All Men Aboard Crashing Bomber Survive Ordeal

Seventeen Crew Members Of B-36 Parachuted To Islands Off Coast

BULLETIN McChord Air Force Base, Wash., Feb. 16—(AP)—Six crew members of an abandoned Air Force B-36 were reported still missing today along the rugged British Columbia coast.

McChord Air Force Base, Tacoma, Wash., Feb. 16—(AP)—All 17 men who fled a blazing, ice-sheathed American B-36 bomber early Tuesday morning by parachute survived the ordeal.

They landed on two rugged, wooded islands in the Queen Charlotte group off the northeast British Columbia coast about 500 miles northwest of here.

Ten of the men were flown here in a C-52 flying boxcar last night. The other seven, including one in serious condition, were to be brought off the 1,404 square mile Princess Royal island today.

Sgt. Vitale Trippodi of Brooklyn, N. Y., was the survivor in the most serious condition. His parachute landed him in a tree on a cliff, where he hung head-downward for 10 hours before Capt. Harold L. Barry, of Hillsboro, Va., pilot of the ill-fated bomber, and first Lieut. Raymond P. Whitfield Jr., of San Antonio, Tex., cut him down from the tree, brought him to a level spot on the 3,000-foot cliff face, and bedded him down on pine boughs.

Trippodi's foot was caught in a crevice of the cliff in his fall. Both his legs were reported gangrenous. Maj. Joseph C. Smith, commanding officer of Flight C, Fourth rescue squadron, said early today he understood Trippodi had been removed to the Canadian destroyer C-yuga for treatment.

The coast guard said the other six men would be brought to the beach by rescue parties today. They were reported located about three miles inland. Trippodi wasn't the only crash survivor to have trouble with a tree. S-Sgt. Dick Thrasher, 29-year-old gunner from Chilton, Tex., told interviewers last night that he landed in a big tree and "had to cut my sproud lines with a knife. I was hanging next to the trunk. After I cut the lines I slid down the trunk and slept until morning.

That night Thrasher, Lt. Col. Daniel V. McDonald of Arlington, Va., an observer but not a crew member; S-Sgt. James Ford, 23, radio operator from Holtenville, Okla., and Lt. Paul Gerhart, 26, radar observer from Germantown, Pa., made a tent out of a parachute and slept there until yesterday morning.

The party which arrived here last night had grouped on shore and was picked up by a Canadian fishing boat. A coast guard PDY flew them to Port Hardy, on the northern shore of Vancouver Island, whence the C-52 picked them up.

Nature Upsets Show Timetable

Fayetteville, N. C. Feb. 16—(AP)—A fickle nature that has upset the gardener's timetable this year has sent sponsors of Fayetteville's camellia show scurrying.

Early blooming flowers have caused the city's garden club to move the dates for the annual event up to Saturday and Sunday. The show originally had been planned for March 9 and 10.

FAVOR HALTING SUPPORT

Washington, Feb. 16—(AP)—The Senate Agriculture Committee voted 6 to 2 today to remove all government price supports from Irish potatoes until rigid planting and marketing controls are put into operation.

Secret Pact Terms

Observers Believe Hidden Agreements In Chinese-Soviet Treaty Will Be More Interesting Than Those Disclosed; How Did Mao Get Concessions?

By DeWitt MacKENZIE

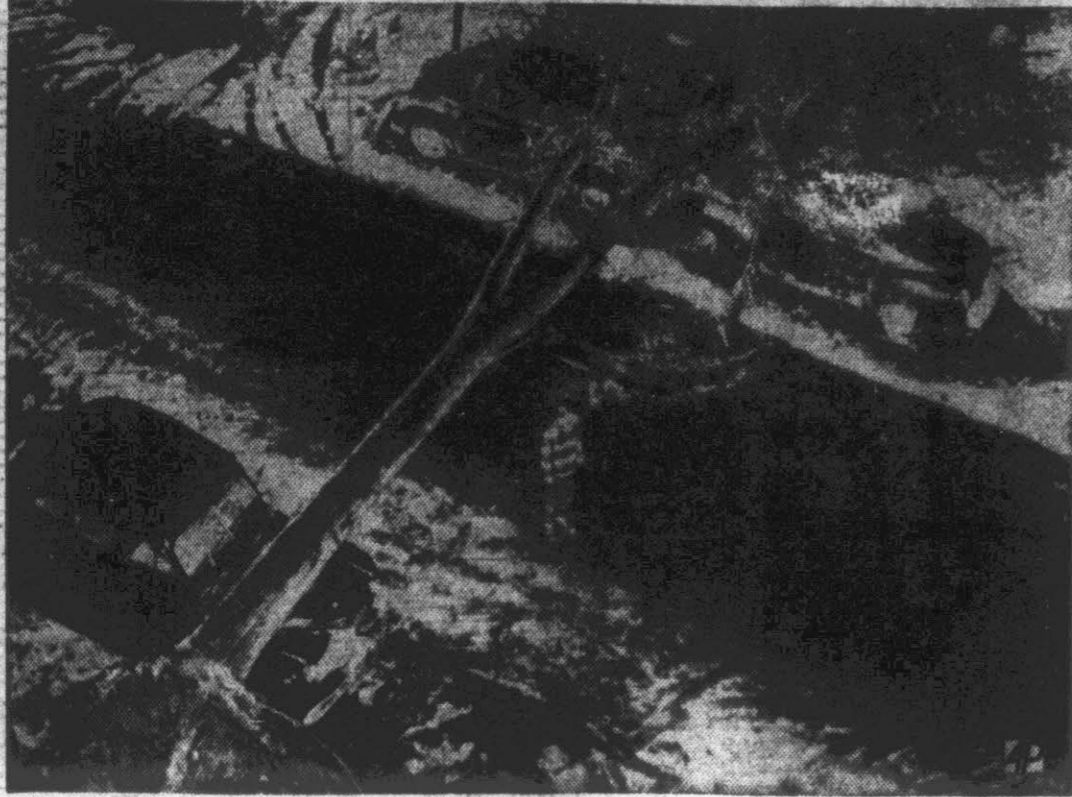

Moscow's announcement of the long-awaited Russo-Chinese treaty held by observers generally to be far more interesting for what it conceals than for what it discloses. As Washington officials say, the full import of suspected secret agreements may appear only gradually.

On the face of it the alliance would seem to be the written report of a love-feast, with Russia playing big brother to hard-hit China. However, the big point to my mind is that an agreement has been reached at all.

The manner in which Russia has kept extending its sphere of influence over northern China, and particularly in Manchuria, has been in direct opposition to the nationalistic ambitions of the Chinese Communists under leadership of General Mao Tze-tung. Yet Mao, who personally went to Moscow weeks ago to negotiate this pact, appears from the announcement to have won important concessions to China's sovereignty.

Now that a highly interesting development. We have observed that previous countries which have been brought into the Communist bloc

Fallen Tree Smashes Three Autos In Wind Storm

This large tree fell during a wind storm at Chicago and smashed three automobiles parked on both sides of the street. Not content with clipping the car at left, the tumbled giant reached across the street and caught two others. (AP Wirephoto).

Winslow Honored At Raleigh Meet

County Man Presented Award, Tribute Voiced By Congressman Cooley; Opposes Bureau Entry In Insurance Field

J. E. Winslow of Greenville, president emeritus of the North Carolina Farm Bureau, was presented a diamond state farm bureau pin by the women's division of the organization in Raleigh Tuesday night for his outstanding contribution to North Carolina agriculture and his constant efforts in behalf of the farm bureau and the welfare of the rural homes of the state.

The presentation was made at the banquet which was one of the highlights of the annual three-day meeting that was concluded in the state capital yesterday.

In addition to receiving the special award, high tribute was paid to Winslow by Congressman Harold D. Cooley, chairman of the House Agriculture Committee, in his address in which he praised the Pitt county man for his unselfish service to the farm organization through the years, and for being the founder of the North Carolina Farm Bureau.

Commenting on the meeting Winslow said, "I think it is the best meeting we have ever had. The meetings have been progressively better as our membership has increased, but I think this is the best so far."

When asked this morning about the resolution passed at the meeting calling for a referendum of the membership concerning the bureau sponsorship of an insurance program, Winslow declared, "I think it is a mistake for the farm bureau to go into the insurance business. I don't think the farm bureau should go into any business."

"When we started in 1936 it was our aim to promote a good program for farms and to improve conditions for farming. When I started the farm bureau I made the statement I didn't have any idea of going into any kind of business. One of our main lines of strength has been the cooperation from bankers, merchants and businessmen who have been associate members of the farm bureau."

ECTC Trustees Meet, Discuss Building Plans

The Board of Trustees of East Carolina Teachers College met on the campus here yesterday, discussed the building program at the college, approved a list of fifty-two candidates for degrees at the end of the winter quarter, and considered routine business connected

Secret Pact Terms

By DeWitt MacKENZIE

by agreement—like those of Eastern Europe—have become satellites of Russia. Their sovereignty rests in Moscow. When Yugoslavia, under leadership of Marshal Tito, reverted to nationalism she was kicked out of the Red fold.

Has the reputedly sagacious Mac overlooked a bet somewhere, or has he really got something? We shall know in due course—and so will he.

There are, of course, differences between the satellites of Europe and the mighty land space of China with its population of close to 500,000,000. China is just too big and unwieldy to be regimented like one of the Balkan states. Moreover, Russia's operations have made it clear that she intends to use China as a base for the drive to bring all Asia into the Red fold.

Diplomatic authorities in Washington say the treaty is designed partly to hamstring the American policy towards China. That policy, as laid down by Secretary Acheson, is based on the hope of a conflict of interest between Russia and China and especially in Manchuria. If Moscow really hands back to

Offers Measure To Curb Unions

Bill Would Make Unions Subject To Anti-Trust Laws

Washington, Feb. 16—(AP)—Senator Robertson (D-Va.) called today for speedy enactment of a bill which he said would curb the "monopolistic power" of John L. Lewis.

The measure would make labor unions subject to the anti-trust laws if they restrained trade unreasonably in industries affecting the national health and safety.

Robertson, sponsor of the bill, said in a statement prepared for a Senate Judiciary subcommittee that Lewis, chief of the United Mine Workers Union, is "vested with monopolistic powers."

Lewis, the Senator added, is using powers to control the production as well as the price of coal.

That is the effect of the three-day week put in effect by Lewis, Robertson told the subcommittee.

Lewis' tactics, he added, tend to drive out small business and "put remaining big business under the control of a monopolist."

Robertson said that actually Lewis' "control of production and prices" has spread to allied industries "and has had a serious impact upon our whole economy."

"The country has refused to accept monopolistic dictation by industry leaders and it should not be required to accept any such dictation by a labor leader, x x x

"In fact, no business combination of which I ever heard has achieved the kind of arbitrary power and control that John L. Lewis now possesses and wields.

An Idle Mine, An Idle Miner

Refusal of miners to return to work without a contract has brought scenes like this to many sections of the nation's coal fields. Frank Harper (right), a dispatcher at the Pittsburgh Consolidated Coal Company's Montour mine No. 10 at Library, Pa., gazes at the idle mine tipples. Miners stayed away from the pits here and all is quiet. (AP Wirephoto).

Solon Calls For Renewed Effort Approach Russia

Would Not Close Any Avenue of Approach To Settlement Of Differences

Washington, Feb. 16—(AP)—Senator H. Alexander Smith (R-NJ) today called on the Administration to explore every means of reaching agreement with Russia even to the point of a meeting between President Truman and Premier Stalin.

"We should not close any avenue of approach to a settlement of our differences," Smith told reporters.

He said if a satisfactory way could be found, then President Truman might be able to "sit down with Stalin" and try to work out an approach to the problem of world peace.

He said also that the United Nations should be kept in the center of any moves to bring the nations of the world together in a peaceful community.

A White House official said yesterday that Mr. Truman in reviewing the deterioration of Russian-American relations believes the U.S. ended the war-time lease-lend program "too abruptly."

Presidential Secretary Charles O. Ross said he did not know whether the President's feelings now might be the basis for a new approach to the Russians.

Deputy Undersecretary of State Dean Rusk told a Senate foreign relations subcommittee yesterday the State Department is ready to open discussions with Russia at any time on all "outstanding issues" of dispute.

He indicated such conversations should be within the United Nations since the welfare of other nations would be vitally affected.

Law Enforcers Begin Plan For War On Rackets

Washington, Feb. 16—(AP)—The nation's law enforcement officials today began whipping up a "master plan for moving in on the rackets."

The decision to set in motion an organized crackdown on the country's multi-billion-dollar gambling machinery was taken yesterday by Attorney General McGrath's National Conference on Law Enforcement.

The steps proposed in this direction ranged from "moral influence" to far-reaching new legislation by Congress, along with the closest possible cooperation among federal, state and local authorities.

President Truman, who briefly attended the conference sessions at the Justice Department yesterday, suggested a moral crusade against crime.

Harvests Quart Of Strawberries

Goldboro, N. C. Feb. 16—(AP)—A strawberry farmer in Wayne county has already harvested a quart of ripe berries and finds that many of his plants are nearing the stage of maturity.

Sim Jarmon, Negro of Mount Olive, has produced the berries some four weeks before the normal strawberry harvest begins.

Negro county agent George McDaniel said the berries were just as good and as ripe as those produced at the season's height.

VISIT BY BYRD

Raleigh, N. C. Feb. 16—(AP)—Virginia's Senator Harry F. Byrd is scheduled to address the N. C. Citizens' Association March 15, association vice-president Lloyd Griffin announced today.

Lewis Hinted As Preparing To Stiffen Money Demands

Warns Motorists

Police Chief Lester D. Page today warned Greenville motorists that there is a city ordinance requiring all locally owned motor vehicles to carry a City of Greenville license tag. The plates cost a dollar each at the city clerk's office in the City Hall.

The city ordinance provides a fine or imprisonment or both for owners of motor vehicles who violate this law.

Tie Vote Keeps FEPC Bill Out

Committee Chairman Pessimistic Over Clearance To House

Washington, Feb. 16—(AP)—The House Rules committee refused today by a 6-6 tie to clear an anti-job committee pigeonhole where it had action.

Four Democrats and two Republicans voted to keep the bill in a committee pigeonhole where it has been since last summer. An equal number of Democrats and Republicans voted to give the house a chance to settle the issue.

Voting to approve the measure were Reps. Herier (R-Mass) Brown (R-Ohio) Delaney (D-NY) Madden (D-Ind) McGowan (D-Ohio) and Sabath (D-Ill).

Voting against the bill were Reps. Allen (R-Ill) Wadsworth (R-NY) Cox (D-Ga) Howard Smith (D-Va) Colmer (D-Miss) and Lyle (D-Tex).

Chairman Sabath told news men proponents of the bill will try to pass it next Wednesday under procedure sharply limiting debate. He seemed pessimistic, however, about the chances.

(Continued on page eight)

Truman Believes Time Not Ripe For Peace Talks

Mission To Moscow At Future Time Indicated; Cool To Churchill Idea

Washington, Feb. 16—(AP)—President Truman hinted today that he still has in mind a possible special peace mission to Russia at some future time.

At a news conference, he also said the American door is always open to international negotiation for control of atomic weapons.

He dashed cold water on the idea of a possible "Big Three" meeting abroad, newly raised by a campaign speech of Winston Churchill, former British prime minister.

The President repeated what he has said before—that he doesn't intend to go outside this country to meet with Stalin, or any other state head.

The matter of a possible special mission to Moscow was raised by reporters who asked Mr. Truman about a story Arthur Krock had in the New York Times yesterday.

Krock quoted Mr. Truman as saying in an interview that if a political campaign had not been in progress in 1948 the President would have sent Chief Justice Fred M. Vinson to Russia to try to "straighten out" Stalin and other Russian leaders as to American intentions.

Krock also quoted the President as saying maybe that would be the thing to do some time.

In response to a question as to whether he thought the time has come to see Stalin, Mr. Truman replied that he does not.

Leaves Sum To Establish A Home For Aged In City

A check in the amount of \$2,000 was turned over to three Greenville men who were named in the will of the late Mrs. T. A. Person as trustees for the fund which is to be used for the purpose of establishing in Greenville a home for aged people.

Sam B. Underwood, Jr., attorney for the estate of the late Mrs. Person, Saturday turned over to J. H. Waldrop, one of the trustees named in the will, a check for \$2,000. The other trustees named for the fund are R. M. Garrett and James T. Little.

Waldrop said according to the will of the late Mrs. Person steps must be taken to establish the home within five years after Mrs. Person's death or the fund is to be converted into a charitable trust.

He added, "It is the hope of the trustees that such a home will be started in Greenville in that these funds can be made available."

Miss Martha Lee Cowell, a spokeswoman for the Kings Daughters, said the Greenville chapter of the organization has been working on a project for a home for old people "some time, and recently

conversed with the county commissioners in reference to purchasing the old Tucker house for use as such a home.

The stipulations in the will said the funds for the home are to be turned over to the board of trustees of any home for aged persons of the white race which is established in or near Greenville if in the discretion of the trustees of the fund the home will be permanent and carry out the purpose of the fund.

The portion of the will of the late Mrs. Person which referred to the fund reads in part:

"In the years since the death of my late husband, T. A. Person, I have been impressed with the need existing in the city of Greenville for some home or place where women of advanced years might have comfortable, convenient and pleasant living accommodations. In the hope and in the desire that the bequest which I propose to make herein will serve as a means of beginning the establishment of such a home, I do now give and bequeath the sum of two thousand (\$2,000) dollars in cash to R. M. Garrett, J. H. Waldrop and James T. Little as trustees . . ."

Speight To Represent County At Soil Meeting

Four representatives from Pitt, Martin, Edgecombe and Greene Counties will be among the thousands of farmers who will meet in Atlanta February 27 through March 2 for the annual convention of the National Association of Soil Conservation Districts.

