conclusion is possible."

The Air Force last spring sought to shoot down the flying discs rumor with a long detailed discussion of the whole history of the rumors. It devoted a portion of that report to explaining why visitors weren't likely to arrive from other planets on space ships.

Among other things, the report questioned possibility of existence of men even on the relatively near planet of Mars. Even if men were there, the USAF doubted that they were a "technically established race" able to build space ships.

The people who said they saw

flying saucers varied widely. Some were housewives. A businessman back in June, 1947 thought he saw one while flying his private plane near Mt. Ranier, Wash. Other air-men began telling about odd-shaped "aircraft" moving at fantastic speeds or curious lights and discs. So the air force moved in to run down the rumors.

Air Force officials said today they were unable to estimate immediately how much the two years of investigation had cost.

## Josiah Johnson, Sr. Dies In Grimesland

Josiah Johnson, Sr., age 51, died at his home in Grimesland, Monday night about 9:30 following several months of illness.

Mr. Johnson is survived by his wife and eight children.

He recently spent some time in Johns Hopkins hospital where he underwent treatment.

Mr. Johnson lived for the past 12 years on the J. H. Edwards farm and had only recently moved to Grimesland.

## N. Y. Stock Market

New York, Dec. 22.—(AP)—Railroad stocks steamed in front of a narrow market today. Issues of New York Central and Pennsylvania R.R., in particular, were picked out for attention.

The balance of the market dwelled along without getting very far one way or another. Gains and losses were well balanced with few changes exceeding 1/4 point. Numerous leaders remained at Tuesday's final levels.

## Hog Market

Raleigh, Dec. 22.—(AP)—(NCDA)—Hog prices 25 to 50 weaker. Tops of \$15.50 at Tarboro, Greenville, Wilson, Goldsboro, Washington, Winston and Rocky Mount; \$15.75 at Richmond.

## Poultry and Eggs

Raleigh, Dec. 22.—(AP)—(NCDA)—Fryers and broilers weaker, mostly 20 to 21; eggs steady. A large 42.

Special Masonic Notice  
Greenville Lodge No. 284 A. F. & A. M. will hold an emergent communication Thursday night at 7:15 for the purpose of installing officers. This installation is going to be open to the public and since this is one of a very few occasions when

Masons make a public appearance, we trust you will favor us with your presence. Past Grand Master W. J. Bundy will be the installing officer and there will be a treat for all who come.

Remember the hour, Masons, 7:15. Public 8 o'clock.

H. J. SAWYER, Master  
A. R. HOUSE, Secretary.

**TASTY JOB**—F. F. Morris (left) and C. Wiggins perform job of ale testing, traditionally known as ale conners during ancient ceremony outside London tavern.

French and British Guiana are veritable hell-holes. Horror lurks at every step in the form of poisonous snakes, scorpions, centipedes, and all sorts of insects. Then there are vampire bats which attack while you are asleep, and huge anacondas which can crush a man or animal in its coils and swallow its victim whole.

But Surinam may prove to be a source of vast wealth on development. Whether the mother country will profit by that depends on the structure of the projected United Nations of the West Indies and Surinam. The Dutch settlers in Surinam want their independence and it isn't sure at this juncture whether they will be willing to combine with other colonial units.

In any event, whoever participates in opening up the Surinam jungle country may share in great wealth.

letes for the future is to encourage other Ticos in other Communist lands to throw off the Russian yoke.

When 1949 started Germany was

still split into two sections: the eastern part run by the Russians, the western part by the United States, Britain and France.

The west was still sending in supplies to its sections of Berlin by airlift, since the Russians—in whose section of Germany Berlin lies blocked all land supplies.

Finally the west and Russians made a deal, the blockade was lifted, and the airlift ended. But this didn't end the struggle for Germany between east and west.

Before the year's end the west had set up a German government in the west, and the Russians had set up another German government in the east. So the problem of Germany was still a total mess.

Yet, both sides want a United Germany—but for opposite reasons: The west wants a Germany that will lean toward the west, the Russians want it to lean to Russia. That's still un-

finished business.

As for the United Nations: It's greatest problem, trying to set up atomic control on a world scale, came to nothing.

So the year ended with the cold war still the cold war and the west and east still jockeying for position just in case, when and if.
