Pitt Takes First Steps To Upgrade Jail

By STUART SAVAGE
Reflector Staff Writer

The Pitt County Board of Commissioners Monday asked Sheriff Ralph Tyson to set priorities on a list of recommendations for improving county jail operations and told the sheriff the board would consider implementing the improvements.

The board's action came following a review and discussion of an audit of the jail conducted last November by a team from the National Sheriff's Association. The study and a 205-page report was funded by a grant from the U.S. Department of Justice's National Institute of Corrections.

The audit looked at 361 standards in 20 areas — ranging from jail administration, fiscal management, personnel, training and staff development to records, safety and sanitation, medical and food services, security and control, inmate rights, and rules and discipline — and made recommendations in most of the areas.

Considered most important among the recommendations were suggestions contained in a 19-page narrative summary of the audit.

They included recommendations: that Tyson ask the National Institute of Corrections' National Jail Center for

technical assistance in preparing an operational policies and procedure manual; that inmates not be allowed to have cash in their possession; that pay for jailers be comparable to salaries paid other deputies; that matrons be paid the same wage as jailers, and that the position of "matron" be abolished and make all jailers "jail deputy" positions; that all new jail employees be required to successfully complete the National Sheriff's Association's course for jail officers and that the chief jailer be sent to a training program on jail administration conducted by the National Jail Center; and that an outdoor exercise area, which could serve as a secure place of refuge in the event of a fire, be established adjacent to the jail.

The audit also recommended: that a vehicle Sallyport be constructed at the jail entrance to provide proper security for officers arriving at the jail with prisoners; that inmates be provided with clothing while confined and not be allowed to have their own clothing; that a nurse or physician visit the jail at least three times a week to conduct sick call, give physical examinations and treat minor health problems, rather than taking prisoners out of jail for routine medical treatment as is now the case; and that temperature-

controlled food service carts be purchased and used to ensure that all hot food is served hot and all cold items are served cold, and that food distribution by trustees be more closely supervised.

Other recommendations include: that an additional five deputies be added to the present staff of 10 jailers to increase security, supervision and control; that pretrial inmates, without lawyers, be allowed access to legal reference books and materials; that a set of written rules of conduct be developed for and given to inmates, and develop a policy and procedure for inmate discipline; and use additional jailers to expand visiting opportunities, provide lockers for visitors to store their personal effects, and consider the installation of a pass-through metal detector (like those used at airports); that all new prisoners be strip-searched to uncover any potential weapons and contraband.

Final recommendations were: that a more secure means of storage of inmates property be provided and a more detailed description of inmates' property be maintained; and that, in order to reduce idleness and cut down on tension, frustration and the security problems that they can cause, televisions and/or radios could be installed in inmate housing areas and

give prisoners greater access to telephones. In addition to greater access to telephones, radio and televisions, the audit suggested that a good supply of balanced reading material could be provided, along with the possibility of a part-time adult education instructor.

Speaking to commissioners, Tyson termed the jail audit "guidelines we can go by in trying to upgrade our jail. There are a lot of standards you have to operate by and there is a lot of good information in here."

The sheriff noted that "only three jails in the nation" are accredited by the American Correctional Association's Commission on Accreditation for Corrections, using the 361 standards touched on in the National Sheriff's Association audit.

Tyson, who said he has already asked the National Jail Center for assistance in preparing an operational policies and procedures manual, said other recommendations resulting from the audit will be implemented. He also told commissioners, "we need more help. We're too thinly spread. We need five additional personnel," and need to upgrade the salaries.

Aver SAT Scores Don't Tell Full Education Story

By JANE WELBORN
Reflector Staff Writer

Area educators do not believe that students in North Carolina are among the worst in the nation, despite low Scholastic Aptitude Test scores.

Those interviewed say that the statistics which rank North Carolina as one of the five states with the lowest SAT scores do not tell the entire story.

The national survey, compiled by the National Center on Education Statistics and other sources and released last week, ranks each state according to college board test scores. The Scholastic Aptitude Test is the college board examination that students in North Carolina take before applying to state colleges and universities. The test contains sections of verbal (reading and spelling) skills and mathematical skills.

"The study does indicate the continuing need to improve academic performance, particularly of our college-bound students," said Dr. Delma Blinson, superintendent of Greenville schools. "However, I don't believe statistics such as these give an accurate picture of the real situation. I believe our schools in North Carolina are doing much better than these statistics would appear to show."

"For example," Blinson said, "a much higher percentage of our students in Greenville and throughout North Carolina take the Scholastic Aptitude Test than take the same test in other states. Therefore, it is not entirely accurate to use these statistics to compare the quality of either the students or the schools between various states."

Blinson said printouts from the educational testing service report that Greenville is above the state and regional average and is very near the national average in SAT scores (verbal and math test of the college board).

"The more people who take the SAT in a class, the lower the average score will usually be," Blinson said. "Many people take the SAT who are not college-bound or are not college material." He said that students in North Carolina are encouraged to take the SAT.

"In a recent speech, Governor Hunt said that in the study, Iowa was ranked number 2 in the nation," Blinson noted. "But in Iowa only 3 percent of the students took the SAT. In North Carolina, approximately 50 percent of the students took the test. If North Carolina's top 3 percent was compared to

Iowa's top 3 percent, we would be ranked more favorably."

Blinson also commented that all of North Carolina's state-operated universities require SAT scores for admission, while colleges in other states do not require this test.

"I think that the Scholastic Aptitude Test is one of the pieces of information that colleges should take into account in admitting students," said Dr. Charles Coble, dean of the school of education at East Carolina University. "I don't think that any college uses the SAT as the sole criteria for admission; there are other considerations such as class rank

Premier Cites 'Obstacles' In U.S. Relations

WASHINGTON (AP) — Chinese Premier Zhao Ziyang told President Reagan today that a continued improvement in relations between their two countries is marred by "difficulties and obstacles." He said relations have become more friendly but have been marked by "ups and downs."

Reagan, welcoming Zhao in arrival ceremonies on the South Lawn of the White House, said that while differences remain, the two countries "stand on common ground" in searching for peace and "opposing expansionism and interference" in the affairs of other nations.

"We stand ready to nurture, develop and build upon the many areas of accord to strengthen the ties between us," Reagan said.

Zhao, the head of government and the highest-ranking Chinese communist official ever to visit the United States, praised the U.S.-Chinese progress in cultural, scientific technological and economic areas.

"But it should be conceded that the growth of the Sino-U.S. relation is far below the level it should have attained," he said. "There

have been ups and downs in the course of development and there still exists difficulties and obstacles."

"Mr. President, at this solemn podium, I feel that hundreds of millions of people are watching us," Zhao said.

"They expect us to make contributions to the development of Sino-U.S. relations and to the cause of maintaining world peace. We should not disappoint them."

After ceremonies marked by a 19-gun salute for Zhao as China's head of government, the two leaders walked to the Oval Office for talks.

Reagan is scheduled to return the visit by traveling to Peking in April, the first trip to China by a U.S. chief executive in nine years.

Reagan told Zhao that the premier's visit to the White House "symbolizes the growing trust and cooperation between our two countries."

"We recognize the differences between our two countries but we stand ready to nurture and build the ties between us," Reagan said.

He praised China's vision in modernizing its economy

FIRE-RESCUE OFFICIALS ... here Monday were (L-R) Phil Riley, newly appointed deputy commissioner of the state Fire and Rescue Division; Elwood Inscow, who has retired as the deputy commissioner; Insurance Commissioner

John Ingram, and Jerry Grimes, who was named by Ingram as the new assistant deputy commissioner for fire and rescue services. (Reflector Staff Photo)

Nash County Native Named New Fire-Rescue Official For State

By TOM BAINES
Reflector Staff Writer

State Insurance Commissioner John Ingram announced here Monday that he has appointed Nash County native Phillip C. Riley as deputy commissioner of the department's fire and rescue division.

Ingram, who was joined at an afternoon press conference by various fire and rescue officials from across the state, said Riley succeeds Elwood Inscow, who retired last year after 30 years of service with the department.

Jerry Grimes, a member of the commissioner's staff since 1973, was introduced as the new assistant deputy commissioner.

Ingram said Riley joined

the insurance office in 1969 as a fire training instructor after serving for three years with the Rocky Mount Fire Department, achieving the rank of captain in charge of training.

Identifying Riley as a "seasoned veteran of fire and rescue work," Ingram said the new deputy commissioner is a certified instructor with the state Board of Education, Department of Community Colleges, and has served as an instructor at the state fire college and pump school. Riley is a Navy veteran.

Grimes, a Chatham County native, joined the staff from Wayne County, where he was fire marshal and administered rural fire protection for 27 departments.

"Both men have extensive backgrounds in both fire and rescue work," said Ingram, "and both have helped us to better serve the people, and local fire and rescue protection throughout North Carolina."

Ingram said that during his 10 years with the department, the number of

rated fire departments, units meeting specific criteria, in the state has increased from about 700 to over 1,300, most of them rural units. He said the achievement is saving lives, millions of dollars in insurance premiums and tax dollars.

He said the insurance office has accomplished a number of other things during his tenure, among them the establishment of in-line-of-duty death benefits (\$25,000) for fire and rescue people, implementation of smoke detector requirements for new homes and mobile homes, and extensive heavy duty rescue training, fire education programs administered through local fire departments, and a high-rise building code for new and existing buildings.

Ingram said, "We will continue our expert training, and we will be fighting for increased benefits for our fire and rescue people, including thousands of volunteers." He said the department is also "fighting to increase fire districts from four miles to five or more

rural people can get better insurance rates."

Among the fire and rescue personnel in Greenville for the announcement were Horace Hodges, director of Non-Insurance Regulatory Services which oversees the operations of the fire and rescue division; Buddy Shaw, commander of the N.C. Rescue Association; Gordon Joyner, the association's executive secretary; Horace Moore, executive secretary of the N.C. Firemen's Association; Bobby Joyner, Pitt County fire marshal who is treasurer of the association; and Charles Trotter of Whiteville, president of the N.C. Fire Chiefs Association.

Ingram said he scheduled the press conference in Pitt County in view of Farmville being the long-time headquarters of the Firemen's Association.

Because of the large numbers received, Hotline cannot answer or publish every item we receive, but we deal with all of those for which we have staff time. Names must be given, but only initials will be published.

DON'T LEAVE WATER RUNNING

An article titled "Frozen Pipes!" in Sunday's Daily Reflector advised people to leave their water running if they knew temperatures were going to drop below 27 degrees. However, Pitt County Health Department Environmental Health Director Willie Pate warns people who have septic tanks not to leave their water running.

"Septic tanks are not designed to handle that much water. Leaving the water running will cause the tank to overflow and keep you from being able to flush your commode. It will cause a lot of problems," Pate said.

He advised using heat tapes or mobile home skirting to avoid frozen pipes.

Tentative OK For Ayden Vehicle Trade

By MARY SCHULKEN
Reflector Staff Writer

AYDEN — The Town Board of Commissioners tentatively authorized the trade of one town vehicle for two other vehicles that Ayden utility officials say "are more practical for the town's purposes."

Utility Director Jordan C. Horne told commissioners at the board's monthly meeting Monday that the town's pres-

ent bucket truck, a 1980 model, is "more truck than the town needs," does not satisfy the department's requirements and has a negative maintenance record. In addition, he said, the town's line truck is not in good shape and needs to be replaced soon.

"The bucket truck we have extends to 70 feet, which is higher than any normal work utility workers ever do," said

Horne. "Most of our (electrical) lines are 35 feet." He noted that the only 70-foot lines are ones that carry 115,000 volts and that town electrical workers would not maintain those because of the high voltage.

"If something went wrong with those lines we would have to work with Carolina

Power and Light or get Stackhouse down here to do

the job," Horne said. "In addition, our line truck has problems that indicate to me its time to replace it," he added.

Horne and Town Manager Don Russell told the commissioners that they had located both a bucket truck and a line truck, 1970 and 1973 models, at a Burlington utility truck firm that the firm would trade for the 1980 model bucket truck.

The older bucket truck, said Horne, has double buckets, he said, and extends to 35 feet, which would "more than satisfy our needs."

Both vehicles were owned by a phone company, Jordan said, which indicates they had few heavy construction hours. The vehicles are completely reconditioned, he

Radio Psychologists: Do They Mislead Callers?

By ALICE RITA
WASHINGTON (UPI) — It's 10 p.m., radio talk-show prime time. For the next few hours the station's switchboard will light up like a Christmas tree.

Callers will discuss the details of their personal problems with an unseen host and a listening audience.

Radio psychology is sweeping the country and ratings are soaring. Yet, the call-in show is the most controversial area of psychologists' involvement in the media.

Questions are raised concerning the effectiveness of the programs.

Critics say they are questionably ethical and can be misleading.

Supporters say the short interaction can guide callers to solutions and help further through strong backup and referral systems.

"Radio psychology can be a form of effective preventative mental health care," says Dr. Toni Grant, of ABC's "Talkradio." Grant is a licensed clinical psychologist who pioneered

radio psychology in 1975.

She noticed many of her private patients simply needed basic information that wasn't provided in society.

She felt problems could have been prevented through public information.

In 1976 the American Psychological Association gave her show the National Media Award, although

media psychology wasn't part of the APA ethical code until 1981.

The APA recently established a task force to elaborate on the 1981 guidelines for members who give psychological advice in the media.

"The statement (in the ethical guidelines) was too bold," said task force coordinator Dr. David Mills.

"It didn't differentiate enough between what is considered educational and what is remedial."

The task force plans to amplify the statement, which basically provides that advice be backed by the latest research and given with highly professional judgment.

Mills predicted conservative and stringent guidelines will be added.

The guidelines will apply only to APA members.

Although radio hosts feel their programs are beneficial, some complain of the conflicting interests between the media industry and psychology.

"You've got the program manager on your back to be brief and to the point or to cut to a commercial," says former talk show host Dr. Karen Shanor, of WRC, Washington. "You can't rush advice."

It takes a trained ear to work within the time constraints common to such programs.

"It becomes an art," Grant said. "You listen with a psychologist's ear for the problem beneath the problem."

Not all call-in hosts have the psychologist's ear. Sally Jessy Raphael, a veteran of the broadcast industry, is a Dear Abby type on the NBC national call-in network, Talknet.

Ms. Raphael attributes her ability to counsel and advise to personal experience. She does not claim to be an expert — and the disclaimer is repeated throughout the show.

Some critics say broad generalizations are made without the necessary distinctions for each individual;

that there is a tendency to try to reduce very complex questions to simplistic answers.

"The expert tends to give a prescription fast food of sex ed," says Glamour magazine's sex and health columnist, Dr. Michael Carrera. Yet, Carrera feels informative issues are treated well and can reduce the myths surrounding an issue.

Some critics say the public is in danger of being misled and the profession misrepresented.

"What goes on in the office has only a remote relationship to what happens in front of the camera or microphone," says Avodah K. Ofit, a psychiatrist, sex therapist and physician. "There is no room in the show for doubts, hesitations."

Research and data on the effectiveness of such programs is scarce.

One study was done by the Association of Media Psychologists on the top-rated Dr. Judith Kuriansky show on WABC in New York.

It indicated callers like the style of the host and listening to other people's problems best. For the most part, people interviewed felt less depressed and less lonely and rated life better after talking with Kuriansky. The study polled 139 callers.

The phenomenon of consulting strangers for on-air advice has been attributed to the changing social trends of our fast-paced society.

"A lot of desperate, lonely people out there ... just want someone to listen to them, someone to care," Kuriansky said. Most shows have a dedicated audience that, over time, begins to identify with and trust the host.

At Wits End

By Erma Bombeck

I "hang out" at the needlepoint shop like a lot of men hang out at a bar or children in a candy store. It's a watering hole for discussing what our kids did last week, what aches this week, and how we'll all go into an aerobics class when there are enough calls for touching your elbow to your knees.

With regularity, the subject gets around to age. Given the options, most of us are for it, but last Wednesday was a day most of us will not forget for a long time.

I said Catherine Deneuve was getting on my nerves. People with foreign accents always have good skin. Look at Marlene Dietrich. If she had spoken English well, she'd have zits like the rest of us.

Someone else said it used to be fun growing old, and actually feeling relief that at last your body could give way to gravity and fall around your knees, but things have changed.

"You never know," said another one, "when your marriage will fail and you'll have to do battle again ... like Linda Evans."

"I think she's over-qualified," said another voice.

"Did anyone see Joan Collins in Playboy?"

Eight women stopped stitching, snipping, counting, browsing and breathing.

"Are you crazy?" said a 48-year-old woman. "My mother wouldn't let me have a copy in the house."

"It's trash," said another voice.

"Filth!" said another.

"Disgusting, worthless slime," I said.

"I bought a copy for my sister in Denver," said the owner.

We all jumped over the counter and spread the magazine out before us.

It was to be the longest silence in the history of the needlepoint shop. One woman cleared her throat as if to speak, but she was

actually having trouble breathing.

There were a lot of judgments made that afternoon.

Middle-aged women think sexy underwear is the most crucial part of a new relationship. They're wrong.

There are some women ... only a handful ... who gave their children to someone else to carry to avoid stretch marks.

Some women were born with bodies that looked like you slammed the oven door on them ... which a trip into space will not help.

Congeniality and charity do not co-exist with centerfolds.

One matron summed it up. She said, "I could diet, jog, and exercise myself into a body like that, but if Harold would wake up next to that it would scare him half to death!"

