

Wholesale Prices See August Surge

WASHINGTON (AP) — Wholesale prices leaped 3.9 per cent in August, the second biggest monthly increase in 28 years, the government reported today.

Exploding prices last month ranged across almost the entire economy. There were substantial increases for everything from farm products to industrial goods.

Wholesale prices have risen at an adjusted annual rate of 37.3 per cent over the past three months. The August rise of 3.9 per cent works out to a staggering annual rate of 46.8 per cent.

The August increase in prices — following a rise of 3.7 per cent in July — was the second biggest in any month since November 1946, when prices jumped 4.2 per cent. The only bigger increase was last August's jump of 6.2 per cent following the lifting of the government's freeze on prices.

The government's Wholesale Price Index in August rose to 167.4 — 17.8 per cent higher than a year ago. The index is based on 1967 figures, meaning that it cost \$167.40 to buy at wholesale a statistical variety

of goods that cost \$100 in the 1967-base period.

All figures are adjusted to account for seasonal differences.

Consumers seemingly can expect little relief in the coming months from the worst inflation in years since wholesale prices usually are quickly reflected at the retail level.

Detailing its price report, the Labor Department said agricultural products were up 7.6 per cent in August, following a rise of 6.4 per cent in July and a decline in each of the four preceding months.

Industrial commodities continued to rise rapidly in price and were up 2.5 per cent in August, a rate only slightly less than the average monthly increase of 2.7 per cent that has prevailed throughout most of the year.

Consumer finished goods, those products in the wholesale chain nearest retail outlets, rose two per cent.

Sharply higher prices for grains, livestock, oil seed and processed food and feeds accounted for much of the rise in agricultural prices last month. Processed foods and feeds were up 8.2 per cent while raw farm

products rose 6.7 per cent to push over-all agricultural prices up 7.6 per cent at wholesale last month.

Shoppers can expect more price hikes ahead at supermarkets with the 3.2 per cent increase in consumer foods last month.

Consumer foods—those prepared for sale on grocery shelves—rose in price chiefly

as a result of increases for meats, edible fats and oils, sugar products, processed poultry and eggs.

Some examples: meats, poultry and fish were up 1.5 per cent; processed fruits and vegetables were up 3.2 per cent; sugar products 9.6 per cent; animal fats and oils 23 per cent, and manufactured animal feeds 39 per cent.

Soaring prices for machinery and equipment, trucks, commercial furniture and railroad equipment accounted for the rise in producer finished goods. Also up sharply last month were metal and chemical prices. Soft coal prices jumped another 4 per cent last month and were 66.8 per cent higher than a year ago while refined petroleum products increased 1.9 per cent in August to a level 87.2 per cent above a year ago.

Seek To Identify Victims

By CATHY STEELE ROCHE Associated Press Writer

CHARLOTTE, N.C. (AP)—

Identification experts today were still trying to identify the bodies of 69 persons killed Wednesday when an Eastern Airlines jet crashed and disintegrated just seconds away from a safe landing.

Mecklenburg County Medical Examiner Dr. Hobart Wood said a team of dentists was making x-rays and comparing them with old dental charts supplied by relatives of the victims.

"If you can get the old x-rays and make a new one you can make a positive identification," said Wood. "It's as good as a fingerprint and in most cases it's all that is going to be available."

Identification teams from the FBI and the State Bureau of Investigation were also on hand at the temporary morgue set up at the National Guard Armory.

"They're doing fingerprint studies and trying to relate clothing and personal property with the deceased," said Wood.

He said autopsies may be required in a number of cases to get further identifying features.

Wood said once a body is identified, his office notifies the family, which indicates which funeral home it wants contacted.

Funeral homes in victims' hometowns, after being contacted by the medical examiner, get in touch with Charlotte funeral homes and make arrangements for the bodies to be transported to the hometowns, Wood said.

"In most cases, they try to arrange shipment on the first connecting flight they can get," he said. "Some are transported by hearse."

Buried Alive By Avalanche

KATMANDU, Nepal (AP) —

The leader of the French expedition to Mt. Everest and five Sherpa guides were buried alive by an avalanche that swept away two camps and forced the climbers to abandon their attempt to climb the world's highest peak, the Nepal Foreign Ministry announced today.

The ministry said the avalanche roared down the slopes of Everest on Monday, two days after the team of French professional mountaineers had pitched their third major camp at 22,632 feet on their way toward the 29,028-foot summit.

ATLANTA, Ga. AP — A Superior Court jury today convicted Marcus Wayne Chenault of the murders last June of Mrs. Martin Luther King Sr., and a church deacon.

Gym-Use By Private Schools Is Discussed At Recreation Meet

By JERRY RAYNOR Reflector Staff Writer

Recommendations for a policy guideline to deal with requests for use of the city's Recreation Department gymnasiums by private schools will be readied for presentation at the October meeting of the Recreation Commission.

The issue came up Wednesday night at the monthly meeting of the commission in response to two requests already received by private schools. "There's indications we'll have other similar requests," Boyd Lee, director of the Greenville Recreation Department stated. Lee said City Attorney David Reid had indicated that "a private school is like a private citizen, that is, use of a public facility would dictate a rental fee."

In the discussions, however, the matter of fees were looked upon as a secondary consideration to the already heavy schedule of usage in the city's gyms, especially during the basketball season. Member Sidney Carraway voiced an opinion that "the Recreation Department needs the gyms full time," and added "Lee and his staff have got enough to do without having another burden put on them."

In addition to public free play time and various league games, the gyms are also used by the public schools of Greenville in an exchange system of use of gymnasiums.

Dr. Edgar Hooks, saying he expressed a personal feeling, noted "the group of citizens who put their interest in private schools should put forth financial efforts to bear the costs in that (gyms at their schools) direction."

Another member, Dr. Edgar Douglas, Jr., said he thinks the possibility of private schools using the gym for basketball practice and physical education between 7:15 a.m. and up until

ECU Grad Recommended As Assistant Chancellor; Endorsement By Friday

Col. Charles Richie Blake of Alexandria, Va., a 1954 graduate of East Carolina University, will be recommended for appointment as Assistant to the Chancellor at East Carolina University.

The ECU Board of Trustees Wednesday approved a request by Chancellor Leo W. Jenkins that Blake be recommended to the University Board of Governors for the appointment. President William C. Friday has endorsed the recommendation, Jenkins said.

Col. Blake, president and

organizer of the District of Columbia (D.C.) area chapter of the ECU Alumni Association, is retiring shortly from active duty with the U. S. Air Force. He is a 1966 graduate of the Armed Forces Staff College at Norfolk, Va. He is twice a recipient of the U. S. Air Force Commendation Medal.

The position of Assistant to the Chancellor at ECU is a new one. Jenkins indicated that, in effect, Blake will fill the position left vacant by the death of Gen. John A. Lang Jr., Vice Chancellor for External Affairs, last June

and that there will be no appointment to this vice chancellorship.

In other action by the Board of Trustees at its meeting yesterday, a feeler was extended to the planning committee of the Board of Governors expressing the interest of the University for the establishment of a third state-supported law school.

The ECU trustees approved a letter of intent indicating a desire to be considered for such a school. UNC-Charlotte and Appalachian State filed similar requests earlier.

The letter from ECU will

express a desire to be included and considered in any study of feasibility for expansion of law education in the state beyond existing state-supported law schools at Chapel Hill and Durham.

A request to the Advisory Budget Commission for fiscal 1975-76 will include \$100,000 for preparation of an updated master plan for development of the university's buildings, grounds and physical facilities.

A budget request of \$26-\$27.5 million for operating expenses, \$4.5 million for

(Continued on page 5)

Trustees Want Answers On Med School's Status

East Carolina University has asked the state's university Board of Governors to give "definitive answers" by Oct. 26 to major questions affecting status of

the medical school program at ECU.

In a resolution adopted Wednesday, the ECU board of trustees asked the Board of Governors to clarify

questions concerning:

Status of the ECU medical school faculty and faculty appointments; the status of capital improvements for the ECU medical school including architects, land and interim facilities, and the "objectives we are seeking to reach" in developing a medical school at East Carolina.

At the same time, the ECU trustees authorized an ad hoc committee to consult with University of North Carolina President William C. Friday and the Board of Governors to present ECU's plans and views on problems presently confronting the medical school here. The ad hoc committee was instructed to cooperate fully and present ECU's problems and views through the proper "chain of command" in the university system's set-up.

Individual ECU trustees, however, expressed the belief

that final solution of problems surrounding status of the ECU medical school must be spelled out by the legislature.

"My opinion is that this (medical school) matter will have to go back before the legislature," ECU trustee chairman Robert L. Jones said.

In a lengthy discussion of problems arising since the July divorcement of the ECU medical school program from the ECU Division of Health Affairs and its placement as a component of the University of North Carolina—Chapel Hill school of medicine, the ECU trustees heard views that the situation is stagnating.

Dr. Dean C. Hayek, now acting assistant dean of the medical program at ECU, told the trustees that the situation at present "is very, very confusing." Nothing has

Boston Boycott

BOSTON (AP) — Thousands of white pupils boycotted classes today as Boston schools opened under a court-ordered busing plan to achieve racial integration. Black pupils arriving at one predominantly white high school were met by an angry crowd of 500 whites.

At South Boston High, the crowd of whites met some 100 black pupils with boing and jeering, the mayor's office said. A piece of wood was thrown at one bus at the school, and stones were thrown at a bus at a nearby intersection.

A group of white teen-agers and some adults roughed up a television film crew at South Boston, but police broke it up. The crowd later dispersed, with only 150 or so people continuing to mill around after school began.

One arrest was reported at the South Boston school.

At predominantly black South Boston-Roxbury High, only five of an assigned 600 white pupils reported, and only two of those came by bus.

Few white pupils were reported at South Boston, where Police Commissioner Robert J. diGrazia personally escorted black pupils into the school.

Twenty of an estimated 75 to 100 uniformed policemen on hand at South Boston pushed part of the crowd back down steep G Street some 200 yards after a piece of wood was thrown at a bus carrying blacks.

the October meeting was approved. Commission chairlady Mrs. Louis Gaylord, Jr. appointed Dr. Hooks and Dr. Douglas to act as a two man committee to study the requests and make recommendations for the commission to consider.

Another appointment made was that of member Thomas Foreman, Sr. as liaison member of the Recreation Commission for the Greenville Planning and Zoning Commission. Foreman will attend the Planning and Zoning meetings as an ex-officio member. His duty will be to provide information to that body relative to Recreation Department plans and programs.

Lee reported that Lee Grimes has been hired as interim director of the Moyewood Social Center. He noted that at a later date, when Lee has gained sufficient experience, he will be promoted to the role of director. At the time, he fills the assistant director role and a second person is not to be hired until the program there gets fully underway and the services of a second person is needed.

In another report, Lee gave a rundown on action taken by the City Council on Tuesday relative to construction of the swimming pool.

Lee noted several changes were made from original plans of the bath house including added specifications to meet the needs of handicapped persons and reducing the size of the bath house.

To provide the \$98,326 in funds needed for the low construction bids, the City Council deleted three other programmed Recreation projects—work on Green Springs park, an addition to the maintenance building, and renovation of playground equipment in tot lot parks. "We hated to lose these three planned improvements," Lee said, "but there was no other alternative."

Sellassie Arrested

EMPEROR DEPOSED—Emperor Haile Selassie, the world's oldest and longest reigning monarch, was deposed today by Ethiopia's soldier-reformers and placed under arrest. The arrest ended the 82-year-old monarch's half century of rule. Additionally, the military suspended Parliament and the constitution, and a military tribunal was established to try persons without appeal. (AP Wirephoto)

REFLECTOR

HOTLINE

752-1336

Hotline gets things done for you. Call 752-1336 and tell your problem or your sound-off or mail it to Hotline, The Daily Reflector, Box 1967, Greenville, N.C. 27834.

Because of the large numbers received, Hotline can answer and publish only those items considered most pertinent to our readers. Names must be given, but only initials will be used. Transcribing is done once a day, but the phone service is available 24 hours a day.

WHY NO BBB HERE?

Why doesn't the Greenville area have a Better Business Bureau? W.H.

Chamber of Commerce Director Harold Creech said the idea has never been seriously considered here.

The Council of Better Business Bureaus in Washington, D. C.; in response to a letter from Hotline, said Better Business Bureaus are funded entirely and voluntarily by private business firms through the payment of membership dues. It takes a minimum of \$40,000 per year to run one, they said. Financial support must be sufficiently broad-based to prevent domination by any one business or small group of businesses. Thus, membership must be generated from perhaps as many as 400 private business firms.

Should the business leaders here feel the establishment of a Better Business Bureau is economically feasible, a representative of the Council of Better Business Bureaus would meet with them to further explore the possibility, said Reuben H. Kulp, director of field services of the BBB Council.

Hotline would be glad to show the entire letter to any person or group who would like to pursue the idea. We have found Better Business Bureaus in other areas very useful in serving consumers here who have dealt with businesses in their respective areas.

ORDERED SHOES—WRONG SIZE—WANTS REFUND

I ordered a pair of shoes Dec. 21, 1973 from Knapp Shoes in Massachusetts. I received them and they were too large so I sent them back. The sales representative said they don't have a shoe as small as I need, so I want a refund. H.M.

Knapp had a record of your shoes being mailed to you and said they would check into the account. Later they asked you for proof that the shoes were returned to them. After having a tracer sent out to determine where the returned shoes are now, you got the paperwork together to send to Knapp, and a check for \$23.18 had been returned to you. Although this is \$4.18 less than you paid, you think the extra money was for shipping and will accept the \$23.18 refund.

NEEDS BEES REMOVED

I'd like to contact a bee keeper who might want the bees' nest in my front yard. S.L.

The Pitt County Extension Service suggested we contact Wildlife Protector Kay J. Dunn, who is a bee keeper. Dunn explained to us that bees captured this late in the summer could not make enough honey to survive through the winter, unless fed that expensive stuff called refined sugar. He did visit you, though, and offer to destroy the bees for you, if you wish.

The spacious new building which will house the East Carolina University Regional Development Institute is to bear the name of the institute's founder and director.

Trustees of East Carolina University voted Wednesday to name the RDI building now nearing completion in honor

of Thomas W. Willis. Willis, 51, a native of Farmville, has been director of the RDI since its inception in 1964.

Recommending that the building be named for Willis, ECU Chancellor Leo W. Jenkins told the trustees that through Willis' foresight and leadership, the Regional Development Institute

became both a reality and a success.

During its first 10 years, RDI undertook and completed approximately 1,500 studies and projects affecting community, business and industrial development and made special services available to the 32 counties of Eastern North Carolina.

Before joining East Carolina University to organize and establish the institute, Willis was the highly successful director of the Farmville Economic Council, the first fulltime industrial development office established east of Raleigh.

Willis, a 1948 graduate of Wake Forest, served as

assistant city manager for Raleigh (1948-50) and as city manager of Newton (1950-56) and as an industrial engineer with the N.C. Department of Conservation and Development before returning to his native Pitt County in 1957.

During his career, Willis has participated in the

locating of more than 200 industrial plants. He is the originator of the first operational computer industrial location program.

The 16,000 square foot building is a modern, one-story structure at Reade and First Streets in downtown Greenville, on a site

FRIDAY THE 13TH

7 Piece 'Polly Pride' Cookware Set

Regular 19.95 **9.88**

In Avocado. Includes 1 and 2 quart covered saucepans. 5 qt. covered dutch oven and 10" deluxe chicken fryer.

3 Piece Bath Mat Set

3.88

Regular 7.00

Includes mat, contour, lid and cover. Green, gold, blue and orange.

