President Views World Tensions As Slacking Off

Thinks Situation Better Now Than In 1946; Says He Is Not Alarmed

Washington, May 4 (AP)—President Truman said today he doesn't feel the cold war is close to turning into a shooting war with Russia.

Mr. Truman voiced his optimism for world peace at a news conference. He spoke out after a reporter told him Senator Tydings (D-Md.) had said this country is close to a shooting war with Russia.

The President said he thinks Tydings was unduly alarmed if he said that. He said he thinks the situation is improving. He said he may be an optimist in saying that, and added that one has to be an optimist to be President of the United States.

Mr. Truman said that he disagrees with former President Hoover on Hoover's proposal to reorganize the United Nations without Russia. But, he said, he feels Hoover is right in suggesting that moral forces be strengthened for world peace.

The President said the nation's defense budget will be smaller for the 1951-52 fiscal year beginning July 1, 1951 and he is not alarmed in any sense of the word. This was in answer to a question whether recent proposed increases in the 1950-51 defense budget were based on alarming world conditions.

He suggested that reporters read Secretary of Defense Johnson's reasons for the increases. Mr. Truman said they simply are to maintain a defense program adequate for the country.

Informed arguments that because of the present deficit the nation could no longer afford the Marshall Plan, the President replied that the old argument which its opponents have made ever since the plan was started.

He contended the deficit exists because Congress refused to levy special taxes to support the government's needs. The Marshall Plan, he asserted, is much cheaper than a shooting war.

He said there is nothing to claim that every time there is a Stalin scare this country spends another billion. The present budget, he went on, is a good one and as tight as it can be made. Defense outlays are budgeted at \$13,911,000,000 in the pending appropriation bill, with an amendment calling for an additional \$350,000,000 mainly for air power.

New De-Icer Is Potential Value

LOS ANGELES (AP)—Jet airliners may have been brought a bit closer by a study made at the University of California campus here. A lighter, cheaper de-icing system can be used for the planes if the heating is done intermittently, says Dr. Myron Tribus. The intermittent heaters make use of heat released when ice is formed, he said.

De-icing problems have been one of the factors holding up the switch to jet commercial airliners, Tribus said.

Vietnam Refugees In Thailand Provinces

Bangkok (AP)—A member of parliament says there are 100,000 Vietnamese refugees in the northern provinces of Thailand and almost all are followers of Ho Chi Minh, Moscow-trained revolutionary who is fighting the French in Indochina. Thailand has recognized the opposing Vietnamese regime of Bao Dai's State of Vietnam.

Hoffman's Prediction

His Daring Forecast That The Soviet System Of Satellites Is Going To Crack; The Doubters; No Reason To Challenge View In This Columnist's Opinion

By DeWITT MacKENZIE

Paul G. Hoffman, Marshal plan administrator, told a meeting of the United States Chamber of Commerce in Washington that the Soviet system of satellites is going to "crack and crack quite suddenly" from tensions which now are building up within them.

Now that's a very daring prediction and it isn't strange to find it challenged in some quarters. For example John M. Hightower, AP diplomatic expert in Washington, reports that little support is to be found among State Department experts on eastern Europe for Mr. Hoffman's statement.

This column, long ago having expressed a view similar to that of Mr. Hoffman, sees no reason to challenge the stand now. However, the time element is a very important consideration—that is the question of WHEN an upheaval might come. Mr. Hoffman takes cognizance of this when he says:

"The tensions are growing. Eleven years ago we had three dictators to worry about—Hitler, Mussolini and Stalin. Two are gone, and I expect to live long enough to see the third one go."

Award Contracts On Road Surfacing

Over 23 Miles Of Roads In Pitt County To Be Paved; Farmville And Ayden Streets Also To Get Improvements

Contracts were awarded April 27 and May 3 for the hardsurfacing of 23.5 miles of roads in Pitt county through the state highway commission. It was announced today by Division Commissioner Guy Hargett through the division headquarters in Greenville.

The contracts awarded were for the paving of 21.9 miles of roads under the bond program and 1.7 miles of paving which will be financed through the city funds of Farmville and Ayden and the state road betterment fund.

The four roads which are included in the paving under the bond program were approved in the first phase of the program.

The largest of the individual projects in Pitt for which a contract was let during the past few days was for the paving of 8.2 miles of road beginning at the intersection of highway No. 43 between Shelburne and Coxes crossing and extending through Black Jack and Galloway's cross roads to Simpson.

Part two of the same project calls for the paving of 6.4 miles of roads from the intersection of highway No. 264 through Simpson and to Bella Forks.

Another project which includes 3.5 miles of hardsurfacing begins at the road about one mile north of St. Johns and is for the paving of the road through Coveville to the intersection of the Gardnerville road and the Stokestown road.

The third paving project will begin at Gardnerville and the road leading eastward will be paved for 3.8 miles to the Craven county line at Clay Hook.

Improvements are to be made to the hardsurfacing of the streets of Farmville and Ayden from funds of the respective towns, and an improvement of 3,000 feet of highway between the Farmville cemetery and highway No. 121 is to be made with money from the state betterment fund.

AFL Council To Discuss 'Unity'

Proposal For Solid Political Front By Labor Is Topic

Philadelphia, May 4 (AP)—The American Federation of Labor's executive council meets in Philadelphia next week with the biggest item on its agenda a proposal for a unified labor front, particularly in political action.

And some AFL leaders predict that the 500,000-member International Association of Machinists, which quit the AFL four years ago, will reaffiliate during the sessions which open Monday at the Ritz-Carlton Hotel.

Simultaneously with the spring meeting of the 15-member executive council, the Pennsylvania Federation of Labor will hold its annual convention at the Benjamin Franklin Hotel.

Two days earlier, on Saturday, the AFL will open its fifth union industries show at Convention Hall. More than \$1,500,000 worth of products made by union members will be on display.

All the union activity has prompted Mayor Bernard Samuel to proclaim next week "AFL Week" in Philadelphia.

The consolidation proposal, suggested by Philip Murray, president of the rival CIO, calls for cooperation on legislative, political and economic problems.

William Green, AFL president, said recently that chances for success of the unification proposal are greater now "than they have been in the past six years."

Green favors immediate merger of the AFL, CIO and John L. Lewis independent United Mine Workers into a single labor union with a membership of about 16,000,000.

Endorse Export Of 'Know-How' To Help Abroad

Washington, May 4 (AP)—The United States Chamber of Commerce gave its endorsement today to a "modest and carefully considered" program of exporting American know-how to further the industrial development of backward lands.

The Chamber's policy declaration, given unanimous approval at last night's closing session of its 38th annual meeting, was one of very few resolutions endorsing the legislative program of President Truman.

The Chamber emphasized, however, that private enterprise and private capital should form the cornerstone of any American program along lines of Mr. Truman's "point four proposals."

It is no secret that there is much dissatisfaction with Soviet rule in the satellites and that, as Hoffman says, tensions are building. It is no secret, either, that the satellites are being kept in hand by strong-arm methods.

All the satellite peoples are liberty loving and intensely independent. They have shown this by revolts against their overlords through the generations. The heavy regimentation of Communism doesn't suit their fiery spirits. The Slavic peoples, including the Russians themselves, always have been that way.

Farmer At Heart

Raleigh, N.C., May 4 (AP)—Some politicians kiss babies. Governor Scott milks cows.

The governor, while driving in Sampson County late yesterday, happened to pass a dairy farm at milking time. He had his car stopped and greeted Dairyman O. B. Jackson.

The governor, a dairyman himself, proceeded to help with the milking. John Marshall, Scott's secretary, said the governor proved to be a faster milker than Jackson.

Earlier the governor had his car stopped so that he could greet another Sampson farmer.

The farmer, who looked up suddenly to see the governor, said: "Hello Governor. It's getting to be something when you look up out of the barnyard and see the governor walk up."

Stalin May Not See Trygve Lie

Soviet Dispatch Indicates Mediator Will Not Be Received

By the ASSOCIATED PRESS

Moscow dispatches today made it appear doubtful that Prime Minister Joseph Stalin would receive Trygve Lie personally when the United Nations secretary general arrives in the Soviet Union on his mission to save world peace.

A dispatch which passed through Soviet censorship put it this way: "Lie's statement that he would like to see Stalin while in Moscow was noted here. It is believed Lie would be received by Foreign Minister Andrei Vishinsky and perhaps by Deputy Prime Minister V. M. Molotov, if he asks."

It would be no surprise if Stalin cold-shouldered the secretary general. Stalin undoubtedly remembers an old wound inflicted by the Norwegian.

In 1936, at the height of the Soviet purge trials, the arch enemy of the Stalin regime, Leon Trotsky, fled to Norway, where he continued the attacks on the Soviet government that he had carried on in Turkey. The Soviets wanted him back—and badly—to place on trial with the other victims of the purge.

Lie was minister of justice in Norway at the time, and it was Lie's office which refused to send Trotsky back to Russia. Lie, instead, gave Trotsky permission to continue giving asylum to such a controversial figure. Trotsky went to Mexico from Norway, won asylum there and continued his written broadsides against the Stalin regime until an assassin silenced him in 1940.

McCarthy Claims Secret Witness

Asserts Probers Have Witness On Atomic Espionage

Washington, May 4 (AP)—Senator McCarthy said today Senate investigators have a witness who can testify that persons connected with America magazine were "collecting and transmitting" atomic secrets to Russia in 1945.

McCarthy, Wisconsin Republican, told a news conference that State Department employees "were part of the espionage ring." He said A-bomb data was handed to the Soviet Union as early as six months before the first atomic bomb was dropped on Japan.

McCarthy named the witness he said could give this testimony as Frank Bielski, once an agent for the wartime Office of Strategic Services.

At the time McCarthy held his news conference, Bielski was being questioned behind closed doors by the Senate foreign relations subcommittee. It is investigating McCarthy's charges of Communist infiltration of the State Department.

McCarthy had protested the group's decision to hear Bielski at a closed meeting, rather than in a public session.

Bielski participated in the June, 1945, raids on the offices of America magazine which no longer is published. Six persons were arrested on charges of conspiring to get illegal possession of government documents.

A grand jury indicted only three of the six and dropped charges against one of the three who were indicted.

Mice Potected, But Not Humans, By Chemical

Washington (AP)—Three Belgian scientists report that use of a poisonous chemical—sodium cyanide—has afforded high protection to mice against deadly doses of radiation. They used x-rays in their studies. They used x-rays in their studies. They used x-rays in their studies.

Camden School Plan Re-Studied

Raleigh, N.C., May 4 (AP)—A new study of a Camden County school plan has been directed by the State Board of Education's Building Committee.

The committee took that step yesterday after a delegation from the county asked that its one high school be closed and its students sent to Elizabeth City in Pasquotank County.

Late Bulletin

Boston, May 4 (AP)—George Baldani, executive vice president of the big CIO Textile Workers Union since its formation in 1939, today was re-elected despite strong opposition by the organization's other top officers.

Costly Chrysler Strike Settled; Contract Signed

Strikers Will Begin Returning To Work Monday; Workers Gain Benefits

Detroit, May 4 (AP)—The billion-dollar-plus Chrysler strike was settled today—an hour and a half before it became 100 days old.

The CIO United Auto Workers and Chrysler Corp. signed a contract at 8:25 a.m. (EST) carrying \$100 monthly pensions, including Social Security benefits, for workers 65 with 25 years service.

The contract also boosts wages in some parts plants, and hikes medical hospital and insurance benefits of employees. The pension section runs five years, that covering wages and other items for three.

The wages and insurance section may be reopened once after July 1, 1951, and once after July 1, 1952, by either side.

The 80,000 striking Chrysler unionists will begin returning to work Monday. Most of the fifty thousand idled in supplier plants will follow them, though some supplier firms already have recalled their workers.

Chrysler is shooting at maximum car and truck production within two weeks in its 26 Chrysler, Dodge, De Soto and Plymouth plants across the country.

Local unions will vote on ratification of the contract Saturday, but none is expected to reject it. Approval usually is automatic.

The UAW lost its demand for a union shop, under which all workers would have been forced to join the union—after obtaining jobs if not before.

The company still contends the union could have got virtually what it received today without the strike, which cost an estimated \$1,383,770, 880 in lost wages and sales.

Only the General Motors strike 1945-46 lasted longer or cost more. It cost \$1,457,000,000 and lasted 113 days.

The union claims its gains equal the "10-cents-an-hour package" it demanded when it called the walk-out.

Boom Within A Boom Starts For Building Homes

New York (AP)—The new 30-year mortgage for veterans, authorized by the federal housing law of 1950, has started a boom within a boom in home building. By broadening the market through bringing monthly payments down it has started a rush to buy land for low-cost housing development.

In New York's suburban Long Island area, farmers are getting near fabulous prices for acreage to be divided into building lots. One real estate broker tells of a potato farm that sold for \$500 an acre in 1945 and now has been resold to home builders for \$4,500 an acre.

Cultivated fields fronting on one of the main highways of Long Island's north shore are being offered for commercial sites at \$200 per front foot.

Addresses N. C. Safety Meeting

Charlotte, May 4 (AP)—Ned H. Dearborn of Chicago, president of the National Safety Council, addressed the 20th annual statewide industrial safety conference here today.

His speech was one of the highlights of the three-day meeting. Over 500 persons are attending and discussing ways of slicing North Carolina's industrial accidents.

Nationalists Say Russia, Red China Planning War

Taipei, Formosa, May 4 (AP)—Nationalist China's top leaders told visiting American newsmen today that Russia and Red China are preparing for world war.

The Russians, they said, have thrown planes, warships and men into the fight to knock out the Nationalists, now standing on a few rickety islands with their backs to the sea.

Gen. Chou Chi-Chai, chief of the joint general staff, said: "One hundred Chinese Communist divisions are being 'Sovietized' in organization and equipment."

Russia has promised the Chinese Reds 600 planes. Already 237 are in the Shanghai area. At least 20 have been identified as jets.

Soviet submarines are using

Taft Sees Possible Cut For European Aid Bill

Washington, May 4 (AP)—Encouraged by an economy recruit, Senator Taft (R-Ohio) said today "there is a possibility" the Senate will whack half a billion dollars from the pending European aid bill.

Senator Ives (R-N.Y.) told the senate late yesterday that "for the first time" he will vote to cut a Marshall plan authorization.

The New York Republican backed this up by offering an Amendment to whittle \$500,000,000 from the \$3,100,000,000 asked to finance the third year of the European recovery program.

Previously Senators Taft and Hickenlooper (R-Ia.) had backed a 20 per cent cut of \$600,000,000 while Senator Kam (R-Mo.) pro-

Truman Says Pepper Defeat Is No Setback For Fair Deal

By the ASSOCIATED PRESS

President Truman said today the defeat of Senator Claude Pepper in the Florida Democratic primary was no licking for the administration or for the "Fair Deal."

Some Republicans have been interpreting it that way. In fact, post-primary comments of one kind and another have turned up almost every possible choice as to the meaning of the whopping victory Rep. George Smathers scored over Pepper, a long-time New Dealer.

