

Med School Speculation Questioned

By STUART SAVAGE
Reflector Staff Writer

For the past several weeks, newspapers in several areas across the state have been hinting at a possible fight in the 1973 General Assembly for a four-year medical school at East Carolina.

This speculation continues despite the fact that a subcommittee of the Board of Governors for the new University of North Carolina system is still conducting a study of health care needs in the state and its report may not be made to the full board until December or January.

The question before the subcommittee deals with the need for more doctors in North Carolina and what is the best way to meet the particular need. And the health subcommittee has not yet come to a decision on the question.

A Chapel Hill newspaper in September, in an editorial, declared "As matters stand now, there seems to be no chance whatever that the Board of Governors will approve expansion of ECU's medical school even to a two-year program."

And a news story in a Raleigh paper Tuesday said "Foreshadowings of a General Assembly conflict over the medical school at East Carolina University" have begun to emerge, and noted many observers say "efforts by ECU to expand its school to two or even four years would undercut the power of the infant university system."

And at least one politician, lieutenant governor-elect Jim Hunt of Wilson has been quoted as saying he would support efforts by ECU to expand the medical education program, but not if the action would "tear up" the infant university system.

The health group is studying various testimony from people—experts from both in-state and out-of-state—and still have the questions and its own recommendations under study.

At least some of the members of the subcommittee are known to feel that many of the ideas expressed in news stories over the past weeks are "premature" and "unfortunate" at this point.

A source close to the study group said Tuesday "There have been quite a few comments from people who have not had the opportunity to listen to testimony on the question, and the least I can say about a number of them is that this is unfortunate."

Any speculation, according to the source, who asked not to be identified, "is premature, as well as wrong" at this point.

The informed source said at least several members of the health subcommittee "hope uninformed 'experts' would leave the question alone for a while until the committee comes to a rational decision." He added, "stirring up the matter" by suggesting a fight in the legislature will only muddy the water.

ECU's medical school dean, Dr. Wallace Wooles, said if the school's request to be expanded to a two-year medical education program during the next biennium is rejected, it will mean a "continuation and light addition to what we have now. We would have to add some improvements to our program," he explained.

If the second year is added, according to Dr. Wooles, "We would add additional people in areas not now represented and require additional equipment. We would need people to beef up areas of instruction now offered and to staff new areas, and add equipment needed to handle the additional students."

Up to 40 students per class (for a total of 80 medical students) could be handled under the proposed two-year program.

Currently there are 20 students enrolled in the one-year program.

The dean praised the current students, saying "so far, the students are doing real well," and are "well on their way..."

The 20 students, who follow the same schedule, are about two-thirds through their biochemistry course, have completed psychiatry, are half through anatomy and are now beginning preventative and social medicine," Dr. Wooles explained. The students have also completed cell biology and are completing histology.

"Academically, all are performing very, very well and we are pleased with the caliber of the students and with the interest and enthusiasm they have shown."

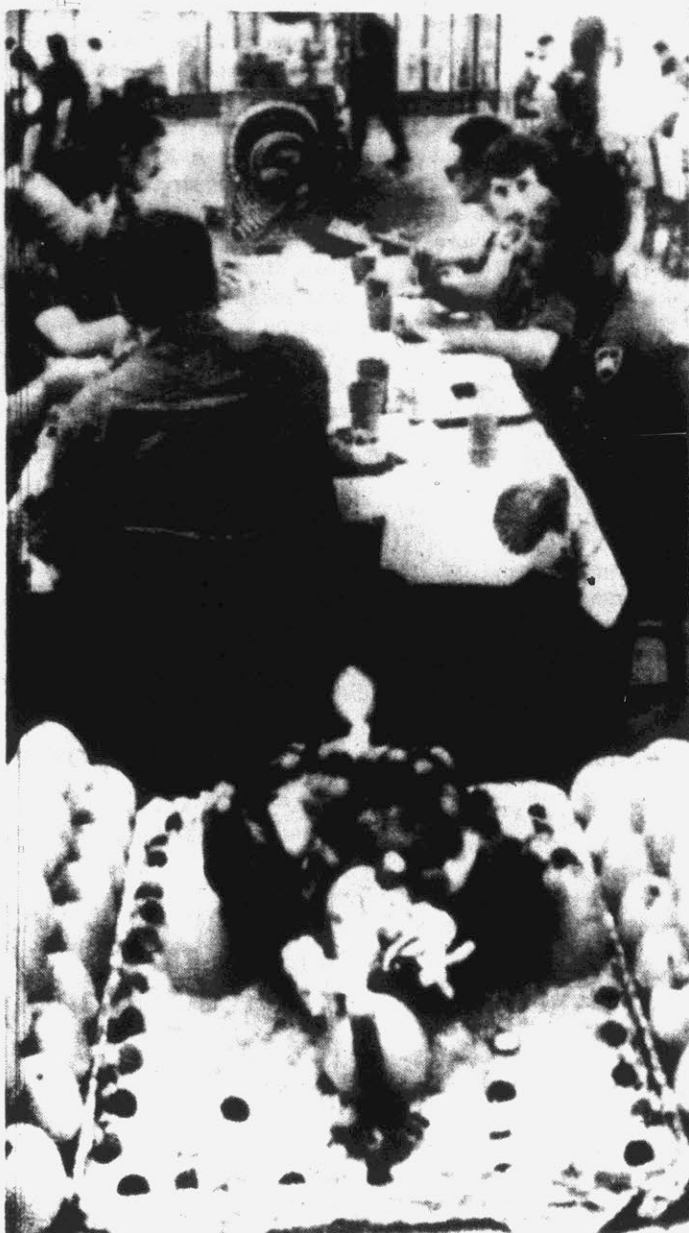

The dean continued, "We have started, just recently, a program where students can observe the physician on call in the emergency room on Friday and Saturday evenings."

"The students have raved about this program...been enthusiastic about it."

"They learn an awful lot about clinical medicine and have commented how much they are able to learn from these people (the doctors on duty) and how much these men are willing to teach them."

"And the physicians have been wonderful teachers."

Students successfully completing the first year of medical school at ECU transfer to the University of North Carolina at Chapel Hill for the other three years.

Holshouser To Be Neutral In GOP Session

RALEIGH, N.C. (AP) — North Carolina Gov.-elect Jim Holshouser says he will be neutral when the Republican delegations to the next General Assembly meet in Durham this weekend to choose their leaders.

Holshouser, in a statement Wednesday, said he had informed the entire delegation of 15 senators and 35 house members that he trusted their judgement to choose minority leaders he could work with.

The Republicans, who increased their strength 40 per cent in the legislature but still fell far short of a majority, have billed their meeting as a "caucus and conference."

The conference side of the meeting is expected to deal with GOP strategy for the coming session.

The caucus will choose among a sizable slate of candidates for the legislative leadership posts.

Two men are reportedly interested in the senate minority leadership: they are Harry Bagnal of Forsyth, who held it in 1971, and Charles Taylor of Transylvania.

Four names have been mentioned for the House minority leader post that Holshouser used as a stepping stone to the governor's mansion. Larry Cobb of Mecklenburg, Hunter Warlick of Catawba, Odell Payne of Guilford and Ed McKnight of Forsyth.

During the workshop conference sessions, all discussion will be placed on a no quota-

tion, no attribution basis for newsmen, according to the conference organizer, Sen. Hamilton Horton of Forsyth.

He said he expects the conference to inform the legislators of the likely issues in the 1973 session and to be "germinal" in preparing responses to the possibilities.

But he said he does not expect the two-day affair to produce a formal Republican legislative program.

Body Of Slain Girl Found In Rocky Mount

ROCKY MOUNT, N.C. (AP)—State and local authorities today searched for a suspect in the shooting death of 18-year-old Amy Claire Breedlove of Rocky Mount.

Police said Miss Breedlove's body was found Wednesday in a storage building near the self-service gas station where she was working alone. The station is located on a connector road between U.S. 301 and Interstate 95 about three mile north of Rocky Mount.

Miss Breedlove had been shot in the back of the head with what appeared to be a .38-caliber weapon, police said. She apparently died between 2 p.m. and 2:30 p.m. The station's cash register had been emptied.

Peace Talks Enter 4th Straight Day

By MICHAEL GOLDSMITH
Associated Press Writer
PARIS (AP) — Presidential adviser Henry Kissinger and North Vietnam's Le Duc Tho began their fourth straight day of secret peace bargaining today.

Over the past three days their talks have become progressively shorter.

Tho left Wednesday's meeting with a grim expression. Kissinger appeared relaxed,

however. He smiled and waved to newsmen as he arrived and left the suburban villa where he and Tho have been negotiating since Monday.

They met for 3½ hours Wednesday without leaking a

single word to the press.

Kissinger, Tho and their top advisers conferred for 5½ hours when they opened the current round of talks, and met for another 4½ hours Tuesday.

They are trying to put the fi-

nal touches on the cease-fire agreement they drafted last month. Kissinger said Oct. 25 that three or four days would be needed for the final phase of the talks, but later reported that President Nixon told him to pursue the session "as long as is useful."

Kissinger flew back to Paris earlier Wednesday from Brussels, where he met for an hour with visiting Indonesian President Gen. Suharto. An Indonesian spokesman said the meeting was arranged prior to Kissinger's departure from Washington Sunday and the purpose was to convey to Suharto "the latest developments on Vietnam." He did not elaborate.

Indonesia and Canada are the two nations named by the United States to serve on the proposed four-nation commission which would supervise a cease-fire on the spot. Poland and Hungary are the North Vietnamese nominees.

Suspect B52 Hit By SAM

By RICHARD PYLE
Associated Press Writer

SAIGON (AP) — U.S. war planes flew more heavy raids over the North Vietnamese panhandle below the 20th parallel today and Air Force crash investigators in Thailand determined that the war's first B52 bomber lost to hostile fire was probably hit by a surface-to-air missile.

Inclement weather again curtailed fighter-bomber strikes over the North, leaving the major bombing burden to the big Stratofortresses that fly above the clouds at 35,000 feet on radar-guided bomb runs.

The B52s hit at supply stores awaiting shipment across the border into Laos and southward toward the battle areas in South Vietnam, military officials said.

The B52s flew 12 missions, each with three planes carrying up to 30 tons of bombs apiece over the North in the 24 hours ending at noon today. It brought to 27 the number of B52 missions flown in the last two days, the heaviest attacks of the war north of the DMZ.

Another 23 missions were flown by the Stratofortresses south of the DMZ, most of them around Quang Tri city and in the Saigon region.

The Command also reported today that a U.S. light reconnaissance plane was shot down by a shoulder-fired "Strela" missile near An Loc, 60 miles north of Saigon. The pilot bailed out and was rescued.

In ground action, the heaviest fighting was centered in the Mekong Delta where government forces claimed 58 enemy killed in battles 120 to 180 miles southwest of Saigon. Government forces reported three men killed and 14 wounded.

Field reports said fighting had been under way for three days near the village of Ben The, 17 miles north of Saigon near Highway 13, with two Communist battalions involved. There was no report on casualties.

Air Force investigators reached the site of the B52 crash early today and their findings were the basis for a U.S. Command statement that the giant bomber "probably" was struck by a Soviet-built surface-to-air missile.

Hit while on a Wednesday night raid near Vinh, the bomber managed to fly about 100 miles across the panhandle of North Vietnam and Laos, trying to reach its base at Utopia in southern Thailand, before the six-man crew was forced to bail out.

In All Counties

RALEIGH (AP) — State social services commissioner Clifton Craig's computer dragnet for welfare cheaters has been extended into all 100 North Carolina counties.

Craig said Wednesday that the computer, matching social security number with the records of the state employment security commission, has come up with 13,000 names of welfare recipients who have been holding jobs.

He said those names are being sent to the various counties, which will check the state records against the admitted income of welfare recipients.

The program has resulted thus far in eight convictions in Charlotte and seven arrests in Raleigh.

Thanksgiving Needs A Child's Touch

THANKSGIVING DAY TURKEY DECORATIONS — Children of the Little Misses and Masters Nursery observe Mrs. C.D. Smith as she instructs them how to make some Thanksgiving decorations.

The pine-cone turkeys are made with a clay neck and brown paper napkin tail feathers. Thanksgiving is very much like Christmas, it needs a child's touch. (Reflector Photo by Tommy Forrest)

Public Support For Death Penalty Grows Despite High Court

By GEORGE GALLUP

Copyright, 1972, Field Enterprises, Inc. All rights reserved. Republication in whole or part strictly prohibited, except with written consent of the copyright holders.

PRINCETON, N.J., Nov. 22—Despite the U.S. Supreme Court's ruling striking down the death penalty, public support for capital punishment is currently at its highest point in nearly two decades.

In the latest survey, completed last week, a majority of 57 per cent of adults 18 and older said they favor the death penalty for persons convicted of murder. This percentage represents a sharp increase in support since March of this year when the figure was 50 per cent in favor.

The previous high was recorded in 1953 when 68 per cent of all adults interviewed voted in favor of capital punishment.

The following table shows the latest results and trend since 1953, when the current question wording was first used.

Trend Since 1953

	Yes			No			Opin.
	%	%	%	%	%	%	
November, '72	57	32	11				
March, '72	50	41	9				
1971	49	40	11				
1969	51	40	9				

1966	42	47	11
1965	45	43	12
1960	51	36	13
1953	68	25	7

Fear for Personal Safety Key Factor

The increase in support for the death penalty since March may be due in considerable measure to widespread fear concerning personal and family safety—the "hidden issue" in this year's presidential election, according to Gallup Poll analysts.

Survey evidence indicates that the proportion of voters who say they are afraid to go out alone at night in their own neighborhoods has shown a dramatic increase in recent years. It is especially high in cities over 1 million in population but even in smaller cities it has reached a high level.

Voters throughout the nation feel that crime has increased during the last year in the communities and favor stricter law enforcement, as well as tougher sentences for lawbreakers.

Evidence of 'Hard Line' Mood

Indicative of the public's current "hard line" mood regarding crime was the recent vote in California on the death penalty.

California voters, by a vote of 67.5 per cent to 32.5 per cent (unofficial), approved the restoration of capital punishment for

crimes of train-wrecking, perjury resulting in execution of an innocent person, treason against the State and deadly assault against a prison guard by a life-term convict.

Six in ten whites favor the death penalty, but a majority of blacks (53 per cent) oppose it. Young adults (18 to 30) are less inclined to favor capital punishment for persons convicted of murder than are older persons although the weight of opinion among young adults is 5-to-4 on the side of support.

Although women are less in favor of capital punishment than are men, they nevertheless lean heavily in support of it in the latest survey. In the March survey, by contrast, women were divided in their views on the death penalty.

In the March survey, public support for the death penalty was higher in the largest cities where worry over crime is most pronounced. Today, little difference is found on the basis of size of city or community, with as high a proportion of persons living in small towns or rural areas in favor of the death penalty as big city residents.