Assorted Odds & Ends Sheets

2.88 to 6.88

Regular 3.99 to 9.99

Assorted colors in prints and solids. Not all sizes.

Nordic Bundt Pan

2.88

Regular 4.98

12 cup Bundt Cake Pan in gold or avocado.

Sheer Delight Top Weight Prints

97¢ yard

Regular 1.59 yard.

Ideal for tops, blouses. Prints in 50 per cent cotton and 50 per cent polyester. Permanently pressed. 44"-48" wide.

Ladies Fall Coordinates

Regular 10.00-27.00 **1/3 off**

Includes Queen Casuals, Russ, Aileen, Red Eye. Coordinates.

Junior Fall Dresses

Regular 16.00-24.00 **1/3 off**

Group of assorted styles in jerseys and 100 per cent polyester.

Junior Caps & Hats

Regular 3.00 & 4.00 **1/3 off**

Group of fun caps and hats. In denims and corduroy.

Ladies Bikinis & Briefs

Regular 89¢ pr. **2 for 1.00**

Nylon bikinis and briefs in assorted styles and colors. Sizes 5 to 8.

Ladies Channel Sweaters

Regular 8.00 **6.88**

100 per cent acrylic. White channel sweaters. Sizes S, M, L.

Boys Knit Shirts

Regular 2.00 **1.44**

Short sleeve T-shirts with emblem-screened on front. Sizes 10, 14-18.

Boys Sleeveless Sweaters

Regular 6.00 **4.66**

In navy, red, white and rust. Sizes S, M, L, XL.

Ladies Canvas Wedge-ling Shoe

Regular 6.00 **4.88**

Comfortable soft canvas wedge sling to compliment your favorite outfit. Red, beige and navy. Sizes 6 to 10.

Mens Fancy Patterned

100% Polyester Suits

Regular 85.00 **59.00**

In fancies only. Sizes 38-50, Regular and long.

Mens Orlon Tube Socks

Regular 79¢ **44¢ pr.**

Mens orlon white sock with color stripe around top. One size fits all.

Mens Blue Chambray Shirts

Regular 8.00 **6.88**

100 per cent cotton, blue, chambray. Sizes S, M, L, XL.

'Jumping Jack' Shoes for Boys

10.88-11.88

Regular 13.99-15.99

Boys lace-up oxford two-tone brown. Also brown suede trim. Sizes 12 1/2-3. C-D width.

Girls Early Fall Dresses

Regular 5.00 to 11:00 **1/3 off**

Mostly short sleeved styles. Plaids, checks, and solids. All machine washable dacron and cotton or 100 per cent polyester. Sizes 3-6X — 7-14.

Canvas & Corduroy Handbags

4.97 to 5.44

Regular 6.00-7.00

Patchwork cottons and pretty prints. Assorted styles in cottons and canvas.

114 East Fifth Street In Downtown Greenville-Shop Friday 10 AM Til 9 PM.

For Things A Hospital Needs

A campaign is underway to raise \$1 million for use in the new Pitt Memorial Hospital now under construction west of the city.

The campaign, with Harry Leslie as chairman of the Gifts Committee, will extend over a four-year period.

Why are additional contributions needed for the new hospital? Leslie explains that the lowest bid for construction of the building was \$1,800,000 over the \$11,600,000 which was available for the construction.

The contracts were let for the complex because it was obvious that costs would only go up if there were any further delay such as taking new bids would cause. Still some additional funds are going to be needed to provide the things which a modern hospital needs.

Mr. and Mrs. Marvin Blount Sr. have already donated \$10,000 for a memorial chapel, the Jayettes have given \$2,000 for a playroom; North Carolina National Bank has pledged \$12,000 and Burroughs-Wellcome, \$30,000.

The new Pitt Memorial Hospital is going to be a unique facility. It will provide facilities for many specialties of medicine and should provide sophisticated medical service to our citizens. The new hospital will also play an important role in the development of medical education at East Carolina

University.

Pitt County cannot afford to have less than the best in these new facilities. Thus meeting the goal of \$1 million in gifts, is extremely important to all of us.

No Place To Stop On That Decision

Hardly had the ink dried on President Ford's pardon of Richard Nixon, than the word came that some type of pardons were being considered for others involved in Watergate.

The lesson should be clear that once a president, or anybody else, begins tampering with the judiciary, there's no place to stop. If Nixon, why not Haldeman? If Haldeman, why not Dean? And after all the Watergate figures, why not the draft dodgers? Then how about all the petty break-in artists around the nation?

That is why the judicial process should be allowed to work as it was intended.

"Si, Presidente Ford? About this amnesty thing . . ."

Pardon Appeals Ahead

By MIKE SHANAHAN
Associated Press Writer
WASHINGTON (AP) — Two convicted Watergate figures will take quick advantage of President Ford's newly clarified offer to consider pardon requests individually, their lawyer says.

"We do intend to submit an application," Daniel E. Schultz, attorney for Bernard L. Barker and Eugenio R. Martinez, said in a telephone interview on Wednesday. He said the forms would be submitted to the Justice Department early next week.

Barker and Martinez, both members of the anti-Communist Cuban community in Miami, pleaded guilty for their roles in the original Watergate burglary and were convicted by a jury in connection with the break-in at the office of Daniel Ellsberg's psychiatrist.

Barker, 57, is appealing in both cases and is free on bond. Martinez, 52, is appealing the Ellsberg conviction and has been paroled. Both men served a year in prison for the Watergate burglary.

Acting White House Press Secretary John W. Hushen said on Wednesday that Ford would review individual pardon requests from defendants in Watergate-related cases, but he flatly ruled out any blanket pardons.

Hushen's answers to reporters' questions on Tuesday had given rise to an interpretation that a blanket amnesty was being considered for all Watergate figures in view of Ford's unconditional pardon last Sunday of former President Richard M. Nixon.

Hushen was asked Tuesday, "What is the President's feeling for pardons for any of the other people involved in the whole Watergate thing?"

He replied: "I'm authorized to say that that entire matter is under study."

A short time later, he was asked whether his statement covered all persons connected with Watergate. "That is correct," he said.

On Wednesday, Hushen said his statement "should have been broader to say the President's pardoning power is what is under study."

The original answer and interpretation created a wave of congressional criticism of any blanket amnesty plan.

Senate Republican Leader Hugh Scott said on Wednesday that Ford's position as stated by Hushen had been misunderstood. In a statement read by Scott to reporters, Ford said a pardon study is "made for any request concerning pardon of an individual."

"However, no inference should be drawn as to the outcome of such study in any case," Scott said after meeting with the President.

Later, Hushen said he wanted to emphasize "we're not going to throw in the wastebasket any request."

But he also told reporters along on a presidential flight to North Carolina "there never was any consideration of blanket amnesty or pardons..."

Meanwhile, Special Watergate Prosecutor Leon Jaworski was described by those familiar with his thinking as strongly opposed to pardons granted individually or across the board. But Jaworski made no public comment.

THIS AFTERNOON

Uniform School Funding

By BILL NOBLITT
RALEIGH—North Carolina must have uniformly good schools from mountains to seacoast, and they are not now uniformly good, leaders of the statewide school board association and the county commission association agree.

"If there were 100 ways to do something, then each of North Carolina's 100 counties would find a different way to do it," Mrs. Mary Scroggs, president of the state School Boards Association believes.

The statewide educational system is just that diverse, she believes, while "all the local officials assume they are operating within the states."

"And that must mean there must be something wrong with the statutes if we can have 100 different interpretations. North Carolina is ripe for a lawsuit," Mrs. Scroggs, chairman of the Chapel Hill-Carrboro board of education, said.

Other Suits
Suits have been filed in other states challenging the system under which the

educational program is based on the wealth of the locality. In sum, the idea is spreading that a child in the poorest county is entitled to just as good an education as the child in the richest.

But while North Carolina does have a statewide system of funding from the state level, most educational advances take place in rich counties where local supplements provide more programs, teachers, equipment, and facilities.

"I would hate to see full state funding, but we must work toward equalization," Mrs. Scroggs argues, and the president of the state's Association of County Commissioners agrees.

Waverly F. Akins, chairman of the Wake County Board of Commissioners, thinks local county governmental leaders have to accept the responsibility for local educational failings.

"Some commissioners actually retard the school system in a given area. . . in their efforts to keep the tax rate low, and fight bond issues."

"County commissioners are responsible for their

counties—totally responsible, and that means if a local school system is not measuring up, the commissioners are responsible," Akins said, adding that he feels some county commissioners in North Carolina "don't truly understand their responsibility in this light."

State Conference
Thus, Mrs. Scroggs and Akins have set the stage for a statewide joint meeting in Raleigh involving some 100 local officials: 25 school board members; 25 school superintendents; 25 county commissioners; and 25 county managers.

From that three-day workshop (September 19-21), leaders hope to see a better understanding of how local school boards and county commissioners are supposed to work together, and some clear direction on what changes are needed in state law regarding schools.

Those laws, basically, were drawn up in the 1930s when the state set up a statewide school program. Mrs. Scroggs characterizes the situation now as "fine for the Depression years, but unsuited for the 1970s."

Underlying the conference will be the theme of uniform statewide school support. No doubt, that idea will meet stiff opposition from the wealthy counties where hefty local supplements are in use.

Conference leaders likely will counter arguments along that line by pointing out that the system is simply unfair to students in poor counties, and that no attempts will be made to lower the standards in existing heavily supplemented systems.

The aim of statewide uniformity in education is a "leveling up, not a leveling down," Mrs. Scroggs said. In some other states moving in this direction, there has been a temporary freeze put on already rich systems until the rest of the state catches up.

But both Akins, and Mrs. Scroggs believe that helping the school systems in poor counties will ultimately help the rich, since modern commuter practices and mobility of the population invariably means that the urban (wealthy) areas attract the graduates from the poor counties.

POLITICS In N.C.

Surveying '76 Chances

By JOHN KILGO
House Speaker Jim Ramsey says: "I'm still very interested, but don't have anything else to say about it."

Lt. Gov. Jim Hunt says: "Yes, I'm looking at the possibilities."

Skipper Bowles says: "I haven't said yes and I haven't said no."

The three men are among eight or nine who are giving utmost attention to the 1976 gubernatorial campaign in North Carolina. By this time next year, the campaign for the office will be heated.

Now's the time the prospective candidates must make the decision as to whether they'll run.

The Democratic primary for the Governor's race ought to be crowded. There will

almost unquestionably be candidates running who haven't been mentioned at this point. Here are some of the prospects at this moment:

—Lt. Gov. Hunt. There is very little question about Hunt's intentions. He has every plan to run for Governor in 1976. He has put together a strong organization and touches basis often in all parts of the state. He'll be spending a great deal of time now campaigning for fellow Democrats Bob Morgan and Rufus Edmisten.

—Skipper Bowles. The defeat of 1972 left a bitter taste in Bowles' mouth. Everything in his campaign went as planned except the close loss to Holshouser. A lot

of people close to Bowles say he'll be in the race again next year. For the official line, Bowles says he doesn't know what he'll do.

—James Ramsey. The Speaker of the House admits his interest in running for Governor is still high. He and Lt. Gov. Hunt have a strong political rivalry going. Putting together a statewide organization is a problem. If that can be done, don't be surprised to see him as a candidate.

—State Senator Eddie Knox. The man very definitely has higher political ambitions. He wants to run for statewide office and Governor is the position he'd most like to hold. Is now the time for Knox to make his bid? I believe 1980 would be more in keeping with the cold, hard facts of the situation.

—Luther Hodges, Jr. The NCNB executive admits he is looking at the gubernatorial position. He feels he has a fresh face and a new approach and voters would be responsive. Hodges, too,

would have to assemble a statewide campaign team. That takes time, and his bank job leaves little of that. The man wants to run, and if that desire is strong enough, he'll find a way to do it.

—Ed O'Herron. Head of a big drug store chain, O'Herron has worked behind the scenes for many politicians in North Carolina. It is said that former Governor Dan K. Moore is pushing O'Herron's candidacy. O'Herron says he has the time to devote to a statewide race. He says he wants very much to run. Will he run? O'Herron realizes he lacks a great deal in name identification across the state of North Carolina. He's working now to see if that problem can be overcome. If so, you probably ought to leave room for him on your scorecard.

You also hear the names of other people mentioned in political conversations around the state, names like Gordon Allen, Kenneth Royal and McNeill Smith, all

(Continued on page-5)

By JAMES J. KILPATRICK

Gerald Ford Broke Rule

John Randolph of Roanoke once defined the first rule of statesmanship, the very cardinal principal, as this: Never needlessly disturb a thing at rest. Gerald Ford broke that rule last Sunday. It was his first blunder; and it was a beaut.

At the time of his first press conference two weeks ago, Mr. Ford seemed fully disposed toward Randolph's Rule. In response to questions

about a pardon for Mr. Nixon, he twice emphasized that he would make no commitment "until the matter reaches me." He appeared to be inviting the special prosecutor "to take whatever action he sees fit" as to Mr. Nixon.

That was Ford's eminently sound position on August 28. He should have stuck with it. By staying aloof from the judicial process, he could have preserved his own

distance from Watergate. He might never have had to act at all. Months or years would have elapsed "until the matter reaches me."

Meanwhile, Mr. Ford could have put an era of good feeling to most effective use. By his generous action of last Sunday, Mr. Ford squandered much of the good will that was his only capital. Ten days after he said he would wait, he waited no longer. This was the first test of his credibility, and his credibility, like Evel Knievel's ill-fated rocket, slipped anticlimactically down the side of the canyon toward the waiting river below.

The statements of August 28 had become inoperative by September 8. No wonder Jerry terHorst resigned in dismay.

The damage done to Mr. Ford's credibility is only part of the damage. He has now compounded his problems of amnesty for draft evaders. It will be impossible satisfactorily to explain why compassion, charity, mercy, human suffering, and domestic tranquility justify a pardon in the one case and not in the others. This is the sort of steamy issue that will set campuses to boiling just as they seemed to be simmering down.

Mr. Ford has invited partisan attack on his own integrity. It will be noted that he owes his very presence in the White House to Richard Nixon. What has Mr. Ford done for Mr. Nixon lately? Within one month after the abdication, it will be remarked that Mr. Ford has sanctioned a \$800,000 pillow to cushion his predecessor's fall from power, that he has authorized an arrangement

(Continued on page 3)

Other Editors Say Problem Is Bigger

(Chapel Hill Newspaper)

North Carolina's new Attorney General James Carson is talking about an important matter when he discusses the need to prohibit the smuggling of cigarettes out of this state.

No doubt, organized crime is involved in this profitable trafficking. They can legally buy cigarettes in tobacco-conscious North Carolina where the state tax is only \$2.00 a carton and sell them illegally at quite a profit in New York and Pennsylvania where the tax is \$1.80 a carton.

"The ideal situation would be if New York and other high tax states would lower their taxes," declares Mr. Carson, who is a candidate for re-election this fall. "But realistically this is not going to be done, and I don't think we should allow organized crime to get a foothold in North Carolina."

The good Attorney General is quite properly against sin and all for goodness in this hope. He promises to "take every possible step to stop the smuggling." That is why he wants the Legislature to pass a law against this practice.

But he is not thinking realistically if he believes that a mere law—or even stepped-up law enforcement—is going to wipe out this profitable criminal traffic even when it's made illegal in this state.

A realistic solution—but not a popular one—would be for the State of North Carolina to raise its tax on tobacco products closer to the levy of these other states. Ours was the last state to enact a tobacco tax and it is the lowest in the nation.

Buttlegging of North Carolina cigarettes is still going to be just as profitable in the high tax states regardless of the passage of new criminal laws against it in this Tobaccoland state. But eliminating the buttleggers' profit by raising North Carolina's mere token cigarette tax can stop all of this—and also bring needed revenue to the state Treasury.

