Six Held In Dare Jail, Others Hunted

Nags Head Beach Dune Terrorized By Group Of Youths With A Whip

Dr. Blaiberg Rallies From Heart Setback

CAPE TOWN, South Africa (AP) — Dr. Philip Blaiberg, the world's longest surviving heart transplant patient, rallied Sunday from the worst setback since his operation Jan. 2. His doctors were using a new serum and indicated they no longer plan another heart transplant for him.

Blaiberg's wife, Eileen, said she was told by Dr. Christiaan Barnard, head of Groote Schuur Hospital's heart transplant team, that her husband's condition had undergone a "dramatic change."

"It's as if they had given new life to my husband," she said. "I'm hoping and praying the serum treatment will be successful."

Mrs. Blaiberg visited her husband Sunday and said he seemed much better. "We talked a great deal," she said.

Blaiberg, a 59-year-old retired dentist, had been gravely ill with hepatitis, double pneumonia and symptoms that his transplanted heart was faltering.

Barnard had said a second heart transplant might be attempted, but a hospital bulletin Sunday night said: "No further emergency treatment is anticipated."

The hospital bulletin said: Barnard's transplant team has decided to use antilymphocyte serum. It reported "definite improvement" in Blaiberg's condition and said: "His lung condition is improving."

The serum, developed in Denver, Colo., swallows lymphocytes, the body's natural weapons against such foreign invaders as transplanted organs and infection. It has been used successfully over the past two years in kidney and liver transplants to combat the body's tendency to reject foreign organs.

Barnard had considered using the serum on the world's first human heart transplant patient, the late Louis Washkansky, but decided against it because "there is still a lot of uncertainty and danger in it," he said last January.

NAGS HEAD, N. C. (AP) — Six Chesapeake, Va., youths were in Dare County jail today under \$5,000 bond, police said, after they reportedly harrassed, attacked and threatened several tourists at this oceanside resort Sunday.

Officers are searching for two other youths.

Police quoted victims as saying one youth, backed by seven others, used a horsewhip on a man and attempted or threatened liberties with several women.

Michael Ray Woolard, 19, was charged with intent to rape, assault with a deadly weapon involving a horsewhip and assault with a deadly weapon involving a pocket knife. The five other youths were charged as accessories.

Police said the youths reportedly commandeered the top of Jockey Ridge, a huge, meandering sand dune that is a popular area for tourists.

Nags Head Police Chief Donnie Twyne said the first report came from a man who said a youth had whipped him after he had reached the top of the sand dune and had threatened to rape his wife.

A girl was quoted by police as saying a youth threw her down and apparently tried to rape her. When her 9-year-old brother attempted to help her, she told officers, he was sent sprawling down the dune.

Two other girls said a young man grabbed them and tried to remove their clothes.

A group of teen-agers said they were attacked as they climbed the dune.

Local and state police and Dare County officers chased a group of young men off the dune and into a swamp to the south. Six were arrested and two apparently escaped.

Area Traffic Said Lighter On Holiday

Holiday traffic in Pitt County and the other 23 eastern counties in Highway Patrol Troop A was lighter than normal over the Fourth of July holiday period, according to Troop A Commander Capt. R. F. Williamson.

The officer said only three persons were killed during the holiday period—6 p.m. Wednesday through midnight last night—in the 24 counties as compared with 11 deaths in the troop area last year.

Eight wrecks were investigated in Pitt County during the holiday period, the officer said. None were classified as major.

Capt. Williamson said troopers in Pitt arrested 150 motorists for speeding on the county's roads during the holiday period.

"Generally throughout the troop, for the Fourth of July, traffic appeared to be light," the commander said. The only exception, he noted, was on Sunday. "Traffic was a little heavy then for a while."

He contributed the light traffic conditions to "two to three nights of rain." The rain, "kept a lot of people off the road," he said.

The officer said the three highway deaths included a death in Halifax County, one in Beaufort County nine miles west of Aurora, and a hit and run in Gates County. Investigation of the Gates County fatality is still under way, he noted.

France Begins Nuclear Testing

PARIS (AP) — France began a two-month series of nuclear tests Sunday on Mururoa atoll in the South Pacific. The test series is expected to culminate with the explosion of France's first hydrogen bomb.

The announcement that France had exploded a medium-range atomic device generated an immediate Japanese protest and a request that the series be canceled. The French government was certain to brush the protest aside. The nature of Sunday's test blast was not disclosed.

Brief Visits To Five Capitals

President Makes Quick Stops In Latin Nations

By FRANK CORMIER
Associated Press Writer

WITH PRESIDENT JOHNSON IN CENTRAL AMERICA (AP) — President Johnson, seeking "a road of new hope for this hemisphere," embarked today on a tour of Central America, briefly visiting the capitals of the five nations.

In the steamy Nicaraguan capital of Managua, a roaring, flag-waving crowd greeted him at Las Mercedes Airport in a light, intermittent rain.

After visiting El Salvador since Saturday for summit talks with five Central American presidents, Johnson was making brief stops also in Costa Rica, Honduras and Guatemala.

He gave lifts home to the presidents of the four countries. The last stop—tonight—was to be the LBJ Ranch, which the President left Saturday for his journey south.

Johnson at the departure ceremonies in San Salvador spoke of "the new strength and promise that we have here added to our partnership." But he cautioned: "The road that brought us here has no rainbow at its end—not yet."

The U.S. president said the nations of Central America, with the help of the United States, "have celebrated what there is to celebrate" during the summit and "have determined to master the challenges that remain."

He said there was much to celebrate and many challenges to be met. He added that the speeches over the car's built-in loudspeakers.

cause it has been responsible." Never before 7th grad 107 San Salvador date

Johnson, in remarks prepared for departure ceremonies at San Salvador, spoke of "the new strength and promise that we have here added to our partnership." He cautioned: "The road that brought us here has no rainbow at its end—not yet."

He said the nations of Central America, with the help of the United States, "have celebrated what there is to celebrate" during the summit and "have determined to master the challenges that remain."

He said there was much to celebrate and many challenges to be met. He added that the meeting had "been fruitful because it has been responsible." Never before has any U.S. president visited all five Central American republics, and Johnson's reception in El Salvador seemed to indicate his effort was appreciated.

Despite some fresh eggs, paint bombs and raw potatoes thrown at him by student demonstrators against the Vietnam war shortly after his arrival Saturday, the crowds were big and friendly.

As he drove through San Salvador and the surrounding countryside Sunday, he climbed onto the running board of his long black bubbletop limousine at least five times to greet close-packed street crowds, shake hands and deliver brief and impromptu "Muchas gracias" speeches over the car's built-in loudspeakers.

Count 23 Dead In Accidents During Holiday

By THE ASSOCIATED PRESS

At least 23 highway deaths during the long Fourth of July weekend boosted North Carolina's traffic death count for the year to 887, an increase of 92 over the same period last year.

Despite the heavy toll, it was somewhat under the prediction of 30 fatalities made earlier by the N.C. State Motor Club. The count began at 6 p.m. Wednesday and ended at midnight Sunday.

The worst wreck of the period occurred near Oxford July 4. The accident claimed three lives—Lex Johnson, 17, and Larry Hawkins, 18, both of Oxford, and Randolph Hawkins, 20, of Pottstown, Pa.

Two men were killed on a rural paved road 13 miles north of Greensboro early Sunday. Police said their speeding car went out of control, ran off the road and overturned several times. The victims were Jackson Dennis Hawkins Jr., 22, of Rt. 1, Stokesdale, and Robert Lynn Mosley, 22, of Stokesdale.

Other traffic victims included: Archie Lee Davis, 18, of Rt. 2, Lucama; Edsel Sellers, 29, of High Point; Denny Rosel Watson, 50, of Rt. 1 Gatesville; Elmo Donalds, 22, of Rt. 3, Kenly; Willie Lee Smith, 27, of Rt. 1, Blounts Creek; Leonard Howe, 10, Charlotte; Lewis Albert Thompson, 51, of Wilson; Wade Worth Griffin, 44, of Glen Raven; Catherine Gaster, 21, of

Congress Enters Its Homestretch

WASHINGTON (AP) — Congress, hoping to close out its 90th session before the political conventions next month, went into the homestretch today immediately facing a large amount of major legislation.

Key floor or committee action on gun controls, foreign aid, housing, and President Johnson's Supreme Court appointments was expected before the end of the week as congressmen returned from a long Fourth of July weekend.

But prospects for meeting leaders' Aug. 3 adjournment target date were clouded by a brewing Senate fight over confirmation of the Supreme Court appointments.

The Aug. 3 deadline would be hard to meet even without such a fight. Major legislation yet to be dealt with includes 10 of the 13 regular appropriation bills.

Action on gun controls resumed today with House Rules Committee scheduling of floor action on a measure to extend the already-passed ban on mail-order sales of handguns to rifles shotguns and ammunition.

The Senate Judiciary Committee begins deliberations Tuesday on President Johnson's far stronger proposal to require registration of all guns and licensing of all owners.

The battle over confirmation of President Johnson's nomination of Supreme Court Associate Justice Abe Fortas as chief justice of the United States and Homer Thornberry as an associate justice gets a formal arena Thursday at the Senate Judiciary Committee hearings.

Atty. Gen. Ramsey Clark, as a leadoff witness, is expected to be questioned closely on whether a vacancy exists on the court.

Some committee members argue there is no vacancy because Johnson said Chief Justice Earl Warren's retirement would be accepted when a replacement was appointed—and no replacement has been confirmed by the Senate.

Leaders of a group of 19 Republican senators have threatened to filibuster confirmation on the Senate floor but Senate Republican Leader Everett M. Dirksen has said he would oppose such a filibuster and vote for confirmation.

The Republican opponents argue Warren's replacement and a new justice to fill the vacancy should be appointed by the incoming president next January, not by Johnson whom they call a "lame duck" President.

In other action this week, a foreign-aid authorization bill already cut \$600 million in committee below Johnson's \$2.9 billion request faces further cuts and a close final vote in the House.

The House is expected to pass a widening housing bill similar to one already passed by the Senate.

An Aug. 3 adjournment—coming just before the major political conventions and freeing congressmen—would require scrapping some of Johnson's legislative program.

Likely casualties appear to be the President's proposals for stronger enforcement of equal opportunity laws, lowering of the voting age, extension of the farm program, changes in electoral procedures, foreign-trade negotiating authority, a child-health program and several conservation measures.

Further appropriation cuts are expected, particularly in foreign aid. Congress already has made large cuts in the President's antipoverty and education programs and all but ended his highway beautification program.

But Johnson has won the 10 per cent income tax surcharge and crime-control bill for which he pressed hardest, although he had to make large concessions in both cases.

The President also has won enactment of a major civil rights measure including an open-housing law, and enactment of a package of consumer bills including disclosure of credit costs on installment purchases.

Lights In Sky

SEATTLE (AP) — Nine red lights soared back and fourth above Seattle for more than 40 minutes Sunday night, residents said, and one private pilot who chased them said "they definitely were aircraft."

Thousands of callers swamped civilian and military telephones in the Puget Sound region. The glistening objects far outshone the stars.

Observers said they were clearly visible from the ground, but the federal Air Route Control Center in suburban Auburn and local and military airfield towers could not spot them on radar.

"The last one didn't just dim out and fade away like turning out a light on a rheostat," said pilot Ruby Malaspina, real estate salesman from suburban Des Moines. "I was flying right below it and it simply accelerated vertically and flew out of sight."

There were reports that pranksters had attached lighted railroad flares to balloons and sent them aloft. Seattle police accepted this.

Fighting May Presage New Border Battles

By GEORGE ESPER
Associated Press Writer

SAIGON (AP) — U.S. Marines killed 201 North Vietnamese soldiers along the eastern end of the demilitarized zone during the last four days in fighting that could presage more big battles along South Vietnam's northern border, military spokesmen reported today.

Sen. Huynh Van Cao told the South Vietnamese Senate in a speech that 30 North Vietnamese regiments—perhaps 45,000 men—have been massed around South Vietnam's two northernmost provinces, Quang

Tri and Thua Thien in preparation for a third offensive.

During the past eight days, U.S. Air Force B52 bombers have flown 36 missions just above the southern half of the DMZ along the southern fringes of North Vietnam to ease pressure on American forces along the northern frontier.

The unusually heavy B52 strikes, in which more than 5,000 tons of bombs have been dropped could be preparing for a major allied ground sweep along the DMZ.

With the pressure along the northern border apparently increasing again, the U.S. Com-

mand faced the prospect of a two-front war once more. It still expects another major attack on Saigon, which intelligence reports say will come before July 20, the anniversary of the 1954 Geneva agreement which split North and South Vietnam.

The B52s have been hard at work around Saigon, too, attempting to discourage massing of enemy regiments for an attack on the capital. The eight-jet Stratofortis flew eight missions Sunday and Monday 45 to 75 miles north and northwest of Saigon.

The fighting at the eastern flank of the DMZ centered

around Gio Linh, an allied combat base three miles south of the buffer strip.

In two clashes Sunday, U.S. Marines, backed by dive bombers, artillery and tanks, reported 67 North Vietnamese soldiers killed. Marine casualties were put at five killed and 17 wounded.

In a day-long action last Friday near Gio Linh, the Marines said they killed 134 North Vietnamese soldiers while suffering five dead and 64 wounded.

On the Saigon front, South Vietnamese infantrymen launched an offensive 25 miles northwest of the capital today

and uncovered an enemy weapons cache only 2½ miles from Khien Cuong, the capital of Hau Nghia province.

The cache contained a bazooka-type rocket launcher, 130 rounds of rockets to go with it, 10 boxes of ammunition and a number of claymore mines.

About the time the new sweep was beginning, the Viet Cong shelled Khien Cuong with 12 mortar rounds which wounded nine civilians, military spokesmen said. The enemy gunners also sent three mortar rounds into a government military camp nearby, causing light casualties.

Mrs. Dale Sumrell and family of Oxford were local visitors on Sunday.

Mrs. Mary Tripp Mayo has returned from a visit in Norfolk, Va., with relatives.

Mr. and Mrs. Cornelius Woolard and family of Norfolk, Va., were local visitors on Saturday.

Scooter Suit Involves Minors

AXEN-PROVENCE — France (WNS) — "A scooter is not a vehicle, but a toy," ruled the appeals court here, and a ten-year-old girl was freed from responsibility for running into a boy on a bicycle. The boy, who was injured in the accident, had sued and won in the lower court because, according to motor rules, he had had the right of way. The names of the two antagonists were not revealed because they are minors. The girl's parents agreed to pay for one-quarter of the damage even though the girl insisted, "He was coming down the hill so fast that he couldn't control his bike or see where he was going. I hope he doesn't get a license when he grows up, or we'll all be in danger."

