# Rep. Chatham Sees Soviet 'Baby Tanks' And New Jets

### Glimpses Modern Russian Weapons While On Trip In Eastern Germany With Russian He Once Befriended; Guide Admits Soviet Failures

Berlin, Oct. 3.—(AP)—An American congressman has pierced Russia's iron curtain in Germany and returned undetected with an eyewitness account of new Soviet baby tanks and jet planes.

The adventure was reported by Rep. Thurmond Chatham (D-NC), who came to Berlin with a group of legislators touring U. S. defense points in Europe.

Chatham in an interview described a 50-mile jeep ride into the Soviet zone which bristles with 250,000 Russian troops. He visited a new air base and an infantry tank compound.

A westerner on such forbidden territory is vulnerable to arrest and possible shooting as a spy.

The congressman said he was escorted by a Russian officer he befriended while they both were doing liaison work during World War II.

Chatham told this story: He recognized the Russian, in civilian clothing, in a west Berlin night club.

"He threw his arms around me and we had a good talk. He asked if I would like to take a trip with him and I accepted."

The next day the Russian took Chatham to the Soviet sector of Berlin, put on the uniform of a Senior Red Army officer and took a jeep from the Russian motor pool.

He barked his way through half a dozen check points, explaining his American companion as a friend from one of the East European satellite countries.

At an airfield completed only six weeks before, Chatham said he saw new jet planes, with sweptback wings that looked to him as sleek and as fast as the latest American types.

At another base, he said, there were about 20 tanks built lower than anything he had seen while in combat in both world wars—about three feet high but armed with long guns.

Chatham speculated the tanks might be almost immune to ordinary fire from weapons which could not lower their muzzles enough to aim at the low tanks.

The drivers, the congressman conjectured, probably lie prone to operate the tanks.

Enroute, Chatham said, the Russian gave him these personal opinions—

1. The Soviets have lost face in Asia over the Korean war.
2. The Kremlin drive to bring about Polish-East German friendship under communist rule has failed so far.
3. "Every one-legged German would carry a gun against us (the Russians) now."

Chatham said he saw thousands of Russian soldiers in uniform and bringing in the harvest. The officer, he said, explained this as a measure to maintain discipline in an army cooped up mostly in compounds and barracks.

The congressman said he was told the Soviet occupation army was paid mostly in East German marks which come out of the vast East German government's treasury and are written off as occupation costs.

At the end of the trip, Chatham said, the Russian donned civilian clothes again and brought the congressman back to the west. The Russian, he added, was richer by cigarettes, chocolate and nylon hose when they parted.

# Rapid March By Korean Forces

### Despite Transportation Shortage And Scant Supplies, Republican Forces Drive Ahead; No Sight Of Fleeing Enemy

By HAL BOYLE

With South Korean Troops in Red Korea, Oct. 3.—(AP)—The fast-moving South Korean army wheeled into Kansong this afternoon, 39 miles inside Red North Korea.

Patrols whipped on toward burning Kosong, 30 miles farther north. A staff officer said they would keep going until they reach the Manchurian border of Red China.

Air observers reported three large fires in Kosong, on the eastern coastal road alongside the Sea of Japan. Their Fifth Air Force transport plane flew on 15 miles beyond Kosong to Chongjin.

There was no sign of the enemy. The Reds have been retreating so fast the South Koreans have been unable to catch up with them.

The South Koreans have most of two divisions beyond the parallel 38 border they crossed shortly before noon Sunday. The Third ROK (Republic of Korea) Division is spearheading the advance up the coastal road. The Capital Division is swinging inland at Yangyang and going northwest through the hill route.

The Korean Military Advisory Group's (MAG) personnel were ordered not to discuss the crossing with war correspondents and not to give any information whatever about the action.

However, the correspondents were permitted to go beyond 38 and South Korean officers freely answered their questions.

There are approximately 50 to 60 American KMAC military per-

# U. S. Arms Need Given Top Priority

### Bottleneck - Buster For Program Is Given Industry By NPA Order

Washington, Oct. 3.—(AP)—A simple, ironclad priority system was imposed on industry today as a bottleneck-buster for the \$30,000,000,000-a-year defense program.

With this action, the National Production Authority (NPA) felt it had provided the basic kit of tools needed to keep the defense production drive in high gear despite prospective shortages.

A single priority rating—identified by the symbol "DO," for "defense order"—will give military contracts let by the Armed Forces or the Atomic Energy Commission the right of way in any defense plant.

The NPA regulation, announced by Administrator William H. Harrison last night, requires every company to accept "DO" orders and make delivery on time. Civilian work must be sidetracked if necessary.

Officials said they knew of no delays on munitions work this far. But shortages of steel, copper, aluminum and other vital materials are expected to develop as the arms program picks up speed.

A manufacturer who receives a "DO" contract may serve the rating on his suppliers, to obtain parts, raw materials and accessories; and the subcontractors in turn may use it on their suppliers.

Companies which already hold military orders are expected to flood the Pentagon with requests for the rating in the next few days, simply because it will insure them against any future breakdown in the flow of materials.

The production tool-kit now includes:

1. Defense loan guarantees, under which producers may apply to Federal Reserve banks or branches for the funds needed to swing big contracts, expand plants or buy new equipment. Government insurance of these loans is provided.
2. An inventory control order, barring the hoarding of key materials beyond normal, minimum working supplies.
3. Today's "NPA Regulation No. 2," giving the military top claim on materials and plant capacity.
4. A slowly emerging allocation system, under which NPA will earmark certain tonnages of scarce materials for vital defense programs.

Under the last program, it has been disclosed, NPA shortly will begin parceling out synthetic rubber to tire makers, without, however, ordering the rationing of tires to consumers.

# Alied Planes Pound Heavy Columns In Red Korea Near Manchurian Line

# NCEA Convention Opens On College Campus Today

East Carolina Teachers College, welcomed to the campus today approximately 1,500 teachers, principals, supervisors and superintendents present in Greenville for the 28th annual convention of the North Carolina Education Association.

By 10 a. m. today, when the first general session began, the corridors and the auditorium of the Austin building, convention headquarters, were being filled with representatives of schools in the district and convention guests. The 22 counties which make up the Northeastern District are Beaufort, Bertie, Camden, Chowan, Craven, Currituck, Dare, Edgecombe, Gates, Greene, Hertford, Hyde, Lenoir, Martin, Pamlico, Pasquotank, Perquimans, Pitt, Tyrrell, Washington and Wilson.

The schedule for the morning included, in addition to the general session, sixteen departmental meetings, at which various aspects of public school activities were discussed and officers for 1950-51 were elected.

C. M. Abernethy of Lenoir, president of the North Carolina Education Association, welcomed those present and extended greetings from the association.

Dr. Amos Abrams, associate editor of North Carolina Education, introduced staff members of the State Education Association, who discussed activities of the organization.

Henry McFayden, recently appointed director of public relations and research of the NCEA, and Mabel Stephens, NCEA field secretary, were presented to the audience and commented briefly on their work.

A. C. Dawson, Jr. of Southern Pines, legislative chairman of the NCEA for 1950-1951, outlined a tentative legislative program for the NCEA, including reduction of the teacher load, improved tenure, sick leave, and clerical aid for principals. The salary schedule advocated by the NCEA, he said, will be \$2,400-\$3,600. This, he pointed out, differs from the \$2,244-\$3,100 schedule recommended by the State Board of Education, which, he stated, represents no increase.

Speakers at departmental meetings during the morning included Audrey V. Dempsey, Elizabeth Walker, Dr. Charles W. Reynolds, R. M. Helms, and Frank Fuller, all of East Carolina Teachers College; Mrs. Howard Mims of Greenville; Dr. Mildred Hartcock of Atlantic Christian College; Charles E. Spencer of the State Department of Public Instruction and the State Board of Health; Dr. Gordon Ellis, and D. H. Conley, superintendent of Pitt county schools.

Dr. Lyle W. Ashby, secretary for professional relations, National Education Association, Washington, D. C., is principal speaker at the second general session, which is in progress as the Reflector goes to press. His topic is "The Role of the Teacher in Today's World."

Dr. Ashby was introduced to his audience by J. E. Miller of the state department of public instruction. A program of music preceding Dr. Ashby's talk included group singing led by Dan E. Vornholt of the East Carolina faculty and selections for the pipe organ played by George E. Perry of the college department of music.

Also scheduled for this afternoon were a performance of Chekov's "The Boor," by members of the Teachers Playhouse of East Carolina Teachers College, directed by Dr. Lucile H. Charles of the faculty, and a tea for alumni of the college in the Austin building.

The evening's program includes dinner meetings at various places in the city by four divisions and one department of the district organization.

President John D. Messick of East Carolina Teachers College will talk at 6 o'clock before members of the Division of Higher Education at a meeting at the Greenville Woman's Club. His topic will be, "Trends in Higher Education."

James L. White of East Carolina, divisional president, will preside over this meeting.

The classroom teachers, meeting in the college dining hall at 6 p. m.

# Traffic Rolling Southward From Communist China's Manchuria Border; South Koreans Nearly 50 Miles Beyond Parallel; Generals Confer

Tokyo, Oct. 3.—(AP)—The Far East Air Force reported allied warplanes pounded heavy traffic columns rolling southward today in Red Korea from communist China's Manchuria border.

The reports came as South Koreans pierced nearly 50 miles northward into Red Korea on a drive aimed to carry all the way to the Manchuria frontier.

Then the South Korean penetration army commander conferred urgently with two top U. S. generals who flew to Koryo airfield, just south of the parallel 38 border on Korea's east coast, to meet him.

Pilots making the strike along the international highway to the North Korean capital of Pyongyang reported they destroyed 34 trucks and five other vehicles.

They claimed damage on 13 other trucks and a dozen other vehicles.

The increased traffic on the road from Antung, Manchuria, to Pyongyang was first noted at 5:30 p. m. Monday (3:30 a. m. EST), an Air Force spokesman said.

At midnight, B-26 night intruder planes failed to find any trace of the vehicle columns.

Fighter-bombers were sent to the area shortly after dawn Tuesday. The first flight failed to sight any traffic.

The Allied pilots flew lower and slower and eventually found camouflaged trucks off the paved road.

The Air spokesman said 35 of the 56 trucks reported destroyed were bagged in the vicinity of the North Korean capital.

An Air spokesman in Tokyo said the northernmost attack line along the highway was 20 miles south of the Manchurian border. The officials refused to comment on where the southern traffic might have originated. Fifth Airforce pilots reported trucks kills in Kwansan, Anju, Sinanju, Tongyu, all along the Antung highway.

Antung is 100 air miles northwest of Pyongyang and across the Yalu river separating Korea and China.

A Red column was reported late last month streaming down from Manchuria but air patrols were unable to find any trace of it later.

(The Pyongyang radio, in a broadcast of the Red's Tuesday night war communique, failed again to mention the border crossing by South Koreans last Sunday. The broadcast heads in San Francisco said the Reds had destroyed six Allied planes and four tanks. It contended there still was heavy fighting in the Seoul area.)

AP Correspondent Tom Lambert said American Marines Tuesday captured Ujongsu, 13 miles north of Seoul.

At Koryo airfield near Kangnung, Lt. Gen. Walton H. Walker, Eighth Army commander, and Maj. Gen. Earl E. Partridge, Fifth Air Force commander, talked with Maj. Gen. Kim Pak II, commander of the South Korean First Corps.

# Strong Pleas Offered For Health Dept. Space

Members of the State and Pitt Boards of Health met with the County Commissioners yesterday to request further and adequate space for the Health Department to operate in.

The appearance by the county health board marked the first time the body has appeared before the Commissioners with its request.

The movement to make the present Agricultural Building, where the department is located, a health center has been underway for several months and moved the Board to make its request.

Representing the State Board was Dr. C. C. Applewhite, director of the Local Health Administration which advises county health groups on setting up their health centers. Dr. Applewhite appeared at the request of health officer Dr. T. G. Basnight as did the county Board members.

The consensus of those members present was the department must have more space in which to operate more of its equipment, which heretofore has been in disuse, and to carry out its other functions.

Most of the members spoke in favor of maintaining the present building for the center when the

# Solon Dies Of Heart Attack

Washington, Oct. 3.—(AP)—Rep. Herbert A. Meyer, Kansas Republican, died yesterday after an illness of several weeks. He was 64. Death was attributed to a heart attack.

Meyer was publisher of the Independence Daily Reporter. He had been a member of Congress since 1946. He was a member of the House Armed Services Committee.

TO HEAD RETIREMENT FUND

Raleigh, N.C., Oct. 3.—(AP)—C. C. Stoker, High Point police chief, today was named by Governor Scott to the Board of Commissioners for the Law Enforcement Officers' Benefit and Retirement Fund.

# Seventh Million-Dollar Day On Tobacco Mart Averages \$60.17

A new peak was reached in the daily average selling price on the Greenville tobacco market yesterday as the seventh million dollar day of the season was recorded.

Prices on all grades of tobacco soared to new heights as the day's sale averaged \$60.17 per hundred pounds. With only four and one-half million pounds of tobacco left and paid out \$1,035,776.48. It was the seventh day this season, and the seventh time in the history of the Greenville market that over a million dollars has been paid out in a single day.

Prices were still continuing to climb today on the market as a full sale of the leaf was on the

# Nolo Contendere In Prisons Case

Raleigh, Oct. 3.—(AP)—A plea of nolo contendere was entered in Wake Superior Court today in the case of former Prison Director J. B. Moore and A. W. Livengood, a former prison maintenance foreman.

