

Mostly fair and cooler tonight. Tuesday generally fair and mild.

TRUTH IN PREFERENCE TO FICTION

Car Overtakes, Demolished Last Night

Bystanders look over a vehicle which was said to have sideswiped a second car and then to have gone off a fill and overturned last night on the Meadowbrook Road. Driver of the car Robert Earl Adams, Negro, was charged with careless and reckless driving.

A vehicle was totally demolished last night after it apparently sideswiped a second car, ran off the fill and overturned on the Meadowbrook Road about 10:30.

Investigating Patrolman Bill Whitehurst listed the driver of the car as Robert Earl Adams, Negro, of 214 West Eighth Street, Washington, N. C. The patrolman said Adams will be charged with careless and reckless driving as a result of the accident.

Adams' car traveled 62 yards after the impact. Driver of the second vehicle was Burwood Harris of Greenville Route 5. Occupants of the Adams vehicle received minor cuts and bruises in the accident. Sunday at 10 a. m. cars driven by Josephine Everette of Washington and James Ralph Shannon of Wilson were involved in a head-on collision on the Pactolus highway about five miles east of Greenville. Investigating Patrolman James W. Boykin estimated damage at \$800. Shannon was charged with following too closely.

President Proposes Peace Display By Atomic-Powered Merchant Ship

World Cruise For Atomic Ship

NEW YORK (AP)—President Eisenhower today unveiled plans to send a new atomic-powered merchant ship around the globe in a dramatic demonstration of America's determination to win "a just and lasting peace."

for the start of Newspaper Week in New York. The President couched his surprise announcement of plans for the atomic-powered ship with a new plea for congressional enactment of the administration program to cut tariffs 15 per cent over the next three years.

"unprecedented crises of these days—packed with danger," and linked the idea of freer world trade to the battle against "Godless Communism."

toward a golden era of peace and plenty." Eisenhower said his administration "shall not be bound by a slavish adherence to precedent or by the lack of it" in searching for enduring peace.

atomic reactor, will not require refueling for scores of thousands of miles of operation. Visiting the ports of the world, it will demonstrate to people everywhere the peace-time use of atomic energy, harnessed for the improvement of human living.

'Survival City' Ready For Blast

SURVIVAL CITY, Nev. (AP)—Final touches were put on this tiny town today as more than 5,000 persons prepared for history's most complex atomic test. Workmen completed furnishing the four homes on Domesday Drive, the avenue only 4,700 feet away—6 to 10 blocks in most towns—from tomorrow's atomic blast tower.

Curtain Falls On Reiteration Of 'Right' To Liberate Formosa

BANDUNG, Indonesia (AP)—Prime Minister Mohammed Ali of Pakistan said today Premier Chou En-lai of Red China considers the "door to direct negotiations with the United States over Formosa is still open a slight crack."

D-Day On Revenue Bill Expected In N. C. Assembly Tomorrow

RALEIGH (AP)—The General Assembly's D-Day on a revenue bill is expected to come tomorrow when the House and Senate Finance committees receive recommendations on tax proposals from special subcommittees.

Whether the House Finance Committee will go along with its subcommittee in favoring a tobacco tax is a big question. In a recent unofficial straw poll, the House committee voted 30-16 against a tobacco levy. However, its subcommittee favored a tobacco tax, 7-6. The proposed tax would bring in about 8 1/2 million annually.

Whether the Legislature should meet annually instead of every two years. The other calls for "home rule" powers to be returned to the cities and counties instead of letting the Legislature enact local laws.

As first-place winner the local youth will compete in the State Road-race in Winston-Salem. Winner of that event will journey to Washington, D. C. to participate in the national finals. Three college scholarships are to be awarded to the national winners.

Without TVA, the South would never have the industrial centers it now has," Truman said at a news conference. "There would be no such thing as rural electrification."

# SOCIAL AND PERSONAL

All items for this page received after 10 a.m. will be published the following day. Dial 6166—9 a.m. to noon; 1 to 4:30 p.m.

8:00 p.m.—Third and final performance of the hit musical "Brigadoon" presented by the East Carolina Student Government Association with a cast of specially selected student singers, actors, dancers, and instrumentalists. College Theatre.

# Newcomers' Party Tomorrow Evening

Greenville's fourth annual Newcomers Party, to which some 185 new families in the city have been invited, will be held tomorrow night at 7:30 in the auditorium of the Moose Temple.

The informal affair will continue until 9:30 p.m. The party is sponsored by ten of the city's organizations to bring together the newcomers in Greenville, entertain them and give them an opportunity to get acquainted with each other and with the older residents of the city.

Mayor W. L. Wheedbee will welcome the guests at the gathering. Bancroft F. Moseley, president of the local Chamber of Commerce, will serve as master of ceremonies, and together with Recreation Director Warren Carroll, will direct the program for the evening.

There will be numerous games and contests, with prizes provided by the merchants of the city. A combo will furnish music, and refreshments will be served by two of the local women's organizations. At the close of the party each newcomer family will receive a shopping bag of gifts donated by various local merchants.

All newcomers who have not yet responded to the invitation of the sponsoring organizations are still urged by those groups to plan to attend the party. Sponsoring the event are the Business and Professional Women's Club, Credit Women's Breakfast Club, Merchants Association, Exchange Club, Lions Club, Kiwanis Club, Rotary Club, Greenville Recreation Commission, Junior Chamber of Commerce and Greenville Chamber of Commerce.

## Women In The Church

By MARY FOWLER

The Georgia Council of United Church Women has adopted a resolution condemning capital punishment for minors. They took the action after a 18-year-old boy was recently executed by the state.

Dr. Ruth Isabel Seabury of Boston, Mass., internationally-known Congregational Christian leader and educational secretary of the American Board of Commissioners of Foreign Missions, is on a four-months' trip by air to Southeast Asia. Miss Seabury's itinerary includes Japan, the Philippines, Singapore, Thailand, Hong Kong, and Korea. She will visit on this trip not alone the work of the Congregational Christian churches, but interdenominational activities under the United Churches of the Philippines and Japan.

Kwasul Junior College, Nagasaki, Japan, is celebrating the seventy-fifth anniversary of its founding. In the years since 1897, when Miss Elizabeth Russell, a Methodist missionary, opened the school with one frightened little Japanese girl on a cold winter morning, the school has grown to its present enrollment of 850 high school girls and 430 college students. In spite of the fact that part of the school was demolished by the atomic bomb, the campus has now been expanded to meet the increased demands.

Last year four young people from the United Church of Christ in the Philippines visited Japan, and as two teams went to the northern and southern areas visiting churches, speaking at Christian schools and work camps. This coming summer the visit will be returned by four Japanese youth who will visit and work among the Christian youth of the Philippines. Speaking through interpreters, they will tell of the progress of Christianity in their homeland, and show motion pictures of Christian activities. The Japanese group consists of Miss Mikako Nishio, a teacher in Baliko Joshi College (college); Miss Kimiko Takachi, a student of Tokyo Toritsu Daigakko; Prof. Haruo Tsuru, of the International Christian University, Tokyo; and the Rev. Noboru Nishido, pastor of the Airin Church.

## 30 Years Ago Today

THE DAILY REFLECTOR  
April 25, 1925

Miss Lill Wilson has moved into her new home on Sutton Lane.

Rev. Lee Sadler, pastor of Eighth Street Christian Church, yesterday accepted a unanimous call to the pastorate of Hanover Avenue Christian Church in Richmond, and will take over his new duties the latter part of May.

The engagement of Miss Ellen Douglas Arthur to Mr. Robert Chandler Vaughn of Winston-Salem was announced by her parents, Mr. and Mrs. Louis Chesterfield Arthur.

## Air Force Cuts Bomb Purchases

WASHINGTON (AP)—The Air Force says it has slashed 960 million dollars off its conventional bomb program for the current year in view of its growing stockpile of nuclear weapons.

MaJ. Gen. Frank A. Bogart, Air Force budget director, gave the figure in testimony before the House Appropriations subcommittee released today. Replying to a question from Rep. Scrivner (R-Kan.), the general said the Air Force now plans to spend \$1,143,000,000 for conventional bombs during the year ending June 30. Last year it asked Congress for \$2,093,000,000. He gave no figures on the number of either type of bombs to be procured.

**TRAIN WRECKED**  
DALLAS, (AP)—Forty-seven cars of an 86-car Frisco Lines freight train derailed near here yesterday. Smashed cars were strewn over a mile of track. No one was injured. The train was en route from Kansas City to Fort Worth.

## Air Force Pushing Its Security Effort

WASHINGTON (AP)—A new report to Congress showed today a multi-fold stepup in the Air Force's personnel security program over the past two years.

The report, given to a House Appropriations subcommittee during budget hearings and made public today, disclosed:

1. The Air Force filed security risk cases against 260 uniformed personnel in 1953 and 1954. In the two years before that, in 1951 and 1952, it handled only 15 such cases.
2. In the past two years, the Air Force discharged 37 officers or airmen on security grounds. In the two preceding years, it made no such discharges.
3. In 1953-54, in addition to the outright security discharges, 164 Air Force men resigned or were discharged on other technical grounds prior to settlement of their security cases. For the 1951-52 period, there were only 15 such cases.
4. Over the past two years, 59 military men were cleared after security charges had been filed by

the Air Force. There were no such actions in 1951-52.

5. In the first two months of this year, 16 security cases were disposed of—more than during all of 1951 and 1952. In these 1955 cases, 6 were discharged, 1 was cleared and 9 were separated from the service prior to completion of their security cases.

These figures were given Congress March 24 after some questioning by committee members, by MaJ. Gen. J. F. Carroll, director of special investigations for the Air Force.

Carroll said none of those discharged were spies or saboteurs.

**UNCONCEALED WEAPON**—Marietta Nalley wears working miniature of .45 caliber automatic pistol as carrying at National Rifle Association exhibition in Washington.

**BY LAND OR AIR**—German glider-motorscooter, shown enroute to Hamburg Airport, has wings that fold for street driving and motor that hangs behind pilot while gliding.

# Business Boom Breeds Optimism

NEW YORK (AP)—Booming business breeds optimism. So today industrial chieftains are sticking their necks out a little farther and predicting that good times will carry over into the fall and maybe into next year.

At the same time the warning voices of the cautious are growing louder.

Bankers, for instance, admit that the building boom shows every sign of making this the biggest construction year. But they warn that if the nation over-builds, and gets too far into debt while doing it, the whole economy might be shaken.

Spreading labor strife also worries many industrial executives. Bitter strikes plague some companies in the chemical, textile, telephone, railroad and electronics fields. The threat of a work stoppage still hangs over the booming auto and steel industries.

And the more glowing the reports of increased profits and prospects of still higher earnings, the more likely labor leaders may be to raise their demands.

Students of the Detroit story point to the big backlog of orders for new cars which the auto makers have from their dealers. Production schedules are for full steam ahead for weeks to come.

But for almost every new model that takes to the highway, an older, turned-in model has gone onto a used car lot. If the approach of the top driving season brings the customers into the used car lots in volume, all will be well.

Gasoline stocks are also sizably larger than a year ago. This has sparked gas price wars in a number of places across the land. Here, too, the approach of warm weather is awaited—and with confidence by oil producers who look for about a five per cent gain in consumption this year.

Business confidence is sparking some supplier industries. Makers of the goods that manufacturers buy—heavy machinery, tools, parts right on down to cotter pins—are predicting that sales this year should run higher than last by around 10 per cent.

Plans for new plant construction and purchase of new equipment are being increased as a result of the business boom.

Construction contracts so far this year have been awarded at a record rate. This should keep the building boom going for months. The amount of money lent so far this year for new homes has

jumped almost a third over last year.

At the same time, the total of savings seems to be rising. Savings banks report increased deposits. Life insurance companies say sales are up 15 per cent over last year.

And the U.S. Treasury is getting a windfall. With business good and individual incomes higher, tax payments have also risen above the level anticipated when the budget was set up. So the federal deficit may be a little lower than first thought.

The business scene couldn't look pleasanter on the whole. Some steel mills are booking orders for the third quarter. Copper producers look for big demand and tight supplies for several months more. Electric power production is running 15 per cent higher than last year. Even coal companies predict a 12 per cent gain in their business this year.

It couldn't look brighter—if it weren't for those few, small dark clouds.

## Sprinkles Assist In Fighting Fire

NEW BERN, N.C. (AP)—Sprinkles of rain last night and early today gave slight relief to firefighters battling a huge woods fire within four miles of the Cherry Point Marine Air Base. But the rain was not heavy enough to eliminate the danger from the blaze that since last Wednesday has burned 50,000 of the 153,000 acres in the Croatan National Forest.

Forest rangers, Marines from Cherry Point and Camp Lejeune, and paper company woodsmen had the blaze within firelines, but it was touch and go. There was still wind, but nothing like the winds of up to 30 miles in gusts that hindered them yesterday.

