

If I weren't going to the Int. Ling. Soc.  
meeting in Moscow the last of August '79  
I would go to the Prague meeting. Sorry to  
miss it!

Best wishes. Sincerely,

Walter - Walters

Dear Dr. Abelson,

Key Biscayne Hotel

Thank for your letter of Nov. 20 or 16.

Fla  
Dec. 15, 1970

My photograph of years ago you found at the Key West Naval Hospital was sent there at the time of my 1st visit there when I gave two lectures. Thank you for returning it and sending me your two reprints - Esophageal Colonic Grafts, etc and on Experimental renal graft transplantation - both very interesting. I saw Petrov of Moscow do two of the former on two separate visits to his clinic & saw some of his cases one to three years post op. I also saw Konei Nakayama do one when he was at Chiba (he is now at the Womens Hospital Tokyo).

I havent written my paper as yet for Prof Polak's 70<sup>th</sup> birthday scientific program but will do so after the holidays (I hope). I dont know of any American surgeons who are going so I cant help you re the reading of your paper. Sorry!
