

Apollo 15 Is Launched On Lunar Quest

By HOWARD BENEDICT
AP Aerospace Writer

CAPE KENNEDY, Fla. (AP) — America's Apollo 15 explorers rocketed into space today for another journey to the moon. They are to conduct man's first driving expedition on the lunar surface in a quest among towering mountains and a deep canyon for clues to the birth of the solar system.

Col David R. Scott, 39, Lt. Col. James B. Irwin, 41, and Maj. Alfred M. Worden, 39, all Air Force officers, roared away from their home planet at 9:34 a.m. (EDT) on the pulsating power of a Saturn 5 rocket.

Hundreds of thousands in the Cape Kennedy area watched the blazing departure as the astronauts began what has been termed one of the greatest scientific explorations of all time.

"Good job," Scott told the launch crew. "It was a very smooth ride all the way."

All three stages of the Saturn 5 fired smoothly and nearly 12 minutes after launch the space-ship Endeavour raced into earth orbit more than 100 miles

high at about 17,400 miles an hour.

To reach the moon Apollo 15 must first orbit earth 1½ times in nearly three hours while the astronauts make certain all spaceship systems are operating. Then the third stage of the rocket will be fired, breaking out of orbit and accelerating the craft at 24,300 miles an hour toward the moon, 250,612 miles away. The firing was set for 12:25 p.m.

For three days, Scott, Irwin and Worden are to soar across the vast ocean of space and fire into lunar orbit Thursday.

On Friday, Scott and Irwin plan to steer the lunar landing craft they call Falcon to a precision landing in a basin at the base of the Apennine Mountains, tallest on the moon with peaks rising 15,000 feet high.

They would be the fourth American two-men team to land on the moon in two years.

Scott, Irwin and Worden were roused at 4:19 a.m. for a brief medical examination and the traditional launch day breakfast of steak, eggs, toast, coffee and orange juice. "They're in great shape" said Donald K. Slayton, director of flight crew operations.

Technicians helped them into their white spacesuits with the bubble helmets and the American flag emblazoned on the sleeves.

As the astronauts left the crew quarters, they smiled and waved at about 500 space workers and newsmen who applauded and shouted, "Good luck!"

Several members of Worden's family were in the crowd. The astronaut blew them a kiss and briefly shook hands with his father, Merrill Worden of Jackson, Mich.

The spacemen were transported to the launch pad nine miles away in an air conditioned van and rode a high-speed elevator up 320 feet to the spacecraft level.

Throughout the night, the launch crew was busy pumping more than 800,000 gallons of liquid hydrogen and liquid oxygen into the fuel tanks of the Saturn 5.

The astronauts are embarking on what mission commander Scott calls "the most singular, significant scientific expedition ever conducted ... It is a journey backwards in time—to the first pages of the history of the creation of the solar system."

They hope to return to earth on Aug. 7 with rocks dating back to the birth of the moon, confirmation of whether volcanoes ever erupted there and enough information for scientists to draw an age map of nearly 20 per cent of the surface.

As they relaxed in the crew quarters prior to retiring, the astronauts received a telephone call from President Nixon wishing them "Godspeed" on their lunar mission.

Scott, Irwin and Worden go forth knowing full well that space flight is still a very risky business. They have only to look back less than a month, to June 30 when the Soviet Union's three Soyuz 11 cosmonauts died during re-entry into

earth's atmosphere as their spaceship suddenly lost pressure because of a leak.

A similar accident could not happen to the Apollo craft because of a different design.

Apollo 15 Flight Schedule

CAPE KENNEDY, Fla. (AP) — Here are the planned timetable highlights of the Apollo 15 mission—all times Eastern Daylight:

Monday, July 26
12:30 p.m.—Fire out of earth orbit on 78½-hour trip to moon.

Thursday, July 29
4:07 p.m.—Fire into lunar orbit.

Friday, July 30
1:48 p.m.—Astronauts David R. Scott and James B. Irwin separate lunar module Falcon, leaving Alfred M. Worden alone in command ship Endeavour.

6:15 p.m.—Falcon lands at moon's Hadley-Apennine site.

7:44 p.m.—Scott pokes head out hatch to survey site.

Saturday, July 31
9:24 a.m.—Start seven-hour surface excursion, driving moon buggy.

Sunday, Aug. 1
6:46 a.m.—Start seven-hour driving excursion.

Monday, Aug. 2
3:24 a.m.—Start six-hour driving excursion.

1:09 p.m.—Falcon launched from moon.

3:04 p.m.—Falcon docks with Endeavour.

Tuesday, Wednesday, Aug. 3-4

Astronauts spend two extra days in orbit conducting scientific experiments.

Wednesday, Aug. 4
4:10 p.m.—Eject satellite into lunar orbit.

5:18 p.m.—Apollo 15 fires out of lunar orbit for homeward trip.

Thursday, Aug. 5
11:34 a.m.—Worden takes space walk to retrieve film.

Saturday, Aug. 7
4:46 p.m.—Splashdown in Pacific.

Communist Boss Nabbed In Sudan

KHARTOUM (AP) — Sudanese President Jaafar el Numeiri's forces arrested the fugitive chief of the Communist party at dawn today and held him for a military trial on charges of masterminding the unsuccessful coup last week, the government radio announced.

It was assumed that the Red leader, Abdul Khalek Mahjoub, would be executed. Eight leaders of the 74-hour rebellion have already died before firing squads, and a ninth, Col. Babikir el Noor, is still on trial in Khartoum.

Fresh In The Memory

GONE, BUT LONG TO BE CHERISHED ... In the memory of thousands of eastern North Carolinians, is that incomparable American musical "Mame," the second of five attractions of the East Carolina Summer Theater on stage at McGinnis Auditorium. Playing to packed houses for ten memorable performances, the Jerome Lawrence-Robert E. Lee book, with music and lyrics by Jerry Herman, was directed by Stan Page with choreography by Mavis Ray.

Three of the cast are shown above—Paul Bucke, whose role was that of Dwight Babcock; Denise Lor, lovely leading lady who played the title role, and child star Richard Cray, the younger Patrick Dennis. Baillie Gerstein, Camille Hardy, Stuart Aronson, Randy Jones, Mark Ramsey, Pamela Kalls and Michael Hardy were also featured in a fine cast that included outstanding young dancers. (Reflector Photo)

Gov. Scott Receives Nutrition Survey

Inadequate Diet For Many Children

By YVONNE BASKIN
Associated Press Writer
RALEIGH (AP) — A nutrition survey of North Carolina released today by Gov. Bob Scott shows that one out of every four households and 43 per cent of the children in the state are not receiving adequate and nourishing diets.

Scott told a news conference he plans to convene a study group to come up with concrete recommendations to improve the nutrition of the people of the state.

Optimism Fades

WASHINGTON (AP) — A spurt of optimism in the railroad negotiations faded out when a 12-hour session ended today without agreement.

"They were hopeful talks but the outlook doesn't look favorable toward reaching an agreement," a Labor Department spokesman said.

Negotiations were to resume at 3 p.m. EDT in an attempt to end walkouts against four railroads and to avert threatened strikes at 11 others in the next two weeks.

When a session began at the Labor Department Sunday afternoon, federal mediators said, "There is a very good chance we'll get an agreement today."

Assistant Labor Secretary W. J. Usery Jr. had said, "This is the best chance we've had to resolve this dispute. We will go on all night if necessary."

But when the talks recessed at 3 a.m. EDT, a spokesman said, "We did not make it tonight...Both parties are very strong on their position on several items."

With the United Transportation Union planning to

reference he plans to convene a study group to come up with concrete recommendations to improve the nutrition of the people of the state.

"For those who believe that .750 is a pretty good batting average, I would only say that when it comes to sufficiency of nourishing food for our citizens, we must hold in

front of us the goal of 1,000," Scott said in remarks prepared for the news conference. "This, in my mind, is particularly appropriate when we discuss the nutrition of children."

The study was done by the state Board of Health at the request of Scott and involved evaluation of the diets of more than 1,000 families across the state, both rich and poor, young and old and black and white.

Here are some of the major findings:
—Twenty-seven per cent of the households in the state and 43 per cent of the children were consuming nutritionally inadequate diets.

—Dietary inadequacy occurred with greatest frequency — 39 per cent — among households in eastern North Carolina.

—Statewide urban-rural differences in dietary adequacy are minimal.

—Nonwhite households were more than twice as likely to have inadequate

diets as were white households.
—Forty-three per cent of the households with per capita incomes among family members under \$1,000 had inadequate diets and only 24 per cent of those with per capita incomes over \$2,000.

—Racial and income factors seemed to operate together since the median reported household income for whites was \$7,000 as compared to \$3,444 for nonwhites.

—Inadequate diets were more than twice as frequent in households rated substandard for food preparation facilities.

—"A particularly disturbing finding was the complete lack of beneficial effect of participation in special food programs for the poor. In fact, 54 per cent of eligible non-participants had optimal or adequate diets versus 48 per cent of participants."

Only 35 per cent of the eligible households were found participating in one or more of the

Patient 'Doing Well' With New Lungs And Heart

By KENNETH L. WHITING
Associated Press Writer

CAPE TOWN, South Africa (AP) — Dr. Christiaan N. Barnard's latest transplant patient was in satisfactory condition today with his two new lungs and heart working adequately, a bulletin from Groote Schuur Hospital reported.

Following the operation Sunday, a hospital spokesman said the heart and lungs were functioning normally, but "It is too early to make any prediction about the immediate or long-term result."

Adrian Herbert, 49, a Cape Town dental technician, received his new heart and lungs from Jackson Gunya, about 28, who died Saturday night from injuries he received in a fight.

The operation was Barnard's first combined heart-lung transplant, and the world's fourth. The previous ones were done in the United States, and all the patients died.

special food programs.

The study said that since the data was completed in May, 1970, the Department of Social Services had reported a 25 per cent increase in participation in all food programs.

—In 81 per cent of the households in which the homemaker had "good" nutrition knowledge, optimal or adequate diets were found. This dropped to 68 and 71 per cent when the knowledge of nutrition was "limited" or "very limited."

—The most commonly deficient nutrients were vitamins A and C and the mineral calcium. Inadequate dietary iron intake was found in only 7 per cent of the households but in 28 per cent of the preschool children. Only 3 per cent of the households had diets low in protein.

—"It would appear from the height and weight data that North Carolina children are somewhat shorter on the average if one uses as a reference the Stuart Growth

Standards," the study reported, and noted the suggestion of a relationship between "dietary adequacy and growth attainment."

—It pointed out that high income and good nutritional knowledge did not preclude inadequate diets even though they were found more frequently in low income households.

Scott said the findings among preschool children were "particularly distressing" and said that although the state has an excellent school lunch program, "increased attention must be given to the nutrition of the very young child."

He said he also was struck by the lack of demonstrable beneficial effects of the commodity food and food stamp programs.

"It appears evident that these programs should receive very careful study to determine how they can be made more effective," Scott added.

planted."

Herbert was reported to be "colored," the official South African term for mulattoes. Gunya was black.

Barnard and his team performed the six-hour operation after doing extensive research and experiments with animals. Herbert, bedridden two years with an incurable lung condition that weakened his heart, underwent extensive tests for four weeks before the surgery.

Nevertheless, Barnard reminded newsmen after the operation: "We haven't had any experience with this type of operation clinically, and we'll just have to watch the results very closely."

Many heart surgeons in the United States maintain that widespread use of transplants should await a solution to the problem of rejection of the donated organ by the recipient's body.

Tips On Taking Baby For Day At The Beach

NEW YORK (AP) — When summer arrives, almost as welcome as the sun is the prospect of getting the little ones out of your hair and onto the sand. To insure a pleasant outcome for all visits to the beach with small children, here are some guidelines from pediatricians:

1. Remember that a child's skin will sunburn quicker than yours will. Follow sensible rules on allowing children to tan gradually. Don't start with a full day at the beach. Use a good sun-blocking cream for infants.
2. Babies often have such fine hair that their scalp will sunburn, so be sure that they wear hats. Protection is needed from the other direction, too, since the reflection from sand and water will burn a child who is protected overhead by an umbrella. It's wise to bring a baby to the beach in a car bed—or even a large cardboard box—to cut reflected sun.
3. Children can become chilled even on warm days if they sit too long in wet bathing suits. Be sure to look for suits made of quick-drying materials. With these synthetics, children can dash in and out of the water and their bathing suits will dry as quickly as they do.
4. Don't allow children to spend most of a day swimming underwater. "Remind kids they're humans—not fish," as Dr. Virginia Haggerty puts it. "Too much underwater time encourages ear and nose complications."
5. Take plenty of liquids to the beach. Children lose fluids when they perspire at a rate proportionately higher than adults. Babies, especially, can become seriously dehydrated during a long hot day, and it's important to have extra bottles of juice or water.
6. Remember heat encourages bacteria growth in food. If you're packing lunches, avoid mayonnaise mixtures or other food that spoils easily. Take unopened jars of baby food—then throw away the remains. A half-used jar from the refrigerator is very apt to spoil during a day at the beach and cause food poisoning.
7. Try to keep a semblance of daily routines. If a child is used to an afternoon nap, at least require him to rest, read, or color quietly for a similar period of time. "Many summer illnesses could be avoided," one pediatrician advises, "if mothers were careful that children didn't over-entire themselves during days at the beach."
8. Never allow anyone—even a good swimmer—to take small children, who don't swim, out in water over their heads. A loss of footing can lead to a tragic accident.
9. If your children kick sand on sleeping faces or drop ice cream on unsuspecting backs, follow the example of writer Jean Kerr. Just shout, "Stop that immediately, little boy!" in the tones of a righteous, but disinterested bystander. No one will guess the family disturbing the peace of the beach is yours.

Bridge Winners Are Announced

Winners in the Wednesday Afternoon Duplicate Bridge Club played at the Elks Club were: Stuart Shough and Jerry Helms, first; Mrs. J. H. Rhodes and Mrs. Roger Critcher, second; Mrs. Lacy Harrell and Mrs. J. W. H. Roberts, third; tied for fourth were Mrs. Harold Forbes and Mrs. J. S. Willard with Mrs. Eli Bloom and Mrs. M. H. Bynum.

Winners in the Wednesday morning game were: Mrs. Agnes Evans and Mrs. Guy Smith Sr., first; Mrs. Tom Cole and Mrs. Jean Cox Jones, second.

Mrs. Wiley Corbett and Dr. Charles Duffy were first place winners in the Friday night game played at the Elks Club.

Other winners were Joe Smith II and Lewis Newsome, second; Mrs. Lacy Harrell and Mrs. J. W. R. Roberts, third.

Saturday afternoon winners included: Mr. and Mrs. C. V. Rogers, first; Dr. Charles Duffy and Mr. Stevens, second; Mrs. J. H. Rhodes and Mrs. Roger Critcher, third.

Birth

Bryan
Born to Mr. and Mrs. Lucian D. Bryan Jr., Savannah, Ga., a son, Lucian D. III, on July 22, 1971. Mrs. Bryan is the former Donna Eason of Fuquay-Varina.

Night 752-3280

The marriage of Miss Rebecca Lynn Mobley and Johnnie Lawrence Brown was solemnized Sunday by John Woodley, pastor of the bridegroom, in a three o'clock ceremony at the Hollywood Presbyterian Church.

The bride is the daughter of Mr. and Mrs. Herbert Lee Mobley of Rt. 2, Greenville. Parents of the bridegroom are Mr. and Mrs. J. M. Brown of Rt. 1, Ayden.

A program of wedding music was presented by Mrs. Ruth Myer of Greenville, organist, and Burney Baker of Greenville, uncle of the bride, soloist. He sang "O Promise Me," "Through the Years" and "The Wedding Prayer."

The church, decorated in the traditional green and white, featured a background of tall pyramidal candelabra, each holding 20 chase candles overflowing with bouquets of white gladioli and daisies flanked by tall standards of emerald greenery and southern smilax. At the altar was a Pri Dieu decorated with garlands of white daisies and greenery. Pews were marked with bridal satin.

