Dear Karel:

Enclosed is the manuscript for the first part of your Billroth bibliography.

I found it facinating and look forward to the next part. I also look forward to the reprint of the translation. I learned alot that I did not know before and have gained a few insights into what made old Billroth tick.

With best regards,

Sincerely yours,

*Bill*

Enclosure

*Dear Bill:*

*I hope I did not bore you too much. Enclosed is a copy of a short essay that I had to do on Albert Billroth. I had to write it on a moments notice for the Soc. of Arts and Sciences, therefore excuse its defects. Do not send it back, just throw it away. I hope to rewrite it in some apachronistic form one day for publication in Surgery, but I thought you may want the information.*