H. O. Mills, U.S. forest ranger in charge of the Croatan National Forest, estimated the loss at half a million dollars.

There were no residential communities in the path of the fire, the second big woods blaze in the North Carolina coastal area in two weeks.

Mills said the fire was set deliberately. There have been no arrests.

'THE SAME TO YOU'—Five-year-old Bill Shepherd, of Evansville, Ind., returns the compliment to an impudent burro sticking out its tongue at him. The youngster was one of the season's first visitors to his hometown Mesker Park Zoo.

## Abuse Of 'Sick Leave' Rights Said Expensive

WASHINGTON (AP)—Government investigators reported today that "widespread abuses" of sick leave by Post Office workers are costing the taxpayers millions of dollars a year for substitutes.

There is a general belief among postal workers, the General Accounting Office (GAO) said, that paid "sick leave" may be used whenever a day off is desired.

The report, sent to the House Post Office Committee, cited abuses of sick and administrative leave in the postal service, and said adequate controls are needed to stop the practice.

Federal employees are entitled to 28 days of sick leave a year.

A study of 19 major post offices showed substitute postoffice em-

ployees took up to 100 per cent of annual sick leave accruing last year, and in instances the figure went up to 108 per cent of paid leave by borrowing against the future.

In the New York City and Philadelphia Post Offices, the report said, "a large number of employees were taking sick leave as it was earned and had no balance for potential use."

It said also there have been large grants of sick leave immediately prior to retirement.

It quoted a Post Office report that officials feel retiring employees "are entitled to take that leave as a sort of reward for not using it during the years of active service."

Under the law, paid sick leave

is intended to be granted for specified periods only when the employee is sick.

The report cited as "a flagrant violation" the case of a 30-day advance on leave by an employee in the Los Angeles Post Office when he was about to retire.

Investigators said this cost the government \$720 for unearned leave and that the General Accounting Office has taken action to get it back.

Investigators said there was also abuse of the practice of giving employees a day off on purely state or local holidays, and hiring substitute workers in their place.

The report noted especially that Boston employees regularly get the day off for three nonfederal holidays—Patriot's Day, Bunker Hill Day and Columbus Day. New Orleans employees get a paid holiday for the Mardi Gras.

## Twining Cites Red China Air Power

WASHINGTON (AP)—Gen. Nathan Twining advised Congress in February that Red China's air force could be doubled or tripled "overnight" from Russia.

In testimony given Feb. 9 and made public today, the Air Force chief of staff said Red China's "rapidly expanding system of bases" gives the Communists the ability to move in aircraft rapidly from the Soviet Union.

"We cannot ignore their capability to double or triple their air strength in the Far East overnight," he told a House Appropriations subcommittee.

He did not publicly locate the new Chinese airfields nor discuss their relationship to the Formosa Strait.

Early this month, President Eisenhower in discounting predictions of a possible Red attack on Quemoy and the Matsu Islands by April 15 said the Communists still lacked sufficient airfields and supply bases to support such an assault.

Twining testified that in the last four years the Communists "have created a whole new air force in Red China and have made it the fourth most powerful air force in the world."

Apparently the others are the United States, the Soviet Union and Great Britain.

The buildup, he said, is continuing and "includes many jet aircraft."

He said the U.S. Air Force is continuing "important studies" to develop "a hard-hitting, self-pro-

ductive combination of fighters and light bombers" capable of delivering tactical or close-range, nuclear weapons.

"We already have units of this type in position overseas," he said, and "we will continue to improve and organize additional tactical atomic forces."

Twining gave this additional information:

1. Of an estimated 20,000 Soviet combat planes, thousands of jet fighters and bombers now can reach targets in Western Europe, Alaska, Japan or the Philippines.

2. The United States plans a total of 23,000 planes. By early 1956, all medium bomber units will be equipped with powerful jet B47s.

3. The Soviets are "putting vast resources" in the race to develop a workable 10,000-mile-an-hour intercontinental missile "with sufficient range to destroy targets in the United States."

4. The United States has given top priority to this weapon, because these missiles "with intercontinental ranges present a defense problem more difficult than any faced before in history."

YOUNG RESCUER  
SPARTANBURG, S. C. (AP)—Twelve-year-old Donald Nelson was credited yesterday with saving the life of his playmate Tommy Wright, 8.

Tommy's clothes caught fire while the boys were "camping" in his back yard. Donald rolled him on the ground, smothering the flames. A doctor said Tommy was expected to recover completely.

'TORCH BEARER'—Aluminum equestrian statue by Mrs. Anna Hyatt Huntington, 79, of Bethel, Conn., is created for shipment to University of Madrid, Spain. It symbolizes the passing of Western civilization's torch from age to youth.

## Elbe Veterans Seek Soviet Trip

WASHINGTON (AP)—If they can get passports and money, 12 American World War II veterans hope to go to Moscow for a celebration of the meeting of U.S. and Soviet troops at the Elbe River in Germany 10 years ago.

The 12, members of a group calling themselves the American Veterans of the Elbe River Linkup, accepted a Russian invitation yesterday in a cable saying without qualification that "we will leave for Moscow in a few days."

But Joseph Polowsky, of Chicago secretary of the group, conceded that funds must be raised to finance the trip, although he said, "We'll try to figure out some-

thing." There was no official indication what attitude the State Department might take when the men apply for passports.

Both Polowsky's group and the Elbe Day National Veterans Committee—a group set up by five veterans' organizations—celebrate today the meeting of Russian and American troops at the Elbe April 25, 1945. Armies of the two nations had been fighting across Germany from opposite directions.

Polowsky's group is composed of men actually present at the meeting of the troops.

The Moscow celebration is planned for May 9, the day Russia recognizes as the end of the fighting with Germany.

## Annual Sessions Offer Advantages

Annual sessions of the General Assembly have been talked in North Carolina for a long time, but not until now has the proposal seemed to have an even chance of receiving legislative approval.

Legislative problems have become increasingly complex in North Carolina in recent years. Legislators have found it more difficult with each session to plan the state's expenses and income two years in advance. These factors, together with other problems which have arisen, have won support throughout the state for annual legislative sessions.

Now that a House Committee has given unanimous approval to a constitutional amendment setting up annual sessions of the General Assembly, the matter has come fully before the people of the state. Legislators will listen for public reaction to the proposal before making a final decision on whether to present the amendment for a state-wide vote. Reaction of the people of the state in the next week or two may determine whether a referendum is held on the proposal next year.

Although annual sessions as proposed in the amendment bill will increase the

cost of General Assembly operations, it seems to us the benefits which would be derived from annual sessions would justify the additional state expenditure.

The proposal calls for a full-dress session of 75 days the first year following an election, and for a 60-day session the second year of the biennium for consideration of fiscal matters except in special instances. It likewise sets the starting dates for legislative sessions approximately one month later than is now the case, which will mean less lost time before legislators could get a clear picture of annual revenue from income tax payments.

In annual sessions legislators could plan more carefully state expenditures one year ahead instead of having to rely so heavily on guess-work in trying to plan two years ahead as is now the case.

## Saturday Sessions - -

### "Asinine And Ridiculous"

The Reflector finds itself giving a nod of approval to the assertion of Rep. Phil Whitley of Wake County that taken Saturday sessions of the legislature are "asinine and ridiculous."

At Saturday's session in the House there were only two other representatives in addition to Whitley. In the Senate chamber Saturday Sen. H. M. Moore of Clay County was the only member of that body present and went through the motions of opening and closing the day's session.

The situation in the legislature Saturday was not a rarity. It was typical of most of the Saturday sessions of the General Assembly. Clerical and other employees of the two houses are on hand to do business. The members of the two houses are at home tending to other business, so the Saturday session, for all practical purposes is an absolute waste of time and money by the state.

When there is any business conducted at a Saturday session of the General Assembly, it is usually the passage of purely local bills in which there is practically no interest.

Legislators, it seems to us, might well give favorable consideration doing away with the Saturday sessions altogether. It would not hamper the work of the General Assembly since Saturday sessions are only token sessions anyway, and it should save the state money by putting the legislature on a five-day-a-week basis.

### VISUALIZING THE NATIONAL DEBT

The national debt is owed, in part, by every American family. It amounts to a first lien on all our national assets.

The magnitude of that debt is graphically pictured by the Tax Foundation. Suppose we took the total annual paychecks of every one of the 55,000,000 people who work in our factories, businesses and farms. Suppose we added to that the pay of the 7,000,000 civilians on government payrolls and the 3,000,000 people in the armed forces. Suppose we then added such extras as all the social security payments made by employers. That would total \$209,000,000,000—which is some \$70,000,000,000 less than the national debt!

**BOOTHYARD HARBOR ME. REGISTER:** "Many administrative positions in government do require men who have been especially trained. But it is not true that every aspect of government should be run by experts, by the select few. Those who would have it so lack faith in the people. They would turn their backs on democratic ways and would open wide the doors to totalitarianism and dictatorship."

**THE BIG 6-FOOT-1 INCH AUTHOR** weighs 200 and is a judo expert as well as an authority on a desert or jungle survival. He has been a sailor, a miner, a hobo, a professional boxer—he won 54 bouts, lost 5—and an anti-tank combat officer in World War II. At 15 he left his home in Jamestown, N.D., and joined a circus as the first step in a search for adventure that has carried him almost everywhere in the world.

"Even then I knew I wanted to write," he recalled. "But I figured I could learn more out of school than in it. I felt I had to see life before I could write about it."

L'Amour educated himself by constant reading during his years of wandering in distant places. Slowly and painfully he also taught himself to write.

"I had 200 stories rejected before I sold my first one for \$19," he said.

His career has now reached the jackpot stage. He has published more than 400 short stories, turned out half a dozen adventure novels, including "Hondo," made into a movie starring John Wayne, and a \$4,000 job will not reach the White House desk. It will be handled at the departmental and political level. The Republican will probably get the appointment and the community will continue to vote Democratic.

Multiply this incident by the thousands, and assume that all will be handled in the same way, and it becomes evident why the GOP might not be able to capitalize on Ike's personal popularity.

**CHAMPION OF LADIES**—Representative T. James Tumulty of Jersey City has become Capital Hill's most massive champion—he weighs 360 pounds—of the feminine sex. He thinks it an insult to the ladies that seasonal hurricanes should be given such names as Carol, Edna and Hazel. He demands that the storms be masculinized.

## Business Today

# Brakes On Economy?

By ELMER ROESSNER  
The economy is rolling ahead so fast many economists, in and out of government, believe some brakes should be lightly applied.

In the next few months there will be recurring proposals to boost interest rates, fix larger margins, tighten consumer credit and take other steps to slow the rate of expansion.

Perhaps some steps will be advisable, especially those to prevent borrowing from future prosperity. Any increase in the rate of spending tomorrow's income—by government, consumers or business—is unnecessary now. We are doing all right.

All current signs indicate fulfillment of Commerce Secretary Sinclair Weeks' prediction that this will be the greatest year on record.

Retail sales in March totaled \$14,633,000,000 according to the Department of Commerce estimate. That compared with \$13,539,000,000 in March, 1954, and \$13,956,000,000 in March, 1953.

National output in the first quarter topped the output of every other first quarter in history and was only slightly under the all-time high in the second quarter of 1953, the President's Council of Economic Advisors told Congress. Consumer buying in the first quarter was at an all-time high of \$242 billion at annual rates.

March industrial production, the Federal Reserve Board calculates, was almost up to the mid-1953 high.

Housing starts in March were 117,000. Labor Department reports making the first-quarter total the highest for that period.

Construction contracts in March, the Federal Reserve notes, were the largest in volume for any month on record except May, 1951, when the total buoyed with large atomic energy awards by the government.

There are indications that the boom will continue. The housing starts and construction contracts mean more production and employment in the months ahead. Auto production, having set a new record in March, advanced further in early April. Production of steel, which reached close to 10,000,000 tons in March, has been running ahead of that rate this month.

And the marriage rate, which had been expected to drop because it is those scarce depression babies that are now the people in their early twenties is picking up. In January the National Office of Vital Statistics reports, there were 101,000 marriages, an increase of 7.4 per cent over January, 1954.

**MANUFACTURERS SEEKING MORE FOOD IN TUBES**  
American manufacturers of collapsible tubes have formed the Collapsible Tube Manufacturers Council to promote the packaging of food in their products.

Seems that in this respect, we are far behind Europeans. Across the Atlantic, jellies, meat and fish pastes, cheese spreads and condiments are commonly packaged in tubes. In Switzerland, for instance, 90 per cent of the mustard is sold in metal tubes. Cream cheese, butter and catsup is frequently so packaged.

**VENEZUELA BECOMING BILLION-DOLLAR CUSTOMER**  
Venezuela will be buying a billion dollars worth of American goods a year in a few years, Loyd G. Smith Creole Petroleum Co. president, predicted last night. His prediction was based on an independent survey which showed that 1,350 companies in the United States sold \$900,000,000 worth of goods to Venezuelan buyers last year.