Given in marriage by her father, the bride wore a formal length white silk organza gown styled with an Empire bodice of Chantilly lace. The dress featured a scalloped princess neckline and short, puff sleeves. The bodice front was encrusted with pearls and she wore a formal length illusion mantilla edged in matching Chantilly lace attached to a tiara bow headpiece of Chantilly lace loop bows. She carried a lace covered Bible with a bouquet of Phalaenopsis orchids and tuberoses showered with white satin.

Miss Bonnie Brown of Charlotte, sister of the bridegroom, was maid of honor. She wore a formal length mint green dotted Swiss gown styled with a high neckline encircled with white Venise lace. The empire bodice featured a bib effect formed by the Venise lace with tiny dotted Swiss covered buttons extending from the neckline. The cuffs of the long sleeves were trimmed with Venise lace. Her short bouffant veil of mint green illusion was attached to a tiara headpiece of mint green chiffon loop bows and petals. She carried a nosegay of yellow and white daisies, tips of Baker's fern and baby's breath tied with yellow satin streamers. Bridesmaids were Miss Nancy Ward of Grifton, Miss Terry Peede of Greenville and Miss Elaine Brown, sister of the bridegroom, of Ayden.

The bridesmaids wore dresses and headpieces styled identical to those of the honor attendant and carried similar bouquets.

The bridegroom's father served as best man. Ushers were Ron Braxton of Greenville, Mike Rogerson of Winterville, Tommy Jordan of Greenville and Don Cannon of Ayden, both uncles of the bridegroom.

The wedding was directed by Mrs. Marie Cox.

For her daughter's wedding, Mrs. Mobley wore a yellow crepe knit dress with a lace coat and matching accessories. The bridegroom's mother chose a pink knit dress with matching accessories. Mrs. Sam Baker, grandmother of the bride and Mrs. G. W. Jordan, grandmother of the bridegroom, wore white daisy corsages. Both mothers wore white daisy corsages.

For a wedding trip to the mountains of North Carolina, the bride changed into a white knit dress trimmed with blue Venise lace and matching accessories. She wore the orchid lifted from her bouquet. After the wedding trip, the couple will reside in Winterville.

The bride is a graduate of J. H. Rose High School and is presently employed at Pitt Memorial Hospital.

The bridegroom attended Crest High School in Shelby and is employed by Collins-Aikmans in Farmville.

Reception

Immediately following the ceremony, a reception was held at the home of the bride.

Mr. and Mrs. Jimmy Smith Jr. greeted the guests and directed them to the refreshment table. The refreshment table was centered with an arrangement of white flowers and white candles.

After the bridal couple cut the first traditional slice of wedding cake, Mrs. Alva Lee Evans served cake and Mrs. James Carey and Miss Toni Weston poured punch.

Miss Mary Doyce presided at the guest register and good-byes were said to Mr. and Mrs. W. F. Weston, aunt and uncle of the bride.

An after rehearsal party honoring the wedding party and guests was given Saturday night by Mr. and Mrs. Alva Lee Evans and Mrs. Jimmy Smith at the Evans home. The bridal couple presented gifts to the members of the wedding party.

The wedding party was honored with a dinner Saturday night given by Mr. and Mrs. Kenneth H. Mercer. The couple was remembered with a silver tray by the host and hostess.

A bridesmaids luncheon was given Saturday afternoon for the bride and her attendants by Mrs. Billy Weston.

COOKING IS FUN!

By CECILY BROWNSTONE
AP Food Editor
GOOD DINNER

Phyll's Chilled Borsch
Braised Shoulder Lamb Chops
with Onion, Carrot and Celery
Buckwheat Groats

Sliced Bananas

with Orange Juice
PHYLL'S CHILLED BORSCH
Make well ahead of serving.
1 container (8 ounces) commercial sour cream
1 can (16 ounces) cut or sliced beets
3 beef bouillon cubes dissolved in 1/4 cup boiling water
1 3/4 cups cold water
2 tablespoons firmly packed dark brown sugar
2 tablespoons lemon juice
1/2 teaspoon salt
1/4 teaspoon white pepper
2 tablespoons minced scallion (green onion), green top included

Into a tall refrigerator container turn the sour cream. Drain beets, reserving beet liquid, and dice beets. Gradually stir beet liquid into sour cream, keeping smooth; add beets and remaining ingredients; mix well. Cover and refrigerate for 6 hours or overnight to chill and

allow flavors to blend. Serve chilled. Makes about 5 cups—6 servings. (Mix well just before serving.)

RANGETOP DINNER

Rice
Snap Beans
Bread Tray
Fruit Salad
Beverage

SWISS STEAK

Lots of flavorful gravy.
2 slices (1 inch thick) bone-in chuck roast (3 pounds)
1/4 cup flour
2 teaspoons salt
1/2 teaspoon pepper
1 medium onion, finely diced (about 3/4 cup)
1 medium green pepper, finely diced (about 3/4 cup)
1 can (1 pound) stewed tomatoes
Cut any fat and sinew away from around meat. Mix together flour, salt and pepper; pound into both sides of meat. Melt a small piece of beef fat in a 12-inch skillet—enough to give a heavy film of fat. Brown steak thoroughly on all sides. Add remaining ingredients. Cover tightly and simmer until meat is tender—about 1 1/2 hours. Makes 4 to 6 servings. (The chuck roast should be the kind with very little bone.)

Does Operation Ruin Marriage?

By Abigail Van Buren

(© 1971 by Chicago Tribune-N.Y. News Synd., Inc.)

DEAR ABBY: That mother of six—at age 22, who asked your help in persuading her husband to undergo a vasectomy so she wouldn't get pregnant again—shows selfish consideration for him.

True, a vasectomy is a simple, safe, 15-minute operation that has no damaging physical effects on a man, and doesn't reduce his potency as a lover. In fact, I think it increases his desire. I know because I had one 30 years ago. [My wife had had several miscarriages and her doctor told her another might be fatal.]

Five years later my wife died of pneumonia. I mourned her passing and didn't look at another woman for a year. Then, I met Marie, a lovely young lady about my wife's age and we fell deeply in love. I proposed and she accepted. It was to be her first marriage. I then told Marie that I could only be her lover, but couldn't give her children. She was shocked speechless. I waited hopefully for five minutes, then left. I never saw her again. From then on, I shunned the company of marriageable women. I didn't want the heartbreak of loving and losing again. I know you won't print this, but I want to point out the drawback of such an operation.

SORRY

DEAR SORRY: Your point is a valid one, but I think you and Marie were foolish to have parted forever for that reason. [You could have adopted children.] And as for your subsequently shunning all marriageable women, that, too, was foolish. Not all women would reject a man because he couldn't father children. Some women would consider it an asset.

DEAR ABBY: Your letter from the woman who has six children and is only 22 years old and is trying to convince her husband to have a vasectomy interested me. Maybe I can help her convince the jerk.

After becoming the proud father of a son and daughter I decided back in 1935 that I had all I could handle to properly raise and educate them, and on the advice of my physician I had a vasectomy performed in Atlanta. Believe it or not, it required five minutes, during my lunch hour, and cost \$50.

That little bit of surgery has given my wife and me a million dollars' worth of happiness. Please tell that stubborn man his marital relations will be much improved without the worry of pregnancy.

Today I am reaching 65, and I am a better man than I was in 1935.

KAY BEE

DEAR KAY BEE: My mail is running 100 to 1 in favor of the vasectomy. But in all fairness, there is another side of the coin and here it is:

DEAR ABBY: The letter from the young mother of six whose husband changed his mind about having a vasectomy interested me. Having had some experience along that line, may I say a few words?

My husband had a vasectomy in 1959. I didn't talk him into it either. It was his own idea, but he kept changing his mind about it, putting it off, then rescheduling the operation several times. I should have told him at that time to forget it, but I didn't know better.

He finally had it, and for several years all was well. Then he suddenly got the idea it had done something to his manhood. It didn't really, but he resented the idea that he couldn't father children. [We had four.]

He has harbored resentment all these years, and deep down he blames me.

In a nutshell, Abby, if a man feels vasectomy will make him less a man, he should not have it. It's only psychological, but for some, that's enough.

ONE WHO KNOWS

DEAR ABBY: I think all men who have had vasectomies should form a club (they could call it the "V" CLUB—for VASECTOMY) and carry a membership card signed by their doctor. That way a girl wouldn't have to worry about pregnancy.

DEAR "V": Right. Then all she'd have to worry about would be V. D.

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

Occupational Hazards Reported

EDINBURGH (WNS) — Professor Liam Hudson, director of Edinburgh University's research department, and his wife Bernardine studied the marital histories of 692 artists, scientists and writers, then reported in "Nature," the science magazine, that scientists tend to marry early and have a low

divorce rate, biologists marry late and have larger families, artists remain childless five times more frequently than scientists, and creative writers are champions at divorce.

A good, safe non-polluting substitute for enzyme pre-soaks which are being taken off the market is a pre-wash soak in a sinkful of warm water spiked with 1-3 cup of washing soda. Soda softens the water and loosens oily soil.

African Arsenal For New 'Adventure' Is Building

By LYNN HEINZERLING
Associated Press Writer
DAR ES SALAAM, Tanzania (AP)—In this tranquil, muggy city on the Indian Ocean, whose name means "haven of peace," they direct and plan for what could become the bloodiest martial adventure in African history.

Here sits the Committee of Liberation, set up by the Organization of African Unity to "eradicate all forms of Colonialism from Africa"—that is, to seize power for the black man from the white rulers of South Africa, Rhodesia and Portugal's African territories.

A dozen or more groups of "freedom fighters" have headquarters here. In outlying camps, young Africans are trained to throw grenades, plant land mines, operate machine guns and mortars and burn, burn, burn.

Chinese ships call regularly with arms and ammunition. Russian ships bring in more. The haven of peace has become the arsenal for Black Africa's crusade against white-ruled Africa.

The bloodletting started 10 years ago in northern Angola when thousands of whites and blacks were beheaded, disemboweled or otherwise hacked or shot to death in a ferocious rampage among Angola's rich coffee plantations. Thousands more have died since then, especially in Angola and Mozambique.

Now the crusade has bogged down in a welter of dissension, conflicting ideologies, personal rivalries among the leaders and plain dissatisfaction among the 41 member states of the OAU.

There are three different guerrilla groups operating in Angola, two in Mozambique. There have been no serious guerrilla activities in Rhodesia, South Africa or Southwest Africa for 18 months.

Two groups, the Zimbabwe African Peoples Union (ZAPU) and the Zimbabwe African National Union (ZANU) contend for OAU funds to fight in Rhodesia. The anti-South African forces are divided into the African National Congress (ANC) and the Pan-Africanist Congress (APC). There has been little activity in Southwest Africa although two guerrilla groups maintain headquarters here.

Even in individual groups there are leadership squabbles. There has been no really force-

ful leader for the campaign to conquer nearly two million square miles of African soil since Dr. Edouardo Mondlane, president of the Front for the Liberation of Mozambique (FRELIMO) was killed by a bomb mailed to him in 1969. His death was preceded by considerable friction among FRELIMO leaders, brought about by tribal differences and jealousies.

Holden Roberto, president of the Angolan Revolutionary Government-in-Exile (GRAE), presides over his government in a shabby little bungalow in Kinshasa. He rarely visits Dar es Salaam and his relations with the Committee of Liberation are not good.

Roberto claims his army holds 154,400 square miles of Angola, approximately one-third of the territory. The army operates from the Congo with the somewhat tepid support of the Congolese government.

Another group, operating from Zambia, the Popular Movement for the Liberation of Angola (MPLA), claims to hold another third of Angolan territory in the eastern part of the land. A third nationalist group called UNITA is also active from a Zambian base. They have little use for each other.

Roberto said he had 10,000 guerrillas fighting in Angola and "we kill from 10 to 50 Portuguese a week. Our people know the country, and it is easy to make ambushes." Neither the guerrillas nor the Portuguese issue casualty totals.

Diplomatic sources estimate that the Portuguese, with some 130,000 troops in the three African territories of Angola, Mozambique and Portuguese Guinea, lose about 600 soldiers a year. Portugal devotes nearly a half of the national budget to defense. Guerrilla losses must certainly be higher, they say.

The Portuguese claim that in the last six months of 1970 more than 6,000 guerrillas surrendered to the Portuguese.

With the freedom fighters in disarray, some member states in the OAU have been less than enthusiastic about contributing to the war fund. A total of about \$2 million is levied against the 41 states annually to support the campaign.

Five members—Botswana, Lesotho, Malawi, Morocco and Rwanda—have never paid anything to the Liberation Committee, reliable sources here say.

Only seven are up to date on their payments: Tanzania, Kenya, Zambia, Ghana, Algeria, Ethiopia and Libya. Last year less than a half of the \$2 million charged was paid.

One reason for this reluctance to pay is the large amount of money going for purely administrative expenses.

Peter Nangolo, information director of the Southwest African People's Organization, said: "No amount of money is enough. You encounter unexpected expenses. Running the foreign missions has been expensive, and we need money for them. We want to establish information centers to give proper information on Namibia (Southwest Africa)."

The completion of the Tan-Zam railway line from Dar es Salaam to Zambia, scheduled for 1975, will put an entirely new complexion on the black-white confrontation in southern Africa. The railway, which is being financed and built by the Communist Chinese, will provide a supply channel right up to the border of Rhodesia.

"It's a dagger pointed at Rhodesia's heart," a Rhodesian government spokesman said. "Kitwe (in Zambia) would become a port for Peking."

South African police already are helping Rhodesian troops police the Zambezi River valley between Rhodesia and Zambia following a series of terrorist killings in Rhodesia several years ago.

The task the liberation groups have set themselves is to conquer an area nearly two-thirds as large as the United States without Alaska or to terrorize the white rulers into submission. The prospect of a bloodbath of these proportions in southern Africa has now generated a controversy over the propriety of supplying aid to the guerrilla movements or selling arms to South Africa.

The World Council of Churches allocated \$200,000 last September for relief and medical supplies to groups fighting racism in southern Africa. The Lutheran World Federation has approved a \$92,000 grant to FRELIMO for relief supplies, including cash "especially for educational and medical services. Other organizations and trusts have provided funds for the guerrilla movements.

Many churchmen, including the Archbishop of Canterbury, have opposed grants to support a violent solution of racial injustice in South Africa. Similarly, many African leaders have exerted pressure on Great Britain in an effort to prevent sale of British arms to South Africa.

Both President Kenneth Kaunda of Zambia and President Julius Nyerere of Tanzania, whose countries harbor the headquarters and training grounds of most guerrilla groups, are devout Christians.

Most of the guerrilla fighters operating from Zambian and Tanzanian bases against Mozambique, Rhodesia and Angola have been trained by Communist Chinese or Russian instructors.

Zambia, bordering on all three of the white-ruled territo-

ries, will inevitably be in the front line of the confrontation.

Two years ago the leaders of 14 east and central African nations, including Tanzania and Zambia, met in Lusaka and issued what has become known as the Lusaka Manifesto on the liberation of southern Africa. It said:

"We have always preferred and we still prefer to achieve it without physical violence. We would prefer to negotiate rather than destroy, to talk rather than kill. We do not advocate violence; we advocate an end to the violence against human dig-

nity which is now being perpetrated by the oppressors of Africa."

But, of the 14, the only nation which has agreed "to talk rather than kill" in response to South Africa's apparent new willingness to talk is Malawi. The killing goes on and more blacks than whites are being killed.

The possibility of a combined Black African military force moving against white-ruled southern Africa is so remote that only guerrilla warfare or dialogue remain open to the OAU states.

The Institute for Strategic Studies of London, in a recent survey of African armed forces, said: "Direct military intervention from outside in the affairs of Africa south of the Zambezi would be a major military operation probably impracticable without the generous backing of a superpower."

South Africa, the most developed country on the continent, is spending nearly a half-billion dollars on its defense forces this year. The institute estimates that in an emergency South Africa could put a "determined force" of 250,000 men in the

field "not necessarily fully trained, but adequately armed to protect their homeland."

The 28 countries of sub-Saharan Africa with armies have total forces of about 400,000 men, the institute says. Their combined defense budgets barely equal South Africa's according to the most recent figures available. There remains the almost insuperable problem of getting their soldiers to a point where they could fight.

