Unidentified Man Burns To Death In Accident

A man, pinned in the wreckage of his tractor-trailer truck cab, was burned to death here late yesterday afternoon as gas-fueled flames engulfed the vehicle.

Patrick said the driver told him, "You can't get me out, my leg is caught . . . you need help."

The driver, a white man, "only had a couple of cuts on his head and was bleeding very little . . ."

Agri-Business Tour Slated Tomorrow

A 180 mile tour of Pitt and surrounding counties will be held tomorrow with farmers and agri-business leaders from six counties participating.

The group will then cross the Pamlico River by ferry at Ferry Slip and tour Texas Gulf Sulphur mining operations, and view the Angus Beef herd that the company keeps on land near Aurora.

Druggists Join Against Smoking

ATLANTIC CITY, N.J. (AP) — New Jersey's druggists launched a campaign today to discourage smoking. The drive would warn of tobacco's dangers, discourage merchandising and advertising its sale, but not stop the sale of tobacco in pharmacies.

Teen-Age Girls Said Among Most 'Undernourished'

DENVER, Colo. (AP)—Teen-age American girls are among the most undernourished people in the world, the Colorado Pharmaceutical Association convention was told Monday.

Probe Cause Of Ohio's Prison Riot

COLUMBUS, Ohio (AP) — National Guardsmen kept a tight grip on the Ohio Penitentiary today while authorities sought to determine what sparked Monday's disastrous riot and fire.

NEW YORK (AP) — Wilbur J. Cohen, secretary of health, education and welfare, predicts poverty will be eradicated in the United States by 1976.

Unruly Crowds Are Swiftly Dispersed

Nat'l Guardsmen On Streets Of Capital After Disorders

WASHINGTON (AP) — National Guardsmen carrying riot control weapons patrolled the curfew-emptied streets of the nation's capital early today after disorders broke out following the forceful closing of Resurrection City.

These measures, plus the extensive use of tear gas and the imposition of a dusk-to-dawn curfew appeared effective and there was relatively little damage.

"The amount of disorder and violence is very limited," added Public Safety Director Patrick Murphy. "I urged the mayor to impose the curfew. As a result, we were successful in clearing streets of crowds."

Police were prepared for violence when 1,000 of them suddenly cordoned off Resurrection City, mud-soaked showpiece of the Poor People's Campaign, at 9 a.m. Monday.

Rev. Ralph David Abernathy, toothbrush in pocket, led a march in the Capitol, where 224 equally peaceful arrests were made. Police gave everyone who did not want to be arrested a chance to leave.

Charlotte Leads The Way

Serious Crime Increasing In N.C.

WASHINGTON (AP) — An FBI report covering the first three months of this year shows serious crime on the rise in North Carolina, with Charlotte leading the way.

Charlotte had increases in all crimes of violence, except homicides and auto thefts. There were 13 homicides, the same as for the first three months of 1967, and 173 auto thefts, one less.

Other reports, by cities: Greensboro—Two murders in the first three months of 1968, no figure available for a year ago; forcible rape, 8, up 1;

Raleigh—Four murders and 5 forcible rapes, no 1967 figures listed; 27 robberies, up 10; aggravated assaults, 77, down 1;

Abernathy, asked when arrested if he had any messages for people in the Negro areas emphasized, "Under no circumstance must we turn to violence."

Preliminary Look Given Pitt Salaries

The Pitt County commissioners reviewed the salaries included in the proposed county budget for the fiscal year 1968-69 for the first time yesterday.

President Pleads For Registering All Guns

WASHINGTON (AP) — President Johnson has called for the federal registration of every privately owned gun in the nation and set off a controversy in Congress.

Johnson asked for the stricter gun control laws Monday in a strongly worded message to both the House and Senate. The White House said specific legislative proposals would follow.

The President's new recommendations call for federal registration of guns to be recorded in a single computer center, and licensing under definite federal standards of all persons who own guns.

Five Helicopter Crashes Claim A Tragic Toll

SAIGON (AP) — Nineteen American and 19 Thai soldiers were killed in five helicopter crashes around Saigon today and Monday as allied forces intensified their drive to thwart another Viet Cong attack on the South Vietnamese capital.

Another two American fliers were missing in North Vietnam following the downing Monday, due to "unknown causes" of a Navy A6 Intruder from the carrier Enterprise. It was the 859th U.S. plane reported down in combat over the North.

The U.S. Command said four of the helicopter crashes were accidental. The fifth touched off a 12-hour battle in which American infantrymen said they killed 46 Viet Cong troops 19 miles southwest of Saigon.

Johnson said registration and licensing long have been accepted on automobiles and boats—even dogs and bicycles in some communities—and licenses are required to fish, hunt and drive.

Power Consumption Hit A New Peak Monday

Consumption of electricity in Greenville reached a record peak of 50,400 kilowatts (KW), yesterday, according to Leonard Bloxam, director of Utilities, Commission.

It occurred when a number of transformer installations became overloaded because of additional air conditioners which had not been reported.

"Anytime any major load is being connected . . . it would be helpful to the Utilities . . . to have the information . . . not only helpful to us but to the person's neighbors as well," the director continued.

Electrical maintenance men worked until 11:00 p.m. correcting overload transformer situations. This work will continue today until all are corrected, he noted.

The Distribution Of The Pound

THE BODY'S THE THING — Here are four new creations, part of the American Designer series previewed yesterday, that emphasize the woman's shape. First two from left are by Jacques Tiffau: a gold Indian braid with headband and loop at back; a black and white evening dress topped by a goofy pot hat. Third and fourth from left are by Christian Dior: a metallic print chiton with coin drop gold belt and a snakeskin cotton raincoat with red scarf. (AP Wirephoto)

By JEAN SPRAIN WILSON

AP Fashion Editor
NEW YORK (AP) — Fashion is fiscal anytime, as any man knows who pays the bills for his wife's clothes. But more so now.

With talk of gold, silver, the dollar and the pound, the style

commentaries at the American Designer Series sound like an international monetary conference.

Of course, wherever there is a woman there is a discussion of the pound with the usual conclusion that it is never good to have too many. But designers at

Monday's fall collection previewed yesterday, that emphasize the woman's shape.

Some may settle on the bosom and some on the bottom, but the middle must stay little. For this is the season of the cinch. The waistline which was only beginning to ease into fashion six months ago is now the center of the designer's attention. Tiny

belts have become the timid approach to midriff madness. Corsets are bolder.

Still when you are older, you're entitled to thicken, said White House designer Mollie Parnis, in effect, as she introduced some body skimming, slimming princess lines for daytime wear.

With her evening wear Miss Parnis confirmed what the more than 300 fashion writers here had already begun to suspect—that the American garment industry has a corner on the gold market.

Frugal Indian women toss their gold-woven saris into the melting pot when they are ready for something new. The Asian-inspired 14-carat gowns of Miss Parnis and the New York house of Christian Dior would sweeten such a pot considerably.

Silver, too, glittered among the golden glow fashioned the same pretty, fragile way, in the Parnis collection. For women who prefer to bank their fortunes on jewels there were gowns with gem-laden sleeves, dress yokes, and belts.

All designers begin their shows by lamenting the increasing numbers of dollars their dresses sell for, but Leo Narducci proved he was at least thinking thrifty by introducing a clan of pretty misses in pantsuits, suits, and evening gowns made of Scottish tartan plaid.

She Doesn't Think; She Can Only Feel

By ABIGAIL VAN BUREN

DEAR ABBY: My 18-year-old daughter claims she is deeply in love with a 30-year-old man who has been married and divorced FOUR times. He is paying child support to three wives for a total of SIX children.

How he intends to support my daughter is a mystery to me. My daughter is set on marrying him and she refuses to listen to me. Maybe you can get some sense thru her head. I can't.

HER MOTHER

DEAR MOTHER: Even if your daughter were interested in getting some sense thru her head (which she's NOT), it would have a tough time penetrating because a woman in love doesn't THINK—she only FEELS. I would say the odds for a successful marriage with this man are like 1,000 to one. Someone ought to tell your daughter that she doesn't have to marry every man she thinks she's in love with.

DEAR ABBY: I am a "widow" with a living husband. In summer it's golf. My husband plays nine holes every evening after work, skipping dinner with me. I haven't had Sunday dinner with him since we've been married because he golfs all week-end.

There is no talking to him; if I tell him I don't like being alone so much he tells me not to "run" his life. I don't want to "run" it—I just want to be a part of it.

After golfing all day Saturday he is "too tired" to go to a movie. When the golf season ends, he spends his week-ends fishing and hunting. Do you think I am selfish for wanting to spend some time with him on week-ends! I feel so tied up I could scream.

Before I was married I wondered how a woman who loved her husband could look elsewhere for someone to be with. Now I think I know. At times I wish I could have a summer fling with a lover. I'm really not that kind of person, but I just don't get any attention from my husband. What am I to do? Please print my letter with your answer. Maybe he will see it and wake up.

AMSTERDAM, N. Y.

