

HAPPY EMBRACE — Luci meets her husband on his arrival in Honolulu. Their son, Lyn, is 17 months old today. (AP Wirephoto)

Happiness Is A Honolulu Reunion

By WILLIAM H. DONHAM
HONOLULU (AP) — Airman 1C. Patrick J. Nugent was greeted with a hug and a kiss from his wife and a shy salute from his 17-month-old son Wednesday as they were reunited after nearly eight months.

The salute from son Lyn was President Johnson's idea, said Mrs. Nugent, the President's younger daughter.

And the hug and kiss? Well, said Luci, 21, she had not rehearsed anything to say to her husband, 25, who arrived with about 100 other U.S. servicemen on leave from Vietnam.

Asked about their plans for his week-long stay in the islands, Luci said: "It depends on what my husband wants to do. He's the boss of the family."

She arrived a week ago and said the long wait was "the most glorious waiting period a woman could have." Holding Lyn, she stood in a double line at Ft. Derussy in Waikiki with other servicemen's wives waiting to see their husbands.

Nugent arrived on a gray military bus from Honolulu International Airport and walked down the long line looking for his family.

After his parents embraced, Luci, dressed in a model of his dad's uniform, gave his salute.

Nugent said he has "about 4 1/2 months to go" in the war zone. But he doesn't know when he will be able to leave the Air Force. He is a load master in the 309th Operations Squadron.

Asked what he plans to do when he gets out of the service, Nugent said he may go back to the Johnson family television station in Austin, Tex.

"I'll be one of you all," he told newsmen.

In Washington, President Johnson's elder daughter, Luci, said she plans a similar reunion with her husband, Marine Maj. Charles S. Robb, sometime in mid-December.

Mrs. Robb, 24, said the reunion probably will be in Hawaii, but she declined to say exactly where.

"I want as much privacy as we can get," she said.

Asked about their plans for his week-long stay in the islands, Luci said: "It depends on what my husband wants to do. He's the boss of the family."

Extensive Fires Are Reported

Hopes For Coal Mine Rescue Dim

MANNINGTON, W. Va. (AP) — Hopes of rescuing the 78 miners trapped deep in a burning coal mine dimmed further today with an announcement that the fire in the shafts increased during the night.

"Since last evening, all attempts to reduce the fire have failed," executive vice president William Poundstone of Consolidation Coal Co. told a news conference this morning.

"The fire has definitely spread during the night. That fact is obvious by the smoke which is now coming out of two shafts."

An explosion at daybreak Wednesday started the fire and a chain of explosions later sent flames throughout the deep shafts.

Twenty-one men either made it to the surface safely or were pulled from ventilation shafts by buckets on the end of a crane. But there has been no word from the 78 since the initial blast.

The smoke and intense heat kept rescue teams from entering the shaft in an effort to reach the trapped men.

Nixon Will Extend Stay In Florida

KEY BISCAYNE, Fla. (AP) — Richard M. Nixon, stretching his stay in Florida, is conducting discussions about the men who will make up his Cabinet, and the policies with which he will guide them.

But these deliberations are being described publicly only in the most broad and general terms. And the names under consideration are a carefully shielded secret.

The President-elect planned another round of manpower and policy talks today before heading back to New York, his nominal headquarters for the period of government transition but his base for only five days since his election.

Key participants in the current talks are Lt. Gov. Robert Finch of California, and John N. Mitchell, a partner in the Nixon law firm who served as his campaign manager.

Cabinet posts for both men are considered a possibility and a Nixon spokesman said their personal roles in the administration had certainly come under discussion.

Sources in the Nixon camp said Finch can decide for himself whether he will take a position on the White House staff or accept a Cabinet-rank job. But there is a question of whether Finch will leave his political base in California, where he led the Republican ticket in gaining his current post. Finch has told associates his eventual goal is a seat in the U. S. Senate.

H.R. Haldeman, Nixon's assistant who is emerging as a top man in the new administration, also joined the talks which began Wednesday, ran into the evening, and were to continue today.

Nixon, who had said he would be going to New York Wednesday, put off his departure for 24 hours and planned instead to go there late today.

Asked about their plans for his week-long stay in the islands, Luci said: "It depends on what my husband wants to do. He's the boss of the family."

PROTEST MONETARY MEETING — Students demonstrate in hall of Economics Ministry in Bonn where the "Group of 10" was meeting on the current monetary crisis. Demonstrators are carrying signs charging that a mark revaluation would betray West German workers and that French franc crisis was France's own fault. The "Group of 10" is composed of men who run treasuries and central banks in the world's 10 wealthiest nations. (AP Wirephoto)

Outlines For Money Solution 'Emerging'

BONN, Germany (AP) — Pres- lock early today.

Conrad Ahlers, a West German government spokesman said pressure for the Bonn government to revalue the mark upward had ebbed. But he gave no details.

In the meeting were the economics and finance ministers and national bank governors from the West's 10 chief trading nations. Their aim was to bolster the French franc and stabilize the international monetary system.

"The outlines for a solution are beginning to emerge," said West German Finance Minister Franz Josef Strauss.

He spoke to reporters during a lunch break in the meeting that began this morning after a nine hour session that started Wednesday broke up in a dead-

In Paris, the Bank of France announced that the nation's official reserves fell another \$178.4 million under the pressure of heavy speculation last week. It was the biggest loss in 18 weeks and it pushed the total of France's gold and foreign currency reserves below \$4 billion for the first time in years.

Money markets in France and West Germany were closed.

Markets in London also were shut and most dealers expressed a belief they would be kept closed until Monday.

There were some indications that the action had eased slightly the tension that had been building up in exchanges and stock and gold markets for days.

Gold at this morning's fixing in London eased off 30 cents from Wednesday's level to

Three Aircraft Are Shot Down

By GEORGE ESPER
SAIGON (AP) — Three U.S. aircraft have been shot down near Da Nang, killing eight Americans and injuring 12 others the U.S. Command announced today.

The allied commands also reported that Viet Cong and North Vietnamese casualties increased last week while those of U.S. and South Vietnamese forces dropped. The totals were 1,838 of the enemy killed, 127 Americans and 128 South Vietnamese.

The aircraft lost were a big Marine CH46 helicopter, an F100 Super Sabre jet and an F4 Phantom jet fighter-bomber. The helicopter was shot down Wednesday as it was landing in a dry area where South Vietnamese forces killed hundreds of North Vietnamese in a can were killed and 12 were wounded in the helicopter crash. The chopper was the 926th helicopter downed in combat during the Vietnam war, a spokesman said.

The Super Sabre was shot down northwest of Da Nang Wednesday as it was directing bombers to their targets, and the Phantom was downed in the same area Tuesday. The Phantom's two crewmen were killed, but the two men aboard the Super Sabre were rescued by helicopter.

Tripp Given Endorsement Of Pitt Board

Pitt County Commissioners in a special session last night, approved a resolution endorsing W. Arthur Tripp for appointment to the North Carolina Highway Commission.

Action by the county commissioners followed similar moves by the Greenville Chamber of Commerce and Merchants Association last week, and by the Greenville City Council Tuesday night. The Bethel town board has also passed a resolution endorsing Tripp and similar action is expected by the governing bodies of other Pitt County municipalities.

New members of the highway commission will be appointed by governor-elect Robert W. Scott. The resolutions have been forwarded to Scott in hopes he will name Tripp to the roads body.

If appointed to the commission, Tripp would represent the Second Highway Division, including Pitt, Beaufort, Greene, Lenoir, Craven, Carteret, Jones and Beaufort Counties.

Mobs Gather For McNamara

CALCUTTA, India (AP) — Mob violence accompanying World Bank President Robert S. McNamara's visit to Calcutta continued into its second day today as police and students again clashed in front of the U.S. Information Service building.

Fighting erupted when police tried to disperse more than 200 students burning an effigy of McNamara.

Strike Again?

NEW YORK (AP) — Eight teachers were barred from entering a school in the Ocean Hill Brownsville district today and teachers' union president Albert Shanker indicated he might renew for a fourth time this fall — a citywide strike against the 1.1-million-pupil school system.

About 40 community residents and nonunion teachers blocked the eight, whose safe return to classes had been a condition of ending the city's 10-week education crisis.

Jordanians Repel River Crossing

AMMAN, Jordan (AP) — Jordanian forces repelled an Israeli attempt to cross to the east bank of the Jordan River and inflicted several casualties on the attackers, a Jordanian military spokesman said today.

He said the 10-minute clash in which machine guns and hand grenades were used, occurred when a Jordanian patrol encountered the Israeli unit south of the Demira Bridge about midnight Wednesday.

Utilities Commission Approves New Deposit Schedule

By ALVIN TAYLOR
Reflector Managing Editor
The Utilities Commission last night approved a new schedule of deposits for new residential customers.

The commission raised the deposit for electricity from \$5 to \$7.50. Gas deposit was increased from \$2.50 to \$5. The water deposit will remain the same at \$2.50.

City Manager Harry Hagerty, Commissioner Bruce Sugg and Business Manager Larry Brown proposed the new schedule.

The new deposits will apply only to new residential customers. It will not affect

present customers. Nor does it affect commercial or industrial, whose deposits are computed on a different basis.

Hagerty in reporting to the committee said the new rates are "substantially" below other power companies and towns of equal size.

The committee felt that because there are more transient customers than in previous years the increase would be "in keeping with the times," the city manager reported.

The new deposit rates will be effective Dec. 1. Commissioner Ray Minges, who said he felt the increase should be

greater, abstained in the voting.

If a customer leaves owing a utilities bill the deposits can be used toward payment. Otherwise the deposit is refunded to the customer when he leaves.

Mayor Eugene West and City Manager Hagerty requested that the commission turn over \$66,000 to the city to be used as payment of the city's portion of the Shore Drive redevelopment. The city pays 25 percent of the net project cost with federal funds financing the remaining 75 percent.

Improvements made by the Utilities Commission in the Shore Drive area are credited toward the city's share of the cost. The requested turnover is cash payment in addition to the credits.

The commission took no action on the request pending further study.

The commission approved the purchase of a bucket truck from Skyworkers, Inc. based on that firm's low bid. Skyworkers' bid was \$10,066 for the aerial device and \$3,000 for the chassis for a total of \$13,066.

Commissioners also approved a proposal from Skyworkers for the trade-in of another bucket truck which the commission now operates. The price for the second truck is \$11,336 and the trade-in allowance will be \$5,000 for a net of \$6,336.

The commission approved engineering surveys for sewer outfall lines along Greene Mill Run to the Greenville Country Club area and east of Memorial Drive to the Farmville Highway.

Director Charles Horne said plans are being made to install underground duct work on N. Greene Street at street

crossings as highway improvements are underway there. Horne said there were no funds in the budget for putting all the electrical wiring underground on N. Greene this year. However, this work will allow installation of the underground electric system in the future without cutting the newly installed streets.

The commission agreed that water lines can be installed in Pinewood Forest Subdivision within 12 months. Residents of the area, which is south of television station WNCN's offices, are petitioning for annexation to the city.

Says Mary Ann Beinecke: Youth Taking Up Embroidery

By VIVIAN BROWN
AP Newscaster's Writer

NANTUCKET, Mass. (AP) — Mary Ann Beinecke aims to put American women on the embroidery standard. Her unique non-profit home study course should result in "little embroidery groups being formed all over the United States," she says. "which would straighten out confusing embroidery terminology."

The pretty, blue-eyed wife of philanthropist Walter Beinecke has added the course to her list of needy ventures that include a needle school, cloth shops and handweaving projects that were begun to bring industry to this island.

"We've found that youth is tremendously interested in embroidery. Many people associate embroidery with the elderly, but the new idea of decorating homes with color and design is fascinating to young people who want to show their talents."

"Well, what do you do if you can't get to a school? The school must come to you," she explains.

Reception Given Dr. Miriam Moore Wednesday Night

Dr. Miriam Moore and her husband, William H. Moore, were honored by ECU President and Mrs. Leo W. Jenkins at a reception Wednesday night. Dr. Moore is dean of the School of Home Economics.

Dr. and Mrs. Jenkins and Mr. and Mrs. Moore received some 178 guests in the entrance hall of the Jenkins home.

Special guests at the reception included Margie Gilbert of Durham, Mr. and Mrs. William Fulford and Mr. and Mrs. Robert Windborn of Farmville, Mr. and Mrs. Winton Odom and Mr. and Mrs. Fodie Hodges of Lenoir County Community College, Kinston, Catherine T. Dennis of Raleigh and Lorna Langley and Iola Pritchard of N.C. State University, Raleigh.

Guests were directed into the dining room for coffee and party compliments served by Virginia Basnight, Patricia Benson, Ms. W. D. Hurley, Mrs. Norman Rosenfeld, Nancy Sears and Mrs. Julian Vainright.

Showers Given Miss Hudson

GRIFTON — Miss June Hudson, bride-elect of Randy Taylor of Kinston, was honored on Saturday night at a floating bridal shower at the Baptist fellowship hall.

Hostesses were Mrs. Linwood Thomas, Mrs. Thelma Coley, Mrs. Ralph Thaxton, Mrs. Robert Harris, Mrs. John Penuel, Mrs. Charles Rose and Mrs. Jack Whitt.

Mrs. Thomas greeted guests and presented them to Miss Hudson, her mother, Mrs. Horace Hudson, the bridegroom-elect's mother, Mrs. Willard Taylor, and his grandmother, Mrs. Howard Daughtry of Kinston. They were presented white gum corsages.

Mrs. Penuel directed guests to the refreshment table, which was covered with a white cloth and festooned with miniature ivy, a replica of the bridal couple centered with tables with tall white candles in crystal holders. Mrs. Rose poured punch.

Miss Hudson was honored on Sunday afternoon at an informal party by Miss Jeanne Penuel, Miss Joanna House and Miss Mary Wade at the home of Miss Penuel.

The refreshment table was covered with a white cloth and held white tapers in silver holders, a miniature bridal couple and ivy.

Miss Hudson was remembered with a gift from the hostesses.

Sweet Potato
PIE
Diener's Bakery
815 Dickson Avenue

There is a fee for the home course that was begun a few months ago from her Nantucket School of Needlework—the only one of its kind in the United States. It is sponsored by the Nantucket Historical Trust and its profits, if any, will go into education such as product research—a spinner to test special yarns.

For example they have the largest collection of metallics in the world—500 or so—but "more development and education are necessary before we can go ahead," says Mrs. Beinecke. She has been working two years on the metallics project.

"One thing at the school has led to another. We founded it to establish standards for judging needlework teachers and we became concerned that people didn't know the truth about embroidery terms. 'Crewel' is merely embroidery that uses crewel yarns. In needlepoint, the correct term is canvaswork. This course has been re-

Miss Midgette Entertained

GRIFTON — On Tuesday Mrs. Edward Rose and Mrs. A. A. Adams entertained at the Rose home at a bridal shower for Miss Robbie Jean Midgette, whose marriage to Mike McCray of Kinston will take place in December.

Guests were greeted by the hostesses and presented to the guest of honor.

In the living room, a color note of yellow and green was used with arrangements of yellow mums and candles. In the dining room the refreshment table was covered with a green cloth overlaid with an ecru lace cloth, yellow mums and candles graced the table.

Mrs. R. B. Midgette, mother of the bride-elect, poured punch and Mrs. David McCray, mother of the bridegroom-elect, served cake squares.

Miss Kathy Humphrey of Greenville presided at the bride's book. Mrs. Dickie Patton of Greenville assisted in the dining room.