The plea—which means that the defense makes no contention in respect to the charges and is technically the same as a plea of guilty—was entered on a bill of indictment charging the two with misdemeanor in office in the use of prison materials, prisoner labor and state-owned vehicles for construction work at Moore's home here.

After the plea was entered, Solicitor William V. Bickett began introducing state evidence in the case which resulted in Moore's resignation and Livengood's discharge.

The first witness Bickett sent to the state was SBI Agent James Powell who told of events leading up to an SBI investigation of the case early last summer. Powell testified that the case was made public by Jesse Helms, news director for radio station WRAL and this led to a request by Dr. Henry W. Jordan, State Highway Commission chairman, for the SBI probe.

After the investigation, Moore denied the charges but resigned as prisons director. A few weeks later Livengood was discharged by the Prisons Department.

The State Supreme Court has held that a plea of nolo contendere is tantamount to a plea of guilty.

# Court Directs Maryland Univ. To Admit Negro

Baltimore, Oct. 3.—(AP)—A court today directed the University of Maryland to admit a Negro student at its College Park campus.

The university never had a Negro at College Park. Its law school in Baltimore has accepted them for several years and it now is under court directive to admit one to the nursing school, also in Baltimore.

Today's decision was by Judge John T. Tucker in Baltimore city court. It directed the university to admit Parren J. Mitchell, 27, of Baltimore, to graduate classes in sociology.

Two university professors testified in Mitchell's action last week that Dr. H. C. Byrd, president of the university, had decided it was "inadvisable" to have Negroes at College Park.

# Rising Prices Slash Air Force Expansion Plans

Washington, Oct. 3.—(AP)—The Air Force said today that due to price rises it will have to cut its expansion program by the equivalent of 750 F-86 fighter planes or else get more money from Congress.

John McCone, undersecretary of air, gave that estimate to the House armed services committee.

Chairman Vinson (D-Ga.) commented: "Congress must control prices or provide more money. There is no need to fool ourselves."

McCone said that price rises on essential materials from April to September added \$315,000,000 to \$360,000,000 to the prospective cost of the air force program of adding 4,428 new planes in the period ending with 1952.

# Moore And Livengood Enter Plea In Wake Court

Raleigh, Oct. 3.—(AP)—A plea of nolo contendere was entered in Wake Superior Court today in the case of former Prison Director J. B. Moore and A. W. Livengood, a former prison maintenance foreman.

The plea—which means that the defense makes no contention in respect to the charges and is technically the same as a plea of guilty—was entered on a bill of indictment charging the two with misdemeanor in office in the use of prison materials, prisoner labor and state-owned vehicles for construction work at Moore's home here.

After the plea was entered, Solicitor William V. Bickett began introducing state evidence in the case which resulted in Moore's resignation and Livengood's discharge.

The first witness Bickett sent to the state was SBI Agent James Powell who told of events leading up to an SBI investigation of the case early last summer. Powell testified that the case was made public by Jesse Helms, news director for radio station WRAL and this led to a request by Dr. Henry W. Jordan, State Highway Commission chairman, for the SBI probe.

After the investigation, Moore denied the charges but resigned as prisons director. A few weeks later Livengood was discharged by the Prisons Department.

The State Supreme Court has held that a plea of nolo contendere is tantamount to a plea of guilty.

# Relate Massacre Of 82 People By Pro-Communists

With U.S. 25th Division On The Yellow Sea, Korea, Oct. 3.—(AP)—A new batch of massacre survivors reported today that pro-Communist South Koreans stabbed 82 South Koreans dead with bamboo spears Monday.

Witnesses said the victims were men, women and children in the anti-Communist village of Chung-yong, a few miles south of the west coast port of Kusan.

The survivors said Red sympathizers slipped out of the hills at dawn and roused peasants from their sleeping mats.

They gave this account: All were herded into a circle and the Reds walked around the group, leering at them and stabbing them one by one.

Afterwards, the renegades of the Republic walked through blood-stained lanes singling out individuals and killing them.

# Appeal Filed By Mary Cameron

Raleigh, N.C., Oct. 3.—(AP)—Attorneys for Mary Vail Cameron have appealed to the State Supreme Court today an order denying her alimony and custody of her children pending her divorce suit against her wealthy Wilmington husband.

Mrs. Cameron, daughter of a rich Californian, appealed as a pauper. It is the second appeal in the publicized case to reach the high court.

# Threat Lightly Taken Communist China's Talk Of Intervention To Save North Korea Apparently Not Being Taken Very Seriously; General Chou Echoes Russia; Disproves Split

By DeWITT MacKENZIE

South Korean forces have continued to push above the 38th parallel despite Communist China's thinly veiled threat of intervention to save her Red comrades.

American B-29s also have been blasting at North Korean troop concentrations and other strategic targets above this "deadline."

Thus it would seem that the United Nations forces aren't particularly impressed with the seriousness of Communist Premier Chou En-lai's fiery blast over the weekend. This was in a broadcast from Peiping during which he declared: "The Chinese people absolutely will not tolerate foreign aggression nor will they supinely tolerate seeing their neighbors being savagely invaded by imperialists."

General Chou didn't name any specific country. However, he pointed out that the Chinese are deeply interested in the progress of events in Korea, and expressed the belief that the North Korean Communists will win. The implication was clear enough.

Chou rounded out this blast by a statement in the Moscow Pravda in which he asserted that the American government is China's most dangerous enemy." He also served notice that the big island of Formosa, base of the Chinese Nationalists, will be "liberated" despite American interference.

Next to Communist leader Mao Tse-tung, General Chou is the most powerful figure in Red China. An important announcement by him can't be thrust aside lightly.

However, in the present instance I believe we are justified in saying that Chou was speaking with the tongue of Moscow. In short, he was dispensing Soviet propaganda which also suits China's purpose.

This merely confirms what long has been apparent—that Mao, Chou and the other Chinese Communist leaders have decided to follow Russia's lead. Thus it isn't a question of whether it would be to China's advantage to intervene in Korea, but whether it would suit Moscow's general program.

General Chou's present position is especially interesting in view of his original claim that Chinese communism had nothing to do with the Moscow brand but was purely agrarian. I had a long talk with him

(Continued on page ten)

# Austin Says Russia Tried 'Tragic Hoax' With Plan

Ann Arbor, Mich., Oct. 3.—(AP)—Warren R. Austin says the Russians "tried to play a tragic hoax on the peace-loving people of the world with a phony plan for atomic energy control."

Austin, U. S. delegate to the United Nations, made the charge last night as one of three speakers at dinners marking a University of Michigan project to harness atomic energy for peace.

The others were Jordan Dean, chairman of the U. S. Atomic Energy Commission, and Gen. Dwight D. Eisenhower, president of Columbia University.

The speeches saluted the start of a drive to raise \$6,500,000 for the university's war memorial "Phoenix Project." It is so named for the Phoenix bird of mythology which rose from its own ashes.

Dean, speaking at Ann Arbor, said that privately financed research in unclassified fields is basic to "speedy progress in atomic development."

Gen. Eisenhower, talking at State College, Pa., said "A nation relying on guns alone for its defense would soon become a 'corpse in armor'."

Austin spoke in New York City at another of a series of simultaneous alumni dinners in 55 cities. He defended the willingness of the United States to consider any plan that would achieve atomic control.

# State Revenue Report Shows Collections Rise

Raleigh, Oct. 3.—(AP)—North Carolina's school teachers found a happy note today in the state revenue report for September which showed general fund tax collections are still on the increase.

Governor Scott and the Advisory Budget Commission announced two weeks ago that the state's \$4,000,000 in contingent pay boosts it receives continue on a high level through October. The pay boosts were promised by the 1949 legislature.

Revenue Commissioner Eugene Shaw announced yesterday that general fund tax collections for September were \$7,733,287, an increase of \$832,602, or 13.71 per cent, over September, 1949.

For the first three months of the fiscal year, Shaw said, general fund collections were \$3,371,143 above the same period in 1949. Collections for the three months totaled \$26,180,878. This compared with \$23,043,533 for the same period last year.

Sales tax collections led the way in September, marking the seventh consecutive month the sales levy has shown an increase. The intake last month was \$4,138,156, as compared with \$3,254,987 in September, 1949.

# N. C. Moves To Fill Draft Quota

Raleigh, Oct. 3.—(AP)—Pre-induction examinations are underway to meet the state's November draft quota of 2,000.

The first group of more than 2,000 registrants from 32 northeastern counties reported yesterday at the Raleigh recruiting station. Another group is scheduled to be processed today.

The schedule for the remainder of October includes 103 from Pitt on October 27.

# DRAFT BOARD MOVE

The Pitt County Selective Service Board will move its office this week. The space will remain on the third floor of the Municipal Building but will be located four doors down the hall on the right. Signs will be placed at appropriate places in the building to designate the new location.

(Continued on page ten)

### Tea On Saturday Given By Mrs. Rose Fetes Brides Elect

Miss Frances Kittrell and Miss Dorothy Suggs Ormond, both of whom will be married this month, were entertained at a delightful tea on Saturday afternoon when Mrs. J. H. Rose was at home to approximately fifty callers at her home on East Tenth street.

Mrs. F. B. Haar was at the door to greet the guests when they arrived. She introduced them to the receiving line composed of the honorees and the hostess.

The living room was enhanced by flower containers holding large fall dahlias in shades of deep red and bronze.

Miss Muriel Shotwell invited them into the dining room for refreshments. Centering the table on which an ivory linen cloth was used,

was a bowl of pastel dahlias in shades of pink and orchid. Triple candelabra of silver held lighted green tapers. On the buffet was an arrangement of pink gladioli and lavender chrysanthemums.

Mrs. J. B. Kittrell and Mrs. H. L. Ormond alternated in pouring tea from a silver service. Assisting in serving the accompanying sandwiches, canapes, pastries and nuts which were on silver dishes, were Misses Muriel Shotwell, Janice Ormond and Lenna Rose.

The honor guests were presented dainty shoulderettes of white pompons preceding the tea and before they departed they were given gifts of crystal bowls as a remembrance from the hostess.

### SOCIAL CALENDAR

#### TUESDAY

7:00 p. m.—Altrusa charter meeting at the home of Mrs. J. B. Spilman.

8:00 p. m.—General meeting of Woman's Auxiliary of St. Paul's Episcopal church at the parish house.

8:00 p. m.—Chapter 149 of the Eastern Star will meet.

#### WEDNESDAY

11:00 a. m.—Mrs. John Clark Sr. and Miss Carolyn Clark are hostesses at a coffee hour in honor of Miss Dorothy Ormond.

6:30 p. m.—Dinner meeting of Woman's club and Junior Woman's club at the club house.

8:00 p. m.—Junior Woman's club meets at the club house.

#### THURSDAY

12:45 p. m.—Mrs. E. Lee Moore, Mrs. W. P. Moore, and Mrs. C. W. Howard, Jr., will entertain at a luncheon honoring Miss Frances Kittrell, bride-elect of Saturday.

3:30 p. m.—George B. Singletary chapter, U. D. C. meets at the home of Mrs. J. L. Fleming.

7:00 p. m.—Mr. and Mrs. J. H. Waldrop and Mrs. W. I. Wooten will have a buffet supper at the home of the former as a compliment to Frances Kittrell and John Fritchman.

7:30 p. m.—Woman's College Pitt county Alumnae will meet at the home of Mrs. Luther Herring, 505 E. 4th Street.

8:00 p. m.—Aries Book club meets with Mrs. T. G. Basnight, Jr.

#### FRIDAY

1:00 p. m.—Dr. and Mrs. K. E. Pace entertain the Fritchman-Kittrell wedding party, family and out-of-town guests at a luncheon at her home.

5:00 p. m. to 6:30 p. m.—Mr. and Mrs. James T. Little will hold "open house" as a compliment to Miss Kittrell and Mr. Fritchman, their wedding party, families and out-of-town guests.

6:30 p. m.—Mrs. Frank H. Thrasher of Dayton, Ohio will entertain Miss Frances Kittrell and her attendants in the Quinley room of the Woman's Club.

6:30 p. m.—Mr. John C. Fritchman will be host to his groomsmen in the Cotten room of the Woman's Club.

6:30 p. m.—Mrs. C. C. Parker, Mrs. J. G. Fearing and Mrs. Katharine Adams will entertain the families and out-of-town guests here for the Fritchman-Kittrell wedding in the Rachel Moore room of the Woman's Club.

6:30 p. m.—Kiwanis Club.

6:30 p. m.—Exchange Club.

9:00 p. m. - 1:00 a. m.—German Club dance at Country Club.

9:00 p. m.—Rehearsal for the Fritchman-Kittrell wedding at the Jarvis Memorial Methodist church.

10:00 p. m.—Rehearsal party at the home of Mr. and Mrs. J. C. Lanier to honor the Fritchman-Kittrell wedding party.

#### SATURDAY

9:30 a. m.—Mr. and Mrs. J. B. Kittrell, Jr. and Mr. and Mrs. R. M. Gaines and Miss Sue Gaines will entertain the Fritchman-Kittrell wedding party, families and out-of-town guests at a wedding breakfast at the Proctor hotel.

