

Registering For Today's Clinic

GUESTS REGISTER—Mrs. J. C. Burger, wife of Major General Burger of Camp Lejeune, and Mrs. Sidney Wade, wife of Brig. Gen. Wade, also of Camp Lejeune, register for clinic here this morning. In the background, Mrs. James T. Little, Chairman of the Council, looks on as Mrs. J. S. Ficklen and Mrs. Ray Minges register the guests. (Reflector Photo)

Denies Any Part Of Bank Theft

FLORENCE, S.C. (AP)—A dental fixture salesman, caught in the swift two-state pursuit that followed a daring holdup, denied bank robbery charges at his arraignment here last night. Kearney Leighton Hester, 33, of Lumberton, N.C., is held in the Darlington County jail under a \$25,000 bond. He is accused of a bold holdup yesterday morning which netted about \$5,000 from a Lake View bank. Hester was arrested at his Lumberton home shortly after noon in the climax to a swift sequence of events which followed the daylight robbery of the Lake View depository in the tiny border community. He is charged with willfully and feloniously taking \$4,873 at gunpoint from the depository. That was the sum recovered by alert deputies from a trash pile shortly after the holdup. Hester, who peddles false teeth in the border counties of the eastern Carolinas, requested a preliminary hearing at his arraignment. A hearing will probably be called within the next few days. The Federal Bureau of Investigation said Hester will be transferred to the Sumter County jail, the nearest federally-approved institution for long-term prisoners. The defendant lives in West Lumberton, N.C., and is employed by a Fayetteville dental laboratory. The lone unmasked gunman who entered the Lake View bank about 10:15 a.m. yesterday forced the cashier, Mrs. Corrine Stanley, to turn over money in the cash (Continued on page 20)

Two Elected To Red Cross Posts

Two Greenville women were elected as officials of the Camp Lejeune-Cherry Point Clinic for Red Cross Work at Camps and Hospitals in the organization's meeting here today. Mrs. James T. Little was re-elected Chairman of the Council and Mrs. Wesley Harvey was re-elected secretary. Both are to serve a one-year term. Mrs. Little has been active in Red Cross work for 16 years she has served on the Camp and Hospital Council, locally and council-wide, for 16 years. During World War II she served as Chairman of the Council for four years. She has also been chairman of the Red Cross Bloodmobile visit here two years and chairman of the Pitt County Canteen during World War II. Mrs. Harvey was elected secretary of the 14-county Council in 1956 for a two-year term. She also has been active in Red Cross work, having served as chairman of the volunteer workers during prior Bloodmobile visits. Both she and Mrs. Little have done extensive work during Red Cross fund drives in the past. The Council's semi-annual meeting is being held at the Greenville Country Club, beginning this morning at 11 o'clock. The meeting was divided into two phases, a morning-early afternoon business session and a luncheon at 12:45. Robert Lee Humber of Greenville was guest speaker at the luncheon. Mrs. Little, who presided over the two sessions, announced that the next meeting of the Council would be held at the Cherry Point Marine Base. The primary purpose of the Council is to provide means of entertainment for servicemen during Christmas and other holidays at the Cherry Point-Camp Lejeune Naval Hospitals. Included among the provisions are books, magazines, cookies, etc. Today's area meeting is being held to fill requests received by the Council and formulate plans for the coming six-month period. Chapters in the Council are: Washington-Beaufort County; Windsor-Bertie County; Southport-Brunswick; Morehead City-Carteret; New Bern-Craven; Kenansville-Duplin; Snow Hill-Greene; Trenton-Jones; Kingston-Lenoir; Williamston-Martin; Jacksonville-Onslow; Bayboro-Pamlico; Burgaw-Pender; Greenville-Pitt; and the Wilmington-New Hanover. Mrs. Hector McLean of New Bern was elected vice-chairman of the council.

Awaiting Report On Gen. Doolittle's Son

AUSTIN, Tex. (AP)—An official report was expected today on the death of Maj. James H. Doolittle Jr., 38, son of the famed general who led the first air strike against the Japanese mainland in World War II. Doolittle's body was found yesterday in his office. He had been seated in the right temple with a .33-caliber service pistol, found on the floor near his body. Bergstrom Air Force Base officials said. Col. W. D. Dunham, deputy commander at the Tactical Air Command base here, said an investigation report would show whether the wound was accidental or self-inflicted. He said there was no evidence of foul play. The major is the son of Lt. Gen. James H. Doolittle, who led the raid from an aircraft carrier to bomb Japan in 1942. He was in Puerto Rico when notified of his son's death. The major's wife Shirley said he had not been ill nor did she know of him being dependent.

No Evidence Of Radiation Harm

COLUMBIA, S.C. (AP)—The South Carolina state health officer said today that tests given six persons near an unarmored atomic bomb explosion last month showed no damaging radiation. The tests were given the family of Walter Gregg, who owned the garden where the bomb fell. It was accidentally dropped from an Air Force plane near Florence. Dr. G. S. T. Peoples, state health officer, released a letter from Dr. Donald R. Chadwick acting chief, Division of Radiological Health, the U.S. Department of Health, in Atlanta, informing him that urine analysis given the six were negative. Blood tests given earlier also proved negative, Peoples said. "No uranium could be detected in the (urine) samples," Chadwick's letter said. "Further tests are being made to determine if plutonium is present in the samples." Both uranium and plutonium are radio-active elements which could have adverse effects on the human organism. The Air Force, which examined the farm area immediately after the accident, said the threat of radiation was practically non-existent. The tests, Peoples said, were "routine" and done as a last precaution. No Trip To U.S. For Churchill LONDON (AP)—Sir Winston Churchill, still recovering from an attack of pneumonia and pleurisy last month, has canceled his trip to the United States. The 83-year-old statesman's secretary said last night Churchill informed President Eisenhower "with much regret he has felt obliged to cancel his visit." Churchill and his wife were to have gone to the United States late this month. He returned from the French Riviera last week and is now at his country home in Kent.

Public Hearings On Zoning Will Face Councilmen

A series of public hearings on the zoning of various new sections which have recently come into the city and other matters will face City Councilmen tonight. The city's governing body will meet in the council room at City Hall at 8 p.m. There are eight public hearings on the agenda for tonight's meeting. However, most of the zoning of new subdivisions is involved. The public hearings will involve the residential zoning of College Court Additions 1 and 2, Coghill Additions 3 and 4, Oakmont, property on the south side of Elm-Drum Ave., property on the north side of East Tenth St. and Edgemont. Also coming up for a public hearing is a request to re-zone a residential lot located on the southeast corner of Monroe and Tenth Sts. Under new business tonight, the council will be requested to re-zone a lot at the southeast corner of Third and Tyson Sts. The lot is presently occupied by a grocery store. However, it is zoned residential. The owner wishes the zoning changed to commercial so that improvements can be made. The city fathers will also act on a Planning-Zoning Commission recommendation that Watauga Ave. between Chestnut and Myrtle Ave. be closed. The street separates a property at West Greenville School and is now kept chained off in the daytime. The resignation of Tom Rivers as a member of the Planning-Zoning Commission will be considered by councilmen tonight. They will also hear of a plan to establish a Fire Prevention Bureau within the fire department. TOURISTS IN CUBA Roughly Treated MIAMI, Fla. (AP)—Travelers who saw violence erupt in yesterday's abortive rebel coup told of rough treatment and close calls. Two U. S. newsmen reported they were beaten by government police and soldiers. Neal Wilkinson, 37, a correspondent for the New York Daily News, said in Miami he was beaten on the arms and back by a national policeman with a "thing like a carriage whip," as he stood watching the police break up a group of youths who were chanting "Fidel, Fidel" (rebel chieftain Castro's first name) on the Prado. Wilkinson said the policeman beat him until he fled into his nearby hotel. Berna J. Brennan, 30, Moodus, Conn., a free-lance writer, said soldiers banged him with a gun butt and destroyed some of his film as he shot pictures of a machine-gun squad spraying an alleyway where they were trying to flush out rebels. Mike Manheim, Greensboro, N.C., who stayed at the Havana Hilton Hotel, said telephone service went off after a series of explosions Wednesday. Manheim said a policeman was driving pedestrians to cover with a bull whip.

Rebel Uprising Fails Gain Public Help; Havana Quiet

HAVANA, Cuba (AP)—Police shot on sight today as they pressed a roundup of rebels whose call for an armed uprising and general strike against President Fulgencio Batista flopped. About 35 persons were killed in the abortive uprising—which was confined to Havana and Mianzas, 63 miles to the east—and in the police hunt which followed. The continuing police search was expected to push the death toll higher. Havana was quiet. The heart of the city was without lights or gas because of rebel bombs. The government claimed quiet prevailed throughout the island. Rebel leader Fidel Castro's lieutenants said they would try again to overthrow Batista, "probably very soon." Instead of the 50,000 armed revolutionists the rebel chieftain had said would rise up, probably less than 200 answered the call. The rebels insisted the 2½-hour outbreak had been launched as a rehearsal for the long-promised all-out attack. But they were shocked and bitter that the public failed to heed their strike call, broadcast from briefly captured radio and television stations. In the government cleanup heavily armed national police shot to kill any nationalist suspected of carrying weapons. Two men were hauled from an automobile carrying 119 gasoline bombs and slain. Another was shot down when he hurled a gasoline bomb at a police car. By the time Havana quieted down around midnight, at least 20 rebels had been counted dead in the capital. Two policemen were killed in the suburbs and a number wounded. The outbreak was the first fighting in Havana since Castro called for "total, implacable war" against Batista beginning last Saturday. Most of the recent fighting has been in easternmost Oriente province. Castro's headquarters area, where his guerrilla forces have knocked out most road and rail traffic. Police raiders in recent weeks have captured a number of rebel arms caches in Havana. Some observers thought Castro's forces would have to strike in the capital soon or see their strength evaporate. Castro himself admitted his men were running low on arms and ammunition. Rebel leaders said only a trial maneuver was planned but hot-headed youths caused it to misfire. Insurgents had been instructed only to sabotage utility systems, force work suspensions and then declare the strike, the leaders said. But badly coordinated firing made it look like the big thing. First came the strike broadcast at 11:30 a.m., the beginning of Havana's three-hour lunchtime. About 75 rebels opened fire on police in the old port area while raiding parties knocked out some gas, electric and telephone services. Rebel snipers fired at police from rooftops in some districts. Block-to-block fighting failed to develop, however, and police were able to concentrate on the isolated rebel groups and scatter them. Army reserves were never needed. By 2 p.m. the outnumbered rebels were forced to abandon the fight. Most workers returned to their jobs after lunch, and the police counteroffensive began. Three persons were killed in Matanzas and a school was burned. The strike call broadcast there from a seized radio station brought no response.

Greenville and Wilson will join forces in presenting evidence to show need for area air service at Civil Aeronautics Board hearings. That was announced today by C. Wesley Harvey, chairman of the Pitt-Greenville Airport Commission. The CAB will conduct hearings on Piedmont Airlines Local Service Area Investigation in the near future. Earlier Greenville had requested permission to be represented at the hearings which will look into the air service needs of Eastern North Carolina. Since Harvey said, the local commission has held several meetings with the Wilson Airport Commission and plans for the two towns to appear jointly. Other Eastern North Carolina cities are expected to appear individually at the hearings to argue their air service needs. It's a part of a long battle to obtain better air facilities for the eastern section of the state. Two previous tries to establish an area airport to serve various cities fell through. Harvey said Greenville and Wilson joined in the fight because "we feel we will have a stronger case with the two towns together." He said no definite plans have been made about the location of an airport or exactly who it would serve. "The main thing is area service . . . to include all towns in this area," he declared. The Chamber of Commerce is sending out questionnaires to concerns in and around Greenville to obtain information that we will present in the case before the Civil Aeronautics Board. "We want to compile information that we can present at this hearing." Harvey urged the "fullest cooperation" of businessmen in completing and returning the forms. The questionnaire is being mailed out to determine the extent of air service use in this area.

Greenville, Wilson To Join Forces In Airport Hearing

Greenville and Wilson will join forces in presenting evidence to show need for area air service at Civil Aeronautics Board hearings. That was announced today by C. Wesley Harvey, chairman of the Pitt-Greenville Airport Commission. The CAB will conduct hearings on Piedmont Airlines Local Service Area Investigation in the near future. Earlier Greenville had requested permission to be represented at the hearings which will look into the air service needs of Eastern North Carolina. Since Harvey said, the local commission has held several meetings with the Wilson Airport Commission and plans for the two towns to appear jointly. Other Eastern North Carolina cities are expected to appear individually at the hearings to argue their air service needs. It's a part of a long battle to obtain better air facilities for the eastern section of the state. Two previous tries to establish an area airport to serve various cities fell through. Harvey said Greenville and Wilson joined in the fight because "we feel we will have a stronger case with the two towns together." He said no definite plans have been made about the location of an airport or exactly who it would serve. "The main thing is area service . . . to include all towns in this area," he declared. The Chamber of Commerce is sending out questionnaires to concerns in and around Greenville to obtain information that we will present in the case before the Civil Aeronautics Board. "We want to compile information that we can present at this hearing." Harvey urged the "fullest cooperation" of businessmen in completing and returning the forms. The questionnaire is being mailed out to determine the extent of air service use in this area.

authorities' plan—how halted—of paying a group headed by Powell and Mohn \$1,165,000 for a Goldsboro housing development, Seymour Johnson Homes. The group claimed ownership of the entire development because they had acquired, for \$39,010, the land on which it is built. A court action is expected to determine whether the authority or Powell and his associates own the property. "I hope very much," Hodges said, "that all 10 counties involved will take a new look at what is their responsibility to the public in this situation." The authority's board is made up of representatives of 10 eastern counties plus a member appointed by the governor. "The public does not know all the nuances and technicalities and it is up to public officials to clear up situations where right and wrong is concerned." Saying he does not want to paint a dark picture of the situation, the governor reported: "We have an investigation going on now based on a resolution of the authority to determine who owns the property." Asked for comment on Mohn's offer at the last meeting to relinquish his holding, the governor said: "...that does not change what the situation was."

'Disappointed' By Retaining Mohn

RALEIGH (AP)—Gov. Hodges said today he was disappointed in the refusal of the Eastern Carolina Regional Housing Authority to dismiss its assistant executive director, N.E. Mohn Jr. At a meeting Monday, the authority's board voted to retain him at least temporarily. An investigating committee recommended several weeks ago that Mohn and H. Emmett Powell, the authority's executive director at that time, be ousted from their posts. Powell resigned at a meeting of the authority a month ago. Mohn submitted his resignation, but the authority voted against accepting it immediately. "I was disappointed. I don't claim to know what is happening either," he openly or behind the scenes. The governor cited the report of the investigating committee and called attention to its recommendation that both Mohn and Powell be fired. The Committee investigated the

Itchy-Fingered Payroll Clerk Gave Himself Up

NEW YORK (AP)—A young payroll clerk got itchy fingers, waded out of his office with envelopes containing \$4,247, hopped a plane to Chicago, and then thought better of the whole thing. He phoned back and asked: "What should I do, mama?" "Come back and give yourself up," his mother advised. And that's what he did, said police, who gave this account today: Richard Thielo, 21, of Astoria, Queens, soon to be married, received the money from the crew of an armored truck to distribute to 56 employees of the Extruded Film Co., Astoria. Notified that Thielo was coming home, detectives waited for him at La Guardia Field last night. He handed over all of the payroll money except \$30. He was arrested on a grand larceny charge.

Dream Leads To Husband's Body

CHARLOTTESVILLE, Va. (AP)—Searchers had probed the Rivanna River without success for the body of R. D. Barnette, 33, since last Thursday. Barnette, and Harry Lee Martin, drowned when their boat capsized while fishing. Martin's body was found Friday. Tuesday Mrs. Barnette told searchers she dreamed Barnette's body would be found near a large rock about 100 yards from where he disappeared. Three fellow dairy workers of Barnette's grappled near the rock yesterday. They recovered his body.

Khrushchev Ends His 8-Day Visit In Hungary

MOSCOW (AP)—Soviet Premier Nikita Khrushchev returned to Moscow today after an eight-day visit to Hungary. Despite rainy weather which kept many other planes away, his TU104 jetliner landed only 43 minutes late. In his farewell to Budapest Khrushchev asserted that the Hungarian working class will defend Communist rule in Hungary against any attempt to overthrow it. "If anyone again makes an attempt against the Revolution, the Hungarian working class will show that the dictatorship of the proletariat exists and will remain in Hungary," he said. A crowd of several thousand saw the Soviet chieftain off with considerably more enthusiasm than on his arrival. There was no prolonged applause or cheering, however. Khrushchev said his delegation and Hungary's Communist leaders had reached "complete unity of views on every question of domestic and foreign policy." The visiting Soviet Premier disclosed his plans yesterday in a speech at the big Csepel steel works, a center of the 1956 revolt. Workers were noticeably uninterested and left for lunch by the thousands as he spoke. Authorities apparently did nothing to stop them. As outlined by Khrushchev, the conference would have two aims: getting the Communist bloc countries to cooperate with one another as well as with the Soviet Union and speeding up their industrial specialization to integrate individual countries' production into an over-all pattern.

Sen. Scott Said In Good Shape

BURLINGTON, N.C. (AP)—North Carolina's tobacco-chewing junior senator, W. Kerr Scott, was reported progressing satisfactorily today after a heart attack suffered yesterday. But Dr. G. W. Blair said Scott's condition is serious because all heart attacks are serious. The doctor, a specialist in internal medicine, said Scott rested well and suffered no pain during the night. The 61-year-old, 180-pound former governor was reported alert this morning, laughing and talking with his brother-in-law, Dr. George L. Carrington who is chief surgeon at the Alamance General Hospital. Dr. Blair said Scott, a Democrat noted for his wisecracking ability and devotion to state farm interests, was annoyed by one thing. "He didn't take too kindly to my stopping his tobacco," Scott is almost always chewing a plug or puffing a cigar. Scott suffered a coronary thrombosis yesterday while he and Mrs. Scott was taking care of drivers' license renewals at nearby Graham. They live on a big dairy farm at nearby Hawfields. After Mrs. Scott noted he was prepping a great deal, they drove to the Graham office of Dr. C. W. Crissman and Scott was examined. Dr. Crissman called in Dr. Blair, who said a cardiogram showed the thrombosis, the formation of a blood-impeding clot in the heart. Scott was then taken to the hospital and Dr. Blair said a full report on Scott's condition would have to await further examination and analysis. Friday the senator said he recently had reduced his weight to about 175 or 180 pounds after doctors ordered him a year ago to go on a diet. Scott's illness immediately drew political speculation in Raleigh as to whether, in view of his age, he might take to the sidelines in the Democratic primary of 1960. However, nobody was counting him out. The man considered a likely opponent for his seat, Gov. Luther H. Hodges, commented from Raleigh: "I know I speak for all North Carolinians in expressing hope that he will soon be able to resume his services in the U.S. Senate." More than 100 persons, including a television clown and a baby in a stroller, were on hand when Truman took off for a 15-minute walk at 7:30 a.m. Youngsters walked so close behind that Truman, never missing a step, said: "Boys, I wish you'd keep off my heels. You might pull my shoes off." And, to the people dallying in front of him in the clear, crisp weather: "Boys, if you can't keep up in front, keep behind." The 73-year-old Truman answered snapped questions in his ear. Should America stop nuclear testing? "No, when you're doing a scientific experiment, you don't quit in the middle. You don't have any trouble getting an answer from me." Had he considered running for the presidency in 1960? "No. How could I do that at 73?" Did he think the Republican party considered itself sacrosanct? "It's characteristic of us. They think they're next to God, but they aren't." The crowd—now mostly Yale students' newsmen and other adults—milled about Truman at the end of the walk. Truman made a parting speech: "I hope this has not just been a show for you. I hope it's a practice (early morning walks) you'll all keep up."

Truman Briskly Talks And Walks With Big Crowd

NEW HAVEN, Conn. (AP)—Girls in pigtails, boys with schoolbooks and their parents all gathered around today to accompany the gentleman from Missouri on his morning walk. And former President Harry S. Truman spoke to them with a chuckle: "I enjoy this. The bigger the crowd, the better I enjoy it." More than 100 persons, including a television clown and a baby in a stroller, were on hand when Truman took off for a 15-minute walk at 7:30 a.m. Youngsters walked so close behind that Truman, never missing a step, said: "Boys, I wish you'd keep off my heels. You might pull my shoes off." And, to the people dallying in front of him in the clear, crisp weather: "Boys, if you can't keep up in front, keep behind." The 73-year-old Truman answered snapped questions in his ear. Should America stop nuclear testing? "No, when you're doing a scientific experiment, you don't quit in the middle. You don't have any trouble getting an answer from me." Had he considered running for the presidency in 1960? "No. How could I do that at 73?" Did he think the Republican party considered itself sacrosanct? "It's characteristic of us. They think they're next to God, but they aren't." The crowd—now mostly Yale students' newsmen and other adults—milled about Truman at the end of the walk. Truman made a parting speech: "I hope this has not just been a show for you. I hope it's a practice (early morning walks) you'll all keep up."

Asheville Plant Plans Expanding

ASHEVILLE, N.C. (AP)—The Kearfott Co. plant here, manufacturer of precision instruments used in the Jupiter C missile, will expand its operations to include 1,000 workers. The plant produces airborne components for planes and missiles, and is a subsidiary of General Precision Equipment Co. of New York. It will be enlarged from 27,000 square feet to 81,000 square feet and will increase its workers from a force of 470 to 1,000. The annual payroll is expected to jump from \$1,250,000 to three million dollars annually.

PLANS INTERRUPTED SUNNYSIDE, Utah (AP)—Death interrupted James M. Ricketts' plans for a birthday celebration when he died in a fall down an air shaft being constructed at the Kaiser Steel Co. coal mine near here the night before he had planned to celebrate his 42nd birthday with his family.

NATURAL STATE

DENVER (AP)—An elderly man, applying for admission at Denver General Hospital, looked puzzled when Admissions clerk Carolyn Schepker asked, "What was your state of birth?" The oldtimer scratched his head and answered, "Nude, I guess."

Alert After Restful Night; Isn't Taking Tobacco Ban 'Too Kindly'

BURLINGTON, N.C. (AP)—North Carolina's tobacco-chewing junior senator, W. Kerr Scott, was reported progressing satisfactorily today after a heart attack suffered yesterday. But Dr. G. W. Blair said Scott's condition is serious because all heart attacks are serious. The doctor, a specialist in internal medicine, said Scott rested well and suffered no pain during the night. The 61-year-old, 180-pound former governor was reported alert this morning, laughing and talking with his brother-in-law, Dr. George L. Carrington who is chief surgeon at the Alamance General Hospital. Dr. Blair said Scott, a Democrat noted for his wisecracking ability and devotion to state farm interests, was annoyed by one thing. "He didn't take too kindly to my stopping his tobacco," Scott is almost always chewing a plug or puffing a cigar. Scott suffered a coronary thrombosis yesterday while he and Mrs. Scott was taking care of drivers' license renewals at nearby Graham. They live on a big dairy farm at nearby Hawfields. After Mrs. Scott noted he was prepping a great deal, they drove to the Graham office of Dr. C. W. Crissman and Scott was examined. Dr. Crissman called in Dr. Blair, who said a cardiogram showed the thrombosis, the formation of a blood-impeding clot in the heart. Scott was then taken to the hospital and Dr. Blair said a full report on Scott's condition would have to await further examination and analysis. Friday the senator said he recently had reduced his weight to about 175 or 180 pounds after doctors ordered him a year ago to go on a diet. Scott's illness immediately drew political speculation in Raleigh as to whether, in view of his age, he might take to the sidelines in the Democratic primary of 1960. However, nobody was counting him out. The man considered a likely opponent for his seat, Gov. Luther H. Hodges, commented from Raleigh: "I know I speak for all North Carolinians in expressing hope that he will soon be able to resume his services in the U.S. Senate." More than 100 persons, including a television clown and a baby in a stroller, were on hand when Truman took off for a 15-minute walk at 7:30 a.m. Youngsters walked so close behind that Truman, never missing a step, said: "Boys, I wish you'd keep off my heels. You might pull my shoes off." And, to the people dallying in front of him in the clear, crisp weather: "Boys, if you can't keep up in front, keep behind." The 73-year-old Truman answered snapped questions in his ear. Should America stop nuclear testing? "No, when you're doing a scientific experiment, you don't quit in the middle. You don't have any trouble getting an answer from me." Had he considered running for the presidency in 1960? "No. How could I do that at 73?" Did he think the Republican party considered itself sacrosanct? "It's characteristic of us. They think they're next to God, but they aren't." The crowd—now mostly Yale students' newsmen and other adults—milled about Truman at the end of the walk. Truman made a parting speech: "I hope this has not just been a show for you. I hope it's a practice (early morning walks) you'll all keep up."