Following are the latest results by key population groups:

	Favor Death Penalty			No			Opin.
	YES	%	%	No	%	%	
NATIONAL	57	32	11				
Men	64	26	10				

Women	50	37	13
Whites	60	29	11
Non-whites	29	53	18
College	58	36	6
High School	60	28	12
Grade School	50	34	16
Under 30 yrs.	50	39	11
30-49 yrs.	60	30	10
50 & over	60	27	13
Community size:			
1,000,000 & over	58	31	11
500,000-999,999	54	35	11
50,000-499,999	53	38	9
2,500-49,999	57	35	8
Under 2,500.			
Rural	58	32	10

The latest survey results are based on in-person interviews with 1207 adults, 18 and older, interviewed in more than 250 scientifically selected localities between November 10 and 13. This question was asked:

Are you in favor of the death penalty for persons convicted of murder?

ADMISSIONS COUNSELOR . . . at St. Mary's, Miss Elizabeth Lee Bynum, left, was a special guest Wednesday morning at a coffee hour honoring alumnae and students. She is pictured with Mrs. Ed Clement, center, and Mrs. Ed Rawl Jr.

Mrs. Frank Longino, regional vice president of the St. Mary's Alumnae Association, entertained at St. Mary's alumnae, St. Mary's students and their parents, and prospective students and their parents from Ayden, Bethel, Farmville, Grifton and Greenville at a morning coffee Wednesday at her home.

Alumnae, students, and guests were greeted by Mrs. Ed Rawl Jr., president of the St. Mary's Eastern Carolina Chapter, Miss Elizabeth Lee Bynum of Raleigh, admissions counselor at St. Mary's and Mrs. Longino, who invited guests to coffee.

Mrs. Ed Clement, vice president of the chapter, Mrs. Charles Kavanaugh, chairman of the chapter's special project, and Mrs. Charles Stevens, past president of the local chapter, assisted in serving and receiving in the dining room where an arrangement of gold and yellow chrysanthemums was flanked with Thanksgiving turkey decorations on the refreshment table.

Students enrolled at St. Mary's who were honored at the party were: Jane Abernathy of Ayden;

Amy Everett and Catherine Martin, both of Bethel; Rosemary Anderson, Bebe Aycock, Marsha Hardy, and Sarita Hardy of Farmville; Debbie Branscome and Barbara Raspberry, both of Grifton; and Elizabeth Kempton, Jackie Minges, Becky Clark, Josie Rawl, Peggy Corbitt, Margaret Stevens, Jane Flanagan, and Jeanne Turcotte of Greenville. Prospective students who were invited to the party were Lou Whitehurst and Julia Brown, both of Bethel; Suzanne Aycock of Farmville; Ann Troutman of Grifton; Betty Bartlett, Ann Brown, Nancy Cleetwood, Teresa Messner and Debbie Wall, all of Greenville.

Some Memories For Thanksgiving

By Abigail Van Buren

(© 1972 by Chicago Tribune-N. Y. News Synd., Inc.)

DEAR READERS: If I were to set down all the things for which I have to be thankful this Thanksgiving Day, I could fill this page. But I would like to share with you a few unpublished letters. And for these, I am truly thankful:

DEAR ABBY: Because you answered my letter I have regained some of my confidence in people in general. I had my doubts about an answer from you; I guess you showed me.

You wouldn't believe what a difference your few words of advice have made in me. I am much more sure of myself now, and maybe that was the trouble all along. I think I must have just wanted someone to listen to me.

I have decided to try very hard to become a happy, carefree person and enjoy what is left of my senior year in high school. Now that I am meeting people halfway, I find they want to be friendly as much as I. Thank you so much, Abby. And may God bless you, too. Peace. Love, GINNY

DEAR ABBY: Thru your column, I discovered ALANON—the organization which helps the families of alcoholics learn how to live with an alcoholic.

My husband was an alcoholic for many years, but he wouldn't admit it to himself, so of course he had no reason to go to a meeting of Alcoholics Anonymous.

Thru my association with ALANON, would you believe my husband agreed to attend an A. A. meeting, and now he is sober and has been for seven months?

Don't tell me miracles can't happen. It happened to us. May God bless you. MORE THAN GRATEFUL IN L. A.

DEAR ABBY: I am a Vietnamese woman. I read your column every day in Stars and Stripes. I want to thank you for the help you have given me with learning to read English. Many other Vietnamese people find that reading your column is a good way to improve their English in an interesting and easy way.

I never studied English in school. I have a basic knowledge of French, but thanks to your column, I can have many more words of English.

I will be proud if you print this, and let everybody know you have helped me and lots of other Vietnamese people. Thank you, Dear Abby.

NHIEU: DANAG, SOUTH VIET NAM

DEAR READERS: If you have no special "grace" for your Thanksgiving meal, please use mine:

"O, heavenly Father:
We thank Thee for food and remember the hungry
We thank Thee for health and remember the sick.
We thank Thee for friends and remember the friendless
We thank Thee for freedom and remember the enslaved.
May these remembrances stir us to service
That Thy gifts to us may be used for others. Amen"

Have a happy, healthy Thanksgiving. ABBY

Problems? Trust Abby. For a personal reply, write to ABBY, BOX 69700, L. A., CALIF. 90060 and enclose a stamped, addressed envelope.

Shower Honors Miss Hamill

Miss Sandra Hamill, bride-elect of Joseph Allen Mooring, was entertained Friday night at a floating miscellaneous shower at the home of Mrs. A. B. Wingate.

Mrs. Paul McGlohon, Mrs. Carroll Jordan, Mrs. Vernon Leggett, Mrs. Don Cole, Mrs. G. W. Hamill and Miss Lisa Hamill were assisting hostesses.

The honoree was remembered with a corsage of white mums with purple streamer ribbon from her hostesses. Mrs. McGlohon greeted guests at the door. Miss Hamill received the gifts and placed them on the gift table.

The dining room table was adorned with light candles with an arrangement of yellow and purple mums and white chrysanthemums.

Good-byes were said by the bride-elect's mother, Mrs. J. C. Hamill.

Non-smoking Girl Wins Pipe Contest

LUC SUR MER, France (WNS) — Nadine Exbalin, 24, had never smoked a pipe in her life. That did not stop her from entering the pipe-smoking contest here against 19 veteran smoking champions of Brittany. Mlle. Exbalin beat them all by keeping her pipe lit without interruption for one hour and 21 minutes. "I'm a nurse by profession," explained the pretty Frenchwoman. "I learned long ago that men are little boys who make themselves sound big by empty boasting." Then she retired from the pipe and all other forms of tobacco.

New shoes for fall add height by really high heels or high platforms. Some heels go to four inches.

THE BEST THINGS COME IN PAIRS!

Love and marriage, mothers and daughters. They go together in your memory. . . you see them together in your heart. But, do you have a portrait, so they'll stay together when memory fades? Tell them you want it now. A handsome professional portrait so you'll have the best of them with you, always. Together, portraits don't just happen. They are made by talented, trained, experienced professional photographers. Like us. And your mother and dad too. So call now.

A Reminder Of Our Blessings

These days it seems that Americans spend more time lamenting the problems of our country than counting our blessings.

This look at the negative side of life is needed, for if we are not aware of our problems we are not going to do anything about them. Thus if we know there are hungry people, families living in unheated and unsanitary homes and old folks without decent medical care, then we are going to see that a way is

Patriotism And Faith Combined

By BRYAN HAISLIP
RALEIGH — Thanksgiving unites patriotic fervor and religious faith in a celebration affirming that God governs in the affairs of men.

The two emotions combine and do not conflict, said Dr. Albert G. Edwards, patriot and preacher.

"I love this country," he said. "I'm just thankful for all it offers us in freedom and opportunity."

Those who come from other shores, as did the first settlers who instituted Thanksgiving, can fully appreciate the blessings of this land. He came at the age of 19, a lad reared in the bleak poverty of northeast Scotland.

He landed in New York and traveled south to join his father in Atlanta. To this day, he remembers the sunlight on marble of Washington, glimpsed for the first time from Union Station on an August morning in 1935.

"I thought it was the most beautiful city I had ever seen," he recalled. "I still do."

Shining Hope Attained
The sparkling promise symbolized by the nation's capital was realized for the young Scot in the Presbyterian ministry.

In Bervie, Scotland, where his grandparents raised him, he aspired to be a butcher. That ambition didn't please his father, head of transportation for a Georgia power company, and he sent for his son to come to America. Young Edwards enrolled at Georgia Tech in electrical engineering. He felt the call to the ministry in his senior year, and switched directions.

After pastorates in Virginia and World War II military service for his adopted county (in and out as a private; he came to Raleigh in 1958).

Here is a pastor of First Presbyterian, a venerable red brick landmark on the southwest corner of Capital Square.

Governors, lesser officials, and rank-and-file state workers have worshipped with its congregation. Its door are open daily to downtown passers-by for quiet and meditation. Property loss is a small risk, said Dr. Edwards, for public access to the church.

Thanksgiving as a national holiday calls to mind those things about the nation worthy of praise and

gratitude, the minister observed. It does not require citizens to blind themselves to shortcomings in government and civic life, he added.

Judging And Praising
"The true patriot sits in judgment on his nation as well as praising it," he reminded. "Loving judgment of the nation's conduct is an essential part of patriotism."

The person of religious faith is a good citizen precisely because he insists that moral principles operate in affairs of state, said Dr. Edwards. The role of the pulpit and church, he suggested, is to inform the moral consciousness from which citizens act in politics and government.

In the mood of Thanksgiving, North Carolinians can join their countrymen in appreciation as well as feasting. Dr. Edwards recited a list of blessings for Americans.

"Our form of government, aside from partisan considerations. It is representative and gives us the privilege of speaking our mind in politics without fear of reprisal.

"Our public education, which reaches out opportunity for every child.

"Our churches, which have the freedom of many forms of worship and offer varied programs for children, young people and adults.

Responding To Needs
"Our spirit of compassion, reflected in the lives of so many people who are willing to respond to indicated needs and accept responsibility for those less fortunate."

Devotion to country, illuminated by the faith in God, had an eloquent spokesman in the late Peter Marshall, distinguished preacher, author and chaplain of the U.S. Senate. He, too, was a Scot who chose the United States as home.

Marshall was pastor of the Atlanta church Edwards joined as a youth on his arrival. "He was a man who quickly gave you the impression that he knew God. When he preached, you had the sense that you knew Him, too," Edwards said.

Yet the great minister was only an indirect influence on Edwards' decision for the ministry. He remembers instead Miss Dorothy Pomeroy, a youth advisor who yanked him from his seat to participate in a program. "Without her, I'm not sure I would ever have had the courage to stand before a crowd," he said.

"Peter Marshall loved America, as any man who comes from another country knows the lace of freedom and finds it here. The freedom we are thankful for is not the right to do as we please, but the freedom to choose to do what is right," he concluded.

found to improve the lot of more unfortunate individuals.

We are glad, though, that there is one day set aside in our country called Thanksgiving. It is a day when we should all be thankful for the blessings that have come our way—and even the poorest of us have much to be appreciative for.

On this Thanksgiving Day, particularly, peace seems closer at hand than it has been for many years. The U.S. involvement in Southeast Asia—the most agonizing ever for our nation—appears at last to be drawing to a close. Both sides in current negotiations seems agreed that a settlement which will mean a cease fire can be reached.

This feeling that we should put war behind us appears broader than the immediate problems of Southeast Asia and, thus there is a new spirit between our country, the Soviet Union and China which could mean future cooperation.

Here at home; there are many whose basic needs are not met, but for most of us there is an unprecedented prosperity which we are not always willing to admit.

America must continue to recognize its problems and work toward solving them. As we do this; however; we should never forget to be thankful that we are a prosperous nation and it is this prosperity which makes it possible for us to attack our problems.

Rouse Expects Year On Job

By JOHN KILGO

RALEIGH—Frank Rouse, who took and retained the chairmanship of the North Carolina Republican Party as controversy swirled about him, tells me he assumes he will keep his present post until next November.

"But nothing definite is settled," Rouse told me in an interview. "I'm not used to having a boss and I've got one now. That'll be a change."

Rouse says he and Governor-elect Jim Holshouser have met and talked about things they'd like to see the Party do in the future.

"We were in right much agreement," Rouse said. "I assume I'll keep the job until next November but maybe we'll have to wait and see."

Rouse pulled an unprecedented move last spring when he took a leave of absence from the chairmanship to actively support Jim Gardner for Governor in the Republican primary.

He said at the time that Gardner could win over a Democrat, but Holshouser probably couldn't.

Holshouser, however, admits Rouse gave him 100 per cent support once he defeated Gardner. I asked Rouse about Holshouser's ability as a candidate.

"I could give you bookloads of reasons why Holshouser won," Rouse said, "but the overriding reason was because he was totally committed to being elected Governor of North Carolina."

Rouse also says "Holshouser got prepared to be Governor. Every move he made was to prepare himself for a job he knew he'd eventually win."

"His looks fool you," Rouse said. "He looks younger than his years and some people held that against him. But he's a tough, aggressive campaigner. He's tenacious. "And if you asked me to give you a key to his success this year, I'd say self-discipline. He's a very disciplined man. He worked hard and kept pushing himself."

Many people remained

skeptical of Holshouser as a campaigner, but he seemed to warm to the situation in the last six weeks of his campaign against Skipper Bowles.

"He improved as a campaigner," Rouse says. "His speaking ability improved 10,000 per cent. And then he became confident that he was going to win and he just kept getting better. He was convinced he was going to win and you could tell it after listening to him talk."

Rouse contends that Holshouser's campaign never peaked. He says he would have beaten Bowles worse this week than he did on election day.

The GOP chairman knows, however, that Holshouser won't have an easy job as Governor, especially with a Democratic Legislature as his neighbor.

First, Holshouser has many important positions to fill "with members of our own team."

Says Rouse: "This won't be an easy task. The Republicans have been out of office for so long that we just don't have a lot of people who have had a chance to get experience in some of these government positions.

"Sure there will be problems, but Holshouser has been a student of the game. He's prepared himself and he'll know and understand what has to be done."

Rouse says he's delighted that Holshouser and Jesse Helms were able to win in North Carolina.

"A lot of blood was scattered along the trail," Rouse says, "because we worked that hard. And knowing how hard we did work, we can say we deserved the good things that happened to us."

Opinion

"Groups of environmentalists are urging anti-noise legislation upon members of Congress. That seems a good place to start."

Strength For Today

LOOKING FOR HAPPINESS?

