

TRUTH IN PREFERENCE TO FICTION

## Hospital Bd. Asks Bond Vote In Nov. Promises No Wage, Price Controls Nixon Maps Inflation Tactics

By TOM BAINES  
Reflector Staff Writer

The Pitt Memorial Hospital Board passed a resolution last night asking the County Commissioners to call for a referendum in November to grant the Board authority to issue up to \$9 million bonds for additional facilities at the hospital.

Hospital administrator C. D. Ward noted that the resolution will ask the commissioners to seek a referendum at the same time of the general election in November, rather than earlier as had been previously discussed.

By waiting until November for the referendum, it was pointed out, more time will be allotted for ironing out issues related to the bond program and lining up the bond attorneys.

A tentative date in August had been mentioned earlier for the bond election but it was agreed that it would be too soon and possibly at a time when many people would be out of town.

Voter approval of the bond matter would give the hospital board the authority to issue any part of the \$9 million bonds for making additions to the present facilities.

Depending on various grants and gifts that could come in, the amount of the bond issuance could be considerably less than

the full \$9 million, Ward said. Also last night the board gave approval to the employment of Miss Jean Owens, a native of Fountain, as the new director of nursing services, effective Aug. 3.

Miss Owens is currently director of nursing at Wake County Memorial Hospital in Raleigh. Now in her sixth year there, she has spent eight years at Rex Hospital and two years at Baptist Hospital in New Bern.

The future director comes to the Pitt Hospital staff highly recommended, Ward said. She will be working with Mrs. Helen Abbott of Winterville who will serve as assistant director.

In other matters, the board approved a request for withdrawal of application from Dr. Harry W. Wellons, a general thoracic and vascular surgeon who had been scheduled to join Dr. Frank Longino and Dr. Bernard Vick.

Dr. Wellons has decided to remain in a current teaching position and submitted a request to the board to withdraw his application.

Ward reported that he and assistant administrator Jack Richardson attended the North Carolina Hospital Association meeting at Wrightsville Beach the 9th, 10th, and 11th of June.

During the sessions, he said, they accepted a service certificate on behalf of the hospital for service of 25 years and over. Ward explained that the time was figured on the service of both the old and new hospital and totaled as one facility.

An effort is underway to get an area on the west side of the hospital near the emergency entrance paved, Ward said. The 40-50' strip is in need of repair and will involve an extension of the paved area adjoining the "doctors parking area," he added.

Ward reported that work is continuing on the budget for next year.

By STERLING F. GREEN  
Associated Press Writer

WASHINGTON (AP) — President Nixon announced today the erection of a three-way governmental barrier to spiraling inflation, while promising:

"I will not take this nation down the road of wage and price controls."

Nixon thus gave way to increasing pressure for a policy of voluntary restraint on wages and prices.

In a nationwide TV-radio broadcast on economic policy, he lectured business and labor on their responsibility to refrain from excessive price markups and wage increases.

"The fight against inflation is everybody's business," the President said.

He announced these actions to pull the reins tighter on inflation:

1. A National Commission on Productivity will be named with representatives from business, labor, government and the public. Its duty will be to find ways of increasing output per worker and bringing a balance between cost and productivity to assure more stable prices.

2. Nixon directed the Council of Economic Advisers to prepare a periodic "inflation alert," to spotlight significant wage and price bulges and analyze their inflationary impact.

"This inflation alert will call attention to outstanding cases of price or wage increases and will be made public by the National Commission on Productivity," Nixon said.

3. A Regulations and Purchasing Review Board is being set up, to review federal purchasing procedures to assure that they do not drive up costs and prices; and to review import policy to see whether supplies can be increased to meet rising consumer demand without loss of jobs at home.

"This administration, by its spending restraint, has set the example in this past year; we believe we have now earned the credentials to call for similar restraint from business and la-

bor to slow down inflation," Nixon said.

While the President in the past opposed both voluntary and mandatory price curbs as useless and unworkable, he has been under strong pressure from Republicans on Capitol Hill to pull the inflation brakes tighter and obviate the economy as an election issue this year. Some of his own administration officials agreed.

Leonard Woodcock, president of the United Auto Workers, said Tuesday night the union wasn't impressed with the commission concept and would not be inclined to roll back its forthcoming wage requests even if the President called them inflationary.

The commission plan sounded much like the proposal of Secretary of Housing and Urban Development George Romney. He suggested creation of a special body to analyze price markups and wage settlements and publicize those it deemed inflationary.

Sen. Jacob Javits, R-N.Y., has introduced a bill to confer such responsibility on the President's Council of Economic Advisers. House Democrats have added to the pressure on the White House by introducing a bill to give Nixon standby wage and price control powers.

While few expected Nixon would ever use that authority, enactment of such a bill would be a handy political weapon. Democrats could say they gave Nixon the tools to deal with inflation but he wouldn't use them.

The speech was promised by Nixon on April 28. Word of it was given first to a business group that visited the White House. In the same conversation, Nixon said: "Frankly, if I had any money I'd be buying stocks right now."

Despite his confidence, the market, already in a steep decline, plummeted to a seven-year low and violence erupted on the college campuses when Nixon announced two days later that American forces were going into Cambodia.

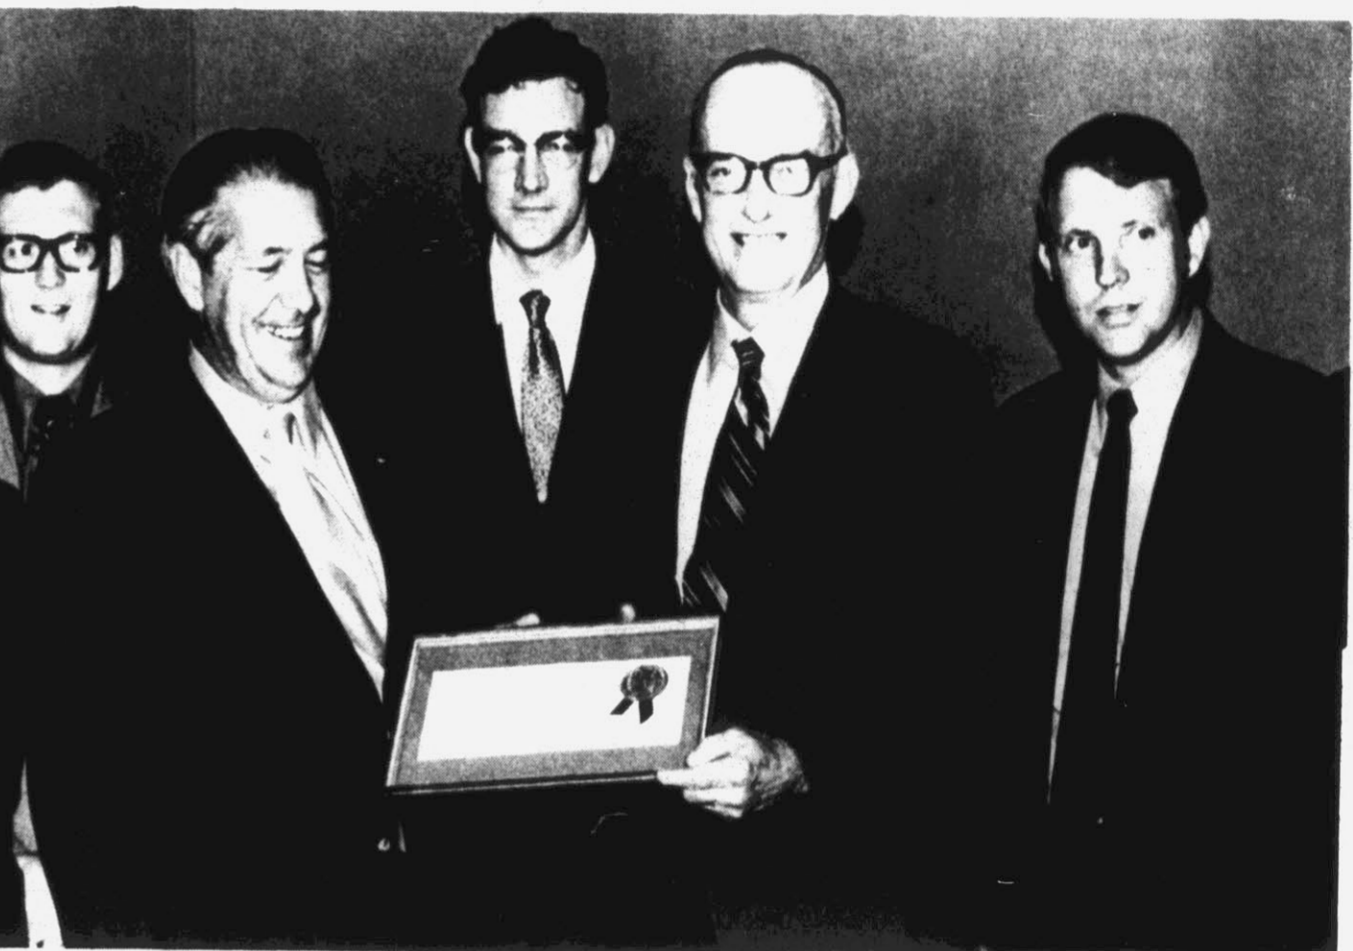

Since then price increases have continued undiminished, unemployment has moved up to 5 per cent—well beyond officially announced expectations—and industrial production has continued the decline that began last

summer. Administration economists have continued to predict that the inflation rate will diminish in the second half of this year, and that the economy will begin to recover shortly.

One of Nixon's problems in dealing with inflation has been the fear that any great degree of austerity might precipitate a serious recession. Another difficulty—one which limited his options in finding a workable for-

mula for disinflation—is labor's insistence that it will not be bound by any limitation on wage increases, voluntary or otherwise, that does not also provide ironclad ceilings on prices and profits.

## Governor's Award Presented Ayden For Development Effort

GOVERNOR'S AWARD . . . Roy Sowers, second from left, presents the Governor's Award to Ayden officials Peter Vandenberg, left, Dr. Dixon, third from right, Harry Mumford, second from right, and Dillon Watson.

The Town of Ayden has been presented the Governor's Award in recognition of the community's efforts to improve its attractiveness for industrial development.

The presentation was made by Director Roy Sowers Jr. of the State Department of Conservation and Development on behalf of Governor Bob Scott. Harry Mumford, mayor pro-tem of Ayden, accepted the award for the town and the Ayden Economic Council.

The Town of Ayden has been presented the Governor's Award in recognition of the community's efforts to improve its attractiveness for industrial development.

The presentation was made by Director Roy Sowers Jr. of the State Department of Conservation and Development on behalf of Governor Bob Scott. Harry Mumford, mayor pro-tem of Ayden, accepted the award for the town and the Ayden Economic Council.

Ayden will receive more industrial prospects and consequently, will locate industry in the very near future."

Watson added, "This is a culmination of one and one-half years' efforts on the part of myself and the Ayden Economic Council to get Ayden ready for new industry."

"We are extremely happy to

be so recognized by the Department of Conservation and Development," Watson said.

Attending the presentation Tuesday, in addition to Watson, were Dr. J. E. Dixon, president of the Ayden Economic Council; Harry Mumford, mayor pro-tem of Ayden; Peter Vandenberg, town manager of Ayden.

## Girl Died Of 'Old Age'

SAN FRANCISCO (AP) — A team of autopsy surgeons has reported that a 14-year-old girl died of hardening of the arteries, a disease of old age.

Dr. Henry Turkel, San Francisco County coroner, said the condition of the girl's coronary arteries resembled that of women in their 70s and 80s.

The girl, Florencia Gomez, a junior high school honor student, was a Filipino who came here a year ago from Manila with her father and two teenage sisters.

She collapsed Monday at the San Francisco General Hospital, where her father had sent her to seek treatment for what was believed to be a cold.

Turkel said there was evidence the girl recently suffered an undetected heart attack.

Dr. Frederick Bruhn, the hospital's chief resident pediatrician, commented: "In fact, she probably went through her brief life having heart attacks and passing them off as minor pains."

## Study Long Pipe Line To Tokyo

SAN FRANCISCO (UPI) — The feasibility of an 850-mile natural gas pipeline from an island off the coast of Siberia to Tokyo is being studied by a San Francisco firm.

The pipeline would include a 34-mile underwater crossing of Soya Strait between Sakhalin Island and the Japanese island of Hokkaido and a 17-mile underwater crossing of Tsugaru Strait between Hokkaido and the main island of Honshu, on which Tokyo is located.

FOR THE BIRDS?  
TACOMA, Wash. (AP) — Deputy sheriffs here are looking for the person who tried to feather his nest by stealing \$650 worth of concrete moulds from Roy Melvin. The moulds were used to make bird baths.

## SBA Official Knows Of No Plans For Greenville

By STUART SAVAGE  
Reflector Staff Writer

An announcement was made here Monday by Republican congressional candidate R. Frank Everett that a Small Business Administration office would be opened in Greenville.

An official in the SBA's Washington, D. C. administrative office, Jim Reed, said he knew of no plans "in the works now" to open an office in

Greenville, although he said the SBA does "want to open more small offices" and that a Greenville office is "not impossible."

However, George Marshall, SBA District Director in Charlotte, explained that an application has been made for a Greenville office, and that the application, approved by regional authorities in Atlanta, has been forwarded to the SBA in Washington for "further determination."

According to Marshall, "We feel that an office could be put there (in Greenville) to advantage," but he emphasized, "the application was forwarded to Washington last week for study and determination."

"It's a matter of finding a place for the office and staffing," Marshall explained.

Everette, candidate for the First Congressional District congressional seat now held by Democrat Walter Jones of Farmville, told those attending a training session for campaign workers "I am pleased to announce that a Small Business Administration Office will be opened in Greenville."

The candidate told the workers "that the fact that he could get the SBA Office in six weeks after the Democrats had tried for five years was more proof of the value of a two-party

system for the people of Eastern North Carolina" according to a news release issued from Everett's office yesterday.

The release said Everett started negotiations with "Federal and State SBA Officials on May 5, and I was informed this morning that there would be an SBA Office opened in Greenville."

## Drew 90 Days In Wildlife Case

CHARLOTTE (AP)—"Is there anyone in the courtroom who has a wildlife case that hasn't already been disposed of this morning?" prosecutor Peter S. Gilchrist inquired in Mecklenburg District Court Tuesday.

An elderly gentleman slowly approached the rail.

Gilchrist inquired about the charge.

"Oh, destroying property, staying at my house and not working . . ." the man began in reference to a case involving his 29-year-old son.

Gilchrist smiled, ". . . That's wild life, but that's not the kind I'm talking about."

The old man returned to his seat. The son later was given 90 days in jail with a recommendation for work release because of his "wild life."

## Traffic Toll

RALEIGH (AP) — The Motor Vehicle Department's report of highway deaths and injuries for the 24 hours ending at midnight Tuesday:

Killed	3
Injured (rural)	31
Killed this year	693
Killed to date last year	732
Injured to May 1, 1970	17,053
Injured to May 1, 1969	17,102

## Most Costly

WASHINGTON (AP) — The price of the most expensive government building ever—a new headquarters for the FBI—has gone up by \$5 million. Meanwhile, all that is visible at the site is a massive hole.

The General Services Administration, the federal government's housekeeping agency, acknowledges it has revised its estimate of the building's cost to \$102.5 million.

Cost of the 11-story structure, scheduled for completion in late 1973 or early 1974, originally was set at \$97.2 million. The next most expensive government building in the nation is the 4-year-old, \$87 million Rayburn House Office Building.

That structure, exclusive of the underground parking garage and furnishings which added millions more to the final costs, had been expected to cost \$64 million when commissioned in 1958.

The FBI's new building, across historic Pennsylvania Avenue from its present headquarters in the Justice Department, has been subject to some of the same forces that hiked the Rayburn price—rising construction costs and delays in letting contracts.