Venezuela gets this money by selling oil and steel ore to American companies.

## The 'Ordinary' Americans

AMERICA IS MADE OF PEOPLE—  
GOOD PEOPLE—  
HARDWORKING PEOPLE—  
PEOPLE LIKE  
THE  
ARCHITECT.

HERE'S A PICTURE OF AN ARCHITECT DREAMING— BUT HE'S WIDE AWAKE! HIS "DREAMS" ARE SO PRACTICAL THEY CAN BE REPRODUCED IN WOOD, STEEL AND CONCRETE!

THE ARCHITECT'S WORK IS EVERYWHERE YOU LOOK. GREAT BUILDINGS, CATHEDRALS, HUGE APARTMENTS, OR MODEST HOMES— ONCE THEY WERE JUST DRAWINGS ON THE ARCHITECT'S BOARD.

PERHAPS THE ARCHITECT'S GREATEST SKILL IS UNDERSTANDING THE SKILLS OF OTHERS IN THE SCORES OF TRADES WHO MUST CARRY OUT HIS PLANS.

# U. S. Taxpayers Require More Economical Schools

By ROGER W. BABSON

**BABSON PARK, MASS.**—One of the critical problems facing every voter today is how to pay for the mounting cost of education without taxing property holders into the poorhouse.

**More Economical Schools Needed**  
The sharp rise in the birth rate is one source of our problem. To help house the increasing population, about 5,500,000 housing units have been built since 1945—1,215,000 in 1954 alone. This building boom has given impetus to our national prosperity, but it has created problems galore at the school level. Most of these new homes have been purchased by young couples who want decent places in which to raise their families.

These families have become so large in proportion to existing educational facilities that many

cities and towns are now losing money on each new house built. Where there is more than one child per family, the loss often amounts, on the educational bill alone, to several hundred dollars.

We know there will be a marked demand for more and more educational facilities during the next ten years. Since by law we must provide both facilities and teachers, we may well ask for some economies to be made which can help keep costs down.

**Save! Save! Save! Save!**  
You cannot afford a custom-built automobile. Can you any more afford a custom-built school? It is high time the U.S. Office of Education, as well as the various State Departments of Education, moved in with some standard basic plans for basic schools, which can readily be expanded with the school population. Unit sections should also be made

readily movable to some other section of the community should the need arise.

There are literally a hundred ways to cut construction costs. Standard plans should be used for a given number of children, with the extras that don't really add up to better education for your child being cleared out. Don't build a monument of mortar that will be outmoded long before it is outworn. Let us consider the children and taxpayers—rather than glorify some mayor or architect.

**Improve Teacher Efficiency**  
The suggestion has been made that we could cut teaching costs by doubling classroom size. Then we could hire the brightest teachers in the land to make recordings for radio and TV educational hookups. The children could be tested on what they had seen and heard by being given true-false,

multiple-choice questions, and by having them mark their answers on IBM answer sheets that would be corrected by machine.

However, teacher efficiency cannot be measured in terms of the number of youngsters turned out of our schools each year. From what I have seen of some of the educational products of recent years, I think nowhere near enough stress has been placed on the quality of education which our children are receiving.

Teachers Need More Money  
What business would "earn its salt" today if its employees worked only from 8:30 to 2:30, vacationed from June 25 to September 5, and its factory or store lay idle as much as the average school does? It is true that teachers have papers to correct, lessons to prepare, and extracurricular activities to supervise. But, ways should be devised so

teachers can earn the extra money they need. One idea would be to extend the school day and the school year so that the first eight years are done in seven, and the last four years in three. Thereby we save two years for the children, as well as money for increased salaries.

We can make our plant more efficient and give teachers a much-needed raise. We might even help solve the problem of delinquency by keeping our kids busier. This sort of thing is not a pipe dream. At the college level, the students of Babson Institute, a fully accredited College of Business Administration, do four years of college work in three—and after graduation make an outstanding mark for themselves. This might be tried for the lower grades as well. From such, all will benefit—children, teachers, and taxpayers.

## Around Capitol Square

# Governor Steps Out To Three Events In Only Two Days

By LYNN NISBET

**GOVERNOR**—Governor Hodges participated in "big day" exercises in three relatively small eastern North Carolina towns the past week. The annual Farm Festival at Farmville on Wednesday, a similar event at Farmont on Thursday and de-

dications of the new army at Bladenboro that afternoon required fast travel by helicopter and automobile, called for three townships and a coasting of suburb on Governor Hodges' Florida face.

The trips took him away from his office for a day and a half, 5 days.

"Usually I don't write that fast," he said. "But writing comes easy to me. I have written about five million words. Usually I write 4 hours every morning every day in the week, and turn out about 16 pages a day.

"It makes no difference how I feel. If you feel bad, writing helps take your mind off your troubles. It doesn't make you feel any better to sit still and do nothing."

L'Amour, who never has smoked, eats candy or chews gum while he writes, and says he can write anywhere—on trains or planes in crowded restaurants.

"The only thing that bothers me is dead silence," he said. "Some time ago I read an ad in a Hollywood paper by a writer who wanted a woman to come and merely make homey noises—he probably could write while he worked. I can understand that. Any kind of sound is better than none when you are writing."

L'Amour, a bachelor, lives now in a midtown hotel and is about ready for man's most enduring adventure—marriage—if he can find the right girl. He is a specialist on Western lore, but his hobby is the study of survival.

"If you know plants, you can go alone into a desert or jungle and find enough food and water to keep alive indefinitely," he said. "A man can survive anywhere in the world, at sea or on land—except in the antarctic—if he will only use his head."

"The main enemy to anybody set down unexpectedly in a wild, unhabited spot is his own sense of panic. This is why lost children often survive in places where adults die. They don't give way to fear."

L'Amour, whose own experiences have proved a fruitful gold mine, has no patience with people who think of adventure as something limited to the glamorous past.

"It isn't," he said, soberly. "There is more adventure alive in the world today than there ever was, plenty of unexplored places. Adventure is there waiting for any man with the courage to go and find it. But you'll never discover it by looking at the calendar—and counting yourself to death."

for which he has been criticized in some quarters. Other sources agree that getting away from the tennessees around the Legislature and mingling with the common people served more valuable purpose than would the few hours in the office.

The Farmville and Farmont affairs were regional in scope, with military and high school bands, business firms from a wide area and tens of thousands of people participating. The army dedication was localized, but implications of the increasing importance of the National Guard gave it more than local significance.

The Governor shook hands with hundreds of citizens and future citizens of all colors and degrees of economic independence. He chatted informally with dozens of them, getting first hand impression of how the folks are thinking.

Not all the comments were favorable to the Governor's program, further indicating their sincerity.

On Saturday Governor Hodges addressed a big luncheon meeting of the several civic clubs in Charlotte, where his audience was limited to the business and professional leaders. It was clearly manifested that the Governor of North Carolina considered the mass audiences at Farmville and Farmont fully as important and just as much his kind of folks as the elite of Mecklenburg.

**BIG DAYS**—The custom of small towns staging "big day" celebrations is not confined to North Carolina, but those familiar with such affairs in other parts of the country insist that nowhere else do they attain the significance they do in eastern North Carolina, as illustrations of genuine democracy in action. Be-

cause of the peculiar local racial situation in Robeson county the Farmont Farm Festival is outstanding, if not unique in this respect.

... population of Robeson is about equally divided three ways—Indian, Negro and white. The 30,000 or more people who lined the streets for the parade Saturday had about that same division, but there was no discrimination or segregation among them. Everybody appeared to be happy and generous, with the big folks of all groups making way for the little folks to get in front to see the parade.

Governor Hodges adverted to this condition in all three of his eastern Carolina speeches, and voiced the conviction that no agency, from the Supreme Court of the United States downward,

(Continued on Page Five)

## Strength for the Day

By EARL L. DOUGLASS

**THE MENACE OF FEAR**  
We have all heard the story of the young British lieutenant who, when a bomb was dropped from the sky and failed to explode, sent his men away to safety and himself climbed a ladder to the outjutting beam on which the bomb had landed and removed the deadly fuse from the bomb's nose. This young fellow, who was in the most hazardous of all army services, declared that he sustained himself in moments of extreme danger by repeating the words which his mother both taught him and led him to believe: "Yea, though I walk through the shadow of death I will fear no evil; for thou art with me."

A group of American psychologists at their annual convention adopted a report containing, among other things, this statement: "The greatest of all preventative of fear is religious faith, as evidenced by thousands of cases studied." Alfred Noyes, the English poet, wrote some years ago, "There is no hope for humanity unless we find all of our answers in the religion of Christendom."

In everyday personal life this means that the less fear we have about anything the more achievement we shall have. In international affairs, certainly it assures us that the more calm courage we have in the handling of apparently unsolvable problems, the more sure we are to have peace and concord among the peoples of the earth. And in the case of individuals it means that we can have inner peace only if we banish fear.

## National Whirligig

# Party Demands In Appointees

By RAY TUCKER

**WASHINGTON**—Whether to appoint respected Democrats or inexperienced and unqualified Republicans to Federal jobs throughout the country has become a major patronage problem with the Eisenhower Administration. The solution may make or break the GOP's attempt to capitalize on Ike's undoubted popularity in every section of the country.

Here is a sample case that is now before Postmaster General Arthur E. Summerfield, and it is typical of similar decisions awaiting action by other Cabinet and Federal Agency heads—Attorney-General Herbert Brownell Jr., Treasury Secretary George M. Humphrey, Commerce Secretary Sinclair Weeks, and Era Taft Benson, Secretary of Agriculture.

Almost every one of Ike's top appointees is faced with the choice of retaining a good Democrat or supplanting him (or her) with a Republican Party worker.

**EFFICIENT POPULAR DEMOCRAT**—In a small southern town not too far from Washington, the job of Postmaster was held for more than 20 years under Democratic rule by a highly respected member of that Party and the community. As so often happens, he appointed his daughter to serve as his assistant, and she turned out to be an exceptionally likable and efficient public servant.

The father has died since the Republicans came to power, and the daughter carried on. If a vote were taken in the community, she would be chosen almost unanimously for the post. Republicans and Democrats would support her, according to Summerfield's latest survey.

to carry his district for a Republican candidate for local or national office. He is simply a time-serving politician.

**DEMANDS OF PARTY**—Summerfield realizes that he will make more votes and friends for Ike and the Republican Party, if he gives this plum to the Democratic lady. He has been so informed by disinterested citizens of the community. But he will be lambasted by politicians in Virginia and elsewhere, and accused of "running out on the gang," if he turns down the Party precinct worker.

President Eisenhower would undoubtedly approve the Democrat's reappointment, if the controversy were brought to his personal attention. He believes that he can hold the South, or at least three or four states, by nonpartisan recognition of the better elements in Dixie, whether they be Republicans or Democrats.

**FINAL RESULT**—Unfortunately, despite its intrinsic, political importance, such a matter as the disposition of a \$4,000 job will not reach the White House desk. It will be handled at the departmental and political level. The Republican will probably get the appointment and the community will continue to vote Democratic.

Multiply this incident by the thousands, and assume that all will be handled in the same way, and it becomes evident why the GOP might not be able to capitalize on Ike's personal popularity.

**CHAMPION OF LADIES**—Representative T. James Tumulty of Jersey City has become Capital Hill's most massive champion—he weighs 360 pounds—of the feminine sex. He thinks it an insult to the ladies that seasonal hurricanes should be given such names as Carol, Edna and Hazel. He demands that the storms be masculinized.

# News Report Better Than Ever, Say AP Directors

NEW YORK (AP)—The Associated Press news report became "better than ever" in the past year through increased scope and depth of coverage, the AP Board of Directors said today.

The directors reported that the AP fulfilled "a solemn obligation to provide news and information vital to intelligent decisions on public questions of enduring importance."

This was accomplished, they said, by "skillful, forthright, objective and fearless reporting" that enabled the public to keep abreast of developments "in today's changing and eventful world."

The board's report was read at the AP annual membership meeting in the Waldorf-Astoria Hotel prior to a luncheon address by

President Eisenhower. More than 1,200 of the nation's editors and publishers were to hear the President.

Members of the AP, a worldwide news cooperative, voted for six directors and considered the applications of 23 associate members for regular membership. Results of the balloting for directors will not be known until late tonight.

Convening of the AP members signaled the opening of Newspaper Week in New York. The American Newspaper Publishers Assn. will hold its annual convention the next three days.

In their report, the AP directors said: "The Associated Press has a solemn obligation to provide news and information vital to intelligent decisions on public questions of enduring importance. That responsibility could not be discharged by superficial reporting, skirting controversial areas or dull, routine presentation. It would be a business as well as a professional folly to attempt it."

The report said, "On the big stories, the staff performed magnificently," and added: "These included the attempted assassinations by gunfire in the House of Representatives chamber, the 'off-year' election in November, the Army-McCarthy hearings, the Supreme Court ban on

school segregation and the more recent reshuffle in Soviet leadership including the resignation of Russian Premier Malenkov.