What a gallery of friends! A dentist who endeared himself to all his patients, especially the young patients. A scholar who became a business man of note. An actor viewed by millions every week as he sets forth intriguing mysteries. A man in military uniform who rose high in his branch of service. A writer. A distinguished attorney. A man who combined business and philanthropy to the accomplishment of great ends. There is nothing more wonderful than friends, and unhappy indeed is that person who lives without them. A famous playwright wrote to Sir Winston Churchill saying: "A new play of mine is coming out on Monday evening. I am enclosing two tickets. Would be glad if you would come and bring a friend, if you have any." Churchill's reply was: "I am sorry that a conflicting

engagement prevents my coming on Monday night, but I'll be glad to come Tuesday night if the play is repeated."

There are probably people who go through life without friends, but if so they must be miserable indeed. Usually we can ascribe this fault to them. If we are without friends it is largely because we never did the things that promote friendship. If we are all wrapped up in ourselves people will not "cotton" to us, and we can easily see the reason why. Table-pounders. Guys that are always setting the world straight. The ostrich type that wants to bury its head in the sand—we can see why these people are unpopular.

The modern cliché that people are about as happy as they make up their minds to be need to be pondered by all who would find happiness and satisfaction in life.

Airbag Bubble Deflated

The American Automobile Association performed a notable public service a few days ago, in the release of a statement bluntly challenging the Department of Transportation in the matter of airbats. Unless the DOT can provide convincing answers to the association's charges, the airbag requirement should be abandoned.

It is curious that this controversy has aroused so little attention. Under an edict laid down by the National Highway Traffic Safety Administration, all 1975 model automobiles must be equipped with a "passive restraint" device. For all practical purposes, this means the airbag. Unless the requirement is suspended, manufacturers must begin tooling up in the late summer of 1973 in order to meet the 1975 deadline. Yet at this late date, the airbag is nowhere near perfection. Time after time, in carefully controlled demonstrations, the airbag has failed altogether. These failures have been attributed

to "human error." But if human error occurs so frequently in tests under laboratory conditions, as the AAA inquires, what could be expected of mass-produced devices under real-life situations?

The federal regulation would demand that every new car be equipped with a complex and expensive protective device consisting of six components: A delicate sensor, electric wiring, an explosive detonating cap, a cylinder of nitrogen gas under high pressure, a distributor pipe or hose, and a large nylon balloon.

In theory, when an automobile, so equipped, collides more or less head-on with another object, the sensor fires the cap, the cap releases the gas, and the gas inflates the bag. All this is to happen in four one-hundredths of a second—somewhat faster than the blink of an eye. This Goldbergian contraption would cost an estimated \$370, according to a federally appointed committee. It is

small wonder that the nation's automobile writers overwhelmingly have denounced the whole proposition.

Much of the AAA's criticism is directed toward the absence of significant "real-world" testing. The Ford Motor Company last year provided 325 airbag-equipped Mercurys for use by the General Services Administration and the Allstate Insurance Company. As of October 20, the test cars had logged 4.5 million miles. They had been involved in 37 accidents of varying severity. The airbag inflated only once, but the test was inconclusive: The right front seat was unoccupied, and this was the position the bag was intended to protect.

"But one of those crashes," says the AAA report, "involved a moving car that rammed under the rear end of a moving truck causing \$1,800 worth of damage to the car. The driver and a right front seat passenger were wearing lap belts and received no injuries."

The Ford Company has warned operators of the experimental vehicles that "persons five feet tall or less should not occupy the right front seat because the deploying airbag may impose dangerous loading on the head if the occupant is in a 'jackknifed' position due to sudden deceleration of the vehicle." The company also warns that detonation of the explosive cap "may result in some degree of permanent impairment of hearing in a portion of the persons who are exposed to such sound levels."

Toward the end of the month, General Motors will begin seeking buyers for 1,000 Impalas equipped with airbags. GM evidently has more confidence than Ford in the devices. The company offers no warnings or special instructions. Next fall, if the tests go well, GM will market some 1974 models with airbags as optional equipment.

The question arises: Why not retreat from compulsion, and go to an optional plan instead? If airbags are so wonderful, so reliable, so foolproof, and so effective in

Boyle Views Life

By HAL BOYLE
NEW YORK (AP) — Memories don't dwell in chains.

They arrive unbidden and remain unbidden. They are rarely the prisoners of a burdened mind. They are more often the welcome guests of a feeling heart.

HAL BOYLE

You cannot program what you'll remember any more than you can harness the wind. Memories have a will of their own and select the order of their presentment.

You probably have an entertaining store of memories yourself if you can look back and remember when —

Life didn't have so many sudden and unexpected changes. Now and then it would go along the same for two or three days in a row.

When you didn't quite know what to do in an evening, you could always go out to the kitchen and pop some corn.

The neighbors really began to worry when they saw the parish priest follow the family doctor into a home.

A nickel cup of coffee still tasted so good it was worth a dime.

The first thing you saw when the movie screen lit up was a message asking the ladies in the audience to please remove their hats. During the Depression years you not only got to see two films for the price of one — on some nights the management gave you a free piece of chinaware, too.

During the Prohibition Era, physicians wrote more prescriptions for good whisky than for bad pills.

Everybody feared the worst was yet to come when the price of bread or milk at the corner grocery store went up a penny.

There was a respectful silence when anyone got so annoyed about anything that he would say, "I think it's high time that I put my two cents' worth in." Today he could throw \$5 worth in and nobody would listen.

(Continued on page 6)

40 Years Ago Today

By GWYN COGHILL
November 23, 1932

Tomorrow is Thanksgiving Day and the Greenville High School football team will provide an entertaining program in the field of sports in a game with Morehead City at Third Street School athletic field in the afternoon.

The drive to exterminate as many rats as possible in Pitt County will get under way next month and people in the city and rural communities have been urged to take part by applying poison bait as suggested by the farm department.

The State Theatre is offering holiday prices for "The Conquerors" starring Richard Dix and Ann Harding. Admission is 25 cents for balcony seats, 35 cents for lower floor seats and 10 cents for children.

One analyst said that Bethlehem had apparently executed a neat end-run by pledging to hold steady strip and sheet prices, thus forcing its chief competitor to raise structural steel prices — the very ones that would do Bethlehem the most good.

The steel industry in general is trying to recover some of the added costs it has incurred as the result of an 8 per cent wage hike granted steelworkers in August.

Bethlehem spokesmen in New York and Philadelphia refused to give percentages on specific price increases or to say what the old prices had been.

Many To Feel Steel Price Hike

By JOHN DORFMAN
AP Business Writer
NEW YORK (AP) — The nation's No. 2 steel producer has joined the largest in announcing a broad price boost which could push up costs in the construction, machinery and automotive industries.

Bethlehem Steel Corp. on Tuesday announced price hikes of from \$6 to \$25 a ton on a variety of steel products, including heavy structural products used in the construction industry. The increase was equivalent to an across-the-board price hike of about 1.8 per cent, Bethlehem said.

U.S. Steel Corp., the nation's largest steel firm,

had announced a series of similar price boosts last Friday.

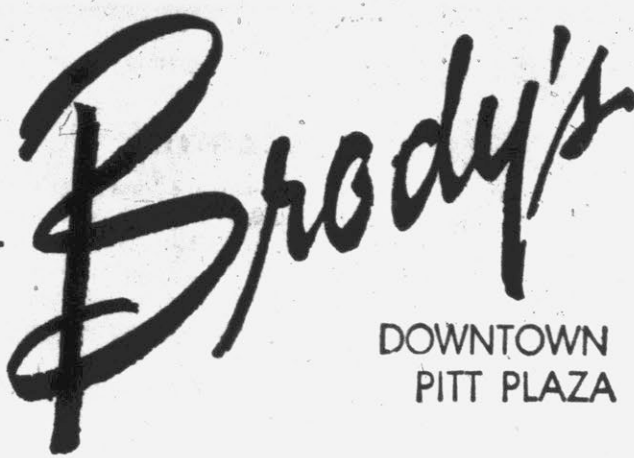

The U.S. Steel price increase was said to be equivalent to a 2.7 per cent across the board hike, but — like Bethlehem's — took the form of larger increases on selected products composing about 55 per cent of the product line.

Bethlehem raised prices of steel shapes, piling, plates, rails, bars, rods and tubular products. All of these increases, it said, had been approved under a blanket Price Commission authorization about a year ago and would take effect Jan. 1.

Bethlehem also said it would apply to the Price Commission for permission to raise by 4 per cent the price of tin mills products, which make up a relatively small percentage of sales. These increases, if approved, would take effect next Feb. 16.

Left untouched were the prices of sheet and strip products, which make up about 40 per cent of shipments industry wide, according to analysts. Bethlehem had said in October that it would hold the line of these prices at least through April.

Bethlehem, however, concentrates more than other companies on structural steel, used in heavy con-

D.H. Conley HIGHLIGHTS

By MARY I. BRANCH

Hi, friends! I hope you are enjoying these Thanksgiving holidays as much as I am. We have plenty of food to eat and a bottle of Alka-Seltzer in the medicine cabinet.

Need a car wash? Well, if you do, the IPS Allstars and their sponsor, Ron Braxton, are sponsoring a carwash on December 2 at Chicod School from 10 a.m. to 2 p.m. Charges for a wash is \$1.50 and 50 cents for vacuuming. Let them clean your car the way it should be! Good luck Allstars!

The physical science class, also under the direction of Ron Braxton, is working on science projects for the district science fair to be held in Greenville, March 16. They are hoping for a local science fair.

Student of the week in science is Al Perkins. Smart, isn't he?

Mrs. Brenda Little's home economics class went on a field trip to Koretizing One Hour Cleaners to observe jobs available. The students learned to operate a coin dry cleaner.

Conley classes always are livened up by great speakers.

Lawyer Richard Powell spoke with Mrs. Mary Thompson's Business Law class Friday, Monday. Mrs. Umesh Gulati spoke with the Eastern Culture classes on the cultures of India. Miss Betty Warren of Shaw University spoke with interested seniors on Wednesday. Senator Vernon White will speak to the government and business law class on Tuesday. Mrs. Marie Arnaud, school nurse, and of the Pitt Co. Health Department, along with Mrs. Glenn Gaylor and Mr. J. Sasnett of Home Health Services spoke with the family life class about the care of the sick.

We have an introduction to driving class taught here at Conley under Sutton Austin. This class is for careers planning chaffering. Many tests are given so each individual can determine his own physical and mental handicaps. One machine used is the Safe T-Rater which determines one's depth perception, field of vision, and glare covering. As hazardous as our highways are today, we do need more skillful drivers.

Our photography class led by

Mrs. Nancy Evans is the first Conley who has ever had. To remember this by, we are placing mug shots of ourselves on a classroom board which will hopefully be here for many years to come. We have also made enlargement on old age, helplessness, love, and autumn.

To celebrate the Thanksgiving holidays, Melvin Suggs, teacher of the bricklaying class, has written this prayer of praise:

"I praise You holy name because You are wonderful and because I love You so much. Some men use Your name in a vile manner and it hurts me very much, knowing how holy and righteous You are. God, You are all wisdom from the beginning to the end. As I think of You creating this earth in six days and just one day to rest, I know how superior You really are. Most of all I praise You for looking down on a dying world and sending Your only begotten son to this earth, so that all who would repent and believe could live with You in a wonderful place where we will have everlasting life. For these are the things I think of most of all."

We should All bow our heads and thank God for all we have. See you next week!

The Amazon River pours 8 trillion gallons of water a day into the Atlantic Ocean at maximum flood.

Judge Gets Protection

SAN FRANCISCO (AP) — A round-the-clock guard is protecting the judge who is presiding over the trial of Ruchell Magee, the convict charged with murder and kidnap in connection with 1970 Marin County courthouse killings.

Police reported Wednesday that Superior Court Judge Morton R. Colvin had asked for protection for himself and his family after saying he had received threats through the mail.

Sgt. Vernon McDowell said he did not know how many threats the judge has received, or when the latest was made. Magee's trial is scheduled to begin Monday.

Magee, 33, originally was indicted along with black militant Angela Davis on all four counts in the shootout that killed a

"Cowar-Dex"

IVEY COWARD CO.

judge and four other persons. She was acquitted in a separate trial last June.

Kilpatrick . . .

(Continued from page 4) saving lives, wouldn't most responsible drivers eventually buy them? Why must an overly protective government compel their installation? These are matters of philosophy, not of engineering, and the AAA does not address them, but they lie at the heart of a controversy that soon will involve every family that buys a new car.

Boyle Col. . . .

(Continued from page 4)

It took a lot longer to get anywhere you were going to than it does now, but when you did get there you seemed to have more fun.

Sometimes you could keep a umbrella for several years without having it stolen, and it was an historic event in the neighborhood if a house was robbed.

When the face of little Miss Shirley Temple puckered up in a new film, the nation cried too.

You could always gladden any woman's heart by the surprise gift of a lace handkerchief.

White curtains in the window guaranteed the respectability of the average home.

People wondered about more things — but feared fewer — than they do today.

The primrose path was still a

lane, not a freeway. Those were the days — remember?

 Robert M. Montgomery, Jr., speeding, pay cost.

Aging Lion Has Sired 31 Cubs

INDIANAPOLIS (AP) — Jack, a 14-year-old lion at Indianapolis zoo, described as a bit on the scrawny side, has fathered two more cubs, bringing his total number of offspring to 31.

A new daughter and son were born recently to Jack and his mate, Martha, at the zoo.

The aging father now is fed ground meat rather than large chunks of meat so he can chew and digest it more readily, zoo officials said.

Farriering Course Completed By Nine

Nine farriering students at Pitt Technical Institute have been awarded certificates of completion in the farriering course.

Students receiving certificates were:

Jonas N. Hill, Dover; Miss Deborah McDonald, Chapel Hill; Robert E. Harris, Goldsboro; Miss Leona Pierce, Newport; Vincent Cosimo, Atlanta, Ga.; William L. Eaton, Kingston, Tenn.; Richard A. Felme, Webster, Fla.; Kenneth M. Harp, Springfield, Mass.; and Richard Shelansky, East Hartford, Conn.

The farriering (horseshoeing) course deals with the anatomy and physiology of a horse's foot,

pastern, and legs.

Special emphasis is given to corrective shoeing and to the elimination of common errors in shoeing. The major portion of

Hopes To Retain Freeze On Toll

FRANKFORT, Ky. (AP) — Gov. Wendell Ford hopes to retain the tolls on the 40-mile Kentucky Turnpike from Elizabethtown to Louisville and use the proceeds to improve the highway.

Ordinarily the road would be toll-free in 1974 when the last bonds are paid. Congressional approval is needed to continue tolls.

the students' time is spent actually working with forge tools. He (and sometimes "she") performs such tasks as trimming feet, shaping and fitting shoes, and making shoes from bar iron. For practical experience, the students work with live horses.

Since the 12-week farriering course is only offered during the fall quarter of each year, the next class will be offered fall quarter 1973.

Plastic Bottle Output Zooming

NEW YORK (AP) — The more than half a billion plastic bottles produced in the U.S. during the month of May 1972, are now reaching American consumers. People are buying more and more products—such as detergents, drugs and cosmetics and food—packaged in plastic bottles than ever before, reports the Society of the Plastics Industry.