Miss Midgette was remembered with gifts from the hostesses.

The gift table was decorated in white and silver wedding bells and a miniature bride doll.

searched so that teachers and students will be talking about the same thing.

"We are not just teaching embroidery stitches. Students become aware of techniques. Suddenly, they are going to stop and think that they have really been doing needlepoint and crewel embroidery and that the stitch they've used can be used on anything—linen, velvet, open mesh canvas."

It took three years to test and write the course, she says. A newsletter, "The Traveling Needle," will keep embroiderers in contact with other embroiderers in their area.

Mrs. Beinecke has donated to the school library her personal

needlework book collection, thought to be one of the finest in the world. There are books on weaving, rugs, pure design, embroidery, fabulous ornaments, documented histories of toiles, tartans, silks, cottons of all countries.

As I look around at these loose bindings," she says, fingering a German embroidery book of 1689, "I'm thinking that one thing we should really start on this island is a school of bindery. But my real dream is to start a correspondence school of weaving..." she says, her eyes sparkling.

And that's how Mary Ann Beinecke's ideas grow on this island.

Percussion Ensemble Presents Program To Faculty Wives

A performance of the East Carolina University Percussion Ensemble was given at the meeting of the Faculty Wives Club Tuesday night in the Bucaneer Room on the campus.

The ensemble under the direction of Harold Jones was composed of Newman Baker, Mike Barnes, Jack Birchler, Jeanne Bluford, Vince Brown, Steve Holloway, George Hubbs, and Mike Stephens.

Instruments used in the percussion group were the marimba, xylophone, bells, timpani, bass drum, snare drum, tom-tom, tambourine, castagnets, and triangle.

The "Concertino for Marimba" and "Ode to Music"—featuring a quintet on three marimbas. The finale of the program was the traditional "Come Ye Faithful People."

Mrs. T. E. Lundy conducted the business session at the conclusion of the musicale. New business included the appointment of a committee comprised of Mrs. W. F. Grossnickle, Mrs. Tom Miller, Mrs. Tom Chambliss, Mrs. Tom Halgwood, and Mrs. Floyd Matthews. The purpose of this committee is to re-evaluate the methods used in obtaining scholarship funds.

Mrs. Milton Godfrey designed and constructed a gift box for Operation Santa Claus.

A social hour followed the business meeting Mrs. Donald B. Jeffreys and Mrs. Lundy were

in charge of the decorations which carried out the theme autumn bounty.

The refreshment table was covered with a gold burlap cloth centered with a massive arrangement of gold, lavender, russet and orange chrysanthemums on a camphor wood base. Flanking each side of the arrangement was a horn of Amalthea overflowing with autumn fruits and nuts. Accessories used with the arrangement were antiqued-green wooden newel post candlesticks with lighted cranberry tapers and a pair of forest-green and yellow colored pheasants.

On a matching gold burlap covered side table was an elliptical arrangement of lemon yellow and cream chrysanthemums accented by a magnolia cluster. Deodora cedar cones massed at the base of the brass container.

On an antique gold music stand adjacent to the piano was displayed a Thanksgiving prayer scroll entwined by flocked fruit and grapes. A grouping of English brass candlesticks with strawberry tapers on the piano balanced this arrangement.

Refreshments were served by committee members and the chairman of the monthly meeting, Mrs. Harold Jones. The next meeting as announced, will be held in January and be chaired by Mrs. G. C. Martin.

Reputation To Lose On This Cruise?

By ABIGAIL VAN BUREN

DEAR ABBY: I am a single, attractive blonde. I've recently received a very interesting and tempting invitation from a gentleman friend. (I'll call him Hector. Hector has been divorced for 15 years and is fairly well-to-do. He's always been a perfect gentleman with

me. Hector has invited me to go on a Caribbean cruise with him. All expenses paid. He assures me that all he wants is a charming companion for dining and dancing. He has guaranteed me a separate cabin and my own key. If I go, people will talk, but why should I pass up this once-in-a-lifetime opportunity just because of some wagging tongues?

Dr. Cleetwood Is AAUW Speaker

Dr. C. C. Cleetwood, superintendent of Greenville city schools, was speaker at the November meeting of the Greenville Branch of the American Association of University Women.

Dr. Cleetwood spoke on the impact of federal legislation on the public schools.

The speaker was introduced by Mrs. Marguerite V. Crenshaw.

Miss Elizabeth Wilson, president, presided at the meeting. Branch attended the meeting of the State AAUW which was held at Chapel Hill.

They were: Mrs. Robert L. Humber; Mrs. Robert W. Fennell; Mrs. Dorothy W. Johnson; Miss Wilson; and Miss Marguerite Wiggins. The report of the meeting was given by Mrs. Johnson.

The next meeting will be in January.

Garden Club To Meet On Friday

"Arrangements of Fruit, Foliage and Flowers" will be the program topic for the meeting of the Greenville Garden Club on Friday.

The program will be given by Mrs. Pauline Whitehurst, Mrs. R. V. Keel and Mrs. George Staples.

The meeting will begin at 10 a.m. and will be held at the Farm Bureau Bldg.

pass this or that. What do you say?

DEAR NO: I say that mealtime is probably the only time a family can sit down together and exchange ideas and enjoy conversation. To read in the presence of others is rude. It's like saying, "I may as well entertain myself. The company is pretty dull." (P. S. Perhaps YOU should bring an etiquette book to the table and read it aloud.)

DEAR ABBY: I have a problem. My mother. I am only 15 and since I have been a kid, my mother has pounded into me the virtues of honesty and truthfulness. I used to lie to get myself out of trouble, and now my mother is doing it.

Mother is overweight and my dad loves her very much and is concerned about her weight. Mom is supposed to be on a diet, but she cheats. When the ice cream "disappears" she says it melted on the counter. She eats cake and cookies and says, "It fell on the floor and the dog ate it."

When she buys a dress or gets her hair fixed and I ask her how much it costs, she will tell me one thing, and when Dad asks her, the prices will immediately go down a couple of dollars.

Abby, please print this for parents who do not practice what they preach. My mom never misses your column.

Everybody has a problem. What's yours? For a personal reply write to Abby, Box 69700, Los Angeles, Cal., 90069 and enclose a stamped, self-addressed envelope.

FOR ABBY'S BOOKLET, "HOW TO HAVE A LOVELY WEDDING," SEND \$1.00 TO ABBY, BOX 69700, LOS ANGELES, CAL., 90069.

Tea Honors Miss Haddock

Miss Linda Sue Haddock, bride-elect of Dec. 1, was entertained at a tea Sunday afternoon at the home of Mrs. Thurston Wynne.

Assisting hostesses were Mrs. Gail Wynne and Miss Sandra Taylor.

The honoree was remembered with a corsage of white pompons and a gift of silver by the hostesses.

The refreshment table was covered with a white linen cutwork cloth and centered with an arrangement of yellow and white chrysanthemums.

Mrs. Thurston Wynne poured tea and Mrs. Gail Wynne served cake.

Guests were greeted by Miss Taylor.

If you have trouble with buttons coming off ready-made garments touch the center of each button with transparent nail polish. This seals the tread securely and prevents it from

UPSET

Elegant Fur

by Youthcraft

A The easy, eloquent line of this style lend themselves beautifully to the lightly textured fabric. High-spirited mink is tamed and trained to ring the neckline above a string of matching buttons. Sizes 6-20.

\$130.00

FUR COLLAR: AUTUMN HAZE*. Natural Mink on Willow; AEOLIAN* Natural Mink on Sable; Dawn Natural Mink on Rum; Ranch Natural Mink on Black.

B. Capricious... a combination of moods, from naive innocence to worldly sophistication. A cloud of mink is perched demurely at the neckline for a luxurious touch of pleats and points. The material: ribbed in alternating smooth and nubby ridges for a very practical, easy-to-care-for fabric. Sizes 6-20.

\$110.00

FUR COLLAR: AUTUMN HAZE*. Natural Mink on B lack; Dawn Natural Mink on Brown; CERULEAN* Natural Mink on Blue; Ranch Natural Mink on Grass.

C. The dimpled darling of the collection... a sylph-like figure, slim and trim. Curved pockets and the immense dimpled swirl of mink collar play coy, but mean fashion business. Sizes 6-18.

\$140.00

FUR COLLAR: Ranch Natural Mink on Honey; Dawn Natural Mink on Green; Palomino Natural Mink on Beige; AUTUMN HAZE* Natural Mink on Black.

Hairdresser Predicts Ponytail Popularity

By VIVIAN BROWN
NEW YORK (AP) — Ponytail hairdos will flip their way to new popularity, predicts well-known Beverly Hills hairdresser, Neil Sloane.

The trend is under way on the West Coast and he has observed it in the East. But it will expand even further, he says, because hair is destined to be worn even longer.

Newer versions of the old mane favorites will be less messy and will not look as if they are growing out of the crown of the head, he points out. They will be well-groomed nape arrangements — sleekly straight or curled or braided.

The prospect of longer hair isn't thrilling hairdressers who are pushing for shorter styles, sometimes with compromises. Sloane has designed one all-over short hairdo with back hair long enough to be tied with a bow.

"California is setting styles after years of following New York's direction. I've observed the same casual attire being worn in discotheques and on streets here, but women would have considered it unthinkable a few years ago to wear pants on Fifth Avenue, even though they'd wear them in California. The new relaxed attitudes in clothes add up to a desire for more casual hairstyles."

Some women never wear the right hairstyle, no matter what, Sloane says. His fingers become scissors-happy when he watches television and sees actresses wearing hairdos that make them look horse-faced. But hairdressers get in an assembly line rut, even though women are looking for something different, he says.

Sloane dresses the hair of many well-known show personalities including Carol Channing, Dinah Shore, Natalie Wood, Cyd Charisse and the wives of stars and directors.

He was in the east attending the intercoiffure show, one of the year's most important hairdressing events. He is not in favor of hair competitions as such, but he thinks it is important for hairdressers to observe the work of others. One new idea can set the thought processes working.

What he'd like to see is some sort of government-sponsored interest in hairdressing workshops similar to those that are popular abroad. It would stimulate creativity, he says. He has thought of starting an Experimental School in Hairdressing for just that reason.

He would take an X-number of hairdressers and have them pool their talents at seminars.

"It would be a step-by-step creation. One hairdresser would

ECU Department Heads Entertained Tuesday Night

President and Mrs. Leo W. Jenkins honored Dr. and Mrs. Frank Arwood, Dr. and Mrs. Ralph Brimley and Dr. and Mrs. Frank Fuller, newly appointed department chairmen of the School of Education, in their home Tuesday night.

Receiving some 138 guests with Dr. and Mrs. Jenkins were School of Education Dean and Mrs. Douglas R. Jones, Dr. Arwood, Dr. and Mrs. Brimley and Dr. and Mrs. Fuller.

Decorations in the entrance hall featured an arrangement of white gladioli and chrysanthemums on a side table and magnolia leaves flanked by the dual spiral staircase.

In the dining room an arrangement of daisies and snapdragons ranging from medium red to orange to white centered the serving table and was flanked by two five-branch candelabra holding bittersweet candles.

Deep pink tones of daisies and snapdragons arranged on the coffee table were the focal point in the living room.

Elsewhere in the home were arrangements of chrysanthemums, gladioli and magnolia leaves.

Assisting in serving coffee and party cakes were Mrs. Sheldon Downes, Mrs. Keith Holmes, Mrs. E. B. Johnson, Mrs. Sally Klingenschmitt, Mrs. John Richards and Dr. Mary Lois Staton.

Mrs. Brimley and Mrs. Fuller were presented with white carnation corsages.

Marriage Announced

MRS. CHARLES EUGENE CONNELLY . . . is the former Sylvia Sue Murray, daughter of Mr. and Mrs. William A. Murray of Greenville, whose marriage to Mr. Connelly, son of Mrs. I. F. Connelly of Denver, Colo., and the late Mr. Connelly, took place Saturday.

Miss Ebert Weds In Doudle Ring Rites

GOLDSBORO—The marriage of Miss Donna McNeill Ebert and John B. Henderson Jr. of Wilmington, brothers of the bridegroom, Guy Howell, Kuma Kutiala and John Taylor of Greenville, Charles Edwards of Chapel Hill, J. D. Willoughby of Charlotte and Ray Rouse of Ayden.

Parents of the couple are Mr. and Mrs. Wilbur Earl Ebert and Mr. and Mrs. John Bunyan Henderson Sr. of Ayden.

The vows, in the double ring ceremony, were heard by the Rev. Owen Fitzgerald, pastor of the church, and the Rev. William Quick, Methodist minister of Greenville.

Given in marriage by her father, the bride wore a formal gown of imported silk peau de soie in candlelight. The bodice featured an empire waist with sabrina neckline and long fitted sleeves ending in calla points, all of chantilly lace. The semi-fitted skirt of peau de soie was appliqued with chantilly lace and encrusted with pearls. Her cathedral detachable train flowed from the waistline and a self-fabric bow.

Her cathedral mantilla of imported silk illusion was designed with panels and edgings of chantilly lace over netting. The mantilla was attached to a pillbox of silk peau de soie. She carried a bouquet of orchids and roses. She wore a string of pearls, a gift of the bridegroom.

Miss Betty Hamlin of South Hill, Va., was maid of honor and Mrs. John Taylor of Greenville was matron of honor.

Bridesmaids were Mrs. Charles Edwards of Chapel Hill, Miss Carolyn Hamlin of South Hill, Va., Miss Dianne Underwood of Goldsboro, Miss Martha Olliff of Fayetteville and Miss Carolyn Williams of Louisville.

The bridegroom's father served as best man. Ushers were Wade Henderson of Greensboro

Wilmington, brothers of the bridegroom, Guy Howell, Kuma Kutiala and John Taylor of Greenville, Charles Edwards of Chapel Hill, J. D. Willoughby of Charlotte and Ray Rouse of Ayden.

Miss Sylvia Coor was miniature bride and Scott Henderson was miniature bridegroom. Jack Taylor of Greenville was ring bearer.

Immediately following the ceremony, the bride's parents entertained at a reception in the fellowship hall of the church.

Following a wedding trip to western North Carolina, the couple are residing in Greenville.

The bride is a graduate of Goldsboro High School and East Carolina University. She is currently teaching in the Greenville city schools.

The bridegroom is also a graduate of East Carolina University and is presently employed as a Dupont manufacturing supervisor.

Mrs. Jerry David Henderson

Calendar

THURSDAY

6:30 p.m. — Exchange Club meets

New Voting Patterns Appear

Whatever else occurred in the general election of Nov. 5, it appears voting patterns in Pitt County were changed so radically that they may never be the same again.

This is particularly true in Greenville where the pattern of voting was such as has not been seen in modern times.

As had been predicted, the county cast a record vote — several thousands more than ever before; and George Wallace won the county by 1,500 votes. The final totals in the presidential race showed Hubert Humphrey with 7,695; Richard Nixon with 5,744 and Wallace with 9,162. Obviously the southern flavor of the Wallace candidacy

brought out many Pitt County citizens who had never voted before.

In Greenville, however, the top vote getter among the three candidates was not George Wallace, but Hubert Humphrey. In the city's nine precincts Humphrey received 3,415 votes; Not a great distance behind in Greenville was Nixon with 3,260. Wallace was third with 2,535.