Britisher Sued In Ghost Case

LONDON (WNS) — Mrs. Ibylene Hansob, 38, has been sued in court for taking \$5,120 from an anonymous man. She promised to get rid of ghosts who were bothering him, but did not succeed. Patricia Coles, lawyer for Mrs. Hanson, pointed out to the judge that the man did not pay his income taxes last year. The man explained that he was still trying to figure out how to get a tax allowance for the ghosts and the removal of them.

LPN MEET PLANNED

Licensed Practical Nurses Area 23 will meet at the Greenville Nurses Home on Wednesday, July 10, at 1 p.m. Mrs. Eleanor Tripp of Korea will be the guest speaker.

To make a home cleaning preparation for brass and copper, dissolve one-half cup of soap flakes in one pint of hot water; beat in three tablespoons of whiting and two tablespoons of vinegar. Shake before using. Apply with a Wad of cotton. Rinse after cleaning.

tal.Free Will Baptist Church Sunday at 3:00 p.m.

The bride is the daughter of Mr. and Mrs. Blount Harvey Galloway of Greenville. The bridegroom is the foster son of Mr. and Mrs. Frank Dixon, also of Greenville.

The Rev. R. M. Stewart, pastor of the bride, officiated at the double ring ceremony. A program of nuptial music was presented by Mrs. Wilma L. Smith, pianist, and Jimmy Page, soloist, who sang, "Because" and "The Wedding Prayer."

The church was decorated with standing brass candelabra holding lighted tapers, backed with wedding palms. A floor basket of white mums and gladioli centered the altar. At the altar was a gold and white prie dieu on which the couple knelt for their vows.

Given in marriage by her father, the bride wore a formal gown of chantilly lace and silk organza which featured a scalloped neckline, fitted bodice and long fitted sleeves ending in calla points. The bouffant shirt was enhanced with a detachable chapel train covered with sequins and simulated pearls.

Her fingertip veil was attached to a rose of seed pearls with a tear-drop in front. She carried a cascade bouquet of white mums tied with streamers of white lace and satin.

Miss Brenda Kay Galloway, sister of the bride, was maid of honor. She wore a street length dress of blue-dotted Swiss and carried a cascade bouquet of mixed summer flowers in shades of blue, pink and orchid, tied with streamers of matching satin and tulle.

The bridesmaids were Mrs. Aaron Rhodes and Miss Sandra Riggs Galloway, sister of the bride, of Greenville. They wore dresses identical to that of the honor attendant. They each carried a cascade bouquet of mixed summer flowers in shades of blue, pink and orchid, tied with streamers of matching satin and tulle.

Frank Dixon of Greenville, foster father of the bridegroom, served as best man. Ushers were Ronnie Mills, Douglas Gurniks, Clifton Dixon, all of Greenville, and Jessie Elks of Washington.

Miss Donna Joyce Dixon of Greenville greeted guests at the register. Director of the wedding was Mrs. Jimmy Hudson of Washington.

For her daughter's wedding, Mrs. Galloway chose a pink sheath dress with matching accessories. She wore a corsage of pink carnations.

The bridegroom's foster mother selected a blue two-piece dress with matching accessories. She wore a corsage of pink carnations. The bridegroom's mother, Mrs. Simon Harrison, of Williamston, wore a blue lace two-piece dress with matching accessories. She wore a corsage of pink carnations.

Following the ceremony, the couple received in the vestibule of the church.

For traveling, Mrs. Harrison changed into a blue, two-piece dress with matching accessories, and the mum lifted from her bouquet.

The bride is a graduate of Chicod High School. For the past four years she has been employed as secretary with the Public Works Department of Greenville. The bridegroom is a graduate of Chocowinity High School and is presently stationed at Panama City, Fla., where he is a leading radioman.

After Rehearsal Party

Mr. and Mrs. Frankie Hardee and Mr. and Mrs. T. C. Elks entertained the bridal party and guests at an after-rehearsal party Saturday night in the church fellowship hall.

The bride's table was covered with an Irish linen cloth and featured an arrangement of

bridal flowers and greenery, flanked on either side by three-branched silver candelabra.

The appointed table was centered with a three-tier wedding cake. After the couple cut the first slice from the wedding cake, Mrs. Frankie Hardee served the cake and Mrs. Galloway, mother of the bride, poured punch.

The honoree wore a two-piece navy blue suit for the occasion. She was remembered with a white mum corsage.

The guests were greeted by Mr. and Mrs. Mack Vernon Dixon and directed to the refreshment table. Good-byes were said by Mr. and Mrs. T. C. Elks of Greenville.

By CECILY BROWNSTONE

AP Food Editor COMPANY FARE

Prepare these peaches ahead so flavors have time to blend.
Roast Duck Brown Rice
Green Peas Lemon Peaches
Ice Cream Cake Beverage

LEMON PEACHES

1 lemon
2 cans (each 1 pound, 13 ounces) cling peach halves
½ cup firmly packed light brown sugar
1-3rd cup cider vinegar
1 stick (3 ounces) cinnamon
4 whole cloves
Slice unpeeled lemon thin, discarding ends; cut each slice in half; turn into a saucepan with one cup of the syrup drained from peaches, sugar, vinegar, cinnamon, cloves and allspice. Bring to a boil; simmer for 15 minutes. Pour over drained peaches in a bowl; cover and refrigerate overnight or longer. Serve as a relish with roast duck.

FAMILY DINNER

A special way to fix lamb.
Stuffed Lamb Shoulder
Potatoes Asparagus
Vanilla Pudding
Bread Tray
with Strawberries
STUFFED LAMB SHOULDER
1½ slices bread, crusts removed and crumbed
1 small onion, minced
1 medium apple, pared and finely diced
1 rib celery, finely diced
2 teaspoons salt
4-pound lamb shoulder, boned and cut with large pocket
¼ cup tarragon vinegar
½ teaspoon pepper
Mix together the bread, onion, apple, celery and one teaspoon of the salt; stuff into lamb pocket; skewer closed. Place on rack in small roasting pan; sprinkle meat with vinegar, remaining one teaspoon salt and the pepper. Roast in a 325-degree oven, basting occasionally for about 2½ hours, or to 175 degrees on meat thermometer.

Brownish stains on stainless steel indicate that too high heat has been used; mild scouring powder will remove it.

Shower For Bride-Elect

Bride-elect Miss Patsy Joe Gurganus was honored Tuesday with a floating miscellaneuous shower at the Sweet Gum Grove Community Building.

An arrangement of mixed summer flowers was used as a centerpiece for the refreshment table. Lighted tapers were on both sides of the centerpiece.

Hosts and hostesses were Mr. and Mrs. Eric Whichard, Mr. and Mrs. John E. Whichard, Mrs. Gail Clark and Mr. and Mrs. Clarence Barnhill.

Mrs. J. L. Gurganus Sr. poured punch and Mrs. Carrie Shelton served cake.

Mr. and Mrs. Paul Worthington presided over the register. Good-byes were said by Mr. and Mrs. Clarence Barnhill.

The couple was remembered with gifts of china by the hostesses.

Wife Needed To Aid Business, Foolish Reason For Marriage

By ABIGAIL VAN BUREN

DEAR ABBY: I hold an outstanding position, and have reached the point where I feel I ought to marry in order to have a wife to introduce to my associates.

My problem is that I have lived with a roommate for eight years. (A relationship neither accepted nor understood by most people.) My roommate is not happy with my decision, and feels I owe it to my future wife to tell her all about "us." I, however, believe it will only be asking for trouble. My fiancée is a very unsophisticated and religious girl and would never accept it.

I have spoken to my minister and to several doctors, and they say I am making a terrible mistake by marrying. If it weren't for my position and my love of children I would stay where I am. I know I can love a wife and make her happy, but I will always remember the beautiful years with my roommate.

I must admit that I don't "feel" any different toward my roommate, but I think I can handle this relationship even after marriage. Am I wrong? To look at me and my roommate you would never suspect we live this life. No names, or city, please.

Sign me, "GAY"

DEAR "GAY": I can't give you any better advice than your minister and doctors have given you. Don't "use" a woman to try to fool the public. To date, it's your life only. Why foul up the lives of others?

DEAR ABBY: I know everyone is in a hurry for an answer, but please read this, and if you don't think it's more important than some teen-age girl whose mother won't let her shave her legs, just put it aside. Here's my problem:

I keep answering the telephone—but nobody is there. Now after a while this can get pretty maddening until I realize that maybe the ringing could be in my EARS!

Don't tell me to go to a doctor. I don't trust them. Any help you can give me will be appreciated. Thank you.

HEARS RINGING

DEAR HEARS: If you don't "trust" doctors, would you trust the telephone company? Your

Dear Abby

phone could be out of order. Or you could be the victim of a crank's prank. If you telephone is okay, give a doctor another chance. If your ear is ringing, you'd better answer it.

DEAR ABBY: Please print this for anyone who thinks marijuana is harmless.

When I was 15, a "friend" introduced me to "pot." It gave me a lift and a chance to "escape" from reality for a little while. I enjoyed the "high" and happy feeling it gave me, but the trouble started when I kept wanting that "feeling" more and more often.

Finally the same friend got me to try heroine. That was the greatest! Total escape! By the time I was 17, I was hooked. And I mean really hooked.

I won't tell you how low I sank to get the stuff, but you'd better believe it was LOW. It was expensive and I needed more and more as time went on. I had to involve other kids to go my route, which is something I will never be able to forgive myself for.

Then I realized all I could think about was getting the stuff and I tried to kick the habit. It was hell, and I couldn't do it. I attempted suicide. I failed, and woke up in a hospital where I spent many months in the psychiatric ward. That saved my life, because there I started to learn all about who I really was and why I couldn't relate to society.

I am not "cured" yet, but I am on my way. I am going to go back to college in the fall.

FAMILY ROOMS

The kitchen is usually mother's domain, the workshop or den belongs to dad, and the children's bedrooms are their own private retreats. The living and dining rooms may be reserved mainly for guests. But in many homes today there's one area that's for everybody. It's the family room — combination living, dining, recreation, TV, music, sewing, hobby and study room. Even the term "family room" is hardly broad enough to describe the many functions it may serve.

Let us serve you when any decorating problem arises, large or small. Don't try to solve it by yourself. Tommie Willis Interiors, 425 Greenville Blvd., Greenville. 756-1336.

AVERETTE

What further shoe care is recommended?

With the vast variety of leathers, fabrics and man-made shoe materials, it is important to know of the methods used to preserve and protect them.

For leather, apply paste wax with a cotton cloth for a high gloss. When dry, rub with a fresh cloth, then finish with a lamp's wool brush.

Suede needs a light hand brush. First a gentle brushing to remove the dust. If the suede has been bruised, use an emery board very lightly to raise the surface. Clean with a very small amount of cleaning fluid. It is worth investigating some of the new cleaning products in spray cans that can be used on dark or pale colored suede.

Fabric shoes can be cleaned with cleaning fluid.

Campus and country boots get rough wear and should be cleaned after each wearing. If they are made of smooth leather, wash them with saddle soap, a small sponge and very little water. Then rub with a rough towel until dry and follow with a cream polish.

Effective Tools For Road Safety

If the Department of Motor Vehicles goes through with its plan to ask the legislature for six helicopters to facilitate its work, there will inevitably arise the question which has hounded every effort to provide the state's Highway Patrol with the modern tools and equipment with which to do the job expected of it.

That question will be whether the new helicopters will enable the Highway Patrol to "take unfair advantage" of the motorists of the state who may be breaking the laws governing traffic safety.

The MVD has made no mention so far about the use of helicopters in its law enforcement effort. It has specified only that the helicopters are needed to evacuate accident victims from isolated areas, that they may be used to help traffic control at football games and other large gatherings, and that they would be useful in riot control.

Perhaps the lack of mention of the use of helicopters in apprehending traffic offenders is a carry-over from experiences with the legislature. When it came to the purchase of airplanes, the legislature recently wrote into law that they should not be used

for catching traffic violators. Perhaps officials in the MVD feel the helicopters may be more acceptable to the legislators if no mention is made now of what law enforcement role they might play.

For all its efforts over the years to improve its traffic safety, North Carolina has found itself handicapped by a legislative attitude that wants to see that the traffic law violator has a good chance of getting away with violating the law.

When the Highway Patrol wanted to use the whammies for catching speeders, there was initially a great cry that such instruments would take unfair advantage of the unsuspecting speeder. Little mention was made in the legislature about the other unsuspecting victims who may suffer injury or death because the speeder was not apprehended.

A similar cry of protest went up when the Patrol used planes to help nab speeders and other violators. Eventually the Patrol was forced to abandon the use of planes in traffic law enforcement. The breathalyzer presented another stumbling block for legislators who wanted something done about drunk drivers, but not too much.

Ultimately North Carolina has come to recognize that the Highway Patrol, if it is to do the job expected of it, must be given the tools to do the job, and the necessary permission to use them. A Highway Patrol equipped with horse-and-buggy tools cannot be expected to cope with the super-highway traffic and safety problems.

Helicopters might well prove effective tools not just for the tasks mentioned by the MVD officials, but for helping prevent accidents and injuries, and for helping to apprehend traffic violators on North Carolina's highways.

Rains Came In Nick Of Time

By WILLIAM SHIRES
Reflector Raleigh Bureau
RALEIGH — It happened in North Carolina: "We act just like it's snowing," cried an excited, happy youngster on the porch of a farmhouse in rural North Carolina.

His father was smiling as he looked out over the fields. His mother was humming a tune while she prepared a hearty breakfast. It was a gray, cool morning, but it wasn't snowing. It was the Fourth of July and it was raining.

It was a slow, steady crop-

spirits and causing the fields and lawns to turn green again overnight.

Weather, of course, is fickle and sometimes unpredictable. A farm wife near Kingston said she wouldn't go so far as to call it a "million dollar rain" but said, "it was worth a lot."

The corn was tasseling, she said, and the rain would fill it out. And, she added "it saved everything in the garden."

It appears some corn already had been harvested—and processed—in a rural area near Walstonburg, according to an ABC officer's report. Underneath the corn in a crib the officers found nearly 50 gallons of illegal liquor in plastic one-gallon jugs. The owner of the barn was arrested on charges of illegal possession.

