

Some cloudiness and colder tonight and Wednesday.

Doctors Expect Kidd Brewer To Recover From Slashing Self

Condition Today 'Critical, But Improved'; Missed Vital Arteries

RALEIGH (AP)—Kidd Brewer, Raleigh businessman and sometime politician, implicated in an investigation of State Highway Department activities, is expected to recover from what doctors call an attempted suicide.

Brewer, 52, was in Raleigh's Rex Hospital today receiving treatment for slashes on his wrist and throat and an overdose of sleeping pills.

A hospital spokesman said this morning Brewer's condition was "still critical, but improved."

Brewer required 100 stitches, a pint of blood and a stomach pumping after the incident at his home just west of Raleigh. He was found shortly after noon Monday lying in a pool of blood in the loft of a converted barn on his property.

There was a three-inch gash in his throat and 1 1/2-inch cuts on both wrists.

Dr. Isaac V. Manley, a surgeon, said Brewer missed the arteries in his wrist and neck. "We were able to fix it pretty well," Manley commented.

Shortly before the incident, Brewer, an insurance executive, was in downtown Raleigh conferring with attorneys about his appearance scheduled for today before Revenue Commissioner William A. Johnson.

Gov. Sanford fired Highway Department engineer Robert A. Burch on Jan. 7 for being "too closely associated" with Brewer.

The State Bureau of Investigation and Gov. Sanford said Brewer had been dealing with firms selling sign materials to the state and was turning over substantial sums of money to Burch's son Robert M., a Duke University student.

Burch was in charge of highway department sign procurement and was responsible for writing specifications for signs and sign materials.

Eight sign material firms, including Minnesota Mining and Manufacturing, were suspended from doing further business with the state in light of the disclosures.

Sanford said four of the firms had paid about \$85,000 to a firm operated by Brewer and that Brewer had turned about \$40,000 over to Burch's son. The SBI said Minnesota Mining had paid \$148,000 to Brewer during the time it did \$1.7 million in business with North Carolina.

Burch and his son appeared last week at a hearing before Revenue Commissioner Johnson. Little that went on was publicized.

Brewer was an athletic star at Duke University during his undergraduate days between 1929 and 1932. He excelled in football and went on to coach Appalachian State Teachers College which lost only four games in four years under his tutelage.

He served as administrative assistant to the late U.S. senators Josiah W. Bailey and William B. Umstead before becoming an insurance executive here.

In 1956, Brewer staged an unsuccessful campaign for lieutenant governor.

Algerian Terrorists Step Up Gunfire And Bombing

ALGIERS (AP)—Terrorists replied with gunfire and explosives today to plans of French authorities to clamp tight traffic and other restrictions on three of Algeria's largest cities.

Jean Morin, chief government representative in Algeria, ordered the special control measures for Algiers, Oran and Bone Monday night in an effort to stop the war between European and Moslem terrorists.

But terrorist gunfire left two Europeans and a Moslem dead and nine Moslems wounded in Algiers today.

In Oran a terrorist shot a European to death and a European crowd in retaliation killed a Moslem flower seller who had a dagger hidden in his flower basket.

In Bone, an explosive charge damaged the stern of the steamship Djebel Dira, which was preparing to sail with a company of riot police being transferred to France. The ship will have to go into drydock for repairs.

Four persons were killed and 18 wounded in terrorist attacks and seven Moslems were killed by police Monday.

Authorities said the terrorist attacks showed the necessity of immediate application of the new security measures — including roadblocks, traffic curfews and troop cordons.

They said it would be some time, however, before they could be put into effect because of a shortage of troops.

The city's public transport system was strikebound for the sixth day, and European doctors were in the second day of their 48-hour strike. Bus drivers and doctors are demanding police escorts, but authorities say they do not have enough manpower.

Only two roadblocks guarded approaches to Algiers this morning. Cars were not being searched and there were few signs of increased patrols as planned under the new decrees.

French troops were ordered to set up road blocks on all approaches to the three cities to restrict the flow of arms to the two opposing extremist groups, the European Secret Army Organization and the Moslem National Liberation Front (FLN).

A communique announced traffic would be stopped on certain streets and that some parts of the cities would be cordoned off permanently.

All automobile traffic from 9 p.m. to daylight was banned in the three cities.

These measures, Morin said in a communique, "demonstrate the will of the government and of civilian and military representatives in Algeria to assure public order and to guarantee the security of everyone."

French army commanders sought measures to halt the spreading theft of arms from military camps by the right-wing European underground.

The army reported a second daring raid this week by Secret Army commandos in French army uniforms who seized arms from the apparent complicity of the camp's personnel.

Italian Officials Expect Prove Aerial Espionage

ROME (AP)—NATO experts today were completing development and study of films from the Bulgarian jet that crashed near a secret NATO base in southern Italy. The pictures were expected to prove that the young pilot was on a spy mission.

The Italian Defense Ministry in a communique Monday said a "final judgment on the nature of the episode" could not be given yet. But it said there were "indications of a true and proper case of aerial espionage" which needed only to be "further substantiated."

One high Italian government official went farther. "We can say now that the mission of the Bulgarian aircraft was unfriendly," he said. "We expect to state flatly in the next few days that the plane was flying a spy mission."

A Defense Ministry source predicted that the Bulgarian pilot, Lt. Miluse Solakov, 22, would be put on trial by the Italians for espionage, as American U2 pilot Francis Gary Powers was by the Russians.

If convicted of espionage, Solakov could get 15 to 20 years in prison. The Russians sentenced Powers to 10 years.

Solakov was held under guard at the civil hospital at Acquafredda. Italian intelligence officers planned to start questioning him after he is transferred to a military hospital in Bari. Doctors said he was recovering from fractures of the left collar bone and left arm and a head concussion, but the fractures were complex and it would be awhile before he could be transferred.

The Defense Ministry communique said Solakov, after he was pulled from the wreckage of his jet Saturday, "said that he escaped from Bulgaria in order to evade the political regime of that country" and "asked not to be put into contact with Bulgarian diplomatic authorities in Italy."

An authoritative Foreign Ministry source commented that "the fact that the pilot asked for political asylum does not change the nature of his mission."

The Bulgarian minister in Rome sought an interview with the pilot.

The Italian Foreign Ministry deferred action until after further investigation. Representatives of the Bulgarian legation were in Bari to investigate, but the Italians refused to let them visit Solakov's hospital room or the wreckage of his plane.

The Bulgarian government claimed the pilot lost his way on a routine training mission. Italian military sources said the plane was part of a flight of four to eight that flew over Italy from the Adriatic and was tracked by radar.

Plan Sea-Going Command Posts

By ELTON C. FAY AP Military Affairs Writer

WASHINGTON (AP)—The Defense Department plans to add several sea-going command posts to its system of alternate military headquarters for use if a nuclear attack wipes out the Pentagon.

Several alternate headquarters have been set up. They include the underground "Little Pentagon" in the mountains on the Maryland-Pennsylvania border and the Navy cruiser-command ship Northampton.

Secretary of Defense Robert S. McNamara asked funds in the new military budget to convert at least two mothballed light carriers. He says that for the next few years "we have tentatively programmed the construction of one new command ship in each year."

The addition of sea-roaming alternate headquarters is a part of the new emphasis on the system of command and control of forces in time of attack.

Testifying before a Senate committee last week, McNamara said that "achievement of our overall national security objectives requires that our strategic retaliatory forces be kept continually under the control of constituted authorities, from the President on down to the commanders of these forces—before, during and after a nuclear attack."

The command and control system involves the constant linkage by radio and other communication systems of bomber and missile forces, Navy ships and troops with operational and top administrative headquarters.

McNamara said that "because of the urgent need," the program provides for a start in the next fiscal year on the conversion of the hull of one light carrier to a command ship, to be ready about June 1963, with a second one ready about a year later.

He would follow construction of one new command ship each year for several years.

The Navy has eight or ten light carriers in its mothball fleet.

CAPE CANAVERAL, Fla. (AP)—Space technicians, racing a new deadline, worked today to assume astronaut John H. Glenn Jr. a foolproof oxygen supply when he vaults into orbit.

As they replaced two key parts in the oxygen system, an apparently unruffled Glenn paced his own preparations for his rocket ride about the earth now planned, hopefully, for Saturday.

The National Aeronautics and Space Administration said late Monday the fourth postponement of this first orbital flight by an American was caused by trouble in the all-important oxygen system in the 4,000-pound spacecraft.

The technicians, working on the capsule atop a mighty silver Atlas rocket, were installing a new hose and a new device which regulates the oxygen flow into the astronaut's helmet.

NASA officials declined to say how long it would take to repair the oxygen system. After that job is done, the technicians must make painstaking checks to be certain the trouble has been licked.

NASA spokesmen refused to speculate how much more of a delay would be required if the shot cannot meet its Saturday target date.

Glenn, 40, a Marine lieutenant colonel, altered his preflight routine the one way—he temporarily abandoned a low-waste diet which he shifted on Sunday in anticipation of a take off Wednesday morning.

Community activities are evaluated in nine areas including: death and injury records, traffic engineering, police traffic supervision, traffic courts, school traffic safety education, public education and organization for traffic safety improvement.

The workshop was designed, through the evaluation of the nine areas of the program, to enable the cities to increase the effectiveness of their local traffic safety programs.

For the first time this year, the N. C. Traffic Safety Council is heading up the inventory program. In the past, the Highway Patrol administered the program in municipalities of from 5,000 to 50,000.

"The program now is in a period of transition," Major Speed commented, saying the program is now being taken over by the Traffic Safety group.

The reason for the change in

Inter-American Meeting Deadlocked Over Cuba

PUNTA DEL ESTE, Uruguay (AP)—The Inter-American foreign ministers conference on Cuban communism split into three blocs today in wrangling over how best to deal with Prime Minister Fidel Castro's threats to hemispheric unity.

Argentina, one of the biggest and most powerful nations, warned other members that the Organization of American States faces a danger of disintegration unless a compromise formula is found.

A U.S. spokesman still expressed hope the meeting would result in some indictment of the Castro regime, but the situation remained extremely fluid.

Brazil, leader of the antipunishment bloc, obviously has not budged an inch after two days of behind-the-scenes bargaining over whether to punish Castro with diplomatic or economic penalties or adopt a soft approach.

"There is little prospect of complete accord at this conference," a Brazilian spokesman said.

Brazil, the largest Latin-American nation, pushed for a second postponement of the formal speeches which could freeze the positions of the 20 inter-American nations considering the case of Cuba, the 21st. Brazil wants another day to trade views and proposals privately.

The first plenary speech-making session was scheduled tonight.

Robert E. Woodward, assistant secretary of state for inter-American affairs, said in an interview that the United States is hopeful the member nations will get together toward a common front—not necessarily on the position of the United States.

Woodward indicated no precise formula has yet been worked out which could meet with the approval of all the participants, but he looked for developments by Wednesday night.

Other U.S. sources felt anything could happen, but expressed optimism that some sort of condemnation will be voted by a majority if not the desired two-thirds majority of the Organization of American States.

The conference had taken on the look of a deadlock, with several big nations still apparently holding out against any strong action such as the imposition of diplomatic and economic penalties advocated by U.S. Secretary of State Dean Rusk.

Failure of the conference to act against the Castro regime might have an adverse effect in the U.S. Congress on President Kennedy's Alliance for Progress program, a \$20-billion project aimed to cure Latin America's dangerous economic ills.

Kennedy's team, facing an array of conflicting fears and aspirations, apparently abandoned any hope of unanimity of the 20 nations on strong collective punishment of the Cuban regime and sought to salvage a majority con-

demation, toothless though it might be.

The deadlock involved sharp differences of approach between big Latin-American nations advocating a soft policy toward Cuba and smaller ones feeling Castro pressure acutely and anxious for quick, positive action.

The impasse plunged the foreign ministers of the Organization of American States into complex quarrels that clearly threatened hemispheric unity. However, hopes were expressed that the broad differences of opinion would be glossed over by some compromise formula.

At Brazil's urging, today's formal sessions were pushed back until 8 p.m. to permit another round of hotel room bargaining. The Brazilian and Argentine delegations arranged a number of sessions in the hope a steady exchange of ideas would bring a meeting of minds, particularly with the smaller nations urging strong action against Cuba.

The Brazilians hinted they would seek an additional 24-hour postponement of formal debate if the informal talks failed to turn up any prospects of agreement.

As others wrangled, the Cubans remained in the background, more and more confident they would emerge from the meeting unpunished.

Virus Sweeps School System

KINGS MOUNTAIN, N. C. (AP)—Cases of "very contagious" flu reached near epidemic proportions in Kings Mountain schools today.

Physicians reported that the virus, which swept through the school system, has infected many adults and families of infected school children.

Physicians said the flu produced high temperatures for three or four days before rapid improvement.

North Elementary School reported 40 per cent of its 415 students were absent. Park Grace School reported 24 per cent of its enrollment out and the Grover School reported 115 of 267 students out sick.

The Kings Mountain High School reported about 20 per cent absent and the 8th grade at Central School reported 43 per cent of the class was out sick.

County Health Officer Dr. Z. T. Mitchell said it will take several weeks to positively identify the virus, described as a flu virus.

The virus has not spread to Shelby, but Cleveland County officials said they expect the virus to hit next week.

Traffic Inventory Workshop Here Draws 35 Participants

AT TRAFFIC INVENTORY WORKSHOP . . . for safety, held here yesterday were J. E. Civils of College Park, Ga.; Patrol Major C. A. Speed and R. J. Allen of Raleigh and Troop "A" Commander, Captain S. H. Mitchell.

Thirty-five representatives from Eastern Carolina counties and towns attended the first of four Traffic Inventory Workshops scheduled for North Carolina this week, here yesterday.

The annual Traffic Inventory Workshops are held to aid local officials in analyzing and evaluating their traffic safety programs.

Community activities are evaluated in nine areas including: death and injury records, traffic engineering, police traffic supervision, traffic courts, school traffic safety education, public education and organization for traffic safety improvement.

The workshop was designed, through the evaluation of the nine areas of the program, to enable the cities to increase the effectiveness of their local traffic safety programs.

For the first time this year, the N. C. Traffic Safety Council is heading up the inventory program. In the past, the Highway Patrol administered the program in municipalities of from 5,000 to 50,000.

"The program now is in a period of transition," Major Speed commented, saying the program is now being taken over by the Traffic Safety group.

First Steps Here Are Undertaken On Shelter Survey

By PATRICIA MOORE Reflector Staff Writer

The first step in a survey of public and commercial buildings which would afford some safety in the event of nuclear attack has been undertaken here by the engineering firm of Rivers and Associates Inc. It was announced today.

Rivers and Associates Inc. is a part of a five-firm group, with L. E. Wooten of Raleigh as contractor, which holds an agreement with the Navy to make the survey of an 11-county area including Pitt, Lenoir, Wayne, Wake, Chatham, Hertford, Bertie, Martin, Greene, Wilson and Johnston.

In the first phase of the survey—part of a federal plan for Civil Defense—engineers have made a preliminary survey of the buildings with assumed protection factor of 20 plus a capacity of handling 50 people and which could be used for fallout shelters. This, of course, includes a broad and general group of buildings, a spokesman for Rivers and Associates said today.

Buildings included in the preliminary survey are commercial buildings, which are generally of brick construction and are two stories high; institutions, which would include schools and hospitals; and military installations.

Before the first phase of the survey is completed, engineers will contract to complete the second step of the first phase, which involves filling out "Fosdic 1 Form" that describes the location, use and physical characteristics of each building to be surveyed.

Prior to filling out the forms, engineers will examine the buildings in closer detail and probably some will be eliminated.

A second phase in the survey will bring more exhaustive study of the potential shelters. Habitability aspects will be investigated, with specific availability of space identified by the com-

puter analysis and the ventilation available for that space. The second phase leads to completion of the "Fosdic 2 Form" which will include cost estimates for improving either the protective factor or the capacity of shelter space.

The shelter survey encompasses numerous projects, to effect successful completion, and covers a wide range of territory, including selection of a warehouse for Civil Defense supplies, transportation of supplies to selected shelters, improvement of shelters and agreement between the owner of a shelter and the governing bodies.

"Because shelters must be integrated into local utilization plans, an effective relationship must be established between the legal owners of the shelter space in peacetime and the responsible organization for utilizing that space in a Civil Defense environment," a publication discussing the project stated.

It will be necessary to acquire access permits in order to stock buildings.

