Road Temporarily Closed By Washout

Washouts have been a big problem to the highway department since Hurricane Ione hit the Eastern Carolina section. The old Stantonsburg road between Greenville and Farmville was closed after the road way leading to the above bridge washed away. Highway crews have been busy since the storm striking the damaged road ways. (Reflector Photo by Alvin Taylor)

Plans Conferring With Local Officials On Needed Help

Hodges Tours Storm Area

NEW BERN, N.C. (AP)—Gov. Hodges flew to this hurricane-devastated city today. It was the first stop on a flight to survey damage caused Monday by Hurricane Ione.

At New Bern, the governor saw results of pounding by wind, rain and record high tides which caused damage estimated at upwards of 12 million dollars.

The governor's itinerary also called for stops at Washington, Manteo and Elizabeth City. He planned to confer with local officials on rehabilitation measures.

Meanwhile, the death toll attributed to the storm rose to six while estimates of the damage rose to as high as 160 million dollars. Added to the death toll was the name of Dean Bundshub, Camp Lejeune Marine who drove off a washed out bridge at Jacksonville.

The damage estimate was made by Brig. Gen. Edward F. Griffin, state director of Civil Defense who said that heavy crop damage—estimated at 75 to 100 million dollars—will cause the destruction wrought by Ione to surpass the 120 million dollar damage caused by Hurricane Hazel last October.

Weather at the Raleigh-Durham airport—low ceiling and visibility—delayed the governor's departure by two hours. His plane took off shortly after 10:30 a.m.

Meanwhile, the governor sent a telegram to President Eisenhower yesterday asking that he make available immediately at least two million dollars for disaster relief in this state.

The governor requested at least one million for municipally-owned projects damaged by the storm and at least one million for aid to hurricane-hit farmers "who have lost present crops and in many instances are ruined for next year's crops because of salt water damage to farmlands."

Hodges told the President that "damages to crops in eastern North Carolina will amount to between 75 million and 100 million dollars and are far worse than previous hurricane damage. One town alone had five to 10 feet of water in streets and its damage was over 12 million dollars." He referred to New Bern.

Gen. Griffin said the terrific damage inflicted by Ione may be as high as 160 million dollars. Hurricane Hazel's devastating blow last October caused damages totaling 120 1/2 million.

Hazel came, Griffin explained, when virtually all crops had been harvested.

Bridge Washed Out By Hurricane's Waves

Approaches to this bridge at New Bern, N. C., were battered to pieces by high waves whipped by hurricane Ione. Numerous motor vehicles were marooned in the vicinity of the bridge. Four persons were killed by the hurricane in the New Bern-Morehead City area and property damage ran into the millions of dollars. (AP Wirephoto)

It will take several weeks to "really size up the picture" of actual damage Griffin stated. He said private and public property damage would total possibly 85 million. He based the 160 million figure on 85 million private and public property damage and 75 million crop damage.

Meanwhile, it was pointed out that federal loans are available to persons who suffered losses from the storm. These include: (1) Long term low interest loans from the Small Business Administration

which plans to open an emergency office in New Bern to handle applications from businesses and individuals; (2) Long term loans by the Housing and Home Finance Agency to those whose homes were damaged or destroyed; and (3) Disaster-type loans to farmers by the Farmers Home Administration.

Chief Highway Engineer W. H. Rogers Jr. said Ione caused more damage to North Carolina roads than any previous hurricane. Preliminary reports, he stated, indicate it will cost over \$600,000 to repair the damage.

Regional Conference Here Draws Large Group Education Needs Reviewed

By JAMES W. BUTLER

ECU News Bureau With an attendance of more than 100 persons, the first of six regional conferences in North Carolina on Education, in cooperation with the National White House Conference on Education, was held here on the campus of East Carolina College Wednesday afternoon.

Dr. Charles F. Carroll, state superintendent of public instruction, and chairman of the North Carolina Conference, presiding over the meeting, expressed the hope that the experiences of the three-and-a-half hour session might be duplicated hundreds of times in the state in meetings of a similar nature on the local level.

The educators and lay people in attendance, including Eastern North Carolina members of the state's General Assembly, were welcomed to the campus by President John D. Messick of East Carolina College. Assisting in the regional conference was Dr. Leo W. Jenkins, dean of the college.

Members of the State Committee on the White House Conference present included Mrs. B. B. Everett, Falmira; Senator Carl T. Hicks, chairman of the Senate Education Committee, Walstonburg; Representative Gordon Maddrey, chairman of the House Committee on Education, Ashok; J. E. Miller, assistant superintendent of public instruction, Raleigh; and Ray Wilkinson, chairman of the Education Committee of the North Carolina Junior Chamber of Commerce, Ros-

ky Mount.

In addition, there were 54 consultants and specialists from the state department of public instruction and the state's educational institutions of higher learning. Thirty county and city school units were represented, also, by superintendents, principals, committeemen, and civic and community organizations, including persons from all walks of life. In two general sessions and six sectional meetings they gave a "grass-roots" approach to the problems of education in the 20th century.

Members of the General Assembly in attendance were Representatives Walter Jones of Pitt, A. C. Edwards of Greene, Frank Pittman of Halifax, and Frank Everett of Martin.

The success of this series of regional meetings and the follow-through will depend upon the degree and quality of interest of laymen. Dr. Carroll emphasized in summarizing the general session. He predicted that the conference will provide motivation and activation for the promotion and improvement of public education, and private education, as well in North Carolina for the years ahead.

Every single school district should hold a "Little White House" Conference of its own as a means of obtaining a continuing public interest in education, declared the report from the section studying the public's interest in local schools.

In answering the question, "What Should Our Schools Accomplish?"

one group gave as its impressions these answers: Public kindergartens should be provided for all children; vocational and personal guidance through qualified personnel; the schools are responsible for the mastery of the "Three R's," as well as helping each child to develop his maximum potentiality, including the handicapped, the slow and the gifted, and implies the provision of special teachers when they are needed; the home, the church, and the school all have a responsibility for developing citizenship skills and attitudes; and adult education is a "responsibility of the public schools.

Better organization, economically and efficiently of the school system can best be effected by attention to the problems of consolidation, but no basic principle was enunciated by this group. There was the view that too many small schools are expensive to administer, from financial service and instructional angles, but how and where to limit consolidation was still a question unanswered.

In the discussion of school building needs, the opinion prevailed that needs exist for consolidation of inadequate school buildings, but the difference as to optimum consolidation was raised again in the discussion. Also, predominant in the discussion was the matter of costs and whether economy in buildings on a low-cost basis now might be an expensive procedure in planning

since they had sold part of their crop, the report continued, they were required to pay a penalty on all excess acreage and were issued a red penalty card which means they cannot receive price supports on any of their tobacco.

B. J. Edwards paid a penalty of nine cents per pound on 19,984 pounds which he had already sold and R. L. Edwards paid 42 cents per pound on 12,150 pounds. B. J. Edwards' total penalty came to \$1,798.56 and his brother's to \$510.30.

Both will be required to pay penalties per pound at the same rate on any other tobacco they market.

In addition, Public Law 21, passed recently by Congress, provides that any producer filing a false acreage report will have his allotment cut for the following year.

Both will be required to pay penalties per pound at the same rate on any other tobacco they market.

Brothers Penalized By ASC

By BOB HILLDRUP

Reflector Staff Writer Two Pitt County farmers, brothers and residents of the Black Jack community, have been required to pay a penalty on surplus tobacco marketed in excess of their allotment.

A summary of the minutes of a County Committee meeting released yesterday by James Meredith of the local Agricultural Stabilization Committee, disclosed that a routine check brought out that B. J. Edwards and his brother, R. L. Edwards, had planted harvested and marketed tobacco in excess of their legal allotment.

B. J. Edwards, the minutes said, planted five additional fields of tobacco that had not been measured. This tobacco totaled 13.69 acres. His brother, R. L. Edwards, who lives on a nearby farm, was reported by Meredith to have had two additional fields totaling 3.23 acres.

The two were called before the County Committee consisting of J. L. Wilson, chairman; G. C. Scott, vice-chairman, and Rufus Hardee, regular member. Both stated they did not know that the tobacco had not been measured as required nor did they realize that they had overplanted.

Since they had sold part of their crop, the report continued, they were required to pay a penalty on all excess acreage and were issued a red penalty card which means they cannot receive price supports on any of their tobacco.

B. J. Edwards paid a penalty of nine cents per pound on 19,984 pounds which he had already sold and R. L. Edwards paid 42 cents per pound on 12,150 pounds. B. J. Edwards' total penalty came to \$1,798.56 and his brother's to \$510.30.

Sec. Dulles Tells U N Assembly That World Appears Entering Peace Era

UNITED NATIONS, N. Y. (AP)—Secretary of State John Foster Dulles today declared the world may be entering a decade of peaceful change which will spell the end of the cold war.

In a general policy statement before the U. N. General Assembly he stated that the international atmosphere had improved since the 1954 assembly session and that there was a good chance for constructive decisions during the coming months.

He expressed the belief that the situation was ripe for a solution of the German unification problem and that European security was now better than at any time in history.

The situation in the Far East, he said, also was following a "favorable trend"—thanks to the efforts of the U. N. and other governments and individuals to settle differences between Red China and the United States.

"The will of the world community may have operated to avert another war, the scope of which could not surely be limited," Dulles said.

He appealed to the Assembly to endorse President Eisenhower's proposal for an exchange of military blueprints between the United States and Russia and for aerial inspection on a mutual basis.

This, he said, would provide a basis for a solid advance toward the goal of world arms reduction.

Dulles spoke of the ten years of cold war conflict in which the world was beset by limited wars, subversion, arms races and inflexible attitudes.

"That phase may now be ending," he said.

"I believe that all four of the needs of government, who were at Geneva, wanted that result and that each contributed to it. In consequence, a new spirit does indeed prevail, with greater flexibility and less brittleness in international relations."

He declined to say which country had gained most at Geneva, but declared that if the improved atmosphere is to be permanent all must gain.

"The summit meeting, if it is to be historic, rather than episodic," he said, "must usher in an era of peaceful change."

He said this era should be one in which governments would renounce the use of war and subversion, accept orderly evolution toward their goals and develop friendly economic intercourse among themselves.

"Let us strive together," he said, "that the next decade shall be known as the healing decade of true peace."

United Nations Dulles said 45-47 which make lead U.N. Ta33 x x x peace.

On specific issues, Dulles said:

U.N. Membership: It is a "grave wrong" to keep nations out of the world organization by use of the veto. Action should be taken now to admit all "peace-loving" applicants.

Charter Review: "The United States believes that this session should approve, in principle, the convening of a charter review conference and establish a preparatory commission to prepare and submit recommendations relating to the date, place, organization and procedures of the general review conference."

European Security: The Paris and London treaties on a rearmament sovereign Germany have created "an effective system of limitation, control and integration of armed forces the like of which the world has never seen before. Never before have collective security and individual self-restraint been so resourcefully and so widely combined."

Soviet Satellite and International Communism: "If the spirit of Geneva is genuine and spontaneous if it is to be permanent and not fleeting, it will lead to liquidating abnormal extensions of national power, which crush the spirit of national independence, and to the ending of political offensives aimed at subverting free governments."

Austria: "It should be noted that the Austrian state treaty bearing the Soviet Union's signature, contemplates support for Austria's admission to the United Nations."

German Reunification: "The present opportunity is so unusual and so full of constructive possibilities that it can be hoped that the forthcoming four-power foreign ministers' meeting will find a solid basis for the reunification of Germany within a framework of European security."

Some 20 trucks will make the rounds of the city during the evening as members of the local club sell the more than 400 racks from door to door.

Each of the racks, which have been approved by the County Health Department, will be sold for \$2.50. Members of the club, under the direction of C. E. Williams and Ford McGowan, built the racks. Space for the work was donated by Williams at his plumbing and heating shop on Boyd Ave.

W. M. Scales Jr., who is in charge of tonight's selling campaign, urged local citizens to purchase the racks when they are contacted by Jaycees. He pointed out that approximately 400 man hours have gone into the construction of the devices.

Each of the racks has been dipped in a copper naphthenate solution which preserves the wood.

They were built to specifications approved by the United States Public Health Service.

Dr. Walter C. Humbert, county health officer, pointed out that the devices will prevent dogs and other stray animals from knocking over garbage cans and spilling garbage on the ground.

They will also preserve the life of the cans by preventing rusting of the bottoms.

In addition, the health officer stated, the racks will act as a pest control measure by preventing insects and vermin from breeding beneath the cans.

"I certainly recommend these racks for garbage cans," Dr. Humbert has said. "It's a small investment that will pay off in big returns by helping to make a very sanitary city."

Scales said that if all the racks are sold tonight more will be constructed by the Jaycees and sold at a later date.

If the entire city is not covered tonight the sale will be continued tomorrow night beginning at 8 p.m.

