Long-Married Couples Reaffirm Wedding Vows

Here are some of the 116 couples, all married more than 50 years, who re-affirmed their wedding vows in the second annual Golden Wedding Jubilee at Rogers, Ark. They took the vows again from the Rev. J. H. Martin of Muskogee, Okla., who recently celebrated his own 50th wedding anniversary. At a reception for the elderly couples, they witnessed the wedding of a young couple. (AP Wirephoto).

MacArthur Said To Favor Arming Formosa Bastion

Outlines U. S. Position In Red-Menaced Asia To Johnson, Bradley

Tokyo, June 19—(AP)—General MacArthur today outlined America's defense position in Red menaced Asia for defense secretary Johnson and General Bradley. He reportedly called it "serious but not hopeless."

The commander of United States forces in the Far East, it was understood, urged prompt American material assistance to Formosa, last island bastion of the Chinese Nationalists, and for Southeast Asia.

Military aspects of a Japanese peace treaty also were believed under discussion in the momentous three-hour conference with the Secretary and the chairman of the U. S. joint chiefs of staff. This would involve the vital matter of American bases in Japan.

The talks here are expected to lay the foundation for decisions in Washington on far eastern policy. One informed Japanese source said the Johnson-Bradley visit is being watched with "the greatest anticipation ever placed on any mission from the United States."

Efforts are being increased to reach agreement among Japanese political leaders on the question of future American bases.

Prime Minister Shigeru Yoshida hopes to get all parties—Communists excepted—to support a peace treaty with the western powers and continued American use of bases here.

To this end former Prime Minister Kijuro Shidehara is conferring with various party chiefs. All opposition parties came out in the June 6 elections for strict "neutrality" and no foreign military installations in Japan.

Both MacArthur's headquarters and Johnson himself have made it plain that the defense secretary is only secondarily interested in the political aspects of a treaty.

Col. M. F. Echols, headquarters public information officer, said today Johnson's primary concern is the far eastern command side of MacArthur's dual job.

That means the actual military position of American forces throughout the orient. Matters concerning the Japanese occupation are secondary, Echols said.

Files Civil Suit Against Farmville Chief Of Police

A civil suit amounting to a total of \$1,400 has been brought against Farmville chief of police L. T. Lucas by B. O. Taylor, Farmville resident, whose dog the chief shot April 30.

Taylor is asking \$400 damage for the loss of the dog and \$1,000 "special and punitive" damages.

The dog, an English setter named Buddy Rex, was shot by Lucas about 10 blocks from Taylor's home. Lucas formerly stated he thought the dog was mad. Taylor had three warrants sworn out against the chief but Lucas was found not guilty on all three charges in Pitt county court before Judge Pink James during the month of May.

Taylor stated in his action, which was filed with the clerk of Superior Court Saturday, that the dog had been vaccinated last year and wore a rabies inoculation tag on his collar.

An extraordinary measure before the Parliament of Western Germany; Aimed At Ending Glorification Of War In Children's Minds; The Prussian Tradition

By DEWITT MACKENZIE

Reduced Unemployment Claims Reported In May

Claims Filed In Pitt Office Drop Approximately 300 Below April's Figures; Nearly 17,000 Claims Paid In 5 Months

Unemployment claims filed with the Pitt county office of the state employment security commission dropped approximately 300 during the month of May compared with the month of April.

During May also almost 200 less people filed new unemployment benefit claims than during the previous month, and Manager William B. Dillingham of the local office said indications are "there will be a marked decline in claims for June and a noticeable rise in job placements."

Figures for the first five months of 1950 released today by Dillingham showed 16,967 unemployment claims have been paid out by the Pitt county office of the state commission during the period. During the same five-month period there have been 1,483 new unemployment benefit claims made to the local office by individuals, and the office has secured jobs for 348 people.

Dillingham pointed out that the number of claims paid by the office does not represent the number of people receiving the unemployment benefits, as the benefits are paid on a weekly basis, and people receive benefits for more than one week.

The number of claims for 1950 are a little higher than they were a year ago the manager of the local employment office said, and he added that job placements are lower than during 1949. He attributed the lower number of job placements to the fact that people are not changing jobs as much now as there during the year.

"There is not too much turnover in business," Dillingham stated. "People are learning jobs are not too easy to get, and they are sticking with the jobs they have."

There were 3,778 continued unemployment benefit claims made to the local office in April in addition to the 356 new unemployment claims.

Educators Back 'Point 4' Help

New York, June 19—(AP)—A group of the nation's top educators, including Gen. Dwight D. Eisenhower as president of Columbia University, declared today President Truman's "point four" program is indispensable in the world struggle against Communism.

But at the same time they said that applying the program of aid to underprivileged peoples will be a delicate business, and they put forward suggestions for avoiding failure.

The weather today, as compared with the reports of last year, seems to be running in the same cycle with a slightly higher temperature today. Last year the temperature reached 94.

For a period of ten days now Greenville has not had any rain. A total of 1.89 inches of rain has fallen since the first of the month Mrs. Maiden reported, but the last rain in Greenville came on June 10.

The weather lady offered an extended prediction, saying that the hot weather will continue for at least two more days.

Millionaire Pleads Guilty To Charge Of Bookmaking

New York, June 19—(AP)—Millionaire gambler Frank Erickson pleaded guilty today to charges of conspiracy and bookmaking.

Erickson, admitted operator of a nationwide bookmaking business, made the plea when he was brought into special sessions court for the opening of his trial.

The plea of guilty to all 60 counts against him was entered by his attorney, Sol Gelb, who told Justice Nathan D. Perlman:

Spark Sets Off Mighty Explosion

Three Grifton Men Narrowly Escape Injury Or Death

Grifton, June 19—Three Grifton men narrowly escaped serious injury and possible death Saturday afternoon when a spark from an electric welder torch set off an explosion in a gasoline tank being repaired at a local garage.

The force of the blast blew out the rear of the truck, and knocked a large opening in the garage. Damage to the tanker and garage was estimated to be around \$2,000.

At the time the blast occurred, Ben G. Tucker was operating the welding torch and David Feymour and Ivey Wall were standing nearby. Feymour suffered a minor cut behind the ear when he stumbled at the time of the blast.

Tucker stated today that he was of the opinion that the explosion occurred when a spark from the torch set off the gas fumes in the tanker. He said that the top hatch to the truck had been left off accidentally and was the possible cause of the fumes leaking out.

Tucker said that the blast could be heard for more than a mile around, but the only damage other than to the garage was to a nearby house in which a window glass was broken by a piece of flying cement.

Damage to the garage which is 70 by 100 feet was to the wall and windows. All of the windows were knocked out by the force of the blast, the skylights and the roof was raised about a half inch by the force of the blast, the owner said. The building is built of cement.

The building is lucky in the fact that all the doors were open in the building and the force of the blast was not hemmed in, Tucker stated.

Mercury Climbs To High Readings

The sun blazed down on Pitt county over the weekend and sent the mercury soaring to a high reading of 97 on Saturday.

The temperature reported in Greenville as of one o'clock today was 95 degrees with the mercury still climbing. Mrs. Carl Maiden, official weather observer for the Greenville area reported that indications are that the high reading for the day will be better than 98.

Last year the mercury climbed to a record 101 degrees on July 26, followed by a reading of 100 on July 27. They were the only two days which the thermometer reached that high.

The weather today, as compared with the reports of last year, seems to be running in the same cycle with a slightly higher temperature today. Last year the temperature reached 94.

For a period of ten days now Greenville has not had any rain. A total of 1.89 inches of rain has fallen since the first of the month Mrs. Maiden reported, but the last rain in Greenville came on June 10.

The weather lady offered an extended prediction, saying that the hot weather will continue for at least two more days.

Back-To-Work At Aleo Plant

Loomfixers who walked out June 8, returned to their jobs at 6 a. m.

Seek Veto-Proof Excise Tax Slash

House Committee Throws Out Tax Cut For Economy Brands Of Cigarettes; Plan Vote On Corporation Tax Increase

Washington, June 19—(AP)—The House Ways and Means Committee threw out of its new tax bill today a proposal—once approved—to cut the federal tax on "economy brands" of cigarettes.

The action cleared the way for a vote next on whether to boost corporation taxes about \$500,000,000 a year.

Some members contended a rise in corporation taxes would put a "veto proof" tag on their bill cutting wartime excise taxes by \$1,100,000,000.

These excises are the taxes on jewelry, luggage, movies, telephone bills and scores of other things.

The committee voted 13 to 12 against cutting the tax on the "economy" cigarettes. The federal tax is now seven cents a pack of 20 on all cigarettes, regardless of their selling price.

During hearings, the makers of "economy" brands—such as Wines, Marvel and Avalon—argued their smokes should have a lower tax than cigarettes selling at a higher price.

The committee then decided tentatively to set the tax at 4.9 cents a pack on cigarettes retailing for 12 cents a pack or less, exclusive of state and local taxes.

Today's vote wiped out that tentative decision.

Chairman Doughton, Democrat from tobacco-growing North Carolina, had argued the proposed cut would result in lower prices to farmers. The Treasury had figured it would cost the government about \$90,000,000 a year in revenue.

Democratic congressional leader reported after their regular Monday morning conference with President Truman that tax legislation had been discussed.

Speaker Rayburn (D-Tex.) told reporters that Mr. Truman was "very anxious to have a tax bill passed," but declined to speculate on whether the President would approve the bill now being shopped by the Ways and Means Committee.

Mr. Truman's position has been that he thinks the wartime excise taxes should be cut, but that there should be increases elsewhere to offset the cuts.

Rayburn said he anticipated the House would begin debate next week—probably on Tuesday—on the Ways and Means Committee's bill.

Roughly 400 Attend PTA Sessions Here

Opening General Session Of Summer Institute To Be Held This Evening; All Sections Of State Represented

Approximately 400 delegates from all sections of North Carolina are attending the 23rd Annual Summer Institute of the North Carolina Congress of Parents and Teachers on the East Carolina College campus, June 19-22.

The opening general session will be held this evening at 7:30 o'clock in the Austin auditorium. Russell M. Grumman of Chapel Hill, state PTA president, will be presiding officer; and President John D. Messick of East Carolina will make the principal address. Dean Leo W. Jenkins of East Carolina, chairman of school education for the State Congress, is director of the institute.

Slay Hall, new dormitory to be used for men students at the college, was opened Sunday for the first time; and approximately 200 delegates staying on the campus are being entertained there. The college cafeteria is open to those present for the institute.

Preliminary to the general session this evening, meetings of the Executive Committee of the North Carolina Congress of Parents and Teachers met Sunday evening at the home of Dr. and Mrs. Messick on East Fifth street. Today the board of managers of the organization is holding morning and afternoon sessions in the Flanagan building.

Winston-Salem will be the scene of the 1951 Annual Summer Institute, according to a decision reached Sunday evening at a meeting of the Executive committee. The dates have been set as April 17-19. Mrs. H. C. Hawn, president of the Winston-Salem Council of the PTA, will be hostess chairman for the 1951 Institute.

Present for the meeting Sunday evening were the following members: President Grumman; Mrs. John Crawford, Raleigh, first vice president; Mrs. T. R. Easterling, Rocky Mount, second vice president; Mrs. H. B. Thelging, Charlotte, secretary; Mrs. J. W. Burke, Gibsonville, treasurer and executive secretary, as members-at-large; Mrs. Melvin Taylor, Bryson City; Miss Annie Laurie Lawrence, Winston-Salem; Mrs. Ernest B. Hunter, Charlotte; and Mrs. R. H. Moody, Durham; and Mrs. Dixie Scarfield, Charlotte, bulletin editor.