M. O. Speight of Pitt County, secretary-treasurer of the Coastal Plain soil conservation district, will represent the county at the meeting. He will be accompanied by W. W. "Cap" Eagles of Edgecombe County, chairman of the local district and president of the North Carolina association of district supervisors, A. C. "Lon" Edwards of Greene County, vice-chairman of the local district and past president of the state association, and C. U. Rogers of Martin County, member of the local district board of supervisors.

The representatives at the national convention will confine their discussion topic to the one big subject: "Protection, Improvement and Proper Use of Land and Water."

W. Connor Eagles of Greenville unit conservatorship of the soil conservation service, in commenting on the representatives from this area who will attend the meeting said "These district supervisors serve as chairmen of the local soil conservation committees in their respective counties, and are recognized as very active leaders in soil conservation programs in county, district, state and the nation.

Call 3356

City subscribers who do not receive their Reflector by six p. m. are requested to report same by telephoning 3356 between six and six-thirty p. m. After that hour the circulation department will be closed and deliveries will be made of paper missed.

Presidential Observer Declines To Tell Whether Step Already Taken; Effects Of Coal Strike Rapidly Spread; Consequences Of Long Strike Raised

Washington, Feb. 16—(AP)—Hints that John L. Lewis is readying stiffer money demands on coal operators came today as strike effects spread steadily in basic industries using coal for fuel.

David L. Cole, President Truman's personal observer in the court-directed coal dispute bargaining meetings, declined to tell reporters whether Lewis already has boosted his demands.

Lewis, barred from seeking four of his contract terms, is reported determined to get instead a healthy wage and welfare fund boost, a shorter work week and a seniority system for employing miners.

Besides the union shop and union-controlled welfare fund set-up, Lewis now is insisting that miners work only when "able and willing" and that they may take long "memorial period holidays." These clauses have been bitterly opposed by the industry.

Previously Lewis has indicated he would settle for a \$15 daily wage for miners, compared with the present \$14.05 rate, and a 35-cent tonnage royalty for the welfare fund for miners' pensions and other benefits in place of the present 20-cent royalty.

Now Lewis may insist on a pay increase to \$15.50 and a 40-cent royalty, with a seven-hour work day instead of an eight-hour day, along with assurances that older miners will retain their jobs if there is any firing.

A presidential adviser, John D. Clark, warned of "terrible" demoralization in industry if the strike continues two or more months, with "serious unemployment."

Clark is a member of the President's Council of Economic Advisors. The council's former chairman, Edwin G. Nourse, said in a separate speech here that a prolonged strike would bring severe and general economic distress.

Steel plants and railroads have suffered most so far. Most other plants depending upon electric energy were getting by.

President Truman's observer, Cole, said negotiators spent a lot of time in the initial bargaining session yesterday discussing the general economy of the coal industry—both sides blaming each other.

One matter dwelt upon was the accepted fact the industry can produce far more coal than the country needs. This was considered a build-up for demands by Lewis for a seven-hour work day—to share the work among miners—and the seniority system, to protect miners' jobs.

An argument by Southern producers for a bargaining session with Lewis separate from the operators representing other areas threatened to break down the bargaining sessions yesterday.

Rent Controls In Hickory Ended

Washington, Feb. 16—(AP)—Rent controls were ended today in Hickory, N. C.

Housing expediter Tisha E. Woods said he agreed with the decision of the local rent advisory board that the demand for rental housing in the areas had reasonably met.

SCOTT IN WASHINGTON

Raleigh, N. C. Feb. 16—(AP)—Gov. Scott was in Washington today attending the Democratic party's annual Jefferson-Jackson Day dinner. The \$100 a plate affair raises funds for the party's coffers.

Your Tax Deductions

Be Sure You Take What You're Entitled To, in Filling Out Your Tax Report; Which Form To Use; Filing For Single Persons, And Married; Some Examples

By JAMES MARLOW

Washington, Feb. 16—(AP)—Be sure, in filing your 1949 income tax return, that you're getting all the deductions you're entitled to.

These deductions for personal expenses—hospital bills and charitable contributions—are subtracted from your income before what's left of it can be taxed.

You have no problem if your income was under \$5,000 and your deductible expenses were less than 10 per cent of your income.

You'd make your return on form 1040-A or the short 1040 form. Every one using either of those forms automatically is allowed—without claiming or itemizing—a deduction of about 10 per cent.

That deduction already is taken care of in the tax table used to fill the tax of anyone using either of those two forms. But— If your income was less than \$5,000 but your deductions actually were more than 10 per cent, you'll lose money by using form 1040-A or the 1040 short form. Use the 1040 long form.

By using the 1040 long form—if your income was under \$5,000 but your deductions more than 10 per cent of it—you can claim your deductible expenses in full.

True, in such a case you'll have to itemize your deductions on the 1040 long form to prove you had them, but you can claim them in full.

If your income was \$5,000 or more, you can use only the 1040 long form, where you can still choose between a "standard deduction" and claiming your actual deductions in full.

A single taxpayer in this group is allowed a standard deduction—that is, he doesn't have to itemize or prove anything—of 10 per cent of his income up to a limit of \$1,000 in deductions.

He just takes that 10 per cent as rightfully due him, knocking 10 per cent off his income before applying to tax to what's left. Remember, those using the 1040 long form must figure out their own tax.

(Continued on page eight)

# Social and Personal

All items for this page received after 10 A. M. will be published the following day. Dial 2888-6 A. M. to News; 1 to 4:30 P. M.

Mrs. N. L. Dennis of Richmond, Va., will be guest of Mr. and Mrs. Alton Barrett for several days. She will be guest speaker for the Garden club of Friday afternoon at 3:30.

Mrs. John D. Langley and son of Norfolk are visiting Mrs. Langley's mother, Mrs. S. M. Waters.

Raymond Walters of Portsmouth, Va., is visiting his mother, Mrs. A. G. Walters.

Friends of Mrs. Niles Stocks, 307 Ridgeway street, will regret to know that she is a patient in Pitt General hospital.

A. L. Whitehurst has resumed his duties at Brody's after being a patient in Duke hospital for several weeks.

Mr. R. L. Humber has returned from an extended visit in California.

Mrs. J. H. Waldrop has been called to Orangeburg, S. C., because of the serious illness of her mother, Mrs. George V. Zeigler.

**Birth Announcement**  
Mr. and Mrs. David Marion Nobles of Stokes announce the birth of a son, David Marion, Jr., on February 14, at Pitt General hospital. Mrs. Nobles is the former Miss Annie Kearney of Snow Hill.

**To Confer With Rep. Bonner**  
Mrs. Alton Clapp, Miss Davy Fleming and Miss Pauline Cox, of Greenville, Mrs. Mildred Ford, of Washington, N. C., Miss Thelma High, of Wilson, Miss Thelma Lancaster, of Rocky Mount, left today for Washington, D. C., to confer with Rep. Herbert Bonner in opposing the bill HR-5040, federal aid for nurses' education.

## Sans Souci Meets At Country Club

A Valentine luncheon given at the Country Club by Mesdames Hugh Ragdale, Key Brown, and W. I. Wooten, proved to be one of the most delightful meetings of the Sans Souci club year.

Beautiful spring-like weather, the warm welcome by the hostess, the greetings including a lovely red carnation being pinned on each one present, gave promise for a most happy day.

The guests were first served tomato juice from a colorful bowl surrounded by red carnations. Thence they passed to the luncheon table, the beauty and color of which dominated the spacious room. A gorgeous center of red carnations and fragrant narcissi, along with place favors and supplementary decorations of Valentine suggestions made a beautiful spectacle.

After the delicious repast was enjoyed, Miss Lillian Wooten, a daughter of whom all the club members are proud, presented in a most pleasing and attractive manner the legends, facts, and fancies surrounding St. Valentine's day.

In happy spirit and sentimental mood following this interesting talk, came relaxation in the enjoyment of bingo. The hostesses had generously provided numerous and attractive prizes which occasioned much merriment and pleasure. Also spice and interest were added when lucky numbers were drawn for the flower center and numerous decorative objects on the table.

Whether the day be of Pagan Christian or seasonal origin, the hostesses were indeed inspired to commemorate the Saint, and honor their club members and numerous guests in a most happy and gracious fashion.

## 40 Years Ago Today

THE DAILY REFLECTOR  
February 16, 1910

Mrs. S. M. Schultz has returned from Rocky Mount.

Mrs. Frank Wilson returned Wednesday evening from a visit to Hendersonville. Her brother, Carroll Waldrop, came home with her for a visit.

The frogs will certainly sing if we get many days like this.

The new jewelry store of W. L. Best is an attractive place, his fixtures and stock being very handsome.

Not much cotton is seen on the market these days and tobacco sales are very light at the warehouses, indicating that both these crops are practically sold.

## Dr. Haney Speaks To Chatham Club

The Chatham Book club held its regular meeting on Tuesday afternoon, February 14th at the home of Mrs. L. W. Topping.

A brief business meeting was called by the president, after which Mr. Carl Adams presented Dr. H. G. Haney, who gave a most interesting program. His subject, "Philanthropy," was both timely and enlightening. Dr. Haney gave much to think about in his able talk.

After an enjoyable program, the hostess, assisted by her daughter, Ruth Evelyn Topping, and Mrs. J. Bryan Brown, served a delicious salad plate, cake and coffee. The Valentine motif was carried out in the decorations and refreshments.

Guests for the afternoon were Mrs. J. L. Evans, Mrs. John Greer and Mrs. Angus Blue. The books having been distributed, the club adjourned.

## Mrs. MacKensie Entertains Club

Members of the Lector club met on Tuesday afternoon, February 14th, at the home of Mrs. Ray MacKensie.

Mrs. Robert L. Humber, who, having recently returned from a five month tour of Europe, spoke on the Marshall Plan. She gave a clear account of how the funds are used in economic and agricultural rehabilitation.

Mrs. Humber painted a clear picture of the world in 1949. Although there are four million communists, only one million are truly communistic. This, she explained, is because the communists have offered them food and shelter of a sort. In conclusion Mrs. Humber asked that when and if we were called upon to vote on the renewal of the Marshall Plan, that we do so.

A short business session was held, after which the members were invited into the dining room for refreshments.

Mrs. MacKensie had as her guest her mother, Mrs. Hill Horne.

## Mathematics Club Hears H. H. Gurkin

Members of the Mathematics Club at East Carolina Teachers College, meeting Tuesday evening of this week, heard a talk by Herman H. Gurkin of Roper, senior mathematics major, and entertained guests from Atlantic Christian College in Wilson.

Present for the meeting were Prof. Lloyd Stark of AOC and four students of mathematics: Connor Lee, William Webber, Harold Walker and W. L. Register. The Mathematics Club entertained the visitors at a Valentine's Day social hour and later at the East Carolina-Guilford basketball game on the campus.

Mr. Gurkin was principal speaker on the program for the evening. He discussed the topic "Euclid's Algorithm for Integers."

## SOCIAL CALENDAR

**FRIDAY**  
3:30 p. m.—The Garden club meets at the Woman's Club.  
6:00 p. m.—Mr. and Mrs. Ralph Worthington and Miss Daphne McLawhorn will entertain the McLawhorn-Dall wedding party, and out-of-town guests at a buffet supper.  
8:30 p. m.—Elwanis Club.  
8:45 p. m.—Exchange Club.  
8:50 p. m.—Rehearsal for the McLawhorn-Dall wedding at Bethany Baptist church.  
8:30 p. m. to 12:00 p. m.—Masquerade dance at Armory, sponsored by B. & P. W. club.  
9:15 p. m.—Mr. and Mrs. Jack Dall and Mr. and Mrs. Paul Pittman will hold an after rehearsal party for the McLawhorn-Dall wedding party and out of town guests.

**SATURDAY**  
3:00 p. m.—Miss Catherine Spearman and Mrs. Ford McGowan will entertain at a desert bridge shower at the home of Mrs. McGowan, honoring Miss Virginia Brooks, bride-elect.  
5:00 p. m.—McLawhorn-Dall wedding will be solemnized at Bethany Baptist church.  
5:45 p. m.—Mr. and Mrs. Luther Dall will receive at a reception honoring the McLawhorn-Dall wedding party, out of town guests and close friends.

## CALENDAR OF CAMPUS EVENTS

**THURSDAY**  
8:00 p. m.—Iva Kitchell, internationally known dance humorist and satirist, will appear in a recital sponsored by the Entertainment Committee of the college and presented in Wright auditorium.

**FRIDAY**  
7:30 p. m.—The Teachers Playhouse will present Lady Gregory's "The Rising of the Moon" and "Synges" "Riders to the Sea" in their series of workshop productions. The public is invited to attend.

## Mrs. Pace Is Hostess To Atheneum Club

Mrs. K. B. Pace was luncheon hostess to the Atheneum book club on Tuesday at one o'clock. Guests were greeted by the hostess and shortly after arrival they were passed pieces of Valentines which by fitting together with other parts of these same Valentines, guests were able to find their places at the tables.

Colorful arrangements of spring flowers and Valentine suggestions were used throughout the house. A three-course luncheon was served by the hostess, assisted by Mrs. Luther Bowling and Mrs. Reid Perkins.

Following lunch a short business session was presided over by the president, Mrs. W. W. Lee.

During the roll call each member was requested to respond with a current event pertaining to England which was the subject of Mrs. Pace's program.

The hostess concluded her program by giving a very informative and interesting talk about England giving a vivid picture of England in days past and bringing her remarks up to present day conditions in England.

Guests for the afternoon were Mrs. Helen Hayes, Mrs. John Messick, Mrs. Luther Bowling and Mrs. J. B. Spliman.

Early 18th Century maps of the New World pictured the new lands as islands off the coasts of Cathay.

## don't DO that!

**DON'T SCARE YOUR GUESTS ... Don't have guest towels so fancy that your guests are afraid to use them. Practical linens are the best buy.**

## Billie Branch Will Sell At Growers' Warehouse In 1950

Billie Branch of Winterville, widely known tobacco auctioneer, who auctioneered at 11 warehouses in Owensboro, Ky., during the burley tobacco season and who returned here recently, said one Owensboro warehouse has five and two-tenths acres of floor space. It is said to be one of the largest in the world. In addition, Branch auctioneered at 10 other Owensboro warehouses during the burley season, which closed February 8. He said the price averaged around \$45 a hundred pounds.

Branch will auctioneer at the Growers' Warehouse, in Greenville, when the bright leaf tobacco market opens here next August.

Mrs. Branch and three of their children, Joyce, Dorothy and Kirby, spent the season with him at Owensboro.

## 67 Licenses To Marry Issued First January

Register of Deeds Charles P. Gaskins issued marriage licenses to the following couples during the past week:

White—Robert C. Evans of Erie, Pa., and Louise K. Hayican of Bridgton; W. H. Yelverton of Farmville and Annie R. Wainwright of Winterville; Frank Hogg of New York and Lila R. Melvin of Kelly, N.C.; Hooker Webber and Dorothy Trevathan of Macleesfield; Roland Rogers of Wilmington and Maxine Robertson of Washington; Charles W. Yohn, Jr., and Nettie M. Smith of Greenville; Kenneth E. Cox of Greenville and Ruth Gardner of Vanceboro.

Colored—Ralph Dixon of Winterville and Vellar Hardy of Greenville; Ulyses Dixon and Letha M. Langley of Greenville; Clifton Forbes, Jr. and Geraldine Johnson of Greenville; Lester Baker, Jr., of Tarboro and Emma L. Williams of Bethel; Rudolph Best of Farmville; and Ann Doris Battle of Wilson; James Evans and Hazel Taylor of Farmville; Isaac S. Ford and Doris Foreman of Greenville; William H. Dudley of Beaufort county and Ruth Adams of Pitt county; James G. Tyson of Walsenburg and Val Jean Niles of Farmville.

Sixty-seven marriage licenses had been issued up to today, Register of Deeds Gaskins stated.

The Macon (Ga.) Telegraph delivered to its readers Friday the first edition of a daily newspaper ever printed on southern pine paper from the new Coosa River newsprint mill. The plant is located at Coosa, Ala. Officials of the Macon News and the Macon Telegraph and the newsprint company inspect a copy of the Telegraph just off the press. In the foreground is a roll of the Coosa River newsprint. Left to right: Blake Jones, the Telegraph's pressroom foreman; Ralph M. Watt, vice president of the Coosa River Newsprint Company; Peyton Anderson, publisher of the News and Telegraph, and S. B. Pinkerton, Coosa River service engineer. (AP Photo).

# Lady Lobbyist Is Seeking Action On World Peace

WASHINGTON—Recently registered as a lobbyist on Capitol Hill, listed as "self-employed, unpaid," is colorful, cosmopolitan and socially prominent Geresse Crosby, whose activities and alignments in the past have shunted her into headlines. This time Mrs. Crosby is seeking recognition and cooperation from the members of the 81st Congress and the "women of America" to do something "realistic about peace and progress in 1950."

First step in the current project is the circulation of a letter among congressmen and "the women of America." The gist of this document is that women control more than 75 per cent of the nation's money and would invest heavily in government bonds if such were issued solely for the promotion of peace and progress.

These would have to be special bonds, and the women would have to have the assurance that no part of their investment would "go to swell the atom stockpile or to fabricate the tools that kill."

"There is no investment in our government today of which over 70 per cent is not used for purposes of war," Mrs. Crosby explains in her letter to the women, "we can alter this if we will."

Mrs. Crosby, born in New York, was first married to Richard Rogers Peabody of Boston and Peabody, Mass. After a divorce she went to Paris in 1922, married Harry Crosby, the poet who set up the Black Sun Press and brought out first editions of James Joyce, D. H. Lawrence, Marcel Proust, Kay Boyle, Hart Crane and his own and Mrs. Crosby's poetry. Mr. Crosby died in 1930, but Mrs. Crosby remained abroad until 1937, when she came back to this country to settle for a brief and hectic period on a plantation near Bowling Green, Va.