Since in phase one of the survey, access will only require limited examination of floor thickness and wall thickness, probably no permits will be required. The examination in phase two of the survey will be greater in detail and will require some structural analysis to determine load carrying ability of certain walls and in a general sense a larger measure of cooperation from the building owner.

"The license agreement therefore becomes a screening process to determine the members in the community who are willing to take a more active role in Civil Defense planning and organization," the federal government said in a released report on the survey.

Pitt Civil Defense Director J. H. Rose said this week that the name and address of a warehouse or warehouses for storing CD supplies.

English Bishop Says World Needs Better Understanding

Better understanding between peoples of various nations of the world is essential to the cause of freedom and world peace, Bishop Thomas H. Cashmore of England told a gathering of Rotarians here last night.

Bishop Cashmore spoke before a meeting of Rotarians representing the clubs of Greenville, Farmville, Bethel and Ayden. More than 120 Rotarians were in attendance.

A former vice president of Rotary International, Bishop Cashmore spent more than 20 years of his ministry in the India and the West Indies. He cited for Rotarians the changes which have taken place in the world and the relationships between people of various nations since the turn of the century.

"The world has become a small community," he told his audience, "and the years ahead will make it an even smaller community in which people of different nations of necessity will have to live closer together."

He cited changes in the international powers in the half century, and the different role which is being played by various nations in international affairs today. England, he said, has relinquished its position as a top power in the world, but it still has a great deal to contribute in human relations as well as international strength, he said.

Bishop Cashmore said Rotarians throughout the world can contribute a great deal to better understanding through their fellowship, but it is a responsibility which cannot be carried out by the Rotary International organization unless individual members of Rotary Clubs in various countries put forth an individual effort to reach the goal.

The threat of communism, he asserted, is very real to people in every country of the world, and those who passively decide that their nation cannot lose its freedom, and therefore are lulled to sleep, are in great danger. "What happened in Cuba could happen in any one of a number of countries unless people who are devoted for liberty remain constantly alert," he said.

Bishop Cashmore, on a tour of the United States, was introduced by the Rev. John Drake.

Officers of the Medical Staff were nominated and elected by the Medical Staff in December and approved by the Board of Trustees last week. Hospital Administrator C. D. Ward said. All regular committees and service appointments for the year have also been made.

Dr. Ray D. Minges was re-elected chief of staff of the Medical Staff of Pitt Memorial Hospital at a meeting of the Board of Trustees last week.

Other officers re-elected for the year 1962 were Dr. E. W. Monroe, assistant chief of staff, and Dr. G. E. Trevathan, secretary and treasurer. Dr. S. E. Coffman, Dr. Frank H. Longino and Dr. S. R. Bartlett will serve with the officers to comprise the Executive Committee of the hospital's Medical Staff.

Dr. Minges, who specializes in surgery, received his M.D. degree from the Medical College of Virginia. He received the B.S. degree from Davidson College. He took his surgical training in Richmond after completing his military obligations, having served

as commanding officer of the 248th medical attachment with the U.S. Army during World War II. He achieved the rank of captain.

In 1953 Dr. Minges, a native of Greenville, returned to his home town and set up practice. He is married to the former Virginia Waring of Richmond, Va. and they have five children.

He has been active in both local and state civic and medical organizations.

Will Be Closed

City and Utilities offices will be closed tomorrow from 2 until 3 o'clock in respect to Louis Scheipers, Jr., Mayor Charles M. King said today.

Funeral services for Scheipers, Greenville's former city manager, are to be held in Southern Pines tomorrow afternoon at 2 o'clock.

Scheipers died in Pitt Memorial Hospital Sunday evening.

PROVIDENCE, R. I. (AP)—State Atty. Gen. J. Joseph Nugent says the approximate cost of investigating North Carolina prisons was \$400.

He said Monday night his estimate includes the cost of meals, lodging and incidental expenses incurred by his assistant, Thomas O'Halloran, and State Police Captain Arthur Newton. Those two investigated the charges of two fugitives in Rhode Island that they should not be returned to North Carolina because of inhuman prison conditions.

The state officials said the charges were exaggerated, and the governor signed the extradition warrants.

Republican Chairman William Broomhead Monday demanded to know how much the investigation had cost Rhode Island taxpayers.

FUGITIVE IS NO LONGER WANTED

WILSON, N. C. (AP)—A woman who escaped from a Detroit, Mich., detention center 14 years ago will not have to return to a Michigan prison.

The Wilson County sheriff's office said today Michigan authorities have indicated they are no longer interested in having Mrs. Helen Newman returned.

According to FBI records, Mrs. Newman was serving a 6-1/2 year term for robbery when she escaped in 1947. She was free until her arrest here last October.

NOMINATED

Glenn Unruffled By New Delays

CAPE CANAVERAL, Fla. (AP)—Space technicians, racing a new deadline, worked today to assume astronaut John H. Glenn Jr. a foolproof oxygen supply when he vaults into orbit.

As they replaced two key parts in the oxygen system, an apparently unruffled Glenn paced his own preparations for his rocket ride about the earth now planned, hopefully, for Saturday.

The National Aeronautics and Space Administration said late Monday the fourth postponement of this first orbital flight by an American was caused by trouble in the all-important oxygen system in the 4,000-pound spacecraft.

The technicians, working on the capsule atop a mighty silver Atlas rocket, were installing a new hose and a new device which regulates the oxygen flow into the astronaut's helmet.

NASA officials declined to say how long it would take to repair the oxygen system. After that job is done, the technicians must make painstaking checks to be certain the trouble has been licked.

NASA spokesmen refused to speculate how much more of a delay would be required if the shot cannot meet its Saturday target date.

Glenn, 40, a Marine lieutenant colonel, altered his preflight routine the one way—he temporarily abandoned a low-waste diet which he shifted on Sunday in anticipation of a take off Wednesday morning.

Community activities are evaluated in nine areas including: death and injury records, traffic engineering, police traffic supervision, traffic courts, school traffic safety education, public education and organization for traffic safety improvement.

The workshop was designed, through the evaluation of the nine areas of the program, to enable the cities to increase the effectiveness of their local traffic safety programs.

For the first time this year, the N. C. Traffic Safety Council is heading up the inventory program. In the past, the Highway Patrol administered the program in municipalities of from 5,000 to 50,000.

"The program now is in a period of transition," Major Speed commented, saying the program is now being taken over by the Traffic Safety group.

as commanding officer of the 248th medical attachment with the U.S. Army during World War II. He achieved the rank of captain.

In 1953 Dr. Minges, a native of Greenville, returned to his home town and set up practice. He is married to the former Virginia Waring of Richmond, Va. and they have five children.

Calendar Events

TUESDAY
 7:00 p.m.—Greasy K. Proctor Chapter, Order of DeMolay, meets at Masonic Hall.
 8:00 p.m.—Withia Council, Degree of Pochontas, meets at Woman's Club.
 8:00 p.m.—Alcoholics Anonymous meets at their bldg. on Farmville Hwy.
WEDNESDAY
 9:30 a.m.—Greenville Garden Club Council meets at Greenville Art Center.
 10:00 a.m.—Neighborhood Girl Scout leaders meet in Community Room of Planters Bank. Each troop is asked to have one representative present.
 10:00-12:00 N.—Beginners Bridge at Elm St. Park.
 8:00 p.m.—Adult Dancing Classes sponsored by Elm St. Recreation Center.
 8:00 p.m.—East Carolina College ensembles of the Brass Choir, Woodwind Quintet, Saxophone Quartet, and Clarinet Choir will appear in a program entitled "Night Winds" in McGinnis Auditorium. The public is invited to attend.
THURSDAY
 9:30 a.m.—Newcomers Club meets at Cinderella for cards and coffee. For reservations call Mrs. Douglas Bunting, PL 2-7701, or Mrs. John Thompson, PL 2-2914.

A Greenville Career Woman

Marie Wallace: Dance Teacher

By ANNE MATTOX
 Reflector Woman's Editor

"I don't consider it work, it is a very vital part of me and my life," states Marie Wallace of her rigorous daily schedule as instructor of dance in three towns.

Marie Wallace is owner and operator of the Marie School of Dance in Greenville, Snow Hill and Washington. As such she is now teaching more than 500 students in ballet, tap, acrobatics and ballroom dancing. She also conducts a weekly TV program called "Dancersorama," a teenage dance program on WNCN. The program has been on the air for five years.

"The trend in dancing has progressed to ballroom dancing for all ages. Even though I still teach ballet, tap and acrobatics the emphasis is now on ballroom dancing for preteens, teens and adults; Not only for its social aspect but for physical fitness."

"My job is not a nine-to-five one; it consumes most of my time as to planning, executing it, preparing for the future and continuous study to become a better teacher," states Marie

Wallace. She also teaches and is vice president on the Faculty of the National Association of Dance; an organization which has study courses in the summer for teachers and advance students with six conservatory and seminars in Los Angeles, Dallas, Chicago, Boston and two in New York. This will be the fourth summer she has been on the National Faculty. She has been President of the Dixie Chapter of the National Association for three years which meets once each month in Raleigh for a teachers session.

This energetic woman not only operates a successful Dance School but is also working on her masters degree in Education at East Carolina College. She does all this with the help of only one assistant, a student teacher in Snow Hill.

At the present time she is doing work at the Trainable School on a research project two mornings a week. "It is very rewarding working with these children," she states.

Her first dance studio opened in 1940 over J. C. Penneys with 13 pupils taking ballet, tap and acrobatics. She had done student teaching with Ramona Van Nort-

wick four years prior to this. She has trained about 10 teachers who now operate dance studios of their own. Most of her free time is used in giving programs for the various civic clubs. "I am very interested in seeing dancing in the public school on a specialization plan as part of the school curriculum. I predict we will see this in the near future as the result of the emphasis on physical fitness," said Mrs. Wallace.

"I think it has made me a more tolerant person working with people of all walks of life. It has helped me to understand human personalities better, and I get a great deal of satisfaction out of seeing people become socially adjusted through learning to dance."

When asked if she recommended working for women, this was her comment, "An active person is a happier person, a person who has varied interest has more purpose in living. If you don't give of yourself in this fast pace in which we live, life just passes you by; it doesn't necessarily mean a paying job, but feeling a part of the world in which we live, doing what we know best can be work of various natures.

Marie Wallace who is the wife of Jack Wallace, a Greenville realtor and insurance agent, and the mother of a teenage daughter said the "trend is definitely toward the married couple working together to provide means for improved living conditions. I think women who are talented and trained should provide the public the advantage of their ability." This is the successful business career of a Greenville woman, Marie Wallace.

Gardening Today

By JOHN G. DUNCAN

The gardener has quite a few choices among the newer roses for use in his garden. The gardener whose special pride and joy is the rose, looks for quite a few things in the roses he grows. He looks for color, form, profusion, hardiness, cutting, lasting quality, fragrance and last but not means least, individually. For the gardener looks most of all for that rose that stresses its individuality — that rose whose beauty and growth performance lifts it above the crowd.

Hybrid Teas
 Angels Mateau grows from 2½-4 feet. It has large, many petaled flowers—flame brushed gold. The fragrance is intensely fruity.

Angel wings has large fragrant flowers that have a creamy color suffused with pink. This strong plant has nice foliage and grows from 3 to 4 feet.

Bloodstone has orange-red flowers that are large and delightfully perfumed. This rose grows from 3 to 4 feet. It is said to be beautiful in all stages. But you get its better picture when full-blown. Coy Colleen, won top honors in the Great Autumn Show of England in 1958. It was once called "Blushing Rose," its large magenta white flowers are blush pink.

This rose should give your rose garden a lift. It grows from 3 to 4 feet in height.

Crimson Glory is a small rose bush growing to a height of 2 to 3 feet. It is a very fragrant rose with blooms of rich crimson and dark shadings.

Floribundas
 The rose, Cocorico grows from 3 to 4 feet high. It has clusters of buds, and 3-inch single flowers on long stems. The flowers are orange scarlet and very colorful. It stands out in any company—try one this spring.

Fashion, with its "coral pink overlaid gold" flowers, grows from 2½ to 3 feet high. It was an All American Rose selection in 1950. But the years that have passed since then have added to—not taken away from its honor. Freshman, although introduced sixteen years ago, is still rated high by the National Rose Society and Canadian Rose Society. It has dark red flowers and grows 3 to 4 feet high and has clusters of old gold buds. The flowers are yellow and tan on reverse of petals.

Kordes Magenta has large double fragrant rose lavender flowers. The bush brows from 3 to 4 feet high.

Polyantha
 Perle d'Or grows from 3 to 4 feet high with flowers of golden pink. These small exquisite roses are very fragrant and are borne on vigorous healthy plants. Paul Crampel is a small rose bush in height, growing to only a height of 3 feet. Its flowers are orange pink. It likes sun spots and is useful as either accent or border plant.

The Fairy grows from 2-3½ feet. A mass of them sets off to advantage its pink sea shell colored flowers. Glorie Mundi has clusters of small orange scarlet flowers. The bush is a healthy strong growing plant. It

New President Conducts Meet

The Pierce Home Demonstration Club met at the club house on January 18 with Mrs. Mack Allen, new president, presiding. The meeting was opened by singing the United Nations Hymn followed by repeating of the Club Collect.

At roll call there were eight members present. Mrs. Ed Humbles gave the treasurer's report.

The two important business items were selecting the project leaders and hostesses for the next two years and planning the joint meeting for February.

Mrs. Milton May gave a demonstration on "Accessories for the Home."

Mrs. Mack Allen, hostess, served sandwiches, cookies, mints and soft drinks.

+ Births +

Ayers
 Born to Mr. and Mrs. Cecil Vann Ayers of Tarboro, a son, Terry Allen, on January 21, 1962 in Pitt Memorial Hospital.

Smith
 Born to Mr. and Mrs. William Roger Smith of 713 Eighth St., Ayden, a daughter, Connie Lynn, on January 22, 1962 in Pitt Memorial Hospital.

Phillips

Archeology 'Finds' Lollobrigida

ROME — (WNS) — Archeologists believed they had found a rare antique when they uncovered a copper chest in a field near the Via Appia. But when they were finally able to unlock it, they found a photograph of the very modern Gina Lollobrigida inside.

Bake Sale On Friday
 A bake sale will be held from 3:00 p.m. until 5:00 p.m. Friday at the Greenville Art Center. The sale will be sponsored by Girl Scout Troop 430.

New Members Join Club

The Dig 'n Delve Garden Club met at the home of Mrs. J. B. Spillman Jr. Thursday with Mrs. Leslie Garner as co-hostess. Coffee, cookies, cheese crackers were served the members upon arrival.

The meeting was presided over by the president, Mrs. Craven Hughes. The club read the collect together.

Mrs. Reid Hooper and Mrs. Tom Haisgood were welcomed as new members.

DEVILBISS VAPORIZERS-HUMIDIFIERS
 Best for **COLD RELIEF!**

Steam is prescribed by doctors and preferred by mothers. Most doctors prescribe DeVilbiss vaporizers for fast more efficient relief of colds. Ask your druggist, who also recommends DeVilbiss, to help you select the model that best suits your needs.

Robersonville News

Mr. and Mrs. Leonard T. Harney were the Sunday dinner and supper guests of her sister, Mrs. Walter E. Briley and family in Greenville.

Mrs. Frances P. Roberson of South Broad Street will spend three days this week in Burlington visiting the Rev. and Mrs. Noah Hill, N. B. Jr., Trudy, Connie and Russell, former residents of Robersonville.

Mr. and Mrs. Charles Griffin, Mr. and Mrs. Maurice Sparks and daughters, Susan and Maurice of Kinston were the dinner guests Sunday of Miss Johnnie Sparks and her mother, Mrs. J. M. Sparks.

John Henry Roberson spent last week in Duke Hospital, Durham where he was treated for pneumonia.

Mr. and Mrs. Jesse Bunting, Mr. and Mrs. Bill Robinson spent Monday in Wilson as the guests of Mrs. Lester Whitfield.

Mrs. Marie Johnson is visiting her daughter, Mrs. Hosea Fagan and Mr. Fagan in Darlington.

Alton Croom, Mr. and Mrs. Guy Forbes attended the Southern Furniture Market Display in High Point last week.

Miss Martha Wollard and Miss Helen Everett were in Kinston

ed during the business session. Plans were made for the supper to be served at the district meeting of the Christian Men's Fellowship.

Mrs. James E. Mullen told of visits made to the sick and gifts sent of the shut-ins. She gave a talk on "The Ten Religions of the World." At the conclusion of the program, the hostess served lemon cake and hot coffee.

The goodbyes were said after the Missionary Benediction.

