

Describe Heavy Losses For Red Koreans In Desperate Try To Break Allied Front

Big Buildups On Central And Southern Fronts For What May Be Last Big Push By Invaders; Night Battle Breaks Back Of Taegu Assault; Massing In South

Tokyo, Aug. 21 — (AP) — Allied forces Monday claimed a rising three-day toll of 11,000 casualties inflicted on Red Koreans in their desperate try to break the United Nations battle line and end the war by Aug. 31.

The Reds continued making big buildups on the central and southern fronts for the big push that may be their last.

Two Red troop and ammunition ships were reported knocked out of the war by South Korean naval units off the southern coast. Casualties were said to be heavy but not given in figures for the navy action.

A South Korean navy official said one Red ship was sunk and the other damaged by gunfire.

The Allies yielded to a tank-lad column in only one sector for a two-mile loss a dozen miles north of Taegu on the central front. But there the Reds were stopped by a flare-lit American artillery and plane attack by night. Five Red tanks were destroyed in the action.

The back of this most immediately threatening lunge at Taegu was believed broken by the unusual teaming up of planes with big guns at close quarters.

The night-flying fighter-bombers were guided to their targets by the bright glow of phosphorous shells poured among enemy troops by field artillery.

The other immediate threat appeared to be in the deep south where the Reds were building up at Chinha for a new offensive aimed at Pusan, the main allied port on the southeastern tip of the peninsula.

In fighting over the weekend from tip to tip of the 120-mile long front, the Reds lost nearly 2,000 men in the south, 6,000 on the central front and the balance on the east coast line north of Pohang.

Associated Press Correspondent Brian Swinton reported from the southern front that Americans lost a key and bitterly disputed mountain position in a give and take battle two miles southwest of Haman to 1,500 wildly charging Reds.

Fighting has raged around Haman since Saturday. The sector is defended by the U. S. 25th Infantry division. It is 10 miles northwest of the south coast port of Masan, 27 airline miles west of Pusan.

Sustained air and artillery attacks halted the Red drive toward Taegu from a Communist column north of Allied-recaptured Kumhwa. Two Red divisions have been identified in the push.

Associated Press Correspondent Don Whitehead on the Taegu front reported night flying U. S. warplanes guided by phosphorous shells hammered at the Reds for four hours.

The Communists gained two miles before the American 37th "Wolfhound" regiment and South Korean troops stopped them. Previously General MacArthur had reported these forces had regained all ground lost week to the Reds moving on Taegu.

AP Correspondent Jack MacBeth on the deep south front, said that pilots reported observing "a terrific buildup" of supplies by the Reds 6th Division around Chinha. MacBeth said it was possible the Red 7th Infantry Division had been rushed to reinforce the Sixth for

Killed to date in 1949 — 565.
Injured to date — 7432.
Injured to date in 1949 — 5710.

Housecleaning In Congress Urged

AFL Head Says Labor Must Expel 'Big Business' Clique

Washington, Aug. 21 — (P) — AFL President William Green said today that organized labor must "give Congress a good housecleaning" in this fall's elections.

Green said all labor unions have decided to work together politically "in close teamwork" toward a goal of expelling from Congress those members "who give their first allegiance to big business" and electing those with "more regard for human needs."

The AFL chief, in a speech to the 32nd annual convention of the AFL's International Typographical Union (ITU) said that if all Union members and their families vote on election day, "we can surely win."

Green resumed his attack on the Taft-Hartley labor law, saying the ITU members have served as the "shock troops in labor's fight" to oppose the law.

Trainmen On Strike In 3 Centers

President Orders Fresh Effort To Head Off Nationwide Rail Walkout

Washington, Aug. 21 — (AP) — Trainmen walked out in three key terminals today and President Truman called on his top labor adviser to make another effort to head off a nationwide railroad strike.

He ordered John R. Steelman, presidential assistant, to get representatives of the railroads and unions together in another attempt to reach an agreement.

Charles G. Ross, presidential secretary, said Mr. Truman then will review the situation again before deciding what to do next.

"If this fails," a reporter asked, "isn't seizure the last resort?"

"You will have to draw your own conclusions," Ross said.

The President, Ross said, directed Steelman to make "further efforts" this afternoon to bring the contending parties together to seek an agreement.

The country-wide dispute is over wages and hours. Today's strikes were called for five days. Trainmen said the idea is to call attention to the fact that the dispute has dragged on for almost a year and a half without a decision.

Here is where the men went out.

In Louisville—250 switchmen on the Kentucky and Indiana Terminal Railroad left their jobs. All of the road's 1,200 employees were idled. A union official said the walkout was 100 per cent effective.

In St. Paul—175 employees of the Minnesota Transfer Railway Company failed to report for the 6:30 a. m. (CST) shift. The road handles most of the switching of freight cars in and throughout Minneapolis and St. Paul. The line's 450 workers are affected by the strike.

In Cleveland—The River Terminal Railway, owned by Republic Steel, was shut down by 200 strikers. Employing some 400 workers, the line serves Republic's big steel plants. The steel company has laid off 1,500 of its 7,000 workers.

What action Mr. Truman would take, if any, isn't known.

Back from a weekend vacation, Mr. Truman met an Associated Press reporter at the Blair House. His comment on the rail strike:

"As soon as I know what the circumstances are, I'll tell you what I'm going to do."

Eben Ayers, assistant White House press secretary, told reporters "there are no plans for seizure at this time."

Cabinet Meets Over Threat Of Rail Walkouts

Ottawa, Aug. 21 — (AP) — The Canadian cabinet held an emergency meeting last night in what was believed to be a last-ditch effort to avert a nationwide rail strike set for tomorrow.

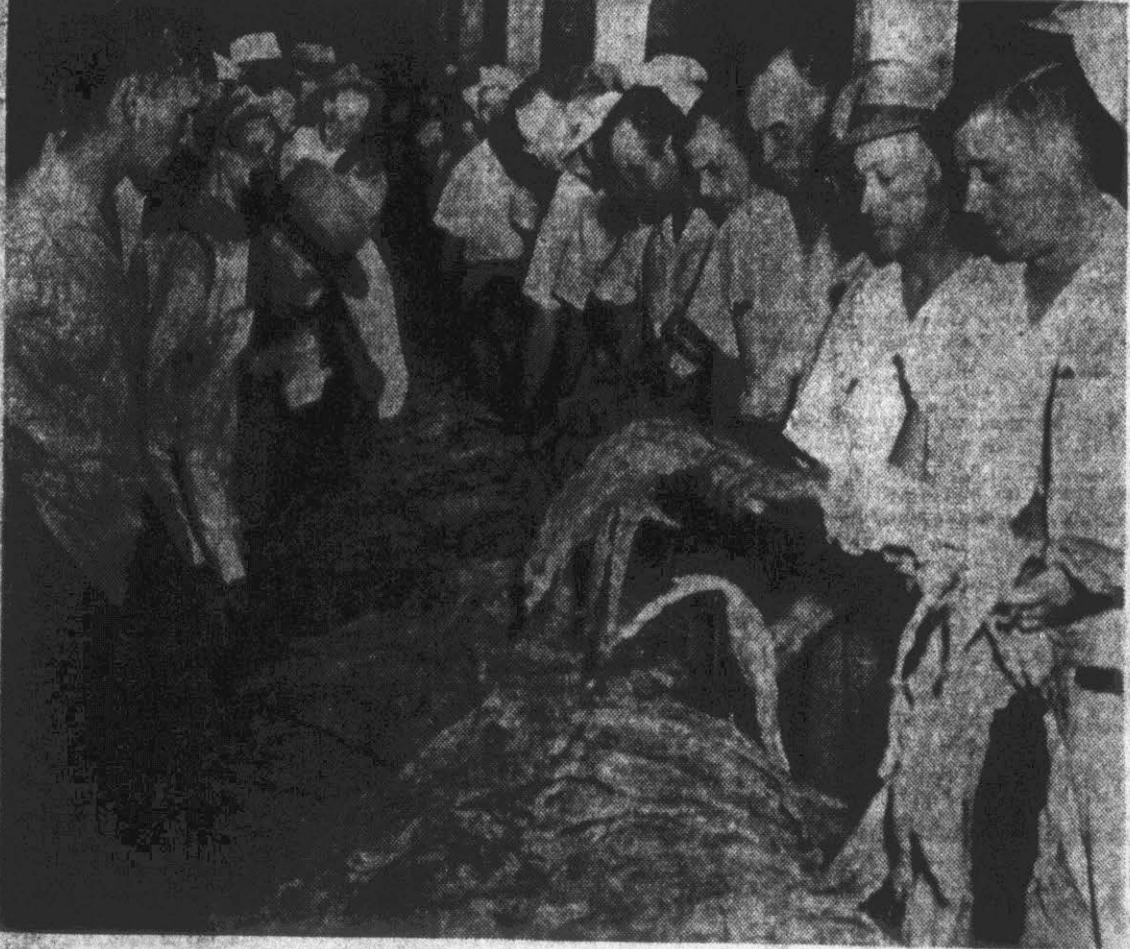

Some 124,000 non-operating rail employees have called a strike for 6 a. m. to back demands for higher pay and better working hours.

Last night's cabinet meeting, held in Prime Minister Louis St. Laurent's downtown hotel quarters, broke up shortly before midnight with no announcement of any new government action.

One informant said the government may suggest to the disputants today that the date for inauguration of the 40-hour week—main point at issue—be set about a year from now. There was no confirmation of this, however.

Tobacco Prices Averaging Between \$55 And \$58 Here

Auctioneer Chants Again For Market's Greatest Opening

The chant of the tobacco auctioneer returned to Greenville today as the tobacco market had the greatest opening day since its beginning six decades ago. Hundreds of people gathered in the warehouses, while the tobacco being sold at auction. And what the people saw they liked. The tobacco was selling higher than most of the folks had ever seen it sell before. (Reflector staff photo).

Practical Top Price In Early Sales Reported At About \$68

Raleigh, Aug. 21 — (AP) — Prices averaging from \$56 to \$58 per hundred pounds were reported for the first hour of the early sales here as the bulk of the eastern North Carolina flue-cured tobacco belt opened its 1950 sales season.

The U. S. and N. C. Departments of Agriculture said the bulk of sales ranged from \$55 to \$58 per hundred with the extreme range from \$12 paid for poorest crude nondescript to \$69 for better cutters and lugs.

These prices were substantially higher than on last year's opening when 14,003.75 pounds were sold on opening day at an average of \$46.42 per hundred.

"The volume of tobacco offered was extremely heavy and sales were expected to continue heavy for the remainder of the week."

The Departments of Agriculture reported that the practical top price on the early sales was \$68 a hundred.

Demand was good especially by domestic buyers for leaf suitable for cigarette manufacture. The quality of the offerings was better than on last year's opening and the condition was good. It included more smoking tobacco and it was lighter in body and color.

Only a few baskets went to the Tobacco Stabilization Corporation under the government price support program.

The Department of Agriculture reported these price ranges for various grades:

Fair quality smoking leaf \$59 to \$68, low leaf \$46 to \$55, good smoking leaf \$64 to \$65, fair smoking leaf \$60 to \$62, cutters \$64 to \$65, lugs \$56 to \$58, good lugs \$62 to \$65, fair lugs \$53 to \$64, fair primings \$42 to \$66 and low primings \$30 to \$52.

One large market reported that 125 piles of the early sales averaged \$59.30 a hundred pounds. Another market reported that its first row averaged \$58.37 and the second \$55.85.

Another large market expected to have an average of from \$55 to \$58 for the first day's sales.

Medium grades were reported on this market to be selling from \$15 to \$25 a hundred above government support prices and top grades from \$1 to \$3 above.

The practical top price on this market was \$69 a hundred although one sale at \$106 a hundred was reported.

Upwards of 17,000,000 pounds of flue-cured tobacco which is used in the manufacture of cigarettes were expected to be sold before buyers and auctioneers wind up the first day of sales this afternoon.

Major W. S. Stafford today received the resignation of the fourth Greenville policeman to resign in the past two weeks.

The officer, Kirby A. Conway sent his written resignation to the mayor shortly before 11 o'clock today and it was accepted.

Conway's letter given to the mayor read: "I hereby tender my resignation as a member of the police force of the city of Greenville effective immediately." The letter then went on to state that the reason the officer was quitting was due to a physical condition which at the present time prevented him from carrying out his duties.

Mayor Stafford today said that Conway had not worked for a couple of weeks. Dr. Bartlett verified the reason given for the resignation of the officer, the mayor said.

Conway began his duties with the police department on January 1st of this year. Previously Conway had served on the force for six months during the war years. Acting Chief Wooten was at that time acting as chief.

Officer Tenders His Resignation

Kirby Conway Ascribes Action To Reasons Of Health

Fort Bragg, N. C. Aug. 21 — (P) — The Fort Bragg Public Information Office reported today an Indian soldier was shot and killed yesterday by sentries in the 782nd ordnance company's motor pool.

The dead man is Pvt. Buddy L. Campbell of Wolf Point, Mont., son of Mrs. Emma W. Campbell.

The PTO said Campbell apprehended by a sentry about 3 a. m. as a second sentry approached, the announcement said, Campbell broke free and ran. Both sentries ordered the man to halt and then fired. Bullets hit Campbell in the back and elbow.

Nehru's Intervention

Why Should India Approach Red China With The Hope Tibet Can Be Spared The Invasion Now Said Being Readied? Preparing For Leadership Of All Asia

By DEWITT MACKENZIE

India's representation to the Chinese Communist regime, in hope of preserving the political independence of Tibet, invites interested speculation.

When we speak of the government of India we instinctively think of Prime Minister Nehru, one of the great new figures of our time. And that gives rise to the question of what special interest he can have in this state which perches among the towering mountains of the "roof of the world," like an eagle in its native element.

Of course Tibet is an isolated northern neighbor of India and there is a tradition of "friendship" between the two. However, they have never been close, except in the geographical sense. Moreover from the military standpoint even the projected Communist occupation of Tibet wouldn't create for India any threat which doesn't already exist.

Why then does Nehru emphasize the situation with a note to the Chinese Communist government which, by the way, India has recognized officially? It strikes me that his move may have a very special

significance.

It certainly could be another indication that Nehru is heading towards the leadership of Asia. The man upon whose shoulders that mantle falls must be the big brother of the little fellows like Tibet, as well as the counselor of the mighty.

In any event, Nehru is extending a helping hand to a small country that suddenly finds itself emerging into a strange new world which can be very self-centered and hard-boiled. And naturally the prime minister is well aware that his actions are being noted carefully by the chancelleries of many nations, both in the Orient and in the West.

India says she hopes Tibet's status will be settled in friendly negotiations. The Indian government will be pleased if there is a continuance of the status quo under which Tibet would be an autonomous part of Red China.