Mountain climbers use steel spikes called pitons to secure their ropes while ascending steep cliffs.

March Of Dimes Director Named

Capt. Jerry Fabisch of Greenville, has been appointed Pitt County 1973 March of Dimes Director, according to Dewey Chappel, Jr., State March of Dimes Chairman of Winston-Salem. Capt. Fabisch is associated with the ROTC Department at East Carolina University. He succeeds Lee Moore of Greenville who spearheaded the Campaign for the March of Dimes last year. In accepting the appointment

Fabisch said, "Birth Defects have become the number one childhood health problem in this country. They may happen in your home, next door, or down the street. We need financial support to help prevent these tragedies that strike some 6,800 babies in North Carolina alone every year."

Capt. Fabisch added that contributions to the March of

Dimes also will help in establishing more prenatal care programs for mothers with high-risk pregnancies, and intensive care nurseries for the critically ill newborn.

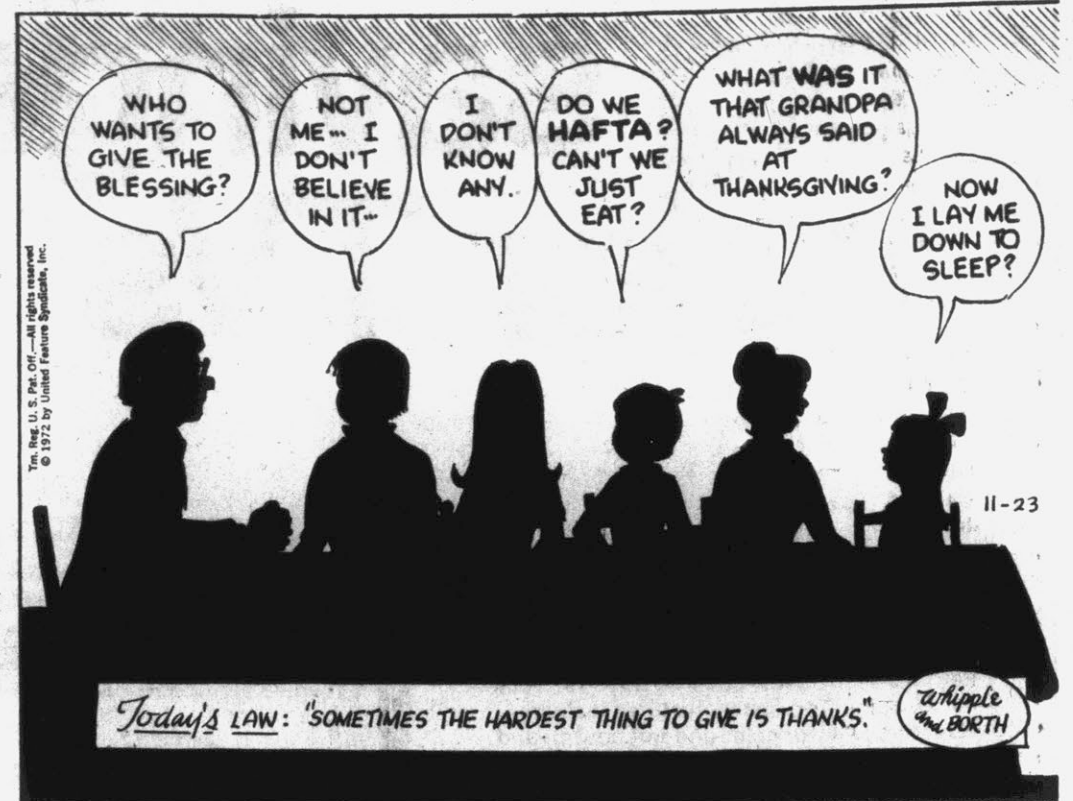

Church Launches 'Home Evenings'

The church of Jesus Christ of Latter-day Saints here has instituted a program called, "Family Home Evening" for celebrating the Thanksgiving season.

Two missionaries here representing the Mormon church are Elder Don Jackson and Elder Don Kline. They may be reached at 758-4019 for information concerning the "Family Home Evening" program and the church itself.

Services are held in Room 130 of the Rawl Building on the East Carolina University campus at 10:30 a.m. and 6:30 p.m. Sundays. Anyone is welcomed to worship there, the missionaries said.

The Space Needle in Seattle, Wash., symbol of the city's 1962 World Fair, is 607 feet high.

Some of our best friends are our best customers. And vice versa.

When folks come in to look at our new cars the first thing we do is listen. That way we know their needs and can match them up with just the right Ford for them. With the right kind of financing. With the right standard and optional equipment.

Say, for instance, you want a little luxury without spending a lot of money. We'd say Galaxie 500. Maybe with a vinyl roof and interior trim, with an AM/FM stereo radio. And all that standard Ford quiet. That would be our suggestion—or you might have one of your own. So we'd listen again until you were happy. After all, if you can't trust your friends, who can you trust? And vice versa.

THE FORD TEAM WANTS TO MAKE YOU HAPPY.

Nineteen Earn The White Cap

Nineteen Practical Nurse Education students at Pitt Technical Institute Wednesday earned the right and privilege to wear their white caps, the first milestone in their training.

As their names were called, during the capping ceremonies, each student marched to the front of the room and knelt on one knee beside a small table on which there were lighted candles, flowers, and the white caps.

While each student was in a kneeling position, her cap was placed upon her head by Mrs. Janice Leggett, PTI nursing coordinator.

Especially designed for Pitt Tech students, the plain white cap will be worn by the students for the next nine months while gaining clinical experience at the Pitt Memorial Hospital in Greenville. Upon the satisfactory completion of their clinical experience and classroom instruction and graduation in

Transit Boomed By Explo '72

DALLAS (AP) — Chalk up another plus for Explo '72, the worldwide youth for Christ meeting this summer in Dallas. It gave the Dallas Transit System a rare financial plus in June.

Transit General Manager Wilson Driggs reported that charter revenues increased \$119,989.62, which represents a 251 per cent rise over the same month in 1971.

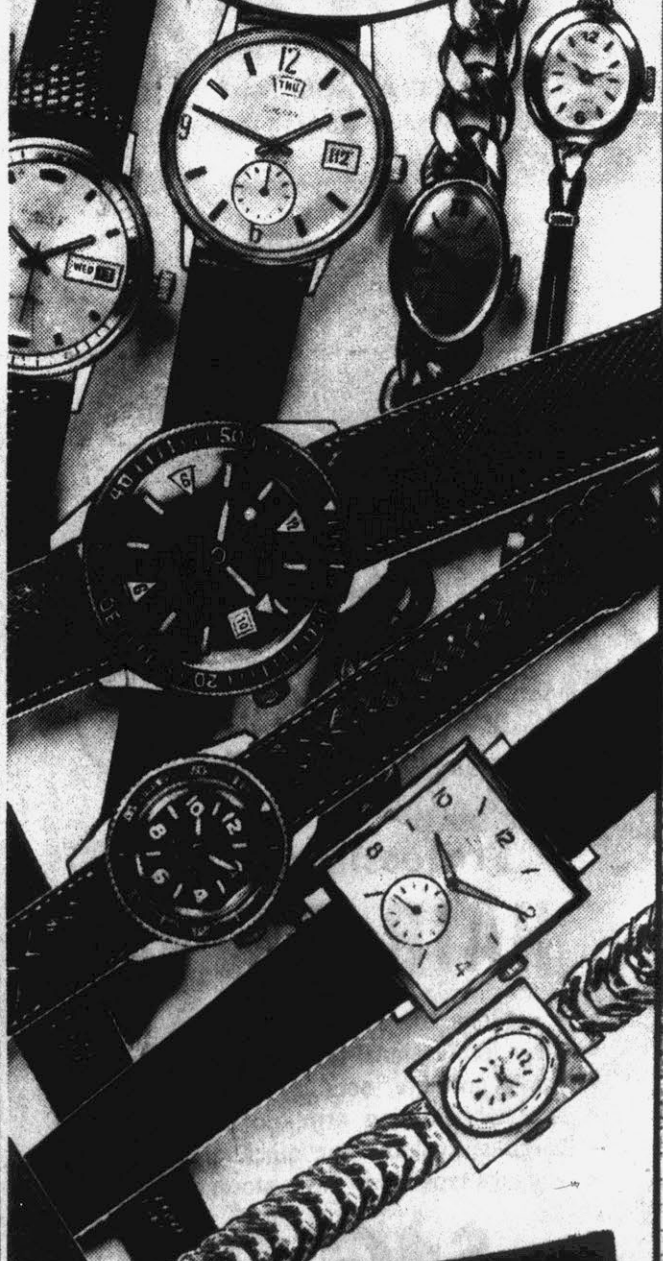

Explo '72, which attracted more than 100,000 young men and women from all over the world, generated nearly \$108,000 in charter revenues for the transit firm.

Occupation Alcoholism Institute At San Francisco

The second session of the National Occupation Alcoholism Training Institute will be held in San Francisco, Calif. Sunday through Friday of next week.

The Institute is being directed by faculty of the Occupational Alcoholism Training Program of East Carolina University and is financed by a grant from the Department of Health, Education, and Welfare. The staff of the National Institute on Alcohol Abuse and Alcoholism will collaborate with ECU on this institute, just as it did on an earlier one held at Southern Pines.

Two consultants from each state in the United States, the District of Columbia, the Virgin Islands, and Guam will be attending the Institute. One from each state or territory works with industry and the other deals

with government employees at all levels.

An objective of this national effort is to help industry and government identify troubled employees and seek to help them. A recent report to Congress stated that American employees troubled with alcohol abuse are costing American industry \$10 billion dollars per year, more than double the cost four years ago. This cost translated into daily payrolls amounts to a \$32 million-dollar-per-day loss to industry.

In practical application, an employer striving to reduce the toll of alcoholism become an active ally of the helping agencies in the community and allows an employee to continue on the job while receiving medical and counseling assistance, according to Brayom

Anderson, coordinator of the Institute.

Other ECU personnel participating in the Institute will be Steve Alexander, coordinator of conferences and institutes for

the Division of Continuing Education; William C. Byrd, associate dean of the School of Allied Health and Social Professions; Jerry Lotterhos, director of the Alcohol Training

Program for North Carolina; Dr. David Middleton, dean of the Division of Continuing Education; Donald R. Dancy, chairman of the School and Community Health Education

Program of the School of Allied Health and Social Professions; William T. Gartman Jr., assistant professor in the Department of Social Work-Corrections; Miss Patricia

Gartman, a training specialist of the Mental Health Training Program for North Carolina; and R.D. Watson, coordinator of the Practicum Program of the Alcoholism Training Program.

Going To Sea With Textbooks

NEW YORK (UPI) —The men of the U.S. Coast Guard are going down to the seas with textbooks under their arms.

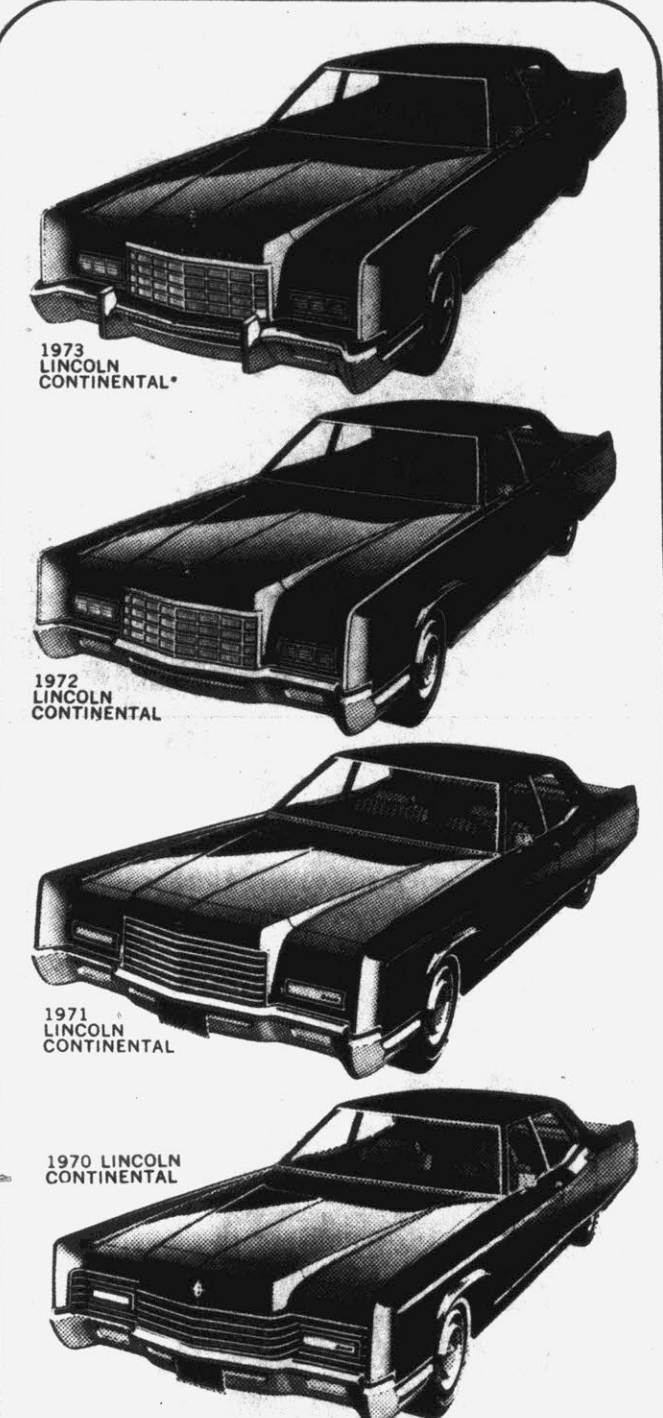

Governors Island, headquarters of the Coast Guard's Eastern Area 3rd district, now houses still another bastion. It is the "overseas" campus of Staten Island Community College. The guardsmen and even their wives and children attend the classes in business management, accounting, psychology, sociology and American literature.

Housewife Has Danger Route

AKRON, Ohio (AP) — American housewives average about 100 miles each week just in family chauffeuring and errands around town.

Goodyear safety experts here caution that one-quarter of all auto accidents occur in a 25-mile radius from home—the general area of driving by housewives.

AND GROWING
SAN FRANCISCO (UPI) — The Californians' total tax bill is now about \$42 billion a year, according to the California Taxpayer Association.

The classic look of Continental luxury. Eminently respected regardless of vintage.

Year after year, Continentals have retained their preeminence among American luxury cars. We believe that in 1973 the Continentals will deliver the most outstanding performance on the American road, just as they did in 1972 in riding and handling tests against the other luxury car. We have a fine selection of previously owned Lincoln Continentals, Mark IIs and Mark IVs in stock at this time—previously owned and proudly cared for, thus offering remarkable purchase values. Ownership of a previously owned Continental carries esteem and prestige often denied new cars of lesser stature. A number of our selections are equipped with a full range of luxury and convenience features. Air conditioning, full power and leather-with-vinyl upholstery are common among them. So before you settle for a lesser car—new or previously owned—consider the eminent good sense a Continental makes.