We all agreed. It wasn't worth the risk.

Helping Your Diabetic Child Is Challenge To Patient And Family

By PATRICIA MCCORMACK
UPI Health Editor

For parents and for older children and even adolescents, the diagnosis of a chronic condition brings to the surface emotions closely parallel to those experienced by the bereaved, Dr. Alan M. Jacobson and Joan B. Leibovich, a social worker, say.

Such emotions run the gamut from shock and disbelief to denial, anger and depression, the two report in *Clinical Diabetes*, a newsletter put out by the American Diabetes Association.

"The family may go through a quiet mourning process that can go unnoticed by the physician," Jacobson and his associate say in the newsletter for physicians. "Parents may experience feelings of failure and self-blame, which can temporarily limit their capacity to learn the skills needed to manage the disease."

They cited three unique areas of concern when the diagnosis is diabetes:

—Learning to use a rather sophisticated body of knowledge about physiology, nutrition and laboratory techniques.

—Constant monitoring to stabilize metabolic balance and to avoid potentially dangerous consequences.

—The ever-present potential for future disabilities, including blindness, kidney and cardiovascular disease, and premature death.

Due to abnormal functioning of the pancreas, children with diabetes are not able to properly utilize sugar and other foods. They must carefully balance their intake of food and take daily injections of insulin.

The diabetes experts said that while the burden of care for the young child rests with parents, the gradual transfer of skills to the child —

including exercise regimens and insulin injections — is the goal.

In later years, diabetes can considerably complicate the normal difficulties of adolescence, the authors said.

"Diabetes control may be more erratic than in childhood because of rapid physical growth in adolescence," they said.

"Paradoxically, the need for closer medical intervention occurs at just the time when the teenager is striving for less dependence on adult guidance.

"Most adolescents, for example, personally test the hypothesis that they have diabetes through overeating, omitting insulin, or refusing to do urine or blood tests — to find out for themselves what will happen if they do not follow instructions."

Parents and physicians need to monitor this adolescent "testing out," and be alert for the possible need for psychological referral to deal with repeated self-destructive behavior, the experts said.

During this period, they suggested, the physicians may be able to play a vital role as a neutral adult, someone outside the intense situation. The physician's clear willingness to listen increase the likelihood that the teenager will follow the physician's advice," the report said.

The authors stressed that caring for the young person with diabetes is not just a medical problem.

"The emotional and behavioral issues that inevitably arise must be dealt with as well," they said.

"When these are understood for what they are — special aspects of normal, predictable developmental patterns — the primary care physician will be equipped to anticipate and manage them more successfully."

The American Diabetes Association offers a wide variety of patient education and family services, including youth groups, rap sessions, counseling, camps and self-help programs.

The association also provides physicians, nurses and social workers and other diabetes health care professionals with the latest information on treatment and control of the disease.

Bed And Breakfast Lodging Gains Favor With Travelers

By ED LION
BOSTON (UPI) — American travelers accustomed to the routine of the same old motel and hotel chains are beginning to discover a more leisurely and less expensive way to move around.

It's called "bed and breakfast" and features homes that rent rooms and give breakfast to travelers, affording a human touch seldom found in modern motels and hotels.

"B&B really is a people-to-people idea," said Bernice Chesler, author of "Bed and Breakfast in the Northeast" who has B&B'd her way across much of Britain and the northeast United States.

"During our stays we have learned about local customs, history and architecture. And it's a great way of meeting people and making friends."

Mrs. Chesler, who lives in suburban Newton Highlands, said there now are up to 10,000 B&Bs in the United States.

Her book focuses on 300 selected places from Maine to Washington, D.C., providing rate information, description of accommodations and information on the "host" families, including pets.

Rates for B&Bs can go as low as \$10 per person a night, with many charging between \$30 and \$40 for two people. That includes the "package arrangement" of overnight accommodations and breakfast, which can range from a juice and roll to a full meal, including cast-iron baked cornsticks, homemade bran muffins and

bacon and eggs depending on the host's culinary bent.

"Besides the obvious bed and breakfast, B&Bs allow you to meet people from the place you're visiting, see how they live," Mrs. Chesler said.

"It's very much a people experience. You can stay with a lawyer in Washington, a dairy farmer in Vermont, a professor in Boston, artists in Maine and musicians in the Berkshires in western Massachusetts.

"You can stay in lovely old houses on the New England coast or elsewhere in the nation in the French Quarter of New Orleans or log cabins in Texas. Some of the places are old, quaint homes on the National Register. It's so varied."

Mrs. Chesler said the B&B package doesn't guarantee making new friends but the odds are good, and from her research she discovered it's an enriching experience for both guests and hosts.

"People become hosts and open their homes because they want to meet new people and for many it fulfills their dreams of being innkeepers," Mrs. Chesler said.

"One host said she went across the world on a freighter and now the world comes to her doorstep. One young woman visited the Rhode Island shore and her host introduced her to the man who eventually became her husband. Some lasting friendships have been struck up and there have been guests who name their children after hosts because they become so close."

Mrs. Chesler said B&Bs first became popular earlier this century in England and Ireland when women wanted to work but it wasn't yet acceptable for them to leave the home.

"It sort of evolved when women were still at home and wanted to have a job with some income," Mrs. Chesler said. "So the B&B idea began springing up. Now it's catching on here more as a reaction to the plastic, modern society. This gives people a way to meet other people — puts a hominess to traveling. And while some of the hosts say they may have started for money, they very much love meeting the guests and making new friends."

Mrs. Chesler's book (Globe Pequot Press, \$9.95) contains quotes from both guests and hosts at particular B&Bs in the Northeast, providing would-be visitors with information that can help them choose a place to their liking.

"We do aim to make our guests feel like invited rather than paying guests," said the host of a B&B at Gay Head on the Massachusetts island of Martha's Vineyard. "When guests go clamming we all eat the harvest."

A couple with a B&B in Williamsburg, Mass., have their home crammed with artifacts and antiques collected during seven years of seafaring and 25 years in the diplomatic service. They say that guests will also get to meet "one gabby parrot and an impertinent beagle named Cleo."

To underscore the varied experience offered by B&Bs, Mrs. Chesler's book said that near the town of Intercourse, Pa., in the heart of the Pennsylvania Dutch country, guests can stay in a Menonite farmhouse.

"We have a grand time sitting around in the evening with the people who come from all over," the hosts say.

B&Bs sometimes are listed with the local chamber of commerce, and travelers also can find them through reservation services that can match travelers to a host for a commission that the B&B pays.

When Declining A Date, Honesty Is Still Best Policy

By Abigail Van Buren

DEAR ABBY: A reader signed "Thanks, but No Thanks" asks, "When a woman does not want to date a man, how does she turn him down without hurting his feelings?"

It isn't easy to turn down a man without hurting his feelings. As a man who's been turned down a lot, I should know. Be honest. If he has BO or bad breath, tell him. You will be doing him a favor. If you think he's too short, too fat, too young or too old for you, tell him, so he'll quit asking you.

Giving a guy false hope will hurt him more in the long run than an honest truth. Tell him! He'll live. I did.

CEDAR RAPIDS, IOWA

DEAR ABBY: I've been turned down for a date with, "Sorry, I have to wash my hair." Now, if a man isn't turned off by that, he must be a masochist. I would have appreciated a lie such as, "I'm involved right now in a personal relationship where I simply don't date, but thanks anyway."

J.D. IN L.A.

DEAR ABBY: If a girl is asked out by someone she has just met and has no desire to date, she could tell him that she has an obligation to someone who is very important to her and she wants to remain faithful to that person, so she must decline. That "person" is herself, of course, but he doesn't need to know that.

SHARI, BIRMINGHAM, ALA.

DEAR ABBY: Saying "Thanks, but no thanks" has always worked for me. But it must be said with sincerity and kindness. Don't waste his time or yours. The truth is sure to come out eventually, which will hurt his feelings much more than an up-front, honest answer. And since a lot of women are now asking the guys out, remember, this works both ways.

NO LIES IN MESA, ARIZ.

DEAR ABBY: When I was a cocktail waitress in Chicago, I worked with a very good-looking girl from Columbus, Ga., who had to practically beat the men off with a baseball bat. When someone she didn't care for would ask her out, she'd smile sweetly and say, "Oh, honey, I can't go out with you; my fiance wouldn't like it!"

I REMEMBER BUNNY SUE

DEAR ABBY: What's the big deal about turning down a date? There's not a man (or woman) in the world who hasn't been turned down by someone. Be 100 percent honest. If you say, "Thanks, but no thanks," and he asks, "Why?" just say, "Because I don't want to."

The more lies you make up ("I have another date," "I'm coming down with the flu" or "I'm going out of town" etc.), the more guilty you'll feel. And you won't get away with it. A lie always comes home to roost.

KANSAS CITY KITTY

DEAR ABBY: What's so tough about turning down a date? I'm a guy who would prefer that the girl just say, "Sorry, you're not for me." Then I'd quit wasting my time and try someone else.

BEEN THERE IN ALASKA

DEAR ABBY: I have been teaching sex education in high school for 10 years, and that question comes up often. I tell my students: "If you don't want to go out with someone, say, 'I like you as a friend, OK? I like the relationship we have, so let's keep it light and friendly.'"

"You have the right to say no. You don't owe anyone any more than a courteous reply. No apologies, no explanations, no excuses. And don't feel guilty!"

MARTHA R. ROPER, ST. LOUIS, MO.

DEAR ABBY: I once told a guy who asked me out that I couldn't accept a date because I was involved with another fellow. That didn't discourage him in the least; he kept asking. Finally I told him I was involved with another woman. I never heard from him again.

Cooking Is Fun

By CECILY BROWNSTONE
Associated Press Food Editor

TEATIME FARE
Waldorf Loaf & Tea
WALDORF LOAF

A small version of our Waldorf Salad Cake.

1 1/2 cups unbleached all-purpose flour
1 teaspoon baking soda
1/4 teaspoon salt
1 teaspoon ground cinnamon
1 large egg
3/4 cup sugar
1/2 teaspoon vanilla
1/2 cup commercial mayonnaise
1 cup milk
2 medium (each about 5 ounces) red apples, unpeeled and cut into 1/4-inch cubes (1 1/2 cups)
1/2 cup coarsely chopped walnuts
1/4 cup finely diced (1/4 inch) celery

Stir together flour, soda, salt and cinnamon. Beat egg, sugar and vanilla until combined. Gently beat in mayonnaise, then flour mixture in 2 additions alternately with milk, until smooth each time. Stir in apples, walnuts and celery. Turn into a buttered and floured loaf pan (9 by 5 by 3 inches). Bake in preheated 400-degree oven until a cake tester inserted in the center comes out clean — 1 hour and 10 minutes. Cool on a wire rack for 5 minutes; loosen edges and turn out on rack; with another rack turn right side up. Cool completely.

SWEDISH SUPPER
Ham & Anchovy Potatoes
Green Beans & Salad
Butter Cookies & Coffee
ANCHOVY POTATOES

In Sweden this is called "Jansson's Temptation."

2 tablespoons butter
Medium (4 ounces) onion, thinly sliced (1 cup)
4 medium (1 1/2 pounds) potatoes, peeled and thinly sliced (4 cups)
2-ounce can flat anchovy fillets, drained and cut crosswise into 1/2-inch pieces
1 cup (8 ounces) heavy cream

In a 10-inch skillet melt butter; add onion and cook gently, stirring often, until golden brown. In an oblong 1 1/2-quart baking dish (10 by 6 by 2 inches) arrange half the potatoes, overlapping as necessary. Top with onion, then anchovies; layer with remaining potatoes. Drizzle cream over top. Cover tightly with foil. Bake in a preheated 400-degree oven for 30 minutes. Remove foil and continue baking, uncovered, until potatoes are tender and browned around sides — 20 to 30 minutes longer. Serve hot. Makes 4 servings.

Note: For more pronounced anchovy flavor, save the oil from the anchovies (about a scant tablespoon) and sprinkle over the onion and anchovies when you are preparing the dish.

WEEKEND LUNCH
Frankfurters & Rolls
Mustard & Kraut Relish
Cookies & Beverage

KRAUT RELISH

It's been popular for some years.

8-ounce can sauerkraut, undrained
1/4 cup sugar
1/4 cup finely chopped onion
1/4 cup finely chopped celery
1/4 cup finely chopped green pepper
1/4 teaspoon celery seed

Stir together sauerkraut, sugar, onion, celery, green pepper and celery seed; cover tightly and refrigerate for several hours or overnight to allow flavors to blend. Drain lightly, if you like, before serving.

Growth Continues

It was a rosy year for Greenville and Pitt County. There was every indication that the county's economy was in good stead as indicated by reports of outstanding sales from the area's retailers.

Now the Greenville construction totals confirm that there has been a boom of sorts for the county.

Total value of construction for which permits were issued last year was \$58,459,761 and this did not include the \$10.4 million for a new wastewater treatment facility which was beyond the building inspector's jurisdiction.

The 1,021 permits issued ran the gamut. There were 34 permits for new business construction valued at \$4,263,363; 143 permits for new single family homes valued at \$8,601,974; 70 for duplexes with a value of \$3,970,412, and 59 for multifamily, rental, condominium and townhouse units with a value of \$23,539,060.

Only 1979, the year the Brody Building and a new bedtower at Pitt County Memorial Hospital were started, was better. That year 1,472 permits were issued for \$63,227,328 in new construction.

Nothing measures the economic health of a community more than the value of new construction under way. Here, the figures are impressive, indeed, and that is an indication that our economic growth is continuing.

Cooperation Needed

Mayor Janice Buck hit on an important point in a recent interview looking ahead to 1984.

"Greenville's continued growth and its position as a leading center depend on the whole eastern part of North Carolina," she said. The mayor said she would work for better communications with area cities to make good things happen in the east.

Certainly eastern North Carolina cities can and should compete — for roads, industries and jobs in general. What helps any of us helps all, however, and each city of the area has its strengths to offer to the whole.

Eastern North Carolina cities should be working together to solve common problems, perhaps through periodic meetings of the mayors, perhaps in other ways. Clearly our growth as a region depends on this.

—John Cunniff—

Revised Forecasts

NEW YORK (AP) — You have to watch them coming and going, or, to put it more precisely, when you're dealing with economic gurus you must check the record as well as the forecast.

In respect for common sense, that is, you might dutifully check how far from the mark your forecaster was last year before sending another \$150 check for his latest look into the future.

It will take some work, however, because a mystery of sorts is involved, a mystery you might call the curious case of the missing confessions.

Almost nobody, it seems, admits to being off the mark last year, although clearly many forecasters were. Even the consensus of forecasters, for example, failed badly to foresee the strength of the recovery.

Somewhere, somehow, something is disguised. But how?

To begin with, by relying on poor memories.

An example was provided years ago by an outspoken forecaster who prefaced remarks with the phrase, "As you recall, I said six months ago," knowing he did not say it and knowing that few people would recall that he had not.

The catch-all qualification is another technique.

In this instance the forecaster issues what appears to be an uncomplicated assessment of things to come, perhaps a booming economy. Later in the same discussion comes the hedge, which typically begins: "If, however, ..."

The hedge can be a bucket large enough to contain anything the forecaster wishes to throw into it: The possibility of

war, higher interest rates, lower interest rates, a stern Federal Reserve, a relaxed Federal Reserve.

One year later, when the boom becomes a bust, the forecaster addresses his clients: "As I warned you at this time last year ..."

Frequent forecasting is an old standby. Caught last year with an economy expanding much more swiftly than they had anticipated, many forecasters revised their estimates at midyear. In some instances, the midyear forecast became the "official" forecast.

Restating the economic conditions is often employed.

A current example is provided in a biweekly newsletter whose forecaster begins, "Unlike the many analysts who were warning of a depression in 1983, I said last January ..."

In any year you can find forecasts at the extremes of boom or depression. But the fact is only a tiny percentage of forecasters in January 1983 spoke of depression. It was understandable. The recovery had already begun.

To forecast after the fact, as some did last year, is in fact a time-tested technique among self-proclaimed oracles, as is the forecast issued after the consensus of forecasts has been released and which is based on it.

But perhaps most interesting of all is the forecaster who makes no attempt to claim accuracy but requests your indulgence to explain why the facts conspired to upset his assessment.

The lament is known to all. "If only business investment had risen as, given the circumstances, it should have," the analyst begins, seeking to convince you that treacherous, villainous events, not he, were at fault.

Confess? Why own up when so many devices of deception are available?

RALEIGH — Over the past several years, North Carolina has quietly moved into the solar age. While the public focus has shifted away from the energy crisis and while energy costs have stabilized, governmental bodies, businesses and private citizens have nonetheless begun giving solar energy a closer look.

Richard Ducker, a researcher at the Institute of Government, says there are now 2,000 private solar water heating systems and 3,000 passive solar homes in the state. Several government facilities, such as Mount Airy's new library and a wastewater treatment plant in Wilson, depend on solar energy. Business is beginning to use solar power for industrial process heat. Cone Mills' Cliffside textile plant is one example.

While there is momentum on many fronts towards a greater use of solar energy, Ducker lists a number of problems which appear to be holding solar

back in North Carolina and, most likely, in other parts of the country. In the latest issue of Popular Government magazine, Ducker reports on some of these problems and lists some suggestions which a governor's task force on solar energy plans to make to the Legislature.

The first problem facing North Carolinians who wish to install solar energy systems is the scarcity of qualified dealers and installers of solar equipment. The public utilities would be a natural, established business to take on this role, but it's hard to blame the utilities for not being crazy about solar power. Solar energy promises to reduce your dependence on the product those utilities sell.