1:00 p. m.—Mr. and Mrs. R. M. Garrett and Mr. Ralph Garrett, Jr., will entertain at buffet luncheon at their home to honor the Fritchman-Kittrell wedding party and out-of-town guests.

5:00 p. m.—Fritchman-Kittrell wedding at the Jarvis Memorial Methodist church.

5:30 p. m.—Mr. and Mrs. J. B. Kittrell, Sr., will entertain at a reception at their home, 801 East Fifth street, to honor Mr. and Mrs. John Checkley Fritchman.

### Friday Luncheon Hostess Compliments Brides Elect

Miss Frances Kittrell, whose wedding will be solemnized in a formal ceremony on Saturday, was graciously complimented on Friday when Mrs. B. B. Suggs, Sr., entertained at a luncheon at her home on West Fifth street. Sharing honors with Miss Kittrell was Miss Dorothy Ormond, another bride-elect of the month.

The guests upon their arrival were greeted by the hostess and the honorees. The home was lovely throughout with varied fall flowers in harmonizing shades of lavender and pink, green and white, and orchid and pale yellow.

The table in the dining room, from which the luncheon was served buffet style, was covered with a white cut-work cloth. The centerpiece was composed of a graceful assortment of chrysanthemums in tones of orchid and yellow. From one end of the table Mrs. J. B. Kittrell served ham from a silver platter, and at

the other end was Mrs. H. L. Ormond, who served a congealed salad. Two antique platters in a moss rose pattern contained broiled tomato halves on buttered toast. The hostess passed a hot casserole of crab meat and small party rolls after the guests were seated at auxiliary tables.

In the living room pink gladioli and green and white chrysanthemums were effectively used in lovely crystal containers. On the small luncheon tables, which were covered with linen cloths, antique nosegays made of red sweetheart roses and white dwarf mums. On the mantel was an artful arrangement of pink gladioli and thaggy chrysanthemums. In the hall and library lilies were used with autumn greens as a decorative note.

The brides-elect were presented dainty corsages of sweetheart roses by the hostess prior to the luncheon.

### Baptist Federation Installs Officers

Approximately 225 Baptist business women of the Roanoke Association enjoyed a fellowship supper last night at Arlington Street Baptist church in Rocky Mount and a talk by Miss Hannah Plowden, missionary to Hawaii. About 28 attended from the two local churches.

Miss Gloria Blanton installed the new officers of the Federation in an impressive service of installation and dedication, with Miss Seleta Tucker of the college singing the closing prayer. Miss Sarah Jones of Greenville is the new pianist for the Federation and Mrs. Clem Garner the new publicity chairman. Miss Esther Simmons of Rocky Mount is the new president; Mrs. W. E. Andrews, Bethel, second vice-president; and Mrs. M. T. Spier, Winterville, treasurer.

The spring meeting will be held at Greenville Immanuel Baptist church with the two business circles in charge, with invitation extended last night by Mrs. George B. Jones.

### Scouters To Map Work For Year

The Pitt district scouts will meet Monday night at the Jarvis Memorial church.

The meeting includes scout leaders, cub leaders and district committeemen and will be for the purpose of making plans for the year and to participate in training.

Scout Executive Jack Hogarth said the district committee will hold its monthly meeting with the idea of making out a program for the scouting year and to carry on with other scouting affairs. "New troops will have to be organized, more leaders brought into scouting, and training courses planned. All members should be present to help in this job."

The scout leaders will meet with Commissioner Jack Dowdy and

### Improved Insulin Soon On Market

Washington, Oct. 3—(AP)—A new form of insulin approved for commercial distribution offers an improved treatment for severe diabetics, most of whom are children, a Boston doctor said last night.

Dr. Priscilla White told the District of Columbia Women's Medical Society that the insulin has been under test for four years and probably will be placed on the market this month. It is called "NPH" insulin.

Dr. White said it is the nearest approach yet to a long-sought insulin which would control blood-sugar immediately in a diabetic patient—and have effects lasting exactly 24 hours, so there would be no "overlap" in effect for patients needing insulin every day.

The new insulin takes effect in two hours, lasts for 28.

Tests at the Joslin Diabetic Clinic in Boston and elsewhere, she said, have shown that it has these advantages over previously available insulins:

1. Used in combination with a quicker-acting but shorter-lasting insulin, it allows a one-shot-a-day treatment instead of several required with other insulin alone.
2. In this same combination, it allows an easier and "less annoying" treatment than a previous once-a-day method employing a quick-acting insulin in combination with one having a very long-lasting effect.

### Bookmobile Schedule

THURSDAY  
Keel's Store—9:45-10:00  
Bethel High School—10:15-11:15  
Bethel Public Library—11:30-12:00

Most of the field corn grown in the United States today is of the yellow varieties; a couple of decades ago nearly half of it was white.

NEW LION CUBS FOR ROME ZOO—Custodian Antonio Forato (right) and his assistant make their daily visit to three baby lions born recently in the Rome, Italy, Zoo.

### Bride Of Early Fall Honored

On Saturday at 1 p. m. Miss Sarah Kirkpatrick was a luncheon hostess in compliment to Mrs. Louis Collier, a recent bride, who is the former Jean McGowan. Sharing honors with her was Miss Dot Suggs Ormond, who will be wed on October 14 to Mr. Tom Grier of Spartanburg, S. C.

The luncheon took place at the Woman's Club, where guests were welcomed at the door by Miss Kirkpatrick, Mrs. Collier, and Miss Ormond. They were invited into the banquet hall where tables were placed in a U-shape. The room was lively with large bowls of mixed chrysanthemums, ageratum and fern used on the mantel and tables.

The bride's table was centered with a silver bowl of assorted fall flowers interspersed with greenery graced on either side by twin silver candelabra. The places were marked with dainty bridal cards and beside the places of the honorees were gift corsages of American Beauty roses.

A three-course luncheon was served to twelve guests who were intimate friends of the honorees.

Mrs. Collier was given china to her chosen pattern and Miss Ormond was remembered with a gift of silver.

The strand is pulled to a special tension and then the spider goes to sleep. When an insect gets caught in the web, that strand vibrates. The vibration wakes up the spider for dinner.

Refreshments will be served after the meeting.

The Newton farm is located on the Fountain-Sharp Point road.

### Soil Fumigation Demonstration

There will be a soil fumigation demonstration for tobacco root knot control held on the farm of E. C. Newton, Thursday, of this week at 10 a. m.

Representatives from manufacturers of soil fumigants will be present to discuss the proper methods

### Spiders Owned First Telegraph

New York—(AP)—Modern communications experts who have been looking into the matter think the orb spider got ahead of them ages ago. The spider's system still works perfectly.

One strand of her web is run some distance to a special hideaway that the spider uses as a bedroom

### Autumn Chill In Western States

By the Associated Press  
The coolest weather of the autumn season chilled most of the western part of the nation today but it was mild in the eastern and southern states.

Temperatures dipped as low as 19 above in Montana as the cold air spread southeastward from the northern Rockies and northern plains into the north central states. Readings were below freezing in many parts of the cool belt.

There were sharp drops over some of the east central states from yesterday's summer temperatures. Chicago's early morning low was in the low 40s as compared with a high of 83 yesterday. The cold air extended into the northwest Pacific and readings of near freezing were reported in some areas.

Light snow continued in southern Montana and showers preceded the eastern movement of the cold air. Fair weather was reported in other sections of the country. The worst autumn snowstorm on record hit southeastern Manitoba yesterday, with nearly five inches of snow at Winnipeg and seven inches at Gimli, 75 miles north.

### Girl Marine Passes Tests; Perfect Mark

Washington, D. C. (AP)—Miss Girlie Lou Rice recently became the first woman marine recruit to make a perfect score on the Armed Forces mental test adopted January 1. The former St. Louis, Mo., department store model reported to the Marine Corps Recruit Depot, Parris Island, S. C., where she will undergo basic training.

Mrs. Billie McNaab (above) has been charged with helping girl employees smuggle rolls of coins from the counting room of the telephone company at Miami, Fla. over a period of years. (AP Wirephoto).

### Democratic Club President To Be Guest Speaker

Robert Williams, Jr., recently elected president of the North Carolina Democratic club, will be guest speaker at a meeting of the YDC at East Carolina Teachers College Thursday evening at 8 p. m. in Flanagan auditorium. Members of the Pitt County YDC have been invited to attend.

Opening his term of office in the eastern part of the state, Williams, a native of Asheville, will speak to the campus club in conjunction with the Democratic rallies being held throughout North Carolina preceding the November election.

Elected at the annual YDC convention in Asheville last month, Williams began immediately to organize work for the year. He succeeds Terry Sanford, attorney of Fayetteville. Prior to his election, Williams was active in YDC work in Buncombe county and in state YDC affairs.

Following the election in Asheville, the Executive Board of the YDC made plans to sponsor a state-wide contest to increase the membership of Young Democratic clubs. Carrying out this plan, the Executive Board is having membership cards printed and distributed throughout the state to YDC's.

### Romania Blasts Free Enterprise

Vienna, Austria (AP)—Private enterprise will be almost completely abolished in Romania by 1955 if the Communist government's new five year plan is fulfilled.

Romanian newspapers recently listed the 11 objectives of the plan, which goes into effect next Jan. 1. One of the goals is that "State trading and cooperative movements will be expanded to include 85-90 per cent of the total volume of business exchange."

The plan also calls for the "liquidation" of illiteracy, an 80 per cent improvement in the living standard of the working classes, and "great progress on the road to the total collectivization of agriculture."

### Beaver Shocked In Mid-Stream

Helena, Montana (AP)—While fishery men were operating an electrical shocking machine in Little Prickly Pear Creek, stunning fish so they could be weighed, measured and tagged, a beaver swam between the electrodes.

The startled animal leaped from the water twice, then sank. The crew on the machine hauled the dam builder to the bank and in 45 minutes the animal recovered and scurried away to resume his wood-cutting.

**CUT WORK TIME.**  
Mida Boleslav, Czechoslovakia (AP)—A factory here claims to be able to make a two-door Skoda automobile in 270 working hours now, compared with 610 hours in 1946. Meantime the average hourly wage earned rose to 50 cents in mid-1950 from 37.6 cents in 1947.

### Minges-Whitehurst Vows Spoken In Private Ceremony On Saturday

MRS. JOHN F. MINGES

In a quiet ceremony attended only by close relatives, Miss Thorburn Lavonne Whitehurst, daughter of Mrs. Allie P. Whitehurst and the late Mr. Jack R. Whitehurst of Greenville, became the bride of Mr. John F. Minges, son of Mr. and Mrs. M. O. Minges of Greenville, in the First Presbyterian church, Saturday September 30, 1950. The Rev. Leonard W. Topping officiated at the double ring ceremony.

The bride was dressed in a navy suit with white accessories and wore a corsage of white orchids. Her only ornament was a diamond

lavalier, a gift of the groom. Mrs. Minges is a graduate of Greenville high school and attended East Carolina Teachers College.

Mr. Minges is a graduate of Darlington Prep school, attended Davidson college and East Carolina Teachers College. He is a member of the Sigma Alpha Epsilon social fraternity.

After a three weeks honeymoon in Florida, the couple will make their home in New Bern. Mr. Minges is vice president of the Pepsi-Cola Bottling Company of New Bern.

Poultry men have been seeking to develop a new grade of meat chickens by crossing them with pheasants.

**EXTENSION GRANTED**  
London, Oct. 3 (AP)—William N. Oatis, Associated Press correspondent who was scheduled to leave Prague Sept. 30 when his residence permit expired, is remaining there through October.

The Czechoslovak government granted a month's extension.

### Truck Damaged By Stray Mules

A flock of stray mules was the reason given by Patrolman Dick Chadwick this morning for an accident on the Belvoir highway around 8 a.m. Chadwick reported a dump truck driven by Ernest Franklin Harris, 1014 Ward Street, Greenville, was slightly damaged when a herd of five mules ran across the highway into his truck. Only one of the mules struck the truck, however, Chadwick said. The mule was hurt.

The driver reported that Peter Brown was chasing the stray mules in an effort to head them off when the accident occurred. They had just broken out of nearby stables, the man reported.

In the past several months, sev-

eral highway accidents have resulted in the county because of stray livestock on the highways. In many cases heavy property damage has resulted and slight personal injury. Last year several people were killed as the result of loose livestock on the highways.

The patrolman reminded farmers that the North Carolina livestock law requires that all animals be properly penned to prevent their roaming on the public highways.

### 'Protection' Racket In Singapore Schools

Singapore (AP)—A protection racket among Singapore school boys was revealed recently.

The usual procedure: a small boy gets knocked about by a bigger bully for one or two days. Then a schoolboy of the "protection gang" approaches the small boy and offers to protect him at a price—one dollar or 50 cents a month.

### Entire Class Of Students Fled Potsdam School

Bremen, Germany (AP)—An entire high school class which fled from East German communism has found a new home in the American-occupied city of Bremen. The 35 students and two teachers fled last July from Potsdam, in the Russian zone of German near Berlin. They said they fled to escape "the one sided political instruction" forced on them in Potsdam.

Bremen authorities helped them

Newspapers all over the country are celebrating national newspaper week — bringing truth to a free people.

**What is truth?**  
**What are free people?**  
The truth is the story of a city election with an honest counting of the votes just as they were cast by the free voters. It is the story of a bridge party in a neighborhood like yours and ours with everyday people attending. It is the story of the PTA; it is the story of the Home Demonstration club. It is the story of a ball game between the children of two schools; between the employes of a department store and a wholesale house.