Mr. Truman's comment was at a news conference in response to questions. Without going into details, he said there were issues in the Florida campaign that had no connection with the national picture.

On the subject of politics, Mr. Truman also said: "1. He doesn't intend to invite

Pitt Census To Be Ended May 10

Assistant Supervisor Asks Those Missed To File Names

Mrs. J. B. Spilman of Greenville, assistant supervisor for the federal census in eastern North Carolina, said this morning the enumeration of the people of Pitt county is expected to be entirely completed by May 10.

The assistant supervisor issued a plea to all people who have not been counted in the census to make sure their names are received by the census officials before May 10. Mrs. Spilman said people of Pitt county who may have been missed by the enumerators should contact T. K. Fountain of Falkland, county clerk leader who will be responsible for clearing up the census enumeration in Pitt.

The enumeration of the people of Pitt county began early in April as census takers all over the United States began knocking on doors and ringing door bells to ascertain the population of the nation.

"We know we have missed some people," Mrs. Spilman said, "and we want to be sure and get the ones we have missed."

Child Hangs In Fatal Accident

Gastonia, May 4 (AP)—A four-year-old girl accidentally hanged herself while playing today in the yard of her home at Lowell, six miles east of Gastonia.

Her grandfather, E. B. Cobb, found her body dangling from a tree limb, a chain around her neck. She was Nancy Sue Cobb, daughter of Mr. and Mrs. E. T. Cobb.

Coroner W. G. McLean said the child apparently had stood in a chair to reach the chain which was suspended from the limb. The chair was nearby, overturned.

More Fireworks Seen For Probe

Washington, May 4 (AP)—An uproarious Senate scrap over Republican Senator McCarthy's communism-in-the-government charges brought a forecast of more fireworks from both sides today.

"We've just started to fight," said Democratic Leader Lucas (Ill.). He touched off the latest bitter row and was ordered to his Senate seat on a charge that he called McCarthy a liar in violation of the chamber's rules.

Plan Survey Of French Broad

Washington, May 4 (AP)—Federal officials will join local leaders of western North Carolina next week in a survey of the French Broad River flood situation.

Rep. Redden (D-NC) told a reporter today that the Army engineers will hold a hearing next week in the state.

He said the hearing will start in Hendersonville, May 10, continue in Brevard the same afternoon and in Asheville May 11.

Winborne Given Charge Program

Raleigh, May 4 (AP)—Thomas Winborne of Raleigh today was placed in charge of the state's school insurance program.

The State Board of Education appointed Winborne to head its insurance division succeeding John McCracken who has resigned to become superintendent of schools at Spartanburg, S.C.

Winborne came with the division as assistant director when it was formed last year.

Call 3356

City subscribers who do not receive their Reflector by six p. m. are requested to report same by telephoning 3356 between six and six-thirty p. m. After that hour the circulation department will be closed and deliveries will be made of papers missed.

Committee Unanimous On Extending Of Draft

House Group Votes 31-0 For Two-Year Draft Extension; Congress Would Decide On Making Any Actual Inductions

Washington, May 4 (AP)—The House Armed Services Committee voted 31 to 0 today to extend the military draft another two years. Congress would decide, however, when there would be any actual inductions.

Chairman Vinson (D-Ga.) said the draft extension will be put up to the House immediately for passage. The present Selective Service Act is due to expire June 24.

The committee acted after hearing top foreign policy and defense officials describe mounting world unrest.

The legislation would: 1. Extend the Selective Service Act—which expires June 24—for two years.

2. Bar any inductions until Congress has given the signal by declaring a national emergency.

3. Curb the President's power to mobilize industry and seize plants essential to war until Congress declares an emergency.

4. Continue to require every male between the ages of 18 and 26 who lives in the United States to register. Authorize the President to order to active duty for 21 months all reserves and retired personnel of the armed forces after an emergency is declared by Congress.

5. Permit any peacetime inductee under 19 to decline active military duty upon his own application or that of his parents or guardians.

6. Drop provisions for voluntary enlistments by 18-year-olds for one year and by older men for 21 months during peacetime.

The present law was passed in 1948, but hasn't been used since early 1949. Military leaders want it extended, however, so the draft machinery will be ready to operate if needed.

Alcoholic Drink Taxes Untouched

Washington, May 4 (AP)—The House Ways and Means Committee today voted against any cut in federal taxes on whiskey and beer.

Working away on a proposed tax-cutting bill, the committee turned thumbs down on motions to: 1. Reduce the \$9 a gallon liquor tax to \$7.50 a gallon. This would have trimmed federal revenues by \$200,000,000.

2. Cut the \$8 a barrel beer tax by 50 cents a barrel.

Confer On 1949 Bus Regulations

Raleigh, N.C., May 4 (AP)—Proposed regulations to be applied under the 1949 bus act were discussed today by the Utilities Commission and bus operators.

The commission called the conference to give "all interested parties an opportunity to be heard." The bus act outlined general policies covering bus operations but left it to the commission to set up detailed regulations.

Crime Investigation

Kefauver's Proposal Approved By Senate; Will Seek To Learn If Super-Gang Of Mobsters Running Nationwide Crime Syndicate; Legal And Illegal Gambling

By JAMEL MARLOW

Washington, May 4 (AP)—Now we're going to have a nationwide investigation of crime by a special committee of Senators.

Senator Estes Kefauver, Tenn. Democrat, proposed this last January. The senate didn't get around to approving the idea until yesterday.

This committee, with the help of a hired staff of investigators, will dig into the doings in various cities around the country.

(Don't confuse this with the hearings held here for several weeks now by another senate committee trying to figure out a way of choking off race horse information pumped to gamblers around the country by wire and phone.)

This committee has called in a number of people who might have something to say on this, including some gambling big shots. But these hearings have not really been a crime investigation. They were not intended to be.)

The big question facing the senate investigators as they start out is this: 1. Is there a super-gang of mobsters running a nationwide crime syndicate?

2. Or is crime, although it criss-

Rebukes Inquiry On Base-Building

MacArthur Says Demand Was Provocative Impertinence

Tokyo, May 4 (AP)—General MacArthur today rebuked as "provocative impertinence" a Russian claim that maintenance of American military bases in Japan violates allied occupation policies.

In a sharp 250 words the supreme commander dismissed yesterday's demand by Lt. Gen. Kuzma Derevyanko for an explanation of the "reconstruction of the former Japanese naval and air bases" in Japan and Okinawa.

MacArthur said the top Russian representative in Japan that Okinawa does not come under international control. "He continued:

"The United States government is entirely free to take such military measures therein as it may deem advisable. Your inquiry concerning this matter is therefore a presumption without the slightest excuse of validity."

MacArthur told Derevyanko that "your professed anxiety with reference to Japan proper, which is subject to limited international supervision, is quite groundless."

The allied commander went on to say the demilitarization ordered by the Far Eastern Commission has been accomplished, and he added: "As for bases and installations for the forces of occupation, both American and British, they are—and will continue to be so long as occupation lasts—maintained in a condition of such adequacy and preparedness as will insure the fullest security, operational efficiency, and most complete readiness for any eventuality."

He bluntly informed the Russian that military details about Japanese bases "are matters which concern only their commanders."

All items for this page received after 10 A. M. will be published the following day. Dial 3222-5 A. M. to Room; 1 to 4:20 P. M.

J. E. Jackson left today for St. Louis, Mo., where he will attend the annual sales convention sponsored by the International Shoe Co., including an advanced showing of fall shoes for 1950.

Milton Spain, son of Mr. and Mrs. C. B. Spain, Greenville, Route 4, underwent an operation for appendicitis yesterday in Pitt General hospital.

Miss Frances Tucker will arrive tonight from Salem College to spend the week-end at her home here.

Mr. and Mrs. Raymond Cox, Jr., of Nashville, Tenn., are spending a few days with their parents, Mr. and Mrs. Sam Edwards and Mr. and Mrs. Raymond Cox.

Mrs. James Ray Pittman was hostess at her home, 100 Library street, last night in honor of the birthdays of Mr. James Ray Pittman and James Ray Pittman, Jr., their adopted son. Refreshments were served.

Birth Announcement
Mr. and Mrs. H. R. Henley, of Whiteville, N. C., announce the birth of a daughter, Ann Linda, on April 26 at Columbus hospital in Whiteville. Mrs. Henley is the former Miss Louise Corbin of Greenville.

Reverial at Christian Church
Dr. G. Curtis Jones, guest preacher in the series of special services at Eight Street Christian church, will preach tonight on the subject, "Waiting Too Long," and the chorus choir will sing an old favorite, "All Hail Immanuel." Also at this service there will be a duet by Mrs. H. L. Carter and James Ray Pittman. Request hymns will be sung tonight and favorite passages of Scripture recited.

The services will continue through Sunday night at which time a reception will be given to all new members who have come into the church since the first of the year. At this closing service Sunday night Dr. Jones will preach on the theme, "Consecrate Myself." The public is most cordially invited to all these services.

Grimesland P. T. A.
The Grimesland P. T. A. will have its Dutch banquet May 9 at 7:30 in the school cafeteria. There will be special entertainment. Dr. Leo Jenkins of E. C. T. C. will be the speaker. Tickets are 75c and may be purchased from Mrs. Fred Edwards and her committee or any teacher. New officers will be installed.

College Students Invited to Hear Mr. Humber
The International Relations Study group invites all E. C. T. C. students interested in world affairs to meet Mr. Robert Lee Humber for a friendly informal chat in Wilson Hall parlors tonight at 8 o'clock.

Dr. Jones to Autograph Books
Dr. G. Curtis Jones, who is guest speaker at the Eighth Street Christian Church this week, has recently had a collection of his radio addresses published under the title of "On Being Your Best." On the basis of this book the author was made an honorary member of the Mark Twain Literary Society last week.

Dr. Jones will be at Ellington's Book Store Friday afternoon from two to three o'clock, and he will be glad to autograph his books and to greet friends who may stop in to meet him.—Adv.

Past Matrons' and Patrons' Club
The Past Matrons' and Past Patrons' club of Greenville chapter No. 140, O. E. S., will meet Friday night at 8 o'clock with Mrs. J. Frank Harrington. Mrs. G. S. Whitehurst will be assisting hostess.

THURSDAY

8:00 p. m.—Executive Board of the B. and P. W. club will meet with Miss Grace Outland, 551 Evans street.

FRIDAY

12:00 Noon—May Fellowship Day sponsored by Greenville Council of Church Women in Christian church. Mrs. E. L. Hillman of Durham, guest speaker.

1:00 p. m.—Mrs. J. H. E. Moore and Mrs. Walter F. Taylor will entertain at luncheon at the home of Mrs. Moore to honor Miss Susanne Klige, bride-elect.

1:00 p. m.—Altrusa club meets for luncheon at Hotel Proctor.

3:30 p. m.—General program meeting of the Woman's Club at the club house, Dean Leo Jenkins, guest speaker.

6:30 p. m.—Kiwanis Club.

6:30 p. m.—Exchange Club.

8:00 p. m.—Greenville-Pitt County chapter of Alumni Association of E. C. T. C. meets in the Alumni office.

7:00 p. m.—Mr. and Mrs. Alton Barrett will entertain at dinner to honor Miss Susanne Klige and Mr. Charles Braswell.

7:30 p. m.—Miss Lois V. Gorell will present her piano pupils in recital in Sheppard Memorial library. The public is invited.

8:00 p. m.—Dramateers will present two one-act plays in high school auditorium.

SATURDAY
9:00 a. m. to 12:00 Noon—Confederate flag sale.

11:00 a. m.—Mrs. S. O. Worthington and Miss Lina Worthington will entertain at a Coca Cola party in honor of Miss Margaret Lee Duke, bride-elect.

SUNDAY
4:00 p. m.—The concert band of East Carolina Teachers College will give its annual outdoor program on the lawn facing Austin building on the campus. The public is invited to hear the 60-piece college group in a concert featuring light popular music by contemporary composers. Herbert L. Carter of the faculty and five senior majors in instrumental music will conduct.

KIWANIS MEETS FRIDAY
The Kiwanis Club will meet Friday night at 8:30. J. Edmund Waldrop will have charge of the program. Dr. H. G. Haney, vice-president, will preside for President Tige Gardner, who is going to Miami, Fla. Friday as one of the delegates to the annual Kiwanis International convention. Mrs. Gardner will accompany him. Dr. John O. Reynolds, the other delegate, will leave by train Saturday for Miami.

INJURED DOG ON ROAD BITES BENEFACTOR
Olien Miller of Camp Lejeune essayed the "Good Samaritan" role yesterday when he saw a dog on the pavement that had been injured by an automobile. When Miller started to remove the dog to safety the canine bit him on a leg. Investigation was being made to ascertain if the dog had been vaccinated against hydrophobia.

Initiation Banquet For Wesley Players
The initiation banquet of the Alpha Zeta chapter of the National Society of Wesley Players was held on Tuesday, May 2, at 6 p. m. in the social room of Jarvis Memorial Methodist church.

The banquet table was arranged in the form of a W and decorations were carried out in the Wesley Players colors, gold and black. Gold candles in black holders, programs with gold covers bearing the seal of Wesley Players, and a centerpiece on the speaker's table of spring flowers in a black and yellow bowl with black figurines.

A. E. James, Jr., of Jamesville, the outgoing president of Alpha Zeta chapter, was toastmaster. Ophelia Kirven, incoming president of the chapter, reviewed the "Events of the Past Year." Guests were introduced by the toastmaster and by Iola Carrawan, of Pantego, outgoing president of the Wesley Foundation. Billy Vendric, of New Bern, incoming president of the Wesley Foundation, led group singing, assisted by Donald Roebuck, of Stokes, at the piano. Miss Mamie Chandler, director of the Wesley Foundation and sponsor of Alpha Zeta chapter, spoke on "The Place of Drama in the program of the Wesley Foundation." A feature of the entertainment was humorous readings by Mrs. Milton White.

Immediately following the banquet the initiation ceremony was held in the Sanctuary of the church. Members of the cast for this dramatic ceremony were A. E. Manning, Otis Peele of Washington, Bill Torrans of Warsaw, John Causey of Greenville, Iola Carrawan, Lola Sawyer of Washington, Ophelia Kirven of Sumter, C. C. The pledges initiated into membership were Betty Ann Shaw, Weldon; Ethel Parks, Goldsboro; Clark White, Belvedere; Billy Vendric, New Bern; Larry Williams, Ocracoke; Eimer Williams, Washington; Charles Cherry and Donald Roebuck, of Stokes; and Ralph Rives of Enfield.

Special guests at the initiation banquet for President Messick and Mrs. Messick; Rev. Leon Russell and Mrs. Russell; Mrs. J. H. Rose, chairman, and Mrs. Wm. Taft treasurer, of the local Student Center committee; Mrs. W. P. Moore, secretary of student work for the North Carolina Conference; Woman's Society of Christian Service; and Mr. W. P. Moore, Mr. Wyatt Brown, counselor for the youth division of Jarvis Memorial Methodist church; Mrs. Sam Underwood, president of the Woman's Society of Jarvis Memorial church; Mr. Sam Underwood; Mrs. H. A. Hendrix, church secretary of Jarvis Memorial church. Students attending the banquet were members of the Alpha Zeta chapter and of the Wesley Foundation.