THE CONTINENTALS.

*1973 Lincoln Continental shown with optional wheel covers and vinyl roof.

Lower Prices For Cattle Producers

WASHINGTON (AP) — Prices paid to producers in a key cattle market are the lowest in a year, according to the Agriculture Department, indicating the drop could be felt at the consumer level.

The department said mid-November prices for choice steers at Omaha, an important indicator of how the cattle business is doing, were lower by an average of 21 cents per hundred pounds from last November.

For the week ended Nov. 16, this year, the Agriculture Marketing Service reported, the average price per hundredweight was 37 cents below the previous week.

The drop off in slaughter steer prices was having an effect on wholesale beef, a key link in the feedlot-to-consumer marketing chain.

While prices have fluctuated in the Chicago wholesale beef market, they have been below year-earlier prices a number of weeks since July.

In the week ended Nov. 20, the AMS said, choice beef car-

casses weighing 600 to 700 pounds averaged \$50.83 per hundredweight, 25 cents less than a week earlier.

A year ago, comparable carcasses were bringing \$54.75 at Chicago. They were around \$60 at the peak last summer.

City Counted 2 Accidents

Two traffic accidents Wednesday caused less than \$500 damage and resulted in no injuries according to police.

Police charged Joseph Lee Sawyer, 24, of Rt. 7, Greenville with failure to reduce speed to avoid an accident after the car he was driving collided with a vehicle being operated by Gloria Jean Teel, 18, of Rt. 4, Greenville. The accident occurred on Memorial Drive near Trade Street.

Damage to the Sawyer auto was \$250, while damage to the Teel car was minor.

Police also charged Robert George Morse, 21, of 2408 E. Third St. with passing on the right after the car he was driving collided with a car being driven by Phillip Branch Goodson, 17, of 180 Rosewood Dr.

Damage to the Morse car was \$175, while damage to the Goodson car was minor. The accident occurred at 3 p.m. on E. Fifth St. near Ash Street.

Obituary

Flynn
Funeral services for Mrs. Delores Flynn will be conducted Friday at 2 p.m. at the Phillips Bros. Mortuary Chapel with the Rev. W. J. Best officiating. Burial will follow in the Brown Hill Cemetery.

Born in Martin County, she was the daughter of the late Perry and Ida Spruill Hilliard. She moved to Greenville a few years ago where she lived until her death.

She is survived by one daughter, Mrs. Mary B. Reddick of Greenville, N. C.; three sisters, Mrs. Josephine Stokes and Mrs. Madie Hopkins Harris, both of Williamston, and Mrs. Bertha Jackson of Philadelphia, Pa.; one foster son, James Mayo of Philadelphia, Pa.; two stepsons, Elijah Flynn and John Flynn of Philadelphia, Pa.; and other friends and relatives.

The body may be viewed Thursday evening at the Phillips Bros. Mortuary.

Hawke Petition To State Board

RALEIGH (AP) — Republican fourth district congressional candidate Jack Hawke's contention that Ike Andrews did not win their race by 971 votes is now in the hands of the state Board of Elections.

Hawke's petition claiming voting irregularities in black precincts of Raleigh was turned down by the Wake County Board of Election's Democratic majority Wednesday.

Similar petitions had been rejected by Democratic majorities on elections boards in Chatham and Durham counties. The Durham county petition was appealed to the state board, which will hear the appeal next week.

Didn't Spend

RALEIGH (AP) — In an era of free-spending campaigns, Secretary of State Thad Eure said he didn't spend a nickel in winning reelection this year.

"I didn't run a political ad or even hand out a card," Eure said in an interview Wednesday. "I did receive some contributions, but I returned every one with thanks."

Eure, 73, defeated Mrs. Grace Rohrer to win his 10th term. But the self-styled "oldest rat in the Democratic barn" said he didn't think the state should limit campaign expenditures. "It's up to the people to decide whether a candidate is trying to buy an election."

Some Prisoners Chose To Stay

ATLANTA, Ga. (AP) — Mayor Sam Massell disclosed a plan to release 43 inmates from the city prison farm Wednesday before their sentences were up, a gesture of Thanksgiving holiday spirit. But the special reprieve was rejected by a number of the prisoners.

"Some of them just absolutely refused to go," prison director J. D. Hudson said.

Officials indicated part of the reason could have been that a scrumptious turkey dinner was planned for the inmates.

TEXTILE TALKS
WASHINGTON (AP) — The United States will begin talks in Washington Monday aimed at restraining a rapidly rising tide of man-made textile imports from Singapore, the Portuguese colony of Macao, and Thailand.

Air Force Will Triple The WAF

WASHINGTON (AP) — The Air Force says it will triple its number of women members in the next five years, and has established numerical quotas to

see they get their share of slots in non-combat career fields.

The combat prohibition, which keeps women out of the pilot's seat, Brig. Gen. Jeanne M. Holm, director of Women in the Air Force said Wednesday is "not a question of whether women can fly a plane," but

rather it is a legal matter set down in federal law.

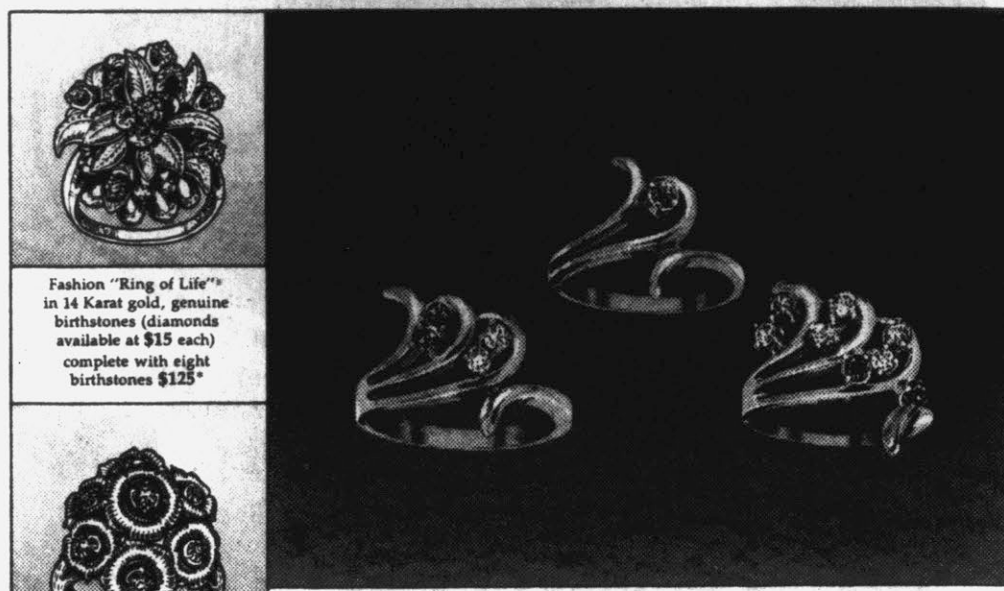

Current WAF strength is 17,000. It will be increased to 48,000 by June. Career fields in which more jobs will be made available to women include radar and radio repair, aircraft and missile maintenance and

civil engineering.

All of which is not to say that women "are going to be treated like men," said the general. "There are sex differences."

Oxcarts are still used in many backland areas of Brazil.

Ayden-Grifton Claims Second Conference Victory Of Season

LITTLEFIELD — Ayden-Grifton rolled to its second straight Eastern Carolina Conference victory of the young season last night with a 63-31 victory over Southern Nash. The Ayden-Grifton girls got their first win in two starts with a 34-26 score.

In the girls' game, Ayden-Grifton jumped out into a 10-4 lead by the end of the first period. Southern Nash put on a rally in the second period, outthitting the Chargers, 9-4, but wasn't quite enough to pull even.

Ayden-Grifton held to a slim 14-13 lead at the half.

The Chargers pulled away in the third period, however, to insure their victory. They outthit the Lady Firebirds, 14-5, and built up a 28-18 lead. Southern tried to get another rally going in the final period, but could only trim two points off the lead with an 8-6 scoring average.

Gloria Pope led Southern Nash with 16 points, while Decia Little paced Ayden-Grifton with 14.

In the boys game, Ayden-Grifton eased into a 10-4 lead in

the first period and was never in trouble after that. They outthit the Firebirds, 19-6 in the second period as they fashioned a 29-10 lead at halftime.

The Chargers came back to hold a 16-6 advantage in the third quarter as they boosted their lead by 10 more to 45-16. Then, in the final period, Ayden-Grifton outthit Southern, 22-15, to wrap up the victory.

Milton Brown led the Chargers scoring with 18 points, while Danny Garris had 15 points. Southern Nash failed to place a man in double figures.

Ayden-Grifton travels to North Pitt on Tuesday.

Conley Dumps Greene Central

HOLLYWOOD — D.H. Conley picked up a couple of Eastern Carolina Conference victories last night at the expense of Greene Central. The Vikings blasted the Rams, 52-43, in the boys game, after taking a 25-20 win in the girls.

In the girls contest, Conley pushed out into a 10-3 lead in the first period, but neither team had much luck in the second. Both ended up with only two points in the second frame. That made it 12-5 at halftime.

Conley outscored Greene again in the third quarter, 6-5, and held an 18-10 lead as the last quarter opened. The Ewes outthit them, 10-7, but it wasn't enough to close the gap.

Glenda Denton led the Conley scoring with 10.

In the boys' game, Greene Central eased into an 11-7 lead in the first period, but the Vikings fought back and outthit them, 14-9 in the second frame. That eased Conley into a 21-20 lead at the half.

In the third period, Greene Central stayed close, outscoring Conley finally, 12-10, to move back into the lead, 32-31 at the last quarter opened. Conley got

hot there, however, dumping in 21 points to just 11 for the Rams, and that did it.

Clellenn Streeter led the Vikings with 11 points, while Mike Sutton had 10. Ervin Spivey had 16 points to pace Greene Central, while Williams added 11.

Greene Central hosts Southern Wayne on Tuesday, while Conley plays host to C.B. Aycock next Friday.

JV Conley 43, Greene Central 41.

Panthers Claw Robersonville

BETHEL — North Pitt's Panthers picked up their first victory in two starts last night with a 52-37 romp over neighboring Robersonville. The Big Orange Machine ground up the Robersonville girls, 53-22 in their game.

The Panthers pushed out into a 10-4 lead in the first period and were never caught after that. Robersonville did out hit them in the second period, but only 12-11, and the Panthers took a 21-16 lead into halftime.

The North Pitt five continued to pull away in the third frame, dumping in 16 points while the Eagles could get only eight. That ran the Panther lead out to 37-24. North Pitt finished the Eagles off with a 15-13 final period to check off the victory.

Joe Wright and Phillip Brown led the North Pitt scoring with 14 each, while David Brown had 10 points. For Robersonville, Ernest Crandall had 12 points.

In the girls' contest, North Pitt wasted no time in letting Robersonville know where it stood, running up a 17-4 lead in the first quarter. In the second stanza, the Pant-HERS con-

tinued to roll along, scoring 14 to Robersonville's 8. That made it 31-12 at the half.

North Pitt outscored Robersonville again, 10-7, in the third period, running the lead to 41-19, then finished up with a 12-3 scoring advantage to pick up their second win of the year and remained unbeaten - ever.

Debbie Pollard led North Pitt with 17 points, while Minnie Hollis had 14. No one hit double figures for Robersonville.

North Pitt plays host to Ayden-Grifton, and Aurora visits Robersonville on Tuesday.

Williamston Hosts Tabor City In Eastern 2-A Football Finals

WILLIAMSTON — The Williamston Tigers get a chance to look at their home field Friday night for the first time in the 2-A State Playoffs as they go for the Eastern Championship against the Tabor City Red Devils.

Williamston won the right to move into the state semi-finals by beating Northwood High School of Pittsboro last week. The winner of this week's game will travel to meet the Western champion on December 1 for the State 2-A crown.

Tabor City comes into the game with a 10-1-1 record, and Coach Dink Mills of Williamston feels they are the toughest team the Tigers have met to date.

"Defense appears to be their strong suit," Mills said after looking at films of some Tabor City action. "They run a 6-2 and a 6-1 defense, and they are especially strong at the tackles and linebackers."

The two tackles are among the biggest men on the team. They include C. Lewis, a 6-4, 270-

pounder, and A. Wright, a 6-4, 225-pounder. The linebacking crew includes O. Dantzier, 5-11, 185, who also is the fullback on offense and J. Butler, 6-2, 185. "On film they really look good. Nobody appears to be able to run on them inside," Mills said. "Overall, they're nearly as big as Northwood," he added.

Mills said that it was hard to tell the quickness of the team on film, but that they bulled their opponent around pretty much. "They demolished James Kenan, 33-0, so we know they're strong. We rate them much better than Northwood."

Mills also stated that he was surprised by the ease his team had in beating Northwood. "I thought they would be better. The slick, wet field we played on hurt us much more than it hurt them, but we were able to get two quick ones on them, and it broke their backs."

Unlike Northwood, which used a multiple offense, the Red Devils use just one formation, the straight T.

"They bring their ends in and use the dive play and off-tackle power plays most of the time. They are a very fundamental team, with just a few plays. But they run those plays very well," Mills said.

"They also haven't thrown much, but they can when they have to and do it just enough to keep you awake. They also like the screen pass quite a bit," he added.

Offensively, Dantzier is also the big man for them, but other runners include R. Byerly, 5-11, 170, and J. Cartrette, 5-9, 185. All three are great threats, Mills noted.

The coach feels that probably the best thing Williamston has going for it is that the Tigers are at home for the first time in the three playoff games so far. And they know that no matter what.

it's their last chance to be at home. "It'll help us some," Mills said, "but at this point in the playoffs, it won't be much."

One injury sustained last week is bothering Mills. Split end Dwight Ange, the top pass receiver on the team suffered a knee injury in the game with Northwood. He's expected to play, but Mills doubts that he'll be at full speed.

Game time in the contest is at 8 p.m. Friday.

Davidson May Challenge

By WOODY PEELE
Reflector Sports Editor
(One of a series)

Terry Holland is wearing a smile these days despite the fact that Furman's Paladins are chosen to be the Southern Conference basketball champions.

Holland, in the fourth year of his coaching career at Davidson, has been standing in the shadow of Lefty Diesell since his former boss left to go to Maryland. He had a 22-5 year his first season, mostly with Lefty's boys, then

fell off to 15-11 before coming back to be 19-9 last year.

Both of the last two year's however, his teams failed to win when it counted—in the Southern Conference tournament, losing two years ago to Furman in the finals, and last year to East Carolina in the semi-finals.