It happened again—this time to the Rev. J. H. Lackey, a Baptist minister from Flat Creek Church near Asheville. He and Mrs. Lackey were going to a beach for a visit the other day and he stopped his car at a service station near Columbia, S. C.

By the time he stopped again, at Orangeburg, S. C., 40 miles down the road, the Rev. Lackey discovered he had left his wife back at Columbia.

What, Mrs. Lackey said to her husband when he returned was not reported.

Reporters for the High Point Enterprise think they have discovered the presence of a "phantom" which preys on the city government, and whose forays are not admitted by the police.

A story in the newspaper reports that the "phantom" has stolen a police car, a number of confiscated pistols, and the master key to parking collection boxes and that offices of the clerk of Municipal Court were ransacked.

As far as official records are concerned, however, there have been no reports of the "phantom's" activities.

WILLIAM SHIRES

reviving rain, badly needed across most of the state—parched and burned after weeks of drought and 90-degree heat. It spoiled many of the usual holiday outings, picnics and outdoor celebrations but for the great majority of North Carolinians the good, drought-breaking rain was worth it.

The day before, agricultural officials and farmers were worried. They predicted disaster—further economic setback—if rain did not fall soon.

In most of the farming areas of Eastern North Carolina, the tobacco crop was burning and withering. In another week the immature, dried out leaves would have to be barked to keep it from ruin, and the quality would be too poor and trashy to bring a price. Tomatoes were small, hard and reddening, and other field and vine crops were being damaged. Soybeans and peanuts were being hurt.

But the rains came, lifting

Items Everyone Should Know

By HAL BOYLE
NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

Baby-sitters now earn over a billion dollars yearly.

Americans are still the most restless people on earth. About 35 to 40 million—one in five—change their address every year, but two out of three remain within the same community.

We are a nation of medicine takers, but still the average person spends on drugs only one penny out of each dollar of disposable income. That's less than a fifth of what he puts out for recreation or for liquor and tobacco.

If you enjoy taking holidays, your best bet may be the Virgin Islands. Natives there celebrate some two dozen holidays annually including Supplication Day, July 25, when they pray they may escape hurricanes.

Quotable notables: "A kiss can be a comma, a question mark or an exclamation point. That's basic spelling that every woman ought to know."—Mistinguette, French actress.

Jogging is becoming a favorite form of exercise in the United States, but it would be a sissy pastime to the sturdy Kraho Indians of Brazil. A favorite sport with them, according to the National Geographic, is to run with logs—each weighing from 20 to 200 pounds—up to two or three miles.

Size often goes with importance, and that's perhaps why U. S. girls are getting taller and heavier. The average stands 5 feet 4 1/2 inches tall, weighs 126 pounds and has bust-waist-hip measurements of 35 1/2 inches, 26, and 36 1/2. The famous "hour-glass-shaped" girl of 1900, on the other hand, weighed only 114 pounds and was 5 feet 2. Her other measurements: 33.3, 24, 36.

Moola, moola: Government leaders are speaking more often about a trillion-dollar economy. How much is a trillion dollars? Well, if you stood at the brink of the Grand Canyon and dropped a dollar bill a second over the edge, it would take you more than 31,709 years to get rid of a trillion dollars.

Thanks to better maternity care, having a baby isn't as much of an ordeal as it once was. A generation ago mothers spent from a week to two weeks in the hospital after giving birth. Today's young mother is on her way home in six days or less.

Worth remembering: "When parents don't mind that their children don't mind, the children don't."

The odds: If your house catches fire, the chances are 3 to 1 it's your own fault.

The 79-year-old Eiffel Tower, famed Parisian landmark, is due for a new paint job. The 1,056-foot iron skeleton is repainted about every seven years, and it's a two-year task. Some 40 tons of "cognac brown" paint are required.

Opinions In Brief

"Conceit may put a man up, but can never prop him up." John Ruskin

"Peace cannot be kept by force. It can only be achieved by understanding."—Albert Einstein

"By the time the average man gets to greener pastures, he's too old to climb the fence."—Farmer's Digest.

"Fellow contends that the United States is not producing an adequate supply of promising people. Is it possible he has not listened to the campaign speakers?"—Memphis (Tenn.) Commercial Appeal.

"It has reached the point where people believe that he who wants American aid should proclaim enmity to the United States."—King Faisal of Saudi Arabia.

"No one could ever meet death for his country without the hope of immortality."—Marcus Cicero.

"Little progress can be made by merely attempting to repress what is evil; our great hope lies in developing what is good."—Calvin Coolidge.

Strength For Today

By EARL L. DOUGLASS
ALL IN TOGETHER
Do we give too much to our children or too little? Do we spoil them or neglect them? Do they rebel and go through their wild and crazy tantrums and periods of disobedience because we have been unwise or overbearing?

There are about three billion persons in the world and there are at least three billion answers to these questions. The stern parent who keeps, or attempts to keep, the child under his or her thumb is a reality—always has been and always will be. The mother who bustles around trying to arrange this or that pleasant thing for a child who is bored or annoyed by them is a familiar figure. A few children in the world are probably physically abused and a few others are definitely abandoned and forsaken. The overwhelming majority, however, are the result of what—to use a very modern term—might be called bad management. The teenager knows everything, and some parents give in to him or her. There are some parents who actually allow their children to be impudent to them and throw the whole circumstance over their shoulder. In some households the children own the automobile (or automobiles) and dad and mother can have the same when the youngsters are not dating.

And of course the kids are just as much to blame as their parents. Some youngsters grab cookies when they pass through the kitchen, the best chair in the living room, the radio when their favorite program is on, the attention of callers and affection of aunts, uncles and grandparents.

We're all in this together.

FIND THE CULPRIT!

The American In Paris

PARIS — One of the rarest species in France these days is an American tourist. No one can remember the last time the French saw one, so I caused a sensation when I arrived in the French capital.

As soon as I checked in at the Hotel George V, I noticed that things had changed for Americans in the last few years. First, the concierge broke into tears, then the doorman ran to tell the bartender, the bartender called up the chef, the chef told the waiter. Everyone came out to see if an American had really checked into the hotel.

They stood around in a circle. "C'est formidable," said the chef. "It is an American. I would know one anywhere."

The young page stared as if I were a man from Mars.

The bartender said to him,

"This was before your time, son, but once Paris was filled with thousands and thousands of people just like this."

"It's true," the waiter said. "They were everywhere. You could see them at the sidewalk cafes, in the shops, at the Folies Bergere and the Lido. At one time there were so many of them there weren't enough hotel rooms to take care of them."

The page looked as if the waiter were putting him on.

The concierge said, "He is not lying, son. You couldn't get a taxi because of the Americans. You couldn't get into a restaurant or a nightclub. They had money to burn."

The doorman wiped his eyes as the memories came back. "There were so many of them, we took them for granted."

The bartender shook his

ART BUCHWALD

"I never saw one without travelers' checks."

"They could never keep the French money straight."

"They made terrible jokes about French women."

"But they had hearts of gold."

The manager finally broke it up. By this time the word was out that an American tourist was actually in the country, and the press started to arrive.

The lobby was jammed with newspapermen and cameramen fighting to get near me. They were shouting questions, such as, "Why did you come? Was your plane forced down by bad weather?"

"Are you really an American tourist, or do you work for the CIA?"

"Who paid you to come to France?"

"As the first American tourist to come to France, will you grant President De Gaulle an audience?"

While the press conference was going on, the police arrived. The lieutenant came up and saluted. "The minister of the Interior has ordered us to protect you while you are here. As the only American tourist in the country, you have been declared a national monument."

I couldn't help but be touched.

The last thing I heard was that they want me to ride in the lead car in the parade down the Champs Elysees on the 14th of July. I guess I'll do it, for no other reason than to keep the memory of the American tourist alive.

Public Forum

To The Editor:

I am a policeman on the Ayden Police force. The purpose of this letter is to express my views on the gun legislation now pending in our government.

I am strongly against the type of gun control legislation now trying to be passed. The legislation in its present form does nothing except to harass the good law abiding citizens who want to own guns in this country. The criminal or the person who is mentally ill is not affected by this legislation in any way.

Senator Dodd has said that such legislation he is in favor of would seriously help to keep guns out of the wrong hands. This is not true at all.

I lived in Newark, New Jersey for many years before I moved to Ayden. While living there I was lucky enough to talk with a man who opened my eyes to the gun problem in this country. He was in some way connected with the syndicate in New York City.

This man told me that they had small factories of their own and made their own guns. They made machine guns, shot guns, and anything else that was needed and too, their guns were as good as anything you could buy in the store.

How is this new law requiring people to register their guns going to affect people like this?

I was in the riots of Newark, and I learned from those riots that the common person has to keep himself armed without so much interference from the government. The rioters went to one neighborhood, and were going to burn a favorite spot of the people in that area. The people quickly grabbed their guns and went to the restaurant to defend it.

The rioters saw that they were faced by an armed citizenry and they turned around and left. The neighborhood was never again bothered by the riots after that. They had saved their own homes themselves because they were armed. The point behind this story is that an armed citizenry does make a stronger country. If those people were not armed then their homes would have been

(Continued On Page 6)

Teddy Won't Accept

By ROWLAND EVANS and ROBERT NOVAK
WASHINGTON — Sen. Edward M. (Ted) Kennedy now plans a statement that he would not accept the Vice Presidential nomination with Hubert Humphrey or anyone else — a move that would jolt the Humphrey campaign to the core.

Although the last of the Kennedy brothers could change his mind, intimates say his present intention is to issue a statement well before the Aug. 26 Democratic National Convention. Such a statement, citing family responsibilities, age (36), and untimeliness as reasons for not wanting to be on the 1968 ticket, presumably would eliminate him from consideration at Chicago.

If Kennedy did not issue a statement, but let matters take their course at the Chicago convention, he might well be swept onto the ticket in a genuine draft. Thus, he feels his definitive withdrawal must come before, not after, Chicago.

Vice President Humphrey tells friends that, of the three Kennedy brothers, the youngest has always been his favorite. Although Humphrey has scrupulously avoided the Vice Presidential question with Kennedy during the mourning following Robert Kennedy's death, he is well aware of Jpolls showing that Kennedy's name on the ticket would give the Democrats a huge boost provided by no other Vice Presidential nominee.

Consequently, strenuous efforts to get Kennedy to go on the ticket are probably with the appeal that only he could add enough strength to defeat Richard M. Nixon. But as of now, five weeks after the murder of his brother, Teddy wants no part of it.

A familiar face from the bad old days in Mississippi—uninvited, unexpected, and unwanted—popped up in Jackson, Miss., at a strategy meeting of the bi-racial moderate forces on the eve of the state Democratic convention.

He was Morton Stavis, one of the left-wing lawyers who seized control of the 1964 challenge against the regular Mississippi delegation to the national convention. A New York lawyer who has specialized in Communist clients, Stavis was a counsel for the notorious United Electrical, Radio and Machine Workers (expelled from the CIO in 1950 because of Communist domination) and has taken the Fifth Amendment before Congressional committees in regard to Communist membership.

Since 1964, Stavis has kept in touch with the Mississippi situation through the leftish Freedom Democratic Party (FDP). But the FDP, semi-moribund and ineffective, is playing a secondary role in the 1968 challenge of the Mississippi delegation, which is controlled by the moderates. And the moderates want no part of the Stavises.

Accordingly, Stavis was ignored at the strategy session in Jackson and said nothing. He might well be barred from future meetings if the moderates have their way.

Charles Evers, perhaps the foremost Negro leader in the Deep South today and commander of the 1968 challenge, told fellow moderates after the state convention in Jackson that outsiders from the North, who ran the 1964 challenge along radical lines, should stay away. His exclusion was aimed directly at Stavis and his colleagues.

Offsetting The Tax Increases

By ELMER ROESSNER
You will see some of the most extensive consumer advertising and promotion in the next few months.

There will be bigger-than-ever spreads, louder-than-ever commercials, more contests, gimmicks and hoopla, all intended to sell more goods.

The big idea, which merchants are arriving at almost by instinct, is to offset the effects of higher withholding taxes. Retailers know that willingness to buy is partly psychological. Buying is made up of two factors: having money and having a willingness to spend it.

There will be less spending money, but the total will still be enormous. And the biggest danger, is that consumers, seeing their spendable earnings shrink by the amount of the surtax, may get panicky and overcompensate. They may feel worse off than they really are.

And to prevent this, merchants — well, just wait and watch!

Other Look-Aheads
Here are more glimpses over the business horizon:

The Quiana Rush Du Pont's introduction of a new and synthetic fiber, with Du Pont's flair for names of puzzling pronunciation called Quiana, will create a wild scramble in the market place and other in the laboratories of another synthetic fiber makers.

The fiber looks like silk, can be washed in home laundry equipment or dry cleaned, and resists wrinkling "better than any now in commercial production." Mills are competing to be first with new fabrics of Quiana. Designers and garment makers are vying to be first and best with uses of the new fabrics.

And in the laboratories of competitors, scientists and chemists are frantically at work trying to devise similar or better fibers that will not conflict with Du Pont's patents. Du Pont says it should be pronounced key-ahn-a.

Nickel prices rising: Nickel is getting shorter in supply and a gray market is developing. Some industrial users are paying large premiums. Others, for the present at least, say they are getting it at standard prices.

The shortage, however, is not serious enough to cause hoarding of 5-cent coins.

Of Suits And Air Freight
Men's suit prices to rise:

Prices for men's suits will continue their rise this fall. Higher labor costs are expected to make retail prices 10 per cent higher than last year.

Air freight to go up: Airlines are considering demands for permission to charge higher freight rates. Some want to simplify rate structures, which are now as confusing as railroad rates were in the early days. While larger jets give airlines larger capacity, there are expectations that higher wage demands will offset economies.

Sexier ads: In addition to a surge of promotional ads, there will be a surge of sexier ads. The Supreme Court, movies and book publishers have whittled away wild interdictions against using sex to sell products and advertisers and their agencies, a bit cautiously perhaps, will use more sex themes. Movie and book advertising has already pioneered in the field.

GAS IN CIGARETTE SMOKE MAY BE A BIGGER PROBLEM THAN TAR AND NICOTINE, AMERICAN MEDICAL ASS'N. TOLD.

San Francisco, June 19: (As reported by major newspapers and wire services) The A.M.A. Convention was told by an important medical researcher from one of the major U.S. universities that the real problem may be in the gas content of cigarette smoke and not "tar" and nicotine.

ONLY LARK HAS THE GAS-TRAPTM FILTER.