It was here that Salvatore Dall, fabulous surrealist painter, spent

# Symphony To Present Two Soloists

Theodora Mantz, concert mistress of the North Carolina Symphony, and Irene Simo, violinist, will be featured soloists with the North Carolina Little Symphony when the orchestra plays in Tarboro on February 20. Under the direction of Benjamin Swain, the Little Symphony will present concerts for children and adults. The evening concert is scheduled for the high school auditorium at 8:30 p. m. Blonde Miss Mantz and Miss Simo will be featured in Symphonic Concertata for Violin, Viola and Orchestra by Mozart.

some months, urged Mrs. Crosby to have a grand piano hoisted in the trees and coaxed a cow to sit on a mat before the fire in her parlor to provide proper inspiration for his dream paintings. Henry Miller, the writer, was also a much-talked-about guest.

When the Army set up proving grounds on the property in 1941, Mrs. Crosby sought a "quieter" existence in Washington. She opened the Crosby Gallery of Modern Art for young new artists and stranded artists she had known in Europe.

While here she started also a series of "portfolios" containing paintings, architectural portraits, sketches, poetry, prose, music and other cultural expressions of various sections of the United States, France, Greece and Italy.

In 1946 she gave up the gallery to go to Italy to get material for the Italian portfolio and to spend some time in Paris, where the Black Sun Press still operates.

"I've never lobbied in my life before, she says. "It was not a bit difficult to get started. All I had to do was register as a lobbyist."

### Plan Sunday School For West Greenville

A Sunday school for the community of West Greenville is to be opened Sunday, February 19, in the Curb Market next to West Greenville School. Tonight at 7:30 members of the community who are interested and representatives from the First Presbyterian Church which is sponsoring the Sunday school will meet in the Curb Market for a final planning session. The members of the committee from the First Presbyterian Church are Mrs. Charles O'H. Horne, Mr. and Mrs. Earl Stokes, and Mr. Hunter Keck.

Angel Falls, in Venezuela, drops 3,212 feet, 15 times farther than Niagara Falls.

Mrs. J. Waties Waring (above), wife of the United States District Judge at Charleston, S.C., appears on the "Meet the Press" televised program at Washington and discusses inter-racial relations. She said Negroes of the nation should have civil rights and social integration. "Let them marry white people if that's what they want," she cried.

# Civic Leader Is Jailed For Fraud

Jackson, O., Feb. 16—(AP)—One of the leading citizens of this southeastern Ohio city was jailed last night on charges that he embezzled \$100,000 from the first National bank.

Damon Grow, 50-year-old cashier of the bank, admitted he took the money, prosecutor Benson announced.

Grow had been employed by the bank 30 years. A. E. Ostholthoff, agent-in-charge of the Cincinnati FBI office, said the embezzlements were spread over the last 27 years.

FBI agents walked into the bank yesterday afternoon and picked up Grow, a civic leader who had served on the city school board and hospital commission, who was an active churchman and belonged to clubs and lodges.

Grow on arraignment pleaded guilty.

The prosecutor said Grow used the money "to pay bills and to keep from getting behind financially."

Guam, the American naval base in the Pacific, was weaker in 1941 than in 1920 because the United States observed the terms laid down at the Washington Naval Conference.

## Strength FOR THE DAY

**THE BELLS STILL RING**  
We seldom hear sounds to which we have become accustomed. People who live near the noisy elevated railroads in the big cities find it hard to get to sleep when they go to some quiet summer resort. Near my home is a carillon and down in the center of our village is a set of chimes which play several times a week, yet I cannot recall hearing either the carillon or the chimes for a long time.

Familiarity is said to breed contempt. Perhaps it does, but certainly it breeds indifference. Scientists tell us that universal cosmic forces are continually striking our bodies, yet we are wholly unaware of what is going on.

Out of the Word of God at all times is coming a message to which millions of nominal Christians are indifferent. When the gospel was first carried out into the pagan world, people shouted and leaped for joy as they listened to the recital of the simple gospel story. Like bells at eventide, the great promises of the Word of God come to our ears, and we are so busy or so preoccupied that we do not hear.

The bells are ringing, forces more powerful than cosmic rays are being directed toward our needy lives. The command of the Almighty is: "Be still and know that I am God."

## AMENDING THE BUDGET

Deficit financing for governments has apparently become the rule rather than the exception during the past few years, and now it has spread from the federal government to the state government of North Carolina.

Just how long before the local governments follow suit is a moot question, but the fact that the Greenville officials have chosen to amend the city budget rather than begin financing in the red is an encouraging sign.

The local officials have been faced with the problem of red ink, having begun the fiscal year last July with a cash overdraft of \$11,526.73 on the 1948-49 budget. The city departments being in the red at the end of the fiscal year is nothing new in Greenville because it has happened in many years even though it has been kept rather close by the powers that be.

Since last July Mayor Stafford has repeatedly emphasized the importance of the city departments staying within the budget, with the aim in mind of ending the year next June with a credit balance on the books.

During the past week, however, the city officials wrestled with the problem of spending approximately \$2,700 which was not anticipated when the budget was made up seven months ago. As a result, instead of deficit financing as has been the case in the federal government, and more recently in the state government, the Greenville officials refigured the anticipated revenue on a dollars and cents basis and found the necessary funds for the additional expenditures. Only after the funds were found to be available were the additional expenditures added to the budget.

We are old fashioned enough to believe it is good

business to know where money is coming from to pay the bills before expenses are incurred. It is comforting in this era of deficit spending in various levels of government to see that the local officials are giving some thought to getting money into the city's bank account before authorizing the expenditure of funds which were not planned for in the original budget.

## Around Capitol Square

**TOWNS**—Gaston County can make good on the claim it has the smallest incorporated town in North Carolina. Delview, which is a few miles from Cherryville, has only six people. The story has often been published about how the Dellinger family incorporated the town in order to control stray dogs which were killing their chickens. The half dozen citizens of Delview have established claim to the smallest town. Gaston County, however, cannot make good on the boast that it has more incorporated towns than any other county in the state. Gaston has ten municipalities; so does Robeson. Wake County has an even dozen. They are Raleigh, Cary, Apex, Holly Springs, Fuquay Springs, Garner, Knightdale, Wendell, Zebulon, Rolesville, Wake Forest and Morrisville. They range in population from about 200 to more than 50,000.

**CONSOLIDATION**—Every time serious proposal is made for combining governmental functions of Wake County and the City of Raleigh, the problem arises of what to do about all these smaller towns, several of which in excess of 2,000 population.

**AZALEAS**—Attractive folders promoting the Azalea Festival at Wilmington March 30 through April 2 have been distributed. The invitation is extended by "millions of azaleas and thousands of people." Unnaturally warm weather is bring-

ing out the flowers earlier than anticipated. The Wilmington area will have in fact millions of azaleas this spring, but chances are most of them will have bloomed before festival dates. That doesn't bother the Wilmingtonians. They've arranged to keep enough of the loveliest on ice to make a good show, so festival visitors will not be disappointed.

**RANKIN**—Senator R. Grady Rankin of Gastonia was around Capitol square Wednesday. He expects to come back to the senate next year for his fifth term, having served in 1931, 1933, 1947 and 1949. He is chairman of the finance committee in 1953, the year when the state was hardest pressed for money to meet essential needs; and again in 1954, the session when the state had more money to spend than ever before and authorized borrowing more than anybody had dreamed of a few years ago. The tax bills his committees reported out were essentially the same in 1953 and in 1949. But there was a whole difference in the revenue produced. The total general fund yield in 1953 was about thirty million dollars. Comparable tax schedules produced \$140 millions last year and are expected to yield around \$125 millions this year.

**AMUSED**—Senator Rankin's committee was responsible for raising money to meet state purposes, working jointly with the house committee under chairmanship of Larry I. Moore of Wilson. The appropriations committees headed by Senator Edwin Pate and Representative Frank Taylor had the job of distributing the money among various state institutions and social needs. Rankin and Moore, however, vigorously protested appropriations beyond probable resources. Senator Rankin said he was a bit amused at Governor Scott's accusation that the conservative group which protested excess spending was really responsible for putting the state in position, for the first time in many years, to have to borrow money for current bills. The Gaston senator doesn't see anything funny. Carolina situation now facing North Carolina, and finds nothing amusing in prospect of the job the next assembly will have to do.

Tiny glass cups used years ago to measure out a penny's worth of jelly beans or small candies in the corner store have become prized items for collectors of handmade American glassware.

## Boyle's Column

By HAL BOYLE  
Baltimore—(AP)—The traveling salesman stood at his hotel window and looked out at Baltimore in the rain.

"Why is it all cities look alike in the rain?" he thought, "look out at any city when it rains, and where are you—Baltimore? St. Louis? Milwaukee? Boston? Denver? Munich or London? They're all the same." He glanced down at the wet streets where the water had collected in pools, making a sodden rosary. "And the people," he thought, "they all look the same. Rain does it to them, too."

The salesman went back and scribbled a note to his boss. "Old Gradge is still with us, Bob," he wrote. "He gave me a lot of trouble, but he finally ended up by giving us his usual order. So I guess we won't have to close the plant yet. Things are going so well, I think I'll make the other stops you mentioned before I pull back in."

That would make his home office happy, he knew. But about that other thing—the letter from his wife. The salesman moodily pulled it from his pocket and read it again:

"John, I can't take much more of this—your going away all the time. It was hard enough to stand while the children were young. But since they are gone, I just get so lonely I can't go on this way..."

The salesman lit a cigar and went restlessly to the window and looked out at the rain for a while. Then he came back and read some more from the letter:

"You keep saying I'm your whole life now, but I think your job is your whole life, and always has been. You knew our anniversary was coming up, and how I feel about anniversaries. But when Bob said he didn't want to send a younger man on this trip because it was too important, you agreed right away to go. You always do..."

The salesman puffed his cigar and read on:

"It's no excuse for you to say you have to earn all the money you can now, so you can quit work early and we can enjoy life. I want to live my life now, not when I am an old woman. Just remember that."

He put away the letter and picked up the phone. Better send along some flowers, he thought.

"Yes, a dozen—the long stemmed ones," he said. "And a card, saying: 'Happy anniversary from the heart away to the heart at home. See you in three days.'"

He hung up the phone and thought "maybe that'll sound too mushy to her. You never can tell what they'll think. But if I'd just said, 'happy anniversary, love'—well, she might."

The salesman left the thought unfinished. He looked out the window again.

"Rainy days, rainy days," he mused. "Thank God, I don't have to try to sell rainy days to people."

Across the way, in the cornice of a weathered building, he saw two pigeons huddled, feather to feather, out of the rain's reach.

"I wonder," he thought, "if pigeons still have to go on delivering messages after they've finished raising their young?"

The salesman turned away. "I'll bet if they do, their wives don't understand why," he said out loud.

And he began to pack his grip. Pittsburgh tomorrow. Rain or shine.

## Washington Letter

By JANE EADS  
Washington — New tools—books and teaching methods—have been developed to help fight illiteracy in the United States. Some 10,000,000 adults cannot read or write adequately. The materials, four basic readers and seven learning aids, scientifically worked out to teach adults to read and use numbers for everyday purposes, were developed by the U. S. Office of Education.

Now available to educators throughout the country, they are the results of a three year research program conducted by the Project for Literacy Education of the Office of Education, under the direction of Dr. Ambrose Caliver, specialist in the Division of Higher Education.

The Literacy Education Project has been sponsored with the financial assistance of the Carnegie Corporation of New York and the cooperation of the Army, educational institutions, school systems, professional and civic organizations. Concern over the large numbers of persons by Selective Service during World War II gave impetus to the project.

"The trouble is we've been trying to teach adults with children's materials," says Dr. Caliver. "We took a look at the GI methods for teaching illiterates and at the old Works Progress Administration literacy education program and some of the work of the Immigration and Naturalization service. We've tried to combine the best features of each. The philosophy on which the experiment is based is that all teaching must grow out of the experience and should be rooted in day-by-day activities and interests, of those being taught."

Dr. Caliver points out that because the persons who need these materials are least able to buy them, the project arranged to produce the materials at the lowest cost possible. Each of the four basic readers is 25c cost of the entire kit is \$3.50. (Orders and inquiries should be sent to the Educator's Dispatch, New London, Conn.)

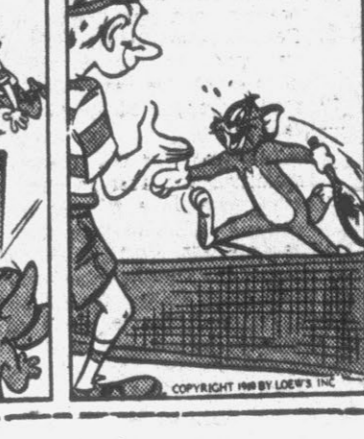

The Marine Corps has its own correspondence school and instructions in some of the arts, trades and sciences is given Leathernecks anywhere they may be stationed.

Only about one sixth of the people in Monaco are citizens.

# Rep. Durham Says War Would Not Again Catch U. S. Napping

(From The Reflector's Washington Bureau)  
 Washington, Feb. 16—If war were to come to the United States today, the nation would not be caught, as it has been in the past, with its guard down, Rep. Carl T. Durham said today.

The Chapel Hill congressman, answering reported attacks on the nation's defense setup, said that the defense establishment as compared

with the day before Pearl Harbor, "is so vastly superior that it is unbelievable."

Speaking as a member of the House Armed Service committee and as vice-chairman of the Joint Congressional committee on atomic energy, Durham said that he estimated that today's defense program, backed by development of atomic weapons, is "100 per cent better" than it was in 1946.

Durham said the nation is equipped with a strong striking force and a well-balanced defense machine. Improvement in the defense machine comprising the Army, Air Force and Navy under the armed services unification program have been "remarkable," he said.

Other factors backing up Durham's belief in the excellence of the na-

tion's defenses were the "vast improvements," mostly secret, in the weapons of all the armed forces, the "substantial gains" made in the stockpiling of critical and strategic materials, and growing industrial potential of the nation.

"I would say that our industrial power is 100 per cent better than that of any other nation in the world today," Durham said, "and I think that with all other things being equal—which they are not—that industrial power alone might decide the victor in another war."

## Pride Of Fleet, U. S. Missouri, A 'School Ship'

Washington, Feb. 16—(AP)—The controversial U. S. S. Missouri will be turned into a school ship to train midshipmen—and members of the naval reserve.

In announcing this yesterday Secretary of defense Johnson said the move would halve the Big Mo's annual operating cost of \$6,700,000.

The Missouri has been the target of jibe and congressional criticism ever since the giant battleship ran aground off Norfolk, Va., several weeks ago. There had been some speculation that it would be taken out of service entirely.

Johnson said the battleship's crew will be reduced from 1,800 to 1,500. This will enable the ship to carry about 300 midshipmen and naval reservists, he said.

## Wholesale Food Price Index Up

New York, Feb. 16—(AP)—The Dun & Bradstreet wholesale food price index jumped six cents this week to \$5.86—highest since the week of August 16, 1949, when it was \$5.89.

The index was 1.7 per cent above the year-ago level of \$5.76. The figure represents the total cost at wholesale of a pound each of 31 foods in general use.

Sixteen of the 31 foods covered posted wholesale price increases this week, while only three declined.

## Negro Home Demonstration News

**Pleasant Place Home Dem. Club**  
 A regular club meeting of Pleasant Place Home Demonstration Club was held at Mrs. Martha Jones' home Feb. 2. The meeting was called to order at 2 o'clock by the president, Mrs. Mary Williams. There were fourteen members at present. Two new members were welcomed—Mrs. Dorothy Patrick and Mrs. Edna Gardner. One visitor was Mrs. Sarah Williams. The opening song was Farm and Home Demonstration and Club Collect was ready by the members. The minutes of the last meeting were read and approved and the roll was called.

The report of the treasurer was submitted and accepted. The president turned the meeting into the hands of our home agent, Mrs. Amelia Capehart. She gave a lesson to us on "Beautifying the Home Grounds." The hostess served punch and cookies. During the social hour we had a good time playing games. The meeting adjourned at 4:30 p.m.

**Grifton H. D. Club**  
 The Home Demonstration club met Wednesday at 2 o'clock February 8 at the home of Mrs. Maybelle Jackson on R. 1, Grifton with thirteen members present—Mesdames M. J. Dixon, Carrie Hardy, Lula Cox, Eugenia Roundtree, Bettie Roundtree, Lillie Dudley, Luvenia Level, Obedia Barrow, Jennie Freeman, Bertha Garris, Olivia Dixon, Sarah Carrow, Geneva Brooks and one visitor, Mrs. Lucy West of the Pleasant Place Club. Every member had good reports on their gardens and yards. Mrs. Jackson, our hostess, had repainted all the rooms in her home in beautiful shades of

## Winter Dumps Heavy Snowfall On The Mid-West

This scene in Des Moines, Ia., Tuesday is typical of mid-western areas on which heavy snow fell. The man is trying to help an automobile move through snow a foot deep. A backdrop of snow-covered pines hides a home. It was the worst blizzard Des Moines has experienced since 1942. Traffic almost came to a standstill in residential streets. Heavy snow also fell in parts of Michigan, Wisconsin, Minnesota, Kansas and Nebraska. (AP Wirephoto).

blue. Our home agent discussed "What Makes Your Yard Beautiful" with slides. Our hostess served sandwiches and punch. We played a series of games which everyone enjoyed.

**Mrs. Geneva Brooks, Secretary Ayden H. D. Club**  
 The ladies of the Ayden Home Demonstration Club met at the home of Mrs. Cora Rountree on February 9 at 2 o'clock with seventeen members present. Our president, Mrs. Sarah Reaves, presided over the meeting with grace. Mrs. Amelia S. Capehart, our home agent, presented several movie slides showing the defects and the beautification of home grounds. Everyone enjoyed the slides. We had as our guest Miss Annie Ebron, a teacher of the Grifton graded school and Mrs. Lula Dixon of Ayden. Miss Ebron gave some very encouraging remarks along the line of Home Demonstration work. After all business we were served with a delicious repast. Our March meeting will be held at the home of Mrs. J. M. Reaves, 829 E. Ave. All members are urged to be present.

**Mrs. Catherine Davis, Reporter**  
 Early American colonists in New England not only forbade the celebration of Christmas as a holiday, but the singing of carols.