Homemakers Club Meet
 When Mrs. Nellie Taylor was hostess to the Homemakers Club Thursday evening, the living room where the guests assembled was decorated with pink and white roses.

The meeting was called to order and the minutes were read by Mrs. Hattie Hardy. After Mrs. W. W. Taylor, Sr. gave the financial report, it was suggested and put to a vote to double the dues for this year. As there was no further business, the meeting was turned over to the hostess who entertained with games and contests.

The hostess served a congealed salad, brownies, salted nuts, candy and bottled soft drinks to 13 members.

The club adjourned to meet with Mrs. W. M. Wynn on February first.

Feted On Birthday
 When the Riverview Manor in Washington, a hospital recently converted into a nursing home, was opened on Monday Jan. 15, Mrs. Emily Moore became their first resident.

On Wednesday, her 84th birthday, nine ladies from the Robersonville Methodist Church visited Mrs. Moore to celebrate this anniversary.

A birthday cake was cut and served with ice cream. The honoree was presented a gown from the hostesses Mrs. Johnny Nelson, Mrs. Paul Roberson, Mrs. Philip Keel, Mrs. W. M. Wynn, Mrs. Clinton House, Mrs. George Glen Edmondson, Mrs. J. Calvin Smith, Mrs. Wallace Roberson and Mrs. Julius Worsley.

Later in the afternoon, Mrs. W. C. Taylor of Robersonville accompanied by Mrs. Mildred Harney visited her mother.

WORKING ATTIRE . . . for dance instructor Marie Wallace.

Canaveral Kids 'Burn' Over Saturday Launch

By HUGH A. MULLIGAN
CAPE CANAVERAL, Fla. (AP)—Lacking Lt. Col. John H. Glenn's sole imperishability, the kids of Cape Canaveral are pretty turned up over the latest postponement of the orbital man shot. They'll be doubly disappointed if the shot goes off on Saturday—a non-school day.

A Saturday blast-off, from the viewpoint of Cape kids, means that Principal James E. Lee of the Edgewood Junior High School won't get to call one of his convenient fire drills so the whole student body can file into the schoolyard and watch the big Mercury-Atlas missile roar up over the basketball backboard.

It means the small fry at Cocoa Beach Elementary won't get to march down to the beach, two blocks away, to cheer on "Mr. Glenn," who ranks several notches higher than Roger Maris as the school's favorite hero.

It means that the Weather Club at the Edgewood School won't get to post its flight forecast on the door of the science department, and that the sixth graders over at the Cocoa Beach Elementary won't get to tell cafeteria chums precisely why the astronauts land in different places depending on the number of times they orbit.

The Edgewood School on Merritt Island and Cocoa Beach Elementary are the two closest schools to the busy Cape firing range. Both draw many of their pupils from families directly connected with the big shooting match.

For several weeks now, the two student bodies have been in a sort of scholastic "ready room," sweating out the countdown in somewhat the same manner as astronaut Glenn: boning up on

technical data, checking on weather conditions and trying to keep from getting too excited.

Monday second-grade teacher Madelyn Buran scribbled these words on the blackboard: "Atlas missile orbit space lift off Mr. Glenn earth." The idea was for the kids to take these words and make up a sentence, then a paragraph and finally a whole story. Some of the stories the second graders came up with about Mr. Glenn were exciting enough to tempt copy-starved newsmen into peeking over their shoulders for new leads on the postponed shot.

The proudest kid in all Cocoa Beach these days is fourth-grader Diane Froshun, who showed up with the Bible that astronaut Glenn autographed for her outside church on Sunday. Her treasure was rated second only to the American flag in the glass case in Principal Robert Fritz's office. The flag happens to be the one that Alan B. Shepard carried in his capsule on America's first manned space shot.

For kids who have seen dozens of rockets go off and who regularly mix rocket lingo with teenage slang down at the drug store, there is still a special kind of excitement about the Glenn shot that transcends all other adolescent interests.

The most disappointed kids on the entire Cape were the 30 honor students at Edgewood Junior High who had been chosen to watch the shot from out at Port Canaveral. Although they probably would never orbit in anything more critical than the gymnasium ropes, the 30 had won their front row seats by writing essays on "Why I want to Participate in the Next Mercury Shot."

RELAXING HOBBY — George Meany, AFL-CIO head, views a painting he did in his leisure time. This canvas, titled "The Sound at Copenhagen," is based on photograph he took in Danish capital and hangs in board room of the AFL-CIO in Washington.

News And Notes From Farmville High School

By SANDRA ALLEN

FARMVILLE — Snow, snow and more snow; gay and laughing children; they're signs of an unexpected holiday.

And a holiday there was. It began with the four-inch snow about 10 days ago. Plans were made immediately for a "free" day from school. That set the stage for snow-ball fights aptly, warming chats in the drug-store or parties in front of an open fireplace.

Because of the New Year, school work getting harder and students perhaps falling behind a little, the holiday was a welcome one.

Parents League

Members of the newly-organized Farmville Parents League arranged recently to explain to the teenagers the intent and purpose of the organization.

Rev. Jack Daniell and Rev. John Broome conducted a special session of the Student Government Association assembly to discuss the purpose of the Parents League.

Both men explained that the league has been established for the benefit of the community's teenagers.

Rev. Daniell pointed out that a group of teenagers would be selected to meet with the parents on an annual basis to express the ideas and viewpoints of the younger set.

In closing the discussion, Rev. Broome urged each student to encourage his parents to support the Parents League.

FBLA

A program on etiquette was presented at the Jan 10 meeting of the Future Business Leaders of America.

Jim Kirkland showed film strip, "Looking Your Best", on personal grooming. "Whys of Etiquette in Business" was shown by George Minton.

Following the program the club members discussed the FBLA convention to be held at Durham in the spring.

Math Club

To enrich mathematical interest in students, the slogan of the Math Club, a study of the slide rule and its use was begun

at the last meeting. Learning to multiply by using the slide rule was the first phase of study. The program will be continued through February.

Plans for the Annual Science Fair were made at the January meeting of the Science Club. Committees were appointed and urged to do their best to make this year's fair an outstanding success.

Science Committees

Committees are as follows: Physical Division: Sandy Allen, Chairman, Evelyn Andrews, Carol Blackley and Ernie Petteway.

Biological Division: Sue Styers, chairman, Marion Allen, Margaret Mazingo and Becky Williams. Properties committee: Kenneth Dilda, chairman, Ben Monk, David Ryon and Win Donat.

Judging committee: Bobby Bass, chairman, Diana Pollard, Milly Fitzgerald and Ruth Jefferson.

Prize committee: Melvin Gay, chairman, Dall Harris, Nancy Winstead, Julia Russell Rives and Chester Outland.

Time committee: Jimmy Everett, chairman, Cary Gaynor, Mary Paula Burnette and Kay Allen.

Place committee: Su Su Dixon, chairman, Rex Hodges, Newell Harper, Henry Smith and Nancy Thomas.

Lab assistants Sally Donat and David Quinn will be in charge of the lab.

Jr.-Sr. Prom

Plans for a trip to New York and Washington this summer were discussed at the Junior Class meeting Wednesday. The trip is planned for the first week in June.

The class then voted on a theme for the Junior-Senior Prom and Banquet to be held April 27.

Sophomores Nancy Winstead and Charles Phillips were chosen as head waitress and waiter.

To serve with them, Judy Joyner, Dall Harris, Judy Bass, Milly Fitzgerald, Sue Styers, John King, David Ryon, Ernie Petteway, Douglas Joyner and Bennett Dilda were selected as assistant waitresses and waiters.

Firemen Report Sixty-Six Calls

A total of 66 calls, including fire and rescue alarms were answered by members of the Greenville Fire Department during the month of December according to the department's monthly report issued by Chief George W. Gardner.

Included in the department's activities were 29 telephone calls to fires and seven box alarms. Rescue calls for the month totaled 32.

Included in the total of fire calls were 11 residences, two to mercantile firms, six to cars, and nine to trash fires. Three false alarms were answered.

According to the report, no house-to-house fire safety inspections were carried out by firemen during the month of December. The time usually spent on inspections was taken up repairing toys to be distributed to needy children for Christmas.

A total of 330 inspections of business firms in the fire district were made during the month by the fire inspector.

Volunteer payroll for the year totaled \$1,634, it was reported. Losses for the month of November totaled \$3,551.39 while losses for the month of December were \$16,025.

For the calendar year, fire losses amounted to \$184,772.69, Chief Gardner concluded.

Miss Lottie Moore Dies Early Tuesday

AYDEN—Miss Lottie Moore, 65, of Grifton, Route 1, died in Pitt Memorial Hospital early Tuesday morning.

Funeral arrangements are incomplete and will be announced later.

Surviving are two brothers, Leon and Larry Moore of Route 1, Grifton; three sisters, Mrs. Marjorie Phillips of Greenville, Mrs. R. L. Jackson of Grifton and Miss Merle Reade Moore of the home.

The temple to the goddess Diana, considered among the ancient world's Seven Wonders, was of marble and longer than a football field.

Imaginative Teacher Set Off Parental Fireworks

WAPPINGERS FALLS, N.Y. (AP)—The teacher passed out a syntax exercise to a high school English class.

"My name is Irving. I have a doe. His name is Schlep. I keep Schlep to bite the postman."

"Sometimes I go to grandpa's farm. He runs a hot car ring. Sometimes Grandpa lets me put phony license plates on the hot cars."

And so on, for 31 sentences, adapted from a satire on first-grade readers originally published in a humor magazine.

Underline the subjects once, the predicates twice, the teacher instructed the class. Give the syntax of the encircled words.

One mother noiced the exercise her son brought home.

"What are they teaching English or juvenile delinquency?" she de-

manded in a letter to the Poughkeepsie Journal.

"I was born and raised when they taught English in schools," she said, asking that her name not be published.

We do teach English, said Dennis J. Hauman, head of the English department of the Wappingers Central School. He said 80 per cent of the school's graduates in the last 25 years had passed the state regents examination in English.

A letters-to-the-editor battle raged for a week. The newspaper said, they ran about 3 to 1 against the exercise.

About 50 parents showed up Monday night when the board of education considered the matter.

Hannan explained that the teacher, whose identity was not disclosed, had used the example when students inquired about sick humor during a study of humor in literature. She just killed two birds with one stone, accommodating the student interest to a grammar lesson.

The board unanimously voted confidence in Wappingers Central's English department. No body said what would become of the offbeat test.

Burned Up, He Burns Old House

LANESBORO, Mass. (AP)—Martin C. Reilly became so burned up about an increased assessment on his property he burned down a 200-year-old, 18-room house Monday.

Reilly, a tavern-keeper, said that before this small western Massachusetts community re-evaluated property the house was assessed for \$1,200. Then it was re-assessed at \$8,600.

The house sat alone in a 280-acre plot and is believed to have once been the home of humorist Josh Billings.

Reilly had owned the place since 1948 and used it lately only for storage purposes.

Volunteer firemen stood by the fire and cheered in the rain. The fire department had issued a permit to Reilly.

Wind Ensembles In Musical Program

Four different wind ensembles of the East Carolina College Department of Music will be presented in a varied program entitled "Night Winds" in McGinnis auditorium Wednesday at 8 p.m.

The evening music is the first program of its kind to be given at the college. Selections will range from Beethoven to Shostakovich. Participating ensembles will be the Brass Choir, Woodwind Quintet, Saxophone Quartet, and Clarinet Choir. The public is invited to attend.

Kurt Amsler, 8, a third-grade pupil, turned second-grade teacher for a while Monday.

Kurt's father, Ben Amsler, a scientist at the Johns Hopkins Applied Physics Laboratory, was scheduled to lecture second-graders at Georgian Forest Elementary School on the uses of friction in simple machines.

The elder Amsler found out at the last minute he couldn't make it, and Kurt offered to fill in. Kurt studied simple machines last year.

Kurt explained to the class that without friction, levers wouldn't work and wheels would "skid all over the street."

The youngster, who wants to be a mathematician, said his father gave him one bit of advice. "He said don't talk too fast because I would be talking to young children, and not to use big words."

After the Revolutionary War, the Declaration of Independence traveled with Congress to Annapolis, Md., Trenton, N. J., and New York City. Then it followed the national government to Philadelphia and finally, in 1800, to Washington.

chard Arnell. The Clarinet Choir, under the direction of David Miller of Greenville, graduate assistant in the college Music Department, will present *Caprice Sentimental* by Lucien Chaillet, featuring Miss Marie Janet Wurst of Palmyra, N.J., as soloist, and Sallarello, from Symphony No. 4 by Felix Mendelssohn.

Miss Patricia Ayscove of Washington, student of Dr. Robert Carter of the Music Department, will appear as pianist in the Woodwind Quintet *Prelude, Opus 34, No. 17* by Dmitri Shostakovich in an arrangement by Lewis Danfelt of the faculty.

The Woodwind Quintet and Saxophone Quartet featured on the "Night Winds" program are under the supervision of Lewis Danfelt and Herbert L. Carter, respectively, of the East Carolina College music faculty.

Forty-one East Carolina students of music will appear in "Night Winds."

Should Enhance The Opportunity

It is to be hoped that current efforts to develop the phosphate mining potential believed to exist in Beaufort County will not be blocked by state action as was the case several years ago when a similar effort was made.

Information so far available indicates that Beaufort County may have under its land and waterways one of the richest untapped deposits of phosphate in the nation. This, coupled with the interest in these deposits indicated by major companies in recent years, suggests that our neighboring Beaufort County may be sitting on an unprecedented industrial potential because of its phosphate deposits.

The Mineral Resources Committee of the State Board of Conservation and Development has given its approval for the opening up of the river bottoms in Beaufort County to commercial exploitation of the phosphate deposits. This is a key to the development efforts, for it is the feeling of the experts that mining of phosphate from the river bottoms must go hand-in-hand with high-ground mining of the mineral in Beaufort County for the operation to be successful.

The resolution of the Mineral Resources Committee should receive approval of the C. & D board,

and it should likewise receive approval of other state officials who may be required to act on the question before the way is cleared for development of this rich resource in Beaufort. A few years ago, when efforts were being made to pave the way for development of a phosphate industry in Beaufort County, the plan was blocked in the Council of State when Agriculture Commissioner L. Y. Ballentine led the fight to reject the proposal that had been approved by the C & D board. In the interest of the future of Beaufort County and Eastern North Carolina, it is to be hoped that the current development effort is not similarly blocked.

If the phosphate mining operations can be successfully developed in Beaufort County, there can be no doubt that an industrial complex in connection with phosphate mining will likewise grow up in that county, creating hundreds and perhaps thousands of new jobs which are sorely needed in this part of the state. If the phosphate mining industry is developed, there will surely follow the construction of fertilizer plants and other facilities for turning the raw phosphate into finished products for various uses.

Aside from the industrial prospects, it is estimated that the development of a major phosphate and fertilizer industrial combination in Beaufort County would reflect a savings of some \$1.5 million annually for farmers of North Carolina who now pay freight charges on phosphate shipped largely from Florida for use in manufacture of fertilizer.

The opportunity for economic development that Beaufort County now has in its phosphate deposits should be enhanced by the action of state boards and state officials; not blocked by them.

Some Lining Up Ideas For 1964

By LYNN NISBET
NEXT GOVERNOR — Most people think it is too early to engage in definite planning for the 1964 governor's race. There is a big Senate race and another General Assembly scheduled ahead of that. But a right substantial minority of the citizenry thinks it is time now to get things lined up for 1964. There are several trial balloons being launched. Joe Hunt of Greensboro, speaker of the 1961 House, is perhaps the most active "candidate." Bert Bennett of Winston-Salem, state Democratic chairman, and Woodrow Jones of Rutherfordton, former congressman and state chairman, are at least in the "Barkis is willin'" stage. A draft committee looking for Basil Whitener or Paul Kitchin would not have to go far into the bushes. There have been some other casual suggestions — including Tom Pearsall of Rocky Mount.

The fact is none of the potential candidates have much appeal for eastern Democrats. Reaction to the Pearsall suggestion was not enthusiastic because most of the easterners really believe in the rotation plan and think the governorship should go to the west next time. Certainly the three or four active candidates for Lieutenant Governor would rather keep the field to themselves. One hears more and more often another name more familiar to active Democratic workers all over the state than any of the others mentioned. There is nothing like a boom or a movement, but there are a lot of people who would be very happy to see Dr. Henry Jordan get into the race for Governor next time.

