Mark Graubard, M.D
Dept. History of Science
University of Minnesota
Minneapolis, Minn.

Dear Mark

I want to thank you very much for your book on respiration and circulation that I again read with pleasure. Both Mary and I enjoyed so much your stay and everyone your lecture!

Since you left I got some good old books Payer's on digestion, the oldest book on the subject, also A. DeLauren's Historia Anatomica with its interesting chapter on motion of the heart. They will be here when you visit next time!

Love to Ann!

Sincerely

Karel B. Absolon, M.D