(Dear Judy)

What would you do if you were crowned "Miss America," had a glamorous career ahead of you—but you were in love? Would you marry the boy? Choose the career? Or try to have both?

Pretty 19-year-old Jacque Mercer, our current "Miss America," had that decision to make recently—and Jacque chose both, when she married Douglas Cook. Says she: "Right now there is no reason why I can't have marriage and a career together. I am fulfilling all my Miss America commitments. My husband is doing advertising

work in Phoenix. In September my reign will be over and we plan to settle down in Hollywood where Doug will enter art school."

Jacque will continue her career even then for a while, if she chooses. But eventually after they get settled they'd like to rear a family—at least four children is the plan. Says she:

"A lot of people argue about young marriages. What's wrong with marrying young. Lots of couples attending college as man and wife get better grades than the unmarried ones. I hear. My parents were married while they were attending college and finished the last three years together."

Of course this doesn't mean that you should say "yes" to the first boy you ever date, cautions Jacque. She thinks it's fine to marry young, but only "after a steady dating period," which Jacque says is the time when you learn the other person's habits, ambitions and even what he looks like "washing the family car." Says she:

"After marriage two people should sit down and make their plans carefully. I like to sew and Doug is artistic, so we plan to make many things for our home to give it that personal touch, and to work and build it together."

Every once in a while we find out what teen-agers really think about their future. One sounding

## Eisenhower's Art

Gen. Dwight D. Eisenhower painted this portrait of his two-year-old grandson, Dwight David II, and entered it in the second annual art show at Columbia University in New York. The former Allied supreme commander in World War II is president of Columbia. (AP Wirephoto).

board in Philadelphia is a daily radio program over WPEN. The program features talks with teenagers themselves.

A recent poll of 131 youngsters attending the show, on unrelated subjects chosen at random, showed:

That teen-agers do more baby sitting than anything else to earn money in their spare time. (Although some of them work in shops or teach dancing or skating or walk animals or usher at the movies.)

Only one out of every four high school students expects to go to college. Those who had decided against it did so because (a) they wanted to enter the working world (b) preferred to work (c) hated school or (d) needed to make money.

Those who had decided on a college education did so because (a) it would be a nice way to have a couple of months' vacation annually (b) to get out of work for four more years (c) the lure of athletics

(d) the cultural advantages of higher education.

There are some good basic rules for sportsmanship that every gallant young man should observe come summer, winter, spring or fall. Here are some reminders:

1. In skating, help the girl follow the crowd movement by guiding her. If she is a poor skater, don't insist she get out with the Sonja Henies. Let her make her own plodding way until she feels sure of herself.
2. If you take a girl for a swim, don't throw her into the water or splash her with the brine. Not funny at all.

Be gentle in your criticism when you are trying to teach a girl any sport. Rough treatment or a loss of patience may lose you the girl.

Julian

### Churchill's Proposed Big Three Talk Called 'Stunt'

London, Feb. 16—(AP)—Foreign Secretary Ernest Bevin last night cold-shouldered Winston Churchill's proposal for a Big Three conference on atomic energy control.

Without mentioning the Conservative leader by name, Bevin in a political broadcast for the Labor party said atomic control would not be attained by "stunt proposals."

"We must continue to work for agreement through the atomic committee of the United Nations," Bevin declared.

But after a review of international problems in general, the Labor spokesman on foreign affairs continued:

"If Russia shows the slightest change of attitude and indicates her readiness to settle these relations and give the world complete peace, we shall be ready to enter into discussions with the object of abolishing any possibility of war and enabling all nations to cooperate with each other."

Churchill in a political speech Tuesday suggested that a meeting of Britain, America and Russia on the "highest level" be tried to get an agreement on atomic control and a truce in the East-West cold war.

The speech was interpreted by some observers as a Conservative attempt to make the A-bomb a campaign issue. Churchill, if his party wins control of Parliament, would be prime minister and in a position to push for another meeting with President Truman and Generalissimo Stalin.

### Shipwrecked Fishermen Rescued In Stormy Sea

Two shipwrecked fishermen, seated in rubber boat, are rescued and brought ashore by Coast Guardsmen in stormy water off Winthrop, Mass. The lobster boat of Arthur Ross (at left in boat) and Cecil Hollingsworth (right) cracked up, and they were marooned all night on the cold, dismal breakwater in the background. (AP Wirephoto).

### Jury Frees Wife In Murder Trial

Louisburg, N. C., Feb. 16—(AP)—Pretty Mrs. Ercelle Morgan Pearce, who testified she shot her husband in self defense, has been found innocent of murder in the shooting.

Her three-day trial ended yesterday after a Franklin county jury took 30 minutes to return a verdict of acquittal. The state had sought a second degree murder conviction, which, if obtained, would have resulted in a sentence of from two to 30 years.

Superior court judge Henry W. Grady had advised the jury it could return a verdict of guilty of second degree murder. Guilty of manslaughter, or innocent.

Mrs. Pearce, 24, said she shot her husband in September 1948, in an argument over the use of their family car. The husband, Tommy, 23 died about a year later. He was paralyzed after the shooting, the bullet lodging near his spine.

The dark-haired widow told sobbingly of a home life which was filled with quarrels with her husband, of his beating her and threatening her life. Other witnesses corroborated her story.

### Woman Stabbed On Main Street

Monroe, N. C., Feb. 16—(AP)—A young woman remained in serious condition at a Charlotte hospital early today after being stabbed seven times last night on Monroe's Main street.

Officials said Harry Flowe, about 22, chased his wife, Mrs. Thelma Flowe, about 20, into a drug store and stabbed her in the back with a hunting knife. He was being held on an open charge.

The attack occurred less than two blocks from the police station.

### VA Estimates Extent Benefits

Washington, Feb. 16—(AP)—The Veterans Administration estimated today that it funneled \$6,552,063,282 in veterans' benefits into the states in the last fiscal year.

North Carolina received \$187,811,689; South Carolina \$91,881,046. The largest part of the total was represented by compensation or pension payments or retirement pay. The VA said in its annual report to Congress.

Other items for the year ending June 30, 1949, included:

Subsistence allowance to veterans in training or school under the GI Bill; training institutions for tuition, fees and equipment for GI Bill students; unemployment allowances under the GI Bill; self-employment allowances; death claims for National Service Life Insurance; subsistence payments to World War II disabled veterans in education or training; medical care, hospitalization and drugs, and administration of 700 offices and field stations.

### VANDALS STEAL TOBACCO CLOTH FROM PLANT BEDS

M. J. Lloyd, farmer of the Belvoir community, reported yesterday that vandals some time during the night stole about 100 yards of tobacco plant bed cloth from his beds. Authorities have a clue as to the identity of the robbers, it is understood.

### Lucas Pushes Measure To Curb Production By Potato Growers

Washington, Feb. 16—(AP)—Senate Democratic Leader Lucas pushed a proposal today to take government price supports away from potato growers unless they hold production down to avoid surpluses.

The Senate Agriculture Committee approved this plan to place strict marketing controls on potatoes yesterday when Lucas offered it as an amendment to a bill intended to make changes in the cotton acreage quota law.

The Illinois senator said he intended to introduce a separate measure today to place potato farmers under rigid quotas and allotments.

Commenting on the Agriculture Department's multi-million-dollar surplus potato headache, Lucas told reporters:

"These steps will remove the scandalous situation we have had with the potato subsidy for the past few years.

"The time has come for Congress to act. We cannot, under any circumstances, continue to subsidize these potato farmers who are taking advantage of the pocketbook of Uncle Sam."

Lucas said farmers have been getting around planting restrictions intended to hold down crop sizes by producing greater amounts of potatoes on smaller plots of ground.

Secretary of Agriculture Brannan has placed the cost to the government of potato overproduction at some \$500,000,000 in recent years. He has ordered about half of last year's 80,000,000-bushel surplus dumped.

### Attorney Hopes Succeed Delapp

Marshall, N.C., Feb. 16—(AP)—A Marshall attorney has announced that he will seek to succeed Sim Delapp of Lexington of the state Republican party.

James M. Baley Jr. is the candidate. Delapp has announced that he will resign.

The party will elect a new chairman at its convention in Charlotte March 14.

### 'Lazy Old Sun' Remains Hidden

London, Feb. 16—(AP)—A reporter called Greenwich Royal Observatory today to check a report that sun spots might disrupt radio service next week.

"Old Boy," said the spokesman, "we haven't seen the sun in two weeks." It rained in London again today, for the sixteenth day in a row.

### Civil Term Superior Court Next Week; Important Docket

A one-week civil term of Superior Court will be convened in Greenville next Monday, February 20. Judge Walter Bone of Nashville will preside.

The Nash County jurist is riding the Fifth Judicial Circuit the first half of the year.

Some important cases are on the calendar for trial Monday's session of court will be devoted principally to the hearing of divorce actions, nearly all of them on the grounds of two years' separation.

### Colored News

The Cosmetologist club local No. 24 met at the home of Miss Bernice West, 605 Tyson street, Tuesday night, February 14.

The meeting was opened in its usual way. The president presided over a routine business session. The hostess served a very delicious course which was highly enjoyed by all.

The next meeting will be at the home of Miss Sallie Ann Walker in Meadowbrook on Taylor street, Monday, February 20 at 1 p. m.

Ask your druggist for Creomulsion and take it promptly according to directions.

**CREOMULSION**  
Relieves Coughs • Chest Colds • Bronchitis

### Disappointed By Bergman Movie

Hollywood, Feb. 16—(AP)—Hollywood critics generally agreed today that the picture "Stromboli" is not as good as the story behind its filming.

The most publicized picture of all time was previewed yesterday and a cross-section of reviewers' opinions indicates that it was a disappointment.

"I suffer, believe me" says the star, Ingrid Bergman, at one point in the picture. That she does. For 1 minute of the film's length she is made miserable. Her simple-minded husband (Mario Vitale) slaps her, the villagers ignore her

and the bleak volcanic island depresses her.

All this makes for a picture that is grimmer than American audiences prefer. Another drawback is a confusion of the Italian and English tongues, which makes dialogue unintelligible in spots. However, most observers agree that the film will draw big business because of its publicity.

Nearly all of the critics interviewed in the lobby of the Pantages Theater after the preview expressed dissatisfaction with the picture. Some of the answers were flip: "The volcano was the high point in the picture. I think James Fitzpatrick (the travelogue maker) has done it better. It would make a nice home movie." "I don't think it was worth the trip—for Bergman or me."

More serious critics praised Miss Bergman's acting, but found fault with the story.

### Funeral Today For Mrs. Paul Whitehurst

Bethel.—Mrs. Paul E. Whitehurst, 53, died in Edgecombe General Hospital Wednesday at 12 o'clock after a lengthy illness. Funeral services will be held today at 4 p. m. from the Bethel Methodist Church, conducted by the Rev. N. W. Grant, pastor, assisted by the Rev. Robert H. Hough, Tarboro. Burial will be in Bethel Cemetery. Mrs. Whitehurst, the former Johnnie Patterson, was born and reared in Watertown, Tenn.

Surviving are her husband; two daughters, Frances Whitehurst and Betty Whitehurst of Bethel.

Consumption of wine in southern Europe, beer in northern Europe and tea in China is often a sanitary measure because of the lack of pure water.

# First Round Of Play In Northeastern Conference Tournery Opens On Feb. 23

### Tournament Committee Pits Greenville Against Edenton, Kinston Against New Bern And Washington Against Roanoke Rapids

By JOHN SPINKS JR.  
The first round of play in the Northeastern Conference Basketball Tournament, which gets underway next Thursday night at East Carolina College's Wright Building, pits Greenville against Edenton, Kinston against New Bern, and Washington against Roanoke Rapids.

These are the pairings as made out by the tournament committee and announced by the committee at last night's meeting of representatives of the towns in the conference. Elizabeth City drew the only first-round bye, this being necessary because there are only seven teams in the conference.

The pre-tournament meeting last night, held at the Barbecue Place, was attended by representatives of the high schools in six of the towns that make up the Northeastern. Roanoke Rapids was not represented.

A protest was made against the way in which the pairings were designated by E. N. Farnell, principal of the New Bern high school. He was of the opinion that all the pairings should have been made at the meeting rather than before by the three members of the committee.

Farnell, whose team meets the league-leading Kinston Red Devils in the first round, indicated he thought the representatives should have pitted the next strongest team against the powerful leaders.

He was overruled by the members present who voted to accept the pairings as made out. However, they voted to have the tournament committee discuss the pairing method before next year's tourney to effect the fairest means of pairing.

On this motion, which was passed unanimously, O. E. Dowd, principal of Greenville high school and member of the committee, said the upshot of the discussion might very well wind up as a duplication of this year's method, which has been employed in the three years past.

Other members of the committee are Boley Farley, Greenville coach, and Frank McKee of Kinston high school.

Other tournament business discussed included the arrangement of practice sessions on Wright Auditorium's basketball floor for all teams who have never played there. The group decided to follow last year's trophy awarding procedure—the champion, runnerup, and consolation winner, and awards to the members of the all-tournament team.

Officials for the tournament were designated by Walter Jones, head of the Northeastern booking office. They are Red Benton, Walter Jones and Gardner Ash. One of these will drop out after first-round play which has three games slated.

The 10 members present moved to hold their September meeting in Washington. That meeting will be primarily for the discussion of a new method of rescheduling football games so that more home games can be played by each team. In the past an inequity has resulted in this since Tarboro dropped out of the conference.

Members of the conference present at the meeting were: Jack Horne and O. E. Brubaker, Kinston; J. O. Powers, Edenton; Fred Eason, Bob Brooks and John W. Johnson, Elizabeth City; E. N. Farnell, New Bern; Joe T. Koenig, Washington; O. E. Dowd and Boley Farley, Greenville. Roanoke Rapids was not represented due to conflicting meetings involving the coach and principal.

### Rare Operation Promises Sight

Atlanta, Feb. 16—(AP)—A delicate operation performed on 1,000 doctors watched promises to enable a cotton mill worker's wife to see her husband and two children for the first time.

It was the surgical transplant ten days ago of a cornea from a still-born baby to the left eye of Mrs. Mary Ella Sams, 33, of Manchester, Ga.

Color television picked up minute operation details and displayed them to physicians at the Southeastern medical meeting. It was the first such demonstration in the south.

The bandages were removed yesterday by layer. Mrs. Sams' sight was tested with a flashlight beam.

She smiled as her husband, children and relatives gathered around her and told them she could detect.

Her doctors at Grady hospital were silent on the final result. But she herself said joyfully: "You know, they think I'll probably have 80 per cent vision in this eye. Isn't that great?"

Mrs. Sams has been blind since an infection at the age of 18 months. If sight is restored to her left eye, a similar operation may be performed later on her other eye.

## Sport Slants

### Dependable Duke . . . . . by Pap

The University of Louisville Cardinals snapped Duquesne's winning streak at 16 and spoiled Coach Dudley Moore's dream of an undefeated season.

"Louisville deserved to win," admitted Coach Moore after the game. "It was a case of us catching Louisville on a night when they were hot. Our boys just couldn't hit a streak like they had done late in the first half against Cincinnati in scoring their 16th straight victory. We weren't quite good enough to win it."

Coach Moore has had previous experience with long winning streaks. At Duquesne as a player he was a guard on Coach Chick Davies' famed 1934 quintet that ran up a string of 25 straight victories before bowing to Westminster by a single point. Moore was the playmaker of a team that boasted such individual stars as All-American Paul Birch, Ivy Brenner, Art Feldman, and Jim McDougall. He missed only one game during his four-year collegiate career. Last season, Moore returned to Duquesne to succeed Davies as court coach. His charges won 17 games while losing five.

## Calumet Well On Way To Another Winning Season

New York, Feb. 16—(AP)—Those galloping gold mines the Calumet Farm calls horses are well on the way to another \$1,000,000-plus season in stacking up race track swag. In just one month and a half of the 1950 campaign, Calumet already has knocked off close to a quarter of a million dollars in purses. And this without much monetary aid from the star attractions, Citation and Countdown.

In the last three years, Calumet horses have won more than \$1,000,000 each season.

With a split stable battling for the bucks in California and Florida, Warren Wright's financiers have tucked \$245,345 into the sock already this year.

The chief keeper-of-the-wolf-from-the-door is Ponder, the stable's surprising 1949 Kentucky Derby winner.

Ponder copped the \$100,000 Santa Anita Maturity Jan. 28, and last Saturday grabbed the \$50,000 San Antonio Handicap. Of the \$214,850 sailed away by the California branch of the Calumet Bank and Trust Co., Ponder has accounted for \$120,500.

Son Jimmy Jones, vice president of the California branch while Papa

Ben handles Calumet's Florida waltz, is now busy trying to get some more working capital. In particular is the \$100,000 Santa Anita Handicap Feb. 25. Then there is the \$100,000 Santa Anita Derby this Saturday.

Ben Jones hasn't been so fortunate in Florida, where the Calumets have banked \$30,496 since Jan. 1, at Tropical and Hialeah parks.

But the stable, which totaled away \$112,600 from Hialeah a year ago, still has designs on two \$30,000 numbers—the Widener Feb. 25, and the Falmingoo March 3.

The latest financial statement showed Calumet and Co. had topped all stables in earnings in seven of the last nine years, with a total income of \$5,709,849. So don't feel too sorry for plain Ben down in the palm country.

Francis Ouimet won his first U.S. amateur golf title in 1914 at the age of 21, and his second 17 years later at the age of 38.

The familiar light and dark blue racing silks of George D. Widener of Philadelphia, chairman of the Jockey Club, were registered in 1913.

## San Francisco Banishes Peanut On Home Grounds

San Francisco, Feb. 16—(AP)—The lowly peanut, almost as much a part of baseball as the ball and bat, has been banished from the home grounds of the San Francisco Seals. It costs too much to clean up the shells.

Paul I. Fagan, president and main stockholder of the Pacific Coast League team, announced yesterday: "They cost us too much money. They sell for 10 cents per bag, we get 2 1/2 cents from the concessionaires for each bag sold. I estimate it costs us five cents for giving every man, woman and child who buys a bag the privilege of throwing them on our clean floors."