Gold Stocks Just Like Others

By JOHN CUNIFF
AP Business Analyst
NEW YORK (AP) — It's really tough to make a speculative buck in the marketplace.

That wisdom, which invariably is developed after the fact, has been the lament of broken speculators ever since man developed trade, but it has become a dirge sung by a million-voice choir in the past decade.

The wall of the goldbug is now heard in the land, the latest victim of that diabolical tendency of the market to collapse without warning. Who said gold doesn't deteriorate? Owners of gold stocks will claim otherwise.

Long promoted as the only investment vehicle that could withstand the malaise of world economies, gold stocks this week turned out to be no

different than others. They plunged, some as much as 20 per cent in one day, Monday.

Homestake Mining shrunk \$10.25 to \$45. Campbell Red Lake fell \$8.50 to \$30.12. ASA Ltd. lost \$10.37 to \$79.25. Dome Mines declined \$8.25 to \$47.12. And International Mining declined \$2 to \$9.50. All were heavily traded.

Why such devastation occurred isn't entirely clear. An advisory service did send a bearish report to customers, claiming that possible tax increases and inflation were fouling the gold investment climate. But there was more to it than that.

As in almost every fad or mass craze, there is a beginning and an end. Whether or not this is the end of the gold stock boom cannot be forecast, but what obviously happened is that many

stockholders declared it was the end for them.

That is the way the end always begins. It has happened in commodities of almost all kinds, in "glamor" stocks, in mutual fund shares. And it probably will occur sometime in the government securities market, where thousands now seek refuge.

In the beginning of a fad a few people claiming to be in the know lead the way. Other insiders and a few outsiders join. The word goes round and the mass of people jump aboard. The newest fad has thus matured.

At this point the first ones in are eager to be the first out. They've made their money and they're ready to depart, which they do. Those remaining are forced to assess their position

realistically rather than romantically. They do, and they sell.

The very largest mass movement of this sort occurred in the 1967-1968 bull market, when millions of Americans plunged into the stock market, many for the first time. During the 1960s the number of shareholders doubled to 30 million.

This was, of course, the signal for earlier investors to clear out. Ever since then the stock market has been in a recession.

The losses made financial conservatives out of millions of people. It convinced them, as it was so often put, "to get back to the basics," to measure real rather than imagined value.

And that, ironically, is why so many people bought gold stocks.

Strength For Today

A COLLECTION FOR THE HEATHEN

The story is told about a certain young man who passed the collection plate at church and determined to make a special effort to induce a rich old miser to put some money in the plate. Although the miser regularly attended church, he made little or no financial contribution.

Therefore, on a certain Sunday the young man paused beside the miser and held out the plate to him. When the miser made no movement to contribute the young man whispered to him,

"Aren't you going to give anything?" The old man shook his head and replied, "Not a penny." Then in a stage whisper which could be heard throughout that section of the church the young man said, "All right, take some out, then. This collection is for the heathen."

He who has not caught the tone of overflowing generosity which characterizes Christian faith is no Christian, even though he believes every statement of the creed. Such a person can indeed be classified "a heathen and a publican."

—By Elisha Douglass

Track Facility Is Named For M.L. Bunting

East Carolina University's track and field facilities have been named in honor of Michael L. Bunting of Greensboro, an avid follower of East Carolina athletics for a number of years.

Bunting recently made a \$20,000 contribution to the ECU Alumni Loyalty Fund, and also has presented a wrestling scholarship to the university. He is an active member of the East Carolina Pirate Club, of which he is a director. He is also a member of the Athletic Council of the university.

The vice-president of Carolina Gasket and Rubber Company,

Inc., of Greensboro, Bunting is the son of Mr. and Mrs. Maurice Bunting of Kernersville. He and his wife, the former Victoria Stewart of Greensboro, have a daughter, Heidi, 8.

Bunting attended both Wilmington College and East Carolina following graduation from Greensboro Senior High School.

The track at the university is the last of the athletic facilities to be named. Previously, the football stadium had been named in honor of Greenville tobaccoist James Ficklen; the coliseum in honor of the Minges Family of Eastern Carolina; and the baseball stadium in honor of Liggett and Myers President Milton Harrington.

STORES OPENED—Ceremonies were held yesterday for Harris Supermarket in Ayden along with a ribbon cutting for Big Value Discount drugs. Participants included: left to right, Earl Faulkner, manager of the new store, Ed Harris, Ayden Mayor Ross Persinger,

Durward Harris, president of Harris Supermarket, Inc., and Andrew Humphrey, meat merchandising superintendent. The opening of the Ayden store, brings the total stores to six in the Harris chain, with another under construction in Tarboro. (Reflector Staff Photo)

Selling Bonds For Lighting Homecoming At Church Sunday

Contract bids have been opened and bonds will be sold Friday to finance installation of a new lighting system at East Carolina University's Ficklen Stadium.

The new system, designed to triple the amount of lighting presently provided, should be installed and in operation in time for the 1975 football season, according to C. G. Moore, Vice Chancellor for Business Affairs.

Moore said the new lighting system will permit live televising of night athletic contests at Ficklen.

Exact cost figures were not revealed prior to sale of the bonds and letting of the contract.

Willis Bldg. . .

(Continued from page 1) overlooking the Tar River, the land was purchased from the Greenville Redevelopment Commission.

The building will contain staff offices, conference rooms, a drafting room, an exhibit room for Eastern North Carolina product displays, a library and a 300 seat auditorium. The \$556,000 cost was funded in part by the state, the U.S. Economic Development Administration and the Coastal Plains Regional Commission.

Dr. Jenkins said, "The East Carolina Regional Development Institute is playing an important role in the growth and development of Eastern North Carolina, and this new facility will help us to better serve our people and the state."

Kilpatrick. . .

(Continued from page 4) on presidential tapes highly advantageous to Mr. Nixon, and that he has granted a sweeping pardon for all offenses Mr. Nixon might have committed. Appearances count; and this appearance lends itself to certain attack.

Additional damage has been done, notably to the concept of equal justice under law. In the sordid collectivity of Watergate, Mr. Nixon was the principal; the others were his agents. I still believe Mr. Nixon was in ignorance of a vast deal that was done in his name. But the point is: It was done in his name. The people may not know what is lawful, but they know what is fair. A score of his men have been jailed. For Mr. Nixon to be pardoned before he has even been indicted will strike many persons as patently unfair.

All these damages might have been bearable if they were offset by a restoration of the domestic tranquility Mr. Ford so earnestly seeks. No such tranquility is in prospect. "If it were done when 'to done,'" mused Macbeth, "then 'twere well it were done quickly.'" But so long as the questions of Mr. Nixon's guilt remain unresolved, we are not done with the story. This premature presidential pardon reopens the bleeding wound.

It will be said of Mr. Ford that he has acted boldly, courageously, and decisively. This is true enough as far as it goes. But discretion and prudence are equally the marks of good stewardship. There are times when the wisest thing a leader can do is to do nothing. By doing too much, too soon, Mr. Ford has lost much more than he and the country have gained.

Southern States Said To Be Better Prepared

By GARTH JONES
Associated Press Writer
AUSTIN, Tex. (AP) — Southern states stand ready and better prepared for the future than at any time in the past, says Florida Gov. Reuben Askew.

Askew was selected chairman of the Southern Governors' Conference Wednesday at the close of a three-day session at nearby Lakeway resort.

Askew said that according to projections the South will be the fastest growing area of the country from now to the end of this century.

"There is no reason why the South cannot lead by example in such areas as land use, pollution control, energy conservation and honest and open government," Askew said.

In one of their final acts

Wednesday the governors voted 7-2 not to urge Southern states to adopt state wiretap laws similar to the federal statute.

"The events of the past two years have shown us what can happen and the abuses that can occur when we have this foot-in-the-door legislating," said Arkansas Gov. Dale Bumpers, who is the Democratic nominee for U.S. Senate.

Askew, who said wiretaps had proven valuable in fighting organized crime in his state, voted for such state laws, as did Texas Gov. Dolph Briscoe. Briscoe said later he would recommend a state wiretap law to the 1975 Texas legislature, as he did in 1973. "I favor it as a tool to fight organized crime," Briscoe said.

Another approved resolution also aroused discussion. It calls for a national tourism agency plus a \$30 million appropriation for a domestic tourism promotion program. Tennessee Gov. Winfield Dunn and Briscoe said they did not like the idea of asking for a federal grant in one resolution and then in another resolution, which also was approved, ask that the federal budget be balanced.

A resolution that restated the conference's 1973 stand on the energy crisis was approved without comment. It encourages exploration for new gas and oil supplies, deregulation of oil and gas prices, a speedup in leasing of federal offshore lands, developments of superports and state and federal steps to encourage nuclear power.

Other approved resolutions asked expanded restoration and an equitable system of forest taxation, a reversal of the federal order against "coal unit

Special Day

The City Council, meeting Tuesday night, adopted a resolution declaring Oct. 4 through Oct. 12 officially as Bicentennial Observance Days in Greenville.

The resolution urged local citizens to participate in the ceremonies and events and encouraged Greenville merchants to close their businesses between the hours of 5-7 p.m. on Oct. 4 in order to permit all citizens to be present at opening activities which include the grouping of flags.

Mayor Eugene West noted that the Council could not require merchants to close their doors during the ceremony hours but he said the Council encouraged the closing practice on behalf of the citizens.

of the citizens.

Subcommittee Intends To Cut Sum For Nixon

By JIM ADAMS
Associated Press Writer
WASHINGTON (AP) — A House subcommittee intends to trim the \$850,000 request for former President Richard M. Nixon's transition to private life, the chairman says.

"You can safely say it will be cut considerably," said Chairman Tom Steed, D-Okla., of the House executive offices appropriations subcommittee, which takes up the matter today.

"The paring knife will be working all through this thing," said Steed.

He said many congressmen "don't want to approve a nickel" for Nixon because of President Ford's pardon for him.

But Steed said Nixon, as well as any other former president, deserves transition money and said he hopes his subcommittee can cut it to expenses so well

justified that Congress will approve it.

"This is an emotional thing," Steed said. "Unless we're able to bring out a tight, well-documented bill it will be in serious trouble. And from the tone over in the Senate I think it may be in serious trouble there, too."

He referred to the Senate appropriations subcommittee hearing on Wednesday at which Chairman Joseph P. Montoya, D-N.M., told General Services Administration chief Arthur F.

Sampson he was "given a snow job" by former Nixon aides.

Montoya made the comment when Sampson said Nixon aides Ronald L. Ziegler and Stephen Bull told him at a San Clemente, Calif., meeting how Nixon needed the \$850,000.

Montoya and Sen. Mark Hatfield, R-Ore., sharply questioned why Nixon needed more than twice the \$370,000 transition money that went to former President Lyndon B. Johnson.

Sampson testified that a special \$100,000 Watergate tapes vault is required under the agreement for safeguarding the tapes over the next five years. He said it would have a sophisticated alarm system and would be guarded by five guards hired at a cost of \$50,000 a year.

Montoya and Hatfield questioned why the tapes and documents could not be stored in some secure federal office building and also why Nixon needs so much money for other chores after the millions of federal dollars already spent in connection with Nixon's San Clemente and Key Biscayne, Fla., properties.

Sampson also testified Ziegler had assured him, speaking for Nixon, that none of the funds would be used by the former president for any legal defense.

Quality Up On Farmville Mart

FARMVILLE—The quality of offerings yesterday on the Farmville Tobacco Market were better than Tuesday.

The volume of leaf and smoking leaf grades continued to increase.

Top price paid yesterday was \$1.20 per pound for several piles of B2L grade tobacco. Top practical price paid was \$1.12 per pound.

According to Louis Williams, sales supervisor, more piles of tobacco sold for \$1.12 per pound than for any other price.

Other types of tobacco remained steady.

The market sold 669,520 pounds of tobacco for \$741,648, for an average per hundred pounds of \$110.77. To date, the market has sold 15,812,697 pounds of tobacco for a season average of \$101.35 per hundred pounds.

Minor Damage At School

A fire this morning caused minor damage to the gymnasium at the Stokes-Pactolus Elementary School in Stokes.

According to Pitt County Fire Marshal Bobby Joyner, an electrical connection shorted in a junction box, burning through the covering of the box, igniting the suspended ceiling.

The only damage resulted to the suspended ceiling, and some smoke damage.

Four Pitt County rural fire departments responded to the alarm.

Kilgo Col. . .

\$3,000 Car Near 'Extinction'

By JONATHAN WOLMAN
Associated Press Writer
DETROIT (AP) — The American-made \$3,000 car is apparently going the way of the Ford Model T, a relic of the past in the United States auto industry.

American Motors brought the U.S.-produced \$3,000 automobile closer to extinction on Wednesday by announcing that the tentative base price for the 1975 model of its smallest car, the Gremlin, is \$2,800.

AMC Chairman Roy D. Chapin said final prices on the company's 1975 models would be announced when they go on sale Nov. 15.

The Chrysler Corp., which also announced tentative 1975 sticker prices on Wednesday, said its lowest-priced product, a compact Plymouth Duster, will carry a 1975-

model base price of \$3,246. General Motors' Chevrolet Vega will also sell for a base of about \$2,800 and the Ford Motor Co.'s Pinto is expected to run about the same.

Auto industry sources say that the cost to the consumer on these lowest-priced cars from the four U.S. auto makers will now exceed \$3,000 in almost every case because of add-ons for popular options like radios.

For example, Ford says those who buy Pintos usually add an average of \$300 in options, boosting the cost of the car to about \$3,100, excluding mandatory charges such as taxes and delivery costs.

Last fall, when 1974-model cars were introduced, a brandnew Gremlin could be driven home for about \$2,300. The Vega began the model year at \$2,237. The basic Pinto was \$2,-021 in May 1974.

Price increases during the 1974 model year boosted the price of the average American auto by more than \$400.

For the new model year, GM raised car prices an average \$416, or 8.6 per cent. But the Vega climbed 12 per cent, or \$295. Ford Motor Co. said its prices are expected to

rise about 8 per cent, or an average of \$418. Ford is expected to release specific figures today.

Chrysler increases average \$400, or 8.8 per cent, the firm

said Wednesday. AMC, with a heavy emphasis on smaller, less expensive cars, issued increases averaging \$300, or 7.7 per cent.

The bulk of the 1975 in-

creases are going on the better-selling autos, and despite a slowdown in the small car sales spurt, compacts and subcompacts have been moving steadily.

SOVIET TASK FORCE—The Pacific Fleet Command released this photo Wednesday showing a three-ship naval task force from the Soviet Union that has been cruising in the waters off the Hawaiian Islands this week, according to

reports from the Pentagon. A guided-missile cruiser, a guided-missile frigate and an oiler passed within 45 miles of the island of Nihoa and within 104 miles north of Oahu, the reports confirmed. (AP Wirephoto)

Tighter Fire Campaign Against Safety Code School-Used Book

RALEIGH (AP)—The state Building Code Council has approved an amendment to the state building code aimed at stiffening fire safety standards for construction of new high-rise buildings in North Carolina.

S. Ray Moore, a mechanical contractor from Cary and chairman of the council, called the amendment "one of the best high-rise documents in existence."

The 11-member council approved the amendment following a final public hearing Wednesday that capped a series of committee meetings and hearings held across the state beginning last November.

The mandatory code changes are effective April 1, 1975. They generally apply to buildings six stories or taller. Included are provisions relating to sprinkler systems, use of non combustible materials, smoke proof and pressurized stairwells and elevator shafts, smokeproof "areas of refuge," ventilation, emergency elevators and power sources, smoke detection devices, two way elevator communications, public address systems, emergency telephones and clear roof space for helicopter rescue operations.