But this year, Holland feels that he's brought the Wildcats back to their level when the team put Davidson into the national standings and the NCAA Tournament.

Despite the fact that there

isn't a big man on the team, Holland feels he can win without the "big stud." The tallest man on the team is 6-8.

"The general outlook right now is that things look good," he said quite optimistically. "We had a pretty good season last year, and this year should be even better."

Davidson was a very balanced team last year, with five players hitting in double figures: Three of them are back this year, including leading scorer John Falconi, a 6-5, 185-pound junior. He average 16.1 points.

The other two back are John Pecorak, 6-5, 212, senior, and Mike Sorrentino, a 6-0, 171-pound junior.

"We've also got T. Jay Pecorak (6-5, 217 junior) who averaged 13.5 points a game during the latter part of the season," Holland said.

John Pecorak is the only senior on the team who'll see much action, Holland said. "He's a superb player," the coach added, "He's an All-American in every sense of the word."

There are five juniors available, led by Sorrentino, Falconi, and T. Jay Pecorak. The others include Steve Gadaire (6-5, 185) and Paul Wagner (6-6, 192). "Falconi was our leading scorer, but he sat out the last six games with an injury," Holland said. "He had recovered now and looks good. He could be an All-American by the senior year. He's a very impressive player."

Holland ranks Sorrentino as a fine ball handler who was under a lot of pressure last year. "He can make the team go," Holland said. "He's a very smart player."

T. Jay Pecorak may be as good as anybody on the team, Holland feels. "He is quick, a good defensive player, and has offensive talent."

Wagner, who was hurt late last year did a good job in reserve. Holland feels, and is looked to for backup action this year. Gadaire played well in reserve also, and despite his size, is a backup man inside. "He's a very strong defensive player, and

quite aggressive," Holland said.

These six players give Davidson a good background of experience, and Holland calls it "a heck of a nucleus."

Among the newcomers are those up from last year's 17-2 freshman club. "They were led by 6-6, 207, Greg Dunn, who is a fine one-on-one player. He's not starting now, but he may before it's over. He's a fine passer and dribbler."

Larry Horowitz, 6-7, 200, was the leading freshman rebounder. He's not a pretty player, but he gets the job done. He's a garbage man supreme," Holland said.

The biggest man on the team is 6-8, 220-pound sophomore Sheldon Parker. "He's been hurt and hasn't practiced much, so we don't know how he's going to do."

"With just one senior, of course we're going to be looking forward to both this year and next. I feel we can play eight to ten people in every game. We have a rough schedule, and we're going to have to force the other team to use eight or 10 players also to really be successful. We have good overall talent, but no great player like we've had in the past."

"We're going to play our game as fast as possible. We're going to press, fast break and be aggressive defensively," the coach said.

Holland didn't predict that the Wildcats would be on top when it was over, but by the smile on his face, he might just be measuring Furman for the same type upset the Paladins ran into last year.

Eastern Wayne Edges By Farmville Central

GOLDSBORO — Eastern Wayne High School downed Farmville Central last night, 65-54, handing the Jaguars their first loss of the season.

In the girls game, Eastern Wayne made it a sweep with a 47-35 victory.

Eastern pushed out into an 8-2 lead in the first period of the girls' contest, and then outthit Farmville Central 12-5, in the second quarter. That made it 20-7 at halftime.

The Warriors continued to pull away in the third period, scoring 14 points while Farmville added

11 to its score. That made it 34-18 at the end of the period. In the final period, Farmville put on a rally, outthitting Eastern, 17-13, but it wasn't enough.

Smith led the Eastern scoring with 14 points, while Allen had eight to pace Farmville.

In the boys' game, Farmville pushed ahead in the first period, doubling Eastern Wayne, 12-6. But it didn't last. Eastern came back with an 18 point second period, holding Farmville to six. That pushed them into a 24-18 lead over the Jaguars at intermission.

In the third period, the Warriors continued to ease away, holding a 14-11 scoring advantage to build their lead to 38-29. Both teams hit at a torrid pace in the final period, but Eastern again held sway, 27-25, and claimed the victory.

Bobby Body led Eastern with 24 points, while Best had 21 and Reed had 10. McCoy Williams had 18 to pace Farmville, while Willie Jones had 14 and Phil Lewis had 12.

Farmville plays host to Rose High School on Tuesday.

Deacons Close Out Harper's ACC Career

By THE ASSOCIATED PRESS

Wake Forest's football team plays its last game under Coach Tom Harper Saturday afternoon, playing host to Virginia Tech in one of four games matching Atlantic Coast Conference teams against outsiders.

Champion North Carolina is at home to East Carolina, the Southern Conference champion; independent South Carolina plays at Clemson; and Maryland plays at Miami, Fla., in a night game.

Except for three games, that will wrap up the season for ACC teams. North Carolina has still another regular season game, but it won't be until Dec. 9 when the Tar Heels play Florida at Jacksonville.

After that, North Carolina has a Sun Bowl date with Texas Tech Dec. 30 at El Paso, Tex.; ACC runnerup North Carolina State, its regular season over, has a Dec. 29 Peach Bowl duel against West Virginia at Atlanta.

Two weeks ago Wake Forest reacted to the news that first-year Coach Harper was being dismissed at the end of the season by upsetting Duke, thereby clinching the league title for North Carolina.

Now everyone is wondering whether the Deacons can muster a final inspired effort Saturday to give Harper a winning sendoff against Virginia Tech.

Wake Forest goes into the game with a 2-8 record. Independent Tech is 5-4-1 after absorbing a 52-13 lacing last week at the hands of nationally ranked Alabama.

The record against common opponents favors Virginia Tech. The Gobblers edged Southern Methodist in September, two weeks after SMU had dismantled Wake Forest 56-10. Against South Carolina, it was 45-20 for Tech, while Wake lost to South Carolina 35-3.

Virginia Tech lost its opener to Virginia by four points and last week Wake Forest lost to Virginia by three.

Complicating the picture for Wake Forest is the presence of Don Strock of Tech, the nation's passing leader, with 20.3 completions per game. He is No. 2 in total offense, averaging 278.4 yards. Wake Forest's team offense average is 200.5 yards, lowest by far in the ACC.

The lone statistical bright spot for the Deacons is punter Chuck Ramsey. His 43.7 average for 66 boots is No. 2 nationally.

Last year, the Deacons beat Tech 20-9 for their eighth series victory against 12 losses and a tie. Strock completed only 14 of his 33 passes, gaining 237 yards but had no scoring passes and was intercepted three times.

Delaware Has Second Title

By THE ASSOCIATED PRESS

The Delaware Blue Hens have completed a fine season on the football field and another good year in the college division poll.

After sweeping 10 opponents, the Blue Hens wound up No. 1 for the second straight year in the Associated Press' final rankings, released Wednesday.

The powerhouse Hens dominated this year's polls from the start, holding the top position every week but two, and wound up with nine first-place votes and 272 points.

The voters, drawn from a nationwide panel of sports writers and broadcasters gave four top votes to second-place Louisiana Tech. The runnersup, undefeated in 11 games, finished with 237 points.

Last year, Delaware had a 9-1 record and captured 256 points for a 23-point edge over McNeese State.

The No. 3 ranking this year was secured by Cal Poly San Luis Obispo, 8-0-1, with 197 points. Ashland, 11-0, finished fourth, while Tennessee State, 8-1-0, was fifth with 164.

Sixth place was shared by South Dakota and North Dakota, who had identical 9-1

records and finished with 144 points apiece. Western Carolina and Grambling shared the No. 8 spot with 76 points each while McNeese State and Carson-Newman wound up locked in the No. 10 position with 55 points apiece.

Carson-Newman will play unranked Livingston in the NAIA Division I semifinals as the post-season games start Saturday. Four other ranked teams will be in action this weekend.

Louisiana Tech meets unranked Tennessee Tech in the Grantland Rice Bowl in Baton Rouge, La., and Tennessee State goes to the Pioneer Bowl in Wichita Falls, Tex., for a game against Drake, ranked 10th last week.

The Camellia Bowl in Sacramento, Cal., is a struggle of ranked teams between Cal Poly and North Dakota.

Delaware, which has won the Lambert Cup for the fifth straight year as the outstanding college division team in the East, won't be in the bowl picture this year. The Blue Hens have decided to sit this one out.

The Top Ten in The Associated Press final college division football poll for 1972, with first-place votes in parentheses, season records and total points. Points tabulated on basis of 20-18-16-14-12-10-9-8-7-6-5-4-3-2-1.

1. Delaware (9) 10-0 272
2. La. Tech (4) 11-0 237
3. Cal Poly-SLO 8-0-1 197
4. Ashland (1) 11-0 195
5. Tennessee St. 8-1 164
6. South Dakota (1) 9-1 144
7. North Dakota 9-1 144
8. Grambling 8-2 76
9. West. Carolina 7-2-1 76
10. Carson-Newman 9-1 55
- McNeese State 8-2 55

Indiana Rolls To 114-103 Win Over Cougars; Nets Snap Slump Over Seattle SuperSonics Club

By THE ASSOCIATED PRESS
Brian Taylor, a former Ivy League man, is giving some class to the New York Nets' backcourt.

The American Basketball As-

sociation team hasn't looked as stylish in a while.
"I'm doing what I've been asked to do, that's all," said the rookie after scoring 27 points to lead the Nets to a 109-

105 triumph over the Virginia Squires Wednesday night.
What the Nets have been asking Taylor to do is fill in for John Roche, who has been ailing with a hurt back.

And Taylor has been the right answer for Coach Lou Carnesecca. The onetime Princeton star has helped the Nets pull out of a recent slump, aiding in four straight victories at home.

In the other ABA games Wednesday night, the Indiana Pacers ripped the Carolina Cougars 114-103; the Kentucky Colonels downed the Memphis Tams 123-109 and the Utah Stars stopped the Dallas Chaparrals 119-113.

George Carter helped Taylor

with the Nets' scoring load, pouring in 23 points. Julius Erving scored 36 points and hauled in 17 rebounds for the Squires.

George McGinnis scored a game-high 24 points to lead Indiana over Carolina. The Cougars had an eight-point lead in the second quarter, but the Pacers scored 14 straight points over the next four minutes and were hardly in trouble after that.

Artis' Gilmore scored 33 points as Kentucky snapped a four-game losing streak with the victory over Memphis.

Glen Coombs, Cincy Powell and Willie Wise combined for 60 points to pace Utah over Dallas.

By THE ASSOCIATED PRESS
How do you stop a speeding Bullet?

The Seattle SuperSonics didn't have the answer Wednesday night and as a result, the Baltimore Bullets took a 112-90 National Basketball Association victory behind speedy Elvin Hayes.

Hayes scored 23 points in a

dazzling fast-break offense that powered the Bullets past the Sonics and back into first place in the Central Division.

The Bullets had an 80-68 lead entering the final period when Hayes made all seven of his field goal attempts and scored 16 of his points to put it away.

In Wednesday night's other NBA games, the Boston Celtics dropped the Portland Trail Blazers 126-107 and the Houston

Rockets crunched the Golden State Warriors 132-104.

Phil Chenier aided in the Baltimore rout with a 21-point night while Mike Riordan scored 20.

Dick Snyder scored 21 points to lead the Sonics while Spencer Haywood netted 19.

Wes Unseld, the Baltimore center, had to leave the game with a strained back muscle and is a doubtful starter for Saturday's game against Milwaukee.

Led by Dave Cowens, the Celtics scored 40 points in the third period to take a "laugh-er" over Portland. Cowens scored 10 of his 33 points in that period and grabbed 10 rebounds to pace the Celtic

slaughter.
John Havlicek and Jo Jo White each contributed eight points in the third-period explosion, giving Cowens plenty of help. Boston led by as much as 29 points at one time before easing up.

Sidney Wicks pitched in 23 points for the losers.

Jack Morin poured in as Houston broke a seven-game losing streak with its smashing victory over Golden State.

Lothridge Gets Second Chance

MIAMI (AP) — Billy Lothridge was switching television channels between the Miami New York Jets and Dallas-Philadelphia games Sunday when an unfunny thing happened to Dolphin punter Larry Seiple that brought Lothridge out of retirement.

"I saw Seiple get hit," Lothridge said Wednesday after he arrived to replace the Miami kicker who was sidelined indefinitely with damaged knee ligaments. "It never entered my mind that I'd be here on Wednesday, even when they carried him off."

But early Wednesday, with an unseasonably cool (60-degree) wind at his back, Lothridge was booting 60-yards at the Miami Dolphins' workout.

Lothridge, a 6-foot, 200-pound kicking specialist, punted for eight seasons before being cut by the Atlanta Falcons last September.

Don Shula, coach of the only undefeated team in the National Football League this season,

called Lothridge Monday and offered him Seiple's job. But Lothridge said he didn't jump at the chance.

The Dolphins clinched a play-off spot by winning their 10th straight Sunday, but Lothridge noted, "There's so much uncertainty. I could be here until Tuesday, or a month or till the end of the season. Larry could come back for the playoffs, but there's no sense talking about that because we really don't know yet."

"It was a tough decision," he said. "I have obligations to my family and my business partners and you just can't pull up stakes and move out."

But he decided to take a chance Tuesday night, and Shula put Seiple on the wounded list and released defensive back Mike Howell from the taxi squad to squeeze Lothridge into the roster.

Lothridge, 30, is a Georgia Tech product and has also played with Dallas and Los Angeles.

Sports Briefs

By THE ASSOCIATED PRESS
LOS ANGELES (AP) — The International Track Association has confirmed it had signed five more world-class track athletes, as reported by The Associated Press on Tuesday.

ITA said Wednesday sprinters Jim Hines, Warren Edmonson and Jean-Louis Ravelomanantsoa, long jumper Henry Hines and miler Tom Von Ruden would compete in the

series of ITA professional indoor track meets scheduled for next year. The ITA's president, Michael F. O'Hara, said more than \$600,000 would be offered as prize money in the meets.

The signing of Ravelomanantsoa gave ITA its first foreign star.

WEST LAFAYETTE, Ind. (AP) — Bob Ford, former Purdue basketball star, said Wednesday he had been released outright by the Memphis Tams of the American Basketball Association.

Ford, Purdue's No. 4 all-time scorer, said he intends to work in Lafayette and try again next season to play with the Tams.

CLEVELAND (AP) — The number of original Cleveland Cavaliers has dwindled to three with the National Basketball Association trade of 6-foot-11 center Walt Wesley to the Phoenix Suns.

Wesley was dealt to the Suns Wednesday for an undisclosed future draft choice and cash. The trade ends a two-year career in Cleveland for Wesley, the first player chosen by the Cavs in their expansion draft three years ago.

Wesley's spot on the roster will be taken by 6-foot-9 center Rick Roberson, who has been sidelined three weeks with a pulled hamstring muscle.

The seven-game 1972 World Series found no pitcher tossing a complete game.