Lark's unique Gas-TrapTM Filter (U.S. Patent No. 3,251,365) reduces certain harsh gases by nearly twice as much as any other popular brand. The reduction of these gases gives Lark a smooth taste no other cigarette can imitate.

**Perhaps your
cigarette should
have the
Gas-TrapTM Filter.**

Planning Attend 4-Day Assembly

Several Jehovah's Witnesses of Greenville will attend a four-day district assembly of the organization to be held July 11-14 in the Memorial Coliseum, Winston-Salem.

The assembly is one of 57 conventions to be sponsored by the Watch Tower Society throughout the United States, Canada and the British Isles during 1968.

C. L. Corey, resident minister of the local congregation, announced the gathering will include over 8,000 delegates from North and South Carolina, Tennessee and Virginia.

One of the highlights of the convention will be a public address, "Man's Rule About to Give Way to God's Rule," to be presented Sunday, July 14, at 3 p.m.

Today In Washington

By THE ASSOCIATED PRESS

WASHINGTON (AP)—Former world heavyweight boxing champion Cassius Clay has asked the U.S. Supreme Court to look at his conviction for refusing to be drafted in a historical context and overturn it.

Clay's attorneys argued in a 75-page brief filed over the weekend that "the systematic exclusion of Negroes" from his local and appellate draft boards invalidates the draft order and requires reversal of the conviction.

"This cause should be viewed in the context of our history—a history of racial segregation in the armed forces," the attorneys said. "The lily white Selective Service System is but an unconstitutional and statutorily prohibited remnant of our racially discriminatory past."

Clay, who prefers his Black Muslim name Muhammad Ali, was convicted June 20, 1967, in a Houston federal court which imposed a five-year jail sentence and \$10,000. The conviction was upheld by the Circuit Court of Appeals in New Orleans.

Clay seeks a ministerial draft exemption or conscientious objector status on the basis of religious belief. He is free on \$5,000 bond.

WASHINGTON (AP) — Government experts say the tax increase going into effect this month will put a heavier brake on the speeding economy than expected but say they foresee no serious problems as yet.

Some economists have expressed fears the 10 per cent income tax surcharge coupled with a \$6 billion government spending cut could force a sharp rise in unemployment and possibly a recession.

Top government economists

dispute this but do not challenge the prospect of soe increase in unemployment. They currently predict no severe effects, on the belief the Federal Reserve Board will ease the nation's credit to compensate for the extra restraints.

Capital Footnotes

By THE ASSOCIATED PRESS
Few signs of U.S. victory in the "Chicken War" with the European Common Market is seen by agriculture department officials. They say recent agreements for more liberal trade brought little progress in efforts to ease European protectionist tariffs and subsidies which have cut U.S. chicken exports to Europe since 1962.

The Justice Department says it has begun filing desegregation suits against 159 southern school districts to replace "freedom of choice" plans with student assignment plans involving geographic attendance zones.

"Violence won't work any place. Once we lose faith, we're through. We've got to live together and work together as human beings."—Civil rights leader Charles Evers.

McCarthy Wing Maps Campaign

CHAPEL HILL, N.C. (AP)—Supporters of Sen. Eugene McCarthy are collecting evidence they hope will show North Carolina delegates to the Democratic National Convention that McCarthy has more popular support in the state than Vice President Hubert Humphrey.

The North Carolina Citizens for McCarthy organization, which has branches in 26 cities and towns in the state, decided at a strategy meeting in Chapel Hill Saturday to launch a statewide advertising, polling and petitioning campaign for McCarthy's presidential bid.

Dr. Alden Lind, state coordinator of the group, said the information gained from the telephone poll and petitions will be presented to delegates going to the national convention in August.

Forum . . .

(Continued From Page 4)

destroyed.

This is however, a double-edged sword. The people were armed with guns which were then illegal under existing laws. They had machine guns. (You cannot order or buy machine guns anywhere in this country, and it has been this way for many years). If the then strict federal and state laws could not keep outlawed guns out of the people's hands then how can these newly proposed laws do it?

Another point here to be noticed is that honest people can reach the end of their rope, and for their own protection will not obey even their own law officers or government. This is something you should bear in mind. The federal government just cannot keep restricting the people in their rights before they soon become angry and just stop listening.

All of the people I have talked with, and there have been many, will not obey this law of one hundred per cent registration. They have informed me that they may register one of their guns, but never all of them.

Every country in the world that has ever passed a strict registration law soon after passed a confiscation law. After the countries passed the confiscation law the people had to give up their guns because they were registered. After giving up their personal defense the governments soon went to a Socialist, Communist, or dictatorial type of government.

This one reason alone is why the people will not register their guns. They fear this registration law more than you can ever hope to realize and I fear it too! I fear leaving my safety solely in the hands of others because how am I supposed to know what they are going to do.

The many people I have talked with and have known are slowly beginning to distrust their government. They cannot look to the country for protection from criminals because the courts in the long run really do nothing with them. They cannot look to the country for protection from Communists because it is now

One Man's Palace Is A Cottage To Another

By EDWARD MAGRI
Associated Press Writer

ROME (AP) — The world's original "palace," where the founder of the Roman Empire spent 40 years of his life, would have been a humble home for a lowly workman, archaeologists, have discovered.

According to the archaeologists, the tiny palatium of Rome's first Emperor Augustus, consisted merely of three rooms on the slope of the Palatine Hill.

The building later gave the world the word "palace" but it was despised by Augustus' successors who buried it under tons of earth and rubble to make room for luxurious mansions.

Now, after more than 10 years of research and excavation, the three cubicles have been identified beyond any doubt.

The exact site of the first Emperor's house had been a puzzle for the last few centuries. Many experts were inclined to identify it in the so-called House of Livia, the best preserved antiquity on the Palatine.

Prof. Gianfilippo Carettoni, state superintendent for the Palatine and the Forums, says that excavations he and his team conducted since 1956 have produced conclusive evidence that Augustus lived in a construction which was a far cry from the rich, mural-decorated House of Livia.

Carettoni said it can hardly be called a palace, despite the fact that all palaces in the world drew their names from it.

Romans called Augustus' house "palatium"—Latin for palace—because it stood on the Palatine Hill. The name then passed on to the richer residences of Augustus' successors and later became generally used for rich and large mansions.

Augustus, who could boast he had "found Rome of brick and left it of marble," was content with a home of tufa, the dark gray stone making up the Roman hills, which provided the cheapest building stone of the time.

The archaeologists have found large sections of the house's walls still standing under the spacious terrace which the second Emperor of Rome, Tiberius, built in front of his huge residence.

Augustus' palatium consists of a narrow corridor and three cubicles aligned on one side. The well-preserved floor is covered with simple white mosaic work. Well-preserved earthenware vases were found on the spot.

The small house provided no room for Augustus to carry out his imperial functions. For these, Carettoni says, Augustus used a nearby five-room building, which, apparently, he shared with temple priests.

To support his claims, Carettoni recalls that an ancient Roman historian, Svetonius, wrote that Augustus' house was "hardly fitting a private citizen," and that "for over 40 years he (Augustus) lived in the same cubicle in summer as well as in winter."

LAUNCH SATELLITE
MOSCOW (AP) — The Soviet Union launched another Cosmos satellite today and the Sputnik was reported functioning normally, Tass, the official Soviet news agency, said. The device, Cosmos 230, is sending information to a Soviet research center for evaluation.

Underground organizations are growing bigger every day because of the fear the people are starting to have about their government. Such organizations and the syndicate can flood this country with guns just like they did with bootleg whiskey in the Prohibition Era.

I do not know the whole answer to this problem. I think I do know where the answer can begin. Pass laws that will definitely hurt the criminal who used a gun in an offense when he goes to court. Pass laws that will allow people to protect themselves, their families, and their homes. Pass laws that will put fear where it belongs in the hearts of criminals who destroy and defy this wonderful land. Pass laws that will hurt the evil-doers and not the good men and women who make this nation what it is. I truly believe that your real answer lies here. As you can see I am not against gun legislation as long as it is good and does what it is supposed to do.

Thank you for your kind attention to this distressing and important matter.

Sincerely,

Michael J. Karachun, Jr.

Ayden, N. C.

Attends Nat'l FHA Convention

WINTERVILLE — Miss Frances Jean Worthington is attending the Future Homemakers of America National Convention in Miami, Fla.

The rising senior at W. H. Robinson High School is the daughter of Mr. and Mrs. Ben Frank Worthington.

Miss Worthington is a member of the Crown and Ceptor Club, the yearbook staff, the Coral and French Clubs and the Spotlight staff, at Robinson Union.

Her trip to Miami is being

sponsored by the Parent Teacher Association and individual school staff members.

Rural House Is Damaged By Fire

GRIMESLAND—A house belonging to Grover Haddock, located three miles east of Grimesland, was damaged by fire yesterday.

The fire, caused by a stove being left on, was discovered early in the evening. Two fire trucks were dispatched from Grimesland at 8:10 p.m. Damage amounted to about \$200.

Rootworms?

Low-cost Niran 10-G stops goober-grabbers

Stop the goober-grabbers with Niran 10-G

Niran 10-G, the first low-cost peanut protector, delivers the best rootworm insurance your peanuts can get. Today's cost? Still extremely low—and you get extra benefits:

You apply Niran 10-G at pegging time, not planting time. Niran 10-G won't damage your plants, so you have no set-back worries.

Residue? Absolutely none. Niran 10-G controls rootworms, then breaks down into harmless compounds and disappears so it's safe to use your peanut hay for silage. Niran 10-G minimizes blowing, too, because it's processed to remove fine dust.

Niran 10-G is carefully formulated for Virginia-Carolina soil

and climate conditions and has been field-proved by hundreds of peanut farmers in your area since 1965.

For the best low-cost rootworm insurance your money can buy, see your dealer about Niran 10-G. Or write Monsanto Company, Agricultural Division, St. Louis, Missouri 63166.

Even A Winner Is A Loser In Pursuing Detroit

By HERSCHEL NISSENSON

QUESTION: When is a winner a loser?

ANSWER: When he's trying to catch the Detroit Tigers.

EXPLANATION: Cleveland, second in the American League, has won eight of its last 11 games; Detroit has won nine of 11. Third-place Baltimore has won five of seven; Detroit has taken six of seven.

Even the defending champion Boston Red Sox, currently on an eight-game winning streak that has vaulted them into fourth place have managed to gain only one game in that stretch because the Tigers have won seven of eight.

Detroit used the long ball Sunday—three home runs, two triples and six doubles—to sweep a doubleheader from Oakland 5-4 and 7-6. Going into the three-day All-Star break, the Tigers lead Cleveland by 9½ games, Baltimore by 10½ and Boston by 11½.

The Indians beat California 8-3 but lost the nightcap 9-7. The Orioles rallied for a 3-2 victory over the New York Yankees after dropping the first game 3-1. Boston swept slumping Minnesota 4-3 and 6-3. In the lone single game, the Chicago White Sox edged Washington 4-3 in 11 innings.

In National League action, St. Louis blanked San Francisco 2-0, Los Angeles nipped Cincinnati 6-5, Houston topped Atlanta 5-4, the Chicago Cubs took two from Pittsburgh 5-4 and 4-3 and Philadelphia stopped the New York Mets 4-3 but lost the second game 4-2.

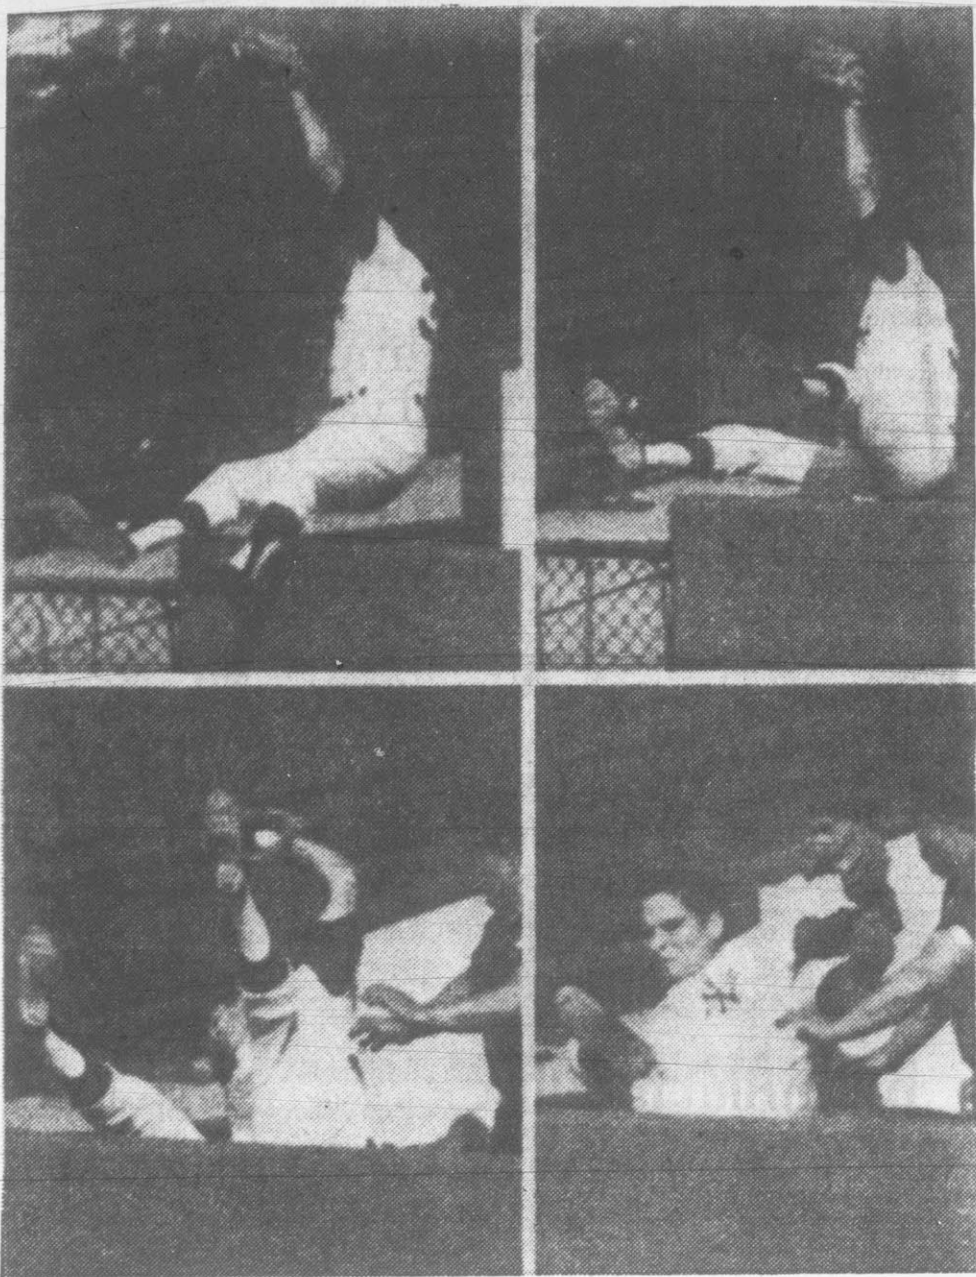

It may be a little early for such things, but for the mathematically inclined Detroit's magic number for its first pennant since 1945 is 71, with 79 games remaining.