Installation Tomorrow As Argentine Chief Lonardi Makes Unity Call

BUENOS AIRES (AP)—Maj. Gen. Eduardo Lonardi's new Argentine government appealed today for the rebuilding of the "revolted nation" through "peace and work . . . in the pious light of forgetfulness."

Lonardi, 59-year-old commander of the revolt which toppled Juan Peron after a decade of dictatorship, was scheduled to fly to Buenos Aires from his native Cordoba tomorrow to be installed formally as provisional president.

The installation originally had been set for today but an official announcement said "joyful celebrations" in Cordoba delayed Lonardi's departure.

The appeal for peace came from Cordoba's radio "Voice of Liberty," which said "It is better not to talk of the past as our slogan is 'There are neither victors nor defeated.'"

Referring to ousted President Juan D. Peron, the broadcast lashed out at the "insane egotism of a man who did not control his ambition, and tried to throw down what was dearest to the Argentine people."

The radio said the revolution was born in Cordoba, provincial capital 400 miles northwest of Buenos Aires, to defend the constitution, the freedom of men, the freedom of the press and the freedom of worship.

The peace agreement concluded yesterday provided for Lonardi and other rebel leaders to take over the junta reached with Peron's generals which took control of the central government after Peron's resignation.

Peron was reported to be still aboard the Paraguayan gunboat in Buenos Aires harbor where he found refuge Tuesday. The new government did not indicate whether it would persist in previous rebel demands that he be surrendered or let him escape into exile.

The announcement that a peace agreement had been reached said the junta "has reached a complete accord with the command of the opposition and has accepted the points stipulated by its representatives. There was no mention of Peron's fate.

A reporter Peron "talks and even jokes" with us, but he never says anything about the situation—except about not wanting anything more to do with it."

The postmortem of Lonardi's former installation as president did not delay the work of setting up the new government. Brig. Gen. Leon Benzoa, one of the leaders in the uprising, was named federal police chief and reports said he already had assumed his new duties.

Benzoa was arrested after the unsuccessful June 16 rebellion and released a few days ago when the anti-Peron forces finally emerged as winners.

The political turnover also brought the release of other Peron foes from jail.

The two missionaries were the only American passengers on the daily train from the Communist city of Canton. Both had been in Red prisons since they were arrested separately on sabotage charges in 1951. AP Wirephoto via radio from Hong Kong.

Made Joint Raid On Bootleg Still

There must be some mighty unhappy bootleggers in these parts today.

Last night Pitt County ABC officers in the company of ATU agents from New Bern came upon a complete bootlegging setup in the Ward's Bridge area near Tranter's Creek.

Discovered by the officers there were an upright boiler, 28 bags of coke, six 20-gallon fermenters and 38 cases of glass jars. The equipment was stored in the woods and apparently ready to be set up.

The officers, J. M. Ward, H. B. Lilley and Walter Taylor, of Pitt County and Charlie Smith and Ben

Wills from New Bern lay in wait until about 4 a.m. today in the hopes that the owner or owners might show up. When no one did, law enforcers went to work with dynamite and the material was destroyed.

Then on the way back to Greenville, the officers came upon a ton and a half truck parked about a half mile east of Pactious on NC 30.

In the truck were 2500 pounds of sugar, 41 cases of jars and 300 pounds of hog feed, idea material for the production of illicit spirits.

The truck and its contents were seized by the ATU men.

Hurricane 'Janet' Now Forming In S. Atlantic

MIAMI, Fla. (AP)—The Weather Bureau at San Juan, P.R., issued this advisory on tropical storm Janet at 5 a.m. (EST) today.

The storm was about 250 miles east-southeast of Port de France, Martinique, in the French West Indies at 5 a.m. EST. That put it roughly 1,700 miles southeast of Miami.

It was moving in a northwesterly direction at about 15 mph and was expected to continue at that pace throughout the morning, with a slow increase in intensity.

The storm's strongest winds ranged up to 70 miles an hour near the center, and gale winds

spread outward 100 miles to the north and 50 to 75 miles to the south.

The Weather Bureau at San Juan, P.R., spotted Janet last night about 350 miles east-southeast of the French West Indies, but no reports had been received from the vicinity of the disturbance early today.

"Janet has a well-developed eye and it looks like we've got another hurricane on our hands," said Walter Davis, forecaster in the Miami Weather Bureau.

A Navy hurricane-hunting plane set out at dawn to track down the storm.

Greenville Jaycees Hope To Distribute 400 Racks In City-Wide Campaign

Sale of garbage can racks by members of the local Junior Chamber of Commerce will begin tonight at 8 o'clock.

Some 20 trucks will make the rounds of the city during the evening as members of the local club sell the more than 400 racks from door to door.

Each of the racks, which have been approved by the County Health Department, will be sold for \$2.50. Members of the club, under the direction of C. E. Williams and Ford McGowan, built the racks. Space for the work was donated by Williams at his plumbing and heating shop on Boyd Ave.

### Social and Personal

All items for this page received after 10 a. m. will be published the following day. Dial 6166—9 a. m. to noon; 1 to 4:30 p. m.

Bob Watson, who is doing graduate work at the University of Illinois, Urbana, Ill., has been accepted as a member of the University of Illinois Concert Band and will play with them during the 1955-56 season.

**Alumni Chapter Meets**  
The Greenville-Pitt County E.C.C. Alumni Chapter will meet Thursday night at 8 o'clock in the Alumni House at the college.

Melvin and Milton Worthington, Facetui Acres, R. 2 Ayden twin one of Mr. and Mrs. Wilbur L. Worthington, left Kingston by plane Wednesday morning for Wilmore, Ky. where they will be freshmen at A-bury College this fall.

**Ham Supper**  
A ham supper, sponsored by the Winterville P.T.A., will be held in the school lunchroom Friday, Sept. 23, from 6 to 8 o'clock. Tickets for children under 12 years 75 cents, adults \$1.25. All persons planning to attend are requested to purchase their tickets early to help determine the number of plates to be prepared, but they may also be purchased at the door.

Miss Velma Planders of Ayden and Miss Barbara Williams of Greenville have returned from a sightseeing trip to New York City. Friends will regret to learn that Mrs. Betsy Godwin is back in Pitt Memorial Hospital, Room 110.

### English Club Gives Eliot Drama Reading

Miss Joy Perkins of Stokes left Sunday for Salem College to begin her freshman year. She was accompanied by her parents, Mr. and Mrs. Jerome Perkins, and sisters, Jewell and Marsha Perkins.

Members of the English Club at East Carolina College presented selected dialog and choruses from T. S. Eliot's "Murder in the Cathedral" at the weekly chapel program presented Tuesday in the Austin auditorium.

**Chicod Alumni**  
The Chicod Alumni will meet Friday, Sept. 23, at 8 o'clock at Chicod High School. Graduates and past high school teachers of Chicod are invited to attend.

The program was arranged under the supervision of Dr. James D. Allison, faculty advisor of the club. Special music during the chapel service was provided by Russell Messer of Tarboro, student of music at the college.

Orly a mackerel will stay on the pavement when meeting a passing car in his lane.

Five women students formed a choir speaking group and read in unison portions of the Eliot drama.

## N. C. President Talks To Women's Clubs

"Your self-discipline, understanding and faith will make you the light of the world." Mrs. Edwin P. Brown, president of the North Carolina Federation of Women's Clubs, declared at a joint dinner meeting of the local Woman's and Junior Woman's Clubs here last night.

Mrs. Brown, who is from Murfreesboro, spoke to a large group of members from both clubs. She emphasized punctuality, daily Bible reading and prayer, and placing the home and church first in life as she discussed self-discipline.

Speaking of understanding, Mrs. Brown said, "If we cannot understand our own families and homes and their problems, it is impossible to understand the problems of the world about us. She pointed out that one of the greatest deficiencies of Americans is their failure to realize that citizens of their nations and their leaders 'as we are.'"

**Faith Is Necessary**  
"We must have faith in three things," the president declared, "in order to live to the fullest as women. These three things are faith in ourselves, faith in our organization and faith in God." She said the club members must have faith in the state federation as well as in the national organization of Women's Clubs. "For there are many facets of our daily living today that were started by the Federated Women's Clubs."

Mrs. Edwin P. Brown (center) president of the North Carolina Federation of Women's Clubs, discusses the Woman's Club Year Book with that group's president, Mrs. Clara Moye Shackell (left), and Mrs. Thomas Vicars, Junior Woman's Club president. Mrs. Brown spoke at a joint dinner meeting of the two local groups last night at the Woman's Club.

In closing, she emphasized the changing pattern of the world today and the challenge now facing women's clubs to keep up with this changing civilization. "If we accept this challenge," she asserted, "we

will truly be lights in the world." Preceding her talk, Mrs. Brown made several announcements concerning the year's work in the State Federation. Her remarks included the presentation of the Year Book discussion of the State Convention to be held in Durham April 24-26, Southeastern Council meeting in Charleston, S. C., and the sponsoring of a candidate by the North

Carolina Federation for treasurer of the General Federation. This candidate is Mrs. E. A. Anderson of West Jefferson. Mrs. Brown also spoke of the Community Achievement Contest of which Mrs. G. E. Gardner is chairman, and "Know Your America Week" November 20-26.

Mrs. Shackell welcomed the members and introduced Mrs. J. H. B. Moore and Mrs. Sam White, life members of the club. Officers of

both clubs were also introduced. Mrs. Peggy Kyle and Mrs. J. A. Piver were welcomed as new members. The Year Book was presented by Mrs. Dink James, and a Past President's Pin was presented to Mrs. R. P. Rogers, Woman's Club head during the past two years. Mrs. Cora S. Powell, corresponding secretary for the Woman's Club, read three letters—from Judy Bales expressing appreciation for the summer camp; from Mrs. M. P. Bailey Jr. tendering her resignation as Woman's Club secretary and a club member; and from Bancroft Moseley congratulating the Woman's Club on the success of the Art Festival.

"EASTERN CAROLINA'S SHOPPING CENTER"

# Picnic Concludes Institute's Drive

Members and guests of the American Institute of Banking chapter here are shown at their recent Elm Street Park picnic outing.

Local chapter of the American Institute of Banking ended its 1955-56 membership drive last Saturday night with a picnic for all members and their guests.

The outing was held at the Elm Street Park, with 48 present. James Joyner, president of the local chapter, greeted the members and their guests as they arrived. He welcomed the new and old members and expressed his appreciation for their fine support in the local chapter.

Miss Jean Rush, chairman of the Women's Committee, and Miss Marguerite Rouse, treasurer, prepared the food on a long table in front of the fireplace, then the members and their guests were invited to serve themselves buffet style.

Following the supper, the group enjoyed singing, which was led by J. W. Overton.

Members present for the picnic were James Joyner, Claude Taylor, J. S. Moye, J. W. Overton, Ralph Tucker, Jimmy Savage, Floyd Rowe, Bill Hudson, John Congleton, Marguerite Rouse, Jean Rush, Hilda Avery, Staley Wilson, Helen Forehand, Shirley Marriner, Hazel Cherry, Nina Weston, Margaret Register, Clara Baker, Allie Whitehurst, Myrtle Johnson, Mary Dell Seymour, Elizabeth Gardner, Etta Taylor and Ginger Worthington from Greenville.

Mr. A. F. Rowe and his wife from Ayden also attended.

Bert Tyson Class Meets Tonight  
The Bert Tyson Sunday School Class of Memorial Baptist Church will meet tonight at 8 o'clock in the church parlor.

## 30 Years Ago Today

THE DAILY REFLECTOR  
September 22, 1925

Rehearsals for "A Little Bit of Broadway," which is the attraction at White's Theatre Wednesday, matinee and night, are progressing splendidly. The choruses are made up of the prettiest and most graceful girls to be found anywhere. The personnel of the choruses follows: Misses Rosamond Flanagan, Lillian Hooker, Rose Hadley, Bet Dixon, Virginia King, Mary Wright, Bruce Tucker, Mary Lee Pittman, Emily Moye. In the balloon ballet the following young girls take part: Frances Morton, Gladys Duval, Mary Elizabeth Ferguson, Lucy James, Helen Fleming, Doris Garris and Rosamond Horne. Miss Helene Higgs, vocal soloist for this number, sings "A Waltz in the Moonlight."

## Births

**Bland**  
Born to Mr. and Mrs. Powell Bland of Goldsboro, a daughter, Pattie Wooten, September 20 in Wayne Memorial Hospital.  
Mrs. Bland is the former Miss Lillian Wooten of Greenville.

**American Legion Auxiliary**  
The meeting of the American Legion Auxiliary, Greenville Unit, has been postponed until Thursday evening, September 29.