JORDAN — Jordan has long been prominent in state affairs. This is not the first time he has been mentioned for the top place. His first venture in statewide affairs came in 1945 when Governor Gregg Cherry appointed him to the highway and public works commission. They had become good friends when Jordan was practicing dentistry in Belmont, before getting into the textile business in Randolph county. After four years as division commissioner he was named chairman of the highway commission by Governor Kerr Scott in 1949. He served four years in that capacity — during the greatest secondary road building era in history. Later he was elected to the State Senate from Randolph county.

Dr. Jordan's prestige in politics does not rest as much on his official conduct as upon his activities outside the scope of public office. He was an important cog in the machinery

which put Gregg Cherry in the Governor's Office in 1944-45, and also was very active in the Scott primary campaigns. He was a staunch aid to his brother Everett when he was state Democratic chairman, and as late as last fall his expert hand was recognized in the majorities obtained for Kennedy and Sanford — when it looked like their chances were slim.

Henry Jordan perhaps has the confidence and respect of all factions of the Democratic party to greater degree than any other man and from that viewpoint he is a "natural" for a winning candidate. But there are some handicaps. Born in 1898 he will be 66 years old when the next election for Governor comes around — and the modernistic youngsters think that's mighty old. He is a brother of United States Senator Everett Jordan, and some folks object to one family holding the two highest offices in the state.

FAMILY — It must be remembered, however, that the Jordan family is out of the ordinary. Some four or five years ago this column paid tribute to this extraordinary family group of four boys and two girls. One of the boys a United States Senator, one a State Highway chairman, one a university vice-president, one an outstanding minister of the Methodist church; both girls married to men as important in their fields as are the brothers in theirs. More recently Chester Davis in the Winston-Salem Journal and Howard White in the Burlington Times-News have publicized the family.

There have been other families in North Carolina in which every member seemed to rate in the 100 percent class. The Smith family — Charles Alfonso, Henry Louis, et al.; the Dixon family — Thomas and others, of whom May Dixon Thacker, last of the generation, died just last week; branches of the Abernethy family and others. In most of these families the ties of blood and kinship were close, but the public did not think of them as families but as individuals. It never occurred to anybody to charge Henry Louis Smith with what his brothers Egbert or Charles did or said, any more than to blame or credit May Dixon Thacker with Thomas Dixon's reconstruction era books.

So when Charlie Jordan speaks as vice president of Duke, or Henry Jordan talks as a manufacturer — or a candidate, there is only remote chance that Everett Jordan as United States Senator has any connection with their comments.

Hatred Wastes Effort

By GEORGE E. SOKOLSKY
Copyright, 1962, King Features Syndicate, Inc.

I see that Murray Kempson, the Liberal, has discovered that Fuller Lewis Jr., and I are not being swept away by what the President calls Extreme Rightism. But then Lewis and I do not seek to change the world but to preserve it. We find that some of our colleagues on the Right, like so many on the Left, are anxious to change everything swiftly.

That is a problem that faces all men who think about what they are doing. If we object to Lenin as we do, it is not because Lenin wore whiskers or was born in Russia, but because we think that he has substituted materialism for morality. Bill Buckley prefers Thomas Aquinas as a leader and I prefer Moses Maimonides — which comes to the same thing. When we go back another thousand years or so, we split off and I remain a Jew and he becomes a Catholic, but again the difference is slight if we stick to essentials.

On the other hand, Lenin has nothing to offer us and the John Birch Society and similar Extreme Rightists even less because they are neither materialists nor idealists; they are battlers against those whom they hate. I, at any rate, find hatred unnecessary. It is a waste of intellectual effort and it is sheer emotionalism. I was looking at an album of pictures and beautiful scrolls, illumined on parchment, in Francis Robinson's office at the Metropolitan Opera House. It was a delightful thing got together for David Belasco by the Board of Directors of the Met on the appearance of "The Girl of the Golden West." What is so stirring about the album to me is the small fact that those who put the show on the road were all great actors and are still remembered.

There was David Belasco who dared to give the theater something better than a shrill musical; there was Puccini, idol of a new era of opera who brought together East and West in music and ideas; there was Toscanini who lived long enough to be the greatest in his field. And there was Enrico Caruso, endowed by God with perfection in artistry.

It was a period of peace and during peace the arts bloom and it is during a period of peace that men think honestly because they are not afraid. It is fear that drives us into false directions. And we do move in false directions because we not only fear the future about which we know nothing but the consequences of our mistakes about which we know a great deal now.

The difference between the era of Belasco, who could give us "The Girl of the Golden West," and today when we have failed to meet up with our responsibilities and accept our defeats as victories and our stupidities as signs of genius, is that in those days there was time to do things slowly and sanely and today we must rush because otherwise the missile will beat us to the punch.

A member of Congress bawled me out because whereas he and I agreed on fundamentals which is that we have lost so much time during the past two decades that our civilization is in peril, he felt that we could restore our strength by adhering rigidly to the concepts of our Founding Fathers, whereas I felt that we must take drastic actions.

He, I am sure, has not had the experience of a cancer. I have. The question is, does one live or die and the answer must not only be swift but it must be correct and it must be made by one man — the doctor who has to cut the cancer out. There are no alternatives and the very method employed may be the killing factor. But one either dies or goes on living and no one can guarantee that the cure will not kill.

I remember when I lay in a hospital bed decisionless. All power was concentrated in this strange person whom I had to trust. I had no knowledge, no experience, no wisdom. I either believed that what he did was right or I took my chances and accepted the consequences. (Continued on Page 5)

Important That Court Decide Problem Early

It remains now for the State Supreme Court to answer the question of whether the people of North Carolina will elect a Lieutenant Governor this year, or wait two more years until the 1964 general election.

It is important to the state and its people that the Supreme Court render an opinion on the question at the earliest possible date in order that further complications in the matter will be avoided. The May primary, in which candidates for the general election will be selected, is only four months away now. The filing deadline for candidates is even closer. Should the Supreme Court's ruling on the matter of the election of a lieutenant governor this year come after the deadline for candidates filing, and should that opinion be that the state is to fill the office by election this year, all sorts of new complications would set in.

All that has gone on with regard to the office up to now — the attempt of a candidate to file for the office, the subsequent legal action and the ruling at the Supreme Court — all have been preliminaries to a Supreme Court ruling on the question.

The high court of the state should review the matter at the earliest possible date and render its decision in order that the people of North Carolina may know whether they are to fill the office of Lieutenant Governor by election this year, or wait another two years.

More Probing By Communists

By JAMES MARLOW
WASHINGTON (AP) — Massive retaliation comes to look more and more like final retaliation while this overheated world torments itself with small, or guerrilla, wars in the hope it can keep them small.

The latest to put his finger on guerrilla fighting as the thing to look for is the Pentagon's No. 2 man, Roswell L. Gilpatrick, deputy secretary of defense.

In a TV interview Sunday he said "Communist doctrine is conflict." He foresees a step-up in indirect warfare and guerrilla battles and mentioned the guerrilla fighting in Viet Nam as an example.

The United States had a monopoly on atomic weapons only four years: from 1945 until 1949 when the Russians achieved their first atomic explosion. They developed their hydrogen bomb in 1953.

Now that both have the power to wipe each other out, neither wants to begin what neither could win. Thus massive retaliation, being a last gasp effort, would be a final retaliation.

In a sense, then, they have paralyzed themselves in the act of achieving their maximum power. It is useful to them therefore only in discouraging each other in any attempt at an all-out sudden victory.

But the Communists were never discouraged, even while this country had that four-year atomic monopoly. From attempting to accumulate a series of small victories which, if permitted, would in time become total victory.

In the 1945-49 period communism under Stalin tried its luck in Iran, Greece and Turkey but gave up under the pressure of President Truman's unpredictable toughness.

In 1948 it did take over Czechoslovakia. This was done too suddenly for Truman to stop it. Then Stalin tried the Berlin blockade, an episode which gave some insight into the unwillingness of both sides to blow the lid off.

Viet ground forces, didn't try to smash through to the city by land. Truman tried the airlift. This gave Stalin a chance to back away from the big war. There would have been one if he tried to shoot down the planes. He didn't and backed off. Then he tried his luck in Korea. This time Truman stopped it with direct action. But he wasn't fighting the Red army there.

When the Red Chinese got in and rolled back the U.N. troops,

Truman backed off from the big explosion. He might have smashed them with bombings. He didn't.

He tried it, and Russia came to China's defense, that would have been it. The result was a stand-off. The Korean war ended where it began: at the 38th parallel.

It was President Eisenhower's secretary of state, John Foster Dulles, who made a big thing of the phrase massive retaliation. It never became more than a phrase with him, and sometimes a completely empty one.

For example Dulles didn't try anything massive when the Communists defeated the French and took half of Indochina, even though Southeast Asia was important to this country.

Premier Khrushchev, who now has perhaps as much if not more hydrogen torch power as this country, has been careful so far not to push his luck to the point where this country felt it had to use its full strength.

For example: his reluctance up till now to force a showdown on Berlin. But that American strength hasn't deterred communism from pushing where the United States would also be reluctant to go all out.

The guerrilla war in Viet Nam is hardly the kind, even though the country is lost, where the American leadership has shown any inclination to make this the final test with communism.

There is no reason to think there won't be many more such Communist tries in areas which, important as they are, this country might not think important enough to risk mass slaughter on two continents.

Opinions In Brief

"Every little American boy has a chance to be president when he grows up. It's just one of the chances he has to take." — Dawson County (Ga.) News.

"A chrysanthemum by any other name would be far easier to spell." — Mattoon (Ill.) Journal-Gazette.

"Organized baseball's idea of a really snappy promotion is a Ladies N-H. This innovation cropped up in the Three-Eye League in 1923, and there hasn't been a new idea since." — Richmond News-Leader.

Eyes On The Astronaut

By PATRICIA MOORE
All the commotion about — John Glenn. We were sitting absent mindingly listening to the name and watching pictures of a man named John Glenn.

Towns will name streets after him, babies will be named after him, his life and family are being dramatized and pictured over television and in newspapers.

The name and the man no longer are strangers to the people of the country. He is a personality and his name a familiar sound.

He deserves the tributes and the careful watching, after all. He is going into the realm of space as the first man in orbital flight representing the United States. He must be a highly intelligent soul, calm, and almost a perfect specimen of the human race.

What if he were a brother, who had had a love of flying from an early age, and found himself in the service flying and eventually in one of the most important flight projects ever taken on by the human

race, that of the exploration and explanation of space, being hurled around the planet we inhabit. What if that were our brother?

We'll be watching John Glenn the morning he ascends into space, hoping for his success. We, like a lot of people around us, view this tremendous thing with some little fear ourselves, afraid that something might go wrong and knowing that everything has been done to make it right.

Yes, we will be watching — as if he were a brother — wishing him luck.

Strength For Today
By EARL L. DOUGLASS
THE CREATOR AND HIS CREATURES

Wisdom. Is it a matter of schooling? Of diplomas? Of learned degrees? Not at all. Washington and Lincoln will always be listed among the world's great, but they had very little education. They were wise. They possessed wisdom. But they had very little learning.

Wisdom has been defined as the art of using knowledge, and this definition is true as far as it goes. But we venture the belief that wisdom is something vastly beyond this. Wisdom is a gift which comes from God Himself — out of the blue, as it were. Our brains are like the antennae which pick up radio and television messages. Our brains do not originate wisdom — they lay hold on the wisdom sent out from God's infinity.

Then it's pretty much a fatalistic matter isn't it? If we have a good brain, okay, if we do not, then it's just too bad. But this is only part of the story, and a very small part. The brain can be improved. Even the wisest people in the world use only a very small percentage of their brain capacity. We can all become many times wiser than we are if we set ourselves to learning how to catch that subtle supernatural thing called wisdom which comes to us out of the blue — straight from the hands and fingers of God.

All life is mysterious. Nothing is more mysterious than the factor we call "wisdom." It is God's thoughts being shared with His creatures.

Other Editors Saying
Colleges On A Treadmill
(Rocky Mount Telegram)

The college enrollment situation in North Carolina is very much like a treadmill on which a runner exerts every effort to show progress, yet gets no place for all his troubles. As a matter of fact, this state's institute of higher learning are not making any headway against the enrollment crush, but are actually losing ground.

The future holds no prospects of improvement; on the contrary North Carolina educators have been advised to brace for the approaching tidal wave of college students. Where will this influx of students come from? Mostly from the great baby boom of 1947. Why 1947? That was a high tide for the return, marriage and settling down of thousands of World War II veterans anxious to get their homes and families started.

The results of 1947 will begin to show up at the college door around 1965. That's the year when about 100,000 North Carolinians reach 18 years of age. In 1965 about 60,000 will graduate from high school and some 30,000 will enter North Carolina institutions of higher learning. Some of these will come from out of state.

In fact, the out-of-state enrollments are beginning to pose a problem as more and more native Tar Heels seek entrance to state schools. This out-of-state group makes up 23 per cent of total enrollment. Dr. W. C. Archie, director of the

Board of Higher Education, suggests a review of policies on admitting non-North Carolinians. As an example, last year's freshman class at A&T College in Greensboro included 29 per cent of out-of-state students. This figure is entirely too high.

But how has North Carolina met higher educational needs? Very well, in fact, but the past decade has presented a changing picture and as a result the state is simply not keeping up with increased enrollment needs. There are several reasons for increased college enrollment.

First, there are greater numbers of young people of college age. Second, an increase in the percentage of students completing grade and high school. Formerly the percentage of high school graduates was small; not so today. Thus, we see more students eligible for college. And third, a higher percentage of high school students seeking admission to colleges because of the improvement of their income levels, greater motivation and ambition and greater all-around opportunity to go to college.

In actual figures, the state has increased its aid to higher education from \$2 million in the 1933-35 period to \$59.5 million in the current biennium. Thus, no one can claim North Carolina hasn't tried to keep pace with the growing needs of its educational system. The plain fact of the matter is that our potential student rate is outstripping the facilities available.

Proof Anew, Business Is Funny

By ELMER ROESSNER
Business is funny business, funny businessmen often say. Here are some business news items that indicate they are right.

One out of every ten radio-TV appliance stores closed down in the last three years, a survey shows. . . . The government is taking nuclear warfare seriously. The Small Business Administration is trying to find a manufacturer for a new design in window jalousies which are said to resist bomb blasts in fringe areas. . . . By 1970, American consumers will have an additional \$90 billion for discretionary spending, about as much as is now being spent for food and tobacco, says Fairchild Publications. Not if the tax boys hear about it first.

Cuba, once an exporter of beef, has been experiencing a severe beef shortage under communist management.

Robert F. Stone of Chicago has built a large business selling records of businessmen's speeches. . . . In the last five years, one out of every ten companies on the New York Stock Exchange have changed their

names. Not to fool the stockholders either. Mergers, diversification and changing product lines are largely responsible. . . . Discount houses enjoy twice the return on capital that department stores do, says Dun & Bradstreet, which ought to know.

LAY-OVER EXPENSES DEDUCTIBLE
The Internal Revenue Service says it will go along with court decisions holding that an employee's expenditures for lodgings, meals and tips during a six-hour layover are deductible. . . . A porcelain repair service is being used by ship lines, who haven't time to send out damaged fixtures for long repairs. Storms inflat heavy damages on shipboard fixtures. . . . A potential \$1 billion a year in life insurance premiums is awaiting development in Latin America, says J. Milton Edelstein, president of Funded Security Corp.

Forty-one colleges and other institutions are giving courses in business management this term. World tobacco production was

down 2 per cent last year. . . . Dr. Henry C. Wallich, Yale economist, is urging that companies maintaining steady inventories be given tax bonuses as a reward for stabilizing the economy. . . . Best customers for hand-painted oil portraits today are businessmen, says artist John Doctoroff.

POLAND SWIPES CUSTOMER FOR CUBA'S SUGAR
Those communist make shift bedfellows.

Chile normally bought a good share of its sugar from Cuba. But when it went shopping for sugar for the first half of this year, it found that Poland was offering unrefined beet sugar at prices considerably below the Cuban quotation.

It seems Cuba had previously swapped a large amount of cane sugar with Poland for industrial supplies. Now Poland has enough cane sugar to permit it to sell its home-grown beet sugar at cut prices. And Chile is buying about 65,000 metric tons for delivery between January and August.

Probers Say Identity Of 'Censors' Known

WASHINGTON (AP) — Senate investigators, opening their investigation into charges the Pentagon muzzles anti-Communist speeches by military officers, disclosed today they have obtained evidence Secretary of Defense Robert S. McNamara declined to give them. The evidence: the identity of censors who blue-penciled specific speeches.