"Interpretation, background, and analysis by experienced writers played an important part in the dominance of Associated Press coverage."

The directors credited newspaper and radio members with supplying outstanding stories, photographs and ideas that contributed greatly to the AP news report.

Board members commended "the striking development of enterprise reporting, particularly those dispatches in the AP Newsfeatures budget handled by wire."

"Week after week," they said, "this branch of the service provides for members a wide variety of copy designed (1) to meet the broader need for public information on urgent questions and problems, and (2) to enable members to compete effectively for the attention of the public."

The directors said the AP must continue to broaden the appeal of its service and to exploit fields of great public interest.

"There is no sound reason for the media of general information to abdicate any portion of their responsibilities or potentials," the report said.

Concerning distribution of the AP service to foreign newspapers and radio stations, the directors said: "Our international operations are conducted without subsidy, direct or indirect. Expansion has been achieved on the merits of the service."

"There has been no compromise with integrity and honest news reporting. We have shunned all arrangements which involved distribution of news designed to serve the purposes of foreign or domestic governmental propaganda, directly or by implication."

"Subscribers pay all the costs of delivering the service and also share fairly in the expense of worldwide collection."

The directors said, "The Associated Press must maintain its traditional pre-eminence."

"Apart from the ethical public responsibility to do so, it is sound business for news media to insist that the principal supplier of information constantly strive for practical perfection," the report said.

## One Night When All Were Scared

LYNCHBURG, Va. (AP)—Lieutenant Floyd L. Doss, of Lynchburg, one of the few men to bail out of a 600-mile per hour B-47 jet bomber, admits it was scary plunging into midnight darkness. But Doss and two other crew members were not the only ones who were scared.

"When they saw the bomber, with all its landing lights on, come swooping down at them, they first jumped into the water and then took off through the woods," Doss said.

Doss and his two companions escaped with minor injuries, but Doss spent over 6 hours in the top of a South Carolina pine tree before National Guardsmen got him down.

## Lollipops From Train Conductor

CLIFTON FORGE, Va. (AP)—Cap'n C.C. Lane, a fifty-year Chesapeake and Ohio Railway conductor, has an enviable reputation among the children on the Clifton Forge-Hot Springs line. He makes it a habit to have a supply of lollipops on hand.

When a teacher took 32 first graders on a 14-mile train trip, Cap'n Lane had enough to give one to each child. He values a "thank you" note from the children among his greatest trophies.

U.S. margarine production totaled 426 million pounds in 1942 and rose to about 1,364 million pounds in 1954.

SIGN OF VICTORY — Cary Middlecoff, winner of Masters Golf Tournament in Augusta, Ga., slips into traditional green victor's jacket with help of runner-up Ben Hogan.

# Strike Vandalism, Violence Continue

ATLANTA (AP)—A new wave of cable cuttings and the knocking out of a railroad bridge by fire were reported as regional telephone and railroad strikes entered their 43rd day today.

The violence climaxed a weekend marked by mob rowdiness in Florida, derailment of a freight train in Kentucky and the failure of three governors to settle the phone strike at an Atlanta conference.

The slashing of cables in Mobile and Montgomery temporarily disrupted service to thousands of Southern Bell Telephone Co. customers in Alabama. One Montgomery radio station was off the air several hours.

A 104-foot section of a Louisville & Nashville Railroad bridge six miles east of Calera, Ala., was so badly damaged by fire it will have to be rebuilt. F. W. Kirchner, L&N division superintendent, estimated damage at \$150,000 and said he believed the blaze was of incendiary origin.

Kentucky state police said 25 sticks of dynamite were found attached to an L&N bridge at Washington, near Pineville, Ky. Trooper Robert Rose said the dynamite was in a paper shopping bag and was rigged so it could be exploded electrically.

At Washington, L&N company and union representatives met four hours with the National Mediation Board but no change in the situation was reported.

Gov. Lawrence Wetherby of Kentucky asked the 13 governors of the states affected by the L&N walkout to meet in Nashville Tuesday with company and union representatives in a new effort to reach agreement.

Seven men were arrested on disorderly conduct charges at Miami, Fla., when 40 policemen and firemen broke up a noisy crowd of about 500 outside the main telephone exchange. Hoses were turned on the crowd and union leaders protested the action as unnecessary.

Six crewmen were injured in the derailment of an L&N freight train five miles south of Barbourville, Ky. Four diesel engines and 27 cars went off the rails. A company spokesman termed the incident "serious."

Govs. Marvin Griffin of Georgia, Hugh White of Mississippi and James Folsom of Alabama, made an unsuccessful attempt in Atlanta to settle the strike of the Communications Workers of America (CIO) against Southern Bell.

AFL nonoperating unions are on strike against the L&N for a medical care insurance plan to be paid on a 50-50 basis by the company and the employees. Operating unions—men who actually run the trains—are refusing to cross picket lines of nonoperating unions.

Southern Bell workers are out in a contract dispute.

## Thai Premier In Hollywood Tour

LOS ANGELES (AP)—The Prime Minister of Thailand takes a look at Hollywood today as part of his southern California visit.

Field Marshal P. Pibulsonggram and his wife will be guests of honor at a luncheon given by movie industry leaders at Paramount Studio. Tonight they will attend a reception and dinner given by the Los Angeles World Affairs Council.

The Prime Minister, arriving with his party yesterday, said it had been his fervent desire to return visits to his country by Vice President Nixon and other American leaders.

WEEKEND JAIL ZANESVILLE, Ohio (AP)— Because Judge Clarence Crossland ruled she didn't tell the truth in divorce suit testimony against her husband, Mrs. Clara Belle Harmon, 27, must spend every Saturday night for a year in the detention home. She also didn't get the divorce.

should take any action that would disturb this happy situation. He suggested that if the justices could have seen the Indian and Negro bands and Boy Scout Troops and the ovations given them by the sidelines and reviewing stand there would be less talk of unjust discrimination.

In some ways the Bladenboro armory dedication was the biggest of the several big days, although it attracted fewer people and less display. It afforded public opportunity for Governor Hodges and representatives of the United States Army to pay high tribute to the "citizen soldiers" who make up the National Guard. The Governor said in his opinion it is more important to have an efficient local guard than to spend millions for national defense. The fact that more than 90 per cent of the entire North Carolina National Guard personnel answered the alert call Wednesday night in less than four hours; and that more than 90 per cent of the Bladenboro battery were on the job along the coast during Hurricane Hazel within six hours after being called, affords a sense of security for the people which cannot be gained from billion dollar international operations.

CO-OPERATION—The Bladenboro armory dedication, the parades at Farmville and Fairmont, and the much bigger affair at the recent Wilmington Azalea Festival all emphasize the value of co-operative effort—among individuals, private business enterprise and government agencies.

The Azalea Festival has come to be the biggest thing of its kind in North Carolina. The dates for it are affected by the estimated time at which azaleas will be in full flower. The weatherman does not always co-operate, and he didn't this year. A hard freeze destroyed the blooms a week before their prime. Dates for other events are fixed so that some of the same floats can be used in parades with slight modification to fit local conditions and firm names.

The armory affords evidence of government co-operation. The land upon which it is built was donated by local interests. The cost of the building was shared by Federal and State government. Its primary purpose is military. Some of the facilities such as the indoor rifle range and the vault in which weapons and ammunition are stored are wholly

# Former Head Of Bar Association Died Yesterday

MARTINSBURG, W. Va. (AP)—Clarence E. Martin, 75, prominent corporation lawyer who figured in a bitter 1941 battle between Sen. Neely (D-WVa) and ex-Gov. Homer Holt, died here yesterday. He had been ill four years.

He was a former president of the American Bar Assn.

Martin, a prominent West Virginia Democrat very nearly became a U.S. senator.

He was appointed in 1941 by outgoing Gov. Holt, a Democrat, to the Senate vacancy created by the resignation of Neely. Neely also a Democrat had just waged a successful campaign to succeed Holt as governor.

But Neely claimed Holt had usurped his authority to appoint someone to the Senate vacancy. He named the late Joseph Rosier of Fairmont, and when a vote was taken in the Senate as to which to seat, Rosier won by two votes.

## Capitol Square

(Continued from page four)

should take any action that would disturb this happy situation. He suggested that if the justices could have seen the Indian and Negro bands and Boy Scout Troops and the ovations given them by the sidelines and reviewing stand there would be less talk of unjust discrimination.

In some ways the Bladenboro armory dedication was the biggest of the several big days, although it attracted fewer people and less display. It afforded public opportunity for Governor Hodges and representatives of the United States Army to pay high tribute to the "citizen soldiers" who make up the National Guard. The Governor said in his opinion it is more important to have an efficient local guard than to spend millions for national defense. The fact that more than 90 per cent of the entire North Carolina National Guard personnel answered the alert call Wednesday night in less than four hours; and that more than 90 per cent of the Bladenboro battery were on the job along the coast during Hurricane Hazel within six hours after being called, affords a sense of security for the people which cannot be gained from billion dollar international operations.

CO-OPERATION—The Bladenboro armory dedication, the parades at Farmville and Fairmont, and the much bigger affair at the recent Wilmington Azalea Festival all emphasize the value of co-operative effort—among individuals, private business enterprise and government agencies.

The Azalea Festival has come to be the biggest thing of its kind in North Carolina. The dates for it are affected by the estimated time at which azaleas will be in full flower. The weatherman does not always co-operate, and he didn't this year. A hard freeze destroyed the blooms a week before their prime. Dates for other events are fixed so that some of the same floats can be used in parades with slight modification to fit local conditions and firm names.

The armory affords evidence of government co-operation. The land upon which it is built was donated by local interests. The cost of the building was shared by Federal and State government. Its primary purpose is military. Some of the facilities such as the indoor rifle range and the vault in which weapons and ammunition are stored are wholly

military. The kitchen and dining room, the main auditorium (which can be readily converted for civilian meetings, dances and such like) and other facilities are available for community use at fees based on actual cost of lights, power, janitor service and depreciation. "We don't want to make money on it," explained Lieut. Johnnie Ballard, "but we do not want the National Guard to lose money or use tax funds to provide social facilities." That is the general policy with respect to use of armories throughout the State, and Governor Hodges took occasion to publicly endorse and commend the practice.

## Survey Predicts Voting Outcome

EAST LANSING, Mich. (AP)—Dr. Claude Bosworth, of Michigan State College, says he has devised a questionnaire that tells what a citizen thinks of his community—and what he'll buy for it.

"We can help community leaders determine if an industrial development, new school, sewer bond issue or recreation program will be approved by the people," he says. The method has been reliable in surveys run in several Michigan cities, Bosworth says.

## Church Prayers Getting Results

DIXON, Ill. (AP)—The congregation of the Methodist Church has turned to the Lord instead of the police for the solution of a theft.

Several weeks ago someone stole a birthday penny bank from the church Sunday school department. The class prayed for the thief and the eventual return of the bank, fashioned in the shape of a cross.

The bank was returned—left on a shelf. It was empty. Now prayers have been renewed for the thief and return of the cash—about \$4.

The average length of life for Americans has increased by 30 years since 1850.

# Greenies Take Opener Against Falkland By 10-2 Score

## Bobby Flye Hurls Sharp 3-Hitter

By WAYNE BISHOP  
Reflector Sports Writer

Greenville's new semi-pro Greenies opened their Coastal Plain League season with high success Saturday night as they turned back the Falkland Bloodhounds 10-2 behind the sparkling pitching of Bobby Flye.

Flye pitched a brilliant three-hitter for the Greenies, striking out thirteen Falkland batters along the way. He walked five but handled himself well with men on base.

In only one inning did the young righthander show any difficulty getting the Falkland squad out. In the fourth inning after two outs, two walks and two hits brought across the two Falkland runs. Flye had retired the first eleven batters to face him until he weakened in the fourth. After that he came back to pitch one-hit shut-out ball over the last five innings.

The box:

Falkland	AB	R	H	E
Kamill, rf	4	0	0	0
F. Brewer, 3b	4	0	0	0
Jones, ss	3	1	0	1
Stokes, lb	3	1	1	0
Webb, 2b	4	0	1	0
Lilly, c	4	0	1	0
Simpson, cf	2	0	0	0
Doyette, p	2	0	0	0
Lilly, p	2	0	0	0
Totals	28	2	3	5

Greenie	AB	R	H	E
E. Moye, cf	5	1	2	0
Hall, 3b	4	1	1	0
Boyd, 2b	5	2	1	0
Soles, lf	5	0	0	0
McLawnhorn, c	3	1	1	0
McRoy, c	1	0	0	0
Tripp, 3b	4	1	3	0
Hogood, rf	2	1	0	0
Mills, ss	4	1	1	0
Flye, p	2	2	1	0
Totals	35	10	10	0

**Greenies Show Power**

The Greenies hit the ball hard off the Falkland pitcher and showed definite signs of power throughout the line-up. Every member of the starting line-up got at least one hit.

