

Gas Rate Increase Is Passed Along To Greenville Users

By ALVIN TAYLOR
Reflector Managing Editor
Utilities commissioners approved a gas rate increase averaging approximately four percent, effective Dec. 15, to offset an increase in rates passed on to the commission by North Carolina Natural Gas Corp.

N. C. Natural Gas had its rates increased a similar amount by Transcontinental Gas Pipe Line Corp. which is its supplier.
The action was taken upon recommendation of the Utilities consulting engineers for gas, Heath and Associates. Heath in a letter to the commission recommended that rates be increased by 0.6 cents per hundred cubic feet in all steps, with the monthly minimum remaining at \$1.50.
The firm said the proposed rates represent a four percent increase in cost of gas. This was said to be the same increase which has been passed along to the Utilities. Local natural gas supplies come from western gas wells

and they are sent across the continent via pipeline.
Commissioners last night also passed a resolution calling on the Pitt Board of Health to prohibit further dumping of liquid or solid wastes in dumps above Greenville.
The resolution alleged that "there presently exists a private dump located on the north side of the Tar River approximately two miles upstream from our raw water intake.
This area is used to dump all manner of trash, garbage, chemicals, septic tank sewage and other solid liquid wastes which could possibly contaminate the Tar River above our raw water intake," the resolution stated.
The resolution called on the Pitt Board of Commissioners and the N.C. Department of Water and Air Resources to take action to eliminate possible hazards to the Greenville water supply.
Commissioners approved installation of sewer and water lines in sections of

North Meadowbrook and East Meadowbrook which have been recently taken into the city limits.
Projects included in North Meadowbrook were on Tarboro Road, Taylor, Van Nortwick, Dudley and Martin Streets. In East Meadowbrook portions of Powell, Drum, Mumford and Church were included. Cost was estimated at \$35,000 in North Meadowbrook and \$18,200 in East Meadowbrook.
Director Charles Horne told the commission the work needs to be done as soon as possible in order to furnish sanitary facilities in the area.
Commissioners approved the purchase of materials and equipment for the east side electric substation from Westinghouse Electric Supply of Raleigh whose bid was \$46,530.
L. E. Wooten and Co., consulting engineers recommended against the Carolina Transformer Co. bid of \$39,436 because "the bid was not complete in ac-

By THE ASSOCIATED PRESS
The Pakistani commander in East Pakistan has appealed to the Indian army chief of staff for a cease-fire, the government in New Delhi announced today. India ordered a halt to the bombing of Dacca and gave the Pakistanis 16 hours to surrender.
Gen. Sam Manekshaw, the Indian chief of staff, replied that he would order a cease-fire as soon as the Pakistanis confirmed their surrender, an Indian spokesman said. The appeal was from Lt. Gen. A. A. K. Niazi, who previously had vowed to fight to the last man.
The exchange between the two generals came as an Indian army spokesman reported Indian troops fired mortars into Dacca from less than two miles away and the battle for the East Pakistani capital "is in its final stages."
Indian troops also were reported within four miles of Chittagong, East Pakistan's largest port. Its harbor area was hit Tuesday by an air and sea bombardment.
Manekshaw warned that "if you do not comply with what I have stated you will leave me with no other alternative but to resume my offensive with the utmost vigor at 0900 Dec. 16."
This is 10:30 p.m., EST, today. Manekshaw told Niazi he had ordered the bombing pause at Dacca as a "token of my good faith."
The Indian army chief made

clear a surrender would be required before India would agree to a cease-fire.
Radio Pakistan conceded that Indian troops were putting pressure on Dacca after opening up with an artillery shelling Tuesday.
In New Delhi, members of Parliament demanded a government statement of reports that ships of the U.S. 7th Fleet, led by the nuclear-powered aircraft carrier Enterprise, are headed toward the Bay of Bengal.
Shipping Minister Raj Bahadur told members "not to be unnerved or give undue importance" to the reports. Washington sources said the ships had been ordered to mark time short of the Bay of Bengal until it was decided whether an evacuation of East Pakistan was necessary.
The Army spokesman in Calcutta told newsmen Dacca is surrounded and leading elements of Indian columns, advancing from the northwest, north and south, have opened up with mortars on the city from 3,000 to 6,000 yards.
The spokesman said waterways east of the city have been crossed and no further waterways remain between Indian forces and Dacca.
A doctor in a Dacca hospital said the wounded Pakistani soldiers being brought in were "more than we can deal with." But despite a pledge from the Pakistani commander in the

east to fight to his last man, there were no reports of military activity by the defenders.
An Indian spokesman in New Delhi said Indian advance units were six miles from Dacca and that all three attacking columns were within artillery range of the provincial capital. India's heaviest artillery has a

range of slightly more than 15 miles.
As the Indian forces closed on the city, A.M. Malik, East Pakistan's governor, and his council of ministers resigned and took their families to sanctuary with the Red Cross at the Hotel Intercontinental.
Jack Foisie of the Los Angeles Times and Dan Coggon of Time magazine reached the front-line fighting Tuesday at Demra, on the Lakhya River seven miles southeast of Dacca, and reported a Pakistani rear-guard unit retreated across the river under fire as Indian and rebel East Pakistani forces entered a village on the west bank.

les Times and Dan Coggon of Time magazine reached the front-line fighting Tuesday at Demra, on the Lakhya River seven miles southeast of Dacca, and reported a Pakistani rear-guard unit retreated across the river under fire as Indian and rebel East Pakistani forces entered a village on the west bank.

Bombing Pause Ordered Dacca Defenders Given 16 Hours To Surrender

Congress Driving For Adjournment

By EDMOND LEBRETON
Associated Press Writer
WASHINGTON (AP) — After sending President Nixon legislation extending his economic powers, Congress is tackling a clutter of money bills in hopes

of adjourning today.
The bill continuing Nixon's authority over wages, prices and rents through April 30, 1973, got final approval by voice vote Tuesday, but the House deferred consideration until the next session starting Jan. 18.
The money bills jeopardizing adjournment provide financing for the Defense Department, the District of Columbia and the foreign-aid program for the fiscal year already half gone.
The major stumbling block is a hassle over how much the federal government should contribute to the District of Columbia budget and financing of a subway system in the capital.
A compromise \$71-billion defense appropriation won tentative House approval Tuesday. But a formal vote to send it to the Senate was delayed until today because of the absence of a quorum.

gress' employes to be increased from \$36,000 to \$38,000.
The Senate passed a compromise election-reform bill by voice vote Tuesday, but the House deferred consideration until the next session starting Jan. 18.

The major stumbling block is a hassle over how much the federal government should contribute to the District of Columbia budget and financing of a subway system in the capital.
A compromise \$71-billion defense appropriation won tentative House approval Tuesday. But a formal vote to send it to the Senate was delayed until today because of the absence of a quorum.

Revenues Rise
RALEIGH (AP) — North Carolina's general fund collections during November showed an increase of \$13.9 million over the same month last year.
State Revenue Commissioner I. L. Clayton reported that general fund collections for the month totaled \$107.3 million. For the first five months of this fiscal year receipts totaled \$386.5 million, up \$42.1 million over the same period last year.
Highway fund collections in November totaled \$20.7 million, a gain of \$800,000. Receipts for this fiscal year amounted to \$112 million, an increase of \$6.2 million.
Sales tax collections, which reflect business conditions, brought in \$27.1 million in November, a gain of \$2.8 million.

Hawkins Launches His Campaign With Blast At State's Judiciary

GREENSBORO (AP) — Dr. Reginald Hawkins of Charlotte opened his campaign for governor today with a strong blast at the state's judiciary, accusing "mass repression" against black protesters in such troubled Tar Heel communities as Ayden, Greenville and Wilmington.
The black dentist said "trumped up" charges, excessive bail and false indictments are devices being used against blacks in these towns and others. And, he added, the Scott administration is a party to "this conspiracy"

because of its "failure to exercise leadership."
Hawkins, making his second bid to become the state's first black governor was interviewed before addressing Nat Greene Sertoma Club.
Hawkins' speech was his first since announcing for governor a month ago.
"Something is going to have to be done immediately about this whole matter of racism and repression or else this state is going to be torn asunder," he said. "Blacks and whites have become polarized. This is something I don't like and for this

reason I am running for governor. I am running to serve as a bridge over troubled water."
Hawkins cited black civil rights leaders Golden Frinks, Ben Chavis and Jim Grant as examples of those being "harassed" by the judiciary.
All three, especially Frinks, have been active in various eastern North Carolina marches and protests. Frinks to date has posted bonds he says total more than \$200,000 from arrests resulting from protests in Ayden, Wilmington, Greenville and other places.

French Reveal Concorde Price

PARIS (AP) — Each super-sonic Concorde jet transport will cost airlines a base price of \$31.2 million, the French announced today.
Henri Ziegler, president of Aerospatiale, the French partner in the French-British project, said the price was based on dollar parities before today's drop in dollar values because of President Nixon's willingness to

devalue the currency.
Ziegler also told newsmen that the first six Concorde production aircraft are now guaranteed for delivery in October 1974.
He said Aerospatiale and Concorde's British contractor, British Aircraft Corp., also guaranteed firm specifications on noise level, range and payload of the aircraft.
The \$31.2-million figure is the base unit cost established by the companies. The airlines, in fact, will surely pay more because research and development costs, to be determined by the French and British governments, have not been added.
Ziegler said that eight operational Concorde will have come off the assembly lines by the end of 1974. Twenty-four more will be produced in 1975 at a rate of two a month, and from the start of 1976 three Concorde will be built each month.
Talking about his five minutes as guide to President Nixon in the Concorde in the Azores Tuesday, Ziegler said the President told him, "It's a great success. I regret very much that the United States couldn't pursue its program but we're not jealous. That's competition."

Condemn Deferral

PARIS (AP) — The United States sought a two-week postponement of the Paris peace talks today. A Viet Cong spokesman bitterly denounced the move as "sabotage."
Ly Van Sau added, however, that the Communist delegation would not attempt to hold a session Thursday in the absence of American and South Vietnamese delegates.
U.S. Ambassador William J. Porter proposed that the next round of talks be put off until Dec. 30 to give the Viet Cong and North Vietnamese delegates "more time to develop a constructive approach to the talks."
Porter blamed the Communists for the long deadlock in the talks, but Sau told a news conference that Porter was trying to wreck the peace parley and was "deaf, dumb and paralyzed" in his attitude toward negotiation.

WASHINGTON (AP) — Rep. Alton A. Lennon, Democrat from North Carolina's 7th District, has announced he will not seek re-election next year. He has been in the House since first elected in 1956.
He announced his plans in a letter to news media in the district, dated Dec. 13.
The 12-line letter said that after nearly 30 years of public service, including county, state and national offices, he was returning to private life after his term expires.
Lennon said, "I and my wife, Kay, will always cherish with the deepest gratitude the friendship and support of the people of the 7th Congressional District."
Lennon, a member of the Armed Services and Merchant Marines and Fisheries committees, said he had been in public life for 30 years. He is a lawyer from Wilmington.
Before being elected to the House he served for a time in the U.S. Senate, being appointed by Gov. William Umstead to succeed Willis Smith, who had died.

New ASC Committee Members Are Selected

NEW ASC COMMITTEEMEN...W. F. Tyson, J. Elbert Mills and Robert A. Halstead discuss farming in the Pitt County area. The three were elected to

W. F. Tyson, a Pitt County farmer, was again named to the County Agricultural Stabilization and Conservation (ASC) Committee by delegates to the ASC County Convention, held Monday night in the Pitt County Courthouse.
The delegates also selected Tyson as chairman, Robert A. Halstead as Vice-Chairman and J. Elbert Mills as regular member of the three man committee, and named Eric Whichard and Jarvis Allen as first and second alternate

committees.
Tyson is a farmer in the Stokes area and produces tobacco, peanuts and corn. He has served on the county ASC Committee since 1957, prior to this he served as a community committeeman and as a reporter. Halstead is a farmer in the Gardenersville Area. He was first elected to the county committee in 1968. He had served as a community committeeman since 1960. His chief crops are tobacco, corn and soybeans. Mills is a farmer in the Red Oak Community and

produces corn and tobacco. He has served on the county committee since 1964. Prior to his election as a county committeeman, he has served as a community committeeman since 1942. The three county committeemen have served a combined total of 53 years as either ASC County or Community Committeeman giving of their time and abilities to the service of agriculture and fellow farmers.
The County ASC Committee is (Continued on Page A-12)

U.S. Told Keep Naval Task Force Away

WASHINGTON (AP) — India has told the United States to keep the U.S. nuclear aircraft carrier Enterprise and escorting warships out of the Bay of Bengal and has promised to give help to all foreign nationals seeking safety in the East Pakistan war.
India's Ambassador Lakshmi Kant Jha, making this known to newsmen Tuesday, said he had received reliable reports the

U.S. fleet might seek to "establish a beachhead for the evacuation of not only American personnel, but also Pakistani army officers and men as well as civilians who feel insecure."
Jha said he had sought a denial of the report from Asst. Secretary of State Joseph Sisco but had failed to receive a satisfactory reply.
American officials continued their silence on activities of the 7th Fleet task

force. Defense, State and White House sources have declined to comment on the movement of any U.S. naval forces.
But it was learned from authoritative sources that the American fleet is poised at the Straits of Malacca near Singapore awaiting instructions to take part in an evacuation plan if necessary.
At the same time, U.S. Intelligence sources disclosed that Soviet naval strength in

the Indian Ocean is being increased to about 15 vessels. One force is 800 miles south of the West Pakistan coast. A second, smaller group is some 1,500 miles off the East Pakistan coast in a southerly direction.
Ambassador Jha said the Soviet fleet units "are not going to get anywhere near the zone of conflict. If they did we would be as sharp in our reaction as we are to reports of the American fleet

activity."
He said India would consider as a hostile act evacuation of nonforeign personnel from Bangla Desh, the Indian name for East Pakistan.
He said India is not objecting to use of foreign planes for evacuation of foreigners from Dacca. India seeks to avoid evacuation of Pakistani troops from the East to reinforce Pakistani forces in the West.

Shoe Is Named Ass'n President

NEW PRESIDENT... of the Greenville Chamber of Commerce and Merchants Association George Shoe, right, is being congratulated by Dr. H. E. Lowry, outgoing president.

George W. Shoe was elected president of the Greenville Chamber of Commerce and Merchants Association at the group's meeting Tuesday night.
One of the owners of Dudley and Shoe Professional Associates of Greenville, Shoe is a native of Rowan County. He has lived in Greenville since 1946.
Shoe received his formal education at North Carolina State University at Raleigh.
Upon his election, Shoe said, "I consider it an honor and a privilege to serve my community in this capacity and I am looking forward with enthusiasm to promoting all interest in Greenville which will make this community a better place to live in, to play in and to work in."
Shoe is married to the former Dorothy Manning of Williamston. They and their three children, Sandra, 19, Billy, 16, and James, 12, reside at 950 Shady Lane.

A Parent's Prayer Is A Memorable One

By Abigail Van Buren

DEAR ABBY: Two weeks ago I was flying from Los Angeles to Chicago, and had as my seat partner, a soldier on his way home from Viet Nam for a short leave.

Waiting for him at home was his young wife, a small son, and a new baby daughter which he had never seen. His enthusiasm was easy to share and we talked the whole way.

Before we parted, he smiled and said, "Thanks for talking to me. You remind me so much of my Mom." Then he added, "I have to go back to Viet Nam for five more months, then I want to come back and be the best Daddy in the world. May I share something with you?"

He then pulled from his wallet a well worn piece of paper — or perhaps I should say TWO pieces, because it had been literally worn in two and all around the edges. It was something which he had torn from your column several years ago, he said.

"I have read it over and over," he said, "and I want to be that kind of parent."

I pray to a kind God to protect that young man, and give him a chance to come back home. The world needs more parents who feel that way. Thanks for printing it again. It should be printed often.

JUST A "MOM" IN LONG BEACH, CAL.

A PARENT'S PRAYER

"OH, GOD, make me a better parent. Help me to understand my children, to listen patiently to what they have to say and to understand all their questions kindly. Keep me from interrupting them, talking back to them and contradicting them. Make me as courteous to them as I would have them be to me. Give me the courage to confess my sins against my children and ask them forgiveness, when I know that I have done wrong.

"May I not vainly hurt the feelings of my children. Forbid that I should laugh at their mistakes, or resort to shame and ridicule as punishment. Let me not tempt a child to lie and steal. So guide me hour by hour that I may demonstrate by all I say and do that honesty produces happiness.

"Reduce, I pray, the meanness in me. May I cease to nag; and when I am out of sorts, help me, O Lord, to hold my tongue. Blind me to the little errors of my children and help me to see the good things that they do. Give me a ready word for honest praise.

"Help me to treat my children as those of their own age, but let me not exact of them the judgments and conventions of adults. Allow me not to rob them of the opportunity to wait upon themselves, to think, to choose, and to make their own decisions.

"Forbid that I should ever punish them for my selfish satisfaction. May I grant them all their wishes that are reasonable and have the courage always to withhold a privilege which I know will do them harm.

"Make me so fair and just, so considerate and companionable to my children that they will have genuine esteem for me. Fit me to be loved and imitated by my children. Oh, God, do give me calm and poise and self-control."

GARRY C. MYERS

Dr. Myers was co-founder and editor of *Highlights for Children*, a magazine for children, founded in 1946. Dr. Myers died July 19, 1971, and his widow, Caroline Clark Myers, continues to carry on the publication in her late husband's fine tradition.

to be sent to the National VFW Home for Children and Christmas gifts and a party for the patients at the VA Hospital in Fayetteville.

Christmas gifts were also sent to O'Berry Center in Goldsboro. The Auxiliary approved the yearly contribution to the Otis N. Brown Scholarship Fund. A scholarship is given to children of veterans each year who stand in need of this aid.

Mrs. Simmons' home was decorated for Christmas and a social hour followed the meeting.

Holiday Schedule

Engagement pictures and wedding write-ups to be printed in The Daily Reflector on Thursday, Dec. 23, Friday, Dec. 24, Sunday, Dec. 26, and Monday, Dec. 27 will have to be received by the Woman's Department no later than 12 Noon on Monday, Dec. 20.

Editions of The Daily Reflector will be printed on both Friday, Dec. 24 and Sunday, Dec. 26.

Marriage Announced

Mr. and Mrs. Charles B. Stokes of Rt. 3, Greenville, announce the marriage of their daughter, Peggy Lou, to Donald Knight of Baton Rouge, La., on Nov. 26. The couple are residing in Baton Rouge, La.

Engagements Announced

MISS LINDA YVONNE WEATHINGTON... is the daughter of Mr. and Mrs. John Lewis Weathington of Winterville, who announce her engagement to Robert Montgomery Abbott, son of Mr. and Mrs. Richard Montgomery Abbott of Winterville. The wedding date has not been set.

MISS MARGARET ANN CLARK... is the daughter of Mr. and Mrs. Samuel Henry Clark of Rt. 1, Robersonville, who announce her engagement to Joseph Thomas Johnson Jr., son of Mr. and Mrs. Joseph Thomas Johnson Sr. of Rt. 2, Robersonville. The wedding will take place Jan. 9.

When Buying For Christmas, 'Tis The Season To Be Wary

By PATRICIA McCORMACK NEW YORK (UPI)—Trying to stretch the Christmas shopping dollars, you look for bargains.

Some bargains you'd better approach with a wary eye or you'll wind up being typed, cautions the Better Business Bureau of Metropolitan New York.

In the spirit of 'tis the season to be wary, the bureau suggested watching out for the following:

—Sidewalk sales. Sidewalk vendors won't be around after Christmas day to make exchanges or refunds.

—Sidewalk typos. Beware of phony pearls, counterfeit watches, fake cashmere sweaters (usually brushed rayon) and phony whistling animal toys (dishonest salesmen are known to carry whistles around in their mouths. The major phony gypt: phony perfumes. Cheap scents are bottled under names bearing remarkable resemblance to those of leading brands. Most have pre-ticketed price tags which are then "reduced" to give you the impression you're getting a whale of a bargain.