12-Year-Old Had Weapon

A 12-year-old student at Agnes Fullilove School was charged yesterday with possession of a weapon on school property and released to the custody of his parents, Greenville Police Detective Capt. Jack Russell said today.

According to the police official the charge stemmed from an incident August 30 when school officials found a razor blade in the youth's possession at the school.

WILMINGTON, N.C. (AP)—The top law enforcement officers in New Hanover County are leading a campaign to ban from the county's schools a paperback anthology of short stories which they contend is obscene.

About 150 people attended a meeting of the New Hanover County School Board on Tuesday to protest the use of "The Curious Eye," an anthology of short stories. The book is optional reading for junior and senior classes in advanced English composition.

A story in the book contains four-letter sexual epithets and racial slurs.

Spearheading opposition to the book is Sheriff H. G. Grohman, backed up by Wilmington Police Chief J. O. Flowers, Chief John Ward of Wrightsville Beach and Chief Ray Padgett of Carolina Beach.

Grohman said the language used in the book is objectionable

and obscene. He said he and the police chiefs agreed that law enforcement officers must oppose such material because it would make it difficult to arrest people on the street for using offensive language if it were being used in the public schools.

The school board had voted earlier 4-2 to accept the book for school use and has not indicated whether it intends to take further action on the issue.

Parents who did not want their children reading the book were given opportunity last week to sign a form letter from the school indicating their objection.

Despite the choice, many parents at this week's meeting objected to the book being available at all to anyone in the school.

Shad Festival Planning Meet

GRIFTON—The first planning meeting of the 1975 Grifton Shad Festival will be held Thursday, Sept. 19, at 8 p.m. at the Grifton Library.

Chairman George Sugg urges all committee chairmen and interested citizens to attend the meeting.

The date for the 1975 festival has been set as April 4-6.

Labor Urges Tight Money End Cemetery Is Preserved

By RANDOLPH E. SCHMID
Associated Press Writer
WASHINGTON (AP) — Labor leaders at President Ford's second economic mini-summit called almost unanimously for an end to tight money policies which have pushed interest rates to record highs.

country into a severe recession with high unemployment. At the start of the conference, Ford announced an effort to reduce unemployment by creating 85,000 new public jobs. Ford said he will speed up the spending of \$415 million in funds already set aside for jobs to be created in state and local governments. He said another \$1.3 billion will be available to local governments for manpower programs.

The President said a close watch will be kept on unemployment and the government will "act with compassion" if it gets out of hand.

About 5.4 per cent of the

work force is unemployed now. "We will not permit the burden of necessary economic restraint to fall on those members of society least able to bear the costs," Ford said. George Meany, head of the 13.5-million member AFL-CIO, complimented Ford for being willing to listen and called for "new thinking, new ideas and new directions."

"We've been going downhill for 5½ years under the present economic policies we have right at this minute," Meany said.

"We believe that budget cuts, high interest rates and tight money supply are not going to work in today's inflation."

In other economic developments Wednesday:

—State utility commissioners were urged by federal officials to speed rate increases for electric power companies.

—The Agriculture Department said August rains have helped the corn crop slightly but officials continued to predict higher food prices this year.

—A Senate committee recommended that the full Senate overturn Ford's three-month delay of a pay hike for 3.5 million federal employees.

—House Speaker Carl Albert called on Ford to act promptly with executive powers to ease

economic problems and not to delay asking Congress for any added authority he needs.

CANADIANS BECKONED

SAN JUAN, Puerto Rico (UPI) — Government tourism director Roberto Bouret has predicted 30,000 Canadians will visit Puerto Rico during fiscal 1974-1975, compared with 6,500 for fiscal 1972-1973.

Bouret attributed the increase to an intensive promotion campaign in Canada and the availability of package tours.

The Daily Reflector, Greenville, N.C.—Thursday, September 12, 1974—7 the cemetery was graded and graveled after a concrete culvert was installed in the roadside ditch. A sand-cement bag retaining wall was fixed to stop erosion from undermining the cemetery fence. A terracotta drop structure was installed to carry the surface runoff water from inside the cemetery and discharge it into the roadside ditch.

Extensive erosion control and preservation work has been done recently at the Hart-Cannon Cemetery one mile east of Ayden.

Leslie Hart of Ayden, asked the Pitt Soil and Water Conservation District for assistance in protecting and preserving the cemetery grounds.

The SCS prepared an inventory and evaluation of the situation including several solutions.

To solve the problem, the ground was covered with a plastic film and thick layer of crushed rock. The driveway to

the states for training of handicapped persons. The bill would transfer the Rehabilitation Services Administration, which handles the program, out of the Social and Rehabilitation Service in the Department of Health, Education and Welfare, and transfer it to the office of the HEW secretary or undersecretary or an appropriate assistant secretary.

Senate Okays Extension Step

WASHINGTON (AP) — The Senate has passed a \$1-billion bill extending the government's Vocational Rehabilitation program for two years. The program would provide grants to

Stock And Market Reports

RALEIGH (AP) (NCDA)—North Carolina egg markets were steady Wednesday. Supplies adequate, demand good. Weighted average prices for small lot sales of consumer grade eggs in cartons delivered nearby outlets: Grade A large whites 69.28, medium whites 64.31, small whites 46.46.

RALEIGH (AP) (NCDA)—North Carolina hogs steady to 1.00 lower. Kinston and Lumberton, 34.75-35.75; Rocky Mount 34.75-35.25; Tarboro and Bethel, 33.55-34.00; Salisbury 35.00; Wilson and High Falls, 34.25.

RALEIGH (AP) (NCDA)—North Carolina F.O.B. dock broilers market steady this week. Market tone for next week's trading is weaker. Supplies fully adequate; demand fair. Weights desirable. Estimated slaughter today 932,000. Hens: market steady with firm undertone noted for next week. Supplies barely adequate; demand good. Too few reported to release prices.

NEW YORK (AP)—News of a further surge in wholesale prices last month drove the stock market into another broad decline today.

The 11:30 a.m. Dow Jones average of 30 industrials was down 8.60 at 646.12—nearly 2 points below the 51-month closing low of 648.00 it reached on Wednesday of last week.

Losers overran gainers by a 7-to-2 margin in moderate trading on the New York Stock Exchange.

Just after the opening bell, the Labor Department reported that the wholesale price index climbed at a 46.8 per cent annual rate in August, exceeding the 44.4 per cent annualized figure for July.

The news hardly qualified as a surprise, analysts noted, but it nevertheless underscored the degree of the nation's inflation problem and helped reinforce the gloomy mood that has gripped Wall Street for months. Gold and silver stocks encountered some severe pressure for the fourth straight day.

ASA, Ltd., fell 7 1/2 to 57; Dome Mines, 4 1/2 to 34; Campbell Red Lake, 2 1/2 to 21 1/2; Rosario Resources, 2 1/2 to 17 1/2; and Hecla Mining, 1 1/2 to 11 1/2.

Campbell Red Lake now has fallen by more than 50 per cent in a month, and the other major precious-metals issues have shown losses almost as large over the same period.

A good part of the slide in the stocks has come this week since an investment adviser switched to a bearish view of their prospects.

Brokers note that each of the gold-mining companies has a relatively small number of shares in public hands and thus can tend to be more volatile than many other kinds of issues.

Evans Products was the Big Board volume leader, down 1/2 at 3 1/4. A 100,000-share block traded at 3 3/4.

The NYSE's 11 a.m. composite index was down .44 at 35.38.

On the American Stock Exchange, the market-value index was also off .44, at 65.09.

Med School Site Proposed To Trustees

BURN VICTIM TO CHARLESTON—Richard Arnold is placed in a chopper for transportation to Charleston where he will be treated for burns at the Medical College of South Carolina. He is one of several victims of burns in the crash of Eastern 212 flown to Charleston. The flight crashed near Charlotte early Wednesday. (AP Wirephoto)

Med School.

been done on a site for a \$15 million basic medical sciences facility, nothing done on selecting architects, and "no actions, no final decisions... we're exactly where we were nine months ago."

From 18 full time faculty three years ago, Hayek said there is now only 14 full time faculty. No new faculty have been appointed since the summer of 1972, he said. He cited "gross ambiguity" and said "faculty morale is suffering, going down."

A search committee was named some time ago to choose a full time director of the ECU medical program but Hayek said this was held only an organizational meeting.

In July President Friday placed Dean Christopher Fordham of the UNC School of Medicine in complete charge of the ECU medical school program. Dr. William

Cromartie of the Chapel Hill school was subsequently named acting director.

Hayek said it is felt there has been a "very untimely delay at the decision-making level."

Dr. Andrew Best, ECU trustee, said he felt it "is a problem of attitude." Trustee Ashley B. Futrell, a former state senator, suggested that legislative leaders such as Lt. Gov. James Hunt and Rep. Jimmy Greene of Bladen County be contacted and urged to appoint a committee to study the situation, but only after going to the Board of Governors first.

Introducing the resolution asking clarification, Futrell said, "We are traveling a road on which we know no destination."

The ECU trustees throughout emphasized ECU's full and wholehearted cooperation and cooperative effort and said there no action should be taken which might be interpreted as anything but complete cooperation. After a report by Dr. Edwin

Obituaries

Bradley
Mr. Elisha Bradley died Wednesday night at his home at 101 Ford Street. He was the husband of Mrs. Laura Bradley. Funeral arrangements are incomplete at Flanagan and Parker Funeral Home.

White
Funeral services for Mr. Raymond White, 51, who died Tuesday at his home here, will be conducted Friday at 2 p.m. at Flanagan and Parker Funeral Home by the Rev. O. J. Rooks. Burial will follow in Brown Hill Cemetery.

A native of Pitt County, he spent his life in the Greenville community. He was a veteran of World War II. Survivors include his parents, the Rev. and Mrs. Van White of the home; two sisters, Mrs.

Othelia Judge and Mrs. Velma Carr, both of Baltimore, Md.; and one brother, Van White Jr. of Baltimore.

The body will remain at Flanagan and Parker. Family visitation will be tonight from 8-9 p.m.

Offer Reward In Double Slaying

RALEIGH (AP)—Gov. Jim Holshouser today offered a state reward of \$2,500 for information leading to the solution of the Aug. 2 murder of two teen-aged girls in Onslow County.

Fred Morrison, the governor's legal aid, said the reward was requested by the State Bureau of Investigation and the Onslow County Sheriff's Department in the hope that it will lead to the arrest of the killer or killers of Karen Beth Amabile and Cynthia Ann Howard, both 15, of Jacksonville, N.C.

The bodies of the two girls were found in a rural area of Onslow County. An autopsy revealed the girls had been sexually assaulted and that they died of strangulation.

Church Women Set Yard Sale

The Ladies Auxiliary of the Meadowbrook Pentecostal Holiness Church will sponsor a yard sale Saturday at the church.

The sale will be held from 9 a.m. until 3 p.m. and will include the sale of homemade cakes.

Rec. Board.

Since the council's rejection of construction bids in January as being too high, Lee said construction costs had risen \$2.13 per square foot. "What we've ended up with," Lee said, "is a bath house 250 square feet smaller than originally planned at an amount of some \$6,000 less in total money."

An option on a "prime site" adjacent to a proposed new Pitt County Memorial Hospital west of Greenville will be recommended to the University Board of Governors for location of the East Carolina University medical school complex.

Dr. Andrew Best of Greenville, chairman of the ECU trustees site selection committee, presented the proposal of accepting an option on the property with a Dec. 1 deadline for exercising the option to buy the land at approximately \$7,000 an acre, or a total of about \$38,000. Closing of the deal would be next March.

Best said his committee found the site on the Old Stantonburg Road "a prime site, the best available in the area" for locating of a basic medical sciences complex for which the 1974 General Assembly appropriated \$15 million.

Dr. Edwin Monroe, Vice Chancellor for Health Affairs who was formerly in charge of the ECU Medical School program, said the property had been evaluated by the medical school faculty and administration and was "deemed the most desirable site."

"It is good high land, accessible, very valuable property," trustee Herb Lee of Greenville said.

The proposed site was bought some months ago by a group of Greenville doctors who planned to use it for a complex of medical buildings and offices near the new multi-million dollar hospital, but who have agreed to extend an option for its use as a site for the ECU medical school complex. Best said other land in the area considered as possible sites was much higher priced.

The population of Ecuador in 1974 is seven million, according to the latest census.

New Bern Next Test For Rose Gridders

Defensive Back Jace Hagans

Mr. Outside Rolls Up Yards

By WOODY PEELE
Reflector Sports Editor

Most successful football teams have a Mr. Inside, a Mr. Outside, and a Mr. Touchdown. In some cases, they are all the same person, and in some cases they are all different.

For Rose High School this year, they have been different. Mr. Inside has been fullback Doug Paschal, a hard-running fullback, while Mr. Touchdown has been Andrew Newton, with four touchdowns in 14 carries.

But Mr. Outside is the leading ground-gainer for the Rampants, and there aren't many who can run him down once he's gotten outside. Mr. Outside is Lindberg Morris.

A 5-8, 145-pound senior, Lindberg is a 4.6 speedster in the 40, but the other night, he ran a little further, scooting down the sidelines for 77 yards and his only touchdown to date against Farmville Central.

So far this season, the speed back has amassed 219 yards, highest total on the Rampant team. And it hasn't been in little bitty bursts, either, he's ripped off 7.1 yards per run, and has been doing other things well too.

Take for instance, kickoff returns. The other night, he also added a 53 yard return that set up the first Rose touchdown. In three returns, he's returned the ball 83 yards—another healthy average.

And also take blocking, for instance. One would think that a

With two victories under their belt, the Rose High School Rampants will get their biggest test of the season Friday night when they return home to face the New Bern Bears.

The Bears will also be bringing a perfect 2-0 record into the 7:30 p.m. game, also seeking to extend their streak.

"This is a game that will mean a lot to us," Coach Dave Bumgarner said. "They are the favored team in Division II, and they're also our first 4-A opponent. A victory would certainly enhance our chances of being the favorite in our Division."

It is not expected to be an easy victory for either team, however.

The Rampants, in their two outings, have downed Washington, 21-10, and Farmville Central, 21-7. In both games, the opposing team scored all of its points in the first period, and all were set up by Rampant mistakes.

New Bern, meanwhile, took a 26-0 victory over Havelock

completely dominating the Rams, while they romped to a 32-6 win over West Cartaret last week.

Rose, after trailing 7-0, quickly came back to tie it up, then pushed ahead against the Jaguars Saturday night. They had rolled up their 21-7 lead and

Julian Vainright

nearly 300 yards in offense by halftime. In the second half, however, they didn't move the ball much.

"We made some mistakes in the second half," Bumgarner said. "We also didn't have the ball much either. Farmville did a good job of controlling the ball, despite the fact that they didn't score. We fumbled twice in the half, losing one of them, and the other cost us the ball eventually. Then, we also had an interception, and all those penalties."

"I have to complement Farmville, too. They are going to cause some problems to the rest of their conference," Bumgarner added.

Jace Hagans was named the team's BAGUBA award winner for the week. "He did a fine job defensively," Bumgarner said. "He made several key tackles, and intercepted a pass in the end zone to halt a drive."

The Rampants plan little chance in their game plan against New Bern. Only one new

face will be in the starting lineup, Phil Gibbs who will replace Mike Baker at defensive end. Baker suffered a dislocated shoulder and will miss three to six weeks.

"We want to establish our running game," Bumgarner

Walter Vines

said. "I think we can throw if we want to. And I also look for New Bern to throw if they have too, but I believe their plan is going to be to try and run on us."

