

Dear Karel -

2/11/69

Please pardon the informality. I have developed a second list of readings which has some material of surgical interest. I hope my attempts to build up a binding fund have not led to unrealistic prices on these items. You know me well enough to tell me if this is the case, particularly if there is anything of interest to you.

I am sending the list to about a dozen people who expressed an interest after the first list was received.

Regards to you + Mary

P.S. I checked a couple of goodies!

Sincerely

Pete Oldh