Sir Roy Welensky, former prime minister of the dismantled Federation of Rhodesia and Nyasaland who surveys the Af-

rican scene from Rhodesia, recently was asked how he saw the future for southern Africa.

He wrote: "We can and we will survive; in fact, we should go from strength to strength, setting an example to the rest of Africa, if we can convince not only the chiefs, but the large mass of Africans, that what we are doing is right. If we fail, and the African believes that his interests are more likely to be served by helping the terrorists, then the future is bleak indeed."

He added: "There will be no second prize."

Director Named For Pathology At Med School

The Director of Clinical Pathology Services at the University of North Carolina Medical School has joined the medical school staff of East Carolina University, according to Dr. Wallace Woolees, dean of the ECU School of Medicine.

Dr. S. William Nye, who joined the department of pathology at UNC-CH in 1960 and became director of its clinical pathology services in 1969, is the tenth member of the ECU medical staff to be named.

In announcing the appointment, Dr. Woolees stated that Dr. Nye will direct both clinical and anatomic pathology

Collision Killed Two-Year-Old

MARLINGTON, W. Va. (AP)—Jodie Michael Sparrow, 2-year-old son of Mr. and Mrs. Glen Michael Sparrow of Chapel Hill, N. C., was killed Sunday in a two-car collision on W. Va. 39 east of here.

State police said the boy's father was listed in serious condition at Pocahontas Memorial Hospital, as was Sharon Kaye Sharp, 20, of Warm Springs, Va. Sparrow and Miss Sharp were the drivers of the two cars.

Listed in fair condition were Shelia Lynn Sharp, 17, and Julia Gay Sharp, 9; Sparrow's wife, Sharon, 35, and their daughters, Katherine Elizabeth, 8, and Kimberly Susan, 6.

Worthwhile Project Outlined

ECU's Student Government Association has taken the initiative in organizing a voter registration campaign aimed at newly enfranchised voters between the ages of 18 and 21.

SGA President Glenn R. Croshaw announced the campaign at a press conference last week.

"We feel this campaign will provide a channel for change for young people, and it is a much more legitimate and effective exercise than that of various possible demonstrations," Croshaw said in making the announcement.

The campaign will include informing young

people of registration places in Pitt and all other counties where ECU students might be voting. While efforts will be focused on ECU students, Croshaw said the SGA will cooperate with any civic group to make the information available to young people.

Certainly no more worthwhile project can be taken on by the university Student Government Association. The vote has now been extended to 18 to 21 year olds; however a right of citizenship is worthless if it is not exercised.

We Do Have Start On Public Kindergartens

One of the more hopeful improvements in education for North Carolina is the development of the public kindergarten.

For Pitt County, one of 35 new state kindergartens approved this year, will be located at the Grifton School, Pitt Supt. Arthur Alford has announced.

The program, with a \$31,750 budget will provide two kindergarten teachers and two teacher aides at Grifton. ESEA Title I funds are providing one kindergarten teacher for each school, which means that the Grifton program will have three teachers.

While this is by no means the complete kindergarten program needed in the county, we do have a start. Hopefully it will eventually expand into a full program for the entire county.

Dictators' Power Seen

By ROWLAND EVANS and ROBERT NOVAK

ATHENS — The callous disregard of the Nixon administration to a secret appeal by the two top leaders of the political parties that ran democratic Greece before 1967 provides shocking new evidence of the dictatorship's power to influence Washington.

The appeal took the form of a long, analytical letter to Secretary of State William P. Rogers on April 12 this year. It was signed by Panayotis Kanellopoulos, the last prime minister before Greece was plunged into dictatorship by the colonels' coup d'etat and George Mavros, leader of the Center Union, the largest (now illegal) political party in Greece.

Kanellopoulos signed the agreement with the U.S. making available Greek Mediterranean ports for missile-firing nuclear submarines. Mavros has held the defense portfolio in several governments. Kanellopoulos is strongly conservative; Mavros a moderate. Both are highly cultured, sophisticated politicians, both strongly tied by conviction and association to the United States.

Their letter, the gist of which was made available to us by a third party, flatly repudiates Rogers's glib assertion in his March foreign policy report that "some progress" had been made in the restoration of "civil liberties."

American policy toward Greece, marked by the full resumption of military aid last year, is being based on half-truths and erroneous impressions, not facts, they said. Thus, the claim of "some progress" in civil liberties is exactly opposite to the true state of affairs here in the fifth year of the dictatorship.

The letter proceeds to a pointed attack on the matter of civil liberties:

"Citizens can be and are sent, on the whim of the military, for trial by extraordinary military tribunals, denied legal advice, and held for months without legal recourse. —Authorities with no

connection whatsoever with the issuing of passports can and do cancel the departure of any citizen at the last minute.

—So much "progress" has been made in freedom of the press that statements made by Kanellopoulos and Mavros cannot be printed in the newspapers, and the people get their news from foreign radio stations, as they did during the Nazi occupation.

—The threat of arbitrary prosecutions and arrests hovers over all citizens at all times.

Taking issue with the rationale of President Nixon's decision to resume full arms shipments in the name of NATO and U.S. security interests, they told Rogers that this support for a regime kept in power by its own force of arms is an inadmissible intervention against the will of the Greek people.

The use of that language was intentionally ironic. A cardinal principal of the Nixon administration in handling the latter-day Greek tyranny is to explain its cooperation with the dictatorship on grounds of non-interference. Thus, in his testimony in Congress on July 13, Deputy Assistant Secretary of State Roger Davies primly stated that "we have carefully avoided any direct interference in the domestic politics of Greece."

To Kanellopoulos and Mavros, however, the arms resumption not only perverts and undermines the central purpose of NATO, which told Rogers was formed for the defense of the very ideals smashed by the colonels. It also has persuaded many Greeks that the real motivation for resuming military aid was to place the U.S. squarely behind the colonels, help them consolidate their hold on the country, and make Greece safe for NATO.

Whether that judgment is accurate or not misses the point. What is significant is that the two foremost parliamentary leaders now in Greece believe it to be so. For four years the colonels have

(Continued on Page 5)

Strength For Today

WATCH OUT

What is God's purpose in the world? We cannot, of course, answer such a query in a way that will be entirely satisfactory. God the Creator is illimitable. He is perfect in knowledge, power and love. Our little minds are not able to encompass the magnitude of God's purposes. The Perfect One is at work carrying out a plan. Sometimes we may be terrified at what appears to be that Plan. But we can be sure that the God of love will not do anything to hurt us or to hurt the humanity of which we are a part. Sinful as we may be, God is not waiting to get his hands on us and give us the punishment we deserve. God is love (1 John 4:8). If He were seeking revenge, He could carry out that terrifying project at any

time. But God is not interested in revenge. He is interested in our salvation. His object is to make our lives better and to bring us at last to that spiritual maturity He wants us to have.

Should we fear God? Not unless we are perversely doing something contrary to his will. Even then his idea is not punishment but redemption. "God sent not his Son into the world to condemn the world but that the world through Him might be saved" (John 3:17).

If we are doing something definitely evil then that evil thing will work itself out to our discontent, grief, punishment.

But we are spiritual beings and God is not seeking our punishment but our redemption.

"All together, troops! We gotta raise it before next year's battle!"

By ART BUCHWALD

A Wait-And-See Mood

WASHINGTON — Despite all the excitement about President Nixon's announced visit to China, everyone has remained calm in Washington and there are very few visible signs that people have been affected by it.

It's true that White House aides are now eating with chopsticks, and large posters of Henry Kissinger have appeared all over town with

the legend "LET A THOUSAND FLOWERS BLOOM," and many Republican officials have ordered fireworks to celebrate Mao Tse-tung's birthday.

But the mood here is still one of wait-and-see.

There are many problems which must be resolved before any normal relations can take place between these two great powers.

First, there is the question of a name. It's impossible for anyone in this town to keep

ART BUCHWALD

referring to "the People's Republic of China."

It's too long and it certainly doesn't fit into a headline. Many people would like to go back to "Commie China." Others would like to refer to it as "Red China" and then there are, of course, the names that Taiwan would like to call it.

So the first order of business for Mr. Nixon is to say to Chou En-lai, "Before we get down to business, could you come up with a new name for your country so it doesn't take so long to say on television?"

There are some people in Washington who are still suspicious that the People's Republic of China will not change its attitude toward the United States because of President Nixon's visit.

But a China-watcher I know said that there is no country in the world that can change its mind faster than the People's Republic of China.

"All Mao Tse-tung has to do is announce that he just had a good thought about the United States and everyone in the country will have the same thought the next day."

"That is the beauty of dealing with a country which has had a Cultural Revolution."

My China-watcher friend (Continued On Page 5)

Other Editors Say The Hard Way

(Winston-Salem Journal-Sentinel)

Nothing better illustrates the sad shape of the economy than the fact that more and more people are seeking favorably of direct wage and price controls as a means of stemming inflation.

Former Gov. Luther Hodges was quoted as saying, "the present administration is not going to lick this inflation and the unemployment rate with any kind of voluntary jawboning ... Wage and price control is the answer and still is the answer." And George Meany, AFL-CIO president, said that if he were in President Nixon's position he would impose wage and price controls. "I don't see any other way that his situation is going to get under control," he said.

The government has had considerable experience in this business, although it has never before waited till a war was six years old before it acted. In World War I we had the Food Administration, the Fuel Administration, the War Industries Board, the Price-Fixing Committee and the War Trade Ooard, all directly or indirectly controlling prices. In World War II, the names were different. They were the Price Stabilization of the National Defense Advisory Commission, the Office of Price Administration and the National War Labor Guard. In the Korean War it was the Economic Stabilization Agency, the Office of Price Stabilization and the Wage Stabilization Board.

It seems unlikely that President Nixon, who dislikes exerting any kind of pressure on business and labor, would have any reverence for those old agencies or for often dictatorial powers they exercised. Then too, economists tend to disagree over whether the controls exerted in the Korean War did any appreciable good.

Still, Mr. Nixon may change his mind.

Even if the new agencies created did a poor job of controlling inflation, they wouldn't be a total loss. The large bureaucracy entailed would hire, all by itself, enough government employees to reduce the unemployment problem considerably.

Doubts Over Inflation Brakes

By ELMER ROESSNER

The rise in bank prime interest rates and the Federal Reserve discount rate once again raises doubts whether monetary controls can halt or even slow down inflation.

The Federal Reserve action was a reversal of policies earlier this year. As Harris Trust and Savings Bank of Chicago points out, the money supply rose at an annual rate of nearly 10 per cent during the first six months of 1971. From January to May it rose over \$9 billion, equivalent to a 13 per cent rise at annual rates, rose another \$3 billion in May and slowed in June. In the same period, time deposits rose 23 per cent, adding to lendable money.

This appeared to be an Administration attempt to make up for economic losses during the General Motors strike and boom the economy. Business did improve, but it was far short of boom. And the monetary move was purely inflationary.

A Little Braking Then, apparently, the

Administration, that is, the Federal Reserve and the Treasury, began to see inflation as a worse danger than the failure of the economy to boom and applied a monetary brake, a higher discount rate.

ELMER ROESSNER

However, it may be too little and too late.

Inflation, largely created by the expansive monetary policy, has assured the economy of 10 per cent wage increases this year, in 1972 and 1973.

The United Auto Workers got increases in that range last year, this year and 1972. Copper and aluminum workers have won similar wage increases in 1971, 72 and 73 and steel workers, strike or no strike, will win a similar increase. The phone workers have won similar three-year

increases, postal workers, raises over two years. Western Union strikers are likely to get similar increases. Construction workers, whose gains have been running ahead of almost all other trades, are still winning increases in that range. And the minimum wage will go up 20 per cent next year.

Spreading Effects

These increases will affect the pay of all other workers, including the unorganized. It is almost certain that wages generally will average up to 10 per cent a year over the next two or three years, probably from 6 to 9 per cent. In the last decade, the cost of labor has risen much faster than the cost of materials. The major factor in the price of a dish of ham and eggs used to be the cost of the ham and the eggs; today it is the pay of the cook and the girl who serves it.

With wages going up for the next three years, so will there be inflation for the next three years, no matter whether the

Recall Yester Years?

By HAL BOYLE

NEW YORK (AP) — Memory can kill as well as reward.

If all the guilt or regret we have felt over what we have done or what has happened to us stayed full strength in our minds their poignancy would destroy us. We could not bear their intensity.

Fortunately, however, memory is selective and ameliorating.

It softens the blow of past guilts and regrets; it casts a mellow glow around the years gone by; it stirs in us a sigh

HAL BOYLE

rather than a cry for all those forgotten yesterdays that somehow taught us to live.

You've got a long string of memories yourself to stretch from there to here if you can look back and remember when—

One of a child's favorite toys was the china egg a farmer put under a bemused young hen to inspire her to lay.

Kids who did their homework on a kitchen table lit by a kerosene lamp felt sorry for Abraham Lincoln because he had had to do his arithmetic lessons by firelight on a wooden shovel with a piece of charcoal.

Although Grandma was glad to get her fine new gas stove, she hated to throw away the old coal stove she had labored over most of her lifetime.

The big reason a mother didn't want her son to become a policeman was because he might end up with flat feet.

All a young boy knew about sex was what he read on wash-room walls and what he overheard the big boys talking about.

A stenographer who dared to go to work wearing a skirt above her knees was quietly told to look for another job — unless the head of the firm was a leg man.

A bartender in most saloons could go a whole day without being asked to make a martini or Manhattan.

You could tell whether a man was wealthy or not by the way he dressed.

The two most famous fat men in America were former President William Howard Taft and Roscoe "Fatty" Arbuckle, the movie comedian.

A dope was a kid who did well in school but didn't know the names of the horses ridden by Tom Mix, Roy Rogers, and the Lone Ranger.

The two most common cures for the common cold were, in order, the juice of a quart of bourbon taken internally, or a chest poultice made of flannel cloth soaked with hot lard. Often the second cure was tried after the first proved ineffective.

An American taxpayer could feel pretty sure he wouldn't have to pay for more than one war in a generation.

It was thought far more important to have a kid's teeth straightened than send him to college.

Those were the days—remember?

Buchwald . . . Hanoi Anticipated War Taken Into N. Vietnam

(Continued From Page 4)

says his fear is no that the People's Republic of China will reject President Nixon's friendly overtures, but that they will embrace them and insist on a trade pact with the United States.

"Can you imagine 800 million people," he asked, "Making shoes for the United States?"

Projecting the consequences of having the People's Republic of China as a friend rather than an enemy, my friend said, "Suppose we were obligated to open the United States to Chinese tourism, and they started sending over group tours of a million people at a time? They could collapse our transportation system overnight."

As if this wasn't enough to worry about, my friend warned, "The reason why the People's Republic of China is willing to start up relations with us is that they have had no experience with American tourists. Once they open the doors to American tourists, U.S. relations will be as bad with China as they now are with France."

But all of this is conjecture and no one knows what will happen from here on out.

This could be the dawning of a new age in which we would see Mao Tse-hiltons sprouting up all over China, with Tricia Nixon and her husband Eddie Cox taking each other's picture at the Great Wall, and Martha Mitchell sailing down the Yangtze with her parasol.

Or it could end in disaster and in 5 years produce a new Sen. Joe McCarthy who would say at a televised hearing, "Now, Mr. Kissinger, will you tell the committee in your own words exactly what happened when you got an upset stomach in Pakistan?"

By GEORGE ESPER
Associated Press Writer
SAIGON (AP) — Hanoi foresaw the eventuality that the United States would take the war to North Vietnam's territory 14 months before President Lyndon B. Johnson launched the sustained bombing of the North in February 1965, according to a captured document made public by the U.S. Embassy today.

A resolution of the Central Committee of the North Vietnamese Communist party, adopted at a meeting in December 1963, said the "favorable development of the revolution in the South depends on our unceasing efforts to strengthen North Vietnam."

"Therefore, we must increase our economic and defensive strength in North Vietnam," it continued. "We should increase our vigilance at all times and be ready to face the enemy's new schemes. At the same time, we should be prepared to cope with the eventuality of the expansion of the war into North Vietnam."

Evans, Novak

(Continued From Page 4)

managed to survive a barely perceptible form of wrist-slapping by responsible U.S. officials while such irresponsible officials as Secretary of Commerce Maurice Stans have come here to praise them.