# Many To Attend Fine Arts Ball

Reservations have already been received from New Bern, Rocky Mount and other nearby communities for the Fine Arts Costume Ball which will be held tomorrow from 9 p.m.-midnight in Wright Auditorium, college campus.

George Perry, floor show chairman, announced this morning that the evening's entertainment will include solo by Barbara Harris, soprano, music major at the college, and August Laube, basso, choral director at J. H. Rose High School.

A duet will be rendered by George Knight and Dottie Jo James of the college and Bettie

Lane Evans of Greenville will sing a solo.

Inez Laube, ballet instructor, will present six of her pupils: Sue Foscoe of Mayville and Cheryl Quasnick, Susan Orringer, Sherry Ann Wooten, Jackie Yeater and Georgia Parrot of New Bern in two ballet numbers, "Inspired From the Paintings of Degas" and "Dance of the Four Little Swans," from Swan Lake.

Many far-away places—India, Korea, Mexico, China, Japan, Hawaii, England, Spain, and France—will be represented in costumes at the ball. The subjects cover just as wide a range

Grand Opera, legend, the stage, mystery, dancers, paintings, artists, fairy tales, and poetry.

Everyone is invited to attend the dance, if not in costume, then dressed in formal or semi-formal attire. Tickets may be purchased in advance or secured at the door.

After the grand march, which begins at 9:30 p.m., costumes will be judged and the winners named.

This social event is being held in observance of the 23rd Annual Community Arts Festival which is being held in Greenville until May 8.

# Social Notes

Mr. and Mrs. O. E. Dowd, Mrs. Burke Stancil, Mrs. R. L. Wolfe and Miss Jane Hadley are attending the International Convention of the Association for Childhood Education in Atlantic City, N. J. this week. Prior to the convention they spent two days sightseeing and attending the theater in New York.

Mr. and Mrs. S. E. Briley Jr. are visiting Mr. and Mrs. S. E. Briley, 2411 Slay Drive. Mr. Briley recently graduated from Airborne School at Fort Benning, Ga.

Mr. and Mrs. John G. Jones and children, Kenneth and Deborah, and Miss Evelyn Jones spent the Easter holidays in Takoma Park, Md. visiting relatives.

Mr. and Mrs. A. D. McArthur Jr. have returned to their home, Route 1, Greenville, from Fort Sill, Okla. McArthur has graduated from the Field Artillery Officers Basic Course at Fort Sill.

Mr. Robert L. Wheeler and children of Rockford, Ill. are visiting Mr. and Mrs. Luther Moore.

# Druidian Garden Club Stages Hawaiian Breakfast Yesterday

The home of Mrs. J. G. Welland Jr. was the setting for a Hawaiian breakfast Wednesday morning.

As each member arrived she was greeted with a traditional Hawaiian lei and a slip of paper with an island flower's name written on it. The names were placed in a monkey-pod bowl and a lucky winner drawn. Mrs. Mike Erocato, winner, was given 20 imported bulbs. Mrs. Arthur Miller was winner of another game and was given a potted plant.

Mrs. Aaron Baxter presided at the short business session and announced that the Druidian Garden Club arrangement entered in the Lakewood Pines March 20 flower show had won a blue ribbon. A picture of the arrangement together with the blue ribbon will be placed in the club's scrap book.

Mrs. Welland, in charge of the program, discussed Hawaiian flowers and how they had become a big business in the islands.

hibiscus is the official flower of the Territory inasmuch as we usually associate the orchid with the islands, and would assume that it would be their selection.

"There are nearly 900 kinds of flowers, plants, trees, and vines native only to the Hawaiian Islands," she told the group. Mrs. Welland ended the program by demonstrating an Hawaiian flower arrangement—where they take only the blossoms, preferably hibiscus, and push a number of them on one coconut frond stick to resemble gladioli. Seven of these sticks filled with blossoms make a large bouquet.

Mrs. John Blankenship, co-hostess, poured coffee and served a variety of pastry with fresh pineapple and ham kabobs. In the living and dining rooms arrangements of daffodils, camellias, pansies, hyacinths, forsythia, and flowering quince were used.

## For Breakfast, The Clock Turned Back

A BACKWARD LOOK . . . into the 1900's was evident this morning when employees of Penney's Department Store attended a breakfast dressed in costumes they made in observance of the 56th anniversary of the store. Seated above, left to right, are Mrs. Christine Windham and Mrs. Marie Valright. Standing is Richard Meeks. (Reflector Photo by Anne Singleton)

# Greenville Man Marries In Roanoke Church Rites

Mr. and Mrs. Sam D. Robinson of Woodlawn, Va. announce the marriage of their daughter, Ann Carol, to Charlie Robertson Mitchell, son of Mrs. Florence Mitchell of Norfolk, Va., and Mrs. Leslie B. Mitchell of Portsmouth, Va.

The wedding took place on April 4 at four o'clock in the Northminister Presbyterian Church, Roanoke, Va., with the Rev. Peter G. Cosby, III, officiating. Only members of the immediate families were present.

The bride is a graduate of Radford College, Radford, Va., where she was a member of Pi Kappa Sigma Social Sorority.

The bridegroom is a graduate

of Greenville High School and Virginia Polytechnic Institute. He is now employed as an instructor at West Virginia University, Morgantown, West Virginia.

Mr. Mitchell is the grandson of Mrs. C. A. Robertson and brother of Leslie Mitchell of Greenville, who attended the wedding in Roanoke.

Shake small flower seeds in flour before planting. This will give them a white coating and after you have dropped them in the rows you will be able to see them and can space them as you wish to.

# 4-H Dairy Foods Contest To Be April 12

On Saturday the County 4-H Club Dairy Foods Demonstration Contest will be held at 10 a.m. in the Agriculture Building on Johnston Street.

Approximately 30 girls are expected to participate. Each of these girls has demonstrated the use of milk at her local 4-H club April meeting.

Refreshments will be served and awards given by a local dairy. The county winners will be announced at the conclusion of the contest. All participants are encouraged to arrive by 9:30 a.m. and parents and friends are invited to attend at 10 a.m.

Births

Health

Born to Mr. and Mrs. Frank Carson Heath, 1906 VanDyke St., a daughter, Teresa Ann, April 9 at Pitt Memorial Hospital.

Bland

Born to Mr. and Mrs. Calton W. Bland, 805 East Third Street, Ayden, a daughter, Beverly Elaine, April 9 at Pitt Memorial Hospital.

Roache

Born to Mr. and Mrs. Marvin Earl Roache, 186 West Gum Road, a son, Marvin Earl Jr., April 10 at Pitt Memorial Hospital.

Blouse Tales

Do you have trouble keeping the tails of blouses in your little girl's skirts? This can be avoided by simply lining the skirt belts with velvet.

Use pineapple, lemon, orange or grapefruit juice for dipping fresh fruits that you do not wish to discolor.

# Social Security, Wills To Be Explained At Meet

Kenneth Whichard, director of Social Security in Pitt County, will tell homemakers the new amendments to the social security law at the adult meeting in the Home Economics Department at J. H. Rose High School Thursday at 8 p.m.

Wills and inheritance laws will be discussed by M. E. Cavendish.

local attorney, who will appear on the panel with Whichard.

Mrs. Rebecca M. Smith, vocational homemaking teacher, will be the moderator. Miss Ruth Turnage and Miss Roselyn Waters, student teachers from East Carolina College, will help with serving refreshments.

These meetings are free to the public as a service of the Vocational Division of the Department of Education. Men are welcome to attend.

The next meeting will be the last in the series of six. The topic is "Decorate with Ease" and will be April 17 at 8 p.m. at the J. H. Rose High School Homemaking Department.

# Shower Honors Recent Bride

Last Tuesday night Mrs. Charles Mills, the former Miss Louise Shaw, bride of February, was honored with a bridal shower.

The hostesses were Mrs. Stuart Savage, Miss Carolyn Tripp, Miss Barbara Conway, Miss Jane Fuller, and Mrs. Lee Reynolds. The party was held at the home of Mrs. Berry Sumrell on West Third Street.

As the guests arrived, they were greeted at the door by Miss Conway and Mrs. Mills and ushered into the living room.

A combination bridal and Easter theme was carried out in the decorations. A color scheme of green and yellow was accented with scattered arrangements of spring flowers.

Featured on the coffee table were the figures of a bride and bridegroom and the mantel arrangement was complimented with burning candles on each end.

The guests participated in bridal shower games with the winners receiving prizes of Easter candy. After the games were completed, the honoree was shown to a table that was centered with a large bride doll and laden with gifts. The hostesses' gift was a spray and steam iron.

Refreshments consisting of bridal cup cakes, nuts, chocolate and candy Easter eggs, and punch were served to the guests.

For the occasion, Mrs. Mills wore a cocoa brown sheath dress of silk shantung with beige accessories. A lavender orchid corsage completed her outfit.

Goodbyes were said by Mrs. Savage and Mrs. Reynolds.

# Mrs. Worthington Hostess At Party

GRIFTON—On Thursday night of last week Mrs. Becky Worthington entertained at a party at her home on Cannon Blvd. to honor John L. Glenn Jr. of Kingston at a surprise birthday celebration.

The home for the evening was decorated with golden bell, spirea, and daffodils.

Four tables were arranged for bridge in the living room and as the guests assembled they were shown their places and the guest of honor opened the gifts. The high scorers for the evening were Mrs. Conrad Hart and George Gardner Sugg.

# Carson Family Reunion

BETHEL—Sunday the late Sammie Carson family reunion took place in the home where his widow and oldest daughter, Mrs. Henry Rogerson and family, live.

Mrs. Carson's three children, Ralph Carson, his wife and children; Lillian Carson Rogerson, her husband, children and four grandchildren; and Mrs. Frances Carson Whitehurst, her husband and daughter were present for the occasion. Throughout the house the Easter theme was expressed.

For this week only—

# 30 Years Ago Today

April 10, 1928

Little Miss Mary Dorcas Harding of this city was last night selected Junior Queen of Eastern Carolina Exposition at Goldsboro. The coronation ceremony will take place at the exposition tonight and little Miss Julia Woodson Gaylord, daughter of Mr. and Mrs. L. W. Gaylord of this city, went to Goldsboro today to act as maid of honor to the new queen at the crowning.

# Baptist WMS Fetes Choir With Buffet

BETHEL—As an expression of gratitude to the choir for their service given throughout the year, the Woman's Missionary Society entertained them Friday night in the recreation room of the church with a buffet supper.

The college students, members of the church who were home for the Easter holidays, were also honored guests. Mrs. C. E. Brown gave the words of welcome and Mrs. W. E. Andrews gave the response. Mrs. T. N. Cooper said the invocation.

# Club Makes Final Plans For Trip

Mrs. R. P. Rogers, president of the Fine Arts Department of the Woman's Club, presided over the business meeting held Tuesday afternoon when final plans were

made for a trip to the Art Museum, Raleigh, May 13. This trip will represent the club's last meeting until the fall.

## Art Notes

Miss Lillah Gant will be presented by the Fine Arts Festival Committee at 3 p.m. April 17. This talk on textile designs will be given in the Sheppard Memorial Library auditorium. Mrs. J. C. Galloway Jr. will preside.

**Two Hundred Years of Textile Design**—Textiles featuring the 18th and 19th centuries in France, England, and America from the Sealmaundre Museum of Textiles in New York is on exhibition at the Art Gallery in Sheppard Memorial Library. The gallery is open from 2-5:30 p.m.

**Fine Arts Ball**—The Wright auditorium will be the setting for "The Fine Arts Ball" Friday from 9 p.m.-12 midnight. Copies of the old art masters, dramatic scenes from well known plays, and a delightful musical atmosphere will be used for this occasion.

**College Art Exhibits**—On the main floor of Joyner Library during this month is Angel Adams' Photographs (Mus. of Mod. Art). Also showing are students' exhibits of David Wheeler, Joe Stell, Evelyn Walton, Anne Hughes, and Sydney Cash.

**College Art Exhibits**—On the main floor of Joyner Library during this month is Angel Adams' Photographs (Mus. of Mod. Art). Also showing are students' exhibits of David Wheeler, Joe Stell, Evelyn Walton, Anne Hughes, and Sydney Cash.

"Hobbies" was the topic of the program presented by Mrs. J. L. Savage who said, "Everyone needs a hobby, as it is a grand outlet as well as good mental therapy. It gives one great satisfaction and can also be profitable."

The club met at the home of Mrs. W. E. Rosevere in Lakewood Pines. Mrs. E. W. Barnhill and Mrs. James Worsley served as assisting hostesses.

A dessert course, minis, and nuts were served the guests in the dining room where Mrs. Rogers poured coffee from an appointed table.

**Bethel Student Named President**—Miss Barbara Whichard, daughter of Mr. and Mrs. W. F. Whichard, has been selected to serve as president of the Phi Omicron, the Home Economics honorary club, during her senior year at East Carolina College.

To obtain membership one must maintain a high scholastic average, have high standards of personal conduct, possess definite qualities of leadership, and be approved by members and faculty.

## Meetings . . .

**Home Department To Meet**—Mrs. Julia Harris, beautician, will give the program on "Being Well Groomed" when the Home Department of the Woman's Club meets at the home of Mrs. Ed Ricks Friday at 3:30 p.m. Hostesses will be Mrs. Ricks, Mrs. Jasper Tripp, Mrs. Tige Gardner, Mrs. C. D. Ward, and Mrs. W. J. Bundy.

**P. H. Auxiliary Bake Sale To Be Friday**—The St. Paul Pentecostal Holiness Woman's Auxiliary will hold a bake sale Friday afternoon from 2-5 p.m. at Overton's Super Market, corner of East Third and Jarvis Streets.

A variety of cakes will be offered, as well as pies, cup cakes and fudge candy. Proceeds of this sale will be used to complete the interior of the church recreation building.

**Miss Haynes Feted At Informal Dance**—GRIFTON—Miss Mary Jo Quinley and Miss Carolyn McCotter entertained at an informal dance Saturday night at the community building for a number of their friends to compliment Miss Betsy Haynes of Pittman, N. J., who was here for the Easter weekend.

Spring flowers were used as decorations. Mrs. R. B. McCotter and Mrs. J. L. Quinley assisted in the entertaining and serving refreshments consisting of minis, nuts, potato chips, and iced drinks.

# Club Goes On Trip Via Slides

Mrs. J. H. B. Moore, Sans Souci Book Club speaker, gave a vivid insight of the Scandinavian countries she visited last summer when the club met Tuesday afternoon at the Woman's Club.

To illustrate her talk, Mrs. Moore showed slides of mountains, lakes, gardens, native people against their natural backgrounds, and cities of monuments, cathedrals and massive buildings.

Her other pictures included views of Shakespeare's and Sir Walter Scott's homes and the crown jewels.

Mrs. Bruce Sugg, club hostess, introduced Mrs. Moore.

A two-course luncheon was served prior to the program from tables placed throughout the living rooms.

Guests for the afternoon were Mrs. Mary Harding, Mrs. Lottie Butner, Mrs. J. T. Marston, and Mrs. G. J. Garrett.

After a short business session and the passing of books, the meeting adjourned.

## Revival Services

The revival at the Greenville Free Will Baptist Church continues to receive great blessings from the Lord. The services are held each day at 10:30 a.m. and 7:30 p.m. This revival is characterized by fervent prayers, Biblical preaching, gospel singing, and the power of the Holy Spirit. Rev. Bobby Jackson is the evangelist for the revival. Rev. B. B. Crawford, pastor, invites the public to prayerfully attend this revival campaign.

# Popular Appreciation Of A Need

"An opportunity for something far greater in Eastern North Carolina" . . . that was the way the late Dr. Walter Humbert described his dream of a mental health wing at the Pitt County Health Department.

The Pitt Board of Commissioners has agreed to the extent of putting \$10,000 of county money into the project. That, combined with \$20,000 of State money, and a memorial fund, will do the trick . . . we hope.

And what will Eastern Carolina have when the mental health wing is completed? A rare and useful base of operations for expanding the benefits of mental health service that has won wide acceptance far beyond the borders of Pitt County.

The need for a mental health service in Eastern Carolina has been long evident, but the extent of popular recognition and appreciation of that need has become apparent since the establishment of the Pitt Mental Health Service.

In recent days a group of interested Wilson County people were told the Pitt Clinic is booked for six months and at present can now accept only Pitt Counties due to the local need. It was acknowledged that Wilson County's need was as great, and the result was formation of a Wilson Mental Health Association.

A safe assumption would be that they too will seek to establish a clinic, or at least to broaden the scope of now available mental health service.

# Joint Study Of Fire Dangers

By LYNN NISBET

**GROUND FIRES** The North Carolina Forestry Division, the United States Forest Service and private industry have launched a co-operative campaign of research and experiment in the control of underground fires. Smoldering peat beds beneath the surface make the fighting of forest fires difficult and hazardous, as well as causing tremendous property loss. Such fires have raged for months at a time in the marshy lands adjacent to the Albemarle and Pamlico sounds, stubbornly resisting efforts to stop the burnings.

The current program is in two parts. Basic research, under supervision of the South Eastern Forest Experiment Station at Asheville, in types of soil, depth and consistency of the combustible deposits, wind currents and velocity, and other factors.

The development of experimental phase is directed by the Forestry Division of the Department of Conservation and Development. It consists of test of different kinds of fire deterrent chemicals, water, dynamite and canals.

The division has on loan from the U.S. Forest Service a TBM (torpedo bomber medium) airplane with capacity for carrying 400 gallons of water or liquid chemicals. This plane is based at New Bern and will be available for at least the best of this month.

The plan is to set a few small fires in areas where there is little if any danger of getting out of control and test different methods of fighting them.

Land owners in the area, mostly big pulp and paper companies, are underwriting a large part of the costs of the research and experiments. Forest fires, including the subterranean kind, have cost millions of dollars in recent years.

"PUT OUT" — Mention of forest fires recalls an interesting story told by Justice William B. Rodman Jr. Some years ago as attorney for a railroad he was defending a suit for damages resulting from a forest fire allegedly caused by sparks from a locomotive. Lawyer Rodman didn't have any good witnesses of his own, so he had to rely on the plaintiff testimony. The smart lawyers from up north were smug as cats which had the canary inside them. Their witnesses testified that they saw certain employees of the plaintiff company "put out the fire." The visiting attorneys understood that to mean the men had extinguished the fire. Lawyer Rodman, who knew the local lingo, let them talk and gloat. Then he adroitly elicited the information that what the witnesses meant was that they saw the other men start the fire. To them "putting out the fire" meant setting it or putting it into action, etc. If they had meant "die out the fire" they would have said that.

So the awareness of need, and the necessity to "do something" in the field of mental health is more than a surface phenomenon. The roots are there, and spreading.

For Eastern Carolina, the Pitt program remains the keystone and the example for others to emulate. Our progress is the result of long, patient work; a great goal, and a steady march toward that goal.

Money for this new mental health wing the Board of Commissioners has approved, is a mighty step forward. We're confident it does pave the way for "an opportunity for something far greater in Eastern Carolina."

# A Retired General Who Has A Mission

Retired Army Gen. James M. Gavin has a story to tell the American people about the nation's space development program. Whether he gets his point across remains to be seen; but the former three-star officer has wasted no time in getting into his self-assigned task.

After criticizing the Army's space development program before the Senate Preparedness Committee, Gen. Gavin announced he was retiring his post. Said the former chief of Army research and development, "I can do the Army more good from without than within."

Less than two weeks after his formal retirement, Gen. Gavin has begun his campaign by warning that the United States must do "a lot better" if it is to catch up with Russia in the race for outer space developments. The size of Russian satellites, he says, indicates Russian superiority in space vehicle development. "You can put men into the big ones."

Gen. Gavin should be in a position to evaluate the relative positions of the United States and the Soviet Union in space development. He should also be in a position to know where the United States has thwarted its own development program as he has asserted it has.

What he can do about it is another matter. From the outside Gen. Gavin can criticize and recount the mistakes that have been made. He can urge policy and program changes to speed up the Army's space development program. But can he get sufficient public support to get them across? Will he find sufficient willing ears at the grass roots level and in the top echelons of government to listen to his story? Gen. Gavin's story should be heard and carefully considered.

# Lesson Learned By State Dept.

By JAMES MARLOW

WASHINGTON (AP) — It's taken the Eisenhower administration four months, eight letters and three notes to wake up to the idea it might be smarter to answer the Soviets a little faster.

The Soviets have been giving the administration a propaganda clubbing and Tuesday Secretary of State Dulles said the administration was trying to speed up its operations so the Soviets will not have the play all to themselves so long.

Last fall the Soviets scored an overwhelming propaganda victory by launching their Sputniks. It took this country months to get its own satellites aloft. Last December the Soviets started making more propaganda for themselves. On Dec. 10 Premier Bulganin, in a letter to President Eisenhower, represented the Soviet Union as a big peace-lover that wanted negotiations and a summit talk to straighten things out.

It took Eisenhower more than a month to answer. In that time the Soviet Union stood before the world as the one proposing peaceful negotiations while this country tried to think up an answer.

Eisenhower finally wrote Bulganin Jan. 12. But by that time Bulganin had sent him another letter. This was Jan. 8. On Jan. 20 Eisenhower answered Bulganin's second letter with a 40-word note.

Bulganin sent another letter Feb. 1. It took Eisenhower 14 days to answer that one.

On Feb. 28 the Soviets sent a note — not a letter from Bulganin — on a summit get-together. The United States answered this March 6. But the next day, March 7, Bulganin sent Eisenhower another letter. And on March 24 the Soviets answered the American note with a second note of their own.

Meanwhile Bulganin was fad-

ling from the picture. Nikita Khrushchev became premier. Very quickly the Soviets made another propaganda score.

With the whole world worried about nuclear tests, the Soviets announced they would stop their nuclear tests. This time the State Department was ready and fired off an answer immediately.

Then on Friday Khrushchev sent Eisenhower a note on stopping nuclear tests. Eisenhower answered him Monday. Dulles, when he appeared before his news conference yesterday — seemed proud Eisenhower had answered so fast: within four days, which included the Easter holidays.

Dulles has publicly acknowledged the Soviets have been knocking our propaganda pants off. Even Eisenhower at his news conference last week admitted maybe we could have handled ourselves better.

He tossed out the idea of putting a psychological war expert into the State Department. But Dulles is boss there. He runs it pretty much as a one-man show. And at his news conference yesterday he brushed aside the Eisenhower idea.

He said this country can't include in the kind of propaganda the Soviets use, and went on to explain the State Department's attitude now on the Soviet notes. He said: "I think on the whole that it is important to deal with these things quickly. I think that what we did over the Easter weekend is a demonstration that at least in one respect we are trying to speed up our operations so as not to give the Soviet propaganda line a free run for so long a time as has often been the case in the past . . ."

"I have had a great deal of experience that we are improving our techniques somewhat . . . in terms of trying to get our viewpoint more quickly and more effectively."

# Stars Have It Rugged

By HAL BOYLE

NEW YORK (AP)—One of the oddities of the entertainment world is that after you become a star you spend less time being one than being one.

For every working hour a star spends in the limelight he puts in at least two more trying to remain a star.

Take Abbe Lane, for example. The peppery cinnamon head, Brooklyn's gift to the Latin term, has done about everything in show business except sell popcorn or carry a spear for the Metropolitan Opera.

She started in radio at the age of 6. She has been a top dance band singer, starred on Broadway and been featured or starred in 24 dozen movies here and abroad.

Currently she puts in 20 hours a week onstage in a musical comedy hit, but she spends at least 40 more hours each week on offstage duties, and she's come to feel that a star has more chores than a farm boy.

"It's more work than I thought it would be," she admitted at lunch the other day. "It was easier to be in the chorus, where your big worries are over when the curtain goes down."

Her working schedule leaves her little time for the supposed glamor of a star's life.

"I'm on the go from 11 a. m. to 5 p. m. every day doing things concerned with my career," she remarked.

Doing what? Writing business letters, going to personal appearances, luncheons, being photographed and interviewed, giving benefits, reading hundreds and hundreds of new scripts, hoping to find the right one, holding conferences — usually heated — with agents.

"I have three agents—one each for television, stage, and the movies," said Abbe. "Each one naturally wants to take over your whole life, and agents are strong-minded people who know how to do it."

When I now have to spend an hour a day vocalizing—to exercise my voice. A singer has to warm up her voice just as a dancer does her legs.

"But I didn't have to do that when I first started. I just shook my hips for 10 minutes, and I was ready to sing."