This morning session this afternoon were devoted to discussion by the Board of Managers, composed of state officers and chairmen of committees. New board members with the committees which they head.

Arrested!

Dr. Sidney Weinbaum (top), a scientist at the California Institute of Technology, was arrested by the FBI at Pasadena Friday and charged with swearing falsely that he had never been a Communist. He was formerly with the institute's jet-propulsion laboratory. Almost simultaneously, former U. S. non-commissioned officer in the army, was arrested in New York on charges that he passed U. S. secrets to the Klaus Fuchs spy ring for Russia. The FBI accuses him of fletching atomic secrets for the Russians while he was stationed at Albuquerque, N. M. (AP Wirephoto).

Prison Director Is Given Report

Copy Of SBI Document Given J. B. Moore For Review

Raleigh, N. C., June 19—(AP)—Prison director J. B. Moore today was given a copy of an SBI report on its investigation of charges against him.

Dr. Henry W. Jordan, State Highway commission chairman, said he assured Moore wanted to cover the lengthy document item by item and say "this is not true and I can prove it."

"I naturally hope very much Mr. Moore can prove it is a series of circumstances," Dr. Jordan added.

The report was presented to Governor Scott and Jordan by SBI director Walter Anderson Saturday. At that time Moore asked that no action be taken on the report until he was given opportunity to study it and confer with Anderson.

No date for this conference has been set, Anderson reported.

Moore is accused of using State owned materials and prison labor other than a trusty in constructing a garage apartment on his property.

He has denied using state material in the work. If any prisoners other than a trusty regularly assigned to his home did any work on the structure, it was "purely voluntary and of short duration. He said.

Moore asked to see a copy of the report after it was presented to Gov. Scott Saturday morning.

Asks Employers To Grant Leave

Time Off For Nat'l Guard Encampment Sought For Men

Captain James B. Tyndall, commander of the Greenville National Guard unit, today appealed to all employers to release their men who are members of the Greenville Guard in order that they may go to the annual summer encampment, July 2-16.

Captain Tyndall quoted from a story in the National Guardsman, publication of the Guard, which urged all employers in the nation to release their men for the encampment period.

An excerpt stated that the "Guard does not expect you to deplete your establishment of male employees every time field training season rolls around. It does ask to encourage a reasonable proportion of your workers—and this may vary among different businesses, or among various departments of a large concern—to join the National Guard and to attend Summer camp without losing normal vacations or ending up financially out-of-pocket."

Crushing Defeat For Communists In German Vote

Socialization Of Ruhr's Basic Industries Voted By German State

Duesseldorf, Germany, June 19—(AP)—The miners and steel workers of the Ruhr Valley rejected Russia's policies in Germany and gave Communism a crushing defeat at the polls yesterday.

But while they rejected Communism, the same workers voted for a state constitution calling for socialization of the Ruhr's basic industries.

The Ruhr workers elected a legislature for their home state of North-Westphalia, in the British occupation zone. It is the most populous state of West Germany, with 9,000,000 registered voters.

The smoky Ruhr powerhouse zone was West Germany's Communist stronghold. Three years ago, the Communists got 14 per cent of the vote. They were the third largest party in the state.

Yesterday, they got 5.5 per cent, and went into fifth place. Max Reimann, their leader, trailed badly in Dortmund.

Thousands of workers who had voted Communist before turned their backs on Russia and blasted Communist hopes of winning the Ruhr away from the West.

They apparently spoke for all of West Germany's 46,000,000 people who condemn Russian policies in East Germany.

At the same time, the north Rhine-Westphalian voters also showed they have no love for resurgent German nationalism. The noisy militant candidates—some of them with Hitler-like ideas—got only 1.8 per cent of the ballots. Extremism, both of left and right, was rejected.

The voters turned instead to their traditional parties—the Conservative Christian Democrats and the Socialists (Social Democratic Party).

By a quirk of local politics the conservative voters were responsible for approval of a constitution calling for socialization. They apparently voted for the constitution because it contained a provision calling for denominational schools administered by the churches.

Many Socialists, however, opposed the constitution because of the school issue.

Early Start On Putting Tobacco Crop Into Barns

First reports of Pitt's 1950 tobacco crop being put into the barns for curing came in this morning.

Mark Smith, farmer of Bell Arthur, reported he is filling one barn today and will fill one or two more later this week. He said this is the earliest he has ever begun curing of any previous year.

Smith set his plants out during the last few days in April and the first days in May after rainfall had ended a three-week drought which threatened the county's entire crop. All his plants have been topped, he said. He is beginning the slow curing process ten days earlier than last year.

Beaches Report Heavier Crowds

Wilmington, N.C., June 19—(AP)—Beaches around the greater Wilmington area today reported that their weekend crowds exceeded any time so far this year.

Throughout this section—from Carolina and Wrightville Beaches, on through the smaller resorts—crowds were reported to be far in excess even of what Chambers of Commerce had anticipated.

Grand Jury Inquiry

Special Federal Grand Jury Investigations; The One Dealing with Subversive Activities In New York; Accomplishments; Basis For Grand Jury System

By JAMES MARLOW

Washington, June 19—(AP)—Three years ago a special federal grand jury was created in New York to investigate subversive activities.

It was set up in New York because, among other things, that was the headquarters of the Communist party. It worked 15 months. No special federal grand jury can exist longer than that.

Before it was through it indicted, or formally charged:

1. The top Communist leaders for teaching over-throw of the government. They were then tried and found guilty.

Alger Hiss, former State Department official, for perjury because he denied giving away secret State Department papers. He, too, was tried and found guilty.

At the end of its 15 months' life, a second special federal grand jury was put to work in New York on subversion. Its 15 months ended last week.

Before it was through:

1. It indicted Judith Coplon, former government worker, and Valentin Gubitchev, a Russian, for spying. They were tried and found guilty.

2. It indicted William Remington, government economist, for perjury because he said he never had been a Communist. He is awaiting trial.

3. It gave government officials a clean bill of health to their handling of the Amerasia case. That involved the theft of secret government papers but only two men were punished. They got off with fines.

As it ended its 15 months' job, this second special federal grand jury recommended that still a third one be created to continue the investigation including a further look at Amerasia.

But what is a special federal grand jury? What is it for? How does it get that way?

The constitution says everyone accused of a crime shall be tried by a jury and no person shall be held to answer for a capital, or other wise infamous crime unless . . . an indictment of a grand jury . . . shall be compiled in any criminal case to be a witness against himself. . . .

That's the basis for the government.

Christian Science Service  
"Is the Universe, Including Man, Evolved by Atomic Forces?" was the subject of the lesson sermon in all Christian Science churches and societies on Sunday, June 18.

Golden Text: John 1: 1, 3. "In the beginning was the word, and the word was with God, and the word was God. . . . All things were made by him; and without him was not anything made that was made."

Among the citations comprising the lesson sermon are the following from the Bible: "For in much wisdom is much grief; and he that increaseth knowledge increaseth sorrow." (Ecclesiastes 2:15).  
And from the Christian Science textbook by Mary Baker Eddy: "If materialistic knowledge is power, it is not wisdom. It is but a blind force. Man has sought out many inventions, but he has not yet found it true that knowledge can save him from the dire effects of knowledge." (Page 196).

## Dinner Honors Bridal Couple

In honor of Miss Ellen Barnhill and Reginald Gray, whose marriage will take place July second, a dinner party was given Sunday night at the Proctor hotel by Miss Catherine Whitehurst of Greenville.

The table was decorated with a center arrangement of summer flowers and place cards. The hostess gave the honoree a corsage and gift of silver in her pattern.

Guests were Miss Barnhill, Reginald Gray, Mrs. Bet. Tighman, Bruce Tripp, Mr. and Mrs. Edward Switzer, Mr. and Mrs. Guilford Lewis, Mr. and Mrs. Edward Moorling, Mr. and Mrs. Roscoe Barnhill, Mr. and Mrs. Hilton Carson, Miss Alice Graham, Don Harrison and Darrel Bullock.

## 40 Years Ago Today

THE DAILY REFLECTOR  
June 18, 1910

Greenville has no more charming young lady and delightful entertainer than Miss Lillian Carr, and her host of friends on several occasions enjoyed her hospitality, hence when tiny invitations requested their presence from 10:30 to 1:30 on Saturday at a porch party, at the home of Mrs. J. L. Wooten, given by Miss Carr in honor of Miss Sallie Pierce, of Warsaw, it is no wonder that all who received them were eager to respond with their presence. The guests upon arrival were greeted by the hostess and her mother, Mrs. H. L. Carr and Mrs. Wooten, and then repaired to the parlor, where punch was served by Misses Mildred Carr and Pattie Wooten. The guests then assembled around seven tables on the porch and played progressive "Old Maid." Miss Ward Moore made the highest score and was awarded the prize, a cut glass perfume bottle, which she presented to Miss Pierce, the guest of honor. Miss Mattie Moye King made the lowest score and received the "booby" prize, a pack of old maida. After the game tea, cream and wafers were served. During the entertainment Mrs. T. E. Hooker sang several solos and Miss Lillian Burch gave a number of instrumental selections.

## SOCIAL CALENDAR

### MONDAY

6:30 p. m.—Rotary Club.  
7:00 p. m.—Lion's Club.

### FRIDAY

6:30 p. m.—Kiwanis Club.  
6:30 p. m.—Exchange Club.

try. Says the Council: "Whether your neighbor lives next door and you like her, or down in shantytown and you do not know her, or across the world in a primitive wilderness beset by superstitious fears, loving her means that you wish good for her and actively do what you can to help the good come true." One of the main projects church women will undertake for neighbors "across the world" is to help provide "assurances" for refugee families.

Mrs. Josephine Cowin, national chairman for World Community Day, cites the work of the Council of Church Women in Greenville, Conn. They called together the social and welfare agencies of the community to initiate a program that found jobs and homes for a group of displaced persons ranging from a farm for a family of five to a home and portrait commissions for a Latvian artist and his wife. Also cited is the Council in Oberlin, Ohio, which started a community program that found a shop for a D. P. tailor and jobs and homes for even other refugees. In addition, Mrs. Cowin says, church women will be asked to help new neighbors, who come as D. P.'s, to become part of

## Gets the Bad News

Harry Bridges

WEST COAST CIO longshoremen's union leader Harry Bridges, on his arrival in Chicago, is stunned as he learns that his U.S. citizenship has been revoked by a Federal District Court in San Francisco. Bridges' attorney promptly filed notice of appeal and a motion for stay of execution. Arguments were set by court for June 21. (International)

the American communities in which they settle. Some concrete suggestions include help in learning English; invitations to churches and other community activities; and making sure that our children make theirs welcome at school and on the playground.

For World Community Day, church women are asked to knit one garment—a scarf, sweater, socks or mittens—for aged refugees overseas, and to put aside pennies for shipping the knitted gifts to the nearest Church World Service center. The day's offering is to be divided between aiding work of the churches among the millions of refugees in Europe and the Near and Far East, and helping meet the cost of the work for peace of the United Council's Christian Social Relations Department.