Excavation of the site was begun in late 1967 by Norair Corp., of Washington, D.C., under a \$10.8 million contract calling for completion of half of the three underground floors.

As recently as last March, FBI Director J. Edgar Hoover told a House appropriations subcommittee the substructure would be complete through the floor of the second basement by May. Finishing touches were put on that phase last week.

## Redistricting Need In '71

RALEIGH (AP) — Population shifts in North Carolina in recent years will make it necessary for the 1971 General Assembly to reapportion legislative districts, as well as realign congressional districts.

Secretary of State Thad Eure said today his study of preliminary figures from the 1970 census indicate that in the reapportionment and redistricting "the Piedmont is going to gain" representation while "both ends of the state are going to lose."

"That's true in all three categories of districts—congressional, state senate and state house of representatives," Eure added.

John Sanders, director of the Institute of Government at Chapel Hill, said a study of 1969 projected population totals make it obvious "that some of the urban counties like Cumberland, Wake and Mecklenburg will benefit by additional legislative representation after 1971."

In pointing to an expected loss of representation, in the east, Eure said "there's a whole tier of counties in the 1st Congressional District that lost population in the last 10 years. That just tells you what's going to happen."

Operating under the one man, one vote decree of the U.S. Supreme Court, the General Assembly redrew the state's congressional districts in 1967 after reapportioning itself in a 1966 special session.

Eure noted that in the past, the first legislature after the federal census had refused to reapportion because final census figures were not available, but this time, he said, "We're expecting final figures to be available in December."

## Make Grant Of \$375,000 Build Barrier Against Snake Invasion

PINOLE, Calif. (AP) — Concerned citizens went to City Council with their problem. The city then consulted herpetologist. Now the Pinole Line is going up against rattlesnakes.

The U-shaped barrier of wire mesh will be two feet high and sunk a foot into the ground, Mayor Donald E. Tormey announced Tuesday.

It will be at the base of a hill, above a street which in the past has served as a sort of Ho Chi Minh trail for rattlesnakes entering this Northern California town of 12,500 during hot, dry weather, the approaching season.

Snake traps will be placed at 100-foot intervals. Rattlesnakes caught will be killed, harmless snakes will be turned loose, the mayor said.

The Greenville office of NCRFD is headed by Roy C. Jordan of Vanceboro who is the executive director. Johnny F. Lyles of Kinston serves as deputy director.

The \$375,000 grant from the Office of Economic Opportunity, will involve funding for a number of the state's 100 counties that are participating in the development effort.

According to the announcement, the purpose of the grant is to direct efforts for developing a favorable climate for intercity businesses by disadvantaged ghetto residents which have been excluded from the business mainstream.

The Greenville office of NCRFD is headed by Roy C. Jordan of Vanceboro who is the executive director. Johnny F. Lyles of Kinston serves as deputy director.

## Five Persons Wounded During Miami's Shootings

By EARLE JOSIAH  
Associated Press Writer

MIAMI (AP) — Gunfire has erupted in the city's black neighborhoods for the second straight night and five persons were wounded by officers' bullets, including two white men trying to protect their place of business.

City officials ordered a dusk-to-dawn curfew after violence spread Tuesday from the Brownsville area to two other large Negro districts.

Police said one of the black men wounded was a sniper and another a looter. A third Negro walked into a hospital and said he was shot as he

sat on his front porch. Shooting began Monday night after reports circulated that a black housewife had been insulted in a supermarket.

Officials said 16 other persons were injured. Most were white and suffered cuts when their windshields and car windows were broken by chunks of pavement and stones. One was admitted to a hospital.

A number of cars driven by whites were burned.

The two white men who were shot had stationed themselves with guns on the roof of

their construction-business building. Officials said Lisbon C. Morris, 42, owner of L. C. Morris Construction and Paving Co., was in critical condition with neck and body wounds.

Police said Morris and Douglas Leach, 57, opened fire on them when they arrived at the building to investigate a burglary report. Leach was in fair condition.

After nearly five hours of steady firing throughout a 20-square-block area of the Brownsville district, shooting and looting spread into the Liberty City section and looting was reported in Coconut Grove.

The violence centered around the Pic n Pay

Market operated by Fred Weller, a white man. A group calling itself the People's Coalition had alleged that the store sold inferior food at inflated prices, refused to refund money on spoiled meat which customers returned and charged up to \$5 to cash welfare and Social Security checks.

Weller refused to comment on his customers' charges.

John Hayes of the state Department of Agriculture said his agency had seized 300 pounds of meat at the store Tuesday.

Hayes said the meat had spoiled because of a faulty refrigeration system and that Weller was ordered to make repairs.

# Daughter 'Goes Wrong' Dad Is Brokenhearted

By Abigail Van Buren

DEAR ABBY: When our daughter graduated from high school, she was described as "a highly intelligent, well-adjusted, clean-cut girl," so we were confident that we could send her away to college.

Well, she has completed her sophomore year and we have just learned that our confidence in her was badly misplaced. During her first year we noticed that her friends appeared to be the "hippie type" . . . but she defended them, saying they were "good kids" and they all looked like that.

Last summer she worked at a resort. We visited her frequently and noticed nothing amiss. However, now we know that she sometimes slept with boys who were casual dates. Also, she slipped away one weekend to attend a "rock concert" with three "guys" she hardly knew, and slept in one room with them.

How does a well brought up girl turn into such a tramp? She had love, a happy home, and a religious background. My wife is under a doctor's care now and seems headed for a nervous breakdown.

Perhaps if you publish this letter, some other kids will see it and stop short of wrecking a happy family. We have another daughter, younger, and it sickens me to admit that my wife and I have lost all desire to bring her up. We feel that teaching decency and honor to today's children is useless.

DEFEATED FATHER

DEAR FATHER: In spite of the best parental guidance, and the ultimate in examples of "morality" at home, our young people today are faced with temptations we never knew. [Drugs, freaky friends, the horrifying fear that there will be no "world" soon. Who knows?]

In any case, even the your eldest daughter fell under the influence of her peer group. I urge you not to abandon your responsibility as parents now. And the younger one deserves your best efforts, too. These are times when our children need our love and understanding most.

DEAR ABBY: I am not a hippie. I am not a rebellious student. I am a girl, 18 years old. I don't drink or smoke. I don't use pot or LSD and I don't stand on street corners waiting to be picked up.

I am a virgin and no boy puts his hands where they shouldn't be. I have plenty of dates. So what's my problem?

In your column you labeled me [and countless others] as having no respect for ourselves. Why? Because we walked with a boyfriend with our hands around each other's waists, or we sat close together in a car. So what's wrong with an expression of affection and love these days? Would you rather we hid our feelings in the back seat of a car? Would that be more "proper?" No one would see us there.

DISAPPOINTED IN YOU

DEAR DISAPPOINTED: Aw, come on! There is nothing wrong with young lovers [and older ones, for that matter] expressing honest affection in public—TO A POINT. But that "point" ends when they put their hands where they shouldn't be, exchange passionate kisses before God and everybody, and give the general impression that they are in a bedroom. [Or would like to be!]

CONFIDENTIAL TO "JUST CURIOUS": You are mistaken. A baby CAN be born in the eighth month of pregnancy and weigh 9½ pounds. This is common in families where there is a history of diabetes.

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

## Family Reunion Held On Sunday

The family of Mr. and Mrs. John E. Whichard of Greenville met at their summer cottage on Sunday.

Approximately 50 members of the family gathered for a picnic

lunch, which was served on the lawn. Following lunch, the group participated in swimming and boating.

The group plans to meet each year, the date to be announced at a later time. Julius Whichard of Greenville welcomed the group and gave the invocation.

## Miss Jane Buschman Weds George H. Reel

ALEXANDRIA, Va. — Miss Jane Christine Buschman became the bride of George Howard Reel in a double ring ceremony in St. Mary's Catholic Church here on Saturday, June 6, at two o'clock in the afternoon. Father Joseph Wiegler performed the ceremony.

The bride is the daughter of Mr. and Mrs. Raymond H. Reel of Greenville, N. C.

Miss Eleanor Nugent presided at the organ.

The bride, given in marriage by her father, chose a formal length gown of peau de soie covered with silk organza, fashioned with a stand-up collar of lace, an empire waist and organza and lace sleeves.

Her four-tiered veil of silk

illusion fell from a cluster of lace leaves encrusted with seed pearls. Her bouquet was of white sweetheart roses and baby's breath.

Miss Henrietta Yong of Lumberton, N. C., was maid of honor.

Raymond Reel served his son as best man. Usher for the ceremony was Stephen H. Reel, brother of the bridegroom.

The bride is a graduate of St. Mary's Academy, Alexandria, Va., and of East Carolina University, Greenville, N. C., where she received a B. S. degree in primary education.

The bridegroom is a graduate of Rose High School, Greenville, N. C., served four years in the United States Air Force, where he was selected as Airman of the Month, and is now attending East Carolina University.

Following the ceremony, the parents of the bride entertained at a reception in the social room of the River Towers Apartment, where the bride's parents reside.

Those assisting at the reception were Mrs. B. Sweeney, Mrs. R. Slater Sr., Mrs. R. Slater Jr. and Mrs. B. Rades, all of Alexandria, Va.

For a wedding trip to the Shenandoah Valley and Blue Ridge Mountains of Virginia, the bride changed into a red linen dress and accessories to match. She wore the corsage lifted from her bridal bouquet.

After the summer, the couple will reside in Greenville, N. C.

## Engagement Announced

MISS BEVERLY SUE FARMER . . . is the daughter of Mr. and Mrs. Allison Farmer of Greenville, who announce her engagement to Karlton Joe McLawhorn, son of Mr. and Mrs. Karl J. McLawhorn of Greenville. A wedding date has not been set.

# Guiding Light In Budget Work

The executive director of North Carolina's Association of County Commissioners held up a guiding light recently when he asserted that many county budget problems might find solution with "traditional prudence and caution coupled with a willingness to innovate . . ."

John T. Morrissey, who was making the statement in an appeal to citizens to come forth with suggestions to county commissioners, may have made the most important suggestion of all when he called for greater innovativeness at the county government level.

"For instance," he said, "consideration is being given to consolidation of functions and to the new regionalism." That is, of course, the kind of innovation that in the long run may help resolve the basic problems of too many needs and too little tax revenue faced by many local governments.

# Signature Day Outlook 'Good'

By BRYAN HAILSLIP RALEIGH, — "It's unbelievable," said Tom Bradshaw. He leaned to shake hands over a desk piled with papers, letters, address lists, posters, kits.

"Unbelievably good," he added. He meant the response to Signature Day, a joint project of the North Carolina Jaycees and the North Carolina National Guard to get half a million Tar Heels to sign their names to petitions seeking humane treatment for U.S. prisoners of war in North Viet Nam.

Signature Day is Thursday, June 18. National Guard armories throughout the state will be open and Guardsmen and Jaycees will be on duty to give citizens an opportunity to sign the petitions. In many cities, downtown and shopping center locations will be set up to collect signatures. Many of the state's 206 Jaycee chapters already are circulating the petitions to civic clubs, through offices and industrial plants, and in some cases a door-to-door solicitation is being made.

Each person is asked to sign seven identical petitions, addressed to the Washington ambassadors of Denmark, France, India, Poland, Romania, Russia and Sweden.

Through the diplomatic channels of these seven nations, which have represented themselves as possessing influence in Hanoi, it is hoped that the pressure of public opinion can be brought to bear on behalf of the prisoners. A major appeal is that North Viet Nam release a list of those held captive. So far it has refused to do so, leaving the families of some 1,500 missing men in the agony of uncertainty whether they are dead or alive.

While gathering signatures is a national project for the Guard and the Jaycees, Bradshaw said he believes North Carolina is the first state to tackle it on such a broad, coordinated scale. Success would be a spur and set a pattern for action in other states.

Why should Tar Heels sign the petitions?

First, as a matter of common humanity. "Regardless of whether you agree or disagree with U.S. policy in Southeast Asia, we owe it to these men to show our concern that they are given humane treatment," Bradshaw said. Hanoi is a signatory of the Geneva Conventions regarding

treatment of prisoners of war, but has refused to identify prisoners it holds, or to allow proper flow of letters and packages.

Second, as an expression of sympathy with those neighbors and friends among the families of North Carolinians who may be among the captives held in North Viet Nam. "There are 93 missing men who have next-of-kin in North Carolina," Bradshaw said. "We can identify with their suffering in the absence of any communications, some of them since 1962."

One of these is Mrs. James Hiteshaw of Goldsboro, whose husband has been missing since 1967. She serves as a regional coordinator for the National League of Families of America Prisoners in Southeast Asia, and is active in support of Signature Day.

National Guard and Jaycee cooperation on the project came about as a sort of happy accident. Bradshaw, a former Raleigh Jaycee president and now North Carolina national director, heard about the project at a meeting in Tulsa, Okla.

He also is a captain in the National Guard. Back in Raleigh, Col. William P. Keeton, Jr., told him the Guard was interested in the matter. How about working together?

"Fine," said Bradshaw. "When?" The Jaycees had been considering a September campaign, but the June 18 date was selected because it is a time when all Guard units are at home rather than some away at summer camp.

Maj. Gen. Ferd L. Davis, North Carolina adjutant general, named Col. Keeton as Guard project officer for Signature Day. Bill Hobbs of Forest City, North Carolina Jaycee president, appointed Bradshaw as state Jaycee project director.

Gen. Davis told a news conference announcing Signature Day that "regardless of an individual's feelings towards American involvement in Southeast Asia, all of us should do everything possible to obtain the names of those held captive and to secure proper treatment of our men."

What are the chances the petitions will have any influence?

It's a question without a quick or certain answer, but Bradshaw feels hopeful. "This is what the representatives of the seven nations have indicated they can use in approaching Hanoi," he explained.

In most areas of the state, the Boards of County Commissioners has been the bastion of conservatism. In far too many instances those who sit on these boards have been much more attuned to the way things have been done in the past than to the needs of the present and the future. There has, in a very sense, been an obvious lack of willingness to innovate. Resistance to change has appeared to be much more pronounced among commissioners themselves than in the electorate which put them into office.

Certainly there are many instances in which local government financial problems could be eased by changes in the manner of doing things. Consolidation of functions of various local governments, as Mr. Morrissey pointed out, offers a great source of tax savings to local governments.

County and municipal functions could be merged at many departmental levels, providing tax savings and probably providing improved quality of service to citizens. In some instances there could even be a merger of the governmental divisions themselves that would serve the best interests of the citizenry as a whole.

But such talk is looked upon with a jaunticed eye by most Boards of County Commissioners. Departures from the past manner of doing things are slow to gain acceptance from those charged with the responsibility of governing. Indeed, they more often than not are shunted aside with little more than a grunt of disapproval.

Morrissey's invitation for citizens to make suggestions to their county commissioners is an excellent one, and certainly Morrissey's own suggestion that Commissioners exhibit a greater willingness to innovate in their own governing policies should not fall on deaf ears in the courthouses around the state.

# Wallace Adds New Tensions

By ROWLAND EVANS and ROBERT NOVAK WASHINGTON — Apprehension that George Wallace's comeback may "spook" the Nixon administration into new concessions to Dixie stems from incidents such as one at a closed-door session of Vice President Spiro T. Agnew's Cabinet committee on school desegregation June 4 — two days after Wallace's primary victory for governor.

A Justice Department presentation on Deep South desegregation was angrily interrupted by Postmaster Gen. Winton (Red) Blount, the Alabama millionaire and only Southerner in President Nixon's Cabinet. Pointing to a chart prepared by Justice Department lawyers, Blount demanded that it emphasize the fact that the Nixon administration now has nothing to do with desegregation in Alabama. It should clearly reflect that Alabama is operating under a statewide court order filed by the Johnson administration.

Blount sounded off prematurely. The chart did show that all the state's 119 school districts are "in litigation" as a result of the LBJ statewide suit, and that none are "out of compliance and not in litigation."