## Social Calendar

**THURSDAY**  
7:30 p.m.—Wahl-Cootes PTA will meet in the school auditorium. Reception for teachers and students in cafeteria following business meeting.  
7:30 p.m.—10:30 p.m.—Paint For Fun, Recreation Building, Elm St. Park.  
8:00 p.m.—Greenville-Pitt Chapter E.C.C. alumni meets in the Alumni-Faculty Building on the campus.  
8:00 p.m.—Chapter 1308 of the Women of the Mose will meet.  
8:00 p.m.—P.T.A. of West Greenville School will have first fall meeting and informal reception for the teachers.  
8:00 p.m.—Fidelis Class of

Memorial Baptist Church will meet with Mrs. H. L. Andrews.  
**FRIDAY**  
10:00 a.m.—Ladies Day at the Country Club  
6:30 p.m.—Kiwanis Club  
6:30 p.m.—Exchange Club  
7:00 p.m.—Executive Board of the Provisional League of Women Voters will meet for dinner at the Silo Restaurant. The meeting will be open to all League members.  
7:30 p.m.—Red Men meet.  
8:00 p.m.—All alumni and past teachers meet at Chicod High School.

1:00 p.m.—Miss Jare Hadley will honor Mrs. O. E. Dowd at bridge luncheon.  
7:30 a.m.—The Credit Women's Breakfast Club will meet at the Olde Towne Inn  
9:30 a.m.—12:00 noon—Chil-

dren's Paint For Fun, Recreation Building, Elm St. Park.  
**Mrs. Martin Hostess To Round Dozen Club**  
**BETHEL**—Mrs. F. Curtis Martin was the gracious hostess to ten members of the Round Dozen Book Club and four guests one day last week. The club met in the Hilma Country Club in Tarboro at one o'clock.  
The hall was beautifully decorated using the fall motif. The Hunt Chest had a lovely arrangement of fresh fruits and vegetables. The centerpiece for the table was a bouquet of yellow and bronze chrysanthemums in a bronze container. Each place was marked with individual chrysanthemum daisy-type corsages. Green and red foliage were used

also for decorations.  
After the delicious three-course seafood luncheon, the program was turned over to Mrs. Clayton Carson who introduced Mrs. Robert Davis. Mrs. Davis chose as her topic "The Life of Helen Keller." She stressed her infancy and youth from the time of her illness, which left her deaf, dumb and blind, until she entered college. She also brought out the devotion and understanding of her teacher and companion.  
Mrs. F. L. Blount Jr., president, presided at the business meeting. Mrs. Martin, secretary, read the minutes of the last meeting which stood approved. Regular matters were transacted.  
**Bake Sale**  
St. James Methodist Church will have a bake sale Saturday morning, Sept. 24, beginning at 8:30 at Overton's Super Market on Jarvis St.

**Masonic Notice**  
Greenville Lodge No. 284, A.F.&A.M., will hold an Emergency Communication Friday at 7:30 p.m. for work in the Entered Apprentice Degree.  
All Master Masons, Fellow Craft, and Entered Apprentice are cordially invited to attend.  
R. L. SMITH, Master  
H. E. ALDER, Secretary  
**MUSICAL PROGRAM FOR KIWANIS MEET FRIDAY**  
George W. Perry of the music department at East Carolina College will present a musical program at the Greenville Kiwanis Club's weekly supper meeting tomorrow night at 6:30. President Charles Wilkerson will preside.

## Housework Easy Without Nagging Backache

Nagging backache, headache, or muscular aches and pains may come on with over-exertion, emotional stress or day to day stress and strain. And folk who eat and drink unwisely sometimes suffer mild bladder irritation... With that restless, uncomfortable feeling... If you are miserable and worn out because of these discomforts, Doan's Pills often help by their pain relieving action, by their soothing effect to ease bladder irritation, and by their mild diuretic action through the kidneys—leading to increase the output of the 15 miles of kidney tubes.  
So if nagging backache makes you feel dragged-out, miserable... with restless, sleepless nights... don't wait... try Doan's Pills... get the same happy relief millions have enjoyed for over 60 years. Get Doan's Pills today!

Does Not Mean To Free You—

# The After-Effects To Be Long Felt

It's going to take Eastern North Carolina a long time to recover from the losses this area has suffered as a result of the three hurricanes in August and September.

Cleaning up the debris from the latest storm and making repairs to damaged buildings and homes will take only a matter of weeks. The same is true of highways and damaged utility lines. But along with this damage which will run well into the millions, eastern Carolinians have likewise suffered irreplaceable losses.

## Argentina's Transition Will Not Be Easy Task

The ouster of Dictator Peron, of Argentina lends new hope that ruthless tyrannical government will be extinguished altogether in the Western Hemisphere.

For 10 years Peron ruled Argentina with an iron fist. He stripped the people of that South American nation of their liberty and many of their rights under constitutional government. He ruled through a powerful organization and to strike down and silence every voice which opposed him.

For a while he was successful. As his grip tightened, the resistance to his dictatorship grew more determined and his greed for total power eventually proved his downfall.

There are some outward signs of progress in Argentina as a result of Peron's rule. Yet these hospitals, new government buildings, and new highways were bought at a great price by the Argentines. It was a price far greater than the worth of the man-made structures.

Argentina will not make the transition from Peron's dictatorship to a new government rule without difficulties. The transition period which that Latin American country has now entered will be a trying time for its own people as well as for the rest of the family of the Western Hemisphere. With time, however, Argentina should again emerge to take its rightful place among the freedom loving Good Neighbors of this hemisphere.

## Our Flooding Stream Is An Incentive To Act

If there was a doubt in the mind of any member of Greenville's City Council about the need for improving drainage of Green Mill Run, Monday's storm should have dispelled it.

As was expected the normally shallow, slow-flowing stream raged out of its banks and submerged adjoining property. Only this time the water was higher and swept farther from the stream bed than in any previous storm. It swept across Tenth Street and into the ECC campus. It completely blocked highway 43 at the southern boundary of the city as usual. It caused considerable erosion at Elm Street park and all along its winding course through the city.

How many more such floods must we have before officials take the necessary steps to eliminate this hazard within the city. We are aware of the fact that funds for this project were among those included in a proposed bond issue. We are also aware that the bond issue proposal has been postponed for further study.

The Reflector feels strongly that a complete study of what is to be included in the permanent improvements bond issue should be made as rapidly as possible. The call for the referendum should be prepared and the matter submitted to the people of Greenville at the earliest possible date.

## No Corruption When All Hands Join Fight

Usually where a bribe is involved and it comes to court action, it stems from the fact that one individual has sought to purchase favors from another by means of a bribe.

Not so in the charges brought against a Statesville man who is post engineer of the Charlotte Ordnance Missile plant. The federal grand jury charges assert the post engineer tried to obtain a bribe from a salesman whose company was bidding on materials which go into the construction of the new plant. According to the charges the engineer attempted to obtain a bribe, "an automobile or other things of value."

Business in recent years have been severely criticized for alleged attempts to bribe government employees and officials to obtain favors and fat government contracts. Doubtlessly some businesses have paid for favors from officials or employees in key government posts.

Nevertheless, it is encouraging to see that a company has reported to the proper authorities an alleged attempt on the part of a government employe to obtain a bribe from a company representative in return for a government contract.

There is nothing we can do to salvage the portion of the corn, cotton, peanut and soybean crops which have been ruined by the latest storm. It will take literally years to reclaim for agriculture the thousands of acres of farm land in coastal counties which were inundated by salt water. We cannot turn back the calendar to make up for the hundreds of thousands of dollars which has been lost by people of the coastal areas of the state in the past month because unsettled weather kept tourists away from resorts and brought pleasure and commercial fishing to a standstill.

Although Pitt escaped the worst part of all these storms, the damage to agricultural crops in this county will be showing up in the income of families—rural and urban alike—for months to come. Most of our big money crop, tobacco, escaped severe damage. But other crops like corn, cotton, peanuts and beans took a beating. These crops, although they are overshadowed by tobacco so far as income is concerned, still account for an appreciable portion of the buying power in Pitt County.

In counties east and northeast of Pitt, these crops account for an even larger portion of farm income than they do in our county.

Although we have seen the last of Connie, Diane and Ione, we have not, we are afraid, seen the last of the after-effects of these destructive storms.

## Drama 'Swap' And A Neglected Story

By LYNN NISBET  
SWAP—Why wouldn't it be a good idea to swap places next year and present "The Lost Colony" drama at Boone and "Horn in the West" on Roanoke Island?

Hugh Morton raises that interesting proposal as a possible aid in meeting financial problems of the two famous outdoor presentations which in the form of symphonic drama portray important phases of North Carolina history. What with more than usual number of cold and rainy nights in the mountains, rain and threats of hurricanes, the 1955 season was almost disastrous for both shows. Sponsors of both are seriously debating the wisdom of trying to carry on through next year.

In his capacity as a private business operator and as chairman of the state advertising committee of the Board of Conservation and Development, Hugh Morton is seriously concerned with the problem. He is looking for several real estate developments in the east, and has spent many thousands of dollars developing and publicizing Grandfather Mountain not far from the theater in which Horn in the West is staged.

ADVANTAGES—He recognizes some distinct problems, such as how to get a sailing ship on a mountain 500 miles from the ocean and 3,000 feet above sea level; and how to fit the mountain into an ocean-side theater. He thinks the probable advantages far outweigh the disadvantages, and that slight changes in the script can be made to fit the new surroundings.

Bringing into new areas a different production will tend to increase local interest, and excite for two or three days the main actors, who might have to follow the play to the new stage, the folks taking part in the performance would gain wider experience and put more zest in their work. None of the investment in property or publicity would be lost, since both dramas would be continued under their own names.

INVESTMENT—The State of North Carolina has substantial investments in both dramas. Besides direct appropriation of more than \$50,000 the State has spent a lot of money in publicity. Opinion prevails that this investment has paid off in tourist dollars and other indirect revenue, although the dramas themselves have "lost" money every season.

"Unto These Hills," the Cherokee drama, staged on the edge of the Great Smoky Mountains Park, most visited of all national recreation areas, has a much more successful financial history.

By the other two Sponsors of the Roanoke Island performance hope that when the Hatteras Seashore Recreation area is further developed it will attract sufficient number of new visitors to make the drama successful. The immediate problem is to keep the show going for the next two or three seasons.

Morton thinks switching stages for one season might afford the shot in the arm necessary to assure continuance. The other alternative to suspension of the performances will be substantial personal contributions by "angels." There is little hope of further subsidy from the State.

JUSTICE—A white man and a Negro man had a fight on the streets of Old Port on September 1. One week earlier the Negro had requested enrollment of five colored children in an Old Port white school. The request was denied. When the fight occurred some newspaper, particularly the Charlotte Observer, played it up as a near riot resulting from the school episode. Local officers denied there was any connection. Both the white man and the Negro were arrested on warrants charging assault with a deadly weapon by the chief of police. Trial was had in mayor's court Monday. The white man was convicted and fined \$15. The colored man was acquitted. Report of this trial got a few lines under small head on inside pages. In out of state papers the story of North Carolina justice will never overtake the original garbled yarn about "race trouble."

EXPLANATION—H.F. Seawell Jr., the Carthage lawyer who sought the Republican nomination for governor in 1952 and then broke with his party, explains why Vicki the Elephant took to the jungles in the edge of Charlotte. In response to editorial suggestion in the Greensboro Daily News the politician without a party writes a letter to the editor as follows: "Thanks for editorial with which you express the belief that if I appear in Charlotte, that GOP elephant would come out of the woods. The thought was nice but the truth about it is I am further back in the woods than she is. If the GOP elephant saw me she might think she saw a ghost and would most likely flee into the swamps of some 'disintegrated' portion of South Carolina never to return. What happened was that she heard over the honey-suckle vine that IKE would not run this time and she is afraid to risk Elephant Boy Nixon."

HERB SEAWELL  
IDEA—The Chowan Herald suggests the reason for giving hurricanes the names of girls. "Did you ever see the Herald, 'hear of a HIMMICHANEY'?"

## Other Editors Are Saying... The Parents Back Of 4-H's

(Goldsboro News-Argus)  
Like many a good woman being responsible for the success of her husband, many 4-H Club members owe their achievements to their persistent parents who work for the greatest success for their offspring while keeping vigil over their welfare.

Wayne County 4-H Clubbers' fathers and mothers can't be praised enough for the encouragement they give their children in that work. Wayne County youngsters this year like some years before took the lead in achievement on a state-wide scale.

But to single out one among the hundreds of fathers and mothers who have encouraged their children in 4-H Club and that work will best tell the story and put credit where credit is due.

Some years ago Elmer Overman of Nahutta was heard to remark that no matter how much encouragement was given his son Allen Ray didn't seem to take very much interest in 4-H Club work.

Mr. Overman, a most persistent man in this respect, suggested projects such as chickens, calves, pigs and numerous others to entice Allen Ray to take interest in 4-H Club work.