## Entertainments Set June 20, 21

Two entertainments presented by students and faculty members of East Carolina Teachers College will have as special guests delegates to the 23rd Annual Institute of the North Carolina Congress of Parents and Teachers, in session on the campus here June 19-22.

"Life, 1950," a talent show staged by students in a college class in Community Recreation, will be given Tuesday evening at 8:00 o'clock in the Austin auditorium. Under the direction of W. E. Dole, football coach and professor of health and physical education, and Mrs. Dole, the students will give a variety show. The plot traces the experiences of "two magazine reporters" who visit the East Carolina campus to photograph scenes of college life. A midgest show promises to be a lively and humorous part of the evening's entertainment.

Gilbert Carroll of Weldon and Virgil Clark of Greenville will appear in the cast as the reporters. Among others taking part will be

Joyce Hardy, Kinston; Beth Baker, Spring Hope; Myrtle Elmore, Dover; Marie Perry, Goldsboro; Audrey Jolly, Cove City; Becky Holcomb, Grifton; Sara Britt, Fairmont; Evelyn Mills, Bridgeton; Janice Perry, Louisburg; and Ann Beatty, Greenville.

Robert Carter, pianist and faculty member of the department of music, will appear in a joint recital at 8:00 o'clock Wednesday evening, June 21, in the Austin auditorium, with Marguerite Martinelli, young dramatic soprano of Washington, D.C. Mr. Carter will play a program of piano composition by Brahms. Miss Martinelli, a senior at American University, will sing a group of operatic arias and selections by modern composers.

Aluminum is believed to be the most abundant metal in the earth's crust, with iron second.

Fabric—Jantzen's NY-LASTIC . . . a sweet blend of smooth-bodied Acetate, power-molding Laton, and magic Nylon which dries while other fabrics are just thinking about it. 7 gorgeous colors. 32-40. 14.95.

5L-27 "ARABESQUE"—Here's maximum Jantzen magic and minimum coverage . . . achieved by sutting design to fabric and vice-versa. Luxury Satin Lastex takes beautifully to the side-shirring . . . which, in turn, does svelte things for your hips. Also, the trunk's front panel is reversed for an extra lean look across the middle. Notice the fully-lined "Bosom Friend Bra" . . . how tactfully it divides, uplifts, and molds, to give you the ultimate in beauty under control. White and 7 heavenly colors from Sea Foam to Lemon Tint. 32-38. 13.95.

5L-20 "HONEY BUN"—You shine in the sun and sparkle in the water in this brilliant Jantzen Satin Lastex job . . . a sleek blend of smooth Acetate & Cotton, plus Lastex which keeps you in a beautiful shape. Note the nice bust division—very young, very flattering. It's a foundation-type bra which really lifts. When you're sunning, wear it strapless . . . when you're swimming, enjoy the full shoulder-and-back freedom you get with the full elasticized strap. Cabana Green, Sea Foam, 7 other stunning colors. 32-40. 10.95.

2L-40 "EYEFUL"—Pretty and precisely proportioned, this trim little Jantzen short was shrewdly destined for good hard play. Sailing or tree-climbing, it keeps its crisp look, thanks to the tailored-in pleats, trim fly front, and streamlined belt arrangement. You'll like those big practical side pockets, and you'll love the way that Sanforized Cotton Gabardine wears and wears and asks for more. Black, White, and 5 vivid colors. 10-20. 4.95.

2L-35-01 "JEEPERS"—Pert, and that's for positive . . . these classic Jantzen clam-diggers with the knife-sharp tailoring, the big patch pockets, the dashin turn-up-or-down cuffs. The bra's lined for comfort and extra support (you can have matching shorts too) . . . and you'll like the action-freedom you get in the halter neck strap and self-tie back. The whole works comes in rugged Sanforized denim . . . your choice of Morocco, Sall Blue, Persian Green, Sun Yellow. 10-20. Bra, 1.95. Clamdiggers, 3.95.

### Two Men Arrested On Liquor Charges

Two Negro men of Greenville were arrested Saturday night on charges of possession of non-tax

paid whiskey for purpose of sale. The two men, Joe Smith, 508 W. 12th street and Fred D. Fleming, 408 W. 11th street, were arrested by Officers J. M. Ward, Duke Andrews, M. E. Corbett, and S. B. Dorsey, in a raid on a house around 10:45 Saturday night.

### See Appeal For H-Bomb Outlay

Washington, June 19—(AP)—Congressional sources said today President Truman will ask Congress for \$300,000,000 to speed up work on the hydrogen bomb.

A member of the House Appropriations Committee, asking not to be named, said the money would be used entirely for construction work at existing Atomic Energy Commission installations, mainly at Oak Ridge, Tenn., Los Alamos, N.M., and Hanford, Wash.

### Woman Arrested For Shoplifting

Greenville police arrested Alice Stocks, white woman age 31, of 1306 North Pitt Street, Greenville, Saturday afternoon in Rose's Dime store on three charges of shoplifting.

The woman is charged with stealing a small can of paint from the store Saturday afternoon.

In addition to the alleged shoplifting charge Saturday, the woman is facing two other warrants on like charges. She was accused of shoplifting from the Belk-Tyler store on February 9, and from Rose's Dime Store on last Monday.

### Girls Swept To Death By Stream

Eagle, Colo., June 19—(P)—Two teenage girls were swirled to their death in the rocky rapids of a mountain stream near here yesterday while the frantic mother of one screamed for help.

### Giant Plane Sets Distance Record With 144 Aboard

San Diego, Calif., June 19—(P)—The Giant Caroline Mars ended a 2,600-mile flight from Hawaii yesterday with 144 men aboard. Never before, the Navy said, had so many been carried so far non-stop in one aircraft.

A little later, a sister flying boat—the Hawaii Mars—settled down on San Diego Bay with 104 men. She had taken off two hours and five minutes before the Caroline Saturday, flown 2,400 miles to Alameda, Calif., added 5,000 pounds of cargo and then hopped on here.

In these two four-engine craft which spread their wings 200 feet the navy had ferried an entire company of Marine Reservists in full combat kit from the Islands for training exercises at nearby Camp Pendleton.

The lift made by the Caroline—which has more powerful engines than the other Mars flying boats—wasn't a world record for passengers. It was made by the Marshall Mars last year. She carried 308 men—but on the short 450 mile hop from Alameda to San Diego.

The Caroline's effort cleanly topped the Hawaii Mars' old Hawaii-California mark made in 1946 with 118 men aboard.

Lt. William Nelson of Augusta Kan., brought the Caroline over in 14 hours 18 minutes in a flight he described as routine.

"The takeoff was smooth. The ride was smooth. The landing was smooth."

The Marines aboard the Caroline weren't too happy for a while, however. Then were jammed into the plane's lower deck before the take-off. It was hot and stuffy.

After the craft was airborne, the upper "smoking" deck was opened.

Dewey as she levels cement with a trowel. Eli Whitney DeBevoise (left), president of The Lighthouse, looks on. New quarters will augment recreational facilities. (International)

### Three Of Family Held In Violent Death Of Farmer

Whiteville, N.C., June 18—(AP)—A 78-year-old farmer is dead and his wife, stepson and daughter-in-law are being held in jail here on charges of assault with a deadly weapon.

Deputy Sheriff L. R. Wayne said he is holding Mrs. Mary Hinson and Mr. and Mrs. James Cox—Mrs. Hinson's son by a former marriage and his wife.

D. Samuel Hinson of Clarendon died in Columbus County hospital here yesterday. He was beaten and

left lying in a cornfield near his farm Friday. Attending physicians at the hospital said the beating was not sufficient to cause death, according to Wayne.

Wayne said, "The three in jail are being questioned and an inquest will probably be held Monday night."

The United States has about two billion acres of land of which about half is in farms.

## Strength for the Day

By EARL L. DOUGLAS

**BONY LOTTER IN THE CORRIDORS**  
Most colleges and universities have notices engraved somewhere over an archway or a door. Frequently these notices are in Latin and Greek, and seem to go unread by most students. But there is one administration building in an eastern college displaying a Latin inscription over the main entrance which has the most effective motto in English: "Don't loiter in the corridors."

There are good reasons for not loitering in corridors. In the first place, as anyone who has ever worked in a busy building knows, groups of people standing around in the halls chatting often block the passage and get in the way. But what about the loiterers themselves? Presumably they too were on the way somewhere before they stopped, but they have never arrived at their destination. Whatever their goal was, it remains unachieved; and their work remains undone.

One reason for the unhappiness of a great many people is that they are loitering in the corridor of life. For a corridor is just a passage between other places, not a destination in itself. Many a man has set out to become a great and successful lawyer, physician, teacher, preacher, or banker, and never arrived because he stopped too often along the way for trivialities. The accomplishments of life are made in its rooms and offices, not in its corridors.

If you want to succeed, "Don't loiter in the corridors!"

## An Intelligent Fear Will Save Lives

Fear is a distasteful word to most Americans. To many it connotes cowardice. Yet there is a difference between intelligent fear and timidity.

Generally speaking, an "intelligent fear" is the recognition of danger, and it is possible to take whatever action is necessary to overcome or modify the odds against injury or death.

Our highways continue to take frightful tolls, and it is safe to say that none of the victims were afraid. An intelligent fear of taking undue chances would have saved many lives.

Take counsel with fear when you are tempted to a foolhardy deed. Get a little scared, and live longer.

## More Government By A Bureaucracy

Although no one has ever thought of counting them, (and we bet they'd give up before finishing the job) it's a safe bet that there are more rules, regulations and directives from various governmental agencies than there are laws on the federal, state, county and city levels.

In essence, this means that the agencies overshadow the duly elected governing bodies in performing the duties of government.

The heads of these agencies and bureaus are not elected, but appointed. Democracy exists in their fields only insofar as their directors are appointed by elected representatives of the people. Every year we read of more such bureaus and agencies being added to the structure of government. More and more lives are being affected by the arbitrary decisions of the bureaucrat.

## The Rackets Must Be Attacked At All Levels

President Truman's action opening income tax records of the underworld big shots to the senate investigating committee is a boon to the legislators in their investigation of nation-wide crime rings.

It should be a great help in determining how much big gamblers and other racketeers have earned through fleeing the American people. It may afford a lead to the ring leaders in the rackets which are being operated across the country. We sincerely hope, however, that the senate investigation, with this added help from the administration, proves to be more than a means to indict some of the racketeers for income tax evasion. We hope the results will in some way get to the grass roots to wipe out some of the rackets in the United States.

Senator Wiley of Wisconsin has urged the people not to expect the senate investigation of organized crime to be a cure-all. He is wise in his advice that individual

states, cities and communities organize their own intense efforts to wipe out the rackets.

Past events have shown that if the organized violation of the laws is to be eliminated, it must be done at the local levels as well as at the state and federal levels.

It is somewhat disillusioning to realize that in the past the only way in which many known criminals could be removed from the society in which they operated has been through conviction on charges of income tax evasion for money made illegally. Nevertheless they have remained unconvicted of charges of illegal acts through which they accumulated the money. Probably the most noted case of this kind was the conviction of Al Capone who, although was known as the nation's leading racketeer, could be jailed only on charges of non-payment of income taxes on money he had received through illegal means.

In North Carolina there have been a number of cases in which men have been convicted of income tax evasion on money made bootlegging whiskey. However, the authorities have been unable to convict the same men on criminal charges of bootlegging.

