our Adges Harman

Per Sir I thank the pleasure of
informing that I am well at present
only a bad cold hoping that these
few lines will reach you and find
you enjoying good health like expect
to be at last last enough for when
I see a long boat out at sea and
she has so far that the holes
there and the turn back like
or expect them to leave every
day I will write more to you
by the next mail - write to me
as long as you have time
I regret to pass
for the hour of time