And despite his son's apparent lack of enthusiasm, Mr. Overman continued to work persistently to get him interested in the projects.

Allen Ray's interest was caught and his enthusiasm evident in his projects. He began to take some awards.

But even at this Mr. Overman had to persuade him to complete his record books each year. With this encouragement he filled out the books and continued to make good showings annually.

One year, according to Bill Lamb, assistant farm agent in charge of 4-H Club work, Mr. Overman decided to take the negative approach. He did not push Allen Ray into filling out the required record books. It was only a short spell before Allen Ray had learned his lesson. His name was not among those who had been given recognition for outstanding achievements, and Allen Ray had made outstanding achievements, but the records were not in to tell the story as required. Since then his records have been completed and entered without any nudging. And now he is at State College using scholarships earned in 4-H work.

Elmer Overman did what for his child his persistence in getting his son interested and participating in 4-H Club work paid manifold and proved most successful for father and son.

McNaught Syndicate, Inc.

## Somebody Told Me Mrs. North Carolina In City

Saturday night at the Country Club dance I was sitting close to the door when the brunette beauty walked in. Naturally I would give a long look to any beauty who walked in, but I gave this one a longer look. Immediately I recognized her as Mrs. North Carolina of 1953. Mel Harper of Snow Hill.

My approach was to get introduced and then consult Ben Harper about an interview before talking to Mel. I found Ben to be one of those very personable people that you like from the beginning. A relief buyer for Liggett Meyers, he's 30 and Mel is 25. They have a son, four years old.

Mel first started in contests at the age of nine, when she was chosen Miss Shirley Temple. She

attributes her victory to the curls she had at the time.

In 1947 she was runner up in the Miss Tobacco Festival contest in Wilson. At the time she was only 17 and couldn't have won the title anyway, as 18 was the minimum age.

After getting the title Mel naturally had offers for professional modeling. She laughingly said that one was from Peek-A-Boo magazine, which specializes in lingerie and bikini bathing suit poses.

"There are some places that stand out in my mind. Especially Windsor, with Labor City and Charlotte coming close behind."

The main advantage in winning such a title, she says, is getting to know so many people. Now and

then she and Ben have visitors dropping by Snow Hill—friends she made while Mrs. N. C.

What is the sentiment of a husband when you're one of the queens of the state? "Ben has been wonderful. He helped in every possible way."

After getting the title Mel naturally had offers for professional modeling. She laughingly said that one was from Peek-A-Boo magazine, which specializes in lingerie and bikini bathing suit poses.

"There are some places that stand out in my mind. Especially Windsor, with Labor City and Charlotte coming close behind."

The main advantage in winning such a title, she says, is getting to know so many people. Now and

## Notebook On Life

## Women, Millionaires Alike

By HAL BOYLE  
NEW YORK (AP)—Sidewalk reflections of a pavement flake. If there is anything harder for the average man to understand than beautiful women, it is millionaires.

Millionaires and pretty women have a great deal in common. They are self-conscious on the surface, full of secret fears, and unpredictable. They never quite act the way you expect them to. They rarely quite live up to the images of them you have in your mind before you get to know them well.

Women and millionaires

(particularly new millionaires) brood a lot. Both are highly suspicious of any attention you pay them. Both want to be flattered, not for what they have, but what they don't have: in the case of women, their brains; in the case of millionaires, their social charm.

Honesty never pays off in dealing with either. They yearn to be admired for some imaginary quality they think they have rather than the one they actually do possess. If you tell woman she has prettier legs than Betty Grable she says, "Is that all you see in me?" If you tell a millionaire, "the title about you

I like is your bank balance," he gets downright insulted.

But why? Anybody who has either beauty or hard cash has an edge in this world, and ought to be satisfied with either one or the other.

A poor man is disappointed with both lovely women and millionaires, and for the same reason. Neither is as romantic as you expect them to be—or as spendthrift of their charms as you would like. They are cautiously determined to keep what they have intact, whether it be their beauty or their books.

Personally, I have found most millionaires boring, fearful fellows afraid to live up to their station in life. My theory is that a millionaire should act like a millionaire and live a rich, care-free existence.

Now if I suddenly got a million bucks I'd live up to it. I'd drop all my shoddy pals and start mingling with a better class of people. I'd have a big white button in my lapel that said "I am a millionaire." And when anybody bent over to read what it said on the button I'd squeeze a hidden bulb and squirt water in his eyes.

I'd drink champagne in bed for breakfast, ride on horseback behind a pack of foxhounds down Broadway in the afternoon, and spend my evenings pouring bubbly water down the backs of chorus girls at gay parties.

You wouldn't have to ask where I was. You could follow me around town by the trail of \$50 bills I'd let dribble out of a hole in my pocket.

(Continued on page sixteen)

## Strength for the Day

By EARL L. DOUGLASS  
THE THING THAT COUNTS

Queen Victoria after hearing Paderewski give a concert, commanded him to come to her box. "Mr. Paderewski," she said, "you are a genius." Paderewski, never inclined to underestimate his ability, did not dispute the queen's statement, but he said this: "Your Majesty, before I was a genius I was a drudge, and being a drudge made me a genius. If I failed to practice a day, I noticed it; and if I failed to practice two days, my friends noticed it; and if I failed to practice for several days, the world noticed it."

At the height of his fame Paderewski went to the Polish pianist, Leschetizky, and the world-famous teacher put him on simple finger exercises, just as if he were a beginner. It was said of a certain great violinist in recent times that every morning before he began to practice he spent a half-hour playing scales. Some of the great artists today sit down among the pupils when someone with a particular technique comes in to demonstrate it. Genius is a gift, but genius becomes worthwhile and bears fruit only as the result of drudgery.

There are boys with genius IQ's who are flunking out at college right and left, and there are other boys and girls rated as distinctly medium who stay in college and take top prizes.

Application counts more than genius.

By RAY TUCKER  
WASHINGTON—Numerous Eisenhower agencies are operating on a broad front to refute Adlai E. Stevenson's latest charge that the Republican Administration is a Government of the rich, by the rich and for the rich.

Hearty Democratic spokesman Harry S. Truman, Governor Averell Harriman and Governor George M. Leader—have made clear that this will be their great issue next year.

The policy of showing greater consideration for the "little fellows" in labor, agriculture and business is so widespread that it appears to be conscious and deliberate. It has been put into effect by such divergent agencies as Defense Mobilization, the Federal Power Commission, the Federal Trade Commission, the Interior Department and the Housing and Home Finance Agency.

Secretary Ezra Taft Benson, as recently reported here, is studying plans to curtail loans to great farm corporations and estates in favor of small producers. Several bills to that effect will be introduced at the Janu-

ary session of Congress.

LEWIS FOR LEWIS' SUPPORT  
Naturally the GOP would like to have the support of such a prominent labor figure as Lewis even though his endorsement of Wendell Wilkie in 1940 carried no coal states. But it would be an asset and an offset to the "big business industrialist."

The Federal Power Commission recently ruled that it has the authority to regulate the price of natural gas produced within a single state. If it eventually flows into interstate commerce the ruling is in accord with the Supreme Court decision but a bill barring Federal regulation passed the House in the last session.

In the same Labor Day week-end interview, he also admitted that labor conditions were excellent. Contrasting his new contract with Walter P. Reuther's agreement with General Motors, he said that his was "devoid of Marxian babble and does not contain any wind and water."

In an apparent reference to Reuther's alliance with the Democrats, Lewis declared

against unions' "fidelity to any political group or party."

REDUCTION OF TIRE DISCOUNTS  
The Federal Trade Commission has ruled that rubber tire manufacturers must reduce

## Doubtful Yardstick For Sales

By ELMER ROESSNER  
It is common practice in government department stores and other establishments to calculate sales in terms of year-to-year figures.

Commerce Department reports monthly on retail sales compared with sales 12 months earlier. The Federal Reserve Board issues weekly reports on department store sales in percentages of gains or losses in respect to corresponding weeks a year ago. In department stores, section managers are fired or promoted depending on how sales totals compare with 1954 figures.

Year-to-year comparisons provide a handy yardstick but, from bow on, a rubber one.

Look back. In the first half of 1954 business was sluggish. Then the boom renewed itself and business in the first half of the year was rising. The rise has continued to this very minute. Sales in the first half of this year, have generally been compared with sales in the first half of 1954. A rising market was compared with a sluggish market. This tended to distort the size of the gains. Commerce figures indicate that sales in the first seven months of this year were 8 per cent above sales in the same months in 1954. If sales had held up in those 1954 months, the gain might have been only half as much.

From now to the end of the year, sales will be compared with sales in the last few months of 1954, a period of swelling business activity. The gains may look small.

A single store for example, may have coasted along in the first part of this year and then steamed up promotions in the last part. And the comparative figures still may show a dandy gain in the first half but only mild progress in the second.

Comparative figures are fine—but don't let them throw you!

IDEAL FISCAL YEARS  
The American Institute of Accountants has long contended that it is foolish to close company books on December 31 just because other people do. It recommends that each company end its business year when inventories, receivables and outstanding loans are at their lowest.

The Association has revised its list of suggested closing dates, originally set up in 1949. It covers about 200 industries. Dates have been changed for 11 of them and six new ones added. Added industries and their suggested closing dates are: distillers, end of August; hospitals, September; men's clothing manufacturers, October; plastics manufacturers, July; printers and engravers, July; and watch manufacturers, March.

While this may be very fine for the clients of the Institute, may have toughened matters for members. Suppose, for instance, an accountant specializes in the watch industry. Then all his clients will want to close their books in March. During February, March and April he will be running around like crazy. Then from May to January, he'll starve.

Starve? Accountants starve? There must be something wrong with this typewriter!

OXIDATION AND FUNGI  
Charcoal—which poured millions of dollars into the cash registers of men's wear merchants—is dying. The National Retail Dry Goods association has alerted members.

Sad? Not a bit! Some other color is bound to take its place, the Association says. Nobody knows just what. Lighter shades are being favored. And rusty gold and moldy green.

Ah! Rusty gold and moldy green! Someone should write a song!

PUBLIC RELATIONS  
OF THE LINE  
If you are rearing a youngster, think twice before bringing him up to write a column like this. If he does, he will get invitations to such parties as the one the Eddy Mattress Company is throwing at Savoy Plaza Hotel in New York.

Guests will check shoes and coats at the door and don slippers and pajamas. The cast from "The Paloma Game" will put on a fashion show. Three "Sleep Queens" enthroned on mattresses, will be overthrown by Ernie Kovacs. "The decor," says the announcement, "will feature a supine setting of box springs and mattresses arranged harem style, reclining chairs and sofas, and the affair will continue until 6 A.M."

And, although no decision has been reached on tax reduction next year, the principal beneficiaries will be again—the "little fellows."

In the midst of a Democrat-inspired House investigation of charges and interior and FCC discriminations against "preference customers," Interior ended a long controversy in favor of the Clark Hill, S.C., dispute.

# School Building Problem Is Growing Acute;... Hodges

KINSTON, N.C. (AP)—Gov. Hodges says school building problems in North Carolina are becoming acute because of the absolute necessity that adequate facilities be provided for all children.

He made the statement last night in a speech at the dedication of the Teachers Memorial School here. Hodges said that the "principal responsibility for school construction continues to be that of the local community."

"This responsibility," he added, "will be increasingly important in the future and it will be well for all counties of the state, even those that have substantially met

their present needs, to begin considering ways and means of dealing with their building problems."

Pointing out the present school enrollment in the state is in excess of one million, Hodges said that within the next five years this is expected to increase by approximately 150,000.

At the start of this school year, North Carolina's counties needed approximately 220 million for school building construction, Hodges stated. By 1960, he added, there will be a total need of 391 million. The state has plans to provide 25 million to meet these

needs. Some 64 million is expected to be provided locally, "leaving a deficit of some 302 million which also will have to be raised by local communities if the needs are to be completely met," he asserted.

Hodges said there are several possible ways "by which the amount of these needs might be reduced." He noted that suggestions have been made to arrange for school children to attend school in shifts rather than all at one time.

"Serious consideration should be given to this kind of suggestion," he said, "since we may, in the very near future, face the necessity for doubling up on the use of our school buildings." The governor noted that "communities may find it profitable" to look into business corporations which provide buildings on long-term purchase plans or lease plans.

# ECC Plans Two High School Days This Year

East Carolina College will be host to high school students twice during the 1955-1956 school year when High School Day is observed on the campus Thursday, October 6, 1955, and Friday, April 6, 1956. For the past years the college has observed a single High School Day each spring.

Dr. Ed J. Carter, director of the Bureau of Field Services at the college, is a committee of students and faculty members are working on plans for the entertainment of visitors at fall and spring High School days.

Seniors in secondary schools will be honor guests at East Carolina College, October 6, and Juniors, April 6. Members of these classes are invited to attend either or both of the events, Dr. Carter stated.