The disclosure came as the special Senate Armed Services subcommittee called Adm. Arleigh A. Burke, former chief of naval operations, as leadoff witness in what could be long and stormy hearings.

Sen. Strom Thurmond, D-S.C., a subcommittee member and the man whose accusations set off the inquiry, confirmed that the subcommittee had the evidence.

McNamara had declined publicly to tell which Defense Depart-

ment censors made changes in the prepared texts of military men's speeches. He based his refusal on a contention that as Pentagon chief he alone should bear the responsibility.

McNamara did provide a list of the names of 14 censors, without disclosing which had handled specific speeches. Thurmond said subcommittee investigators had obtained that information by checking with the censors themselves.

Thurmond said it seems "they were merely carrying out orders." He said some of them would be witnesses at later hearings.

Thurmond set off the investigation with a series of Senate talks charging that anti-Communist phrases had been stricken from many speeches by censors.

Thurmond told a reporter in advance of the hearings: "I think the President should have taken action before now to stop this muzzling. I don't mean just the

Kennedy administration — this practice goes back through several administrations. But this (censoring) has been stepped up in this administration."

McNamara maintains there has been no muzzling and that the editing of prepared speeches of military men was designed to keep their public views in line with national policy.

Sen. John Stennis, D-Miss., the subcommittee chairman, in a statement prepared for the open-

ing of the hearings, said he understood the inquiry would embrace "these major phases of areas:

"1. What is the proper 'policy review' or 'censorship' of speeches of military personnel pertaining to the menace of the cold war? What is a proper administration of this policy review and has there been abuse in the administration thereof?

"2. What, properly, should an effective troop information and education program include as to the menace of the cold war? Has there been enough emphasis on the importance of such a troop information and education program? And what can be done to strengthen and make such a program more effective?

"3. What is the proper role of military personnel in informing civilians as to the menace of the cold war?"

Many Cases Disposed Of In Pitt Recorder's Court

Cases disposed of in Pitt County Recorder's Court by Judge Dink James included the following 42 cases:

Fred Brown, Negro, Baltimore, Md., allowing an unlicensed person to drive \$25 and cost; James Earl House, Negro, Route 2, Robersonville, failure to stop for stop sign and failure to comply with financial responsibility law, 30 days' sentence suspended upon payment of \$25 and cost and not operate a motor vehicle without proper license and adequate insurance.

Edward Lee Hardee, Winterville, drunken driving, not guilty; Major Churchill Lewis, Route 1, Grimesland, no valid operator's license and improper equipment, 30 days' sentence suspended upon payment of \$25 and cost and not operate a motor vehicle without proper license and adequate insurance.

Charles Linbergh Carman, Negro, Greenville, drunken driving, \$100 and cost and license revoked for 12 months; Hattie Sugg, Negro, Winterville, no valid operator's license, continued to; Luke Brondell McLawhorn, Negro, Winterville, driving after license revocation, 60 days' sentence suspended upon payment of \$200 and license revoked at the expiration of first revocation.

Bruce S. Hart, Route 5, Greenville, assault with a deadly weapon and assault, pleaded not guilty but adjudged guilty, 18 months' sentence suspended upon payment of cost and three years' probation; William E. Tripp (no race or address given), assault with a deadly weapon, not guilty.

Wallace Sparger, Negro, Route

1, Stokes, drunken driving, pleaded not guilty but adjudged guilty, 90 days' sentence suspended upon payment of \$100 and cost and license revoked for 12 months; however, Sparger failed to comply with conditions of suspension and was committed to prison for 90 days.

Henry J. Stallings (no race or address given), worthless check, cost and payment of amount of check; Cynthia Harris, Negro, Route 2, Farmville, assault with a deadly weapon, continued to; Eugene Cox Jr., Negro, Bethel, drunken driving and driving after license revocation, six months on the roads.

Louella Mabrey, Negro, Route 1, Greenville, damaging personal property, pleaded not guilty but adjudged guilty, prayer for judgment continued to; Jimmy Lee Dixon, Negro, Grimesland, assault with a deadly weapon, pleaded not guilty, adjudged not guilty.

Thurbus Ray Clark, Negro, Winterville, two counts of breaking, entering and larceny (without intent to commit a felony), pleaded not guilty but adjudged guilty on each charge, eight months' sentence on each count suspended upon payment of costs and be placed on probation for three years.

John Buttler (no race or address given), assault and assault with a deadly weapon, continued to; prosecuting witness did not appear; Augustus Lilly, Negro, Vanceboro, careless and reckless driving, pleaded guilty to driving left of center, \$10 and cost.

Alfonso Weaver, Negro, Route 1, Tarboro, no valid operator's

license, temporary larceny of an auto and public drunkenness, 60 days' sentence suspended upon payment of \$25 and cost and not operate a motor vehicle without proper license and adequate insurance; Louis Willie Crisp, Rt. 3, Washington, N. C., no valid operator's license, 30 days' sentence suspended upon payment of \$25 and cost and not operate without proper license and insurance.

Kenneth Dewey Allen, Greenville, allowing unlicensed person to drive, \$10 and cost; Richard Moore Jr., Negro, Rt. 1, Greenville, assault with a deadly weapon, six months' sentence suspended upon payment of costs, medical bills and \$24 for Odom Bryant, rifle confiscated and sold.

John Smith Jr., Negro, Rt. 1, Tarboro, no valid operator's license, \$25 and cost; Ray Harold Wells, Rt. 3, Washington, N. C., no valid operator's license (no glasses) and improper passing on yellow lines, \$10 and cost.

Edward Goodwin, Negro, Greenville, no valid operator's license, 30 days' sentence suspended upon payment of \$25 and cost and not drive without proper license and insurance; Arthur Lee Mabrey, Negro, New Haven, Conn., drunken driving, hit and run, careless and reckless driving and resisting arrest, pleaded not guilty, adjudged not guilty of drunken driving but guilty to remaining three charges, six months' sentence suspended upon payment of \$90 and \$10 for medical bills and not drive for two years.

Mary Edwards, Negro, Route 1, Fountain, possession of non-tax-paid whiskey, pleaded not guilty, adjudged not guilty; Clarence Allen Ball (no race given), Washington, N. C., no operator's license, 30 days' sentence suspended upon payment of \$25 and cost and not drive without proper license.

Joseph Elliott Vick (no race given), Route 1, Grimesland, allowing an unlicensed person to drive, \$10 and cost; Thomas Smith, Negro, Route 1, Fountain, no valid operator's license, 30 days' sentence suspended upon payment of \$25 and cost and not drive without proper license and insurance.

Jimmy Lee Brown, Negro (no address given), receiving stolen property, six months' sentence suspended upon being placed on probation for two years; Robert Lee Pittman, Negro, Bethel, larceny, six months' sentence suspended upon being placed on probation for two years.

Robert Earl Harris, Negro, Winterville, giving false name in application for operator's license, 30 days' sentence suspended upon payment of \$10 and cost; however, Harris failed to comply with conditions and was sent to prison for 30 days. Samuel Lloyd Prayer, Negro, Rt. 1, Winterville, displaying a license not issued to him, \$10 and cost.

James Alfred Daniels, Negro, Rt. 1, Stokes, allowing an unlicensed person to drive and allowing an unlicensed person to use his operator's license, \$10 and cost; Walter Raleigh Godley, Negro, Rt. 1, Stokes, no valid operator's license and displaying a license not issued to him, 30 days' sentence suspended upon payment of \$25 and cost and not drive without proper license and insurance; Bobby Ray Lewis, Greenville, improper muffler and careless and reckless driving, transferred to Superior Court for jury trial.

Greenville DSA Winner Named Here Thursday

Greenville's Outstanding Young Man for 1961 will be named as the Jaycees hold their annual Bosses Night Thursday. Chairman Badger Clark said the program will begin with a social hour for Jaycees and their bosses at 6:30 p.m. at the Greenville Country Club. The dinner will begin at 7:30.

Dr. Leo W. Jenkins, president of East Carolina College, will be speaker for the evening. He will also present the Distinguished Service Award to its recipient.

The award winner is being chosen by a judging committee of non-Jaycees. The winner must be of Jaycee age, 21 through 35, but he does not have to be a member of the club.

The judges consider contributions to the general community welfare during the year, evidence of leadership ability and evidence of personal or business progress.

Judges, who will be announced Thursday night, represent the medical, legal, ministerial, business and banking fields.

George Coffman will act as master of ceremonies and Pres. Leon Moore will welcome the group.

Past DSA winners have been invited as guests for the meeting.

Uncover Second Smallpox Case

ZURICH, Switzerland (AP)—A second case of smallpox has been diagnosed in Switzerland, the government health service reported today.

Mass vaccination is in progress in Schaffhausen, near the German border. The disease was originally imported by a German mining engineer returning from Liberia. Several cases have been diagnosed in West Germany.

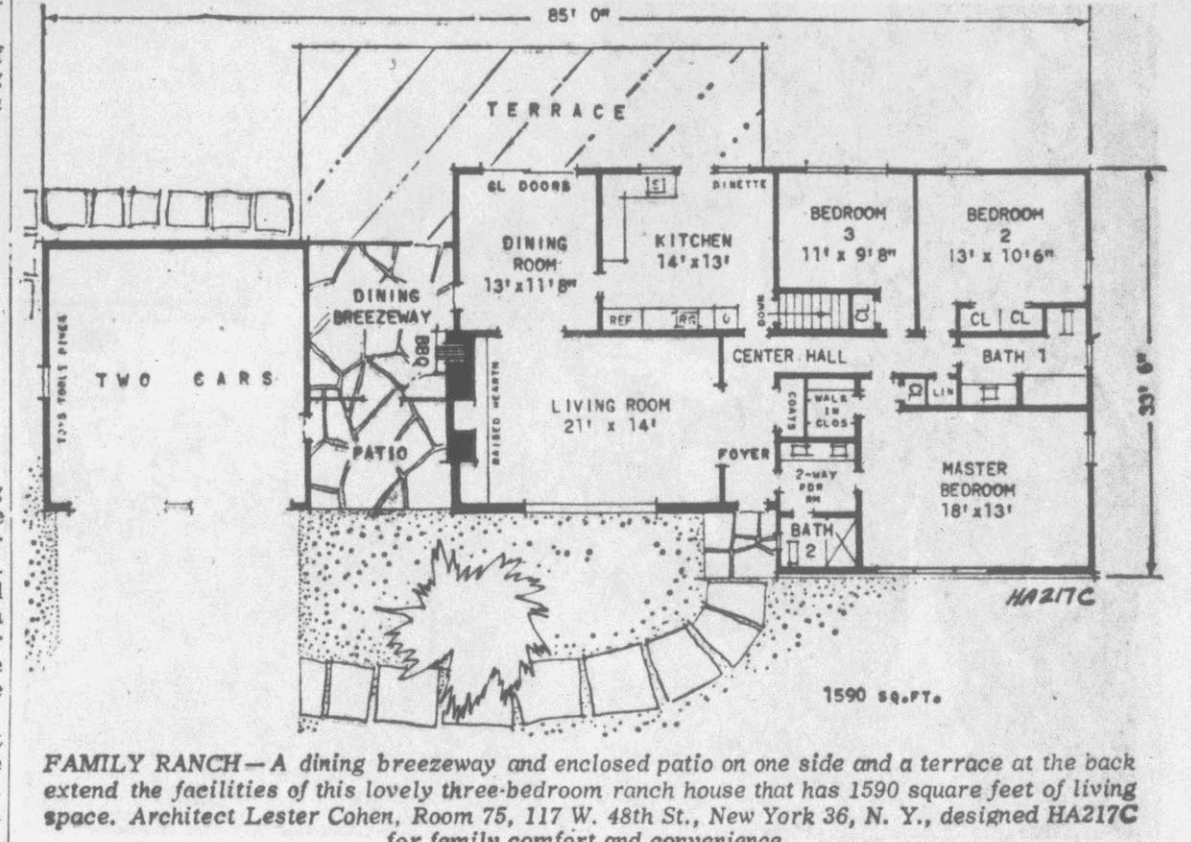

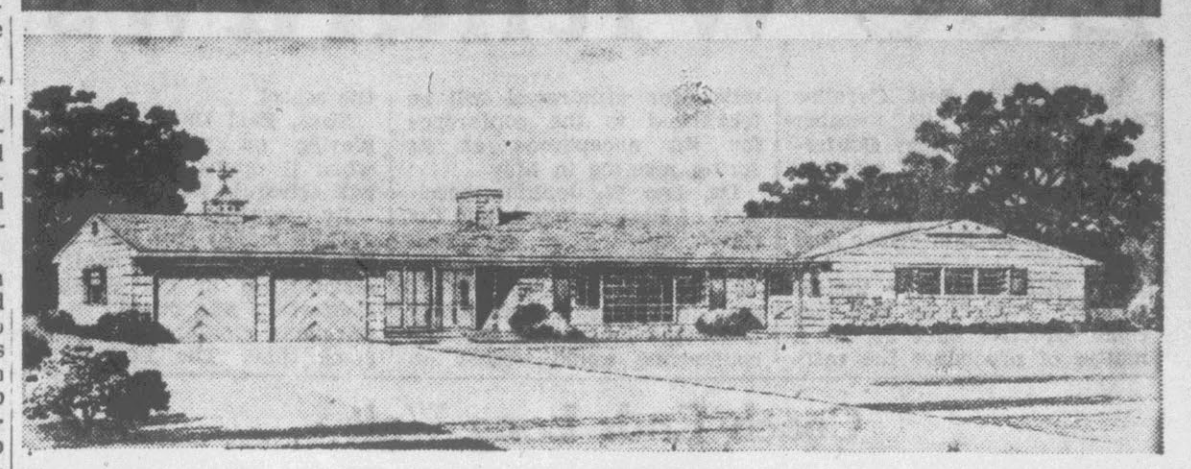

Extend Carrier's Stay On Station

JACKSONVILLE, Fla. (AP)—The aircraft carrier Saratoga will stay in the Mediterranean an extra month and a half on its current tour of duty there, the Navy reported.

A new date for return of the Saratoga to its home base of Mayport Naval Station near Jacksonville has been set as May 11. No reason for the extended stay was given.

The aurora borealis is seldom seen in central Europe.

HOMES FOR AMERICANS

FAMILY RANCH—A dining breezeway and enclosed patio on one side and a terrace at the back extend the facilities of this lovely three-bedroom ranch house that has 1590 square feet of living space. Architect Lester Cohen, Room 75, 117 W. 48th St., New York 36, N. Y., designed HA217C for family comfort and convenience.

REV. T. R. BRADSHAW is serving as evangelist at Meadowbrook Pentecostal Holiness Church in a revival lasting through January 28. Services begin at 7:45 each evening. Special singing will be a nightly feature of the revival. The church is inviting the public to attend.

'Indoorsman' Is Winning A Bet

CLARE, Mich. (AP) — Sandra Wedal was among the scoffers who bet that her husband couldn't last eight days in the snowy woods.

She and 14 friends bet \$10 each that Tony Wedal couldn't last the zero weather with only a tent as a shelter and on a diet of dehydrated foods.

Mrs. Wedal now is about ready to concede that her husband, who calls himself an indoorsman, will win the \$150 bet.

Wedal, 33, reaches the half-way mark today and he's going strong. Dr. J. R. Gerson examined him Monday at the campsite on the shores of Lake Beebe several miles from Wedal's Clare home and reported he is in fine health.

Mrs. Wedal said she bet against her husband because she considered it all a joke last December when he boasted he could survive in the woods. Friends dared him to try it.

"From all reports now I expect to lose \$10," said Mrs. Wedal, a note of pride in her voice. "They say he's never been healthier and he's already got rid of a slight cold he had when he went into the woods."

Wedal had never attempted roughing it before. His hobbies are progressive jazz and reading Wedal, a state probation officer, walked into the woods at 1 p.m. Friday. Under terms of the bet, his only supplies were what he could carry on his back. He figured on supplementing his diet with fish from the lake.

Courtney Bauer, owner of a fishing service here, flew to Wedal's camp Monday to make a daily checkup. He found Wedal chopping wood.

"He hasn't had any time to do much ice fishing yet," Bauer said. "He's too busy cutting wood to keep his fire going."

Governor's Car In Road Mishap

HIGH POINT, N.C. (AP)—Gov. Sanford's limousine was involved in a three-car accident on a rain-slick pavement here Monday night. No one was injured.

S. M. Mattocks of the city police department said the governor's car, which was carrying only Mrs. Terry Sanford and the driver, Lt. Lloyd Burchette of the Highway Patrol, slid on the slick pavement and hit the rear of a second car which, in turn, crashed into the rear of a third car.