Hull In Victory

HOUSTON (AP) — Winnipeg Jets' superstar Bobby Hull says he has won another court battle and will be in uniform tonight when the Jets battle the Houston Aeros in a World Hockey Association contest.

Hull said Wednesday night a court order barring him from playing has been lifted.

Hull sat out the Tuesday night Jet-Aero game because Cook County, Ill., Circuit Court Judge Francis T. Delaney had issued an order restraining Hull from playing with the Jets until the WHA posted a \$2.5 million bond with the U.S. District Court in Philadelphia.

Hull's lawyers asked the Illinois Appellate Court Tuesday to dissolve the order.

Hull said the appellate court in Chicago lifted Delaney's restraining order Wednesday for the remainder of the season.

Medical Examiner Also Famous Medical Sleuth

EDITOR'S NOTE — Milton Helpert: Medical examiner, detective. To his staff he's a Gillespiean "chief," to the police, a Holmesian scientist to whom the dead tell secrets. To murderers, he's anathema. The lab where he toils is labeled: "Let conversations cease. Let laughter flee. This place is where death delights to help the living."

By MALCOLM N. CARTER
Associated Press Writer
NEW YORK (AP) — Human livers, hearts and limbs preserved in jars with the yellowed labels of crimes committed long ago. A human head embalmed in a murky pool of formaldehyde. A century of violence catalogued on wooden shelves.

This is Dr. Milton Helpert's museum.
After 18 years as the city's chief medical examiner, he is still intrigued by death's special signatures. Helpert lingers over the specimens he's collected, pausing to study the curiosities of organs inside time-begrimed bottles.

"Now here's an interesting case ..." he'll begin.
The city's third chief medical examiner since coroners went the way of gas lights in 1918, Helpert is widely regarded as the nation's foremost medical sleuth. He frequently is asked to testify in trials across the country and sometimes is cast as the most crucial witness.

His key testimony five years ago helped convict Dr. Carl Coppolino in a Florida court of the murder of his wife by a poison hitherto thought undetectable in a body.

"Here I am and I don't realize that I've gotten to the age that I am," he reflected recently. "I've never been bored."

At 70, Dr. Helpert has the deceptive appearance of an avuncular country doctor. His large frame droops ever-so-slightly, and the doctor's benevolent gaze through half-glasses belies his impatience with imperfection.

Helpert directs a staff of 15 doctors at his six-story building in the New York University Medical Center, plus five physicians who visit death sites on call.

On a \$2 million budget, he is charged with investigating about a third of the deaths in the nation's biggest city and thus is responsible for determining the causes of about 31,000 sudden, suspicious, obviously violent or unusual deaths each year.

He and his staff perform 8,000 autopsies a year, nearly one every hour on the average.

Their job—that of forensic pathologist—is part detective and part physician. They are not so much interested in who did it, but what did it.

"The responsibility here is to determine the cause of death and to find the answer to questions that may arise later on," said Helpert. "We don't work against a suspect. We try to get as much information as we can."

The medical examiner's investigation begins at the death scene, where he will take note of the body position, look for unusual stains or discharges and study the environment.

Then he checks for outward marks of violence, for a possibly hidden bullet entry wound. Finally, he examines the organs and slices sections from parts of the body for microscopic analysis. He uses blood and chemical tests of various tissues.

Characterizing an autopsy as "an interpretive job," Helpert said, "It isn't just taking stock. You can overlook things very easily if you're not careful."

A cardiac patient does not die necessarily from a heart attack, Helpert continued. The patient might have choked to death on a hunk of steak.

"Everyone thinks that all a medical examiner has to do is an autopsy; we discover homicides in our work," Helpert said, underscoring "discover."
"There are no perfect crimes. There are only untrained and blundering investigators, slipshod medical examiners," he added.

One of his favorite examples of a discovered crime occurred some years ago around dinner time. Helpert had been summoned to a fleabag hotel, where a woman seemingly died of an overdose of pills from a vial on the bedstand.

She was lying face up and apparently died in her sleep.

But the chief medical examiner noticed two incriminating details: There were a few tiny hemorrhages in the whites of her eyes plus a lipstick mark on the pillow.

Had she been lying face down, the hemorrhages could have been normal. And had Helpert not seen her until the next morning, the body's degenerative changes would have made them meaningless.

Helpert determined that she was smothered to death, and her estranged husband later

confessed to the crime.

In the Coppolino trial, defense attorney F. Lee Bailey could not sway Helpert from his conclusion that the defendant killed his 32-year-old wife in 1965 by injecting into her succinylcholine, a deadly drug that quickly splits into its harmless components.

As a result, Coppolino is behind bars.

Helpert has been a medical examiner for 41 years. He and two other physicians wrote the enduring book on forensic pathology in 1937. He's been president of four medical societies and honored internationally.

Helpert had finished a 2½-year residency at Bellevue Hospital in 1931, when the depression wiped out his expected job as a laboratory director.

So he took and passed the civil service exam for assistant medical examiner.

"I was interested, but I hadn't been planning to be a medical examiner. It was convenient," he recalled. "Like everything else, you can be a hack or you can do it with a certain amount of interest."

The interest "depends upon

your interest," he said, referring to himself as he often does in the second person. "If you do things just to get by, you don't really see what's in it."

Helpert's day begins about 9 a.m., when he and his wife Beatrice, who works as his secretary without pay, arrive at the blue-tiled building on Manhattan's First Avenue.

In the lobby, they encounter a string of polished aluminum letters, chiding all who can translate the Latin: "Let conversations cease. Let laughter flee. This place is where death delights to help the living."

Greeted wherever he goes in the building with a "Hi, Chief," Helpert heads for his office and sits in a leatherette rocking armchair to take care of correspondence and manage his organization.

The "chief" sees the paperwork of his job as a necessary burden that keeps him from the autopsy room, which he visits several times a day.

"You're there to advise. You're not just there as a fireman. The head of any agency like ours is different from the

commissioner of any other city department who commands: Here you actually participate. You're not a box office conductor. You're not a piano player. You're like an orchestra fice manager — you have to be able to play the violin and the piano."

PITT COUNTY BOARD OF EDUCATION
Greenville, North Carolina
MARK W. OWENS, JR., CHAIRMAN

OUR HEATING SYSTEM OFFERS EQUAL RIGHTS TO EVERYONE.

Where heating comfort is concerned, all people are not created equal. They're as different inside as they are outside. So the thermostat setting that's warm for one may be hot—or cold—for another.

But there's one heating system that lets you please all of the people all of the time. Electric baseboard heat. Because it offers the one thing that guarantees everyone's comfort: a thermostat in every room.

With multi-thermostats, you can warm the bath and baby's room without overheating the rest of the house. You can lower the heat in the kitchen when you're cooking, or cut it way down in unused rooms to save electricity. And money.

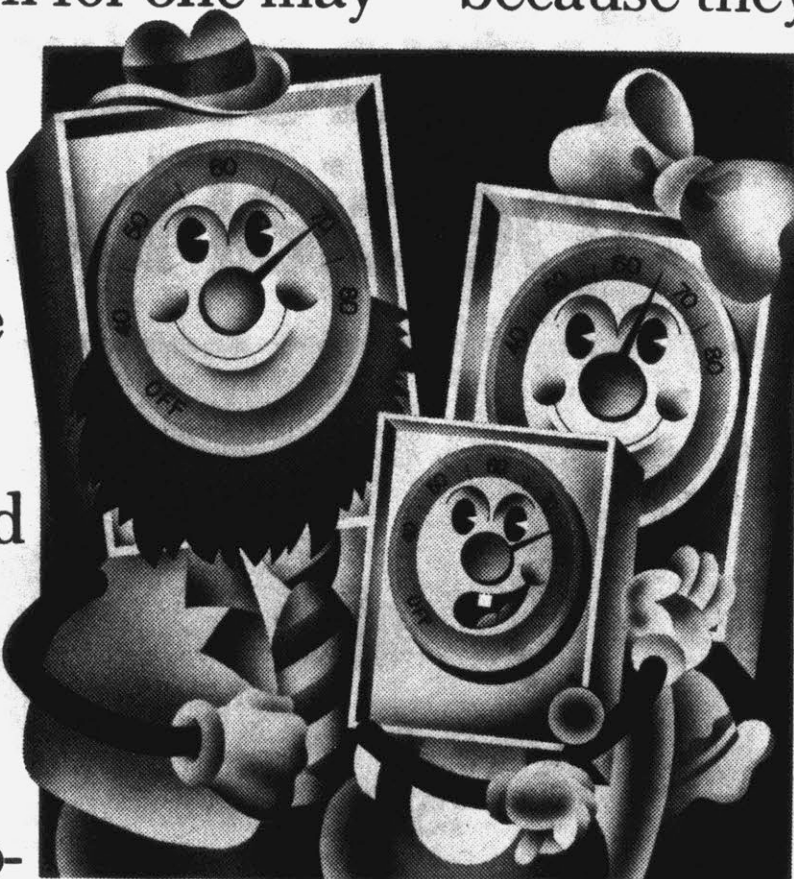

But this room-by-room heat

control isn't the only advantage. Electric baseboards give you clean, dependable, long-lived, trouble-free heating with no cold drafts or hot spots. And because they use electricity in the winter, when there's power to spare, they help you to hold down electric rates by balancing the demand for power throughout the year.

So if you're looking for a new house, or building one, ask the contractor about this

flexible system. Or call your local Vepco office. They'll be happy to work with you and your builder to help you plan for electric baseboard heat.

Then all your relatives can be comfortable at once. Even though comfort is relative.

ELECTRIC BASEBOARD HEATING IS FOR "TURN IT UP," "TURN IT DOWN," AND "LEAVE IT WHERE IT IS" PEOPLE. ALL AT ONCE.

LIVING HIGH — Randy Adams, 21, decided he needed a winter home when the carnival he works with closes for the year. So, two years ago he built a tree house on the property of some friends. It's

6x10-feet, complete with carpeting, TV, paneling, black lights and posters, standing 22 feet off the ground.

Village Invests In Own Fire Insurance

KOTZEBUE, Alaska (UPI) — Residents of Kotzebue are investing collectively in the first major fire insurance program of this ancient Eskimo community — "fire-truck," a \$65,000 vehicle and sophisticated emergency communications system.

The fire-truck is equipped

NO CLAWS FOR ALARM
NASSAU-PARADISE ISLAND, Bahamas (UPI)—The tasty Bahamian lobsters served to Nassau and Paradise Island vacationers differ from the Maine and Nova Scotia varieties in that they have no claws. Sometimes called crawfish or spiny lobster, these crustaceans are steamed, boiled, broiled, barbecued and dished up in salads.

with tracks instead of wheels, to get through heavy snows that may block Kotzebue streets up to eight months of the year. In this Arctic Circle village an ordinary fire truck would be worthless most of the year.

"It's been a long time coming," said City Manager Leo Schaeffer. "People have been pretty damn lucky there hasn't been a large fire here, because there's nothing we could do about that."

From an old trading port, this gateway to Northwest Alaska has tripled in size in the last two decades and is home to 2,200 people. Local officials say a bad fire could wipe out one half of the community.

"Fire presents a constant danger here," said fire chief Sandy Huss. "We have real

estate in excess of \$9 million they caught fire, unless it was value which needs to be a minor fire. Estimated loss protected. We have a new bank from fires has been about building, a new state building, \$75,000 annually and two lives the school, hospital and some lost every three years. So far in 1972, fires have caused about \$11,000 property damage, Huss being saved in Kotzebue once said.

Elegance of design. What beautiful gifts any of our cabinets and a Touch & Sew machine will make. A) The clean, contemporary Pacesetter. B) The graceful, slender Stamford. C) The Spanish Malaga. D) The traditional American Saratoga.

Touch & Sew*

machines are truly a gift she'll enjoy for years to come. Three styles to choose from, each with exclusive Singer features: the push-button, front drop-in bobbin that rewinds in the machine instantly with the touch of a finger; the soft-touch fabric feed system that's gentle to knits and sheers; and the horizontal spool pin for tangle-free, smooth thread delivery.

New Genie* Portable

sewing machine has all the features of a big sewing machine in a beautifully designed, slim-line portable. Exclusive front drop-in bobbin for easy, one step insertion. Sews heavy fabrics including thick corduroy and leather. All controls are built-in and up-front in clear view. Sews zig-zag... multi-stitch... and blind-stitch patterns. Model 353. **\$149.95**

Fashion Mate* zig-zag

sewing machine. The gift that keeps on giving. Sews forward, reverse and zig-zag stitches. Exclusive front drop-in bobbin for easy insertion; zoned presser bar control for sewing a variety of fabric weights. Model 257. **\$79.95**

Also available with portable carrying case.

SINGER

Sewing Centers and participating approved dealers

A small deposit will hold any machine until Christmas.

Singer Sewing Centers have a Credit Plan to fit your budget and, if you wish, monthly payments can be deferred until February, 1973. Many approved dealers offer attractive credit terms.

Singer has a liberal trade-in policy. We will apply an allowance on your used sewing machine toward any sewing machine you buy at Singer.

Hell's Angel Drug Orgy Described By Informant

By TIM REITERMAN
Associated Press Writer
RICHMOND, Calif. (AP) — An all-night Hell's Angels drug orgy began with LSD-spiked drinks and ended in the beating and strangling deaths of two motorcycleists from Georgia, says an informant who was granted immunity to testify.

Silently pouring out his story through a lip-reader, William "Whispering Bill" Pifer, 41, appeared at a preliminary hear-

ing Wednesday in Richmond Municipal Court for four bikers charged in the case. Four others also charged in the case are still at large.

Pifer's testimony is scheduled to resume Monday after the long Thanksgiving holiday weekend.

Pifer, whose vocal chords have been removed, says he may have just six months to live because of throat cancer and demanded immunity before

testifying — "Because of the time left, I want on the streets."

Pifer said that in the spring of 1971 the two bikers from Georgia, Thomas "Big Tom" Shull, 24, and his companion, Charlie Baker, 30, were invited guests at the Richmond Hell's Angels clubhouse where Pifer was a member.

Pifer said the Angels snuffed cocaine and Shull's coffee and Baker's beer were spiked with

LSD. Pifer said Shull became violent when someone pretended to him that Baker was a drug agent.

"He started swinging," said Pifer. "Richard (Barker, then president of the local Hell's Angels chapter) said, 'grab the son of a bitch,' and everybody tried to hold him down. That guy was strong."

He said that Shull finally was subdued after prolonged beating and was hog-tied and taken

to a bedroom where Pifer said he found him 10 minutes later, dead.

Then, he said, it was decided that Baker had to die too because he had witnessed what had happened to Shull. Pifer said William John Moran, 38, ordered him to kill Baker, but that he refused, and Moran himself then tried to strangle Baker first with his hands, then his belt, and finally succeeded with a rope.