Thus, if the people of Greece, a country where coffee-house politics is a national pastime, ever rise up against the dictatorship for their loss of civil liberties, their support will come from the Soviet Union and their victims may include the U.S. That, at least, was the message contained in the letter of Kanellopoulos and Mavros — a letter which, incidentally, Rogers never bothered to answer.

Vietnam." The resolution also foresaw the possibility of the major buildup of U.S. forces in Vietnam which began in mid-1965 and reached a peak strength of 543,400 in April 1969. But it said this possibility was remote.

It said the Americans might "carry on the war at the present or slightly higher level" or they might "intensify the war by bringing in troops many times larger or both American troops and troops from the Southeast Asian aggressive bloc

Sure Enough, A Moth In His Ear

SAN FORD, Maine (AP) — An unidentified man came into the emergency ward of Henrietta Goodall Hospital during the weekend, complaining of a moth in his ear.

A skeptical nurse peered into the man's ear with an otoscope and there was the little creature buzzing around inside.

A physician repeated the examination and, attracted by the otoscope's light, the moth fluttered out of the man's ear.

Exemptions For Drug Abusers

Under the new exemption program, part of President Nixon's war on drug abuse, Marines with a drug problem who voluntarily turn themselves in to obtain treatment can avoid disciplinary action.

The first sidewheel steamer appeared on the Mississippi River in 1811.

will intervene in the war."

The resolution said such an escalation might occur if:

"—First, faced with their numerous difficulties in South Vietnam, the U.S. imperialists believe that they will be successful if they fight more

Bicyclist Ends 3,500-Mile Ride

MEDFORD, Mass. (AP) — After 34 days and a dozen flat tires, John Fay peddled up to his parents' home Sunday at the end of a 3,500-mile bicycle ride from San Francisco.

"It just came on me as something to do," explained the 25-year-old Fay, who had been working as an antipoverty volunteer in Oakland, Calif. He started the trip June 23.

"It was a fantastic experience, the greatest experience of my life," he said. "You learn a few lessons, living with yourself first of all, and all the different people you meet."

Fay said the toughest part was the long climb up the Rocky Mountains and the Sierras.

"But on the other side, I sat back and enjoyed it—36 miles downhill."

violently.

"Second, the U.S. believes that the North will not strongly react."

"Third, if they believe their

ZOO POPULATION THRIVES KARACHI (UPI) —Pakistan's wildlife may be threatened with extinction but the number of animals in the Karachi zoo, including hog, deer and gazelles, is fast multiplying. The number of deer in the zoo has doubled since last year. Three black swans imported by the zoo have increased to eight.

increased involvement in the war in South Vietnam will not raise a strong opposition from the people of the U.S. and the world.

"However, the above are only remote possibilities because the U.S. cannot evaluate all the disastrous consequences she might bear if she wages the war on a larger scale. She realizes that if she is bogged down in a large-scale and protracted war, she will be thrown into a very passive position in the world. However, the above possibilities may become more prob-

CONGRATULATIONS. YOU NOW QUALIFY FOR MORE THAN A GOLD WATCH AND MEDICARE.

Now you're eligible for our special Blue Cross and Blue Shield "65" plan — whether you're retiring or not.

Why would you need our "65" plan when you're already covered by Medicare? Because our plan supplements Medicare. It covers some of the things Medicare doesn't cover. For example, Medicare will pay for 60 days of a hospital stay, except for the first \$60. Our plan pays that \$60. Which leaves you in the clear ... just the way we planned it.

Blue Cross and Blue Shield "65" also helps you pay for private duty nursing, prescription drugs outside the hospital or nursing home. And care in foreign countries not covered by Medicare.

For enrollment information and brochure explaining how Medicare and Blue Cross and Blue Shield "65" work together, fill out the coupon and send it to us today.

There are some nice things about being 65. The Blue Cross and Blue Shield "65" Plan is one of them.

Welcome to the club.

HOMES FOR AMERICANS

FIRST FLOOR PLAN

FOUR BEDROOMS: Designed with a sensible balance of stone veneer and wood shingles this two-story home is economically planned. The first floor requires 963 square feet, the second takes 892 square feet. A double entrance door leads to a foyer with a circular stair. Upstairs features two full baths. Plan 682P was designed by architect Samuel Paul, 107-40 Queens Blvd., Forest Hills, N.Y., 11375.

4-H Delegation At Statewide Congress

A delegation of five 4-H members and two adult leaders are representing Pitt County at the North Carolina 4-H Congress in Raleigh this week.

The Pitt County delegates are among some 1,400 club members, leaders and extension agents participating in the annual four-day program which began today on the North Carolina State University campus.

Members of the Pitt County delegation attending are Miss Julie Brown, Bethel; Miss Gloria Moore, Grifton; Miss Sharon Thompson, John May, Winterville, and David Thompson.

Leading the delegation are Mrs. Phyllis L. Wooten, youth

agent, Pitt County Agricultural Extension Service, and Mrs. Paul Thompson, former local club leader of Grifton.

Miss Thompson, the daughter of Mr. and Mrs. Paul Thompson, will represent Pitt County in the state health pageant to be held Tuesday.

The program consists of recreation, discussion, competition, election of state officers and much fellowship.

During the week state winners are determined in some 30 demonstration programs and various judging activities.

ARVN Hunt In Cambodia Is Fruitless

SAIGON (AP) — South Vietnamese forces pressed a new drive east of the A Shau valley today and closed out an unproductive 10,000-man sweep in Eastern Cambodia.

While 1,600 infantrymen swept through the mountains east of the A Shau, a force of 10,000 men and 200 armored vehicles in Cambodia pulled back to Highway 7 after five days of fruitless searching for North Vietnamese forces.

"The North Vietnamese troops pulled back," said one South Vietnamese officer. The operation north of Krek produced only one significant contact in which 37 of the enemy were killed.

However, the officer said the Saigon forces were remaining in Cambodia along Highway 7, resupplying and regrouping. He indicated they may make a new sweep, perhaps in a different region of Cambodia.

The South Vietnamese forces had advanced as much as 10 miles north of Highway 7. Their objective was to harass the North Vietnamese 7th Division and keep it from infiltrating into South Vietnam to make trouble during the congressional elections Aug. 29.

The sweep east of the A Shau valley, 375 miles north of Saigon, is a new effort to root out North Vietnamese forces threatening Hue and other towns in the coastal lowlands.

U.S. helicopters landed the 1st Division infantrymen in the region Sunday and today. No significant ground contact was reported, although the U.S. helicopters received some small arms fire.

Rocket-firing helicopters knocked out one machine gun and killed two enemy troops.

The drive was launched after U.S. reconnaissance helicopters reported receiving heavy anti-aircraft fire in the A Shau region.

To Air Changes In Confirmation

CASTEL GANDOLFO, Italy (AP) — Pope Paul VI says he will make public within a few weeks an apostolic constitution reforming the Roman Catholic sacrament of confirmation.

Confirmation is the rite which complements and confirms the sacrament of baptism.

The Pope did not indicate what changes would be made in the sacrament, but he told a crowd attending his Sunday noon blessing at the papal summer palace that scholars, bishops and Vatican experts have been working on the revision for more than three years.

Study Death Cause Of Horses In S.C.

CAMDEN, S. C. (AP) — Several horses in Kershaw County have died recently from what may be a form of sleeping sickness, akin to but far less serious than the Venezuelan variety that has killed thousands of horses in Mexico and Texas.

Dr. Harry Brown, a Camden veterinarian, said Sunday he was unable to confirm the horses died of Eastern-Western sleeping sickness because the animals died before tests could be made. Testing depends upon examination of brain tissue and Dr. Brown said the horses had been dead too long for accurate testing.

The Eastern-Western form of sleeping sickness, or equine encephalomyelitis, is not rare in South Carolina. Dr. Brown emphasized the disease was only suspected as the killer due to the lack of confirmation.

He said the Venezuelan variety which has spread into Texas is a major killer because American horses have developed no resistance to it. Horses in this country have developed some immunity to the Eastern-Western type.

"The Venezuelan variety is in virgin territory," Dr. Brown

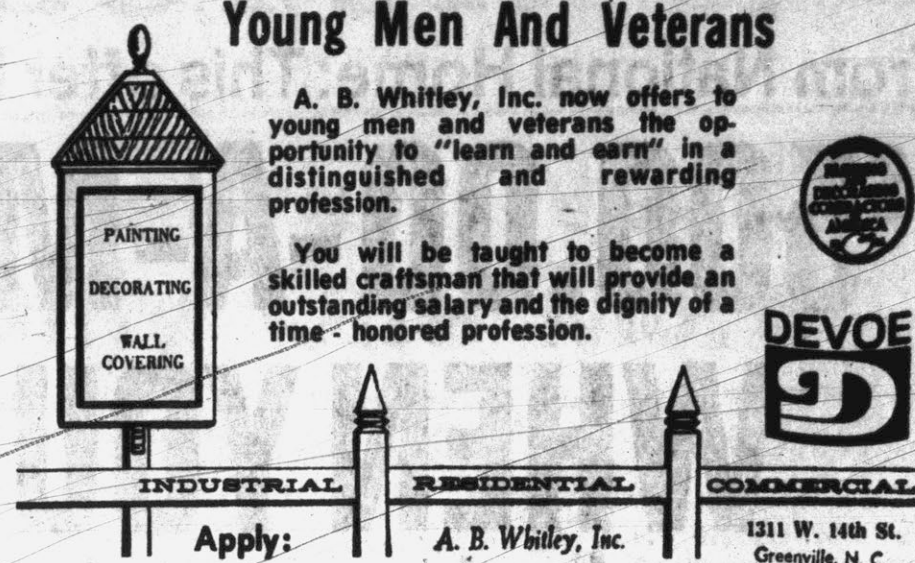

said. Bob Montgomery, Kershaw County farm agent, said horses

The Daily Reflector, Greenville, N.C.—Monday, July 26, 1971—7 should have been immunized in those which have not received the vaccine should get it immediately.

From National Home: This offer brings you

\$500.00-A-MONTH TAX-FREE CASH

WHEN YOU GO TO THE HOSPITAL

Examine policy in your own home at no risk—money refunded if not 100% satisfied!

- ★ Pays you cash at the rate of \$500.00 a month for each hospital stay...even for life, if necessary.
- ★ Pays in addition to any other companies' coverage you have—including Medicare.
- ★ Pays all cash direct to you (not to doctor or hospital).

- ★ Guaranteed Renewable for Life. National Home guarantees never to cancel your protection no matter how old you become or how many claims you have. In addition, your rates can never be changed unless there is a general rate adjustment on all policies of this type in your entire state.

No salesman will call—No medical examination required—No age limit

ACT NOW—YOUR APPLICATION FORM MUST BE MAILED BY MIDNIGHT, THURS., JULY 29, OR IT CANNOT BE ACCEPTED

ONE out of two families will have someone in the hospital this year! It could be you — or some beloved member of your family—tomorrow...next week...next month. Sad to say, very few families have anywhere near enough coverage to meet today's soaring hospital costs. These costs have doubled in just a few short years.

Stop for a moment. Think how much a long stay in the hospital will cost you or a loved one. How would you ever pay for costly, but necessary, X-rays, doctor bills, drugs and medicines? What would you do if your pay check stopped, but living expenses kept going on the same as ever? The same rent, phone, food, all the day-to-day expenses that never stop.

What is the average breadwinner to do? We believe we have the answer in our National Home plan that...

Pays you \$500.00-a-month tax-free cash when you are hospitalized.

What a blessing it is when you know you have \$500.00 cash coming in every month when you go to the hospital. You get your \$500.00-a-month cash — tax-free — as long as you are confined in the hospital. You are covered from the very first day for accidents and from the sixth day for sickness — even for life, if necessary! Most everyone has some insurance or savings to take care of a one to five-day hospital stay. Since we provide lifetime benefits, this "deductible" feature enables us to give you broad coverage at a lower cost than would otherwise be possible.

Now, this low-cost plan from National Home enables you to enjoy this protection at once. Your special low rate is shown below; it is the same low premium you will continue to pay no matter how old you become or how many claims you have, unless there is a general rate adjustment, up or down, on all policies of this type in your entire state.

The added protection you NEED!

All benefits of this \$500.00-a-month plan are paid directly to you, in tax-free cash, in addition to whatever you may receive from your insurance with any other company! Use the money as you see fit—for hospital or doctor bills, mortgage or rent payments, to replace savings—or any necessary, but costly, expenses not covered by other hospital policies.

Everything costs more these days (need we tell you?) and hospital care is certainly no exception! While 7 out of 8 Americans have some hospital insurance, most have found it does not cover all bills that pile up when sickness or accident strikes. That's why National Home developed this low-cost plan that helps you pay hospital costs or other expenses.

- PAYS** \$500.00-A-MONTH CASH for each accident or illness. Coverage for accidents begins the very first day in the hospital; sickness coverage begins the sixth day in the hospital.
- PAYS** \$250.00-A-MONTH CASH FOR THE FIRST THREE MONTHS, AFTER YOU HAVE REACHED AGE 65. And a full \$500.00-A-MONTH CASH thereafter — even for life. Coverage for accidents begins the very first day in the hospital; sickness coverage begins the sixth day in the hospital.
- PAYS** \$300.00-A-MONTH CASH if a covered child is hospitalized for injury or illness. Coverage for accidents begins the very first day in the hospital; sickness coverage begins the sixth day in the hospital. And the benefits continue for as long as necessary.
- PAYS** \$2,000.00-A-MONTH CASH when both husband and wife (under age 65) are hospitalized at the same time for accidental injury for as long as both remain in the hospital—even for life, if necessary.
- PAYS** \$400.00-A-MONTH CASH for a registered nurse at home if your doctor has you hire one within five days following a covered hospital confinement of five days or more. And your benefits continue for the same number of days that you were hospitalized — up to 12 full months.

LICENSED BY THE STATE OF NORTH CAROLINA

65 OR OVER?

Send for complete information on our health plan that meets the special needs of folks 65 or over.

Use handy coupon below—No Cost—No Obligation

We can never cancel your policy!

You can count on this wonderful protection no matter how old you become or how many times you collect from us. Your policy guarantees that we can never cancel your protection for any reason whatsoever. It is Guaranteed Renewable for Life! In addition, your rates can never be changed unless there is a general rate adjustment on all policies of this type in your state. And that's not all. Suppose you have a growing family—this policy (NH10-669)...

Pays you \$300.00-a-month cash when any dependent child is hospitalized.

When you choose Coverage for Children, all your unmarried dependent children from age one month through 18 years are covered, too! What's more, any newborn children you have in the future are covered automatically at the age of one month—at no additional cost to you. And whenever any of your children go to the hospital, this National Home plan pays you at the rate of \$300.00-a-month cash, for as long as necessary. Children are covered for accidents from the first day and for sickness from the sixth day.

Pays you tax-free cash for Maternity Benefits, too.

With this plan, you can also collect cash at the rate of \$500.00 a month for every day you are confined to the hospital for pregnancy, childbirth, or even miscarriage. You get this cash, which is yours to use as you see fit, when Coverage for Children and Maternity Benefits have been added to the basic plan. Of course, both parents must be enrolled in this plan for the entire period of pregnancy.

Pays you \$400.00-a-month cash for a Registered Nurse at Home.

Here's a wonderful "get well" benefit of this National Home plan: You collect cash benefits at the rate of \$400.00 a month when your doctor has you employ a full-time registered nurse within five days after you come home, following a stay in the hospital of five days or more for which you received benefits. You are paid for the same number of covered days that you were in the hospital—even up to 12 full months!

Double Cash Accident Benefit.

When you and your insured spouse are hospitalized at the same time for an accidental injury, this National Home plan pays you an extraordinary double cash benefit. You receive not \$500.00 but \$1,000.00 a month. Your spouse receives not \$500.00 but \$1,000.00 a month. That's \$2,000.00 in all, in cash payments to you every month (when under age 65) starting the day you enter the hospital for as long as you both remain there.

Pays you up to \$2,000.00 cash for these accidental losses...

