Brother Hodges

Dear Sir

I have enquired about the prospect of getting guano and find a plenty in town but some of them is asking 3 cents and a quarter but I can buy five hundred pounds I think for 3 cents a pound you can come over and get it any time they are sending for it continually to keep from getting out, about the first of October there will be a great deal wanted for wheat I will keep a look out and if I find it getting scarce I will buy it for you, for I should be a afraid to trust to an engagement lest they might forget and sell it as is often done

Very Respectfully Yours

Jos S. Dies

when you come over I hope you will come
so as to stay with as long as you can for it
seems I never have time enough to talk as
much as I want to when any of you come
over; and let me know when Seven is
a going to move I want to go over and
see him before he moves as