The Tigers settled Sunday for winning small. Willie Horton's 21st homer in the ninth inning won the opener from Oakland and made Denny McLain—16-2—the winningest pitcher in the majors after he had blown a 4-0 lead.

The long-balling continued in the nightcap, including Al Kaline's two-run homer, but it took

FRANK FERNANDEZ, New York Yankees right fielder, makes a leaping grab of ball hit by Baltimore Oriole Don Buford and falls into the corner of the right stands in 7th inning of

second game of doubleheader Sunday at Yankee Stadium. A policeman helps him up in bottom photos. Yanks and Orioles split. (AP Wirephoto)

a seventh-inning single by rookie shortstop Tom Matchick to bring home the run that was needed when the A's scored once in the eighth and three times in the ninth.

Oakland's Sal Bando belted three homers in the twin bill and Reggie Jackson two but couldn't prevent the A's from losing for the ninth time in their last 10 starts.

Duke Sims drove in four runs with a homer and single as Cleveland took its opener from California behind Luis Tiant, who won his 14th.

Don Mincher's two-run homer gave the Angels a 7-1 lead after

seven innings of the nightcap but his two-run single in the ninth was the difference as the Indians rallied.

Carl Yastrzemski socked a homer in each game as the Red Sox swept the Twins, who have lost six in a row and nine of 10. Joe Foy slammed a two-run homer in the nightcap.

The Yankees clipped Baltimore in their opener on home runs by Roy White and Andy Kosco and Mel Stottlemyre's four-hitting pitching. But a tie-breaking ninth-inning homer by Fred Valentine gave the Orioles the nightcap. Elrod Hendricks homered in each game for Baltimore.

Wayne Causey scored the tying run in the eighth inning and singled home the winner in the 11th as the White Sox edged Washington. Mike Epstein's fourth-inning homer had put the Senators ahead 3-2.

NFL's Training Camps Still Idle

There was no activity today, and no announced plans for future negotiations between owners and players in the troubled National Football League.

The San Francisco 49ers training camp, which was to have opened Sunday, was closed down. Club personnel were on hand to feed and house any rookies who showed up—but the club's president said no workouts will be held until the current dispute is solved.

The National Football League Players Association is seeking a greater participation by the owners in their pension plan. This the owners say they cannot do.

The players threatened a strike.

Saturday, NFL President Arthur Modell of Cleveland ordered all training camps to postpone their openings until the dispute is settled.

Later that day, in Los Angeles, a spokesman for the Players Association said the players were willing to meet with the owners and hoped such a meeting could be held in three days.

Sunday night Modell said he knew of no plans for any such meeting.

The Detroit Lions originally were scheduled to open their training camp Tuesday, with Dallas, Green Bay and New Orleans opening on Wednesday.

UPHILL SPILL

LUGANO, Switzerland (AP)—Mike Hailwood of Britain was hospitalized with apparent minor injuries Sunday after suffering a spill during an uphill motorcycle race near here. He is seven-time world champion.

AL All-Star Pitching Staff Is Overworked By Weekend Stints

By HAL BOCK

Associated Press Sports Writer HOUSTON (AP)—The American League All-Stars got their first look at the Astrodome's synthetic turf today but Manager Dick Williams probably was preoccupied surveying his somewhat overworked pitching staff.

Every one of the AL's seven hurlers worked either Saturday or Sunday which means that whoever gets the starting nod against the Nationals in Tuesday's All-Star classic will be working with a maximum of two days rest.

Detroit's Denny McLain, a 16-game winner and the logical starting choice, went the route beating Oakland Sunday and had disqualified himself before that, saying there was no way he could pitch Sunday and come back Tuesday.

"My first responsibility," said McLain, "is to the Detroit Tigers," a sentiment echoed by his manager, Mayo Smith, who happens to be one of Williams' coaches.

Mel Stottlemyre of New York also pitched a complete game Sunday but did not rule himself out. "I could pitch an inning or so on Tuesday," he said.

Three other AL pitchers, Tommy John of Chicago, John "Blue Moon" Odom of Oakland

and Cleveland's Luis Tiant, also worked on Sunday and the remaining two members of the staff, Sam McDowell of the Indians and Boston's Gary Bell, both worked Saturday.

Manager Red Schoendienst of the National League has a well-rested staff and was expected to name Don Drysdale, Los Angeles' record-setting right-hander, as his starting pitcher.

Drysdale who pitched 58 2/3 scoreless innings breaking Walter Johnson's record earlier this season, last worked Friday

night and will have his standard three-days of rest if Schoendienst chooses to use him Tuesday.

Injuries have forced two changes on the National League squad and will make a starter out of San Francisco's great Willie Mays.

Pete Rose of Cincinnati, chosen to start in the outfield, suffered a broken thumb over the weekend and will be out of action for a month. Schoendienst named Chicago's Billy Williams to fill Rose's spot but figures to give the starting nod to Mays, who was the fourth highest vote-getter among the NL's outfielders.

Cincinnati's Leo Cardenas was chosen to replace Gene Alley of Pittsburgh, who is nursing a shoulder injury.

The only American League replacement was Bell, who filled teammate Jose Santiago's spot.

Santiago, has been troubled by tendonitis in his shoulder.

Mas was 0-for-4 in last year's 15-inning marathon won by the Nationals 2-1. But Willie still sports an impressive .355 average for the 18 games in which he has appeared. He holds the records for most hits (22), runs (19), triples (3), stolen bases (6) and putouts (50).

He will play center field. St. Louis' Curt Flood asked Schoendienst if he could be switched to left so Willie could play center and Schoendienst complied.

Mays is captaining the National League squad and will exchange lineups at home plate with Mickey Mantle of the New York Yankees, captain of the Aericans.

The Nationals hold a 2-17 edge and have taken the last five games in a row.

SIDECAR RACING DEATH

FRANCORCHAMPS, Belgium (AP)—Johan Attenberger of West Germany and his passenger was killed Sunday in a crash during the last lap of a sidecar race at the Belgian Motorcycle Grand Prix, which was won by Georg Auerbacher of West Germany. Attenberger was leading in the world championship standings.

Every new one comes slightly used.

The road to becoming a Volkswagen is a rough one. The obstacles are many.

Some make it. Some crack. Those who make it are scrutinized by 8,397 inspectors. (807 of whom are finicky women.)

They're subjected to 16,000 different inspections.

They're driven the equivalent of 3 miles on a special test stand. Every engine is broken in.

Every transmission.

Many bugs are then plucked from the production line. Their sole function in life is to be tested and not to be sold.

We put them through water to make sure they don't leak.

We put them through mud and salt to make sure they won't rust.

They climb hills to test handbrakes and clutches.

Then comes the dreaded wind tunnel and a trip over 8 different road surfaces to check out the ride.

Torsion bars are twisted 100,000 times to make sure they torsion properly.

Keys are turned on 25,000 times to make sure they don't break off in keylocks.

And so it goes on. 200 Volkswagens are rejected every day.

It's a tough league.

U.S. Swimmers Will Have To Be 'Best Ever'

By RON RAPOPORT
SANTA CLARA, Calif. (AP) — The U.S. swimming team that goes to the Mexico City Olympics in October is going to be the best ever, according to its coach. It will have to be.

George Haines, coach of the Santa Clara Swim Club that hosted the city's international invitational swim meet over the weekend, said the meet showed his team improving at about the pace he likes and that the foreign competition in Mexico is going to be rugged.

Mexico itself, in fact, may turn out to be a less than gracious host.

Guillermo Echevarria, the country's 20-year-old distance swimmer, was unquestionably the star of the meet, setting a world record in the 1,500-meter freestyle and placing second in the 400-meter freestyle to world record holder Mark Spitz in a fine time.

"I don't think there's any question that Echevarria is the favorite in the 400 and 1,500 at Mexico," said Haines after the meet. "It was a real shot in the arm for him to beat Mike Burton at sea level."

Echevarria's time, 16:28.1, broke by six seconds, Burton's world record.

But, says Haines, "I think Burton will go about 16:10 or 16:15 in the Olympic Trials in Long Beach, Calif., in August."

Also, he said, Don Schollander, Spitz, Greg Buckingham and the rest are not in their top shape. Buckingham set a world record of 4:45.1 in the 400-meter individual medley Saturday and Spitz won the three events in which he holds the world record, the 100 and 200-meter in

56.5 and 2:06.0 respectively, but the 400-meter freestyle in 4:08.1.

Schollander won the 200-meter freestyle Saturday, but lost the 200 to Zac Zorn Saturday.

In all, six world records were set at the meet including Claudia Kolb's crowd-pleasing 5:05.4 triumph in the 400-meter individual medley Saturday. She had won the 200-meter version of the event the day before, but on a judge's decision after Sue Pederson had been given a faster time.

Other records came by Miss Pederson on a 2:09.5 200-meter freestyle leadoff leg on an 800-meter relay, her Arden Hills' Swim Club's team clocking of 8:46.4, and the host club's 400-meter freestyle really clocking of 4:01.0.

Other individual winners were Karen Muir, South Africa, 100-meter backstroke, 1:07.7; Debbie Meyer, 400-meter freestyle, 4:29.5; Fred Haywood, 100-meter backstroke, 1:01.5; Buckingham, 200-meter individual medley, 2:13.2.

Also, Tony Hewitt, 200-meter butterfly, 2:24.6; Miss Meyer, 200-meter freestyle 2:10.1; Jar Hene, 100-meter breaststroke, 1:05.8.

And, Miss Pederson, 100-meter freestyle, 1:00.0; Elaine Tanner, Canada, 200-meter backstroke, 2:24.6; Jack Hrsley, 200-meter backstroke, 2:11.3;

Ann Simmons, 1,500-meter freestyle, 18:06.8; Kathy Jamison, Miss Hewitt, 100-meter butterfly, 2:29.3, and were Bernie Wrightson with 468.40 points in the men's and Sue Gossick with 419.20 points in the women's.

Billie Jean King Is Again Queen Of Wimbledon Play

By GEOFFREY MILLER

WIMBLEDON, England (AP) — Mrs. Billie Jean King, Wimbledon queen for the third time, had the last word Monday as professional and amateur tennis stars left the scene of the first open All-England championships.

"The British are right," said the professional star from Long Beach, Calif. "They call us all players, merely players, competing here for money prizes. Yet in other places, some are still called amateurs and play in the Davis Cup."

"We are all in the same boat. We all make our living by play-

ing tennis. Open tennis has proved itself, and I hope the whole world will come to follow Britain's example and call all competitors players."

The British told all Wimbledon competitors they would compete for prize money or just expenses, just as they liked. But they were all termed players, and the words pros and amateurs did not appear in the Wimbledon programs.

Of the \$63,600 prize money at stake, roughly half was not paid out because most of the amateurs didn't ask for it. They had not been given permission by their national associations to play for money.

Professionals took some tumbles as the amateurs raised their game and scored upsets. But in the end the pros dominated every title except the mixed doubles.

The organizers paid out the full prize money for the men's singles final—\$4,800 to the winner, Rod Laver, and \$3,120 to his fellow Australian pro, Tony Roche, the runner-up. Laver won the final 6-3, 6-4, 6-2.

Mrs. King picked up the women's first prize of \$1,800 after

her 9-7, 7-5 victory over Australian amateur Judy Tegart. Miss Tegart had chosen to play for expenses only, so the second prize of \$1,080 went back into the pot.

Two Australian pros, John Newcombe and Roane, won the men's doubles and split a first prize of \$1,920. They defeated fellow Australians Ken Rosewall and Fred Stolle 3-6, 8-6, 5-7, 14-12, 6-3.

Mrs. King and her professional colleague, Rosemary Casals of San Francisco, snared \$1,200 by winning the women's doubles title for the second straight year. They won the title with a 3-6, 6-4, 7-5 decision over professionals Ann Hayden Jones of Britain and Francoise Durr of France.

Ken Fletcher and Mrs. Margaret Court of Australia, mixed doubles champions for the fourth time in six years were the only amateurs to win a title. But both were playing for prize money and shared \$1,080.

They won with a 6-1, 12-14 decision over Alexander Melnichenko and Olga Morozova, the first Russians ever to appear in a Wimbledon final.

Homers Decided Carolina Games

Home runs played a deciding role in several Carolina League games Sunday.

Willie Hammond hit a ninth inning homer to give Salem a 10-9 extra-inning victory over Burlington in the first game of a doubleheader at Salem, Va. Greensboro took the second game 3-1 as Dave Hirtz unloaded two homers.

High Point-Thomasville collected two homers for six runs in the first two innings and defeated Winston-Salem 8-4 in the second game of a doubleheader at Winston-Salem. The Hi-Toms won the afternoon opener at Thomasville 6-4. Steve Hertz hit a grand slam homer in the first inning of the night game, and Lee Green banged one for the circuit with one on in the second.

Nicklaus Figures To Clock Course

CARNOUSTIE, Scotland (AP) — Jack Nicklaus, 28-year-old Golden Bear from Columbus, Ohio, and 4-1 favorite to win the 1968 British open golf championship, calculated today he ought to clock Carnoustie's fearsome course this time better than when he saw it before.

"That time I clocked it in about 54 hours and 17 minutes," Nicklaus said with a wide grin. He was talking about the only time he has played this 7,252-yard, par-72 seaside layout regarded as perhaps the toughest golf test in the world.

"I was making a film," Nicklaus said. "That's all I remember—the time it took."

In fact when Nicklaus did that golf spectacle he needed a five-over-par 41 for the first nine holes.

But the big blond better, who says he's playing the best golf of his life, is unlikely to repeat that performance in the 72-hole play starting Wednesday.

Lengthy Holiday Saw Traffic Toll Below Expected

Traffic accidents on the nation's roads and highways killed 594 persons over the four-day Fourth of July weekend.