Mattocks said damages estimated at \$250 was done to the governor's car, \$250 to the second car, and \$75 to the third car.

No charges were filed.

His Furniture Is Confiscated

LOS ANGELES (AP) — Mickey Cohen, minus his freedom, is minus his furniture, too.

Internal Revenue agents confiscated it from a warehouse and auctioned it Monday to help pay a \$400,000 debt the government says Cohen owes for back income taxes. The sale raised \$2,000.

The one-time West Coast gambling figure is in jail awaiting results of another appeal of his conviction for income tax evasion.

Sokolsky

A nation is like that at a moment when its mistakes mount up and a decision must be made and must have finality. The cure can kill, but it can also save.

Waiting Proves Hardest Part Of TV Coverage

By CYNTHIA LOWRY
AP TV-Radio Writer

NEW YORK (AP) — The men and women assigned to cover America's man-in-orbit flight now are facing the hardest part of their jobs—just waiting.

Millions of dollars worth of photographic equipment is in place. Miles of cable have been strung. Hundreds of technicians and reporters are scattered from New Concord, Ohio, to airplane carriers rolling in South Atlantic waters. They are ready to cover the often-postponed flight as completely as possible for the nation and the world to see.

Original, the flight was set for today. Now, it is scheduled for Saturday. The three television networks will cover it, of course, and the competition among them is fierce.

The launching and surrounding activity at Cape Canaveral will be covered on a pool basis—all networks will share the same facilities and the same cameras. The recovery of the capsule also will be pooled.

Each network is trying to outdo competition in covering the surrounding story—the "color," commentary by rocket and space experts, and reporting on the family of astronaut John H. Glenn Jr.—his parents in New Concord, his wife and children in Arlington, Va.

CBS seems to have tapped Harry Reasoner for increasingly important assignments in the news area. He not only has his own daily show, "Calendar," but is now being used on other shows, including "CBS Reports."

With NBC's Huntley-Brinkley

team talked about so much, CBS has had a real personnel problem. Edward R. Murrow once was the network's one big news wheel. Since his departure, Walter Cronkite seems to have been carrying almost all of the special assignment load, a heavy one along with his regular chores on "Twenty-Tenth Century."

NBC has made Bernard Frizell acting chief of its Paris bureau. Frizell recently has been working in the Congo, and was moved to replace John Rich, now permanently barred as a correspondent in France. The French government took action after Rich's remarks in Washington recently about conditions there. Rich will be a "roving correspondent" working out of London.

NBC's "Circus" on Sunday night proved a cursory glimpse of life in the "backyard" of a tent show and a rather shallow and romantic commentary on the life of performers by clown Ernest Kelly. It was most interesting when the camera—sometimes in slow-motion—was following trapeze and high-wire performers.

Generally, however, the program was not the incisive, imaginative sort of thing we have come to expect from the network's Project 20 unit.

Recommended tonight: Garry Moore Show, CBS, 10-11 (EST)—Carol Lawrence, guest star; Ernie Kovacs Special, ABC, 10-10:30—the comedian's last show, taped early in December.

Recommended tonight: Garry Moore Show, CBS, 10-11 (EST)—Carol Lawrence, guest star; Ernie Kovacs Special, ABC, 10-10:30—the comedian's last show, taped early in December.

Sanford Says Gov't Has Responsibility In Growth

HIGH POINT, N.C. (AP)—Gov. Sanford has a responsibility to help North Carolina grow, Gov. Terry Sanford told a banquet meeting of the State Board of Conservation and Development here Monday night.

"Progress depends upon the understanding and vision of the people, but there are many things government can do to make it possible for the state to grow," he said.

He cited the C&D board as an example of government and people working together for a better state. He added that progress during the past 50 years in highway construction, schools, mental hospitals, the prison system, agriculture and ports development show what can be done by such cooperation.

The board was to close its annual winter meeting today after committee reports.

One item to be considered today was the program adopted Monday by the board's Commerce and Industry Division. The group agreed to recommend that the department start an effort to send

Temperatures Up To 72 Degrees Here Yesterday

Old man winter fell out of sight here yesterday as temperatures in the Greenville area zoomed up to 72 degrees, as recorded at the Greenville Utilities Plant.

Throughout the night and early morning today, the temperature reading was a mild 60 degrees, Kent Glisson reported.

The weatherman has predicted mostly cloudy with occasional rain today and continued mild. Wednesday will be mostly fair and colder, he predicted.

The Tar River level was at a 6.8-foot level and falling slowly. No rain was recorded up to midnight last night at the utilities plant.

representative group of about 12 manufacturers to at least two international trade fairs. The state would not pay anything.

The Commercial Fisheries Committee recommended a public hearing be held in Elizabeth City before the board's April meeting on a proposed pilot oyster dredging operation in Albemarle Sound.

The committee also recommended that the Chapel Hill Research Institute get \$10,000 for a one-year study on salt water fishing, and that about \$4,200 be invested in a six-month study of the "trash fish" industry in the state.

The Advertising Committee approved an advertising campaign prepared by Bennett Advertising Agency of High Point for the fourth quarter of the fiscal year. It would use magazines, newspapers and television to boost the state's vacation attractions to people in the Northeast and Midwest.

The Minerals Committee voted to ask the board to allow competitive bids on 60,000 acres of state land beneath Pamlico Sound and Pungo River in Beaufort County. It would be leased for phosphate mining.

Dog Hit Truck, Owner Must Pay

LONDON (AP)—A man whose truck came off second best in a collision with a dog was awarded 33 pounds 15 shillings—\$96.50—damages from the animal's owner Monday.

Hyman Gomberg said the 200-pound St. Bernard dashed out of a store and in front of his truck.

Bucs Independent After June 30

ECC Withdraws From Loop

SALISBURY—East Carolina College withdrew its membership in the Carolinas Conference at a meeting of member presidents Monday as a result of scholarship limitations which will go into effect next fall.

Dr. Leo W. Jenkins, president of East Carolina, told the closed meeting of the presidents yesterday that the college could not operate its athletic program effectively under the limitations that the conference would impose on

the school. Thus, East Carolina will be playing as an independent when it opens its 1962 football schedule next September.

By operating effectively, Dr. Jenkins meant that East Carolina could not ready itself for membership in the Southern Conference and remain in the Carolinas Conference at the same time. The ECC president also brought out the point that the school is fielding teams in all sports as well as a very extensive intramural program which is "expensive" and would not be possible with a limited athletic program.

Jenkins also said, "We feel we are not over-emphasizing the athletic program, but merely trying to get where we belong. In view of our size and plans for the future."

The Southern Conference has already said it would leave the door open to East Carolina when it qualified for membership. The qualifications consisted of belonging to the NCAA which the college joined last summer and of bringing up its athletic facilities to the level with those of the other conference members.

New head football coach Clarence Stasavich said last week, "Most of the coaches are interested in competing with East Carolina in the future," but the coach was not sure how the administrators would feel after East Carolina dropped out of the conference.

Basketball Coach Earl Smith said that he would try to schedule as many of the Southern Conference teams as possible in addition to playing any of the Carolinas Conference members that would. However, Smith noted that keeping a full schedule could present a problem.

Baseball Coach Jim Mallory said that the baseball team would not be affected as far as scheduling was concerned because the schedules are made up "year-to-year" and not several seasons in advance as in many other sports.

Coach Ends Long Wait

IT FINALLY ARRIVED . . . At the close of the 1961 football season a group of Greenville businessmen with Dr. Ray Minges as their leader decided to present Rose High Coach Bud Phillips with a new automobile. It was hoped that the car would arrive in time for the football banquet on Dec. 14, but it did not and the coach had to wait. The waiting period ended yesterday when the presentation of the car and the papers was made to Coach Phillips. On hand were (left to right) Dr. Minges, Badger Johnson of Jenkins Motor Co., Phillips and Wiley Forbes, president of the high school touchdown club. (Reflector Staff Photo)

Ford Checks Youngsters As He Wins Crosby Meet

By JACK STEVENSON Associated Press Sports Writer PEBBLE BEACH, Calif. (AP)—Veteran Doug Ford, 39, checked the rush of golf's oncoming youth brigade as he captured the \$50,000 Bing Crosby Golf Tournament title in a sudden death play-off after whipping miserably cold weather en route to his crown.

Neither Ford nor Campbell hit the green on the 355-yard, par-four hole. The ex-Purdue athlete from Pendleton, Ind., who had led from the opening day, was in the fringe at the front edge of the green. He tried a putter and left his ball six feet from the cup.

In addition to his first prize as low pro, Ford collected \$1,000 for a fourth-place finish with partner Dudley Wyson of McKinney, Tex. in the pro-amateur. It was the first Crosby for Wyson, who went to the finals in the 1961 National Amateur before losing to Jack Nicklaus over this same Pebble Beach course.

The Citadel Is Biggest Bust In Southern Loop

By THE ASSOCIATED PRESS The Citadel has been the biggest bust in Southern Conference basketball this season, and to Coach Mel Thompson the Cadets' failure just goes to prove that "one player can't carry a whole team."

Stowers, at 12.0, and Charlie Madrazo, at 10.2. Mike West, a brilliant sophomore prospect, has had his nights but still commits too many mistakes.

In the Citadel's case, of course, the player carrying the heavy load of responsibility is All-Southern Gary Daniels. His 21.8-point average is evidence he's doing his best—but it hasn't been enough.

During this week's examination break, Thompson is reassessing the dismal situation—and he's optimistic about the future. "We sure can't get any worse, and we ought to do a lot better in the second half of the season," he says.

Phants Hosting Jackets Tonight

Rose High School's Basketball Phantoms resume play tonight after a week's layoff for mid-term exams by taking on Elizabethton City here at 8 p.m. in a Northeastern Conference contest.

Am. League To Open April 9

BOSTON (AP)—The American League has an unusually early 1962 opener, April 9, at Washington's new baseball stadium.

Exams Are Big Thing For ACC Teams Now

By THE ASSOCIATED PRESS Midterm examination doldrums set in today in the Atlantic Coast Conference basketball race.

and pushed ahead, 53-52, after 8:32 of the half. The Hurricanes led 60-56 at one point.

No games are scheduled until Saturday, when Wake Forest is at Duke to determine who'll hold second place in the conference. Both teams are tied for second, behind North Carolina, with 4-1 records.

But with three minutes to play, Scott Ferguson, who had an injured shoulder, came into the game. He got free for two open shots and Maryland went ahead to stay, 66-64.

Jenson And Antonelli To Retire From Pro Baseball

By MIKE RATHET Associated Press Sports Writer Jackie Jenson, Boston's RBI ringer and American League Most Valuable Player in 1958, and Johnny Antonelli, one of baseball's first bonus babies, have announced their retirements after major league careers spanning more than a decade.

Antonelli, 31, recently acquired by the New York Mets, said at his home in Rochester, N.Y., "I've been thinking of this for a long time and I've made up my mind. The Mets asked me if I would reconsider if they offered me a better contract than the one sent me, but I told them nothing would change my mind."

Jenson returned to the Red Sox last season and hit .263 with 13 home runs and 66 runs batted in after sitting out the 1960 season.

Jensen's second and apparently final retirement was announced Monday by the Red Sox in Boston, where Vice President Dick O'Connell said, "We knew about this in December but were afraid to announce it then. We were afraid Jensen might change his mind and make liars out of us."

"I'm tired of traveling," said the pitcher who was paid \$52,000 by the then Boston Braves in 1948 when he was only 18, "and I want to be home with my family." Antonelli's wife, Rosemarie, is expecting their fourth child in a few weeks.

Jensen, 35, compiled a .279 lifetime batting average in 11 years in the majors, with 199 home runs and 929 RBI. In 1954 and 1955 and from 1957 to 1959 Jensen drove in more than 100 runs and formed a potent 1-2 punch for the Red Sox with Ted Williams.

Tops On Defense As Well For Jerry Lucas

By SHELDON SAKOWITZ Associated Press Sports Writer

Miami (Fla.) 71-68, Michigan State whipped Minnesota 84-79, Stanford turned back Washington State 67-51 and East Tennessee State downed Murray (Ky.) 91-72.

The shooting and rebounding skills of Ohio State's Jerry Lucas have been taken for granted but there has been a tendency to underestimate his defensive ability.

Ohio State broke open the game late in the first half after Purdue had kept close during most of the first 20 minutes.

Dischinger's nine points tied his career low. He also missed his first free throw attempt to snap his string of 29.

Maryland squandered a 17-point lead but rallied in the closing minutes to eke out the verdict over Miami on the losers' floor.

Lucas completely dominated the 6-foot-7 Dischinger, who had held the upper hand in their two previous meetings. Lucas tallied 32 points and snared 25 rebounds.

The Spartans bolted to a 45-28 halftime margin only to have Minnesota make it close with a 51-point second half uprising.

AC Bulldogs Fail To Win

By THE ASSOCIATED PRESS Atlantic Christian College has 10 more chances to win a regular season Carolinas Conference basketball game.

The Bulldogs failed in their ninth attempt Monday night, bowing to Appalachian State 81-61.

The Bulldogs failed in their ninth attempt Monday night, bowing to Appalachian State 81-61. The Mountaineers led by as much as 26 points late in the game.

Next ACC game is at home Thursday with High Point. The Bulldogs also have a home game Saturday with Western Carolina.

No games are scheduled to night. High Point, busiest conference team this week with three games, is at Campbell Wednesday night. The Panthers had a game scheduled for Monday night, but recently it was postponed to Jan. 29.

IAN FLEMING'S Greatest Thriller THUNDERBALL

CHAPTER 8
James Bond lit another cigarette, his sinful third in one hour. He said to his chief, putting unconcern into his voice.

"Where do I come in, sir?"
"I looked vaguely at Bond, as if seeing him for the first time. Then he swiveled his chair and gazed through the window at nothing."
"Finally he said, in a conversational tone of voice, 'I have an idea, a hunch, and I wish this idea to be pursued by a'—he hesitated—'by a reliable man. It seemed to me that the only grain of possible evidence in this case was the DEW radar plot, a doubtful one I admit, of the plane that left the east-west air channel over the Atlantic and turned south towards Bermuda and the Bahamas. I decided to accept this evidence, although it has not aroused much interest elsewhere."

"I then spent some time studying a map and charts of the Western Atlantic and I endeavored to put myself in the mind of SPECTRE—my opposite number, so to speak, and I came to certain conclusions."
"I decided that a favorable target for Bomb No. 1, and for Bomb No. 2, if it comes to that, would be in America rather than in Europe. To begin with, the Americans are more bomb-conscious than we in Europe and therefore more susceptible to persuasion if it came to using Bomb No. 2."

"Installations worth more than \$100,000,000 are more numerous in America than in Europe, and finally, guessing that SPECTRE is a European organization, it seemed to me at least possible that an American rather than a European target might have been chosen. Anyway, going on these assumptions, and assuming that the plane could not have landed in America itself or off American shores—the coastal radar network is too good—I looked for a neighboring area which might be suitable."

"I glanced round at Bond and away again. 'I decided on the Bahamas, the group of islands, many of them uninhabited, surrounded mostly by shoal water over sand and possessing only one simple radar station—and that one concerned only with civilian air traffic and manned by local civilian personnel.'"

"Bond interrupted. 'If you're right, sir, why didn't SPECTRE send their letter to the President instead of the P. M.?'"
"For the sake of obscurity. To make us do what we are doing—hunting all round the world instead of only in one part of it.'"
"M swung his chair round to the desk. 'Well?' He looked hard at Bond. 'Any comments? If not, you'd better get started. You're a rich young man looking for some property in the islands. That'll give you an excuse to do as much prospecting as you want. The Governor knows you're coming. They've got a well-trained police force. C. I. A. are sending down a good man. Take a cipher machine with the Triple X setting. I want to hear every single detail you turn up. Personal to me. Now you'd bet-

ter get on your way."
"Right, sir." Bond went to the door and let himself out. There was nothing more to be said.
When Bond walked out of the building, the man in the beige Volkswagen stopped scratching the burn-scar under his shirt, loosened, for the tenth time, the long-barreled .45 in the holster under his arm, started the car, put it in gear. He was twenty yards behind Bond's parked Bentley.

He had no idea what the big building was. He had simply obtained Bond's home address from the receptionist at Shrubslands and, as soon as he got out of the Brighton hospital, he had carefully tailed Bond. The car was hired, under an assumed name. Count Lippe was a sanguine individual. The job, the private score he had to settle, presented no problem to him. The overheard telephone conversation on the first day at the clinic showed that his cover had been breached, however slightly, and it was just conceivable that he could be traced through his membership in the Red Lightning Tong.