Abbe is so wound up by the time her show ends up that it takes her until 2 a. m. to unwind and fall asleep. She gets from eight to nine hours sleep every night, says she has to "merely to survive."

"I all this sounds like Abbe isn't willing to pay the price of stardom, the implication isn't fair to her."

"I have a consuming passion for my work," said Abbe, who doesn't mind pleading guilty to being a stardom addict.

How have she and her husband, bandleader Xavier Cugat, been able to combine separate careers so successfully?

"Cugie bends," she answered frankly. "He can mold his career to fit mine to some extent, because he can play anywhere in the world. I have to go where the best role is. But he knew when he married me I wanted a career, and he accepted it."

"It isn't the material things I want out of life. Cugie can give me these."

"I want to be accepted as a rounded, accomplished actress. I want to be looked up to and respected — not be just another sex find."

# Quote . . .

"One reason it's hard to get men to church is that they're not interested in what other men are wearing."—Gastonia Gazette.

# Strength For Today

By EARL L. DOUGLASS  
GOOD AND EVIL MIXED

We are often disconcerted by the fact that the secular, unregenerate world duplicates some of the good results of religious faith. Sometimes ungodly people do good things and do them even better than the godly.

One of the worst scamps that ever lived was Richard Wagner, the composer. Yet he has written music which we can well believe is more like the music of heaven than anything else that ever came from the pen of a human. Francis Bacon is the father of modern research, yet Bacon was so corrupt in his public life that his fines alone amounted to almost \$150,000. On the other hand, King George III was one of the best-living and godly monarchs of all time. Yet

# Poor Timing For An Entrance

By DON SCHLIENZ

# That Foreign Car Fad

Just like any other part of the country, we've our sports cars and foreign imports (in the automobile field) too. In fact, a Volkswagen is parked around the Reflector building just about every working day.

Dave Morrill owns it; has had it about three months now, and I can't imagine anything giving him more pleasure than that little car.

Gasoline mileage is a big point with him, and you must admit it's a good point. In ordinary day-to-day driving he gets between 30 and 32 miles to the gallon. On long trips, 37 miles to the gallon.

One seldom reads or hears of a small car owner making a complaint about its performance; in fact, the publicity they get from their enthused owners is worth a mint of money. Small wonder for the big demand.

Morrill, for instance, had his order placed for eight months before his dealer was able to make delivery.

Foreign car owners have this in common: foreign cars. Get two of them together and you have a real clambake . . . three of them, and those cats have a ball.

Naturally anything having to do with foreign cars draws an owner's attention like a magnet. A recent Sunday edition of

the New York Times had a special section devoted to the international auto show . . . and Morrill latched on to that in a hurry.

Why? Well he's got that fever; the same fever that prompts him to wear a sports cap when driving his VW, the fever that keeps a close eye on his mileage figures and fuel consumption, the fever that . . . oh well, you get the drift.

And from somewhere he got a clipping to show me about his favorite subject . . . it's worth passing along:

"Maybe you think the small European cars are cute, but Detroit doesn't. The big auto makers regard them as a menace to their business. 'Tide' reports that one major manufacturer surveyed 500 Volkswagen owners to find out who they were, how much they made, what their education was. The company hoped to discover how its ads

might overcome customer leanings toward the German competitor. The survey disclosed that Volkswagen owners:

"Have a median age of 34 (compared with 37 for Ford buyers and 39 for Chevy owners).  
"Earn a median income of \$7,100 (compared with a national median of \$4,250), and  
"Are likely to have had at least one year of college.

"One Detroit adman who saw the statistics is reported to have recommended a top secret label on the report. 'If word gets around that Volkswagen owners are younger, better educated and make more money,' he warned, 'we're in trouble!'"

All of which goes to show admen have a tendency to go to another extreme; for American-built cars have been battling over a 100-1 against imports, and a lot of people I know can see no reason for that kind of lead to be seriously threatened.

# Other Editors Saying --- Peace At Any Price

(Henderson Dispatch)

In London there is rising demand for a summit conference with Khrushchev. All precautions seem to have been thrown to the wind. Lord Beaverbrook, noted British publisher, wants Prime Minister Macmillan to meet the Soviet leader, with or without President Eisenhower.

Beaverbrook argues that "if, as a result of negotiations," Macmillan "brings home the bacon, then he can ask President Eisenhower to sit down with him and take part in the feast." The publisher overlooks the fact that nobody has ever brought home any bacon yet from conferences with the Communists, and such as there is of it will go to Moscow, not to the west.

"Peace at almost any price must be the watchword," Beaverbrook wrote. But peace and peace at any price are two entirely different commodities. Neville Chamberlain bought peace at any price at Munich with Hitler in 1938, only to find himself at war with Germany a little over a year later. The price paid was high, and at that didn't last.

It would be exactly the same today in a summit meeting with Khrushchev. The Kremlin dictator is intoxicated with power as well as with vodka, and along with it is as shrewd and cunning as they come, so much so that Russian negotiators in the past have been able to get what they

wanted—always at the expense of the West.

British leaders appear to be quite willing to sell their birthright for a mess of pottage, and sorry pottage even so. Are they so stupid as to forget former experiences? Can't they remember the past? Are they ready to barter the future for a mere breather of limited duration? It would seem so.

Nothing of a permanent character is to be gained by such a conference as is being agitated. The Moscow peace offensive is nothing more than propaganda, but no one outside the United States seems able to see through that strategy. Khrushchev, at such a meeting, would trade the shirts off the backs of Western spokesmen, just as old Stalin two or three times took Roosevelt and Churchill for a ride and laid the foundation for much of the world's misery of today.

All that is so easily and quickly forgotten. Peace at any price can be purchased, though it would be only a makeshift at the expense of the free nations and to be distinct advantage of World Communism.

How fickle indeed are the minds of men, even supposedly great men! A little stiffened backbone on the part of Western leaders might cause Khrushchev to hesitate, or even to retreat. Assuming that it didn't work that way, we would be no worse off.

# The Rise And Fall Of Gimmicks

By ELMER ROESSNER  
This is the story about the rise of a word to business respectability and its sudden descent.

The word is "gimmick."

It originally meant a device by which a grifter controlled a wheel of chance. A grifter is not to be confused with a grafter. "Grafter" has been traced back to the Breek grapefruit, to write, becoming the Latin graphium, a writing stylus and later a grafting knife. A grafter today cuts out something for himself. The word "grifter" was born on the American carnival lots and was applied to the man who operated a carry wheel. These often had devices by which the grifter could cause the wheel to stop at any number he wished. By that method the grifter could see that good prizes went to a shill. A shill is — but let's get on with "gimmick."

RISE IN ADVERTISING  
The name spread from carnival jargon to popular use and, as it did so, took on a broader meaning. In popular usage it became a device that by trickery caused

people to do things, often to make purchases.

In fact, the meaning may have begun to broaden even in carnivals. Gimmick, if recollection serves aught, was used to describe cheap dolls, toys and other merchandise given to attract people into playing games of chance or into sideshows, or to console suckers after they had spent their last dime for throws at a pyramid of six wooden bottles.

Gradually the word began to lose some of the implication of trickery and gain a bit of respectability. However, it continued to imply device and cleverness.

An advertising man might tell another he had an idea for a \$25,000 contest.

The other might ask, "What's the gimmick?"

"Contestants have to send in answers on box tops," the first might reply. "They have to buy the product."

BROADER STILL  
In recent years, the word assumed even broader connota-

tions. "Gimmick" was applied to anything clever that was the compelling factor in a promotion. A good slogan could be referred to as a good gimmick to sell a make of cars; a good picture might be described as a "gimmick" to put over a breakfast food.

An advertising man, describing an upcoming television giveaway program a few years ago, said, "And the gimmick is that they give away \$64,000!"

For a while, some people tried to popularize the word "gimmick," meaning about the same thing. It never caught on. There is a lesson in this: never depend on a word with a "G" that might be pronounced either hard or soft.

That's why nobody orders soft-kings in restaurants any more. (The "G" in gismo is hard.)

Then the blow fell. Gimmick, almost attaining Oxfordian respectability, has been plummeted to ignominy.

President Eisenhower, in his press conference last week, characterized the Soviet offer to sus-

pend nuclear tests as "a gimmick." The implications are grave; and the consequences are broad.

A gimmick is again despicable. In advertising circles you no longer hear the word used. Admen talk about the "point" of a campaign, the "compulsive factor," and the "dynamism." Commercial men have a "hook" now, but that has always had some use as a synonym for "gimmick."

Gimmick is an ugly word. It's tainted with communism, smeared with red.

NEW CRITERION FOR RETAILING SITE  
Time was when a merchandising organization sought a site for a new store it asked, "Is it on the traveled side of the street? What is the count of passersby? Is it in the heart of the shopping district? Is streetcar and bus transportation available?"

But when a big chain contacted officials of a West Coast city recently, the first question was, "Have you a site with ten acres of parking space?"

# Crane 'A Little Proud' Of Cheryl's Rushing To Defense Of Her Mother

By JAMES BACON  
 HOLLYWOOD — "Maybe I shouldn't say it, but I'm proud of my Cheryl."  
 Steve Crane, handsome ex-husband of Lana Turner, made that comment last night about their daughter Cheryl Crane.

"She only did what I, you or most anyone else would have done," he told this reporter. "She was frozen with fear and she stepped in to protect her mother."

He was referring to last Friday's fatal stabbing of Johnny Stompanato. Cheryl, 14, told police she stabbed the former Mickey Cohen henchman when he threatened to disfigure or kill her mother.

"Cheryl loves Lana," said Crane. "I know I would have moved the same way to protect my own mother in a similar situation."

Crane said he hadn't seen Stompanato in person for over a year—about the length of time the underworld figure had romanced Lana. However, Crane said he talked to Stompanato once on the phone, but denied that he had ever threatened him.

"I only told him," said Crane, "that I did not care about his romance with Lana, but that my daughter was the most important thing in the world to me and I

did care what happened to her."

Crane said Stompanato told him that he was in love with Lana and reassured Crane that he had no intention of hurting the child.

Crane, now 43, became Lana's second husband in 1942, only six weeks after he got up enough nerve to ask her for a dance.

The blonde movie star not only danced with Crane but allowed him to take her home that night.

They were married in a Las Vegas, Nev., elopement that paralleled, even to the same judge, Lana's first marriage, to band leader Artie Shaw.

But the honeymoon was barely over when Carol Kurtz, an Indianapolis socialite, said that she too was married to Crane.

Crane thought he had received a Mexican divorce, but his explanation did not satisfy an enraged

Lana. She had the marriage annulled.

Lana discovered she was pregnant. She called Crane in for a conference.

"Steve was noble and gentlemanly, as always," Lana once recalled. "He insisted that we must remain married for the sake of the child. And he got his previous divorce straightened out."

So Lana, six months with child, was remarried by a Tijuana, Mexico, magistrate.

Crane went into the Army the next day as a private. In 1944, when Cheryl was about 6 months old, Lana divorced Crane.

After the war Crane tried his hand at acting. Although tall and handsome as many a movie star, he had little success.

Some said he was "too nice a guy" to get ahead in Hollywood. About five years ago he put his natural assets of affability and charm to work as a restaurateur. He is now part owner of the Luau, one of the most successful restaurants in Beverly Hills.

In 1949 Crane married Marine Carol, the French actress. The wedding took place in the principality of Monaco, on the French Riviera. But that marriage, too, ended in divorce.

Crane has always maintained friendly relations with Lana because of Cheryl.

## Deans Cite Church Unity As One Of Three Needs

NEW HAVEN, Conn. (AP)—Church unity, an educated ministry and more stands on issues are the three chief needs of modern Christianity, say the deans of the Yale and Harvard divinity schools.

"The church needs more unity and integrity," said Dean Liston Pope of Yale. "The split into 200 different Protestant churches is self-contradictory."

Speaking for more education in the religious field, Dean Douglas Horton of Harvard said of his students: "We are trying to sensitize them so that they can think for themselves. Religion is not something to which you can close your mind."

The third great need, said Pope, is "greater relevance to what is going on in the world. The church is much less relevant to social matters now than 40 years ago."

Furthermore, he said, "the church too often doesn't speak out enough. It has become too timid on most of the great issues facing the world."

Dean Horton was here to deliver lectures at the 48th annual convocation of the Yale Divinity School. He and Pope made their statements in a joint interview.

Why the reluctance for Christianity to take stands?

"The complexity of social issues is more clearly seen now than several years ago," said Horton. "Things don't seem so clear-cut nowadays as men of 40 years ago used to think, he added."

Both deans, Congregationalists, are leaders in the ecumenical movement—a phrase that connotes both a world unity of churches and a world spread of Christianity.

## 'Most Lonesome Soldier' Dies At Age Of 68

WAYNESBURG, Pa. (AP)—A western Pennsylvania man who was dubbed the "World's Most Lonesome Soldier" in World War I died yesterday at the age of 68.

Dode Cunningham of nearby Ruff Creek was given the nickname by a woman journalist who visited an Army camp at Chillicothe, Ohio, during World War I. She noted that he apparently was the only member of Company M, 330th Infantry Regiment, whose name never seemed to come up in mail call.

The journalist wrote a widely published story about Cunningham's plight, and he became the object of a national letter-writing campaign that belied his nickname.

It was said that the Army had to set up a special mail detail to handle the volume. A linotype operator for the Washington (Pa.) Observer who was at the Army camp recalls that Cunningham received some 15 truckloads of mail.

## Wrong Driveway Is Just Starter

MOUNT VERNON, Ohio, Ohio (AP)—Police said there were two things wrong when Arthur Sunkel turned in a driveway here. First, he was 40 miles from his own garage in Warsaw, Ohio. Second, he didn't stop.

They said Sunkel's car went into the garage attached to the Hugh McLarnan home and knocked the McLarnan car through the back of the garage and off a 6-foot drop. Sunkel was fined \$50 in Municipal Court for reckless driving.

LANA AND JOHNNY—Actress Lana Turner in a brief bikini swim suit poses beside Johnny Stompanato during their recent vacation together in Acapulco, Mexico. A few days after they returned to Hollywood from this vacation, Stompanato was stabbed to death in Miss Turner's bedroom by her daughter, Cheryl Crane. # Non-Conforming Mailbox In Hassle

RUGGED INDIVIDUALIST—Alphonse Dulle removes mail from the box which has angered his neighbors. Trustees of the community have filed suit to force him to use black box or none.

By DON ROTH  
 ST. LOUIS (AP) — Alphonse J. Dulle has learned the price of non-conformity — he faces a lawsuit over the color of his mailbox.

Dulle, 55, and a press room foreman for the St. Louis Post-Dispatch, moved into a swank subdivision in St. Louis county four years ago. He was one of the earliest of 28 homeowners purchasing the \$30,000-\$40,000 homes.

Although other residents have black mailboxes with white nameplates grouped in racks at strategic points through the subdivision, Dulle put up a white mailbox with black lettering on his own post.

His individualism destroyed the serenity of Ronnie's Country Club Acres.

Dulle recently refused a subdivision trustees' request to change the mailbox to conform. Then the three trustees filed a lawsuit asking for an injunction and \$2,000 damages.

This wounded Dulle, a man with a Dutch temper. But he was even

more seriously offended when his mailbox was knocked down by unknown person or persons.

Dulle didn't put it up right away. For 10 weeks he picked up his mail at the postoffice. It was sort of a cold war.

But the conflict may generate more heat because of Dulle's latest step: repaired and repainted, his mailbox is up again — its pristine white is dramatic contrast to the prevailing black.

Publicly over the mailbox hassle has brought Dulle considerable support through the mail. But Ben Hitz, one of the trustees, defends their action.

"We live in our own little world here in this subdivision," he says. "Are 28 people wrong and is he the only person right in this matter?"

Hitz says Dulle's relations with his neighbors are strained, and that he doesn't attend subdivision meetings or mix with his neighbors.

"I mind my own business," Dulle says.

But Alphonse Dulle remains adamant: "It's a free country," he insists.

## New Religious Construction Up

CHICAGO (AP)—The American Assn. of Fund-Raising Counsel says new religious construction, including new buildings and remodeling old, reached an all-time high value of \$68 million dollars in 1957, an increase of 13 per cent over the previous year.

New hospital construction in 1957 was valued at \$65 million dollars, or 54 per cent above the previous year. Educational building, while at a high level of \$19 million dollars, was 3 per cent under the previous year.

The increased construction brings the total assets of gift-supported institutions in the United States to nearly 44 billion dollars.

# Institute Slated On Care Of Aged At Fayetteville

FAYETTEVILLE—Better patient care in nursing homes and homes for the aged will be taught here May 1-2 at an institute to which administrators of all such homes, and their key personnel, are invited.

The two-day workshop is being sponsored by the N. C. Association of Nursing Homes and Homes for the Aged, headed by Mrs. Edith B. Chance of Fayetteville. She said administrators and their top aides from such homes are invited to attend regardless of whether they belong to the Association.

Classes and conference will be conducted in the nurses' classroom of the Highsmith Hospital by authorities on care of the aged from the U. S. Department of Health, Education and Welfare, the State Board of Health, State Department of Public Welfare and the State Medical Care Commission, plus physicians and nurses who work with the aged.

The keynote at the opening session will be Mrs. Genevieve R. Solers of Washington, D. C., chief nurse in the Health of Aged Section of the Department of Health, Education and Welfare. Mrs. Mary King Kneadler, chief of public health nursing for the State Board of Health, will preside.

# Press Clipping Service Expands

RALEIGH. — The Carolina Clipping Service of Raleigh, founded in 1927, has expanded its press clipping coverage to eight additional states in the South, it was announced today by Mrs. Thompson Greenwood, operator of the service since 1952.

Her service has subscribed to newspapers in South Carolina, Georgia, Alabama, Mississippi, Kentucky, Arkansas, Louisiana and Virginia to provide for the expanded coverage made necessary, Mrs. Greenwood said, by the increasing demand, particularly from national industries and organizations, for an adequate press clipping service covering the South from a single office.

The service has provided press clippings from North Carolina newspapers for 31 years. Before expanding her coverage, to fill what she calls a void in the South, Mrs. Greenwood's staff scanned 846 issues of newspapers each week, most of them being North Carolina publications with a few coming from South Carolina and Virginia. Under the new set-up, her service will clip from many more papers.

Subscribers to the service include not only individuals, organizations and industries but national clipping services who rely on her for press clippings from Southern newspapers. Clients receive their clippings weekly.

Each week the service clips thousands of newspaper items for such clients as business establishments, trade associations, state departments, churches, banks, colleges, politicians, manufacturers, public officials and others.

AT EAST CAROLINA COLLEGE—"Carousel," a Rodgers and Hammerstein Broadway hit musical comedy, will be presented next week with a cast made up of all college students. The play will take place in McGinnis Auditorium at 8 o'clock April 15-17. Dr. Kenneth Cuthbert is the director with the Student Government Association sponsoring the event. (Reflector Photo by Peggy Smith)

# Capital Charge Stricken By Judge In Slaying Case

GOLDSBORO, N. C. — The capital charge of first degree murder was stricken from the record last night in the trial of farm laborer Gilbert Jones, 31, charged with the slaying of his 28-year-old wife. Superior Court Judge William J. Bundy, at the conclusion of testimony, granted a defense motion to strike out the first degree murder charge. Conviction could have carried the death or life imprisonment of the defendant.

Lawyer's arguments went forward today in the trial of the tall, rawboned Jones accused of second degree murder, punishable by imprisonment of from two to thirty years. The jury also could return manslaughter or innocent verdicts.

Jones, who, with his wife, shared a Wayne County farmhouse, with his wife's parents, testified that his father-in-law, Jethro Evans, 57, accidentally killed Mrs. Jones last Nov. 1 with a

shotgun blast into her back. Jones said he and Evans had argued that his wife attempted to intervene when her father got down his shotgun. Jones said he fired back at Evans, first striking Mrs. Evans and then Evans.

Jones was acquitted when tried in January on a charge of slaying Mrs. Evans. The state still can try him in the slaying of Evans.

The state sought to prove in the present trial that Jones killed all three. State ballistics experts testified in effect that the bodies of Mrs. Jones and her parents contained No. 4 shot from a .16 gauge shotgun belonging to Jones.

George Butts, another son-in-law of Evans, testified for the state that Jones told him he took his wife to a lonely woods with intentions of slaying her about eight months ago but that he changed his mind.

# Explorer Scout Post Returns From Two-Day Visit At Council Camp

Explorer Post 340 returned Tuesday afternoon from a two-day camping trip to Camp Charles, located near Bailey, between Wilson and Raleigh, Camp Charles is one of the two camps of the East Carolina Council of the Boy Scouts of America. Post 340, sponsored by St. James Methodist Church of Greenville, used the Council Camp, by special permission of Council officials in Wilson. Events included an exploration hike up Turkey Creek to Castle Rock.

Serving boys who have passed their fourteenth birthday, Explorer Scouting is the senior program of the Boy Scouts of America. Post Advisor, the equivalent of Scoutmaster, of Post 340 is the Rev. J. Malloy Owen. Accompanying Mr. Owen were Crew Leaders William Stancil and Andrew Kilpatrick, Secretary Don Joyner, and Ex-

plorers Phil Sheppard, Jacky Stokes, and John Behr. Deputy Sr. Crew Leader Lawrence Behr joined the party Tuesday morning.

The Attendance Award of Pitt District Court of Honor was won by Post 340 Tuesday night after the completion of the Eastern Holidays camping trip. John Behr was awarded the Star Scout rank and Jacky Stokes received the Second Class Scout rank badge. Post 340 was first chartered November 30, 1957 and meets every Thursday night at 7 o'clock in the new Scout building behind St. James Church, 2000 East 6th Street. Election of officers is scheduled for tonight's session.

# YMCA Invaded By The Women

CHICAGO (AP) — The largest YMCA in the world, in Chicago, notes on its 100th birthday that it is thoroughly infiltrated by women.

Founded to improve the "spiritual, intellectual and social conditions of young men," the Youth Men's Christian Assn. of Metropolitan Chicago has 22,000 women members among its total of 119,000.

During the Civil War, with so many members in the Army, the association sought to strengthen itself by admitting women as auxiliary members.

# Artist Shot By Angry Husband

BALTIMORE (AP) — Artist Leo R. Jones, 49, was shot in the thigh in his studio last night.

Police later arrested Irving Macklin, 60, at his home in suburban Pikesville, Md. He was charged with shooting with intent to kill, carrying a deadly revolver and firing the gun within the city limits.

In the studio, police found: 1. A smashed painting which the artist had done of Macklin's wife, Fannie, 44.

2. A broken bust of the wife which Jones had not completed. Macklin is the owner of a chain of beauty parlors. Jones was treated for the bullet wound at Maryland General Hospital.

# Arrest Airman In Altercation

TAIPEI, Formosa (AP) — The U.S. command on Formosa arrested an American airman today after an altercation in which a Nationalist Chinese major suffered a fractured skull.

Mindful of the riot which followed Army acquittal last year of a soldier who killed a Chinese, the American Embassy and the military went all out to avert a furor.

The incident involving A. I. C. Larry G. Greenway, 21, Butler, Pa., and Maj. Chang Yu-doh occurred last night near a theater in downtown Taipei. Chang was to be operated on today.

A U.S. communiqué said Greenway had been drinking and allegedly pushed the major, causing him to fall and strike his head against a concrete wall. Ambassador Everett F. Drumwright and Vice Adm. Austin K. Doyle, the U.S. commander on Formosa, both expressed regrets to top Nationalist officials for the "deplorable incident."

Doyle's office said he had ordered a speedy, thorough investigation so disciplinary action could be taken.

# Dance Program For Bethel Club

BETHEL — Mrs. Marie Wallace of Greenville presented a dance program for the local Rotary Club at the Tuesday night meeting.

Children taking part in the program included Jim Taylor, Jackie Carson, Judie Carson, Kathryn Andrews, Sally Ann Whitehurst, Boe Bunting of Bethel and Chuck Shearson of Greenville.

Dr. W. A. Moody presided over the meeting.

# Chemist Will Be Legion Speaker

W. A. Weed of Parke-Davis Drug Company will outline chemical progress for members of Greenville Post 39 of the American Legion at the Legion's meeting next Tuesday night at 7 o'clock in the Rotary Building.

Weed, a resident of Kinston, will make his comments in connection with Chemical Progress Week. All members of Post 39 are requested to be present for the meeting.

A National Cowboy Hall of Fame and Museum is being erected atop a hill near Oklahoma City. It will honor famous cowboys in much the same manner that the Baseball Hall of Fame honors noted ball players.