With the exceptions of Fred Soles and Bobby Hogood. Both are seasoned veterans and are known to be strong club men.

Brownie Tripp led the hitting for Manager Junior Yohn's club with three hits in four times at bat. Tripp had a triple and two singles to his credit.

The biggest blow came in the second inning for the Greenies after they had picked up a single run in the first. With one out and the bases loaded, Blaney Moye smacked a high outside pitch far into the right centerfield area. Before the ball could be chased down and thrown back into the infield Moye had scamped home with a grand slam homer.

The Greenies scored in all of the first six innings until Billy Lilley bore down and retired the Greenies in order for the last two innings.

**Play Errorless Ball**

The Greenies played the entire nine innings without a miscue in the field. Flye had the hitters under his spell and made them pop up or hit easy grounders when they did hit the ball.

The Greenies lost the second game of their season in Falkland yesterday by 11-3. James Earl Pollard was the loser in that game. Wednesday night the Greenies play in New Bern. The next home game is with Farmville in the Greenie park on Sunday afternoon.

**Chisox Reached Split Doubleheader With Rival Elon**

By BRUCE PHILLIPS  
Reflector Sports Editor

East Carolina College shot out in front in the Eastern Division of the North State Conference baseball race Saturday by halving a doubleheader here with Elon.

Elon's Christians were handed the first game 3-2 on a silver platter when three errors made by the Pirates in the last inning permitted two unearned runs. East Carolina bounced back in the nightcap and rolled to a 2-1 decision behind the masterful chunking of Mack Cherry.

The win gives the locals a 4-1 conference mark against runner-up Elon's 4-2 record.

Elon won the first game though allowed only two hits by Tommy Pruett. The big righthander permitted no earned runs, struck out five and walked only three. His opponent on the hill, Luther Conger, also turned in a fine performance. He gave up three hits and two earned runs.

**Costly Errors**

ECG was ahead by a 2-1 margin when the disastrous seventh inning rolled around. The first man up was Charlie Swicegood, relief pitcher, who reached first on Jerry Stewart's error. Don Myers got renewed life on second baseman Cecil Heath's error, and both runners later scored on Heath's two-run miscue.

The Pirates got their two runs right off the bat in the initial frame. Stewart opened things by singling through the infield. Heath sacrificed Stewart down to second. After Galtier Cline had filed out to shortstop, Bill Cline drove in Stewart with a line-drive bingle. Cline later scored himself on an error of Nick Smother's grounder by the first baseman.

**Cline Star**

Bill Cline was the hitting leader in his new 4th batting position. He collected two hits in three times at bat in the first game and one-for-two in the second. He was credited with driving in both of the Pirates' runs in the second game and drove in one tally in the first.

East Carolina managed their two runs in the second game in the third inning. After Cherry, the pitcher, had grounded out, Stewart was walked by Elon's Sherrill Hall. Heath was out No. 2 on a fly ball to centerfield. Galtier Cline then drove one through the box to put two men on. Bill Cline walloped Hall's first delivery to the left-field fence for a triple, scoring both runners. B. Cline died on third when Smothers went down swinging.

Elon tallied in the sixth frame when shortstop Nick Thompson was on by a fielder's choice and scored on Don Packard's base hit.

For Doc Mathis' Christians, Nick Thompson, Don Packard, Ron Mc-

## Chisox Reached Twin Extremes Of High And Low

By JACK HAND  
The Associated Press

How high is up? How low is down? Ask the Chicago White Sox. Manager Marty Marion's hearty crew climbed the highest mountain and probed the deepest sea over the weekend.

Saturday they trounced Kansas City 29-6. Then yesterday they absorbed a 5-0 shutout from the same team.

Take a look at some of the other things that happened yesterday:

1. Pittsburgh finally won its first game at Philadelphia, 6-1, after losing eight in a row. The Sunday circuit turned the second game into a suspended game with the Phillies leading 2-0 in the eighth.

2. The New York Giants scored six runs in the 10th inning but barely managed to hold the fort as Brooklyn bounced back with five runs in an 11-10 thriller.

3. Willard Nixon, the old Yankee killer, beat the New York Yankees for the sixth straight time, allowing only two singles in a 1-0 Boston Red Sox victory.

4. Sad Sam Jones, always a sore-armed disappointment at Cleveland, pitched a two-hitter against Cincinnati for a 2-1 edge and his second victory for the Chicago Cubs. A scheduled second game was rained out in the third.

5. Saul Rogovin, another sore-armed pitcher who was shunted to the minors last year, went the route for Baltimore to top Washington in 10 innings of the first game 2-1. Washington took the second 5-2.

6. Rookie Frank Lary of Detroit found his first big league victims in the Cleveland Indians. Lary allowed eight hits while the Tigers hung a first defeat on Herb Score, the Indians' rookie hotshot, 6-4.

Alex Kallner was the fellow who plummeted the White Sox from 29 runs to zero by allowing only five singles. The husky left-hander was the first Kansas City pitcher to go the route this season. Gus Zernial's three hits helped hand the defeat on Dick Donovan.

Nixon's second successive shut-out was a real class job at Yankee Stadium. Singles by Bill Skowron and Eddie Lopat were the only New York hits. Lopat lost it in the ninth when Faye Throneberry singled, took second on an infield out and scored when Norm Zauchin's single dropped in front of Hank Bauer.

Hoot Evers' pinch double set up the winning run for Baltimore in the first game against Washington. He moved around to third on an error by Bob Kline and scored on an infield out.

Ray Boone drove in the first four Detroit runs with a homer and single against his old Cleveland strikes to ease Lary's path. After giving a homer to Larry Doby in the first inning, Lary was in trouble only in the ninth, when three hits gave the Tribe two runs.

The Giants and Dodgers staged another massive tug-of-war at Ebbets Field before the Brooks finally lost their second game in 13 starts. Despite two homers by Willie Mays, his first of the season, Brooklyn took a 6-3 lead into the ninth, when Al Dark's two-run homer tied the score.

Ray Katt's first hit of the year, a three-run homer, started the Giants' six-run spurt in the 10th. Then Brooklyn hammered back with five. At the end, the Dodgers had men on first and second when Ruben Gomez, the seventh New York pitcher, finally got Carl Furillo on a foul fly.

Jim Hearn was the winning pitcher. The loss was hung on Billy Loos.

Max Surkont saved Pittsburgh from a record-tying losing streak by holding the Phils to eight hits in the opener. Del Ennis leadoff homer in the sixth ruined his shut-out.

St. Louis and Milwaukee never did get started in their scheduled series game because of rain. Cincinnati and Chicago got in one game but had to call off the second with the Cubs in front 3-0 in the Chicago half of the third.

Eddie Miksis drove in both runs for the 2-1 opening game decision. All teams had an open date today.

## Alarm Is Already Voiced By Drop In Attendance

By GAYLE TALBOT

NEW YORK (AP)—Great alarm already is being voiced in some quarters over the drastic dropoff in big league attendance. It has indeed, been a disturbing feature of the new season. But note that there have been no howls of anguish to speak of from the club owners, the men who should be most concerned.

The truth is that, through the golden harvest of television and radio, the majors year after year are approaching closer to semi-indifference of the fan who only a short time ago supported them totally by the dollars he left at the turnstile. The fan still is picking up the tab, all right, but he's doing it at the drugstore counter and in the corner delicatessen.

A live audience of only 3,674 showed up at Ebbets Field on a recent day to watch Robin Roberts, the game's greatest pitcher, try to stop the Brooklyn Dodgers short of a record 10 straight opening victories. On the same day, a bare 2,832 paid their way into Yankee Stadium across the river.

The Brooklyn players were audited and predicted that if things didn't pick up in a hurry it would be necessary to move the club to Los Angeles or somewhere.

President Walter O'Malley only smiled and muttered platitudes about the weather being bad and the season young. He obviously wasn't worried at all.

And he needn't have been from what we were told by the boss man of another big league club about a month ago. He said that his team—no pennant winner—would have guaranteed income of something over \$800,000 before the season opened, and he estimated that several others would exceed that figure, possibly reaching the million mark.

That is better, he pointed out, than an added million in attendance, for it is pure velvet and there is no accounting to visiting clubs, who cut in for 20-plus per cent of the gate receipts. The Saturday Game of the Week, which goes into and damages only minor league territory, has added an important sum to the big league pool for the past two seasons.

## Baseball Fever Is High In Grimesland

GRIMESLAND—Although baseball is a minor sport with other teams in the county, it is a big thing at Grimesland. Proof of this is the fact that the Panthers of GHS have won the county championship two times out of the last three years.

Their victories this season were over Griffitt twice, 7-1 and 16-4. The last row saw everything from bunts to home runs. Chloco also fell to the Panthers by the count of 4-2 and 3-1, both of which were very tight pitching duels. Grimesland's rivals from Chocowinity found the local hitting brigade too tough and the Panthers scored 9-2 and 11-1 victories, the latter being a no-hit affair by Dan Mills.

Then to Winterville, and there the Panthers tasted defeat for the first time at the hands of the "Wolves" and pitcher Bobby Coggins, 3-1. However, when the Wolves came to Grimesland a different story was in the making. Paced by the brilliant no-hit pitching of John Tripp, the Panthers gained sweet revenge by a 3-0 count. Incidentally, the defeat was the first of the season for Coggins who allowed only three hits.

The mound staff this season was headed by John Tripp, a 5'10", 150 pound sophomore right-hander. Tripp was the difference in the season record. He was at his best when the going was tough. Against Winterville when the game was a "must" for Grimesland, the cool right-hander seemed to know the fact of the game and pitched accordingly.

Also on the pitching staff is another no-hit pitcher, Dan Mills, who hurled a splendid game against the Indians of Chocowinity. Because of his big bat, Mills saw only limited action on the hill. Ormond Williams is also one who pitched in the background of Tripp. Had the sophomore had a better control, he would have been one of the best in the county. His best game was a neat 7-hitter against Chloco.

Behind the plate, Donald Ferguson looked like a pro in his first season. The hard-working senior hit .360 for the season and is perhaps the most improved player in the county. A steadfast worker Ferguson seemed to be best in the clutch.

First base was occupied by Stoney Evans. A fun-loving freshman, Evans seemed to keep the squad going with his humor. At second, Earl Hardee was definite the greatest hustler on the team. A great in-the-county A steady worker Ferguson seemed to be best in the clutch.

Mr. Short-stop, Frankie Singleton not only batted .346 but played especially well while playing against some of the county team.

While the outfield has been weak at times, the playing of freshman Talmadge Neal has been great. Coaches Williams and Jones both agree that Neal is one of the best baseball prospects seen in this area. He is fast and has a very strong arm with a very accurate throw.

Heading the bench brigade were likely prospects James Heath, Robert Hardee, Amos Hardee, Lindy Edwards and Will Faucette. Although these boys only saw limited action, they proved very valuable.

The season has been a good one for Grimesland. The fine coaching has paid off and many times the close ones have been won as a result of their leadership.

The team of next year should be even better. There are only two seniors on the squad, the others mostly freshmen and sophomores.

Pitchers records:

IP	R	H	S	O	W	L
Tripp	33-2-3	7	17	10	24	4
Williams	16-1-3	6	13	7	14	2
Mills	7	1	0	5	1	0

Batting:

Name	Class	AB	H	Pct.
Ferguson, Sr.	Soph.	25	9	.360
Singleton, Soph.	Soph.	26	9	.320

JOHN TRIPP Had No-Hitter

## Simpler Signs Best For Team

CHICAGO (AP)—The simple signs are the easiest for a baseball team," says Marty Marion, manager of the White Sox.

Marion gives two reasons for his theory on signs. "First of all," claims Marion "if the signs are complicated your own players get so worried about getting them that it affects their play. Secondly, the simplest signs are the most difficult for the opposition to steal because they are always looking for the complicated ones."

## Rare Mare Has Notable Record

OCEANPORT, N.J. (AP)—The first American thoroughbred mare to win more than \$100,000 was Miss Woodford. In four years of racing she started 48 times, won 37 races and \$118,270. Only twice did she fail to run in the money.

A stakes race honoring this great mare is run annually at Monmouth Park.

## In The Family

LONG BEACH, Calif. (AP)—Mrs. Robert A. Wenke won't have much trouble closing legal advice.

Seven close relatives are lawyers—her husband, father, father-in-law, brother-in-law, uncle and two cousins.

BLANEY MOYE had grand slam

## Eastern Division North State Golf Race Practically Sewed Up

East Carolina practically sewed up the Eastern Division of the North State Conference golf race by whipping Guilford here Friday, 21-0, for its third straight triumph.

Claude King and Harry Rainey collaborated to lead the Pirate golfers. Both shot medalist scores of 73. King playing in the No. 1 position, shot nines of 37-36 for his total. Rainey shot the finest first nine of the match with his two-under-par 34.