—Solicitations. Ask to see the license of a solicitor, especially that of a person rattling a tin can for the cause of "needy children." Reserve your donations for the legitimate charities that need them.

—Unknown deliveries. Don't accept unknown C.O.D.s for an absent neighbor. Tell the messenger to return when the person is home. You could be paying for an empty box.

—Comparative price claims on Christmas merchandise. A Christmas tree selling "regularly" for \$19 and reduced to \$10 early in the season is suspect. Because of the seasonal nature of the merchandise, a claim of a former price is absurd.

—Wholesale prices. Don't believe retailers who claim they're selling at wholesale prices.

—Low-cost watches. Check the guarantee. It's to your advantage to buy a watch guaranteed by the manufacturer or the seller, rather than an independent repair service.

The Bureau says some Christmas shopping problems stem from the fact that a consumer is a soft touch. Knowing there are such people, especially easy to buffalo in

this season, a legendary little old lady made out last Christmas.

She went around town selling small handbags that she said she had made herself. The little old lady told prospective buyers she had spent hours and hours working at her loom making the bag and then more hours attaching the delicate beadwork. It was a plausible story. And who in the world can turn down a little old lady when the handmade bag was priced at just \$10?

Well, some of the people who shouldn't turn her down saw blue, red, green, purple and several shades of orange when they spied the identical bag selling in local stores for \$3!

Unordered merchandise is delivered at homes with greater frequency during the Yule season, according to the Bureau. Whether sent to raise funds for some unfamiliar cause or as a frankly commercial venture, it remains an objectionable practice that creates no obligation on the part of the recipient, the Bureau says.

New York and a number of other states now have laws which declare unordered merchandise to be an unconditional gift to the recipient. In other states, the recipient is under no obligation to acknowledge receipt, pay for the merchandise, or return it unless the sender calls for it within a "reasonable" time.

To avoid being typed, the Bureau suggests shoppers deal with sellers of known reliability. When dealing with unknown firms check with your local Better Business Bureau or Chamber of Commerce. Other tips:

—Examine all purchases before Christmas. Return defective merchandise.

—Before buying, check into whether the sale is final or if the purchase can be exchanged. If a guarantee is involved, get

it in writing. "Most merchants," the Bureau said, "are honest and are not to be confused with the small percentage practicing deceptive selling methods."

"If a bargain looks too good to be true, check it out. Don't be rushed into buying anything by high-pressure salesmen. Take your time and make up your mind carefully."

And a wary Christmas shopping spree to all!

Christmas Program Given BPW Club Thursday

Miss Dotty McLaughlin, Association were given and will chairman of the Personal Development Committee, presented the program at the December meeting of the Greenville Business and Professional Women's Club.

She was assisted by eight club members who gave some famous writers' thoughts about Christmas.

In the spirit of Christmas, a donation of \$114.05 was taken for the Salvation Army. Gifts for "Operation Santa Claus", Mental Health, and gifts for the Eastern North Carolina TB

Wedding Invitations

Mr. and Mrs. Rufus Hardee request the honor of your presence at the marriage of their daughter, Judy, to Leon Harris, on Friday, Dec. 17, at 8:00 p.m. in the Ayden Free Will Baptist Church.

Mr. and Mrs. Joseph Henry Godwin request the honor of your presence at the marriage of their daughter, Betty Jo, to Sam Henry Jones Jr., on Sunday, Dec. 19, at 3:00 p.m. in the Ayden Free Will Baptist Church.

Members of the club were urged to begin making plans to attend "SpotLight on Women" in Chapel Hill. The North Carolina Federation is the only one in the nation which sponsors a similar program. The meeting will be held in February on the University of North Carolina campus.

Engagement Announced

Mr. and Mrs. W. O. Aldridge of Greenville announce the engagement to their daughter, Jackie Nan, to Seaman Danny

Lee Hardy, son of Mr. and Mrs. Linwood Coward of Grimesland. The wedding will take place Dec. 23.

IN DOWNTOWN GREENVILLE. OPEN NIGHTLY TIL 9, TIL CHRISTMAS EVE.

A 24-Hour Period Of Confusion

As it turned out the confusion over off-again-on-again federal funds for North Carolina highway construction was short-lived last week.

The confusion was all for nothing, and in retrospect seems entirely unnecessary and inexcusable.

It all started Wednesday with the Federal Highway Administration announcement that no con-

tracts in eight categories which required federal funds would not be approved after Dec. 7, the day prior to the announcement. By late Thursday it was announced that the freeze on federal funds for highway construction in North Carolina had been lifted.

The 24-hour period of confusion apparently was cleared up when it was explained that the freeze did not effect any North Carolina projects anyway since it applied only to the current quarter and all Tar Heel projects for the quarter already had been funded.

It is not the first time such confusion has resulted because of sudden and unexplained orders cutting off federal highway funds. In this instance the order was lifted quickly and did not hamper planning or the carrying out of projects. Had the confusion and the freeze continued, however, it could have seriously delayed a number of important highway projects in the state.

When it is necessary for the Federal Highway Administration to issue such freeze orders, it should also be possible for that agency to accompany the order with proper explanation. After all, the federal agency which issues the order should know what state projects are involved and how they will be affected. It is not asking too much for them to provide state officials with such explanation at the time a freeze order is issued.

Highway planning and construction is complicated enough without additional confusion such as that created last week by the Federal Highway Administration 24-hour ban on funding.

Teacher Need Leads The List

By BRYAN HAINSLIP
RALEIGH — An expanded teacher force, to fully implement public kindergartens and to reduce class size, is at the top of the list of school needs in North Carolina.

Both teachers and the lay public assigned it first

schools almost certainly would require new or increased taxes. Considerable public resistance would be encountered at that point, based on the findings of the survey by the department of public instruction.

The survey covered two groups: one composed of superintendents and other administrators, teachers and school board members; the second made up of parents and other laymen.

"Would you be willing to support a tax increase for additional or expanded educational programs?" was one of the survey questions. The first group gave an 84.3 per cent affirmative response, but only 48.9 per cent of the public group said "Yes."

Paradoxically, 56.2 per cent of the public group said they feel the state's present financial effort in education are less than its ability to pay. Among the educators, 72.6 per cent said the state is doing less than it can afford for education.

For the total survey group, the top five priorities in school programs were:

- 1. Additional teachers, kindergarten through high school, to reduce class size.
- 2. Implementation of individualized instruction.
- 3. Expansion of kindergarten program.
- 4. Expansion of occupational education programs.
- 5. Provisions for the use of teacher aides.

Expectedly, teachers in the survey felt that "increased teachers' salaries" deserved a higher ranking in priorities. On the other hand, the lay public gave greater priority to areas such as "more teachers for special education," "state-supported efforts to identify better ways of teaching and learning," and "pre-school physical examinations."

A theme in the response of the lay group (mostly PTA members) was the need for a personal factor in the relationship of teachers and administrators with students.

"Our basic need has not been met — more teachers to eliminate crowded classrooms — less paper work and more teaching time!" said one respondent. "We need someone who cares about our children — really cares!"

Three-fourths of the educators covered in the survey indicated that good or adequate progress has been made in their professional areas of responsibility during the last five years.

Around two-thirds of the lay public group said they felt the school programs in their geographical areas have been good or adequate over the past five years. School programs were described as "poor" by 17.6 per cent of the laymen.

BRYAN HAINSLIP

priority in an opinion survey conducted by the State Department of Public Instruction.

It also rated a high place on goals under consideration by the Legislative Commission of the North Carolina Association of Educators.

Crowded classrooms lessen pupil-teacher contact, make individualized instruction difficult or impossible, and contribute to the frustration that feeds student unrest.

Dr. A. C. Dawson, NCAE executive secretary, said the legislative commission drafting the program to offer to the 1973 General Assembly has discussed the possibility of asking for a statutory limit on the number of children in any one class.

The state now allots instructional personnel to provide for average classes no larger than 25. The assignment of teachers to non-classroom duties has left some classes of more than 50 students, Dr. Dawson explained. Average class size is far above the one-to-25 ratio, he added.

Still Large Classes
"A blanket allotment of teachers for reduced class size has failed in many instances to eliminate large classes, and we have to get at the problem by a different route," he said.

The '73 legislative program being developed will call for additional state appropriations of at least \$200 million, Dr. Dawson reported.

The legislative commission, now firming up the proposals, will release the package early in January to the NCAE membership for reaction and comment.

In addition to reduction and control of class size, major items will include: extended term for teachers, salary increases and an expanded kindergarten program.

Dr. Dawson said the '73 NCAE legislative goals will be ranked in order of priority. Extended term and salary increases likely will be given precedence. Salary requests will include incentive steps designed to hold young teachers in the profession and longevity steps to reward career teachers.

New Taxes Required
An extra \$200 million for

Another Indicator Of Broad Changes Ahead

President Nixon and Georges Pompidou have agreed to work for a devaluation of the dollar and a revaluing of other currencies of the Western world.

While it is too early to determine just what will be done, the agreement is another indication of the board changes which are taking place in the economic field between the United States and other nations.

These changes are expected to have vast effect on world trade and the United States' economic relations are changing in ways that are not entirely clear at present.

It must be recognized, however, that changes were necessary if the United States is to remain in a competitive position.

Secret Effort To Keep Peace

By ROWLAND EVANS and ROBERT NOVAK

WASHINGTON — A few days after the visit here of Indian Prime Minister Indira Gandhi Nov. 3-5, private assurances were sent to New Delhi that the U.S. would start pressing Pakistan to give autonomy to East Pakistan as soon as the Pakistani government reverted to civilian rule late in December.

That assurance, sent Mrs. Gandhi in hope that she would not invade Pakistan, was never even acknowledged by the Indian government. To President Nixon, the silence from New Delhi was one more piece of intelligence that India did not want to resolve the tragedy of East Pakistan by political-diplomatic means but was dead set on military action.

Placed on the defensive by the press and Democratic attacks on his handling of the now full-blown India-Pakistan war, President Nixon may some day fully expose nine months of major — but secret — U.S. diplomatic effort to convince Pakistan to give autonomy to East Pakistan and to restrain India. Until he does, the intensity of the U.S. effort is leaking out in dribs and drabs, the most significant of which was the President's pledge to India to start applying hard pressure on Pakistan's new civilian government due to take over later this month.

The point of delaying full U.S. pressure on Pakistan was obvious: the present

military government was too publicly committed against independence for East Pakistan to reverse its position.

In short, Mr. Nixon's secret diplomatic efforts were keyed to a timetable that compelled him to go slow while India's obvious purpose was to force the issue by a military invasion of Pakistan before that timetable could run its course.

That explains the low estate to which India has fallen inside the Nixon administration. Top officials are convinced that while India gave mild lip service to a diplomatic solution which almost certainly would have succeeded, military action had long since been decided on by India to thwart a diplomatic solution.

Muskie Gold Mine
Sen. Edmund S. Muskie's campaign strategists, eyeing anti-property tax sentiment in California, are considering government-financed Senate hearings on tax problems there to boost the Muskie-for-President campaign.

Specifically, they are discussing the prospect of the Senate intergovernmental relations subcommittee, headed by Muskie, conducting hearings on property taxes during a scheduled Muskie campaign visit to California Dec. 20 and 21.

The timing is crucial, points out a confidential intra-office memorandum by Anna Navarro, who runs public opinion analysis for the Muskie campaign, and Dan (Continued on page A-6)

Strength For Today

GLORY

The soul needs to be fed precisely the same as the body. There are some people that eat too much food and suffer dangerously from overweight. There are fanatics who feel that the day has been misspent if they haven't challenged at least a dozen people with the words: "Are you saved?" But the distance between fanaticism and spiritual death at least sets in.

How do we feed the soul? Primarily by living a good life. Such nurture would also involve the reading of a passage of Scripture each day, the uttering of regular prayer, attendance at church services. There are sometimes fine Christians

outside the church, and there are a few people of no spiritual health and vigor whatsoever who belong to Church. This does not mean that the Church is full of hypocrites. It is not — as everyone knows who has had any experience with the life of the Church. The Church is full of imperfect people who fall on their faces continually, get up and press on; wiser for their bruised faces but determined to do better the next time.

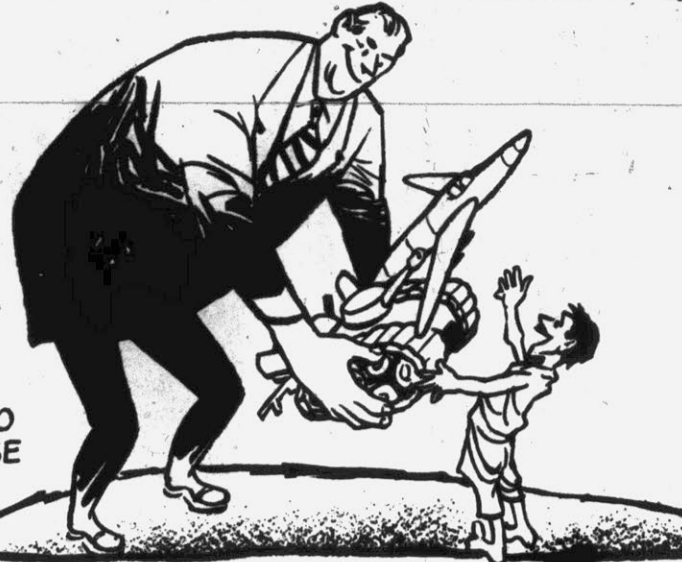

It would appear that God is more pleased with what we try to do than with what we accomplish. If we keep on trying there is glory at the end of the day — and at the end of life.

By Earl L. Douglass

ONE OF THE STRANGE FACTS OF LIFE!

WHY IS IT....

...THE BIG NATIONS CAN SPEND YEARS ARMING DESTITUTE NATIONS TO THE TEETH WHO COULDN'T OTHERWISE BUY A POPGUN...

...THEN GET HYSTERICAL WHEN THEY START TO USE THEM?

By ART BUCHWALD

In Case Democrats Pay

WASHINGTON — In my last column I revealed the Republican game plan for 1972. Basically it was quite simple. Since the Democrats owe the telephone company \$1,900,000, the phone company will pull out all their lines in Miami, and it will be impossible to nominate anyone on the Democratic ticket for President. Therefore President Nixon, like his buddy President Thieu, will have to run alone.

This was Plan A. It turns out the Republicans also have Plan B, in case by some wild accident, the Democrats pay

their phone bill.

Plan B was revealed to me by Mr. Kent Corey of the San Fernando Valley Democratic Assn., who got it straight from Henry Kissinger's 10-year-old son, when he was visiting Disneyland.

This is how Plan B will work.

The Democrats will meet in Miami in July. The phone bill will be paid by royalties from Howard Hughes' autobiography, and the convention will begin in good spirits and fellowship.

On the second day of the convention, just as the

nominations are getting under way, President Nixon will decide to address the Democratic National Convention as he did the AFL-CIO convention last month. The President will announce through his press secretary Ron Zeigler that he would like to explain his economic program to the Democratic National Convention. He will have Zeigler assure the country that he is not going to the convention for any political motives, but as President of the United States.

All Mr. Nixon's advisers will warn him not to go, pointing out that he will be addressing a hostile audience, who will probably give him a very bad reception.

Nixon will reply, "I am used to hostile conventions in Miami, and I will not be intimidated. The President of the United States should be able to go anywhere any time."

Larry O'Brien, Chairman of the Democratic Party, will receive word of Nixon's plans in horror. Nixon's advance man will tell O'Brien he wants the band to play "Hail to the Chief" when the President enters the hall. O'Brien will balk at this. (What he can't admit is that because of the lack of funds, the Democrats couldn't afford to hire a band.)

The President will arrive sans "Hail to the Chief" and go directly to the podium. He will throw away the prepared speech and start talking extemporaneously, telling the Democrats what he has done for the country and for the economy. Mayor Daley (Continued on page A-6)

Boyle Views Life

By HAL BOYLE
NEW YORK (AP) — The future is a guessing game. The past is not. That's why so many people often prefer it to the future. You have been enriched by the pleasant things

HAL BOYLE

that happened to you in the past. The more memories you have, the greater is your life. You've had a pretty full life if you can look and remember when—

It took a kid with a pretty good stomach to digest a dime's worth of penny candy.

One of the delights a little girl had in searching through the attic was to find and play with an old-fashioned painted fan.

Practically every other prosperous farmer in the Midwest had a tin box in which he kept his worthless shares of oil and mining stocks—paper testimonials of collapsed get-rich-quick dreams.

One of the certainties of a 10-year-old boy's life was the belief that, if he picked up a hop-wood under a street light at night, when he woke up the next morning his fingers would be covered with warts. But frogs didn't do that to a fellow.

Everybody in town felt sorry and kind of startled when the undertaker's wife died of pneumonia during the great flu epidemic. Somehow you had never thought death would touch the member of an undertaker's family.

40 Years Ago Today

By GWYN COGHILL
Dec. 15, 1931

The first basketball game of the season for East Carolina Teachers College will get underway tonight. East Carolina will play the Greenville town team in the campus building at 7:30.

In an effort to curtail the production of liquor being prepared for holiday consumption, Federal officers invaded Pitt County yesterday and captured one of the largest stills probably ever taken in this community. The still was in full operation but the operators, warned by outposts of the approach of the officers, made their escape leaving hats, coats and dinner buckets behind. Along with the still, the officers captured three thousand gallons of beer, two hundred gallons of whiskey and the entire still equipment valued at \$750.

Both city and state automobile license plates went on sale here today. The state plate style has been changed this year to black on yellow instead of yellow on black as in recent years.

Muckraking Has Seen A Revival

By ELMER ROESSNER

The texture of executive reading is changing again. Three-quarters of a century ago the old muckrakers, Ida M. Tarbell, Ray Stannard Baker, Lincoln Steffens, Upton Sinclair and others laid bare the sins of business.

Then came a long period when the writers of books on such topics as "you can get in there and sell," "how to make a million," "how to make two million," "how to walk over other people to the top" and similar themes dominated business literature.

This year there has been a swing back to exposure and muckraking. One of the best sellers is "Corporation Man," by Anthony Jay, with a subtitle, "Who he is, what he does, why his ancient tribal impulses dominate the life of the modern corporation." It's a slashing study of the psyche of the corporation man. (Random House, 304 pages, \$7.95.)

Many of the tough new books were inspired by business events and trends. "Riding the Penny to Ruin," a 90-page paperback (\$1.95), is published by Dow Jones books as a digest of that debacle. There will probably

ELMER ROESSNER

be more books; the whole story is far from told.

"Welcome to the Conglomerate — You're Fired!" by Isadore Barmah is a delightful account of how dollars and men are squeezed out in mergers. (Delacorte, 236 pages, \$6.95) In the same field is "The Merger Game," by Stan Sauerhaft. (Cornwell, 161 pages, \$5.95.)

"The Innocent Investor & The Shaky Ground Floor," by Sidney Margolius, who was fighting for consumers when

Ralph Nader was 6 years old. This is an expose of how promoters fool small investors and notes, "even banks and the government participate in the game, paying out less than they advertise to small savers and almost twice as much to wealthy investors." (Trident, 288 pages, \$6.95.)

"Wall Street: Security Risk," by Hurd Baruch, is described as "a report to the investing public on the unsafe and unsound practices of the securities industry." Baruch is a special Securities and Exchange Commission counsel. (Acropolis, 356 pages, \$8.95.)

The Money Trap
"Fleeing the Lambs," by Christopher Elias is — as you have guessed — a story of the New York Stock Exchange, "a tottering giant whose granite face conceals slow wits and immense greed." (Regency, 246 pages, \$6.95.)
"Where Did the \$13 Billion Go?" by Eugene Sullivan,

exposes the auto insurance companies, citing actual cases. (Prentice-Hall, 205 pages, \$6.95.) On the same theme, also citing specific cases, is "The Injury Industry," by Jeffrey O'Connell. (U. of Illinois Press, 253 pages, paper, \$2.95.)