It is the facts about what goes on in the world; the uncolored facts as seen by reporters and editors free to write as they please.

Free people are all the people in America who read the truth in a free press and form their own intelligent opinions about their local, national and world affairs based on the truth reported to them in their unfettered newspapers.

## The Pontoon Bypass

# Business Today

**By ELMER ROESSNER**  
Skilled employees can expect a lot of attention from their bosses for a long time in the future. While not every man in a large plant can expect an employer to invite him and his family to a country club for a week end, he can expect his employer to work overtime to create one big happy family.

In recent weeks, a large number of corporations have reopened wage negotiations far in advance of contract dates; many have plumped out wage increases as a pleasant and fatherly surprise.

It may be that some employers were acting in a spirit of altruistic fairness to compensate their workers for increases in the cost of living. But the blunt truth is that most of them were frantically building barricades to keep out labor pirates and to keep their own men from deserting to other jobs.

But man does not work for pay alone. Employers have begun to exert unusual efforts to make their plants desirable places in which to work. Complaints about unsanitary conditions, lighting and ventilation are getting faster attention. Several plants are planning new magazines and health organizations. Medical services are being expanded. Hobby clubs are being encouraged. Suggestion systems are being dusted off. Canteens are being enlarged.

As women are recruited—and it has already begun—the canteens may, as they did near the end of the last war, be expanded into miniature department stores so housewives can shop even when other stores are closed.

Nurseries for babies, which were tried in a few plants during the last days of World War II, probably won't be revived. Manpower will probably not grow so scarce that it will be necessary to recruit married women with small children.

The major aim at the present time is to retain and increase the number of employees with valuable skills and to cut down absenteeism. So first efforts will be toward making this select group safe from the blandishments of other employers.

**THE CHECK BOOK**  
Business men today must have a knowledge of the great books on politics and economics, declared Prof. Louis M. Hacker, who today opens a course on "basic reading for business executives" at Columbia University.

The great books he recommends include Machiavelli's "The Prince," Roosevelt's "Social Contract," Locke's "Civil Government," Hamilton and Jefferson's "The Federalist Papers" and "The Constitution" and Adam Smith's "Wealth of Nations."

These books, he said, help business men make fast decisions involving broad questions of an economic and political situation as well as industrial considerations.

**LISTINGS FREE**  
**TO TRADES WITH ITALY**  
Importers representing Italian firms and exports with agents in Italy can have a free listing in a new edition of "Directory of U. S. Agents of Italian Importers and Italian Agents of U. S. Exporters." All they have to do is to send the necessary information to the American Chamber of Commerce for Trade with Italy, Inc., 105 Hudson St., New York 13.

**PLAN TO ELIMINATE GYP BOOK SELLERS**  
In an effort to drive out gyp solicitors in the door-to-door book business, fifty subscription companies and 84 Better Business Bureaus have created an organization to maintain ethical advertising and selling practices.

Under the plan, subscription book-salesmen will be invited to register voluntarily with local Better Business Bureaus. They will be issued identification cards. Prospects can then assure themselves they are dealing with registered agents, and all complaints can be traced.

A similar plan in the magazine subscription field has reduced complaints considerably.

## National Whirligig

News Behind The News

**WASHINGTON, Oct. 3**—Korean victories and general business conditions have boosted Democratic hopes that they will retain control of Congress and make a fairly good showing in local and state contests next month.

President Truman, who is some shakes of a political prophet, has told friends that the off-year will see no serious drop in Democratic stock.

Nor does it bother him that it is a Republican military hero whose triumphs 6,000 miles away will bring out a big Democratic vote at the polls on Main Street, name-your-own-city.

Mr. Truman and General MacArthur may disagree on Formosa, but the White House will forgive our Far Eastern commander if he produces victories and votes.

**INCREASE**—It is the prospective business, industrial and employment situation, however, which gives confidence to the Democrats.

They believe that they "have everything under control," largely because they have not accepted the advice of Bernard M. Baruch, Federal Reserve Chairman Thomas McCabe and Connecticut Governor Chester Bowles, former Price Administrator, to impose controls on prices and wages.

Both wages and prices will go up in the few weeks before the voting. There will be a general increase in the cost of living.

But it is not expected that food prices, a touchy political index, will get too far out of line. Whereas they normally drop because of fall marketings of animals, they will hold steady, according to the economists.

**MANAGEMENT**—However, there will be no serious shortages or distortions until next spring, not in time to affect the voting. Not until then, after Christmas at the latest, will government and rearmament expenditures affect the wholesale and retail markets.

By not imposing controls, although most of his advisers want them, Mr. Truman has done an excellent job of political management, MacArthur has done the rest.

**ESTIMATE**—Mr. Truman's present estimate of the November outcome, and many GOP experts agree with him, is that the Republicans will gain about five seats in the Senate, and possibly thirty-five in the House. They need an additional seven and forty-six places for nominal control. They may win that number in both chambers, but it is doubtful.

The inside fact is that the shrewd Republican leaders do not want to take over Congress, although they cannot afford to admit it publicly. In view of the foreign and domestic problems which will confront the country in the next two years, they prefer that the Democrats assume both executive and legislative responsibility.

**TARGET**—Republican control of Congress through 1951 and 1952 would give Mr. Truman another target for the next presidential elections. It is now evident that he has abandoned his "fair deal" program under the pressure of foreign and military requirements, and he has conceded defeat on the domestic front.

So, the GOP will settle for a slight gain on both wings of Capitol Hill because of the psychological boost it will give to party spirit for 1952, especially the big contributors now spurning National Chairman Guy Gabrielson's financial appeals.

**POWER**—With the assistance of Democratic conservatives from the South, the GOP will continue to decide what measures may or may not pass, as they have done almost since Mr. Truman became President.

They may have more "southern comfort" as a result of the President's demeaning of James F. Byrnes of South Carolina, as quoted in Jonathan Daniels' recent book.

The GOP would like to become top dog on Capitol Hill for one reason alone—namely, the control of committees and the naming of chairmen. They hanker for that power mainly so that they could do the investigating of almost a generation of Democratic rule at Washington. They think they could uncover conditions which would make 1952 a walk-in for their ticket.

**CONCENTRATED**—They do not believe, for instance, that the two committees now investigating nationwide crime and RFC activities—the Kefauver and Fulbright groups—are doing a good job, and there is general agreement on that score.

So far they have only scratched the surface, largely with November in view. Had the Republicans been running these inquiries, the pre-election story would have been vastly different. They would have concentrated on crime in the President's home state, and on several questionable RFC loans to Missouri bankers and politicians.

**DOGHOUSE**—There have been reports that Major General Harry H. Vaughan, President Truman's crony, World War I buddy and military aide, is in the nation's biggest doghouse because of his association with war contractors and "five per centers."

General Vaughan says "it ain't so."  
"Harry and I are like that," he says, winding his thumb around his next finger.

## Selected Shorts

**FAIRFIELD, IOWA, DAILY LEDGER:** "We better return to the Constitution instead of trying to plunge any deeper into the mud-hole of totalitarianism which is as far removed from our way of life as the North Pole is from the South Pole."

**NAZARETH, PA., ITEM:** "The women who pay the increased costs, the men who work to make the money to buy the higher priced food, are voters. Maybe they are voters who . . . figure that if our government, through Congress, can create inflation, as it did four years ago, it can prevent inflation, as of today."

**FRANKLIN, INDIANA, REPUBLICAN:** "Social security is paid for by payroll taxes exacted from workers and employers; hence bigger benefits spell higher levies."

**ITALY, TEXAS, NEWS-HERALD:** "What fools these mortals be that cannot learn from European socialists that government ownership means inefficiency, scarcity, low pay—and most important, no remedy for the laboring man!"

## Somebody Told Me

By I. J. (Jack) EDWARDS, JR.

About a year ago a new fever started in Greenville, caused by the bite of the television bug. This fever spread at a steady rate, but within the past week it has almost gone out of control.

Last Wednesday, night when the heavyweight championship of the world was won from Joe Louis by Ezzard Charles, Greenville television viewers could see the fight so well that they could determine the rate at which the boxers' eyes were swelling. Those who saw the fight said the view was even better than it would have been at ringside, because the lens, in a sense, goes into the ring with the boxers.

Having missed the fight, I arranged to see what TV would have to offer Saturday afternoon. The attraction, of course, was the Carolina-Notre Dame game, and the results were truly astounding. Frankly, I had rather seen the game on TV than have gone to South Bend. The TV camera sees the plays better than a fan in the stands can see them—and there's nobody jumping up in front of you or spilling booze in your lap.

The set I observed belongs to Charlie Wells of Allen Implement Company. Charlie bought the set

last March and until recently it was set up at his country home. In the country Charlie's reception was good, but he was surprised to see how much better it is in the Allen Implement building. He believes that the chicken wire will have the same effect. To help eliminate car noise, Charlie says to turn your antenna upside down.

Charlie's outfit retails at about \$360. His screen is 10 inches in diameter, magnified to 16 inches. Installation charge would have to be added in order to estimate the price of a TV set.

The Norfolk TV station carries the top programs from the three major TV networks: ABC, NBC, and CBS. News films shown on the station are usually not more than 24 hours old.

Is a TV set a good investment in Greenville? It depends on whether or not you are willing to have clear reception only a majority of the time. If all-out war stays away, it's only a matter of months before TV cables will be closer to Greenville. That advantage, along with a price reduction of the sets, will bring TV within reach of more of us.

And I thank Charlie.

## Around Capitol Square

Daily Reflector Bureau By LYNN NISBET Raleigh, N. C.

**C. and D.**—Meeting of the state board of conservation and development at Charlotte October 23-24-25 may prove to be one of the most important sessions of any state board in a long time. Among the items on the agenda are stream use, flood control and power generation; discussion of proposed steel mill and cement plants in the state; general reorganization of the departmental organization of the commercial fisheries laws. Any one of these topics is sufficient to make the session important; the aggregate gives it peculiar significance.

**FEDERAL**—Major interest centers in the proposals for development of electric power plants and flood control. At instance of Governor Scott representatives of the Army Engineers Corps and of the U. S. Department of the Interior have been asked to meet with the C and D board members. Almost certainly the Roanoke Valley situation will occupy most of the time devoted to joint discussion. Contest will be over the question of whether the board of conservation and development will take a stand, by resolution or otherwise, for government of private capital construction of power generating dams at Roanoke Rapids and Gaston. The story of these proposed projects is well known.

**DELAID**—As soon as the Bugg's Island dam was authorized, Virginia Electric and Power Company filed application for a permit to build a dam at Roanoke Rapids to be followed by another

at Gaston. The interior department of the federal government opposed the private enterprise project, insisting that the government should develop the entire Roanoke Valley. However, no funds have been appropriated for government projects; North Carolina and Virginia congressmen doubt that funds ever will be made available. Meantime, VEPCO has the money and has been ready for nearly two years to begin work. But for the intervention of the interior department, the Roanoke Rapids plant would have been well along toward completion.

**POLITICS**—Unavoidably, politics is involved in the deal. Many citizens of the area that would be served by Roanoke Power make no secret of their belief Senator Frank Graham's refusal to take a stand, but the opinion he favored government construction, cost him hundreds of votes in that section. Governor Scott has repeatedly chided North Carolinians for being slow to get federal money at work on power generation, and he is generally regarded as favoring government construction at Roanoke Rapids. At the same time, he has been more insistent that power production is needed now. There will be little occasion for surprise if Governor Scott joins the C and D board in endorsement of the VEPCO projects on the Roanoke.

**PLANTS**—No suggestion has been heard that the state or the federal government should aid in erection of a steel mill, if one should be located in the Wilming-

ton area. That will be wholly a private enterprise development. But the state may get into the business of manufacturing cement. At a recent press conference Governor Scott made the categorical statement that "North Carolina will have a cement plant." He said data gathered by the special legislative study commission on the subject would be made available to private investors. The governor hoped some of them would be interested, but added the state will have a cement plant, regardless.

**REORGANIZATION**—Changes in the internal organization of the department, affecting personnel and functions, which were contemplated more than a year ago have not been completely effectuated. Director George Ross has been given a green light by the board for some of these changes, but further reorganization is in prospect for discussion at Charlotte. It is no secret that some key men in the department have no love for other men of comparable position. Cooperation with private contributors in an expanded and speeded up commerce and industry division in the offing.

**SELLING**—The idea here is to strengthen the statistical section so that more accurate and complete data will be available more promptly than is now the case, and to employ top grade industrial engineers (who actually are just salesmen for the state). Participation of private funds will enable the state to secure higher salaried men than regular schedules would permit.

I hitched a ride for a few miles on an amtrak and went a little farther on a six-ton truck. Next I rode an ambulance, then another jeep and finally a tank that took me where I wanted to go.

I spent the night at the front and headed back for Kimpo next morning to file my stories. I was a passenger, in order, on a jeep ambulance, a "liberated" 1946 Ford sedan, a tank, a munitions carrier, an amtrak and a jeep.

Virtually every correspondent faces the same problems—or has since the Sept. 15 landing at Wolmi Island in Inchon's harbor. There has been no other reliable communications route.

Teletype facilities exist. But because of priorities properly given military communications, press copy often is delayed 18 hours.

The teletype circuit is via radio, and thus is subject to nature's whimsical atmospheric conditions. These sometimes cause blackouts lasting for hours.

