Dr. D. L. Cook
Div. Chem. Research
G. D. Searly & Co.
Chicago, Ill.

Dear Dr. Cook

In your nice paper in the N.Y. Acad. section you refer to Dr's Klotz and Duvall's paper on RISA proteolytic activity determination in 1957.

For the completeness of your bibliography I would like to point out that I described this technique in 1954. Clin. Forum Fund. Problems, American College of Surgeons, Vol. V, page 543.

Sincerely

Karel B. Absolon, M.D.