But Blount's brief flareup shows how Wallace's resurrection as the 1972 third-party Presidential nominee who threatens Mr. Nixon's Southern strategy is building political tensions.

Most significantly affected is Atty. Gen. John Mitchell, the President's political manager and chief architect of the Southern strategy. He was angry that attorneys in his civil rights division released the school desegregation chart to the press after it was privately unveiled before the Agnew committee.

Mitchell had no disagreement with the statistics, but he did not want his department publicly identified with Administration desegregation plans because of possible bad

publicity in the South. The statistics, according to Mitchell, should be released from the Department of Health, Education and Welfare or from the Agnew committee. So upset was the Attorney General that he pulled back copies of the chart that had been sent to the White House for release.

Republican moderates in key posts within the Administration are aware of this palpitating political reaction. They are also deeply disturbed by it.

One Administration official who is pushing Deep South school desegregation told us that the "knee-jerk reaction" by top Nixon men immediately after Wallace's victory in the June 2 primary runoff suggested to him that "Wallace may spook the White House into doing a lot of stupid things."

The first test will come this week in Jackson, Miss., at still another meeting between Administration desegregation experts and Mississippi school officials. With some 30 school districts still not in compliance on racial desegregation, a Washington delegation, dominated by Justice Department lawyers is offering Mississippi one last chance to reduce its holdout districts by voluntary compliance to no more than 15.

If the state can get to that level, no statewide desegregation suit will be filed. Instead, individual suits will be brought against holdout districts, a local procedure avoiding inflammatory headlines across the state. Such headlines can only hurt Richard Nixon and help George Wallace in Mississippi.

Jerris Leonard, assistant attorney general in charge of civil rights, has flatly informed state education officials that this is Mississippi's last chance to avoid a statewide suit. Working closely with Leonard are Mississippi Republican officials, headed

"It's a Real-In-Way-Out Step Called the 'Cabinet Shuffle' . . . and All Very Meaningful. They Say"

By ART BUCHWALD

# Thieu's Fact-Finders

WASHINGTON — At the very moment that President Nixon sent a fact-finding commission to Vietnam and Cambodia, to report on the progress in the war over there, President Thieu sent a fact-finding commission to the United States to find out what was going on here.

This commission headed by President Thieu's dearest friend, Sen. Daw Key, has just returned to Saigon to give President Thieu a very optimistic picture of what is going on in the United States at the present time.

The commission said it was impressed with the fighting ability of the National Guard who had routed the students

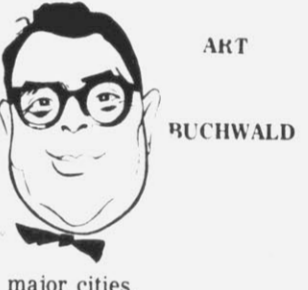

this spring and indicated that "Americanization" is moving faster than anyone had expected.

Sen. Daw Key said "Predictions that President Nixon's government would topple in a few months have been proved false. Morale among the construction workers has never been higher, and some Administration officials predict the students will be driven out of their university sanctuaries before the end of the rainy season."

Sen. Daw Key told President Thieu that he could now see the light at the end of the tunnel and he saw no reason why the United States

could not do all of the fighting in its own country by 1972.

While the commission said it was heartened by what it saw, it warned that President Nixon faced many difficulties. "Inflation," said Sen. Daw Key, "is one of the United States' major problems and could be a big setback to pacification in the

major cities.

"Electrical blackouts and brownouts are predicted for the summer, which could have a very serious effect on the natives who are dependent on air conditioning for survival."

"Attempts to curb polluted waters or hold back smoke have not gone as well as advisers would have hoped, and the infiltration of poisons in the air has reached new unacceptable levels."

The Daw Key Commission also said that it was concerned with the unemployment rate in the countryside which reached a new high and has been making the natives restless.

"While the commission did not see President Nixon personally, it was given a tour of the newspaper plants and TV networks that were still left partially standing after Vice President Spiro Agnew's heavy attacks on them. The commission members were shown captured enemy editorials proving that the notorious First Armored Eastern Establishment Press Division intended to attack the Nixon government and bring it down. Had

(Continued on page 5)

# Other Editors Say How Not To Do It

(Gastonia Gazette)

It is a well known fact that not all juvenile offenders come from the so-called disadvantaged sectors. Parental attitudes and examples and those of teachers and friends influence the young person of any background who is in the early stages of building up his own principles.

We are sure that no parent wants to raise a delinquent child. But if there is such a rare individual, here are ten rules for doing so, and, conversely, what not to do if you do not wish to raise such a child. They were prepared by the Houston, Tex., Police Department:

1. Begin at infancy to give the child everything he wants. In this way he will grow up to believe the world owes him a living.
2. When he picks up bad words, laugh at him. This will make him think he's cute.
3. Never give him any spiritual training. Wait until he is 21, and then let him

'decide for himself.'

"4. Pick up everything he leaves lying around books, shoes, clothes. Do everything for him so that he will be experienced in throwing all responsibility to others."

"5. Quarrel frequently in his presence. In this way he will not be too shocked when the home is broken later."

"6. Give a child all he wants. Never let him earn his own. Why should he have things as tough as you had them?"

"7. Satisfy his every craving for food, drink and comfort. Denial may lead to harmful frustrations."

"8. Take his part against neighbors, teachers, policemen. They are all prejudiced against your child."

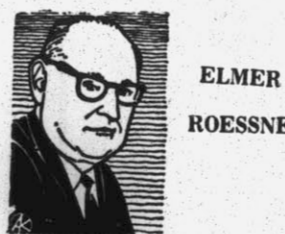

"9. When he gets into real trouble, apologize for yourself by saying 'I never could do anything with him.'

"10. Prepare for a life of grief. You are bound to have it."

# Long Skirts—Unless Shorter

By ELMER ROESSNER

Polarization has become a dirty word. Pundits have been denouncing the increasing polarization in the United States: the polarization of the left and right, of the under-thirties and over-thirties, of the whites and blacks, of hawks and doves. With the rise of the

ELMER ROESSNER

women's liberation there is a new polarization: that of male and female.

There is one more polarization among the females: the division between the short-skirters and the mid-skirters. This is costing the garment industry millions. Manufacturers do

not know how much of each style to cut. The leading fashion houses, the store buyers and the girls themselves seem to change their minds so often as a weathercock in a tornado. Bankruptcies in the industry are rising.

Some light was thrown on the differences of opinion by the New York Times, which surveyed tentative fall buying of 15 leading New York department stores. What Makes Horse Races

The differences of opinions of store buyers, who are up to their earrings in fashion trends and tastes, is amazing. Two stores in the Herald Square area, which get a huge volume of trade from working girls, are ordering 60 and 75 per cent of their fall dresses in top-of-the-knee and shorter lengths. Yet six other stores, largely high-fashion outlets, are ordering none at all.

There are heavy plans for just-below-the-knee lengths, ranging from 20 per cent at the Herald Square store is planning to stock one third in just-below-the-knee lengths and two-thirds in mid-calf-or-longer styles.

The differences in costs is even greater. Twelve stores plan to order zero coats in above-knee lengths. One Herald Square is ordering 60 per cent in that length and two other stores are ordering 10 and 20 per cent.

Inverse Radio The higher the fashion, the lower the coats, it seems. Three high fashion stores plan to order 75 or 80 per cent of their coats at mid-calf or longer. However, another high-fashion store is ordering only 15 per cent in that length.

It seems to a male observer that the decision to buy and to sell ought to depend on the figure of the wearer; that the under-thirties with trim legs

# Serious Side To Heston

By HAL BOYLE NEW YORK (AP) — "I have a theory that if anything is much fun it doesn't do you much good," said Charlton Heston.

The 6-foot-2 actor, conscientious in everything he does, at 45 still methodically runs two miles a day to keep in perfect physical condition.

"I don't jog — I run," he emphasized.

For a man with his stature in film and record of public activity, Heston — who likes to be called Chuck — keeps a rare and unbreakable aura of privacy. No one meeting him for the first time feels like slapping him on the back or telling him a funny story.

"I have a more sober public image than probably reflects the truth," he admitted. "But I do try to keep my private life private, and don't go out much. This creates the picture of a pretty square guy."

"Well, I do take very seriously what I take to be my duty."

Since he played Santa Claus in a school pageant at the age of 5, Chuck has portrayed with authority many larger-than-life figures. Besides acting as the offscreen voice of God, he has appeared as three presidents, several military heroes and two geniuses — Moses and Michelangelo.

About a third of his 37 films — the latest is "The Hawaiians" — have been multimillion-dollar epics. He starred in two of the top 10 moneymakers in Hollywood history — "Ben-Hur" and "The Ten Commandments." Others that rang the cash register in memorable manner include "El Cid," "Planet of the Apes," and "The Greatest Show on Earth."

"To me life is a challenge, and I hope it always will be," he said.

In his restless acceptance of those challenges, Heston has won an Oscar and five foreign acting awards. He has twice been to Vietnam to entertain the troops, made four goodwill trips abroad for the U.S. State Department, served three terms as president of the Screen Actors Guild, and been an active fighter for civil rights.

He aspired to a career on stage and screen from the days during a lonely childhood when he started playing the roles in plays read aloud to him by his father, a Michigan sawmill operator.

After studying drama and speech at Northwestern University, he served three years in wartime as a radio operator aboard bombers in the Aleutians.

He and his actress wife, Lydia Clarke, a former university classmate, then lived in a \$30-a-month apartment here until Chuck got his first Broadway break in 1948 in a supporting role in Katharine Cornell's production of "Anthony and Cleopatra."

Following appearances in other Broadway shows, summer stock and television plays, Heston landed a contract with producer Hal Wallis for "Dark City" without even taking a screen test. Hollywood had found another of the stars it likes best — those that can bring in the big buck.

"I like my life. I'm very happy," said Chuck.

# Strength For Today

WE NEED TO PONDER

Self-denial may not appear in prospect to be pleasant. Yet the opposite of self-denial, acting on the spur of the moment and without any well thought out purpose, is certainly not a policy designed to make one happy. The people who can do whatever they want to do, whenever they want to do it and without regard for principles or persons are not the happiest folk one finds on the planet. Such people fall the victims of every passing vice and usually end up with their personality torn to shreds. They may blame parents, or the political system under which they live or the people with whom they have to associate, but in the end justifications of this sort

never get anyone out of the rut of discontent and into the joy of setting up an objective and reaching it.

Many people believe that hypocrisy is the vice which most often twists human life and brings it to unhappiness. As a matter of fact, selfishness is at the center of most of the world's suffering. Some people, like the monster Hitler, want to run the world, and humanity at last stamps such into the ground. Others want to run the house, or the office, or the social group. "Why can't they listen to me...me...me...?"

How can we be so silly? Let us blink our eyes, take inventory of ourselves, look in the mirror and take a good laugh.

By Earl L. Douglass

# Labor-Saving Machines Add To Need For Office Workers

**By JOHN CUNIFF**  
AP Business Analyst  
NEW YORK (AP) — True or false: The proliferation of labor-saving office machines will greatly diminish the need for all types of office workers during the 1970s?

One glance at the array of bookkeeping machines, copiers, duplicators, automatic typewriters, electronic computers and other office furnishings might convince you that the 1970s will indeed be the age of the machines.

The answer, however, is false. It quite likely will be a decade of increasing demand for office workers.

that no machine has demonstrated to anyone's satisfaction. As a result, they will be little affected by technology.

Bookkeepers, the second largest category of office worker, may be affected a bit more than stenographers-secretaries, but this group too is expected to continue growing. There are more than 1.2 million now.

Employment for typists, the department's figures indicate, is expected to rise rapidly through 1975. Some junior typing jobs may be turned over to the automatic machines, but there is expected to be a much greater need for typists able to perform more difficult assignments.

Direct dialing and other technological changes are expected to slow the growth of jobs for telephone operators in telephone company exchanges, but the

number of operators in other businesses is expected to rise steadily.

Here are some other projections, based on Labor Department estimates:

Receptionists: Expected to grow as rapidly as in the 1960s, mainly because of an expected

continuation of business expansion. No machine yet devised can replace even the slightest amount of sex appeal.

Bank tellers: Very rapid growth through 1975. An increasing number are expected to be part-timers, employed during peak hours at midday

and in evenings.

Electronic computer operators: Most rapid growth of any other office job category. The computer may gobble up some types of jobs, but it creates others. Expect a steady increase in the number of these machines and accessory equipment.

## Tahitian TV Choice Is U.S. Westerns

**By BOB THOMAS**  
Associated Press Writer  
PAPEETE, Tahiti (AP) — Robert Stack straps on his shoulder holster, checks his automatic and says to his fellow crime fighters: "Allons!"

What is Elliott Ness doing in Tahiti? The fact is that "The Untouchables"—the French-language version—has proved to be one of the most popular attractions on Tahitian television. Other American hits have been "Bonanza" and "The Invaders."

Consider also the small earnings of most Tahitians and the cost of television sets—\$200 to \$300. How do the natives manage to become set owners?

"Very simple," says Jean Suhas, a former Paris journalist who directs the television operation. "In many cases three families will have homes on the same communal property. So they put their money together and buy a set they all can watch."

The tourist visitor, overwhelmed by the physical attractions of French Polynesia, might consider television as superfluous as snowshoes. But the natives appear to love it.

Tahitian television, which began in 1964, is now received by 7,500 home sets. That's not much by U.S. standards, but the number is remarkable when you realize that the signal extends only to Papeete's population: 30,000 and its closest environs, plus the opposite shore of Bali Hai-like Moorea, 12 miles away.

Americans would find the local television schedule spare—it's 3½ hours on weeknights and 4½ on weeknights, starting at 6:30. Three times a week, lessons in English, French, science and other education subjects are offered for the youthful

## Dislikes Affect The Language

**JOHANNESBURG, South Africa (AP)** — Government policy is that the two official languages, English and Afrikaans, are equal and must be used equally. Among the latest targets for bilingualism is whisky, but long standing Afrikaner dislike for British imperialism seems to have taken a hand. Queen Anne whisky is now labelled "Tant Anna," or Aunt Anna. If other distillers follow the bilingual line, Johnny Walker may become Jan Looper, Teachers may be Onderwysers and Highland Cream may become Hoeveld Tannie.

## Buchwald . . .

Vice President Agnew not launched a counterattack when he did, Agnew spokesmen said, Washington would now be in the hands of Walter Cronkite and Herblock."

## Evans, Novak

(Continued from page 4)  
by state chairman Clarke Reed, who share the same desire to avoid a statewide court suit.

But what if all this fails and more than 15 Mississippi districts remain out of compliance? Will the Administration be "spooked" enough to order Leonard not to file a statewide suit?

As of today, even White House political aides are saying privately that the time to take the heat on desegregation is now two years before the 1972 election. Moreover, Justice government lawyers believe there is no way to invoke any more legal delays without exposing Mitchell — and the President — to another humiliation at the hands of the Supreme Court.

That's a distinct possibility.

audience.

The nightly schedule begins with a half-hour of cartoons and serials for the small fry, then the news. Then come variety shows and series, some from the United States but the bulk from France. From 15 to 18 per cent of all programming is of local origin.

Tahitian television is operated by the French government-owned ORTF. Mon dieu, no commercials!

"This country pays nothing for television," directors Suhas remarked proudly. "All expenses are paid by the French government. We do allow one hour and 50 minutes of commercials on the radio, which broadcasts 10 hours a day; but I ship that income right back to Paris."

The most popular programs for Tahitians? American Western movies.

**POPULAR SCARVES**  
NEW DELHI, India (AP) — Women's silk scarves made in India are proving increasingly popular abroad—and a rich source of foreign exchange for the country.

Studies by the Labor Department indicate that whereas there were 13 million clerical workers in 1968, there might well be 15 million at work in 1975. Jobs might be eliminated, but new ones are expected to be created.