Still, the task force, says Ducker, is recommending that the utilities commission encourage the utilities to get into the solar business and to develop centralized solar (as well as other alternative energy forms) power genera-

tors. To entice the utilities, the task force recommends that a greater return on investments be allowed for utility funds invested in alternative energy projects.

When homeowners find a solar energy equipment dealer they wish to do business with, they often find that credit to make the purchases either is not available or is very highly priced. If finance charges are too high, Ducker writes, the incentive for buying a solar water heater, for example, might be ruined. The task force is recommending that the N.C. Housing Finance Agency be allowed to sell tax-exempt bonds as a way of raising money for solar energy loans. The money raised would be lent to commercial lenders who would, in turn, lend it to people wishing to invest in solar energy products.

The task force thinks the utilities could also get into the financing arena with low interest loans to its customers who wish

to add solar power. In making loans, the utilities could set industry-wide standards for equipment and installation.

Finally, those wishing to add solar power must be assured that the direct line of sunshine which they have today won't be blocked by a highrise tomorrow. The task force recommends the establishment in a law of "solar energy easements" which would be negotiated privately between landowners. Another recommendation would forbid the prohibition of solar energy equipment placement through restrictive covenants.

Unless there's another energy crisis, these legislative initiatives are not likely to become the top new stories of 1984 and 1985 legislative sessions. But if passed, Ducker says, they will "substantially hasten the development of solar energy in North Carolina" and probably make the chances for another energy crisis that much smaller.

—Rowland Evans and Robert Novak—

Jackson Plays The Wild Card

Jesse Jackson's triumph in freeing the downed naval aviator wiped away what President Reagan's insiders now confess was maladroit handling of the affair. Even more important for Republicans, it entrenched the evangelistic civil rights activist on the Democratic presidential scene.

Jackson, the wild card who could disrupt front-runner Walter F. Mondale's well-planned game, had been falling out of the Democratic presidential deck — to Mondale's immense relief. Thanks to Goodman's release, however, Jackson promises to irritate Democrats generally and Mondale particularly through the San Francisco convention.

Much as this now satisfies the Reagan camp, it was not dimly conceived by the president's men as Jackson planned his Syrian mission. White House refusal to put through a telephone call from Jackson (which the president had said he would take) is now explained as precaution against blighting his mission with a U.S. government imprimatur. But Reagan's political advisers harbored quite different concerns at that time; they did not want to associate the president with a quixotic effort denounced by respectable opinion led by the New York Times.

Much worse politically than Jackson's telephone non-connection were specific State Department instructions to presidential envoy Donald Rumsfeld not to raise Goodman's captivity in his Damascus conversations for fear the Syrians might use the pilot as a

bargaining chip. Even so, for so experienced a party politician as Rumsfeld not to raise the issue anyway astounded some administration insiders. "I'm sure it was just a case of Don being too new on the job to free-lance," one high-ranking official told us.

The impression given by the administration was that Robert Goodman carried no high priority. "We came very close to looking racist on this one," one close-in Reagan adviser confided to us. Jackson took the Republicans off the hook, helped along by Reagan's typically graceful acceptance of his feat.

It also revived Fritz Mondale's biggest nuisance, just as he seemed on the verge of eliminating the wild card from the deck. Since Nov. 1, Jackson had lost 44 percent of his supporters to Mondale (according to a private poll for another candidate). For a candidate grossly deficient in organization and fundraising, that looked fatal.

Far from changing that prognosis, Jackson's mission to Damascus was viewed by Democratic leaders with the same contempt voiced by The New York Times. "Tell Jesse he's not president yet," said a sarcastic presidential rival. Sen. Ernest F. Hollings. But if South Carolina Fritz was characteristically indiscreet, Minnesota Fritz was characteristically cautious. "I want to be careful here," Mondale told us over Cable News Network when asked to comment on Jackson's impending trip.

Goodman's release is universally

viewed in political circles as pulling Jackson's black voters back from Mondale. "How can any black turn his back on Jesse after he rescued a brother?" was the rhetorical question posed to us by a white pro-Mondale political operative.

Whether or not the Damascus afterglow also reaps Jackson some white votes in early primaries is debatable. That he now will be around the next six months is not, which forces Mondale to figure out how to deal with him. Reagan's gleeful re-election strategists archly suggest that it would be "an affront to blacks" if Mondale does not take Jackson as vice president or at least secretary of state.

It is obviously more subtle than that. Jackson's demands that the Democratic Party move to the left dismay Mondale strategists who see the need to edge their man rightward toward the center. Moreover, in making his demands for much greater black participation in the party, Jackson often hints at reprisals.

He does so again in an interview with Lally Weymouth published in the current New York magazine. Jackson quotes Georgia Democratic chairman Bert Lance as saying, "I can't deliver" on these demands, and himself responding: "If the party cannot deliver for its membership, why should the membership deliver for the party?" When Weymouth asked about a Jackson independent presidential candidacy, his none-too-reassuring answer was, "I'm

not inclined to."

Jesse Jackson's menace stems not only from racial politics but also his dynamic silhouette on the bland Democratic landscape. He is the least proficient candidate in qualifying for federal matching funds but the only one capable of capturing the public imagination.

Public Forum

To the editor:

The performance of the Charlotte Symphony Orchestra to be held Thursday is especially noteworthy, I feel. In my position as conductor of the ECU Symphony Orchestra, it has been my privilege to hear many of the world's finest orchestras. In recent years the Charlotte Symphony has made tremendous strides in excellence and now ranks as one of the very best metropolitan orchestras in the nation. Readers of The Daily Reflector should make every effort to hear this fine ensemble. I hope to see Wright Auditorium filled to capacity.

Robert Hause
Greenville

To the editor:

I have come to expect to read some ridiculous editorials in the Reflector, but Sunday's took the cake.

No matter what Jesse Helms does, it doesn't please the Reflector, but to criticize him for recommending a good friend and supporter for a federal judgeship, for which he is well qualified, is the height of naivete.

Who would the Reflector have him recommend? Robert Morgan, Nick Galifianakis, or maybe Jim Hunt? Jesse pushed Morgan and Galifianakis away from the public trough, and when Jesse gets finished with Hunt in November, Hunt will be looking for a job, also.

Jesse has been mighty good about making Democrats ex-officeholders and, as long as he can count on the opposition of the Reflector and the News and Observer, he can't lose. They've got a perfect record against Jesse — a big fat zero! Keep up the good work, Mr. Editor. We need Jesse in Washington.

Ray Masten

'Baby Doe' Rules Are Modified

By BETTY ANNE WILLIAMS
Associated Press Writer

WASHINGTON (AP) — Some critics of the Reagan administration's attempts to help handicapped infants say they can live with the new "Baby Doe" rules long enough to see if they work.

Health and Human Services Secretary Margaret M. Heckler and Surgeon General C. Everett Koop unveiled the new version of the regulations at a news conference Monday.

The rules put special hospital review committees in charge of assuring that handicapped infants get food and medical attention. The government will step in only as a last resort.

The American Academy of Pediatrics, which was one of three medical groups to successfully bring a court challenge against the original rules, said it isn't likely to take legal action on the new regulations.

"We continue to believe that legal questions exist on the scope of Section 504 of the Rehabilitation Act and on the appropriateness of federal intervention into sensitive and complex medical issues," said Dr. Paul Wehrle, president of the

group. "The academy does not intend to contest the rule at this time, but will monitor closely its implementation."

Paul Marchand, executive director of the Association for Retarded Citizens, also promised to closely watch the way the rules are followed.

"We have no notion of how many of 7,000 hospitals (affected by the regulations) will develop committees. Of those who will, we have no notion of how many will adopt the principles for purposes of making decisions. We also have no data on how well hospitals will attempt to pick relatively neutral people to sit on those committees. It will be awfully easy for hospital administrators to stack the deck, to make sure there is always a majority to vote for the hospital administrator's point-of-view."

But Gary Curran, director of government relations for the American Life Lobby, said the regulations show the administration has "caved in" to the medical establishment. "The Reagan administration's kowtowing to the God complex of the medical establishment is totally unacceptable," he said. His group favored vig-

orous federal enforcement of the laws forbidding discrimination against the handicapped.

The new rules are to go into effect 30 days after their publication in the Federal Register. Koop estimated that between 1,000 and 1,200 infants would receive protection under them each year.

The rules were revised to accommodate medical views, which oppose federal intervention, and those citizen groups which support an active federal role.

"We have traveled a long and controversial road in order to translate this administration's commitment to serve as a protector of last resort for those children into public policy," Mrs. Heckler said.

A victory for the medical profession includes the provision in the rules that infant care review committees at hospitals decide tough questions about treatment given babies with birth defects. The regulations suggest that the committees include medical personnel, an attorney, a member of the community and a representative of a disability group.

The old regulations required the posting of

placards prominently in hospitals with a warning against discriminatory denial of food or medical attention to handicapped infants. The placards also would carry a toll-free hotline number where anyone could report suspected cases.

The hotline will remain in operation under the new

rules. But the government wants hospitals to post notices 5 inches by 7 inches only in places where hospital staffs congregate. These notices will carry the phone numbers of the infant care review committee in the hospital, state child protection officials and the federal government's hotline number.

The regulations are named for a Bloomington, Ind., case where a severely handicapped male child identified only as Baby Doe was allowed to die after his parents won court backing for their decision to deny him care.

Koop said the regulations would not have direct bearing on a case in New York state, where the federal government is seeking to review the medical records of severely handicapped "Baby Jane Doe" to see whether she is being discriminated against by being denied life-prolonging surgery, which her parents oppose.

Higher Requirements For Teachers Expected

CHARLOTTE (AP) — A special statewide education commission is expected to propose higher salaries for teachers and tougher graduation requirements as part of a package of public school reforms, Gov. Jim Hunt says.

Hunt said in a news conference Monday that the North Carolina Commission on Education for Economic Growth will recommend "a comprehensive package of reforms that will mean rigor and excellence in North Carolina's public schools."

The 50-member commission, modeled after a national education task force Hunt chaired last year, held its last of four public hearings in Charlotte Monday night. It is scheduled to release its report March 15.

Hunt said business leaders have complained that high school graduates cannot think and reason through problems or communicate effectively.

"Too many of our students do graduate without the ability to do these things," Hunt said. "We are hearing that many of our students really are not employable. They do not have the kinds of skills industries need to give them jobs."

Hunt said the commission is considering ways to strengthen academics. He said one possibility was a recommendation to institute a statewide testing program similar to the regent tests in New York state. That program gauges a student's achievement in required academic courses like English.

The commission, comprised of state leaders in business, government and education, is costing North Carolina about \$112,000 for the work of four full-time staffers hired to help prepare its final report.

Hunt said he planned to ask the June session of the General Assembly "for substantial additional com-

mitments to the public schools of North Carolina." He declined to say how much money those commitments would cost.

"We need to take a substantial step in raising the pay of teachers and other educators," Hunt said.

The commission is also expected to recommend that the state adopt some type of career development program for teachers like the one approved by the Charlotte-Mecklenburg Board of Education in December.

That program sets up three career advancement steps for teachers, paying them substantially higher salaries if they complete rigorous training and demonstrate classroom excellence.

Hunt said money was not going to be the solution to the state's education problems and added that some steps won't cost any money.

He said the commission likely will recommend ways to make school curriculums tougher, improve parental support for schools and make better use of time in the school day by reducing interruptions such as announcements and school assemblies.

"Our students are not taking enough demanding courses. We need fewer courses like Family Life Education or Personal and Family Living Skills, even though these may be needed by some students, and more courses in math, science, English and foreign languages - the real basics that you need to work in today's world," Hunt said.

Sets Priorities In Second Term

SAN FRANCISCO (AP) — Mayor Dianne Feinstein, sworn in to her second full term in office, told a City Hall audience of more than 1,500 people that her priorities are to improve service on the Municipal Railway and provide more affordable housing.

Ms. Feinstein, who became mayor following the November 1978 assassinations of Mayor George Moscone and Supervisor Harvey Milk by Milk's ex-colleague Dan White, took the oath of office on Monday from California Chief Justice Rose Bird.

SERVING SENTENCE — Henry Lee McDonald of Jamestown, Tenn., has posted this sign in his front yard as ordered by U.S. District Judge L. Clure Morton. McDonald, who was convicted of buying a stolen car, must leave the sign up for 30 days. Morton's house is at left, background. (AP Laserphoto)

Reduce Your Taxes

Visit Your First Class Financial Center.

Trim as much as \$2,000 from your taxable income each year...more if you're married...even more if your spouse works too! And...enjoy a prosperous retirement!

Contributions to your Individual Retirement Account at First Federal are tax deferred. So you pay no taxes on the money you save — or the interest earned — until retirement, when you should be in a lower tax bracket.

That's the kind of tax shelter that used to be available only to the rich. Now, so long as you have earned income, it's yours.

In addition, you'll earn high market yields with your First Federal IRA. So you'll build a hefty retirement fund. Choose a fixed rate or variable rate plan.

The safety of your IRA is assured...with FSLIC insurance to \$100,000 separate from any other First Federal account you have.

If you're paying too much income tax, open your IRA at a nearby office of First Federal.

Upgrade Jail...

(Continued from Page 1)

"What we want to do is improve the jail," he emphasized. Commissioners Monday also heard a report from Dr. Robert C. Wendling, a member of the parks, recreation and conservation staff at East Carolina University, on a plan to develop a nature center at Greenville's River Park North. Wendling said the proposed environmental awareness center at the park would be similar to nature centers at Charlotte, Greensboro and Durham. But he said the 359-acre park is far larger than any of the other three centers. He said the creation of a nature center at the park would "improve the quality of science education" in area schools, increase the public's awareness of the out-of-doors, and "provide experiential teaching opportunities" that students otherwise would not receive. In addition to providing students with improved learning opportunities, Wendling said the center would have "programs for the general public" and allow "research and demonstration projects." The park, he noted, includes four ponds, totaling 48 acres; a creek, 278 acres of bottom land forest and 1.2 miles of shoreline on the Tar River. Wendling said by pooling the resources of the city, the county, the public schools and ECU, there is "unlimited potential for the improvement of science education." He noted that if the nature center is created, ECU would probably donate more than \$50,000 worth of planetarium equipment, and a local area resident would give his 250-specimen taxidermy collection which the Durham nature center and the Smithsonian Institution in Washington, D.C., have been trying to acquire. Board Chairman Bob Martin told Wendling that the board supports the proposal and would consider the proposal with the schools at budget time.

In other business, commissioners met with Robert Adams, director of the ECU Medical Foundation, and Dr. Tate Holbrook, an assistant professor of pediatrics at the ECU medical school, about the possibility of leasing property from the county for use as a site for a Ronald McDonald House. The facility would provide lodging for parents of pediatric patients at Pitt County Memorial Hospital. Adams said the facility would include eight to 12 bedrooms, and would be in operation about July 1985. No action was taken by commissioners, who voiced support for the project. The board also tentatively scheduled a joint meeting with members of the Greenville City Council for Jan. 25, at 6:30 p.m. at the Country Club.

Fear Cards Are A National ID

LONDON (AP) — Britons are beginning 1984 with a new National Insurance card that some critics view as a plastic precursor of an Orwellian future. The government on Monday started issuing the new wallet-size cards, which contain a magnetic strip encoded with information, after offering elaborate assurances that they would not become part of a national identification system. Michael Meacher, a legislator and spokesman on social issues for the opposition Labor Party, was not convinced. He suggested they may be the first step toward an "Orwellian nightmare in the first few days of 1984." Tony Newton, a junior minister in the Department of Health and Social Security, said, "The government has no intention of introducing identity cards, and the issue of these cards is simply the replacing of existing paper National Insurance number cards with plastic National Insurance cards." Britons aren't required to carry the cards, which are used in applying for health services, unemployment payments and other social benefits. The country does not have the sort of national ID card system common in other European nations.

CLEAN SWEEP — U.S. Marine Corporal John Delgado, 25, from Augusta, Ga., uses a small paint brush to wipe away loose hair after he gave a haircut to Lance Corporal Jeffrey Seestrom from Cincinnati. The two Marines are stationed at Golf Co., located at the edge of Beirut airport. (AP Laserphoto)

Benefit 'Swim-It' Planned

The Pilot Club of Greenville will hold a "Swim-It" at the East Carolina Vocational Center Saturday from 9 a.m. to 5 p.m. The event will benefit the Eastern Carolina Vocational Center and Camp Rainbow, the area camp for children with cancer. Citizens will be asked to sponsor swimmers. Call Kim Griffith, 758-4188.

Possession Charge Filed

Greenville police Monday arrested John Paul Gamboa, 29, of Route 1, Bethel, on charges of possession of a controlled substance. Officer E.M. Haddock said the arrest followed investigation of an incident which occurred Jan. 2.

Concerned Women To Meet

The Pitt County Black Concerned Women will meet today at 5:30 p.m. at the home of Paulette Dove, 208 Westhaven Road. The meeting is open to any interested woman.

Support Group To Meet

The Area Parkinson Support Group will meet Thursday at 11 a.m. in the First Presbyterian Church. The program will be the viewing of videotapes of the 1983 Parkinson Disease Foundation open house held at Columbia University in New York. The tapes will last about three hours and will consist of the following topics: laboratory studies and research at the Parkinson Disease Foundation by Dr. Mahamed Hassan and Dr. Stanley Fahn; biochemical pharmacology by Dr. Avinoam Reches; clinical studies on new drugs by Dr. Joyce Ilson; and behavioral aspects of Parkinson's by Dr. Richard Mayeux. The meeting will be open to anyone interested. For more information, call 756-2463.