The Peiping Communists are said to have offered regional autonomy to Tibet if she will join the Red regime without trouble. That puts

Pressure Grows For U. S. Statement Of Objectives

Washington, Aug. 21 — (AP) — Republican pressure built up in Congress today for a statement by President Truman of over-all objectives in the Korean fighting and the cold war against communism elsewhere.

Senator H. Alexander Smith (R-NJ) told a reporter that Secretary of Defense Johnson will be asked to spell out to the Senate Foreign Relations Committee in a closed meeting tomorrow the military objectives so far as Europe is concerned.

But Smith said that more urgent, in his opinion, is a declaration of war and peace aims by the President that will let Congress know where the country is headed.

"We need a statement of over-all objectives a blueprint from which we can work," Smith said.

Echoing that demand, Senator Millikin (R-Colo.) declared that Congress is working in the dark when it is called upon to vote increased military appropriations, authority to clamp controls on the civilian economy and increased taxes.

"It is difficult to legislate intelligently when we don't know whether we are preparing for all-out war or not," he said. "We have no fixed objective toward which we could be working."

Two minor week-end road accidents in Pitt

With the exception of two minor or highway accidents over the weekend, Pitt county was rather quiet on the eve of the Tobacco Market Opening State Highway Patrol officials reported today.

While the flow of traffic has picked up considerably over the week-end, as was expected with the market getting under way today, it moved without incident in most sections.

The first auto accident occurred Friday night about 9:30, near Owens store near the Patsburg highway.

A car operated by Charlie Barrett, of 918 Fleming Street, Greenville, Negro, was traveling east at a slow rate of speed without a tail light, when it was struck in the

rear by another car going in the same direction. The second car, operated by Willie David Rodgers of Route 5, Greenville, colored, struck the car when its operator became blinded by oncoming traffic. Patrolman Dick Chadwick stated.

Barrett's car was knocked into the right shoulder where it then struck a third car, driven by Edna Earl Harris of Route 5, Greenville. Damage to the three cars was estimated to be about \$225 by Chadwick.

Barrett was arrested by Chadwick on charges of operating a motor vehicle without proper lights and transporting bootleg liquor.

Samuel Williams who was also arrested, was taken to the hospital.

(Continued on Page Eight)

Eight Of 11 In Auto Are Injured

Saluda, S. C., Aug. 21 — (AP) — Eight of 11 occupants of one automobile were injured near here Saturday night. The car collided with another as it left a drive-in theater.

Four were admitted to Greenwood hospital at Greenwood, four were treated and dismissed. The other three were uninjured.

Highway Patrol Corp. J. W. Ledbetter said the car was driven by Will Rowe, who was accompanied by his wife and five children and four children of a neighbor.

Social Security Law

Some Of The Changes Congress Voted In Social Security Program: Presidential Approval Considered Certain; Four Principal Features Of The All-Over Bill

By JAMES MARLOW

Washington, Aug. 21 — (AP) — Congress now has made more changes and improvements in the social security programs than at any time since they became law 15 years ago this month, Aug. 14, 1935.

Here are the four programs—the main changes noted in parentheses—with fuller details in later stories:

1. Old-age and survivors insurance.

A man who works long enough in a job covered by the law gets a pension when he retires after 65. So does his wife, or widow, when she reaches 65. A man who has worked long enough in a covered job to be entitled to a pension is called a "fully insured" worker.

(The size of the pension has been increased for all now receiving it, or who'll get it in the future. This increase starts Sept. 1. It will show up in the checks mailed by the government around Oct. 1.)

If a fully-insured man dies before or after 65 and leaves under-18 children, each receives a payment until reaching 18. So does the widow until the last child is 18. Then her payments stop but when she reaches 65 she'll get a pension.

(Continued on page eight)

Swimming Pool Ordered Closed

The Greenville city swimming pool has been closed as a precaution against the threat of an outbreak of polio, it was announced by Chairman of the city recreation commission Heber B. Tripp.

"The step is being taken just as a precaution," Tripp stated. "There is no danger at the present time as far as can be determined, but we feel it is best to close the pool. No state of emergency exists now."

After conferring with several doctors in the city about closing the pool soon, on the reporting of Pitt's fifth polio case on Saturday, the reaction was taken on the basis of their advice.

Previously it was announced that the pool would remain open this week with free swimming for all, but the polio scare cancelled the plans.

The doctors stated that the pool would be better closed as it would offer a place where large crowds of children would gather, increasing the dangers.

Twenty-Four In Channel Contest

Folkstone, Eng., Aug. 21 — (AP) — Twenty-four swimmers stood by today, ready to plunge in the London Daily Mail's 1,000-pound (\$2,800) English Channel race.

Weather prospects were reported good. The swimmers are scheduled to start from Cap Gris Nez, France, at midnight tonight, French time (8 p. m. Eastern Standard Time).

Social and Personal

Christian Science Service

"Mind" was the subject of the lesson sermon in all Christian Science churches and societies on Sunday, August 20.

Golden Text: Daniel 2:20. "Blessed be the name of God forever and ever: for wisdom might be his: he giveth wisdom unto the wise, and knowledge unto them that know understanding."

Among the citations comprising the lesson sermon were the following from the Bible: "Trust in the Lord with all thine heart; and lean not unto thine own understanding." (Prov. 3:3).

And from the Christian Science Textbook by Mary Baker Eddy: "When man is governed by God, the ever-present mind who understands all things, man knows that with God all things are possible." (Page 160).

Mrs. Cox Hostess

To Bridge Club

Ayden.—Mrs. Raymond Cox entertained the members of her bridge club on Friday night at her home on First street. A delicious cold plate supper with iced tea and homemade cake was served.

Coca-Colas were served during the game.

At the end of play Mrs. Wilbur Dunn was given figurine novelties for high while Mrs. Wayland Har-

ington was given a like prize for guest. Low figurines, were won by Mrs. "Mac" Edwards.

Guests included Mesdames Dunn, Harrington, Edwards, Marvin McCormick, Chester Hart, Clarence Hart, Dalton and Gardner.

Miss Jo Ann Braswell Honored At Party

Ayden.—Miss Sarah Sellers gave a party Tuesday night welcoming Miss Jo Ann Braswell to Ayden. Sarah was a perfect hostess and the party was a big success. Jo Ann expressed her happiness to everyone by saying that she knew that she would enjoy Ayden.

The guests included Jo Ann Braswell, Eleanor Cox, Sadie Hatch, Cora Pauline Moore, Ann Willis Smith, Lois Jolly, Gene Harris, Marvin Baldree, Jr., R. H. Mason and L. L. Kittrell.

Out of town guests were Ruth Page, Dorothy Wilson, James Smith, Ben Robinson, Don McKinsie and Larry Tucker.

Miss Lillian Harris Is Honored

On Thursday night, August 17, at 8 o'clock at the Lang's Community club house, Miss Lillian Harris of Ballard's Cross Roads was honored at a miscellaneous shower given by Mrs. Chester Worthington and her daughter, Miss Sue Worthington. Miss Harris will be married to Mr. James Reavis of Enfield, N. C., on Wednesday, August 23, at Ballard's Presbyterian church. Miss Worthington will be one of her honorary bridesmaids.

The guests were greeted by the hostesses, the honored guest and her mother, Mrs. C. H. Harris. Mrs. Jack Kite introduced Mrs. Jim Pollard of Farmville, N. C., a recent bride and her mother, Mrs. P. L. Fields, of Greenville, N. C. The hostesses wore corsages of pink carnations. They presented their honored guest a lovely all white corsage and her mother a pink carnation corsage, while Mrs. Pollard was presented one of white carnations. For this occasion, the honored guest chose a lovely navy blue dress trimmed and embroidered in pink.

A color scheme of green and white was used in the decorations in the spacious club room. Near the entrance, where the guests were received, there was a table covered with a white and silver cloth for the gifts. Lighted hurricane lamps of crystal graced the table and above it hung lighted wedding bells entwined with ivy and white satin ribbons. At the opposite end of the room there was a table covered in white and a wedding scene of miniature dolls was arranged. The background was an arrangement of all white flowers and evergreens flanked on either side by white tapers in crystal candelabra and suspended silver bells.

The hostesses gave the honoree a gray-boat in her selected china. They presented Mrs. Jim Pollard lovely linen pillow cases.

The refreshment table was covered with an imported linen cutwork cloth. A silver bowl of white bridal flowers flanked by white tapers formed the center-piece. The honoree's mother served individual bridal cakes from a silver two-tier platter. The table held other dainty party refreshments carrying out the color scheme of green and white.

Guests were seated at small tables. The honoree's table held a tiny wedding scene in candles, one tall candle was lighted as she found her place.

Iced drinks were passed. There were 35 guests.

Goodbyes were said to the hostesses and honoree.

Ayden News

Mr. and Mrs. Allen Johnson spent the week-end in Winston-Salem, accompanying Mrs. Frank Sherrill and baby home after a visit here.

Mr. and Mrs. George Phillips have moved to 1210 Chestnut St.

Push For Action Against Board

Chapel Hill, N. C., Aug. 21.—(AP)—A group of Chapel Hill Negroes has voted unanimously to institute suit against the local school board for equal educational facilities in Negro and white schools.

The action was taken at a meeting here yesterday. The resolution calling for suit was passed by an executive committee and then was promptly endorsed by the some 75 persons present at the meeting.

Tibet is governed by the priests of Lamaism, the state religion.

Boys' Knicker SUITS

All wool gabardines and plaids, 6 to 13—\$19.95

Lillian Joyner Becomes Bride Of John Pope Jr. Saturday Afternoon

MRS. JOHN EDWARD POPE

The wedding of Miss Lillian Joyner, daughter of Mr. Joseph Earl Joyner and the late Mrs. Joyner and John Edward Pope, Jr., son of Mr. John Edward Pope and the late Mrs. Pope was solemnized at the Eighth Street Christian Church in Greenville on Saturday afternoon, August 19, at 5 o'clock. The Rev. William O. Haney, pastor of the First Christian Church in Wilmington, son of Dr. H. Glynn Haney of the Eighth Street Christian Church in Greenville, officiated at the ceremony.

The altar banked in Oregon fern, dispersed with seven-branched candles, and baskets of white gail-doll and lilies formed the setting for the wedding.

Preceding the wedding ceremony, a program of nuptial music was presented by Mr. Leon Fleming, Jr., organist of Greenville. Miss Martha Cotten Critcher, cousin of the groom, and Mrs. Wallace Kirby of Roxboro were soloists.

The bride given in marriage by her father wore a gown of duchess satin. Tiny white buttons fastened the fitted bodice which was styled with a triple-pointed yoke and small collar of Chantilly lace, the lace extending down the neckline giving a peplum effect. The sleeves were fitted and ended in Cals points over the hands and the luxurious full skirt fell into a long circular train.

Her three-quarter veil of illusion edged in matching lace was attached to a courtly tiara of seed pearls. She carried a white prayer book topped by an orchid. It was showered with white satin ribbons and stephanotis.

Miss Elheylene Joyner, sister of the bride, was the maid of honor. She wore orchid net over matching taffeta, fashioned with a berth neckline and full skirt. Her mitts and bonnet were also of net and taffeta. She carried a colonial bouquet of roses and asters.

The bridesmaids wore gowns similar to that of the maid of honor in pastel net and taffeta with mitts and bonnet to match. They carried colonial nosegays of roses and asters. The bridesmaids were: Miss Carrie Smith of Seven Springs, Miss Elizabeth Cates of Timberlake, Miss Lois Edwards of Greenville and Miss Joyce Jackson, cousin of the bride, of Greenville and Winterville.

Attending the bridegroom as best man was Warren Pope, his brother of Los Crusus, New Mexico.

Ushers were: Kenneth Sexton of Durham, James H. Chapman of Columbia, South Carolina, James and Wilton Joyner, brothers of the bride, of Greenville.

Following the ceremony the bride's parent entertained at a reception at their home.

Later in the evening the couple left for a wedding trip. For traveling the bride changed to an aqua summer suit with beige linen accessories and her wedding orchid taken from her prayer book.

The bride graduated from East Carolina Teachers College. Since then she has taught in Hopewell, Virginia and for the past year was a member of the Winterville school faculty.

Mr. Pope attended Duke University and graduated from the University of North Carolina. While there he was a member of Pi Kappa Alpha fraternity. He is now associated with his father in insurance business in Williamston. After a wedding trip to Canada, the couple will be at home in Williamston.

Women In The Church

Under the leadership of the United Council of Church Women, Protestant women in more than 1,500 American communities have opened a two-year study of local employment and living conditions. In order to stimulate interest in the project, the women took their own "economic temperatures." They answered such questions as these: "Am I informed as to the well-being and needs of my fellow citizens?" "Do I read only newspapers and magazines that express the point of view of my own economic group?" "Am I working with any organization which carries responsibility for meeting the needs of persons in my community?" A suggested outline for the economic survey is contained in a booklet, "Our Daily Bread," distributed by the United Council from

its headquarters, 156 Fifth Ave., New York City.

The first Russian Orthodox seminary ever set up for women has been opened in Paris, under the sponsorship of Metropolitan Vladimir, head of the Russian Orthodox parishes in Western Europe. The Women's Cooperating Commission of the Federal Council of Churches, of which Mrs. Van Santvoord Merle-Smith is chairman, has been interested in helping the new venture financial.

The first class to "sign up" consisted of 38 women, between the ages of 28 and 70. They study three hours per night, three nights per week. Their studies include dogmatics, church history, ethics and theology.

Miss Clara M. Isley, M. D., of West Virginia, newly-commissioned missionary of the Methodist church in the Philippine Islands, has been assigned to medical service in the "new" Mary Johnston hospital—rebuilt after total war destruction. Says Dr. Isley: "The building which is nearing completion is in the heart of the slum section of Manila. It is

a three storied 'H'-shaped building of steel and concrete having a capacity of 130 beds, and stands out in a most impressive manner as it rises above the miserable shacks around it. The new building is standing on the same site the old one was on. Of course our purpose in building in this area is that we may serve those who need help most. In spite of having no hospital since the war, the nursing school has managed to continue."

Bethel News

Mr. and Mrs. Murray Hodges and children of Norfolk were visitors of Mrs. Henry Staton last week.

Miss Eleahor Ward Staton returned Wednesday after a three day tour of the western part of the state. She visited Asheville, Cherokee, where she attended the pageant, "Unto These Hills," Chimney Rock and Gatlinburg, Tenn.

Mrs. Robert Hooker of Washington, D. C., visited Mr. and Mrs. L. Andrews, last week.

Mr. and Mrs. Leslie Riddick and family of Plymouth were guests of Mr. and Mrs. Jim Andrews Sunday.

Mr. and Mrs. Z. V. Bunting, Mrs. Van Taylor, Jr., and little son are spending two weeks at Atlantic Beach.

Mr. and Mrs. Nick Noble and Sue of Trenton, Mr. and Mrs. Alton Whitehurst, Sally Ann and Vance are planning to spend part of next week at Atlantic Beach.