Other players winning for the locals include Pat Hunt, Johnny Rainey and Paul Gay. Hunt had 38-37 for a fine 75. Rainey went around in 41-39 for an 83, and Gay had a 41-41 for an 82.

The best score recorded by a Guilford player was Cornish's 33-38, 76. Self shot a respectable 79 for the Quakers.

All East Carolina players won their matches by 2-0 margins.

King had three birdies on the front nine and one on the back nine to post his low score. He was clipping along sub-par until the 18th and eighth hole. He double bogied the cup for a five. He shot better golf coming in and went over par only once. He picked up that stroke by birding the 11th hole.

Rainey set a blistering pace going out. The Salisbury junior had four birdies on the front nine. He went over par only once, taking five strokes on the par-4 7th hole. His game faltered some down the stretch, however, and he went over par on four holes.

The win put Coach Howard Forter's defending champions way out in front in the Eastern race. They hold double wins over Elon and Guilford in as many starts. They are now setting their sights on the conference tournament which is to be held on the Star-mount course in Greensboro during the second week in May.

King will be defending the individual crown he won last year in a thrilling match against former title-holder, Don Smith of Elon. Smith is not eligible to compete this year.

## Softball-Sponsor Meeting Tonight

Anyone interested in sponsoring a team for the City Softball League should have a representative at a meeting tonight, 7:30 p.m. at Elm Street Park. Warren Carroll, City Recreation Director said today.

Currently five teams, Carolina Dairies, Southern Bread, Home Builders, C Battery National Guard, and Granites have entered squads. Three more teams are being sought.

Much business remains to be taken care of before the season opens, Carroll added. The first games are scheduled about May 16.

## Host To Kinston Ring Results

Greenville's Phantoms play host to Kinston this afternoon at Guy Smith Stadium in a regular North-eastern Conference baseball game.

The Greenies put their 3-1 record on the line against one of the conference powers.

# Adenauer Policy Handed Rebuff In State Voting

By BRACK CUREY  
HANNOVER, Germany (AP)—Final returns today from legislative elections here in West Germany's third largest state handed Chancellor Konrad Adenauer's pro-American foreign policy a sharp rebuff.

The anti-remilitarization Socialists, who have governed the state of Lower Saxony since the war, ran far ahead of Adenauer's Christian Democrats in voting yesterday for a new 161-member state parliament.

The Socialists polled 1,182,066 votes (35.2 per cent of the total) to elect 59 deputies, while the Christian Democrats won 43 seats

with a total vote of 893,917.

Six other parties won seats: The right-wing German party (DP) 20; the Refugee party (HE) 13; Free Democrats (FDP) 12; Nazi-like German Reichs party 6; Communists 2; and Centrist party 1.

Despite the prestige defeat for Adenauer, the lack of a Socialist majority raised the possibility that the Chancellor's backers might supplant the Socialist regime.

Heinrich Hellwege, national chairman of the German party, called today for a 93-vote rightist coalition of the Christian Democrats, the Free Democrats, the Refugees and his own party. All four are partners in Adenauer's federal government.

The key to such a grouping appeared to be the Refugee party, which for the past four years has been allied with the Socialists in the state government. There was no immediate indication how the Refugees would react to Hellwege's proposal.

The previous State Parliament had 153 members. They included 56 Socialists, 44 Christian Democrats and members of the German party, 23 Refugees, 16 Free Democrats, 3 Communists and 13 representatives of splinter factions.

Control of Lower Saxony is vital to Adenauer's plans for rearmament. He needs the state's five seats in the upper house of the Federal Parliament, the Bundesrat, to give him a two-thirds majority there. Without such a margin, the Socialists in the Bundesrat could stall the mass of laws needed to set up the 500,000-man army planned under the Paris treaties.

# Tornado Leaves Four Dead In Alabama Town

HARTSELLE, Ala. (AP)—A giant whirlwind with red dust, the third tornado to hit this community in 23 years, left four dead yesterday, up to 25 hurt and damages that may exceed \$750,000.

The dead included a small brother and sister and a 60-year-old couple.

Homeless residents of this battered north Alabama farming section met soon after the storm to begin plans for rebuilding their shattered homesteads.

A Red Cross official said 20 to 25 persons were injured. Fifteen persons were taken to hospitals at Hartselle and Cullman. Highway patrol and civil defense officials said 40 houses were destroyed, 2 more damaged and 2 churches blown away.

Damage to buildings alone was placed at near \$750,000. When the loss to livestock, crops and utilities is totaled, that figure may go many thousands of dollars higher.

The tornado ripped along a 20-mile area from near Piney Grove to just south of Hartselle, leaving a swath of devastation one quarter to one half a mile wide. The section is about 75 miles north of Birmingham.

Similar spring storms struck the same area in 1932 and 1952. The 1952 total was 31 dead and 81 injured and that in 1952 four dead and 60 hurt.

Ronnie Lee Nails, 3, of near Massey, died of storm injuries in a Hartselle hospital last night. His sister, Ida Marie, 10, was killed outright. Their mother, Mrs. Clyde Nails and three other Nails children were among the injured.

The other dead were Mr. and Mrs. Will Smith, both about 60. The storm raged through a cluster of communities around Massey west of here, but missed Massey itself. Residents there met last night to organize the entire community as a labor force to help their farm neighbors rebuild.

National Guard troops remained on duty through the night to help survivors and keep roads open. Price Hogan described the tornado as "like a giant whirlwind with red dirt and stuff flying around."

Cedar Plains was wiped out when its three houses, their out-buildings and a church were destroyed.

# Map Increase Of Color TV

NEW YORK (AP)—Plans for a heavy increase in color television programming were announced yesterday by the National Broadcasting Co. at a meeting of network affiliates.

The network is aiming for an average of about four hours of color programs a week this summer and next fall, said Sylvester L. (Pat) Weaver, president.

The network also expects to do color telecasts of four or five of the college football games it will carry next fall.

# Saw 'Exhibit' Of U.S. Equipment

TOKYO (AP)—A recent Japanese visitor to Red China told today of seeing 10 or 15 captured American photographs and hundreds of U.S. parachutes and airmen's uniforms at a public exhibition in Peiping.

Shozo Murata, who conducted unofficial trade talks in Red China in January, said he could not be sure whether the Americans pictured were the airmen and civilians held on what the United States has called "trumped-up charges" of espionage. Nor could he tell whether the equipment might have been captured in North Korea.

Shortly after announcing the Americans' conviction, Peiping radio announced the staging of a public display of equipment it claimed was used by "American spies."

Murata was in Peiping a few days after U.N. Secretary General Dag Hammarskjold conferred with Red Premier Chou En-lai in an effort to secure the release of 11 U.S. airmen.

Murata, World War II Japanese ambassador to the Philippines, said in an interview the photographs were at a crowded, museumlike exhibition hall which he saw while touring Peiping unescorted. He said he could not get close to the exhibit because the crowd was so big.

**BE PREPARED!**  
WICHITA FALLS, Tex. (AP)—Schools here next fall are going to have "refresher" classes for adults. A lot of parents say they need to brush-up-if-they're-going-to-help-their-children-with-homework.

# Roadside Improvement Work Shown On Film At Bethel HD Club Meet

BETHEL—Mrs. James Allen, president of the Pitt Home Demonstration County Council, presented the monthly demonstration on roadside improvement when the local home demonstration club met last week at the home of Mrs. Dennis Hardy. Mrs. Russell James was co-hostess for the meeting.

In giving her demonstration, Mrs. Allen used illustrations of colored slides.

Mrs. Amos Evans spoke to the club members on the Pitt County Progress program which is being sponsored this year, and urged the club to participate.

Mrs. R. B. Edmondson, club president, gave a report on Greece, the country the group has been studying. She compared the place Greece

once held as a world power with the place that country occupies in the world today.

A report was given by the dairy leader, Mrs. Henry Rogerson, on the value of cottage cheese in the diet, and Mrs. Edmondson reported on the progress being made in the treatment of cancer.

Club members were reminded by the president of the fashion show to be held May 5 in the Moose Temple, and she urged the women to take part in this event.

During the social hour which followed the business session, refreshments were served by the hostess.

# School Menu

The following menus will be served in the Greenville city schools next week:

Monday: Vegetable soup, crackers, deviled egg and pimento cheese sandwich, apple cobbler, milk.

Tuesday: Meat loaf with tomato sauce, black-eye peas, carrot strips, biscuit, butter, cookie, milk.

Wednesday: Orange juice, macaroni and cheese, steamed cabbage, sliced beets, corn bread, butter, Jello, milk.

Thursday: Baked beans with franks, string beans, creamed potatoes, whole wheat roll, butter, sliced peaches, milk.

Friday: Fish sticks, green peas and carrots, slaw, corn bread, butter, apple sauce, milk.

Mrs. Louise Rush is supervisor of Greenville city school cafeteria.

# Absent-Minded Thief Lost Loot

DALLAS (AP)—A thief stole \$290 from a printer's coat pocket at his shop last week. He also took some work clothes from a locker room.

The printer looked around the locker room and found a pair of soiled trousers. He decided the thief must have changed clothes before fleeing.

Checking the pockets, the printer got a pleasant surprise. He found his \$290.

# NOTICE OF PUBLIC HEARING UPON THE QUESTION OF EXTENDING THE CORPORATE LIMITS BY ANNEXING TWO CONTIGUOUS TRACTS OF LAND TO THE CITY

The owners of all the property hereinafter described, the same being contiguous to the City of Greenville, having filed a Petition requesting the City Council of the City of Greenville to annex said property to the City of Greenville pursuant to Article 36 of Chapter 180 of the General Statutes, notice is hereby given that the City Council will, on the 12th day of May, 1955, at 8 o'clock P.M., at the new City Hall in Greenville, North Carolina, meet for the purpose of considering the adoption of an ordinance extending the corporate limits of the City of Greenville to include the following land:

First tract: Beginning at the intersection of the south street line of East Tenth Street and the city limits at a point approximately four hundred feet east of Wright Road, thence in an easterly direction along the south line of street of East Tenth Street to the west street line of Cedar Lane; thence southerly along the west street line of Cedar Lane to the southern boundary of Colonial Heights subdivision; thence westerly along the southern boundary of said subdivision, as shown on plat recorded in Book No. 5 page 189, to the city limits on the east side of College Court subdivision; thence northerly along the city limit to the point of beginning. The above description includes the subdivisions of Woodcrest addition No. 2 as shown in Plat Book No. 3, page 342, and Colonial Heights subdivision as shown in Plat Book No. 5, page 189 and other unnamed area.

Second tract: That certain tract or parcel of land lying and being situated in Greenville Township, Pitt County, and State of North Carolina, and known as the Western or South Western section of Meadowbrook; bounded on the North by the Greenville Airport and the Corporate Limits of the City of Greenville; on the East by the Atlantic Coast Line Railroad; on the South by the Tar River; and on the West by the Eastern edge of the Newby Purpose Road; the same being designated on the Map of the City of Greenville, and marked "Not in City" of which reference is hereby incorporated for a more accurate description.

By order of the City Council,  
H. H. DUNCAN,  
City Clerk

R. B. Lee, City Atty.  
Apr. 11-19-25 May 2

parcel of land, BEGINNING at a stake pointed by gums and small pines in a back corner of the Drainage Company in H. H. Proctor's line and runs with said Proctor line S 84 E 180 poles to a stake pointed by small pines; thence with another stake Proctor line S. 31 S-4 W. 160 poles to a stake pointed by a large pine, said Proctor corner; thence with a new line N. 84 W. 45 poles to a stake with pointers in the burnt pocusin and in the above mentioned Drainage Company lines; thence with their lines W. 18 E. 330 poles to the BEGINNING, containing 100 acres, more or less, and being the same tract conveyed to Chaney W. King by J. D. Cox and wife, Addie Cox; and B. T. Cox and wife, Mary V. Cox, by deed dated January 8, 1927, recorded in the office of the Register of Deeds, in Book X-15, at page 427.

By order of the City Council,  
H. H. DUNCAN,  
City Clerk

R. B. Lee, City Atty.  
Apr. 11-19-25 May 2

# NOTICE OF RE-SALE OF LAND

Whereas the undersigned, acting under the authority of an order of the Superior Court of Pitt County, North Carolina, made in that certain action entitled, "Lydia J. King, et al., vs. J. T. May, et al.," appearing of record in Judgment Docket No. 39, at page 278; and further acting as trustee in a certain deed of trust executed by Lydia J. King and Mittle King and recorded in Book F-24, page 581, in the office of the Register of Deeds of Pitt County, foreclosed and offered for sale the lands hereinafter described; and whereas within the time allowed by law an advance bid was filed with the Clerk of the Superior Court and an order issued directing the Trustee and/or Jack Edwards, attorney, representing said Trustee, to resell said lands upon an opening bid of \$3,200.