Given Award For Fire Prevention
Salisbury, May 4—(AP)—Salisbury, N. C., is one of 27 cities which received awards yesterday from the U. S. Chamber of Commerce for fire prevention work.

Three other cities in the south—New Orleans and Chattanooga and Memphis, Tenn., also received honorable mention.

The great Australian horse, Carbine, flatly refused to go out in the rain and his trainer was forced to devise a small umbrella which could be attached to his bridle.

Guest Minister For Revival Here

The Rev. Paul B. Nickens, pastor of the Ludford Memorial Baptist church of Plymouth, will be the guest minister at the revival services which will begin at the Immanuel Baptist church on Sunday morning, May 7, and continue through Sunday night, May 14.

Rev. Nickens first went to Plymouth in 1938, and after four years ministry there, was called to Murfreesboro, where in addition to his work as pastor, he taught Bible in Chowan College and served as college chaplain. When World War II began he enlisted as chaplain in the U. S. Army, and on leaving the army, he returned to Plymouth for his second pastorate there.

The church he is now serving has grown from 79 in 1933 to its present membership of 480. An educational building has been purchased at a cost of \$40,000. A Baldwin organ was installed three weeks ago.

Mr. Nickens will speak over WGTG each morning next week except Monday at 9:15 and at the Immanuel Baptist church every night except Sunday at 8 o'clock.

An inspiring song service at 7:45 will be led by the Immanuel church minister of music, Mrs. Moya Dull.

"If you enjoy straightforward Gospel preaching and good congregational singing, follow the crowds to the Immanuel Baptist church beginning Sunday, May 7," stated Rev. J. A. Nelson, pastor of the Immanuel church.

E. C. Hollar Speaks To Tarboro Groups
E. C. Hollar of the social studies department at East Carolina Teachers College was guest speaker at meetings of civic and educational organizations in Tarboro. He addressed members of the Kiwanis Club there at their regular weekly dinner meeting at 8:30.

Later in the evening he spoke before the Tarboro and Edgecombe County unit of the Association for Childhood Education, basing his remarks on teaching the social studies in the public schools.

BIG TRUCK DAMAGES WIRES ON CITY STREET
Police had a report yesterday that a big truck from Dudley, N. C., damaged and pulled down some wires on poles at Ninth and Forbes streets. Police are investigating.

scheduled later this afternoon, followed by a talk from State Agriculture Commissioner L. Y. Ballentine.

WERE WOMEN BORN TO SUFFER?
"No," say lots of lucky girls
Maybe you, too, can look back on those "dreaded days," each month and revel in blessed relief from pain. For if you suffer from functional periodic cramps, discover—as so many other women have—the wonderful help Cardol may bring.

Cardol works internally to help minimize painful contractions of the organ muscles. Thus it aids in overcoming a frequent cause of cramps. Maybe your suffering is needless, too. See what aid of this modern type can do for you. Ask for a bottle of Cardol.

Dance Recital At Ayden High School

Marie's School of the Dance, Ayden branch, will give a recital at the Ayden High School auditorium next Wednesday, May 10, at 8 p. m. Miss Mary Dunn Beatty of Greenville is the instructor. A nominal admission fee will be charged. The public is invited.

Mrs. Marie Smith Wallace, talented dancer and widely known dance instructor, has had as her pupils some of the best dancers in this part of the state. She and her dance students have had a prominent part in the annual Kiwanis minstrel shows.

Discusses Past Relations With Soviet Russia
Mrs. Betty M. Unterberger of the East Carolina Teachers College social studies faculty, discussed Russian-American relations following World War I at a meeting of the Faculty Lecture Club Wednesday evening of this week. She has just completed work for the doctor's degree at Duke University, where her research work dealt largely with American policies and attitudes toward Russia and the Far East.

Approximately fifty club members and guests from the campus and the city of Greenville were present to hear the talk. Dr. Lawrence F. Brewster, president of the club, presided at the meeting and acted as chairman during a period of question and answer at the close of the scheduled program.

Mrs. Unterberger traced for her audience the history of America's military expedition to Siberia from 1918 to 1920, and told of causes and effects of interventions by America and other powers in the East during the struggle between the Bolsheviks and their opponents.

The period was one of great confusion, she said. Undertaken largely to safeguard the open-door policy, the American expedition to Siberia, she stated, was popularly understood to be directed against the Bolshevik forces and hence was influential in shaping our later policies and our attitude toward the present Russian government.

With Mrs. Helen Brewster as hostess, a social hour was observed in the parlors of the Flanagan building at the close of the talk.

Connie Mack's Philadelphia Athletics have won nine American League pennants and have played in eight World Series.

Present Parity Program Backed

By The Associated Press
U. S. Senator Frank Graham has called on businessmen to support continuation of the current parity price program for basic farm commodities.

Reiterating his backing for the program, Graham told the Alabamian Lions club yesterday that he saw no reason to shift to any other farm plan.

The Senator, who is campaigning for the Democrats Senatorial nomination, asked businessmen to work for the program in the interest of farmers and other crops.

He also told his audience that he will speak against the fair employment practices-commitment bill when it reaches the senate calendar, probably within the next few days. He will oppose it, he said, not as a part of a filibuster but as an agreement against federal compulsion in any aspect of race relations.

Graham and a worker for Willis Smith, one of the major candidates for the Senatorial nomination, will speak today.

T. W. Allen of Creedmore, chairman of a state-wide farmers' committee for Smith, will make a state-wide broadcast from Raleigh tonight.

Graham will talk at Wallace's Strawberry Festival this afternoon. Former Governor E. Gregg Cherry will speak.

College Faculty Is 'Sold' For Contribution To Fund

Baltimore, May 4 —(AP)—The tall, baldish man, immaculate in conservative blues and highly polished shoes, stepped forward uncertainly as his name was called. A big paw propelled him to the front of the stage.

"All right, girls, here's your chance," boomed the auctioneer's voice.

"Look him over carefully. He might be put to scrubbing floors . . . but he looks more like the house mother type to me. What am I bid—come on, girls—who'll offer five?"

"This man must be sold!"

The guy on the block—get this—was the esteemed president of a

top ranking women's college — Dr. Otto F. Krauhaar of Goucher.

And it's no joke about his being sold down the river over the weekend for a few shekels.

This morning, he and his faculty stepped up before the student body to be sold for anything they would bring—their services, that is.

Valets . . . bedmakers . . . cooks . . . car washers . . . practically anything, for a price.

It's all for the Goucher College fund. It takes money to transplant a college 10 miles. And that's what they're doing with Goucher—moving from busy Baltimore to new buildings being erected just outside suburban Towson.

The auction idea, naturally, came from the girls. They're trying to raise \$2,500 for their contribution, and somebody came up with this brainstorm to fatten the fund.

It caught on. Dr. Krauhaar and the faculty, with some understandable misgivings, went along with the idea. It snowballed. Baltimore sent out merchandise, in case the profs' services didn't attract enough folding green.

DR. LEO W. JENKINS HOST TO KIWANIS OFFICIALS.

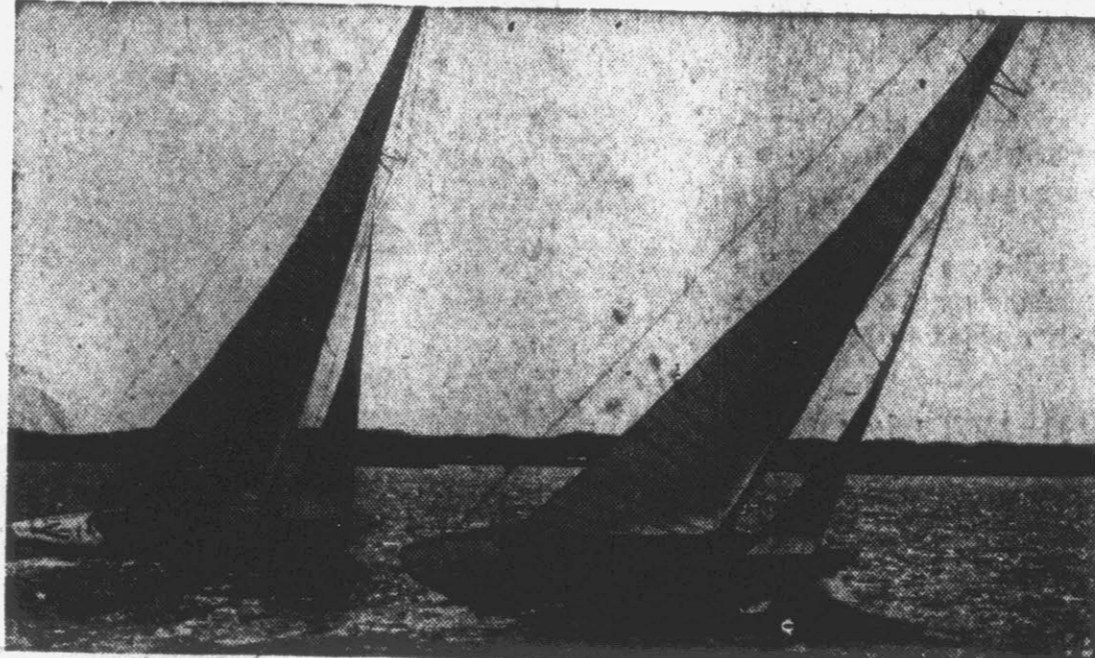

Dr. Leo W. Jenkins, dean of East Carolina Teachers' College, was host at supper to the Greenville Kiwanis Club's officers and directors and some committee chairmen at the American Legion Home last night. President Tige Gardner presided. Secretary David C. Moore's reports indicated that the club is in a flourishing condition and now has nearly 80 members. The club made about \$2,400 on the recent minstrel. It is an old kiwanis custom for an officer or director to entertain the directors at supper for the monthly meetings.

SERIOUS CHARGE AGAINST ELDERLY MAN AND WOMAN

Police yesterday afternoon arrested Ben Frank Hardy, 53, white, and Mary Pitt, 54, colored, on the charge of fornication and adultery at a house on Myrtle Avenue. They will be tried before Judge J.W.H. Roberts in Police Court Friday.

This scene of ruins marks the path of a million dollar fire through an industrial section of North Wilkesboro, N. C. The flames broke out in a lumber plant, one of the biggest in the state, and spread rapidly with high wind. Four million feet of lumber was destroyed, along with a lumber mill, an ice and fuel plant, a flour and feed mill and a trucking terminal. (AP Photo).

WORKING TO WINDWARD—International One Design Sea Horse (left), sailed by S. G. Barton, of Larchmont, N. Y., and Mrs. Magee, skippered by Mac Paschal, of Bermuda, tack on windward leg of one of America Cup race series on Great Sound, Bermuda. Bermuda took series.

Strength for the Day

By EARL L. DOUGLAS
THE TRIPOD
John Wesley had three good words with which he ordered his life. They were these—believe, love, and obey.

They are the legs of a tripod upon which life may rest secure. They represent the three fundamental aspects of life—right theory, right emotion, and purposeful action. We must have the right theory about life before we can live it in a satisfying fashion; what we believe constitutes our philosophy of life. Believe the right things, said Wesley, begin with the right theory, and you have at least started in the direction of right action.

Wesley's second word was "love," and by this he meant the attitude of active good will toward everyone. He knew that the passions of hate and self-seeking are sinister and devastating, but the passion of love is healing and pregnant with happiness. With the right theory of life and the right attitude toward others, one is ready for action, and this action Wesley comprised under the word "obedience." For if God has given us the truth, then life consists in a searching out of that truth daily and obeying it.

It Was Not A Problem For Greenville Firemen

A member of the state highway patrol Tuesday took a crack at the city administration and the fire department of Greenville for not answering a call to go to the country to put out a blazing automobile.

The patrolman stated he called the fire department because he did not have a fire extinguisher in his automobile when he came upon the car which was just beginning to burn. Had the patrolman carried a fire extinguisher he probably could have put out the fire in short order.

We were of the opinion that fire extinguishers were part of the standard equipment of high patrol vehicles. They are not, but they should be.

But aside from that, it is not the responsibility of the city of Greenville to send its fire equipment running all over Pitt county to squirt water on fires which do not come under its jurisdiction. It is true that the city department until recently has been answering the calls, from all parts of the county, but the city never has received even so much as the cost of answering the calls, and the county commissioners have been willing to let valuable property all over Pitt county go unprotected save from the protection which might be afforded by the town departments in the county.

We believe the patrolman got off on the wrong foot when he sounded off condemning the Greenville fire department for not answering his call. Had it not been for not having an extinguisher in his patrol car, the patrolman probably could have put out the fire himself. In our opinion the patrolman should shoulder as much responsibility for not carrying a fire extinguisher as the Greenville fire department should for not answering a call outside its jurisdiction.

Another Mistake By Tolar Corrected

It was disclosed Tuesday that two Highway Patrol rules promulgated by Col. Tony Tolar, now resigned, have been rescinded. One was the policy of painting red circles on highway paving at the scene of fatal accidents; the other, a little-known requirement of which more should have been known, was the directive that patrolmen were to average thirty arrests a month in order to justify their jobs.

That last rule was a surprise to a lot of people. Not much publicity was given it at the time, and Columnist Lynn Nisbet informs us that some sources denied any such requirement had been made. We can understand that. Any self-respecting law enforcement officer would be ashamed to admit such a regulation was in existence, and only a person who did not understand the responsibilities of a law-enforcing position would make such a requirement. The issuance of such a directive would, to The Reflector, further indicate the unfitness of Tony Tolar for his former post. Commissioner L. C. Rosser and Col. J. R. Smith apparently have different ideas

about what constitutes successful law enforcement. They appear to be of the conviction that a perfect month would be one in which not a single arrest needed to be made.

The Tolar rule actually encouraged wholesale arrest without regards to the justice or necessity of the action. To meet his "quota," a patrolman could make questionable charges and arrests. Such abuses could result in a hatred and distrust of the very agencies, which rely on the goodwill and cooperation of the public which it is their duty to protect. The abolishment of the rule which tended to promulgate a callous attitude toward law enforcement was a praiseworthy move to improve the standards and morale of the Highway Patrol.

As to the cessation of placing "circles of death" on the highways, we regret the move. Some vivid reminder of peril should confront the motorist and possibly forestall rash and careless driving practices. Prevention of highway accidents plays the primary role in emphasizing safe driving; it's often too late when the arresting stage has been reached.

The objection to the use of paint on the paving is valid; but the use of a dye would obviate the faults credited to paint as a road hazard.

National Whirligig

News Behind The News
By RAY TUCKER

WASHINGTON, May 4—James F. Byrnes has crossed the political Rubicon in his personal crusade against the Pompeians at Washington, despite admittedly faint hopes of the Truman faction that the eminent South Carolinian would not make good on his promise to fight centralization and regimentation from Washington.