Jobs for secretaries and stenographers, the largest group of office workers—they number more than 2.5 million—are expected to grow very rapidly through the middle of the present decade, according to Herbert Beinstock, the department's New York director.

The duties of workers of this type, Beinstock explains, require initiative, judgment and contact with the public, skills

## Girl Cadet Is Serving At Sea

**LONDON (AP)** — Britain has sent a girl to sea. Pat Leary, 23-years-old, is Britain's first female cadet deck officer. Miss Leary, who studied for a degree at Liverpool University, works on an oil tanker.

"Being at sea is the perfect life for me," she said.

## Earns PhD At Yeshiva Univ.

**NEW YORK, N.Y.** — Carroll Aubrey Webber Jr. of 610 S. Elm St., Greenville, N.C., will receive a Doctor of Philosophy degree from Belfer Graduate School of Science at the 39th annual commencement exercise of Yeshiva University here, on Thursday.

A member of the mathematics faculty at East Carolina University, Webber was coach of the school's College Bowl team in 1966. He received a B.S. in physics in 1946 from California Institute of Technology and M.A. degrees in physics and mathematics, respectively, in 1948 and 1959 from the University of California.

Yeshiva University is America's oldest and largest university under Jewish auspices, now celebrating its 85th year.

# Married Negro Men Gaining Ground In Employment Field

WASHINGTON (AP) — Negro married men made substantial strides toward parity with whites in new blue collar jobs during the last decade, a special U.S. Census Bureau report discloses.

Negroes, who represent only 11 per cent of the population, got 28 per cent of the new craftsmen and operative openings that went to family men between 1960 and 1969, the report said.

During the same period, the bureau said in the unpublished report, the median income of the married Negro blue collar worker jumped 44 per cent while income for white married men in the same occupations rose 27 per cent.

The report dealt only with the earnings of black and white hus-

bands and did not include the 30 per cent of the nation's 5 million Negro households headed by a woman.

Craftsmen and operatives include industrial workers as well as specialists such as carpenters and plumbers. Not included are clerical and sales workers, service employes and laborers.

Poverty expert Sar Levitan of George Washington University's Center for Manpower Policy Studies said the figures indicate a slow but sure breakdown in racial barriers.

"They are very real changes," the economist said. "They are not just isolated in

any particular geographic area or in any specific industry."

The Census Bureau prepared the tabulation at the request and expense of Levitan, who is studying America's blue collar work force.

"We are talking about a total of 1.4 million new jobs with 385,000 of them for Negroes. That's not tokenism if Negroes get nearly 30 per cent of the new jobs. That's way above their proportion of the population," Levitan said.

Before the strides forward in the blue collar field, Levitan said, Negroes were able to make major economic gains

only as white collar workers. "Negroes just did not get into craftsmen or operative jobs."

Levitan said the changes resulted in part from "steady and sustained pressure by blacks to get an even break" and federal power "to breathe down the necks" of employers.

"What happened wasn't altruistic," he said. "It was a response to real pressures."

He predicted the gains would continue if the national economy avoided a prolonged recession. If it doesn't, he said, "Then we'll have real problems and the gains could be, I suspect, eliminated."

# Sponsoring Tour Of County On June 25

The Pitt County Agricultural Extension Service will sponsor its second annual county-wide tour June 25. The tour is a cooperative effort between the Agricultural Extension Service and Geigy Chemical Company.

The tour will consist of several varied stops that the Extension Service feels will be of interest to those attending.

The major part of the tour will be visiting field tests set up by

the Agricultural Extension Service. These will include a simulated hail test, and area disease interaction test of tobacco; multiple variety concept, and fertility tests of peanuts; variety and weed control tests of both soybeans and corn. Other stops will include a Coastal Bermuda planting by the Soil Conservation Service, and a Reforestation area by the Forestry Service.

Transportation for the first 35 persons responding will be on an air-conditioned bus (others will travel by car), and lunch will be furnished for all who attend by Geigy Chemical Company.

Hosts on the tour will be Ed Yancey, Pitt County extension chairman, and Larry Land, Geigy Chemical Company representative.

The bus will leave the Pitt County Fairgrounds at 8:30 a.m. and will return about 3:30 p.m.

Persons who wish to attend should contact the County Agricultural Extension Service, P.O. Box 1727, Greenville, or call 758-1196.

# Astronaut Has Marriage Plans

SAN ANTONIO, Tex. (AP) — Astronaut Thomas K. Mattingly II, who was bumped from the Apollo 13 moon flight because of exposure to measles, has taken out a marriage license here with a California woman.

Courthouse records listed the astronaut's intended bride only as Elizabeth Bailey of California.

Mattingly, 34, on two weeks' leave from the Manned Spacecraft Center in Houston, let few people know of his marriage plans.

# Anticipates No Increase

RALEIGH (AP) — William H. McCachren, director of the North Carolina Selective Service System, says he is not anticipating any increase in the number of conscientious objector applications as a result of a U. S. Supreme Court ruling.

The court ruled Monday that young men who object to military service on purely ethical and moral grounds without being prompted by religious beliefs should not be denied exemption to induction as conscientious objectors.

McCachren said there are 264 men between the ages of 19 and 25 now classified as conscientious objectors in North Carolina, of that number, 163 are classified as 1-A-0, available for noncombatant military service only; and 101 are classified as 1-W, performing civilian work contributing to the maintenance of national health, safety or interest.

"The Supreme Court did not change the law," McCachren said. "They gave it a new interpretation. Congress may change the law and that could affect the number of applications."

# West German Ambassador Released By Kidnapers

By GEORGE HAWRYLYSHYN  
Associated Press Writer  
RIO DE JANEIRO (AP) — The West German ambassador to Brazil was released unharmed Tuesday night, had a quick snack of orange juice and eggs and told newsmen he would tell them later about his five-day ordeal at the mercy of political kidnapers.

Ambassador Ehrenfried von Holleben was freed on a Rio de Janeiro street nearly 24 hours after the arrival in Algiers of 40 political prisoners whose freedom was demanded by the kidnapers. The diplomat was given a ride home by a young lawyer

who recognized him.

It was the third political kidnaping in Brazil since last September, and the ninth of a diplomat by antigovernment forces in Latin America. All have been released unharmed except Count Karl von Sprei, the West German ambassador to Guatemala, who was murdered last April after the Guatemalan government refused to free prisoners demanded as ransom.

Von Holleben was pulled from his car last Thursday by nine young men and a woman carrying machine guns. They killed one Brazilian security guard and wounded two others before

speeding the envoy away. Leaflets strewn on the street identified the kidnapers as members of the Popular Revolutionary Vanguard, an underground leftist group opposing the military regime in Brazil.

"Yes, I'm all right," the 61-year-old diplomat said as he got out of the car in front of his residence. He looked tired and worn, and his tan suit was wrinkled and creased, but he seemed to be in good shape otherwise.

The ambassador appeared on

the balcony of the embassy residence and read a brief statement saying he was "very grateful to all who stood by me." He expressed grief over the slaying of the security agent in the kidnaping.

The young man who brought von Holleben home, Sergio da Costa Apolinario, said he was parked in the northcentral section of Rio when the ambassador approached and asked for help. Apolinario said von Holleben did not talk much during the ride but did say he was all

right.

Shortly before von Holleben was released, his embassy received a telephone threat that he would be killed unless police relaxed their street patrols in Rio. An hour later a government broadcast said no excessive security measures were being taken, and police were only carrying out their regular duties. But shortly after that some of the street barricades that had been thrown up were removed, and some of the uniformed police were taken off the

streets.

Alarm had been growing at the delay in the ambassador's release. His abductors had promised he would be freed as soon as Brazilian television and newspapers brought them word that the 40 political prisoners had landed safely in Mexico, Cuba or Algeria.

The kidnapers also had de-

manded that there be no search for them and no arrests for the kidnaping. Only a few arrests were reported, in contrast to the sweeping roundup of suspects following the abduction of U.S. Ambassador C. Burke Elbrick last September.

Meanwhile, the International Commission of Jurists sent a French lawyer to Algiers to

investigate the charges by the freed prisoners that their Brazilian captors had tortured them. The lawyer, Maurice Butin, told a radio interviewer he was "deeply shocked" by scars and other signs of torture on many of the Brazilians. The international commission investigates government repression around the world.

## Negro Mayor Is Chosen By Newark, N.J., Voters

NEWARK, N.J. (AP) — Kenneth A. Gibson, a 38-year-old civil engineer, has been elected as the first Negro mayor of a major Northeastern city, defeating an incumbent accused of corruption in office.

A runoff election Tuesday gave Gibson victory by 54,892 votes to 43,339 for Mayor Hugh J. Addonizio, 56, who held the office for eight years and ran for another term while standing trial on federal charges.

After Gibson was declared winner, hundreds of Negroes paraded the main street of this racially divided city, New Jersey's largest, some shouting "Power to the people!" and waving clenched fists in a Black Power salute.

Gibson, pledging to work for

### Find Downtown Marijuana Plant

RALEIGH (AP)—You'd hardly expect to find marijuana growing on a busy downtown sidewalk.

But in Raleigh a healthy "pot" plant was growing in a tiny crack between the sidewalk and a building.

Police found it after a newspaper received an anonymous phone call from a citizen. The State Bureau of Investigation quickly determined that it was indeed marijuana.

"We can't even get the stuff to grow in the laboratory," an SBI chemist said, "and this stuff grew less than 200 yards from here."

an end to chronic black-white confrontations, declared: "We must begin to reconcile this community at this moment."

Newark, with a population over 400,000, has a majority of black residents, but Negroes trail whites 3 to 2 in voting registrations.

The key to Gibson's victory appeared to be white votes from areas where former Fire Director John Cauffield, who endorsed Gibson, ran strongly in the first election May 12.

Gibson, who takes office July 1, will face a City Council dominated by whites and Addonizio supporters, although he carried three Negro councilmen into office with him.

Two Gibson men ousted veteran Negro Councilmen Irvine Turner and Calvin West, who were aligned with Addonizio and who were indicted with him on federal extortion and conspiracy charges. A third indicted councilman, Frank Addonizio, a distant cousin of the mayor, also lost.

Addonizio, a member of Fordham University's famed "Seven Blocks of Granite" football team and a war hero, served

seven terms in Congress before returning to Newark to become mayor.

Addonizio and 14 others—mostly city officials, but including alleged Mafia leader Anthony "Tony Boy" Boiaro—were indicted last year on extortion charges, stemming from an alleged \$253,000 in kickbacks on city contracts.

In the six-candidate first election, Gibson outpolled Addonizio 37,895 votes to 18,212 but failed to achieve a majority.

MY NEW OFFICIAL SEAL, GENTLEMEN—In a light moment during North Carolina Governor Bob Scott's Tuesday news conference he flashed this seal which he picked up in New York during his Monday trip. The official-looking seal proclaims he is an Official U.S. Taxpayer. (AP Wirephoto)

## A&P Offers You a Chance To Cut Food Costs That Few Other Supermarkets Can Offer!

Supermarkets all carry the famous National Brands. A&P does . . . proudly. These days many supermarkets have their own company brands. To some, selling price is first in importance, quality second. To A&P, it's the opposite. Quality comes first . . . high quality that we can control because we produce in our own plants so many of our own brands.

So A&P offers you the choice . . . famous National Brands at prices we believe will save you money, or quality-famous A&P Brands at prices we **know** will save you money, without having to sacrifice quality. Few other supermarkets can offer you this quality choice . . . this chance to cut food costs.

# 'Signature Day' Petitions Are Waiting

## Unruly Defendants Now Display Court Decorum

By LINDA DEUTSCH  
Associated Press Writer  
LOS ANGELES (AP) — Four hippie-type clan members who disrupted proceedings at pre-trial hearings became models of decorum at the opening of their trial on charges of murdering actress Sharon Tate and six others.

Shaggy-haired Charles Manson and three women followers in gaily colored dresses watched quietly Tuesday as jury selection began. All rose when asked to face the 60 prospective jurors who filed into the spectator section of the courtroom.

The defendants were impassive as the judge read each count of the murder-conspiracy charges against them.

The three women, their long hair falling over their shoulders, giggled and smiled at friends in the spectator section. They are Susan Atkins, 21, Patricia Krenwinkel, 22, and Leslie Van Houten, 20, one-time members of a roving communal "family" led by Manson, 35, known by members as "God" and "Christ."

The four, who were ejected from court last week for refusing to sit down and obey rules, followed their attorneys obediently into the chambers of Superior Court Judge Charles Old-

er for private questioning of prospective jurors.

The first day of jury selection indicated a lengthy search for 12 persons who will meet all qualifications and be able to stay away from home and work for the trial which is expected to last six months. The judge has ordered the jury sequestered in a hotel for the duration of the trial.

All nine prospective jurors questioned Tuesday were excused.

Seven said they would suffer personal hardship if locked up for six months. They cited busi-

ness obligations, family responsibilities and vacation plans.

Two men were excused when they said they would not impose the death penalty.

Miss Tate, pregnant blonde wife of film director Roman Polanski, was found stabbed to death at her home last Aug. 9, amid hoods, ropes and bloody scrawlings. Dead with her, of gunshot and knife wounds, were four visitors.

Two wealthy market owners, Mr. and Mrs. Leno LaBianca, were found similarly slain the next night.

As part of an effort to give every North Carolinian an opportunity to show their concern for captive U.S. servicemen in North Vietnam, the North Carolina National Guard and state Jaycee organization have joined forces to make petitions available for signing throughout the state.

June 18 has been designated "Signature Day for the signing of these petitions, addressed to the Washington ambassadors of Denmark, France, India, Poland, Romania, Russia and Sweden for mailing soon after the 18th.

The petitions to each of the seven ambassadors read, in part:

"As citizens of the state of North Carolina and the United

States of America, we bring to your attention and the attention of your government the recent and continuing reports of the treatment afforded U.S. military prisoners of War being held by the Democratic Republic of North Vietnam and solicit your assistance on behalf of these prisoners."

The petition continues, "... the reports, which we believe to be factual, indicate that these prisoners of war are not being treated in the manner prescribed by the Geneva Convention of 1949. As you know, North Vietnam, along with 119 other governments, is a signatory of the Geneva Conventions."

"Reported violations of the Conventions include the fact that the Hanoi government has

refused to identify these United States prisoners of war it holds, or to allow these men to receive mail and packages from their homes. It has also been reported that prisoners have been forced to endure cruel and inhumane treatment and in some cases have been tortured by the Hanoi government."

The petition concludes, "We vehemently protest these reported violations. At the same time, we respectfully request that you and your government exert all possible efforts to bring about strict compliance by North Vietnam with the Geneva Conventions as they apply to prisoners of war, whether United States personnel or those of any other nation."

Sign up booths will be located at the National Guard Armory and Pitt Plaza in Greenville; Bethel Pharmacy in Bethel;

Community Building in Parker Station in Stokes; and Robersonville; Roebuck and Edward's Pharmacy in Ayden.

SIGNATURE DAY. . . Jack Wall (L), president of the Greenville Jaycees, and Capt. Ralph Heidenrich, commander of the local National Guard Battalion, hold the petition they signed kicking off the area observance of POW Signature Day. The effort will run all day June 18.

## Papyrus Boat Is Half Way

COLLA MICHERI, Italy (AP) — Thor Heyerdahl's papyrus boat has passed the halfway mark in its Atlantic crossing from Africa to Central America, his wife reported today.

Mrs. Heyerdahl said the Norwegian navigator told her by radio Tuesday night that the Ra II was sailing regularly, making good time and was 1,659 miles from its starting point at Safi, Morocco.

Heyerdahl and an international crew are trying to prove that the ancient Egyptians could have discovered America by crossing the Atlantic in papyrus vessels. Their attempt last year failed when stormy seas swamped their first papyrus boat Ra.

"The only trouble faced by Thor and the crew so far were the large areas of naphtha through which the Ra II was forced to sail in the last few days and which prevented underwater filming," Mrs. Heyerdahl said.