Moran and Edward Junior Carter, 24, pleaded innocent to charges of two counts of murder each. Chester "Festus" Green, 29, and William Mark "Zorro" Mitten, 32, pleaded innocent to charges of being accessories to murder.

The bodies of Shull and Baker were found Oct. 30 on a ranch 100 miles north of here, too decomposed for the cause of death to be determined.

Most California Abortion Restrictions Removed

SAN FRANCISCO (AP) — The state Supreme Court has removed almost all restrictions concerning abortions, leaving the matter to rest strictly between a woman and her doctor. The court in a 4 to 3 decision Wednesday wiped out provisions of the state's 1967 Therapeutic Abortion Act, which allowed abortions only when the mother's mental or physical health is "gravely impaired" by continued pregnancy, or when the pregnancy resulted from rape or incest. The effect of the ruling is to "legalize abortions simply on demand of the mother," a dissenting justice wrote. New York, which has the most liberal abortion law in the nation, also permits the operation virtually on demand. Previously abortions had to be approved in advance by a hospital committee. But the court ruled this invalid on grounds the standards for guiding committees were "impermissibly vague." In early months after the law went into effect, the court said, abortions were performed at the rate of 26 per 1,000 requests. But in 1970, the court noted, hospital medical committees were approving 99 percent of all applications. State officials said 5,000 abortions were performed during the first year of the act, 1968. The total climbed to 15,000 a year later, 116,750 in 1971 and will exceed 160,000 this year, they added.

Justice Louis H. Burkey, who wrote a dissent disputing the majority opinion that standards for approving abortions were vague, said the ruling "nullified" seven years of work by the legislature to compromise diverging social, moral, religious and medical attitudes.

Deputy State Atty. Gen. Charles R. B. Kirk said the state will ask a rehearing and will consider an appeal to the U.S. Supreme Court.

Under the ruling, abortions still must be performed in the first 20 weeks of pregnancy by a licensed doctor in an accredited hospital.

Under the ruling, abortions still must be performed in the first 20 weeks of pregnancy by a licensed doctor in an accredited hospital.

CARROLL RIGHTER'S HOROSCOPE

from the Carroll Righter Institute

GENERAL TENDENCIES: A day and evening to consider what you can best do to have more well-being at your home and with your family, so do something special in this vital realm of your existence. You are able also to handle property matters in such a deliberate and sensible manner that you have a greater income, enough and to spare.

ARIES (Mar. 21 to Apr. 19) Keep busy at duties important to do at home or for kin and show you are devoted. Improve plans for the future. Don't lose your temper, or be impatient with others and get into trouble.

TAURUS (Apr. 20 to May 20) Make appointments that are necessary so the future will be brighter. Tell partners of your ideas, how to solve pending problems. Correspond and get the data you need. Take it easy tonight.

GEMINI (May 21 to June 21) Find better ways to add to present income and show you are more efficient. A wise adviser can help you become more successful. See to it that you keep cool in the face of any emergency that may arise.

MOON CHILDREN (June 22 to July 21) Plan just what you can do to make yourself more dynamic and charming. You are undecided whether to attend a social affair to which you are invited, but it is best to say you are busy. Avoid some possible argument.

LEO (July 22 to Aug. 21) You have to concentrate on what is facing you and on how best to handle duties and problems, then you can carry through efficiently. Get the information you need from others. Try to establish more harmony between yourself and mate.

VIRGO (Aug. 22 to Sept. 22) If you contact friends you like early you can plan for that social pleasure you want now and in the future. You can achieve that particular aim through interesting methods. Do not waste so much time.

LIBRA (Sept. 23 to Oct. 22) You can get into all those business matters now that you have been neglecting, or which are important, and make big headway in the commercial world. Go directly to bigwigs. Don't worry about that civic matter—it will work out all right.

SCORPIO (Oct. 23 to Nov. 21) Figure out angles to use so you can achieve the aims that mean a good deal to you and be well prepared to take action tomorrow. Listen to a new contact you don't really like, but who has the data you want. Be happy with mate.

SAGITTARIUS (Nov. 22 to Dec. 21) Make a plan of campaign that will help you rid yourself of obligations at hand most efficiently. After a good day's work, be sure you please mate. Find the proper mental meeting ground, though views may differ from yours.

CAPRICORN (Dec. 22 to Jan. 20) You can make new arrangements with associates that will bring good results in the future. Know exactly how you are progressing, where you are headed. Mate is in an argumentative mood. Don't take the bait. Keep calm.

AQUARIUS (Jan. 21 to Feb. 19) Get busy at all the work that needs to be done instead of just what you want to do, and then you please higher-ups, co-workers. Use novel ideas that will make you look more delightful. Don't try to copy others, but have own individuality.

PISCES (Feb. 20 to Mar. 20) After you have done important work, you need to go out for amusement to relieve anxieties and boredom, and to be with one you love. Perfecting some hobby with good friends is also good. The evening can be very amusing.

IF YOUR CHILD IS BORN TODAY he or she will be one of those delightful young people who will at times be very introverted and at other times be such an extrovert that few can keep up, so be sure to give the right ethical and spiritual training that will bring about a fine balance. Make it possible for this child to learn various languages, philosophies, since most of the success here will come from work in, or with, different countries in imports, exports, or politics.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU!

Carroll Righter's Individual Forecast for your sign for December is now ready. For your copy send your birthdate and \$1 to Carroll Righter Forecast (name of newspaper), Box 629, Hollywood, Calif. 90028.

Happy Family Of 439 People

By MICHAEL KEATS
NAIROBI, Kenya (UPI)—The Karanjas of Kenya are just one, big happy family—all 439 of them.

Papa is Paramount Chief Njiri Karanja, aged 109. Watura Karanja, his most recent offspring, is five years old.

At the 1st count Watura had 34 mothers, 103 brothers and sisters, and 300 nieces and nephews.

Chief Karanja says the way to long life and happiness is to "get as many wives and children as you can afford." He married for the first time in 1899, and took his 34th wife in the 1960s—he is not quite sure of the date.

A large family has its problems. The chief says he sometimes forgets which is a wife and which a daughter. He often mistakes his grandchildren for his own children, he says.

Housing the family presents no problems. It has its own village—named Karanja, naturally.

As a member of the family marries and has children, a new home is added.

Under the laws of the Kikuyu tribe, of which the Karanjas are members, the husband of many wives and the father of a large family must be strong, capable and a good organizer and thus should be accorded high position.

Njiri Karanja was elected a chief of the tribe at the age of 49.

Throughout his life, Njiri Karanja has retained a deep affection for Britain and its royal family. During the Mau Mau emergency of the 1950s, when to support the British government could mean death, he remained loyal.

His loyalty was rewarded. He is the holder of the Order of the British Empire (OBE) and Member of the British Empire (MBE).

Chief Karanja has visited Britain twice and met the royal family.

Middleton; Chris Garrett, son of Mr. and Mrs. Ralph M. Garrett Jr.; Don Tucker, son of Dr. and Mrs. Donald H. Tucker; and Jim Clement, son of Dr. and Mrs. J.E. Clement. (Reflector Photos)

George Loses 210 Lbs. And Plans Take Off 36

HAMTRAMCK, Mich. (AP) — When George Kulchesky has his Thanksgiving dinner today, for the first time in years he won't look as stuffed as the turkey. He's lost 210 pounds.

But even with that, the 5-foot-6 market analyst for the federal government says he won't be completely satisfied until he drops another 36 pounds and gets down to 154.

"I have a habit of eating," said the 190-pound, 45-year-old bachelor. "That's how I got to weigh 397 pounds in the first place."

"No one else in the family is overweight. I suppose having a sit-down job had a lot to do with it."

But now, "I feel normal again. God, before I was like some attraction in the circus," Kulchesky said. "I was afraid to go into a department store or any public place because little children stared at me as if I were a circus freak."

"Before I lost weight I had to occupy two seats on an airplane with an expansion seat

"I still get to eat now," Kulchesky said. "I'm not on any starvation diet. But I eat different foods and not as much."

He said he had gone to countless doctors and tried hundreds of diets and pills, "but none of them worked."

He said the biggest change in his life since losing the weight loss is in his own attitude.

"I used to avoid people and I never even considered dating," he said.

"I'm dating now and I enjoy being with people. I'm more outgoing. I feel and look 20 years younger."

"I'm like anyone else now, normal."

own labor.
Private property rights will
always transcend forced
Communist sharing!
True enough, the early
Christians established a Com-
munist cell.
But it was ruined when
Ananias and Sapphira held back
part of their capital gains when
they sold their property.

Par time 24 min. AP Newsfeatures 11-23

Despite the fact that Ananias
and his wife died, apparently of
heart attacks when Peter
reproved them, the Communist
cell soon dissolved.
Jesus also placed the seal of
approval on business com-
petition and our "free en-
terprise" type of economy.
For his story of the men with
the talents illustrated his praise
for thrifty, hard workers.
And he showed disgust for the
Communist who hid his lone
talent in the earth, fearing to
compete in the open market.
So Jesus had the Communist's
lone talent taken away from him
and then given to the capitalist
worker who had double his 5
talents (Matthew 25:28).
Back in 1621, when Gov.
William Bradford headed the
Plymouth Colony, Communism
was in vogue.
For all tilled their jointly held
land and put their products into
the common granary.
Then they took therefrom,
every man according to his
need.
That is the professed
humanitarian rule glibly
spouted by the modern Comm-
unists.
But it didn't pan out well.
For the unmarried men
grumbled at letting a married
man with 5 children take out 7
portions, whereas the bachelors
obtained only one.
So Gov. Bradford changed
over to our capitalistic system.
Thus, he gave every man his
own private plot of ground.
And permitted him to retain
the entire harvest therefrom.
What happened?
The colonists suddenly were
motivated to work long hours
and shed far more sweat.
And the bumper crop so far
exceeded the meager output
under the former Communist
plan the Gov. Bradford
pioneered our famous
Thanksgiving feast!

The colonists not only thanked
God for the bountiful yield of
farm produce.
But Gov. Bradford also
admitted the vast superiority of
God's "free enterprise" system.
It has put America into the
leadership in world production.

THE color of hair, its texture
and the way it grows are deter-
mined by heredity, but may be
influenced by environment. It
may grow only on certain parts
of the body, as in man, or it may
cover most of the body, as in
animals.

The bidding:
South West North East
1 ♦ Pass 1 NT Pass
3 ♦ Pass 3 ♦ Pass
4 ♦ Pass Pass Pass
Opening lead: Jack of ♠
South went down to defeat
in his four spade contract
because he failed to take
steps to anticipate an unfa-
vorable trump division.
West opened the jack of
hearts which held the first
trick when declarer played
low from the dummy and
East signalled encourage-
ment with the nine. West
continued with the ten which
was ducked again and South
ruffed with the five of
spades. South began drawing
trump, however, when East
showed out on the second
round, it became necessary
for the declarer to use up

every one of his spades to
exhaust West.
Dummy was entered with
the king of clubs to try the
diamond finesse. When the
ten of diamonds lost to the
king, West returned a heart
thru dummy's queen, and
since all the trumps were
gone, East was able to cash
enough hearts tricks to set
declarer on the deal.
South surrendered control
of the hand when he ruffed
the second heart. He should
have taken steps to protect
himself against a four-one
division in trumps by at-
tempting to sever his oppo-
nents' line of communica-
tions—hearts. If one of the
defenders does hold four
spades, he may have less
hearts than his partner.
Observe the effect, if the
declarer permits West to
hold the second heart trick,
discarding the eight of clubs
from his hand. If West con-
tinues with the eight of
hearts, South ruffs and pro-
ceeds to draw all the
trump. Now when he crosses
over to the king of clubs to
take the diamond finesse,
West is out of hearts and is
unable to put his partner in.
South wins the return and
has the rest of the tricks. In
all, he loses two hearts and
one diamond.
Since South has to lose a
club trick in any case, it can
hardly cost to give it up ear-
ly, in order to better his
odds.

Schedule Of Meetings For Boy Scout Troops

Lois Tripp McLawhorn, publicity chairman for the Pitt County District, announced the meeting schedule for Pitt County troops.

The chairman listed the troops, scoutmasters, sponsoring organizations, and meeting days as follows: Troop 15, Cary Hammond, sponsored by the Bethel Rotary Club, Wednesday; Troop 24, Skip Lanier, Mt. Pleasant Christian

Church, Monday; Troop 25, Harold Flanagan, Farmville Rotary Club, Thursday; Troop 30, John Streb, Jarvis Methodist Church, Wednesday;

Troop 34, Chuck Dunn, Ayden Rotary Club, Wednesday; Troop 124, Edwin Dixon, Oakmont Baptist; Troop 160, Eugene James, Belvoir-Falkland Ruritan Club, Thursday; Troop 162, Nathan Smith, fire department, Tuesday; Troop 200, Billy

Langley, Grimesland Methodist Church, Monday; Troop 205, John Miller, Memorial Baptist Church, Monday;

Troop 340, Moses Sheppard, St. James Methodist Church, Wednesday; Troop 362, William Hopkins, Moose Lodge, Wednesday; Troop 398, Bobby James, Piney Grove Free Will Baptist, Monday; Troop 401, Talmadge Adams, Black Jack Free Will Baptist, Monday; Troop 404, John Best, Bell Arthur Fire Department, Tuesday;

Troop 452, Heber Adams, First Free Will Baptist Church,

Monday; Troop 491, Ronald Crisp, Stokes Ruritan Club, Monday; Troop 571, Bill Brady, Farmville Methodist Church, Thursday; and Troop 576, Lester Turner, Salvation Army, Tuesday.

Driven Insane By Jet Noise

LONDON (AP) — The constant scream of jet aircraft over residential areas near airports can drive some persons mad, a psychologist says.

Dr. Colin Herdridge, a government mental health adviser, found that several residents required hospital treatment for nervous disorders after living in the shadow of jet air traffic. "Some had been driven totally insane," he reported in the British Journal of Audiology.

The largest lake entirely within the borders of Kentucky is man-made Cumberland Lake, with a shoreline of 1,255 miles and covering 78.51 square miles.

RE-SALE OF HODGES FARM

PUBLIC AUCTION AT COURTHOUSE DOOR

GREENVILLE, N.C.

SATURDAY DECEMBER 2

at 11:00 A.M.

The Hodges Farm is located about 2 1/2 miles south-west of Winterville, N. C. on State Road 1125, adjoining the property of Leckie M. Wilkerson, Eli Nobles heirs, Bobby Hazelton and others. This farm has two tobacco barns, a 7-room, 2-story dwelling, and two lots across the road from the dwelling.

38 Acres total. 24 Acres Crop land.

Allotments as follows: 4 acres of tobacco - 8,640 pounds 16 acres of corn.

The bid will remain open for 10 days for filing of upset bids.

The successful bidder will be required to make a deposit of 10 percent of said bid.

Other terms to be announced at the sale.

For other information, see or call
