Dear Dr. Kantrowitz

It was so nice to talk to you in Chicago. I was especially glad to see that we are "related in spirit," as far as the substance of our attitudes toward investigative surgery is concerned. From what you tell me the atmosphere in your hospital appears conducive to investigation; and this after all is the main thing. I am therefore in principle interested in the post you are offering, the details of course could be discussed later on after visiting you in Brooklyn at your convenience.

I am also communicating with Dr. Clarence Dennis, etc. Best regards!

Sincerely

Karel B. Absolon, M.D.