The 1955-1956 High School days will be staged, he says, with the idea of giving students a glimpse of a college in action. Classes will operate as usual. In addition a series of programs produced especially for the entertainment and instruction of visitors will be presented.

The agenda for each day will include dramatic productions, music programs, a fashion show, a ball game, a tea dance with music by the East Carolina Collegians and exhibitions staged by departments of instruction to show work and activities in various fields of study.

Opportunity will be provided for visitors to confer with representatives of the various academic departments at East Carolina and to discuss programs of study.

"We feel that this project is a valuable part of the guidance training provided by high schools of the state," Dr. Carter said. East Carolina expects to welcome a large group of students on each of its High School Days and to help them in deciding what type of training they should choose after graduation.

# Administration Looks For Farm Price Advice

WASHINGTON (AP)—The Eisenhower administration looked to the National Agricultural Advisory Commission today for suggestions on how to bolster sagging farm income.

The 18-member bipartisan body of farm leaders began a two-day quarterly meeting with that as its major problem.

Secretary of Agriculture Benson said the commission will go over proposals for aiding farmers by helping more money into their pockets.

The secretary said last week that the administration will offer specific recommendations to Congress. Suggestions of the commission will help formulate administration proposals.

The commission was appointed by President Eisenhower to review government farm policies and programs and to offer advice on ways

to improve them. It played a major role in the development of the farm program which the President recommended to Congress last year and which was written into law. That program features flexible price supports which this year supplanted the high, rigid supports of the Truman era.

The commission meets behind closed doors. It rarely makes its discussions or recommendations public and is expected to follow this policy on this week's meeting.

The meeting comes at a time when Democrats are sharply criticizing the administration's farm program and contending that the Republicans are allowing agriculture to sink into a depression.

The group is expected to give serious consideration to a proposal that the government offer farmers substantial payments for retiring upwards of 35 million acres of

surplus land from the production of cash crops.

The commission also may pick up proposals that the government adopt a multiple-price system for such export crops as cotton, wheat and rice. Opposed heretofore by Benson, such proposals would support domestic prices of these crops at relatively high levels while allowing them to move into export markets at lower prices.

Dean William L. Myers of the College of Agriculture at Cornell University is chairman of the commission.

**SKUNK SALE**  
LOS ANGELES (AP)—There's one dress shop here that may be having a different sort of fire sale soon. A skunk got loose in the shop and fired several times before he was trapped by three policemen. They clapped a box over him, wrapped him up tightly in protective plastic, and later had the final shot.

# ARTHRITIS RHEUMATISM SUFFERERS Find New Curb For Pain

Users rejoice—Supply Rushed Here. Victims of crippling arthritis, rheumatism and neuritis pain can take joyous new hope from announcement of dramatic success with a new formula which combines 4 drugs into one tablet capable of relieving agonizing pain in joints and muscles. According to clinical reports, this new compound, called VERTASOL, acts internally to curb torturous arthritis, rheumatism, neuritis pain, back, hands, arms, legs and shoulders. With tears of joy in their eyes, men and women who formerly suffered dread stabling tortures of arthritis and rheumatism gain relief after using it.

VERTASOL costs \$3.00 but considering results is not expensive, is only pennies per dose. Sold with money back guarantee by

# Bucket Of Coins Wasn't Enough

DOWNEY, Calif. (AP)—When Raymond P. Vinzant lost a Small Claims Court judgment of \$88.19 to Anthony J. Rivera he tried to pay off in pennies, but Rivera refused, claiming the coppers aren't legal tender.

Vinzant dumped the 8,819 pennies from a bucket onto a sidewalk, saying: "Here's your money." A crowd gathered as the men disputed the question of legal tender and sidewalk lawyers popped up all around with free advice.

Municipal Judge A. Daniel Boone was consulted and he expressed the opinion Vinzant had not paid in legal tender, so sheriff's deputies ordered Vinzant to clear the sidewalk. He had to scoop up his coppers and put them back in his bucket.

# Warship Flying Stars And Bars

NORFOLK, Va. (AP)—The Stars and Bars waved in the blue off this port yesterday as a ceremony was held aboard the carrier Ticonderoga honoring Robert E. Lee and the new 30-cent Lee stamp.

It marked the first time the Confederate flag has flown from an American warship.

The skipper of the Ticonderoga is Capt. Andrew Jackson—a native of Mississippi.

# Amazed When Odd Craft Floats

LOS ANGELES (AP)—The cluster of spectators on the shipyard dock looked amazed when Edmund Martine's stubby little submarine hit the water—and actually floated.

Martine and his associate Fred Zendar weren't surprised but they conceded that yesterday's first flotation tests surpassed expectations, although the sub's tail drooped slightly.

Both rode the conning tower as the queer 42-foot craft slid into the quiet waters of Los Angeles harbor. Lines led to shore-side stanchions, just in case, but the three-man boat, named the Cetacean, bobbed safely on the channel swell.

Martine, who has designed diving bells, built the Cetacean with his own funds as an experiment. He says it's his dream of a self-powered, deep water diving machine. He hopes to use it in exploring and photographing under-sea life and geology.

Its cost thus far has not been disclosed.

The Cetacean weighs 53 tons and carries inside its steel shell a dual set of diesel-electric motors which Martine expects will give the craft a speed of 10 knots on the surface and seven submerged. The Cetacean, shaped something like a cocoon, has on its bottom twin "feet" for ocean floor pedaling.

The nose, sides and bottomside of the hull are fitted with optically ground glass ports through which cameras are trained. Twelve lights, each of 600 watts output will send piercing beams through the water for photographic purposes, Martine says.

Tests will continue this week, and Martine hopes to put to sea in the Cetacean within two weeks for deep sea tests.

# They've Got Him After 5 Years

DILLON, S.C. (AP)—A Dillon County Negro, sought more than five years by county police in connection with the slaying of a Ft. Bragg, N.C., soldier, was held today in the county jail.

He is John Henry Thompson, arrested Sunday at Whiteville, N.C., for questioning in another case. According to Sheriff J. R. Rogers, Thompson's nervous manner aroused suspicions of Whiteville police and led them to check their files.

Rogers said that Thompson scuffled with Joseph Caskley, a Ft. Bragg soldier, at a Dillon cafe in May, 1950. Caskley was fatally cut, Rogers said Thompson fled the scene.

# Seward Mansion Restored To Glamor Of Lincoln Days

By OWEN CRUMB  
AUBURN, N.Y. (AP)—A piece of history goes on display here when the home of William Henry Seward, restored to the somber splendor of the days of Lincoln, is opened to the public.

Stepping through the doorway, a visitor leaves the present outside and feels like a part of the days when Seward served as governor of New York, U.S. Senator and secretary of state in the cabinets of Abraham Lincoln and Andrew Johnson.

Three rooms have been converted to house mementos. In one is a piece of bedsheet, slashed by a knife, taken from the bed in which Seward was lying when he was attacked by an assassin in the same plot which brought about the death of Lincoln.

The table in the glittering dining room is set with China given the Seward family by Prince Napoleon Joseph Charles Paul Bonaparte, the nephew of Emperor Napoleon — whose portrait hangs in the diplomatic gallery on the second floor.

The place of honor in the gallery is given to Emanuel Leutze's oil painting of the Signing of the Alaska Treaty.

The \$7,200,000 purchase negotiated

by Seward and dubbed "Seward's ice-box" by his enemies also is recalled by numerous mementos of Alaska.

But one of the most striking evidences of this high-spot in Seward's career is a huge copper samovar, presented by Baron Edward Stoeckl, Russian minister to the United States, with whom Seward negotiated the purchase. The samovar surveys the dining room from its resting place atop a traditional buffet.

A practical note on Seward's political career is evident in a two-volume biography of Thurlow Weed, tucked among shelves of biographies. In the dining room hangs an oversized portrait of Weed, Editor of the Albany Evening Journal, Whig and Republican strategist and a principal guiding hand behind Seward.

The house was built in 1816-17 by Judge Elijah Miller, Seward's father-in-law. A fireplace in the parlor where the great men of Seward's time were entertained was carved by Brigham Young, then a 16-year-old carpenter who was to become a guiding force in the Mormon Church.

Sections of the house were added by the family until it came to its

### Poor Impression For The Finder

CHAMBERS, Neb. (AP) — In August, 1954 Mrs. August Redner of Chambers lost her false upper teeth while on a picnic at Omaha. In August, 1955, by mail from Omaha, she received a package containing the teeth. And a note that read, "Take these back to your dentist. They are poorly made. They just didn't fit at all."

### Air Force Has Young Grandpas

ORLANDO, Fla. (AP) — Two outfits in the Strategic Air Command here boast grandfathers — one as young as 34.

He is M. Sgt. William H. Dye of the 30th Bomber Squadron who became a grandfather last year. The other is 49-year-old Michael N.W. McCoy, commanding officer of the 321st Bombardment Wing.

### Seven Stumped By Sunday Law

CHARLESTON, W. Va. (AP) — The seven men arrested when the cops broke up their game in the rear of a barbershop weren't surprised when they were charged with playing cards in public.

The blinds at the shop were drawn, however, and a second charge stopped them cold. It was an ancient provision of the city code which forbids "obstructing the view into a barbershop on Sunday."

### FALSE ALARM

MARSHALL, Tex. (AP) — An excited telephone operator called police, told them a receiver was off the hook at a local residence and that she could hear sounds of violence. Police found out she was 100 per cent correct. They found the family clustered about a television set watching a shoot-em-up program.

William H. Seward's great-great-granddaughter, Miss Cornelia Messenger, is shown in the drawing room of the old Seward home. She is looking at portraits of Seward, his wife and daughter Fanny (center). Miss Messenger, a senior at nearby Wells College, is wearing one of Fanny's favorite gowns.

# U. S. Marine Band In Concert Here

The 157-year-old U. S. Marine Band, the oldest military symphonic musical organization in this country, will open the 1955-1956 Entertainment Series at East Carolina College September 29. The band is now on a Presidential-approved tour of 15 states. James W. Butler, chairman of the college Entertainment Committee, has announced that a concert will be presented in the Wright Auditorium on the campus at 8:15 p.m. An afternoon program for pupils in city schools will be presented at 3 p.m. Stirring marches and works by the world's finest composers will make up the programs. The 1955 tour will carry the Marine Band 6,500 miles through the Southeastern section of the country. It opened Sept. 18 at Kennet Square, Pa., and will be concluded in Virginia Nov. 19. The Marine Band is known to millions of Americans through its two weekly coast-to-coast radio broadcasts, its frequent television appearances, and its concert series in the Nation's Capital. The annual tours, which started under the direction of John Phillip Sousa in 1891, have afforded Americans living outside the Washington area an opportunity to see and hear the world-famous music organization. Familiarly known as "The Presidents' Own," the Marine Band has played for every inauguration since Thomas Jefferson's. Founded in 1798 by an Act of Congress, the band has played for all official functions in the Nation's Capital and all important history-making events in this country since that date.

# New Faces In Buc Line-Up

## After Crushing Moore, Rocky Considers Retiring

By MURRAY ROSE  
NEW YORK (AP) — Heavyweight champion Rocky Marciano's awesome, meat-grinder destruction of gallant Archie Moore in one of boxing's great battles may have been the invincible Brockton Blaster's last fight.

This was the one the indomitable Rock of Brockton wanted to win more than any other since he knocked the crown off Jersey Joe Walcott's brow three years ago in Philadelphia. And he won it in typical fashion with a relentless bulldozing attack that smashed Archie's crumbling defenses with a knockout in 1:19 of the ninth round.

Now with the light heavyweight King out of the way, there were no more worlds for boxing's Caesar to conquer and he mulled over retirement.

"There is a lot of pressure from my family for me to retire," said the 31-year-old victor in his dressing room. "My mother wants me to quit. So does my dad, and my wife. It has been a pretty bad ordeal for them. I don't know what I should do."

Then Rocky added: "Personally, at this point I don't feel I should retire."

Last night Rocky came off the floor like he did in the memorable first fight with Walcott, and ground down the crafty, cocky Moore with a relentless assault.

A smashing left hook to the jaw ended the 38-year-old master craftsman's fierce resistance, leaving him a collapsed heap in his own corner.

Out to become the first light heavyweight champion ever to ascend to the heavyweight throne, Archie gave it all he had in the beginning when he floored Marciano for a four count in the second round with a right to the jaw.

"I snapped out just a second," said Rocky. "But I snapped out of it."

For a while it looked as if the crowd of 61,574, which contributed to a handsome \$948,117 gate in the Yankee Stadium, was going to see an astonishing upset.

Rocky blinked his eyes. It was only the second time in his career that he had been floored, and a worried expression appeared on his face just as it did when Walcott decked him in their first fight.

Archie went after the champ with another right to the jaw but

Rocky's head was clear now and he moved in close. Archie's big moment was gone even though he had Rocky bleeding from the nose and bruise under the left eye before the hectic round was over.