DEAR AMSTERDAM: I'll print your letter, but I'm afraid it will take more than my answer to "wake" up your husband. You don't say how long you've been married, but I would say your marriage is in the "rough." You both need some counseling. If he won't go with you, go alone. You two are living in different worlds.

DEAR ABBY: I don't want a personal reply, but thru your column maybe something can be done about this problem.

I am concerned about cough sirup and aspirin companies sending samples of their products thru the mail.

Don't they realize that some people have drop - thru mail slots in their doors, and that

small children can easily get into these packages!

Today I received a RAZOR BLADE sample in a cardboard envelope that popped open when I picked it up. What good does it do for conscientious mothers to keep poisons and medicines locked up when equally dangerous things are sent unsolicited thru the mails!

Today I am going to buy an outside mailbox, and maybe your readers will join me in writing these sample senders a protest letter. Thank you.

HAYWARD, CAL. CONFIDENTIAL TO H. P. IN PHILADELPHIA: Your letter was very much appreciated, and your daughter's was a treasure. There is an old Jewish "blessing" used to wish another well. It goes something like this, "May your children bring you joy." I know of no finer wish for you. And I know you shall have it. Shalom.

Everybody has a problem. What's yours? For a personal reply write to Abby, Box 69700, Los Angeles, Cal., 90069 and enclose a stamped, self-addressed envelope.

You can keep the shape of those knit polo shirts by putting small round elastic in the neckbands. Measure the child's head and allow two inches to tie a knot. Then cut a small hole in the underside of the double neck, slip the elastic through and tie it. This keeps the shirt from stretching out of shape.

The Warren Court Altered Society

Resignation of Chief Justice Earl Warren of the Supreme Court will bring to an end the service of a man who has been the most controversial members of the high court in many years.

During the 15 years since President Eisenhower appointed the former California governor Chief Justice, there have been a number of controversial landmark decisions handed down by the court. In these years the high tribunal has become known as the "Warren Court" and the decisions, from the school desegregation decree of 1954 to the sweeping decision on housing handed down last week, have formed a basis for restructuring the nation's society.

Under Justice Warren's leadership the court has assumed a liberal posture, particularly in the field of human relations and human rights. It has made sociological factors a part of determining the constitutionality of existing laws. It has taken the position that even the psychological impact an existing condition may have upon the individual has an influence in determining the constitutionality of the law.

During the years Justice Warren has headed the court, it has moved relentlessly into the field of legislating laws by court ruling, often drawing criticism from Congress as well as other segments of the citizenry. It has been an activist court rather than one that has been content to take a conservative course.

Whatever history may say about the leadership of Justice Warren, it will hardly level the charge that the court under his leadership has failed to act upon matters before it. It will not assert that the court has been reluctant to move into new fields or to take unprecedented steps in declaring what the law of the land is.

The Supreme Court, during the decade and a half since Earl Warren was named Chief Justice, has probably done more to alter the course of the

American society than the high court has done in any other comparable period in the nation's history.

DeGaulle's Durability Is Again Demonstrated

The surprising durability of Charles deGaulle was demonstrated again during the week-end when Frenchmen went to the polls to elect members of their National Assembly. It was a sweeping victory for deGaulle followers and a surprising change from recent weeks when the government of the former war hero was all but toppled.

In the years since World War II, Charles de Gaulle has seemed to be the only Frenchman who could bring stability to his country and its government. As he has aged (he's now 77) it seemed that he had finally lost his touch and that his countrymen would oust him as they have so many other leaders in the past 20 years.

But when it came down to the wire, it was clear in the week-end balloting that the French much preferred deGaulle's leadership to that any other segment of the French political structure could offer.

France's economic and other troubles which boiled to the surface in paralyzing strikes and riots last month are far from over. They remain to be solved although the strikes have ended and rioting students have been brought under control.

Again it is Charles deGaulle that the French have called on to heal the wounds in their nation.

Wallace's Role Gaining Weight

By DON MCKEE
Associated Press Writer

George C. Wallace's barnstorming across the South to the cheers of zealous supporters indicates his increasingly significant role in the presidential election.

"We are not running to throw it into the House of Representatives," he told crowds on his Southern fund-raising tour last week. "We are running to win."

But at this stage, even those governors supporting or leaning toward Wallace are not making all-out predictions of victory. Gov. Albert Brewer of Alabama is supporting the third-party candidate and says: "I think he has an excellent chance of winning."

Brewer predicted Wallace would carry Louisiana, Mississippi, Alabama and Georgia "of a certainty." And he said Wallace has an excellent chance of taking Texas, Arkansas, North Carolina, South Carolina, Florida and Virginia.

Even though Brewer is partisan, behind the scenes there were other governors who agreed Wallace might carry from 5 to 10 states or more.

Gov. John Connally of Texas told newsmen at the Southern Governors Conference recently that both major party candidates should "run scared of George Wallace."

Former Georgia Gov. Carl E. Sanders said Wallace would sweep the South unless the

Democratic organizations get busy.

"If" said Sanders, "the state and national party keeps sitting around while he gains momentum, then it is going to be too late."

Both Connally and Sanders alluded to the law-and-order issue which Wallace has hammered in his speeches. This has a strong appeal among voters, Sanders said, and the Democratic candidates ought to talk about it.

Wallace has already won positions on the ballot in more than one-half the states. All indications are that he will be on the ballot in most states by November.

He tells listeners how he made the ballot in California by getting 107,263 voters to register as members of his American Independent party when only 66,000 were needed. He also points to the turnout of thousands for his party's county conventions in Texas.

It might be in his plans to work hard at winning the plurality in the big states like California and Texas. He reminds interviewers that California will have at least four different presidential candidates on the ballot.

The former Alabama governor does not talk about segregation and he repeatedly says he is not a racist. But he speaks out against federal guidelines, including those on school integration, and he is against the open housing law.

Strength For Today

By EARL L. DOUGLASS
THE DAY OF BEAUTIFUL BLOOM
The butterfly bush is one of many shrubs which grows best and blossoms most luxuriantly only if it is cut back each year almost to the roots. The quality of the bloom is dependent upon the rigor of the pruning.

This is hard to understand, and when it happens in human life, it is hard to take. But it often does happen in human life. Poor Abraham Lincoln had his life cut back to the roots many times. He had many qualities to make him great but we feel that the beauty of his life was largely due to his capacity to endure denial, sorrow and pain. Can anyone doubt that much of the beauty of Beethoven's music was due to the terrible handicaps under which he labored? St. Paul had a thorn in his flesh, and God let it remain there that St. Paul might be great among the believers of all ages.

Trouble, sorrow, and pain are always hard to take. They were hard for Jesus to take. He cried out in anguish on the cross, and in Gethsemane he prayed that the cup might pass from him. But his life had to be cut back to the roots that the bloom thereof might be of transcendent beauty.

By JAMES KILPATRICK

Very Gloomy Milestone

Winston Churchill once remarked upon the replacement of the horse by the internal combustion engine. The event, he said, "marked a very gloomy milestone in the progress of mankind."

The observation may be applied emphatically to development of the SST—the supersonic transport airplane. If this project represents progress in any sense, it is progress to the rear; it is a false progress, purchased largely by tax dollars taken from persons who never will fly in the aircraft and will only be irritated by it. It is a particularly arrogant manifestation of man's obsession with hurry-hurry-hurry.

Within the next few weeks, a decision will have to be made in Congress on an appropriation for the SST in the coming fiscal year. The administration has asked \$223 million. At a time of massive Federal deficits, the budgetary crisis alone should demand that the item be deleted.

Yet budgetary considerations are the least of the considerations. The matter involves questions of political principle and public philosophy that never have received sufficient thought. It is high time, while the White House request is actively pending, to give these questions a closer look.

If the armed services could expect some truly useful fallout from research and development on the SST, perhaps the appropriation—and the prospective public nuisance—could be justified. This is not

the case. The SST is a commercial proposition, pure and simple. It is an airliner intended for private use and private profit.

Why should the taxpayers be compelled to finance such a venture? Congressmen Bow of Ohio and MacGregor of Minnesota have asked the question repeatedly. They have never received a sensible answer. Of the roughly \$700 million already plowed into the SST, private capital has provided barely \$50 million. In theory—in very doubtful and speculative theory—the taxpayers may recover their investment some time in the next century out of royalties on sales of the SST. The prospect is pie in the sky. Through the fog of hocus-pocus, the plump, impassive face of state socialism is clearly to be seen.

But it is said, by proponents of the SST, that the United States must plunge ahead or risk the loss of world aircraft markets to the Anglo-French "Concorde" or to the Soviet Union's TU-144. The argument is getting weaker all the time. Recent reports from London and Paris indicate that the Concorde is in deep trouble; costs are skyrocketing, orders are few, and the Anglo-French plane—a small one by today's standards—is far behind schedule. The Soviet version offers no significant competition.

Philosophical objections are more compelling still. The SST would carry 280 passengers at a cruising speed of 1,800 miles per hour. Revenue projections are based upon a load factor of 58 per cent, or about 162 passengers. That is all we are talking about. The object is to get these particular hurry-hurry travelers from, say, Chicago to London in three hours instead of seven. Big deal.