This was below the National Safety Council's prediction that 700 to 800 persons might die over the holiday period, which began at 6 p.m. Wednesday and ended at midnight Sunday.

In a recent nonholiday weekend of the same length, 553 deaths occurred on the nation's roads.

A spokesman for the safety council said there appeared to be "a faint glimmer of hope" in the figures.

"This is the third major holiday this year we have either been under the estimate or near the bottom of it," the spokesman said. "This estimate isn't anything but a projection of past experience so perhaps it indicates there is a genuine improvement under way."

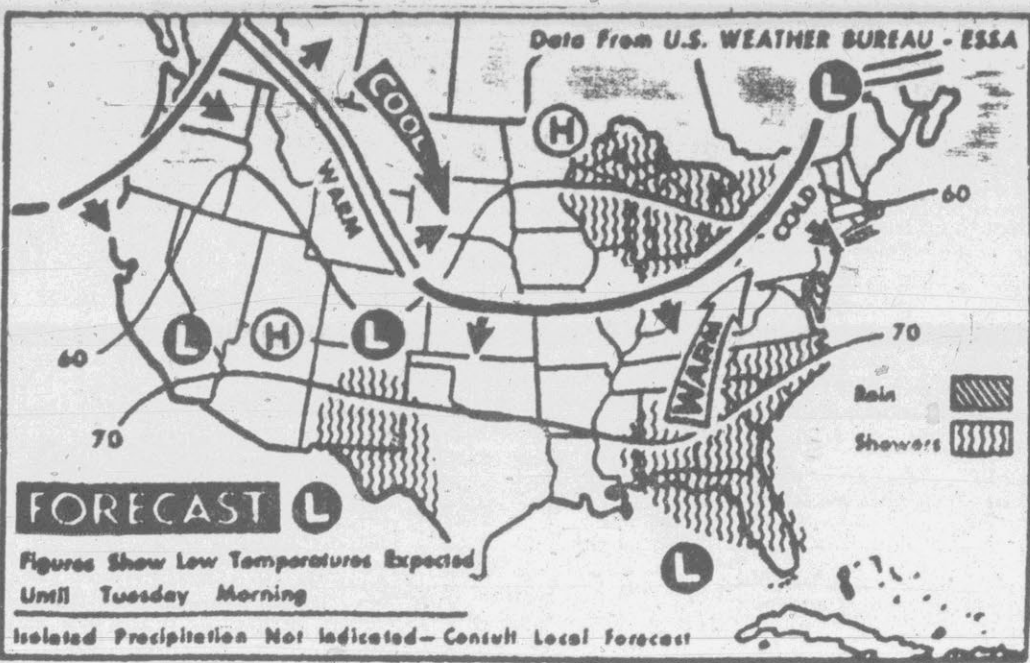

Traffic deaths during last year's four-day Independence

Day holiday period numbered 732—a record high for any Fourth of July and also for any summer holiday.

The lowest traffic toll during any Independence Day four-day period since World War II was 231 in 1946.

The record traffic toll for any holiday period was 748 set during the four-day observance of Thanksgiving in 1966.

Boating accidents took 45 lives during the current holiday period while drowning accidents not involving boats took another 180.

WEATHER FORECAST — Rain is forecast Monday night for the Great Lakes region, the upper Ohio Valley, Florida, the coastal portions of the Southeastern States, western Texas

and eastern New Mexico. It will be warmer in the Middle and North Atlantic States and cooler from the northern Rockies through the Northern Plains. (AP Wirephoto Map)

Children's Tax Plea Is Unheard

NEW DELHI (AP) — Deputy Finance Minister Morarji Desai rejected the plea of some children to abolish taxes on chocolates.

He told Parliament he had reason to believe that interested parties had forced the children to write to him. They come from families which can afford the price of chocolates, the minister added.

Antelope On The Airport Runway

RAWLINS, Wyo. (AP) — Vice President Hubert Humphrey recently made a campaign stop in Rawlins—and state police had a busy time preparing for his arrival.

State police swooped over the airport in a helicopter to chase antelope off the runway so the vice presidential plane could land.

Tips

By S. J. WEEKS
Pitt County Tobacco Agent

Each year the value of our tobacco crop is reduced by disease. Some year the loss is greater than others.

Tobacco diseases, like human ailments, are often hard to identify. When a person becomes ill and needs medical attention, the doctor's first task is to accurately diagnose the disease or condition. This is necessary before he can prescribe the proper treatment. This is also true in the case of a sick or diseased plant. The successful use of disease first of all upon the correct identification of the disease. It is very important to know which disease or diseases are causing damage to your crop if you plan to use precautionary and prevention in future years crops.

Some diseases can be definitely identified by the symptoms shown by the sick plant. For example, many growers who are familiar with black shank can easily recognize typical cases of this disease in the tobacco field. However, identification is not always easy. Under certain conditions, symptoms may not be clear-cut or characteristic, and they may be confusing and misleading. Many different tobacco diseases have similar symptoms.

If you have a disease problem in your tobacco field, I will be glad to visit your farm and help determine which disease is causing the trouble. If the symptoms are not pronounced enough to make a positive identification in the field, a diseased specimen can be sent to the Plant Disease Clinic at North Carolina State University. When a diseased specimen is received in the clinic, examination of the diseased tissue will be made under a microscope and, if necessary, certain laboratory tests will be made to accurately identify the disease.

Once the disease is properly identified, we can make positive control suggestions that you can use on your farm to help keep the losses caused by the disease to a minimum. If you wait until the tobacco is harvested positive identification is difficult.

JUMPING ILLEGAL — LACONIA, N.H. (AP) — The City Council has passed an ordinance making it illegal to jump off bridges. The council passed the law because divers from a bridge over Wiers Channel have narrowly missed hitting passing boats.

The Farm Scene

By C. J. GOODMAN
Agricultural Extension Agent

Eradicating Hog Cholera

During the month of May, 1968, only two cases of hog cholera were found in the entire state of North Carolina. Both outbreaks were found to be caused by feeding of household garbage. This is the lowest number of hog cholera outbreaks reported in the state for a number of years. It is evident that the efforts of those interested in the eradication of hog cholera are paying dividends by this low incidence of disease. In Pitt County, three farms have been depopulated of swine since January 1st. On two of these farms, hog cholera was evident due to possible contacts of a nearby farm, this farm was also depopulated.

In 1966, North Carolina moved into the phase II of the hog cholera eradication program. No indemnity was paid during that year. In January 1967, North Carolina moved into Phase III of the program. This included payment of State and Federal indemnity. One hundred and fifty-two cases were found to be positive that year.

It is hoped that by January 1, 1969, North Carolina will move into Phase IV of the program, and be classified as a hog cholera free state. In order for this to come about, vigilance must be kept on swine health by all producers, and all violations and epidemics must be reported at once to local and federal authorities.

Our Attention has recently been called to cases where dead hogs have been dumped along the roadside in Pitt County. This is a flagrant violation of the State Health laws. Any person convicted of this purposeful act is subject to prosecution. In addition, he is subjecting his friends, neighbors, Pitt County and North Carolina to an epidemic of swine diseases.

Every swine producer should bury deeply, or burn, dead carcasses of animals on his farm. Plans for an inexpensive incinerator may be obtained from the County Agents Office.

Studying Effect Of Warm Water On Crops' Growth

By STEPHEN KENT
Associated Press Writer

OLYMPIA, Wash. (AP) — It could extend the growing season to bring crops to a premium price market earlier—or it could result in healthier weeds and larger insects.

It could prevent the cold breath of frost on fruit tree blossoms—or create an unnatural fog bank.

It's an experiment to determine the effect of using warm water to irrigate land.

One square mile will be irrigated with normal temperature water from the Columbia River. Another plot will be irrigated

with water which has been heated into steam by nuclear energy, used to turn the turbines powering the generators, condensed and disgorged at a rate of 450,000 gallons a minute.

The water will be used at a temperature of 90 degrees.

The test farm will include such crops as strawberries, asparagus and tomatoes which bring premium prices on an early market.

The project is a joint effort by the Atomic Energy Commission, the State Department of Commerce and Economic Development, the state water research laboratory and the Battelle Northwest Institute.

The three-to four-year experiment is estimated to cost about \$3.7 million. Primary purpose of the experiment is to test the effects of warm water on land. A secondary result would be finding a use for warm water from an atomic reactor. Federal and state pollution control agencies have established standards regulating the extent to which a river may be warmed by water put back into it.

Found Whiskey Hidden In Homes

Pitt ABC officers and constables Saturday night charged two persons with possessing non-tax-paid whiskey after finding booze hidden in their homes.

Annie Mae Barrett of 1002A Bancroft Ave. was charged with illegal possession of non-tax-paid whiskey for the purpose of sale when officers discovered a gallon of illegal spirits in her bedroom.

O.D. Knight, 39, of Route 1, Bethel was indicted on charges of illegal possession of non-tax-paid whiskey when a half-gallon was found in his house.

Both were recognized to appear in Pitt County Recorder's Court to answer the charges.

Fire Damaged Tobacco Barn

BETHEL—A tobacco barn on the farm of Thomas Williams, located three miles east of Bethel, was slightly damaged by fire Sunday morning.

The fire started from flames shooting up from faulty burners. A fire truck was dispatched from Bethel; however, the fire was put out by time the truck arrived.

The tobacco in the barn was smoke-damaged, but the barn suffered only light damage.

N.C. Seedmen To Hear Godfrey

WINSTON-SALEM (AP) — Horace Godfrey, administrator of the Agricultural Stabilization and Conservation Service program, speaks to the North Carolina Seedmen's Association at its convention today in Winston-Salem.

Some 200 delegates registered Sunday afternoon and earlier today at the Robert E. Lee Hotel. Other speakers during the two day program include Archie K. Davis, board chairman of Wachovia Bank and Trust Co.; Ivan Neas, manager of the Agricultural Research Department of the R. J. Reynolds Tobacco Co.; and William B. Carter, a representative of the Cornell Seed Co.

(In 1966 a Mexican woman was the first person to survive a heart pump operation for an extended period.)

Your BANKAMERICARD® welcome here Buyer's Guide

Over 200,000 Carolinians look for this sign when they shop. Now you can, too.

We've brought BankAmericard to town. With it, you can shop all over town and at more than 8,000 North Carolina businesses. It's the fastest-growing credit card in North Carolina, and we are pleased to cooperate with North Carolina National Bank in bringing it to you. Here's why BankAmericard has become so popular.

It's good for almost everything.

BankAmericard is The Complete Credit Card. A retail credit card accepted by merchants in almost every kind of business. An entertainment credit card accepted by restaurants and clubs. A travel credit card accepted by service stations, car rentals, airlines, hotels and motels. A professional service credit card accepted by doctors and dentists. And it's good throughout North Carolina and in many cities across the country.

Just one monthly bill.

BankAmericard makes budget-balancing simple. You get just one monthly bill for everything you buy. It's itemized, so you know just where your money's going. And you have just one check to write.

Up to 20 months to pay.

If it suits your budget better, you can spread your payments up to twenty months with just a slight service charge. So you don't have unnecessary strains on your budget.

It's good for cash, too.

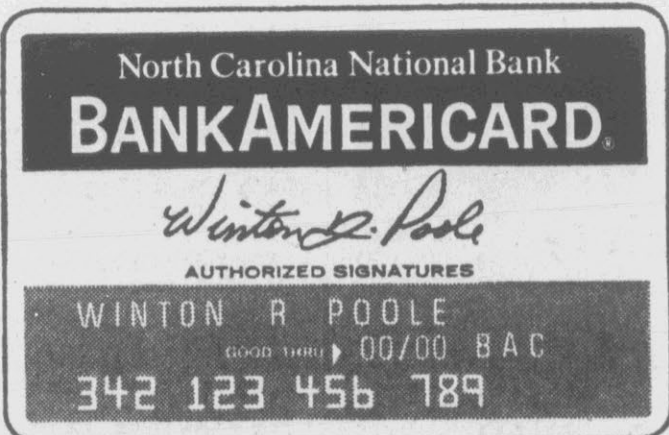

With BankAmericard, you can even "charge" cash. You can get up to \$500 at our bank with no red tape. So you don't have to worry about running short of money.

No fees, no dues.

Unlike most credit plans, there are no membership fees, no annual dues, no "hidden" charges in the BankAmericard plan. You pay just a slight service charge for extended payments.

It's easy to join.

Just pick up an application form at our bank or at any business displaying the "BankAmericard welcome here" sign. It takes just a few minutes to fill it out. So sign up now. And start enjoying the conveniences of The Complete Credit Card.

Congress Tempted To Invade Monetary Field

By JOHN CUNIFF
AP Business Analyst

NEW YORK (AP) — A temptation to involve itself in the affairs of the Federal Reserve Board, that semiautonomous group that steers the nation's monetary policy, may be growing stronger in Congress.

The consequences could be far reaching, for the board in economic and financial affairs is

something like the Supreme Court in law.

Its role, as it has been acted out, is to watch the economy and keep it in line—by raising or lowering basic interest rates, for example—regardless of the feelings of even so important a man as the President.

Over the years it has built a reputation as a service and sometimes gloomy group not to

be trifled with by Congress or anyone else. And so long as it didn't violate the laws, Congress couldn't move quickly against it.

However, Congress does control the laws under which the Fed acts, and it is now considering changes in them.

One measure would have the Fed release billions of dollars into the housing market when a lack of funds threatens a downturn in activity.

This proposal already has been called by Reserve Board Chairman William McChesney Martin, a man who shuns publicity but wins it nevertheless with colorful phrases, "a prostitution of the fundamental functions of the bank."

Meanwhile, Congress is also digesting a report from the Joint Economic Committee that suggests the establishment of guidelines for the Fed in its role of money supplier. The permissible yearly increase would be 2 to 6 per cent.

Sen. William Proxmire, D-Wis., committee chairman and often a critic of Fed activities, readily states that the report "breaks sharply with Congress' traditional hands off the Fed."

There may be a clue to future events in that phrase, for some critics feel the independence of the board has been damaging to the nation's economy. Congress could change the laws; its hand could become heavier than in the past.

This is a long and sometimes interesting past. In 1913 the Federal Reserve was set up as a central bank to give the nation an elastic currency, one that would expand and contract with activity, and to supervise the banking system.

Originally the secretary of the Treasury was chairman of the board, and so chances of a conflict with the executive branch were unlikely. But in 1935 the Treasury representation was removed.