# Anti-Recession Advertising Plan Launched Today

NEW YORK (AP) — An anti-recession advertising program to accentuate positive points in the U. S. economy was launched today.

The Advertising Council, a non-profit organization representing all branches of advertising, announced a four-month campaign based on "Confidence in a Growing America."

Charles G. Mortimer, president of General Foods Corp. and co-chairman of the council's Industries Advisory Committee, said, "I don't think it is an exaggeration to say that recession begins and ends in the minds of men."

"Unlike statistics of the weather, behind every economic statistic are the decisions of human beings and human beings can be confident or fearful. The very indices of the country's economic health are really an averaging out as to how businessmen feel about business prospects; they are an index to a state of mind."

The program will stress seven basic reasons for confidence in America's future.

1. More people. U. S. population has doubled in the last 50 years.
2. More jobs. There are 15 million more jobs than in 1939.
3. More income. Family income after taxes is at a record high of \$5,300 and is expected to pass \$7,000 by 1975.
4. More production. U. S. output doubles every 20 years.
5. More savings. Personal savings are a record 300 billion dollars.
6. More research. An outlay of a year will pay off in more jobs, better living and new industries.
7. More needs. The U. S. needs 500 billion dollars worth of schools, hospitals, highways, homes and heavy equipment.

The council will carry its message to the nation through virtually all media. Time and space will be contributed by advertisers and the media on a volunteer basis.

A similar program was staged in 1954.

# Mountain Trails For Vacationers

CHARLOTTE — Vacationers who like to explore mountain trails on horseback, with a minimum of overnight camping, will have the opportunity this spring in the Great Smoky Mountains of North Carolina.

The American Forestry Association will again conduct its annual spring saddle trip in the Great Smokies May 21 to May 31, the trip timed to catch the colorful festival of wildflowers and flowering trees.

Headquarters for a limited party of 20 will be the well-appointed Cataloochee Ranch on Fie Top Mountain near Waynesville. This 1,000-acre sheep and cattle ranch is situated on the border of the Great Smoky Mountains National Park.

The itinerary provides a three-day pack trip in the park with side trips from a base camp, including a ride to the crest of Mt. Sterling. Seven nights will be spent at the Cataloochee Ranch with rides out each day except Sunday.

Applications for the horse-back vacation may be made to the American Forestry Association, 919 17th St., N.W., Washington 6, D.C. Riders will be met in Asheville on the morning of May 21 and returned to Asheville in time to meet outgoing trains and planes on the morning of May 31.

# DISAPPEARING NUDE

LOUISVILLE, Ky. (AP) — The disappearance of a nude from the lobby of the Louisville Courier-Journal and Times building caused more stir than did its appearance. The picture was on display with 124 other photos, and was the only nude.

# Predicting Approval Of Foreign Aid Bill

By LEWIS GULICK  
WASHINGTON (AP) — Two top House Foreign Affairs Committee members joined today in predicting committee approval of a foreign aid bill cut far less than in some recent years.

Rep. Morgan (D-Pa.), committee chairman, and Rep. Vorys (R-Ohio) spoke in separate interviews as the House group prepared to start writing an aid bill next week after the Easter recess.

President Eisenhower wants \$3,942,000,000 in new aid money for the year beginning July 1. That would be 42 per cent more than the new funds Congress voted last year after chopping more than a billion dollars from Eisenhower's request. The Foreign Affairs Committee cuts have ranged up to a billion in the past.

The group has finished extensive hearings on the current bill. "I think it will come out of the committee with some reduction in the bill," he said. "I don't think the cut will be too deep."

Vorys foresaw "some reduction but nothing like the wholesale slashing we have seen in recent years," and he said he expected the House would go along with a "cautious" cut by its committee.

Neither Morgan nor Vorys expects the committee to tack on major policy amendments to the bill this year.

Besides money cuts of various sizes, possible amendments to be offered would ban U. S. assistance to Poland and Yugoslavia, and stop arms shipments to Latin-American dictators.

There may also be moves to channel more foreign aid spending

directly into purchases of American goods and to split economic and military aid into separate legislation in the future.

# Finds Largest Birch In Country

MILWAUKEE (AP) — A Milwaukee attorney believes he has found the largest white birch tree in the country.

Raymond Zillmer said the tree has a circumference of 7 feet 9 inches, compared with the present record tree in New Jersey of 4 feet 7 inches. The height of the Wisconsin tree, located at Mud Lake in the Cedarburg swamp north of here, is estimated at 62 feet.

Zillmer has submitted the measurements to the American Forestry Assn.

WIDEAWAKE BURGLAR  
BALLSTON, SPA. N.Y. (AP) — Police are looking for a wideawake burglar. All he took after forcing entry into a drug store was 300 sleeping tablets.

QUADRUPLETS BORN IN CALIFORNIA—Dr. Norman Wheeler, nurse Berenice White and Dr. Donald Baltzan (left to right) look over three baby boys they delivered to Mrs. Gladys McGraw in hospital at San Francisco. There was a fourth baby, a little girl, but she died. At right are the proud parents, Ian McGraw, 22, and Gladys, 19. The hospital reported the three boys are doing fine. McGraw is employed by a janitorial service. He and his wife had no children until the quads were born. (AP Wirephoto)

### More Of Lana's Letters Hint Stompanato Romance Cooling

LOS ANGELES (AP)—Was Lana Turner's love for Johnny Stompanato cooling months before her handsome underworld boy friend was knifed to death in the actress' home?

Her letters to the 32-year-old onetime bodyguard of ex-gambler Mickey Cohen imply that.

So does an interview with the owner of the hotel in Acapulco, Mexico, where Miss Turner and Stompanato vacationed for two months.

Police say they are satisfied with the story that the husky ex-Marine was stabbed to death last Friday by Miss Turner's daughter Cheryl Crane, 14.

Cheryl told officers she plunged an eight-inch kitchen knife into Stompanato's stomach when he threatened to disfigure or kill her mother.

The latest batch of Miss Turner's letters to Stompanato, published in a copyrighted article in the Herald-Express, contained more torrid expressions of love and affection.

But the letters—written last January from Europe—also contain statements such as:

"You must let me be alone in my 'own world' for a while to rest, think, rest, think... I'll know when the time is right, if it ever is to be again."

Stompanato later flew from California and met the actress in Europe, where she had finished making a movie. Then they flew to Acapulco.

This surprised Teddy Stauffer, former husband of actress Hedy Lamarr, who owns the plush Villa Vera in the Mexican resort where Miss Turner and Stompanato moved into separate suites.

Stauffer said Miss Turner had written him in December saying: "It will be very strange to be by myself in Acapulco."

"I got the impression," Stauffer said in Acapulco, "that Lana had discovered that she had made a mistake in meeting the wrong fellow, and not herself into something difficult and possibly dangerous to get out of."

"It seemed like she was scared to go back to California," he added.

While Stompanato was being buried in his hometown of Woodstock, Ill., police here said they were investigating a reported burglary at Stompanato's apartment.

Detective Chief Thad Brown said a clerk at the apartment house reported a window of Stompanato's apartment had been jimmied early Saturday—a few hours after Stompanato was killed.

Apparently the only thing missing, Brown said, was a shaving kit from the bathroom. He said a maid told him that the kit had contained a packet of letters.

Cohen said he acquired the letters published in the Herald-Express before Stompanato's death.

"But I didn't know what they were," said Cohen. He added he turned the letters over to the newspaper because he was angry with Miss Turner for claiming Stompanato was an "unwelcome guest."

Miss Turner and curly-haired Stompanato returned to Hollywood from Acapulco March 19.

Police Chief Clinton Anderson of Beverly Hills said the day of the killing Stompanato and the blonde actress spent the afternoon shopping together. They returned to her rented mansion and a violent quarrel ensued, Anderson said.

Stompanato left the house but returned later in the evening and the argument resumed, said Anderson. Then came the threats to disfigure her and Cheryl's defense of her mother followed.

All phases (of the story) have been checked and rechecked... Lana's story is true."

### Romance Makes Business Rough

NEW YORK (AP)—Romance is making the restaurant business rough for Harry Bloomfield.

The woe is the matrimonial ailure for men guests of the Hawaiian wahinis (girls) who have been installed as the restaurant's hostesses.

Bloomfield's restaurant, the Luau 400, opened only recently, but three of the original seven girls have already departed for wedlock, two more are altar-bound, and another was kept on the job only after the harried host found her husband an assignment in the dining room.

"I never thought marriage would be one of my biggest operating problems," says Bloomfield.

### Dr. Robert Holt To Rejoin ECC

Dr. Robert L. Holt, vice president of Mars Hill College and formerly professor of theology and director of religious activities at East Carolina College, will rejoin the staff of the college here this fall. He will act as director of admissions and recruitment and as supervisory registrar, East Carolina President John D. Messick has announced.

In 1959 Dr. Holt joined the East Carolina staff as the first director of religious activities at the college. He served in that capacity until 1953, when he resigned to accept a position at Mars Hill.

A native of Georgia, Dr. Holt has been a resident of North Carolina since 1932. He is a graduate of Lee H. Edwards High School, Asheville, and of Mars Hill. He holds the A.B. and the M.A. degrees

from Wake Forest and the Ph. D. in Christian Ethics from Duke University.

Dr. Holt was minister of various Baptist churches in North Carolina from 1941 to 1950. During this period he served at Wise, North, Warrenton, and Norline, and at the Cedar Fork and Mt. Zion churches near Durham and Raleigh.

As a faculty member at Mars Hill, he held the positions of director of public relations and, after 1954, of vice president.

Dr. Holt's wife is the former Claire Rebecca Hardin of Lincoln. They have three children, Larry, Rebecca, and Susan.

### SLEEPY-TIME GAL

THOMAS, Okla. (AP)—Mrs. Vic Beck set the alarm for 6:30 a.m. Mr. Vic Beck came in later and re-set it for 2 a.m. so he could get up and take his influenza pills. When the alarm sounded, Mrs. Beck heard it, Mr. Beck didn't. She got up and prepared breakfast.

Like fishing limits, Arizona also has a bullfrog limit. You can take legally only 12 frogs per day.

### Fatal Doses Of Drugs, X-Rays Considered In Cancer Research

By RENNIE TAYLOR AP Science Reporter

HOUSTON, Tex. (AP)—Researchers here are working on the idea of deliberately giving fatal doses of drugs or X-rays to knock out a patient's cancer and then saving his life with a potent biological antidote to the poison or radiation. The lifesaving part of it already has worked in normal mice given deadly doses of a drug used to treat breast cancer and other solid types of malignancy.

Another researcher has transplanted cancers into mice, given them more than fatal doses of radiation and then snatched them from death with the potent anti-radiation substance.

Investigators elsewhere have done the same thing with mice which developed spontaneous cancer.

The potentially great lifesaver is bone marrow. It was used here on the radiated mice by Dr. John J. Trentin of Baylor University Medical School and on lethally drugged mice by Dr. Arthur Kirschbaum of Baylor and the University of Texas M. D. Anderson Hospital.

Both physicians, who talked to science writers on the American Cancer Society's tour of research laboratories, did this with the idea of seeing how far they might go eventually with the same procedure in humans.

The drug is thio-tepa, which has been used with some success against human cancer but which is so poisonous that it cannot be given in large enough amounts to deliver what might be a knockout blow to malignancy. Its main undesirable effect is to destroy bone marrow, which is responsible for the production of blood cells.

Radiation also is a great weapon against cancer but it has to be carefully limited because of its bone marrow destroying ability. This is the principal way radiation from atom bombs and other sources destroys human and animal life.

Mice given the anticancer drug in large doses lived only 10 days if left untreated with the lifesaver. But those given injections of marrow from other mice have survived for two months and are in good health, Dr. Kirschbaum said.

Dr. Trentin gave his mice X-ray doses far above the death level. Some of these were given marrow from closely related strains. Others received marrow from unrelated strains.

Those which got marrow from close relatives went on to a healthy old age. Those which received marrow from unrelated mice recovered from the effects of radiation but developed a "wasting disease" due to a reaction against the foreign nature of the marrow from nonrelatives. Those mice died.

This makes a drawback for widespread human use because marrow would have to be taken from unrelated donors to supply the demand.

### Second Trial In Narcotics Cases

CHARLOTTE, N.C. (AP)—The second in a series of trials against an alleged Carolina narcotics ring was scheduled in U.S. District Court here today.

The opening trial yesterday saw John Alfred Johnson, one of 12 defendants, convicted on three counts of purchasing and selling drugs. Judge Wilson Warlick sentenced Johnson to three concurrent five-year sentences, to begin when he completes a two-year term in another case.

Two federal agents testified yesterday they posed as dope pushers last year to gain evidence against the 12. Agent Vincent J. Lozwicki of Washington, D.C., operating with Greensboro agent John L. Kelly Jr., said they were led to Johnson through a South Carolina motel employee, Dewey Goode Jr.

The agents identified Dr. Oliver Wayne Williamson of Wagner, S.C., a defendant, as the main drug source for the ring.

In addition to Johnson, Goode and Dr. Williamson, other defendants are: Harry Lee Gray, Bessie Law Foulk, Ray Wilton Somerset, Luther Sidney Gentry, Edward Joseph Clevenshire, Faye Grant Beck, Ruth Martin Starr, John Wilson Mullis and Berman Ward Walters—all of the Charlotte area. All have pleaded guilty, except Walters, Somerset and Goode.

### Churchmen Rally Here This Evening

Presbyterian men from New Bern, Wilson, Rocky Mount, Ahoskie, Greenville, and other surrounding communities will gather at the First Presbyterian Church this evening at 6 o'clock for the annual Spring Rally of the Men of Albemarle Presbytery.

Dr. Earl Trevathan, chairman of the rally committee on arrangements, urges all the men of the First Presbyterian Church to be at the church not later than 5:45. This gathering of men with a theme of "Won to Win One" gives promise of a real fellowship meeting.

SEER CAUGHT WITH CRYSTAL DOWN—Joseph Pavy, a fortune teller who failed to foresee his own unfortunate future, sits disconsolately outside his home in Los Angeles which burned the day before. The fire damaged his profession, Pavy said. "Seven years a fortune teller and I had no warning, no suspicion that this would happen." Damage was estimated at \$5,000. (AP Wirephoto)

CHAPTER 15

Bruce Jarvis ran into the back room of Walt Cronin's store and ducked down behind a barrel. He ought to be out there fighting with Cronin, but he had his orders, and when you get orders like that from Walt Cronin you obeyed.

Outside a man yelled, "Open up, Cronin." You poked your head through a window or door and I'll blow it off," Cronin yelled back. There was more talk, obscene and threatening, and Bruce was listening so hard he didn't realize anyone had come in through the back until the man was opposite him and he had no time to warn Cronin. The man was tall and slender with red hair. Even in the gloom of the back room, Bruce got a good look at him and knew he'd recognize him if he ever saw him again.

The man moved past Bruce and went on into the store. He said, "Put the Winchester down, Cronin. Make a fast move and you're a dead man."

Cronin apparently was being forced to open the front door. There was a struggle, some banging around and cursing, then a man said in a voice of authority, "The hands behind him, Red. Tom, get that rope ready?"

"You bet," another man said. "I'll fit his neck, all right."

"Then fetch him along," the man with the authoritative voice said. "What's the matter with you, Red? You're looking kind of puny."

"I feel puny," the redhead said. "I don't like this, Cole. We didn't give him a trial or nothing. Let's warn him and turn him loose."

"Trial?" The other man laughed. "You figure a cow thief deserves a trial? Fetch him along, Tom. He's going to be a witness. All right, every settler on the Yellow Cat will get the idea, and be out of the country in twenty-four hours."

Cronin might have been knocked out, but he had his voice now. "I've cursed them and called them yellow. Every man that raises cows is the same breed of dogs! You don't have the guts to give me a gun and—"

"He's right," the man with the red hair said. "This is murder. That was all the talk Bruce could hear. They must have dragged Cronin out through the front door. Bruce told himself he could save Cronin. All he had to do was to get a gun off the rack in the store and load it and start shooting. They weren't fooling. They aimed to hang him, all right."

Bruce got up and grabbed the top of the barrel to keep from falling. Then his knees gave way and he did fall. A voice seemed to be telling him he hadn't shot a gun a half dozen times in his life. He couldn't try them, lynchers if he tried. They'd kill him. He wouldn't do any good. But he had to try. He got up again and held to the top of the barrel.

Presently the room stopped whirling. Still he stood there, sweat dripping down from his face. He lost all track of time. It might have been seconds or minutes before he could make his legs carry him into the store where he picked up a rifle.

He fumbled among the boxes of shells until he found the right ones and filled the magazine. He stuck the box into his pocket and went out through the back room, still sweating, still trembling, but able now to make his body answer the orders his brain gave.

Cronin's lean-to room was built against one half of the main building. Bruce had pulled his team and wagon into this corner, and it wasn't until later that he realized that the position of the team and wagon had saved his life.

When he peeked around the end of the lean-to, he saw he was too late. The cowmen were riding off, downriver, and Walt Cronin's body swung from a cottonwood limb, his head cocked at a horrible grotesque angle. From where the cowmen had been they could not have seen the team and wagon. But the redhead had come in through the back and must have seen them.

would be his brother Joe. They wouldn't leave a job like this to their hands. They were gonna see it was done right. We've got to get word to Price Regan. Bruce's testimony will hang all four of 'em."

"Pa," Jean shook his arm. "Bruce says Sanders came in through the back. He must have seen the team and wagon, and after awhile he'll think of it. Then they'll come here. When they find Bruce, they'll kill him."

"If they don't find him, they'll kill us for hiding him!" Lizzie cried. "Get him out of here! I don't aim to get shot on his account!"

Jean and Sam ignored her. Of the four, only Jean was thinking straight. She said, "Pa, saddle Nip for Bruce. I'll fix him a sack of grub. He's got to hide out for a while."

Jean raced into the house while Sam ran toward the corral, calling, "Come on, Bruce! You've got to stay hid out for a spell, then you ride in at night, careful like, and I'll tell you what's happened."

By the time the horse was saddled, Jean had returned with a flour sack of food. Sam tied it behind the saddle. Jean said, "I'll take the wagon and go to town and tell Regan to put a foot into a stirrup and pulled himself into the saddle. "Get moving, Bruce," Sam said. "Remember now. Stay hid out."

As Bruce rode, he remembered that the rifle he had taken from the store was still in the wagon, Jean Cronin hanging from that limb, Cronin who had wanted to be his friend and who had offered him a job. Bruce kept telling himself he could have saved Cronin. He hadn't tried in time.

Without conscious thought, he crossed the creek and left the horse behind an upthrust rock. He couldn't ride. He couldn't do anything. He slid out of the saddle, leaving the reins dangling and lay down on the ground and cried as he had not cried since his parents had died.

"I took just one look at him," she said, "and that was all, but I'll dream about him the rest of my life—the story continues here tomorrow."

He threw the rifle into the bed of the wagon and climbed into the seat. He whirled the horses away from the building, slashing them with the ends of the lines, and went rocketing into the road and on up the Yellow Cat. As he went past, Rose's cabin, he saw her out front, in her nightgown, her hair down her back, one scream after another coming from her open mouth.

Cronin had never driven horses crazy hard as he did this morning. When he reached the Potter place and pulled the latered, heaving horses to a stop in the yard, they were waiting for him, Lizzie screaming what was the matter with him. Jean pale-faced, and Sam running to the horses and putting his hands on their sweat-gummed bodies.

"Cronin," Bruce said hoarsely. "They hanged him."

The Potters stood motionless, staring at him. It was natural that Lizzie would be the first to speak, and what she said was natural too. "He's been flouting the laws of God and man, and now he's harvested the crop he sowed."

Sam and Jean condemned her with their eyes. Sam asked, "How did it happen?"

Bruce told them as well as he could, as if it had been a terrible nightmare that had wakened him in the middle of a black, lonely night.

"When he finished, Jean asked, 'You didn't know them?'"

"No. I never seen them before. 'But you'd know them if you saw them again?' Jean pressed. 'I'd sure know the redhead.' 'That was Sanders,' Sam said. 'Own Bridlebit.' 'You didn't get a look at the others?' Jean asked.

"No, but one of 'em was called Cole. Another one Tom." "Cole Weston," Sam said bitterly. "Tom would be Tom Mohawk. I reckon the fourth one

Cheerleaders To Get Throat Test

COLUMBUS, Ohio (AP)—Ohio State University is asking all its cheerleaders—past and present—to report for some throat tests. Dr. Louis H. Dieck, professor of music and Dr. Charles Doan, dean of the medical college, are looking for larynx nodules—small areas of calloused tissue caused by broken blood vessels. They say the nodules can be caused by shouting or screaming and they think cheerleading may be a major cause. Only 6.7 per cent of Canada's population will be engaged in agriculture within 22 years, says George Drury, a Windsor underwriter. Present percentage is about 20.

May Determine If Virus Is Cause

DALLAS (AP)—Dr. Joseph Beard of Duke University says the study of ultrathin sections of human tumors under a powerful electron microscope may show whether viruses cause cancer in man. He said in a speech at the University of Texas Southwestern Medical School, "fortunately, electron microscopy has provided a means for prospecting likely growths for the presence of virus. This is feasible by cutting ultra-thin sections of tumors."

# Some Day, The Marvels Of CBS Tentatively Says 'No' To Mediation Bid

By JOE LEWIS  
SCOTTSDALE, Ariz. (AP) — Some day this may be the scene in your home:

The solar alarm clock buzzes in your bedroom. You get up, check the thermostat to make sure the solar heating system is pumping warm air to offset the winter cold outside. Then you shave with your solar-powered razor.

Meanwhile, your wife makes breakfast on her solar-powered stove, listening to the solar radio. Then you drive off to work in a solar-powered car.

Sounds improbable? Not to the merchants, builders and industrialists who have contributed time and material to the construction of the first solar-heated and solar-cooled house. The Association for Applied Solar Energy explains that while there are other solar houses, they don't have integrated cooling systems.

The house is scheduled to go on public display here Sunday. It was built — without charge — by the Phoenix Assn. of Homebuilders for the solar group, which has its headquarters in nearby Phoenix.

The solar association is a private organization dedicated to studying and promoting ways of harnessing the sun's power efficiently and economically. Solar energy, it believes, will help answer the future problem of dwindling conventional fuels to poor industries and heat homes.

The house was designed by Peter R. Lee, a University of Minnesota student, who won \$2,500 in an international architectural contest which drew entries from a score of countries.

At first glance, the house resembles other ranch-style homes in the fashionable Scottsdale desert area. Basically, it consists of two rectangular sections connected by a glass-enclosed walkway dividing an outdoor patio. The house is shaded by concrete masonry screen walls along the sides and insulation in the inner walls and ceilings and built-up wooden roofs provide additional protection from excess heat.

The house utilizes 16,000 square feet of glass. Price tag: \$50,000-and-up. But the association is quick to note that this is merely an experimental luxury version and that cheaper solar houses can be and have been built for much less.

In the rear lawn is buried a 2,000-gallon water tank, one of the key components of the \$5,000 solar heating system. The other main essentials are a series of louvers, containing water pipes, located at the front and rear of the house and over the central outdoor court.

Here's how the solar heating system works: In winter, the louvers are adjusted so their blackened copper sides face upward to catch the sun's rays, which warm the water piped through the louvers. The heated water is pumped back to the storage tank by a conventional pumping system, which also circulates hot air given off by the pipes through a series of underground copper ducts. The hot air enters the house through grill-like openings in the floor.

In summer, the louvers' aluminum backs are turned toward the sun to throw off heat and the louvers themselves are used as shade. Air flowing from the pumping system is circulated through a refrigerator and the cooled air is sent through the underground ducts back into the house. If the water in the tank gets too hot, it is pumped out to an adjacent pool, which acts as a reserve storage tank for cooling.

Because of the amount of Arizona sunshine, says John I. Yellot, executive vice president of the association, the solar house can supply year round heating and cooling needs. Elsewhere in the northern hemisphere, the solar house would supply less of the heating needs the farther it is from the Equator.

And therein lies its biggest drawback at present. In Denver, a similar house would supply about 75 per cent of heating needs. In Seattle, only 50 per cent. And in Alaska — where fuel is especially costly — winter brings long nights and little sunshine, so not enough solar energy could be stored to do the job.

There are solar batteries today but their use in homes would be prohibitively expensive. Yellot predicts, however, that someday a cheap and sufficient method of storing solar heat will be discovered.

NEWTON, Iowa (AP) — Three grade school teachers in Newton will go to Europe next summer on grants provided by a firm manufacturing household appliances.

The travel scholarships amount to \$400 and were established to reward extra effort and make teaching school in Newton more attractive.