The accidental loss of limbs or eyesight can be terrible. But if such loss occurs any time within 90 days of the accident, you collect \$1,000.00 for the complete loss of a hand or a foot or the sight of an eye—and \$2,000.00 for loss of two limbs or the sight of both eyes.

Waiver of premium benefit.

THIS NATIONAL HOME PLAN WILL PAY ALL PREMIUMS that come due for you and all Covered Members of your family should you the policyowner—be hospitalized for eight consecutive weeks or more. Yes, after 8 weeks of confinement, your premiums are taken care of by us. And your protection continues just the same as if you were paying the premiums yourself. Then, if you leave the hospital and must return for the same condition before you have resumed full normal activities for 90 days, we will again pay any premiums coming due while you are in the hospital. This means you pay no premiums, yet your full protection remains in force for as long as you are in the hospital. This protection applies only when the policyowner is hospitalized.

THESE ARE THE ONLY EXCLUSIONS!

Your National Home policy covers every kind of sickness or accident except conditions caused by: act of war; any mental disease or disorder; pregnancy, except as provided under the Maternity Benefit provision; and any sickness or injury you had before the Effective Date of your policy... during the first 2 years only.

This last provision is a real help if you already have a health problem. If you are sick before you take out this policy, you will even be covered for that condition after the policy has been in effect for 2 years. Meanwhile, of course, every new condition is covered.

Nationally known and respected.

This is the kind of outstanding protection you may have seen in *Reader's Digest*, *Parents*, *National Geographic* and other leading publications. The special plans offered by the National Liberty Corporation group of companies are today helping policyowners in all 50 states — and many foreign countries — paying benefits at the rate of more than \$1,500,000.00 a month. In addition, our Company has a RECOMMENDED rating from *Best's Insurance Reports*, one of the foremost insurance authorities in the nation.

Fast, reliable claim service when needed most.

You never really know how good a policy is until you have to make a claim. That's why we think you'll be interested in what some of our National Home policyowners have to say. Their comments—quoted below—are typical of the hundreds of expressions of appreciation we receive from policyowners every week...

"I took out the policy and had only paid two monthly premiums when I was unexpectedly put in the hospital. Was there 11 days and the National Home Life Assurance Company paid exactly what they had said they would. How happy we were we had taken the policy out."

DEWEY M. FAILOR, Upper Sandusky, Ohio

"Thank you for the check in payment of my recent claim. I am well satisfied with the service. I will certainly recommend your company at every opportunity."

ALGIE M. DAVIS, Waterville, Maine

"I was more than satisfied with the way my claim was handled. One couldn't ask for better service and the 'get well soon' message was one of the nicest thoughts on your part. I thank you sincerely."

MARGUERITE LINDAU, Duluth, Minnesota

National Liberty

commended in

U.S. Congressional Record

National Liberty Corporation, parent of National Home Life Assurance Company, has been commended in the United States Congressional Record for bringing low-cost insurance to the general public: "National Liberty deserves recognition for providing service beyond the expected, service willingly offered to those who are not being cared for in other ways. This is the secret of success for its low-cost insurance plans. With the highest public interest at heart, the National Liberty Corporation group of companies combines reliability and quality of service with noteworthy price advantages. It is to be commended on its leadership and vision in this field of human welfare."

Why you must act before the date shown on your Application Form—just a few days from today.

Why do we give you so little time to enroll in this plan—only a few days? Because this is a mass Enrollment Plan, enrolling thousands of policyowners at one time. ALTHOUGH EVERY POLICY IS ISSUED THROUGH A LICENSED AGENT, ALL BUSINESS IS CONDUCTED DIRECTLY BETWEEN YOU AND THE COMPANY. No salesman will call. This highly efficient "mass enrollment" method enables us to give you the broadest coverage at the lowest cost.

As soon as we receive your Application Form we will rush your policy to you by First Class Mail. When your policy arrives, examine it in the privacy of your own home. It is a very short document and you'll be pleasantly surprised to see there is no fine print. Show it if you wish, to your doctor, lawyer, insurance agent, or some other trusted advisor.

Here are your low rates.

The following rate chart shows how little it costs to cover yourself, your spouse and any adult dependent. Naturally, at these low rates, we can issue you only one policy of this type. Each adult, 16 or over, pays the rate shown for his or her age.

Age at Enrollment	Self	Monthly Premium per Adult
16-44	\$2.95	\$2.95
45-49	\$3.40	\$3.40
50-54	\$3.75	\$3.75
55-64	\$4.35	\$4.35
All dependent children ages 0-18: \$1.55		
Maternity Benefit: \$1.15		

NOTE: The regular monthly premium shown here (for age at time of enrollment) will not automatically increase as you pass from one age bracket to the next! Once you have enrolled in this National Home plan, your rate can never be changed because of how much or how often you collect from us—or because of advanced age—but only if there is a general rate adjustment, up or down, on all policies of this type in your entire state!

Act NOW—"Later" May Be Too Late!

TIME IS PRECIOUS! Act quickly. (No salesman will call.) Get your Application Form into the mail today—because once you suffer an accident or sickness, it's TOO LATE to buy protection at any cost. That's why we urge you to act today—before anything unexpected happens.

USE THIS COUPON IF YOU ARE 65 OR OVER

Send No Money—Just Mail This Coupon To:
National Home, Valley Forge, Pa. 19481

Please send me complete information on your special health plan for folks 65 or over. I understand there is no obligation, no cost, and no salesman or agent will call.

Medical Costs Skyrocketing!

Hospital Charges are up 170%
Doctor Fees are up 80%

YOUR QUESTIONS ANSWERED ABOUT THIS NATIONAL HOME PLAN

- 1. How much will I be paid when I go to the hospital?**
You will receive cash at the rate of \$500.00 a month (\$16.67 a day). Once you have reached 65 years of age, you collect (in addition to any Medicare benefits) \$250.00 a month for the first 3 months, and \$500.00 monthly while you remain continuously hospitalized thereafter. And you collect cash for an accident even if you're in the hospital for only one day. Coverage for illness begins the sixth day — and benefits are paid in full for as long as you're hospitalized... even for life, if necessary.
- 2. When do I start to collect hospital benefits?**
This new plan (NH10-669) covers you from the very first day for accidents and from the sixth day for sickness—even for life, if necessary! Most everyone has some insurance or savings to take care of one to five-day hospital stay. Since we provide lifetime benefits, this "deductible" feature enables us to give you broad coverage at a lower cost than would otherwise be possible.
- 3. Do you pay me cash when my children go to the hospital?**
You collect cash at the rate of \$300.00 a month whenever any of your children (age 1 month through 18 years) go to the hospital—if Coverage for Children is added to the basic plan. Coverage for accidents begins on the first day—sickness on the sixth day. And if you have a growing family—as soon as any newborn child is one month old, he, too, is covered—automatically... at no additional cost.
- 4. Will you pay me cash benefits for pregnancy?**
Yes, when Coverage for Children and Maternity Benefits have been added to the basic plan. You collect cash at the rate of \$500.00 a month for pregnancy, childbirth or miscarriage that results in a hospital stay. (Both parents have to be enrolled in this plan for entire pregnancy period.)
- 5. Suppose I'm hospitalized for a long time and can't meet my premium payments?**
If you—the policyowner—are hospitalized for 8 consecutive weeks or more, this National Home plan will PAY ALL PREMIUMS that come due for you and all Covered Members of your family while you are confined to the hospital beyond the initial 8-week period. You aren't expected to pay us back, either.
- 6. Will my protection be cancelled because I have too many claims?**
No! Only you can cancel—the Company cannot—no matter how many claims you have or how old you become... or for any other reason whatsoever. A GUARANTEED RENEWABLE FOR LIFE clause has been written into your policy, and we're bound by it.
- 7. Now tell me what's the "catch"—what doesn't my policy cover?**
Get ready for a welcome surprise. Your policy covers everything except conditions caused by: act of war; any mental disease or disorder; pregnancy, except as provided under the Maternity Benefit provision; confinements within a U.S. Government hospital or a nursing or convalescent facility; and any sickness or injury you had before the Effective Date of your policy—but even this last "exclusion" is done away with after you've been a policyowner for only two years. Everything else is definitely covered.
- 8. What are the requirements to enroll in this National Home plan?**
You must not have been refused or had cancelled any health, hospital or life insurance due to reasons of health; and to qualify during this Enrollment Period—you must enroll before midnight of the date shown on the Application Form.
- 9. Besides saving money—are there any other advantages to joining this plan during this Enrollment Period?**
Yes. A very important one is that you don't need to complete a lengthy, detailed questionnaire—just the brief Application Form in the corner of this page. Also, during this Enrollment Period there are no extra requirements for eligibility, and no "waivers" or restrictive endorsements can be put on your policy!
- 10. How do I join?**
Fill out the brief Application Form and mail it with your first month's protection for your entire family. Mail to our licensed North Carolina resident agent: Mr. Ernest E. Tucker, Jr., National Home, 1301 East Morehead St., Charlotte, North Carolina 28200.

MONEY-BACK GUARANTEE

We will send your National Home policy by mail. Examine it carefully in the privacy of your own home. Show it, if you wish, to your own insurance agent, doctor, lawyer or other trusted advisor. If you decide, for any reason, that you don't want to continue as a member of this plan, return the policy within 15 days of the date you receive it, and we will promptly refund your money. Meanwhile, you will be fully protected while making your decision!

Pirates Lose Their First Doubleheader

By BERT ROSENTHAL
Associated Press Sports Writer
Fred Norman and Steve Arlin are not nearly comparable as pitchers to former Los Angeles stars Sandy Koufax and Don Drysdale, but they—and the rest of the San Diego staff—resemble the outstanding Dodger mound corps of the mid-1960's, according to Bob Miller.

Miller, a member of the Dodgers from 1963 to 1967 when Koufax and Drysdale led them to three National League pennants, and now at 32 the dean of the Padres' hurlers, made his comparison after Norman pitched a five-hitter in the opener and Arlin fired a three-hitter in the nightcap as San Diego swept a doubleheader

from Pittsburgh's slugging Pirates 2-1 and 2-0 Sunday. It was the first time this season that the Pirates—the top hitting club in the major leagues—had lost a doubleheader in five twinbills. Elsewhere in the National League, San Francisco beat Cincinnati 7-3 before losing 5-2; Atlanta defeated Los Angeles 3-

1; Montreal held off St. Louis 5-4; New York whipped Houston 7-6, and Philadelphia edged Chicago 2-1. In the American League, Chicago took two games from Washington 5-1 and 9-6; New York also won twice, thrashing Milwaukee 6-2 in 11 innings and 11-9; Kansas City and Cleveland split, the Royals winning

the opener 4-3 and the Indians taking the nightcap 2-1; California and Baltimore also divided, the Angels winning the first game 6-2 and the Orioles taking the second game 9-6 in 13 innings; Detroit beat Oakland 7-4 then lost 6-1, and Minnesota downed Boston 6-2.

Norman, a 5-8, 160-pound left-hander, who had won only two games in parts of six major league seasons with Kansas City, the Chicago Cubs, Los An-

geles and St. Louis, before being acquired by the Padres earlier this year from the Cardinals, earned his first victory of 1971 after six losses with his sparkling effort against the Pirates. He struck out five batters, including major league home run leader Willie Stargell four times. It was Norman's first complete game victory in the majors.

Leron Lee, also obtained from St. Louis earlier this season, accounted for both San Diego runs in support of Norman. He hit his third homer of the year off Bob Johnson in the third inning and doubled and scored on Clarence Gaston's single in the fifth.

Arlin, a 6-3, 195-pound right-hander who was 1-1 in two previous trials with San Diego, boosted his season's record to 5-13 with his third shutout, in the nightcap. He walked two and struck out seven.

Singles by Ollie Brown and Ed Spiezio in the second inning drove in the only runs of the game.

The Padres' two victories must have made Manager Preston Gomez feel better. Gomez, who underwent a hernia operation a week ago, returned to his post last Friday, but went home after three innings because of severe pain. He was expected back again Sunday, but was forced to remain at home and recuperate.

Bobby Bonds collected three singles and drove in two runs, while Willie McCovey also knocked in two runs as the Gi-

ants trimmed Cincinnati in their opener behind the nine-hit pitching of Gaylord Perry. Lee May's eighth-inning homer, his 25th broke a 2-2 deadlock in the nightcap and gave the Reds a split. Tony Perez whacked his 17th homer with one on in the third for Cincinnati's first two runs.

Willie Mays, the All-Star centerfielder of the Giants, did not play in either game. He was rested by Manager Charlie Fox. Despite the split, the Giants increased their NL West lead to 8½ games over Los Angeles.

The Dodgers suffered their 14th loss in 19 games, bowing to the seven-hit pitching of Atlanta's knuckleballing Phil Niekro. Ralph Garr's single, double and sacrifice fly paced the Braves to their sixth victory in seven games.

John Bateman's fourth-inning grand slam homer broke a scoreless tie and powered Mon-

treal past St. Louis. Bateman admitted he was a little leery about facing St. Louis pitcher Reggie Cleveland.

"The last time I faced him in St. Louis," said Bateman, "he threw me fastballs my first three times up and I hit him pretty well. The last time at bat, he struck me out in sliders."

Cleon Jones rapped a single, double and homer, and Ken Boswell drove in two runs with a pair of singles as the Mets defeated Houston in a loosely played game. Jones' homer was his tenth of the season and the 1,000th in Mets' history.

Ron Stone's bases-loaded single in the ninth snapped a 1-1 tie and gave the Phils their victory over Chicago. "I love pinch-hitting when I get up in the ninth with the bases loaded and none out," said Stone. "But I don't like it much when we're way behind and that's usually when they need a pinch hitter."

Ali To Fight Ellis In 12 Round Bout

By MICHAEL A. LUTZ
Associated Press Sports Writer
HOUSTON, Tex. (AP) — Muhammad Ali, the former king trying to regain his throne, and Jimmy Ellis, the former sparring partner trying to buy a tag, answer a list of intriguing questions tonight when they meet in a 12-round bout in the Astrodome.

What did the Joe Frazier fight take out of Ali? Does Ali still have enough speed? What will happen to boxing if Ali loses? Can Ellis elude Ali's deadly jab long enough to get off his lightning combinations? A live gate of 25,000-30,000 in

the Astrodome and possibly one million more watching on closed circuit television will see the answers unfold first-hand.

Although no title is at stake for this fight, it has taken on all the aspects of a championship bout, partly because of the pied-piper following of Ali, and partly because both fighters hope to use this fight to spring to another shot at Frazier's title.

Frazier represents the only blot on each fighter's heavy-weight record.

Closed circuit telecasts will be shown at 200 locations across the United States and in

Toronto and Vancouver, Canada. Satellite will carry the fight to 34 foreign countries. British and Mexican television will cover the fight live. The live gate is expected to be about \$300,000.

Ali will get 45 per cent of all income against a guarantee of \$450,000, including the closed circuit revenue. Ellis gets 20 per cent of all income. Tickets are scaled from \$75 for ring-side, to \$25 and \$10. There also are 10,000 "Ali special" seats at \$5 each to meet a request from Ali.

It will be the first fight for Ali since a June 28 U.S. Supreme Court decision reversed a five-year conviction for draft evasion and once again left him free to regain the title that was stripped from him for refusing the draft.

Ali, one of the most magnetic personalities in fight history,

lost for the first time in his 32-fight career on March 8 in a brutal contest with Frazier.

Ali has been asked constantly since opening training here, what the Frazier fight has done to him.

"Look at my face and look at his," Ali usually says. "He was messed up bad. I had a puffed jaw for a few days but it went away. He still looks bad. He had to take a hospital rest."

Ali admits his speed isn't quite what it used to be before his exile from fighting. "I'm past my prime," he said. "I know I'm in my last days."

He remembered a national magazine using a timing device to clock the speed of his punch. "It was .04 of a second," he said. "It takes .25 of a second to think about moving. You're hit before you know it." He joked that he's probably slowed down to .12 by now.

Revson, Donohue Keep It Young

By BLOYS BRITT
AP Auto Racing Writer
Peter Revson and Mark Donohue are keeping young America happy in auto racing, while Richard Petty sails blithely along toward the first \$1-million career among stock car drivers.