The SST would fly at 64,000 feet. At that altitude, it would create a sonic boom path 64 miles wide. What is contemplated, in brief, is that perhaps ten million persons on earth would be subjected to the irritation and property damage caused by sonic booms, in order to serve the convenience of these few humans up above.

Other Editors Saying Vigilante Juries

(Christian Science Monitor)
"They caught him with the gun in his hand, what more do they want?"

This remark, overheard in a neighborhood store, points up an all too widespread impatience with the formal legal processes for determining the guilt or innocence of suspects in highly publicized crimes. The specific object of the above remark was Sirhan Bishara Sirhan, accused assassin of Sen. Robert F. Kennedy.

There have been similar but more damaging public statements made assuming Sirhan's guilt. These can, on the one hand, interfere with giving the accused a fair trial. On the other, they can undermine confidence in our court system which is vitally needed at this moment of national change and unrest.

The first such statement, by Los Angeles Mayor Yorty, was carried by major TV networks only hours after the tragic event. The Mayor crudely spoke out about the suspect without regard for the likelihood he might prejudice future jurors. The presence of

mind of newscasters, NBC's Edwin Newman for one, in countering the Mayor's remarks was commendable.

Another unfortunate statement, also reaching millions of TV viewers, was aired on Johnny Carson's "Tonight" show. Novelist Truman Capote, no authority on crime despite the wide sales of his book "In Cold Blood," led his hosts through a labyrinth of speculation about the assassinations of President Kennedy, the Rev. Dr. Martin Luther King Jr., and Senator Kennedy. He said the acts may have been intended to disrupt the nation—the so-called "Manchurian Candidate" theory, not original with him. He said flatly that Sirhan was the slayer of Senator Kennedy, but that James Earl Ray was not the assassin of Dr. King.

The entire discussion was utterly in bad taste. The New York Times TV critic was just in his charge: "If the country disapproves of individuals physically taking the law into their own hands, then it can no less frown on individuals intellectually doing the same."

Better Results From Employees

By ELMER ROESSNER

Hard work in today's society seems to be becoming obsolete. It is not only considered old-fashioned and anti-labor, but almost un-American.

Yet, getting more results from employees can be one of the most useful tools for shoring up business against the present erosion of rising taxes, labor shortages, inflation and tighter, more costly credit. The apparent incongruity is only in the use of words. Getting people to work harder or longer is a lost cause. But getting more results from the same amount of work offers bright prospects.

The trick is to evaluate the kind of work each employee or department does and see if it is worth the time and money spent.

Example A: An order taker spends \$15,000 a year to control quality of widget production. This prevents rejection of \$5,000 worth of widgets.

Solution: Phase out the quality control operation and throw away the rejected widgets.

Result: Save \$10,000 a year.

This approach is similar to the famed McNamara cost-effectiveness theory: How much does it cost? What does it achieve? Is the achievement worth the cost?

If not, find another solution or forget the whole thing.

But care is necessary. If there is the slightest hint that more work is involved, not just different work, then alackadaisical staff will start heading for the exits and shop stewards will begin quoting from the fine print in the union contract.

Time Is Money

Result: Five and a half additional productive hours from the order taker.

Example B: A company spends \$15,000 a year to control quality of widget production. This prevents rejection of \$5,000 worth of widgets.

Denver Lady Balked

By ROWLAND EVANS and ROBERT NOVAK

WASHINGTON—Democratic National Chairman John Bailey's scheme to quietly steamroller through White House - dictated arrangements for the National Convention would have worked perfectly had it not been for a stubborn, tough-minded lady from Denver.

Jean Graham, Democratic National Committeewoman from Colorado, was the only member of the National Convention Arrangements Committee, which met in closed-door session here last week, to disdain the role of rubberstamp. She couldn't alter convention arrangements rigged in Vice President Humphrey's favor but did force Bailey to open the door a sliver for a personal speaking appearance at the National Convention by Sen. Eugene J. McCarthy.

Although Arrangements Committee members came to Washington from all over the country, they were merely expected to rubberstamp the keynote and other convention officers selected by the White House. Indeed, when Bailey read the selections at last Tuesday's meeting, it was news to Arrangements Committee members who, presumably, were supposed to be consulted ahead of time.

The committee members were willing to give quick approval—except for Mrs. Graham. She asked embarrassing questions: Had these selections been cleared with the McCarthy campaign? Had any of them endorsed a candidate for President? Did Rep. Hale Boggs of Louisiana, the selection for chairman of the Platform Committee, have a rigid position on Vietnam?

In fact, the names had not been cleared with McCarthy. Both Boggs and Sen. Daniel Inouye of Hawaii (selected as keynote speaker) are avowed Humphrey supporters and Boggs is a rigid war hawk. Nevertheless, Bailey replied soothingly, implying that he had clearance from all Presidential candidates and shrugging his shoulders at her other questions.

That didn't satisfy Mrs. Graham. Although uncommitted herself, she wanted to know whether McCarthy would address the convention as he has requested. Col. Jacob Arvey, the veteran National Committeeman from Illinois and a Humphrey man, snapped that the National Convention couldn't be turned into a town meeting.

But Mrs. Graham, backed by State Chairman Robert Burkhardt of New Jersey, persevered. Finally, Bailey conceded grudgingly that McCarthy might be permitted to take the convention floor on a point of order.

Baiting Ray Bliss
Although the Republican Governors' conference in Tulsa could not agree on either a candidate or a platform, they were monolithic in their resentment over the appointment of Sen. Everett Dirksen of Illinois as Platform Committee chairman.

Republican National Chairman Ray Bliss, who appointed Dirksen over the protests of the Governors, got the full fury of gubernatorial outrage in a closed-door session with them in Tulsa.

Gov. Norbett (Nobby) Tiemann of Nebraska opened it up by criticizing Bliss's refusal to name Gov. Raymond and

First Place For Pitt FFA Club

WITH WINNER'S BANNER Ferguson the team captain and junior leader, and Nobles, senior FFA member.

The Stokes-Pactolus Future Farmers of America brought back a first-place award from their annual summer camp which ended Saturday.

Eighteen boys from the Stokes-Pactolus FFA placed first over 21 other schools for a total of 305 points out of a possible 350. The boys were judged on sporting and other camping activities.

Attending the camp were Hoyt Haddock, Dan Davenport, Bill Davenport, Charles Wynn, Jake Gray, Gregg Smith, Benjie Harris, Lester House, Keith Congleton, Billy Weatherington, Sam Ferguson, David Nobles, Eddie Hudson, Teen Rawls, Richard Nelson, Ronnie Briley, Ward Parker, and John Cherry. The advisor for the Stokes group was D.M. Nobles. This

was the 22nd year that he has served as advisor, and is the second consecutive year, the Stokes group has won first place.

The camp began on June 17 and lasted through June 22.

Brought Home A 20-Foot Whale

FORT LAUDERDALE, Fla. (AP) — Joe Flanigan lashed a 20-foot, one-ton whale to his 50-foot sailing ketch. He said it had been injured, probably by sharks. The whale was dead when Flanigan reached the dock. A Fort Lauderdale tourist attraction, Ocean World, said the carcass would be used for fish food.

McCarthy Party 'Concerns' HHH

By HARRY KELLY Associated Press Writer WASHINGTON (AP) — Vice President Hubert H. Humphrey is said by many supporters to be deeply concerned that Sen.

Eugene J. McCarthy may break away from the Democratic ranks and lead a third party this fall. The speculation has been fed by McCarthy's refusal to say he

will support the vice president if his former political mentor wins the nomination—plus increasing signs that many of McCarthy's backers are not amenable to a reconciliation.

There was talk of a possible third party at the bruising Democratic Farmer Labor party convention in St. Paul, where the forces of the two Minnesota presidential contenders met head-on in the party convention, and Humphrey won.

However, McCarthy has denied any intention to lead his supporters out of the regular party. He told a news conference: "I have stressed from the beginning that I had in mind to work this out within the Democratic party and I didn't intend to lead a third party movement."

However, Geri Joseph, the Democratic national committeewoman for Minnesota, said McCarthy candidates for national convention seats in her area had to swear they would not support Humphrey under any circumstances.

Key Humphrey people acknowledged their concern but said it is still too early to make

any forecast, particularly in a year that has betrayed political soothsayers.

McCarthy's recent strong showing in the New York primary has heartened his supporters. However Humphrey strategists estimate privately that their man has enough delegate votes now to win the Democratic nomination on the issue of Vietnam.

McCarthy has said that he sees little choice between Humphrey and Richard M. Nixon, expected to win the Republican nomination, on the issue of Vietnam. One Humphrey backer said, "I think a great deal will depend on who the Republicans nominate. If it's Richard Nixon I believe most of the Democratic liberals who see themselves as pretty doveish will return to the fold." But then he shrugged. Another Humphrey source sees a good possibility of a rerun of the Democratic troubles in 1948.

That year southern Democrats, angered by the party's civil rights platform, broke away and ran Strom Thurmond as their presidential candidate under the Dixiecrat banner.