Education...

(Continued from Page 1)

and the kinds of courses the student takes in high school." Even though the statistics mentioned in the national study are misleading, SAT scores in North Carolina could use improvement, Coble said. "Effective teaching and effective learning will improve the SAT scores." By learning about the SAT, students can score higher, Coble said. "One of the short-term solutions is preparation for the test," he said. He mentioned self-help study guides with sample questions, sold in many bookstores, as a way a student can prepare to take the SAT.

Workshops can also help the students learn about the structure of the test. "The Rural Education Institute at East Carolina University offers workshops throughout eastern North Carolina," he said. "These workshops have been offered in urban areas of the state for a long time."

But Coble said that long-term solutions for improving SAT scores lie in the schools and in the homes.

The Rural Education Institute recently released a brochure called "30 Ways to Help Your Child Succeed in School." Coble said that the suggestions include: help your youngster make a schedule, including time for play and sleep and studying; attend parent-teacher conferences in schools to be alert to what is happening in the schools, and encourage such skills as note-taking while reading to be used as a study guide later.

The courses taught in schools can help the child with the SAT. College preparatory courses are a major asset for the college-bound student who will take the SAT.

Coble added that "teachers should reinforce skills across disciplines. Every teacher should view himself as an English, reading, writing and math teacher. Reports written, tests taken and work done should reflect good grammar and composition."

John McKnight, associate superintendent of instruction in the Pitt County school system, said, "Although well below the national average, SAT scores in Pitt County have been rising during the past four or five years. As long as I see an increase (in the scores) each year, I am delighted."

McKnight said the "SAT is a good measure of the traditional verbal and math skills. 'About 25 percent of our student body takes the test,' he said. 'There are more and more students taking the test because many of our students want to go to college and get a B.A. degree and beyond.'"

Betty Speir, guidance counselor at North Pitt High School, said SAT scores are one of the things that help students decide if they are going to college. "If the student doesn't score well on the test, then he will not be accepted to a university," she said.

"SAT review courses are helpful to the students in that they instruct students on the type of questions that will be asked, the instructions that will be given and the time limits of the test," Mrs. Speir said.

"It is also helpful for the students to take the test more than once," she said. "Some students take the SAT in both the 10th and the 11th grades. The combination of highest scores for the math and the verbal portions of the SAT are what most universities will accept."

Mrs. Speir noted that many seventh and eighth graders are taking the SAT to qualify for university summer programs. "The students haven't had the advanced courses needed to do well on the SAT and their scores are also put into the hopper." This may be one reason for the lower SAT scores in North Carolina, Mrs. Speir said.

"It is essential that students have a reading program set up and read on their own if they are to score high on the verbal section of the SAT," Mrs. Speir added. "Students who do not read extensively have a real problem on the SAT."

Jean Creech, guidance counselor at J.H. Rose High School, said it is difficult to study for the SAT.

"You can't sit down and cram for the SAT," she said. "I suggest that the student do a little studying all along."

High school students in the Greenville area have the opportunity to learn about the SAT before they attempt to take the test. Rose High School has conducted workshops to help students prepare for the SAT.

Mrs. Creech said a session sponsored by the ECU Rural Institute was attended by 27 high school students. "We also had an Early Bird Study Skills Workshop led by Dr. George Weigand of the ECU Counseling Center," she said. "A large part of this session had to do with tests." Another such workshop will be held at Rose High this month.

Besides attending workshops, the student can obtain information about test-taking from the school.

"We keep books in the guidance office on how to prepare for the SAT," Mrs. Creech said. The library at Rose High School also videotaped a television program aired last year dealing with studying for the SAT that is shown by English classes.

Pitt County schools also sponsor a SAT workshop each year. Annie Brown, guidance counselor at D.H. Conley High School, said the workshop is free and is open to anyone interested.

Hints on taking the SAT are provided at the workshop. For example, Mrs. Brown said, "Students are not penalized for not answering a question" on the SAT. "They are penalized when they give the wrong answer."

"Even though the student doesn't know what's on the test, the booklets on studying for the SAT and the workshops give the students an idea about how the questions will be asked," Mrs. Brown said.

"Preparing for the SAT as a last-minute thing cannot overcome a lifetime of poor preparation, although it can help some," Dr. Coble said. "The Scholastic Aptitude Test measures what is learned in school, and what is learned in school takes years to learn."

Nursery School To Open

Lutheran Church Nursery School, designed to provide learning enrichment for children between the ages of 3 and 5, will begin accepting applications for enrollment for the 1984-85 school term Wednesday from 9-10 a.m. at the school.

A class for 3-year-olds will be held on Tuesdays and Thursdays from 9 a.m. until 12 p.m. A class for 4-year-olds will meet Monday, Wednesday and Friday from 9 a.m. until noon.

For more information call 756-2058 between 9 a.m. and 12 noon or 758-5621 after 1 p.m. on weekdays. The school is located at Our Redeemer Lutheran Church, 1801 South Elm St.

Exercise Class Scheduled

The Greenville Recreation and Parks Department will offer a ladies exercise class at West Greenville Recreation Center beginning Wednesday, to meet each Monday and Wednesday from 7:30 to 8:30 p.m. Fee is \$3. Participants are to register on the first night of class. For more details, call 752-4137, ext. 252 between 3 and 5 p.m.

Pocketbook Taken

Greenville police are investigating the theft of a pocketbook containing \$2 in cash at Sheppard Memorial Library on Evans Street Monday.

Officers said a 2:15 p.m. report said a purse belonging to Mary Cooke Guy of 304 Ravenwood Drive was taken from an office. The purse, minus the cash, was found later inside the building.

Nominations Sought

The Bethel Council of the Pitt-Greenville Chamber of Commerce is seeking nominations for the "Citizen of the Year Award." Bethel Council Chairman Robert Young has announced.

Young urged Bethel citizens and chamber members to send the names of nominees to Bethel Council, Pitt-Greenville Chamber of Commerce, P.O. Box 1022, Bethel, N.C., 27812, before Jan. 25.

The award will be presented at the council's annual meeting scheduled for Feb. 9 at 7 p.m. in the Bethel Elementary School Auditorium.

Young said nominees must meet the following criteria: be involved in civic activities that enhance the quality of life in the Bethel area, have a business involvement that also benefits the community, possess a reputation that would bring no embarrassment to the community and have made a contribution to the community that is outstanding or has continued over a number of years.

Nomination forms may be picked up at the Bethel Pharmacy, Wachovia Bank and Trust, Wynne's Chevrolet, Da-Nite Lunch and M.O. Blount & Sons. For further information contact the Chamber Office at 752-4101.

Parks Board To Meet

Two items of business, both new, are on the agenda for the January meeting of the Greenville Recreation and Parks Commission to be held at 8 p.m. Wednesday at the Administrative Office Building, 2000 Cedar Lane.

The two items are: a report on operation of the Parks Division to be presented by parks superintendent Walter Satsvich, and a recommendation on changes in rules and regulations for operation of River Park North.

Alcohol Center Treats Lawford

RANCHO MIRAGE, Calif. (AP) — Actor Peter Lawford has started treatment for alcoholism at the Eisenhower Medical Center's Betty Ford Center, his manager says.

The manager, Milt Ebbins, refused to elaborate Monday. But a source at the Eisenhower center, who requested anonymity, said last week that a "very sick" Lawford underwent detoxification for alcohol abuse at the medical center before being admitted to the Betty Ford Center "several weeks ago."

The center's spokesman, Cliff Brown, cited federal regulations protecting confidentiality of patients in refusing to comment on Lawford's treatment.

Brown confirmed that

Ayden Board...

(Continued from Page 1)

added, and will be painted and equipped to Ayden's specifications.

The trade would not cost the town any money, Horne noted, since the cost of the two trucks totals about \$35,000 and the truck firm is allowing \$40,000 for the 1980 bucket truck. An additional \$5,000 of equipment will be added to the two bucket and line trucks, however, making up the difference.

The town's mechanic will now go to Burlington, said Russell, to check the condition of the two trucks and examine their maintenance records. If he feels they are satisfactory, Russell added, the Utility Department will ask the commissioners to approve the exchange.

In other business:

•A public hearing was set for Feb. 13 to discuss a proposal to rezone 6.75 acres located behind North Hills from RA-8 residential to M-1 manufacturing. The land is located outside the town's corporate limits and is owned by Chester Stox. The town's planning board has approved his request.

•Commissioner J.J. Brown was appointed as chairman ex-officio of the Community Development Project Area Committee (PAC).

•A resolution approving a pre-valuation study for a retirement plan for Housing Authority employees was passed.

Break-In Investigated

A break-in at 1710 W. Fifth St., reported at 7:30 a.m. Monday, is being investigated by Greenville police. Officer R.L. Gorham said two calculators and some cash were taken from the Ivey Coward Co. building sometime over the weekend.

PCC Classes To Start

The following courses are starting on the Pitt Community College campus this week:

Parenting (the early years), begins Thursday from 7-9:30 p.m. in room 124 Humber Building. Registration is \$10 and the course will last six weeks.

Your Preschool Child: An Early Start To Success, began Monday from 7-9:30 p.m. in room 28 of the White Building. Registration is \$10 and the course will last six weeks.

For further information call 756-3130, extension 225.

Compositions Sought

Sigma Alpha Iota is seeking musical compositions from students, faculty and members of the community for the organization's Composer's Musicale, scheduled for Jan. 23 at 8 p.m. at the A.J. Fletcher Recital Hall.

The organization is interested in all idioms and styles, say members, and composers must provide their own performers. The concert will feature originally composed music. For further information contact Natalie Beacham at 756-6252 or Betsy Larder at 758-6712.

Class Plans Meeting

The 1974 graduating class of J.H. Rose High School will hold a meeting on its upcoming class reunion Wednesday at 8 p.m. at the home of Judy Little Sneed, 903 W. Third St. The meeting is open to all members of the class.

Cash Reported Missing

Officer D.C. Johnson said Greenville police are investigating the theft of \$240 from the home of Patty Broglio at 504 E. Second St. Monday. Johnson said entrance to the house was gained through a front door.

The cash was taken from a dresser drawer.

Students Serve As Pages

Two D.H. Conley students served as pages in the offices of Gov. Jim Hunt during the week of Jan. 3-6. The student pages were Chad Clark of Greenville, son of Mr. and Mrs. Mike Clark, and Kevin Harris of Winterville, son of B.L. Harris.

Club To Install Officers

Greenville Toastmasters Club No. 2595 will install its 1984 officers Wednesday night at Archie's Steak House. Dinner will be at 6 p.m. and the business meeting will start at 7 p.m.

The educational program will feature Paul Topper as toastmaster and Joe Sherwood will present table topics. Prepared speeches are scheduled for Mary Murrell and Steve Johnston. The 1984 officers will be installed by Pat Flanagan, area governor.

For more information about the Toastmasters Communication and Leadership program, call Tom Houston at 756-8171.

Symphony To Perform Thursday

Music of the 18th, 19th and 20th centuries will be featured in the Thursday evening concert of the Charlotte Symphony Orchestra. Cynthia Lawing, pianist, will be the guest soloist in the concert being conducted by Leo Driehuis at 8 p.m. in Wright Auditorium on the East Carolina University campus.

Works on the program will include Mozart's "Symphony No. 35 in D Major," Ravel's "Piano Concerto in G Major," and Rimsky-Korsakov's "Scherzade: Suite Symphonique."

Tickets are \$7.50 for adults, \$3.50 for youths 14 and under and will be available at the door. Holders of season tickets and of single tickets to the cancelled N. C. Symphony Orchestra may use these for admission.

Correction

A headline in Monday's edition on the Bell Arthur Water Corp. story should have indicated that the corporation received a \$289,000 loan rather than a grant from the Farmers Home Administration.

Hutchins' Execution Set For This Coming Friday

By TOM MINEHART
Associated Press Writer
RALEIGH (AP) — The wheels of justice turn at varying speeds for Death Row inmates, and James W. Hutchins now stands as the mostly likely to be executed in North Carolina.

Meanwhile, 32 other Death Row inmates crawl up the appeals ladder toward the gas chamber or injection table, including fiancée-poisoner Velma Barfield, who until Hutchins was the most likely inmate to be executed.

Hutchins, 54, is scheduled to die by lethal injection Friday if the U.S. Supreme Court, which is reviewing his case, approves the sentence. His appeal was rejected by the 4th U.S. Circuit Court of

Appeals on Dec. 29. He would be the first person executed in North Carolina since 1961.

Mrs. Barfield's appeal was rejected by the 4th U.S. Circuit Court of Appeals on Oct. 3. Mrs. Barfield has been on Death Row longer than Hutchins — about five years — but her case has not yet gone before the Supreme Court.

All of the Death Row inmates have been convicted of first-degree murder, said Joan Byers, an assistant state attorney general.

"Any of them could change at any time," she said. "It depends on which judge rules first and how fast things are done."

Hutchins was convicted of killing three law enforcement officers called to in-

vestigate a family dispute at his Rutherford County home. He entered Death Row in September 1979.

Mrs. Barfield, 51, was convicted in Bladen County of putting rat poison in the beer, tea and soup of her fiancé, who died in February 1978. She entered Death Row in December 1978.

The appeals process takes four years or more. After the murderer is sentenced to death, he or she gets an automatic appeal to the state Supreme Court. If the appeal is denied, lawyers ask the U.S. Supreme Court to re-

view the case. If that fails, they ask the court for a rehearing. If that fails, the case moves back to the trial court, where attorneys try to prove that the convict's ori-

ginal lawyers were incompetent.

If this post-conviction relief hearing fails, the state Supreme Court is asked to review the denial. If that fails, the U.S. Supreme Court is asked to review the post-conviction hearing result. If the high court refuses to hear the case or rules against the defendant, the case then goes to a federal district court, to the U.S. Circuit Court of Appeals and finally to the U.S. Supreme Court for the last time.

Larry Darnell Williams, convicted of two counts of murder in Cabarrus and Gaston counties, has taken his death-sentence appeal as far as U.S. District Court, Ms. Byers said.

John William Rook, who

knifed, raped and ran over a nurse in Raleigh, has failed in his attempt to prove his original lawyers were incompetent in Wake County Superior Court. He is asking the state Supreme Court to review the ruling.

Kermit Smith Jr., who kidnapped three cheerleaders and raped and killed one, has failed to get post-conviction relief in Halifax County Superior Court.

Michael Van McDougall, convicted in Mecklenburg County for stabbing a woman

neighbor to death, is awaiting a hearing on post-conviction relief.

George Moore Jr. and his co-defendant, John Wesley Oliver, are awaiting a new sentencing hearing in Robeson County for their death sentences in the slaying of a convenience store owner and customer during a robbery.

Norris Carlton Taylor, Michael Edward Pinch and Douglas Williams have had the U.S. Supreme Court reject their original appeals and requests for a rehearing.

David J. Brown has had the U.S. Supreme Court reject his original appeal.

Francis Marion Anthony and co-defendant Andrew Weddington Craig are at a similar stage.

Freddy Lee Stokes was awarded a new sentencing hearing, but was given the death penalty again and is awaiting the result of his automatic appeal to the state Supreme Court.

The following convicts are also awaiting appeals to the state Supreme Court or the results:

— Anson Avery Maynard
— David Lawson
— Stanley Sanders

— John Vincent Beal
— Eldred Leon Hill
— William Dennis Moose
— Charles David Stanley
— John Thomas Noland
— Arthur Martin Boyd Jr.
— David Earl Huffstetler

The following Death Row inmates have not yet filed for their automatic appeal to the state Supreme Court:

— Willie James Gladden
— Jerome Hamlet Jr.
— Phillip Lee Young
— Michael Ray Reese
— John Sterling Gardner
— Bobby Ray Johnson Jr.
— Phillip Thomas Robbins

Jr.
— Willie Brown
— James Vereen

PUBLIC FLOGGING — Awwal Khan, 32, convicted of assaulting a minor girl, is publicly flogged at Korange Stadium in Karachi (Pakistan) on Saturday. He was removed to the

hospital after fainting from the 30 lashes he received by a bamboo cane. An estimated crowd of 15,000 witnessed the punishment. (AP Laserphoto)

No Rate Increases By Winterville Bd.

WINTERVILLE — Town board members were told Wednesday night that there would be no increase in the electric charges for the month of January. According to Town Clerk Elwood Nobles, the town will absorb a 4 percent increase in rates by the Greenville Utilities Commission without passing it on to customers.

In other business, a bill for Magette Well Co. was approved for the amount of \$7,700 for improvements to the town's No. 1 well, behind the city hall. Nobles reported the amount included sinking the well 40 feet farther, replacing bearings on the shaft, cleaning the screens and installing a new pump assembly.

Another bill was approved for Hendrix-Barnhill for work on sewer lines on Cooper Street. The amount of the job totaled \$1,650. Nobles also said the board approved \$2,000 for spare sewer pump parts.

Public hearings were set for Feb. 13 at 7 p.m. for street improvements for West Cooper from Cross Street to Dead End Street and to hear input for General Revenue Sharing funds made available to the town. Citizens will have this time to make suggestions to the board as to what the fund should be used for.