The former Secretary of State, Supreme Court Justice, War Coordinator and veteran legislator has deposited the \$600 fee required of candidates for the gubernatorial nomination in his state. Soon he will take to the stump to renew his charges that the Administration's present policies, unless checked, will eventually make "economic galley slaves" of us all. ALONE—Mr. Byrnes is making no deals with the opposing candidates for the U.S. Senate nomination, although each have courted his support. In this race Governor J. Strom Thurmond, nominee of the States' Rights Party in 1948, opposes the incumbent, Senator Olin D. Johnston.

Although it is tradition in the Palmetto State that candidates for federal office wage separate campaigns, making no alliances, Mr. Byrnes has special reasons for going it alone. Mr. Thurmond now seeks to return to the party, but he did head the 1948 revolt that broke with the organization. Mr. Byrnes prefers to raise his voice against national tendencies within the regular, Democratic group.

MOMENTS—Although Senator Johnston once disrupted a Jefferson Dinner by boycotting the affair after he had bought a tableful of tickets and forced the managers to keep the table vacant in the presidential presence—a spectacular protest against the Civil Rights program—he has voted on many occasions for measures which Mr. Byrnes regards as dangerous and destructive. That is, Mr. Johnston has his "Fair Deal" moments.

South Carolina politicians report that Mr. Truman's erstwhile pal and Cabinet member will win easily. As the state's executive, he may become the President's special "hairshirt," especially when the Missouriian seeks a renomination in 1952. Some think Mr. B. is an "Eisenhower man," although he isn't saying.

RACE—Interior Secretary Oscar Chapman has finally nosed ahead of his Cabinet rival, Charles F. Brannan, in their personal and persistent race for White House favor. With each striving for the vice-presidential nomination in 1952, the struggle of the two Denver boys for position has been a sort of Ben Hur circus at the Capital ever since Mr. Truman's 1948 election.

For a while the Secretary of Agriculture held the lead because of his sponsorship of the CIO-written, two-price farm plan designed to please both farmers and consumers by concealing the costs through "palms-lease" program. Mr. Truman grabbed the scheme in the belief that it would insure the agricultural states for him two years hence as well as in next November's election.

But the Brannan plan has not taken anywhere except with the union that inspired it and their farm allies. It is opposed by the major farm organizations, and by Democratic leaders on Capitol Hill. It has been shelved for the session.

AGENT—Mr. Chapman, however, did such a successful job in rounding up western votes in 1948 that he has been picked for the same work again. He has quit his Washington assignment temporarily to serve as advance political agent for the President's forthcoming "non-political" trip through the Middle and Far West.

Before leaving the Capital, where he made sure that he would receive his pay check despite his absence from office, Mr. Chapman staged a maneuver designed to quiet the restlessness of numerous voting blocs over the Administration's failure to force enactment of FEPC legislation.

He ordained that six swimming pools in the District of Columbia must be operated on a non-segregated basis. Although operation of only two pools in that manner precipitated serious riots last summer, requiring police and parental intervention, his order still stands.

So far District of Columbia commissioners have refused to assume responsibility for this policy. However, Mr. Chapman plans to install his system, if he has to manage the pools himself during the hot months.

MALADJUSTED—Administration spokesmen have built a new and curious defense against the revelation that there were 91 homosexuals in the State Department. A few high politicians here begin to fear that this situation may cause more ballot-box damage than allegations of Communist infiltration of federal agencies, especially in the so-called "Bible belt."

The latest explanation—or apology—is that this number of perverts is not unusual or surprising. They insist that the same or a larger percentage would be found in any group of 19,000 people, which is the total employed by the State Department. Whether it be a factory, a community of that size or any other organization, they contend, there would be about the same number of "maladjusted people."

In fact, the Kinsey report on sexual customs in the United States may become a campaign document. For Congressional debates in recent days indicate that the opposition, belatedly, recognizes the political value of this issue.

Selected Shorts

NEW YORK, NEW YORK, YONKERS RECORD: "Why scream about the national spending when there is no attention paid to blocking the spending on the local front? It is in the grass roots sections that the job of practicing economy will have to be started."

GRAND RAPIDS, MICHIGAN, TIMES: "A large group of small business men have gone on record as being against government loans to bolster their business. Rather, they advocate reduction in governmental running expenses, and a reduction in the Federal taxes they are forced to pay and less governmental control."

WEEK-END, FROM THIS END (The New York Times) As everyone knows, there is nothing so soothing and refreshing as a spring day in the country. The air is soft, the sun is warm but not yet hot, the daffodils shine up from little clumps beneath the trees and the dogwood is about to flower. A spring day in the country brings peace to the troubled spirit and ease to the

soul, and it opens up far wider a window than can be found in even the most modern of city apartments. A ring day in the country is good indeed, but, as everyone knows, there is something a bit better. This is two days in the country, along with the intervening night, and city people refer to it as a week-end. They do not bother to put it in upper-case letters, or enclose it

Ambition

Somebody Told Me

By I. J. (Jack) EDWARDS, JR.

It's surprising that Wife Rachel ever tells me anything about book clubs, because I made such a joke about her becoming a charter member of the Cosmos club. "A book club," I told her, "is a bunch of women who do not have time to read but meet to discuss things other than books."

That statement was partly true. At their meetings they do discuss anything under the sun but the books they are reading, but I have found out, much to my amazement, that they do read the books. That fact sheds interesting light on the discussion of the time it takes to keep a house. Many women contend that keeping house takes more time than the man's task of earning the keep. If these women have time enough to read books, it would seem that keeping house is not a full-time job. Granted, this is a debatable issue.

All of this chatter about book clubs was brought about by W.R.'s attendance at the Annual Book Club Luncheon at the Woman's Club Tuesday. Mrs. Tyson Bilbro, toastmistress for the occasion, made an announcement that went something like this: "We have engaged a local person to give you an address today. In fact, this person happens to be one of my neighbors. With pleasure I present Lil Bost."

Everybody settled down to hear the speech. "I am so happy," Mrs. Bost said, "to be here today. It is indeed a pleasure to give you this address. I can already hear some of you sighing at the thought of having to hear a long address today, so I'm going to make it as short as possible. My address is 310 Harding Street."

Evidently the girls have been reading some humorous books, for they were sharp as tacks. Mrs. Bilbro then said, "Since this is a meeting of Greenville's book club, it seems only fitting for us to discuss books that we

have enjoyed most." Could it be that the girls were going to make a liar out of me by talking books. Yep, they did. Mrs. A. D. Frank rose and told of the book she considered the best of the year. Then Mrs. F. D. Duncan reviewed the book she enjoyed most. Third in line, Mrs. J. B. Kittrell said, "The book I enjoyed most this year was my husband's check book."

The girls gave a prize to the member with the most grandchildren, won by Mrs. J. E. Winslow, who has 14, including two sets of twin grandchildren; the newest husband prize was won by Mrs. W. M. Scales, Jr.; life longest names, Mrs. V. C. Fleming, Jr.; and the hat with greatest number of colors, Mrs. Charles Howard, Jr. Mrs. J. E. Nobles won a prize for getting up the earliest. She arose at 3:30 in the morning that day.

And I thank Rachel, who practically dictated this one.

Around Capitol Square

Daily Reflector Bureau

By LYNN NISBET

Raleigh, N. C.

FLORIDA — Was the Florida senatorial contest just a "good race between two good men," with effect or influence beyond the state? Or did the issues presented by Senator Claude Pepper and Candidate George Smathers bear such striking similarity to issues in the current North Carolina primary as to set a pattern? Governor Scott and other strong partisans of Senator Graham say there is no relationship between the two contests. Supporters of Willis Smith are pointing out close parallels, not only in issues but in the way they were presented. Despite protests, the Graham people are not pleased with Pepper's defeat, and the Smith people are happy over Smathers' victory.

QUESTIONS—Governor Scott has developed considerable skill in replying to questions without answering them. The press conference Wednesday was opened with the question "What effect or influence do you think the Florida primary election will have on North Carolina?" He answered he didn't think it would have any. That satisfied the propounder of the question, but did not satisfy some of the others who phrased another involved question using names of Pepper and Smathers, Graham and Smith. That's when the governor said he regarded the Florida contest a "good race between two good men." Another reporter wanted to know if he thought both candidates here are "good men." The governor had no reason to doubt it. Still another reporter asked if he thought either North Carolina candidate who might be elected would support the national administration. With a smile Governor Scott answered: "They both say they will."

SIGNIFICANT—Another question drew the most significant statement of the session. Asked if he thought North Carolina would stay in the Democratic party, meaning the present national party organization, regardless of outcome of this primary, Governor Scott said emphatically that it would. In that position he is following Governors Hoey, Broughton and Cherry, none of whom was quite as much in sympathy with national party programs as Governor Scott appears to be.

OUTSIDERS—Several people have expressed opinion that the result of the Florida voting is not so important to North Carolina as the fact the election is over. The national Democratic administration and big union labor organizations throughout the country were interested in Senator Pepper. Apparently they are also interested in Senator Graham. With the Florida election out of the way, they can concentrate on this state. Similar condition prevails with respect to outsiders who backed Smathers. For comparable, but by no means identical reasons, they are in sympathy with Smith, and are equally free from Florida entanglement. Quite likely neither group participated in Florida, or will come into North Carolina, to anything like the extent charged in campaign publicity.

TRENDS—Experienced political observers are more concerned with apparent trends than with separate incidents, just as good generals are more concerned with winning the war than any specific battle. There is different opinion about what the general trend is now. Did the recent votes in New Zealand, Australia, Great Britain and Florida mean a reversal of

earlier trend toward socialism? Or did they mean the same desire for change which started the socialistic trend two decades ago? If it is a trend against socialism, then the more conservative lines will hold. If it is just desire for change, then the socialists will start coming back to the right, the conservatives may move toward the left.

VIRGINIA — A by-election to fill a vacancy in congress can be used to support either theory. According to the usually accurate Associated Press "Edward J. Roberson, Jr., a political newcomer with a big business background, upset the regular Democratic politician by winning the special first district Virginia congressional election." Whether he won because he was a newcomer, or because of his big-business affiliation, or because of both or neither, has not been answered.

BEAM—State general fund revenue collections for the first ten months of the current fiscal year were more than ten million dollars below receipts for the comparable period of last year. That looks bad from one viewpoint. From another angle the report looks good, because collections have held up almost to estimates of a year ago. The next two months may change the picture, but as of now it looks the estimators of 1949-50 revenue were nearer on the beam than their predecessors for many years past.

BALANCE—In other words, it looks now like the state will end this year with its general fund budget in fair balance. That is because it started with about fourteen million dollars. There is still serious doubt about the 1950-51 budget, because there will not be much if anything in the kitty to start with.

in quotation marks, or otherwise distinguish it, for it has the familiarity of an old and accustomed friend. The car is gleaming from its winter in the garage, is ready to go, and, as everyone knows, this is the best time of year to take it out and fly off to meet the spring, the sun and the daffodils. All that is needed is the slightest of invitation, just one beckoning nod.

What Other Papers Are Thinking

There is a great "tree farm" program in progress here in the Pacific Northwest that will in time make the forests self-renewing. "We believe in it completely, and we see that our cutover land is seeded with new trees," said Bert. "But, frankly, we got wise about 15 to 20 years too late."

There is a great "tree farm" program in progress here in the Pacific Northwest that will in time make the forests self-renewing. "We believe in it completely, and we see that our cutover land is seeded with new trees," said Bert. "But, frankly, we got wise about 15 to 20 years too late."

Business Today

By ELMER ROESSNER
Furniture merchants have been enjoying a brisk demand for home goods, but now are being pressed between higher wholesale prices and a new slowdown in retail sales that's a little more than merely seasonal. That 1949 and much of this year were favorable to the home merchandisers is attested to by the jump in turnover. In 1949 home goods stores are reported to have turned their stock almost five times as compared to less than four the year before. The rapid movement of television sets helped, of course, but also speeding up turnover was a good demand for living room furniture and bedding.

Now sales of furniture are off, market observers report, with the exception of sofa beds, mattresses and springs. Demand for standard bedroom furniture is noticeably slack. This situation may be more than temporary. Today's smaller homes and apartments may be putting the blight on the type of large bedroom suites our parents bought. The trend is more to space-saving divans (really nothing but a spring on legs and sofas and loveseats that transform into beds at night).

The rug business is off too, merchants say. Again that's partly by season, but part of the trouble is that demand is being blocked off by three successive price hikes by leading makers in recent months.

The puzzler and portent in the decline of demand in some furniture departments is that wholesale prices are increasing at the same time. Not only rug mills but several leading bedroom set manufacturers are installing price rises. The effect will be either a further reduced market, or a slowdown by consumers until the producers decide a price reduction will be preferable to smaller volume. That may take some time until the effect of reduced buying reaches the raw materials suppliers, particularly in furniture woods and carpet woods. Quotations on furniture woods have been bolstered by the lively demand recently in the home-building industry as well as the furniture trade. In carpet woods, the problem is more complex; there's an undeniable world shortage of the sturdy, coarse wools required for rugs.

"G.I. LOANS FOR NON-VET BUSINESSMEN OFFERED"
Two of the nation's largest banks (National City and Chase, of New York) are hanging out the welcome sign for the small businessman seeking capital, and may well be furthering a trend. One of the banks (National City) has announced it will make loans for capital or other purposes for terms up to 36 months or even 60 in some cases. The significant feature is that these loans can be repaid monthly. The new plan makes available to non-veterans the same type of credit facilities

available for several years to ex-service men who wanted business loans under the G.I. Bill of Rights.
The heightened interest in small business loans of two of the nation's largest banks is of importance to businessmen everywhere. One of the banks now offering such service was a pioneer in bringing commercial banks into the personal-loan business. Now over 10,000 of the nation's 15,000 commercial banks make such family loans. Their success with this end of the lending business may very likely encourage more banks to make available business loans on the monthly repayment plan.

IT WILL BE A CINCH TO GET THROUGH REVOLVING DOOR
Why does a woman stand in a revolving door and wait for the man to push? One large glass manufacturer (Pittsburgh Plate Glass Co.) says it's because the door is really too heavy for the average woman. Electric-eye door pushers have been tried, with a measure of success, but they're costly. So the glass manufacturer revealed a new solution to the press the other day: a double-acting hinge powered by an electric-hydraulic mechanism. You give a light push and the hinge picks up the job of revolving the door. No more arguments over whether the woman should do her share of pushing.

OFF-STREET PARKING LOTS IN BUSINESS DISTRICTS
Now almost 400 towns of more than 10,000 own and operate municipal off-street parking lots in the constant battle to unsmilelly midtown traffic. Not only that, but those who already have such lots are opening up more, the Public Administration House reports. Town fathers differ in what they think the public ought to pay for parking. You can park all day for 15 cents in Pittsburgh or Battle Creek, Mich. In some other towns you'll pay almost as much for an hour. A nickel an hour is a frequently found rate.