Now therefore, under and by virtue of said order of the Clerk of the Superior Court and the power of sale contained in said deed of trust, and by virtue of the further authority, set out in the first and second notices of sale, copies of which are on file in the office of the said Clerk, the undersigned Trustee will offer for sale upon the said opening bid of \$3,200 at public auction to the highest bidder for cash, at the Court House door of Pitt County, in Greenville, N. C., at 12:30 o'clock Noon, on the 7th day of May, 1955, the following described property located in Chioch Township, Pitt County, North Carolina, consisting of 270 acres, more or less:

PARCEL A: That certain tract or

parcel of land, BEGINNING at an iron stake on the South side of the old path leading from Sutton Road to an old hog lot and in the Kingston Drainage Company line and runs with said line N. 18 E. 137 poles to Chaney King's corner in said Company line; thence with said Chaney King and the Barrington line S. 84 E. 270 poles to a stake in the old John Gray Blount line; thence with that line S. 60 W. 235 poles to the second corner of the said grant for 640 acres, the said grant lying in and on the Great Opening, at a stake with small pines as pointers; thence N. 80 1-4 W. 112 poles to the BEGINNING, containing 170 acres, more or less, and being the same tract or parcel of land conveyed to Windsor King and Chaney King as tenants by entirety, by J. D. Cox and wife, Addie Cox; B. T. Cox and wife, Mary V. Cox, by deed dated December 13, 1928, and registered in the said office of the Register of Deeds, in Book E-17, at page 362.

Being the same parcels of real estate conveyed to Lydia J. King by S. B. Underwood Jr., Commissioner, by deed dated December 13, 1942, and duly of record in the office of the Register of Deeds of Pitt County.

This property will be sold subject to confirmation of the Court and otherwise according to law.

The successful bidder will be required to deposit ten per cent of bid at time of sale, pending confirmation of sale.

This the 21st day of April, 1955.  
F. M. WOOTEN JR., Trustee  
Jack Edwards, Atty.

# Take MY PLACE

By FRANCES SARAH MOORE

**CHAPTER THIRTEEN**

No more demoralizing crackups, he meant, really. "I'm sorry, Eric," Landon swallowed. "I didn't mean to go to pieces."

"You were tired," he said. "Get to bed early tonight."

There was no false note in his voice. His casual acceptance of an unchanged status was genuine, not an act. "Yes," said Landon, gratefully.

By tomorrow, she thought, I'll have forgotten that last night ever happened.

Astonishingly, the one who remembered and who had no intention whatever of allowing Landon to forget, was Merry-o. That night, when Landon went in as usual to hear her prayers, the light was out. Landon switched it on.

"I am asleep," said Merry-o coldly.

"You forgot your prayers, dear," "I managed them alone, thank you."

She was lying riddily under the bedcovers; she looked badly shaken and hostile. Children forget easily was suddenly an unbelievable aphorism. Landon turned out the light and fled.

It was a week before she could endure the thought of lime green repp, much less work on it. Then, as much to her surprise as Eric's, the pieces went together perfectly—though Eric refused any of the credit.

"Beginner's luck," he said.

"You're wonderful!" said Landon.

Merry-o's mouth set in a straight line. "I hate that color."

"It's just right for this room,"

said Landon.

"I don't care. I hate it. Mommy will hate it, too."

Wisely or unwisely, Landon refrained from prolonging the trivial dispute. Merry-o was proving difficult lately. Wayward and wilful. It was disturbing. Rather than chance a rebuff, Landon often remained silent regardless of whether Merry-o was right or wrong. It couldn't, of course, go on like this. They must come to an understanding, and very soon, before Merry-o assumed that she could rule the roost by her whims.

The telephone rang one afternoon just as Landon was about to drive Merry-o to her "bess" friend's birthday party.

"Hurry!" urged Merry-o. "Hurry, Landon, or I'll be late."

Landon lifted the receiver. "Sit down a minute, darling."

"I can't sit down! I'll wrinkle!"

"You are in a bang-up dither!"

"Me?" asked Scott Wylie.

Landon laughed. "Oh, Scott, hello."

"Who's in a dither?"

"Merry-o. I'm driving her to a party."

Scott said, "Would you like to drive Merry-o to her 'bess' friend's birthday party?"

The season is opening this week with a violinist, Symon Goldberg.

"I'd love it."

"Dinner first, somewhere?"

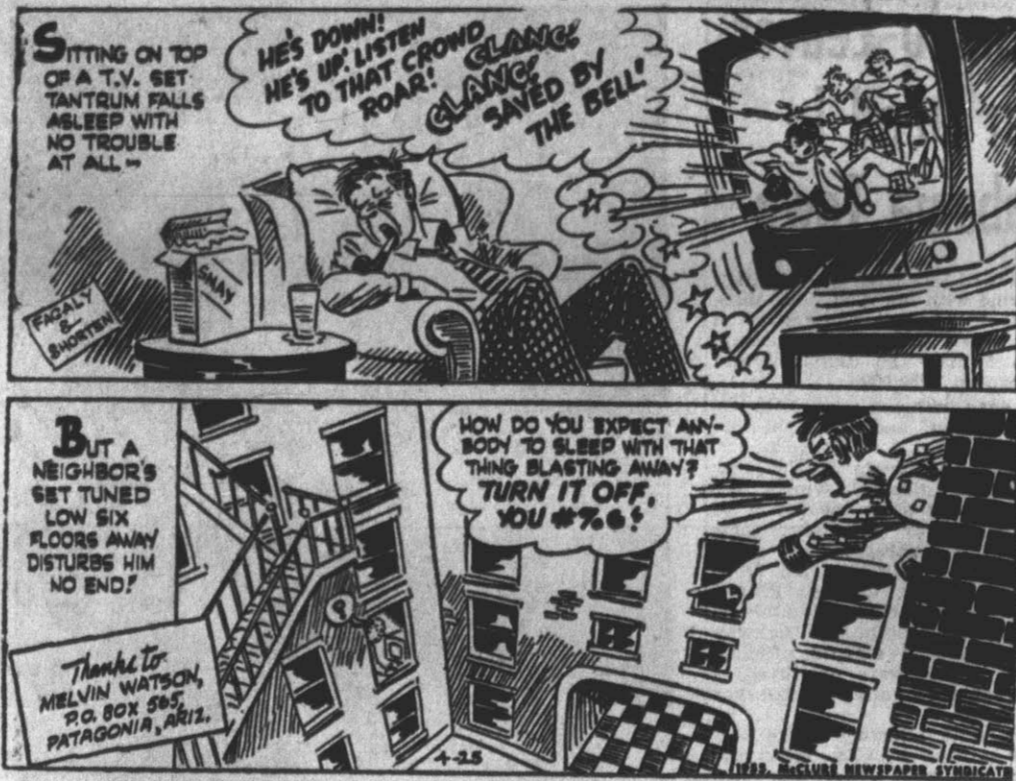

"Sounds nice."

"All right. See you Sunday."

"Merry-o was bouncing up and down. 'I feel gay as a doorbell! Hurry Landon!'"

Landon dug the car keys from her purse. "Let's go, then, Pump-

kin."

In a flash the brightness left Merry-o's face. "Don't," she said furiously. She planted her feet apart and clenched her fists. "Don't you call me that. Don't you ever! It's Mommy's name for me."

Landon lost her breath and recovered it in a gasp. "It's Daddy's name for you, too, isn't it?"

"It was Mommy's first. She made it up for me. It's special." She met Landon's eyes accusingly. "No one can take my Mommy's place," she said clearly. "No one. With me or daddy."

There was a fresh snowfall on Sunday, and Scott came early. "Let's go for a walk before dinner," he said. "If you like fresh snow?"

"Mmmmm-hmmm."

She put on her gray squirrel jacket and Scott helped her into her snow-boots.

Laughing, they went out into the pale light of late afternoon. The roofs were white, the shrubs and trees heavy with silver. New snow softened everything, angles, foot-falls, voices.

"You look nice with snow in your hair," said Scott. "You look..." he said lamely—"nice." He grinned. "I'd get about a minus zero in an Activity Vector Analysis if that's the best I can do with an adjective!"

"Activity what?"

"It's one of our 10-minute personality defining tests—you select adjectives from a list."

"Nice is fine," she told him happily.

She liked Scott Wylie, everything about him, his looks, his brains... though sometimes she wondered if he were applying some

Their faces were tingling with cold when they went back to Scott's car and drove out the highway to the Cobblestone Inn, a once state-privately residence withurrets and gables.

The waiter gave them a table near the fireplace. After their order was taken, Scott said, "I am going out of town tomorrow."

"Oh?"

"To deliver some sedatives for a few industrial management headaches," he said.

"What about personal headaches—have you cure-alls for those, too?"

He slanted her a quizzical look. "Try me."

She stared down at her hands. Scott was too perceptive. If she talked about her problem with Merry-o, none of its undeniable inferences would escape him. I'll contend with it myself, she thought. She looked up with a smile and shook her head.

Their dinner came—broiled steaks rolls, a green salad, coffee.

Scott tackled his steak. "I'll be gone three weeks," he said. "Will you miss me?"

"Um-hmmmm."

"That's pretty vague and meaningless," he said.

"I'll miss you terribly, darling," she said, making it throaty and deep.

They laughed.

"Serves me right," Scott said. "Asking for something you are not ready to give."

"Scott, I—"

"Eat your dinner," he said.

Firelogs chunked in the grate and snow bumped softly on the windowpanes. Scott said presently, "You are pretty busy these days. Taking Maggie's place. Living Maggie's life."

"Why, yes."

"Just remember that you are

Landon McCrae," he said. "With a life of your own to live."

A slow flush rose to her cheeks. "Will you remember that, Landon?"

"Yes," she whispered. "Yes, I will."

But her thoughts were turning back and about. What Scott said was true. Maggie's life did not leave her much time for her own. Maggie's home, Maggie's daughter Maggie's husband. Aside from tonight, how many invitations had come her way, recently, that did not also include Eric? People said on the telephone, "Bridge, tomorrow, you and Eric?" or "Sunday dinner, Landon—you and Eric?" Casually inclusive. You and Eric.

Not by a word or look did anyone hint at anything but naturalness in the easy coupling of their names. Everyone accepted Landon in Maggie's place with matter-of-fact friendliness. And now Scott had made her feel—what? She lifted her eyes heavily, driven by a compulsion to make everything clear to him.

Her lips trembled with self-consciousness. "I—I have been going out a lot lately, with Eric," she said.

"Yes," Scott said. "I know."

The slow flush rose again. Words that would not be misconstrued were not easy to find. "Before Maggie went to Brock I promised her that I would do everything I could to help Eric. Mostly, she wanted me to keep him from being lonely. But there was nothing that I could do. Then people started asking us out together. I think it began with Judith, or Laurie. Then everyone. O'f's, whether I wanted to go out with Eric or not I felt there was no choice, without breaking my word to Maggie."

She went hot and a little ashamed, using the promise as an

anodyne for her obscure sense of guilt.

Again she made the small gesture, defensively. "If it were not me, it would be someone else, Scott! Eric likes people, needs them... and he can't play bridge alone. Hostesses would pair him off with someone... and Maggie'd rather it were me than—than some other woman."

"Are you trying to reassure me, Landon—or justify yourself?"

## There are two sides to every Question!

### Take the question of prohibition vs. "legal control".

Quoting from a recent Open Forum letter in a North Carolina daily newspaper, "Alcohol is the underlying cause of most divorces." This charge is made as an argument in favor of prohibition.

### Do the facts back up this argument?

One fact available to anyone is published in the World Almanac for 1955... The states having the highest beer consumption and the states having the lowest beer consumption have almost identically the same per capita divorce rate.

Another fact shows the per capita divorce rate of the country, has risen steadily for over the past 60 years while the per capita consumption of alcohol has decreased during the same period.

These facts show there is another side to this question. Would prohibition solve, or even help to solve, the divorce problem? There is no factual evidence that it would affect it one way or another. The divorce rate increased during the years of our great prohibition experiment at the same rate as before and since.

No one would claim that "legal control" offers a solution to the divorce problem either, or that it affects the problem one way or another. What we say is that "legal control" is a better system than prohibition because "legal control" can be made to work and prohibition cannot.

Editors, Educators, Ministers and citizens throughout North Carolina are invited to write to this address for a FREE copy of the 72-page booklet, "North Carolina Tax Facts," a six-year study of state and municipal finances, plus pertinent information about the malt beverage industry.

### Stock And Market Reports

NEW YORK (AP)—The stock market dipped today and then recovered its balance as margin requirements were hiked to 70 per cent.

The decline at the outside came to 1 and 3 points, but extreme losses gradually faded with many leading issues posting sizable plus signs. On balance, the market was lower.

First hour volume was heavy as the rush to sell gathered speed right after the opening. However, the pace slackened as prices staged a comeback.

This is the second time this year that the Federal Reserve has required purchasers of stock to increase the minimum amount of their own money going into a deal. On Jan. 4 margins were increased to 50 per cent from 30 per cent, and Friday after the close margins again were raised to 70 per cent. That means customers now can borrow a maximum of 30 per cent if they want to buy on margin.