L. L. Andrews, Jr., is visiting his sister, Mrs. Robert Hooker, in Washington, D. C.

Mr. and Mrs. W. R. Hunnicutt and children have returned from a trip to the western part of the state. They visited Cherokee and attended the pageant, "Unto These Hills."

Joyce Worsley returned to her home in Robersonville Tuesday after visiting her aunt, Mrs. Jimmie Smith.

Little Joe Hunnicutt is visiting his grandparents, Mr. and Mrs. E. W. Braxton in Winterville.

Mr. and Mrs. Cecil Chewing and son, Freddie of Sumter, S. C., were recent visitors of Mr. and Mrs. L. Andrews.

Miss Ann Elizabeth Purvis of Tabor, Barbara Ann and Patricia Whitehurst, Janelle Whitley, Jimmy Staton and Ralph Tyson visited Harkers Island and Atlantic Beach Sunday.

Mrs. W. H. Jenkins and Beverly Ann of Charlottesville, Va., are visiting Mr. and Mrs. L. L. Andrews.

Rev. N. W. Grant, Lecky McWhorter and Tommy House attended the sub-district meeting of the Youth Fellowship at the First Methodist church in Rocky Mount, Monday evening.

Mr. and Mrs. J. B. Bunting are visiting in the western part of the state.

Margaret Rose Powell returned Thursday after spending the summer at Montreal.

BISSETTE'S

Strength for the Day

By EARL L. DOUGLAS

SECRET OF YOUR PRAYER

The English preacher Spurgeon was noted for the homely but graphic figures by which he described spiritual truth. Speaking once about prayer he said: "Prayer pulls the rope below, and the great bell rings above in the ears of God. Some scarcely stir the bell, for they pray so languidly; others give but an occasional pull at the rope; but he who wins with heaven is the man who grasps the rope boldly and pulls continually with all his might."

St. Paul urged his followers to pray without ceasing. By this he meant that they should maintain toward God at all times an attitude of attention and responsiveness and should interlard the events of daily life with brief petitions or exclamations of adoration and praise.

One reason why people often fail in prayer is because their prayer life lacks continuity. Facility in prayer grows exactly the same as facility in musicianship or athletics—by practice, diligent and continuous. We might as well expect to have facility at the keyboard by practicing once a week or once a month, as to expect power in prayer by occasionally resorting to its promised privileges. Continuity is the word—and the program.

A Luxury Everyone Can Afford

Tobacco market season means more cars and trucks on the highways in Pitt county. It usually means, too, more mules and other livestock to run loose on the roads while their masters are busy marketing their money-crop.

State highway patrolmen are preparing to cope with the increased accident rate they fear will come to Pitt county and other counties in this section with the opening of the tobacco market. Patrol officials have urged automobile and truck drivers to be extremely cautious on the country roads as well as the highways during this busy season of the year.

Pitt county already has had far too many automobile accidents for this year. Too many people have been killed and too many others have been injured due to carelessness on our roads. Property damage caused during 1950 by motor vehicle accidents already runs high into the thousands of dollars.

Careful driving is an inexpensive luxury which every person can afford. Careless driving carries with it the high price of death and injury.

A Wise Move To Prevent Polio's Spread

The city administration and the recreation commission of Greenville took a wise step in closing the swimming pool as a precaution against the spread of the dreaded disease, polio.

Pitt county has had only five cases of the disease reported this year. The number is not excessive compared with past years, yet it is better to be over cautious rather than careless.

The closing of the swimming pool today rather than letting it remain open for free swimming all this week will be a disappointment to a lot of Greenville children and some adults. Yet with the county schools scheduled to open next week and the Greenville city schools opening the following week, every precaution should be taken to prevent any possible outbreak of polio which would cause a delay in the opening of school.

Pitt county so far has been spared the ravages of a severe polio epidemic. Continued precautionary measures will be a big factor in avoiding an epidemic in the county.

A Standard Scale For U. N. Forces?

British infantry troops and other ground forces are joining the United Nations troops fighting in Korea. The U. N. force is becoming more and more a military machine actually made up of troops from many nations, even though the United States force still dominates the group.

With the coming of British ground troops into the Korea action, however, there has come a proposal from a London newspaper which may cause a controversy within the U. N. The newspaper has proposed that all

troops fighting under the flag of the United Nations be paid the same salaries.

The boys from the United States are the highest paid fighting men in Korea. Their pay grades in most cases are several times those of the troops of the other nations. If there is a uniform pay scale set for the troops in Korea, it should be revised upward to meet the level of the American troops. But if such salaries are paid out of United Nations funds, it will mean that American dollars, which make up a large percentage of the U. N. money, will be used to pay troops of other nations. The United States will be paying for other troops as well as her own. That would hardly be fair.

The Reflector is in accord with the idea that basically the U. N. forces should receive the same salary from U. N. funds, but the nations should pay into the general fund according to the number of troops being used in the war area. But in addition to the U. N. money, which of necessity would be a lower pay scale than is received by United States troops, each individual nation should be allowed to supplement the pay of its fighting men as much as it can afford.

To say the American soldier in Korea should not receive any more than the British soldiers appears sound on the surface. But it can hardly be feasible when we consider that wage scale in the United States is much higher for all jobs, military and domestic, than the wages paid in Britain.

The pay of United States military forces must be kept in line with the pay of those employed in civilian jobs in this country.

National Whirligig

News Behind The News

By RAY TUCKER

WASHINGTON, Aug. 21—Although President Truman has been eulogized and reelected as the national political champion of the "little fellows," "small business" and "liberals," he has turned over more business and dollars to those he assails during campaigns as "the selfish and privileged interests" than any Chief Executive except Franklin D. Roosevelt. He holds the record for a peacetime President, however.

That is the amazing, off-the-record conclusion from a compilation of his grants and expenditures to "big business, big industry and big agriculture" since V-J Day. It includes payments and loans which have been handed out under the agricultural parity-price program, the Marshall Plan, national defense, routine government expenditures and the Reconstruction Finance Corporation.

With the emergency national defense and foreign rearmament outlays scheduled for fiscal 1951, a financial burden which may last for many years, it is estimated that the Truman Administration will have spent more than \$200,000,000 for the benefit of the upper brackets of American agriculture, business, industry, finance, transportation etc.

PROFITS—It is true that these vast outpourings of money "trickle down" to the advantage of small farmers, the average workman, small business men, service trade employees, professional men and the people in general. But a tremendous amount of Truman dollars are siphoned off at the top, which explains why the profits of corporations after taxes break all records.

Ironically, President Truman has not been able to achieve similar successes for the masses who vote for him and regard him as their hero. In his five years in office, he has not fulfilled a single pledge of his so-called "fair deal," and he has virtually abandoned that domestic program because of the foreign crisis.

He has not been able to repeal the Taft-Hartley Act. He has not been able to put over national health insurance or federal aid to education. The Brannan Plan is dead. Any FEPC system is out for the Korean duration. Even his scheme for development of public power is crippled. Save for Social Security expansion, which both parties favored, he has done nothing for the "little fellows."

OPENED—President Truman's organized labor friends begin to appreciate the oddities of this situation, although they make a slightly different approach and answer. In asking why Republicans criticize these lending and financing processes, the American Federation of Labor's political organ recently asked:

Do business men like the RFC program? They sure do. That includes Republican National Committee Chairman Guy (The Fair Deal is Socialism) Gabrielson. He is president of Carthage Hydrocol Inc. of New York, which is in the natural gas business. "Carthage Hydrocol has received three loans totalling \$18,500,000 from the RFC. . . . So, you see, business men talk a good game against the 'welfare state.' But between innings they dip their mitts into the Federal Treasury."

The labor editors do not add that "business men" could not "dip their mitts into the Federal Treasury" if President Truman had not opened it to them.

BENEFIT—The records show that the majority of commodity subsidies in the postwar years have gone to well-to-do farmers, not to the small growers. The latter get the benefit of government-fixed parity prices, but the government checks have largely been paid to owners of vast acres, with payments ranging from \$25,000 to more than \$500,000.

The Marshall Plan, foreign rearmament and national defense preparations have benefited the "big fellows." In fact, the money has flowed to many of the firms formerly or now under anti-trust indictment because of their bigness—the du Ponts, U. S. Steel, Bethlehem, General Motors, General Electric, Alcoa. Without them, we could never win a war.

Other industries which profit from the economic and military support of Western Europe, as well as the past and proposed national defense program, are aircraft, chemicals, transportation, textiles, food, shoes, medicinal, rubber etc.

In fact, although the Marshall Plan and the new national defense program are dictated by unhappy events abroad, they will underwrite domestic production, employment and "prosperity" stave off a depression, and, possibly, help the Truman Administration politically. It is a major White House consideration.

AVERAGE—A confidential analysis of RFC loans for 1949 suggests that the administration has been more solicitous of "big business" than of the "little fellows." It must be remembered, too, that 1949 was a year of so-called peak production and prosperity, when firms should not have been too dependent on Uncle Sam.

Nevertheless in that year 4,500 loans to heavy and light industries, to service trade enterprises, to professional men, to finance, real estate, insurance and what-have-you ventures averaged \$140,000. It is no corner or hide-in-the-alley outfit which can command that average amount of loan.

Indeed it is probable that a true balance would show that the majority of the loans ranged above \$100,000. A more detailed breakdown shows what a Santa Claus this "little fellow" and "liberal" Administration has been to its campaign-time enemies. Here is a list of the average loans to certain industries for 1949:

Iron and steel, \$447,141; autos and equipment, \$1,070,000; finance, insurance, and real estate, \$800,000; food, \$1,100,000; lumber, \$1,300,000; oil, coal and gas, \$619,000; textiles, \$237,000; paper, \$237,000; rubber, \$114,000. And remember, these are only averages!

Definitions Of Russian Terms

Around Capitol Square

Daily Reflector Bureau By LYNN NISBET Raleigh, N. C.

WINSTON-SALEM — Everywhere the advisory budget commission stopped, it found manifest pride on part of institutional heads in their particular unit of state government. Dr. Francis L. Atkins, president of Winston-Salem State Teachers College here boasts about several things.

This is the oldest of the state's Negro teacher training schools, the first exclusive Negro college in the United States to offer a four year course and a degree for elementary teachers—and the college have never deviated from that purpose. It has granted degrees to 2,022 persons since the course was established 25 years ago. (The college itself was founded in 1892.) Most of these graduates have taught or are teaching in North Carolina. Alumni of the college were in classrooms of 82 counties last year.

STUDENTS—The current student body of 510 compares with enrollment of less than 400 ten years ago. Breakdown shows a ratio of 60-40 as to men and women. About 90 percent of the students come from within the state, 71 counties being represented. The 10 percent out-of-state pupils mostly have roots in North Carolina, being children of alumni or other Tarheels who have moved away. Further division shows 325 students housed on the campus, about 175 day pupils.

PHYSICAL—Immediate need is for additional classrooms, including music and arts building, and living quarters for girls and women teachers. The budgeters ran into the same problem here they have met at almost every stop, viz: The big question of how far the state should go into the real estate business in order to provide homes for teachers, attendants and employees. Members of the commission do not approve the principle, but in some instances there seems no alternative. The present plant consists of ten buildings located on 82 acres within the city of Winston-Salem, valued at a million dollars. Appropriations have been granted for a million and a half dollars for permanent improvements, almost none of which has been used, and another million is requested.

CULTURAL—Pointing out that 87 percent of Negroes get all their formal education in elementary grades, President Atkins emphasized that his school trains only elementary teachers. His aim is to do a better rather than a bigger job. Major part of the \$81,000 increase asked for operations will be used to obtain better qualified teachers, reduce classroom loads (some classes have more than 50 students, many have more than 40, against maximum efficiency obtained in classes of 30 or less) Ten additional teachers are needed, and salary raises are necessary to retain and replace the best instructors in order to effectuate the philosophy of the school that "no finer or more effective mechanism has yet been found for true progress than a Christian education," and to

The Voice Of The People

WAKE UP

ARE you your brother's keeper? Evidently you are not. The article in Thursday's issue of the Daily Reflector is so obviously an age old trick of yelling first and loudest "Twasn't me, 'twas him" that I could see again in my mind the picture of the members of the Tweed Ring standing in a circle with each man pointing an accusing finger at the man next to him. The writer was correct in saying that the rural people need fire protection. I have been told that the county commissioners went to the Mayor and offered to pay the city of Greenville for the use of its equipment in covering rural fires until such time as a fair and practical method of county coverage could be obtained. The city managers came back with a proposal that seemed neither fair nor practical and the commissioners turned it down. The business of spending the county's money is a great responsibility and anyone with an open mind can see why they are reluctant to spend it in a way they considered unwise. Until there are more rural telephones in the county the solution proposed by the city government would not provide fair coverage.

The fact remains that if the city ran its government by the Golden Rule what was practically the life savings of two families would not have been lost. We do not expect any favors, but fire is always an emergency and it is the duty of everyone to give what aid he is able to give in time of distress. Would you stand by and let your neighbor's barn burn because he had neglected to keep his water barrel filled? Would you withhold medicine from your dying neighbor because you might at some future time get sick and need it yourself even though you had more at home?

The Daily Reflector stated that a fire truck was sent to help save the surrounding buildings. That is true—and I wish every citizen of Greenville and Pitt County could have seen it. I was not present at the scene of the fire, but it has been described to me by those present as poorly manned and pitifully equipped. We had a fire that might have destroyed the whole business section of Belvoir had it not been a still night—and the equipment we got from Greenville Fire Department was incapable of putting out anything but a waste basket or bush pile fire. Only one man came with the truck and he came without sufficient clothing to fight a fire. The heat was so intense that he could not get near enough to do any good, but luck was with us as the Farmville truck arrived fully equipped to handle the job just a few minutes behind

What Other Papers Are Thinking

and members. And, during the past three years, a plan has been worked out whereby adults and youth interested in directing recreational activities in their clubs and communities can take a special course set up for that purpose. This training and club participation has been brought about through the National 4-H Recreation and Rural Arts program now in full swing in North Carolina. The sponsor of the program, the United States Rubber company, is providing about \$20,000 for leader training clinics, club and individual awards. Last year more than 10,200 young people and 6,400

adults attended these clinics. They receive instruction in group singing, dancing, games, sports, dramatics, handicrafts and many other activities. The program is being conducted in 47 states under the supervision of the Cooperative Extension Service, and while they are having fun the 4-H'ers are also working hard to make a good showing for themselves and their club. To encourage these endeavors, merit certificates are provided for clubs and members, a \$25 cash award to counties, and Chicago 4-H Congress trips to eight national champions.

Business Today

By ELMER ROESSNER

While some business men are sitting back on their haunches in expectation that sales will keep rolling in, a larger number are not trusting to scare buying and shortages to herd customers to their doors.

These more aggressive enterprisers are neither content to depend on the war-inspired hunger for goods nor even traditional methods of advertising and promotion to increase sales. Instead, they are using imagination, gimmicks and showmanship to keep their wares selling now and in the future.