One voice that responded was that of Bob Allison of the Morrilton Club and the other that of Bob Allison, a visitor from the Conway club.

THOMASTON, Ga. (AP) — Fire Chief C. W. McDaniel answered a department phone and someone asked to speak to the arson investigator.

Asked who was called, the voice replied: "Mr. Torch."

The chief thought someone was pulling his leg but investigation revealed that was the real name of a man making a personal call to the investigator.

NEW YORK (AP) — The Columbia Broadcasting System has tentatively turned down a city mediator's offer to help end the strike of CBS radio and TV technicians.

CBS noted that the walkout is nationwide and not local. There was no indication of any agreement between CBS and the striking International Brotherhood of Electrical Workers as 1,500 union members remained off the job for the fourth day.

Meanwhile, shows are being handled by more than 300 supervisory and executive personnel who received a production training course last fall.

CBS has stayed on the air with most of its TV programs. Tonight two live shows — Climax and Playhouse 90 — will be replaced by film dramas.

The CBS radio network also is involved in the strike but its programs have not been affected.

Harold A. Felix, city labor commissioner, sent telegrams to CBS and Local 1212 of the union offering his services as mediator.

William C. Pitts Jr., vice president of labor relations for CBS, replied through a spokesman that, since the strike was nationwide and affected seven cities from coast to coast, the network was awaiting possible action by federal mediators and the union's headquarters in Washington, D.C.

However, Pitts, in replying to the plea of three other broadcast unions for resumption of negotiations, said: "I assure you that we are not lightly accepting an impasse. I am ready to cooperate in any effort to bring about a proper resumption of consideration of the problems."

The three unions which sent a letter to Pitts are the American Federation of Television and Radio Artists, the Radio and Television Directors Guild and the Writers Guild of America.

Charles A. Calzone, business manager of Local 1212, said his 800-member group stood ready to meet with city mediator Felix. He said his local had been "authorized to represent all other locals in any meeting with CBS to improve the company's offer."

The other 500 striking engineers, cameramen and other technicians are in Hollywood, San Francisco, Chicago, Milwaukee, Boston and Hartford, Conn.

The union and CBS have given different versions of the cause of the walkout. The network claims a wage issue is the cause of the dispute, and says the union turned down a wage boost bringing base pay to \$185 a week, a \$10 raise over current salaries.

The union has said job security and clarification of various working agreements are at the root of the walkout. A major issue, the union says, is over video taping — with tape replacing motion picture film in many TV programs and thus eliminating some film processing jobs.

OKEMAH, Okla. (AP) — Mrs. Huddle Morrow, a veteran saleswoman, couldn't break her self of an old habit.

She was working as an official during an election, and told a voter after he had cast his ballot, "Come back."

Absent-Minded Election Official

## Simple, 3-Minute Cancer Test Tried

By RENNIE TAYLOR  
AP Science Reporter

LOS ANGELES (AP) — A three-minute test for cancer, which flashes red for danger and green for safety, is being tried out here. More than 4,000 persons have been tested so far. The test's originator estimates it is wrong in no more than 3 to 5 per cent of the cases.

Dr. Ludwig von Bertalanffy, who developed the procedure, told about its early trials in a meeting with science writers touring research projects sponsored by the American Cancer Society.

Among 700 women suspected of having cancer of the cervix, or neck, of the womb, the test found 58 cases indicating cancer and 57 of these turned out to have malignancies, Dr. Bertalanffy said.

Among 1,100 other women picked at random, who showed no outward indication of cervix cancer, it identified four as having malignancies and eight others as being suspected of the disease.

Dr. Bertalanffy, who did the work at Mt. Sinai Hospital here, said the procedure is inexpensive and can be used in a doctor's office. In expert hands, an examination can be made in three minutes, he said.

The tests, however, yields only what physicians call provisional judgments. But it can single out the suspicious cases and leave the

final decision for established procedures.

A smear is taken on a glass slide. This may come from the womb, or from sputum from the lungs, or from materials in other parts of the body. Most of Dr. Bertalanffy's tests were made on cervical smears.

The smear is stained with a dye called acridine orange. This dye fluoresces under ultra violet light. Two kinds of materials in cells take up this dye. One is called deoxyribonucleic acid, a matter in cell nuclei. The other is ribonucleic acid, which is a component of the part of the cell enveloping the nucleus.

Under ultraviolet light, the nuclear type gives off a bright green glow, the other substance glows red.

Rapidly growing cells produce proportionately larger amounts of ribonucleic acids than of the other acid. This rapid growth is characteristic of both cancer and non-malignant tumor.

When smears show an unusual amount of red in the cells, Dr. Bertalanffy said, it indicates presence of either a cancer or a benign tumor. This is the signal for further examination.

New Jersey was divided into two colonies, West Jersey and East Jersey, in 1676 and remained so until 1702.

## Clean-Thumbed

RALEIGH (AP) — Six youngsters, led by a 7-year-old thumb-sucking boy, were being held in the Wake County detention home today charged with a series of 33 thefts.

Police said the thumb-sucking Negro boy was the "strategist" of the gang. His thumb, they said, "was the cleanest thing about him." The other boys ranged in age from seven to 12.

The young "leader," police said, was involved in 28 break-ins here a few weeks ago. He had been placed in custody of his mother following his arrest.

Loot from the 33 thefts ranged from postage stamps to \$75 in cash. Practically none of the loot was recovered, police reported.

Sgt. J. H. Bowers said the youngsters admitted disposing of their stolen loot at very low prices.

## 'Tin Policemen' Flunked Out

DAYTON, Ohio (AP) — "Tin policemen" have flunked out after one semester at five schools here.

The metal replicas of policemen, placed in the street to warn motorists of a school zone have, on occasion, been obstacles to traffic, frozen to the ground, rolled downhill in a heavy wind and placed an added burden on school custodians, the Dayton School Board says.

London's Great Plague killed 69,000 persons in 1665.

## Fourth Sweetest State In Nation

MADISON, Wis. (AP) — Wisconsin might be described as the fourth sweetest state in the nation.

The Federal-State Crop Reporting Service has announced that the state's production of about 14 1/2 million pounds of honey was the fourth highest in the land, and worth \$2,728,000 to farmers.

*When Distance Is Always Tempting!*

Take a new Cadillac—point its hood toward some distant destination—and watch what happens!

We would be willing to wager that day's end would find you far closer to journey's end than you could ever have imagined!

We say this because we know how wonderful the miles are when they pass beneath the wheels of a new Cadillac—and how tempting distance is when seen through the windshield of the "car of cars".

First of all, imagine how comfortable and rested you would be! The seat-cushions are soft and deep and perfectly contoured. The steering wheel is ideally positioned . . . and the car is wonderfully spacious.

Then consider how easy the car is to handle! It is incredibly agile and responsive—and wonderfully smooth and level of ride. In fact, if you have selected the extra-cost option of Cadillac's air suspension, you can scarcely detect the presence of the road.

And think of your pride and contentment! The very knowledge that your motor car is so highly admired and so widely respected adds its own reward to each and every mile.

You ought to try it soon. Your dealer will be happy to explain the virtues of Fleetwood coachcrafting—and to give you the facts on every model, including the exclusive Eldorado Brougham.

# ON THE HOUSE

By JOHN O. B. WALLACE

At the end of their search for a home, husband and wife are confronted by this question—can we afford it?

The answer can be and often is, no. But how can you be sure it shouldn't be?

There's no hard and fast rule-of-thumb answer; but generally speaking a family can afford a house costing from two and a half to three times the family's gross annual income.

Still, this is not a rigid formula because some families have no difficulty in financing homes worth three or more times their gross annual income, while other have trouble managing payments on a house costing less than twice their gross annual income.

Recent statistics of the federal housing authority, based on its experience with more than 3,400,000 government-insured loans, may help you to determine the house that's within reasonable range of your income.

The figures, compiled from the prices American families actually are paying for their homes, indicate that families with incomes under \$5,000 a year are successfully buying homes from two and a half to three and a half times their gross annual income.

## File Third Suit In 'Death March'

RICHMOND, Va. (AP) — A third \$200,000 damage suit against 14 Marine Corps officers for the death of a recruit during a disciplinary march at Parris Island, S. C., two years ago has been filed in Federal District Court here.

Counsel for Mrs. Pearl Thompson of Brooklyn, N. Y., filed the suit yesterday. Mrs. Thompson is asking damages for the death of her son, Leroy Thompson, one of six Marine recruits who drowned in Ribbon Creek during the night march April 8, 1956.

Yesterday's suit is identical in content to two filed Tuesday by the parents of Norman A. Wood of Bay Shore, N. Y., and Donald P. O'Shea of Brooklyn.

Each suit charges that S. Sgt. Matthew C. McKeon, who led the "death march," was "intoxicated and irresponsible." They contend failure of the Marine officers to control and direct the staff sergeants and add that the said "march" was a "violation of law and regulation by said staff sergeant" was known or should have been known to said commandant and the other defendants.

Among the 14 defendants are Gen. Randolph Pate, Marine Corps commandant; Lt. Gen. Vernon E. Megee, assistant commandant; and Maj. Gen. Joseph C. Burger, commandant of the Parris Island recruit training center at the time of the march.

After a court martial, McKeon was sentenced to nine months in prison and reduced in rank to private first class.

### Had Enough

GASTONIA, N.C. (AP)—After 17 children and 23 years of marriage to Mr. Shote, Mrs. Shote wants out.

Mrs. Lucille Shote filed for annulment in Gaston County yesterday, asserting Charles Shote married her in Union County, Ga., on March 2, 1933—and that this was 10 days after he married someone else.

Her attorney said Shote left her in 1956 and she learned of the prior marriage while attempting to file for a divorce and wed again.

The attorney said only eight of the couple's 17 children survive and that the family is supported on welfare checks.

The May 26 term of civil court is expected to get the case.

## Literacy Test Is Upheld In Court

RALEIGH, N.C. (AP)—The North Carolina Supreme Court has upheld the action of a Northampton County registrar who refused to register a Negro woman because she declined to submit to a literacy test.

The court did so yesterday in upholding constitutionality of state law which requires a person to be able to read and write any section of the state constitution in order to register as a voter.

Attorneys for Louise Lassiter, who sought to register, contended the literacy test is unconstitutional. The decision may be appealed to the U.S. Supreme Court.

Mrs. Helen H. Taylor refused to register Mrs. Lassiter last June 22 at the seaboard precinct. The Northampton County Board of elections and Superior Court Judge Malcolm C. Paul upheld the action of Mrs. Taylor.

The provisions of the law requiring a person to be able to read and write sections of the state constitution in order to register to vote "apply alike to all persons..." the court said. "There is no discrimination in favor of, or against any by reason of race, creed, or color. Hence, there is no conflict with either the 14th, 15th or 17th amendments to the Constitution of the United States."

## Pat Taylor Will Keynote Meeting

RALEIGH (AP)—Former Lt. Gov. H. P. Taylor of Wadesboro will be the keynote speaker at the Democratic State Convention here May 15.

This was announced yesterday by Chairman John D. Larkins of the State Democratic Committee. Taylor, a native of Hertford County, served as lieutenant governor from 1949 to 1953. He has practiced law in Wadesboro for a number of years.

### INDIANS COMPENSATED

## Scandal's Taint Not Likely To Hurt Lana

By BOB THOMAS

HOLLYWOOD (AP)—Will the taint of scandal end Lana Turner's movie career?

The answer is probably no, judging from recent history in Hollywood.

Lana's 14-year-old daughter Cheryl Crane last Friday night fatally stabbed Johnny Stompanato, Hollywood underworld figure who had been Lana's sweetheart. Cheryl said she did it to protect her mother from Stompanato's threats of harm.

There is no reason to believe that publication of Lana's searing love letters to Stompanato would be the factor to ruin her career. Indeed, they may heighten her appeal. Never underestimate the desire of shopgirls and housewives to live vicariously the adventures of movie stars.

No top star in recent times has been involved in a killing. But several have been entangled in scandals and survived—even flourished in their film careers.

This could not have happened in the silent era of films. Then a wild, wild Hollywood was faced by a less sophisticated America.

Scandal piled upon scandal, and Hollywood was denounced in pulp and editorial columns as a modern sodom. The film industry was alarmed at the wave of indignation. Patty Arubuckle, some historians claim, was offered up as a sacrifice.

Though he was acquitted of manslaughter charges in the party death of an actress, the public clamor against Arubuckle was great. Paramount scrapped half a million dollars' worth of Arubuckle films, and the fat comic retired from the screen. Ten years later, he was signed for a comeback but he died shortly afterward in 1933.

Caught up in the investigation of William Desmond Taylor's murder, Mary Miles Minter and Mabel Normand also lost their careers to the scandal. Both had been top stars.

Times change and so do public reactions. The first real test of a

star's durability came in the moral climate of wartime with Gashling Errol Flynn. He was acquitted on morals charges involving underage girls. Hollywood waited to see what would happen to his career.

It became bigger than ever. The scandal seemed merely to enhance his reputation as a lovable rake.

Charlie Chaplin also became the figure of a scandal concerning his relations with his protegee Joan Berry. He was freed and seemed to suffer no grave damage to his professional reputation. He fell in to disrepute with Americans later because of his pro-Red mouthings.

Robert Mitchum was nabbed on marijuana charges and served some time. But he went right back to acting and is still one of the top male stars. Rita Hayworth survived despite her international pursuit of Aly Khan. Ingrid Bergman, who mothered a child out of wedlock, returned a few years later to win Hollywood's highest honor, the Academy Award.

One long-time observer of Hollywood declares: "Scandals can often make stars more exciting and appealing. The only kind of scandal that can kill a career is one involving either communism or perversion."

It would appear that Lana Turner can resume her career with no difficulty—if she chooses to. And, having been in films since she was 15, she knows nothing else.

## Judge Gilliam Is Hospitalized

RALEIGH (AP)—Federal Judge Don Gilliam was taken to Memorial Hospital at Chapel Hill last night for observation after suffering a fainting spell on the bench here yesterday.

The 60-year-old judge was assisted to his chamber where he was examined by Dr. Ea I. Brian. A Hand James, clerk of court, said the doctor did not consider Judge Gilliam's condition serious at that time.

Gilliam was ill for several weeks in February and March. The court term here which began Monday was his first since his illness.

INTERNATIONAL STUDENTS LOGAN, Utah (AP)—Students attending Utah State University represent 31 different nationalities. Iran with 30 students has the largest number of the 162 foreign students attending the university.

ECC Whips The Citadel 2-1 On Williams' Homerun

Bucs Finish Tour With 2-1 Record; Meet WCC Friday

By BILLY ARNOLD CHARLESTON, S.C.—East Carolina College wound up their tour of this state yesterday afternoon, whipping a highly-favored Citadel team, 2-1, behind the pitching and hitting of sophomore George Williams.

Williams hurled a five-hitter against the Southern Conference club and slammed a game-winning homerun in the fifth inning to cap the afternoon's honors. Yesterday's win evened ECC's season record at 2-2 and fixed their tour mark at 2-1. They wound up with wins over The Citadel and the University of South Carolina (5-4) and a loss at the hands of the Parris Island Marines (2-1).

Whipped Cadets Coach Jim Mallory's North State Pirates scored in the fourth and fifth innings here yesterday to topple a much-ballyhooed Citadel 2-1 in a game played under a strong wind.

The Bucs knocked out six hits against Cadet pitchers John Grey and Bob Sica, in their best day at the plate thus far this year. They slammed four off Grey in four innings and got to Sica twice in the remaining five frames.

In the second inning, The Citadel scored its lone run when runner Williams committed a balk, scoring March from third.

The Bucs tallied their first run in the fourth inning on a double by first baseman Jimmy Martin and a following single by right-fielder Tommy Nance.

In the fifth, and Sica on the mound, Williams unleashed his long drive out of the park to give the Bucs a 2-1 lead and ultimately clinch the game.

Came In A Rush The Pirate hitting, which has worried Mallory ever since the beginning ball game two weeks ago against Delaware, improved all of a sudden yesterday. Against a hard-blowing breeze, the Pirates slammed several long balls that would no doubt have been fair hits in any other weather. They managed to wallop six as it was, including Williams' long blast.

Defensively, the Pirates kept Citadel runners off the basepaths with three double plays and some excellent fielding. "That's what made the difference," Mallory stated after the game.

Mallory's infield included Co-captains Jerry Stewart and Bucky Reep at shortstop and third base respectively. Al Vaughn at second base and Jimmy Martin at first.

About his club's scant hitting of late, Mallory also commented, "They hit well yesterday. They were hitting it hard and taking good cuts at the ball. I think they did very well against that hard wind." He added, "We've been winning lately without hitting; Coach Smith and I are beginning to wonder what would happen if we started hitting the ball. We're very enthusiastic about it."

On their road trip, the Bucs collected two wins and one defeat and during that time they managed to get 12 baseknocks.

Pitching Tremendous Mallory stated today that his pitching on the road trip has been "tremendous." He went further, "These last three were three of the best-pitched ball games I've seen in a long time. Lilley, Baker and Williams came through well and did a fine job for us. And, of course, we had Bruce Shelley in

there as our fourth man." He pointed out that Williams walked only one man yesterday. Still touching on his club's hitting—which has been a sore point lately—Mallory said, "You've got to realize that the caliber of opposition we've faced thus far this year has been good, much better than our boys are used to. Especially the pitching. For instance, the boy who beat us at Parris Island compiled a fine Class B record before entering the Marines last year." He carried on saying that his club was doing fairly well, all things considered.

Russell Out Two disappointing things resulted from the road tour: It was found that Pirate hurler Charlie Russell's arm is definitely in such bad shape that the High Falls senior's career is finished; and, that Freshman Catcher Marion Talton has a bone chip in his thumb which will plague him for some time to come.

Russell, who has compiled a 10-0 record in three years with the Bucs (he didn't pitch last year due to his arm), has been one of the most successful hurlers in the North State loop in many decades. Coach Mallory stated that "The boy's arm is just too bad to use. He couldn't even warm up down in South Carolina and it only hurts him to pitch, so we both decided that it would be best for him if he stopped baseball. It's a shame to lose him, he had a great record." Russell injured his deltoid muscle two years ago.

Talton, a big freshman from Pikeville who has done most of the Bucs' catching thus far, is expected to continue his playing. "It won't sideline him," Mallory commented, "but it will be painful when he plays. We may have to shift him into the outfield to relieve that constant drumming on his hand."

Western Carolinas Unless rain interferes, ECC will open its 1958 North State Conference baseball schedule in Greenville tomorrow afternoon at 3:00 against Western Carolina and will meet the Catamounts again Saturday at 2:00.

Slated to get the pitching assignments for ECC will be Leonard Lilley on Friday and Ben Baker on Saturday.

Basketballer Goes Berserk In Hospital

MANHATTAN, Kan. (AP)—Jack Parr, 22, star Kansas State basketball player, became suddenly violent yesterday, threatening doctors and nurses until he was subdued several hours later.

Parr, an above-average student and a Sunday school teacher, went berserk in his hospital room, demolishing furniture and glassing his wrists with broken glass. He lost considerable blood but his wounds were not considered dangerous.

The 6-foot-10, 200-pound giant chased hospital attendants off with a chair leg. Tear gas and hospital fire hoses failed to subdue him. Doctors then locked him in.

Parr finally was talked out by County Atty. Richard D. Rogers and the Rev. Samuel S. George of the First Presbyterian Church, his pastor.

After his wrists were treated, he was given a sedative and taken to the state hospital at Topeka for safekeeping, accompanied by four husky policemen and an ambulance attendant.

Parr went into his frenzy when a nurse attempted to give him medication. He had been hospitalized since Tuesday night.

A senior, Parr would have graduated this spring. His coach, Tex Winter, said the Kansas State center had been under psychiatric treatment "since after last Christmas, but nothing like this has happened before."

Parr, whose home is in Richmond, Va., has been named to the Big Eight All Conference basketball team for three straight years.

A physician who attended Parr said the tensions of "basketball had very little, if anything, to do with the present situation. If anything, basketball has helped some in therapy. Had it not been for basketball we might have gone through the same thing three months ago."

Pitchers Expect Worst In 1958

LOS ANGELES (AP)—A lot of National League pitchers have been expecting the worst at the Coliseum this season.

It looks like they are right. Developments in the past 24 hours indicate that pitching in the new home of the Los Angeles Dodgers is going to be about as pleasant as falling down an elevator shaft.

A college baseball team, the Southern California Trojans, went out to the Coliseum yesterday to test the 42-foot-high left-field screen, which is just 250 feet from home plate at the foul line.

In the next half hour, the Trojans swatted 11 balls over the screen and put 2 more over the right field fence.

Left-handed hitters do not appear to have nearly the advantage of the right-handers. The right field wall drops back quickly to 390 feet moving away from the foul line.

Said Trojan coach Rod Dedeaux: "I think they'll rain homers over that left-field screen, but round-trippers will be few and far between in right. I feel sorry for Duke Snider (a left-handed swinger)."

"The balls seem to have a strange carry in there. Some of those that went over or were caught deep didn't seem to be hit well enough to travel that far. "It was uncanny."

Machen, Folley Battle To Draw; Rematch Probable

By JACK STEVENSON

SAN FRANCISCO (AP)—Top-ranking heavyweights Eddie Machen and Zora Folley failed by far to determine a clear-cut title challenger last night in their 12-round draw.

A rematch appears a probability. Lanky Bill Swift, Folley's manager, shouted, "That decision was the biggest robbery I've ever seen."

He said a protest will be made to the California Athletic Commission but conceded he thought the decision would stand.

Most of the crowd of 11,750 at the Cow Palace booed lustily at dull action on occasion. They seemed to side with Swift and his 190-pound underdog from Chandler, Ariz.

Boos greeted announcement of the card from the one official who voted for Machen.

A ringside check of sports writers indicated that a 4-1 ratio for Folley over the 191 1/2-pound Machen, of San Francisco. Machen had won all his previous 24 fights.

Under California's 10-must scoring system, Referee Frankie Carter favored Machen 117-116. Judge Jack Downey scored it 115-115 and Judge Fred Apostoli saw Folley ahead 117-115. The Associated Press had Folley 117-116.

Former heavyweight champion Joe Louis opined: "It was a terrible fight. Machen wasn't sharp and Folley weakened."

Machen, rated the No. 1 contender, entered the ring a 2 1/2-1 favorite but in the early rounds seemed baffled by the potent left jab of the No. 2 challenger for Floyd Patterson's crown.

Eddie flurried to gain command in the closing rounds and that brought him from defeat. Even his manager Sid Flaherty conceded this.

Flaherty declared, "To clear the atmosphere these two boys ought to get together again."

"Sure, Folley will fight Machen again," said Swift. He added quickly, "But not in San Francisco."

San Francisco (AP)—His manager's advice that Zora Folley coast through the last round of his fight with Eddie Machen last night apparently cost Folley the decision.

The 12-round fight ended in a draw. Bill Swift, manager of the Chandler, Ariz., heavyweight said afterward he thought Folley had won all but a couple of rounds.

"Going into the last round Folley was so far ahead, as I and everyone around me saw the fight, that I told him he had it won and advised him to coast."

Folley coasted. The round was scored 10-9 for Machen by both referees Frankie Carter and Judge Jack Downey, while Judge Fred Apostoli saw it even. The draw resulted.

Three Top Teams Playing Today

The three top contenders in the Atlantic Coast Conference baseball race go to bat today to protect their unbeaten league records. But at least one of them will head for the showers a little tarnished.

Two of the high squads will be in opposition, North Carolina State's Wolfpack (2-0) against Clemson's Tigers (3-0). Meanwhile, Duke's Blue Devils (3-0) play host in the ACC debut of sturdy Wake Forest, which is 6-2 in non-ACC games.

North Carolina's Tar Heels, who lost their ACC opener yesterday to Clemson 2-1, go against winless South Carolina. Another second division club, Maryland, takes on outsider George Washington to complete the schedule.

In yesterday's games, State's Wolfpack got off to a quick 2-0 lead in the second inning, added two more runs later and then quashed a South Carolina ninth-inning rally to win 4-3. The Gamecocks, trailing 4-2 in the ninth, pushed across one tally but left the tying run on base.

Righthander Murphy Lemmon, who left the game in the sixth with a pulled shoulder muscle, took the loss. Hal Gibraltar got the victory after taking over in the fifth from Owen Wright.

Meanwhile, Clemson took advantage of a first-inning walk-er combination to score two runs against the Tar Heels in what turned into a pitcher's duel. Harold Stowe, yielding four hits, got the win credit against Wayne Young of North Carolina, who also yielded four.

Five Cars Were Entered Today In 500 Race

INDIANAPOLIS (AP)—Five cars were entered today for the 42nd 500-mile race at the Indianapolis Motor Speedway May 30 but drivers were named for only two.