NEW AND HOT
REFRIGERATOR: A big refrigerator at a low price, with 9.2 cubic-foot capacity and a frozen-food locker that will take 40 pounds has been announced by Philco Corp., Philadelphia. The box claimed to be the lowest priced in the field for that size with deluxe features, will retail for about \$259.

CHILD'S TUMBLER: A new anti-slip tumbler made of flexible plastic with a large base so a child can slide it along a table without tipping has been developed by Crown Plastic Corp., Leominster, Mass.

LOW-PRICED TV: A ten-inch table model television set to retail for \$99.50 has been announced by Meek Industries, Chicago. The \$100-set is part of a summer promotion line developed by the manufacturer to offset the expected summer sales slump.

Hal Boyle's Column

Valestz, Ore. May 4 (AP)—This is one of the most isolated towns in America and a guy has to be six feet tall to live here or risk drowning.
Leaving out the moist month of April, it rained 72 inches in the first 90 days of 1950. This is six feet of wet-water.

"Of course, we measure rainfall here by the foot rather than the inch," said Bert Thomas, a pudgy sub-six footer who has survived 30 adult and soaking years in this heartland of the big-timber country.

Bert is a lumberman. He is general manager of the Valestz Lumber Company, which owns some 30,000 acres of the 26 million-acre belt of Pacific forest land which is the world's richest woodland.

"This belt, still half virgin, half second growth, produces one third of the home-run lumber marketed in the United States."

Running a tough lumber camp of twelve hundred people brings a lot of problems. But the one that Bert likes to talk about, tongue in cheek, is how he solved the problem of the children beginning to outnumber trees.

"The company built 185 homes here for married loggers," he said.

"One row of houses bordered a swamp. That swamp caused us all kinds of trouble. It was so close to the baseball diamond that everytime a guy made a long hit the ball would get lost in the swamp."

"Not only that but every spring the loggers who lived in that row of houses would come to us and ask us for lumber to build an addition to their homes. Well, I didn't mind giving them the wood, but I couldn't figure out why the fellows living in this particular row of houses needed so much."

"When I asked them, they said, 'We just had another child we gotta have more room, need a bigger house.'"

So Thomas checked the situation and found this.

"The swamp they lived by was full of frogs, and the frogs kept everybody awake half the night."

"So we drained it and got rid of the frogs. And you know what, since then the requests for lumber dropped in half. They don't need to build so many additions to their houses."

"But, of course, the main thing is we don't lose any more baseballs in the swamp."

While Bert likes to joke about the birth control problems of the loggers, he can't very well joke about the lack of birth control in the rich Douglas fir forests his company is destroying to build homes across America.

There is a great "tree farm" program in progress here in the Pacific Northwest that will in time make the forests self-renewing. "We believe in it completely, and we see that our cutover land is seeded with new trees," said Bert. "But, frankly, we got wise about 15 to 20 years too late."

Washington Letter

WASHINGTON—Every week some 200 senators and representatives record hundreds of speeches right in their own studios on Capitol Hill. Usually reports on the week's activities and members' views of the goings-on, these are made on "platters" anti tape and rushed to district radio stations for the benefit of constituent listeners.
Now Robert J. Coar and his attractive wife, Helen, who operate the studios as part of the legislative branch of the government, are setting up a television studio to make short movies of congressmen for use by local television stations. Little dark-haired Helen Coar took me into the control room at the studios in the House Office building to hear the voice of Senator Mundt (R-SD) booming over the loudspeakers. Twelve platters are made for stations in his district every week. The senator was recording from the studios in the Senate office building.

Though the studios are government-operated, lawmakers have to pay to have recording made. It's a paying proposition, too. Members pay \$5.50 for each 15-minute record. Fees, according to Mr. Coar, have taken care of all expenses, including \$24,000 a year in salaries for studio personnel, and have built up about \$15,000 in surplus. The studio nets about \$4,000 monthly above costs.

For 13 years the Coars operated the recording station as a private enterprise. Congress voted to set it up as part of the legislative branch in June 1947. Big networks complained that the Capitol studios were operating in competition to them, but the congressmen contend that the speeches they make for local stations can't interest the whole country.

All of a sudden who began Capitol Hill recordings as novices, Senator Taft (R-Ohio) shows the most marked improvement. Mrs. Coar told me, "He's relaxed. In the beginning he didn't have an easy manner," she said. "Now he talks as if he's right at home, even throws in a chuckle now and then."

Rivers, Harbors Bill Now Awaits Senate Action

Washington, May 4—(AP)—A flood control, rivers and harbors and reclamation projects bill, including projects in the Carolinas, now waits senate action.

The \$1,730,251,825 measure passed the house yesterday. It carries no appropriation, but makes the projects eligible for later appropriations by congress.

Listed in the approved projects was a compromise authorization of \$50,000,000 for construction of the Hartwell dam on the Savannah river, near the Georgia-South Carolina line. Previously, only \$40,000,000 had been approved. The Hartwell dam will be the second in a proposed series of dams on the Savannah, the first being the \$76,000,000 dam at Clark Hill, S. C., due to be completed in 1953.

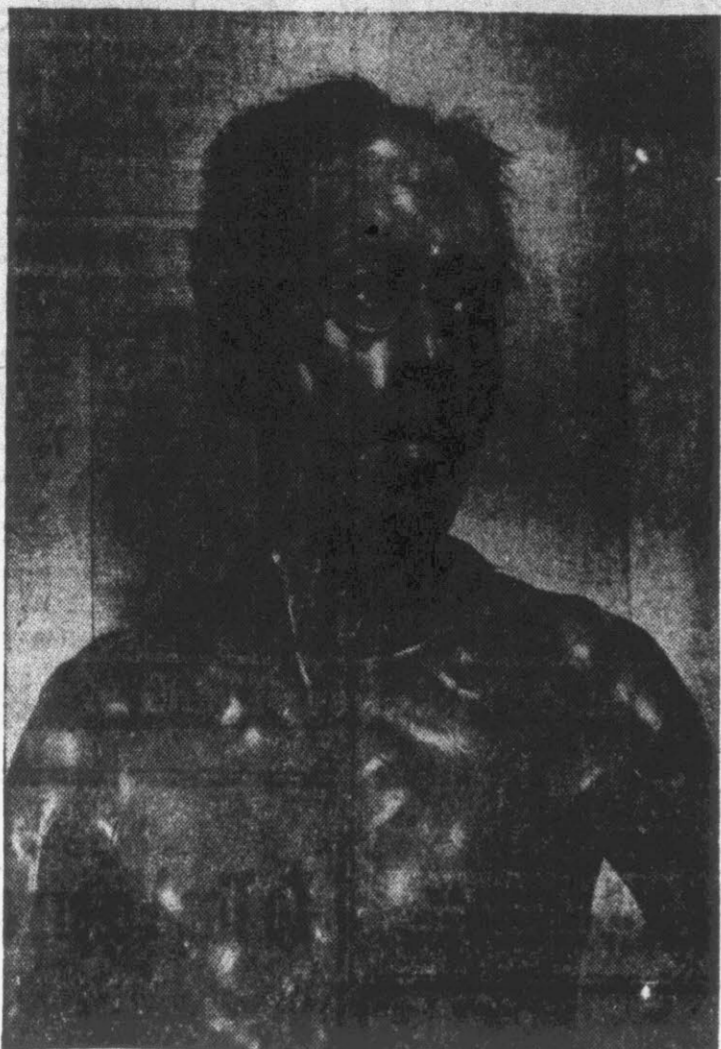

The omnibus bill also authorizes a \$3,137,000 improvement program to promote navigation on the Savannah.

The bill also authorizes the dredging of the Cape Fear river at and below Wilmington to a depth of 34 to 35 feet, instead of the present 32. Others among the authorized rivers and harbors: Surveys of Middle Creek, N. C., and Fiberts creek, Edenton, N. C.

Flood control surveys are authorized at Johns Island, Combahee, Broad and Black rivers in South Carolina and their tributaries.

Vince DiMaggio led the National League in striking out in six of the nine seasons from 1937-45.

Part Of Artist Put Into Image

Is he alive? That's the sixty-four dollar question for every person who sees the world-famous "Man or Image," life-like reproduction of a Japanese artist who pulled his own hair, toenails, teeth and fingernails to use them in creating his image, to which he willed all his worldly possessions upon his death. This is only one of many amazing curiosities and oddities to be seen in Greenville today when the North Carolina Disabled American Veterans brings a touring exhibit of Robert Ripley's "Believe It or Not" museum pieces to this city. The exhibit will be open to the public, admission free.

"I go for a man who wears an ADAM PANAMA!"

Century Mark Is Reached By N. C. Civil War Vet

Burnsville, N. C., May 4—(AP)—One hundred years of life were behind Sam Bennett today as Western North Carolina's only surviving Confederate army veteran observed his 100th birthday.

Bennett's home is located at Relief, N. C., near the Yancey-Mitchell County line.

The civil war veteran was wounded in an explosion during the battle for Richmond.

In spite of his age, Bennett manages a monthly three-mile trip on foot down a 1,000-foot slope to the relief post office to pick up his pension check.

Bennett is one of North Carolina's two Confederate veterans.

Lowly Ramp Will Be King Sunday

Waynesville, May 4—(AP)—The lowly but pugnacious ramp will reign as king here next Sunday. More than 10,000 persons are expected to gather atop nearby Black Camp Gap mountain for the 20th annual Haywood county ramp convention.

This wild and potent little onion-like vegetable thrives in abundance in the shady and fertile coves in this area, and up until a few years ago, was known only to mountain folk and a few rugged outsiders.

Today, though, the ramp attracts thousands each year as the annual convention is staged in the spring, when the ramps reach their peak in flavor.

To the uninitiated, the ramp has a more formal name: Rampion, a broad-leaved plant, having edible, garlic-like roots. Their main use is in salads.

The roots are gathered and cleaned early Sunday for the expected crowd, then laid out on long tables for the various frying pans of the early arrivals. And there is an argument over the proper way to eat ramps: cooked or raw. Coon hunters who conceived the "convention" idea years ago preferred them raw, with corn bread and black coffee.

Each year forest fires burn an area the size of New York State! Who can stop them? You can. 9 out of 10 are man-caused! Please be careful!

Remember—Only you can PREVENT FOREST FIRES!

Scholars To Be Dinner Guests

Thirteen seniors at East Carolina Teachers College who rank highest in scholarship among their classmates will be guests at a dinner to be given next Monday evening, May 8, at the Proctor Hotel in Greenville by members of the Pitt County Chapter of Phi Beta Kappa. Following a custom established in 1946, members of the national honor society will entertain the college seniors and offer congratulations on their outstanding records as students. There is no chapter of Phi Beta Kappa at the college here. Those who have been invited to attend are Dorothy Louise Midgette, Waves; Gwendolyn Potter, Belhaven; Lola P. Stephenson, Willow Springs; Jerry O. Bennett, Winston-Salem; Arthur G. Lockard, Milton, Pa.; Eugene Reams, Asheville.

Wilson's Weekly Bulletin

from the RECTOR KITCHENS

Only the size of your oven limits the amount of WILSON'S CERTIFIED or FARM FRESH CHICKEN you can oven-fry for the crowd on Mother's Day. The coated pieces of chicken brown to a crisp-erusted fried chicken without turning or watching! Here's the perfect entree for the May 14th gathering.

RITE shortening or LAUREL LARD and a 325° F. oven brown and crisp that luscious, fork tender WILSON'S FRYER. (Ask for WILSON'S CERTIFIED or FARM FRESH frying chickens for they are top quality and ready to cook.)

OVEN-CRISP, WILSON'S FRIED CHICKEN

This is a new method that makes the most delicious fried chicken very easily... either for the family or a crowd.

- Select a WILSON FRYER. Dry pieces between layers of paper towel to remove any moisture. This will make the coating stick much better.
- Roll chicken in slightly beaten egg with 1/4 tsp. salt and 1/4 tsp. pepper, then finely crushed cereal crumbs. Coat well. Let stand 20 min. Place on rack in shallow pan. Top with fat.
- Place in slow oven (325° F.) pre-heated 10 minutes. Let crisp and cook for 45 to 60 minutes to crisp browned exterior. The meaty pieces take longest. The chickens will brown without turning.
- Serve hot with garnish. Make Cream Gravy from the drippings; 2 tbsp. flour to 2 tbsp. drippings and 2 cups rich milk.

Auto Production In March Mounts

Detroit, May 4—(AP)—New passenger car registrations for March may total 465,000 units. Reporting this, R. L. Polk & Co., auto industry statisticians, said the

total would exceed that of March, 1949, by well over 100,000. Polk bases its estimate on complete tabulations in 28 states and estimates in the remainder.

The agency also says new truck registrations for March should approximate 88,000. This would compare with 87,165 in March, 1949.

SURVEYING HER DOMAIN—Suzanne Alary, 20, inspects her kingdom from her charger on a carousel after she was elected as Esmeralda 1950, Queen of the Fairgrounds of Paris.

BD means Brighter Days for all of us!

BD means Black-Draught, the friendly laxative which has been helping thousands every time they need a laxative. Black-Draught has been the favorite with more than four generations. When a laxative is needed to help dispel headaches, upset stomach, tiredness caused by sluggish bowels and irregular elimination, you can always depend on Black-Draught. Taken as directed, it's natural-like action is prompt and thorough. Black-Draught is pure. It is scientifically prepared from finest imported herbs proved best for a laxative by centuries of use; laboratory controlled for absolute uniformity. Children take Syrup of Black-Draught because it tastes good. Black-Draught is manufactured by a company known for quality since 1867. Next time you need a laxative, take Black-Draught, powdered or granulated—Syrup for children. Get Black-Draught at your favorite dealer.