Nobles also told the board the town will apply for the Community of Excellence award with the assistance of the chamber of commerce. Alderman Leland Tucker was placed in charge of the application.

Mayor E. C. Hines signed an agreement for the town to take over the Baywood Subdivision water lines, which include lines leading to the subdivision and lines in the housing area.

Ashley Dail of the Winterville Rescue squad expressed the squad's appreciation for helping finance the new Winterville Rescue truck. The town contributed \$2,650.

Severance Pay Issue Obstacle

ST. LOUIS (AP) — Saying he was "grateful" the St. Louis Globe-Democrat agreed to continue publication for another week, a publisher who had backed out of a deal to buy the paper said he hoped to "reconcile our differences."

Negotiations had broken down Friday over the refusal by union employees of the paper to relieve the newspaper, owned by the Newhouse family, of financial liability for severance payments.

Witness Gone In Death Case

By JERRY RAYNOR
Reflector Staff Writer
Trial of Highway Patrol

Sgt. Stephen Michael Compton on charges stemming from the deaths of two women in a traffic accident involving his patrol cruiser was voluntarily dismissed Monday by the state when a key witness failed to appear.

Court officials said the voluntary dismissal means the case will be reinstated and a trial rescheduled when the witness is located.

Compton's trial had been scheduled to start Monday afternoon in Pitt County District Court. The dismissal notice was filed by Assistant District Attorney Mary Easley of Brunswick County, a special prosecutor for the trial, when Patricia Brett, described as a key witness for the state, failed to appear in court.

Compton is charged with two counts of death by vehicle in the deaths of two Greenville women, Rosa M. Harrell and Alice G. Long, in an accident on Memorial Drive on Nov. 12. In-

vestigators said the patrol vehicle Compton was operating, allegedly in a chase situation, collided with

the vehicle in which the two women and another woman were riding. Both Compton and the third woman in the second car were injured.

Mrs. Easley, in dismissing the case, said "the state feels that without the key witness there is not enough evidence to conduct the case without jeopardy."

"Timing of a new case will depend on the time the witness is located and arrested," Mrs. Easley added.

An earlier trial date of Dec. 20 had been continued until Monday because of Ms. Brett's absence. On Dec. 21, a subpoena for her appearance Monday was issued and, according to court officials, was served personally to Ms. Brett on Dec. 22, who at that time lived at Azalea Gardens in Greenville. Mrs. Easley said she has information that Ms. Brett has left Pitt County and is believed to be now living in Greensboro.

Judge Phillip Redwine of Raleigh issued an order for Ms. Brett's arrest, with instructions for her to be held in Pitt County jail without bond until her appearance as a witness at the reinstatement of the case and the trial of Compton.

Stock And Market Reports

Hogs
RALEIGH, N.C. (AP) (NCDA) — The trend on the North Carolina hog market today was mostly 50 to 75 cents higher. Kinston 50.00, Clinton, Elizabethtown, Fayetteville, Dunn, Pink Hill, Chadbourn, Ayden, Pine Level, Laurinburg and Benson 49.50, Wilson 50.25, Salisbury 49.00, Rowland 50.00, Spivey's Corner unreported. Sows: all weights 500 pounds up; Wilson 47.00, Fayetteville 45.00, Whiteville unreported, Wallace 46.00, Spivey's Corner 47.50, Rowland 48.00, Durham 42.00.

Poultry
RALEIGH, N.C. (AP) (NCDA) — The North Carolina f.o.b. dock quoted price on broilers for this week's trading was 53.50 cents, based on full truck load lots of ice pack USDA Grade A sized 2 1/2 to 3 pound birds. The final weighted average was 55.87 cents f.o.b. dock or equivalent. The market tone for next week's trading is firm and the live supply is light to mostly moderate for a good demand. Average weights light to heavy. Estimated slaughter of broilers and fryers in North Carolina Tuesday was 1,619,000, compared to 1,579,000 last Tuesday.

Hens
RALEIGH, N.C. (AP) (NCDA) — The North Carolina hen market was 2 cents higher at 38 cents on heavy type. Supplies light. Demand moderate. Prices paid per pound for hens over 7 pounds at farm for Monday and Tuesday slaughter were too few to report.

Grain
RALEIGH, N.C. (AP) (NCDA) — No. 2 yellow shelled corn about steady at mostly 3.61-3.66 in the East and mostly 3.85-3.89 in the Piedmont. No. 1 soybeans lower at mostly 7.58-7.79 in the East and mostly 7.48-7.53 in the Piedmont. Wheat

mostly 3.74-3.84. New crop — corn 2.72-2.90. New crop — soybeans 6.69-7.04. New crop — wheat 3.08-3.33.

NEW YORK (AP) — Stock prices were mostly ahead in heavy trading today, but the Dow Jones industrial average slipped below its record closing high.

Airline, computer and mining issues were among the early gainers, while several retail, telephone and oil-service stocks retreated.

The Dow Jones average of 30 industrials, off 0.42 on Monday, advanced 5.24 in the first half-hour of trading today to 1,291.46 — above its record close of 1,287.20 reached last Nov. 29. But after two hours the measure was down 0.21 to 1,286.01.

The Dow Jones index of 20 transportation stocks, which did reach a record high Monday, also lost a fraction. Gainers held an 8-5 lead over losers on the New York Stock Exchange, but the NYSE's composite index inched down 0.02 to 97.56.

Big Board volume totaled 52.52 million shares at noon EST, against 51.14 million at that hour Monday.

On the NYSE's active list today, Gulf Oil rose 7/8 to 47 1/2, Exxon was up 1/8 to 37 1/2, and General Motors slipped 1/8 to 79 1/2.

At the American Stock Exchange, the market value index rose 0.52 to 227.74.

British Strike Oil In China

PEKING (AP) — Oil is flowing from an exploratory British Petroleum Co. Ltd. well in the Pearl River Basin, the first oil struck since China allowed foreign bidding for offshore oil development in 1982.

The announcement of the oil strike was made today by the China National Offshore Oil Corp.

The next step for British Petroleum will be to determine if its test well can produce oil in commercial quantities.

China is believed to have huge deposits of oil off its shores, although there has been no confirmation of the size of the reserves.

In May 1983, British Petroleum became the first oil company to sign an exploration contract with the Chinese government under competitive bidding procedures announced in February 1982.

China now has 18 offshore exploration contracts with 27 oil companies from nine countries, covering 15,135 square miles of its continental shelf. Twelve of the blocks assigned are in the Pearl River Basin of the South China Sea, near Hong Kong.

Drilling of the first BP well began last Nov. 6 and oil was struck at a depth of 11,388 feet, the official Xinhua news agency reported.

The China Nanhai-Houli Drill Corp. Ltd. was the contractor for the drilling, using China's Bohai No. 2 semi-submersible drilling vessel, Xinhua said.

BP has a 45 percent stake in the consortium backing the test well. Other companies with shares are Broken Hill of Australia, 20 percent, Petrobras International of Brazil, 15 percent, Ranger Oil of Canada, 10 percent, and Petro-Canada Exploration Inc., 10 percent.

Under Chinese regulations, the foreign firms bear the full cost of exploration.

China now produces about 2 million barrels of oil a day, all from oil fields on land, and exports about 10 percent of it.

Premier...

(Continued from Page 1)

and searching out ways to improve the lives of its one billion people.

"We welcome the opportunity to walk at China's side in this endeavor," Reagan said. "Great strides in cooperation already have been made."

And he said that large-scale exchanges of students and technicians between the two countries are "a source for joy today and for optimism for tomorrow."

"Only countries determined to be friends would be so open among themselves," the president said.

As the two spoke, pro-Taiwanese demonstrators could be seen waving banners several hundred yards away. Their chants were barely audible on the White House South Lawn.

Zhao arrived four minutes late at 10:04 a.m., in a black limousine flying the flags of the United States and China.

The two leaders wore topcoats and white scarves against the near-freezing temperatures.

In advance of his trip here, the Chinese premier announced he would not repeat Chinese insistence on an immediate halt of U.S. arms sales to Taiwan, a step apparently intended to avoid

unnecessary public disputes. But the Chinese government also made known that Zhao, maintaining China's independent and non-aligned stance, did not intend to "kowtow" to Reagan administration officials.

U.S. officials emphasized the positive elements of the relationship, citing heightened expectations for increased two-way trade and predicting that recent developments may result in new cooperation agreements by the time Reagan visits China.

They played down expectations of any major accomplishments or breakthroughs during the present meeting, calling it a building stone in a process aimed at placing relations on a solid and realistic basis.

"I would by no means want to say that ... differences have disappeared," a senior U.S. official told reporters at the White House. "But we will let the premier know that differences should not obscure the mutual benefits both nations have from this relationship."

The fact is, he said, "the United States has made good on the president's policy to treat China as a friendly, non-aligned country" and the two nations are in a period "which has restored momentum and a positive tone to our relationship."

U.S. officials, who spoke about the trip on the condition they not be identified by name, played down expectations that a potent strategic alliance can soon be forged between Peking and Washington to balance the military might of the Soviet Union.

However, "I won't deny that in dealing with the Soviet Union that it is helpful for them to see China and the United States cooperating, especially on the problem of Soviet expansionism," the senior U.S. official said.

Running For Judgeship

New Bern attorney J. Randal Hunter announced today that he has filed as a candidate in the May 8 Democratic primary for District Court judge from the 3rd Judicial District, serving Pitt, Carteret, Craven and Pamlico counties.

The judgeship vacancy was created by the recent resignation of Robert D. Wheeler, who had served as District Court judge for approximately 15 years.

Hunter has practiced with the law firm of Beaman, Kellum & Stallings, P.A., for over four years. He is an honor graduate from Davidson College and attended Wake Forest University Law School.

The candidate is a member of the Craven County Bar Association, North Carolina State Bar, North Carolina Academy of Trial Lawyers and the North Carolina Bar Association. He is a member of Centenary United Methodist Church where he serves on the administrative board.

Hunter is married to the former Deborah Poindexter of Winston-Salem.

Hunter said Craven County is presently the only county within the 3rd District which is not represented by either a District or Superior Court judge. Norris Reed Jr., Craven's last judge, retired in 1980.

Shutdown Cost \$1 Million

CARBONDALE, Ill. (AP) — Air Illinois, which plans to resume some flights this weekend, said its voluntary shutdown during a federal probe of its maintenance procedures cost over \$1 million.

Air Illinois President Roger Street told a news conference Monday that the airline would resume service Saturday with flights from Waterloo and Cedar Rapids, Iowa, to Chicago's O'Hare International Airport. But the Federal Aviation Administration declined to say if the agency would recertify the airline by then.

Air Illinois grounded its 51-plane fleet Dec. 15 after the FAA raised questions about possible safety deficiencies. One of the airline's planes crashed Oct. 11, killing all 10 people aboard.

Find Body Of Slain Woman

GOLDSBORO, N.C. (AP) — The nude body of a 61-year-old woman who had frequently opened her home to the needy was found bound and gagged in her house, Goldsboro police say.

Police said they entered the home of Goldie G. Jones through a storm window on Sunday and found the retired civil service employee lying dead on a bed in a front bedroom.

Police Chief C.M. Gilstrap said Miss Jones apparently was killed late Saturday night or early Sunday morning. He said an autopsy was being performed Monday by the state medical examiner's office.

Gilstrap said he didn't know if the woman had been sexually molested. He said the house showed no signs of forcible entry but was ransacked.

The woman was reported missing after failing to pick up a friend for early morning Mass on Sunday. Police said her phone was off the hook, and her car was found early Monday.

Friends and relatives described Miss Jones as "a good giving woman."

Helen Gulick said Miss Jones had always helped people in need, inviting them into her home and giving any help she could.

"Goldie was the best. She was such a good person. I'll miss her," Mrs. Gulick said.

Miss Jones was originally from Ayden and graduated from Ayden High School. Her stepmother, Nina Mae Jones, and a number of brothers and sisters live in Pitt County.

According to her stepbrother, Harold E. Jones of Grimesland, she worked as a civil servant most of her adult life, first in Washington, D.C., and then at Seymour Johnson Air Force Base in Goldsboro. He said he understood that, since her retirement, she had been a volunteer teacher's aide at St. Mary's Catholic School in Goldsboro and also had participated in a volunteer program of the N.C. Department of Corrections.

TUESDAY AFTERNOON, JANUARY 10, 1984

Yates Returns As Mason Pounds ECU

By JIMMY DUPREE
Reflector Sports Writer
FARIFAX, Va. — All America forward Carlos Yates came off the bench — and a "two-game" suspension — to score 18 points and lead George Mason to an 83-66 thrashing of East Carolina University in both teams' opening ECAC-South basketball contest.

Yates connected on 10 out of 11 from the free throw line to lead Mason, while Ricky Wilson added 14 and Rob Rose and Rob Nieberlein had 10 each.

East Carolina set a new school record for consecutive losses with their ninth in 11 outings so far this year.

Freshman Keith Sledge paced the Pirates with 16

points, while Barry Wright chipped in 10. Guards William Grady and Curt Vanderhorst had nine each for the Pirates.

Mason connected on 29 of 49 field goal attempts for 59 percent and 85 percent from the free throw line, while ECU managed 45 percent from the field but just 72 percent from the line.

Yates missed the Patriots' victory over Monmouth Saturday, but a team meeting Monday apparently led to his reinstatement before the end of the two games.

"I suspended him for a team reason and I brought him back for a team reason," Mason Coach Joe Harrington said. "The team came to me and we talked about (the suspension). I thought they were sincere.

But the most important thing is team unity, and I think we have that."

Harrington avoided comment on whether a player without All America credentials and a 23-point per game average would have been reinstated.

"There are others who have tripped their feet on this team before," Harrington said. "I thought I made the right decision when I suspended him, and I think I made the right decision in letting him back early. Carlos came in off the bench and played as he usually does."

Yates' presence was felt immediately after he was inserted in the lineup with 11:48 remaining in the first half, but Pirates were in trouble of-

fensively even before he checked into the game.

The Patriots led by 18 points twice in the opening half. Niehoff led Mason with 13, while Yates and Dillard added nine each. Mason blistered the nets for 54 percent from the field while sinking all 13 free throw attempts, but ECU managed just 26 percent from the floor.

Tony Robinson drove for a layup after a Curt Vanderhorst steal, and Vanderhorst completed a three-point play to cut the lead to one at the 15:11 mark.

Robinson was forced to the bench after he collected his third foul with 13:05 left in the opening half.

The Patriots mounted another offensive, this time

outscored ECU 22-5 over through the 6:08 mark for a 31-13 advantage as Yates started the rally with a three-point play the first time he touched the ball. Yates added a pair of free throws, and Ricky Dillard tipped in four points during the spurt.

ECU scored the next six points to cut the deficit to 12, but Mason pulled away to a 39-23 halftime lead with Niehoff scoring six in the final 3:35.

"Tony gets his third foul and Curt commits two turnovers the first two times he gets the ball at the point," ECU Coach Charlie Harrison said. "I don't mind getting beat, but I know our team can play better than we have."

"I was very disappointed

with the way we came out; we played scared. We didn't attack their press. We've prepared every game for what each team has thrown at us; we're in a position to get it done, we just haven't done it."

A pair of free throws by Yates gave Mason its biggest lead of the night at 58-33 with 10:22 left in the game.

The Pirates managed to cut the margin to 15 with 6:32 remaining, but the damage had already been done by the Patriots' strong front line and outside attack.

Sledge led the Pirates down the stretch, connecting on shots from outside on a pair of shots in the final minute of the game.

"Our kids have got to start being aggressive," Harrison said. "George Mason is a good

basketball team; they pressed us from the start and kept right on pressing to the end."

"You win with aggressive, hard-nosed basketball, and we're just not playing that way right now. I'm an aggressive person, but I'm having to be patient because of the number of young players on this team."

"We're not that far from being decent, but we can't come out and not play aggressively."

The Pirates return to action Saturday at Williamsburg, Va. against ECAC-South rival William & Mary.

Rozier Undecided On USFL Maulers' Terms

TOKYO (AP) — Heisman Trophy winner Mike Rozier said today he hasn't decided whether to play for the Pittsburgh Maulers of the United States Football League and won't make a decision until he returns home next week.

The University of Nebraska running back was evasive when asked about statements made by team officials, who said he had already signed a three-year, multimillion-dollar contract.

"I don't know if it's true or not," Rozier said at a news conference after arriving here for this weekend's Japan Bowl all-star game. "That's press talk."

Officials of the expansion team in the year-old league said Monday that Rozier had signed a "generous" contract, reportedly for \$3 million. If that figure is correct it would make Rozier the second-highest paid player in pro football after the New Jersey Generals' Herschel Walker.

The Maulers quoted Rozier in a news release as saying he was "extremely happy" to join the club, and also as saying that the contract gave him financial security.

"Obviously, there seems to be some confusion," the Maulers said in a statement from Pittsburgh after Rozier's Tokyo news conference.

"We have a signed contract. It was signed on Tuesday, Jan. 3. We are in contact with his representatives."

Asked who had signed the contract, Mauler spokesman Bill Keenist replied: "It was signed by ... I can't say any more."

Asked about the quotes attributed to Rozier on Monday, Keenist replied: "They were legitimate quotes. I can't comment any further."

After the announcement Monday, the team quoted Rozier as saying:

"My contract with Pittsburgh enables me to have financial security, which was very important to me and my representatives when we first began discussing a professional football contract."

"I hope to buy a new house for my parents and then will have my financial advisors make investment recommendations for me," he said.