In the third Rocky established his pattern of victory. He started maneuvering, the craft Moore to the ropes and ripped him in close with both hands.

There was a slight cut over Rocky's left eye and blood dripped from his nose but that only served to spur him on. Try as he would from then on, Archie couldn't get away from the rope traps Rocky set for him with his bulling drives.

The pressure was hot on Archie in the fourth and fifth rounds and in the sixth his aging legs betrayed him. Rocky's old "Suzy Q" overhand right shook him all over, buckling his knees. Another long right dropped him for a count of four. Rocky swarmed all over his stricken foe, smashing him down for eight.

For one minute of the seventh, Archie seemed to have dipped into his fountain of youth. He smashed over two rights to the jaw that momentarily stopped Rocky's furious drive and brought roars from the fans. But midway in the round, time and Rocky caught up with Archie again. By the end of the round Archie's right eye was almost shut.

The 19 years of fighting caught up with the poised craftsman in the eighth. Rocky bullied Archie to the ropes and whaled away to head and body. A right to the jaw dropped the dead-tired Moore on the seat of his pants. The bell saved him as Referee Harry Kessler tolled seven.

Rocky was ready for the kill in the ninth and everyone in the park, including Moore, knew it had to happen. Rocky forced his game foe to the ropes and let loose with everything he had. Moore, his back to the ropes in his own corner, somehow found strength to fire two hard shots to Rocky's jaw. Then it happened. A short, perfectly timed left hook thudded against Archie's jaw and he crumpled in his corner, a soggy left mitten over one rope.

It was all over. Archie went the way he wanted to if he had to go counted out. He said: "When the doctor (Dr. Vincent Nardiello) asked me if I wanted to quit (after the eighth round) I

said no champion should lose except in the center of the ring. I'm happy I ended the way it did. I wouldn't want to lose sitting in a corner."

The defeat ended Moore's winning streak of 21 and was the fifth time he had been kayoed in a career of 145 fights. It was Marciano's 49th victory in a perfect record that includes 43 knockouts.

Moore still had his 175-pound title and a \$241,187 purse, the largest of his career. Rocky, too, earned his fatted check. He will receive \$482,374.

The theater telecast earned an approximate \$1,125,000, of which \$350,000 went into the International Boxing Club coffers to be shared with the fighters. Radio added another \$35,000.

Marciano only a quarter pound heavier than Moore at 188½, entered the ring as an almost prohibitive 4-1 favorite.

## Chesson, Clark And Burgess In Starting Roles

By BRUCE PHILLIPS  
Reflector Sports Editor

After yesterday's long defensive scrimmage, Head Coach Jack Boone announced that three new faces will appear in the East Carolina Pirates' line-up against Lenoir Rhyne here Saturday night and that there's a probability of another change before game time.

Waverly Chesson, Ken Burgess and Bobby Clark have battled their way to starters' berths by their play against West Chester last week and showings in this week's practices.

Chesson, from Washington, N.C., has moved in at right tackle, replacing Ray (Bull) Overton; Burgess, a Burlington boy, has taken over Dick Mond's guard spot; and Bobby Clark, of Tarboro, is replacing injured Bill Helms at right end.

Poor Offense

The first two moves are experiments to find a right combination up front that will make the offense jell. Mond and Overton were doing fine jobs on defense but the coaches weren't satisfied with their play when the Bucs were on the attack.

Chesson is a converted center with plenty of power. Boone singled him out for an outstanding job against West Chester. "He impressed me at tackle. He made the switch from center there without any strain and performed like tackle had been his position all along," the Bucs' head man commented.

Burgess is a little man as linemen go, weighing only 185 and standing 5-10. But what he lacks in stature, he makes up for in fight. His savage defensive play and fine offensive blocking earned him the promotion.

"Thinking Player"

Clark is an unheralded boy who has come from obscurity into the spotlight through his love of the game and the way he plays it! A fast, deceptive flanker, he is also a fine pass catcher. Above all, though, is his ability to outmaneuver the opposition. Assistant Coach Jim Mallory calls him a "thinking player."

The other probable change Boone was working to is a shift in the backfield. Right now it's Dick Cherry at halfback, Emo Boado and Jim Henderson at the halves and Harold O'Kelly at fullback.

But, in Boone's own words, it may not remain that way. "We've got boys, some of them freshmen, who can't be held back much longer," he declared. He singled out Bobby Perry, Bob Maynard, Robert Gay, Gary Mattocks, Milton Collier and two frosh, Robert Lilly of Tarboro and James Speight of Greenville.

All the above-mentioned looked sharp in the rugged defensive work yesterday, along with sure starters center Lou Hallow, end Ray Pennington, tackle Jerry Brooks and guard Paul Popov.

Lenoir Rhyne will pull into Greenville sometime Friday and hold a light workout Friday night. The Bears of Coach Clarence Stasavich won their opener last week over Newport News Apprentice, 40-0 in a mighty display of single-wing power.

# Stoutest Test For Farmville Gridders

FARMVILLE — Coach Elbert Moyer's Farmville Red Devils are in line to receive their stoutest test of the current season tomorrow night when they take on undefeated Morehead City on the coastal club's own field.

The Red Devils missed Monday from their 34-8 massacre of Nashville last week end but will be anxious to meet a hardened foe.

Morehead City owns victories over Williamston, 13-0, and Swansboro,

32-0. They employ a fast-breaking attack with a good, hefty line up front to make it go.

Farmville will be without the services of first-string end Billy Haire, who's been sick all week. Mark Owens, first-string guard, has a bruised rib but will be able to see some action. Dale Russell is still out with a broken finger.

The only bright day of practice this week was the welcoming back of quarterback Mack Holmes. With his return, the Red Devils can take advantage of Holmes' power at the fullback post.

The Red Devils missed Monday entirely because of the hurricane and practiced with only 18 men on Tuesday. The others were unable to get to school because of bad roads. Otherwise, the Red Devils appear in pretty good physical shape, according to Moyer and assistant Sam Stell. The two mentors figure this Morehead City scrap to be the toughest on the 1955 card.

The Red Devils will bank on Ervin Allen to break-a-way on those long runs. The 125-pound sophomore scored four times against Nashville and added an extra-point for good measure.

**WOMEN'S OPEN SET DULUTH, Minn. (AP)**—The 1955 U.S. Women's Open golf championship will be held at the Northland Country Club July 26-28.

In no other sport does it take so little to cost you so much as in driving.

# Ayden Host To Robersonville

**EIG TORNADOS**—Coach Tommy Craft is shown above with two of his prized linemen, Lathan Dennis and Burt Tripp, who'll lead the Tornados against Robersonville tomorrow night. (Reflector Sports Photo by Bruce Phillips).

**AYDEN** — After stopping Benvenue and Vanceboro in two successive weeks, Ayden's high-flying Tornados play host to the Robersonville Rams in a conference contest Friday night, hoping for victory number three.

Coach Stuart Tripp will depend on Lindy Dunn at quarterback and Tommy Edwards, a halfback, to carry the brunt of the Ayden attack. Defensively, the Tornados will have a powerhouse of strength at guard positions in Ike Barboro and Latham Dennis. Jim Willard, a defensive halfback, will again be called upon to play his usual brand of fine ball.

Robersonville's tough defensive club will try the Ayden fast offense in a test of real giants.

# Guide Wanted For Long Lake

**MARQUETTE, Mich. (AP)** — Though 80 Michigan lakes are named Long Lake, a Detroit doctor and a salesman would be happy to find one.

"We've been looking for three days," bristled the doctor. "We hear it's jumping with fish. We heard Herman's Lake, Fish Lake, Wheelbarrow Lake, Triangle Lake and Round Lake. We even found Lost Lake. And we'll find Long Lake too, even if it takes us our entire vacation."

# Edenton Is Coming Williamston Rival

**WILLIAMSTON** — Coach Roger Thrift's rising Williamston gridders, after dropping Tarboro 15-13 last week, have been practicing in preparation for their coming match with conference opponents Edenton. The Edenton team won last year's Albemarle Conference and went on to the state championship.

Monday's drill session as a result of Hurricane Ione and have set a fast pace in the following days. Coach Thrift is stressing his hand-off plays from the regular T formation and working on a defense to stop tomorrow night's foes.

Fullback Don Christopher, tackle Jack Rawls and center Joe Clayton, three outstanding reasons for the

win over Tarboro, are figured to be the big guns against Edenton. Edenton's Bulldogs opened their 1955 season against AA Roanoke Rapids and suffered a one-touchdown defeat. They came back strong

in their second tilt, however, to smash a visiting Virginia team. The conference champs field a strong split T attack and will be fighting to retain their conference and state crowns.

# Farmville VFW To Stage Horse Show Sunday

FARMVILLE — The fifth annual Horse Show, sponsored by the Farmville Veterans of Foreign Wars Post will be held at the Farmville baseball park next Sunday afternoon at 1:30.

Entries are expected from North and South Carolina and Virginia. Twenty-three classes are listed for the show this year.

Col. R. E. Barrett Jr. of Branchville, Va. will be in charge of the show.

Hugh C. Winslow's Sunny Acres Stables' Grand Champion Mighty Chief and other horses will be entered. VFW Post Commander Pete Allen stated.

Souvenir programs will be distributed at the gate. The Junior Woman's Club and other local agencies are cooperating to make this year's Horse Show a success.

# NOTHING IN ITS FIELD CAN MATCH CHEVROLET FOR ACCELERATION!

Drive with care... EVERYWHERE!

Great Features back up Chevrolet Performance: Anti-Dive Braking—Ball-Race Steering—Out-rigger Rear Springs—Body by Fisher—12-Volt Electrical System—Nine Engine-Drive Choices.

When you need a quick sprint for safer passing, this V8 delivers!  
It's pure dynamite, and you have to go way, way up the price ladder before you ever find its equal.

Chevrolet's new "Turbo-Fire V8" packs a Sunday punch for safer passing that no car in Chevrolet's field can match!

The proof was burned into the sands of Daytona Beach at the NASCAR\* trials earlier this year. In acceleration tests, Chevrolet simply walked away from everything else in its field. Plus—and get this—all the high-priced cars except one!

Surprising? Not when you consider that this beauty's been cleaning up on all comers in short track stock car events this season. That's where acceleration really pays off, as well as handling ease and cornering ability—things that mean safer, happier highway driving. Come on in and let a new Chevrolet show you what we mean.

NOW'S THE TIME TO BUY! LOW PRICES—BIG DEALS! ENJOY A NEW CHEVROLET

# White Chevrolet Co., Inc. GREENVILLE, N. C.

# Only A Miracle Can Now Revive Cleveland Hopes

By ED WILKS  
The Associated Press

Cleveland's wonderful one-hoss Shay, falling apart all at once, was piled on the American League junk heap today with only a miracle capable of pushing it any farther along the pennant road.

And it will take a large, economy-size miracle to bar the New York Yankees, more than ever the old pros, from their sixth championship in seven years. With four games remaining, starting with a twin bill at Boston tomorrow, the Yanks need win but one more to clinch it.

They can drop all four and still win it should the Indians, now four games back on the "lost" side, drop even one of their three remaining games.

The once-frantic pennant scramble practically came to a close last night as New York pounded Washington 7-3 and the Tribe took a 7-2 lashing from the Chicago White Sox — who became official also-rans 24 hours earlier.

At worst, New York can tie for the flag. They have won eight straight — their longest streak this season. Cleveland, two games ahead only a week ago, has lost five of six.

The 3½-game edge New York now holds is the biggest bulge any leader has had since July 15, when the Yanks led by four.

The Indians got just five safe blows off Jack Harshman last

# GHS Coaches Stress Conditioning And Put Boys Through Hard Drills

By BILLY ARNOLD  
Reflector Sports Writer

Condition was the by-word in the Greenville Phantom camp yesterday as the local coaches sent their boys through the most grueling practice to date.

Coach Guy Lewis and assistant coaches Vaughn Fowler and Stanley Jones attempted to make up for the day of drill the Greensies missed while Hurricane Ione was on the rampage.

They began sessions at 3:30 with several hundred yards of wind-

sprints and followed with calisthenics. The 65 man squad was directed in push ups, leg pulls, deep bends and other exercises, by captain Pete West. Approximately one third of the session was used to whip the boys into a strong physical condition.

**Backs Work**

After a few words from Coach Lewis, the squad divided into the usual three sections. Lewis worked with the backs, totaling 19 boys. First-string backs Sermons, Drum-

Norris and Shackelford were accompanied by Brown, Howell, Smith, Staton, Kelly, Roebuck, Edwards, Boyd, Honeycutt, Ross, Everett and Willis.