Many bootleggers, racketeers and other persons who fall into similar occupational categories have gone unprosecuted because they have been meticulous in reporting their earnings from such activities on their income tax statements. Many racketeers and bootleggers who have been jailed or fined never would have been molested by the law enforcement official had they been careful to pay their monetary obligations to the government.

The Reflector is in accord with the idea of bringing these criminals to justice on any possible charges, but we hope the people of the country will see the day in the not-too-distant future when the criminals can be brought into courts and prosecuted for their initial offenses, rather than having to depend on the income tax law to bring these people into the courts.

## National Whirligig

News Behind The News  
By RAY TUCKER

**WASHINGTON, June 15**—A sudden and serious threat to the Eisenhower-for-President movement lies in the fact that so many unwanted and involuntary boosters have climbed aboard his wagon with the cry that, despite his silence on major issues, he represents the so-called "liberal and progressive wing" of the Republican Party.

Oddly, and unfortunately for the professor-general, this class of rosters consist of many of the same groups which helped to force Wendell Willkie on the GOP in 1940.

Among them are "fair deal" columnists and political writers, certain eastern magazine publishers, politicians never known for their party regularity, and several ADA-ers, who tried to substitute Eisenhower for Harry S. Truman at Philadelphia in 1948.

**POSITION**—Many of them claim that they frequently confer with the former European commander and profess to know his plans. If they are speaking the truth, General Eisenhower, considers himself a Republican, and far less "liberal" than some of these reporters say he is.

It may also be deduced that he is not averse to a political career, if he does not have to place himself in the position of making an active campaign for the nomination.

He takes the position, according to his supposedly trustworthy intimates, that "the office should seek the man."

**CLAMOR**—It is only fair to report that this clamor for Eisenhower, in view of its source and its resemblance to the Willkie charge on the GOP ramparts, enrages veteran politicians of that party.

After reading a certain newspaper column which demanded such an impossible slate as the President of Columbia University and Senator (Mrs.) Smith of Maine, a well-known Republican exclaimed: "Are we going to let these fair dealers, liberals and half-baked Democrats tell us again whom we should nominate? Not if I have anything to do with it! They helped to put over Willkie in 1940, and then they turned around and supported Roosevelt!"

**WAILING**—The anti-Truman coalition of Republicans and Southern Democrats on Capitol Hill collapsed in the face of the explosive political issue of extension of rent control. The proposal would have been defeated if only five Dixie members had voted their convictions instead of their political friendships.

Two popular Administration Senators would suffer seriously in November, when they must run for reelection, if a federal lid on rents had not been retained. They are Majority Leader Scott W. Lucas of Illinois and Democratic Whip Francis J. Myers of Pennsylvania. Had rents soared skyhigh for lack of Congressional action, they might have lost thousands of votes in the tenement areas in their congested cities.

Democratic dismay on the House side was even more violent. At least sixty northern and middle western members from populous areas begged their Southern friends to support the measure, even if they did not agree with its purpose. There was great weeping and wailing in the cloakrooms and in the corridors.

**RETURN**—The Southerners surrendered out of kindness. Only five voted in the negative in the Senate, whereas eleven voted for it. The measure squeezed through by only twelve votes.

As a rule, the bloc from below the Mason and Dixon Line delivers from fifteen to twenty anti-Truman votes on such politico-economic issues.

But the northern faction will "pay off," and heavily, at the proper time. In return, they will see the FEPC does not come to a vote when and if grateful Majority Leader Lucas, on the insistence of the White House, revives debate on that question.

**ISSUE**—Canny Representative Albert J. Engel of Michigan is receiving congratulations from Capitol Hill colleagues for the issue he raised when he announced as a candidate in Michigan's hot Republican gubernatorial primary.

## Out Of The Wheelchair

## Around Capitol Square

Daily Reflector Bureau By LYNN NISBET Raleigh, N. C.

**ANONYMITY**—It was said of the late President Franklin Roosevelt that he wanted to surround himself with young men who had "a passion for anonymity." Anyone looking for that type of assistant could probably find plenty of aides among the campaign workers for Frank Graham and Willis Smith. Headquarters of both continue to deny any knowledge of the source of unsigned material being circulated, but the anonymous literature keeps coming.

**UNIDENTIFIED**—During the past week there have been numerous circulars and posters bearing no identification as to authors of source. Apparently the two groups are about equally guilty. Against Smith were being distributed posters purporting to show that wage scales in a cotton mill "owned by Willis Smith and his son" were far below average, and figures of rayon mill wages were cited to "prove" it. The Smith family owns about 50 percent of the stock in the mill, and the comparative figures were evidently designed to create false impression. Against Graham have been distributed reprints of Negro newspaper editorials asking for support of Graham. Obvious purpose of the reprint was to arouse whites to offset the Negro vote. Both camps claim the other is engaged in mudslinging.

**INDICENTMENTS**—There has been talk about indictments under a federal act governing dissemination of anonymous literature in a campaign for election of a member of Congress. Chances are extremely slight there will be any steps in that direction, because so many indictments would have to be brought against so many people active on both sides. Furthermore, proof of violation would be almost impossible to get.

**DIVERSITY**—The state division of commerce and industry has released another booklet in its Resource-Industry series, this one dealing with possibilities for establishment of metal working plants in the state. The report, sponsored by the department of conservation and development and prepared by Prof. Conrad Bliss of State College, presents a fairly thorough study of background—climate, water supply availability of materials, labor and market—and then goes somewhat into detail about the types of goods which can be profitably processed in North Carolina. These include metal furniture, furniture hardware, certain types of farming tools, heating and air conditioning equipment and metal windows. The report further points to prospective development of North Carolina ports, expansion

of electric power and availability of natural gas as additional proof that metal working industries are suitable for this area. They would supplement and complement other types of manufacturing and tend to keep the entire processing at home.

**SLOGAN**—Charles Parker, state advertising director, has doped out a new slogan for North Carolina, applicable to both industrial and tourist attraction development. He calls North Carolina the State of "Accessible Isolation." — Accessibility to markets, isolation from congested centers, is featured in industrial publicity. Vacation and tourist advertising in the northeast and middle west point out "chances are these places are less than a day's drive from your home."

**WHEELING**—Current issue of The State Advertising Bulletin, a sort of dope sheet for information of North Carolinians themselves, contains six pages of data about increasing travel, improved business in recreational sections, and booming trade for basic industries. Outstanding fact is Americans are on wheels and they are wheeling to and through North Carolina by the hundreds of thousands every week. Mountain and beach resorts tell of guest lists comparable to mid-July with bookings through to October in many instances.

**PAGEANTRY**—Opening of the Lost Colony at Fort Raleigh and Unto These Hills at Cherokee on July 1 are expected to attract additional short-stay visitors. Indications are that mid-state hotels and motor courts will profit from these performances, since many people will try to see both, stopping over enroute between the extremes of east and west within the state.

## What Other Papers Are Thinking

**IT DIDN'T BUY**  
(The Wilson Daily Times)  
Before we had such things as professional politicians, men who offered themselves for election did so on their standing in their communities or their states. Never would they think of paying out money for anything. After Andrew Jackson's day, however, we were less circumspect. Money was used freely in the elections, reaching the point where only rich men, because of grafting legislators, could reach the United States Senate. That's why we changed our Constitution, compelling those candidates to go before the people rather than before the state assemblies.

If money only were to talk, however, why not curb the use of it. And most states have. Through legislation of one sort or another, they place limits on what one candidate can spend. And the federal government, to check the excesses of the rich, named maximum contributions that one person could make. But that hit the rich only. It didn't hit the government which spends prodigally in elections and it didn't hit labor unions which do likewise. Neither comes within the purview of the laws designed to clean up our elections, giving honest but poor men the same chances as the well-backed ones.

In the election here on May 27, much of that money came into the state. One losing candidate, in reporting to the Secretary of State, announced that he had received \$1,500 from Labor's League for Political Action and \$1000 from the CIO political action committee.

What kind of world will the United States be a part of in 5 years? In 15 years? In 25 years? Will the near or distant future find Russia and the United States as the principal contestants in World War III? Within the lifetime of some of us living now will Russia enslave more than 150 million lives of those who once comprised the United States of America, a nation which crumbled through lack of strength and character? Or will some of us living today see a world which managed somehow to steer clear of World War III principally because the United States, a nation with the highest standard of living and greatest individual opportunities on earth, measure up to its responsibilities?

On June 24 the voters of North Carolina will have an opportunity to help provide this Nation with the kind of leadership it must have in order to survive and prosper. In Willis Smith this State has a man with a stake in the future and an interest in eternity beyond

cause today he must think and act in a way that will help provide his four children and a grandchild with the kind of tomorrow he knows all North Carolinians want for themselves and their children.

Willis Smith has three sons who while the now candidate for the U. S. Senate was a small boy, began earning his own way selling newspapers. From that modest beginning he has — through his own ability, ambition and initiative — pulled himself hand over hand to the top of the ladder in his chosen field. That is the kind of opportunity he wants his own children and those of other North Carolinians to have and the kind he'll fight to provide them with.

paid out of the money that was paid into the government treasury in payroll taxes. That money is gone — used up by the Federal spenders. All that remains is government bonds issued for the social security money which the government has borrowed. Interest on these bonds is used to pay social security benefits and this interest is paid by taxpayers, in addition to the money they have already paid out as a payroll tax.

That's because some plastic materials carry a strong odor of chemicals when shipped. The odor usually disappears with a little airing. The manufacturer of a plastic raincoat put notice in all shipments asking retailers to unpack the coats and hang them up until the smell went away. If dealers didn't, customers would have been driven out of stores.

**MAKERS ARE CHEERFUL AS FURNITURE MART OPENS**  
The Chicago and Grand Rapids furniture markets open today with considerable optimism on the part of manufacturers. Retail sales have been good — 5 per cent higher in May than a year ago — and dealers are showing an inclination to increase stocks slightly. The unabated continuance of the building boom suggests even further rises in demand for furniture and furnishings.

**THREE-WAY BATTLE FOR PRODUCE MARKET**  
The fight for the consumer's fruit and vegetable dollar is becoming a three-way donkeybuck. As the frozen food industry began to grab off a large share of this market, canners stepped up their advertising appropriation to promote their product. Now the marketers of fresh fruits and vegetables are joining the fray, and several produce associations are working on plans to advertise the virtues of fresh fruits and vegetables. The campaigns will be timed to the summer months, when supplies of demand for fresh fruits and vegetables are at a peak.

**MOVE TO SIDEWALK INCREASES SALES**  
Right across the street from the RCA plant at Harrison, N.J., is a television and appliance store. When the RCA union wanted to hold an election, the proprietors moved their washer and refrigerator department to the sidewalk and let the union use the space for voting.

**NEW AND HOT COVERS: Use of Vinylite plastic film provides for typewriter covers in colors to match office decor. They are sewn with nylon thread. (By Underwood Corp., 1 Park Ave., New York 16.)**

It was a smart move. The store caters to RCA employees, and the spectacle of the store doing business on the sidewalk, plus heavy advertisement of an "election sale" boomed business.

Another tip: in approaching a sales organization, it's best to have samples or models, evidence that the product can be produced in volume, evidence of patent or copyright, and firm figures on the return necessary to pay costs and a profit.