He said it costs \$30,000 a year in janitors' labor to clean up the shells.

## Yachts Complete Race To Nassau

Nassau, Bahamas, Feb. 16—(AP)—A fleet of 23 yachts straggled into Nassau harbor today, completing the 12th annual 184-mile Miami to Nassau sailing race.

Latest reports from the Coast Guard cutter Ariadne placed the 72 foot yawl Escapade, owned by W. W. Anderson of Bayview Yacht Club, Detroit, in front as they approached Nassau. Windigo, 71-foot yawl owned by Walter S. Gubelman of New York, was in second position.

Defending champion Blitzen, 55-foot cutter owned by Ernest Grates and Murray Knapp of Detroit, was in third place.

## Last Night's Cage Scores

## Fred Wilt Plans Meet Gehrmann

New York, Feb. 16—(AP)—Fred Wilt indicated today he will race Don Gehrmann in a "runoff" of their split-1 mile if Chicago promoters insist.

The FBI agent, one-half the center of controversy between AAU officials, said "nobody wants me to run" his specialty, the two-mile.

Wilt intends, advising them of his plans. Gehrmann is listed for the bankers mile.

The obliging government man said he would not insist on running the two mile March 18 if sponsors oppose his entry in the longer race. Wilt had shifted from the two mile by popular demand to run Gehrmann in the now-disputed Wamsucker mile Jan. 28.

Gehrmann and Wilt breathed the tape together in 4:09.3 to provoke a ruckus. AAU officials started wrangling over who won. The pair finished so close together that three judges picked Gehrmann and two Wilt as the first man across the line.

## Eleven Teams In Maryland Meet

College Park, Md., Feb. 16—(AP)—Eleven schools have entered teams in the University of Maryland's third annual "exclusive" invitation indoor track meet Saturday night.

It's "exclusive" because only 200 spectators will be allowed in Ritchie Coliseum. That's all the onlookers the arena will hold for a track meet.

North Carolina, featuring its Olympic ace, Bill Albans, is expected to offer the strongest opposition to coach Jim Kehoe's Marylanders who have won the previous two editions of the meet.

## DEMONSTRATING BENDIX HOME LAUNDRY FOR REMAINDER OF WEEK

Miss Mary Howell, factory-trained laundry consultant, is putting on demonstrations of the Bendix Home Laundry at Home Furniture Store, Dickinson Avenue, for the rest of this week. There are three demonstrations daily of 65 minutes each. The demonstrations are given at 10 a.m., 2 p.m. and 7:30 p.m.

Longest inter-league series scheduled for baseball spring training is between the Cleveland Indians and the New York Giants, who will meet 18 times.

## Contracts Mailed To 13 Of Last Season Greenies

Baseball contracts for the 1950 season were mailed yesterday to 13 members of last season's Greenville club, Dallas Blackiston, business manager of the Robins, announced today.

In keeping with the minor league ruling that all contracts be in the hands of tentative players by March 1 of each year, Blackiston said today all members of the 1949 Shaughnessy playoff champions would have a chance to make the team this spring.

He made no comment on terms of any of the contracts.

He said the club was making an effort to obtain Art Mascarella from Danville, Virginia, again this season. Mascarella, a pitcher here last year, was optioned to the Greenville club from Danville for one season. Blackiston said, however, he thought the pitcher might be able to return to the club this year.

The Danville Italian pitched in 37 games here last season, going the route in 15. He finished with 10 wins against 15 losses and with an earned run average of 3.36.

## Ward, Chapman Chalk Up Pair Of Florida Wins

St. Augustine, Fla., Feb. 16—(AP)—Two North Carolina golfers took early victories yesterday in the second round of match play in the tournament of golf champions.

Harvie Ward, defending champion from the University of North Carolina, defeated W. E. Norvell of Chattanooga, 4 and 3. Dick Chapman of J. K. Kiesel of Holyoke, Mass., 4 and 3. Ward was two under par 72 and Chapman three under for the 15 holes each played.

In other matches J. E. Owens, Hickory, N.C., lost to Herman Chilton, Wellesley, Mass., one up, and Maj. Gen. George Decker, Ft. Jackson, S.C., was defeated by Frank Comfort, Monson, Mass., 2 and 1.

## DOG'S PUBLIC NUISANCE

Police have had numerous complaints about packs of stray dogs roaming the streets in the College View section. Other complaints stated that dogs in numbers prowl the college campus and are a nuisance, a police report stated.

Penn State, site of the NCAA's first boxing tournament in 1932, will serve as host to this tournament for the third time, March 30-April 1.

## High Prepster

AP Newfeatures RHINEBECK, N. Y.—Chief reason why Rhinebeck high school is a threat for the Dutchess County scholastic league title is six-foot, eight-inch Tom Pottersburgh, here being measured by a couple of teammates. Long Tom twice has scored more than 30 points in a game this season.

## Baltimore Plans Ask Extension

New York, Feb. 16—(AP)—Buddy Jeanette, player, coach and now general manager of the Baltimore Bullets, said today his club will appeal to the National Baseball Association for an extension in the trading deadline.

The Baltimore club was purchased last Sunday from its former owners, All Sports, Inc., by 20 Baltimore businessmen who added the general manager's duties to Jeanette's other tasks.

## Bowlers Of Industrial League Begin Schedule

Bowlers from the Industrial League started competition Tuesday night with seven teams of the eight-team league bowling.

Sunbeam Bakery, seventh on the list, was the only team which drew no opponent since the eighth member of the league is still open. Sunbeam bowled, however, registering its score to be compared with the eighth team when that position is filled.

At the end of the initial three games, White Chevrolet leads the other seven teams with a perfect score of three games won. Carolina Dairy stands in second spot with a 2-1 record. Third is Imperial Tobacco with the same score, fourth is the Post Office team with 1-2 record.

Leading the list of individual bowlers is Billy Harrington, bowling for Carolina Dairy, with a high of 166, two better than his next competitor, Bob Matthews of the Post Office with 164. In third place with an average of 162 is Bill Sumrell of Imperial Tobacco.

Leading the league with a team high score of 2,119 pins is White Chevrolet. White has 40 pins on their next opponent, Carolina Dairy with 2,078. The standings go on down from there through Sunbeam with lowest score of 1,624 pins for three games.

Yesterday afternoon the night shift from the Carbon League began second-round bowling with the standings remaining the same after 13 games.

The Torchers still lead the four team league with 11 games won. Prior to yesterday's lines, the Torchers had a perfect record of nine games won and none lost. However, the Cappers touched them for their only loss of the schedule to date.

Individual averages dropped in 12th game play over last week's for some top bowlers. Paul Taylor, in first place, dropped his a point to 130 and Letha Smith, last week's third place bowler, dropped three points to 118.

But second-place Ben Eastwood continued there by notching a pin over last week's average of 122. Nan Carson pulled the strongest rally in bowling only two games yesterday. She came from last week's seventh spot into third place, replacing Letha Smith, picking up her average from 106 to 119. Smith is now in fourth place.

### Industrial League Standings:

Team	Won	Lost	Pct.
White	3	0	1.000
Carolina	2	1	.667
Imperial	2	1	.667
Post Office	1	2	.333
Flanagan	1	2	.333

Torchers	11	1	.916
Labelers	5	7	.416
Tampers	4	8	.333
Cappers	4	8	.333

## Austrian Girl Nearing Recognition As One Of History's Great Skiers

Aspen, Colo., Feb. 16—(AP)—Bagmar Rom, the graceful blonde Austrian, is just one hurdle away from recognition as one of the greatest woman skiers in history.

The final test for the gay, 21-year old University student will come tomorrow on Aspen mountain's treacherous downhill course. A victory would give her a clean sweep of the women's Alpine events in the world meet sponsored by the Federation Internationale De Ski (FIS).

Miss Rom, a natural athlete who maneuvers with almost effortless ease added the world slalom crown yesterday to the giant slalom championship she had captured two days earlier.

The men Slalom is scheduled today. Among the 60 contestants from 13 nations, Zeno Colo, the Italian woodsman, is the favorite. Colo won the Giant Slalom Tuesday.

On a basis of 10 points for each first place, six for second, four for third, etc., Austria leads the Alpine phase of the world tournament with 41 points. Italy has scored 15, France 13, Switzerland eight and the United States one.

The Belair Stud Farm in Maryland, operated by William Woodward, was established in 1747 by Samuel Ogle, then governor of Maryland.

A burnt face produces no gum. You can't sell fire - why feed it!

# NEW DIFFERENT FLAVOR

Not white, not wheat, not rye —but a tasty blend of all!

## NOW NBC ROMAN MEAL BREAD - First In Greenville!

Perfect for reducing diets!

Mr. and Mrs. Dave Bauer check a scorecard with their two golfing daughters, 16-year-old Marlene and her pretty 22-year-old sister, Alice. The sisters have dominated Southern California's Women's tournaments for the past five years, and have recently been setting new marks on the golfing circuit.

Ideal for reducing diets, NBC Roman Meal Bread is lower in calories — high in proteins! A more delicious, more nutritious dark loaf!

NBC Roman Meal Bread makes the most wonderful toast you ever tasted with a hearty flavor that children really go for!

Made of whole grain wheat and rye, Roman Meal supplies vitamins, minerals and roughage not found in regular flour. Healthful Roman Meal Bread is an NBC exclusive — baked right here, delivered oven-fresh!

# Fifth Annual Speech Contest Opens At Greenville High Saturday Morning

The fifth annual student speech contest sponsored by the Greenville Lion's club will get under way in Greenville High School Saturday morning.

R. B. Starling this morning stated that so far nearly 80 students have entered their registration cards, stating the type of speech they will make and the length and such. "I feel sure that before Friday the total registration will be pushing close to the 100 mark."

Rooms for the out-of-town orators who will perform during the contest are needed. Starling stated today. We have placed nearly all of the students in private homes, but we need about ten more rooms. He urged anyone who could take a boy or girl for a night to contact him at the High School.

The first student speech contest was staged in 1946, at which time eleven students, representing three schools, composed of Ayden, Winterville and Greenville, took part.

The 1949 event drew 66 student speakers from 13 schools in two states, and in three rounds of competition 176 speeches were delivered.

The Greenville Lion's club, sponsor for the speech contest for the past five years, is offering \$45 in cash prizes to the four top speakers in each of three divisions. Top money of \$4 will go to the first place speaker, \$3 for second place, \$2 third, and \$1 for fourth place. This year for the first time certificates will be given to the best speaker in

each of the divisions. "We will not have the crowd that we had hoped for," Starling commented in an interview this morning, because the district student congress is being held at the same time and many of the students are either going to that and the number is being cut in half with part going to the district congress and the others to Greenville."

Student teachers, under the direction of Dr. James L. Oppelt of the East Carolina Teachers College faculty, will judge the rounds of debate and speaking Saturday.

Greenville High will have entries in each division; representing

Greenville will be: Division No. 1, Bynum Whitehurst; Division No. 2, Betty Lou Small, Lula Mayo, and Fred Dowdy, Harvey Bradshaw, Ray Sears, Rodney Fulcher and Mitchell Saleed; Division No. 3, Peggy J. Bowen, Bobby Nichols, John Brigham, Betty Sue Harris, Peggy J. Barrow and Carolyn Clapp.

The divisions are divided up in the following classifications: Division No. 1, original oratory for beginners who write and speak a four-five minute tribute to a character from the history of our nation. This division is closed to seniors, NFL members and all pupils who have participated in inter-

scholastic speech or debate contest. Division No. 2, original oratory, open to any high school student who writes and speaks an oration on any topic.

Division No. 3, declamation is open to any student, who may speak on any topic that the author may choose.

Following the speaking in the High School Saturday morning, a banquet will be held in the Greenville Woman's Club, and then the group will return to the High School at 4:00 for the presentation of awards to the top speakers by Lion's Club President Ernul Willis.

## Specialists Discuss Problems Of Sweet Potato Production

Fifty-five persons, representing six counties in Eastern Carolina, were present at a sweet potato seed selection demonstration yesterday held at the potato storage house in Bethel.

Farm agents and vocational and veterans guidance agents from Pitt, Martin, Edgecombe, Beaufort, Lenoir and Greene Counties met yesterday at 3 p. m. to hear two specialists from Raleigh discuss the entire sweet potato production, demonstrating the best type seeds to use for highest possible production of quality potatoes.

Henry Covington and Joe Gourlay, both of Raleigh, conducted the demonstration for the county agents. Covington is extension horticulturist from State College and Gourlay is from the marketing division of the State Department of Agriculture.

Both spoke and discussed quality sweet potato production at yesterday afternoon's meeting and at last night's meeting held in Pitt County courthouse, the latter primarily for Pitt potato growers.

At the demonstration, Covington went through a full bushel of potatoes, showing the group how selected seed stock, prior to planting, would produce grade No. 1 potato ready for market.

He demonstrated how chemical treatment of the seeds would decrease disease symptoms in the end product by using an experimental chemical of the experiment stations. He also showed how a careful selec-

tion of seeds would grow a properly sized potato with the right amount of coloring.

At last night's meeting Covington and Gourlay discussed the entire production program—from seed to table product—with the 125 growers present. They urged them to plant only No. 1 potatoes for seedling purposes rather than string potatoes because the former, when planted, will produce many more bushels of No. 1 per acre than will strings.

Covington proved this fact by reiterating experiment station figures on total-bushel production of No. 1. He said that when farmers had planted the required four bushels of strings for seedling—enough to produce one acre of potatoes—they produced only 234 bushels of No. 1 grade potato.

However, when six bushels of No. 1 were planted for the production of one acre, the farmer obtained 352 bushels of No. 1 grade, a difference of 118 bushels between the total of the two plantings.

He said although it takes two more original-planting bushels for No. 1 over strings, the financial return on six bushels is \$240 more to the farmer than that of four bushels of strings, a bushel selling for \$2 on the open market.

Covington summed it up in saying: "What we are trying to get

across to the grower is that planting No. 1 grade for seedling will cost him \$30, but he will realize a return of \$240 more on his original investment than if he planted strings."

(Strings are the throw-away potatoes unless they are planted for seedling and cost the farmer nothing to plant. No. 1 potatoes cost the farmer initially \$4.50-\$5 per bushel for seedling.)

Gourlay urged the group to "be as careful in handling your potatoes as you would with eggs" because they bruise very easily. He said the buyer for the home table would overlook any potato which is bruised, thus causing a black surface, in favor of another. They appear as though they are rotten, he said, even though underneath, they are perfectly good.

## Chemical Plant Building Ripped By Big Blast

Midland, Mich., Feb. 16—(AP)—An explosion virtually blew apart a building at the huge Dow Chemical Co. today.

Michigan state police said several men had been killed but declined to estimate the number. An unofficial source placed the death toll at five or six.

An undetermined number of Dow workers were injured in the shattering blast.

The explosion blasted the roof and one wall off building number 414 at the sprawling plant. The building houses Dow's emulsion polymerization process in the manufacture of rubber base paint.

Every ambulance in this chemical city was called into action to take away the dead and injured. The first of the injured were removed by truck.

## Hog Market

Raleigh, Feb. 16—(AP)—(NCDA)—Hog prices steady to slightly weaker today. \$16.25 at Tarboro, Kingston, Rocky Mount, \$16.00 at Washington, Wilson, Goldsboro, Robersonville and Greenville, Richmond slightly weaker at \$16.25.

## President Plans Campaign Tour For This Year

Washington, Feb. 16—(AP)—President Truman disclosed today that he plans what he called a non-political campaign tour this year to help Democratic candidates seeking seats in congress.

Adopting the label he used during his pre-convention swing of 1948, the President told reporters he would take them on a non-political tour again this year.

The President made clear that he will wait until after the primaries before doing all he can to help Democrats win in any state.

White House callers disclosed yesterday that Mr. Truman planned to campaign for Democratic candidates, especially in Pennsylvania and Ohio.

## Pitt Law Enforcers Are Fountain Banquet Guests

Fountain, Feb. 16—Law enforcement officers from Pitt County were the guests of the town of Fountain last night at a banquet held in the Fountain School lunch room.

The Rev. R. L. West of Fountain presided.

Over forty law officers from the Sheriff's office, State Highway Patrol, county police officers, ABC officers, Greenville police officers, and many guests were at the supper.

The supper was the second that the town of Fountain has given for the law enforcement officers in the last two years. Town officials hope to make the event an annual affair.

At the supper last night, it was announced that Police Chief J. H. Wheeler, who has served for more than two years, has resigned his position as chief and will leave Fountain Friday for Abokto to take over the duties of chief of police there. I. W. Williams, a former member of the Windsor police force, took over the office of police chief of Fountain yesterday.

Members of the town council and the mayor, J. L. Peele, told of the fine work that Wheeler had performed in Fountain during the years that he served as chief. Mayor Peele said that much of the progress in Fountain over that period of time was due to Chief Wheeler's work.

Members of the Patrol, Sheriff's

department, ABC officers, and officers of the Greenville police force praised Wheeler for his work as an officer, and told of the fine cooperation which they had received from the retiring officers.

The Rev. West, following the supper of barbecued chicken and barbecue, spoke briefly on the importance of the law enforcement work that is being carried on in Pitt County and the state.