BLACK-DRAUGHT THE FAMILY LAXATIVE

To The Voters of the Fourth Ward

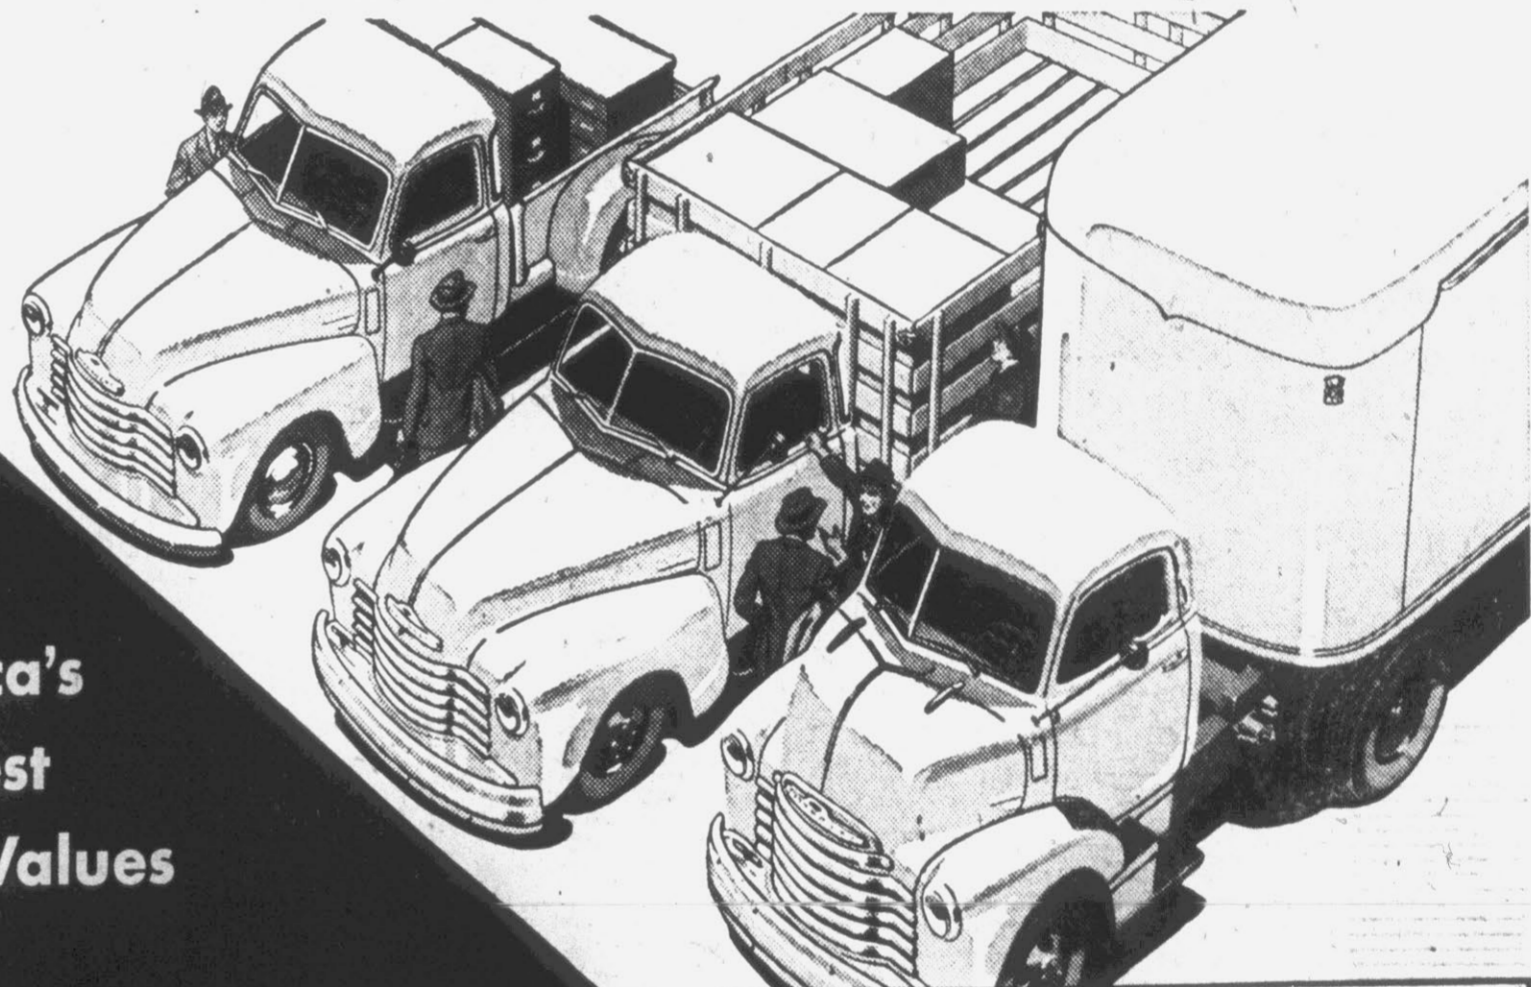

I want to take this method of thanking everyone of you for everything you did for me in the Monday election. If at anytime I can be of any service to you let me know for I stand ready to render any service possible to any citizen of Greenville.

J. E. Collins

THANKS

for the large complimentary vote you gave me in Monday's city primary. I do really appreciate your interest.

JIMMIE JENKINS

See America's Greatest Truck Values

PAYLOAD LEADERS

Cost less to operate per ton per mile!

Right from the start, you can figure on more payloads because Chevrolet trucks take less time on the job... cost less to keep up. They reduce total trip time with extra high pulling power over a wide range of usable road speeds. Advance-Design construction saves you money on repairs. It all boils down to this: You can depend on Chevrolet trucks to deliver the goods at low cost per ton per mile. Stop in and see these new P-L trucks now on display.

Far ahead with all these Plus features

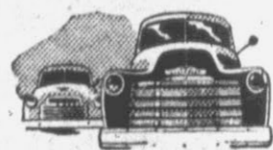

- TWO GREAT VALVE-IN-HEAD ENGINES: the New 105-h.p. Load-Master and the Improved 92-h.p. Thrift-Master
- THE NEW POWER-JET CARBURETOR
- DIAPHRAGM SPRING CLUTCH
- SYNCHRO-MESH TRANSMISSIONS
- HYPOID REAR AXLES
- DOUBLE-ARTICULATED BRAKES
- WIDE-BASE WHEELS
- ADVANCE-DESIGN STYLING
- BALL-TYPE STEERING
- UNIT-DESIGN BODIES

See these great new truck buys in our showrooms today!

Performance Leaders

Popularity Leaders

Price Leaders

Most Powerful Chevrolet Trucks Ever Built

New Chevrolet trucks have stepped-up power and performance. Improved Thrift-Master Valve-in-Head engine features greater horsepower and finer performance with new Power-Jet carburetor. Brand-new Load-Master 105-h.p. Valve-in-Head engine provides greater pulling power and reduces total trip time in heavy hauling.

Preferred By Far Over All Other Trucks!

Official records show that Chevrolet trucks are America's fastest selling trucks for the last 12-month period, they have outsold the next two makes combined! And that's convincing proof of the owner satisfaction they've earned through the years—proof that Chevrolet is the nation's most wanted truck.

First For All-Around Savings!

No matter how you look at it, you're money ahead with Chevrolet trucks. Chevrolet's rock-bottom initial cost—outstandingly low cost of operation and upkeep—and high trade-in value, all add up to the lowest price for you. Yes, from start to finish, Chevrolet trucks are the price leaders!

Hubbard Named Next President

Pinehurst, May 4.—Dr. Fred C. Hubbard of North Wilkesboro will be president of the Medical Society of North Carolina next year. He was elected yesterday as the society closed its 96th convention. Dr. Roscoe D. McMillan of Red Springs, the society's "general practitioner of the year," was installed as president.

The society decided to hold its 1951 meeting here, and, other than Dr. Hubbard, elected the following officers:
Dr. Joseph A. Elliott of Charlotte, first vice president, and Dr. Henderson of Eureka, second vice president. Earlier they were told that North Carolina's health chart is showing progress at mid-century.

Pactolus PTA To Present Program

The Parent Teacher Association of Pactolus will present a dramatic program tomorrow night featuring two plays, one by the adult group and the other by the fifth grade.

Held in the assembly room of the community building the program will include the adults' presentation of "Teacher's Pet" and "The Crown Princess" by members of the school group. Individual recitations and singing will conclude the program. Admission is 15 cents for students and 25 cents for adults. All proceeds will be given to the PTA treasurer to further the association's program.

Youth Held On Charge Of Theft

Greenville police believe that the arrest yesterday of James F. Tyson, 16-year-old, 170-pound Negro, on a charge of larceny of valuables from an automobile, will prove to be the solution of numerous robberies from automobiles parked in the downtown section recently.

Chief Lester D. Page said Tyson is charged with larceny of a pocketbook and a cigarette lighter from Mrs. C. C. Hilton's car while parked on Evans street near Fourth. Page said police expect to connect Tyson with other robberies of valuables from parked automobiles. He said they have been checking him in connection with other thefts from cars here. Page said Tyson "had come under police observation because he did not work, but always had money to spend."

Authorities are continuing their investigation. A search warrant was issued and police confiscated a quantity of clothing and other things at Tyson's home. In the meantime, Tyson is being held in jail without privilege of bail or visitors, until Lieut. M. E. Corbett and S. B. Dorsey complete their investigation.

Chief Page issued a warning today to women and others not to leave valuables in unlocked cars while parked.

Cast Discusses Details Of 'The Enchanted Rose'

Members of the cast of "The Enchanted Rose," which will be presented by the Greenville High Dramatic Friday night, talk over the details which will polish the production for its public performance. Director Kay Van Nortwick (right, foreground) student teacher from ECTC, discusses the play with Bege Whitehurst while other members of the cast listen in. Left to right are: Ann McCrary, Betty Jean Allen, Peggy Bland, Betty Sue Harris, Anne Sutton and Peggy Barrow. "The Enchanted Rose" will be presented along with "Quiet Please" as a double bill in the high school auditorium tomorrow night at 8 o'clock. The two plays will be the final productions by the Dramatic for the school year. (Reflector staff photo).

Crime . . .

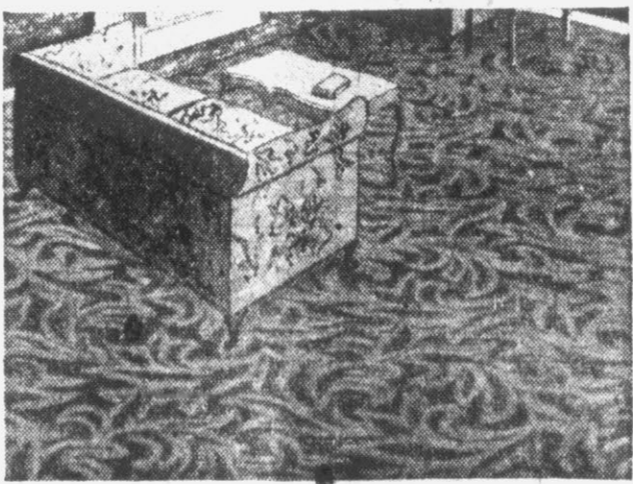

ford to let a gambling joint do business under his nose. If he did, sooner or later he could be accused of stupidity, failure to do his duty, or taking graft. So he'd be a sap to let a law violator work him unless he was getting money or orders from above. And so on up the line. Which means that wherever there's any extensive gambling there's corruption. And corruption, since money hunger is the root of it, undermines government and leads to worse crimes, like murder. But the gambling picture is a little complicated and might be confusing to an Eskimo if he suddenly came here with a simple view of the world, thinking that black is always black and white is always white. A number of states, although they have laws against gambling, are not opposed to gambling as gambling. In them it just depends on where the gambling is done. For example: They make gambling legal so long as it's done at a race horse track which has a license from the state to do business and take bets. These are called pari-mutuel bets, after the machines which figure out the odds. In such licensed cases, a percentage of the money bet is turned into the state treasury. So the state gets something out of the betting. But those same states have laws against any betting on the horses if it's done away from the track, that is, up some side street in a handbook, which is another name for a place which takes off-track bets.

Hoffman's . . .

It is on this basis that one finds justification for speculation about a possible upheaval. The spirit of revolt is there. But having said this we come up against the cold fact that the whole eastern bloc is firmly controlled by Red military forces and secret police. What chance has an unarmed populace to rise against that, even if it wants to? The answer is that only some fortuitous circumstances, which would render the Soviet Union vulnerable, could pave the way for successful revolt. Beyond that we are on highly speculative ground. Mr. Hoffman is said to believe that as western Europe regains its power the Russians won't be able to keep the lid on the forces against them. That could be, and many observers believe that in the long run it will happen. Somewhere a wedge may be driven which will provide an opening for the subject peoples opposed to regimentation. But you can't say when!

Rocky Mount Captures 10-5 Win Over Greenville Robins

Strausser Accounts For Four Of Robins' Eight Hits; Lewey Credited With Loss; Hallow Slams Out Homer In Sixth Frame

By BERT MOYE
Manager Red Benton's Rocky Mount Leafs made it two straight over the Greenville Robins in Rocky Mount last night with a 10-5 win. The loss for the Robins was their fifth straight, while the Leafs annexed their eighth successive triumph.

The Leafs scored in all but two frames of last night's contest. After failing to score in the first frame, they came back in the second frame to score a singleton on two singles, stolen base and an error; they scored three runs in the third on four singles and a passed ball; one in fourth on Don Mattscheck's homer over the left field wall.

The two runs in the fifth gave them their margin of victory. Jim Reges doubled and scored on Quentin Martin's single. Wal Cleply singled and Frank Gardner's one-timer drove Martin home.

They came back in the sixth to add two more markers and scored a singleton in the eighth to end their scoring spree for the night. The Robins were unable to get into the scoring column until the sixth frame when George Hallow socked a 365-foot homer over the rightfield wall to bring in Scarpa and Strausser ahead of him. This was Hallow's second homer in the past week.

The Robins came back in the seventh to push across a singleton when Scarpa reached first on a fielder's choice and Paul Strausser connected with his second triple of the night to bring him home. The final run for the Robins came in the eighth frame when John Mussemect walked and later scored on a ball hit through Wade Martin at shortstop by Al Lakind.

The Robins used three hurlers in last night's contest with starter Jim Lewey being charged with the loss, his second of the season. Lewey pitched the first six innings and gave up a total of 14 hits, nine of the Leafs' runs, when he was relieved by Pinky White, who in the one frame which he worked held the Leafs hitless and scoreless. He was taken out for a pinch-hitter for the eighth frame with Lefty Buckshon pitching the remaining innings, giving up one run and one hit.

Wade Martin with a double and two singles and Babe Johnson and Quentin Martin with three singles each paced the 15-hit attack off the three Robin hurlers. In addition to the three Robin hurlers, Quentin Martin drove in a total of four runs for the Leafs.

Paul Strausser with two triples and two singles in five trips to the plate was the big gun in the Robins' attack and his four hits accounted for exactly half of the hits obtained off the three Leaf hurlers.

Sport Slants By Pap

Route Runner by Pap

For three years Bob Karnes has been the solid man of the Kansas University track team and is rated the greatest distance runner the Jayhawks have boasted since the days of Glenn Cunningham. Karnes is one of the three athletes in Kansas track history to captain the spiked-shoe squad two years. He also captained the Jayhawk cross-country team twice. While Bob has not approached Cunningham's sensational time for the mile or two mile runs, he has been good enough to dominate the Big Seven Conference. He won the Big Seven outdoor mile twice; the indoor mile once; the outdoor and indoor two-mile run three times each, and was runner-up in the indoor 880-yard run this winter. He is co-holder of the Big Seven indoor mile record of 4:17.2 but posted his best time of 4:16.5 in winning the Missouri Valley, A. A. U. title last year. His best two-mile time is 9:28.0. Karnes was awarded the Henry Schulte Trophy as the outstanding performer in the Big Seven outdoor championship most last year at Lincoln, Neb., after winning the mile and two-mile events on a muddy track and in a cold, raw wind. He can tie Cunningham's all-time record of 12 conference titles in various events by taking one more championship in the coming Big Seven conference meet.