She plans to fly to Barbados via New York Thursday to board a yacht chartered by a television crew that will film the last stretch of the voyage.

## Community Notes

The Senior Choir of Warren Chapel Church will have rehearsal Thursday night at eight o'clock at the church.

The Rev. James Phillips announces revival services are being held this week at St. Mary F.W.B. Church at Jason (between Snow Hill and La Grange) with the Rev. West Shields Jr. in charge. Services will begin each night at 7:30.

Dr. West Shields Jr., worshipful master of Mt. Hermon Masonic Lodge No. 35, announces St. John Day services will be held Sunday at 7 p.m. at Cornerstone Baptist Church.

The Rev. W. B. Moore, pastor, will preach.

The Senior Choir of St. Paul's Church will meet at the home of Lillian Allen Thursday at 6:30 p.m. for a trip to Dover.

The Senior Choir of New Covenant Holiness Church, Grifton, will have rehearsal tonight at 7:30.

Elder L. L. Payton will conduct prayer services tonight at 8:30 at the Christ Temple Prayer Center.

AYDEN — Approximately 100 descendants of the late Adam and Mary Dixon and the late John and Mary Garris attended the Dixon - Garris Family reunion Sunday at Zion Chapel F.W.B. Church.

Participating in the program were the Rev. J. N. Gilbert, Mrs. Lula Garris Dixon of Ayden and other members of the family. Dinner was served in the education department of the church.

# Stock And Market Reports

**RALEIGH (AP) — (NCDA)—** North Carolina egg markets stronger. Supplies adequate demand fair to good. Prices paid producers and handlers for consumer grade eggs in cartons delivered nearby outlets:

Grade A large whites: 42-42½; medium, whites: 33-34; small, whites: 23½-24.

**RALEIGH (AP) — (NCDA)—** North Carolina hog markets today were mostly steady with instances of 50 lower. Tops of 24.25-25.75 Rocky Mount and Kinley; 23.25-24.75 Tarboro; 23.25-24.25 Bethel; 23.75-24.00 Wilson; 23.50-24.00 Siler City, Denton and Aberdeen; 22.50-23.50 Kinston, New Bern, Benson, Newton Grove, Albertson and Lumberton; 25.00 Mount Olive; 24.25 Greensboro and Salisbury.

**RALEIGH (AP) — (NCDA)—** The North Carolina poultry market tone was firm today, supplies adequate, demand good. Live at farm base valuation, 12 cents per pound. Hens offerings ample, demand limited. Heavy type at farm 8-8½; light type at farm 5.

**NEW YORK (AP) —** Stock market prices were still up today after drifting down somewhat from earlier highs. Trading is active though not heavy.

At 11 a.m. the Dow Jones average of 30 industrial stocks was up 4.51 at 710.77. Earlier today it had been up almost 6 points.

The Dow is only a few points away from its recovery high of 713.86 on June 3.

Advancing issues held a big lead over decliners.

Analysts generally regarded the gains as an extension of Tuesday's rally. They said it was the result of hope that President Nixon's noontime address on the economy would be positive and that perhaps he would

## WNBE-TV

### Has Adopted New Call Letters

**NEW BERN —** Effective June 15, the call letters of Channel 12 television in New Bern were changed from WNBE to WCTV-TV.

The station received final approval of the new call letters from the Federal Communications Commission on June 12.

Channel 12 has been on the air since 1963 when it was known as Piedmont Television. Continental Communications, Incorporated, bought the station facilities in June, 1969, at which time it became known as Continental Television, Incorporated. The new call letters were decided on to further supplement the new image being created by the station.

## New Honorary Society For ECU Students

The German Department at East Carolina University has recently installed a new honor society for students and initiated the charter members.

Eta Mu chapter of Delta Phi Alpha is the national German honorary society.

Dr. Lia Dunn, faculty advisor, administered the oath and distributed the 17 membership certificates.

Names of students initiated into Delta Phi Alpha, the names of their parents and their hometown addresses include:

**PITT COUNTY, Greenville —** Ilse Christel Drogemeyer, 303 Orton Drive; Lawrence L. Gee, 108 W. 12th St.; Stephen Joseph Grollinger, 403 E. 8th St.; James Lee Quinn III, son of J. L. Quinn Jr.

## Publicizing The Campgrounds

Eastern North Carolina's campgrounds and points of interest are promoted in a full-color brochure recently produced by the Campground Owners Association of Eastern North Carolina.

The brochure is a joint project of the newly-formed association and the East Carolina University Regional Development Institute, which also provided technical assistance in the formation of the association.

Copies of the publication are available from any member of the Campground Owners Association, from area Chambers of Commerce or from the Association itself, Route 2, Williamston, N.C.

offer wage and price guidelines. Analysts also said short covering was a big factor in the market.

## Store Break-In Is Investigated

Pitt County deputies are continuing their investigation of a break-in and larceny that occurred Monday night at the R.R. Stokes Store in Falkland.

According to deputies, approximately \$700 in assorted merchandise was reported missing after the store was entered sometime during the night. Entrance was gained by forcing the front door, it was reported.

The stolen items include approximately \$200 in meats, \$400 in mixed cigarettes and cigars and other merchandise.

Deputies Dalton Respass and Gerald Davis are continuing their investigation of the incident.

## Attempt To Save Rare Minnow

**COLUMBUS, Ohio (AP) —** At last there's hope that the western tongue-tied chub minnow may be saved from extinction.

The Ohio Division of Wildlife has closed to bait catchers the lower five miles of King's Creek in Champaign County in an effort to save the rare minnow in its last Midwestern stronghold.

Wildlife experts say pollution and the lack of good bank cover have caused the disappearance of the minnow elsewhere.

# Hard Pressed Over Medicaid Payments

**RALEIGH (AP) —** Four of five North Carolina counties that have not made their Medicaid payments for May report they are finding it difficult to come up with the money.

The five counties are Bladen, Franklin, Johnston, Robeson and Sampson.

Robeson County Manager Paul Graham could not be reached for comment Tuesday. Under North Carolina's Medicaid program, free health care is given to as many as 350,000 persons.

Franklin County Auditor K. A. Braswell said, "We just don't have the money and we don't know where to get it." The county needs about \$6,000 to meet its payment, he said.

## Work Stoppage Still Going On

**GREENSBORO (AP) —** A work stoppage was continued today by 100 of Greensboro's 160 sanitation department employees. The stoppage began when the garbage collectors failed to show up for work Tuesday morning.

A city official said that eight of the city's 32 trucks were running today, but that none of them were packer types.

City Manager John Turner called the situation "very serious."

City officials met throughout the first day of the stoppage and Turner announced at a news conference that the city is taking steps to alleviate the impact of the walkout.

## Forum Slated Thursday Night

"The Revolution in Education" will be the topic at the Summer Forum Thursday night. The discussion program is sponsored by the Campus Ministers Association at East Carolina University.

Cathy Sterling, student president at N.C. State University, will speak on the subject in the Baptist Student Union, 511 East 10th St. at 6:30 p.m.

The meeting is open to all interested persons at ECU as well as Greenville area residents and students from other campuses.

Announcing the Forum on behalf of the Campus Ministers, Presbyterian chaplain John N. Miller indicated that continuing weekly discussions will deal with other aspects of rapid social change taking place today.

# Weightless Flight Affecting Eyesight

**MOSCOW (AP) —** The two Soviet Cosmonauts in Soyuz 9 have been orbiting the earth for more than 15 days, and the Soviet Defense Ministry newspaper revealed today that the weightless flight markedly affected their eyesight and color perception early in the trip.

"It was discovered that the reliability of operative sight efficiency was sharply reduced already 24 hours after launch," reported Krasnaya Zvezda. "Scientists explain that the coordination of the eye movement muscles is reduced in the condition of weightlessness."

The paper added that the color perception of cosmonauts Andrian Nikolayev and Vitaly Sevastyanov also has been affected. Bright colors seem muted to them.

"This shows that certain changes take place in the color perception mechanism ... but space medicine has yet to discover the reason," it said.

The two cosmonauts have been in orbit since June 1. They

broke the U.S. space endurance record Monday, and Tass reported today that Soyuz 9 had completed 248 orbits by 6 a.m.

## Remember The Marijuana Smell

**HARTFORD, Wis. (AP) —** Police officer Hugh Carpenter of the Juvenile Division gives talks on drugs to school children as part of his job.

In a talk last month to eighth graders at St. Kallian's School, he burned wafers that give off a smell similar to marijuana.

On a class outing Monday at Devil's Lake State Park some of the St. Kallian's pupils sniffed what they said smelled like those wafers. They talked to their counselor and he called the park ranger.

Four young people were found nearby, arrested and charged with possession and use of marijuana.

Jaycee Golf Winners

Tommy Boone, far left, took top honors in the Jaycee Junior Golf Tournament which concluded yesterday. Boone, along with Steve Jones, Drew Harper and Brooks Barwick, will represent Greenville in the State Tournament next month. From left to right are

Boone, Jones, Harper, Barwick, David Patterson, 15-13 age group winner, and runner-up Randy Avery; and Cam Dudley, under 13 winner, and runner-up Scott Hill. (Reflector Photo)

## Jaycees Upset R. C. Cola To Tie For Second In North State

The Jaycees knocked off R.C. Cola, 10-2 yesterday to pull into a tie for second place in the North State Little League.

The win also helped out league leading Kiwanis, who post a 9-2 record. They hold a three-game edge with four to play. R.C. and the Jaycees are 6-5, and Coca-Cola is just behind at 5-5. The Optimists are 3-7, while the

Lions are 3-8.

R.C. claimed the initial lead with a run in the first. Jeff Bailey singled and gained third on a pair of passed balls. He scored on Gordon Sutton's ground out.

In the second, the Jaycees took the lead with a pair of runs. Mel Boyd walked and Billy Williams reached on a fielder's choice. Bill Collier reached on a walk and a sacrifice fly by Kenneth Scott brought Boyd home. Wayne Miller reached on an error, scoring Williams.

In the third, the Jaycees scored again. Chris Garrett walked and moved to third on a passed ball and a wild pitch. Boyd walked and Williams doubled to score Garrett.

In the bottom of the third, R.C. scored again. David Dixon singled and stole second. He scored on Sutton's single.

The Jaycees added two more in the fourth. Drew Taylor reached on a fielder's choice and Curtis Lee was safe with a single. Garrett reached on an error, scoring Taylor, and another error let Robert Walters reach safely. Boyd then walked, forcing in Lee.

In the fifth, the Jaycees picked up three more. Kenneth Avery singled and Taylor slapped a two-run homer. Lee walked and scored on a double by Garrett.

The final two Jaycee runs came in the sixth. Williams

singled and Collier doubled. Avery singled in Williams, and a hit by Miller brought Collier over.

Avery led the Jaycee hitting

with three, while Miller and Lee each had two. No one had more than one for R.C.

Jaycees 021 232-10 12 0  
R.C. Cola 101 000-2 5 4

David Patterson of Farmville

took first place in the 13-15 age group, carding a 183. Second place went to Randy Avery of Ayden with a 188.

Cam Dudley was first place finisher in the under 13 group. He shot a 182 for the two days, while Scott Hill was second with a 204.

Boone, who had taken the lead with a 73 over the Greenville Golf and Country Club layout on Monday, finished up with a 75 at Brook Valley for a 148 total, giving him the low gross trophy. He also was the low scorer in the 16-17 age group.

Steve Jones, who finished with a 151 was the second place golfer in the 16-17 age group, followed by Drew Harper of Grifton, who had a 161, and Brooks Barwick of Ayden with a 162. These four were selected to represent the Greenville Jaycees in the state tourney.

David Patterson of Farmville

## Greenville Legion Takes Fourth In Row As Rocky Mount Falls

Greenville American Legion Post 39 picked up its fifth victory against one loss last night with a 5-1 win over Rocky Mount. It was the fourth straight win for the locals.

Greenville held Rocky Mount scoreless for the first six innings but not without almost constant threats developing.

Meanwhile, Post 39 kept the pressure on Rocky Mount all along the way, too. They held a 3-0 lead by the time Rocky Mount finally pushed over its only run.

Greenville put a man in scoring position in the first as Russ Smith singled and moved

to third on a sacrifice and a passed ball, only to die there.

In the second, Greenville got its first run. Joe Moore rifled a ball over the head of the second baseman, and it went up the alley. Moore streaked all the way around while the ball was being chased down in deep center field. Ronnie Leggett followed that with a double, but Greenville failed to convert again.

In the third, Greenville put a man on third on a fielder's choice, a steal, and an error, but to no avail.

Then, in the fourth, they

picked up two more runs. Leggett singled and Allen Wilson followed with another base hit. Kim Harbin sacrificed them up. Smith then laid down a perfect squeeze bunt, as both runners were off with the pitch. Leggett came home easily, and when the play was made to first to get Smith, Wilson came home, sliding in just under the throw.

The locals threatened again in the fifth, putting men on second and third, but again, couldn't bring them in. After being set down in order in the sixth, the came back with one each in the seventh and eighth.

In the seventh, Eddie Vincent led off with a walk. Jimmy Paige singled to move Vincent to third, and he scored on a passed ball.

The final Greenville run came in the eighth. Wilson reached on an infield hit, and came all the way home when Smith's grounder was errored.

Rocky Mount had several threats of its own. They put men in scoring position in nearly every inning. In the first, one reached second on a single and a passed ball. Then, in the second, a single and a steal put a man at second.

A big threat was cut down in the third inning. Leadd off hitter Terry Talbott slammed a triple into center field, and it looked like he would be a certain scorer. But the next batter hit a sharp shot back to the mound, and Smith alertly caught Talbott halfway home, and made him an easy out.

Finally, in the eighth, Rocky Mount managed a run. Andre Sparrow led off with a double. He moved up on a single by Talbott, and then came home on Frank Hedgepeth's base hit.

## Boone Takes Jaycee Golf

Tommy Boone took top honors in the Jaycee Junior Golf Tournament which ended yesterday at Brook Valley Country Club. The two day affair determined local entries into the State Jaycee Tournament, set for July.

Boone, who had taken the lead with a 73 over the Greenville Golf and Country Club layout on Monday, finished up with a 75 at Brook Valley for a 148 total, giving him the low gross trophy. He also was the low scorer in the 16-17 age group.

Steve Jones, who finished with a 151 was the second place golfer in the 16-17 age group, followed by Drew Harper of Grifton, who had a 161, and Brooks Barwick of Ayden with a 162. These four were selected to represent the Greenville Jaycees in the state tourney.

## Make Dad The Most Happy Fellow

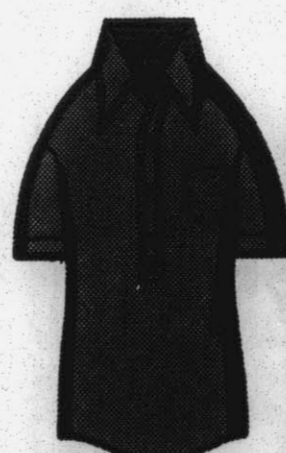

Father's Day, Sunday, June 21st

EVERY POP LOVES A GIFT FROM

Leap a tall building or two with a single bound — into our Father's Day gift corner. The prices are mild-mannered, the quality is solid, and the pleasure, pure heroic. For your hero, round up a token or two. Soonest.

## Crowell's Clothing Comments

(17th Century English Costumes)

The English colonist's costume was of cloth in brown, gray or black. The cuffs were of lawn with lace points.

His doublet or jacket was of muted colors with long silk lapels. He wore a high, flat crown, wide rim felt hat decorated with a ribbon band. Knitted hose and leather shoes with rose decorations completed his attire.

The Puritan selected dark-colored cloth, usually gray, brown or black. His hose was of knitted wool in gray or green. His cuffs were of Holland lawn. In keeping with the soberness of the costume, he wore black

leather shoes with spur leathers.