Many used car dealers are marking up prices and sitting back, sure that the present stream of customers will keep in pouring in forever. But not Horstetrader Ed in San Francisco, who has a lady flag-pole sitter trying to set a new 118-day record over his lot. What's more, he passes out beer and pretzels to those who come to gaze. And now a mid-western dealer, who features a special buy at a deep cut price every two hours.

A Florida baking company sends around photographers to the opening of every new grocery in his area. The store owner is presented with a set of pictures taken at the festivities so he'll remember the opening—and the bakery company—as long as he lives. A Canton, Ohio, furniture store has been presenting an oil-colored portrait of the customer's baby with every sale of a baby crib—another bid to make friends for life. A New Hampshire furniture store features a "sizzler" window where articles displayed are marked down 25 cents or a \$1 a day until sold.

Trade associations aren't taking a perpetual sellers' market for granted, either. The Hat Research Foundation, 545 Fifth Ave., New York, is offering dealers a plans book for National Hat Week, October 15 to 22. Sponsors of the National Old Stove Round-up, after momentary hesitation, have decided to go ahead with that promotion. Watch Inspection Time, Sept. 7 to 16; National Tie Week, Sept. 15 to Oct. 15; National Dog Week, Sept. 24 to 30, and National Sweater Week, Sept. 25 to 30, will go on as usual.

In spite of current buying levels, pepped up promotions make sense. The fact that extraordinary buying may end—it has already shown unmistakable signs of diminishing in many places—is less important than the fact that spectacular promotions may still bear results long after the present special situation is ended.

KIDDIES FOUND MARKET FOR COFFEE The Pan-American Bureau is making what looks like a gingerly effort to do something about the juvenile market for coffee. In polling 10,000 persons on drinking customs, it included persons

down to the age of 8 and reported that 70.9 per cent of all drank coffee in summer and 74.7 in winter. It added that if only adults had been polled, the percentage would have been only slightly higher—above 80 per cent. It also noted that children 8 to 11 "occasionally sample coffee" and by the time they are 17, average more than a cup a day.

LATIN AMERICAN CREDITS IMPROVE Seventeen Latin American countries have improved their credit position while six have declined, according to the semi-annual report of the National Association of Credit Men.

Chile, Paraguay, Costa Rica, Bolivia and Argentina were given poor credit ratings, and Peru, Columbia and Brazil were rated fair. All other countries were good or fairly good.

Bolivia, Brazil, Chile, Costa Rica and Argentina were rated "very slow" in remitting. Paraguay, Columbia and Peru slow, and all others prompt or fairly prompt.

ORDERS NO SALES TO BLACK MARKET The black market in major appliances is growing, nourished by not unreasonable fears of shortages. One of the leading manufacturers is warning all distributors to check on orders to make sure its trade-marked wares were not getting into the black market.

Distributors are asked to make sure builders don't order more refrigerators than the number of houses they are building. Seems that some builders are using their privileges to buy at wholesale to do a little no-rent, no-overhead marketing on the side.

TAX ESCAPEMENT TO BE OUTLAWED The gimmick of paying United States freight bills in Canada under certain circumstances to avoid the 3 per cent excise tax here may soon be outlawed. The Senate Finance Committee has agreed to write legislation prohibiting the practice. It will also prohibit the purchasing of tickets in Canada for travel in the United States.

NEW AND HOT SPACE-SAVER: A new gas-filled space heater (by the Coleman Co., Wichita, Kansas) fits in the wall between two rooms. It has outlets on both sides and is designed to blend with any decorative scheme.

LIGHTER: A new already-filled cigarette lighter has been designed for vending in ordinary cigarette machines for a quarter. It is being market-tested in Michigan (by Bowers Lighting Co., Kalamazoo).

TESTER: There's a new device for uranium hunters. It's a portable ultra-violet instrument for making daylight fluorescent tests of minerals. (It is made by Menlo Research Laboratory, Menlo Park, Calif.).

Hal Boyle's Column

By DON WHITEHEAD (For Hal Boyle)

Korea—(AP)—This is how it feels to be a war correspondent grandpappy . . . and to meet the most frustrated soldier in the world . . . and to stare a white rabbit in the eyes:

Becoming a grandpappy comes first. A cable from home told me that my daughter Ruth had given birth to a fine son—and I was now the only grandpappy among the correspondents on the Korean front.

Suddenly I found it was wonderful to have a grandson. I hadn't quite known what it would feel like to be a grandpappy at 42. But then I discovered I was just as proud of this new member of the family as when I first looked at my daughter 19 years ago.

I was in the mood to be sentimental over the big news from home. But the same day the Marines arrived in Korea and I was among the group of correspondents who met their transports at the southern port.

Our pilot boat swung alongside a transport with the deck high above us. Now, a grandfather should be permitted to board a ship with proper dignity and decorum. But my colleagues below me were shouting for me to hurry up. Topside a tough lieutenant was screaming that correspondents would not be allowed to board the ship.

I don't know the rules on what a grandpappy should do in such a case so I ignored the lieutenant and kept going up the ladder to get the interviews we were after. One of these days I am going to take time off and be sentimental about that blue eyed grandson. But up to now I just haven't had time and my hardened colleagues refuse to give me the authentic grandfather treatment.

I should have my breakfast in bed, the front seat of a jeep and the respectful silence of youngsters listening to the wisdom of their elders. But it hasn't work out that way.

The frustrated soldier was next. I stopped at an air strip and a corporal was moaning about a radio rebroadcast of a light game between the Phillies and the Brooklyn Dodgers. This corporal was a Phillies man himself.

"There it was," he said. "The Phils leading six to five in the last of the ninth at Ebbets Field. The Bums were at bat. There were two out and two Brooklyn runners on base. And then that damned radio quits. I'm going nuts if I don't find out how that game ended."

Then there was the white rabbit. I woke up one morning and opened one eye. Then I closed my eyes and opened them again only to find myself staring at a white rabbit. I closed my eyes

Washington Letter

By JANE EADS

WASHINGTON — Clarice L. Scott, clothing specialist of the U. S. Bureau of Human Nutrition and Home Economics, designs garments for women and children.

Her specialty is what she calls "help" clothes for children, functional clothes for women. During World War II, for instance, she designed women's work clothes.

The other day she exhibited a simply-fashioned, easy-to-make zip-sleeve raincoat for women and a child's "shower-shelter" fashioned somewhat after the "South American Indian" poncho. "The coat may be made at low cost by a home sewer," Miss Scott told us.

The open cape sleeves won't crush or crowd. The sleeves zip down the front sides. With the zippers all the way up, the wearer can throw back the sleeves, cape-fashion.

Diagrams for cutting the child's poncho may be had from the Bureau of Human Nutrition and Home Economics, Department of Agriculture, Washington 25, D.C. (Please do not write this newspaper.) It's a cape made from square of fabric with hood attached.

"It's as simple as can be—a square of goods with a hole in the middle with the hood sewed in," Miss Scott explained. She says the functional work clothes she designed during World War II are still being worked out by manufacturers and mail order catalogs.

Miss Scott better known as "Scotty," began to study clothing as soon as she could enroll in sewing classes at school near Scotland, Ill. She began sending exhibits of her work to county fairs when she was 10, and by the time she went off to take home economics at Earlham College, Richmond, Ind., she was making all her own clothes. Later she studied at the University of Michigan and Iowa State College.

She likes good-looking clothes. All her styles have to measure up to "eye appeal"—becoming colors, attractive streamlined—besides being functional.

Heroic U. S. Doctor Held In Undisclosed Burma Jail

Rangoon, Burma, Aug. 21—(AP)—Dr. Gordon S. Seagrave, famed American doctor who has spent a lifetime caring for Burmese sick is being held on suspicion of aiding the Karen rebels, the Burma government has disclosed.

Officials said no charges have been placed against Seagrave, whose book "Burma Surgeon" made him known to millions. They said he will appear shortly before a Burmese court. He is being held in an undisclosed jail in Rangoon.

A Burmese government spokesman said Seagrave is suspected of aiding the Karen tribesmen, who have been fighting for two years to set up an independent state.

U. S. Embassy officials said the 63-year-old surgeon's arrest was a "serious matter." An Embassy spokesman said American officials had been permitted to visit the doctor in jail and found him "in good health and receiving good treatment."

Seagrave was arrested Friday at his mission hospital at Namgham, near the China-Burma border. He was flown to Rangoon the next day. The doctor accompanied the late Gen. Joseph Stilwell on his famous 1942 jungle retreat through Burma to India. He served as a Lieutenant-Colonel in the Medical Corps of the U. S. army during the

war. His best-selling book told of the heroic trek.

The Burmese spokesman said the government suspected Seagrave of aiding Kachin rebel chief Naw to flee across the Chinese border, after an alleged attempt by Naw to overthrow the Kachin state government.

Slow Quads Are In Good Health

Sydney, Australia, Aug. 21—(AP)—Mrs. Betty Sara's quads, who gave most of Australia the jitters during the 50 hours they took to arrive, were reported in good health today.

The 29-year-old English war bride and her husband, Percy, a former Australian Air Force gunner, announced the following names for the babies:

Alison, girl, born Thursday night, weight 3 pounds 9½ ounces.

Phillip, born Friday night, weight 5 pounds 11 ounces.

Judith, born Saturday, weight 5 pounds.

Mark, boy, born Saturday night, weight not disclosed.

Volume Is Heavy On Border Belt

Raleigh, N.C., Aug. 21—(AP)—Volume continued heavy as markets on the Carolinas flue-cured border tobacco belt began their fourth week of sales today.

Prices were expected to hold, although little improvement in the quality of offerings was predicted.

Last week, prices were generally steady. Gross sales totaled 40,102,042 pounds, 16,560,000 more than the previous week. The price average dropped 70 cents from the week before to \$56.14 per hundred.

The bulk of last week's offerings consisted of fair to fine lugs, low to good leaf, fair cutters and low primings. Fair cutters and low primings brought increases of \$3, the only noticeable change in prices.

Of the total sales, South Carolina markets sold 18,626,828 pounds last week for an average \$56.01. North Carolina markets sold 21,475,214 pounds averaging \$56.25. Season averages for South Carolina are 38,711,253 pounds for an average \$56.07; for North Carolina, 42,504,016 pounds for an average \$56.33.

Kiwanians Hear Story Of India At Supper Meet

By CHESTER WALSH
Dr. B. C. Harrington of the University of West Virginia, who lived in India many years, and who was a visiting professor at East Carolina Teachers College this summer, was guest speaker at the Kiwanis Club's supper meeting last Friday night.

Dr. Leo W. Jenkins, dean of the college, presented the speaker. President Tighe Gardner presided.

Dr. Harrington explained many of the mysteries about India in a practical way. He describes the various groups or sects and enumerated the many differences of belief — spiritual and physical. He gave the Kiwanians a clearer idea of the life and habits of the people of India. His explanation of the principles of the Mohammedans and Hindus was strikingly enlightening and interesting.

President Gardner welcomed back many members who have been away. Some of them on southern tobacco markets, others on vacation. Hunter Keck and J. D. Hice had birthdays and donated a nickel for each year of their age.

A large delegation of Greenville Kiwanians will attend the interclub Kiwanis banquet sponsored by the Wilmington Kiwanis club at Ocean Terrace Hotel at Wrightsville Beach Wednesday, August 30.

President Gardner appointed the following to serve on the Charter and Ladies' Night Banquet committee: Eli Bloom, chairman; James Ray Pittman, Roscoe W. Shiplett, Ed Tyler, J. Bryan Brown, John Dickins, Ted Ashworth, John A. Collins, Jr., and Dixie McLawhorn. The banquet will be held the latter part of October.

Steps and wife, \$10.
L. C. Powell and wife to John D. Messick and wife, \$10.
Maggie K. Clapp, al. to Sylvester Wilson, \$14.00.
M. K. Porter and wife to James Lee Ebron, \$10.
S. Murray Hodges and wife to R. L. Fleming, \$10.
Johnnie Grey Currin, al. to Salie T. Currin, \$10.

Ban Press Pass To Prague Meet

By WILLIAM OATIS
Prague, Czechoslovakia, Aug. 21—(AP)—The Associated Press pass to the second World Student Congress was cancelled today and this correspondent was escorted from the grounds.

The second Congress of the International Union of Students began in the Prague trade fair exhibition hall a week ago.

The AP finally got a pass last Thursday after a week of trying. This morning I was allowed into the hall but later went out. When I returned, a blue-shirted guard from the Czechoslovakia youth movement disappeared inside with the pass, a white card.

Later a spokesman for the Congress organizing committee, who would not give his name, came back with the card torn almost in two. He said the committee had cancelled it because "you did not behave like a journalist only."

He explained that instead of staying in the press box I had gone on to the convention floor. When I said I had never been told to stay put, the spokesman refused to discuss the point. Later another blue-shirted guard escorted me to the fairgrounds gate.

I had gone onto the floor three times to speak to English, Scottish

and American delegates.

The Congress says it has no political affiliation, but its headquarters here issues endorsements of the Communist-backed world peace movement.

The National Geographic Society says half the known sunken treasure is aboard Spanish galleons.

Mrs. Myrtle Bowers Died Sunday Night

Mrs. Myrtle Craft Bowers, 52, died at her home near Williamston Sunday night about 10 o'clock.

Funeral services will be held at Bethel Methodist Church Tuesday at 4 p. m. Rev. N. W. Grant, pastor,

will officiate. Burial will be in the Bethel cemetery.

Mrs. Bowers was a daughter of the late Noah and Deborah Jeanette Craft of Washington County.

Surviving are her husband, Roy Bowers of Bethel, four sons, Roy Jr., Franklin, Wilton and Angus Bowers of the home; three daughters, Mrs. J. A. Rodgeron and Mrs. L. L.

Rhodes of Williamston, and Daphne Bowers of the home. Also surviving are four brothers, E. W. Craft of Princeton, W. Va., T. L. Craft of Bethel, A. C. Craft of Plymouth and T. R. Craft of Chapel Hill, and one sister, Mrs. H. L. Freeman of Plymouth.

Only about 70 old treasure ships have been approximately located.

Mickey Potmesil, 3 (left), and his brother, Bobby, 4 (right), show their joy at their mother's arrival home in Oakland, Calif., after two years hospitalization as a polio victim. The mother, Mrs. Phyllis Potmesil, who was stricken with polio in November of 1948, was able to come home when a local club contributed a portable iron lung to the hospital. (AP Wirephoto).