Interesting patterns developed in Greenville's precincts. Only two of them gave Wallace the highest number of votes. Greenville 1 (Meadowbrook) and Greenville 5 (American Legion) were Wallace precincts. Both of these are semi-rural areas.

Three precincts went to Humphrey. These were Greenville 3 (Third Street School); Greenville 4 (West End Fire Station) and Greenville 6 (Fifth Street Fire Station). All of these are precincts which embrace large numbers of Negro voters.

The real surprise of the election, however, is the fact that four Greenville precincts went for Nixon. These are Greenville 2 (Court House); Greenville 7 (Elm Street); Greenville 8 (Rotary) and Greenville 9 (Gardner Fire Station). These are predominantly white areas and they include the "affluent" sections of the city.

Outside Greenville there were no surprises. Every other precinct went for Wallace, although in the larger towns it was fairly close. In Farmville, for instance Wallace received 937 votes to Humphrey's 912 and Nixon's 418. In Ayden it was Wallace 877; Humphrey 748 and Nixon 448.

The voting pattern of 1968 poses a great challenge to leaders of both the Democratic and Republican parties in Pitt County. It can be seen that, for one presidential election at least, the Republicans have established themselves in four large and growing precincts of Greenville. Then there is the county's big Wallace vote which, depending on what happens to Wallace's American Independent Party, could be sought by the two established parties four years hence. Finally there is the ever growing Negro vote which will become more and more crucial in the years ahead.

The varied voting pattern of Greenville's nine precincts should serve as a signal to political leaders; for the county's urban vote, represented in Greenville and the other municipalities, is steadily growing in relation to the rural vote.

Inter party politics has taken on a whole new look in Pitt County as a result of the 1968 election. It can be expected that Republicans will be more active than ever and Democrats will redouble their efforts. It is also possible that the Wallace American Independent Party will become a permanent political entity in Pitt County.

GOP Unity Is To Be Watched

By WILLIAM A. SHIRES
Reflector Raleigh Bureau

RALEIGH—It will be interesting to see how much unity Republicans in the 1969 General Assembly will be able to achieve and maintain.

This will be the key to many of the GOP's hopes and aspirations to mold North Carolina into a true two-party state. Already deeply disappointed in

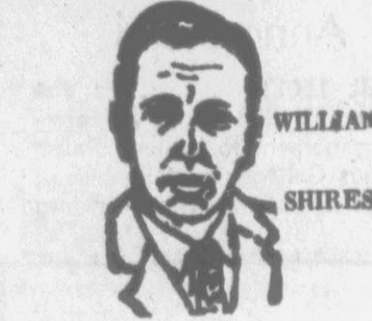

to want to carry the fight to the Democratic majority in a more hard-hitting way. Some also say the party leadership should alternate from the House to Senate side and point out that Republicans made proportionately more gain in the upper chamber than they did in the House. It is possible that Holshouser may be dumped from his party role in the legislature but is expected to retain his party chairmanship if he wishes to stay on. The defeated candidate for governor, Jim Gardner, recently expressed confidence in Holshouser and indicated he would like for him to stay on as state party chairman.

Other Aspects
There are other aspects to a possible intra-party power struggle among Republican legislators.

One is the most of them are newcomers to the General Assembly. Only a few Reserved more than two terms. Republican lawmakers have served more than two terms.

Holshouser is one. Roby Gardner of Randolph County is one. Austin Mitchell and Samuel Troxell of Rowan are serving second terms. Clyde H. Whitely of Stanly County is one of the GOP seniors.

James H. Carson Jr. of Charlotte is the only Republican elected from Mecklenburg County and he is recognized as a returning potential legislative leader. All of the House members from Rowan, Wilkes, Yadkin, Davie, Iredell, Catawba, Alexander, Burke and Cladwell counties (the western Piedmont) are Republican. Big Forsyth County sends five Republicans to the House and two to the Senate. One of the Guilford-Randolph senators, a total of three, is a Republican—Coolidge Murr-ow of High Point. Rowan's senator is a Republican—Odell Sapp. Republican T. R. Bryan of Wilkes will represent Watauga, Wilkes, Yadkin and Davie in what likely is the state's most solid Republican political district. The two senators from Alexander, Catawba, Iredell and Lincoln are Republican. So is the single senator from Burke and Caldwell, the two from Buncombe, Madison, Mitchell and Yancey; some from Haywood, Henderson and what surprisingly the one from Haywood, Henderson and Polk, and one from Cherokee, Clay, Graham, Jackson, Macon, Swain, and Transylvania.

WILLIAM A. SHIRES

the loss of its strongest bid for the governorship. Republicans now are assessing what they might accomplish in the legislature.

Still in the minority, the GOP is beefed up and boasts its largest representation in the General Assembly since 1929.

Of 170 members, 41 are Republicans. There are 12 Republicans in the 50-member Senate and 29 in the 120-member House.

GOP Power Struggle?

There are reports of a power struggle developing within the GOP legislative ranks, along with a great deal of jealousy and divisiveness. These will be denied, but they are circulating nevertheless.

Sen. R. T. (Ted) Dent of Spruce Pine, a second term, has received considerable support for the post as minority leader-chairman of the Republican legislative caucus.

If true this would be somewhat unusual because the state Republican party chairman, Rep. James E. Holshouser Jr. of Boone, also won re-election. As party chairman Holshouser has been recognized as chief spokesman for the GOP both in party and legislative affairs.

Incidentally, Holshouser's House district includes Dent's home county of Mitchell.

More Aggressive

There are complaints in Republican ranks that the past leadership has failed to be as aggressive and outgoing on behalf of GOP policies and programs as it should have been. Dent's supporters are said

Laird Drafts GOP Warning

By ROWLAND EVANS and ROBERT NOVAK

WASHINGTON—A confidential blueprint now being drafted by Rep. Melvin Laird of Wisconsin warns in somber terms that President-elect Nixon cannot come close to balancing the Federal budget until his third year in office.

This blueprint being drafted by Laird, the most influential and powerful Republican in the House, amounts to a five-year legislative plan. Helped by staff experts on the House Appropriations Committee, Laird is preparing it in extensive consultations with Mr. Nixon.

When completed, the Laird memorandum will dramatize one hard fact: the incoming Republican administration can have no real leverage on Federal programs its first year and only a little the second. It will have to wait until its third year to stamp its own unique imprint on Federal programs and the budget.

Thus, Mr. Nixon is being warned that promises for sudden program and budget innovations can't be fulfilled. It is essential, the Laird study suggests that the new President's State of the Union, budget, and economic messages be geared not to an impossible pledge for immediate major changes, but to a long period of gradual change.

In short, what Laird proposes is a five-year plan—ironically, a concept of Communist economic planning from a party traditionally skeptical about long-range planning of

any kind. But Laird has the evidence on his side. His study shows that the Johnson administration underestimated the cost of public assistance grants to the states by \$1.1 billion in the present fiscal year, ending June 30.

To correct that error, a supplemental appropriation was passed this fall. Furthermore, Laird, senior Republican on the House Health and Welfare Appropriations Subcommittee, estimates that public assistance will go up by \$2 billion in fiscal year 1970, the first full year of the Nixon administration.

Laird calculates that the Nixon administration can halt this rapid spiralling of "welfare" payments only bit by bit. His proposal: switch from outright welfare grants to a work-incentive program, as Mr. Nixon promised in many campaign speeches. Even that will take time.

The Laird study also proposes a slow approach to another major fiscal change long backed by Republicans—bloc grants to the states from Federal tax revenue, without restrictions.

Laird will propose a two-step move toward bloc grants, starting modestly with payoffs from Washington limited to single broad categories such as education.

Only after this would there be outright bloc grants.

It is on defense spending that the Laird study is most pessimistic. Even after the

(Continued On Page 5)

Strength For Today

By EARL L. DOUGLASS
THREAT OF CATASTROPHE

The New Testament frequently uses the word "compassion." A modern word which in many ways resembles this Biblical word is "concern." With all our failings we can truly be said to be a concerned generation. We are concerned over national issues. We are concerned over the fact that much as we may try to forget it there is indeed social injustice running like ugly streaks through our social structure.

But we are concerned about these things and therein lies our hope. The nobles of France were not concerned about the condition of the common people. When they had no bread to eat Marie Antoinette was said to have remarked, "Let them eat

cake." Certainly the Czar of Russia was not an evil person, but he was surrounded by a "nobility" that, as Tolstoy said, was willing to do everything for the peasant except get off his back.

The alarming thing about our present concern is that some of those most concerned are extremists. They print placards and organize parades and riots. They stir up one group against another. Now we are getting on our college campuses, rushing in to the offices of college presidents, shaking their fists and making threats.

This is not concern — this is catastrophe. Injustice frequently needs to be dramatized if it is to be noticed at all, but there is a difference between dramatization and disaster, between protest and mob violence.

'Once Upon a Time, When I Was Very Little—And You Weren't Even Born—There Lived a Magic President . . .'

By JAMES KILPATRICK

'Hot' Black Capitalist

The Rev. Leon Howard Sullivan, all six-foot-five of him, turned up here in San Juan the other day to address a meeting of the New York State Savings Banks Association. His hosts may not have known quite what to expect from a Negro Baptist preacher in the San Gerónimo Hilton. What they got was a black capitalist preaching the beauties of black capitalism, Sullivan style. When he wound up, they gave him a

standing ovation. The ovation was deserved, for the Rev. Dr. Sullivan makes powerful sense. At 46, he is the restless, driving spirit behind one of the nation's most encouraging programs of economic advancement for the Negro. He is an innovator, a builder, a dreamer, an organizer — and he still preaches every Sunday at Philadelphia's Zion Baptist Church. If Richard Nixon is looking for an Afro-American

can of Cabinet status, he might well cast an eye on Sullivan: He is the hottest thing around.

Four years ago, without a nickel in Federal aid, Sullivan set in motion his plan of Opportunities Industrialization Centers (OIC). He envisioned something more than mere vocational training for the jobless blacks of his community. If his dead-end adults were to make something of their lives, they had to learn not only the techniques of plumbing or metalwork, but also the basic skills of reading, writing, and arithmetic; and they would have to develop the job attitudes that would keep them moving ahead.

Sullivan raised \$100,000 in seed capital from his poor community. His church made a loan of \$40,000 more. Without asking advice from a single bureaucrat or educator, he plunged into the venture. Seven thousand trainees now have been graduated from the Philadelphia OIC. Ninety per cent of them have obtained jobs, and 80 per cent of them have held their jobs for a year or more.

The OIC concept has spread to 75 cities. Federal aid now figures in a third of the training centers, but the others are making it on their own. Some 35,000 trainees are currently enrolled for the six-month courses; another 10,000 are on a waiting list. While the centers serve Negroes predominantly, the OIC in Oklahoma City has a number of Indian students and a center in West Virginia serves Appalachian whites.

Sullivan's success grows out of his conviction that effective programs "cannot be superimposed on the people." (Continued On Page 5)

Other Editors Say Give Him A Chance

(Henders'n Dispatch)

Already it is evident that the liberal press, commentators and television newsmen are out to discredit Richard Nixon, now president-elect who is to assume his duties some two months hence. From what one reads, sees and hears, the conclusion is that as many flaws as possible are being turned up about the man who won the election Nov. 5.

It is true that Nixon's popular vote majority was slim, but no less than that by which John F. Kennedy was elected in 1960. This same group never tried to pick Kennedy to pieces either in advance or while he was in office until his tragic death. But they are going after Nixon by keeping the public reminded of the razor slim margin of the popular vote.

Actually, Nixon's electoral college vote was well in keeping with that received by Kennedy eight years ago. Very little was heard in 1960 and the years that followed about eliminating the system. But Nixon's sizable majority of electoral votes is being made the basis for a clamor to do away with that method of electing presidents.

The electoral college rule has been effective since the beginning of the republic, and not until recently when the liberals have not fared so well, has there been a rising crescendo of agitation to abolish it. They probably would have not been so vocative had results been in their favor.

The agitators should at least give Nixon a chance. He is entitled to the opportunity to demonstrate what he has to offer and what he can do by way of getting the government back upon a sound footing from the mess the liberals have produced in their eagerness to translate the country into a socialist state. It is amazing that they cannot or do not envision the threat such a system would be to their soft jobs and inflated incomes under the sort of regime the leftists would impose upon the country.

son's sizable majority of electoral votes is being made the basis for a clamor to do away with that method of electing presidents.

Things To Be Done

By HAL BOYLE

NEW YORK (AP) — Many busy people begin the morning by sitting down and writing pompous little memos to themselves headed: "Things Simply Must Get Done Today."

The list is rather nonearth-shaking: "Get car washed." "Buy two bottles milk of magnesia—one with mint flavor."

HAL BOYLE

"Drop by bank and explain why overdrawn." "See dentist about loose bridge." "Call Myrtle." "Call Joe." "Call Jim."

It is by dealing with these minutiae of daily emergency that we spend most of our waking hours. But they are on the dull side, aren't they?

How much more exciting it might make living seem if we started off each day by writing memos about our unachieved daydreams. These could be headed: "Things Must Be Sure To Do By Day After Tomorrow At The Latest."

Here are a few suggested possibilities:

Become a pool shark on the sly and beat Minnesota Fats. Swin the English Channel, using only the butterfly stroke. Run for sheriff and create the only truly crime-free county in America.

Invent a new international currency that would take the place of money and never have its value dented by inflation.

Organize a sociable society or unsociable hermits. Find a way to improve parents so noticeably that they would become impressive even to their teen-age children.

Present the world's largest white elephant to your next-door neighbor, who now has the world's noisiest dog.

Pass the buck back to someone at the office who has been passing it to you for 20 years. Raise a turkey with enough meat on it to last through both Thanksgiving and Christmas.

Build an agile, four-legged, ferocious automatic robot that would scamper across the front yard and bite the ankle of the postman every time he tried to deliver junk mail to your door.

Purchase a small, economy-sized computer that would help your kids solve their algebra problems — and also fill out government tax forms. Concoct a happiness pill or spray that would cause a restaurant waiter or a cab driver to smile with utter bliss whenever you gave them a nickel tip.

Yep, if you're in the habit of scribbling things-to-do memos to yourself, why not make them more fun by giving priority to those really most worthwhile?

Always put your daydreams first.

Quote

"No man is worth his salt who is not ready at all times to risk his body, to risk his well-being, to risk his life, in a great cause." — Theodore Roosevelt.

Clean-Up Time For The Stores

By ELMER ROESSNER

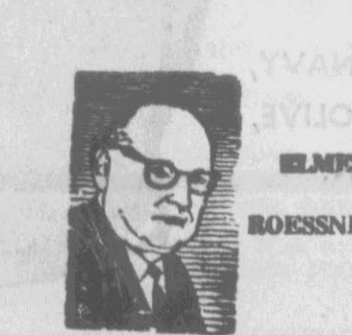

All of the jingle-jangle from now to the end of the year won't come from Santa's sleigh bells or department store cash registers. Some will be the jingle of cash in the pockets of the fake directory promoters.

This is clean-up time because most of the legitimate directory publishers are preparing 1968 editions. Businessmen who profit from listings in trade and other directories expect to renew their listings and when a statement come in, perhaps, with their listing attached, cut from such a directory, it is almost automatically okayed for payment.

But in many cases, say several million dollars worth, the money goes to promoters of phony directories. Some of these directories are never printed. Others are simply copies of typewritten lists kept on hand in case postal inspectors become nosy.

