Dear colleague Doctor Absolon,

I have just been aware of two other works you wrote sometime ago which interested me a lot, both printed in Surgery. The Surgical School of Theodor Billroth and the Surgical School of John Hunter, respectively in 50:697, 1962 and 54:388, 1963.

Having read many articles on these masters and even though having had the opportunity to visit the places where they lived I would be very glad to receive your reprints on these works for my personal collections.

Of course I will be very thankful to you if you will send me other works that I do not know of. Sure I do not need to say that I will be very happy to be of any assistance to you down here in Brasil for anything you might wish to have, especially in this field of medical history.

Thanking you again, I am, with my best wishes,

Very sincerely yours,

Camara-Lopes
