Dear Mr. Spielberg:

Having long been an admirer of your films, I thought you might enjoy my electronic novel *Fire and Fur: The Last Sorcerer Dragon*. It features cats and dragons in the Gobi desert (description, details, and a disk copy enclosed). I am told it is very visual and cinematic: dragons making love inside a thunderstorm, for example.

I hope you and/or your staff enjoy it and might consider it for an animated film.

Sincerely,

P.S. Please note my address change effective around 12/21:
