Dear Dr. Lucchesi

Some time ago I had sent to your office a selection of my reprints. As some of them I don't have available anymore, I wonder if you could return them to me at convenience. I assume that you have no use for them.

I hope that Albert Einstein Medical Center is prospering under your precept, how else!

It certainly was nice meeting you and your colleagues in Philadelphia.

Sincerely

Karel B. Absolon, M.D
