Dr. Karl Absolon
1523 Crockett
Amarillo, Texas

Dear Karl:

I am forwarding to you a short curriculum vitae of Dr. Dancev which I received from Mrs. Milada Smetacek, 5631 Massachusetts Avenue, N.W., Washington, D.C. 20016.

We already helped three doctors from CSR to find suitable positions. With this request I am trying to engage you in our activities which reach far beyond the medical profession. Could you help?

Thank you for your cooperation, kisses to dear Mary and children. Long live Austrian-Hungarian Empire. I am missing our stimulating discussions and your "always" best wine - what was the name of that red wine, french, I believe.

With friendly "NAZDAR",

Ladislav

Enclosure

Dear Ladislav: many thanks for
our note.
Hoffmeister would be the right man to turn
to with his interest in plastic surgery. I am
trying to place a fellow over here in surgery,
commander of 15,000, chief of surgery (income ca \$50,000
a year), but he probably would not be interested with
his experimental surgical background.

I hope you had run the Austro-Hungarian
flag at the occasion of the tragic events in
Czechoslovakia.

We still use the same wine (Chateau-Nicof
du Pape). ~~For~~ I knew that you appreciate it, as
it was the summer home of the Avignon anti-
pope.

My mother is here now, we expect to take
her to Mexico City and the Toluca Peninsula.
Do visit us sometimes.

Love to Zdenka and all the little
Zdenkas.

CURRICULUM VITAE

file

Dr. Ilja Dimitrov Dancev Ph. D. Med.

Born 12th October 1925 in Sofia, Bulgaria (Bulgarian citizen) - founded family in Czechoslovakia with Czechoslovakian subject.

Graduated with distinction from Charles University, School of Medicine, Prague, Czechoslovakia in 1951.

Has worked in surgery for over 17 years.

Has attained highest possible Czechoslovakian grade in surgery.

Successfully defended a scientific dissertation in surgery and attained the degree of Ph.D. in the medical sciences.

Went through the following surgical training:

In abdominal surgery and abdominal reconstructive surgery, thoracic surgery, cardiovascular surgery, maxillofacial surgery, plastic surgery, urological reconstructive surgery, orthopedic and traumatic surgery, surgery of burns, cosmetic surgery and pediatric surgery.

Has worked at the following clinics:

1. Neurosurgical Clinic of Prof. Pavrovsky.
2. Military Medical Postgraduate School, Hradec Kralové, Prof. Prochazka.
3. Experimental Surgical Clinic of the Academy of Science Academician Malek
4. Plastic and Reconstructive Surgery, including surgery of burns, Clinic of Academician Burian.
5. Second Surgical Clinic, Charles University, Prague, Prof. Lhotka.

Published 27 scientific papers - 10 more forthcoming - concerning his own original surgical work. Part of these were published in Britain, Czechoslovakia, Bulgaria and the Soviet Union.

Took part in 18 international scientific surgical congresses, where he read papers on his results in plastic reconstructive surgery.