From there to SPECTRE was a long step, but Sub-operator G knew that once a cover began to run, it ran like an old sock. Apart from that, this man must be paid off. Count Lippe had to be quits with him.
Bond was getting into his car. He had slammed the door. He got moving.
On the other side of the road, and a hundreds yards behind the Volkswagen, SPECTRE No. 6 slipped his goggles down over his eyes, stamped the motorcycle into gear, and accelerated down the road. He swerved noticeably through the traffic and stationed himself ten yards behind the off rear wheel of the Volkswagen and just out of the driver's line of vision in the wind-screen mirror.

He had no idea why Sub-operator G was following the Bentley, nor whom the Bentley belonged to. His job was to kill the driver of the Volkswagen. He put his hand into the leather satchel he carried slung over his shoulder, took out the heavy grenade—it was twice the normal military size—and watched the traffic ahead for the right pattern to allow his getaway.

Sub-operator G was watching for a similar pattern. Now the cars ahead were sparse. He stamped his foot into the floor and, driving with his left hand, drew out the Colt with his right. Now he was alongside. The dark profile was a sitting target. With a last quick glance ahead, he raised the gun.
It was the cheeky iron rattle of the Volkswagen's air-cooled engine that made Bond turn his head, and it was this minute reduction of the target area that saved his jaw. If he had then accelerated, the second bullet would have got him, but some blessed instinct made his foot stamp the brake at the same time as his head ducked so swiftly that his chin hit the horn button, nearly knocking him out. Almost simultaneously, instead

of a third shot, there came the roar of an explosion and the remains of his windshield, already shattered, cascaded around him.
The Bentley had stopped, the engine stalled. Bond shook his head and cautiously raised it.
The Volkswagen, one wheel still spinning, lay on its side in front and broadside to the Bentley. Most of the roof had been blown off. Inside, and half sprawling into the road, was a horrible, glistening mess. Flames were licking at the blistered paintwork. People were gathering. Bond pulled himself together and got quickly out of his car. He shouted, "Stand back! The petrol tank'll go."

Almost as he said the words there came a dull boom and a cloud of black smoke. The flames started. In the distance, sirens sounded. Bond edged through the people and strode quickly back to his headquarters, his thoughts racing.
By the time the police had put out the fire it was quite clear that they would have nothing to go on but the shoes, the number on the gun, some fibers and shreds of clothing, and the car.
The car-hire people remembered nothing but a man with dark glasses, a driver's license in the name of Johnson, and a handful of fivers. Plenty of people remembered the motorcyclist, but it seemed that he had gone like a bat out of hell toward Baker Street. He wore goggles. Medium build. Nothing else.

GET YOUR TOBACCO CANVAS AT BELK-TYLER'S

GUARANTEED FOR 5 YEARS

Now! A Washer Drive Mechanism So Reliable

Kelvinator

Backs It With A 5-Year Parts Guarantee

This new washer is so reliable you get not only the standard one-year warranty on the entire washer, but also 4 years' additional protection on the drive mechanism.*
With this guarantee, you have real proof of reliability—not just claims. It's your assurance that Kelvinator will wash dependably washday after washday after washday.
Come see this reliable new Kelvinator with its exclusive Deep Turbulent Washing Action. It's so thorough that pre-scrubbing by hand is completely unnecessary... so safe it can even wash a paper napkin without tearing it. And Kelvinator gives you high-priced washer features at a surprisingly low price.

Start As Low As
\$19.94
Per Week

Automatic Pre-Scrubbing • Normal and Small Load Cycles • Special Wash-Wear Cycle • Lint Filter/Bleach Dispenser • Deep Turbulent Washing and Rinsing • No Gears to Get Out of Order

Here's why Kelvinator can offer such a guarantee!
Kelvinator doesn't waste money making costly annual model changes—mere "change for change's sake." Instead, Kelvinator concentrates on making appliances more useful, more dependable and more economical to operate. Just as soon as improvements are tested and approved, they are introduced. Because of this policy of Constant Basic Improvement, you are always sure of the newest improvements and greatest reliability with Kelvinator.

Capsule-Class Is Expensive Way To Girdle Globe

By BEM PRICE
CAPE CANAVERAL, Fla. (AP)—When astronaut John Herschel Glenn Jr. takes his trip through the dark of space he will travel capsule class.

It's an expensive way to travel, though the quarters are cramped. His new space ship, built by the McDonnell Aircraft Corp. of St. Louis, cost \$5 million.

Glenn is scheduled to make the trip around the world strapped to a special rubber-padded fiberglass couch especially contoured to fit his 165-pound frame.

On his journey the native of New Concord, Ohio, will scarcely have elbow room since his bell-shaped sky cabin is only six feet in diameter across its base and stands nine feet high.

At lift-off the whole thing will weigh 4,200 pounds. As it travels along it will jettison equipment no longer needed and when it is once more upon the earth, it will weigh 2,400 pounds.

Lt. Col. Glenn of the Marine Corps is going to be a busy man.

His capsule is jammed with 164 instruments, lights and switches. He will have to keep a sharp eye on all of them, even with the aid of mirrors strapped to his wrists.

All these gadgets can be operated from the ground or manually by Glenn.

There is a 165th switch which only Glenn can operate. Until he closes that particular switch, the Atlas booster destined to lift him skyward cannot be lit. This is known to the astronauts as the "chicken switch."

Glenn will be launched into orbit with the small end of the capsule pointed forward. Once in orbit, Glenn will swing his capsule through a 180-degree arc, using 18 small jets loaded with high pressure hydrogen peroxide.

He will also swing his capsule around from time to time, while passing across the night-shaded part of the earth to take a look at the stars. The time for each of the three planned orbits of the globe will be about 90 minutes.

In brief, Glenn will spend most

of his trip looking toward where he has been instead of where he is going.

The broad, blunt end of the capsule contains a heat shield made of a plastic compound which undergoes chemical changes and peels away in fine layers to dissipate the 3,000-degree heat generated by passage through the earth's atmosphere as Glenn comes in for a landing.

Glenn will be able to see the earth and stars through a "picture window" measuring 11 inches across the base and seven inches across the top. It is 19 inches high.

He will also have a periscope with which he can sweep the horizon in a 360-degree arc and a picture will appear on his screen before his face.

By adjusting the focus on the periscope he can pinpoint an area on earth 80 miles in diameter or get a big picture of the earth 1,900 miles in diameter.

Should something go wrong on the flight, a red light will appear

on the instrument panel directly to his front and a buzzer will insistently claim his attention.

There are some 20 things Glenn can do to save his life at various points along his route. These life-saving devices can be activated from six of 18 ground tracking stations.

For example, if the red light flashes at liftoff, Glenn can pull a lever by his left hand which will fire a small rocket mounted atop a 16-foot tower above his cabin.

This rocket will hurl him 2,000 feet into the air, where a parachute will open and lower him gently to the sea just offshore.

He can use the same technique at any time before entering into orbit if the rocket veers off course.

At 140 seconds past launch, Glenn should be traveling free and easy into orbit. At this point the rocket-equipped escape tower is jettisoned and falls into the sea, or burns up in the atmosphere.

Should he become hungry on his flight he has 3,000 calories of beef and mixed vegetables in tooth-paste tubes, and six pounds of water.

Once into orbit, Glenn is pretty safe, though his life support system must work perfectly. The capsule has two which can provide enough oxygen for 28 hours.

Air pressure inside the cabin is maintained at six pounds per square inch.

Medical sensors, including a rectal thermometer, will keep tab throughout the flight on his respiration rate and depth, his heart action and body temperature.

When the time comes to land, Glenn will fire a package of braking rockets attached to the blunt end of the capsule. His speed will drop from 17,500 miles per hour to 250 miles per hour in less than five minutes.

After the braking rockets fire, they, too, are jettisoned. At 21,000 feet a small parachute is deployed to slow the space craft even more.

At 10,000 feet, the 63-foot diameter main chute opens automatically (there are two in case one rips). If it doesn't work automatically Glenn can pop it out with a hand switch.

After splashdown, the big parachute is supposed to fall away in order to avoid dragging the space craft through the water by acting as a sail.

Upon touchdown a small radio begins sending out a signal for the recovery ships to home upon. There is a small auxiliary unit in the cabin which Glenn can use in event the automatic device fails.

If the capsule should spring a leak from the landing impact, Glenn can escape into the sea

through a hatch in the neck of the craft.

Immediately after the rescue helicopters from the recovery carrier arrive, two frogmen will leap into the sea and attach a flotation device, something like a huge inner tube to the capsule, to keep it from sinking in the event the landing causes a leak.

Glenn himself will be drawn into one of the hovering helicopters by a sling attached to a winch.

Should something go wrong, however, and there are no helicopters around and Glenn is confronted with a leaking space craft, he can launch a small rubber raft which weighs only three pounds, four ounces.

This raft contains shark repellent, dye markers, distress signals, survival rations, a first aid kit and a desalting kit to provide drinking water.

Further, his space suit is equipped with an extremely compact life jacket which the astronaut can inflate if he has to take to the sea.

This landing business is not exactly a soft touch. The capsule which sent the chimpanzee, Ham, on a 16-minute flight through space Jan. 31, 1961, sprang a leak upon impact and was pulled from the water only in the nick of time.

The capsule which carried astronaut Virgil I. Grissom to an altitude of 118 miles on July 21 last year had worse troubles.

Upon landing the nine explosive bolts holding the side hatch blew prematurely and the capsule was flooded, sinking in nearly five miles of ocean. Grissom himself barely escaped drowning.

Smallpox Scare In South Africa

JOHANNESBURG, South Africa (AP)—South Africa was hit by a big smallpox scare Monday. Hundreds of whites queued four-deep in a downtown block to be vaccinated.

The scare came here when it was broadcast that one or two Africans living outside the town were found to have smallpox and that thousands of Africans had been ordered to report for vaccination.

President Chester Arthur cleared out 24 wagon loads of old furniture, vases, moth-eaten rugs and rusty mousetraps from the White House and sold the lot at auction.

ECC Will Host Division Of All-State Band Clinics

Student musicians chosen for their talent and representing high schools in Eastern North Carolina will meet at East Carolina College Friday and Saturday, February 2 and 3, to participate in the Eastern Division of the All-State Band Clinic.

Herbert L. Carter, director of bands at East Carolina College and chairman of arrangements for the clinic, has announced the program for the annual event.

Two bands will be organized on the campus here as the clinic opens. A Symphonic Band of young instrumentalists selected by a committee holding preliminary auditions in the area will

play under the direction of Mr. Carter.

Patrick Leonard, director of the Charleston County, S. C., Youth Band, one of the outstanding bands in the South, will conduct a Concert Band of musicians from Eastern North Carolina schools.

Keig Garvin, nationally known trombonist and clinician with the U. S. Army Band of Washington, D. C., will be a special guest at the clinic. On Saturday he will meet for discussion and rehearsal with band directors and students interested in the brass instruments.

Sectional rehearsals for students of various band instruments

are also included on the program. Band directors in Eastern North Carolina schools who will act as leaders are Durwood Bray, Edenton; William Glasgow, Farmville; Raymond Babelay, Wilson; Stuart Patten, Plymouth; Jack Pindell, Wilmington; J. C. Sykes, Rocky Mount; Robert Watson, Robersonville; and William Adcock, Wilmington. Members of the East Carolina College music faculty will also participate in these events.

Two public concerts will be presented as highlights of the clinic. The East Carolina College Symphonic Band, with Mr. Carter as conductor, will give a program Friday at 8 p.m. in the Wright auditorium. The Clinic Symphonic and Concert bands will appear Saturday night at 7:30, also in the Wright auditorium.

Members of the Greenville High School Band are assisting the college music department in arranging the entertainment of high school musicians during their participation in the clinic.

Traffic Division's Activities Reported

A six-month summary of the activities of the Greenville Police Department's Traffic Division, work done by the department since its organization in July, has been reported by Police Chief Guy C. Langston.

Included in the report of the Traffic Division work is the erection of 12 stop signs at intersections through the city.

Included in the list of new stop signs are Monroe, Williams, Cedar, and Maple, and their intersections with 10th St., and signs at Lakewood Drive, Popular Drive and Lindell Road at their intersections with Evans St. Also, signs at the corner of Fourth and Elm Sts., Ridgeway and Dickinson Ave. Manhattan and Dickinson Ave. and at 11th, and Charles Sts. have been erected, as well as a sign at the intersection of 10th, and Clark Sts.

"No Stopping" signs have been erected on Fifth St. in front of the Junior High School and a stop sign removed at the intersection

of Third and Tyson Sts. to make Third a through street.

A number of no parking signs, yield right of way signs, loading zone signs and one-way signs have been erected or removed to facilitate a smoother flow of traffic through the city.

Several speed limits have also been changed by the Traffic Division, including the establishment of 15 mile-per-hour limits at school zones on Elm Street and the changing of the speed limit to 35-miles per hour for Charles Street south to the City Limits and on 10th St. east to the city limits.

Repainting of crosswalks and other pavement markings was done under the direction of the division as well as the trimming of bushes, weeds, tree limbs and shrubs which were obstructing drivers views of traffic control signs and intersections.

Several traffic control and school zone lights were rearranged to better control the flow of traffic and to be more visible to drivers.

Several surveys were made by the division, Chief Langston noted, in an attempt to formulate a safety program for children going to and from school.

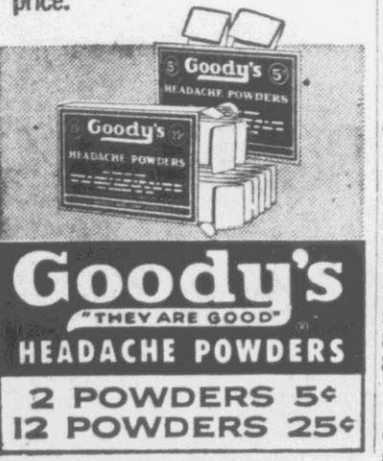

The surveys showed that from Stratford Subdivision, nine children walk to school and 12 are taken by car. None ride bicycles. From the area South of Greenville Blvd. (U.S. 264 By-pass) 13 walk, 16 go by car and 28 ride bicycles, while from Coghlin Subdivision five walk, 23 travel by bicycles, 48 go by car and 58 travel by bus.

A survey of bicycles at the different schools in the city revealed that 243 students at the Agnes Fullilove school have bicycles, with 511 at Elmhurst, 161 at Eppes High, 86 at Fleming Street, 358 at Greenville Junior High, 121 at South Greenville, 186 at Third Street, 401 at Wahl-Coates, 66 at Sister Barbara in West Greenville and 172 at Rose High School.

Total bicycles owned by school children is 2,303 the surveys showed.

Church Board's New President

RALEIGH (AP)—The Rev. Howard J. Ford, pastor of Elkin's First Baptist Church, presided today for the first time over a meeting of the Baptist State Convention's general board.

He was elected board president Monday night to succeed the Rev. Nanes Starnes of Asheville who resigned the post in the aftermath of his selection last November as president of the full convention.

Rev. Dewey Hobbs of Wingate was elected vice president and Mrs. Dennis Hockaday of Durham secretary.

The board was to adjourn today after electing five at-large members to its executive committee, a chairman of its church program committee and hearing subcommittee reports.

The board, composed of 95 members, runs Baptist State Convention business between annual meetings.

The Rev. Mr. Hobbs succeeded Rev. George E. Simmons of Wadesboro in the vice presidency.

Named chairman of five of the board's six committees and earning spots on the executive committee were the Rev. Ralph Cannon of Winston-Salem, missions; Gaiher Beam of Louisburg, Christian education; The Rev. Hoyle T. Allred of Gastonia, evangelism; the Rev. F. Stanley Hardee, Thomasville, stewardship promotion and editorial services, and the Rev. Maynard Mangum of Southern Pines.

The Rev. Mr. Ford was elected chairman of the sixth committee, church programs, but declined the post after he was picked as board chairman.

Chairman And 3 Top Officers Of Exchange Quit

NEW YORK (AP)—Chairman Joseph F. Relly and three other top officers of the troubled American Stock Exchange have resigned.

Their action Monday virtually erased the higher element of an administration that has been under fire from the Securities and Exchange Commission and some exchange members.

Quitting with Relly, who also was acting as president pro-tem, were Vice Chairman Charles J. Bocklet, James R. Dyer, a member of the Board of Governors and chairman of the Committee on Finance, and John J. Mann, a governor and chairman of the Committee on Floor Transactions.