Dan Lavine of the Federal Automotive Associates, Detroit, entered three cars with two drivers—Bob Christie of Grant's Pass, Ore., and Tom Pistone of Chicago.

Christie finished 13th in each of two previous Memorial Day starts. Pistone's experience has been largely in stock car competition and the United States Auto Assn. He will have to decide whether he has had enough experience to run on the big track.

Other cars were entered by Fred and Richard Gemmer, Indianapolis, and Leonard G. R. Smith of Speed Enterprises, Mount Clemens, Mich.

Spring Training Is Crippling Major Players

By WILL GRIMSLEY

The crack of breaking bones is rivaling the crack of home run bats and arnica is becoming an essential commodity among major league baseball teams heading toward their home bases.

Frank Robinson, hard-hitting young left fielder of the Cincinnati Redlegs, was sent spinning to the dirt yesterday when he was hit on the head by a pitched ball. He became the third casualty in as many days of a rather disastrous spring baseball period.

Monday, Harry (Suicase) Simpson, New York Yankee outfielder, suffered a broken right wrist when he was struck by a pitched ball. He will be lost to his team for three to four weeks.

Tuesday, outfielder Wes Covington of the Milwaukee Braves suffered a wrenched left knee when he collided with Los Angeles catcher Rube Walker at home plate. It's hoped he may be ready for Tuesday opener, but there's no guarantee.

Willie Mays, star center fielder of the New York Giants, got his arm clipped by a pitch which has handicapped his usefulness for a while. Duke Snider, the Los Angeles Dodger slugger, will not start the season because he is still bothered by the left knee which underwent an operation last winter.

Maywood Sullivan, Boston's rookie catcher, suffered a fracture of the right index finger. Then it was found he had a ruptured spinal disc which required surgery. He probably is lost for the year.

Yogi Berra, the New York Yankees catcher, has a split hand. Al Smith, Chicago White Sox outfielder, has an inflamed tendon in his right leg. Ted Williams of the Boston Red Sox, the American League's leading hitter, is hobbling around on a bad left

ankle. Williams made his first appearance in a spring game yesterday, but it proved nothing. He went to the plate twice and twice walked as the Red Sox beat Memphis of the Southern Assn. 10-1.

Robinson's injury occurred at Portsmouth, Ohio, where the Redlegs got little comfort from breaking a three-game losing streak with a 2-0 triumph over the Washington Senators.

He was hit on the face by a pitch thrown by Camillo Pascual. A doctor said he suffered concussion but probably no fracture. He may be out only a few days.

Herb Score, the Cleveland Indian southpaw who almost lost an eye when he was cracked by a line drive last May, was charged with a 6-3 loss to the San Francisco Giants at Harlingen, Tex.

The Braves whipped their old rivals, the Dodgers, again 5-4. The winning pitcher at Dallas was the World Series hero, Lew Burdette. The Philadelphia Phillies

banged the New York Yankees' aging Sal Maglie 12-3 at Winston-Salem, N.C. The Chicago White Sox crushed St. Louis at Denver 10-6, getting seven runs in the fourth inning. The Kansas City Athletics topped Little Rock 8-3.

In a night game across the border, the Pittsburgh Pirates whipped Mexico City 23-1.

To Select Top Golfer

GREENSBORO, N.C. (AP)—The Carolinas Golf Writers Assn. meets here tonight to present its "Golfer of the Year" award to Dugan Aycock of Lexington, Carolina PGA president. Association members are to receive awards for outstanding golf stories written in the past year.

# Everette Ties Net Record As ECC Triumphs

Maurice Everette, East Carolina's No. 1 tennis man, scored his 52nd singles victory yesterday here, to tie the state four-year record, as his Buc teammates trounced William and Mary 6-3.

The win was the third straight of the season for the Pirates, under new coach Bill McDonald.

Everette, defending North State Conference singles champ, defeated the Indians' Tony Perry, 6-8, 6-0, 6-3.

ECC, which holds wins over Wake Forest and Guilford, plays Atlantic Christian this afternoon at Wilson and will be back home tomorrow to face Geneva College Friday afternoon.

### Summary:

Everette (ECC) d. Perry, 6-8, 6-0, 6-3; West (ECC) d. Dixon, 6-1, 7-9, 7-5; Hollowell (ECC) d. Peterson, 6-1, 6-1; Savage (ECC) d. Helms, 6-4, 6-4; Hinkle (W&M) d. Brown, 6-3, 7-5; Doughtie (W&M) d. Katsias, 6-2, 6-3. Dixon-Perry (W&M) d. West-Savage, 6-2, 8-6; Everette-Howell (ECC) d. Hinkle-Helms, 6-1, 9-7; Peterson, 8-6, 6-3.

# Weather Postpones Greensboro Open

By KEN ALYTA  
GREENSBORO, N.C. (AP)—A cold rain postponed the start of the \$15,000 Greater Greensboro Open golf tournament today. Officials

called off the first round about two hours after the first group had teed off. Forty-one players of the field of 130 were on the course when play was stopped. Present plans call for the lost round to be made up by playing 36 holes Sunday. The 72-hole tournament over the

par 71 Starmount Forest Country Club opens the summer golf circuit. Fourteen of the top 25 money winners to date this year are seeking the \$2,000 top prize.

Although he's not on the list of leading winners, Samuel Jackson Sneed, the White Sulphur Springs, W.Va., coin collector, remains, as always at Greensboro, the man to beat.

He's been the No. 1 gallery attraction here for two decades and has revealed in the "old home week" atmosphere that attends his annual appearance here.

# Roy Is Willing But The Flesh Is Weak, Says Doc

By JOE REICHLER  
GLEN COVE, N.Y. (AP)—Roy Campanella is still not permitted to have visitors, outside of his family and a few close friends. His wife Ruthe explained: "The doctor thinks it's best, and so do I. Roy would love to see his friends. He is so eager to talk about baseball and the Dodgers. But the doctor feels it might prove harmful. He shouldn't be talking much and you know Roy. He might flare up with all the excitement. And there's always the danger of catching a cold, a virus."

since Campanella was injured in an automobile accident. He remains paralyzed from the waist down. The elevator stopped on the third floor. Mrs. Campanella walked down the length of the corridor and stopped outside Roy's door. "Roy's making progress," she said. "He shows a little bit of improvement almost each day. He still can't do anything for himself, but he has become able to move his arms a little and he has begun to have feeling in the lower part of his body. His temperature became normal for the first time yesterday. His appetite has improved. He is just now beginning to feel the taste of food. He still can't feed

himself. He doesn't have enough strength in his fingers to hold on to anything." Inside the room, Campanella, his maimed body strapped to a turning rack in his bed, was lying on his back. He was almost completely immobile. Frank Scott, business agent for many of the major league players and a close friend of the Campanella family, accompanied Ruthe into the room. The visit was limited to ten minutes. Scott reported that Campy looked just about the same as he did when the 1957 baseball season ended last September. His arms had thinned somewhat. "That fellow is a revelation," Scott said. "His faith and spirit is the most wonderful thing I've ever seen."

Campy is out of traction, Scott said. The tongs that held his broken back in place have been removed from his head, but the tube put into his throat after a tracheotomy is still there to help his respiration.

"Campy is convinced he's going to be able to walk again some day," Scott related. "Throughout our conversation he kept saying 'I'm going to make it, I'm going to make it... the good Lord will see me through.' Honest, he speaks with such faith and confidence that you get the feeling he will pull through." The doctors still cannot say what the future holds in store for Roy. There are hopeful signs. There is an iron bar attached to the head of Campy's bed. Each day, Roy's fingers are wrapped around the bar and he is asked to try to lift his body. Roy has reached the stage where he can lift the upper region about an inch. Mrs. Campanella came out to say goodbye. "Isn't Roy's spirit wonderful?" she asked. "He keeps all of us hopeful." At the elevator, Ruthe shook hands with the visitors and said simply: "Roy and I thank you for coming."

Thank you, Mrs. Campanella, and good luck, Roy.

Another was Jay Heber five-under-par 66 yesterday. The lowest practice round was 69. Jay hasn't won this he's twice tied for second \$9,750 ranks on the money list.

Stan Leonard, Vancouver professional who won 1 year, also figures to be in. He's won \$4,600 winning in only eight tournaments for fourth with Venturi. Masters, finishing only 1 back of winner Arnold Palmer. Other top entrants: Dour Ford, Art Wall, Billwell, Mike Souchak, Julius Tommy Bolt, Paul Harnet, to DeVicenzo, Marty Finnerwald, Howie Johnson, Al Balding.

# Updegraff And Robbins Favored

By WHITNEY MARTIN  
DELRAY BEACH, Fla. (AP)—Defending champion Edgar Updegraff and national amateur champion Hillman Robbins loomed as co-favorites in the 56th Western Amateur Golf Tournament starting today at the Country Club of Florida with more than 100 entrants.

Stocky Martin Stanovich of Miami Beach rated as a substantial dark horse on his showing in practice rounds. He turned in 70 for two trial rounds over the long par 72 layout, and appears to have the stamina to withstand the weeklong test combining medal and match play. The first two days are devoted to 18-hole qualifying rounds, with the low 60s and ties playing 36 more holes Saturday to determine the 16 players who will begin the 36-hole match play competition starting Sunday.

Although Stanovich was a stand-out in the practice rounds, other good scores were turned in, including 71 by Robbins and his pal, Mason Rudolph of Clarksville, Tenn., and 73s by Updegraff, Pete Dye of Indianapolis and Curtis Person of Memphis, Tenn.

WASHINGTON (AP)—North Carolina State tackle Darrell Doss has signed with the Washington Redskins to play in the 1958 National Football League season. The club announced signing the 235-pounder of New Castle, Pa., yesterday.

Robbins tamed a wild putter in his final tuneup round after carding a 75 Tuesday.

Robbins tamed a wild putter in his final tuneup round after carding a 75 Tuesday.

# We Want A WINNER!

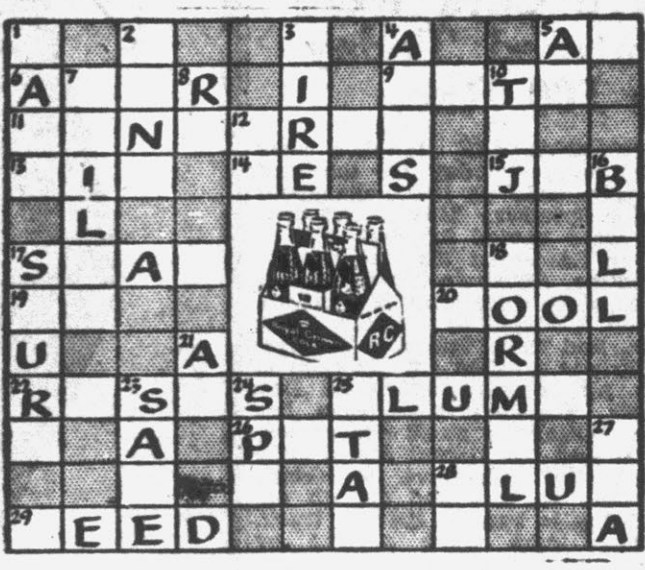

To help you in solving this week's puzzle we have included below a word list which contains all correct words.

YOU MAY WIN \$125. in this week's Royal Crown Cola Cashword Contest

This week's prize \$25. Plus a \$100 bonus if you send 6 Royal Crown bottle caps with your entry. It's easy... it's simple. Just enclose 6 bottle caps with your entry. 3c Postage is sufficient.

**CONTEST RULES:**  
Just complete the puzzle at right... clip it out, enclose in an envelope and mail to:  
ROYAL CROWN CONTEST  
Box 466  
Greenville, N. C.  
Only a completely correct solution can win. In case of more than one winning entry the prize will be equally divided among the winners. Employees of this paper and Royal Crown are not eligible to enter. The decision of the judges will be final.

Name \_\_\_\_\_  
Address \_\_\_\_\_  
City \_\_\_\_\_

All entries must be postmarked not later than midnight, Sunday, April 13.

# Still Fear Celtics Despite Injuries

By DAVE O'HARA  
Boston (AP)—The St. Louis Hawks still feared the injury-riddled Boston Celtics today while one game away from their first National Basketball Assn. championship. "We aren't right yet and the Celtics still are a great ball club, even without Bill Russell," cautioned St. Louis coach Alex Hannum last night after the Hawks' 102-100 victory for a 3-2 advantage in the best of seven series. "I think maybe the Celtics are slowing up a little, but we're scared stiff of them whether they have Russell or not," declared Kentucky star Cliff Hagan. With Russell sidelined with a severe ankle injury and backout

ace Bill Sharman hobbled by a twisted knee, St. Louis built up a 15-point halftime lead and then held on to win the vital fifth game. The Celtics, refusing to quit in defense of the NBA title, fought from nine points behind in the final two and a half minutes, but couldn't overtake the Hawks.

# Camera News

By IRVING DESFOR

AP Newsfeatures introduced the Master Photo Dealers' and Finishers' Association held its 34th annual convention and photographic trade show this year in Chicago from March 17 to 21. To it came the country's camera store dealers to examine the industry's newest offerings and to order the photographic items which will confront camera fans in a short time.

Here are some of the new items which show significant changes:

An electronic flash unit which eliminates the separate power pack was unveiled by Helland. In its "Futuramic Strobonar," all the operating components are contained in the lamp unit itself which weighs 35 ounces and is 12 1/2 inches high. Power comes from household current or from three size-D batteries when an electric outlet isn't handy. The speed of the flash is 1-2000th of a second and the light output gives a guide number of 35 for Kodachrome. The recycling time varies from 5 to 12 seconds depending on whether electric current or batteries are used.

The Futuramic features an optical lens reflector and flash tube which produces a spread of 70 degrees in its light distribution, sufficient for most wide angle lenses.

There are two models of the new unit. The deluxe model has two power transistors built into the circuit which boosts the performance of the three D batteries and provides a greater number of flashes per set. They also shorten the recharging time. The other model uses a conventional vibrator in place of dual transistors.

In sharp contrast to this latest in electronic flash units is a device introduced by Kodak: a flash bulb unit with no batteries, powered by a hand generator!

Yep, say the boys from Rochester, you can produce enough power on the spot to fire any of the usual flashbulbs. Cleverly designed, it's about the size and shape of an electric razor when closed. Opened, the flashbulb and reflector make up the top half while below is a large nylon wheel.

When the wheel is turned, power is generated and stored in a capacitor. A half turn is enough to fire a bulb immediately. A couple of turns will hold a charge for about five minutes. The unit can't be overcharged and will last a lifetime, it is claimed.

The Generator Flashholder comes in two models to fit most of the cameras on the market today.

Kodacolor film in magazines for 8mm cameras was also announced and introduced at the trade show. They will be available in 20-exposure rolls by late spring, according to Kodak officials. This film, which proved so popular in larger roll film sizes, is a color negative material which is balanced for picture-taking in daylight or with clear flash illumination without the necessity of filters. Any adjustments necessary are made in the color printing process to compensate for differences in the original light source.

In the home movie field, Bell & Howell came up with the first automatic threading 8mm movie projector, the "Auto Load."

In operation, the projectionist inserts the film into a channel which then takes over. It automatically engages the sprocket teeth, forms the film loops, directs the film through the aperture gate and pressure plates and then brings it out again in a matter of seconds.

The projectionist then has to engage it in the take-up reel and the show can go on.

The mechanism can also restore a lost film loop during projection by a touch of the finger to the film guide.

Also in the movie field, a new type of dry film applicator was shown by Kodak. It cuts out notched, interlocking sections from the film frames to be spliced and anchors them snugly together. An adhesive, perforated tape then binds them together so that the sprocket holes stay in register. The Prestape Splicer can be used on 8mm or 16mm film.

For darkroom die-hards, F & R are packaging their liquid chemical super-concentrates in polyethylene pila-bottles. Users can squeeze out the air to cut down on oxidation spoilage.

## Judge Should Be Able To Decide

TULSA, Okla. (AP)—U.S. District Judge Royce Savage asked a defendant if he wanted an attorney.

"I don't know, Judge," he replied, listening to several minutes of hemming and hawing, Savage finally told him:

"I sit here all day and make decisions. I think you ought to be able to make this one."

The University of Michigan has available five scholarships annually for descendants of American Indians.

# Top GM Negotiator Is One Who Likes Work

By DWIGHT PITKIN

DETROIT (AP)—General Motors personnel department borrowed Lou Seaton from the sales section after a 13-day recess. He has the enthusiasm of a man who likes his work.

Seaton took himself to the bargaining table Tuesday for renewal of talks with the United Auto Workers on a new contract after a year ago Well-dressed men are at work inside and outside the building, which had been all but deserted since it was erected a year ago. Well-dressed men driving late model cars frequently visit the site.

A Wortman associate purchased a 120-acre tract in the woods and converted the area into an island by digging a moat around it and diverting a creek into the moat.

Residents of the area think Wortman plans to use the building as either a hideout or a gambling casino. Federal agents have a charge that Wortman heads a million-dollar-a-year betting operation in the East St. Louis area, just across the Mississippi River from St. Louis.

Two of his associates have been indicted by a grand jury investigating his activities, but no charges have been filed against Wortman.

Wortman has denied that he owns any part of the island. But he supervised the construction, which began about the time that he was having trouble with men trying to take over his operations.

This led to speculation that he intends to use the island as a hideout. His home near Collinsville is in an exposed area.

Madison County Atty. Dick Mudge discounts the hideout rumor, however, pointing out that it can be reached only by a potholed road that offers many ambush possibilities.

"If this building is a gambling place, it will not operate," adds Mudge.

The site was purchased in the name of Sam Magin, one of the two Wortman associates indicted by the grand jury. Magin, who once managed Wortman's Padlock Tavern in East St. Louis, insists that the building is to be a boys club for Collinsville.

Magin was indicted on a charge of perjury. He is accused of lying by denying that he ever was a business associate of Wortman.

A veteran contractor estimated the cost of the island at \$250,000.

"Some boys club," he said.

## Fortress Built By Racketeer Is Mystery Source

COLLINSVILLE, Ill. (AP)—Racketeer boss Frank (Buster) Wortman has created a mystery with a fortress-like building on an island which he made in a wooded area near Collinsville.

Interest in what Wortman plans to do with the project has been rekindled by new activity. Men are at work inside and outside the building, which had been all but deserted since it was erected a year ago. Well-dressed men driving late model cars frequently visit the site.

A Wortman associate purchased a 120-acre tract in the woods and converted the area into an island by digging a moat around it and diverting a creek into the moat.

Residents of the area think Wortman plans to use the building as either a hideout or a gambling casino. Federal agents have a charge that Wortman heads a million-dollar-a-year betting operation in the East St. Louis area, just across the Mississippi River from St. Louis.

Two of his associates have been indicted by a grand jury investigating his activities, but no charges have been filed against Wortman.

Wortman has denied that he owns any part of the island. But he supervised the construction, which began about the time that he was having trouble with men trying to take over his operations.

This led to speculation that he intends to use the island as a hideout. His home near Collinsville is in an exposed area.

Madison County Atty. Dick Mudge discounts the hideout rumor, however, pointing out that it can be reached only by a potholed road that offers many ambush possibilities.

"If this building is a gambling place, it will not operate," adds Mudge.

The site was purchased in the name of Sam Magin, one of the two Wortman associates indicted by the grand jury. Magin, who once managed Wortman's Padlock Tavern in East St. Louis, insists that the building is to be a boys club for Collinsville.

Magin was indicted on a charge of perjury. He is accused of lying by denying that he ever was a business associate of Wortman.

A veteran contractor estimated the cost of the island at \$250,000.

"Some boys club," he said.

A grandfather at 51. Seaton has the appearance of a much younger man. He has ample brown hair without any trace of gray. He is a sharp dresser, sticks to vests so he can have pockets to carry pencils. But when the smoke-filled bargaining room gets heated he strips down to shirt sleeves.

He talks down-to-earth. He is quick at repartee, likes to kid the other fellow.

What are the qualifications of a good bargainer for management? First of all, Seaton says, "you must have an understanding of the workingman's problems and know plant operations."

It's not unusual for Seaton himself to show up at a plant even for a comparatively minor labor dispute.

"You need a good memory," Seaton says. He explains that in the quick give-and-take at the bargaining table, a negotiator has to have his facts at tongue tip.

"The management negotiator must be a guy of integrity," Seaton says. "If he gets caught once on a 'fast one' by the union fellows, he is lost."

A knowledge of labor law also is considered a must by Seaton. From their homes in suburban Huntington Woods, Seaton and GM's legal expert, Harry S. Benjamin Jr., usually ride to work together. They try out all the GM cars.

As a final qualification, Seaton says the company negotiator needs a lot of patience in getting to the root of a problem — "He should take plenty of time to find out what the real gripe is."

Louis G. Seaton was born in Detroit June 10, 1906. He first met his wife Kathleen when both were students at Wayne University here. They have two sons, John, 24, an engineer at Pontiac Motors, and Peter, 17, in high school; and a daughter, Mrs. Frank B. Swartout of Whittier, Calif.

Of medium build, Seaton keeps fit playing golf and going fishing at his lake cottage.

## Sheriff Proved Friend In Need

CHEROKEE, Okla. (AP)—Highway Patrol Trooper Dave Dvorak had to call Alfalfa County Sheriff Aubrey Tatro for help.

The trooper stopped in at a drug store. After he finished a drink, he reached for his money and found he was without any funds. The sheriff arrived in time to loan Dvorak some money.

## Rosy Hopes For Purple Prose

NEW YORK (AP)—A producer named Engelbach has rosy hopes that some purple prose and a roster of talent which should make television green with envy will result in a red letter day for network radios.

If Engelbach succeeds, you'll not only hear a two-hour special program on CBS radio May 4 when "Radio Color Roundup" comes on the air. You'll see it, too. (In the vivid eye of the mind, Watson, the imagination.)

Engelbach has assembled himself quite a roster of talent for the variety program: Ralph Bellamy, Robert Preston, Judy Holliday, Andy Griffith, Eydie Gorme, Andy Williams, Herb Shriner, Edgar Bergen, the Ames Brothers, the Ray Charles Singers and a 40-piece orchestra conducted by David Rose.

Color is the unifying theme with which Engelbach seeks to weave together this variety of entertainment. What does he mean?

"Modern life," he says, "has produced a widespread and permanent interest in color for the ordinary American. We think about pink automobiles, green refrigerators, pastel sinks, and some of us even remember the color of a sunset or a patch of daffodils.

"On 'Color Roundup' we hope to make listeners see, in their mind's eye, the colors of the things and places with which our broadcast is concerned. The script will be shot through with color imagery and the unifying theme will be the colors of the seasons."

Recalling Wordsworth's line "My heart leaps up when I behold a rainbow in the sky," Engelbach proposes to reverse the process: "The listener will behold a rainbow because we made his heart leap up."

## Cone Mills Sued By Textile Union

GREENSBORO, N.C. (AP)—An \$80,000 suit has been filed against the Cone Mills Corp. by the Textile Workers Union of America, charging the company with breach of contract at three plants.

The TWUA suit in U.S. Middle District Court yesterday alleged Cone with violated collective bargaining contracts by imposing a 1956 Christmas week vacation and that more than 4,000 workers in its Reidsville and Greensboro plants deserve compensation.

The TWUA added that an arbitration panel in the dispute favored the union but Cone refused to comply with the decision.

The monorail—single track—train which carries government officials between the Senate Office Building and the Capitol in Washington, D.C., is 760 feet long. It has been operating for nearly half a century.

# Literary, Historical Ass'n Sets May Meeting At ECC

The program for the annual meeting of the North Carolina Literary and Historical Association, to be held at East Carolina College Saturday and Sunday, May 3-4, will focus attention on various aspects of the past and the present in the historical, educational, and literary development of this state. A number of distinguished North Carolina scholars and authors will appear as speakers. President John D. Messick of East Carolina College, chairman in charge of local arrangements, has announced events of the two-day session.

# Serving Court Papers On Unions Ruled 'OK'

RALEIGH (AP) — The State Supreme Court has upheld the constitutionality of a law permitting court papers to be served on labor unions if they transact business in North Carolina. The court made its ruling yesterday in a case brought by Guy M. Beatty & Co. against the International Assn. of Heat & Frost Insulators Asbestos Workers, the Sheet Metal Workers International Assn., the United Assn. of Plumbers & Steamfitters, the International Brotherhood of Electrical Workers, International Hod Carriers & Laborers Union, the G. G. Ray Co. and the J. A. Jones Construction Co. The Beatty company filed the suit for damages as a result of a labor dispute which arose during construction of the West Gate shopping center near Asheville. The company contended it had contracted with the Ray firm, a sub-contractor for J. A. Jones, to install heating and air conditioning facilities at the shopping center. The company said the Ray firm's workers were not union members, and the defendant labor unions threatened to call a strike which would have virtually halted work on the project.