"The Pavers and the Paved," by Ben Kelly is subtitled, "The real cost of America's highway program." Another book naming names and citing cases. (Donald Brown, 183 pages, \$5.95.)
"The Corporate Prince," by Qass Aquarius relates the tough tactics and techniques to win in the executive suite. (Van Nostrand Reinhold, 104 pages, \$5.95.)

"The Funny Money Game," by Andrew Tobias, is the story of a group who organized the Student Marketing Corporation which had a cosmetic existence between 1968 and 1970. (Playboy Press, 210 pages, \$6.95.)

24 MONTHS GUARANTEE WITH 6 MONTHS 100% ALLOWANCE

Foremost Protection Guarantee. Your Foremost tire protection guarantee covers all Foremost passenger tires (except our special application tires with separate guarantees) against all road hazard or defect failures. You are protected for the entire stated months of guarantee. If your tire fails during the guarantee period, return it to us and we will, at our option, repair your tire, or make an allowance based on the original purchase price, excluding applicable Federal Excise Tax, toward the purchase of a new tire. We will allow 100% of the original purchase price, excluding applicable Federal Excise Tax, during the 100% allowance period. Thereafter, we will allow 50% or 25% of the original purchase price, excluding applicable Federal Excise Tax, toward the purchase of a new tire. (See chart below). Federal Excise Tax adjustment allowance will be made on the basis of the percent of the original tread remaining.

FOREMOST PROTECTION GUARANTEE CHART. HERE'S HOW YOUR GUARANTEE WORKS:

Entire guarantee period 24 mos.
100% allowance period 1-6 mos.
50% allowance period 7-13 mos.
25% allowance period 14-24 mos.
Tread Life Protection. We build into every Foremost tire safe traction indicators. They signal when your tire should be replaced. If your tire wears out (except for incorrect alignment) we will make an allowance based on the original purchase price, excluding applicable Federal Excise Tax, toward the purchase of a new tire. We will allow 1/3 during the first half or 1/4 during the second half of the stated months of guarantee. Federal Excise Tax adjustment allowance will be made on the basis of the percent of the original tread remaining. This guarantee is not transferable. It is only for private passenger cars or passenger station wagons.

Obituaries

Gaylor
AYDEN — Mr. Raymond Gaylor, 74, died in Pitt Memorial Hospital Tuesday afternoon. A retired barber, he was a member of Nahaunta Friends' Church near Fremont.

Funeral services will be conducted Thursday at 3 p.m. at Farmer Funeral Chapel here by the Rev. James H. Trader. Burial will follow in the Ayden Cemetery.

Surviving him are his wife, Mrs. May Lyon Gaylor; a son, Glenn Gaylor of Ayden; two daughters, Mrs. Melba Stroh of New York City and Mrs. Audrey Steed of Clinton; and three grandchildren.

Murphy

Mrs. Mary Olivia Murphy, 76, widow of Bentley Harris Murphy, died at her home near Farmville Wednesday morning at 5:30. Funeral services will be conducted at three o'clock Thursday afternoon at the Monk Memorial United Methodist Church near Farmville by the Rev. L. B. Manning, Free Will Baptist Minister of Fountain, and the Rev. Ronald Thompson, pastor of the Monk Memorial United Methodist Church. Burial will be in Crestlawn Memorial Gardens.

Mrs. Murphy spent most of her life in the Farmville Community. Her husband died May 18, 1971.

Surviving are four sons: Willis B. Murphy of Rocky Mount, Allen Thomas, Bobby D., and Ernest G. Murphy, all of the home; three daughters: Mrs. Jack Richards of Granite Falls, Mrs. Leighton Jones of Fountain; and Mrs. Murray Linerman of Williamston; four grandchildren; and two great grandchildren.

Joyner

Mr. Walter W. Joyner, 77, died in the Greenville Nursing Home Tuesday night at 5:15. Funeral services will be conducted at 3:30 Thursday afternoon at the Wilkerson Funeral Chapel by the Rev. Charles Crisp, pastor of the First Free Will Baptist Church of Greenville, and the Rev. Jack Mayo, pastor of the Gum Swamp

Free Will Baptist Church. Burial will be in Greenwood Cemetery.

Mr. Joyner, a native of Carteret County, came to Pitt County to live at an early age. He was a member of Flat Swamp Primitive Baptist Church and was a retired farmer. His wife, Mrs. Annie Hathaway Joyner died in 1941.

Surviving are seven sons, J. Marshall, W. Verlon and Donald C. Joyner, all of Greenville, I. Brown Joyner of Hardy, Ark., Marvin R. Joyner of Charlottesville, Va., Willis M. Joyner of Fort Worth, Texas, and Jimmy H. Joyner of Burlington; four daughters, Mrs. Earl C. Lewis, Mrs. James M. Crisp, and Mrs. Snodie S. Haddock, all of Greenville, and Mrs. Jack T. Brock of Smyrna, Dela.; 21 grandchildren; five great grandchildren; and a brother, Marshall Joyner of Greenville.

The family will be at the home of a son, W. Verlon Joyner, 2001 E. Fourth Street.

Johnson

Mr. Lewis Johnson, 85, died at the home of his daughter, Mrs. Mattie Ruth Manning in Hookerton, Tuesday afternoon. Funeral services will be conducted at 2:30 Thursday afternoon at Mt. Calvary Free Will Baptist Church in Hookerton by his pastor, the Rev. Willie Justice, and the Rev. Gene Hood, Methodist Minister of Hookerton. Burial will be in the Snow Hill Cemetery. The body will be taken from the Wilkerson Funeral Home to the Church one hour prior to the time of services.

Mr. Johnson, a retired farmer, spent most of his life in the Hookerton and Ormondville Communities. He was a member of Mount Calvary Free Will Baptist Church.

Surviving are his wife, Mrs. Mamie Rouse Johnson; three daughters, Mrs. Mattie Ruth Manning of Hookerton, Mrs. O. M. Turpin of Rural Hall, and Mrs. Nancy Hart of Kinston; four sons, Jimmy Lewis Johnson of Maury, Otha Johnson of Pleasantville, N.Y., Joseph Johnson of Mount Kisco, N.Y.,

and Hyman Johnson of Hookerton; a brother, Albert Johnson of Hookerton; a sister, Mrs. Blanche Jones of Kinston; 19 grandchildren; 16 great grandchildren; two step-sons, Howard Ange of Rocky Mount and Marvin Ange of Grifton; and five step-daughters, Mrs. Wesley Newell of Dover, Mrs. Ed Duncan of Cove City, Mrs. John King of Kinston, Mrs. Willie Woolston of New Bern, and Mrs. Silas Gaskins of Grifton.

The family will be at the home of Mrs. Mattie Ruth Manning in Hookerton.

Anderson

Mr. Tobe Anderson of Greenville died yesterday afternoon in Pitt Memorial Hospital.

Funeral services will be conducted Thursday at 2 p.m. at Clark Funeral Home here by the Rev. Holliday. Burial will be in the Riverside Cemetery in Craven County.

A Pitt County native and a retired farmer, he is survived by his wife, Mrs. Lula Koontz Anderson of the home; three sons, Obie and Rudolph Anderson, both of Greenville, and Clifton Anderson of the home; four daughters, Mrs. Dorothy Sorrell of Raleigh, Mrs. J. M. Pierce and Mrs. Robert Williams, both of Richlands, and Mrs. Mary Cole of Greenville; two stepdaughters, Mrs. Rufus Williams of Washington, N.C. and Mrs. Gladys Williams of Greenville; three sisters, Mrs. Annie Cole of Goldsboro, Mrs. Queenie Heath of Edenton, and Mrs. Maggie Brock; a brother, James Anderson of Greenville; and 21 grandchildren.

(Continued from page A-4)

Grandpa thought the younger generation had gone to hell when his son bought an alarm clock to be sure he got to his factory job on time. All Grandpa had ever needed to wake up and face his farm chores was the sound of a rooster in the barnyard saluting the rising sun.

The average man in America was more likely to inherit debts than dollars.

Most of the letters in a congressman's mail ended with a request for free garden seeds.

It was said of America that it was a land where a typical family went "from shirtsleeves to shirtsleeves" in three generations.

When a young fellow came back home with a college degree, all the neighbors wondered whether it had ruined him for honest work.

If a fellow didn't trust his local doctor, he could always take the sage advice of his local druggist and buy a bottle of cure-all patent medicine for 95 cents. It tasted so bad he knew it must do him some good.

Even if a fellow thought hard all day long, it was hard for him to think up a good reason for staying up after midnight except on Saturdays.

Those were the days—remember?

Evans-Novak .
 (Continued from page A-4)

Lewis, a Muskie Senate staffer. After Muskie formally announces his candidacy on Jan. 4, the subcommittee hearings would be embarrassingly suspect. Only up until that date, says the Navarro-Lewis memo, can the proposed hearings "take advantage of free TV time before it is too late."

The purely political motive of the hearings shines like gold, based squarely on the results of Miss Navarro's poll in California. "Reading over the open-ended responses (by voters polled) . . . makes it apparent that property taxes are all important in this crucial state," says the memo. . . . Capturing the issue is worth a gold mine to any candidate."

Miss Navarro and Lewis proposed that the Senate hearings be staged as a TV spectacular, master-minded by Robert Squier, Muskie's resident media expert. They add: "Squier agrees that it would be a brilliant visual event, particularly if we can dramatize the effects of the property tax on elderly homeowners and school children in poor neighborhoods."

Nor do the Muskie staffers think in strictly parochial terms of California. "Capturing the property tax issue would be great in places other than California," the memo advises George Mitchell, Muskie's top political operative. "Think of all the schools that have closed in the last two years because citizens refused to tax themselves anymore."

Research Grants Officers Of Program Set

Two East Carolina University physics professors have received research grants from the North Carolina Board of Science and Technology, Gov. Bob Scott, the Board chairman, announced yesterday.

Dr. Ramesh C. Ajmera will use a \$10,000 grant to study the use of microwaves to detect small quantities of pollutants in air. With his \$6,000 grant, Dr. James Joyce will explore the use of charged particle beams in identifying minute quantities of various elements in air, water, tissue, and blood samples.

Dr. Ajmera came here in Sept. 1970 to be director of the physics department's analog computer laboratory. He has a B.S. degree and an M.S. degree in electrical engineering from Rajasthan University in Jaipur, India, and M.S. in physics from Vikram University in Ujjain, India, and a PhD in electrical engineering from the University of Iowa. For three years he was a post doctoral fellow at the University of Maryland. He and his wife, Roopa, have a daughter, Maya.

Dr. Joyce, who is director of the physics department's accelerator laboratory, came here in Sept., 1970, also. He holds an A. B. degree from LaSalle College in Philadelphia, Pa., and an M.S. in physics and a Ph.D. in nuclear physics from the University of Pennsylvania. He and his wife, Mary Ellen, have a daughter, Maureen Lynn.

He and his wife, Mary Ellen, have a daughter, Maureen Lynn.

Buchwald . . .

(Continued from page A-4) and the Chicago delegation will start boozing, and pretty soon everyone in the hall will hiss and catcall.

Oblivious to the boss, the President will clench his fists and continue a list of his achievements.

Then at the conclusion of his talk the President will step down from the podium and start shaking hands with the delegates.

Larry O'Brien will try to gavel the meeting back to order, and he will say, "Can we now get back to nominating our candidate?"

This will cause laughter in the hall. President Nixon will finally leave, his face grim, and his lips pursed.

But all over the United States the American public will be shocked that anyone could treat the President of the United States this way, and Nixon will pick up 12 points in the Gallup Poll and assure his re-election.

I was skeptical that the Republicans would do anything like this, so I called a source at the White House, who confirmed that there was a Plan B. "If it worked with George Meany," he said, "why shouldn't it work with Larry O'Brien?"

A Community Carol Sing To Be In Grifton

GRIFTON—A Community Christmas Carol Sing will be held here on Christmas Eve from 5 p.m. to 6 p.m.

According to Elwyn Thompson, president of the Grifton Resources Improvement Program, the Christmas Eve program is being held instead of the annual Christmas parade.

A large tree will be placed near the water tower in the center of the business district and will be decorated by town employees. Santa Claus will also be on hand to participate in the event.

Raymond Battle, Mrs. Jackson Ward and Mrs. W. S. Brown will contact the area churches and encourage them to participate in the program.

Report Meany's Condition Fine

WASHINGTON (AP) — An AFL-CIO spokesman says President George Meany has returned to his home after two weeks in the hospital and hopes to return to his desk after the holidays.

"The doctor describes his condition as fine. He says all the coronary tests were normal," the union spokesman said Tuesday.

Officers Of Program Set

GRIFTON — Elwyn Thompson has been named president of the Grifton Resources Improvement Program.

Other officers named at the December meeting include: Raymond Battle, vice president; Nora Ward, secretary; Virginia Brown, treasurer; Janet Haseley, reporter.

Other business discussed at the meeting included the preliminary plans for the Shad Festival next spring.

GRIP is a coordinating council composed of representatives of all groups and organizations in Grifton.

Its purpose is to encourage cooperation between groups so that community betterment projects of any organization will have the support of all.

A recent example of the success of this approach was the compilation of facts and presentation of accomplishments during the year in the Community Development contest. Grifton took first place in the Coastal Plains village and small town category.

EX-CHAMP DIES

ENUGU, Nigeria (AP) — Dick Tiger, 42, the son of a Nigerian chicken farmer who became world middleweight and light heavyweight boxing champion, has died at his home in Abuja, in eastern Nigeria, following a brief liver ailment.

"ITCHING TORTURE Was Killing Me.."

I suffered until I found a unique medication and got joyful relief. Sufferers of vaginal itch, rectal itch, underarm itch, rash, scales, eczema report a proven formulation called BICOZENE stops itching agony fast. This unique cream medication fights irritating bacteria, relieves stinging and burning while it gently soothes tender, inflamed tissue. In seconds natural healing starts as the nagging urge to scratch stops. So for welcome relief, get BICOZENE at your druggist.

COLLECTING GRIM REMAINS — Villager from Babunapara, north of Jessore in East Pakistan, collects skulls at site of alleged executions ordered by Pakistani military officials after the crackdown on Bangla Desh movement on March 25, 1971. About 1,000 persons are eleged to have been executed. (AP Wirephoto)

Ministers Discuss Pregnancy Problem

Ministers from throughout North Carolina met in Chapel Hill Wednesday to discuss problems related to unwanted pregnancies faced by women and their families.

The meeting is sponsored by the N. C. Clergy Consultation Service on Problem Pregnancies, a group of pastors who have been providing counseling on a no-fee basis for the past three years. Discussion concerned changes in the N. C. law on abortion, resources for adoption, and counseling standards for clergymen. The ministers also viewed and discussed a new film describing the operations of a clinic for pregnancy termination in New York City.

The Clergy Consultation Services operates a counseling network throughout North Carolina. The woman contacts the Service, usually through the central telephone answering service (919-967-5333), and is given the name of a clergyman near her home. She then makes an appointment with the clergyman who assists her in thinking through the various alternatives regarding her pregnancy. The counselor does not preach. He provides information to help her decide whether termination, marriage, unmarried parenthood, or adoption is the best solution, the group's chairman, the Rev. James D. Riddle of Chapel Hill

said. He quoted a study made in 1969 by the UNC Department of Biostatistics. Only about one-ninth of the North Carolina women who obtain abortions are cared for by N.C. physicians and hospitals under the law. Most go out of state to illegal sources. Few receive help in working through the problems associated with the pregnancy. Five Greenville ministers participate in the Service to provide confidential assistance to women having unwanted pregnancies, and their families.

Marchers Sentenced

Some 27 protesters charged with parade ordinance violations in Greenville were sentenced to 30 days in jail Tuesday after defense counsel waived evidence in District Court.

Judge Robert Wheeler made the ruling following defense attorney Jerry Paul's motion to have the cases transferred to Superior Court for trial. Paul entered a plea of not guilty, waived evidence prior to the ruling and gave notice of appeal of the sentences to Superior Court.

In his motion for a transfer, Paul said that a number of similar cases are already docketed for Superior Court and the transfer would allow for the disposal of all ordinance cases here at one time.

All of the defendants sentenced yesterday are 16 years of age or older. Judge Wheeler ordered bonds to remain in the amounts previously set.

Two Hurt In 2 Accidents

Two persons were reported injured and an estimated \$1,700 property damage caused in two collisions here yesterday.

Police reported vehicles driven by Jimmy Allen Nethercutt, 25, of Route 3, Greenville and Edith Hodges Barnhill of Route 5, Greenville collided about 4:05 p.m. at the intersection of Pitt and Dudley Streets causing an estimated \$800 damage to the Nethercutt vehicle, \$700 damage to the Barnhill car and \$25 damage to a sign.

Mrs. Barnhill was reported injured by officers who charged Nethercutt with failing to stop for a stop sign.

Terry Eugene Strickland, 18, of 106 Bryan Cir. was reported injured when the motorcycle he was riding was involved in a collision with a car driven by Herbert Mosley Wilkerson, 16, of 306 Granville Dr.

Police estimated damage to the Wilkerson car at \$75 and set damage to the Strickland vehicle at \$100.

No charges were placed in the 9:40 p.m. mishap. The accident occurred on Greenville Boulevard west of the Rosewood Drive intersection.

ECU Helps To Set Up Educational Television

SETTING UP . . . Dr. Robert Brown positioning a microphone. (Dept. of Defense Photo)

MCAS, CHERRY POINT — Educational television (ETV) is coming to Cherry Point. This Marine Corps Air Station's military training department is adding the television as a teaching aid and the move is expected to benefit all Marine Air Bases on the east coast.

Because this is the first such training program to be used at eastern Marine Air Bases, there were no trained men available to be used in television production. East Carolina University officials in Greenville were contacted and asked to set up a class which would give a group of men enough experience to write, produce, direct and edit television productions.

Dr. Robert Brown, an expert in educational communications, conducted a 10-day course with 13 Cherry Point Marines attending. He says it was a "very good class. They caught on exceptionally fast, and because of this, they have been able to work towards bigger and better things."

ETV is expected to play an important role here. According

Announce Honor Student Listing

STOKES—One student at Stokes-Pactolus School was named to the honor roll while 17 students were placed on the principal's list.

Thomas Glisson, an eighth-grade student, was the only student at the school to be named to the honor roll for the second marking period.

The following students were named to the principal's list:

Sixth grade—Annie Battle, Danita Gray, Laura A. Harrison, Loretta Hudson, Sharon Johnson, Sylvia Little, Brenda Redmond, Jimmy Singleton, Bunny Tripp, Nell Tyson and Penny Whitehurst;

Seventh grade—Sherry Beacham, Johnny Nelson and Ashley Tripp;

Eight grade—Florida Daniels, Dwight Vernelson and Deborah Wynne.

In the face of increasing burglaries and other crimes people are turning the key and buying better locks.

to Maj. Robert A. Phillips, the station training and educational officer, training experts from such sections as Non-Commissioned Officer Leadership School will videotape classes, which can be shown repeatedly and can be sent to other Marine bases.

Only a small amount of Cherry

Pitt Schools Ranks 9th In Bus Vehicles Used

The Pitt County Schools ranked ninth in the state in the number of vehicles operated during the 1970-71 school year. According to the State Board of Education, the Pitt system operated a total of 178 vehicles.

An average of 10,890 students were transported daily in the Pitt County system, placing them in the 13th position in the state. The number of pupils transported daily per vehicle totaled 61.1.

The Pitt buses averaged 36.3 miles per day, ranking number 62 in the state.

According to the report, the Pitt County schools spent an average of \$29.52 per pupil in transporting them to and from school.

The operating cost of the buses averaged 27 cents per mile.