This high flying bronc, named Jet Pilot, fell on his rider, Robert Sorrells, a second after this picture was made. Sorrells was not hurt and was given a re-ride for a large purse donated by the crowd at a two-day rodeo at Truth or Consequences, N. M. Sorrells rode the horse to a standstill on his second ride. Robins Drop Weekend Games Against Kinston Eagles And Roanoke Rapids

Scorned Southpaw Trio In Weekend's Upset Victories

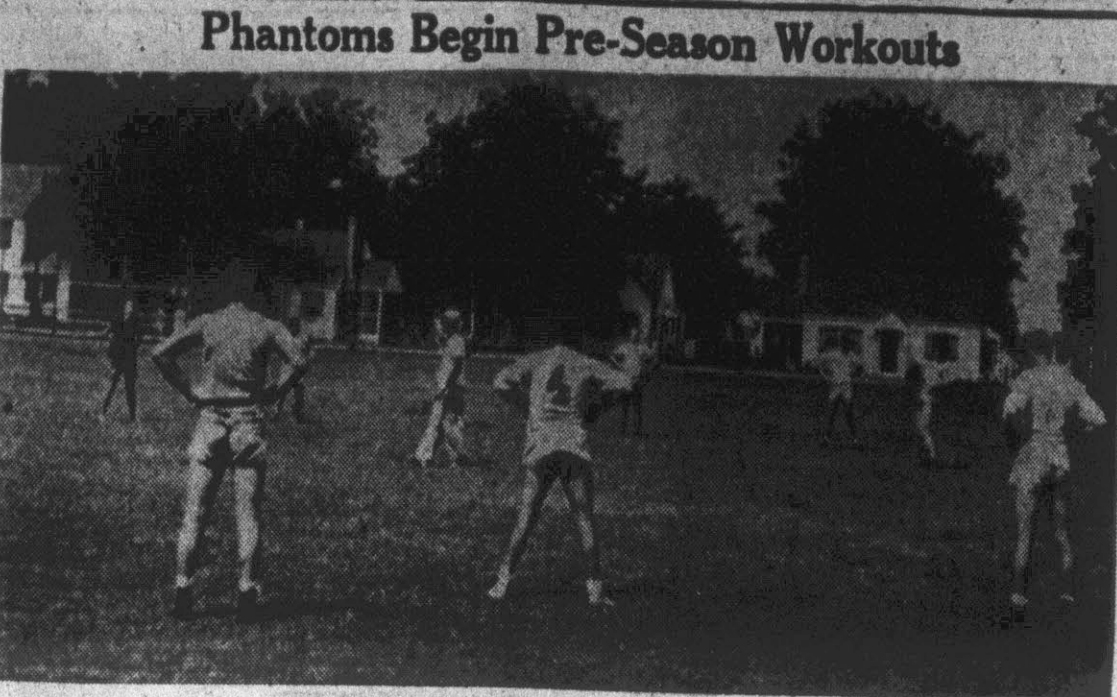

By JOE REICHLER
Associated Press Sports Writer
A trio of scorned south-paws were dancing on air today to the music made by the means and means of the Detroit Tigers and Cleveland Indians.
Fresh from upset victories over the nennant contenders, the trio—Pitchers Stubby Overmire, Bill Wirtz and Billy Pierce—proved once again how embarrassing it can be to underestimate a castoff.
Overmire, cast adrift by Detroit last winter, gained sweet revenge upon his former employers yesterday when he hung a 4-2 defeat on the league leaders to give the St. Louis Browns an even break in the opener, 3-4.
Wirtz and Pierce, traded off by the New York Yankees and Tigers,

Locals Lose First Division Berth, Dropping 5-3 Decision To Kinston And 5-4 Game To Jays; Important Twin Bill Here Tonight

By BERT MOYE
The Greenville Robins dropped both of their weekend tilts, losing Saturday night's contest here to the Kinston Eagles, 5-3, and then going to Roanoke Rapids Sunday where they dropped the first of a three-game series with the Jays by a 5-4 margin. The double loss by the Robins and with wins registered Sunday by Wilson Kinston and Tarboro, the Robins have dropped out of the first division into fifth place, one-half game behind Wilson, being only two full games ahead of seventh place Tarboro and one full game ahead of sixth place Kinston Eagles.
Kinston's Eagles scored a 5-3 victory over the Greenville Robins here Saturday night to chalk up their fourth straight victory over Manager Randy Heflin and his boys.
The Eagles started the ball rolling in the first frame when they pushed across a singleton in the first stanza on two hits and an error and then added singletons in the third and fifth frames to lead at this point 3-0.
The Robins, who had been held hitless up to this point, pushed across two runs in the bottom of the fifth when they bunched three of their Johny Tepedino led off with a double into left centerfield, advanced to third on a wild pitch and came home on Hall's infield out. Then with two away, Hancock was issued a free pass to first, advanced a second on Keys' single and came home on a single by Dick Bland. They moved to get another marker in the sixth frame when Bartolozzi and Tepedino walked with Bartolozzi later scoring on an error by Third Baseman Ray Rosenwinkel.
Two runs in the sixth clinched matters for the winners. In that inning Jack Burns singled and was sacrificed down by Gerry Lahann. He moved to third on a wild pitch and scored a moment later when Ken Aspromonte drilled a single to left. Aspromonte scored when Bob Brigham lashed a double into left field over the head of Hancock.
The Eagles garnered a total of 13 hits off two Robins hurlers. Keys, who started on the mound for the Robins and who was relieved in the sixth frame after giving up 11 hits and all five of the visitors' runs was charged with the loss, his eleventh of the season.
"Bob" Salerno was credited with his second straight win for the Eagles, although he had to have help from Fred Zirella in the final frames. Both Eagle hurlers limited the Robins to a total of five hits. All five hits collected by the Robins were scattered among as many players with Tepedino getting a double for the only extra base hit for the Robins.
Score by innings:
Kinston 100 002 000-3 5 1
Greenville 000 021 000-3 5 1
Salerno, Zirella (7) and Borger; Keys, Braun (6) and Valvano.
The Roanoke Rapids Jays rallied for three runs in the bottom of the eighth frame to gain a 5-4 decision over the Greenville Robins at Roanoke Rapids Sunday afternoon and give Pitcher Alton Brown his 26th win of the season against nine defeats.
The win for the Jays was their tenth of the season over the Robins and their third straight win in the last three meetings.
The Jays put together singles by Doug Freeman, Carl Anderson and Yonnie Bass, and a Greenville error and two walks to stage the rally. At the time the Robins were out front by a 4-2 margin.
Greenville went into the lead by scoring two runs in the initial frame and scored again in the sixth when Ralph Bartolozzi homered over the right field wall. They added another singleton in the seventh frame to put them out front 4-2 at this stage of the game.
The Robins collected a total of ten hits but tight defensive play kept the Jays out down their running chances. The Jays completed a total of four double plays during the contest.
Manager Randy Heflin was loser in yesterday's tilt to give him a record of 13 wins and 12 losses for the season. It was Manager Heflin's fourth straight loss in his turn on the mound.
The Robins and the Jays meet in a twin bill out at Guy Smith Stadium in an all-important series for the Robins. They really need to win these two games and should they do so will be back up in fourth position. Fans, they need your support, so come out tonight and help them out. The first game will get underway at 7:00 o'clock.

Farmville Tops Fremont By Narrow 5-4 Margin

BRIGHT BELT LEAGUE
Farmville 28 11 718
Macclintock 30 12 714
Oremontville 29 15 659
Pineoka 24 19 558
Fremont 17 23 425
Waltonburg 15 29 341
Chatham 13 39 310
Saratoga 11 29 275
Farmville, August 21—Sam Stell, Farmville's leftfielder, came through in brilliant fashion yesterday afternoon to score the winning run against Fremont, enabling the locals to take a close 5-4 decision over the fifth-place Bright Belt team.
Stell, in addition to putting the quietus on the game in the ninth inning, collected four hits in five times and also scored two more of the valuable markers earlier in the game. He hit a double and three singles during his stint at the plate.
Fremont almost had the game won, except for Stell, when first baseman Blackwell slammed out a four-run bases-loaded round-trip in the fourth. The blow accounted for all the visitors' runs. All until the last of the ninth, these tallies were enough to put the game into extra innings.
The win enabled Willie Mauney's team to remain in a close fight for ownership of the league lead. Now riding in front of second-place Macclintock by four points, the locals will have to hang on through this, the final week of league play. Blackwell's blow over the fence came at the opportune time. Bunting in the cleanup spot, he sent the ball flying after Frederick and the two Davises had all singled.
Shirley went the nine-inning route for Farmville and chalked up his most impressive win of the campaign. He gave up only seven scattered hits and but for Blackwell's homer was never in trouble. Also for the locals, it was their first no-error game this season.

Stranahan Says Luck Rather Than Skill Required In National Amateur

Minneapolis, Aug. 21—(AP)—The 1950 National Amateur Golf champion will have to have more luck than good shots to win, says Frank Stranahan, who should know.
The No. 1 Simon Pure tournament of the nation began the first section of 210 players teeing off over the wind-swept Minneapolis Golf club course in this morning.
They started just after break of dawn in man-to-man combat and will continue at six minute intervals until dusk. The set-up for tomorrow is 64 second round matches, with double rounds daily on tap Wednesday and Thursday. After that come 46-hole semi final and final double Friday and Saturday.
No one in the field has a more burning desire to win than Stranahan, the millionaire's son from Toledo. He met Arnold Palmer of Latrobe, Pa., today, a former Wake Forest player whom he trounced 12 and 11 in the 1949 North-South amateur.
Stranahan, who plays of the pro tourney circuit and thus gets more golf under his belt than any other amateur in the country, will be seeking a "little slam."

Perfect Score Is Only Sufficient To Win Deadlock

Spartanburg, Aug. 21—(AP)—A perfect score was only good enough for a tie for first place in the all-gauge championship of the great cotton state's skeet shoot here yesterday.
Dickie Greco of Tampa, Fla., and J. S. Mitchell of Charlotte, N. C., both posted perfect 100x100 scores. Mitchell lost in the shootoff by missing one bird in the final 125.
Stewart Heath of Spartanburg won the class AA title by defeating Tommy Spicola of Tampa, Fla., in a 100-bird shootoff of a 99x100 score. Spicola was declared high overall champion in the two-day shoot with a total score of 288x300.

Fringe Of Storm
Hatteras, N.C., Aug. 21—(AP)—North Carolina's east coast today returned to normal today after being scraped lightly by the fringe of a hurricane during the weekend. The hurricane passed the coast early yesterday. Patrol planes from the Elizabeth City air base reported no damage after a routine survey. The storm center passed about 70 miles off Cape Hatteras early yesterday morning. Winds reached 35 miles per hour leaving high tides on the coast.
A freighter, South Bend Victory, reported early yesterday was wallowing in heavy seas with smashed lifeboats and a crippled engine.
The Coast Guard cutter Mendota was sent to her aid.

Heavy-Harness Workouts Open For Coach Farley's Grid Team

Heavy equipment is the order of the day for the high school footballers as they go through their first fully-equipped drill this afternoon of the just-begun season.
With the donning of heavy togs, Coach Bo Farley sent his boys through their first day of morning and afternoon drills. All last week, when the practice first got underway, morning drills were all that was on the schedule.
However, this morning, after a few calisthenics and passing and kicking practice, the team got its equipment together in preparations for getting back into heavy harness for the first time since last fall.
After a little limbering up, the boys got the feel of the hot shoulder pads and padded pants. From now on to the first game, they'll go through the motions in the playing uniforms.
During this morning's workout, Farley had several of his tentative backs working on their passing game. Doing the heaving were backs left over from last year, and who Farley expects to get a lot of service from.
Backs Bobby Perry and Eddie Farley took their turn in throwing the ball to the rest of the team and Farley expressed the opinion they are looking "pretty good" this early in the game.
Not many more men have reported to practice since opening drills began last week. However, one new man—Johnny Mervin—showed up for this week's opening drill today. Mervin played high school football in Georgia last year and has returned to Greenville to enter school here. A 16-year-old heavyweight, Mervin hasn't been out long enough to give Farley any idea as to where he'll play. However, the grey-haired pro of the Northeastern circuit stated he's going to see plenty of action as some position.

Baseball Clown Scheduled To Appear Here Tuesday

Billed as "baseball's Greatest clown since Al Schecht," Max Patkin, the rubber jointed, knock kneed pitcher who couldn't make good, will appear at Guy Smith Stadium Tuesday night in a return engagement here when the Robins play the Goldsboro Cards here.
Since ruining his arm, and a promising big league career along with it, in Wilkes-Barre, Pa., a few years back, Patkin has turned to baseball clowning and gives promise of upholding the artistic standards of his illustrious predecessor, Schacht.
Cleveland's Lou Boudreau spotted Patkin "pitching" for Harrisburg in 1946. "He was doing a jig before throwing every pitch," said Lou. "Later he went to the coach's box and put on a show. He was the funniest thing I'd ever seen."

Large Amount Of Blood Required By Red Cross

Washington, Aug. 21—(AP)—The Red Cross says large amounts of blood are needed to meet needs of fighting men in Korea and the expanded armed forces.
The organization, official procurement agency for blood for the services, last night called on all Americans for blood donations. It said Korean needs have been supplied so far by volunteer military and civilian donors stationed in Japan.
The Red Cross said shipments will be flown regularly to the Far East, and that any excess over immediate needs in combat zones will be utilized "for stockpiling plasma and other derivatives for military use."
HOLLER GUY
Cincinnati—(AP)—Hobbe Landrith, promising rookie catcher for the Cincinnati Reds, is bringing to the major leagues a brand of on-the-field chatter which hasn't been heard since the days of Leo (Gabby) Hartnett. When Hobbe is behind the plate, his shrill holler is heard all over the ball park.
Ethiopia Takes Refugees From German Camps
Addis Ababa—(AP)—New homes and a new life in Ethiopia await 171 displaced persons, including wives and children, in International Refugee Organization camps in the American, British and French zones of Germany.
Displaced persons willing to accept resettlement in Ethiopia were offered three-year contracts for permanent settlement. Agricultural workers were offered land and government subsidies for setting themselves up in farming. Professional and skilled workers were offered salaries ranging downward from \$275 monthly.
Of those chosen, 37 are agricultural workers. The rest represent various professions and skills, from doctors, engineers and architects to mechanics, plumbers and bricklayers.

Sammy Baugh Leads Redskins To 31-12 Victory

San Francisco, Aug. 21—(AP)—Sammy Baugh—now in his 14th year of pro football—led the Washington Redskins to a 31-12 exhibition game victory over the San Francisco 49ers yesterday.
A capacity crowd of 51,201 saw the game.
Baugh threw two touchdown passes in the third quarter. The "skins" ran roughshod over the 49ers in the second half, scoring four touchdowns. They led 31 to 0 at the half on a kickoff by Bill Dudley.
Little Eddie Le Baron, former College of the Pacific quarterback, took over for Baugh in the final quarter and tossed a touchdown pass. Bob Goode chalked up the "skins" other score on a 37 yard run.

Votes Of Record By Congressmen Of N. Carolina

(From The Rep.
From The Reflector's Washington
Bureau)

Washington, Aug. 21.—Members of the North Carolina Congressional delegation cast the following votes of record last week:

SENATE
There were no record votes in the Senate during the week.