There are several ways to locate appropriate selling organizations. A visit to the nearest Field Office of the Department of Commerce should gain some clues. Local Chambers of Commerce may also be able to supply lists. Most advertising agencies are specialists in marketing and may be able to recommend both a distributor and an advertising program to make the sales click.

## Business Today

Marketing appears to be the most confounding problem facing the enterpriser who determines to start manufacturing a novelty, a gadget or other new product.

Almost daily is department receives queries about this. "I have a new toy I am going to have manufactured. How can I get it on the market?" asks one reader. "I have a new gadget that should sell in every beauty shop. How should I go about it?" asks another.

One of the first things a venturer in the specialty field should determine is whether to go into one or two businesses at once. Manufacturing a new product is one business; marketing is a distinct and separate operation.

Clearly, if capital is limited (and ain't it always?) and if national or broad regional distribution is necessary (which it usually is), it's common sense for the new enterpriser to limit his own operations to that phase he knows and to arrange for someone with experience and facilities to handle the other phase.

It is rare that the manufacturer of a single, low-priced gadget can do his own marketing. Its different with a line of 20- or 300-products, but putting salesmen out with a single item usually doesn't pay off.

Of course, if the manufacturer can interest the purchasing department of a big five-and-dime chain or a large mail-order house, his distribution problem may be over. But these big organizations can accept and promote only a fraction of the gadgets offered them.

The small, new gadget manufacturer will probably fare best in turning over distribution to a company which specializes in selling and has an organization in the field in which the product fits.

There are several ways to locate appropriate selling organizations. A visit to the nearest Field Office of the Department of Commerce should gain some clues. Local Chambers of Commerce may also be able to supply lists. Most advertising agencies are specialists in marketing and may be able to recommend both a distributor and an advertising program to make the sales click.

The good sales companies, too, are selective. They cannot afford to load up their organizations with items they don't believe will sell.

Another tip: in approaching a sales organization, it's best to have samples or models, evidence that the product can be produced in volume, evidence of patent or copyright, and firm figures on the return necessary to pay costs and a profit.

Some plastics need a bit of air. Retailers stocking new plastic products may profit by opening shipments as soon as received.

## Hal Boyle's Column

New York—(AP)—The world is out of shape today—and so are more than eight out of 10 American women.

This melancholy statistic isn't based on one man's roving observation. It comes from the Corset and Brassiere Association of America.

"Of the 55,000,000 U.S. women above the age of 15, at least 85 per cent are overweight, or lack symmetry in the vicinity of bosoms, waist or hips," said Fletcher D. Dodge, executive vice president of the association.

What depresses me about this estimate is that Fletcher doesn't even include the women with jut jaws, knobby knees, bowled legs, suitcase feet, or blacksmith's biceps.

No, all he surveys is the corset zone. To correct nature's errors in this area the women of America in 1950 will spend \$400,000,000 or more for girdles, pantie girdles, brassieres, bandeaux, corsets, corsetlets, falsies and garter belts.

Every year about this time—the opening of National Corset Market Week—Fletcher reviews the status of the American feminine shape. He is a stern critic and invariably finds something wrong with it.

Here, girls, is his prediction of the fashionable figure for this autumn: "An even slimmer, narrower hipline . . . waistline slightly less indented . . . bustline more softly rounded."

That's because some plastic materials carry a strong odor of chemicals when shipped. The odor usually disappears with a little airing. The manufacturer of a plastic raincoat put notice in all shipments asking retailers to unpack the coats and hang them up until the smell went away. If dealers didn't, customers would have been driven out of stores.

**MAKERS ARE CHEERFUL AS FURNITURE MART OPENS**  
The Chicago and Grand Rapids furniture markets open today with considerable optimism on the part of manufacturers. Retail sales have been good — 5 per cent higher in May than a year ago — and dealers are showing an inclination to increase stocks slightly. The unabated continuance of the building boom suggests even further rises in demand for furniture and furnishings.

**THREE-WAY BATTLE FOR PRODUCE MARKET**  
The fight for the consumer's fruit and vegetable dollar is becoming a three-way donkeybuck. As the frozen food industry began to grab off a large share of this market, canners stepped up their advertising appropriation to promote their product. Now the marketers of fresh fruits and vegetables are joining the fray, and several produce associations are working on plans to advertise the virtues of fresh fruits and vegetables. The campaigns will be timed to the summer months, when supplies of demand for fresh fruits and vegetables are at a peak.

**MOVE TO SIDEWALK INCREASES SALES**  
Right across the street from the RCA plant at Harrison, N.J., is a television and appliance store. When the RCA union wanted to hold an election, the proprietors moved their washer and refrigerator department to the sidewalk and let the union use the space for voting.

**NEW AND HOT COVERS: Use of Vinylite plastic film provides for typewriter covers in colors to match office decor. They are sewn with nylon thread. (By Underwood Corp., 1 Park Ave., New York 16.)**

It was a smart move. The store caters to RCA employees, and the spectacle of the store doing business on the sidewalk, plus heavy advertisement of an "election sale" boomed business.

Another tip: in approaching a sales organization, it's best to have samples or models, evidence that the product can be produced in volume, evidence of patent or copyright, and firm figures on the return necessary to pay costs and a profit.

Some plastics need a bit of air. Retailers stocking new plastic products may profit by opening shipments as soon as received.

There are several ways to locate appropriate selling organizations. A visit to the nearest Field Office of the Department of Commerce should gain some clues. Local Chambers of Commerce may also be able to supply lists. Most advertising agencies are specialists in marketing and may be able to recommend both a distributor and an advertising program to make the sales click.

The good sales companies, too, are selective. They cannot afford to load up their organizations with items they don't believe will sell.

## Selected Shorts

**JEFFERSON, OHIO, GAZETTE:** "No one has any moral right anywhere or at any time to keep others from working."

**CLAPLIN, KANSAS, CLARION:** "Payments of Social Security old age benefits . . . are not being

paid out of the money that was paid into the government treasury in payroll taxes. That money is gone — used up by the Federal spenders. All that remains is government bonds issued for the social security money which the government has borrowed. Interest on these bonds is used to pay social security benefits and this interest is paid by taxpayers, in addition to the money they have already paid out as a payroll tax."

### Continue Curbs On Protestants

Madrid, Spain, June 19—(AP)—Public demonstrations and establish-

ment of schools or recreation centers are still forbidden protestants in Spain. The Ministry of Government issued a new statement of its policy Saturday, answering a protestant appeal to Generalissimo Franco for protection.

### Varied Weather In Coming Month

Washington, June 17—(AP)—The nation appears in for a variety of weather in the coming month, with warmer than normal temperatures in some areas, cooler than normal in others, and just plain normal temperatures for the rest of the country.

The weather bureau said a 30-day prediction that it expects "temperatures averaging warmer than the seasonal normal from the great divide eastward to the Mississippi, with greatest departures over the southern half of this area. "Cooler than normal temperatures" it said, "are expected in the middle Atlantic states and also in the extreme southwest. Elsewhere temperatures not far from seasonal normals are indicated. "Generally abundant showery rainfall is expected over the northern plains, Lake region, and Atlantic seaboard, but subnormal rainfall is indicated in the west Gulf states and South Central plains. Elsewhere about "normal rainfall is predicted."

### Triple Wedding For Family May Confuse Pastor

Los Angeles, June 18—(AP)—If the preacher has a little trouble keeping things straight at a triple wedding next Saturday it shouldn't be surprising, for the brides will be a grandmother, mother and daughter. They'll stand up this way: Mrs. May Forgy, 64, and Jess Taylor, 70; Mrs. Forgy's daughter, Mrs. Merle Kelly Thomas, 34, and Spencer Ramsdale, 29 and Mrs. Thomas' daughter, Miss Darlene Kelly, 16 and Ralph Lester, 18. The Rev. M. E. Fish of the Christian church will preside over the chorus of "I does."

Eggs lose weight while in storage.

### Seeks Beauty Title

THE WINNER'S TROPHY is held by Beverly Cottrell, of Los Angeles, after she was selected as "Miss Western America" in a recent beauty contest. Anita Diamond, third place winner, stands beside her. The trophy holder is eligible to represent California in a nationwide beauty contest. (International)

### 'Best Tailored'

REPUBLICAN Senator Margaret Chase Smith of Maine is photographed as she strolls down a Washington, D. C. street after she was named the year's "Best Dressed Woman" in government by the Custom Tailors' Guild of America. She is wearing a bright blue tailored suit, brown and white shoes and carries a matching leather handbag. (International Soundphoto)

### Studies for Love

A LEADING film actress in Japan, Shirley Yamaguchi is presently in Hollywood, Calif., making an intensive study of American love-making. Recovering from a minor operation at the St. John's Hospital, Santa Monica, Shirley reported that she had only been kissed once in 20 pictures. She added that the GIs have helped greatly to make kissing popular in her native country. (International Soundphoto)

### Sea Of Mud

Harlowtown, Mont., June 19 (AP)—Paris of this central Montana town looked like "a sea of mud" today in the wake of a flash flood which left one dead and damaged more than a score of homes. A 12-foot wall of water from a cloudburst in nearby hills smashed through the lower part of town late Saturday. It ripped out a main highway bridge. It tore out 5,500 feet of the Milwaukee railroad line on both sides of this division point of 2,000 population. Harold Stearns, weekly newspaper publisher, said the first areas of town are just "a sea of mud."

### Drivers Fined For Stubborness

Cumberland, Me., June 18—(AP)Two cars met at an intersection and couldn't pass each other because of parked cars.

So both drivers just sat. Neither would yield to the other. Finally, as traffic began to back up and horns began sounding the cops arrived. The two drivers were hauled into court and fined \$2 by Magistrate Frank A. Perdue "for being stubborn."

### FREE OFFER for Deafened Persons

For people who are troubled by hard-of-hearing this may be the means for starting a new, full life—with all the enjoyment of sermons, music, friendly companionship and business success. It is a fascinating brochure, called "So You Can Hear" and is now available without charge. Deafened persons acclaim it as a practical guide with advice and encouragement of great value, a start on the road to happiness. If you would like a free copy, simply send your name and address on a post-card today and ask for "So You Can Hear." Write to Belmont, Dept. 7310 1450 W. 9th St., Chicago 8, Ill. Also show this important news to a friend or relative who may be hard-of-hearing.

## NOTICE

Again I am asking you to hear me over WRRF next Tuesday, June 20th, at 12:15. I hope the farmers will take out a few minutes earlier and have time to feed-up and wash-up and get to the radio. They are my favorites in this audience because they are the first victims of bad leaders.

## Hadacol Helps Wife Keep Her Family Well and Happy

HADACOL HELPS FOLKS SUFFERING FROM DEFICIENCY OF VITAMINS B1, B2, NIACIN AND IRON

Mrs. Edward H. Newton, 4364 Reading Road, Cincinnati, Ohio, feels that a wife's chief responsibility is attending to the welfare of her family at all times. HADACOL has been a big help to her in keeping her husband and little nephew well and happy.

Mrs. Newton's family, like so many, were suffering deficiencies in Vitamins B1, B2, Niacin and Iron, which HADACOL contains.

HADACOL brought such wonderful results to her husband, who had suffered from stomach distress that Mrs. Newton gave HADACOL to her three-year-old nephew, Bobby Newton, with equally gratifying results.