Coach Fowler singled out his linemen and carried them to an unoccupied corner of the Phantom practice field and sent them through blocking patterns and defensive maneuvers. The line was made up of tackles West, King, Duff, Nobles, Pollard, Nixon, Brown, Whichard, Martin, and Hutsacker; guards Hollingsworth, Hudson, Barnhill, Oak-

ley, Barrett; centers Jordan, Wilkerson, Ruffin, and Crawford.

The ends, coached by new arrival Stanley Jones, studied defensive movement and basic passing plays. Missing from this group was All-Conference end candidate Harold Edwards, who suffered a twisted ankle in last week's game with Beaufort. The 6-4 senior sensation will miss the coming contest with Kinston and Calhoun, the remaining terminals, carried on.

**Long Scrimmage**

A rugged scrimmage was next in line with the first stringers trying their hand at both offense and defense under the watchful eyes of coach Lewis and assistants.

The main stress throughout this week has been placed on getting

the Phantoms in perfect physical condition in order that they may play at top strength against Kinston Friday night. The Red Devils are supposedly the toughest team in the Northeastern Conference and will undoubtedly be the most powerful group to face the Greenville team so far this season. Kinston is essentially a passing squad with a

high-geared offensive attack that will be an ample test for the Phantom defense that has been so effective against opponents Jacksonville and Beaufort.

night. The Sox, meanwhile, shelled Bob Lemon, who lost his second straight.

Manager Al Lopez has started his ace — Lemon, Early Wynn and Mike Garcia — in each of the last six games and they've crumpled along with the hitters.

An error by rookie shortstop Bill Harrell, injected by Lopez in a try for more hits, opened the way to a five-run eighth inning for the White Sox as Lemon lost his 10th. He's won 18.

New York packaged the Nats in three innings, tagging Chuck Stobbs for six hits — four of them for extra bases — and a 4-0 lead. Billy Martin led it with an inside-the-park homer with two on off-rookie Ted Abernathy in the fifth.

Bob Turley won his 17th, but walked eight and Rip Coleman and Bob Grim mopped up after Washington scored three in the seventh.

In the other AL games, Baltimore hit the cellar behind by beating Boston 8-7 in 13 innings, and Detroit clubbed Kansas City

10-1 as Ray Boone and Harvey Kuenn homered in an eight-run first.

The New York Giants, world champs a year ago, clinched third in the National League standings by peppering Pittsburgh for the second straight day in a double-header 7-2 and 7-3. Ray Monzant gave three hits in the nightcap and Don Liddle allowed only four in the first game.

Gus Bell drove in eight runs, with a grand-slam homer and bases-loaded double, as Cincinnati walloped Milwaukee 13-5. Chicago beat St. Louis 7-5 with Randy Jackson hitting a bases-loaded triple in a four-run 13th inning.

# Dark Intent

By RAE FOLEY

Death of Roger Brindle, an extremely popular syndicate newspaper columnist, opens new chapters in the lives of those whom he wrote so well. He leaves his young widow Carol, and an entourage of persons whom he had befriended. Carol learns that Roger left her no more than five thousand dollars. When he learns from his wife, Bessie, that Roger's first wife, Jane has come to Stovenville for the funeral, Albert Kibbee, one of those befriended by Roger, refuses to see her. Bessie expresses the hope that Carol will get rid of Joe Hattery and Ethel Hattery, another couple whom Roger had helped.

**CHAPTER FOUR**  
"I wonder," Joe Hattery said, "what happens to you now Mr. Brindle is dead. I don't suppose his wife will care. We could starve for all—"  
"You might," Shandy Stowe suggested, "try working for a change." The black suit he had worn to the funeral was replaced by navy blue slacks and a maroon pullover. He hung the suit in the closet, walking with a faint limp that was not quite a limp. In a mirror set in the closet door he looked automatically at the scars on his

face and saw the reflection of Joe Hattery lurking behind him.  
The ex-convict was slight and colorless, with a mouth that dipped steeply downward at the corners from chronic discontent and eyes that met one with an insistent cad which would not have deceived a child. The world was against him. He had always been against him. He never had any luck. If he didn't keep a sharp lookout to protect his rights, he was extremely tender of his rights, he would be taken advantage of. His mother who had been victimized as Joe had been made all this clear to him before he was ten years old and he had seen no reason to change his mind in the next thirty years.  
"Work," he whined now. "It takes a guy who never did a stroke of work in his life to say that. All right for one who's born with a silver spoon in his mouth to talk about other people working."  
"Scram," Shandy Stowe said. "And next time knock before you come in this cottage."  
"My, aren't we haughty!" There was a subtle change in Joe's voice. "You got no call to talk to me like that."  
"Oh get out," Shandy said wearily.

"Not yet, Mr. Stowe," Joe's stand, like his voice, had altered. He was not lounging now. "I got my own way of working. See?"  
"Then go do it."  
"Like replacing that window-pane in Mr. Brindle's cottage?" Shandy's eyes which had gone compulsively to the scars on his face, narrowed with attention.  
Joe grinned revealing neglected teeth. "Interested in window-panes? I've got one for sale."  
"What, are you getting at?"  
"I was just thinking, Mr. Brindle sure slept sound. Never woke up for visitors even. I seen one of them go to his cottage that night myself." Joe took courage from Shandy's stillness. "Yessir, you could almost say the poor guy died of sleeping."  
He broke off as there was a tap on the outside door and a woman called, "Shandy! Are you there?"  
Carol Brindle, her lacy hair aglow in the sunshine, wearing a somber black dress, came swiftly across the living room of the cottage he high heels clicking on the waxed floor. There was not a trace of her usual languor. Joe's eyes, went from the woman to the man. He permitted himself a smirk as he went out.  
"What is it, Carol?"  
When she was seated, Shandy let himself down slowly into a chair facing her. He was surprised to discover that he was shaking.  
Mutely she held out a piece of paper. "I just found this."  
Shandy read it aloud. "Died in his sleep—but how? Where did you get this?"  
"On the desk in the library in the middle of a pile of letters and telegrams of sympathy."  
"Where's the envelope?"  
"There wasn't any." Her eyes were wide with shock. "What ought I to do, Shandy? This could be—unnecessary, couldn't it?"  
There was irony in his expression and something else which she

# Here Tomorrow! NEW '56 FORD!

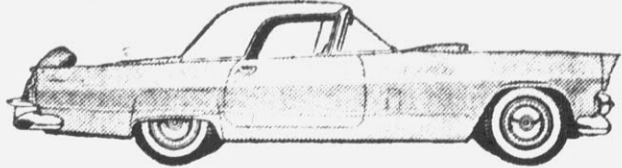

## The fine car at half the fine car price!

With new 202 h.p. Thunderbird Y-8

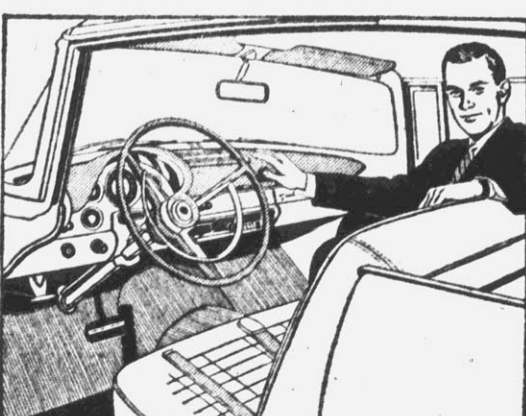

New 202-h.p. Thunderbird Y-8 engine is available in Fordomatic Fairlane and Station Wagon models. In Fordomatic Customline and Mainline models you can have the "GO"-packed 176-h.p. Y-8. And Ford's new 137-h.p. Six is available in all 18 models.

...with new Thunderbird styling

The new '56 Ford looks like the Thunderbird, too! You'll find the same graceful lines . . . the same long, low silhouette . . . the same dashing appearance . . . styling which helped the fabulous Thunderbird to win America's heart. You can drive the '56 Ford anywhere, with assurance that it "belongs."

...with new Lifeguard Design

Ford's new Lifeguard Design features are: a new steering wheel, with deep-center design, to act as a cushion in the event of an accident . . . double-grip door locks to reduce the chance of doors springing open under shock . . . optional padding for instrument panel and sun visors to help lessen injuries from impact . . . optional seat belts to help keep occupants securely in their seats.

For '56, Ford brings you the greatest safety news in a generation. It's new Lifeguard Design. In cooperation with universities, medical associations and safety experts, Ford learned that most serious injuries in accidents were caused by drivers being thrown against steering post, occupants being thrown forward against hard interior surfaces, or thrown out of the car. To provide extra protection against these hazards Ford developed the new Lifeguard features described at right.

But there is still more wonderful news! Ford brings you Thunderbird power in a modern deep-block Y-8 . . . Thunderbird beauty, too . . . rich new interiors . . . quality workmanship throughout.

See it . . . try it . . . you'll agree the '56 Ford is the fine car at half the fine car price.

CHARLOTTE, N.C., Sept. 22 — "Engineering brains," Dean Walter J. Seelye of the Duke University College of Engineering declared here

## "Between Us Folks"

By Bill Aldridge

MISS IONE . . . She came, dilly-dallied and left us drenched with damages up in the millions. We have definitely had our share of hurricanes for sometime to come, but there is one comforting thought. Our state and local authorities are well organized to rush aid to the disaster regions and to keep us informed of the situation. As I lay in bed listening to the wind and rain my thoughts focused on the rain-soaked men out in the midst of the hurricane fighting the elements. The very same men that we criticize for giving us a ticket violation, not fixing our lights or telephones soon enough or repairing the roads to suit our fancy. Sometimes we are prone to forget that every man has a job to do and even he dislikes some of his duties. Nevertheless these same God-fearing men without hesitation risk their lives as part of their jobs to make it safer for us. I grant you that there are a few men that are irksome needlessly but to the group as a whole they have my best manifestations and I am indeed proud of them. . . . We are very fortunate in having a ham radio operator like Jack Edwards. I have never had the pleasure of meeting him and wife Rachel, but feeling that I know him because of his column in the Daily Reflector and knowing that he spends many extra hours awake in order to keep us posted on the progress of the hurricanes when the telephone lines are down. Thank you, Jack.

NICE REVISION . . . A young widow commissioned a mason to inscribe on her husband's tombstone: "My sorrow is more than I can bear." Before the work was finished she married again, and the mason asked her if she still wanted the inscription. "Yes," she replied, "but just add the word 'alone' at the end."

HERE'S THAT TEASER AGAIN . . . One you may be able to work out with toothpicks or dollar bills if you have enough. Three men entered a hotel and paid \$30.00 for a room. Later the desk clerk decided he had charged the men too much and sent a bell hop with \$5.00 to return to the men, thus charging \$25.00 for the room. The bellhop decided to keep \$2.00 of the \$5.00 thus returning a dollar each to the three men. That made their room cost them \$9.00 each or a total of \$27.00. The bell hop had \$2.00, making \$29.00. What happened to the other \$1.00?

ABOUT TOWN . . . The many friends of Godfrey Oakley will be glad to learn that he is back in his old routine of selling insurance. He is affiliated with Hines Insurance Agency located on Cotanche Street. Godfrey was one of the first Greenville citizens that I met. I will always remember it because Godfrey's smile makes you feel warm and glad. To you Godfrey—our very best of luck. Incidentally his sister Martha is our secretary and doing a bang-up job. She is the "silver lining" in the cloud down at Edwards' Hardware.

THE PAINT PROFESSOR SAYS . . . Dennis Sutton, our paint professor, is sounding off again. He asked me to pass on to you folks that we have a one-coat masonry paint, interior or exterior, that is equal to any known two-coat masonry paint on the market. Also a miracle one-coat plastic paint that is equivalent to two coats of any latex base paint. I don't know what he is talking about but I guess it must be all right because he knows his paints. On the enamel side, we are offering a full guarantee on our Dutch Boy diamond white enamel not to turn yellow. Our paint prices will attract you. . . . Now here is a special! Rural mail boxes on sale for \$2.29. Get yours while they last. . . . One 5 HP demonstrator Scott-Atwater outboard motor for \$150.00. An exceptionally good buy.

SUGGESTIONS . . . Come down to Edwards Hardware and see our complete stock of guns, bicycles, field fencing, and 5-V crimp metal. You can save at Edwards Hardware. Particularly since the boss is out of town on a buying trip (to us hired help, a pleasure trip). As the old saying goes, "when the cat's away the mice will play." Well, we are having the time of our life. Come on down and join us . . . we might even give you the store.

HOME OWNERS . . . See our complete line of residential locks. I will be glad to come to your home and show you samples from which you may select your locks.

SEE YOU NEXT WEEK. . . . (Advertisement)

# Wind Tunnel Is Small, Powerful

By JOHN BARBOUR  
AP Newsfeatures

ANN ARBOR, Mich.—It's so powerful it can shear off a man's head or his arm—but it looks like a harmless metal box with air tanks at both ends. It's not a torture chamber—it's a super-sonic wind tunnel.