As the years went by it was recognized that the basic aims of the Reserve Board involved it also in other affairs of state. And in 1946, when it became an official goal of economic policy to seek maximum employment consistent with a balanced economy, the Fed's role became even more complex.

In handling the nation's monetary affairs, the Fed's objectives now are: Maximum sustainable economic growth, reasonable price stability, maximum practicable employment and equilibrium in international payments.

Eventually in carrying out these objectives the Fed was bound to differ with Congress and the President. And on Dec. 2, 1965, there developed a confrontation with Lyndon Johnson. The President was spending heavily and otherwise following an expansive fiscal policy. The Fed stepped in and countered with a restrictive monetary policy; it raised interest rates.

This is like braking and accelerating at the same time, only worse. It also damages the machinery; it sets the gears running in opposite directions.

The Fed was praised for its independence but it was damned also. A congressman accused Martin of being a monetary dictator. An economist called the move "an arrogant exercise in self-assertion." A professor termed it "unwarranted anachronistic, ineffective and undemocratic."

The main thrust of the criticism was that the Fed should be made more responsive to the public interest by forcing it to coordinate its moves with fiscal policy.

Nothing much was done about the criticisms at the time, but the argument has continued to simmer. In fact, Congress might be dealing with some aspects of the situation right now.

Pilot Film Of Variety Show

By BOB THOMAS
AP Movie-Television Writer

HOLLYWOOD (AP) — NBC is spending a few hundred thousand dollars on the proposition that advertisers and audiences would support a weekly television variety show enacted entirely by Negroes.

Last week the pilot film of "Soul," a one-hour musical with Lou Rawls, Nipsey Russell, Redd Fox, Chambers Brothers, George Kirby and others was taped at the NBC Burbank studios. No one would say what the cost was, but comparable specials cost \$300,000 or more.

The show is aimed for presentation as a special, possibly this fall, with the hopes that it might lead to a weekly series during the January self-session switch in programming. That was the history of last season's biggest hit, "Laugh-In." It is no coincidence that "Soul" is being presented by the "Laugh-In" mentors, Producer George Schlatter and his partner, Ed Friendly, and the writer-creator of the show, Digby Wolfe.

All three were hovering protectively around the "Soul" taping. They watched as the leading performers enacted a barbershop scene in which comments were made on the racial scene.

Samples:

"I hear they're going to move a colored family into 'Peyton Place.'"

"No kidding! What color?"

"Soon's we move in, maybe all those crazy folks will move out!"

"I'm waiting for them to put one of us on the King Family," Schlatter and Wolfe discussed the origins of "Soul."

"It happened on the night of the Emmies," said Schlatter ("Laugh-In" walked off with four awards that night). "It was

one of the great coincidences of all time: I told Digby that I had just gotten approval that day to go ahead with an all-Negro musical hour aimed for a weekly series."

"And I told George that just that day we had received approval from the Writers Guild to admit three Negro writers for the purpose of working on just such a show," said Wolfe.

"These were people from the Watts Writers Workshop, where I had been working for some time, and the discussions about the show had been going on for a year."

Enlisted for the project were neophytes Jeanne Taylor, Larry Reed and Cal Wilson. None had any professional experience except Jeanne Taylor, who had a

"And it will have a modern look to it. The format won't be just like 'Laugh-In,' because there will be an emphasis on music. But it will have a similar sense of pace. That is the modern method: Audiences want their entertainment briefer nowadays; they don't want long numbers and sketches."

Wolfe added: "We are presenting the Negro viewpoint without venom. The show should be able to capture the Negro audience, because they will know that the show is about themselves. And I think it will get a large amount of white audience which will be attracted by the entertainment values."

In handling the nation's monetary affairs, the Fed's objectives now are: Maximum sustainable economic growth, reasonable price stability, maximum practicable employment and equilibrium in international payments.

Eventually in carrying out these objectives the Fed was bound to differ with Congress and the President. And on Dec. 2, 1965, there developed a confrontation with Lyndon Johnson. The President was spending heavily and otherwise following an expansive fiscal policy. The Fed stepped in and countered with a restrictive monetary policy; it raised interest rates.

This is like braking and accelerating at the same time, only worse. It also damages the machinery; it sets the gears running in opposite directions.

The Fed was praised for its independence but it was damned also. A congressman accused Martin of being a monetary dictator. An economist called the move "an arrogant exercise in self-assertion." A professor termed it "unwarranted anachronistic, ineffective and undemocratic."

The main thrust of the criticism was that the Fed should be made more responsive to the public interest by forcing it to coordinate its moves with fiscal policy.

Nothing much was done about the criticisms at the time, but the argument has continued to simmer. In fact, Congress might be dealing with some aspects of the situation right now.

of the Reserve Board involved it also in other affairs of state. And in 1946, when it became an official goal of economic policy to seek maximum employment consistent with a balanced economy, the Fed's role became even more complex.

Serve Ostrich At Restaurant

OUUDTSHOORN, South Africa (AP) — Gourmets with a taste for ostrich can order the delicacy at the Flamingo restaurant in the center of South Africa's ostrich industry. The a la carte menu includes ostrich gizzard, said to be similar to veal and served with sour cream sauce, ostrich venison, wing-tip and savory ostrich egg which is boiled for two hours and served on a plank with anchovies and jelly.

'VICE' IS OUT

NEW DELHI (AP) — Vice-Admiral R. K. Chatterji drops his "vice," a newspaper reported, on Chatterji's elevation as Admiral of the Indian Navy.

SAGE ADVICE

(© 1968 by The Chicago Tribune)

ANSWERS TO BRIDGE QUIZ

Q. 1—As South, vulnerable, you hold:

♠A1074 ♣1073 ♢KJ94 ♣A6

The bidding has proceeded:

North East South West

1♥ Pass 1♠ Pass

2♦ Pass

What do you bid now?

A.—This hand is the equal of an opening bid. Since partner has opened and then jumped, you should make a tentative estimate of a slam. You may take a chance on a direct bid, but as you may pass with an ace showing bid of four clubs and then support hearts vigorously on the next round.

Q. 2—Neither vulnerable, partner opens with one club, and you hold:

♠AK4 ♣KQ93 ♢KJ94 ♣A62

What is your response?

A.—The hand has the proper point count for a three no trump response (16 points), that is not our choice. We favor restricting the use of the three no trump response to hands that are distributed 4-3-3-3. A superior contract may be reached in hearts or diamonds if partner happens to have four of either suit. We vote for a temporary bid of one heart, intending to provide bidding fireworks later.

Q. 3—East-West vulnerable, as South you hold:

♠A3 ♣A6 ♢K107542 ♣K62

The bidding has proceeded:

South West North East

1♦ Pass 2♦ Pass

3♦ Pass

What do you bid now?

A.—Your partner hasn't very much, but he seems to have it where you need it most. There should be a fair chance for nine tricks, so you ought to try two no trump and see his reaction.

Q. 4—As South, vulnerable, you hold:

♠AJ94 ♣1093 ♢K63 ♣AK5

The bidding has proceeded:

South West North East

1♠ Pass 1♥ 2♦

2♣ Pass 3♥ Pass

What do you bid now?

A.—While normally a 4-3-3 distribution should dampen your ardor, it should not be a deterrent in cases where partner has shown a two suiter and you have the side suits well taken care of. Your hand, containing one trick in the minor suits and trust to lose no more than two in the majors. Bid four spades.

Q. 5—Both vulnerable, as South you hold:

♠J10643 ♣K105 ♢A109652

The bidding has proceeded:

West North East South

1♠ Dble. Pass 1♠

Pass 3♥ Pass

What do you bid now?

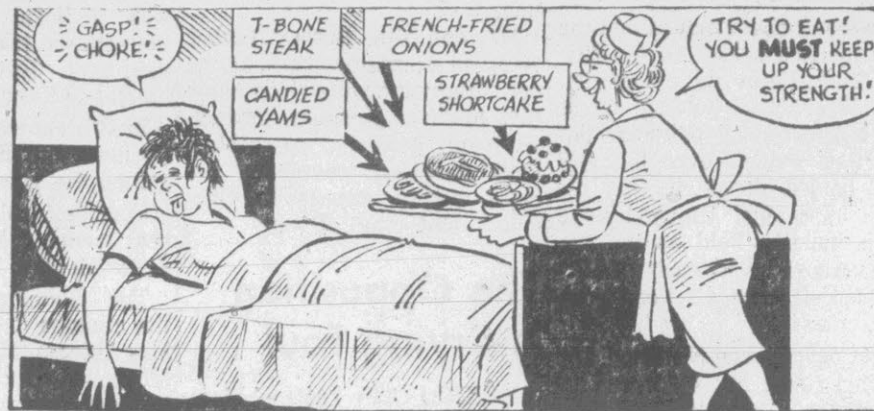

A.—A jump in a new suit following a take-out double is not 100 per cent forcing, but it may be passed only if responder has a hand which could not possibly produce tricks. That cannot be said of your hand which contains a king, a jack, and a five-card suit. It is your duty, therefore, to bid three spades

The Worry Clinic Learning Is Part Of A Lifelong Process

Myrtle Walgreen has learned the vital lesson of all true scholars, namely, that you must become your own lifelong "professor." Use this newspaper, for it is actually a "University in Print." Urge your children to imitate Mrs. Walgreen's plan and pay them for this book—publishing job. That helps prevent future school dropouts, too!

By GEORGE W. CRANE
Ph. D., M. D.

CASE G-519: Myrtle Walgreen, aged 89, is a dynamo of energy. She helped her husband found the great drug chain that bears their name.

But she, herself, has become such a famous color photographer and lecturer that she recently received a LL.D. degree.

"Dr. Crane," she told me at my Bible Class, "if you ever need any back copies of your 'Worry Clinic,' just ask me!" "For I clip them out of our daily DIXON TELEGRAPH and have a complete scrapbook."

Thousands of doctors and tens of thousands of cultured parents do likewise.

For the daily newspaper is actually a tremendous "University in Print."

In this daily column, moreover, I offer you 313 actual office cases per year, dealing with almost every conceivable problem in psychology as well as psychiatry.

And I present them in terse, clearcut words instead of trying to throw my weight around in fancy polysyllables.

Many doctors have their office secretaries or nurses not only maintain a complete scrapbook, as Mrs. Walgreen does, but then they index the cases by number and topic.

As you have noted, I employ what is called the "Smorgasbord" format and thus include one practical case on child psychology each week.

That gives you 52 specific chil-

Ticketless Rides Cost Railways

NEW DELHI (AP) — Ticketless travel results in a loss of revenue to the Indian railways of rupees 100 million—\$13.3 million—a year, an official spokesman said.

The railways is the largest government-operated undertaking, employing more than one million men.

It suffered a further loss of rupees 34 million—\$4.5 million—in the past year due to accidents, damage during riots and in compensation payments for thefts of booked consignments.

Man And Wife Magna Cum Laude

ST. LOUIS (AP) — The University of Missouri at St. Louis had a man and wife who graduated magna cum laude in its 1968 class.

Stephen Novack copiled a grade average of 3.76 while his wife, Ilene, had a 3.50 average.

A perfect score is 4.0. The couple was married last December (1967). They had known each other since high school.

Ilene will be a teacher and Stephen faces a year of active duty in the Army.

dren problems each year, which amounts to a small textbook on "Child Psychology," courtesy of this newspaper.

Then I usually cover two cases per week that deal with love and marriage dilemmas.

Plus one case on how to improve your personality.

Another deals with psychosomatic ailments or abnormal psychology, always slanted to the daily needs of Americans.

Finally, I insert a specific case on psychology as applied to teaching or preaching, advertising, etc.

You clever parents can help encourage your children to become more interested in newspaper reading, by giving them the task of clipping out this daily column and scrapbooking it.

Also, show them how to compile an "index."

And pay them for this daily chore, for your money will then produce double dividends, since it will make them "book minded" at the same time that they are gaining spending money.

And if you send for the non-profit educational booklets that are offered herewith (37 of them in total), have your child add them to the back of your daily scrapbook.

When parents can win the cooperation of their kiddies in such educational projects, the children will be motivated far better to study their school books, too.

Such youngsters are thus not likely to become dropouts!

And they will meanwhile read many helpful bits of strategy by which to win friends, study more efficiently, etc.

Send for my booklet "20 Ways Children Can Earn Spending Money," enclosing a long stamped, return envelope, plus 20 cents.

Never give your child an "allowance!" That's an un-American plan that promotes the "dole" psychology and financial weaklings in adulthood!

Instead, pay them by the job, piecework fashion!

(Always write to Dr. Crane in care of this newspaper, enclosing a long stamped, addressed envelope and 20 cents to cover typing and printing costs when you send for one of his booklets.)

Public Notices

NOTICE OF SALE OF CHEVROLET, 1963, 2-DOOR CONVERTIBLE AUTOMOBILE North Carolina

By the power vested in Wachovia Bank & Trust Company as Executor of the Estate of Marion Orlando Blount, II, deceased and pursuant to G. S. 28-72.1 of the North Carolina General Statutes, notice is hereby given that said Executor will sell for cash, by public auction, to the highest bidder, on Friday, the 12th day of July, 1968, at 12:00 Noon, at the door of the Pitt County Court House, Greenville, North Carolina, a CHEVROLET, 1963, 2-door convertible automobile equipped with air conditioner, power steering, and power brakes, low mileage. The seller reserves the right to reject all bids.

This 1st day of July, 1968 Wachovia Bank & Trust Company, Executor of the Estate of Marion Orlando Blount, II, Deceased F. M. Wooten, Jr., attorney July 2, & 11, 1968

NOTICE OF SALE North Carolina Pitt County Under and by virtue of the power of sale contained in a certain deed of trust executed by Willie Joyner and wife, Margaret F. Joyner, to Charles C. Cameron, Trustee, dated the 16th day of April, 1959, and recorded in Book Y-30, page 228, Pitt County Registry, and under and by virtue of the authority vested in the undersigned as substituted trustee by an instrument of writing dated the 24th day of June, 1968, and recorded in Book U-37, page 609, Pitt County Registry, default having been made in the payment of the indebtedness thereby secured and the said deed of trust being by the terms thereof subject to foreclosure, and the holder of the indebtedness thereby secured having demanded a foreclosure thereof for the purpose of satisfying said indebtedness, the undersigned substituted trustee will offer for sale at public auction to the highest bidder for cash at the courthouse door in Greenville, North Carolina, at two o'clock P. M., on the 31st day of July, 1968, the interest in the land conveyed in said deed of trust and described as follows:

BEGINNING at a stake located in the northern property line of Greenfield Boulevard, said stake being 110 feet westerly of the intersection of the northern property line of Greenfield Boulevard and the western property line of an unnamed street; said property lines were extended; and running thence with the dividing line of Lots Nos. 1 and 2, N. 17-27 E. 150 feet to a stake, a corner; and running thence S. 72-33 E. 103.5 feet more or less to a stake, a corner located in the western property line of the above referred to unnamed street; thence with the western property line of said unnamed street S. 14-59 W. 150.1 feet more or less to a stake; thence with the northern property line of Greenfield Boulevard N. 72-33 W. 110 feet to the point of Beginning; the above being all of Lot No. One (1) in Block "B" of the Greenfield Terrace Subdivision as shown on map prepared by Thomas W. Rivers and filed of record in Map Book & Page 17 of the Pitt County Registry, and also an additional portion of land north of and contiguous to Lot No. 1, Block "B," Thence is excluded from this description that portion described which is outside of the curved southeast corner of said lot, said curve having a radius of 25 feet.

