Dear Karel:

Thank you for your note of January 2nd. I, too, feel that it would be quite wonderful for us to be working together. There are problems, however, which remain to be resolved in order for this to come to for wishing. I'm not sure that the financial arrangements which you feel would be desirable are possible within the framework of our N.I.H. grant. I would like to have the opportunity of discussing these problems both with our own hospital administration and the N.I.H. This, however, should take some time and I'm afraid I will have to ask you to be patient until I can complete them. When I have resolved from these problems, I will be in touch with you again.

My best wishes for a pleasant and productive New Year.

Sincerely yours,

*Adrian Kantrowitz, M.D.*