Revson is 32, a member of New York socialite family, and he is a bachelor. Donohue is 34, a baby-faced Brown University graduate from Media, Pa., and he runs in top-rank social circles.

Petty, 33, is a family man who lives quietly near his Petty Engineering compound in the red clay county around Randleman, N.C., but he is the senior of the other three in experience.

The handsome Revson won his second Can-Am Challenge Cup road race in a row before 75,000 Sunday at Watkins Glen, N.Y. He led all but 27 laps of an 82-lap race and collected more than \$18,000. It will help pay the taxes on the \$108,000 he was paid for a second-place finish in this year's Indianapolis 500.

Donohue not only ran the Can-Am at the Glen, but he sat on the pole for a six-hour race at the same circuit Saturday. He led that race in a Roger Penske-Ferrari until sidelined by mechanical problems.

He was also forced out of the Can-Am with a broken suspension component, but he had won five straight races going into the Glen doubleheader.

Petty, whose white-toothed smile is a constant thing in the South, won career race No. 132 at Nashville, Tenn. Saturday night. He led all but 20 laps of a 250-miler and his first-place check of \$4,025 put him within less than \$5,000 of the \$1-million career mark.

Revson drove 109 miles at the

Glen at an average speed of 128.58 miles an hour, giving the British-based Team McLaren its third victory in four starts in Can-Am competition this year. Only Scotland's Jackie Stewart has broken the team's 1971 string, winning the second event of the series at St. Jovite, Quebec, a month ago.

All-Star

The Babe Ruth All-Stars remained alive in tournament play yesterday by rallying for six runs in the bottom of the sixth to beat Columbus County 6-5. Greenville will meet Asheville today at 3:00. If they should win that game, they will meet the winner of the Kings Mountain-Concord contest tonight.

Cup Runs Over With Amateurs

By KEN ALYTA
Associated Press Sports Writer
Pinehurst, N.C. (AP) — The supply of top notch amateur golfers appears endless, despite defection to the ranks of the professionals of such people as Lanhy Wadkins and Steve Melnyk.

Annually, the college ranks contribute able replacements. One of the newest and most promising wears the Southern Amateur title to go with the national collegiate crown he won last month.

Ben Crenshaw, a shaggy-haired rising sophomore at the University of Texas, turned what loomed as a three-way battle for the Southern championship

into a virtual walkover at the Country Club of North Carolina Saturday.

He picked up two shots on the first two holes against faltering, 52-year-old Dale Morey to take a lead he never relinquished en route to a par round, his highest score in four rounds. His seven-under-par total of 281 came on rounds of 70-71-68-72.

The 19-year-old from Austin, Tex., who led the Texas team to the NCAA title, had a four-shot edge over 18-year-old Gary Koch of Temple Terrace, Fla., and the University of Florida. Morey, two-time winner of the Southern title, faded to a closing 78 for 287 and a tie for third place.

"It was the only thing to do after the mule died."

Three years back, the Hinsleys of Dora, Missouri, had a tough decision to make.

To buy a new mule. Or invest in a used bug. They weighed the two possibilities. First there was the problem of the bitter Ozark winters. Tough on a warm-blooded mule. Not so tough on an air-cooled Volkswagen.

Then, what about the eating habits of the two? Hay vs. gasoline.

As Mr. Hinsley puts it: "I get over eighty miles out of a dollar's worth of gas and I get where I want to go a lot quicker."

Then there's the road leading to their cabin. Many a mule pulling a wagon and many a conventional automobile has spent many an hour stuck in the mud.

Also, a mule needs a barn. A bug doesn't. "It sets out there all day and the paint looks near as good as the day we got it."

Finally, there was maintenance to think about. When a mule breaks down, there's only one thing to do: Shoot it.

But if and when their bug breaks down, the Hinsleys have a Volkswagen dealer only two gallons away.

Long Court Fight Over Liquor-By-The Drink Looms

By REESE HART
Associated Press Writer
RALEIGH (AP) — The legislative battle in North Carolina on liquor-by-the-drink is over for 1971, but a threatened court fight on the issue could last for months.

Wet forces won two battles during the 1971 general assembly by gaining the right to call for referendums in two counties—Moore and Mecklenburg—on the sale of liquor by the drink.

The dries were victorious by defeating two statewide bills on the mixed drink issue. So the final score was 2-2 on the liquor issue.

However, a court fight is shaping up on the Moore and Mecklenburg bills.

Coy Privette of Kannapolis, president of the Christian Action League, said today the league has raised more than \$3,000 to test the constitutionality of the two local bills.

"We feel that they are unconstitutional because the acts are local and not statewide in application," Privette said. "If necessary, we will take the case all the way to the state Supreme Court."

He said that as soon as the Mecklenburg Board of Elections calls for the referendum in that county the league will seek a court order restraining the election until the court can rule on the question of constitutionality.

As usual, there were many local bills enacted during the 1971 legislature authorizing various municipalities to hold referendums on the question of establishing ABC liquor stores.

Stassen Was Last To Lead Real Effort To Dump President

WASHINGTON (UPI) — The last time an overt effort was made to dump a vice president occurred in 1956 and the target was the present occupant of the White House — Richard M. Nixon. The move by Harold E. Stassen was resoundingly rebuffed.

Stassen, who flourished briefly as a presidential candidate in the 1940s, was serving as President Dwight D. Eisenhower's peace and disarmament adviser when he startled Republican political circles by urging publicly that Nixon be dropped in favor of Massachusetts Gov. Christian A. Herter.

In a public statement on July 23 — one month before the GOP convention — the former Minnesota governor declared that a private poll had shown him that an Eisenhower-Herter ticket would run 6 per cent stronger than with Nixon as Ike's running mate.

Stassen expressed hope that Nixon "after thinking it over in the coming weeks" would arrive at the same conclusion and give up the vice presidency to Herter.

He not only failed to convince Nixon, who maintained an aloof silence, but he couldn't even convince Herter.

One day later, Republican National Chairman Leonard W. Hall announced that Nixon and Herter had discussed the development and the vice president "authorizes me to say he is very pleased to have Gov. Herter place his name in nomination" at the San Francisco Convention.

Eisenhower made his feelings clear at an Aug. 1 news conference. He asserted that Nixon was "perfectly acceptable to me as he was in 1952."

The President declined to list names of any other running mates he would accept.

Stassen persisted in his dump-Nixon effort until the third day of the convention. On Aug. 22 — the day of the nominations — Eisenhower held an 11-minute talk with his subordinate and told a televised news conference that Stassen not only was recanting, he would like to make one of Nixon's seconding speeches.

According to the President, Stassen "has from the first stated and expressed his admiration for the vice president and he merely believes now that there is no other candidate who he believes would be strong enough."

That night at the San Francisco Cow Palace, Eisenhower was renominated without a murmur of dissent.

Herter then placed Nixon's name in nomination. Stassen went to the platform and told the delegates and the national television audience: "I rise with humility and forthrightness to second the nomination of the able and experienced Californian, Richard M. Nixon."

Stassen's move was rebuffed. Nixon was renominated without a murmur of dissent.

PARLOR GAME — A familiar parlor game being played in the nation's capital is called dump-the Vice President. The classic case in this century was when FDR abandoned Henry Wallace. During that con-

vention, placards proclaimed Wallace's popularity, but suddenly, from out of nowhere, it seems, came an outpouring of placards supporting Truman. (UPI Telephoto)

Miss Universe Says Beauty Not Enough For Women Today

By HUBERT MIZELL
Associated Press Writer
MIAMI BEACH (AP) — "Beauty isn't enough for a woman," says shapely Miss Universe 1971.

"If you lack intelligence and charm, you're a loser," Lebanon's Georgina Rizk recounted experiences Sunday that led to her crowning as successor to Puerto Rico's Marisol Malaret.

"Even an ugly woman, if feminine and gracious, can be most interesting to a man ... more interesting than a beautiful girl who lacks soul."

Miss Rizk, draped in a Kasbah dancing girl costume, won the judges votes Saturday night with her 35-24-35 figure.

Georgina has been a model since age 14. Her dream is to become a world famous cover girl.

"My work has taken me to Germany, Cyprus, Italy, Belgium and Kuwait," said the 18-year-old. "I hope to do my

work good as Miss Universe and see the rest of the world."

The work begins with visits to New York, the Bahamas, Puerto Rico and Brazil during the next few weeks.

"I have a boyfriend, Philippe Duce, back in Beirut," she said. "He may not be so happy since I will be away for most of the next year. Yes, he's a little bit jealous."

Duce, a Frenchman, is a university chemistry student.

Her rewards as Miss Universe include a \$10,000 in cash and a \$5,000 mink coat.

"All this will change my life—for one year," the 5-foot-7 beauty said. "Then, I'll come at least part of the way down to earth again."

Toni Rayward of Australia was first runnerup, followed among five finalists by Pirjo Laitila of Finland, Beba Franco of Puerto Rico and Eliane Parreira Guimaraes of Brazil.

Cherri Cregue of the Virgin Islands became the first black

GOREN ON BRIDGE

BY CHARLES H. GOREN

(© 1971: By The Chicago Tribune)

BRIDGE QUIZ ANSWERS

Q. 1—Neither vulnerable, as

South you hold:

♠A2 ♥KJ732 ♦A36 ♠A102

Partner opens with one

spade. What is your re-

sponse?

A.—Two hearts. With one point

more this hand would be a man-

datory jump shift (which calls

for 19 points). Since you have no

special support in partner's suit,

nor a good suit of your own, we

recommend an unaccelerated

pace. There will be time enough

to display your charms.

Q. 2—Both vulnerable, both

sides have a 40 part score

and as South you hold:

♠AQ62 ♥A1053 ♦KJ7 ♠A94

The bidding has proceeded:

South West North East

1 ♠ Pass 2 ♠ 3 ♦

?

What do you bid now?

A.—Double. You have at least

four tricks to contribute to the

defense with a fair chance for the

fifth. If partner's raise includes

high cards, the penalty should be

substantial. If partner's assets

are principally distributional, he

will carry on to three spades to

complete the game.

Q. 3—Both vulnerable and

as South you hold:

♠AQ1086 ♥AK962 ♦84 ♠2

The bidding has proceeded:

South West North East

1 ♠ Pass 2 ♠ 3 ♦

?

What do you bid now?

A.—Pass. Since partner has

acknowledged holding a worth-

less hand, a bid of two hearts

would be an unsound risk. The

chances of a game are much too

remote to justify courting a

sizable penalty.

Q. 4—Neither vulnerable

and as South you hold:

♠QJ64 ♥A53 ♦A103 ♠A104

The bidding has proceeded:

West North East South

1 ♠ Pass 2 ♠ 3 ♦

?

What do you bid?

A.—Pass. Despite your 15 points

there is no action that you can

take with safety. The distribu-

tion is all against you for

offensive purposes and your best

chance of a profit lies in the

hope that the opposition will be

tired into carrying on the

bidding.

Q. 5—As South vulnerable,

you hold:

♠AQ64 ♥K3 ♦K4 ♠AK108

The bidding has proceeded:

IN COLOR A PARAMOUNT PICTURE

God apparently clothed all other creatures except mankind with fur or feathers to ward off the direct sunlight from their skin.

But the Almighty then figured we'd use our superior human brain to imitate the fur or feathers of other creatures and thus use wool, cotton, linen, nylon or silk to protect our epidermis.

Moreover, the nude body is more subject to insect bites, including those of the malaria-causing mosquitoes.

Bare skin also gets scratched more readily and this invites additional infection.

(2) Nudism is usually promoted by semi-platonic men who wish to disguise their sensual interest in naked women under the ruse of health.

Actually, however, nude bodies are not as sexually exciting to the human male as semi-nudes.

For the old adage is psychologically correct that states:

"Anticipation is greater than realization."

At burlesque shows, it is thus the act of disrobing which excites the male audience more than the final nude figures of the actresses!

Men are far more interested in disrobing their girl companions than in starting with a naked female, for the zest of conquest enters into such romantic preludes.

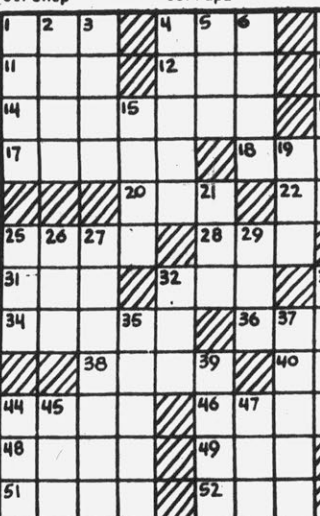

Women are also not inclined to fondle their male escorts or try to disrobe them as vice versa. Why?

Because the human female identified sex with love and thus

Sheep Sheared By Hand

GAINESVILLE, Fla. (AP) — Prof. Phil Loggins gave 40 sheep a new pill and 11 days later he sheared the block with his bare hands.

The key to the no-shears defleecing method is an experimental drug, said the University of Florida animal bush-andry professor.

"The drug cyclophosphamide, temporarily stops cell growth in the bulk of each wool fiber, causing it to break easily at the skinline," Loggins said. "Any

one grabs a handful of wool and rolls their wrist along the skin 10 to 12 days after the sheep has taken the drug can strip it as naked as the human body."

Loggins said the synthetic drug was discovered several years ago by German scientists involved in cancer research.

Loggins said it will be marketed by Bristol Laboratories as soon as the U.S. Food and Drug Administration certifies it safe.

"The drug won't be expensive and using it will be cheaper than hiring a professional shearer," he said.

Chinese 'Barefoot Doctors' Fill Professional Gap

EDITOR'S NOTE: Despite its undoubted swift advances in many areas of modern science, Communist China has lagged in providing medical care of its millions. Now it is making an effort to correct this—by new means and old. The program is described in this dispatch by an American who has worked in Peking for many years as a translator. He wrote it during a visit to Hong Kong just after he toured the commune described

here and talked with its doctors and students.
By JULIAN SCHUMAN
Written For
United Press International
HONG KONG (UPI)—China's "new medicine" is making it possible for the nation's 600 million peasants to have medical treatment never available before.
The cost is less than 50 U.S. cents a year.
This "new medicine" is a combination of traditional Chinese techniques practiced over the centuries, such as acupuncture, and modern Western medical practices. Herbs used as popular remedies in the days of Confucius, more than 2,500 years ago, are being dispensed

along with the latest antibiotics by a new breed of practitioners called "Barefoot Doctors."
"Barefoot Doctors" is the common term applied to medical personnel working outside the cities. It originated during the cultural revolution when Communist Party Chairman Mao Tse-Tung decreed, "in medical and health work, put the stress on rural areas."
The "Barefoot Doctors" for the most part are peasants who are being given short, crash courses in rudimentary medical techniques and intensive on-the-job training with an experienced regular doctor.
Probably no doctor in China has trained more "Barefoot doctors" than Dr. Huang Yu-

Hsiang, although he is only 28 years old.
When I visited Shanghai recently, I crossed the Huang Pu (Whangpoo) River to call on him and talk to some of the "Barefoot Doctors" he is training in the Chiangchen Commune. Huang was born in the Chiangchen District, Chuan-sha County, on the southern outskirts of Shanghai. When he was only 15 and just out of junior high school, he left to attend a special five-year course in medical training.
In 1963, when he was 20, Huang returned to Chiangchen Commune which today has 7,000 households consisting of about 30,000 persons.
Although he made national headlines in 1968 for his work in training "Barefoot Doctors," Huang was unhappy and disillusioned when he first returned to the commune. He was afflicted with what some call "big city fever."