The Off-Yellow Pages

In recent years promoters have been using the popularity of the yellow-page telephone directories. The St. Louis Better Business Bureau reports that as of last July, there were 23 fake directory operations in the United States.

Of these, 16 were operating out of various addresses in California, three in New York State, two in Chicago, one in Indianapolis and one in St. Louis. Two of these companies, operating out of Sherman Oaks and Tarzana, Calif., use punchcard solicitations. Each bears the picture of an open yellow book that suggests a yellow-pake directory.

Both cards bear the statement now required by the Post Office: "This is a solicitation for the order of services and not a bill, invoice or statement of account due. You are not under any obligation to make any payments on account of this offer unless you accept this offer."

Faintly Conforming
The legend of the Sherman Oaks card is printed in shadow type while the rest of the card is printed in solid type.

Apparently irrepresible, the promoters of make-believe directories who like to make their unwary businessmen prospect believe they are actually the Yellow Pages of the telephone company are at it again despite a postal amendment enacted in 1967 designed to curb their activities." the St. Louis BBB comments. The lesson is obvious.

ment enacted in 1967 designed to curb their activities." the St. Louis BBB comments. The lesson is obvious.

Biting The Hand That Feeds The Kitty

Four of the most-favored industries in the United States are the radio and television business, which gets free use of the air; the trucking industry, which does not have to maintain the highways as the railroads do their tracks, and the book publishing and phonograph record businesses, which are charged only token rates for books or discs by the Post Office.

For example, it costs only 18 cents to mail a two-pound book or disc package from New York to Los Angeles, but it would cost you \$1.15 to mail a two-pound box of candy the same distance to your girl. That's one reason why you have to pay 6 cents to mail a letter.

Man-Turned-Woman Plans Wedding Next Year

By HENRIETTA LEITH
Associated Press Writer

NEW YORK (AP) — Dawn Langley Hall, once Gordon Langley Hall, adopted son of British actress Dame Margaret Rutherford, says her romance with a young Negro mechanic in South Carolina began while she was

undergoing sex-change treatment.

"He said it was the quickest romance he ever did hear tell of," said the new Charleston belle of her prospective husband, 22-year-old John Paul Simmons.

But, says Dawn, she was just "rather amused" when she first saw the young man stare at her after he came to her Society Street home in Charleston to join her cook on a double date.

At that time she was back in Charleston during a break in an 18-month treatment at Johns Hopkins Hospital in Baltimore, treatment which included surgery, psychiatry and hormones.

And when the young mechanic first saw her, she said, she was carrying out the Hopkins doctors' orders to dress and behave like a woman.

She recalls that at their first meeting he was wearing "high boots, plaid pants and a yellow sweater, and looked very mod."

But she thought no more about it, she says, until "that night he forced entry into the

house dressed in dirty old overalls, with his mechanic's cap over his eyes, and his arms full of flowers. He had bought every flower he could find. He was a very brave young man. He told me: 'I'll never leave you again.'"

The doctors interviewed Simmons and approved the relationship, she said, adding: "He had to ask 20 fathers for my hand."

Miss Hall, a 102-pound brunette with long hair, large and limpid eyes and the voice and manners of a sheltered English lady, is in her late 30's. But, she said, she feels that in every respect Simmons is "an old man to me."

Miss Hall, who plans to marry Simmons early next year in England—her adopted parents, Dame Margaret and her husband, actor Stringer Davis, expect to attend—sportied an ornate seven-diamond engagement ring during a shopping and business trip here.

"He (Simmons) worked for three weeks as a longshoreman to get it," she said.

After the wedding, she says, despite threats and the disapproval of the Charleston society which once accepted her as a male British author, she and Simmons plan to live in Charleston.

"It's he that wants to," she said. "Charlestonians, black or white, have a great love of their city. I want to also have a home in Barbados and raise cattle—and a place where the children we plan to adopt can go swim-

ing. And my adoptive parents will come—they're great swimmers—and it will be great fun. "I feel that Gordon has died. I lived a life, crippled though I was, to the best of my ability. Before I was 30, I had written 10 books. "Now this is a new life."

Kilpatrick Col. . . .

(Continued From Page 4)

"The leadership for developing and carrying out these self-help initiatives must come from the people themselves who live where the problems are," Sullivan told the New York bankers. "The people must believe and know that the programs to help themselves belong to them, and the successes as well as the failures will be theirs, too."

Working on that theory, Sullivan in 1964 launched his "10-26" plan for capitalism in the ghetto. Two hundred members of his church agreed to invest \$10 a month for 36 months in a "people's installment stock market plan." As the pool of capital began to grow, 400 more shareholders were admitted.

Two weeks ago, the base was further broadened to take in 3,000 additional subscribers. The venture is succeeding beyond Sullivan's dreams. On November 3, he presided at opening ceremonies for a 32.5 million shopping center on a four-and-a-half-acre tract near Temple University. The 16 stores of "Progress Plaza" are fully rented. Last spring, he launched Progress Aerospace Enterprises, employing 150 electronic technicians, most of them black trainees who came through the O.I.C. The fledgling company has \$2.5 million in aerospace contracts. Sullivan also can point to a Progress Garment Manufacturers Company, to a Progress Retail Store, and to the Zion Garden Apartments.

To Top It, Tax Was By Canada

BILLINGS, Mont. (AP) — If you happen to be back East and are looking for directions to Billings, Mont.—forget it.

Mrs. Louise Bradford of Billings said she was awaiting a dividend check on some stock she owns in a company which has its headquarters in New York.

The check was late in arriving. Mrs. Bradford finally received it—addressed Billings, Montana, Canada.

To top it off, Canadian tax was withheld from her dividend.

Dismay Voiced By Anti-Hindi

MADRAS, India (AP) — A letter-writer to a south Indian newspaper noted with dismay that the newly issued ten-rupee notes have the signature of the governor of the Reserve Bank in Hindi, the language of north India.

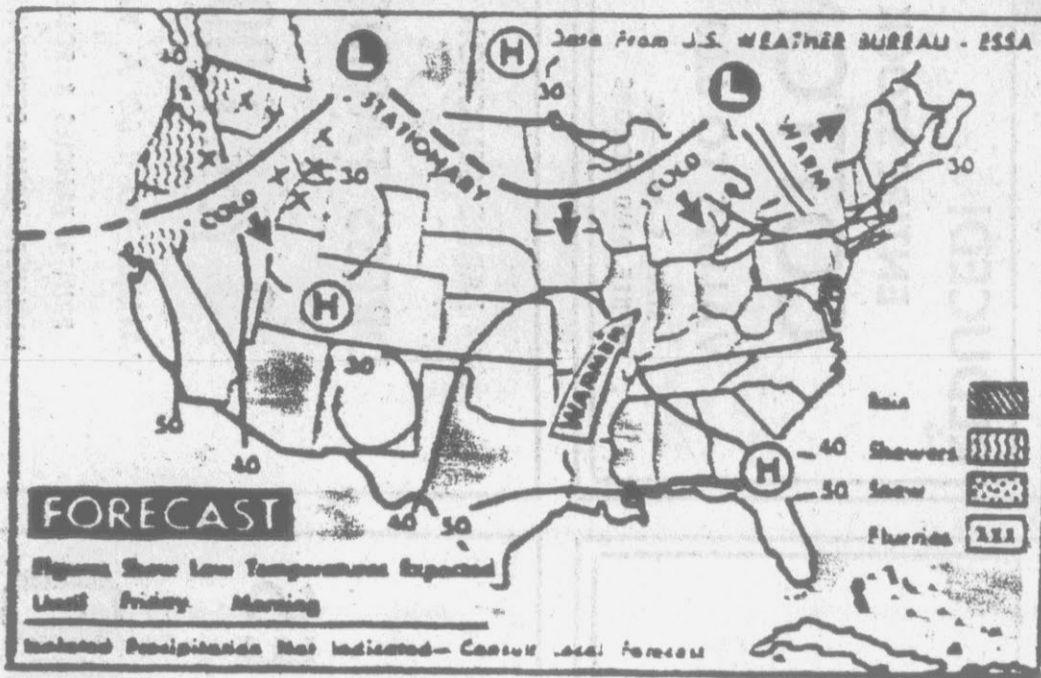

"I wonder if the appointment of the governorship of the Reserve Bank will henceforth be restricted to the Hindi-speaking people or to those who can at least sin in Hindi," he wrote. "Anti-Hindi sentiment is strong—sometimes violent—in south India."

Evans-Novak . . .

(Continued From Page 4)

Vietnam war with most of the U.S. force brought home—which won't happen under the most optimistic conditions until well into next year—the "peace dividend" won't be anywhere close to the \$30 billion now being spent on Vietnam. Rebuilding dangerously depleted defense stockpiles, reinforcing U.S. troops in Europe, and building an anti-ballistic missile system will cut the savings to no more than \$10-12 billion and perhaps less.

Thus, savings from the war will scarcely be a windfall to the incoming Nixon administration, even assuming that the Paris peace talks actually produce peace.

WEATHER FORECAST — Showers and snow flurries are predicted over the northwestern United States Thursday night while warmer temperatures will move over the lower Mississippi Valley. Temperatures will moderate over the central plains with little temperature change elsewhere. (AP Wirephoto Map)

For The British, Rash Of Nudity Faces Backlash

By COLIN FROST
Associated Press Writer
LONDON (AP) — For the shivering British it looks like a cold Christmas. Everything's coming up nude.
You buy the kids a pop record. Along with the disc they get a poster showing John Lennon, Beatle, naked but for his wire-rimmed glasses.
Girl friend Yoko Ono is nude in bed beside him. Way over in the corner is Beatle Paul McCartney, nude in a bathroom, strategic areas concealed behind a pillar.
You take your Aunt Edna to the theater and it's nudes again. Male nudes at The Comedy, fe-

male nudes all over town, and nudes of all varieties at the Shaftesbury in "Hair." "A raving sexcess," said the Daily Mail.
As for the movies, now we are promised the hard-living, red-haired Irishman Richard Harris in a western. He will be nude, just like his horse.
Now for the girliest art show in London—the subway. Not just the miniskirted stenographers, bare thighed in the morning gloom, but the ads in the escalators.
Girls in profusion, seldom wearing more than a pair of tighties. And the odd thing is that the stuff they are advertising is aimed not at men but at women.
Tom Armstrong, an advertising executive, explained: "A woman looking at a picture of a nude girl is in fact admiring her own body. What we want women to think as they look at the picture is: If I bathe with that soap I'll look like that girl."
From another adman, Peter Stillwell: "Inhibitions have gone. Women are prouder of their bodies than they've ever been. We haven't come to the end yet by a long way."
The backlash may be coming. Record distributors meet in London next week to decide what to do about the Beatles album and its Lennon-McCartney-Ono exposure.
Their spokesman, Christopher Foss, said: "One can't afford not to stock a Beatles album."
"But they are forcing retailers to look to their morals or their profits."
"One could understand it if an unknown artist did this to gain notoriety, but this is ridiculous."
From a Beatles spokesman came the comment: "The Beatles are the Beatles and what they do is right for the moment."
The moment, however, may not be long enduring, according to Dr. Joshua Bierer, editor of the International Journal of Social Psychiatry.
He told an interviewer: "The present trend for nudity is a passing phase. I predict that behavior will swing back to Victorian prudery within the next ten years."
"History shows us that these things swing from one extreme to another. The Beatles' nudity represents a final fling."

Vote Switch By Security Life

WINSTON-SALEM (AP) — Security Life and Trust Co. stockholders have approved a management-backed corporate reorganization plan that included changing the name of the firm to Integon Corp.

Under the approved revision, which becomes effective Jan. 2, shareholders will trade one share of Security stock for one share of Integon.

J. E. Collette, company president, said the vote was 99.93 per cent affirmative. Then he added:

"Our corporate identity has been a problem in the past. But the Integon Corp. will enable us to present a much stronger image of ourselves as a financial services organization."

Collette said communications will be much simpler and more understandable with the new corporate name covering all areas of financial service offered by the company.

In addition to life insurance, the company has a general insurance division, a fire and indemnity section, a mutual fund operation and recently has undertaken a computer services program.

The corporate structure reorganization will permit the company, officials said, to enter new fields of financial services as management deems fit.

The Integon name also will be usable in all 50 states. This has been a problem where the name Security conflicted with companies in other states having the identical name.

Air Society Inducts Pledges

A pledge class of 14 Air Force ROTC cadets has been initiated into the Arnold Air Society at East Carolina University.

Among the cadets initiated were junior Sidney M. Moye, son of Mr. and Mrs. M. J. Moye Jr. of Greenville, and sophomore Gregory Dyer, son of Mr. and Mrs. Robert W. Dyer of Sanford. The two received "outstanding pledge" honors in their pledge class.

Required for admission to the society, a professional non-profit organization of selected AFROTC cadets, is an intensive six-week training period. Cadets study military discipline, the role of the society in the AFROTC and Air Force history.

The pledge class was initiated during a candlelight service at ECU this week.

Other cadets initiated include:

PITT COUNTY Ayden — Stephen G. Abene, son of Mr. and Mrs. V. G. Abene;

Greenville — Sidney M. Moye, son of Mr. and Mrs. M. J. Moye Jr., 806 James St.

FDA Rulings 'Unscientific', Says Heart Specialist

By ALTON BLAKESLEE
Associated Press Science Writer
MIAMI BEACH, Fla. (AP) — The Food and Drug Administration is being "unscientific, unrealistic, harsh and archaic," in its rulings concerning the fats in foods that people buy, a heart specialist says.
Consumers cannot find out whether foods contain the kind of fats recommended by many heart specialists as likely to help ward off heart attacks, said Dr. Jeremiah Stamler of Chicago.

An FDA ruling forbids manufacturers to give this information on the labels on their products, he said.
The labels should compel manufacturers to list the contents of animal or vegetable fats, or saturated and polyunsaturated fats in their products, Stamler told a news conference at the opening of the American Heart Association's annual meeting.

Behind his charge, supported in a recent official statement from the heart association, is the belief of many heart specialists that a change from the usual American diet can help protect against heart attacks.
One major change recommended is to reduce the intake of saturated fats, coming mostly from animal sources, and to increase consumption of polyunsaturated fats, derived mostly from vegetable oils.

Set Missionary Conference

Westminster Chapel, Independent Presbyterian Church, will hold its first missionary conference Friday through Sunday at 7:30 p.m.

The Rev. Robert Cable, a missionary to Brazil under the Unevangelized Fields Mission, will be the main speaker.

On Friday evening, the conference will be held at the Elm Street Recreation Center. On

Saturday and Sunday, the conference will be held at the civic room in Planters Bank.
The Rev. Cable has been working for several years among the Waica Indians, a stone-age people who live at the headwaters of the Amazon River in the mountains of northern Brazil.
Slides will be shown on his work along with curios and displays.

Begin Blueprint Course Dec. 2

Pitt Technical Institute will begin a 33-hour Beginning Blue Print Course (DFT 1104) Monday night, December 2, at 7:00 p.m. The class will meet on Thursday nights from 7:00 to 10:00 p.m. It will be possible to change the meeting hours if the majority of class desires.

The cost of the course will be \$2.50 plus cost of textbook. It is important for those planning to take the Machine Shop Practice and Theory course in the fall, to take this course.

It is important for those planning to take the Machine Shop Practice and Theory course in the fall, to take this course.