Bumgarner notes that the Bears are paced by their fine quarterback, Dennis Stille, "who is a fine passer." Stille has only completed three passes, all against West Cartaret, for 69 yards, but Bumgarner said that most of his strikes were just plain dropped by the receivers, and not off-target. Stille is also a dangerous runner when he wants to be—and he runs back kickoffs and punts to prove it.

The leading rusher for the Bears is tailback William Boone, who picked up 121 against Havelock and 77 against West Cartaret. Another speedster is James Fields, who has 90 yards in eight carries.

Carl Mobley and Kelvin McRavin both had run in the fullback slot, and are used mostly for blocking in the pro-I formation.

Defensively, Steve Bengel, a 6-

1, 205-pounder, is the anchor-man.

Boone leads the scoring with four touchdowns, while Stille had two, and Mobley, wide receiver James Washington and McRavin each have one.

Overall, New Bern has averaged 276 yards a game.

The Rampants are led by Lindberg Morris, who has rushed for 219 yards in the two games, and scored one touchdown. Doug Paschal, the fullback in the Rose wishbone

Pep Rally Is Set Tonight

A public introduction of the 1974 East Carolina University football team is scheduled for tonight in Ficklen Stadium. A Pep Rally is scheduled for 7 p.m. with the entire team and coaching staff expected to be present. All students and members of the general public are encouraged by the Pirate coaching staff to be on hand tonight to welcome this new edition of the Pirates.

The team will work out light tonight, and again tomorrow afternoon, in culminating its fall practice for the opening game Saturday night against Bowling Green at 7:30 p.m. in Ficklen Stadium.

Coach Pat Dye still would like to have more time before that opener. "The team is just not ready to play," says Dye. "Our

offense looked better yesterday; in fact, it was the best this fall as for mistakes. We had no fumbles and only two busted assignments. But we dropped too many passes."

The defense had been the area of least concern to the Pirate coaching staff, with the return of the "Wild Dogs." But now, Dye is concerned. "Our linebackers and secondary are not moving when the ball is put in the air," said Dye. "We had no pass protection in practice yesterday. They were just content to let the ball down in there for completions."

Emotionally, Dye says he doesn't know if the team is ready or not. "It's Wednesday," said Dye yesterday, "and they haven't shown any emotions about the game. At this point, it's time to get ready."

Grad Assistants Are Announced

East Carolina University head basketball coach Dave Patton has named two graduate assistants for coaching duties during the 1974-75 season. Both are previous East Carolina students, and one a former player.

Billy Taylor, a Greenville, N. C., native, and Chuck Mohn, a New Bern, N. C., native are the third and fourth additions to the ECU basketball coaching staff.

Taylor is a 1973 graduate of East Carolina University, with a Bachelor's Degree in Health and Physical Education. He's working toward a Master's Degree in Physical Education.

Mohn is a 1974 graduate of ECU, also with a degree in Health and Physical Education, and working toward a Master's Degree in Physical Education. Head coach Dave Patton commented on the appointments by saying, "It's good to have both of these young men with us. They add local flavor to our program and should help our recruiting in this area. And we are trying to recruit some local players."

"Chuch is one of our own players and we like to take care of our own. Chuch will start this tradition."

"Billy is a hard worker and very dedicated, which will make him successful. He fits the bill with his being local and of past ECU knowledge."

Patton is a first year head man himself, having been appointed head coach at the end of last season, replacing Tom Quinn. Bulch Estes is the first assistant.

Taylor is 23-years-old and married. Last year, he was head football and basketball coach at New Bern, N. C. Junior High School, and assistant basketball coach at the high school. During high school, Taylor was captain of the J. H. Rose High team here in Greenville, both his junior and senior years.

"It's a great opportunity for me," says Taylor. "Last year I was on the junior high level, and to jump to college level coaching is a tremendous step. The future holds much more promise with this chance."

Mohn is 22-years-old and a New Bern High School graduate. Mohn received All-State honors in both basketball and football at New Bern. Originally, Mohn attended Duke University on a football scholarship, then transferred to East Carolina to play basketball.

The tall bachelor says, "I'm happy to be a part of the staff here. It's a great opportunity for entering the coaching field and completing my education at the same time. You don't often get a chance to work on the college level just out of college. I'm looking forward to the season, which should be improved and a good one under Coach Patton."

Patton is a first year head man himself, having been appointed head coach at the end of last season, replacing Tom Quinn. Bulch Estes is the first assistant.

Crumpler Goes To San Diego

Carlester Crumpler flew out of Kinston at 7:18 a.m. today, heading for the west coast, and a shot at a position with the San Diego Chargers.

"The Chargers called me late yesterday and told me that they'd like for me to come out and give them a look," Crumpler told The Daily Reflector last night. "I don't know whether Buffalo traded me to them, or if they got me on waivers. They

didn't say what the situation was."

A Buffalo spokesman, contacted this morning, said that San Diego had picked up Crumpler from them on waivers. He said that if San Diego signed the record-setting running back from East Carolina, they would pay Buffalo the waiver price and become their property. If not, he would become a free agent.

Crumpler said that the trip, paid by San Diego, would be of a tryout nature. "I still think that I am capable of playing in the National Football League," he said. "I think I proved that in Buffalo, and I just don't understand why they have treated me like they have."

Crumpler had been the leading rusher on the Buffalo team for most of the pre-season drills, but was quickly sidelined when O. J. Simpson returned. "I really didn't get a chance to show what I could do against the veterans."

The fleet back was originally traded from Buffalo to Washington late last week, but returned to Buffalo after only one day after he failed to pass the Washington physical. "They said my shoulder was too tight, but I don't think that was it," Crumpler mused. He noted that Dwayne Thomas, the "bad-boy" of the Redskins was dismissed from the team late the week prior to the trade. "I think they got me to fill the hole Thomas left. Then, by the time the trade was underway, Thomas came back. I think my shoulder was just an excuse to void the trade."

Baseball Makes Cuts

Coach George Williams of the defending Southern Conference champion East Carolina University baseball Pirates said Wednesday after the team's second day of fall practice that the "organization was better" and generally, that he was pleased with the short-term progress.

"We made some cuts today, and will make some additional ones later," said Williams. "But first we have to give all these new people a good look."

Williams said he was pleased with the return of Ron Staggs, Geoff Beaton, Wayne Bland and Bobby Harrison. They are the starters returning from last season that Williams will build around for his 1975 team. The Pirate mentor said that all the returnees, plus a number of junior college transfers signed to grants earlier in the summer, have reported to school in good physical condition and "are ready to go" for Saturday's controlled scrimmage against Louisville, starting at 12:30 at Harrington Field.

Williams said a number of players will see action Saturday.

Division I	Conf.		All

City Tourney Set Saturday

The Greenville City Golf Championship, open to members of Greenville Golf and Country Club and the hosting Brook Valley Golf and Country Club, will try again this weekend to get play underway.

The tournament was scheduled for last Saturday and Sunday, but heavy rains late Friday, and the forecast of continued rains forced a one-week postponement.

Assistant pro Dave Martin of Brook Valley said that if any golfer originally signed up for the tournament, who has not notified the club of his withdrawal from the tournament, should do so right away. Martin said that there were several other openings available for new entries.

Starting times for Sunday's round and pairings will be made up following Saturday's round. Pairings for Saturday's round are given below:

- 8:08: Brownie Tripp, Ed Serva, Bill Brannigan, Ken Langley.
- 8:16: Fred Wagner, Tom Martin, Al Fairmster.
- 8:24: Red Flanagan, Earl Bruton, Bill Smith, Bobby Boseman.
- 8:32: Bill Sneed, Wally Snyder, Harry Wilson, Don Hayes.
- 8:40: Ott Alford, Glenn Cox, Jack Boone.
- 8:56: Dick Haut, Billy Turcotte, Bill Pellisero, Mike Mason.
- 9:04: Bill Shelton, Jim Rodgers, Dick Stephenson, Lee Alcorn.
- 9:12: Gover Everitt, Dick Worsley, Bill Batchlor, Rod Randolph.
- 9:20: Mike Dilanciano, Chip Pennington,
- 9:28: Johnny Pinner, Charles Guinierly, Don Taylor, John Jackson.
- 9:36: Percy Ashby, Smokey Lancaster, Doug Morgan, Richard Hunsucker.
- 9:52: Si Moye, Howard Waldrop, Frank Hill, Ben Harrison.
- 10:00: Billy Wells, Don Cherry, F. T. Molsinger, Charles Odom.

Mazda's rotary engine licensed by NSU-WANKEE.

Why big-car drivers feel at home in the rotary car.

"What the RX-4 does is to offer an attractive alternative to large, heavy domestic cars with big V-8 engines, in a relatively compact car that's not nearly so thirsty. It has the performance, silence and comfort of most of them, and outhandles and outbrakes most of them, and does it all without blatant excesses."

—Road & Track, April 1974.

Cardinals Nip Mets. . . At Long Last

By HAL BOCK
AP Sports Writer

NEW YORK (AP) — The National League has no curfew, which explains why the St. Louis Cardinals and New York Mets were playing baseball at 3:10 a.m., EDT, Thursday morning.

And Bake McBride was getting a little tired waiting around for something to happen, which explains why the Cardinals won a 4-3 decision in 25 innings, the second longest game in major league history.

McBride had opened the 25th — yes, 25th — with an infield single and was leading off first base when Cards' Manager Red Schoendienst flashed the hit-and-run sign. "I was leaning,"

said McBride, "leaning back on my heels, resting."

He was entitled to the breather. After all, he'd been in center field from the start, some seven hours earlier. Hank Webb, the sixth Mets' pitcher, decided a pickoff throw might be a good idea. It was, but where Webb threw it wasn't.

The high throw got past first baseman John Milner for an error and McBride was on his way. "I figured I could get to third," he said. "Then, when I turned second, I said to myself, 'I'm going all the way.'"

McBride steamed around third, never looking for a stop or go sign from coach Vern Benson. "He was going too fast to see any sign anyway," decided Benson.

Milner retrieved the ball and threw to the plate and McBride slid across just as catcher Ron Hodges dropped the ball.

In other National League games, the Philadelphia Phillies topped the Pittsburgh Pirates 8-5, the Los Angeles Dodgers nipped the San Francisco Giants 5-4, the San Diego Padres tripped the Houston Astros 2-0, the Montreal Expos swept the Chicago Cubs 6-1 and 13-4 in a two-night doubleheader, and the Atlanta Braves-Cincinnati Reds game was rained out with the score tied 1-1 in the fifth inning.

As plate umpire Ed Sudol signaled him safe, McBride lay on the ground, seemingly stunned that the tie-breaking

run had finally scored. "There was dirt in my eyes, dirt everywhere," he said. "I was tired."

At seven hours, four minutes, it was the longest night game in major league history, both in terms of time and in terms of innings. And it fell only one inning short of the all-time marathon record, a 26-inning dandy between the Brooklyn Dodgers and Boston Braves May 1, 1920.

Ironically, the Mets were one out away from a regulation nine-inning victory. Jerry Koosman was leading 3-1 with a three-hitter when Ken Reitz tagged him for a two-out, two-run homer that tied the game.

Given that second life, the Cards hung on until McBride's legs delivered the victory that moved them to within 2½

games of first-place Pittsburgh in the National League's East Division.

In the St. Louis dressing room, Reggie Smith delivered a warning to his married teammates. "There's no way," he said, "that your wives are going to believe you guys were out playing baseball all night."

Phils 8, Pirates 5

The Pirates not only lost the game, they lost their ace pitcher when a line drive by Philadelphia's Willie Montanez

struck Dock Ellis on the right hand, fractured a bone and knocked the Pirate star out of the lineup for at least three weeks.

The other damage done by a Philadelphia bat was Bill Robinson's three-run eighth-inning home run, which broke a 5-5 tie and sent the Phillies to victory.

Bob Robertson and Art Howe hit homers as the losers built a 5-2 lead entering the Philadelphia seventh.

Dodgers 5, Giants 4

Center fielder Garry Maddox made a two-run error on Ron Cey's sixth-inning line drive, helping the Dodgers break a 2-2 tie and record their victory over the Giants.

Padros 2, Astros 0

Rookie Mike Ivie hit a two-run homer in the seventh inning to back the three-hit pitching of rookie Dan Spillner and carry the Padres past the Astros.

Expos 6-13, Cubs 1-4

Willie Davis's two-run home

run sparked the Expos' four-run first inning and set them on the way to a rout of the Cubs in the second game after Mike Jorgensen clubbed two homers to lead Montreal in the first game.

Braves 1, Reds 1

Rain washed out the contest in the fifth inning, and the game was to be replayed completely as part of a doubleheader today, although the statistics counted toward the regular season records.

Perry Gains 19th Victory

By ALEX SACHARE
AP Sports Writer

Boog Powell's run-scoring pinch-single in the 17th inning of the opener of a two-night doubleheader gave the Baltimore Orioles a 3-2 victory, but Larry Gura's five-hit pitching led the New York Yankees to a 5-1 triumph in the nightcap.

The split of the doubleheader kept the Yankees two games ahead of second-place Baltimore in the hot American League East race. Cleveland beat Boston 3-1, dropping the Red Sox 2½ games off the pace and putting the Indians just five games out.

Elsewhere in the American

League, Minnesota beat Oakland 5-3 in 10 innings, Texas trimmed Chicago 6-2, California edged Kansas City 3-2 in 10 innings and Milwaukee blanked Detroit 3-0.

Gura, purchased on Aug. 18 from Syracuse of the International League, raised his record with the Yankees to 3-0.

Gura yielded a run in the first inning, then shut the door on the Orioles. The Yankees went ahead with four runs in the second when Sandy Alomar and Jim Mason hit RBI singles, Elliott Maddox was hit by a pitch with the bases loaded and Lou Piniella rapped a sacrifice fly.

Roy White accounted for the

final run with his fifth homer of the season in the ninth.

The opener, a four hour, 12 minute, marathon marked by arguments and missed scoring opportunities, ended when Powell singled following two walks off relief pitcher Cecil Upshaw, 1-6.

Indians 3, Red Sox 1

Indians pitching star Gaylord Perry stopped Boston on five hits in posting his 19th victory against 10 losses.

Twins 5, A's 3

Harmon Killebrew slugged his 13th home run of the season in the 10th inning, a two-run shot on the first pitcher from Darold Knowles that gave the Twins a 5-3 victory.

Rangers 6, White Sox 2

Jim Bibby pitched a four-hitter for his 19th victory of the

season and Jim Spencer drove in two runs with two singles as the second-place Rangers moved to within 5½ games of Oakland in the AL West.

Angels 3, Royals 2

Nolan Ryan stopped Kansas City on four hits and struck out 15, outdueling Kansas City's Al Fitzmorris. Morris Nettles led off the 10th with a single, was sacrificed to second, stole third and scored when Bruce Bochte beat out a single to shortstop.

Brewers 5, Tigers 0

Jim Slaton handcuffed the Tigers on five hits. Milwaukee got a run in the first inning on Don Money's single, made it 2-0 in the seventh on an RBI single by Tim Johnson and got its final run in the eighth on two walks and George Scott's run-scoring single.

Spiders Face Tough Test

By THE ASSOCIATED PRESS

The Richmond Spiders, having already demonstrated in the young Southern Conference football season that they can buck seemingly insurmountable odds, have more than a few odds working against them when they take on West Virginia's Mountaineers Saturday.

It was one thing to mount a winning rally with only 2½ minutes left to edge Villanova 14-13 in their home opener last Saturday.

With all proper ado to Villanova, however, the odds seem more heavily stacked against Richmond in their bout at Morgantown, West Va., where the Mountaineers are opening their 1974 football season.