Area Meeting Set Thursday

Citizens of Area No. 18 in the 26 area division of the Greenville School District are being asked to meet Thursday night at 8:00 p.m.

Michael House, area coordinator for Area 18 which covers Elmhurst, Engelwood and Forest Hills communities, said the meeting to elect a representative for the Citizens Advisory Committee would be held at that time in one of the mobile units located behind the cafeteria at Elmhurst Elementary School.

This week has seen the meeting of citizens of several areas in Greenville for the purpose of naming a representative for the committee which will have 36 members.

Point's television equipment has arrived here, but the remainder is expected during February.

The equipment, which costs more than \$75,000, includes black-and-white television cameras, a video tape unit, and classroom monitors. A tentative date of late February has been set for the first production.

Bank Holdup Count Is 38

CHARLOTTE (AP) — Robert Murphy, special agent in charge of the Charlotte FBI office, says North Carolina has had 38 bank robberies this year, including two in one day last week in Charlotte.

The 38 are four fewer than in all of last year, but there are nearly three weeks to go.

Murphy noted Tuesday that December traditionally is an active bank robbery month. He added, "For some reason I don't know, March also is a busy month for bank robbers."

Murphy said that in 1964, North Carolina had 10 bank robberies, a record at that time. However, for the next several years, North Carolina averaged about 20 per year.

Bank holdups in this state reached a high of 42 last year.

Murphy said that records since 1938 show that 75 to 80 per cent of bank robberies in the state resulted in persons being arrested and charged.

High Court Studies Liquor Law

RALEIGH (AP) — The North Carolina Supreme Court has begun its study of the constitutionality of the legislative act which permitted an election in Mecklenburg County on legalizing liquor by the drink.

The high court gave no inkling of what its ruling — expected in January at the earliest — will be as it heard arguments from opposing lawyers Tuesday.

Chief Justice William H. Bobbitt told the attorneys he thought they had done a good job in presenting arguments.

Gary A. Davis, an attorney representing forces of mixed drinks urged the court "to get to the heart of the matter" and rule on the constitutionality of the Mecklenburg law.

"Public interest necessitates a decision on the constitutional question," Davis said.

He added that if the law is upheld, Guilford, Forsyth and Wake counties will be next in seeking referendums on legalizing mixed drinks.

In their arguments, the law-

yers disagreed on whether the Mecklenburg act is unconstitutional.

Voters in Mecklenburg approved sale of mixed drinks in an election Nov. 5 shortly after

Approve Fixed Span Bridge

RALEIGH (AP) — State Highway Commission planners have approved a proposal for a new fixed span bridge to cross the Intra-coastal Waterway and connect Oak Island in Brunswick County with the mainland.

The new bridge would replace a draw span that was knocked out in September by a barge.

A temporary bridge carrying one traffic lane has been built pending construction of the new bridge.

The proposal calls for a high-level bridge that would be 5,000 feet in length, would cost an estimated \$3.5 million, and would be financed with emergency relief funds.

Final approval of the proposal depends on the outcome of an environmental study and a public hearing.

Superior Court Judge W. K. McLean ruled that portions of the Mecklenburg mixed drink act are unconstitutional.

The judge held that the act violates a constitutional ban on local laws regulating trade. He also held that mixed drinks could be sold in publicly owned buildings such as the Charlotte Coliseum, but not in private restaurants and hotels.

Following McLean's ruling, Mecklenburg legislators pushed through an act which would void the Mecklenburg mixed drink act if McLean's ruling is upheld.

The lawsuit testing the legality of the act was instituted by entertainer Arthur Smith and David P. Reule against the

Mecklenburg Board of Elections and the Mecklenburg Alcoholic Beverage Control Board.

Attorney James O. Cobb, representing Mecklenburg County and the board of elections, told the Supreme Court that McLean's ruling was premature and incorrect.

"We were all surprised, astonished and flabbergasted by the decision," he added.

William Underwood Jr., attorney for the ABC board, argued that the Mecklenburg act is a valid exercise of police power and "does not grant any special privilege although it applies only to Mecklenburg."

The act would permit the sale of mixed drinks in social clubs

and grade A restaurants and in certain convention centers. Miniature bottles would be used to dispense liquor.

Associate Justice I. Beverly Lake pointed out that the act says what places can and cannot sell mixed drinks.

But Underwood contended this was done to regulate the control of liquor.

Four Restrained From Firing Superintendent

GOLDSBORO, N.C. (AP) — Four members of the Wayne County Board of Education have been restrained by Judge Bradford Tillery of Wilson temporarily from going through with their plans to fire the county school superintendent, Dr. Gerald James.

Judge Tillery scheduled a hearing in the case for 10 a.m. Dec. 23. The order was issued at the request of three other board members.

The injunction brought a postponement of a school board hearing set for Tuesday at which James was to have heard the board's charges against him, which they have refused so far to make public.

The superintendent has come under fire in the past because of his policies dealing with integration, busing and school consolidation.

SMOKEY GETS A PAL
FRESNO, Calif. (UPI) — The U.S. Forest Service has developed a companion to Smokey the Bear, a longtime fire protection symbol. It is Woody Owl, who is to remind people of the positive ways pollution can be prevented.

India-Pakistan War Generates Problems For Many

By WILLIAM L. RYAN
AP Special Correspondent

the goals of the big powers and their client states in the continent, the conflict can generate enormous problems for India-Pakistan war. Whatever all.

—For India, military defeat of Pakistan could one day prove to have been a Pyrrhic victory, bringing more woe than gain.

—For Moscow, India's patron and source of military muscle, involvement creates difficulties in areas where the Russians have made immense investments. It also raises a touchy internal problem.

—For Pakistan, the nation's very survival as an entity is at stake.

—For Pakistan's current sponsor and putative protector, Red China, there are also special problems. Peking, in poor shape now to risk confronting armed Soviet power, probably is considering other means of

dealing with a new situation in the subcontinent.

—For the United States, trying to extricate its military from Southeast Asia, the new conflict threatens complications.

India seems about to solve one problem—that of the 10 million refugees from Pakistan who can now return from Indian soil—by creating a new Bengali nation. It is on India's northeast flank, squatting on the strategic Bay of Bengal and bordered by India's own Bengali territories. Yet Bangladesh—the new Bengal nation—will be incomplete if it does not encompass all Bengalis. What could be more natural than eventual development of a

movement to join all of them together?

For China, seeking new ways to deal with a new situation, Bengal offers enticing fishing grounds. A potent Maoist movement for years has been causing major headaches for New Delhi among India's Bengalis. A "Marxist" Communist party, often pro-Chinese in outlook as opposed to the tame pro-Soviet Indian party, almost won the last election for the West Bengal assembly.

It seems logical that radical change would heat up the atmosphere. The whole Bengali area is alive with ferment. Unemployment has reached vast proportions. Intellectuals are restless. The Maoist prom-

ise of surgical attack on human problems has great appeal to young men frustrated by the pace of parliamentary government.

If war-borne problems hamper efforts to improve the economy, counter soaring prices, increase grain harvests and improve industrial production, India will be in for big trouble. She could then prove an expensive client for the Russians, a huge economic burden while still needing and demanding military help. The cost for the Russians could be well beyond prospective geopolitical profits.

The subcontinent has had plenty of factors seeming to invite Soviet opportunism. Yet the Kremlin may have been un-

happy about the risks involved. An extensive war only a little distance from their southern frontiers was an unwelcome prospect.

The whole thrust of Soviet diplomacy in 1966 was toward removing the fuse from the Asian powderkeg. Thus the Russians sponsored the Tashkent Declaration and brought Indian and Pakistani leaders together in the Soviet Uzbekistan to sign a pledge renouncing force. But Moscow wanted to play both sides of the street.

Busily courting and arming the Indians, Moscow began to worry about Peking's rising influence in Pakistan after the Americans, in the wake of the Kashmir war, cut off arms aid.

Before long, Moscow was committed to giving military aid to Pakistan. India protested officially and with public demonstrations. Pakistan, meanwhile, began to disengage from the Southeast Asia and Central Treaty organizations. And the Russians, to calm New Delhi, again stepped up arms aid to India.

Now Moscow has gone completely over to the Indian side again, and this can damage the Soviet image in an area where it can hurt. The damage was

implicit in the lopsided vote against the Indian-Soviet position in the U.N. General Assembly, suggesting anger in the so-called Third World which Russia wants so much to influence.

Pakistan called for "jihad"—holy war—and that has strong emotional appeal to Islam's faithful. It seems bound to create strong reaction in the Middle East, where the Russians have a big stake in keeping their Arab friends happy.

On top of that a domestic Soviet problem is involved. The Soviet Union has a huge Moslem population of 30 million or more, many still fairly faithful to Islam.

Thus Moscow might be expected to want a fairly quick end to the hostilities, despite prospective short-term gains.

Moscow—and perhaps the Indians—now may suspect that Peking and Washington are moving too close together for Indian and Russian comfort. They may suspect that the United States is getting ready to seek Peking's good offices in helping the Americans disengage militarily in Southeast Asia. After all, stranger things have happened in world affairs in the last decade.

Ledrew James, follow too close, not guilty.

Jack Gainer, aid and abet to forgery, 12 months jail suspended pay \$100 and cost, probation 5 years.

Voted Boost In Allowance

LONDON (AP) — The House of Commons has more than doubled Queen Elizabeth's annual allowance and boosted the pay of Queen Mother Elizabeth and Princess Margaret, over violent objections by Labor party members.

Queen Elizabeth's allowance goes from \$1.2 million to \$2.5 million, the queen mother's from \$175,000 to \$237,500 and Princess Margaret's from \$37,500 to \$87,500.

Labourite William Hamilton concentrated his attack during the debate Tuesday on Princess Margaret and the queen mother.

Referring to the princess, Hamilton said, "Why, oh why, are we giving this expensive, kept woman that kind of salary increase for doing what she is doing?"

He also questioned the size of the queen mother's entourage, 33, noting that it included both ladies of the bedchamber and woman of the bedchamber.

"What the blazes do they all do?" Hamilton asked.

Conservatives accused Hamilton of making a "vile attack" on royal personages.

Driver Injured On Hitting Pole

No charges were placed in a 1:30 a.m. mishap this morning on Memorial Drive North of the Trade Street intersection that caused an estimated \$2,300 damage.

Police reported a truck driven by Larry Thomas Griffin of Route 5, Greenville collided with a utility pole, causing an estimated \$1,500 damage to the truck and about \$800 damage to the pole which supported main electric transmission lines from Greenville to the Winterville-Ayden area.

No charges were placed by investigators who reported Griffin was injured in the mishap.

The wreckage was left until daylight until utilities crews could erect another pole to support the power transmission lines and prevent interruption of service to customers.

TRUCK SAFETY CHECK
DETROIT (UPI) — More than 523,000 trucks serve the daily needs of Michigan's people and industry, reports the Michigan Trucking Association which maintains a Cooperative Safety Patrol of 95 men, some with radar equipment, to check on the driving habits of regulated truckers.

Pressure Soviet To Restrain India-Pakistan War

Freed Captives Are Examined

By LEE LINDER
Associated Press Writer
PHILADELPHIA (AP) — Rested and nourished on such typical American fare as hamburgers, French fries and steak, Mary Ann Harbert and Richard G. Fecteau face a series of medical tests today to determine the effects of captivity in Communist China.

The examinations had been scheduled to begin Tuesday at the Valley Forge Medical Center and Hospital, 20 miles northwest of here.

Doctors delayed the examinations to allow Miss Harbert, of Palo Alto, Calif., and Fecteau of Lynn, Mass., to rest from a 10,000-mile trip that began in Hong Kong after their release Monday.

Both Miss Harbert, 25, a Chinese prisoner for three years, and Fecteau, 43, who spent 19 years in a Communist prison, much of it in solitary confinement, said they were feeling well.

Doctors said the two were tired but appeared to be "in very good physical condition," although Fecteau's ordeal left him withdrawn and cautious.

Newsmen were not allowed to interview the pair Tuesday. A

State Department representative said the matter was entirely up to Fecteau and Miss Harbert and he was merely following their wishes.

Maj. Allen Yanoff, a staff physician at the hospital, said the evaluation of their condition was incomplete. He declined to speculate when they might be released.

Their first meal on the U.S. mainland consisted of hamburgers, French fries, cherry pie and coffee, thanks to a hospital dietician who didn't have the heart to serve them scheduled fare.

That consisted of rice and pepper steak, a regular menu item at Chinese restaurants.

Col. Leonard W. Johnson Jr., commander of the 9th Aeromedical Evacuation Group at Clark Air Force Base in the Philippines, accompanied the pair from Hong Kong. He said Miss Harbert "would probably be released first."

Johnson said "Fecteau will stay some time."

He described Fecteau as withdrawn and cautious and Miss Harbert as lively and outgoing.

Both spoke little of their imprisonment.

By FRANK CORMIER
Associated Press Writer
WASHINGTON (AP) — The White House is playing big diplomatic chips in seeking to link President Nixon's Moscow trip plans to the Soviet posture in the India-Pakistan war.

The latest word is that if the Soviet Union does not act quickly to restrain the conflict,

Nixon might reassess the wisdom of a recent agreement for him to visit Moscow late next May. There were hints that Moscow's future actions regarding the war might lead to reappraisal of the entire U.S.-Soviet relationship.

Such intelligence was made known Tuesday on condition the source not be identified. But

The Washington Post reported in today's editions that the apparent White House warning to Moscow came in a background briefing by presidential adviser Henry A. Kissinger.

The Post said Kissinger briefed five pool newsmen who accompanied Nixon to the Azores for two days of talks with French President Georges

Pompidou. The Post said it was not part of the pool and learned of the briefing independently.

At the White House, presidential press secretary Ronald L. Ziegler said Tuesday night: "No U.S. official was suggesting or intending to suggest that the United States was considering canceling the United States-Soviet summit. That report is not correct."

An administration spokesman, who would not be named, noted that the Soviets three times in recent days vetoed United Nations Security Council resolutions calling for an India-Pakistani cease-fire.

He suggested the Soviet Union may have been trying to prove to the world that mainland China, to be visited by Nixon in February, is pow-

erless to prevent the virtual collapse of Pakistani forces in the Eastern sector of their country.

The White House has gone out of its way to express strong displeasure at the Soviet vetoes of Security Council actions aimed at ending the South Asian conflict.

The most recent denunciation came at 1 a.m. Tuesday when Ziegler summoned reporters, some clad in pajamas, to an impromptu briefing session in the Azores.

Ziegler said the President strongly regretted the latest Soviet veto of an American-sponsored call for an India-Pakistan cease-fire and mutual withdrawal of troops from foreign territories.

It is suggested in some quarters here that Nixon's principal objective is to halt the fighting

before India, a clear winner over the Pakistanis in the East, can mount a determined offensive against the heart of Pakistan in the West.

A presidential journey to Russia rates as more than just another summit meeting. It looms over the expanding range of U.S.-Soviet relations. No president has been to Moscow while in office.

New Rates, Times For N.C. Telephone Calls

TARBORO — A new schedule of rates for long distance telephone calls which originate in areas served by Carolina Telephone and other North Carolina independent (non-Bell) telephone companies, and terminate within the state, are now in effect.

The new rate schedule was implemented by these companies at 12:01 a.m., December 13.

Also at that time, the time periods used by the independent companies in calculating charges for long distance calls within the state were changed to

coincide with those used in computing charges for calls to out-of-state locations.

As a result of the new rate schedule, some upward adjustments were made in charges for certain calls originating and terminating within North Carolina.

These changes were ordered by the North Carolina Utilities Commission to eliminate disparities between intrastate long distance rates being charged by Southern Bell and those being charged by the independent telephone companies.

The action by the commission followed a public hearing held in Raleigh October 28 concerning the matter.

In an earlier order on August 9, 1971, the commission had allowed certain intrastate toll increases to Southern Bell only.

Carolina Telephone is reminding its customers that long distance rates for all types of calls and at all times are lower when the subscriber dials the call himself.

These changes were ordered by the North Carolina Utilities Commission to eliminate disparities between intrastate long distance rates being charged by Southern Bell and those being charged by the independent telephone companies.

The action by the commission followed a public hearing held in Raleigh October 28 concerning the matter.

In an earlier order on August 9, 1971, the commission had allowed certain intrastate toll increases to Southern Bell only.

North Viet Supply Efforts Still Low

WASHINGTON (AP) — North Vietnam's dry-season effort to resupply its troops in South Vietnam and Cambodia is only about half as big as it was at this time last year, Pentagon sources say.

According to the latest assessments, the North Vietnamese have moved less than 4,000 tons of arms, ammunition and other supplies into the road network running through southern Laos in the first 10 weeks of the annual resupply drive.

The level of this effort has been rising, however, and officials say the North Vietnamese have massed enough stocks in their country's panhandle to mount a strong supply push into the Laotian pipeline in the months ahead, if they choose to do so.

President Nixon said last month he and his aides will be watching the degree of enemy activity and infiltration very carefully in December and January before making another announcement covering future withdrawal of U.S. troops from the war.

"If the level of enemy activity and infiltration substantially

increases," Nixon has said, "it could be very dangerous to our sharply decreasing forces in South Vietnam."

Analysts surveying the relatively low level of supply shipments from North Vietnam into the Laotian road net speculate the enemy could be planning to limit attacks during this dry season, perhaps to hasten the U.S. troop pullout.

Another theory holds that the North Vietnamese may be attempting to hold down the tonnage of stores in southern Laos to avoid heavy losses if the South Vietnamese again send troops to interdict the Ho Chi Minh trail, as happened last winter.

First Family's Greeting Card

WASHINGTON (AP) — A painting which shows George Washington inspecting construction of the White House in 1798 is the cover for the presidential Christmas card this year.

The painting is the work of Pennsylvania artist N. C. Wyeth.

Inside, the red, white and blue cards mailed from the White House on Monday bear the engraved inscription: "From our family for a Merry Christmas and a Happy New Year The President and Mrs. Nixon."

Gave Program At Garden Club

Mrs. Linda Burrell presented the program at the December meeting of the Dig 'N Delve Garden Club held at the Elm Street Recreation Center.

She showed various types of decorations being made at the center including candle making, egg decorating and pine cone wreaths.

Members of the club also brought various items to work on and shared ideas.

Hostesses for the meeting were Mrs. Edith Rand and Mrs. Terry Shank.

Mrs. Rachel Edwards welcomed Mrs. Mabel Wolcott as a guest.

White Christmas Guesswork Eased

By MIKE SHANAHAN
Associated Press Writer
WASHINGTON (AP) — Chances are only one in four there will be a white Christmas in Annette, Alaska.

For Nantucket, Mass., the odds for good sledding are one in 10. Residents of Oklahoma City, Okla., and Olympia, Wash., have virtually no chance of finding an inch of snow on the ground when they arise Dec. 25.

The government is trying to take the guesswork out of predicting where Christmas will be white by issuing a list of 269 cities and the historical probabilities that there will be snow on the ground.

The National Oceanic and Atmospheric Administration, which keeps climatological records on cities and towns where there are National Weather Service offices, emphasizes that the figures are probabilities and not forecasts.

"If the figure is 70 per cent, for example, it means that there normally would be snow on the ground seven years out of 10," NOAA said. "It does not necessarily mean a White Christmas this year."

Variations also may result in cities where the weather station and the downtown area are widely separated by either distance or elevation, NOAA said, explaining that there is sometimes snow in the suburbs and rain in the city proper.

But over-all, here are some of the findings.

Roanoke, Va., (27 per cent) has a greater chance than Cheyenne, Wyo., (23 per cent).

The probabilities in Oregon range from zero in Astoria to 91 per cent in Meacham; in Massachusetts from 10 per cent in Nantucket to 75 per cent in Worcester.

There are some predictables, too. Cities in Florida, Georgia, Louisiana, Hawaii and Mississippi have a zero probability of a white Christmas.