Shuijai-Ling, a 1960 graduate of the Shanghai Medical College. He is putting in a five-year stint at the commune's 40-bed hospital.
Shui took me to the commune hospital where I saw a modern X-ray machine and fluoroscope, new dental equipment, a machine for drying herbs and surgical instruments, all made in Shanghai.
All commune members, he explained, belong to the new National Cooperative Medical System which costs one yuan (about 42 U.S. cents) a year. The hospital registration fee is one-tenth of one yuan or just over four U.S. cents.
At the brigade clinic I talked with Miss Jin Jun-Di, a 22-year-old "Barefoot doctor" working

with another of the regular doctors in the hospital. In addition to diagnosing and treating infections of the respiratory system and digestive tract, part of her job is preventive work—keeping well water clean, giving injections and controlling mosquitos. Like "Barefoot Doctors" everywhere, she has learned acupuncture.
EDITOR'S NOTE: (Acupuncture is an ancient method of inserting needles into a patient's nerve centers to relieve pain. Western medicine holds it to be quackery.)
After on-the-job training in the commune with doctors such as Huang and Shui, Miss Jin and other trainees are sent off to spend a few months in a

larger county or city hospital once every two years. Depending on the abilities they show, they are chosen to specialize in different branches, such as surgery, traditional medicine or acupuncture.
In addition to the 48 "Barefoot Doctors" remaining in the commune for training at present, the commune has 10 doctors from the city, 160 medical workers, 21 herbal pharmacists and a mobile medical team from a Shanghai hospital that travels around the commune for a year.
So far as medical treatment is concerned, Chiangchen Commune peasants are obviously better off than those in most of the other estimated 26,000

communes throughout China. But the aim of Huang, Shui and other practitioners of China's "new medicine" is to bring the entire countryside to at least that level or higher.
Shui said that before 1968 it was difficult to find doctors willing to leave the cities and work in the rural areas. But he noted that four of every five Chinese live in the countryside and said it is vital for them to have more access to medical workers with at least a rudimentary knowledge of first aid, diagnosis and treatment for serious illnesses.
The desire to fulfill this need more quickly is the reasoning behind the campaign to train "Barefoot Doctors" and promote China's "New Medicine."

Tobacco TIPS

By S. J. WEEKS
During the past few years brown spot, a tobacco leaf disease, has been a serious problem to tobacco farmers. Brown spot is a widespread and well established disease that occurs to some extent every year. Damage caused by this disease is unpredictable because its severity is controlled by weather conditions, soil type, and certain cultural practices. Severe attacks of brown spot often destroy a high percentage of leaf area causing poor quality cured leaf. A heavy infestation can greatly reduce the value of the crop.
Brown spot is caused by fungus. The brown spot fungus produces enormous number of tiny spores or seeds that are easily spread by both wind and water. When temperature and moisture conditions are favorable, the spores germinate soon after coming in contact with the tobacco plant. Infection occurs most readily when the leaves are wet. Tobacco leaf tissues invaded by the fungus are killed causing brown spots to form. Spores are produced in abundance on the surface of the brown spot lesions. These, formed late in the growing season, live over winter in the tobacco crop refuse and cause the disease again the following year.
A study made several years ago on the effect of variety on the development of brown spot revealed that there was no variety available that was resistant to the disease. However, there is some difference in varieties with regard to damage caused by the brown spot fungus. It has also been observed that when heavy rates of nitrogen were used in producing the crop, the occurrence of brown spot was much more severe than when normal rates of nitrogen were used. Generally, brown spot appears to be more severe in fields where nematodes are causing damage, and in fields where water has caused a semi-drowned condition of the plant.
The brown spot organism lives from one season to another. By destroying crop refuse immediately after harvest, many of the brown spot spores will be killed. Therefore, a good practice to follow is to cut the tobacco stalks soon after the harvest is completed. Then disc or plow the stalks in.
The brown spot disease control can be helped by crop rotation. Only crops that are resistant to at least one kind of nematode, and do not leave objectionable residues in the soil for the next crop of tobacco should be used. Such crops are corn, cotton, small grains, small grains followed by weeds, weeds alone, fescue, milo, and millet. All these are suitable to be included in a tobacco rotation.
If brown spot is in your tobacco field now the severity of attack in the upper leaves may be reduced by pruning off the lower leaves as soon as possible after the disease appears.

Indians Staged Bloodless Feuds
LOS ANGELES (UPI) — Although family feuds in America are generally believed to have been centered in the Ozarks, a history of Southern California shows that Indian tribes there had feuds between families and tribes long before the Spanish came.
But instead of shooting one another the Indians staged a war of songs. The songs would contain the most indecent and obscene language the Indians could muster. During theme, the Indians would stamp on the ground to show how they would delight in trampling on the graves of their enemies.

Farm Scene

By LEROY JAMES
The outlook for soybeans this fall is very bright. The price today is \$3.36 per bushel, which compares with about \$2.60 last year. Fall beans may be contracted now for \$3.10 per bushel.
Pitt County has a good crop of about 27,000 acres of soybeans started; however it is very important to follow good weed and insect control practices to insure maximum yields.
Weeds in soybeans can cause serious reduction in your yields. Research has shown that just one pigweed plant in every 40 inches of row can reduce the yield by seven bushels per acre. One cocklebur in 20 feet of row has reduced the yield of soybeans four bushels per acre. Herbicides are now available which give season-long control of annual grasses and most broadleaf weeds.
Many insects may attack soybeans. Look at your plant closely. Insects may damage the foliage and blooms as well as the pods. Some of the most damaging insect pests are: corn

earworms, bean leaf beetles, Mexican bean beetles, Armyworms, Japanese beetles, spotted cucumber beetles, and velvetbean caterpillars. Most of these insects can be controlled by using Sevin or Malathion.
A 60-Bushel Club was begun by the North Carolina Soybean Association three years ago. Any person who produces three acres or more of soybeans is eligible to join. Participants are not restricted as to variety, fertilizer used, or other cultural practices, except that a copy of the soil test analysis report, and a brief summary of cultural practices will be required. If you have reduced the yield of soybeans four bushels per acre, you should notify in writing the County Soybean Committee, P. O. Box 1427, Greenville, N.C. 27834 by October 1, 1971.
If you need further information on soybean production call or come by the County Agricultural Extension Office at 203 W. Third Street, or call 758-1196.

Kentucky Buys Historic Home

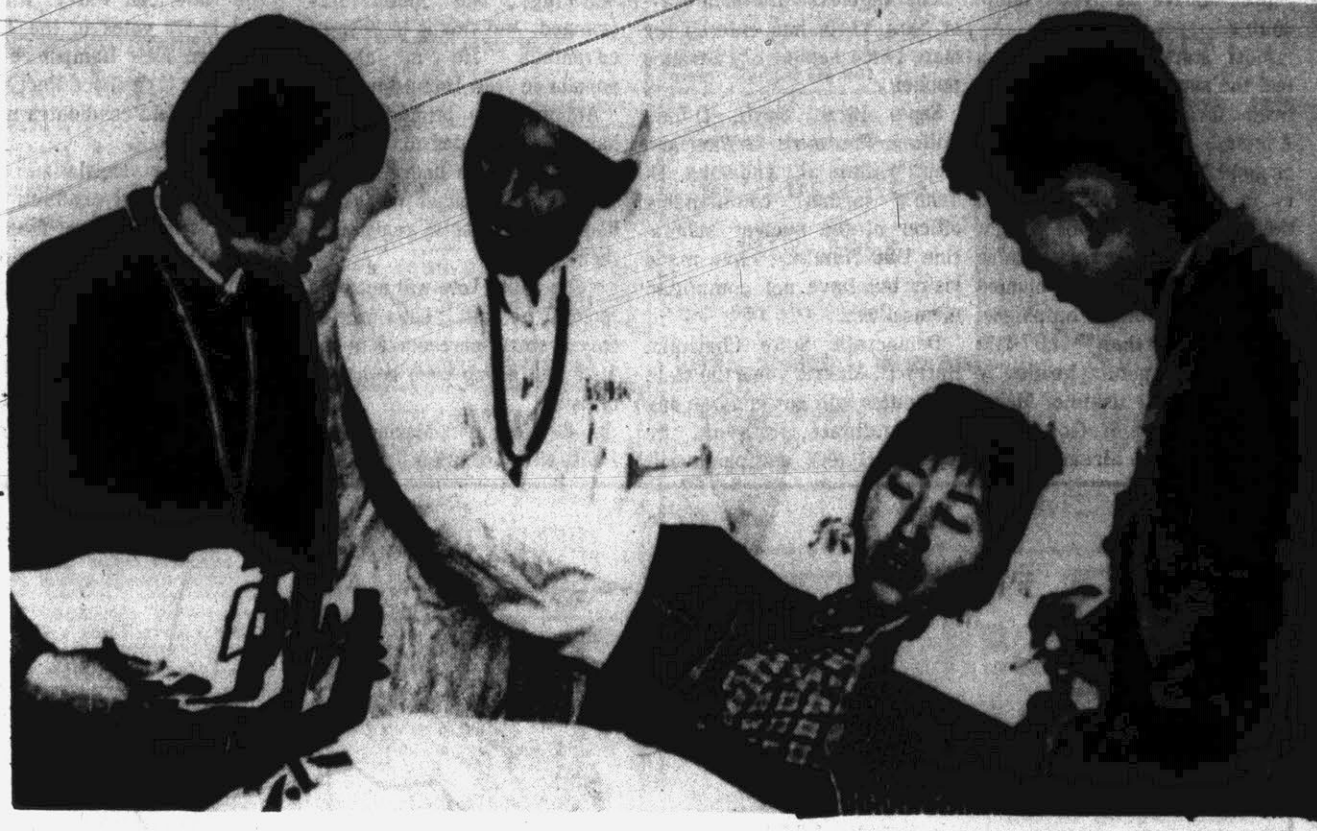

FRANKFORT, Ky. (UPI) — The State of Kentucky has purchased the girlhood home of Mary Todd Lincoln, wife of President Abraham Lincoln, for a state shrine.
The house in downtown Lexington, Ky., will be dismantled and reconstructed at Waveland, a state museum near Lexington.

When I visited Huang he introduced me to nine of the 48 "Barefoot Doctors" currently undergoing training in the commune. Two or three work in each of the commune's 21 production brigades.
None of the five young men and four young women I talked with was without shoes, incidentally.
Trainees, Huang said, should have at least a primary school education. After several months of practice, but no less than six, they can diagnose and treat common illnesses using either Western or traditional methods. Practice includes making the rounds with trained doctors stationed in the commune, such as Huang, and learning from them.
For instance, when Huang discovered a case of chronic heart trouble in one of the peasants, he took along Miss Wang Kuei-Lan. He let Miss Wang listen to the heartbeat through the stethoscope and check other symptoms. Huang then went through the same process himself, explaining to his trainee "Barefoot Doctor" what she had done wrong and correcting her diagnosis and prescription.
According to Huang, Miss Wang today is able to detect and prescribe for heart ailments and many other fairly complicated illnesses.
One of the other experienced doctors with whom the trainee "Barefoot Doctors" make the rounds and do clinical work is

Rarest Nuclear Particle Found

BERKELEY, Calif. (UPI) — The rarest and most elusive of the nuclear particles has been discovered by physicists at the University of California's Lawrence Radiation Laboratory.
The particle is the anti-omega-minus-baryon, which has been the subject of a continuing hunt in the international high energy physics community for more than six years.
The successful search involved the examination of more than half a million photographs of nuclear interaction.

Says Community College System Leads Attack

FAYETTEVILLE, N.C. (AP) — State Republican Chairman Jim Holshouser says the community college system is "the front line attack on North Carolina's greatest problem, low per capita income."
"Our community college system is the cornerstone on which the lives of North Carolina's working men and women can

be most directly improved," Holshouser said Sunday.
He spoke at the summer session of the North Carolina Education Association's Division of Community Colleges and Technical Institutes at Methodist College.
Holshouser, state representative from Watauga County, said every effort must be made to avoid allowing the community college curriculum "to deteriorate into hobbies, crafts and other so-called 'enrichment' courses."

BENLATE®

A New and Unique Fungicide for Peanut Leaf Spot Control

Here's the difference BENLATE can make in your disease control program.

Systemic . . . BENLATE penetrates plant tissue where rain won't wash it off.

Longer Protection . . . BENLATE applied every 14 to 21 days gives effective leaf spot control even in bad weather.

Proven . . . During four years of field testing, BENLATE has proven effective by growers and State Agricultural Experiment Stations.

Extends Harvest . . . BENLATE keeps plants healthier longer, more pods mature—healthy plants allow extended harvests. Even when optimum harvest time is delayed due to adverse weather conditions, yields are maintained in comparison to standard programs.

BENLATE makes the difference with as little as ½ to 1 ½ pound (6 to 8 oz.) per acre.

For more information, ask your dealer for an Agricultural Bulletin on BENLATE.

With any chemical follow labeling instructions and warnings carefully.

Florida Tried, But First Primary Remains In N.H.

By GERALD MCMANUS
CONCORD, N.H. (UPI) — New Hampshire, aided by a bit of legislative nimbleness and 20 years of tradition, is still the first high hurdle in the long run to the presidency. Sorry, Florida.

Florida set a March 14 primary date to coincide with New Hampshire's. But New Hampshire, whose legislature adjourned later, quickly advanced its primary to March 7.

"It's nice to be Number One," said one legislator, "but the candidates would have come anyway. The Florida population simply is not as representative as New Hampshire's."

Most state political leaders feel the same, although Republican former Gov. Sherman Adams, who created the original New Hampshire primary in 1952 and masterminded the state campaign of Dwight D. Eisenhower, says its value has been overrated and blunted by lavish spending campaigns.

No fewer than six 1972 Democratic hopefuls, headed by Sens. Edmund Muskie of Maine and George S. McGovern of South Dakota, already have toured the New Hampshire landscape.

McGovern, the only announced Democratic candidate, promised to end the Vietnam War "within weeks," then approached rural residents in a whirlwind second visit with attacks on welfare bills, defense spending and unemployment.

Muskie, still unannounced but the acknowledged frontrunner, confined his three visits to bigger Southern cities, but has the support of 40 top state Democrats, including the backers last time of former Sen. Eugene McCarthy of Minnesota.

Los Angeles' third-term Mayor Sam Yorty has entered the state twice behind big advance publicity.

Sens. Birch Bayh, D-Ind., William Proxmire, D-Wis., and Rep. William R. Anderson, D-Tenn., former commanding officer of the nuclear submarine USS Nautilus, have made visits but have not committed themselves.

Democratic State Chairman Harry P. Makris vows the state committee will not endorse any one candidate, to avoid the disastrous 1968 campaign rift when the committee gave Lyndon B. Johnson its backing.

"McCarthy won the bulk of delegate votes to the 1968 Democratic National Convention in a primary victory that rewrote political primers.

But Makris said there is not enough of a gap to exploit between President Nixon and those who seek the presidency.

"The war, the way it is going today, will not even be an issue in 1972," he said.

"Don't look for another Children's Crusade in 1972," said Republican State Chairman Robert E. Whelan. "There are no riots, burning or bombing. The mood has changed, and this is to Nixon's advantage. He is always popular in New Hampshire."

Although the primary ballot has been extended to 40,000 in New Hampshire under age 21, Whelan said neither party has had any success in registering them.

"The youth vote will not be a factor," he said. "Let's face it, only a small percentage in the 21-26 age group even bother to register."

A 43-year-old ex-Marine, Rep. Paul N. McCloskey, R-Calif., contends the President will continue the war until November, 1972, and said he intends to challenge Nixon in the New Hampshire primary.

With a minimum of fanfare, and no visible support from state political chieftains, McCloskey has talked informally with groups of students and promised to drop the gauntlet only with what he considers a satisfactory resolution of the prisoner of war issue.

California Gov. Ronald Reagan and New York Mayor John V. Lindsay, both Republicans, each has made one appearance in New Hampshire.