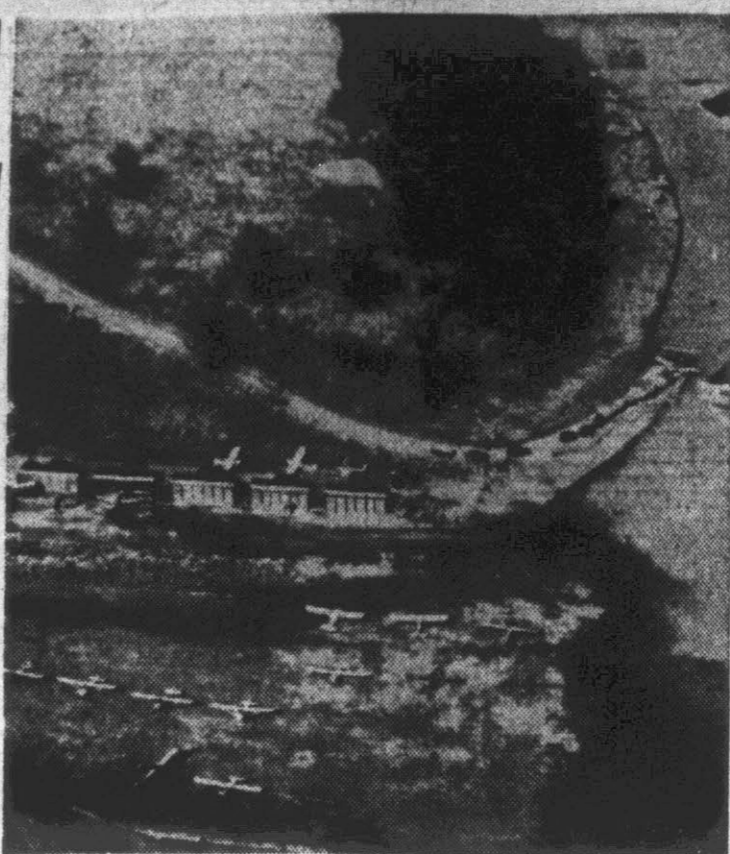

West cited the fact that among the various branches of the Pitt County law officers there prevails the closest harmony, which makes for fine working conditions among the law officers.

It was pointed out by the speaker that many times the officers of any organization are not fully understood, when they try to carry out the duties as officers.

West told the men assembled that at no time in the past had the people of Fountain issued a call for aid from Pitt County law officers that they had not received full assistance in any problem or situation that had arisen.

Captain D. T. Lambert, commander of the State Highway Patrol Troop A, spoke briefly to the group, bringing out the point that "No organization that does not have the respect of the people that they work with can succeed."

Lambert was formerly Highway Patrol commander in the Greensboro area, before coming to Greenville, several months ago.

Waters of the Cumberland River spread over Cornelia Fort airport, forcing private plane owners to taxi them to higher ground. The airport is located at Nashville, Tenn. Many of the hangars are deep in water and the aircraft remaining are stacked down nearby. Some 800 persons were made homeless by the flood, now receding. The river is still eight feet above flood stage. (AP Wirephoto).

## Trying Hard For Repeal War Tax

Washington, Feb. 16—(AP)—The nation's merchants—little ones and big ones—tried hard on Capitol Hill today for outright repeal of war-imposed excise taxes.

Rowland Jones, Jr., president of the American Retail Federation, told the House Ways and Means committee:

"The taxation of production and distribution of goods and services through excise taxes has no place in a peacetime tax structure regardless of deficit or debt. Such taxation is a burden and a hurdle in the path of an expanding economy."

The committee now is considering President Truman's proposal for tax law revisions. The administration has asked that excise cuts be held to \$655,000,000, with the reductions covering only jewelry, luggage, furs, toilet articles, travel tickets, transportation of property and long distance telephone calls and telegrams.

The merchants took the position the administration does not go nearly far enough.

Jones, speaking for the 52 retail organizations throughout the nation, said in a prepared statement that on the basis of a sound economy the wartime excise taxes "should be eliminated from the federal tax structure immediately." This would cut out many retail sales taxes and slash others.

## Walter T. Braxton Funeral Held Today

Funeral services for Walter T. Braxton, 54, who died at his home near Staton's Mill yesterday morning, was held this afternoon at 2:30 at the chapel of S. G. Wilkerson and Sons Funeral Home, Greenville.

Braxton, who had been critically ill since suffering a cerebral hemorrhage late Tuesday night, died at 10:50 yesterday morning.

The funeral was conducted by Rev. David Hansley, Free Will Baptist minister of Ayden, assisted by Rev. R. B. Crawford of Greenville.

Braxton was reared in the Winterville community and spent all his life in Pitt county. He was married to Martha Moye of this county in 1915.

## Poultry and Eggs

Raleigh, Feb. 16—(AP)—(NCDA)—Fryers and broilers steady at 23; eggs steady, a large 33.

## N. Y. Stock Market

New York, Feb. 16—(AP)—Rising prices for airline stocks contrasted with a broad decline in the balance of the market today. Much of the selling pressure was centered on the radio-television group where losses ran to a point or so. Declines elsewhere were mostly fractional, a few topping a point.

Aside from specialized instances, the market still operated under the cloud of the coal strike and traders showed little taste for taking a strong position.

## Way Cleared For Negro Housing

Greensboro, Feb. 16—(AP)—North Carolina office of the Federal Housing Administration cleared the way here today for construction to begin on a 267-unit apartment project for Negroes in Raleigh.

James P. McRae, state director of the FHA, said that a note insuring a loan of \$1,270,000 has been signed.

## Tie Vote . . .

(Continued from page one) Some backers of FEPC had hoped Allen might change his vote allowing the bill to go to the floor. Allen said in advance, however, that he had no such intentions and he voted against the bill.

## Winslow . . .

(Continued from page one) As buying or selling or servicing the farmers by regular business. Winslow said he would not object to an individual group of farmers going into business, but he did not think the organization should enter the business field.

He pointed out that the farm bureau instigated the flue cured tobacco cooperative stabilization, but it was organized by farm bureau members and set apart from the farm bureau.

"Insurance is altogether different," he said. "It would be the farm bureau going into business."

## Secret Pact . . .

(Continued from page one) China the railways and ports promised in the treaty, this conflict would be lessened.

Japan figures prominently in the pact, and the Nipponese are worried. Moscow says the treaty is aimed in part at the rebirth of Japanese aggression. The alliance binds Russia and China to full assistance by either if the other is attacked by Japan "or any other state which directly or indirectly would unite in any form with Japan in acts of aggression."

That "any other state" clearly is a pot shot at America and Britain. In any event, we now shall see a speeding up of the Moscow directed operations aimed at bringing the rice bowls—Indochina, Thailand (Siam) and Burma—under control of China. Food is the pressing need of China now, and the success of the Communist drive may depend on quick access to rice, which is the staff of life in that part of the world.

Famine already is striking hard at many millions north of the Yangtze River in China, and conditions are expected to grow worse. As things stand, the Chinese must fight for their meagre bowls of rice.

And what of future relations between China and Russia? Moscow has been following a well-defined program in the drive to communize the world. It would be absurd, it seems to me, to expect her to make any exception in the case of China.

The new alliance of course means that Russia and China have agreed to work together in the Red offen-

**Your Tax . . .**  
(Continued From Page One)  
allowed by law.  
Examples: Smith's income was \$5,200. He takes without itemizing, a standard 10 per cent deduction of \$520. Brown's income was \$10,000. He takes the full 10 per cent deduction allowed by law, without itemizing, or \$1,000.  
But what about Jones—whose income was maybe \$10,100 or maybe even \$30,000? He still can claim without itemizing, only 10 per cent up to a limit of \$1,000. No matter how much above \$10,000 his income was. So Jones' total deduction, without itemizing, even though his income was \$30,000, can be no more than \$1,000.  
If Jones' deductions actually ran to more than 10 per cent of his income—and this is true of anyone with over — \$5,000 income — he can claim them in full but then he'll have to itemize them.  
It's different with a married couple whose income was \$5,000 or more. If they file a joint return on the 1040 long form, even though the wife had no income, they get a standard deduction—just like the unmarried man—of 10 per cent up to a limit of \$1,000, without itemizing.  
But if one of them files separately, or both file separately there's a limit of \$500 in deductions on the return filed. Example:  
Smith had \$9,000 income, his wife had none, they file jointly. They get the standard 10 per cent deduction of \$900, without itemizing.  
But suppose this same Smith—with \$9,000 income and a wife who had no income—files a return alone because his wife fails to file jointly with him.  
In that case his standard deduction is only \$500. The Smiths have lost on that deal. And—if he files alone and his deductions actually were more than \$500, he'd have to itemize them all to prove his had

### Chinese-Russian Pact Undercuts U. S. Policy Hope

Washington, Feb. 16—(AP)—Diplomatic authorities said today Soviet Russia and Red China apparently had designed their new treaty of alliance in part as a weapon for cutting the ground from under American policy toward China.

That was the initial interpretation placed on the annex to the pact, announced last night. Under this, Russia promises to hand over to Communist China within two years the south Manchurian railway, which the Soviets now operate, and the port of Dairen. Moscow also says it eventually will withdraw Soviet troops from the "jointly used naval base" of Port Arthur.

American policy, as stated by Secretary of State Acheson Jan. 12, is based on the hope of a conflict of interest between Russia and China in North China and particularly in Manchuria.

If Russia actually returns the railways, Dairen and Port Arthur the effect would be to minimize this conflict.

Meanwhile, State Department officials are certain that both Moscow and the Chinese Red regime will make propaganda capital of the fact that Russia has entered into a treaty to relinquish the special rights which the United States has assailed as a form of old fashioned imperialism in China.

Officials said the treaty as announced will require considerable study before its full significance for the future course of the cold war can be adequately understood.

### Woman's Hobby: Collecting Pipes

Santa Ana, Calif.—(AP)—Mrs. Frieda L. Clayton has an odd hobby for a woman. She collects pipes.

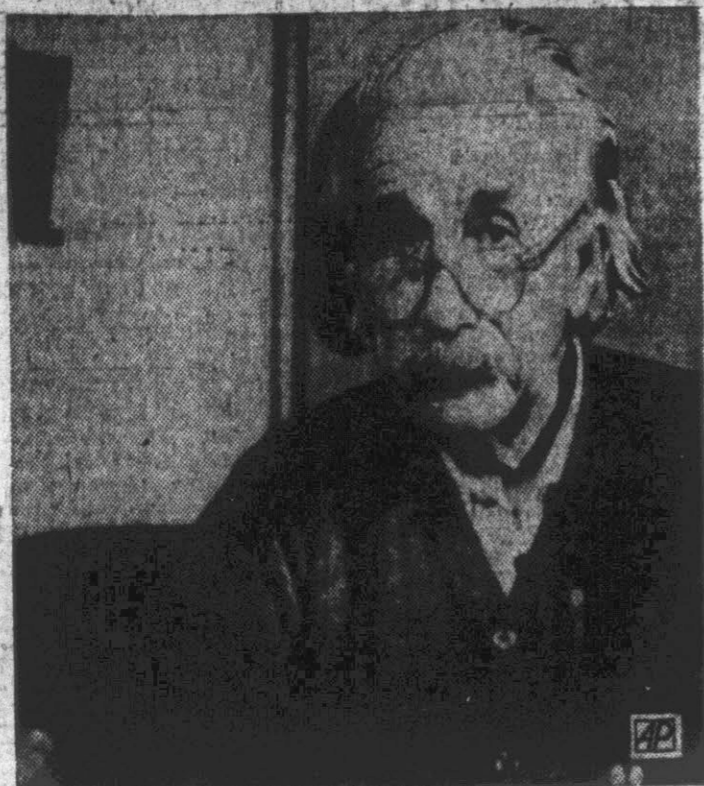

In 30 years she has acquired more than 450 rare models, big pipes, little pipes, carved pipes, plain pipes, opium pipes and even water pipes. One specimen is a hollowed briar burl, once the proud possession of an Indian chief. Others are made of rosewood, walrus tusk, glass and clay. A 200 year old meerschaum has a head of horses carved on its bowl. The rosewood model has a stem fashioned from the leg and hoof of a deer. Some are inlaid with gold and mother of pearl.

No, even though she runs a pipe shop, Mrs. Clayton doesn't smoke her treasures.

**MARSHALL BEGINS TOUR**  
Pinehurst, N. C., Feb. 15—(AP)—Gen. George C. Marshall left his winter home here today on a trip that will carry him to Hawaii in the interest of the Red Cross.

A year is about 365 and one quarter day long.

### Einstein Fears "Annihilation"

Dr. Albert Einstein, the famed scientist, appears at his home in Princeton, N. J., during the making of a film shown on the first program of Mrs. Franklin D. Roosevelt's new weekly NBC television series. Dr. Einstein called the armament race between the United States and Russia "hysterical." He said general annihilation beckons, and he called on the nations to do away with mutual fear and distrust. (AP Wire-photo).

### Says Marriage Ideas Spoiling American Women

Gainesville, Fla.—(AP)—American women are spoiled, says Dr. Perihan Cambel, Turkish-born associate professor at the University of Florida. "In America," she says "a woman thinks only of getting married. In Europe a woman thinks first of her career."

Here doing cancer research, Dr. Cambel says Turkish women who attend the Universities take military training in summer, learning marching, shooting, radar, nursing and food service, and many have entered aviation.

"But wrong ideas you have about Turkey do not compare with ideas we have about America. You have no conception of the warped picture of American life one gets from seeing only Hollywood movies. Everyone lives in skyscrapers, wears furs and there is gold in the streets."

Eratosthenes, a Greek, calculated the circumference of the earth with an error of only 14 per cent in 200 B.C.

**NOTICE TO CREDITORS**  
Having this day qualified as Executor of the estate of Hardy C. Evans, this is to notify all persons having claims against the estate to file them with the undersigned at the address given within twelve (12) months from this date or this notice will be plead in bar of recovery. All persons indebted to the estate will please make immediate settlement.

This 20th day of January, 1950.  
**HATTIE EVANS**, Executrix of the Estate of Hardy C. Evans, Rt. 3, Box 188, Greenville, N. C.  
S. O. Worthington, Atty.  
Feb. 16-23 March 2-9-16-23.

### NOTICE OF SALE OF PERSONAL PROPERTY

Under and by virtue of the power of sale contained in a certain chattel mortgage recorded in Book 75, Page 85, of the Registry of Pitt County and executed by J. W. Hardy to A. J. Melton on the 23rd day of November, 1949, and in default of payment on note secured thereby, the mortgagee herewith offers for sale for cash to the highest bidder one White Tractor, Motor No. 120-A-2244, Serial No. 239150, 1941 model.

Said sale is to be by public auction at 12 Noon, March 3, 1950, in front of Melton's Motor Service, Farmville, N. C.

Done this 8th day of February, 1950.  
A. J. MELTON, Mortgagee  
Attorney: Dan H. Jones.  
Feb. 9-16-23

### INVITATION FOR BIDS

In re: Pitt County Drainage District Number Eleven  
Sealed bids will be received until two o'clock P. M., Eastern Standard Time, March 3, 1950, for furnishing all labor, equipment and materials for performing all work for clearing rights-of-way and excavating and cleaning out a drainage canal known as Pine Log Swamp, located largely within Beaver Dam Township, Pitt County, North Carolina, and within Pitt County Drainage District Number Eleven. The position of the canal to be improved has an estimated total length of 48,810 feet and the work proposed will involve an estimated 68.53 acres of clearing and an estimated 168,879 cubic yards of earth excavation. All work is to be performed in accordance with specifications and plans which may be inspected at the office of J. H. Harrell, Greenville, North Carolina, and all work of clearing out the right-of-way must be performed within six months after notice to proceed has been given, and all work of excavation and cleaning out the proposed canal must be performed within ten months after notice to proceed has been given.

Separate contracts will be made and separate bids will be received for the work in clearing out the right-of-way and the work in excavating and cleaning out the proposed canal. One may bid for one contract without bidding for the other.

No bids will be received unless the party offering it shall furnish satisfactory evidence to said Board that he has the necessary ability, facilities and resources to fulfill the con-

ditions of the contract and execute the work if the contract is awarded to him, also, enter into the undertaking as required by law. Bidders will examine plans, maps, profiles and specifications and also the locality in which said work is to be done.

The Board reserves the right to reject any and all bids, as authorized by law.

This the 15th day of February,

1950.  
J. H. HARRELL, Secretary Pitt County Drainage District No. 11, Feb. 16-23.

### PRELIMINARY CERTIFICATE OF DISSOLUTION

State of North Carolina  
Department of State  
To All to Whom These Presents May Come—Greetings:  
Whereas, it appears to my satis-

faction, by duly authenticated record of the proceedings for the voluntary dissolution thereof by the unanimous consent of all the stockholders, deposited in my office, that the Allen-Jenkins-Churchill, Incorporated, a corporation of this State, whose principal office is situated in the City of Greenville, County of Pitt, State of North Carolina (W. C. Jenkins being the agent therein and in charge thereof, upon whom

process may be served), has complied with the requirements of Chapter 85, General Statutes, entitled "Corporations," preliminary to the issuing of this Certificate of Dissolution:

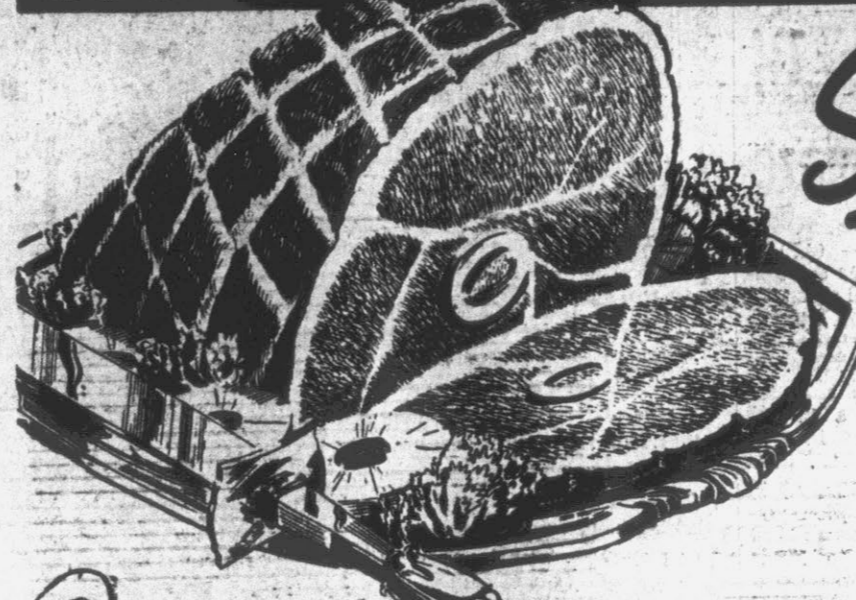

Now therefore, I, Thad Eure, Secretary of State of the State of North Carolina do hereby certify that the said corporation did, on the 14th day of February, 1950, file in my office a duly executed and attested consent

in writing to the dissolution of said corporation, executed by all the stockholders thereof, which said consent and the record of the proceedings aforesaid are now on file in my said office as provided by law.