**Mrs. Newton's Statement**

Here is Mrs. Newton's statement: "I gave my little-nephew HADACOL because he was pale; he had no appetite; he was run down and he caught colds repeatedly. After taking HADACOL, he has an appetite, has color in his cheeks and he is healthier all the way. My husband has always been troubled with his stomach. After taking five large bottles and three small bottles of HADACOL, he eats anything and is not bothered with his stomach." Mrs. Newton has recommended HADACOL to many of her friends.

**Helps You Feel Wonderful!**

Why not have a similar happy experience happen to you? Now don't keep putting it off—don't say that you'll start taking HADACOL tomorrow. START TAKING IT TODAY! If only you'd realize the won-

derful benefits that people by the thousands are getting from HADACOL, you wouldn't delay a single minute.

**Hundreds of Doctors**

... have prescribed HADACOL for their patients, have requested quantities of HADACOL for their own clinical use and for their own families. The fact that HADACOL is scientifically formulated, compounded so that it contains therapeutic quantities of Vitamins B1, B2, Niacin and Iron to supply deficiencies of these vital elements and is enriched with helpful amounts of Manganese, Calcium and Phosphorus (in liquid form), help to account for its increasing acceptance by doctors.

**You'll Feel Great** ... with the first few bottles you take, or your money back. There is only one HADACOL and it is sold on a strict money-back guarantee. So give this remarkable HADACOL formula a chance to help you if you suffer from any sickness caused by deficiencies of Vitamins B1, B2, Niacin and Iron. Remember that HADACOL is amazingly effective because it treats the real cause of the conditions you suffer from by supplying the deficient elements of Vitamins B1, B2, Niacin and Iron. Make up your mind to take HADACOL regularly. Refuse substitutes. Don't be satisfied with temporary relief. Insist on the genuine. You can't lose a cent, because it's sold on a strict money-back guarantee. Only \$1.25 for Trial size. Large Family or Hospital size, \$3.50.

### Cases Tried In Police Court

In Police Court Friday morning, Judge J.W.H. Roberts disposed of the following cases: J. D. Stocks, convicted of temporary larceny of an automobile, appealed to Superior Court. J. D. Stocks, convicted of driving drunk, appealed to Superior Court. J. D. Stocks, convicted of illegal possession of non-tax paid whiskey, appealed to Superior Court. Thurman R. Wilson possession of illegal whiskey, case dismissed. Stuart M. Daniels, speeding and crashing red light, 30 days or pay \$20. Prayer for judgment was continued in the case against David L. Elks with reckless driving. Mack T. Herrell, assault on a female, paid \$15. Lewis Richardson, colored, assault with a deadly weapon, 12 months on the roads, and his shotgun was ordered confiscated. Drunk: Levi Tyson \$15; Fountain E. O'Neal, prayer for judgment continued.

### Tennessee Area Has Earthquake

Knoxville, Tenn., June 18—(AP)—A rumbling earthquake tremor stirred residents in a 15-mile area from here to Maryville, Tenn., last night. No one was reported injured and there was no reports of damage. The prolonged tremor shook buildings and police and newspaper switchboards were flooded with calls.

### Gets 2nd Checkup

# Robins Win Two Of Three Contests During Weekend

## Edged Out Goldsboro; Split Tilts With Wilson, 3-4, 3-1

By BERT MOYE  
 Manager Randy Hefflin's Greenville Robins won two of their three contests over the weekend, defeating the Goldsboro Cardinals over in Goldsboro Saturday night by a 3-2 margin and then divided a twin bill with the Wilson Tobs over in Wilson Sunday afternoon, losing the seven-inning contest by a 4-3 margin and taking the nightcap an 11-inning affair, by a 3-1 count.

**Saturday's Game**  
 The Robins rallied for a run in the ninth frame after two men were out to break a 2-2 deadlock and take a 3-2 win over the Goldsboro Cardinals over in Goldsboro Saturday night.

Bobby Harrison got a double in the ninth to start the rally going. Then after Dempsey and Jones had been retired, Pitcher Bob Umfleet walked Strausser, Tepedino and Scarpa to force Harrison home with what proved the winning run.

The Cards took a 1-0 lead in the opening frame when Manager Jim Heribson was walked and later scored when Billy Smith singled into rightfield and Guidice let the ball go away from him.

The Robins knotted the count at 1-1 in the third frame when Harrison and Dempsey walked and Paul Strausser singled, bringing home Harrison.

Goldsboro came back in the bottom of the third to go out in front again when they scored a singleton on three errors and without benefit of a hit.

Greenville rolled the score up even at two-all in the eighth after Strausser walked. An attempted sacrifice by Tepedino was error by Goldsboro's Pitcher Umfleet, but Strausser on second and Tepedino on first. Scarpa grounded out to second base and then Hallow received an intentional walk to fill the bases. Catcher John Bakktis singled to left field and scored Strausser.

Score by innings: R H E  
 Greenville ... 001 000 011-3 4 6  
 Goldsboro ... 101 000 000-2 7 3  
 Jones and Bakktis; Umfleet, Munsenfechter (9) and Rinehart, Hinkle.

**Sunday's Games**  
 Wilson and Greenville divided a doubleheader over in Wilson Sunday afternoon, with the Tobs taking a 4-3 victory in the first game and the Robins coming back in the nightcap to gain a 3-1 victory.

Sam Berry's homer in the sixth frame with two mates aboard provided the Wilson Tobs with a 4-3 win over the Robins. Up to this point the Tobs were trailing by a 1-3 score. The loss by the Robins halted their nine-game winning streak. It was their tenth loss of

the season by a one-run margin. Ray Keys, on the mound for the locals, pitched five-hit ball to lose a heartbreaker to the Tobs. It was the fifth loss of the season for Keys, two of which have been to the Wilson Tobs.

The Robins got six hits off two Wilson hurlers with George Hallow collecting a double and a single in four trips to the plate to lead the locals' attack.

Pitcher Jim Lewey registered his sixth win of the season over in Wilson yesterday afternoon as he hurled the Robins to a 3-1 win with an effective mound job in a contest that went for eleven innings.

After the Tobs had gone out in front with a singleton in the first frame, the Robins came back to knot the count at one-all when Matthew Hall belted one out of the park.

Neither team was able to score again until the eleventh when the Robins put across two runs in the top of the frame to win the contest. John Tepedino led off with a double and Hallow was given an intentional pass. Then Big John Bakktis stepped up to the plate to line out a double into left field and bring home both Tepedino and Hallow with the winning markers.

Greenville collected a total of eight hits off Allan Draughn with Bakktis getting a double and a single in three trips to the plate and Joe Guidice coming through with two singles to pace the Robins' attack.

The boxes:

First Game	AB	R	H	E
Greenville	25	3	6	0
Wilson	25	4	6	1

Score by innings: R H E  
 Greenville ... 002 100 0-3

Runs batted in: Berry 1, Bakktis 2, Hall Two-base hits: Lewey, Tepedino, Dingler, Bakktis. Home run: Hall. Base on balls: Lewey 4, Draughn 2. Struck out: Lewey 5, Draughn 2.

## Sport Slants By Pap

For three years the Dodger coaches have been working on Snider at the Vero Beach training camp to get him natural out at the ball and pull it to right field. They were certain that all the Brooklyn home run records were slated for oblivion once the Duke found the range. Babe Herman's mark of 35 homers should be a cinch for the powerful young center fielder, they figured. Until Snider made Memorial Day a memorable date in his book, they had not felt that their efforts were successful.

Snider is only 23 years old. He has the speed and power to be a great ball player. All he needs is confidence in his own ability. Certainly, three homers in one game should do much to give him that confidence.

## Mangrum Heads For PGA Tourney; 'Man To Beat'

New Rochelle, N.Y., June 19—(AP)—Wheeling along the road today toward Columbus, Ohio, and the Professional Golfers' Association championship is a guy who will bear watching—and not because he's loaded with fresh money.

Lloyd Mangrum rates as the man to beat in the PGA event as he currently is the hottest thing in golf, with \$8,100 in prize money to show for the last three weeks of play.

He picked up \$3,000 yesterday by winning the ninth annual Palm Beach Round-Robin tournament, the sum going into the kitty along with the \$2,500 he won for finishing second, after a playoff, in the National Open, and the \$2,600 he pocketed in winning the Fort Wayne, Ind., Open the preceding week.

There was nothing fluky about the dapper guy's triumph. He demonstrated convincingly he was the best of the field of 16 star pros in every phase of the four-day, five-round event.

He had the highest point total, 37, with Lawson Little a distant second with 20 points.

His medal score of 344 for the five rounds was nine strokes better than that of the second low man in that department, Claude Harmon.

He shot one round of 65, tying the competitive course record.

He was the only entrant to be under par for each of the five rounds.

He beat the two men with whom he tied in the Open—Ben Hogan and Gorge Fazio—by 20 and 21 strokes, respectively.

## Huskies Won Regatta, But Stanford Is Happy

Marietta, O., June 19—(AP)—Washington sped homeward today with the crown of college shell racing, but the crew really bustin' with pride was "orphan" Stanford.

And Stanford won only third place in Saturday's 48th annual Intercollegiate Rowing Association Regatta on the Ohio River.

But that third place was far more than the Stanford crewmen and the 11 other colleges competing against them expected of the westerners in the two-mile varsity race.

Since Stanford does not recognize rowing, the crewmen had to raise their own funds. Students and alumni provided \$3,500 for the trip east, and rival California (which placed second Saturday) provided transportation for the Stanford boats.

That's how Stanford got the name "orphan crew." Once here, the 14 crewmen didn't have enough money for the return trip. So they dug into their own pockets, obtained help from their parents and were able to board the train yesterday with tickets home.

Washington's Huskies finished first in Saturday's varsity race, just as they and their coach, Al Ulbrickson, and most of the rival coaches had predicted.

Washington's oarsmen went furthest. They captured also the freshman and junior varsity races, the fourth time their school has done this.

## WINS THE 'POWDER-PUFF DERBY'

AFTER WINNING the second annual 1,500-mile "Powder-Puff Derby," Betty Haas of Scarsdale, N. Y., waves to friends for the benefit of photographers at West Palm Beach, Fla. Although she successfully flew from Montreal, Canada, to the Florida city, she landed without crossing the finish line. She quickly took off when informed of the error and flew her plane over the final marker. (International Soundphoto)

## Farmville Drops To Second Place By Dividing Tilts

**Tonight's Games**  
 Wilson at Greenville  
 Tarboro at Goldsboro  
 Roanoke Rapids at New Bern  
 Kinston at Rocky Mount

So many fans have asked you writer—how do you figure out batting averages, fielding averages, standings of clubs?—and below I will outline the methods used in determining these things in the game of baseball.

1. How to determine the standings of the clubs from a percentage point—add together the total number of games won and lost and divide into the total number of wins.
2. To determine the number of games one club is ahead of the other—Subtract from the bottom team the total number of games won from total number of games won by the top team; and in the lost column subtract one from the other. Add your totals together and divide by two and that will give you the number of games one team is leading the other. Example: Rocky Mount has won 35 games and lost 24. Greenville has won 31 games and lost 27. Subtract 31 from 35 and that leaves four. You subtract 24 from 27 and that leaves three. Add four and three together and that gives a total of seven. Dividing by two gives you 3 1/2 which the Robins were trailing the league leaders as of Sunday.
3. To determine the batting average of an individual player or a team you divide the number of times at bat into the number of hits obtained by the player.
4. To determine the fielding average of an individual player or club you add together the total number of putouts, assists and errors and divide into the total number of putouts and assists.
5. To prove the box score of a game: At bat, plus bases on balls, plus hit batters, plus sacrifice hits, plus number of batters reaching first on interference by catcher, must equal runs plus left on bases plus opponent's putouts.