The 1st day of July, 1968, Joseph F. Bowen, Jr., Substituted Trustee July 8, 15, 22 and 29, 1968

Stock And Market Reports

RALEIGH (AP) — (NCDA)—North Carolina hog markets today were steady. Tops of 21.25 at Rocky Mount; 21.00 at Bethel; 20.75-21.50 at Wilson; 22.00 at Clinton, Fayetteville, Dunn, Elizabethtown, Pink Hill, Pine Level and Chadbourn; 21.00 at Greensboro and Salisbury; 20.75 at Siler City and Denton.

POULTRY **RALEIGH (AP) — (NCDA)**—North Carolina poultry market today was steady. Price of live poultry at the farms was 14½ cents per pound.

NEW YORK (AP)—The stock market rocketed to a sizable gain this afternoon after a four-day rest.

Gains outnumbered losses by more than 3 to 1. The Dow Jones industrial average at noon was up 8.36 at 911.87.

At midday, volume was about 2½ million more shares than for the like period on Wednesday.

day, the last trading day prior to the July 4 weekend.

Brokers saw the rally as a continuation of the surprise advance that had come Wednesday, when normally cautious would have been expected prior to a four-day stretch when markets would be closed. Some Wall Streeters attributed the rise to strong reinvestment demand, typical of the "traditional summer rally."

The Associated Press average of 60 stocks at noon was up 2.6 at 347.6 with industrials up 2.9, rails up 2.0 and utilities up 1.3. Bobbie Brooks leaped to the top of the most-active list due to sale of a block of 227,500 shares at 19½, up ½, adding fractionally to a gain.

Other big blocks crossed the tape. TRW was off ¼ at 56 on a block of 53,300 shares, later erasing the loss and moving fractionally higher. H. J. Heinz rose 1¼ to 60 on a block of 30,000 shares.

Prices were strong on the American Stock Exchange.

Dr. John Ebbs Is Named Program Regional Judge

Dr. John D. Ebbs, an East Carolina English professor, has been named a regional judge for the National Council of Teachers of English Awards Program for 1968. He will evaluate writing skills and literary awareness of high school seniors entering the contest.

The awards program attempts to recognize high school seniors for excellence in English. Finalists will be announced in November and will be recommended for scholarship aid to U.S. colleges and universities.

Participants are nominated for the program by their teachers and take tests and submit writing samples to NCTE. These writing samples are judged regionally by judges such as Dr. Ebbs.

Dr. Ebbs joined the ECU faculty in 1960, after teaching English at Clinton High School, Texas A and M, the University of North Carolina at Chapel Hill, and High Point College. He

earned his bachelor's, master's and doctor's degrees at UNC-CH.

NCTE is a professional organization of English teachers. Its 185,000 membership is made of teachers from primary grades to graduate schools.

Israel Sees No Nasser Change

JERUSALEM (AP) — Israel says Egypt's reported willingness to let a U.N. peacekeeping force return to the Sinai Desert is a cover-up for its refusal to undertake direct negotiations with the Zionist state.

Israeli Foreign Minister Abba Eban said in a radio interview Sunday the Egyptian gesture was like "throwing sand in the eyes."

"This is where we came in," he added.

Senior diplomats in London said last week that President Gamal Abdel Nasser had agreed to the return of U. N. troops on Egyptian soil as part of an Arab-Israeli settlement.

Nasser's expulsion of the U.N. peacekeeping force resulted in a direct confrontation between Israeli and Egyptian forces in June 1967, and the Egyptians were overwhelmed in the war that followed.

In Cairo, the official Middle East News Agency reaffirmed Egypt's refusal to take part in peace negotiations with Israel. It also said that Egyptian Foreign Minister Mahmoud Riad was misquoted last week when he was reported to have said: "We accept the realities and one of those is Israel. We only want peace now." Riad has been visiting Scandinavian capitals.

The renewed Arab hard line was also emphasized by Nasser, who told a gathering of Arab students in Moscow Sunday that "a head-on clash with Israel might become inescapable."

Nasser, visiting Moscow for talks with Soviet leaders, was reported to have said "what was taken by force can only be taken back by force," and "we may resort to war to liberate our occupied lands."

Charge N. Korea With Violations

PANMUNJOM, Korea (AP) — The U.N. Command charged North Korea today with 22 infiltration attempts across the demilitarized zone in the past two weeks and warned against any Communist miscalculation of its intention to defend South Korea.

In one of the border incidents, the command said, U.N. forces intercepted three infiltrators, killed one and wounded another.

The charges were made at the 272nd meeting of the joint military armistice commission by U.S. Maj. Gen. Gilbert H. Woodward, the senior U.C. Command delegate.

Obituaries

Corbett

AYDEN — Mrs. Bernice H. Corbett, 66, died early Monday morning at Pitt Memorial Hospital.

Funeral services will be held Tuesday at 3 p.m. from the Britt and Farmer Funeral Chapel. Rev. Kemery Ard, pastor of the Ayden Free Will Baptist Church, will officiate, assisted by Rev. Harold Jones.

Burial will follow in the Ayden Cemetery.

Mrs. Corbett was a member of Elm Grove Free Will Baptist Church. She was the wife of the late Willie Corbett.

Surviving are one son, Guy H. Corbett of Ayden; two daughters, Mrs. Lyman McRoy and Mrs. Louie L. Tyndall, both of Ayden; three grandchildren; two brothers, Herman Harris of Grifton and Dempsey Harris of LaGrange; two sisters, Mrs. Josephine Stocks and Mrs. Roxie Corbett, both of Ayden.

The family will be at the home of Mrs. Louie Tyndall, 801 W. 9th Street in Ayden.

Purvis

Funeral services for Mr. Willie Purvis who died Friday evening after a short illness will be conducted Tuesday at 2:30 p.m. at Flemming Chapel Methodist Church by Rev. W. J. Best. Burial will follow in the Brown Hill Cemetery.

Surviving him are his wife, Mrs. Bernice Purvis of the home; nine daughters, Linda, Jean, Diana, Brenda Joyce, Lorraine, Ella Mae, and Bessie Lee Purvis; one son, Willie Jr., and four grandchildren. Also surviving are his mother and father, Mr. and Mrs. Luther Purvis of Greenville; five sisters, Mrs. Annie Lee Harris, Mrs. Redelphia Burnett, and Mrs. Bertha Rea Evans of Greenville; Mrs. Pattie Mae Williams of Philadelphia, Pennsylvania, and Mrs. Rosa Lee Mayo of Newark, New Jersey; three brothers, William and Robert Purvis of Greenville, and Roosevelt Purvis of Philadelphia Pa.

The body will be taken to the home, Rt. 4, Greenville, Monday night.

Cancelling Insurance Protection

NEW YORK (AP) — Insurance companies digging deeply into their pockets for property losses incurred from racial disorders, have been cancelling policies, state and city officials have disclosed.

To head off further cancellations, new laws are being sought. One measure signed last Wednesday by New Jersey Gov. Richard J. Hughes creates a high risk pool for danger areas similar to certain types of automobile insurance coverage.

New York State expects to follow suit on the pool plan in September.

Insurance officials have said the Royal Globe Insurance Co. and Continental Insurance Co. sent out policy cancellation notices before the Fourth of July.

However, a New York insurance official says virtually all firms that write insurance in the slums have acted to cancel some policies and are turning down others.

Paterson, N.J., has been notified that the fire insurance on its public school system will not be renewed when it expires July 15. Paterson was the scene last week of racial violence.

Most New Jersey policy cancellations were in the slum areas of Paterson, Trenton, and Newark. Damage estimates last July in Newark ranged up to \$10 million in five days of rioting.

Starting On New Kidney Designs

PASADENA, Calif. (AP) — An introductory course in chemical engineering at the California Institute of Technology, will concentrate on the design of a cheap and safe artificial kidney.

"We're trying to show our sophomores—through the use of this realistic problem—how science and engineering can be applied to important human needs," says Dr. William Corcoran, chemical engineering executive officer.

Students will visit hospitals, researchers and medical equipment manufacturers, Corcoran said, thus dealing with cost, maintenance, medical and biological problems in addition to chemistry.

Gun Hearing

WASHINGTON (AP) — Suitcases and boxes stuffed with petitions for strict gun controls were carted into a Senate hearing today while a House committee prepared to act on a sweeping proposal to ban mail order sales of all firearms.

Senators were told the petitions carried more than one million signatures.

With both wings of Congress at work today on the gun control measures, a bill is expected to emerge from the House this week. But there is still doubt whether a stricter law can be sent to the White House before Congress goes home next month.

First Act Is To Suspend Unit

DALLAS, Tex. (AP) — The first official action of a North Carolina woman who became president of the National Education Association over the weekend was to recommend the temporary suspension of a local education association.

Mrs. Elizabeth D. Koontz, a Negro teacher from Salisbury, said the NEA's executive committee acted against the Dekalb, Ga., Education Association because it "violated the rights" of some of its members.

She told the executive committee the suspension should be taken "as an indication of the willingness of the National Education Association to keep its house in order."

The group's Professional Rights and Responsibilities Commission had reported that some teachers in Dekalb County were intimidated and some were forced to leave the system because they did not agree with the administration.

The executive committee notified the Dekalb organization that it is required to prove "within a reasonable period of time" why it should not be censured, suspended or expelled from the NEA.

Last Bastion Of French Student Rebels Is Taken

PARIS (AP) — The last major bastion of the student rebellion at the University of Paris fell without a fight today.

Police at dawn moved into the new medical school on the Rue des Saints-Peres and evicted the last 17 students holding out in the big four-story building. The red flag waving over the roof was hauled down. It was the last important University of Paris building held by the students whose revolt early in May touched off France's worst post-war crisis.

The police were helmeted and carried rifles, but there was no resistance. The students, who included four girls, whistled and joked as they were taken away for questioning.

The holdouts had been waiting for days for the police to come. They said they would not oppose them.

"A single tear gas bomb through the windows would send us all running," said one.

On June 16 the police took over the Sorbonne, the headquarters of the revolt. The school of fine arts, which produced anti-De Gaulle posters, was taken on June 27. Last Friday it was the turn of the school of science and the new Sorbonne annex on the Rue Censier.

There was no resistance at any of them. A few dozen students were taken to a police station, and some were kept overnight. Some of them wrote newspapers charging that they were not fed nor allowed to call their parents.

Police also arrested a few persons who were not students, including several of the "Katangese" who had made trouble at the Sorbonne. They got their name from some of their number who said they had served with mercenary troops in the Congo's Katanga province.

About 30 million pounds of dried codfish are prepared in the United States each year.

Winterville Grads Of 1943 In Reunion

WINTERVILLE — Members of the 1943 graduating class of Winterville High School held their 25th anniversary reunion Saturday at the Winterville Community Building. This was the first reunion held since graduation.

Mr. and Mrs. Burney Tucker received class members at the door. Members were given name tags made of graduate silhouettes and booklets, resembling their diplomas, containing the class officers, class motto, class colors and class flower.

The Opposition Is Crying Foul

MEXICO CITY (AP) — Mexico's ruling Institutional Revolutionary party claimed an overwhelming victory today in elections in five states and the opposition cried foul.

The party based its victory claim on preliminary vote totals from Durango, Coahuila, Michacan, Zacatecos and Campeche. The states elected governors and members of the state legislatures.

The National Action party accused PRI supporters of ballot box stuffing, electioneering at the polls and forming "flying squads" of voters who raced from one polling place to another to cast ballots several times.

NAME-CHANGE

NEW YORK (AP) — The New York Telephone Co. has announced a change in the name of its information service to Directory Assistance. It said that on an average business day last year 1.6-million requests were received for information such as baseball scores and not connected with finding phone numbers.

The community building was decorated in class colors of purple and white. A bulletin board was decorated with snapshots and newspaper clippings of the class members.

The main table was centered with a floral arrangement in memory of two deceased class members, Joyce Jackson Williams and Kenneth Ray Jackson.

Invocation was given by Leroy Forlines and Blaine Moye welcomed the guests and presided.

Former faculty members present included Mrs. Alex Evans, J. H. Mobley, and R. E. Boyd.

The planning committee for the reunion included: Mr. and Mrs. Blaine Moye, Mrs. Mable McGlohon Tucker, Mrs. Ruth Forlines Cannon, Mrs. Corina Forlines Keel, Mrs. Mary Forbes Forlines, Elwood Nobles and Wyatt Tucker.

Members of the class attending were J. D. Buck, Billy Dail, Linwood Dail, Mary Forbes Forlines, Corina Forlines Keel, Leroy Forlines, George William Griffin, Mildred Grubbs Skinner, Earl Harris, Lee Arnold Hooks, Lillian Joyner Pope, Mable McGlohon Tucker, Blaine Moye, Elwood Nobles, Wyatt Tucker, Ruth Vincent Cannon, Horace Wainright, Elizabeth Worthington Dail and Lila Worthington Moye.

Pre-Registers At Chapel Hill

CHAPEL HILL — James B. Congleton of Stokes, son of Mr. and Mrs. J. B. Congleton of Stokes has completed a day-long pre-registration session at the University of North Carolina here.

Entering students are encouraged to participate in pre-registration prior to their coming to the University in the fall. During pre-registration, students take placement tests, prepare their course of study, and familiarize themselves with the campus. It is co-sponsored by the Office of Undergraduate Admissions and the General College.

The enrollment of UNC is expected to exceed 16,000 in the fall. More than 2,000 of these are freshmen and 1,000 are transfer students.