A tall, flat crowned, wide-brimmed felt hat with ribbon band topped the attire.

# Woody's Ramblin's

By WOODY PEELE

Chips and putts from area golf courses:

### Grifton

Play in the Grifton Golf and Country Club championship tournament has finished in some flights, but goes on in others.

Bill Williams defeated Herb Purser for the championship of the men's tournament, and wears the crown for this year. The other flights in the field are still continuing.

In the ladies bracket, Margaret Sasser won the championship flight by defeating Marie Isreal. In the first flight, Evelyn Phillips defeated Gilda Padgett for the title. Other flights are still underway.

### Robersonville

Play gets underway this week in the Robersonville Golf and Country Club's tournament.

### Farmville

The Farmville Golf and Country Club is playing host to its annual Pitt County Invitational Golf Tournament this weekend. The play will be Saturday and Sunday.

Pro Ed Smoot said that the deadline for entries is Thursday, and that there is still plenty of room in the field for late entries.

Moses Moyer picked up an eagle on the first hole at the club. He hit a driver and a nine-iron for the two on the 310-yard hole.

### Greenville

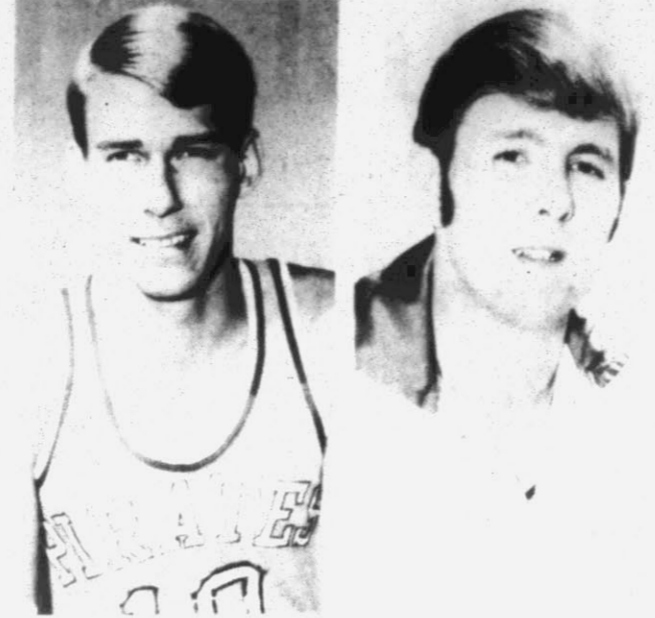

C. L. Lupton fired his best round Saturday while playing at the Greenville Golf and Country Club. He had a 40-42-82 during a round with Joe Hunnicutt, Ed Tipton and Dr. Joe Murad.

### Brook Valley

Brook Valley Country Club played host to the Eastern Pro-Am's weekly tournament on Monday. The winning team was composed of pro Martin Beck of Kingston; and amateurs Sonny Brown of Tarboro, J. G. Crumpler of Fuquay and Ben Licko of Cherry Point. They shot a net of 60. Second place went to the team of Pro Buzz Buzzelli of Carolina Pines, and Ed Hunt and Tom Roberts of Cherry Point and Scott Ellis of Washington with a net 61.

Third was a three-way tie between teams headed by pros Red Caulder, Joe Bullins of Grifton and Bill Lytton.

Joe Exum picked up an eagle of the par four 15th hole last week. He hit a wedge shot into the cup.

Tom Miller

Jim Modlin

## Miller, Modlin Ink Piper Pacts

Tom Miller and Jim Modlin, two members of this year's East Carolina University basketball team, have signed contracts with Pittsburgh Pipers of the American Basketball Association, it was announced today.

Miller, a 6-0 guard, was the Most Valuable Player for the Pirates this season, adding to a list of honors that have come his way while wearing the Purple and Gold. Modlin, 6-7, was an All-Conference selection, along with Miller, and was one of the three front court men who helped the Bucs to do an outstanding job on the boards during the past season.

Both were the first two men recruited by Tom Quinn when he came to East Carolina.

Both will report to training camps in August, according to Marty Blake, general manager of the Pipers. Miller will be the only guard in camp under 6-2, and he feels this will be to his advantage. "I think I can do what they want me to do better than a taller man," he said. Miller's quickness, he feels, will pay off in ballhandling and play making, the role the Pipers want him to fill.

Modlin will be working in the front court, but will probably move out of his accustomed position as a center into the forward slot.

## Moose Down Exchange To Stay Close In Tar Heel Loop Race

The Moose stayed close to the Graniteers as the Tar Heel Little League race heads down the stretch with a 5-4 victory over the Exchange yesterday.

The Graniteers head the league with a 10-1 record, while the Moose have an 8-3, mark. Pepsi-Cola is just behind at 7-3, followed by the Exchange, 4-7, the Elks, 2-8, and Integon, 1-10.

The Moose pushed over two runs in the bottom of the second inning. Paul Farmer started things off with a leadoff home run. Ross Hawkins followed with a single and Mike Weston got a hit. A passed ball let Hawkins go

to third, and he scored on an error.

In the third, the Exchange came up with a run. Billy Teddar walked and took second on a passed ball. He moved to third on an out, and scored on an error.

In the third, the Moose added two more to lead 4-1. Greg Sasser reached on an error that allowed him to go all the way around. Keith Jones doubled and a pair of passed balls let him go the rest of the way.

In the fourth, the Moose got what proved to be the winning run. Mickey Finn reached on a

fielder's choice and took second on a passed ball. He moved to third when Jimmy Hodges reached on a fielder's choice, and scored on a passed ball.

## American Stars Capture Game

The American Division All-Stars edged out the National Division with a 13-10 victory last night in the annual Church All-Star Game.

It was the first game under the present form. Previous games had been between the league leader and an All-Star team made from the rest of the league. This year, however, the league was divided into two groups, allowing for the selection of two All-Star teams.

The National took the lead in the first inning, pushing over a solo run. But the American came back with three to take the lead, 3-1, and they never let it go.

In the third, they pushed over two more runs to run out to a 5-1 edge. In the fourth, they came up with five more, making it 10-3. A homer by Bit Johnston was the key to that inning.

In the top of the fourth, the American had managed to come

up with two runs, but couldn't score again until the seventh. And by that time, the American had scored what proved to be the winning run as Bill Glidewell slammed a homer in the bottom of the sixth, making it 11-3.

The National picked up two in the seventh, but a two-run homer by the American Jerry Boyd equalized that, making it 13-5.

The National came up with two more in the eighth, then finished up with a three-run rally in the ninth, but couldn't catch up.

Lindsay Hardee led the National hitting with five, while Sammy Pugh picked up two and Lewis Hardee had two.

For the American League, Ronald Vincent and Johnston each had three hits, while Smith Worthington, Glidewell and John Tripp had two each.

## Can There Be Cage Merger?

ATLANTA (AP) — Can there be a merger between the National and American Basketball Associations?

That question is likely to come under discussion today and Thursday at a meeting of the board of governors of the NBA—but the answer may lie in federal court.

A suit has been filed in U.S. District Court by the NBA Players Association, which seeks to bar a merger. The players are also challenging the NBA reserve clause.

A federal district judge has issued an order, restraining a

merger until the suit can be heard. He asked that, meanwhile leagues and players agree on a merger plan that could be submitted to Congress.

That's where it stands. But until last week it appeared both leagues might hold summer meetings here at the same time, a coincidence that intrigued merger backers.

Since then, Jack Dolph, ABA president, said his league would meet in Denver, a location more convenient for western club owners.

**Irony In Fire Loss Of Old N.C. State House**

**OLD NORTH CAROLINA STATE HOUSE** — This is a restored painting of the old North Carolina State House, the work of Jacob Marling. It was destroyed by fire in June, 1831. (AP Wirephoto)

By H. G. JONES  
Dept. of Archives and History  
Written for the AP

RALEIGH (AP)—"Awful Conflagration" read the headline in the Raleigh Register on June 23, 1831. The "raging destructive fire" referred to in the article consumed North Carolina's "State House," as the Capitol was then called.

The Register reported that "Seldom has the eye witnessed so awful a spectacle as this vast building in one concentrated blaze streaming from every window, and a vast column from the roof forming altogether a scene not adequately to be described."

Notable among the losses was the original Canova statue of George Washington. "That proud monument of national gratitude, which was our pride and glory, is so mutilated and defaced that none can behold it but with mournful feelings, and the conviction involuntarily forces itself upon their minds that the loss is one which cannot be repaired," said the Register. A duplicate of the statue was placed in the present Cap-

itol last month.

The fire broke out on the roof about 7:30 on the morning of June 21, 1831, and the building was soon engulfed in flames and could not be saved. The crowd that gathered, therefore, turned its attention to providing some protection for other public offices on the square. Fortunately for the safety of many records, most of the archives of the offices of the governor, the secretary of state, and the treasurer were kept in those other buildings. A newspaper account two days later said, "Of that noble edifice, with its splendid decorations, nothing now remains but the blackened walls and smouldering ruins."

The great irony was in the origin of the fire. With good reason it had been feared for some time that hot cinders from nearby chimneys might fall on the wood-shingled roof and start a fire. It had happened on two previous occasions, but without serious consequence. The first such fire had occurred in 1816 and the second in January, six months prior to the destructive blaze now under discussion.

The General Assembly had been in session when the fire alarm rang out about 5 p.m., Jan. 6, and a local editor wryly noted that the delegates did not wait for a formal motion for adjournment. Following this fire, a decision was made to cover the roof with zinc to prevent any such near-catastrophe in the future. So, it was while repairs from one fire were being made and new "fireproofing" being

soldered in place that a workman apparently dropped a hot coal, or at least a spark, between the roof and the ceiling, and the fire was started. Or, possibly ignition came from the heat of the solder pot itself. Whichever was the exact cause, the building was completely consumed within two hours.

Temporary quarters for the governor and the General Assembly were offered by "the congregation and pew holders" of the Presbyterian Church. However, the offer was declined and the legislature met instead from 1831 to 1838 in the "Government House" at the south end of Fayetteville Street, temporarily displacing the governor who moved into rented quarters. The 1838-39 session was held in a new building at the corner of Market and Fayetteville streets.

The present Capitol was completed on the old site in 1840 at a cost of over \$530,000, and all departments of government moved into it. The assembly then ordered that the other old buildings on Union Square be sold and torn down.

**Set Hearing On Request For Toll-Free Phone**

RALEIGH (AP) — A request by Triangle Telecasters Co. for toll-free long distance telephone service in the Raleigh-Durham-Chapel Hill area will be aired at a public hearing before the state Utilities Commission Oct. 14.

In setting the hearing date Tuesday, the commission said it was directing its staff to "initiate toll call studies and to develop other pertinent information ..."

Triangle operates television station WRDU. It complained in a petition filed with the commission in March that it suffers "an unwarranted economic loss" because of numerous long distance calls it is compelled to make between triangle area cities.

The telephone companies in the area said toll free service at this time would be too expensive.

**\$15,000 To Find Freezing Point**

RALEIGH (AP) — A North Carolina State University engineer will seek to determine how long it takes a liquid flowing a pipe to freeze solid.

University officials said today the National Science Foundation has awarded a \$15,000 grant to Dr. J. C. Mulligan for the research.

"At one time or another," Mulligan said, "everyone encounters this type of freezing problem, whether it's in the water system of one's home or in the hydraulic system of an aircraft."

**Two Killed In Car Collision**

SNEADS FERRY, N. C. (AP) — A Marine hospital corpsman and a 15-year-old girl died Tuesday morning in a two-car collision on N. C. 172.

Police identified the victims as Corpsman Gregory Davies of Camp Lejeune and Kathy Martin of Sneads Ferry. They were killed when the car in which they were riding collided with one operated by Dennis Williams Jr. of Sneads Ferry.

Williams was in serious condition at Onslow County Memorial Hospital.

BESIGNED HOUSEHOLDER ASH, England (UPI) — Army engineers have erected an antitank barrier in front of the garden wall of Arthur Rapkins' home after he complained that cars and trucks kept crashing through it. The house is on army land.

Three months' salary in your Wachovia savings account won't keep you from a broken leg. But it would keep you after one.

# Talking To The Bones Is Happy Native Custom

By DAVID J. PAINE  
Associated Press Writer  
TANANARIVE, Madagascar (AP) — Careful, loving hands take the disintegrating bones from the tomb. Friends of the dead person feast, drink and dance. Bands blast away.

Relatives talk to the bones, telling them what has happened since the last time they were aired. Rewrapped in silk cloth and a light mat, the bones are paraded shoulder high through a joyous throng.

It's a happy time for a people who regard death not as the end of the line but just another stage in life. Christianity has made inroads in Madagascar, but at least half the 6.5 million people are animists who believe their ancestors remain with them after death and have various forms of honoring the dead.

The Merinas and the Betsileo, the people of the high plateau country who constitute almost half the population, have the famadihana, the "turning of the bones." It means that every three to five years the bones of a dead person are taken from their tomb by relatives and become the center of a riotous, heavy-drinking, marathon-dancing ceremony.

The famadihana is held in the cooler months of August, September and October when the rice harvest is over and there is time to spare. The ceremonies are expensive and a family may have to sell rice fields.

But no one really minds. The ancestors are honored people and have to be kept happy. At a famadihana ceremony, the relatives and friends wear their finest clothes. If they can afford it, members of the immediate family all have their dresses and shirts made from the same material.

The festivities take two days. On the first day, probably towards evening, the corpse is brought from the tomb, a stone-walled underground room with shelves on which the bodies are placed.

If there is more than one corpse, the bodies are placed side by side, wrapped in sehy, a light woven mat. Occasionally, as in the case of a mother and child, there is more than one body in the same bundle.

Then drinking and feasting start with big pots of meat and rice and rum and wine. Arriving guests introduce themselves to the head of the family. It is customary to make a small contribution towards the cost of the ceremony.

Depending on the wealth of the family, there may be one or two bands, or none. Where the relatives are fairly rich, it is common to have a main band with drums and aluminum flutes playing folk tunes and a

secondary band with trumpets, clarinets and drums.

Professional dancers perform near the treasured bones and are joined by members of the family. Sometimes a witch doctor is the prime entertainer.

The ceremony on the second day begins with a slow dance to the dead, in which the dancers introduce themselves to the bones. Then comes the important dance to the lamba, the silk cloth in which the bones will be rewrapped. The dance may last two hours. It begins as a solemn affair, but gradually speeds up until it reaches a hectic pace with the professional dancers whirling and spinning. Feasting continues nonstop.

An hour or two after midday comes the start of the rewrapping. The bones are carefully placed on the silk cloth. Small packets of tobacco are tossed in with them so the spirit of the ancestor will have some future supplies.

The relatives talk to the bones and tell them what has happened since their last famadihana ceremony. They only tell about the good things, fearing that otherwise the spirits will be upset and return to haunt them.

When the last lamb is in place, the ends are securely tied. The bones are hoisted on the shoulders of the closest relatives and anyone else who can fight his way through the crowd for the honor of being something like a pallbearer. The final dance, the dance with the bones, begins.

It is a slow dance. The bearers shuffle forward five paces, back five paces. The crowd moves towards them and away again.

Tradition is that the bones must be paraded at least three times around the tomb. The dance can last anywhere from 30 minutes to two-and-a-half hours, but must end before sunset.

Finally, the bones are raised up three times as everybody shouts. Immediately they are taken back into the tomb. The woven mat is brought to the surface after the rewrapped remnants have been placed on the shelf.

One of the main reasons for marriage among the people who celebrate famadihana in addition to continuing the family line, is to have someone to care for the body after death.

## Poisons Should Be Beyond Reach

ALBANY, N.Y. (UPI)—To prevent accidental poisoning, all cleaning supplies, medicines, insecticides and other toxic household products should be stored well out of reach of small children, the New York Health Department warns.

In addition, the department says, remember minutes saved can mean lives saved. Keep emergency numbers — doctor, ambulance, fire station, police — near your phone.