So most reporters still fly to Japan—thanks to a gloeckie schedule of Air Force flights—to see that their copy gets out.

Now that the United Nations forces are firmly established up to the 38th parallel, it should not be long before direct telephone communications can be established with Tokyo.

But I still think a few carrier pigeons and a motor scooter would be excellent equipment, just in case.

## Hal Boyle's Column

By BILL ROSS (For Hal Boyle)

**Seoul**—(AP)—The next time I cover a war like this one in Korea I intend to bring a large contingent of my own carrier pigeons.

If I can find a well-armored and amphibious portable motor scooter that also will fly, I will bring one along too.

After weeks along the southeastern front and the Inchon-Seoul beachhead, I feel that these are war coverage essentials which no well-equipped newsmen should be without.

The way communications have been most of the time, carrier pigeons would be an efficient method of sending dispatches back from the front for transmission to the United States.

The motor scooter would come in mighty handy in getting from one spot to another on the front. It could save a lot of wear and tear on hitchhiking thumbs—and on weary feet when the thumb doesn't perform effectively.

Many correspondents — and I am one of them—are getting weary of riding jeeps so often. The casualty rate among correspondents in jeep accidents mounts almost every week. Three were painfully hurt recently in a collision. Two British correspondents were killed early in the war when their jeep hit a land mine.

Hours of flying are involved in getting news from the fighting front to a point where it can be sent to the United States. In the past week I have spent nearly 36 hours in the air.

"We are in flight so much that I'm going to see if I can get an air medal," one correspondent cracked.

Here is a typical day for a newsmen on the northern front: Because Kimpo airfield is the transport and communications hub of the Inchon-Seoul beachhead, most correspondents have been operating from there. They leave the airstrip each morning and hitchhike to the front.

A particular destination presents particular transport problems. The other day, for instance, I wanted to cover the Third Battalion of the Fifth Marine Regiment. To reach that unit I rode a jeep from Kimpo to the Han River, then an amphibious duck across the stream.

I hitched a ride for a few miles on an amtrak and went a little farther on a six-ton truck. Next I rode an ambulance, then another jeep and finally a tank that took me where I wanted to go.

I spent the night at the front and headed back for Kimpo next morning to file my stories. I was a passenger, in order, on a jeep ambulance, a "liberated" 1946 Ford sedan, a tank, a munitions carrier, an amtrak and a jeep.

Virtually every correspondent faces the same problems—or has since the Sept. 15 landing at Wolmi Island in Inchon's harbor. There has been no other reliable communications route.

Now that the United Nations forces are firmly established up to the 38th parallel, it should not be long before direct telephone communications can be established with Tokyo.

But I still think a few carrier pigeons and a motor scooter would be excellent equipment, just in case.

## STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912, AS AMENDED BY THE ACTS OF MARCH 3, 1933, AND JULY 2, 1946

Of The Daily Reflector published every evening except Sunday at Greenville, North Carolina for October 1, 1950  
State of North Carolina  
County of Pitt

Before me, a Notary Public, in and for the state and county aforesaid, personally appeared David J. Whichard Jr., who having been duly sworn according to law, deposes and says that he is the editor and publisher of the Daily Reflector and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily, weekly, semi-weekly or tri-weekly newspaper, the circulation), or title of the aforesaid publication for the date shown in the act of August 24, 1912, as amended by the acts of March 3, 1933, and July 2, 1946 (section 537 Postal Laws and Regulations), printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: Publisher—David J. Whichard Jr., Greenville, N. C.; Editor—David J. Whichard Jr., Greenville, N. C.; Managing editor—David Jordan Whichard, Greenville, N. C.; Business managers—D. J. Whichard Jr., David Jordan Whichard, S. L. Bridgers, Greenville, N. C.

2. That the owner is: The Daily Reflector Inc., Greenville, N. C.; David J. Whichard Jr., Greenville, N. C.; Virginia S. Whichard, Greenville, N. C.; David Jordan Whichard, Greenville, N. C.; S. L. Bridgers, Greenville, N. C.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities are: Guaranty Bank and Trust Co., Greenville, N. C.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, if given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which the stock and securities in a capacity other than that of a bona fide owner; and that affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the twelve months preceding the date shown above is

5,227

(This information is required from daily, weekly, semi-weekly, and tri-weekly newspapers only.)

DAVID J. WHICHARD JR., Sworn to and subscribed before me this 2nd day of October, 1950.

MARGUERITE D. WARREN (My commission expires January 17, 1951.)

## What Other Papers Are Thinking

**DIG DOWN FOR MORE TAXES** (Hartford County Herald)  
Mr. Average Man is going to shell out a greater percentage of his income to the federal tax collector. He is usually the fellow who has to foot the tax bill and the Congress has not forgotten him in the new tax measure it put into law last week. The increase will range from .12 to 20 per cent.

We aren't one for chastising the rich fellows, the well-to-do, and the corporations for not carrying their share of the load when tax-making and taxpaying time comes. The fact is, they do

pay and they pay heavily, only the money that they pay is hardly ever subtracted from the amounts they have budgeted for actual living expenses. As a rule, their tax bill cut down their surpluses or they shave the rate of profits.

For the fellow or the family with a fixed income, this new federal tax increase—war tax—is going to cause a re-examination of the budget and the channeling of more of what they have been living on into the public coffers. Individual increases won't be enough to cause many cases of self-denial, because Mr. Average Man is living a whole lot better

today than he ever did before. It would, of course, be so much better if we could go right on spending and spending on ourselves, satisfying our personal wants and indulging ourselves to all the wonderful gadgets American ingenuity and manufacture have provided for us. But, what would we gain, if in so doing, we surrendered our heritage to the up and coming destroyer of the right of man to be free? The price we will have to pay to contain Communism in its present orbit comes cheap, even if we do gripe and gripe every time a little bit more is asked of us.

It would, of course, be so much better if we could go right on spending and spending on ourselves, satisfying our personal wants and indulging ourselves to all the wonderful gadgets American ingenuity and manufacture have provided for us. But, what would we gain, if in so doing, we surrendered our heritage to the up and coming destroyer of the right of man to be free? The price we will have to pay to contain Communism in its present orbit comes cheap, even if we do gripe and gripe every time a little bit more is asked of us.

# U. N. Planes Destroy Over 1,000 Soviet-Made Tanks

Tokyo, Oct. 3.—(AP)—Allied land based planes destroyed or damaged 1,059 Russian made tanks during the war in South Korea, the American air force chief in the far east announced today.

Lt Gen George E. Stratemeyer summarized the destruction that was wrought from the air on the tanks until Sunday. Then he added:

"The war would have been vastly different if we had been up against a major air power."

Eighteen major strategic red targets—such as industrial centers—were reported neutralized. These mostly were the objects of strategic raids by far ranging B-29s.

The far east air force (FEAF) commander listed allied aerial losses as 139 aircraft and 175 casualties. Of the casualties, 82 airmen were killed, 96 wounded, 65 missing and two were known to be prisoners of war.

# Bermuda Misses Small Hurricane

Miami, Fla., Oct. 3.—(AP)—A small but severe tropical hurricane—seventh of the season—headed westward in the Atlantic today, veering away from Bermuda.

The hurricane, with winds up to 100 miles per hour near the center and hurricane force winds (75 miles per hour), extending 60 miles from the center, moved west or west northwest at about seven miles per hour.

The Weather Bureau said the storm was about 180 miles southwest of Bermuda at 4:30 a. m. (EST), today.

The hurricane developed Sunday from a suspicious area that had been under observation for several days. It stalled some 200 miles south of Bermuda for a time, then began to drift westward, away from the honeymoon retreat.

Meanwhile, a squall area moved westward in the Gulf of Mexico toward the Texas coast. It had winds of 45 to 55 miles in squalls but a poorly defined center.

The Weather Bureau said it might not have closed circulation, such as characterizes a hurricane, but advised small craft along the Texas coast to stay in port. It said squally weather would begin along the Texas coast this afternoon.

# Red Men To Hold District Meet At Farmville

The Farmville tribe of Red men and the council of Pocahontas will be host to the Fourth District on Thursday, Oct. 5. The Redmen will meet in city hall and the Pocahontas in high school auditorium for their regular business meeting at two thirty p. m. At four p. m. there will be a joint meeting in school auditorium. The public is invited.

The Kings Cross Road Choir will render several selections and Rev. D. A. Windham will speak on the history and principles of Red Men Ship, this part of the meeting will be broadcast over radio WGTN at eight o'clock Thursday evening.

# Wayward Driver

Rigny, Idaho, Oct. 3.—(AP)—Police arrested a wayward driver yesterday.

This is what he did: Drove his car across a 15-foot wide canal, knocked down a fence, spun through two potato fields, leaped a ditch, threaded through a construction company storage yard for heavy equipment, hurdled a third ditch and came to a stop in a wheat field.

The driver was taken into custody for a mental examination.

# Would You Like New Freedom From Monthly Suffering?

Of course you would. Then Cardui may be the medicine for you. Thousands of girls and women experience great relief, a new sense of freedom from simple periods, cramps, pain, jittery after taking Cardui. This tested formula of modern medical science is not a pain-killer. It simply helps control spasms in the uterus, the organ that usually causes the trouble. Try Cardui and see if you can't kiss trying days goodbye and go about your business as usual. Cardui—at your favorite dealer.

**OBEEDIENCE TEST**—A police dog jumps through a burning hoop held by a Western Berlin policeman during an obedience test, part of a police efficiency demonstration in Berlin.

# Wholesale Pork Prices Fall Off

Chicago, Oct. 3.—(AP)—Wholesale pork prices have dropped sharply from the peaks brought about by scare buying last summer, Wesley Hardenbergh, president of the American Meat Institute, said Monday.

Hardenbergh attributed the price decline to substantially increased supplies of hogs coming to market.

"Cured hams, ready for smoking, have dropped as much as 20 per cent," he told the institution's 45th annual meeting, and choice fresh pork loins are selling at prices one-fourth less."

He said lard has declined 25 per cent, and parallel declines ranging around 18 per cent have occurred in live hog prices as the new crop has started coming to market.

Increased supplies of pork are expected to extend through the fall and winter, Hardenbergh said.

"While declines in wholesale beef prices have not been so pronounced," he added, "these nevertheless have dropped four to eight per cent in the basic New York market. At the same time live steers in Chicago have declined three to four per cent, depending on grades and weights."

# Doubts Boasts

White Sulphur Springs, W. Va., Oct. 3.—(AP)—Does Russia have the A-bomb? It's doubtful, says a former U. S. representative on the U. N. atomic energy commission.

John M. Hancock told members of the Tea Association of the U. S. A. at their annual convention here last night that:

"I just don't believe, on the basis of existing evidence, that Russia can make atom bombs today, and I therefore feel that the fear of Russia using the bomb is an undue fear."

Hancock, partner of Lehman Brothers and chairman of the board of Lever Brothers Company, said the best military minds believe Russia is a "second class power with a third class army." He added: "Lacking the necessary equipment with which to go into it, I don't believe Russia wants war."

# Plan Induction Of Gordon Gray As UNC Head

Raleigh, Oct. 3.—(AP)—Plans were being made today for the formal induction of Gordon Gray as president of the Consolidated University of North Carolina in ceremonies at N. C. State College October 10.

The event is scheduled for William Neal Reynolds Coliseum beginning at 10:30 a. m. The oath of office will be administered by Governor Scott.

Highlight of the exercises will be the inaugural address which Gray will deliver after his induction into office.

Other parts of the inauguration are planned in ceremonies and convocations at the University at Chapel Hill on Oct. 9, and the inaugural sermon at Woman's College in Greensboro Oct. 8.

# Comic Book Used To Sway Voters

Los Angeles, Oct. 3.—(AP)—James Roosevelt, Democratic nominee for California's governorship, is going after votes with a comic book-type biography.

Campaign leaders said today that 250,000 of the books are being distributed in the first use of such literature in California.

It is put out by the "marine raiders for Roosevelt," which has the same address as Roosevelt's campaign headquarters.

The script is laid in a barber-shop, with the barber convincing a white-haired customer that Roosevelt is the best candidate for governor.

Scenes include one in which the barber describes how Roosevelt, a Marine colonel, saved his life in Makin Island invasion of 1944; a description of Roosevelt's service as assistant to his father, President Franklin D. Roosevelt; the story of how Roosevelt formed his insurance business in 1932 with \$500 capital; an explanation of how Roosevelt came to move to California (he came here to recuperate from an operation and stayed on); and several panels showing his street-corner campaign for the nomination.

# 'World Citizen' Anxious To Be American Again

New York, Oct. 2.—(AU)—Garry Davis, the World War II bomber pilot who proclaimed himself the "first citizen of the world," now wants to be an American citizen again.

In a letter to U. S. Attorney General J. Howard McGrath yesterday, Davis explained his change of sentiment and asked for return of his citizenship at once.

Two years ago in Paris the 29-year-old combat veteran gave up his American passport and nationality to dramatize his ideal of a single world community.

# Seeking Woman Qualified To Direct Prison

Raleigh, Oct. 3.—(AP)—Wanted: a woman with top qualifications to head Woman's Prison here.

Prisons Director John M. Gold indicated yesterday he is seeking a qualified woman to succeed Miss Antoinette LaMonte, who resigned last week as head of the woman's prison.