This year former Alabama Gov. George Wallace is running under a similar states rights banner.

Also in 1948, the Progressive party was formed on the left side of the political spectrum with former vice president Henry Wallace as the candidate. Despite the splintering in the Democratic party that year Harry S. Truman was returned to the White House.

Rhodes of Ohio, always outspoken, snapped that it was outrageous and disastrous for the Republicans to have a 72-year-old man writing their platform. Another Governor suggested that Bliss have done with it and nominate Dirksen for President as well.

Summing up, Gov. Nelson Rockefeller told Bliss that the Governors, to a man, were deeply disappointed to be largely excluded from platform-writing. No Governor disputed him.

A footnote: Meeting the next day, the Governors turned down Shafer's proposals that they recommend to Dirksen's committee sweeping social welfare legislation and tough gun controls.

Senate Rejects Cutback For 'Sentinel' Program

By ROBERT T. GRAY Associated Press Writer WASHINGTON (AP) — The Sentinel Antibalistic Missile program—so-called "thin" line

of defense against a possible Red Chinese attack—has survived a major Senate challenge.

The Senate Monday rejected 52-34 a move to delay for a year authorization of \$227.3 million to acquire sites and start work on the Sentinel program, expected to cost \$5 billion to \$7 billion over the next several years.

A move to strike it altogether from a \$1.8 billion military construction bill was turned back 72-12.

The over-all construction bill was before the Senate for a vote today.

Although now keyed to the potential Red Chinese threat, the Sentinel system could become a vastly more expensive program against possible Soviet attack.

Senate Majority Leader Mike Mansfield, urging delay, said

the ultimate goal was a \$50 billion system "that will be obsolete before it is ever completed."

But Minority Leader Everett Dirksen, conceding there were some questions about the program said "Whenever there is any doubt . . . I'm going along with the security of this country."

While the ABM survived, several senators who supported it said they expected other areas of defense spending would be cut to meet the recently enacted congressional mandate for a \$6-billion decrease in federal spending.

The cut, coupled with a 10 percent income surtax, is awaiting the President's signature.

Some members estimated the Defense Department would have to absorb up to half the \$6 billion on programs not related to Vietnam.

The ABM installations, expected to be operational by the mid-1970s, in various areas of the country would combine advanced radar with Spartan missiles that would be designed to intercept enemy missiles.

Wallacites Plan NC Convention

CHAPEL HILL (AP) — Robert Reid Stubbs, state campaign manager for third-party presidential candidate George Wallace said Monday night Wallace's state party convention will be held in Raleigh within the next 30 days.

Stubbs, a Charlotte restaurant owner, said in a television interview the delegates and electors have already been selected. He added each county in the state has its own working committee and delegates.

Stubbs appeared on "North Carolina News Conference" on the University of North Carolina's educational television network.

He predicted Wallace will carry North Carolina with 55 percent of the vote in the November general election.

Stubbs said the Democratic and Republican parties in North Carolina "are shaken by the threat posed to them by Gov. Wallace and are trying desperately to get the electoral system eliminated."

He explained the electoral system does not require a majority but a simple plurality of the popular vote.

WASHINGTON (AP) — Sens. B. Everett Jordan and Sam Ervin Jr., both D-N.C., voted with the majority Monday as the Senate defeated 52-34 an amendment to delete \$227.3 million for construction of an anti-ballistic missile system from a military authorization bill.

Big Section Of Store Collapsed

HENDERSONVILLE, N. C. (AP) — A 4,000 square foot section of Rose's Department Store collapsed Monday at Hendersonville, reportedly because of extremely heavy rains.

Officials said some 400-500 persons were in the store at the time of the accident, but no injuries were reported.

An estimated two inches of rain fell in the 60 to 90 minutes preceding the cave-in.

Four Tar Heels Killed In Action

WASHINGTON (AP) — The Defense Department Monday identified four North Carolina servicemen among 37 killed in action in the Vietnam war.

The North Carolinians were listed as:

Marine Cpl. Clarence V. Mobley, of Winnabow; Army Sgt. 1. C. Charles D. Boyer of Fayetteville; S. SGT. Jerry L. Addis, of Dallas, and Sgt. Stephen A. Walker of Charlotte.

Rep. Jones To Press For Anti-Demonstration Bill

WASHINGTON, D.C. — Congressman Walter B. Jones, D-N.C., First District, said Monday he is renewing his efforts to push through legislation aimed specifically at stopping the use of government property to accommodate demonstrators in the District of Columbia.

Jones said he will "make every effort to encourage new

interest in the resolution we put in last month."

He referred to House Resolution 1152 which he introduced May 1. Still awaiting action by Congress, the Jones resolution stipulates that "no officer or employee of the United States or of the District of Columbia shall authorize or otherwise permit the use of any real property of the U.S. or the District of Columbia in connection with the housing or camping of persons participating in organized marches, sit-ins or other demonstrations in the District of Columbia."

Even with Sunday's expiration of the permit issued by the Department of Interior to the Poor Peoples Campaign to build Resurrection City on public areas near the Washington Monument and Lincoln Memorial, Jones said enactment of his resolution is needed.

"At a time when professional agitators, demagogues and paid demonstrators seem a constant threat to normal pursuits of citizens, workers, officials and visitors in this city, positive action by the Congress should be taken promptly, especially when such action is not taken by the agency involved."

March, Demand Summer Jobs

WINSTON-SALEM (AP) — Some 75 Negro Winston-Salem high school pupils, looking for summer employment, marched in the city's downtown area Monday, demanding jobs.

The group, headed by Jimmie Fielder, head of Progress for Racial Equality marched first to the Employment Security Commission, then to the Experiment in Self-reliance offices and finally to City Hall where they met with Mayor M. C. Benton.

Mark H. Freeman, director of the Experiment, said he will meet with the students and act as a referral agent to help find jobs for them.

Highway Safety Sunday Planned

MONTREAT, N. C. (AP) — June 30 has been proclaimed Highway Safety Sunday in churches of all denominations throughout North Carolina.

In making the announcement Monday, evangelist Billy Graham, chairman of Gov. Dan Moore's Commission of Religious Concern for Traffic Safety in North Carolina, said the churches are being asked to involve themselves on highway safety as a moral concern.

Graham said June 30 was chosen as Highway Safety Sunday because the "July 4 weekend is usually one of the bloodiest weekends of the year."

Six Minutes Decided The Victor

VICTOR AND VANQUISHED — Joe Frazier, right, eyes Manuel Ramos last night after he had defeated Ramos to retain his five-state heavyweight crown in Madison Square Garden. (AP Wirephoto)

Frazier Takes TKO Over Ramos; 2 Fierce Rounds

NEW YORK (AP) — Joe Frazier then drop him twice in the second round.

Referee Art Mercante stopped the fight after the bell had ended the second round. The 6-foot-3 Mexican had absorbed a savage, relentless body and head pounding and had been down for counts of nine and seven. The second count went on after the round had ended, according to the rules.

Under New York rules it was scored as a second-round technical knockout.

Ramos, the 4-1 underdog, said later in his dressing room that he had taken enough.

"I knew Frazier could punch but I didn't know he could punch so fast," said Ramos, whose eyes were puffed and discolored. "I thought it was impossible for me to go down."

"I knew my only chance was to punch with him. I know I hurt him in the first round."

That he did. He thrilled the crowd of 10,785, which paid \$121,302 for the televised fight, by gamely trading punches with the ever-pressing Frazier and then by wobbling him with a solid right to the head.

"That's the first time I've ever been hit that hard," said Frazier, who has been floored three times in his career. "He can punch, I'll tell you that. 'I was really shook, but when you're in condition you can shake it off. Retaliate—that's the best defense for the shot I took."

"I won't fight for a full year unless I can get Cassius Clay or Jimmy Ellis," said Frazier, recognized as world champion in New York, Pennsylvania, Illinois, Massachusetts and Maine. Ellis, of Louisville, Ky., is recognized as world champion by the World Boxing Association. Clay, still appealing his conviction for avoiding military induction, is considered champion in some parts of the world.

Planters And Pepsi Rack Up Victories In Teener League

Planters' Bank ace Jimmy Paige struck out 16 batters to lead his team to a 6-0 shut-out of State Bank in the Teener League nightcap last night. In the opener, Pepsi-Cola edged College View 3-1.

Planters' 9-1 stretches its loop lead with the win to 2½ games over second place Home Builders, 6-3. State Bank, 5-5, is clinging to a half game possession of third over Carolina Dairy, 4-5. Pepsi follows at 4-6, and College View fills out the standings at 1-9.

Backing Paige's shut-out, Planters' opened the scoring as John Conway walked and stole to third. Russ Smith then walked, and while advancing on pitches, Conway scored.

In the second, Gary Harris reached on a fielder's choice and advanced to second as Conway got to first on an error. Paige then doubled to score both runners.

Planters' added another run in the fourth as Harris singled to first and reached second on a wild pitch. Smith then walked, and Harris scored as an error put Paige on base.

