

October 18, 1966

Richard A. Watson, M.D  
Washington University  
St. Louis, Missouri 63103

Dear Dr. Watson

My mother will be visiting in the States sometime in December. She expects to stay with my sister in Bermuda through January 1967 and then come to Amarillo. I certainly hope to take her to the Carlsbad Caverns, etc.

I am forwarding your letter to my mother and I certainly think that your suggestion is an excellent one. If by chance she could meet you here in the States, let me know please, as I know that she was most impressed by your work and activities.

Sincerely

Karel B. Absolon, M.D