See spot run.

Apply Polyram® when you first see leafspot on base leaves of plants. You won't see them again. Polyram protects against Cercospora leafspot. And more. You will see more peanuts grow to sound, mature kernels, and you'll get more peanuts per acre.

## Adoptions In Pakistan Now Rather Casual

By ARNOLD ZEITLIN  
Associated Press Writer  
KARACHI, Pakistan (AP) — Pakistan is producing a fragile, rare export—babies for adoption.

The trade is modest. Nuns at St. Lawrence's Convent school and home here estimate that in three years, 21 brown-eyed, brown-skinned Pakistani tots have been sent abroad to new parents—mostly blond, blue-eyed Swedes.

The demand persists. Most requests come from Scandinavians who have adopted a Pakistani child and want another, or from couples who have met adopted Pakistani children in Europe.

According to Mami Mehta, a Parsi woman who is director of the shipping firm of Hegge & Co., which has played an important role in adoptions, a Swedish couple with one Pakistani boy traveled to Karachi to select a girl.

"They took a fancy to another boy, took him and a girl," she said.

Sister Ruth Holtel of Indiana, an American member of the Franciscan Sisters (who operate the St. Lawrence Convent) said that "families have a sort of club."

"They pass on news of adoptions from one to another," she explained.

"In the past it was difficult to get children adopted," said Sister Ruth. "They remained with us until they were 17 or 18."

One nun was assigned the job of arranging marriages for convent girls who, dowryless, would not otherwise have been able to make matches.

St. Lawrence now maintains a room filled with 15 to 20 babies, most of whom are in demand from Pakistani or European parents.

The nuns said they come from broken homes, from unmarried girls or from poor mothers who simply say they cannot support their child.

The nuns will give babies to poor families if they can offer a home. A recent adopter was a Bengali cook for a Roman Catholic friary whose wife had lost several of her own children.

Although most of the children are raised as Roman Catholics, the sisters will consider Moslems as parents.

"Giving children to Moslems was once unthinkable," said Sister Ruth. "The whole idea has now changed. If the child gets love, he is better off than in an institution."

John Hegge, a Norwegian shipping agent stirred interest in Sweden when he and his Swedish wife took home their first Pakistani children. He has since arranged for other Swedes to travel to Pakistani to adopt children.

Adoption in Pakistan, according to Miss Mehta and the Franciscan Sisters, is a relatively casual affair. The sisters give prospective parents an "adoption deed," which is no more than an informal agreement.

Then, a district magistrate must approve the child's passport. Approval usually comes more quickly for girls than for boys.

## Might Keep Some Laws

SPOKANE, Wash. (AP) — It's illegal in this city to hitch your horse to a shade tree. So says the penal code here.

Likewise, you can't beat a carpet on a sidewalk, play stickball on city streets or hire a woman under 25 to work in a fruit stand—unless she's a member of your family.

Don't saw or split wood on streets or sidewalks without brushing up thoroughly afterwards, either. And don't drive a herd of more than 10 domestic animals over Spokane avenues without a permit—costs you \$100 if you do.

City Atty. Norman dePender says his office may move to drop these laws before long, but he'd sort of like to keep some on the books.

"Not to be devilish," DePender says, "I just want people to be aware of how much their world has changed."

## Police Station Harbors Dove

DEERFIELD, Ill. (AP) — A cooing, pecking mourning dove is ruling the Deerfield police station with an iron beak.

The feathered jailbird had to be arrested for trying to roost on the heads of two children and attempting to peck its way through a rear door of a home here.

A visitor to the police station said he thought it was a little odd that a police department should be harboring a peace symbol.

"Why not?" said Patrolman William E. Behnke. "Birds of a feather flock together."

About 600,000 motor vehicles operate in Mexico City, says the Mexico Industry and Commerce Department.

## Half-Way Point In Immunization

EAST ST. LOUIS, Ill. (AP) — Darwyn L. Murdock, 7, a second-grader, grinned as he became the 600,000th recipient in Illinois of a vaccine for German measles or rubella.

Clutching a colorful, framed certificate decorated with a cartoon with his name on it, Darwyn was greeted by Dr. Franklin D. Yoder, director of the Illinois Department of Public Health.

He represented the half-way mark in the state's immunization program.

# Israeli Commandos Raid 70 Miles Inside Syria

By THE ASSOCIATED PRESS  
Israeli commandos made their first raid into Syria in three months Tuesday night and their deepest since the 1967 Middle East war.

A military spokesman in Tel Aviv said the raiders penetrated 70 miles into the neighboring country, striking a bridge 40 miles south of Damascus and shelling an army base 49 miles northeast of the capital. Damascus Radio said the raiders killed two Syrians and injured five. It did not mention the bridge but said an Israeli helicopter attacked an army camp north of Damascus while more Israeli planes crossed into the southern part of the country. It said Syrian jets chased them off.

An Israeli spokesman said the raids were in retaliation for "49 acts of aggression" by Syrian troops and Arab guerrillas in the

past month. He said three Israelis were killed and 15 wounded in recent Syrian attacks.

Israel did not say how the commandos traveled and Syria made no mention of any ground forces. Apparently they were hauled in and out by helicopter. A spokesman said all the raiders returned safely.

Syria said an Israeli helicopter flew in via Lebanese air space near the town of Nabk, 25 miles north of Damascus. "The helicopter shelled an army camp with mortars and then withdrew from whence it came," the broadcast said.

Later Tuesday night, the report continued, Israeli planes raided Southern Syria. "One enemy plane was hit before the raiders withdrew," the broadcast said.

Airport sources in Beirut said Syria closed its airspace to com-

mercial traffic for three hours, forcing cancellation or rerouting of a number of international flights.

On the Israeli-Egyptian front, Cairo said its warplanes crossed the Suez Canal for the first time in nearly two weeks and hit Is-

## Two Changes In Ordinance

WINTERVILLE — The Winterville Town Board Monday night approved two changes in the town's zoning ordinance.

A public hearing was held before the board meeting to discuss the two changes: approving the thoroughfare plan as shown on the map dated May, 19, 1970, as the basis in the development of the street and highway system in the Winterville urban area; and to change the property deeded

from Don Langston to Sunnyside Eggs, Inc., from residential to industrial. That property is located next to the railroad north of secondary road 1708. Marion R. Poole, Thoroughfare Planning Engineer, Planning and Research Department, N.C. State Highway Commission appeared at the hearing to explain the thoroughfare plan.

Both changes were unanimously approved by the Winterville Town board.

raeli positions along the northern half of the waterway. An Egyptian spokesman said the planes scored "direct hits" and returned safely. The Israelis claimed they destroyed one jet.

Israeli jets continued their daily attacks across the canal, striking Egyptian targets intermittently all day. The Israeli command said all the planes returned safely.

In Amman, the scene of bitter fighting last week between Palestinian guerrillas and Jordanian army forces, the guerrillas announced formation of a steering committee to supervise commando activity in the military, political and information fields. The announcement said the committee would become the highest Palestinian authority, outranking the central committee that currently includes all guerrilla organizations.

The new high command will have five members, the announcement said, including Al Fatah leader Yasir Arafat and Dr. George Habash of the Marxist Popular Front for the Liberation of Palestine.

Moro Tuesday that Israel wants to maintain "just borders" to meet its security needs and not to retain the Arab territories it occupied in the 1967 war.

Official sources said Eban told Moro during the second of two meetings that Israel's foreign policy is based on the principle of "nonacquisition of the occupied territories and on the seeking of peace that would close the controversy about the existence of Israel as a free state."

### CALL MEETING

There will be a special call meeting of the Marvin Tyson American Legion Post 372 Wednesday night at 8 p.m. at the regular meeting hall in Farmville. Clover Phillips is commander.

Of 11 Argentine presidents between 1930 and 1960, eight were army officers.

## New Rules At Catawba

SALISBURY (AP) — Catawba College trustees took action Tuesday to revamp the school's curriculum and liberalize women's dormitory rules.

The new academic program calls for fewer prescribed courses and a switch from a semester system to a quarter system. Each student will now be required to undertake an independent study program.

College officials say courses in religion and attendance at chapel services will no longer be required.

Women students, except for freshmen, may now return to their dormitories whenever they wish. But the college will set up "lock hours" and students would not be free to leave after those hours once they have returned.

The trustees also approved off-campus living for students 21 years old or older, and adopted a statement calling for "decency and good taste" in the college newspaper and yearbook.

## Massachusetts Among The First

BOSTON (UPI) — Historically, Massachusetts has been very education-minded. It was the first of the states to have a college—Harvard, founded in Cambridge in 1636; the first to have a public secondary school—Boston Latin School, in 1635, and the first to have a general high school—Boston English High School, in 1821.

# Forest Of 124,000 Trees Being Cut Down Yearly

By CLARENCE SALTZ  
 OAKRIDGE, Ore. (UPI)—Can you imagine a forest of 124,000 trees being cut down each year?  
 If you lived in Oakridge your imagination wouldn't be taxed at all. That happens here every year.  
 Douglas fir trees are so thick around this community of 3,500 they crowd the town on all sides from the 1.6 million-acre Willamette National Forest.  
 Even though about 124,000 trees are cut for lumber out of this forest each year, many times more than that are replanted.  
**Tree-Planting**  
 That is why Oakridge lays claim to being the tree-planting center of the world.  
 Each spring since 1953 Oakridge has held an annual tree-planting festival. This year

7,000 trees were planted on 40,000 acres of forest land.  
 Since 1913 the U.S. forest service has been planting two- and three-year-old seedlings and spreading seeds, in recent years by helicopter. In 1969 7,717 acres were reseeded or replanted, bringing the total reforestation on the Willamette National Forest to 140,804 acres.  
 The Oakridge district of the Willamette forest is the most productive timberland in the nation. Although an estimated 14 billion board feet of timber have been cut since the forest was established, it is estimated there are still 46 billion board feet of timber standing.  
 That doesn't include the young trees which have been planted and will reach harvest-size in 90-100 years.  
**Air Seeding Unfruitful**

The forest service spent \$700,000 last year for reforestation on the 13 national forests throughout Oregon. That covered 37,892 acres of reforestation.  
 It is not as easy as planting a vegetable garden, however.  
 In 1949 seeding by helicopter was hailed as a revolution in the reforestry business. But the survival rate is poor, and the planting of seedlings by hand each year far exceeds the acreage seeded by air.  
 Rodents, squirrels and birds make off with the air-dropped seed faster than it can take root, unless precautions are taken. So foresters have to bait and poison an area before it can be aerially seeded. Then they hope the small animal population doesn't come back in before the seeds take root.  
 Last year 1,925,000 seedlings

were hand planted on cutover timberland. They are put in the ground at the rate of 300-500 an acre, an exhausting job.  
 A worker with a bundle of seedlings and a grub hoe clambers over fallen logs and all the assorted debris from a logging operation, often on a steep mountainside. He "grubs" a hole, inserts the seedling, packs the soil, and moves on.  
 The forest service is experimenting with a new method of "shooting" the seedlings into the ground inside a plastic test-tube in which they are grown.  
 Planting trees is not just a matter of taking seeds and growing the seedlings, then replanting them. The right seeds must be planted in the right places.  
**Seeds Typed By Nature**  
 Though 90 percent of the forest is Douglas fir, nature has

fashioned the trees for varying elevations and the types of terrain in which they grow.  
 Bob Tokarczyk, timber staff officer for Willamette, explained that a Douglas fir seed taken from 4,000-foot elevation will not grow well if planted at 1,000 feet. Or a seed taken from the southern end of the 110-mile long forest won't do as well if planted at the northern end.  
 That's why all seed harvesting must be carefully certified as to location. Through each stage of nursery growth, harvest, and planting the trees have to be carefully identified as to original site.  
 Throughout this timbered state reforestation is a big business. On federal, state and private lands last year 148,720 acres were planted to trees.  
 About two dozen companies specialize in reforestation con-

tracts. Each fall hundreds of oregonians take to the forests to harvest seed cones.  
**District Forester Ormond Doty** estimates that for every tree cut, four new trees are planted. This is to assure that it will be possible to go on cutting timber from these forests forever.  
**MICE SET RECORD**  
**SALEM, Ore. (UPI)**—A new campus record was set at Willamette University when four mice were caught in one evening at the Phi Delta House. The previous record was three mice caught in one evening at the Beta House.  
 The Federal Republic of Germany became a sovereign nation-state on May 5, 1955, when ratifications were completed in Bonn.

**Included In New Edition**  
**NASHVILLE, Tenn.**—Charles Edwin Branch has been selected to be included in the 1970 edition of WHO'S WHO AMONG STUDENTS IN AMERICAN COLLEGES AND UNIVERSITIES.  
 Selections are made on the basis of scholarship, participation, and leadership in academic and extracurricular activities, citizenship and service and the promise of future usefulness.  
 The edition includes outstanding students from more than 1,000 colleges and universities in all 50 states and several foreign countries.  
 Branch, a 1970 graduate of the Free Will Baptist Bible College

in Nashville, is an ordained Free Will Baptist minister of the Central Conference of Free Will Baptist in North Carolina.  
 He is the son of Mrs. Julia F. Branch of Winterville and the late Mr. Charles H. Branch and is married to the former Janice Jones of Ayden.  
**Canada Fourth In Telephones**  
**MONTREAL (UPI)**—Canada has the fourth highest ratio of telephones to population in the world, with 42.1 phones per 100 people.  
 Montreal has more telephones—1,341,382—than any other Canadian city, while Calgary has the highest ratio of telephones per person in the country—64.6 per 100 population.

# The Worry Clinic No Extremism In Horse Sense

Our son Philip "nailed" his Congressional opponent for not doing his "homework." For Philip, as a former college history professor, explained why we do NOT have any ghettos in America. But his liberal foes attacked Philip as an "extremist" because he advocated a balanced budget and more "horse sense" in government! Imagine!

By GEORGE W. CRANE, Ph. D., M. D.  
CASE N-528: Dr. Philip M. Crane has been a college history teacher.

Last fall he entered the race for Congressman from the 13th Illinois district.

There were 8 talented men who conducted a very spirited campaign, since the 13th district is heavily Republican and the winner would probably be in Congress for life.

Despite the fact that all 4 Chicago newspapers backed other candidates, our son Philip won by over 2,000 votes.

The chief objection raised against him by the ultra liberal suburban weekly papers was their cry that he was an "Extremist."

For Philip openly announced himself as a "Conservative." He advocated more business in government, with less government in business!

After the primary, he debated on TV with the Democratic candidate.

The latter was bemoaning our American ghettos. "Just a minute," Philip calmly broke in, "you apparently haven't done your homework on this matter."

"For we do NOT have ghettos here in America!" "The ghetto was a geographically restricted area in which the residents were prisoners."

"They couldn't leave at will, for the European ghetto was a type of political concentration camp."

"In America we may have city areas inhabited by poor people."

# 11 Billion People Seen In 80 Years

UNITED NATIONS, N.Y. (AP) — Unless current trends change the world 80 years hence will have three persons for every one now living.

That is the projection of a U.N. secretariat, presented in a background paper to help a committee of experts suggest new studies on the relationships between population trends and economic development.

The paper says the world is "faced with the high probability that, if present trends continue, the inhabitants of the planet may outnumber 11 billion as early as the middle of the 21st century."

The estimated 1970 population is 3.362 billion. The secretariat shows that it means by "present trends" in detailed projections to the end of the 20th century.

These indicate that from now till then the world's crude birth rate will fall a fourth—from 33.2 down to 25.1 live births per 1,000 people—while the crude death rate will fall a third—from 12.8 to 8.1 deaths per 1,000. Life expectancy at birth will rise to 66½ years from 55½.

That will bring the annual rate of world population growth down from 1970's 2 per cent to 1.7 per cent in the year 2000. After that, even though the growth rate may continue to decline, "the annual increments in population will continue to become larger."