In the fifth, Planter's scored the last run. Jeff Cargile singled and advanced on a wild pitch to score.

Pepsi picked the early lead in the opener as Preston Clark singled in the first and advanced to second on a wild pitch. James Duckett followed with a single, and on a steal and a series of wild pitches, he and Clark scored.

College View picked up its sole run in the second. Gene Vincent reached on an error and advanced to third on an error. Buddy Smith later singled to drive Vincent in to score.

Pepsi closed out the scoring in the bottom of the fourth as Wayne Eubanks scored on a series of errors that took him around the bases.

Deciding Fate Of Turbine Engine

INDIANAPOLIS, Ind. (AP) — Directors of the U.S. Auto Club met in closed session today to decide the racing fate of the turbine engine.

The special meeting was called to consider a recommendation by the USAC Rules Committee shortly after the Indianapolis 500-mile race May 30 to ban the turbine engine in all USAC racing with Indianapolis-type cars.

USAC directors can accept or reject the recommendation by the rules committee, or make their own recommendation.

The rules committee recommended only piston-engine cars be used in all USAC races, effective Jan. 1, 1969.

This would exclude the controversial turbine-powered cars of STP Corp. President Andy Granatelli.

The first STP turbocar came within seven miles of winning the 500 in 1967. Another turbine, modified to meet reduced engine limits set by the USAC, was leading the 1968 race when sidelined by mechanical failure with less than 20 miles left.

Although the turbines never have won a USAC race, owners and drivers of conventional piston-engine cars maintain the turbines are no competitive match.

Lonborg Under Orders To Rest Pitching Arm

BOSTON (AP) — Jim Lonborg, the Boston Red Sox' pitching ace in 1967, was under doctor's orders today to give his valuable right arm a rest.

Lonborg was directed to rest for five days by Dr. Thomas Tierney, the team physician, Monday after negatives of the pitcher's ailing right shoulder were negative.

Lonborg's condition was described as "mild tendonitis." The 1967 Cy Young Award winner threw five pitches, hitting two batters, in a start at Chicago Sunday and then flew back to Boston.

After winning two regular seasons games and adding two victories in the World Series, Lonborg suffered a serious knee injury in a skiing accident last Dec. 24.

He returned to uniform after a long period of recuperation, but has been plagued by shoulder trouble.

Two Grand-Slam Homers End Jim Northrup's Slump

By DICK COUCH
Associated Press Sports Writer

Detroit's Jim Northrup has swapped his needle for a cannon . . . and turned the Indian reservation into a private artillery range.

Northrup, an unsuccessful bench jockey during Sunday's doubleheader split with Cleveland, exploded from a long slump and tied a major league record Monday night by hitting two grand slam homers as the American League leading Tigers shelled the second place Indians 14-3.

Elsewhere, Reggie Jackson's three-run homer and Ed Sprague's brilliant relief pitching carried Oakland past California 3-2 and Minnesota nipped Chicago 1-0 behind Dean Chance in a rain-curtailed game.

In the National League, Houston trimmed the Chicago Cubs 3-1 and Cincinnati shaded the New York Mets 6-5 in 11 innings.

Northrup spent the first game of Sunday's twin bill needling Luis Tiant from the dugout . . . and drawing an 0-for-4 blank as the Cleveland right hander tamed the Tigers 3-0.

"I haven't been hitting a lick, and I have to do something," he explained after another futile at-bat in the nightcap sent his batting average sagging to .225.

The Detroit outfielder came up in the first inning Monday night with the bases jammed . . . and rookie Mike Paul struck him out. Northrup fanned again in the third before getting another bases-loaded chance with knuckleballer Eddie Fisher pitching for the Indians.

He drilled Fisher's first offering over the right field fence, then unloaded another first-pitch grand slam off southpaw Hill Rohr in the sixth, tying the

two-in-one-game mark previously shared by six others. Of the six, only Baltimore's Jim Gentile, in 1961, had hit a pair in successive innings.

When Northrup came up again in the eighth, reliever Willie Smith walked him on four pitches.

"That's a heckuva way to come out of a slump, isn't it," cracked Northrup, who has three bases-loaded blasts among his 10 homers this year and six career grand slams. "I haven't been hitting for two weeks."

Northrup's eight RBI and Jim Price's first major league homer helped Denny McLain breeze to his 13th victory in 15 decisions and sent the Tigers 7½ lengths ahead of the AL pack.

Jackson's sixth inning homer erased a 2-0 California lead and John "Blue Moon" Odom took a four-hitter into the ninth before two walks forced his exit. Sprague, a side-wheeling rookie, took over and walked Leo Rodriguez on four pitches, filling

the bases with nobody out. Sprague then got Bubba Morton to tap into a force at the plate before Bob Rodgers grounded into a game-ending double play.

California's Rick Clark held the A's hitless until the sixth, when Rick Monday walked, Sal Bando singled and Jackson smashed his eighth homer over the center field fence. The loss was Clark's eighth without a victory.

John Roseboro's fourth-inning single off Bob Priddy scored Bob Allison, who had singled and stolen second, with the only run Chance needed in the Twins-White Sox squaker at Milwaukee. Chance, 7-8, allowed three hits before rain halted play at the end of the fifth.

Pepsi Pads Loop Lead With Big 21-5 Romp

Pepsi-Cola padded its Tar Heel League championship yesterday with a 21-5 romp over Exchange. Pepsi won the crown with a 2-1 defeat of Security Life last Wednesday.

Exchange started the scoring with two runs in the bottom of the first. Randy Alford and Robert Brinkley singled with Alford scoring later. Billy Wilson singled and was scored on a series of errors advancing Richie Puryear to third.

Pepsi came back in the top of the second to take the lead for good with five runs. Danny Norris led off with a single, followed by Waighty Scales who reached second with a single and a wild pitch. Norris scored on Ricky Avery's sacrifice fly and David Davis then singled and advanced on a wild pitch, scoring Scales. Jerry Griffin then reached on a fielder's choice and advanced on a stolen base and a Donald Cannon double, scoring Davis. David Clifton then walked, and with Griffin and Cannon scoring, reached third on stolen bases.

In the third, Norris doubled and scored on a pair of errors. William Carraway reached first, and Davis singled, advancing on an error that scored Carraway. Griffin then singled and, on errors and a wild pitch, scored Davis and himself.

Exchange scored another run in its half of the inning. Billy Wilson walked and scored on two fielder's choices by Richie Puryear and Mike Belton and an error.

Pepsi repeated a four-run performance in the fourth. Clifton singled and advanced to third on a series of errors. Mark Conway singled, scoring Clifton. A Norris single then scored Conway. Scales singled and stole second, scoring from there with Hal Krendicks, who also reached on a single, on a single and a pair of errors by Avery. Donald Cannon started the

Pirates Sign Virginia Grider

Charles Michael (Mike) Brown of Virginia Beach, Virginia has signed a football grant in aid with East Carolina University. He is the son of Mr. and Mrs. Adrian E. Brown, 445 Bernice Place, Virginia Beach.

He is 5-9½, 185 pounds and played fullback and linebacker for Coach Charles Caldwell at Floyd E. Kellam High School in Virginia Beach where he also participated in wrestling and track.

"Mike is a fine young man with a superior attitude, and he will probably be used as a fullback or as a linebacker," said Henry Vansant, assistant coach at East Carolina, who recruited Brown.

Sets 400-Meter Freestyle Mark

HAYWARD, Calif. (AP) — Mark Spitz of the Santa Clara Swim Club set a world mark of 4:07.7 in the 400-meter freestyle it was announced Monday, in beating former Olympian Don Schollander by three lengths Sunday.

Spitz' time bettered the 4:08.2 by Greg Charleton of Los Angeles earlier in 1968.

The meet was the 16th annual San Leandro Relays at the Chabot College pool.

Hurdler Entering Olympic Trials

LOS ANGELES (AP) — Hurdle champion Earl McCullough, co-holder of the world record, said Monday he plans to compete in the U.S. men's Olympic track and field trials this weekend.

McCullough also starred for the University of Southern California in football and was the No. 1 draft choice of the Detroit Lions of the National Football League.

McCullough has equaled the world record of 13.2 seconds for the 110-meter high hurdles and won the event both in the NCAA and AAU championships this year.

Optimists Trim JCs; Earn Playoff Berth

The Optimists gained sole possession of fifth place in the North State League yesterday with a 14-3 victory over Jaycees. The win places Optimist 5-10 in the playoff berth with the fourth place team, R. C. Cola, 6-8.

Optimist began its scoring in the top of the first. Billy Best singled, Bill Vinson reached on an error, and Sim Weaver walked. Best then scored on a series of wild pitches.