REV. ROBERT CABLE

Saturday and Sunday, the conference will be held at the civic room in Planters Bank.
The Rev. Cable has been working for several years among the Waica Indians, a stone-age people who live at the headwaters of the Amazon River in the mountains of northern Brazil.
Slides will be shown on his work along with curios and displays.

FLY TO GERMANY
NEW YORK (AP) — Sen. Ernest F. Hollings, D-S. C., and 115 businessmen and officials left by plane Wednesday for West Germany to participate in ceremonies opening a new steel plant in Kehl.

Further, it ruled manufacturers could not advertise that any foods could help protect against heart attacks, or list the composition of fats in products.
"But the public is aware of differences in fats, and of the implication that changes in fat intake could be good for them," Stamler said. "The FDA has never dared take the issue into courts."
Another specialist, Dr. Irvine H. Page of Cleveland, said, "There is no reason why the public shouldn't know about the fats in food that they buy."
Not just the food people eat, but other habits seem to increase susceptibility to heart attacks, Page and other speakers said.

Lack of exercise and physical activity, being overweight and smoking cigarettes are among the habits, they said.
"People cannot afford not to listen" to growing evidence concerning these hazards, Page said. "Americans can change their habits, but it will take time. They are not going to do themselves any harm by making such changes."

Another specialist, Dr. Irvine H. Page of Cleveland, said, "There is no reason why the public shouldn't know about the fats in food that they buy."
Not just the food people eat, but other habits seem to increase susceptibility to heart attacks, Page and other speakers said.

Probable 'False Clue' Led To Finding Scorpion

By FRED S. HOFFMAN
AP Military Writer

WASHINGTON (AP) — The clue which finally led to the finding of the nuclear submarine Scorpion two miles deep in the Atlantic ocean was a small piece of metal that may not have been from the ill-fated vessel.

Chester L. Buchanan, the Naval Research Laboratory official who supervised much of the Scorpion search said in an interview that "the first hint of something" came in late June when a bent metal plate was detected.

Buchanan said sonar and cameras suspended far below

the oceanographic research ship Mizar, discovered and photographed the three-to-four-foot piece of metal. The plate was too deep to recover.

Some Navy men doubted the metal plate was part of the sub and even today nobody will say for sure that it came from the Scorpion.

But the find, which came about a month after the sub and its 99-man crew disappeared, was enough to convince Navy officials to concentrate the search in one area about 400 miles southwest of the Azores.

And there, nearly four months later, the Mizar's sensitive magnetic detectors sound ranging equipment and cameras located portions of the Scorpion only about three or four miles from where the piece of metal was spotted.

The Scorpion was reported overdue May 27, the day it was scheduled to arrive at Norfolk, Va., from an underwater trip from the Mediterranean.

She had been last heard from six days before when she reported from a position about 250 miles south of the Azores.

The \$40-million submarine's final resting place, as announced by the Navy Oct. 31,

was about 400 miles southwest of the Azores in more than 10,000 feet of water, about 8,800 feet below the maximum depth for the vessels.

A search got under way immediately after the overdue call and involved at its peak more than 40 ships, many planes and more than 6,000 men.

During the months of search the Navy gave no hint it had any clues. Navy specialists have said since that the metal piece "had been evaluated as not being part of the Scorpion." But, they said, it was "the only clue we had" so the search went back over the area.

The Mizar had completed a month-long search sweep and

dropped anchor in the Azores for some crew rest when, on July 5, orders came to concentrate in the area where the metal piece had been found on June 27 or June 28.

It wasn't until Oct. 28, Buchanan said, that the Mizar picked up the first clear detection of the Scorpion's remains—what he called a "pretty" magnetometer reading and sonar contacts. This was confirmed by photography Oct. 30, he said.

The next day, Adm. Thomas H. Moorer, chief of naval operations, announced that "objects identified as portions of the hull of the submarine USS Scorpion have been located."

Teams of civilian oceanographers worked around the clock monitoring the ocean bottom from the belly of the 3,700-ton Mizar as it zigzagged over the suspect area at a speed of little more than one knot.

The Mizar's search equipment consisted of a one-ton rig suspended from a 22,000-foot cable and called a "fish" because, as Buchanan put it, "we want it to swim" at the end of its line about 25 feet above the ocean bottom.

The 8-foot-long fish carries magnetometers, which detect the presence of metallic objects, and "side-looking sonar" to give technicians a sound picture of the bottom.

Fixed on the fish are three 35mm cameras, equipped with a special wide angle lens illuminated by 200-watt stroboscopic lights mounted at each end of the rig.

Buchanan said that throughout the entire search period about 150,000 pictures were taken.

Activities Held During Week

GRIMESLAND — Three special activities held last week at G. R. Whitfield School included a Veteran's Day program, a playlet, and a trip to Tryon Palace.

The Veteran's Day program Monday, sponsored by the social studies department, featured Sgt. Murray of the U. S. Air Force.

The playlet, given Thursday in observance of American Education Week, concerned "Schools Then and Now." Those in the cast were Mary Joyce Daniels, Eva Moye, Jerry Little, Swanza White, Dwight Hawkins, Magolene Smith, Cheryl Tetterton, Carlton Hardy, Jasper Bullock, Norman Hardy, Kervin Hawkins, Cherestine Barber, Helen Ruth Hardy, James Stephenson, Magolene Ward, Wayne Barr, Jonathan Brown, David Crandol, Woodrow Daniels, James Carter, Thelma Moore, Emma Howard Brenda Thomas and Carolyn Smith.

Friday a group of high school library club members, accompanied by Mrs. C. N. Cherry Mrs. J. Davis, and Miss Anne Davis, toured Tryon Palace in New Bern.

Since the location of the Scorpion, he said, about 10,000 pictures have been snapped and made available to a Navy court of inquiry investigating the loss of the submarine.

Under instructions from the Navy, Buchanan refused to give details on the pattern and scope of survey, the specific location of the sub's remains, any description of the portions found, or any theories as to the cause

of the Scorpion's loss.

Navy authorities have blacked out this information on security grounds. They say they don't want to give the Soviet Union any information that might be helpful should the Russians try to locate the Scorpion's resting place.

Neither Buchanan nor Navy officers would comment on reports that secret underwater listening devices picked up sounds which might have come from the Scorpion as it was breaking up under intense pressure.

The Mizar continued to explore the area where the Scorpion was found until Nov. 7,

when it broke off its month-long operation because the foul weather season was coming.

Participated In Wool Contest

Miss Cheryl Tetterton of Grimesland was a participant in the "Make it Yourself with Wool" contest which was held in Raleigh recently.

A sophomore at G. R. Whitfield School, Miss Tetterton represented the Avon 4-H Club and the school home economics department at the statewide sewing contest.

Room Is Almost Permanent

KALISPELL, Mont. (AP) — A "sleeper" asked the Kalispell police recently for a place to spend the night.

They obliged and put him up in a cell.

In the morning, after a good night's sleep, he started to leave—but the cell door was locked.

Police efforts to open the padlock failed. Finally, the lock had to be cut off with a torch.

Singing Program Saturday Night

A singing inspiration will be held Saturday night at 7:45 at the Hopewell Pentecostal Holiness Church.

The service is being sponsored by the Ladies Auxiliary of the church.

The church is located eight miles south of Greenville on the Black Jack Hwy.

TRANSPLANT CANDIDATE — Little Patricia Ruth Mayberry, soon to be three years old, must depend on a modern medical miracle to assure that she will have many more birthdays.

The Oklahoma City tot was taken yesterday to Denver to await a liver transplant. She was born with a non-functioning liver. Two of her sisters have died of the ailment. (AP Wirephoto)

Clinic Has Been Changing Sexes Since July '66

BALTIMORE, Md. (AP) — Surgeons at Johns Hopkins Medical Center's "gender identity clinic" have been performing sex-change operations since July 1966.

The program, first of its kind in the United States, was undertaken to help transsexuals—persons of one sex who feel, behave and dress as a member of the opposite sex.

Both men and women have undergone operations at the clinic.

Dr. John E. Hoopes, a plast surgeon who helped launch the program at Johns Hopkins, said soon after the program began:

"After exhaustively reviewing the available literature and discussing the problem with people knowledgeable in this area, I arrived at the unavoidable conclusion that these people need and deserve help."

The doctors at Johns Hopkins say they have encountered no opposition to their program from religious groups.

It is not known how many persons have undergone sex-change surgery at the clinic.

However, it was reported at one point that the clinic examined only two patients a month and that it had a long waiting list.

Applicants receive a thorough physical and mental examination and only those who show no signs of psychosis and appear to have a degree of insight into their condition are accepted, the doctors say.

To reduce the chance of poor adjustment to the new sex after surgery, the committee considers only subjects who already are living as members of the opposite sex and receiving hormones.

Mothers Urged To Ride With Kindergartners

WINDOW ROCK, Ariz. (AP) — The Bureau of Indian Affairs opened 34 kindergartens on Indian reservations this fall for the first time in history. Seventeen of them are on the Navajo Reservation, the nation's largest.

The kindergarten program emphasizes participation by parents. Mothers are urged to ride school buses daily with their children and then take part in the classroom, dining room and playground activities.

Each kindergarten has one teacher and a teacher's aide. Most of the aides are Navajos who are training for work as regular teachers.

The BIA schools supplement the preschool Head Start program sponsored by the Office of Navajo Economic Opportunity.

KILLED IN ACTION

WASHINGTON (AP) — A casualty list naming 18 men killed in the Vietnam war was issued Tuesday by the Pentagon. The list included one North Carolinian, Army Sgt. Rhonnie L. Clark, son of Mr. and Mrs. Timothy Clark, Rt. 3, Maxton.

Ayden, Farmville Seek Second Round Victories

Only Three Left Among Unbeatens

Only two unbeaten boys teams remain in the area, along with a lone girls team, but other members will be joining in shortly to boost, at least temporarily, the number.

Among the early starters, only the Chicod and Stokes-Pactolus boys can still boast undefeated records. Chicod has won three straight, while Stokes has sent four straight teams down to defeat.

In the girls division, only Bethel remains unbeaten, having defeated four teams in as many games.

The scoring in the girls race reflects the lack of victories. Overall, area teams have posted only a break-even record among the girls, winning nine and losing nine. Taking Bethel's four wins away, however, leaves a losing 5-9 mark.

Only two girls are still maintaining double figures in scoring. They are Bethel's Debbie Purvis, with a 13.3 average, and Faye Everett of Winterville, with a 10.7 mark.

In the boys side of the ledger, there is a winning mark, 16-9, and even taking away Chicod and Stokes, it's still break-even, 9-9.

Nearly a score of players have double figures, with Stokes' Hoyt Haddock leading the pack with an 18.8 average. Bethel Union's Richard Roberson is second at 15.5, followed by Danny Smith of Roberson at 14.7.

Bunched together behind them, rounding out the top ten are: Douglas Dunning and Eddie Stokes of Bethel, both 14.5; Garland Warren of Chicod at 14.3; John Corey of Stokes, 13.3; Ronnie Stokes of Winterville, 13.0; Phil Page of Chicod and Jeff Jones of Roberson, 12.7 each.

Bethel Union opens the week's schedule, playing tonight at Connetoe, looking for revenge for a loss earlier this week.

Then on Friday night, four games are set as some teams take a break. On the schedule are South Edgecombe at Belvoir, Roberson at Norwayne, Chicod at Bear Grass and Winterville at Jamesville.

On Monday, it will be Bethel at Chicod in a clash which will give a preview of the conference race to come, and also get the standings opened up. Stokes also plays at Bear Grass in a non-conference battle.

Tuesday, Bear Grass visits Belvoir, and Battleboro Phillips is at Bethel Union.

Rounding out the pre-holiday schedule on Wednesday evening will be Oak City at Bethel, Jasper at Chicod, Winterville at South Edgecombe and North Edgecombe and North Edgecombe at Stokes.

Then, the following week, the football playing schools will join in the activity, and the cage season will be in full swing.

Portrait Of Frustration

Joe Kuharich, the Philadelphia Eagles coach, showed these feelings to action—or inaction—during the game Sunday against the New York Giants at Yankee Stadium. The Eagles went down to defeat, 7-6. It was their 10th straight loss

this year in the NFL. Right now they're the only winless club in pro football. They'll get a chance to either break the string or make it longer when they meet the Browns at Cleveland Sunday. (AP Wirephoto)

Ayden, Weldon Collide; Devils Meet Williamston

The Ayden Tornadoes and the Farmville Red Devils seek second round victories on their quest of State Playoffs honors Friday night.

The Tornadoes, in the Class A State playoffs, will meet Weldon Friday in Rocky Mount. A victory will propel them into next week's state finals with the winner of the Red Springs-Boone Trail winner.

Farmville, in the 2-A Eastern playoffs, meets Williamston in Ficklen Stadium in Greenville. A win would send Farmville into next week's final game in the series, for the Eastern 2-A title.

Neither team expects to find the going easy.

Ayden will be facing their "annual" battle with Weldon. For the past three years, the two teams have met, each time with Ayden coming away with a victory, which send them into the Eastern Class A finals.

This year, the fourth meeting in a row is set, and Weldon may be favored for the first time. Weldon hasn't lost a game this year in rolling over 11 straight opponents. They are rated number one in the East, a position normally held by Ayden. The Tornadoes know that they have their work cut out for them if they are to play in the first state championship in eight years for Class A teams.

Weldon, of course, will be out to avenge themselves for the past three years of frustration at the hands of Ayden.

But the Tornadoes will be doing all they can to add to Weldon's unhappy memories of the series. Alan Wilson, injured earlier in the year, is back at full strength at quarterback. Jerry Gibson and George Booth are both running well at halfback, and Booth has shown beyond a doubt that he is a true triple threat. He runs, passes, and kicks the ball equally well. Against Robersonville last week, he rolled up 60 yards in rushing, mostly in the first half, threw two long touchdown bombs to Gibson, and kicked several extra points, as well as getting off a 50-yard punt.

Farmville, meanwhile, had little trouble in getting past Capital Area Conference championship Smithfield, which brought an unbeaten record

against the Red Devils. But that wasn't enough, as Farmville racked up its 10th win of the year against a lone tie to also remain unbeaten.

This week's opponent will be bringing a loss into the match, but a strong 10-1 record record that must be challenging to the Red Devils. Williamston's Green Wave rolled through the powerful Albemarle Conference, victor of many past championship teams, and downed several contenders to gain the championship.

The two teams have one common opponent, Robersonville, of the Class A Tobacco Belt Conference. Farmville downed the Rams, 38-20, in the third game of the season, while Williamston took a 27-0 win over Robersonville in the opening game of the season.

The Red Devils have been led by the running of George Moore and the passing of Fred Sauls in their recent efforts. Dickie Newton, one of their other top offensive players, has been sidelined lately with an injury, and the Farmville team would love to have him back for the battle.

Both contests shape up as outstanding games in their field, and the winners will be only one game away from the greatly sought-after titles they want.

Phantom Cagers Eager To Start 68-69 Season

Rose High School's Phantoms will open their 1968-69 basketball season in two weeks, and Coach Nelson Best and his charges are looking forward to that date.

"We've been working since the fourth of this month," Best said. "Then, last week, we got the four other boys who played football out, so we've have the full team about a week and a half now."

There are 19 boys currently out for the varsity team (50 showed up for junior varsity), but Best feels he'll probably cut the team down to at least 15 by the time the season begins.

There are only two full-time starters back from last year's team, Mike Harrington and Billy Taylor, but there is added experience in some of the other boys, occasional starters, and 26 top reserves.