Dr. C. Nelson, who heads the University of Michigan Aeronautical Department, explains that this is just one part of the new laboratories where scientists will work out the principles which keep men in the air.

The largest super-sonic wind tunnel in the lab will be only 8 1/2 inches high and 13 inches wide in the middle. But enough air can pass through in 20 seconds to raise the air speed to match four times the speed of sound or about 3,000 miles per hour and Nelson hopes to get much higher speed later.

Nelson explains that men working with this particular tunnel have to use extreme safety precautions because the power of the air could pull a carelessly placed hand or extremity against sharp metal sides.

ANN ARBOR, Mich.—It's so powerful it can shear off a man's head or his arm—but it looks like a harmless metal box with air tanks at both ends. It's not a torture chamber—it's a super-sonic wind tunnel.

Dr. C. Nelson, who heads the University of Michigan Aeronautical Department, explains that this is just one part of the new laboratories where scientists will work out the principles which keep men in the air.

The largest super-sonic wind tunnel in the lab will be only 8 1/2 inches high and 13 inches wide in the middle. But enough air can pass through in 20 seconds to raise the air speed to match four times the speed of sound or about 3,000 miles per hour and Nelson hopes to get much higher speed later.

Nelson explains that men working with this particular tunnel have to use extreme safety precautions because the power of the air could pull a carelessly placed hand or extremity against sharp metal sides.

PUBLIC NOTICE

**NOTICE OF PUBLIC HEARING ON THE QUESTION OF THE ADOPTION OF AN ORDINANCE TO REGULATE THE ORDERLY SUBDIVISION AND DEVELOPMENT OF LAND WITHIN THE CORPORATE LIMITS OF THE CITY OF GREENVILLE, N. C., AND WITHIN A DISTANCE OF ONE MILE FROM THE CORPORATE LIMITS**

Pursuant to the provisions of Chapter 1334 of the 1955 Session Laws of North Carolina, entitled, "AN ACT PROVIDING FOR THE REGULATION OF LAND IN AND AROUND MUNICIPALITIES," and by order of the City Council, public notice is hereby given that the City Council of the City of Greenville, N. C., will meet in the Council Room of the Municipal Building in Greenville, N. C., on Thursday, October 13, 1954, at 8:00 o'clock p.m. for the purpose of holding a public hearing on the question of the adoption of an ordinance entitled, "AN ORDINANCE TO REGULATE THE ORDERLY SUBDIVISION AND DEVELOPMENT OF LAND WITHIN THE CORPORATE LIMITS OF THE CITY OF GREENVILLE, N. C., AND WITHIN A DISTANCE OF ONE (1) MILE FROM THE CORPORATE LIMITS." A copy of the proposed ordinance has been posted for inspection by the public in the lobby of the Municipal Building in Greenville, N. C., and will remain posted until after the hearing is held.

All interested citizens are requested to inspect the proposed ordinance, and to attend the said public hearing, at which time they will be given an opportunity to be heard. By order of the City Council, H. H. DUNCAN, City Clerk.

R. B. Lee, City Atty.

# Stock And Market Reports

**NEW YORK** — Prices were thoroughly mixed in the stock market today in early afternoon trading.

Gains and losses ran to around 2 points. Trading was brisk at a pace that topped 2,500,000 shares for the day. Yesterday's total when the market was rising, came to 2,450,000 shares.

Steels were the outstanding major group on the higher side. Demand was especially good for Youngstown Sheet & Tube which still is pressing plans for a merger with Bethlehem Steel.

Chrysler was the star of the motor division. It was yesterday's second most active issue up 4 1/2, and it started on a block of 9,000 shares up 1 1/2 at 95 3/4. Thereafter it added 2 1/2 and held to most of the day's advantage.

The New York Journal of Commerce today said that Chrysler directors "are in virtual agreement to split the stock of the company."

The radio-television section was higher but not active. The aluminum were active at the start and higher. They held to their gains in later quiet trading.

Among higher stocks were U.S. Steel Republic Steel, U.S. Rubber, Copper, DuPont, American Tobacco, Santa Fe Railroad Standard Oil (NJ), and Hiram Walker.

Middlebrooks, professor of military science and tactics at the college, announced today.

**WOUNDED MAN IS SAID IMPROVING**  
A Negro man who was shot in the left shoulder Tuesday night was reported to be improved by medical authorities this morning.

Hubert Corey had been in serious condition in Pitt Memorial Hospital since he was hit with pellets from a .410 shot gun. The blast was said to have collapsed a lung and Corey has been under an oxygen tent.

Shortly after the shooting took place Willie Arthur Teel of 1915 McCullen St. gave himself up at local police headquarters.

# Wounded Man Is Said Improving

Hubert Corey had been in serious condition in Pitt Memorial Hospital since he was hit with pellets from a .410 shot gun. The blast was said to have collapsed a lung and Corey has been under an oxygen tent.

Shortly after the shooting took place Willie Arthur Teel of 1915 McCullen St. gave himself up at local police headquarters.

Police Lt. R. H. Harris and other officers went to the scene of the shooting. The local officers called in Deputies Duke Andrews and Jack Russell when it was found the location was outside the city limits.

Sheriff Ruel W. Tyson said this morning that Teel told deputies he heard dogs barking outside his house on McCullen St. on the night of the shooting. He told the officers that he saw a face in the window, ran outside and fired at the intruder.

Teel is being held in Pitt County Jail without bond pending the outcome of Corey's condition.

# Speed Test For USS Forrestal Scheduled Today

**ABOARD CARRIER FORRESTAL**—This is the crucial testing day for Uncle Sam's newest and mightiest warship as the Navy prepared to open up the supercarrier Forrestal to full speed.

If she passes the test, the "okay" label is expected to be given her first sea trials last month because of mechanical trouble.

Preliminary tests yesterday were successful. They took place as the ship zig-zagged through moderate seas off the Virginia Capes at speeds ranging up to 25 knots an hour.

Three weeks ago, the vessel developed mechanical trouble stemming from an inadequate lubricating system.

# Moose Tribute To Radio, TV, Press

Plaques in commemoration of outstanding service were presented to representatives of WGTC, WNCT and the Daily Reflector by the local Moose Lodge last night. Receiving the awards on behalf of the organization, from left to right above: Joel Lawhon, WGTC; David W. Mosier, WNCT; and D. J. Whitcher, Reflector Staff Photo.

Plaques for outstanding service were presented to television station WGTC, radio station WNCT and The Daily Reflector last night by the local Moose Lodge.

The awards were presented by Moose Ell Bloom to representatives of each of the organizations following a supper for members of the

# Attend Session In Winston-Salem

**Pitt Health Director Dr. Walter C. Humbert** and eight members of his staff are attending the 44th annual session of the North Carolina Public Health Association in Winston-Salem today and tomorrow.

In a joint meeting of health officers and laboratory sections tomorrow afternoon, Dr. Humbert will give a talk on "Public Health Aspects of certain animals which frequently infect man on contact with these animals or from food and water contaminated by them. Dr. Humbert, with Mrs. Norma B. Carroll of Raleigh, will preside over this section meeting.

Members of the local Health Department staff attending the session with the health director are W. M. Pate and E. L. Kilpatrick, sanitarians; Mrs. Lucille Tucker, Mrs. Evelyn Ginsberg, Mrs. Addie Griffith and Mrs. Lois McLawhorn, nurses; Mrs. Patricia Hatch and Mrs. Mary Lil Parker, clerks.

(Continued From Page 1)

a long-range building program. Three suggestions came out of the discussion on solution of the getting enough good teachers and keeping them: They were: Acquaint the public with all facts as to the seriousness of the problem regarding the needs for qualified teachers; as a means of attracting more young people into college for teacher preparation, let the communities consider providing financial aid to college students; and stimulate a community sensitivity to the needs of their own local schools.

In the matter of school financing, a three-way plan was proposed, with Federal aid in finances for school building construction, along with state appropriations and local financing, finding almost unanimous agreement among the large group handling this phase of educational problems.

Dr. Carroll announced meetings in Fayetteville Thursday evening in the senior high school auditorium, and in Raleigh at Meredith College auditorium on Friday afternoon. Three other meetings are scheduled next week and a state-wide conference in Raleigh on October 13.

**VFW Post Maps October 6 Rally**  
At a called meeting of Charles Grey Morgan Post, No. 7032 of the Veterans of Foreign Wars at Malcolm Williams' home last night, plans were made for a membership rally to be held at the VFW Post Home near the airport, October 6, at 7:30.

Post Commander Joe Bass said a free supper will be served all members who attend. Larry Averette and James Joyner are arranging an entertaining program.

State VFW Commander Rufus Joyner of Rocky Mount is expected to attend the membership rally meeting.

**Meeting Was Held By Timothy HD Club**  
TIMOTHY—A demonstration on "Pattern Types" was presented by Home Agent Lillie Little at a meeting of the Timothy Home Demonstration Club last week.

A number of reports were given by Mrs. Z. O. Whitford on food, Mrs. W. R. Wall on clothing, Mrs. Herbert Taylor on beautification, and Mrs. Fred Wall on gardening.

The club also made plans for a concession booth at the Pitt County Fair.

During the social hour recreation was led by Mrs. Whitford, and winner in the "fair contest" was Mrs. E. O. Smith. Refreshments were served by the hostess, Mrs. Tommie Adams, assisted by Mrs. Dalton Smith.

Eleven members and one visitor were present. Mrs. Whitford will be hostess for the October meeting.

in my pocket. I'd buy me an air-conditioned limousine of silver with diamonds for headlights, and I'd have as a uniformed chauffeur the tallest, sultriest, red-headed showgirl in all America.

My bodyguard would be the smallest, toughest, meanest retired jockey I could find. He would go about with me wearing his racing silks and boots, and carry a riding crop in one hand to beat the peasants out of my path and a shotgun in the other to cow anybody who wanted to make something of it.

You think people would hate or despise me? If you do, that's how little you know about people. They always admire a man with a grand manner, one who snubs kings but flips 20-buck goldpieces in a passing beggar's hat.

That's the old-fashioned idea about millionaires. And the secret dream of most people today isn't merely to be a millionaire—but to live like they dream a

millionaire should: high, wide and handsome. I might die broke and be buried in a pauper's grave, but the man in the street would pay me this ungrudging tribute: "The guy was a bum at heart, but at least when he had a million he didn't try to keep it a secret between him and the tax collector."

The trouble with most modern millionaires is simply this—they look and act too much like the rest of us pale prisoners of the weekly paycheck.

# June Defense

**NEW YORK (AP)**—Heavy-weight champion Rocky Marciano, unmarked except for a red blemish under his left eye, said today he would defend his title again next June against one of four opponents—Bob Baker, Nino Valdes, Hurricane Jackson, or Floyd Patterson.

In answer to a direct question, Marciano said he had no thought of retiring at the present time.

**Colored News**  
Card of Thanks  
We wish to thank the many friends for the kind deeds shown us during the illness and death of our loved one, Mrs. Clementine Dawson Hopkins. God bless all of you.  
The Family

The Senior Ladies Auxiliary of Sycamore Hill Baptist Church will meet at the home of Mrs. B. M. Atkinson 505 Contentnea St., Sunday at 5:30 p.m. Business of importance will be discussed.

All members of the Antiered Guard of Golden Rod Temple No. 368 and Pitt Lodge No. 234 are requested to meet in a joint meeting Friday at 8 p.m. for an important session.

The Senior Choir of Mt. Calvary will meet at the church for rehearsal Friday at 8 p.m.

All persons who have given names, and others who are interested in taking an extension course from A&T College, please meet tonight at 8 o'clock at Eppes High School for organizing.

# Hal Boyle . . .

(Continued from page 4)

in my pocket. I'd buy me an air-conditioned limousine of silver with diamonds for headlights, and I'd have as a uniformed chauffeur the tallest, sultriest, red-headed showgirl in all America.

My bodyguard would be the smallest, toughest, meanest retired jockey I could find. He would go about with me wearing his racing silks and boots, and carry a riding crop in one hand to beat the peasants out of my path and a shotgun in the other to cow anybody who wanted to make something of it.

You think people would hate or despise me? If you do, that's how little you know about people. They always admire a man with a grand manner, one who snubs kings but flips 20-buck goldpieces in a passing beggar's hat.

That's the old-fashioned idea about millionaires. And the secret dream of most people today isn't merely to be a millionaire—but to live like they dream a

millionaire should: high, wide and handsome. I might die broke and be buried in a pauper's grave, but the man in the street would pay me this ungrudging tribute: "The guy was a bum at heart, but at least when he had a million he didn't try to keep it a secret between him and the tax collector."

The trouble with most modern millionaires is simply this—they look and act too much like the rest of us pale prisoners of the weekly paycheck.

# Glenmore

is a Straight Bourbon Whiskey, distilled in KENTUCKY from choice grains and deep-well limestone water.