Dr. Robert Lee Humber of Greenville international lawyer and North Carolina patron of the arts; Ovid W. Pierce of the East Carolina English department, Mrs. Mebane H. Burgwyn, Northampton county, and Mrs. Ingils Fletcher of Edenton, distinguished North Carolina authors; Dr. Lawrence F. Brewster of the social studies faculty at East Carolina; and the Rev. W.M. Howard of Greenville, are among those scheduled to speak.

An afternoon session Saturday in the Joyner Memorial Library will begin at 2:30. A talk by Dr. Brewster on "North Carolina History 1780-1820" will be followed by a panel discussion among the authors, with Mr. Pierce acting as moderator.

Dr. Humber, principal speaker at a banquet at 5:30 p.m. Saturday in the East Dining Hall at the college, will have as his topic "The History of Pitt County." Mr. Howard will talk on "The History of the Church in North Carolina" at 11 a.m. Sunday at the Jarvis Memorial Methodist Church.

"East Carolina's Spade: To Serve," pageant marking the fiftieth anniversary of the college, will be presented Saturday at 8 p.m. in the Wright Auditorium and again Sunday at 3:30 p.m. Those attending the meeting of the North Carolina Literary and Historical Association have been invited to attend as special guests. Social events of the meeting will include a reception at 4:30 Saturday afternoon in the college library.

# Easterners On Wyatt Earp Kick

ELIZABETH, N.J. (AP) — Fred Campbell sits in his shop repairing saddles and making gun holsters for easterners on a Wyatt Earp kick. He's been doing it for 18 years — even gets orders for hand-tooled saddles which he sells for \$175 or more. Children are his best customers for the "gun" holsters. Campbell operates a hardware store too, but they ain't a six-gun in stock, podnuh.

HELD FOR HUSBAND'S DEATH—Mrs. Virginia Lott, 27, sits with her children in home at Citronelle, Ala., after she was released on bond in the slaying of her husband, Orban Lott. She has been charged with murder. Mrs. Lott told officers she shot her husband when he beat her 69-year-old mother in attempting to take money from the elderly woman. The children are Barbara Ann, 5, and Mitchell, 8. (AP Wirephoto)

# Hurricane Alarm System Devised

LITTLE ROCK, Ark. (AP) — L. W. Hamlin, a Little Rock manufacturer, thinks he has a simple answer to the need for a household alarm system for approaching hurricanes.

It's a wooden block containing a barometer, buzzer, switch and batteries for power. It operates on the principle that a sharp drop in barometric pressure always precedes a dangerous storm. The buzzer is linked with the barometer in such a way that at a pre-determined point it goes into operation. Hamlin says it's loud enough to wake the heaviest sleeper.

# Quirk Of Fate Ended Absence

ROCK ISLAND, Ill. (AP) — A quirk of fate ended Thomas Yoder's three-year absence from the eye of a probation officer who had seen his charge only once after pleaded guilty of burglary.

Capt. Elmer J. Janssens and Detective Sgt. Chester C. Brandt were walking along Chicago's State Street when they spotted Yoder, 39, working in an arcade. They obtained a warrant for his arrest and brought him back to Rock Island to show cause why his two-year probation should not be revoked.

# News From Fountain

Clifton Gardner was honored with a surprise birthday dinner by his mother, Mrs. Sallie Gardner, in her home Sunday. Guests were Mr. and Mrs. Harvey Pittman and daughter, Norma Jean. Mr. and Mrs. R. H. Williams of Athens, Ga., spent the Easter holidays with Mrs. Williams' parents, Mr. and Mrs. Jimmy Sutton. Mr. and Mrs. Calvin Jefferson and daughter, Shella, of Rocky Mount were supper guests of his mother, Mrs. Carrie Jefferson Sunday. Mrs. R. L. Perley and daughters, Lyn and Mollie, of Long Branch, New Jersey, were weekend guests of her mother, Mrs. J. W. Redick. Mr. and Mrs. Robert Shepard and daughter, Pam, of Kentland, Maryland, were weekend guests of Mr. and Mrs. I. J. Edwards. Mr. and Mrs. R. A. Fountain spent Sunday afternoon in Leggett visiting relatives. Miss Wilma Grace Owens of Hampton, Va., J. E. Mangum of Roxboro, and Mrs. G. L. Linker and Miss Julia Crabtree of Durham were weekend guests of Mrs. Ben H. Owens. Her other dinner guests Sunday were Mr. and Mrs. Fred Mangum of Elm City and Mr. and Mrs. Doug Moss of Wilson. Mr. and Mrs. Dalton Justice and daughter, Jenny Charline, of Richmond, Va., and Mrs. Z. V. Alford and daughter, Donna Marie,

of Tarboro were guests of Mr. and Mrs. Red Tyndall. Mr. and Mrs. Percy Owens recently spent the weekend in Crownsville, Md. visiting their son, Charlie Owens. Mr. and Mrs. Joe Bryant and family moved from Baltimore, Md., to Fountain Monday. Mr. and Mrs. Lester High, Mr. and Mrs. W. D. Johnson and son, Joseph Lester of Goldsboro and Mr. and Mrs. Carl P. Dilda and daughters, Donna and Carol of Raleigh, were dinner guests Easter Sunday of Mrs. Della Pierce. Mrs. John Oscar Pierce and sons of Greenville spent several days with her mother, Mrs. Carrie Jefferson. Miss Marie Owens spent the weekend near Rocky Mount visiting her brother and sister-in-law, Mr. and Mrs. Cecil Owens, and also attended the wedding of her brother, Wilton Owens and Miss Shelby Jean Prigden in the Union Baptist Church Sunday afternoon. Charlie Owens, Miss Vivian Craig of Crownsville, Md. and R.D. Owens of Wyoming spent several days with Mr. Owens' parents, Mr. and Mrs. Percy Owens. Their other Easter Sunday guests were Mr. and Mrs. Alton Heath and children of Washington. Mrs. Maggie Baker, Mrs. Zell Smith, and Mrs. Lum Jefferson spent Thursday in Wilson. Mrs. J. C. Brown and daughter of near Macesfield were guests

# Five WACs To Pay Old Soldier A Visit

FORT BLACKMORE, Va. (AP) — A black-haired old soldier, who in his 111 years "never saw a girl I didn't like," will play host Saturday to five gift-bearing members of the Women's Army Corps.

Their presentation to "General" John Salling, one of two surviving veterans of the Civil War, will be a new uniform that will make him a top officer in dress as well as in title.

The new outfit is an authentic replica of a Confederate soldier's uniform—made of summerweight material and loose in the waist as the "general" ordered.

After reading of the spry old soldier's complaint, members of the Women's Army Corps at Ft. Myer, Va., formed a committee and collected contributions from 150 members of the two WAC companies on the base.

Money in hand, the Wacs set about ordering the uniform. They combed the archives of the Library of Congress until they found an adequate description of the uniform worn by Confederate generals. Strangely, their greatest difficulty was finding an accurate description of Confederate gray. It turned out to be a powder blue—not gray.

Armed with a bolt of cloth, yards of gold trimming and Salling's measurements—"I'm 6-1 and weigh about 165 pounds. . . . Be sure the pants are large enough in the waist. . . . At least 38 inches . . . as I like them loose"—a tailor set to work.

The finished product will be presented to Salling at the home of his daughter Mrs. H. A. McCamey, with whom he lives at the nearby community of Slant.

Salling still has a good memory, a strong voice and a healthy shock of black hair—a result, he says, of never washing it.

The only other survivor of the war, also a Confederate, is Walter Williams, 115, Franklin, Tex.

# Points To Apathy In Negro Voting

DURHAM, N.C. (AP) — The Rev. Martin Luther King, trying to spur a North Carolina Negro drive for 250,000 new voters, says Negroes must overcome their own apathy as well as outside resistance to assert their rights. "You can change the course of history," the Montgomery, Ala., minister and bus boycott leader told a rally here last night, adding:

"Integration is not a silver dish handed out by the white man while the Negro furnishes the appetite. We must do it ourselves."

In Raleigh during the day, he said a gradual "breaking down of integration, despite the over my dead body people" has enveloped the South.

"There's more courage prevalent than ever before among the people interested in integration," he said in a speech at Shaw University's Technological Alumni Day.

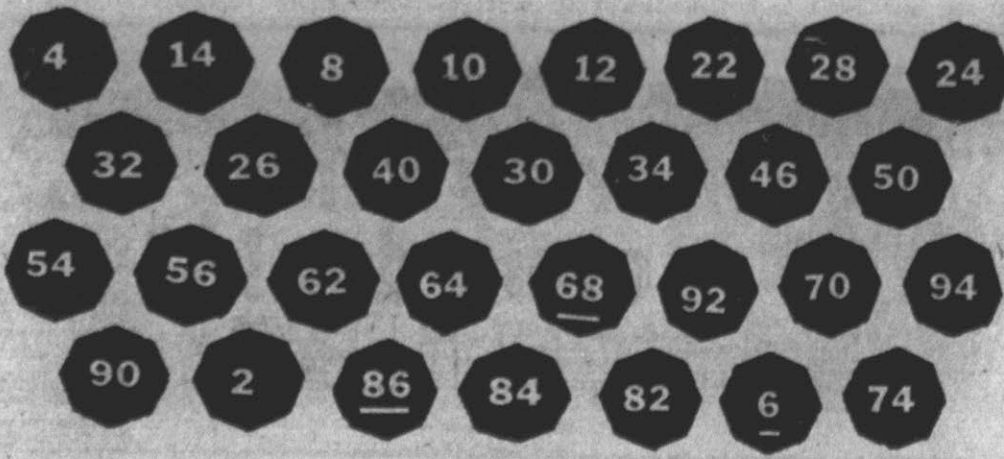

Washington Branch Director Clarence Mitchell of the National Assn. for the Advancement of Colored People said in Durham he thought North Carolina was "about to comply with school desegregation."

Look what the competition says about BUICK! "Buick's SPECIAL Series for '58... is being described by its competitors as a standout and a 'buy' that probably offers more car per dollar than any in its price class." # Seek Restoration Of Site Where Confederacy Ended

By CARLTON HARRELL  
Durham Sun Staff Writer

**DURHAM (AP)**—An aging chimney and a simple stone monument near Durham mark the end of the stormy, bitter trail the Southern Confederacy followed for four years.

The fine, made of native field stone, is the remaining trace of the Bennett Place, the small farm house where Gen. Joseph E. Johnston performed the last official act of the rebel government.

He met with Union Gen. William Sherman there April 26, 1865, to surrender the Southern government and its 90,000 rebel soldiers still under arms.

His act ended the arguments of some Southern leaders to keep up the fight, even through guerrilla warfare, slashing through the South to destroy her production capacity and food stores, had probed as far north as Raleigh, Johnston, who was the main Confederate leader in attempts to blunt his advance, again brushed with Sherman's strength at Bentonville.

In the last battle of the war, Johnston's 20,000 men dug in there to deter the advance of the left wing of Sherman's force. But Johnston again was forced to fall back.

Johnston moved to Raleigh and then toward Greensboro in an effort to link his force with Gen. Robert E. Lee's army. But that juncture was blocked when Lee was surrounded at Appomattox and surrendered April 9.

In a stormy session with President Jefferson Davis and the Confederate cabinet meeting in the Greensboro railroad yard April 12, Johnston argued against the continuation of warfare. Later, he wrote that he felt to continue the war under such circumstances "it would be the greatest of human crimes for us to continue the war, for, having neither money nor credit, nor arms but those in the hands of our soldiers, the effect would be, not to harm the enemy, but to complete the devastation of

our country and ruin of its people."

His point won. He was instructed to meet with Sherman and negotiate the surrender.

Johnston called for an armistice April 14 and asked Sherman to meet him to arrange terms to end the war.

The Union leader agreed and set the meeting place to be between the Union-Southern lines, about halfway between his Raleigh headquarters and Johnston's command post in Hillsboro. The point agreed upon was the Bennett farm, near the hamlet of Durham's Station (now Durham).

As Sherman was boarding the train to go to the first meeting on April 17, a telegraph operator stopped him and told him of President Lincoln's death. Sherman traveled on to the conference and passed the information to Johnston who exclaimed, "the event was the greatest possible calamity to the South."

His description of the loss was not wrong, according to Durham Attorney R. O. Everett, a member of the Bennett Place Historical Commission who is leading a move to have the Bennett Place restored as a historical shrine. Some historians believe, Everett said, that Lincoln, who met with Sherman several days before he was assassinated, gave the general instructions on what to demand when the Southern government folded.

The agreement, signed in the simple farm home, called for the disbanding of the Confederate armies, recognition by Congress and the President of the state governments in the South after their officers and legislatures should take the oath of loyalty to the Constitution of the United States, re-establishing federal courts in the south, guaranteeing political rights and franchise, and assurance that the people would not be disturbed on account of the war so long as they lived in peace.

But the terms given to Johnston were so liberal that Andrew Johnson, who moved into the presidency after Lincoln's death, and the Union cabinet repudiated them. Sherman, Everett said, was just following Lincoln's instructions.

So Sherman and Johnston returned April 26 to the house of Daniel Bennett, who was away serving in the Southern army, and Johnston signed the military surrender with terms similar to those Grant gave Lee.

Then "Reconstruction" of the Southern states started.

When Johnston returned to meet with Sherman on the final surrender terms, the members of the Confederate government scattered. Union forces hunted them down, one group capturing Davis in Washington, Ga.

The Bennett house burned in 1921. Sam T. Morgan of Durham and Richmond later purchased the property. After his death, Mrs. Morgan donated three acres and \$25,000 in 1923 to erect a shrine on the surrender spot.

North Carolina highway officials accepted maintenance of the shrine and through private donations, some improvements and a summer house have been built there, Everett said.

A move is underway to have the state restore the cabin. Private donations for the restoration amount to about \$1,200, Everett reported.

## Poor Cheese By Girlish Logic

**DECATUR, Ill. (AP)**—Fond of blue cheese, a Decatur girl was preparing a salad and paused to read the label on the cheese package.

"I don't think we ought to eat this cheese," she commented. "Why?" her mother asked. "Well, it says here that it took 90 days to cure it, and if it was that sick I don't think we should eat it."

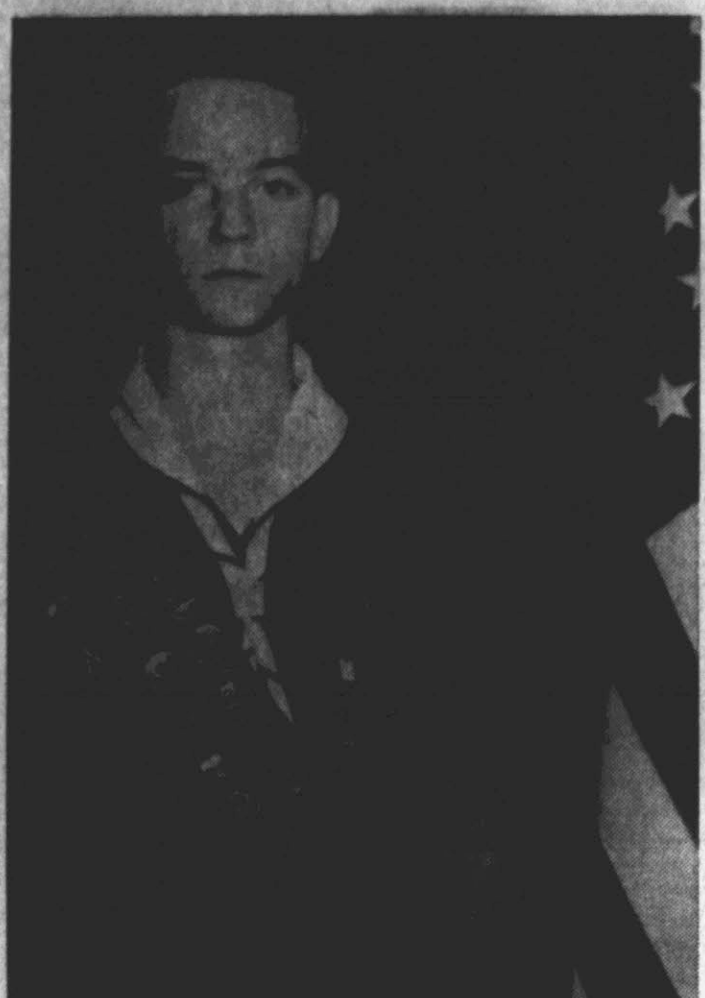

## Senior Citizen Fears A Crime

**OKLAHOMA CITY (AP)**—The Oklahoma crime bureau was asked by Oklahoma City police to analyze water samples brought in by an 88-year-old man.

He complained his wife was trying to kill him by "poisoning the water I kept my false teeth in." He said his 66-year-old wife wanted to get rid of him because "she's got her eye on another man."

Mammoth Cave in Kentucky occupies 8,000 square miles.

Historical and cultural advancement states, "is the spot where the principle of an indissoluble states-an ideal which, preserved from rebuilding the house, the States of America finally triumphed and established as inviolate its ideal of indestructible strength from year to year."

**EAGLE SCOUT**—Erskine Duff Jr. received the Eagle Scout award in a countywide Scout Court of Honor here Wednesday night. He is the second scout to receive the award this year.

## No Bottle - Filling, Unless Pharmacist Standing By

**RALEIGH, N.C. (AP)**—A person not licensed as a pharmacist cannot fill prescriptions without a registered pharmacist standing by—even if it only means putting tablets from a large bottle into a small one.

So ruled the State Supreme Court yesterday, upholding a restraining order obtained by the State Board of Pharmacy against W. Ronald Lane, a Wilmington drug store owner, and John W. Baldwin, an employee of Lane.

An agreed statement of fact said Baldwin, who is not a licensed pharmacist, had filled prescriptions during the pharmacist's absence when it simply involved re-

moving tablets from a large bottle and putting them in a small container.

In a case from Wilson County, the court granted a new trial for the guardian of Dr. John M. Gouldin III of Elm City.

Dr. Gouldin was injured by a gunshot blast in his forehead on Aug. 31, 1955, declared mentally incompetent. His guardian brought suit against the Inter-Ocean Insurance Co., which held two policies on Dr. Gouldin.

The insurance company declined to pay the benefits on the ground the shooting was an attempted suicide. A jury ruled Gouldin was not entitled to recover benefits from the company, although it said the shooting was accidental. The jury, answering another issue, said Gouldin made false representations of facts in his application for the policies.

The high court said it was granting a new trial "because of the admission of incompetent evidence" offered by the insurance company.

The Supreme Court also ruled that a local law applying to public drunkenness in Craven, Edgecombe and Lenoir counties is constitutional.

Herbert Dew was convicted in Edgecombe Superior Court last October on a charge of being drunk in Tarboro, three or more times within a period of 12 months in violation of the local statute.

The Supreme Court opinion reversed a decision by Judge William J. Bundy, who held the local statute unconstitutional. The high court said the local act is not in conflict with the general statute and "is not objectionable."

## Tower Of Babel In Language Class

**JERSEY CITY, N.J. (AP)**—Classrooms at St. Peter's College are a babel of tongues nowadays. By using soundproof booths and tape recorders, professors are teaching several foreign languages simultaneously. Whereas only one student could recite at a time in the old classrooms, now up to 42 can recite at once by using the tape machines.

## STOLEN, ANYHOW

**MIAMI BEACH, Fla. (AP)**—Mrs. Annie Katz of the Bronx, N.Y., gave her purse containing \$18 to her husband while she tried on a dress in a shop. She was afraid someone would take it. Katz put the purse down while he inspected a rack of dresses himself. Someone took it.

# In The Services

Eibert Crawford, damage controlman second class, USN, son of Mr. and Mrs. F. Crawford, Greenville Route 2, has completed a seven-month cruise in the Western Pacific aboard the attack cargo ship USS Union.

Army Specialist Third Class Marion F. Baker, son of Mr. and Mrs. George K. Baker of Farmville, will take part in a 101st Airborne Division maneuver at Fort Campbell, Ky. this month. Baker is a supply clerk with the division's 426th Supply and Transportation Company.

house of Greenville Route 6, took part in recent Atlantic Fleet amphibious exercises aboard the tank landing ship USS Waldo County.

Sergeant First Class Daniel L. Braxton, son of Mrs. Martha M. Braxton of Greenville Route 8, is scheduled to depart from Fort Benning, Ga. this month for Europe under the Army's unit rotation plan. He is a member of the 3rd Infantry division which is replacing the 10th Infantry Division in Germany.

Private first class Thomas Butts, whose wife, Marie, lives at 1100 Cedar Lane, Greenville, is a member of the 370th Armored Infantry Battalion in Germany.

Clarence Boyd Jr., dental technician second class, USN, son of Mr. and Mrs. C. Boyd of Grimesland Route 1, took part in Atlantic Fleet exercises in March aboard the amphibious force flagship USS Taonic.

Specialist Third Class Eugene Hamilton, son of Mr. and Mrs. R. L. Hamilton of 1008 Evans Street, Greenville, is serving in the 519th Field Artillery Battalion at Fort Lewis, Washington.

Wilbur E. Morgan, airman, USN, of Fountain Star Route, is serving with Patrol Squadron 49 at the Naval Station, Bermuda.

Juanita K. Howard, daughter of Mrs. C. G. Crockett of Williamson, has been promoted to private first class at Fitzsimons Army Hospital, Denver. Pfc Howard is a medical technician in the WAC Detachment at the hospital.

Specialist Third Class Alton E. Corey, son of Mrs. Mattie Corey of Grimesland, is a tank driver with the 23rd Infantry Regiment at Fort Greeley, Alaska.

Sergeant First Class Ernest R. Keel, son of Mrs. Martha Keel of Winterville, has been graduated from the 8th Infantry Division's Non-Commissioned Officer Academy at Bad Kreuznach, Germany.

Private first class Jessie L. Daniels, whose wife, Erma, lives at 1408 W. Sixth Street, Greenville, is serving with the 8th Infantry Division in Germany.

Staff Sergeant Dalton R. Sullivan, son of Mr. and Mrs. D. R. Sullivan Sr., 2502 Dunn Street, Greenville, is serving with the 1503rd Air Transport Wing at Tachikawa Air Base, Japan. Sgt. Sullivan will serve as a radio repairman for the unit.

Private first class Kenneth R. McLawhorn, USMC, son of Mr. and Mrs. J. F. McLawhorn, Greenville Route 1, and husband of the former Miss Betty L. Waters of 1400 Myrtle Avenue, Greenville, took part in amphibious exercises off the coast of North Carolina with the 2nd Marine Division from Camp Lejeune.

Specialist Third Class William E. Buck, son of James T. Buck, Chocowinity Route 1, will participate in 101st Airborne Division maneuvers later this month at Fort Campbell, Ky.

Private first class Edward L. Barrett, son of Mrs. Patsy Barrett, Grimesland Route 1, is serving with the 570th Field Artillery Missile Battalion in Vicenza, Italy.

Private first class Carlyle W. Oakley, son of Mr. and Mrs. Carlyle Oakley of Farmville Route 2, was recently graduated from the I Corps Non-Commissioned Officer Academy in Korea. He is regularly assigned to the 1st Cavalry Division's 20th Artillery.

Second Lieutenant Lewis S. Howe Jr., son of Mr. and Mrs. L. S. Howe of Greenville, is attend-

ing an eight-week radar course of the U.S. Air Force Aircraft Controllers School at Tyndall Air Force Base, Florida.

David W. Ferebee Jr. (above), son of Mrs. Sina I. Ferebee of Vanceboro Route 2, recently was promoted to captain at Fort Sill, Oklahoma, where he is attending the associate officer battery course at the U.S. Army Artillery and Missile Center.

Private Gerald Worsley, son of Mr. and Mrs. James Worsley, 408 S. Eastern Street, Greenville, has been assigned to the 2nd Training Regiment at Fort Jackson, S.C. for recruit training.

Pfc. Robert Scott is spending a 30-day leave here with his mother, Mrs. Irene Scott of 1401 Van Dyke Street, before transferring overseas.

The local serviceman received his basic training at Fort Benning, Ga. and attended a Signal Corp school at Camp Gordon. He is scheduled to report to Fort Lewis, Washington on May 8 for shipment to Korea.

## Telephone Line For BellArthur

Telephone service for the farm families along the highway west of Greenville to Bell Arthur and in Bell Arthur will become a reality within the next few days with the placing in service of the recently built telephone line in that section.