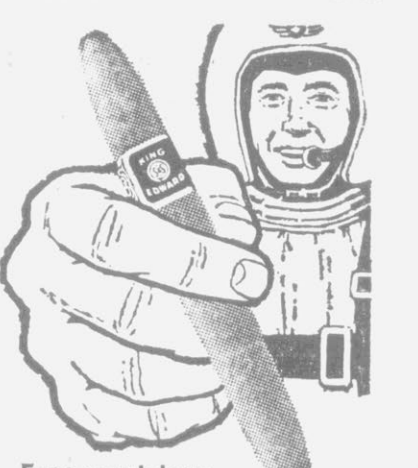

Tony Skinner led off in the Optimists' biggest inning, the six-run third, with a walk. Bill Vinson got to first with a fielder's choice, and Weaver advanced Vinson with a walk. Sam Dudley reached on an error, scoring Vinson, Weaver and Skinner. After B. G. Clark then singled, Cliff Allen reached on an error and stole second with Dudley and Clark scoring. Philip Tetterton blasted a double, advancing to third on a wild pitch, and Allen brought in the sixth run.

In the top of the fifth, Allen started more Optimist action with a walk. Tetterton reached on an error, and Best on a fielder's choice. Craig Simpson the hit a sacrifice fly, scoring Allen. Vinson walked, and Weaver singled to score Tetterton. Best, and Vinson. Cam Dudley then doubled to advance Weaver to third, Weaver scoring on Clark's walk.

Jaycees did some scoring of their own in the bottom of the inning, picking up three runs. Kyle Price reached first on a fielder's choice, and advanced to second on wild pitch. Gene Ed. Best then scored on a sacrifice. Curt Creech and Chris Garrett walked, loading the bases. Hathaway and Creech scored on Dave Mathias follow-

PTI Library Is Awarded Grant

FEDERAL FUNDS — Mrs. Jo Ann Leith, Pitt Tech librarian receives the check from PTI president, W. E. Fulford, Jr., in payment of a Federal grant of \$5,727. (Pitt Technical Institute Photo)

For the second year in succession, the library at Pitt Technical Institute has been awarded a federal grant from the Office of Education in Washington. This year a grant in the amount of \$5,727 has been presented to the library in compliance with Title II-A of the Higher Education Act of 1965. The funds will be used on a matching basis with State funds for the acquisition of library materials including books, periodicals, documents, magnetic tapes, phonograph records, and audio visual materials. To be eligible for this grant, officials at Pitt Tech were required to furnish detailed data on enrollment, budget, library holdings, and the like to justify a need for additional library resources. This year a supplemental grant of \$727.00 was given in addition to a \$5,000.00 basic grant because of special conditions that the institute was able to meet. In making the announcement of the receipt of the funds PTI President William E. Fulford said, "The library is the heart of an educational program. With these funds, we hope to add additional volumes to our library that will further supplement reference materials for our present curriculum. "No educational institution is any better than the educational tools available to complete a task. Our present library contains approximately 6,000 volumes. With this federal grant, coupled with state funds we hope to acquire an additional 5,000 volumes by the end of the next fiscal year."

Optimistic Note At Leaf Meeting

WHITE SULPHUR SPRINGS, W. Va. (AP) — The Leaf Tobacco Exporters Association was to elect officers today at a joint convention with the Tobacco Association of the United States. At the convention opening Monday, the delegates heard Sen. Sam J. Ervin Jr., D-N.C., question the legality of the United Nations and the United States' embargo on the white minority government of Rhodesia. Ervin said the United Nations' call for strictly enforced sanctions against the government of

Rhodesia Prime Minister Ian Smith violates the organization's charter, which prohibits it from interfering with the internal affairs of individual countries. He questioned the legality of

Duncan Also To Get Pay Raise

East Carolina University vice-president and business manager F. D. Duncan was among 92 officials of state agencies to receive a pay hike with approval from the North Carolina Advisory Budget Commission last week.

The announcement of the pay raises was made Saturday in Raleigh. Duncan's raise was in addition to a pay hike for ECU President Dr. Leo W. Jenkins.

Duncan received a \$1,000 per year increase, from \$16,750 to \$17,750 annually.

Dr. Jenkins' pay hike totaled \$5,000 annually, boosting his salary from \$23,000 per year to \$28,000.

Gov. Dan Moore said he recommended the raises so that state salaries could be competitive with those of private industry and other government offices.

Half-Fare Plane Ride For Youths

MONTREAL (UPI)—Air Canada offers American students and youths, from 12 to 21, half-fare travel throughout the year on all of its routes in Canada and the United States. the United States' embargo ordered against Rhodesia by President Johnson on the grounds that the constitution reserves to Congress the power to regulate foreign commerce.

The Rhodesian embargo "illustrates a new one of the distressing tendencies of our life today," Ervin said. "A lot of people want harmony so badly they are willing to use force to make folks harmonize with them."

The Senator's remarks on Rhodesia were made extemporaneously in response to what he said were numerous questions submitted to him.

In his prepared speech, Ervin called the free enterprise system in the United States "the world's best" and cautioned Americans against taking it for granted.

Ervin said the system is threatened by confiscatory tax

laws, demands for excessive governmental regulations and "far too many disbursements being made under employment security, poverty and welfare laws to drones who are simply too lazy to work and who look to the taxpayers for bread and circuses."

An optimistic outlook for the tobacco industry because of rising cigarette sales and tobacco exports was predicted by outgoing TAUC President Tom R. Towers of Richmond, Va.

But Towers warned of "trouble areas and problems" such as "smoking-and-health crusaders" and the protectionist movement in Congress.

J. Frank Bryant, Booneville, N.C., farmer and chairman of the 36-mao industry-wide Flue Cured Tobacco Marketing Committee, joined Towers in expressing optimism that this year will see more orderly marketing because of changes ordered by the committee.

The TAUC elected James Todd, vice president of Austin-Carolina Co. Inc. of Winston, N. C., to succeed Towers as president.

Other officers elected Monday were Stuart G. Christian of Danville, Va., first vice president; A. W. Peters of Wilson, N. C., second vice president; and Howard Cone of Richmond, third vice president.

Named to the board of governors were Christian, Cone, John M. M. Gregory of Wilson, N. C., Laurence Higgins of Richmond, H. M. Walden of Richmond and P. D. Jones of Oxford, N. C.

Chapter Painted 2 Baseball Parks

The local East Carolina Chapter of Painting and Decorating Contractors of America painted two little league baseball parks here for their 1968 project for National Painting and Decorating Week.

The painting was completed on Friday. The job required thirty gallons of paint and sixty man-hours of labor.

The project was selected, according to Kenneth Pittman of A. B. Whitley, Inc., because the chapter felt that "any contribution toward this fine character building organization would be greatly appreciated and we would be assisting in the betterment of our youth."

The East Carolina Chapter of Painting and Decorating Contractors consists of A. B. Whitley, Inc., Brewer Paint and Wallpaper Co., Bridger Paint and Wallpaper, G. T. Brown Paint Co., W. W. Allgood Paint and Paper Co., and Hubert Allen Paint and Wallpaper Co.

Today In Washington

WASHINGTON (AP) — The FBI says serious crime in the nation's cities rose 17 per cent the first three months of this year over the same period in 1967.

Robbery—up 24 per cent—led the increases listed in the FBI's Uniform Crime Reports Monday. Murder was up 16 per cent, forcible rape 19, aggravated assault 13, burglary 15, auto theft 17 and larceny 19.

The reports showed a serious crime increase in the 1968 period of 17 per cent in cities over 100,000 population, 16 per cent in suburban areas and 10 per cent in rural areas.

WASHINGTON (AP) — President Johnson's economic advisers say the new income tax increase will ease inflation and balance-of-payments pressures but the budget deficit this fiscal year will still be about \$25 billion.

The deficit, nearly \$5 billion higher than the \$19.8 billion anticipated last January, was estimated Monday by Arthur M. Okun, chairman of the Council of Economic Advisers.

He made the estimate after a meeting with President Johnson, Treasury Secretary Henry H. Fowler and William Mc-

Chesney Martin Jr., chairman of the Federal Reserve Board.

TACOMA, Wash. (AP) — Four hours of fishing were costly for Donald Whitwell. Hoodlums slashed four tires on his station wagon. New ones and towing came to \$200. When he got home he found his \$150 outboard motor stolen. Meantime, his six trout spoiled.

Baltimore Police Want Horses

BALTIMORE, Md. (AP) — The Baltimore Police Department has a shortage of horses. The department, which has 13 horses, has asked citizens to donate American saddle-bred geldings up to 14 years old for active duty. It would be determined if the horses could be trained for police work in a 30-day trial.

University Planning Add 300 New Parking Spaces

East Carolina University is making arrangements to provide at least 300 more parking places by the time the new academic year begins in September.

Vice President and Business Manager F. D. Duncan said a new lot will be opened south of Tenth Street and just east of College Hill Drive. That one, he said, will provide about 225 new spaces.

Another lot will be located on the sites of Old Austin Building and Wilson Dormitory, original

Once you take a really close look at this '68 Impala Custom Coupe, chances are you won't care what other people's 1969's are going to look like. But we'll tell you anyway.

This particular model—with its formal "notchback" roof line—is the most popular one we build. Which means it's by far the most popular '68 anybody builds. Which means (and this is an open secret around Detroit these days) some other cars are going to look a lot like it in '69.