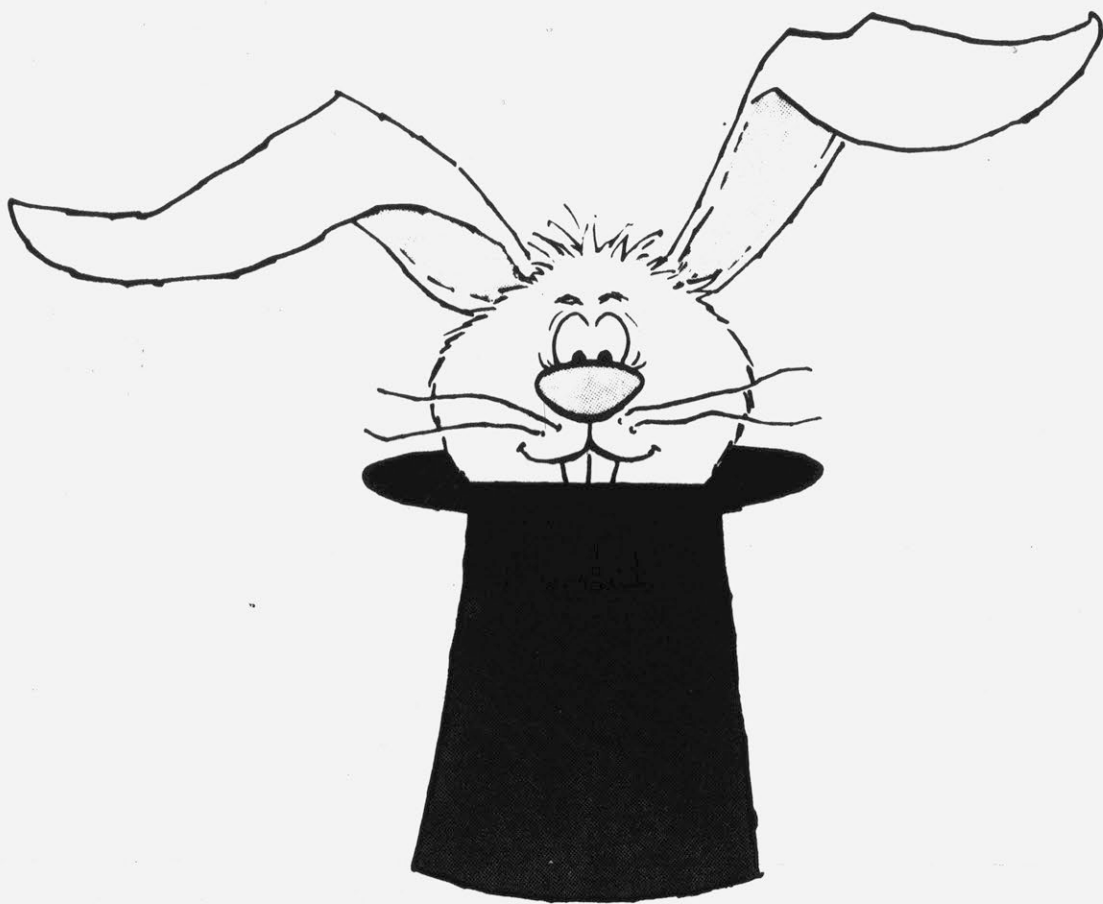

The American Party, which polled 11,173 votes in the 1968 election in New Hampshire as the George C. Wallace Party, is eligible to field candidates next March.

Under new legislation, all candidates must produce 500 signatures from each of the two congressional districts and a \$500 filing fee. The state hopes "crank candidates" will be fewer.

Republicans will send 14 delegates—each with one vote—to the Republican National Convention.

Reflector Classified

Dial Reflector Classified 752-6166

There's no hokus pokus about Reflector Classified Ads!

Sure . . . it seems like "magic" when you can turn an extra bedroom suite into living room drapes . . . your old refrigerator into a new spring suit . . . sporting equipment into power tools . . . outgrown bicycles and toys into a musical instrument. But, Classified Ads have been doing just that every day for hundreds of people. They find cash buyers for good things you no longer want, too, so you have extra money for things you now desire.

Try working some Classified "magic" yourself. Take a tour through your home and write down everything you see that would be worth cash to someone else, but that you no longer use . . . then dial 752-6166 and give your list to the friendly Ad Writer who answers. She'll help you word your ad for quickest results. And, here's good news. A **three** line ad is just **68c** per day on the special **7** day rate.

Don't delay! Put the "magic" power of **Reflector Classified Ads** to work bringing you extra money for better living today.

NOTICE
In The General Court Of Justice
District Court Division
North Carolina
Pitt County
IN THE MATTER OF: THE ABANDONMENT OF TERESA ANN MORRIS AND EDWARD ALLEN MORRIS
TO EDGAR MCCALL MORRIS:
Take notice that a pleading seeking relief against you has been filed in the above entitled action. The nature of the relief being sought is as follows: To declare the said Teresa Ann Morris and Edward Allen Morris to be abandoned children.
You are required to make defense to such pleading not later than August 30, 1971, and upon your failure to do so the party seeking service against you will apply to the Court for the relief sought.
This 15th day of July, 1971.
C. W. Everett, Jr.
Attorney for
June Page Malloy
Box 1220
Greenville, North Carolina
July 19, 26; August 2

NOTICE
SEABOARD COAST LINE RAILROAD COMPANY, through the undersigned hereby gives notice that it will, in not less than 10 days nor more than 20 days from the date of this notice, file formal application with the North Carolina Utilities Commission for authority to implement a mobile agency concept on a six-month trial basis, operating out of Goldsboro, North Carolina, and serving the following agency and non-agency stations in North Carolina:
AGENCY STATION
Fremont-Pikeville
Winterville
Ayden
Grifton
Faison
Mount Olive
Loxco
Darg
Nocar
Farmex
Ripaco
Nufarms
Calypso
Dudley
The Public is hereby advised that the implementation of this concept will result in the following changes in agency service:
(1) Agency service will be provided from a mobile van and there will no longer be an agent of Seaboard Coast Line Railroad Company on duty in the railroad station at the above points; and
(2) The buildings at the above stations will not be open to the public during any hours of the day.
Anyone desiring to protest the implementation of this concept should advise the Chairman of the North Carolina Utilities Commission, P.O. Box 991, Raleigh, North Carolina.
Richard D. Sanborn, Jr.
Assistant to
Vice President &
General Counsel

A 'Magic Time' For The Choreographer

Obituaries

Kennedy

Mr. Moses Kennedy of 611 Ford St., Greenville died Friday evening in Pitt Memorial Hospital after a lingering illness. Funeral arrangements are incomplete.

Young

WASHINGTON, D.C. — Mrs. Archie Lee Worthington Young of 933 L Street NW died Sunday at George Washington University Hospital after an extended illness.

A former Winterville resident, she was the daughter of the late Willie H. and Mrs. Queenie Mills Worthington. Funeral arrangements are incomplete at the Frazier Funeral Home here.

Wilson

Mr. Mac Wilson died Sunday morning in Pitt Memorial Hospital Sunday morning after a lingering illness. Funeral arrangements are incomplete.

Gibson

Mr. W. P. (Bill) Gibson, 66, died in Pitt Memorial Hospital Sunday afternoon at 1:25. He had been in failing health for several years and two weeks of critical illness. Funeral services will be conducted at 3:30 Tuesday afternoon at the Wilkerson Funeral Chapel by his pastor, the Rev. Al Davis, and the Rev. Harvey Morris of Lumberton. Burial will be in Pinewood Memorial Park.

Mr. Gibson was born and spent all his life in Pitt County and had made his home in Greenville for the past 30 years. He was a member of the Trinity Free Will Baptist Church and was employed by the Greenville Utilities Commission.

Dunn

Mrs. Emily Staton Dunn, 72, widow of Rufus W. Dunn, died in the Pitt Memorial Hospital at 12:30 Sunday morning following two years of illness. Funeral services were conducted Monday afternoon at three o'clock at the Wilkerson Funeral Chapel by Mr. Hugh E. Jarrett, her pastor, and burial in Greenwood Cemetery.

Mrs. Dunn, a native of Pitt County, had spent most of her adult life in Greenville and was a member of Mount Pleasant Christian Church. She was a member of the Witha Council No. 42, Degree of Pochontas.

Surviving are two daughters, Mrs. Howard G. Allen and Mrs. Roy T. Moore, both of Greenville; two sisters, Mrs. Huldah Murphy of Greenville and Mrs. Helena S. Worrell of Fort Pierce, Fla.; eight grandchildren; two great grandchildren.

Sutton

Mr. Ola Sutton Jr., 39, was instantly killed Sunday when struck by lightning while fishing from a pier near Swan Quarter. Funeral services will be conducted at two o'clock Tuesday afternoon in the Wilkerson Funeral Chapel by the Rev. R. W. Tedder, pastor of the Greenville Church of God, and Mr. Leon Morris, of the Salvation Army. Burial will be in Pinewood Memorial Park.

Mr. Sutton was a native of Pitt County and was a resident of 507 Perkins Ave. He had formerly worked as a tree trimmer and had recently been employed by the Greenville Street Department.

Surviving are his wife, Mrs. Lillian Nelson Sutton; his mother, Mrs. Emmie Sutton of Greenville; four brothers, Noah D., Heber L., Joseph Lee, and Henry Sutton, all of Greenville;

and three sisters, Mrs. Carl Henry Jackson, Mrs. Joseph Cherry, and Mrs. William L. Dixon, all of Greenville.

Guards Held By Inmates

NEW ORLEANS, La. (AP) — Two black prison guards were taken hostage today by 30 inmates including some Black Panthers now on trial for attempted murder of five policemen.

The hostages were taken in protest of conditions at the 42-year-old Parish Prison, officials at the prison said. The prisoners overcame the guards with homemade knives and weapons, the officials said. The inmates said the guards would be killed if officers rushed the area where they were being held, officials said. The prisoners asked to meet personally with Sheriff Louis A. Hyed Jr., Mayor Moon Landrieu and the Panthers' attorneys.

A force of armed officers took up posts around the prison but there were no apparent efforts to close in on the area where the guards were being held.

Twelve Black Panthers, nine men and three women, are on trial in Criminal District Court, accused of attempting to kill five policemen in a shootout at the Desire Street Housing Project last September.

Their trial began July 8 before Criminal District Court Judge Israel M. Augustine Jr., the only black in the city criminal courts. Efforts to complete the jury were to resume today after a 10th juror was selected during the weekend sessions.

'Every Defeat' Said Damaging

VALLEJO, Calif. (AP) — The new president of the Sierra Club says that while the conservationist movement is making substantial progress is saving the environment, every defeat can result in permanent damage.

"The other side can lose and still achieve a turnaround," Solano County Superior Court Judge Raymond J. Sherwin said Sunday.

"If we lose, it's gone." The 55-year-old judge became president last May of the 130,000 member club.

"There is no purpose in protecting parks and wilderness if our children, and even ourselves, will not survive to enjoy them," Sherwin said.

By JERRY RAYNOR
Reflector Staff Writer

Her expressive eyes eloquently express enthusiasm when the topic is dancing. Mavis Ray, for several years choreographer for the East Carolina Summer Theater productions, is experiencing a whirlwind of activity this summer as she plans, trains her dancers, and polishes each sequence for dance numbers in five musicals.

At a press conference on campus last Friday, Miss Ray gave some indication of what goes into creating the superb dancing summer theater patrons have been witnessing this summer and in summers past at McGinnis.

"It's a magic time," the choreographer said. "You have only your plot, your music to guide you. From that point you create the dances. You really can't plan too far ahead."

Tonight Gershwin's 40 year old stage musical, "Girl Crazy" opens at McGinnis. Like "Mame", which closed after the Saturday performance, and "Oliver", the first musical of this summer's offering, "Girl Crazy" features a number of lively dances.

When asked about creating dances for "Girl Crazy," Miss Ray remarked "because it's something of a period piece, there are certain challenges it offers."

"I'm fortunate," she continued "in having excellent dancers to work with. Many of the dancers are members of the North Carolina School of the Arts (in Winston-Salem). Some are my own dance students."

The professional choreographer has nothing but praise for the young dancers from the School of the Arts. "The School of the Arts has done a great deal for this state," she said. "Their dancers are well trained, both in classical and modern dance techniques."

When asked to comment on the best choreographers, Miss Ray smiled and remarked "it is difficult to pick one as the best. 'I do think Agnes de Mille and Jerome Robbins have made some great contributions to American dance.'"

The London native has had a solid background of experience before coming to East Carolina University in 1964. She was a member of the New York City Ballet, and later was with the Agnes de Mille Dance Theater.

Among the outstanding musicals she has worked in are "Oklahoma," "Carousel," "Brigadoon," "Kiss Me Kate," "Kismet," and "The King and I."

Mention was made of the physical limitations she copes with at McGinnis, particularly a woefully inadequate wing space. "I just plan the dances, pray a little and keep working," she commented about working with this problem.

On the state of dancing in America today, Miss Ray notes that in recent years "there's been a tremendous increase of interest in dancing, both modern and ballet."

"When I first came to America, there were about five major cities with respectable dance groups. Now," she added, "there are dozens of excellent ones."

The trim choreographer pointed out that dancing is hard work. "Ballet teaches a regimen

comparable to any sport," she remarked. "Members of Karate teams, swim teams and football players are now making use of dance training to improve their skill and coordination."

Tonight, when the young dancers appear on stage and carry out the intricate routines as if it were all a matter of effortless magic, you can rest assured that hard work and the guiding touch of Mavis Ray is responsible for the beauty and vigor of the Summer Theater dance numbers.

Spacewalk Will Be Necessary

By PAUL RECER

AP Aerospace Writer
SPACE CENTER, HOUSTON (AP) — A Russian named Alexi Leonov started it all in 1964 when he stepped into weightless space and twisted and turned and flipped with an effortless, abandoned joy.

Films of the cosmonaut cavorting freely, without the restraint of gravity, fascinated the world.

An American joined the game months later.

On Gemini 4, in March 1965, astronaut Edwin H. White stepped out of his spacecraft and floated free, restrained only by a tether and a hose feeding oxygen into his space suit.

For 21 minutes White frolicked like a child. And when it was over, he returned reluctantly to the spacecraft. "Aw, gee," he said, "this is the saddest moment of my life." That was the last of the fun space walks.

Officials realized that if man was to conquer space astronauts had to be able to do useful work there.

It has taken six years, but the day of a useful, necessary space walk arrives Aug. 5 during Apollo 15.

Astronaut Alfred M. Worden, command module pilot for Apollo 15, will leave the command ship, scramble along handrails to the service module and remove film from a set of cameras.

The film must be retrieved by a space walk because the service module cannot be

brought back to earth. It is jettisoned just before the command ship enters the atmosphere.

Between White's joyful gambol and Worden's serious job, useful space walking emerged as one of the most critical and puzzling problems U.S. astronauts and engineers had to conquer.

The first sobering lesson on space walking came during Gemini 9.

Astronaut Eugene Cernan showed that simple tasks can become monumental difficulties in space.

Cernan worked so hard trying to attack a tether to an unmanned rocket that his body heat overcame the cooling power of his space suit.

The astronaut later explained that because there was no gravity it was impossible to stay in one place.

Highest Award To Earl Warren

BELGRADE (AP) — The fifth World Conference of World Peace Through Law has given its highest honor, the World Jurist Award, to Earl Warren, former U.S. chief justice.

Warren was cited at the conference's closing session Saturday for "landmark decisions upholding human rights" and "untiring support of the cause of establishing the rule of law as the basis for a peaceful world with justice."

Bright Fall In Women's Wear

NEW YORK (UPI)—Color it clear and bright for fall.

So says Jerry Silverman, women's wear manufacturer. "We're back in the bright again," said Silverman's head designer, Shannon Rogers, "and won't women love it. Funky colors really pleased neither the designers nor women. Our fall colors are paintbox clear—clear reds, clear yellows, clear blues. Even the grays and beiges are clean, light-filtered."

Would you work for you?

Your company is solid, but it takes a lot of time and attention to keep it competitive. To keep from losing your best people to firms with fatter fringes.

GET YOUR CONTACT LENSES NOW FOR BACK-TO-SCHOOL

If you are thinking about CONTACT LENSES to start this school year, now is the time to make your appointment! The ideal situation is to allow four to five weeks for your doctor's eye examination, your contact lens fitting, and follow-up visits or check-ups. This is normal time required for your wearing time to progress properly so that you adapt to your new contact lenses before going off to school. Don't put it off. . . . Call your eye doctor for an appointment and ask him about the many advantages of contact lenses. If your doctor recommends contact lenses or eye glasses, bring your prescription to us for prompt, accurate service!

72 x 104 or
TWIN FITTED

288 OUR REG. 3.47
81 x 104 or
FULL FITTED

Bright white polyester cotton muslin sheets have a no-iron finish that sheds wrinkles. They iron themselves in the wash, on your bed. First quality for longer wear.