But after the news conference, Rozier said, "I'll decide when I get home" when a reporter asked him whether he had agreed to play for the Maulers.

Meanwhile, Rozier's close friend Irving Fryar, the All-American receiver from Nebraska, said he doubted reports Rozier had turned pro.

"No, I don't think he signed," Fryar told RKO Radio sports in New York when reached by telephone in Tokyo. "He would have told me he signed. I would know, you know."

The Maulers said they signed Rozier last Tuesday, the day before the USFL draft in which he became their first pick.

Maulers General Manager George Heddeleston said Monday at a news conference, attended by Rozier's agent Mike Trope, that the running back agreed to the contract on Jan. 3, hours after the Orange Bowl ended.

The agreement followed a 16-hour bargaining session involving Heddeleston, Maulers President Paul Marth and Trope. Details were finalized last weekend, Marth said.

Rozier would report to the Maulers' pre-season camp at Melbourne, Fla., on Jan. 22 or 23.

Speaking at the Tokyo news conference, Rozier said, "I'd like to make more money than Herschel. If you look back at our records, I've done a little more." He added that he would be happy to be paid "around his (Walker's) figures."

Saying he wanted to play for a team with "a good offensive line" and one that is "close to home (Camden, N.J.)," Rozier acknowledged that the Maulers qualify in both categories.

However, he said, "Whether I play for the NFL or USFL, it makes no difference to me. I just want to be secure. I want what's good for me and my family."

Rozier is on the roster of the Japan Bowl's West team, but is still recovering from an ankle injury suffered in Nebraska's 31-30 upset loss to the University of Miami in the Orange Bowl on Jan. 2, and said Tuesday that "unless there's a miracle," he doesn't expect to be able to play.

If Rozier had signed Jan. 3, he didn't admit it to inquiring newsmen at the East-West Shrine game Saturday in Palo Alto, Calif.

Heddeleston maintained that Rozier's contract is not as lucrative as the estimated \$4 million to \$5 million that Walker is receiving from the Generals, but Trope disagreed.

"The way it (the Rozier contract) is structured, is the best. Walker's third year with the Generals is an option year and it's not guaranteed."

Star Appears

Mike Rozier, star football player of the Nebraska Cornhuskers, walks through the passenger lounge at Tokyo International Airport Monday afternoon. The Heisman Trophy winner has reportedly signed a

contract with the Pittsburgh Maulers of the USFL but has declined comment. Rozier and other American collegiate players arrived here for the 1984 Japan Bowl which will be played January 14. (AP Laserphoto)

Oklahoma, Tulsa Slip Into AP Poll

NEW YORK (AP) — It was a bad week for North Carolina State, but a good one for the state of Oklahoma in college basketball.

After dropping games to both Maryland and top-ranked North Carolina, the defending national champion Wolfpack,

ranked No. 12 last week, dropped completely out of the Top Twenty on Monday.

Then, a few hours after the rankings were released, they lost to Clemson 63-61 for their third successive loss in the Atlantic Coast Conference.

Virginia, another ACC team,

was the poll's other casualty, dropping from 20th place after losing to Duke 78-72.

The state of Oklahoma, meanwhile, introduced two new teams to the rankings with Oklahoma and Tulsa. Oklahoma, 12-1, broke into the Top Twenty at No. 17 after a week that included a big victory over Syracuse, while the Hurricane, 13-0, defeated three Missouri Valley Conference opponents to replace Virginia at No. 20.

Otherwise, The Associated Press poll represented few surprises, as No. 1 North Carolina and No. 2 Kentucky continued their torrid pace.

A panel of 60 writers and broadcasters gave 39 first-place votes to North Carolina for 1,179 points, while Kentucky received 21 and 1,161. The points system is based on 20 points for each first place vote, 19 for second, etc.

Both the Tar Heels and Wildcats had 10-0 records when the poll was released. Each was a convincing winner over Top 20 schools last week — North Carolina trounced North Carolina State 81-60, while Kentucky thrashed Louisiana State 96-80. Kentucky ran its streak to 11 games with a 76-66 victory Monday night over Alabama.

Meanwhile, there were no changes among the top seven teams. DePaul, Georgetown,

Maryland, UCLA and Maryland kept pace, while undefeated Texas-El Paso moved up three notches to No. 8.

Rounding out the Top 10 are Illinois, which advanced five notches to No. 9, and St. John's, which advanced to No. 10 from 13th a week ago.

Louisiana State and Wake Forest each fell out of the Top 10 to rank at Nos. 11 and 12, respectively. The Deacons had been upset by Georgia Tech 68-58.

Fresno State and Nevada Las Vegas continued their rise in the weekly poll, advancing to 13 and 14, respectively.

Completing the Second Ten are Georgia, No. 15, Oregon State, No. 16, Boston College, No. 18, and Memphis State, No. 19.

AP Rankings

The Top Twenty teams in the Associated Press 1983-84 college basketball poll, with first-place votes in parentheses, total points based on 20-19-18-17-16-15-14-13-12-11-10-9-8-7-6-5-4-3-2-1, record through Sunday and last week's ranking:

Record	Pts	Pvs
1 N. Carolina (39)	10-0	1179
2 Kentucky (21)	10-0	1161
3 DePaul	11-0	1053

8 Texas-El Paso	13-0	768
9 Illinois	11-1	578

10 St. John's	10-1	543	13
11 Louisiana St.	8-2	450	9
12 Wake Forest	10-1	440	8
13 Fresno St.	11-2	376	16
14 Nev. Las Vegas	10-1	369	8
15 Georgia	8-2	364	11
16 Oregon St.	8-2	349	13
17 Oklahoma	12-1	264	
18 Boston College	10-2	213	17
19 Memphis St.	10-3	184	19
20 Tulsa	13-0	114	

21 Houston	12-2	334	
22 Maryland	10-1	311	
23 UCLA	9-1	300	
24 Texas-El Paso	13-0	274	
25 St. John's	10-1	197	
26 Illinois	11-1	185	
27 Fresno State	10-2	129	
28 Nevada Las Vegas	11-1	105	
29 Wake Forest	10-1	75	
30 Oregon State	8-2	74	
31 Oklahoma	12-1	63	
32 Tulsa	13-0	61	
33 Louisiana State	8-2	59	
34 Georgia	9-2	55	
35 Arkansas	11-2	55	
36 Boston College	10-2	42	

Note: By agreement with the National Association of Basketball Coaches of the United States, teams on probation by the NCAA and ineligible for the NCAA Tournament are ineligible for Top 20 and national championship consideration by the UPI Board of Coaches. There are no such teams for the 1983-84 season.

UPI Rankings

NEW YORK (UPI). The United Press International Board of Coaches Top 20 college basketball ratings through Jan. 8, first-place votes and records through Jan. 8 in parentheses:	
1 Kentucky 10-0 (19)	551
2 North Carolina 10-0 (19)	547
3 DePaul 11-0	459
4 Georgetown 12-1	437

Craven Thrashes Pitt

Darryl Parmley pumped in 14 points as Craven Community College pounded Pitt Community College 106-68 in Monday basketball action.

Ed Lowmes and Fernie Hyman contributed 12 points each for Craven, while Albert Brown paced Pitt with 16 points. William Rollins added 15 points. Ernest Hammond had 13 and David Joyner 11 each for Pitt.

Pitt Community College, now 0-2 on the season, hosts Lenoir Community College January 27. Craven improved its record to 6-2 with the victory.

NCAA To Soften TV Restrictions

DALLAS (AP) — NCAA convention delegates were caught by surprise with the announcement that the NCAA will soften a 32-year policy of tight controls of football telecasts and allow schools and conferences to produce their own Saturday night television series.

The announcement was made Monday at the opening session of the annual NCAA convention by Hugh Hindman, chairman of the Division I football television committee. It all will depend on a decision expected in June from the U.S. Supreme Court.

The high court is expected to hear arguments next month on an appeal by the NCAA of a district court decision. The lower court, in a suit filed by Oklahoma and Georgia, found the NCAA in violation of antitrust laws for making compliance with its television plan mandatory.

If the Supreme Court upholds the ruling, the NCAA and the 60-member College Football Association are expected to offer competing television plans to schools and conferences.

"The committee is developing principles to govern a Saturday night package for Division I-A, and Thursday night programming for Division I-AA that would provide each institution or conference the authority to produce its own television series at night," Hindman said.

"This program would be limited to the NCAA district in which the institution or conference is located and would eliminate the more formally structured supplementary series that has been a part of the NCAA plan the past two years."

The lower court ruling struck down the NCAA's authority over television and voided contracts with ABC and CBS totaling more than \$200 million through 1985. After the contracts and the NCAA's exclusive controls were restored pending appeal, a supplementary two-year cable agreement with Turner Broadcasting System for about \$17 million went into effect. TBS has indicated no interest in renewing the contract for next season.

Wellcome Girls Stop Farmville

FARMVILLE — Kiesha Pilgreen scored 17 points to lead the Wellcome girls to a 36-33 victory over Farmville Middle School, while Gary Moore's 18 led Farmville to a 52-46 victory over Wellcome in the boys basketball game Monday.

V. Hardee paced the Farmville girls with 20 points.

Davis and Reed contributed 10 each for Farmville, while Ashley Shepard of Wellcome led all scorers with 24.

Farmville's boys and the Wellcome girls are now 2-0 on the season. Farmville hosts A.G. Cox Thursday, while Wellcome travels to Bethel.

while Clemmie Jenkins added 10. Nicole Brinkley scored 12 for Chicod.

In the boys game, Keyford Langley fired in 14 points for Bethel.

A.G. Cox handed out a 27-9 thrashing Monday against Whitfield in the girls game, but Whitfield's boys rallied to a 34-31 victory in the boys contest in junior high basketball action.

Stephanie Smith led the Cox girls with 12 points.

Smith scored 23 for the Whitfield boys, while Major Best led Cox with 11.

Best led Cox with 11.

Duke's David Henderson (12) goes up for a jump shot over Bucknell's Ed Sigl (40), Eric Hegedus (44) and Matt Romberger (34). Henderson

paced Duke to an 84-67 victory over Bucknell Monday night with 16 points. (AP Laserphoto)

Clemson Topples NCSU

By The Associated Press

Clemson rode the free throw shooting of a freshman in the final seconds to hand North Carolina State its third straight Atlantic Coast Conference defeat, while Duke and Georgia Tech rolled to lopsided basketball victories.

Freshman Horace Grant canned two free throws with 14 seconds left to lift the Tigers to a 63-61 victory over the Wolfpack Monday night. John Salley and Bruce Dalrymple scored 16 points as Georgia Tech whipped South Carolina State 90-65.

In Durham, sophomore guard Johnny Dawkins scored 18 points as Duke rolled past Bucknell 84-67 in the only other game involving an ACC team on Monday.

N.C. State coach Jim Valvano gambled late against Clemson, fouling Grant. But the tactic backfired as Grant hit his free throws and Clemson won its ACC opener.

"Give a lot of credit to the frosh," said Valvano, whose team drops to 10-5. "He hit the two free throws, which was tough to do."

"We made a lot of mistakes and that begins to take its toll. It was a very tough loss the way we lost it," he said.

Clemson Coach Bill Foster said he's getting used to Grant's heroics.

"The pressure doesn't seem to bother Grant," Foster said. "He has played great at home and on the road."

"It's a good start, a real confidence-builder for

us," Foster said.

Clemson, 9-2, trailed by as many as 6 points in the second half, the last time at 55-49 when Lorenzo Charles sank a jumper with 10:55 left. The Tigers battled back to knot the score three times, but did not take the lead until Grant's two free throws.

N.C. State called time out with 11 seconds to play. Clemson, which had only three personal fouls in the second half, used two fouls to force N.C. State to take the ball out of bounds and run the clock down to five seconds before Terry Gannon missed a jumper from the right side as the game ended.

Chris Michael led Clemson in scoring with 15 points and center Murray Jarman added 14.

N.C. State's Ernie Myers led all scorers with 19 while Charles added 16.

Duke coach Mike Krzyzewski says the intensity of his team showed in its win over Virginia on Saturday was missing against Bucknell.

"I didn't think we played nearly as well as we played against Virginia," Krzyzewski said. "Bucknell wasn't awed by anything — us or the crowd. They had a good game plan and they came right at us for 40 minutes. They played with a lot of emotion."

But the Blue Devils placed five players in double figures en route to their 13th victory in 14 games.

David Henderson scored 16 points, 12 of which came at the free throw line. Sophomore forward Mark Alarie added 16 points and Jay Bilas and Danny Meagher each scored 12.

Senior guard Cal Puriefoy led Bucknell with 18 points and Ed Sigl added 14 points.

After a slow start in which Duke trailed 8-1 early, the Blue Devils came alive for a 16-point spurt highlighted by dunks from Dawkins and Alarie. Duke built a 47-31 halftime lead and Bucknell couldn't come closer than 16 points for the remainder of the game.

Georgia Tech coach Bobby Cremins says his team may not be great, but it has learned how to win.

"These kids want to win," Cremins said after his team upped its record to 9-1. "I don't think we're playing great basketball, but these kids are winners ... they do what it takes to win."

The victory over South Carolina State, 3-5, was Tech's first game since their weekend upset of previously undefeated Atlantic Coast Conference rival Wake Forest.

After breaking a 12-12 tie five minutes into the game, Tech broke loose and — except for a momentary scare early in the second half — cruised to victory.

The Bulldogs, which trailed 39-25 at halftime, scored eight straight to open the second half before Tech regained command.

Mark Price scored 15 points and Yvon Joseph added 14 for Tech, which had four players in double figures.

South Carolina State was led by Ralph Miller with 16 points. Franklin Giles added 10 points and pulled down 10 rebounds for the Bulldogs.

Philadelphia Falls 111-73

Knicks Equal NBA Mark

NEW YORK (AP) — For one night, at least, they were the Philadelphia 76ers.

The New York Knicks, who beat Indiana by 37 points two days before, routed the 76ers 111-73 Monday night, Philadelphia's lowest single-game total since the franchise moved from Syracuse in 1963. The 73 points also equalled the lowest point total by any National Basketball Association team this season.

"I couldn't begin to break down all the things we did well," said Knicks forward Bernard King, who led all scorers with 25 points, 19 of them in the first half when New York jumped ahead 57-40. "It seems like we had our hands on the ball every time they made a pass and we limited them to one shot each time down the floor. They never had a chance to get going."

Asked what the 76ers would do to get back to championship form, Coach Billy Cunningham said, "We're going to practice our behinds off."

In the only other NBA game Monday night, New Jersey edged Washington 107-103.

"This was a continuation of the Indiana game," said Knicks Coach Hubie Brown, referring to the 140-103 victory over the Pacers Saturday night. "It's nice to put together back-to-back great wins, especially here in front of 19,500 people."

New York outrebounded the 76ers 50-35, stole the ball 14 times, blocked six shots and held Philadelphia to 35.9 percent shooting from the field.

"They beat us in every category," Cunningham said. "We just didn't play well. Right about now, I'd say we're at the lowest point of the season."

The 76ers had lower point totals while the franchise was in Syracuse, but their lowest single-game output since becoming the Philadelphia 76ers in the 1963-64 season was 75 on three occasions, the last time in 1981.

The 76ers needed 13 points in the last 4½ minutes of the game to finish with 17 in the fourth quarter and 33 in the second half. That flurry kept them from suffering the lowest point total in the NBA this season, although they have to share that distinction with Washington, which lost to Chicago 87-73 on Saturday night.

"The last quarter was a total waste," Cunningham said.

The Sixers, whose 101-89 loss to Denver on Dec. 29 was their worst defeat and their previous lowest-scoring game of the season, played without Julius Erving, who missed his third straight game with an arm injury, and Clint Richardson, who was home with his wife while she gave birth earlier Monday.

Philadelphia jumped ahead 13-5 before two straight baskets by Ray Williams triggered a 12-1 Knick streak that gave them a 17-14 advantage. The 76ers never led again, although they managed two ties.

King scored six of his 13 second-quarter points during a 10-0 run that gave New York a 40-27 lead and it went on to lead by as many as 19 points before the runaway second half.

Moses Malone scored 21 points and Andrew Toney 13 to lead Philadelphia, while Darrell Walker added 19 for New York. Marvin Webster had eight points, 11 rebounds and four blocked shots for the Knicks. Nets 107, Bulls 103.

At East Rutherford, N.J.,

Darryl Dawkins and Albert King scored 29 points apiece and combined for 23 rebounds as New Jersey outlasted Washington.

The Nets led by as many as 20 points in the third period, but the Bullets cut the deficit to nine entering the final quarter.

Then Jeff Ruland scored nine of his 21 points in the fourth period to pull Washington within 102-101 in the final minute. But with 40 seconds left, Ruland fouled King and was whistled for a technical foul for protesting the call.

King, who had 12 rebounds, sank the two free throws and the technical for a four-point lead, and Dawkins' two free throws with eight seconds to go offset a layup by Joe Kopicki.

Aparicio, Killebrew Top Hall Candidates

NEW YORK (AP) — Luis Aparicio, who set the standard for modern-day shortstops, and slugger Harmon Killebrew were among the leading candidates for addition to baseball's Hall of Fame this week.

The newest Hall of Famers will be introduced at a news conference Wednesday morning.

Balloting for the Hall was done by 10-year members of the Baseball Writers' Association of America, who could vote for as many as 10 former players. In order to be eligible, a player must have been retired for five years, and, to be elected, he must be named on at least 75 percent of the ballots.