Gold said applicants must be a college or university graduate who specialized in sociology or personnel administration. They must also have had three years experience in a supervisory job in social welfare work or with an institution concerned with rehabilitation of its inmates.

**YOUR SAVINGS ADD UP WITH PENNEY'S THRIFTMETIC**

We welcome you to the Pitt County Fair this week and you are always welcome at Penney's!

# Green Phantoms Down Hertford By Close 7-0 Score

## Desperate 34-Yard Pass In Last Period Provides Win

**Threatening Drives By Greenville Eleven Are Pushed Back; Briley-To-Aman Toss In Last Four Minutes Turned The Trick**

By BILL LLOYD

Greenville	Statistics	Hertford
7	First Downs	2
78	Net Yds. Rush	50
86	Passing Yds.	27
16	Passes Attempted	2
1	Passes Completed	0
1	Passes Inter. by	0
37.3	Punt Avg.	33.4
4	Fumbles Recvd. by	0
40	Penalties	20

Greenville's Phantoms scored their first win of the season last night, downing Hertford in a close contest, 7-0.

A thirty-four yard pass from Quarterback Sidney Briley to End Johnny Aman in the last four minutes gave the Phants their margin of victory. Walter Gore added the extra point on an end run.

End Wiley Gardner set up the only score when he recovered a Hertford fumble on the Perquimans 48-yard stripe. A pass from Leon Moore to Aman netted a first down on the Hertford 36. Moore picked up two more to place the ball on the 34.

Then came the scoring loss as Briley's aerial bounced off safety man Buddy Tilly's hand into the out-stretched arms of Aman who juggled the ball momentarily before crossing the goal line for the game-winning marker.

Coch Bill Farley's charges threatened several times during the first half, only to be set back by the desperate line play of the Hertford defensive forces, and by two costly fifteen yard penalties.

The Phants came nearest to scoring in the waning minutes of the second period when Halfback Bob Perry recovered a Hertford fumble on the 15. A Farley pass to Aman netted five yards, with Moore picking up a first down in three running plays on the five, but the clock ended the threat, with the halftime score, 0-0.

Most of the second half was played behind the twenty yard stripes until Greenville scored their clincher in the final four minutes.

Fullback Leon Moore and Halfbacks Kent Lee, Walter Gore, and Bob Perry led the Phantom ground attack, with Quarterbacks Sid Briley and Eddie Farley finding able receivers in Ends Johnny Aman and Wiley Gardner to pace the local air offense.

Guard Johnny Merwin led the Farleymen's forward wall, along with Tackle Fletcher Murray who filled in brilliantly for sidelined Mac Crawford. Wallace Conway, Joe Rowland, and Lewis Howe also played commendable ball up front.

Hertford's offense was led by Halfbacks A. L. Lane and Garland Walker, with Walker getting off some booming punts. Guard Willis Proctor and Tackle A. T. Lane paved the defensive forces.

The lineups:

Hertford (8)  
 Ends: Sumner, Cannon, Thatch  
 Tackles: Morgan, Lane, Perry  
 Guards: Matthews, Asycue, Proctor, Onley, Winslow, Jones  
 Centers: Harrell, Robinson  
 Quarterbacks: Towe, Morris  
 Halfbacks: Lane, Tilly, Walker, Williams

Greenville (7)  
 Ends: Aman, Gardner, Evans  
 Tackles: Conway, Murray, B. Lee  
 Guards: Merwin Rowland, Joseph  
 Centers: Howe  
 Quarterbacks: Briley, Farley  
 Halfbacks: Lee, Perry, Gore  
 Fullbacks: Moore, Wooten

Score by quarters:  
 Hertford ..... 0 0 0 0-0  
 Greenville ..... 0 0 0 7-7  
 Greenville scoring: Aman; point after: Gore (onrun)

**BACK TO COACH**  
 East Lansing, Mich.—(AP)—Four members of the 1949 Michigan State football team, Tackles Hal Vogler and Kent Ebaugh and Backs George Smith and John Polonack, are helping Spartan football coaches tutor the 1950 frosh squad.

**Major League Crowds Decline By 15 Per Cent**

The National League lured 9,025,169 customers and the American 9,201,655 during the campaign which ended yesterday. In 1949 9,484,718 fans patronized National League games and 10,730,647 American League contests for a two-league total of 20,215,365. The National League attendance in 1950 was off 16 per cent and the American 15 per cent.

Philadelphia's pennant-winning Phillies, Brooklyn, Pittsburgh, St. Louis and New York drew over a million this year. Only Philadelphia and Cincinnati failed to draw a million in 1949.

The American League champion New York Yankees, Detroit, Cleveland and Boston were the only American League clubs to draw more than a million fans this season. The same teams also were the only ones to draw a million in 1949.

**Sawyer Picked Whiz Kids To Win Last April**

Philadelphia, Oct. 3.—(AP)—Manager Eddie Sawyer of the National League champion Philadelphia Phillies admitted for the first time today that he picked his whiz kids last April to win the senior circuit pennant.

Sawyer has always said he did not think his team could better third place, but after beating the Brooklyn Dodgers on Sunday, Sawyer told reporters to look in his Shibe Park clubhouse desk. "You will find a sealed envelope signed by me and dated April 18.

The letter says the Phillies will win the pennant by 10 games. I've never doubted we'd win it and if Curt Simmons hadn't in the army and Bob Miller and Emory Church been hurt, we would have won it by 10 games."

**Philadelphia, Oct. 3.—(AP)—**Major league baseball players faced today a choice between building for long term security with pension funds or splitting a fat television melon for immediate profit.

Probably not until after the World Series will a decision be reached on the unprecedented \$800,000 paid for 1950 television rights plus \$175,000 for radio.

Commissioner A. B. Chandler said a meeting would be held in "due course" and added he hoped "provision will be made for the players' pension fund."

The pension fund now promises \$100 monthly to all big league players who reach the age of 50 and have spent 10 years in the majors.

What started all the commotion was the frenzied television bidding for 1950 Series rights—sparked by the fast spread of the television networks and the sale of more than 5,000,000 sets.

Players in an ordinary World Series get up to \$7,000 on a winning team and \$4,000 on a losing one. If the \$800,000 television fund were tossed into this pot it would boost Series prizes to double or triple present sums.

**Philadelphia, Oct. 3.—(AP)—**Joe Miceli turned back lightweight champion Ike Williams' latest venture in the welterweight ranks last night by left hooking his way to a unanimous 10 round decision.

Williams, 142½, staged a furious rally in the final round of the non-title bout, but it was too late. He came after the tired Miceli with all he had, connecting with rights and lefts that had the New Yorker hanging on the ropes. But Miceli, 145, came to life and in the last 30 seconds tagged Williams with three stinging uppercuts.

Williams had the better of the fighting, but Miceli covered up well when in danger and resumed his port side pounding. He had Williams on the ropes briefly in the seventh and made him hang on in the ninth.

### Aman Caught Ball In End Zone

The first and only score to be made in the football game played last night between Greenville High School Phantoms and the Hertford eleven came in the closing minutes of the fourth quarter when a free ball was caught by John Aman in the end zone. The Phantoms ran the extra point over on an end run by fleet back Walter Goor. (Photo by Frank Toothman).

### Big Leaguers Will Decide Soon On Fat Video Melon

Philadelphia, Oct. 3.—(AP)—Major league baseball players faced today a choice between building for long term security with pension funds or splitting a fat television melon for immediate profit.

Probably not until after the World Series will a decision be reached on the unprecedented \$800,000 paid for 1950 television rights plus \$175,000 for radio.

Commissioner A. B. Chandler said a meeting would be held in "due course" and added he hoped "provision will be made for the players' pension fund."

The pension fund now promises \$100 monthly to all big league players who reach the age of 50 and have spent 10 years in the majors.

What started all the commotion was the frenzied television bidding for 1950 Series rights—sparked by the fast spread of the television networks and the sale of more than 5,000,000 sets.

Players in an ordinary World Series get up to \$7,000 on a winning team and \$4,000 on a losing one. If the \$800,000 television fund were tossed into this pot it would boost Series prizes to double or triple present sums.

### Major League Crowds Decline By 15 Per Cent

The National League lured 9,025,169 customers and the American 9,201,655 during the campaign which ended yesterday. In 1949 9,484,718 fans patronized National League games and 10,730,647 American League contests for a two-league total of 20,215,365. The National League attendance in 1950 was off 16 per cent and the American 15 per cent.

Philadelphia's pennant-winning Phillies, Brooklyn, Pittsburgh, St. Louis and New York drew over a million this year. Only Philadelphia and Cincinnati failed to draw a million in 1949.

The American League champion New York Yankees, Detroit, Cleveland and Boston were the only American League clubs to draw more than a million fans this season. The same teams also were the only ones to draw a million in 1949.

### Sawyer Picked Whiz Kids To Win Last April

Philadelphia, Oct. 3.—(AP)—Manager Eddie Sawyer of the National League champion Philadelphia Phillies admitted for the first time today that he picked his whiz kids last April to win the senior circuit pennant.

Sawyer has always said he did not think his team could better third place, but after beating the Brooklyn Dodgers on Sunday, Sawyer told reporters to look in his Shibe Park clubhouse desk. "You will find a sealed envelope signed by me and dated April 18.

The letter says the Phillies will win the pennant by 10 games. I've never doubted we'd win it and if Curt Simmons hadn't in the army and Bob Miller and Emory Church been hurt, we would have won it by 10 games."

### Polls Rate Irish At Top; UNC Is Rated Eleventh

New York, Oct. 3.—(AP)—Notre Dame still is the No. 1 college football team in the nation but it looks as if the Irish are going to have to do a lot more fighting to hold on to their cherished laurels this year.

The first Associated Press poll of the season found Frank Leahy's lads at the top again—just where they left off last November.

But four other collegiate aggregations—Michigan State, Southern Methodist, Army and Oklahoma—are bunched right behind the Irish, ready, and apparently able, to move up if Notre Dame should falter.

The South Benders barely nosed out North Carolina, 14-7, Saturday.

A total of 190 sports writers and broadcasters, representing a coast to coast panel, voted the Irish No. 1 with 1,500 points and 63 first place nominations.

Only eight points separated the next three elevens, Michigan State, surging to the fore on the strength of its upset 14-7 triumph over mighty Michigan, gained the No. 2 position with 1,298 points.

Two points behind came Southern Methodist, whose passing circus accounted for a 32-27 triumph over Ohio State's Rose Bowl kings.

Army's Black Knights, who struck like lightning against Colgate for a 26-0 victory, were voted fourth place with 1,290 points. Oklahoma's rebuilt Sooners gained the fifth ranking with 1,025 points.

Points were tabulated on a 10-9-8-7, etc. basis with ten points for the No. 1 vote.

The top ten (number in brackets is first place votes):

1. Notre Dame (63) ..... 1,500
2. Michigan State (32) ..... 1,298
3. Southern Methodist (28) ..... 1,296
4. Army (26) ..... 1,290
5. Oklahoma (17) ..... 1,025
6. Kentucky (5) ..... 859
7. Texas (2) ..... 502
8. Stanford (3) ..... 454
9. California (2) ..... 442
10. Washington ..... 411

Second ten: 11—North Carolina (1) 187; 12—Alabama (3) 177; 13—UCLA 176; 14—Duke 175; 15—Illinois (1) 170; 16—Cornell 167; 17—Iowa (2) 136; 18—Clemson (3) 110; 19—Michigan 95; 20—Pennsylvania 67.

### Ike Williams Is Turned Back In Welter Invasion

Milwaukee, Oct. 3.—(AP)—Joe Miceli turned back lightweight champion Ike Williams' latest venture in the welterweight ranks last night by left hooking his way to a unanimous 10 round decision.

Williams, 142½, staged a furious rally in the final round of the non-title bout, but it was too late. He came after the tired Miceli with all he had, connecting with rights and lefts that had the New Yorker hanging on the ropes. ### Coastal Loop To Have Busy Week

Ayden's defending Coastal conference champions get back into action this week after enjoying an open date last weekend.

Coach Stuart Tripp's undefeated Tornados travel to Vanceboro Friday afternoon for their second league tilt. The Ayden crew has a record of one win in circuit play, defeating Robersonville, 40-0, while they hold another victory in a non-conference scrap, tromping Williamson in their season's opener, 19-0.

In another loop battle, Coach Wiley Parker's South Edgewood, undefeated squad play hosts to once tied, once beaten Robersonville. South Edgewood has been impressive in its two starts this season, defeating Benvenue, 53-0, in its first victory in two years, and last week they trampled their first conference foe, Vanceboro, 39-0.

Farmville, after playing Robersonville to a 14-14 tie last week, goes outside the league this week, as they journey to Tarboro for a non-conference clash under the lights of the Tars' stadium Friday night.

### Tournament Set For Women At Local Golf Club

A blind bogey tournament will be held for all women golfers of the Country club tomorrow morning and afternoon. The tournament will be held each week, provided enough interest is shown.

Club Pro Harold Thomas announced yesterday all veterans and new golfers are invited to participate in the tournaments. The women may play either in the morning or afternoon. If they play only nine holes, their score will be doubled to total a full 18-hole card.

Thomas urged all women in Greenville to enter the fall competition. Prizes will be awarded to the winners.

### Goor Target For Host Of Hertford Players

### No Alibis From Pirate Crew Over Their Loss

By BILL LLOYD

No alibis came from the East Carolina campus Saturday night after a determined Hampden-Sydney eleven had come from behind in the last seven minutes to upset the Pirates in a hotly-contested thriller, 35-26.