The move was regarded in Wall Street as another warning against speculation in stocks on margin because of the recently expanded amount of money going into such on-the-cuff trading.

### Hurrying Home To Learn News

BRUNSWICK, Ga. (AP)—A Marine jet pilot who was rescued after his plane plunged into the Atlantic Ocean was anxious to get home today to see if he has become a father.

Lt. Winston O. Goller, 34, of Los Angeles, was picked up by a helicopter from the Glynn Naval Air Station yesterday after two hours on a life raft.

He suffered only a head laceration and bruises, but was held overnight at the Glynn Dispensary for treatment.

Goller, a former University of Southern California football player, said he wanted to get to his wife's bedside at Havelock, N.C., before their first baby is born.

The pilot was returning from Puerto Rico to his home station at Cherry Point, N.C., after a stop-over at Miami, Fla., when trouble developed in his F7J Fury jet, Marine equivalent to a Sabrejet.

Goller said he was flying at 36,000 feet about 35 miles east of Brunswick when his plane went into a dive. He ejected himself at 20,000 feet. Other planes in the unit flew overhead until relief aircraft arrived at the scene.

The pilot declined to state the cause of the plane failure. The son of Mr. and Mrs. G. C. Goller of Belleville, Tex., added he still thinks flying is wonderful "even after getting out by an eyelash."

No true ally is a native of Great Britain.

### Voice Confidence In Handling Of Formosa Crisis

NEW YORK (AP)—A number of the nation's leading publishers interviewed here yesterday say they have faith in President Eisenhower's handling of the Formosa crisis.

The publishers also said they believe the United States should not become involved in a war over the offshore islands of Quemoy and Matsu. Some publishers, however, advised a "tough stand" on the issue.

A majority of the publishers said they favor talks with the Chinese Communists on the Far Eastern crisis but advised caution.

The publishers were interviewed by the New York Times and the New York Herald Tribune as they arrived for Newspaper Week, which opens today.

Most of the publishers reported a continuing popularity of President Eisenhower in their respective areas and a healthy economic picture.

Most of the publishers interviewed on the issue felt that former President Truman's remark that the press had given the Eisenhower administration a "cloak of protection" was without basis.

On the Formosa crisis, some of the publishers offered these views: Palmer Hoyt, publisher of the Denver Post—We take a dim view of any cavalier defense of Quemoy and Matsu. There is considerable wonderment about them. We wonder how important they are, but trust in Ike's judgment.

William Block, publisher of the Pittsburgh Post-Gazette—My personal opinion is that Quemoy and Matsu are not strategic to either Formosa or the United States. The only reason for defending them is to keep the free world from falling back.

George's speech, suggesting that we sit down and talk with our allies and then with Chou. But we ought to get concessions on the American prisoners in China before we talk.

Norman Chandler, president of the Los Angeles Times, said it was "sound and proper" to talk with the Chinese Communists.

George T. Cameron, publisher of the San Francisco Chronicle, said he is in favor of a conference with the Red Chinese but added he personally does not think it would "get anywhere."

John S. Knight, president of the Knight Newspapers that include newspapers in Akron, Miami, Detroit, Chicago and Charlotte, N.C., said he doubts that a war will break out in the Far East.

"I think the President is handling the situation with great wisdom. I don't agree with those who say he ought to define what he is going to do sharply for every one to know, because on certain delicate situations you have to play a little bit by ear," he said.

### New Deadline On Crop Insurance

The closing date for filing applications for federal all-risk crop insurance has been extended to May 5, it was announced today.

Usual date for closing is April 25. The extension has been granted in view of recent freezing weather which did heavy damages to crops.

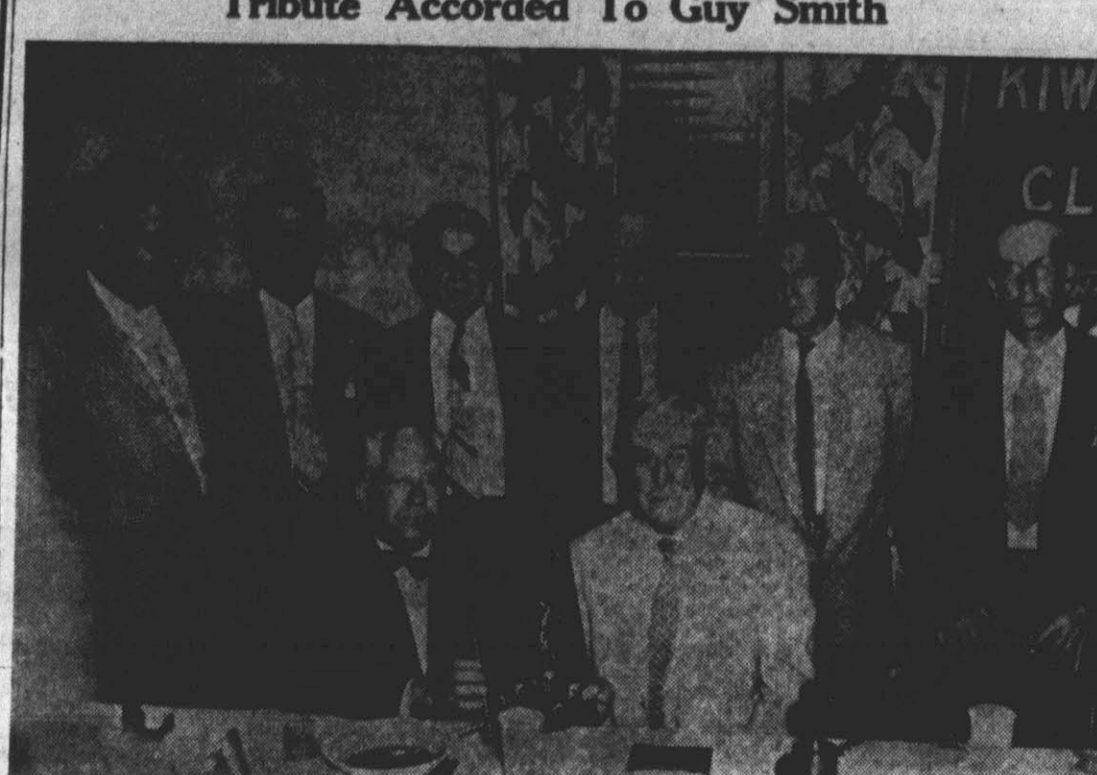

Persons interested in applying for this insurance may contact Federal Crop Insurance clerk Mildred Adams at the farm offices here or telephone 6752.

### Apparent Victim Of Heart Attack

A 47-year-old Negro woman collapsed and died about 6 a.m. today, apparently the victim of a heart attack.

Dead is Mahale Corney, who lived on the Carl Gay farm, Route 2, Farmville. Her husband said she got up to take a dip of snuff, collapsed on the floor and died immediately. Coroner Griffin Rouse said that no inquest would be held.

### Two Speeding Cases Heard In Superior Court

Two speeding cases were disposed of in Pitt Superior Court this morning as the second week of the two-week criminal term got underway.

Cecil V. Cherry entered a plea of guilty to speeding charges and was fined \$25 and costs by Judge Walter J. Bone.

Leroy Cherry was found not guilty of speeding charges.

At noon today the Grand Jury made its report to the court saying it had acted on the bills which had been presented it, and had heard from the sheriff an explanation of the way the county jail would be operated under the recent legislation which restored control of the county jail to the sheriff's department.

Saturday's Reflector incorrectly listed Josh L. Hazelton, of Winterville, as being charged with motor vehicle larceny in Superior Court here this week.

The charge against Hazelton should have read, "motor vehicle laws" instead of larceny. Hazelton is charged with "allowing a person to operate a motor vehicle while under the influence of intoxicating beverage or narcotic drug." The Reflector regrets the error.

### Curb On Pickets Extended In N.C.

ASHEVILLE (AP)—A restraining order limiting the number of pickets and activities of strikers against the Southern Bell Telephone Co. has been extended to include 24 North Carolina counties where the company has plants and offices.

The restraining order issued April 11 was made permanent here Saturday by Superior Court Judge Lee Whitmore.

George Fennell, counsel for the striking Communications Workers of America (CIO), said the order will be appealed to the State Supreme Court.

The order limits the number of pickets at any one time at any Bell installation at 10 and sets definite limits to their activities.

Fennell said the union contended that the order infringed on the rights of labor and that the union contended that the Buncombe County Superior Court does not have jurisdiction to issue restraining orders effecting residents of counties in other sections of the state.

Granger Pierce of Raleigh, Bell counsel, said the company fully realized the right of unions to strike and picket and did not seek in any way to restrict them in their lawful and orderly picketing. The original restraining order covered 14 counties. This was extended to include all counties where Southern Bell employees are on strike.

They are: Buncombe, New Hanover, Richmond, Durham, Guilford, Forsyth, Wake, Gaston, Rowan, Alamance, Burke, Caldwell, Catawba, Cleveland, Haywood, Henderson, Iredell, Lincoln, Mecklenburg, Rockingham, Scotland and Wayne.

### Doctor Reports Death Not Due To Foul Play

An autopsy performed yesterday afternoon by Dr. Howard H. Crandis on the body of an Ayden Negro who died early Saturday night revealed that death was not due to foul play.

Robert E. Brown, 38, who was a tenant on the Herman McLawhorn farm, five miles southwest of Ayden, was found unconscious in a parked car north of Ayden about 6 p.m. Saturday. His brother, Richard Brown, who found him, took him home, put him to bed and called a physician.

By the time the doctor arrived however, Brown had died without regaining consciousness. Coroner Griffin Rouse said this morning that no inquest would be held.

The maintenance of enduring peace. Moved by the same desire, the three foreign ministers will meet in Paris May 8 in order to discuss concrete plans for holding a four-power conference with the Soviet government.

"In accordance with usual practice they will also discuss this question with the chancellor of the German Federal Republic and ministers of other NATO governments. Experts designated by the three governments will meet in London April 27 to make a preliminary study of these problems in preparation for the ministers' discussions."

"The three governments earnestly hope that a four-power conference can meet as soon as possible."

### Ports Authority Keeps Offices In Wilmington

CHARLOTTE (AP)—The permanent headquarters of the State Ports Authority will remain at Wilmington despite protests from a group of Morehead City citizens who sought to have it moved.

The SPA in a day-long meeting here Saturday came to the decision, issuing a statement which read, "We have no interest in the so-called jealousy that apparently is being engendered by certain parties between the ports of Morehead City and Wilmington."

The Morehead City delegation, headed by Rep. D. G. Bell, had appeared before the SPA asking the headquarters be moved from Wilmington to Raleigh. Other cities had bid for the permanent headquarters.

The statement continued: "Our sole interest is to help both ports and the best interest of the state, and we feel that we have been doing this and are doing it today."

The statement, drafted by member Harvey W. Moore of Charlotte, said the SPA felt that the headquarters should be at one of the two main ports.

Col. Wade S. Marr, executive secretary of the SPA, reported that the two major ports moved more tonnage in the first three months of 1955 than the first six months of 1954.

Rep. Bell had said that Morehead City had not received the solicitation in the tobacco area that Wilmington has received in the textile area of North Carolina. "There has not been enough effort made to support Morehead as a tobacco port," Bell declared.

The SPA statement said, "We consider ourselves to be representing the state of North Carolina as a whole and not simply the coastal counties, or particularly the Carteret and New Hanover counties. While it is true that these counties are paying their proportion of the tax load of the bond issue for the SPA, nevertheless the Western and Midwestern counties are paying possibly even a greater proportion. It is incumbent upon us to operate the ports for the benefit of all, rather than either Morehead City or Wilmington."

### No One Injured In Two Accidents During Weekend

A pair of city accidents over the weekend did limited property damage to vehicles involved but all persons escaped injury.

On Friday, vehicles operated by Raymond Lee Daniels, colored, 22, of 1112-A Clark St. and Johnnie Elmo Wilson, 28, collided near the intersection of Washington and 14th Streets. A parked car owned by Paul James Donaldson, colored, 37, was also involved. Damage was estimated at \$300 and Daniels was arrested for operating to the left of the center line.

Shortly before 7:00 last night a collision at 14th and Charles Sts. did some \$70 damage to cars operated by William Keith Dean, 19, of Camp Lejeune and Boley Farley, 47, of 1706 E. 6th St. No arrests were made.

Air densities at 79,000 feet are only 4 per cent of those found at sea level.

### Colored News

The Senior Choir of Selvia Chapel will meet Tuesday at 7:30 p.m. at the church for rehearsal.

The Pitt County Federation of Negro 4-H Clubs will be held at the courthouse in Greenville tonight at 7:30. Assistant Farm Agents Miss Julia E. Evans and Talmadge T. Mitchell will direct the program. Club members, friends and parents are invited to attend.