Greenville Golfers Avenge Previous Kinston Defeat

The weather was poor yesterday with the rain placing a damper on the action but Greenville's golf team avenged a previous defeat by Kinston in beating them 78-30 on the Country Club course.

The win placed Greenville's last year's champions in a tie with Kinston for second place in Coastal Golf Association play. New Bern now leads the six-team circuit, having suffered only one loss and that to Greenville.

Ercel Webb was again medalist for Greenville for the second week in a row. Webb carded a three-under-par 69 to beat Kinston's John Farabow. The visiting medalist carded 73 along with his teammate Jim Parrott.

Kinston brought 30 players with them. The 60 players played through a mid-afternoon shower which delayed the matches a wee bit but all 60 completed play. W. L. Allen was runnerup to Webb with a par-breaking 71.

Webb's and Allen's rounds:

Webb out	433	444	534-34
Par	543	514	443-36
Allen out	443	445	434-35
Webb in	443	454	434-35
Par	543	544	443-36
Allen in	542	445	444-36

Stranahan Out Of Dallas Event

Dallas, May 4—(AP)—Minus its defending champion, Frank Stranahan, the idol of the dobby boxers but still boasting one of its toughest fields, the western amateur golf tournament moved through its double round today.

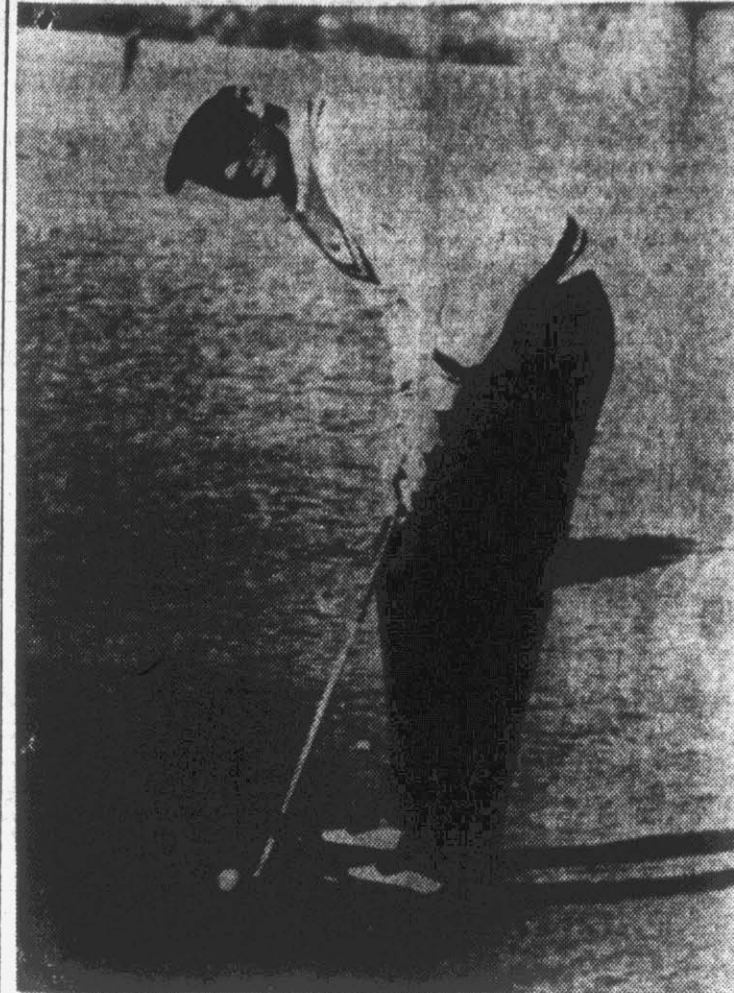

National champion Charlie Coe of Oklahoma City was the favored one although he had all sorts of trouble yesterday in taking out Leon Schumacher, veteran Dallas tournament player, in the opening round. Coe won 1-up, doing it on the last hole.

Stranahan was even par over the 6,470-yard course while Vickers was one under. Par is 36-36-72. The Toledo musceteer man called it "a pitch and putt course" and said they "ought to be playing the ladies junior tournament here."

Rich Trotter

New York—(AP)—The most money ever won by a harness horse in a single season was \$74,438 banked by Saunders Mills' Bangaway, three year old trotting champion of 1949. And the colt was out of the money in the richest stake he raced for—the \$69,000 Hambletonian classic.

North State Conference Titlist

Above is shown Bill Stalls, East Carolina golf team captain, who yesterday led his team to victory in the North State Conference tournament held at Greensboro. Stalls was low scorer over the 24-man field with four rounds totaling 147. East Carolina scored 142 and Guilford's 664.

Rocky Mount Women Set Pace In Golf Association

Rocky Mount women continued to set a hot pace in Eastern Carolina Women's Golf Association matches as they placed winners in low net and low gross scores Tuesday afternoon at Wilson.

Playing for the third time this year, the women were paced by Mrs. Monk Livengood of Rocky Mount, who shot a low net score of 78. Mrs. Livengood was followed by a fellow teammate, Mrs. Frances Stevens, who took top honors in the low gross score bracket, shooting 101.

(Net score is figured as two-thirds of the difference between the score on the first round and par and subtracted from the total score for both rounds.)

The 40-odd women played on a wet course throughout the morning and afternoon rounds. One shower interrupted the play but all turned in complete 18-hole cards.

Mrs. James Smith of Greenville was the only local participant to win one of the four divisions. She topped the most birdies for the day with three. Louise Multsby of New Bern won the low-putting division with 31 putts.

Placing second in net scores was Mrs. Harriet Smith of Wilson with 84, followed by Mrs. Terry Watson of Rocky Mount with 87. Second and third with low gross scores were Doris Whitfield and Marie Croom of Kinston.

Making the trip from Greenville were Mrs. Larry James, Mrs. Graham Flanagan, Mrs. Matt Long, Mrs. Tom Smoot, Mrs. Billy Morton, Mrs. James Smith and Mrs. Harold Thomas.

The next meeting of the association will be in Rocky Mount, May 16.

Chivalry Didn't Pay For Track

Have De Grace, Md. — (AP)—Chivalry has had to get out of the way of the dollar at the Have De Grace horse racing track. After 27 years the track has closed a private betting ring for women.

The betting windows "for ladies only" were opened in 1923. "We figured that the main ring was no place for a lady," recalls James Ross, track superintendent. "I guess you can say it was a chivalrous gesture."

However, "it didn't pay its way with just women bettors." So the windows were opened this spring to men, too.

North State Golf Title Won By Stalls

Raschi Survives Four Balks And Edges White Sox

By JACK HAND
(AP Sports Writer)

Balk. Balk. Balk. Balk. How silly can you get? Pitcher Vic Raschi of the New York Yankees, Umpire Bill Summers and the American League hold a new major league record that is better forgotten.

Raschi, guilty of only one previous balk in his big league career, was nailed four times by Summers yesterday at Yankee Stadium. And this is the league where "the same old rule" was to be enforced. Each time Raschi was found guilty of a "non stop" violation.

In all the years of baseball, leading up to this golden jubilee year, no pitcher ever balked four times in a game before Raschi. Three was the old high, shared by two pitchers—Milt Shoffner of Cleveland in 1930 and Adrian Zabala of the New York Giants against St. Louis last summer. It's only a matter of time until the season record for balks goes by the boards. Old Joe Boehling of the 1915 Washington club was guilty six times. Raschi is breathing down his neck and this is only May 4. It took Boehling 229 innings. Raschi did it in four.

As it turned out, Raschi survived balks, walks and 10 hits for a 4-3 victory over Bob Kuzava of the White Sox. Phil Rizutto's double in the fifth accounted for two big runs.

Those Boston Red Sox, breathing fire at their Fenway Park home, ripped off their sixth straight win, a 7-3 romp over Cleveland. The Sox routed Bobby Feller who copped his first two starts.

Detroit, rained out at Philadelphia for the second straight time, still clings to the league lead by 31 percentage points. The Yanks and Red Sox are right behind. Gil Coan hit a home run with the bases filled and two out in the seventh inning to give Washington a 4-3 comeback edge over the St. Louis Browns.

Israel Pins Net Hopes On Pair

Tel Aviv, Israel—(AP)—The Israel Tennis Association will send only two players to the European zone Davis Cup tennis matches with Poland in Warsaw on May 21-22.

Named as Israel's representatives were Arish Weiss, 22 and Jacob Bunman, 19.

Weiss is the Israeli singles champion and played at Wimbledon and also in the recent tournament in India.

Tonight's Games

Roanoke Rapids at Greenville
Wilson at New Bern
Kinston at Goldsboro
Tarboro at Rocky Mount

There was carried in the columns of this paper yesterday a story regarding a new business manager for the Greenville Robins. He is Russ Pilley, who was here during the exhibition series played by the Robins and was later sent down to manage the Lumberton club in the Tobacco State League. During his short stay here Russ made many friends among baseball fans and his return to the job as business manager of the club was received with wide acclaim by the fans. So in behalf of the fans of Greenville we welcome you back to Greenville, Russ, and may your stay here during the baseball season be a pleasant one.

At the same time the Robins are losing a mighty fine man with the transfer of Dallas Blackiston. "Blackie" as he is known to the followers of the sport, has made some great changes since coming to Greenville and has given untiringly of his efforts in doing everything possible to give Greenville the best in baseball. To the writer of this column, he has cooperated one hundred percent, and has given me the news as fast as it would break. It is with deep regret that I see him go and wish for him all the success in the world.

The following is the copy of the telegram received by me yesterday morning and which was signed by Roy Dissinger, owner and president of the Robins:

"Have decided to transfer Blackiston to business management of Lumberton club. Replacing Blackiston will be Russ Pilley. Effective this morning. Moves should benefit both clubs. Sincerely regret moving Blackiston but conditions warrant it."

Frank Stephens, pitcher on the Robins' roster, received a message from his home in Birmingham, Alabama, yesterday morning, notifying him of the death of his father. I am sure all you fans join me in offering to Frank our deepest sympathy in his great loss. Frank stated that he would not go home to attend his father's funeral.

Karl Fleming, sports editor of the Wilson Daily Times, under the heading "How They Might Finish" had this to say in yesterday's paper—"After taking a look at every ball club in the league at least one time this season, here's how I would pick the teams in the Coastal Plain League to finish at the end of the season: Rocky Mount, Roanoke Rapids, New Bern, Kinston, Tarboro, Goldsboro and Greenville."

In the opinion of the writer of this column, I think my friend Karl is going to be really surprised when the season does end.

Adding further to Fleming's story I quote from Bob Lewis' column in the Kinston Daily Free Press: "Rocky Mount and Roanoke Rapids appear to be set to make a walk-away of the Coastal Plain League race with the Leafs currently holding the lead with a hot .909 average. The Jays should give them a close race, though."

Villanova Sports Had Best Year

Villanova, Pa.—(AP)—The 1949-50 sports year was the best in Villanova athletic history. A combined total of 38 contests for the Wildcats football and basketball squads brought only five defeats. The Main Line gridmen lost only one game while winning eight during the past campaign and the Wildcats cagers were victorious in 25 of 29 contests.

TO BOLSTER LINEUP
Washington, May 3—(AP)—Secretary of State Acheson said today the "Big Three" meeting of foreign ministers in Europe next week will consider possible moves to bolster the Western power lineup.

Highway Commission Has Court Approval Of Action

Raleigh, May 4—(AP)—The Highway Commission today had the State Supreme Court's approval of its handling of the \$200,000,000 secondary road program.

The court yesterday affirmed a lower court ruling that the commission had authority to spend bond money for road-building machinery and for stabilizing dirt roads.

The ruling came in a case brought by Nello L. Teer, Durham contractor. He had asked for a restraining order to force the commission to limit bond-money expenditures to road-building.

He argued that the commission acted illegally in setting aside \$5,000,000 of the first \$50,000,000 of bonds proceeds to buy machinery and in spending bond money to stabilize roads by spreading crushed stone and gravel. He also maintained that the bond law required that the roads be built by private companies on contract.

After a hearing in Wake Superior Court, Judge Clawson L. Williams last Oct. 23 dismissed Teer's action. Teer took an appeal to the Supreme Court.

The commission contended that it followed the terms of the bond law in its actions.

The Supreme Court's opinion, written by Associate Justice W. A.

Devin, said:

"There is no requirement that the work contemplated must be let to contract. If deemed wise, in the interest of expedition of economy, the commission lawfully may proceed to the construction or improvement of secondary roads by use of its own materials, equipment and engineering supervision."

Textile Union To Vote Today For Vice President

Boston, May 4—(AP)—The big CIO Textile Workers Union, split into bitter factions over rival candidates for a top executive position, attempts to resolve the wrangle today with ballots.

At stake is the \$13,500 post of executive vice president. One of the candidates is Marinao S. Bishop of Fall River.

The other is the incumbent, George Baldanzi of Paterson, N. J., who is opposed by President Emil Rieve and other top officers of the 400,000-member union.

Rieve, who was renominated without opposition yesterday to his \$16,000-a-year job for another two years, told nearly 2,000 noisily demonstrating delegates to the sixth biennial convention:

"One wheel of our team has fallen away and I want to replace that dead wheel with someone else so that we can go on and work together again. It's as simple as that. All I can tell you is that our organization cannot continue with Baldanzi as executive vice president. It is just that human beings sometimes reach the conclusion that they cannot work together."

Both have held their posts since formation of the union in 1939.

Rieve's spearhead against Baldanzi in the two hours allotted the Bishop forces was followed by an attack from H. D. Lisk, state director in Georgia.

Lisk charged that Baldanzi had told him to stop "criticizing the Ku Klux Klan" and added:

"It disqualifies Baldanzi as executive vice president when he tells me not to criticize the Ku Klux Klan in that part of the Southland where the Ku Klux Klan burns crosses and beats organizers."

During the two hours allotted to the Baldanzi forces, Baldanzi replied:

"There's no foundation of fact in that charge. Everyone knows how our union stands on that question and everyone knows exactly the problem that we have in the southern part of the country."

Big Politicos In Nashville May 20

Washington, May 4—(AP)—Nashville, N.C. will see more politicians on May 22 than it's seen in a long time.

About 150 members of Congress and Secretary of Agriculture Brannan will go to that Nash County seat then for the world premier of a documentary film on American agriculture.

Rep. Cooley (D-NC) said a special train will take government officials and about 160 members of the press to his hometown for the first showing of the technicolor film "Waves of Green."

Redden Named To National Group

Washington, May 4—(AP)—Rep. Redden (D-NC) has been selected to succeed Rep. Bulwinkle (D-NC) as a member of the Democratic national congressional committee.

He was chosen yesterday at a meeting of the North Carolina delegation. The delegation expressed its regret that Bulwinkle will not run for re-election.

The committee is made up of a member from each state with Democratic representation in the House and is the official campaign committee for election of House members.

Wartime Atom Espionage Put Under Investigation

San Francisco, May 4—(AP)—The question of whether Communists engaged in atomic espionage at the University of California during the war is under scrutiny of the U. S. Department of Justice.