"Bill Clark started in some of the games, and John Crawley started in one and saw a

lot of other action," Best said. "I thought we'd be improved this year, but we look even better than I had anticipated. We're in better condition, we're shooting better. We should be real strong on defense, in fact, this should be our real strong point."

Best feels that the Phants currently have to work on improving their offense. "We should be better in rebounding and shooting. We've got the tallest team I've had since coming here, and there is probably as much potential here as on the first team I had which finished second in the conference. It really depends on how some of the boys up from the junior varsity come along."

Best said that the spirit and enthusiasm thus far this year has really been great. "They show a lot of hustle," he said. "They act like they can't wait to start playing."

The Phants will actually be starting late. They could start on Tuesday, December 3, but their schedule has their first game on Friday, December 6, a home appearance against Havelock.

"I don't like to open in the

conference so early," Best said, "but to get the non-conference games we needed, I had to work the schedule that way. Havelock didn't want to open that early either, but went along with us. Otherwise, we'd be opening on the road against Tarboro."

Going over some of the players he expects to see a lot of action, and who are in the competition for a starting role, Best listed Ray Paszko, Joey Pridgen, Danny Hardee, Crawley, Taylor, Clark, Harrington, Joe West, Trent Hill, Billy Higgins, and George Fuller.

"Paszko will definitely be a candidate for a post position, and Pridgen has been shooting the eyes out of the basket lately. Hardee is looking very good, and Crawley has improved greatly. We know our veterans will be ready and do well, and the rest will help us a lot. I expect our bench to be stronger than ever."

"It will really depend on how our jr boys come along in the transition to varsity play. We could finish very high in the conference and I certainly expect us to be in the upper division."

'Cats Worry Over Defense

Davidson's Wildcats are one of the most proficient football teams in the nation when it comes to an aerial bombardment, but coach Homer Smith professes to be worried.

The anxiety exists even though Smith's junior quarterback Gordon Slade, has hit on 170 of 277 passes for 1,934 yards and 11 touchdowns and has set Southern Conference records for completions, passes attempted, yardage gained passing and total offense—1,946 yards.

Davidson closes its season Friday night in Charlotte, N.C., against Vanderbilt and, for the first time this year, says Smith, "we are not sure that we can get receivers open for Slade. Vanderbilt's defensive backs are just too fast—much faster than anyone we have faced."

Not only that, Smith continues "we think it will be difficult to run the football. That's because they are quite a bit bigger than we are. As for us, we'll need a better defensive effort than we've had all year. That has to be a part of our game if we expect to win."

Four Davidson players will not be at full strength, although all are expected to see action.

Defensive tackle Ken Tothorow and cornerback Dave Fisher have ankle injuries, and Mike Kelly—who has caught 50 passes for 882 yards and 10 touchdowns—has a hip and shoulder injury, and fullback Kerry Keith—the Wildcats' leading rusher who has scored five times—has a hurt shoulder.

The Vanderbilt — Davidson encounter kicks off a weekend when only four other league teams will be in action—in a pair of conference games Saturday afternoon that will decide the championship.

Richmond's Spiders, 5 - 0 in

league play, are hosts to William and Mary's Indians, 2-1, and can clinch the title with either a victor or a tie.

Unbeaten Harvard, Yale Generate Much Excitement

By LARRY ELDRIDGE
Associated Press Sports Writer
CAMBRIDGE, Mass. (AP) — Fans on both sides are even more excited than usual this year as Yale and Harvard match perfect records in The Game for the first time in more than half a century.

The veteran Eli squad and the surprising young Crimson team will carry identical 8-0 records in Saturday's battle for the Ivy League football championship.

The stadium has been sold out for weeks.

Yale vs. Harvard has generated excitement, of course, since the series began in 1875.

During one stretch in the 1890s, the teams met with per-

fect records for five years in a row. But it hasn't happened now since 1909, when Yale took an 8-0 decision on the strength of two field goals and a safety.

There have been many memorable encounters, such as the 1931 game in which the legendary Albie Booth's field goal in the closing minutes won it for Yale 2-0. But for sheer thrills it will take a lot to match last year's tremendous battle involving many of the same players who will be out there against each other Saturday.

Yale built a 17-0 lead only to see Harvard fight back and finally go ahead 20-17 with only 2:05 remaining. But quarter-

back Brian Dowling, who will again engineer the Eli's offense, hit Del Marting with a 66-yard scoring pass with 2:16 left to make it 24-20.

Harvard still fought back, marching to the Yale 10 before a fumble in the closing seconds ended the threat.

The Elis, with such other stars as halfbacks Calvin Hill and end Bruce Weinstein also back from that team, were expected to roll on this year and they did—whipping most of the college winning streak to 16 games.

Less was expected from Harvard, which was hit much harder by graduation a year ago, but the Crimson blend of newcomers along with such holdovers as explosive halfback Vic Gatto has proved more than sufficient so far.

Now it's the toughest test for both in this 85th renewal of the rivalry in which Yale leads over-all, 46-31-7, although Harvard has dominated by a 7-3 mark in the last 10 years.

A man has 792 muscles in his body.

No Carnival For Veeck

By LARRY ELDRIDGE
Associated Press Sports Writer
BOSTON (AP) — Bill Veeck says he's not going to run any "carnival operation" in his new role as head of Suffolk Downs but will concentrate on improving the caliber of racing and providing more enjoyment for the customers.

"I'm known for some bizarre stunts," said the former major league club owner who used to shock baseball brass regularly with his maverick promotions, "but I'd like to note that we basically improved the product. That's what we're going to do at Suffolk Downs—as well as have some fun."

The controversial 54-year-old Veeck was named president of the thoroughbred and harness track at a news conference Wednesday as officials also announced sale of the track for \$12 million in stock and cash to Realty Equities Corporation of New York.

The transaction must be approved by stockholders of Realty and the current owner, Eastern Racing Association Inc.

"We have no specific promotions in mind," Veeck said, "but we want people who come out to the track to have a little fun, win or lose."

Suffolk's biggest race has been the \$50,000-added Massachusetts Handicap, but Veeck said he hoped to increase the stakes program and also the over-all caliber.

Veeck's career in baseball included ownership of the minor league Milwaukee Brewers as a youth followed by ownership of the Cleveland Indians, the old St. Louis Browns and the Chicago White Sox.

Some of his more famous promotions included using a midget as a pinch hitter and introduction of the exploding scoreboard. His clubs also won two pennants—Cleveland in 1948 and

Chicago in 1959—but he sold the White Sox several years ago and has been out of baseball ever since.

Tampa Tumbles In Small Poll

By THE ASSOCIATED PRESS
Powerful San Diego State and North Dakota State remained one-two, but Chattanooga and Indiana, Pa., gained ground today in The Associated Press' weekly small college football poll.

The Aztecs, idle last weekend, drew 13 of the 16 first-place votes cast by a regional panel of sports writers and sportscasters for 314 points.

San Diego State aims for its ninth straight against Tennessee State this weekend, then closes the following week with Utah State.

North Dakota State, which earned a trip to the Pecan Bowl with a 9-0 season, had only one top vote but rolled up 270 points.

New Mexico Highlands, 9-0, also finished for the season, remained third, while Chattanooga, 9-1, moved up a notch to fourth following a 31-14 coast past Furman.

Indiana, Pa., 9-0, jumped from ninth to fifth although it also was idle last Saturday.

Texas A&I, 8-1, a 54-21 conqueror of Sam Houston State, advanced from seventh to sixth, and Tampa, 7-2, dropped from fourth to seventh after losing to Southern Illinois 23-20.

Eastern Michigan, 8-2, vaulted all the way from no where into the No. 8 slot after stopping Wittenburg 14-7.

Western Kentucky, 8-1-1,

dropped a spot to ninth because of a 14-14 deadlock with No. 16 Akron, 6-2-1.

Eastern Kentucky, 7-2, lost to Youngstown 6-12 and slipped from sixth to 10th.

Morgan State was 11th, up one place; Willamette moved from 16th to 12th; South Dakota advanced one spot to 13th; Central Missouri State fell from 11th to 14th and Troy State dropped from 13th to 15th despite a 76-0 blasting of Concord College, W.Va.

Rounding out the Top 20 were No. 17 Kings Point; No. 18 Humboldt State; No. 19 Arkansas State, a newcomer, and No. 20 Weber State.

The top 20, with first-place votes, records and total points. Points awarded for first 15 picks on basis of 20-18-16-14-12-10-8-6-4-2-1.

Quarterback Show Set For Duke-Carolina Tilt

By THE ASSOCIATED PRESS
There's always a show when Duke and North Carolina close out the football season, and this year's game has a special act starring what may be two of the finest quarterbacks in the Atlantic Coast Conference.

Regardless of the outcome, the ACC standings won't be affected much one way or the other.

But a lot of fans are counting on the game to settle their arguments about who is better—Leo Hart of Duke, the sophomore passing whiz, or Gayle Bomar of North Carolina the man who makes the Tar Heel offense click.

Hart is the first ACC player to reach the 2,000-yard barrier in a season, piling up 2,121 passing and running. He also is the passing leader with 140 completions in 287 attempts for 2,001 yards.

Bomar, who missed one game because of injuries, ranks third in total offense with 1,467 yards, 1,050 coming by passing the rest by running. And Bomar broke the ACC single game total offense record against Wake Forest on Oct. 19 by running and passing for 416 yards.

Bomar, of Clifton Forge Va., has been chosen by his teammates as a permanent co-captain of the UNC football team. The other co-captain selected was tackle Mike Smith of Wheeling, W. Va.

Hart is credited by his teammates with giving the Blue Devils the necessary desire to post a 4-5 season to date when most experts predicted a much leaner year.

The Tar Heels continued to stress defense in a long practice session Wednesday.

At Durham, the Duke offense made adjustments in its ground attack while the defense drilled against North Carolina's multiple formations.

Clemson reached its physical peak for the South Carolina game Wednesday with the return of tailback Charlie Hook and guard Grady Burgner.

Each has been recovering from minor injuries suffered in the North Carolina game last weekend.

Clemson battles South Carolina Saturday, needing a victory to win its third consecutive ACC title.

South Carolina put the finishing touches on its offense and defense Wednesday with all the injured back in action except blunderer Fred Zelgler, out with a fractured collar bone.

Virginia football coach George Blackburn drove his charges extra hard Wednesday in preparation for Saturday's season-end against Maryland.

The Cavaliers are after a 7-3 season, their best in 16 years, while Maryland hopes to end it at 3-7.

Wake Forest, with Bill Tate coaching his last game for the Deacons, plays Florida State.

OKLAHOMANS SCORE
INWOOD, N.Y. (AP) — Oklahoma golfers finished 1-2-3 when Jerry Pittman won the Metropolitan Open here with a 72-hole score of 274.

Pittman, 31-year-old pro at Locust Valley's The Creek, is a native of Tulsa.

Jimmy Wright, Inwood Country Club pro who was born in Enid, Okla., finished second with 282. Terry Wilcox, born in Ada, Okla., was third with 286.

MOUNTAINEER BROTHERS
MORGANTOWN, W.Va. (AP) — If all goes according to plan the Porter brothers of Mt. Lebanon, Pa., hope to be football teammates next fall at West Virginia University.

Wayne Porter, a sophomore, is the first string flanker back for the Mountaineer varsity. His brother Don is a defensive halfback on the freshman team.

Dr. Abernathy Said To Plan Hyde County Visit

SWAN QUARTER, N. C. (AP)—Dr. Ralph Abernathy, president of the Southern Christian Leadership Conference (SCLC), reportedly will visit racially troubled Hyde County next Tuesday.

In a statement released Wednesday night, two SCLC officials said Abernathy "plans an extensive tour of Hyde County to look over the school and economic situation here."

The statement came from Joe Hammond, an SCLC coordinator from Atlanta, and Golen Frinks, state field secretary for the organization. Both have been active in the Hyde County demonstrations of the past several weeks.

The SCLC workers also issued an appeal to all ministers in North Carolina "and to all Christians and concerned citizens to join Dr. Abernathy on his visit to Hyde County."

The statement said Abernathy "will get right on the case when he reaches Hyde County and will use all resources of SCLC, non-violently, to make things right for black and white people in the county."

About 100 young Negroes

staged an orderly demonstration in this coastal community Wednesday.

They were continuing the two-month protest of Hyde County school desegregation plans.

State Highway Patrolmen stood by but unlike last week there were no arrests.

About 120 demonstrators were arrested last week, most of them on charges of blocking traffic.

Cahoon said seven were released Wednesday after posting bond. That left 56 still jailed at Swan Quarter and nearby towns.

The Negroes, most of them teen-agers, have been protesting a plan to close two all-Negro schools and transfer the pupils to the county's one all-white facility.

READY FOR RECREATION

BOULDER, Colo. (AP)—When Dwain Miller resigned as Boulder's director of parks and recreation, he was given a fitting farewell gift by associates—an aluminum canoe. Miller intends to get a doctor's degree, then teach park and recreation administration in a university.

Negroes prefer to have all schools operating on a mixed basis.

The Negro pupils, an estimated 800 of them, have boycotted the schools since Sept. 5.

Cyclists' Helmet Law Is Upheld

RALEIGH (AP)—The constitutionality of a 1967 law requiring motorcyclists to wear protective helmets has been upheld by the North Carolina Court of Appeals.

The ruling came Wednesday when the court affirmed conviction of Kenneth C. Anderson at Greensboro last Jan. 21 on a charge of operating a motorcycle without a protective helmet.

The court said Superior Court Judge Allen Gwyn was correct in overruling Anderson's contention that the act was an unconstitutional exercise of the state's police power.

Anderson contended the statute only reduced the possibility of injury to an individual and

LOOKING OUT FOR THEIR BUDDIES—Two soldiers manning an M60 position in the perimeter of Firebase Mustang watch their buddies move out on a sweep around the base. They are members of the U. S. First Air Mobile

Cavalry Division, which has just completed moving from Camp Evans, 425 miles north of Saigon, to Tay Ninh, 60 miles northwest of the South Vietnam Capital. (AP Wirephoto)

does not benefit the public at large.

Appeals Court Judge Frank Parker said, in backing Gwyn's ruling, "Death on the highways can no longer be considered as a personal and individual trag-

edy alone. The mounting carnage has long since reached the proportions of a public disaster."

In another case, the appeals court granted a new trial to James Edward Roper who was

convicted in Caldwell County of breaking and entering. The court said he was entitled to a new trial because the arresting officer did not warn him that anything he said might be used against him in court.

Boat Traffic Will Return To The Arkansas River

By BILL SANSING
Associated Press Writer
TULSA, Okla. (AP)—Blasts of river boats superseded in the 19th century by whistles of locomotives will be echoing again on the historic Arkansas River.

By December 1968 boats will leave the Mississippi and travel as far upstream on the once edgy Arkansas River as Little Rock, Ark. In little more than a year they are scheduled to dock at the navigational terminus at Tulsa, Oklahoma's Port of Catoosa, 435 miles from the Mis-

issippi.

The U.S. Corps of Engineers says the \$1.2-billion project is the largest civil work it has ever undertaken, even bigger than the Panama Canal or the St. Lawrence Seaway. Congress approved development of the Arkansas River basin in 1946.

Seven dams on the Arkansas tributaries in Oklahoma control sediment and water flowing into the basin, the nation's third largest, as well as provide electrical power, additional flood control, domestic and in-

dustrial water supply and recreation.