The factors that figure in making the home team the odds-on favorite include: pride, size and history.

Not that the Spiders don't have pride on their side following their come-from-behind victory over Villanova.

However, the element of pride has to be considered doubly important in the scheme of things at Morgantown, if not in the game plan itself. For Richmond overwhelmed the Mountaineers, 38-17, last year. This is a case of pride mixed with the need for revenge.

In other action involving conference teams this weekend, the first league tilt has Virginia Military's Keydets playing host to Furman's Paladins. It's the opening game for both teams. Afternoon nonleague action Saturday, in addition to the Richmond-West Virginia game, has

Richmond football teams. 1974-edition Spiders.

If that's not enough to stack the odds against Jim Tait's Spiders, consider Tait's own analysis:

"As always West Virginia will have the finest personnel that we'll face all year. I think they have the greatest offensive player in college football in (tailback) Danny Buggs. We are just awfully inexperienced to be playing a team of their calibre."

For his part, Bowden's people have already has taken notice of some of the assets of the

Richmond football teams. 1974-edition Spiders.

WVU assistant coach Jim Youngblood, who scouted the Richmond-Villanova game, has high praise for Richmond quarterback Harry Knight.

"Knight has one of the strongest throwing arms in the East," he said, adding that split end Mike Mahoney has the ability to get himself open and catch the football under pressure.

Knight was 19-42 for 269 yards Saturday, while Mahoney caught 11 passes, good for 181 yards.

Americans Fall To First Defeat

By HOWARD SINER
AP Sports Writer

The rookie World Football League — newly embarked on the second half of its 20-game season — no longer has any unbeaten or winless teams.

The Memphis Southmen rolled to a 46-7 victory Wednesday night to hand the Birmingham Americans their first loss.

And the Detroit Wheels upset the Florida Blazers 15-14 for their first victory.

In the other WFL games, New York downed Portland 34-15, Southern California defeated Chicago 31-28, Philadelphia bombed Jacksonville 41-22 in overtime and the Hawaiians edged Houston 24-17.

"You can't ever feel secure against a team like Birmingham," said Coach John McVay of the Southmen after the victory in Memphis before 30,675 spectators revenged an earlier 58-33 loss to the Americans.

Flanker Ed Marshall of Memphis snared three touch-

down passes — two of them from quarterback John Huarte and one from running back John Harvey. The Southmen defenders made three key interceptions.

Locked in a tight WFL Central Division race, Birmingham, 10-1, and Memphis, 9-2, hold the best won-and-loss records in the league.

In Orlando, Fla., a six-yard touchdown run by rookie Billy Sadler and his subsequent action-point pass reception eventually became the decisive points for Detroit in its 15-14 victory over Florida.

But the Wheels, 1-10, got a bad scare in the fourth quarter after Tommy Reamon of the Blazers, 7-4, scored on a one-yard plunge. Detroit had to stop an action point pass that could have tied it.

The unexpected loss plunged Florida into a tie with New York, 7-4, in their battle for first place in the WFL Eastern Division.

"Our defensive line really played the way we knew they could, which I feel was a turning point in the game for us," said Coach Babe Parilli after the Stars handcuffed Portland's offense.

Against Portland, 2-7-1, Jim Ford of New York scored on a pair of one-yard plunges. Stars' quarterback Tom Sherman, who led the marches that set up Ford's scores, also tossed for another TD.

Southern California, 7-4, got by Chicago, 7-3, when Tony Adams hit Keith Denson on a 56-yard TD pass with only 25 seconds left.

"I knew if the pass was on the money, we'd have it made," said Denson, the hero for the Western Division-leading Sun.

Knotted 22-22 after four periods, Philadelphia, 5-6, sank Jacksonville, 4-7, on Dennis Torzola's field goal, Claude Watts' scoring plunge and John Sodaski's interception return for a TD.

Edd Hargett threw for two touchdowns and speedy Derrick Williams returned a kickoff 80 yards for another TD to lead the Hawaiians, 3-8, past Houston, 2-7-1.

(Continued from page 9)

formation, has picked up 155 and one touchdown, while Andrew Newton, the third member of the backfield, has rushed for 131 yards and four touchdowns. Oddly enough, the four scores came on four consecutive runs, the last two against Washington, and the first two against Farmville Central.

Overall, Rose has rushed for a 275.5 yard average, while their passing has upped their overall offensive average to 301 yards a game.

It all adds up to a struggle between two unbeaten. The winner could go on to an unbeaten season, while the loser must regroup quickly for the next game of the season—a week away.

Health Hazard Fear 'Empty'

RALEIGH, N.C. (AP) — A representative of the world's largest auto maker says there is little possibility that pollution control devices on 1975 cars will create a health hazard.

"That degree of alarm just doesn't exist," says Gary Dickenson, a member of the environmental activities staff of General Motors.

John Moran, director of a federal study on auto pollution, said last week catalytic converters on many new cars will cause a pollution problem of their own by producing emissions of sulfuric acid.

Moran said studies have shown that converter-equipped cars give off .05 grams of sulfuric acid per mile in a fine mist from the exhaust system.

However, Dickenson told a news conference Wednesday that GM's tests show that few, if any, health risks are involved even for a person with a respiratory disease.

Moran had said the sulfuric acid emissions could develop into a health hazard within two

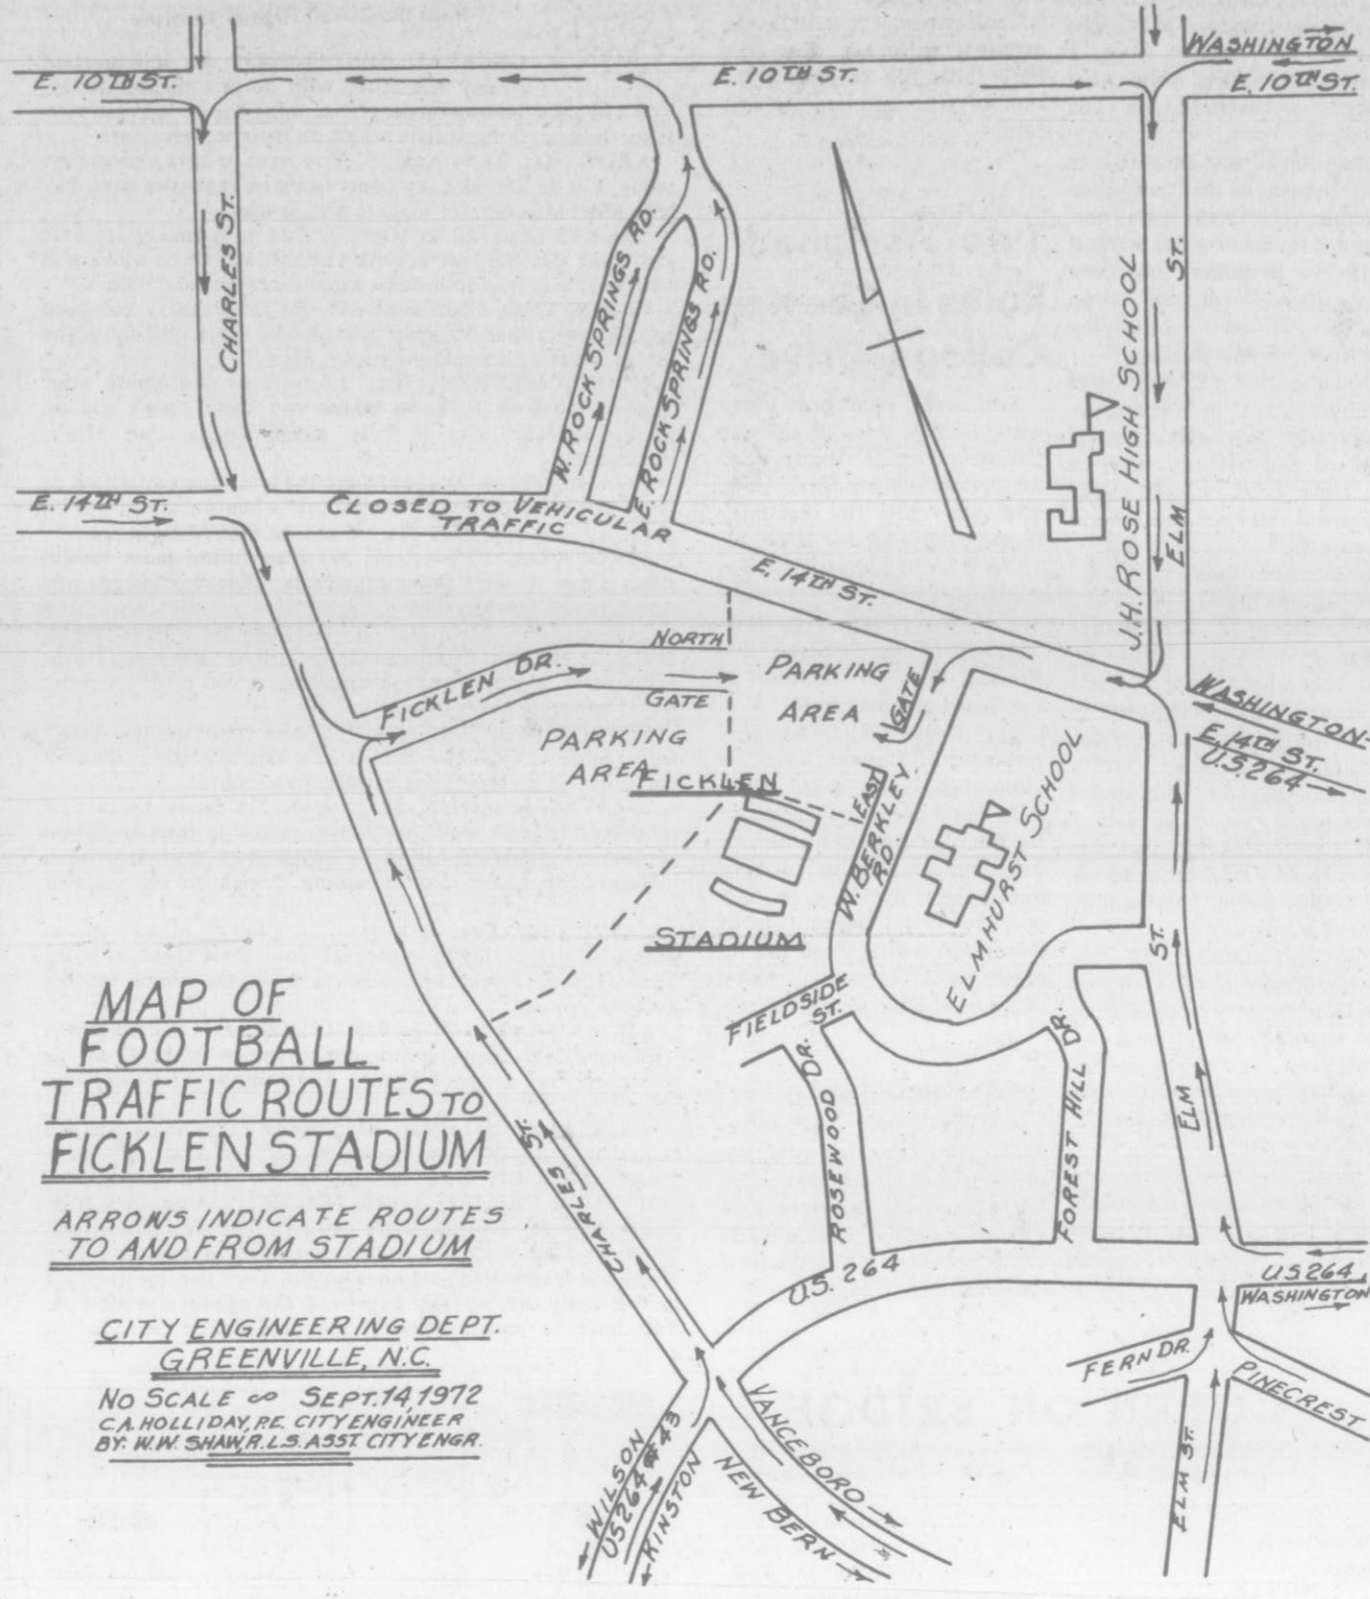

years. The catalytic converters will be standard equipment on about 70 per cent of the new model cars to comply with federal rules limiting emission of carbon monoxide and other pollutants.

Dickenson said he expects the converter to be a fixture in the American automobile for years. He said industry and government scientists will continue to work to rid the exhaust of the sulfuric acid mist.

The converter is installed like a muffler into an automobile's exhaust system.

Dickenson said the converters will result in gasoline savings for drivers that could average 12 or 13 per cent and in some cases 20 per cent.

However, the converters will add \$100 to \$160 to the cost of a new car this year, Dickenson said. Older emission control devices added about \$100 to the cost of a car. New owners must use unleaded gasoline, otherwise the converter will be damaged.

MAP OF FOOTBALL TRAFFIC ROUTES TO FICKLEN STADIUM

ARROWS INDICATE ROUTES TO AND FROM STADIUM

CITY ENGINEERING DEPT. GREENVILLE, N.C.

NO SCALE 00 SEPT. 14, 1972
C.A. HOLLIDAY, P.E. CITY ENGINEER
BY: W.W. SHAW, L.S. ASSIST. CITY ENGR.

FOOTBALL TRAFFIC PATTERN... Football fans driving to East Carolina University home games in Ficklen Stadium should follow the traffic pattern outlined in the map above while moving into parking areas at the stadium. Vehicles will re-trace their steps when leaving the athletic facility parking areas after the games are over.

Football fans driving to Ficklen Stadium for East Carolina University's home games this year will be routed into and out of the stadium parking areas just as they were last year, Greenville Police Chief Glenn Cannon said this week.

But just in case some motorists forget what to do, there will be some 45 members of the Greenville Police Department, Junior Police Cadets, ECU officers, and members of the North Carolina State Highway Patrol on duty at the stadium and at busy intersections to direct traffic before and after each game.

Chief Cannon emphasized that 14th Street, from Elm to Charles Streets west of the stadium will be closed to through traffic from about 6 p.m. until game time for night games. For day games, the street will be closed from about 12:30 p.m. until game time.

Vehicles traveling Charles and 14th Streets west of the stadium will be routed into the parking area off Ficklen Drive, while cars approaching from U.S. 264 West and N. C. 43 will be routed into the stadium's West parking lot off Charles Street.

Cars approaching from Elm Street, U.S. 264 East and 14th Street East of the athletic complex, will be funneled down 14th Street to Wesley Road and into the stadium parking area.

According to Chief Cannon, members of the Century Club should approach the stadium using Rosewood Drive. From there, the official said, Century Club members will be directed to the Century Club parking area.

The Chief explained that 14th Street, after the game has begun, will be reopened to traffic, but will be closed again about 30 minutes before the end of each game and remain closed to through traffic until the out-bound stadium traffic has cleared.

Cars will move from the various parking areas just as they entered.

The police official emphasized that there will be no parking allowed on Charles Street, Ficklen Drive or West Berkeley Road. Cars found parked in these no parking areas will be

towed away at their owners expense, he warned.

Chief Cannon cautioned motorists to drive carefully and observe all traffic rules.

He said drivers should be alert and avoid "tailgating" in the heavy traffic.

Most of the accidents in heavy traffic, he said, are rear-end collisions caused by drivers following the car ahead too closely.

The police official said all motorists should be courteous and not force the right of way, but instead, should yield to other motorists.

Arrested Man With Heroin

Greenville police yesterday arrested Horace Lee Duffie, 34, of 204B Tyson St. on charges of possession of heroin.

Detective Capt. Jack Russell said Duffie was taken into custody about 4:15 p.m. at his residence after officers found a bottle in his possession containing 63 packets of heroin valued at about \$1,000.