Formal inductions will be held Aug. 12 at the Hall of Fame in Cooperstown, N.Y.

The 49-year-old Aparicio, a native of Venezuela, not only brought the art of fielding his position into a new age, but he also was a potent offensive weapon during his 18 major league seasons that ended in 1974.

He stole 506 bases during his career and had a lifetime batting average of .262. He played each of his 2,581 major league games at shortstop and, even as his career came to a close, never played in fewer than 110 games in a season.

Aparicio began his major league career in 1956 with the Chicago White Sox, with whom he played for seven years. He played five years with Baltimore, returned to the White Sox for three more seasons, and finished his

career with the Boston Red Sox.

"In 1960, with only four years' service in the major leagues, 'Sports Illustrated' called Aparicio 'the best shortstop in baseball.' And, after winning MVP in the 1962 All-Star Game, Cincinnati Reds shortstop Dave Concepcion said he had tried to model his career after that of Aparicio."

Killebrew, 47, ended his 22 years in the major leagues with 573 home runs. He began his career in 1954 with the Washington Senators and accompanied them in their move to Minnesota. He played his final season, 1975, with the Kansas City Royals.

Although he hit only 256 in his career, Killebrew was one of the game's most prodigious home run hitters, once prompting former Baltimore Manager Paul Richards to say: "The homers he has hit against us would be homers in any park, including Yellowstone."

Other leading candidates included pitchers Hoyt Wilhelm and Don Drysdale.

Wilhelm pitched until the age of 49, and, using a fluttering knuckleball amassed 227 career saves. In his 21 years with 10 different teams, Wilhelm set major league records with 124 victories in relief and 1,070 games.

Drysdale, who pitched for 14 years for the Brooklyn and Los Angeles Dodgers, finished with 2,486 career strikeouts and a lifetime record of 209-166.

Pitcher Juan Marichal and third baseman Brooks Robinson were inducted into the Hall last year.

Bruce Dalrymple had 16 points each as the Georgia Tech Yellow Jackets rolled past South Carolina State 90-65; John Harris' 23 points led the University of New Orleans past Georgia State 72-58, and Joe Jakubick scored 31 points as Akron rallied for an 84-63 victory over Maryland-Eastern Shore.

Keith Gray scored 21 points and added 10 assists to lead the University of Detroit to a 74-60 victory over Butler; John Newman scored 26 points and grabbed seven rebounds to lead Richmond to a 61-58 victory over VMI.

Others

In other action, Marcus Reese tossed in six free throws in the last minute to give East Tennessee State an 81-76 victory over Western Carolina; John Salley and

Theismann, Plunkett Travel Same Path

By WILL GRIMSLEY
AP Special Correspondent

Joe Theismann and Jim Plunkett are members of football's class of '70 — a pair of quarterbacks widely different in personalities and style who followed a common, frustration-packed path to the Super Bowl.

Could either have imagined 13 years ago that they would be matched when the Washington Redskins defend their championship against the Los Angeles Raiders in the sport's premier spectacle Jan. 22 at Tampa, Fla.?

It almost didn't happen. Each has suffered disappointment and punctured pride. Each hit the depths, watched his skills grow rusty on the bench and came close to quitting in despair. But each refused to give up.

Thus Super Bowl XVIII becomes a personal duel between the game's most celebrated "Comeback Kids." Theismann's first disap-

pointment came when he failed to win the Heisman Trophy in 1970. "As a kid, I had two ambitions," said the onetime star of Notre Dame's Fighting Irish. "One was to win the Heisman, the other to play football for the New York Giants."

He realized neither.

The 1970 Heisman Trophy went to Jim Plunkett of Stanford.

Theismann and Notre Dame were so eager that he win the Heisman that Roger Valdiserri, the school's public relations director, got him to change pronunciation of his name from "Theesman" to "Thighsman" to rhyme with Heisman.

Not only did Theismann fail to win the Heisman but, although chosen over Plunkett on The AP All-America, he was shunned by the Giants in the pro draft and received only passing interest from one team — the Philadelphia Eagles.

"I had dinner with one of the Eagles guys," Joe said. "First thing the man asked was how tall I was. I said, 'Six feet.' He said, 'You look 5-10.' How much do you weigh?' he asked. 'One seventy-five.' I said, 'You look 165,' the Eagle rep said. That ended the interview.

"I grew up in New Brunswick, N. J. My dad was a red hot Giants fan. I spent my youth watching the Giants and Jets."

Deemed too small and fragile for the pros, Theismann wasn't picked until the fourth round by Miami. Embittered, he chose to play with the Toronto Argonauts in the Canadian League.

Meanwhile, Plunkett, who led Stanford to a victory over Ohio State in the Rose Bowl, was No. 1 in the NFL draft, elected by New England.

Plunkett was traded to the

San Francisco 49ers in 1976, but his fortunes suddenly went sour. Critics said he was a poor passer, threw a wobbly ball and had no poise.

The 49ers dumped him. He put out feelers to other pro clubs. The phone never rang. Finally, he was picked by Al Davis, maverick owner of the Raiders, who was assembling a rag-tag bunch of outcasts.

"We were taking people nobody wanted," said Coach Tom Flores. "Why not Plunkett?"

Plunkett was a stand-in for veteran Ken Stabler. When Stabler was traded to Houston, the Raiders brought in hotshot Don Pastorini. Plunkett didn't touch a football in 1978.

"I was really down," he recalled later. "A couple of times I said to myself, 'The hell with it, I'll try something else.'"

In the fifth game of the 1980 season, Pastorini broke his leg. The Raiders had to give Plunkett the ball. All he did was rally the Raiders to a nine victories in 11 starts and a sweep of the playoffs and Super Bowl.

At the start of the 1983 season, Plunkett returned to the bench, his job taken over by the young passing whiz from Brigham Young, Marc Wilson. When Wilson hurt his arm, Plunkett was recycled again. The result: the AFC Championship.

After three years in the Canadian League, Theismann was picked up by the Redskins in 1974. For four years he had to play in the shadow of Billy Kilmer and Sonny Jurgensen, reduced at times to the role of kick returner.

"It was very depressing," he said. "I was copying mannerisms of Joe Namath, Roger

Staubach and Johnny Unitas to try to get attention."

Joe didn't become a permanent starter until 1978. Then, in 1981, his job became shaky when he started 0-5. A head-to-head chat with Coach Joe Gibbs put him back on a track that has helped the Redskins produce victories in 31 of their last 34 games.

Both quarterbacks are sharp tacticians, mobile and strong-armed. Theismann is the extrovert — poised, cocky, outgoing, voluble. Plunkett is quiet, introverted, awkward-looking at times but a magician at completing passes out of his ears.

Redskins Prepare For Victory In Super Bowl

WASHINGTON (AP) — The Washington Redskins were happy just to be playing in the Super Bowl a year ago. Now, nothing short of a victory over the Los Angeles Raiders will be acceptable to the defending champions.

"Last year everybody was excited about going," linebacker Rich Milot said Monday. "This time, if we don't win it's almost as if the season was a failure."

Coach Joe Gibbs calls it the monster — the monster of success.

"Any team that has been winning is expected to win. So when you do win, it's a relief," Gibbs explained. "It's like you have avoided losing. That's what I mean in football when I say you build your own monster."

The Washington monster has grown to outlandish proportions. Since losing the first five games of the 1981 season, Gibbs' first as head coach, the Redskins have won 35 of their last 41 games.

A National Football League best 16-2 record includes this season's longest winning streak, 11 games and count-

"A nice 12-game winning streak to take into the off-season would be something to think about," said Milot, as he cleaned out his locker in preparation for next week's trip to Tampa, Fla. There, the Redskins will try to join Green Bay, Miami and Pittsburgh as back-to-back winners of pro football's ultimate prize.

Washington, which captured the NFC championship on Sunday with a 24-21 victory over San Francisco, has been installed as a three-point favorite against the AFC champion Raiders in Super Bowl XVIII on Jan. 22. The Raiders, 14-4, also advanced Sunday, beating the upstart Seattle Seahawks 30-14.

At the very least, the Redskins, who beat the Miami Dolphins in Super Bowl XVII, should be rested because Gibbs has given them four days off.

"We will bring them back Friday. At this time of year the players need to get away from football for awhile and recharge their batteries," Gibbs said. "It's a long, long season and you get tired. It is hard to keep playing at the same level through four pre-

season games, 16 weeks of the regular season and the playoffs."

With an extra week to prepare for this year's Super Bowl, Gibbs is planning on two days of practice before leaving Monday for Tampa. And those sessions, Gibbs hints strongly, will offer less in the way of fanfare than a year ago.

"We were lucky last year because we just sort of fell into everything. I still want everyone to enjoy themselves this year but there is a line in there where you have to have your privacy to practice and concentrate."

Redskin Park was nearly deserted Monday with the exception of those players checking an assortment of bumps and bruises.

The only player questionable for the Super Bowl remains kick returner Mike Nelms. Eligible to return from the injured reserve list after suffering a strained right knee four weeks ago, Nelms has described himself as fit.

"We'll wait until the last possible moment to decide," said Gibbs.

HAPPY TIMES — Entertainer Don Knotts gets a congratulatory kiss from actress Joyce DeWitt during a reception Monday evening in Beverly Hills celebrating his 35 years in show business. Knotts co-stars in the television series "Three's Company" as the landlord, Mr. Furley. (AP Laserphoto)

Hotline Swamped After ABC Movie On Incest

By The Associated Press
Hotlines around the nation were busy after ABC showed a movie about a 13-year-old victim of incest. Some callers were children who dialed and quickly hung up, others were adults who wanted to report suspected abusers or to say they were once victims themselves.

A medical consultant to the movie "Something About Amelia" meanwhile conceded that all endings aren't as happy as the film's. But he said it was "credible" and "accurate," and that its goal was to encourage children to seek help.

Children called in but then quickly hung up on the Bridge Family Center in Atlanta, said Aleta Ellin.

"I wonder if they're just scared to talk," she said, adding that most callers were young adults who spoke in general terms.

"Nobody's being that specific," she said, and many of the callers said they were talking to someone about incest for the first time.

"Something About Amelia" was about a man who forces an incestuous relationship on his 13-year-old daughter Amelia without his wife's knowledge. The movie followed the family from their shock and shame following Amelia's disclosure of the relationship through their entry into counseling and the father's eventual acceptance of blame.

The movie featured Ted Danson as the father, Glenn Close as his wife and Raxana Zal as Amelia.

The child-abuse hotline of the Illinois Department of Children and Family Services in Springfield, Ill., was deluged with calls during the broadcast, supervisor Mark Hubbard said.

"Between 9 p.m. and 11:30 p.m. we had 203 incoming calls," Hubbard said. "On a normal weeknight during those hours we usually get 50 to 60 phone calls." Hubbard said that operators were unable to answer all the calls and went to a "callback" system.

In Dallas, caseworkers planned to begin investigating reported cases immediately.

"We have received five calls in the past hour since the program went off — incest referrals because of

Sly Stone In Rehabilitation

FORT MYERS, Fla. (AP) — A judge has ordered rock singer Sly Stone to complete a drug rehabilitation program and pay a \$2,500 fine after he pleaded no contest to a charge of possessing cocaine.

Lee County Circuit Judge Thomas Reese put the singer on three years' probation Monday and suspended a six-month jail sentence.

Stone, 39, also was put on six months' probation for a misdemeanor charge of possession of drug paraphernalia, to which he also pleaded no contest. The sentences will be served simultaneously.

Stone was arrested June 22 after being found unconscious at a Fort Myers hotel following a concert. He told the judge he could raise money to pay the fine within a few days if he could perform.

Larry Mainieri, case manager for Treatment Alternatives to Street Crime, said the drug rehabilitation program requires a minimum six-month stay at the Lee Mental Health Center Inc.

By TOM JORY
Associated Press Writer
NEW YORK (AP) — Jane Goodall may know more about chimpanzees than any other human being, and film shot to document her research over two decades in the mountains of Tanzania is priceless.

Those elements — the dedicated scientist's knowledge and insight and a talented photographer's fascinating footage — are more than enough to make "Among the Wild Chimpanzees" Wednesday night a superior and thoroughly entertaining hour of television.

But Alexander Scourby's narration is that, and no more, and Miss Goodall herself lends too little emotion to some very dramatic film, though it is, indeed, interesting to know that she considers this "one of the proudest moments of my whole life," or that "among the darkest days of my life."

That weakness undoubtedly is the result of a script written and delivered years after the film was shot, and

it's an inconsequential drawback at that. Watch "Among the Wild Chimpanzees," for the warming scene of a baby learning to walk, or for the harrowing look into the eyes of an apparently deranged mother who kills others' offspring.

It's the premiere program in the ninth season of "National Geographic Specials" on public TV. The schedule for this year includes "Love Those Trains" (Feb. 8), "Return to Everest" (March 7) and "Flight of the Whooping Crane" (April 4).

The National Geographic Society has been producing the series for television since the mid-1960s, first on CBS, then on ABC, and "Among the Wild Chimpanzees" is not the first show about Miss Goodall's research.

"Miss Goodall and the Wild Chimpanzees" was broadcast Dec. 22, 1965, when the series was on CBS. She appeared in another "Geographic Special," "Search for the Great Apes," Jan. 13, 1976.

The Gulf Oil Corp. has underwritten the entire public-TV run of the series.

Miss Goodall set up camp in the Gombe Stream Game Reserve, now national park, July 14, 1960. She was in her mid-20s.

Raised in Bournemouth on the south coast of England, Miss Goodall recalls a lifelong interest in wildlife. "I think I first dreamed of going to Africa," she said, "after reading 'Doctor Doolittle' and 'Tarzan' when I was about 8."

She was not much older when she visited Kenya for the first time, and on that occasion spoke with Dr. Louis Leakey, the noted anthropologist. ("Dr. Leakey and the Dawn of Man" and "The Legacy of L.S.D. Leakey," "National Geographic Specials," Nov. 5, 1966, and Jan. 9, 1978).

BODY AND SOUL — Lynda Carter displays the headdress she will wear during part of her upcoming CBS-TV special entitled (aptly) "Lynda Carter: Body & Soul". The lavish musical special, slated for March, will include more than \$2.5 million in costumes, jewels and computer technology, and will trace Carter's rise to stardom. (AP Laserphoto)

Leakey, she said, arranged her first grant to study at Gombe and recommended to the National Geographic Society that Hugo van Lawick, the wildlife photographer, be sent to the remote region to help Miss Goodall with her work. Van Lawick arrived in 1962, and the two were married in '64. They have since divorced.

Miss Goodall's research has resulted in a number of important discoveries about the creature considered man's closest living relative: that chimpanzees make and use tools to obtain food, that the animals can be aggressive and sometimes fight with one another, that the animals are capable of can-

Similarity To His Early Life

TEL AVIV, Israel (AP) — Actor Elliott Gould sees striking similarities between the character he plays in "Over the Brooklyn Bridge" and his own struggles as a Jewish boy growing up in a Jewish neighborhood.

The 45-year-old Gould, who grew up in the Bensonhurst section of Brooklyn, N.Y., where the picture was made, arrived in Israel on Monday for the movie's world premiere.

He stars as Albie, a struggling Jewish grocery store manager who falls in love with a gentile girl.

"It takes a long time to grow up and understand order, tradition and ritual," the actor told reporters in his Tel Aviv hotel suite, reflecting on his own years of youthful rebellion. "As Albie says in the picture, 'I have to make my own life.'"

The picture co-stars Sid Ceaser, who plays Albie's religious uncle.

nibalism and also frequently hunt young baboons and monkeys for meat.

All of these discoveries, some of which startled the scientific community, are recorded on film that is part of "Among the Wild Chimpanzees."

Miss Goodall's "proudest moment," she says, came after 18 months at Gombe, when the normally shy animals allowed her to approach them. Before then, she had kept her distance, always sitting in the same place, wearing the same clothes.

"I felt part of the ... world around me," she says, "absolutely close, completely at peace."

She gave the animals names, and over the years followed their lives through three generations.

Her "darkest day," she says, was in 1966, when a

polio epidemic struck the chimpanzee community. Several of the animals familiar to her were crippled and many died.

Miss Goodall continues her research at Gombe, although she now has 10 Tanzanian assistants to help in the

work. She is a professor in zoology at the University of Dar es Salaam, 900 miles from Gombe, though she visits the site every two months or so.

Service Stations Cutting Back; 'Service' Dwindles

By TAMMY JOYNER
Charlotte Observer

CHARLOTTE (AP) — On a recent Sunday afternoon, a Charlotte motorist with a sticky throttle and fading brakes searched frantically for help but found service station after service station either out of business or closed for the day.

Finally she found Ted Bost Sr. His Pecan Avenue station was closed, too, but Bost agreed to drop his bookkeeping and repair her car.

"It didn't used to be like this," Bost remembers the harried motorist saying about the number of closed stations she encountered.

In the past 10 years, the number of service stations nationwide have declined from 230,000 in the early 1970s to about 150,000 currently, according to AAA-Carolina Motor Club figures.

Ten stations have folded in Mecklenburg County in the last six months, victims of too little business or excessive rent charged by oil companies, says Ted Bost Jr., president of the Charlotte chapter of the N.C. Service Station Association.

The stations, the Bosts say, are being replaced by oil company-owned convenience stores that offer food and drink - and in some cases lower gas rates - in place of automotive services such as fan belt changes and transmission work.

Even stations such as the Bosts' that remain in business are feeling the effects, and many have cut back their operations.

