Dr. E. Clinton Texter
Medical and Radiosotope Serv.
Veterans Adm. Research Hosp.
Chicago, Ill.

Dear Dr. Texter

In your nice paper in the New York Acad. section annals, you have indicated that Klotz and Duvall in 1957 introduced a new method of proteolytic activity determination using RISA.

I would like to point out to make your bibliography complete that I have described this technique three years before. Surgical Forum Fundam. Problems, Vol. 5, p. 543, 1954. Amer. Coll. Surgeons.

Sincerely

Karel B. Absolon, M.D.