Duffie was placed in Pitt County Jail under a \$5,000 bond pending hearing of the case in court. Capt. Russell said.

Four Collisions In Wednesday Traffic

An estimated \$1,975 property damage resulted from a series of four traffic collisions investigated here yesterday by Greenville Police.

Officers reported heaviest damage resulted from a 9:30 p.m. mishap at the intersection of Third and Evans Streets involving cars driven by Mary Elizabeth Hunt of Route 3, Greenville and Monte Leo Wilson of Route 1, Kitterell.

Police, who charged Miss Hunt with failing to stop for a red light, estimated damage at \$400 to her auto and \$200 to the Wilson car.

No charges were placed following investigation of an 8 p.m. mishap at the intersection of Woodlawn Avenue and Willow Street.

Police reported a car driven by Foye Carol Albritton of Route 8, Greenville collided with a parked car owned by Helen P. Ferraro.

Damage was set at \$350 to the Albritton car and \$150 to the Ferraro auto.

An estimated \$200 damage resulted to each of two cars involved in a 3:35 p.m. mishap at the intersection of Fourth and Harding Streets.

Investigators identified the drivers involved as Ellen Smith Fagan of 300 North Oak St. and Henry Fitzhugh Dade of 1601 East Fourth St. and reported Mrs. Fagan was charged with failing to see her intended movement could be made in safety.

Jesse Alfred Smith of 403 Biltmore St. was charged with failing to stop for a stop light following investigation of an 11:23 a.m. collision at the intersection of Tenth and Washington Streets.

Police said the Smith car collided with a vehicle operated by Blanche Dudley Watson of 203 Greenwood Dr. causing \$175 damage to the Smith car and \$300 damage to the Watson auto. No injuries were reported.

Chapter Night For WOTM

Greenville Chapter No. 1308, Women of the Moose, will hold a chapter night program at the Moose Temple tonight at eight o'clock, according to Mrs. Peggy Jamieson, senior regent.

Mrs. Wilma Turner, chairman of the publicity committee, is in charge of the program which will feature a talk by Mrs. Betty Owens, general entertainment chairman for the Greenville Bicentennial observance which starts Oct. 4.

Mrs. Owens will outline plans for women's participation in the events planned for the nine-day celebration.

WOTM yearbooks will be distributed, Mrs. Jamieson said, and refreshments will be served.

CLEANING TIME—Leanna Pape sld through a small opening in the 10-foot high wine barrel at a Cedarburg (Wis.) winery while Thomas Wilson hosed down the floor. The vat was being cleaned and sterilized before being filled with a new batch of cherry wine, which will be aged for a year. (AP Wirephoto)

Fire Damaged Local Residence

Greenville firemen reported extensive damage resulted to the furnace room and attic of a house at 1809 Battle St. from a fire there about 3:40 p.m. yesterday.

Officers reported the blaze apparently originated in the storage-furnace room and spread to the attic, causing extensive damage.

Cause of the blaze was reported as "undetermined."

TERMITES OR ANTS?

Don't be half sure. Call a professional pest control operator for an inspection today.

The potential damage to property from termites can exceed the damage from tornadoes, hurricanes and fire. This is why termite protection is as important as a homeowner's insurance policy.

Worry Clinic

No Secrets On Intimate Data

Heed Dr. McCartney's timely warning! For HEW (alias Big Brother, M.D.) can now commandeer private medical data as to your abortions, VD, or nervous breakdowns and thus violate the doctor-patient confidentiality.

By GEORGE W. CRANE, Ph.D., M.D.

CASE B-640: Dr. Charles P. McCartney is President of our Chicago Medical Society.

He writes a message on the "President's Page" of our bi-weekly medical journal published here in Chicago.

"In 1974, Dr. McCartney began, 'as in each year of the past decade, the physician is struggling with a federal bureaucracy for the control of medical practice.

"The Bennett Amendment has

significantly advanced the cause of this bureaucracy.

"The American Medical Association's advocating the repeal of this act is, therefore, appropriate.

"HEW, however, will carry out the provisions of this law until it is amended or repealed."

"Big Brother, M.D."

For you readers who are not fully aware of how Big Brother is now trying to become your doctor (as well as the wet nurse for all your other needs) let me digest some of the provisions of the Bennett Amendment.

In an election year, the bill seemed to be a good vote-getter, which is what motivates many Congressmen to pass nonsense legislation.

For it provides that a bureaucrat at Washington can

reduce your stay in the hospital, at his option!

And even decree which hospital you may enter!

Plus when he decides you should be sent home from the hospital.

Thus, it usurps the functions of the usual trained M.D., who knows far better than a Washington office clerk what drugs or hospitalization you require.

But what is most dangerous to you laymen is the fact those Washington clerks can now demand the confidential medical data that heretofore has been "privileged," in the same manner as your confession before a priest or minister.

To be specific, at the option of the bureaucrats in Washington, your very intimate personal medical records can now be demanded so those desk clerks can see if you ever had venereal disease.

Or a miscarriage.

Or an abortion.

Or removal of a cancerous breast.

Or bore a baby out of wedlock. Or ever had consulted a physician because of nervous tension or had visited a psychiatrist for emotional problems.

This confidentiality that has always been a legal protection of the doctor-patient relationship, is now destroyed!

You may thus recall how Senator Eagleton was maligned and then abruptly dropped from the vice-presidential spot by McGovern, just because information was "leaked" that Senator Eagleton had been a psychiatric patient!

Indeed, not only are you laymen thus liable for public broadcast of your private medical conditions, but irresponsible opponents of state

or national candidates could easily obtain evidence of any visit by an opponent to a neurologist or psychiatrist and thus "slant" such data to make the public think his rival was incompetent or on the verge of a nervous breakdown.

You laymen will thus be the greatest sufferers when the HEW (alias Big Brother, M.D.) exposes your intimate medical data!

Two Assigned Roles In Chowan College Drive

Two local men have been assigned key roles in Chowan College's Annual Giving Fund for the 1974-75 academic year. The goal for the recently established program is \$50,000.

Chowan will be represented in the Winterville area by State Sen. Vernon E. White, member of the Board of Trustees, and Kenneth K. Dewes, member of the Board of Advisors.

Dr. Bruce E. Whitaker, president of Chowan, said the campaign was established following a recommendation by the Board of Advisors to secure undersigned gifts to help underwrite the day to day operation of the college. Gifts to the annual Giving Fund will be earmarked for the daily operational costs of the college.

BY MONTH'S END

WASHINGTON (AP)—President Ford's package program of conditional amnesty for Vietnam draft evaders and military deserters will be made public by the end of this month, a spokesman says.

FORECAST FOR FRIDAY, SEPTEMBER 13, 1974

CARROLL RIGHTER'S HOROSCOPE

from the Carroll Righter Institute

GENERAL TENDENCIES: An unimportant Friday the 13th, with no jinx present today. You can take the usual steps effective for you to increase your attractiveness. Congratulate others on their achievements.

ARIES (Mar. 21 to Apr. 19) You want to have a good time today, but do not take any unnecessary or expensive risks. Pay bills. More affection for mate in p.m. is wise.

TAURUS (Apr. 20 to May 20) Add to harmony at home and bring out the best in both yourself and those who dwell with you. Plan how to become more successful, also. Read.

GEMINI (May 21 to June 21) Get information and keep appointments that will help you succeed more quickly in the future. Solve utility matters wisely. Shop.

MOON CHILDREN (June 22 to July 21) Study your financial position to know where you stand. Don't rely on usual adviser who is busy now. Handle own affairs intelligently.

LEO (July 22 to Aug. 21) Take the treatments you need to bring out your particular charm now when social life will be improved. A group affair can prove most interesting in p.m.

VIRGO (Aug. 22 to Sept. 22) Plan future more wisely, either alone or with clever organizers. Endeavor to help one who is in real trouble.

LIBRA (Sept. 23 to Oct. 22) Get together with good pals and make the right arrangements to further your aims. Try to make good friends of new acquaintances you made recently. Avoid a troublemaker tonight.

SCORPIO (Oct. 23 to Nov. 21) Solve credit matters. Don't force some civic matter that is in a stagnant state. Await a better day to do something constructive about it.

SAGITTARIUS (Nov. 22 to Dec. 21) Study those new interests but don't make any moves as yet on them until you are better prepared. Listen to suggestions from one with different experience. Do something thoughtful for mate in p.m.

CAPRICORN (Dec. 22 to Jan. 20) Keep promises made to others carefully. If you encourage your mate, you get along much better. Avoid one who is trying to make trouble between you.

AQUARIUS (Jan. 21 to Feb. 19) Talk over mutual affairs with one who is important to your scheme of things, as well as influential, and get good results. Avoid one who tries to block you.

PISCES (Feb. 20 to Mar. 20) Improve surroundings and get things in better working order. A day for action and then tonight take it easy. Don't let some fellow worker down.

IF YOUR CHILD IS BORN TODAY... he or she will be magnetic, will have the desire early to become famous, and will work hard at studies, so be sure to give the best education at schools where organization is taught. Then the fine qualities in this chart can be fully expressed throughout the lifetime. You have to encourage your son or daughter in order to

permit the best to emerge. Give good grounding in ethics, religion.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU!

Baha'i Community To Gather Sunday

Members of the Greenville Baha'i community will gather Sunday at the mall on East Carolina University Campus to observe World Peace Day.

Inaugurated by the National Spiritual Assembly of the Baha'is of the United States in 1959, World Peace Day is commemorated annually by the Baha'i community to emphasize America's responsibility and destiny to raise the standard of world peace.

"Baha'is believe that the United States will play an important role in bringing about world peace and unity, which is so desperately needed today," explained Ludi Johnson of the Local Baha'i Assembly.

"Ever since the middle of the last century when Baha'u'llah, the Founder of the Baha'i Faith, proclaimed the need for collective security and the establishment of universal peace, the Baha'is have been working toward that goal. We believe that world peace cannot be attained until world unity is

firmly established," Ms. Johnson said.

The picnic Sunday will begin at 3:00 p.m. The public is welcome. Refreshments will be served and there will be music and questions and answers about the Baha'i faith.

The first annual National Baha'i Conference was held Aug. 29-Sept. 2, in St. Louis, Mo. More than 10,000 Bahais from all over the U.S. attended. Local conferees were Kim Kerby, James H. Moore Jr., Alvin Wilson, Karla and Ludi Johnson.

Some Arab Oil Profits Being Invested In The U.S.

By SHIRLEY CHRISTIAN
Associated Press Writer

The petroleum exporting countries are doling out money as carefully as they did oil during the embargo, but there are signs the United States won't get cut off this time.

The oil exporting nations made billions of dollars from the four-fold increase in petroleum prices and, in most cases,

their economies can absorb but a fraction of the earnings. Most are holding on to surplus revenues, putting it in a safe and ready sugar bowl: short-term bank deposits of no more than 90 days.

But some money is going to help the less developed nations and to purchase arms. Small amounts are being spent on real estate and business investments.

The United States government and American businessmen have been seeking a share of the oil money. Last weekend, there was an indication of partial success: financial sources said that Saudi Arabia had decided to purchase several billion dollars of a special bond issue by the U.S. Treasury.

Treasury Secretary William E. Simon visited the Mideast this summer, trying to convince Saudi Arabia and Kuwait to buy a large quantity of the special treasury bonds. He proposed that Saudi Arabia buy "well in excess of \$5 billion."

The exact amount and terms of the Saudi Arabian purchase have not been decided on, but a Saudi financial official said the figure would be less than Simon wanted.

In addition to the special bond deal, Treasury officials say that oil producing countries have bought the bulk of between \$4 billion and \$5 billion worth of other Treasury and government securities sold to

foreign countries this year.

By the end of this year, the 10 members of the Organization of Petroleum Exporting Countries are expected to have \$60 billion more than they need. The World Bank calculated that the surplus would grow to more than a trillion dollars by 1985. That's almost 10 times the amount the United States has invested abroad.

The non-Arab countries — Iran, Venezuela, Indonesia and Nigeria — have larger populations or more sophisticated economies which can soak up most of their money. Even those countries will have excess cash for temporary investments while they wait for projects to come off the drawing boards.

Where is oil money going? Bankers, realtors and others in the financial community are reluctant to talk for attribution. They say they are afraid that pending deals could fall through and possible future transactions might be jeopardized. Some pieces can be put

together. Among them:

—An offer from Kuwait to pay almost \$250 million for the St. Martin's Property Corp., a British real estate group. Kuwait already owns 8 per cent of the company.

—An half-interest by the Kuwait Investment Co. in a \$100 million Atlanta hotel-commercial complex.

—The purchase by the Kuwait Investment Co. of Kiawah Island off the South Carolina coast for \$17.4 million.

—An offer from Iran to loan money to Grumman Corp. to assure production of the F14

Navy fighter plane.

—The purchase by Iran of \$3.5 billion worth of U.S. military equipment and \$4 billion worth of French industrial goods.

—The purchase by Iran of 25 per cent of the steel subsidiary of West Germany's Krupp industrial enterprise for \$100 million.

London bankers said that large amounts of oil money in short-term bank deposits had been withdrawn from Great Britain and shifted to New York because of the weak British economy. They declined to

give figures.

New York financial experts also refused to provide many specifics. But the New York Federal Reserve Bank, which compiles figures on the holdings of the 12 largest New York banks, said the oil countries were responsible for a recent \$300 million increase in the time deposits that the banks hold for foreign nations. Time deposits are accounts that must stay in the bank for a specified period. The Federal Reserve refused to release the total amount held by the oil countries.

In the private sector, banks, utilities, corporations and real estate developers are on the lookout for oil money.

Almost all the financiers and real estate experts interviewed predicted that most of the surplus oil money will end up in the United States, Europe, Canada, Japan and Australia.

One source, who declined to be identified by name, predicted that Saudi Arabia — the country that will have the most money to spend — will put half its surplus in the United States.

GUNMAN AND HOSTAGE—Man identified by police as Aaron Pinkston, 24, holds Mrs. Monica Golden at gunpoint in Joliet (Ill.) Wednesday, during attempted getaway. Pinkston allegedly attempting to rob a jewelry store, was surrounded by police officers, and took Mrs. Golden hostage. Following a high-speed chase, police shot Pinkston several times, and captured him. Mrs. Golden was slightly injured when shot in the foot during crossfire. (AP Wirephoto)

The admission by Epps, 38, was filed in a federal court consent order resolving a 1970 civil suit filed by eight members of AFSCME Local 1733 in Memphis.

Epps, now head of the American Tenants Union, assumed complete responsibility for the misappropriations and agreed to repay the union, which he directed 1968-1970.

The consent order, approved by U.S. District Court Judge Robert M. McRae Jr., halted a trial of the suit that opened Tuesday.

Epps testified Tuesday that discrepancies in the local union accounts resulted from inept bookkeeping methods. Cox, in questioning Epps, maintained that Epps disposed of union vouchers and canceled checks

Jeannie C. Riley Feels Phony In Early Stardom

By CHRISTOPHER CABOT
Associated Press Writer
NASHVILLE, Tenn. (AP)—“I felt phony,” Jeannie C. Riley says about her days of country music stardom as the sassy, miniskirted singer of “Harper Valley P.T.A.”

“I like to think of myself as a singer and not as a miniskirt wearer,” she said last week. “It was the image I was against, not ‘Harper Valley’ itself.”

“Everyone expected this sassy, sarcastic girl in a miniskirt and high boots. I’d sing it and I’d turn into a mannequin.”

Jeannie began to break — or drop — out of her “Harper Valley” role as the song receded from its pinnacle on the pop and country charts.