"The company-operated stores, the 7-Elevens, the

Gas and Gos, are opened so there's no way to warrant us staying open (on Sundays)," says Bost Sr. "But they (convenience stores) have nobody to fix the cars either."

Oil company competition in the retail market is contributing to lower gasoline prices, which also is hurting profits at independent stations, some operators say.

Last month, the Carolina Motor Club's holiday gas price survey showed the lowest figures in three years. The average gas price for all grades of gasoline in the Carolinas is \$1.23 a gallon. That is almost seven cents a gallon cheaper than last December and 12.8 cents cheaper than December 1981.

While customers reap savings and oil companies gain sales because of the lower prices.

"The dealer is the captive customer," says Vic Rasheed, executive director of Service Station Dealers of America, a Washington based association that represents 60,000 stations nationwide. "He can't buy the gas anywhere else - he has to buy from the oil company."

And, typically, the independent garage owner needs to charge a higher retail price than the oil company because of a single station's smaller volume of sales.

Rasheed said dealers also have to contend with rents charged by oil companies. The average dealer today pays about \$2,000 a month in rent, up from the roughly \$500 a month charge eight years ago, he said.

For example, the Bosts closed their company-owned station - one of two stations they owned - two years ago because Midstate Oil Co. of Lexington, a subsidiary of Sun Oil Co., wanted to double the rent from \$800 to \$1,600. They now operate an independent station but still sell Sun Oil's Sunoco products.

To offset the rent and lower profits from gasoline retailing, dealers increasingly are emphasizing their auto services.

Oil companies seem less interested in full-service stations. Rasheed said Mobile Oil Corp. told its dealers it plans to rebuild 12,000 stations into gasoline only and convenience stores, eliminating service bays.

"What it's coming down to is how much further can we go with self-service and gas only," Rasheed said. "I think (oil companies) realize the public wants full service operations that offer service during emergencies."

He says Shell Oil Co. is marketing an auto-care system that has certified mechanics and guarantees its mechanical work.

"It's paid off for Shell," Rasheed said.

Oil industry analyst Dan Lundberg said "oil companies have been going hammer and tong on productivity. In the oil industry that means getting more volume for each unit of investment."

Radnor, Pa.-based Sun Oil insists it is careful to protect the interests of its dealers.

"It simply makes no economic sense to undercut your dealer," says Sun spokesman David Hackney. "We don't compete with our own dealer. We will compete with other dealers though."

Sun uses an "economic value" system to determine

what amount of rent to charge. "In many cases, the value of property was quite high," Hackney said. "We dispute the contention that dealers are put out of business because of excessive rent."

But convenience-store firms that have installed gasoline pumps in the past decade show no signs of changing.

"We don't have the overhead that gas stations have and we already have the employee - the same person that serves up Slurpees can also monitor the gasoline pumps," says Doug Reed, spokesman for Dallas-based Southland Corp., which owns 7-Eleven stores.

Reed said gasoline is "another avenue which we can use to overcome the high-priced image that convenience stores have been saddled with over the years. It's good for the business because it brings in new customers."

With all the competition, independent stations can't survive, says Ted Bost.

"Without legislative relief, we probably don't have a future," he said.

Legislation that may be introduced this month in Congress would prevent oil companies from setting unreasonable rents on service stations.

The bill, backed by the Service Station Dealers of America and the National Oil Jobbers Conference, is in the Fossil and Synthetic Fuel subcommittee of the House Committee on Commerce and Energy.

Ted Bost Sr. said he expects most major oil companies to fight the bill, "and of course they are going to have more lobbying and money than we will have."

No Cigarette Ban By Health Chief

MADISON, Wis. (AP) — While agreeing that tobacco is a "vile and disgusting weed," the state health secretary has refused to stop the distribution of free cigarettes to mental patients.

"Persons of even temperament and otherwise impeccable lifestyle become frustrated, anxious and otherwise impossible to live with when they try to break their tobacco habits," Linda Reivitz said Monday.

Mental patients are even more "under great stress, and most often the least prepared to deal with a tobacco addiction problem," she said.

Miss Reivitz, secretary of the Department of Health and Social Services, made the remarks in a letter to state Sen. Fred Risser of Madison, who had demanded the state stop giving cigarettes to patients at the Mendota Mental Health Institute.

The secretary said she considers smoking "unwholesome, unsanitary, unhealthy and unnecessary," and added that she began crusading against smoking at age 7 "when I used to soak my mother's cigarettes in dishwater ... pack upon pack."

Although she wouldn't cut off the cigarettes, she told Risser she would consider providing fruit or gum as an alternative, assuming it is "dietically and clinically feasible."

The senator had questioned Jan. 6 the rationale of distributing cigarettes to patients at taxpayer expense, particularly by the state health department.

He said it is unfair to give cigarettes to smokers while non-smokers received nothing "of comparable value."

Liquor Vote By Sylva Residents

SYLVA, N.C. (AP) — Sylva residents will go to the polls in late March to decide whether this small Jackson County town will continue to allow package beer and wine sales.

The Jackson County Board of Elections on Monday set Tuesday, March 27, as the date for the election.

Opponents of the sale of beer had to get 251 signatures on a petition to call for the referendum.

FOCUS

Fiery Patriot

Ethan Allen, Revolutionary War hero and leader of the "Green Mountain Boys," was born on this date in 1738. The Green Mountain Boys were actually formed well before the Revolution. In 1764, the British claimed that part of New Hampshire belonged to New York. Allen formed the "Boys" to fight New Yorkers who tried to settle there. Later Allen and Benedict Arnold captured Fort Ticonderoga — one of the first important victories of the Revolutionary War.

DO YOU KNOW — TRUE OR FALSE: New Hampshire was one of the original 13 states.

MONDAY'S ANSWER — Harry Truman authorized the creation of the NSA.

Answer to yesterday's puzzle.

CRYPTOQUIP 1-10

HCKK FX CAFDQHNHFWY VNFKAH NF

XQK HCAYC: "FDNF'H FDC HVWKWF!"

Yesterday's Cryptiquip — GOING FROM FIRST BASE TO HOME HAS BEEN BABE RUTH'S ROUTE.

Today's Cryptiquip clue: F equals T.

The Cryptiquip is a simple substitution cipher in which each letter used stands for another. If you think that X equals O, it will equal O throughout the puzzle. Single letters, short words, and words using an apostrophe can give you clues to locating vowels. Solution is accomplished by trial and error.

Hopeful News in Medicine

One of the most unpleasant complications of diabetes is known as diabetic neuropathy. This is a nerve problem that usually affects comfortable walking. The exact reason why diabetic neuropathy occurs in some diabetics and not in others is not completely known. Yet it has been suspected that the high sugar levels in the blood result in the accumulation of a chemical known as sorbitol and fructose. In some strange way the buildup of sorbitol and fructose may be responsible for the involvement of the nerves.

A series of recent reports showed that a substance, sorbinil, can improve the function of the nerves in some diabetics. In two recent studies, this drug was given to groups of diabetic patients. In both cases, the patients' symptoms were significantly relieved after only a few days of treatment.

The evidence shows that sorbinil is not very toxic. It could have an important impact on the lives of some diabetics in the future.

Ultrasonic vibrations, commonly known as ultrasound, are being used in almost every field of medicine to insure the proper diagnosis of medical and surgical conditions. This technique allows the physician to safely examine areas of the body and parts of the organs without surgery.

Now ultrasound is being used extensively and with increasing success to better understand the reasons for infertility in women. With ultrasound the exact time of ovulation can be determined. Doctors are using this knowledge to investigate ways to increase the likelihood of pregnancy.

Women who are inseminated artificially, those who use hormone therapy, and even those who try in vitro

YOUR DAILY Horoscope

from the Carroll Righter Institute

GENERAL TENDENCIES: Although the early morning can bring some frustrations, you will later find that you are under excellent influences for new courses of action. Be alert to new opportunities.

ARIES (Mar. 21 to Apr. 19) Steer clear of a bigwig in the morning who can deter your progress. Try to see as many good friends as you possibly can.

TAURUS (Apr. 20 to May 20) Morning finds it rough sledding with a new venture but later all works out well. Come to a better understanding with a wise partner.

GEMINI (May 21 to June 21) In the morning, a friend can be disappointing but later you can gain your aims. Be with good friends in the evening. Spend money wisely.

MOON CHILDREN (June 22 to Jul. 21) Do nothing in the morning to spoil your present position. Contact higher-ups and gain the support you need for your finest ventures.

LEO (Jul. 22 to Aug. 21) Make sure you keep promises you have made in the morning. Make new contacts who can be of assistance to you.

VIRGO (Aug. 22 to Sept. 22) Get that account paid up early on which you have been procrastinating. Overlook weakness and concentrate on your mate's strong points.

LIBRA (Sept. 23 to Oct. 22) Renew worthwhile agreements with partners. A wordy matter could be confusing early. Be dynamic.

SCORPIO (Oct. 23 to Nov. 21) Morning finds you feeling lackadaisical, but later become very energetic and accomplish a good deal. Take it easy tonight.

SAGITTARIUS (Nov. 22 to Dec. 21) The morning could be rather dull, but later you can have a very enjoyable time at whatever interests you most. Your creativity is high.

CAPRICORN (Dec. 22 to Jan. 20) Morning finds a home tie giving you trouble but later family affairs can be handled very nicely. Be very alert at driving.

AQUARIUS (Jan. 21 to Feb. 19) A delay in communicating is only temporary and later everything works out as you want it to. Call on friends.

PISCES (Feb. 20 to Mar. 20) Monetary matters should be uppermost on your mind today, so handle them with finesse. Decide on property improvements.

IF YOUR CHILD IS BORN TODAY ... he or she will someone who may find it difficult to concentrate early in life but once the interest is aroused, will quickly make progress and even get ahead of others. Your progeny could do very well in any intellectual profession.

"The Stars impel; they do not compel." What you make of your life is largely up to you!

Yet it has been suspected that the high sugar levels in the blood result in the accumulation of a chemical known as sorbitol and fructose. In some strange way the buildup of sorbitol and fructose may be responsible for the involvement of the nerves.

A series of recent reports showed that a substance, sorbinil, can improve the function of the nerves in some diabetics. In two recent studies, this drug was given to groups of diabetic patients. In both cases, the patients' symptoms were significantly relieved after only a few days of treatment.

The evidence shows that sorbinil is not very toxic. It could have an important impact on the lives of some diabetics in the future.

Ultrasonic vibrations, commonly known as ultrasound, are being used in almost every field of medicine to insure the proper diagnosis of medical and surgical conditions. This technique allows the physician to safely examine areas of the body and parts of the organs without surgery.

Now ultrasound is being used extensively and with increasing success to better understand the reasons for infertility in women. With ultrasound the exact time of ovulation can be determined. Doctors are using this knowledge to investigate ways to increase the likelihood of pregnancy.

Women who are inseminated artificially, those who use hormone therapy, and even those who try in vitro

Hopeful News in Medicine

One of the most unpleasant complications of diabetes is known as diabetic neuropathy. This is a nerve problem that usually affects comfortable walking. The exact reason why diabetic neuropathy occurs in some diabetics and not in others is not completely known. Yet it has been suspected that the high sugar levels in the blood result in the accumulation of a chemical known as sorbitol and fructose. In some strange way the buildup of sorbitol and fructose may be responsible for the involvement of the nerves.

PUBLIC NOTICES

IN THE GENERAL COURT OF JUSTICE SUPERIOR COURT DIVISION COUNTY OF PITT

IN THE MATTER OF THE ESTATE OF LARRY W. MOORE, DECEASED

NOTICE TO CREDITORS

Having qualified as Executor of the Estate of LARRY W. MOORE, late of Pitt County, North Carolina, this is to notify all persons having claims against the Estate of LARRY W. MOORE to present them to either of the undersigned Executors, or their attorneys, on or before July 22, 1984, for this notice will be placed in bar of their recovery. All persons indebted to said estate please make immediate payment.

This 14th day of December, 1983, Merle Reade Moore, Executor of the Estate of LARRY W. MOORE, deceased, is hereby notified to appear in person or by attorney at the undersigned's office, 111 West Fifth Street, Greenville, North Carolina, for the purpose of the following:

NOTICE

Pursuant to the general statutes of North Carolina, Section 143-129, sealed proposals will be received by Pitt County until 11:00 a.m. on Monday, February 6, 1984, and will be opened at the Commissioners' meeting on February 6, 1984, in the Commissioners' auditorium on the second floor of the Pitt County Office Building, located 1717 West Fifth Street, Greenville, North Carolina, for the purchase of the following:

One (1) new 1984 one-ton truck cab and chassis.

Details and specifications are on file in the office of H.R. Gray, County Manager, and copies of same can be obtained upon request, Monday through Friday, 8:00 a.m. to 5:00 p.m.

No proposal will be considered unless it is accompanied by a bid bond, cash deposit, or certified check on some bank or trust company insured by Federal Deposit Insurance Corporation in an amount not less than five percent of the proposal. Bid bonds for the unsuccessful bidders will be returned as soon as bids are awarded.

The Pitt County Board of Commissioners reserves the right to reject any and all proposals, and waive any informalities in the bidding.

PITT COUNTY BOARD OF COMMISSIONERS

H.R. Gray, County Manager

January 10, 1984

NOTICE TO CREDITORS AND DEBTORS

Foat Sues Woman Whose Query Led To Her Arrest

LOS ANGELES (AP) — Feminist leader Ginny Foat, claiming her privacy was invaded by a probe of her

past that led to her arrest and eventual acquittal on a 1965 murder charge, has filed a \$5 million lawsuit against a

woman who sparked the inquiry.

The Superior Court suit filed Monday alleges that Shelly Mandell, a Los Angeles city employee at the time, and 25 unnamed people committed "invasion of privacy, intentional and negligent infliction of emotional distress and civil conspiracy" against Ms. Foat, former California president of the National Organization for Women.

Ms. Mandell was a member of NOW's national board as well as a member of City Councilman Marvin Braude's staff.

In addition to the \$5 million in punitive damages, the suit seeks at least \$15,000 in general damages to pay Ms. Foat's medical and legal expenses.

"I think that \$5 million just about covers the humiliation that somebody goes through when she spends a weekend in Sybil Brand (Institute, the women's jail in Los Angeles)" said Ms. Foat's at-

torney, Kay Tsenin.

"The stress of the 11 months (in jail) is beginning to show itself. When she (Ms. Foat) doesn't have nightmares, I think it's fine," Ms. Tsenin said Monday in a telephone interview from San Rafael.

Although only Ms. Mandell is named in the suit, more names will be added later, Ms. Tsenin said.

"We have information that leads us to believe that there are other people involved," she said.

After Ms. Mandell wrote to Louisiana authorities to check Ms. Foat's background, Ms. Foat was arrested in Los Angeles on Jan. 11, 1983, in connection with the 1965 tire-iron slaying of Moises Chayo, a 62-year-old Argentine businessman, in New Orleans. Her former husband, John Sidote, had implicated her in the murder. A jury acquitted her last November.

The suit contends that Ms. Mandell knew, or should

have known, that her query "would cause public disclosure of embarrassing private facts" about Ms. Foat and trigger her arrest and trial. Ms. Tsenin discounted any defense based on the hypothesis that Ms. Mandell was reporting a crime.

"Shelly was not reporting a crime," Ms. Tsenin said. "She's known about the situation in Louisiana for several years. She never called up and said, 'I know you've been looking for Ginny Foat and I know where she is.'"

Calls to Ms. Mandell's home phone number were

not answered, but Ms. Mandell had said at the time that her letter to Louisiana officials, written on official city stationery, was "a discreet effort to prevent possible embarrassment" to either Braude or Ms. Foat.

She said she had been thinking of recommending

Ms. Foat to Braude as a nominee for a city agency when she made the inquiry.

She said she was "stunned and alarmed" when her letter apparently triggered Foat's arrest.

Braude said he had asked his staff to recommend names.

SUES OVER INQUIRY — Ginny Foat, right, has filed a \$5 million lawsuit against Shelly Mandell, left, the woman whose inquiry led to Foat's arrest. (AP Laserphoto)

Rocky Mount Costs Are Less

By The Associated Press

Rocky Mount is cheap — to live in, that is — while Chapel Hill is anything but an inexpensive place to reside, according to a survey of the cost of living in cities across the state and nation.

Of the 13 towns and cities surveyed in North Carolina by the American Chamber of Commerce Researchers Association, Rocky Mount registered the lowest cost of living for the third quarter of 1983.

Rocky Mount was also the least expensive place to live of the 230 towns and cities surveyed across the United States, though several others were nearly as low.

Chapel Hill had the highest cost-of-living index in the state, and Raleigh was close to the national average.

The survey is compiled quarterly using information from local chambers of commerce, which measure six categories

of spending: groceries, housing, health care, utilities, transportation and a miscellaneous category that includes leisure spending.

The association assigns a base of 100 points for the national average. A difference of three or fewer points on the index is not statistically significant, the association said.

New York City had the highest overall index rating at 136.3. Among the highest categories on the index in New York was housing, at 150.7, based on the cost of an 1,800-square-foot house and rent on a two-bedroom, 960-square-foot apartment.

New York also had a 212.4 utility rating.

Chapel Hill measured 104.4 overall on the index. Among high costs there were 115.8 for housing and 115.7 for health care.

Rocky Mount registered 88.6 overall, with a 75.9 rating on housing and a 83.7 rating on transportation.