HOUSE

Resolution to begin consideration of legislation to rescind postal services curtailment order of the postmaster general: Rep. Hamilton C. Jones, for; Reps. H. B. Bonner, C. B. Deane, Carl T. Durham, Robert L. Doughton and John H. Kerr, against, and Reps. Graham A. Barden, A. L. Bulwinkle, F. E. Carlie, Thurmond Chatham, Harold D. Cooley and Monroe M. Redden, not voting. (Approved 248-81)

Legislation to confer jurisdiction on New York state court in certain civil matters involving Indians: Deane, Doughton, Jones and Kerr, for, and Barden, Bulwinkle, Carlie, Chatham, Cooley, Durham and Redden, not voting. (295-4)

Amendment to postal service restoration bill, to authorize additional funds for post office department: Bonner, Carlie, Chatham, Cooley, Deane, Doughton, Jones and Kerr, for; Carlie, Cooley and Jones, against, and Barden, Bulwinkle, Durham and Redden, not voting. (Rejected, 213-159)

Motion to recommit postal service restoration bill: Bonner, Chatham, Deane, Doughton and Kerr, for; Carlie, Cooley and Jones, against, and Barden, Bulwinkle, Durham and Redden, not voting. (Rejected, 261-111)

Bill to restore postal services: Carlie and Jones, for Bonner, Chatham, Cooley, Doughton and Kerr, against, and Barden, Bulwinkle, Durham and Redden, not voting. (Passed, 264-108)

Motion to vote on legislation to broaden social security program and

A large ball of flame towers upward and fire fighters dash for cover as huge quantities of chemicals explode at a warehouse of the Western Associates, Inc., a chemical firm at San Carlos, Calif. The warehouse was destroyed. A. C. Carlton, Sr., spokesman for the firm, said the company had been working on a \$150,000 government contract but "was not working on specifically military" assignments. (AP Wirephoto).

Increase its benefits: Bonner, Carlie, Chatham, Cooley, Deane, Kerr, Jones and Jones, for, and Barden, Bulwinkle, Durham and Redden, not voting. (Adopted, 188-185)

Legislation broadening social security program: Bonner, Carlie, Chatham, Cooley, Deane, Doughton, Jones and Kerr, for, and Barden, Bulwinkle, Durham and Redden, not voting. (Passed, 574-1)

Motion to consider legislation providing for discharge of employees of the Russian Railway Corporation: Bonner, Carlie, Chatham, Cooley, Doughton, Jones and Kerr, against, and Barden, Bulwinkle, Durham and Redden, not voting. (Rejected 242-91)

Motion to commit legislation

Bought Bomb On Purchasing Home

San Bernardino, Calif.—(AP)—E. S. Winter got more than he bargained for when he bought his new home.

He decided to clean out a closet. Reaching up to remove some junk from a shelf, his hand brushed a cold, hard, unfamiliar object. It was a live bomb.

Police officers, to whom Winter took the bomb, said it was the type used by the Air Force for bomb practice. It was about 16 inches long and weighed 13 pounds.

Luxembourg celebrates the birthday of its grand duchess with fireworks.

Army Plans New Helmet For GI's

Washington —(AP)—The Army has announced that a new aluminum helmet with a shock-resistant plastic liner has been designed to replace eventually—the GI's present steel helmet and thin plastic liner.

It said preliminary tests show that the new liner alone is as resistant to shell fragments and falling objects as the present helmet and liner together.

The new helmet weighs about three pounds, 15 per cent lighter than the present steel helmet and liner.

The aluminum job still will perform the traditional extra duties required of a helmet. It can be used as a cooking utensil, shaving mug and water bucket.

Several thousand of the new helmets are to be produced later this year for field testing by troops prior to final evaluation and standardization, the Army said.

Standardization means adoption as a standard item of Army equipment.

Falls 150 Feet, Only Got Wet

San Pedro, Calif.—(AP)—Fred Ferrell was strolling along a cliff-top at the edge of Pt. Fermin Park, which faces the Pacific Ocean. He slipped on a round stone and plunged over the sheer 150-foot drop, headed for water-washed, jagged rocks below.

He lit in water two feet deep between two boulders. A life guard pulled him out. At the receiving hospital doctors found only two small head cuts. They sent him home — to get out of those wet clothes.

Big Fish Visits 25th State Fair

Des Moines, Ia.—(AP)—Oscar, a big fish, has been to more state fairs than most people.

The black sturgeon, believed to be 50 years old, will be on exhibition for the 25th straight year at the Iowa State Fair. He has been an attraction at the Iowa fair annually since 1925 when the state conservation commission acquired him from a Wisconsin fish hatchery.

Oscar weighs 130 pounds and is five feet long.

The ribbon-tailed bird of paradise lives only in the high Mt. Hagen district of east central New Guinea.

POWERED MODEL—Miss Betty Uren holds a large gas-powered free-flight plane, a competitor in one of the classes of the Summer model plane contest at Detroit, Mich.

Soviet Reaction Awaited After Defeat In Korea

Washington, Aug. 21 — (AP) — What will Russia do when her North Korean satellite begins to lose the war?

Reverses for the Red Korean army will force a decision by the Soviets on whether to move openly into the Asiatic war or bide their time for another day when the stakes could

be greater and the odds better.

The time for Moscow's decision apparently is coming nearer.

The swift and long advance of the North Korean army has ground down to at least a temporary halt. The build-up of strength by American forces, with more help from other United Nations members in the offing, is under way. An offensive to destroy the Korean Red military force is in prospect for the months just ahead. And it is then Russia will have to decide.

She will have to weigh the possible effect on other nations within the Soviet sphere of defeat for her Korean Communist state against the risks of taking a direct hand in war with the United States and United Nations.

Russia, for reasons of her own, may conclude the time to move

isn't now but later when her military strength is even greater, meanwhile using the Korean situation as material for her peculiar propaganda technique.

Some officials at high level in Washington incline to the belief that Russia doesn't want to provoke a world war until later, when she is fully prepared.

The timetable they use in these guesses vary considerably—from two to five years.

The Soviets have an immense army—some estimates range around 4,000,000—which is equipped with superior tanks and excellent artillery. They have a large tactical air force for support of the ground army.

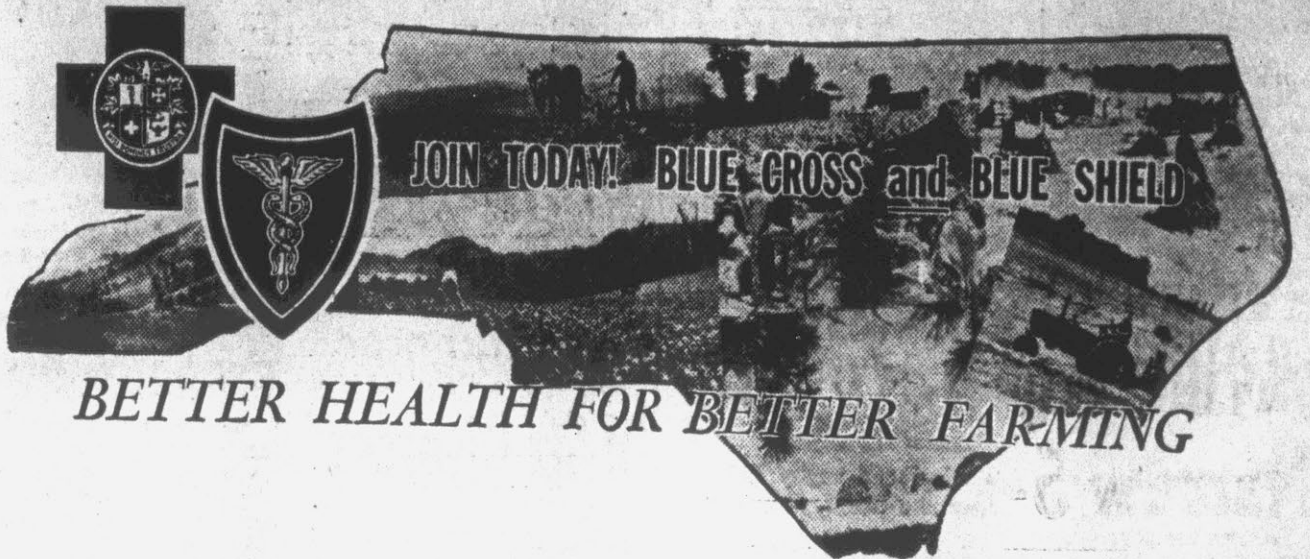

But the Russians may want more time to improve and augment weap-

ons in the highly technical category. Another two or three years may be needed for them to stockpile a larger number of atomic bombs.

They have the beginning of a long range bomber force for delivery of the bombs, but may need considerably more long range bombardment aviation.

They have begun a huge expansion of their submarine fleet. Although the Russian undersea fleet may number as many as 300 submarines, only a small portion of that fleet is believed to be of the modern high speed type, equipped with snorkels for long underwater cruises.

Sugar Pine trees were first discovered by David Douglas, a Scotch botanical explorer, on October 26, 1826, in California.

BETTER HEALTH FOR BETTER FARMING

A comprehensive membership in Hospital Saving Association provides ward bed, regardless of cost, or \$5.00 per day toward the cost of other rooms—PLUS unlimited coverage of hospital "extras"—the most expensive part of your hospital bill. Your choice of two surgical schedules: \$100 or \$150.

IMPERIAL...is the word for it!

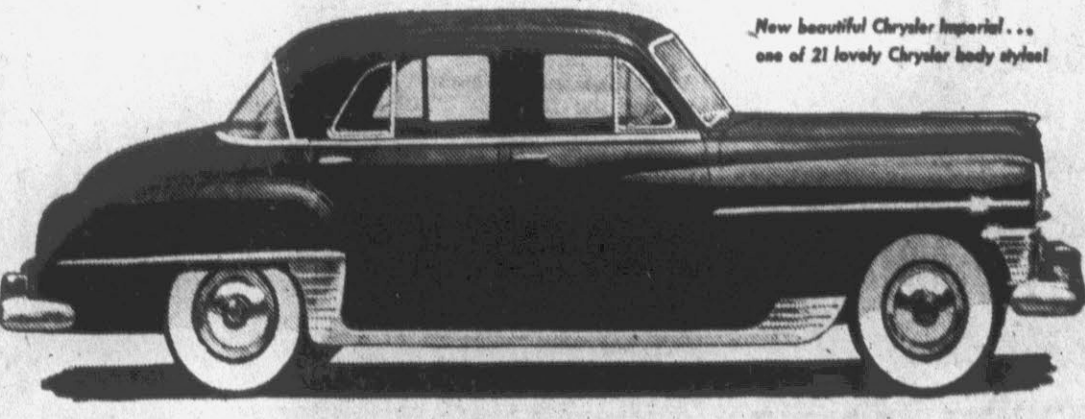

"Imperial," says Webster, means "superior excellence." IMPERIAL, says Chrysler, is this luxurious new car that exceeds anything on wheels in the sheer exquisiteness of its styling. Come look inside this reigning beauty . . . look at the lavish wool broadcloth fabrics, tastefully combined with topgrain leathers. Look at the lovely color harmonies, the soft sheen of the butler-finished chrome. Consider the advantages of Fluid Drive . . . exclusive new automatic transmission . . . Waterproof Ignition . . . Full Flow Oil Filter . . . High Compression Spifire Engine . . . electric window lifts . . . the CLEARBAC rear window for exceptional driver vision . . . and dozens more. Surely, of all the world's fine automobiles, only the Chrysler CROWN IMPERIAL, this car's running mate, achieves the same aristocratic distinction. Come see the flawless workmanship, the fine materials, the superb Chrysler engineering . . . and you'll agree that no other car, at any price, compares with the Chrysler IMPERIAL. Inside or out, there is no finer car in America!

ONLY THE CHRYSLER IMPERIAL offers you this absolutely unique system of window control. Each window has its own separate electric motor . . . each one can be raised and lowered independently from the driver's seat or at the window itself. And that's not all! So many other de luxe features . . . the kind you think of as being in the "special order, extra cost" category . . . are STANDARD EQUIPMENT on the Chrysler

Imperial. For example: armrests on all four doors . . . foam rubber seat cushions and seat backs . . . double-width center armrests in front as well as rear seats . . . stainless steel wheel covers . . . white sidewall tires . . . carpeted luggage compartment! Full flow oil filter and many other engine features! Yes, you get all these extras as standard equipment with your beautiful new Chrysler Imperial.

New beautiful Chrysler Imperial . . . one of 21 lovely Chrysler body styles!

Inside and out . . . It has no equal at any price . . .

New Liquid Kills Roaches and Ants

New Way to Kill Pests Discovered by Scientists
ROACHES are the most difficult household pests to control, and they can be brought into any home from the market in a bag of potatoes or other groceries. Science has just come forth with a new discovery that kills cockroaches and ants, and that stays effective for months. It is called Johnston's NO-ROACH coating. It's just as simple and easy to use as it looks. You paint the coating on surfaces frequented by roaches and ants, woodwork near the sink, baseboards, garbage pails, window and door sills. When these crawling pests come in contact with this invisible, odorless, stain-

less coating they slowly become paralyzed, turn over on their backs with legs waving in the air, and die. Then the coating stays effective for months to kill any strays that get into the home and that walk over it. Science has seen to it too, that this product contains no DDT, no sodium fluoride, and no phosphorus. Johnston's NO-ROACH is not a contaminating spray, or a messy powder. It is colorless, and may be brushed just where you want it, without having to move all your dishes and pots and pans. — Prices are 8 oz. for 89c, pint for \$1.69, and a quart for \$2.98.

THIRD FLOOR

BELK-TYLER'S

the fruit of unceasing labor

BETWEEN 1911 and 1935, a brief span of twenty-five years, extraordinary progress was made in public health. According to figures released by the Metropolitan Life Insurance Company, the duration of human life during this period was extended by almost fourteen years. It is all the more remarkable in the light of the history of this period, which included the first World War, the worst epidemic in recent history, and America's most severe depression.

Many agencies have contributed to make America a more healthful place in which to live. Not the least of these are scientific medicine and pharmacy, which work unceasingly for better methods of prevention and treatment of disease.

Poker'In Courtroom

Los Angeles, Aug. 21—(AP)—Federal Judge Ben Harrison looked at a full house when he made the bench and ordered his clerk to call the calendar. "High Low Jack," cried Clerk Murray Ware. A moment of silence ensued.

"And the game!" called a hoarse voice from the rear. There was the deuce to pay. Spectators roared, and Judge Harrison promptly took a hand. "Get this straight!" he admonished. "We can open this session without the aid of a joker."

With a flush of embarrassment, the clerk checked his cards and stood pat. "Quong Hi, Wong Low and Luey Jak!" he called.

Three poker faced Chinese shuffled forward. Each admitted crossing the border without proper credentials.