Of 14 cities listed in California, only Bishop (4 per cent) has any chance at all; likewise Huntville (9 per cent) among four cities in Alabama.

Fairbanks, Alaska, and International Falls, Minn., are the only two with a 100 per cent probability.

These are other selected cities and the probabilities of

snow for Christmas from the NOAA list:

North Carolina—Asheville, 7; Cape Hatteras and Wilmington, both zero; Charlotte, 3; Greensboro, 13; Raleigh, 3; Winston-Salem, 15.

South Carolina—Greenville, 7; and Charleston, Columbia, Florence, all zero.

Tennessee—Bristol, 18; Chattanooga, 3; Knoxville, 10; Memphis, zero; Nashville, 10; Oak Ridge, 12.

Virginia—Lynchburg, 17; Norfolk, 10; Richmond, 10; Roanoke, 27.

increases," Nixon has said, "it could be very dangerous to our sharply decreasing forces in South Vietnam."

Analysts surveying the relatively low level of supply shipments from North Vietnam into the Laotian road net speculate the enemy could be planning to limit attacks during this dry season, perhaps to hasten the U.S. troop pullout.

The painting is the work of Pennsylvania artist N. C. Wyeth.

MASONIC NOTICE
There will be a stated communication of William Pitt Lodge No. 734, AF and AM, on Wednesday, December 15, at 7:30 p.m. All master Masons are cordially invited to attend. W. Bradley Gray, Master, Roy L. Matthews, P.M. Secretary.

20.00-21.25 Tarboro; 20.50-21.00 Rocky Mount; 20.00-21.00 Kinross, New Bern, Benson, Newton Grove, Albertson, Lumberton; 20.50-20.75 Wilson; 20.00-20.50 Bethel; 19.00-20.00 Siler City, Denton; 22.00 Clinton, Fayetteville, Dunn, Elizabethtown, Pink Hill, Pine Level, Chadbourn, Ayden, Laurinburg; 21.25 Mount Olive.

RALEIGH (AP)—(NCDA)—
Prices are steady and supplies are adequate on the North Carolina hen market today. Demand is good for heavy types and fair for light types. Heavies, at farm, 16 to 17 cents per pound; FOB plants 18 to 19 cents. Light types sales too few to report.

NEW YORK (AP) —
The consolidation process that characterized recent stock sessions continued today. Trading was moderately active.

The 11:30 a.m. Dow Jones average of 30 industrials was up 0.37 at 855.51. Declines led advances on the New York Stock Exchange by more than 3 to 2.

The losers included order-retail and aircrafts. Electronics and glamour stocks were higher. All other groups were mixed.

Prices on the Big Board's most-active list included Natomas, up 1 1/2 at 67 3/4; Continental Oil, off 1/2 at 25 3/4; Santa Fe Industries, off 7/8 at 30 3/4; Texel, up 1/4 at 11 3/4; RCA, up 1/4 at 35 1/4; and Texas Gulf Sulphur, up 3/4 at 14 1/4.

Robbery Is Investigated

The Pitt County Sheriff's Department is investigating an armed robbery that is alleged to have occurred early Tuesday night near D. H. Conley School.

Sheriff Ralph Tyson said that Ray Arnold of Rt. 2, Grimesland, reported that he was robbed at knife-point by a man who hid in his (Arnold's) car while he was stopped in Winterville and who then ordered him to drive to the Conley School area.

The sheriff said that Arnold told deputies his car was followed by another vehicle as he drove to the school area and the car was stopped near his when the robbery took place.

Arnold, the sheriff noted, reported that \$32 in cash and a watch were taken from him. He was forced to remove his clothes, he told deputies, and drive home without clothing. He said his clothes were thrown out of the car.

Sheriff Tyson, who said that no arrests have been made yet on the case, said that incident was reported at 7:16 p.m. Arnold, he said, was not injured.

Name Low Bid For Project Materials

AYDEN — The Ayden Town Board of Commissioners Monday night named Eastern Electric Company of Rocky Mount as low bidders for material to upgrade the town's electrical distribution system.

The bid from Eastern Electric totaled \$23,074.64. The board also authorized Town Manager Don Russell to proceed with a request from the federal government for a grant to make a study of an area sewer system to serve Ayden, Winterville and Grifton.

Students Urged Try To Register

East Carolina University students are being encouraged to attempt to register with the Pitt County Board of Elections as part of an effort to determine an interpretation of state laws regarding student registration and voting procedures.

Rob Luisana, chairman of the ECU drive, said that the effort now underway centers on the interpretation of residency requirements for students who are qualified in all other respects to register and vote.

Students are being asked to make the attempt to register.

More Heard By Pitt Grand Jury

The Pitt County Grand Jury investigation into the Aug. 6 shooting of a Negro by a Highway Patrolman continued this morning.

By 11:30 a.m., the 21st witness subpoenaed to appear before the jury had been called. Some 24 witnesses were subpoenaed for a possible appearance.

The investigation into the incident was ordered by Superior Court Judge Robert Rouse last week to determine if there is probable cause for criminal action in connection with the shooting of William Earl Murphy by Patrolman Billy Day.

cordance with specifications."

The third bid received was from General Electric Supply Co. of Greenville at \$48,271.

In other business the commission:

—Approved a resolution supporting the state wide Clean Water Bond Act of 1971

—Named a committee to study a policy for extension of water and sewer mains into major mobile home parks.

—Approved a policy of allowing temporary permits for rural fire departments to draw water from city hydrants with a hydrant fee to be worked out.

—Heard that a new transmission line to Ayden was placed in operation Tuesday morning.

Barcelona is the largest city in Spain.

Selecting Jury For Rape Trial

The selection of a jury to hear the case against Bobby Ray Ward, who is charged with the Sept. 28 rape of an East Carolina University coed, began this morning in Superior Court.

Prior to the calling of the first prospective juror at approximately 11:15 a.m., Judge Robert Martin denied a motion by defense attorneys to quash or throw out the indictment against Ward.

Ward, 18, of Rt. 1, Grifton, was arraigned before the court on a charge of assaulting Hulda Mae Miller, 18, of Colerain near the university campus.

EARTHQUAKE
PALMER, Alaska (AP) — An earthquake measuring 7.8 on the Richter scale was recorded Tuesday night off the east coast of Siberia's Kamchatka Peninsula, the Palmer Observatory reported.

Fike Blasts Rose On Strong 2nd Half

By WOODY PEELE
Reflector Sports Editor

WILSON — The Wilson Titans pulled away from Rose High School at the start of the second half and rolled to an 87-63 victory last night.

It was the opening game of Division II play for both teams,

and gave the Titans a quick 1-0 record in the league, sharing a three-way tie for first. For Rose, it spelled a quick trip into the cellar with the other two opening night losers.

And the Rampants are doomed to stay there at least

until the first of the year, since no other league games are slated until then.

Rose played without the presence of their top rebounder and scorer, Lonnie Payton, who did not make the trip to Wilson. And without him, the Rampant

efforts were hampered, as they were constantly beaten on the boards by the taller Titan team.

The final half of the game turned into more-or-less a foul-shooting contest, especially for the Titans. Rose was charged with 29 fouls, while 17 were called against Wilson. The total

of 46 was close to the average that have been called in Wilson's two other games so far this season, but above the average for Rose's opening five.

The loss dropped the overall Rampant mark to 3-3, while Wilson climbs to 2-1.

Rose fell behind in the opening minutes of the game as the Titans ran off nine straight points before the Rampants finally found the range. Larry Barnes started the scoring off with a drive off the tap, and Robert Wilson followed with two baskets by Craig Norfolk and Wilson ran the lead out to 9-0 before Rose finally broke the ice after 4:44.

Lloyd Moorehead hit for the first Rampant score, and Robert Carraway followed seconds later. Rose fought back, and finally cut the lead to one at 11-10 as J. C. Daniels hit a jumper with 1:25 left.

Daniels followed with another shot on the fast break to put Rose ahead with 27 seconds left, 12-11, but a free throw by Raymond Wells tied it with 10 seconds to go. Robert Kear finished the quarter for Rose with two free throws with two seconds remaining, and the Rampants held a 14-12 lead at the horn.

The second half was more like a ping-pong game with the lead bouncing back and forth between the two teams. It changed hands 10 times during the period and was tied on three occasions.

Wilson put the Titans back into a tie, and then Charles Moody pushed them ahead at 15-14 with 6:52 to go. The lead went back to Rose, and then back to Wilson as Wilson and Freddie Sutton both hit for a three-point edge. Sutton hit again to run it out to five, but Rose fought back on baskets by Daniels and Ed Johnson to cut it to one.

The Rampants regained the lead on a jumper by Daniels, and after that, the two teams swapped the lead from 22-21 in favor of Rose until it was 27-26 in Wilson's favor. James Wooten tied it at 27-27 for Rose, but Wilson went back ahead on Dennis Wilkerson's jumper.

Rose again tied it and took the lead on a three-point play by Kear with 2:18 left in the half, 30-29. But those were the final points of the period for the Rampants, and the last time they were to lead.

Dan Quinn hit two jumpers for Wilson, putting them back out, and another shot by Wilson gave the Titans a 34-30 lead at the end of the period.

Wilson came right back out and pushed the lead out into a 20-point bulge at the end of the third period. While the Titans had been cold shooting in the first half, they warmed up in the second and blitzed the Rampants.

The lead quickly shot out to as much as 11 when Wilson hit a three point play with 5:18 left in the frame. That made it 43-32. It

stayed there for the next few minutes, and then Wilkerson hit and Quinn added three free throws to run it out to 16, 57-41, with 2:26 to go. The Titans continued to pull away, and finally made it 61-41, when Leroy Hardy hit from the floor and then added two free throws, seconds later. That ended the period.

Rose managed to come back to within 12 in the final period, but never could get a real rally going. Wilson pulled away again, outscoring Rose, 19-7, in the final four minutes of the game to run from the 68-56 margin, the closest it came, to the final 87-63 edge.

Kear led all scorers with 25 points, while Sutton had 16 and Wilkerson also had 16.

The Titans also captured the junior varsity contest, winning, 70-55. Like the varsity contest, it also was close until the half. In the first period, Wilson led by as much as four, but the two teams were tied at 17-17 at the buzzer. In the second frame, Rose went out by four at 23-19, but fell behind by the end of the period, 31-28.

In the third frame, Rose closed to within one, but then Wilson spurred away, outscoring them, 20-13. That gave them a 51-41 lead as the final period opened. Wilson again outshot Rose, 19-14, in that frame to win going away.

Jackie Savage led the Rose scoring with 14 points, while Herb Bynum had 11. For Wilson,

James Peppers had 15 and Thomas Blue added 10.

The Rampants try to climb back above .500 when they entertain Jacksonville at home on Friday. It will be the final game prior to the holiday break for the Rampants.

Gatling; third row, Eddie McGowan, Stencil Hines, Stacey Evans, Willie Starkie. Not shown are Melvin Tyson, Ronald Shivers, William Roach, Lester Roach and Wayne Maness. (Reflector Photo)

Despite No Experience, Conley Grapplers Shooting For Title

By WOODY PEELE
Reflector Sports Editor

(22nd of a series)

HOLLYWOOD — The D. H. Conley High School wrestling program is only in its first year, but coach Steve Morgan is hopeful that the Vikings might just turn in a conference championship right off the bat.

Thus far, the Vikings have done well, despite the fact that there is no experience at all on the team. "Nobody knew anything about wrestling six weeks ago," Morgan said. "But they're really working hard, and they've learned a lot in a short amount of time."

Morgan feels that the way the Vikings are shaping up that a title is not out of the picture. "We may not win all of our matches, but I think we have the potential to win them all. And winning the conference championship is

definitely a possibility. Our boys are dedicated and they're working hard. I think at least 10 of our boys could place in the 13 weights."

Beyond that, Morgan feels that four or five or maybe even a few more could come on strong and even pick up some points in the sectionals this year. He lists these as Dyke Hatch at 98-pounds, Melvin Tyson at 105, Richie Joyner at 126, Jimmy Justice at 132, Wayne Maness at 138, Elton Nicholson at 145, Billy Justice at 155 and Willie Starkie at 167. "Any one of them could place in the sectionals," Morgan said.

The team is a young one. There are only two seniors on the squad, along with one junior. The rest of them are sophomores and freshmen. This gives Morgan great hopes for the

future, as rapidly as the team is

winning along.

The coach, a former East Carolina University wrestler, gave a rundown of each of the weight classes.

Hatch is the leading man at the lowest class, 98 pounds. "He's a sophomore, and he's 3-0 so far this year. He's a hard worker, and big for his weight. He can do the job," Morgan said.

Eric Moore, a freshman, and John Maye, a junior, currently are working at 105. Moore is 3-0 to date, and Morgan rates him as a real tough competitor. "He looks good for the future, too. If everyone on the team has his heart, we wouldn't lose a match."

At 112 is Melvin Tyson, another sophomore, who is 2-0 at this weight. Morgan feels that he can get down to the 105 class by tournament time and be tough there.

Shedrick Gatling, a senior and Johnny Patrick, a freshman, are working at 119. Gatling is currently 2-1, while Patrick is 1-0. "Gatling is a hard worker and he doesn't give up. He was pretty far down the other night and came back to win," Morgan said.

Richie Joyner, a junior, handles the 126-pound class. He's 3-0 to date, and Morgan rates him as real tough, strong and quick.

At 132 is James Swinson, a freshman, who is 2-0. "He has a lot of desire and dedication," the coach said.

Wayne Maness, another freshman, also 3-0, is at the 138 class. "He is one of my best wrestlers," the coach said of Maness.

Elton Nicholson, a junior, is the 145-pound contender. "He's a real bull," Morgan said. "He's very strong and physical."

At 155 is Billy Justice, a 3-0 junior. "He's pinned all of his opponents in the first period. He's real tough and we look for a lot from him," the coach said.

Willie Starkie, a sophomore, is another 3-0 wrestler. He's also won all three of his by pins. "He really puts out," Morgan said.

Two candidates are at 185, senior Stacey Evans, 1-0, and sophomore Stencil Hines, 1-1. Morgan rates both fine prospects.

At 195 is Lester Roach, who is

wireless in three matches. "He's met three of the finest we'll meet at this weight," Morgan said. "He's strong, but he needs more work."

Topping the list is 245-pound sophomore Ed McGowan in the heavyweight class. "He's 1-2 so far, but he could get a lot better with experience."

Morgan feels that if his team had the experience some of the others have, there would be no question about Conley's winning the title. "But I do feel we have the chance. Farmville Central and North Pitt, of course, are the teams to beat. But they may just beat each other out and we could slip through."

"We'll learn a lot Thursday when we wrestle Farmville. They may beat us now, but I don't think they will later. If our top weight begins to come around, we're going to be real tough. We've been able to do well in the low and middle weights, but if the top people come through for us, we'll be in there."

Conley Edges By No. Lenoir

HOLLYWOOD — D. H. Conley's Vikings remained unbeaten last night, but they had to scramble to do it. They outlasted surprising North Lenoir, 55-53, and stayed atop the Eastern Carolina Conference.

The Valkuries, meanwhile, were winning their fifth victory against one defeat, also by a close score, 27-23.

In the girls game, Conley pushed out into a 7-4 lead in the first period of play. But North Lenoir put together a rally in the second period, and outscored the Valkuries, 9-6. That left the two teams in a 13-13 deadlock at the half.

Conley came back and outscored the Lady Hawks, 8-6, in the third frame, and slipped out into a 21-19 lead as the final period began. Conley then held off North Lenoir, 6-4, and clung to the lead for the win.

Beverly Summers led the scoring with 17 points for North Lenoir. Madge Dews and June Hall each had nine for Conley.

In the boys contest, the Vikings pushed out by four in the first period, 14-10. But like the girls, North Lenoir made a comeback in the second frame. They were unable to claim a tie, however, as they only outshot the Vikings, 13-12, and trailed 26-23 at the half.

In the third period, however,

the Hawks outth the Vikings, 16-13, and finally did tie it up, 39-39, as the final frame opened. It stayed close as the two teams swapped baskets. Conley finally went out by four at 49-45, but again North Lenoir caught up. David Pugh put Conley back out, 51-49, and the Vikings put through another for a four point lead, and they swapped baskets the rest of the way as the Hawks couldn't catch them again.

Pugh led the Vikings with 19 points, while James Fleming had 13 and Dwight Hawkins had 10. Joe Keyo had 17 and Greg Gaudler had 12 for North Lenoir.

The Vikings, now 6-0, travel to Southern Nash on Friday, seeking their seventh victory.

Ayden-Grifton Runs By Jaguars, 67-50

Robersonville Nips North Pitt In Two Overtimes; Machine Wins

ROBERSONVILLE — The Robersonville Eagles outlasted North Pitt's Panthers last night, taking a 71-68 overtime victory over them. The North Pitt girls, however, romped to their 32nd victory in a row, overwhelming the Golden Eaglettes, 52-24.

Robersonville inched out into an 18-16 lead in the first period of the boys game, but North Pitt came back with an 11-9 advantage in the second frame, leaving it tied, 27-27 at the half.

The Panthers threatened to run away with it in the third frame, outshooting the Eagles, 20-13, as they ran out into a 47-40 lead. But Robersonville turned the tables on them in the final frame, and finally tied it at 57-57 as the regulation time ran out.

In the first overtime, neither team could pull away, as both put in eight points. That left it at 65-65 as the second extra frame got underway. But in that one, Robersonville outthit the Panthers, 6-3, and captured the victory.

Shelton Smith led the Eagle victory with 28 points, while Ernest Crandall added 13 and Edward Warren had 12. For North Pitt, Daniel Highsmith

had 24 points, while Joe Wright had 12.

In the girls game, there was no contest after the opening moments. North Pitt ran out to a 6-1 lead in the first quarter, then outscored the Eaglettes, 11-5, in the second. That left the Big Orange Machine with a 17-6 lead at the half.

The Machine really got moving in the second half, outscoring Robersonville, 18-10, in the third period. That upped the lead to 35-16. The Pant-HERS did it again, 17-8, in the final frame to win going away.

Wanda Wichard led the JV — North Pitt 44, Robersonville 47

North Pitt	Robersonville
Whitard 11	S. James 10
Harris 7	Jenkins 3

scoring with 11 points, while Susan James added 10 for the Pant-HERS. Jenny James had 11 for Robersonville.

Aurora Tops Bear Grass

BEAR GRASS — Aurora High School swept a pair of games from winless Bear Grass last night. The Aurora boys won their game, 59-41, while the girls took a 37-15 win.

Aurora edged out in front of the Lady Bears, 6-3, in the first period and stayed there the rest of the way. It stayed fairly close during the first half however, as Aurora outthit Bear Grass only 6-4, in the second period for a 12-7 lead at the half.

In the third period, however, Aurora put the game on ice. They outthit the Bears, 11-1 and powered out into a 23-8 lead. They did it again in the final frame, getting a 14-7 advantage to win going away.

Georgia Hill led the Aurora scoring with 12 points, while Sherry Smithwick had 10. Eva Knox led Bear Grass with six.

In the boys game, Aurora also eased into the lead at the end of the first period, 13-11. And they too began to pull away in the second frame. They outthit the

Robersonville hosts Oak City in its first league game, while North Pitt entertains Eastern Wayne in Friday's action.

After the A-G J.V. Chargers downed the Farmville Central Baby Jaguars 58-48, the girls came on and picked up where the boys had left off.

The Chargerettes took the lead shortly after the start of the game on a basket by Maude Babington but the Lady Jaguars tied it up for the only time in the game on a jumper from the key by Judy Mewhorn. The A-G girls got the lead back and kept it on a shot by Connie Carter. Jo Ann Dawson added a free throw to that to start the Chargerettes pulling away. Sheri Van Schritlz got the Lady Jags to within one on a jumper from the corner but Nancy Suggs made up for it by sinking a bucket from the top of the key. Debra Harris put two more points on the board as she hit from the corner with 2:30 left in the quarter. Delane O'Brian hit from outside cutting A-G's lead to three with 2:10 left but a bucket by Dawson got the edge

back to five. At the end of the period, the Chargerettes were in front 11-6.