But the local Pirate followers suffered a great disappointment after the Pirates had faltered in their home opener, following two straight impressive victories.

Head coach Bill Dole summed the tensed-up tilt like this:

"It was a heart-breaker to lose. I felt there were several turning points in the game that went very much against us. A clipping penalty which was an obvious touch-down on a punt return hurt."

Dole went on to say, "Dropping of several passes, especially one pass in the fourth quarter, which was another obvious touch-down, would have given us a two-touch-down margin, with seven minutes to play, which would have given us an edge that would have been hard for the visitors to overcome."

"Inability of our secondary in letting men get in behind them on pass patterns was perhaps the main factor in our defeat. We will now turn our thoughts and energy to ward our next game with Elon, and our North State opponents with whom we have splendid relationships."

And thoughts did turn to this Saturday's tilt with Elon, as the Pirates strive to keep an unblemished conference record, and set the pace for the other NS schools. East Carolina is the league leader at present as a result of the Elon-Appalachian tie.

Saturday night's clash was an even more bruising to the Pirates than the L-R game two weeks ago.

### Bruised Bucs Begin Workouts For Elon

East Carolina's Pirates, presently in the North State conference lead, started work for their league game with Elon at Burlington yesterday.

Four men were on the sidelines yesterday, after Saturday night's bruising defeat, 35-26, at the hands of Hampden-Sydney.

Three guards are included in the casualties. They are Jesse Aldridge and Reggie Byrd, who are favoring bad shoulders, with Guard Mickey Berman out with a bad ankle. Sub Quarterback Sandy Siler watched yesterday's practice because of a badly wrenched knee.

A brighter spot came to Coach Bill Dole's injured list, however, as End Ed Tanner returned to heavy duty yesterday.

Detailed work on pass defense and pass patterns were stressed in yesterday's workouts, with the line-men checking their blocking assignments.

Elon's Fighting Christians, the Pirates' foe Saturday night, are the top contenders for the North State circuit championship this season, along with Appalachian. These two teams played to a 14-14 deadlock last Saturday night, the Apps coming from behind in the last 50 seconds to even the score. East

# DOUBLE WEDDING

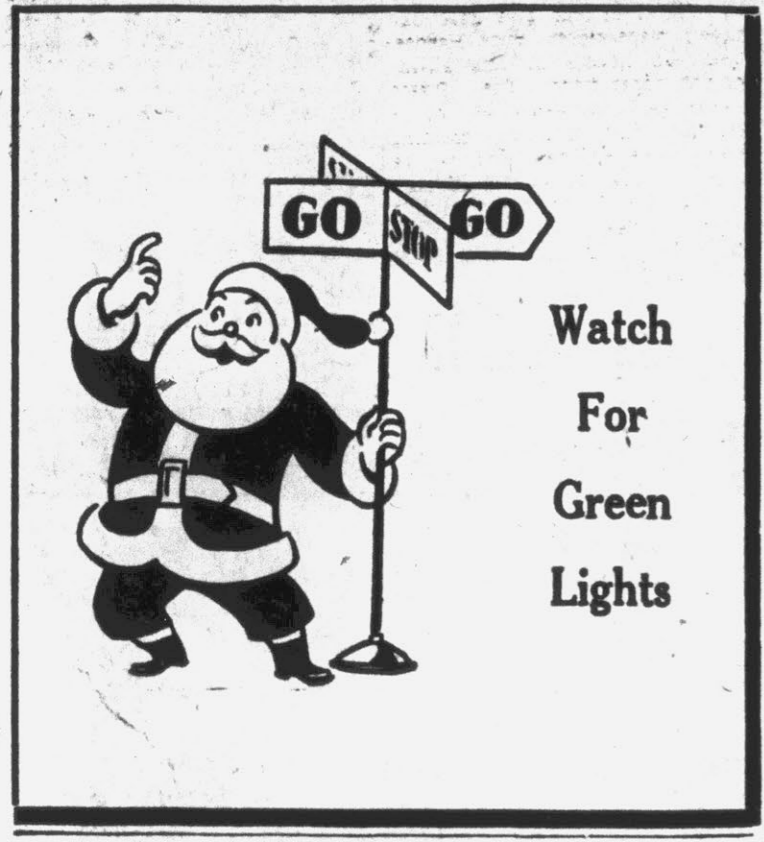

By Adelaide Humphries

Chapter 15  
with Grant, Stephanie stopped in at the shop to see Mayo. She felt that she had been neglecting her mother lately. Also, as Stephanie was to start keeping regular hours from nine until five, beginning the following week, that neglect might seem more pronounced than before. Her mother came through the heavy gray portieres toward her. "Darling!" she exclaimed, coming over to draw Stephanie to her feet with both hands. "It's about time you stopped by to see me! But come, let's go back into the office where we can visit."

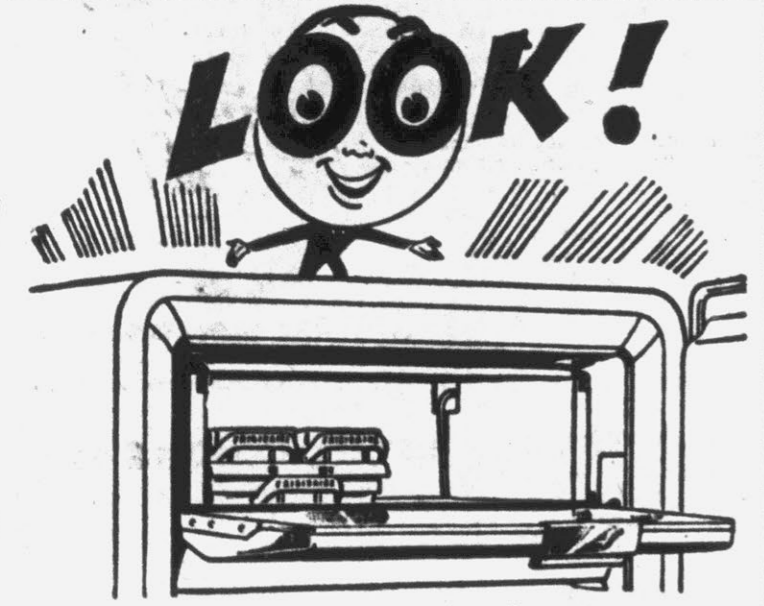

## Help relieve distress of MONTHLY FEMALE COMPLAINTS

Are you troubled by distress of female functional periodic disturbances? Does this make you suffer from pain, feel so nervous, tired—at such times? Then so try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's has a grand soothing effect on one of women's most important organs!

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Watch For Green Lights

**Big, New, FULL-WIDTH Super-Freezer Chest!**  
Keep over 30 lbs. of frozen foods in this genuine **FRIGIDAIRE**

- Meter-Miser mechanism
- Lifetime Porcelain interior
- New plastic Chill Drawer—full width!
- New gold-blue-and-white beauty!
- Twin, all-porcelain "stack-up" Hydrators!
- Quickcube Ice Trays—no tugging or melting!
- New all-aluminum shelves cannot rust or sag!

Look Outside—Inside—See PROOF You can't match a FRIGIDAIRE!

Dickinson Avenue — Dial 2054

SAUERKRAUT BY THE TON — Chefs at the 31st annual Sauerkraut Day in Forreston, Ill., prepare three tons of kraut and ton of frankfurters consumed by 35,000 visitors.

so heartless. "Oh, I don't know," Mayo blew a smoke ring and watched it drift away, her green eyes dreamy. "You forget, darling, that Hubert is frightfully rich. It wouldn't be just any old ranch. I wouldn't have to stay buried in it. When I got bored I'd fly back here. The more I think about the whole idea, the more it appeals to me. Tell me"—she glanced up at her audience again, now thoroughly enjoying the situation—"what do you two think of the idea?"

Arthur Smith had turned on his heel and left, closing the door firmly behind him.  
(To be continued)

## Garter Snake Gorilla's Match

Chicago, Oct. 2.—(AP)—Bushman, the gorilla who fears no man, escaped from his cage yesterday. A little garter snake finally chased him back inside.

The glowering, barrel-chested, 550-pound ape roamed through a corridor and monkey house kitchen for more than two hours.

A dozen Lincoln Park policemen armed with rifles and shotguns stood guard inside the monkey house as keepers tried to coax Bushman back to his cage.

Outside other policemen kept a Sunday crowd of 500 spectators at a safe distance.

Only fragile (for Bushman) wire netting over the windows and wooden doors barred the big ape from the crowded park grounds outside.

Edgar Robinson, who raised Bushman from infancy, tried to lead him back to the cage, but the animal bit his arm. Bushman ignored fruit and other food placed inside his cage as a lure.

Finally keepers shoved a baby alligator through the kitchen window. Bushman retreated to the corridor but wouldn't go any farther. Then keepers pushed the two foot garter snake under the kitchen door leading to the corridor.

Bushman couldn't take it. He hurried into his cage.

## Navy Finds Many Floating Mines Of Russian Make

Washington, Oct. 2.—(AP)—Admiral Forrest Sherman said today U. S. navy ships off Korea have found "a great many floating mines" of Russian type.

Sherman, the chief of naval operations, told the House armed services committee that an examination of recovered mines indicated they had been "recently laid and not long out of the storehouse."

On last Wednesday, the U. S. destroyer Brush hit a floating mine and a hole was torn in her bottom. Nine men were killed, 10 injured and five are missing. The destroyer was able to make her way to a Japanese port.

Listen to those who have followed a regular savings plan. They'll tell you the peace of mind it brings—the way a home, a car and other things are easily obtained, the security it assures. Accounts insured up to \$10,000.00. Current rate of dividend 3%.

# Second American Destroyer Is Damaged By Mine; Seven Hurt

Washington, Oct. 3.—(AP)—A second American destroyer has been damaged by a mine explosion off the coast of North Korea, the navy announced late yesterday.

It said the USS Mansfield struck a mine last Saturday and that seven men were injured. The incident was located 40 or 50 miles north of the 38th parallel and off the east coast of Korea.

Admiral Forrest P. Sherman, chief of naval operations, told the House armed services committee yesterday that "a great many" floating mines of Russian type have been found in Korean waters.

The navy had said earlier that the destroyer Brush was damaged when it hit a mine in the area last Wednesday. The toll in that explosion, revised yesterday, was 11 dead, 10 injured and 3 missing.

Sherman, after alluding to the Brush, said there had been mine damage to another vessel with "some fatalities." He testified before navy disclosure of the Mansfield incident, and the navy did not explain whether Sherman was speaking of that ship or whether a third had been involved.

The navy said the Mansfield, after emergency repairs, made port at Sasebo, Japan, as the Brush had done.

Meanwhile, a navy spokesman said that "no evidence is in hand that any submarine or submersible was sunk or damaged by U. N. forces."

This was in reply to congressmen's questions about reports that a U. S. ship had sunk a submarine in Korean waters.

## Radios Used By Canada's Schools

Toronto—(AP)—For 30 minutes every day during the school term children in approximately 20,000 schoolrooms in English-speaking Canada gather around a radio or loudspeaker to hear their history, science, music and English studies supplemented by dramatized versions of their texts.

The school broadcasts on a nationwide basis began in 1942. Since that time 6,704 schools have applied for and received from the department of transport free receiving licenses.

Hundreds of rural schools have a small mantle radio around which the pupils gather with their teacher to hear the programs. In larger schools a loudspeaker system is installed.

W. B. Rutherford, deputy minister of education for Ontario, says the programs are very helpful in stimulating the children's interest. Ontario, he says, is rapidly expanding her receiving network.

## Asks FBI Check On Bogus Bills

Goldsboro, Oct. 3.—(AP)—E. A. Williams of the Bank of Wayne today asked the Federal Bureau of Investigation in Charlotte to investigate circulation of bogus \$10 bills in Goldsboro. He said two such bills were accepted by business houses yesterday. One was passed at Robinson's drug store. Two weeks ago a bogus \$10 bill was passed at the same store.

## Sentence Youths For Leaf Theft

Henderson, Oct. 3.—(AP)—Five youths were handed sentences here yesterday for a series of tobacco thefts from Henderson leaf markets.

The boys all pleaded guilty in Vance Superior Court to the thefts, in which some 1,800 pounds of tobacco and about \$900 in cash were involved.

Judge Q. K. Nimocks sentenced Willard Perdue and Harold Reavis to two to three years in prison. Erskine Jeffreys, Rufus Bullock and Edward Henderson, all Negroes, were given six months on the roads.

## Harnett To Halt Carnival Visits

Dunn, Oct. 3.—(AP)—Harnett county will not be having any more carnivals.

Yesterday the county commissioners voted unanimously to ban carnivals from the county.

The last time a carnival played in Harnett county about two weeks ago—one woman was fatally injured and four men were badly wounded in a shooting spree.

## Reds Show Gain In Finnish Vote

Helsinki, Finland, Oct. 3.—(AP)—The communist party chalked up surprising gains in Finland's week-end local elections, preliminary figures showed today.

The reds and liberals were the only parties to better their 1947 showing in the capital's municipal balloting. Other parties lost ground. Reports from provincial towns exhibited similar trends.

Communist advances in Helsinki, which astounded political circles here, were almost 4,000 votes.