By means of the line, approximately 30 families will have telephone service furnished by the Carolina Telephone and Telegraph Company, which erected the line.

The line was installed in accordance with Carolina Telephone and Telegraph Company's activities to improve and expand farm telephone service on an extensive basis.

Frank Harrington, C.T. and T. manager, revealed that in order to construct the line, the company placed 7 1/2 miles of aerial cable and 3 miles of open wire facilities. The line cost approximately \$40,447.

Harrington said that the company is continuing its program to take the convenience of the telephone to farm area after farm area.

### ROUTINE MEETING

WINTERVILLE — In a short meeting Monday night, the Board of Commissioners handled routine monthly business and authorized Town Clerk T. E. Cannon to pay monthly bills.

# Spectacular, Flaming Exit For Sputnik II Is At Hand

By DON GUY  
CAMBRIDGE, Mass. (AP) — Russia's giant Sputnik II is about to make a flaming exit from outer space. And there's belief that the Soviets scored an even greater scientific feat with their dog-carrying moon than first recognized.

The satellite, experts at the Smithsonian Astrophysical Observatory here say, is expected to make its final plunge through the earth's atmosphere sometime Saturday afternoon or evening. The end may well be spectacular, with the satellite glowing like a meteor and visible over a wide area.

Launched last Nov. 3 with the shaggy dog, Laika aboard, the half-ton dog of the Soviet moon with its canine space pioneer astonished the world. America's three circling satellites are mid-girts by comparison.

Today some scientists at the observatory think the Soviet accomplishment of orbiting a dog with food, water and an air-conditioning system able to keep it alive for a week was actually considerably more impressive than the Western world realizes.

They believe Sputnik II is four or five times heavier than the half-ton announced by the Soviets. They figure there was a misunderstanding about the original announcement which the Russians, for reasons of their own, have allowed to remain unchallenged.

The free world assumes Sputnik II weighs a half ton because Russia announced a few hours after the launching that "the total weight of the instrument is 506.3 kilograms."

Various translations differ but all agree 506.3 kilograms was given after a listing of the instruments and dog. This is about 1,118 pounds, or well over half a ton.

Smithsonian scientists believe Russia was referring only to the weight of the instruments, dog and the essentials to keep it alive a week in space, not the over-all weight of the satellite-rocket. They believe the rocket motor, empty tanks and fram were possibly 40 feet in length and weighed several tons.

The significance of this is that it indicates Russia must have developed a first stage rocket motor far larger than anything on American drawing boards.

Sputnik's demise gal 2 advance for April 10

Scientists say it takes roughly 1,000 pounds on the ground to orbit a pay load of one pound. The 11-ton U.S. Vanguard develops 27,000 pounds of thrust to orbit a satellite the size of a handball weighing three pounds plus a final

stage rocket weighing less than 50 pounds.

Russia must have developed a rocket 1,000 times more powerful if Sputnik II weighs 2½ tons or 5,000 pounds.

Even at greater efficiency than the Vanguard this means a Soviet rocket of over two million pounds thrust to put Sputnik II into orbital acceleration.

The achievement is even greater because Russia tossed away most of the extra push given by the eastward rotating earth. Their launching angle of 65 degrees to the Equator means they didn't need to utilize most of the 1,000-miles-per-hour "bonus" thrust of the spinning earth at the Equator.

American launchings from Cape Canaveral at 35 degrees to the Equator take advantage of most of this free thrust into space.

Scientists first suspected something was amiss aloft when they tabulated the reports of over 200 Monnwatch teams throughout the free world. The report logged the rocket of Sputnik I and Sputnik II itself as magnitude minus 1 and even minus 2. This is equal to a very bright star or the planet Venus.

By contrast Sputnik I, the 23-inch sphere, was always reported as fifth or sixth magnitude or less, barely visible to the naked

eyes under ideal conditions.

Averaging the hundreds of sightings, scientists figured Sputnik II and the rocket of Sputnik I were both about 100 times brighter than the sphere of Sputnik I.

Bypassing the bushel basket of mathematical computation, it all adds up to this: Sputnik II is probably 100 times heavier and many times larger than all the U.S. moons blasted into orbit by the three successful firings from Cape Canaveral.

## Cases Heard In City Police Court

A Negro man drew two suspended consecutive sentences after being convicted of liquor law violations by Judge Charles H. Whedbee in City Court Monday.

Herbert Lee Harris of 1211 Dayport St. was convicted on charges of possession for sale and transporting of non-tax-paid whiskey and possession of non-tax-paid whiskey for sale.

On the first charge he drew a 60 day sentence suspended on payment of \$30, costs deducted. He is to remain on good behavior and not violate any laws for two years; he was placed on probation for two years and is not to possess any intoxicating beverage of any kind. His auto was confiscated and ordered sold.

On the second conviction he was given a 60-day consecutive sentence suspended on payment of \$25 costs deducted. It was ordered in that sentence also that he remain on good behavior for two years and not violate any law. He was again placed on probation for two years and is not to possess any intoxicating beverage of any kind.

Other cases tried Monday:

Roland Tyson, Rt. 1, Farmville, drunk, paid \$16; Carlton Freeman, 307 Mumford St., affray, 30 days suspended on payment of \$25, costs deducted, remain on good behavior for two years and not operate a motor vehicle for two weeks; Gene McGowan, 405 E. 13th St., affray, 30 days suspended on condition he remain on good behavior for two years, pay \$50 costs deducted and not operate a motor vehicle for 30 days, failure to stop for a stop light, not guilty, assault with a deadly weapon, not guilty.

David Hassell, 1802 Dickinson Ave., affray, called and failed to appear, a capias was issued for his arrest; Bobby E. Williams, Ayden, affray, 30 days suspended on payment of \$20, costs deducted, assault with a deadly weapon, not pro failure to stop for a stop light, not pro.

Cornell A. Lovett, Negro, 512 McKinley Ave., failure to keep a proper lookout, called and failed to appear, capias issued for his arrest; James Eiks, Cotton Mill, drunk 30 days suspended on payment of \$16; Clyde Whitfield, 200 W. Second St., assault on a female, 30 days on the roads; Richard E. O'Mary, 302 W. Second St., assault with a deadly weapon, 30 days suspended on condition he not harm or molest William Jones, pay costs.

Richard E. O'Mary Jr., 302 W. Second St., assault with a deadly weapon, not guilty; Francis W. Briley, Memphis, Tenn., speeding, paid costs; Noah Murphey, Negro, Rt. 5, Greenville, no operator's license, paid costs.

## His 1861 Bond May Be Fortune

WINSTON-SALEM (AP) — Wallace L. Reynolds, his fingers crossed, is checking the validity of a \$100 Forsyth County bond that has been gathering dust — and perhaps 6 per cent annual interest — since July, 1861.

If valid, the Winston-Salem man says it may be worth at least \$53,000.

The tattered document was issued almost 97 years ago to Reynolds' uncle, W. E. Lehman of Bethania. Reynolds stored it away as a keepsake of his old Moravian family until a newspaper story started him thinking.

The story, from High Point, concerned a similar Anson County bond held by A. C. Ray. The value of this 1865 bond, if ruled valid, has been put at \$53,000.

Reynolds' bond reads:

"The County of Forsyth owes to W. E. Lehman or bearer \$100 redeemable in current funds at the office of the county trustees in Winston on the first day of July, 1865, with interest thereon at the rate of six per cent per annum payable on the first of July each year from the date of this bond until the principal is paid."

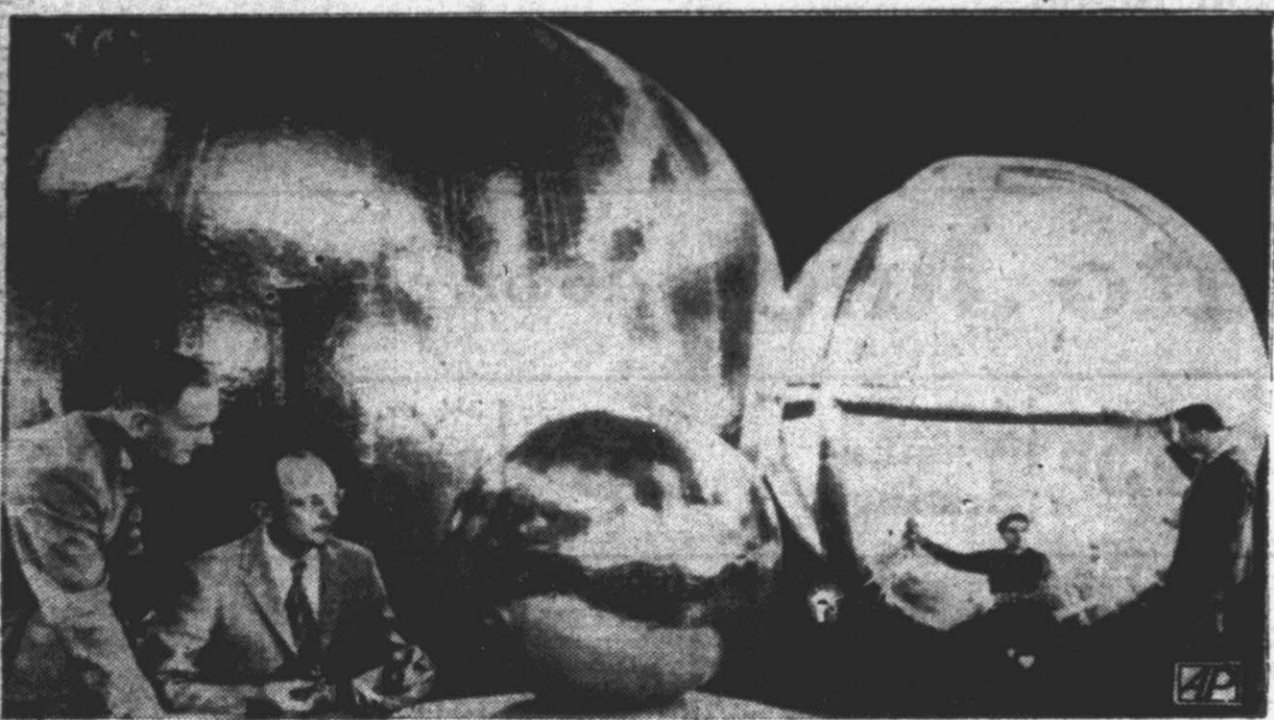

Reynolds says he's sure of at least two things: The bond bears U.S. tax stamps and isn't Confederate; and if it isn't redeemable, it's still worth plenty as historical paper.

## Virginia License Tags Advertise

RICHMOND, Va. (AP) — If you notice an American's automobile abroad it will probably carry a Virginia license tag.

Chester Lamb, Virginia motor vehicle commissioner, says "happy we are getting such good advertising."

Most states issue tags only if the owner applies in person. A few will issue plates by mail after the applicant has proven legal residence in the state. But just send in the fee and Virginia will mail you the tag. And many are sold to service men and to employees of American firms in foreign countries.

BALLOONS DESIGNED FOR SPACE—These aluminum balloons will be placed in orbit soon to measure density of outer air, the Reynolds Metal Co. announced in Washington. The balloon at left is 12 feet in diameter, and there are a 30-inch and a 12-foot "corner reflectors." Spheres' designer William J. O'Sullivan (second from left) of the National Advisory Committee for Aeronautics holds a collapsed 30-inch sphere. It was made from 65 cents worth of aluminum foil and will go up with one of the next Vanguard satellites. (AP Wirephoto)

NEW YORK (AP)—The stock market backed away in full trading early this afternoon. Small losses were the rule for most key stocks. Steels, motors, chemicals and nonferrous metals declined. Leading rails were slightly ahead on a average. Utilities were fairly firm.

A few stocks moved more widely because of special developments.

The general news background remained about the same although an FHA report that home buying plans show a brisk spring pickup was a more lively note.

The market was resuming a downturn interrupted by a day and a half of technical rebound following a general decline that lasted nine sessions.

A feature on the downside was Lukens Steel which fell about 3 points in continued reaction to a sharp drop in earnings and a lower dividend than in the previous quarter.

A brighter item was a jump of well over a point by Eastern Corp. as terms of its proposed merger with Standard Packaging were made known. The latter stock dropped a major fraction.

A continued decline in Lorillard, which lost about a point, and a decline of a major fraction in family finance, which opened on a 5,000-share block, were other highlights.

The Associated Press average of 60 stocks at noon was down 30 cents to \$159.00. With the industrial down 70 cents, the rail up 20 cents and the utilities down 10 cents.

# Korean Airman Fails In Try To Hijack Plane

SEOUL, Korea (AP)—A Korean airman tried to seize a South Korean air force plane in flight today and force it to fly to Red North Korea.

The plane's radioman was shot and killed and the pilot and engineer seriously wounded before the interloper was subdued.

The copilot took over the controls of the C46 and landed it in South Korea at Pongtack, 40 miles south of Seoul.

The would-be hijacker, who apparently was not hurt was arrested.

It was the second such incident in two months. On Feb. 16 North Koreans forced the two American pilots of a South Korean civilian airliner to fly into North Korea. Later the Communists released the two Americans and 24 of the 32 others aboard but are still holding the plane and its cargo.

Air force officials identified the captain who tried to take over the plane today as Choi. They said he was about 30 and a native of North Pyongyan province, north of the Communist Korean capital. Part of his family lives in the North, they added.

There appeared to be some belief that Choi was not necessarily a Communist agent but just wanted to return to his birthplace. A special investigation board left for Pongtack.

An Air Force announcement said Choi made his attempt 40 minutes after the plane, with seven South Koreans aboard, took off on a flight from Taegu to Seoul. The aircraft was to pick up a group of newsmen and fly them to graduation ceremonies at a naval and air academy near Pusan.

"A struggle developed between a man of subversive nature and crewmen aboard the plane," the would-be hijacker was armed with a revolver, the announcement reported, adding that the rest of the crew fought "heroically and courageously."

Sgt. Kim Sang Bok was the radioman who was slain. The wounded men were Capt. Kim Kap Kyoo the pilot, and Sgt. Chon Byong Hoon, the engineer. The copilot who made the landing was Lt. Chang Byong Lin.

The plane was reported undamaged.

# Judge Frees Youths In 'Bus Seating' Violation

TALLAHASSEE, Fla. (AP)—City Judge John Rudd today freed two Negro youths jailed for violating Tallahassee's unique bus seat assignment law.

Rudd said in suspending the remaining 49 days of Johnny Herndon and Leonard D. Speed that they were the victims of circumstances and acted under the influence of persons and organizations who gave little or no consideration to the public interest.

Herndon and Speed, former students at Florida A. & M. University for Negroes, were placed on one-year probation.

The City Commission called an unprecedented emergency meeting to recommend the clemency action. The commission acted upon the petition of Francisco Rodriguez of Tampa, Florida attorney for the National Assn. for the Advancement of Colored People.

Herndon and Speed had been sentenced to 60 days in jail and fined \$500 13 months ago for violating the bus seating ordinance enacted at the height of a campaign by Tallahassee Negroes to ride buses integrated.

The ordinance requires bus drivers to assign seats to passengers on the basis of weight distribution, health factors and considerations of law and order. It supplanted an ordinance which required segregated seating of the races.

A white youth, Joseph Spagna of St. Petersburg, who was convicted with the two Negroes, has not yet been apprehended to begin serving his jail sentence, but Rudd said that it was expected he would be picked up soon. Spagna attended Florida State University.

# One California Quadruplet Dies; Two Babies Left

SAN FRANCISCO (AP)—One of the quadruplets born Tuesday to 19-year-old Gladys McGraw died last night, Mary's Help Hospital reported. Another—a girl—was stillborn.

A hospital spokesman said the two surviving boys were in fair condition in incubators but were causing concern because they were premature and each weighed only a little over two pounds at birth.

It was the last born, also a boy, who died, the spokesman said.

Mrs. McGraw, who came from San Salvador, El Salvador, six years ago, was reported in good condition.

Her husband, Jan. 22, who immigrated from Glasgow, Scotland, four years ago, earns \$75 a week as a janitor.

SANTA FE, N.M. (AP)—Officials says tests show the deaths of two youths Tuesday were from an overdose of a common sleep-inducing drug, nembutal.

Arturo Lovato, 17, and George Vigil, 16, were found dead in an abandoned house near the downtown district. Claude Padilla, 18, and Richard Romero, 17, were unconscious. Edison Lovato, 17, was stumbling dazedly.

Three survivors are reported improving in a hospital.

# President Plans Augusta Holiday

WASHINGTON (AP)—President Eisenhower plans to fly to Augusta, Ga., tomorrow for a weekend of golf and rest.

Press secretary James C. Hagerty said the trip is contingent on good weather in Augusta, and on whether the President is able to clear his desk of work in time.

Eisenhower's tentative plans call for departure aboard his private plane, Columbine III, about 9 a. m. for the two-hour trip.

Eisenhower would return to Washington either Sunday evening or early Monday morning.

# Pilot Parachutes From Jet Plane

MURFREESBORO, N.C. (AP)—A Navy pilot got away unhurt yesterday by parachuting 6,000 feet after his jet fighter-bomber developed engine trouble. The plane crashed in a wooded area near here.

The Navy identified the pilot as Lt. (jg) Peter Bigelow Easton, 26, of the Office of the Chief of Naval Operations in Washington.

# Traffic Toll

RALEIGH (AP)—The Motor Vehicles Department's tally of highway deaths and injuries for the 24 hours ending at 10 a.m. today:

# 'A Dry Hole'

RALEIGH (AP)—Gov. Hodges said today "we have hit a dry hole" in the state's quest for new bids for the lease of state-owned phosphate lands in Hyde and Beaufort counties.

The Bear Creek Mining Co., which originally offered to lease the submerged lands, withdrew when the Council of State reopened the bidding.

Hodges said he had accused the company of "slamming the door on us" and received the reply, "we haven't even closed the door."

However, the governor said Bear Creek has indicated it will not be represented next week when the Conservation and Development Board meets at Goldsboro.

# Has Successor To Cutler Moore

RALEIGH (AP)—State Sen. Cutler Moore of Lumberton stepped down today as a member of the State Highway Commission and Gov. Hodges immediately appointed State Sen. James W. Mason of Laurinburg to succeed him.

Gov. Hodges told his news conference he would guess that Moore resigned from the commission to run for reelection to the State Senate.

Mason, 42, an attorney and member of the Senate in the 1957 General Assembly, will be sworn in as a member of the Highway Commission's next meeting May 5.

"I regret that the highway commission is losing the services of Cutler Moore, but am pleased that Jim Mason has agreed to accept this appointment. Mr. Mason is an able man who will make a valuable member of the commission," Hodges said.

A native of Scotland County, Mason attended Wake Forest College where he obtained his law degree in 1935. He has been active in the North Carolina Bar Assn. and served three years as a member of its Board of Governors. He was a special agent for the FBI between 1942-46.

# Find Decomposed Body Of Woman

BURLINGAME, Calif. (AP)—The badly decomposed body of a woman about 30 years old was found yesterday with her wrists bound and a pair of panties stuffed down her throat.

Three boys stumbled on the body, nude except for a black checkered coat in which it was wrapped. It was covered with brush in a eucalyptus grove near Skyline Drive on the San Francisco Peninsula.

Police Lt. Jack Price estimated the body had been there "about a year."

A laboratory test was scheduled to determine when the unidentified woman died.

# Fish Supply Is In Good Condition

BOSTON (AP)—A U.S. Fish and Wildlife Service survey indicates worthwhile quantities of commercial fish remain to be tapped in coastal waters off the Carolinas.

The survey, released yesterday, said substantial amounts of industrial fish may be available in areas south of Cape Fear.

The agency made exploratory trawls between Feb. 23 and March 17 and its survey reported one catch of 700 pounds of red snapper off the coast.

More than 200 specimens of sand bar shark found south of Cape Hatteras indicated this species may winter there.

The agency will start another trawl April 16 to study bluefin and other species of tuna.

# Thieves Break In Fayetteville Safe

FAYETTEVILLE, N.C. (AP)—Thieves robbed a safe here last night of about \$1,000 in cash and \$5,000 in checks after a tear gas bomb within the safe failed to explode.

Police said the thieves used an acetylene torch belonging to the company to open the safe.

The tear gas bomb, used as an anti-burglary device, did not explode.

# Jumped From Truck And Dies

ASHEVILLE, N.C. (AP)—A 15-year-old Yancey County girl died in a hospital here today of injuries suffered when she jumped from a moving pickup truck near her home yesterday.

State Highway Patrolman V. C. Coggins said Purcell Higgins apparently tripped as she attempted to get off the moving truck while it was passing a store at a low rate of speed. She suffered a skull fracture and other injuries.

# CONSIDER REPORT

GREENSBORO, N.C. (AP)—The board of governors of the State Bar Assn. meets here today to consider a report on court reorganization made by a committee under State Sen. J. Spencer Bell of Mecklenburg.

# President Will Take Fight On Defense Plan To People

WASHINGTON (AP)—President Eisenhower will take the fight for his defense reorganization program to the people next week in a nationwide broadcast.

The White House announced today this will be the theme of an address to a luncheon meeting here next Thursday of the American Society of Newspaper Editors.

The speech will be carried live, starting at 1 p. m. EST, by NBC-TV and radio, CBS-TV, and Mutual radio.

Originally, the President had intended to make foreign policy his main theme in the speech.

But press secretary James C. Hagerty announced that Eisenhower has switched plans and the talk now is entitled "Why We Have to Modernize Our Defense Establishment."

Hagerty also told newsmen the President is considering making a speech outside Washington sometime next month. In reply to questions, the press secretary said that address probably would not deal primarily with the defense reorganization program.

He declined to provide any detail at this time.

Eisenhower told his news conference yesterday he doesn't care how strong or how numerous critics of his program are—he is going to fight for it with every means at his disposal.

He also said then that he would "get onto the air as often as the television companies would let me on."

Hagerty said that in addition to the live broadcasts of next Thursday's address, CB and ABC will carry delayed radio broadcasts at times to be fixed later.

From Sen. Cooper (R-Ky) came a prediction, after a visit with the President, that the Senate will approve the reorganization plan.

The reorganization program has been interpreted as calling for, among other things, channelling all military money to the Defense Department instead of to the individual services as at present.

Cooper said his personal view is that there would be no such over-all earmarking of military money for distribution by the Defense Department to the services. He noted that Eisenhower, in his defense message to Congress last week, talked about a need for greater flexibility in the handling of defense money.

The senator said in his view that does not mean that Eisenhower wants all such money channeled to the Defense Department.

He declined to say whether he discussed that matter with the President and, if so, whether the President agrees with him.

# Candidates Are Running For Two Offices

A typographical error in yesterday's edition of The Daily Reflector omitted the office being sought by one candidate who has filed with the Pitt County Board of Elections.

Jack M. Collins became a candidate for Justice of the Peace in Ayden Township and Levi Wilson has filed for the constabulary of Grimesland Township. Yesterday's report made it appear as if both men had filed for the same office.

Board of Elections Chairman D. S. Spain, Jr., said this morning that he would be in the Pitt County Courthouse Saturday morning from 9 o'clock until noon to accept filing fees from persons interested in seeking offices subject to the May 31 Democratic Primary.

Spain will also be in the Court House during the same hours on April 19, last day for filing for offices.

The FBI said Hester borrowed the getaway car from a Fayetteville auto dealer Tuesday on the pretext the dental firm might buy it.

# Soviet Proposes Recession Study

GENEVA (AP)—The Soviet Union today proposed that the economic ministers of all European countries and the United States meet this fall to work out a joint plan to combat the recession.

Soviet Deputy Foreign Minister A. V. Zharov told the United Nations Economic Commission for Europe that the meeting should emphasize plans for a long-range increase in Europe's East-West trade.

Western delegates made no immediate public comment on the surprise proposal, but some said privately that the primary goal was relation of Western controls on strategic exports to the Soviet bloc.

"We do not rejoice at the sight of growing unemployment in the West," Zharov said. "We deeply sympathize with the victims of this scourge."

Zharov suggested a four-point agenda:

1. Ways and means of developing trade among all European countries and the United States.
2. Development of East-West trade on a long-term basis, covering at least the next eight years.
3. Exchange of information, on a commercial basis, about technical progress and the organization of production processes.
4. An exchange of patents and agreements for production licenses.

# Duke Glee Club To Give Concert

The Duke University Men's Glee Club, 74 voices, will present a concert at the John Small School auditorium in Washington at 8:15 Friday evening.

The concert is sponsored by alumni of Duke University in the Washington area. The Glee Club will be directed by Dr. Paul Young. A varied musical program will be presented.

Korea has a 24-letter alphabet.
