Dear Brad:

The tour through your hospital was magnificent. What a grand facility. Do not hold it against me that I was envious. I am truly happy for you.

The excellent Mexican Dinner I felt through to Big Bend, but it left a most pleasant aftertaste of a life-sized Margarita.

I will appreciate your advice when I start building in Dallas; I know I can trust your judgment. Your laboratories, lecture rooms, etc., etc. are so well organized, I know that you will succeed, despite all the luxurious marble and carpeting.

Love from all of us.

Sincerely,
