Dear Dr. Conrad-Billroth

Professor Eran Lesky referred me to you concerning the genealogy of Theodor Billroth. I am compiling his biography. I would appreciate any information respecting a copy of a genealogical table, if available. I of course would be interested to receive copies, etc. of any unpublished photographs or documents that you should feel you could provide me with.

Theodor Billroth's genealogical table was published by P. v. Gebhardt "Familiengeschichtliche Blätter, Vol. 27, 1929," but it is not available in the Library of Congress, Washington, D.C. etc.

Many thanks for your considerations!

Sincerely

Karel B. Absolon, M.D.