A federal grand jury, convened on the order of the Attorney General, heard from eight witnesses yesterday in a brief and secret session.

U. S. Attorney Frank J. Hennessy said the investigation involves "a single person." He would not comment otherwise, except to add:

"We are acting on direct instruction from Washington in connection with an eastern investigation." One of the witnesses said he had been asked "at least 20 questions" about personnel at the University which is at Berkeley, across San Francisco Bay. He said he was asked if he knew Dr. Joseph Woodrow Einberg, former lecturing physicist at the University.

Chicken Stretcher! Serve Chicken Riceland Rice Dinner! With Riceland Rice, One Chicken Serves Eight

Chicken and Riceland Rice have always been served together for so many years that it's hard to think of one without the other. There are many ways you'll find these two together and here's a recipe that will enable you to serve a complete chicken dinner to eight people—using just one chicken!

The secret is the perfect combination of chicken and Riceland Rice. As you know, Riceland Rice is the world's most versatile food-stretcher. Combined with chicken, meat, fish or sea foods, inexpensive Riceland Rice stretches these more expensive foods into very economical servings.

And here's good advice: Be sure to use genuine Riceland Rice—because "Riceland" is the brand name of the world's most delicious rice, grown in the quality rice belt of America. So be sure the rice you buy is labeled "Riceland" and you'll be sure of perfect results with all rice recipes, including this delicious Chicken Riceland Rice Dinner:

Chicken Riceland Rice Dinner

- 1 cup uncooked Riceland Rice
- 1 five-pound chicken
- 2 carrots or 1 can mushrooms
- 2 cups stock or tomatoes
- 1/2 teaspoon white pepper
- 1 teaspoon salt
- 1 onion, chopped
- Fat for browning

Cut up chicken in pieces suitable for serving. Brown in a small amount of fat. Add boiling water to partially cover. Add uncooked Riceland Rice, salt, pepper, chopped carrots or mushrooms and stock or tomatoes. Simmer on top of the stove or in a slow oven (350 degrees) until the chicken is almost, but-not-quite, fallin' off the bones. The time depends on the tenderness of the chicken, but do allow about an hour and

a half. Everyone likes chicken lusciously tender. Serve bountifully of the Riceland Rice, a piece of the chicken and perhaps a green vegetable such as buttered asparagus by the side.

With the help of the Riceland Rice, one chicken will serve eight people.

Remember, the success of this recipe—and all rice recipes—depends on the quality of the rice, so always use genuine Riceland Rice. The brand name "Riceland" is used to identify perfect-cooking rice, so be sure the "Riceland" name is on every package of rice you buy.

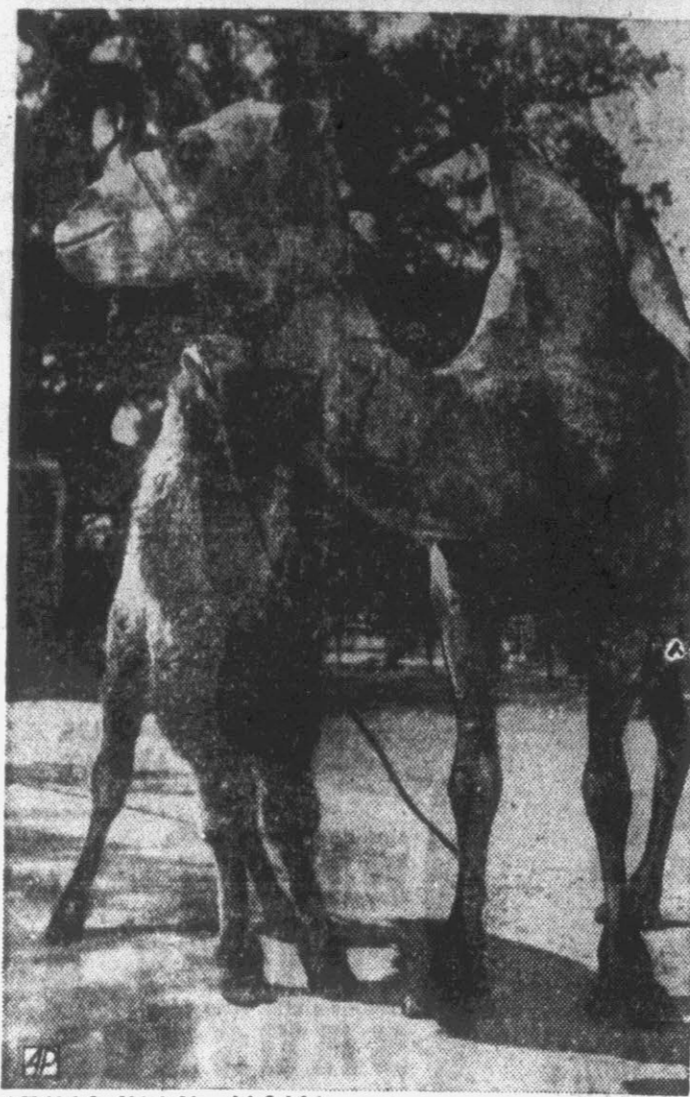

Almost all grocers now feature genuine Riceland Rice and if your grocer doesn't have this perfect-cooking rice, he can easily get it for you.

Riceland Rice Is Easy To Cook! Tender! Fluffy!

To get the best results with this recipe and all rice recipes, be sure to use Riceland Rice. It's the world's most delicious rice—grown in the heart of the quality rice belt of America. Only the choice, perfect-cooking rice grains are packed in Riceland packages.

This quality rice is quick and easy to cook. Riceland Rice cooks deliciously tender with white, fluffy, individual grains.

Most grocers now feature this better-cooking, wonderfully-delicious, packaged rice—and at economical prices, too! Riceland Rice costs only one-cent a serving.

'THIS WAY, MOM'—Ruby, seven-year-old camel at World Jungle Compound, Thousand Oaks, Cal., is led around the camel area by her 3 1/2-week-old son tugging on a lead rope.

Dr. Weinberg, now a professor at the University of Minnesota, was accused by the house un-American committee last September of having disclosed atomic secrets to a Communist agent. At that time, he was designated merely as "scientist X." Later, the committee identified him. Dr. Weinberg flatly denied the charges.

Among the eight called before the grand jury was Dr. Irving David Fox, young physicist assistant who was dismissed from the University several months ago. Fox and Weinberg formerly worked together in the radiation laboratory.

Marguerite Austin To Serve As President Of Sigma Pi Alpha

Marguerite Austin of Rock Hill, S. C. faculty member of the department of foreign language at East Carolina Teachers College, will serve during the school year of 1950-51 as president of the national foreign languages fraternity Sig Pi Alpha. The organization has about twenty chapters, located in universities and colleges in the Southern states. The last national congress was held in April of this year at Mitchell College, Statesville, N. C.

Miss Austin is faculty advisor of the East Carolina chapter of Sigma Pi Alpha, which has approximately 25 members. In addition, she has served this year as program director of the campus radio station.

TRAINS FOR TOUR—Jascha Heifetz, famous violinist, takes to the tennis court while vacationing in Hollywood before departing for a series of concerts in Israel.

The U. S. Bureau of Land Management administers 125,000,000 acres of forested public land in Alaska.

Louisville, Ky., was named for Louis XVI of France.

Plan Individual Cooling System For Apartments

Floral Park, N. Y.—(AP)—Garden apartments being built on the former estate of the late John Lewis Childs, horticulturist, are being equipped with individual air-cooling units for each room.

The devices, based on air-conditioning mechanism usually placed on window sills, are being built into the walls. They were developed by General Motors to specifications of Robert Metrick, the builder.

With 248 families to be accommodated in 32 two-story buildings

at rents ranging from \$58.50 to \$106 per month, Metrick claims this is the first time individual air-cooling has been adapted to apartments in that rental range.

Dr. John O. Reynolds Will Be Delegate To Kiwanis Convention

Dr. John O. Reynolds, faculty member of the department of mathematics at East Carolina Teachers College, will serve as a delegate from the Greenville Kiwanis Club at the International convention in Miami Florida, May 7-11. During the present school year Dr. Reynolds aided with the organization on the campus of a Circle K Club, junior

branch of the Kiwanis organization and has served as advisor to the East Carolina group.

Others from Greenville who will attend the Miami meeting will be D. F. "Tige" Gardner, president of the city Kiwanis club, and Mrs. Gardner.

INVITED TO RIDE—Senator Glen Taylor of Idaho, who bolted the Democrats in 1948 to run for vice president on the Henry Wallace ticket, has been invited to ride President Truman's special train through Idaho.

The National baseball league was organized in 1876.

IRO Survey Reveals Majority DP's Are Making Good American Citizens

New York, May 4—(AP)—"Most DP's are making good Americans," says Ruth Safran, who has just completed a survey of 5,000 displaced persons now settled in 22 states.

Miss Safran is public relations officer of the United States Office of the International Refugee Organization—an arm of the United Nations. IRO was founded to help those stranded by war outside their homelands to start life anew either in their own countries or in another.

More than 145,000 DP's have settled in the United States in the last 18 months under the displaced persons act. Each was obliged to have a sponsor who certified that he had suitable housing and employment and that the DP would not become a public charge. Many sponsorships were arranged through national church organizations and voluntary

agencies. Miss Safran covered 22,000 miles by station wagon in about 60 days to find out how the DP's are doing.

"The five thousand I surveyed are becoming Americanized as fast as possible," she reported. "Eighty per cent of the adults over 21 have applied for their citizenship papers. The rest are waiting for papers required to start proceedings. Virtually all the children were enrolled in school as soon as possible. Some already are speaking English and forgetting their native tongues.

Virtually all the adults were studying English, either in night school or at home on the farm. Many are going to trade schools and virtually all had made some church contact. "Seventy-five per cent of those I surveyed were adults and 65 per cent of them were wage earners. Considering what they had been through they have retained an astonishing amount of bounce. They make the most out of everything—fix up their house well and take pride in them. Most of them take to American food and clothes. They take pride in paying their income tax—those few who have come to that point.

In response to questions Miss Safran then turned to the other side of the picture.

"Not all were so successful," she said.

"Some DP's got sick. Some were unsuited to the work which they undertook to perform. Some had no intention of remaining on the jobs in which they were placed, and only sought to be near their relatives

in another part of the country."

The states Miss Safran covered in her tour were Virginia, North Carolina, South Carolina, Florida, Georgia, Alabama, Texas, New Mexico, Arizona, California, Oregon, Washington, Mississippi, Louisiana, Idaho, Utah, Wyoming, Nebraska, Kansas, Missouri, Ohio and Pennsylvania.

The DP's she surveyed worked as farm laborers, lumber workers, tailors, shoe makers, fruit pickers, teachers, domestics, singers and scientists. A former minister of justice is picking fruit in California. Two doctors are working in mental hospitals which had been understaffed.

"Some have done work that has definitely enriched this country," says Miss Safran. Dr. Viatcheslav Savitsky, geneticist from Russia and his wife, Helen, working in Salt Lake City, Utah, developed a single germ seed for sugar beets which resulted in greater yield and easier harvesting.

"Ardo Tarem, from Estonia, who now teaches physical education at Willamett University in Salem, Ore., organized swimming and exercise classes for polio victims and some in the classes have been able to discard their braces and crutches for a cane."

Active volcanoes once existed in nine sections of New Mexico. U. S. Highways 66 and 380 both cross large lava flows in this state.

Bacteria in the soil make food more available to plants and assist the roots to absorb them.

First Shipment

Rotterdam, May 4—(AP)—Holland received its first shipment of Atlantic pact arms today despite demonstrations by Leftists.

Most of the objectors were women. A number of them were arrested and one demonstrator received a saber cut.

The arms, arriving aboard the U. S. freighters Empire state and Almee Lykes were unloaded behind a heavy police cordon. Police said work in the entire dock area was proceeding normally.

The women demonstrators distributed "peace partisans" pamphlets protesting against shipment of U. S. Arms to Europe.

Four Never Came Out Of Manhole

Tokyo, May 4—(AP)—Minoru Tanaka, 13, slipped down a manhole to recover a ball. He didn't come out.

Tanaka's father went down. He stayed.

So did a neighbor.

Finally a fireman with gas mask climbed down—but not back.

All four died of methane gas suffocation.

Black Prince's Armor Is Cleaned

London—(AP)—The Black Prince's black armor has been taken to the cleaners. The helmet, shield and coat-of-arms, gauntlets and sword scabbard of Prince Edward, warrior son of King Edward II, had hung over his tomb in Canterbury Cathedral since his funeral in 1376.

The whole layout was removed to the Tower of London armories for cleaning.

Next Time, He'll Use Extra Phone

San Francisco, May 4—(AP)—The next time his wife is expecting, police clerk John Gerald Kenney will install an upstairs phone—just in case.

The 29-year-old officer, roused from his sleep yesterday, rushed down stairs to telephone Dr. William D. Clark.

"The baby's coming right now, Doc. What do I do?"

The doctor gave step by step instructions. Kenney rushed upstairs to carry out each step, then down again for more instructions.

After several trips up and down, he finally panted into the phone, "It's a girl."

Fewer Matches Are Used By Frenchmen

Paris—(AP)—The French state-controlled tobacco administration, which also exercises a monopoly in the sales of matches, reckons every Frenchman uses an average of 1-350 matches per year. This is said to be lower than in most other European countries, where the annual consumption averages between 1,800 and 2,000 per person.

QUEEN WEIGHS IN
—Betty Hixson, queen of second annual Miami Beach summer fishing tournament, who weighs 115, has a little difficulty with her 42-pound sailfish.

"I go for a man who wears an **ADAM PANAMA!**"

PUDDING FOR KATIE—Katie, orang outang in the Central Park Zoo, New York, imitates her keeper, Luke McCabe, as she eats her daily ration, a mixture of rice pudding and fruits.

Says Communist Cells Infiltrated By Informants

Wellesley, Mass., May 4—(AP)—Former trust-buster Thurman Arnold says the FBI and members of the un-American Activities committee infiltrate Communist cells.

Speaking before a Wellesley college audience last night, Arnold said:

"These days every Communist cell is comprised of 50 per cent Communists, 25 per cent members of the FBI and 25 per cent members of the un-American Activities committee."

Without elaborating, Arnold said "the professional informant has become the moulder of our foreign policy."

The ex-chief of the justice department's anti-trust division is now a member of the law firm defending Owen Lattimore against Communist charges.

Auctioning Off Jail 'Sentence'

St. Albans, Vt., May 4—(AP)—Got any friends—or enemies—you'd like to see in jail?

St. Albans Rotarians, seeking to raise \$3,000 to buy an operating table for a new hospital, will auction

MANY NEVER SUSPECT CAUSE OF BACKACHES

As we get older, stress and strain, over-exercising, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait. Try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

"an overnight visit in county jail" on May 13. The successful bidder may designate who shall sleep in a cell. Among its other duties, the U. S. Coast Guard provides vital weather information to ships and airplanes.