In fact, you'll probably see quite a few Chevrolet niceties on other people's "new" models. Things like disappearing windshield wipers and the protective vinyl insert that runs along the side molding of this year's Impala.

Frankly, we're kind of used to being borrowed from this way by now. Whether it's styling, riding comfort or just plain painstaking workmanship, we know that putting you first keeps us first. And we can't blame other carmakers for wanting to catch up.

But meantime the thing for you to do is drop down and have a talk with your Chevrolet dealer now. Great as our styling looks on this '68 Impala, we can't promise it's going to look so good on a '69 something else.

Happening now at your Chevrolet dealer's: a tremendous explosion of extra buying power. Only the leader could make it happen.

You've never seen savings like this on '68 Chevrolets and Chevilles. Save on popular V8 engines, automatic transmissions, whitewall tires—and more. Just take a look at these five bonus savings plans. Then see your Chevrolet dealer.

Bonus Savings Plan 1 Any Chevrolet or Chevillon with 300-hp Turbo-Fire V8, Powerglide and whitewalls.

Bonus Savings Plan 2 Any Chevrolet or Chevillon with 250-hp Turbo-Fire V8, Powerglide and whitewalls.

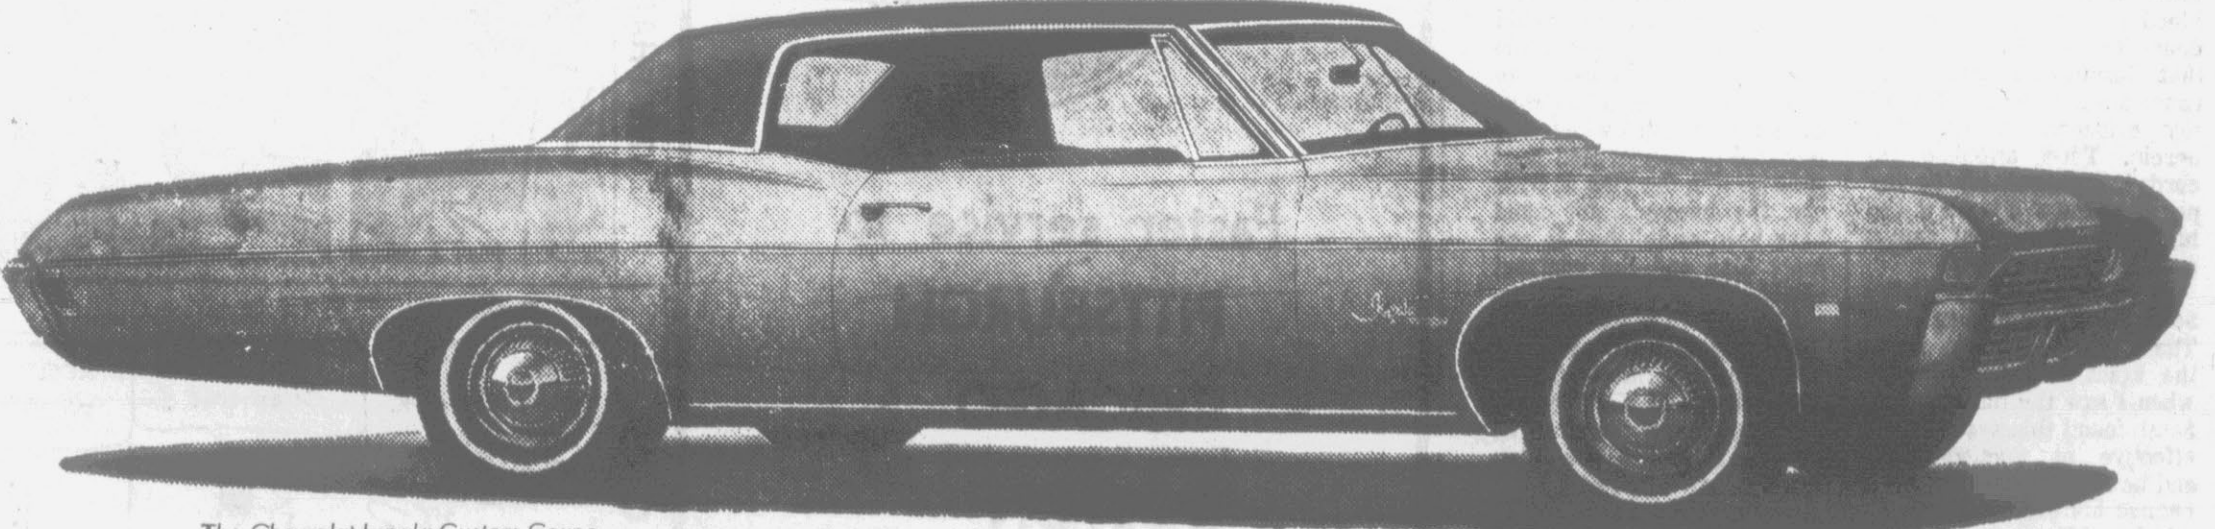

Bonus Savings Plan 3 Any big Chevrolet with 250-hp Turbo-Fire V8, Turbo Hydra-Matic and whitewalls.

Bonus Savings Plan 4 Now, for the first time ever, big savings on power disc brakes and power steering when you buy any Chevrolet or Chevillon with V8 engine.

Bonus Savings Plan 5 Buy any Chevrolet or Chevillon V8 two- or four-door hardtop model—save on vinyl top, electric clock, wheel covers and appearance guard items.

Family Day For Moose Members On Wednesday

Greenville Moose members were reminded Monday evening by Governor Lacy Harrell that the local lodge will hold Family Day on Wednesday.

For the occasion, the swimming pool will be open free to all Moose and their children from 2:00 p.m. until closing time.

Hot dogs and soft drinks will be served free to lodge members and their families at the Moose picnic grounds beginning at 6:30 p.m. Each person entering the pool area will be required to have his pool privilege card.

In case of rain, the program will be postponed to a future date.

The Worry Clinic We Should Be Happy This Is A Republic

Prof. Jim critiques Ralph McGill for woody thinking concerning our type of government. Chief Justice John Marshall said our Republic differs from a democracy as "order" differs from "chaos." He said a democracy means "mobocracy" where "might makes right" and minorities have no protection!

By GEORGE W. CRANE Ph. D., M. D.

CASE G-507: Prof. Jim D., aged 32, teaches Civics.

"Dr. Crane," he began, "Ralph McGill was certainly woody in his recent attempt to explain the difference between our Republic vs. a democracy. 'He merely made with words' when he tried to dismiss the difference as 'an exercise in semantics.'"

"And he ended by saying our Republic is 'a flexible form of government which may be changed by the will of the voters.'"

"That applies to a democracy, too, so please set him straight."

"I've used your newspaper booklet with my Civics classes, so tell your millions of readers the precise difference."

Woodrow Wilson was the main instigator for trying to alter the designation from our Republic to a democracy, for our CONSTITUTION AND DECLARATION OF INDEPENDENCE never even mentioned the word "democracy."

When I was teaching psychology at George Washington University in the early 1920s, I got the inside story from one of Wilson's publicists.

He said Wilson wanted to make the semi-literate voters more aware of the word "Democratic" on their ballot, so they would then "Vote democratic 'cause ain't this a democracy?"

That was superb strategy. I'll admit, but it disagreed with the words of Chief Justice John Marshall, who presided over our Supreme Court for 34 years.

Justice Marshall said the difference between our Republic and a democracy is the difference between "order" vs. "chaos."

And that's not an "exercise in semantics!"

Justice Marshall said a democracy is "mobocracy," where the will of the majority immediately places all minorities in jeopardy.

For the minorities then can be robbed, imprisoned, ostracized or enslaved and killed, as the majority wishes.

For a democracy operates under the jungle philosophy that "might makes right."

A 51 percent majority can thus overwhelm the 49 percent minority.

But in our Republic, the minority groups still enjoy the very same legal rights and freedoms as the majority!

So our Republic demonstrates the Golden Rule philosophy applied to government.

For we have a written CONSTITUTION, ably protected by 9 faithful watchdogs, called Supreme Court Justices.

England has no such CONSTITUTION, so the last bill passed by Parliament immediately reverses any previous guarantees of liberty and freedom.

And so it goes elsewhere throughout the world where mere majority rule determines ethics and justice.

When you salute the flag in your pledge of allegiance, then be doubly appreciative as you also recite "... and to the Republic for which it stands ..."

Pontius Pilate's courtroom was the most perfect democracy on record, for apparently everybody voted, regardless of age or sex.

But they voted 100 percent wrongly and this sent an innocent Christ to a Cross. That's why a democracy is mobocracy!

Under our Republic, an appeal would have been made clear to the Supreme Court and Jesus would have been freed.

Genius and insanity, it has many times been said, are blood relations. I have evidence to support the theory that inspiration and ignorance are next of kin. Part of my evidence is submitted herein. The anecdote recorded I picked up in my peregrinations among the high stake-low talent games around New York City.

No, gentle reader, I have not changed my bidding style. The diagram above provides the exact sequence of calls when I saw the hand played. South found this system very effective in auction days, and he has seen no reason to change his methods with the passing of the years.