In testimony whereof, I have here-to set my hand and affixed my official seal at Raleigh, this 14th day of February, A. D. 1950.

THAD EURE, Secretary of State  
Feb. 16-23 March 2-9.

# Nineteen Million Dollars Spent On City Streets Within N. C.

By LYNN NISBET  
Raleigh, N. C., Feb. 16—(AP)—During the fiscal year ending June 30, 1948, there was spent on street construction and maintenance, traffic control, street cleaning and lighting in the municipalities of North Carolina the sum of \$19,007,180. Of this amount the state and federal governments put up \$3,501,772, or 18.4 per cent. The municipal government put up \$15,505,411, or 81.5 per cent. Most of the local money was derived from ad valorem taxes on property, and street assessments (which is essentially a property tax). Less than a million dollars came from other sources such as parking meters and license tags.

These and other interesting figures are contained in the report compiled by the state highway division of statistics and planning, in cooperation with the U. S. bureau of the public roads information upon which the tabulation is based was gathered by personal visits to many cities, questionnaires and letters to others, and from files of the League of Municipalities and local government commission. The survey was made and the report prepared by Earl Tyndall, Jr., junior research specialist, under direction of James S. Burch, engineer of statistics and planning.

# Egg Production High In January

Raleigh, Feb. 16—(AP)—North Carolina's hens set a new high in January egg production last month, according to the Federal-State Crop Reporting Service.

Spurred by good weather, the state's chickens laid 73,000,000 eggs last month. This was a 31 per cent boost over their December output, and four per cent greater than the 69,000,000 eggs produced in January last year.

Other figures in the Service's monthly report released yesterday showed:

- Soybeans stocks down to 2,991,000 bushels Jan. 1 compared with 3,182,000 bushels on Jan. 1 last year.
- January milk production was 120,000,000 pounds, 2,000,000 below December's, but 3,000,000 higher than production during January, 1949.

State and federal funds in the amount of \$1,799,582 were spent without being involved in municipal accounts. Of the total \$17,207,601 came from the state allotment for municipal streets. State and federal funds were used for such items as construction and maintenance of streets. Local sources provided for these purposes \$7,594,828 and for other street purposes the amount of \$7,921,079.

Principal items in the other costs are traffic control \$1,861,490, street lighting \$1,057,422; street cleaning \$1,295,818, debt payments—notes, bonds and interest—\$2,524,289.

In a statement accompanying the report it is explained that the figures may not necessarily cover the entire scope of operations of "street" work, and expenditures may not reflect actual street needs. Construction work done by realty subdivisions, industrial plants and other private spending is not included in the report.

Breakdown of per capita cost in towns of varying size shows highest cost in the 5,000 to 10,000 class, where the total for all street purposes amounted to \$18.35 for each resident of the city. Maintenance costs were highest in the towns of less than 1,000. Traffic control cost more in the 25,000—50,000 group.

# Pelley Center Of New Legal Maze

Indianapolis, Feb. 15—(AP)—William Dudley Pelley was the center of a new maze of legal entanglements today as he enjoys freedom from a federal prison for the first time in more than seven years.

The former Silver Shirt leader, paroled yesterday from a 15-year sentence imposed in 1942, is wanted in North Carolina.

The former Governor Henry F. Schrickler granted extradition yesterday, but Pelley's lawyers had forestalled his removal to North Carolina for at least three weeks by filing a petition for a writ of habeas corpus.

This is what happened to the 56-year-old former publisher of "The Gallilean" in a busy day yesterday: Pelley was released from federal prison at Terre Haute. He was taken into custody by Sheriff John Trierweiler of Vigo County, (Terre Haute) at the request of North Carolina authorities.

Then he appeared in Superior Court at Terre Haute on a petition for the writ. Judge Clay A. Phillips released him on \$1,000 bond and set a hearing for March 8.

His lawyers then hurried to Indianapolis for a hearing before Governor Schrickler on petition of North Carolina authorities for his extradition. Pelley did not appear at the extradition hearing and was believed to have gone into seclusion with relatives.

The governor granted the extradition, but the habeas corpus action at Terre Haute apparently postponed the extradition order until March 8.

He told a gathering of federal, state and local law enforcement officials that there should be complete cooperation among them to combat this.

Mr. Truman indicated he considers it of equal importance that the nation as a whole be educated to higher moral values.

"We must encourage education, religious instruction and home training in the family and in the guidance of our children," he said in his speech to the group at the Justice Department.

He added:

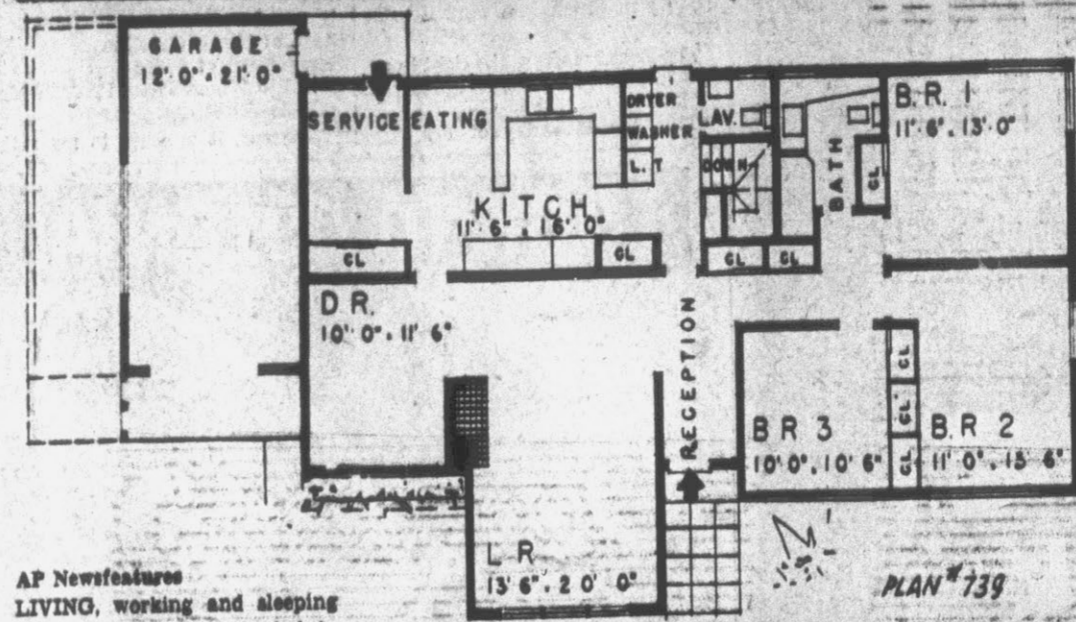

"The fundamental basis of law was given to Moses on the mount. The fundamental basis of our bill of rights is found in Exodus, St. Matthew, Isaiah, and St. Paul.

"Without moral backing, we will wind up with a totalitarian form of government."

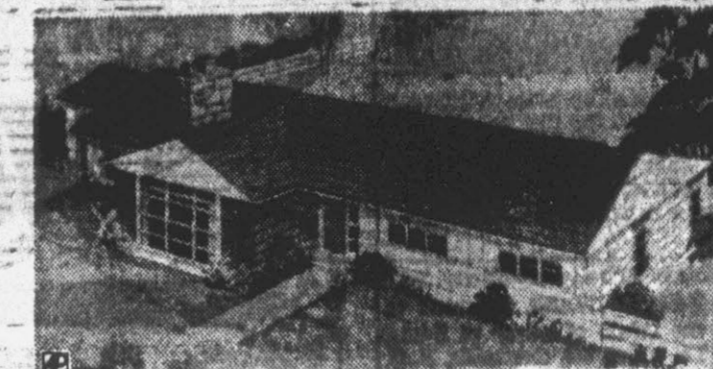

Attorney General J. Howard McGrath earlier had thrown the weight of the federal government behind community drives on organized crime, especially gambling.

Almost one fourth of Holland is below sea level.

# HOMES FOR AMERICANS

AP Newsfeatures  
LIVING, working and sleeping areas are sharply separated in the design for a modern home of the popular rambling one-story type. All rooms are accessible without crossing the living room. A service room adjacent to the kitchen can serve as sewing room or play-room. This is Plan 790 by Walter T. Anicka, 617 Forest Street, Ann Arbor, Mich. The plan provides 1,440 square feet of living area with basement and double garage optional.

# Asks Crusade On Organized Crime

Washington, Feb. 15—(AP)—President Truman today called for a great moral crusade against organized crime in the United States.

Mr. Truman said that World War Two had been followed by "a resurgence of underworld forces, living on vice and greed."

He told a gathering of federal, state and local law enforcement officials that there should be complete cooperation among them to combat this.

Mr. Truman indicated he considers it of equal importance that the nation as a whole be educated to higher moral values.

"We must encourage education, religious instruction and home training in the family and in the guidance of our children," he said in his speech to the group at the Justice Department.

He added:

"The fundamental basis of law was given to Moses on the mount. The fundamental basis of our bill of rights is found in Exodus, St. Matthew, Isaiah, and St. Paul.

"Without moral backing, we will wind up with a totalitarian form of government."

Attorney General J. Howard McGrath earlier had thrown the weight of the federal government behind community drives on organized crime, especially gambling.

Almost one fourth of Holland is below sea level.

# Oscar H. Brown Now At San Diego Station

Oscar H. Brown, yeoman second class, son of Mrs. Nannie H. Brown of 806 East Third Street, Greenville, N.C., and husband of the former Miss Hazel W. Westington of Winterville, N.C., is now serving in the Flag Administrative Unit of the Commander Air Force, Pacific Fleet based at the Naval Air Station, San Diego.

Brown and his wife Hazel presently reside at 3423 Rosendahl Circle, Apt. B-9, San Diego.

He told a gathering of federal, state and local law enforcement officials that there should be complete cooperation among them to combat this.

Mr. Truman indicated he considers it of equal importance that the nation as a whole be educated to higher moral values.

"We must encourage education, religious instruction and home training in the family and in the guidance of our children," he said in his speech to the group at the Justice Department.

He added:

"The fundamental basis of law was given to Moses on the mount. The fundamental basis of our bill of rights is found in Exodus, St. Matthew, Isaiah, and St. Paul.

Attorney General J. Howard McGrath earlier had thrown the weight of the federal government behind community drives on organized crime, especially gambling.

Almost one fourth of Holland is below sea level.

# De-Duck-Tible

Scarsdale, N.Y., Feb. 16—(AP)—If you adopt a duck, the bird's board bill is "de-duck-tible" on your income tax.

That's a feature claimed by the Scarsdale Audubon Society for its "foster parents" plan for wild ducks.

It seems that thousands of hungry ducks cluster in winter-time on the cold banks of the Bronx River from Mount Vernon to Valhalla, N.Y.

To help pay for feed for the fowls, the society has been letting them out for adoption at 50 cents, or more, per duck.

Society President Cyril V. Miller said more than enough money to feed the flocks for the rest of the winter is now available.

Some 500 persons, from throughout the country, from London, Paris and Canada, have contributed.

Each got a "foster-parent" "duck-a-ment."

# REVOKE 9 PERMITS

Raleigh, N.C., Feb. 16—(AP)—The revocation of nine retail beer permits was ordered yesterday by the State ABC Board.

# Put Goldpiece In Parking Meter

Orange, N.J., Feb. 16—(AP)—A woman driver dropped a coin into a parking meter yesterday, then yelled for police.

Two policemen responded and obligingly opened the meter's coin box and returned her coin.

She had told them that instead of a penny she put a \$2.50 goldpiece in the meter. She had been carrying the goldpiece as a goodluck charm.

Cost of operating a television receiver is estimated on the average to run two fifths of a cent per clock hour where the rate for electric current is two cents per kilowatt hour.

Only people who have lived in Monaco for four generations can become citizens.

# Wilson's Weekly Bulletin

from the Rector Kitchens

We have just enjoyed a WILSON quality spareribs roast, and was it de-licious! We first covered our WILSON spareribs with savory apple-bread dressing, then rolled them up and low temperature roasted them at 325°F. UMMMMMMM!

The tart apple stuffing complements the sweet goodness of the pork, and the roasting pork ribs savorily baste the apples as they steam tender inside the roast. At this low temperature, there is no drying out. The finished platter of meat provides more looks and flavor for your money than has been possible at the price for many seasons. My my, but it is SO GOOD! Try it—please.

**WILSON'S Weekly Bulletin**  
from the Rector Kitchens

We have just enjoyed a WILSON quality spareribs roast, and was it de-licious! We first covered our WILSON spareribs with savory apple-bread dressing, then rolled them up and low temperature roasted them at 325°F. UMMMMMMM!

The tart apple stuffing complements the sweet goodness of the pork, and the roasting pork ribs savorily baste the apples as they steam tender inside the roast. At this low temperature, there is no drying out. The finished platter of meat provides more looks and flavor for your money than has been possible at the price for many seasons. My my, but it is SO GOOD! Try it—please.

**SPARERIBS ROASTED with APPLE STUFFING**

Select a small, young and tender WILSON'S side of spareribs

At the wide end, cut slits parallel to cartilages. For the stuffing, cook together until savory but not browned:

- 1/4 cup melted WILSON'S Clearbrook Butter or CERTIFIED Margarine
- 2 tablespoons parsley, chopped
- 1/4 cup minced onions
- 1/4 teaspoon pepper—no salt
- 1/4 cup celery, optional

Then stir:

- 8 slices day-old bread, cubed and mixed with
- 2 cups apples, red skins left on but cored, sectioned and sliced crosswise into 1/4 in. slices.

Dissolve:

- 2 teaspoons WILSON'S B-V in
- 1/4 to 1 cup hot water, depending on how dry the bread and apples are.

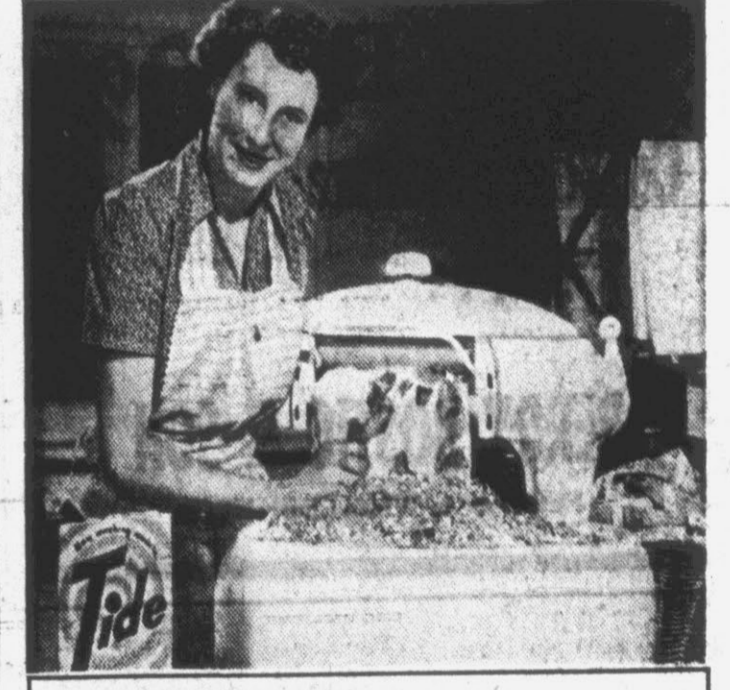

Stir the liquid into the stuffing mixture and blend well. Roll stuffing up in ribs starting with small end. Place on a rack in shallow baking pan in slow oven (325°F.) for 1 1/4 hours. Serve hot with a border of boiled onions sprinkled with butter and chopped peanuts, too, if you like. Serve hot to four or five.

The Wilson label protects your table

IT'S HARD TO BELIEVE!  
BUT IT'S TRUE!  
IT'S ANOTHER TIDE MIRACLE!

# A DAZZLING CLEAN WASH WITHOUT RINSING!

**TIDE cuts washday work in half! No more rinsing! Just wash...wring out...hang up!**

**"NO MORE RINSING FOR ME!"**  
says Mrs. Elizabeth Davis of PORTSMOUTH, OHIO  
"It's true! I took the clothes right out of those wonderful Tide suds and put them through the wringer and onto the line. And, they looked so bright and clean—I was proud to hang them up!"

YES, another Tide miracle has been discovered—and it's the washday news of the mid-century! With Procter & Gamble's Tide in your washing machine—you can take your clothes right out of the suds . . . put them through the wringer and hang them on the line dazzling clean! *Without rinsing!*

HERE'S WHY! Tide, with its miracle suds, gets the dirt out of your clothes and keeps it suspended in the sudsy water. When you wring out the clothes, the dirt runs out with the washwater . . . and the clothes come from the wringer white . . . fresh . . . CLEAN!

YES, CLEAN! You already know how clean Tide washes your clothes with rinsing. Actually cleaner than any other product you can

**NOTE: EVERY PACKAGE OF TIDE ON YOUR DEALER'S SHELF RIGHT NOW WILL WASH CLOTHES DAZZLING CLEAN WITHOUT RINSING!**

buy. Now try the same wonderful Tide without rinsing and compare the results. It's simply unbelievable how bright, fresh and clean you can get your wash with Tide, *without rinsing*. And think of the work you save! So get Tide today, and remember! The Tide that is on your dealer's shelf *right now*—in the same familiar package—will give you a dazzling clean wash *without rinsing!*

No other washing product known matches TIDE for getting out both dirt and soap film!

### Aged Virginia Lawmaker Dies

Washington, Feb. 16—(AP)—Rep. Schuyler O. Bland (D-Va.) died of a cerebral hemorrhage today at the Bethesda Naval Hospital. He was 77.

Bland, who was serving his 17th consecutive term in Congress, had been ill for some time. He was taken to the hospital Tuesday afternoon.