"Three of a kind," commented Judge Harrison.

He then ordered each defendant to ante up one year in the federal jackpot.

Hog Market

Business Leader With Great War Record Tells How Hadacol Has Rebuilt Him Physically

Was run-down, weak, after service in South Pacific due to deficiencies of Vitamins B1, B2, Iron and Niacin

Mr. Donald Hedburg, who resides at 1812 Parker in the fashionable Riverside District of Wichita, Kansas, has been an up-and-coming executive member of the staff of the great Wichita Eagle newspaper for over four years.

Mr. Hedburg has an enviable record of combat with the U. S. Army in the South Pacific in World War II. He is very active in civic affairs. And just as he was anxious to pitch in and do a job during the war—he now wants to help his fellow citizens who (like he was once), are physically run-down and weak due to lack of Vitamins B1, B2, Iron, and Niacin in their systems.

Here is Donald W. Hedburg's witness statement: "When I returned from service, I faced the problem of rebuilding myself physically. I was in a general run-down condition.

"In my present capacity of advertising salesman for Kansas' greatest newspaper, The Wichita Eagle, it's absolutely necessary that I have plenty of vitality—get up and go. I had real cause to worry. Nothing seemed to rebuild me constitutionally. Then a friend of mine on the national staff told me about HADACOL—he asked me to try at least five bottles. I'm on my fourth bottle and already I feel like my old self. I look forward to a day's work and go home—play with the children—work in the yard—fish until midnight! Thanks again to HADACOL, energy and vitality once again course through every fiber of my body. You bet, I too, am now a missionary for this great new HADACOL."

Get That Wonderful HADACOL Feeling Everyone Is Talking About

HADACOL gives such wonderful results because it not only supplies deficient, weak run-down systems with more than their daily needs of important Vitamins B1, B2, and Niacin—but also helpful amounts of precious Calcium, Phosphorus and Manganese—elements so vital to help maintain good health and physical fitness.

If you are a victim of neuritis pains, certain stomach and nervous disturbances, constipation, insomnia or a weak, run-down condition due to such deficiencies, HADACOL will start you on the road to feeling better often within a few days. Thousands upon thousands of records of grateful men, women and children proved this to be so.

Many Doctors Recommend It

HADACOL is recommended by many doctors not only to their patients but to members of their own families who have such deficiencies. Before giving up hope—you owe it to yourself to at least give HADACOL a chance to help you. Why keep dragging yourself around feeling "half-alive" when it's so easy to have that wonderful HADACOL feeling that everyone is talking about! Trial-size bottle, only \$1.25. Large family or hospital size, \$3.50. Refuse substitutes.

Court Disposes Of Six Divorces

The week of Superior Court opened this morning after a long two-and-a-half-month layoff. Judge Chester Morris, of Currituck, presided over the short session.

Divorces, as usual, occupied most of the first day's business. Of 11 that were docketed for this session of civil court, six were disposed of and the rest continued.

Only one case, outside the divorces, was heard by jury and the nine men and three women on the venire returned a favorable verdict for damages to the plaintiff, Mrs. Nina Morris sued John Henry Maney for damages to her automobile as a result of a collision in the amount of \$387.32. The hearing was an inquiry with the defendant not present.

Divorces granted this morning, all on two years' separation, were: Ivey Bunn May vs. Joy Olivia May, Elsie McLawhorn vs. James McLawhorn.

Nell McCary vs. Ben Lee McCary. Geneva Tripp Willoughby vs. Heber Ernest Willoughby.

Geraldine Johnson, Negro, vs. Joseph Johnson, Negro.

Chester A. Fleming, Negro, vs. Martha Short Fleming, Negro.

Funeral Set Tuesday For Carlos Harris

Mr. Carlos Harris, 82, died at his home, 311 Cotanche Street, at 10:30 o'clock Monday morning after having been critically ill for the past week. Funeral services will be conducted at the chapel of the S. G. Wilkerson & Sons Funeral Home at 4 o'clock Tuesday afternoon by the Rev. Leon Russell, pastor of Jarvis Memorial Methodist Church, assisted by the Rev. William O. Haney, Christian minister, and burial will be in Cherry Hill Cemetery.

Mr. Harris, son of the late Joseph John and Emily Sykes Harris, was born, reared, and spent his entire life in Greenville. Recently he was made a life member of the Master Painters Association. He was a member of Jarvis Memorial Methodist Church.

Surviving are his wife, Mrs. Dessie Kittrell Harris; two nieces, Mrs. L. B. Redditt of Greenville and Miss Etta F. Wilkie of Sanford; a nephew, Edward Harris of Morehead City; and two great nieces.

Members of the Ellington Bible class of Jarvis Memorial Methodist church will be honorary pallbearers.

Rev. J. A. Neilson To Speak At Lions' Meet

Rev. J. A. Neilson will be the guest speaker at the Greenville Lions' Club meeting tonight, President Larry Averett announced today.

The meeting is set for the Woman's Club building with supper getting under way at seven o'clock.

Vanceboro Woman's Funeral On Tuesday

Mrs. Allie Ipock Gaskins, 80, died Sunday night at eight o'clock at St. Luke's Hospital in New Bern after suffering a fall three weeks ago. Funeral services will be conducted at her home in Vanceboro Tuesday afternoon at three o'clock by the Rev. F. E. Williams, Free Will Baptist minister of New Bern, and burial will be in the Kite family cemetery.

Mrs. Gaskins, daughter of the late Louis and Sallie Kite Ipock, spent all her life in the Vanceboro community. She was first married to Nathan Barrington and he died in 1910. In 1915, she was married to Freeman Gaskins and he died in 1940. She was a member of Reunion Free Will Baptist Church near Vanceboro.

Surviving are four sisters: Mrs. John Morton of Beaufort, Mrs. Julia Gaskins and Mrs. J. H. Harris, both of Vanceboro, and Mrs. Nellie Adams of Shelderside; a brother, Billy Ipock of Vanceboro; and 28 nieces and nephews.

Describe Heavy ...

(Continued from page one) an impending stab at Pusan.

He said other pilots reported a similar buildup in the east where two South Korean divisions pushed northward of the Kigye-Pohang line in a continuing bloody offensive that cost the Reds heavily.

Two Minor ...

(Continued from page one) in the car, was arrested on a charge of transporting liquor. Chadwick stated that he found the liquor, about one half gallon of "moonshine," when he made his investigation of the accident.

The cases will be tried in Greenville Police Court, Friday Aug. 25.

The second accident occurred about one half mile from Greenville on the Washington highway about 11:45 yesterday morning.

A car operated by Jno. W. Stephenson of Route 1, Grimesland, turned over on a curve about a half mile from Greenville, when the driver cut to the right to avoid striking a car in the middle of the curve, according to investigating officer Dick Chadwick.

The driver stated that he lost control of the car when he cut to the right to avoid the car, and that the car turned over and traveled some 125 feet along the highway before coming to a stop.

Damage to the car was reported to be about \$300.

The car reportedly to have been in the curve at the time of the accident was driven by Clarence Artis, of Norfolk, Va.

Investigation of the accident is not complete and no charges have been brought against the drivers.

Tobacco Prices ...

(Continued from page one) the trend greatly increases the market average over last year, and would mean more money in the pockets of the farmers. Although the top grades of tobacco were showing only the slightest increases in price over last year, it was the consensus on the warehouse floors that more tobacco was being put in the higher grades this year than last year.

For the most part the tobacco on the floors today was light, and generally in the smoking grades.

On opening day of last season the Greenville market sold 1,800,102 pounds of tobacco for an average of \$46.59. To today's prices indicated the average for the opening day of 1950 would go at least \$10 and perhaps \$12 higher than the average for the opening day a year ago.

Even before the warehouses in Greenville had cleared the tobacco from today's sales, more of the leaf was being unloaded for tomorrow's auction.

Housecleaning ...

(Continued from page one) Calling again for the removal of Robert N. Denham, general counsel of the National Labor Relations Board, and for a "thorough shake-up" in the five-man board itself, Green said.

"You have seen how the Taft-Hartley act has wrecked the orderly progress of peaceful collective bargaining in the newspaper industry," Green said businessmen often complain at treatment "they receive from so-called Washington Bureaucrats," but that no business firm ever has been "subjected to anything approaching the relentless campaign of persecution" he said Denham waged against the ITU.

Nehru's ...

(Continued From Page One) her on a mighty tough spot. for this medieval state is a theocracy, governed by Buddhist monks, headed by the Dalai Lama. She is wholly unused to the ways of the modern world, and certainly needs a friend.

as she comes up against an atheistic—highest cast of Hinduism—an communism which is out to destroy aristocrat of aristocrats, and still a all religion as "the dope of the man of the people. He was educated in India and England and is a man of great culture.

Maybe that's what Nehru has in mind. That would fit in with his reported conviction that India should be the leading power in Asia. And although he lacks material resources now to progress as fast as he would like, his country is making great strides. Having spent nearly a year in India studying the country and its people, I personally have no doubts as to the greatness of her future. Whether that insures her leadership of the Far East obviously is on the knees of the gods.

Nehru himself is one of the world's outstanding personalities. He is 61 years old, a Kashmiri Brahmin

time the boss and worker each will be paying a tax of 3 1-4 percent of the first \$3,600 of the worker's earnings, or a total tax of 6 1-2 percent.

Until now a covered job has been, generally, any job in commerce or industry.

(Now another 10,000,000 have been added to throw open the social security benefits to people who had been excluded from them by law, people like domestic servants, the self-employed, people who work regularly on farms (but not farm-owners), and people working for non-profit organizations. They can't get in, though, until Jan. 1, 1951, and therefore won't have to pay any tax until then.)

2. Public assistance. (Help for the needy aged remains unchanged. But the law will let more needy blind people get assistance. The government will spend more money on the orphaned children part of the program. And assistance now will be given to a brand new group: totally disabled people under 65, if they need it.

3. Children's services. Under this the government makes grants to the states for the health and welfare of children and mothers and to aid crippled children.

(Until now the government has been spending about \$22,000,000 a year on this. The amount will be increased to \$43,000,000.)

4. Unemployment insurance. (The only changes in this are the way the insurance fund is to be administered.)

Social Security ...

(Continued from page one) living.)

In any covered job the worker and his employer must pay a tax: 1 1/2 percent each on the first \$3,000 of the worker's yearly earnings. This money goes into a special fund. (Starting Jan. 1, 1951, the tax will be on the first \$3,600 of earnings. The tax itself is scheduled to go up, but not till 1954, and then to rise gradually to 1970. By that

Civil Air Patrol Unit To Participate In Maneuvers

Five cadets and 12 senior members of the local Civil Air Patrol unit will leave Greenville on Sept. 2 to participate in Operation "Sarcap," a two-day maneuver to be held in Goldsboro, according to Lt. H. S. Smith, information officer.

The Greenville-Washington flight, commanded by T. M. Sellers, first lieutenant, is scheduled to leave the morning of Sept. 2 and join the 21 other North Carolina units at Seymour Johnson Field in Goldsboro.

The purpose of the operation is to familiarize pilots with the procedure that must be used for searching for downed aircraft. Plans call for about four missions each day. The first briefing is scheduled for the morning of Sept. 2 at 10:00 o'clock, and the first mission is slated for shortly after noon that day.

Slides and still pictures of crashed airplanes will be used in briefing. Search maps and other equipment have been forwarded to the Goldsboro to be used by the personnel of the Goldsboro flight in preparing areas of search.

Objects of the search will be the fuselages of wrecked aircraft, sheets cut in the form of aircraft, wings, water dye and oil slicks.

Aircraft used in the maneuvers will be varied from the small L-4 Air Force liaison aircraft to the C-52, a large Air Force cargo airplane.

All fuel and lubricants for use by CAP will be furnished by the Air Force. Briefing, interrogation, etc., will also be handled by the Air Force.

Bombers Pound Rail Yards And Big Iron Works

Tokyo, Aug. 19—(AP)—American B-29s soared far to the north today to pound the port of Chongjin, its rail yards and important Mitsubishi iron works—almost within sight of Soviet Russian territory.

Balls of fire shot from the factory and smoke columns towered nearly a mile. The factory is one of the most modern metal works in Asia.

In all, 90 Superforts hammered military and industrial targets in North Korea with nearly 800 tons of bombs. Other targets were Hamhung, 130 miles north of the 38th parallel, and key bridges.

The strike was the second largest mass B-29 raid of the war. The big planes hit the Waegwan front area Wednesday in tactical support of United Nations ground forces.

More than 60 B-29s roared over Chongjin, less than 60 miles from the Soviet border. They plunged more than 550 tons of bombs at key targets there. The Air Force reported excellent results.

(The Korean Communists' official radio at Pyongyang broadcast an invitation to the International Red Cross to investigate "the tremendous damage inflicted on the people and housings by American

aerial bombings.")

(It said the invitation was made today in a letter from the North Korean foreign minister to Trygve Lie, United Nations Secretary-General.)

The Fifth Air Force reported its fighter planes set a new record for the war with 350 strikes Friday, mainly against ground troops. The Fifth Air Force flew 550 sorties of all types, equaling the previous single day's record for this war.

END OF PELICAN

Sydney, N. S.—(AP)—The once-proud wooden flagship of the British fleet, the Pelican, which has protruded from Halifax harbor since 1923, is going to be removed. The harbor board announced that divers will seal the hull and it will be towed out to sea and sunk.

July 14, Bastille Day, is France's "Fourth of July."

After Cleopatra's suicide, Egypt became a Roman province.

Worms Made A Garden Spot Of Barren Ground

Ninety-Six, S.C.—(AP)—Mr. and Mrs. J. E. Gunter and a million or so earthworms have changed a drab clay hill into a garden spot. Mrs. Gunter got the idea of enlisting earthworm aid two years ago after discouraging attempts to make things grow in the eroded, washed-out soil near her new home.

A magazine article told her how worms enrich soil. She ordered 750 wrigglers and encouraged them to multiply. Meanwhile, she and her husband began distributing earthworm castings and worms from place to place. The castings are rich in phosphorus, potash, nitrogen and magnesium.

The Gunters say they stay about one meal ahead of the worms. The couple puts table scraps, leaves, a 750-gallon water tank.

and other choice (to earthworms) morsels on the worm beds. The worms take it from there.

RFD Also Means Fire Department To S. C. County

Marion, S.C.—(AP)—The letters R.F.D. mean more in Marion county than rural free delivery. They stand also for the county's novel rural fire department. A group of farmers and townspeople put the plan into operation last November. Since then, the department has been credited with saving property worth many times the expense incurred.

Five-dollar annual memberships were obtained from farmers living in an eight-to-10-mile radius of this county seat. The money was applied on a \$5,000 fire engine with a 750-gallon water tank.

County Farm Agent J. C. King and Volunteer Fire Chief Joe Boatright were among those who pushed the project. King says the county needs two more units to insure complete coverage.