There was carried in this column last week a story which stated that the league directors had voted at a special meeting in Williamston to change his by-laws and allow a team with a non-playing manager to have another player, which can be a rookie, limited service or veteran player.

Explaining the interpretation of this new ruling further, it means that if a veteran manager elects to guide his team from the bench, he can call in another veteran and still be within the limit on veterans which is two. Thus a team could have two playing vets and a veteran manager.

Such a setup would greatly aid a team which is filled with young players because the veterans would have a settling effect on them, steady them down. But at the same time, they could hardly call it fair to the teams who have to let their managers play, such as Goldsboro, New Bern and Roanoke Rapids who play their skipper regularly, and the others whose managers are pitchers: Rocky Mount, Wilson and Greenville.

Joe Antolick of Tarboro is doing 'very little catching, since he wants Ed Drake, a great prospect, to get in as much experience as possible. The Athletics, with so many rookies, could use another veteran. But what about Bill Herring, Red Benton and Randy Hefflin? They're all pitchers and comprise a part of the pitching staff of their teams. If they cease pitching, they'll have

## CPL Schedule

**TUESDAY**  
 GREENVILLE at Roanoke Rapids  
 New Bern at Wilson  
 Goldsboro at Kinston  
 Rocky Mount at Tarboro

**WEDNESDAY**  
 Roanoke Rapids at GREENVILLE  
 Wilson at New Bern  
 Kinston at Goldsboro  
 Tarboro at Rocky Mount

**THURSDAY**  
 GREENVILLE at New Bern  
 Wilson at Roa Rapids  
 Kinston at Tarboro  
 Rocky Mount at Gldsboro.

**FRIDAY**  
 New Bern at GREENVILLE  
 Roa Rapids at Wilson  
 Tarboro at Kinston  
 Goldsboro at Rocky Mount.

Chances are the rest of the teams in the league will go along with their present setup this season. But the ruling is sure to have an effect on the player limit next year. Either the league will allow only one playing veteran, plus a veteran manager, or they will increase the number to three, as last year, to allow two playing vets besides the manager.

### Standings

**AMERICAN LEAGUE**

Team	W	L	Pct.

**Substitute Bout Scheduled For LaMotta July 12**

New York, June 19—(AP)—There'll not only be a new face but new surroundings and a new date as well when Jake LaMotta defends his world middleweight championship. Forced by Rocky Graziano's hand injury to do a quick job of improving, the International Boxing Club announced the following substitute setup.

Principals—Jake LaMotta vs. Italy's Tiberio Mitri.  
 Date—July 12.  
 Place—Madison Sq. Garden.  
 Original plans were for LaMotta to rise his rusted Diadem against Graziano, June 29 at the Polo grounds.

## Carolinian Wins Power Boat Race

Baltimore, Md., June 19—(AP)—C. R. A. Widenhouse of Concord, N. C., surged ahead after making a false start to take the 15-mile free-for-all fi in the Wilson Point power boat regatta here yesterday.

Widenhouse beat the gun at the start and had to recircle the committee barge, thus losing 500 yards at the outset. He closed the winning time of 63.303 miles per hour in his boat, Copperhead.

# Lions Meeting In Full Swing: Heavy Program

Charlotte, June 19—(AP)—Delegates to the annual convention of North Carolina Lions clubs held business sessions, a downtown parade and a beauty contest here today.

High school bands from many sections of the state joined in the parade through the center of the city's business district.

Fourteen girls were scheduled to enter the beauty contest tonight. The winner will represent North Carolina at the Lions International convention in Chicago.

The convention opened last night with a memorial service for the 46 Lions who have died since the last convention.

Tomorrow's program includes election of officers, committee reports, a banquet and a ball.

## Holding Suspect In Brutal Attack

Winston-Salem, N.C., June 19—(AP)—Police are holding a Negro man here for questioning in connection with the beating of Betty Jane Clifton last Friday.

City Hospital doctors reported last night that the 17-year-old girl was still unconscious.

John Williams, 59, is the man held. Authorities said he will not be released until he has been completely cleared of suspicion.

The girl has been unconscious since she was found in her father's radio shop.

WATCHING A DEMONSTRATION of Marine assault tactics at the Quantico, Va., training base, President Truman (standing) sees a helicopter in attack. The Marine troops were flown in by the "flying bananas" from aircraft carriers at sea. They are theoretically enveloping an area in the rear of an enemy fortified position. (International Soundphoto)

# Robert Humber Kept Busy By Schedule Of Speeches

By CHESTER WALSH

Robert Lee Humber of Greenville, distinguished international lawyer, world traveler and scholar, recently concluded a schedule of speeches at many places during the spring and early summer. His subjects have encompassed the entire gamut of human problems.

Humber left Greenville Friday by airplane for Tulsa, Oklahoma, to fill speaking engagements in that state.

Humber's commencement addresses were delivered at the following places: Windsor High School, Roseboro High School, Chowan College, celebrating its 102nd year of history and its first graduating class since its reopening after World War II.

State conventions: Bankers' Convention of North Carolina, meeting at Pinehurst of which J. Herbert Waldrop was president. Improved Order of Red Men of North Carolina at Carolina Beach. State Federation of Women's Clubs of Virginia at Richmond.

District conventions: Rotary of Eastern Carolina at Wrightsville Beach at which Dr. Howard McGinnis was elected district governor. Clubs: Union meeting of Kiwanis, Lions and Business and Professional Women's Clubs at Fayetteville. Rotary at Wake Forest. Rotary at LaGrange where Humber was a guest of Dr. J. Y. Joyner. Woman's Club at Raleigh. Woman's Club at Danville, Va. Teachers of Hampton County, Va. Home Demonstration Clubs of Lenoir County at Kinston. Churches: Presbyterian Church at Raleigh. St. John's Baptist Church at Charlotte. Goldsboro Council of Church Women at St. Paul's Methodist Church. St. Paul's Episcopal Church at Beaufort. Union of churches at Spring Hope. Winterville Baptist church. Group of students at Morehead City leaving under auspices of the Methodist Church to work this summer in Germany.

Banquets: Faculty of State College, at Raleigh. Past Presidents of the Order of Red Men of North Carolina. Wake Forest Alumni Association of Forsyth County at Winston-Salem, respecting removal of Wake Forest College to Winston-Salem and building of new plant at that location.

Committees: Williamsburg, Va., public affairs. Selection of new president of Wake Forest College. As chairman of the Executive Committee of the State Art Society of North Carolina, to create interest on the part of northern foundations in the State Art Society.

Various activities: Mr. Humber has completed formalities for releasing the ninth album of the Louis Orr etchings of North Carolina, making now 45 of the ultimate 50 etchings to be done on the cultural, architectural and historical life of North Carolina. He commissioned the artist in June, 1939, to execute this work to which he has given his entire time for 11 years and which he will probably complete next year.

Mr. Orr is recognized to be among the greatest of living etchers, ranking with Rembrandt of the 17th century and Piranesi of the 18th century. There are only two Americans whose works are in the Louvre Museum in Paris. Whistler represented by the portrait of his mother and Louis Orr represented by 11 plates. The etchings of Louis Orr on North Carolina constitute the greatest work of art ever done on any state of the union in the history of America," Mr. Humber declared.

Mr. Humber said he hopes that these etchings will find their way into the colleges, universities, public libraries and schools of North Carolina and into the homes of those who love the artistic heritage of our State.

Cement was extensively used in ancient times, but the knowledge was lost during the Middle Ages. Modern Portland cement did not appear until 1824.

A recently laid egg in New Hampshire weighed 10 1/2 ounces and measured 9 1/2 inches around the longest end.

F.B.I. AGENTS arrested Alfred Dean Slack (above), 44, a chemist, at Syracuse, N. Y., on espionage charges. The Federal Bureau of Investigation announced that Slack admitted having transferred classified material on a "powerful new explosive" to Harry Gold. The latter was recently indicted on charges of passing information from confessed atomic spy Klaus Fuchs to the Reds. (International Soundphoto)

# Voting Rules For Second Primary Said Different

Raleigh, N.C., June 18—(AP)—Voters who were eligible to register for the May 27 primary but who did not may not vote in Saturday's primary.

Persons who have become eligible since May 27, however, may register to vote for the second primary.

That's the word from Raymond Maxwell, executive secretary of the State Board of Elections. The election laws provide, he said, that a second primary shall be held under the same rules and regulations as provided for the first primary except that:

"There shall be no further registration of voters other than such as may have become legally qualified after the first primary election. These may register on the day of the second primary and shall be entitled to vote," he said.

Under this provision, said Maxwell, those who would be eligible to register for the first primary "would be persons who may have had sanity restored after that date or who have had their citizenship

restored after that date, or a person who has become naturalized."

A voter who would be 21 before the November election would have been eligible to register in the first primary. Maxwell said failure to do so would not permit such a person to register for the second primary.

## Borrowed Hubby From Road Camp

Los Angeles, June 17—(AP)—Love triumphed over law when Mrs. Jean Beverly Steffey, 23, "borrowed" her husband Henry, 27, for an hour from a road camp where he was serving time for a automobile theft.

A municipal judge dismissed charges against her of aiding a fugitive. Steffey, however, faces trial on escape charges.

Mrs. Steffey, saying she was "just lonesome," parked May 28 near the camp and Steffey left the place for an hour with her in the car, until a deputy sheriff spotted them.

# JUSTICE TRIUMPHS AFTER 15 YEARS

SMILING HAPPILY as he gets the news that New Jersey's Gov. Alfred E. Driscoll had granted him a full pardon, Clifford T. Shephard goes about his work as a porter in an East Orange, N. J., bar. Arrested in 1935 for a forgery he did not commit, Shephard served two and one-half years in jail. Although released in 1937, the stigma of a prison term remained. In 1939, Edward E. Sullivan, serving time for forgery, confessed the crime. Shephard was not cleared for eleven years. (International)

# Western Allies Ready Defenses In Event Attack

Frankfurt, Germany, June 18—(AP)—The Western Allies are reported mining key roads and bridges throughout West Germany and other parts of Europe to stall any possible Soviet attack.

These preparations came to light yesterday when a German magazine published pictures of a winding highway around famed Lorelei Mountain on the Rhine River in the French zone. The pictures showed a row of holes being drilled in the road and then covered with concrete caps. Explosive charges dropped into the holes would tumble the highway into the Rhine at one of its narrowest points.

American headquarters declined to comment. But a French source in the Koblenz area said:

"It is not only on this route on which such measures are taken and not only the French who are making such preparations. It is the allied high command which ordered this."

Plans have been in the books for more than a year for allied occupation forces in Western Germany to fight a delaying action, if trouble comes.

The plans call for evacuation of civilians as rapidly as possible. Emergency signals have been given all dependents of U.S. Army and Air Force officials to be prepared to pull out if and when an alarm is flashed.

Indications are that the Western defense chiefs have drawn up a master plan for similar defense preparations in other European countries.