Neither team could get many shots to go in the second quarter as the Lady Jags got only three points and the Chargerettes put up just 10. A-G's girls ran their lead out to 13 with 5:60 showing in the half and after a FC basket, Suggs hit a charity shot and Dawson sank a field goal to give them a 17 point lead at 30-13. Two more buckets made the score 34-13 with 1:55 showing. The score at the end of the half showed A-G ahead by 36-15.

The Chargerettes kept pouring it on in the second half and went on to win, 41-21.

Mewhorn led the Lady Jags with seven while Harris paced the Chargerettes with 11. Dawson had nine.

The first minutes of the varsity game were tight and neither team could get the lead and hold on to it. The Jags took the early edge but the Chargers moved ahead on two baskets only to have the Jags tie it up and take the lead back on a free shot. Only in the last minute of play in the first quarter did A-G break away and take a commanding lead which they never lost.

The Jaguars controlled the tap to start the game and im-

mediately got two points on an outside jumper by Connie Tripp. Sam Stuart tied it with a shot from the corner and two minutes later got the lead as he laid the ball in from underneath with 5:17 remaining. McCoy Williams retied it for Farmville Central with a field goal but the Chargers made up for these two points as Danny Garris hit with 3:57 left. Charles Rasberry took a pass under the basket and put it in to tie it again. He drew a foul on the play and connected on the free throw to make the three-point play. Both teams swapped charity shots and Stewart laid in a bucket to give the Chargers the lead with 1:42 left in the frame. Farmville Central got it back, however, on a field goal by Tripp. A-G got three straight buckets from Melvin Stewart, Milton Brown and Willie Stewart to give the Chargers a 15-10 lead at the end of the period.

A-G forged ahead in the early part of the second quarter to get a 23-15 lead with 5:03 left in the half. Two field goals by Melvin Bunch pulled Farmville Central within four but the Chargers pulled away again on the shooting of Melvin Stewart and Danny Garris. At the end of the half, A-G went into the dressing room ahead 33-23.

Ayden-Grifton could do nothing wrong in the third quarter as they picked off

passes, sank field goals, and hit free throws getting out in front by as much as 19 in the latter part of the period. The play in this quarter demolished the Jaguars and they could never recover. After three quarters the score was 48-33, A-G.

The fourth quarter was much like the third with the Chargers controlling the boards. Farmville Central was too far behind to pull anywhere close to the Chargers but managed to get their most points, 17.

Only Farmville's Melvin Bunch was in double figures for the Jags. He pumped in 13 points before fouling out late in the game.

Willie Stewart led the Charger attack with 20 points. Brown and Melvin Stewart and Jessie Smith each had 12.

Davidson Rips Spiders, 100-66

By THE ASSOCIATED PRESS

There would have been many a chuckle, or perhaps an outright laugh, if anyone had suggested tonight's meeting of Virginia's Cavaliers and William and Mary's Indians would involve the basketball leaders of the two major conferences in this area—even this early in the season.

But that's just what tonight's scrap at Williamsburg, Va., is — the Atlantic Coast Conference-leading Cavaliers, 4-0 over - all and ranked No. 19 in the nation, and the Southern Conference-leading Indians, 2-1. Each is 2-0 in its own league.

Virginia hardly figured to be at the top of the ACC since its first two league games were at Duke, where the Cavaliers never had won, and at home against fifth-ranked Maryland. The Cavaliers won both games.

The Indians opened their season against defending Southern Conference champion Furman, a favorite to repeat, and whipped the injury-riddled Paladins 110-91. Then the Indians knocked off The Citadel in their next SC start.

Davidson's Wildcats climbed out of the basement in Tuesday night's only action by demolishing Richmond 100-66, dropping the Spiders from a tie for second and preventing their deadlocking W&M for the lead.

The Spiders didn't hit a field goal in the first 6:44, and by that time Davidson was in front 16-2. It was no contest after that as the Wildcats won for the first time in three league starts.

Sophomore John Falconi had 22 points and Joe Sutter 17 and 11 rebounds for Davidson.

Jamesville In Win Over Lakers

SWAN QUARTER — Jamesville and Mattamuskeet split a pair of basketball games last night. Jamesville won the boys game, 70-60, while the Lakers took the girls contest, 45-33.

In the girls game, Mattamuskeet inched out into a 12-9 lead in the first period. Jamesville tried to rally in the second frame, scoring 12 points, but Mattamuskeet came up with 14 to stay ahead, 26-21.

In the third period, the Lakers added to their total with a 6-9 advantage. That upped the lead to 35-27. They finished things off with a 10-6 scoring spread in the final period.

Kathy Brickhouse led the Mattamuskeet scoring with 17 points, while Cheryl Smith had 12 and Donna Williams had 11 for Jamesville.

In the boys game, the Lakers and Bullets swapped baskets for the first period of play and ended up in a 17-17 deadlock at the horn. In the second period, however, Jamesville began to pull away, outscoring the Lakers, 22-18. That put the Bullets out into a 39-35 lead at the

half.

Jamesville continued to pull away in the third period, 12-8, as they build the lead out to 51-43. Then, in the final period, the Bullets outscored Mattamuskeet, 19-17, to wrap it up.

Alvin Grimes led the Jamesville scoring with 17 points, while Gurkin Martin and Bill Moore each had 12 and Larry Modlin had 10. Tony Simpson had 20 and Sam O'Neal had 12 for Mattamuskeet.

Jamesville plays host to Aurora on Friday.

Jamesville — Davis 1, Smith 12, C. Perry 1, Williams 11, C. Hardison 4, Tetterton 2, T. Hardison 2, Leggett, Harrell

Williamston Is Still Unbeaten

WILLIAMSTON — The Williamston Tigers continued to roll along in the Albemarle Conference last night, sweeping a pair of games from Gates County. The Tigers won, 47-38, while the Tigerettes pulled in a 39-32 win.

In the girls game, Williamston shot away to an 11-2 lead in the first period. Gates warmed up in the second period, scoring nine, but that only matched the Tigerette total, and Williamston held a 20-11 lead at the half.

In the third period, Gates managed to cut two points off the Williamston lead, 11-9, but that was the best they could do. They trailed, 29-22 as the final period opened. Both teams pushed through 10 points in the final period as the seven-point margin held.

Joanie Rodgers led Williamston with 12 points, while Libby Warren added 10. Lulu Eure had 11 and Theresa Outland had 10 for Gates.

In the boys game, Williamston eased out into a 15-12 lead during the first period. They added to this by five in the second frame with a 12-7 advantage. That made it 27-19 at the half.

In the third period, the Tigers again outthit Gates, 8-6, and upped the lead to 35-25. Gates finally outthit the Tigers, 13-12, in the final period, but it had no effect on the outcome.

Dwight Ange led the Tigers with 18 points, while Donnie Umphlett paced Gates with 16 and Joe Ballard added 10.

Williamston travels to Weldon on Friday.

Rams Beaten In Overtime

NEW HOPE — Eastern Wayne High School took a pair of games from Greene Central last night. The Warriors won the boys game in an overtime, 61-57, while the girls rolled to a 40-20 win.

In the boys contest, Eastern Wayne slipped out into a 17-15 lead in the first period, but Greene Central came back to move ahead in the second. The Rams outscored Wayne, 12-6, and built up a 27-23 lead at the half.

But it didn't last. Eastern Wayne came roaring back, outthitting Greene, 17-9. That put the Warriors back into the lead, 40-36. But Greene came back to outthit them again, 17-13, tying it at 53-53 at the end of the regulation time. Eastern Wayne, however, outthit the Rams, 8-4, in the overtime to claim the victory.

Bobby Body led the Eastern Wayne scoring with 23 points, while Ervin Spivey had 19, Lacy Ward had 13 and Billy Williamson had 11 for Greene Central.

In the girls game, it was all Eastern Wayne. They led, 6-3, in the first period, then outthit Greene, 3-1, in the second for a 9-4 lead at the half.

Wayne really did the job in the third period, outthitting the

Ewes, 24-6, to run up a 33-10 lead as the final frame got underway. Greene outthit Wayne, 10-7, in that, but to no avail.

Pat Smith led Wayne with 13 points, while Jackie McLawhorn was high for Greene with nine points.

The Rams play host to Ayden-Grifton on Friday.

Replay Brings Decision Change

WINCHESTER, Va. (AP) — Don't laugh at those persons who have suggested it might be a good idea if athletic officials were required to take a look once in a while at an "instant replay."

It actually happened here recently in a basketball game between the University of South Carolina at Aiken and Shenandoah College.

During the first half, South Carolina's Doug Hudson took a shot at the basket and was fouled by Shenandoah's Mike Kyre.

"The field goal was good and he was fouled in the act of shooting," said the referee, who was not identified. "He'll get a chance for a three-point play."

That brought Shenandoah coach Mike Kolsky off the bench in a hurry.

"That basket was not good—I saw it. It bounced off the hoop," said Kolsky. "There was a foul on the play, but the basket did not go through."

Although admitting he was watching the foul more closely than the ball, the official insisted the basket was good. The other official, also unidentified, said he just wasn't sure.

Kolsky, after a five-minute argument, started to return to the bench. But then he pointed to something beside the court, between the two sets of bleachers—a video tape machine that had been whirring along.

The officials, willing to make sure of their call, agreed to watch an instant replay.

After a couple of jumps and flickers, the monitor settled down just as the fast break developed, and there it was—the ball being brought down court, Hudson shooting and being fouled by Kyre and in the end the ball bouncing off the rim of the basket.

The officials admitted their mistake, disallowed the basket and gave Hudson two free throws.

"It took really good officials

to even look at the tape," said Kolsky. "It takes a final official to change a decision like they did."

It didn't help, though. Shenandoah lost 82-80.

"Robbin' your dog of his Chunx is the same as robbin' him of his energy."

That cat burglar is sure a sneaky critter. He's out to steal all the Jim Dandy Chunx in town. You see, he knows there's an extra burst of energy in every crunchy, toasted Chunx nugget. It's the kind of extra energy that can keep a dog feeling his peppiest when he's running and playing his hardest. Dogs really go for Chunx's meaty flavored basting, too. Mmmmmm! So, don't rob your dog of his energy. Feed him Chunx, the toasted dog food all breeds love. It sure won't make the cat happy, but your dog sure will love you for it.

Quick! Before the cat burglar strikes your store, clip this coupon and save 7¢ on Jim Dandy Chunx.

WHAT ICE? WHAT DANGER? — Padding around in Grenadier Pond in Toronto's High Park, wintering ducks ignore the sign warning that the nonexistent ice is unsafe. And it's likely to

remain nonexistent for the next few days as Toronto weather is expected to be miserable with wet snow or rain and temperatures reaching a high of about 45 degrees. (CP Wirephoto)

Elvis Presley Recalled As Song Perfectionist

By NANCY SHIPLEY
Associated Press Writer
NASHVILLE, Tenn. (AP) — Members of gospel music's Stamps Quartet have prized souvenirs of their recent cross-country tour with Elvis Presley.

Each of the singers has an engraved gold watch — a gift from Presley.

J. D. Sumner, manager of the quartet, says it was the highlight of the Stamps Quartet's career to appear with the famed entertainer.

"He's a perfectionist," Sumner said, "and he really kept us on our toes."

Wherever Presley appeared, auditoriums were filed to capacity and in some places, tickets were reportedly selling at \$100 each.

The night the tour climaxed in Salt Lake City, Utah, Presley gave a party for members of the tour.

"Elvis came down to the party and asked the Stamps to sing for him," Sumner said.

"We gathered around the piano and sang everything we knew," Sumner recalled. "He joined in on many of the songs with us and even sang bass once."

Sumner said the group sang a couple of fast songs, but Presley liked the older, slower ones better — tunes like "If I could Hear My Mother Pray Again" and "Previous Memories."

"I truly believe that singing gospel songs is a form of worship for him," Sumner said, adding, "he can't go to church because he just breaks the service up when he comes in."

On a couple of occasions, Presley sent for Sumner to come to his room. "He just wanted to talk about some of the people in gospel music he really likes — people like Jake Hess, Hovie Lister, James Blackwood."

Random notes ...

Paul Crabtree will portray the history of American music for Opryland USA's five musical shows.

Crabtree has appeared on Broadway in 15 plays, written television scripts, and produced or directed more than 250 plays and musicals.

He moved in Crossville, Tenn., in 1963 where he produced and directed the musical review "Tennessee USA" which

ran for five years.

Asheville Votes Added Bonds

ASHEVILLE (AP) — Voters in Asheville have approved an additional \$3 million in bonds to complete what city council has called a first class civic center.

Unofficial returns from all of the city's 17 precincts showed that 7,259 voted for the issue with 1,699 against it.

The extra \$3 million will be added to the \$5.3 million authorized by voters in December 1967. Construction at the downtown civic center site already is well along.

A new arena is being built alongside the existing city auditorium, which will be extensively remodeled. The two structures will be connected by a new two-story lobby.

City council expects the new facility to be ready for opening in the spring of 1974.

April 12-15, has already attracted 4,000 reservation requests.

CMA spokesmen said country music lovers who have sent in early reservation requests are from 25 states and Canada.

C&D Chairman Concurs State Board Still Needs A Director

RALEIGH (AP) — Chairman Gilliam Horton of the State Board of Conservation and Development says he agrees with Gov. Bob Scott that the state still needs a C&D director and agrees with the governor that Eugene Simmons is the best man for the job.

"Until the legislature deletes the responsibilities of a director, which are specifically stated in the law, I feel there certainly should be a director," Horton said following a confer-

ence with Scott Tuesday about powers remaining with the C&D board as a result of reorganization of state government.

Meeting with the governor in addition to Horton were Simmons, Charles W. Bradshaw, secretary of the new state Department of Natural and Economic Resources (NES), Victor Barfield, deputy secretary of NES, and three members of the C&D board.

The C&D board had requested the conference to determine its powers following government reorganization.

"The board members wanted to be sure that there is a job

for them to do if they continue in their positions," Horton said. "There's no need in being a rubber stamp."

Horton said Scott "has very vividly cleared up these doubts—the board is still needed and its statutory powers still exist. There has really been no basic change" as a result of government reorganization.

Horton said that while the C&D board retained its statutory powers, certain management problems remain to be solved by Scott. One of these was a dispute that prompted the C&D board to ask for the conference with the governor.

This came when the NES secretary ordered an industrial development office in the western part of the state closed while the C&D board wanted it to re-

main open. Horton said Scott told him he would take the matter under consideration.

Horton said he had not been consulted regarding Simmons' appointment and also was not informed by the governor on the effect of government reorganization on his board.

"I wasn't pleased with this situation," Horton said. He said the board members were "generally speaking, not satisfied" with "being left in the dark" on reorganization plans.

Asked if he planned to remain a member of the board, Horton said, "All of us don't know from week to week how we might move, but my intentions are to continue serving as chairman."

Former Sheriff Wins Acquittal

RUTHERFORDTON, N.C. (AP) — A jury in federal court has acquitted former Sheriff Damon Huskey of violating the civil rights of the acting manager of a Forest City drive-in theater when she was arrested two years ago.

The acting manager of the Midway Drive-In, Mrs. Susan Dantzig, has sought \$50,000 in punitive and compensatory damages for the manner in which she was arrested on a charge of showing allegedly obscene movies. She contended that the arresting officer came into the concession stand, grabbed her, causing her glasses to be broken, and she was put into the sheriff's car before a warrant was read to her. Judge Woodrow Jones of District Court said after the jury verdict Tuesday that he would dismiss the case.

Began Arrests In 30 Seconds

CHARLOTTE (AP) — A teacher has testified that police began making arrests within 30 seconds during a racial disturbance at a high school in October although pupils had been told by the principal over the intercom that they had three minutes to disperse.

The testimony Tuesday aided in the acquittal of a 17-year-old pupil at South Mecklenburg High School who had been arrested on charges of trespassing and disorderly conduct.

In earlier cases, also tried in state District Court, police had testified they waited at least three minutes before moving in to make arrests. Some policemen said they waited five minutes.

Long Sentence In Death Case

STATESVILLE, N.C. (AP) — A construction worker in whose car a woman's body was found last July was sentenced Tuesday to 20 to 30 years imprisonment after pleading guilty to second-degree murder.

The defendant, Haywood Harry Hegler, 43, of Salisbury, testified he had been drinking. He said he could remember driving around, but had no recollection of arguing with the woman, Mrs. Virginia C. Drye, 44, of Kannapolis, or of beating her.

SEED SENSE

NEW YORK (UPI)—In ordering garden seed, the old standbys should be included with some promising new varieties. Seeds should be ordered in plenty of time to have them ready by planting time.

Vonnegut Writes Of Imaginative And Improbable

By PHIL THOMAS
Associated Press Writer
NEW YORK (AP) — Casual, with open-necked shirt and suspenders, Kurt Vonnegut had been pecking out a story on the typewriter in his Manhattan apartment as two cats played in the backyard garden.

"It's going to be a feature film for educational television," Vonnegut explained, pointing at the pages in and around the typewriter. "It'll run an hour and a half and deal with a space shot. The astronaut will be a poet named Stony Stevenson. We decided to fire a poet into space because he probably would have a bigger vocabulary than a regular astronaut and could describe things better. It's not a regular shot either because Stony gets fired

through a time warp." Which pretty well describes much of Vonnegut's six novels, short stories and plays—they usually start out normally but quickly move into the wildly imaginative improbable.

His tightly-wrought novel "Slaughterhouse Five," for example, deals, at the same time, with the blunt reality of the fire bombing of Dresden in World War II and the wild adventures in time and space of a "hero" named Billy Pilgrim. The novel—by a man who in the past "Hollywood never had anything to do with"—will be the second of Vonnegut's writings adapted for the screen. The first, "Happy Birthday, Wanda June," was adapted for the movies by Vonnegut from his Broadway play of the same name.

The 49-year-old Vonnegut, a

cigarette often between his mustache-topped lips, makes no determined effort to explain his books or their rather recent popularity, especially among the youth set, after being regarded for a number of years as strictly a science-fiction writer.

"I don't consider myself a science-fiction writer," he says quietly. "That's just a literary ghetto area writers want to be in. Some writers enjoy being set apart by being called science-fiction writers. That's OK. "But me, I'm just a novelist. The thing is in writing that there are ground rules and one of them that is hard to break is the idea that you can't be a serious novelist and include technology. The serious-minded writers have ignored technology because they don't know

much about it. But you can't leave machinery out anymore. I don't see how you can write a novel now when the sounds of machinery are in your ears constantly. Me, the machine keeps company. I can't ignore it."

He continues, "The books of mine that are popular now I sold to the paperback houses for \$3,000 when no one took me seriously.

"I didn't go after the youth market. I don't know why the kids read me, it's not for me to say. I never set out to please them. It's simply that the readers found me. The publishers react to sales figures and my sales figures are high.

"George Orwell says somewhere that writers write books they can't find on the library shelves. That's what I've done.

I had no market to write for, so I simply wrote."

Vonnegut served his time as a reporter and public relations man before turning to writing fulltime in 1950. However, he notes that he had to take time out occasionally to support his family, by teaching, a stint in an ad agency and a try at selling foreign cars.

Now he works at his writing every day. "Most of it's garbage," Vonnegut says candidly. "But that's OK. I'm patient. I don't think there's any great rush. I just get up in the morning and sit at the typewriter. Biologically the best time for me to write is from 9 to 12. In the afternoon I answer letters, go for walks, that sort of thing."

In addition to the television show, Vonnegut currently is working on a movie script and a novel. He's had the idea for the novel for 15 years but says

philosophically, "It takes me a long time to get a novel right. But there's no great rush to get the thing out. There are plenty of good novels to read while I get mine done."