The Arkansas, born in the Rocky Mountains, gushes across a portion of Colorado but becomes a wide, shallow river in Kansas and Oklahoma until it bumps into the dams. It meanders through the flag country of Oklahoma, cuts past the Sooner State's wooded sections into timbered Arkansas and, after bisecting that state, pours into the Mississippi.

Ninety-nine public recreation areas are being created by

Army engineers who intend, with Arkansas and Oklahoma state agencies, to preserve the natural beauty.

Industry already is settling in the river valley. One firm announced a contract to supply Japanese companies with 1.2 million tons of coal annually from eastern Oklahoma. Coal reserves in the area are estimated at three billion tons.

A \$140-million nuclear generating plant is being erected by Arkansas Power & Light Co. on the river at Russellville, Ark., Kerr-McGee Corp. is constructing a \$70-million coke processing plant near Stigler, Okla., and a \$25-million uranium processing facility in the Webbs Falls, Okla., area.

All told, some \$400 million have been invested in facilities

and land along the river.

River boats are a novelty for the present generation but steamboats plied the river—when there was sufficient water—before and shortly after the Civil War. Trains wiped them out. Modern equipment, diesel engines, new techniques and low transportation costs are revitalizing river transportation.

Most early day river traffic stopped at a one-time Army post at Ft. Gibson, Okla., where Jefferson Davis, before he became president of the Confederacy, served under Gen. Zachary Taylor, later U.S. president.

A government engineer reported in 1870 that there were 22 steamboats plying the river, carrying about 25,000 tons of cargo annually. The Corps of Engineers today estimate initial

tonnage at 13 million. They say its growth will compare favorably with that of the rich Ohio River Valley.

The first major ports have

been built at Little Rock and Muskogee and Catoosa. The \$1.25-million Kerr port will serve as headquarters for the Coast Guard and an operations base for Army engineer-

Texas Gulf Says State Should Follow Its Plan

RALEIGH (AP)—An official of the Texas Gulf Sulphur Co. says North Carolina should follow the mining firm's plan of protecting and restoring land affected by mining operations.

Lucius Pullen of Raleigh, counsel for TGS, said his firm is reclaiming mined land and planting it in trees and grass. He said that 4,000 head of Angus cattle eventually will graze on 10,000 acres of prime pasture land that once was mined.

Pullen spoke at the first of two hearings conducted by the N. C. Mining Council. The second hearing was held at Asheville today.

The council is expected to make recommendations on the

question of restoring mined land to the 1969 General Assembly.

John Parker, a geologist at North Carolina State University, told the council "Some disadvantages from mining may have to be accepted."

"Mining is going to make a hole, accumulate some waste, create dust and noise," he said. "It must be tolerated; or, the products made from mineral raw materials must be re-nounced."

George B. Collins, president of the N. C. Association of Soil and Water Conservation Districts, said North Carolina should make "a vigorous and meaningful approach" to the problems caused by mining operations.

He said, "Strip mining, or surface mining can be very detrimental if carried on as an exploitation of natural resources. It is not only ugly, but it produces tons of silt and sedimentation to pollute our streams and to fill lakes and ponds."

Where Golfers Can Lose A Ball

RAWLINS, Wyo. (AP)—Convicts at the Wyoming state penitentiary have staked out a golf green behind the prison walls and are taking up golf.

Warden Lenard Meacham has given his approval with one ground rule. Balls smacked over the prison wall are out of bounds—and the golfer is not permitted to hunt for them.

About 12,000 buffalo survive in Canada.

The bidding:
West North East South
1 ♦ Pass Pass Dble.
Pass 2 ♣ Pass 3 ♥
Pass 4 ♠ Pass Pass
Pass

Opening lead: King of ♦

West opened the bidding with one diamond which was passed around to South who reopened the proceedings with a take-out double. West passed and North responded to partner's request with a bid of two clubs. South now jumped to three hearts. He did not relish the idea of taking such drastic action with an open suit; however, he was aware that a mere call of two hearts would not begin to do justice to his holding. Some inducement must be offered to partner to carry on if he had one or two key cards. North got the message, and, holding the king of trumps as well as a potential ruffing value in spades, he carried on to four hearts.

West opened the king of diamonds and South played the ace. A quick appraisal of his assets revealed that there was a reasonable expectation of winning 10 tricks—five hearts, four top side tricks, and a spade ruff. He proceeded to cash the ace, king of spades and then ruffed a spade in dummy. Next came the king and another heart to the queen. When West showed out on the second round, revealing the unfortunate trump break, there was no way declarer could avoid losing a heart trick as well as two clubs and one diamond.

Altho the four-one division in hearts was somewhat against the odds, it was by no means a remote prospect, and declarer could have taken precautionary measures which would have enabled him to single in the small trumps in his hand if that proved to be necessary.

It is suggested that declarer permit West to hold the first trick with the king of diamonds and then win the continuation. He may now cash the top spades and ruff the third round. The key play of trumping one of dummy's diamonds comes next.

The ace and king of hearts reveal the bad news in the trump suit and leave East and South alike with two trumps in their hands. The last diamond is led from dummy and East cannot prevent declarer from scoring his remaining low heart. The ace of clubs becomes declarer's 10th trick.

The Worry Clinic Adults Often Try To Evade Responsibility

Toni's sad case shows how easily adults try to evade responsibility for their own errors. It is so much easier to pass the buck and blame others for our own mistakes. Wives, show enough mother love to avoid handicapping your unborn infant! Mothers don't "mark" their babies by fears but by chemicals!

By GEORGE W. CRANE
Ph. D., M. D.

CASE H-540: Toni F., aged 6 months, is handicapped. "Dr. Crane," Toni's irate grandmother criticized me, "you are the cause of Toni's trouble."

"For you made my daughter 'mark' him while she was pregnant."

"She told me she read one of your columns wherein you mentioned that pregnant wives who smoke, are much more likely to bear defective babies. Well, she worried about it but never stopped her smoking."

"And when Toni was born, he had no arms at all!"

"His hands stick out from his shoulders, much like a bird's wings."

"If you hadn't upset my daughter during her pregnancy, Toni would be a normal baby!"

BUCK PASSING

This is a dandy case of buck-passing.

Our medical journals show that over 100,000 physicians have quit the tobacco habit in the last couple of years, because of

its damage to lungs, heart and stomach.

For cigarettes produce cancer of the lips, tongue, throat, larynx and lungs.

Plus peptic ulcer. And emphysema.

They are also regarded as the greatest cause of coronary attacks and strokes of apoplexy via high blood pressure.

Don't belabor me, therefore, because I tell you the terse scientific facts.

If you wish to shorten your lives by the usual 5 to 7 years, as is true of the one-pack-per-day addict, that is a man's option.

But you mothers have an obligation to your unborn babies which you can't shrug off or evade by trying to pass the buck by blaming me!

Smoking women produce far more miscarriages and shorter

as well as lighter-weight in-

fants.

They also produce a lot of deformed monsters and handicapped infants, like Toni.

When thalidomide was used as the scapegoat in America a few years ago, it was accused of causing 4,000 deformed babies.

But there were 76,000 defective infants born that same year in the U.S.A. alone.

What do you pregnant wives think caused the other 72,000 defective infants and monstrosities?

One cigar or cigarette, when smoked by volunteer but non-smoking medical students in our physiology classes, will cause retching and even hemorrhage from the stomach.

So what do you think the nicotine will do to the embryo that is not as long as the first joint of your thumb?

If a 198-pound athlete, as in my medical class at Northwestern University Medical School, will hemorrhage so badly he had to be placed in Passavant Hospital for 3 days, following his smoking of half a cigar, what do you think the effect of such nicotine would be on a one-ounce embryo in its mother's womb?

So you pregnant women, who

smoke are taking a terrible chance on harming your unborn infant.

German measles, with its mild toxins, is now being feared if pregnant women encounter that disease during the first 3 months of pregnancy.

Yet such mothers are often chain smokers, meanwhile!

So send for my booklet "Facts About Alcohol and Tobacco," enclosing a long stamped, return envelope, plus 20 cents. Be fair to your unborn babies!

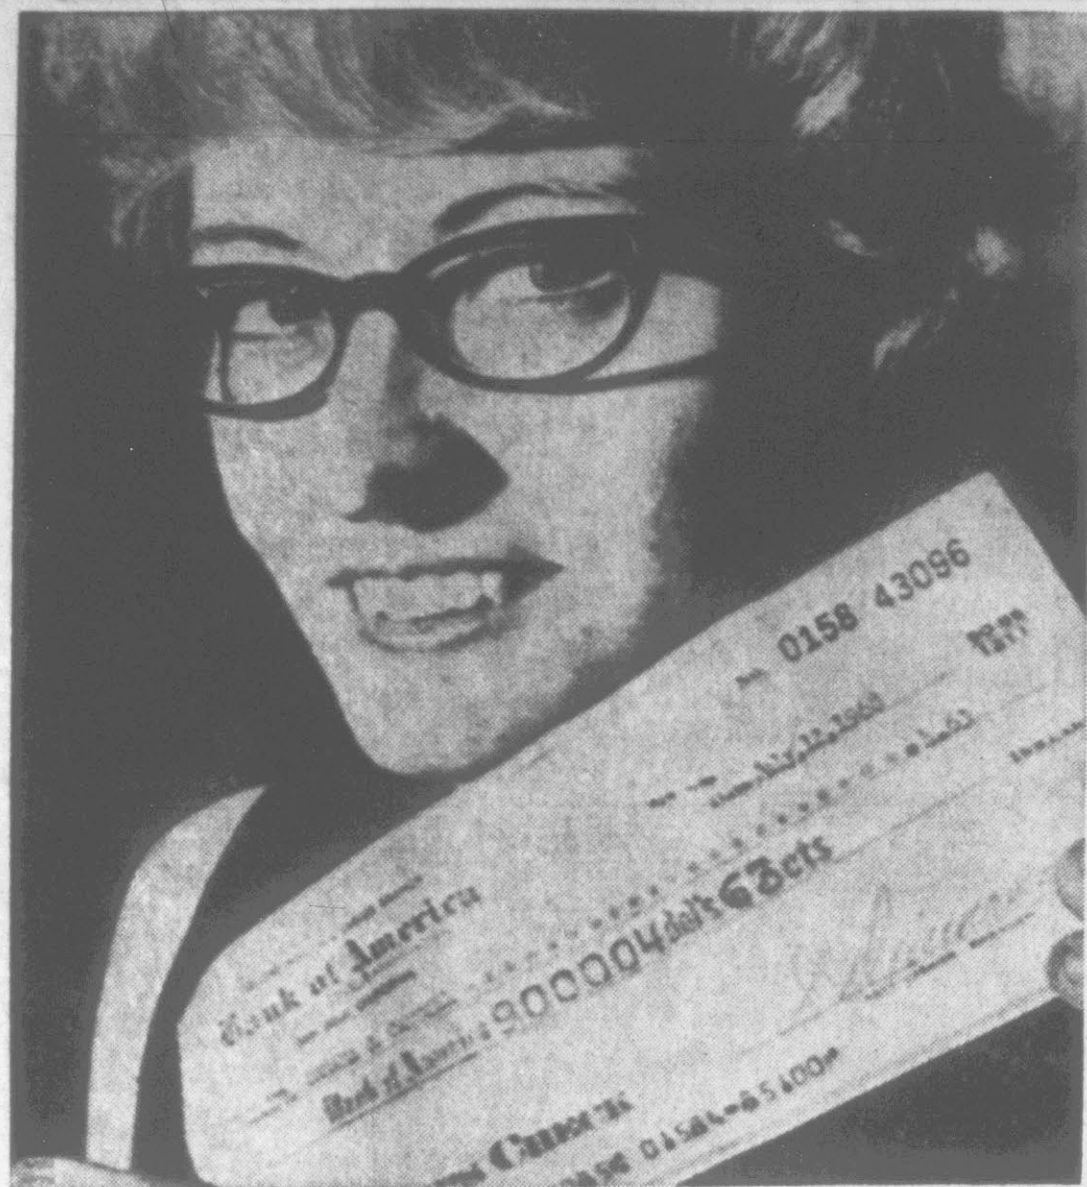

(Always write to Dr. Crane in care of this newspaper, enclosing a long stamped, addressed envelope and 20 cents to cover typing and printing costs when you send for one of his booklets.)

Finally Achieves A Scout Badge

COLUMBUS, Ohio (AP) — The one Boy Scout award which eluded astronaut Donn F. Eisele back in the 1940s was that of Air Scout 'act.

To qualify for the award, which is now obsolete, a scout had to spend ten days and nights away from home.

Feeling that Air Force Maj. Eisele more than fulfilled this requirement by his 11-day Apollo 7 venture, the Central Ohio Council of the Boy Scouts of America found one of the old badges in its archives and will award it to him Friday when he visits Columbus.

INSTANT THOUSANDS — Dreauna J. Caudill holds a check from the San Jose, Calif., Bank of America issued in the amount of \$900,004.63. Another part of the check is for just \$4.63, which is what Mrs. Caudill requested in closing out her account. She plans to frame the check. (AP Wirephoto)

Need A Better Quality Prisoner

Lester Maddox was asked at a news conference Wednesday about rehabilitation of inmates in Georgia's prison system.

the best we can. And before we can do much more, we're going to have to get a better grade of prisoners."

ATLANTA, Ga. (AP) — Gov. Maddox replied: "We're doing

Our medical journals show that over 100,000 physicians have quit the tobacco habit in the last couple of years, because of

'Somebody Else' Always Blamed In Money Crisis

By JOHN CUNIFF
NEW YORK (AP) — In each of the past few years, "somebody else" always seems to have gotten a share of the blame.

When the British pound weakened, finally succumbed and was devalued, the Gnomes of Zurich, alleged speculators in currencies, were believed to be secretly working for just such an end.

When the dollar was attacked it was the European gold hoarders who were blamed. They were described as somewhat neurotic individuals who placed almost no faith in paper money but all their faith in gold.

And now as the French fight to keep the franc from being devalued they are casting hints that really the problem isn't so much the weakening French economy as it is those Germans.

The Germans have built up an amazingly strong economy and

the German mark, which is the symbol of that economy, is very strong. So strong, in fact, that many holders of French francs are selling them and buying marks instead. And that includes Frenchmen.

By some estimates France has lost \$200 million in reserves in the past week as its countrymen and others buy foreign stocks, gold and especially German marks.

To invest in marks makes financial sense. As one authority pointed out, you win no matter what happens. If the franc is devalued you win, if nothing happens you don't lose. And if the mark is revalued upward you make money.

And there's the problem, as some see it, certainly that is at least part of the problem. The mark is so strong that, side by side with the weakening franc, it is clearly the better currency for speculators to hold.