Since both of his four card suits had been adversely bid, West chose to lead dummy's suit and the deuce of diamonds came out briskly. Dummy played low and East went into a prolonged huddle during which West showed manifest signs of annoyance. It was apparent to him that the only card that would present his partner with a problem was the king, and he was naturally rooting inwardly for East to win the trick.

After extensive fumbling, the nine of diamonds came forth to be taken by declarer's ten. This was almost too much for West, who violated any number of tenets by expressing his opinion of his partner then and there. Decorum was reestablished and play continued. Try as he would declarer was unable to take more than eight tricks.

The diamond suit could never be brought in for, while South had two entries to dummy to establish the suit, he lacked the third which was required to cash it. Had East gone up with the king at trick one, the dummy's suit could have been established in one more lead and the contract easily fulfilled.

As a matter of technique, I think East's play was correct. South is marked with one diamond. If it is the ace, the king play cannot be fruitful. If it is a low card, the nine will win and, if it is the ten, nothing will be lost, since there is no fear of blocking partner's diamonds.

Devise Tomato Ripeness Test

FAYETTEVILLE, Ark. (UPI)—Scientists at the University of Arkansas Agricultural Experiment Station have developed a quick and simple way to determine the ripeness of tomatoes.

The tomatoes are poured into huge containers, partially filled with a liquid. The ripest tomatoes sink to the bottom and the less ripe ones float at various levels. The scientists say the ripeness affects the specific gravity of the tomato, and thus the floating ability.

Dr. Daugherty At Institute

OAK RIDGE, Tenn.—Dr. Patricia A. Daugherty, of the East Carolina University Biology Department, is one of the participants in the Isotope Technology Institute being held at the Oak Ridge Associated Universities (ORAU) here from June 17 through August 2.

The ORAU, under the sponsorship of the U.S. Atomic Energy Commission, is presenting two summer institutes for college science teachers, in isotope technology and radiation biology.

There are 19 participants in the isotope technology course, representing educational institutions from 16 states.

The basic objectives of the isotope technology institute are to train faculty members in techniques of using radioisotopes and radioactive materials safely and effectively, and to guide them in teaching the latest developments in the fields of nuclear sciences.

Stock And Market Reports

RALEIGH (AP) — (NCDA)—North Carolina egg markets steady to stronger Monday. Supplies adequate, demand fair. Prices paid producers and handlers for consumer grade eggs in cartons delivered nearby outlets: Grade A large whites: 38 1/2-40; medium whites: 30 1/2-32; small, whites: 24-26.

RALEIGH (AP)—(NCDA) — North Carolina hog markets today were mostly steady. Tops of 20.25 - 20.75 Rocky Mount; 20.00 - 20.75 Wilson; 20.00-20.50 Bethel; 20.75 Selma; 20.5 Greensboro; 20.25 Salisbury; 20.00 Siler City, Denton.

NEW YORK (AP)—The stock market continued lower this afternoon but showed resistance to further decline. Trading was active.

Losses outnumbered gains by fewer than 100 issues. The Associated Press average of 60 stocks at noon was down .5 at 341.7, with industrials off 1.1, rails up .3, and utilities off .5.

Utilities eased backward, apparently having well discouraged the tax-spending measure.

Selected issues displayed fairly sharp gains, but the general run of price movements was narrow.

The Dow Jones industrial average at noon was up .18 at 902.01.

American Smelting and Phelps Dodge dropped more than 2 each, backing away from sharp gains made Monday when unconfirmed rumors of merger were circulating.

Raytheon rebounded 4 points, IBM 3, and Xerox 2.

Delta Airways, ahead more than a point, took the lead on volume.

Anderson Clayton was ahead about 3 points after trading on a block of 54,800 shares.

Many airlines—including Pan American, United, Eastern and American — made fractional

Briefs News

WINSTON-SALEM (AP) — The 312th Evacuation Hospital, Winston-Salem's major Army Reserve unit, is scheduled to leave the United States about the second or third week in September for South Vietnam.

The disclosure was made Monday at Ft. Benning, Ga., as the 312th ended its first month of fulltime military service there.

HOLMDEL TOWNSHIP, N.J. (AP) — The debut of Henry Lewis as conductor of the New Jersey Symphony was greeted with enthusiastic applause and repeated curtain calls Monday night at the Garden State Art Center.

Lewis—the first Negro to be named musical director of an American symphony orchestra—directed the 75-piece company in selections by Anton Dvorak and the modern German composer Carl Orff, as dense fog enveloped the outdoor amphitheater.

RALEIGH (AP) — Those who think a Ph.D. degree is indispensable for a college teacher got something of a jolt today when three North Carolina State University professors were chosen for distinguished professorships.

The group included Duncan Stuart, School of Design faculty member who did not complete college; Sidney Knowles, a young English department faculty member who lacks a Ph.D., and Dr. Carey Boston, genetics professor and former chancellor.

Link Bad Credit, Poor Driving
OLYMPIA, Wash. (AP) — Poor credit risks may also be bad drivers, the Washington State Motor Vehicle Department says.

It checked driving records of 36 good credit risks and 23 poor ones and reported the deadbeats had 280 per cent more accidents and 137 per cent more violations.

Violence Marks Campaign Close

MONTREAL (AP) — Canada's lively election campaign came to a bitter end Monday night as Prime Minister Pierre Elliott Trudeau watched a battle between police and demonstrators defying him on the issue of Quebec's future.

"Sixteen years on the force and this is the worst I've seen," said one constable at the height of the riot in front of the reviewing stand at the St. Jean Baptiste Day parade, high point of French Canada's chief holiday.

The 48-year-old bachelor prime minister shook off persons urging him to leave the stand and watched coolly from the front row as police on horseback and on foot drove back charging demonstrators who hurled bottles, stones, firecrackers and light bulbs filled with paint.

One bottle whizzed past Trudeau's head.

Police said 91 bystanders and 44 policemen were injured. The number of injured rioters was not known, but police arrested more than 290 of the demonstrators demanding a new deal for French-speaking Quebec Province.

Boston Commons Has 'Health-In'

BOSTON (AP) — Everyone is invited to a "health-in" Wednesday on historic Boston Common. The sponsoring Boston Physical Fitness Council says the program is "to provoke public awareness of our epidemic of physical lethargy."

Among the planned activities are classes in calisthenics, jogging and karate and a talk by heart specialist Paul Dudley White on the need for fitness.

Lengthy Holiday Bill To Johnson

WASHINGTON (AP) — President Johnson has before him a bill to make four more holidays fall on Monday every year.

The Senate, with about eight members present and no debate, Monday passed the measure which has been kicking around Congress for years.

There was no indication what action Johnson will take and he has never publicly commented on the bill.

With Labor Day already falling on Monday every year, the bill would have the effect of making five three-day vacationettes—two of them in October—when it takes effect Jan. 1, 1971.

The bill provides for Washington's birthday to fall on the third Monday in February, Memorial Day on the last Monday in May, Veterans Day on the fourth Monday in October and Columbus Day on the second Monday in October.

Columbus day has been observed as a holiday in about three-fourths of the states but has never been a national holiday.

Beauty Queen Visiting Campus

Miss North Carolina, Eliza Annette Johnson, is visiting the campus of East Carolina University this afternoon for the first time since she won her title June 16 in Charlotte.

The 19-year-old ECU sophomore is scheduled to arrive on campus about 2:30 p.m. University officials say she will tour the campus and pose for photographs most of her stay on campus.

The 5-foot-8 brunette, of New Bern, has studied speech, speech therapy and public relations as a freshman at ECU, but wants to become a professional singer.

Miss Johnson will represent North Carolina in the Miss America pageant at Atlantic City in September.

She is the daughter of Mr. and Mrs. Carl D. Johnson of New Bern.

The famed Alamo in San Antonio, Texas, gets its name from the Spanish word for a cottonwood tree—el alamo—that once grew there.

South Korean Cities Mark Korean War Anniversary

SEOUL (AP) — Rifles cracked, grenades exploded and men died on the eastern front today while South Korean cities observed the 18th anniversary of the Korean War with ceremonies and parades.

The South Korean army reported four North Korean infiltrators were killed in two brief fire fights 3 1/2 miles south of the demilitarized zone. No South Korean casualties were reported.

Army spokesmen said the infiltrators wore South Korean army fatigues without insignia. Two Russian light machine guns and a camera with film were found among the bodies.

The army said this raised to 20 the number of North Korean infiltrators killed in five clashes in nine days.

In a war anniversary speech in Seoul, soldier-President Chung Hee Park called for unity to continue economic programs

while defending the nation from Communist threats. He accused the Communists of turning the entire land into military camps and scheming to launch a guerrilla war against South Korea as the Viet Cong is doing in South Vietnam.

Government agencies across the country held ceremonies to remember the Sunday 18 years ago when North Korean Communists attacked along the 37th parallel, reaching the South Korean capital in three days.

North Korea celebrated the war anniversary with rallies and speeches demanding U.S. withdrawal from South Korea.