The RANGE DOCTOR

by OSCAR J. FRIEND

Chapter 8

As the days slowly lengthened into weeks the status of Dr. Logan showed no indication of change. Of medical practice there was little save that from the Texas Tommy. What hope he had that people would gradually come around to a sensible view of his clash with the veterinary withdrew away.

He occupied himself during the day, when not engaged in his meagre practice or helping out with the newspaper, by diligent study of his medical works. He was thus engaged the morning that a mild-mannered man with faded blue eyes came into the building.

"Mr. Griggsby in?"

Logan shook his head. "No. He's over in Clearwater today on business. Can I help you? Is it something about the newspaper?"

"No," said the visitor, hesitating. "You're the new doctor, ain't you? My name's George Pelham. Judge Steele sent me over to talk with Griggsby. I got a letter here . . ."

His voice trailed off as he waved the paper in his hand impotently. "Yes?" Logan encouraged him politely.

"I don't know what to do," Pelham went on uneasily. "I got to see the Hohner land people, and here, you read the letter."

Logan accepted the letter and looked at it. It was from the Hohner Land Development Company. In brief, it informed the perplexed Pelham that a flaw had been discovered in his title to the fruit ranch and requested him to call at the land office when next in town at which time matters could doubtless be satisfactorily straightened out.

Logan's eyes came to rest on the bold signature at the bottom, and a queer feeling went through him. John Naylor! One of the men who had killed his father.

Logan folded the letter and handed it back. "Look, Mr. Pelham, I'm not very busy this morning. If you'd like, I'll go with you to see this man."

"Will you?" Pelham brightened in gratitude. "Thanks, doctor."

One of the clerks placed at Pelham's letter and called to the man seated at the desk. "Mr. Naylor. Two gentlemen to see you."

Naylor had not changed much in nine years. He had turned a little grayer and put on a few pounds of weight, but he was still the active, wiry man who walked with the springy gunfighter's step that Logan remembered.

"This letter you wrote me," Pelham said. "I don't understand anything. I bought my place full out from Banner Jennings four years ago. Paid him in cash. He'd owned the land for more'n five years. All the transactions are recorded with the county clerk. I've never so much as had a mortgage on the place. I don't see where you people have anything to do with it. What business is it of yours what kind of title I got?"

"I'll tell you," Naylor said, smiling pleasantly. "It goes back another step. Banner Jennings bought the property from the Perley sisters. This pair of old maids had a brother who owned a third interest in the land. His signature is not on the deed given to Banner Jennings. The Hohner Company represents Malcolm Perley, and we have been instructed to 'make a settlement with you.'"

"I won't pay out another cent," Pelham declared promptly.

"Mr. Perley is not asking you to. He wants the property back, and these are authorized to offer you a thousand dollars for your shaky title. Now, how's that?"

"Crazy," said Mr. Pelham. "I paid more'n twice that for the place and I've spent that much in improvements. Besides which, I don't want to sell."

Logan found his eyes wandering towards the nearer shirt-sleeved clerk who was completing an argument with another customer. He now opened a cash drawer beneath the counter and dug out a hundred dollars in folding money as his client laboriously scrawled his name to a legal-looking paper.

Shirtsleeves tossed the document over at Naylor's elbow. "The option on the Randall place," he murmured. Then, taking the pencil from behind his ear, he turned to a wall.

IT'S DANDY, KEEP A GALLON handy, Fina Foam that is, for cleaning upholstery. Belk-Tyler's 3rd Floor. 21-6

Captured After Fourth Escape

Raleigh, N.C., Aug. 19—(AP)—Freedom for a young prisoner on his fourth escape ended with a nap in a house at Winston-Salem.

Fred Nichols, 29, was recaptured yesterday by Winston-Salem police. The officers surrounded a house where Nichols was reported hiding, and found him asleep. He did not resist, they said.

Assistant Prison Director R. H. Honeycutt said: "We're sure glad to get him back. He's a tough one."

A Winston-Salem resident, Nichols was sentenced from Forsyth County in February, 1946, to seven to 10 years for larceny and receiving. He escaped from a prison camp the following November. The next month he was convicted of auto larceny and sentenced to 18 months.

In February, 1947, he escaped again, and in April was convicted on two counts of robbery with firearms. He was sentenced to a total of 40 to 50 years.

Last March he fled again, but was recaptured the next day. His latest escape was in Ashe County on Aug. 14.

Today's Radar Network In U. S. Not Enough To Deter Attacker

By ELTON C. FAY
AP Military Affairs Reporter
Washington—(AP)—An enemy probably could make an aerial strike at almost any place in the United States today and get some bombs down on the target.

It is not considered within the realm of possibility that the present sparsely spotted radar system—even though on a round-the-clock operating basis—would detect all approaching bombers or that existing fighter forces would destroy every one of them.

Competent military sources doubt if more than a quarter of an attacking bomber force coming in over the polar regions could be knocked down before it crossed the northern border of the United States.

They point out that in World War II, in areas where there was a high concentration of fighter defense and elaborate radar warning system, destruction of 10 per cent of an attacking force was considered excellent.

Air Force strategists hold that the most effective way to halt air attacks on the U.S. mainland would be destruction of the bases from which the attacks are launched and of the industrial centers supporting the attacks. It is on this theory that the retaliatory strike by long range B-36s, B-29s and B-50s are planned.

Following this same reasoning, defense officials believe that the bases for those planes, in the continental U.S. and Alaska, would be priority enemy targets, the spots for which sneak raiders would head first. Making the bases useless for launching retaliatory strikes would be of prime importance to the enemy. Any bombers that got past the radar warning system and fighter defenses could be expected to streak for air bases.

Next in importance probably

would be the great industrial areas and the nerve-center of government and military direction, Washington.

When asked about defenses against a surprise air attack, the Air Force's frank answer sums up to this:

The nation's air defenses today are not satisfactory. The present radar stations comprising the warning net are composed of World War II equipment and are located on government sites—apparently places where the government has land on which to locate them, but not necessarily the most desirable locations.

The stations are too few in number to give more than a very limited warning to certain industrial and military areas.

The number of fighter squadrons backing up the radar system, although growing, is still inadequate. At present, it is said by one expert, they could "afford only a token defense against even a moderate force operating against the United States."

Tarzan Enjoys The Real Africa

Nairobi, Kenya Colony—(AP)—Lex Barker, the latest in the line of film Tarzans founded by Elmo Lincoln, finds the great forests of the foothills of snow-capped Mount Kenya a much more romantic place to work than the American settings previously used by the jungle man.

"I have never enjoyed anything more than these contacts with the real thing," Barker said.

Picture making here has its drawbacks, however. One day an elephant charged the camp, dislocating the shooting schedule. It did no serious damage, however.

Large Estates Are Confiscated

Shrinagar, Kashmir—(AP)—The Buddhist gompas (monasteries) of Ladakh, the northern territory of Indian-held Kashmir bordering Tibet, have been deprived of their large estates under the recent state government order confiscating all agricultural holdings of more than 125 acres. The land is to be transferred to the ownership of the workers who farm it.

The gompas, like the other dispossessed owners, can retain 20 acres, but the monks themselves must farm such remaining holdings. Having abolished the large estates, the Jammu and Kashmir state government now is reported to be preparing a plan for redistribution of holdings of less than 125 acres. The smaller farm owners, however, will receive compensation for land forfeited under this plan. The large estates were taken without compensation.

If this scheme is carried, it will mean that no person or institution in the state will own more than 20 acres of farm land.

'Wise Old Owl' Is Not So Smart

Chicago—(AP)—The owl isn't so smart. Austin L. Rand, curator of birds at the Chicago Natural History Museum, grants that they make quite an impressive appearance.

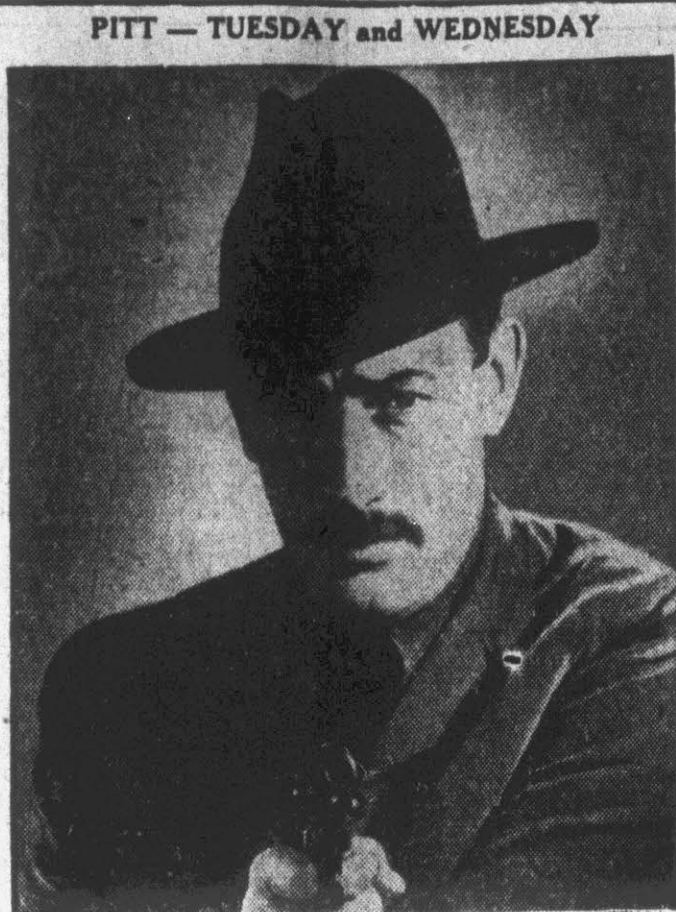

"But owls don't seem to have much behind the front they put up," he says. "People who have studied them find that the young are very slow to learn to feed themselves. One saw-whet owl that was kept captive refused to eat liver put into its cage, apparently not recognizing the meat as food. But when the liver was crammed into an empty mouse skin the owl ate it at once."

"The crows and their relatives, the jays, are the birds that are really intelligent."

Dikes and other reclamation projects protect millions of acres in the Netherlands from the sea.

Capt. Logan E. Weston (above), a fighting parson from Frank, Pa., led a unit of the 25th division in an attack in which 400 North Koreans were killed. He was credited with 27 of the enemy dead. (AP Wirephoto)

N.C. Retail Food Dealers Convene In Annual Meet

Wrightsville Beach, Aug. 21—(AP)—The North Carolina Retail Food Dealers Association opened its annual convention here today with some 400 members in attendance.

Today's program featured an address by U. S. Rep. F. E. Carlyle of Lumberton.

Earlier today, a preliminary breakfast was held for state directors and state officers. They also attended a pre-convention banquet here last night.

Secretary of State Thad Eure will be principal speaker tomorrow. Wednesday, delegates will hold a business session and elect new officers. The convention will last through Thursday.

Florida Schools Teach Banking

Tallahassee, Fla.—(AP)—Florida schools are adding practical instruction in banking to mathematics courses.

The youngsters will start in the seventh grade with the purpose and use of bank books. Instruction will continue through the 12th grade, when the course will get around to a discussion of investments.

The Florida Bankers' Association led a campaign to make instruction in banking part of the school program.

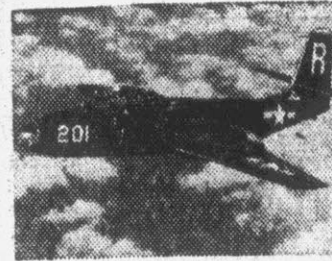

State Secretary Of Lions Named

Winston-Salem, Aug. 21—(AP)—North Carolina is the sixth state in the International Association of Lions clubs to have a state secretary.

He is Norman F. Trueblood of Elizabeth City. His appointment was announced here Saturday at a meeting of top ranking North Carolina Lion officials.

Other states in Lions International with state secretaries are Texas, California, Pennsylvania, Ohio and New York.

America's Weapons

AP Newsfeatures
The F-2-H Banshee. This is the Navy's famous McDonnell fighter. Its ceiling and speed are secret. It has a gross weight of 20,000 pounds, a wing span of 45 feet and a length of 42 feet.

B-26 reconnaissance bombers flying over the Japanese mainland. These fast hitters fly 350 miles per hour, range 940 miles and have a service ceiling of 25,000 feet.

The Great B-36 is now one of America's most important arms. Six 3,000 horsepower motors and a 230-foot wing span, give this Consolidated-Vultee a range of 10,000 miles and a 40,000-foot ceiling.

Coal Losing Out As Ship's Fuel

London—(AP)—The sweating coal heaver with the blacksmith muscles who used to be a fixture in front of the boiler of almost every steamship in the world is on his way to join the dodo as an extinct creature.

Coal itself is being shoved aside as a ship fuel. Almost all ships being built now will burn oil, and of all the ships in the world only about one in four still uses coal.

Before World War II about 60 per cent of the world's shipping was powered with coal generated steam. The world steamer tonnage was a little less than \$2,000,000 tons.

Now, says a survey by the London Financial Times, steamer tonnage has climbed to more than 63,000,000 tons but only about 27 per cent of this tonnage is moved by coal-steam power.

There also is a trend away from steamships of all kinds. Motorships are becoming more and more common. In 1939 there were 7,561 of them on the world's shipping routes. Now there are nearly 11,000 with a total tonnage equal to one third of all the world's steamships.

Pilgrims From Pakistan Banned

Karachi—(AP)—A ban on Pakistani pilgrims to Mecca has been imposed at the request of Egypt, Syed Abdul Hamid El Khatib, Saudi Arabian minister, told a press conference here.

He said the ban would be lifted as soon as the World Health Organization informed his government that Pakistan would abide by the International Health Convention of 1926. Egypt, he said, feared its nationals might be contaminated by Pakistanis infected with cholera.

Vegetables Mean Dollars In Israel

Tel Aviv, Israel—(AP)—Israelis say canned vegetables are worth "their weight in gold"—and the gold they want is more foreign money. A canning factory at Raanana reported it had received large orders from abroad and had boosted its employment schedule to two shifts of 140 workers to prepare shipments.

The factory already has shipped 18,000 cans of cabbage and 40,000 cans of cucumbers to England. Israeli steamers are to transport 100,000 cans of Israeli cucumbers to the United States.

The ribbon-tailed bird of paradise is black with a bluish-green cap and throat and two-foot white tail feathers.

PARIS HILLBILLIES—Paris fashion designer Jacques Fath and his wife lead a square dance at the hillbilly party they gave at their 400-year-old chateau near the French capital.

Call 3356

City subscribers who do not receive their Reflector by six p. m. are requested to report same by telephoning 3356 between six and six-thirty p. m.

After that hour the circulation department will be closed and deliveries will be made of papers missed.

Israeli Stressing Farm Program

Tel Aviv, Israel—(AP)—The national conference of Israeli farmers is backing the government's plan to double the area under cultivation by 1953.

The scheme, part of the government's 4-year economic recovery