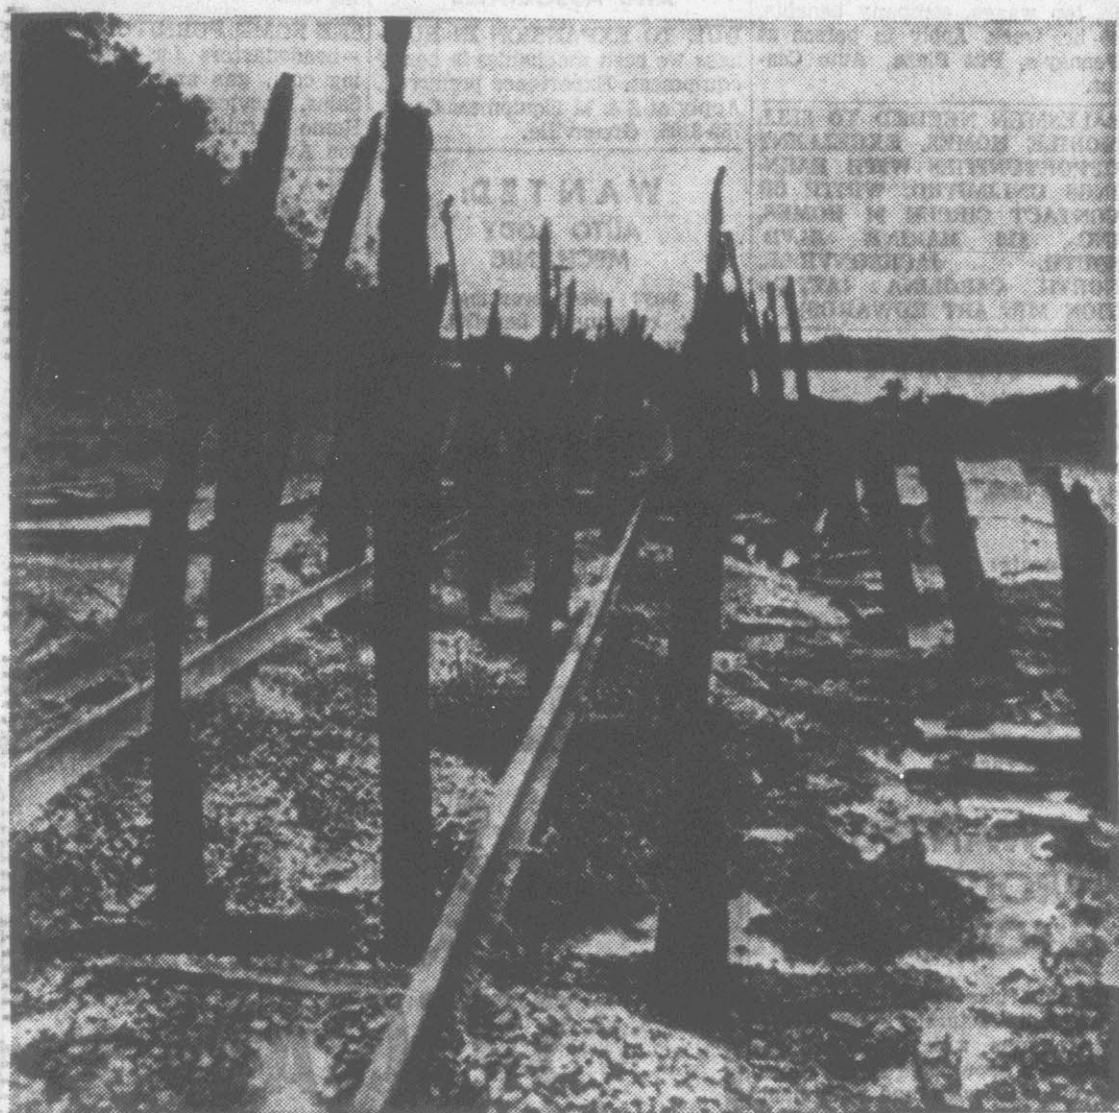

The French economy has suffered some bad reverses this year. It had been advancing

strongly, with production rising and exports in healthy shape. The weakness, soon made evident, was that French workers felt they weren't improving their standard of living.

Rebelling, the workers won raises that in some instances totaled 20 per cent more than they had been earning. This quickly forced up prices, including those of exports. This was bad for the economy. So also was a tendency for Frenchmen, with extra cash in their hands, to buy imports. Inflation flared.

Nevertheless, French Premier Maurice Couve de Murville was quoted as saying, "This is not, properly speaking, a French crisis." It was set off, he said, "by frantic, I would say phenomenal, speculation in German money, which some claim should be revalued."

Couve de Murville does have an argument. Although the French economy is in poor shape and money is pouring out of the country, France has billions of francs in reserve.

CHARRED REMAINS — Tracks that were once on top of the Seaboard Coastline Railroad trestle snake their way through its charred remains.

The trestle which crosses Lake Marion (S. C.) was destroyed by fire Tuesday. (AP Wirephoto)

Too Much Heat For A Camper

TORRINGTON, Wyo. (AP) — The Torrington fire department recently doused a fire in a camper trailer parked on a Torrington street, confining damage to a burned spot on the roof.

The fire chief said a glass bottle of butane gas had been overturned and left in the camper. When the sun got around to the West, the sun's rays overheated the bottle and caused a pop-off

valve to open. The butane gas seeped to a vent of a wall heater and was ignited.

Stock And Market Reports

RALEIGH (AP) — (NCDA)—North Carolina hog markets mostly steady. Tops of 18.00-18.50 Rocky Mount; 17.50-18.25 Wilson; 17.50-18.00 Bethel; 17.5-17.75 Siler City, Denton; 18.00 Salisbury; 17.75 Greensboro.

RALEIGH (AP) — (NCDA)—North Carolina egg markets lightly stronger Wednesday. Supplies adequate demand good. Prices paid producers and handlers for consumer grade eggs in cartons delivered nearby outlets:

Grade A large whites: 52 1/2 to 53 1/2; medium, whites: 48 1/2 to 50; small, whites: 42 to 43.

NEW YORK (AP)—The stock market took a loss early today as weakness developed in some key blue chips.

Trading was heavy, the usual result of a mid-week closing of the stock market to catch up with paperwork.

The Dow Jones industrial average at noon was off 5.10 at 961.85.

Gains were in the plurality at the start but the situation quickly reversed itself and losses outnumbered advances by about 190 issues going into the afternoon.

Gold mining stocks advanced as the European monetary crisis continued. U. S. Treasury bonds, however, were unchanged to higher, so there was no apparent impact on Wall Street because of the currency jitters.

The softness in blue chips set a poor example for the rest of the market. In addition, Thursday is the usual day for evening-up operations by traders in anticipation of the weekend.

The Associated Press average of 60 stocks at noon was off 1.4 at 358.9 with industrials off 3.0, rails off 2 and utilities off 4.

Casualties among key blue chips which helped drag down the averages included General Motors, off 2, Chrysler off 1 1/2, Woolworth, off more than a point and United Aircraft, off 1 1/2.

Steels and motors were down

Community Notes

Quarterly meeting services Will Baptist Church Saturday Will Baptist Church at Sunday. The Rev. T. G. Spain from Washington, D. C., will render the Sunday worship service at 11 a.m.

Sunday services at A. M. E. Zion Church are Sunday School at 10 a.m. and 11 a.m. worship service, with the message by the pastor, Rev. P. H. Mumford. All members of the church are asked to attend and to pay their conference assessment, since this is the last Sunday before the annual conference.

Bishop Wyoming Wells will preach at Sycamore Hill Baptist Church for the Pastor's Aid Club Friday night at 7:30. All members of this church are asked to be present.

The Good Hope Senior Choir Club will meet at the church Sunday at 6:30 p.m.

Lavonne Stator was named the winner of the baby contest at Saints' Rest Holiness Church of Winterville Sunday. She is the daughter of Mr. and Mrs. William Stator of New Haven, Conn., and the granddaughter of Mr. and Mrs. Herman Tyson of Greenville.

The Rev. F. C. Mitchell announces the following services for Burney's Chapel Free Will Baptist Church: Friday night at 7:30, Quarterly Conference; Saturday night at 7:30, Holy Communion; Sunday morning at 11 o'clock, worship services, with Rev. Barrow of Corey's Chapel bringing the message. At 2 p.m., dinner will be served, and at 3 p.m., the Rev. W. K. Raynor and congregation of St. Marcus will be in charge of services.

Regular youth services will be held at St. Matthew's Free Will Baptist Church Sunday at 11 a.m., with the Rev. E. Jones preaching.

Sunday night, the Rev. Hattie Mae Cobb will preach in Lewis-ton. She asks members and choir to meet at her home at 6 p.m.

Rev. H. A. Wilson announces the following Sunday services for Cedar Grove Missionary Baptist Church: 10 a.m., Sunday School; 11:30 a.m., Morning worship; 3 p.m., Rev. H. Simmons of the Church of God in Christ of Kinston will render services; 5 p.m., Crowning of the Queen program, with music by the youth choir.

The Senior Choir of York Memorial A. M. E. Zion Church will hold a business meeting tonight at 8 o'clock at the church.

The Christ Temple Baptist Church will observe the anniversary of its pastor, the Rev. H. Hammond, Sunday, at 10 a.m. Sunday School will be held and at 11 a.m. the Worship Service. The sermon by the pastor, entitled, "Waiting for Jesus," will be presented on tape. At 2 p.m., an appreciation service honoring Mr. Hammond for ten years of service will be held. Choirs and congregation of all surrounding churches are invited to take part in this service.

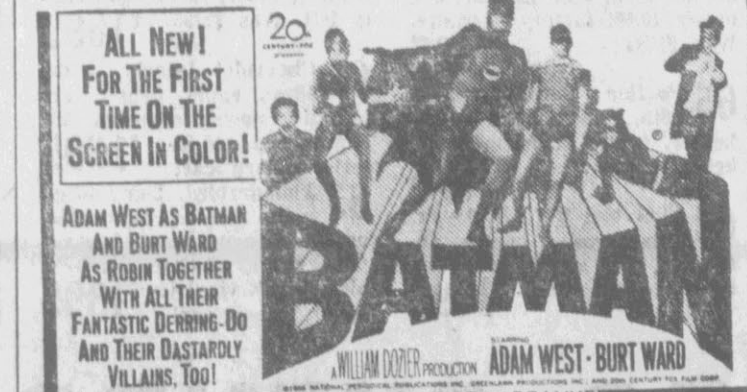

The Holly Hill Senior Choir of the Holly Hill Free Will Baptist Church will hold a musical festival Sunday at 5 p.m.

The Rev. W. J. Best will preach at Mayo Chapel Missionary Baptist Church in Bethel Sunday at 7:30 p.m. He will be accompanied by the Spiritual Singers of Greenville and the Weeping Mary Missionary Baptist Choir.

The house to house prayer service of Friendship Holiness Church will meet at the home of Mrs. Helen M. Daniels, of 1605A West Third Street, Saturday at 8 p.m.

Two Injured In Collision Here

Two persons were reported injured in a 7:10 p.m. collision yesterday at the intersection of Fourth and Library Streets.

According to Greenville police cars driven by Betty Booth Crosby, 23 of 2700 Tryon Dr. and William J. Weidenbacher, 26, of 308 Student St. were involved in the collision.

Weidenbacher and a passenger in his car were reported injured in the mishap and taken to Pitt Memorial Hospital for treatment.

Damage to the Crosby vehicle was set at \$800 while damage to the Weidenbacher car was placed at \$1,000.

Mrs. Crosby was charged with failing to yield the right of way.

Obituaries

Hope
FARMVILLE—Mr. Dave E. Hope of 803 Walnut St. died Wednesday afternoon in Quigley Clinic in Tarboro. Funeral services will be held Saturday at 8 p.m. at St. Stephens AME Zion Church with the Rev. U. A. Spense officiating. Burial will follow Sunday morning in Sunset Memorial Park.

Briley
Mr. George W. Briley, 58, died in Pitt Memorial Hospital Wednesday afternoon at 4:50 following several years of illness. Funeral services will be conducted at the Wilkerson Chapel Friday afternoon at two o'clock by his pastor, the Rev. Eddie Dollar, assisted by the Rev. J. D. Vernelson. Burial will be in Pinewood Memorial Park.

Mr. Briley, a native of Pitt County, was a farmer. He was a member of Parker's Chapel Free Will Baptist Church and the Withlacoochee Tribe No. 35, Improved Order of Red Men of Greenville.

Surviving are his wife, Mrs. Mattie Harris Briley; four sons, Lindsey Ray, J. D., and Henry Briley, all of near the home, and Ronnie Briley of the home; a daughter, Mrs. L. F. Worthington of near Greenville; five grandchildren; two brothers, Willie Briley of Hassell's and Eddie Briley of Bethel; and eight sisters, Mrs. Lewis Dail of Bethel, Mrs. Raymond Lee and Mrs. Henry Lee of Beargrass, Mrs. William Cratt and Mrs. Harvey Winberry of Robersonville, Mrs. Elmer Boyd of Greenville, Mrs. Fred Boyette of Hobgood, and Mrs. Jim Williams of Rocky Mount.

Sauve
Mrs. Elsie Sauve of Windsor, Ont., Canada, died Monday and was buried this morning at 10 o'clock.

She is survived by two sons, Fred P. Sauve of Greenville and Frank Sauve of Mount Prospect, Ill., one sister of Windsor, Ont., and four grandchildren.

New Retail Store Opens Tomorrow

Ann's Hallmark Card and Party Shop, a new retail store featuring greeting cards, gift wrappings, home decorations and party accessories, will open tomorrow at 400 Evans Street. According to the new store's manager Jim Heatherly, the shop "will carry greeting cards and allied social communication aids."

JIM HEATHERLY

Services will be held throughout the week at New Birth Church in Grimesland. Monday night the Rev. Hyman and the Burning Bush congregation of Vanceboro will be in charge. Tuesday night the Rev. K. T. of Greenville will hold the services. The public is invited to attend these and other services later in the week.

The anniversary of the pastor, the Rev. J. L. Tyson, will be observed at Allen's Chapel Free Will Baptist Church Sunday night at 7:30.

Mrs. Nancy Young has returned to her home in Buffalo, N. Y. after spending a week here with her parents, Mr. and Mrs. Willie Galloway.

The Happy Hearts Club of Ayden will have a Christmas party at the home of Mrs. Willie G. Allen. The date will be announced later.

The True Faith Holiness Church of Greenville, located in the old Wigs Shop, announces the following services: Thursday at 8 p.m., the speaker will be missionary, Mary Ann Mayo. Friday night at 8 p.m., the Rev. Jasper Perkins will speak and will be accompanied by the Fleming Chapel Choir. Saturday night at 8 p.m., Rev. Keys and Bishop Gibbs will be in charge. Saturday night at 8 p.m., Misspeak.

The Cedar Grove Gospel Chorus will rehearse Thursday at 7:30 p.m. at the church.

The Cedar Grove West Kingdom will meet Friday at 7:30 p.m. at the home of Sister Beulah Flood.

Greenville police and firemen were called to South Greenville School about 10:35 a.m. yesterday after an unidentified caller reported a bomb had been planted in the school and was set to explode.

Chief H. F. Lawson said officers from his department along with firemen, searched the building after the children were evacuated, but found no bomb.

Investigation of the incident is underway.

ANNOUNCING the opening of our new Hallmark CARD CENTER

"When you care enough to send the very best," you will find famous Hallmark greeting cards, gift wraps, party accessories, notes, stationery, playing cards and gift items in our new Hallmark Card Center. A special welcome awaits you... we hope to see you soon!

In addition to cards the shop will feature Russell Stover candy. Heatherly, a native of Chambersburg, Pa., is a former employee of the Hallmark card firm. The Pennsylvania State University graduate was a representative for Hallmark in the Baltimore, Md. area before moving to Greenville a year ago as Hallmark's representative, working Eastern North Carolina. Heatherly also worked for the Hallmark firm in Elkton & Maryland. Heatherly, who is married to the former Ann Johnston, said his shop in Greenville is the first one of its kind in Eastern North Carolina.