It’s been a long time since “Harper Valley” hit in 1969, vaulting the girl from Anson, Tex., to instant, if short-lived, stardom. At 28, she’s still with the music business, making tours, singing and writing. But success on the scale of “Harper Valley” has eluded her.

As she describes it, the “Harper Valley” roller coaster ride dumped her into a period of disillusionment and depression, abated only by her “rebirth” as an evangelistic Christian two years ago.

“I lost interest in everything I was doing,” she recalls. “I was very uninterested with music and couldn’t get involved in my show. I dreaded this.”

“I felt like I was taking from the music business, and I wasn’t giving anything to it.”

“I asked the Lord to tell me whether I should stay with music. And he told me in no uncertain terms to stay.”

And stay she has.

“I’m just now getting into the music end of the business. I felt like I’d been on a social whirl, and I realized I wasn’t serious enough. I wanted to see the world. I wanted to be praised by people. I hate to say it. And I wanted out of Anson, Tex.”

“I’m writing songs now, something I always wanted to do. I think I will probably write my next hit.”

But the meaning of success, and her desire for it, have changed since the days of “Harper Valley P.T.A.”

“When I came to Nashville, I worried about success. I came with a hatchet and said ‘Let me through.’ Now I don’t. It’s right hard for you to believe it, but I don’t worry about success.”

Jeannie’s religious beliefs, she says, are non-denominational and closely associated with the new evangelism. Pat Boone was instrumental in her conversion.

Like Boone she believes in inspired prayer, commonly called talking in tongues. She describes the phenomenon this way:

“It’s an edifying thing. It makes you feel closer to the Lord. It’s a gift of the Holy Spirit. It’s the lesser of the gifts that you can receive. Some get the ability to relate to people by divine healing. And these are greater gifts.”

Her beliefs, she insists, are pragmatic as well as inspirational.

“The Lord has given me an honesty and strength,” she says. “Now I can set my foot down. Before I couldn’t seem to hold my own with people. At one time I use to sit in a studio and be given a piece of music and told ‘This is what you’re going to sing.’”

New found Christianity notwithstanding, Jeannie C. Riley still sees her future in country music.

“I know God meant me to go into show business. He’s never pushed me from country music. I’m trying some new things now, but I’ll always be country because that’s what I am at heart.”

Chairman Arranges For Pet Adoptions

Jeannie Warner, newly appointed adoptions chairman for the Pitt County Humane Society, announced that she is taking calls from persons who desire low-cost or free pets or who wish to find homes for cats and dogs they are unable to keep.

Mrs. Warner said that she will keep lists of available homes and animals for referral. While kittens and puppies are usually more often asked for, and easier to place than adult animals, some people prefer a full-grown animal, especially a pet who is housebroken, she said.

Further information about the Friends of Animals neutering program is available by telephone at 758-5617.

Since the program began her two years ago, several hundred dogs and cats have been neutered, thus avoiding thousands of unwanted births, she said.

Set Newcomers Party Sept. 30

GRIFTON—The Griffon Chamber of Commerce will hold its annual Newcomers Dinner Monday, Sept. 30.

The dinner is a semi-annual event for all newcomers in the Griffon area during the previous six months.

Newcomers are guests of the chamber and “old-timers” pay for their dinner. Tickets for the dinner may be purchased from Nellie Hicks at Pope’s Department Store, Linda Horton at Horton Engineering, or Catherine Condon, town librarian.

The dinner was previously scheduled for Sept. 23 but was postponed due to a public hearing of the Contentnea Metropolitan Sewerage District set for that same night.

fee for the neutering operation. Since the program began her two years ago, several hundred dogs and cats have been neutered, thus avoiding thousands of unwanted births, she said.

Since the program began her two years ago, several hundred dogs and cats have been neutered, thus avoiding thousands of unwanted births, she said.

ORDER AUTHORIZING SANITARY SEWER BONDS

BE IT ORDERED by the District Board of the Contentnea Metropolitan Sewerage District of Pitt and Lenoir Counties:

1. That, pursuant to The Local Government Bond Act, as amended, the Contentnea Metropolitan Sewerage District, a body corporate, of the several Counties, North Carolina, is hereby authorized to contract a debt, in addition to any and all other debt authorized to be incurred by it, and thereafter have power or authority to contract, and in evidence thereof to issue Sanitary Sewer Bonds in an aggregate principal amount not exceeding \$2,000,000 for the purpose of providing funds, with any other available funds, for constructing a sanitary sewer system for the District, including the construction of wastewater collection and treatment facilities and the acquisition of necessary land and rights of way.

2. That the tax to be levied in an amount sufficient to pay the principal of and the interest on said bonds.

3. That a sworn statement of the debt of the District has been filed with the Secretary-Treasurer and is open to public inspection.

That this order shall take effect when approved by the voters of the District at a referendum as provided in said Act.

The foregoing order has been introduced and a sworn statement of debt has been filed under The Local Government Bond Act, as amended, showing the appraised value of the Contentnea Metropolitan Sewerage District of Pitt and Lenoir Counties to be \$35,538,314 and the net debt thereof, including the proposed principal of \$2,000,000, a tax will be levied to pay the principal of and the interest on the bonds as they are issued. Anyone who wishes to be heard on the questions of the validity of the bond order and the advisability of issuing the bonds may appear at a public hearing or an adjournment thereof to be held at the Ayden District Courtroom Ayden, N.C., Monday, September 23, 1974, at 7:30 o’clock p.m.

Donald E. Russell

Construction Industry Meets On Inflation Fight

By DONALD H. DAVIS
Associated Press Writer
ATLANTA, Ga. (AP) — A high-level conference on the construction industry, the first of 12 preliminary meetings leading up to a White House summit on inflation, opened today in Atlanta.

James T. Lynn, secretary of Housing and Urban Development, was chosen by President Ford to lead the day-long meeting of some 80 builders, bankers, congressmen, economists and representatives of construction-related labor unions and trade associations. Many of the delegates submitted position papers prior to the opening of the conference, and they reflected general agreement that housing and construction, as is nearly always the case, were among the industries hardest hit by inflation.

A paper prepared by the President's Council of Economic Advisers predicted that housing starts during the second half of 1974 may drop below the previous low of 1.27 million units begun during the first half of 1970.

Eli Broad, representing the Council of Housing Producers,

illustrated the effect of the inflation of the past few years on the average family buying a new home.

In 1965, he said, the median price of a new single-family detached home was \$20,000. Interest on a typical mortgage loan was 5½ per cent, resulting in a monthly mortgage payment of \$102.

Today, said Broad, the median cost of a home is \$36,000, and the typical mortgage rate is 10½ per cent. That makes for a monthly payment of \$297, nearly three times the median payment of 1965.

The report by the Council of Economic Advisers pointed out that inflation has, as it does traditionally, caused investors to take money out of the thrift institutions which provide most mortgage funds—primarily savings and loan associations and mutual savings banks—and put their money into higher-yielding securities.

That means there is less money available for mortgages, causing the price of a mortgage to go up. As a result, fewer families can afford to buy homes and there is a drought in

new residential construction. Besides losing savings deposits, said the report, thrift institutions are faced with the additional problem of being saddled with low-yielding mortgages from past years.

The Council suggested that mortgages could be made more attractive investments in times of inflation if the United States was to adopt, as have many of other inflation-ridden nations, what is known as "indexed mortgages" where the price of a home loan increases with inflation.

George L. Whyel, president-elect of the American Banking Association, supported that suggestion and offered other measures designed to attract investors to savings institutions.

Among his proposals were: —Liberalized usury laws which put a limit on the interest rates banks can charge for mortgages.

—Exempt interest earned on savings accounts, "up to a limit of perhaps \$1,000," from federal income taxes.

—Repeat the ceiling on Veterans Administration and Federal Housing Authority loans.

A more extreme measure was suggested by Anthony Downs, chairman of the Real Estate Research Corp. He proposed a direct subsidy to savings institutions to allow them to raise the interest rates they pay on savings accounts, to

keep depositors from withdrawing funds to buy higher-paying securities.

Several building associations argued, in their papers, that construction costs could be cut appreciably by repealing the Davis-Bacon Act, which re-

quires contractors on federal projects to pay at least the "prevailing" wages in the industry, as determined by a government agency.

M. L. Mosier, vice president of the National Constructors Association, called for a reim-

position of wage controls in the construction industry. But most delegates opposed any return to wage-price controls.

William Sidell, president of the United Brotherhood of Carpenters and Joiners of America, called for direct federal ac-

tion to provide financing at sufficiently low interest rates to support "a level of residential construction which will meet America's housing requirements."

Most of the participants urged that the burden of limiting inflation be placed on lower government spending, rather than on a tight monetary policy, which drives up interest rates and drains capital away from home-building.

However, Sherman J. Maisel, a professor at the University of California at Berkeley and former governor of the Federal Reserve System, warned against sweeping action in either fiscal or monetary policy.

Maisel argued that the government must adopt policies aimed at specific areas where production can be increased without stimulating inflation.

Housing, he said, is one such area. The decline in housing construction has added to inflation, he argued, by decreasing the housing slide so sharply that the rents and prices of existing houses are increasing rapidly.

By channeling money into the construction industry, he said, the government could simultaneously decrease unemployment and inflation.

UP TOWARDS BEAUTY—Few words are needed to describe this beautiful scene. With summer vacation over for the school youngsters, this late evening ride on the roller coaster at a Denver amusement park will last until school's out next year. (AP Wirephoto)

Off-Shore Oil Claims Discussed By States

CONCORD, N.H. (AP) — Legal officers of the 12 Atlantic states were to meet today in Washington to discuss action on a ruling that the federal government, not the states, has offshore oil and gas drilling rights.

New Hampshire Atty. Gen. Warren B. Rudman said the ad hoc group of attorneys general or their deputies were to discuss the decision handed down last month by Senior Circuit Judge Albert A. Maris of Philadelphia, a special master of the U.S. Supreme Court.

Rudman said the attorneys general have held meetings since 1969 when the federal government sued Maine after it granted oil and gas rights to

about 3.3 million acres of submerged land more than three miles offshore to King Resources Inc.

New Hampshire, Rhode Island, Massachusetts, North Carolina, New York, New Jersey, Delaware, Maryland, Virginia, South Carolina and Georgia joined the suit.

Lee Attended Co-Op Session

GREENSBORO—Noel Lee Jr. of Rt. 3, Washington, attended a special statewide conference for rural electric cooperative directors in Greensboro last week.

Lee is a director of the Edgemont-Martin Electric Membership Corporation.

The meeting featured sessions on selecting and keeping effective co-op managers, on the duties and responsibilities of co-op directors, and on problems facing co-ops today in the future.

The conference was attended by 126 directors from across the state.

Rudman said the states have a stake in the decision in terms of income and the environmental considerations regarding drilling.

Rudman, president-elect of the National Association of Attorneys General, said, "The federal government hasn't done what you might call an outstanding job of monitoring offshore oil drilling."

The states, he said, "would

do a better job of spending the money from offshore oil leases."

Rudman said the decision related to prior decisions in California in which it was held that the federal government had offshore oil lease rights.

But, Rudman added, California is "a relatively new state," noting that the Atlantic states base their claim to offshore rights on royal English, Dutch and colonial grants.

California, he said, "did not receive its statehood from the colonial government as we did."

Judge Maris ruled that colonial law and practice prior to 1776 does not support the Atlantic states' claims over offshore rights.

The attorneys general, Rudman said, will discuss whether the case should be taken further to the Supreme Court.

The meeting, Rudman said, was to be held at the Washington law offices of Covington and Burling.

New Hampshire was to be represented by Deputy Atty. Gen. David Souter.

Revival Series Begins Monday

GRIFTON—A revival will begin at the Riverside Christian Church Monday and will continue through Friday, beginning at 7:30 p.m.

The Rev. Charles Diaz, regional minister, North Carolina Disciples of Christ, Wilson, will conduct the meetings. Music will be presented by the Atlantic Christian College young people.

Homecoming at the church will be observed Sunday, Sept. 22. The public is invited to attend.

Psychologist Is Acquired

Audrey Batts McCullen has been employed by the Pitt County Mental Health Center as a psychologist. She will begin work Monday.

Miss McCullen earned a B. A. degree at East Carolina University, and also holds a Master of Arts degree from ECU.

She has worked since 1969 as a psychologist at DeKalb Training Center in Scottsdale, Ga.

Invite Exhibit At Charlotte

GRIFTON—Mrs. Jane Lambert and Mrs. Maxine Harper, both of Grifton, have been invited to exhibit and demonstrate apple head dolls at Charlotte's "Festival in the Park" next week at Freedom Park.

The festival will be held for five days, through Sunday, Sept. 22.

Mrs. Lambert and Mrs. Harper were co-chairmen of the art and crafts display during the Shad Festival in Grifton last year where the apple head dolls were first displayed. Since then they have exhibited and displayed at the Lenoir County Creative Crafts and Art Show and the New Bern Bicentennial Festival.

NICHOLS DISCOUNT CITY

305 W. Greenville Blvd. Greenville, N. C.

SENIOR CITIZEN & LITTLE ANGEL PRESCRIPTION PLAN

EVERYONE OVER 60 AND UNDER 5 YEARS OF AGE IS NOW ELIGIBLE FOR A 10% DISCOUNT ON ALL PRESCRIPTIONS

Rx

DID YOU KNOW

...THAT Nichols' Pharmacy is sincerely interested in your health and in the health of every member of your family and loved ones.

...THAT WE HAVE SPECIAL 10 PER CENT DISCOUNT plans for all our patrons under 5 years of age and those over 60 years. Please come in and ask our courteous pharmacist for details...no obligation!

...THAT Nichols' genuinely values your continuing patronage and will always do our very best to make "being sick" for you and your family...just as comfortable as possible.

NICHOLS PLEDGES

To all our prescription patrons EXCELLENT SERVICE provided by well trained and competent pharmacists, plus many other important considerations designed to keep you and your family's medication costs to an absolute MINIMUM!

Wickes Lumber Appliance Values!

PRICES GOOD THRU 18th

Frigidaire WASHER & DRYER

One Low Price ends washday blues! Washer features 2 Wash Cycles & 4 Water Temperatures. 2-cycle Dryer offers Cool-Down care for permanent-press items.

\$ 399⁰⁰

WCD3T DCD3T

Famous Frigidaire Quality!

Frigidaire RANGE

Cleans itself Automatically, Electrically; a real worksaver! Features an automatic Oven Control that tends your meals, and a full-width Storage Drawer.

\$ 339⁰⁰

RSE3-36W

Just 30" Wide! A Spacesaver!

Frigidaire DISHWASHER

Custom, Deluxe Built-In Model offers superb convenience! 5 cycles of washing action for everything from glassware to pots & pans. No prerinse!

\$ 234⁰⁰

DW-CDU

Optional Prewash-&Hold Cycle!

Mercury-Jet DISPOSER

Heavy-duty! Features a ½ h.p., reversing motor; encased & insulated in a deluxe polystyrene shell.

\$ 49⁹⁵

MJ-300

Frigidaire WASHER & DRYER

A fully-automatic Laundry team! Washer has Speed & Water Temperature Selectors; Dryer has a 4-position Fabric Selector. Both have an 18 lb. capacity.

\$ 449⁰⁰

WIA3T DIA3T

Total Laundry Convenience!

Frigidaire REFRIGERATOR

17 cu. ft. of organized space—all of it 100% Frost-Proof! Includes smooth-gliding Nylon Rollers for easy moving and right or left-hand opening Doors.

\$ 409⁰⁰

FPI-170T

Optional Ice Maker Available!

WICKES HAS EVERYDAY LOW PRICES ON QUALITY BRAND APPLIANCES!