The SEC had accused the four of dominating the administration of the nation's No. 2 securities market for the last 10 years.

This statement was part of an SEC report in which it said the exchange had allowed "manifold and prolonged abuses" of trading rules.

Relly, 54, had been serving as president pro tem since the resignation last Dec. 11 of Edward T. McCormick as president. He has been an exchange member 31 years, a governor since 1951 and was completing his second term as chairman.

Relly and the three other officers made no comment about their resignations.

Immediately upon accepting the resignations, the Board of Governors named Edwin Posner, a partner in the New York City brokerage and specialist firm, Andrews, Posner and Rothschild, as president pro-tem.

Posner, 71, a former chairman, is a leader in a reform movement within the exchange.

The SEC investigation of the exchange began after a scandal broke last May involving a father-and-son team of specialists, Jerry and Gerard Re, who were suspended from the exchange and later arrested in connection with alleged stock manipulations.

The SEC later widened its inquiry to embrace the entire securities business.

The exchange last fall appointed its own investigating committee, headed by broker Gustave Levy. This group has recommended a drastic reorganization.

Posner is scheduled to take office as chairman Feb. 12. The Board of Governors will serve only until a new constitution, which will include revision of the method of selecting governors, become effective.

Red Cross Priorities In Past Year Reported

The American Red Cross gave priority attention last year to family and personal services for men and women in the U.S. armed forces around the world and for war veterans, it was stated in an annual report received by the Pitt Chapter of the American Red Cross.

These services accounted for more than a third of the total expenditures, it was further stated.

In addition to military and veterans services, most funds were spent for emergency care and family assistance in 339 major disaster relief operations; in donor recruitment and blood collection and processing in the organization's network of blood centers and bloodmobile facilities across the nation.

Funds were also spent in training more than two million persons in first aid, swimming and lifesaving, and 200,000 in care of sick and injured; and a national program of services for American youth in schools and local chapters.

Regarding the attention to family and personal services for men and women in the U.S. armed services around the world and for war veterans, two

million volunteers supported these and other services in the U. S. and overseas, augmenting career staff. An average of \$10,400 was spent every hour of the year "to help Americans and also in the performance of acts of mercy and good will far beyond our boundaries," the report said.

The report was released by American Red Cross National Chairman E. Roland Harriman.

Total expenditures for the fiscal year ending last June 30 amounted to \$91,286,436. Forty-five million Americans made fund contributions last year for support of services to the armed forces, veterans and their dependents; disaster preparedness and relief; food, safety, nursing, hospital, youth, educational and other services.

Some assistance also was given to victims of major disasters in foreign lands in support of their own Red Cross societies.

Home service in local chapters worked closely with staff at U. S. military installations and hospitals in the U.S. and overseas to counsel servicemen and families in welfare problems, provide communications, and also financial assistance where needed.

Shaw Chorale And Orchestra Will Give Concert At ECC January 29

The Robert Shaw Chorale and Orchestra, currently on its fourteenth concert tour of the United States, will appear at East Carolina College January 29 in the Passion According to St. John by Bach. The program is scheduled for 8:15 p.m. in the Wright auditorium.

The performance of the celebrated Bach work, an attraction of the college Entertainment Series for the present school year, will be sponsored by the Student Government Association.

This will be the first time in history that this music will have been taken on tour. For the occasion, Mr. Shaw has augmented his chorus and orchestra to approximately sixty performers, forces that approximate the size of the ensemble used in Bach's own day.

The St. John Passion was originally presented on Good Fri-

day, 1723, in the city of Leipzig, where Bach was about to receive an appointment as cantor of the Thomasschule, a post the composer held until his death in 1750.

The Passion is particularly well qualified for a touring concert, in Robert Shaw's opinion, because it is just the right concert length and can be given in its entirety in an evening.

COMPLAINTS SILENCED BUFFALO, N. Y. (AP)—One local bus driver got tired of hearing his passengers complain about getting hungry when a recent snowstorm tied up downtown traffic during the 5 o'clock rush. He bought four dozen doughnuts and passed them around.

Saturn has nine satellites and the largest known moon in our galaxy. Titan, the moon, is also the only moon that has an atmosphere.

Legal Notices

NOTICE
Notice is hereby given that the complete ownership and management of C. Heber Forbes Store, 417 Evans Street, Greenville, North Carolina, was transferred to Charles Alfred Forbes on April 1, 1960. Pursuant to the laws of North Carolina, this notice is given to whom it may concern that I will no longer be responsible for the future policies, debts, or other liabilities of C. Heber Forbes Store. The store will operate under the name of C. Heber Forbes Store and your continued patronage will be personally appreciated.

This 19th day of January, 1962.

C. HEBER FORBES Blount & Taft, Attys. Jan. 23

Stock And Market Reports

RALEIGH (AP)—(NCDA)—Hog prices mostly steady to 25 higher. Tops of 17-18 at Nahunta; 17.50-17.75 Murfreesboro, Robersonville; 17.25-17.75 Rocky Mount; 16.75-17.75 Wilson; 16.50-17 Pembroke; 17.75 Tarboro, Enfield, Scotland Neck, Rich Square; 17.50 Bethel, Washington; 17.25 Greensboro; 17 Siler City, Castle Hayne, Burgaw, Goldsboro.

Wilson cash cattle prices steady: Steers and heifers, choice 23.50-25.50, good 22-24.50, standard 19-22; beef cows 14-15.50, heavy bulls 15-18.

RALEIGH (AP) — (NCDA) — North Carolina egg markets firm. Supplies barely adequate to short, demand good. Prices paid producers for clean, unsized eggs, delivered nearby grading stations on a grade-yield basis, cases exchanged: Grade A large, whites 38-39, medium, whites 35-36, small, whites 28-29.

NEW YORK (AP) — The stock market went through another typical 1962 performance with prices losing ground on balance early this afternoon in moderate trading.

The Associated Press average of 60 stocks at noon was off .60 at 254.60 with industrials off .90, rails off .20 and utilities off .40.

Even the aerospace issues, which received some stimulus last week from Washington plans for increased spending, edged downward. The general run of losses was moderate and the decline was resisted by a scattering of issues here and there. A selection of stocks, however, took fairly sharp losses.

Crown Cork was down about 5, ord and Polaris off more than 2.

International Business Machines slumped 5 points.

Interstate Department Stores, one of the biggest gainers in 1962, was clipped for a 4-point loss. U.S. Steel fell more than a point.

General Motors eased and Du Pont was off a fraction.

Xerox sank 2 1/4.

The Dow Jones industrial average at noon was off 2.75 at 699.23.

Prices were irregularly higher on the American Stock Exchange.

Corporate bonds advanced. U.S. government bonds were unchanged.

Ask Support Of Scouts' Parents

Parents of Cubs, Scouts and Explorers in Pitt Scout District have been urged to support the 1962 Exposition, scheduled for Feb. 10, in letters from general chairman E. E. Rawl Jr.

As general chairman, Rawl urged the parents to help their sons to join in the mammoth scouting affair and to plan to attend the event, billed as the most elaborate scouting activity in the district's history.

Rawl cited the purposes of the Exposition, to be held in Raynor-Forbes warehouse in Greenville: —to provide a greater degree of stimulation in activities and programming for those boys already in scouting.

—to bring more boys into scouting who otherwise would not be reached.

—to acquaint the general adult public with what scouting means to the boy and to the community in development of character and good citizenship.

The general chairman, who is also president of the Exposition's sponsoring organization — the Greenville Kiwanis Club—is being assisted in planning and staging the Exposition by eight fundamental committees composed of Kiwanians and adult scouters.

Last Rites Set For Mrs. Charlie Carson

Mrs. Mittie Campbell Carson, 83, widow of Charlie Carson, died at Beaufort County Hospital in Washington Tuesday morning at 12:30. She had been in failing health for the past year and critically ill for two weeks.

Funeral services will be conducted at the Wilkerson Chapel Wednesday afternoon at two o'clock by the Rev. Douglas R. Woodworth, pastor of the Ayden Methodist Church. Burial will be in the Wesley family cemetery near Chocowinity.

Mrs. Carson spent all her life in the Grimesland and Chocowinity communities and was a member of Providence Methodist Church near Chocowinity. She was married to Mr. Carson of near Bethel and he died in 1920.

Surviving are two daughters, Mrs. Albert Boyd and Mrs. Willie Porter of Chocowinity; three sons, Thomas A. Carson of Newport News, Va., Dossie H. Carson of Ayden, and Dewey D. Carson of Chocowinity; 11 grandchildren; 22 great grandchildren; six sisters, Mrs. Luther Wayne and Mrs. Frank Taylor of Grimesland, Mrs. Rosa Taylor of Greenville, Mrs. Frank Ange and Mrs. Tom Ange of Newport News, Va., and Mrs. George Heath of Pactivus; and two brothers, Jack Campbell of Washington and Jarvis Campbell of Simpson.

Arrest Four In Munition Theft

PAYETTEVILLE, N.C. (AP)— Four Ft. Bragg soldiers have been arrested in the theft of 13,000 rounds of small caliber ammunition from a munitions dump at the huge Army base near here.

The soldiers were arrested Monday after a farmer reported finding the ammunition hidden under a railroad trestle on the Norfolk and Southern Railway near Carver Falls in Cumberland County.

Sheriff's officers and the Ft. Bragg Criminal Investigation Division threw a stakeout around the area and arrested the men when they came to where the ammunition was hidden.

Being held in military custody are Pfc. George Harmon, Sp. 4, C. Hugh Sapp, Pfc. Richard Reese, and Sp. 4, C. Charles Robinson, all members of the 60th Ordnance Battalion at Ft. Bragg.

Norsemen, who frequently saw the aurora borealis, poetically attributed them to reflections from Valkyries' shields.

Parts Of Berlin Fence Damaged

BERLIN (AP) — Gale winds blew down parts of the wire fence set up around West Berlin by the East German Communists to stop escapes, West police said today.

Gusts of 70 miles an hour uprooted concrete posts supporting the double lines of wire at several spots.

At other places big boards on the Western side warning of the proximity of the border were toppled. They fell on the wire, smashing gaps in the fence.

East German border guards were busy repairing the gaps.

During the night two women, one carrying a 4-month-old baby, escaped across the wall from East Berlin. A man made his getaway to the West at another spot.

In 1516 Salim the Grim conquered Syria for the Ottoman Turks, who ruled until 1918 when British and Arabs occupied the country. Syria was under French mandate between the two World Wars and won full independence in 1945.

First Steps . . .

(Continued from page one)

plies must be forwarded to the state director of Civil Defense by Feb. 10.

The warehouse preferably would be easily accessible to loading and unloading. It must have a capacity for one cubic foot of space equivalent to 10 per cent of the population represented here.

The federal government has stated that no shelters will be stocked by it if the shelter utilization plan for a given shelter contains restrictions relating to race, religion or color. Shelter utilization plans further should reflect both daytime and nighttime population requirements.

Other engineering firms associated with Rivers and with L. E. Wooten in this 11-county area include Guy Crampton of Raleigh, Boney and Newcomb of Raleigh, and Harless and Edwards of Rocky Mount.

President John F. Kennedy has put Secretary of Defense Robert McNamara in charge of execution of this program. The office of Civil Defense has been established in the Department of Defense under the Assistant Secretary of Defense Stuart L. Pittman. The Corps of Engineers and the Bureau of Yards and Docks are serving as contracting agencies for hiring architectural and engineering firms.

Three Thefts Charged To Boy

A 13-year-old Greenville Negro was charged with three thefts Monday. He was picked up by Greenville police and charged with the theft of pocketbooks and wallets from three places during the past three weeks.

Officers said the youth was turned over to juvenile authorities upon being caught by a man just after a purse was taken from a parked car Saturday.

Officers said the youth allegedly removed a pocketbook from a parked auto on Manhattan Ave. The property was owned by Mrs. Dorline Briley of Route 5, Greenville.

The youth has also been charged with the theft of a pocketbook from a house at 302 Manhattan Ave. January 18. Detectives said an estimated \$125 belonging to Mrs. Marvin Woodward was taken from inside her dwelling on that date.

A third charge, that of removing a wallet from a car at 1708 Spruce St. January 2, has also been brought against the juvenile.

The wallet was owned by Mrs. Richard Joyner of 1708 Spruce St.

Police officials noted that both the pocketbooks and wallet were found in a field near the three addresses.

Navy Secretary To Visit Bases

CAMP LEJEUNE, N.C. (AP)—Navy Secretary Fred Korth will visit the Camp Lejeune Marine Base and the Cherry Point Marine Air Station Thursday to take a look at the Navy-Marine Atlantic Seaboard "force in readiness."

Korth, who was sworn in as Navy secretary Jan. 4, will arrive at the New River Marine Air Facility at 9 a.m. and will depart at 4 p.m. from Cherry Point to return to Washington.

G. C. Barfield Died Here Yesterday

Mr. G. Cleveland Barfield, 68, died suddenly at his home, 1200 Myrtle Ave., at 9 o'clock Monday morning following a heart attack. Funeral arrangements are incomplete.

Mr. Barfield was a native of Greene County and had lived in and near Greenville for the past 35 years.

He is survived by his wife, Mrs. Lillie Stokes Barfield; two sons, O. Grover Barfield of Amhurst, Ohio, and G. Ray Barfield of Rocky Mount; six daughters, Mrs. Edward Harris of Tampa, Fla., Mrs. Retha Mae Rouse of Clearwater, Fla., Mrs. Fannie Matthews of Tampa, Fla., Mrs. Burnice W. Paramore of Greenville, Mrs. Jimmie Moore of Libion, Ind., and Mrs. Harry English of Jacksonville; 25 grandchildren; two great grandchildren; two brothers, Joe Barfield of Libion, Ind., and Willie Barfield of Detroit, Mich.; and a sister, Mrs. Clifton Clark of Henderson.

Oratory Award Medal Presented Celia Parsons

TOP OPTIMIST ORATRESS . . . Club President Tom Money presents medal to Miss Parsons (second from left). Other contestants (from left) are Miss Coughlan, Miss Marston and Miss Johnson. (Reflector Staff Photo)

A Junius H. Rose High School junior Monday was declared winner of the Greenville Optimist Club's public-speaking contest for local high school girls.

Miss Celia Parsons, daughter of Mr. and Mrs. Preston D. Parsons of 312 E. 11th St., was presented a gold medal in recognition of oratorical skill after her treatment of the subject "World Peace" was adjudged first in a field of four.

Miss Parsons, in her delivery, stressed the need for universal

understanding among nations of the world in mankind's drive toward the ultimate goal, a peaceful earth.

Optimist President H. Thomas Money presented Miss Parsons her award after a panel of three Optimist judges—Johnny May, Bill Talton and E. R. (Pete) Carraway—announced its decision.

Other entries in the contest were Miss Betsy Coughlan, Rose

High junior and daughter of Mr. and Mrs. J. C. Coughlan of 803 Willow St.; Miss Ruth Johnson, also a junior and daughter of Mrs. Dorothy Johnson, 905 Lawrence St.; and Miss Jane Marston, Rose High sophomore and daughter of Mr. and Mrs. J. T. Marston Jr., 302 S. Library St.

All the contestants, coached by Rose High faculty member Bob Starling, addressed the Optimists on the "World Peace" topic.

The contest for girls represents an expansion of the local Optimist Club's public-speaking competition among Greenville teenagers. The annual Oratorical Contest—local participation in Optimist International's annual competition—is scheduled for February.

The four contestants and Starling were dinner guests of the Optimists prior to the competition which served as the club's weekly program.

Before the contest, President Money announced the Optimist District 18 meeting will be held in Rocky Mount Feb. 3 and urged officers and other members to attend.

British Hunting Guerrilla Band

BELIZE, British Honduras (AP)— British troops searched the bush near the Guatemalan border today, seeking a small band of Guatemalan guerrillas who crossed the border on a self-ordained "liberation" mission last weekend.

Guatemala claims this British crown colony.

The Guatemalan government denied it had anything to do with the vest-pocket invasion. It said it was looking forward instead to negotiations with the British on the issue later this year.

Tanker Wrecks, Gasoline Flows

GREENSBORO (AP)— A gasoline tanker overturned on Interstate 40 here today spilling fuel on the westbound side of the highway.

Officials estimated gasoline at the rate of six to 10 gallons per minute was flowing down a highway drainage ditch and into a creek.

Fire trucks were called but there apparently was no danger of fire.

The truck, belonging to Southern Oil Transportation Co. of High Point, was driven by Robert L. Blackburn, who was unhurt.