He declines to discuss the novel because "I don't really know what it is about. I'll find out by writing, and writing—by externalizing it on the typewriter."

He also doesn't care to talk too much about his life or ideas because "I can't tell my life in 20 words." But, he adds, "there are things I believe" and one of them is:

"I think a lot of the discontent people feel now comes from the fact that human beings are not supposed to live in solitude as much as they do or to move around as much as they do.

"For millions of years humans lived in stable societies, but now we are fragmented, and it's unbearable. Man was not meant to be that way. Humans are not used to this—so you get the situation where a man and his wife try to be an entire society to each other with gruesome results.

"People can take a hell of a lot, but if they can't stand it, they die, and there's a lot of that going on. The foremost malady of our time is lack of community."

HENRY MOVES SOUTH
NEW YORK (AP) — Bruce Henry, road secretary of the New York Yankees for 11 years, and Rob Franklin, general manager of the Yankees' Fort Lauderdale, Fla., team, have switched jobs for 1972.

Religious Zealots Are Harassing Israeli Doctors

By THOMAS CHEATHAM
TEL AVIV (UPI)—Yitzhak Levi woke up one morning to read his own death notice, black-bordered, in the newspaper. Alfred Behar came out of his house to find his car smeared with paint.

See Market For Frozen Foods

NEW YORK (UPI)—Only 2.5 per cent of the homes in the United Kingdom have freezers, compared with 30 per cent in the United States.

This industrialized nation is seen as a good potential frozen food market that should develop rapidly, according to the Bureau of International Commerce.

defaced, received death threats, had their families threatened, been awakened at night by crank callers and seen their own pictures on "wanted posters" around town.

What brought Levi, Behar and the others under harassment is the fact they are pathologists performing autopsies in hospitals in this Jewish state.

The harassers are religious Zealots who hold to the ancient belief that bodies must be buried intact, so that when the Messiah comes they will be able to rise from the dead and join him.

The campaign against them has both worried and angered the doctors, so much so that for one day this month 70 of them went on strike in a demonstration demanding better police protection and action against

the Zealots. This followed an earlier two-hour "sympathy"

Dry Air Can Be Uneconomical

NEW YORK (UPI)—Low humidity in your home can be not only uncomfortable but uneconomical.

When the air is too dry you feel colder because of excess moisture evaporation from your body. As a result you need a higher room temperature to feel comfortable. Studies by Honeywell, producer of home comfort controls, indicate that a 40 per cent drop in humidity must be offset by a five-degree increase in room temperature to maintain the body comfort balance. This temperature increase can raise your fuel bill 10 to 15 per cent.

strike by all the nation's doctors.

Four youths were arrested recently at a telephone booth on suspicion of placing harassing calls to pathologists, but no charges were placed against them. Police said they were investigating.

"All the police do is investigate," said Dr. Raphael Reis, an Israel Medical Association spokesman. "No one has ever been apprehended, charged in court and brought to trial despite the fact this terror campaign has been going on for years."

The situation provides yet another illustration of the problems of a modern religious state encumbered by centuries old religious laws.

"If the autopsies are to be prohibited in Israel through

hooliganism against pathologists, the Zealots will attain the same goal as the anti-Semitic government of Po-

Sealer Helps To Save Concrete

PITTSBURGH (UPI)—Urban and suburban homeowners can protect concrete sidewalks and driveways from the damaging effects of winter's freeze-thaw cycles and de-icing salts with a sealer that is easy to apply and remains effective for up to five years. The concrete sealer, which can be applied with a roller or spray, also can be used to decorate concrete, as it is available in a variety of colors as well as a clear formulation, says PPG Industries.

land," one doctor wrote in the Jerusalem Post.

"I'm very sorry that the government has not been tougher in handling attacks by religious hooligans on pathologists," the dean of the Hadassah Medical School, Prof. Aharon Beller, said. "We get the impression that not all is

Use 6 Tons Of Coal In One Car

DEARBORN, Mich. (UPI)—It takes six tons of coal to make one passenger car, the Ford Motor Co. says.

This includes coal used in coke ovens and powerhouse at the auto company's Rouge Plant here, plus coal used by suppliers and in the transportation of raw materials.

being done that could be done."

The situation places Prime Minister Golda Meir in a quandary. If she speaks out against the Zealots she risks offending the three national religious party members of her cabinet, who back her foreign policy in exchange for favors on the domestic scene.

"A pathologist is not a man running around with a knife cutting people up—the impression being given in some quarters," a Hadassah Hospital spokesman said. "He is vital in analyzing organs believed to be cancerous, for instance, and therefore in saving lives."

A law passed in 1953 allows autopsies to be performed in Israel without consent, but only if the head of the hospital approves, or if it is ordered by the police, or if there is

suspicion of a hereditary illness.

"After all," the Hadassah spokesman said, "sometimes it is necessary to know why Mr. A. dies in order to save the life of Mr. B."

No Longer List Some 'Records'

NEW YORK (AP)—Starting with the 1973 edition, the Guinness Book of Records will no longer list outlandish drinking and eating feats because people have been hurt trying to better them.

One man caused his ulcer to perforate in Bristol, England, by trying to break the record for beer drinking while standing on his head.

The Worry Clinic Caste System Has Adherents

Judy's father has turned his back on his own kind. For he secretly envies what he regards as an upper caste system in America. Instead, he should be the champion of the young man who belongs to that "Eternal Fraternity of Merit."

By GEORGE W. CRANE
Ph.D., M.D.

Case S-545: Judy J., aged 19, wants to get married.

"Dr. Crane," her family physician began, "Judy is an attractive girl with a lot of what you term 'horse sense.'

"And that is all the more remarkable because her father is a wealthy self-made man here in our state of North Carolina, who gave Judy everything her heart desired.

"Judy has two suitors. 'One is the ne'er-do-well son

of a leading socialite family. I doubt if he will ever amount to anything, for he is a typical playboy.

"The other young man did not even go to college but has established a successful business of his own.

"In fact, he has followed much the same route that Judy's father used to attain wealth.

"Oddly enough, however, Judy's dad violently opposes her marrying the self-made young man.

"Instead, he is doing everything possible to get Judy into this socialite family whose inherited wealth is all that keeps them in the forefront of our Country Club set.

"Why does Judy's father shun the worthy young man who has proved his mettle, and urge her

to marry the socialite suitor?"

Caste System

Unofficially, we have a rigid caste system here in America that almost equals that of England and India.

Indeed, our constant clamor for longer week end holidays and a shorter work week, is indirect proof.

For European royalty, plus the nobles, barons and knights, were envied by the serfs or peons.

And that "freedom from toil" became enshrined as the badge of aristocracy.

Many Americans now quit working at 40 to intimate they are thus patricians!

Lower caste folks envy the

upper castes, even though the latter are often degenerate non-producers.

Unions constantly try to reduce the work week, due to this same envy!

Judy's father thus secretly aspired to be included in that fraternity of patricians!

In England, thousands of ambitious men likewise yearn to be "knighted," just for this same silly envy of the top castes.

Even though Judy's father is a very successful business tycoon, and with his earned wealth can now join the socialites of North Carolina at Country Club affairs, he still feels as if he is an alien.

So he aspires to have his grandchildren admitted to that socialite "caste" even if his daughter must wed a disolute ne'er-do-well member of the envied upper caste.

Back in ancient Rome, the slaves also envied the free Romans and sometimes managed to purchase Roman citizenship.

But there was a caste system even then between those who were "born" Romans versus those who bought Roman

citizenship!

Judy's father is showing, albeit 2,000 years later, an American illustration of that Roman situation!

Woodrow Wilson stated our American aim when he said: "All any American should desire is a free field and no favors."

So I urged Judy's physician to push the suit of that self-made young man, who belongs to the "Eternal Fraternity of Merit."

Girls, send for the "Tests for Sweethearts," enclosing a long stamped, return envelope, plus 25 cents, and learn how to pick the best matrimonial prospects! (Always write to Dr. Crane in care of this newspaper, enclosing a long stamped, addressed envelope and 25 cents to cover typing and printing costs when you send for one of his booklets.)

The widgeon, a duck common to the Midwest, is often called the "baldpate" because of a white patch on its head.

Irish Develop Big Zinc Mine

NEW YORK (UPI)—Ireland, where mine finding boosted mineral exports from virtually zero in 1965 to nearly \$55 million in 1970, will soon boast the largest zinc mine in Europe.

A zinc orebody, discovered last year 35 miles northwest of Dublin by Tara Exploration and Development Company Limited, has been reported to contain "very much in excess"

of 20 million tons of ore, and drilling continues to add to the proven tonnage daily. Tara says that when the find is put into production, it will be the fourth largest zinc mine in the world.

East Will Set Building Pace

NEW YORK (UPI)—Projected housing activity for the full year 1971 shows the East is expected to lead the nation with a 20 per cent increase over 1970, according to a survey of 100 key metropolitan areas.

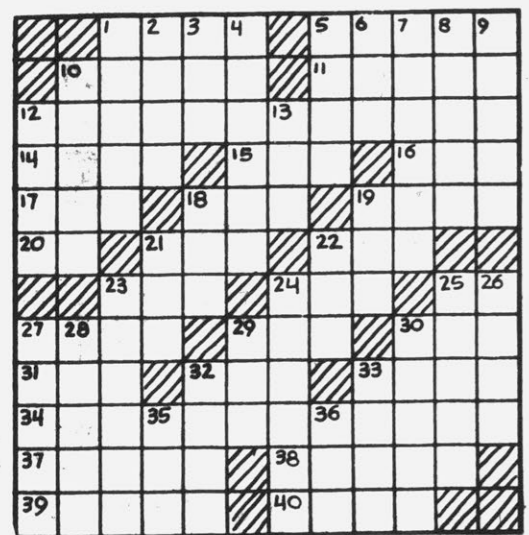

The poll indicates that the Midwest would be a close second with 19 per cent. Experts see housing activity in general chalking up an average 10 per cent gain over 1970, says Allan W. Cox, Owens-Corning market research manager.

The eight of clubs was played from dummy, East put up the queen, South followed with the seven and West with the five. Now, on East's diamond return, declarer ruffed in with the ten of hearts and West was helpless. If he overruffed with the king, North would cover with the ace and the jack of hearts would take the final trick. If West underuffed, on the other hand, the final outcome would be the same.

West's king of hearts was smothered and his trump trick vanished into the air.

Legend Explains The Evergreen

NEW YORK (UPI)—A Christmas legend holds that the night the Christ Child was born, all the trees brought their gifts. But the poor fir tree had nothing to offer. The olive and fig trees gave their fruit. The palm tree, its dates. The little fir tree only had sharp needles which might hurt the Christ Child. But an angel came to the rescue. Taking pity on the little tree, the angel asked stars to rest on its branches. The sight so delighted the Infant that He reached out and blessed the tiny tree. Since that time, it has remained "ever green" and borne lights at Christmas.

Nearly 300 million recreation days are spent hunting in the United States each year, says the National Shooting Sports Foundation.

Government-Paid Doctors Corps Gets Marching Orders Thursday

By JOHN STOWELL
Associated Press Writer

WASHINGTON (AP) — Government-paid physicians, dentists and nurses will get their marching orders Thursday to begin providing health care in doctor-poor city slums and rural areas.

Corps, a pioneer effort to cure lack of medical treatment in high-crime and low-income regions where private doctors hesitate to practice, hopes to place health professionals in 20 areas by the end of January, with another 20 in March and between 20 and 60 by July.

The National Health Service Secretary of Health, Educa-

tion and Welfare Elliot L. Richardson has approved regulations to be published Thursday in the Federal Register, implementing the 1970 Emergency Health Personnel Act.

The regulations provide for free care for poor people and a sliding-fee scale for others unable to pay the full cost of medical treatment.

"It is not socialized medicine," said Dr. H. McDonald Rimple, interim director of the corps. "The program is designed to alleviate the critical manpower shortages in these doctor-starved areas."

Rimple emphasized that no final decision has been made concerning the first 20 communities to receive the Public Health Service professionals. The law sets out a complicated paperwork procedure, in which the assistance must be requested by public or private health agencies and the need must be certified by state and local medical and dental societies.

"We hope to begin placing people in the field before the end of this month and during the first week of January," Rimple said. "By the end of January we should have a good many of these 20 communities staffed."

He said the first contingent is expected to total 33 physicians, 15 dentists and 10 nurses. Although the United States has about 320,000 practitioners, among the highest rate of all industrial nations in the world, there are at least 5,000 rural communities with no doctors and many city slums with only one doctor for every 10,000 residents.

Alaska Natives Will Get Land Back; Money, Too

By KENT STURGIS
Associated Press Writer

ANCHORAGE, Alaska (AP) — Alaska's native peoples, many of them poverty-stricken, are close to getting back 40 million acres of the land they claim.

The land and \$962.5 million will go to them under legislation approved by Congress Tuesday and it means "no poverty pockets for Alaska's future," said Don Wright, president of the Alaska Federation of Natives.

The 55,000 Eskimos, Indians and Aleuts whose ancestors roamed this land before white men arrived may be able to acquire as much as 160 acres of land each, but under the provisions of the bill they won't be able to sell the land for 20 years.

Three years ago, a federal study showed the state's natives held only 500 acres in private ownership—but 97 per cent of Alaska's 586,412 square miles is federally owned.

The natives, who make up about one-fifth of Alaska's population of 241,000, had claimed more than 80 per cent of the state's land.

For the most part, they live in substandard and even dilapidated housing, are jobless or only seasonally employed, lack even a high school education and have a life expectancy of only 34½ years, half that of other Americans.

Most of them live in small, isolated villages. About 1,000 live on two small reservations. Wright estimated as many as 100,000 persons ultimately might be beneficiaries under the bill's definitions, including Alaskan natives who live outside of the state.

Participation in the settlement will be through shares in native corporations, he said. There will be no lump sum distribution of cash to individuals.

Wright envisions an ambitious corporate investment program in which "there will be gainful employment to every able man, woman and young

person over 18 within the business structures."

One native group, for example, is considering construction of a tannery in Nome for reindeer hides now processed in Germany.

"Each individual will be a stockholder in a corporation on

Spiro Agnew Tells His Christmas List

NEW YORK (AP) — Vice President Spiro T. Agnew says he has made up his Christmas gift list. It includes:

"For George Meany, an introductory lesson in the Ebenezer Scrooge School of Charm."

"For Martha Mitchell, a brand-new Princess phone."

"For John Mitchell, a padlock for a brand-new Princess phone."

"For President Nixon, in preparation for his trip, a complete history of China."

"For Chairman Mao in preparation for the President's visit, a complete history of the National Football League."

"For Ralph Nader, a secret report from Nader's Raiders demonstrating that the human foot is unsafe to walk on."

"And for Ambassador (George) Bush, so that he can entertain all our friends at the United Nations, a two-place dinner set."

"For Richard Salant, president of CBS News, a news desk with legs cut on the bias so that documentaries will come out straight."

"For the New York Times, Daniel Ellsberg's unlisted telephone number."

"For Daniel Ellsberg, a lifetime subscription to Look magazine."

"And finally, for the Public Broadcasting Corp.—a collector's item—a piece of videotape which reveals Sandor Vanocur, in an unguarded moment, mak-

ing an objective statement." Agnew's list drew loud laughter Tuesday when he read it in opening a talk to 400 members of the Association of Life Insurance Counsel at the Waldorf-Astoria Hotel.

The board denied an application from Quick Fill, Inc., of Grifton, to install a self-service gasoline station in Winterville, to be located between Cooper and Blount Streets on N.C. 11.

The board denied the request because they felt the operation of the station could create objectionable characteristics which might be detrimental to the surrounding area.

The first train in the United States drawn by steam traveled from Albany to Schenectady, N.Y., on Aug. 9, 1831.

Environmental Quality Report Made Available

The National Wildlife Federation published in its October-November National Wildlife magazine an Environmental Quality index. Reprints have been made available.

Thomas L. Kimball, executive director of the Federation, says "History may cite 1971 as the year we woke up to the real meaning of environmental quality."

The Federation published its First Annual National EQ Index two years ago, attempting to show with hard facts, meaningful figures and research the dangers faced. "At that time air was bad and getting worse," Kimball said. "Water putrid, and becoming intolerable. Key minerals were overmined, forest overcut. In just two years the number of endangered wildlife species jumped from 78 to 89 to 102."

"Now," Kimball believes, "while our EQ index is lower and our environment is more polluted than at any time in history, it seems for the first time that we're penetrating layers and layers of apathy. That's why the EQ Awareness Dial is headed up."

Preliminary Plans Approved For Winterville

WINTERVILLE — The Winterville Planning and Zoning Board Friday night approved the preliminary plans for the proposed subdivision Robinson Heights No. 2.

The new subdivision, located behind the Robinson Union School totals 22.74 acres and includes 53 building lots.

The board denied an application from Quick Fill, Inc., of Grifton, to install a self-service gasoline station in Winterville, to be located between Cooper and Blount Streets on N.C. 11.

The board denied the request because they felt the operation of the station could create objectionable characteristics which might be detrimental to the surrounding area.

The first train in the United States drawn by steam traveled from Albany to Schenectady, N.Y., on Aug. 9, 1831.

NOTICE
North Carolina
Under and by virtue of an order of the Superior Court of Pitt County, North Carolina, made in the Special Proceedings entitled "J. H. Blount, Jr. (unmarried), Petitioner vs. Jean B. Blount, et alis, Respondents", the same being File No. 71 SP 41, the undersigned Commissioners will on the 5th day of January, 1972, at twelve o'clock noon, at the door of the Pitt County Courthouse, Greenville, North Carolina, offer for sale to the highest bidder for cash all those certain tracts or parcels of land more particularly described as follows:
TRACT NO. 1: Lying and being situated in Carolina Township, Pitt County, North Carolina, on the North Carolina State Road No. 1552, bounded on the North by Kenneth Whitchard, on the East by Tranter's Creek, on the South by property conveyed to J. H. Blount, Jr., on the West by North Carolina State Road No. 1552 and BEGINNING at a point in the center line of said State Road No. 1552, where a farm ditch crosses said road, said point being located 1,017 feet measured along the center line of said State Road No. 1552 in a southerly direction to the point of the center line of an 18 inch culvert crossing the center line of said State Road No. 1552, said point where the 18 inch culvert is located is further identified by being the southwestern corner of the 1.6 acres tract of land which is excepted from the said description and runs from the said BEGINNING corner as follows: thence following the center line of said State Road No. 1552 North 39° 30' East 431 feet, North 35° 30' East 744 feet, North 33° East 460 feet, North 26° East 205 feet, North 21° 30' East 486 feet to a point in the center of said Road which is a corner with Kenneth Whitchard, thence along and following the road line of said road, a wire fence being on a portion of said line, South 69° 30' East 2,510 feet to a Sweetgum Tree on the bank of Tranter's Creek; thence continuing South 49° 30' East 205 feet to the main run of Tranter's Creek; thence following the center of the main run of Tranter's Creek downstream to an iron stake on the western bank of said Creek, the said iron stake is a corner made by this conveyance to establish the dividing line between the area of land conveyed by this deed, from which is conveyed by companion deed of J. H. Blount, Jr. and M. O. Blount, II to A. L. Tucker, et al; thence from said iron stake following a chopped line established by this deed, South 73° 30' West 1,755 feet, North 85° 30' West 243 feet, North 80° 40' West 406 feet, North 71° 45' West 91 feet, South 87° 15' West 117.4 feet, North 81° 10' West 665 feet, following a farm road to the point of BEGINNING, containing 147.1 acres, more or less, and there is EXCEPTED FROM THIS TRACT 1.6 acre parcel described in that certain deed of record in Book S-35, Page 473, Pitt County Registry, and this tract being the identical tract or parcel of land described in that certain deed of record in Book S-35, Page 472, Pitt County Registry.
TRACT NO. 2: Lying and being situated in Greenville Township, Pitt County, North Carolina, and known as the Peter Brown Farm containing 20 acres, more or less, and another tract known as the Pilley Farm containing 23 acres, more or less, and being the identical lands described in and conveyed by that certain deed of record in Book A-29, Page 168, Pitt County Registry.
The highest bidder at this sale will be required to make a deposit of ten per cent of the highest bid. This sale is further subject to confirmation by the Court.
This sale is further subject to 1972 Pitt County Ad Valorem Taxes.
This the 2nd day of December, 1971.