## Call Of The Wild Is No Longer Big Challenge To City Dweller

By PAUL PETT  
New York—(P)—Pity the modern city man roughing it say, in the wilds of the North Woods. He knows nothing about the whims or demands of nature. All his life has been spent in a comfortable apartment with everything provided. Now, he's alone in the woods, this pale, unresourceful man with no talent for living outdoors.

Will he make it?  
Well, just grant him one concession. Give him all the latest gadgets which are provided by thoughtful outfitters for campers, hunters, explorers.

So, our modern city man, name of Herbert, is trudging along the trail, alone nervous and laden with equipment. The wind comes up. He removes a compact pocket heater from his knapsack. He doesn't have to know now it works but it works with chemicals, gives off no flame. Our hero warms the inside of his gloves and then his ankles inside his boots.

Will it turn colder or rain tomorrow? How would Herbert know? He simply looks at the clouds, judges the wind direction from his compass, then consults his compact, pocket-size weather guide. He reads the forecast, "fair," fine, nothing to worry about.

But alas, our boy gets thirsty. Foolish Herbert, he didn't bring any water. He stumbles onto a stream. Is it safe to drink? Can he tell? He can't. So he digs into a pocket for his small water filter which is attached to a long tube. He drops the filter into the water and drinks without worrying about impurities. Walking back to the trail, our hero scratches his forehead on a reaches for the iodine in his compact, comprehensive, three-pound first aid and medical equipment kit.

Herbert sighs, relieved. He doesn't need the compact, five-ounce snake bite kit which he has brought along. Dusk falls on the lonely trail in the tall timber. Our hero decides its time to pitch camp. He unfolds and sets up his compact, six-pound, bug-proof, sun glare-proof tent, which also comes with windows and flaps and awnings.

It's going to be real cold tonight, Herbert. So he sets up a smaller, more compact tent inside the larger tent. The space between the walls of the tents provide insulation.

He cuts some wood with his little axe and carries it back in a compact, canvas-wood carrier. Notice he doesn't get kindling wood. He doesn't need it. Instead, he pulls out some small cubes of synthetic kindling, lights them with his wind-proof lighter and the flame leaps up. No odor, no smoke.

Herbert admires the flame for awhile. He uses asbestos gloves to handle the hot coals. Then he smiles. He has indulged himself in romantic accouterments, he realizes. He didn't need the fire in the first place. What he needs now is a bath.

First, a compact, four-pound cooker-heated with attached reflector for throwing off heat is unloaded and quickly warms up the tent. Then a collapsible canvas water bucket used to carry water from the stream to the tent where Herbert has set up his collapsible canvas bath tub.

Refreshed but hungry, Herbert then unloads his compact, easy-to-carry, easy-to-cook dehydrated foods and with a few simple directions has himself a meal of broth, powdered scrambled eggs, diced potatoes, spinach and coffee.

He lights his pipe, reaches into

his oil refrigerator for some ice cubes and mixes a high ball. He settles back in his light, compact folding chair. His eyelids grow heavy. He unzips his 100 per cent pure down sleeping robe.

He sets his small, pocket alarm clock. He turns off his lantern and stretches, thinking next time he'll bring the Missus along since this is a double sleeping bag.

Slowly, in complete peace, our hero closes his eyes. But he can't sleep. There's no noise. So he turns on his small, compact portable radio. Now he sleeps.

Herbert's at home in the woods.

### Second Meeting Of Junior Camp Modern Woodmen Is Held

A second meeting of Junior Camp of Modern Woodmen was held Monday night and much progress has been made with only two meetings. Official membership now is sixty-one boys and girls, between the ages of one and 16.

The Junior Camp is being organized under the direction of Larry R. Stox, Junior Director; Miss Myrtle Moore, Assistant Director; and V. L. Baker, secretary of the adult group.

After the business session was held, Monday night, a Valentine party was given the members. Games were played and refreshments were served.

The Camp is giving a prize to the member who brings the most new members at the next regular meeting which is to be held Monday night, March 13, 1950.

The Leaning Tower of Pisa has tilted a little over a quarter of an inch in 12 years.

## "It's True!"—New Swift's Jewel Shortening Challenges the Costliest—Costs Much Less!

**Simple Test Proves Jewel "Smoke-Point" 40° higher than costliest shortenings!**

**WON'T SMOKE UP OR SMELL UP KITCHENS**

In a recent test, the "smoke-point" of new Jewel was compared with the three costliest shortenings on the market. And in every single instance, Jewel demonstrated a marked superiority. The test itself is so simple that it can be done in any home kitchen. Equal amounts of Jewel and any costliest shortening are placed in two pans. A cooking thermometer, (two, if you have them) will help to verify exact temperatures. As heat is applied, the expensive brand begins to smoke and give off odors. Jewel, however, remains smoke-free long after the other shortening has been removed from the heat. It can, in fact, be left over the heat until its temperature is 40° higher than its competitors. Home Economists agree that the perfect deep-fat frying temperature is 365° to 375°. Expensive shortenings will begin to smoke at 360°. Jewel, however, could be heated to 400° before even a noticeable trace of smoke or odor would appear.

**SPECIAL PECAN PIE RECIPE FROM SWIFT'S FAMOUS MARTHA LOGAN**

Families who go for pecan pie (and what family doesn't!) will give a cheer for this special recipe featuring new Jewel Shortening. It's easy, too! Just follow the 3 magic steps which Martha Logan has indicated for your convenience.

1. Line an 8-inch pie pan with pas-
- try made with Jewel Shortening.
2. For the filling, beat 4 eggs slightly. Add 1 cup sugar, 1/2 tsp. salt, 1 cup white corn syrup, 3 tbs. melted Jewel Shortening, 1/2 cup whole pecan nut meats and 1 1/2 tsp. vanilla.
3. Fill prepared pie shell and bake in a moderate oven (350°F.) about 1 hour, until an inserted knife comes out clean.

**SELLS FOR 5¢ TO 7¢ LESS PER LB.—GIVES "MAGIC" COOKING, BAKING, FRYING RESULTS!**

Thanks to the skills and ingenuity of the famous Swift Research Laboratories a new, homogenized Jewel Shortening has just been introduced. Created to a new formula, the new Jewel employs a controlled

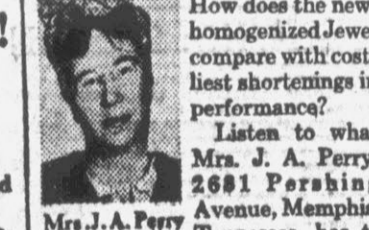

**No Other Shortening Is More Digestible Or More Nutritious!**

Don't be fooled—say scientists. Just because a shortening costs more doesn't make it any more nutritious or digestible. Actually, any fats—including the fine vegetable and meat-food fats found in Jewel—are among the most completely digested foods. Furthermore, all fats are important in good nutrition. For they yield 2 1/2 times as many energy units per pound as either carbohydrates or proteins. —In other words, money can't buy a more nutritious or digestible shortening than new Jewel. Not even if you pay \$10 a pound!

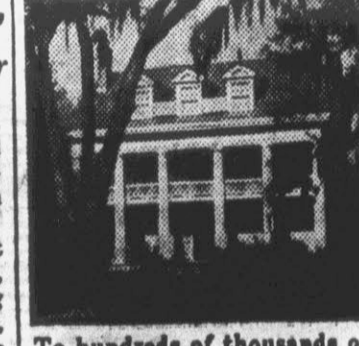

homogenization process in the blending of its fine vegetable oils and meat-food fats. The result is a remarkably smooth and even-textured product of highest quality. Exhaustive tests by Martha Logan, Swift's nationally-known Home Economist show that the new Jewel is truly ideal for cooking, baking and frying. Jewel-made cakes, pies, biscuits and fried foods rival those of shortenings costing much, much more. What's more, new Jewel has a "smoke-point" 40° higher than that of costliest shortenings. Thus, even at temperatures above those required for perfect deep-fat frying, it won't smoke up or smell up your kitchen. Yet, for all its many advances, the new Jewel is sensationally low in price. Homemakers can purchase 4 pounds for the same price they usually pay for 3 pounds of costlier shortening brands.

**Jewel a long-time favorite of the South**

**"New Jewel Can't Be Beat" says Memphis Homemaker**

How does the new, homogenized Jewel compare with costliest shortenings in performance? Listen to what Mrs. J. A. Perry, 2891 Pershing Avenue, Memphis, Tennessee, has to say on the subject. "I've tried the new Jewel," says Mrs. Perry. "There's nothing better for all fine frying and fancy cooking. For example, just recently I made a Jam Cake with the new Jewel that would melt in your mouth. It's also especially good for frying chicken." In conclusion, Mrs. Perry reported: "New Jewel can't be beat ... and it costs less too!"

To hundreds of thousands of Southern homemakers, there's "magic" in the name of Jewel. First introduced in 1898, Jewel's fame spread quickly. Today, generations have come to know and to depend on its high quality—its uniform creamy-smoothness—the truly amazing results it brings. With the introduction of new, homogenized Jewel Shortening the fame of this fine product is destined to reach new heights.

# Lucky Destroyer Ran Into Training Cruise Troubles

Aboard U. S. Destroyer Ludlow, at sea, Feb. 16—(AP)—With vital engine water supplies running low and oil pumps failing, the destroyer Ludlow with 236 naval reservists aboard ironically ran into a rain squall early today as she struggled toward Charleston, S.C.

The veteran of many Mediterranean assaults in World War II was traveling at 15 knots.

Commodore Edward T. Bednars, of Freeport, N.Y., ordered the ship to head for Charleston instead of its original destination at New York after the trouble began yesterday. At that time she was 700 miles out.

She was last reported 345 miles from Charleston, traveling at 15 knots and expected to arrive at 7 p.m.

Capt. Edward F. Andrews of Westfield, N.J., ordered the crew and the naval reservists—all of them from the northeastern states, returning from a training cruise—to use water only for drinking.

The ship had trouble on its trip south to San Juan, Puerto Rico, arriving there 18 hours later on its last teacup of water.

Morale was reported high among the trainees, although many wondered if they would be back home

# Death Strikes Eight Times On Hurricane Hill

A tornado struck this spot on Hurricane Hill near Ripley, Tenn., killed R. W. Carroll's family of eight and left his home in splinters. Itha Mae Myers, a girl of the neighborhood, stands beside a part of the debris that was not scattered by the wind. About the only family belongings found by searchers were a Bible and a few pictures. (AP Wirephoto).

In time to go to work Monday, as scheduled.

The regular training program was not interrupted. The trainees entered cheerfully into practice on what to do in case of collision, submarine attack, many overboard and injured personnel. Many of them on their first cruise fell lustily into the job of chipping paint and cleaning the ship.

The 1,630-ton destroyer was called the "Lucky Lud" during the war because she never lost a man in any of the five invasions in which she participated.

Her guns had helped soften the landings at Fedhala, French Morocco, at Sicily, at Salerno and Anzio, on the southern French shores and in North Italian waters.

# Partially Solves Einstein's Work

Chapel Hill, Feb. 16—(AP)—Hans Freistadt says he can partially solve equations in Einstein's theory of gravitation.

A paper of the self-admitted Communist is reported to have caused considerable comment when presented at the February meeting of the American Physical Society in New York. The paper discussed Einstein's new theory.

Dr. Nathan Rosen, who is directing Freistadt's research at the University of North Carolina, said his work was logical and that although the equations are almost impossible to solve completely, the reports are "significant."

Freistadt became the center of a nation-wide controversy last May when he was revealed that he had received a \$1,600 Atomic Energy Commission fellowship for this year. Deprived of the fellowship, he is now working on a doctor's degree in physics here.

# Arrest Woman For Shoplifting

Greenville police today arrested Janie Carter, Negro, of Greenville, on charges of shoplifting from the Colonial Stores Super Market on Dickinson Avenue.

Police stated that they received a telephone call from the store manager, Melvin Porter, about the shoplifter, and Police Officer H. F. Lawson made the arrest. The woman, when arrested, was found to have several items of merchandise that belonged to the store, and which the manager stated had not been paid for.

The case will be tried in Police Court Friday morning.

# Air Force Maps Exercise Plans

Fayetteville, N.C., Feb. 16—(AP)—The Air Force was on the move today in preparation of Exercise Portrex in the Caribbean.

Headquarters of the Air Force units that will take part in the war games were moved from Pope Field to the Norfolk Naval Base. The command post was set up aboard the USS Taconic.

Brig. Gen. W. R. Wolfenbarger of Pope Air Force Base is deputy commander of the Air Force units in the exercise. Planes from Shaw Air Force Base at Sumter, S.C., also will participate in the mock warfare.

# Graham Critical Of New DP Bill; Offers Another

Washington, Feb. 16—A new displaced persons bill, already reported out of the Senate Judiciary Committee, was sharply criticized this week by Sen. Frank P. Graham and two other committee members.

Filing a minority report on the new and supposedly more liberal bill were Graham along with Sen. Harley M. Kilgore (D-W.Va.) and Homer Ferguson (R-Mich.). They charged the proposed bill would "cause a breakdown of the whole DP program."

The report went on to say the bill reported out by Judiciary Committee Chairman Pat McCarran (D-Nev.) "falls considerably short of being the fair and workable displaced persons law for which we have been hoping."

Along with their minority report, Sens. Graham, Kilgore and Ferguson submitted a bill more to their liking. Instead of the 290,000 DPs which would be admitted to the United States under the McCarran bill, they proposed 339,000 DPs be admitted.

The Graham - Kilgore - Ferguson bill would also repeal certain of the provisions of the present DP legislation which sets a 1945 date on which the DPs must have been admitted to camps in Europe in order to be eligible for admission to the U. S.

It has long been charged that this date limit is, in effect, discriminatory to certain religions.

The minority report praised the McCarran bill in a few respects, but accused the committee of not going far enough to remove restrictions from the present DP legislation. The new bill, the report charged, "retains many of the restrictive, unfair and discriminatory provisions of the present act, and adds others."

# Textile Leader Dies In Danville

Danville, Va., Feb. 16—(AP)—George Simmons Harris, chairman of the board of Dan River Mills and founder of the Cotton Textile Institute, died early today in a Danville hospital. He was 69.

Harris served as the 30th president of the American Cotton Manufacturers Association in 1927-28.

The industrialist, internationally known in the cotton field, died of pneumonia and other complications. A native of Georgia, Harris came to Dan River, one of the nation's biggest textile plants, May 1, 1940. He served as president of the firm until last November when, despite illness, he was elevated to chairman of the board.

It was under Harris that Dan River soared to a place of prominence in the textile manufacturing industry. He reorganized the plant shortly after assuming the presidency in 1940.

Before coming to Danville, he had served as superintendent at three cotton mills and as president of two others.

# Went To Work For Last Day; Accident Fatal

Cedar Rapids, Ia., Feb. 16—(AP)—Godfrey Vokon, 83, went to work for the last time yesterday.

It was his final day on the job as custodian and elevator operator at the American Building here. Vokon was retiring after a long and active life.

Vokon's closing assignment was to instruct Clifford Thompson, his

# Didn't Speak Up

Bevau Travis (above) helmsman on duty when battleship, Missouri ran aground in Chesapeake Bay last month, told navy court of inquiry in Norfolk, Va., his version of the accident. He testified he knew the battleship was heading into shallow water but he did not consider it his duty to tell the captain. (AP Wirephoto).

successor, in the duties of the job. Vokon opened the first floor elevator and stepped inside.

The elevator wasn't there and Vokon fell 20 feet to the basement pit.

He died of his injuries an hour later.

Ogden, Utah's second largest city, was named after Peter Skene Ogden, a frontiersman who was a Hudson's Bay company brigadier leader.

# Special Program Winds Up Negro History Week

The celebration of Negro History Week now in progress will end here next Sunday night with a special program at Cornerstone Baptist

Church at eight o'clock.

The special program will feature a playlet "An Impromptu Reunion" written locally by George M. Jones.

L. R. Hudson of the Appes High School faculty will be at the piano. The playlet includes a cast of 12 and will be assisted by a juvenile chorus of 15 voices and a mixed chorus of 24 voices.

On display at the church in connection with the celebration will be

a series of pencil sketches by George M. Jones, of Negroes of prominence in the history of this country.

The U.S. Department of Agriculture says coal or wood heaters do not usually have enough heating surface to be efficiently converted to oil or gas.

About 120 million bee visits to flowers are needed to pollinate 10 acres of clover.

## Home Laundering Expert

## Gives Plan to Local Women At Workless Washday Clinic

MISS MARY HOWELL

An event of particular interest to local homemakers will take place in a few days when the Workless Washday Clinic, conducted by a trained Home Laundry Consultant, is presented at our store. There will be three separate sessions each day to accommodate all who wish to attend.

### NEW EQUIPMENT SHOWN

The Clinic, which has met with enthusiastic response at showings throughout the country, is carefully planned to familiarize housewives of this community with the work-saving, time-saving advantages offered by modern home laundry equipment.

A wide variety of garments, plus a typical load of household linens, will actually be washed during the sessions.

## Offer Personal Help on Washing Problems

All women attending the Workless Washday Clinic are urged to ask questions on home laundering problems of the Home Service Consultant in charge.

There will be helpful suggestions on water, soap and detergents, softeners and special treatment of fabrics.

The question and answer period has proved particularly enlightening wherever the Clinic has been held and is one of the highlights of the program.

## WASHDAY ANALYZER HELPS YOU CHOOSE THE RIGHT WASHER

This unique free service, available at our store, offers the homemaker positive assurance that the type of washer she selects will best meet her family's laundering requirements for years to come. Be sure to get your copy of the Washday Analyzer.

ALL URGED TO ATTEND  
We are most anxious to have every homemaker in the community take advantage of the entertaining and instructive clinic, and suggest you plan to attend now and bring one or more friends with you. Admission, of course, is free.  
Thurs. - Fri. - Sat.  
Three Clinic Sessions Each Day  
10 A.M. • 2 P.M. • 7:30 P.M.

Presented By Your