The paper says the prospect of 11 billion human beings by 2050 may prompt reconsideration of the idea of stabilizing the world's population by somehow achieving a zero growth rate. But for the moment, it remarks, that idea is highly hypothetical.

In most developing countries, it says, high population growth "tends to increase the numbers of those segments of the population—illiterate, unskilled, agricultural, rural and the like" that were characteristic of pre-modern societies.

destroy our capitalistic system! The leaders said they would invade our seminaries and colleges, where they would slowly brainwash an entire generation of young clergy and embryo professors.

Then the latter would soon be spouting Socialism, often without realizing they were biting the hand of generous "free enterprise" Americans who had endowed those very seminaries and colleges!

This explains why Philip was called an "Extremist." For the is an articulate supporter of "free enterprise!"

(Always write to Dr. Crane in care of this newspaper, enclosing a long stamped, addressed envelope and 20 cents to cover typing and printing costs when you send for one of his booklets.)

2♥ Pass 4♥ Pass  
Pass Pass

Opening lead: Seven of ♦ East administered a lethal thrust against South's four heart contract by seizing the initiative at the crucial moment in order to make a play for his partner.

West opened the seven of diamonds and declarer played the jack from dummy which held the trick. He had an alternative of playing the ace of diamonds and taking a spade finesse subsequently, however West appeared marked with the queen of diamonds by virtue of his overall at the level of two.

The eight of hearts was led at trick two and West won the trick with the jack. He chose to continue with the queen of diamonds despite the fact that he knew both his partner

# Waited To Fit Track To Train

PATERSON, N.J. (UPI)—For many years during the 1800's Paterson was the nation's leading builder of locomotives. One engine built there is said to have been the first ever seen west of the Alleghenies.

It was shipped in 1837 to Sandusky, Ohio, where the Mad River & Lake Erie Railroad people eagerly awaited its arrival. They hadn't even constructed the track for it as yet. But for good reason. Their engineers had to be sure to set the rails at the proper width to fit the wheels.

A spade was returned. Declarer put up the ace and crossed over to the king of clubs to lead the ace of diamonds. East ruffed with the four of hearts and South overruffed. When the latter attempted to enter the dummy with the ace of clubs to discard his remaining spade on the king of diamonds, West trumped in with the king of hearts and cashed the king of spades for the setting trick.

East found the killing defense, by ruffing his partner's queen of diamonds with the ace of hearts, on which South discarded the ten of spades.

A spade was returned. Declarer put up the ace and crossed over to the king of clubs to lead the ace of diamonds. East ruffed with the four of hearts and South overruffed. # Urban Bus Lines Worried Today In Washington

By NOEL YANCEY  
Associated Press Writer  
RALEIGH (AP)—North Carolina's urban bus lines, already financially hard-pressed, are watching apprehensively as local school systems prepare to begin transporting of as many as 56,000 additional pupils next fall. Some of the bus lines fear they may be forced out of business.

A. C. Davis, controller for the state Board of Education, says he thinks some of the school units will provide the additional bus service by acquiring more publicly owned buses and some will contract with local transit lines, while "in some places there could be a combination of the two."

In the past, many of the urban children have been transported by city transit systems at reduced fares. They'll begin to get free school bus service in September under a new policy which makes all children who live more than 1 1/2 miles from school eligible for the service.

R. L. Deaton, assistant general manager of City Coach Lines at Charlotte and Raleigh and who is a former president of the Transit Operators Association, noted that the cities transit lines had "bought equipment to transport these students."

"If the students are taken away from us, I would venture

to say there would be some transit companies in North Carolina that will not be able to operate," Deaton added.

One of the transit lines whose president says it would not be able to operate unless he gets the pupils' business is Consolidated Bus Line at Salisbury.

Sam Moore, Consolidated president, said he is trying to work out a contract to carry the school children and that "if they take it away from us here, it will be impossible for us to operate."

Moore, whose firm also provides transit service at High Point, said their schools already had made plans to transport the children in state-operated buses.

"Naturally," he said, "this is going to hurt, but I think we can make it all right at High Point."

"We have 11 buses that we won't need," he added.

He also said the company would not be able to continue to transport school children who won't be able to continue to transport school children who won't receive free transportation "for any 10 or 15 cents. We are going to have to charge them full fare."

Bill Phyne Jr., vice president of Gastonia Transit Co., said he was trying to get the school bus business at Gastonia.

"We have been hauling these children for 10 cents in the hope

of getting the business some day," Rhyme said. "We're not making any money on it. If we lose what we have now, it would cut in our gross a good bit and it would mean quite a few more runs would have to come off."

W. J. Burton of Duke Power Co. at Charlotte said that so far as he knew school authorities at Durham and Greensboro, where Duke provides city transit service, have not contacted Duke about providing the additional bus service.

Burton said Duke has special school fares at Durham and

Greensboro and "if one cities provide their own buses, we would lose that business, but it would be very small."

The urban school children are being provided with state-financed bus service as the result of federal court decisions which directed the state to quit discriminating between its urban children on bus service. In the past the state provided bus service for 41,000 city children in recently annexed areas but did not provide service for children in older portions of the cities.

## Grifton High School Honor Students Named

GRIFTON — Principal William Wiggins of Grifton High School has announced the honor roll and principal's list for the sixth marking period.

Students named to the honor roll include:  
Ninth grade — Thomas Franklin Howes, Rebecca Eloise Stocks, Anne Fortune Troutman and David Hooks;  
Tenth grade — Glen Tucker, Anne Denson and Phil Edmondson;

Eleventh grade — Deborah Branscome, Sarah Lilley, Barbara Holton, Deborah Phillips, Pam McLawhorn, Olivia Reeves and Barbara Rasberry;

Twelfth grade — Rebecca Bosley, Brenda Callicutt, Larry Lewis, Beth Miller, Becky Sumrell, Tommy Thompson, Steve Midgette, Faye Gaskins, Mary Bette Wall, Jennifer Smith and Marion McLawhorn.

The following students were placed on the principal's list:

Ninth grade — Lucretia Susan Waters, Elizabeth Ann Whit Susan Ward, Donna Scheetz, Betty Manning;

Tenth grade — Deborah Harris, Jan Paget, Connie Hughes, Paula Bradley and Jeanette Little;

Eleventh grade — Bonnie

Waters, Cathy Stocks, Lennie Harris, Sharon Thompson, Laura Kilpatrick, Debra Leonardy, Nancy Ward and Deborah Wall;

Twelfth grade — Stuart Edmondson, Carol Kennedy, Edna Moore, Robert Nelson, Neill Vanneman, Shiela Brock, Cathy O'Quinn and Jerry Little.

## Costly Damage To Logs In Fire

Pactolus and Grimesland fire units were summoned to an early morning fire yesterday at 7:15.

The fire was about two miles south of Pactolus at Yankee Hall, On The Tar River, and caused an estimated \$18,000 damage to a pile of gum logs.

The logs were being loaded on a barge to be transferred to a plywood factory in Sumter, South Carolina.

County Fire Marshall Mike Worthington stated that the fire started around a crane used in loading the logs on the barge.

Firemen, using 150,000 gallons of water pumped from the Tar River, fought the blaze for five hours.

By THE ASSOCIATED PRESS  
WASHINGTON (AP) — The Navy is looking into the possibility of using hypnosis to make aviators and other capture-prone military men forget secret information if taken prisoner.

The study has been going on for seven years, at a cost of about \$30,000 a year, at the University of Pennsylvania. Dr. Martin T. Orne published a report of his findings recently in a technical journal, the Office of Naval Research's "Naval Research Reviews."

The Navy also is trying to find whether hypnosis can be used by enemies to brain-wash captured Americans, by military doctors to ease pain, or by military men in selecting men best suited to withstand pain, extreme temperatures, motion sickness, isolation or fatigue.

Dr. Bert King, associate director of the ONR's group psychology branch, said there were as yet no clearcut answers to any of those questions.

He said even if practical military applications were found they would be selective and there would be no thought of attempting mass hypnosis of large groups of men.

WASHINGTON (AP) — Sen. Jacob K. Javits introduced today a bill that would require auto buyers to deposit up to \$50 with the federal government as assurance that the car will not be abandoned and become an eyesore.

"In New York City alone last year, 50,000 automobiles were abandoned on the streets," Javits said in prepared remarks. "They constitute an unsightly, unsanitary, dangerous and costly blight to city living."

He said his bill would require that all cars carry a permanent plate, costing from \$25 to \$50 depending on the car, that could be redeemed for full value when the car is turned over to a scrapping firm.

The plate would be sold at full

value to each new owner of the car. If the car is abandoned and a city or other public agency has to dispose of it, the money would go to the agency and not the owner who abandoned the car.

WASHINGTON (AP) — The Internal Revenue Service has ruled that a single person who supports a parent in a home for the elderly can get a substantial tax break by figuring his tax as the head of a household.

The decision Tuesday revoked an old ruling that such persons had to figure their tax as single persons, thereby paying more.

WASHINGTON (AP) — Private colleges and universities are big business and the government has jurisdiction over their labor disputes, the National Labor Relations Board has ruled.

It ordered Tuesday an election to determine union representation of nonprofessional employees of Cornell University, Ithaca, N.Y.

Cornell had asked for the election. State and city colleges remain exempt from NLRB jurisdiction by federal law, and the board said it would not necessarily exert jurisdiction over all private colleges and universities.

It said it had acted at Cornell because of the university's size and \$142.5-million-a-year operation, which "plainly evidenced that it is engaged in commerce."

Capital Quote  
By THE ASSOCIATED PRESS  
"I pray for wisdom and compassion for those lonely people who have to make decisions in Washington,"—former Secretary of State Dean Rusk.

Capital Footnote  
By THE ASSOCIATED PRESS  
The Air Force has given the Legion of Merit to Col. Jacqueline Cochran, who in World War II became the first woman to fly a bomber across the North Atlantic. She retired Tuesday.

## Eddie Fisher Is Ordered To Pay Svetlana Plans A Motor Tour

HOLLYWOOD (AP) — Singer Eddie Fisher must pay \$92,975 to a couple who said he backed out of a 1967 agreement to buy their home in suburban Woodland Hills.

A Superior Court judge ordered the payment Tuesday after Susan and Martin Stayden testified the singer had agreed to pay \$215,000 for the home but two weeks later refused to complete the transaction.

## TV Series Star Weds Producer

HOLLYWOOD (AP) — Laraine Stephens, 25-year-old costar of the "Bracken's World" television series, is honeymooning in Ireland with producer David Gerber.

They were married secretly Friday at the University of the Pacific in Stockton, Calif., where Gerber once was a star athlete, a spokesman for 20th Century Fox said Tuesday.

It was Miss Stephens' first marriage and Gerber's second. Gerber, 41, produces the "Nanny and the Professor" TV series.

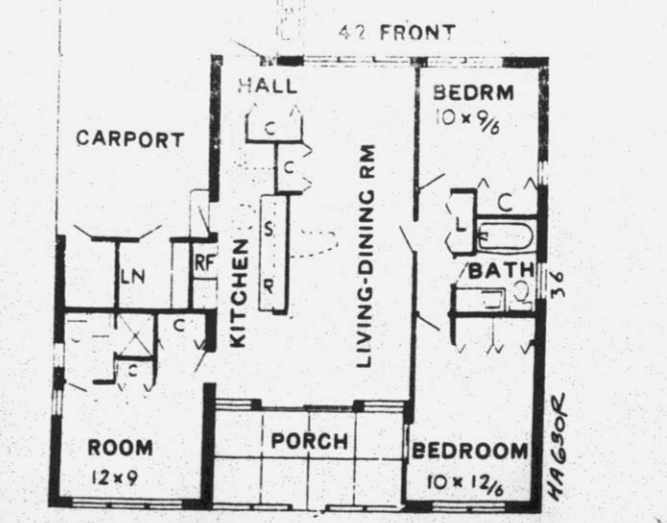

PHOENIX, Ariz. (AP) — Svetlana Alliluyeva Peters, daughter of the late Soviet dictator Joseph Stalin, is about to achieve a long-standing ambition to travel by car through the United States.

William Wesley Peters, the architect she married here April 7, said Tuesday they would fly to San Francisco within a week and start out by car for Spring Green, Wis.

Peters manages the Taliesin West architectural school of the late Frank Lloyd Wright near Scottsdale and is making the trip to move summer activities to the Taliesin East school at Spring Green.

JAPANESE BANKS  
TOKYO (UPI) —To attract new depositors, Japanese banks are offering a variety of premiums, including:  
—A 10 million yen (\$27,000) life insurance policy against death in a traffic accident.  
—Free parking in the bank's parking lot.  
—Free trips to holiday resorts.  
—Educational counseling to children of depositors.

## HOMES FOR AMERICANS

A FLORIDA HOME, this three bedroom, two bathroom structure has a waterfront design, and is meant for indoor-outdoor living: all major rooms face the water, and the living room kitchen and master bedroom have direct access to the screened porch. Widely projecting eaves protect the 8-inch masonry block-stucco covered outer walls. Inside, partitions are of 6 inch wood stud and plaster, and the floor is a concrete slab, covered with terrazo, cork or carpet. The pitched roof is topped with tar and gravel. Plan HA630R, with 1,080 square feet of living space, was designed by architect Jan Reiner, 1000 52 St. No., St. Petersburg, Fla., 33710.

## Smiling computer

With her desk top viewing screen linked to the largest computer in the state of Virginia, Yvonne Manning can answer almost any customer question in a matter of seconds. That's her job: swift personal service. And she's good at it.

At Vepco, we're computerized in order to give you better, faster service. (When you're a company with almost a million customers, you need a little help.) But it's the girl with the smiling face behind the computer who listens, and understands.

Yvonne's is one of those smiling faces. She and dozens of other trained Customer Service Clerks are here to help when you visit your Vepco office to pay a bill, request new service, or just to ask a question. And there are hundreds more ready to serve you by phone. Each one measures her day by the number of people she helps.

That's the Vepco way.

## Vepco

is people ... helping people.

**EMPLOYMENT**  
**Male Help Wanted**  
WANTED: SPREADERS for girls sportswear plant. Experience desired, but not necessary. Apply in person, Edgcombe Manufacturing, West St. James St. Extension, Tarboro.

**CLASSIFIED DISPLAY**  
**IN MEMORIAM** Melvin Phillip Hoot, M.D.  
Whereas, God in His infinite wisdom chose to take our fellow physician, Dr. Melvin Phillip Hoot, away from us on June 5, 1970, we, the members of the Pitt County Medical and Dental Society, wish to express our heartfelt sympathy to Mrs. Hoot and the three children: Mrs. Dan Wright, Jr., Mrs. William C. Roe, and Mr. Melvin Lee Hoot.  
Those of us who knew him will cherish the memory of his devotion to his profession. Many people have good vision today because of his skillful services.  
His contributions extended beyond the community in that he was the instigator of the eye bank and its regional chairman. He began the local speech and hearing clinic.  
He was always genuinely interested in the comfort and welfare of his patients.  
He inspired confidence because he was cheerful and optimistic.  
Now, therefore, be it resolved that a copy of this memorial be spread upon the permanent minutes of this Society, in the Archives of the North Carolina Medical Journal, and the Daily Reflector.  
Allen Taylor, M.D., President Pitt County Medical Society  
By the Committee  
Connell G. Garrenton, M.D.  
C. Fred Irons, M.D.

**Our contribution to the space program.**  
There's still one place on our crowded planet where you can have a little elbowroom.  
The Volkswagen Station Wagon  
In fact it has about twice as much of that precious commodity as the average station wagon.  
With all this space, it can accommodate as many as 9 earthlings.  
With the massive sliding door, it can accommodate the most outrageous objects.  
With a special suspension system (and a lot of cushy upholstery), it can accommodate the most fragile housewife.  
Of course even with all these assets, our space vehicle still can't leave the ground. But then what do you expect for \$2750? The moon?