The pictures touched off a furor in the Russian-controlled East German press.

The Communist newspapers did not mention any possibility of a Russian attack, but declared the planned destructions were "part of an American aggressor's plan to march against the Soviet Union." One newspaper said the Americans

scorched earth policy.

The Red press also claimed the French planned to blow up the side of Lorelei Mountain damming the Rhine and flooding the country for miles around.

A French spokesman described this report as "nonsense."

## Britain Planning To Hold Census

London, June 18—(AP)—British lawmakers have been asked to clear the way for a census of Great Britain's people as of midnight, April 8, 1951.

A draft order in council—the work of the King and his official advisers—is before Parliament under the census act of 1920. The order provides for the 1951 census, first in 20 years.

The census will be Britain's 15th. The 1941 census was skipped because of the war. In 1931 Great Britain had 44,790,435 people.

Meteorites are said to have been man's first source of iron.

# County Office Lists Job-Hunting Grads

Approximately 205 recent high school graduates are registered for summer work or regular work with the employment service of the Pitt county office of the state employment security commission.

Mrs. Mary R. McCrary, who is in charge of the employment service for the young high school graduates, said there are approximately 80 young men and 116 young women who graduated this year from Pitt county high schools who are registered for employment with the local office.

Of these high school graduates, 42 are from Farmville, 26 are from Bethel, and 16 are from Ayden. There are approximately 45 Greenville high school graduates registered with the office and 36 graduates of Zipporah high school. The other high school graduates who are seeking employment through the local office are from Arthur, Bevoir-Palkland, Grifton, Chocoma, Grimesland, Stokes, Fectulus and Winterville.

Approximately 45 per cent of the applicants have been tested by the employment office for their potential aptitudes for work. They have been tested for intelligence, verbal aptitude, spatial perception, form perception, clerical perception, aiming or eye-hand coordination, motor control, finger dexterity and manual dexterity.

Mrs. McCrary said the local employment office will make any tests on a prospective applicant at the request of an employer.

In addition to the high school graduates, the employment office has a total of 312 college graduates who are registered for employment. A total of 46 of the college graduates hold diplomas from East Carolina Teachers College, and the others have diplomas from other colleges in North Carolina.

**Over \$40 Million In RFC Loans To North Carolina**

Washington, June 15—The Reconstruction Finance Corporation has poured more than \$40,000,000 in loans to North Carolina businesses since the inception of the RFC program in the early thirties, a Senate committee was told this week.

During the years 1948 and 1949, 97 loans were made to North Carolina concerns totaling \$9,455,175, RFC records show.

From the time the loan program began until late 1947, RFC had made 586 loans to North Carolina businesses totaling \$32,751,086.84.

During the years 1948 and 1949 RFC loans to textile mills accounted for 29 per cent of the money loaned by RFC. According to the records, during the two years 111 loans were made to plants manufacturing textile products. These loans amounted to \$21,659,842.

# How Members Of N. C. Delegation Cast Their Votes

(From The Reflector's Washington Bureau)

Members of the North Carolina Congressional delegation last week cast the following votes of record:

## Rejects Theory Canals On Mars

Bloomington, Ind., Jun 19—(AP)—Canal-like markings on the planet Mars are fracture lines, not products of intelligent life, the American Astronomical Society was told today.

Dr. Clyde Tombaugh, who discovered the planet Pluto, made the observation in a paper on Geological Interpretations of the Markings on Mars.

The scientist, now in charge of telescope observations at the White Sands rocket proving ground, rejected the idea that the markings are made by men on Mars.

Instead, he suggested, they are scars left by collisions with smaller planets or asteroids.

He said the red color on the planet might be due to natural igneous rocks.

Great dust storms indicate the presence of wind that might smooth out the craters and fractures, he added.

## Blount Named To Key Committee N. C. Merchants

Judson H. Blount, prominent local merchant, has been appointed to membership on the Governmental and Public Affairs Committee of the North Carolina Merchants Association, it is announced by Jacob Winstead of Rocky Mount, president of the 7,000-member organization.

In announcing the appointment, President Winstead explained that the function of the Governmental and Public Affairs Committee is to recommend to the Board of Directors of the Association in all matters pertaining to legislation, governmental and public affairs and, acting under instructions of the Board of Directors, it is to have control over such matters.

## Senators Would Oust Trygve Lie

Washington, June 19—(P)—Two Republican Senators said yesterday Trygve Lie should be ousted as Secretary General of the United Nations unless he withdraws his proposal for recognition of Communist China.

In a joint statement, Senators Bridges of New Hampshire and Knowland of California accuse Lie of being a tool, if not an actual ally, of the Reds, and called on the Administration to seek his discharge if he doesn't stop urging that a Chinese Communist be seated on the U. N. security council.

"Lie says, in effect, if Russia will not accept the rules of the U. N., the rules must be changed," their statement said. "He adopts the same tool, if not their ally."

"What Lie proposes is more than craven appeasement. It is surrender, abject capitulation."

The two Senators said the United States should use its veto, if necessary, to prevent a Chinese Communist from taking a seat on the security council.

"There is grave danger," they added, "that the Soviet Union may destroy the United Nations by holding a gun at the head of each free nation with a dicta: 'do it our way—or else.'"

## Car Turned Over In Taking Curve

A convertible operated by Leroy Cherry of Route 3, Greenville, failed to make a turn on the Black Jack road about 10 o'clock Friday night and turned over on its side, Patrolman R. C. Holt reported today.

Cherry, the only occupant of the car at the time of the accident, suffered minor lacerations about the head and knee. He was treated at Pitt General Hospital and released, Patrolman Holt reported.

Holt stated that Cherry was charged with driving in a careless and reckless manner.

## Roughly 400

(Continued From Page One) who were present were Fred Smith, Zebulon, the exceptional child; Mrs. Mark Goforth, Lenoir, school lunches; Mrs. W. W. Sugg, Charlotte, art; Mrs. C. C. Curtis, Asheville, membership; Miss Virginia Ward, Wilmington, mental hygiene; Mrs. T. J. Edwards, Rutherfordton, by-laws; Miss Eunice Query, Boone, reading and library; Mr. Schenkan, Chapel Hill, radio; and Ben Neville, Whitakers, recreation.

President Messick's address this evening will be based on the topic "The Child Today—The Citizen Tomorrow."

Others who will appear on the program are Dean Jenkins; J. H. Rose, superintendent of Greenville schools; the Rev. H. G. Hanes, D. H. Conley, superintendent of Pitt County schools; L. M. Buchanan, Greenville, alderman.

Mrs. Marguerite Scheid of Chicago, field consultant for the National Congress of the PTA, will be present for the meeting and will be introduced to the audience. Dan E. Vornholt, tenor, of the East Carolina faculty will give a program of songs, with Robert Carter of the college as accompanist.

A reception and social hour, at which delegates to the Institute will be honored guests, will take place at the home of President and Mrs. Messick following the meeting this evening. Sponsors of the event will be the Greenville and the Pitt County organizations of the PTA.

Certain types of the sulfu medicines now are being widely used to cut down disease fatalities among poultry.

## AWAIT NEWS OF MISSING DADDY

PENSIVE, Edward Freeman, 20-months-old, and his sister, Mary, 3, sit beside a picture of their father, Samuel, missing since May 23 from his home in Brighton, Mass. The children's mother, Joyce, an English war bride, reported that her husband has not been seen since getting in his car and driving away. A war veteran who served with Gen. Patton in Europe, Freeman had been under care of a psychiatrist. (International)

## Surgeons Install Healthier Kidney

Chicago, June 19—(AP)—A kidney from a dead woman has been transplanted in another woman in an operation described as the first of its kind ever performed.

Dr. Richard J. Lawler said the surgery was performed Saturday morning in Little Company of Mary Hospital and that the patient was in "good condition" early today. Her condition was normal and she had talked to her husband, hospital attendants reported.

Dr. Lawler, a member of the hospital staff and senior attending surgeon at Cook County Hospital, directed the operation. It was begun 10 minutes after the donor of the healthy kidney died and required an hour and a half.

Mrs. Ruth Tucker, 49, entered the hospital five weeks ago with doctors sought a suitable donor. The woman who consented to give her kidney after death also was 49 years old, of the same physical size and with the same blood type. She died from hemorrhage of the varicose veins of the esophagus and cirrhosis of the liver. Her name was not disclosed.

The operation was photographed and was witnessed by some 35 doctors and surgeons.

## Fire Threatened Business Block Of N. C. Town

Rolesville, June 19—(AP)—A fire threatened to gut the business district of Rolesville yesterday. The town of 300 persons is 16 miles north of Raleigh and has no water facilities for fighting fires.

Fire fighting units from Raleigh, Youngsville and Wake Forest were called for help. An improvised hose system was set up running about 1,500 feet of hose from the Wake Monument Company storage basin.

A three-story building owned by L. F. Weathers was a total loss. Weathers estimated its value at \$25,000. Cause of the blaze was not discovered.

## Had 25 Arrests Over Weekend

Greenville police spent a busy week end with 25 arrests being made for various charges on Saturday and Sunday.

On Saturday 14 persons were arrested and 11 yesterday.

Of the total number of arrests only three were for drunkenness.

The majority of the cases were for assault with a deadly weapon and plain assault. A packed court room witnessed the court session of City Recorder's court this morning in spite of the hot weather.

One negro man, Harry Patterson, was charged by Police officers with three warrants, two for assault with a deadly weapon and one for discharging fire arms in the city.

## Colored News

Daily Vacation Bible school at Sycamore Hill Baptist church held its closing exercises today with an enrollment of 170. The various clubs of the church served refreshments each day. The work done by the children was displayed on two long tables which made up a lovely scenery with green and white for the exhibits, which will remain on display until Sunday at 2 p. m. Parents and friends are asked to come down in the basement of the church to see this exhibit.

## Ban Of Warlike

(Continued From Page One) scar across the face from dueling. Often youths deliberately disfigured themselves to get this distinction.

The Prussian officers were lords of all they surveyed. Many of them were arrogant, swashbuckling individuals who pushed humble folk off the sidewalks, or even struck them with their swords to get quick action. These were the fellows who had cut their teeth on toy guns.

This Prussianism, which was largely responsible for both world wars, was strongly in evidence in the first global conflict. We saw much of it along the fighting fronts,

and later among Prussian officials, major offense, he must lay his reasons for thinking so—his evidence—before the grand jury.

If it thinks there's not enough evidence, it turns the suspected man free. If it thinks the evidence against him is good, it indicts him, that is, it makes a formal charge against him.

Then he must stand trial before a trial jury.

The grand jury system prevents any citizen from being charged with a major federal crime or the malice or whim or ignorance of some U.S. district attorney. He can't make a major charge without the backing of a grand jury.

**Grand Jury . . .**

(Continued From Page One) any citizen from being charged with a trial jury and a grand jury.

The United States is divided into 96 federal districts. Each has its own court, judge, U.S. district attorney, trial jury and grand jury.

All the juries are made up of citizens from the district. No one can serve who's been convicted of a felony. There are 12 men on the trial jury. Before a trial jury can find an accused man guilty, all 12 must agree.

A grand jury—whether just a regular grand jury or a special grand jury—must have no less than 16 members, no more than 23. Actually, all have 23. Before a grand jury can make a charge against anyone a majority of the 23—or 12—must agree.

When the district attorney believes a person has committed a