Sgt. William H. McDaniel, son of Mr. and Mrs. Henry McDaniel Jr. of Greenville, has received the Bronze Star Medal for meritorious service in Vietnam from January to October of 1971. McDaniel, who returned home from Southeast Asia December 6 after a year's tour of duty, was assigned to the First Cavalry Division (Airmobile) in Vietnam. A 1970 graduate of J. H. Rose High School, he entered service in June of 1970 and completed basic training at Ft. Bragg. Following advanced infantry training at Ft. Jackson, S. C., he was assigned for overseas duty and arrived in December of 1970.

Airman Timothy A. Carter, (above) son of Mr. and Mrs. Antrim E. Carter of Ayden, has completed basic training at the Air Training Command, Lackland AFB, Tex. Carter has been assigned to Lowry AFB, Colo., for training as a special electronics specialist. The airman attended Bob Jones Academy in Greenville, S.C. and Ayden High School.

Robert A. Moore, son of Mr. and Mrs. William E. Moore of Greenville, has begun flight training at the Aviation Officer Candidate School at Pensacola, Fla. He is receiving military and academic instruction leading to his commission. When Moore completes flight training, he will be designated a Naval Aviator and awarded his "Wings of Gold." The officer candidate is a 1968 graduate of East Carolina University.

S. A. Clifton Lee Hopkins Jr., (above) son of Mr. and Mrs. Clifton Hopkins Sr. of Greenville, is aboard the U.S.S. Little Rock stationed out of Rhode Island. The U.S.S. Little Rock departed Dec. 1 for a six month Mediterranean Cruise and is scheduled to return to home port in June. The crew of the Little Rock will spend Christmas in Naples.

P.O.1.C. James A. Boyd, son of Mrs. A. E. Boyd of Greenville is currently serving at the Naval Air Station, Pensacola, Fla.

Pvt. Steven B. Ayers, son of Mr. and Mrs. Steven B. Ayers of Rt. 2, Williamston, has completed eight weeks of basic training at Ft. Jackson, S. C. During training, he received instruction in drill and ceremonies, weapons, map reading, combat tactics, military courtesy, military justice, first aid, and Army history and traditions. A 1967 graduate of Bear Grass High School, Ayers receives his B. S. degree in business administration in 1971 from the University of North Carolina at Chapel Hill.

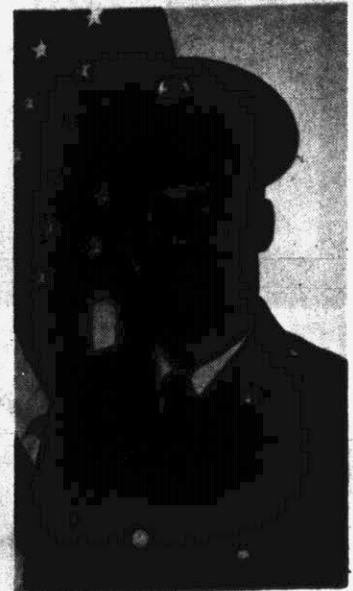

Pvt. Randall B. Stokes, son of Mr. and Mrs. Jennings B. Stokes Jr. of Rt. 3, Greenville, recently completed basic training at the Army Training Center, Armor, Ft. Knox, Ky. During the eight weeks of training, Stokes received instruction in drill and ceremonies, weapons, map

Spec.4 Johnny L. Lloyd, (above) son of Mrs. Johnnie Lloyd Small of Greenville, was promoted to his present rank recently while attending the Noncommissioned Officers Academy at Ft. Lee, Va. Prior to being selected to attend the school, he completed a course at the Quartermaster School Bde. Lloyd is a 1971 graduate of J. H. Rose High School.

Pfc. Linwood E. White has

completed training at the Army Engineer Center, Ft. Belvoir, Va. White, a mobile generator operator, has been assigned to the 21st Replacement, Frankfurt, Germany. White is the son of Mrs. Emma C. White of Greenville.

Pfc. James C. Walker Jr., son of Mrs. Alice W. Brown of Greenville, has completed training as an equipment specialist while at Ft. Lee, Va. Walker, a 1971 graduate of J. H. Rose High School, is now stationed in Germany for duty.

Pvt. Elijah Ebron Jr., (above) son of Mr. and Mrs. Elijah Ebron of Greenville, has completed eight weeks of basic training at Ft. Jackson, S. C. and is remaining there for a six-week leadership school before receiving his first duty assignment. Ebron entered the Army in September of this year and graduated from basic Dec. 2. He is a 1971 graduate of J. H. Rose High School.

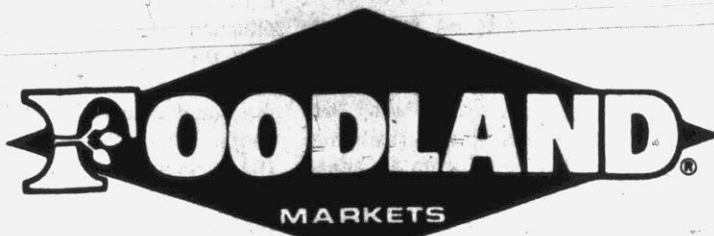

Lt. Harry L. Shackelford Jr., son of Mrs. Harry L. Shackelford of Rt. 1, Walstonburg, is undergoing advanced flight training with Air Anti-Submarine Squadron 30 at the Naval Air Station, Quonset Point, R.I. His training will qualify him to fly the twin-engine "Tracker" anti-submarine aircraft, and includes instruction in the aircraft's electronic detection devices, carrier landing practice, formation and instrument flight. He is a 1965 graduate of the U. S. Naval Academy in Annapolis, Md.

S. Sgt. Leslie E. Patterson, son of Mrs. Ruby D. Patterson of Williamston, has been named outstanding maintenance man in his unit at Eglin AFB, Fla. Patterson, a munitions specialist, was selected for his leadership, conduct and duty performance. He is assigned to a unit of the Tactical Air Command which provides combat units for air support of U.S. ground forces. The sergeant completed duty at Takhli Royal Thai AFB, Thailand in May. He attended Williamston High School and completed requirements for his diploma after entering the Air Force.

The first Civil War battle in Indian Territory was fought at Round Mountain, Okla.

Hudson Valley Keeps Dutch And English Customs

NEW YORK (UPI) — Old Dutch and English Christmas customs are brought to life again in the beautiful lower Hudson River valley country made famous by Washington Irving.

Rip Van Winkle sleeps and the Headless Horseman rides again in the minds of visitors to three properties restored by Sleepy Hollow Restorations in the tradition of the two cultures that dominated when 13 colonies existed along the Atlantic seaboard.

Phillipsburg Manor, Upper Mills, in North Tarrytown, N.Y., displays Dutch pioneer life in the early 1700s. Van Cortlandt Manor, Croton-on-Hudson, is a handsome late

18th Century manorial estate closely tied to the Revolutionary War era. The pleasant years of the mid-19th century are reflected in Washington Irving's home, Sunnyside, at Tarrytown.

Each famous landmark is decorated much as it was in the heyday of its owner and each echoes to Yuletide music as costumed hostesses trim Christmas trees, cook seasonal food and otherwise display the customs of its time.

Each famous landmark is decorated much as it was in the heyday of its owner and each echoes to Yuletide music of Christmastide. Because of their cultural intermingling, some customs will be observed at all

properties but each has its individual character, easily perceived.

A good way to enjoy the differences and likenesses is to visit the oldest first.

Phillipsburg Manor, the oldest, is an ancient stone house, square and simple of architecture, erected about 1680. The owner, Frederick Philipse, was a rugged Dutchman who once was the richest man in all New York. The gristmill near the house, run by water power, was the center of an early and important milling industry.

Santa Claus was called Sinterklaas by the Dutch and many things reminiscent of him include carrots and hay for his patient horse and three oranges

to represent gold dowries he gave to three poor, but deserving, sisters.

COMPUTER COURTS
LANSING, Mich. (UPI) — Michigan's biggest industry — the auto companies — pitched in to provide the Michigan Supreme Court with a study that recommends computerization of Michigan court data to speed up the judicial process.

The study was carried out by specialists from Chrysler, Ford and General Motors and recommended computerization of records at Detroit's Traffic and Recorder's (Criminal) courts and creation of a statewide case information control system.

There is cooking in the kitchens (one for the servants), bread on the table, and cookies and cakes.

Van Cortlandt Manor shows more of the English influence, although the family's origin was Dutch. Huge spiced cookies, shaped like the initials of the Van Cortlandt children, are spread out on the tables of the Old Parlo on the ground floor of the Manor House as they were in many Dutch homes. The hallway upstairs has a kissing bell, fashioned of evergreens with a clapper of mistletoe, as was the custom in old English homes.

Young hostesses play Christmas music on 18th Century instruments while their older

associates prepare baked goods in the great beehive oven built into the downstairs kitchen fireplace. Others show arrangements of dry flowers, prepared in advance of winter's coming.

There is a special affection for the season at Sunnyside, reflecting Irving's own concern for the holiday. Even when away, serving his country as a diplomat in London and Madrid, the nation's first great man of letters always evinced great interest in the holiday.

One Christmas, while in Spain, Irving worried about whether his relatives back in the quaint little cottage on the Hudson's bank were remembering the old ways.

"I hope you kept up Christmas in the old style," he wrote his niece Sarah in 1843, "and that the cottage was decked with evergreens. You must not let my absence cause you relaxations in the old rules and customs at the cottage; everything must go on the same as it did when I was there."

There are dozens of excerpts from letters and books written by Irving that tell how Sunnyside was decorated. The cottage door is festooned with greens and a Christmas tree, trimmed with cranberry and popcorn strings, sugar plums, tiny candles, and 19th Century ornaments stand in the parlor.

In the kitchen, guests see foods prepared and cooked in the big iron range, cookies baked in the oven. The odor of spiced apples cooking on top of the range greet the visitor even at the front door.

In the three famous landmarks, Christmas became a tradition that borrowed from the Dutch and English according to the flag that flew over New York when each was established.

America's "garlic kingdom" is an area around Gilroy, Calif., where 73 million pounds were grown in 1970, says National Geographic.

Herb Klein Is Nixon's Bridge To The Grassroots

By NORMAN KEMPSTER WASHINGTON (UPI) — President Nixon, who often chafes at what he considers unfair treatment by Washington newsmen, has delegated his long-time associate Herbert G. Klein to carry his version of events to the nation.

In his role as White House Communications Director, Klein travels from coast to coast to confer with newspaper and broadcast executives, appear on radio and television programs and make speeches. His objective is to explain and—if necessary—defend administration policy.

Discussing his assignment in a UPI interview, Klein said the Washington Press Corps is

more critical of Nixon and is less willing to give him credit for his achievements than is the news media outside the capital and the public generally.

He also claims Washington reporters give Nixon less favorable treatment than that accorded most previous presidents.

"Particularly in President Kennedy's time, reporters were so enamored that they were willing to overlook things," Klein said.

Does Nixon suffer from a worse press than his predecessor, former President Lyndon B. Johnson?

"President Johnson got very little credit in the last year or so of his administration," Klein

said. "He got considerable credit before that. It (a bad press) has been fairly consistent with President Nixon."

Nixon is acutely aware of what is written about him. He begins each day by leafing through The New York Times and the Washington Post, then reading carefully a summary of the reports in other newspapers, on television and on the United Press International and Associated Press wires.

Klein said Nixon usually already knows the facts behind the news but "he also needs to know how it is reported ... he needs to know what are the publicly known facts."

"I think he is more fully informed about what the media

is saying than any previous president," Klein said.

What does a president do who is fully informed about what is being said about him and who considers much of it unfair?

In Nixon's case, he is trying to bypass the Washington press corps and deal directly with the newspapers and broadcast stations upon which most Americans rely for their news.

Nixon is the first president to have both a communications director and a press secretary. Ronald L. Ziegler, the press secretary, deals with newsmen assigned to cover the White House, freeing Klein to spend more time than any previous government official on public relations outside Washington.

Klein, 53, is a former editor of the San Diego Union. His 30-year newspaper career has been interrupted frequently by service for Nixon. Their friendship began in 1946 during Nixon's first campaign for Congress.

Klein was press secretary and special assistant to Nixon, then the vice president, in 1959 and 1960. Klein then went back to San Diego only to return in 1962 as press secretary for Nixon's losing race for governor of California.

January.

Some Washington newsmen believe Klein is trying to undercut them with their publishers and readers and they resent it. Klein brushes aside such complaints.

"There is no question they (the news media) need representation in Washington," Klein said. "The wire services are covering stories and very well in my opinion. But it is important for people outside Washington to have a chance to ask me questions."

He also said his trips give him a chance to read the mood of the nation. "You don't really know what the country is thinking if you

only stay here," he said. Klein described as "fairly typical" a day he put in on a recent trip to Denver.

It started with a morning news conference. Then he spent an hour with students at Denver University, talking for 10 minutes and answering questions for 50 minutes. He had lunch with top executives of the local newspapers and after lunch taped a question and answer program to be shown on local television that night. Then came a private meeting with some Republican campaign contributors, followed by a dinner speech to the Denver Press Association.

Klein has appeared on radio talk shows in San Francisco,

New York and Chicago, answering telephoned questions from listeners. In New York, he appeared two-mornings in a row on the "Rambling With Grambling" program which is reported to have one of the largest radio audiences in the nation.

Klein said he probably will do a few more radio talk shows but will make no attempt to honor each of the 200 invitations he has received for that kind of program.

Black crappie go by many aliases, including calico bass, strawberry bass, papermouth, tinmouth, grass bass and speckled crappie.

GOLDEN MEDAL BERLIN (AP) — East Germany has awarded its Golden Medal for distinguished service to Klaus Fuchs, a scientist once sentenced to 14 years in prison in Britain for passing atomic secrets to Russia.

PRICE EFFECTIVE IN THIS AD THRU SAT., DECEMBER 18, 1971 IN GREENVILLE, N.C. 2808 East 10th Street West End Shopping Center 1009 Dickinson Avenue

how much cake should there be in a fruit cake?

Not much!
 In fact, we think just enough to hold the fruit and nuts in place.
 You see, our Jane Parker Fruit Cake is over 2/3 fruit and nuts.
 Every cake is just bursting with imported and domestic cherries, pineapple from the Far East, citron from the Caribbean, sun-drenched raisins from California and meaty pecans from the South.
AND ONE OTHER THING YOU SHOULD KNOW:
 The 5-lb. cake costs only \$4.59.
 That's dollars less than you might expect to pay for such a fine fruit cake.
 Is it any wonder Jane Parker Fruit Cake is America's most popular Fruit Cake?
 Is it any wonder it's become such a favorite gift item?
 Is Jane Parker Fruit Cake a good reason for shopping A&P?
 It's one of many.

Lifesavers See Glamor Fading

ON PARADE — Australian lifesavers parade down a beach. The volunteer groups are about as Australian as kangaroos but their numbers are shrinking — even though new rescue records are set every year.

By IAN M. CAUSLAND SYDNEY (AP) — Surf lifesavers are about as Australian as kangaroos—and in greater danger of becoming extinct.

The image of the sun-bronzed, barrel-chested, volunteer fearlessly plunging into the surf to save lives has lost its glamor.

While new rescue records are set every year, there are fewer rescuers around.

In Australia's most populous state, New South Wales, there were 7,318 rescues by lifesavers during 1970's summer season. This was an increase of close to 50 per cent over the previous season's 4,957 rescues.

During the corresponding period, membership of the state's lifesaving clubs dropped from 6,078 to 5,685.

Even clubs with well-known, sometimes world famous, names have not escaped the drain of brawn and brain.

Alan Coates, captain of Maroubra Surf Club, says there are plenty of young members. "We begin to lose them round the 20-year-old mark—just as they become really good lifesavers," he said.

Phil Coles, former Australian surf team captain, believes the movement's image needs to be changed.

"People seem to think drill and discipline make up a lot of our program," he said. "It is nothing like that. No one is

stood over with a big whip to do patrols for eight hours a day."

Though lifesavers are most often pictured going through parade ground drill during surf carnivals, Coles said carnivals comprise only a small part of surf clubs' activities.

The lifesaving clubs have introduced shortened training programs—from 10 weeks to 6 weeks—and simplified training methods.

Now, instead of chasing surfboard riders off beaches, the surf clubs are trying to attract them to join up.

Some lifesavers see the reduction in membership as a serious blow to Australians' "mateship." Coates said: "I grew up with surf clubs and they provide the closest sort of mateship you can get."

"I don't think we'll get that mateship again, the world is more materialistic with everyone more interested in themselves than in others."

"There are too many other attractions and increased affluence to enjoy them."

Fund Grows For Attica Families

ATTICA, N.Y. (AP) — More than \$82,000 has been collected in a fund to aid the widows and children of Attica prison employees slain in the September rebellion, but none of it has been spent.

In reporting the total Monday, Attica banker Chester Watson said the widows of the 11 men had been reluctant to submit requests for aid.

"To this date, none of the 11 women has asked for any of the money, despite the fact I told them it would be available at all times," Watson said.

Watson, one of the organizers of the fund, said it was planned to distribute about \$8,000 in aid for the Christmas season.

WINDMILL CAPER

LUDINGTON, Mich. (UPI)—Mrs. Anna Miteen complained to the Mason County Sheriff's Department that someone had stolen the 35-foot tall windmill from her farm.

Officers said the windmill was sawed off at the base and tracks indicated it had been hauled away in a truck.

Stray Moose Is Now Near Iowa

BLUE EARTH, Minn. (AP) — The wandering moose who left the wilds of northern Minnesota several weeks ago and meandered south is within 12 miles of Iowa, state conservation officers report.

The moose, which had been following the Minnesota River and was reported in the New Ulm area about a month ago, is now in the Walnut Lake area of Minnesota along U.S. 16 near Blue Earth.

Conservation officers cannot explain why the 2-year-old moose would leave its normal northern Minnesota habitat. They say if it continues south it will probably be the only moose in the state of Iowa that isn't in a zoo.

SALT BOX ROOF: A large kitchen, recreation room and foyer are lower level features of this three-bedroom house. The living room should be easy to furnish because of unbroken wall space. The upper level is 755 square feet. Plan HA783Y was designed by architect Herman H. York, 90-04 161st Street, Jamaica, N.Y., 11432. Information on obtaining blueprints is available by writing to the architect.

Dancer Would See More Up On Toes

By RUTH YOUNGBLOOD HONOLULU (UPI)—A veteran dancer would like to see more families up on their toes, learning to dance and bridging the generation gap at the same time.

Carl Wolz, an associate professor of drama at the University of Hawaii, is spearheading a movement "to bring dancing back to the people." He is president of the Hawaii State Dance Council, an organization funded by state and national funds and dedicated to "creating an atmosphere for state-wide participation in dancing."

"Interest in dancing has declined over the centuries with increasing technology and subsequent distractions," Wolz said, "But it seems to me that the more people dance, the fewer personal problems they have in their lives. Many Americans have lost the ability to express themselves through movement."

The Dance Council is reawakening interest in all forms of dancing through workshops in ethnic dances of Pacific and Asian countries, European folk dances, ballet and modern dancing. These workshops are held several times a month and attract a cross-section of the community, proving that dancing is fun, even for the inexperienced.

A native of St. Louis, Mo., Wolz came to Hawaii after years of professional dancing in New York City. He started the Dance Council five years ago, but it only recently received a state charter.

A person standing 60 feet above sea level can see about 10 1/2 miles.