## WALLACE INCLUDED

Moscow, Oct. 3.—(AP)—The Literary Gazette today included Henry A. Wallace on its list of "enemies of humanity" and called the former leader of the American Progressive party a "political businessman."

**BERLIN WAITRESSES SHOW SPEED**—Berlin hotel waitresses, each carrying a coffee service, compete in a race through the streets during the hotel workers' meetings.

## Burning Tanker Has Heavy Toll

Medellin, Colombia, Oct. 3.—(AP)—Authorities feared today that all 49 persons aboard the gasoline tanker Opon were dead or dying after the vessel was set ablaze by lightning.

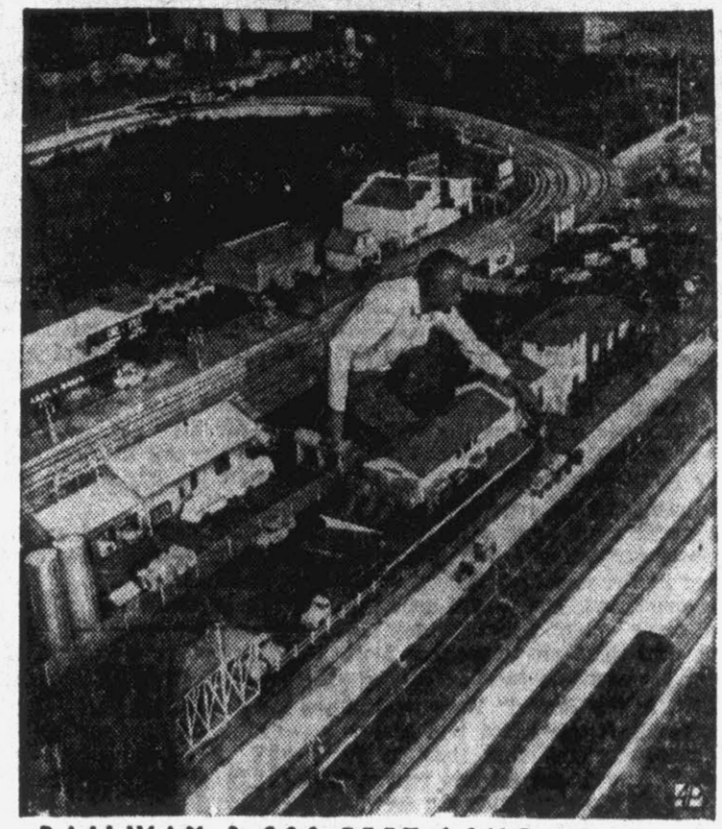

Rescue workers recovered 17 bodies last night. Twelve men were burned so badly they were not expected to live and 20 others, including Capt. Lazaro Medina, were missing.

## Miss Emma Eakes To Be Buried Wednesday

Miss Emma Frances Eakes, 21, died Monday at 4:30 p. m. at the home of her parents near Bethel after a brief illness.

Funeral services will be conducted at the home Wednesday afternoon at 3 o'clock by Rev. D. W. Alexander, Free Will Baptist minister of Bethel.

Surviving are her parents, Mr. and Mrs. Robert Guy Eakes; two brothers, Marion and E. G. Eakes at the home; three sisters, Mrs. James Strickland of near Greenville, Ruby L. and Dorothy Eakes of the home; her maternal grandparents, Mr. and Mrs. E. M. Mozingo of Parmele and her paternal grandmother, Mrs. J. G. Eakes of Brunswick, Ga.

**RAILWAY 3,000 FEET LONG**—H. R. Howard, of Puente High School, Los Angeles, inspects 3,000-foot-long railway with eighty pieces of rolling stock he built in spare time.

## Liberated GIs Flown To Tokyo

Tokyo, Oct. 3.—(AP)—Eighty American prisoners, liberated by advancing U. S. troops in South Korea, were flown to Tokyo today in four transport planes.

They arrived from southern Japan where the rescued men had rested several days after leaving Korea. Eight were sent to the Tokyo army hospital, 11 to the 155th station hospital in Yokohama and the others to the 128th hospital at Zama, about 20 miles from Yokohama.

## Brazil's Voters At Polls Today

Rio de Janeiro, Brazil, Oct. 3.—(AP)—Brazil's voters decide in a free election today whether Getulio Vargas, the man who tore up the country's constitution and ruled as dictator until the army deposed him, shall return to the presidency.

Some 11,000,000 persons are eligible to mark their choice between the aging (67), astute and unrepentant former strong man and two other leading presidential candidates.

**Prefer Boys In Rooming Houses**

Saskatoon—(AP)—Equality of the sexes just don't apply in Saskatoon when it comes to student accommodation. Five out of every six rooming-house keepers prefer boy boarders to girls.

Claude Penson, University of Saskatchewan housing registrar, said boys seemed to be generally preferred because girls were always "washing and ironing and occupying the bathroom."

# Thoroughly Good—and Looks it!

If you do any driving today, the chances are you will see a new Pontiac before you have gone very far—for more people are driving Pontiacs than ever before.

Take a good long look at the next new Pontiac you see. Some of the reasons why its owner is so proud of his car will be quickly apparent. You can see that Pontiac stands out above all other cars for rare beauty. You can see that Pontiac is a big, luxurious automobile. You can see that Pontiac

glides away in traffic and strides smoothly along the open road.

Some things you can't see, but they are there nevertheless. Things like Pontiac's dependability year after year—things like the deep pride and satisfaction of owning and driving this immensely respected automobile—things like Pontiac's real economy.

One look is very convincing, but a few miles behind the wheel is the surest way to know that dollar for dollar you can't beat a Pontiac!

# Federal Gov't To Keep Planning At Local Levels

Washington, Oct. 3 — (AP) — The federal government is sticking to its view that states and localities must shoulder the main responsibility for civil defense against possible enemy air attack.

This is being made clear in conferences state defense authorities are having with James J. Wadsworth, acting director of the civil defense office of the National Security Resources Board (NSRB).

Many state officials have protested that the federal government is not taking an active enough role in civil defense planning and furnishing of emergency supplies and warning devices. Wadsworth told civilian defense officials from western states yesterday:

"You cannot rely upon the federal government to provide you with all the tools you need to build an adequate civil defense structure. That leaves a grave responsibility in your hands.

"The federal government will help you to the limit of its resources in

# Cases Heard In Municipal Court

A parade of drunks, totaling five cases composed the largest part of the Greenville City Court Docket, tried yesterday before Judge J. W. H. Roberts.

Drunk: Francis Dancy, two charges, ordered to serve 30 days at the county jail on each charge.

Tom McLawhorn, colored, 30 days at county home; J. Earl Taylor and Justin Simpson each paid \$18 for the same offense.

Judge Roberts placed a fine of \$15 on Tom Dudley for possession of non-tax paid whiskey.

A capias was ordered issued in the case charging Jesse C. Whitehurst with speeding and careless and reckless driving.

Edward Harrington paid \$15 and costs of court, for giving a worthless check in addition to paying the amount of the check, which was \$7.

Assault on female, Wiley Roberson, colored, was ordered to pay \$15.

Louis G. Branch paid \$15 for a traffic violation.

The heaviest fine to be given out yesterday by Judge Roberts was in the cases charging Vayden Mathews with driving drunk and hit and run. According to testimony given in court, Mathews ran into a car going towards Bell's Folk after the car had pulled off of the highway in an effort to avoid being hit by Mathews' car. A fine of \$100 and costs and suspension of drivers license was imposed by the judge and the man was then ordered to pay \$325 and costs to Lee L. Roberson for repairs to his car.

# Strong Pleas . . .

(Continued From Page One) dangerous intersections throughout the county.

John G. Clark was appointed chairman of the board of trustees of the Pitt Memorial Hospital, filling the unexpired term of Stuart Carr which will expire December 31. Carr's resignation was accepted during the meeting.

A request by the president of Carolina Telephone and Telegraph Company for a tax refund was turned over to the county attorney for further investigation. In a letter to the Commissioners, W. Dell Holderness, president, stated his company had paid \$2,075.86 to the county in taxes for the last two years when it should have paid taxes only to the City of Greenville. Holderness stated in the letter the taxes had been paid for several years in error.

A special meeting of the Commissioners will be held next Monday to canvass the ballots of the Grifton election held this Saturday.

Road petitions: Chicod Township, two miles, widen and surface the road running from the Beaufort county line to Elmira Crossroads. Greenville Township, one mile, widen and maintain the road running from highway 64 at Oscar Hardee's farm to the Red Banks Road; the road running from the Norfolk and Southern Railway right of way at the south end of the Evans Street pavement to the intersection of Fire Tower Road and beyond to Hancock Church; and the road running from the Stantonsburg Road to Dickinson Avenue, from there to Hooker Road, and to Tower Road.

# Blind Aid Gains A Fortune To . . .

(Continued From Page One) and democracy. (3) strengthen education, (4) advance economic well-being, and (5) increase scientific knowledge of human behavior.

The trustees granted \$ million dollars to various institutions for the last-named purpose. That's small compared with grants that are coming.

For some years, foundations have been giving less money toward research in the physical sciences and more toward social research, and the Ford announcement gives a great push to that change of direction.

Grants from foundations have helped to bring many scientific achievements in the past—for example some of the early work on atomic energy, and the discovery of insulin and penicillin, and the conquest of hookworm.

Now, the physical sciences are being aided more than ever before by the government and industrial concerns. And many non-profit foundations are turning to the less explored and more controversial fields of human relations, where government often fears to tread.

# Blind Aid Gains A Fortune To . . .

The local drive being staged by the Greenville Lions Club to raise funds for the support of blind work in Pitt County finished its first week yesterday with more than \$1500 of the \$2,000 goal having been raised.

A report issued by Chairman George Wilkerson released today indicated 78 per cent of the drive's quota as being raised with a week left to reach the final goal of \$2,000. Wilkerson urged the people of the county to help put the drive over the top in the closing week of the drive.

Anyone who wants to contribute to the fund can mail their donations to Godfrey P. Oskley, Wilkerson stated.

The money raised by the drive will be used to aid the blind people over the county by means of medical attention, craft work and welfare work.

# Education Work In Japan Related

The Greenville Lions Club last night heard a report of the work being carried on towards the rebuilding of the educational system in Japan by the American occupation forces, by G. P. Booth, superintendent of the Kinston city schools.

Booth was one of 15 American teachers who spent four and one-half months overseas on a government mission supported by the U. S. Army. All told the mission traveled some 22,000 miles before returning to the States.

While overseas the mission visited 153 schools. "Over 87,000 school plants were destroyed by the recent war and some of the present school units are not in good shape but others are being constructed are modern in every way," said Booth.

The mission's primary purpose was to help reorganize the schools and plan their programs in order to educate them in the right manner.

An addition to the club's program last night was Sally Montana and her cowboys who are serving as a feature attraction at the Pitt County Fair this week. Norman Chambliss, manager of the fair, spoke briefly to the club on the improvements made at the fair this year.

Guests at the club last night were Billy Brady, Junior Lion from the High School, and Jack Whichard of the Daily Reflector, G. C. Stephens and Jimmy Warren who was inducted into the club as a new member last night by Lion Bruce Sugg, Jr.

A brief report on the Blind fund Campaign which closed its first week last night revealed that more than 78 per cent of the goal of \$2,000 has been raised. A complete report on the progress of the drive will be made later.

# Cases Heard And Judgments In Superior Court

Cases heard and judgments rendered at yesterday afternoon's and this morning's sessions of Pitt Superior Court (criminal term):

Grand Jury—Linwood Williams, robbery, true bill; Levi Edwards, assault with intent to commit rape, true bill; John Frank Green, murder, true bill; Neiman Elks, assault with deadly weapon, true bill.

Other cases:

Levi Edwards, plead guilty; \$50 and costs.

Franklin D. Clark, Negro, crime against nature, breaking and entering and larceny; three to five years in State Prison.

Elbert Pollard and J. Pollard, violation of game laws; not guilty.

# Senator Charges Big 'Sell-Out' By State Dept.

Washington, Oct. 3—(AP)—Senator Bridges (R-NH) accused the State Department today of dealing in a "great sell-out" and "giving away everything won by the blood of our youths" in Korea.

"The group in the State Department that brought about the present situation in Asia are selling down the river everyone who gave his life under the United Nations flag," Bridges said in a statement. Specifically, he charged that Secretary of State Acheson is "opening the back door for the entrance of Communist China into the United Nations."

# Wandering Mental Patient Put In Jail

A mental patient who escaped from Pitt General hospital early this morning was taken into custody by Greenville police shortly after he made his way from the hospital and has been placed in the county jail.

The man was found only a short distance from the hospital.

# Threat Lightly . . .

(Continued from page one) in Chungking during the late war, and he labored diligently to convince me of this point.

I wasn't convinced, because I knew better, but if anyone could have done the trick it would be Chou. He is a very persuasive man of much culture and with a striking and likeable personality.

However, Chou can be tough as witness the part he played when General George Marshall was in China trying to resolve the differences between the Nationalist government and the Communists. Chou was the Red representative in the capital at that time. He was very critical of the U.S. policy as presented by Marshall, and placed obstructions in the way of settlement.

As regards General Chou's weekend threat, it is of course true that both China and Russia are greatly interested in Korea. The peninsula base touches both Manchuria and Soviet Siberia—close to the great Russian naval port of Vladivostok. It's likely that both of them would have liked to intervene in the Korean crisis if it had been feasible.

# Box Score
